Davenport, Iowa.

# Screens that last

**Made of White Pine Mortised and Tenoned**  
Gordon-Van Tine screens are made of the very best grade of Western White Pine, specially kiln-dried. This wood has wonderful weather-resisting qualities. Every joint is mortised and tenoned then fastened securely with a steel pin.

**14-Mesh Galvanized Wire**  
ONLY the very best obtainable galvanized wire is used. It is coated with a coat of spelter by electrolysis—not dipping, giving a rust-resisting screen that gives long service. It is applied on special benches which stretch it tightly and evenly. The result is a rigid, staunch screen that will last indefinitely with reasonable care. Screens come "in the white" so you may paint them any color you desire.

Used at every joint on all our screen. Such screens do not sag or loosen up.

## Interchangeable Screen and Storm Window Hangers

Use them the year around. To change from screen to storm sash simply push screens out and lift up slightly and hang storm sash. It takes only a minute. Made of wrought Japan polished steel. Size 2x2 1/4 in. Guaranteed to hold screens and storm sash firmly in place. No rattle or danger of being blown off.

To avoid changing the hangers from screen to storm sash order an extra pair of half hangers, same hook will, of course, do for both.

- 3R2069. Per set, complete with screws. . . . . 8c
- 3R2070. Price per extra pair lower half hangers. . . . . 5c

## Interchangeable Storm and Screen Door

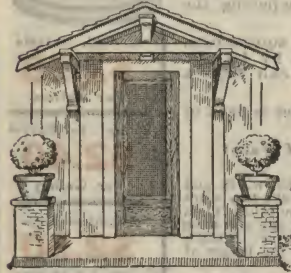

Changes from storm to screen door in an instant, without the aid of tools. Simply lift out one panel and insert the other. Not necessary to take door off its hinges. Made in our own factories of clear white pine.

14 mesh galvanized screen wire used—a finer screen than the usual 12 mesh.

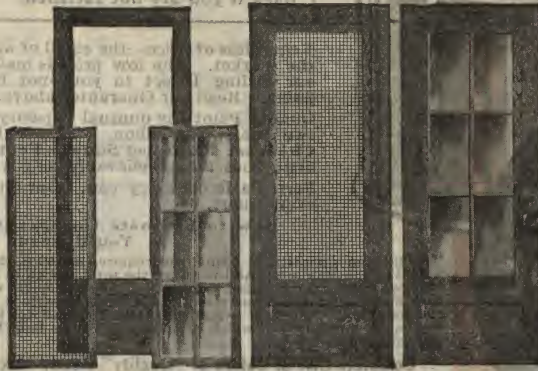

This unique door really gives you two doors at the price of one. Not painted or varnished.

A Screen Door in Summer

A Storm Door in Winter

## Our Screen Doors Are Great Values

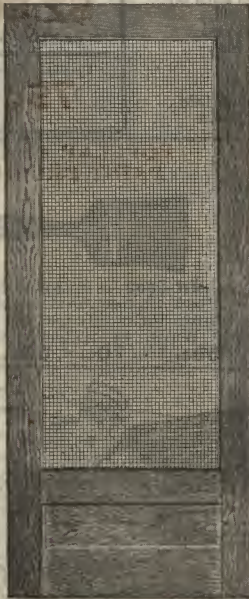

The screen doors shown on this page are made in our own factory under our own strict supervision by workmen with years of experience. We build screen doors with the knowledge that they must wear better and last longer than the ordinary kind, and they do.

Only the finest clear white pine without a knot is used in these screen doors. It is all thoroughly kiln-dried and yard seasoned. The extra heavy side supporting rails and stiles are put together with mortises and tenon joints, glued and blind-nailed. This gives you a door that will stand up under the hard usage a screen door always gets. They are 1 1/8 inches thick compared to 3/8 inches for the ordinary kind. These screen doors will not shrink, warp or check when properly varnished or painted.

### SCREENING THAT WITHSTANDS WEATHER

Highest quality galvanized screen wire is used. It is electroplated with a coating of spelter that insures years of service and satisfaction. This is very much superior to ordinary galvanized wire. Special "Screen Tables" used in putting on wire, make it "tight as a drum." Our screen wire is 14-mesh; the average but 12-mesh.

If you need screen doors, order right from this page with perfect confidence—if it isn't satisfactory your money will be promptly refunded.

### WHITE PINE

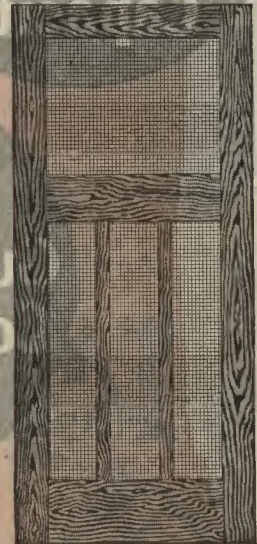

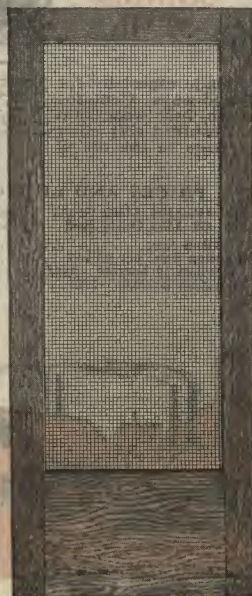

Made of Best Western White Pine. Not varnished. Furnished in 14-Mesh Galvanized Wire Cloth. 1 1/8 inches thick. Side rails 3/4 inches wide.

## QUALITY HOUSE PAINT

### OUR GUARANTEE

We guarantee Gordon-Van Tine "Quality" House Paint to be the equal of any Ready Mixed Paint on the market. Your Money Back if you are not satisfied.

Regardless of price—the equal of any Mixed Paint on the market. The low price is made possible only by our Selling Direct to you—not by cheapening the paint. Read our Guarantee above.

Quality Paint has unusual capacity—300 square feet, two coats, per gallon. This makes it by far the **Cheapest Paint per Square Foot** you can buy—a little goes an unbelievably long ways.

Formula is on every can. Our Guarantee is back of every quart.

### How to Estimate the Quantity of Paint You'll Need

To find the quantity of paint you require, measure the length, width and height of the building. Add together the total length in feet of the two sides and two ends of the building. Multiply this by the height of the building. Then divide the number of square feet of the building surface by 300 and you have the number of gallons of "Quality" paint required for the building. If there is a gable, multiply the width of the gable at the base by half the height of the gable.

### Color Varnish Brightens Your Home

Renew your old furniture, interior floors, woodwork, with a very small investment of time and expense. You can easily do this work yourself and you'll enjoy it, too.

If you want to refinish or renew old work, and desire a lighter shade, apply a coat of ground color, and then a coat of the shade desired. On old work, sandpaper loose paint or stains, and then apply a coat of varnish stain.

Easily applied, dries quickly, with a rich, permanent lustre.

Per Gallon	Per Quart	Per Pint
\$2.40	72c	43c

### GORDON FLOOR VARNISH

A good, tough, elastic Floor Varnish which will give you splendid results. Dries with a high gloss over night. On new wood, on Pine or Maple, thin the first coat with 10% Pure Spirits of Turpentine or Substitute Turpentine, balance coats as it comes from can. On new Oak Floors, first fill with shade desired of Floor Paste Filler then proceed as on Pine or Maple. If floors have been previously varnished, sandpaper till perfectly smooth before applying varnish.

### TWO SUPER-FINE VARNISHES

A very high grade Fine Interior Varnish, recommended for all kinds of interior finishing (except floors) and finest grades of work. Is pale in color, easy working and free flowing and good body. Is a prime favorite with the master painter. Dries dust free in two hours, hard in 24 hours and ready to rub in 36 to 48 hours. No better varnish can be made for fine interior work.

### INTERIOR VARNISH

### Architectural White Enamel

For Interior Woodwork, Etc. The highest grade Interior Enamel specially prepared for finishing woodwork, such as doors, casings, mouldings, bathrooms, etc. "Quality" Architectural Enamel is scientifically prepared to meet the demand for a permanent high grade finish and is not to be compared to the many cheap interior enamels on the market. This Enamel requires an undercoating or primer to give proper results. See Undercoating quoted below. Fine White Enamel. No 4R-6001. One-quarter Pint cans, 16c. One-half Pint cans, 29c. Pint cans, 52c. Quart cans, 95c. Gallon cans, \$3.44. Enamel Undercoating In order to obtain the best results in enameling, use this White Undercoating. This is a flat white. No. 4R-6003. White Undercoating. Quarts, 70c. Gallons, \$2.40.

### QUALITY UNIVERSAL VARNISH

A general purpose varnish. For inside or outside use. Tough and durable and dries with a hard, glossy surface. In most cases we would recommend using our special purpose varnishes, which are each made for one particular purpose. The Universal Varnish does good work, however, and is satisfactory for the average job. Its utility makes it an economical proposition, as none of it ever goes to waste.

4R-5206

# Windows, Frames and Screens

## AT WHOLESALE PRICES

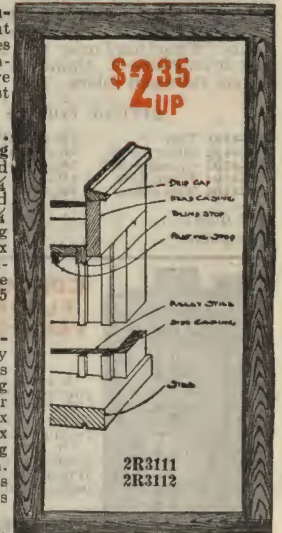

Order Windows, Frames and Screens right from this page and get them in the highest quality money can buy, at manufacturers' prices. These check rail windows are made in our factory of selected Western White Pine, scientifically kiln dried and primed with linseed oil so they can be used for oil finish work or painted. Well glazed by skilled workmen. 1 1/2 inches thick. We guarantee safe delivery.

Screens are of equally high quality. They are 1 1/2 inches thick, mortised and tenoned and will never warp, check or rot. Are 1 inch longer than window openings. Screened with 14-mesh galvanized wire having a zinc coating applied by electrolysis.

Colonial and Pasadena sash are widely used. They modernize any home. They are check rail windows 1 1/2 inches thick. Size marked with star are carried in stock ready for immediate shipment.

### PLAIN CAP WINDOW FRAMES

These frames are completely machined. Put together in a few minutes with no tool but a hammer. Builders everywhere say our frames are the best they have ever used.

**SPECIFICATION.**  
**2R3111. Outside Casing** 1 1/2 in. Pulley Stiles and Head Jambes 1 1/2 x 5 1/2 in. plowed for parting and blind stops. Sill 1 1/2 x 7 1/4 inches. Outside Casing 1 1/2 x 1 1/2 in. Drip Cap 1 1/2 x 1 1/2 in. See sketch. Double or Twin Frames are double the price plus 35 cents.

**2R3112. Outside Casing.** 1 1/2 in. Pulley Stiles and Head Jambes 1 1/2 x 5 1/2 in. including Blind Stop plowed for parting Stop. Sill 1 1/2 x 7 1/4 in. Drip Cap 1 1/2 x 1 1/2 in. Outside casing 1 1/2 x 1 1/2 in. See sketch. Double or Twin Frames are double the price plus 35 cents.

# Fine Front and Interior Doors and Frames

**PRICED FAR BELOW THE AVERAGE RETAIL MARKET**

The doors shown below are the finest experienced workmen and modern machinery can produce.

The White Pine and Fir Doors are made of the very best material obtainable—air seasoned and kiln dried. There is not a blemish or a knot of any kind to mar the finish. Each door is glued with a special glue, pressed together by steam power, and then carefully sandpapered. The result is a handsome, substantial and well finished door. The beautiful natural grain of these doors, coupled with the low prices, make them doubly attractive.

All our Veneered Oak Doors are built up of a core made of

separate pieces dovetailed together and having grain turned in different directions so that warping is impossible. The veneer is then applied under hydraulic pressure. The handsome grain of the finished Oak Door gives a most pleasing effect. At the wholesale prices below each one is a distinct bargain.

Doors shown on this page are glazed with heavy, French beveled plate, or double strength clear glass, as indicated in price column.

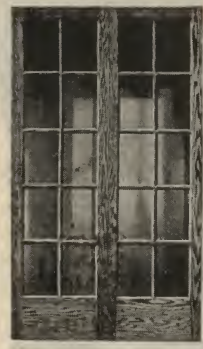

We guarantee safe delivery and absolute satisfaction on any door purchased or will refund your money and freight both ways.

**We highly recommend** our 2 Fir Panel White Pine Stiles and Rails Door, No. 2R1623. You get absolute assurance against the White Pine frame cracking or splitting. Fir panels are the handsomest of all soft woods. The price is unusually low. This door is a great value.

**Special Size Doors:** If you need a door of size not listed, add one-half to price of next larger stock size of same style and kind of wood. Write for prices on sizes over 3 feet wide and 7 feet high. Specials require two weeks for shipment.

## French Doors

White Pine or Red Oak  
1 1/4 Inches Thick

French doors opening on to porch or veranda add greatly to the beauty and comfort of the home. They are being included in plans drawn by high-priced architects. If you are planning a new home you could spend the small amount required in no better way than including a pair of these handsome French doors.

The doors come in four sizes shown and are glazed with clear double strength glass or best polished plate glass.

## COMPLETE DOOR FRAMES—READY TO SET UP

Plain Cap Door Frames

**\$4.15**

All Outside Door Frames are rabbeted for doors 1 3/4 in. thick unless otherwise specified. If you want frames rabbeted for 1 1/4 in. doors be sure and specify this on your order and we will furnish them without extra charge.

3/4 in. and 1 1/2 in. Outside Casings

Our frames are completely and accurately machined, banded so inside is kept bright and clean, and securely bound with band iron. They can be set up in a few minutes without any sawing, because the parts fit.

We carry Moulded Cap Door Frames and Plank Door Frames for brick or masonry walls. Write for prices.

**PLAIN CAP DOOR FRAMES**

Door frames are carried in stock in sizes listed below. For smaller or intermediate sizes we ship next largest size, and jambs can be cut down and dadoed. All frames are shipped knocked down, one complete frame to a bundle consisting of side and head jambs, sill, outside casing and drip cap.

**SPECIFICATIONS**

13/16 in. Outside Casing—Jambs, 1 3/4 x 1 1/4 in.; rabbeted, 1 1/2 x 1 1/2 in.; sill, 1 1/2 x 7 1/4 in.; outside casing, 13/16 x 4 1/2 in.; drip cap, 13/16 x 1 1/4 in.

1 1/4 in. Outside Casing—Jambs, 1 3/4 x 5 1/4 in.; rabbeted, 1 1/2 x 1 1/2 in.; sill, 1 1/2 x 7 1/4 in.; outside casing, 1 1/4 x 4 1/2 in.; drip cap, 1 1/4 x 1 1/4 in.

These frames made to receive 1 1/2 in. storm or screen doors. These frames made for 2x4 sized studding.

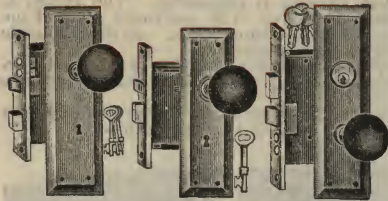

Inside Frames or Jambs

Come in Yellow Pine, Fir and Plain Red Oak. Jambs are 3/4 x 5 1/2 in., with side jambs dadoed for head. Prices do not include stops. You can save money and avoid delay by using regular sizes wherever possible. Special sizes mean increased expense and require from two to three weeks.

Price each \$0.01 1/2 \$0.01 1/2  
Price per hundred 1.35 1.35  
Weight per hundred 12 lbs. 13 lbs.

# GORDON INDOOR CLOSET

## WHICH DO YOU PREFER?

Eliminate the outdoor closet—it's a cold, inconvenient place in winter, a hot, ill-smelling nuisance in summer and a menace to health the year 'round. Install right in your house a modern, sanitary indoor chemical closet, recommended by physicians and health officers.

There is nothing displeasing about it. It is handsome in appearance, and remember it is absolutely odorless. Sold under an iron clad guarantee.

## HOW IT WORKS

Two gallons of water are placed in the inner container with a pint of chemical. When used the closet is absolutely odorless. The vent pipe insures pure air. The chemical kills all germs. The contents are emptied, say

once a month, and should be buried or used as fertilizer.

## THE CHEMICAL

A gallon of chemical will last a family of three for eight months. It will not freeze at normal temperature and a little common salt will keep it from freezing at all times. Price of additional chemical \$1.75 per gallon. We guarantee the success of the closet when this chemical is used.

With the closet we furnish 6 ft. of pipe, elbow, wall collar, toilet paper, paper holder and one gallon of chemical. Shipping weight 50 lbs., 3 in. pipe enamel finished in 15-inch lengths.

3R3801—Price of closet complete..... **\$6.40**

# \$13<sup>37</sup> Floors a Room 10x14 With Oak

## Oak Flooring

Oak flooring will do more to enhance the value and beauty of your home than any improvement or addition you could make. It will be a source of home enjoyment and pleasure, minimizing housework. Small rugs can be used instead of a heavy, expensive and unsightly carpet.

This oak flooring has passed most minute inspection. The face sides are free from imperfections and matching has been accurate. It is a perfect flooring in every detail.

### Thick Oak Flooring

This beautiful flooring is machine smoothed, tongue-and-grooved, end matched and bundled. Comes bundled in random lengths from 1 1/2 to 12 ft., end matched. Weighs 2000 lbs. per 1000 feet. Shipped from Davenport, Ohio or Arkansas Mills, whichever is nearest. Fully guaranteed.

Thickness 13/16 in. Size of face 2 1/4 in.

#### Prices subject to Market Changes

Catalogue No.	Kind of Oak	Grade	Price Per 1000 Ft.
2R8955	Plain Red Oak	Clear	\$124.50
2R8957	Plain Red Oak	Select	112.50

### Thin Oak Flooring

Widely used in remodeling old homes. It is not necessary to take up the old floor—just lay this beautiful thin oak flooring right over it. The floor will be noise-proof and warm. It is very easy to lay, a carpenter or handy man can easily do the job.

This flooring can be used in a new home. Thin oak flooring is 3/4 inches thick by 1 1/2 inches wide, comes in lengths from 1 1/2 to 12 ft., end matched. Weighs 1000 pounds per 1000 feet, board measure. Price per 1000 feet, board measure, random lengths.

2R8961	Quart'd Red Oak	Clear	125.00
2R8971	Q't'd White Oak	Clear	135.00

### Yellow Pine Flooring

Yellow Pine Flooring is carried in two kinds, "B and Better Edge Grain" and "B and Better Flat Grain." Both kinds are clear and free from defects. Edge Grain is quarter-sawn and will last longer than Flat Grained. Both Edge and Flat Grain in one thickness and in random lengths of 6 to 16 feet.

Price, 13/16x3 1/4 inch. Clear Edge Grain, per 1000 feet board measure.....	\$100.00
Price, 13/16x3 1/4 inch. Flat Grain, per 1000 feet board measure.....	73.00

## Maple Flooring

Maple is a dense, hard wood and takes a very high polish. It has a straight grain and the light, fine color makes it particularly attractive in the bedroom or bathroom. It is also used extensively for kitchen floors. Costs less than oak flooring of same size and will last just as long.

Maple flooring is carried in two grades—namely, clear maple 13/16 inches thick by 2 1/4 inches wide, which is the finest grade obtainable. Select maple is one grade below clear. Is suitable for store-buildings and kitchen floors. It is 13/16 inches thick by 2 1/4 inches wide, and comes in random lengths of from 1 1/2 to 16 feet. Weighs 2000 lbs. per 1000 feet. Carefully bundled, end matched.

	Per 1000 ft.
2R8989 Clear Maple Flooring, 3/4 x 1 1/2 in.....	\$ 89.00
2R8987 Select Maple Flooring, 13/16x2 1/4 in.....	109.50
2R8985 Clear Maple Flooring, 13/16x2 1/4 in.....	122.70

### How to Figure Quantity of Hardwood Flooring You Need

To arrive at the quantity of flooring required for a given space, figure the number of square feet, which means the width multiplied by the length. For instance a room 12 ft. wide 15 ft. long would contain 12 times 15, or 180 sq. ft. To the number of sq. ft. add one-third for loss in cutting and waste in matching and dressing; 180 sq. ft. plus one-third or 60 ft. would equal 240 ft. board measure count. This flooring is made from boards 3 in. wide, but after having passed through the machines for matching and dressing, actually measure only 2 1/4 in. face, and this is the reason why the waste (equal to one-third of the square footage) must be added to the actual sq. ft. of space. Therefore if Oak Flooring is desired the 240-foot board measure at \$71.50 per thousand feet will cost \$17.16.

### Fir Flooring

Fir Flooring is carried in 13/16 inch thickness only and is strictly first quality. Fir Flooring is an ideal covering for porch floors, kitchens, and rooms where hardwood flooring is not desired. Our Fir Flooring is Edge Grain and will give longer service than ordinary Fir Flooring. Fir Flooring is 3 1/4 inch face and comes in random lengths of 6 to 16 feet.

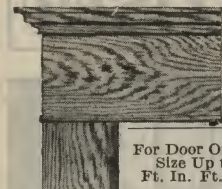

Price per 1000 feet board measure..... \$79.00

**IMPORTANT NOTE:** In ordering Yellow Pine and Fir flooring be sure to allow 1/4 for waste in cutting and laying and difference in width as this flooring is figured as 4 inches wide. Yellow Pine flooring weighs 2000 pounds per 1000 feet. Fir flooring 13/16 inches thick, weighs 2000 pounds per 1000 feet.

# Lumber at Wholesale

**SAVES YOU \$100 TO \$200 PER CAR**

Our immense volume of business enables us to sell you lumber at rock bottom, wholesale prices. We quote a partial list only below to give you an idea of our low prices. We will gladly figure freight to your town. Be sure and get our prices freight paid to your station before you buy anywhere. Read the following carefully.

**TERRITORY.**—If you live in Northern Wisconsin, Minnesota, North or South Dakota, Kansas or Nebraska, or anywhere west of these states, order from the Coast Price Column. We will ship you our beautiful Fir lumber from our Washington mill. All other states order from St. Louis list, and we will ship strong, long leaf, yellow pine from St. Louis or our Mississippi mill, whichever is closer, thus insuring you the lowest possible delivered price.

**CARLOAD WEIGHTS AND FREIGHT.**—Be careful that you order from the right list. Our lists of states are so arranged as to give you the lowest possible freight rates from our three mills and we want you to profit to the fullest extent on our unusually low prices.

Minimum weight from St. Louis is 34,000 lbs. or about 14,000 ft.; minimum weight from the Coast is 38,000 lbs. or about 15,000 ft. If you live in a western state, fill up your car with our Ax Split, Old Growth Red Cedar Posts. These posts are only shipped from our Washington mill.

**PRICES.**—These prices are for carloads or less F.O.B. St. Louis, Mo., Hattiesburg, Miss., or Chehalis, Wash. We can ship in any quantity in the States of Iowa, Illinois and Missouri from St. Louis. If you live outside of these states you must order a carload. Your savings are greater if you order a carload on account of the lower freight rate. Send all bills to figure to Davenport.

Traffic experts and highly skilled operators of accounting machines enables us to make you a price *delivered to your station* promptly.

**If You Want to Save Money**

**Send Us Your Bills**

# Strong, Good Looking, Garage Doors

## All-Purpose Double Garage Doors

Whether you are building a new Garage or whether you are remodeling an old building to use as a Garage, these doors are what you need. They are suitable for single doors on barns, shops and outbuildings, or as double doors on these same buildings if desired.

### Made to Last

Very carefully constructed of best White Pine or Spruce. Stiles and rails are clear, panels are No. 1 clear on one

side. Have extra heavy construction and are strong and substantial in every way.

Panels are made from 3/4 in. matched stock; every joint is perfect. Rabbeted edges can be planed off and not spoil the appearance. These are furnished unpainted "in the white," and can be finished to match the building.

Price per pair, **\$19.90** Price per single door, **\$10.25**

2R1805—Each door is 4x8 feet—opening 8x8 feet. Thickness 1 3/4 inches. Good quality clear glass 8 lights in each door as shown. Shipping weight each door 90 lbs.

## Garage Door Hardware Set Complete

Garage Hinged Door Set contains complete hardware for swinging doors. Extra heavy tee hinges with reversed pads to permit application to jamb.

Set includes:  
3 pairs 10 inch extra heavy japanned tee hinges with reversed pad.  
1 chain bolt, 6 inch japanned steel with 3 staples.

1 foot bolt, 6 inch japanned steel.

1 thumb latch, japanned steel.

1 handle or pull, japanned steel.

1 Set is packed in neat attractive box and is complete with screws. Weight per set, 20 pounds

3R3501—Garage Set, complete, **\$3.25**

## Triple Folding Garage Door

These open on the inside and folding up tightly leave practically the full opening clear. In winter there will be no snow to shovel to get your doors open when you want your car.

### Excellent Construction—Best Quality Material

Made extra strong with heavy mortise and tenon construction.

These doors are constructed of Clear White Pine or Spruce, free from knots and all defects, and glazed with clear window glass. Glass is set in a wood bead carefully back puttled. Doors are in the white—not painted. Carefully crated for shipment.

Made to fit opening 8 ft. wide by 8 ft. high, three doors to an opening—each door 2 ft. 8 in. wide by 8 ft. high, 1 3/4 in. thick, three upright panels, six lights.

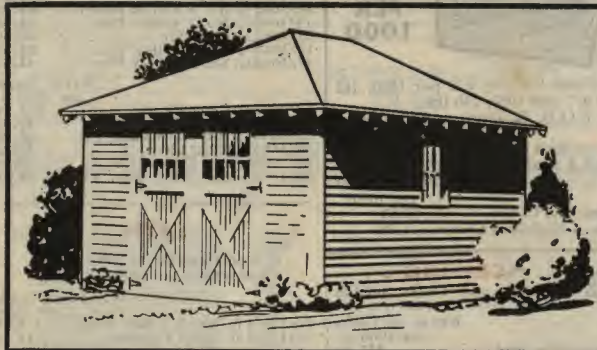

NOTE—Garage should be at least 3 ft. longer than car when these doors are used.

2R1805—Price, three Doors without Hardware, **\$27.69**  
Single Doors, each, **9.50**

### Complete Set of Hardware for Door No. 2R1805

Consisting of one adjustable bracket; one anti-friction adjustable swivel hanger; two door handles; 4 1/2 pair butts; one end bracket; one 6-inch steel chain bolt; one 6-inch steel foot bolt; one hinge hasp; and 6 feet of track.

3R4935—Per Set Complete, **\$7.45**

# Blackhawk Wallboard Ideal for Use in New or Old Buildings

Blackhawk wallboard is a high grade four-ply wood pulp board of exceptional strength and density. This board is made from the shredded fibre of spruce logs into strong, substantial panels three-sixteenths of an inch thick; four feet wide and six, seven, eight, nine, ten and twelve feet long.

### Thoroughly Waterproofed

Blackhawk Wallboard is thoroughly waterproofed. A water resisting compound is mixed with it while still a pulp and after being rolled into sheets the surface is treated with a gum and oil sizing which gives it excellent water resistance.

### A Wonderful Surface

The natural surface of Blackhawk Wallboard is a pleasing cream color which requires no paint for some uses. This surface takes paint particularly well and the lighter tints applied to it when used for the interior walls of a home will give beautiful results.

Ideal for lining cellars, attics, garages, camp cottages and farm buildings.

Sample Sent on Request

Wallboard is being used all over America for almost every kind and class of buildings. It is easy to apply. It is very suitable for use in new construction because of its quick application independent of weather conditions and the entire absence of the muss and dirt that comes with plastering. In many instances Wallboard is better and cheaper than lath and plaster. In most instances it will do the work just as well.

Most attractive effects can be obtained through its use in panels in dining room and living room. The variety of artistic treatments make it a favorite for bed room use. Its vermin and damp proof qualities make it popular for kitchen use.

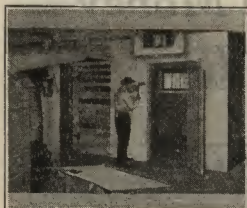

### PRICES—"BLACKHAWK" WALLBOARD

Shipped from Davenport or Cincinnati

# Two Big Bargains

## Tufkote Roofing \$2<sup>35</sup> Per Roll

**Tough—Flexible—Smooth Surfaced Roofing**  
**GUARANTEED 15 YEARS**

Tufkote Asphalt Roofing is made of strong, tough, long roofing fibre felt and into this is forced, under friction, high test mineral asphalt. Every roll bears the Underwriters' label. We unhesitatingly recommend it as the best smooth-surfaced asphalt roofing that we know of.

Tufkote Roofing will not melt in hot weather nor crack in cold. It is elastic and pliable.

### **FIRE RESISTANT**

The asphalt is a lasting preservative and makes the roofing both weather proof and fire resisting. Sparks may fall on the roof and there is practically no danger of its being set on fire.

### **LONG WEARING**

It is a proven fact that the best grade of Tufkote Roofing will outwear wood shingles, tar or steel roofing. If the roof of an old building is leaky it will be cheaper and better to cover it with Tufkote Roofing. Kindly specify if you are going to relay over old roofing, because longer nails will be needed.

This roofing weighs full 55 pounds to the roll, is fully guaranteed and we will refund money for every year it falls short of specified time. You cannot make a better buy. The price is remarkably low.

The freight charges are very small. We will ship the roofing from our nearest warehouse, reducing freight charges and insuring prompt delivery.

**Shipped from Davenport, Chicago, Cincinnati,  
Kansas City or factory in New York**

No. 5R2003—Per roll of 108 sq. ft. . . . . \$2.35

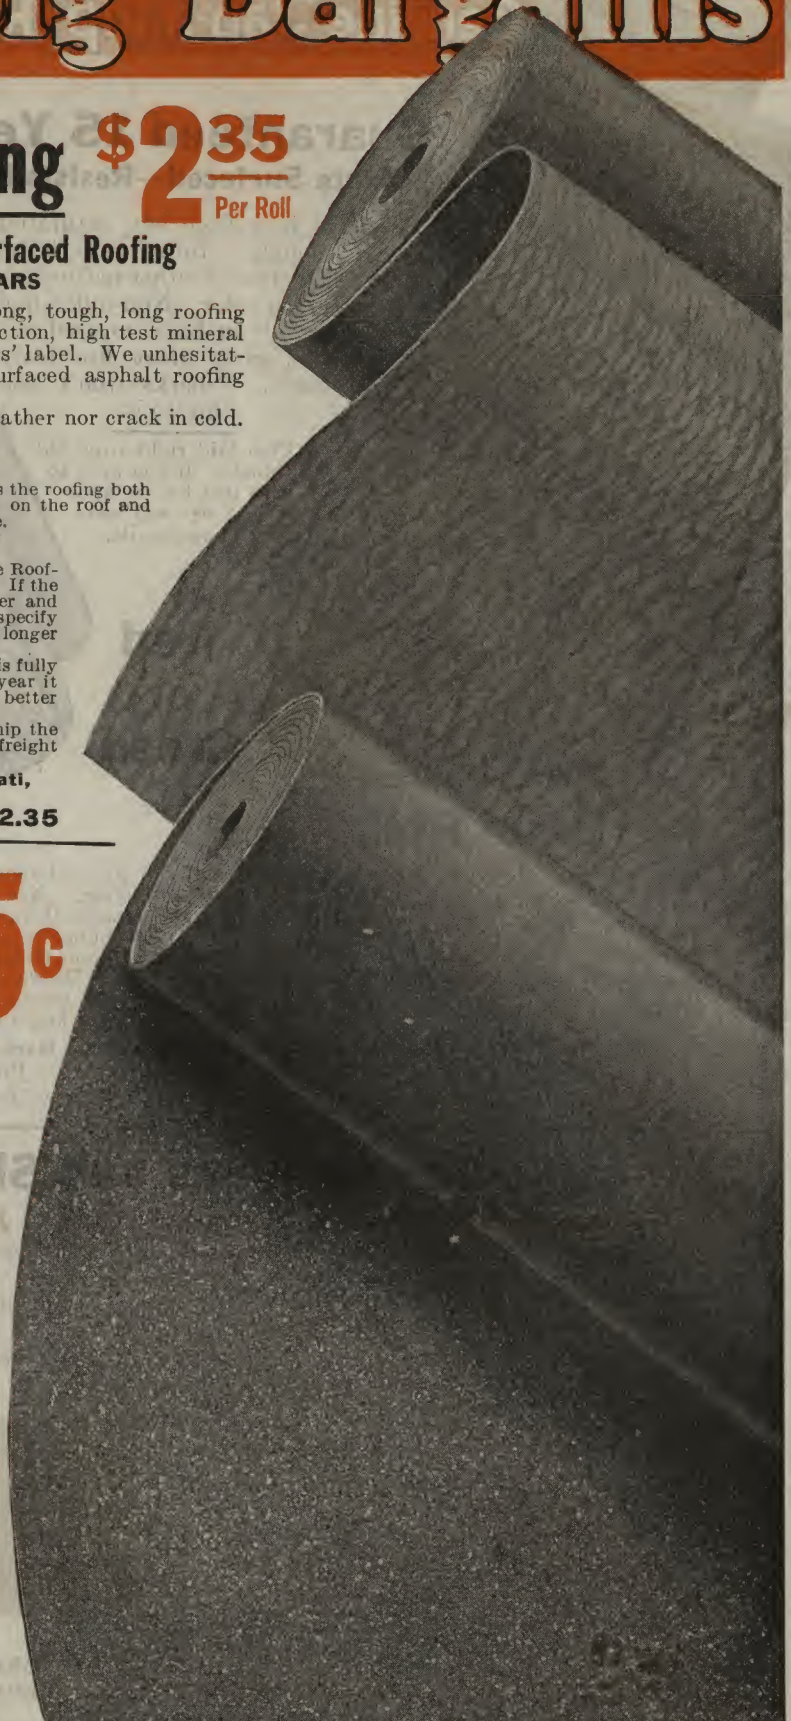

## RIVAL ASPHALT ROOFING 95<sup>c</sup> Per Roll

**Good Value at an  
Exceptionally Low Price**

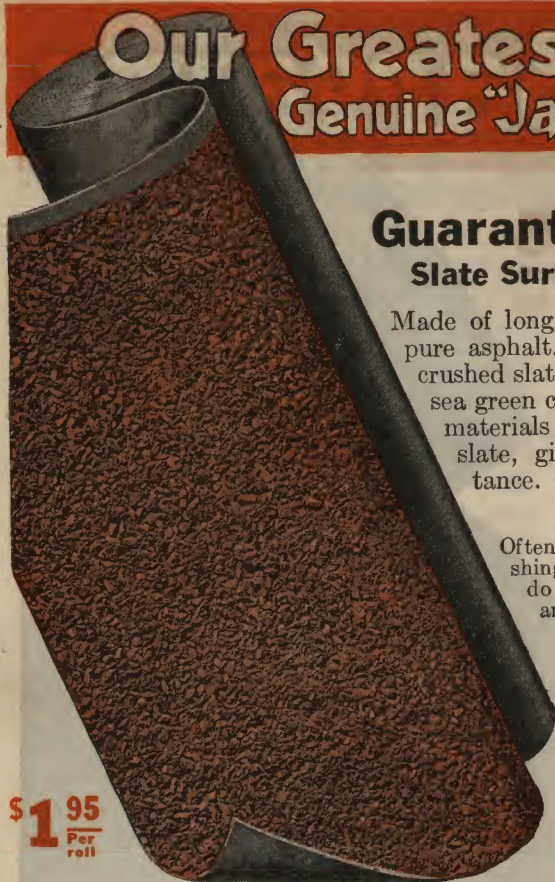

**FOR TEMPORARY BUILDINGS  
AND HOUSE SHEATHING**

RIVAL is our cheapest asphalt roofing. It is made of a fair quality of felt, saturated and coated with asphalt and surfaced on one side with sharp flint sand. We do not recommend this roofing to be used on permanent buildings, as much better results will be obtained from our better grades of roofing. We offer it, however, as a competitive roofing and believe it to be better value than many roofings sold at higher prices.

**No. 5R2021—Rival Asphalt Roofing.** Weight 35 pounds, complete with lap cement and large head polished nails. Per roll of 108 sq. ft. (to cover 100 sq. ft. net). Price, **95c**

# Our Greatest Roofing Value Genuine "Jap-a-Top" Roofing

**\$1.95**  
Per roll

## Guaranteed 15 Years Slate Surfaced—Resists Fire

Made of long fibre felt, saturated with pure asphalt. Into this is imbedded crushed slate of either natural red or sea green color. Non-inflammable materials in base, covered with slate, gives great fire resistance. Sparks won't set fire to it.

Often laid right over old shingles. If you want to do this let us know and we will send longer nails.

**Red  
or  
Green**

**\$3.15**  
Per roll

### Plain Roll

Plain design as shown above weighing 85 lbs. to the roll of 108 sq. ft. Non-conductor of heat and cold. Colors are permanent—will not fade—not affected by sun or rain. Easy to apply. We furnish nails and cement. Carries Fire Underwriters' Label.

5R2059—Dark Red                      5R2065—Sea Green  
Price per roll of 108 sq. ft., \$1.95

Shipped from Davenport, Chicago, Cincinnati, Kansas City or factory in New York.

### Shingle Roll

Has a shingle design as shown above deeply stamped into roofing. Not painted—will not wash off. Looks like shingles themselves—from a short distance the difference would not be noted.

Weights 90 lbs. to the roll—a little more than a plain roll. Colors absolutely fast—will not fade or run. Easily applied. Each roll contains 108 sq. ft. We furnish nails and cement. Carries Fire Underwriters' Label.

5R3009—Dark Red                      5R3011—Dark Green  
Price per roll of 108 sq. ft., \$3.15

Shipped from Davenport, Chicago, or Cincinnati.

## Jap-a-Top Shingles and Slab Shingles

### Jap-a-Top Shingles

Jap-a-Top individual shingles (shown below) are made of the same material as our Roll Roofing, but are stiffer and thicker because of more coatings of asphalt and slightly heavier materials.

Shingles are 8x12 $\frac{1}{4}$  inches each. Laid  $\frac{1}{2}$ -inch apart, 4 inches to the weather, which gives three thicknesses of the shingle. Square contains 424 shingles which will cover 100 sq. ft. of roof surface. Do not turn black nor crack with age. Out wear wood shingles many times. Comply with all fire underwriters' requirements.

5R3001—Dark Red  
5R3005—Gray Green.  
Per square, \$5.55.

Shingles and slab shingles shipped from Davenport, Chicago, Cincinnati, Kansas City, St. Louis, Western New York and New Jersey.

**\$5.55**  
Per square

### Jap-a-Top Slab Shingles

Slab or multiple shingles are same material as other Jap-a-Top roofing. Look just like individual shingles when laid but come in strips of 4 to save time in laying. Slab is 10x32 inches. Laid 4 inches to weather. Square contains 112 slabs and covers 100 square feet net.

5R3013—Dark Red  
5R3015—Sea Green

**\$5.95**  
Per square
