OKK Series Base and Roof Sets

Application

Each set provides the base and roof for one OKK Series enclosure.

Requires the following compatible components for a completed OKK Series enclosure:

- · Vertical frame rail set
- Exterior side panels
- Door
- Exterior rear panel or additional door
- Subpanel

Features

- Bases have removable flanges for easy cable and wire entry.
- Roof bolts can be replaced with eyebolts (GLF812-K4 for enclosure lifting.
- Base is compatible with OKK Series Plinth Kits for cable ingress and management.
- Vertical rails are connected with included hardware.

*Assembly requires a T30 bit.

Material and Finish

- Sendzimir galvanized frame rails
- · Zamak corner joints
- Exterior portions are RAL7035 light gray textured powder coat finish

Listings

- Fully-assembled OKK Series Enclosures are rated as follows:
- UL 508a Type 12 [UL File E503249]
- CSA Type 12 [CSA File 115232]
- Complies with
- NEMA Type 12
- IEC EN60529 IP55

OKK Series Enclosure Rails

Application

Each set provides the vertical structure for one OKK Series enclosure.

Requires the following compatible components for a completed OKK Series enclosure:

- Base and roof set
- Exterior side panels
- Door
- Exterior rear panel or additional door
- Subpanel

Features

- · Package includes four rails.
- Pre-punched holes on interior surfaces accept M6 cage nuts and M5 self-threading screws.

Material

• Sendzimir galvanized steel

Listings

- Fully-assembled OKK Series Enclosure is rated:
- UL 508a Type 12 [UL File E503249]
- CSA Type 12 [CSA File 115232]
- Complies with
- NEMA Type 12
- IEC EN60529 IP55

OKK Series Side Exterior Panels

Application

Each exterior panel provides two side exterior surfaces for an OKK Series enclosure.

Requires the following compatible components for a completed OKK Series enclosure:

- Base and roof set
- · Vertical frame rail set
- Door
- Exterior rear panel or additional door
- Subpanel

Multiple enclosure extensions bayed together can be sealed with a single set of side panels.

Material

• 1.5 mm carbon steel

Finish

- RAL 7035 light gray
- Textured powder coat finish

Features

- Package of two side panels
- Poured-in-place polyurethane gasket
- Includes mounting clips, screws, and gaskets (CLK013-KIT2F)

Listings

- Fully-assembled OKK Series Enclosures are rated as follows:
- UL 508a Type 12 [UL File E503249]
- CSA Type 12 [CSA File 115232]

OKK Series Rear Exterior Panels

Application

Each rear exterior panel provides the rear surface for one OKK Series enclosure.

Requires the following compatible components for a completed OKK Series enclosure:

- Base and roof set
- · Vertical frame rail set
- Exterior side panels
- Door
- Subpanel

An additional door may be used in lieu of a rear exterior panel to create a dual access enclosure.

Material

• 2.0 mm carbon steel

Finish

- RAL 7035 light gray

OKK Series Doors

Application

Each door provides interior access to an OKK Series enclosure.

Requires the following compatible components for a completed OKK Series enclosure:

- Base and roof set
- · Vertical frame rail set
- Exterior side panels
- · Exterior rear panel or additional door
- Subpanel

Material

• 2.0 mm carbon steel

Finish

- RAL 7035 light gray
- Textured powder coat finish

Features

- Fully reversible (handle can be oriented on the left or right side)
- 120° opening
- Four hinges
- 3.0mm double-bar 4-point latch with double-bit key
- Poured-in-place two-component polyurethane gasket, foamed on a perimeter external to the latch points
- Doors include a Sendzimir galvanized inner stiffening frame with Zamak zinc alloy corner pieces.

OKK Series Subpanels

Application

Provides the primary subpanel for an OKK Series enclosure.

Requires the following compatible components for a completed OKK Series enclosure:

- · Base and roof set
- · Vertical frame rail set
- Exterior side panels
- Door
- Exterior rear panel or additional door

Subpanel can be mounted at avariable depths or flush mounted. Multiple subpanels can be used in a Dual access enclosure.

Subpanels may also be recess mounted on one or both sides for use as side-mounted panels or to form a barrier between two adjacent bays. For side-mount applications, match subpanel nominal width to enclosure depth.

<u>APK110</u> (sold separately) required for all recess mounting applications

Material

• 2.5 mm Sendzimir galvanized steel

Features

• Includes installation hardware (PPK100).

OKK Series Plinths

Components for custom-designed plinths for OKK Series enclosures.

Material

• 2.0 mm carbon steel

Finish

- RAL 7024 graphite gray
- Textured powder coat finish

Features

- Both front/rear plates and side flanges are sold in pairs.
- Mix and matchfront/rear plates and side flanges to match enclosure WxD dimensions.
- Use two sets of 100mm [3.94 in] height side flanges with 200mm [7.87 in] height front/ rear plate sets.
- Plinth assemblies can be stacked to form greater plinth heights.

Galvanized Steel Mounting Channels

Application

Mounting channels can be used to create additional mounting positions at any location inside the enclosure. They can be connected to the inner frame of the enclosure or span between other mounting channels in either a vertical or horizontal orientation.

Features

- Available with a flanged end or a closed end.
- Either may work depending on the mounting location and orientation.
- Includes pre-punched holes to accept M6 cage nuts and M5 self-threading screws.

Easily find compatible OKK Series parts for your enclosure using the link button or QR code below:
