Contents

1.	Introduction1
2.	Creating a bot in Azure1

1. Introduction

When you use Azure for your Qlik Insight Bot messaging platform, you must create a bot in Azure and then delete the accompanying service. The Azure bot is the communication between users and Qlik Insight Bot services.

The purpose of this document is to guide you to how to create a bot in Azure.

2. Creating a bot in Azure

1. In the <u>Azure portal</u>, click **Create a resource**.

Microsoft Azure			$\mathcal P$. Search resources, services, and docs (G+	n			Q 0	٢	٢	
Create a resource	Dashboard > + New da	ishboard ∓ Upload 🛓 (⊙	Download 🥒 Edit 🛆 Share 🎤 Full screen 🐧 Clone	i Delete						
Dashboard E All services	All resources All subscriptions		Azure getting started made easy!	Virtual machines All subscriptions						
- * FAVORITES		Web App Bot	Launch an app of your choice on Azure in a few quick steps	Q	Virtual machine	East US				
🕅 Resource groups		Storage account	nide 🔤 💙	9	Virtual machine	East US				
SQL databases	Q.	Virtual machine	Quickstarts + tutorials	9	Virtual machine	East US East US				
Virtual machines		Storage account Virtual machine	Windows Virtual Machines I2 Provision Windows Server, SQL Server, SharePoint VMs	Q.	Virtual machine Virtual machine	East US East US

Cost Management + Billing Help + support	_	See more	Functions to Process events with a serveriess code architecture							
The support	Service Health	Marketplace	SQL Database 12 Managed relational SQL Database as a Service							

2. Under Azure Marketplace, select **AI + Machine Learning**, and then select **Web App Bot** from **Featured** section.

3. Create a bot with the following settings:

Bot name	Give the bot a unique and appropriate name.
	e.g. QIB
Subscription	Select your subscription.
Resource group	Select Create New and select a resource group.
	e.g. Development
Location	Select a location for the resource group.
	e.g. East US
Pricing tier	Select an appropriate pricing tier option.
App name	The App Service name. This will form the bot's endpoint URL. e.g.
	appname.azurewebsites.net
Bot template	Select Basic Bot (C#). (Default)
LUIS App location	Select a location for the LUIS App. e.g. West US
App service plan/Location	Select App service plan/Location or Create new for a new App
	service plan/Location and click OK .
	App service plan name: Give appropriate name
	Location: Select Location you have selected in Location for
	Resource group.
Application Insights	Select Off .
Microsoft App ID and password	Let the Microsoft App ID and password be generated
	automatically.

- 4. Click Create to create a bot. You will be redirected to a home page and you will get a notification. 2 **6** 0 Dashboard V + Ne Notifications UTC Time : 4/11/2019 to 4/11/... 0 in the activity log -All resources Virtual machines ...
