

Illinois Medicaid COVID-19 Fee Schedule

PLEASE NOTE: New COVID-19 related codes will be added to the HFS system as they are released by the Centers for Medicare and Medicaid Services (CMS) in accordance with the [December 8, 2020 provider notice](#). Claims containing new codes which do not have a Medicare or National Government Services (NGS) rate will temporarily suspend in the HFS system until a code rate is assigned. Once a rate is assigned, the HFS system will be updated with that rate and any held claims released into processing. MCOs cannot pend claims and cannot program rates until they are posted by HFS. Contact MCOs directly for billing questions.

COVID-19 Vaccines and Vaccine Administration

The COVID-19 vaccine product procedure codes are billable on a professional claim by Physicians, Advance Practice Nurses (APNs), Physician Assistants (PAs), Local Health Departments, Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), Encounter Rate Clinics (ERCs) and School-Based Health Centers (SBHCs), and on an institutional claim by Home Health Agencies (HHAs). Vaccine administration procedure codes are billable by FQHCs, RHCs, ERCs and HHAs for customers age 19+. The below rates and billing methodology for these codes is effective with dates of service on/after 1/1/2024. Please reference past COVID-19 fee schedules for rates and billing instructions in effect prior to 1/1/2024.

Please Note: FQHCs, RHCs and ERCs must submit COVID-19 vaccine product codes fee-for-service (FFS) separately from any applicable encounter claim for adults age 19+, even if the vaccine was administered during a face-to face encounter with a practitioner.

*The VFC rate applies to vaccines administered to children through age 18. For VFC-obtained vaccines the Department will reimburse for the administration fee when the vaccine-specific product procedure code is billed. The COVID vaccine administration codes are not payable for children through age 18. Reimbursement to FQHCs, RHCs and ERCs will be FFS separate from a medical encounter, also when billed using the vaccine-specific product code.

**The COVID-19 vaccine administration codes 90480 and M0201 are reimbursable FFS separate from a medical encounter to FQHCs, RHCs and ERCs for adults age 19+. In accordance with Topic 226 of the [Chapter 200 Practitioner Handbook](#), reimbursement to all other providers for the practice expense of administering COVID-19 vaccines is included in the office visit when the customer sees a practitioner. If the customer is seen solely for the injection, the CPT code for a minimal level office or other outpatient visit for evaluation and management not requiring the presence of a physician may be submitted to cover the injection service expense.

Note: Evaluation and management services rendered by Physicians, Advance Practice Nurses, and Physician Assistants to new or existing patients using audio only telephonic equipment may be billed as a distant site telehealth service so long as the E/M service is of an amount and nature that would be sufficient to meet the key components of a face-to-face encounter. In this scenario, the claim must be submitted with place of service 02 (or 10 if applicable and the date of service is on/after 7/1/2022) and modifier GT (or 93 if applicable and the date of service is on/after 7/1/2022) appended to the applicable procedure code.

If an audio only telephonic interaction cannot meet key components of a face-to-face encounter, the provider may instead seek reimbursement for virtual check-in services using CPT code G2012. FQHCs/RHCs/ERCs will be reimbursed at the above rates (not their medical encounter rate) for virtual check-in and E-visit codes. Virtual check-in and e-visit/online portal services must be submitted fee-for-service without the T1015 encounter code.

Virtual Healthcare/Teledentistry Expansion

Billable by Dentists. The below codes must be billed in addition to D0140, with place of service 02 (or 10, if applicable and date of service is on/after 7/1/2022). Do not include modifier GT or 93.

Procedure Code	Effective Date	Description	State Max Amount
D9995	3/9/2020	Teledentistry, synchronous; real-time encounter	13.19
D9996	3/9/2020	Teledentistry asynchronous; information stored and forwarded to dentist for subsequent review	9.24

COVID-19 Treatment

Hospitals may bill the following COVID-19 treatment administration using the appropriate revenue code. Reimbursement is based on DRG (inpatient setting) or EAPG (outpatient setting) methodology.

Laboratory Services

Billable by Local Health Departments, Physicians, Advance Practice Nurses (APNs), Physician Assistants (PAs), School-Based Health Centers (SBHCs), and Independent Laboratories. Federally Qualified Health Centers (FQHCs), Rural Health Clinics (RHCs), and Encounter Rate Clinics (ERCs) may bill the following laboratory services as detail codes with an encounter claim when the laboratory service is performed on-site.

***Please Note:* Providers normally subject to a SMART Act rate reduction (e.g. Independent Labs) must include modifier CR to exempt the service from a rate reduction. Hospitals must bill on an institutional invoice and will be reimbursed via the EAPG methodology.**
