We cover
Turf too!

SEE INSIDE FOR DETAILS

Experience the value of choice.

What does your equipment look like? Is your shed home to your trusty John Deere LX188 riding mower? Do you still put in a solid day's work on your 1973 John Deere 4630? Or maybe your operation includes a mix of equipment, not all of it green and yellow.

We know you have a choice when it comes to equipment, so that's why we offer choices when it comes to your parts. At John Deere, you get the value of choice for your replacement and maintenance parts for all makes and ages of machines – at any budget. John Deere is the only source for genuine John Deere parts, John Deere Reman and economy-priced aftermarket parts from A&I Products and Sunbelt Outdoor Products.

We invite you to read through this brochure to learn more about our parts offering. Then talk to your John Deere dealer to get the Right Part for your operation.

The Right Part at the Right Price. Only from John Deere.

JOHN DEERE OEM PARTS: Your solution when only the best will do.

Built on a reputation of performance and reliability

John Deere parts are engineered for maximum equipment performance, so your machine keeps running even during the most challenging conditions. And because our OEM parts are built to the exact specifications for your machinery, you can count on an exact fit, reduced wear on your equipment and no guesswork like with will-fit parts.

World-class parts distribution network, neighborhood support

Fantastic convenience, incredible support, and a distribution system that's second to none - that's what you get with John Deere and JDParts.com. Pair that with a first-class dealership network with dealers ready to assist you in getting the right part, qualified service technicians trained to install any part on your machinery, and the quality of John Deere OEM products, and it's easy to see why there's no better solution for your parts needs.

In addition to our excellent distribution network, John Deere offers a few delivery options to help ensure you get the part you need, when you need it. We have several parts delivery options that are ideal in emergency or machine-down situations, while our stock order option offers free freight with a 2-3 day turnaround.

For the best in performance and reliability, only John Deere OEM parts will do.

JOHN DEERE OEM AND MAINTENANCE PRODUCTS

From John Deere OEM parts known for their quality and reliability to maintenance products that fit most types of equipment, we offer everything you need to properly maintain your machinery – no matter the age, make or model.

OEM PARTS

Engine Overhaul Kits

Ours are the only kits that contain genuine John Deere components that are manufactured and tested to the latest John Deere specifications. Our kits wear consistently, prevent flakes and preserve the efficiency of your machine.

MegaTough™ Teeth

With an exclusive square design to handle high-impact loads without yielding, MegaTough teeth are built for improved crop retrieval in extreme conditions.

Perma-Loc™ Sweeps – High Productivity

Available in low and medium crown for most brands of field cultivators, John Deere Perma-Loc sweeps have a unique design proven to maintain cutting width throughout sweep life, which can extend 30% beyond that of conventional sweeps.

Mower Blades

American-made using U.S. steel alloy, John Deere mower blades are designed to stay sharper, longer. The edge-rolled design and top-stamped mounting hole mean less blade replacements, higher-quality cuts and extended equipment life.

Deck Belts

Reduce belt replacements, save money and increase uptime with John Deere deck belts. Built with interior aramid cords and an exterior double-wrapped in high flex fabric to withstand the harshest conditions, our belts are designed for what you do and tested on your machine.

MAINTENANCE PRODUCTS

StrongBox™ Batteries

Built to demanding John Deere specifications using the highest quality materials and state-of-the-art technology, StrongBox batteries are the backbone of our battery line, lasting up to 8 times longer than their competitors¹.

Performance Batteries

Offered at various price points, John Deere Performance batteries are a versatile, reliable solution for agricultural, commercial, sport utility and marine equipment.

Plus-50™ II

Developed right alongside John Deere engines, Plus-50 II is the best oil for your equipment delivering protection for up to 500 hours² in demanding off-road conditions.

Torq-Gard™

A hardworking, standard-interval engine oil, Torq-Gard is a great choice for your 4-stroke diesel, natural gas, or gasoline engine (Tier 3 and older).

John Deere Filters

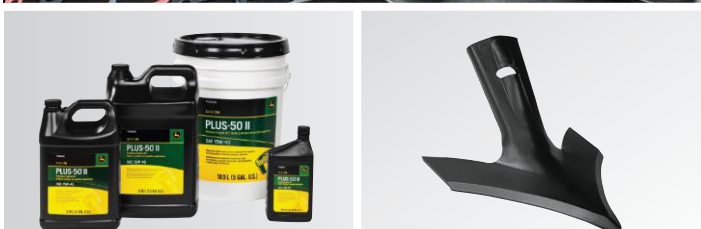

When combined with Plus-50 II engine oil, OEM filters help extend the recommended drain interval to 500 hours², which increases uptime, saves maintenance costs and extends equipment life.

HyGard™

Specifically designed to protect your John Deere transmissions, wet clutches, wet brakes and hydraulic systems, Hy-Gard offers superior high-temp performance, helping to ensure fewer deposits and a longer life.

Hydraulic Hoses

You may not realize it, but your John Deere dealer can make hydraulic hoses for all types of equipment, for John Deere machines and other brands.

¹JDQ-78X dyno engine test performed by Southwest Research Institute in San Antonio, Texas in April 2008. ²BCI group 31 competitive comparison test completed on January 2012 by independent test laboratory JBI Corporation to SAE specifications. ³Manufacturer's limited warranty. Limitations apply and vary by model. See manufacturer for details.

The Right Part. The Right Price.

JOHN DEERE REMAN

IT'S NOT REBUILT.
IT'S YOUR MACHINE REBORN.

Confidence starts with reliability.

Designed by John Deere engineers, built by John Deere trained technicians, and installed by an authorized John Deere Dealer, John Deere Reman products deliver the same quality, performance and reliability of new parts, at a fraction of the cost.

Our remanufacturing process incorporates the latest design enhancements so each part delivers like-new performance.

- Each part is disassembled and inspected for quality and wear.
- Components are replaced or remanufactured to original John Deere specifications.
- Wear parts are replaced 100% with new John Deere parts.
- Every remanufactured part undergoes operational testing.

A warranty that's worry-free

Every John Deere Reman part is backed by a comprehensive warranty of up to two years of full coverage.[†] That means parts, labor and any secondary damage to other components caused by defective materials or workmanship, are all covered. John Deere Reman parts give you big savings without the risk.

* When installed by a John Deere dealer. †Two-year comprehensive warranty only offered on remanufactured complete and basic engines when installed by a John Deere dealer. One-year warranty offered on other remanufactured parts. See your dealer for details.

THE JOHN DEERE REMAN PORTFOLIO INCLUDES

Rotating electrical (*starters, alternators & generators*)
Engines and engine components
Hydraulic components

Fuel injection products
A/C compressors
Electronics
(*displays, controllers, moisture sensors*)

Financing that's fast and flexible.
Only with John Deere Financial.

Multi-Use Account

JOHN PRODUCER
12345-67890

Whether you're looking to purchase a John Deere machine or you just need service parts, we have the financing solution to fit your needs. For our Ag and Turf business customers, you'll enjoy the flexibility offered with a **Multi-use Account**. With this fast and easy alternative to cash, you'll have the power to stock your operation with the tools it needs to keep moving forward, such as seed, fertilizer, parts and service, fuel and crop protection.

Our residential customers will enjoy the perks of our **Revolving Plan account**. This convenient and reusable line of credit is accepted at any John Deere dealer, allows you to charge parts, attachments, batteries, Home & Workshop products, and more, and offers fast approval with three easy ways to apply. Plus, you'll be the first to hear of special offers on equipment, parts and service!

Contact your John Deere dealer to learn how you can have it all with our quick and easy financing options.
