About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Commercial Scale Coating Line

Commercial scale coating or complete coating line is highly productive having ability to handle complex coating needs. KERONE's commercial scale (complete) coating line helps in accommodating specialized requirement of customization, each system is design and nurtured by team of experts having more than 40 years of knowledge along with dedicated team to support which make us completely reliable and customer friendly company.

Features

- Simplified and easy to operate but very effective control system
- Lesser or minimum human interface, automated completely
- Precisely build machinery after all calculation so that accurate repeatability is achieved
- Technically advance implementation to offer long term committed performance
- Wastage control mechanism, to avoid wastage of coating chemical or material
- Thickness control with exact level of tolerance
