(d) An Option One allowance is only payable to the member during the member's lifetime.

(3) The allowance payable under Options Two, Three, Four, Five, and Six is calculated by reducing an Option One benefit based on actuarial computations to provide the following:

(d) Option Five is a modification of Option Three so that if the lawful spouse at the time of retirement predeceases the retiree, an allowance equivalent to

the amount payable at the time of initial retirement under Option One shall be paid to the retiree for the remainder of the retiree's life, beginning on the first day of the month following the month in which the:

(i) spouse died, if notification and supporting documentation for the death are received by the office within 90 days of the spouse's death; or

(ii) notification and supporting documentation for the death are received by the office, if the notification and supporting documentation are received by the office more than 90 days after the spouse's death.

(i) spouse died, if notification and supporting documentation for the death are received by the office within 90 days of the spouse's death; or

(ii) notification and supporting documentation for the death are received by the office, if the notification and supporting documentation are received by the office more than 90 days after the spouse's death.

(4) (a) If a retiree under Option One dies within 120 days after the retiree's retirement date, the retirement is canceled and the death shall be considered as that of a member before retirement.

(b) Any payments made to the retiree shall be deducted from the amounts due to the beneficiary.

(5) (a) If a retiree retires under either Option Five or Six and subsequently divorces, the retiree may elect to convert the benefit to an Option One benefit at the time of divorce, if there is no court order filed in the matter.

(b) A conversion to an Option One benefit under this Subsection (5) begins on the first day of the month following the month in which the notification and supporting documentation for the divorce are received by the office.

(b) on the sales the marketplace facilitator made on the marketplace facilitator's own behalf.

(2) (a) A marketplace facilitator shall pay or collect and remit sales and use taxes imposed by this chapter in accordance with Subsection (3) if the marketplace facilitator, in the previous calendar year or the current calendar year, makes sales of tangible personal property, products transferred electronically, or services on the marketplace facilitator's own behalf or facilitates sales on behalf of one or more marketplace sellers:

(i) that exceed \$100,000; or

(ii) in 200 or more separate transactions.

(b) For purposes of determining if a marketplace facilitator meets or exceeds one or both thresholds described in this Subsection (2), a marketplace facilitator shall separately total:

(i) the marketplace facilitator's sales; and

(ii) any sales the marketplace facilitator makes or facilitates for a marketplace seller.

(c) A marketplace facilitator without a physical presence in this state shall begin collecting and remitting the sales and use taxes imposed by this chapter no later than the first day of the calendar quarter that is at least 60 days after the day on which the marketplace facilitator meets or exceeds either threshold described in Subsection (2)(a).

(3) A marketplace facilitator described in Subsection (2) shall pay or collect and remit sales and use taxes imposed by this chapter for each sale that the marketplace facilitator:

(a) makes on the marketplace facilitator's own behalf; or

(b) makes or facilitates on behalf of a marketplace seller, regardless of:

(i) whether the marketplace seller has an obligation to pay or collect and remit sales and use taxes under Section 59-12-107;

(ii) whether the marketplace seller would have been required to pay or collect and remit sales and use taxes under Section 59-12-107 if the marketplace facilitator had not facilitated the sale; or

(iii) the amount of the sales price or the purchase price that accrues to or benefits the marketplace facilitator, the marketplace seller, or any other person.

(4) A marketplace facilitator shall comply with the procedures and requirements in this chapter and Chapter 1, General Taxation Policies, for sellers required to pay or collect and remit sales and use taxes except that the marketplace facilitator shall segregate, in the marketplace facilitator's books and records:

(5) (a) The commission may audit the marketplace facilitator for sales made or facilitated

through the marketplace facilitator's marketplace on behalf of one or more marketplace sellers.

(b) The commission may not audit the marketplace seller for sales made or facilitated through the marketplace facilitator's marketplace on the marketplace seller's behalf.

(6) Nothing in this section prohibits a marketplace facilitator from providing in a marketplace facilitator's agreement with a marketplace seller for the recovery of sales and use taxes, and any related interest or penalties to the extent that a tax, interest, or penalty is assessed by the state in an audit of the marketplace facilitator on a retail sale:

(a) that a marketplace facilitator makes or facilitates on behalf of a marketplace seller; and

(b) for which the marketplace facilitator relied on incorrect or incomplete information provided by the marketplace seller.

(7) (a) Subject to Subsections (7)(b) and (c), a marketplace facilitator is not liable for failing to collect the taxes under this chapter for a sale on which the marketplace facilitator failed to collect sales and use taxes if the marketplace facilitator demonstrates, to the satisfaction of the commission, that:

(i) the marketplace facilitator made or facilitated the sale through the marketplace facilitator's marketplace on or before December 31, 2022;

(ii) the marketplace facilitator made or facilitated the sale on behalf of a marketplace seller and not on behalf of the marketplace facilitator;

(iii) the marketplace facilitator and the marketplace seller are not affiliates; and

(iv) the failure to collect sales and use taxes was due to a good faith error other than an error in sourcing.

(b) For purposes of Subsection (7)(a):

(i) for sales made or facilitated during the 2019 or 2020 calendar year, the marketplace facilitator is not liable for the amount the marketplace facilitator fails to collect due to error that is equal to the error rate, but not to exceed a 7% error rate;

(ii) for sales made or facilitated during the 2021 calendar year, the marketplace facilitator is not liable for the amount the marketplace facilitator fails to collect due to error that is equal to the error rate, but not to exceed a 5% error rate; and

(iii) for sales made or facilitated during the 2022 calendar year, the marketplace facilitator is not liable for the amount the marketplace facilitator fails to collect due to error that is equal to the error rate, but not to exceed a 3% error rate.

(c) The commission shall calculate the percentages described in Subsection (7)(b):

(i) using the total sales and use taxes due on sales that:

(A) a marketplace facilitator made or facilitated in this state on behalf of one or more marketplace sellers during the calendar year that the sale for which the marketplace facilitator seeks relief was made or facilitated; and

(B) are sourced to the state; and

(ii) not including sales that the marketplace facilitator or the marketplace facilitator's affiliates directly made during the same calendar year.

(8) A marketplace seller shall pay or collect and remit sales and use taxes imposed by this chapter for a sale of tangible personal property, a product transferred electronically, or a service that the marketplace seller makes other than through a marketplace facilitator if:

(a) the sale is sourced to this state; and

(b) the marketplace seller's sales in this state, other than through a marketplace facilitator, in the previous calendar year or the current calendar year:

(i) exceed \$100,000; or

(ii) occur in 200 or more separate transactions.

(9) (a) A marketplace seller may not pay or collect and remit sales and use taxes imposed by this chapter for any sale for which a marketplace facilitator is required to pay or collect and remit.

(b) A marketplace seller is not liable for a marketplace facilitator's failure to pay or collect and remit, or the marketplace facilitator's underpayment of, sales and use taxes imposed by this chapter for any sale for which a marketplace facilitator is required to pay or collect and remit the taxes imposed by this chapter.

(10) (a) A purchaser of tangible personal property, a product transferred electronically, or a service may file a claim for a refund with the marketplace facilitator if the purchaser overpaid sales and use taxes imposed under this chapter.

(b) No person may bring a class action against a marketplace facilitator in any court of the state on behalf of purchasers arising from or in any way related to an overpayment of sales and use taxes collected and remitted on sales made or facilitated by the marketplace facilitator on behalf of a marketplace seller, regardless of whether such claim is characterized as a tax refund claim.

(11) Nothing in this section affects the obligation of a purchaser to remit the use tax described in Subsection 59-12-107(2)(f) on any sale for which a marketplace facilitator or marketplace seller failed to collect and remit a tax imposed by this chapter.

(d) administer the trust or estate in accordance with this chapter, except to the extent the terms of the trust provide otherwise or authorize the fiduciary to determine otherwise.

(b) A fiduciary may exercise a discretionary power of administration given to the fiduciary by the terms of the trust, and an exercise of the power that produces a result different from a result required or permitted by this chapter does not create an inference that the fiduciary abused the fiduciary's discretion.

(3) A fiduciary shall:

(a) add a receipt to principal, to the extent neither the terms of the trust nor this chapter allocates the receipt between income and principal; and

(b) charge a disbursement to principal, to the extent neither the terms of the trust nor this chapter allocates the disbursement between income and principal.

(3) (a) If the court determines that a fiduciary decision was an abuse of the fiduciary's discretion, the court may order a remedy authorized by law, including a remedy authorized in Section 75-7-1001.

(b) To place the beneficiaries in the positions the beneficiaries would have occupied if there had not been an abuse of the fiduciary's discretion, the court may order:

(i) the fiduciary to exercise or refrain from exercising the power to adjust under Section 22-3-203;

(ii) the fiduciary to exercise or refrain from exercising the power to convert an income trust to a unitrust under Subsection 22-3-303(1)(a), change the percentage or method used to calculate a unitrust amount under Subsection 22-3-303(1)(b), or convert a unitrust to an income trust under Subsection 22-3-303(1)(c);

(iii) the fiduciary to distribute an amount to a beneficiary;

(iv) a beneficiary to return some or all of a distribution; or

(v) the fiduciary to withhold an amount from one or more future distributions to a beneficiary.

(4) (a) On petition by a fiduciary for instruction, the court may determine whether a proposed fiduciary decision will result in an abuse of the fiduciary's discretion.

(b) A beneficiary that opposes the proposed decision has the burden to establish that the proposed decision will result in an abuse of the fiduciary's discretion if the petition:

(i) describes the proposed decision;

(ii) contains sufficient information to inform the beneficiary of the reasons for making the proposed decision and the facts on which the fiduciary relies; and

(iii) explains how the beneficiary will be affected by the proposed decision.

Section 7. Section 22-3-203 is enacted to read:

22-3-203. Fiduciary's power to adjust.

(2) This section does not create a duty to exercise or consider the power to adjust under Subsection (1) or to inform a beneficiary about the applicability of this section.

(3) A fiduciary that in good faith exercises or fails to exercise the power to adjust under Subsection (1) is not liable to a person affected by the exercise or failure to exercise.

(4) In deciding whether and to what extent to exercise the power to adjust under Subsection (1), a fiduciary shall consider all factors the fiduciary considers relevant, including relevant factors in Subsection 22-3-201(5) and the application of Subsection 22-3-401(9), Section 22-3-408, and Section 22-3-413.

(5) A fiduciary may not exercise the power under Subsection (1) to make an adjustment or under Section 22-3-408 to make a determination that an allocation is insubstantial if:

(a) the adjustment or determination would reduce the amount payable to a current income beneficiary from a trust that qualifies for a special tax benefit, except to the extent the adjustment is made to provide for a reasonable apportionment of the total return of the trust between the current income beneficiary and successor beneficiaries;

(b) the adjustment or determination would change the amount payable to a beneficiary, as a fixed annuity or a fixed fraction of the value of the trust assets, under the terms of the trust;

(c) the adjustment or determination would reduce an amount that is permanently set aside for a charitable purpose under the terms of the trust, unless both income and principal are set aside for the charitable purpose;

(d) possessing or exercising the power would cause a person to be treated as the owner of all or part of the trust for federal income tax purposes;

(e) possessing or exercising the power would cause all or part of the value of the trust assets to be included in the gross estate of an individual for federal estate tax purposes;

(f) possessing or exercising the power would cause an individual to be treated as making a gift for federal gift tax purposes;

(g) the fiduciary is not an independent person;

(h) the trust is irrevocable and provides for income to be paid to the settlor and possessing or exercising the power would cause the adjusted principal or income to be considered an available resource or available income under a public-benefit program; or

(i) the trust is a unitrust under Part 3, Unitrust.

(6) If Subsection (5)(d), (e), (f), or (g) applies to a fiduciary:

(a) a co-fiduciary to which Subsections (5)(d) through (g) do not apply may exercise the power to adjust, unless the exercise of the power by the

remaining co-fiduciary or co-fiduciaries is not permitted by the terms of the trust or law other than this chapter; or

(b) if there is no co-fiduciary to which Subsections (5)(d) through (g) do not apply, the fiduciary may appoint a co-fiduciary to which Subsections (5)(d) through (g) do not apply, which may be a special fiduciary with limited powers, and the appointed co-fiduciary may exercise the power to adjust under Subsection (1), unless the appointment of a co-fiduciary or the exercise of the power by a co-fiduciary is not permitted by the terms of the trust or law other than this chapter.

(7) A fiduciary may release or delegate to a co-fiduciary the power to adjust under Subsection (1) if the fiduciary determines that the fiduciary's possession or exercise of the power will or may:

(a) cause a result described in Subsections (5)(a) through (f) or (h); or

(b) deprive the trust of a tax benefit or impose a tax burden not described in Subsections (5)(a) through (f).

(8) A fiduciary's release or delegation to a co-fiduciary under Subsection (7) of the power to adjust under Subsection (1):

(a) must be in a record;

(b) applies to the entire power, unless the release or delegation provides a limitation, which may be a limitation to the power to adjust:

(i) from income to principal;

(ii) from principal to income;

(iii) for specified property; or

(iv) in specified circumstances;

(c) for a delegation, may be modified by a redelegation under this subsection by the co-fiduciary to which the delegation is made; and

(d) subject to Subsection (8)(c), is permanent, unless the release or delegation provides a specified period, including a period measured by the life of an individual or the lives of more than one individual.

(9) Terms of a trust which deny or limit the power to adjust between income and principal do not affect the application of this section, unless the terms of the trust expressly deny or limit the power to adjust under Subsection (1).

(10) The exercise of the power to adjust under Subsection (1) in any accounting period may apply to the current period, the immediately preceding period, and one or more subsequent periods.

(11) A description of the exercise of the power to adjust under Subsection (1) must be:

(a) included in a report, if any, sent to beneficiaries under Subsection 75-7-811(3); or

(b) communicated at least annually to the qualified beneficiaries determined under Subsection 75-7-103(1)(h).

- (a) money received in an entity distribution; and
- (b) tangible personal property of nominal value received from the entity.

(4) A fiduciary shall allocate to principal:

(a) property received in an entity distribution which is not:

- (i) money; or
- (ii) tangible personal property of nominal value;

(ii) treated for federal income tax purposes comparably to the treatment described in Subsection (4)(d)(i).

(5) A fiduciary may determine or estimate that money received in an entity distribution is a capital distribution:

(a) by relying without inquiry or investigation on a characterization of the entity distribution provided by or on behalf of the entity, unless the fiduciary:

(i) determines, on the basis of information known to the fiduciary, that the characterization is or may be incorrect; or

(ii) owns or holds more than 50% of the voting interest in the entity;

(b) by determining or estimating, on the basis of information known to the fiduciary or provided to the fiduciary by or on behalf of the entity, that the total amount of money and property received by the fiduciary in the entity distribution or a series of related entity distributions is or will be greater than 20% of the fair market value of the fiduciary's interest in the entity; or

(c) if neither Subsection (5)(a) nor (b) applies, by considering the factors in Subsection (6) and the information known to the fiduciary or provided to the fiduciary by or on behalf of the entity.

(d) any other factor the fiduciary determines is relevant.

(7) If, after applying Subsections (3) through (6), a fiduciary determines that a part of an entity distribution is a capital distribution but is in doubt about the amount of the entity distribution which is a capital distribution, the fiduciary shall allocate to principal the amount of the entity distribution which is in doubt.

(8) If a fiduciary receives additional information about the application of this section to an entity distribution before the fiduciary has paid part of the entity distribution to a beneficiary, the fiduciary may consider the additional information before making the payment to the beneficiary and may change a decision to make the payment to the beneficiary.

(9) If a fiduciary receives additional information about the application of this section to an entity distribution after the fiduciary has paid part of the entity distribution to a beneficiary, the fiduciary is not required to change or recover the payment to the beneficiary but may consider that information in determining whether to exercise the power to adjust under Section 22-3-203.

(b) conducting the business or other activity through an entity described in Subsection 22-3-401(1)(b)(i).

(2) A fiduciary may account separately under this section for the transactions of a business or other activity, whether or not assets of the business or other activity are segregated from other assets held by the fiduciary.

(3) A fiduciary that accounts separately under this section for a business or other activity:

(i) the extent to which the net cash receipts of the business or other activity must be retained for:

(A) working capital;

(ii) the extent to which the remaining net cash receipts are accounted for as principal or income in the fiduciary's general accounting records for the trust;

(b) may make a determination under Subsection (3)(a) separately and differently from the fiduciary's decisions concerning distributions of income or principal; and

(c) shall account for the net amount received from the sale of an asset of the business or other activity,

other than a sale in the ordinary course of the business or other activity, as principal in the fiduciary's general accounting records for the trust, to the extent the fiduciary determines that the net amount received is no longer required in the conduct of the business or other activity.

(b) farming;

(c) raising and selling livestock and other animals;

(c) a disbursement made to prepare property for rental, including tenant allowances, leasehold improvements, and commissions;

(a) income and principal proportionately to the allocation between income and principal of receipts from the entity in the period; and

(b) principal to the extent the tax exceeds the receipts from the entity in the period.

(4) After applying Subsections (1) through (3), a fiduciary shall adjust income or principal receipts, to the extent the taxes the fiduciary pays are reduced because of a deduction for a payment made to a beneficiary.

Section 39. Section 22-3-507 is enacted to read:

22-3-507. Adjustment between income and principal because of taxes.

(1) A fiduciary may make an adjustment between income and principal to offset the shifting of economic interests or tax benefits between current income beneficiaries and successor beneficiaries that arises from:

(b) an income tax or other tax imposed on the fiduciary or a beneficiary as a result of a transaction involving the fiduciary or a distribution by the fiduciary; or

(c) ownership by the fiduciary of an interest in an entity a part of whose taxable income, whether or not distributed, is includable in the taxable income of the fiduciary or a beneficiary.

(2) (a) If the amount of an estate tax marital or charitable deduction is reduced because a fiduciary deducts an amount paid from principal for income tax purposes instead of deducting it for estate tax purposes and, as a result, estate taxes paid from principal are increased and income taxes paid by the fiduciary or a beneficiary are decreased, the fiduciary shall charge each beneficiary that benefits from the decrease in income tax to reimburse the principal from which the increase in estate tax is paid.

(b) The total reimbursement must equal the increase in the estate tax, to the extent the principal used to pay the increase would have qualified for a marital or charitable deduction but for the payment.

(c) The share of the reimbursement for each fiduciary or beneficiary whose income taxes are reduced must be the same as its share of the total decrease in income tax.

(3) A fiduciary that charges a beneficiary under Subsection (2) may offset the charge by obtaining payment from the beneficiary, withholding an amount from future distributions to the beneficiary, or adopting another method or combination of methods.

Section 40. Section 22-3-601 is repealed and reenacted to read:

Part 6. Death of Individual or Termination of Income Interest

22-3-601. Determination and distribution of net income.

(1) This section applies when:

(a) the death of an individual results in the creation of an estate or trust; or

(b) an income interest in a trust terminates, whether the trust continues or is distributed.

(2) A fiduciary of an estate or trust with an income interest that terminates shall:

(a) determine, under Subsection (7) and Part 4, Allocation of Receipts, Part 5, Allocation of Disbursements, and Part 7, Apportionment at Beginning and End of Income Interest, the amount of net income and net principal receipts received from property specifically given to a beneficiary; and

(b) distribute the net income and net principal receipts to the beneficiary that is to receive the specific property.

(3) A fiduciary shall determine the income and net income of an estate or income interest in a trust that terminates, other than the amount of net income determined under Subsection (2), under Part 4, Allocation of Receipts, Part 5, Allocation of Disbursements, and Part 7, Apportionment at Beginning and End of Income Interest, and by:

(a) including in net income all income from property used or sold to discharge liabilities;

(b) paying from income or principal, in the fiduciary's discretion, fees of attorneys, accountants, and fiduciaries, court costs and other expenses of administration, and interest on estate and inheritance taxes and other taxes imposed because of the decedent's death, but the fiduciary may pay the expenses from income of property passing to a trust for which the fiduciary claims a federal estate tax marital or charitable deduction only to the extent:

(i) the payment of the expenses from income will not cause the reduction or loss of the deduction; or

(ii) the fiduciary makes an adjustment under Subsection 22-3-507(2); and

(c) paying from principal other disbursements made or incurred in connection with the settlement of the estate or the winding up of an income interest that terminates, including:

(i) to the extent authorized by the decedent's will, the terms of the trust, or applicable law, debts, funeral expenses, disposition of remains, family

allowances, estate and inheritance taxes, and other taxes imposed because of the decedent's death; and

(ii) related penalties that are apportioned, by the decedent's will, the terms of the trust, or applicable law, to the estate or income interest that terminates.

(4) If a decedent's will, the terms of a trust, or applicable law provides for the payment of interest or the equivalent of interest to a beneficiary that receives a pecuniary amount outright, the fiduciary shall make the payment from net income determined under Subsection (3) or from principal to the extent net income is insufficient.

(5) If a beneficiary is to receive a pecuniary amount outright from a trust after an income interest ends because of an income beneficiary's death, and no payment of interest or the equivalent of interest is provided for by the terms of the trust or applicable law, the fiduciary shall pay the interest or the equivalent of interest to which the beneficiary would be entitled under applicable law if the pecuniary amount were required to be paid under a will.

(6) A fiduciary shall distribute net income remaining after payments required by Subsections (4) and (5) in the manner described in Section 22-3-602 to all other beneficiaries, including a beneficiary that receives a pecuniary amount in trust, even if the beneficiary holds an unqualified power to withdraw assets from the trust or other presently exercisable general power of appointment over the trust.

(7) (a) A fiduciary may not reduce principal or income receipts from property described in Subsection (2) because of a payment described in Section 22-3-501 or 22-3-502, to the extent the decedent's will, the terms of the trust, or applicable law requires the fiduciary to make the payment from assets other than the property or to the extent the fiduciary recovers or expects to recover the payment from a third party.

(b) The net income and principal receipts from the property must be determined by including the amount the fiduciary receives or pays regarding the property, whether the amount accrued or became due before, on, or after the date of the decedent's death or an income interest's terminating event, and making a reasonable provision for an amount the estate or income interest may become obligated to pay after the property is distributed.

Section 41. Section 22-3-602 is repealed and reenacted to read:

22-3-602. Distribution to successor beneficiary.

(1) (a) Except to the extent Part 3, Unitrust, applies for a beneficiary that is a trust, each beneficiary described in Subsection 22-3-601(6) is entitled to receive a share of the net income equal to the beneficiary's fractional interest in undistributed principal assets, using values as of the distribution date.

(b) If a fiduciary makes more than one distribution of assets to beneficiaries to which this section applies, each beneficiary, including a beneficiary that does not receive part of the distribution, is entitled, as of each distribution date, to a share of the net income the fiduciary received after the decedent's death, an income interest's other terminating event, or the preceding distribution by the fiduciary.

(2) In determining a beneficiary's share of net income under Subsection (1), the following rules apply:

(a) The beneficiary is entitled to receive a share of the net income equal to the beneficiary's fractional interest in the undistributed principal assets immediately before the distribution date.

(b) The beneficiary's fractional interest under Subsection (2)(a) must be calculated:

(i) on the aggregate value of the assets as of the distribution date without reducing the value by any unpaid principal obligation; and

(ii) without regard to:

(A) property specifically given to a beneficiary under the decedent's will or the terms of the trust; and

(B) property required to pay pecuniary amounts not in trust.

(c) The distribution date under Subsection (2)(a) may be the date as of which the fiduciary calculates the value of the assets if that date is reasonably near the date on which the assets are distributed.

$$(b) \quad Inflate_{FY-2} = \frac{GNPIndex_{FY-2}}{GNPIndex_{1985}} \times Inflate_{Base}$$

$$(c) \quad PerCapitaBase_{1985} = \frac{Appropriations_{1985} - Debt_{1985}}{Pop_{1985} \times Inflate_{Base}} = \frac{734,333,000 - 52,273,100}{1,594,943 \times \left(\frac{102.075}{123.900}\right)}$$

$$(d) \quad SumAdjust_{FY} = \sum_{i=1985}^{FY} \left[Adjust_i \times \left(\frac{Inflate_{FY-2}}{Inflate_{i-2}}\right) \times \left(\frac{Pop_{FY-2}}{Pop_{i-2}}\right) \right]$$

CONCURRENT RESOLUTION URGING THE UNITED STATES DRUG ENFORCEMENT ADMINISTRATION TO APPROVE A PHARMACEUTICAL DROP BOX PILOT PROGRAM

Chief Sponsor: Brad M. Daw
Senate Sponsor: Evan J. Vickers

LONG TITLE

General Description:

This concurrent resolution highlights the devastating impact of the opioid epidemic and urges the United States Drug Enforcement Administration to approve a pilot program for pharmaceutical drop boxes.

Highlighted Provisions:

This resolution:

- ▶ highlights the impact of the opioid epidemic on the state of Utah;
- ▶ describes previous actions to place law enforcement-controlled pharmaceutical drop boxes in local pharmacies; and
- ▶ urges the United States Drug Enforcement Administration to approve a pilot program for pharmaceutical drop boxes that are controlled by local law enforcement agencies.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the state of Utah is committed to fostering a safe and drug-free environment for all of its citizens;

WHEREAS, the United States Drug Enforcement Administration designated the state of Utah as an official DEA 360 strategy area in the fall of 2017 to combat opioid addiction and overdose deaths in the state;

WHEREAS, Utah ranks 4th highest in the nation for drug overdose deaths, with 23 individuals dying each month from a prescription opioid overdose in 2016;

WHEREAS, from 2000 to 2015, Utah experienced a nearly 400% increase in deaths from the misuse and abuse of opioids, and the problem is continuing to grow;

WHEREAS, most individuals who misuse prescription drugs have access to the drugs from a friend or relative, not a local drug dealer;

WHEREAS, Utah currently has over 150 drop boxes based in local law enforcement offices around the state;

WHEREAS, Utahns have advised members of the newly formed Attorney General's Opioid Task Force that people would be more likely to drop off

unused pharmaceutical drugs in a drop box if the boxes are placed in local pharmacies;

WHEREAS, even though drop boxes are allowed in pharmacies, Utah pharmacists have repeatedly informed the Opioid Task Force that federal regulations governing the placement and maintenance of drop boxes are too onerous;

WHEREAS, Utah is a geographically large state with a substantial portion of the population living in rural areas, and some citizens must drive over 20 miles to place their unused drugs in a designated drop box;

WHEREAS, in a letter sent to the United States Drug Enforcement Administration on May 31, 2017, the Utah Attorney General requested a waiver from existing regulations to operate a one-year pilot program that would allow law enforcement agencies to place and operate pharmaceutical drop boxes in local pharmacies;

WHEREAS, the United States Drug Enforcement Administration's response dated September 6, 2017, to the Utah Attorney General's request merely reiterated existing regulations and failed to address the pilot program;

WHEREAS, all of the pharmaceutical drop boxes in the pilot program would be completely owned and operated by a local law enforcement entity, and all boxes would be installed in conjunction with in-store security camera and facility alarm systems;

WHEREAS, local law enforcement officers would be solely responsible for emptying and securing the disposed drugs until the drugs could be properly destroyed;

WHEREAS, drugs placed in the secure drop boxes would be considered abandoned property and would be destroyed in accordance with applicable state and federal law;

WHEREAS, drop boxes in the pilot program would not be placed in pharmacies that are already registered as Collectors with the United States Drug Enforcement Administration; and

WHEREAS, the pilot program would allow the Opioid Task Force to evaluate whether a significant increase in the number of take-back locations could reduce rates of prescription drug misuse, overdose, and death:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, requests that the United States Drug Enforcement Administration respond to the Utah Attorney General's request for a pilot program to allow local law enforcement agencies to place and operate pharmaceutical drop boxes in local pharmacies.

BE IT FURTHER RESOLVED that the Legislature and the Governor join the Utah Attorney General to call on the United States Drug Enforcement Administration to act quickly to support the state of Utah in its efforts to address the opioid epidemic by approving the pharmaceutical drop box pilot program.

BE IT FURTHER RESOLVED that a copy of this resolution be delivered to the United States Attorney General, the United States Attorney for the District of Utah, and the Administrator of the United States Drug Enforcement Administration.

LONG TITLE

General Description:

This resolution supports the development of wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy in rural areas of the state as a complement to Utah's diversified energy system and supports the export of those Utah-produced renewable energy sources to other states.

Highlighted Provisions:

This resolution:

- ▶ acknowledges the important role of rural communities in the development of energy resources;
- ▶ recognizes the economic and supply benefits that wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy development provide;
- ▶ recognizes the energy market opportunities available to those states that develop wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy;
- ▶ supports the development of wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy in rural areas of the state as a complement to Utah's diversified energy system; and
- ▶ supports the export of Utah-produced wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy to other states.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, Utah's rural communities have long produced much of the energy necessary to drive Utah's economy;

WHEREAS, some of these rural communities have not always enjoyed the prosperity that has come with Utah's tremendous economic growth in recent decades;

WHEREAS, many of these rural communities are rich with the natural resources, including wind, solar, hydrogen, small conduit hydroelectric, and geothermal resources, necessary to provide energy for Utah and the nation;

WHEREAS, competitive energy markets in western states are providing new opportunities for the sale of energy across state lines;

WHEREAS, Utah's natural salt dome geologic formations provide complementary cost-effective storage potential for wind, solar, hydrogen, small conduit hydroelectric, and geothermal development, as well as their own economic development opportunities;

WHEREAS, many western states are responding to this energy opportunity by harnessing wind, solar, hydrogen, small conduit hydroelectric, and geothermal power, thus providing economic benefits for rural communities and energy supplies to customers within and outside their states; and

WHEREAS, Utah has an opportunity to maintain its position as a net exporter of energy and a leader in energy production and innovation in the region:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, supports rural development of wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy resources within Utah as a complement to Utah's diversified energy system, so that Utah's rural communities can take an active part in and receive the benefits of Utah's economic development.

BE IT FURTHER RESOLVED that the Legislature and the Governor support the export of Utah-produced wind, solar, hydrogen, small conduit hydroelectric, and geothermal energy.

**CONCURRENT RESOLUTION
 CONCERNING SWITCHER
 LOCOMOTIVE EMISSION STANDARDS**

Chief Sponsor: Stephen G. Handy
 Senate Sponsor: Todd Weiler

LONG TITLE

General Description:

This concurrent resolution requests that Congress allow states to regulate certain switcher locomotive emission standards.

Highlighted Provisions:

This resolution:

- ▶ recognizes the railroad’s economic impact in Utah;
- ▶ describes the Environmental Protection Agency’s (EPA) emission standards for switcher locomotives;
- ▶ recognizes that more stringent emission standards for switcher locomotives would reduce harmful emissions in the state;
- ▶ acknowledges that federal law prohibits states from adopting more stringent emission standards for switcher locomotives; and
- ▶ requests that Congress allow states to regulate certain switcher locomotive emissions standards.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, railroads continue to play a vital role in Utah’s economy;

WHEREAS, there are approximately 63 switcher locomotives operating in Utah;

WHEREAS, the vast majority of the switcher locomotives operating in Utah are certified to the Environmental Protection Agency’s (EPA) Tier 0 or Tier 0+ emission standards;

WHEREAS, the Utah Division of Air Quality finds replacing and repowering switcher locomotives to be a cost-effective emission control strategy;

WHEREAS, replacing or repowering a switcher locomotive certified to the Tier 0+ emission standard to meet Tier 4 emission standards would result in an 89% reduction in nitrogen-oxide emissions and an 88.5% reduction in direct particulate-matter emissions;

WHEREAS, the Clean Air Act, 42 U.S.C. Sec. 7543(e) prohibits states from establishing emission standards for locomotives;

WHEREAS, current EPA emissions standards only require switcher locomotives certified to the Tier 0 emission standard to be remanufactured to meet the Tier 0+ emission standard and such remanufacturing may continue indefinitely; and

WHEREAS, the EPA has continued to tighten the National Ambient Air Quality Standards for fine particulate matter and ozone without providing improved locomotive remanufacturing emissions requirements to help meet said standards:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, hereby requests that Congress allow states to regulate switcher locomotive

emissions standards so that a state can require that Tier 0 and 0+ locomotives be repowered to meet Tier 4 standards or otherwise be retired in a timely and cost-effective manner.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to the President of the United States, the United States Environmental Protection Agency’s Office of the Administrator, and each member of Utah’s congressional delegation.

COMMENDING JORDAN SCHOOL
DISTRICT ON ITS FLEET OF NATURAL
GAS SCHOOL BUSES**

Senate Sponsor: Lincoln Fillmore
Cosponsors: Kim F. Coleman
Ken Ivory
Marsha Judkins
Susan Pulsipher

LONG TITLE

General Description:

This resolution commends Jordan School District for investing in the state’s largest fleet of natural gas buses.

Highlighted Provisions:

This resolution:

- ▶ commends Jordan School District for its contribution to improved public health and fiscal responsibility through acquiring school buses that operate on compressed natural gas.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, Utahns rank air quality among their highest concerns, and individuals living along the Wasatch Front rank air quality as their highest priority among their top 10 concerns in the state;

WHEREAS, Utahns’ major concerns with air quality include ozone and very fine particulate matter that are produced from the burning of fossil fuels;

WHEREAS, the Wasatch Front is known to have some of the most challenging short-term air quality issues;

WHEREAS, in 2017 the Environmental Protection Agency (EPA) reclassified the Wasatch Front from a “moderate” to a “serious” nonattainment area, based on the Clean Air Act’s air quality health standards;

WHEREAS, although vehicle contribution to air pollution has decreased over time and will continue to decline with both the implementation of Tier III fuel and automobile standards and rapidly increasing fuel economy standards, fossil fuel combustion engines continue to account for approximately 48% of emissions that lead to poor air quality in Utah;

WHEREAS, as Utah’s population continues to grow, so will the challenge of reducing tailpipe emissions;

WHEREAS, Utah public schools have over 2,400 buses that transport 175,000 children every day;

WHEREAS, most of the school buses being used by school districts and charter schools burn diesel fuel;

WHEREAS, numerous studies have concluded that the younger a person is, the more susceptible that person is to the dangers of diesel exhaust fumes, resulting in increased health risks associated with lung disease, cancer, and heart disease;

WHEREAS, the concentration of numerous idling diesel school buses around schools contributes to poor air quality, impacting the health of children and other members of the community;

WHEREAS, inversions settle into the valleys along the Wasatch Front during the school year, trapping exhaust fumes and fine particulate matter in the air we breathe;

WHEREAS, numerous efforts have been made over the past several years to remove older diesel school buses in Utah and replace them with clean fuel alternatives such as compressed natural gas (CNG), clean diesel, electricity, propane, or hybrid capability;

WHEREAS, one CNG school bus saves the equivalent of the emissions produced by 35 cars on the road;

WHEREAS, Jordan School District became a leader in clean fuel school buses when it began acquiring CNG school buses 30 years ago;

WHEREAS, Jordan School District continually demonstrates leadership in clean fuel school buses and currently has the state's largest fleet of CNG school buses;

WHEREAS, Jordan School District is contributing to cleaner air and better health for students and residents along the Wasatch Front through the use of CNG school buses in place of diesel school buses;

WHEREAS, in 2018 Jordan School District used \$1.7 million in grant money to purchase 36 new CNG school buses, bringing its total number of CNG buses to 105;

WHEREAS, more than half of all of the school buses used by Jordan School District are CNG buses; and

WHEREAS, each CNG bus saves Jordan School District at least \$6,000 per year, resulting in an annual savings in fuel costs of \$630,000;

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, commends Jordan School District for its exemplary contribution to the public health of the citizens of the state of Utah by acquiring a fleet of CNG school buses with little additional expense to taxpayers, reducing emissions, and improving air quality.

BE IT FURTHER RESOLVED that the Legislature and the Governor commend Jordan School District for being an excellent example of environmentally sensitive, forward-thinking, and fiscally responsible leadership in the state of Utah.

BE IT FURTHER RESOLVED that the Legislature and the Governor commend Jordan School District for its fiscal responsibility in seeking grants and rebates to acquire CNG school buses and a CNG fueling facility, resulting in lower ongoing operational costs of its school bus fleet.

**CONCURRENT RESOLUTION TO ADDRESS
DECLINING WATER LEVELS OF
THE GREAT SALT LAKE**

Chief Sponsor: Timothy D. Hawkes

Senate Sponsor: Scott D. Sandall

LONG TITLE

General Description:

This concurrent resolution recognizes the critical importance of continued water flows to Great Salt Lake and its wetlands and the need for solutions to address declining water levels, while appropriately balancing economic, social, and environmental needs.

Highlighted Provisions:

This resolution:

- ▶ urges expeditious and collaborative development of recommendations for policy and actionable solutions to avert economic, social, and environmental harm due to declining water levels at Great Salt Lake and its wetlands; and
- ▶ encourages reports to the Legislature and Governor.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, in 2014 the Utah Legislature recognized the "economic, recreational, and natural significance of the Great Salt Lake" pursuant to enrolled H.J.R. 20, Joint Resolution Recognizing the Significance of the Great Salt Lake (General Session 2014);

WHEREAS, Great Salt Lake, the largest saline lake in the Western Hemisphere, is a symbol of our state, an economic driver, and a unique and complex ecosystem of regional, international, and hemispherical importance;

WHEREAS, Great Salt Lake and its wetlands support a range of economic activities, accounting for a total regional economic output of more than \$1.3 billion annually from mineral extraction, brine shrimp harvesting, recreation, including hunting, birding, and boating, and other uses;

WHEREAS, Great Salt Lake and its wetlands are recognized as hemispherically and globally important habitat for millions of waterbirds, waterfowl, and shorebirds;

WHEREAS, Great Salt Lake is home to three state parks, five state waterfowl management areas, a national bird refuge, and private preserves and duck clubs;

WHEREAS, the “lake effect” from Great Salt Lake provides an important contribution to snowpack in the Wasatch Range, which is crucially important to Utah’s water cycle and its tourism, agricultural, and other industries;

WHEREAS, many state, local, and federal entities have responsibilities relating to the management and preservation of Great Salt Lake, its wetlands, wildlife, or communities that rely on the lake’s many resources;

WHEREAS, the Great Salt Lake Advisory Council was established in 2010 to advise Utah administrative and legislative bodies on the sustainable use, protection, and development of Great Salt Lake;

WHEREAS, water levels at Great Salt Lake and its wetlands can fluctuate naturally, however, the lake is currently on a sustained, downward trend having lost significant volume and substantial river inflow over the past 150 years, leaving large areas of exposed lakebed;

WHEREAS, the current trajectory suggests there is a real and near-term risk of significant and irreversible impacts to the health of Great Salt Lake and its wetlands, which also poses a threat to Utah’s economy, public health and welfare, air quality, environmental resources, and the ability to provide water to meet Utah’s growing economy;

WHEREAS, other states or communities with closed basin lakes that have experienced excessive drying, have witnessed dire outcomes and have incurred enormous costs and public health, environmental and other economic effects;

WHEREAS, Great Salt Lake and its ecosystem could face a similar fate due to historic water management practices, diversions, drought and variable climatic conditions; and

WHEREAS, by taking steps now, Utah will be best-positioned to avoid the kind of degradation and economic harm experienced by other states or communities:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, recognize the critical importance of ensuring adequate water flows to Great Salt Lake and its wetlands, to maintain a healthy and sustainable lake system.

BE IT FURTHER RESOLVED that the Legislature and the Governor recognize there is a need for an overall policy that supports effective administration of water flow to Great Salt Lake to maintain or increase lake levels, while

appropriately balancing economic, social, and environmental needs, including the need to sustain working agricultural land.

BE IT FURTHER RESOLVED that the Legislature and the Governor encourage the Departments of Natural Resources and Environmental Quality through their relevant divisions to expeditiously, jointly, and collaboratively engage with a wide-range of stakeholders to develop recommendations for policy and other solutions to ensure adequate water flows to Great Salt Lake and its wetlands.

BE IT FURTHER RESOLVED that the Legislature and the Governor encourage the presentation of findings, conclusions, and recommendations to the Legislature and Governor, including encouraging a report of progress in achieving the objectives of this resolution to the Natural Resources, Agriculture, and Environment Interim Committee by no later than November 30, 2020.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to the Utah Department of Natural Resources, the Utah Department of Environmental Quality, the Great Salt Lake Advisory Council, and all municipalities and counties bordering Great Salt Lake or within the Great Salt Lake watershed.

Special Clauses:

WHEREAS, 50 years ago in 1969 the 38th legislature of the state of Utah passed landmark legislation, sponsored by Miles (Cap) Ferry, Merrill

WHEREAS, this legislation enacted the "Farmland Assessment Act of 1969," and it has been commonly referred to as the "Greenbelt Amendment";

WHEREAS, this unique method of assessment is vital to agriculture operations in close proximity to expanding urban areas, where taxing agricultural property at market value could make farming operations economically prohibitive;

WHEREAS, productive values are established by the Utah State Tax Commission with the assistance of a five-member Farmland Assessment Advisory Committee and Utah State University and county-wide productive values are based upon income and expense factors associated with agriculture activities;

WHEREAS, Utah's agriculture receipts, or the market value of agricultural commodities, totaled \$1.7 billion in 2017, reflecting a steady increase over decades and generations of farmers;

WHEREAS, Utah agriculture continues to be an important economic driver accounting for \$2.5 billion in total economic output when including economic multiplier effects, and combining both agriculture production and processing produces nearly 80,000 Utah jobs and \$3.5 billion in compensation;

WHEREAS, Utah production agriculture is a vast undertaking, from producing a bounty of food for consumers, to growing the wood that frames our homes, the fiber in our clothes, and even the renewable fuel in our cars;

WHEREAS, Utah farmers and ranchers are dedicated to an important mission -- feeding Americans so we do not have to depend on other nations for our most basic need;

WHEREAS, Utah farmers and ranchers love the land and animals in which they are stewards and love helping Utah's rural and urban economies stay economically vibrant;

WHEREAS, Utah's farm and ranch families make up less than 1% of Utah's population and receive only 16 cents (on average) out of every retail dollar spent on food that is eaten at home and away from home, down nearly 50% from 1980; and

WHEREAS, for 50 years Utah Legislatures have recognized the vital role the Farmland Assessment Act has had in maintaining and sustaining Utah family farms and ranches by repeatedly anchoring and upholding a productive value property tax for qualifying Utah farm and ranch landowners:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, recognizes the "Farmland Assessment Act of 1969" as landmark legislation that paves the way for Utah's farmers and ranchers to remain strong stewards of Utah's private lands and waters.

**JOINT RESOLUTION APPROVING
NOTES TO WATER RIGHTS ADDENDA**

Chief Sponsor: Derrin R. Owens
Senate Sponsor: Ralph Okerlund

LONG TITLE

General Description:

This joint resolution of the Legislature adopts notes to water rights addenda to deeds.

This resolution adopts:

- ▶ the notes to water rights addendum to land deeds; and
- ▶ the notes to water rights addendum to water deeds.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah:

WHEREAS, it is the intent of the Legislature of the state of Utah that the state engineer shall use and distribute to a county recorder's office the water rights addendum to land deeds as described in Section 57-3-109; and

WHEREAS, it is the intent of the Legislature of the state of Utah that the state engineer shall use and distribute to a county recorder's office the water rights addendum to water deeds as described in Section 57-3-109:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah adopts the notes to the water rights addendum to land deeds incorporated by reference in, and attached to, this joint resolution.

BE IT FURTHER RESOLVED that the Legislature of the state of Utah adopts the notes to the water rights addendum to water deeds incorporated by reference in, and attached to, this joint resolution.

BE IT FURTHER RESOLVED that the Legislature of the state of Utah directs the chief clerk of the Utah House of Representatives to send a copy of this joint resolution, the notes to the water rights addendum to land deeds, and the notes to the water rights addendum to water deeds to the state engineer for distribution.

**NOTES TO WATER RIGHTS
ADDENDUM TO LAND DEEDS**

Please read the following notes carefully in order to avoid problems and the possible loss of the water rights being conveyed in connection with this transaction.

The mere purchase of a water right does not guarantee: (1) that the water right is in good standing with the Utah Division of Water Rights; (2) that the owner has clear title to the water right; (3) that the Division will recognize the ownership change; or (4) that the Division will approve any proposed changes or extensions regarding the water right. You are encouraged to conduct proper "due diligence" research into any water right before purchasing it.

N1 Once this Water Rights Addendum and deed has been recorded at the County Recorder's Office, the county recorder shall transmit a paper or electronic copy of the deed and water rights addendum to the state engineer. Water right deeds and addendum submitted in conformance with statute which names as the grantor the person listed as owner on state engineer records - shall be processed as though it were a completed report of water right conveyance. If the state engineer does not update water right ownership on records of the Division upon submittal of a Water Right Addendum and deed, a water right owner must submit a report of water right conveyance (ROC) as directed in Utah Code Section 73-1-10(3). Filing an ROC is necessary in order to: (1) have the Division's records updated with current ownership and address information; (2) file any application on these water rights; and (3) receive notifications concerning deadlines and other essential information pertaining to these rights. Help with reviewing the water rights and the ROC can be obtained from the Utah Division of Water Rights and/or water professionals, such as attorneys, engineers, surveyors, and title professionals with experience in water rights and water law.

N2 A water right often has one or more applications on file with the Utah Division of Water Rights that affect that water right, such as change applications, extension requests, and non-use applications. All applications will be transferred with the water right. The Grantee should review the water right applications and other documents on file with the Utah Division of Water Rights.

N3 Water rights owned by the Grantor and used on Grantor's Parcel may be "appurtenant" to Grantor's Parcel. Not all appurtenant water rights have been assigned a water right number because not all water rights are "of record." If Section A is being completed, this conveyance includes all appurtenant water rights, whether or not they are listed by water right number or are of record; only water right numbers listed on the addendum will be updated. Grantee should investigate each water right listed and determine if there are any water rights that are not of record. If there are water rights not of record, Grantee should seriously consider making them of record by filing the

appropriate forms with the Utah Division of Water Rights.

N4 100% of the water rights listed here are being conveyed to Grantee. The Water Rights listed in Section B may not provide sufficient water for all of the historical water uses.

N5 Less than 100% of the water right listed is being conveyed to Grantee. The exact portion to be conveyed, expressed in terms of the beneficial uses associated with this portion of the water right must be described. This description generally consists of: (1) the number of families for domestic (indoor culinary) uses (generally quantified as 0.45 acre-feet per family for a year round residence and 0.25 acre-feet per family for a seasonal residence); (2) the number of acres irrigated (this involves issues of "irrigation duty" [the number of acre-feet of water allowed per acre of irrigated land] and "sole supply/supplemental supply" [the amount of water allocated to each water right when more than one right is used on the same land or for the same livestock]; and (3) the number of livestock being watered (expressed in terms of equivalent livestock units or "ELUs" which are quantified at the rate of 0.028 acre-feet per ELU for full-year use. Any other uses being conveyed should be similarly described. Help with understanding the described uses of the water right can be obtained from the Utah Division of Water Rights and/or water professionals.

N6 Shares of stock in water companies (including irrigation, canal, and ditch companies) are generally not transferred by deed. Each company has procedures for transferring ownership. The company should be contacted to ascertain the appropriate procedures to follow. The most common procedure is for the Grantor to endorse and deliver the stock certificate to the Grantee, who then presents that certificate to company for issuance of a new certificate in the Grantee's name. If another procedure is to be followed, that should be noted on the "Other water related disclosures" line in Section C of this form. Each company also defines how much water is associated with a particular share and what fees and assessments are charged. The Grantee should contact the company about all such issues.

N7 If culinary water service is currently being provided to the Grantor's Parcel by a municipality, a water district, or a water company, that entity should be listed here and the Grantee should contact that entity to ascertain what is required to continue receiving such service.

N8 If outdoor/secondary/irrigation water service is currently being provided to the Grantor's Parcel by a municipality, a water district, or a water company, that entity should be listed here and the Grantee should contact that entity to ascertain what is required to continue receiving such service.

N9 If this box is checked, the Grantee should investigate what water IF ANY is available for use on the Grantor's Parcel.

N10 This space should be used for any other information that the Grantor has which is relevant to water issues associated with the Grantor's Parcel.

JOINT RESOLUTION DIRECTING A STUDY OF BLOCKCHAIN TECHNOLOGY

Chief Sponsor: Michael K. McKell
Senate Sponsor: Daniel Hemmert

LONG TITLE

General Description:

This resolution directs a legislative study of blockchain technology.

Highlighted Provisions:

This resolution:

- ▶ recognizes the potential benefits and applications of blockchain technology; and
- ▶ directs the Business and Labor Interim Committee to study and make legislative recommendations regarding the potential benefits and value of blockchain technology, including potential uses in state government.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah:

WHEREAS, blockchain is a decentralized distributed ledger technology that allows creation, validation, and encrypted transaction of digital assets to happen and be recorded in an incorruptible way;

WHEREAS, blockchain allows peer-to-peer and business-to-business transactions to be completed without the need for a third party, which is often a bank, effectively reducing transaction costs;

WHEREAS, recording transactions through blockchain virtually eliminates human error and protects the data from possible tampering;

WHEREAS, the global blockchain market is expected to be worth \$20 billion by 2024, and 90% of major North American and European banks are exploring blockchain solutions;

WHEREAS, a hyperconnected government enables unprecedented transparency and efficiency where services are tailored to an individual's needs; and

WHEREAS, instead of using blockchain technology only for currency, new blockchain systems could focus on other types of transactions, such as exchanging titles for houses or cars, essentially decentralizing the infrastructure for these sales and making them faster and cheaper compared to what would normally be a slow complicated trudge through bureaucracy;

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah directs that, before the 2020 Annual General Session, the Business and Labor Interim Committee study the potential benefits and value of blockchain technology, including the potential benefits and value it could provide to state government administration and affairs.

BE IT FURTHER RESOLVED that the Business and Labor Interim Committee, based on its study of blockchain technology, prepare any legislation it finds appropriate for consideration by the Legislature during the 2020 Annual General Session.

CONCURRENT RESOLUTION ON THE PAYMENT FOR TREATMENT IN AN INSTITUTION FOR MENTAL ILLNESS

Chief Sponsor: Lincoln Fillmore

House Sponsor: Brad M. Daw

LONG TITLE

General Description:

This concurrent resolution urges Congress to extend Medicaid coverage beyond 15 days for services provided in certain settings to adults with serious mental illness.

Highlighted Provisions:

This resolution:

- ▶ urges Congress to extend Medicaid coverage beyond 15 days for services provided in certain settings to adults with serious mental illness.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the scope of medical and behavioral health care services covered by Utah's Medicaid program is determined in large measure by federal law;

WHEREAS, for many years, federal law has prohibited coverage of services provided to adults with serious mental illness in an institution for mental disease (IMD), which is an inpatient residential facility having more than 16 beds;

WHEREAS, the federal prohibition long ago achieved its intended purpose of shifting treatment of mental illness from IMDs to outpatient and small residential inpatient settings;

WHEREAS, in 2016, federal regulators authorized coverage of services provided in IMDs for up to 15 days in a month under certain circumstances;

WHEREAS, treatment for more than 15 days in the Utah State Hospital, specialty psychiatric hospitals, or other IMDs is still the most medically appropriate intervention for a small number of Utahns who do not respond to outpatient treatment, inpatient treatment in a small residential setting, or short-term treatment in an IMD;

WHEREAS, many of these individuals are ravaged by the recurring effects of serious mental illness because they are unable to receive appropriate treatment in an IMD, due to the federal coverage limit;

WHEREAS, the federal government and the state of Utah unnecessarily expend significant sums of public revenue by repeatedly arresting, incarcerating, treating, and housing a small number of individuals who fail to receive

appropriate treatment for a serious mental illness; and

WHEREAS, society suffers when those who could be restored to a stable, fulfilling life go untreated due to outdated policies:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, urges Congress to extend Medicaid coverage beyond 15 days for services provided in an IMD to adults with serious mental illness.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to Utah's congressional delegation and the United States Secretary of Health and Human Services.

**CONCURRENT RESOLUTION
REGARDING THE PUBLIC
EMPLOYEES’ HEALTH PLANS**

Chief Sponsor: Daniel Hemmert
House Sponsor: Norman K. Thurston

LONG TITLE

General Description:

This concurrent resolution directs the Public Employees’ Benefit and Insurance Program to offer certain benefits with respect to employee health benefit packages.

Highlighted Provisions:

This resolution:

- ▶ describes the state’s philosophy on compensation and benefit design for state employees;
- ▶ emphasizes the need for greater flexibility with respect to overall compensation design, including health benefit plans, offered to state employees; and
- ▶ directs the Public Employees’ Benefit and Insurance Program to:
 - allow employees, under certain circumstances, to elect that up to half of the amount that would otherwise go to the employee’s HSA be forwarded to the employee as cash;
 - maintain plans, premiums, and premium share percentages for the 2019–2020 plan year;
 - changes the name of the “Utah Basic Plus” plan to “Consumer Plus”; and
 - cover certain preventative chronic disease medications before the deductible in certain plans.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the state offers a competitive compensation package for employees that generally provides higher benefits than salary compared to other employers in the market;

WHEREAS, while many state employees prefer a higher level of benefits compared to salary, others may prefer more compensation in cash and less in benefits;

WHEREAS, the state desires to provide flexibility for employee compensation preferences as long as it does not alter the overall structure of compensation or result in higher costs to the state;

WHEREAS, the state currently offers state employees three health plan options, two of which are qualified high-deductible health plans for which the state provides a Health Savings Account (HSA) contribution to the employee as part of the benefit design;

WHEREAS, the state’s HSA contribution to an employee is not subject to federal or state tax nor is it countable as income for retirement, workers’ compensation, long-term disability, or other benefits;

WHEREAS, the combined amount of an employer HSA contribution and premium savings as compared to other available plan options should not exceed an employee’s deductible from an actuarial standpoint;

WHEREAS, the state’s HSA contribution and premium savings compared to the Traditional Plan exceed an employee’s deductible on the STAR Plan, which has resulted in a cap on the state’s HSA contribution and a reduction in the comparative value of the STAR Plan benefit; and

WHEREAS, data from the Public Employees’ Benefit and Insurance Program (PEHP) supports cost offsets in medical complications from increased medication adherence by covering certain preventative chronic medications before the deductible:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, directs PEHP to:

(1) create a flexible spending account to allow a state employee participating in a qualified high-deductible health plan to elect up to half of the allocation sent to PEHP as an HSA contribution to be forwarded to the employee rather than deposited into the employee’s HSA;

(2) require a state employee who requests any part of an HSA contribution in cash to agree as a condition of receiving the sum that:

(a) the sum shall be treated as an employer benefit and thus not be counted toward retirement, workers’ compensation, long-term disability, or any other benefit; and

(b) the employee will be responsible for all taxes related to that sum, including any employer-related taxes; and

(3) distribute any cash-elected sum to state employees at the same time that HSA contributions are dispersed.

BE IT FURTHER RESOLVED that the Legislature and Governor direct PEHP to change the name of the plan currently known as "Utah Basic Plus" to "Consumer Plus."

BE IT FURTHER RESOLVED that PEHP shall maintain the same plans, benefits, and employee premium share percentages for the 2019-2020 plan year that were available during the 2018-2019 plan year, except that PEHP shall identify and cover certain preventative chronic disease medications before the deductible for HSA STAR Plan members, subject to applicable cost sharing requirements that would otherwise apply.

Highlighted Provisions:

This resolution:

- ▶ directs the Public Employees' Benefit and Insurance Program to issue a request for proposals for health care services using a value-based payment methodology.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, most healthcare in Utah is paid for on a fee-for-service basis by which providers are paid for each activity they perform;

WHEREAS, fee-for-service rewards a provider for performing more services and discourages a provider from performing services not recognized as compensable by insurance;

WHEREAS, value-based payment arrangements better align financial incentives between payers, providers, and patients through gain sharing and various forms of fixed and risk-based payments for episodes of care and patient populations; further, these arrangements can also improve health outcomes for patients;

WHEREAS, the state has an interest in promoting the health of its employees and encouraging the development of value-based payment arrangements;

WHEREAS, there are various potential approaches for value-based payment arrangements and some providers may prefer one approach to another; and

WHEREAS, the state wishes to issue a request for proposals (RFP), through the Public Employees' Benefit and Insurance Program (PEHP), to encourage providers to come forward with proposals for offering services to state employees using value-based payment arrangements and for PEHP to contract with one or more providers who are willing and able to provide high quality and cost-effective services using such an arrangement:

NOW, THEREFORE, BE IT RESOLVED that the Legislature, the Governor concurring therein, directs PEHP to:

- (1) issue an RFP by July 1, 2019, for health care services using a value-based payment methodology;
- (2) determine whether an RFP response:
 - (a) clearly and adequately defines the scope of proposed services and the intended population for those services;

 - (d) satisfactorily addresses all clinical, quality, and operations-related issues raised in the RFP or by PEHP; and
 - (e) meets all other RFP requirements;
- (3) rank each RFP response and determine which, if any, should be awarded a contract, which may not exceed three years; and

**CONCURRENT RESOLUTION URGING
 LEGAL MEDICAL CANNABIS BANKING**

Chief Sponsor: Jacob L. Anderegg
 House Sponsor: Melissa G. Ballard

LONG TITLE

General Description:

This concurrent resolution urges the President of the United States and Congress to resolve the medical cannabis banking issue.

Highlighted Provisions:

This resolution:

- ▶ acknowledges that, despite the enactment of the Utah Medical Cannabis Act, cannabis plant extracts remain classified as Schedule I controlled substances under federal law;
- ▶ recognizes that the illegality of cannabis under federal law restricts the medical cannabis industry's legal access to financial institutions' banking services;
- ▶ warns of the dangers associated with businesses that operate entirely in cash; and
- ▶ urges the President and Congress to remove the barriers that prohibit the medical cannabis industry from legally accessing banking services.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, in 2018, the Legislature enacted H.B. 3001, Utah Medical Cannabis Act, which provides for the cultivation, processing, medical recommendation, and patient use of medical cannabis;

WHEREAS, despite the legalization of medical cannabis under the Utah Medical Cannabis Act, cannabis plant extracts such as cannabidiol (CBD) and tetrahydrocannabinol (THC) are classified by federal law as Schedule I controlled substances;

WHEREAS, the classification of CBD and THC as Schedule I controlled substances makes using, prescribing, and dispensing these substances illegal under federal law;

WHEREAS, the illegality of cannabis under federal law further restricts the ability for a cannabis business operating legally under state law to access banking services from United States or state-chartered financial institutions;

WHEREAS, in July 2015, the United States Federal Reserve System denied a Colorado credit union access to its payment systems, sparking a lawsuit in which the court upheld the Federal Reserve's claim that, given the illegality of cannabis at the federal level, the credit union did not have the right to insert state cannabis money into the federal banking system;

WHEREAS, the outcome of this case indicates that:

- courts will defer to the Federal Reserve's significant control over access to its payment systems; and
- states are not able to circumvent federal statutes in order to solve the problem of cannabis banking simply by chartering and endorsing special financial institutions;

WHEREAS, any industry conducting its business entirely in cash cannot be fairly taxed or regulated, and has historically been associated with unlawful activity, such as money laundering and increased threats to the security of the business and its patrons;

WHEREAS, the Utah Medical Cannabis Act will inevitably involve financial transactions between cultivators, producers, medical cannabis pharmacies, and users of medical cannabis, and the ensuing medical cannabis industry in Utah will require access to financial services;

WHEREAS, while some financial institutions may be willing to risk breaking federal law in order to provide much-needed banking services to medical cannabis businesses, many remain reluctant to take such a risk; and

WHEREAS, it is in the best interest of all Utahns that Utah's financial institutions provide banking

services to support the medical cannabis industry and patients under the Utah Medical Cannabis Act:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, strongly encourage the President of the United States and Congress to remove the barriers that prohibit the medical cannabis industry from legally accessing banking services.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to the President of the United States, each member of Utah's congressional delegation, the National Conference of State Legislatures, and the Governors' Association.

Highlighted Provisions:

This resolution:

- ▶ recognizes the potential for natural gas production increasing in the United States;
- ▶ recognizes the role that Utah can play in growing the economy and protecting our national security through energy supplies;
- ▶ recognizes that natural gas is produced in an environmentally safe way and is an efficient use of energy;
- ▶ recognizes the strategic role of rural communities and the Ute and Navajo Tribal Nations in the development and production of energy resources in Utah;

- ▶ recognizes various LNG export terminals, such as the Jordan Cove LNG export terminal;
- ▶ supports the export of LNG and petroleum products as a way to provide economic development opportunities to rural Utah; and
- ▶ supports LNG export terminals to export Utah natural gas to international markets.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the State of Utah supports an “all of the above” energy policy and the responsible development and marketing of its abundant energy and mineral resources, including natural gas, petroleum, and coal;

WHEREAS, the potential for natural gas production in the United States has increased substantially due to technological advancements in oil and natural gas extraction methods;

WHEREAS, abundant associated gas from oil production and increasing natural gas production in Utah and throughout the United States continue to keep natural gas prices low and oversupply and low pricing are creating an increased demand for United States natural gas in Asia and other international markets for export as LNG;

WHEREAS, due to the demand for LNG globally, Utah has an opportunity to maintain its position as a net exporter of energy and a leader in energy production and innovation in the region;

WHEREAS, Utah can play a key role in growing the American economy and in securing our national security through energy exports, infrastructure development, stakeholder engagement and outreach;

WHEREAS, natural gas is produced in an environmentally safe and friendly way and is an efficient use of energy, and ample supplies of natural gas are available from domestic resources, such as in Utah;

WHEREAS, Utah’s rural communities have long produced the energy necessary to drive Utah’s fast and diverse growing urban economy, Utah can now provide the energy necessary for developing nations in Asia and India to the largest emerging middle class for its residential, commercial, manufacturing, and medical advancements;

WHEREAS, many of these energy-producing rural communities in Utah have not always enjoyed the same shared prosperity that has come with Utah’s tremendous economic growth in recent decades due to “stranded resource assets” or a lack of access to United States and international markets due to the lack of railway, highway, and pipeline infrastructure directly connected to west coast and gulf coast markets;

WHEREAS, additional natural gas production in Utah will create high paying jobs, attract capital investment, provide federal, state, and local revenues derived from federal mineral royalties and state severance taxes collected on natural gas production and royalties for Utah School Trust Lands Administration, whose major beneficiaries include Utah’s school children;

WHEREAS, Utah has an interest in collaborating with the Ute and Navajo Tribal Nations on initiatives, such as the Western States and Tribal Nations Rural Natural Gas Initiative, that advance the shared interests of the state of Utah and the Ute and Navajo Tribal Nations in the responsible

development and marketing of their respective natural resources; and

WHEREAS, a west coast LNG export terminal, such as Oregon’s proposed Jordan Cove LNG export terminal would directly connect Utah’s resources to new energy markets through the Ruby Pipeline, LNG terminals in Mexico could directly connect Utah natural gas to new markets through the Kern River Pipeline, and LNG terminals in the gulf coast of Texas and Louisiana will continue to alleviate negative pricing pressure for natural gas in the Rocky Mountains and reduce oversupply into this region:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, supports LNG exports as a way to increase oil production and natural gas production in Utah, so that Utah’s rural communities can take an active part in, and receive the benefits of Utah’s global economic development.

BE IT FURTHER RESOLVED that the Legislature and the Governor support LNG export terminals to export Utah natural gas to international markets.

JOINT RESOLUTION SUPPORTING THE STUDY OF WATER BANKING IN UTAH

LONG TITLE

General Description:

This resolution requests recommendations on the development and creation of water banks to further the 2017 State Recommended Water Strategy.

Highlighted Provisions:

This resolution:

- ▶ encourages the study of possible options to create and develop water banks to further the 2017 State Recommended Water Strategy and the preparation of recommendations for the Legislature to consider for the 2020 General Session.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah:

WHEREAS, in July 2017, the Governor's Water Strategy Advisory Team finalized a Recommended State Water Strategy, which identified strategies to help meet the water demands of the more than five million people who are projected to live in Utah by 2060;

WHEREAS, the Recommended State Water Strategy identified ways to stretch Utah's limited

water supplies and provide clean and affordable water to sustain thriving communities and businesses, robust agriculture, ample recreation, and a healthy and resilient natural environment;

WHEREAS, the Recommended State Water Strategy found that there is a need to facilitate temporary water right transfers through leases, contracts, or other voluntary arrangements to supply competing water uses during a given year and to meet authorized uses and short-term needs;

WHEREAS, the Recommended State Water Strategy found that water banks could facilitate voluntary temporary transfers and provide increased transparency regarding the nature and costs of such transactions;

WHEREAS, a water bank facilitates the temporary transfer of water by allowing water users to “deposit” unused water into the bank in years when they do not need it so that other users in the region can lease the water for lawful purposes;

WHEREAS, the Recommended State Water Strategy recommended the establishment of “water banking procedures through legislative action that could allow flexibility in the availability of water for various uses in a particular drainage system depending on needs and availability”;

WHEREAS, during the 2017 General Session, the Legislature passed S.B. 214 “Public Water Supplier Amendments,” which encouraged the Legislative Water Development Commission and the Executive Water Task Force to study possible options for expanding the groups who may file an application for instream flows;

WHEREAS, in response to S.B. 214, an informal committee of interested stakeholders was formed, consisting of agricultural representatives, public water suppliers, environmental organizations, and other stakeholders to study instream flows;

WHEREAS, the informal committee identified water banking as a topic ripe for discussion;

WHEREAS, water banking would address S.B. 214’s goals of facilitating instream flows while also supporting many of the Recommended State Water Strategy’s other recommendations, including providing water for environmental needs and minimizing the need to convert agricultural water rights to supply growing municipal and industrial needs; and

WHEREAS, interested stakeholders continue to develop consensus-based recommendations to implement the Recommended State Water Strategy’s water banking findings and recommendations and further the goals of S.B. 214:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah encourages the:

- (1) continued study of ways to implement the recommendations in the 2017 Recommended State Water Strategy regarding water banking; and
- (2) support of the goals of S.B. 214.

BE IT FURTHER RESOLVED that the Legislature encourages the presentation of findings, conclusions, and recommendations, including any suggested legislation, to the Legislature before the 2020 General Session.

BE IT FURTHER RESOLVED that recommendations and legislation presented to the Legislature:

- (1) recognize that the majority of water rights in Utah are agricultural in nature;
- (2) incentivize agricultural water users to participate in water banking;
- (3) protect against abandonment and forfeiture for water rights placed within a water bank;
- (4) minimize the potential for water right impairment; and
- (5) ensure that water placed within a water bank may be leased or otherwise used for any lawful purpose.

OFFICE OF THE GOVERNOR

GARY R. HERBERT
GOVERNOR

SPENCER J. COX
LIEUTENANT GOVERNOR

March 25, 2019

Dear President Adams and Speaker Wilson,

I have vetoed SB 123, Election Process Amendments. Compared to how candidates are selected in our regular Congressional elections, this bill significantly limits participation and choice in elections to fill vacancies in the United States House of Representatives and therefore limits the ability of Utah voters to choose their Congressional representatives. I am also concerned that the replacement process for the United States Senate identified in SB123 creates ambiguities by failing to explain how the entire Legislature will forward three names to the Governor.

Utah law provides multiple paths to the ballot for partisan elections: a political party convention and signature gathering being the most common. These options have been embraced by the majority of Utah voters as providing reasonable alternatives to access the ballot.

Although most general election candidates are chosen through the party convention process, recent election results demonstrate that Utah primary voters appreciate the choice afforded by both the political party convention method and the signature gathering method for candidate selection. For example, John Curtis, who ultimately won the Republican primary for the special election in Utah's third congressional district, got his name onto the Republican Party primary ballot because he gathered signatures.

The caucus system has been preserved in Utah law and remains a strong, critical component of Utah elections. Recent changes in Utah law add to that foundation and give candidates the choice to pursue one or more options. That system is working well for both candidates and voters. SB123 establishes a different system that removes choices from candidates and from the voters.

For these reasons, I have vetoed SB123. I look forward to working with the Legislature on a Congressional vacancy replacement procedure that reflects our general election process.

Dear Speaker Wilson and President Adams,

I have allowed HB 220, Radioactive Waste Amendments to become law without my signature.

I have had reservations about how this legislation came forward. Nonetheless, I recognize the need to address challenges of dealing with modifying standards at the federal Nuclear Regulatory Commission by creating a robust site-based performance assessment standard for Utah. This bill does that.

Most importantly, before depleted uranium can be accepted and stored in Utah, this bill requires the federal government to accept long-term care and maintenance of the waste.

Public safety is my primary concern with the issue of radioactive waste. With the modifications that have been made to this bill, I believe public safety is protected and it will be more difficult for depleted uranium to come into Utah than under current law.

Dear President Adams and Speaker Wilson:

I have allowed SB154, Utah Communications Authority Amendments, to become law without my signature.

SB154 helps Utah take an important step toward implementation of Next Generation 911. This will provide first responders with better information about the location of 911 callers. In turn, that will help first responders locate and provide life-saving services to injured people.

Public safety is, and has always been, a focus of my administration. Government must make appropriate investments to keep residents safe and to respond when emergencies do occur. Because the stakes are so high with Next Generation 911 and because our 911 systems need critical upgrades, I agree that SB154 should become law.

However, the Utah Communications Authority should do more in coming months to articulate a clear business case including performance measures, the need for a 178% increase in the statewide 911 emergency service charge, and a plan to incorporate improvements resulting from this bill into the overall 911 structure.

I look forward to working with the Utah Communications Authority and other stakeholders on these critical issues.

Speaker of the House

Dear President Adams and Speaker Wilson:

I have allowed SB187, County Planning and Services Amendments, to become law without my signature.

What was originally intended to be a one-year project will now extend to a total of six years.

I strongly encourage the Mountain Planning District to complete its work in as timely a manner as possible.

Sincerely,

A handwritten signature in black ink that reads "Gary R. Herbert".

Governor
