(2) The state board may use up to 5% of the appropriation provided under this part to hire or contract with one or more individuals to conduct a needs assessment described in Subsection (1)(b).

(3) A school that was designated as a low performing school based on 2015-2016 school year performance that is not in the lowest performing 3% of schools statewide following the 2016-2017 school year is exempt from the provisions of this part.

(4) (a) The state board is not required to designate as a low performing school a school for which the state board is not required to assign an overall rating in accordance with Section 53E-5-204.

(b) The requirement to designate a school as a low-performing school described in Subsection (1) does not apply in the school year immediately following the 2020-2021 or 2021-2022 school year.

Section 2. Section 53F-2-209 is enacted to read:

53F-2-209. (Codified as 53F-2-210) Use of data to determine funding in fiscal years 2021 and 2022.

(1) For fiscal years 2021 and 2022, if data necessary for programmatic funding distributions to LEAs is inconsistent due to adjustments related to effects of the COVID-19 emergency, the state board may use the analogous data from fiscal year 2020 or the 2019-2020 school year, at the state

board's discretion to execute programmatic funding distributions to LEAs.

(2) The state board shall report to the Public Education Appropriations Subcommittee before September 30, 2021, on instances in which the board used fiscal year 2020 data under Subsection (1).

Section 3. Section 53F-2-304 is amended to read:

53F-2-304. Necessarily existent small schools -- Computing additional weighted pupil units -- Consolidation of small schools.

(1) As used in this section, "necessarily existent small schools funding balance" means the difference between:

(a) the amount appropriated for the necessarily existent small schools program in a fiscal year; and

(b) the amount distributed to school districts for the necessarily existent small schools program in the same fiscal year.

(2) (a) Upon application by a local school board, the state board shall, in consultation with the local school board, classify schools in the school district as necessarily existent small schools, in accordance with this section and state board rules adopted under Subsection (3).

(b) An application must be submitted to the state board before April 2, and the state board must report a decision to a local school board before June 2.

(3) The state board shall adopt standards and make rules, in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, to:

(a) govern the approval of necessarily existent small schools consistent with principles of efficiency and economy that serve the purpose of eliminating schools where consolidation is feasible by participation in special school units; and

(b) ensure that school districts are not building secondary schools in close proximity to one another where economy and efficiency would be better served by one school meeting the needs of secondary students in a designated geographical area.

(4) The state board shall prepare and publish objective standards and guidelines for determining which small schools are necessarily existent after consultation with local school boards.

(5) (a) Additional weighted pupil units for schools classified as necessarily existent small schools shall be computed using distribution formulas adopted by the state board.

(b) The distribution formulas establish the following maximum sizes for funding under the necessarily existent small school program:

(i) an elementary school	160
(ii) a one or two-year secondary school	300
(iii) a three-year secondary school	450
(iv) a four-year secondary school	500
(v) a six-year secondary school	600

(c) An elementary school with fewer than 10 students shall receive the same add-on weighted pupil units as an elementary school with 10 students.

(d) A secondary school with fewer than 15 students shall receive the same add-on weighted pupil units as a secondary school with 15 students.

(e) If a necessarily existent small school generates ADM in both elementary and secondary grades, the state board may divide the school's ADM between an elementary and secondary distribution formula.

(f) The state board shall prepare and distribute an allocation table based on the distribution formula to each school district.

(6) (a) To avoid penalizing a school district financially for consolidating the school district's small schools, additional weighted pupil units may be allowed a school district each year, not to exceed two years.

(b) The additional weighted pupil units may not exceed the difference between what the school district receives for a consolidated school and what the school district would have received for the small schools had the small schools not been consolidated.

(7) (a) The state board may allocate up to 208 weighted pupil units to support schools that:

(i) have isolating conditions, as defined by the state board, including geographic isolation; and

(ii) do not qualify for necessarily existent small schools funding due to formula limitations.

(b) The state board shall review funding allocations under this Subsection (7) at least once every five calendar years.

(8) If the state board classifies a school as a necessarily existent small school in accordance with this section, the state board shall, subject to legislative appropriation, distribute small district base funding to the relevant school district in the following amounts:

(a) for a district with 500 students or less, 83 additional weighted pupil units;

(b) for a district with 501 to 1,000 students, 28 additional weighted pupil units; and

(c) for a district with 1,001 to 2,000 students, 14 additional weighted pupil units.

(9) Subject to legislative appropriation, the state board shall give first priority from an appropriation made under this section to funding an expense approved by the state board as described in Subsection 53G-6-305(3)(a).

(10) (a) Subject to Subsection (10)(b) and after a distribution made under Subsection (9), the state board may distribute a portion of necessarily existent small schools funding:

(i) in accordance with a formula adopted by the state board that considers the tax effort of a local school board; or

(ii) to isolated small schools, as identified by the state board.

(b) The amount distributed in accordance with Subsection (10)(a) may not exceed the necessarily existent small schools fund in balance of the prior fiscal year.

(11) A local school board may use the money allocated under this section for maintenance and operation of school programs or for other school purposes as approved by the state board.

(12) (a) Notwithstanding this section and subject to legislative appropriations, the state board may, in accordance with Subsection (12)(b), distribute one-time funding that the Legislature appropriates to mitigate funding losses as described in legislative appropriations.

(b) The state board may make the distribution described in Subsection (12)(a) to school districts that:

(i) enroll fewer than 5,000 students; and

(ii) do not pay local property tax proceeds into the Uniform School Fund as described in Section 53F-2-301.5.

Section 4. Section 53F-2-418 is enacted to read:

53F-2-418. (Codified as 53F-2-419) English language learner software.

(1) Subject to legislative appropriations, the state board shall:

(a) allocate funds to LEAs for English language learner software; and

(b) make the allocation described in Subsection (1)(a) using a formula that provides:

(i) a base amount for each LEA that has English language learner students; and

(ii) a distribution of remaining funding in proportion to the LEA's share of statewide English language learner students.

(2) An LEA shall use an allocation the LEA receives under Subsection (1) to select a vendor and pay for software licenses for English language learner instruction.

(2) A charter school's eligibility for small charter school base funding is determined by the charter school's student enrollment on October 1 of a given year.

(3) Notwithstanding this section and subject to legislative appropriations, the state board may distribute to charter schools, regardless of size, one-time funding that the Legislature appropriates to mitigate funding losses as described in legislative appropriations.

The Legislature intends that the Division of Facilities and Construction Management not expend funds appropriated in FY 2022 for the construction of a higher education capital development project until the Utah Board of Higher Education demonstrates, by providing a written report to the Executive Appropriations Committee and the Division of Facilities and Construction Management, that the institution of higher education at which the higher education capital development project is located offers students substantially equal opportunities to attend courses in-person as the institution of higher education offered before transitioning in-person courses to online or virtual in Spring 2020.

Notwithstanding intent language in Senate Bill 2, Item 243, 2021 General Session, the Legislature intends that the Division of Facilities Construction and Management (DFCM) may use the money appropriated in Senate Bill 2, Item 243, and this item to pay for costs of a capital development project approved by the Legislature in the 2021 General Session that exceed the amount appropriated for the project, but not to exceed four percent more than the amount appropriated for the project. The Legislature further intends that if the estimated completion cost of an approved project exceeds 104 percent of the amount appropriated for the project, that the DFCM director report the estimated cost to the Executive Appropriations Committee and receive the committee's recommendation before proceeding with the project.

Section 3. FY 2022 Appropriations Limit Formula.

The state appropriations limit for a given fiscal year, FY, shall be calculated by

$$ApporpLimit_{FY} = PerCapitaBase_{1985} \times Pop_{FY-2} \times Inflate_{FY-2} \times SumAdjust_{FY}$$

, where:

(a) $$Inflate_{Base} = \frac{GNPIndex_{vintage,1983}}{GNPIndex_{vintage,1989}} = \frac{(100.8+101.7+102.5+103.3)/4}{(121.9+123.3+124.5+125.9)/4} = \frac{102.075}{123.900}$$

(b) $$Inflate_{FY-2} = \frac{GNPIndex_{FY-2}}{GNPIndex_{1983}} \times Inflate_{Base}$$

(c) $$PerCapitaBase_{1985} = \frac{Appropriations_{1985} - Debt_{1985}}{Pop_{1983} \times Inflate_{Base}} = \frac{734,333,000 - 52,273,100}{1,594,943 \times \left(\frac{102.075}{123.900}\right)}$$

(d) $$SumAdjust_{FY} = \sum_{i=1985}^{FY} \left[Adjust_i \times \left(\frac{Inflate_{FY-2}}{Inflate_{i-2}} \right) \times \left(\frac{Pop_{FY-2}}{Pop_{i-2}} \right) \right]$$

(e) as used in the state appropriations limit formula:

(i) i is a variable representing a given fiscal year;

(ii) $Adjust_i$ is the net adjustments to the state appropriations limit for a given fiscal year due to program or service adjustments, as required under Section 63J-3-203;

(iii) $Appropriations_{1985}$ is the state capital and operations appropriations from the General Fund and non-Uniform School fund in fiscal year 1985;

(iv) $Debt_{1985}$ is the amount the state paid in debt payments in fiscal year 1985;

(v) $GNPIndex_{FY-2}$ is the average of the quarterly values of the Gross National Product Implicit Price Deflator for the fiscal year two fiscal years before FY, as published by the United States Federal Reserve by January 31 of each year;

(vi) $GNPIndex_{vintage,i}$ is the average of the quarterly values of the Gross National Product Implicit Price Deflator for a given fiscal year, as measured by the Gross National Product Implicit Price Deflator from the vintage series published by the United States Department of Commerce on January 26, 1990;

(vii) $Inflate_{i-2}$ is the change in the general price level of goods and services nationally from 1983 to two fiscal years before a given fiscal year, as measured by the most current Gross National Product Implicit Price Deflator series published by the United States Federal Reserve, adjusted to a 1989 basis;

(viii) $PerCapitaBase_{1985}$ is the amount of real per capita state appropriations for fiscal year 1985; and

(ix) Pop_{i-2} is:

(A) the population as of July 1 in the fiscal year two fiscal years before a given fiscal year, as estimated by the United States Census Bureau by January 31 of each year; or

(B) if the estimate described in Subsection (3)(e)(ix)(A) is not available, an amount determined by the Governor's Office of Management and Budget, estimated by adjusting an available April 1 decennial census count or by adjusting a fiscal year population estimate available from the United States Census Bureau.

Section 4. Effective Date.

If approved by two-thirds of all the members elected to each house, Section 1 of this bill takes effect upon approval by the Governor, or the day following the constitutional time limit of Utah Constitution Article VII, Section 8 without the Governor's signature, or in the case of a veto, the date of override. Section 2 and Section 3 of this bill take effect on July 1, 2021.

CONCURRENT RESOLUTION ENCOURAGING A BALANCED APPROACH TO THE RELEASE OF WATER FROM FLAMING GORGE

Chief Sponsor: Scott H. Chew
Senate Sponsor: David P. Hinkins

LONG TITLE

General Description:

This concurrent resolution expresses support and recognition of the Green River Stakeholders and the need to reduce the adverse effects of current Flaming Gorge Dam operations to the local communities, recreational businesses, ranchers, farmers, landowners, and individuals who work and live within the river corridor.

Highlighted Provisions:

This resolution:

- describes the Green River Stakeholders and their concerns associated with the management of the Flaming Gorge Dam;
- describes an alternative method of managing the Flaming Gorge Dam;
- describes the need for investigations and cooperative discussions related to management of the Flaming Gorge Dam; and
- supports the creation of a new management plan.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the "Green River Stakeholders" is a group of local communities, recreational businesses, ranchers, farmers, landowners, and individuals who work and live within the river corridor associated with the Flaming Gorge Dam and who are adversely affected by the current methods employed by the Western Area Power Administration, the Upper Colorado River Endangered Fish Recovery Program, and ultimately the Bureau of Reclamation because of releases of water from the Flaming Gorge Dam;

WHEREAS, the Green River Stakeholders, wishing to reduce the physical and economic impacts of current river flow management, propose an alternative method of protecting the endangered fish species, while complying with Section 7 of the Endangered Species Act, thus preserving the balance that has been desired in the Upper Colorado River Basin water rights discussions;

WHEREAS, the Green River Stakeholders, from the dam to the confluence of the Colorado River, propose partnerships with private landowners that provide for private landowner benefits, such as compensation or shore recovery, and that also provide for recovery of endangered fish in the river so that the fish would no longer be listed as endangered;

WHEREAS, the benefits of these partnerships with private landowners can be achieved with more predictable flushes of the Green River each year, allowing the local stakeholders to support and enhance the Upper Colorado River Endangered Fish Recovery Program;

WHEREAS, the economic impact to the communities along the entire length of the Green River is affected by the daily operations of the Flaming Gorge Dam dictated by the Bureau of Reclamation as guided by the 2006 "Record of Decision";

WHEREAS, current flow requirements have resulted in what may be unintended but are real consequences of the current management plan such as erosion of banks, issues with sediment, the sub-saturation of private land due to high water levels, and floods over banks of the Green River whenever highwater flows occur;

WHEREAS, it is essential that the government and private stakeholders participate in an investigation of how to mitigate the harms of the highwater releases to address the environment, recreation, and economic impacts related to these releases;

WHEREAS, private landowners may demonstrate loss of private property as erosion creates a dynamic stream bed along the river corridor, which has impacts such as recreation by the public on the sandbanks created by the erosion and on the adjacent private land and the loss of agricultural viability of the land;

WHEREAS, the amount of water that is bypassed through the dam system without going through turbines constitutes missed opportunities for producing low cost and carbon free power; and

WHEREAS, a new management plan for the Flaming Gorge Dam should be developed in the near future and would benefit from input from a diverse group of stakeholders, including local communities, recreational businesses, ranchers, farmers, and individuals who work and live within the river corridor associated with the Flaming Gorge Dam:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, supports the creation of a new management plan that allows stakeholders to participate in the development and implementation of the plan and provides a balanced approach to the release of water from the Flaming Gorge Dam.

BE IT FURTHER RESOLVED that a copy of the resolution be sent to the Commissioner for the Bureau of Reclamation, the director of the Upper Colorado River Endangered Fish Recovery Program, the administrator and CEO of the Western Area Power Administration, and the executive director of the Department of Natural Resources.

CONCURRENT RESOLUTION ON EFFECT OF FEDERAL LAND VALUATION MODEL

Chief Sponsor: Keven J. Stratton
Senate Sponsor: Lincoln Fillmore

LONG TITLE

General Description:

This concurrent resolution clarifies the lack of impact that a federal land valuation model has on greenbelt valuations.

Highlighted Provisions:

This resolution:

- addresses a federal land valuation model developed for the purpose of determining the fair market value of federal land in the state to demonstrate the inadequacy of money the state receives from the federal government as payments in lieu of taxes;
- describes the value of the federal land valuation model;
- distinguishes between the purpose and use of the federal land valuation model and the purpose and use of schedules for determining the value of greenbelt land; and
- affirms that the federal land valuation model does not and will not impact the determination of greenbelt land values.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, while Utah appreciates every dollar of money received from the federal government under the Payment in Lieu of Taxes (PILT) program, the harsh reality is that PILT money the federal government pays is substantially less than the amount the state would receive if PILT payments reflected the amount of property tax that would be generated from that land if it were taxed based on its true market value;

WHEREAS, accurately and persuasively determining the fair market value of federal land within the state is an important step in demonstrating the discrepancy between what the state would receive if federal land generated taxes based on the land's fair market value and what the federal government actually pays in PILT;

WHEREAS, the Federalism Commission was charged with overseeing the development of a federal land valuation model to provide a reliable and accurate tool for determining the market value of federal land within the state for purposes of demonstrating the inadequacy of PILT money received from the federal government;

WHEREAS, under the direction of the Federalism Commission a software program, or federal land valuation model, for determining the market value of federal land within the state was developed;

WHEREAS, this federal land valuation model is an effective tool for determining the fair market value of federal land within the state;

WHEREAS, the model does not value and is not intended to be used to value land in the state other than federal land;

WHEREAS, as allowed under the Utah Constitution, the Farmland Assessment Act, commonly referred to as the greenbelt law, provides for land used for agricultural purposes to be assessed on the basis of its value for agricultural use rather than at full market value;

WHEREAS, the State Tax Commission has developed complex rules under the greenbelt law to guide county assessors in their assessment of greenbelt land, and those rules require the Property Tax Division to update and publish schedules to determine the taxable value of greenbelt land;

WHEREAS, the Property Tax Division schedules are based in part on an annually updated university study relating to the different types of agricultural land and their value and are not related to the valuation of federal land in the state;

WHEREAS, the Property Tax Division has determined that: greenbelt land is valued and assessed based on its productive value for agricultural use without regard to the value the land may have for any other purpose; the model developed under the Federalism Commission's direction seeks to estimate the market value of federal land and estimates a very different value than the values determined under the Property Tax Division schedules for greenbelt land; and the federal land valuation model will not have any impact on the determination of greenbelt values in the state; and

WHEREAS, the Legislature, the Governor concurring therein, wants to dispel any concerns about the federal land valuation model having any impact on the valuation of agricultural land for greenbelt purposes:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, affirms that the federal land valuation model, developed under the direction of the Federalism Commission, is intended only to assist the state in establishing the fair market value of federal land within the state for purposes of demonstrating the inadequacy of PILT money received from the federal government and should not and will not be used in a way that has any impact on the valuation of land for purposes of the greenbelt law.

CONCURRENT RESOLUTION ENCOURAGING COOPERATIVE ACTION REGARDING NATIONAL MONUMENTS

Chief Sponsor: Carl R. Albrecht
Senate Sponsor: David P. Hinkins

LONG TITLE

General Description:

This concurrent resolution encourages the President to work cooperatively with the state's congressional delegation, the state's legislative and executive branches, local communities, and tribes on action regarding national monuments.

Highlighted Provisions:

This resolution:

- outlines the state's stewardship of lands;
- addresses the federal government's creation of federal monuments in the state; and
- encourages the Biden administration to work with state leaders to create permanent solutions to the issues raised by federal monuments.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the state is a wise steward of the land and is committed to conservation and continued recreational access for hunters, anglers, campers, and other recreationists, as well as allowing for productive uses, including agriculture, timber production, and energy and natural resource development, and traditional/historical uses like those of tribes;

WHEREAS, Utah, local residents, and tribes value the culturally and historically significant artifacts and sites in the state;

WHEREAS, Utah was the first state to provide state-managed resource management plans -- signaling Utah's commitment to responsible management;

WHEREAS, the state and federal government share interests, along with the tribes, in preserving sensitive areas and artifacts, in creating a balanced approach to managing national monuments, and in responsibly developing resources on public lands;

WHEREAS, for an extended period of time, Utah has been the center of controversial and divisive unilateral national monument decisions;

WHEREAS, although Utah's congressional delegation and many state and local leaders publicly opposed the designation of the Bears Ears National Monument, in December 2016, President Obama designated the Bears Ears National Monument, limiting public access to 1.35 million acres in San Juan County and affecting over 100,000 acres of land held by the School and Institutional Trust Lands Administration to which Utah should have a legal right to access;

WHEREAS, the Grand Staircase-Escalante National Monument was created in 1996 by President Clinton without input or support from Garfield or Kane counties, their citizens, their public officials, or the state legislature and without consideration of roads, local economies, customs, culture, and heritage;

WHEREAS, the designation of Utah lands as monuments has reduced the ability of the state to actively manage for land health issues such as vegetation treatments, erosion control, water management, grazing management, wildlife management activities, fire management, and invasive plant control;

WHEREAS, the tourism economy that national monuments create fails to offset the negative financial impacts of reduced natural resources related jobs and the state's ability to manage lands for future economic growth;

WHEREAS, Utah has an interest in protecting Utah's lands in a way that also protects the economy, development, custom, culture, heritage, educational opportunities, health, and well-being of local communities;

WHEREAS, both Grand Staircase-Escalante National Monument and Bears Ears National Monument were reduced in size in 2017, and new management plans have been written accordingly;

WHEREAS, President Biden issued an executive order on his first day in office calling for a study of enlarging both monuments;

WHEREAS, changing the size of these national monuments every four to eight years does not help anyone, particularly those whose life and livelihood are tied to the land;

WHEREAS, the nation, state, and tribes will benefit from a unified effort to address management of Utah's land;

WHEREAS, the only way to provide long-term stable management solutions is through federal legislation that includes returning broad land designation authority in Utah to Congress in consultation with the state legislature;

- supports congressional efforts to extend and expand the Radiation Exposure Compensation Act.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, Congress enacted the Radiation Exposure Compensation Act (RECA) in 1990 and broadened the act's scope in 2000 to provide compensation for the devastating and deadly health effects and the grave injustice inflicted upon unsuspecting civilians by exposure to radiation from fallout from atmospheric nuclear weapons tests and by exposures from working in the uranium industry;

WHEREAS, RECA was a bi-partisan bill, sponsored by Representative Wayne Owens and Senator Orrin Hatch and included amongst the compensation provisions eligibility for compensation for downwinders with certain cancers who lived in a limited number of counties in Utah, Nevada, and Arizona during specified years;

WHEREAS, the RECA terminates in 2022 and the RECA Trust Fund terminates after July 10, 2022, and claims not filed within 22 years after July 10, 2000, will be barred;

WHEREAS, over 23,000 downwinder claims, 4,749 onsite participant claims, and 8,785 uranium workers for compensation under RECA have been approved, according to the Congressional Research Service (2020), with 278 claims pending as of January 7, 2020;

WHEREAS, studies of the numbers of premature deaths due to fallout exposure from United States atmospheric nuclear weapons testing vary widely, but amount to tens to hundreds of thousands;

WHEREAS, people throughout Utah and neighboring western states have suffered and continue to suffer serious health consequences from exposure to fallout from past explosive nuclear testing;

WHEREAS, the Legislature has acknowledged the harms experienced by Utahns as the result of nuclear testing, for example:

(1) in 2001, the 54th Legislature of the state of Utah voted in support of H.C.R. 1, Resolution for a Day of Remembrance, marking the 50th anniversary of the beginning of nuclear testing at the Nevada Test Site, recognizing that "many Utahns and many other citizens of the United States of America living downwind of those tests suffered as a result of being 'active participants' in the nation's nuclear testing program"; and

(2) in 2010, the House of Representatives of the 58th Legislature of the state of Utah voted in support of H.R. 4, Resolution Urging Ratification of the Comprehensive Nuclear Test Ban Treaty, recognizing that "past nuclear weapons testing at the Nevada Test Site has devastated the health and livelihoods of thousands of Utahns";

WHEREAS, some of the highest recorded and documented exposures to fallout from some tests were in portions of Montana, Idaho, and northern Utah, which are not covered by RECA;

WHEREAS, bills sponsored by members of both parties have been introduced in both the United States House of Representatives and the Senate to extend and expand RECA in past sessions of Congress;

WHEREAS, a recent congressional bill proposed to extend the time for filing of claims under RECA for an additional 23 years (through 2045) and increase compensation for downwinders from $50,000 to $150,000;

WHEREAS, examples of other changes proposed by congressional legislation include:

(1) the geographical eligibility for compensation for exposure to atmospheric atomic testing to cover all of Utah, Arizona, Colorado, Idaho, Montana, Nevada, and New Mexico;

(2) geographical eligibility to cover persons present during atmospheric testing in the Pacific;

(3) to create a special geographical category for compensation of individuals physically present for two years in the area of the Trinity Test in New Mexico from June 30, 1945, until August 19, 1958; and

(4) to create eligibility for compensation for those present during the cleanup of Enewetak Atoll; and

WHEREAS, two bills to expand and extend RECA have been filed in the United States House of Representatives, H.R. 612 and H.R. 538, and there is every expectation that similar bi-partisan legislation will also be filed in 2021:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, supports congressional legislative efforts to extend and expand RECA.

BE IT FURTHER RESOLVED that copies of this resolution be sent to the Utah congressional delegation, the speaker of the United States House of Representatives, the majority leader of the United States Senate, and the President of the United States of America.

WHEREAS, the Legislature formerly codified the recognition, in Section 53E-2-301, that "parents are a child's first teachers and are responsible for the education of their children," and encourages "family engagement and adequate preparation so that students enter the public education system ready to learn";

WHEREAS, Section 53E-2-201 similarly describes the responsibility of the Legislature, the State Board of Education, local school boards, and charter school governing boards as respecting, protecting, and furthering "the interests of parents in their children's public education" and promoting and encouraging "full and active participation and involvement of parents at all public schools";

WHEREAS, the Utah Parent-Teacher's Association's resolution entitled, "Family Engagement in Education," affirms that "research has shown that the most significant predictor of a student's academic success is parental engagement in the student's education, regardless of socioeconomic status, ethnic/racial background, or parents' educational level";

WHEREAS, the federal Title I compliance monitoring cycle will measure family engagement in December of 2022; and

WHEREAS, the state of Utah would benefit from a state-wide examination of newcomer and multilingual family engagement practices, particularly if this examination places no additional burden on teachers and administrators due to federal requirements, to identify existing best practices, to identify areas of improvement, and to ensure these families are supported in their efforts to contribute to the public school system:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, hereby celebrates and values the existing contributions of multilingual and newcomer families to Utah's public education system, despite the barriers they face in doing so.

BE IT FURTHER RESOLVED that the Legislature and the Governor recognize the critical importance of multilingual and newcomer family engagement to improving the academic outcomes of multilingual and newcomer students and their ability to contribute to Utah's economy, Utah's society, and follow their own dreams and aspirations.

CONCURRENT RESOLUTION IN SUPPORT OF CRIMINAL JUSTICE RESTORATION AND REFORM

Chief Sponsor: Keven J. Stratton
Senate Sponsor: Kirk A. Cullimore

LONG TITLE

General Description:

This resolution highlights issues related to cost and effectiveness of the criminal justice system.

Highlighted Provisions:

This resolution:

- affirms the important role the criminal justice system plays in keeping our families and communities safe;
- highlights certain harms done by inefficiencies in the criminal justice system; and
- commits to seeking out and implementing criminal justice policies that cut costs while obtaining better outcomes, including eliminating excessive government regulation where inadvertent noncompliance has been deemed a criminal offense.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, the purpose of the criminal justice system is to make our communities safer while securing liberty and justice for all in a cost-effective manner;

WHEREAS, a report from the Prison Policy Initiative indicates Utah state prisons and jails currently incarcerate approximately 14,000 people;

WHEREAS, a report from the Annie E. Casey Foundation published in 2016 estimated that from 2011-2012, 44,000 children in the state of Utah had an absent parent due to incarceration;

WHEREAS, the same report notes that having an incarcerated parent contributes significantly to economic instability for the family, and in many instances, has led to a significant increase in child homelessness;

WHEREAS, corrections expenditures are the second fastest growing budget item for states, with over $1.3 billion in taxpayer dollars spent in 2010 on Utah's criminal justice system;

WHEREAS, lengthy prison terms increase recidivism rates for low-level offenders, with more than half of state offenders returning to prison within three years;

WHEREAS, many former offenders often face difficulties seeking gainful employment due to legal restrictions on those with a criminal history, including occupational licensing laws, which leads to increased recidivism rates;

WHEREAS, any government program with a failure rate this high would justifiably prompt serious reconsideration to determine potential efficiencies and areas for reform;

WHEREAS, conservative states, such as Utah, Texas, Alabama, Georgia, Kansas, Mississippi, North Carolina, Ohio, South Carolina, and South Dakota have adopted policies that have been proven to safely reduce incarceration rates, save billions in taxpayer dollars, significantly cut crime rates, and make our communities safer by reducing recidivism and allowing law enforcement to focus on serious and violent offenders; and

WHEREAS, these policies increase personal responsibility, remove government obstacles to putting ex-offenders back to work, and use proven and effective faith-based, educational, and rehabilitative programs which allow these individuals to pursue productive, crime-free lives:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, supports effective criminal justice reforms for nonviolent offenders at the state and federal level that protect our communities, respect crime victims, restore families, safely reduce prison populations, decrease the size and scope of government overreach and spending, and increase transparency and accountability.

BE IT FURTHER RESOLVED that the Legislature, the Governor concurring therein, supports efforts to coordinate with families and faith-based communities, provide substance abuse treatment to addicts, emphasize work and education, remove unnecessary barriers that limit a formerly incarcerated individual from gaining employment and housing, and implement policies that cut costs while obtaining better outcomes.

BE IT FURTHER RESOLVED that the Legislature, the Governor concurring therein, will work to eliminate excessive government regulation where inadvertent noncompliance has been deemed a criminal offense.

of force in 2021 General Session, House Bill 227; and

- makes technical and conforming changes.

Special Clauses:

This resolution provides a special effective date.

Utah Rules of Civil Procedure Affected:

AMENDS:

Rule 12, Utah Rules of Criminal Procedure

Be it resolved by the Legislature of the state of Utah, two-thirds of all members elected to each of the two houses voting in favor thereof:

As provided in Utah Constitution Article VIII, Section 4, the Legislature may amend rules of procedure and evidence adopted by the Utah Supreme Court upon a two-thirds vote of all members of both houses of the Legislature:

Section 1. Rule 12, Utah Rules of Criminal Procedure is amended to read:

Rule 12. Motions.

(a) Motions. An application to the court for an order shall be by motion, which, unless made during a trial or hearing, shall be in writing and in accordance with this rule. A motion shall state succinctly and with particularity the grounds upon which it is made and the relief sought. A motion need not be accompanied by a memorandum unless required by the court.

(b) Request to Submit for Decision. If neither party has advised the court of the filing nor requested a hearing, when the time for filing a response to a motion and the reply has passed, either party may file a request to submit the motion for decision. If a written Request to Submit is filed it shall be a separate pleading so captioned. The Request to Submit for Decision shall state the date on which the motion was served, the date the opposing memorandum, if any, was served, the date the reply memorandum, if any, was served, and whether a hearing has been requested. The notification shall contain a certificate of mailing to all parties. If no party files a written Request to Submit, or the motion has not otherwise been brought to the attention of the court, the motion will not be considered submitted for decision.

(c) Time for filing specified motions. Any defense, objection or request, including request for rulings on the admissibility of evidence, which is capable of determination without the trial of the general issue may be raised prior to trial by written motion.

(c) (1) The following shall be raised at least 7 days prior to the trial:

(c) (1) (A) defenses and objections based on defects in the indictment or information;

(c) (1) (B) motions to suppress evidence;

(c) (1) (C) requests for discovery where allowed;

(c) (1) (D) requests for severance of charges or defendants;

(c) (1) (E) motions to dismiss on the ground of double jeopardy; or

(c) (1) (F) motions challenging jurisdiction, unless good cause is shown why the issue could not have been raised at least 7 days prior to trial.

(c) (2) Motions for a reduction of criminal offense at sentencing pursuant to Utah Code § 76-3-402(1) shall be in writing and filed at least 14 days prior to the date of sentencing unless the court sets the date for sentencing within ten days of the entry of conviction. Motions for a reduction of criminal offense pursuant to Utah Code § 76-3-402(2) may be raised at any time after sentencing upon proper service of the motion on the appropriate prosecuting entity.

(c) (3) Motions on the justification of the use of force pursuant to Utah Code section 76-2-309 shall be filed:

(c) (3) (A) in writing; and

(c) (3) (B) at least 28 days before trial, unless there is good cause shown as to why the issue could not have been raised at least 28 days before trial.

(d) Motions to Suppress. A motion to suppress evidence shall:

(d) (1) describe the evidence sought to be suppressed;

(d) (2) set forth the standing of the movant to make the application; and

(d) (3) specify sufficient legal and factual grounds for the motion to give the opposing party reasonable notice of the issues and to enable the court to determine what proceedings are appropriate to address them.

If an evidentiary hearing is requested, no written response to the motion by the non-moving party is required, unless the court orders otherwise. At the conclusion of the evidentiary hearing, the court may provide a reasonable time for all parties to respond to the issues of fact and law raised in the motion and at the hearing.

(e) A motion made before trial shall be determined before trial unless the court for good cause orders that the ruling be deferred for later determination. Where factual issues are involved in determining a motion, the court shall state its findings on the record.

(f) Failure of the defendant to timely raise defenses or objections or to make requests which must be made prior to trial or at the time set by the court shall constitute waiver thereof, but the court for cause shown may grant relief from such waiver.

(g) A verbatim record shall be made of all proceedings at the hearing on motions, including such findings of fact and conclusions of law as are made orally.

(h) If the court grants a motion based on a defect in the institution of the prosecution or in the indictment or information, it may also order that bail be continued for a reasonable and specified time pending the filing of a new indictment or

information. Nothing in this rule shall be deemed to affect provisions of law relating to a statute of limitations.

Section 2. Contingent effective date.

WHEREAS, it is clear that much more must be done to combat sexual assault in the armed forces;

HOUSE RESOLUTION HONORING DONOVAN MITCHELL OVER SHAQUILLE O'NEAL

Chief Sponsor: Kera Birkeland

LONG TITLE

General Description:

This resolution honors Utah Jazz All-Star Donovan Mitchell.

Highlighted Provisions:

This resolution:

- recognizes the exemplary service of Donovan Mitchell to the Utah Jazz and the Utah community; and
- suggests consideration of making the "Spida" the official state arachnid.

Special Clauses:

None

Be it resolved by the House of Representatives of the state of Utah:

WHEREAS, the Utah Jazz are a beloved part of the Utah community and the National Basketball Assocation (NBA);

WHEREAS, in Utah, we support our players when they face awkward abuse during post-game interviews disguised as pep talks;

WHEREAS, the claim by Shaquille O'Neal (Shaq) on January 21, 2021, that Utah Jazz All-Star Donovan Mitchell Jr. (Donovan) doesn't have what it takes to get to the next level is even less accurate than his 50.4% playoff free-throw percentage (slightly worse than Donovan's 88.1%);

WHEREAS, the Jazz eliminated Shaq and the Los Angeles Lakers from the playoffs in 1997 (4-1) and 1998 (4-0);

WHEREAS, we are not talking about 2000, 2001, 2002, or 2006 right now, the years in which Kobe Bryant's Los Angeles Lakers and Dwayne Wade's Miami Heat won championships for Shaq;

WHEREAS, Kazaam has a 5% rating on rotten tomatoes;

WHEREAS, Shaq under-develops his hot takes almost as well as his 1990's "Shaq Fu" video game;

WHEREAS, Shaq correctly described Donovan as an elite scorer, given that in just his third NBA season during the 2020 playoffs, Donovan became the third player in NBA history to have at least two 50-point games in a single playoff series (joining Michael Jordan in his fourth season and Allen Iverson in his third season);

WHEREAS, on the same night that Shaq disparaged Donovan, Donovan made his 600th three-pointer earlier in his career than any other player in the history of the NBA;

WHEREAS, as of January 26, 2021, Donovan has drained 1,995 field goals, 604 3-pointers, and 894 free-throws;

WHEREAS, Donovan Mitchell is more than just a scorer, having grabbed 982 rebounds, swatted 79 blocks, and picked 306 steals for the Jazz, as of January 26, 2021;

WHEREAS, it is hard to pull down rebounds when All-Star Rudy Gobert is on your team, grabbing more rebounds than anyone else in the league as a two-time defensive player of the year (more than Shaq's zero), one-time league leader in blocks (more than Shaq's zero), and four-time All-Defensive 1st Teamer (more than Shaq's zero);

WHEREAS, although Shaq's "skill" was being bigger than everyone else, Donovan has progressively succeeded through talent, dedication, and constant effort;

WHEREAS, the following immortal words, once spoken by Bill Walton, apply equally to Donovan, "He is a champion of basketball and of the human spirit as well";

WHEREAS, Donovan has provided backpacks, school supplies, and most importantly, his time, to Utah students;

WHEREAS, Donovan launched the SPIDACARES, a foundation to empower women following the example set by his mother and sister; and

WHEREAS, Donovan has consistently demonstrated his decency by freely and abundantly giving to local communities and charities while volunteering his time to help his fellow Utahns:

NOW, THEREFORE, BE IT RESOLVED that the House of Representatives of the State of Utah recognizes the exemplary service of Donovan Mitchell Jr. to the Utah Jazz and to the people of the great state of Utah.

BE IT FURTHER RESOLVED that the House of Representatives consider making the "Spida" the official state arachnid.

BE IT FURTHER RESOLVED that the House of Representatives also recognizes the tremendous impact Shaquille O'Neal, one of the all-time NBA greats, has made in communities throughout the United States through generous donations of his time and resources.

BE IT FURTHER RESOLVED "Aight. That's it."

- confront the issues of moral dilemmas and conflicts of conscience posed by the Holocaust and other genocides;
- learn how the Holocaust contributed to the need for the term "genocide" and led to international legislation that recognized genocide as a crime; and
- contextualize and illuminate patterns of human behavior by individuals and groups and their choices of roles, including perpetrator, collaborator, bystander, victim, resister, and rescuer;

WHEREAS, the study of the Holocaust and other genocides also sharply illustrates the responsibilities of citizens in democratic societies to combat misinformation, indifference, and discrimination through tools of resistance such as protest, reform, and free and fair elections;

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, encourages the State Board of Education to continue its practice of adopting K-12 social studies standards that include the study of the Holocaust and other genocides at grade levels appropriate for such study, and in all other subject area standards as suitable.

BE IT FURTHER RESOLVED that the Legislature and Governor encourage the State Board of Education and local education agencies to continue providing and promoting professional learning activities for educators that include evidence-based pedagogical practices and access to high-quality teacher resources for providing instruction about the Holocaust and other genocides.

BE IT FURTHER RESOLVED that the Legislature and Governor encourage local education agencies and educators to use and disseminate instructional best practices and high-quality curricula of appropriate lengths and complexities – coordinated across grade levels and subject areas whenever possible – across the state that could form the basis for a Holocaust and Genocide Studies secondary elective course.

BE IT FURTHER RESOLVED that the Legislature and Governor encourage parents and families to reinforce the important lessons learned from this study by promoting civic virtues and beneficial character qualities.

CONCURRENT RESOLUTION SUPPORTING THE REMOVAL OF URANIUM MILL TAILINGS NEAR THE COLORADO RIVER IN MOAB

Chief Sponsor: David P. Hinkins
House Sponsor: Christine F. Watkins

LONG TITLE

General Description:

This concurrent resolution urges the Department of Energy to take appropriate action regarding removal of uranium mill tailings.

Highlighted Provisions:

This resolution:

- outlines the history of efforts to remove the uranium mill tailings;
- discusses the risks associated with not removing the uranium mill tailings in a timely manner; and
- urges the Department of Energy to expedite and fully fund the removal of the remaining uranium mill tailings from the banks of the Colorado River located at the Moab Uranium Mill Tailings Remedial Action (UMTRA) Project site.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, in October 2000, the Floyd D. Spence National Defense Authorization Act of 2001 assigned the United States Department of Energy responsibility to establish a remedial action program and stabilize, dispose of, and control uranium mill tailings and other contaminated material at the Moab, Utah uranium ore processing site and associated properties in the vicinity;

WHEREAS, the remedial action project involved the excavation of an estimated 16 million ton pile of uranium mill tailings from the Moab site near the Colorado River and transportation to and disposal at engineered disposal cells constructed at Crescent Junction, 30 miles north of Moab;

WHEREAS, in 2005, the Department of Energy released the Record of Decision to move the 16 million tons of uranium mill tailings to Crescent Junction;

WHEREAS, the National Defense Authorization Act of 2008, passed by the United States Congress on January 28, 2008, established a target completion date of 2019 for the Moab Uranium Mill Tailings Remedial Action (UMTRA) Project;

WHEREAS, remediation of the Moab UMTRA Project must be performed in accordance with Title I of the Uranium Mill Tailings Radiation Control Act and related federal cleanup standards;

WHEREAS, the Department of Energy established the strategic goal to meet the challenges of the twenty-first century and the nation's Manhattan Project and Cold War legacy responsibilities and to work aggressively to address cleanup at the Moab site;

WHEREAS, in federal fiscal years 2010 and 2011, the Moab UMTRA Project with additional funding from the American Recovery and Reinvestment Act from 2008 was able to move more than two millions tons of tailings annually to Crescent Junction for disposal;

WHEREAS, if 2010 and 2011 fiscal year funding levels had continued, the 2019 target date set by the National Defense Authorization Act would have been met;

WHEREAS, by fiscal year 2018 the available funding of $37.5 million was sufficient to transport only 480,000 tons per year;

WHEREAS, for both fiscal years 2019 and 2020, the Moab UMTRA Project's budget was increased to $45 million, and that following additional hiring and contracting, tailings transport increased to 709 thousand tons in federal fiscal year 2019 and 859 thousand tons in fiscal year 2020 and operated at an annual rate of 944,000 tons under continuing resolutions during the first quarter of fiscal year 2021;

WHEREAS, the additional funding authorized for fiscal years 2019 and 2020, following a three

month mobilization period at the start of 2019, made it possible for the Moab UMTRA Project to switch from normally sending two trainloads of tailings per week to sending four trainloads per week starting on February 4, 2019, and that the Moab UMTRA Project has also worked to increase tailings transport through equipment changes and modification of operating procedures;

WHEREAS, the increased budgets for fiscal years 2019 and 2020 have demonstrated that the Moab UMTRA Project can effectively use additional funding to increase the rate of annual tailings transport and disposal;

WHEREAS, by the end of 2020, the Moab UMTRA Project had transported about 11.2 million tons of tailings from the Moab site to Crescent Junction and thus completed an estimated 70% of uranium mill tailings removal;

WHEREAS, maintaining the Moab UMTRA Project's annual budget at a minimum of the 2018 inflation adjusted equivalent of $45 million per year will reduce the number of years necessary to fund full tailings removal and associated Moab UMTRA Project overhead;

WHEREAS, as long as the tailings are located along the Colorado River, there is potential for a major flood event to disrupt Moab UMTRA Project operations and contaminate the water supply for many of the Colorado River's 40 million users;

WHEREAS, the section of the Union Pacific rail line that the Moab UMTRA Project uses for its tailings loading operation was the scene of a major landslide that interrupted tailings transport for two months and resulted in over $1 million in mitigation costs;

WHEREAS, the geologic hazard to employees working under the cliff has been mitigated by construction of a reinforced concrete wall, continuous radar monitoring for rock movement, and procedures that reduce employee time beneath the most recent slide area, however the hazard to workers can be further mitigated by reducing the number of years workers are loading trains;

WHEREAS, the geologic hazards associated with the Moab UMTRA site will continue, which will increase the cost of the project to taxpayers;

WHEREAS, 485 acres of prime real estate cannot be used until the pile is removed and the land is remediated;

WHEREAS, until the project is completed, the acreage is a blight, rather than a benefit, to Grand County;

WHEREAS, the tailings pile can be viewed by the people who annually visit Arches and Canyonlands National Parks;

WHEREAS, the Department of Energy, upon completion of remedial action work at some of the Department of Energy's sites, has transferred the property to other governmental entities for future beneficial community uses;

WHEREAS, both Grand County and Moab City have passed resolutions affirming their desire to obtain title to the Moab UMTRA Project site so that the property may be used for future beneficial community uses;

Chief Sponsor: David P. Hinkins
House Sponsor: Keven J. Stratton

LONG TITLE

General Description:

This concurrent resolution addresses natural resources and energy in the state.

Highlighted Provisions:

This resolution:

- reminds the federal government of Bureau of Land Management requirement to manage public lands for multiple uses and values;
- implores the federal government to consult with state, tribal, and other stakeholders;
- implores the federal government for a fair and balanced consideration in future federal land management decisions impacting the state; and
- reminds the federal government that Utah is a sovereign state.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS, Utah is blessed with a rich and diverse mineral estate;

WHEREAS, Utahns have been developing mineral resources since territorial days;

WHEREAS, mineral resource development has driven community and economic development throughout the state;

WHEREAS, Utah currently produces or has active operations for crude oil, natural gas, copper, gold, silver, molybdenum, coal, phosphate, potash, magnesium, lithium, salt, beryllium, lime, rhenium, cement, gilsonite, uranium, vanadium, platinum, palladium, lead, clay, gypsum, oil shale, oil sands, frac sand, iron ore, utelite, and helium, with other mineral production under development;

WHEREAS, the Utah Geological Survey reports that Utah hosts 28 of the 35 minerals on the United States Department of Interior's list of critical minerals or material mineral groups that was published in the Federal Register on May 18, 2018, with current or historical production of many of those minerals;

WHEREAS, within the United States, Utah is currently the 9th largest oil producer and 13th largest natural gas producer, according to data from the United States Energy Information Administration, and the 11th largest coal producer and 7th largest nonfuel mineral producer, according to data from the United States Geological Survey;

WHEREAS, Utah has been a net energy exporter since 1980, producing on average 26% more energy than is consumed according to data from the Utah Geological Survey;

WHEREAS, in 2018, according to Utah Geological Survey data, Utah exported only 3% of Utah's energy as Utah's energy generation from coal and natural gas decreased significantly, and further production declines, from new restrictive federal land policies, risks turning the state into a net importer of energy rather than a net exporter;

WHEREAS, the federal government manages two-thirds of the land in Utah, following only Nevada amongst the states with the largest percentage of federally managed public lands, according to data from the Congressional Research Service;

WHEREAS, of energy-producing states, Utah has the largest percentage of federally managed public lands, making Utah disproportionately affected by federal land, mineral, and energy policy;

WHEREAS, according to data from the Utah Division of Oil, Gas, and Mining data, 56% of Utah's current oil and gas wells are on federally managed public lands and 92% of coal mined in Utah is federal coal;

WHEREAS, given the checkerboard nature of surface and mineral rights ownership, production prohibitions on federally managed public lands can impede the recovery of private, state, and tribally-owned resources;

WHEREAS, Utah's natural resources and energy industries provide the raw materials, fuels, and electricity that undergird the state's fast growing economy;

WHEREAS, Utah's natural resources are used in a plethora of critical products, supply chains, processes, and industries throughout the United States and the world;

WHEREAS, fossil fuels made up 89% of Utah's total electricity generation in 2019, supporting some of the consistently lowest electricity rates in the country;

WHEREAS, nearly two-thirds of Utah's electricity generation comes from coal, the majority of which is produced in Utah;

WHEREAS, Utah's fuels industry is highly integrated, with much of the gasoline fueling our state's economy being produced and refined within the state;

WHEREAS, Utah also has vast resources used in other forms of energy generation, including:

(1) uranium needed for nuclear power generation;

(2) unconventional resources such as oil shale and oil sands; and

(3) various feedstocks for hydrogen production;

WHEREAS, products derived from Utah petroleum are used in a multiplicity of applications, including in personal protective equipment critical to public health during the COVID-19 pandemic;

WHEREAS, products manufactured using Utah minerals are used in innumerable applications in modern society, testifying to the adage, "If it cannot be grown, it has to be mined";

WHEREAS, Utah has demonstrated that substantial natural resources and energy industries can coexist with robust tourism and outdoor recreation industries;

WHEREAS, natural resources industries play a key role in funding badly needed maintenance on our national parks, contributing a significant portion of the more than one billion dollars in oil and gas royalties that the Great American Outdoors Act, passed by the United States Congress in 2020, directs annually to fund park maintenance for the National Park Service;

WHEREAS, according to the Energy Information Administration, the United States is the leader in greenhouse gas reductions and has been since 2005;

WHEREAS, federal actions that discourage production on federally-managed lands will not change market demand for oil, gas, and minerals, but will encourage production in other locales and countries with less stringent environmental and labor protections;

WHEREAS, this off-shoring of energy and minerals production will transfer economic gains from the United States, the state, and our local communities to other nations, oftentimes those of our adversaries;

WHEREAS, Utah is an exemplar of innovation and problem solving, including through the voluntary proliferation of Tier 3 gas from the state's refiners, allowing for up to an 80% reduction in tailpipe emissions, Utah is clearing the way for the Wasatch Front to attain the PM 2.5 standard;

WHEREAS, Utah's natural resources industries are among the largest private employers in many rural parts of the state;

WHEREAS, the oil, gas, and mining industries pay hundreds of millions of dollars in direct production taxes, mineral royalties, and property taxes, including directly to the Utah School and Institutional Trust Lands Administration and indirectly to the state via the state's share of Mineral Leasing Act revenues realized from development of leaseable minerals on federal lands;

WHEREAS, oil, gas, mining, and energy jobs also support a substantial number of service and support jobs around the state;

WHEREAS, oil, gas, and mining jobs are among the highest paid wages in the state according to

Utah Department of Workforce Services data, well above the county averages in extractive industry communities; and

WHEREAS, these family and community sustaining wages cannot be readily replaced:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the State of Utah, the Governor concurring therein, reminds the federal government of the federal government's legal obligation to hold lease sales under the Mineral Leasing Act.

BE IT FURTHER RESOLVED that the Legislature and the Governor remind the federal government that the Federal Land Policy and Management Act requires the Bureau of Land Management to manage public lands for multiple uses and values.

BE IT FURTHER RESOLVED that the Legislature and the Governor implore the federal government to consult with state, tribal, and other stakeholders in the development and implementation of federal Resource Management Plans.

BE IT FURTHER RESOLVED that the Legislature and the Governor implore the federal government for a fair and balanced consideration, with state input and involvement, in future federal land management decisions impacting the state, including national monument boundaries and decisions, leasing and permitting policies, wildlife and habitat protection decisions, and other federal policies and initiatives that will have an immediate impact on Utah's economy and way of life.

BE IT FURTHER RESOLVED that the Legislature and the Governor remind the federal government that Utah is a sovereign state and implores that Utah's rights for energy self-determination and economic self-determination be respected.

The Honorable Stuart Adams
President of the Senate

Dear Speaker Wilson and President Adams:

This letter serves to inform you that I have vetoed Senate Bill 39, Hemp Regulation Amendments.

I appreciate the Legislature's efforts in passing S.B. 39 to address issues related to hemp production in Utah. Initially, S.B. 39 was introduced during the interim as a consensus bill recommended by the Utah Department of Agriculture and Food. However a number of changes made to the bill in the intervening time have raised concerns sufficient to warrant a veto. This is unfortunate because I believe other provisions of the bill contain good policy that would be beneficial to the state. If the issues raised below can be addressed, I would be pleased to include the bill in the call for a special session this year.

Of primary concern are provisions relating to the legalization of hemp flower, class registration of hemp products, and cannabidiol (CBD) in food and alcoholic beverages. First, the legalization of hemp flower as provided in the bill creates enforcement problems due to difficulties in distinguishing legal hemp flower from marijuana flower or hemp flower with unlawful concentrations of tetrahydrocannabinol (THC) or THC analog. Effective enforcement of the bill's hemp flower provisions would require additional personnel, scientific instruments, testing kits, and method development and validation.

Second, the bill permits hemp products to be registered as a class, which would allow products with the same ingredients but different dosage strengths to be in the same class. This is unwise. Dosage strength is one of the most important differences between cannabinoid products. Allowing products with different dosage strengths to be registered as the same product has serious implications for product review, registration, and enforcement, which would increase costs and impede the state's ability to guarantee that each product in a class is safe for the public.

Finally, I am concerned by the bill's provisions that appear to permit CBD in food and alcoholic beverages. These provisions are inconsistent with guidance from the Food and Drug Administration, which may jeopardize important federal funding to the state's food programs. Furthermore the Alcohol and Tobacco Tax and Trade Bureau will not approve labels or formulas for any alcoholic beverages that contain controlled substances under federal law, including CBD and products containing hemp ingredients other than those derived from hemp seeds or hemp oil. Because the Department of Alcoholic Beverage Control would not have the ability to determine whether an alcoholic beverage contained a permissible percentage of THC under S.B. 39, the bill would lead to inequitable and potentially dangerous results in terms of what alcoholic products may permeate off-premise markets. Given these issues, it is concerning that the Department of Alcoholic Beverage Control was not consulted as a stakeholder during the preparation of the bill.

For these reasons, I have vetoed S.B. 39, HEMP REGULATION AMENDMENTS, and returned it to the Senate.

Sincerely,

Spencer J. Cox

The Honorable Brad Wilson
Speaker of the House

Dear President Adams and Speaker Wilson:

This letter serves to inform you that I have vetoed Senate Bill 187, Local Education Agency Policies Amendments.

During the past few months our office has negotiated in good faith with the legislature on determining the proper balance of emergency powers. We have agreed on the importance of retaining for our state and local health officials the ability to act quickly and appropriately in times of emergency. For example, S.B. 195 Emergency Response Amendments, which I signed, provides for necessary checks on this authority that are directly connected to the state and local legislative bodies. In contrast, S.B. 187 was not part of these negotiations, nor were the provisions that it contains.

Communication with affected entities is critical in an emergency, but S.B. 187 provides unnecessary and potentially problematic hurdles for health departments to respond to public health emergencies in their communities, which may hamper a timely response. While this bill was contemplated with the current scenario of a long term pandemic in mind, it will most likely be applied to different types of community health emergencies. I encourage all local health departments to develop strong relationships with their local stakeholders including and beyond schools. However, the burden placed on these departments under S.B. 187 is unnecessary and potentially dangerous.

For these reasons I have vetoed S.B. 187, LOCAL EDUCATION AGENCY POLICIES AMENDMENTS, and returned it to the Senate.

The Honorable Stuart Adams
President of the Senate

Dear Speaker Wilson and President Adams:

After great consideration and with some reluctance, I have vetoed Senate Bill 228, Electronic Free Speech Amendments.

Today the internet is our most important forum for public discourse and debate, and recent events raise serious questions about the power that private entities wield over the voice and reach of public officials and private citizens alike. The sponsors of this bill have raised valid questions about the impact social media platforms can have on public discourse and debate. Our country continues to grapple with very real and novel issues around freedom of speech, the rights of private companies and the toxic divisiveness caused by these new forms of connection, information and communication. The ability of social media companies to amplify some voices and silence others should give pause to all who treasure our most democratic value – the right of free speech. How we address the influence of private internet companies on speech will have far-reaching consequences for our democracy.

Whatever course of action we take to protect online speech should seek to fully uphold the values enshrined in the First Amendment. While it is clear that something must be done, I believe that S.B. 228 raises significant constitutional concerns. And while I am proud that Utah is leading the effort to protect individuals' speech on the internet, I believe we will be well served to continue further coordination with our sister states to ensure fair access to the nation's largest public square.

Notwithstanding my veto, S.B. 228 has sent a clear message. I appreciate the willingness of social media companies to work with us and I look forward to engaging directly with you and the bill sponsors over the next year to protect Utahns and find solutions that serve the interests of all – this is the Utah way.

For these reasons, I have vetoed Senate Bill 228, ELECTRONIC FREE SPEECH AMENDMENTS, and returned it to the Senate.

(ii) a [~~Certificate of Occupancy~~] certificate of occupancy issued by a governing agency or building inspector that has the authority to issue the certificate of occupancy under Section 10-5-132, 10-6-160, or 17-36-55; or

(iii) the date of first use or possession of the improvement.

(d) "Improvement" means any building, structure, infrastructure, road, utility, or other similar man-made change, addition, modification, or alteration to real property.

(e) "Person" means an individual, corporation, limited liability company, partnership, joint venture, association, proprietorship, or any other legal or governmental entity.

(f) "Provider" means any person:

(i) contributing to, providing, or performing:

(A) studies, plans, specifications, drawings, designs, value engineering, cost or quantity estimates, surveys, staking, construction, installation, or labor to an improvement; or

(B) the review, observation, administration, management, supervision, inspections, and tests of construction for or in relation to an improvement; or

(ii) providing or contributing materials, products, or equipment that is incorporated into an improvement.

(2) The Legislature finds that:

(a) exposing a provider to suits and liability for acts, errors, omissions, or breach of duty after the possibility of injury or damage has become highly remote and unexpectedly creates costs and hardships to the provider and the citizens of the state;

(b) these costs and hardships include liability insurance costs, records storage costs, undue and unlimited liability risks during the life of both a provider and an improvement, and difficulties in defending against claims many years after completion of an improvement;

(c) these costs and hardships constitute clear social and economic evils;

(d) the possibility of injury and damage becomes highly remote and unexpected seven years following completion or abandonment; and

(e) except as provided in Subsection (7), it is in the best interests of the citizens of the state to impose the periods of limitation and repose provided in this chapter upon all causes of action by or against a provider arising out of or related to the design, construction, or installation of an improvement.

(3) (a) Except as provided in Subsections (3)(b) and (c), an action by or against a provider based in contract or warranty shall be commenced within six years after the date of completion or abandonment of an improvement.

(b) If a provider is required by an express term of a contract or warranty to perform an obligation later than the six-year period described in Subsection (3)(a), and the provider fails to perform the obligation as required, an action for that breach of the contract or warranty shall be commenced within two years after the day on which the breach is discovered or should have been discovered.

(c) If a contract or warranty expressly establishes a different period of limitations than this section, the action shall be commenced within that limitations period.

(4) (a) All other actions by or against a provider shall be commenced within two years from the earlier of the date of discovery of a cause of action or the date upon which a cause of action should have been discovered through reasonable diligence.

(b) If the cause of action is discovered or discoverable before completion or abandonment of an improvement, the two-year period begins to run upon completion or abandonment.

(c) Notwithstanding Subsection (4)(a), and except as provided in Subsection (4)(d), an action under this Subsection (4) may not be commenced against a provider more than nine years after completion or abandonment of an improvement.

(d) If an action under Subsection (4)(a) is discovered or discoverable in the eighth or ninth year of the nine-year period, a claimant shall have two years from the date of discovery to commence an action.

(5) Subsection (4) does not apply to an action against a provider:

(a) who has fraudulently concealed the provider's act, error, omission, or breach of duty, or the injury, damage, or other loss caused by the provider's act, error, omission, or breach of duty; or

(b) for a willful or intentional act, error, omission, or breach of duty.

(6) If an individual otherwise entitled to bring an action did not commence the action within the periods prescribed by Subsections (3) and (4) solely because that individual was a minor or mentally incompetent and without a legal guardian, that individual shall have two years from the date the disability is removed to commence the action.

(7) This section shall not apply to an action for the death of or bodily injury to an individual while engaged in the design, installation, or construction of an improvement.

(8) This section does not apply to any action against any person in actual possession or control of the improvement as owner, tenant, or otherwise, at the time any defective or unsafe condition of the improvement proximately causes the injury for which the action is brought.

(9) This section does not extend the period of limitation or repose otherwise prescribed by law or a valid and enforceable contract.

(10) This section does not create or modify any claim or cause of action.

(11) This section applies to all causes of action that accrue after May 3, 2003, notwithstanding that the improvement was completed or abandoned before May 3, 2004.

The Honorable Stuart Adams
President of the Senate

Dear Speaker Wilson and President Adams:

This letter serves to inform you that I have vetoed House Bill 98, Local Government Building Regulation Amendments.

Housing affordability in Utah continues to be a serious concern as housing prices outpace wage growth at unsustainable rates. I appreciate the legislature seeking to address this issue with multiple pieces of legislation this year, including H.B. 98. The goal of reducing unnecessary construction costs and delays is laudable and needed. I fully expect Utah's cities and counties to participate in these efforts and streamline their policies and procedures to meet this end for the good of their residents and our state.

After the conclusion of the legislative session, our office and the bill sponsor learned of concerns from FEMA regarding the bill's language and the requirements of the National Flood Insurance Program (NFIP). These concerns could place 226 of Utah's communities that participate in NFIP at risk of probation or suspension from the program. In light of this additional information, the most prudent path forward requires a redrafting of provisions specific to disaster recovery in the bill.

Utah's Division of Emergency Management is committed to working with the sponsor in the interim to craft language that can still address the core issues related to construction costs and delays while ensuring communities continue to qualify for flood insurance. Please note that I am supportive of this bill and fully anticipate adding it to an upcoming special session once these technical issues are resolved.

For these reasons I have vetoed H.B. 98, LOCAL GOVERNMENT BUILDING REGULATION AMENDMENTS, and returned it to the House of Representatives.

Sincerely,

Spencer J. Cox

- Item 122, lines 1014-1020, Senate Bill 39, Hemp Regulation Amendments was vetoed

As the signing period comes to an end, the Governor has determined to allow the following bills to go into law without signature:

S.B. 167 Utah Film Economic Incentives
Empirical research studies have consistently demonstrated that Utah's Motion Picture Incentive Program as currently constituted does not provide a positive return on investment to Utah taxpayers. Previous analyses have quantified negative return on investment in the range of 30 to 35 cents for every dollar of incentives granted. As the new Governor's Office of Economic Opportunity is established, the Governor looks forward to re-evaluating the purpose and objectives of the state's economic development programs, and whether negative ROI interventions such as these serve to effectively leverage free market mechanisms for the growth and sustainability of Utah's economy.

H.B. 197 Voter Affiliation Amendments
The Governor and Lt. Governor are committed to increasing voter access and participation. This bill could limit the ability for a voter who may not readily know their affiliation from participating in the party primary of their choice. The Lt. Governor's Office will continue to ensure that Utahns understand these deadlines so they can participate fully with the political party of their choice.

S.B. 104 Tax Levy for Animal Control
New taxing authorities inevitably lead to new taxes for Utah residents. The Governor appreciates the Davis County Commission and their Mayors for coming together to solve a long standing local issue in a way that is tax neutral initially. However, the Governor is wary of these types of levies and the potential for tax increases on citizens in the future.

Highlighted Provisions:

This resolution:

- extends, for a designated time period, a state of emergency declared by the governor due to drought conditions; and
- limits certain emergency powers related to the state of emergency.

Special Clauses:

None

Be it resolved by the Legislature of the state of Utah:

WHEREAS, the governor has recognized, and the facts demonstrate, that extreme drought conditions exist in the state;

WHEREAS, these drought conditions are expected to persist, increasing and prolonging the threat of wildfire across the state and adversely impacting agribusiness and livestock production, and wildlife and natural habitats;

WHEREAS, the Legislature modified the procedures for declaring and extending a state of emergency by passing S.B. 195 during the 2021 General Session, which took effect on May 5, 2021;

WHEREAS, on May 13, 2021, the governor issued Executive Order 2021-13 declaring a state of emergency due to drought conditions;

WHEREAS, Executive Order 2021-13 activated the state Emergency Operations Plan, the state Drought Response Plan, and the state Drought Response Committee;

WHEREAS, Executive Order 2021-13 articulates the governor's intent to have the state Drought Response Committee identify and recommend actions to meet needs caused by the drought;

WHEREAS, the state Drought Response Plan calls for the Drought Response Committee to make recommendations to the governor about how to meet unmet needs caused by the drought and to assemble data needed to support a request by the governor for federal drought assistance;

WHEREAS, under Subsection 53-2a-206(2)(b), the Legislature may extend, by joint resolution and for a designated time period, a state of emergency declared by executive order of the governor;

WHEREAS, under Subsection 53-2a-206(4)(b), the Legislature may limit or restrict the governor's emergency powers for a state of emergency that is extended by a joint resolution;

WHEREAS, pursuant to Subsection 53-2a-204(4)(c), the Legislature finds that emergency drought conditions in the state warrant certain executive actions, but that the following emergency powers of the governor are not necessary to respond to the emergency drought conditions present at the time of this joint resolution:

- the emergency powers described in Subsections 53-2a-204(1)(c) through (f), (h), (i), and (j); and

WHEREAS, pursuant to Subsection 53-2a-206(4)(c), the Legislature finds that before the Division of Emergency Management may exercise any emergency power described in Section 53-2a-104 under the state of emergency due to drought conditions, the Division of Emergency Management should obtain the governor's approval;

WHEREAS, pursuant to Subsection 53-2a-206(4)(c), the Legislature finds that emergency drought conditions in the state at the time of this joint resolution warrant the limitation or restriction of the emergency powers described in Section 53-2a-205 for a chief executive officer of a local political subdivision;

WHEREAS, pursuant to Subsection 53-2a-206(4)(c), the Legislature finds that the chief executive officer of a local political subdivision should not be authorized to exercise the emergency powers described in Section 53-2a-205 under the state of emergency due to drought conditions unless a local emergency for drought conditions is declared for that local political subdivision under Section 53-2a-208; and

WHEREAS, nothing in the preceding paragraph affects a county legislative body's powers under Section 17-8-7:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah extends the state of emergency due to drought conditions, declared by Executive Order 2021-13, through October 31, 2021.

BE IT FURTHER RESOLVED that the preceding paragraph does not affect a county legislative body's powers under Section 17-18-7.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to Governor Spencer J. Cox and the Division of Water Resources.
