The role of the Criminal Justice Statistics Center is:

To collect, analyze, and report statistical data which provide valid measures of crime and the criminal justice process;

To examine these data on an on-going basis to better describe crime and the criminal justice system;

To promote the responsible presentation and use of crime statistics.

### HATE CRIME REPORT

Hate crimes are among the most dehumanizing of crimes. A hate crime is defined as any criminal act or attempted criminal act motivated by hatred based on race, ethnicity, religion, gender, sexual orientation or mental or physical disability. The perpetrator views victims as lacking full human worth bearing any of those characteristics. Hate crimes impact not only their victims, but also spreads concern throughout entire communities. Victims of hate crimes have long experienced such violence, and the fear and pain of a recurrence of historical injustice is deep and pervasive. During the year 2000, California law enforcement agencies reported 1,957 hate crime events. As a result, these incidents involved 2,352 victims, 2,002 criminal offenses, and 2,107 known suspects identified.

The *Hate Crime in California, 2000* report represents the continued commitment of the California Department of Justice and the criminal justice community to accurately collect and report criminal justice statistics. This report represents the sixth full year of hate crime statistics published by the California Department of Justice. The continued cooperation, professionalism and expertise of the criminal justice community ensure that California's crime statistics are among the most valid and comprehensive in the country.

This report represents much more than crime statistics. Each hate crime reported represents devastating violations to victims, as well as their family and friends. These types of crimes shatter one's sense of security and spreads terror throughout communities. Victims must learn to cope with the crimes' after affects for the rest of their life. This is an assault on California's ideal and its diverse body of citizens.

With the release of this report, the California Department of Justice seeks to increase public awareness about hate crimes and the frequency of these types of crimes in California. Also, there is a clear message to perpetrators of these crimes that we, as a society, will not tolerate such hatred.

BILL LOCKYER  
Attorney General

# HATE CRIME IN CALIFORNIA 2000

## HIGHLIGHTS

### CRIME DATA

In 2000:

1,957 hate crime events were reported. These events included 2,352 victims, 2,002 criminal offenses, and 2,107 known suspects.

63.1 percent of the hate crime events reported were motivated by a victim's race/ethnicity.

The most often reported bias motivations were:

1. Anti-black - 31 percent of all hate crime events reported (606 events)
2. Anti-male homosexual - 16.6 percent of all hate crime events reported (325 events)
3. Anti-Jewish - 12.1 percent of all hate crime events reported (236 events)
4. Anti-Hispanic - 10.2 percent of all hate crime events reported (199 events)
5. Anti-white - 7.4 percent of all hate crime events reported (145 events)

The top four types of offenses were:

1. Destruction/vandalism - 31.1 percent (608 events)
2. Intimidation - 28.2 percent (552 events)
3. Simple assault - 18.7 percent (365 events)
4. Aggravated assault - 16.1 percent (315 events)

The top five locations where hate crime events occurred were:

1. Residence/home/driveway - 36.6 percent (717 events)
2. Highway/road/street/alley/sidewalk - 24 percent (470 events)
3. School/college - 10.5 percent (205 events)
4. Parking lot/garage - 5 percent (98 events)
5. Church/synagogue/temple/center - 4.1 percent (80 events)

### PROSECUTORIAL DATA

In 2000:

360 hate crime complaints were filed by district attorneys and elected city attorneys.

213 hate crime convictions were reported.

## Overview

The Attorney General's Hate Crime Reporting Program was implemented in September 1994. In 1995, the first publication, *Hate Crime in California, July through December, 1994*, was published. This seventh annual publication, and sixth full year report, *Hate Crime in California, 2000*, includes data for January 1 through December 31, 2000.

As defined in California Penal Code Section 13023 (see Appendix 1), a hate crime is any criminal act or attempted criminal act motivated by hatred based on race, ethnicity, religion, gender, sexual orientation or disability. These crimes must be reported to the Department of Justice (DOJ) by law enforcement agencies. Each crime report includes information about, but not limited to: bias motivation; type of crime; location of crime; number of victims; and number of known suspects.

All law enforcement agencies in California participate in this program. These agencies recognize that quality information is central to developing effective measures to deal with hate crime. In cooperation with the DOJ, agencies in California have developed local data collection programs, the results of which are presented in this publication.

# HATE CRIME IN CALIFORNIA 2000

## Introduction

California Penal Code Section 13023 (Appendix 1) requires the Attorney General to submit an annual report to the Legislature regarding crimes motivated by the victim's race, ethnicity, religion, gender, sexual orientation or physical or mental disability as reported by law enforcement agencies. Data collection began in the fall of 1994 after an orientation and training period. Agencies were requested to identify and submit all reports of hate crime occurring on or after July 1, 1994, to the Department of Justice. In 1995, the Department of Justice published its first report covering data reported for July through December 1994. This is the seventh report and covers the period January 1 through December 31, 2000.

## Background

In January 1986, the California Department of Justice (DOJ) submitted a report to the Legislature in response to Senate Bill 2080 (Watson). This report, entitled *Racial, Ethnic, and Religious Crime Project, Preliminary Steps to Establish Statewide Collection of Data*, recommended:

The DOJ be designated as the appropriate state agency to implement and coordinate statewide hate crime data collection.

Law enforcement agencies submit existing crime reports identified as bias motivated to the DOJ.

Uniform definitions and guidelines be established to ensure reliable and consistent identification of hate crimes.

Adequate funding be provided for data collection and local law enforcement agency training.

Senate Bill 202 (Watson) was chaptered in 1989. The bill added Section 13023 to the Penal Code requiring the Attorney General to begin collecting and reporting hate crime information.

## Background (continued)

The federal "Hate Crime Statistics Act," Public Law 101-275, which became law on April 23, 1990, required the United States Attorney General to collect bias motivated crime information. The Federal Bureau of Investigation (FBI) began collecting the data from volunteer agencies in 1991. The FBI's first report was published in 1992.

Law enforcement agencies were notified by Information Bulletin 94-25-OMET, issued September 30, 1994, to begin reporting hate crimes to the DOJ.

Information Bulletin 95-09-BCIA, issued March 24, 1995, requested California district attorneys and elected city attorneys to report information on complaints filed and convictions secured for hate crimes in their office on a standard form.

## Methodology

Following the recommendations in the 1986 report, the DOJ requires each law enforcement agency in the State to submit copies of hate crime reports on a monthly basis. To ensure a consistent standard and quality control function, the DOJ requests that each agency establish a two-tier review process for possible bias-motivated incidents before reports are forwarded.

Reports received by the DOJ are reviewed by at least two members of the hate crime unit before the data are included in the aggregate reports. All crime reports that meet the bias motivated criteria stated in Penal Code Section 13023 are coded in a standard format by DOJ staff. If the report is not complete or if it appears that the incident is not bias-motivated, the agency is notified. The agency can either provide additional information or agree with the DOJ that the incident in question does not meet the criteria of a hate crime. Those crimes meeting the criteria of a hate crime are then entered into the Hate Crime Statistical Database.

In 2000, of 1,957 reported hate crime events by bias motivation:

- 63.1 percent (1,234) were motivated by the race/ethnicity of the victim.
- 20.7 percent (405) were motivated by the sexual orientation of the victim.
- 15.4 percent (301) were motivated by the religion of the victim.
- .7 percent (14) were motivated by the gender of the victim.
- .2 percent (3) were motivated by the physical/mental disability of the victim.

In 2000, of the 1,234 events motivated by the race/ethnicity of the victim:

- 49.1 percent (606) were anti-black.
- 16.1 percent (199) were anti-Hispanic.
- 11.8 percent (145) were anti-white.
- 8.1 percent (100) were anti-Asian/Pacific Islander.
- 7.8 percent (96) were anti-other ethnicity/national origin.
- 7.0 percent (86) were anti-multi-racial group.
- .2 percent (2) were anti-American Indian/Alaskan native.

Notes: Percents may not add to subtotals or 100.0 because of independent rounding.

Dash indicates that percent distributions are not calculated when the base number is less than 50.

<sup>1</sup>Numbers represent total number of victims (i.e., entities and individuals), not the number of hate crime events.

<sup>2</sup>Numbers represent acts directed at entities other than individuals.

**In 2000, of 2,352 victims of hate crimes:**

- 91.6 percent (2,154) were individuals. Of these,
  - 67.1 percent (1,445 individuals) were victims because of their race/ethnicity.
  - 20.9 percent (450 individuals) were victims because of their sexual orientation.
  - 11.2 percent (242 individuals) were victims because of their religion.
  - .6 percent (14 individuals) were victims because of their gender.
  - .1 percent (3 individuals) were victims because of their physical/mental disability.

# Data Characteristics and Known Limitations

## CRIME DATA

Local law enforcement agencies are required to submit monthly copies of hate crime reports to the Department of Justice (DOJ) in compliance with Section 13023 of the California Penal Code, which states ". . . any criminal acts or attempted criminal acts to cause physical injury, emotional suffering, or property damage where there is a reasonable cause to believe that the crime was motivated, in whole or in part, by the victim's race, ethnicity, religion, gender, sexual orientation, or physical or mental disability . . ." shall be reported to the DOJ.

The following information and limitations should be considered when using hate crime data:

1. The hate crime reporting system was implemented by the DOJ in September 1994. Law enforcement agencies were requested to submit copies of initial crime reports beginning with July 1994. Crime reports that were submitted as hate crimes, but later determined to be unfounded, were not included.
2. Initial crime reports were selected as the reporting document to provide maximum information for coding and to minimize the workload impact on local law enforcement agencies.
3. The Department of Justice requested that each law enforcement agency establish procedures incorporating a two-tier review (decision-making) process. The first level is done by the initial officer who responds to the suspected hate crime incident. At the second level, each report is reviewed by at least one other officer to confirm that the incident was, in fact, a hate crime.
4. Caution should be used when making jurisdictional comparisons. Factors to be considered are: cultural diversity and population density; effective strength of law enforcement agencies; and the training received in the identification of hate crimes by law enforcement officers in each jurisdiction.
5. The following factors may influence the volume of hate crimes reported to the DOJ:
  - Cultural practices and likeliness of reporting hate crimes to law enforcement agencies.
  - Strength and investigative emphasis of law enforcement agencies.
  - Policies of law enforcement agencies.
  - Community policing policies.

Note: All requests or questions regarding these data should be submitted to the Criminal Justice Statistics Center, P.O. Box 903427, Sacramento, California 94203-4270. The telephone number is (916) 227-3509. E-mail: [doj.cjsc@doj.ca.gov](mailto:doj.cjsc@doj.ca.gov)

---

## COUNTY DISTRICT ATTORNEY AND ELECTED CITY ATTORNEY PROSECUTORIAL DATA

The following information and limitations should be considered when interpreting hate crime cases:

1. In order to show the criminal justice system's response to hate crimes, in March 1995, the Attorney General requested all district attorneys and elected city attorneys to submit summary data of complaints filed and convictions secured.
2. The 2000 District Attorneys and Elected City Attorneys Report File of Hate Crime Cases contains summary data based on cases referred to each district attorney or elected city attorney, and filings and convictions which occurred between January 1 through December 31, 2000.

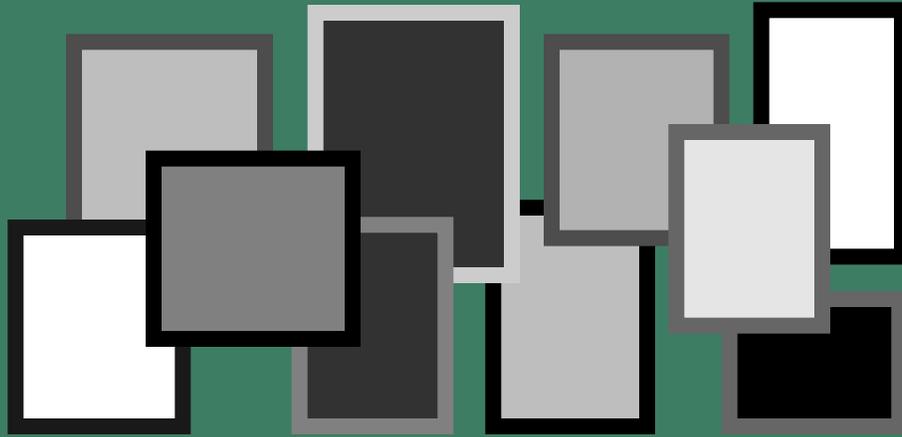

Note: All requests or questions regarding these data should be submitted to the Criminal Justice Statistics Center, P.O. Box 903427, Sacramento, California 94203-4270. The telephone number is (916) 227-3509. E-mail: [doj.cjsc@doj.ca.gov](mailto:doj.cjsc@doj.ca.gov)

**CALIFORNIA PENAL CODE SECTION 13023**

“Commencing July 1, 1990, subject to the availability of adequate funding, the Attorney General shall direct local law enforcement agencies to report to the Department of Justice, in a manner to be prescribed by the Attorney General, such information as may be required relative to **any criminal acts or attempted criminal acts** to cause physical injury, emotional suffering, or property damage where there is a reasonable cause to believe that the crime was motivated, in whole or in part, by the victim’s race, ethnicity, religion, gender, sexual orientation, or physical or mental disability. On or before July 1, 1992, and every July 1 thereafter, the Department of Justice shall submit a report to the Legislature analyzing the results of the information obtained from local law enforcement agencies pursuant to this section.” (Added by Stats. 1989, c. 1172, §1. Amended by Stats. 1998, c. 933 (AB 1999) §5.)

## CRIMINAL JUSTICE GLOSSARY

**BIAS** - A preformed negative opinion or attitude toward a group of persons based on their race, religion, ethnicity/national origin, gender, sexual orientation and/or physical/mental disability.

**CASE** - A case is a set of facts about a crime that is referred to a district attorney for filing with a court. The case may charge one or more persons with the commission of one or more offenses. For this report, the case must contain some element of bias.

**COMPLAINTS FILED** - Any verified written accusation, filed by a district attorney with a criminal court, that charges one or more persons with the commission of one or more offenses. For this report, the case must contain some element of bias.

**CONVICTION** - A judgment based on the verdict of a jury or a judicial officer or on a guilty plea or a nolo contendere plea of the defendant.

**ETHNIC BIAS** - A preformed negative opinion or attitude toward a group of persons of the same race or national origin that share common or similar traits in language, custom, and tradition, such as Arabs or Hispanics.

**EVENT** - An event is an occurrence where a hate crime is involved. (In this report the information about the event is a crime report or source document that meets the criteria for a hate crime.) There may be one or more suspects involved, one or more victims targeted, and one or more offenses involved for each event.

**GUILTY PLEA** - A defendant's formal answer in open court stating that the charge is true and that he or she is guilty of the crime with which he or she is charged.

**KNOWN SUSPECT(S)** - A suspect can be any person alleged to have committed a criminal act(s) or attempted criminal act(s) to cause physical injury, emotional suffering, or property damage. The known suspect category contains the number of suspects that have been identified and/or alleged to have committed hate crimes as stated in the crime report. For example, witnesses observe three suspects fleeing the scene of a crime. The word "known" does not necessarily refer to specific identities.

**LOCATION** - The place where the hate crime event occurred. The location categories follow Uniform Crime Reporting (UCR) location specifications developed by the FBI. Examples are residence, hotel, bar, church, etc.

**MULTI-RACIAL** - A hate crime that involves more than one victim or suspect, and where the victims or suspects are from two or more different race groups; e.g., African American and white or Hispanic and Asian.

**NOLO CONTENDERE** - A plea or answer in a criminal action in which the accused does not admit guilt but agrees to be subject to the same punishment as if he or she were guilty.

**OFFENSES** - Offenses that are recorded are as follows: murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, arson, simple assault, intimidation, and destruction/vandalism as defined in the national Uniform Crime Report (UCR) and the national Hate Crimes Statistics Report.

**PHYSICAL/MENTAL DISABILITY BIAS** - A preformed negative opinion or attitude toward a group of persons based on physical or mental impediments/challenges, whether such disabilities are congenital or acquired by heredity, accident, injury, advanced age, or illness.

**PROPERTY CRIMES** - Burglary, larceny-theft, motor vehicle theft, arson, and destruction/vandalism are reported as property crimes.

**RACIAL BIAS** - A preformed negative opinion or attitude toward a group of persons such as Asians, blacks, or whites, based on common physical characteristics.

**RELATIONSHIP BETWEEN "COMPLAINTS FILED" AND "CONVICTIONS"** - The annual prosecutorial report collects data on the total number of hate crime cases filed and the total number of hate crime convictions. There is no direct relationship between "complaints filed" and "convictions," since a case may be filed in one year and the outcome (trial or pleading) may occur in another.

**RELIGIOUS BIAS** - A preformed negative opinion or attitude toward a group of persons that share the same religious beliefs regarding the origin and purpose of the universe and the existence or nonexistence of a supreme being, such as Catholics, Jews, Protestants, or Atheists.

**SEXUAL-ORIENTATION BIAS** - A preformed negative opinion or attitude toward a group of persons based on sexual preferences and/or attractions toward and responsiveness to members of their own or opposite sexes.

**TRIAL VERDICT** - The finding or answer of a jury or judge concerning a matter submitted to them for their judgment.

**VICTIM** - A victim may be an individual, a business or financial institution, a religious organization, government, or other. For example, if a church or synagogue is vandalized and/or desecrated, the victim would be a religious organization.

**VIOLENT CRIMES** - Murder, forcible rape, robbery, aggravated assault, simple assault and intimidation are considered violent crimes in this report. (Robbery is included in crimes against property in the FBI Hate Crimes Statistics Report.)
