Bureau of Criminal Information and Analysis
CRIMINAL JUSTICE STATISTICS CENTER

PRELIMINARY REPORT

CRIME in 2005 January through December

This report compares preliminary crime counts for January through December 2005 with final counts for the same period in 2004 for California law enforcement jurisdictions serving populations of 100,000 or more. The 81 jurisdictions which met this criterion in 2004 and 2005 account for approximately 65 percent of the crimes reported in the state annually.

Law enforcement jurisdictions are grouped into three categories:

- Police departments (provide law enforcement services to cities).
- Sheriff's departments (provide law enforcement services to unincorporated areas¹ within counties).
- Contract cities (cities that contract for law enforcement services, usually with a sheriff's department, rather than maintain their own police force).

The 2005 crime data used in this report are preliminary and are subject to change. Crime rates are not used in this report, but are included in the annual *Crime in California* publication.

Violent Crimes

The **VIOLENT CRIME** category includes the offenses of homicide, forcible rape, robbery, and aggravated assault.

From January through December 2005, the number of reported violent crimes increased 3.2 percent when compared to the same period in 2004. The increase in this category can be attributed to increases in homicide, robbery, and aggravated assault offenses. Rape offenses decreased during this period.

Property Crimes

The **PROPERTY CRIME** category includes the offenses of burglary, motor vehicle theft, and larceny-theft over \$400.

From January through December 2005, the number of reported property crimes increased 2.0 percent when compared to the same period in 2004. Burglary and motor vehicle theft increased, while larceny-theft over \$400 decreased during this period.

¹An unincorporated area of a county is any area not within a city limit.

HOMICIDE – The willful (nonnegligent) killing of one human being by another. Homicide includes murder and nonnegligent manslaughter.

The number of homicides reported during 2005 increased 4.4 percent when compared to 2004.

FORCIBLE RAPE – The carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are included.

The number of reported forcible rapes decreased 2.5 percent during 2005 when compared to 2004.

ROBBERY – The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

During 2005, the number of reported robberies increased 5.2 percent when compared to 2004.

AGGRAVATED ASSAULT – The unlawful attack or attempted attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

The number of aggravated assaults reported during 2005 increased 2.6 percent when compared to 2004.

BURGLARY – The unlawful entry of a structure to commit a felony or theft. Attempted burglary is included.

During 2005, the number of reported burglaries increased 2.4 percent when compared to 2004.

MOTOR VEHICLE THEFT – The theft or attempted theft of a motor vehicle.

There was a 3.5 percent increase in the number of motor vehicle thefts reported during 2005 when compared to 2004.

LARCENY-THEFT (OVER \$400) – The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

The number of larceny-thefts over \$400 decreased 0.4 percent during 2005 when compared to 2004.

Notes: A dash indicates one or more of the following: 1) data are not available; 2) percent change was not calculated because of incomplete data; 3) percent change was not calculated because a base number is less than 50.

This report includes data submitted to the Criminal Justice Statistics Center as of February 17, 2006.

Crime counts reflect the number of offenses reported (unfounded crime counts are not included).

Sheriff's department crime counts do not include contract cities that report under their own National Crime Information Center number.

The California Highway Patrol reports motor vehicle theft for some sheriff's departments; therefore, sheriff's department counts for this category may not reflect all reported motor vehicle thefts in their jurisdiction.

¹ The Los Angeles Police Department's aggravated assault data for 2004 were over-reported; i.e., child abuse and spouse abuse simple assaults were included in the aggravated assault category. Therefore, to maintain comparability of the 2004 data with the 2005 data, available counts for violent crimes are shown, but not included in the subtotals or total jurisdictional counts.

² The Vallejo Police Department was unable to provide crime data for the full twelve-month reporting period in 2005 due to problems with their records management system. Therefore, to maintain comparability of the 2004 data with the 2005 data, available counts for this agency are shown, but not included in the subtotals or total jurisdictional counts.
