

Preliminary Report

California Department of Justice
Division of Criminal Justice Information Services

CRIME 2001

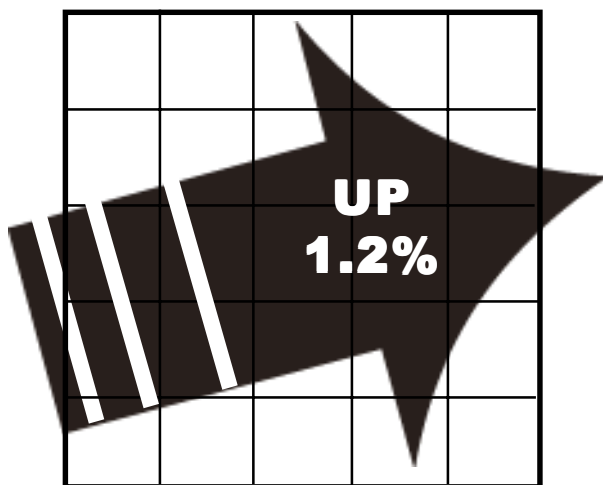

In Selected California Jurisdictions
JANUARY THROUGH JUNE

This report compares preliminary crime counts for the first six months of 2001 with counts for the same period in 2000 for jurisdictions with populations of 100,000 or more. It is estimated that the 75 jurisdictions which meet this criterion account for approximately 65 percent of the crimes reported in the state. Two agencies were unable to meet the cutoff date for 2001 data submission. Available data for these agencies are shown on the following table but not included in totals used in the narrative.

Jurisdictions are grouped into three categories:

- Police Departments, which provide law enforcement services for incorporated cities;
- Sheriff's Departments, which provide law enforcement services to unincorporated areas within the county; and
- Contract Cities, which are incorporated cities that contract for law enforcement services (usually with a sheriff's department) rather than maintain their own police force.

Data used in this report are preliminary counts and subject to change. Crime counts are not adjusted by population. Statewide adjusted data (rates) are included in the annual *Crime and Delinquency in California* publication.

Notes: Dash indicates that data are not available or that percent changes are not calculated when base numbers are less than 50. Percent changes are also not calculated for agencies with incomplete data.

This report includes data submitted to the Criminal Justice Statistics Center by the cutoff date of August 3, 2001.

Counts reflect the number of actual offenses. Unfounded crime counts are not included.

Sheriff department counts are for unincorporated areas only and do not include contract cities.

The California Highway Patrol reports motor vehicle theft for some county sheriff's departments. Therefore, sheriff's department figures for this category may not reflect all reported motor vehicle thefts.

Butte County and Monterey County Sheriff's Departments are not included in this report because their populations, as reported by the California Department of Finance, fell below 100,000.

¹The FBI Crime Index total includes the California Crime Index total, larceny-theft, and arson.

²To complete the six month report, estimated crime data were provided by the following agencies: Berkeley Police Department (June), Fontana Police Department (June), Hayward Police Department (April - June), Riverside Police Department (January - June), Santa Clara Police Department (June), and the San Joaquin County Sheriff's Department (June).

³Fremont and Fresno police departments were unable to provide crime data for the full six-month period. Therefore, to maintain comparability of the 2000 data with 2001 data, counts for these agencies are shown but not included in the subtotals or total selected jurisdiction counts.

⁴Los Angeles County Sheriff's Department and its contract agencies implemented a new records management system at the beginning of 2000 and experienced technical problems with the system. Data on 2000 crimes may not be valid and should not be used to make comparisons.
