

Preliminary Report

Bill Lockyer, Attorney General
California Department of Justice
Division of Criminal Justice Information Services

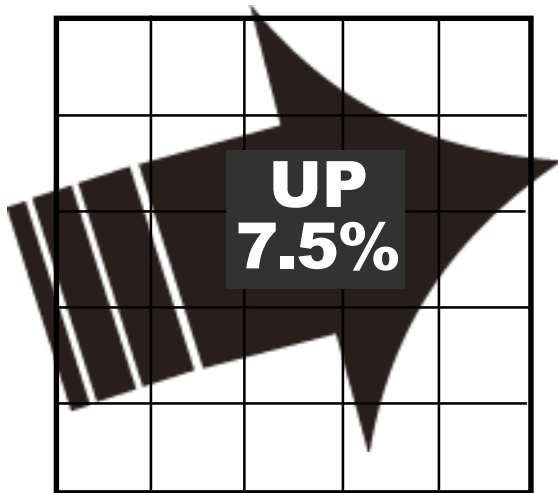

CRIME 2002 In Selected California Jurisdictions **JANUARY THROUGH JUNE**

This report compares preliminary crime counts for the first six months of 2002 with counts for the same period in 2001 for jurisdictions with populations of 100,000 or more. It is estimated that the 78 jurisdictions which meet this criterion account for approximately 65 percent of the crimes reported in the state. Four agencies were unable to meet the cutoff date for 2002 data submission. Available data for these agencies are shown on the following table but not included in totals used in the narrative.

Jurisdictions are grouped into three categories:

- Police Departments, which provide law enforcement services for incorporated cities;
- Sheriff's Departments, which provide law enforcement services to unincorporated areas within the county; and
- Contract Cities, which are incorporated cities that contract for law enforcement services (usually with a sheriff's department) rather than maintain their own police force.

Data used in this report are preliminary counts and subject to change. Crime counts are not adjusted by population. Statewide adjusted data (rates) are included in the annual *Crime and Delinquency in California* publication.
