EXECUTIVE SUMMARY

The 2023 Attorney General’s Electronic Interceptions Report is issued in compliance with Penal Code sections 629.62 and 629.82, subdivision (d), and is accessible on the Attorney General’s website at oag.ca.gov. To facilitate the preparation of this report, Penal Code section 629.61 requires each county throughout the state to annually provide the Attorney General with specific information regarding its electronic interception activity. This report reflects the information submitted by each county for the 2023 calendar year.

Electronic interceptions encompass wire or electronic communications intercepted via wire, cable, radio, and other systems. These interceptions include, but are not limited to, phone conversations over cellular phones or landlines and text messages exchanged via cellular telephones. In California, court-authorized interceptions of wire or electronic communications are used to target specific criminal offenses when traditional investigative techniques are inadequate or simply too dangerous to pursue. Consequently, the use of electronic interceptions serves as an essential tool in law enforcement agencies’ efforts to detect and deter crime. Dangerous individuals and criminal entities, such as drug trafficking organizations (DTOs) and criminal street gangs, often rely on telecommunications to advance their criminal objectives. Therefore, electronic interceptions play a crucial role in identifying, disrupting, and preventing crimes.

The ability to intercept electronic communications is a vital tool to ensure public safety. For example, electronic interceptions have aided in uncovering criminal conspiracies to commit murder. In other cases, they have resulted in the seizure of substantial quantities of narcotics, firearms, and criminally derived proceeds that facilitate ongoing criminal activity. Some electronic interceptions have even led to the rescue of victims from human trafficking networks. Discoveries and seizures like these not only save lives but advance public safety by removing harmful elements from our communities.

This report contains electronic interception data and provides details on how authorized electronic interceptions empowered state and local law enforcement agencies¹ to effectively address crime at various levels.

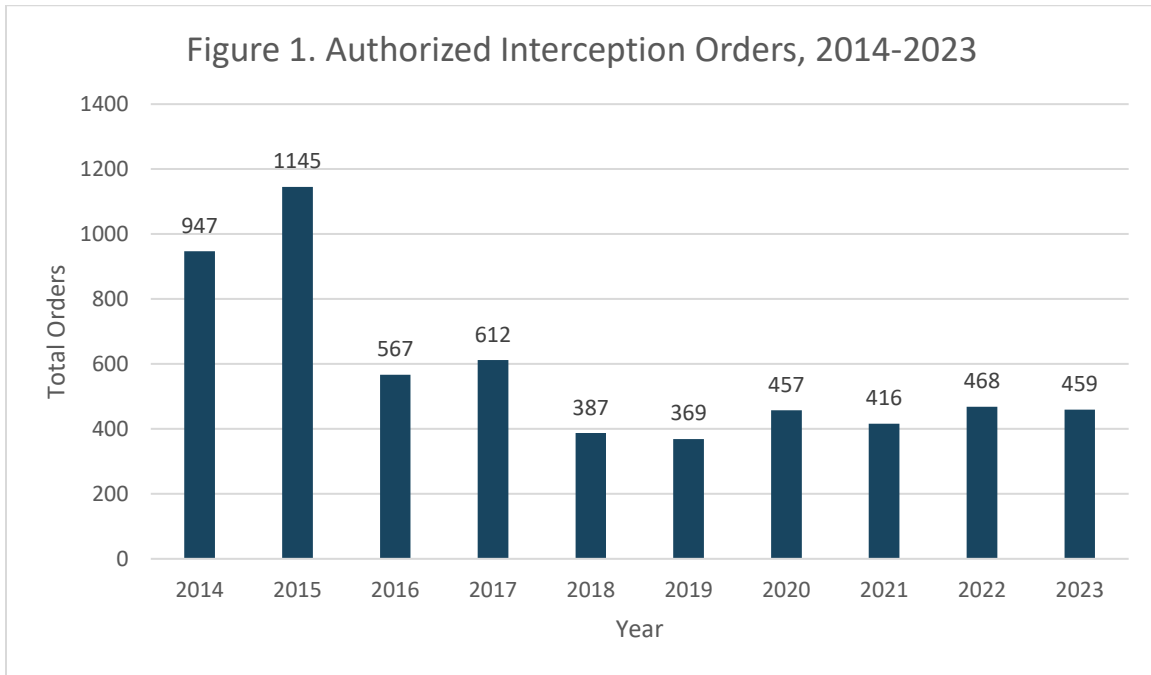

Overview

In 2023, there were 459 applications submitted for electronic interceptions and California judges approved all 459 applications. This represents a roughly 2% decrease in the number of applications submitted from the previous year, when 468 applications were submitted and all 468 approved. Wiretap orders were issued in 20 of California’s 58 counties, one more than in 2022. The largest number of orders authorizing electronic interceptions were issued in Los Angeles, Riverside, and San Bernardino Counties, with 162, 129, and 45 orders, respectively.

¹ In some wire operations, there is coordination with federal law enforcement. But purely federal electronic interceptions, sought by federal prosecutorial agencies and approved by federal judges, are not encompassed within this report.

In 2022, Riverside, Los Angeles, and Kern Counties were the top three with 200, 173, and 18 orders, respectively.

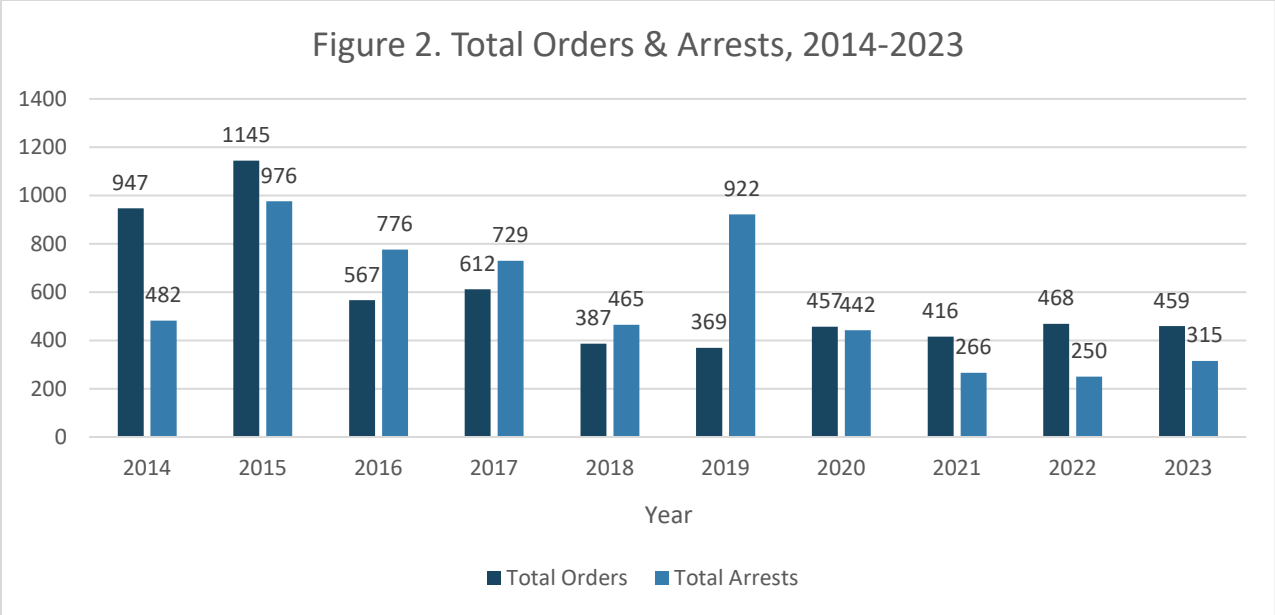

Figure 1 illustrates the annual trend in the total number of orders authorizing interceptions over the 10-year period ending in 2023:

Criminal Offenses, Arrests & Convictions

Law enforcement agencies targeted various offenses in the 459 applications submitted to California courts in 2023 (Table 2). The majority targeted narcotics offenses, which accounted for 317 applications, or approximately 69% of applications. This was followed by murder, which was a targeted offense in 86 applications, or approximately 19% of applications. Gang offenses represented a targeted offense in 37 applications, or approximately 8% of applications. Human trafficking was a targeted offense in eight applications, or in roughly 2% of applications.

Authorized interceptions in 2023 resulted in 315 total arrests (Table 1). These arrests were primarily for murder (175), narcotics offenses (99), and gang-related offenses (30). Several arrests were for other offenses, including human trafficking (5). Each interception operation can result in the arrest of multiple people for various, overlapping offenses. Investigations involving electronic interceptions over the 10-year period ending in 2023 resulted in an average of approximately 562 arrests per year.

Due to the nature of the judicial process, whether through trials or guilty pleas in the superior courts or some other disposition, the bulk of the yearly arrests are often unresolved by the time counties submit data for the annual report. Updated information on interception data reported in prior years can be found in Table 8 of this report.

Types, Lengths & Number of Interceptions

Tables 2 and 3 of this report provide various data related to the nature of the electronic interceptions conducted. This data reflects the types of devices and locations targeted, the number of original interception orders and extensions, and information about the duration of such operations.

Interceptions overwhelmingly targeted portable devices such as cell phones. In 2023, cell phones accounted for approximately 89% of the total devices targeted, similar to 92% in 2022.

Regarding duration, California law limits the initial interception period to 30 days. This period may, however, be lengthened by one or more 30-day extensions if the authorizing judge determines that an extended period of interception is justified. In 2023, judges granted 344 extensions, and the average duration of interception activity per order, including extensions, was approximately 49 days.

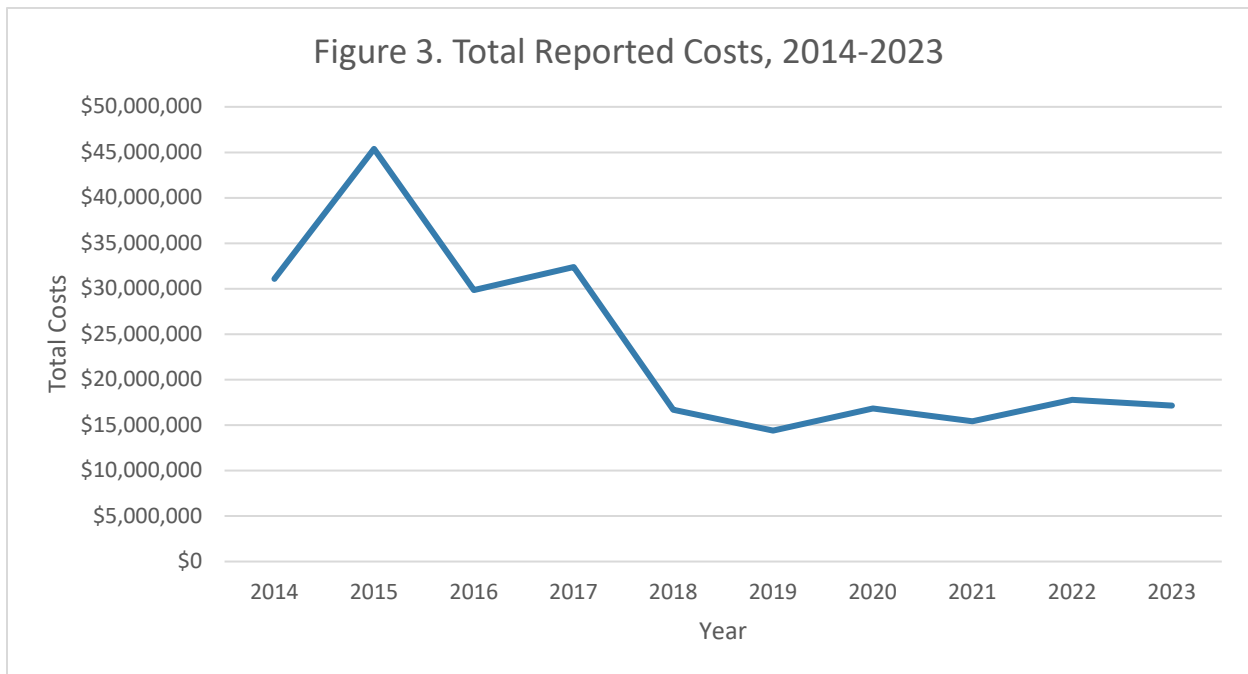

Additional details about each authorized interception operation are provided in Tables 4 and 5 of this report. Table 4 includes information about the number of persons whose communications were intercepted, the total number of communications intercepted, the breakdown between incriminating and other communications, and narrative comments on the operations’ reported usefulness. Table 5 provides information about the statutorily mandated notice provided to persons whose communications were intercepted.

Costs of Interceptions

Table 6 of this report outlines information about personnel and resource expenses that state and local agencies reported having incurred in conducting authorized interception operations. These data, however, specifically exclude costs otherwise covered by regularly incurred compensation of personnel, as well as personnel and resource costs covered by federal funding.

The reported personnel and resource costs totaled \$17,146,820, representing an approximate 4% decrease from the total costs of \$17,792,861 reported in 2022. The average reported cost of an electronic interception operation was \$37,357 (rounded), approximately 2% lower than the average cost of \$38,019 (rounded) in 2022.

Figure 3 illustrates the total costs associated with electronic interception operations, as reported, for the 10-year period ending in 2023:

Wiretap Evidence in Administrative or Disciplinary Hearings

Finally, Penal Code section 629.82, subdivision (d), requires reporting of the use of intercepted communications in administrative or disciplinary hearings involving the employment of a peace officer. Table 10 reveals that no such usage was reported for 2023.

² Any disparity between “Number of Persons Arrested” and “Number of Persons Convicted” may be attributed to the fact that a number of those arrested are awaiting prosecution—a process which can take a significant amount of time—or that the intercept was part of a larger-scale ongoing investigation.

Kern (cont'd)	2023-KE-15	1	478	30	70	The interceptions allowed investigators to gather gang-related intelligence. Further, it assisted in identifying friends, family, and associates of the targets. The wiretap also provided law enforcement with daily insight into the suspects' behavior and identified areas frequently visited by the gang and the targets.
	2023-KE-16	1	412	30	70	The interceptions allowed investigators to gather intelligence related to gang activity. Further, it assisted law enforcement in identifying friends, family, and associates of the suspects. The wiretap also provided law enforcement with daily insight into the suspects' behaviors and identified areas frequently visited by the gang and suspects.
	2023-KE-17	1	428	30	70	This wiretap assisted law enforcement in their efforts to gather gang-related intelligence, identify friends, family, and associates of the targets, and gain daily insight into their behavior and frequented areas.
	2023-KE-18	10	4,168	14	86	The wiretap led to the arrest of seven suspects for various violations related to illegal firearm possession, possession of controlled substances for the purpose of sales, and conspiracy. The investigation led to a multi-agency operation which encompassed three simultaneous residential search warrants and a traffic stop resulting in the seizure of approximately four pounds of methamphetamine, 4.8 ounces of cocaine HCL, 86.6 grams of marijuana wax, 32 ounces of marijuana, and 3 illegal firearms.
Kings	2023-KI-1	56	719	9	91	This wiretap provided confirmation of target's involvement in a homicide.
	2023-KI-2	83	1,426	22	78	This wiretap provided insight into the conversations between the targets regarding ways to hide several firearms. Based on information learned from this wiretap, law enforcement officers obtained a search warrant and, ultimately, seized the illegal firearms. This operation successfully reduced the threat of gun violence in the community and potentially saved lives.
	2023-KI-3	64	836	30	70	This wiretap revealed texts exchanged between targets regarding details of a shooting and efforts to hide evidence. A subsequent search warrant led to the seizure of numerous illegal firearms.

Kings (cont'd)	2023-KI-4	66	561	33	67	This wiretap helped law enforcement identify a target involved in sexually exploiting a female victim.
	2023-KI-5	39	577	12	88	The interceptions assisted in the investigation of a gang-related shooting.
	2023-KI-6	46	863	15	85	The interceptions led to the recovery of an illegal firearm, thus improving community safety.
	2023-KI-7	99	455	17	83	Target is a sex worker being trafficked by multiple parties.
	2023-KI-8	31	520	33	67	The interceptions assisted in the investigation of a gang-related shooting.
	2023-KI-9	43	541	28	72	This wiretap assisted in the investigation of a shooting and revealed attempts by the targets to dispose of evidence. A subsequent search warrant led to the discovery of clothing worn during the incident as well as the seizure of a number of illegal firearms.
	2023-KI-10	60	1,916	16	84	Interceptions revealed details regarding illegal firearms possessed by several suspects and their plans to move them to a different location. A subsequent search warrant led to the seizure of several illegal firearms and ammunition. It was also determined that 2 of the firearms belonged to one of the suspects.
	2023-KI-11	62	1,429	34	66	This wiretap revealed efforts by targets to smuggle contraband into prison.
	2023-KI-12	49	1,366	20	80	Interceptions revealed target has a ghost gun that he was trying to sell. Local police were then able to locate and seize 2 illegal firearms. Both firearms had loaded magazines.
	2023-KI-13	63	1,746	17	83	The wiretap uncovered targets engaging in an attempt to acquire prescription pills from a third party, with the intention of both personal consumption and resale. Subsequently, during a traffic stop, it was discovered that one of the targets was on parole. Upon searching the car, law enforcement found a firearm. Additionally, multiple other phone calls were intercepted, revealing discussions related to criminal intent, specifically focusing on firearms.
	2023-KI-14	44	1,289	21	79	Interceptions assisted in the investigation of a homicide.

2023-OR-2		59	4,822	2	98	The intercepted communications led to the arrest of three suspects in a homicide case as well as the recovery of multiple firearms and 1 destructive device.
2023-OR-3		60	1,859	4	96	These interceptions played a vital role in assembling evidence pertinent to a gang-related homicide. The interception of communications among the suspects proved instrumental in not only identifying additional individuals involved in the incident but also unraveling details about the planning, execution of the crime, and efforts to conceal evidence associated with it.
2023-OR-4		49	982	12	88	Law enforcement intercepted numerous conversations regarding drug trafficking throughout the United States. The conversations discussed the shipment and receipt of illegal drugs, including cocaine, methamphetamine, and fentanyl.
2023-OR-5		27	241	8	92	
Placer	2023-PLA-1	185	14,145	1	99	The intercepted communications revealed information and evidence regarding the targets' statements to witnesses about the subject crimes. Prior to the interception, law enforcement was unaware of these statements. This newfound information and evidence played an important role in the investigation, as the targets' statements deviated from their previous statements and were inconsistent with other evidence gathered during the investigation.

San Luis Obispo	2023-SLO-1	27	557	5	95	<p>This wiretap was related to an investigation involving the murder of a victim who was shot and killed by an unknown suspect. Initial reports suggested that the homicide resulted from an alleged road rage incident and a random shooting. This caused heightened concern within the community. As the investigation continued, law enforcement began to learn that the subjects involved who reported the incident intentionally provided false information in an effort to conceal the actual crime scene and evidence. The overarching objection of the investigation was to identify the primary suspect along with any accomplices responsible for both the shooting death of the victim and subsequent cover-up.</p> <p>At the conclusion of the wiretap investigation, law enforcement arrested the primary suspect and shooter, thus holding them accountable for the killing. The District Attorney's Office formally charged 2 additional suspects, accusing them of aiding and abetting along with making a false police report. The intercepted electronic communications played a crucial and active role in providing supplementary evidence that substantiated the roles of all three suspects.</p>
San Mateo	2023-SM-1	78	323	0	100	<p>The wiretap authorized the surveillance of 2 phone lines associated with a subject who had previously made admissions related to a homicide. The interceptions yielded some relevant information but did not provide enough details for an arrest or case filing.</p>
Santa Barbara	2023-SBA-1	1,742	60,152	1	99	<p>This was a wire attempting to collect evidence against murder suspects. The wire did not provide enough evidence to file charges. However, the wire did provide leads and helpful information for the investigation.</p>
Santa Clara	2023-SCL-1	374	6,592	40	60	<p>The wiretap and the related investigation resulted in the dismantling of a network of human traffickers and saving over a dozen victims, including a minor.</p>

Sutter	2023-SUT-1	9	4,125	7	93	<p>State and local law enforcement agencies intercepted communications involving three different groups operating in various locations throughout California. These groups were implicated in a series of shooting, including incidents targeting religious establishments. One shooting resulted in the death of a rival gang member while another incident left 5 individuals injured by gunfire.</p> <p>As a result of this wiretap investigation, law enforcement arrested 22 subjects on charges ranging from murder and attempted murder to various weapons offenses. In total, law enforcement seized 42 firearms, including fully automatic machine guns.</p> <p>Moreover, the impact of this investigation extended beyond apprehensions and seizures, as it successfully prevented two additional shooting from occurring. This proactive intervention underscores the critical role of the ongoing efforts in safeguarding the community and mitigating potential harm.</p>

Ventura (cont'd)	2023-VE-9	1,713	24,933	13	87	This investigation involved a wide-ranging DTO distributing drugs throughout various locations in California. The investigation resulted in multiple seizures and arrests. In total, detectives seized approximately 300 pounds of methamphetamine, 9.5 pounds of fentanyl, 13 pounds of heroin, 69 pounds of cocaine, 22,000 M30 fentanyl pills, 24 firearms, and \$154,102.
	2023-VE-10	485	36,607	4	96	These interceptions aided investigators in identifying several sources of supply of dangerous controlled substances to California residents. The investigation led to the seizure of 1,276 gross grams of methamphetamine, 1,344 gross grams of fentanyl, 2,309 gross grams of heroin, 1,428 gross grams of cocaine, 310 Xanax pills, 247 Opioid pills, 3 firearms, and \$58,294 in currency believed to be derived from narcotics sales. In addition, the identification of the target subjects outside of the wiretap interceptions will enable law enforcement to further identify sources of supply of illegal narcotics to California residents.
	2023-VE-11	41	11,906	1	99	This wiretap was part of an investigation into a cold case homicide and was used to obtain evidence for that crime. The investigation remains ongoing.
	2023-VE-12	330	61,742	16	84	The wiretap garnered several incriminating communications regarding 3 different shooting crimes, and information from the wiretap was used to prevent another serious felony assault. This remains an ongoing investigation and no arrests have yet been made.
	2023-VE-13	301	13,099	6	94	While the investigation is still ongoing, investigators anticipate arresting at least two high ranking gang-members who are involved in narcotic sales, extortions, and organized crime. The arrests of these subjects will have an unprecedented impact on the area in which these gang members reside.

List of Electronic Interception Orders Approved but Never Installed or Not Used During Calendar Year 2023⁹

Approved But Never Installed	Installed But Never Used
2023-FR-11	

⁹ There are various reasons why an application for an electronic interception may be approved but never implemented. For example, the user of a targeted device or number may cease using the particular device or number before law enforcement agents can begin intercepting communications.

APPENDIX A: PENAL CODE SECTION 629.62 “REPORT BY ATTORNEY GENERAL”

- (a) The Attorney General shall prepare and submit an annual report to the Legislature, the Judicial Council, and the Director of the Administrative Office of the United States Courts on interceptions conducted under the authority of this chapter during the preceding year. Information for this report shall be provided to the Attorney General by any prosecutorial agency seeking an order pursuant to this chapter.
- (b) The report shall include all of the following data:
- (1) The number of orders or extensions applied for.
 - (2) The kinds of orders or extensions applied for.
 - (3) The fact that the order or extension was granted as applied for, was modified, or was denied.
 - (4) The number of wire or electronic communication devices that are the subject of each order granted.
 - (5) The period of interceptions authorized by the order, and the number and duration of any extensions of the order.
 - (6) The offense specified in the order or application, or extension of an order.
 - (7) The identity of the applying law enforcement officer and agency making the application and the person authorizing the application.
 - (8) The nature of the facilities from which or the place where communications were to be intercepted.
 - (9) A general description of the interceptions made under the order or extension, including (A) the number of persons whose communications were intercepted, (B) the number of communications intercepted, (C) the percentage of incriminating communications intercepted and the percentage of other communications intercepted, and (D) the approximate nature, amount, and cost of the manpower and other resources used in the interceptions.
 - (10) The number of arrests resulting from interceptions made under the order or extension, and the offenses for which arrests were made.
 - (11) The number of trials resulting from the interceptions.
 - (12) The number of motions to suppress made with respect to the interceptions, and the number granted or denied.
 - (13) The number of convictions resulting from the interceptions and the offenses for which the convictions were obtained and a general assessment of the importance of the interceptions.

- (14) Except with regard to the initial report required by this section, the information required by paragraphs (9) to (13), inclusive, with respect to orders or extensions obtained in a preceding calendar year.
 - (15) The date of the order for service of inventory made pursuant to Section 629.68, confirmation of compliance with the order, and the number of notices sent.
 - (16) Other data that the Legislature, the Judicial Council, or the Director of the Administrative Office of the United States Courts shall require.
- (c) The annual report shall be filed no later than April of each year, and shall also include a summary analysis of the data reported pursuant to subdivision (b). The Attorney General may issue regulations prescribing the content and form of the reports required to be filed pursuant to this section by any prosecutorial agency seeking an order to intercept wire or electronic communications.
- (d) The Attorney General shall, upon the request of an individual making an application, provide any information known to him or her as a result of these reporting requirements that would enable the individual making an application to comply with paragraph (6) of subdivision (a) of Section 629.50.

APPENDIX B: PENAL CODE SECTIONS 629.78 & 629.82

Section 629.78:

Any person who has received, by any means authorized by this chapter, any information concerning a wire or electronic communication, or evidence derived therefrom, intercepted in accordance with the provisions of this chapter, may, pursuant to Section 629.82, disclose the contents of that communication or derivative evidence while giving testimony under oath or affirmation in any criminal court proceeding or in any grand jury proceeding, or in an administrative or disciplinary hearing involving the employment of a peace officer.

Section 629.82:

- (a) If a peace officer or federal law enforcement officer, while engaged in intercepting wire or electronic communications in the manner authorized by this chapter, intercepts wire or electronic communications relating to crimes other than those specified in the order of authorization, but that are enumerated in subdivision (a) of Section 629.52, grand theft involving a firearm, a violation of Section 18750 or 18755, or a violent felony as defined in subdivision (c) of Section 667.5, (1) the contents thereof, and evidence derived therefrom, may be disclosed or used as provided in Sections 629.74 and 629.76 and (2) the contents and any evidence derived therefrom may be used under Section 629.78 when authorized by a judge if the judge finds, upon subsequent application, that the contents were otherwise intercepted in accordance with the provisions of this chapter. The application shall be made as soon as practicable.
- (b) If a peace officer or federal law enforcement officer, while engaged in intercepting wire or electronic communications in the manner authorized by this chapter, intercepts wire or electronic communications relating to crimes other than those specified in subdivision (a), the contents thereof, and evidence derived therefrom, may not be disclosed or used as provided in Sections 629.74 and 629.76, except to prevent the commission of a public offense. The contents and any evidence derived therefrom may not be used under Section 629.78, except where the evidence was obtained through an independent source or inevitably would have been discovered, and the use is authorized by a judge who finds that the contents were intercepted in accordance with this chapter.
- (c) The use of the contents of an intercepted wire or electronic communication relating to crimes other than those specified in the order of authorization to obtain a search or arrest warrant entitles the person named in the warrant to notice of the intercepted wire or electronic communication and a copy of the contents thereof that were used to obtain the warrant.
- (d) (1) If a peace officer or federal law enforcement officer, while engaged in intercepting wire or electronic communications in the manner authorized by this chapter, intercepts wire or electronic communications relating to crimes, other than those specified in subdivision (a), and involving the employment of a peace officer, the contents thereof, and evidence derived therefrom, may not be disclosed or used as provided in Sections 629.74 and 629.76, except to prevent the commission of a public offense or in an administrative or disciplinary hearing

involving the employment of a peace officer. The contents and any evidence derived therefrom may not be used under Section 629.78, except if the evidence was obtained through an independent source or inevitably would have been discovered, and the use is authorized by a judge who finds that the contents were intercepted in accordance with this chapter.

(2) This section does not authorize the use of an intercepted wire or electronic communication involving acts that only involve a violation of a departmental rule or guideline that is not a public offense under California law.

(3) If an agency employing peace officers utilizes evidence obtained pursuant to this subdivision in an administrative or disciplinary proceeding, the agency shall, on an annual basis, report both of the following to the Attorney General:

(A) The number of administrative or disciplinary proceedings involving the employment of a peace officer in which the agency utilized evidence obtained pursuant to this subdivision.

(B) The specific offenses for which evidence obtained pursuant to this subdivision was used in those administrative or disciplinary proceedings.

(4) (A) The Attorney General may issue regulations prescribing the form of the reports required to be filed pursuant to paragraph (3) by an agency utilizing intercepted wire or electronic communications in an administrative or disciplinary proceeding against a peace officer.

(B) The Attorney General shall include information received pursuant to paragraph (3) in its annual report made pursuant to Section 629.62.
