

COUNTY GOVERNMENT

The county seals project was a project of the Idaho Centennial Commission. Each county was invited to submit its own design for a seal, and they were placed on the light posts in downtown Boise.

COUNTIES

The primary unit of local government in Idaho is the county. Counties are political subdivisions of the state and serve as an administrative arm of state government in providing services required by state law, such as law enforcement, welfare, and road maintenance. In addition, counties have, in recent years, tended to take on functions of a quasi-municipal character providing urban services such as planning and zoning, water supply and sewage disposal — functions that have traditionally been provided by incorporated cities.

The organization of county government is uniform throughout the state's forty-four counties; however, this uniformity may change due to a 1994 constitutional amendment that allows for optional forms of county government. The legislature has developed enabling legislation that provides for the optional forms that are available to Idaho's counties. Citizens in the counties have the opportunity to decide whether they want to continue with the current form of government or change to another form.

For further information on Idaho counties, contact the Idaho Association of Counties, 700 W. Washington, Box 1623 Boise, ID 83701; Phone: (208)345-9126; FAX: (208)345-0379; Website: www.idcounties.org

CITIES

Cities are voluntarily organized and may be incorporated under the general laws of the state by the people living within their boundaries. Cities are not primarily an administrative arm of state government but are local units which, for the most part, perform functions that are exclusively local.

Since 1967, all incorporated places in the state are designated simply as "cities" with no further classification. The constitution authorizes the legislature to enact general laws that apply to all cities in the state. There are 200 incorporated cities in Idaho ranging in population from 185,787 in Boise to 10 at Warm River in Fremont County.

Three Idaho cities, Boise, Lewiston, and Bellevue were granted charters from the territorial legislature rather than incorporate under the general laws of the state which govern all other cities. Boise, in 1961, and Lewiston, in 1969, abandoned their charters and joined Idaho's other cities under the general law governing municipal corporations. Bellevue, located in Blaine County, remains the only city in the state with a territorial charter. The town does not operate under the State Municipal Code, and the state legislature must approve any changes to the charter including annexations.

Most Idaho cities operate under a mayor-council form of government, but all cities have the option to adopt a council-manager plan (where a professionally trained city manager administers the day-to-day needs) if they so desire. Only three cities, Lewiston, Twin Falls and McCall, utilize the council-manager form. On June 26, 1985, residents of the city of Pocatello voted to change to a mayor-council form after nearly thirty-five years under a council-manager system.

An extensive list of city officials may be obtained from the Association of Idaho Cities, 3100 S. Vista Ave, Ste 310, Boise ID 83705; Phone: (208) 344-8594; Fax: (208) 344-8677; Website: <http://www.idahocities.org/>

TAXING DISTRICTS

Other local units of government in Idaho include school districts, numerous road districts, cemetery districts, fire protection districts, irrigation districts, junior college districts and other single-purpose taxing units. All of these units have limited taxing powers but are required to certify their requirements to the county commissioners who must include these needs in the collections made by county tax collectors.
