Thematic section

Sustainable Development Goals

On 25 September 2015, the United Nations member states adopted the 2030 Agenda for Sustainable Development. The Agenda contains a number of Goals aimed at liquidation of poverty, preservation of the planet resources and ensuring prosperity for all. Each Goal has a number of targets that should be achieved over the next 15 years. For the Goals to be reached, governments, the private sector, civil society and Earth inhabitants must join their efforts.
