- 6.7.5** ^G_{/1} Where the *FSA* exercises its powers under section 380, section 381 or invokes the court's inherent jurisdiction to obtain an order restraining the disposal of assets, it may also apply to the court for a restitution order for the distribution of those assets. The *FSA*'s policy and procedure in relation to restitution orders is set out in *ENF* 9 (Restitution and redress).

6.8 Section 198

- 6.8.1** G_{/1} Under section 198 of the *Act* (Power to apply to court for injunction in respect of certain overseas insurance companies) the *FSA* has power to apply to court on behalf of the *Home State regulator* of certain *incoming EEA firms* for an *injunction* restraining the *incoming EEA firm* from disposing of, or otherwise dealing with, any of its assets.
- 6.8.2** G_{/1}
- (1) Section 198(1) sets out the circumstances in which the *FSA* may exercise the power referred to in *ENF* 6.8.1G.
 - (2) Section 198(1) states, 'This section applies if the *FSA* has received a request made in respect of an *incoming EEA firm* in accordance with:
 - (a) Article 20.5 of the *First Non-Life Directive*; or
 - (b) Article 24.5 of the *First Life Directive*.'
- 6.8.3** G_{/1} The *FSA*'s power under section 198 is intended to implement article 20.5 of the *First Non-Life Directive*, on general insurance, and article 24.5 of the *First Life Directive*, on long-term insurance. Section 198(1) limits use of the power to where it is in accordance with those articles, which means that it can be exercised only where the *Home State regulator* concerned has asked the *FSA* to prohibit the free disposal of the *incoming EEA firm*'s assets and has confirmed that:
- (1) the *incoming EEA firm* has failed to comply with the requirements of article 15 of the *First Non-Life Directive*, or article 17 of the *First Life Directive*; or
 - (2) the solvency margin of the *incoming EEA firm* has fallen below the minimum required by article 16.3 of the *First Non-Life Directive*, or article 19 of the *First Life Directive*; or
 - (3) the solvency margin of the *incoming EEA firm* has fallen below the guarantee fund as defined in article 17 of the *First Non-Life Directive*, or article 20 of the *First Life Directive*.
- 6.8.4** G_{/1} The *FSA* will therefore consider exercising this power only where a request from a *Home State regulator* satisfies the requirements of section 198(1).

6.9 Injunctions under the Unfair Terms in Consumer Contracts Regulations 1999: the power

- 6.9.1** G_{/1} Regulation 12 of the Unfair Terms in Consumer Contract Regulations 1999 states that:
- (1) The Director General of Fair Trading (the Director) or, subject to paragraph (2), any qualifying body may apply for an *injunction* (including an interim *injunction*) against any *person* appearing to them to be using, or recommending the use of, an unfair term drawn up for general use in contracts concluded with *consumers*.
 - (2) A qualifying body may apply for an *injunction* only where:
 - (a) it has notified the Director of its intentions at least fourteen *days* before applying, beginning with the date on which the notification was given; or
 - (b) the Director consents to the application being made within a shorter period.
- 6.9.2** G_{/1} The court, on an application under this regulation, may grant an *injunction* on such terms as it thinks fit.
- 6.9.3** G_{/1} An *injunction* may relate not only to the use of a particular contract term drawn up for general use but to any similar term, or term having a similar effect, used or recommended for use by any *person*.
- 6.9.4** G_{/1} The *FSA* is a qualifying body for the purposes of Regulation 12 (see *ENF* 6.9.1G).

6.10 Injunctions under the Unfair Terms in Consumer Contracts Regulations 1999: FSA policy

- 6.10.1** G_{/1} The Unfair Terms in Consumer Contracts Regulations 1999 apply, with certain exceptions, to any term which has not been individually negotiated in a contract between a seller or supplier and a consumer. The regulations specify what constitutes an unfair term and state that an unfair term is not binding on the consumer. A 'consumer' is defined for the purposes of the regulations as any natural person who, in contracts covered by the regulations, is acting for purposes which are outside his trade, business or profession.
- 6.10.2** G_{/1} Only the Director and specified qualifying bodies including the FSA have the power to apply to court under Regulation 12 of the Unfair Terms in Consumer Contracts Regulations 1999 for an *injunction* preventing the continued use of an unfair term.
- 6.10.3** G_{/1} The FSA will consider a complaint from a *consumer* that a contract term is unfair only where the seller or supplier is a *firm* and the contract containing the term relates to *regulated activities* carried out by the *firm*.
- 6.10.4** G_{/1} When it considers whether to seek an *injunction* against a *firm* under regulation 12, the FSA may take into account the following factors. The list is not exhaustive: the FSA will have regard to all the circumstances when it decides whether it is appropriate to take any action.
- (1) Whether the FSA is satisfied that the contract term which is the subject of the complaint may properly be regarded as unfair for the purposes of the Unfair Terms in Consumer Contracts Regulations 1999.
 - (2) The extent and nature of the detriment to *consumers* resulting from the term, including the number of *consumers* who appear to the FSA to be suffering detriment. The more serious the detriment and the greater the number of *consumers* affected, the more likely it is that the FSA will consider it appropriate to apply for an *injunction*.
 - (3) Whether the firm has fully cooperated with the FSA in resolving the FSA's concerns about the fairness of the particular contract term. In particular, the FSA may, in deciding whether to seek an *injunction* in respect of what it regards as an unfair term, take into account any undertakings given to it as to the continued use of the term in contracts concluded with *consumers*.
 - (4) The likelihood of success of an application for an *injunction*.
 - (5) The costs the FSA would incur in applying for and enforcing an *injunction* and the benefits that would result from that action. The FSA is more likely to be satisfied that an application is appropriate where an *injunction* would not only prevent the continued use of the particular contract term, but would also be likely to prevent the use or continued use of similar terms, or terms having the

same effect, used or recommended by other *persons* concluding contracts with *consumers*. Generally the *FSA* will have to be satisfied that the use of the power to seek an *injunction* is proportionate to the concern being addressed.

6.11 Publication

6.11.1

G

/1

- (1) The *FSA* considers it generally appropriate to publish details of its successful applications to the court for *injunctions*. For example, where the court has ordered an *injunction* to prohibit further illegal activity, it will normally be appropriate to publicise this to inform *consumers* of the position and help them avoid dealing with the *person* who is the subject of the *injunction*. However, there may be circumstances when the *FSA* decides not to publicise, or not to do this immediately. These circumstances might, for example, be where publication could damage confidence in the *financial system* or undermine market integrity in a way that would be prejudicial to the interests of *consumers*.
- (2) Where the *behaviour* to which the *injunction* relates has occurred in the context of a *takeover bid*, the *FSA* will consult the *Takeover Panel* over the timing of publication if the *FSA* believes that publication may affect the timetable or outcome of that bid, and will give due weight to the *Takeover Panel's* views.

Chapter 7.

Withdrawal of approval

7.

7.1 Application and purpose

Application

7.1.1

G
/1

This chapter applies to *approved persons* and to *firms*.

Purpose

7.1.2

G
/1

The power to withdraw approval from *approved persons* is one of various regulatory tools the *FSA* may use to help it achieve its *regulatory objectives*. The *FSA*'s effective use of this power will help ensure high standards of regulatory conduct by preventing an *approved person* from continuing to perform the *controlled function* to which the approval relates if he is not a fit and proper *person* to perform that function. It will also demonstrate generally to *approved persons* the consequences of failing to comply with appropriate standards of conduct.

7.2 Introduction

7.2.1

G

^{/1}

This chapter contains guidance on:

- (1) the *FSA*'s power to withdraw approval from an *approved person*, under section 63 of the *Act* (Withdrawal of approval);
- (2) the procedure for exercising this power;
- (3) the *FSA*'s policy in relation to the exercise of this power;
- (4) other powers that may be relevant when the *FSA* considers the exercise of the power; and
- (5) the effect of the *FSA*'s decision to withdraw approval.

7.3 The FSA's power to withdraw approval

7.3.1 **G**_{/1} Under section 63(1) of the *Act* (Withdrawal of approval), the *FSA* may withdraw an approval given under section 59 of the *Act* (Approval for particular arrangements) if it considers the *person* in respect of whom it was given is not a fit and proper *person* to perform the function to which the approval relates.

7.3.2 **G**_{/1} When considering whether to withdraw its approval, the *FSA* may, under section 63(2), consider any matter which it could take into account if it were considering an application made under section 60 of the *Act* (Applications for approval) in respect of the performance of the function to which the approval relates.

7.3.3 **G**_{/1} Section 61(2) of the *Act* (Determinations of approval) sets out matters to which the *FSA* may have regard in deciding whether a *person* is a fit and proper *person*, for the purposes of an application for approval made under section 60, to perform the function to which the approval relates.

7.3.4 **G**_{/1} Section 61(2) states that the *FSA* may: 'have regard (among other things) to whether the *person*, or any *person* who may perform a function on his behalf:

- (1) has obtained a qualification;
- (2) has undergone, or is undergoing, training; or
- (3) possesses a level of competence,

required by general *rules* in relation to *persons* performing functions of the kind to which the approval relates.'

7.3.5 **G**_{/1} *Rules* and *guidance* contained in the Training and Competence sourcebook (*TC*) apply to certain specific activities that may be carried out by some *approved persons*.

7.4 Procedure

- 7.4.1** G_{/1} Under section 63(3) of the *Act* (Withdrawal of approval), if the *FSA* proposes to withdraw its approval from an *approved person* under its section 63(1) power, it must give each of the *interested parties* a *warning notice*. The *FSA*'s procedures for issuing *warning notices* in this area are those set out in *DEC 2.2* (Warning notice procedure).
- 7.4.2** G_{/1} Under section 63(4), if the *FSA* decides to withdraw its approval, it must give each of the *interested parties* a *decision notice*. The *FSA*'s procedures in relation to *decision notices* in this area are the same as those set out in *DEC 2.3* (Decision notice procedure).
- 7.4.3** G_{/1} If the *FSA* decides to withdraw its approval, each of the *interested parties* may refer the matter to the *Tribunal*. Further information about referrals to the *Tribunal* is set out in *DEC 5.1* (The Tribunal).

7.5 The FSA's policy on withdrawal of approval

7.5.1

G
/1

The FSA may withdraw its approval only if it considers that the *person* in respect of whom it was given is not a fit and proper *person* to perform the function to which the approval relates. Where a *person* ceases to perform *controlled functions* for a *firm* for reasons unconnected with his fitness and propriety, the *firm* must notify the FSA through the procedure set out in SUP 10 (Approved persons). ENF 7.5.2G to ENF 7.5.5G set out how the FSA will approach the question of whether a *person* is a fit and proper *person* to perform the function to which his approval relates.

7.5.2

G
/1

The FSA recognises that its decisions to withdraw approval will often have a substantial impact on those concerned. When it considers whether to withdraw approval from a *person* it will take account of all relevant factors, including, but not limited to, the matters set out below:

- (1) the matters set out in section 61(2) of the Act (Determination of applications) (see ENF 7.3.4G);
- (2) the criteria for assessing the fitness and propriety of *approved persons*. These are contained in FIT 2.1 (Honesty, integrity and reputation); 2.2 (Competence and capability) and 2.3 (Financial soundness). The criteria include:
 - (a) honesty, integrity and reputation; this includes an individual's openness and honesty in dealing with *consumers*, market participants and regulators, and ability and willingness to comply with the requirements placed on him by or under the Act as well as with other legal and professional obligations and ethical standards (see ENF 7.5.2G(3));
 - (b) competence and capability; this includes having the necessary skills to carry out the *controlled function* that he is performing; and
 - (c) financial soundness; this includes whether the individual has been the subject of any judgement debts or awards in the United Kingdom or elsewhere that are continuing or were not satisfied within a reasonable period;
- (3) whether, and to what extent, the *approved person* has:
 - (a) failed to comply with the *Statements of Principle*; or
 - (b) been knowingly concerned in a contravention by a relevant *firm* of a requirement imposed on the *firm* by or under the Act (including the *Principles* and other *rules*);
- (4) the relevance, materiality and length of time since the occurrence of any matters indicating unfitness;

- (5) the severity of risk which the *person* poses to *consumers* and confidence in the *financial system*; and
- (6) the previous disciplinary record and general compliance history of the *person* including whether the *FSA* (or any *previous regulator*) has previously imposed a disciplinary sanction on the *person*.

7.5.3

G

/1

The *FSA* may have regard to the cumulative effect of a number of factors which, when considered on their own, may not be sufficient to show that the *person* is not fit and proper to continue to carry out a *controlled function*.

7.5.4

G

/1

The *FSA* may also take account of the particular *controlled function* which an *approved person* is carrying out within a *firm*, the nature and activities of the *firm* concerned and the markets within which it operates.

7.5.5

G

/1

It is impossible to produce a definitive list of matters which the *FSA* might take into account when considering whether an *approved person* is not a fit and proper *person* to continue to carry out a particular *controlled function* in a particular *firm*. This is because of the diverse nature of the activities and *controlled functions* which the *FSA* regulates. Accordingly, certain matters that do not fall squarely, or at all, within the matters referred to above may also be considered, for example, if a *person* has been convicted of, or dismissed or suspended from employment for abuse of drugs or other substances, or has convictions for serious assault. In these circumstances, the *FSA* will consider whether the conduct or matter in question is relevant to the *person's* fitness and propriety for the particular *controlled function*.

7.6 Other powers that may be relevant

- 7.6.1** **G** This section refers to other powers that may be relevant when the *FSA* is considering whether to withdraw approval from an *approved person*.
/1
- 7.6.2** **G** The *FSA* may use its investigation powers in relation to *approved persons*. The *FSA*'s powers to appoint investigators are set out in *ENF 2* (Information gathering and investigation powers). In particular, the *FSA* may appoint investigators if there appear to be circumstances suggesting that:
- (1) an individual is not a fit and proper *person* to be involved in the carrying out of any function in relation to a *regulated activity* carried on by an authorised or *exempt person* (see section 168(4)(d) of the *Act* (Appointment of persons to carry out investigations in particular cases));
 - (2) a *person* in relation to whom the *FSA* has given its approval under section 59 of the *Act* (Approval for particular arrangements) may not be a fit and proper *person* to carry out the function to which the approval relates (see section 168(4)(h) of the *Act*); or
 - (3) a *person* may be guilty of misconduct for the purposes of section 66 of the *Act* (Disciplinary powers) (see *ENF 7.7.3G* and section 168(4)(i) of the *Act*).
- 7.6.3** **G** (1) Where it appears to the *FSA* that an *approved person* has been guilty of misconduct, it may consider taking disciplinary action against him under section 66 of the *Act* (Disciplinary powers), as well as withdrawing his approval. Misconduct is defined in section 66 as a failure to comply with a *Statement of Principle* issued by the *FSA* under section 64 of the *Act* (Conduct: statements and codes), or being knowingly concerned in a contravention by a *firm* of a requirement imposed on that *firm* by or under the *Act*.
- (2) When deciding whether to take disciplinary action as well as withdrawing approval, the *FSA* will be guided by the criteria set out in *ENF 11.4* and *11.5*. The *FSA*'s approach to the discipline of *approved persons* is set out in *ENF 11* (Discipline of authorised firms and approved persons: the *FSA*'s general approach), *12* (Discipline of firms and approved persons: public censures and public statements) and *13* (Discipline of firms and approved persons: financial penalties).
 - (3) If it appears to the *FSA* that the misconduct is likely to continue or that *client* assets are at risk as a result of the misconduct, it may consider applying for an *injunction* to prevent dissipation of those assets and/or to stop the misconduct from continuing. The *FSA*'s approach to the exercise of its power to apply for *injunctions* is set out in *ENF 6* (Injunctions).
- 7.6.4** **G** Where the information available to the *FSA* casts doubt on the fitness and propriety of an *approved person* to be involved in *regulated activity* conducted by *firms* generally, the *FSA* may consider making a *prohibition order* against him, as

well as withdrawing its approval from him. The scope and effect of a *prohibition order* may be wider than withdrawal of approval and can extend to a *general prohibition* on performing any function in relation to *regulated activities* of *firms* generally. The *FSA's* approach to making *prohibition orders* is set out in *ENF 8* (Prohibition of individuals).

7.7 The effect of the FSA's decision to withdraw approval

7.7.1

G
/1

Unless the decision has been referred to the *Tribunal*, the FSA's decision to withdraw its approval from an *approved person* will come into effect on the date specified in the *final notice* (see DEC 2.3.11G). Where the decision has been referred to the *Tribunal*, the FSA is not permitted (under section 133(9) of the *Act* (Proceedings: general provisions) to take the action specified in the *decision notice* until that reference, and any appeal against the *Tribunal's* decision, has been finally disposed of.

7.7.2

G
/1

When the FSA's decision to withdraw an approval has become effective, the position of the *firm* on whose application the approval was granted differs depending on whether it directly employs the *person* concerned, or whether the *person* is employed by one of its contractors.

- (1) If the *firm* directly employs the *person* concerned:
 - (a) Under section 59(1) of the *Act* (Approval for particular arrangements), a *firm* ('A') must take reasonable care to ensure that: '...no *person* performs a *controlled function* under an *arrangement* entered into by A in relation to carrying on by A of a *regulated activity*, unless the FSA approves the performance by that *person* of the *controlled function* to which the *arrangement* relates.'
 - (b) Therefore, if the *firm* continues to employ the *person* concerned to carry out a *controlled function*, it will be in breach of section 59(1) and the FSA may take enforcement action against it.
- (2) If the *person* concerned is employed by a contractor of the *firm*.
 - (a) Under section 59(2), a *firm* ('A') must: '... take reasonable care to ensure that no *person* performs a *controlled function* under an *arrangement* entered into by a contractor of A in relation to the carrying on by A of a *regulated activity*, unless the FSA approves the performance by that *person* of the *controlled function* to which the *arrangement* relates.'
 - (b) Therefore, if a contractor of the *firm* employs the *person* concerned, and the contractor continues to employ the *person* to carry out a *controlled function*, the *firm* itself will be in breach of section 59(2) unless it has taken reasonable care to ensure that this does not happen. The FSA may take enforcement action against a *firm* that breaches this requirement.

7.7.3

G
/1

Firms should be aware of the potential effect that these provisions may have on their contractual relationships with *approved persons* employed by them and with contractors engaged by them, and their obligations under these contracts.

7.7.4

G

/1

As stated in ENF 7.4.2G, the FSA is required to give a copy of its *decision notice* to the *firm* that applied for the approval, and also to a contractor of the *firm* if the *person* concerned is employed by the contractor.

7.

7.8 Publication

7.8.1

G
/1

DEC 5.2 (Publication) sets out certain requirements of the *Act* in relation to publication by the *FSA* of its decisions. Once a *final notice* relating to a withdrawal of approval has been issued, the *FSA* will generally publicise the decision unless this would prejudice the interests of *consumers*.

Chapter 8.

Prohibition of individuals

8.

PAGE
1

8.1 Application and Purpose

Application

8.1.1

G
/1

This chapter applies to all individuals, whether or not they are approved by the FSA. Some consequential *guidance* in this chapter will apply to *firms*.

Purpose

8.1.2

G
/1

The power to prohibit individuals who are not fit and proper from carrying out functions in relation to *regulated activities* helps the FSA to work towards its *regulatory objectives* of protecting *consumers*, promoting public awareness, maintaining confidence in the *financial system* and reducing *financial crime*. The FSA may exercise its power to make a *prohibition order* where it considers an individual presents such a risk to *consumers* or to confidence in the market generally that it is necessary either to prevent him from carrying out any function in relation to *regulated activities* or from being employed by any *firm*, or to restrict the functions which he may carry out or the type of *firm* by which he may be employed.

8.2 Introduction

8.2.1

G

^{/1}

This chapter contains *guidance* on:

- (1) the *FSA*'s power to make a *prohibition order* under section 56 of the *Act* (Prohibition orders);
- (2) the *FSA*'s procedure for exercising this power;
- (3) the effect of the *FSA*'s decision to make a *prohibition order*; and
- (4) the *FSA*'s policy in relation to applications by individuals for the variation or revocation of *prohibition orders*.

8.3 The FSA's power to make a prohibition order

8.3.1 ^G_{/1} Under section 56(2) of the *Act* (Prohibition orders), the *FSA* may make a *prohibition order* if it appears that an individual is not fit and proper to carry out functions in relation to *regulated activities* carried on by *firms*. The *FSA* may make an order prohibiting the individual from carrying out a specified function in relation to *regulated activities*, any function within a specified description, or any function in relation to *regulated activities*.

8.3.2 ^G_{/1} A *prohibition order* may relate to:

- (1) a specified *regulated activity*, any *regulated activity* falling within a specified description or all *regulated activities*;
- (2) *firms* generally, or any *firm* within a specified class of *firm*.

8.3.3 ^G_{/1} Under section 56(4), an individual who carries out or agrees to carry out a function in breach of a *prohibition order* is guilty of an offence and liable, on summary conviction, to a fine not exceeding level 5 on the standard scale (section 37(1) of the Criminal Justice Act 1982 states that a level 5 fine shall not exceed £5000). In proceedings for an offence under section 56(4), it is a defence for the accused to show that he took all reasonable precautions and exercised all due diligence to avoid committing an offence.

8.3.4 ^G_{/1} Section 56(6) states that a *firm* must take reasonable care to ensure that no function which relates to the carrying on of a *regulated activity* is carried out by a *person* who is prohibited from carrying out that function by a *prohibition order* (see *ENF* 8.11.2G).

8.3.5 ^G_{/1} Section 56(8) states that the *FSA*'s power to make a *prohibition order* applies to the performance of functions in relation to *regulated activities* carried on by:

- (1) a *person* who is an *exempt person* in relation to that activity; and
- (2) a *person* to whom, as a result of Part XX of the *Act* (Provision of financial services by members of the professions), the *general prohibition* does not apply in relation to that activity (see *ENF* 8.7);

as it applies to the carrying out of functions in relation to a *regulated activity* carried on by a *firm*.

8.3.6 ^G_{/1} Under section 57(1) of the *Act* (Prohibition orders: procedure and right to refer to Tribunal), if the *FSA* proposes to make a *prohibition order* it must give the individual concerned a *warning notice* setting out the terms of the prohibition. The *FSA*'s procedures for issuing *warning notices* in this area are the same as those set out in *DEC* 2.2 (Warning notice procedure).

8.3.7

G

/1

Under section 57(3), if the *FSA* decides to make a *prohibition order* it must give the individual concerned a *decision notice*. The *FSA's* procedures in relation to *decision notices* in this area are the same as those set out in *DEC 2.3* (Decision notice procedure).

8.3.8

G

/1

An individual who receives a *decision notice* making a *prohibition order* may refer the matter to the *Tribunal*. Further information about referrals to the *Tribunal* is set out in *DEC 5.1* (The Tribunal).

8.4 The FSA’s policy on making prohibition orders

- 8.4.1** G_{/1} *ENF 8.5 to ENF 8.6 set out how the FSA will decide whether **approved persons** and other individuals are fit and proper to perform functions in relation to **regulated activities**.*
- 8.4.2** G_{/1}
- (1) The FSA will have the power to make a range of *prohibition orders* depending on the circumstances of each case and the range of *regulated activities* to which the individual’s lack of fitness and propriety is relevant.
 - (2) Depending on the circumstances of each case, the FSA may seek to prohibit individuals from carrying out any class of relevant function in relation to any class of *regulated activity*, or it may limit the *prohibition order* to specific functions in relation to specific *regulated activities*. The FSA may also make an order prohibiting an individual from being employed by a particular *firm*, type of *firm* or any *firm*.
 - (3) The scope of a *prohibition order* will depend on the range of functions which the individual concerned carries out in relation to *regulated activities*, the reasons why he is not fit and proper and the severity of risk which he poses to *consumers* or the market generally.
 - (4) The FSA may also make an order prohibiting an individual from performing functions in relation to the *regulated activities* carried out by *exempt persons* and *persons* covered by an exemption under Part XX of the *Act* (provision of financial services by members of the professions).
- 8.4.3** G_{/1} The FSA recognises that its decision to make a *prohibition order* will have a substantial impact on the individuals concerned and, where relevant, their employers. When it decides whether to make a *prohibition order* the FSA will consider all relevant circumstances including whether other enforcement action should be taken or has already been taken against the individual by the FSA. The FSA will also consider whether enforcement action has been taken against the individual by other enforcement agencies or *designated professional bodies*.
- 8.4.4** G_{/1} The FSA considers that a *prohibition order* is a more serious penalty than the withdrawal of approval because a *prohibition order* will usually be much wider in scope. In most cases the FSA will consider whether the particular unfitness can be adequately dealt with by withdrawing approval or other disciplinary sanctions, for example, public censure or financial penalties, or by issuing a private warning. The FSA will consider making a *prohibition order* only in the most serious cases of lack of fitness and propriety. In those cases the FSA may consider it necessary to prevent the individual concerned from performing any functions in relation to any *regulated activities* carried on by any *firm*. Where the individual concerned is not an *approved person* the FSA will not have the option of withdrawing approval or exercising its disciplinary powers in relation to the individual concerned and therefore a *prohibition order* may be the only appropriate action available.

8.5 Prohibition orders against approved persons

8.5.1

G

/1

When the FSA has concerns about the fitness and propriety of an *approved person*, it may consider whether it should seek to withdraw his approval, prohibit him from conducting *regulated activities*, or both. ENF 7 (Withdrawal of approval) sets out the FSA's approach to the use of its power to withdraw approval in relation to individuals who are *approved persons*. The grounds on which the FSA may withdraw approval are similar to the grounds on which the FSA may consider exercising its power to make a *prohibition order* against individuals who are *approved persons*. The FSA considers that the prohibition of an individual who is an *approved person* may have more serious consequences than the withdrawal of approval for a particular *controlled function*. A *prohibition order* will be wider in scope than the withdrawal of approval (see ENF 8.3.2G). Accordingly, a *prohibition order* will be used only where the *approved person* is an individual and presents a degree of risk to *consumers* or to confidence in the *financial system* that cannot be sufficiently addressed by the withdrawal of his approval or other disciplinary sanction.

8.5.2

G

/1

When it decides whether to exercise its power to make a *prohibition order* against an *approved person*, the FSA will consider the following factors:

- (1) whether the individual is fit and proper to perform functions in relation to *regulated activities*. The criteria for assessing the fitness and propriety of *approved persons* are contained in FIT 2.1 (Honesty, integrity and reputation); 2.2 (Competence and capability) and 2.3 (Financial soundness). The criteria include:
 - (a) honesty, integrity and reputation; this includes an individual's openness and honesty in dealing with *consumers*, market participants and regulators and ability and willingness to comply with requirements placed on him by or under the *Act* as well as with other legal and professional obligations and ethical standards;
 - (b) competence and capability; this includes an assessment of the individual's skills to carry out the *controlled function* that he is performing; and
 - (c) financial soundness; this includes whether the individual has been the subject of any judgment debts or awards in the United Kingdom or elsewhere that are continuing or were not satisfied within a reasonable period;
- (2) whether and to what extent, the *approved person* has:
 - (a) failed to comply with the *Statements of Principle*; or
 - (b) been knowingly concerned in a contravention by the relevant *firm* of a requirement imposed on the *firm* by or under the *Act* (including the *Principles* and other *rules*);

- (3) the relevance, materiality and length of time since the occurrence of any matters indicating unfitness;
- (4) the particular *controlled function* the *approved person* is performing, the nature and activities of the *firm* concerned and the markets in which he operates;
- (5) the severity of the risk which the individual poses to *consumers* and to confidence in the *financial system*;
- (6) the previous disciplinary record and general compliance history of the individual including whether the *FSA* (or any *previous regulator*) has previously imposed a disciplinary sanction on the individual.

8.5.3 G_{/1} The *FSA* may have regard to the cumulative effect of a number of factors which, when considered on their own, may not be sufficient to show that the individual is fit and proper to continue to carry out the *controlled function*.

8.5.4 G_{/1} It is impossible to produce a definitive list of matters which the *FSA* might take into account when considering whether an individual is not a fit and proper *person* to carry out a particular, or any, *controlled function* in relation to a particular, or any, *firm*. This is because of the diverse nature of the activities and *controlled functions* which the *FSA* regulates. Therefore, certain matters that do not fit squarely, or at all, within the matters referred to above may fall to be considered, for example, if an individual has been convicted of, or dismissed or suspended from employment for abuse of drugs or other substances, or has convictions for serious assault. In these circumstances the *FSA* will consider whether the conduct or matter in question is relevant to the individual's fitness and propriety.

8.5.5 G_{/1} Where the *FSA* has withdrawn the approval of an individual who is an *approved person* and that individual has continued to carry out *controlled functions* in relation to *regulated activities* despite the withdrawal of his approval in relation to those functions, the *FSA* will consider whether it is appropriate to make a *prohibition order* against him.

8.6 Prohibition orders against individuals employed by firms who are not approved persons

8.6.1

G

^{/1}

Where the *FSA* considers making a *prohibition order* against an individual employed by a *firm* who is not an *approved person*, it may make an order only on the grounds that the individual is not fit and proper to carry out functions in relation to *regulated activities* carried on by an *authorised person*.

8.6.2

G

^{/1}

When considering whether to exercise its power to make a *prohibition order* against an individual employed by a *firm*, the *FSA* will consider those factors set out in *ENF* 8.5.2G(1), (3), (5) and, if relevant, (6).

8.

8.7 Prohibition orders against exempt persons and members of professional firms

8.7.1

G
/1

The *FSA* may exercise its power to make a *prohibition order* against any individual, including individuals who carry out *regulated activities* by virtue of their status as *exempt persons* or by virtue of an exemption from the *general prohibition* under Part XX of the *Act* (Provision of financial services by members of the professions) (see *ENF* 18 (Disapplication orders against members of the professions)).

8.7.2

G
/1

When considering whether to exercise its power to make a *prohibition order* against an *exempt person*, the *FSA* will consider those factors set out in *ENF* 8.5.2G(1), (3), (5) and (6).

8.8 Prohibition orders against other individuals

8.8.1

G

/1

The FSA will consider exercising its power to make a *prohibition order* against individuals who are not *approved persons* nor employed by *firms* where they have shown themselves to be unfit to carry out functions in relation to *regulated activities*.

8.8.2

G

/1

The FSA will consider the individual's fitness or propriety where, for example, it appears that:

- (1) the individual has been involved in conducting *regulated activities* in breach of the *general prohibition*; or
- (2) the individual has been involved in other misconduct or offences under the *Act* which call into question his honesty, integrity or competence; or
- (3) he appears likely to pose a serious risk to *consumers* or confidence in the *financial system* in the future.

8.8.3

G

/1

When determining the fitness and propriety of an individual who is neither an *approved person* nor employed by a *firm*, the FSA will consider the criteria set out in *ENF 8.5.2G*(1), (3) and (5).

8.

8.9 Applications for variation or revocation of prohibition orders

8.9.1 G_{/1} At any time after the *FSA* has made a *prohibition order* against an individual, the individual may apply to the *FSA* to have the order varied or revoked.

8.9.2 G_{/1} When considering whether to grant or refuse an application to revoke or vary a *prohibition order* the *FSA* will consider all the relevant circumstances of a case. These may include, but are not limited to:

- (1) the seriousness of the misconduct that resulted in the order;
- (2) the amount of time since the original order was made;
- (3) any steps taken subsequently by the individual to remedy the misconduct;
- (4) any evidence which, had it been known to the *FSA* at the time, would have been relevant to the *FSA*'s decision to make the *prohibition order*;
- (5) all available information relating to the individual's honesty, integrity or competence since the order was made, including any repetition of the misconduct which resulted in the *prohibition order* being made;
- (6) where the *FSA*'s finding of unfitness arose from incompetence rather than from dishonesty or lack of integrity, evidence that this unfitness has been or will be remedied; for example, this may be achieved by the satisfactory completion of relevant training and obtaining relevant qualifications, or by supervision of the individual by his employer;
- (7) the financial soundness of the individual concerned; and
- (8) whether the individual will continue to pose the level of risk to *consumers* or confidence in the *financial system* which resulted in the original prohibition if it is lifted.

8.9.3 G_{/1} If the individual applying for a revocation or variation of a *prohibition order* proposes to take up an offer of employment to carry out *controlled functions*, the *approved persons* regime will also apply to him. In these cases, the *firm* concerned will be required to apply to the *FSA* for approval of that individual's employment in that capacity. The *FSA* will assess the individual's fitness and propriety to undertake *controlled functions* on the basis of the criteria set out in *FIT* 2.1 (Honesty, integrity and reputation); 2.2 (Competence and capability) and 2.3 (Financial soundness).

8.9.4 G_{/1} The *FSA* will not generally grant an application to vary or revoke a *prohibition order* unless it is satisfied that the proposed variation will not result in a reoccurrence of the risk to *consumers* or confidence in the *financial system* that resulted in the order being made. Equally, the *FSA* will not revoke a *prohibition*

order unless it is satisfied that the individual is fit to carry out functions in relation to *regulated activities* generally, or to those specific *regulated activities* in relation to which the individual has been prohibited.

8.9.5

G
/1

If the *FSA* decides to grant an application to vary or revoke a *prohibition order* it must give the applicant written notice of its decision.

8.9.6

G
/1

Where the *FSA* proposes to refuse an application for revocation or variation, the *FSA* must give the applicant a *warning notice* setting out the reasons for its proposed refusal (see *DEC 2.2* (Warning notice procedure)). If the *FSA* decides to refuse an application for revocation or variation of an order it must give the applicant a *decision notice* (see *DEC 2.3* (Decision notice procedure)). If the *FSA* refuses an application, the applicant may refer the matter to the *Tribunal* (see *DEC 5.1* (The Tribunal)).

8.10 Other powers that may be relevant

- 8.10.1** **G** This section sets out the other powers that may be relevant when the *FSA* considers whether to exercise its power to make a *prohibition order*.
/1
- 8.10.2** **G** The *FSA*'s powers to appoint investigators are set out in *ENF 2* (Information gathering and investigation powers). In particular, the *FSA* may appoint investigators if there appear to be circumstances suggesting that:
- (1) an individual is not fit and proper to be involved in the carrying out of any function in relation to a *regulated activity* carried on by an authorised or *exempt person* (section 168(4)(d) of the *Act* (Appointment of persons to carry out investigations in particular cases); or
 - (2) a *person* in relation to whom the *FSA* has given its *approval* under section 59 of the *Act* (Approval) may not be fit and proper to carry out the function to which that *approval* relates (section 168(4)(h) of the *Act*);
 - (3) a *person* may be guilty of misconduct for the purposes of section 66 of the *Act* (Disciplinary powers)(see section 168(4)(I) of the *Act*).
- 8.10.3** **G** Section 168(2) of the *Act* also permits the *FSA* to appoint investigators to investigate *unauthorised persons* if it appears that:
- (1) an offence has been committed under section 24(1) (False claims to be authorised or exempt) or section 397 (Misleading statements and practices) of the *Act* or under Part V of the Criminal Justice Act 1993 (section 168(2)(a) of the *Act*);
 - (2) there may have been a breach of the *general prohibition* (section 168(2)(b) of the *Act*);
 - (3) there may have been a contravention of section 21 in relation to *financial promotion* generally or section 238 in relation to promotion of *collective investment schemes* (section 168(2)(c) of the *Act*);
 - (4) *market abuse* may have taken place (section 168(2)(d) of the *Act*).
- 8.10.4** **G** (1) Where it appears to the *FSA* that an *approved person* has been guilty of misconduct, it may consider taking disciplinary action against him under section 66 of the *Act* (Disciplinary powers), as well as making a *prohibition order*. Misconduct is defined in section 66 as a failure to comply with a *Statement of Principle* or being knowingly concerned in a contravention by a *firm* of a requirement imposed on that *firm* by or under the *Act*.
/1
- (2) When deciding whether to take disciplinary action as well as making a *prohibition order*, the *FSA* will be guided by the criteria set out in *ENF 11.4* (Criteria for determining whether to take disciplinary action) and 11.5 (Action

against approved persons). The *FSA's* approach to the discipline of *approved persons* is set out in *ENF* 11 (Discipline of authorised firms and approved persons: the *FSA's* general approach), 12 (Discipline of firms and approved persons: public censures and public statements) and 13 (Discipline of firms And approved persons: financial penalties).

- (3) If it appears to the *FSA* that the misconduct is likely to continue or that *client* assets are at risk as a result of the misconduct, it may consider applying for an *injunction* to prevent dissipation of those assets and/or to stop the misconduct continuing. The *FSA's* approach to the exercise of its power to apply for *injunctions* is set out in *ENF* 6

8.10.5

G

/1

Where the *FSA* has information that suggests an individual has committed an offence under the *Act*, or under relevant subordinate legislation, it may consider starting criminal proceedings as well as making a *prohibition order* against him. The *FSA's* policy and procedures in relation to criminal prosecutions are set out in *ENF* 15 (Prosecution of criminal offences).

8.

8.11 The effect of the FSA's decision to make a prohibition order

- 8.11.1** **G**_{/1} When the FSA's decision to make a *prohibition order* has become effective, the individual concerned may not carry out or agree to carry out any function in breach of the *prohibition order*. Under section 168(4)(e) of the *Act* (Appointment of persons to carry out investigations in particular circumstances), the FSA may appoint investigators if it appears there are circumstances that suggest that an individual may have carried out or agreed to carry out a function in breach of a *prohibition order*. An individual who performs or agrees to perform a function in breach of a *prohibition order* is guilty of an offence under section 56(4) of the *Act* (Prohibition orders)(see ENF 15 (Prosecution of criminal offences)).
- 8.11.2** **G**_{/1} The FSA may consider taking disciplinary action against a *firm* that has breached the provision in section 56(6) (see ENF 8.3.4G). The FSA considers that a search by a *firm* of the *FSA Register* (see ENF 8.12.2G) is an essential part of the statutory duty to take reasonable care to ensure that *firms* do not employ prohibited individuals to perform functions in relation to *regulated activities*. In addition, the FSA expects *firms* to check the *FSA Register*, when making applications for approval under section 59 of the *Act* (Approval for particular arrangements).
- 8.11.3** **G**_{/1} More generally, if a *firm's* search of the *FSA Register* reveals no record of a *prohibition order*, the FSA will consider taking action for breach of section 56(6) only where the *firm* had access to other information indicating that a *prohibition order* had been made.
- 8.11.4** **G**_{/1} Section 71 of the *Act* (Actions for damages) gives a *private person* (and in prescribed cases, a *person* who is not a *private person*) a right of action against *firms* for losses resulting from a breach by the *firm* of the statutory duty in section 56(6).

8.12 Publication

- 8.12.1** G_{/1} DEC 5.2 (Publication) sets out certain requirements of the *Act* in relation to publication by the *FSA* of its decisions. Once a *final notice* relating to a *prohibition order* has been issued, the *FSA* will generally publicise the decision.
- 8.12.2** G_{/1} Under section 347(1)(g) of the *Act* (The record of authorised persons etc) the *FSA* must keep a public record of individuals against whom it has made a *prohibition order*. Section 347(2)(f) states the record must include the name of the individual and details of the effect of the *prohibition order*. The record of *prohibition orders* will be maintained on the *FSA Register*. The *FSA* will not enter details of a *prohibition order* on to the *FSA Register* until a *final notice* has been issued.
- 8.12.3** G_{/1} Once the decision to make a *prohibition order* is no longer open to review, the *FSA* will consider what additional information about the circumstances of the *prohibition order* to include on the *FSA Register*. The *FSA* will balance any possible prejudice to the individual concerned against the interests of *consumer* protection.
- 8.12.4** G_{/1} Under section 347(3) of the *Act*, if it appears to the *FSA* that an entry on the *FSA Register* ceases to apply to a *person* (in the case of a *prohibition order*, where that *prohibition order* is varied or revoked) it may remove the relevant entry from the *FSA Register*. Section 347(4) provides that, if the *FSA* decides not to remove the entry from the *FSA Register*, it must make a note of this in the *FSA Register* and state why it believes the entry on the *FSA Register* no longer applies to the *person*.
- 8.12.5** G_{/1}
- (1) The *FSA* will maintain an entry on the *FSA Register* while a *prohibition order* is in effect. If the *FSA* grants an application to vary the order a note of the variation will be made on the *FSA Register*.
 - (2) The *FSA*'s policy in relation to section 347(4) of the *Act* is that where an application to revoke a *prohibition order* is granted, a note will be made on the *FSA Register* that the order has been revoked giving reasons for the revocation. The availability to *firms* and *consumers* of a full record of *FSA* action taken in relation to an individual's fitness and propriety will assist it in furthering its *regulatory objectives*, in particular, the protection of *consumers* and the maintenance of confidence in the *financial system*.
 - (3) The *FSA* will maintain an annotated record of revoked *prohibition orders* for six years from the date of the revocation after which time the record will be removed from the *FSA Register*.

Chapter 9

Restitution and redress

9.1 Application and purpose

Application

9.1.1

G

/1

This chapter applies to all *firms* and *persons*.

Purpose

9.1.2

G

/1

This chapter sets out the *FSA*'s powers to seek redress for *consumers* in circumstances where *persons*, whether *authorised* or not, have breached a relevant requirement of the *Act* and gives *guidance* on how it intends to exercise its powers. The *FSA*'s power to apply to the court for an order for restitution, and its administrative power to require restitution, will help it to pursue its *regulatory objectives* of protecting *consumers* and maintaining confidence in the *financial system*.

9.2 Introduction

9.2.1

G

^{/1}

This chapter outlines the FSA's powers to:

- (1) apply to the court for an order for restitution where a *person*, whether *authorised* or not, has breached a relevant requirement of the *Act* or has been knowingly concerned in such a breach (section 382 of the *Act* (Restitution orders));
- (2) apply to the court for an order for restitution where a *person*, whether *authorised* or not, has engaged in, *required or encouraged* others to engage in, *market abuse* (section 383 of the *Act* (Restitution orders in cases of market abuse));
- (3) require restitution by a *firm* which has contravened a relevant requirement of the *Act*, or been knowingly concerned in such a contravention (section 384(1) of the *Act* (Power of FSA to require restitution)); and
- (4) require restitution where a *person*, whether *authorised* or not, has engaged in, or *required or encouraged* others to engage in, *market abuse* (section 384(2) of the *Act*).

9.3 The FSA's general approach

9.3.1

G
/1

The *FSA* will consider exercising its powers to obtain restitution in the light of the facts of each case. When deciding whether to exercise these powers, the *FSA* will also consider other ways that *persons* might obtain redress, and whether it would be more efficient or cost-effective for them to use these means instead. The *FSA* will also consider any proposals by the *person* concerned to offer redress to any *consumers* or other *persons* who have suffered loss, and the adequacy of those proposals, before exercising its powers.

9.3.2

G
/1

The number of instances in which the *FSA* might consider using its powers to obtain restitution for *market counterparties* are likely to be limited. Many of the *rules* which apply to retail *consumers* will not be relevant to transactions between *market counterparties*. Transactions between *firms* classified as *market counterparties* will be subject to the *FSA*'s Inter-professional Conduct (see *MAR 3*).

9.4 The FSA's power to apply to the court for restitution

9.4.1 **G**_{/1} The FSA's power to apply to the court for an order for restitution where a *person*, whether *authorised* or not, has breached a relevant requirement of the *Act* is contained in section 382 of the *Act* (Restitution orders). The Secretary of State may also apply for an order for restitution under this section of the *Act*.

9.4.2 **G**_{/1} Section 382 states that:

(1) 'the court may, on the application of the FSA or the Secretary of State, make an order if it is satisfied that a *person* has contravened a relevant requirement (see ENF 9.4.4G), or been knowingly concerned in the contravention of such a requirement, and:

- (a) that profits have accrued to him as a result of the contravention; or
- (b) that one or more *persons* have suffered loss or been otherwise adversely affected as a result of the contravention;

(2) the court may order the *person* concerned to pay to the FSA such sum as appears to the court to be just having regard:

- (a) in a case falling within paragraph (1)(a), to the profits which appear to the court to have accrued;
- (b) in a case falling within paragraph (1)(b), to the extent of the loss or adverse effect; or
- (c) in a case falling within both these paragraphs, to the profits which appear to the court to have accrued and to the extent of the loss or other adverse effect.'

9.4.3 **G**_{/1} Where the court orders the *person* concerned to pay restitution, the sum will be paid to the FSA and distributed as the court directs. Section 382(3) provides that any amount paid to the FSA in line with an order under section 382(2) (see ENF 9.4.2G(2)) must be paid by it to such qualifying *person* (see ENF 9.4.8G) or distributed by it amongst such qualifying *persons* as the court directs.

9.4.4 **G**_{/1} Section 382(9)(a) states that 'in relation to an application by the FSA, 'relevant requirement' means a requirement:

- (1) which is imposed by or under the *Act*; or
- (2) which is imposed by or under any other *Act* and whose contravention constitutes an offence which the FSA has power to prosecute under the *Act* (or, in the case of Scotland, which is imposed by or under any other Act and whose contravention constitutes an offence under Part V of the Criminal Justice Act

1993 (*insider dealing*) or under prescribed regulations relating to *money laundering*'.

9.4.5

G
/1

The FSA's power to apply to the court for an order for restitution where a *person* has engaged in, *required or encouraged* others to engage in, *market abuse* is in section 383 of the *Act* (Restitution orders in cases of market abuse). Section 383(1) and (2) state that the court may, on the application of the FSA, make an order under section 383(4) if it is satisfied:

- (1) that a *person* has:
 - (a) engaged in *market abuse* (section 383(1)(a) of the *Act*); or
 - (b) by taking or not taking any action, *required or encouraged* another *person* or *persons* to engage in *behaviour* which, if engaged in by the *person* concerned, would amount to *market abuse* (section 383(1)(b) of the *Act*); and
- (2) that profits have accrued to him as a result; or that another *person* has suffered loss or been otherwise adversely affected as a result (section 383(2)(a) and (b) of the *Act*).

9.4.6

G
/1

However, under section 383(3) of the *Act* the court may not make an order under section 383(4) if it is satisfied that:

- (1) the *person* concerned believed, on reasonable grounds, that his *behaviour* did not fall within section 383(1)(a) or (b) of the *Act* (see *ENF 9.4.5G(1)*); or
- (2) he took all reasonable precautions and exercised all due diligence to avoid behaving in a way which fell within section 383(1)(a) or (b) of the *Act* (see *ENF 9.4.5G(1)*).

9.4.7

G
/1

The court may order the *person* concerned to pay to the FSA such sum as appears to the court to be just having regard to those factors set out in *ENF 9.4.2(2)*.

9.4.8

G
/1

Where the court orders the *person* concerned to pay restitution, the sum will be paid to the FSA and distributed as the court directs. Section 383(5) provides that any amount paid to the FSA in accordance with a restitution order under section 383(4) must be paid by the FSA to a qualifying *person* (see *ENF 9.4.8G*), or distributed between such qualifying *persons* as the court directs.

9.4.9

G
/1

A 'qualifying *person*' is a *person* appearing to the court to be someone:

- (1) to whom the profits mentioned in *ENF 9.4.2G(1)(a)* or *ENF 9.4.5G(2)* are attributable; or
- (2) who has suffered the loss or other adverse affect mentioned in *ENF 9.4.2G(1)(b)* or *ENF 9.4.5G(2)*.

9.5 The FSA's power to require restitution

9.5.1

G

/1

The FSA's administrative power to require restitution from a *firm* which has breached a relevant requirement is set out in section 384(5) of the *Act* (Power of FSA to require restitution). This power is exercisable without a court order. Section 384(1) states that the FSA may exercise this power if it is satisfied that a *firm* has contravened a relevant requirement (see ENF 9.4.4G), or has been knowingly concerned in a contravention of such a requirement, and:

- (1) that profits have accrued to him as a result of the contravention; or
- (2) that one or more *persons* have suffered loss or been adversely affected in any other way as a result of the contravention.

9.5.2

G

/1

Section 384(7) states that a relevant requirement means a requirement-

- (1) which is imposed by or under the *Act*; or
- (2) which is imposed by or under any other Act and whose contravention is an offence which the FSA has power to prosecute under the *Act*.

9.5.3

G

/1

The FSA's administrative power to require restitution in cases where a *person*, whether *authorised* or not, has engaged in *market abuse* is set out in section 384(2) and (3) of the *Act*. Together section 384(2) and (3) state that the FSA may exercise this power if it is satisfied:

- (1) that a *person* has:
 - (a) engaged in *market abuse* (section 384(2)(a)), or
 - (b) by taking or not taking any action, *required or encouraged* another *person* or *persons* to engage in *behaviour* which, if engaged in by that *person*, would amount to *market abuse* (section 384(2)(b)); and
- (2) that he has profited as a result; or that another *person* has suffered loss or been adversely affected in any other way as a result of the *market abuse*.

9.5.4

G

/1

However, under section 384(4) of the *Act* the FSA may not require restitution under section 384(2) if, having considered any representations made in response to a *warning notice*, there are reasonable grounds for it to be satisfied:

- (1) that the *person* concerned believed, on reasonable grounds, that his *behaviour* did not fall within section 384(2)(a) or (b) (see ENF 9.5.3G(1)); or
- (2) that he took all reasonable precautions and exercised all due diligence to avoid behaving in a way which fell within section 384(2)(a) or (b) (see ENF 9.5.3G(1)).

- 9.5.5** G_{/1} The FSA's administrative power to require restitution where there has been a breach of a relevant requirement or *market abuse* allows the FSA to require the *person* concerned to pay to the appropriate *person* (see ENF 9.5.6G), or share between the appropriate *persons* identified by the FSA, an amount which the FSA regards as fair. Such an amount will be determined having regard to:
- (1) in a case falling within paragraph ENF 9.5.1G(1) or the first part of ENF 9.5.3G(2), the profits that appear to the FSA to have been made; or
 - (2) in a case falling within paragraph ENF 9.5.1G(2) or the second part of ENF 9.6.3G(2), the extent of the losses or other adverse effect; or
 - (3) in a case falling within paragraph ENF 9.6.1G(1) and (2) or both parts of ENF 9.6.3G(2), the profits that appear to the FSA to have been made and the extent of the loss or other adverse effect.
- 9.5.6** G_{/1} An 'appropriate *person*' is a *person* that appears to the FSA to be someone:
- (1) to whom the profits referred to in ENF 9.5.1G(1) or the first part of ENF 9.5.3G(2) are attributable; or
 - (2) who has suffered the losses or other adverse effect referred to in ENF 9.5.1G(2) or the second part of ENF 9.5.3G(2).
- 9.5.7** G_{/1} Where the FSA proposes to exercise its administrative power under section 384(5) in relation to a *person* it must give him a *warning notice*. This must state the amount which the FSA proposes to require the *person* to pay or distribute in accordance with section 384(5) (see ENF 9.5.5G). The FSA's policy and procedure in relation to *warning notices* is set out in DEC 2.2 (Warning notice procedure).
- 9.5.8** G_{/1} Where the FSA decides to exercise its administrative power under section 384(5) in relation to a *person* it must give him a *decision notice*. Section 386(2) of the Act (Decision notices) provides that the *decision notice* must:
- (1) state the amount that he is to pay or distribute as mentioned in ENF 9.5.5G;
 - (2) identify the *person* or *persons* to whom that amount is to be paid or among whom that amount is to be distributed; and
 - (3) state the arrangements in accordance with which the payment or distribution is to be made.
- The FSA's policy and procedure in relation to *decision notices* is set out in DEC 2.3 (Decision notice procedure).
- 9.5.9** G_{/1} If the FSA decides to exercise its power under section 384(5), the *person* in relation to whom the power is exercised may refer the matter to the *Tribunal*. Further information about referrals to the *Tribunal* is set out in DEC 5.1 (The Tribunal).
- 9.5.10** G_{/1} Where the FSA takes action:
- (1) on the *decision notice* (if the matter has not been referred to *Tribunal*); or
 - (2) on the direction of the *Tribunal* or court (if the matter has been referred to the *Tribunal*, or later appealed);
- it must give a *final notice* to the *person* in relation to whom the power is exercised.

9.5.11

G
/1

The provisions relating to *final notices* in these circumstances are set out in section 390 of the *Act* (Final notices) (see *DEC 2.3.11 – DEC 2.3.12G*). Section 390(6) states that a *final notice* to make a payment must state:

- (1) the *persons* to whom;
- (2) the manner in which; and
- (3) the period in which;

the payment must be made.

9.5.12

G
/1

The obligation imposed on a *person* by a *final notice* is enforceable, on application by the *FSA*, by *injunction* or, in Scotland, by an order under section 45 of the *Court of Session Act 1988*.

9.6 Criteria for determining whether to exercise powers to obtain restitution

- 9.6.1** G_{/1} The *FSA* will consider the relevant circumstances of each case when deciding whether it is appropriate to exercise its powers to seek or obtain restitution under sections 382, 383 or 384 of the *Act*. The factors which the *FSA* will consider may include, but are not limited to, those set out in *ENF 9.6.2G – ENF 9.6.15G*.

Are the profits quantifiable?

- 9.6.2** G_{/1} The *FSA* will consider whether quantifiable profits have been made which are owed to identifiable *persons*. In certain circumstances it may be difficult to prove that the conduct in question has resulted in the *person* concerned making a profit. It may also be difficult to find out how much profit and to whom the profits are owed. In these cases it may not be appropriate for the *FSA* to use its powers to obtain restitution.

Are the losses identifiable?

- 9.6.3** G_{/1} The *FSA* will consider whether there are identifiable *persons* who can be shown to have suffered quantifiable losses or other adverse effects. In certain circumstances it may be difficult to establish the number and identity of those who have suffered loss as a result of the conduct in question. It may also prove difficult in those cases to establish the amount of that loss and whether the losses have arisen as a result of the conduct in question. In these cases it may not be appropriate for the *FSA* to use its powers to obtain restitution.

The number of persons affected.

- 9.6.4** G_{/1} The *FSA* will consider the number of *persons* who have suffered loss or other adverse effects and the extent of those losses or adverse effects. Where the breach of a relevant requirement by a *person*, whether *authorised* or not, results in significant losses, or losses to a large number of *persons* which collectively are significant, it may be appropriate for the *FSA* to use its powers to obtain restitution on their behalf. The *FSA* anticipates that many individual losses resulting from breaches by *firms* may be more efficiently and effectively redressed by *consumers* pursuing their claims directly with the *firm* concerned or through the *Financial Ombudsman Service* or the *compensation scheme* where the *firm* has ceased trading (see *ENF 9.6.6G*). However, where a large number of *persons* have been affected or the losses are substantial it may be more appropriate for the *FSA* to seek restitution from a *firm*. In those cases the *FSA* may consider combining an action

seeking restitution from a *firm* or *unauthorised person* with disciplinary action or a criminal prosecution.

FSA costs

9.6.5

G
/1

The *FSA* will consider the cost of securing redress and whether these are justified by the benefit to *persons* that would result from that action. The *FSA* will consider the costs of exercising its powers to obtain restitution and, in particular, the costs of any application to the court for an order for restitution, together with the size of any sums that might be recovered as a result. The costs of the action will, to a certain extent, depend on the nature and location of assets from which restitution may be made. In certain circumstances it may be possible for the *FSA* to recover the costs of exercising its power to apply to the court for an order for restitution, or a proportion of them, from the party against whom a restitution order is sought.

Is redress available elsewhere?

9.6.6

G
/1

The *FSA* will consider the availability of redress through the *Financial Ombudsman Service* or the *compensation scheme*. This will be relevant where the loss has resulted from the conduct of a *firm*. It will not be relevant where losses have resulted from the conduct of *unauthorised persons* operating in breach of the *general prohibition*. The *Financial Ombudsman Service* and the *compensation scheme* (where the *firm* has ceased trading) may be a more efficient and effective method of redress in many cases. The *Financial Ombudsman Service* provides a way for some *consumers* to obtain redress. The *compensation scheme* may provide redress for some *consumers* and businesses. The *FSA*'s power to obtain restitution is not intended to duplicate the functions of the *Ombudsman* or *compensation schemes* in those cases. However, in certain cases (see *ENF 9.6.4G*) it will be more appropriate for the *FSA* to pursue restitution. Further details of these schemes are set out in *COMP*.

Is redress available through another regulator?

9.6.7

G
/1

The *FSA* will consider the availability of redress through another regulatory authority. Where another regulatory authority, such as the *Takeover Panel*, is in a position to require appropriate redress, the *FSA* will not generally exercise its own powers to do so (see *ENF 14.9* (Action involving other UK regulatory authorities)). If the *FSA* does consider that action is appropriate and the matters in question have happened in the context of a *takeover bid*, the *FSA* will only take action during the bid in the circumstances set out in *ENF 14.9.6G* if the *person* concerned has responsibilities under the *Takeover Code*. If another *regulatory body* has required redress and a *person* has not met that requirement, the *FSA* will take this into account and (subject to all other relevant factors and circumstances) may consider it appropriate to take action to ensure that such redress is provided.

Can persons bring their own proceedings?

9.6.8

G
/1

The *FSA* will consider whether *persons* who have suffered losses are able to bring their own civil proceedings. In certain circumstances it may be appropriate for *persons* to bring their own civil proceedings to recover losses. This might be the

case where the *person* who has suffered loss is a *market counterparty* and so may be expected to have a high degree of financial experience and knowledge. When considering whether this might be a more appropriate method of obtaining redress, the *FSA* will consider the costs to the *person* of bringing that action and the likelihood of success in relation to the size of any sums that may be recovered.

Is the firm solvent?

9.6.9

G
/1

The *FSA* will consider the solvency of the *firm* or *unauthorised person* concerned. Where the solvency of the *firm* or *unauthorised person* would be placed at risk by the payment of restitution, the *FSA* will consider whether it is appropriate to seek restitution. In those cases the *FSA* may consider obtaining a compulsory *insolvency order* against the *firm* or *unauthorised person* rather than restitution (see *ENF* 9.6.10G). When considering these options, the *FSA* may also take account of the position of other creditors who may be prejudiced if the assets of the *firm* or *unauthorised person* are used to pay restitution payments prior to insolvency.

What other powers are available to the FSA?

9.6.10

G
/1

- (1) The *FSA* will consider the availability of its power to obtain a compulsory *insolvency order* against the *firm* or *unauthorised person* concerned or to apply to the court for the appointment of a receiver. In certain circumstances it may be appropriate for the *FSA* to obtain an administration order, winding-up order or bankruptcy order against a *firm* or *unauthorised person* carrying out *regulated activities* in breach of the *general prohibition*.
 - (a) Administration orders: the *FSA* may apply for an administration order against a *firm* or an *unauthorised person* operating in breach of the *general prohibition*. An administrative order places the assets of a *firm* or *unauthorised person* under the management of an administrator and may result in the assets of the *company* being realised to pay creditors. The *FSA*'s procedures in relation to the exercise of its powers to apply for administration orders are set out in *ENF* 10 (Insolvency proceedings and orders against debt avoidance).
 - (b) Winding-up orders: the *FSA* may apply for a winding-up order against a *firm* or an *unauthorised person* operating in breach of the *general prohibition*. A winding-up order places the assets of the *firm* or *unauthorised person* under the control of a liquidator who will apply them to repay creditors. The *FSA*'s procedures in relation to the exercise of its powers to apply for winding-up orders are set out in *ENF* 10.
 - (c) Bankruptcy orders: the *FSA* may apply for a bankruptcy order against an individual who is, or has been, an *authorised person*, or who is carrying on a *regulated activity*, in breach of the *general prohibition*. The making of a bankruptcy order places the assets of the individual under the control of a *trustee* who will use them to repay creditors. The *FSA*'s procedures in relation to the exercise of its powers to apply for bankruptcy orders are set out in *ENF* 10.
 - (d) Appointment of receivers: the *FSA* may apply to the court for the appointment of a receiver on behalf of the *debenture holders* or other creditors of a *person* where there is a risk that creditor or *debenture holder's* assets will be dissipated.

- (2) The *FSA* may decide to exercise its power to obtain a compulsory *insolvency order* or to apply for the appointment of a receiver rather than to exercise its powers to obtain restitution. This could happen if it has particular concerns about a *person's* conduct, or financial position and, in particular, whether it is solvent (though the appointment by the court of a receiver is not conditional on the insolvency of the *person* concerned). The *FSA* may also consider the cost of compulsory *insolvency orders* which will be paid out of the assets of the *firm*, or of the *unauthorised person* concerned, compared to the cost of seeking restitution. In the case of *unauthorised persons* operating in breach of the *general prohibition*, a decision to apply for a compulsory *insolvency order* rather than restitution will depend on all the circumstances of the case. In particular, the *FSA* may consider the significance of the *unauthorised* activities compared to the whole of the business; the nature and conduct of the activities carried on in breach of the *general prohibition*; and the number and nature of the claims against the *person* or *firm* concerned. The *FSA's* powers to apply for compulsory *insolvency orders* are set out in *ENF* 10.

The behaviour of the persons suffering loss

- 9.6.11** G_{/1} The *FSA* will consider the conduct of the *persons* who have suffered loss. As part of its *regulatory objectives* of increasing *consumer* awareness of the *financial system* and protecting *consumers*, the *FSA* is required to publicise information about the *authorised* status of *persons* and is empowered to give information and *guidance* about the regulation of financial services. This information should help *consumers* avoid suffering losses. When the *FSA* considers whether to obtain restitution on behalf of *persons*, it will consider the extent to which those *persons* may have contributed to their own loss or failed to take reasonable steps to protect their own interests.

Other factors which may be relevant.

- 9.6.12** G_{/1} The *FSA* will consider the context of the conduct in question. In any case where the *FSA* believes that any exercise of its powers under section 383 (Restitution orders in cases of market abuse) or 384 (Power of *FSA* to require restitution) of the *Act* may affect the timetable or outcome of a *takeover bid*, it will consult the *Takeover Panel* before taking any steps to exercise such powers, and will give due weight to its views.
- 9.6.13** G_{/1} Where the *FSA* is considering applying to court for a restitution order in relation to *market abuse* under section 383, it will also consider whether the court would be prevented from making that order by section 383(3). The court cannot make a restitution order against a *person* under section 383(3) if it is satisfied that one or both of the conditions set out in section 383(3)(a) and (b) are fulfilled (see *ENF* 9.4.6G).
- 9.6.14** G_{/1} A similar provision to section 383(3) applies where the *FSA* proposes to exercise its power to require restitution in relation to *market abuse* under section 384(2). In those cases, the *FSA* cannot exercise its power where, following representations made to it in response to a *warning notice*, there are reasonable grounds for it to be satisfied that one or both of the conditions set out in section 384(4)(a) and (b) are fulfilled (see *ENF* 9.5.4G).
- 9.6.15** G_{/1} The conditions set out in section 383(3)(a) and (b) and section 384(4)(a) and (b) are the same as those that apply to penalties for *market abuse* and the *FSA* will

take the same factors into account when considering whether the conditions have been met. *ENF* 14.4 (Factors relevant to determining whether to take action in market abuse cases) lists those factors.

9.7 The FSA's choice of powers

- 9.7.1** G_{/1} Under sections 382 (Restitution orders) and 383 (Restitution orders in cases of market abuse) of the *Act* the *FSA* can apply to the court for an order for restitution. Under section 384 (Power of *FSA* to require restitution) it can also require restitution from *firms* which have breached a relevant requirement of the *Act* and *persons*, whether *authorised* or not, who have engaged in, or have *required* or *encouraged* others to engage in, *market abuse*.
- 9.7.2** G_{/1} In cases where it is appropriate to exercise its powers to obtain restitution from *firms*, the *FSA* will first consider using its own administrative powers under section 384 before considering taking court action.
- 9.7.3** G_{/1} However, there may be circumstances in which the *FSA* will choose to use the powers under section 382 or section 383 to apply to the court for an order for restitution against a *firm*. Those circumstances may include, for example, where:
- (1) the *FSA* wishes to combine an application for an order for restitution with other court action against the *firm*, for example, where it wishes to apply to the court for an *injunction* to prevent the *firm* breaching a relevant requirement of the *Act*; the *FSA*'s powers to apply for *injunctions* restraining *firms* from breaching relevant requirements of the *Act* are set out in *ENF 6*;
 - (2) the *FSA* wishes to bring related court proceedings against an *unauthorised person* where the factual basis of those proceedings is likely to be the same as the claim for restitution against the *firm*;
 - (3) there is a danger that the assets of the *firm* may be dissipated; in those cases, the *FSA* may wish to combine an application to the court for an order for restitution with an application for an asset-freezing *injunction* to prevent assets from being dissipated; the *FSA*'s powers to apply for asset freezing *injunctions* are set out in *ENF 6*;
 - (4) the *FSA* suspects that the *firm* may not comply with an administrative requirement to give restitution; in those cases the *FSA* may consider that the sanction for breach of a court order may be needed to ensure compliance; a *person* who fails to comply with a court order may be in contempt of court and is liable to imprisonment, to a fine and/or to have his assets seized.
- 9.7.4** G_{/1} The *FSA* may not use its administrative power to obtain restitution from *unauthorised persons* except in cases of *market abuse*. Most cases where redress is obtained from *unauthorised persons* will therefore be dealt with by an application to the court.

9.8 Determining the amount of restitution

- 9.8.1** **G**_{/1} When deciding how much should be paid by a *firm* or individual following an application by the *FSA* to court for an order for restitution, the court may consider those factors set out in *ENF 9.5.2G(2)*.
- 9.8.2** **G**_{/1} Section 382(4) (Restitution orders) and section 383(6) (Restitution orders in cases of market abuse) of the *Act* state that the court may require the *person*, whether *authorised* or not, to supply it with accounts or other information to help the court:
- (1) to establish whether and, if so how much, profit may have been made as a result of the contravention; or
 - (2) to establish whether any *persons* have suffered any losses or adverse effects as a result of the contravention of a relevant requirement or *market abuse* and, if so, the extent of those losses or adverse effects; or
 - (3) to determine how any amounts are to be paid or distributed to qualifying *persons*.
- 9.8.3** **G**_{/1} An application by the *FSA* for an order for restitution under section 382 or 383 will not prevent a *person* from bringing a private action for restitution in relation to the same matter. However, the court is likely to consider whether any payments have already been made to private claimants when it decides whether to order restitution in any case.
- 9.8.4** **G**_{/1} When the *FSA* decides the amount of restitution which a *firm* or *unauthorised person* must pay following the exercise of its administrative power to require restitution, it must approach the matter in the same way as the court would in accordance with section 382(5) of the *Act*.
- 9.8.5** **G**_{/1} The *FSA* may obtain information relating to the amount of profits made and/or losses or other adverse effects resulting from the conduct of *firms* or *unauthorised persons* as a result of the exercise of its powers to appoint investigators under sections 167 (Appointment of persons to carry out general investigations) or 168 (Appointment of persons to carry out investigations in particular cases) of the *Act*. The *FSA*'s policy and procedure in respect of its powers to appoint investigators are contained in *ENF 2* (Information gathering and investigation powers).
- 9.8.6** **G**_{/1} As well as obtaining information through the appointment of investigators, the *FSA* may consider using its power under section 166 of the *Act* (Reports by skilled persons) to require a *firm* to provide a report prepared by a *skilled person* (see *ENF 2.3.8G* to *ENF 2.3.11G*). That report may be requested to help the *FSA* to:
- (1) determine the amount of profits which have been made by the *firm*; or
 - (2) establish whether the conduct of the *firm* has caused any losses or other adverse effects to qualifying *persons* and/or the extent of such losses; or

- (3) determine how any amounts to be paid by the *firm* are to be distributed between qualifying *persons*.

9.8.7

G
/1

The *person* appointed to make a report under *ENF 9.8.6G* must be nominated or approved by the *FSA* and appear to the *FSA* to have the necessary skills to report on the matter.

9.9 Other relevant powers

- 9.9.1** **G**_{/1} The *FSA* may apply to the court for an *injunction* if it appears that a *person*, whether *authorised* or not, is reasonably likely to breach a requirement of the *Act* or engage in *market abuse*. It can also apply for an *injunction* if a *person* has breached a requirement of the *Act* or engaged in *market abuse* and is likely to continue doing so. The *FSA*'s procedure in relation to the exercise of its powers to apply for *injunctions* is set out in *ENF* 6 (Injunctions).
- 9.9.2** **G**_{/1} The *FSA* may consider taking disciplinary action, or action to impose a penalty for *market abuse*, as well as seeking restitution, if a *person* has breached a relevant requirement of the *Act* or has engaged in, or *required* or *encouraged* others to engage in, *market abuse*. As restitution is essentially restorative it may often be appropriate for the *FSA* to take disciplinary action. Disciplinary action, or action to impose a penalty for *market abuse*, may take the form of either:
- (1) imposing a financial penalty: the *FSA*'s policy and procedures in relation to imposing financial penalties is set out in *ENF* 13 (Financial penalties against firms and approved persons) and *ENF* 14 (Sanctions for market abuse); or
 - (2) making a public statement of misconduct or public censure: the *FSA*'s policy and procedure in relation to public statements of misconduct is set out in *ENF* 12 (Public statements of misconduct about firms and approved persons) and *ENF* 14 (Sanctions for market abuse).
- 9.9.3** **G**_{/1} The *FSA* may consider exercising its power to prosecute offences under the *Act*, as well as applying to seek restitution if a *person* has breached certain requirements of the *Act*. The offences the *FSA* has power to prosecute, and the *FSA*'s policy and procedure in relation to the prosecution of these offences, are set out in *ENF* 15 (Prosecution of criminal offences).

9.10 Publication

9.10.1

G

^{/1}

The *FSA* considers it generally appropriate to publish details of successful applications to court for restitution, or the exercise of its administrative power to require restitution, in order to protect and inform *consumers* and maintain *market* confidence. The *FSA*'s policy in relation to the publication of *final notices* is set out in *DEC 5.2 (Publication)*. The *FSA* will normally publish *final notices* relating to administrative restitution action. However, in certain circumstances it may decide not to publicise that it has obtained an order for restitution or exercised its power to require restitution. It may make that decision where, for example, publication could damage market confidence or undermine market integrity in a way that could be damaging to the interests of *consumers*. Where the *behaviour* to which the restitution order or exercise of the *FSA*'s restitutionary power relates has happened in the context of a *takeover bid*, the *FSA* will consult the *Takeover Panel* and, if it believes that publication may affect the timetable or outcome of that bid, will give due weight to the *Takeover Panel's* views.

Chapter 10

Insolvency proceedings and orders against debt avoidance

10.1 Application

10.1.1

G

^{/1}

This chapter applies to:

- (1) *firms*;
- (2) *appointed representatives*; and
- (3) any other *person* who is carrying on *regulated activities* in breach of the *general prohibition*.

10.2 Purpose

10.2.1

G

^{/1}

The purpose of this chapter is to explain the *FSA*'s policies on how it will:

- (1) use its powers under the *Act* to apply to court for orders under existing insolvency legislation;
- (2) exercise its rights in the *Act* to be involved in proceedings under that legislation.

10.2.2

G

^{/1}

The *FSA*'s effective use of its powers and rights in insolvency proceedings will help it pursue its *regulatory objectives* of maintaining market confidence, protecting *consumers* and reducing *financial crime* by, amongst other matters, enabling it to apply to court for action to:

- (1) stop *firms* and *unauthorised persons* carrying on insolvent or unlawful business; and
- (2) ensure the orderly realisation and distribution of their assets.

10.3 Introduction

10.3.1

G
/1

This chapter outlines the *FSA*'s:

- (1) powers to seek administration, compulsory winding up and bankruptcy orders and, in Scotland, sequestration awards, from the court (*ENF* 10.5), and its policies in relation to the use of those powers (*ENF* 10.6);
- (2) powers to apply to court to challenge acts and omissions in company moratoria and to challenge an approved voluntary arrangement in respect of a corporate or individual *authorised person*, and in Scotland, a trust deed for creditors granted by an *authorised person* (*ENF* 10.7), and its policy in relation to the use of those powers (*ENF* 10.8);
- (3) power to apply to court for orders against debt avoidance (*ENF* 10.9), and its policy in relation to the use of that power (*ENF* 10.10);
- (4) rights in certain cases:
 - (a) to be informed of third party petitions for administration, compulsory winding up and bankruptcy orders and, in Scotland, sequestration awards;
 - (b) to receive information and (where relevant) to attend and be heard at meetings of creditors and creditors' committees in the following regimes:
 - (i) voluntary and compulsory winding up;
 - (ii) administrations;
 - (iii) receiverships and administrative receiverships;
 - (iv) bankruptcies and sequestrations;
 - (v) company moratoria and voluntary arrangements ;
 - (vi) individual voluntary arrangements;
 - (vii) trust deeds for creditors in Scotland;

in respect of *firms* or former *firms* or others who are or have been carrying on a *regulated activity* while unauthorised (*ENF* 10.11);
- (5) arrangements for notification of petitions and other documents to which it is entitled (*ENF* 10.12);
- (6) policy in relation to the exercise of its rights to be heard and be involved in insolvency regimes affecting *persons* whether *authorised* or not (*ENF* 10.13).

10.3.2

G

/1

The provisions of the *Act* relating to the *FSA*'s powers and rights in insolvency proceedings refer to the underlying insolvency legislation, namely the Insolvency Act 1986 ('the 1986 Act'), as amended by the Insolvency Act 2000, the Bankruptcy (Scotland) Act 1985 ('the 1985 Act') and the Insolvency (Northern Ireland) Order 1989 ('the 1989 Order'). *ENF* 10.5, *ENF* 10.7, *ENF* 10.9 and *ENF* 10.11 outline the statutory background to the *FSA*'s powers and rights in insolvency proceedings and summarise the relevant provisions of that underlying insolvency legislation.

10.4 The FSA's general approach

10.4.1

G
/1

The *FSA* takes full account of the principle consistently adopted by the courts that recourse to insolvency regimes is a step to be taken for the benefit of creditors as a whole. It also takes full account of the fact that the court will have regard to the public interest when considering whether to wind up a body on the grounds that it is just and equitable to do so. The *FSA* will use its powers to seek *insolvency orders* with these matters in mind.

10.4.2

G
/1

The *FSA* will consider the facts of each particular case when it decides whether to use its powers and exercise its rights. The *FSA* will also consider the other powers available to it under the *Act* and to *consumers* under the *Act* and other legislation, and the extent to which the use of those other powers meets the needs of *consumers* as a whole and the *FSA's regulatory objectives*.

10.5 Statutory background: The FSA's powers to seek insolvency orders

Administration orders

10.5.1

G
/1

Under section 359 of the *Act* (Petitions), the *FSA* may present a petition to the court under section 9 of the 1986 Act or article 22 of the 1989 Order, for an administration order in relation to a *company* or insolvent *partnership* which:

- (1) is, or has been, an *authorised person*; or
- (2) is, or has been, an *appointed representative*; or
- (3) is carrying on, or has carried on, a *regulated activity* in contravention of the *general prohibition*.

10.5.2

G
/1

The court may make an administration order only if it is satisfied that a *company* or a *partnership* is, or is likely to become, unable to pay its debts. Sections 359(3) and (4) of the Act provide that a *company* or *partnership* is to be treated as unable to pay its debts for the purpose of section 8(1)(a) of the 1986 Act or article 21(1)(a) of the 1989 Order if it is in default on an obligation to pay a sum which is due and payable under an agreement where the making or performance of this agreement constitutes or is part of a *regulated activity* carried on by the *company* or *partnership*.

10.5.3

G
/1

In addition, a court may only make an administration order if it considers that making the order would be likely to achieve one or more of the following purposes:

- (1) the survival of the *company* or *partnership*, and the whole or any part of its *undertaking*, as a going concern;
- (2) the approval of a *company* voluntary arrangement;
- (3) the sanctioning under section 425 of the Companies Act 1985 of a compromise arrangement between the *company* or *partnership* and any such *persons* as are mentioned in that section;
- (4) a more advantageous realisation of the assets of the *company* or *partnership* than would be effected on a winding up.

10.5.4

G
/1

Under section 8(4) of the 1986 Act and article 21(4) of the 1989 Order, no administration order can be made in relation to an insurance company (within the meaning of the Insurance Companies Act 1982). Section 360 of the *Act* (Insurers) empowers the Treasury to order that provisions, or specified provisions, of the 1986 Act and the 1989 Order relating to administration orders are to apply in relation to insurance companies, with such modification as may be specified. As at

the date of publication of this manual the Treasury has not yet made such an order.

Winding up by the court

10.5.5 **G**_{/1} Under section 367 of the *Act* (Winding-up petitions), the *FSA* may present a petition to the court for the winding up of a body which:

- (1) is, or has been, an *authorised person*; or
- (2) is, or has been, an *appointed representative*; or
- (3) is carrying on, or has carried on, a *regulated activity* in contravention of the *general prohibition*.

10.5.6 **G**_{/1} Under section 355 of the *Act* (Interpretation of this Part), a 'body' is any body of *persons* over which the court has jurisdiction under any provision of the 1986 Act or the 1989 Order, or made under that *Act* or Order. It does not however include a body which is a *building society*, *friendly society* or *industrial and provident society*. For the purpose of section 367 of the *Act*, 'body' includes a *partnership*.

10.5.7 **G**_{/1} Under section 367(3) of the *Act*, following a petition by the *FSA*, the court may wind up the body if:

- (1) the body is unable to pay its debts; or
- (2) the court is of the opinion that it is just and equitable that the body should be wound up.

10.5.8 **G**_{/1} Section 367(4) and (5) of the *Act* state that the body is to be treated as unable to pay its debts, within the meaning of section 123 or 221 of the 1986 Act or article 103 or 185 of the 1989 Order, if it is in default on an obligation to pay a sum due and payable under an agreement where the making or performance of this agreement constitutes or is part of a *regulated activity* carried on by the body.

Voluntary winding up

10.5.9 **G**_{/1} Under section 365 of the *Act* (*FSA's* powers to participate in proceedings), if a *company* is being wound up voluntarily and it is:

- (1) an *authorised person*; and
- (2) not an insurance *company* carrying on *long term insurance business*;

the *FSA* may apply to the court, under section 112 of the 1986 Act, or article 98 of the 1989 Order, to determine any question which arises in the winding up of a *company* or to request the court to exercise all or any of the powers which the court might exercise if it were winding up the *company*.

10.5.10 **G**_{/1} The *FSA* is entitled to be heard at any hearing of the court in relation to the voluntary winding up of the *company*.

- 10.5.11** **G**_{/1} Under section 365(6) of the *Act*, the voluntary winding up of an *authorised person* that is a *company* does not bar the right of the *FSA* to have it wound up by the court.
- 10.5.12** **G**_{/1} Under section 365(7) of the *Act*, if, while a *company* is being voluntarily wound up, a compromise or arrangement is proposed between the *company* and its creditors, or any class of creditors, the *FSA* may apply to the court, under section 425 of the Companies Act 1985 or article 418 of the Companies (Northern Ireland) Order 1986, for an order requiring the convening of a meeting of the creditors or class of creditors
- 10.5.13** **G**_{/1} Under section 366 of the *Act* (Insurers effecting or carrying out long-term contracts of insurance), an insurance *company* carrying on *long term insurance business* may not be wound up voluntarily without the *FSA*’s consent. If, in the case of such a *company*, notice of a general meeting is given specifying the intention to propose a resolution for voluntary winding up, a *director* of the *company* must notify the *FSA* as soon as practicable after he becomes aware of it. Where a moratorium is in place in relation to a *company* under Schedule A1 to the 1986 Act, the *FSA* may not petition for an administration order or winding up order in relation to the *company* while the moratorium is effective.

Bankruptcy and, in Scotland, sequestration

- 10.5.14** **G**_{/1} (1) Under section 372 of the *Act* (Petitions), the *FSA* has power to present a petition to the court, under section 264 of the 1986 Act or article 238 of the 1989 Order, for the bankruptcy of an individual or, in Scotland, under section 5 of the 1985 Act for the sequestration of the estate of an individual. A petition may be presented only on the grounds that the individual appears to be unable to pay a *regulated activity debt* or appears to have no reasonable prospect of being able to pay a *regulated activity debt*.

(2) A *regulated activity debt* is an obligation to pay a sum due and payable under an agreement where the making or performance of this agreement constitutes or is part of a *regulated activity* carried on by the individual.
- 10.5.15** **G**_{/1} Under section 372(4) of the *Act*, an individual appears to have no reasonable prospect of being able to pay a *regulated activity debt* if:

 - (1) the *FSA* has served a demand on him which requires him to establish, to the satisfaction of the *FSA*, that there is a reasonable prospect of his being able to pay a *regulated activity debt*, when it falls due; and
 - (2) at least three weeks have elapsed since the demand was served; and
 - (3) the individual has not complied with the demand and the court has not set it aside.
- 10.5.16** **G**_{/1} A demand (see *ENF* 10.5.15G (1)) is to be treated for the purposes of the 1986 Act or the 1989 Order as if it were a statutory demand under section 268 of the 1986 Act or article 242 of the 1989 Order. In relation to petitions served under section 5 of the 1985 Act, the *FSA* is to be treated as a qualified creditor and, when the petition is presented on the grounds that the individual appears unable to pay a *regulated activity debt*, that ground is to constitute apparent insolvency for the purposes of the 1985 Act.

10.5.17

G
/1

The FSA's power to petition only applies to individuals who are, or have been, *authorised persons* or who are carrying on, or have carried on, a *regulated activity* in contravention of the *general prohibition*.

10.6 The FSA's policy: applications for insolvency orders.

Determining whether a company or partnership is unable to pay its debts

10.6.1

G

/1

- (1) The FSA can petition for an administration order or compulsory winding up order on the grounds that the *company* or *partnership* is unable (or, in the case of administration orders, is likely to become unable) to pay its debts. The FSA does not have to be a creditor to petition on these grounds.
- (2) Under sections 359 (Petitions) and 367 (Winding-up Petitions) of the *Act*, a *company* or *partnership* is deemed to be unable to pay its debts if it is in default on an obligation to pay a sum due and payable under an agreement where the making or performance of this agreement constitutes or is part of a *regulated activity* which the *company* or *partnership* is carrying on.
- (3) The FSA would not ordinarily petition for an administration order unless it believes that the *company* or *partnership* is, or is likely to become, insolvent. Similarly, the FSA would not ordinarily petition for a compulsory winding up order solely on the ground of inability to pay debts (as provided in the *Act*), unless it believes that the *company* or *partnership* is or is likely to be insolvent.
- (4) While a default on a single agreement of the type mentioned in (2) is, under the *Act*, a presumption of an inability to pay debts, the FSA will consider the circumstances surrounding the default. In particular, the FSA will consider whether:
 - (a) the default is the subject of continuing discussion between the *company* or *partnership* and the creditor, under the relevant agreement, which is likely to lead to a resolution;
 - (b) the default is an isolated incident;
 - (c) in other respects the *company* or *partnership* is meeting its obligations under agreements of this kind; and
 - (d) the FSA has information to indicate that the *company* or *partnership* is able to pay its debts or, alternatively, that in addition to the specific default the *company* or *partnership* is in fact unable to pay its debts.

Determining whether to seek any insolvency order

10.6.2

G

/1

- (1) Where the FSA believes that a *company* or *partnership* to which sections 359(1) and 367(1) of the *Act* applies (see ENF 10.5.1G and ENF 10.5.5G) is,

or is likely to be, unable to pay its debts, the *FSA* will consider whether it is necessary to seek an administration order or compulsory winding up order from the court.

- (2) The *FSA*'s approach will be in two stages: the first is to consider whether it is appropriate to seek any *insolvency order*; the second is to consider which *insolvency order* will meet, or is likely to meet, the needs of *consumers*.

10.6.3

G
/1

In determining whether to seek an *insolvency order*, the *FSA* will consider all relevant factors, including:

- (1) Whether the *company* or *partnership* has taken or is taking steps to deal with its insolvency, including petitioning for its own administration, placing itself in voluntary winding up or proposing to enter into a *company* voluntary arrangement, and the effectiveness of those steps;
- (2) Whether any *consumer* or other creditor of the *company* or *partnership* has taken steps to seek an *insolvency order* from the court;
- (3) the effect on the *company* or *partnership* and on the creditors of the *company* or *partnership* if an *insolvency order* is made;
- (4) Whether the use of other powers available to the *FSA* will achieve the same or a more advantageous result in terms of the protection of *consumers*, and of market confidence and the restraint and remedy of unlawful activity:
 - (a) in the case of *authorised persons* and *appointed representatives*, the interests of *consumers* may, in certain circumstances, be met by the use of the *FSA*'s intervention powers and by requiring restitution to *consumers*;
 - (b) in the case of unauthorised *companies* and *partnerships*, the *FSA* will consider whether the interests of *consumers* can be achieved by seeking an *injunction* to restrain continuation of the carrying on of the *regulated activity* and an order for restitution to *consumers*;
 - (c) when it considers whether these courses of action are appropriate, the *FSA* will take full account of their effects on the creditors of the body;
- (5) the nature and extent of the body's assets and liabilities, and in particular whether the body holds *client* assets and whether its secured and preferred liabilities are likely to exceed available assets;
- (6) Whether there is a significant cross border or international element to the business which the *company* or *partnership* is carrying on and the effect on foreign assets or on the continuation of the business abroad of making an *insolvency order*; and
- (7) Whether there is a risk of creditors being preferred which may be an advantage in securing a moratorium in relation to proceedings against the body.

10.6.4

G
/1

After the *FSA* has determined that it is appropriate to seek an *insolvency order*, and there is no moratorium in place under Schedule A1 to the 1986 Act, it will consider whether this order should be an administration order or a compulsory winding up order.

Determining which insolvency order to seek

10.6.5

G

/1

- (1) As stated in *ENF 10.4* the *FSA's* general approach to the use of the power to seek an *insolvency order* from the court is to consider the needs of the *consumers* and the *FSA's regulatory objectives*.
- (2) The *FSA* will consider whether to apply for an administration order or a compulsory winding up order having regard to the purpose achieved by the insolvency procedure. In addition, however, an administration order can be made only in relation to *companies* and *partnerships* and only where the court believes that making such an order will achieve one or more of the four purposes set out in section 8 of the 1986 Act (see *ENF 10.5.3G*). The *FSA* will apply for an administration order only where it considers this will meet or is likely to meet one or more of these purposes.
- (3) In addition, the *FSA* will consider, where relevant, factors including:
 - (a) the extent to which the financial difficulties are or are likely to be attributable to the management of the *company* or *partnership* or external factors, for example, market forces;
 - (b) the extent to which it appears to the *FSA* that the *company* or *partnership* may, through an administrator, be able to trade its way out of its financial difficulties;
 - (c) the extent to which the *company* or *partnership* can lawfully and viably continue to carry on *regulated activities* through an administrator;
 - (d) the extent to which the sale of the business in whole or in part as a going concern is likely to be achievable;
 - (e) the complexity of the business of the *company* or *partnership*;
 - (f) whether recourse to one regime or another is likely to result in delays in redress to *consumers* or an additional cost;
 - (g) whether recourse to one regime or another is likely to result in better redress to *consumers*;
 - (h) the adequacy and reliability of the *company* or *partnership's* accounting or administrative records;
 - (i) the extent to which the management of the *company* or *partnership* has co-operated with the *FSA*;
 - (j) in the case of an unauthorised *company* or a *partnership* carrying on a *regulated activity* as part of a larger enterprise, the scale and importance of the unauthorised activity in relation to the whole of the *company's* or *partnership's* business;
 - (k) the extent to which the management of the *company* or *partnership* is likely to cooperate in determining whether one or more of the purposes of an administration order can be met;
 - (l) in the case of an unauthorised *company* or *partnership* carrying on a *regulated activity* as part of a larger enterprise, the extent to which the *company's* or *partnership's* survival can be anticipated without the discontinuance of the unauthorised *regulated activity*;

- (m) where an administrative receiver is in place, whether the *debenture* holder is likely to agree to an application for an administration order;
- (n) where an administrative receiver is in place, whether the *FSA* has reason to believe that the *debenture* under which the administrative receiver has been appointed is likely to be released, discharged, avoided or challenged.

Petitioning for compulsory winding up on just and equitable grounds

10.6.6

G
/1

- (1) The *FSA* has power under section 367(3)(b) of the *Act* to petition the court for the compulsory winding up of a *company* or *partnership*, on the grounds that it is just and equitable for the body to be wound up, regardless of whether or not the body is able to pay its debts. In some instances the *FSA* may need to consider whether to petition on both these grounds and on grounds of insolvency.
- (2) When deciding whether to petition on these grounds the *FSA* will consider all relevant facts including:
 - (a) whether the needs of *consumers* and the public interest require the body to cease to operate;
 - (b) the need to protect *consumers'* claims and *client* assets;
 - (c) whether the needs of *consumers* and the public interest can be met by using the *FSA's* other powers;
 - (d) in the case of an *authorised person*, where the *FSA* considers that the *authorisation* should be withdrawn or where it has been withdrawn, the extent to which there is other business that the *person* can carry on without *authorisation*;
 - (e) in the case of an *unauthorised* body carrying on a *regulated activity* as part of a larger enterprise, the scale and importance of the *unauthorised regulated activity* and the extent to which the enterprise is likely to survive the restraint and remedying of that activity by the use of other powers available to the *FSA*;
 - (f) whether there is reason to believe that an *injunction* to restrain the carrying on of an *unauthorised regulated activity* would be ineffective;
 - (g) whether the body appears to be or to have been involved in *financial crime* or appears to be or to have been used as a vehicle for *financial crime*.
- (3) Where appropriate the *FSA* will also take the following factors into account:
 - (a) the complexity of the body (as this may have a bearing on the effectiveness of winding up or any alternative action);
 - (b) whether there is a significant cross border or international element to the business being carried on by the body and the impact on the business in other jurisdictions;
 - (c) the adequacy and reliability of the body's accounting or administrative records;

(d) the extent to which the body’s management has cooperated with the *FSA*.

Petitioning for compulsory winding up of a company or partnership already in voluntary winding up

10.6.7

G
/1

Section 365(6) of the *Act* (FSA’s powers to participate in proceedings) makes clear that the *FSA* may petition for the compulsory winding up of a *company* even if that *company* is already in voluntary winding up. This power is already available to creditors and contributories of *companies* in voluntary winding up, although it is rarely exercised. In many instances where there is concern about the way in which a voluntary winding up is proceeding, any creditor or contributory of a *company* in voluntary winding up (or its liquidator) may apply to the court for it to exercise any power which it would have in a compulsory winding up. For example, the court can be asked to direct the liquidator to investigate a transaction which the *company* undertook before the winding up. Under section 365(2) of the *Act*, the *FSA* also has the power to make such an application.

10.6.8

G
/1

- (1) Given the powers available to creditors (or contributories), the *FSA* anticipates that there will only be a limited number of cases where it will exercise the right under section 365(6) to petition for the compulsory winding up of a *company* already in voluntary winding up. The *FSA* will only be able to exercise this right where one or both of the grounds on which it can seek compulsory winding up are met (see *ENF* 10.5.7G).
- (2) Factors which the *FSA* will consider when it decides whether to use this power (in addition to the factors identified in *ENF* 10.6.5G and *ENF* 10.6.6G in relation to the *FSA*’s decisions to seek compulsory winding up) include:
 - (a) whether the *FSA*’s concerns can properly and effectively be met by seeking a specific direction under section 365(2) of the *Act*;
 - (b) whether the affairs of the *company* require independent investigation of the kind which follows a compulsory winding up order and whether there are or are likely to be funds available for that investigation;
 - (c) the composition of the creditors of the *company* and in particular the ratio of *consumer* and non-*consumer* creditors;
 - (d) the extent to which there are creditors who are or are likely to be connected to the *company* or its *directors* and management;
 - (e) the extent to which the *directors* and management of the *company* are cooperating with the liquidator in voluntary winding up;
 - (f) the need to protect and distribute *consumers’ claims* and assets;
 - (g) whether a petition by the *FSA* for compulsory winding up is likely to have the support of the majority or a large proportion of the creditors; and
 - (h) the extent of any resulting delay and additional costs.

10.6.9

G
/1

Where the *FSA* is requested by a *Home State regulator* of an *EEA firm* or a *Treaty firm* to present a petition for the compulsory winding up of that *firm*, the *FSA* will first need to consider whether the presentation of the petition is necessary in order to comply with a Community obligation.

Power to apply to court for a provisional liquidator

10.6.10

G
/1

Where a petition has been presented for the winding up of a body, the court may appoint a provisional liquidator in the interim period pending the hearing of the petition. An appointment may be sought and made to:

- (1) enable the affairs of the *company* or *partnership* to be conducted in the proper manner; or
- (2) protect assets in the possession or under the *control* of the *company* or *partnership* (in particular where there is a risk that the assets will be dissipated); or
- (3) allow the winding up process to start before the determination of the petition where the public interest requires it.

10.6.11

G
/1

In cases where it decides to petition for the compulsory winding up of a body under section 367 of the *Act*, the *FSA* will also consider whether it should seek the appointment of a provisional liquidator. The *FSA* will have regard, in particular, to the extent to which there may be a need to protect *consumers'* claims and *consumers'* funds. Where the *FSA* decides to petition for the compulsory winding up of a *company* or *partnership* on the just and equitable ground, and where the *company* or *partnership* is solvent but may become insolvent, the *FSA* will also consider whether the appointment of a provisional liquidator would serve to maintain the solvency of the *company* or *partnership*.

The FSA's use of its power to petition for a bankruptcy order or a sequestration award in relation to an individual

10.6.12

G
/1

- (1) The *FSA* recognises that the bankruptcy of an individual or the sequestration of an individual's estate are significant measures which may have significant personal and professional implications for the individual involved. In considering whether to present a petition the *FSA's* principal consideration will be the protection of *consumers* and its regulatory obligations.
- (2) The *FSA* is also mindful that whilst the winding up of an unauthorised *company* or *partnership* should bring an end to any unlawful activity, this is not necessarily the effect of bankruptcy or sequestration. The *FSA* may, in certain cases, consider the use of powers to petition for bankruptcy or sequestration in conjunction with the use of other powers to seek *injunctions* and other relief from the court. In particular, where the individual *controls* assets belonging to *consumers* and holds, or appears to hold, those assets on trust for *consumers*, those assets will not vest in the insolvency practitioner appointed in the bankruptcy or sequestration. The *FSA* will in those circumstances consider whether separate action is necessary to protect the assets and interests of *consumers*.

10.6.13

G
/1

- (1) If an individual appears to be unable to pay a *regulated activity debt*, or to have no reasonable prospect of doing so, then section 372 of the *Act* permits the *FSA* to petition for the individual's bankruptcy, or in Scotland, for the sequestration of the individual's estate. The *FSA* will petition for bankruptcy or sequestration only if it believes that the individual is, in fact, insolvent.
- (2) In determining this, as a general rule, the *FSA* will serve a demand requiring the individual to establish, to the *FSA's* satisfaction that there is a reasonable prospect that he will be able to pay the *regulated activity debt*.

- (3) The *FSA* will consider the response of each individual to that demand on its own facts and in the light of information, if any, available to the *FSA*. Exceptionally, the *FSA* may not first proceed to serve a demand if:
 - (a) the individual is already in default of a *regulated activity debt* which has fallen due and payable; and
 - (b) the *FSA* is satisfied, either because the individual has confirmed it or on the information already available to the *FSA*, that the individual is insolvent and has no reasonable prospect of paying another *regulated activity debt* when it falls due.

10.6.14

G

/1

If the *FSA* believes that the individual is insolvent, the factors it will consider when it decides whether to seek a bankruptcy order or sequestration award include:

- (1) whether others have taken steps to deal with the individual's insolvency, including a proposal by the individual of a voluntary arrangement, a petition by the individual for his own bankruptcy or sequestration, or a petition by a third party for the individual's bankruptcy or the sequestration of the individual's estate;
- (2) whether the *FSA* can deal with the individual using other powers available to it under the *Act*, without the need to seek a bankruptcy order or sequestration award;
- (3) the extent of the individual's insolvency or apparent insolvency;
- (4) the number of *consumers* affected and the extent of their claims against the individual;
- (5) whether the individual has control over assets belonging to *consumers*;
- (6) the individual's conduct in his dealings with the *FSA*, including the extent of his cooperation with the *FSA*;
- (7) whether the individual appears to be, or to have been, involved in *financial crime*;
- (8) the adequacy of the individual's accounts and administration records;
- (9) in the case of an *unauthorised* individual who is carrying on or who has carried on a *regulated activity*, the nature, scale and importance of that activity and the individual's conduct in carrying on that activity;
- (10) whether there would be an advantage in securing a moratorium in respect of proceedings against the individual; and
- (11) whether there are any special personal or professional implications for that individual if a bankruptcy order or sequestration award is made.

10.7 Statutory background: the FSA's powers to challenge voluntary arrangements

10.7.1 **G**_{/1} Under section 357(3) of the *Act* (FSA's powers to participate in proceedings [individual voluntary arrangements]), the *FSA* is entitled to attend a creditors' meeting, called to approve proposals for an individual voluntary arrangement. The *FSA* has no power under the *Act* to attend the meeting of creditors at which proposals for a *company's* voluntary arrangement are approved, other than in the case of certain small *companies* for whom a moratorium is in place under Schedule A1 to the 1986 *Act* (see *ENF* 10.7.5G).

10.7.2 **G**_{/1} However, in relation to a *company* which is or has been an *authorised person* or *appointed representative* or is carrying on or has carried on a *regulated activity* in contravention of the *general prohibition*, where a member applies to the court to challenge a decision taken at the creditors' meeting, the *FSA* has the right to be heard by the court on that application.

10.7.3 **G**_{/1}

- (1) Under section 356 of the *Act* (FSA's powers to participate in proceedings [company voluntary arrangements]), if a voluntary arrangement has been approved in respect of a *company* which is an *authorised person*, the *FSA* may make an application to the court where it considers that:
 - (a) the voluntary arrangement approved at the relevant meetings of creditors unfairly prejudices the interests of a creditor, member or contributor of the *company*; or
 - (b) there has been some material irregularity at or in relation to the meetings; or
 - (c) both (a) and (b) apply.
- (2) In addition, the *FSA* may make an application to the court if it or any of the *company's* creditors or any other creditor is dissatisfied by any act, omission or decision of the supervisor of the voluntary arrangement.
- (3) If a *person* other than the *FSA* makes such an application to the court, the *FSA* is entitled to be heard at any hearing relating to the application.
- (4) Section 357 contains the same provision in relation to a voluntary arrangement approved in respect of an individual who is an *authorised person*.
- (5) In addition, the *FSA* is empowered to apply to the court if it or the debtor or any creditor or any other *person* is dissatisfied with any act, omission or decision made by the supervisor of the individual's voluntary arrangement.

10.7.4 **G**_{/1} Under section 358 of the *Act* (FSA's powers to participate in proceedings [trust deeds for creditors in Scotland]), if, in Scotland, a trust deed has been granted by or on behalf of a debtor who is an *authorised person*, the *FSA* has the rights of a

qualifying creditor under paragraph 7 of Schedule 5 to the 1985 Act. Consequently, the FSA may, subject to the time limits applying to that paragraph, petition for sequestration of the debtor's estate on the grounds of unduly prejudicial distribution of the estate.

10.7.5

G

/1

- (1) Under paragraph 44 of Schedule A1 to the 1986 Act, the FSA is empowered to apply to the court to challenge certain actions by a nominee or by *directors* of a *company* for whom a moratorium has been obtained and any voluntary arrangement subsequent to that moratorium under Schedule A1 of the 1986 Act.
- (2) Schedule A1 to the 1986 Act applies to certain small *companies*. It does not apply to insurance *companies*, authorised institutions or former authorised institutions within the meaning of the Banking Act 1987 [now repealed] parties to a market contract, a money market contract or a related contract, *companies* whose property is subject to a market charge, money market charge or a system charge, or where the *company* is a participant within the meaning of the Settlement Finality Regulations or any of its properties is subject to a collateral security charge within the meaning of these Regulations.

10.7.6

G

/1

The FSA's powers under Schedule A1 to the 1986 Act may be exercised by it in relation to a *company* which is or has been an *authorised person* or *appointed representative* or is carrying on or has carried on a *regulated activity* in contravention of the *general prohibition*.

10.8 The FSA's policy: applications in relation to voluntary arrangements

10.8.1

G
/1

In general terms, the approval of a voluntary arrangement (in relation to *companies*, *partnerships* and individuals) requires more than 75% of the creditors to whom notice of a meeting has been sent and who are present in person or by proxy. The arrangement must also not be opposed by more than 50% of creditors given notice of the meeting and who have notified their claim, but excluding secured creditors and creditors who are, in the case of *companies* or *partnerships*, connected persons and, in the case of individuals, associates. The FSA will therefore not normally challenge an arrangement approved by a majority of creditors.

10.8.2

G
/1

Exceptionally, the FSA will consider making such a challenge after considering, in particular, the following matters:

- (1) the ratio of *consumer* to non-consumer creditors;
- (2) Whether the FSA has concerns, or is aware of concerns of creditors, about the regularity of the meeting or the identification of connected or associated creditors and the extent to which creditors with those concerns could themselves make the application;
- (3) whether the *company*, *partnership* or individual has control of *consumer* assets which might be affected by the voluntary arrangement;
- (4) the complexity of the arrangement;
- (5) the nature and complexity of the *regulated activity*;
- (6) the *company's*, *partnership's* or individual's previous dealings with the FSA, including the extent of its cooperation with the FSA and its compliance history; and
- (7) whether the FSA is aware of any matters which would materially affect the rights and expectations of creditors under the voluntary arrangement as approved.

10.8.3

G
/1

Similarly, the FSA will not normally petition for sequestration of a debtor's estate following the grant of a trust deed, if the trust deed has been, or appears likely to be, acceded to by a majority of creditors.

10.8.4

G
/1

The FSA will consider making a challenge in relation to acts, omissions or decisions of a nominee during a moratorium having regard to the following matters in particular:

- (1) whether the FSA is aware of matters indicating that the proposed voluntary arrangement does not have a reasonable prospect of being approved and

implemented or that the *company* is likely to have insufficient funds available to it to carry on its business during the moratorium;

- (2) whether *consumer* assets held by the *company* are or may be placed at risk; and
- (3) in the case of an unauthorised *company*, whether that *company* is able to carry on its business lawfully during the moratorium without undertaking any *regulated activity* in contravention of the *general prohibition*.

10.9 Statutory background: the FSA's power to apply for orders against debt avoidance

10.9.1

G
/1

Under section 375 of the *Act* (Provisions against debt avoidance: FSA's right to apply for an order), the *FSA* may apply to the court, under section 423 of the 1986 Act or article 367 of the 1989 Order, for an order where a transaction is entered into at an undervalue and where:

- (1) at the time the transaction was entered into, the debtor was carrying on a *regulated activity* (whether or not in contravention of the *general prohibition*); and
- (2) a victim of the transaction is, or was, party to an agreement entered into with the debtor, the making and performance of which constituted or was part of a *regulated activity* carried on by the debtor.

10.9.2

G
/1

The *FSA's* application is to be treated as made on behalf of every victim of the transaction. Under section 423 of the 1986 Act or article 367 of the 1989 Order, the court may make such order as it thinks fit to restore the position to what it would have been if the transaction had not been entered into and to protect the interests of persons who are victims of the transaction.

10.10 The FSA's policy: applications for orders against debt avoidance

10.10.1

G

^{/1}

When it decides whether to make an application for an order against debt avoidance, the *FSA* will consider all relevant factors, including the following:

- (1) the extent to which the relevant transactions involved dealings in *consumers'* funds;
- (2) whether it would be appropriate to petition for a winding-up order, bankruptcy order, or sequestration award, in relation to the debtor and the extent to which the transaction could properly be dealt with in that winding up, bankruptcy or sequestration;
- (3) the number of *consumers* or other creditors likely to be affected and their ability to make an application of this nature; and
- (4) the size of the transaction.

10.11 Statutory background: the FSA's rights to information in insolvency regimes

Administration

10.11.1 **G**_{/1} Under section 361 of the *Act* (Administrator's duty to report to the FSA), if an administration order is in force in relation to a *company* or *partnership* as a result of a petition presented by a *person* other than the *FSA*, and it appears to the administrator that the *company* or *partnership* is carrying on, or has carried on, a *regulated activity* in contravention of the *general prohibition*, the administrator must report the matter to the *FSA* without delay.

10.11.2 **G**_{/1} Under section 362 of the *Act* (FSA's powers to participate in proceedings), if a *person* other than the *FSA* petitions the court for an administration order in relation to a *company* or *partnership* which:

- (1) is, or has been, an *authorised person*; or
- (2) is, or has been, an *appointed representative*; or
- (3) is carrying on, or has carried on, a *regulated activity* in contravention of the *general prohibition*;

then the *FSA* is entitled to be heard at the hearing of the petition and at any other hearing of the court in relation to the *company's* or *partnership's* administration.

10.11.3 **G**_{/1} Under section 362(3), any notice or other *document* required to be sent to a creditor of such a *company* or *partnership* in administration (see *ENF* 10.11.2G) must also be sent to the *FSA*.

10.11.4 **G**_{/1} Under section 362(4), the *FSA* may apply to the court, under section 27 of the 1986 Act or article 39 of the 1989 Order, if it believes that the *company's* affairs, business and property are being or have been managed by the administrator in a manner which is unfairly prejudicial to the interest of its creditors and members generally, or to some part of its creditors and members, or that any act or proposed act or omission of the administrator is or would be prejudicial.

10.11.5 **G**_{/1} Under section 362(5), the *FSA* may appoint a *person* to:

- (1) attend any meeting of creditors of the *company* or *partnership* summoned under any enactment;
- (2) attend any meeting of a creditors' committee established in the administration, under section 26 of the 1986 Act or article 38 of the 1989 Order;
- (3) make representations as to any matter for decision at such a meeting.

10.11.6 G_{/1} Under section 362(6), if, during the course of the administration of a *company*, a compromise or arrangement is proposed between the *company* and its creditors, or any class of creditors, the *FSA* may apply to the court under section 425 of the Companies' Act 1985 or article 418 of the Companies' (Northern Ireland) Order 1986, for an order requiring a meeting of the creditors or class of creditors to be summoned.

Compulsory winding up

10.11.7 G_{/1} Under section 369 of the *Act* (Insurers: service of petition etc. on the *FSA*), if a *person* other than the *FSA* presents a petition for the winding up of an insurance *company* which is an *authorised person*, the petitioner must serve a copy of the petition on the *FSA*. In addition, if a *person* other than the *FSA* applies to have a provisional liquidator appointed in respect of an insurance *company* which is an *authorised person*, that *person* must serve a copy of the application on the *FSA*.

10.11.8 G_{/1} Under section 370 of the *Act* (Liquidator's duty to report to the *FSA*), if a *company* or *partnership* is in voluntary liquidation, or is being wound up on a petition presented by a *person* other than the *FSA*, and it appears to the liquidator that the *company* or *partnership* is carrying on, or has carried on, a *regulated activity* in contravention of the *general prohibition*, the liquidator must report the matter to the *FSA* without delay.

10.11.9 G_{/1} Under section 371 of the *Act* (*FSA's* powers to participate in proceedings), if a *person* other than the *FSA* presents a petition for the winding up of a body which is, or has been, an *authorised person* or *appointed representative*, or is carrying on, or has carried on, a *regulated activity* in contravention of the *general prohibition*, the *FSA* is entitled to be heard on the petition and any other hearing of the court in relation to the body under or by virtue of Part IV or V of the 1986 Act or Part V or VI of the 1989 Order .

10.11.10 G_{/1} Under section 371(3) of the *Act*, any notice or other *document* required to be sent to a creditor of the body must also be sent to the *FSA*.

10.11.11 G_{/1} Under section 371(4) of the *Act*, a *person* appointed for the purpose by the *FSA* is entitled:

- (1) to attend any meeting of creditors of the body;
- (2) to attend any meeting of a creditors' committee established under section 101, 141 or 142 of the 1986 Act or article 87 or 120 of the 1989 Order; and
- (3) to make representations about any matter which is to be decided at such a meeting.

10.11.12 G_{/1} Under section 371(5), if, during the winding up of a *company*, a compromise or arrangement is proposed between a *company* and its creditors or any class of creditors, the *FSA* may apply to the court under section 425 of the Companies Act 1985 or article 418 of the Companies (Northern Ireland) Order 1989 for an order requiring a meeting of the creditors or class of creditors to be summoned.

Voluntary liquidation

10.11.13 G_{/1} Under section 365(4) of the *Act*, in the case of a *company* which is being wound up voluntarily and is an *authorised person* (not an insurer) carrying on *long term insurance business*), any notice or other *document* required to be sent to a creditor of the *company* must also be sent to the *FSA*.

10.11.14 G_{/1} Also, section 365(5) of the *Act* permits a *person* appointed for the purpose by the *FSA*:

- (1) to attend any meeting of creditors of the *company* summoned under any enactment;
- (2) to attend any meeting of a creditors' committee summoned under section 101 of the 1986 Act or article 87 of the 1989 Order;
- (3) to make representations as to any matter for decision at that meeting.

Receivership

10.11.15 G_{/1} Section 363 of the *Act* (FSA's powers to participate in proceedings) entitles the *FSA* to be heard on applications and to receive reports about receiverships, where a receiver has been appointed in relation to a *company* which:

- (1) is, or has been, an *authorised person*; or
- (2) is, or has been, an *appointed representative*; or
- (3) is carrying on, or has carried on, a *regulated activity* in contravention of the *general prohibition*.

10.11.16 G_{/1} Under section 363(2) of the *Act*, the *FSA* is entitled to be heard on an application, under section 35 or 63 of the 1986 Act or article 45 of the 1989 Order, by a receiver, or a *person* by whom or on whose behalf the receiver has been appointed, for directions in relation to any particular matter arising in connection with the performance of the receiver's functions.

10.11.17 G_{/1} Under section 363(3) of the *Act*, the *FSA* is entitled to apply to the court, under sections 41(1)(a) or 69(1)(a) of the 1986 Act or article 51(1)(a) of the 1989 Order, if the Receiver:

- (1) defaults in filing, delivering or making any return, account or other *document* or in giving any notice which a receiver is, by law, required to file, deliver, make or give; or
- (2) (when the *company* is in liquidation) fails to render appropriate accounts of his receipts or payments and to vouch them and pay over to the liquidator the amount of property payable to him, when required by the liquidator to do so.

10.11.18 G_{/1} Under section 363(4) of the *Act*, where the receiver makes a report under section 48(1) or 67(1) of the 1986 Act or article 15(1) of the 1989 Order, that report must be sent to the *FSA* by the receiver.

10.11.19 G_{/1} Under section 363(5), a *person* appointed for the purpose by the *FSA* is entitled to:

- (1) attend any meeting of creditors of the *company* under any enactment;

- (2) attend any meeting of a creditors' committee established under sections 49 or 68 of the 1986 Act or article 59 of the 1989 Order;
- (3) make representations as to any matter for decision at such meetings.

10.11.20

G

/1

Under section 364 of the *Act* (Receiver's duty to report to the FSA), if a receiver has been appointed in relation to a *company* and it appears to the receiver that the *company* is carrying on, or has carried on, a *regulated activity* in contravention of the *general prohibition*, the receiver must report this to the *FSA* without delay.

Bankruptcy and sequestration

10.11.21

G

/1

Under section 373 of the *Act* (Insolvency practitioner's duty to report to the FSA), if a bankruptcy order or, in Scotland, a sequestration award is in force in relation to an individual, following a petition presented by a *person* other than the *FSA*, and it appears to the insolvency practitioner that the individual is carrying on, or has carried on, a *regulated activity* in contravention of the *general prohibition*, the insolvency practitioner must report this to the *FSA* without delay. For these purposes "individual" includes, in Scotland, an entity under section 6(1) of the 1985 Act.

10.11.22

G

/1

Under section 374 of the *Act* (FSA's powers to participate in proceedings), if a *person* other than the *FSA* presents a petition to the court for:

- (1) a bankruptcy order to be made against an individual; or
- (2) the sequestration of an individual's estate; or
- (3) the sequestration of the estate belonging to or held jointly by an entity mentioned in section 6(1) of the 1985 Act;

and that individual or entity is or has been an *authorised person*, or is carrying on or has carried on a *regulated activity* in contravention of the *general prohibition*, then the *FSA* is entitled to be heard at the hearing of the petition and at any other hearing relating to the bankruptcy or sequestration under Part IX of the 1986 Act, Part IX of the 1989 Order or the 1985 Act. A copy of the insolvency practitioner's report prepared under section 274 of the 1986 Act or article 248 of the 1989 Order must be sent to the *FSA*.

10.11.23

G

/1

Section 374(4) of the *Act* permits a *person* appointed for the purpose by the *FSA*:

- (1) to attend any meeting of creditors of the individual or entity;
- (2) to attend any meeting of a creditors' committee established under section 301 of the 1986 Act or article 274 of the 1989 Order;
- (3) to attend any meeting of commissioners held under paragraph 17 or 18 of Schedule 6 to the 1985 Act;
- (4) to make representations as to any matter for decision at such meetings.

Company Moratoria

10.11.24

G

/1

Under paragraph 44 of schedule A1 to the 1986 Act, where a moratorium is in place or a voluntary arrangement has been approved under that schedule in relation to a *company* to which the schedule applies (see ENF 10.7.5G) and which is or has been an *authorised person* or an *appointed representative* or is carrying on or has carried on a *regulated activity* in contravention of the *general prohibition*, the FSA has the right:

- (1) To receive any notice or other *documents* required by schedule A1 to the 1986 Act to be sent to a creditor;
- (2) To be heard in any application for leave in relation to disposal of charged property (paragraph 20 of schedule A1);
- (3) To be heard in any application made other than by the FSA to challenge the actions or omissions of a nominee (paragraphs 26 and 27 of schedule A1 to the 1986 Act);
- (4) To attend and participate in but not vote at any meeting of creditors of the *company* or of the moratorium committee ;
- (5) To be heard in any application by a member of the *company* in relation to a decision taken by the creditors' meeting under paragraph 36 of schedule A1 to the 1986 Act;
- (6) To be heard in any application made other than by the FSA to challenge a decision to approve a voluntary arrangement in relation to the *company* under paragraph 38 of schedule A1 to the 1986 Act;
- (7) To apply to the court and be heard in an application by a *person* other than the FSA to challenge any act, omission or decision of the supervisor under paragraph 39 of schedule A1 to the 1986 Act;
- (8) To apply to the court and to be heard on any application to the court by a *person* other than the FSA to challenge the actions of the *company's directors* under paragraph 40 of schedule A1 to the 1986 Act.

10.12 The FSA's arrangements for notification of petitions and other documents

10.12.1

G
/1

ENF 10.12.2G to ENF 10.12.4G contain information for insolvency practitioners and others about sending copies of petitions, notices and other documents to the FSA, and about making reports to the FSA. Insolvency practitioners and others have duties to give that information and those documents to the FSA under various sections in Part XXIV of the Act (Insolvency). ENF 10.12.2G identifies the relevant sections of the Act and paragraphs of ENF 10.11 that explain some of the duties.

10.12.2

G
/1

Table Insolvency regime and relevant sections of the Act and ENF 10.11

Insolvency regime	Relevant sections of the Act and paragraphs of ENF 10.11
Administration	Sections 361 and 362(3) – see ENF 10.11.1G and ENF 10.11.3G
Compulsory winding up	Sections 369, 370, and 371(3) – see ENF 10.11.7G, ENF 10.11.8G and ENF 10.11.10G
Voluntary liquidation	Section 365(4) – see ENF 10.11.13G
Receivership	Sections 363(4) and 364 – see ENF 10.11.18G and ENF 10.11.20G
Bankruptcy and sequestration	Sections 373 and 374(3) – see ENF 10.11.21G and ENF 10.11.22G
Company moratoria	Paragraph 44 of schedule A1 to the 1986 Act – see ENF 10.11.24G(1)
Individual voluntary arrangements	Section 357(3) – not in ENF 10.11 – relates to notices of the result of the creditors' meetings.
Trust deeds for creditors	Section 358(2)(a) and (b) – not in ENF 10.11 – relates to copies of trust deeds and copies of certain other documents of information sent to creditors. Section 358(4) – not in ENF 10.11 – relates to notices of any meeting of creditors held in relation to the trust deed.

10.12.3

G
/1

Unless ENF 10.12.4G applies, the information and documents identified in ENF 10.12.2G should be sent to the Financial Services Authority, 25 The North Colonnade, Canary Wharf, London E14 5HS marked "Insolvency Information". If the person who is subject to the insolvency regime ("the insolvent person") is an

authorised person, the information and documents should, in the first instance, be addressed to the insolvent person's supervisory contact at the *FSA* (if known).

10.12.4

G
/1

This paragraph applies if the insolvent person is an *authorised person* and the sender of the information or documents knows that the insolvent person's supervisory contact operates from Edinburgh. In this case information or documents should, in the first instance, be sent to the Financial Services Authority, Sutherland House, 108-114 Dundas Street, Edinburgh EH3 5DQ.

10.13 The FSA's policy: rights on petitions by third parties and involvement in creditors meetings

10.13.1

G

/1

Section 362 of the *Act* (FSA's powers to participate in proceedings [administration orders]) gives the *FSA* the right to be heard at the hearing of a petition by a third party for an administration order in respect of an *authorised person, appointed representative* or an unauthorised *company* or *partnership* which is carrying on or has carried on a *regulated activity* while unauthorised. The *FSA* has the same right to be heard on a petition by a third party for compulsory winding up (section 371 of the *Act* (FSA's powers to participate in proceedings [winding up by the court]) and bankruptcy or sequestration (section 374 of the *Act* (FSA's powers to participate in proceedings [Bankruptcy])). The *FSA* also has the right to be heard in any hearing in court following the making of such an order.

10.13.2

G

/1

The *FSA* will exercise the right to be heard on a third party's petition or in subsequent hearings only where it believes it has information that it considers relevant to the court's consideration of the petition or application. These circumstances may include:

- (1) where the *FSA* has relevant information which it believes may not otherwise be drawn to the court's attention; especially where the *FSA* has been asked to attend for a particular purpose (for example to explain the operations of its *rules*);
- (2) where the *FSA* believes that the *insolvency order* being sought by a third party is inappropriate to meet the needs of *consumers* and the public interest; and
- (3) where the *FSA* believes that the making of an *insolvency order* will affect the *FSA's* exercise of its other powers under the *Act*, and wishes to make the court aware of this.

10.13.3

G

/1

The making of an *insolvency order* operates to stay any proceedings already in place against the *company, partnership* or individual, and prevents proceedings being commenced while the *insolvency order* is in place. Proceedings can continue or be commenced against those *persons* only with the court's permission. This may affect the effectiveness of the *FSA's* use of its powers to seek *injunctions* and restitutionary orders from the court. The *FSA* will draw the court's attention to this potential effect where the *FSA* believes it is a relevant consideration, but it is a matter for the court to determine its relevance in a particular case.

10.13.4

G

/1

The *FSA* is given power to receive the same information as creditors are entitled to receive in the winding up, administration, receivership or voluntary arrangement of an *authorised person, of appointed representatives* and of *persons* who have carried out a *regulated activity* while unauthorised. The *FSA* is also entitled to attend and make representation at any creditors' meeting or (where relevant) creditors' committee meeting taking place in those regimes. When it decides whether to

exercise its power to attend and make representations at meetings the factors which the *FSA* will take into account include:

- (1) the extent of claims by *consumers* upon the body or individual;
- (2) the extent to which *consumer* assets are held by the body or individual on behalf of *consumers*;
- (3) the extent to which the *FSA* is aware of concerns of *consumers* (or other creditors or contributories) about the way in which the insolvency regime is proceeding;
- (4) whether the circumstances which gave rise to the insolvency regime might have general implications for others carrying on regulated business;
- (5) whether the creditors include *shareholders*, *directors*, or other *persons* who have a connection with the management or ownership of the body or are associated with the individual;
- (6) the complexity or specialisation of the business of the body or individual; and
- (7) where there is a significant cross border or international element to the business which the *company*, *partnership* or individual is carrying out.

Chapter 11

Discipline: The FSA's general approach

11.1 Application and purpose

Application

11.1.1

G
/1

- (1) This chapter applies to *firms* and *approved persons*.
- (2) *ENF* 11.3 also applies to any *person*, whether regulated or not.

Purpose

11.1.2

G
/1

This chapter describes the *FSA*'s general approach to the discipline of *firms* and *approved persons*. It describes the *FSA*'s policy on private warnings, explains the criteria which the *FSA* will use in determining whether to take disciplinary action, and describes some particular aspects of enforcement policy on *approved persons*, the enforcement of the *Principles*, the *FSA*'s approach where disciplinary action may also be taken by other authorities, and a particular aspect of enforcement policy relating to breaches of the *money laundering rules*.

11.2 Introduction

11.2.1

G

/1

Disciplinary measures are one of the regulatory tools available to the FSA. They are not the only tool, and it may be appropriate to address many instances of non-compliance without recourse to disciplinary action. However, the effective and proportionate use of the FSA's powers to enforce the requirements of the *Act*, the *rules* and the *Statements of Principle* will play an important role in buttressing the FSA's pursuit of its *regulatory objectives*. The imposition of disciplinary measures (that is, financial penalties, public censures and public statements) shows that regulatory standards are being upheld and helps to maintain market confidence, promote public awareness of regulatory standards and deter *financial crime*. An increased public awareness of regulatory standards also contributes to the protection of *consumers*.

11.2.2

G

/1

The disciplinary measures available to the FSA under Part V (Performance of Regulated Activities) and Part XIV (Disciplinary Measures) of the *Act* are:

- (1) public statements and public censures (described in ENF 12); and
- (2) financial penalties (described in ENF 13).

ENF 11 Ann 1G and ENF 11 Ann 2G contain diagrams describing how these disciplinary measures may apply to *firms* and *approved persons* respectively.

11.2.3

G

/1

Other measures are available to the FSA where it considers it is necessary to take protective or remedial action, (rather than disciplinary action) or where a *firm's* continuing ability to meet the *threshold conditions* or where an *approved person's* fitness and propriety to perform the *controlled functions* to which his approval relates, is called into question. These include:

- (1) the variation or *cancellation of permission* and the withdrawal of a *firm's* *authorisation* (described in ENF 3 and ENF 5);
- (2) the withdrawal of an individual's status as an *approved person* (described in ENF 7); and
- (3) the prohibition of an individual from performing a specified function in relation to a *regulated activity* (described in ENF 8).

11.2.4

G

/1

Additional considerations apply in determining whether to take enforcement action for *market abuse* cases (section 123 of the *Act* (Power to impose penalties in cases of market abuse)). These are described in ENF 14 (Sanctions for market abuse). The *Act* also gives the FSA criminal prosecution powers in relation to *insider dealing* and *misleading statements and practices offences*. These are described in ENF 15 (Prosecution of criminal offences).

11.3 Private warnings

- 11.3.1** G_{/1} In certain cases, despite having concerns regarding the *behaviour* of a *firm* or *approved person*, the *FSA* may decide that it is not appropriate, having regard to all the circumstances of the case, to bring formal disciplinary action. In these types of case, the *FSA* considers that it will be helpful for a *firm* or *approved person* to be made aware that they came close to being subject to formal disciplinary action, and may to that end, if appropriate, give a private warning. (It is, of course, open to the *FSA* not to give a private warning if it does not consider that one is necessary.)
- 11.3.2** G_{/1} Examples of circumstances where the *FSA* will tend to give a private warning rather than take formal disciplinary action include where the matter giving cause for concern is minor in nature or degree, or where the *firm* or *approved person* has taken full and immediate remedial action. However, these circumstances on their own will not determine the course of action taken by the *FSA*.
- 11.3.3** G_{/1} Generally, the *FSA* would expect to use private warnings in the context of *firms* and *approved persons*. However, the *FSA* may also issue private warnings in circumstances where the *persons* involved may not necessarily be *authorised*. For example, private warnings may be issued in potential cases of *market abuse* (see *ENF* 14), cases where the *FSA* considered making a *prohibition order* (see *ENF* 8) or a disapplication order (see *ENF* 18).
- 11.3.4** G_{/1} In relation to *firms* and *approved persons*, a private warning will state that:
- (1) the *FSA* has had cause for concern arising from the conduct of a *firm* or *approved person*, although no determination that a *firm* has contravened a *requirement*, or that an *approved person* has been guilty of misconduct, has been made by the *FSA*;
 - (2) the *FSA* does not at present intend to take formal disciplinary action, having regard to all the circumstances of the case;
 - (3) the private warning will form part of the *firm's* or *approved person's* compliance history, and may be taken into account in deciding whether the *FSA* brings disciplinary action against the *firm* or *approved person* in the future; and
 - (4) the *FSA* requires the *firm* or *approved person* to acknowledge receipt of the warning letter and invites the *firm* or *approved person* to comment on the private warning if they wish to do so.
- 11.3.5** G_{/1} Where the *FSA* gives a private warning to an *approved person*, it may if appropriate inform the *approved person's firm* (or employer, if different).
- 11.3.6** G_{/1} Private warnings, together with any comments received in response, will form part of the *firm's* or *approved person's* compliance history. As such they may influence

the FSA's decision whether to commence disciplinary action in relation to future breaches. However, where disciplinary action is commenced in those circumstances earlier, private warnings will not be relied upon in determining whether a breach has taken place, or in determining the level of sanction, if any, to be imposed.

11.3.7

G

/1

Where the FSA is assessing the relevance of private warnings in determining whether to commence disciplinary action, the age of a private warning will be taken into consideration. However, a long-standing private warning may still be relevant.

11.3.8

G

/1

Private warnings may be considered cumulatively, although they relate to separate areas of a *firm's* business, where the concerns which gave rise to those warnings are considered to be indicative of a *firm's* compliance culture. Similarly, private warnings issued to different *subsidiaries* of the same parent *company* may be considered cumulatively where the concerns which gave rise to those warnings relate to a common management team.

11.3.9

G

/1

As well as private warnings, it is also open to the FSA to indicate to a *firm* in ordinary correspondence that the FSA has concerns about a particular aspect of the way it conducts its *regulated activities*. This correspondence may, for example, have arisen from a supervision visit. This correspondence will also form part of a *firm's* compliance history.

11.4 Criteria for determining whether to take disciplinary action

11.4.1

G
/1

In determining whether to take disciplinary action in respect of conduct appearing to the *FSA* to be a breach, the *FSA* will consider the full circumstances of each case. A number of factors may be relevant for this purpose. The following list is not exhaustive: not all of these factors may be relevant in a particular case, and there may be other factors that are relevant.

- (1) The nature and seriousness of the suspected breach
 - (a) whether the breach was deliberate or reckless;
 - (b) the duration and frequency of the breach (including, in relation to a *firm*, when the breach was identified by those exercising *significant influence functions* in the *firm*);
 - (c) the amount of any benefit gained or loss avoided as a result of the breach;
 - (d) whether the breach reveals serious or systemic weaknesses of the management systems or *internal controls* relating to all or part of a *firm's* business;
 - (e) the impact of the breach on the orderliness of financial markets, including whether public confidence in those markets has been damaged;
 - (f) the loss or risk of loss caused to *consumers* or other market users;
 - (g) the nature and extent of any *financial crime* facilitated, occasioned or otherwise attributable to the breach; and
 - (h) whether there are a number of smaller issues, which individually may not justify disciplinary action, but which do so when taken collectively.
- (2) The conduct of the *firm* or the *approved person* after the breach
 - (a) how quickly, effectively and completely the *firm* or *approved person* brought the breach to the attentions of the *FSA* or another relevant regulatory authority;
 - (b) the degree of co-operation the *firm* or *approved person* showed during the investigation of the breach;
 - (c) any remedial steps the *firm* or *approved person* has taken since the breach was identified, including: identifying whether *consumers* have suffered loss and compensating them; taking disciplinary action against staff involved (where appropriate); addressing any systemic failures; and taking action designed to ensure that similar problems do not arise in future; and

- (d) the likelihood that the same type of contravention (whether on the part of the *firm* or *approved person* concerned or others) will recur if no disciplinary action is taken.
- (3) The previous regulatory record of the *firm* or *approved person*
 - (a) whether the *FSA* (or any *previous regulator*) has taken any previous disciplinary action resulting in adverse findings against the *firm* or *approved person*;
 - (b) whether the *firm* or *approved person* has previously given any undertakings to the *FSA* (or any *previous regulator*) not to do a particular act or engage in particular *behaviour*;
 - (c) whether the *FSA* (or any *previous regulator*) has previously taken protective action in respect of a *firm*, using its own initiative powers, by means of a variation of a *Part IV permission* (see *ENF 3*) or otherwise, or has previously requested the *firm* to take remedial action, and the extent to which such action has been taken; and
 - (d) the general compliance history of the *firm* or *approved person*, such as previous private warnings or the type of correspondence referred to in *ENF 11.3.9G*.
- (4) *Guidance* given by the *FSA*

The *FSA* will take into account whether any *guidance* has been issued relating to the *behaviour* in question and if so the extent to which the *firm* or *approved person* has sought to follow that *guidance*: see the Reader's Guide part of the *Handbook*.
- (5) Action taken by the *FSA* in previous similar cases

The *FSA* will take account of action which it has taken previously in cases where the breach has been the same or similar.
- (6) Action taken by other regulatory authorities

Where other regulatory authorities propose to take action in respect of the breach which is under consideration by the *FSA*, or one similar to it, the *FSA* will consider whether their action would be adequate to address the *FSA*'s concerns, or whether it would be appropriate for the *FSA* to take its own action (see *ENF 11.8*).

11.5 Action against approved persons

- 11.5.1** **G**_{/1} The primary responsibility for ensuring compliance with a *firm's* regulatory obligations rests with the *firm* itself. Normally, therefore, the *FSA's* main focus, in considering whether disciplinary action is appropriate, will be on the *firm* rather than on *approved persons*.
- 11.5.2** **G**_{/1} However, in some cases, it will not be appropriate to take disciplinary measures against a *firm* for the actions of an *approved person* (for example, if the *firm* can show that it took all reasonable steps to prevent the breach). In other cases, it may be appropriate for the *FSA* to take action against both the *firm* and the *approved person*. For example, a *firm* may have breached the *rule* requiring it to take reasonable care to establish and maintain such systems and controls as are appropriate to its business (SYSC 3.1.1R), and an *approved person* may have taken advantage of those deficiencies to front run orders or misappropriate assets.
- 11.5.3** **G**_{/1} The *FSA* will, however, only take disciplinary action against an *approved person* where there is evidence of personal culpability on the part of that *approved person*. Personal culpability arises where the *behaviour* was deliberate or where the *approved person's* standard of *behaviour* was below that which would be reasonable in all the circumstances.
- 11.5.4** **G**_{/1} Section 66 of the *Act* (Disciplinary powers) contains specific provisions stating when the *FSA* may take action against an *approved person* (see ENF 11.5.7G and ENF 11.5.8G). In accordance with section 64 of the *Act* (Conduct: statements and codes), the *FSA* has issued *Statements of Principle* (APER 2) about the conduct it expects of *approved persons* and a *Code of Practice for Approved Persons* (APER 3 and 4) to help determine whether an *approved person's* conduct complies with the *Statements of Principle*.
- 11.5.5** **G**_{/1} The *Code of Practice for Approved Persons* sets out descriptions of conduct which, in the *FSA's* opinion, do not comply with the relevant *Statements of Principle*. Account will be taken of the context in which a course of conduct was undertaken, including the precise circumstances of the individual case, the characteristics of the particular *controlled function* and the *behaviour* to be expected in that function (see APER 3.1).
- 11.5.6** **G**_{/1}
- (1) The *FSA* will consider whether disciplinary action against an *approved person*, rather than action against the *firm*, would be appropriate, taking into account the responsibility of those exercising *significant influence functions* in the *firm* for the conduct of the *firm*. The *FSA* will also consider whether to take disciplinary action against an *approved person* for an act of misconduct, if he was knowingly concerned in a breach of a *rule* by the *firm*, or if he has failed to comply with one of the *Statements of Principle*.
 - (2) However, the *FSA* will not discipline *approved persons* on the basis of vicarious liability (that is, holding them responsible for the acts of others), provided appropriate delegation has taken place (see APER 4.6.13G and

APER 4.6.14G). In particular, disciplinary action will not be taken against an *approved person* performing a *significant influence function* simply because a regulatory failure has occurred in an area of business for which he is responsible. The *FSA* will consider that an *approved person* performing a *significant influence function* may have breached *Statements of Principle 5 to 7* (see *ENF 11.5.10G*) only if his conduct was below the standard which would be reasonable in all the circumstances (see also *APER 3.1.8G*).

- (3) An *approved person* will not be in breach if he has exercised due and reasonable care when assessing information, has reached a reasonable conclusion and has acted on it.

The FSA's statutory powers to take disciplinary action against approved persons

11.5.7 G_{/1} Section 66(1) of the *Act* provides that the *FSA* may take action against an *approved person* where it appears to the *FSA* that he is guilty of misconduct and if the *FSA* is satisfied in all the circumstances that it is appropriate to take action against him.

11.5.8 G_{/1} Section 66(2) of the *Act* provides that a *person* is guilty of misconduct if, while an *approved person*:

- (1) he has failed to comply with a *Statement of Principle* issued under section 64; or
- (2) he has been knowingly concerned in a contravention by the relevant *firm* of a requirement imposed on it by or under the *Act*.

11.5.9 G_{/1} In determining whether an *approved person's* conduct complies with a *Statement of Principle*, the *FSA* will take into account in particular the extent to which the *approved person* has complied with the *Code of Practice for Approved Persons*.

11.5.10 G_{/1} The *Statements of Principle* and the *Code of Practice for Approved Persons* are set out in *APER 2, 3 and 4*. They are divided into two sections:

- (1) *Statements of Principle 1 to 4* apply to the conduct of all *approved persons*; and
- (2) *Statements of Principle 5 to 7* apply only to the conduct of those *approved persons* performing a *significant influence function*.

11.5.11 G_{/1} In assessing whether it is appropriate to take disciplinary action against an *approved person*, the *FSA* may consider the following, amongst other factors:

- (1) whether action against the *firm* rather than the *approved person* would be a more appropriate regulatory response; and
- (2) whether disciplinary action would be a proportionate response to the nature and seriousness of the breach by the *approved person*.

11.5.12 G_{/1} Where disciplinary action is taken against an *approved person* the onus will be on the *FSA* to show that the *approved person* has been guilty of misconduct.

11.6 Discipline for breaches of Principles for Businesses

11.6.1  ^{/1} The *Principles* are set out in PRIN 2.1.1R. The *Principles* are a general statement of the fundamental obligations of *firms* under the *regulatory system*. The *Principles* derive their authority from the FSA's rule-making powers set out in section 138 of the *Act* (General rule-making power). A breach of a *Principle* will make a *firm* liable to disciplinary action.

11.6.2  ^{/1} In determining whether a *Principle* has been broken, it is necessary to look to the standard of conduct required by the *Principle* in question. Under each of the *Principles*, the onus will be on the FSA to show that a *firm* has been at fault in some way. This requirement will differ depending upon the *Principle*: for example, under *Principle 1*, the FSA must show that a *firm* has failed to conduct its business with integrity; under *Principle 2*, the FSA must prove that the *firm* has failed to *Act* with due skill, care and diligence in the conduct of its business.

11.6.3  ^{/1} In certain cases it may be appropriate to discipline a *firm* on the basis of the *Principles* alone. Examples include the following:

- (1) where there is no detailed *rule* which prohibits the *behaviour* in question, but the *behaviour* clearly contravenes a *Principle*;
- (2) where a *firm* has committed a number of breaches of detailed *rules* which individually may not merit disciplinary action, but the cumulative effect of which indicates the breach of a *Principle*.

11.7 The standard of reasonable care

- 11.7.1** G_{/1} In a number of circumstances the *regulatory system* requires a *firm* to take reasonable care in relation to particular *behaviour*. For example, *Principle 3* requires a *firm* to take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems, and SYSC 3.1.1R (taken with SYSC 3.1.2G) requires a *firm* to take reasonable care to establish and maintain such systems and controls as are appropriate to the nature, scale and complexity of its business.
- 11.7.2** G_{/1} In considering whether a *firm* has taken reasonable care, the *FSA* will consider all the circumstances of the case, and regards the following as particularly relevant:
- (1) what information the *firm* knew at the time of the *behaviour*, and what information they ought to have known in all the circumstances;
 - (2) what steps the *firm* took to comply with the *rule*, and what steps they ought to have taken in all the circumstances; and
 - (3) the standards of the *regulatory system* that applied at the time of the *behaviour*.
- 11.7.3** G_{/1} Similar considerations will apply to those in *ENF 11.7.2G* in considering whether an *approved person* took reasonable care or reasonable steps in relation to particular *behaviour*.

11.8 Action involving other regulatory authorities

- 11.8.1** G_{/1} Some types of breach committed by *firms* and *approved persons* may potentially result not only in disciplinary action by the *FSA*, but also action by other regulatory authorities. These authorities could include, for example, the *RIEs*, the *designated professional bodies*, and the *Society*, as well as overseas authorities (action concerning criminal offences and liaison with other prosecuting authorities is dealt with separately in *ENF* 15).
- 11.8.2** G_{/1} A *firm's* breach on a *prescribed market*, for example, could lead to the *FSA* considering whether the *firm* has engaged in *behaviour* which falls within the *market abuse* provisions of the *Act* (section 123); the same breach could also constitute a breach by the *firm* of a rule of the relevant *RIE*. The *FSA* would also consider whether to take disciplinary action against an *approved person* for an act of misconduct if he was knowingly concerned in a breach of a *rule* by the *firm*, or if he had failed to comply with one of the *Statements of Principle* (see *ENF* 11.5). *ENF* 14 contains further *guidance* on *market abuse* cases which may involve not only potential action by the *FSA*, but also potential action by other regulatory authorities.
- 11.8.3** G_{/1} The *FSA* is developing operating arrangements with each of the relevant *UK* authorities concerning cases where more than one regulatory authority may have an interest. These arrangements will ensure that the *FSA* and the other authorities approach the cases in a co-ordinated, effective and efficient manner, and that those who are the subject of investigations or potential disciplinary action are treated fairly. Similarly, the *FSA* is involved in contributing to a number of international initiatives to enhance effective enforcement action where overseas authorities also have an interest.
- 11.8.4** G_{/1}
- (1) The *FSA* will examine the circumstances of each case, and consider, in the light of the relevant investigation, disciplinary and enforcement powers, whether it is appropriate for the *FSA* or another authority to take action to address the breach.
 - (2) It may be appropriate for both the *FSA* and the other authority or authorities to be involved, and for both to take action, in a particular case arising from the same facts. For example, it may be appropriate for the *FSA* to take disciplinary action against an *approved person*, and for another authority to take separate action against the *firm*.
 - (3) In other cases, it may be appropriate for both the *FSA* and another authority to take action against a *firm* or an *approved person* in relation to the same conduct. For example, a breach of *RIE* rules may be so serious as to justify the *FSA* varying or cancelling the *firm's Part IV permission*, or withdrawing approval from *approved persons*, as well as action taken by the *RIE*.

11.8.5

G

/1

Similar considerations will apply where an overseas authority is involved. If the conduct constitutes a breach of the relevant *UK* provisions, as well as constituting a breach of the laws of the overseas jurisdiction, both the *FSA* and the overseas authority will have an interest in taking action to protect their regulatory standards.

11.9 Discipline for breaches of the money laundering rules

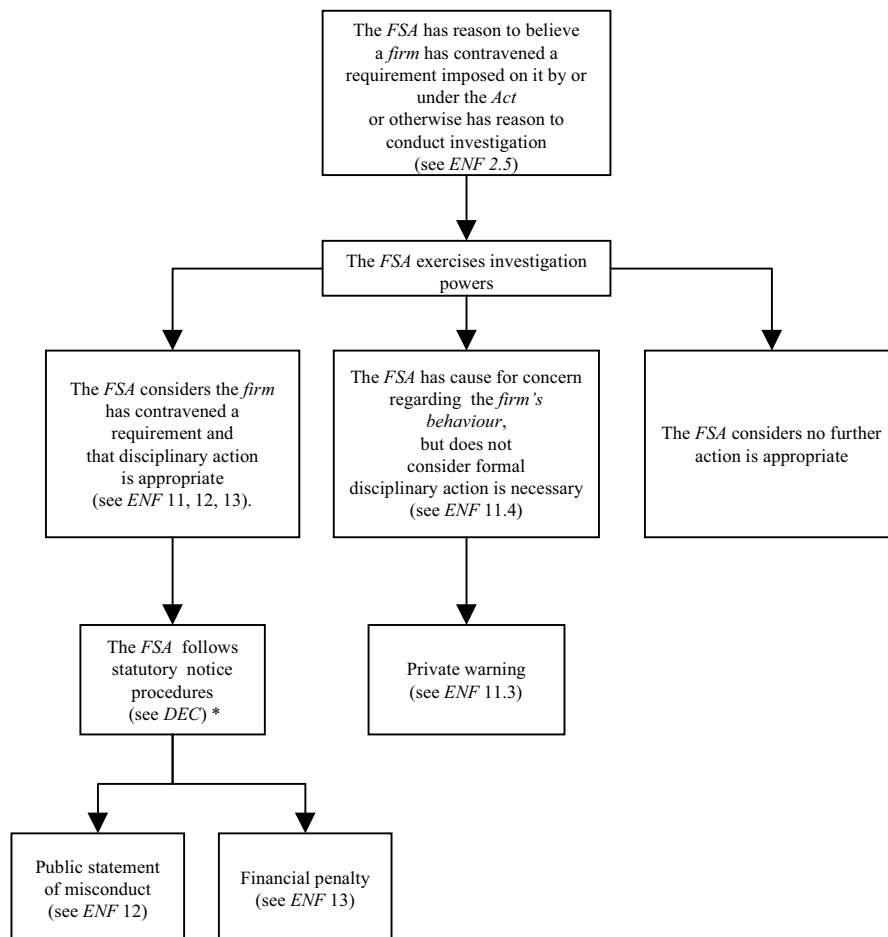

11.9.1

G
/1

The *FSA's money laundering rules* are set out in *ML 1 to 8*. The *FSA*, when considering whether to take disciplinary action in respect of a breach of those *rules*, will have regard to whether a *firm* has followed relevant provisions in the Joint Money Laundering Steering Group's Guidance Notes for the Financial Sector.

Disciplinary action - approved persons

* *Approved person may refer matter to Tribunal*

Chapter 12

Discipline: public censures and public statements

12.1 Application

12.1.1

G
/1

This chapter applies to any *firm* or *person* who may be the subject of public censure or a public statement. The *Act* empowers the *FSA* to issue a public censure or public statement in the following circumstances:

- (1) the *FSA* may issue a public censure on a *firm* under section 205 of the *Act* (Public censure) where it considers that the *firm* has contravened a requirement imposed on it by or under the *Act*;
- (2) the *FSA* may issue a public statement of misconduct on an *approved person* under section 66 of the *Act* (Disciplinary powers) where it considers that he is guilty of misconduct; misconduct is defined in the *Act* as failure to comply with a *Statement of Principle* issued by the *FSA* under section 64 of the *Act* (Conduct: statements and codes), or being knowingly concerned in a contravention by a *firm* of a requirement imposed on that *firm* by or under section 66 of the *Act*;
- (3) the *FSA* may issue a public statement under section 123 of the *Act* (Power to impose penalties in cases of *market abuse*) where a *person* has engaged in *market abuse*; this is considered separately in *ENF 14* (Sanctions for market abuse);
- (4) the *FSA* may issue a public statement under section 91 of the *Act* (Penalties for breach of listing rules) where there has been a contravention of the *listing rules* (the powers relating to the *UKLA* are dealt with in the *listing rules* and related *guidance*).

12.1.2

G
/1

Where the *FSA* proposes to issue a public censure or public statement under the sections of the *Act* described in *ENF 12.1.1G*, the *firm* or *approved person* in question will be given a *warning notice* setting out the terms of the statement or censure the *FSA* proposes to issue, as required by sections 207 (Proposal to take disciplinary measures), 67 (Disciplinary measures: procedure and right to refer to Tribunal), 126 (Warning notices) and 92 (Procedure). Further details of the procedure that the *FSA* will follow in these circumstances are set out in *DEC*.

12.2 Purpose

12.2.1

G

/1

The purpose of this chapter is to describe some of the factors which may be relevant to the *FSA* when it determines whether to issue a public censure or public statement. Public censures and public statements are among a variety of tools the *FSA* may use to help it achieve its *regulatory objectives*. Where the *FSA* considers that formal disciplinary action is appropriate, public censures and public statements may, in some cases, be an alternative to financial penalties.

12.2.2

G

/1

The *FSA* regards the decision to issue a public censure or public statement as a serious sanction. The *FSA* is aware of the effect such a statement may have on the reputation or business of a *firm* or *approved person*. However, where it is not appropriate to impose a financial penalty, the *FSA* considers that a public censure or public statement may have particular value in enabling the *FSA* to pursue its *regulatory objectives* by highlighting the requirements and standards of conduct expected of *firms* and *approved persons*, and demonstrating that those standards are being effectively enforced, so helping to maintain confidence in the *financial system*. In addition, public censures and public statements promote public awareness of the standards of *behaviour* expected of *firms* and *approved persons*. Increased public awareness also contributes towards greater *consumer* protection.

12.3 Factors in determining whether to issue a public censure or public statement

12.3.1 **G**_{/1} Where a breach of the *Act* or of the *rules* has occurred, the *FSA* may consider that formal disciplinary action is not warranted. For example, the proactive supervision and monitoring of *firms* is central to promoting compliance, and some instances of non-compliance may be addressed satisfactorily by a *firm's* supervisors, without the need for formal disciplinary action. Alternatively, where the *FSA* has concerns regarding the *behaviour* of a *firm* or *approved person*, but has made no determination that a breach has occurred, it may issue a private warning.

12.3.2 **G**_{/1} In more serious cases, however, the *FSA* will institute formal disciplinary action. The main criteria that the *FSA* may take into account in determining whether to take disciplinary action are listed in *ENF* 11.4 (Criteria for determining whether to take disciplinary action).

12.3.3 **G**_{/1} The criteria for determining whether it is appropriate to issue a public censure or public statement rather than impose a financial penalty are similar to those for determining the level of financial penalty listed in *ENF* 13 (Discipline of firms and approved persons: financial penalties). The starting point is that the *FSA* will consider all the relevant circumstances of the case. Some particular considerations may be relevant when the *FSA* determines whether to impose a public censure or public statement rather than a financial penalty. The following list is not exhaustive (not all of these factors may be relevant in a particular case, and there may be other factors that are relevant):

- (1) if the *firm* or *approved person* has made a profit or avoided a loss as a result of the breach or misconduct, this may be a factor in favour of a financial penalty, on the basis that a *firm* or *approved person* should not be permitted to benefit from its breach or misconduct;
- (2) if the breach or misconduct is more serious in nature or degree, this may be a factor in favour of a financial penalty, on the basis that the sanction should reflect the seriousness of the breach or misconduct; other things being equal, the more serious the breach or misconduct, the more likely the *FSA* is to impose a financial penalty;
- (3) if the *firm* or *approved person* has admitted the breach or misconduct and provides full and immediate co-operation to the *FSA*, and takes steps to ensure that *consumers* are fully compensated for any losses arising from the contravention, this may be a factor in favour of a public censure or statement of misconduct, rather than a financial penalty, depending upon the nature and seriousness of the breach or misconduct;
- (4) if the *firm* or *approved person* has a poor disciplinary record or compliance history (for example, where the *FSA* has previously brought disciplinary action resulting in adverse findings in relation to the same or similar *behaviour*), this

may be a factor in favour of a financial penalty, on the basis that it may be particularly important to deter future cases;

- (5) the *FSA's* approach in similar previous cases: the *FSA* will seek to achieve a consistent approach to its decisions on whether to impose a penalty or issue a public statement; and
- (6) if the *firm* or *approved person* has inadequate means (excluding any manipulation or attempted manipulation of their assets) to pay the level of financial penalty which their breach or misconduct would otherwise attract, this may be a factor in favour of a lower level of penalty or a public statement. However, it would only be in an exceptional case that the *FSA* would be prepared to agree to impose a public statement rather than a financial penalty, if a financial penalty would otherwise be the appropriate sanction. Examples of such exceptional cases could include:
 - (a) verifiable evidence that an *approved person* would suffer serious financial hardship if the *FSA* imposed a financial penalty; and
 - (b) verifiable evidence that the *firm* would be unable to meet other regulatory requirements, particularly financial resource requirements, if the *FSA* imposed a financial penalty at an appropriate level.

Chapter 13

Discipline: Financial penalties

13.1 Application and purpose

Application

13.1.1

G
/1

This chapter applies to any *person* on whom a financial penalty may be imposed. The *Act* empowers the *FSA* to impose a financial penalty in the following circumstances:

- (1) on a *firm*, where the *FSA* considers that the *firm* has contravened a requirement imposed on it by or under section 206 of the *Act* (Financial penalties);
- (2) on an *approved person*, where the *FSA* considers that he is guilty of misconduct; this is defined in the *Act* as failure to comply with a *Statement of Principle* issued by the *FSA* under section 64 (Conduct: statements and codes), or being knowingly concerned in a contravention by the relevant *firm* of a requirement imposed on that *firm* by or under section 66 of the *Act* (Disciplinary powers);
- (3) on any *person*, where the *FSA* is satisfied that the *person* is or has engaged in *market abuse* or, by taking or refraining from taking any action, has *required or encouraged* another *person* to engage in *market abuse*; the power to impose penalties for *market abuse* under section 123 of the *Act* is considered separately in *ENF 14*;
- (4) on an *issuer of listed securities* or an applicant for *listing*, where there has been a contravention of the *listing rules* (or on a *director* of an *issuer* or applicant who at the material time was knowingly concerned in the contravention) (section 91 of the *Act* (Penalties for breach of listing rules)). The powers relating to the *UKLA* are dealt with in the *listing rules* and related *guidance*.

Purpose

13.1.2

G
/1

Financial penalties are one of a variety of regulatory tools the *FSA* may employ to help it to achieve its *regulatory objectives*. The principal purpose of financial penalties is to promote high standards of regulatory conduct by deterring *firms* and *approved persons* who have breached regulatory requirements from committing further contraventions, helping to deter other *firms* and *approved persons* from committing contraventions, and demonstrating generally to *firms* and *approved persons* the benefits of compliant behaviour.

13.2 Introduction

13.2.1

G
/1

Sections 69 and 210 of the *Act* require the *FSA* to issue statements of policy about the imposition of financial penalties on *firms* and *approved persons*. The material in this chapter constitutes the *FSA*'s statements of policy and *guidance* under those provisions. The *FSA* may at any time alter or replace these statements of policy after consultation.

13.2.2

G
/1

The *FSA* is required to have regard to these statements of policy in exercising, or deciding whether to exercise, its powers under sections 66 (Disciplinary powers) and 206 (Financial penalties) of the *Act*.

13.3 Factors relevant to determining the appropriate level of financial penalty

13.3.1

G
/1

- (1) The *FSA* will consider all the relevant circumstances of a case when it determines the level of financial penalty (if any) that is appropriate and in proportion to the contravention in question.
- (2) With the exception of contraventions involving the submission of returns no more than 28 *business days* late (see *ENF* 13.5), the *FSA* does not propose to adopt a tariff of penalties for different kinds of contravention. This is because there will be very few other cases in which all the circumstances of the case are essentially the same, and the *FSA* considers that, in general, the use of a tariff for particular kinds of contravention would inhibit the flexible and proportionate policy which it intends to adopt in this area.

13.3.2

G
/1

- (1) Section 69 of the *Act* (Statement of policy) requires that the *FSA*'s policy in determining the amount of a penalty in relation to *approved persons* must include having regard to:
 - (a) the seriousness of the misconduct in question in relation to the nature of the principle or requirement concerned;
 - (b) the extent to which that misconduct was deliberate or reckless;
 - (c) whether the person on whom the penalty is to be imposed is an individual.
- (2) Section 210(2) of the *Act* (Statements of policy) contains similar requirements for the *FSA*'s policy in determining the amount of a penalty in relation to contraventions by *firms*.

13.3.3

G
/1

The factors which may be relevant when the *FSA* determines the amount of a financial penalty for a *firm* or *approved person* include the following.

- (1) The seriousness of the misconduct or contravention.

In relation to the statutory requirement to have regard to the seriousness of the misconduct or contravention, the *FSA* recognises the need for a financial penalty to be proportionate to the nature and seriousness of the misconduct or contravention in question. The following may be relevant:

- (a) in the case of an *approved person*, the *FSA* must have regard to the seriousness of the misconduct in relation to the nature of the *Statement of Principle* or requirement concerned. Similarly, in the case of a *firm*, the *FSA* must have regard to the seriousness of the contravention in relation to the nature of the requirement contravened.

- (b) the duration and frequency of the misconduct or contravention (including, in relation to a *firm*, when the contravention was identified by *persons* exercising *significant influence functions* at the *firm*);
 - (c) whether the misconduct or contravention revealed serious or systemic weaknesses of the management systems or *internal controls* relating to all or part of a *firm's* business;
 - (d) the impact of the misconduct or contravention on the orderliness of financial markets, including whether public confidence in those markets has been damaged;
 - (e) the loss or risk of loss caused to *consumers* or other market users. If a contravention has caused loss to another *firm*, that *firm* may be able to take its own action against the *firm* which has committed the contravention; however, the *FSA* generally expects *firms* to comply with regulatory requirements, regardless of the nature of the counterparty; for example, persistent departures from *MAR 3* (Inter-professional conduct) may have implications for the *FSA's* assessment of a *firm's* continued fitness and propriety.
- (2) The extent to which the contravention or misconduct was deliberate or reckless.

In determining whether a contravention or misconduct was deliberate, the *FSA* may have regard to whether the *firm's* or *approved person's behaviour* was intentional, in that they intended or foresaw the consequences of their actions. The matters to which the *FSA* may have regard in determining whether a contravention was reckless include, but are not limited to, the following:

- (a) whether the *firm* or *approved person* has failed to comply with the *firm's* procedures;
- (b) whether the *firm* or *approved person* has taken decisions beyond its or his field of competence;
- (c) whether the *firm* or *approved person* has given no apparent consideration to the consequences of the *behaviour* that constitutes the contravention.

If the *FSA* decides that *behaviour* was deliberate or reckless, it may be more likely to impose a higher penalty on a *firm* or *approved person* than would otherwise be the case.

- (3) Whether the *person* on whom the penalty is to be imposed is an individual, and the size, financial resources and other circumstances of the *firm* or individual.

This will include having regard to whether the *person* is an individual, and to the size, financial resources and other circumstances of the *firm* or *approved person*. The *FSA* may take into account whether there is verifiable evidence of serious financial hardship or financial difficulties if the *firm* or *approved person* were to pay the level of penalty associated with the particular contravention or misconduct. The *FSA* regards these factors as matters to be taken into account in determining the level of a penalty, but not to the extent that there is a direct correlation between those factors and the level of penalty. The size and financial resources of a *firm* or *approved person* may be a relevant consideration, because the purpose of a penalty is not to render a *firm* or *approved person* insolvent or to threaten its solvency. Where this would be a material consideration, the *FSA* will consider, having regard to all other

factors, whether a lower penalty would be appropriate; this is most likely to be relevant to smaller *firms* or *groups of firms* or *approved persons* with lower financial resources; but if a *firm* or individual reduces its solvency with the purpose of reducing its ability to pay a financial penalty, for example by transferring assets to third parties, the *FSA* will take account of those assets when determining the amount of a penalty. The size of the *firm* may also be a relevant consideration for the following reasons:

- (a) the degree of seriousness of a contravention may be linked to the size of the *firm*. For example, a systemic failure in a large *firm* could damage or threaten to damage a much larger number of *consumers* than would be the case with a small *firm*: contraventions in *firms* with a high volume of business over a protracted period may therefore be more serious than contraventions over similar periods in *firms* with a smaller volume of business; and
 - (b) the size of a *firm* and its resources may also be relevant in relation to mitigation, in particular what steps the *firm* took after the contravention had been identified; the *FSA* will take into account what it is reasonable to expect from the *firm* in relation to its size and resources, and factors such as what proportion of a *firm's* resources were used to resolve a problem.
- (4) The amount of profits accrued or loss avoided.

The *FSA* may have regard to the amount of profits accrued or loss avoided as a result of the contravention or misconduct, for example:

- (a) the *FSA* will propose a penalty which is consistent with the principle that a *firm* or *approved person* should not benefit from the contravention or misconduct; and
 - (b) the penalty should also act as an incentive to the *firm* or *approved person* (and others) to comply with regulatory standards.
- (5) Conduct following the contravention.

The *FSA* may take into account the conduct of the *firm* or *approved person* in bringing (or failing to bring) quickly, effectively and completely the contravention or misconduct to the *FSA's* attention and:

- (a) the degree of cooperation the *firm* or *approved person* showed during the investigation of the contravention or misconduct (where a *firm* or *approved person* has fully cooperated with the *FSA's* investigation, this will be a factor tending to reduce the level of financial penalty);
 - (b) any remedial steps taken since the contravention or misconduct was identified, including identifying whether *consumers* suffered loss, compensating them, taking disciplinary action against staff involved (if appropriate), and taking steps to ensure that similar problems cannot arise in the future.
- (6) Disciplinary record and compliance history.

The previous disciplinary record and general compliance history of the *firm* or *approved person* may be taken into account. This will include whether the *FSA* (or any *previous regulator*) has taken any previous formal disciplinary action, resulting in adverse findings, against the *firm* or *approved person*, or whether the *FSA* has previously required the *firm* to take remedial action by

means of a variation of *Part IV permission* (see *ENF 3*), or has previously requested the *firm* to take remedial action, and the extent to which that action has been taken. For example, the disciplinary record of a *firm* or *approved person* could lead to the *FSA* increasing the penalty, where the *firm* or *approved person* has committed similar contraventions or misconduct in the past. In assessing the relevance of a *firm's* or *approved person's* disciplinary record and compliance history, the age of a particular matter will be taken into account, although a long-standing matter may still be relevant. However, in undertaking this assessment, private warnings will not be taken into account.

(7) Previous action taken by the *FSA*.

The action that the *FSA* has taken previously in relation to similar *behaviour* by other *firms* or *approved persons* may be taken into account. The *FSA* will seek to ensure consistency when it determines the appropriate level of penalty. If it has taken disciplinary action previously in relation to a similar contravention or misconduct, this will clearly be a relevant factor. However, as stated at *ENF 13.3.1G*, with the exception of the specific circumstances described at *ENF 13.5*, the *FSA* does not intend to adopt a tariff system, and there may be other relevant factors which could increase or decrease the seriousness of the contravention or misconduct.

(8) Action taken by other regulatory authorities.

This could include for example:

- (a) action taken or to be taken against a *firm* or *approved person* by other regulatory authorities which may be relevant where it relates to the contravention or misconduct in question;
- (b) action taken by any *previous regulator* regarding the general level of penalties.

13.3.4

G
/1

The list of criteria in *ENF 13.3.3G* above is not exhaustive, and all the relevant circumstances of the case will be taken into consideration.

13.3.5

G
/1

Part III, Schedule 1 to the *Act* (Penalties and fees) specifically provides that the *FSA* may not, in determining its policy with respect to the amount of penalties, take account of expenses which it incurs, or expects to incur, in discharging its functions.

13.4 Decision making procedure and publication

13.4.1

G
/1

The *Act* requires the *FSA* to issue a *warning notice*, *decision notice* and *final notice* before imposing a financial penalty. More information on the procedure the *FSA* will follow in these circumstances is contained in *DEC*.

13.4.2

G
/1

The *FSA* will consider the circumstances of each case, but ordinarily will publicise the financial penalty by issuing a press release, giving details of the *behaviour* and the penalty imposed. However, the *Act* provides (section 391(6) (*Consultation*)) that the *FSA* may not publish information in these circumstances where it would be unfair to the *person* on whom the financial penalty is imposed, or prejudicial to the interests of *consumers*.

13.5 Financial penalties for late submission of reports

13.5.1

G
/1

This section sets out the *FSA*'s policy and procedures in relation to financial penalties for late submission of reports. It applies specifically to the various types of reports and other *documents* (references in *ENF* 13.5 to 'reports' include these other *documents*), including annual *controllers*' reports, annual *close links* reports, compliance reports, financial reports, accounts and balance sheets, *actuaries*' and auditors' reports, and certificates and statements that must be submitted to the *FSA* by specified dates in accordance with:

- (1) the *rules* set out in *SUP* 16 (Reporting requirements);
- (2) *IPRU(INS)* 9.37(4)R, 9.38R and 9.6(1)R (Financial reporting);
- (3) *IPRU(FSOC)* 3.1(8)R, 3.2(5)R (Management and control), 5.1(2)R and 5.2(2)R (Prudential reporting);
- (4) *DISP* 1.1.8R, 1.5.4 to 1.5.7R, (Complaint handling procedures for firms) 5.1.7R and 5.5.1R [(Draft Financial Ombudsman Service Funding rules)]; and
- (5) *LLD* 3.3.2R (The Central Fund) and 4.3.2R (Capacity transfer market) and the *rules* set out in *LLD* 15.2.1R and 15.10.2R (Reporting by the *Society*).

13.5.2

G
/1

The *FSA* attaches considerable importance to the timely submission by *firms* of the reports referred to in *ENF* 13.5.1G. This is because the information that they contain is essential to the *FSA*'s assessment of whether a *firm* is complying with the requirements and standards of the *regulatory system* and to the *FSA*'s understanding of that *firm*'s business.

13.5.3

G
/1

- (1) In general, the *FSA*'s approach to disciplinary action arising from the late submission of a report will depend upon the length of time after the due date that the report in question is submitted. Where the period of delay is no more than 28 *business days*, the *FSA* considers that in the majority of cases it will be appropriate to limit the sanction imposed on the *firm* concerned to a financial penalty fixed by reference to the indicative scale of penalties at *ENF* 13 Ann 1G.
- (2) There may, however, be exceptional circumstances in which the *FSA* considers that it is appropriate not to seek a penalty, or to impose a lower penalty than the one indicated by the scale. It should be noted that an administrative difficulty such as pressure of work does not, in itself, constitute an exceptional circumstance for this purpose.
- (3) Equally, the *FSA* may impose a higher penalty than the one indicated by the scale at *ENF* 13 Ann 1G having regard to the seriousness of the contravention and the extent to which the contravention was deliberate or reckless. This may include, for example, a case where a *firm* repeatedly fails to submit its reports

on time or where there is information that suggests that such a delay was deliberate.

- (4) The FSA will also have regard to the submission frequency of the late report when assessing the seriousness of the contravention. For example, a short delay in submitting a weekly or monthly report can have serious implications for the supervision of the *firm* in question. Such a delay may therefore be subject to a higher penalty than the one suggested by the indicative scale.

13.5.4

G
/1

Reference to an indicative scale of penalties for breaches of this nature represents an exception to the FSA's general policy described in ENF 13.3.1G. The FSA considers that it is appropriate to treat this type of breach differently from other regulatory breaches on the basis that the nature of the facts establishing the breach is likely to be similar in each case and that the scale will ensure consistency in the treatment of the *firms* in question.

13.5.5

G
/1

- (1) Where a report is submitted more than 28 *business days* after the due date, and there are no exceptional circumstances justifying the failure to submit on time, the financial penalty imposed is likely to exceed the amount indicated by the scale at ENF 13 Ann 1G for 21 to 28 *business days* delay. The FSA will determine the precise level of the financial penalty to be imposed in accordance with the approach discussed in ENF 13.3.3G.
- (2) In addition, in appropriate cases, the FSA may bring disciplinary action against the *approved person or persons* within the *firm's* management who are ultimately responsible for ensuring that the *firm's* reports are completed and returned to the FSA (see ENF 11.5 (Action against *approved persons*)).

13.5.6

G
/1

When it decides whether to impose a financial penalty for the late submission of a report (whether the period of delay is more than or less than 28 *business days*), the FSA will use the decision making procedure set out in DEC.

13.5.7

G
/1

- (1) Once a *final notice* has been issued relating to a financial penalty and any other relevant sanction for a late report, the FSA will consider whether it is unfair to the *firm* or prejudicial to the interests of *consumers* to publish information relating to the decision. The FSA anticipates that in most cases where reports have been submitted late, no such unfairness or prejudice will exist. If so, it will enter details of the decision in the *FSA Register*.
- (2) The FSA may also publicise the sanctions on a wider basis where the contravention is considered to be particularly serious. Examples of situations that may result in wider publicity include where the period of delay exceeds 28 *business days* and/or where the *firm* in question has previously failed to submit its reports on time to the FSA or to any *previous regulator*.

13.6 Breaches of prudential requirements and financial penalties

13.6.1

G
/1

Where a *firm* has breached prudential requirements (for example, *rules* relating to the adequacy of financial resources), the *FSA* will consider all the relevant circumstances of a case (including the factors listed in *ENF* 13.3.3G) in determining whether to impose a financial penalty.

13.6.2

G
/1

In considering whether to impose a financial penalty on a mutual (such as a *building society*), the *FSA* will take into account the impact that a penalty may have on a *firm's customers*, as the *FSA* would with any *firm*. However, the *FSA* may decide to impose a financial penalty on a mutual, taking into account all the circumstances of the case (including the factors listed in *ENF* 13.3.3G), even though this may have a direct impact on that mutual's *customers*. This reflects the fact that a significant proportion of a mutual's *customers* are shareholder-members; to that extent, their position involves an assumption of risk that is not assumed by *customers* of a *firm* incorporated as a *company*. Whether a *firm* is a mutual will not, by itself, increase or decrease the level of a financial penalty.

ENF 13 ANN 1G: Indicative scale of financial penalties for returns no more than 28 days late (see ENF 13.5)

1 Table Indicative scale of financial penalties for returns no more than 28 days late

Number of working days late	Annual fees payable by firm				
	<10K	<20K	<50K	<100K	>100K
22–28	400	800	2000	4000	6000
15–21	300	600	1500	3000	4500
8–14	200	400	1000	2000	3000
1–7	100	200	500	1000	1500

Chapter 14.

Sanctions for market abuse

14.1 Application and purpose

Application

- 14.1.1** G_{/1} This chapter applies to any *person*, whether regulated or not, who may be the subject of a financial penalty or public statement on the basis that the *FSA* suspects the *person*:
- (1) is or has engaged in *market abuse*; or
 - (2) by taking or refraining from taking any action has *required or encouraged* another *person* or *persons* to engage in *behaviour* which, had he engaged in it himself, would amount to *market abuse*.

- 14.1.2** G_{/1} In this chapter, the expression '*market abuse* cases' includes cases involving *market abuse* and cases involving *requiring or encouraging*.

Purpose

- 14.1.3** G_{/1} In enforcing the *market abuse regime*, the *FSA*'s priority will be to protect *prescribed markets* from any damage to their efficiency caused by manipulation of the market and misuse of information. The *FSA*'s effective and appropriate use of its powers to deal with *market abuse* cases will help ensure high standards of regulatory conduct and maintain confidence in the *UK financial system*, by demonstrating that high standards of market conduct are appropriately enforced in the *UK* financial markets. The public enforcement of these standards also furthers the *FSA*'s public awareness *regulatory objective*. In addition, the enforcement of the *market abuse regime* will help the *FSA* work towards its *regulatory objective* of protecting *consumers*, as it will help to deter future *market abuse* by market participants, and help to reduce *financial crime*.

- 14.1.4** G_{/1} However, the *FSA* is also aware that the possible or actual use of its enforcement powers may have an adverse impact on the market, for example, by causing public uncertainty or affecting the timing or outcome of a *takeover bid*, and will take this into account.

14.2 Introduction

14.2.1

G

/1

Section 124 of the *Act* (Statement of policy) states that the *FSA* must prepare and issue a statement of its policy on:

- (1) the imposition of penalties under section 123 (Power to impose penalties in cases of market abuse);
- (2) the amount of penalties under that section; and
- (3) the circumstances in which the *FSA* is to be expected to regard a *person* as:
 - (a) having a reasonable belief that his *behaviour* did not amount to *market abuse*; or
 - (b) having taken reasonable precautions and exercised due diligence to avoid engaging in *market abuse*.

This chapter is the *FSA*'s statement of policy under section 124 of the *Act*. However, the *FSA* may at any time change or replace this statement of policy after consultation.

14.2.2

G

/1

The *Act* gives the *FSA* criminal prosecution powers in relation to *insider dealing* and *misleading statements and practices offences*. The *FSA*'s use of these powers is considered separately in *ENF 15* (Prosecution of criminal offences). The *Act* also gives the *FSA* a power to impose a financial penalty, or, in certain circumstances, to ask the court to consider imposing a financial penalty on a *person* who has engaged in *market abuse* or *required or encouraged* (see *ENF 14.3.1G*). Where the *FSA* is entitled to impose a financial penalty, it may publish a statement that a *person* has engaged in *market abuse* instead. These powers and the *FSA*'s policy on their use are set out in this chapter. *ENF 14 Ann 1G* contains a diagram summarising the steps relating to action for financial penalties or public statements in *market abuse* cases. The *FSA*'s *Code of Market Conduct* (see *MAR 1*), issued by the *FSA* under section 119 of the *Act* (The code), contains those provisions which the *FSA* considers will give appropriate *guidance* to those deciding whether or not *behaviour* amounts to *market abuse* or *requiring or encouraging*.

14.2.3

G

/1

In addition, the *Act* gives the *FSA* power to obtain *injunctions* and restitution in relation to *market abuse* cases. These powers are described in *ENF 6* (Injunctions) and *ENF 9* (Restitution and redress) respectively.

14.3 Financial penalties and public statements in market abuse cases

Financial penalties

- 14.3.1** **G**_{/1} Under section 123(1)(a) and section 123(1)(b) of the *Act* (Power to impose penalties in cases of market abuse), the *FSA* may impose a financial penalty where a *person* (A):
- (1) is or has engaged in *market abuse*; or
 - (2) by taking or refraining from taking any action has *required or encouraged* another *person* or *persons* to engage in *behaviour* which, had it been engaged in by A, would amount to *market abuse*.
- See *ENF* 14.5.1G for the factors the *FSA* may take into account when determining whether either of these two conditions is met.
- 14.3.2** **G**_{/1} Section 123(2) of the *Act* states that the *FSA* may not impose a penalty on a *person* if, having considered any representations made to it in response to a *warning notice*, there are reasonable grounds for it to be satisfied that:
- (1) the *person* believed, on reasonable grounds, that his *behaviour* did not fall within section 123(1)(a) or section 123(1)(b) of the *Act*; or
 - (2) he took all reasonable precautions and exercised all due diligence to avoid behaving in a way which fell within section 123(1)(a) or section 123(1)(b) of the *Act*.
- 14.3.3** **G**_{/1} The *FSA* can apply to the court under section 381 of the *Act* (Injunctions in cases of market abuse) for an *injunction* restraining *market abuse* and under section 383 of the *Act* (Restitution orders in cases of market abuse) for an order for restitution in *market abuse* cases. In these cases, under section 129(1) of the *Act* (Power of court to impose a penalty in cases of market abuse), it may ask the court to consider whether the circumstances are such that a penalty should be imposed on the *person* concerned. In deciding whether to ask the court to impose a financial penalty, the *FSA* may take into account, amongst other matters, the factors set out in *ENF* 14.4.2G and *ENF* 14.6.2G(1) to (6). The *FSA*'s power to apply to court for *injunctions* and orders for restitution in *market abuse* cases are described in *ENF* 6 (Injunctions) and *ENF* 9 (Restitution and redress) respectively.

Public statements

14.3.4

G

/1

Section 123(3) of the *Act* states that if the *FSA* is entitled to impose a penalty on a *person* under section 123(1) (see *ENF* 14.3.1G and *ENF* 14.3.2G) it may, instead of imposing a penalty on him, publish a statement to the effect that he has engaged in *market abuse*.

14.4 Factors relevant to determining whether to take action in market abuse cases

14.4.1

G
/1

Not all cases involving *market abuse* or *requiring or encouraging* will warrant enforcement action. The *FSA* will consider all the relevant circumstances of the case when deciding whether to seek to impose a financial penalty or, where it is entitled to impose a financial penalty, whether a public statement would be more appropriate.

14.4.2

G
/1

When it decides whether to take action for *behaviour* appearing to the *FSA* to amount to *market abuse* or *requiring or encouraging*, the *FSA* may take into account a number of factors. The following list is not exhaustive: not all of these factors may be relevant in a particular case, and there may be other factors that are relevant.

- (1) The nature and seriousness of the suspected *behaviour*, including:
 - (a) the nature and seriousness of any breach of the *Code of Market Conduct*;
 - (b) whether the *behaviour* was deliberate or reckless;
 - (c) the duration and frequency of the *behaviour*;
 - (d) the impact of the *behaviour* on *prescribed markets*, including whether public confidence in those markets has been damaged; and
 - (e) the amount of any benefit gained or loss avoided as a result of the *behaviour*; and
 - (f) the loss or risk of loss caused to *consumers* or other market users.
- (2) The conduct of the *person* concerned after the *behaviour* was identified, including the following.
 - (a) How quickly, effectively and completely the *person* brought the *behaviour* to the attention of the *FSA* or another relevant regulatory authority.
 - (b) The degree of cooperation the *person* showed during the *FSA*'s investigation of the *behaviour* of concern or during those of any other regulatory authority (for example, the *Takeover Panel* or an *RIE*) which is allowed to share information obtained during an investigation with the *FSA*. In this context, *persons* are reminded that they may have a duty to co-operate with other regulatory authorities. For example, *MAR* 4.3.4R requires *firms* to whom that *rule* applies to assist the *Takeover Panel* in certain circumstances. However, a *person* will not necessarily avoid action for *market abuse* or *requiring or encouraging* merely by fulfilling a duty to co-operate.

- (c) Any remedial steps that the *person* has taken to address the *behaviour*, whether on his own initiative or in meeting the requirement of another regulatory authority, and how promptly that *person* has taken those steps. This might include identifying those who have suffered loss and compensating them, taking disciplinary action against staff (where appropriate), and taking action designed to ensure that similar problems do not arise in the future. It might also include (for example, in the context of a *takeover bid*) any steps taken to correct a misleading statement or misleading impression or distortion of the market. However, a *person* will not necessarily avoid a penalty merely by fulfilling a duty to take remedial action.
 - (d) Whether the *person* concerned has complied with any requirements or rulings of another regulatory authority relating to his *behaviour* (for example, where relevant, those of the *Takeover Panel* or an *RIE*).
 - (e) The nature and extent of any false or inaccurate information given by the *person* and whether the information appears to have been given in an attempt knowingly to mislead the *FSA*.
- (3) The degree of sophistication of the users of the market in question, the size and liquidity of the market, and the susceptibility of the market to *market abuse*. For example, where the users of a market are generally not market professionals, and they have suffered loss as a result of the *behaviour* and that loss has not been promptly or adequately compensated for by the *person* concerned, this may be a factor in favour of the imposition of a penalty (this does not, however, mean that the *FSA* will not take action to impose financial penalties on *persons* whose *behaviour* falls within the *market abuse* provisions where only market professionals have suffered).
- (4) Action taken by other regulatory authorities. Where other regulatory authorities propose to take action in respect of the *behaviour* which is under consideration by the *FSA*, the *FSA* will consider whether their action would be adequate to address the *FSA*'s concerns, or whether it would be appropriate for the *FSA* to take its own action. For example, the *FSA* has powers to impose unlimited financial penalties, whereas an *RIE*'s powers may be more limited in a particular case. Where the *behaviour* of the *person* concerned is also, in the opinion of the *Takeover Panel*, a breach of that *person*'s responsibilities under the *Takeover Code*, the *FSA* would not expect to use its powers under the *market abuse regime* against that *person*, except in the circumstances described in *ENF 14.9.6G*. If the *FSA* considers that using its powers may be appropriate in those circumstances, it will not take action during the bid except in the circumstances described in *ENF 14.9.7G*.
- (5) Action taken by the *FSA* in previous similar cases. The *FSA* will take account of action it has taken previously in *market abuse* cases where the *behaviour* has been the same or similar.
- (6) The impact, having regard to the nature of the *behaviour*, that any financial penalty or public statement may have on the financial markets or on the interests of *consumers*:
- (a) a penalty may show that high standards of market conduct are being enforced in the financial markets, and may bolster market confidence;
 - (b) a penalty may protect the interests of *consumers* by deterring future *market abuse* and improving standards of conduct in a market;

- (c) in the context of a *takeover bid*, the *FSA* may consider that the impact of the use of its powers is likely to have an adverse effect on the timing or outcome of that bid, and therefore it would not be in the interests of financial markets or *consumers* to take action for *market abuse* during the *takeover bid*. If the *FSA* considers that the proposed use of its powers may have that effect, it will consult the *Takeover Panel* and give due weight to its views.
- (7) The likelihood that the same type of *behaviour* (whether on the part of the *person* concerned or others) will happen again if no action is taken.
- (8) The disciplinary record and general compliance history of the *person*, including:
 - (a) whether the *FSA* has taken any previous action against the *person* for *market abuse* or *requiring or encouraging* which resulted in adverse findings;
 - (b) whether the conduct of the *person* in relation to the markets has caused concern to another regulatory authority or been the subject of a warning or other action by a regulatory authority;
 - (c) whether the *person* has previously given any undertakings to the *FSA* not to engage in particular *behaviour*; and
 - (d) the general compliance history of the *person*, such as previous private warnings (see *ENF* 11.3).

14.5 Factors determining whether the FSA may impose a financial penalty in market abuse cases

14.5.1

G
/1

The factors which the FSA may take into account when deciding whether either of the two conditions in ENF 14.3.2G is met, include, but are not limited to:

- (1) in relation to whether the *person* concerned reasonably believed that his *behaviour* did not amount to *market abuse* or *requiring or encouraging*
 - (a) whether, and if so to what extent, the *person* concerned took reasonable precautions to avoid engaging in *market abuse* or *requiring or encouraging* (see (2));
 - (b) whether, and if so to what extent, the *behaviour* in question was or was not analogous to *behaviour* described in the *Code of Market Conduct* (see MAR 1) as amounting or not amounting to *market abuse* or *requiring or encouraging*;
 - (c) whether the FSA has issued any *guidance* on the *behaviour* in question and if so, the extent to which the *person* sought to follow that *guidance* (see the Reader's Guide part of the *Handbook* regarding the status of *guidance*);
 - (d) whether, and if so to what extent, the *behaviour* complied with the rules of any relevant *prescribed market* or any other relevant market or other regulatory requirements (including the *Takeover Code* or the SARs) or any relevant codes of conduct or best practice;
 - (e) the level of knowledge, skill and experience to be expected of the *person* concerned; and
 - (f) whether, and if so to what extent, the *person* can demonstrate that the *behaviour* was engaged in for a legitimate purpose and in a proper way;
- (2) in relation to whether the *person* concerned took all reasonable precautions and exercised all due diligence to avoid engaging in *market abuse* or *requiring or encouraging*:
 - (a) whether, and if so to what extent, the *person* followed internal consultation and escalation procedures in relation to the *behaviour* (for example, did the *person* discuss the *behaviour* with internal line management and/or internal legal or compliance departments?);
 - (b) whether, and if so the extent to which, the *person* sought any appropriate expert legal or other expert professional advice and followed that advice;

- (c) whether, and if so to what extent, the *person* sought advice from the market authorities of any relevant *prescribed market* or, where relevant, consulted the *Takeover Panel*, and followed the advice received;
- (d) whether the *FSA* has issued any *guidance* on the *behaviour* in question and if so, the extent to which the *person* has sought to follow that *guidance* (see the Reader's Guide part of the *Handbook* regarding the status of *guidance*); and
- (e) whether, and if so to what extent, the *behaviour* complied with the rules of any relevant *prescribed market* or any other relevant market or other regulatory requirements (including the *Takeover Code* or the *SARs*) or any relevant codes of conduct or best practice.

14.5.2

G

/1

The list in *ENF 14.5.1G* is not exhaustive, and there may be other factors that are relevant in establishing the conditions referred to in *ENF 14.3.2G*, depending on the facts of each case.

14.6 FSA's choice of powers: financial penalties/public statements

14.6.1

G
/1

As with statements of public censure issued for other breaches of the requirements of the *Act* (see *ENF 12*), the *FSA* will consider whether to publish a statement that *market abuse* has occurred instead of imposing a financial penalty where it considers that such a statement may more appropriately address the particular *behaviour* in question.

14.6.2

G
/1

When considering whether a public statement is more appropriate than a financial penalty the *FSA* will take into account all the circumstances of the case. In particular, the *FSA* may have regard to factors similar to those in *ENF 12.3.3G*. Those factors include the following.

- (1) If the *person* has made a profit or avoided a loss as a result of the *behaviour*, this may be a factor in favour of a financial penalty, on the basis that a *person* should not be allowed to benefit from *market abuse* or *requiring or encouraging*.
- (2) If the *behaviour* is serious in nature or degree, this may be a factor in favour of a financial penalty, on the basis that the sanction should reflect the seriousness of the *behaviour* (other things being equal, the more serious the *behaviour*, the more likely the *FSA* is to impose a financial penalty).
- (3) If the *person* has admitted the *behaviour* and provides full and immediate cooperation to the *FSA*, and takes steps to ensure that those who have suffered loss due to the *behaviour* are fully compensated, this may be a factor in favour of a public statement, rather than a financial penalty, depending on the nature and seriousness of the *behaviour*.
- (4) The *FSA's* approach in similar previous cases. The *FSA* will seek to achieve a consistent approach to its decisions on whether to impose a financial penalty or issue a public statement.
- (5) If the *person* has a poor compliance history. For example, where the *FSA* has previously taken action against the *person* for *behaviour* amounting to *market abuse* or *requiring or encouraging* which resulted in adverse findings, this may be a factor in favour of a financial penalty.
- (6) The impact of a financial penalty on the *person* concerned. In exceptional cases, if the *person* has inadequate means (excluding any manipulation or attempted manipulation of their assets) to pay the financial penalty which the *behaviour* would otherwise attract, this may be a factor in favour of a lower level of penalty or a public statement. Circumstances in which the *FSA* may be willing to issue a public statement include where there is verifiable evidence that the *person* would suffer serious financial hardship if it imposed a financial penalty.

14.6.3

G
/1

The list of factors in *ENF* 14.6.2G is not exhaustive. Not all the factors may be relevant in a particular case, and there may be others that are relevant.

14.7 Determining the level of a financial penalty in a market abuse case

14.7.1 G_{/1} The *FSA*'s approach to financial penalties in *market abuse* cases will be consistent with its approach to financial penalties in other disciplinary cases concerning *firms* and *approved persons* (see *ENF* 13.3).

14.7.2 G_{/1} The *FSA* will take into account all the circumstances of a case when it determines the appropriate level of penalty, if any. The *FSA* does not propose to use a tariff of penalties for *market abuse* cases, given the wide range of different types of *behaviour* that may amount to *market abuse* or *requiring or encouraging*.

14.7.3 G_{/1} Section 124(2) of the *Act* (Statement of policy) states that the *FSA*'s policy in determining the amount of a penalty must include having regard to: '(a) whether the *behaviour* in respect of which the penalty is to be imposed had an adverse effect on the market in question and, if it did, how serious that effect was; (b) the extent to which that *behaviour* was deliberate or reckless; and (c) whether the *person* on whom the penalty is to be imposed is an individual.'

14.7.4 G_{/1} The *FSA* considers that the factors which may be relevant when it sets the amount of a penalty in *market abuse* cases include, the following.

- (1) Adverse effect on markets and the seriousness of that effect.

A financial penalty must be in proportion to the nature and seriousness of the abuse in question. The following may be relevant:

- (a) the loss or risk of loss caused to *consumers* or other market users;
- (b) the duration and frequency of the *behaviour*; and
- (c) the impact of the *behaviour* on the orderliness of *prescribed markets* including whether confidence in those markets has been damaged.

- (2) The extent to which the *behaviour* was deliberate or reckless.

In determining whether the *behaviour* was deliberate or reckless, the *FSA* will take into account all the circumstances of the *behaviour* which resulted in the *market abuse* or *requiring or encouraging*. For example, the *FSA* may have regard to whether the *person* intended or foresaw the consequences of their *behaviour*, or gave any consideration to the consequences of their *behaviour*. If the *FSA* decides that the *behaviour* was deliberate or reckless, it would be more likely to impose a higher penalty on a *person* than would otherwise be the case.

- (3) Whether the *person* on whom the penalty is to be imposed is an individual.

This will include having regard to the financial resources and other circumstances of the individual and may include whether there is verifiable

evidence of serious financial hardship or financial difficulties if the individual were to pay the financial penalty that would, in the absence of this consideration, be imposed (see also the discussion of this factor in *ENF* 13.3.3G (3)).

- (4) The amount of profits accrued or loss avoided.

The *FSA* may have regard to the amount of profits accrued or loss avoided as a result of the *behaviour*, for example:

- (a) the *FSA* will propose a penalty that is consistent with the principle that a *person* should not benefit from *behaviour* amounting to *market abuse* or *requiring or encouraging*; and
- (b) the penalty should also act as an incentive to the *person* and others to comply with required standards of market conduct.

- (5) Conduct following the *behaviour* of concern.

The *FSA* may take into account:

- (a) the conduct of the *person* in bringing (or failing to bring) the *behaviour* to the *FSA*'s attention (or the attention of other regulatory authorities, where relevant) quickly, effectively and completely;
- (b) the degree of co-operation the *person* showed during the investigation of the *behaviour* by the *FSA* or any other regulatory authority allowed to share information with the *FSA*, such as an *RIE* or the *Takeover Panel*. (In this context, *persons* are reminded that they may have a duty to co-operate with other regulatory authorities; for example, *MAR* 4.3.4R requires *firms* to whom that *rule* applies to assist the *Takeover Panel* in certain circumstances). Where a *person* has fully cooperated with an investigation, this will be a factor tending to reduce the level of financial penalty;
- (c) any remedial steps taken by the *person* since the *behaviour* was identified (whether on their own initiative or that of the *FSA* or another regulatory authority) including correcting any misleading statement or impression, identifying whether *consumers* or other market users have suffered loss and compensating them, taking disciplinary action against staff involved (if appropriate), and taking steps to ensure similar problems do not happen in the future; and
- (d) whether the *person* concerned has complied with any requirements or rulings of another regulatory authority relating to his *behaviour* (for example, where relevant, those of the *Takeover Panel*).

- (6) Disciplinary record and compliance history.

The disciplinary record and general compliance history of the *person* may be taken into account, including whether the *FSA* has previously taken any action against the *person* for *behaviour* amounting to *market abuse* or *requiring or encouraging* which resulted in adverse findings. For example, the compliance history of a *person* could lead to the *FSA* increasing the penalty where the *person* has engaged in *behaviour* falling within *ENF* 14.3.1G (1) or (2). In assessing the relevance of a *person*'s compliance history, the age of the previous *behaviour* will be taken into account, although a long-standing matter may still be relevant. However, in undertaking this assessment, private warnings will not be taken into account.

- (7) Previous action taken by the *FSA*.

The action the *FSA* has taken over previous similar *behaviour* may be taken into account. The *FSA* will seek to ensure consistency when it determines the appropriate level of penalty. For example, any disciplinary action taken in relation to similar *market abuse* cases will clearly be a relevant factor. However, as stated at *ENF* 14.7.2G, the *FSA* does not intend to set up a tariff system and there may be other relevant factors which could increase or decrease the seriousness of the matter.

- (8) Action taken by other regulatory authorities.

Action taken or to be taken by other regulatory authorities (for example, the *Takeover Panel* or an *RIE*) in relation to the *behaviour* may be relevant. The degree to which any remedial or compensatory steps required by other regulatory authorities have been taken (and whether taken promptly) may also be relevant.

14.7.5

G

/1

The factors listed in *ENF* 14.7.4G are not exhaustive, and all the relevant circumstances of the case will be taken into consideration.

14.8 Market abuse and breaches of the FSA Principles

14.8.1

G
/1

Principle 5 (Market conduct) (see *PRIN 2.1.1R*) requires a *firm* to observe proper standards of market conduct. Any *behaviour* which constitutes *market abuse* or *requiring or encouraging* will also constitute a breach of *Principle 5*. Where the principal mischief arising from the *behaviour* appears to be *market abuse* or *requiring or encouraging*, the *FSA* will take enforcement action under the *market abuse regime* rather than as a breach of *Principle 5*.

14.8.2

G
/1

Behaviour which breaches *Principle 5* may not necessarily be *market abuse* under section 118 of the *Act* (Market abuse). So, where the principal mischief arising from the *behaviour* appears to be a breach of *Principle 5*, and the *FSA* is satisfied that it would not be appropriate to deal with the case under the *market abuse regime*, it will take enforcement action as a breach of the *Principles* (together with other breaches of other *rules*, if relevant). However, where it is unclear or arguable where the principal mischief lies, the *FSA* may take enforcement action as a breach of the *Principles* (and, if relevant, breaches of other *rules*) and in the alternative, for *market abuse* or *requiring or encouraging*. Enforcement of the *Principles* is considered further in *ENF 11.6* (Discipline for breaches of Principles for Businesses).

14.9 Action involving other UK regulatory authorities

- 14.9.1** **G**_{/1} As stated in *ENF 11.8* (Action involving other regulatory authorities), some *market abuse* cases may involve not only potential action by the *FSA*, but also potential action by other regulatory authorities. In relation to *behaviour* which may have occurred or be occurring on a *prescribed market*, the *FSA* will refer to the relevant *RIE* and give due weight to its views. In a case where the *FSA* considers that it would be appropriate to bring action against a *person* under the *market abuse regime*, the relevant *RIE* may also wish to bring action against the *person* for breaches of its own rules. In each case, the *FSA* will coordinate action with the *RIE* concerned to ensure that cases are dealt with effectively and fairly, under operating arrangements [to be agreed] between the *FSA* and the *RIEs*. The *FSA* will have regard to all the circumstances of the case, including whether the other regulatory authorities have adequate powers to address the *behaviour* in question.
- 14.9.2** **G**_{/1} In relation to *behaviour* which may have happened or be happening in the context of a *takeover bid* or to which the *SARs* are relevant, the *FSA* will refer to the *Takeover Panel* and give due weight to its views. Where the *Takeover Code* or *SARs* have procedures for complaint about any *behaviour*, the *FSA* expects parties to exhaust those procedures. The *FSA* will not, save in exceptional circumstances, take action under any of section 123 (*FSA's* power to impose penalties), section 129 (Power of court to impose penalties), section 381 (Injunctions – see *ENF 6*), sections 383 or 384 (Restitution – see *ENF 9*) in respect of *behaviour* to which the *Takeover Code* or *SARs* are relevant before the conclusion of the procedures available under the *Takeover Code* or the *SARs*, as the case may be.
- 14.9.3** **G**_{/1} The *FSA* will not take action against a *person* over *behaviour* which (a) conforms with the *Takeover Code* or rules of an *RIE* and (b) falls within the terms of any provision of the *Code of Market Conduct* which states that *behaviour* so conforming does not amount to *market abuse*. The *FSA* will seek the *Takeover Panel's* or relevant *RIE's* views on whether *behaviour* complies with the *Takeover Code* or *RIE* rules and will attach considerable weight to its views.
- 14.9.4** **G**_{/1} If any of the circumstances in *ENF 14.9.6G* apply, and the *FSA* considers that the use of its disciplinary powers under section 123 or 129, or of its injunctive powers under section 381 or of its powers relating to restitution under section 383 or 384 is appropriate, it will not take action during an offer to which the *Takeover Code* or *SARs* apply except in the circumstances set out in *ENF 14.9.7G*.
- 14.9.5** **G**_{/1} In any case where the *FSA* considers that the use of its powers under any of sections 123, 129, 381, 383 or 384 of the *Act* may be appropriate, if that use may affect the timetable or outcome of a *takeover bid* or a tender offer governed by the *SARs*, it will consult the *Takeover Panel* before using any of those powers.
- 14.9.6** **G**_{/1} Where the *behaviour* of a *person* which amounts to *market abuse* is *behaviour* to which the *Takeover Code* or the *SARs* are relevant, the use of the *Takeover Panel's* informal powers will often be sufficient to address the relevant concerns. In cases

where this is not so, the *FSA* will need to consider, against the background of this manual, whether it is appropriate to use any of its own powers under the *market abuse regime*. The principal circumstances in which the *FSA* is likely to consider such exercise are:

- (1) where the *Takeover Panel* is unable to investigate properly due to lack of cooperation by the relevant *person*;
- (2) where the *behaviour* falls within section 118(2)(a) of the *Act* (Information not generally available);
- (3) where a *person* has deliberately or recklessly failed to comply with a *Takeover Panel* ruling;
- (4) where the *FSA's* approach in previous similar cases (which may have happened otherwise than in the context of a *takeover bid*) suggests that a financial penalty should be imposed (see *ENF* 14.6.2G(4));
- (5) where the *Takeover Panel* asks the *FSA* to consider the use of its powers to impose a financial penalty;
- (6) where the *behaviour* extends to *securities* or a class of *securities* which may be outside the *Takeover Panel's* jurisdiction;
- (7) where the *behaviour* threatens or has threatened the stability of the *financial system*; and
- (8) where for any other reason the *Takeover Panel* asks the *FSA* to consider the use of any of its powers referred to in *ENF* 14.9.2G.

14.9.7 G_{/1} The exceptional circumstances in which the *FSA* will consider the use of powers during a *takeover bid* are listed in *ENF* 14.9.6(1) to (3), (6), (7) and, depending on the circumstances, (8).

14.9.8 G_{/1} The *guidance* given in *ENF* 14.9.6G and *ENF* 14.9.7G does not apply to a *person* who has no responsibilities under the *Takeover Code*.

14.9.9 G_{/1} Where the *FSA* proposes to publish details of financial penalties it has imposed in relation to *behaviour* which has happened in the context of a *takeover bid*, it will consult the *Takeover Panel* over the timing of publication where the *FSA* is of the opinion that publication may affect the timetable or outcome of that bid, and will give due weight to the *Takeover Panel's* views.

14.10 The FSA’s endorsement of the Takeover Code and the SARs

- 14.10.1** G_{/1} *The FSA has made rules under section 143 of the Act (Endorsement of codes etc.) endorsing the Takeover Code and the SARs. The effect of the FSA’s endorsement in MAR 4.2.1R is that, under section 143 of the Act:*
- (1) at the request of the *Takeover Panel*, the FSA may take enforcement action against a *firm* which breaches the *Takeover Code* or the SARs under Part IV (Variation of *permission* – see *ENF 3*), Part XIII (Intervention against incoming firms – see *ENF 4*), Part XIV (Disciplinary measures - see *ENF 11, 12 and 13*) and Part XXV (Injunctions and restitution – see *ENF 6 and ENF 9*);
 - (2) at the request of the *Takeover Panel*, the FSA may take enforcement action against an *approved person* under section 66(2)(b) of the *Act* (Disciplinary powers - see *ENF 11*).
- 14.10.2** G_{/1} Section 143(5) of the *Act* states that ‘a failure to comply with a requirement imposed, or ruling given, under an endorsed provision is to be treated as a failure to comply with the endorsed provision under which that requirement was imposed or ruling was given’. So the FSA may take enforcement action as described in *ENF 14.10.1G* where there has been a failure of this kind.
- 14.10.3** G_{/1} A breach of the *Takeover Code* or the SARs, or being knowingly concerned in a breach by another *person*, may also be relevant to enforcement action taken by the FSA on other grounds, including:
- (1) withdrawal of approval under section 63 of the *Act* (Withdrawal of approval) on the basis that an *approved person* is not fit and proper (see *ENF 7*); and
 - (2) making a *prohibition order* against a *person* under section 56 of the *Act* (Prohibition orders - see *ENF 8*).
- 14.10.4** G_{/1} The FSA is only able to take enforcement action under section 143 of the *Act* in respect of a breach of the *Takeover Code* or the SARs at the request of the *Takeover Panel*. However, if the *behaviour* in question, leaving aside any breach of the *Takeover Code* or the SARs, could also constitute a breach of the *rules*, or in relation to an *approved person*, a *Statement of Principle*, the FSA may use its enforcement powers whether a request has been received from the *Takeover Panel* or not. In that situation, however, the FSA will consult the *Takeover Panel* and give due weight to its views.

14.11 Action involving overseas authorities

- 14.11.1** **G**_{/1} In certain circumstances, *behaviour* that takes place outside the *United Kingdom* may damage the integrity of *prescribed markets*. The *FSA's Code of Market Conduct* (see *MAR 1.2.9G*) contains *guidance* on the circumstances in which *behaviour* outside the *United Kingdom* may amount to *market abuse* or *requiring or encouraging*.
- 14.11.2** **G**_{/1} Where *behaviour* that has taken place overseas amounts to *market abuse* or *requiring or encouraging*, the *FSA* will consider whether it is appropriate to impose a financial penalty or issue a public statement about the *person* concerned. When deciding whether to impose a sanction in these circumstances the *FSA* may consider the factors in *ENF 14.4*. In addition to these factors, the *FSA* will consider the extent to which the abusive *behaviour* is capable of being dealt with by action by the relevant *overseas regulator* or other enforcement agency. The *FSA* will consider in each case whether it is appropriate for it or another enforcement agency to take action.
- 14.11.3** **G**_{/1} In some cases both the *FSA* and the relevant *overseas regulator* (or other enforcement agency) may have an interest in taking enforcement action against the *person* concerned. For example, if the *behaviour* involves a breach of relevant rules or laws of the overseas jurisdiction as well as the *market abuse* provisions of the *UK* legislation it may be appropriate for both the *FSA* and the overseas authority or agency to take action. In those circumstances, the *FSA* will work with the relevant overseas authorities to coordinate effective enforcement action.

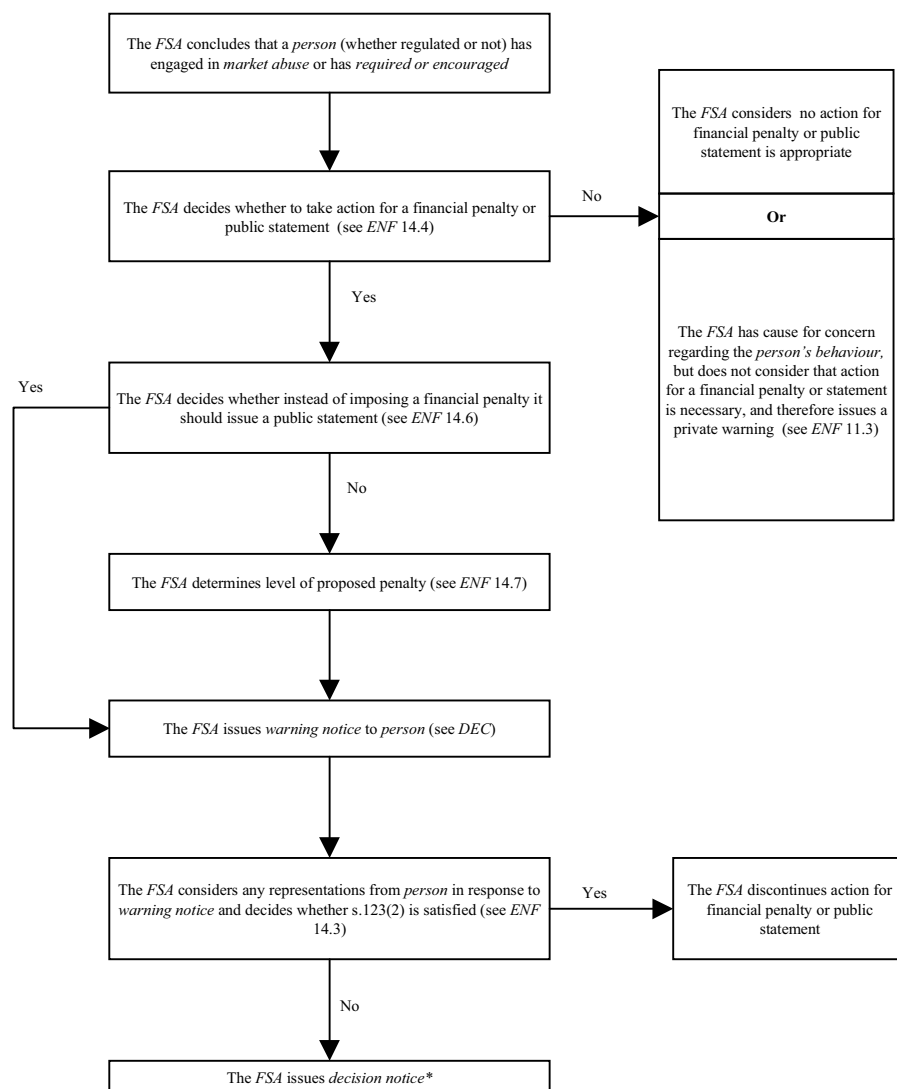

14.12 Decision making procedure and publication of sanctions

- 14.12.1** G_{/1} The *Act* requires the *FSA* to issue a *warning notice*, *decision notice* and *final notice* before imposing a financial penalty or issuing a statement. More information on the procedure the *FSA* will follow in these circumstances is contained in *DEC*.
- 14.12.2** G_{/1} The *FSA* will ordinarily publicise a financial penalty or statement by issuing a press release giving details of the *behaviour* and the sanction imposed. However, the *Act* provides that the *FSA* may not publish information in those circumstances where it would be unfair to the *person* on whom a sanction is imposed, or prejudicial to the interests of *consumers*.

ENF 14 ANN 1G: Action for financial penalties or public statements in market abuse cases

Action for financial penalties or public statements in market abuse cases

Chapter 15.

Prosecution of criminal offences

15.1 Application and purpose

Application

15.1.1

G
/1

This chapter applies to all *firms* and individuals employed by *firms*, *approved persons*, *appointed representatives*, and any other *persons*, who may be involved in committing criminal offences that the *FSA* has power to prosecute under the *Act*.

Purpose

15.1.2

G
/1

The purpose of this chapter is to set out the *FSA*'s powers to prosecute criminal offences under sections 401 of the *Act* (Proceedings for Offences) and 402 of the *Act* (Power of the *FSA* to institute proceedings for certain other offences), and to provide *guidance* on how the *FSA* intends to exercise these powers.

15.2 Introduction

15.2.1

G

/1

Under section 401 of the *Act* (Proceedings for Offences), the *FSA* has power to prosecute the following offences:

- (1) carrying on or purporting to carry on a *regulated activity* without *authorisation* or exemption (under section 23);
- (2) making false claims to be *authorised* or exempt (under section 24);
- (3) communicating an invitation or inducement to *engage in investment activity* in breach of the restrictions on *financial promotion* (under section 25);
- (4) misleading the *FSA* and other contraventions in relation to the exercise of *Treaty rights* (under paragraph 6 of Schedule 4);
- (5) performing or agreeing to perform functions in breach of a *prohibition order* (under section 56(4));
- (6) failing to register a copy of listing particulars on or before publication (under section 83(3));
- (7) *offering* new *securities* to the public before publishing a prospectus required by *listing rules* made under section 84 of the *Act* (section 85(2));
- (8) issuing an advertisement, or other information specified in the *listing rules*, without prior approval or authorisation from the *competent authority* (under section 98(2));
- (9) failing to cooperate with, or giving false information to, *FSA* appointed investigators (under section 177);
- (10) failing to comply with provisions about *control over authorised persons* (under section 191);
- (11) carrying on, or purporting to carry on, business in contravention of a *consumer credit prohibition* (under section 203(9));
- (12) making false claims to be a *person* to whom the *general prohibition* does not apply as a result of Part XX of the *Act* (Provision of Financial Services by Members of the Professions) (under section 333);
- (13) providing false or misleading information to an auditor or *actuary* (under section 346);
- (14) disclosing confidential information in contravention of the statutory restrictions under sections 348 and 350(5) (see section 352);

(15) failure by a *director* of an insurer carrying on long-term *insurance business* to notify the *FSA* of a general meeting to propose a resolution for voluntary winding up (under section 366(3));

(16) *Misleading statements and practices offences* (under section 397);

(17) Misleading the *FSA* (under section 398).

15.2.2

Under section 402 of the *Act* (Power of the *FSA* to institute proceedings for certain other offences), the *FSA* has power to prosecute the following offences:

(1) *insider dealing* under Part V of the Criminal Justice Act 1993 (under section 402(1)(a));

(2) Breaches of the prescribed regulations relating to *money laundering* (under section 402(1)(b)).

15.2.3

The *FSA* has power to prosecute these offences in England, Wales and Northern Ireland, but not in Scotland. In Scotland, the Crown Office will remain responsible for prosecutions.

15.3 The FSA’s power to prosecute criminal offences

- 15.3.1** G_{/1} The *FSA*’s power to prosecute criminal offences is set out in sections 401 (of the *Act* (Proceedings for Offences) and 402 (Power to prohibit the carrying on of Consumer Credit Act business) of the *Act*.
- 15.3.2** G_{/1} Under section 401 of the *Act*:

 - (1) proceedings for an offence under the *Act*, or subordinate legislation made under the *Act*, may be instituted in England and Wales only:
 - (a) by the *FSA* or the Secretary of State; or
 - (b) by or with the consent of the Director of Public Prosecutions;
 - (2) proceedings for an offence under the *Act*, or subordinate legislation made under the *Act*, may be instituted in Northern Ireland only:
 - (a) by the *FSA* or the Secretary of State; or
 - (b) by or with the consent of the Director of Public Prosecutions for Northern Ireland; and
 - (3) except in Scotland, proceedings for an offence under section 203 (Power to prohibit the carrying on of Consumer Credit Act business) may also be instituted by the Director General of Fair Trading.
- 15.3.3** G_{/1} Under section 402 of the *Act* the *FSA* may, except in Scotland, institute proceedings for an offence under:

 - (1) Part V of the Criminal Justice Act 1993 (Insider dealing); and
 - (2) Prescribed regulations relating to *money laundering*.
- 15.3.4** G_{/1} The *FSA* does not have power to prosecute the offences referred to in *ENF* 15.3.2G and *ENF* 15.3.3G in Scotland. Public prosecution of these offences in Scotland is the responsibility of the Crown Office.

15.4 The FSA's general approach

- 15.4.1** G_{/1} The FSA's general policy is to pursue through the criminal justice system all those cases where criminal prosecution is appropriate. The principles the FSA will apply when it decides whether a case is appropriate for criminal prosecution are set out in ENF 15.5. When considering whether to prosecute a breach of the prescribed regulations in relation to *money laundering* (ENF 15.2.2G(2)) the FSA will also have regard to whether the *person* concerned has complied with the "Guidance Notes for the Financial Sector" produced by the Joint Money Laundering Steering Group.
- 15.4.2** G_{/1} In relation to *misleading statements and practices offences* and *insider dealing*, where the FSA also has power to impose a sanction for *market abuse*, it will decide whether to commence criminal proceedings or impose a sanction after considering the factors set out in ENF 15.5 and ENF 15.7.2G.
- 15.4.3** G_{/1} In cases where criminal proceedings have commenced or will be commenced, the FSA may consider whether also to take civil or regulatory action. That action might include:
- (1) *injunctions* (the FSA's policy and procedure in relation to the exercise of its powers to obtain *injunctions* against *persons*, whether *authorised* or not, is set out in ENF 6);
 - (2) restitution (the FSA's policy and procedure in relation to the exercise of its power to obtain restitution against *persons*, whether *authorised* or not, is set out in ENF 9);
 - (3) own-initiative action (the FSA's policy and procedure in relation to the exercise of its *own-initiative powers* in relation to *firms* is set out in ENF 3);
 - (4) withdrawal of approval or cancellation of *permission* and withdrawal of *authorisation* (the FSA's policy and procedure in relation to its power to withdraw approval from *approved persons* is set out in ENF 7 and its policy and procedure in relation to its power to cancel a *firm's permission* and withdraw *authorisation* is set out in ENF 5);
 - (5) prohibition of individuals from carrying out functions in connection with *regulated activities* (the FSA's policy and procedure in relation to its powers to make *prohibition orders* against individuals, whether *authorised* or not, is set out in ENF 8). The commencement of criminal proceedings against an individual (particularly where that individual is an *approved person*) will raise concerns in relation to that individual's fitness and propriety to perform functions in relation to *regulated activities*. The FSA may therefore consider making a *prohibition order* against him if proceedings result in a criminal conviction.

15.4.4

G

/1

When it decides whether to take any of the civil or regulatory actions set out in *ENF 15.4.3G*, where criminal proceedings are in contemplation, the *FSA* will have regard to the following factors:

- (1) whether, in the *FSA*'s opinion, the taking of civil or regulatory action might unfairly prejudice the prosecution, or proposed prosecution, of criminal offences;
- (2) whether, in the *FSA*'s opinion, the taking of civil or regulatory action might unfairly prejudice the defendants in the criminal proceedings in the conduct of their defence; and
- (3) whether it is appropriate to take civil or regulatory action, having regard to the scope of the criminal proceedings and the powers available to the criminal courts.

15.5 The Code for Crown Prosecutors

15.5.1 **G**_{/1} When the *FSA* decides whether to bring criminal proceedings in England, Wales or Northern Ireland, or to refer the matter to another prosecuting authority in England, Wales or Northern Ireland (see *ENF* 15.8.1G), it will apply the basic principles set out in the Code for Crown Prosecutors. The current edition of the Code is set out in *ENF* 15 Ann 1G.

15.5.2 **G**_{/1} Under the Code for Crown Prosecutors, the *FSA* will consider in each case whether:

- (1) there is sufficient evidence to provide a realistic prospect of conviction against the defendant on each criminal charge ('the evidential test'); and
- (2) having regard to the seriousness of the offence and all the circumstances, criminal prosecution is in the public interest ('the public interest test').

The evidential test

15.5.3 **G**_{/1} The *FSA* will apply the evidential test in accordance with the guidance contained in the Code for Crown Prosecutors (see paragraph 5 of *ENF* 15 Ann 1G). In particular, the *FSA* will commence proceedings only where it is satisfied that the evidence is such that a jury or a bench of magistrates (properly directed in accordance with the law) is more likely than not to convict the defendant of the charge alleged.

15.5.4 **G**_{/1} In deciding whether there is enough evidence to prosecute, the *FSA* will consider whether the evidence can be used in criminal proceedings and is reliable. The *FSA* will not generally be able to use, or refer to, in criminal proceedings a statement made by the defendant in compliance with the *FSA*'s compulsory powers of investigation. The *FSA* will only be able to use those statements where the alleged offence is either making false statements otherwise than on oath, or providing false or misleading evidence to the *FSA*'s investigators (see section 177(4) of the *Act* (Offences)).

The public interest test

15.5.5 **G**_{/1} In each case where the evidential test is satisfied, the *FSA* will consider whether a prosecution would be in the public interest. This will depend on the circumstances of each individual case. The *FSA* will balance the factors for and against prosecution, and apply the guidelines set out in the Code for Crown Prosecutors. Only if the *FSA* determines that criminal prosecution is in the public interest (see paragraph 6 of *ENF* 15 Ann 1G) will it proceed to prosecute.

15.6 FSA cautions

15.6.1

G

^{/1}

In some cases, the *FSA* may decide to issue a formal caution rather than to prosecute an offender. In these cases the *FSA* will follow the Home Office Guidance on the cautioning of offenders, currently contained in the Home Office Circular 18/1994. The *FSA* will not administer a caution unless it is satisfied that the following conditions are met:

- (1) there is sufficient evidence of the offender's guilt to give a realistic prospect of conviction;
- (2) the offender admits the offence; and
- (3) the offender understands the significance of a caution and gives informed consent to being cautioned.

15.6.2

G

^{/1}

Where the *FSA* decides to administer a formal caution, a record of the caution will be kept by the *FSA*, but the *FSA* will not publish the caution. The issue of a caution may influence the *FSA* in its decision whether or not to prosecute the offender if he offends again. If the offender is a *firm* or an *approved person*, a caution given by the *FSA* will form part of the *firm's* or *approved person's* regulatory record for the purposes of *ENF* 11.4.1G(3). If relevant, the *FSA* will take the caution into account in deciding whether to take disciplinary action for subsequent regulatory misconduct by the *firm* or the *approved person*. The *FSA* may also take a caution into account when considering a person's honesty, integrity and reputation and his fitness or propriety to perform controlled or other functions in relation to regulated activities (see *FIT* 2.1.3G).

15.7 Criminal prosecutions in cases of market abuse

15.7.1

G
/1

The FSA’s power to impose sanctions for *market abuse* is intended to complement the existing criminal regime for *insider dealing* and *misleading statements and practices offences*. In some cases there will be instances of market misconduct that may arguably involve a breach of the criminal law as well as *market abuse* as defined in the *Act*. When the FSA decides whether to commence criminal proceedings rather than impose a sanction in relation to that misconduct, it will take into account those factors set out in the Code for Crown Prosecutors referred to in ENF 15.5. When deciding whether to prosecute market misconduct which also falls within the definition of *market abuse*, application of the tests set out in ENF 15.5 may involve consideration of some of the factors set out in ENF 15.7.2G.

15.7.2

G
/1

The factors which the FSA may consider when deciding whether to commence a criminal prosecution for market misconduct rather than impose a sanction for *market abuse* include, but are not limited to, the following:

- (1) the seriousness of the misconduct: if the misconduct is serious and prosecution is likely to result in a significant sentence, criminal prosecution may be appropriate;
- (2) whether there are victims who have suffered loss as a result of the misconduct: where there are no victims a criminal prosecution is less likely to be appropriate;
- (3) the extent and nature of the loss suffered: where the misconduct has resulted in substantial loss and/or loss has been suffered by a substantial number of victims, criminal prosecution may be appropriate;
- (4) the effect of the misconduct on the market: where the misconduct has resulted in significant distortion or disruption to the market and/or has significantly damaged market confidence, a criminal prosecution may be appropriate;
- (5) the extent of any profits accrued or loss avoided as a result of the misconduct: where substantial profits have accrued or loss avoided as a result of the misconduct, criminal prosecution may be appropriate;
- (6) whether there are grounds for believing that the misconduct is likely to be continued or repeated: if it appears that the misconduct may be continued or repeated and the imposition of a financial penalty is unlikely to deter further misconduct, a criminal prosecution may be more appropriate than a financial penalty;
- (7) whether the *person* has previously been cautioned or convicted in relation to market misconduct or has been subject to civil or regulatory action in respect

of market misconduct: where this is the case, a criminal prosecution may be appropriate;

- (8) the extent to which redress has been provided to those who have suffered loss as a result of the misconduct and/or whether steps have been taken to remedy any failures in systems or controls which gave rise to the misconduct: where such steps are taken promptly and voluntarily, criminal prosecution may not be appropriate; however, potential defendants will not avoid prosecution simply because they are able to pay compensation;
- (9) the effect that a criminal prosecution may have on the prospects of securing redress for those who have suffered loss: where a criminal prosecution will have adverse effects on the solvency of a *firm* or individual in circumstances where loss has been suffered by *consumers*, the *FSA* may decide that criminal proceedings are not appropriate;
- (10) whether the *person* is being or has been voluntarily cooperative with the *FSA* in taking corrective measures; however, potential defendants will not avoid prosecution merely by fulfilling a statutory duty to take those measures;
- (11) where an individual's misconduct involves dishonesty or an abuse of a position of authority or trust: in these circumstances, criminal prosecution may be appropriate;
- (12) where the misconduct in question was carried out by a group, and a particular individual has played a leading role in the commission of the misconduct: in these circumstances criminal proceedings may be appropriate in relation to that individual;
- (13) the personal circumstances of an individual may be relevant to a decision whether to commence a criminal prosecution.

15.7.3 G /1 The importance attached by the *FSA* to these factors will vary from case to case and the factors are not necessarily cumulative or exhaustive.

15.7.4 G /1 It is the *FSA*'s policy not to impose a sanction for *market abuse* where a *person* is being prosecuted for market misconduct or has been finally convicted or acquitted of market misconduct (following the exhaustion of all appeal processes) in a criminal prosecution arising from substantially the same allegations. Similarly, it is the *FSA*'s policy not to commence a prosecution for market misconduct where the *FSA* has brought or is seeking to bring disciplinary proceedings for *market abuse* arising from substantially the same allegations.

15.7.5 G /1 Where the *FSA* decides to commence criminal proceedings for market misconduct or imposes a sanction for *market abuse*, it may also consider taking civil or regulatory action. That action may include:

- (1) applying to court for an *injunction* to prevent *market abuse* continuing or to require the *person* to take steps to remedy the consequences of the abuse (see *ENF* 6.4);
- (2) applying to court for an order for restitution (see *ENF* 9.4) or exercising its administrative power to require restitution (see *ENF* 9.5) in relation to profits accrued by the *person* or loss suffered by others as a result of the abuse.
- (3) withdrawal of approval (see *ENF* 7) or cancellation of *permission* and withdrawal of *authorisation* (see *ENF* 5).

(4) prohibition of individuals from carrying out functions in connection with *regulated activities* (see *ENF 8*).

15.7.6

G
/1

The *FSA* does not have power to prosecute offences of market misconduct in Scotland. These proceedings will remain the responsibility of the Crown Office.

15.8 Liaison with other prosecuting authorities

15.8.1

G

/1

The *FSA* has power to prosecute offences under the *Act* in England or Wales and in Northern Ireland. In addition the following authorities also have that power:

- (1) in England and Wales: the Secretary of State for Trade and Industry, the Director General of Fair Trading (in relation to offences involving the *Consumer Credit Act*), the Crown Prosecution Service and, in cases of serious or complex fraud, the Serious Fraud Office;
- (2) in Northern Ireland: the Secretary of State for Trade and Industry, the Director of Public Prosecutions in Northern Ireland, and in cases of serious or complex fraud, the Serious Fraud Office.

15.8.2

G

/1

The *FSA* has no power to prosecute offences under the *Act* in Scotland where prosecution will remain the responsibility of the Crown Office.

15.8.3

G

/1

The *FSA* has agreed guidelines that will establish a framework for liaison and cooperation in cases where one or more of these authorities has an interest in prosecuting any aspect of a matter that the *FSA* is considering for investigation, investigating or considering prosecuting. These Guidelines are set out in *ENF 2 Ann 1G*.

Code for crown prosecutors

A new edition of the code was issued in October 2000. It is reproduced below by kind permission of the Crown Prosecution Service.

1. Introduction

1.1 The decision to prosecute an individual is a serious step. Fair and effective prosecution is essential to the maintenance of law and order. Even in a small case a prosecution has serious implications for all involved – victims, witnesses and defendants. The Crown Prosecution Service applies the Code for Crown Prosecutors so that it can make fair and consistent decisions about prosecutions.

1.2 The Code helps the Crown Prosecution Service to play its part in making sure that justice is done. It contains information that is important to police officers and others who work in the criminal justice system and to the general public. Police officers should take account of the Code when they are deciding whether to charge a person with an offence.

1.3 The Code is also designed to make sure that everyone knows the principles that the Crown Prosecution Service applies when carrying out its work. By applying the same principles, everyone involved in the system is helping to treat victims fairly and to prosecute fairly but effectively.

2. General Principles

2.1 Each case is unique and must be considered on its own facts and merits. However, there are general principles that apply to the way in which Crown Prosecutors must approach every case.

2.2 Crown Prosecutors must be fair, independent and objective. They must not let any personal views about ethnic or national origin, sex, religious beliefs, political views or the sexual orientation of the suspect, victim or witness influence their decisions. They must not be affected by improper or undue pressure from any source.

2.3 It is the duty of Crown Prosecutors to make sure that the right person is prosecuted for the right offence. In doing so, Crown Prosecutors must always act in the interests of justice and not solely for the purpose of obtaining a conviction.

2.4 It is the duty of Crown Prosecutors to review, advise on and prosecute cases, ensuring that the law is properly applied, that all relevant evidence is put before the court and that obligations of disclosure are complied with, in accordance with the principles set out in this Code.

2.5 The CPS is a public authority for the purposes of the Human Rights Act 1998. Crown Prosecutors must apply the principles of the European Convention on Human Rights in accordance with the Act.

3. Review

3.1 Proceedings are usually started by the police. Sometimes they may consult the Crown Prosecution Service before starting a prosecution. Each case that the Crown Prosecution Service receives from the police is reviewed to make sure it meets the evidential and public interest tests set out in this Code. Crown Prosecutors may decide to continue with the original charges, to change the charges, or sometimes to stop the case.

3.2 Review is a continuing process and Crown Prosecutors must take account of any change in circumstances. Wherever possible, they talk to the police first if they are thinking about changing the charges or stopping the case. This gives the police the chance to provide more information that may affect the decision. The Crown Prosecution Service and the police work closely together to reach the right decision, but the final responsibility for the decision rests with the Crown Prosecution Service.

4 Code Tests

4.1 There are two stages in the decision to prosecute. The first stage is **the evidential test**. If the case does not pass the evidential test, it must not go ahead, no matter how important or serious it may be. If the case does meet the evidential test, Crown Prosecutors must decide if a prosecution is needed in the public interest.

4.2 This second stage is **the public interest test**. The Crown Prosecution Service will only start or continue with a prosecution when the case has passed both tests. The evidential test is explained in section 5 and the public interest test is explained in section 6.

5 The Evidential Test

5.1 Crown Prosecutors must be satisfied that there is enough evidence to provide a 'realistic prospect of conviction' against each defendant on each charge. They must consider what the defence case may be, and how that is likely to affect the prosecution case.

5.2 A realistic prospect of conviction is an objective test. It means that a jury or bench of magistrates, properly directed in accordance with the law, is more likely than not to convict the defendant of the charge alleged. This is a separate test from the one that the criminal courts themselves must apply. A jury or magistrates' court should only convict if satisfied so that it is sure of a defendant's guilt.

5.3 When deciding whether there is enough evidence to prosecute, Crown Prosecutors must consider whether the evidence can be used and is reliable. There will be many cases in which the evidence does not give any cause for concern. But there will also be cases in which the evidence may not be as strong as it first appears. Crown Prosecutors must ask themselves the following questions:

Can the evidence be used in court?

a Is it likely that the evidence will be excluded by the court? There are certain legal rules which might mean that evidence which seems relevant cannot be given at a trial. For example, is it likely that the evidence will be excluded because of the way in which it was gathered or because of the rule against using hearsay as evidence? If so, is there enough other evidence for a realistic prospect of conviction?

Is the evidence reliable?

b Is there evidence which might support or detract from the reliability of a confession? Is the reliability affected by factors such as the defendant's age, intelligence or level of understanding?

c What explanation has the defendant given? Is a court likely to find it credible in the light of the evidence as a whole? Does it support an innocent explanation?

d If the identity of the defendant is likely to be questioned, is the evidence about this strong enough?

e Is the witness's background likely to weaken the prosecution case? For example, does the witness have any motive that may affect his or her attitude to the case, or a relevant previous conviction?

f Are there concerns over the accuracy or credibility of a witness? Are these concerns based on evidence or simply information with nothing to support it? Is there further evidence which the police should be asked to seek out which may support or detract from the account of the witness?

5.4 Crown Prosecutors should not ignore evidence because they are not sure that it can be used or is reliable. But they should look closely at it when deciding if there is a realistic prospect of conviction.

6 The Public Interest Test

6.1 In 1951, Lord Shawcross, who was Attorney General, made the classic statement on public interest, which has been supported by Attorneys General ever since: "It has never been the rule in this country – I hope it never will be – that suspected criminal offences must automatically be the subject of prosecution". (House of Commons Debates, volume 483, column 681, 29 January 1951.)

6.2 The public interest must be considered in each case where there is enough evidence to provide a realistic prospect of conviction. A prosecution will usually take place unless there are public interest factors tending against prosecution which clearly outweigh those tending in favour. Although there may be public interest factors against prosecution in a particular case, often the prosecution should go ahead and those factors should be put to the court for consideration when sentence is being passed.

6.3 Crown Prosecutors must balance factors for and against prosecution carefully and fairly. Public interest factors that can affect the decision to prosecute usually depend on the seriousness of the offence or the circumstances of the suspect. Some factors may increase the need to prosecute but others may suggest that another course of action would be better.

The following lists of some common public interest factors, both for and against prosecution, are not exhaustive. The factors that apply will depend on the facts in each case.

Some common public interest factors in favour of prosecution.

6.4 The more serious the offence, the more likely it is that a prosecution will be needed in the public interest. A prosecution is likely to be needed if:

- a** a conviction is likely to result in a significant sentence;
- b** a weapon was used or violence was threatened during the commission of the offence;
- c** the offence was committed against a person serving the public (for example, a police or prison officer, or a nurse);
- d** the defendant was in a position of authority or trust;
- e** the evidence shows that the defendant was a ringleader or an organiser of the offence;
- f** there is evidence that the offence was premeditated;
- g** there is evidence that the offence was carried out by a group;
- h** the victim of the offence was vulnerable, has been put in considerable fear, or suffered personal attack, damage or disturbance;
- i** the offence was motivated by any form of discrimination against the victim's ethnic or national origin, sex, religious beliefs, political views or sexual orientation, or the suspect demonstrated hostility towards the victim based on any of those characteristics;
- j** there is a marked difference between the actual or mental ages of the defendant and the victim, or if there is any element of corruption;
- k** the defendant's previous convictions or cautions are relevant to the present offence;
- l** the defendant is alleged to have committed the offence whilst under an order of the court;

m there are grounds for believing that the offence is likely to be continued or repeated, for example, by a history of recurring conduct; or

n the offence, although not serious in itself, is widespread in the area where it was committed.

Some common public interest factors against prosecution

6.5 A prosecution is less likely to be needed if:

a the court is likely to impose a nominal penalty;

b the defendant has already been made the subject of a sentence and any further conviction would be unlikely to result in the imposition of an additional sentence or order, unless the nature of the particular offence requires a prosecution;

c the offence was committed as a result of a genuine mistake or misunderstanding (these factors must be balanced against the seriousness of the offence);

d the loss or harm can be described as minor and was the result of a single incident, particularly if it was caused by a misjudgement;

e there has been a long delay between the offence taking place and the date of the trial, unless:

the offence is serious;

the delay has been caused in part by the defendant;

the offence has only recently come to light; or

the complexity of the offence has meant that there has been a long investigation;

f a prosecution is likely to have a bad effect on the victim's physical or mental health, always bearing in mind the seriousness of the offence;

g the defendant is elderly or is, or was at the time of the offence, suffering from significant mental or physical ill health, unless the offence is serious or there is a real possibility that it may be repeated. The Crown Prosecution Service, where necessary, applies Home Office guidelines about how to deal with mentally disordered offenders. Crown Prosecutors must balance the desirability of diverting a defendant who is suffering from significant mental or physical ill health with the need to safeguard the general public;

h the defendant has put right the loss or harm that was caused (but defendants must not avoid prosecution solely because they pay compensation); or

I details may be made public that could harm sources of information, international relations or national security;

6.6 Deciding on the public interest is not simply a matter of adding up the number of factors on each side. Crown Prosecutors must decide how important each factor is in the circumstances of each case and go on to make an overall assessment.

The relationship between the victim and the public interest

6.7 The Crown Prosecution Service prosecutes cases on behalf of the public at large and not just in the interests of any particular individual. However, when considering the public interest test Crown Prosecutors should always take into account the consequences for the victim of the decision whether or not to prosecute, and any views expressed by the victim or the victim's family.

6.8 It is important that a victim is told about a decision which makes a significant difference to the case in which he or she is involved. Crown Prosecutors should ensure that they follow any agreed procedures.

Youths

6.9 Crown Prosecutors must consider the interests of a youth when deciding whether it is in the public interest to prosecute. However Crown Prosecutors should not avoid prosecuting simply because of the defendant's age. The seriousness of the offence or the youth's past behaviour is very important.

6.10 Cases involving youths are usually only referred to the Crown Prosecution Service for prosecution if the youth has already received a reprimand and final warning, unless the offence is so serious that neither of these were appropriate. Reprimands and final warnings are intended to prevent re-offending and the fact that a further offence has occurred indicates that attempts to divert the youth from the court system have not been effective. So the public interest will usually require a prosecution in such cases, unless there are clear public interest factors against prosecution.

Police Cautions

6.11 These are only for adults. The police make the decision to caution an offender in accordance with Home Office guidelines.

6.12 When deciding whether a case should be prosecuted in the courts, Crown Prosecutors should consider the alternatives to prosecution. This will include a police caution. Again the Home Office guidelines should be applied. Where it is felt that a caution is appropriate, Crown Prosecutors must inform the police so that they can caution the suspect. If the caution is not administered because the suspect refuses to accept it or the police do not wish to offer it, then the Crown Prosecutor may review the case again.

7 Charges

7.1 Crown Prosecutors should select charges which:

- a** reflect the seriousness of the offending;
- b** give the court adequate sentencing powers; and
- c** enable the case to be presented in a clear and simple way.

This means that Crown Prosecutors may not always continue with the most serious charge where there is a choice. Further, Crown Prosecutors should not continue with more charges than are necessary.

7.2 Crown Prosecutors should never go ahead with more charges than are necessary just to encourage a defendant to plead guilty to a few. In the same way, they should never go ahead with a more serious charge just to encourage a defendant to plead guilty to a less serious one.

7.3 Crown Prosecutors should not change the charge simply because of the decision made by the court or the defendant about where the case will be heard.

8 Mode of Trial

8.1 The Crown Prosecution Service applies the current guidelines for magistrates who have to decide whether cases should be tried in the Crown Court when the offence gives the option and the defendant does not indicate a guilty plea. (See the 'National Mode of Trial Guidelines' issued by the Lord Chief Justice.) Crown Prosecutors should recommend Crown Court trial when they are satisfied that the guidelines require them to do so.

8.2 Speed must never be the only reason for asking for a case to stay in the magistrates' courts. But Crown Prosecutors should consider the effect of any likely delay if they send a case to the Crown Court, and any possible stress on victims and witnesses if the case is delayed.

9 Accepting Guilty Pleas

9.1 Defendants may want to plead guilty to some, but not all, of the charges. Alternatively, they may want to plead guilty to a different, possibly less serious, charge because they are admitting only part of the crime. Crown Prosecutors should only accept the defendant's plea if they think the court is able to pass a sentence that matches the seriousness of the offending, particularly where there are aggravating features. Crown Prosecutors must never accept a guilty plea just because it is convenient.

9.2 Particular care must be taken when considering pleas which would enable the defendant to avoid the imposition of a mandatory minimum sentence. When pleas are offered, Crown Prosecutors must bear in mind the fact that ancillary orders can be made with some offences but not with others.

9.3 In cases where a defendant pleads guilty to the charges but on the basis of facts that are different from the prosecution case, and where this may significantly affect sentence, the court should be invited to hear evidence to determine what happened, and then sentence on that basis.

10 Re-starting a Prosecution

10.1 People should be able to rely on decisions taken by the Crown Prosecution Service. Normally, if the Crown Prosecution Service tells a suspect or defendant that there will not be a prosecution, or that the prosecution has been stopped, that is the end of the matter and the case will not start again. But occasionally there are special reasons why the Crown Prosecution Service will re-start the prosecution, particularly if the case is serious.

10.2 These reasons include:

a rare cases where a new look at the original decision shows that it was clearly wrong and should not be allowed to stand;

b cases which are stopped so that more evidence which is likely to become available in the fairly near future can be collected and prepared. In these cases, the Crown Prosecutor will tell the defendant that the prosecution may well start again; and

c cases which are stopped because of a lack of evidence but where more significant evidence is discovered later.

The Code is a public document. It is available on the [CPS Website](#):

Chapter 16.

Collective investment schemes

16.1 Application and purpose

Application

16.1.1

G
/1

This chapter provides *guidance* on the FSA's use of its enforcement powers in relation to:

- (1) *AUTs*;
- (2) *ICVCs*; and
- (3) *recognised schemes*.

Purpose

16.1.2

G
/1

The purpose of this chapter is to explain the FSA's powers in relation to the *collective investment schemes* listed at ENF 16.1.1G (1) to (3) and to provide *guidance* on how the FSA intends to exercise these powers. The effective use of these powers will help the FSA in pursuing its *regulatory objectives* of protecting *consumers*, maintaining market confidence and reducing *financial crime*.

16.2 Authorised unit trust schemes

16.2.1 G_{/1} Sections 242 to 261 of the *Act* contain provisions relating to *AUTs*. These include the following enforcement powers:

- (1) a power for the *FSA* to revoke *authorisation* of an *AUT* otherwise than by consent (section 254);
- (2) a power for the *FSA* to give directions (section 257); and
- (3) a power for the *FSA* to apply to court for the removal of a *manager* or *trustee* or the winding up of an *AUT* (section 258).

16.2.2 G_{/1} While the grounds upon which the powers under sections 254 and 257 may be used are broadly similar, there are certain material differences. These provisions are therefore set out separately in *ENF* 16.2.3G to *ENF* 16.2.4G and *ENF* 16.2.5G to *ENF* 16.2.7G respectively.

Section 254: the power

16.2.3 G_{/1}

- (1) The *FSA*'s power to revoke *authorisation* of an *AUT* otherwise than by consent is in section 254 (Revocation of authorisation order otherwise than by consent).
- (2) Section 254(1) states that 'An *authorisation order* may be revoked by an order made by the *FSA* if it appears to the *FSA* that:
 - (a) one or more of the requirements for the making of the order are no longer satisfied;
 - (b) the *manager* or *trustee* of the *scheme* concerned has contravened a requirement imposed on him by or under this *Act*;
 - (c) the *manager* or *trustee* of the *scheme* has, in purported compliance with any such requirement, knowingly or recklessly given the *FSA* information which is false or misleading in a material particular;
 - (d) no *regulated activity* is being carried on in relation to the *scheme* and the period of that inactivity began at least twelve months earlier; or
 - (e) none of paragraphs (a) to (d) applies, but it is desirable to revoke the *authorisation order* in order to protect the interests of *participants* or potential *participants* in the *scheme*'.

16.2.4 G_{/1} For the purposes of section 254(1)(e), the *FSA* may, under subsection 254(2), take into account '...any matter relating to- (a) the *scheme*; (b) the *manager* or *trustee*;

(c) any *person* employed by or associated with the *manager* or *trustee* in connection with the *scheme*; (d) any *director* of the *manager* or *trustee*; (e) any *person* exercising influence over the *manager* or *trustee*; (f) any *body corporate* in the same *group* as the *manager* or *trustee*; (g) any *director* of any such *body corporate*; (h) any *person* exercising influence over any such *body corporate*'.

Section 257: the power

16.2.5

G
/1

- (1) Section 257(1) (Directions) contains a power for the *FSA* to give directions to the *manager* and *trustee* of an *AUT*.
- (2) Section 257(1) states that 'The *FSA* may give a direction under this section if it appears to the *FSA* that:
 - (a) one or more of the requirements for the making of an *authorisation order* are no longer satisfied;
 - (b) the *manager* or *trustee* of an *AUT* has contravened, or is likely to contravene, a requirement imposed on him by or under this *Act*;
 - (c) the *manager* or *trustee* of such a *scheme* has, in purported compliance with any such requirement, knowingly or recklessly given the *FSA* information which is false or misleading in a material particular; or
 - (d) none of paragraphs (a) to (c) applies, but it is desirable to give a direction in order to protect the interests of *participants* or potential *participants* in such a *scheme*'.

16.2.6

G
/1

- (1) The types of directions the *FSA* may give under section 257 are explained in section 257(2).
- (2) Section 257(2) states that 'A direction under this section may:
 - (a) require the *manager* of the *scheme* to cease the *issue* or *redemption*, or both the *issue* and *redemption*, of *units* under the *scheme*;
 - (b) require the *manager* and *trustee* of the *scheme* to wind it up'.

16.2.7

G
/1

Subsection 257(6) states that 'The *FSA* may, either on its own initiative or on the application of the *manager* or *trustee* of the *scheme* concerned, revoke or vary a direction given under this section if it appears to the *FSA*: (a) in the case of revocation, that it is no longer necessary for the direction to take effect or continue in force; (b) in the case of variation, that the direction should take effect or continue in force in a different form'.

Section 258: the power

16.2.8

G
/1

- (1) Section 258(1) (Applications to the court) states that 'If the *FSA* could give a direction under section 257, it may also apply to the court for an order:
 - (a) removing the *manager* or the *trustee*, or both the *manager* and the *trustee*, of the *scheme*; and

16.2.9

G
/1

(b) replacing the *person* or *persons* removed with a suitable *person* or *persons* nominated by the *FSA*.

(2) The types of direction the *FSA* may give under section 257 are explained in section 257(2) (see *ENF* 16.2.6G (2)).

Section 258(2) states that the *FSA* may nominate a *person* for the purposes of section 258(1)(b) only if it is satisfied that, if the order was made, the requirements of sections 243 (4) to (7) would be complied with (these requirements include, for example, that the *manager* and *trustee* are *bodies corporate* which are independent of each other). If it appears to the *FSA* that there is no *person* it can nominate for these purposes, it may apply to the court under section 258(3) for an order:

- (1) removing the *manager* or the *trustee*, or both the *manager* and the *trustee*, of the *scheme*; and
- (2) appointing an *authorised person* to wind up the *scheme*'.

Sections 254, 257, and 258: the *FSA*'s policy

16.2.10

G
/1

The *FSA* will consider all the relevant circumstances of each case when it decides whether it is appropriate to use one or more of its powers under these sections of the *Act*. The *FSA* may take a number of factors into account when it decides whether to use the powers. The following list is not exhaustive; not all these factors may be relevant in a particular case and there may be other factors that are relevant.

- (1) The seriousness of the breach or likely breach by a *manager* or *trustee* of a requirement imposed by or under the *Act*. The following may be relevant:
 - (a) the extent to which the breach was deliberate or reckless;
 - (b) the extent of loss, or risk of loss, caused to existing, past or potential *participants* in the *AUT* as a result of the breach;
 - (c) whether the breach highlights serious or systemic weaknesses in the management or control of either the *AUT* or the property subject to the *scheme*;
 - (d) whether there are grounds for believing a breach is likely to be continued or repeated;
 - (e) the length of time over which the breach happened; and
 - (f) whether existing and/or past *participants* in the *AUT* have been misled in a material way, for example about the investment objectives or policy of the *scheme* or the level of investment risk.
- (2) The consequences of a failure to satisfy a requirement for the making of an order authorising an *AUT*. The *FSA* will expect the non-compliance to be resolved as soon as possible. Important factors are likely to be whether existing and/or past *participants* have suffered loss due to the non-compliance and whether remedial steps will be taken to satisfy all the requirements of the order.

- (3) Whether it is necessary to suspend the *issue* and *redemption* of *units* to protect the interests of existing or potential *participants* in the *AUT*. For example, this may be necessary if:
 - (a) information suggests the current price of *units* under the *AUT* may not accurately reflect the value of the property subject to the *scheme*; or
 - (b) the property subject to the *scheme* cannot be valued accurately.
- (4) The effect on the interests of *participants* within the *scheme* of the use of either or both of its powers under sections 254 and 257. However, the *FSA* will also consider the interests of past and potential *participants*.
- (5) Whether the *FSA*'s concerns can be resolved by taking enforcement action against the *manager* and/or *trustee* of the *AUT*. In some instances, the *FSA* may consider it appropriate to deal with a breach by a *manager* or *trustee* by taking direct enforcement action against the *manager* and/or *trustee* without using its powers under sections 254, 257, or 258. In other instances, the *FSA* may combine direct enforcement action against a *trustee* and/or *manager* with the use of one or more of the powers under sections 254, 257 and 258.
- (6) Whether there is information to suggest that a *trustee* or *manager* has knowingly or recklessly given the *FSA* false information. Giving false information is likely to cause very serious concerns, particularly if it shows there is a risk of loss to the property subject to the *scheme* or that *participants*' interests have been or may be affected in some other way.
- (7) The conduct of the *manager* or *trustee* in relation to, and following the identification of, the issue, for example:
 - (a) whether the *manager* or *trustee* discovered the issue or problem affecting the *AUT* and brought it to the *FSA*'s attention promptly;
 - (b) the degree to which the *manager* or *trustee* is willing to cooperate with the *FSA*'s investigation and to take protective steps, for example by suspending the *issue* and *redemption* of *units* in the *AUT*;
 - (c) whether the *manager* or *trustee* has compensated past and existing *participants* who have suffered loss.
- (8) The compliance history of the *trustee* or *manager*, including whether the *FSA* has previously taken disciplinary action against the *trustee* or *manager* in relation to the *AUT* or any other *collective investment scheme*.
- (9) Whether there is information to suggest that the *AUT* is being used for criminal purposes and/or that the *manager* or *trustee* is itself involved in *financial crime*.

Choice of powers

16.2.11

G

/1

The *FSA* may use its powers under sections 254, 257 and 258 individually, together, and as well as direct enforcement action against a *trustee* or *manager* in their capacity as *firms*.

16.2.12 G_{/1} Where the *FSA* has a concern about an *AUT* that must be dealt with urgently, it will generally use its power to give directions under section 257 in the first instance (see *ENF* 16.2.5G to *ENF* 16.2.7G).

16.2.13 G_{/1} The following are examples of situations where the *FSA* may consider it appropriate to seek a court order under section 258 (see *ENF* 16.2.8G) to remove the *manager* or *trustee*:

- (1) where there are grounds for concern over the *behaviour* of the *manager* or *trustee* in respect of the management of the *scheme* or of its assets;
- (2) where a *manager* or *trustee* has breached a requirement imposed on him under the *Act* or has knowingly or recklessly given the *FSA* false information.

The *FSA* appreciates the effect this action may have on the reputation of a *manager* or *trustee* and will use the power only where this is proportionate in all the circumstances of the case.

16.2.14 G_{/1} The *FSA* recognises that *participants* in an *AUT* have a direct financial interest in the property subject to the *scheme*. It follows that in cases where it considers it appropriate to use its section 254 power to revoke an *authorisation order*, the *FSA* will generally first require the *manager* or *trustee* to wind up the *AUT* (or seek a court order for the appointment of a *firm* to wind up the *AUT*).

16.3 ICVCs

- 16.3.1**  Regulations for setting up, running and regulating *ICVCs* are contained in The Open-ended Investment Companies Regulations 2001 (SI 2001/1228). The regulations include the following enforcement powers:
- (1) a power for the *FSA* to revoke authorisation of an *ICVC* (regulation 23);
 - (2) a power for the *FSA* to give directions (regulation 25); and
 - (3) a power for the *FSA* to apply to court for the removal of any *director* of an *ICVC* or its *depository* (regulation 26).
- 16.3.2**  The grounds upon which the *FSA* may use its powers under regulations 23, 25 and 26 respectively are broadly similar to those upon which it may use its equivalent enforcement powers in relation to *AUTs* (see *ENF* 16.2.1G to *ENF* 16.2.9G).
- 16.3.3**  The *FSA*'s normal disciplinary powers applicable to *firms*, including the powers to publish a public censure (see *ENF* 12) and to impose financial penalties (see *ENF* 13), are also available in relation to *ICVCs*.

Regulations 23, 25 and 26: the *FSA*'s policy

- 16.3.4**  The factors the *FSA* may take into account when it decides whether to use one or more of these powers include, but are not limited to, factors which are broadly similar to those in *ENF* 16.2.10G in the context of *AUTs*. However, the relevant conduct will, of course, be that of the *ICVC*, the *director* or *directors* of the *ICVC* and its *depository* (another difference is that the *FSA* is also able to take disciplinary action against the *ICVC* itself – see *ENF* 16.3.3G). When choosing which powers to use, the *FSA* will adopt an approach which is broadly similar to that described in *ENF* 16.2.11G to *ENF* 16.2.14G.

16.4 Recognised schemes

16.4.1

G

/1

Sections 264 to 283 of the *Act* relate to *recognised schemes*. These provisions contain the following enforcement powers:

- (1) the *FSA*'s power under section 267 to suspend promotion of a *scheme* constituted in another *EEA State* and recognised under section 264 (Schemes constituted in other *EEA States*);
- (2) the *FSA*'s power under section 279 to revoke recognition of:
 - (a) a *scheme* recognised under section 270 (Schemes authorised in designated countries or territories); and
 - (b) a *scheme* individually recognised under section 272 (Individually recognised overseas schemes);
- (3) the *FSA*'s power under section 281 to give directions in respect of the *schemes* identified in *ENF* 16.4.1G (2).

Section 267: the power

16.4.2

G

/1

The *FSA* has power under section 267 of the *Act* (Power of Authority to suspend promotion of scheme) to suspend promotion of a *scheme* that is constituted in another *EEA State* and recognised under section 264. The power applies if it appears to the *FSA* that the *operator* of that *scheme* has *communicated* an invitation or inducement in relation to the *scheme* in a manner contrary to the *financial promotion rules*. Under section 267(3), the suspension may last for a set period, until a certain event has happened or until certain conditions have been met. Under sections 267(4) and (5) the *FSA* may, either on its own initiative or on the application of the *operator* of the *scheme* concerned, vary or revoke a direction suspending the *scheme*.

Section 267: the *FSA*'s policy

16.4.3

G

/1

When it decides whether a suspension order under section 267 is appropriate, the *FSA* will consider all the relevant circumstances. General factors that the *FSA* may consider include, but are not limited to:

- (1) the seriousness of the breach of *financial promotion rules* by the *operator* (the matters listed at *ENF* 16.2.10G(1)(a) to (f) may be relevant in this context); and

- (2) the conduct of the *operator* after the breach was discovered including whether the *operator* has compensated past and existing *participants* who have suffered loss.

16.4.4

G
/1

In addition to or instead of suspending the promotion of a *scheme* recognised under section 264, the *FSA* may ask the *competent authorities* of the *EEA State* in which the *scheme* is constituted who are responsible for the authorisation of *collective investment schemes*, to take such action in respect of the *scheme* and/or its *operator* as will resolve the *FSA*'s concerns. Also, Schedule 5 to the *Act* (Persons Concerned in Collective investment Schemes) states that a *person* who for the time being is an *operator*, *trustee* or *depository* of a *scheme* recognised under section 264 of the *Act* is an *authorised person*. So, it will also be open to the *FSA* to take direct enforcement action against those *persons*.

Section 279: the power

16.4.5

G
/1

- (1) Section 279 of the *Act* (Revocation of recognition) relates to *schemes* recognised under sections 270 and 272. Section 270 sets out the requirements for the recognition of a *collective investment scheme* which is not recognised under section 264 but which is managed and authorised in a country or territory designated for the purposes of section 270. Section 272 sets out the requirements for the recognition of a *collective investment scheme* which is managed in a country or territory outside the *United Kingdom* and does not meet the requirements for recognition under section 264 or 270.
- (2) Section 279 states that 'The *FSA* may direct that a *scheme* is to cease to be recognised by virtue of section 270 or revoke an order under section 272 if it appears to the *FSA*:-
- (a) that the *operator*, *trustee* or *depository* of the *scheme* has contravened a requirement imposed on him by or under this *Act*;
 - (b) that the *operator*, *trustee* or *depository* of the *scheme* has, in purported compliance with any such requirement, knowingly or recklessly given the *FSA* information which is false or misleading in a material particular;
 - (c) in the case of an order under section 272, that one or more of the requirements for the making of the order are no longer satisfied; or
 - (d) that none of paragraphs (a) to (c) applies, but it is undesirable in the interests of the *participants* or potential *participants* that the *scheme* should continue to be recognised'.

Section 281: the power

16.4.6

G
/1

Under section 281 of the *Act* (Directions), the *FSA* can suspend the recognition of a *scheme* recognised under section 270 or section 272 for a set period, until a certain event happens or until certain conditions are met. The grounds upon which the *FSA* may give a direction under section 281 are broadly similar to those for the use of its power under section 279 (see *ENF* 16.4.5G). The section 281 power may, however, also be used if it appears to the *FSA* that the *operator*, *trustee* or *depository* of a *scheme* recognised under section 270 or 272 is likely to breach a requirement imposed on him under the *Act*.

Sections 279 and 281: the FSA's policy

16.4.7

G
/1

The *FSA* will consider all the relevant circumstances of each case when it decides whether it is appropriate to use its powers under sections 279 and 281. The general factors which the *FSA* may consider include, but are not limited to, those set out in *ENF* 16.2.10G (1) to (9) (the conduct of the *operator* of the *scheme* and of the *trustee* or *depository* will also, of course, be taken into account in relation to each of these factors).

16.4.8

G
/1

As well as or instead of using these powers, the *FSA* may ask the relevant *regulatory body* of the country or territory in which the *scheme* is authorised to take such action in respect of the *scheme* and/or its *operator*, *trustee* or *depository* as will resolve the *FSA*'s concerns.

16.5 Procedures and other relevant powers and provisions

Procedures

- 16.5.1** **G**_{/1} *ENF* 16 Ann 1G lists the procedures the *FSA* must follow when using the powers discussed in this chapter.
- 16.5.2** **G**_{/1} More information on the procedures the *FSA* will follow when issuing *statutory notices* and when deciding to use its powers to apply to court is contained in *DEC*

Relevant powers and provisions other than those discussed in this chapter

- 16.5.3** **G**_{/1} Section 238 of the *Act* (Restrictions on promotion) prohibits a *firm* from communicating an invitation or inducement to participate in a *collective investment scheme* unless an exemption applies (the exemptions include the *collective investment schemes* listed in *ENF* 16.1.1G(1) to (3)). In addition, section 240 (Restriction on approval of promotion) prohibits a *firm* from approving the content of a *communication* relating to a *collective investment scheme* if the *firm* itself would be prohibited from making the *communication* by section 238. The *FSA* has a range of powers for taking remedial, protective and disciplinary action against a *firm* over breaches of these prohibitions. These include the powers discussed in *ENF* 3 (Variation of Part IV permission on the *FSA*'s own-initiative), 5 (Cancellation of Part IV permission on the *FSA*'s own initiative), 6 (Injunctions), 9 (Restitution and redress), 10 (Insolvency proceedings and orders against debt avoidance), 11(Discipline of authorised firms and approved persons: The *FSA*'s general approach), 12 (Discipline of authorised firms and approved persons: Public censures and public statements) and 13 (Discipline of authorised firms and approved persons: Financial penalties).
- 16.5.4** **G**_{/1} *Unauthorised persons* are generally prohibited by sections 19 (The general prohibition) and 21 (Restrictions on financial promotion) of the *Act* from being involved in either the management or promotion of *collective investment schemes*. The *FSA*'s civil and regulatory powers for dealing with breaches of these prohibitions include those discussed in *ENF* 6, 9 and 10. An *unauthorised person* who breaches the prohibitions in sections 19 or 21 will also be guilty of a criminal offence under the *Act*. The *FSA*'s power to prosecute criminal offences is discussed in *ENF* 15 (Prosecution of criminal offences).
- 16.5.5** **G**_{/1} The *FSA*'s investigation powers in connection with *AUTs*, *ICVCs*, *recognised schemes* and other *collective investment schemes* are discussed in *ENF* 2 (Information gathering and investigation powers).

ENF 16 ANN 1G: Table of procedures for use of CIS powers (See ENF 16.5.1G)

1 Table

Power	Circumstance	Procedure
Section 254	If the <i>FSA</i> is proposing to revoke a section 243 <i>authorisation order</i> under section 254(1) (see ENF 16.2.3G and ENF 16.2.4G)	Section 255 – <i>Warning notice / decision notice</i> (see DEC 2 and DEC 4)
Section 257	If the <i>FSA</i> is proposing to give or vary on its own initiative a direction under section 257 (see ENF 16.2.5G to ENF 16.2.7G)	Section 259 – <i>Supervisory notices</i> (see DEC 3 and DEC 4)
Section 257	If the <i>FSA</i> is proposing to refuse an application by a <i>manager</i> or <i>trustee</i> of a scheme under section 257(6) for a direction to be revoked or varied or to vary the direction otherwise than in accordance with the application (see ENF 16.2.7G)	Section 260 – <i>Warning notice / decision notice</i> (see DEC 2 and DEC 4)
Section 257	If the <i>FSA</i> decides on its own initiative to revoke a direction, or to revoke or vary a direction in accordance with a request by a <i>manager</i> or <i>trustee</i> under section 257(6) (see ENF 16.2.7G)	Section 261 – <i>Written notice</i>
Section 258	If the <i>FSA</i> is applying to the court for orders under section 258 (see ENF 16.2.8G)	Section 258(6) <i>Application and written notice</i> (see DEC 4.6)
Section 267	If the <i>FSA</i> is proposing to suspend promotion of a section 264 <i>scheme</i> under section 267 or to vary a direction suspending a <i>scheme</i> on its own initiative (see ENF 16.4.2G)	Section 268 – <i>Supervisory notices</i> (see DEC 3 and DEC 4)

Power	Circumstance	Procedure
Section 267	If the <i>FSA</i> is proposing to refuse an application by an <i>operator</i> under section 267(4) or (5) for a direction suspending a <i>scheme</i> to be varied or revoked or to vary the direction otherwise than in accordance with the application (see <i>ENF</i> 16.4.2G)	Section 269(1)– (2) and (6) – Warning notice / decision notice (see DEC 2 and DEC 4)
Section 267	If the <i>FSA</i> decides on its own initiative to revoke a direction, or to revoke or vary a direction in accordance with a request by an <i>operator</i> (see <i>ENF</i> 16.4.2G)	Section 269(4) – (6) – Written notice
Section 279	If the <i>FSA</i> is proposing to direct that a section 270 <i>scheme</i> is no longer to be recognised or to revoke a section 272 order (see <i>ENF</i> 16.4.5G)	Section 280 <i>Warning notice / decision notice</i> (see DEC 2 and DEC 4)
Section 281	If the <i>FSA</i> is proposing to give or vary a direction under section 281 on its own initiative (see <i>ENF</i> 16.4.6G)	Section 282 – <i>Supervisory notices</i> (see DEC 3 and DEC 4)
Regulation 23 <i>OEIC</i> Regulations	If the <i>FSA</i> is proposing to revoke an <i>authorisation order</i> relating to an <i>ICVC</i> under regulation 23(1) (see <i>ENF</i> 16.3)	Regulation 24 – <i>Warning notice / decision notice</i> (see DEC 2 and DEC 4)
Regulation 25 <i>OEIC</i> Regulations	If the <i>FSA</i> is proposing to give or vary a direction under regulation 25 on its own initiative (see <i>ENF</i> 16.3)	Regulation 27– <i>Supervisory notices</i> (see DEC 3 and DEC 4)
Regulation 25 <i>OEIC</i> Regulations	If the <i>FSA</i> is proposing to refuse an application to revoke or vary a direction in accordance with a request under regulation 25(7) or to vary the direction otherwise than in accordance with the application.	Regulation 28 – <i>Warning notice / decision notice</i> (see DEC 2 and DEC 4)
Regulation 25 <i>OEIC</i> Regulations	If the <i>FSA</i> decides on its own initiative to revoke a direction, or to revoke or vary a direction in accordance with a request under regulation 25(7)	Regulation 29 – Written notice
Regulation 26 <i>OEIC</i> Regulations	If the <i>FSA</i> is applying to the court for an order under regulation 26 (see <i>ENF</i> 16.3)	Regulation 26(7) – Application and written notice (see DEC 4.6)

Chapter 17.

17.

Disqualification of auditors and actuaries

17.1 Application and purpose

Application

17.1.1

G
/1

This chapter applies to auditors and *actuaries* appointed by *firms* (including ICVCs) and auditors appointed by *AUTs* under section 340(1) of the *Act* (*Appointment*).

Purpose

17.1.2

G
/1

Auditors and *actuaries* fulfil a vital role in the management and conduct of *firms*. Regulations made by the Treasury under sections 342(5) and 343(5) [the Financial Services (Communication by Auditors) Regulations 2001 are currently the subject of consultation, draft regulations in relation to actuaries will be published in due course] and *rules* made under the *Act* impose various duties on auditors and *actuaries*. These duties and the *FSA's* power to disqualify auditors and *actuaries* if they breach them will assist the *FSA* in pursuing its *regulatory objectives* of maintaining confidence in the *financial system*, protecting *consumers* and preventing *financial crime*. The *FSA's* power to disqualify auditors in breach of duties imposed by *trust scheme rules* will also assist the *FSA* to achieve these *regulatory objectives* by ensuring that auditors fulfil the duties imposed upon them by these *rules*.

17.2 Introduction

17.

17.2.1

G

^{/1}

This chapter outlines:

- (1) the *FSA*'s power to disqualify auditors and *actuaries* under section 345 of the *Act* (Disqualification);
- (2) the *FSA*'s power to disqualify auditors under section 249 of the *Act* (Disqualification of auditor for breach of trust scheme rules);
- (3) the *FSA*'s approach to the exercise of its powers under section 345 and 249;
- (4) the *FSA*'s procedure for exercising the powers; and
- (5) the effect of the *FSA*'s decision to exercise the powers.

17.3 The FSA's power to disqualify auditors and actuaries

17.3.1 G_{/1} Under section 345 of the *Act* (Disqualification), if it appears to the FSA that an auditor or *actuary* has failed to comply with a duty imposed on him under the *Act*, it may disqualify him from acting as an auditor or *actuary* for any *firm* or any class of *firm*.

17.3.2 G_{/1} The duties imposed on the auditors and *actuaries* of *firms* under the *Act* are:

- (1) the duties imposed by *rules* made under section 340(3) of the *Act* (Appointment) contained in SUP 3 (Auditors) and SUP 4 (Actuaries) and, in the case of *firms* which are ICVCs, contained in CIS 10 (Report and accounts) and 14 (Termination of authorised funds);
- (2) the duties under sections 342(6) (Information given by auditor or actuary to the FSA) and 343(6) (Information given by auditor or actuary to the FSA: persons with close links) of the *Act* to communicate to the FSA any matter prescribed in regulations made by the Treasury;
- (3) a duty to notify the FSA (under section 344(2) of the *Act* (Duty of auditor or actuary resigning etc to give notice)), if:
 - (a) they are removed from office by a *firm*;
 - (b) they resign before the expiry of their term of office with a *firm*; or
 - (c) they are not re-appointed by a *firm*;
- (4) a duty under section 344(3), on ceasing to be an auditor or an *actuary* of a *firm*, to notify the FSA without delay:
 - (a) of any matter connected with their ceasing to be an auditor or *actuary* for that *firm* which they think ought to be drawn to the FSA's attention; or
 - (b) that there is no such matter; and
- (5) the duties imposed on auditors of ICVCs in the *OEIC Regulations 2000*.

17.3.3 G_{/1} Under section 249 of the *Act* (Disqualification of auditor for breach of trust scheme rules) if it appears to the FSA that an auditor has failed to comply with the duties imposed on him by *trust scheme rules* it may disqualify him from being the auditor for any AUT or ICVC. These duties are set out in CIS 10 (Report and accounts) and 14 (Termination of authorised funds).

17.3.4 G_{/1} The FSA's powers to disqualify auditors and *actuaries* under section 345 and auditors under section 249 of the *Act* are separate powers. However, the

procedures for exercising the powers in each case are the same and are set out in section 345:

- (1) if the *FSA* proposes to disqualify an auditor or *actuary*, it must give him a *warning notice* (section 345(2); see *DEC 2.2* (Warning notice procedure));
- (2) if the *FSA* decides to disqualify an auditor or *actuary*, it must give him a *decision notice* (section 345(3); see *DEC 2.3* (Decision notice procedure));
- (3) an auditor or *actuary* who has been disqualified by the *FSA* may refer the matter to the *Tribunal* (section 345(5); see *DEC 5.1* (The Tribunal)); and
- (4) the *FSA* may remove any disqualification if it is satisfied that the disqualified auditor or *actuary* will, in future, comply with the duty in question.

17.4 The FSA's policy on disqualification of auditors and actuaries

- 17.4.1** G_{/1} The FSA recognises that the use of its powers to disqualify auditors and *actuaries* will have serious consequences for the auditors or *actuaries* concerned and their *clients*; it will therefore exercise its power to impose a disqualification in a way that is proportionate to the particular breach of duty concerned. The FSA will consider the seriousness of the breach of duty when deciding whether to exercise its power to disqualify and the scope of any disqualification.
- 17.4.2** G_{/1} *Appointed actuaries* of firms are *approved persons* and as such will be subject to the *Statements of Principle* and *Code of Practice for Approved Persons*. When deciding whether to exercise its power to disqualify an appointed *actuary*, the FSA will consider whether the particular breach of duty can be adequately addressed by the exercise of its disciplinary powers in relation to *approved persons*. These powers and the factors that the FSA will take into account when deciding whether to exercise them are set out in ENF 11 (Discipline of authorised firms and approved persons: the FSA's general approach), 12 (Discipline of firms and approved persons: public censures and public statements) and 13 (Discipline of firms and approved persons: financial penalties).
- 17.4.3** G_{/1}
- (1) Under section 345(1) of the *Act* (Disqualification), the FSA may disqualify an auditor appointed by, or an *actuary* acting for, a *firm* (including an ICVC) from acting for a specific *firm* or a particular class of *firm*. Under section 249(1) of the *Act* (Disqualification of auditor for breach of trust scheme rules), the FSA may disqualify an auditor appointed by an *AUT* from acting for any *AUT* or ICVC.
 - (2) A disqualification order will be made against the *person* appointed as auditor or *actuary* of the *firm*. In the case of *actuaries*, the disqualification order will be made against the individual appointed by the *firm*. In the case of auditors, the disqualification order will depend on the terms of the appointment. Where the *firm* has appointed a named individual as auditor the disqualification will be made against that individual and this will be the case where the individual concerned is a member of a firm of auditors. Where the *firm* has appointed a firm as auditor the disqualification order will be against that firm. Where the *person* appointed is a *limited liability partnership* the disqualification order will be against the *limited liability partnership* rather than its members.
- 17.4.4** G_{/1} When it decides whether to exercise its power to disqualify an auditor or *actuary* under section 345(1), and what the scope of any disqualification will be, the FSA will take into account all the circumstances of the case. These may include, but are not limited to, the following factors:
- (1) the nature and seriousness of any breach of *rules* and the effect of that breach: the *rules* are set out in SUP 3 (Auditors) and 4 (Actuaries), and in the case of *firms* which are ICVCs, in CIS 10 (report and accounts) and 14 (Termination of authorised funds). The FSA will regard as particularly serious any breach of

rules which has resulted in, or is likely to result in, loss to *consumers* or has resulted in, or is likely to result in, damage to confidence in the financial markets;

- (2) the nature and seriousness of any breach of the regulations made by the Treasury under section 342(5) (Information given by auditor or actuary to the FSA) and 343(5) (Information given by auditor or actuary to the FSA: persons with close links) of the *Act*. [The *FSA* will issue further *guidance* when these regulations are finalised.] When considering the nature and seriousness of any breach of the duty to disclose information to the *FSA* the following factors may be considered:
 - (a) whether the information related to the fitness and propriety of *approved persons*;
 - (b) whether the information related to a *firm's* financial soundness;
 - (c) whether the information or other circumstances indicated that the *firm* was in breach, or is likely to breach, any requirement imposed on it by or under the *Act*;
 - (d) whether, in the case of an auditor, information or circumstances have precluded him from stating that the annual accounts of the *firm* have been properly prepared in accordance with section 235 of the Companies Act 1985;
 - (e) whether the information or circumstances show that, in complying with any duties imposed by or under the *Act*, the *firm* or the auditor or *actuary* concerned has disclosed to the *FSA* or published false, inaccurate or misleading information;
- (3) the nature and effect of any failure to disclose in accordance with the Treasury's regulations: the *FSA* will regard as particularly serious any failure to disclose to it information which has resulted in, or is likely to result in, loss to *consumers* and/or which has resulted in, or is likely to result in, damage to the integrity of the market;
- (4) action taken by the auditor or *actuary* to remedy the non-disclosure or breach: this may include whether the auditor or *actuary* brought the breach or non-disclosure to the attention of the *FSA* promptly, the degree of cooperation with the *FSA* in relation to any subsequent investigation, and whether remedial steps have been taken to rectify the breach or non-disclosure and whether reasonable steps have been taken to prevent a similar breach or non-disclosure from occurring;
- (5) action taken by *designated professional bodies*: the *FSA* will consider whether any disciplinary action has been or will be taken against the auditor or *actuary* by a relevant *designated professional body* and whether that action adequately addresses the particular breach of duty;
- (6) the previous compliance record of the auditor or *actuary* concerned: whether the *FSA* (or a *previous regulator*) or *designated professional body* has imposed any previous disciplinary sanctions on the *firm* or individual concerned.

G
/1

When deciding whether or not to disqualify an auditor under section 249(1) of the *Act* (Disqualification of auditor for breach of trust scheme rules), and in setting the disqualification, the *FSA* will take into account all the circumstances of the case. These may include, but are not limited to, the following circumstances:

17.4.5

- (1) the effect of the auditor's breach of a duty imposed by *trust scheme rules*: the FSA will regard as particularly serious a breach of a duty imposed by *trust scheme rules* (set out in CIS 10 (Report and accounts) and 14 (Termination of authorised funds)) which has resulted in, or is likely to result in, loss to *consumers* or has resulted in, or is likely to result in, damage to the integrity of the financial markets;
- (2) action taken by the auditor to remedy its breach of a duty imposed by *trust scheme rules*: this may include any steps taken by the auditor to bring the breach to the attention of the FSA promptly, the degree of co-operation with the FSA in relation to any subsequent investigation, and whether any steps have been taken to rectify the breach or prevent a similar breach;
- (3) action taken by a relevant *designated professional body*: The FSA will consider whether any disciplinary action has or will be taken against the auditor by a relevant *designated professional body* and whether such action adequately addresses the particular breach of a duty imposed by *trust scheme rules*;
- (4) the previous compliance record of the auditor concerned: whether the FSA (or a *previous regulator*) or *designated professional body* has imposed any previous disciplinary sanctions on the *firm* or individual concerned.

17.5 Removal of a disqualification

17.5.1

G

/1

An auditor or *actuary* may ask the *FSA* to remove the disqualification at any time after it has been imposed.

17.5.2

G

/1

The *FSA* will remove a disqualification if it is satisfied that the disqualified *person* will in future comply with the duty in question (and other duties under the *Act*). When it considers whether to grant or refuse a request that a disqualification be removed on these grounds, the *FSA* will take into account all the circumstances of a particular case. These circumstances may include, but are not limited to:

- (1) the seriousness of the breach of duty or non-disclosure that resulted in the disqualification;
- (2) the amount of time since the original disqualification; and
- (3) any steps taken by the auditor or *actuary* after the disqualification to remedy the factors which led to the disqualification and any steps taken to prevent a similar breach of duty or non-disclosure from happening again.

17.6 The effect of a disqualification

- 17.6.1**  A disqualification will come into effect on the date stated in the *decision notice*, unless the decision is referred to the *Tribunal*.
/1
- 17.6.2**  A *firm* must not appoint as an auditor a *person* who is the subject of an order disqualifying him from acting for that *firm* or that class of *firm* (see SUP 3.4.5G (Disqualified auditors)). Similarly, an *AUT* or *ICVC* must not appoint as auditor a *person* who is the subject of an order disqualifying him from acting for that *AUT* or *ICVC* or any *AUT* or *ICVC*.
/1

17.7 Publication of disqualification

- 17.7.1** **G**_{/1} DEC 5.2 (Publication) set out certain requirements of the *Act* in relation to the FSA’s publication by of its decisions.
- 17.7.2** **G**_{/1} Under section 347 (1)(i) of the *Act* (*The record of authorised persons etc*), the FSA must keep a record of every *person* falling within such class as the FSA may determine. To help it fulfil its *regulatory objectives* of protecting *consumers* and promoting public awareness, the FSA will keep on the *FSA Register* a record of *firms* and individuals who have been the subject of disqualification orders.
- 17.7.3** **G**_{/1} Once the decision to make a disqualification order has been set out in a *final notice*, the FSA will consider what additional information about the circumstances of the order to include on the *FSA Register* and will take into account any possible prejudice to the auditor or *actuary* concerned. In general, the FSA considers that publication of relevant information about orders to disqualify auditors or *actuaries* will be in the interests of *firms* and *consumers*.
- 17.7.4** **G**_{/1} Under section 347(3) of the *Act*, if it appears to the FSA that an entry on the public record ceases to apply to a *person*, it may remove the relevant entry from the record. Section 347(4) states that, if the FSA decides not to remove the entry in the record, it must make a note to that effect on the *FSA Register* and state why it believes the entry on the record no longer applies to the *person*.
- 17.7.5** **G**_{/1} While a disqualification order is effective, the FSA will keep a record of the order on the *FSA Register*. The FSA’s policy in relation to section 347(4) of the *Act* is that where an application to revoke a disqualification order is granted, a note will be made on the *FSA Register* giving reasons for the revocation. The availability of a record of action taken by the FSA in relation to action taken against auditors and *actuaries* will assist the FSA in furthering its *regulatory objectives*, in particular, the maintenance of confidence in the financial system. For this reason, the FSA will keep the annotated record of the revoked disapplication order for a period of six years from the date of the revocation. The record will then be removed from the *FSA Register*.

Chapter 18.

Disapplication orders against members of the professions

18.

18.1 Application and purpose

Application

- 18.1.1** G_{/1}
- (1) This chapter applies to any *person* who is, in relation to a profession, entitled to practise that profession and, in practising it, is subject to the rules of the relevant *designated professional body*, whether or not it is a member of that body ("*members*").
 - (2) A *member* is exempt from the *general prohibition*, under section 327 of the *Act* (Exemption from the general prohibition), so long as the conditions set out in sections 327(2) to (7) are satisfied and so long as there is not in force:
 - (a) a direction under section 328 of the *Act* (Directions in relation to the general prohibition) disapplying the prohibition in whole or in part; or
 - (b) an order under section 329 of the *Act* (Orders in relation to the general prohibition).

Purpose

- 18.1.2** G_{/1}
- This chapter describes the *FSA*'s general approach to the use of its power under section 329 of the *Act* (Orders in relation to the general prohibition) to make an order disapplying an exemption from the *general prohibition* in relation to a *person* who is *member*.
- 18.1.3** G_{/1}
- The chapter outlines:
- (1) the *FSA*'s power to make an order disapplying an exemption ('a disapplication order'), under section 329;
 - (2) the *FSA*'s general approach to the exercise of that power;
 - (3) the *FSA*'s procedure for exercising its power to make a disapplication order;
 - (4) the effect of the *FSA*'s decision to make a disapplication order; and
 - (5) the *FSA*'s approach to an application by a *member* of a profession to have a disapplication order varied or revoked.
- 18.1.4** G_{/1}
- The *FSA*'s powers to make a disapplication order on the grounds that a *member* is not a fit and proper *person* to conduct *exempt regulated activities*, and to maintain a public record of disapplication orders, will assist the *FSA* in pursuing its

regulatory objectives of protecting *consumers*, promoting public awareness and reducing *financial crime*.

18.2 The FSA's power to make a disapplication order

- 18.2.1**  Under section 329(1) of the *Act* (Orders in relation to the general prohibition) if it appears to the *FSA* that a *person* to whom (as a result of section 327(1) of the *Act* (Exemption from the general prohibition)) an exemption from the *general prohibition* applies, is not a fit and proper *person* to carry on *exempt regulated activities*, it may make an order under section 329(2) disapplying the exemption to the extent set out in the order.
- 18.2.2**  Sections 329(5) and 329(6) are concerned with the effect of disapplication orders on *partnerships* (including *limited liability partnerships*). Section 329(5) provides that if a *partnership* (or *limited liability partnership*) is named in a disapplication order, the order is not affected by any change in its membership.
- 18.2.3**  Under section 329(6) a *partnership* (or *limited liability partnership*) named in a disapplication order is dissolved, the order continues to have effect in relation to any *partnership* (or *limited liability partnership*) that succeeds to the business of the dissolved *partnership* (or *limited liability partnership*). Section 329(7) provides that a *partnership* will succeed to the business if:
- (1) the members of the resulting *partnership* are substantially the same as those of the former *partnership*; and
 - (2) succession is to the whole or substantially the whole of the business of the former *partnership*.
- 18.2.4**  Section 331(1) (Procedure on making or varying orders under section 329) provides that if the *FSA* proposes to make a disapplication order, it must give the *person* concerned a *warning notice* setting out the terms of the proposed order. The *FSA*'s procedures in *DEC 2.2* (Warning notice procedure) will apply.
- 18.2.5**  Section 331(3) provides that if the *FSA* then decides to make a disapplication order it must give the *person* concerned a *decision notice*. The *FSA*'s procedures in *DEC 2.3* (Decision notice procedure) will apply.
- 18.2.6**  Under section 331(9), a *person* against whom the *FSA* has decided to make a disapplication order may refer the matter to the *Tribunal* (see *DEC 5.1* (The *Tribunal*)).

18.3 The FSA’s general approach to making disapplication orders

18.3.1 G_{/1} ENF 18.4 sets out how the FSA will determine whether a *member* is not a fit and proper to carry out *exempt regulated activities* in accordance with section 327 of the Act (Exemption from the general prohibition).

18.3.2 G_{/1} The FSA may make a range of disapplication orders depending on the particular circumstances of each case, including the range of *exempt regulated activities* undertaken and the particular *exempt regulated activities* to which the *person’s* lack of fitness and propriety in that context is relevant.

18.3.3 G_{/1} The FSA recognises that a decision to make a disapplication order may have serious consequences for a *member* in relation not only to the conduct by the *member* of *exempt regulated activities*, but also in relation to the other business carried on by the *member*. When it decides whether to exercise its power to make a disapplication order, the FSA will consider all relevant circumstances including whether other action, in particular the making of a *prohibition order* (see ENF 8 (Prohibition of individuals)), would be more appropriate. In general, the FSA is likely to exercise its powers to make an order disapplying an exemption where it considers that a *member* of a profession presents such a risk to the FSA’s *regulatory objectives* that it is necessary to prevent the member from carrying out the *exempt regulated activities*. The FSA will also have regard to any disciplinary action taken, or to be taken, against the *person* by the relevant *designated professional body*.

18.4 Disapplication orders

- 18.4.1** G_{/1} The *FSA* may be alerted to concerns in relation to the carrying out of *exempt regulated activities* by a *member*, by the relevant *designated professional body* or by complaints from others such as *employees* or *clients* of the *member*.
- 18.4.2** G_{/1} When the *FSA* has concerns about the fitness and propriety of a *member* to carry out *exempt regulated activities*, it will consider all the relevant circumstances of the case, including whether those concerns arise from the fitness and propriety of specific individuals engaged to perform the *exempt regulated activities* carried out by the *member* or whether its concerns arise from wider concerns about the *member* itself.
- 18.4.3** G_{/1} In most cases, where the *FSA* is concerned about the fitness and propriety of a specific individual, it may be more appropriate for the *FSA* to consider whether to make an order prohibiting the individual from performing functions in relation to *exempt regulated activities* rather than a disapplication order in relation to the *member* concerned. The criteria which the *FSA* will apply when determining whether to make a *prohibition order* against an individual who is not regulated by the *FSA* are set out in *ENF 8.8* (Prohibition orders against other individuals). In addition to the factors referred to in *ENF 8.8*, the *FSA* may also take into consideration any disciplinary action that has been, or will be taken against the individual concerned by the relevant *designated professional body*, where that disciplinary action reflects on the fitness and propriety of the individual concerned to perform *exempt regulated activities*.
- 18.4.4** G_{/1} The *FSA* will also take into account the potentially more serious consequences that a disapplication of an exemption will have for the *member* concerned compared with the consequences of a prohibition of a particular individual engaged in *exempt regulated activities*. However, the *FSA* may consider it appropriate in some cases to disapply an exemption where it decides that the *member* concerned is not fit and proper to carry out *exempt regulated activities* in accordance with section 327 of the *Act* (Exemption from the general prohibition).
- 18.4.5** G_{/1} As an alternative to making an order to disapply an exemption, the *FSA* may consider issuing a private warning. A private warning may be appropriate where the *FSA* has concerns in relation to a *member's* fitness and propriety but feels that its concerns in relation to the conduct of *exempt regulated activities* can be more appropriately addressed by a private warning than by a disapplication of the *member's* exemption.
- 18.4.6** G_{/1} When it decides whether to exercise its power to disapply an exemption from the *general prohibition* in relation to a *member*, the *FSA* will take into account all relevant circumstances which may include, but are not limited to, the following factors:
- (1) disciplinary or other action taken by the relevant *designated professional body*, where that action relates to the fitness and propriety of the *member* concerned:

where the *FSA* considers that its concerns in relation to the fitness and propriety of the *member* concerned may be, or have been adequately addressed by disciplinary or other action taken by the relevant *designated professional body* it may consider not making a disapplication order in addition to such action; however, where the *FSA* considers that its concerns, and in particular, any risks presented to the *member's clients* in respect of its *exempt regulated activities*, are not adequately addressed by that action, the *FSA* will consider making a disapplication order;

- (2) the significance of the risk which the *member* presents to its *clients*: if the *FSA* is satisfied that there is a significant risk to *clients* and *consumers* it may consider making a disapplication order;
- (3) the extent of the *member's* compliance with *rules* made by the *FSA* under section 332(1) of the *Act* (Rules in relation to whom the general prohibition does not apply) or by the relevant *designated professional body* under section 332(3) of the *Act*;

18.4.7

G
/1

Where the *FSA* is considering whether to exercise its power to make a disapplication order in relation to a *member*, it will liaise closely with the relevant *designated professional body*.

18.4.8

G
/1

Where the *FSA* is considering making a disapplication order against a *member* as a result of a breach of *rules* made by the *FSA* under section 323(1) of the *Act*, it will take into account any proposed application by the *member* concerned for *authorisation* under the *Act*. The *FSA* may refrain from making a disapplication order pending its consideration of the application for *authorisation*.

18.5 Applications for variation or revocation of disapplication orders

18.5.1 **G**_{/1} Under section 329(3) of the *Act* (Orders in relation to the general prohibition), the *FSA* may, on the application of the *person* against whom an order has been made, vary or revoke a disapplication order.

18.5.2 **G**_{/1} When considering whether to grant or refuse an application to vary or revoke a disapplication order, the *FSA* will take into account all the relevant circumstances. These may include, but are not limited to:

- (1) any steps taken by the *person* to rectify the circumstances which gave rise to the original order;
- (2) whether the *person* has ceased to present the risk to *clients* and *consumers* or to the *FSA's regulatory objectives* which gave rise to the original order;
- (3) the circumstances giving rise to the original order and any additional information which, had it been known by the *FSA*, would have been relevant to the decision to make the order;
- (4) the amount of time which has elapsed since the order was made.

18.5.3 **G**_{/1} The *FSA* will not generally grant an application to vary a disapplication order unless it is satisfied that the proposed variation will not result in the *person* presenting the same degree of risk to *clients* or *consumers* that originally gave rise to the order to disapply the exemption. Similarly, the *FSA* will not revoke a disapplication order unless and until it is satisfied that the *person* concerned is fit and proper to carry out *exempt regulated activities* generally or those specific *exempt regulated activities* in relation to which the exemption has been disapplied.

18.5.4 **G**_{/1} Section 331(6) of the *Act* (procedure on making or varying orders under section 329) provides that if the *FSA* proposes to refuse an application for the variation or revocation of a disapplication order, it must give the applicant a *warning notice*. Section 331(7) provides that if the *FSA* then decides to refuse the application, it must give the applicant a *decision notice*. The *FSA's* approach to the issue of *warning notices* and of *decision notices* is described in *DEC 2.2* (Warning notice procedure) and *DEC 2.3* (Decision making procedure). A *person* whose application for variation or revocation of a disapplication order has been refused, may refer the matter to the *Tribunal* (see *DEC 5.1* (The Tribunal)).

18.6 Other powers that may be relevant

- 18.6.1** G_{/1} This section sets out the other powers that may be relevant when the *FSA* is considering whether to make a disapplication order in relation to a *member*.
- 18.6.2** G_{/1} The *FSA*'s powers to appoint investigators are set out in *ENF 2*. In particular, under section 168(4)(d) of the *Act* (Appointment of persons to carry out investigations in particular cases) the *FSA* may appoint investigators if there appear to be circumstances suggesting that an individual is not a fit and proper *person* to be involved in the discharge of any function in relation to *exempt regulated activities*.
- 18.6.3** G_{/1} Where the *FSA* considers that it may be more appropriate to take action against particular individuals engaged in the carrying out of *exempt regulated activities* within the *member* of a profession concerned (see *ENF 18.4.3G*), it may consider using its power to make *prohibition orders* against the relevant individuals (see *ENF 8* (Prohibition of individuals)).

18.7 The effect of a disapplication order

18.7.1 **G** /1 When the *FSA* has made a disapplication order, the *member* against which it has been made may not perform the *exempt regulated activities* to which the order relates. If the *member* contravenes the order, there will be a breach of the *general prohibition* that may be prosecuted under section 23 of the *Act* (see *ENF* 15).

18.7.2 **G** /1 A disapplication order in relation to *exempt regulated activities* made against a *member* will be relevant should that *member* subsequently apply for *authorisation* under the *Act*. Whether or not such an application for *authorisation* is successful will depend on many factors, including the *FSA*'s grounds for making the disapplication order. For example, if the order for disapplication of the exemption was made on the grounds of a breach of *rules* made under 332(1) the *FSA* may accept an application for *authorisation* notwithstanding the disapplication order. If, however, the order was made on grounds of a breach of the rules of a *designated professional body* resulting in a significant risk to *clients* in relation to the provision of *exempt regulated activities*, it is unlikely that an application for approval made by the *member* would be accepted by the *FSA* before the revocation of the disapplication order.

18.8 Publication

- 18.8.1** G_{/1} DEC 5.2 (Publication) set out certain requirements of the *Act* in relation to the publication by the *FSA* of its decisions.
- 18.8.2** G_{/1} Under section 347(1)(i) of the *Act* (*Record of authorised persons*), the *FSA* is required to maintain a record of every *person* falling within such class as the *FSA* may determine. To help it fulfil its *regulatory objectives* of protecting *consumers* and promoting public awareness, the *FSA* will maintain a record of *persons* who have been the subject of disapplication orders on the *FSA's Register*.
- 18.8.3** G_{/1} The *FSA* will consider what additional information about the circumstances of the order to include on the record maintained on the *FSA Register* and will take into account any possible prejudice to the *person* concerned as compared to the interests of *consumer* protection. In general, the *FSA* considers that publication of relevant information about orders to disapply an exemption will be in the interests of *clients* and *consumers*.
- 18.8.4** G_{/1} Under section 347(3) of the *Act*, if it appears to the *FSA* that an entry in the *FSA Register* ceases to apply to a *person*, it may remove the relevant entry from the record. Section 347(4) provides that, if the *FSA* decides not to remove the entry in the record, it must make a note in the record to that effect and state why it believes the entry in the record no longer applies to the *person*.
- 18.8.5** G_{/1} While a disapplication order is effective, the *FSA* will maintain a record of the order on the *FSA Register*. If the *FSA* grants an application to vary the order, a note of the variation will be made against the relevant entry on the *FSA's Register*. The *FSA's* policy in relation to section 347(4) of the *Act* is that where an application to revoke an order is granted, a note will be made on the *FSA Register* to the effect that the order has been revoked giving reasons for its revocation. The availability of a full record of action taken by the *FSA* against *persons* granted an exemption under section 327 of the *Act* will help the *FSA* to fulfil its *regulatory objectives* of protecting *consumers* and maintaining confidence in the *financial system*. For this reason, the *FSA* will maintain the annotated record of the disapplication order for a period of six years from the date of the revocation of the order after which period the record will be removed from the record on the *FSA Register*.

DECISION MAKING MANUAL INSTRUMENT 2001

- A. The Financial Services Authority issues the statement of procedure and gives the guidance in the Annex to this instrument (“DEC) in the exercise of the powers listed in Schedule 4 to DEC.
- B. This instrument shall come into force at the beginning of the first day on which section 40 of the Financial Services and Markets Act 2000 (Application for permission) comes into force for any purpose.
- C. This instrument may be cited as the Decision Making Manual Instrument 2001.
- D. The Annex to this instrument (including its Schedules) may be cited as the Decision making manual (or DEC).

By order of the Board
21 June 2001

Chapter 1

Application, Purpose and Introduction

1.1 Application and Purpose

Application

1.1.1

G
/1

This manual gives *guidance* on the FSA's decision making and other procedures for giving *statutory notices* listed in DEC 2 Ann 1G and DEC 3 Ann 1G. This manual also gives *guidance* on the FSA's procedure for using its powers under Part XXIV of the *Act* (Insolvency), Part XXV of the *Act* (Injunctions and restitution) and Part XXVII of the *Act* (Criminal Offences). It is relevant to *firms*, *approved persons*, applicants for *Part IV permission*, *persons* for whom an application for approval under section 59 of the *Act* has been made, and other *persons*, whether or not they are regulated by the FSA. The UKLA's procedure for giving *statutory notices* under Part VI of the *Act* (Official listing) is set out in the *listing rules* and related *guidance*.

Purpose

1.1.2

G
/1

Section 395 of the *Act* (The FSA's procedures) requires the FSA to publish a statement of its procedure for the giving of *statutory notices*. The purpose of the Decision making manual (*DEC*) is to fulfil this obligation. The following constitute the required statement of procedure:

- (1) *DEC*; and
- (2) the UKLA's procedure for giving *statutory notices* under Part VI of the *Act* (Official Listing) arising out of the FSA's exercise of its regulatory powers as the competent authority for official listing (see the *listing rules* and related *guidance*).

1.1.3

G
/1

DEC 4.6 sets out the FSA's policy on the procedure to be followed:

- (1) if the FSA decides to use its:
 - (a) powers to apply to the civil courts for insolvency orders, injunctions, restitution orders and *collective investment scheme* related orders; or
 - (b) powers to prosecute criminal offences; and
- (2) if the FSA decides to discontinue any proceedings begun by the use of these powers.

1.2 Introduction

DEC and the other manuals

1.2.1

G

/1

The Authorisation manual (*AUTH*), the Supervision manual (*SUP*), the Enforcement manual (*ENF*) and the Decision making manual (*DEC*) form the regulatory processes part of the *Handbook*:

- (1) *AUTH* sets out the relationships between the FSA and applicants for *Part IV permission* and *persons* wishing to exercise *EEA rights*, *Treaty rights* or *UCITS directive* rights;
- (2) *SUP* sets out the relationship between the FSA and *authorised persons* (referred to in the *Handbook* as *firms*). As a general rule, material that is of a continuing relevance after *authorisation* is in *SUP*;
- (3) *ENF* describes the FSA's enforcement powers under the *Act* and sets out its policies for using those powers; and
- (4) *DEC* is principally concerned with, and sets out, the FSA's decision making procedures for decisions that involve the giving of *statutory notices*.

Statutory notices

1.2.2

G

/1

The *Act* designates certain notices as *warning notices*, *decision notices* or *supervisory notices* ("*statutory notices*") for which there are certain specified procedures, actions and protections. *DEC* 1.2.3G summarises the *statutory notices* and related notices and provides references to where they are described in the *Act*.

1.2.3

G

/1

Table Summary of statutory and related notices

Reference to the Act	Notice	Description	Further information
Section 387	<i>Warning notice</i>	A <i>warning notice</i> gives the recipient details about action that the <i>FSA</i> proposes to take and about the right to make representations.	DEC 2.2
Section 388	<i>Decision notice</i>	A <i>decision notice</i> gives the recipient details about action that the <i>FSA</i> has decided to take.	DEC 2.3.1G to DEC 2.3.5G
Section 388	Further <i>decision notice</i>	A further <i>decision notice</i> gives the recipient details about different action from that set out in a <i>decision notice</i> and which the <i>FSA</i> has decided to take concerning the same matter covered by the <i>decision notice</i> . The <i>FSA</i> may give a further <i>decision notice</i> only if the person to whom the original <i>decision notice</i> was given consents.	DEC 2.3.6G to DEC 2.3.7G
Section 389	<i>Notice of discontinuance</i>	A <i>notice of discontinuance</i> identifies proceedings set out in a <i>warning notice</i> or <i>decision notice</i> and which are not being taken or are being discontinued.	DEC 2.3.8G to DEC 2.3.10G
Section 390	<i>Final notice</i>	A <i>final notice</i> sets out the terms of the action that the <i>FSA</i> has decided on and the date it takes effect.	DEC 2.3.11G to DEC 2.3.12G
Section 395(13)	<i>Supervisory notices</i>	A <i>supervisory notice</i> gives the recipient details about action that the <i>FSA</i> has taken or proposes to take.	DEC 3

Decision making on giving statutory notices

- 1.2.4 G_{/1} The *FSA* has different decision making procedures depending on whether or not a *statutory notice* is given.
- 1.2.5 G_{/1} Events leading to the giving of a *statutory notice* are covered in *AUTH*, *SUP*, *ENF* and *CIS*. *DEC 2* Ann 1G and *DEC 3* Ann 1G list the relevant references.
- 1.2.6 G_{/1} Decisions whether to give a *statutory notice* and decisions associated with the *statutory notice* once it has been given (a "*statutory notice associated decision*", see *DEC 4.1.2G*) will be taken by a "decision maker". References to the "decision maker" concerning *statutory notice decisions* refer to decisions taken by:
 - (1) the *Regulatory Decisions Committee (RDC)*; or
 - (2) *FSA* staff under *executive procedures*.
- 1.2.7 G_{/1} *DEC 4.1* describes the allocation of decisions between the *RDC* and *executive procedures*. *DEC 4.2* provides further information on the *RDC*. *DEC 4.3* provides further information on *executive procedures*.

Other decisions

- 1.2.8 G_{/1} The *FSA* will make regulatory decisions falling outside section 395 of the *Act*. These will include exercise of statutory powers which do not require *statutory notices* to be given, for example: when the *FSA* grants an application for a *Part IV permission* on the terms applied for (such decisions are made by internal staff procedures as described in *AUTH 8.2.5G* to *AUTH 8.2.8G*); when the *FSA* grants other applications; decisions on applications for *waivers*; decisions to give individual *guidance*; and decisions generally in the course of the *FSA*'s oversight of regulated institutions. They also include decisions on recommendations by *FSA* staff to the *RDC*.
- 1.2.9 G_{/1} The *FSA*'s general policy is that regulatory decisions should be taken at a level of seniority which is appropriate to the decision having regard to such factors as:
 - (1) the significance of the decision to those who would be affected by it;
 - (2) its novelty in the light of stated policy and established practice;
 - (3) the complexity of the relevant considerations;
 - (4) the range of alternative options; and
 - (5) the extent to which the facts relating to the decision are or may be disputed.
- 1.2.10 G_{/1} The *FSA* expects that most decisions will be made by individuals accountable through line management to the Board within the management structure of the *FSA*. Where appropriate, decisions will be made collectively by a group of staff. Decisions will be made within the stated policies of the *FSA* and in accordance with the *Act* and other legal requirements.

Chapter 2.

2.

Statutory notice procedure: Warning notice and decision notice procedure

2.1 Warning notice and decision notice procedure: Introduction

2.1.1

G
/1

The *Act* requires the *FSA*, when proposing to exercise its powers in certain circumstances, to use the *warning notice* and *decision notice* procedure.

2.1.2

G
/1

The circumstances to which the *warning notice* and *decision notice* procedure in *DEC* apply are set out in *DEC* 2 Ann 1G. Three flowcharts are provided in *DEC* 2 Ann 2G to *DEC* 2 Ann 4G. These illustrate:

- (1) the procedure for giving *warning notices* and *decision notices* in the case of applications for *Part IV permission*, applications for approval under section 59 of the *Act* (Approval for particular arrangements), applications for variation of *permission*, and for certain other applications (see *DEC* 2 Ann 2G);
- (2) the procedure for giving *warning notices* and *decision notices* in non-application cases (see *DEC* 2 Ann 3G); and
- (3) the procedure for giving *warning notices* and *decision notices* in the case of notifications of a change in *control* (see *DEC* 2 Ann 4G).

2.1.3

G
/1

DEC 1.2.3G includes a summary of the purpose of *warning notices* and *decision notices*.

2.2 Warning notice procedure

- 2.2.1** G_{/1} Under the circumstances listed in *DEC 2* Ann 1G, if FSA staff consider that action is appropriate, they will recommend to the relevant decision maker that a *warning notice* be given. A specimen *warning notice* for enforcement cases is at *DEC 2* Ann 5G.
- 2.2.2** G_{/1} After considering the staff recommendation, the decision maker may:
- (1) decide not to take further action (with or without a private warning (see *ENF 11.3* (Private warnings)); or
 - (2) decide to give a *warning notice* to the *person* concerned.
- 2.2.3** G_{/1} In the case of a proposed refusal of an application for approval under section 59 of the *Act*, the FSA must send a *warning notice* to all *interested parties*. Under section 62(5) of the *Act* (Applications for approval: procedure and right to refer to Tribunal), the *interested parties* in relation to an application for approval, are:
- (1) the applicant;
 - (2) the *person* in respect of whom the application is made ("A");
 - (3) the *person* by whom A's services are to be retained, if not the applicant.
- 2.2.4** G_{/1} Under regulation 22 of the *OEIC Regulations*, in the case of a *warning notice* concerning a proposed change in respect of an *ICVC*, the notice must be given to the *depository* as well as the *ICVC*. The only exception is if the proposal is to replace the *depository* or any *director*.
- 2.2.5** G_{/1} If the FSA decides to give a *warning notice* to a *person*, in accordance with section 387 of the *Act* (Warning notices), the *warning notice* must:
- (1) state the action which the FSA proposes to take;
 - (2) be in writing;
 - (3) give the FSA's reasons for the proposed action;
 - (4) state whether section 394 of the *Act* (Access to FSA material) applies (see *DEC 2.4*); and
 - (5) if that section applies, describe its effect and state whether any *secondary material* exists to which the *person* concerned must be allowed access under it.
- 2.2.6** G_{/1} If the FSA decides to take no further action and the FSA had previously informed the *person* concerned that it intended to recommend action, the FSA will communicate this decision promptly to the *person* concerned.

- 2.2.7 G_{/1} The *warning notice* will contain a statement that the *person* concerned is entitled to make representations to the *FSA*. The notice must specify a reasonable period, of at least 28 days from receiving (see *DEC 5.3*) the *warning notice*, within which the *person* to whom it is given may make representations.
- 2.2.8 G The procedures for making representations are set out in *DEC 4.4*.
- 2.2.9 G_{/1} The *warning notice* will contain (where appropriate) a statement that the mediation scheme is available. The applicability of the *FSA's* mediation scheme is described in *DEC App 1*.

2.3 Decision notice procedure

2.3.1 G_{/1} The decision maker will consider any representations made in accordance with DEC 4.4 in relation to a *warning notice* which has already been given. A decision will be stated in a *decision notice* or (where appropriate) a *notice of discontinuance* or other written notice. The *decision notice* sets out the terms of the decision. A specimen *decision notice* for enforcement cases is at DEC 2 Ann 6G.

2.3.2 G_{/1} In accordance with section 388 of the *Act* (Decision notices), the *decision notice* must:

- (1) be in writing;
- (2) give the *FSA*'s reasons for its decision to take the action to which the *decision notice* relates;
- (3) state whether section 394 of the *Act* (Access to *FSA* material) applies (see DEC 2.4);
- (4) if that section applies, describe its effect and state whether any *secondary material* exists to which the *person* concerned must be allowed access under it; and
- (5) give an indication of:
 - (a) any right given by the *Act* to have the matter referred to the *Tribunal*; and
 - (b) the procedure on referring a case to the *Tribunal*.

2.3.3 G_{/1} In the case of a proposed refusal of an application for approval under section 59 of the *Act*, the *FSA* must give a *decision notice* to all *interested parties* (see DEC 2.2.3G).

2.3.4 G_{/1} In the case of a *decision notice* concerning a notification of a proposed change in respect of an *ICVC*, the *FSA* must give a *decision notice* to the *depository* as well as to the *ICVC*, if the *depository* received the *warning notice* (see DEC 2.2.4G).

2.3.5 G_{/1} The decision maker may decide to take action different from that proposed in the *warning notice*. However, under section 388(2) of the *Act*, that action must be made under the same Part of the *Act* as the action proposed in the *warning notice*.

Further decision notice

2.3.6 G_{/1} Under section 388(3) of the *Act*, following the giving of a *decision notice* but before the *FSA* takes action to which the *decision notice* relates, the *FSA* may give the *person* concerned a further *decision notice* relating to different action

concerning the same matter. Under section 388(4) of the *Act*, the *FSA* can only do this if the *person* receiving the further *decision notice* gives his consent. In these circumstances the following procedure will apply:

- (1) *FSA* staff will recommend to the decision maker that a further *decision notice* be given, either before or after obtaining the *person's* consent;
- (2) the decision maker will consider whether the action proposed in the further *decision notice* is appropriate in the circumstances;
- (3) if the decision maker decides that the action proposed is inappropriate, he will decide not to give the further *decision notice*. In this case, the original *decision notice* will stand and the *person's* rights in relation to that notice will be unaffected. If the *person's* consent has already been obtained, the *FSA* will notify him of the decision not to give the further *decision notice*;
- (4) if the decision maker decides that the action proposed is appropriate then, subject to the *person's* consent being (or having been) obtained, a further *decision notice* will be given;
- (5) a *person* who had the right to refer the matter to the *Tribunal* under the original *decision notice* will have that right under the further *decision notice*. The time period in which the reference to the *Tribunal* may be made will begin from the date on which the further *decision notice* is given.

2.3.7

G
/1

For the purpose of establishing whether the *person* receiving the further *decision notice* gives his consent, the *FSA* will normally require consent in writing. If the *person* concerned is an individual, the *FSA* will normally require a letter or signed memorandum from him recording his consent. If the *person* concerned is a *body corporate* or *partnership*, the *FSA* will normally require a letter or signed memorandum on behalf of the *body corporate* or *partnership* stating its consent.

Notice of discontinuance

2.3.8

G
/1

If the *FSA* decides not to take action proposed in a *warning notice* or the action to which a *decision notice* relates, section 389 of the *Act* (Notices of discontinuance) requires the *FSA* to give a *notice of discontinuance* to the *person* to whom the *warning notice* or *decision notice* was given. (Section 389 of the *Act* does not apply if the discontinuance of the proceedings results in the granting of an application made by the *person* to whom the *warning notice* (or *decision notice*) was given.)

2.3.9

G
/1

A *notice of discontinuance*:

- (1) must identify what proceedings are being discontinued (section 389(3)); and
- (2) must state that the *FSA* may publish information about the matter if the *person* to whom the *notice of discontinuance* is given consents (section 391(2)).

2.3.10

G
/1

Where the *FSA* is required to give a *person* a copy of a *notice of discontinuance* (see DEC 2.4.10G), the copy must be accompanied by a statement that the *FSA* may publish information about the matter, so far as relevant to the *person* to whom the copy is given, if that *person* consents.

Final notice

2.3.11

G
/1

Under section 390 of the *Act* (Final notices), the *FSA* must give a *final notice* to the *person* to whom it has given a *decision notice*:

- (1) if the matter was not referred to the *Tribunal* within the period of 28 days of the date when the *decision notice* was given, or within any other period that may be prescribed in the *Tribunal* rules, in which case the *FSA* will give a *final notice* at the same time as it takes the action to which the *decision notice* relates;
- (2) if the matter was referred to the *Tribunal* within the period of 28 days of the date when the *decision notice* was given, or within any other period that may be prescribed in the *Tribunal* rules, in which case the *FSA* will give a *final notice* at the same time as it takes action in accordance with any directions given by the *Tribunal* or the Court under section 137 of the *Act* (Appeal on a point of law).

2.3.12

G
/1

A *final notice* sets out the terms of the statement, order, penalty or other action, and will give details of the date when the action takes effect.

2.4 Third party rights and access to FSA material

2.4.1

G
/1

Sections 393 (Third party rights) and 394 (Access to FSA material) of the *Act* confer additional procedural rights relating to third parties and to disclosure of *FSA* material. These rights apply in certain *warning notice* and *decision notice* cases referred to in section 392 of the *Act* (Application of sections 393 and 394). The cases in which these additional rights apply are identified in *DEC 2 Ann 1G* by asterisks; these are generally cases in which the *warning notice* or *decision notice* is given on the *FSA*'s own initiative rather than in response to an application or notification made to the *FSA*.

Access to FSA material

2.4.2

G
/1

If section 394 of the *Act* (Access to FSA material) applies and the *FSA* gives a *person* a *warning notice* or *decision notice*, it must under section 394(1) allow that *person* ("A") access to:

- (1) the material on which the *FSA* relied in taking the decision which gave rise to the obligation to give the *warning notice* (or the *decision notice*); and
- (2) any *secondary material*, which, in the opinion of the *FSA*, might undermine that decision.

2.4.3

G
/1

However, the duty under section 394(1) is qualified in the following ways:

- (1) under section 394(2), the *FSA* does not have to allow A access to material that is *excluded material*;
- (2) under section 394(2)(a) and (b), the *FSA* does not have to allow A access to material if this:
 - (a) relates to a case involving a *person* other than A; and
 - (b) was taken into account in A's case only for the purpose of comparison with other cases;
- (3) under section 394(3), the *FSA* may refuse A access to particular material to which it would otherwise have to allow him access if, in the *FSA*'s opinion, allowing him access to the material would not be in the public interest or would not be fair, having regard to:
 - (a) the likely significance of the material to the *person* concerned in relation to the matter about which he has been given a notice; and

(b) the potential prejudice to the commercial interests of a *person* (other than A) which would be caused by the material’s disclosure.

2.4.4 G_{/1} If under section 394(2) the *FSA* does not allow A access to material because it is *excluded material* consisting of a *protected item*, it must give A written notice of the existence of the *protected item* and of the *FSA*’s decision not to allow him access to it (section 394(4)).

2.4.5 G_{/1} If under section 394(3) the *FSA* refuses to allow A access to particular material, it must give him written notice of the refusal and the reasons for it (section 394(5)).

2.4.6 G_{/1} If the *FSA* receives a request for access to material, the *FSA* may within a reasonable period after the request was made:

- (1) provide facilities for the inspection and photocopying of the material that it considers it is required to disclose; or
- (2) provide a photocopy of the material.

The *FSA* will provide the first photocopy of the material free of charge, but will charge for subsequent copies it provides to the same *person*.

Third party rights

2.4.7 G_{/1} If section 393 (Third party rights) applies and any of the reasons given in the *warning notice* relate to a matter which:

- (1) identifies a *person* (“the third party”) other than the *person* to whom the *warning notice* is given; and
- (2) in the *FSA*’s opinion is prejudicial to the third party;

then the *FSA* must give the third party, in accordance with section 393 of the *Act*, a copy of the *warning notice*.

2.4.8 G_{/1} A copy of the *warning notice* will not be given if the *FSA* considers that this would be impracticable, or the *FSA* has already given the third party a separate *warning notice* about the same matter. Similarly, a copy of the *warning notice* will not be given if the *FSA* gives the third party such a notice at the same time as it gives the *warning notice* which identifies him.

2.4.9 G_{/1} DEC 2.4.7G and DEC 2.4.8G apply similarly in relation to a *decision notice*.

2.4.10 G_{/1} The *FSA* must give a copy of the *notice of discontinuance*, *decision notice* or *final notice* (as appropriate) to a third party who has been given a copy of the *warning notice* or *decision notice* (section 393(14), 393(5) and 390(1) of the *Act*).

2.4.11 G_{/1} If the *FSA* gives a copy of a *warning notice* or *decision notice* to a third party, the copy must be accompanied by an indication of the third party’s right under section 393(9) to refer the case to the *Tribunal* and the procedure on such a referral.

2.4.12 G_{/1} If the *FSA* gives a copy of a *warning notice* or *decision notice* to a third party, the provisions about access to *FSA* material also apply to the third party (DEC 2.4.2G to DEC 2.4.6G). Under section 393(12), the material that the *FSA* must disclose under section 394 is material that relates to the matter that identifies the third party.

Statutory notice procedure: Warning notice and decision notice procedure

G

1 Table List of warning notices and decision notices under the Act (other than Part VI)

Note: Third party rights and access to *FSA* material apply to the powers listed in this table where indicated by an asterisk * (see *DEC* 2.4)

Section of the Act	Description	Handbook reference	Decision maker
52(6)(a)/ 52(9)(a)	when the <i>FSA</i> is proposing/deciding to grant an application for a <i>Part IV permission</i> with a <i>limitation</i> or a <i>requirement</i> which was not applied for, or with a narrower description of <i>regulated activity</i> than that applied for	<i>AUTH</i> 3	<i>RDC</i>
52(6)(b)/(9) (b)	when the <i>FSA</i> is proposing/deciding to grant an application to vary a <i>firm's Part IV permission</i> but, otherwise than as part of the application, to restrict the <i>Part IV permission</i> (either by imposing a <i>limitation</i> or <i>requirement</i> which was not applied for or by specifying a narrower description of <i>regulated activity</i> than that applied for)	<i>SUP</i> 6	<i>RDC</i> / <i>executive procedures</i> (Note 1)
52(7)/(9)(c)	when the <i>FSA</i> is proposing/deciding to refuse an application for a <i>Part IV permission</i>	<i>AUTH</i> 3	<i>RDC</i>
52(7)/(9)(c)	when the <i>FSA</i> is proposing/deciding to refuse an application to vary a <i>firm's Part IV permission</i>	<i>SUP</i> 6	<i>RDC</i> / <i>executive procedures</i> (Note 1)
52(7)/(9)(c)	when the <i>FSA</i> is proposing/deciding to refuse an application to cancel a <i>firm's Part IV permission</i>	<i>SUP</i> 6	<i>RDC</i>
54(1)/(2)	when the <i>FSA</i> is proposing/deciding to cancel a <i>firm's Part IV permission</i> otherwise than at its request*	<i>ENF</i> 5	<i>RDC</i>
57(1)/(3)	when the <i>FSA</i> is proposing/deciding to make a <i>prohibition</i> order against an individual*	<i>ENF</i> 8	<i>RDC</i>

58(3)/(4)	when the <i>FSA</i> is proposing/deciding to refuse an application for the variation or revocation of a <i>prohibition order</i>	<i>ENF</i> 8	<i>RDC</i>
62(2)/(3)	when the <i>FSA</i> is proposing/deciding to refuse an application for approval of a <i>person</i> performing a <i>controlled function</i> under section 59 of the <i>Act</i> (in conjunction with an application for <i>Part IV permission</i>)	<i>AUTH</i> 6	<i>RDC</i>
62(2)/(3)	when the <i>FSA</i> is proposing/deciding to refuse an application for approval of a <i>person</i> performing a <i>controlled function</i> (otherwise than in conjunction with an application for <i>Part IV permission</i>)	<i>SUP</i> 10	<i>RDC</i>
63(3)/(4)	when the <i>FSA</i> is proposing/deciding to withdraw approval from an <i>approved person</i> *	<i>ENF</i> 8	<i>RDC</i>
67(1)/(4)	when the <i>FSA</i> is proposing/deciding to take action against an <i>approved person</i> by exercising the disciplinary powers conferred by section 66*	<i>ENF</i> 11/12/13	<i>RDC</i>
126(1)/127(1)	when the <i>FSA</i> is proposing/deciding to impose a sanction for <i>market abuse</i> *	<i>ENF</i> 14	<i>RDC</i>
183(3)/186(1)	when the <i>FSA</i> is proposing/deciding to object to a change in <i>control</i> following receipt of a notice of control	<i>SUP</i> 11	<i>Executive procedures</i>
185(3)/(4)	when the <i>FSA</i> is proposing/deciding to approve a change in <i>control</i> following receipt of a notice of control but subject to conditions	<i>SUP</i> 11	<i>Executive procedures</i>
187(1)/(3) and 188(1)	when the <i>FSA</i> is proposing/deciding to object to a <i>person</i> who has failed to submit a notice of control or a notice on acquiring, or increasing, <i>control</i> , or to object to an existing <i>controller</i>	<i>SUP</i> 11	<i>Executive procedures</i>
200(4)/(5)	when the <i>FSA</i> is proposing/deciding to refuse an application for variation or rescission of a requirement imposed on an <i>incoming firm</i>	<i>ENF</i> 4	<i>RDC / executive procedures (Note 1)</i>
207(1)/208(1)	when the <i>FSA</i> is proposing/deciding to publish a statement in respect of an <i>authorised person</i> (under section 205) or impose a financial penalty on an <i>authorised persons</i> (under section 206)*	<i>ENF</i> 11/12	<i>RDC</i>

245(1)/(2)	when the <i>FSA</i> is proposing/deciding to refuse an application for an <i>authorisation order</i> declaring a <i>unit trust scheme</i> to be an <i>AUT</i>	<i>CIS 16</i>	<i>RDC / executive procedures (Note 2)</i>
252(1)/(4)	when the <i>FSA</i> is proposing/deciding to refuse approval of a proposal to replace the <i>trustee</i> or <i>manager</i> of an <i>AUT</i>	<i>CIS 16</i>	<i>Executive procedures</i>
255(1)/(2)	when the <i>FSA</i> is proposing/deciding to make an order under section 254 revoking the <i>authorisation order</i> of an <i>AUT</i> *	<i>ENF 16</i>	<i>RDC</i>
260(1)/(2)	when the <i>FSA</i> , on an application to revoke or vary a direction under section 257, proposes/decides to refuse to revoke or vary the direction or proposes/decides to vary the direction otherwise than in accordance with the application	<i>ENF 16</i>	<i>RDC</i>
264(2)/265(4) (Note 3)	when the <i>FSA</i> is notifying/deciding not to withdraw a notice, to the operator and relevant <i>EEA State</i> authorities, that the way in which a <i>collective investment scheme</i> constituted in another <i>EEA State</i> intends to invite <i>persons</i> in the <i>United Kingdom</i> to participate in the <i>scheme</i> does not comply with <i>UK law</i>	<i>CIS 16</i>	<i>Executive procedures</i>
269(1)/(2)	when the <i>FSA</i> , on an application under subsection (4) or (5) of section 267 by an <i>operator</i> of a section 264 <i>recognised scheme</i> to revoke or vary a direction that the promotion of the <i>scheme</i> be suspended, proposes/decides to refuse the application or to vary the direction otherwise than in accordance with the application	<i>ENF 16</i>	<i>RDC</i>
271(1)/(3)	when the <i>FSA</i> is proposing/deciding to refuse approval of a collective investment scheme as a recognised scheme under section 270	<i>CIS 16</i>	<i>Executive procedures</i>
276(1)/(2)	when the <i>FSA</i> is proposing/deciding to refuse an application for an order declaring a <i>collective investment scheme</i> to be a <i>recognised scheme</i> under section 272	<i>CIS 16</i>	<i>Executive procedures</i>

280(1)/(2)	when the <i>FSA</i> is proposing/deciding to direct that a section 270 <i>recognised scheme</i> is to cease to be recognised or to revoke a section 272 order in respect of a <i>recognised scheme</i> *	<i>ENF 16</i>	<i>RDC</i>
321(8)/(9)	when the <i>FSA</i> is proposing/deciding to refuse an application for variation or revocation of a direction or a requirement imposed on a former underwriting member of Lloyd's*	None	<i>RDC</i>
331(1)/(3)	when the <i>FSA</i> is proposing/deciding to make an order disapplying the exemption from the <i>general prohibition</i> under section 327*	<i>ENF 18</i>	<i>RDC</i>
331(7)/(8)	when the <i>FSA</i> is proposing/deciding to refuse an application for the variation or revocation of an order made under section 329*	<i>ENF 18</i>	<i>RDC</i>
345(2)/(3)	when the <i>FSA</i> is proposing/deciding to disqualify an auditor or actuary from being the auditor of, or acting as an actuary for, any <i>authorised person</i> or class of <i>authorised person</i> or from being the auditor of any <i>AUT</i> or <i>ICVC</i> *	<i>ENF 17</i>	<i>RDC</i>
385(1)/386 (1)	when the <i>FSA</i> is proposing/deciding to exercise the power under section 384(5) to require a <i>person</i> to pay restitution*	<i>ENF 9</i>	<i>RDC</i>
Paragraph 19(8)/(12) of schedule 3	when the <i>FSA</i> is proposing/deciding to refuse to give a <i>consent notice</i> to a <i>UK firm</i> wishing to establish a <i>branch</i> under an <i>EEA right</i>	<i>SUP 13</i>	<i>RDC</i>
OEIC Regulations reference	Description	Handbook reference	Decision maker
Regulation 16(1)/(2)	when the <i>FSA</i> is proposing/deciding to refuse an application for an <i>authorisation order</i> in respect of a proposed <i>ICVC</i>	<i>CIS 16</i>	<i>RDC / executive procedures (Note 2)</i>
Regulation 22(1)/(2)/(4)/(5)	when the <i>FSA</i> is proposing/deciding to refuse approval of (or, having given a <i>warning notice</i> , deciding to approve (Note 4)) a proposal to replace the <i>depository</i> or director of an <i>ICVC</i> , or any other proposal/decision falling within regulation 21	<i>CIS 16</i>	<i>Executive procedures</i>

Regulation 24(1)/(2)	when the <i>FSA</i> is proposing/deciding to revoke an <i>authorisation order</i> relating to an <i>ICVC</i> under regulation 23(1)*	<i>ENF 16</i>	<i>RDC</i>
Regulation 28(1)/(2)	when the <i>FSA</i> is proposing/deciding to refuse an application to revoke or vary a direction in accordance with a request under regulation 25(7) or to vary the direction in accordance with the application	<i>ENF 16</i>	<i>RDC</i>
Paragraph 20 of schedule 5	when the <i>FSA</i> is proposing/deciding to use the disqualification powers under section 249(1)*	<i>ENF 17</i>	<i>RDC</i>

Note 1: The decision will be made by the *RDC* if it involves a fundamental (see *DEC* 4.1.5G) change to the nature of a *permission*.

Note 2: The decision will be made by the *RDC* if it relates to an application for an *authorisation order* by an *authorised fund manager* who is not the *operator* of an existing *AUT* or *ICVC*.

Note 3: Although the notice under section 265(4) is a *decision notice*, the notice under section 264(2) is not a *warning notice*. The *FSA* will operate a procedure compliant with section 264 for the section 264(2) notice, which will be similar to the procedure for a *warning notice*.

Note 4: The *FSA* must give a *decision notice* under regulation 22(5) of the *OEIC Regulations* when, having given a *warning notice*, it decides to approve a proposal. But this *decision notice* has the effect of a written notice giving the *FSA's* approval under regulation 21(3)(a) of the *OEIC Regulations*. Although the *FSA* will comply with the statutory requirements regarding the giving of *decision notices*, *DEC* should otherwise be read as if the *decision notice* was a written notice granting an application.

Statutory notice procedure: Warning notice and decision notice procedure

G

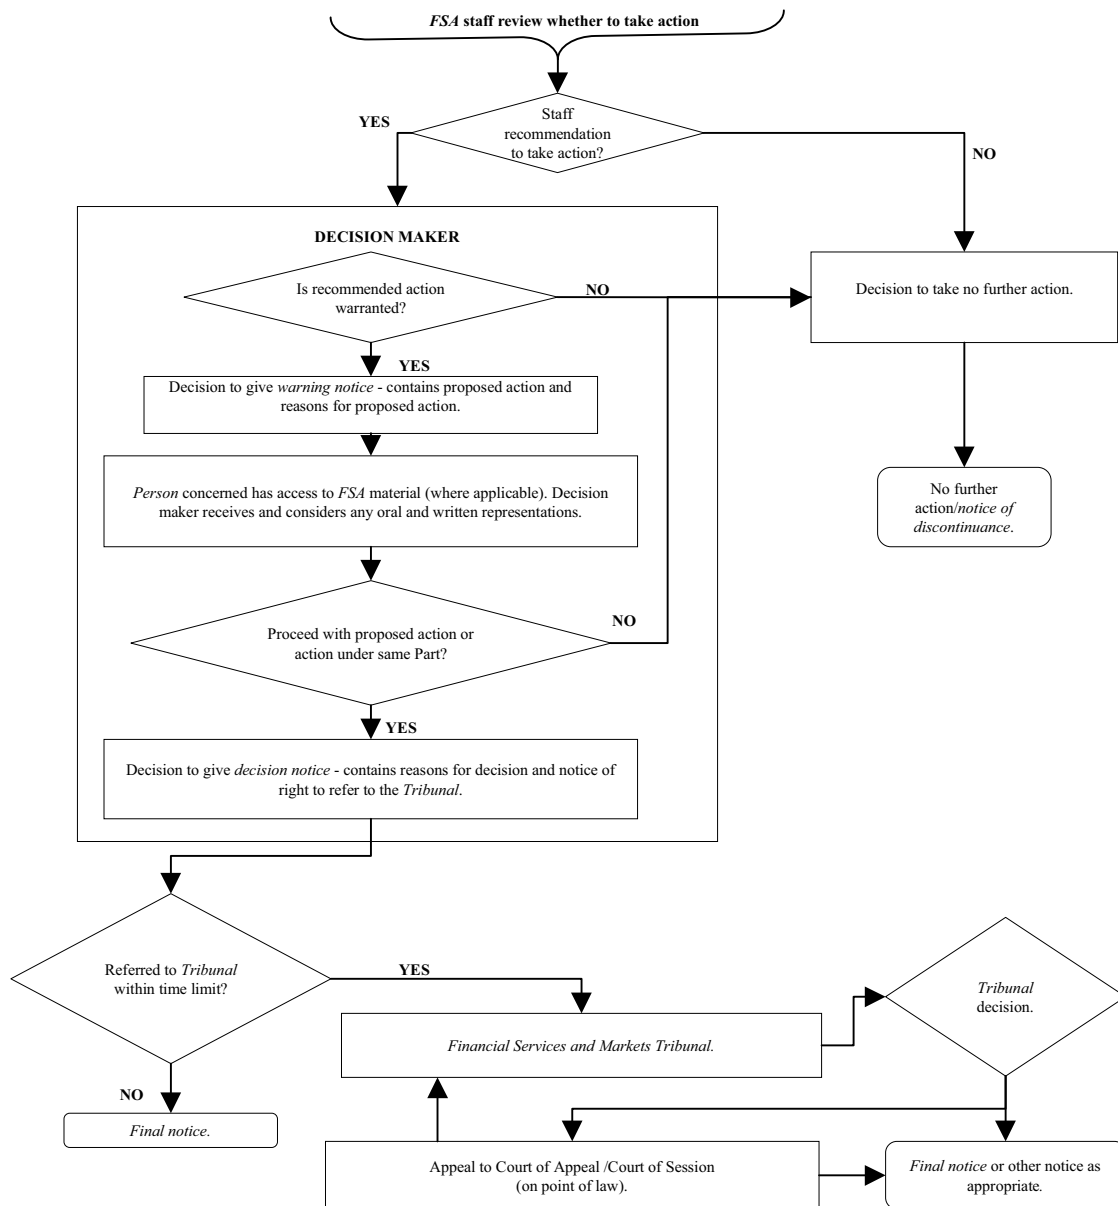

The FSA's decision making procedure for applications concerning Part IV permission, applications for approval under section 59 of the Act, and for certain other applications involving warning and decision notices

Statutory notice procedure: Warning notice and decision notice procedure

G

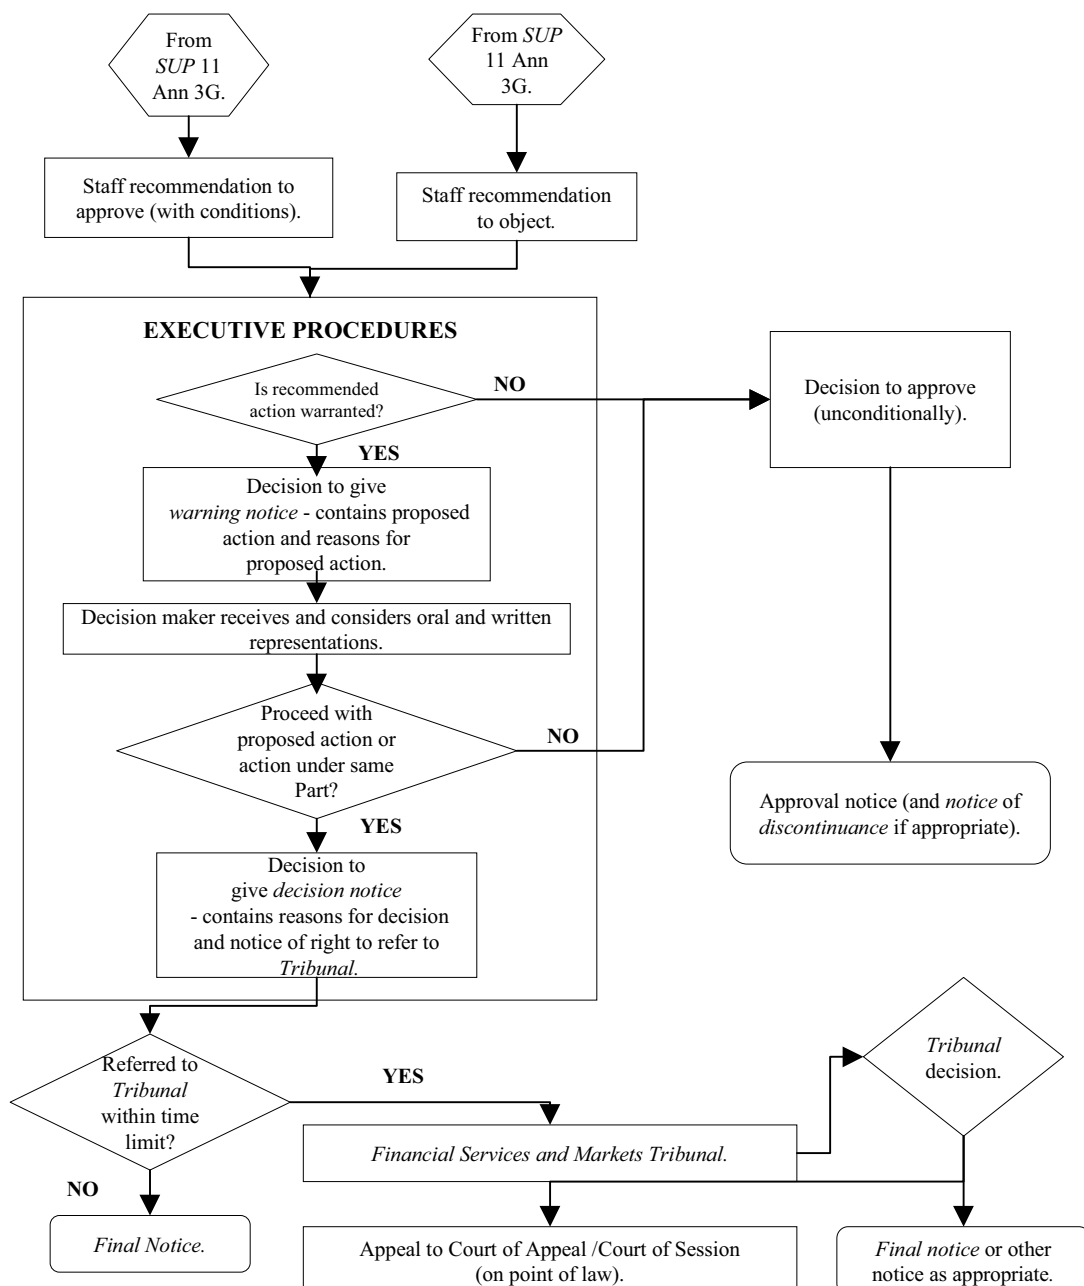

The FSA's decision making procedure in non-application cases involving warning and decision notices

Statutory notice procedure: Warning notice and decision notice procedure

G

The FSA's decision making procedure on notification of a change in control involving warning and decision notices

Specimen warning notice

WARNING NOTICE

TAKE NOTICE: The Financial Services Authority of 25 The North Colonnade, Canary Wharf, London E14 5HS (“the FSA”) proposes to take the following action.

PROPOSED ACTION

[Details of proposed action including details of any financial penalty, the text of any public statement of misconduct, and the terms of any prohibition order]

REASONS

[Reasons for the proposed action]

DECISION MAKER

The decision to give this notice was made by [identity of relevant committee or individual] on behalf of the FSA

IMPORTANT

This warning notice is sent to you in accordance with section 387 of the Financial Services and Markets Act 2000 (“the Act”). (See DEC 2.2 of the Decision making manual.)

You may make written and oral representations to the FSA. If you wish to make representations you must do so within [28] days of receiving this warning notice or such longer period as may be permitted by the FSA. Written representations should be made to the Secretary, Regulatory Decisions Committee, at the above address. (See DEC 4.4 of the Decision making manual.)

[Section 394 of the Act applies to this warning notice. In accordance with section 394, you are entitled to have access to:

- (a) the material upon which the FSA has relied in deciding to give you this notice; and
- (b) any secondary material which, in the opinion of the FSA, might undermine that decision.

[The following secondary material exists]/[There is no such secondary material] to which you must be allowed access. (See DEC 2.4 of the Decision making manual.)]

[The FSA operates a mediation scheme for certain disciplinary and market abuse cases, where settlement discussions have taken place but broken down. You may use this scheme, but you are not obliged to do so. (See DEC App 1 of the Decision making manual.)]

Please contact [contact name and details] at the FSA for more information.

[Reasons for the FSA’s decision to take the action]

DECISION MAKER

The decision to give this notice was made by [identity of relevant committee or individual] on behalf of the FSA

YOUR RIGHTS

This decision notice is sent to you in accordance with section 388 of the Financial Services and Markets Act 2000 (“the Act”). (See DEC 2.3 of the Decision making manual.)

[Section 394 of the Act applies to this decision notice. In accordance with section 394, you are entitled to have access to:

- (a) the material upon which the FSA has relied in deciding to give you this notice; and
- (b) any secondary material which, in the opinion of the FSA, might undermine that decision.

[The following secondary material exists]/[There is no such secondary material] to which you must be allowed access. (See DEC 2.4 of the Decision making manual.)]

Section [insert relevant section] of the Act entitles you, if you wish, to refer the FSA's decision to the Financial Services and Markets Tribunal ("the Tribunal"). Under section 133 of the Act, you have 28 days from the date of this decision notice to refer the matter to the Tribunal, although the Tribunal may permit you a longer period (see DEC 5.1 of the Decision making manual). The detailed procedures for making a reference to the Tribunal are contained in section 133 of the Act and the Tribunal rules. (See [insert where these can be found].)

Chapter 3.

Statutory notice procedure: Supervisory notice procedure

3.

3.1 Supervisory notice procedure

3.1.1 **G** _{/1} The *Act* requires the *FSA*, when proposing to exercise its powers in certain circumstances, to use the *supervisory notice* procedure. The relevant circumstances are set out in *DEC 3 Ann 1G*. *DEC 1.2.3G* includes a summary of the purpose of *supervisory notices*.

3.1.2 **G** _{/1} In *DEC 3.1.3G* to *DEC 3.1.10G*, the *supervisory notice* about a matter first given to the recipient is referred to as the "first *supervisory notice*" and the *supervisory notice* given after consideration of any representations is referred to as the "second *supervisory notice*". *DEC 3* sets out the procedure which applies when the *FSA* gives a *supervisory notice*. The flowchart in *DEC 3 Ann 2G* illustrates the procedure for the giving of *supervisory notices*. A specimen notice for enforcement cases is at *DEC 3 Ann 3G*.

First supervisory notice

3.1.3 **G** _{/1} In the circumstances listed in *DEC 3 Ann 1G*, if *FSA* staff consider that action is appropriate, they will recommend to the relevant decision maker that a *supervisory notice* be given. The recommendation will say whether the action should take effect immediately, on a specified date, or when the matter is no longer *open to review*.

3.1.4 **G** _{/1} After considering the staff recommendation, the *FSA* may:

- (1) decide to take no action; or
- (2) decide to give a first *supervisory notice* to the *person* concerned.

3.1.5 **G** _{/1} If the *FSA* decides to give a first *supervisory notice* to a *person*, in accordance with the sections of the *Act* listed in *DEC 3 Ann 1G*, the notice must:

- (1) give details of the action;
- (2) inform him when the action takes effect;
- (3) state the *FSA's* reasons for the action and for its decision as to when the action takes effect;
- (4) inform him of his right to refer the matter to the *Tribunal* and give an indication of the procedure on such a reference; and
- (5) inform him that he may make representations to the *FSA* within such a period as may be specified in the notice (whether or not the matter has been referred to the *Tribunal*).

3.1.6 G_{/1} If the *FSA* decides to take no further action and the *FSA* had previously informed the *person* concerned that it intended to recommend action, the *FSA* will communicate this decision promptly to the *person* concerned.

3.1.7 G_{/1} The procedures for making representations are set out in *DEC* 4.4.

Second supervisory notice

3.1.8 G_{/1} The *FSA* will consider any representations made in accordance with *DEC* 4.4 concerning a first *supervisory notice* which the *FSA* has already given.

3.1.9 G_{/1} If the *FSA* decides to take the proposed action, or to take action in a different way, or decides not to rescind action that is already effective, then in accordance with the sections of the *Act* listed in *DEC* 3 Ann 1G, a second *supervisory notice* must be given.

3.1.10 G_{/1} If the *FSA* decides to give a second *supervisory notice*, its content will depend on the action the *FSA* decides to take.

- (1) If the *FSA* decides to take the action proposed in the first *supervisory notice*, or if action has already been taken which the *FSA* decides not to rescind, in accordance with the sections of the *Act* listed in *DEC* 3 Ann 1G, the notice must inform the *person* concerned of his right to refer the matter to the *Tribunal*. If a notice informs a *person* of his right to refer the matter to the *Tribunal*, it must also describe the procedure on such a reference.
- (2) If the *FSA* decides to take different action from that proposed in the first *supervisory notice*, then in accordance with the sections of the *Act* listed in *DEC* 3 Ann 1G, the second *supervisory notice* must be in the same form as a first *supervisory notice* (see *DEC* 3.1.5G).

3.1.11 G_{/1} If the *FSA* decides not to take action, or decides to rescind action that is already effective, then in accordance with the sections of the *Act* listed in *DEC* 3 Ann 1G, the *person* concerned must be informed in writing.

Statutory notice procedure: Supervisory notice procedure

G

1 Table List of supervisory notices under the Act (other than Part VI)

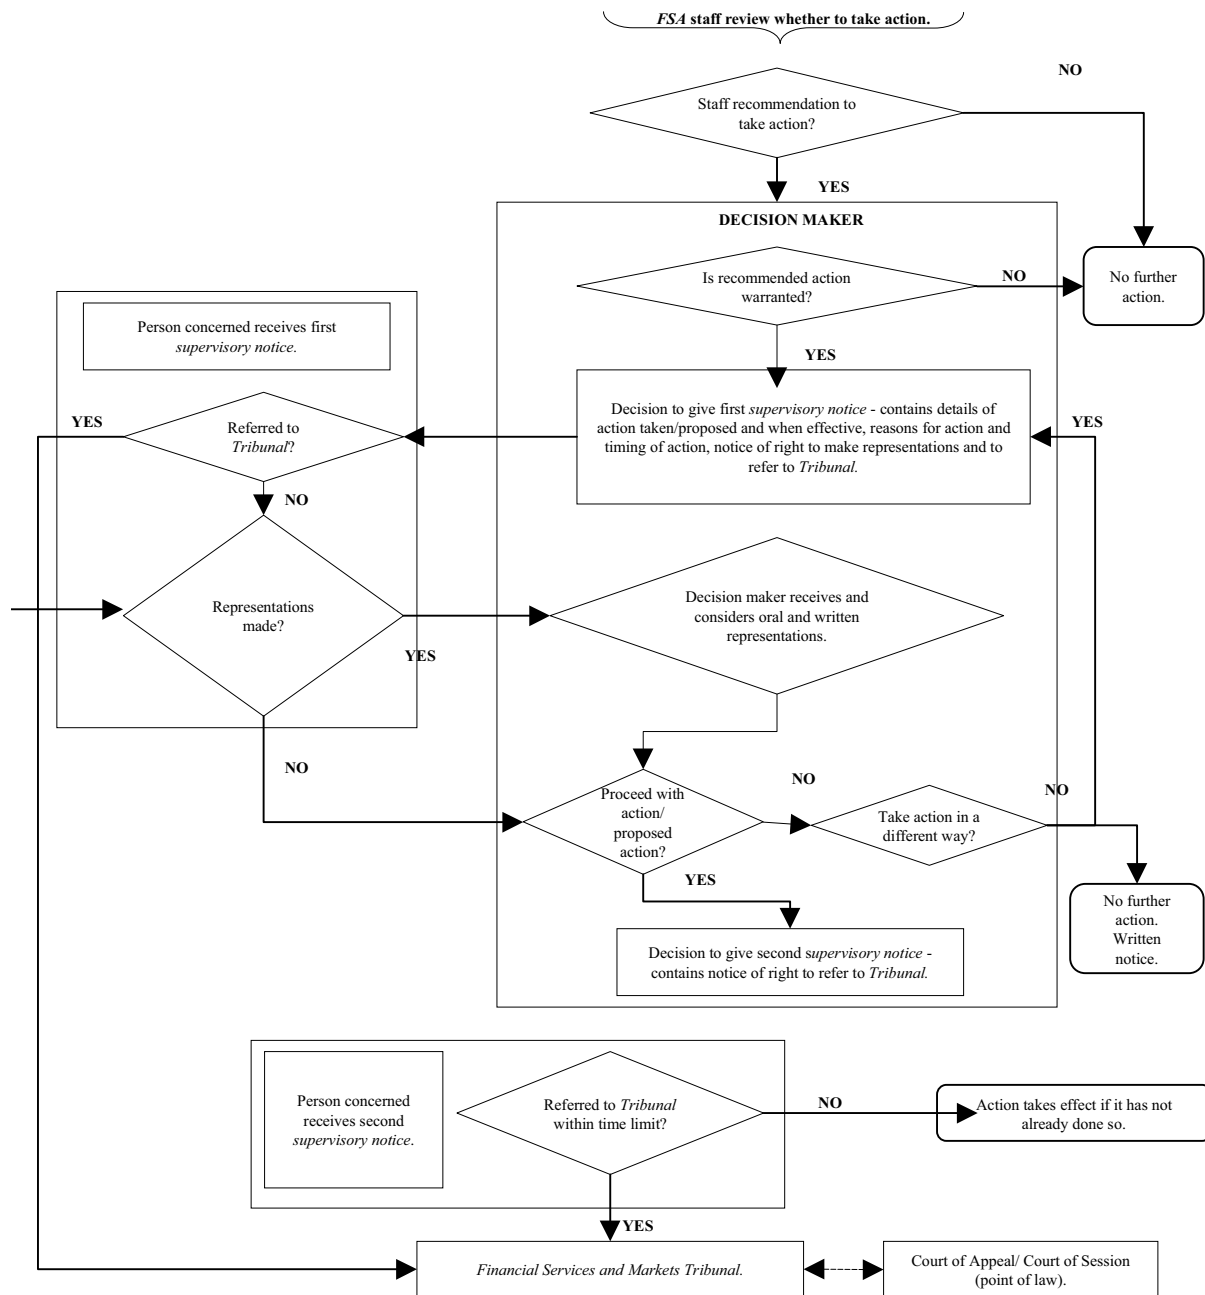

Section of the Act	Description	Handbook reference	Decision maker
53(4)/(7)/(8)(b)	when the <i>FSA</i> is exercising its <i>own-initiative power</i> to vary a <i>firm's Part IV permission</i>	<i>ENF 3</i> <i>SUP 7</i>	<i>RDC / executive procedures</i> (Note)
197(3)/(6)/(7)(b)	when the <i>FSA</i> is exercising its <i>power of intervention</i> in respect of an <i>incoming firm</i>	<i>ENF 4</i> <i>SUP 7</i>	<i>RDC / executive procedures</i> (Note)
259(3)/(8)/(9)(b)	when the <i>FSA</i> is exercising its power to give or, on its own initiative, to vary a direction to the <i>manager</i> and <i>trustee</i> of an <i>AUT</i>	<i>ENF 16</i>	<i>RDC</i>
268(3)/(7)(a) or (9)(a) (as a result of (8)(b))	when the <i>FSA</i> is exercising its power to give a direction to the <i>operator</i> of a <i>recognised scheme</i>	<i>ENF 16</i>	<i>RDC</i>
282(3)/(6)/(7)(b)	when the <i>FSA</i> is exercising its power to give a direction to an <i>operator, trustee</i> or <i>depository</i> of a <i>recognised scheme</i>	<i>ENF 16</i>	<i>RDC</i>
321(2)/(5)	when the <i>FSA</i> is exercising its power to impose a requirement on a former underwriting member of Lloyd's	None	<i>RDC</i>
OEIC Regulations reference	Description	Handbook reference	Decision maker
Regulation 27	when the <i>FSA</i> is exercising its power to give or, on its own initiative, to vary a direction to an <i>ICVC</i> and its <i>depository</i>	<i>ENF 16</i>	<i>RDC</i>

Note : The decision will be made by the *RDC* if it involves a fundamental change (see DEC 4.1.5G) to the nature of a *permission*.

Statutory notice procedure: Supervisory notice procedure

G

The FSA's decision making procedure for supervisory notices

Specimen first supervisory notice

To: [firm or other person]

Of: [address]

[Date]

SUPERVISORY NOTICE

TAKE NOTICE: The Financial Services Authority of 25 The North Colonnade, Canary Wharf, London E14 5HS (“the FSA”) [has decided/ proposes] to take the following action.

[PROPOSED] ACTION

[Details of [proposed] action including details of any own-initiative variation of permission, intervention or direction]

EFFECTIVE DATE

[The date on which any own-initiative variation of permission, intervention or direction is to take effect (if a direction imposes a requirement under section 257(2)(a), state that the requirement has effect until a specified date or a further direction)]

REASONS

[Reasons for the [proposed] action, including reasons for the determination as to when the action is to take effect]

DECISION MAKER

The decision to give this notice was made by [identity of relevant committee or individual] on behalf of the FSA

IMPORTANT

This supervisory notice is sent to you in accordance with [one of the following sections:

section 53(4);

section 197(3);

section 259(3);

section 268(3);

section 282(3);

[section 321(2)] of the Financial Services and Markets Act 2000 (“the Act”).

(See DEC 3 of the Decision making manual.)

You may refer this matter to the Financial Services and Markets Tribunal (“the Tribunal”). Under section 133 of the Act you have 28 days from the date of this supervisory notice to refer the matter to the Tribunal, although the Tribunal may permit you a longer period (see DEC 5.1 of the Decision making manual). The detailed procedures for making a reference to the Tribunal are contained in section 133 of the Act and the Tribunal rules. (See [insert where these can be found].)

You may also make written and oral representations to the FSA (whether or not you refer this matter to the Tribunal). If you wish to make representations you must do so within [28] days of receiving this supervisory notice or such longer period as may be permitted by the FSA. Written representations should be made to [] of the above address. (See DEC 4.4 of the Decision making manual.)

Please contact [contact name and details] at the FSA for more information.

Chapter 4.

The decision maker

4.

4.1 Allocation of decision making

4.1.1 **G** This section sets out the allocation of decision making between the RDC and *executive procedures* for decisions which:

/1

- (1) give rise to an obligation to give a *statutory notice*; or
- (2) are associated with *statutory notice decisions* (“*statutory notice associated decisions*”).

4.1.2 **G** *Statutory notice associated decisions* include decisions:

/1

- (1) to set or extend the period for making representations (see DEC 4.4);
- (2) whether a copy of the *statutory notice* needs to be given to any third party and the period for the third party to make representations;
- (3) to refuse access to FSA material; and
- (4) as to the information it is appropriate to publish about the matter to which a *final notice*, or a *supervisory notice* which has already taken effect, relates.

4.1.3 **G** FSA staff responsible for preparing and recommending action in individual cases will allocate cases to the RDC (by full or modified procedures) or to *executive procedures* in accordance with DEC 4.1.4G and DEC 4.1.6G.

/1

Decisions to be taken by the RDC

4.1.4 **G** The RDC has responsibility for *statutory notice decisions* and *statutory notice associated decisions* if the FSA proposes or takes any of the following actions:

/1

- (1) to impose a *limitation* or a *requirement* which was not applied for, or specify a narrower description of *regulated activity* than that applied for, on the grant of a *Part IV permission*;
- (2) to restrict a *Part IV permission* on the FSA’s own initiative (by removing a *regulated activity*, by imposing a *limitation* or *requirement* or by specifying a narrower description of *regulated activity*) in a way that would make a fundamental change (see DEC 4.1.5G) to the nature of the *Part IV permission* held (whether indefinitely, or for a limited period);
- (3) to refuse an application to vary a *Part IV permission*, or to restrict a *Part IV permission* on the grant of a variation (by imposing a *limitation* or *requirement* which was not applied for or by specifying a narrower description of *regulated activity* than that applied for), in a way that would make a fundamental change (see DEC 4.1.5G) to the nature of the *Part IV permission* that would

- have been held had the application been granted in full (whether indefinitely, or for a limited period);
- (4) to refuse an application for a *Part IV permission*, to refuse an application to cancel a *Part IV permission* or to cancel a *Part IV permission* on the FSA's own initiative;
 - (5) to refuse *approved person* status, or withdraw it under section 63 of the *Act* (Withdrawal of approval);
 - (6) to make a *prohibition order* in relation to any *person*, or refuse an application to vary or revoke such an order;
 - (7) to impose a requirement on an *incoming firm* with an effect equivalent to making a fundamental change (see DEC 4.1.5G) to the nature of a *permission*, or to refuse an application to vary or rescind such a requirement;
 - (8) to exercise the FSA's powers to impose a financial penalty or public censure on any *person*, or to make a restitution order against any *person*;
 - (9) to exercise any power of the FSA relating to a *regulated collective investment scheme*, other than to:
 - (a) refuse an application for an *authorisation order* (but see (10)); or
 - (b) refuse an application for recognition of a *collective investment scheme* under section 270 (Schemes authorised in designated countries or territories) or 272 (Individually recognised overseas schemes) of the *Act*; or
 - (c) object to a notice of intention to invite *persons* to participate in a *collective investment scheme* constituted in another *EEA State*; or
 - (d) refuse approval of changes to an *AUT* or *ICVC*;
 - (10) to refuse an application for an *authorisation order*, if the applicant is not the operator of an existing *AUT* or *ICVC*;
 - (11) to impose a requirement on a *former underwriting member* of Lloyd's or refuse an application to vary or rescind such a requirement;
 - (12) to make an order disapplying the exemption in section 327(1) of the *Act* (Exemption from the general prohibition) in relation to a professional firm to the extent specified in the order, or refuse an application to vary or revoke such an order;
 - (13) to disqualify an auditor or actuary;
 - (14) to refuse to give a *consent notice* to a *UK firm* wishing to establish a *branch* under an *EEA right*.

4.1.5

G

/1

In DEC 4.1.4G(2), (3) and (7), making a fundamental change to the nature of a *permission* means:

- (1) removing a type of activity or *investment* from the *firm's permission*; or
- (2) refusing an application to include a type of activity or *investment*; or

- (3) restricting a *firm* from taking on new business, dealing with a particular category of *client* or handling *client money* by imposing a *limitation* or *requirement*, or refusing an application to vary or cancel such a *limitation* or *requirement*; or
- (4) imposing or varying an assets requirement (as defined in section 48(3) of the *Act* (Prohibitions and restrictions)), or refusing an application to vary or cancel such a requirement.

Decisions to be taken by executive procedures

4.1.6

G
/1

Statutory notice decisions and *statutory notice associated decisions* which are not taken by the RDC, will be taken under *executive procedures*.

Examples of allocation of decision making

4.1.7

G
/1

Examples of matters decided by the RDC include:

- (1) refusing an application to vary a *Part IV permission* to carry on *insurance business* or to *accept deposits* for the first time; in these cases, the *firm* will normally have been required to complete parts of the application pack (*SUP* 6.4.14G);
- (2) refusing an application to vary a *Part IV permission* to carry on *regulated activities* with *private customers* for the first time;
- (3) refusing an application to vary a *Part IV permission* to remove a *requirement* to enable the *firm* to hold or control *client money* for the first time; and
- (4) varying a *Part IV permission* on the FSA's own initiative by removing a *regulated activity* from a *firm's permission*.

4.1.8

G
/1

Examples of matters decided by *executive procedures* (where the FSA decides or is required to use the statutory powers in question rather than to achieve the action required in other ways, for example through individual *guidance* or securing the agreement of a *firm* to take action on a voluntary basis) include:

- (1) imposing a *requirement* that a *firm* submit regular reports covering, for example, trading results, management accounts, *customer* complaints, connected party transactions (*SUP* 7.4.2G(1)), or varying such a *requirement*, on the FSA's own initiative, or refusing an application by the *firm* to vary such a *requirement*;
- (2) imposing a *requirement* that a *firm* submit a business plan (*SUP* 7.3.3G(3)), or varying such a *requirement*, on the FSA's own initiative, or refusing an application by the *firm* to vary such a *requirement*;
- (3) setting prudential limits through a *requirement*, for example on large *exposures*, foreign currency *exposures* or liquidity gaps (*SUP* 7.3.3G(2)), or varying such a *requirement*, on the FSA's own initiative, or refusing an application by the *firm* to vary such a *requirement*;
- (4) imposing a *requirement* that a *firm* maintain a particular amount or type of financial resources (*SUP* 7.3.3G(5)), or varying such a *requirement*, on the

FSA's own initiative, or refusing an application by the firm to vary such a requirement;

- (5) refusing an application to vary a *Part IV permission*, or to restrict a *Part IV permission* on the grant of a variation (by imposing a *limitation* or *requirement* which was not applied for, or by specifying a narrower description of *regulated activity* than that applied for), in a way that would not make a fundamental change (see *DEC 4.1.5G*) to the nature of the *Part IV permission* that would have been held had the application been granted in full (indefinitely, or for a limited period);
- (6) objecting to the acquisition or increase of *control* under section 186 of the *Act* (Objection to acquisition of control), objecting to existing *control* under section 187 of the *Act* (Objecting to existing control), or attaching conditions to an approval to a change in *control* under section 185 of the *Act* (Conditions attached to approval); and
- (7) refusing a request for an *authorisation order* for an operator's proposed *AUT* or *ICVC* (if the operator is an operator of an existing *AUT* or *ICVC*), refusing approval of a *scheme* becoming a *recognised scheme* authorised in a designated territory under section 270 of the *Act* or refusing an application in respect of a proposed individually recognised overseas *scheme* under section 272 of the *Act*.

4.2 The Regulatory Decisions Committee

- 4.2.1** **G** _{/1} The *Regulatory Decisions Committee (RDC)* is appointed by the *FSA Board* to exercise certain regulatory powers on behalf of the *FSA Board*. The *RDC* is accountable to the *FSA Board* for its decisions.
- 4.2.2** **G** _{/1} The *RDC* comprises a Chairman, one or more Deputy Chairmen, and other members.
- 4.2.3** **G** _{/1} The *RDC* is a body outside the *FSA's* management structure. Apart from the Chairman, none of the members of the *RDC* is an *FSA* employee. The members comprise:
- (1) current and recently retired practitioners with financial services industry skills and knowledge; and
 - (2) other suitable individuals representing the public interest.
- 4.2.4** **G** _{/1} The *RDC* is supported by the *RDC Secretariat*. The *RDC Secretariat* is separate from *FSA* staff involved in making recommendations to the *RDC*.

Appointment and removal of members of the RDC

- 4.2.5** **G** _{/1} The Chairman of the *RDC* is appointed by the *FSA Board* on the recommendation of an independent group established by the Board for that purpose. A non-executive member of the *FSA Board* chairs the independent group. The *FSA Board* also appoints all other members of the *RDC*, including its Deputy Chairman or Deputy Chairmen, on the recommendation of the Chairman of the *RDC*.
- 4.2.6** **G** _{/1} All members of the *RDC* are appointed for fixed periods.
- 4.2.7** **G** _{/1} The *FSA Board* may remove a member of the *RDC* but only in the event of that member's misconduct or incapacity.

Constitution and procedure of the RDC

- 4.2.8** **G** _{/1} The *RDC* will meet as a full committee or in panels. Except in an urgent *supervisory notice* case, where the Chairman or a Deputy Chairman and, where possible, any one other member of the *RDC* will make a decision (see *DEC 4.5.7G(2)*), each meeting of the *RDC* will include:
- (1) its Chairman or a Deputy Chairman (who will chair the meeting); and
 - (2) at least two other members.

- 4.2.9** G_{/1} However, the composition and size of panels of the *RDC*, and the frequency of their meetings, may vary depending on the nature of the particular matter under consideration.
- 4.2.10** G_{/1}
- (1) If a member of the *RDC* has a potential conflict of interest in any matter before the *RDC* he will disclose the conflict to the Chairman of the *RDC* (or if he is the Chairman of the *RDC*, to the Chairman or Deputy Chairman of the *FSA*). He will also disclose the conflict to the *RDC* Secretariat.
 - (2) If the Chairman of the *RDC* (or where appropriate the Chairman or Deputy Chairman of the *FSA*) considers it reasonable and appropriate, he will require the member of the *RDC* to stand down from consideration of that particular matter. The Chairman of the *RDC* (or Chairman or Deputy Chairman of the *FSA*) may ask another member of the *RDC* to assist him in considering the potential conflict.
- 4.2.11** G_{/1} The *RDC* Secretariat will record and document all disclosures of potential conflicts of interest and the steps taken to manage them.
- 4.2.12** G_{/1} The meetings of the *RDC* will be in private, and will be conducted in the manner the *RDC* considers suitable in order to enable it to determine fairly the matters which it is required to consider.
- 4.2.13** G_{/1} Each member of the *RDC* present is entitled to vote on the matter under consideration. The Chairman of the meeting of the *RDC* will have a vote as a member of the *RDC* and will have the casting vote in a tie.
- 4.2.14** G_{/1} The *RDC* may require *FSA* staff to attend its meetings.

Consideration of previous breaches

- 4.2.15** G_{/1} *FSA* staff are entitled to put to the *RDC* the previous disciplinary record of a *person*, including any previous breach of the *Act*, the *Principles*, or other *rules* (including the record prior to the *Act*). *FSA* staff may also draw to the *RDC*'s attention the compliance history of a *person*, including that under previous legislation.
- 4.2.16** G_{/1} The *RDC* may not consider any of the matters in *DEC* 4.2.15G for the purpose of proving a later breach. The matters in *DEC* 4.2.15G may be considered when determining whether to take action or, where appropriate, as one of the factors described in *ENF* 13.3.3G, in determining the level of the financial penalty.

Administrative procedure for representations

- 4.2.17** G_{/1} Representations to the *RDC* are received in accordance with *DEC* 4.4.
- 4.2.18** G_{/1} The *FSA* will fix a date or dates for a meeting to consider the representations and to decide:
- (1) whether to take the action proposed;
 - (2) if the action has been taken, whether to rescind the action; and
 - (3) in either case, whether to take the action in a different way.

4.2.19

G

The *RDC* Secretariat will ensure that a record is kept of:

^{/1}

- (1) who took the decision;
- (2) the representations made to the *RDC*;
- (3) the material considered by the *RDC*;
- (4) the nature of the decision;
- (5) the reasons for the decision; and
- (6) the dates on which the decision was taken and then communicated by the *FSA* to the *person* concerned.

4.3 Executive procedure for statutory notice decisions and statutory notice associated decisions

Who makes the decision?

4.3.1

G

/1

All *statutory notice decisions* (and *statutory notice associated decisions*) under *executive procedures* are made under authority delegated by the FSA Board. The FSA Chairman's Committee may from time to time determine that particular categories of *statutory notice decision* (and *statutory notice associated decisions*) which may be made by *executive procedures* will be made by a *senior staff committee*. Alternatively, a *senior staff committee* may take such decisions if referred to it by FSA staff (see DEC 4.3.7G(2)). Otherwise, such decisions will be made by an individual FSA staff member.

Separation of functions

4.3.2

G

/1

Section 395(2) of the *Act* (The FSA's procedures) requires that the FSA's procedure for the giving of *statutory notices* must be designed to secure that "the decision which gives rise to the obligation to give any such notice is taken by a person not directly involved in establishing the evidence on which that decision is based".

4.3.3

G

/1

In accordance with section 395(2) of the *Act*, *statutory notice decisions* taken under *executive procedures* will not be taken by staff directly involved in establishing the evidence on which that decision is based, except in accordance with section 395(3) of the *Act* (see DEC 4.3.17G to DEC 4.3.19G).

Decision making by an individual FSA staff member

4.3.4

G

/1

If an individual FSA staff member makes a *statutory notice decision* (or *statutory notice associated decision*) the decision will be:

- (1) made by an executive director of the FSA Board, or his delegate (who will be of at least the level of associate);
- (2) on the recommendation of an FSA staff member of at least the level of associate; and
- (3) with the benefit of legal advice from an FSA staff member of at least the level of associate.

- 4.3.5 **G**_{/1} The individual who takes a decision under *executive procedures* is accountable to the FSA Board directly (if an executive director) or otherwise through line management responsible for the decision concerned.
- 4.3.6 **G**_{/1} An FSA staff member who considers that a *statutory notice decision* (or *statutory notice associated decision*) should be taken above his own level is free to refer that decision to a more senior level. If an FSA staff member consults another staff member about a decision, the decision remains the independent decision of the FSA staff member who consults his colleague, unless it is agreed that the decision should instead be taken by the colleague, and the colleague has the delegated authority to do so.
- 4.3.7 **G**_{/1} If an individual responsible for a decision by *executive procedures* (or a more senior FSA staff member with responsibilities in relation to the decision concerned) considers that it warrants collective consideration, the individual may:
- (1) take the decision himself, following consultation with other FSA staff members, as above; or
 - (2) refer it to a *senior staff committee*, which will take the decision itself.

Decision making by a senior staff committee

- 4.3.8 **G**_{/1} A *senior staff committee* will consist of such FSA staff members as the FSA Chairman's Committee may from time to time determine.
- 4.3.9 **G**_{/1} A *senior staff committee* is accountable for its decisions to the FSA Chairman's Committee, and through it, to the FSA Board.
- 4.3.10 **G**_{/1} A *senior staff committee* may operate through standing or specific sub-committees to consider particular decisions or classes of decision, for which accountability will lie through the committee. Each meeting of a *senior staff committee*, or sub-committee, will include:
- (1) an individual with authority to act as its chairman; and
 - (2) at least two other members.
- 4.3.11 **G**_{/1} A *senior staff committee* will operate on the basis of a recommendation from an FSA staff member of at least the level of associate, and with the benefit of legal advice from an FSA staff member of at least the level of associate.
- 4.3.12 **G**_{/1} If FSA staff recommend action be taken and they consider that the decision falls within the responsibility of a *senior staff committee* (or sub-committee):
- (1) in general, but subject to the need to act swiftly in urgent cases, the FSA staff's recommendation will go before the *senior staff committee* (or sub-committee);
 - (2) in an urgent case, if, in FSA staff's opinion, the action proposed should occur before it is practicable to convene a meeting of the *senior staff committee* (or sub-committee), the FSA staff's recommendation may be considered by the *senior staff committee's* chairman or a deputy chairman and, where possible, but subject to the need to act swiftly, one other member of the *senior staff committee*;
 - (3) in an exceptionally urgent case, if in the FSA staff's opinion:

- (a) the action should be taken before a recommendation to the chairman or a deputy chairman of the *senior staff committee* could be made; and
- (b) an urgent decision on the proposed action is necessary to protect the interests of consumers;

the *FSA* staff's recommendation will be considered and the decision made by a member of the *FSA*'s executive of at least director of division level.

General

4.3.13

G
/1

A *statutory notice* given under *executive procedures* will identify the decision maker. A decision to give a *decision notice* or second *supervisory notice* will normally be made by the same decision maker (that is, the individual or committee) who made the decision to give the *warning notice* or first *supervisory notice*.

4.3.14

G
/1

If a firm wishes to make representations in response to a *warning notice* or first *supervisory notice*, those representations will be received in accordance with *DEC* 4.4.

4.3.15

G
/1

The decision maker will ensure that a record is kept of:

- (1) who took the decision;
- (2) any representations to the decision maker;
- (3) the material considered by the decision maker;
- (4) the nature of the decision;
- (5) the reasons for the decision; and
- (6) the dates on which the decision was taken and then communicated to the *person* or *persons* concerned.

4.3.16

G
/1

FSA staff are required by their contract of employment to comply with a code of conduct which imposes strict rules to cover the handling of conflicts of interest which may arise from personal interests or associations. *FSA* staff who are subject to a conflict of interest must declare that interest to the person to whom they are immediately responsible for the decision. In the case of decisions by a *senior staff committee*, any conflict of interest must be declared to the chairman of the committee (or, if the person with the conflict is the chairman, to the *FSA* Chairman's Committee). The individual to whom the conflict of interest is declared will decide whether that conflict precludes the involvement of the *FSA* staff member in making a decision.

Section 395(3) decisions

4.3.17

G
/1

Under section 395(3) of the *Act*, the *FSA*'s procedure may permit a decision which gives rise to an obligation to give a *supervisory notice* to be taken by a person involved in establishing the evidence on which the decision is based if:

- (1) the *FSA* considers that, in a particular case, it is necessary in order to protect the interests of consumers; and
- (2) the person taking the decision is of a level of seniority laid down by the procedure.

4.3.18

G
/1

The *FSA* expects to exercise the power provided by section 395(3) only in exceptional cases. This means cases in which the *FSA* believes action is needed to protect the interests of consumers in the face of a material threat to those interests, but in which the requirements for separation cannot be met: for example where the notice needs to take immediate effect in order to protect the interests of consumers.

4.3.19

G
/1

The level of individual who may make such a decision is a member of the *FSA*'s executive of at least director of division level or a member of a committee which reports directly to the *FSA* Chairman's Committee.

4.4 Representations

- 4.4.1** G_{/1} (1) Any *warning notice* or first *supervisory notice* will contain a statement that the *person* concerned will have a certain amount of time in which to make representations to the decision maker. In the case of a first *supervisory notice* the *person* concerned may make representations whether or not the matter to which the notice relates has been referred to the *Tribunal*.
- (2) If a second *supervisory notice* is given where the decision maker has decided to take action different from that which was proposed in the first *supervisory notice*, the second *supervisory notice* will provide a similar statement about the right to make representations.
- 4.4.2** G_{/1} In the case of a *warning notice*, section 387(2) of the *Act* requires that the *warning notice* must specify a reasonable period for the making of representations. This must be at least 28 days. The *Act* does not specify a minimum period that the *FSA* must give for making representations for *supervisory notices*.
- 4.4.3** G_{/1} In deciding on the period to make representations, the decision maker will have regard to the circumstances of each case, including the nature of the proposed action and its likely effect on the *person* concerned. The decision maker will have particular regard to the risk to the *FSA's regulatory objectives* of any delay in imposing proposed action. The period for representations will normally be 28 days from the date when the *person* receives the notice, subject to his right to seek an extension of time.
- Request for an extension of time**
-
- 4.4.4** G_{/1} (1) After receiving the *warning notice* or first *supervisory notice*, if the *person* concerned considers that its stated period for representations is too short, then he may, within 14 days of receiving the notice, request the *FSA* in writing for more time. In the case of a *warning notice*, this may be appropriate, for example, if a *person* has entered or wishes to enter into settlement discussions with *FSA* staff.
- (2) In accordance with section 387(3) of the *Act* and other relevant sections of the *Act*, the decision maker may extend the period of time for representations specified in the *warning notice* or *supervisory notice*.
- 4.4.5** G_{/1} Requests for an extension of time will be considered by the decision maker who will notify the recipient of the notice promptly whether the request has been accepted or not.

Written representations

- 4.4.6 **G**_{/1} Any written representations should be sent to the *FSA* at the address stated in the *warning notice* or *supervisory notice*.

Oral representations

- 4.4.7 **G**_{/1} If he so chooses, a *person* who receives a *warning notice* or first *supervisory notice* may make oral representations to the decision maker and attend a meeting for that purpose.

- 4.4.8 **G**_{/1} If the *person* wishes to make oral representations he should send a written notification of this to the *FSA* at the address stated in the *warning notice* or *supervisory notice*. The notification should be made at least five *business days* before the end of the period for representations specified in the notice. The notification should specify the matters on which the *person* wishes to make oral representations, include an estimate of how much time the *person* expects the representations to take, and provide the names of any legal representatives appointed to attend the meeting at which the representations will be made. If after notifying the *FSA* of his intention to make oral representations, the *person* chooses not to make those representations, the decision maker will nevertheless decide the matter.

- 4.4.9 **G**_{/1} A *person* may appoint a representative of his choice (who may be legally qualified) to attend the meeting at which oral representations will be made. The representative may make or assist in making the representations.

- 4.4.10 **G**_{/1} The decision maker will specify a time as soon as is reasonably possible after receiving the notification for receiving the oral representations. The decision maker may specify the place where he will receive the representations and may specify that the representations will be received in private. The decision maker may limit the type, length and content of any representations. The decision maker may ask the *person* or his representative at the meeting to clarify any issue arising out of the representations and may require the *person*, and any representatives, to leave the meeting after they have made their representations.

- 4.4.11 **G**_{/1} *DEC 4.4.13G* and *DEC 4.4.14G* explain the procedure where no representations are received or made.

Third parties

- 4.4.12 **G**_{/1} *DEC 4.4* applies also to a third party who has received a copy of a *warning notice*, in relation to those matters affecting the third party.

Default procedures

- 4.4.13 **G**_{/1} If the *FSA* receives no response or representations by the time a decision is to be made about the giving of the *decision notice* or second *supervisory notice*, the decision maker may regard as undisputed the allegations or matters in the *warning notice* or first *supervisory notice*. In such cases, a *decision notice* or second *supervisory notice* will be given accordingly. A *person* who has received a *decision notice* or second *supervisory notice* and has not previously made any response or

representations to the *FSA*, may, nevertheless, refer the *FSA*'s decision to the *Tribunal* as described in *DEC 5.1*.

4.4.14

G
/1

In exceptional cases, the decision maker may permit representations from a *person* who has received a *decision notice* (or a second *supervisory notice*) given in accordance with *DEC 2.3* (or *DEC 3.1.8G* to *DEC 3.1.10G*), and shows on reasonable grounds that he did not receive the *warning notice* (or first *supervisory notice*), or that he had reasonable grounds for not responding within the specified period. In these circumstances, the decision maker may decide to give a *notice of discontinuance* (*DEC 2.3.8G* to *DEC 2.3.9G*) or a further *decision notice* (or a written notice or a *supervisory notice*).

4.5 Delegation of RDC decisions and modified RDC procedures

4.5.1

G
/1

The making of the following types of *statutory notice decisions* and *statutory notice associated decisions* falling within DEC 4.1.4G (Decisions to be taken by the RDC) will be discharged, on behalf of the RDC, by the Chairman of the RDC or FSA staff, so that they will be made by modified rather than full RDC procedure:

- (1) in relation to *warning notices* and *decision notices*:
 - (a) those relating to financial penalties for late submission of reports (see DEC 4.5.2G to DEC 4.5.6G);
 - (b) those relating to the revocation of recognition of section 270 or 272 *recognised schemes*, where there is a common understanding between the scheme management and the FSA about the need for revocation (see DEC 4.5.14G to DEC 4.5.15G);
- (2) in relation to *supervisory notices*:
 - (a) those involved in taking urgent action by *supervisory notice* (see DEC 4.5.7G and DEC 4.5.8G);
 - (b) those relating to the use of the FSA's *own-initiative power* and other cases involving the imposition of *requirements*, where there is a common understanding between the FSA and the *person* concerned about the need for the action (see DEC 4.5.9G to DEC 4.5.13G).

Financial penalties for late submission of reports

4.5.2

G
/1

When the FSA decides whether to impose a financial penalty on a *firm* for the late submission of a report (regardless of the period of delay), FSA staff will report on the late submission to at least one other member of staff who is:

- (1) at a level senior to that of the member of staff who reports on the late submission and on the reasons for it; and
- (2) not directly involved in the day-to-day supervision of the *firm* concerned.

4.5.3

G
/1

FSA staff at the appropriate level of seniority will consider the report about the late submission. They will then decide whether a financial penalty is appropriate and, if so, its amount. If they decide a penalty is appropriate, the FSA will give a *warning notice*.

4.5.4 G_{/1} If the *firm* makes representations in relation to the penalty stated in the *warning notice*, the matter will be referred to the Chairman or Deputy Chairman of the RDC. The Chairman or Deputy Chairman of the RDC will decide whether to confirm the penalty stated in the *warning notice* or that the penalty should be of a different amount and, if so, give a *decision notice*.

4.5.5 G_{/1} If the *firm* makes no representations, FSA staff at the appropriate level of seniority will decide whether to confirm their original decision and, if so, will then give a *decision notice*.

4.5.6 G_{/1} If the *firm* objects to the *decision notice*, it may refer the matter to the *Tribunal*. The right to refer a matter to the *Tribunal* is outlined in DEC 5.1.

Supervisory notices: urgent cases

4.5.7 G_{/1} If FSA staff recommend action be taken and they consider that the decision is the RDC's responsibility:

- (1) in general, but subject to the need to act swiftly in urgent cases, the FSA staff's recommendation will go before an RDC panel;
- (2) in an urgent case, if, in FSA staff's opinion, the action proposed should occur before it is practicable to convene an RDC panel, the FSA staff's recommendation will be considered by the RDC's Chairman or a Deputy Chairman of the RDC and, where possible, but subject to the need to act swiftly, one other RDC member;
- (3) in an exceptionally urgent case, where in the FSA's opinion:
 - (a) the action should be taken before a recommendation to the Chairman of the RDC can be made; and
 - (b) an urgent decision on the proposed action is necessary to protect the interests of consumers;

the FSA staff's recommendation will be considered by a member of the FSA's executive of at least director of division level. In these circumstances, the FSA will ensure as far as possible that the executive making the decision was not involved in establishing the evidence on which the decision is based.

4.5.8 G_{/1} If the executive making the decision has been involved in establishing the evidence on which the decision is based, and a notice is given on the grounds of urgency, this will be in accordance with DEC 4.3.17G to DEC 4.3.19G.

Supervisory notices: non-urgent cases

4.5.9 G_{/1} In certain other cases, including cases relating to *collective investment schemes* (see DEC 4.5.14G to DEC 4.5.15G), FSA staff may be in a position to inform the *person* concerned of their concerns, and of the action they are considering, before they begin to exercise *supervisory notice* procedures. If the *person* concerned consents to the action at that stage, FSA staff may decide to use the modified decision making procedure in DEC 4.5.10G to DEC 4.5.13G.

- 4.5.10** G_{/1} FSA staff will make recommendations for action to at least one other member of staff who is:
- (1) at an appropriate level of seniority; and
 - (2) not directly involved in the supervision of the *person* concerned, or in establishing the evidence on which the decision is based.
- 4.5.11** G_{/1} FSA staff at the appropriate level of seniority will consider the recommendations. If they are satisfied that the *person* concerned agrees to the recommended action, they will consider whether the FSA should give a first *supervisory notice* (see DEC 3.1.3G to DEC 3.1.7G).
- 4.5.12** G_{/1} If FSA staff decide to give the first *supervisory notice* and the *person* concerned accepts its terms, the FSA will then consider whether to give a second *supervisory notice* (see DEC 3.1.8G to DEC 3.1.10G) confirming the decision.
- 4.5.13** G_{/1} The FSA will only give the second *supervisory notice* when it is satisfied that the *person* concerned accepts the terms of the first *supervisory notice*, and the circumstances of the case have not materially changed since that notice was given. If FSA staff are not satisfied, or circumstances of the case have changed, they will refer the possible giving of a second *supervisory notice* to the RDC. In such cases the RDC will follow the process in DEC 3.1.8G to DEC 3.1.10G.

Modified procedures in collective investment scheme cases

- 4.5.14** G_{/1} In DEC 4.5.15G, the term "scheme management" refers:
- (1) in relation to an AUT, to the *manager* and *trustee*;
 - (2) in relation to an ICVC, to the *directors* and the *depository*;
 - (3) in relation to a *recognised scheme*, to the operator, and (if any) the *trustee* or *depository*.
- 4.5.15** G_{/1} In certain cases where it is proposing to exercise its powers under section 257 (Directions), 279 (Revocation of recognition) or 281 (Directions) of the *Act* or under regulation 23 or 25 of the *OEIC Regulations*, the FSA may be in a position to inform the scheme management of its concerns, and of the action it is considering, before it exercises those powers. Alternatively, the scheme management may request the FSA to exercise one of the powers. For example, the *manager* and the *trustee* of an AUT may ask the FSA to give a direction under section 257(2)(a) for the suspension of the *issue* and *redemption* of *units* because of a temporary problem in valuing the property subject to the *scheme*. If there is a common understanding between the FSA and all the members of the scheme management about the need for the exercise of the power in question at that stage (that is, before the FSA begins to exercise the statutory procedures), the FSA may:
- (1) in the case of the exercise of its powers under sections 257 or 281 or under regulation 25, decide to use the modified decision making procedure for non-urgent *supervisory notices* in DEC 4.5.9G to DEC 4.5.13G; or
 - (2) in the case of the exercise of its powers under section 279 or regulation 23, decide to use a modified decision making procedure under which the matter will be delegated to FSA staff of an appropriate level of seniority. The

procedure will be as set out in *DEC 4.5.9G* to *DEC 4.5.13G* but adapted to be appropriate for a case involving a *warning notice* and *decision notice*.

4.6 Decisions to apply to the civil courts and powers to prosecute criminal offences

4.6.1 **G**_{/1} A decision to begin, or discontinue, proceedings using the powers listed in *DEC 1.1.3G* will be made by the *RDC* Chairman or, in an urgent case and if the Chairman is not available, by an *RDC* Deputy Chairman and where possible, but subject to the need to act swiftly, one other *RDC* member.

4.6.2 **G**_{/1} In an exceptionally urgent case the matter will be decided by the director of Enforcement or, in his absence, another member of the *FSA*'s executive of at least director of division level. An exceptionally urgent case in these circumstances is one where *FSA* staff believe that a decision to begin proceedings using the powers in *DEC 1.1.3G*:

- (1) should be taken before it is possible to follow the procedure described in *DEC 4.6.1G*; and
- (2) is necessary to protect the interests of consumers or potential consumers.

4.6.3 **G**_{/1} Decisions to bring proceedings using the powers in *DEC 1.1.3G* do not involve any of the procedures relating to the giving of *statutory notices* including the procedures described in *DEC 4.4* relating to representations. Further details about the *FSA*'s policy and procedures in the use of the powers to apply to the civil courts for *injunctions*, restitution orders, *insolvency orders*, *collective investment scheme* related orders and the powers to prosecute criminal offences are contained in *ENF 6* (Injunctions), *ENF 9* (Restitution and redress), *ENF 10* (Insolvency proceedings and orders against debt avoidance), *ENF 16* (Collective investment schemes) and *ENF 15* (Prosecution of criminal offences) respectively.

Chapter 5.

References to the Tribunal, publication and service of notices

5.

5.1 The Tribunal

- 5.1.1** G_{/1} (1) A *person* who receives a *decision notice* or *supervisory notice* (including a third party who has been given a copy of a *decision notice*) has the right to refer the *FSA's* decision to the *Tribunal*.
- (2) The *Tribunal* is established under Part IX of the *Act* (Hearings and Appeals) and is governed by Part IX and Schedule 13 to the *Act* (The Financial Services and Markets Tribunal). The *Tribunal* is independent of the *FSA* and appointed by the Lord Chancellor's Department in accordance with the Financial Services and Markets Tribunal Rules 2001 ("the Tribunal rules").
- 5.1.2** G_{/1} Under section 133(1) of the *Act* (Proceedings: general provisions), any reference to the *Tribunal* must be made within 28 days of the date on which the *decision notice* or *supervisory notice* is given, or within any period prescribed by the *Tribunal* rules. Under section 133(2) of the *Act*, the *Tribunal* rules may allow a reference to be made after the end of the 28 day period.
- 5.1.3** G_{/1} A reference to the *Tribunal* will be a full rehearing of the matter that gave rise to the decision referred to the *Tribunal*. On a reference the *Tribunal*:
- (1) must determine what (if any) is the appropriate action for the *FSA* to take in relation to the matter referred (section 133(4)); and
- (2) may consider any evidence relating to the subject-matter of the reference, whether or not it was available to the *FSA* at the time the *FSA* took its decision.
- 5.1.4** G_{/1} In determining a reference:
- (1) made as a result of a *decision notice*, the *Tribunal* may not (section 133(6)) direct the *FSA* to take action which the *FSA* would not, as a result of section 388(2) of the *Act* (Decision notices), have had the power to take when giving the *decision notice*;
- (2) made as a result of a *supervisory notice*, the *Tribunal* may not (section 133(7)) direct the *FSA* to take action which would otherwise have required the giving of a *decision notice*.
- 5.1.5** G_{/1} On determining a reference, the *Tribunal*:
- (1) must (section 133(5)) remit the matter to the *FSA* with such directions (if any) as the *Tribunal* considers appropriate for giving effect to its determination; and
- (2) may make recommendations as to the *FSA's* regulating provisions or its procedures.

5.1.6

G

/1

Under section 133(9) of the *Act*, the *FSA* must not take any action specified in a *decision notice* during the period within which a reference may be made to the *Tribunal*. Nor may it take such action, if the matter is referred, until the reference, and any appeal against the *Tribunal's* decision, has been finally disposed of.

5.1.7

G

/1

The *FSA* is required to act in accordance with the determination of, and any direction given by, the *Tribunal* and an order of the *Tribunal* will be enforceable as if it were an order of the county court or, in Scotland, as if it were an order of the Court of Session.

5.2 Publication

Publication of final notices and effective supervisory notices

- 5.2.1** **G**_{/1} Section 391(4) and (5) of the *Act* (Publication) provides that the *FSA* must publish such information about the matter to which a *final notice*, or *supervisory notice* that has taken effect, relates, as it considers appropriate. See also *DEC 5.2.3G*.

Publication of notices of discontinuance

- 5.2.2** **G**_{/1} If the *FSA* has given a *notice of discontinuance*, the *FSA* may, if the *person* to whom the notice is given consents, publish such information as it considers appropriate about the matter to which the discontinued proceedings related (section 391(2) of the *Act*). Similarly, section 391(3) of the *Act* indicates that where a *notice of discontinuance* has been copied to a *person*, the *FSA* may, if the *person* to whom the notice is copied consents, publish such information as it considers appropriate about the matter to which the discontinued proceedings related, so far as relevant to that *person*. See also *DEC 5.2.3G*.

No publication if unfair or prejudicial

- 5.2.3** **G**_{/1} Section 391(6) of the *Act* provides that the *FSA* may not publish information relating to a *final notice*, *supervisory notice* that has taken effect or *notice of discontinuance* if publication would, in the *FSA*'s opinion, be unfair to the *person* with respect to whom the action was taken or prejudicial to the interests of consumers.

Warning and decision notices: no publication

- 5.2.4** **G**_{/1} Section 391(1) of the *Act* provides that neither the *FSA* nor any other *person* to whom a *warning notice* or *decision notice* is given or copied may publish the notice or any details concerning it.

Manner of publication

- 5.2.5** **G**_{/1} Section 391(7) of the *Act* provides that information which is published may be published in such a manner as the *FSA* considers appropriate. The *FSA* will

consider the particular circumstances of each case in deciding what manner of publication will be appropriate.

5.3 Service of notices by the FSA

Service of Notices Regulations

5.3.1 G_{/1} The Financial Services and Markets Act 2000 (Service of Notices) Regulations 2001 (SI 2001/1420) govern service of *statutory notices* and other notices and *documents* which must be served by the FSA under the *Act*.

Methods of service by the FSA and deemed receipt

5.3.2 G_{/1} The methods by which the FSA may give a notice under the Regulations and the day on which it is deemed to be received, are set out in DEC 5.3.3G.

5.3.3 G_{/1} Table Methods of service of notices by the FSA

Method	Deemed day of receipt
(1) delivery of the notice to the recipient	not applicable: it is received when delivered
(2) leaving the notice at the recipient's proper address (as defined in the Regulations)	the business day after it is left at that address
(3) <i>posting</i> the notice to that address	if the notice is <i>posted</i> to an address in the <i>United Kingdom</i> , the second business day after <i>posting</i> if the notice is <i>posted</i> to an address in any <i>EEA State</i> (other than the <i>United Kingdom</i>), the fifth business day after <i>posting</i>
(4) transmitting the notice by fax if the recipient has indicated in writing that he is willing to receive the notice by such means and a follow-up copy is sent by another method by the end of the following business day	the business day after the day on which the document is transmitted
(5) transmitting the notice by any other electronic means of communication, if the recipient has indicated in writing that he is willing to receive the notice by such means	the business day after the day on which the document is transmitted

5.3.4 G_{/1} The Regulations also make provision for the service of notices on:

- (1) the recipient's nominee;
- (2) if the recipient is an *appointed representative*, on his *principal*; and

(3) if the recipient is not an individual, to particular *persons* on its behalf.

Meaning of "business day"

5.3.5

G

/1

In the Regulations and DEC 5.3.3G, "business day" means any day except Saturday, Sunday or a bank holiday, where "bank holiday" includes Christmas Day and Good Friday.

5.

Appendix 1

Settlement procedure and mediation scheme for FSA disciplinary cases

1.1 Introduction

- 1.1.1** G_{/1} A *person* who is or may be subject to enforcement action may discuss the proposed action with *FSA* staff through settlement discussions. Settlement discussions take place on an informal basis after the *FSA* has given a *warning notice*. Where *FSA* staff have recommended that disciplinary action be taken against a *person*, the mediation scheme will be available to those *persons* against whom action is proposed after settlement discussions have broken down. This appendix sets out the procedure for settlement and the framework of the mediation scheme.

1.2 Settlement

- 1.2.1** G_{/1} If a *person* who is or may be subject to enforcement action wishes to discuss the proposed action with *FSA* staff on an informal basis, he may do so after the *FSA* has given the *warning notice*. The *warning notice* will contain details of the person to contact for these purposes. (There is no bar on discussions at an earlier stage, but they are likely to be less productive until the *FSA* has given the *warning notice* to the *person* concerned.) The *FSA* and the *person* concerned should agree that discussions will take place on a "without prejudice" basis, and that neither party may subsequently rely on admissions or statements made in the context of the discussions, or *documents* recording the discussions.

- 1.2.2** G_{/1} The terms of any proposed settlement will:
- (1) be put in writing and be agreed by *FSA* staff and the *person* concerned;
 - (2) include a statement of the facts and any breaches admitted by the *person* concerned and the proposed action to be taken; and
 - (3) be considered by the *RDC*.

- 1.2.3** G_{/1} Having considered the terms of the proposed settlement, the *RDC* may ask to meet the relevant *FSA* staff or the *person* concerned in order to assist in its consideration of the proposed settlement. The *RDC* may:

- (1) accept the proposed settlement by issuing a *decision notice* or (where appropriate) *notice of discontinuance* based on the terms of the settlement; or
- (2) decline the proposed settlement;

whether or not the *RDC* has met with the relevant *FSA* staff or the *person* concerned.

1.2.4 /1 Where the *RDC* declines the proposed settlement, it may invite *FSA* staff and the person concerned to enter into further discussions to try to achieve a settlement. The *RDC* may extend the period for representations (if they have not already done so), or, if representations have already been made, the *RDC* will proceed to give a decisions notice.

1.2.5 G /1 If it is not possible to reach an agreed proposed settlement of the case by informal discussions, the *person* concerned may elect to submit the case to mediation.

1.3 Mediation

1.3.1 G /1 Mediation is a confidential without prejudice dispute resolution process in which a neutral mediator assists the parties in trying to settle their differences. The mediator is not a judge or arbitrator and has no power to bind the parties, but rather operates as a facilitator of the discussions.

1.3.2 G /1 As mediation will be on a "without prejudice" basis, admissions made by the parties in the course of the mediation and documents prepared for the purposes of the mediation may not be referred to in subsequent proceedings relating to the dispute if the mediation is unsuccessful. However, if the mediation results in a proposed settlement of the dispute which is approved by the *RDC*, the terms of the proposed settlement will form the basis of a *decision notice*, and subsequent *final notice*, or (where appropriate) *notice of discontinuance*, given by the *FSA*.

1.3.3 G /1 Following the issue of a *warning notice* the *person* will have access to certain material on which the *FSA* has relied in deciding to commence disciplinary proceedings (see *DEC* 2.4.2G). The period following the issue of the *warning notice* is therefore a natural point for informal settlement discussions to take place in an attempt to resolve the matter. Mediation is intended to supplement those discussions where the parties consider that the involvement of a neutral mediator is required to facilitate further progress.

1.4 Scope of mediation scheme

1.4.1 G /1 Mediation will be available in enforcement cases involving disciplinary matters and *market abuse*, subject to the exceptions set out in *DEC* App 1.4.2G.

- 1.4.2** **G** /1 Mediation will not be available in:
- (1) cases involving allegations of a criminal offence or offences; or
 - (2) cases involving allegations of unfitness or impropriety based on judgements about dishonesty or lack of integrity; or
 - (3) cases involving the exercise of the *FSA's own-initiative powers* on a variation of *permission*.

- 1.4.3** **G** /1 In each appropriate enforcement case (see *DEC App 1.4.1G* and *1.4.2G*), the mediation scheme will be available to the *person* against whom a *warning notice* is issued. The mediation scheme will be available after the *warning notice* has been issued and before the *RDC* issues a *final notice*. The relevant *warning notice* will state the circumstances in which mediation is available for that matter under the terms of the scheme.

- 1.4.4** **G** /1 The *person* is not obliged to submit his case for mediation.

1.5 Mediation provider

- 1.5.1** **G** /1 The scheme will be administered by a body (the mediation provider) which:
- (1) is independent of the *FSA*;
 - (2) provides a panel of experienced mediators who are independent of the *FSA*; and
 - (3) has suitable expertise of and experience in the administration of mediation schemes.

1.6 Starting the mediation

- 1.6.1** **G** /1 The *FSA* will offer the mediation facility in all appropriate enforcement cases (see *DEC App 1.4.1G*). If the *person* agrees to submit the case to mediation, the parties will send a joint mediation notice in an agreed form to:
- (1) the mediation provider; and
 - (2) the secretary to the *RDC*.

- 1.6.2** **G** /1 The mediation notice will commit each party to use their best endeavours to progress the mediation process in a timely manner.

1.6.3 G_{/1} The *person* may request in the mediation notice that the time period specified in the *warning notice* for making oral or written representations (or both) to the *RDC* be extended by a maximum of 14 days, to allow time for the mediation to be completed. On receipt of a mediation notice requesting such an extension, the *RDC* will notify the parties and the mediation provider of its agreement to the requested extension or of any other extension that it sees fit.

1.6.4 G_{/1} If required, the *person* may apply to the *RDC* for a further extension in order to complete the mediation (see *DEC App 1.7.5G*). The total of all extensions to the 28 day time period for making written or oral representations may not exceed 28 days, other than in exceptional circumstances.

1.7 **Setting up the mediation**

1.7.1 G_{/1} Once the parties have agreed to mediate, and a mediation notice has been sent to the mediation provider, the mediation provider will liaise with the parties in order to deal with the matters set out in *DEC App 1.7.2* to *1.7.11*.

Appointment of mediator

- 1.7.2** G_{/1}
- (1) The mediation provider will maintain a panel of suitable mediators, and recommend in each case a mediator to the parties. The parties are free to accept or decline the recommendation. If either party declines the recommendation, the mediation provider will seek to obtain agreement on another mediator from the panel.
 - (2) If the parties cannot agree a mediator within 7 days of the mediation notice being received by the mediation provider, the mediation provider will appoint a mediator.
 - (3) The mediators on the panel will all be:
 - (a) experienced commercial mediators; and
 - (b) accredited by or registered with a recognised mediation organisation.
 - (4) Experience of and expertise in the financial services sector will not be compulsory for panel mediators, but may be desirable.
 - (5) Mediators will, in accepting appointments, be required to confirm to the parties that they have no conflicts of interest in doing so.

Date for mediation

- 1.7.3** G_{/1}
- (1) a suitable date for the mediation; and

- (2) a timetable for the mediation process as a whole, including the date for submission of case summaries and exchange of *documents* referred to in the case summaries.

Duration of mediation

1.7.4

G
/1

- (1) Most mediations should last no longer than one full day, but in complex cases more time may be necessary. The mediator will assist the parties in deciding how much time to set aside. If the mediation requires more time than allotted to it, the parties may ask the mediation provider to set up a further day or days.
- (2) The parties and the mediator will use their best endeavours to complete the mediation as soon as practicable.

Mediation timetable

1.7.5

G
/1

- (1) In complex cases, the agreed timetable may extend beyond the initial extension agreed by the *RDC*, in which case the parties may request a further extension from the *RDC* (see *DEC* App 1.6.4G).
- (2) If the mediation has not started within the allotted timetable, the *FSA* may decline to mediate, and the matter will be referred to the *decision notice* stage.

Venue

1.7.6

G
/1

The mediation may take place at any venue acceptable to the parties and the mediator. This may be at the offices of the mediation provider, the mediator (if different), the *FSA* or elsewhere.

Mediation agreement

1.7.7

G
/1

- (1) Each mediation will take place in accordance with the terms of a mediation agreement. The agreement will set out the terms on which the mediation will take place, in particular, the agreement will provide that:
- (a) the mediation will be on a “without prejudice” basis and confidential; and
 - (b) the parties who attend the mediation will have authority to agree proposed settlement terms (subject, in relation to the *FSA* staff, to App 1.7.9G).
- (2) The mediation agreement will be signed by the parties, the mediator and the mediation provider.

Confidentiality

1.7.8

G
/1

- (1) Confidentiality is a key element of the mediation process. It means that:

- (a) matters disclosed in, and documents created for the purposes of, the mediation cannot be referred to in the public domain; and
 - (b) matters disclosed by one party to the mediator in confidence will not be disclosed to the other party without consent.
- (2) Under the mediation scheme, however, confidentiality will be limited in that:
- (a) if any information indicating potentially criminal conduct is disclosed to the mediator, the mediator will not be required to keep that matter confidential (and may choose to terminate the mediation);
 - (b) the terms of any settlement reached will, if approved by the *RDC*, be incorporated in a *decision notice*, and subsequent *final notice*, or (where appropriate) *notice of discontinuance* which may be made public;
 - (c) the *FSA* may publish information regarding the operation of the scheme on an anonymous basis in the *FSA's* annual report; such information may include, for example, the number of mediations conducted under the scheme and the number of those mediations which have resulted in agreed settlements.
- (3) In all other respects, documents prepared for the purposes of, and discussions taking place in the course of, the mediation will retain the confidential status they had during the mediation itself.

Authority to settle

1.7.9

G

/1

- (1) A key feature of mediation is the requirement that those who attend the mediation on behalf of each party have full authority to agree proposed settlement terms. In general, the *FSA's* decision making procedure for regulatory enforcement cases requires that the *RDC* approve any decision to take or refrain from taking disciplinary action. (The exception is some cases involving late submission of reports, see *DEC 4.5.2G* to *DEC 4.5.6G*) Therefore, the *RDC* must approve any proposed settlement terms agreed at the mediation.
- (2) The *FSA* will be represented during the mediation proceedings and at the mediation itself by the *FSA* staff who initially recommended that disciplinary action be taken. In order to minimise the risk that the proposed settlement terms agreed at the mediation will not be approved, the *FSA* will endeavour to ensure that the relevant members of the *RDC*, or as many of its relevant members as possible, are available for consultation by telephone during the mediation. This is to enable a clear indication to be given to the parties and the mediator whether the *RDC* will find the proposed settlement terms acceptable.
- (3) However, no involvement of the *RDC* in the mediation will in any way compromise its right subsequently to decline to approve the settlement terms.
- (4) If the *RDC* decides to decline to approve the settlement terms agreed at the mediation, the parties may, with the consent of the *RDC*, return to the mediation process if they wish to explore further settlement options. If they do, the *RDC* will ensure that its views are clearly stated as to why the terms previously agreed were not acceptable.

Paperwork for the mediation

1.7.10

G
/1

- (1) Mediation requires the parties to be able to discuss the dispute in an informed way. Therefore, each party attending the mediation will be required to produce:
 - (a) a short case summary setting out the issues in dispute; and
 - (b) any documents referred to in the case summary.
- (2) These documents must be submitted to the mediation provider in triplicate at least one week before the mediation. The mediation provider will be responsible for the exchange of documents.
- (3) The parties and the mediator may agree to dispense with the requirement to produce documentation before the mediation.

Costs

1.7.11

G
/1

- (1) The costs of the mediation provider in administering and conducting the mediation process (including the fee payable to the mediator) will be agreed between the *FSA* and the mediation provider when the mediation provider is appointed.
- (2) For each mediation, the mediation provider will invoice the parties for the anticipated costs of administering and conducting the mediation in advance. The *FSA* and the *person* will bear half of these costs each. Any additional costs incurred by the mediation provider will be invoiced after the mediation. These costs will also be shared. The costs referred to in (1) and (2) do not include legal or other costs that the *FSA* or *person* may incur in relation to the mediation, which will be the responsibility of the parties.

1.8

Preliminary meeting

1.8.1

G
/1

Once appointed, the mediator may (in his discretion) call a preliminary meeting with the parties and their advisers (if any). This may be used to ensure that the parties are properly prepared for the mediation, agree the issues for discussion and understand how the process will operate.

1.9

Termination of the mediation

1.9.1

G
/1

The mediation will take place at the agreed time and place.

- 1.9.2** G_{/1} If the *person* withdraws from the mediation process after it has agreed to mediate, it will be responsible for its share of any costs incurred by, or owing to, the mediation provider (see *DEC App 1.7.11G (1)*).
- 1.9.3** G_{/1} The mediation agreement will set out the terms on which a party or the mediator, or both, may terminate the agreement. These will include terms providing that:
- (1) either party may withdraw from and terminate the mediation at any stage before or during the mediation (subject to the provisions on costs in *DEC App 1.9.2G*, for terminations before the mediation takes place);
 - (2) either party or the mediator may withdraw if the mediation has not taken place within the agreed timetable; and
 - (3) the mediator may withdraw from and terminate the mediation if, for example, a criminal *offence* by or involving a party to the mediation is disclosed to him (see *DEC App 1.7.8G (2)(a)*).

1.10 Result of the mediation

- 1.10.1** G_{/1} Mediation can only give rise to one of two outcomes:
- (1) a proposal for settlement agreed between the parties; or
 - (2) no agreed proposal.
- 1.10.2** G_{/1} If no agreed proposal is reached, the mediation will be terminated and the case will proceed to the *decision notice* stage.
- 1.10.3** G_{/1} If a settlement proposal is agreed, it will be considered by the *RDC*, which will decide whether to approve it. If it is approved, a *decision notice*, and subsequently a *final notice*, will be issued reflecting the terms of the agreement reached. If it is not approved, the parties may return to the mediation only with the *RDC's* consent. If the *RDC* does not consent, the case will continue towards the *decision notice* stage.

1.11 Advisers

- 1.11.1** G_{/1} The parties may bring legal or other advisers of their choice with them to the mediation, although it is important to preserve the informality of the mediation process.

1.12**Review of mediation procedures****1.12.1****G**

/1

The use of mediation in the disciplinary context is a novel approach in the area of financial regulation, but reflects current trends in civil litigation. The *FSA* proposes to operate the mediation scheme on a pilot basis for one year and monitor it and review its operation at the end of that period. The *FSA* proposes to publish core information relating to the operation of the scheme in the *FSA's* Annual Report.

COLLECTIVE INVESTMENT SCHEMES SOURCEBOOK INSTRUMENT 2001

- A. The Financial Services Authority makes the rules, gives the guidance and makes the directions and requirements in the Annex to this instrument (“CIS”) in the exercise of the powers listed in Schedule 4 to CIS (Powers exercised).
- B. This instrument shall come into force as follows:
- (1) CIS 16 (Application and notification) and CIS 17 (Recognised schemes): at the beginning of the first day on which section 40 (Application for permission) of the Financial Services and Markets Act 2000 (the "Act") comes into force for any purpose;
 - (2) other parts of CIS: at the beginning of the day on which section 19 of the Act (The general prohibition) comes into force;
 - (3) paragraphs A to E on this page : immediately.
- C. The provisions of the Act relevant to making rules and listed in Schedule 4 to CIS (Powers exercised) are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- D. This instrument may be cited as the Collective Investment Schemes Sourcebook Instrument 2001.
- E. The Annex to this instrument (including its Schedules) may be cited as the Collective Investment Schemes sourcebook (or CIS).

By order of the Board
21 June 2001

Chapter 1.

Introduction - Collective investment schemes sourcebook

1.1 Application

- 1.1.1** G_{/1} This sourcebook applies to investment *companies with variable capital (ICVCs), directors and depositaries of ICVCs and managers and trustees of authorised unit trusts (AUTs)*, except for *CIS 16* which includes provisions that also apply to operators of *collective investment schemes* and *CIS 17* which applies only to operators of *collective investment schemes* which are *recognised schemes*. *CIS 10* also applies to auditors of *ICVC's* and *AUTs*.

Purpose

- 1.1.2** G_{/1} The general purpose of this sourcebook is to contribute to the *FSA* meeting its *regulatory objective* of the protection of *consumers* (see section 2 and 5 of the *Act*) by providing a regime of product regulation for *ICVCs* and *AUTs*. This regime is intended to ensure a high and uniform standard of protection for investors in those products by specifying a number of features of those products and how they are to be operated. More specific purpose statements covering how the requirements meet the *FSA's* regulatory objective of the protection of *consumers* are, where appropriate, given in subsequent chapters.

The products covered

- 1.1.3** G_{/1} Under section 238 of the *Act* only certain *collective investment schemes* may be promoted to the public. These are:
- (1) *ICVCs* and *AUTs*: these are constituted in the *United Kingdom* and are described in more detail in *CIS 1.1.4G* to *CIS 1.1.6G*; and
 - (2) *collective investment schemes* constituted outside the *United Kingdom* and recognised by the *FSA* under:
 - (a) section 264 of the *Act* (Schemes constituted in other EEA States): these are *schemes* that qualify under the *UCITS directive*;
 - (b) section 270 of the *Act* (Schemes authorised in designated countries or territories); and
 - (c) section 272 of the *Act* (Individually recognised overseas schemes).

ICVCs

1.1.4 G_{/1} Section 262 of the *Act* empowers the Government to make provisions relating to *open-ended investment companies* (as defined by section 236 of the *Act*) and they have made the *OEIC regulations* to permit establishment of *ICVCs* in Great Britain. Schedule 5.1(3) of the *Act* states that authorised open-ended investment companies are *authorised persons*, hence an *ICVC* is an *authorised person*.

1.1.5 G_{/1} The *ICVC* is constituted by an *instrument of incorporation*, drawn up by its *directors*. At least one *director* must be an *authorised corporate director* ('*ACD*'). A *depository* is also required which is responsible for the safekeeping of the *scheme* property. In order to comply with section 19 of the *Act*, the *ACD* and the *depository* must each be *authorised persons*. The *FSA* has the power under regulation 14 of the *OEIC regulations* to authorise the *ICVC* by making an *authorisation order*. *CIS 16* provides additional *guidance* on the process of applying to the *FSA* for *authorisation* of an *ICVC*.

AUTs

1.1.6 G_{/1} Under section 237 of the *Act*, an *AUT* is a *collective investment scheme* under which the property is held on trust for the *participants* by the *trustee* and which is authorised by an *authorisation order* (made by the *FSA*) in force under section 243 of the *Act*. The *AUT* will be constituted by a *trust deed*, entered into by the *manager* and *trustee*, both of whom must, under section 243(7) of the *Act*, be *authorised persons* and have *permission* to act in their respective capacities. *CIS 16* provides more detail on the process of applying to the *FSA* for the *authorisation* of an *AUT*.

Recognised schemes

1.1.7 G_{/1} For *collective investment schemes* constituted outside the *United Kingdom* and referred to in *CIS 1.1.3G(2)*, this sourcebook brings together the material relating to the admission to *marketing* in the *United Kingdom* of such *schemes*, complementing material in Chapter V of Part XVII of the *Act* (Recognised overseas schemes).

Functions of the CIS sourcebook

1.1.8 G_{/1} The sourcebook performs three main functions in respect of *ICVCs* and *AUTs*, by providing material:

- (1) relating to their constitution and management (including *rules* and *guidance* on pricing arrangements, investment powers and on certain information to be provided to investors);
- (2) relating to the process of authorising them; and
- (3) which satisfies the requirements of the *UCITS directive* (which sets minimum standards for *schemes* on a basis agreed by all *EEA States*) thereby enabling *ICVCs* and *AUTs* which meet those standards to market elsewhere in the *EEA*.

1.1.9

G

/1

Together, the material in Chapters 2 to 15 forms a major part of the product regulation regime for *ICVCs* and *AUTs*, complementing material in the *OEIC regulations* and Chapter III of Part XVII of the *Act* (for *Authorised unit trust schemes*).

1.2 Arrangement of this sourcebook and definitions

1.2.1

G

/1

Some of this sourcebook relates only to *ICVCs* and some only to *AUTs*. However, parts of this sourcebook cover both *ICVCs* and *AUTs* (in particular in *CIS* 3, 4, 5 and 9). Accordingly, some of the defined terms included relate equally to both *ICVCs* and *AUTs* (together called “*authorised funds*”). Other key examples of these terms are:

- (1) “*authorised fund manager*”: covers both the *ACD* of an *ICVC* and the *manager* of an *AUT*. (The term “*ACD*” is used only in relation to an *ICVC* and the term “*manager*” is used only in relation to an *AUT*);
- (2) “*depository*”: where used in relation to an *authorised fund*, covers both the *depository* of an *ICVC* and the *trustee* of an *AUT*;
- (3) “*holder*”: covers both a “*shareholder*” of an *ICVC* and a “*unitholder*” of an *AUT*;
- (4) “*unit*”: according to the context, can cover both a “*share*” in an *ICVC*, a “*unit*” in an *AUT* and the rights or interests of *participants* in other types of *collective investment scheme*;
- (5) “*prospectus*”: covers the *prospectus* of an *ICVC* and the “*scheme particulars*” of an *AUT*, but there is no objection to the use of the latter term as an alternative to “*prospectus*”.

Outline of the content of this sourcebook

1.2.2

G

/1

CIS 2 (Constitution) sets out provisions on the contents of the documents required to form *authorised funds*, and other matters relating to their constitutional features, such as *classes of shares* (in *ICVCs*) and *units* (in *AUTs*) and the categories of *authorised fund* (for example, *securities schemes*) that may be established.

1.2.3

G

/1

CIS 3 (Prospectus) includes requirements on the preparation, content, availability of, and changes to, an *authorised fund’s prospectus*.

1.2.4

G

/1

CIS 4 (Single-pricing and dealing) covers the valuation and pricing of *authorised funds* that are single-priced. In addition, it includes *rules* on the *sale* and *redemption of units* in such funds. *CIS* 7 Ann 1G and *CIS* App 1 are also relevant to this chapter.

1.2.5

G

/1

CIS 5 (Investment and borrowing powers) requires *authorised funds* to comply with a number of general *rules* on investment and specific *rules* depending on the category of *authorised fund*. It also includes *rules* for efficient portfolio management and borrowing.

- 1.2.6 G /1 CIS 6 (Title, transfer and plan registers) includes requirements relating to the register of *unitholders* in an AUT. (Provisions concerning the register of an ICVC are in the *OEIC regulations*.) It also deals with *plan registers* of ICVCs and AUTs.
- 1.2.7 G /1 CIS 7 (Powers and duties) apportions responsibilities between the *directors* (including the *ACD*) and *depository* of an ICVC and the *manager* and *trustee* of an AUT, to the extent that these are not covered in other chapters.
- 1.2.8 G /1 CIS 8 (Charges and expenses) lays down conditions concerning charges when investors buy or *sell units* and payments that can be made out of the *scheme property*.
- 1.2.9 G CIS 9 (Income) deals with the calculation and distribution of income.
- 1.2.10 G /1 CIS 10 (Reports and accounts) concerns the content and publication of annual and half-yearly reports and accounts of *authorised funds*.
- 1.2.11 G /1 CIS 11 (Meetings of holders, amendments to the scheme and service of notices) deals with a variety of matters relating to meetings of *holders* and includes requirements concerning the conditions under which the *instrument constituting the scheme* may be changed and how the *scheme property* of an *authorised fund* may become the property of another *scheme* (a *scheme of arrangement*). It also provides for the use of electronic media in respect of any notice, document or information that is required by CIS to be sent to any *person*.
- 1.2.12 G /1 CIS 12 (Special provisions for certain categories of scheme) provides some special *rules* for certain categories of *authorised fund*, in particular for *umbrella schemes*.
- 1.2.13 G /1 CIS 13 (Suspension and resumption of dealings) includes requirements for the suspension of dealings in the *units of authorised funds*.
- 1.2.14 G /1 CIS 14 (Termination of schemes) includes requirements relating to the winding-up of *authorised funds* and the termination of a *sub-fund* of an ICVC.
- 1.2.15 G /1 CIS 15 (Dual-pricing and dealing) sets out *rules* and *guidance* on the valuation and pricing of *units* in a *dual-priced AUT*. CIS 7 Ann G and CIS App 1 are also relevant to this chapter.
- 1.2.16 G /1 CIS 16 (Application and notification) outlines the application and notification procedures for *authorised funds* and *schemes* from other countries or territories which may be recognised by the FSA for *marketing* in the *United Kingdom*.
- 1.2.17 G /1 CIS 17 (Recognised schemes) sets out the information that the FSA requires so as to consider whether *schemes* under sections 264, 270 and 272 of the *Act* should be permitted to market in the *United Kingdom*.

Related sourcebooks

- 1.2.18 G /1 There are a number of other parts of the FSA's *Handbook* that are relevant to those having a responsibility in relation to *authorised funds*. These include:
 - (1) *PRIN* (The Principles for Businesses);
 - (2) *SYSC* (Senior management arrangements, systems and controls);

- (3) *APER* (The Statements of principle and Code of Practice for approved persons) ;
- (4) *COB* (The Conduct of Business sourcebook);
- (5) *SUP* (The Supervision manual); and
- (6) *DEC* (the Decision making manual)

1.2.19 G_{/1} *ENF 16* sets out the *FSA's* policies and procedures concerning the use of its enforcement powers in relation to *ICVCs*, *AUTs* and *recognised schemes*.

1.2.20 G_{/1} *ML* is also relevant in particular when considering *CIS 4.4.3R*, *CIS 7.10R* and *CIS 15.4.3R*.

1.2.21 G_{/1} Due regard should be given to compliance with the Joint Money Laundering Steering Group Guidance Notes for the Financial Sector in determining compliance with the *Money Laundering Regulations*.

Chapter 2.

2.

Constitution

2.1 Introduction

Application

- 2.1.1** **R** This chapter applies in relation to *ICVCs* and *AUTs*.
/1
- 2.1.2** **G** (1) The *persons* to whom each respective *rule* and *guidance* in this chapter applies, are stated either at the beginning of the *rule* or *guidance* or at the beginning of the section that contains the *rule* or *guidance*.
/1
- (2) However, to assist the understanding of this chapter, *CIS 2.1.5G* indicates which provisions in this chapter are relevant for *ICVCs* and which are relevant for *AUTs*.
- 2.1.3** **G** This chapter assists in achieving the *regulatory objective* of protecting *consumers* (as envisaged by section 2 and 5 of the *Act*). In particular, this chapter:
/1
- (1) lays down some requirements about provisions which must be included in the *instrument of incorporation* of each *ICVC* and in the *trust deed* of every *AUT* resulting in a similar degree of protection for all investors in an *ICVC* or in an *AUT*;
- (2) lays down the categories to only one of which each *authorised fund* must belong (see *CIS 2.1.4*);
- (3) provides *rules* which deal with the *classes of shares* (in *ICVCs*) and *units* (in *AUTs*) which may be issued and sold to investors; those *rules* will ensure that investors in each *class* are treated equally and fairly.
- ### Categories of authorised fund
- 2.1.4** **R** An *authorised fund* must belong to only one of the following categories:
/1
- (1) a *securities scheme*;
- (2) a *money market scheme*;
- (3) a *futures and options scheme*;
- (4) a *geared futures and options scheme*;
- (5) a *property scheme*;

2.1.5

G
/1

- (6) *a warrant scheme;*
- (7) *a feeder fund;*
- (8) *a fund of funds scheme;*
- (9) *an umbrella scheme*

Table Table of application
This table belongs to [CIS 2.1.2]

Handbook provision:	Relevance for:	
	ICVCs	AUTs
2.1.1R – 2.1.4R, 2.2.1R	X	X
2.2.2R – 2.2.4R	X	
2.2.5R – 2.2.8R		X
2.3.1R – 2.3.4G	X	X
2.4.1R – 2.4.6R	X	
2.5.1R – 2.5.4R	X	
2.6.1R		X

Note: "X" means "applies".

2.2 The instrument constituting the scheme

Application

- 2.2.1 **R** /1
- (1) CIS 2.2.2R – CIS 2.2.4R apply to the *directors* of an ICVC.
 - (2) CIS 2.2.5R – CIS 2.2.8R apply to *managers* and *trustees* of an AUT.

The instrument of incorporation for ICVCs: matters which must be included in the instrument of incorporation

- 2.2.2 **R** /1
- (1) The *instrument of incorporation* must not include any provision which is unfairly prejudicial to the interests of *shareholders* generally or to the *holders* of any *class* of *shares*, except to the extent that (2) and (3) applies.
 - (2) If, subject to compliance with a condition imposed by law or regulation of any part of the *United Kingdom*, any *income property* of the ICVC may be allocated or paid to a *shareholder* without deduction of *United Kingdom* tax, the *instrument of incorporation* must provide:
 - (a) that, if the condition is never, or ceases to be, fulfilled, the relevant *shares* of that *shareholder* must be:
 - (i) redeemed or cancelled; or
 - (ii) converted into or exchanged for *shares* where the income allocated or paid is subject to deduction of *UK* tax; and
 - (b) the procedure for that *redemption* or *cancellation*, conversion or exchange.
 - (3) The *instrument of incorporation* must provide that the *person* designated for the purposes of paragraph (4) of schedule 4 (*Share transfers*) to the *OEIC regulations* must be the *person* who, for the time being, is the ACD of the ICVC.

- (4) The *instrument of incorporation* must provide that the ICVC may (without prejudice to the requirements of regulation 21 of the *OEIC regulations* (Alterations)), by a resolution passed by a simple majority of the votes validly cast for and against the resolution at a general meeting of *shareholders*, remove a *director* before his period of office expires, despite anything else in the *ICVC's instrument of incorporation* or in any agreement between the ICVC and the *director*.
- (5) Nothing in (4):
- (a) deprives a *person* of any compensation or damages payable to him for terminating his appointment as *director* or of any appointment which terminates with it; or
 - (b) restricts the effect of any provision in the *instrument of incorporation* relating to a notice to be given to the ICVC or to the *shareholders* of the intention to move a resolution to remove a *director* or relating to the *director's* rights to make representations.
- (6) The *instrument of incorporation* must contain a statement that, subject to any restrictions in the *rules* in this sourcebook or in the *instrument of incorporation*, the ICVC has the power to invest in any *securities* market or *deal* on any *derivatives* market:
- (a) which is an *eligible securities* or *derivatives* market for that ICVC under CIS 5 (Investment and borrowing powers); or
 - (b) to the extent that power to do so is conferred by CIS 5 (Investment and borrowing powers), irrespective of any issue of eligibility.

The instrument of incorporation for ICVCs: matters which may be included in the instrument of incorporation

2.2.3

G

/1

The *instrument of incorporation* may provide that, if the holding of any *shares* by a *shareholder* is (or is reasonably considered by the *directors* to be) an infringement of any law or governmental regulation, the *shares* so held must be redeemed or cancelled; if the *instrument of incorporation* contains such a provision, it should also provide the procedure for that *redemption* or *cancellation*.

Relationship between instrument of incorporation and the rules in this chapter

2.2.4

R

/1

Any power conferred on any ICVC by these *rules* is subject to any express restriction contained in the ICVC's *instrument of incorporation*.

2.2.5

R

/1

The trust deed for AUTs

An *AUT* must be constituted by a *trust deed* made between the *manager* and the *trustee*.

Matters that must be included in the trust deed

2.2.6

R

/1

The *trust deed* of an *AUT* must contain at least:

(1) Name of *AUT*

a statement of the name of the *AUT* which must not be inconsistent with the *AUT*'s authorised status under (2) and any restricted economic or geographic objectives;

(2) Authorised status

(a) a statement:

- (i) in all cases, of the category to which the *AUT* belongs under *CIS* 2.1.4R (Categories of authorised fund);
- (ii) for a *feeder fund*, of the name and authorised status of the *regulated collective investment scheme* (or a *sub-fund* of such a *scheme*) or the *eligible investment trust* into which the *feeder fund* is to invest;
- (iii) for a *fund of funds scheme*, identifying the categories of *scheme* in which the *fund of funds scheme* may invest; and
- (iv) for an *AUT* that is an *umbrella scheme*, identifying the category to which each *sub-fund* would belong if the *sub-fund* were itself the subject of a separate *authorisation order*;

(3) Governing law

a statement that the *trust deed* is made under and governed by the law of England and Wales, or the law of Scotland or the law of Northern Ireland;

(4) *Trust deed* to be binding and authoritative

a statement that the *trust deed*:

- (a) is binding on each *unitholder* as if he had been a party to it and that he is bound by its provisions; and
- (b) authorises and requires the *trustee* and the *manager* to do the things required or permitted of them by its terms;

(5) *Base currency*

a statement of the *base currency* of the *AUT*;

(6) *Investment powers in eligible markets*

except in the case of a *feeder fund*, a statement that, subject to any restriction in the *rules* in this sourcebook or the *trust deed*, the *AUT* has the power to invest in any *securities* market or *deal* on any *derivatives* market:

- (a) which is an *eligible securities* or *derivatives* market for that *AUT* under *CIS 5* (Investment and borrowing powers); or
- (b) to the extent that power to do so is conferred by *CIS 5* (Investment and borrowing powers), irrespective of any issue of eligibility;

(7) *Declaration of trust*

a declaration that, subject to the provisions of the *trust deed* and all *rules* made under section 247 of the *Act* and for the time being in force:

- (a) the *scheme property* (other than sums standing to the credit of the *distribution account*) is held by the *trustee* on trust for the *unitholders* according to the number of *units* held by each *unitholder* or, in the case where *income units* and *accumulation units* are both in *issue*, according to the number of undivided *shares* in the *scheme* property represented by the *units* held by each *unitholder*; and □
- (b) the sums standing to the credit of the *distribution account* are held by the *trustee* on trust to distribute or apply them in accordance with *CIS 9* (Income);

(8) *Unitholder's liability to pay*

a provision that a *unitholder* is not liable to make any further payment after he has paid the *price* of his *units* (or, in the case of a *dual-priced AUT*, *purchase price*) and that no further liability can be imposed on him in respect of the *units* which he holds; and

(9) *Single-priced AUTs*

for a *single-priced AUT*:

- (a) a provision that there must be only a single *price* for any *unit*, determined by reference to any particular *valuation point*;

- (b) provisions additional to, but subject to the requirements of, CIS 4.8 (Valuation) stating how the value of the *scheme* property of the *AUT* is to be determined; and
- (c) if provisions in (a) and (b) do not take effect when the *trust deed* or (where appropriate) supplemental *trust deed* takes effect, a statement of the time from which those provisions are to take effect or how it will be determined.

Provisions that may be included in the trust deed

2.2.7

G

/1

- (1) There are a number of provisions in this sourcebook that only apply to the extent that they are provided for in the *trust deed*. Sub-paragraphs (a) to (n) include some provisions that may be contained in the *trust deed* for this purpose.
- (a) Duration of the *AUT*

if the *AUT* is to terminate after a particular period expires, a statement to that effect;
 - (b) *Manager's preliminary charge*

a statement

 - (i) authorising the *manager* to make a *preliminary charge*; and
 - (ii) specifying a maximum to that charge, expressed either as a fixed amount in the *base currency* or as a percentage of the *price* (or in the case of a *dual-priced AUT*, the *issue price* of a unit);
 - (c) *Manager's periodic charge*

a statement authorising the *manager* to make a periodic charge payable out of the *scheme property*; any statement under this paragraph should:

 - (i) provide for the charge to be expressed as an annual percentage (to be specified in the *prospectus* and taken in accordance with the *rules* in CIS 8 (Charges and expenses)) of the value of the *scheme property* (and the statement may provide for the addition to the charge of value added tax, if any, payable on it);
 - (ii) specify the *accrual intervals* and how the charge is to be paid; and
 - (iii) specify a maximum to that charge, expressed as an annual percentage of the *scheme property* value;
 - (d) *Manager's charge on an exchange of units*

for an *AUT* that is an *umbrella scheme*, a statement authorising the *manager* to make a percentage charge or a charge of a fixed amount on the exchange of *units* in one *sub-fund* for *units* in another (other than the first such exchange by a *unitholder* in any one *annual accounting period*) and specifying what the maximum of that percentage or amount may be;

(e) *Manager's charge on redemption*

a statement authorising the *manager* to deduct a *redemption charge* out of the proceeds of *redemption*;

(f) *Trustee's remuneration*

a statement authorising any payments to the *trustee* by way of *remuneration* for its services to be paid (in whole or in part) out of the *scheme property* and specifying the basis on which that *remuneration* is to be determined and how it should accrue and be paid;

(g) Constituents of property, permitted transactions and borrowing powers

a statement of any of:

- (i) the description of assets which the *capital property* may consist of;
- (ii) the proportion of the *capital property* which may consist of an asset of any description;
- (iii) the descriptions of transactions which may be effected on behalf of the *AUT*;
- (iv) the borrowing powers exercisable in relation to the *AUT*;

where they are narrower than those permitted for the category of *authorised fund* to which the *AUT* belongs under CIS 5 (Investment and borrowing powers);

(h) Restricted economic or geographic objectives

a statement of any restrictions on the geographic areas or economic sectors in which the *capital property* of the *AUT* may be invested;

(i) *Accumulation units*

a statement whether *units* in the *AUT* may be *accumulation units* only or *accumulation units* as well as *income units*.

(j) Limited categories of *unitholder*

a provision that *holders* of *units* in the *AUT* apart from the *manager* must be *persons* who hold *units* such that any gain accruing upon the disposal of the *units* at any time will be wholly exempt from capital gains tax and corporation tax in the *United Kingdom* other than by reason of residence;

(k) Certificates

- (i) a provision authorising the issue of *bearer certificates*, accompanied by a statement of how the *holders* of *bearer certificates* are to identify themselves;
- (ii) a provision authorising the *trustee* to charge a fee for issuing any document recording, or for amending, an entry on the *register*, other than on the *issue* or *sale* of *units*;

(l) *Income equalisation*

a provision for *income equalisation* including a statement of how *income equalisation* is to be calculated, paid and accounted for;

(m) *Relevant pension schemes*

for a *scheme* formed with the intention of it being a *relevant pension scheme*, additional provisions included with a view to the *scheme's* satisfying the requirements of the Board of Inland Revenue (Pension Schemes Office and National Insurance Contributions Office), or those of any agency which may regulate a *relevant pension scheme* from time to time;

(n) *Relevant charitable schemes*

for an *AUT* formed with the intention of it being a *relevant charitable scheme*, additional provisions included with a view to the *AUT* qualifying as a *relevant charitable scheme* and to the maintenance of its tax status after it has qualified.

(2) The *trust deed* of an *AUT* may also include any provision:

- (a) dealing with a matter not referred to in *CIS 2.2.6R* (Matters that must be included in the trust deed) or this *guidance (CIS 2.2.7G)* the inclusion of which serves to enable the *AUT*, the *manager* or the *trustee* to obtain any privilege or power conferred by the *rules* in this sourcebook; or
- (b) which is expressly contemplated in this sourcebook.

Relationship between trust deed and rules in this sourcebook

2.2.8

R

/1

- (1) **A *trust deed* must not contain any provision that conflicts with any *rule* in this sourcebook.**
- (2) **Any power conferred, by the *rules* in this sourcebook, on the *manager*, on the *trustee*, or on them together is subject to any express prohibition contained in the *trust deed*.**
- (3) ***CIS 5* (Investment and borrowing powers) has effect in relation to any *AUT* which is subject to any restriction imposed by the *trust deed*.**

2.3 UCITS obligations

2.

Application

- 2.3.1 **R** This section (CIS 2.3) applies to *ICVCs* and to *managers* of *AUTs*.
/1

UCITS schemes

- 2.3.2 **G** An *authorised fund* that is a *securities scheme*, a *warrant scheme*, or an *umbrella scheme* consisting of *sub-funds* which would, if separately authorised, be *securities schemes* or *warrant schemes*, is a *UCITS scheme*, unless, in the case of an *AUT*, the categories of *holder of units* in it are limited by a provision in the *trust deed* of a type permitted by CIS 2.2.7G(1)(j).
/1

Requirements

- 2.3.3 **R** (1) The instrument constituting a *UCITS scheme* may not be amended in such a way that it ceases to be a *UCITS scheme*.
/1
- (2) If an *ICVC* that is a *UCITS scheme*, or the *manager* of an *AUT* that is a *UCITS scheme*, proposes to market *units* in any *EEA State* other than the *United Kingdom*, the *ICVC* or the *manager* must notify the *FSA* of its proposal, specifying the *EEA State* concerned. The *ICVC* or the *manager* must do this at the same time as, or before, notifying the authorities in that *EEA State* of that proposal.

Outward passporting of UCITS schemes

- 2.3.4 **G** (1) Section VII of the *UCITS directive* provides the framework by which a *UCITS scheme* may undertake *marketing* in another *EEA State*. Article 44 has the effect of requiring the *UCITS scheme* to comply with the *marketing* and *advertising* rules in the relevant *Host State*. Article 45 requires the *UCITS scheme* to maintain certain facilities in the *Host State* and paragraph 25 of CIS 3.5.2 (contents of the prospectus) requires these to be set out in the *scheme's prospectus*.
/1

- (2) Article 46 sets out the documentation requirements that need to be provided to the competent authority in the relevant *EEA State*. The documents have to be provided in a compliant manner at the same time as notification of the proposal to market there. The *UCITS scheme* may begin *marketing* two months following notification.
- (3) Article 47 requires the relevant information and documents distributed in the *Host State* to be the same as those that the *UCITS scheme* provides in its *Home State*. The documents must be published in at least one of the official languages of the *Host State*. *CIS 3* (prospectus) and *CIS 10* (report and accounts) will be applicable in this case.
- (4) If the *UCITS scheme* is being marketed in another *EEA State*, Article 34 requires the publication of *prices* in the *Host State*. *CIS 4.4.8R(4)* and *CIS 15.4.14R(4)* will be applicable in this case.

2.4 Share classes

Application

- 2.4.1** **R** This section (CIS 2.4) applies to *ICVCs* and their *ACDs*.
/1

Classes of shares in an ICVC

- 2.4.2** **G** (1) The *OEIC regulations* (schedule 2, paragraph (4)(1)(e)) require the *instrument of incorporation* of an *ICVC* to state what *classes of shares* may be issued, and, in the case of an *ICVC* that is an *umbrella scheme*, require the *instrument of incorporation* to state the *classes* that may be issued in respect of each *sub-fund*.
/1
- (2) *Classes of shares* may include:
- (a) *income shares*;
 - (b) *net accumulation shares*;
 - (c) *gross accumulation shares*;
 - (d) *currency class income shares*, which are *currency class shares* in respect of which income is allocated periodically to *shareholders* under CIS 9.2.5R (Annual distribution to holders of income shares or income units);
 - (e) *currency class net accumulation shares*, which are *currency class shares* in respect of which income (net of any tax deducted or accounted for by the *ICVC*) is credited periodically to capital under CIS 9.2.4R (Annual distribution to accumulation shares or accumulation units); and
 - (f) *currency class gross accumulation shares*, which are *currency class shares* in respect of which income is credited periodically to capital under CIS 9.2.4R, but, in accordance with relevant tax law, without deduction by the *ICVC* of any income tax.

Classes of shares other than those listed in CIS 2.4.2G

- 2.4.3** **G** (1) An *instrument of incorporation* may provide for *classes of shares* different from those listed in CIS 2.4.2G(2). The *guidance* in this paragraph relates only to those *classes of shares* (and in this paragraph they are referred to as "new *share classes*").
/1

- (2) Subject to this *guidance* (CIS 2.4.3G) and the restriction in CIS 2.4.6R(2) (Rights of share classes), no special conditions are laid down in this chapter as to the nature or operational features of new *share classes*.
- (3) CIS 2.2.2R(1) does not permit a provision in an *instrument of incorporation* which is unfairly prejudicial to the interests of *shareholders* generally or to the *holders* of any *class* of *shares*. In order to be satisfied that CIS 2.2.2R(1) is complied with, the FSA will take into account the principles in (a) to (c) when considering any proposals for new *share classes*. Those principles, which are not in any particular order of importance, are:
- (a) the new *share class* should not provide advantages for that *class* if that would result in prejudice to *shareholders* of any other *class*;
 - (b) the nature, operation and effect of the new *share class* should be capable of being explained clearly to prospective investors in the *prospectus*; and
 - (c) the effect of the new *share class* should not appear to be contrary to the purpose of any part of this sourcebook.
- (4) The FSA would encourage *firms* with proposals for new *share classes* to raise them informally with it so it can determine whether the following steps are necessary:
- (a) submitting the proposal to the FSA, in draft, considerably in advance of any application for *authorisation* of an ICVC or proposal to change the *instrument of incorporation*; and
 - (b) accompanying the proposal in (a) with a detailed explanation of the purpose of the new *share class* and its intended operation and effect. In particular, the FSA would wish to receive:
 - (i) the provisions for inclusion in the *instrument of incorporation* for that new *share class*, which should describe clearly the nature of that new *share class* and deal comprehensively with the rights of *shareholders* of that new *share class*;
 - (ii) a separate and detailed explanation of how the new *share class* will operate in practice, which should describe the circumstances in which the rights and obligations of *shareholders* of that new *share class* depart from the rights and obligations of other *shareholders*;
 - (iii) an explanation of the operational features of administrative and accounting systems supporting the new *share class*.

What are currency class shares?

2.4.4

G
/1

A *currency class share* differs from other *shares* mainly in that its *price*, having been calculated initially in the *base currency*, will be quoted, and normally paid for, in the currency of the designation of the *class*. Income distributions will also be paid in the currency of designation of the *class*.

Currency class shares: requirements

2.4.5

R

/1

In the case of *currency class shares*:

- (1) the currency of the *class* concerned must not be the *base currency* (or, in the case of a *sub-fund* which, in accordance with a statement in the *prospectus*, is to be valued in some other currency, the currency of the *class* may be in the *base currency*, but must not be in that other currency);
- (2) the *price* must be expressed in the currency of the *class* concerned;
- (3) any distribution must be paid in the currency of the *class* concerned; and
- (4) statements of amounts of *money* or values included in statements and in certificates prepared under CIS 9.2.8R (Tax certificates) must be given in the currency of the *class* concerned (whether or not also given in the *base currency*).

Rights of share classes

2.4.6

R

/1

- (1) If any *class* of *shares* in the *ICVC* has different rights from any other *class* of *shares* in the *ICVC*, the *instrument of incorporation* must provide how the proportion of the value of the *scheme property* and the proportion of income available for allocation attributable to each such *class* must be calculated.
- (2) (a) For an *ICVC* which is not an *umbrella scheme*, the *instrument of incorporation* must not provide for any *class* of *shares* in respect of which:
 - (i) the extent of the rights to participate in the *capital property, income property* or *distribution account* would be determined differently from the extent of the corresponding rights for any other *class* of *shares*; or
 - (ii) payments or accumulation of income or capital would differ in source or form from those of any other *class* of *shares*;
- (b) For an *ICVC* which is an *umbrella scheme*, the provisions in (a) apply to *classes* of *shares* in respect of each *sub-fund* as if each *sub-fund* were a separate *ICVC*; and
- (c) Paragraphs (a) and (b) do not prohibit a difference between the rights attached to one *class* of *shares* and to another *class* of *shares* that relates solely to:

- (i) the accumulation of income by way of periodical credit to capital rather than distribution;
- (ii) charges and expenses that may be taken out of the scheme property or payable by the *shareholder*; and
- (iii) the currency in which *prices* or values are expressed or payments made.

2.5 Denomination of shares and their sub-division and consolidation

2.

Application

- 2.5.1 **R** /1
- (1) *CIS 2.5.2G* and *CIS 2.5.3R* apply to an ACD.
 - (2) *CIS 2.5.4R* applies only to *directors* of an ICVC.

Characteristics of larger and smaller denomination shares

- 2.5.2 **G** /1
- Although fractions of a *share* are not possible, regulation 45 of the *OEIC regulations* (Shares) provides that the rights attached to a *share* of any *class* may be expressed in two denominations, in which case the 'smaller' denomination must be such proportion of the 'larger' denomination (that is, a standard *share*) as is fixed by the ICVC's *instrument of incorporation*. This will enable holdings to consist of more or less than a complete number of *larger denomination shares*. If an ICVC wishes to take advantage of this provision, the relevant proportion must be stated in its *instrument of incorporation*. A single document of title, tax certificate or cheque may cover a single holding of both *larger denomination shares* and *smaller denomination shares* of any *class*.

Requirement

- 2.5.3 **R** /1
- (1) This *rule* (*CIS 2.5.3R*) applies whenever the *instrument of incorporation* provides, in relation to any *class*, for *smaller denomination shares* and *larger denomination shares*.
 - (2) Whenever a registered holding includes a number of *smaller denomination shares* that can be consolidated into a *larger denomination share* of the same *class*, the ACD must consolidate the relevant number of those *smaller denomination shares* into a *larger denomination share*.
 - (3) The ACD may at any time, for the purpose of effecting a transaction in *shares*, substitute for a *larger denomination share* the relevant number of *smaller denomination shares*. If it does this, (2) does not apply to the resulting smaller denomination

shareholding or holdings until immediately after the completion of the transaction.

- (4) For the purpose of (2) and (3) the relevant number must be calculated by reference to the proportion, stated in the *instrument of incorporation*, of a *larger denomination share* represented by a *smaller denomination share*.

Sub-division and consolidation of shares

2.5.4

R
/1

- (1) The *directors* of an *ICVC* may, unless expressly forbidden to do so by its *instrument of incorporation*, determine:
- (a) that each *share* of any *class* is to be subdivided into two or more *shares* (whereupon each such *share* will stand subdivided accordingly); or
 - (b) that two or more *shares* of any *class* are to be consolidated (whereupon those *shares* will stand consolidated).
- (2) The *ICVC* must (unless it has done so before the sub-division or consolidation became effective) immediately give notice to each *shareholder* (or the first named of joint *holders*) of any subdivision or consolidation under (2).

2.6 Units and classes of units in AUTs

2.6.1 **R** This section (*CIS 2.6*) applies to the types of *units*, which may exist within an *AUT*.
/1

2.6.2 **R** (1) The interests of the *unitholders* in an *AUT* consist of *units* (including fractions of a *unit*), each representing one undivided share in the *AUT's scheme property*.
/1

(2) This system of single undivided shares is modified where both *income units* and *accumulation units* are in existence, because:

(a) when income is accumulated and capitalised under *CIS 9.2.4R* (Annual allocation to accumulation shares or accumulation units), that accumulation is achieved by increasing the number of undivided shares (including fractions) which together constitute the *accumulation units* then in existence; and

(b) any *accumulation units* issued subsequently must represent when issued the same number (including fractions) of undivided shares in the *capital property* of the *AUT* as each other *accumulation unit* then in existence.

(3) Each *unit* must be either an *income unit* or an *accumulation unit*.

(4) The *AUT* will consist of *income units* only unless the *trust deed* provides, or the *manager* decides, under a power contained in the *trust deed*, that the *AUT* will consist of the other *class* or of both.

Chapter 3.

Prospectus

3.

3.1 Introduction

Application

3.1.1 **R** _{/1} The *rules* and *guidance* in this chapter apply in accordance with Table 3.1.2R (Table of application).

3.1.2 **R** _{/1} Table Table of application
This table belongs to [CIS 3.1.1]

Paragraph or section number	ICVC	ACD	Any other directors of an ICVC	Manager of an AUT
3.2	X	X	X	X
3.3	X	X		X
3.4	X	X	X	X
3.5	X	X	X	X

Note: "X" means applies.

Purpose

- 3.1.3** **G** _{/1}
- (1) The purpose of this chapter is to assist in achieving the *regulatory objective* of protecting *consumers* as envisaged by sections 2 and 5 of the *Act* by enabling *consumers* to have access to up to date detailed information about an *AUT* or *ICVC* before *units* are sold to them. The *rules* in this chapter also take account of *Principle 7* (Communication with clients) that a *firm* must pay due regard to the information needs of its *customers*.
 - (2) In addition, this chapter sets out responsibility for a *prospectus* and the requirements relating to changes to it.
 - (3) This chapter contains "*scheme particulars rules*" as provided for by section 248 of the *Act* and referred to in regulation 6(1) of the *OEIC regulations*. The *rules* in this chapter also satisfy the requirements of the *UCITS directive*, relating to the minimum information to be included in a *prospectus*.
 - (4) Although the term *prospectus* is used in regulation 6(2) of the *OEIC regulations* and in this sourcebook, the document that contains the requisite information may be entitled "*scheme particulars*".

3.2 Drawing up and availability of prospectus

Drawing up of prospectus

3.2.1

R

/1

- (1) A *prospectus* must contain the matters specified in CIS 3.5 (Information to be contained in the prospectus) and it must be drawn up by the *authorised fund manager* and, in the case of an ICVC, approved by the *directors*.
- (2) A *prospectus* must not contain any other matter unless the inclusion of it is expressly contemplated in the *rules* in this sourcebook.
- (3) A revised *prospectus* is subject to this *rule* as if it were a new *prospectus* whether or not the revisions were required under CIS 3.4 (Revision of and changes to prospectus).

Availability of prospectus

3.2.2

R

/1

- (1) An ICVC or the *manager* of an AUT:
 - (a) must not market *units* in an *authorised fund* in the *United Kingdom* unless:
 - (i) a *prospectus* has been drawn up in English and approved in accordance with CIS 3.2.1R;
 - (ii) arrangements have been made for that *prospectus* to be available to enable the ICVC or *manager* of the AUT to satisfy those who accept the offer referred to in CIS 3.2.2R(1)(b); and
 - (iii) a copy of that *prospectus* has been sent to the FSA and to the *depository*;
 - (b) must not effect any *sale* of those *units* to any *person* in the *United Kingdom* until it has offered that *person* free of charge a copy of that *prospectus*.

- (2) An *ICVC* which is a *UCITS scheme*, or the *manager* of an *AUT* which is a *UCITS scheme*, must not:
- (a) market *units* in the territory of another *EEA State* unless:
 - (i) a *prospectus* has been drawn up in an official language of that *EEA State* and, in the case of an *ICVC*, approved by the *directors*; and
 - (ii) arrangements have been made for the *prospectus* to be available to enable the *ICVC* or *manager* of the *AUT* to satisfy those who accept the offer referred to in (b) below;
 - (b) effect any *sale* of *units* to any *person* in the territory of that *EEA State* until it has offered that *person* free of charge a copy of that *prospectus* before the conclusion of that *sale*.

3.3 False or misleading prospectus

3.

Requirement

3.3.1

R

/1

- (1) The *authorised fund manager*, subject to (3), (4) and (5):
- (a) must ensure that the *prospectus* does not contain any untrue or misleading statement or omit any matter required by the *rules* in this sourcebook to be included in it; and
 - (b) is liable to pay compensation to any *person* who has acquired any *units* in the *authorised fund* and suffered loss in respect of them as a result of any such statement or omission. This is in addition to any liability incurred apart from this *rule* (CIS 3.3.1R).
- (2) The *authorised fund manager* is not in breach of (1)(a) and is not liable to pay compensation under (1)(b) if at the time when the *prospectus* was made available to the public it had taken reasonable care to determine that the statement was true and not misleading, or that the omission was proper, and that:
- (a) it continued to take such reasonable care until the time of the relevant acquisition of *units* in the *scheme*;
 - (b) the acquisition took place before it was reasonably practicable to bring a correction to the attention of potential purchasers;
 - (c) it had already taken all reasonable steps to secure that a correction was brought to the attention of potential purchasers;
 - (d) the *person* who acquired the *units* was not materially influenced or affected by that statement or omission in making his decision.
- (3) The *authorised fund manager* is also not in breach of (1)(a) and is not liable to pay compensation under (1)(b) if:

- (a) before the acquisition a correction had been published in a manner calculated to bring it to the attention of *persons* likely to acquire the *units* in question; or
 - (b) it took all reasonable steps to secure such publication and had reasonable grounds to conclude that it had taken place before the *units* were acquired.
- (4) The *authorised fund manager* is not liable to pay compensation under (1)(b) if the *person* who acquired the *units* knew at the time of his acquisition that the statement was untrue or misleading or knew of the omission.
- (5) For the purposes of this *rule* (CIS 3.3.1R) a revised *prospectus* will be treated as a different *prospectus* from the *prospectus* to which the revision was made.
- (6) References in this *rule* (CIS 3.3.1R) to the acquisition of *units* include references to contracting to acquire them.

3.4 Revision of and changes to prospectus

Revision of prospectus

3.4.1

R(1) *A prospectus* must be:

/1

- (a) revised immediately upon:
 - (i) the occurrence of any materially significant change in the matters stated in it; or
 - (ii) the occurrence of any materially significant new matter which ought to be referred to in it in advance of an annual review so far as is necessary to take account of that change or matter;
 - (b) reviewed at least once in every 12 months and revised to take account of any change or any new matter, other than one which reasonably appears to the *manager* of the *AUT* or the *directors* of the *ICVC* to be insignificant.
- (2) A revision of a *prospectus* may take the form of a complete substitution for the previous *prospectus* or of a supplement to the *prospectus* but, whichever it is, the date as at which the revision was made must be prominently displayed.

Changes to prospectus

3.4.2

R

(1) Any change to, or introduction of, any of the provisions of the *prospectus* listed in (2) (other than a reduction in (c) to (e)) requires the prior approval of a resolution of the *holders* or, (for an *ICVC*) in the case of a change that affects only the *holders* of the *units* of a particular *class* or (*classes*), a resolution (or resolutions) of a class meetings (or meetings) of those *holders*.

/1

- (2) The provisions referred to in (1) are those required to be included in the *prospectus* as a consequence of:
 - (a) *CIS 3.5.2R(3)* (Investment objectives and policy);

- (b) CIS 3.5.2R(12)(1) (Payments to the authorised fund manager), but only so far as it relates to an increase in the maximum rate or amount of the *authorised fund manager's remuneration*;
 - (c) CIS 3.5.2R(12)(2) (Payments to the authorised fund manager) and CIS 3.5.2R(12)(4) except if it is a change that is of minimal significance;
 - (d) CIS 3.5.2R(13) (Other payments out of the scheme property);
 - (e) CIS 3.5.2R(18) (Dilution levy); and
 - (f) CIS 3.5.2R(24)(1) (Umbrella scheme) in so far as it applies any of (a) to (e) to a *sub-fund*.
- (3) For an *AUT*, the resolution required under (1) must be an *extraordinary resolution*, and, in the case of an *ICVC*, must be an *extraordinary resolution* if it is to approve a change to, or introduction of, any of the provisions mentioned in (2)(a) or (b), (2)(c), in so far as it relates to CIS 3.5.2R(12)(4), and (2)(d), in so far as it relates to CIS 3.5.2R(13)(6).
- (4) Paragraph (1) does not apply to a change to a *prospectus* which is required:
- (a) solely to fulfil a requirement (other than a requirement of CIS 6.5 (Plan registers)) resulting from a change in the law (including the *OEIC regulations*) or a change to the *rules* in this sourcebook;
 - (b) to comply with CIS 3.5.2R(3)(4) (Investment objectives and policy-eligible markets) if the change is, in the context of the investment policy applicable to the *authorised fund* or *sub-fund* concerned, of minimal significance only, and the *authorised fund manager* and the *depository* have so agreed in writing, or the *authorised fund manager* has, not less than 90 *days* before the intended change:
 - (i) given written notice of the intended change to the *depository* and to the *holders*; and
 - (ii) revised the *prospectus* to reflect the intended change and the date of its commencement;
 - (c) solely to reflect an amendment to the *instrument constituting the scheme*:
 - (i) made either in accordance with CIS 11.4.4R (Amendments to the instrument constituting the scheme: without meeting) or by a resolution passed at a meeting or, where appropriate, *class meeting*, of *holders* and which is not a change to any of the provisions of the *prospectus* included

- to comply with *CIS* 3.5.2R(3) (Investment objectives and policy) or *CIS* 3.5.2R(12)(1) (Payments to the authorised fund managers); or
- (ii) of one of the types described in *CIS* 11.4.2R(1)(a) or (b) (Amendment to the *instrument constituting the scheme*: with meeting); or
- (d) to comply with *CIS* 3.5.2R(12)(4) (Payments to the authorised fund manager) or *CIS* 3.5.2R(13)(6) (Other payments out of the scheme property) if:
- (i) the *authorised fund* already has clear investment objectives indicating:
- (1) a greater preference for the generation of income than for capital growth; or
- (2) equal emphasis on the generation of income and capital growth; and
- 90 *days* have elapsed since the *holders* were notified in writing by the *authorised fund manager* of the change to the *prospectus* and of the date when it is to come into effect; or
- (ii) in accordance with *CIS* 8.3.5R(4) (Allocation of payments to capital or income for (for ICVCs)) or *CIS* 8.5.7R(4) (Allocation of payments to capital or income (for AUTs)) all of the *remuneration* of the *authorised fund manager* was immediately prior to the change in the *prospectus*, treated as a capital charge and the *authorised fund manager* and *depository* have agreed that the change to the *prospectus* is of minimal significance; or
- (iii) the change is only to reflect a reduction in the types or amounts of the payments which may be treated as a capital expense.
- (5) Paragraph (2) does not apply to a change to a *prospectus* of an *ICVC* which is required:
- (a) solely to reflect action taken for the purpose of compliance with *CIS* 12.5.5R (An *ICVC* with only one sub-fund); or
- (b) to comply with *CIS* 6.5 (Plan register) if the *ICVC* was incorporated on or before 31 January 1999 and for the year to 5 April 1999 (or, if shorter, the period from the initial *issue* of its *shares* to 5 April 1999) was managed with the intention that its *shares* should be qualifying *investments* for the purposes of the Personal Equity Plan Regulations 1989.

- (6) No significant departure may be made in the management of the *scheme property* of an *authorised fund* from the statements in its *prospectus* current at the relevant time in fulfilment of the requirements of CIS 3.5.2R(3)(Investment objectives and policy).

3.5 Information to be contained in the prospectus

Matters to be included in the prospectus

3.5.1 **R** The statements required by CIS 3.5.2R must be included in the prospectus of an authorised fund.
/1

3.5.2 **R** Table Contents of the prospectus
/1 This table belongs to [CIS 3.5.2R]

1	A prominent statement that this document is the <i>prospectus</i> or <i>scheme particulars</i> , of the <i>authorised fund</i> valid as at (and dated).
2	Description of the authorised fund Information detailing: <ol style="list-style-type: none"> (1) the name of the <i>authorised fund</i>; (2) that the <i>authorised fund</i> is either an <i>ICVC</i> or an <i>AUT</i>; (3) the relevant category of <i>authorised fund</i>; (4) that the <i>shareholders</i> of an <i>ICVC</i> are not liable for the debts of the <i>authorised fund</i>; (5) the registered number of the <i>ICVC</i>; (6) the address of the <i>ICVC</i>'s head office; (7) the effective date of the <i>authorisation order</i> made by the <i>FSA</i>; (8) if the duration of the <i>authorised fund</i> is not unlimited, when it will or may terminate; (9) the address of the place in the <i>United Kingdom</i> for service on the <i>ICVC</i> of notices or other documents required or authorised to be served on it; (10) the <i>base currency</i> for the <i>authorised fund</i>; (11) the maximum and minimum sizes of the <i>ICVC</i>'s capital; and (12) the circumstances in which the <i>authorised fund</i> may be wound up under the <i>rules</i> in this sourcebook and a summary of the procedure for, and the rights of <i>holders</i> under, such a winding up.
3	Investment objectives and policy <ol style="list-style-type: none"> (1) Sufficient information to enable a <i>holder</i> to ascertain: <ol style="list-style-type: none"> (a) the investment objectives of the <i>authorised fund</i> or of each <i>sub-fund</i> of an <i>umbrella scheme</i>; (b) the <i>authorised fund</i>'s investment policy for achieving those investment objectives, including the general nature of the <i>portfolio</i> and any intended specialisation; and

	(c)	the extent (if any) to which that policy does not envisage remaining fully invested at all times.
(2)		Where, in accordance with <i>CIS</i> 8.3.5R (Allocation of payments to capital or income – for ICVCs) or <i>CIS</i> 8.5.7R (Allocation of payments to capital or income – for AUTs), all or any part of any payments permitted by <i>CIS</i> 8.2.3R (Payments by an ICVC to an ACD) or <i>CIS</i> 8.5.1R (Managers periodic charge) and any other charges or expenses of the <i>authorised fund</i> are to be treated as a capital expense, a statement that this may constrain capital growth.
(3)		A description of any restrictions in the assets in which investment may be made, including restrictions in the extent to which the <i>authorised fund</i> may invest in any category of asset, indicating (where appropriate) where the restrictions are tighter than those imposed by <i>CIS</i> 5 (Investment and borrowing powers).
(4)		A list of any individual <i>eligible securities</i> and <i>derivatives</i> markets through which the <i>authorised fund</i> may invest or <i>deal</i> in accordance with <i>CIS</i> 5.3.3R(2) (Eligible markets) (any <i>securities</i> market in a <i>EEA State</i> which is <i>eligible</i> in accordance with <i>CIS</i> 5.3.3R(1) (Eligible markets) may be included in the list or referred to in general terms).
(5)		For an <i>authorised fund</i> that is not a <i>property scheme</i> , state whether it is intended that the <i>scheme</i> will have an interest in any immovable property or tangible movable property.
(6)		The names of the States, local authorities or public international bodies in whose <i>securities</i> the <i>authorised fund</i> may invest more than 35% of its assets.
(7)		The policy in relation to the exercise of borrowing powers by the <i>authorised fund</i> and to transactions for the purpose of efficient portfolio management.
(8)		In the case of an <i>authorised fund</i> which may invest in other <i>collective investment schemes</i> , the extent to which the <i>scheme property</i> may be invested in the <i>units</i> of <i>collective investment schemes</i> which are managed by the <i>authorised fund manager</i> or by an <i>associate</i> of the <i>authorised fund manager</i> .
(9)		In the case of a <i>property scheme</i> :
	(a)	the maximum extent to which the <i>scheme property</i> may be invested in:
	(i)	immovables;
	(ii)	<i>property related assets</i> ;
	(b)	where the <i>directors</i> of an <i>ICVC</i> or the <i>manager</i> of an <i>AUT</i> expect that the <i>scheme property</i> will be invested (during the period when that version of the <i>prospectus</i> may be in circulation) in <i>government and public securities</i> :
	(i)	the fact that the <i>scheme property</i> may be so invested; and
	(ii)	the maximum limit for such <i>investment</i> ;
	(c)	the countries or territories of situation of land or buildings in which the <i>authorised fund</i> may invest;
	(d)	the policy of the <i>authorised fund manager</i> in relation to insurance of immovables forming part of the <i>scheme property</i> ; and
	(e)	in a <i>prospectus</i> available during the period of the <i>initial offer</i> , the consequences of failure to obtain £5 million (or the equivalent in <i>base currency</i>) as set out in <i>CIS</i> 12.3.4R (Failure to obtain minimum subscriptions).
4		Distributions

Information as to:

- (1) the date on which the *authorised fund's annual accounting period* is to end in each year;
- (2) if there are *interim accounting periods*, what they are, and the policy in relation to interim distributions (for example, whether interim distributions will be made and, if so, the policy on smoothing of income distributions within an *annual accounting period*);
- (3) the date or dates in each year on or before which payment or accumulation of income is to be made or take place and, if there are *holders of bearer certificates*, how they are to identify themselves for the purposes of receiving payment of income;
- (4) if applicable, the policy on payment of *income equalisation*;
- (5) how distributable income is determined and paid; and
- (6) if applicable, that unclaimed distributions may be forfeited and a statement how such unclaimed distributions will be dealt with.

5 The characteristics of units in the authorised fund

Give information as to:

- (1) where there is more than one *class of unit* in *issue* or available for *issue*, the name of each such *class* and the rights attached to each *class* in so far as they vary from the rights attached to other *classes*;
- (2) where the *instrument constituting the scheme* provides for the *issue* of *bearer certificates*, that fact and, in the case of an *ICVC*, in what multiples *bearer certificates* may be issued;
- (3) how *holders* may exercise their voting rights and what these are;
- (4) where a mandatory *redemption, cancellation* or conversion of *units* from one *class* to another may be required (for instance, if an investor does not satisfy the residence condition for income to be paid or accumulated without tax being deducted), in what circumstances it may be required; and
- (5) in the case of an *AUT*, the fact that the nature of the right represented by *units* is that of a beneficial interest under a trust.

6 The authorised fund manager

The following particulars of the *authorised fund manager*:

- (1) its name;
- (2) the nature of its corporate form;
- (3) the country or territory of its incorporation;
- (4) the date of its incorporation;
- (5) if it is a *subsidiary*, the name of its ultimate *holding company* and the country or territory in which that *holding company* is incorporated;
- (6) the address of its registered office;
- (7) the address of its head office if that is different from the address of its registered office;
- (8) if neither its registered office nor its head office is in the *United Kingdom*, the address of its principal place of business in the *United Kingdom*;
- (9) if the duration of its corporate status is limited, when that status will or may cease;
- (10) the amount of its issued share capital and how much of it is paid up;
- (11) in what capacity, if any, it acts in relation to any other *regulated collective investment schemes* and the name of such *schemes*;

	(12)	in the case of an <i>ICVC</i> , a summary of the material provisions of the contract between the <i>ICVC</i> and the <i>authorised fund manager</i> which may be relevant to <i>shareholders</i> including provisions (if any) relating to termination, compensation on termination and indemnity; and
	(13)	in the case of an <i>AUT</i> , the names of the <i>directors</i> of the <i>manager</i> and, in each case, any significant business activities of the <i>director</i> not connected with the business of the <i>manager</i> .
7	Directors of an <i>ICVC</i> , other than the <i>ACD</i> Other than for the <i>ACD</i> :	
	(1)	the names and positions in the <i>ICVC</i> of the <i>directors</i> ;
	(2)	the main business activities of each of the <i>directors</i> (other than those connected with the business of the <i>ICVC</i>) where these are significant to the <i>ICVC</i> 's business;
	(3)	the manner, amount and calculation of the <i>remuneration</i> of <i>directors</i> ;
	(4)	the main terms of each contract of service between the <i>ICVC</i> and a <i>director</i> in summary form; and
	(5)	if the <i>director</i> is a <i>body corporate</i> in a <i>group</i> of which any other corporate <i>director</i> of the <i>ICVC</i> is a member, a statement of that fact.
8	The depositary The following particulars of the <i>depositary</i> :	
	(1)	its name;
	(2)	the nature of its corporate form;
	(3)	the country or territory of its incorporation;
	(4)	if it is a <i>subsidiary</i> , the name of its ultimate <i>holding company</i> and the country or territory in which that <i>holding company</i> is incorporated;
	(5)	the address of its registered office;
	(6)	the address of its head office if that is different from the address of its registered office;
	(7)	if neither its registered office nor its head office is in the <i>United Kingdom</i> , the address of its principal place of business in the <i>United Kingdom</i> ;
	(8)	a description of its principal business activity; and
	(9)	a summary of the material provisions of the contract between the <i>ICVC</i> or the <i>manager</i> of the <i>AUT</i> and the <i>depositary</i> which may be relevant to <i>unitholders</i> , including provisions relating to the <i>remuneration</i> of the <i>depositary</i> .
9	The investment adviser If an <i>investment adviser</i> is retained in connection with the business of the <i>authorised fund</i> :	
	(1)	its name;
	(2)	whether or not it is authorised by the <i>FSA</i> ;
	(3)	if it is a <i>body corporate</i> in a <i>group</i> of which any <i>director</i> of the <i>ICVC</i> or the <i>manager</i> of the <i>AUT</i> is a member;
	(4)	where its principal activity is not providing services to the <i>authorised fund</i> as an <i>investment adviser</i> , what the principal activity is;
	(5)	a summary of the material provisions of any contract between the <i>authorised fund manager</i> or the <i>ICVC</i> and any <i>investment adviser</i> which may be relevant to <i>holders</i> and, if the <i>investment adviser</i> has the authority of the <i>authorised fund manager</i> or the <i>ICVC</i> to make decisions on behalf of the <i>authorised fund manager</i> or the <i>ICVC</i> , that fact and a description of the matters in relation to which it has that authority.

10	The auditor Details of the name and address of the auditor of the <i>authorised fund</i> .
11	The register of holders Details of: <ol style="list-style-type: none"> (1) the address in the <i>United Kingdom</i> where the <i>register of holders</i> is kept and can be inspected by <i>holders</i> and the address where the <i>plan register</i> can be inspected; and (2) in the case of an <i>AUT</i>, (unless the <i>depository</i> is the <i>registrar</i>), the <i>registrar's</i> name and address.
12	Payments to the authorised fund manager The payments that may be made to the <i>authorised fund manager</i> (whether as such or in any other capacity) out of the <i>scheme property</i> whether by way of <i>remuneration</i> for its services, or reimbursement of expenses. For each category of <i>remuneration</i> , specify: <ol style="list-style-type: none"> (1) the maximum and current rates or amounts of such <i>remuneration</i>; (2) how it will be calculated and accrue and when it will be paid; (3) if notice has been given to <i>holders</i> of the <i>authorised fund manager's</i> intention to introduce a new category of <i>remuneration</i> for its services or to increase any rate or amount currently charged, particulars of that introduction or increase and when it will take place; (4) if, in accordance with <i>CIS</i> 8.3.5R (Allocation of payments to capital or to income (for ICVCs)) or <i>CIS</i> 8.5.7R (Allocation of payments to capital or to income (for AUTs)), all or part of the <i>remuneration</i> is to be treated as a capital charge: <ol style="list-style-type: none"> (a) that fact; and (b) the actual or maximum amount of the charge which may be so treated; and (5) if notice has been given to <i>holders</i> of an intention to propose an increase in the maximum amount of that charge at a meeting of <i>holders</i>, particulars of that proposal.
13	Other payments out of the scheme property Provide details of: <ol style="list-style-type: none"> (1) any payment to be made out of the <i>scheme property</i> to reimburse costs incurred by the <i>depository</i>, any of the <i>directors</i> of an <i>ICVC</i> or any third party; (2) any <i>remuneration</i> payable out of the <i>scheme property</i> to the <i>depository</i>; (3) any <i>remuneration</i> payable out of the <i>scheme property</i> to any third party; (4) any <i>remuneration</i>, to which (2) or (3) does not apply, payable out of the <i>scheme property</i> for services provided by an <i>affected person</i>; (5) the types of any other charges and expenses that may be taken out of the <i>scheme property</i>; and (6) if, in accordance with <i>CIS</i> 8.3.5R(4) (Allocation of payments to capital or income (for ICVCs)) or <i>CIS</i> 8.5.7R(4) (Allocation of payments to capital or income (for AUTs)), the <i>authorised fund manager</i> and the <i>depository</i> have agreed that all or part of any payments permitted (excluding any stated under <i>CIS</i> 3.5.2R(12)(4) (Payments to the authorised fund manager)) and any other charges or expenses of the <i>authorised fund</i> may be treated as a capital expense: <ol style="list-style-type: none"> (a) that fact; and

	(b)	the policy for the amount of the payments which may be so treated.
14	Movable and immovable property (ICVC only)	Give an estimate of any expenses likely to be incurred by the <i>ICVC</i> in respect of movable and immovable property in which the <i>ICVC</i> has an interest.
15	Amortisation (ICVC only)	As at the date of the <i>prospectus</i> : <ol style="list-style-type: none"> (1) the amount of any set-up costs (including any of the type described in <i>CIS</i> 8.3.4R (Set-up costs) remaining to be reimbursed out of the <i>scheme property</i> whether to the <i>ACD</i> or any other <i>person</i>, and (2) the amount of any costs remaining to be amortised under <i>CIS</i> 8.3.4R and the method of amortisation.
16	Sale and redemption of units	Details as to: <ol style="list-style-type: none"> (1) the <i>dealing days</i> and times in the <i>dealing day</i> on which the <i>authorised fund manager</i> will be available to receive requests for the <i>sale</i> and <i>redemption of units</i>; (2) the procedures for effecting the <i>sale</i> and <i>redemption of units</i> and the settlement of transactions; (3) whether certificates will be issued in respect of registered <i>units</i>; (4) the steps required to be taken by a <i>holder</i> in redeeming <i>units</i> before he can receive the proceeds; (5) the circumstances in which the <i>redemption of units</i> may be suspended; (6) the <i>days</i> and times in the <i>day</i> on which recalculation of the <i>price</i> will commence; (7) the amounts of the following minima (if they apply) for each type of <i>unit</i> in the <i>authorised fund</i>: <ol style="list-style-type: none"> (a) the minimum number or value of <i>units</i> which any one <i>person</i> may hold; and (b) the minimum number or value of <i>units</i> which may be the subject of any one transaction of <i>sale</i> or <i>redemption</i>; (8) the circumstances in which the <i>authorised fund manager</i> may arrange for, and the procedure for, a <i>cancellation of units</i> in specie; (9) when and in which <i>UK</i> national newspaper the most recent <i>price</i> will be published; (10) the <i>investment exchanges</i> (if any) on which <i>units</i> in the <i>scheme</i> are listed or dealt; and (11) for a <i>dual-priced scheme</i> or a <i>scheme</i> being valued on an <i>historic price</i> basis, the amount which constitutes a <i>large deal</i> in <i>units</i>.
17	Valuation of scheme property	Details as to: <ol style="list-style-type: none"> (1) how frequently and at what time or times of the <i>day</i> the <i>scheme property</i> will be regularly valued for the purpose of determining the <i>price</i> at which <i>units</i> in the <i>scheme</i> may be purchased from or redeemed by the <i>authorised fund manager</i> and a description of any circumstance in which the <i>scheme property</i> may be specially valued; (2) in relation to each purpose for which the <i>scheme property</i> must be valued, the basis on which it will be valued; and (3) (in the case of an <i>ICVC</i>) how the <i>price</i> of <i>units</i> of each <i>class</i> will be determined.

18	<p>Dilution levy</p> <p>In the case of an <i>ICVC</i> or a <i>single-priced AUT</i>:</p> <ol style="list-style-type: none"> (1) what is meant by <i>dilution</i>, by <i>dilution levy</i> and, for the purposes of (2), by <i>large deal</i>; and (2) the <i>authorised fund manager's</i> policy on imposing a <i>dilution levy</i>, including its policy on <i>large deals</i>.
19	<p>SDRT provision</p> <p>Details as to:</p> <ol style="list-style-type: none"> (1) what is meant by stamp duty reserve tax, <i>SDRT provision</i> and, for the purposes of (2), by <i>large deal</i>; and (2) the <i>authorised fund manager's</i> policy on imposing an <i>SDRT provision</i> including its policy on <i>large deals</i>.
20	<p>Forward and historic pricing</p> <p>The <i>authorised fund manager's</i> normal basis of <i>dealing</i> (whether at a <i>forward price</i>, or at an <i>historic price</i>, or on the basis of a switch from the latter to the former in every <i>dealing period</i>).</p>
21	<p>Preliminary charge</p> <p>If the <i>authorised fund manager</i> makes a <i>preliminary charge</i>:</p> <ol style="list-style-type: none"> (1) the maximum amount of that charge, expressed either as a fixed amount or as a percentage of the <i>issue price</i>; (2) the current rate or amount of <i>preliminary charge</i>, if different from the maximum amount or rate; and (3) if notice has been given to <i>unitholders</i> of the <i>authorised fund manager's</i> intention to introduce a <i>preliminary charge</i> or to increase the rate or amount currently charged, particulars of that introduction or increase and when it will take effect.
22	<p>Redemption charge</p> <p>If the <i>authorised fund manager</i> may make a <i>redemption charge</i>:</p> <ol style="list-style-type: none"> (1) the amount of that charge or, if it is variable, the rate or method of arriving at it; (2) if the amount or rate or method has been changed, that details of any previous amount or rate or method may be obtained from the <i>authorised fund manager</i> on request; (3) if notice has been given of an intention to introduce a <i>redemption charge</i> or to propose a change in the amount or rate or method which is adverse to <i>holders</i>, particulars of that proposal; and (4) how the order in which <i>units</i> acquired at different times by a <i>unitholder</i> is to be determined so far as necessary for the purposes of the imposition of the <i>redemption charge</i>.
23	<p>General information</p> <p>Details as to:</p> <ol style="list-style-type: none"> (1) when annual and half-yearly reports will be published and, if the <i>directors</i> of the <i>ICVC</i> or the <i>manager</i> of the <i>AUT</i> have determined that the accounts contained in the report should be short form accounts, a statement that a report containing the full accounts is available on request; (2) the address at which copies of the <i>instrument constituting the scheme</i>, any amending instrument and the most recent annual and half-yearly reports may be inspected and from which copies may be obtained; (3) (in the case of <i>dual-priced AUTs</i> only) that the <i>cancellation price</i> last notified to the <i>trustee</i> is available on request;

	<p>(4) how the <i>ICVC</i> or the <i>manager</i> of an <i>AUT</i> will publish, for the benefit of <i>holders of bearer certificates</i>, notice:</p> <p>(a) of the fact that annual and half-yearly reports are available for inspection and how copies may be obtained;</p> <p>(b) when a distribution of income will become payable and how it may be collected;</p> <p>(c) of the calling of meetings;</p> <p>(d) of the winding up of the <i>authorised fund</i> (or the termination of a <i>sub-fund</i> of an <i>umbrella scheme</i>) or the revocation of its <i>authorisation</i>;</p> <p>(e) that amendments have been made to the <i>instrument constituting the scheme</i>;</p> <p>(f) that a significant alteration has been made to the <i>prospectus</i>; and</p> <p>(g) of any sub-division or consolidation of <i>units</i> (other than a consolidation of <i>smaller denomination shares</i> into <i>larger denomination shares</i>); and</p> <p>(5) the extent to which and the circumstances in which:</p> <p>(a) the <i>scheme</i> is liable to pay or suffer tax on any appreciation in the value of the <i>scheme property</i> or on the income derived from the <i>scheme property</i>; and</p> <p>(b) deductions by way of withholding tax may be made from distributions of income to <i>holders</i> and payments made to <i>holders</i> on the <i>redemption</i> of <i>units</i>.</p>
24	<p>Umbrella scheme</p> <p>(1) In the case of an <i>umbrella scheme</i>:</p> <p>(a) that a <i>holder</i> is entitled to exchange <i>units</i> in one <i>sub-fund</i> for <i>units</i> in any other <i>sub-fund</i>;</p> <p>(b) that an exchange of <i>units</i> in one <i>sub-fund</i> for <i>units</i> in any other <i>sub-fund</i> is treated as a <i>redemption</i> and <i>sale</i> and will, for <i>persons</i> subject to <i>United Kingdom</i> taxation, be a realisation for the purposes of capital gains taxation;</p> <p>(c) that in no circumstances will a <i>holder</i> who exchanges <i>units</i> in one <i>sub-fund</i> for <i>units</i> in any other <i>sub-fund</i> be given a right by law to withdraw from or cancel the transaction;</p> <p>(d) what charges, if any, may be made on exchanging <i>units</i> in one <i>sub-fund</i> for <i>units</i> in any other <i>sub-fund</i>;</p> <p>(e) the policy for allocating between <i>sub-funds</i> any assets of, or costs, charges and expenses payable out of, the <i>scheme property</i> which are not attributable to any particular <i>sub-fund</i>;</p> <p>(f) (for <i>ICVCs</i> only) how the method of amortisation of any costs to be amortised under <i>CIS</i> 8.3.4R (Set-up costs), or any reimbursement of set-up costs may be affected by the introduction or termination of a <i>sub-fund</i>;</p> <p>(g) (for <i>ICVCs</i> only) in respect of each <i>sub-fund</i>, the currency in which the <i>scheme property</i> allocated to it will be valued and the <i>price</i> of <i>units</i> calculated and payments made, if this currency is not the <i>base currency</i> of the <i>umbrella scheme</i>; and</p> <p>(h) if there are <i>units</i> for less than two <i>sub-funds</i> in <i>issue</i>, the effect of <i>CIS</i> 12.5.5R (An <i>ICVC</i> with only one <i>sub-fund</i>).</p> <p>(2) In the application of these <i>rules</i> to an <i>umbrella scheme</i>, information required:</p>

		<ul style="list-style-type: none"> (a) must be stated in relation to each <i>sub-fund</i> where the information for any <i>sub-fund</i> differs from that for any other; (b) must be stated for the <i>umbrella scheme</i> as a whole, but only where the information is relevant to the <i>umbrella scheme</i> as a whole; and (c) must, in the case of an <i>ICVC</i>, contain a statement to the effect that the <i>sub-funds</i> of an <i>umbrella scheme</i> are not “ring fenced” and in the event of an <i>umbrella scheme</i> being unable to meet liabilities attributable to any particular <i>sub-fund</i> out of the assets attributable to that <i>sub-fund</i>, the remaining liabilities may have to be met out of the assets attributable to other <i>sub-funds</i>.
25	Marketing in another EEA State	<p>A <i>prospectus</i> of a <i>UCITS scheme</i> which is prepared for the purpose of <i>marketing units</i> in a <i>EEA State</i> other than the <i>United Kingdom</i> must give details as to:</p> <ul style="list-style-type: none"> (1) what special arrangements have been made: <ul style="list-style-type: none"> (a) for paying in that <i>EEA State</i> amounts distributable to <i>holders</i> resident in that <i>EEA State</i>; (b) for redeeming in that <i>EEA State</i> the <i>units</i> of <i>holders</i> resident in that <i>EEA State</i>; (c) for inspecting and obtaining copies in that <i>EEA State</i> of the <i>instrument constituting the scheme</i> and amendments to it, of the <i>prospectus</i> and of the annual and half-yearly reports; and (d) for making public the <i>price</i> or <i>prices</i> of <i>units</i> of each <i>class</i>; (2) how the <i>ICVC</i> or the <i>manager</i> of an <i>AUT</i> will publish in that <i>EEA State</i> notice: <ul style="list-style-type: none"> (a) that annual and half-yearly reports are available for inspection; (b) that a distribution has been declared; (c) of the calling of a meeting of <i>holders</i>; and (d) of the termination of the <i>authorised fund</i> or the revocation of its <i>authorisation</i>.
26	Additional information	<p>Any other material information which is within the knowledge of <i>the directors</i> of an <i>ICVC</i> or the <i>manager</i> of an <i>AUT</i>, or which the <i>directors</i> or <i>manager</i> would have obtained by the making of reasonable enquiries:</p> <ul style="list-style-type: none"> (1) which investors and their professional advisers would reasonably require, and reasonably expect to find in the <i>prospectus</i>, for the purpose of making an informed judgement about the merits of investing in the <i>authorised fund</i> and the extent and characteristics of the risks accepted by so participating; and (2) including a statement of any risks which investment in the <i>authorised fund</i> may reasonably be regarded as presenting for reasonably prudent investors of moderate means.

Chapter 4.

Single-pricing and dealing

4.

4.1 Introduction

Application

4.1.1

R

/1

- (1) This chapter applies in relation to *ICVCs* and *single-priced AUTs*. Accordingly, in this chapter:
- (a) references to “*authorised funds*” and to “*units*” relate only to *ICVCs* and *single-priced AUTs* and to *shares* or *units* in them;
 - (b) references to “*authorised fund manager*” or to “*depository*” relate only to the *ACD* or *depository* of an *ICVC* or to the *manager* or *trustee* of a *single-priced AUT*; and
 - (c) references to an “*AUT*”, “*manager*” or “*trustee*” relate only to a “*single-priced AUT*”, or to its *manager* or *trustee*.
- (2) (a) This section (*CIS* 4.1) applies to *ICVCs*, their *directors* (including the *ACD*) and *depositories*, and to the *managers* and *trustees* of *single-priced AUTs*.
- (b) The purposes to which (a) can apply are:
- (i) ascertaining the number of *units* to be issued or cancelled for the *authorised fund manager* to comply with *CIS* 4.3.9R(2) (Issue of units to meet authorised fund manager’s obligation to sell) and *CIS* 4.3.10R(2) (Cancellation and payment for cancelled units); or
 - (ii) compliance with requirements of this chapter relating to information to be given by the *authorised fund manager* to the *depository*.
- (c) Paragraphs (a) and (b) do not apply to the *income units* and *accumulation units* of an *ICVC* unless the rights attached to those *classes* provide for their *prices* to be calculated by reference to undivided *shares* (whatever called) in a manner similar to that resulting from *CIS* 2.6.1R (Units and classes of units in *AUTs*).

- (3) If, and to the extent that, the *authorised fund manager* and the *depository* so agree, *income units* and *accumulation units* are to be treated, for the purposes in (b) as belonging to the same *class of units*.

Persons to whom the provisions apply

4.1.2

G

/1

The *persons* to whom each *rule* and *guidance* in this chapter applies are stated either at the beginning of the *rule* or *guidance* or at the beginning of the section containing the *rule* or *guidance*.

Purpose

4.1.3

G

/1

- (1) This chapter helps in achieving the *regulatory objective* of protecting consumers (consumer's interests) as envisaged by section 2 and 5 of the *Act*. In accordance with *Principle 6*, this chapter is intended to ensure the *authorised fund manager* pays due regard to its *customers'* interests and treats them fairly.
- (2) An *authorised fund manager* is responsible for valuing the *scheme* property of the *authorised fund* it manages and for calculating the *price of units* in the *authorised fund*. As well as arranging for the *issue* and the *cancellation of units* for the account of the *authorised fund*, the *authorised fund manager* is permitted to *sell* and redeem *units* for its own account. The *rules* in this chapter are intended to ensure that the *price of units* is properly related to the net value of the *authorised fund* and, in accordance with *Principle 6*, that the *authorised fund manager* treats customers fairly with investors when they purchase or *sell units*. This chapter provides common standards for these purposes.

Explanation of this chapter

4.1.4

G

/1

- (1) The *rules* in this chapter make apparent the extent to which any of them, or any paragraph in any of them, applies only to a *single-priced AUT* or to an *ICVC*. In particular, *CIS 4.3.3R* (Issue and cancellation of shares by an *ICVC*) applies only to an *ICVC* and the following *rules* apply only to a *single-priced AUT*: *CIS 4.3.4R* (Issue and cancellation of units in an *AUT*); *CIS 4.3.5R* (Trustee's refusal to issue or cancel units); *CIS 4.3.6R* (Instructions or notifications between managers and trustees).
- (2) *Shares* in an *ICVC* are issued or cancelled when the *ACD* records the *issue* or *cancellation*. *Units* of an *AUT* are issued or cancelled by the *trustee* on the *manager's* instructions. In the case of an *issue*, payment in cash of the *price* of the *units* or a transfer of assets of an equivalent value must be made to the *depository* for the account of the *authorised fund* concerned. Payment by the *depository* for cancelled *shares* is normally to be made by the close of the fourth *business day* after the *cancellation*.
- (3) An *authorised fund manager* may hold *units* for its own account (in its 'box'): so a purchaser of *units* from the *authorised fund manager* may receive *units* which have been issued to the *authorised fund manager* or that have been redeemed (that is repurchased) by the *authorised fund manager* from a previous *holder*. In addition to selling and redeeming *units* for its own account, the

authorised fund manager may arrange for the *trustee* or the *ICVC* to *issue units* direct to an investor or to cancel a *holder's units*.

- (4) The *authorised fund manager* must be prepared to redeem *units* of a *holder* who wishes to realise the value of them. The *authorised fund manager* can then retain the *units* in its box or it can cancel them.
- (5) The special provision about initial *issues* and *sales* at the start of an *authorised fund's* life are in *CIS 4.2*, separately from the *rules* about *issues* and *sales* in an ongoing *authorised fund*.
- (6) Under this chapter, the *price* at which a *unit* is issued, sold, redeemed or cancelled will be a single *price*. Although certain additions to, or deductions from, the *price* are provided for and affect payments, they do not affect the single *price*. Except for the initial *issues* and *sales*, the single *price* will be determined in accordance with *CIS 4.3.11R* (Price of a unit) and, in broad outline, will be calculated by valuing the *scheme property* attributable to the *class* of *units* in question and dividing that value by the number of those *units* in *issue*. The valuation of the *scheme property* must be in accordance with *CIS 4.8* and with the relevant provisions of the *instrument constituting the scheme*.
- (7) *CIS 4.6* provides the *authorised fund manager* with the power to require, for the benefit of the *authorised fund*, the payment or deduction of a *dilution levy* or a provision for stamp duty reserve tax (*SDRT provision*) or both as an addition to (but not part of) the single *price*.
- (8) The requirements in this chapter are to be applied separately to each *sub-fund* of an *umbrella scheme*.

4.2 Initial offers

Application

- 4.2.1 **R**_{/1} This section (CIS 4.2) applies to *authorised fund managers* and CIS 4.2.4R(1) (Issue of units : initial offer) also applies to any *directors* of an ICVC additional to the ACD.

Purpose

- 4.2.2 **G**_{/1} This section (CIS 4.2) helps to protect investors by *rules* intended to ensure the *authorised fund* receives subscriptions for *units* and that neither the *authorised fund* nor the investor will suffer any material loss, as a result of fluctuations in the value of the *scheme* property, for so long as *units* are available at the fixed *price*.

Period of initial offer

- 4.2.3 **R**_{/1}
- (1) The period of the *initial offer* must not exceed 21 *days* and an *initial offer* must, subject to CIS 4.2.5R (Compulsory termination of initial offer), be kept open for the period of the *initial offer*.
 - (2) Where an *initial offer* is of *units* in a *sub-fund*, CIS 4.2.4R and CIS 4.2.5R apply as if references in those *rules* to a *unit* were to a *unit* in that *sub-fund*.

Issue of units: initial offer

- 4.2.4 **R**_{/1}
- (1) The *price* to be paid for a *unit* of any *class* issued during the period of the *initial offer* must be the *initial price* of a *unit* of that *class*, as determined by the *directors* of the ICVC or the *manager* of the AUT. The *price* must be notified in writing to the *depository* before the start of the period of the *initial offer*.
 - (2) For the purpose of (1), a *unit* is treated as issued during the period of the *initial offer* if the *authorised fund manager* had agreed to its *sale* or received an order for it to be sold before the close of the period, and it was issued only afterwards.

- (3) The *authorised fund manager* must, by the close of business on the fourth *business day* after receiving the *price* from the purchaser, pay the *depository* the *price* of any *unit* it agreed to sell during the period of the *initial offer*, unless payment by the *authorised fund manager* is due earlier under CIS 4.3.7R (Payments for units issued). The *authorised fund manager* may retain for its own account any *preliminary charge* it makes under CIS 8.2.2R (Preliminary charge: ICVCs and single-priced AUTs).
- (4) During the period of the *initial offer*, the *authorised fund manager* must not agree to cause *units* to be issued under CIS 4.5 (Issues and cancellations through the authorised fund manager and in specie cancellations) at a *price* other than the *initial price*.
- (5) The *initial price* of a *unit* must, subject to CIS 12.5.2R (Base currency), be expressed in the *base currency* of the *authorised fund* (or, for a *currency class share*, in the currency of designation of that *class*). However, during the period of the *initial offer*, the *authorised fund manager* may agree to sell *units*, or cause *units* to be issued under CIS 4.5.3R (Issues and cancellations through the authorised fund manager) in any other currency.
- (6) Nothing in this *rule* affects the powers of the *authorised fund manager* to require a payment of *SDRT provision* under CIS 4.6.3R (Dilution levy and SDRT provision).
- (7) Where the *initial offer* is made in a country outside the *United Kingdom*, an amount may be added to the *initial price* of *units* offered in that country which is sufficient to cover additional duty or taxation leviable in that country and the cost of remitting *money* to the *United Kingdom*.

Compulsory termination of initial offer

4.2.5

R

/1

- (1) The period of the *initial offer* comes to an end immediately if:
 - (a) the *authorised fund manager* does not carry out a valuation immediately, but after having taken reasonable care, it ascertains that, if the current *price* of a *unit* were to be calculated by reference to an immediate valuation, it would be likely to vary from the *unit's initial price* by 2% or more of the *initial price*; or
 - (b) the *authorised fund manager* carries out a valuation immediately after it has ascertained the circumstances mentioned in (a) and the valuation shows there is a variation of 2% or more.
- (2) If the period of the *initial offer* comes to an end under (1), the *authorised fund manager* must immediately refrain from:

- (a) agreeing to *sell units* at the *initial price*; and
 - (i) in the case of an *ICVC*, arranging for the *ICVC* to *issue shares* at the *initial price*, except to fulfil an existing obligation of the *ACD* to *sell shares* at the *initial price* or to fulfil an *order* for *shares* at the *initial price* which the *ACD* received before the *initial offer* came to an end; or
 - (ii) in the case of an *AUT*, instructing the *trustee* to *issue units* at the *initial price*, unless to fulfil an existing obligation of the *manager* to *sell units* at the *initial price* or to fulfil an *order* for *units* at the *initial price* which the *manager* received before the *initial offer* came to an end.
- (3) The current *price* of a *unit* for the purpose of (1) must be calculated on the basis that the number of *units* of each relevant *class* in existence immediately before the valuation is the number for which the *initial price* has been paid, or for which assets have been transferred to the *depository* in exchange (or treated for the purpose of the valuation as having been paid or exchanged), before the valuation.

4.3 Issue and cancellation

Application

- 4.3.1** **R** ^{/1} This section (*CIS* 4.3) applies in relation to the *issue, cancellation* and pricing of *units* of an *authorised fund* after the close of any *initial offer* of *units* at a fixed *price*. However, the *rules* in *CIS* 4.3.3R to *CIS* 4.3.7R and *CIS* 4.3.12R also apply to the *initial issue* of *units* under *CIS* 4.2.4R.

Purpose

- 4.3.2** **G** ^{/1} This section (*CIS* 4.3) protects investors by means of *rules* intended to ensure the *authorised fund* receives or pays out the right amounts when *units* are issued or cancelled. Accordingly, it lays down certain basic procedures for the *issue* and *cancellation* of *units* and sets out how, except for an *initial offer*, the *prices* of those *units* are to be calculated, and paid.

Issue and cancellation of shares by an ICVC

- 4.3.3** **R** ^{/1}
- (1) This *rule* (*CIS* 4.3.3R) applies to *ICVCs* and to *ACDs* and *depositories* of *ICVCs*.
 - (2) *Shares* in an *ICVC* are issued or cancelled by the *ACD* making a record for the *ICVC* of the *issue* or *cancellation* and of the number of the *shares* of each *class* concerned. *Shares* must not be issued or cancelled in any other manner.
 - (3) The time of the *issue* or *cancellation* under (2) is the time when the record is made.
 - (4) References in these *rules* to arrangements for the *ICVC* to *issue* or cancel *shares* means arrangements for making a record of the *issue* or *cancellation*.
 - (5) The *ACD* may arrange for the *ICVC* to *issue shares* in exchange for assets other than *money* if the *depository* has taken reasonable care to determine that acquiring the assets in exchange for the *issue* of *shares* is not likely to result in any material prejudice to

the interests of *shareholders* or potential *shareholders*. For this purpose the *depository* must take account of any payment that would have been required under CIS 4.6.3R (Dilution levy and SDRT provision) had the *shares* been issued for cash.

- (6) An *issue* under (5) must not be made in breach of CIS 11.5.2R (Schemes of arrangement: requirements).

Issue and cancellation of units in an AUT

4.3.4

R

/1

- (1) This *rule* (CIS 4.3.4R) applies to *managers* and *trustees*.
- (2) Where the *manager* wishes new *units* to be issued or wishes *units* to be cancelled and, in either case, complies with CIS 4.3.11R(4) and (5) (Price of a unit), it may instruct the *trustee* to *issue* or cancel *units*. Any instructions given by the *manager* must state, for each *class* of *unit* to be issued or cancelled, the number to be issued or cancelled, expressed either as a number of *units* or as an amount in value (or as a combination of the two).
- (3) The *trustee* must *issue* or cancel *units* on receipt of, and in accordance with, instructions given by the *manager* under (2) and must not *issue* or cancel *units* otherwise, but this is subject to (4) and CIS 4.3.5R(2).
- (4) The *trustee* may *issue units* in exchange for assets other than *money*, but its obligation to comply with an instruction to *issue units* in such a case arises only:
 - (a) if it has taken reasonable care to determine that (taking account of any payment that would have been required under CIS 4.6.3R (Dilution levy and SDRT provision) if the *units* had been issued for cash) the acquisition of the assets in exchange for the number of *units* to be issued is not likely to result in any material prejudice to the interests of *unitholders* or potential *unitholders*;
 - (b) in a case governed by CIS 11.5.2R(5) (Schemes of arrangement: requirements) if the resolution concerned in relation to the *AUT* of which it is the *trustee* has been duly carried or is not required.
- (5) The *manager* may, at any time during the period of an *initial offer*, instruct the *trustee* to *issue units*. Furthermore, as soon as the period of the *initial offer* has come to an end, the *manager* must instruct the *trustee* to *issue* any *units* which were sold, or treated as sold, during that period and which it has not already instructed the *trustee* to *issue*.

4.3.5

R

/1

Trustee's refusal to issue or cancel units

- (1) This *rule* (CIS 4.3.5R) applies to *managers* and *trustees* of AUTs.
- (2) If, on receiving instructions to *issue* or cancel *units*, the *trustee* is of the opinion that it is not in the interests of *unit*holders that:
 - (a) *units* should be issued; or
 - (b) *units* should be cancelled; or
 - (c) *units* should be issued or cancelled in the number requested by the *manager*;

the *trustee* must give notice to the *manager* that it refuses to *issue* or, as the case may be, cancel, all, or a specified number of, the *units*.
- (3) On giving such a notice, the *trustee* is relieved of the obligation to *issue* or cancel the number of *units* to which the notice relates.

Instructions or notifications between the manager and trustee

4.3.6

R

/1

- (1) This *rule* (CIS 4.3.6R) applies to *managers* and *trustees* of AUTs.
- (2) Any instruction or notification given (or report supplied) under this chapter by the *manager* to the *trustee*:
 - (a) must be in writing or in such other form as enables the recipient to know or record the time of receipt and to preserve a legible copy of it; and
 - (b) must be recorded by the *manager* at the time when it is given or supplied.
- (3) Instructions or notifications are given within any period under this chapter if they are received by the *trustee* within that period, and instructions or notifications received by the *trustee* after the expiry of any period are treated as given after that expiry.
- (4) This *rule* also applies, with the substitution of "*manager*" for "*trustee*" and "*trustee*" for "*manager*", to any instruction or notification given by the *trustee* to the *manager*.

Payment for units issued

4.3.7

R

/1

- (1) This *rule* (CIS 4.3.7R) applies to *authorised fund managers*.

- (2) This *rule* applies to a *unit* issued during the period of the *initial offer* (and for this purpose the time of *issue* is not governed by CIS 4.2.4R(2) (Issue of units: initial offer)).
- (3) The *authorised fund manager* must, by the close of business on the fourth *business day* following the *issue* of any *units*:
 - (a) pay to the *depository*, in cash or cleared funds, the *price* of the *units* and any payment required under CIS 4.6.3R (Dilution levy and SDRT provision) to the extent that either remains unpaid; or
 - (b) for an exchange under CIS 4.3.3R(5) or CIS 4.3.4R(4), ensure transfer to the *depository* of the assets to be taken in exchange.
- (4) For an exchange under CIS 4.3.3R(5) or CIS 4.3.4R(4), the *authorised fund manager* must ensure the beneficial interest in the assets is transferred to the *ICVC* or to the *trustee* with effect from the *issue* of the *units*, even if the legal ownership is not then transferred.

Box management errors

4.3.8

G

/1

- (1) This *guidance* (CIS4.3.8G) applies to *authorised fund managers*.
- (2) An *authorised fund manager* is not permitted to *sell* or cancel *units* that it does not own. To do so would be in breach of CIS 4.3.9R(2) (Issue of units to meet authorised fund manager's obligation to sell) or CIS 4.3.10R(2) (Cancellation and payment for cancelled units). Errors relating to the number of *units* issued or cancelled can be corrected to the extent permitted by CIS 4.3.12R (Modification to number of units issued or cancelled).
- (3) An *authorised fund manager's* holding of *units* for its own account is commonly known as its "box" of *units*. Appendix CIS G (Correction of box management errors) contains further *guidance* on:
 - (a) controls relating to the management of the *authorised fund manager's* box of *units*;
 - (b) recording and reporting errors in calculating the number of *units* in the box;
 - (c) correcting such errors; and
 - (d) the payment of compensation in relation to particular categories of error.

Issue of units to meet authorised fund manager's obligation to sell

4.3.9

R

/1

- (1) This *rule* (CIS 4.3.9R) applies to *authorised fund managers*.

(2) If, at any *valuation point*, the *authorised fund manager* has any outstanding obligation to *sell units* of any *class*, it must arrange for the *ICVC* or instruct the *trustee* before the earlier of:

- (a) the expiry of two hours since the *valuation point*; or
- (b) the next *valuation point*;

to *issue units* of that *class* in such number (expressed either as a number of *units* or as an amount in value (or as a combination of the two)) as will at least enable the *authorised fund manager* to fulfil the obligation immediately whether from the *units* so issued or from other *units* of that *class* which it owned immediately before the *valuation point* (or *notified point* if there is one).

(3) If the *authorised fund manager* wishes regularly to have a *notified point*, it may notify the *depository* of its intention, indicating the period of time not exceeding two hours after the *valuation point* at which it wishes the *notified point* to occur. Any change in the period is ineffective unless agreed by the *depository*.

Cancellation and payment for cancelled units

4.3.10

R

/1

- (1) Paragraphs (2) and (3) and (7) to (9) apply to *authorised fund managers*; (4) applies only to *ICVCs* and their *depositories* and *ACDs*; (5) and (6) apply only to *managers* and *trustees* of *AUTs*.
- (2) The *authorised fund manager* must not arrange for the *ICVC*, or instruct the *trustee*, to cancel *units* of any *class* if, or to the extent that, by so doing the *authorised fund manager* would be prevented from immediately fulfilling any outstanding obligation to *issue units* which had been assumed before the relevant *valuation point* (or *notified point* if there is one).
- (3) For the purpose of (2), the *authorised fund manager* must take account of all *units* sold or redeemed by reference to the relevant *valuation point* (or *notified point* if there is one).
- (4) On cancelling *shares* the *ACD* must, within the period specified in (7), require the *depository* to pay the *price* of the *shares* (less any deduction required under *CIS* 4.6.3R (Dilution levy and SDRT provision)) to, or to the order of, the *shareholder* or the *ACD* (as the case may be).
- (5) Where instructions are given to cancel *units* in an *AUT* at a time which is less than two hours after the last *valuation point* and the *trustee* has received but not yet executed instructions previously given, the later instructions must enable the *trustee* to *execute* both or all sets of instructions simultaneously.

- (6) On cancelling *units* in an *AUT*, the *trustee* must within the period specified in (7) pay the *price* of the *units* (less any deduction required under *CIS* 4.6.3R (Dilution levy and SDRT provision):
- (a) (except where (b) applies) to, or to the order of, the *unitholder* or the *manager* (as the case may be); or
 - (b) in the case of a *relevant pension scheme*, in accordance with the relevant provisions of the *trust deed*.
- (7) The period for payment expires at the close of business on the fourth *business day* following the *cancellation* of the *units* or, if later, as soon as practicable after delivery to the *trustee* or the *ICVC* of such evidence of title to the *units* as it may reasonably require.
- (8) If the *authorised fund manager* has not ensured that the *scheme property* includes or will include sufficient cash in the appropriate currency (or a sufficient facility to borrow without infringing any restriction in *CIS* 5.15.3R (General power to borrow) or *CIS* 5.15.4R (Borrowing limits) within the period in (7)), that period is extended, for any relevant currency, until the shortage is rectified.
- (9) Paragraphs (4) and (6) do not apply where *units* are cancelled following a *cancellation* for property transferred or sold under *CIS* 4.5.4R (In specie redemption).

Price of a unit

4.3.11

R

/1

- (1) Paragraphs (2) to (3) apply to *authorised fund managers*; (4) and (5) apply only to *ICVCs* and their *depositories* and *ACDs*; (6) and (7) apply only to *managers* and *trustees*.
- (2) The *price* of a *unit* of any *class* must, subject to (3), be calculated as follows:
- (a) take the proportion, attributable to the *units* of the *class* in question, of the value of the *scheme property* (excluding, in the case of an *ICVC*, the *distribution account* and the *unclaimed payments account*), by reference to the most recent valuation of the *scheme property*;
 - (b) compute the number of *units* of the relevant *class* in *issue* immediately before the valuation in (a);
 - (c) divide the total at (a) by the number of *units* at (b); and
 - (d) Except for *smaller denomination shares*, express the *price* in a form that is accurate to at least four significant figures.

- (3) If a method of calculation other than that at (2) is used, the *authorised fund manager* must be sure it is bound to produce the same result.
- (4) Where an *issue* or *cancellation* of *shares* is made at a time which is less than two hours after the last *valuation point* and before the next *valuation point*, it must be made by reference to the *price* of the relevant *class* of *shares* calculated (or being calculated) for the last *valuation point*.
- (5) Any *issue* or *cancellation* of *shares* to be made more than two hours after the last *valuation point* must be made by reference to the *price* of the relevant *class* of *shares* next to be calculated and made only after the next *valuation point* has been reached.
- (6) Where the *manager* gives instructions to the *trustee* to create or cancel *units* and those instructions are given less than two hours after the last *valuation point* and before the next *valuation point*, the instructions must be given by reference to the *price* of the relevant *class* of *units* calculated (or being calculated) for the last *valuation point*.
- (7) Where the *manager* gives instructions to the *trustee* to create or cancel *units* and those instructions are given more than two hours after the last *valuation point*:
 - (a) the instructions must be given by reference to the *price* of the relevant *class* of *units* next to be calculated, and
 - (b) the *trustee* must not *issue* or cancel the *units* before the next *valuation point* has been reached.

Modification to number of units issued or cancelled

4.3.12

R

/1

- (1) This rule applies to *authorised fund managers* and *depositories*.
- (2) The number of *units* issued or cancelled may be modified by the *authorised fund manager* (in the case of *shares*) making a record for the *ICVC* of the modification or (in the case of *units* in an *AUT*) changing an instruction to *issue* or cancel *units* which has been complied with, provided that:
 - (a) the *authorised fund manager* ensures that any appropriate consequential payment between the *authorised fund manager* and the *depository* is made; and
 - (b) the requirements of (3) are satisfied.

- (3) The *authorised fund manager* may only make a modification under (2) with the agreement of the *depository* and the *depository* may not agree unless it has taken reasonable care to determine:
 - (a) that the purpose of the modification is to rectify the consequences of an error relating to the number of *units* held by the *authorised fund manager*, or issued or cancelled in connection with the *sale* or *redemption* of *units* by the *authorised fund manager*; and
 - (b) that in view of the quality of the *authorised fund manager's* control systems the circumstance that resulted in the error in question is an isolated one which is unlikely to recur.
- (4) A modification under (2) is of no effect unless the corrected number of *units* is calculated by the end of the *business day* next following the *valuation point* for the *issue* or *cancellation* in question or, if the *depository* agrees, within the payment period applicable to that *issue* or *cancellation* under CIS 4.3.7R(3) (Payment for units issued) or CIS 4.3.10R(7) (Cancellation and payment for cancelled units).

4.4 Sale and redemption

Application

- 4.4.1** **R** /1 (1) This section (CIS 4.4) applies to *authorised fund managers*. CIS 4.4.5R(4) (Payment on redemption) also applies to *ICVCs* and *depositories*.
- (2) This section (CIS 4.4) applies to the *sale* and *redemption* of *units* after the close of any *initial offer*. However, the following *rules* also apply to the *sale* of a *unit* during an *initial offer*:
- (a) CIS 4.4.3R(1), (2) and (3) (other than the provision in (2)(a) relating to a *sale* at a *forward price*); and
- (b) CIS 4.4.8R (but as if CIS 4.4.8R(2) related to the *initial price*).

Purpose

- 4.4.2** **G** /1 (1) This section (CIS 4.4) protects investors by means of *rules* intended to ensure the *authorised fund manager* deals fairly with investors when they *purchase* or *redeem units*. Accordingly, this section lays down the basic procedures for the *sale* and *redemption* of *units* in an *authorised fund* and sets out how the resulting payments should be calculated and by when they should be made.
- (2) *Sales* and *redemptions* of *units* in *futures* and *options schemes* or *geared futures* and *options schemes* are, in addition, subject to the special *rules* in CIS 12.2.1R (Special rules for sales and redemptions).

Authorised fund manager's obligation to sell

- 4.4.3** **R** /1 (1) The *authorised fund manager* must, at all times during the *dealing day*, be willing to *sell units* in the *authorised fund* and, subject to (2), must, at the request in writing of any *person*, agree to *sell* to that *person units* of at least one *class* or, in the case of an *umbrella scheme*, one *class* for each of its *sub-funds*.

- (2) The *authorised fund manager's* obligation to *sell units* under (1) does not apply:
- (a) if it has not received payment for the *units* of an amount complying with (4) or (if the *sale* was at a *forward price* of a stated number of *shares*) if it has not received payment of an amount it estimated to be required; or
 - (b) if the number or value of the *units* sought to be purchased is less than any number or value stated in the *prospectus* as the minimum number or value of *units*, or *units* of the *class* concerned, that may be purchased or held; or
 - (c) for a *property scheme* if the *authorised fund manager*, having taken reasonable care, determines that the number or value of *units* sought to be purchased would lead to any one *person* (or any one *person* and any other *person* who appears to the *authorised fund* to be acting in concert with that *person*) holding more than any number or value stated in the *prospectus* as the maximum number or value to be purchased or held; or
 - (d) if it has reasonable grounds, relating to the circumstances of the *person* concerned, for refusing to *sell units* to him; and
 - (e) for an *AUT*, if the *sale* would be in breach of a provision in the *trust deed* of any of the types described in paragraphs (j) (Limited categories of unitholder), (m) (Relevant pension schemes) or (n) (Relevant charitable schemes) of CIS 2.2.7G (Provisions that may be included in the trust deed).
- (3) Paragraph (1) does not apply to *units* of any *class*:
- (a) if no *units* of that *class* are in *issue*; or
 - (b) if the *sale* of *units* of that *class* is prohibited by the *rules* in CIS 13 (Suspension and termination).
- (4) The *authorised fund manager* must not *sell* a *unit* for more than the *price* of a *unit* of the relevant *class* notified, or to be notified, to the *depository* for the last *valuation point* (or, for a *sale* at a *forward price*, to be notified for the next *valuation point*) to which may be added any *preliminary charge* permitted under CIS 8.2.2R (Preliminary charge: ICVCs and single-priced AUTs) and any payment required under CIS 4.6.3R (Dilution levy and SDRT provision).
- (5) *Units* must be sold in the *base currency*, or, for a *currency class share*, in the currency of designation of that *class*, unless the *person* concerned requests and the *authorised fund manager* agrees that the *units* should be sold in another currency.

4.4.4

R

/1

Authorised fund manager's obligation to redeem

- (1) The *authorised fund manager* must at all times during the *dealing day* be willing to redeem *units* in the *authorised fund*; and, accordingly, must at the request in writing of any *holder* agree to redeem *units* owned by that *holder* for the amount to be paid under CIS4.4.6R (Proceeds of redemption).
- (2) Paragraph (1) does not apply:
- (a) if the number or value of the *units* sought to be redeemed is:
 - (i) less than the entirety of the *holder's* holding of *units* of the *class* concerned, and
 - (ii) less than any number or value stated in the *prospectus* as the minimum number or value of *units*, or *units* of the *class* concerned, that may be redeemed;
 - (b) if the number or value of the *units* sought to be redeemed would result in the *holder* holding less than any number or value stated in the *prospectus* as the minimum number of *units*, or *units* of the *class* concerned, that may be held;
 - (c) if the *ICVC* or the *manager* ensures that the *holder* is able to sell his *units* on an *investment* exchange at a *price* not significantly different from the *price* at which they would have been redeemed;
 - (d) where *units* are redeemed in return for property transferred or sold under CIS4.5.4R (In specie redemption);
 - (e) during the period of the *initial offer*; or
 - (f) if *redemption* of the *units* of the *class* concerned is prohibited by the *rules* in CIS 13 (Suspension and termination).

Payment on redemption

4.4.5

R

/1

- (1) On agreeing to redeem *units*, the *authorised fund manager* must, within the period specified in (2):
- (a) (except where (b) applies) pay the *holder* the appropriate proceeds of *redemption* under CIS 4.4.6R (less, where applicable, the cost of remitting the sum abroad) ; or
 - (b) if a *manager* of a *relevant pension scheme*, pay or arrange for the payment of the proceeds of *redemption* in compliance with the *trust deed* (including, where applicable, any time limit in it for payment which is shorter than the period specified in (2)).

- (2) The period expires at the close of business on the fourth *business day* following the later of:
 - (a) the *valuation point* immediately after the *authorised fund manager* received the request to redeem; or
 - (b) the time when the *authorised fund manager* has all duly executed instruments and authorisations to effect (or enable the *authorised fund manager* to effect) transfer of title to the *units*.
- (3) Neither this *rule* nor CIS 4.4.6R (Proceeds of redemption) applies where the *authorised fund manager* is not redeeming *units* in accordance with this chapter but is *buying* them as *principal* on an *investment exchange* (in the case of an *AUT*, in accordance with a power in the *trust deed*) and settlement will be in accordance with the rules of that exchange.
- (4) Nothing in this *rule* or CIS 4.3.10R(5) and (6) (Cancellation and payment for cancelled units) requires an *ICVC*, a *depository* or an *authorised fund manager* to part with *money* for a *cancellation* or *redemption of units* where any *money* due on the earlier *issue* or *sale* of those *units* has not been received by the *person* entitled to it under this chapter.

Proceeds of redemption

4.4.6

R

/1

The amount to be paid by the *authorised fund manager* as the proceeds of *redemption* of a *unit* must not be less than the *price* of a *unit* of the relevant *class* notified or to be notified to the *depository* at the last *valuation point* (or, for a *redemption* at a *forward price*, to be notified in respect of the next *valuation point*) less any *redemption charge* permitted under CIS 8.2.7R (Redemption charge: ICVCs) or CIS 8.5.2R (Redemption charge: single-priced AUTs) and any deduction required under CIS 4.6.3R (Dilution levy and SDRT provision).

Notification of price to the depository

4.4.7

R

/1

- (1) Immediately after completing a valuation under CIS 4.8 (Valuation) (whether regular or otherwise) the *authorised fund manager* must notify the *depository* of the *price* of a *unit* of each *class* in *issue* as determined for the relevant *valuation point* and of the amount or rate of any *dilution levy* which applies to any *issue* or *cancellation of units*. The *prices* to be notified must be in the *base currency* or, in the case of a *currency class share*, the *currency of designation*.

- (2) Each notification under (1) must include a statement of the number of *units* of each *class* in *issue* owned by the *authorised fund manager* at the *valuation point* (or *notified point* if there is one).
- (3) As soon as practicable after each notification under (1), the *authorised fund manager* must notify the *depository* of the transactions, or types of transaction, for which an *SDRT provision* is applied and the amounts or rates of those *SDRT provisions*.

Publication of prices

4.4.8

R
/1

- (1) Where the *authorised fund manager* holds itself out as willing:
 - (a) to *sell* or redeem *units* of any *class*; or
 - (b) to *issue* or cancel *units* of any *class* under CIS 4.5.3R (Issues and cancellations through the authorised fund manager);
 it must make public the *prices* of *units* of each of those *classes*.
- (2) The *prices* made public under (1) are to be the *price* or *prices* last notified to the *depository* under CIS 4.4.7R or, in the case of publication in a newspaper, last notified before the relevant newspaper ceased to accept material for publication in the relevant edition.
- (3) The *prices* to be made public under (1) must be published in at least one national newspaper in the *United Kingdom*, except for any *class* of *units* marketed predominantly outside the *United Kingdom*.
- (4) Where the *authorised fund manager* holds itself out as willing to *sell* and redeem *units* (or, as the case may be, to *issue* or cancel *units* under CIS 4.5.3R) in any other *EEA State*, it must also comply with (1) in the manner provided for by the law of that *EEA State*.
- (5) Paragraphs (1) to (4) do not apply to *units* in relation to which the *authorised fund manager* is excused from dealing with the public.

4.5 Issues and cancellations through the authorised fund manager and in specie cancellations

Application

4.5.1 **R** This section (CIS 4.5) applies to *authorised fund managers*. CIS 4.5.3(6) R and CIS 4.5.4(4)R also apply to *ICVCs* and *depositories*.
/1

Purpose

- 4.5.2** **G**
/1
- (1) CIS 4.5.3R ensures investors are able, in certain circumstances, to require direct *issues* or *cancellations* of *units* by an *ICVC*, or by the *trustee* of an *AUT*, as an alternative to *buying units* from, or redeeming them with, the *authorised fund manager*.
 - (2) CIS 4.5.4R protects investors in the *authorised fund* by enabling an *authorised fund manager*, subject to the conditions in that *rule*, to require a *holder* who wishes to redeem or cancel his *units* to take, instead of the usual proceeds of *redemption* or *cancellation*, a transfer of assets of the *authorised fund* or, if the *holder* requires, to take the net proceeds of the *sale* of those assets.

Issues and cancellations through the authorised fund manager

- 4.5.3** **R**
/1
- (1) At the request of any *person*, the *authorised fund manager* is obliged to arrange for the *ICVC*, or instruct the *trustee*, to *issue units* to that *person* where the *authorised fund manager* would otherwise be obliged to *sell* them under CIS 4.4.3R (Authorised fund manager’s obligation to sell).
 - (2) At the request of any *holder*, the *authorised fund manager* is obliged to arrange for the *ICVC*, or instruct the *trustee*, to cancel *units* held by that *holder* where the *authorised fund manager* would otherwise be obliged to redeem them under CIS 4.4.4R (Authorised fund manager’s obligation to redeem).
 - (3) The *price* of a *unit* issued or cancelled under this *rule* (CIS 4.5.3R) must be the *price* of a *unit* of the relevant *class* notified to the *depository* at the next *valuation point* after the request

referred to in (1) or (2), except for an *issue* to which CIS 4.2.4R (Issue of units: initial offer) applies, when it must be the *initial price*.

- (4) (a) In the case of an *issue*, the *authorised fund manager* may require to be paid, in addition to the *price* under (3):
- (i) for the account of the *authorised fund manager*, any *preliminary charge* permitted under CIS 8.2.2R (Preliminary charge: ICVCs and single-priced AUTs);
 - (ii) for the account of the *authorised fund*, any payment required under CIS 4.6.3R (Dilution levy and SDRT provision).
- (b) In the case of a *cancellation*, the *authorised fund manager* may require to be deducted from the proceeds:
- (i) for the account of the *authorised fund manager*, any *redemption charge* permitted under CIS 8.2.7R (Redemption charge: ICVCs) or CIS 8.5.2R (Redemption charge: single-priced AUTs);
 - (ii) for the account of the *authorised fund*, any deduction required under CIS 4.6.3R (Dilution levy and SDRT provision).
- (5) The *authorised fund manager* must pay the *depository* in accordance with CIS 4.3.7R (Payments for units issued) the *price* of any *units* issued under this *rule* (CIS 4.5.3R) and any payment required under (4)(a)(ii) whether or not the *authorised fund manager* has received payment from the investor. However, the *authorised fund manager* may defer arranging for the ICVC, or instructing the *trustee*, to *issue* the *units* until full payment for them has been received.
- (6) Nothing in this *rule* (CIS 4.5.3R) requires an ICVC, a *depository* or an *authorised fund manager* to part with *money* for a *cancellation* of *units* in the circumstances described in CIS 4.4.5R(4) (Payment on redemption).

In specie redemption

4.5.4

R

/1

- (1) Whenever a *holder* requests the *redemption* or *cancellation* of *units*, the *authorised fund manager* may arrange for the *cancellation* of those *units* and that, instead of payment in cash to the *holder* of the *price* for the *units*, *scheme property* selected in accordance with (c) and (d) is transferred to the *holder*, or, if required by the *holder*, the net proceeds of the *sale* of that property is paid to him, provided that:

PAGE
22

- (a) the *prospectus* contains a statement describing the circumstances in which the *authorised fund manager* is permitted to arrange for, and describing the procedures for, a *cancellation of units* in the manner described above;
 - (b) the *authorised fund manager* gives the *holder* written notice before the proceeds of the *redemption* or *cancellation* would otherwise become payable in cash, that instead of such payment the *depository* will transfer *scheme property* (or the net proceeds of the *sale* of the relevant *scheme property*) to the *holder*;
 - (c) the *scheme property* to be transferred (or sold) is selected by the *authorised fund manager* in consultation with the *depository* and the selection is made with a view to achieving no more advantage or disadvantage to the *holder* requesting *cancellation* of his *units* than to the continuing *holders*; and
 - (d) the *scheme property* to be transferred, or the proceeds of the *sale* of the relevant *scheme property*, is subject to the retention by the *depository* of *scheme property* (including cash) of a value or amount equivalent to any deductions permitted by CIS 4.5.3R(4)(b) (Issues and cancellations through the authorised fund manager) and the *depository* accounts for any such deduction in the manner provided by that *rule*.
- (2) This *rule* (CIS 4.5.4R) does not enable the *authorised fund manager*, when acting as a *principal*, to cancel *units* other than for payment in cash.
 - (3) This *rule* does not enable *units* in a *relevant pension scheme* to be redeemed other than in accordance with that *scheme*.
 - (4) Nothing in this *rule* requires an *ICVC*, a *depository* or an *authorised fund manager* to transfer *scheme property*, or the proceeds of the *sale* of *scheme property*, in respect of the *cancellation* of *units* in the circumstances described in CIS 4.4.5R(4) (Payment on redemption).

4.6 Dilution levy and SDRT provision

Application

4.6.1 **R** This section (CIS 4.6) applies to *authorised fund managers*.

/1

Purpose

- 4.6.2 **G**
- (1) An ICVC or an AUT may suffer *dilution* (reduction) in the value of the *scheme property* as a result of the costs incurred in *dealing* in the underlying *investments* and of any spread between the *buying* and *selling prices* of these *investments*. However, an *authorised fund manager* is permitted to require the payment of a *dilution levy*, as an addition to (but not part of) the *price of units* when they are issued by the ICVC or the *trustee* or sold by the *authorised fund manager*, and as a deduction when they are cancelled by the ICVC or the *trustee* or redeemed by the *authorised fund manager*.
 - (2) Certain transactions in *units* can result in stamp duty reserve tax being paid out of the *scheme property* of an *authorised fund*. However, an *authorised fund manager* is permitted to require the payment of an *SDRT provision* as an addition to (but not as part of) the *price of units* when they are issued or sold, and as a deduction when they are cancelled (other than certain in specie *cancellations*) or redeemed.
 - (3) Any *dilution levy* or *SDRT provision* paid or received by deduction is for the account of the *authorised fund*.
 - (4) For the purposes of (1) to (3), it does not matter whether the *cancellation* is under CIS 4.3 (Issue and cancellations) or under CIS 4.5R (Issues and cancellations through the authorised fund manager and in specie redemptions). However, there are provisions to prevent the levy being imposed twice on both the *issue* and subsequent *sale* of a *unit*, or on the *redemption* and subsequent *cancellation* of a *unit*.
 - (5) CIS 4.6.3R(3)(b) makes it clear that *transactions* that are specifically excluded from a charge of stamp duty reserve tax (such as *transactions* in units within an individual pension account) can be excluded from the imposition of an *SDRT provision* without affecting the fairness required by that rule.

Dilution levy and SDRT provision

4.6.3

R

/1

- (1) The *authorised fund manager* has the power to require any one or more of:
 - (a) the payment of a *dilution levy* in respect of the *issue* or *sale* of *units* or any *class* of *units*;
 - (b) the deduction of a *dilution levy* in respect of the *redemption* or the *cancellation* of *units* or any *class* of *units*;
 - (c) the payment of an *SDRT provision* in respect of the *issue* or *sale* of *units* or any *class* of *units*;
 - (d) the deduction of an *SDRT provision* in respect of the *redemption* or *cancellation* of *units* or of any *class* of *units*, other than a *cancellation* of *units* under CIS 4.5.4R (In specie redemptions) resulting in a transfer of such part of each description of asset in the *scheme property* as is proportionate to, or as nearly as practicable proportionate to, the *holder's* share in the *scheme property* of the *AUT* or (as the case may be) share in the *ICVC*.
- (2) Any such payment or deduction becomes due at the same time as payment or transfer of property becomes due in respect of the *issue*, *sale*, *redemption* or *cancellation*.
- (3) A *dilution levy* or *SDRT provision* may be imposed only in a manner that is, so far as practicable, fair to all *holders* and potential *holders*. However: or
 - (a) the imposition of a *dilution levy* (or a higher *dilution levy*) or *SDRT provision* (or a higher *SDRT provision*) in respect of *large deals* in a manner described in the *prospectus* current at the time of the *deal*;
 - (b) the exclusion from an *SDRT provision* of any *transaction* in *units* where the *units* are so held that their redemption or cancellation is specifically excluded from a charge to stamp duty reserve tax;

or is not unfair
- (4) If the *authorised fund manager* receives a *dilution levy* or *SDRT provision* in respect of any *unit* sold or to be sold by it, it must, immediately upon receipt of that *dilution levy* or *SDRT provision*, pay it to the *depository* to become part of the *scheme property*, except to the extent that it has already been, or will be, paid by the *authorised fund* to the *depository* on the *issue* of that *unit*.

- (5) If the *authorised fund manager* deducts a *dilution levy* or *SDRT provision* from the proceeds of a *unit* it redeemed, it must immediately pay it to the *depository* to become part of the *scheme property*, except to the extent that it has already been, or will be, deducted from the *depository's* payment to the *authorised fund manager* when the *unit* is cancelled.

4.7 Forward and historic pricing

Application

- 4.1.1 **R** This section (CIS 4.7) applies to *authorised fund managers*.
/1

Purpose

- 4.1.2 **G** This section (CIS 4.7) protects investors by means of *rules* intended to prevent the *sale* and *redemption* of *units* at an *historic price* where this is liable to be unfair.
/1

Explanation

- 4.1.3 **G**
- (1) There are two ways in which an *authorised fund manager* may *sell* or redeem *units*; these are at forward and *historic prices*. A *forward price* is one which will be fixed at the next *valuation point*, while a *historic price* is one fixed on the basis of the last valuation.
 - (2) The two pricing systems have different characteristics. The investor knows that a forward *deal* will be priced at the next *valuation point*, but if he is investing a specified sum, he does not know until then how many *units* he will receive (or, if he is seeking to redeem, how much he will receive in cash). The investor knows, by contrast, that an historic *deal* may well represent a *price* which is outdated (though not by more than 2%), but is able to know, at the time of the *deal*, how much he must pay (or will receive) or the time of the valuation which will be relevant to that *price*.
 - (3) The *rules* generally express a preference for forward pricing in that there are numerous occasions when a *price* must be forward, whether or not the *authorised fund manager* chooses to *deal* in that way. *Issues* or *cancellations* by the *authorised fund manager* under CIS 4.5.3R (Issues and cancellations through the authorised fund manager) are always at a *forward price*.
 - (4) The diagram in CIS 4.7.6G indicates the *valuation point* relevant for *issues* and *cancellations* and for *sales* and *redemptions* in the period between one *valuation point* and the next. In doing so, it takes account of CIS 4.7.5R, and also of earlier provisions in this chapter, including CIS 4.3.11R(4) to (7) (Price of a unit).

Forward and historic pricing

4.1.4

R

/1

- (1) For the *sale and redemption of units*, the *authorised fund manager* must, subject to this rule (CIS 4.7.4R), operate on the basis of forward or *historic prices*, but its power to choose, or its duty to operate on one basis only, is governed by CIS 4.7.5R.
- (2) If the *prices* for the *sale and redemption of units* in any *sub-fund* of an *umbrella scheme* are on a forward basis, the *prices* for the *sale and redemption of units* related to all *sub-funds* of that *umbrella scheme* must be on a forward basis; but this paragraph (2) does not apply merely because of a requirement to *price* on a forward basis temporarily under Part 2 or Part 3 of CIS 4.7.5R.
- (3) *Prices* are to be on a forward basis only for the *issue and redemption of units* in an *authorised fund* which is a *geared futures and options scheme*, a *property scheme*, a *warrant scheme* or an *umbrella scheme* that includes a *sub-fund* which, if it were the subject of a separate *authorisation order*, would be an *authorised fund* of one of those categories.
- (4) CIS 4.7.5R does not apply during the period of *initial offer* at a fixed *price*. In CIS 4.7.5R:
 - (a) ‘F Only’ means that any *price* agreed on must be a *forward price*;
 - (b) ‘H’ means that any *price* agreed on must be an *historic price* unless the *authorised fund manager* is required by the table to *deal* at a *forward price*; and
 - (c) ‘General dealing’ means “in relation to all *sales and redemptions* agreed on during the remainder of the relevant *dealing period* (except those that are agreed upon individual deviations)”; and an ‘individual deviation’ is a decision, in relation to a particular transaction, covered by Part 3 of CIS 4.7.5R.

4.1.5

G

/1

Table Forward or historic pricing
This table belongs to [CIS4.7.4)

Table 4.7.5 R – Forward or historic pricing
Part 1: General Dealing

- | | |
|----|---|
| 1. | <i>Authorised fund manager’s</i> choice. The <i>prospectus</i> must state the <i>authorised fund manager’s</i> choice for H or else for F Only. |
| 2. | If the <i>authorised fund manager’s</i> current choice under 1. is F Only, all its <i>deals</i> must be at a <i>forward price</i> . |
| 3. | An <i>authorised fund manager</i> must not choose H if its normal arrangements for valuation envisage valuations more than one <i>business day</i> apart. |

4. The remainder of this table applies to an *authorised fund manager* with a current choice of H.
 5. It may at any time elect for F Only in respect of the rest of the then current *dealing period*.
 6. If the *authorised fund manager* binds itself to switch from H to F only at a certain point in each *dealing period* this must be stated in the *prospectus*
 7. An election for (or switch to) F Only will last until the end of the *dealing period* and will then lapse.
 8. For general dealing purposes, *redemptions* must be on the same basis as *sales*.
- Part 2: General Dealing – Duty to adopt forward pricing
9. Market movement. F Only applies once the *authorised fund manager* knows or has reason to believe that there would be a difference of 2% or more between the current value of the *scheme property*, if immediately valued, and its last calculated value (taking that as 100% for this purpose), but decides not to carry out an additional valuation under CIS 4.8.6R (Additional valuation points).
 10. Valuation taking over 2 hours. F Only applies if a new *price* for *units* of each *class* has not been notified to the *depository* after 2 hours (or such longer period as the *depository* may agree with the *authorised fund manager* generally or in any specific case) from the *valuation point*.
 11. F Only under 9 and 10 will start when the relevant moment arrives, will last until the end of the *dealing period* and will then lapse.
- Part 3: Individual Deviations
12. Paragraphs 13 to 16 apply to an individual transaction without affecting the general position arrived at under Parts 1 and 2.
 13. Request. F only applies if the applicant for *sale* or *redemption* so requests.
 14. *Large deals*: F only applies, if the *authorised fund manager* so decides, for a *large deal*.
 15. *Postal deals*: F only applies if the *order* or *offer* reaches the *authorised fund manager* through the post or by any similar form of one-way communication.
 16. *Issue* or cancellation through the *authorised fund manager* F Only applies in the case of an *issue* or cancellation under CIS 4.5.3R (Issues and cancellations through the authorised fund manager).
- Part 4: Notification to Depository
17. The *authorised fund manager* must notify the *depository* of the fact and time of any adoption of F only under 5 or Part 2.

4.8 Valuation

Application

4.8.1 **R** This section (CIS 4.8) applies to *authorised fund managers*.

/1

Purpose

4.8.2 **G** This section (CIS 4.8) protects investors by stating some basic requirements which apply to the valuation of the *scheme property* of an *AUT* or an *ICVC* for the purposes of determining the *price* of a *unit* in it. CIS 4.8.5R and CIS 4.8.6R provide for the frequency of valuation and when there are to be *valuation points*. A valuation which refers to a time that is not a *valuation point* will not cause that time to become a *valuation point*.

/1

Valuation: requirements

- 4.8.3** **R**
- (1) An *investment* included in the *scheme property* for which different prices are quoted according to whether it is being bought or sold must be valued at its mid-market price.
 - (2) Any part of the *scheme property* of an *authorised fund* that is not an *investment* must be valued at a fair value, but, for *property schemes*, this is subject to CIS 12.3.2R (Functions of the standing independent valuer) and CIS 12.3.3R (Special rules for pricing).
 - (3) For the purposes of (1) and (2), any fiscal charges or commissions or other charges that were paid, or would be payable, on acquiring or disposing of the investment or other part of the *scheme property*, must be excluded from the value of an investment or other part of the *scheme property*.
 - (4) The value of the *scheme property* of an *authorised fund* must be determined in accordance with the relevant provisions of the *instrument constituting the scheme*, except to the extent that this rule (CIS 4.8.3R) or CIS 5.2.5R (Valuation) or CIS 12.3 (Property schemes) applies.

/1

- (5) To determine the *price* at which *units* of any *class* in an *authorised fund* may be issued, cancelled, sold or redeemed, the *authorised fund manager* must carry out a valuation of the *scheme property* or of the *scheme property* attributable to a *sub-fund* at each *valuation point* for the *authorised fund* or the *sub-fund* (as the case may be).

Valuation: method

4.8.4

G

/1

- (1) CIS 4.8.3R(4) requires that, subject to the exceptions in it, the value of the *scheme property* of an *authorised fund* must be determined in accordance with the *instrument constituting the scheme*. Accordingly, the method of valuing *scheme property* should be set out in this instrument.
- (2) In accordance with CIS 4.8.3R(1), where different *buying* and *selling* prices are quoted for an *investment*, it should be valued at its mid-market price. The *instrument constituting the scheme* should set out the valuation method that will apply where a single price for *buying* and *selling* a *security* is quoted and where separate *buying* and *selling* prices are quoted.
- (3) In the context of *SETS*, The London Stock Exchange publishes an ‘official mid-market price’ for each *security*, calculated as the average of the best bid and best offer price, unweighted by *deal* size. Either the official mid-market price or the last trade price should provide an appropriate basis of valuation. The *authorised fund manager* should, however, document the choice of methodology and ensure the procedures are applied consistently and fairly. The basis on which the *scheme property* is to be valued must also be set out in an *authorised fund’s prospectus* as required by CIS 3.5.2R(17)(2).
- (4) Where there has been no recent trade in the *security* concerned, or where no reliable price exists, an investment should be valued at a price which, in the *authorised fund manager’s* opinion, reflects a fair and reasonable price for that investment. In such cases, the *authorised fund manager* should document the reasons for its decision and should be prepared to justify any assumptions made.

Regular valuation points

4.8.5

R

/1

- (1) There must be at least two *valuation points* in each calendar month and if there are only two *valuation points* in any calendar month they must be two weeks or more apart.
- (2) Paragraph (1) does not apply to *geared futures and options schemes* or to *warrant schemes* or to a *sub-fund* which is permitted to invest entirely in *warrants* and there must be at least one *valuation point* for them on each *business day*.
- (3) The frequency of regular *valuation points* must be specified in the *prospectus*.

- (4) Despite (1) and (2), no *valuation points* are required during the period of any *initial offer*.

Additional valuation points

4.8.6

R

/1

The *authorised fund manager* must inform the *depository* if the *authorised fund manager* determines to have an additional *valuation point* for the *authorised fund* or any *sub-fund*, but this does not prevent the *authorised fund manager* carrying out a valuation at a time that is not a *valuation point*.

Market movement

4.8.7

R

/1

- (1) This *rule* (CIS 4.8.7R) applies when an *authorised fund manager* is operating on the basis of *historic prices* and decides to carry out an additional valuation for the purpose of paragraph (9) (Market movement) of CIS 4.7.5R (Forward or historic pricing).
- (2) When the *rule* applies:
- (a) the valuation must be at an additional *valuation point* and the *authorised fund manager* must inform the *depository* of that *valuation point*;
 - (b) the valuation may be made by reference to fluctuations in an index of property whose composition is reflected by the *scheme property*, if the *authorised fund manager* having taken reasonable care determines, and the *depository* agrees, that an adequate valuation may be obtained in that way.

Chapter 5

Investment and borrowing powers

5.1 Introduction

Application

- 5.1.1 **R**_{/1} (1) This chapter applies in relation to *ICVCs* and *AUTs*.
- (2) This section (*CIS 5.1*) applies to *authorised fund managers* and *depositories*.

Application guidance

- 5.1.2 **G**_{/1} The *persons* to whom each respective *rule* and *guidance* in this chapter applies are stated either at the beginning of the *rule* or *guidance* or at the beginning of the section that contains the *rule* or *guidance*.

Purpose

- 5.1.3 **G**_{/1} This chapter helps in achieving the *regulatory objective* of protecting *consumers* by laying down minimum standards for the investments that may be held by an *authorised fund*. In particular:
- (1) the proportion of *transferable securities* and *derivatives* that may be held by an *authorised fund* is restricted if those *securities* and *derivatives* are not listed on an *eligible* market; the intention of this is to restrict investment in *transferable securities* or *derivatives* that cannot be accurately valued and readily disposed of; and
 - (2) *authorised funds* are required to comply with a number of investment *rules* that require the spreading of risk.

Explanation of this chapter

- 5.1.4 **G**_{/1} (1) Product distinctiveness
- CIS 2.1.4R* (Categories of authorised fund) lists the categories of *authorised fund*. Each *authorised fund* has distinct characteristics and can therefore only hold certain types of investments. The *rules* in this chapter outline the permitted investments for each category, and ensure that the distinct character of each *authorised fund* is maintained.

(2) *UCITS directive*

For *securities schemes*, *warrant schemes* and *umbrella schemes* (consisting of *sub-funds* which would, if separately authorised, be *securities schemes* or *warrant schemes*), this chapter sets out the investment and borrowing *rules* which these *authorised funds* have to comply with, in order to benefit from a certificate of compliance with the *UCITS directive*, with a view to enjoying the rights available under that directive.

(3) Permitted investments

The general pattern of this chapter is summarised in CIS 5.1.6G. This table sets out, for each type of *authorised fund*, or for each *sub-fund* of an *umbrella scheme*, the type of investments that each type of *authorised fund* or *sub-fund* is permitted to hold (as well as the permitted percentage), and the investment techniques that each type of *authorised fund* (or *sub-fund*) is permitted to use.

Distinct meaning of certain terms

5.1.5

G

/1

Terms used in this sourcebook should be interpreted and applied as they are defined. However, because of the distinct nature of investments in which an *authorised fund* is permitted to invest, some of these terms are not always used in a way that corresponds with their usage in certain markets, for example, the term “*warrants*”. In the CIS sourcebook “*warrants*” has a slightly wider meaning than is usually attributed to it in warrant markets. The definition of *warrants* reflects this distinction (see also CIS 5.9.2G(2))

5.1.6

G

/1

Table Indicative overview of investment and borrowing powers
This table belongs to [CIS 5.1.4(3)]

Category of <i>authorised fund</i> (note 1 and 2)	<i>Securities schemes</i> (CIS 5.4)	<i>Money market schemes</i> (CIS 5.5)	<i>Futures and options schemes</i> (CIS 5.6)	<i>Geared futures and options schemes</i> (CIS 5.7)	<i>Property schemes</i> (CIS 5.8)	<i>Warrant schemes</i> (CIS 5.9)	<i>Fund of funds schemes</i> (CIS 5.11)	<i>Feeder funds</i> (excluding <i>feeder funds</i> investing in an <i>eligible investment trust</i>) (CIS 5.10)	<i>Feeder funds</i> investing in an <i>eligible investment trust</i> (CIS 5.10)
Investments and investment techniques									
<i>Transferable securities</i>	Yes	80%	Yes	Yes	80%	Yes	NA	NA	Yes
Transferable but not <i>approved securities</i>	10%	NA	10%	10%	10%	10%	NA	NA	No
<i>Government and public securities</i>	Yes	80%	Yes	Yes	35%	Yes	No	No	No
<i>Units</i>	5%	5%	5%	5%	5%	5%	Yes	Yes	No
<i>Warrants</i>	5%	NA	5%	5%	5%	100%	No	No	No

Stocklending	Yes	Yes	Yes	Yes	Yes	Yes	No	No	No
Underwriting	Yes	Yes	Yes	Yes	Yes	Yes	No	No	No
Borrowing	10%	10%	10%	No	10%	10%	10%	10%	10%

Note 1 Meaning of terms used

“Yes”	can be invested in without specific upper limit (though there may be limits of other kinds)
“No”	not available for investment.
A percentage	an upper limit (though there may be limits of other kinds).
“NA”	not generally applicable having regard to the <i>authorised fund's</i> dedication.
“RRD”	permitted if reasonably required for <i>redemption</i> or in the context of the <i>authorised fund's</i> investment objective (see <i>CIS</i> 5.15.2R (Cash and near cash)).
“EPM”	permitted in the context of efficient portfolio management (see <i>CIS</i> 5.13).
Note 2	<i>Umbrella schemes</i>

The *umbrella scheme* is not covered, but each *sub-fund* must fall within one column of the table.

5.2 General investment powers and limits for authorised funds

Application

5.2.1

R

/1

This section (*CIS 5.2*) applies to *authorised fund managers*, except :

- (1) *CIS 5.2.13R* (Significant influence for ICVCs), which applies only to ICVCs;
- (2) *CIS 5.2.14R* (Significant influence for managers of AUTs), which applies only to *managers* of AUTs; and
- (3) *CIS 5.2.15R* (Concentration), which also applies to ICVCs.

Explanation of CIS 5.2

5.2.2

G

/1

This section outlines some general investment *rules*, with which all *authorised funds* must comply, in order to ensure that they adhere to the same common standards. In line with requirements of the *UCITS directive*, this section also contains *rules* which would prevent an ICVC and a *manager* of an AUT from exercising influence over a *body corporate*.

Prudent spread of risk

5.2.3

R

/1

An *authorised fund manager* must ensure that, taking account of the investment objectives and policy of the *authorised fund* as stated in the most recently published *prospectus* of the *authorised fund*, the *scheme property* of the *authorised fund* aims to provide a prudent spread of risk.

Investment powers: general

5.2.4

R

/1

- (1) The *scheme property* of an *authorised fund* may, subject to the *rules* in this chapter, comprise any assets or investments to which it is *dedicated*. For ICVCs, the *scheme property* may also include movable or immovable property that is necessary for the direct

pursuit of the *ICVC*'s business of investing in those assets or investments.

- (2) The *scheme property* of each *authorised fund* must be invested only in accordance with the relevant provisions in this chapter that are applicable to that *authorised fund* and within any upper limit in this chapter. However, the *instrument constituting the scheme* may further restrict:
 - (a) the kind of property in which the *scheme property* may be invested;
 - (b) the proportion of the *capital property* of the *authorised fund* to be invested in assets of any description;
 - (c) the descriptions of transactions permitted; and
 - (d) the borrowing powers of the *authorised fund*.

Valuation

5.2.5

R

/1

- (1) In this chapter, the value of the *scheme property* of an *authorised fund* means the net value of the *scheme property* determined in accordance with *CIS* 4.8 (Valuation) (for *ICVCs* and *single-priced AUTs*) or *CIS* 15.8 (Valuation) (for *dual-priced AUTs*), after deducting any outstanding borrowings (including, in the case of a *property scheme*, any capital outstanding on a *mortgage* of an immovable), whether immediately due to be repaid or not.
- (2) When valuing the *scheme property* for this chapter:
 - (a) the time as at which the valuation is being carried out (“the relevant time”) is treated as if it were a *valuation point*, but the valuation and the relevant time do not count as a valuation or a *valuation point* for the purposes of *CIS* 4 (for *ICVCs* and *single-priced AUTs*) and *CIS* 15 (for *dual-priced AUTs*);
 - (b) *initial outlay* is regarded as remaining part of the *scheme property*;
 - (c) if the *authorised fund manager* having taken reasonable care determines that the *authorised fund* will become entitled to any unrealised profit which has been made on account of a transaction in *derivatives*, that prospective entitlement is regarded as part of the *scheme property*; and
 - (d) for a *dual-priced AUT*, *CIS* 15.8.4R (Valuation) applies to any valuation of the *scheme property* for the purposes of this chapter, and in applying *CIS* 15.8.4R (Valuation):

- (i) the *cancellation* basis only is required; and
- (ii) paragraphs 1 to 8, 11 and 23 are not applicable.

Valuation

5.2.6

G

/1

It should be noted that for the purpose of CIS 5.2.5R, CIS 4.8 or CIS 15.8 may be affected by specific provisions in this chapter such as, for example, CIS 5.14.6R (Stock lending: treatment of collateral) or CIS 12 (Special provisions for certain categories of scheme).

Chapter to be construed as a whole

5.2.7

R

/1

- (1) Where a *rule* in this chapter allows a transaction to be entered into or an investment to be retained only if possible obligations arising out of the investment transactions or out of the retention would not cause any breach of any limits in this chapter:
 - (a) it must be assumed that the maximum possible liability of the *authorised fund* under any other of those *rules* has also to be provided for; and
 - (b) the *scheme property* must be valued in accordance with CIS 4.8 (Valuation) (for ICVCs and *single-priced AUTs*) or CIS 15.8 (Valuation) (for *dual-priced AUTs*).
- (2) Where a *rule* in this chapter permits an investment transaction to be entered into or an investment to be retained only if that investment transaction, or the retention, or other similar transactions, are covered:
 - (a) it must be assumed that in applying any of those *rules*, the *authorised fund* must also simultaneously satisfy any other obligation relating to cover; and
 - (b) no element of cover must be used more than once.

Examples

5.2.8

G

/1

Examples of the "provisions" referred to in 5.2.7R(1) are: CIS 5.4.6R (Investment in warrants and nil and partly paid securities) and CIS 5.15.7R (General power to accept or underwrite placings).

Transferable securities

- 5.2.9 **R**
/1
- (1) An *investment* is not a *transferable security* if the title to it cannot be transferred, or can be transferred only with the consent of a third party.
 - (2) In applying (1) to an *investment* which is issued by a *body corporate*, and which is an *investment* falling within articles 76 (Shares, etc) or 77 (Instruments creating or acknowledging indebtedness) of the *Regulated Activities Order*, the need for any consent on the part of the *body corporate* or any members or *debenture* holders of it may be ignored.
 - (3) An *investment* is not a *transferable security* unless the liability of the *holder* of it to contribute to the debts of the issuer is limited to any amount for the time being unpaid by the holder of it in respect of the *investment*.

Investment in associated collective investment schemes

- 5.2.10 **R**
/1
- Units* in a *collective investment scheme* do not fall within CIS 5.4.5R (Securities Schemes : Investment in collective investment schemes), CIS 5.5.3R(2)(e) (Money market schemes: general), CIS 5.6.7R (Investment in collective investment schemes) (for *futures and options schemes*), CIS 5.7.8R (for *geared futures and options schemes*) or CIS 5.8.7R (for *property schemes*) if that *collective investment scheme* is managed or operated by (or, if it is an ICVC, has as its ACD) the *authorised fund manager* of the investing *authorised fund* or an *associate* of that *authorised fund manager*, unless:
- (1) the *instrument constituting the scheme* in which the *authorised fund* is investing states that investment by that *scheme* will be restricted or specialised in terms of a particular geographic area or economic sector;
 - (2) the *instrument constituting the scheme* of the investing *authorised fund* and its *prospectus* clearly state that the property of the investing *authorised fund* may include such *units*; and
 - (3) CIS 5.2.11R (Investment in other group schemes) is complied with.

Investment in other group schemes

- 5.2.11 **R**
/1
- (1) An *authorised fund* must not invest in or dispose of *units* in another *collective investment scheme* (the *second scheme*), which is managed or operated by (or in the case of an ICVC, whose ACD is):

- (a) the *authorised fund manager* of such *authorised fund*; or
 - (b) an *associate* of that *authorised fund manager*;
- unless the *authorised fund manager* of the *authorised fund* is under a duty to pay to the *authorised fund* by the close of business on the fourth *business day* next after the agreement to buy or to *sell* the amount referred to in (2) and (3).
- (2) On investment, either:
 - (a) any amount by which the consideration paid by the *authorised fund* for the *units* in the second *scheme* exceeds the *price* that would have been paid for the benefit of the second *scheme* had the *units* been newly issued or sold by it; or
 - (b) if such *price* cannot be ascertained by the *authorised fund manager* of the *authorised fund*, the maximum amount of any charge permitted to be made by the seller of *units* in the second *scheme*.
 - (3) On disposal, the amount of any charge made for the account of the *authorised fund manager* or *operator* of the second *scheme* or an *associate* of any of them in respect of the disposal.
 - (4) In (1), (2) and (3):
 - (a) any addition to or deduction from the consideration paid on the acquisition or disposal of *units* in the second *scheme*, which is applied for the benefit of the second *scheme* and is, or is like, a *dilution levy* made in accordance with CIS 4.6.3R (for *ICVCs* and *single-priced AUTs*) or *SDRT provision* made in accordance with CIS 4.6.3R (for *ICVCs* and *single-priced AUTs*) or CIS 15.6.3R (for *dual-priced AUTs*) is to be treated as part of the *price* of the *units* and not as part of any charge; and
 - (b) any charge made in respect of an exchange of *units* in one *sub-fund* or separate part of the second *scheme* for *units* in another *sub-fund* or separate part of that *scheme* is to be included as part of the consideration paid for the *units*.

Investment in other collective investment schemes: interpretation

Where a reference to an *authorised fund* of a particular category is made in CIS 5.5.3R(2)(e) (Money market schemes: general), CIS 5.6.7R (Investment in collective investment schemes) (for *futures and options schemes*), CIS 5.7.8R (for *geared futures and options schemes*) or CIS 5.8.7R (for *property schemes*), that reference is to be treated as a reference also to:

- (1) a *sub-fund* which would, if it were the subject of a separate *authorisation order* be an *authorised fund* of that particular category; and
- (2) a separate part of a *recognised scheme* that is equivalent to a *sub-fund* within (1).

Significant influence for ICVCs

5.2.13

R

/1

- (1) An ICVC must not acquire *transferable securities* issued by a *body corporate* and carrying rights to vote (whether or not on substantially all matters) at a general meeting of that *body corporate* if:
 - (a) immediately before the acquisition, the aggregate of any such *securities* held by the ICVC gives the ICVC power significantly to influence the conduct of business of that *body corporate*; or
 - (b) the acquisition gives the ICVC that power.
- (2) For the purpose of (1), an ICVC is to be taken to have power significantly to influence the conduct of business of a *body corporate* if it can, because of the *transferable securities* held by it, exercise or control the exercise of 20% or more of the voting rights in that *body corporate* (disregarding for this purpose any temporary suspension of voting rights in respect of the *transferable securities* of that *body corporate*).
- (3) This *rule* (CIS 5.2.13R) does not apply to investment by a *property scheme* in *property related assets*.

Significant influence for managers of AUTs

5.2.14

R

/1

- (1) A *manager* must not acquire, or cause to be acquired for an AUT of which it is the *manager*, *transferable securities* issued by a *body corporate* and carrying rights to vote (whether or not on substantially all matters) at a general meeting of the *body corporate* if:
 - (a) immediately before the acquisition, the aggregate of any such *securities* held for that AUT, taken together with any such *securities* already held for other AUTs of which it is also the *manager*, gives the *manager* power significantly to influence the conduct of business of that *body corporate*; or
 - (b) the acquisition gives the *manager* that power.

- (2) In (1), a *manager* is to be taken to have power significantly to influence the conduct of business of a *body corporate* if it can, because of the *transferable securities* held for all the *AUTs* of which it is the *manager*, exercise or control the exercise of 20% or more of the voting rights in that *body corporate* (disregarding for this purpose any temporary suspension of voting rights in respect of the *transferable securities* of that *body corporate*).
- (3) This *rule* (CIS 5.2.14R) does not apply to investment by a *property scheme* in *property related assets*.

Concentration

5.2.15

R

An *authorised fund* must not hold:

/1

- (1) *transferable securities* (other than *debt securities*) which:
 - (a) do not carry a right to vote on any matter at a general meeting of the *body corporate* that issued them; and
 - (b) represent more than 10% of those *securities* issued by that *body corporate*;
- (2) more than 10% of the *debt securities* issued by any single issuing body; and
- (3) except in the case of a *fund of funds scheme* and a *feeder fund*, more than 10% of the *units* in a *collective investment scheme*.

5.2.16

G

In accordance with CIS 12.5.7R (Investment and borrowing powers), CIS 5.2.13, CIS 5.2.14 and CIS 5.2.15 will apply only at the level of the *umbrella scheme*.

/1

5.3 Eligible markets regime

Application

- 5.3.1 **R** This section (*CIS 5.3*) applies to *authorised fund managers*, except *CIS 5.3.3R(2)(d)*, which applies to *depositories*.
/1

Purpose

- 5.3.2 **G** In order to protect investors, this sourcebook tries to ensure that markets on which *investments* of *authorised funds* are dealt in or traded on are of an adequate quality. To that effect, the *eligible* markets regime lays down a number of requirements relating to the nature of the markets in which the property of an *authorised fund* may be dealt in or traded. This regime is based on criteria in the *UCITS directive*.
/1

Eligible markets: requirements

- 5.3.3 **R** (1) A *securities* market is *eligible* for the purposes of the *rules* in this sourcebook if it is a market established in a *EEA State* on which *transferable securities* admitted to official listing in the *EEA State* are *dealt* in or traded.
/1
- (2) A *securities* market not falling within (1) or a *derivatives* market is, at any time, *eligible* for the purposes of the *rules* in this sourcebook if:
- (a) the *authorised fund manager*, after consultation with the *depository* (and in the case of an *ICVC*, any *directors* in addition to the *ACD*), has decided to choose that market as one which is appropriate for the purpose of investment of, or *dealing* in, the *scheme property* beyond, where appropriate, any limit which under the *rules* in this chapter would otherwise apply;
 - (b) the decision is notified in writing to the *depository* and has not been revoked;
 - (c) the market is included in a list in the *prospectus*; and

- (d) the *depository* has taken reasonable care to determine that:
 - (i) adequate *custody* arrangements can be provided for the *investments* dealt in on the market in question; and
 - (ii) all reasonable steps have been taken by the *authorised fund manager* in deciding whether the market in question is *eligible*.
- (3) In (2), a market must not be considered appropriate unless it:
 - (a) is regulated (CIS 5.3.5G);
 - (b) operates regularly (CIS 5.3.6G);
 - (c) is recognised (CIS 5.3.7G); and
 - (d) is open to the public (CIS 5.3.8G).
- (4) In exercising the choice in (2), the *authorised fund manager* must have regard to:
 - (a) whether the market is adequately liquid (CIS 5.3.9G); and
 - (b) the arrangements relevant to the market for unimpeded transmission of income and capital to or to the order of investors.

Guidance on eligible markets: introduction

5.3.4

G /1

- (1) CIS 5.3.3R (Eligible markets: requirement) will involve *authorised fund managers* exercising integrity and competence in making a judgement as to what constitutes an *eligible* market.
- (2) The *guidance* paragraphs in this section (CIS 5.3) are indicative of the matters that *authorised fund managers* will need to take into account, using such information as is available to them, making inquiries as necessary, and taking advice as appropriate, in order to have taken reasonable care to determine that a market is *eligible*.
- (3) The items listed in the *guidance* paragraphs are not necessarily exhaustive, nor are they in any particular order of relative importance. An overall view will need to be taken on each market.

Regulated

5.3.5

G /1

- (1) In considering whether a market is regulated, the *authorised fund manager* should assess whether the market is subject to supervision by an authority which is a statutory body, an agency of a national or State government, a department of a national government or another body designated for the purpose by one of these.

- (2) In addition, the *authorised fund manager* should take account of any of (a) to (i):
- (a) the degree to which *persons* who are bound by rules of the market are subject to formal supervision by the market or another body, and in particular whether that supervision includes level of capital;
 - (b) the powers of the market, or the supervising body, or both, to intervene in the business of *persons* who are bound by the rules of the market in the event of misconduct, financial difficulties or otherwise, including the power to reject applicants, terminate membership and de-list a *security*;
 - (c) the initial listing standards and ongoing supervision of *securities* traded on the market including the publication of prospectuses and audited annual financial statements;
 - (d) the everyday availability of current information about *securities*, *derivatives*, quotations, transactions, prices and spreads;
 - (e) requirements for the issue of contract notes (or their equivalents);
 - (f) whether there is a requirement for trade reporting to the market or other supervisory body of the *securities* or *derivatives* the *authorised fund manager* is intending to buy;
 - (g) whether the clearance and settlements arrangements normally used for transactions on the market are prompt and secure;
 - (h) the risk of loss in the event of insolvency of a *person* who is bound by the rules of the market; and
 - (i) how the market investigates and deals with complaints.

Operating regularly

5.3.6

G
/1

- (1) In considering whether a market is operating regularly, the *authorised fund manager* should assess whether the market has regular trading hours during which the *investments* listed or admitted to *dealing* may be *dealt* in.
- (2) In addition, the *authorised fund manager* should take account of:
- (a) the availability and timing of price and volume information and the way it is distributed; and
 - (b) in respect of *securities*, the degree to which, and the speed at which, companies listed on the market must release price-sensitive information, and the medium through which that information is distributed.

Recognised

5.3.7

G
/1

In considering whether a market or exchange is recognised, the *authorised fund manager* should assess whether the market is recognised or registered as a market or exchange or as a self-regulating organisation (or as both) by an authority which is a statutory body, or an agency of a national or State government or department

of a national government or another body designated for the purpose by one of these.

Open to the public

5.3.8

G
/1

- (1) In considering whether a market is open to the public, the *authorised fund manager* should assess whether *investments* listed or admitted to *dealing* on the market are freely available for trading by the public directly, or through members of the market, during normal trading hours.
- (2) In addition, the *authorised fund manager* should take account of the extent to which overseas investors are permitted to hold *securities* listed on the market.

Liquidity and repatriation of funds

5.3.9

G
/1

In considering whether a market is adequately liquid, the *authorised fund manager* should assess:

- (1) the overall liquidity of the market or exchange; whether *securities* or *derivatives* or both can be bought and sold in a reasonable time, at best execution and in adequate amounts; and
- (2) the procedures and restrictions (if they exist) on the repatriation of funds to the *United Kingdom*, bearing in mind in particular the open-ended nature of a *collective investment scheme* and the requirement that the *authorised fund manager* must at all times during the *dealing day* be willing to redeem *units*, including large redemptions, at a *price* arrived at in accordance with *CIS 4* (Single-pricing and dealing) or *CIS 15* (Dual-pricing and dealing).

Responsibility of authorised fund manager

5.3.10

G
/1

- (1) The *authorised fund manager* should, after consultation with the *depository* about safe *custody*:
 - (a) for any particular market, consider all the characteristics mentioned in *CIS 5.3.3R(3)* and *CIS 5.3.3R(4)* of that market or the lack of them, and any other characteristics which are relevant, in order to reach a view on whether that market or exchange should be an *eligible* market, for *approved securities* and *approved derivative investment* purposes; and
 - (b) continue to take reasonable care to ensure that the market continues to exhibit the characteristics which led to it being considered *eligible* and that there are no events or characteristics which undermine that eligibility.
- (2) Where a market ceases to be *eligible*, *investments* on that market will cease to be *approved securities*. The 10% restriction in *CIS 5.4.2R(2)* (Securities schemes: general) applies and, if necessary, the level of *investment* on that market must be reduced to ensure that this 10% limit is not exceeded. Exceeding the 10% limit because a market ceases to be *eligible* will generally be regarded as an inadvertent breach under *CIS 7.5.3R* (Duties of the ACD and depository: investment and borrowing powers) (in the case of an *ICVC*) and *CIS 7.10.3R* (Duties of the manager and trustee: investment and borrowing

powers). In addition, no new *derivatives exposures* on the *investments* that cease to be *approved securities* should be created.

5.4 Securities schemes

Application

5.4.1

R

This section (CIS 5.4) applies to *authorised fund managers of securities schemes*.

/1

Securities schemes: general

5.4.2

R

- (1) The *scheme property* of a *securities scheme* must, except where otherwise provided in the *rules* in this chapter, only consist of *transferable securities*.
- (2) Not more than 10% in value of the *scheme property* of a *securities scheme* is to consist of *transferable securities* which are not *approved securities*, but there is no limit on the value of the *scheme property* which is to consist of *approved securities*.
- (3) Not more than 5% in value of the *scheme property* is to consist of *transferable securities* which are *units* in *collective investment schemes*, and those *units* must fall within CIS 5.4.5R (Securities Schemes : Investment in collective investment schemes).
- (4) *Investment* under (3) counts towards the limit in (2) (except where the *units* are *approved securities*).
- (5) CIS 5.4.3R (Spread: general) and CIS 5.4.4R (Spread: government and public securities) do not apply until the earlier of:
 - (a) the expiry of a period of six months after the date of effect of the *authorisation order* in respect of the *authorised fund* (or on which the *initial offer* commenced if later); or
 - (b) the date when the value of the *scheme property* of the *securities scheme* first exceeds £2 million (or the equivalent in the *base currency* of the *securities scheme*).
- (6) The following sections also apply to *securities schemes*:

/1

- (a) CIS 5.2 (General investment powers and limits for authorised funds);
- (b) CIS 5.13 (Efficient portfolio management);
- (c) CIS 5.14 (Stock lending);
- (d) CIS 5.15 (Cash, borrowing, lending and other provisions); and
- (e) CIS 5.16 (Cover for sales).

Spread: general

5.4.3

R
/1

- (1) This rule (CIS 5.4.3R) does not apply to *government and public securities*.
- (2) Not more than 5% in value of the *scheme property* is to consist of *transferable securities* issued by any one issuer.
- (3) In applying (2), *certificates representing certain securities* are treated as equivalent to the underlying *security*.
- (4) The figure of 5% in (2) may be increased to 10% in respect of up to 40% of the value of the *scheme property*.

Spread: government and public securities

5.4.4

R
/1

- (1) This rule (CIS 5.4.4R) applies to *government and public securities* (“such securities”) only.
- (2) As long as no more than 35% of the value of the *scheme property* of an *authorised fund* is invested in such *securities* issued by any one issuer, there is no limit on the amount which may be invested in such *securities* or such *securities* issued by any one issuer or of any one issue.
- (3) No more than 35% in value is to be invested in such *securities* issued by any one issuer unless the *authorised fund manager*, after consultation with the *depository*, considers the issuer of such *securities* as one which is appropriate in accordance with the investment objectives of the *authorised fund*.
- (4) Where more than 35% in value of the *scheme property* is invested in such *securities* issued by any one issuer:
 - (a) up to 30% in value of the *scheme property* may consist of such *securities* of any one issue;

- (b) the *scheme property* must include such *securities* issued by that or another issuer, of at least six different issues; and
- (c) the disclosures in (5) must have been duly made.
- (5) Where it is intended that (3) and (4) may apply, the *instrument constituting the scheme*, and the most recently published *prospectus*, must clearly state:
 - (a) the fact that more than 35% in value of the *scheme property* is or may be invested in *government and public securities* issued by one issuer; and
 - (b) the names of the States, and of the local authorities or public international bodies or both in whose *government and public securities* the *authorised fund* may invest over 35% of its assets.
- (6) In (2), (3), (4) and (5), in relation to *government and public securities*:
 - (a) issue, issued and issuer include guarantee, guaranteed and guarantor; and
 - (b) an issue differs from another if there is a difference as to repayment date, rate of interest, guarantor or other material terms of the issue.

Securities schemes: investment in collective investment schemes

5.4.5

R

A securities scheme may invest in units in a collective investment scheme only if the second scheme is a collective investment scheme that complies with the conditions necessary for it to enjoy the rights conferred by the UCITS directive or is a collective investment scheme that:

- (1) complies with section 243(10) of the *Act* (*Authorisation orders: entitlement to have units redeemed*) or is treated as complying with it by section 243(11) of the *Act*;
- (2) is either:
 - (a) a *recognised scheme*; or
 - (b) a *collective investment scheme* constituted outside the *United Kingdom* in which the *investments* of the *scheme* consist of *units* which are *approved securities*;
- (3) is *dedicated* to investing funds raised from the public in *transferable securities*;

¹

- (4) operates on the principle of risk spreading; and
- (5) has terms which prohibit more than 5% in value of the *property of the scheme* consisting of *units in collective investment schemes*.

Investment in warrants and nil and partly paid securities

5.4.6

R

/1

- (1) A *warrant* (“the proposed *warrant*”) falls within any power of investment only if, on the assumptions that:

- (a) there is no change to the *scheme property* between the acquisition of the proposed *warrant* and its exercise; and
- (b) the rights conferred by the proposed *warrant* and all other *warrants* forming part of the *scheme property* at the time of the acquisition of the proposed *warrant* will be exercised (whether or not it is intended that they will be);

it is reasonably foreseeable that the right conferred by the proposed *warrant* could be exercised by the *authorised fund* without contravening the *rules* in this chapter.

- (2) A *transferable security* on which any sum is unpaid falls within a power of investment only if it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the *authorised fund*, at the time when payment is required, without contravening the *rules* in this chapter.
- (3) Not more than 5% in value of the *scheme property* is to consist of *warrants*.
- (4) A *warrant* which is an *investment* falling within article 30 of the *Regulated Activities Order* (*Certificates representing certain securities*) and which is akin to an *investment* falling within article 29 (Instruments giving entitlement to *investments*) of the *Regulated Activities Order* may not be included in the *scheme property* unless it is listed on an *eligible securities* market.

5.5 Money market schemes

Application

5.5.1 **R** This section (*CIS 5.5*) applies to *authorised fund managers of money market schemes*.
/1

Introduction

5.5.2 **G** (1) This section (*CIS 5.5*) sets out specific *rules for money market schemes*. *Money market schemes* are *authorised funds* investing in cash and *near cash* and, subject to specified restrictions (as to which see *CIS 5.5.3R* (Money market schemes: general)) in bills of exchange and in *debentures* and other instruments creating or acknowledging indebtedness.
/1

(2) The *rules* in this section governing the *investment limits of money market schemes* are intended to ensure that *money market schemes* maintain a high level of liquidity.

Money market schemes: general

5.5.3 **R** (1) The *scheme property of a money market scheme* must, except where otherwise provided in the *rules* in this chapter, consist of "*money market scheme assets*".
/1

(2) For this purpose, "*money market scheme assets*" means any of:

- (a) *cash and near cash*;
- (b) bills of exchange accepted by an *eligible institution*, if repayable within 12 months;
- (c) instruments creating or acknowledging indebtedness which are:
 - (i) repayable within 12 months;
 - (ii) not subordinated; and

- (iii) either *approved securities* or *investments* which are issued by an *eligible institution* otherwise than in return for a *deposit* in (a);
 - (d) a *deposit* which would be within (a) (*near cash*) except that it is repayable within six months (instead of immediately) and without payment of a penalty exceeding seven days' interest calculated at ordinary commercial rates; and
 - (e) *units* in one or more *regulated collective investment schemes*, each of which is either a *money market scheme* or a *scheme* of a category that is equivalent to a *money market scheme*.
- (3) The following also apply to *money market schemes*:
- (a) CIS 5.2 (General investment powers and limits for authorised funds);
 - (b) CIS 5.4.6R(2) (Investment in warrants and nil or partly paid securities);
 - (c) CIS 5.13 (Efficient portfolio management);
 - (d) CIS 5.14 (Stock lending);
 - (e) CIS 5.15 (Cash, borrowing, lending and other provisions); and
 - (f) CIS 5.16 (Cover for sales).

Investment limits

5.5.4

R

/1

- (1) At least 50% in value of the *scheme property* of a *money market scheme* must consist of instruments or *deposits* which are permitted under CIS 5.5.3R (Money market schemes: general) and which are:
 - (a) redeemable or repayable within two weeks; or
 - (b) in the case of instruments, capable of being transferred without the consent of a third party (and for this purpose the issuer of the instrument must be regarded as a third party).
- (2) Not more than 80% in value of the *scheme property* is to consist of *transferable securities*, in accordance with CIS 5.4 (Securities schemes) (but excluding *investment in units* in *collective investment schemes* under CIS 5.4.5R).

Spread

5.5.5

R

/1

- (1) This *rule* (CIS 5.5.5R) does not apply to a *money market scheme* until the date on which the value of its *scheme property* first exceeds £1 million (or the equivalent in the *base currency* of the *money market scheme*).
- (2) Not more than 5% in value of the *scheme property* of a *money market scheme* is to consist of instruments issued by any one issuer; but this limit does not apply to instruments which are *government and public securities*.
- (3) Not more than 30% in value of the *scheme property* is to consist of *government and public securities* of the same issue.
- (4) Where more than 35% in value of the *scheme property* is invested in *government and public securities*, it must include such *securities* of at least six different issues.
- (5) Not more than 5% in value of the *scheme property* is to consist of *units* within CIS 5.5.3R(2)(e) (Money market schemes: general).
- (6) Whenever the total value of the *scheme property* of a *money market scheme* which is held on *deposit* is more than £1 million:
 - (a) not more than 10% in value is to be kept on *deposit* with any one *person*;
 - (b) for the purposes of (a):
 - (i) the *depository* and its *associates* are regarded as one *person*;
 - (ii) the *manager* and its *associates* are regarded as one *person*; and
 - (iii) each *director* of an *ICVC* including the *ACD* and his or its *associates* are regarded as one *person*; and
 - (c) the figure of 10% in (a) may be increased to 20% if:
 - (i) the *person* is an *eligible institution* and is not one of the *persons* referred to in (b); and
 - (ii) the amount of the *deposit* does not exceed 10% in value of that *eligible institution's* issued capital and reserves as shown in its most recently published annual accounts.

5.6 Futures and options schemes

Application

5.6.1

R

/1

This section (CIS 5.6) applies to *authorised fund managers of futures and options schemes* except:

- (1) CIS 5.6.6R(3), which also applies to *depositories of futures and options schemes*; and
- (2) CIS 5.6.14R, which applies to *ICVCs that are futures and options schemes* and to *trustees of AUTs that are futures and options schemes*.

Introduction

5.6.2

G

/1

- (1) This section (CIS 5.6) sets out specific *rules for futures and options schemes*. *Futures and options schemes* are *authorised funds dedicated* to investment in *approved derivatives* and other *derivatives* (whether with or without *transferable securities*), where most or all of the transactions are fully covered. The next section (CIS 5.7) deals with *geared futures and options schemes*. While the types of *scheme property* are almost the same for both of these categories, there are important differences between them in the degree to which exposure is permitted and in the manner in which exposure is measured.
- (2) The *futures and options scheme* must be "covered", in the sense that it is permitted to invest in *derivatives* and forward transactions only as long as the exposure itself is suitably covered from within its *scheme property*, including permitted borrowing. Some limited form of investment without cover is permitted, in the form of purchased *options*.
- (3) The *geared futures and options scheme*, on the other hand, is permitted to devote 20% of its *scheme property* to *initial outlay*, and this may therefore lead in volatile markets to a greater exposure to profit or loss than in the case of a *futures and options scheme*.

Futures and options schemes: general

5.6.3

R

/1

- (1) The *scheme property* of a *futures and options scheme* must, except where otherwise provided in the *rules* in this chapter, consist only of any or all of:
 - (a) *transferable securities* available to a *securities scheme*, in accordance with CIS 5.4 (Securities schemes)(but excluding *investment in units in collective investment schemes* under CIS 5.4.5R);
 - (b) *derivatives* permitted under this *rule* (CIS 5.6.3R) and CIS 5.6.4R - CIS 5.6.6R;
 - (c) forward transactions in currencies or gold permitted under this *rule* (CIS 5.6.3R), CIS 5.6.4R and CIS 5.6.5R;
 - (d) cash or *near cash*;
 - (e) *units in collective investment schemes* under CIS 5.6.7R (Investment in collective investment schemes); and
 - (f) gold.
- (2) For investment within (1)(a), CIS 5.4 (Securities schemes) applies as if the *futures and options scheme* were a *securities scheme*, but subject to any specific modification in this section (CIS 5.6).
- (3) For investment within (1)(b) or (1)(c), a transaction in *derivatives* or a forward transaction must not be effected unless:
 - (a) the transaction is of the kind specified in CIS 5.6.4R (Permitted transactions); and
 - (b) the transaction is:
 - (i) fully covered, as required by CIS 5.6.9R (Cover for transactions in derivatives and forward transactions); or
 - (ii) the subject of deposit arrangements, as required by CIS 5.6.13R (Deposit arrangements (for purchased options)).
- (4) Not more than 10% in value of the *scheme property* is to be used for transactions in *derivatives* in the form of uncovered purchased *options* (taking the current *market value* of the *option* as its value for this purpose), but there must be deducted from that figure of 10% any percentage of the value of the *scheme property* invested in *transferable securities* in the form of *warrants*.
- (5) Not more than 10% in value is to be held in the form of gold.

- (6) Whenever the total value held on *deposit* of the *scheme property* of a *futures and options scheme* is more than £1 million:
- (a) not more than 10% in value is to be kept as cash on *deposit* with any one *person*;
 - (b) in (a):
 - (i) the *depository* and its *associates* are regarded as one *person*;
 - (ii) the *manager* and its *associates* are regarded as one *person*; and
 - (iii) each *director* of an *ICVC* including the *ACD* and his or its *associates* are regarded as one *person*; and
 - (c) the figure of 10% in (a) may be increased to 20% if:
 - (i) the *person* is an *eligible institution* and is not one of the *persons* referred to in (b); and
 - (ii) the amount of the *deposit* does not exceed 10% in value of that *eligible institution's* issued capital and reserves as shown in its most recently published annual accounts.
- (7) The following also apply to *futures and options schemes*:
- (a) *CIS 5.2* (General investment powers and limits for authorised funds);
 - (b) *CIS 5.13* (Efficient portfolio management);
 - (c) *CIS 5.14* (Stock lending);
 - (d) *CIS 5.15* (Cash, borrowing, lending and other provisions); and
 - (e) *CIS 5.16* (Cover for sales).

Permitted transactions (derivatives and forwards)

5.6.4

R

/1

- (1) A transaction in *derivatives* under this section (*CIS 5.6*) must be:
- (a) in an *approved derivative*; or
 - (b) one which complies with *CIS 5.6.6R* (OTC transactions in derivatives); or
 - (c) a *synthetic future*.

- (2) Any transaction in an *approved derivative* must be effected on or under the *rules* of an *eligible derivatives* market.
- (3) Any forward transaction must be with an *approved counterparty* under CIS 5.6.6R(2) (OTC transactions in derivatives).
- (4) Not more than 5% in value of the *scheme property* is to be directed to *initial outlay* in respect of *over the counter* transactions with any one counterparty.

Transactions for the purchase of property

5.6.5

R

/1

A *derivatives* or forward transaction (which is a permitted transaction under CIS 5.6.4R (Permitted transactions (derivatives and forwards)) which will or could lead to delivery of property for the account of the *ICVC* or to the *trustee* for the account of the *AUT* may be entered into only if:

- (1) that property can be held for the account of the *ICVC* or can be held by the *AUT* (or else the transaction is a bought *future* or bought call *option*); and
- (2) the *authorised fund manager* having taken reasonable care determines that delivery of the property under the transaction will not occur or will not lead to a breach of the *rules* in this sourcebook.

OTC transactions in derivatives

5.6.6

R

/1

Any transaction in *derivatives* under CIS 5.6.4R(1)(b) must be:

- (1) a *future* or an *option* or a *contract for differences* resembling an *option*;
- (2) with an *approved counterparty*; a *counterparty* to a transaction in *derivatives* is approved only if the *counterparty* is:
 - (a) an *eligible institution*; or
 - (b) a *firm* whose *permission* (including any *requirements* or *limitations*), as published in the *FSA* record, permits it to enter into the transaction as *principal off-exchange*;
- (3) on approved terms; the terms of a transaction in *derivatives* are approved only if, before the transaction is entered into, the *depository* is satisfied that the *counterparty* has agreed with the *ICVC* or with the *manager*:

- (a) to provide a valuation in respect of that transaction (which, for *dual-priced AUTs* should be on a buying and selling basis) at least once a week and at any other time at the request of the *ICVC* or *manager*; and
 - (b) that it will, at the request of the *ICVC* or *manager*, enter into a further transaction to *close out* that transaction, at a reasonable price arrived at under the pricing model or other reliable basis agreed under (4); and
- (4) capable of valuation; a transaction in *derivatives* is capable of valuation only if the *authorised fund manager* having taken reasonable care determines that, throughout the life of the *derivative* (if the transaction is entered into), it will be able to value the *investment* concerned with reasonable accuracy:
- (a) on the basis of a pricing model which has been agreed between the *authorised fund manager* and the *depository*; or
 - (b) on some other reliable basis reflecting an up-to-date market value which has been so agreed.

Investment in collective investment schemes

5.6.7

R

/1

- (1) *Investments in units* of a *collective investment scheme* must not be made unless that *scheme*:
- (a) is a *regulated collective investment scheme* which is either a *futures and options scheme* or a *money market scheme* or a *scheme* of a category that is equivalent to the category of one of such *schemes*; or
 - (b) (after taking account of *CIS 5.2.10R*) (Investment in associated collective investment schemes):
 - (i) is within *CIS 5.4.5R* (Securities schemes : investment in collective investment schemes); or
 - (ii) would be within *CIS 5.4.5R* (Securities schemes : investment in collective investment schemes) if paragraph (3) of that *rule* read:

“is *dedicated* to investing funds raised from the public in approved and other *derivatives* (where most or all of the transactions in *derivatives* are fully covered by cash, *securities* or other *derivatives*) whether with or without *transferable securities* or covered forward transactions in currency or gold.”

- (2) Not more than 5% in value of the *scheme property* of a *futures and options scheme* is to consist of *units in collective investment schemes*.

What is cover and what is the purpose of cover?

5.6.8

G

/1

- (1) A *futures and options scheme* should be covered. This means that a *futures and options scheme* is permitted to invest in *derivatives* and forward transactions as long as the exposure itself is suitably covered from within its *scheme property* (including permitted borrowing).
- (2) A purpose of cover is to ensure that a *futures and options scheme* is not, and cannot become, exposed to the risk of loss of property, including *money*, to an extent greater than the value of the *futures and options scheme*, together with permitted borrowing of 10%. At any time, therefore, the *futures and options scheme* must hold *scheme property* which is of the right kind and sufficient in value or amount to match the exposure which exists as a result of the *derivative*. CIS 5.6.9R (Cover for transactions in derivatives and forward transactions) sets out detailed requirements for cover of a *futures and options scheme*.
- (3) In accordance with CIS 5.2.7R(2)(b), cover used in respect of one transaction in *derivatives* or forward transaction must not be used for cover in respect of another transaction in *derivatives* or a forward transaction.
- (4) However, some limited form of investment without cover is permitted, in the form of purchased *options*. Since purchased *options* result in no exposure except that of loss of the *premium* paid, they can be held on an uncovered basis, but with a cash "set aside" to ensure that holdings of such *derivatives* do not unbalance the *futures and options scheme*.
- (5) CIS 5.6.9R – CIS 5.6.13R set out detailed requirements for "cover" of a *futures and options scheme*.
- (6) CIS 5.6.16G sets out, in diagrammatic form, the various stages in defining the cover requirements in CIS 5.6.9R.

Cover for transactions in derivatives and forward transactions

5.6.9

R

/1

- (1) Except where CIS 5.6.13R(1) (Deposit arrangements (purchased options)) applies, a transaction in *derivatives* or forward transaction is to be entered into under this section (CIS 5.6) only if the maximum potential exposure created by the transaction, in terms of the *principal* or *notional principal* of the *derivative contract* or forward contract, is:
- (a) covered individually under (2) or (3); and
 - (b) covered globally under (4).
- (2) Exposure is covered individually if there is, in the *scheme property*:

- (a) (in the case of an exposure in terms of property) a *transferable security* or other property which is of the right kind, and sufficient in amount, to match the exposure; and
 - (b) (in the case of an exposure in terms of *money*), cash or *near cash* (or borrowing under CIS 5.6.14R (Borrowing)) or *transferable securities* which is or are, or, on being turned into *money* in the right currency, will be, sufficient in amount to match the exposure.
- (3) However, exposure to an index or basket of *securities* or other assets is covered individually for the purposes of (2) if the *futures and options scheme* holds *transferable securities* or other property which (taking into account the closeness of the relation between fluctuations in the price of the two) can reasonably be regarded as appropriate to provide cover for the exposure; they may be so regarded even if there is not complete congruence between the cover and the exposure.
- (4) Exposure is covered globally if, after taking account of all the cover required under (2) or (3) for other positions already in existence, adequate cover from within the *scheme property* is available to enable the fresh transaction to be entered into.
- (5) Whether or not a *derivative* or forward transaction is available under CIS 5.6.12R (Derivatives covering derivatives : requirements) to provide cover for another *derivative* or forward transaction under this section (CIS 5.6):
- (a) the two transactions involved in a *synthetic future* are to be treated as if they were a single *derivative*, and the net exposure from the combination is to be covered on the basis of the higher of the cover requirements of the *options* which make up the *synthetic future*; and
 - (b) *synthetic cash* is available to provide cover for a transaction as if it were cash.
- (6) Cash not yet received into the *scheme property* but due to be received within one month is available as cover for the purposes of (2)(b) and (3).
- (7) Property is not available for cover if it is the subject of a transaction under CIS 5.14 (Stock lending), unless the *authorised fund manager* having taken reasonable care determines that it is obtainable (by return or re-acquisition) in time to meet the obligation for which cover is required.

Examples of cover requirements

5.6.10

G

/1

Examples of the cover requirements:

- (1) A bought put *option* (or a written call *option*) on 1000 ordinary £1 *shares* (fully paid) of ABC plc is covered by an existing holding in the *futures and options scheme* of 1000 ordinary £1 *shares* (fully paid) of ABC plc (CIS 5.6.9R(2)(a)).
- (2) A bought call *option* (or written put *option*) on 1000 ordinary £1 *shares* (fully paid) of ABC plc is covered by cover (in the form of cash or an allowable substitute for cash or *transferable securities*) which is sufficient in amount to meet the *purchase* of the *shares* on exercise of the *option* (CIS 5.2.7R(2)(b)).
- (3) A sold *contract for differences* on short-dated sterling is covered by cash or *near cash* or *transferable securities*, the values of which together at least match the *notional principal* of the contract (for example a LIFFE short sterling contract, or a succession of such contracts, is covered by £500,000) (CIS 5.6.9R(2)(b) and CIS 5.2.7R(2)(b)).
- (4) A sold *future* on the FT-SE 100 Index is covered by holdings of equities (or a combination of cash (or *near cash*) and call *options* on that *future*) which satisfy the test of appropriateness for cover in CIS 5.6.9R(3) in relation to that *future*, and the values of which together at least match the current mark to market valuation of the *future* (for example, if the multiplier per full index point is £10, and if the eventual obligation under the *future* is currently at 2800, the valuation of the *futures* position is $2800 \times £10 = £28,000$) (CIS 5.6.9R(3) and CIS 5.6.12R).
- (5) Where an ICVC or the *manager* of an AUT has holdings in blue chip UK *shares*, wishes to provide more exposure to the US market, and decides to *sell* a FT-SE index *future* to the value of those *shares* (this transaction satisfying the test of appropriateness for cover in CIS 5.6.9R(3)), then the sterling *synthetic cash* position created is used as cover for a S&P 500 index *future* provided that the *authorised fund* ensures that the cover remains sufficient (for example by reference to the sterling/US dollar exchange rate) (CIS 5.6.9R(3) and CIS 5.6.9R(5)(b)).
- (6) For guidance on congruence see CIS 5.13.10G(1) (The use of index derivatives : congruence).

Derivatives covering derivatives: explanation of the use of derivatives for cover

5.6.11

G

/1

- (1) The general requirements about cover in CIS 5.6.9R (Cover for transactions in *derivatives* and forward transactions) are modified in some respects where it is sought to use two *derivatives* on the same underlying asset or *security* as cover for each other. CIS 5.6.12R (Derivatives covering derivatives: requirements) provides the basis for such mutual cover.
- (2) The main features are that:
 - (a) only a countervailing exposure can provide adequate cover;
 - (b) written *options* may be used as cover for *futures* only where the *option* is in the *money* to the purchaser: if the *option* is out of the *money* to him, the

option and the *future* each have to be covered in the ordinary way, though the *premium* acquired for writing the *option* will count as cash for that purpose; and

- (c) *contracts for differences*, such as index contracts, are included in the cover arrangements so far as they resemble *futures* or *options*.
- (3) The general effect of CIS 5.6.12R(1) and (2) is explained in CIS 5.6.12R(3).
- (4) In applying CIS 5.6.12R, it may help to regard a *future* as an obligation (in that, unless closed out, the *future* will require something to be delivered, or accepted and paid for); a bought *option* as a right (in that the purchaser can, but need not, exercise the right to require the writer to deliver and accept and pay for something); and a written *option* as a potential obligation (in that it both creates exposure and gives the right of exercise to another).
- (5) CIS 5.6.17G sets out in diagrammatic form the various cover requirement in CIS 5.6.12R

Derivatives covering derivatives: requirements

5.6.12

R

/1

- (1) Where an *authorised fund manager* proposes to use a position resulting from a transaction in *derivatives* as cover (whether in whole or in part) for the exposure of another transaction in *derivatives*, CIS 5.6.9R (Cover for derivatives and forward transactions) has effect as modified by this *rule* (CIS 5.6.12R).
- (2) On the basis that the requirements of CIS 5.6.9R (Cover for transactions in derivatives and forward transactions) about the amount and right kind of assets as cover are satisfied, (3) contains the requirements for the purposes of (1).
- (3) (a) In this *rule* (CIS 5.6.12R) "countervailing" means that one of the two *derivatives* has an exposure which, in terms of risk, is equal and opposite to the exposure of the other, and "offset" means that there is an equal and opposite coverage in terms of risk.
 - (b) A *derivative* of one type provides cover for a countervailing *derivative* of the same type.
 - (c) A *derivative* of one type provides cover for a countervailing *derivative* of a different type if, but only if:
 - (i) the right under one offsets and is offset by the obligation under the other; or
 - (ii) paragraph (g) applies.
 - (d) In applying (b) and (c), differences between the *derivatives* in terms of price, maturity and exercise price may be ignored, except where (b) is disapplied by (e).

- (e) Paragraph (b) does not apply if an opportunity to exercise the right under the one *derivative* will become available to the *futures and options scheme* only after the first date on which the potential obligation under the other may become an actual obligation.
- (f) Where, under (b), an *authorised fund manager* decides that a written *option* and a bought *option* should provide mutual cover, the *authorised fund manager* must arrange for the *depository* to deposit and set aside with an *eligible institution* the whole amount of the difference between the exercise value of the two *options* (that is the amount which would be payable by or to the *futures and options scheme* on exercise of the *options*) inclusive of any *margin* requirements of the exchange. That amount must not be used for the purposes of providing cover, other than under this paragraph (f), under the *rules* of this chapter.
- (g) A written *option* provides cover for, and is covered by, a countervailing *future* only if the *option* is in the *money* to the purchaser of the *option*. If the written *option* is out of the *money* to the purchaser, then both it and the *future* must each be separately covered under CIS 5.6.9R (Cover for transactions in derivatives and forward transactions).
- (h) A *contract for differences* may be included in this *rule* (CIS 5.6.12R) if and to the extent that it has the characteristics of a *future* or an *option*.

Deposit arrangements (for purchased options)

5.6.13

R

/1

- (1) Where the purchase of an uncovered *option* is proposed in reliance on CIS 5.6.3R(4) (Futures and options schemes: general), the *authorised fund manager* must arrange for the *depository* to deposit and set aside with an *eligible institution* any amount by which 5% of the exercise value of the *option* (that is the amount which would be payable by the *futures and options scheme* on exercise of the *option*) exceeds the amount paid by way of *premium*. That excess (if any) must not be used for the purposes of providing cover under the *rules* in this chapter.
- (2) The amount to be deposited and set aside may be in cash or in *government and public securities* (which are to be valued for this purpose at the current mark to market valuation).

Borrowing

5.6.14

R
/1

- (1) Cash obtained by borrowing, and borrowings which the *authorised fund manager* reasonably regards an *eligible institution* to be committed to provide, are available for cover under CIS 5.6.9R (Cover for transactions in derivatives and forward transactions) as long as the normal limits on borrowing (as to which see CIS 5.15.3R (General power to borrow) and CIS 5.15.4R (Borrowing limits)) are observed.
- (2) Where, for the purposes of this section (CIS 5.6), the *ICVC* or the *trustee* for the account of the *AUT* on the instructions of the *manager*:
- (a) borrows an amount of currency from an *eligible institution*; and
 - (b) keeps an amount in another currency, at least equal to the borrowing for the time being in (a), on *deposit* with the lender (or his agent or nominee);

then this section (CIS 5.6) applies as if the borrowed currency, and not the deposited currency, were part of the *scheme property*, and the normal limits on borrowing under CIS 5.15.3R and CIS 5.15.4R do not apply to that borrowing.

Continuing nature of limits and requirements

5.6.15

R
/1

- (1) An *authorised fund manager* must, at each *valuation point* (and more frequently if necessary), re-calculate the amount of cover required in respect of *derivatives* and forward positions already in existence under this section (CIS 5.6.). *Derivatives* and rights under forward transactions under this section may be retained in the *scheme property* only so long as they remain covered both individually and globally under CIS 5.6.9R (Cover for transactions in derivatives and forward transactions) (or, where relevant, the *deposit* requirements in CIS 5.6.13R (Deposit arrangements (for purchased options)) are complied with).
- (2) If at any time:
- (a) any fact or matter relating to the *futures and options scheme* or its economic environment; or
 - (b) the aggregate of all outstanding *derivatives* or forward positions under this section;

is such that at least one of the relevant transactions (assuming it did not exist) could not properly have been effected, either in that size or at all, the *authorised fund manager* must immediately on

becoming aware of that fact or matter take the necessary steps to rectify the situation, whether by closing out or providing additional cover or otherwise.

5.7 Geared futures and options schemes

Application

- 5.7.1 **R** This section (CIS 5.7) applies to *authorised fund managers of geared futures and options schemes*.
/1

Introduction

- 5.7.2 **G** (1) This section (CIS 5.7) sets out specific *rules* for *geared futures and options schemes*. *Geared futures and options schemes* are *authorised funds* dedicated to investment in *derivatives* (whether with or without *transferable securities*) where the extent of that investment is limited by the amount of property available to be put up as *initial outlay* or used as cover.
/1
- (2) A *geared futures and options scheme* is permitted to take on exposure to the extent of putting 20% of its *scheme property* into *initial outlay* on *derivatives*. The property for this purpose is not to be increased by borrowing, since a *geared futures and options scheme* cannot borrow (see CIS 5.15.3R (General power to borrow)). There is no limit on the amount of cash that can be held by the *geared futures and options scheme*.

Geared futures and options scheme: general

- 5.7.3 **R** (1) The *scheme property* of a *geared futures and options scheme* must, except where otherwise provided in the *rules* in this chapter, consist only of any or all of :
/1
- (a) *transferable securities* available to a *securities scheme* in accordance with CIS 5.4 (Securities schemes), (but excluding *investments in units* in *collective investment schemes* under CIS 5.4.5R);
 - (b) transactions in *derivatives* or forward transactions which are covered on the basis available to a *futures and options scheme* (see CIS 5.6.9G – CIS 5.6.12R for requirements for cover);
 - (c) *derivatives* permitted under the *rules* in this section (CIS 5.7);

- (d) forward transactions in currencies or gold permitted under the *rules* in this section (CIS 5.7);
 - (e) cash or *near cash*;
 - (f) *units* in *collective investment schemes* under CIS 5.7.8R (Investment in collective investment schemes);
 - (g) gold.
- (2) In respect of *investment* within (1)(a), CIS 5.4R (Securities schemes) applies as if the *geared futures and options scheme* were a *securities scheme*, but subject to any special modifications in this section (CIS 5.7).
- (3) In respect of transactions in *derivatives* and forward transactions under (1)(b), CIS 5.6 (Futures and options schemes), except CIS 5.6.7R (Investment in collective investment schemes), applies as if the *geared futures and options scheme* were a *futures and options scheme*, but subject to any special modifications in this section (CIS 5.7).
- (4) In respect of *derivatives* within (1)(c):
- (a) any transaction in *derivatives* must be in an *approved derivative*, or in one which complies with CIS 5.6.6R (OTC transactions in derivatives); and
 - (b) any transaction in an *approved derivative* must be effected on or under the *rules* of an *eligible derivatives* market.
- (5) In respect of transactions within (1)(d), this section (CIS 5.7), except (4) and CIS 5.7.4R(7) (Limit on investment in initial outlay), applies as if any forward transaction were a transaction in *derivatives*; and the transaction must be with a counterparty which is approved for the purposes of CIS 5.6.6R(2).
- (6) Not more than 10% in value of the *scheme property* is to be held in the form of gold.
- (7) The following also apply to *geared futures and options schemes*:
- (a) CIS 5.2R (General investment powers and limits for authorised funds);
 - (b) CIS 5.13R (Efficient portfolio management);
 - (c) CIS 5.14R (Stock lending);
 - (d) CIS 5.15R (Cash, borrowing, lending and other provisions); and

(e) CIS 5.16R (Cover for sales).

- (8) Despite the *rules* referred to in (7), an ICVC that is a *geared futures and options scheme* or the *trustee* of an AUT that is a *geared futures and options scheme* does not have power to borrow, whether under this section (CIS 5.7) or CIS 5.13R (Efficient portfolio management) or otherwise.

Limits on investment in initial outlay

5.7.4

R

/1

- (1) At any time, not more than 20% in value of the *scheme property* of a *geared futures and options scheme* is, subject to (3), to be devoted to *initial outlay* in any transactions in *derivatives* which are outstanding.
- (2) For the purposes of *initial outlay*:
- (a) regard must be had to the rules of any relevant *eligible derivatives* market;
 - (b) any increase in *margin* or *initial margin*, if required by such a market, is regarded as *initial outlay* from then on;
 - (c) any decrease in *margin* or *initial margin*, if allowed by such a market, ceases to be *initial outlay* from then on;
 - (d) *variation margin* (that is, an additional sum required to be paid to retain the rights following a movement in prices or other movements) is not *initial outlay*;
 - (e) *premium* which may become payable in the future under the transaction in respect of an *option* is regarded as *initial outlay* from the outset;
 - (f) in the case of a purchased *option*, the amount mentioned in (6) is to be regarded as *initial outlay*;
 - (g) in the case of a written *option*, the amount mentioned in (7) is to be regarded as *initial outlay*;
 - (h) in the case of an *over the counter future*, the amount mentioned in (8) is to be regarded as *initial outlay*; and
 - (i) in the case of a forward transaction, the amount mentioned in (9) is to be regarded as *initial outlay*.
- (3) Not more than 10% in value of the *scheme property* is to be used for *initial outlay* on transactions in *derivatives* in the form of purchased *options* without counting this towards the 20% in (1). The figure of 10% must be reduced by any percentage of the value

of the *scheme property* invested in *transferable securities* in the form of *warrants*.

- (4) The *authorised fund manager* must arrange for the *depository* to *deposit* and set aside with an *eligible institution* the amounts for the time being required by (6), (7), (8) and (9), and these amounts must not be used for the purpose of providing cover under the *rules* in this chapter.
- (5) The amounts to be deposited and set aside may be in cash or in *government and public securities* (which are to be valued for this purpose at the current mark to market valuation).
- (6) Where an *option* is purchased for the account of the *ICVC* or of the *AUT*, the *authorised fund manager* must ascertain the amount, if any, by which 5% of the exercise value of the *option* (that is the amount which would be payable or receivable by the *geared futures and options scheme* on exercise of the *option*) exceeds the amount paid by way of *premium*.
- (7) Where an *option* is written for the account of the *ICVC* or of the *AUT*, the *authorised fund manager* must ascertain at the outset and at each valuation the amount which is the sum of:
 - (a) 5% of the exercise value of the *option* (that is the amount which would be payable or receivable by the purchaser of the *option*, on exercise of the *option*); and
 - (b) the amount, if any, by which the *option* is in the *money* to the purchaser of the *option*.
- (8) Where a transaction in an *over the counter future* is entered into for the account of the *ICVC* or of the *AUT*, the *authorised fund manager* must ascertain at the outset and at each valuation the amount which is the sum of:
 - (a) 5% of the value of the amount of property to be bought or sold under the contract; and
 - (b) the amount, if any, by which the *future* would cause a loss to the *geared futures and options scheme* if it were to be closed out.
- (9) Where a forward transaction is entered into for the account of the *ICVC* or of the *AUT*, the *authorised fund manager* must ascertain at the outset and at each valuation the amount which is 5% of the value of the forward contract (that is the amount of currency or of gold to be purchased or sold by the transaction at the current valuation in the currency or one of the currencies relevant for the purposes of the transaction) for each period of three months (or

part of them) between the date of the latest valuation and the date of maturity.

Stages in using limit on initial outlay

5.7.5 **G** CIS 5.7.6G sets out the various stages in using *initial outlay*

5.7.6 **G** Table Stages in using limit on initial outlay
This table belongs to (CIS 5.7.5)

Calculating maximum limit on *initial outlay*

Example 1 – Start point

Take the value of the *scheme property* (£10 million)
Divide by 20% to find limit (£10m)20% = £2million)

Note:

- (1) In general, potential exposure of the *geared futures and options scheme* will increase with any increase in *initial outlay*.
- (2) If the value of the *scheme property* changes on a subsequent valuation, the maximum permitted *initial outlay* will also change as shown in Example 2 and Example 3.

Example 2 – Successful *scheme*

The *scheme* is subsequently valued at £12 million. Corresponding value of *initial outlay* becomes:–

20% of £12million = £2.4 million.

Example 3 – Unsuccessful *scheme*

The *scheme* is subsequently valued at £8 million. Corresponding value of *initial outlay* becomes:–

20% of £8 million = £1.6 million

Spread

5.7.7 **R** (1) There are no limits, other than those resulting from the requirement in CIS 5.7.4R (Limit on investment in initial outlay), on the value of the *scheme property* of a *geared futures and options scheme* which may be devoted to *initial outlay* in respect of *derivatives* on or related to any one category of underlying *security, commodity* or other factor.

(2) Not more than 5% in value of the *scheme property* of a *geared futures and options scheme* is to be devoted to *initial outlay* in respect of *over the counter* transactions with any one counterparty.

- (3) Wherever the total value held on *deposit* of the *scheme property* of a *geared futures and options scheme* is more than £1 million:
 - (a) not more than 10% in value is to be kept as cash on *deposit* with any one *person*;
 - (b) for the purposes of (a):
 - (i) the *depository* and its *associates* are regarded as the same *person*;
 - (ii) the *manager* and its *associates* are regarded as one *person*; and
 - (iii) each *director* of an *ICVC* including the *ACD* and his or its *associates* are regarded as one *person*; and
 - (c) the figure of 10% in (5) may be increased to 20% if:
 - (i) the *person* is an *eligible institution* and is not one of the *persons* referred to in (b); and
 - (ii) the amount of the *deposit* does not exceed 10% of that *eligible institution's* issued capital and reserves as shown in its most recently published annual accounts.

Investment in collective investment schemes

5.7.8

R

/1

- (1) *Investments in units of a collective investment scheme* must not be made unless that *scheme*:
 - (a) is a *regulated collective investment scheme* which is either a *futures and options scheme* or a *geared futures and options scheme* or a *money market scheme* or a *scheme* of a category that is equivalent to the category of one of such *authorised funds*; or
 - (b) (after taking account of *CIS 5.2.10R* (Investment in associated collective investment schemes)):
 - (i) is within *CIS 5.4.5R* (Securities scheme: investment in collective investment schemes); or
 - (ii) would be within *CIS 5.4.5R* if *CIS 5.4.5R(3)* read: “is *dedicated* to investing funds raised from the public:
 - (a)□in approved and other *derivatives* (where most □□or all of the transactions in *derivatives* are □□fully covered by cash, *securities* and other □□*derivatives*), whether with or without □□□*transferable securities* or covered forward □□transactions in currency or gold; or

□(b)□in approved and other *derivatives* (where the □□extent of *investment* is limited by the amount □□of *scheme property* available to be put up as □□*initial outlay*), whether with or without □□□*transferable securities* and whether with or □□without *investment* within (a).”.

- (2) Not more than 5% in value of the *scheme property* of a *geared futures and options scheme* is to consist of *units in collective investment schemes*.

Delivery of property under a transaction in derivatives

5.7.9

R

/1

- (1) When entering into any transaction in *derivatives* as a result of which any *investment* or asset may become part of the *scheme property* of the *geared futures and options scheme*, the *authorised fund manager* must take reasonable care to determine:
- (a) (where the *investment* or asset is one of which the *scheme property* could in some measure consist) that the transaction will not result in any breach of any other *rule* in this chapter:
- (i) because it can be readily closed out; or
- (ii) because the *investment* or asset concerned will at the expected time be included within the *scheme property* in a manner which conforms with the *rules* in this chapter; or
- (b) (in any other case) that the transaction can readily be closed out.
- (2) Where, in the event, the determination in (1)(a) or (1)(b) proves unjustified, and the *authorised fund manager* decides with the consent of the *depository*, in accordance with CIS 7.5.3R (Duties of the ACD and depository: investment and borrowing powers) (in the case of an *ICVC*) or CIS 7.10.3R (Duties of the manager and trustee: investment and borrowing powers) (in the case of an *AUT*) that it is in the interests of the *holders* that the property should be temporarily acquired, then the property concerned may, despite any other *rule* in this chapter, form part of the *scheme property* until the position can be rectified.

5.8 Property schemes

Application

- 5.8.1 **R** This section (CIS 5.8) applies to *authorised fund managers of property schemes*, except CIS 5.8.11R(1) (Initial periods), which also applies to the *trustee* of an AUT that is a *property scheme*.

Introduction

- 5.8.2 **G** (1) This section (CIS 5.8) sets out specific *rules* for *property schemes*, which can invest in property, whether in the *United Kingdom* or abroad.
- (2) *Property schemes* are *authorised funds* which may invest in *approved immovables* and property, related assets with or without other *transferable securities*. Under this section (CIS 5.8) a *property scheme* may not invest in immovables until £5 million has been subscribed or agreed to be subscribed. Under CIS 12.3.4R (Failure to obtain minimum subscriptions) if this amount is not subscribed for during the period of the *initial offer* (or during the first 21 days after the date on which *persons* are first invited to become *holders* in the *property scheme*, where there is no *initial offer*) the *authorised fund manager* must use its best endeavours to enable the *property scheme* to be wound up. Provided the *property scheme* obtains £5 million or more, it may then be invested within a band of 20%-80% in *approved immovables* as described in CIS 5.8.4R (Permitted immovables) and CIS 5.8.5R (Approved immovables).
- (3) For *property schemes* below £15 million in size there is, for up to two years, some transitional relief from some of the limits: in the early period a *property scheme* of small size may not be able to achieve the spread between different properties and other investments, appropriate for ongoing *property schemes* (see CIS 5.8.11R(3) (Initial period)).
- (4) The remainder of the *scheme property* (also 20% - 80%) must be either invested in so-called *property related assets* (typically *shares* in a *property investment company* which must themselves be *approved securities* or else within one of the other special limits in this section) or in *government and public securities*, but subject to a maximum of 35% for such *securities*. In addition, 5% may be invested in property related *collective investment schemes*.
- (5) To help illuminate this section, CIS 5.8.13G (Construction of property schemes) gives two examples of how a *property scheme* may be constructed, and outlines how the spread *rules* will apply to those *property schemes*.

Property schemes A and B are each invested at opposite ends of the 20%-80% band.

Property schemes: general

5.8.3

R

/1

- (1) The *scheme property* of a *property scheme* must, except where otherwise provided in the *rules* in this chapter, only consist of any or all of :
 - (a) *approved immovables*;
 - (b) *property related assets*;
 - (c) *government and public securities*; and
 - (d) *units in collective investment schemes*, under (5).
- (2) Not more than 80% in value of the *scheme property* is to consist of *approved immovables*, but this limit is subject to (6).
- (3) Not more than 80% in value is to consist of *transferable securities*, but the *transferable securities* must be property-related assets which are *approved securities* or else separately permitted under (4), (5) or (6).
- (4) Not more than 35% in value is to consist of *government and public securities*.
- (5) Not more than 5% in value is to consist of *units in collective investment schemes* under CIS 5.8.7R (Investment in collective investment schemes).
- (6) Not more than 10% in value is to consist of shares which are property-related assets but are not *approved securities*. Any shares included under this paragraph must be included in the 80% limit in (2), which may therefore on occasion produce a limit of 70% for *approved immovables*.
- (7) Not more than 5% in value is to consist of *transferable securities* within (3) which are *warrants*. These *warrants* must be property related assets which are *approved securities*.
- (8) The following also apply to *property schemes*:
 - (a) CIS 5.2 (General investment powers and limits for authorised funds);
 - (b) CIS 5.4.6R (Investment in warrants and nil and partly paid securities);
 - (c) CIS 5.13 (Efficient portfolio management);

- (d) CIS 5.14 (Stock lending);
- (e) CIS 5.15 (Cash, borrowing, lending and other provisions); and
- (f) CIS 5.16 (Cover for sales).

Permitted immovables

5.8.4

R

An interest in land or a building is a *permitted immovable* if:

/1

- (1) the land or building is situated in a country or territory identified in the *prospectus* for the purpose of this *rule* (CIS 5.8.4R);
- (2) the land or building is situated in England and Wales or in Northern Ireland, and the interest is a freehold or leasehold interest; or if the land or building is situated in Scotland and the interest is any interest or estate in or over land or heritable right including a long lease; or if the land or building is situated elsewhere and the interest is equivalent to any of the interests mentioned in this paragraph; and
- (3) where the interest is leasehold (or its equivalent) and it has an unexpired term of 20 years or more;

and furniture, fittings or other contents of any building may for this purpose be regarded as part of it.

Approved immovables

5.8.5

R

(1) In this sourcebook, an *approved immovable* is a *permitted immovable* which satisfies all of the conditions in (3) to (6) and either (2)(a) or (2)(b).

/1

- (2) (a) Unless (b) is satisfied, the immovable must be transferable; an immovable is not regarded as transferable unless the *manager* or the *ICVC* has received a report from an *appropriate valuer* that:
 - (i) contains a valuation of the immovable (with and without any relevant subsisting mortgage); and
 - (ii) states that, in the *appropriate valuer's* opinion, the immovable would, if acquired for the *property scheme*, be capable of being disposed of reasonably expeditiously at that valuation.
- (b) Unless (a) is satisfied, the *approved immovable* must have marriage value; an immovable is not regarded as having marriage value unless the *manager* or the *ICVC* has received a

report from an *appropriate valuer* valuing the immovable and stating that:

- (i) the immovable is adjacent to or contiguous with another immovable included in the *scheme property*; and
 - (ii) in the opinion of the *appropriate valuer*, the total value of the immovable, if acquired for the *property scheme*, and of the other immovable, would at least equal the sum of the price payable for the immovable and the existing value of the other immovable.
- (3) The immovable must be accessible; an immovable is not regarded as accessible unless the *authorised fund manager* has taken reasonable care to determine that reasonable access to it is assured.
- (4) The immovable must have a good root of title; an immovable is not regarded as having a good root of title unless the *authorised fund manager* has taken reasonable care to determine that the title to the immovable is a good marketable title.
- (5) The immovable must be unencumbered or adequately unencumbered; an immovable is not regarded:
- (a) as unencumbered, unless there is no subsisting mortgage over or on it; and
 - (b) as adequately unencumbered, unless the only mortgages over or on it are one or more *approved mortgages* within CIS 5.8.9R (Mortgaged property), which secures, or together secure, on the immovable repayment of a sum or sums not exceeding 50% of the value at (2)(a) (that is, that part of the value which is valued on the assumption that the immovable is not mortgaged).
- (6) The immovable must be or have been or is to be bought promptly and at a reasonable price; an immovable is not regarded as bought promptly and at a reasonable price unless:
- (a) it is bought or agreed by enforceable contract to be bought within six months after receipt of the report of the *appropriate valuer* referred to in (2)(a) or (2)(b);
 - (b) at the time of the purchase or agreement it would not have been apparent to the *authorised fund manager* that the report could no longer reasonably be relied upon; and
 - (c) the immovable is bought at no more than 105% of the valuation in the report.
- (7) A person is an *appropriate valuer* if:

- (a) he has knowledge of and experience in the valuation of immovables of the relevant kind in the relevant area;
- (b) he is or is qualified to be the *standing independent valuer* of a *property scheme* or is reasonably considered by the *property scheme's standing independent valuer* to hold equivalent qualifications;
- (c) he is independent of the *ICVC*, the *depository* and each of the *directors* of the *ICVC* or of the *manager* and the *trustee* of the *AUT* in the sense required for a *standing independent valuer* under *CIS 12.3.1R(2)* (Standing independent valuer); and
- (d) neither he nor any of his partners (if any) nor a fellow *director* of a corporate *appropriate valuer* (if any) have been engaged, whether as *principal* or as agent, in relation to the finding of the immovable for the *property scheme* or the finding of the *property scheme* for the immovable.

Property-related assets

5.8.6

R

/1

- (1) Property-related assets qualify for investment purposes (under *CIS 5.8.3 R (6)*) only if:
 - (a) they are *transferable securities*; and
 - (b) they are shares in a *body corporate* at least 75% of whose total assets (before deduction of liabilities and as shown in the most recently published accounts) consist of *permitted immovables*.
- (2) Not more than 5% in the value of the *scheme property* of a *property scheme* is to consist of *investments* of the type referred to in (1) issued by any one issuer. The figure of 5% may be increased to 10% if:
 - (a) the *property scheme* owns at least 90% of the rights to vote which are exercisable in all circumstances at general meetings of the *body corporate*;
 - (b) the *shares* are or were bought within six months after receipt by the *authorised fund manager* of:
 - (i) a report by an *appropriate valuer* relating to *permitted immovables* owned by the *body corporate*, indicating that they are transferable (as in *CIS 5.8.5R (2)(a)*) or have marriage value (as in *CIS 5.8.5R (2)(b)*); and
 - (ii) a report, on the value of any assets other than *permitted immovables*, from a *person* then qualified to be an auditor

of a company under the relevant legislation in any part of the *United Kingdom*;

- (c) at the time of the purchase it would not have been reasonably apparent to the *authorised fund manager* that the report at (b)(i) or (ii) could no longer reasonably be relied on; and
- (d) the *shares* were bought at no more than 105% of the total of the values in the reports at (b)(i) and (ii).

Investment in a collective investment scheme

5.8.7

R

/1

Investments in units of a collective investment scheme must not be made unless that *scheme*:

- (1) is a *regulated collective investment scheme* which:
 - (a) complies with section 243(10) of the *Act* (Authorisation orders: entitlement to have *units* redeemed) or is treated as complying with it by section 243(11) of the *Act*; and
 - (b) is *dedicated to approved immovables*, with or without *transferable securities* which are *property related assets* or *government and public securities*; or
- (2) is a *regulated collective investment scheme* which is a *money market scheme* or a *scheme* of a category that is equivalent to a *money market scheme*.

Property related limits

5.8.8

R

/1

- (1) Not more than 10% in value of the *scheme property* of a *property scheme* is to consist of *approved immovables* which are leasehold interests (or the equivalent: see *CIS 5.8.4R (2)*) having an unexpired term of less than 60 years.
- (2) Not more than 25% in value is to consist of *approved immovables* which are unoccupied and non-income producing or in course of substantial development, redevelopment or refurbishment.

Mortgaged property

5.8.9

R

/1

- (1) Not more than 15% in value of that part of the *scheme property* of a *property scheme* which for the time being consists of immovables is to consist of mortgaged immovables.

- (2) An immovable subject to one or more mortgages may be retained by the *property scheme* only so long as the mortgage or each of the mortgages is an *approved mortgage*, the total sums outstanding under which do not exceed 50% of the value of the immovable (assuming for this purpose that the immovable is not mortgaged).

Spread

5.8.10

R

/1

- (1) Not more than 15% in value of the *scheme property* of a *property scheme* is to consist of any one immovable.
- (2) In (1), immovables which would be regarded as having marriage value under *CIS 5.8.5R(2)(b)* must be regarded as one immovable.
- (3) The figure of 15% in (1) may be increased to 25% once the immovable has been included in the *scheme property* of a *property scheme* in compliance with (1).
- (4) Not more than 5% in value is to consist of *property related assets* issued (or conferring rights to *investments* issued) by any one issuer.
- (5) The figure of 5% in (4) may be increased to 10% in respect of up to 40% of the value of the *scheme property* of a *property scheme*.
- (6) Not more than 20% of the income receivable in any accounting period is to derive from members of any one *group*; but there is no restriction on the income receivable from any issuer of *government and public securities*.

Initial periods

5.8.11

R

/1

- (1) During the period of the *initial offer*, no immovable may be:
 - (a) bought or leased; or
 - (b) agreed, by enforceable contract, to be bought or leased;

unless it appears to the *ACD* or to the *manager* and *trustee* that more than £5 million (or the equivalent amount in the *base currency* of the *property scheme*) has been paid or agreed to be paid for *units* to be issued or sold.
- (2) During the first two years starting with the date on which the *property scheme* is authorised or on which the *units* are first issued (if later) and subject to (3) and (4):

- (a) CIS 5.8.8R(1) (Property related limits) and CIS 5.8.10R (Spread) do not apply; and
 - (b) the obligation, derived from CIS 5.8.3R (Property schemes: general), that at least 20% in value of the *scheme property* must consist of *approved immovables* does not apply.
- (3) Paragraph (2) ceases to apply if, at any time during the two year period, six months have elapsed from the first date on which the *scheme property* exceeds £15 million in value (or the equivalent amount in the *base currency* of the *property scheme*).
- (4) Paragraph (2) postpones the application of CIS 5.8.10R(4) (Spread – (of property related assets)) for a maximum of only six months from the date on which the *property scheme* is authorised or on which the *units* are first issued (if later), and not of two years.

Grant of options and mortgages

5.8.12

R
/1

- (1) No option may be granted to buy any immovable comprised in the *scheme property*, whether under CIS 5.13 (Efficient portfolio management) or otherwise.
- (2) No *mortgage* other than an *approved mortgage* may be created on or over any such immovable.

5.8.13

G
/1

Table Construction of property schemes
This table belongs to (CIS 5.8.2)

	Property Scheme A (fully invested in immovables)	Limits for Property scheme A	Type of Asset	Limits for Property Scheme B	Property scheme B (fully invested in transferable securities)	
80%	Immovables	up to 10% up to 25% up to 12% up to 15% up to 20%	Leases 20–60 years Vacant, repairs, ... Mortgaged immovables any one immovable rent from any one group	up to 10% up to 20% up to 3% up to 15% up to 20%	Immovables	20%
20%	Transferable securities	up to 20% 0% up to 20% up to 5% up to 5%	transferable securities which are property related assets (if approved) (if non approved) Government and public securities collective investment schemes Any one issue of securities	up to 80% up to 10% up to 35% up to 5% up to 5%	Transferable securities	80%

Note 1: This table does not include all the detail in this section (*CIS 5.8*)

Note 2: *Property scheme A* is invested in immovables to the maximum extent permitted, while *Property scheme B* is invested in immovables to the minimum extent permitted. Both *property schemes* are assumed to be fully invested in immovables and *transferable securities*, although in practice both would be likely to hold some cash as permitted by section *CIS 5.15* (Cash borrowing, lending and other provisions) and the cash held could therefore drive down to some lower figure the 20% minimum. The same effect would be produced if the *property scheme* were taking advantage of section *CIS 5.13* (Efficient portfolio management).

5.9 Warrant schemes

Application

- 5.9.1 **R** This section (CIS 5.9) applies to *authorised fund managers of warrant schemes*.

/1

Introduction

- 5.9.2 **G** (1) This section (CIS 5.9) sets out specific *rules for warrant schemes*. *Warrant schemes* are *authorised funds* which are akin in all respects to *securities schemes* (as to which see CIS 5.4 (Securities schemes)), except that they have an unlimited power to invest in *warrants*.

/1

- (2) In this sourcebook, “*warrant*” has a wider meaning than normally attributed to it in warrant markets. In this sourcebook, *warrants* are not only instruments giving entitlement to *investments* (as defined in article 79 of the *Regulated Activities Order*) but also include any other *transferable security* (not being a nil or partly paid *security*) which is listed on an *eligible securities market*, and which is akin to a *warrant* in that it involves a down payment and a right to surrender the instrument and pay more in due course in order to obtain a *transferable security*.

Warrant schemes

- 5.9.3 **R** (1) The *scheme property* of a *warrant scheme* must, except where otherwise provided in the *rules* in this chapter, only consist of *property* which could be the *scheme property* of a *securities scheme*, except that up to 100% in value of the *scheme property* may consist of *warrants*.
- (2) Accordingly, CIS 5.4 (Securities schemes) (except CIS 5.4.6R (Investment in warrants and nil and partly paid securities)) applies to a *warrant scheme* as it applies to a *securities scheme*.

/1

- (1) The following also apply to *warrant schemes*:
- (d) CIS 5.2 (General investment powers and limits for authorised funds);

- (b) *CIS 5.13* (Efficient portfolio management);
- (c) *CIS 5.14* (Stock lending);
- (d) *CIS 5.15* (Cash, borrowing, lending and other provisions); and
- (e) *CIS 5.16* (Cover for sales).

5.10 Feeder funds

Application

- 5.10.1 **R** This section (CIS 5.10) applies to *managers of feeder funds*, except CIS 5.10.4R(2) which applies to *trustees of feeder funds*.

Introduction

- 5.10.2 **G** (1) This section (CIS 5.10) sets out specific *rules for feeder funds*. *Feeder funds* are AUTs which are *relevant pension schemes*. Under this section (CIS 5.10), a *feeder fund* must be invested in either a single *regulated collective investment scheme* or a single *eligible investment trust*.
- (2) The *feeder fund* investing in *eligible investment trust shares* is structured under the *rules* in this section (CIS 5.10). The *rules* in this section set out the conditions that must be satisfied before a *feeder fund* can invest in an *eligible investment trust*.

Feeder funds: general

- 5.10.3 **R** (1) The *scheme property* of a *feeder fund* must, except where otherwise provided in the *rules* in this chapter, only consist of:
- (a) *units* in a single *regulated collective investment scheme*; or
 - (b) *shares* in or *debentures* of a single *eligible investment trust* (as to which see CIS 5.10.4R (Feeder funds investing in a single eligible investment trust)).
- (2) An AUT may be a *feeder fund* only if it is a *relevant pension scheme*.
- (3) A *feeder fund* under (1)(a) must not invest in:
- (a) a *geared futures and options scheme*;
 - (b) a *property scheme*;
 - (c) a *warrant scheme*;

- (d) a *feeder fund*;
 - (e) a *fund of funds scheme*, unless the *fund of funds scheme* is prevented by the *instrument constituting the scheme* from investing in any *authorised fund* within (a), (b) or (c);
 - (f) any *sub-fund* of a *regulated collective investment scheme* which is invested as if it were an *authorised fund* within (a) to (e); and
 - (g) a *recognised scheme* which would, if authorised, fall within any of (a) to (f).
- (4) A *sub-fund* of an *AUT* that is an *umbrella scheme*, which (if it were itself the subject of a separate *authorisation order*) would be a *feeder fund*, is to be treated as a *feeder fund* for the purposes of this *rule* (CIS 5.10.3R) and *rule* CIS 5.10.4R (Feeder funds investing in a single eligible investment trust); but an *AUT* that is an *umbrella scheme* must not contain such a *sub-fund* unless that *AUT* is a *relevant pension scheme*.
- (5) The following also apply to *feeder funds*:
- (a) CIS 5.2 (General investment powers and limits for authorised funds);
 - (b) CIS 5.15 (Cash, borrowing, lending and other provisions); and
 - (c) CIS 5.16 (Cover for sales).

Feeder funds investing in a single eligible investment trust

5.10.4

R

An *investment trust* is an *eligible investment trust* for the purposes of CIS 5.10.3R(1)(b) only if:

- (1) at the date of the *authorisation* of the *feeder fund*, the property of the *investment trust* included net assets worth at least £25 million (or, if the *base currency* of the *feeder fund* is not sterling, the equivalent in that *base currency*); and
- (2) at any time in the last six months, the *trustee* of the *feeder fund* having taken reasonable care has determined that:
 - (a) at least 70% of the income of the *investment trust* received during either or both of:
 - (i) the last completed accounting period; and
 - (ii) the first half of the current accounting period;
 consisted of income from *approved securities*;

- (b) (apart from transactions for hedging purposes) the property of the *investment trust* either:
 - (i) cannot be invested in *derivatives*; or
 - (ii) can be invested in *derivatives* only on the footing of cover to at least the extent required of a *futures and options scheme* under CIS 5.6.9R (Cover for transactions in derivatives and forward transactions);
- (c) not more than 5% of the property of the *investment trust* consists of *warrants*;
- (d) not more than 5% of the property of the *investment trust* consists of *transferable securities* issued by any one issuer, except that the figure of 5% may be increased to 15% in respect of up to 30% in value of the *investment trust*;
- (e) the *feeder fund* owns not more than 20% of the shares (or of any *class* of shares) in or of the *debentures* (or of any *class* of *debentures*) of the *investment trust*;
- (f) the borrowing of the *investment trust* does not exceed 50% of the *market value* of the shares of the *investment trust* at the mid-value share price for the time being;
- (g) the shares in (or *debentures* of) the *investment trust* are regularly offered for *purchase* and *sale* by at least three *market makers* who are recognised or registered as *members* of an *eligible securities* market; and
- (h) the *investment trust* has no limit on its duration.

5.11 Fund of funds schemes

Application

5.11.1 **R** This section (CIS 5.11) applies to *authorised fund managers of fund of funds schemes*.
/1

Introduction

5.11.2 **G** (1) This section (CIS 5.11) sets out specific *rules* for *fund of funds schemes*. *Fund of funds schemes* are *authorised funds* designed to invest in a combination of at least five *regulated collective investment schemes*. A *fund of funds scheme* may combine investment in *money market schemes* or *recognised schemes* equivalent to a *money market scheme*, with investment in any one other permitted category of *scheme*. Alternatively, a *fund of funds scheme* may invest only in *money market schemes* or in *recognised schemes* equivalent to a *money market scheme* or only in *regulated collective investment schemes* from any one other permitted category of *scheme*.
/1

(2) The requirements in this section preserve product distinctiveness in the case of *fund of funds schemes*.

(3) For the purpose of this section, each *sub-fund* of an *umbrella scheme* and of an equivalent *recognised scheme* is to be treated as if it were a separate *authorised fund* or separate *scheme*.

Fund of funds schemes: general

5.11.3 **R** (1) The *scheme property* of a *fund of funds scheme* must, except where otherwise provided in the *rules* in this chapter, only consist of *units* in *regulated collective investment schemes*.
/1

(2) A *fund of funds scheme* may not invest in:

- (a) a *fund of funds scheme*;
- (b) a *feeder fund*;
- (c) any *recognised scheme* which is *dedicated* to investment in a number of *regulated collective investment schemes*;

- (d) any *recognised scheme* which is *dedicated* to investment in a single *regulated collective investment scheme* or in a single *eligible investment trust*; and
 - (e) any *sub-fund* of an *umbrella scheme* or *sub-fund* of any other *recognised scheme* which is equivalent to a *scheme* within (a) to (d).
- (3) Not more than 20% in value of the *scheme property* is to consist of *units* in any one *regulated collective investment scheme*.
- (4) The following also apply to *fund of funds schemes*:
- (a) CIS 5.2 (General investment powers and limits for authorised funds);
 - (b) CIS 5.13 (Efficient portfolio management);
 - (c) CIS 5.15 (Cash, borrowing, lending and other provisions); and
 - (d) CIS 5.16 (Cover for sales).

Eligible combinations of scheme

5.11.4

R
/1

- (1) A *fund of funds scheme* may invest in *units* in any five or more *authorised funds* within any one of CIS 5.4 (Securities schemes), CIS 5.5 (Money market schemes), CIS 5.6 (Futures and options schemes), CIS 5.7 (Geared futures and options schemes), CIS 5.8 (Property schemes) and CIS 5.9 (Warrant schemes).
- (2) A *fund of funds scheme* may invest in *units* in one or more *money market schemes* (within CIS 5.5 (Money market schemes)) and in *units* in any one or more *authorised funds* within any one of the other sections mentioned in (1).
- (3) Each *sub-fund* of an *umbrella scheme* and each *sub-fund* of any *recognised scheme* that is equivalent to an *umbrella scheme* is to be treated for the purposes of (CIS 5.11.4R) and CIS 5.11.3R(3) as if it were a separate *scheme*.
- (4) A *recognised scheme* may be treated for the purpose of this *rule* (CIS 5.11.4R) as if it were a *scheme* falling within the section which would be the relevant section if the *recognised scheme* were an *authorised fund*.

5.12 Umbrella schemes

Application

5.12.1 **R** This section (CIS 5.12) applies to *authorised fund managers* of *umbrella schemes*.
/1

Introduction

5.12.2 **G** This section (CIS 5.12) sets out specific *rules* for *umbrella schemes*. *Umbrella schemes* are single *authorised funds* which have at least two *sub-funds* and provide the opportunity for *holders* to switch all or part of their investment from one *sub-fund* to another. CIS 12 (Special provisions for certain categories of scheme) and other provisions of the *rules* in this sourcebook enable the *umbrella scheme* to be treated as a single *authorised fund* or as a collection of separate *sub-funds* as appropriate. CIS 12 sets out specific other provisions that apply to *umbrella schemes*.
/1

Umbrella schemes: general

5.12.3 **R** A *sub-fund* of an *umbrella scheme* must, subject to CIS 5.12.4R, only be invested as if it were a single *authorised fund* within one of CIS 5.4 (Securities schemes) to CIS 5.11 (Fund of fund schemes).
/1

Restriction on investment

5.12.4 **R** No *sub-fund* of an *umbrella scheme* may invest in *units* in another *sub-fund* of the same *umbrella scheme*.
/1

5.13 Efficient portfolio management

Application

5.13.1

R

/1

This section (*CIS 5.13*) applies to *authorised fund managers*, other than *managers of feeder funds*, except:

- (1) *CIS 5.13.3R* which applies to *ICVCs* and to *managers of AUTs* other than *feeder funds*;
- (2) *CIS 5.13.3R(2)(c)* which does not apply to *ICVCs* that are *fund of funds schemes* or to *managers of AUTs* that are *fund of funds schemes* or *feeder funds*;
- (3) *CIS 5.13.4R(2)(b)*, which does not apply to *authorised fund managers of fund of funds schemes* and *managers of feeder funds*; and
- (4) *CIS 5.13.12R*, which applies to *ICVCs* and to *trustees of AUTs*, other than *feeder funds*.

Explanation: requirements of efficient portfolio management

5.13.2

G

/1

- (1) This section (*CIS 5.13*) gives an *ICVC* or a *manager* of an *AUT* the ability to reduce the risks or costs associated with making investments. For that purpose, this section provides machinery to enable the property of an *authorised fund* to be used for efficient portfolio management.
- (2) There are three broadly based requirements:
 - (a) the transactions must be economically appropriate;
 - (b) the exposure must be fully covered; and
 - (c) the transactions must be entered into for one or more of three specific aims.
- (3) On (2)(a), this section (*CIS 5.13*) requires that the transaction must be economically appropriate for the purposes of efficient portfolio management.

- (4) On (2)(b), this section (CIS 5.13) requires that the exposure must be fully covered by cash or other *scheme property* sufficient to meet any obligation to pay or deliver that could arise.
- (5) On (2)(c), this section (CIS 5.13) sets out (in CIS 5.13.3R(2)) what these three aims are:
 - (a) the reduction of risk;
 - (b) the reduction of cost; and
 - (c) the generation of additional capital or income for the *authorised fund* with an acceptably low level of risk.
- (6) The first two aims, together or separately, allow for tactical asset allocation. Tactical asset allocation is a switch in exposure through the use of *derivatives* rather than through the sale and purchase of underlying property. The limits on this are set out in CIS 5.13.4R(1) and (2)(a).
- (7) There is also a specific requirement for *UCITS schemes* which is derived from the *UCITS directive*. *Authorised funds* subject to that directive must be invested in *transferable securities*, and it therefore follows that an alternative exposure obtained through *derivatives* in the *portfolio* should not remain there indefinitely; the *authorised fund* must revert to *transferable securities* of some kind, within a reasonable time. Therefore, the *rules* in this section provide that any tactical asset allocation of a *UCITS scheme* must be temporary.
- (8) The first aim of reduction of risk allows for the use of *derivatives* with a view to switching the currency exposure of all or part of the *scheme property* away from a currency which is considered to be at risk.
- (9) The third aim, of taking a low-risk gain, is further defined in CIS 5.13.5R. The gains are to be derived from arbitrage and from writing covered *options*. Gains from *stock lending* are covered in CIS 5.14.

Appropriate transactions

5.13.3

R

/1

- (1) This section enables the *ICVC*, or *manager* for the account of the *AUT*, to enter into transactions of the kind specified in CIS 5.13.6R (Permitted transactions) for the purpose of efficient portfolio management, but only when each of the following two conditions is satisfied:
 - (a) the transaction is economically appropriate to that purpose, as required by CIS 5.13.4R (Economic appropriateness); and
 - (b) the transaction is fully covered, as required by CIS 5.13.8R (Cover for transactions in derivatives and forward transactions)).
- (2) A transaction under (1) must only be entered into if it is to achieve one or more of the following in respect of the *authorised fund*:
 - (a) the reduction of risk;

- (b) the reduction of cost; and
 - (c) the generation of additional capital or income for the *authorised fund* with an acceptably low level of risk.
- (3) The purpose in (2) must relate to:
- (a) the *scheme property* of the *authorised fund*;
 - (b) property (whether precisely identified or not) which is to be or is proposed to be acquired for the *authorised fund*; and
 - (c) anticipated cash receipts of the *authorised fund*, if due to be received at some time and likely to be received within one month.

Economic appropriateness

5.13.4

R

/1

- (1) Any transaction under this section must be one which (alone or in combination with one or more others) is ascertained with reasonable care by the *authorised fund manager* to be economically appropriate to the efficient portfolio management of the *authorised fund*.
- (2) In consequence, the *authorised fund manager* must take reasonable care to determine that:
 - (a) for transactions undertaken to reduce risk or cost (or both), the transaction (alone or in combination) will diminish a risk or cost of a kind or level which it is sensible to reduce; and
 - (b) for transactions undertaken to generate additional capital or income, the *authorised fund* is certain (or certain barring events which are not reasonably foreseeable) to derive a benefit from the transaction.
- (3) A transaction may not be entered into under this section (CIS 5.13) if its purpose could reasonably be regarded as speculative.
- (4) Where the transaction is for the account of a *UCITS scheme* and relates to the actual or potential acquisition of *transferable securities*, then the *authorised fund manager* must intend that the *authorised fund* should invest in *transferable securities* within a reasonable time; and it must thereafter ensure that, unless the position has itself been closed out, that intention is realised within that reasonable time.

Generation of additional capital or income

5.13.5

R

/1

- (1) There is an acceptably low level of risk for the purposes of *CIS* 5.13.3R(2)(c), in any case where the *authorised fund manager* has taken reasonable care to determine that the *authorised fund* is certain (or certain barring events which are not reasonably foreseeable) to derive a benefit:
 - (a) on a basis set out in (2) or (3); or
 - (b) from *stock lending* under section *CIS* 5.14.
- (2) The first basis is to take advantage of pricing imperfections in relation to the acquisition and disposal (or disposal and acquisition) of rights in relation to property the same as, or equivalent to, property which the *authorised fund* holds or may properly hold.
- (3) The second basis is to receive a *premium* for the writing of a covered call *option* or a covered put *option*, even if that benefit is obtained at the expense of surrendering the chance of yet greater benefit.

Permitted transactions

5.13.6

R

/1

- (1) A transaction under this section must be:
 - (a) a transaction in *derivatives*; or
 - (b) a forward transaction in a currency (or where the *scheme* property may include gold, in gold).
- (2) A transaction in *derivatives* under (1)(a) must be:
 - (a) in an *approved derivative* ; or
 - (b) one which complies with *CIS* 5.6.6R (OTC transactions in derivatives); or
 - (c) a *synthetic future*.
- (3) Any transaction in an *approved derivative* must be effected on or under the rules of an *eligible derivatives* market.
- (4) Any forward transaction must be with an *approved counterparty* within the meaning of *CIS* 5.6.6R(2) (OTC transactions in derivatives).
- (5) Not more than 5% of the value of the *scheme property* is to be directed to *initial outlay* in respect of *over the counter* transactions with any one counterparty.

- (6) A transaction in *derivatives* or forward transaction which would or could lead to delivery of property to the *depository* (or to the *ICVC*) may be entered into only if:
- (a) the property can be held by the *authorised fund*; and
 - (b) the *authorised fund manager* has taken reasonable care to determine that delivery of the property by the transaction will not lead to a breach of the *rules* in this chapter.

Cover for transactions in derivatives and forward transactions

5.13.7

G
/1

- (1) Like *futures and options schemes*, transactions in *derivatives* and forward transactions entered into for the purpose of efficient portfolio management should be fully covered.
- (2) Cover is fully explained in *CIS 5.13.8R*. There is a general requirement for individual cover of the right kind (stock for stock, or cash sum for cash sum) and *CIS 5.13.9R* provides examples of how the cover is to be found. There is also a global cover requirement, to prevent or limit gearing.
- (3) In accordance with *CIS 5.2.7R(2)(b)* (Chapter to be construed as a whole) cover used in respect of one transaction in *derivatives* or forward transaction may not be used for cover in respect of another transaction in *derivatives* or forwards.
- (4) There must be sufficient available cover for all transactions concerned.

Cover for transactions in derivatives and forward transactions

5.13.8

R
/1

- (1) No transaction may be entered into under this section (*CIS 5.13*) unless the maximum potential exposure created by the transaction, in terms of the *principal* or *notional principal* of the *derivative* or forward contract, is:
 - (a) covered individually under (2) or (3); and
 - (b) covered globally under (4).□
- (2) Exposure is covered individually if there is, in the *scheme property*:
 - (a) (in the case of an exposure in terms of property) a *transferable security* or other property which is of the right kind, and sufficient in amount, to match the exposure; and
 - (b) (in the case of an exposure in terms of *money*), cash or *near cash* (or borrowing under *CIS 5.13.12R* (Borrowing in the context of efficient portfolio management)) or *transferable securities* which is or are, or, on being turned into *money* in

the right currency, will be, sufficient in amount to match the exposure.

- (3) However, exposure to an index or basket of *securities* or other assets is covered individually for the purposes of (2) if the *authorised fund* holds *securities* or other property which (taking into account the closeness of the relationship between fluctuations in the price of the two) can reasonably be regarded as appropriate to provide cover for the exposure; they may be so regarded even if there is not complete congruence between the cover and the exposure.
- (4) Exposure is covered globally for the purposes of this section if, after taking account of all the cover required under (2) or (3) for other positions already in existence, adequate cover from within the *scheme property* is available to enable the fresh transaction to be entered into.
- (5) A transaction in *derivatives* or forward transaction is not available to provide cover for another *derivative* or forward transaction under this section, but:
 - (a) the two transactions involved in a *synthetic future* are to be treated as if they were a single *derivative*, and the net exposure from the combination is to be covered on the basis of the higher of the cover requirements of the *options* which make up the *synthetic future*;
 - (b) *synthetic cash* is available to provide cover for a transaction as if it were cash; and
 - (c) a covered currency forward or a covered currency *derivative* may provide cover for a *derivative*.
- (6) Cash not yet received into the *scheme property* but due to be received within one month is available as cover for the purposes of (2)(b) and (3).
- (7) Property anticipated under a *derivative* transaction does not count as property under (2)(a).
- (8) Property is not available for cover if it is the subject of a transaction under CIS 5.14R (Stock lending), unless the *authorised fund manager* has taken reasonable care to determine that it is obtainable (by return or re-acquisition) in time to meet the obligation for which cover is required.

Examples of cover requirements

G

Examples of the cover requirements:

/1

- (1) A bought put *option* (or a written call *option*) on 1000 ordinary £1 shares (fully paid) of ABC plc is covered by an existing holding in the *authorised fund* of 1000 ordinary £1 shares (fully paid) of ABC plc (CIS 5.13.8R(2)(a)).
- (2) A bought call *option* (or written put *option*) on 1000 ordinary £1 shares (fully paid) of ABC plc is covered by cover (in the form of cash or an allowable substitute for cash or *transferable securities*) which is sufficient in amount to meet the *purchase price* of the *shares* on exercise of the *option* (CIS 5.13.8R(2)(b)).
- (3) A sold *contract for differences* on short-dated sterling is covered by cash or *near cash* or *transferable securities*, the values of which together at least match the *notional principal* of the contract (for example, a LIFFE short sterling contract, or a succession of such contracts, is covered by £500,000) (CIS 5.13.8R(2)(b) and CIS 5.2.7R(2)(b)).
- (4) A sold *future* on the FT-SE 100 Index is covered by holdings of equities, which satisfy the test of appropriateness for cover in CIS 5.13.8R(3) in relation to that *future*, and the values of which together at least match the current mark to market valuation of the *future* (for example, if the multiplier per full index point is £10, and if the eventual obligation under the *future* is currently at 2800, the valuation of the *futures* position is $2800 \times £10 = £28,000$) (CIS 5.13.8R(3)).
- (5) Where an *authorised fund* has holdings in blue chip UK shares and the *authorised fund manager* wishes to provide more exposure to the US market and decides to *sell* a FT-SE index *future* to the value of those *shares* (this transaction satisfying the test of appropriateness for cover in CIS 5.13.8R(3)), then the sterling *synthetic cash* position created is used as cover for a Standard and Poors 500 index *future* provided that the *authorised fund* ensures that the cover remains sufficient (for example, by reference to the sterling/US dollar exchange rate) (CIS 5.13.8R(3) and CIS 5.13.8R(5)(b)).

The use of index derivatives: congruence

5.13.10

G
/1

- (1) CIS 5.13.6R (Permitted transactions) permits the use of index *derivatives* for efficient portfolio management (“EPM”). CIS 5.13.8R sets out the cover requirements for *derivatives* (including for index *derivatives*). Where index *derivatives* are used, cover may be provided by *securities* even if there is not complete congruence between the components of the index and the *securities*, provided that it is reasonable to use one as appropriate to cover for the other, taking into account the closeness of the relationship between fluctuations in their prices (see CIS 5.13.8R(3)). In considering the appropriateness of the instrument, *authorised fund managers* will need to take reasonable care that it is economic, suitable and reasonably congruent. This *guidance* deals with the matter of congruence.
- (2) It is not possible for the FSA to reach a view, in the abstract, on any particular level of congruence. The level of congruence necessary to satisfy the requirement that it is reasonable to regard the index *derivative* as appropriate, should be determined only in light of the individual circumstances of the case concerning a particular *authorised fund*.
- (3) Clearly, the higher the level of congruence, the less likely the *authorised fund manager* would be open to any challenge that the index *derivative* chosen is not appropriate. Whilst it does not necessary follow that a low level of

congruence means that the index *derivative* chosen will be inappropriate, the *derivative* used in those circumstances is likely to require much further justification. In certain types of *authorised fund* it may be that no index *derivative* is appropriate.

- (4) It should be noted that it is not the intention of CIS 5.13.8R to preclude the use of an appropriate index *derivative* that has a relationship with part of the *scheme property*. That is particularly so where the EPM technique is to be adopted in respect of part only of the *scheme property*, as will normally be the case.
- (5) The following steps can be taken by an *authorised fund manager* when using index *derivatives* and when determining whether or not an index *derivative* is “reasonably congruent” to an underlying portfolio of investments. Consideration of these steps needs to reflect the respective responsibilities of the *authorised fund managers* and *depositaries* under CIS 7 (Powers and duties).
 - (a) In determining the extent and manner in which index *derivatives* are used for EPM, the *authorised fund manager* should set out why it considers the transaction to be appropriate. In-house rules should be prepared which identify, on a *scheme* by *scheme* basis, the instruments the *authorised fund manager* is likely to use and the extent of this use.
 - (b) *Authorised fund managers* should show these in-house rules to, and discuss them with, the *depository*. *Depositaries* need not endorse the rules, although they may wish to give a view on whether they consider them as being reasonable in principle.
 - (c) If the matter is not covered by the in-house rules and the *authorised fund manager* is in doubt whether a particular transaction is appropriate, it should discuss this with the *depository* before taking any action.
 - (d) Any remaining doubt should be discussed with the FSA.
 - (e) Procedures should be established between the *authorised fund manager* and *depository* that enable the *depository* to monitor the investment in *derivatives* in accordance with its duty under CIS 7. These procedures will cover the details of any transactions in index *derivatives* entered into and the *authorised fund manager's* justification that the transaction complies with the *rules* in this chapter.
- (6) Other approaches to those outlined in (5) may be appropriate in the light of the *authorised fund manager's* own circumstances. Whatever approach is taken, *authorised fund managers* will need to review, as and when circumstances dictate, and in the light of developments on indices, the instruments they regard as appropriate for use in their *authorised funds*.

Borrowing in the context of efficient portfolio management

- (1) CIS 5.13.12R sets out requirements for borrowing in the context of efficient portfolio management. That *rule* deals with two aspects of such borrowing.
- (2) First, borrowed cash and cash committed for borrowing goes to swell the *scheme property* for the purpose of providing cover in the form of cash. Effectively, an additional 10% of cover can be found in this way.

- (3) Second, a back to back currency loan can be regarded as switching the borrowed currency into the *scheme property*, and switching the deposited currency out. The lending transaction does not require cover, as it is a loan rather than a forward or *future*. But it enables the *authorised fund* by borrowing to have cash in another currency to use as cover.
- (4) Although CIS 5.13.8R(2)(b) does not require cash cover to be in a currency matching the exposure, the *authorised fund manager* needs to monitor currency rates in order to ensure that cover remains sufficient. Borrowing in the right currency may thus make the cover simpler to operate.

Borrowing in the context of efficient portfolio management

5.13.12

R

/1

- (1) Cash obtained by borrowing, and borrowings which the *authorised fund manager* reasonably regards an *eligible institution* to be committed to provide, are available for cover under CIS 5.13.8R as long as the normal limits on borrowing (as to which see CIS 5.15.3R (General power to borrow) and CIS 5.15.4R (Borrowing limits)) are observed.
- (2) Where, for the purposes of this section (CIS 5.13), the *ICVC* or the *trustee* for the account of the *AUT* with the instructions of the *manager*:
 - (a) borrows an amount of currency from an *eligible institution*; and
 - (b) keeps an amount in another currency, at least equal to the borrowing for the time being in (a), on *deposit* with the lender (or his agent or nominee);

then this section (CIS 5.13) applies as if the borrowed currency, and not the deposited currency, were part of the *scheme property*, and the normal limits on borrowing under CIS 5.15.3R and CIS 5.15.4R do not apply to that borrowing.

The continuing nature of requirements and limits

5.13.13

R

/1

- (1) The *authorised fund manager* must, at each *valuation point* (and more frequently if necessary), re-calculate the amount of cover required in respect of positions already in existence under this section (CIS 5.13). *Derivatives* and rights under forward transactions under this section (CIS 5.13) may be retained in the *scheme property* only so long as they remain covered both individually and globally under CIS 5.13.8R.
- (2) If at any time:
 - (a) any fact or matter relating to the *authorised fund* or its economic environment; or

(b) the aggregate of all outstanding positions under this section (CIS 5.13);

is such that at least one of the relevant transactions (assuming it did not exist) could not properly be effected, either in that size or at all, the *authorised fund manager* must immediately on becoming aware of that fact take the necessary steps to rectify the situation, whether by closing out or by providing additional cover or otherwise.

5.14 Stock lending

Application

5.14.1

R

/1

This section (*CIS 5.14*) applies to *depositories of authorised funds* which are not *fund of funds schemes* or *feeder funds*, except:

- (1) *CIS 5.14.3R*, which applies to *ICVCs* other than *fund of funds schemes*, or to *managers of AUTs* other than *fund of funds schemes* and *feeder funds*; and
- (2) in the case of *ICVCs*, *CIS 5.14.4R* which applies to *ICVCs* other than *fund of funds schemes* if the *ICVC* enters into the *stock lending* agreement.

Stock lending permitted under this section (*CIS 5.14*)

5.14.2

G

/1

- (1) This section (*CIS 5.14*) should be regarded as an extension of section *CIS 5.13R* (Efficient portfolio management). It permits the generation of additional income for the benefit of the *authorised fund*, and hence for its investors, by entry into *stock lending* transactions for the account of the *authorised fund*.
- (2) The specific method of *stock lending* permitted in this section is in fact not a *transaction* which is a loan in the normal sense. Rather it is an arrangement of the kind described in section 263B of the Taxation of Chargeable Gains Act 1992, under which the lender transfers *securities* to the borrower otherwise than by way of sale and the borrower is to transfer those *securities*, or *securities* of the same type and amount, back to the lender at a later date. In accordance with good market practice, a separate transaction by way of transfer of assets is also involved for the purpose of providing *collateral* to the “lender” to cover him against the risk that the future transfer back of the *securities* may not be satisfactorily completed.
- (3) Other forms of *stock lending*, whether combined with stock borrowing or by way of loan or transfer of a beneficial interest in stock, are not envisaged in this section, and, indeed, are prohibited by *CIS 5.15.6R* (Restrictions on lending of property other than money).

Stock lending: general

- 5.14.3 **R** /1 The *stock lending* permitted by this section (CIS 5.14) may be exercised by an *authorised fund* for the purpose of efficient portfolio management, that is, when it reasonably appears to the *ICVC* or to the *manager* to be economically appropriate to do so with a view to generating additional income for the *authorised fund* with an acceptable degree of risk.

Permitted stock lending

- 5.14.4 **R** /1 (1) The *ICVC*, or the *depository* at the request of the *ICVC*, or the *trustee* at the request of the *manager*, may enter into a *stock lending* arrangement of the kind described in section 263B of the Taxation of Chargeable Gains Act 1992 (without extension by section 263C), but only if:
- (a) all the terms of the agreement under which *securities* are to be reacquired by the *depository* for the account of the *ICVC* or by the *trustee*, are in a form which is acceptable to the *depository* or to the *trustee* and are in accordance with good market practice;
 - (b) the counterparty is an *authorised person*; and
 - (c) *collateral* is obtained to secure the obligation of the counterparty under the terms referred to in (a) and the *collateral* is:
 - (i) acceptable to the *depository*;
 - (ii) adequate within CIS 5.14.6R(1); and
 - (iii) sufficiently immediate within CIS 5.14.6R(2).
- (2) The counterparty for the purpose of (1) is the *person* who is obliged under the agreement referred to in (1)(a) to transfer to the *depository* the *securities* transferred by the *depository* under the *stock lending* arrangement or *securities* of the same kind.

Stock lending: treatment of collateral

- 5.14.5 **G** /1 Where a *stock lending* arrangement is entered into, the *scheme property* remains unchanged in terms of value: the *securities* transferred cease to be part of the *scheme property*, but there is obtained in return an obligation on the part of the *counterparty* to transfer back equivalent *securities*. The *depository* will also receive *collateral* to set against the risk of default in transfer, and that *collateral* is equally irrelevant to the valuation of the *scheme property* (because it is transferred against an obligation of equivalent value by way of re-transfer). CIS 5.14.6R accordingly makes provision for the treatment of the *collateral* in that context.

Treatment of collateral

5.14.6

R

/1

- (1) *Collateral* is adequate for the purposes of this section (CIS 5.14) only if it:
- (a) is transferred to the *depository* or its agent;
 - (b) is at least equal in value, at the time of the transfer to the *depository*, to the value of the *securities* transferred by the *depository*; and
 - (c) is in the form of one or more of:
 - (i) cash;
 - (ii) *near cash*;
 - (iii) *government and public securities*;
 - (iv) a certificate of *deposit*;
 - (v) a letter of *credit*; and
 - (vi) *securities* transferred in *CREST*.
- (2) *Collateral* is sufficiently immediate for the purposes of this section (CIS 5.14) if :
- (a) it is transferred before or at the time of the transfer of the *securities* by the *depository*; or
 - (b) the *depository* takes reasonable care to determine at that time that it will be transferred at the latest by the close of business on the *day* of the transfer.
- (3) The *depository* must ensure that the value of the *collateral* at all times is at least equal to the value of the *securities* transferred by the *depository*.
- (4) The duty in (3) may be regarded as satisfied in respect of *collateral* the validity of which is about to expire or has expired where the *depository* takes reasonable care to determine that sufficient *collateral* will again be transferred at the latest by the close of business on the *day* of expiry.
- (5) Any agreement for transfer at a future date of *securities* or of *collateral* (or of the equivalent of either) under this section (CIS 5.14) may be regarded, for the purposes of valuation under CIS 4 (Single-pricing and dealing), CIS 15 (Dual-pricing and dealing) or this chapter, as an unconditional agreement for the *sale* or transfer of property, whether or not the property is part of the property of the *authorised fund*.

- (6) *Collateral* transferred to the *depository* is part of the *scheme property* for the purposes of the *rules* in this sourcebook, except in the following respects:
 - (a) it does not fall to be included in any valuation for the purposes of *CIS 4* (Single-pricing and dealing), or *CIS 15* (Dual-pricing and dealing) or this chapter, because it is offset under (5) by an obligation to transfer; and
 - (b) it does not count as *scheme property* for any purpose of this chapter other than this section (*CIS 5.14*).
- (7) Paragraph (5) and (6)(a) do not apply to any valuation of *collateral* itself for the purposes of this section (*CIS 5.14*).

Limitation by value

5.14.7

R

There is no limit on the value of the *scheme property* which may be the subject of *stock lending* transactions within this section (*CIS 5.14*).

/1

5.15 Cash, borrowing, lending and other provisions

Application

5.15.1

R
/1

- (1) CIS 5.15.1R applies to *authorised fund managers* and *depositories*.
- (2) CIS 5.15.2R(1) (Cash and near cash) applies to *authorised fund managers*, other than *authorised fund managers* of *money market schemes*, *futures and options schemes* and *geared futures and options schemes*.
- (3) CIS 5.15.3R (General power to borrow) applies (other than for *geared futures and options schemes*) to *ICVCs* and *trustees* of *AUTs*, except CIS 5.15.3R(3) and (4), which apply to *authorised fund managers* of *authorised funds* other than *geared futures and options schemes* and *futures and options schemes*.
- (4) CIS 5.15.4R (Borrowing limits) applies to *authorised fund managers* of *authorised funds* other than *geared futures and options schemes*.
- (5) CIS 5.15.5R (Restrictions on lending of money) applies to *ICVCs* or to *managers* and *trustees*, except for CIS 5.15.5R(3) which applies to *ICVCs*.
- (6) CIS 5.15.6R (Restrictions on lending of property other than money) applies to *ICVCs* or *managers* and *trustees*, except for CIS 5.15.6R(4) which applies to *ICVCs* or to *depositories* of *ICVCs*.
- (7) CIS 5.15.7R (General power to accept or underwrite placings) applies to *ICVCs* or to *managers*.
- (8) CIS 5.15.8R (Guarantees and indemnities) applies to *ICVCs* or *depositories*.

Cash and near cash

5.15.2

R
/1

- (1) Cash and *near cash* must not be retained in the *scheme property* except to the extent that, where this may reasonably be regarded as necessary in order to enable:
 - (a) *redemption of units*; or
 - (b) efficient management of the *authorised fund* in accordance with its investment objectives; or
 - (c) other purposes which may reasonably be regarded as ancillary to the investment objectives of the *authorised fund*.
- (2) The *scheme property* of a *money market scheme*, a *futures and options scheme* and a *geared futures and options scheme* may consist of cash and *near cash* without limitation.
- (3) Paragraph (2) does not apply during the period of the *initial offer*, during which the *scheme property* may consist of cash and *near cash* without limitation.

General power to borrow

5.15.3

R
/1

- (1) The *ICVC* or *trustee* (on the instructions of the *manager*) may, in accordance with this *rule* (*CIS 5.15.3R*) and *CIS 5.15.4R*, borrow *money* for the use of the *authorised fund* on terms that the borrowing is to be repayable out of the *scheme property*. This power to borrow is subject to the obligation of the *authorised fund* to comply with any restriction in the *instrument constituting the scheme*.
- (2) The *ICVC* or *trustee* may borrow under (1) only from an *eligible institution*.
- (3) The *authorised fund manager* must ensure that any borrowing is on a temporary basis and that borrowings are not persistent, and for this purpose the *authorised fund manager* must have regard in particular to:
 - (a) the duration of any period of borrowing; and
 - (b) the number of occasions on which resort is had to borrowing in any period.
- (4) In addition to complying with (3), the *authorised fund manager* must ensure that no period of borrowing exceeds three months, whether in respect of any specific sum or at all, without the prior consent of the *depository*; the *depository's* consent may be given only on such conditions as appear to the *depository* appropriate

to ensure that the borrowing does not cease to be on a temporary basis only.

- (5) This *rule* (CIS 5.15.3R) does not apply to "back to back" borrowing under CIS 5.13.12R(2) (Borrowing in the context of efficient portfolio management).
- (6) An ICVC must not issue any *debenture* unless it acknowledges or creates a borrowing that complies with (1) to (4).

Borrowing limits

5.15.4

R

/1

- (1) The *authorised fund manager* must ensure that the *authorised fund's* borrowing does not, on any *business day*, exceed 10% of the value of the *scheme property*.
- (2) For a *property scheme*, the *authorised fund manager* must ensure that the borrowing does not, on any *business day*, exceed 10% of the value of that part of the *scheme property* which for the time being does not consist of immovables.
- (3) For a *property scheme*, an *approved mortgage* under CIS 5.8.9R (Mortgaged property) or CIS 5.8.12R (Grant of options, mortgages) does not count as borrowing for the purposes of (2).
- (4) This *rule* (CIS 5.15.4R) does not apply to "back to back" borrowing under CIS 5.13.12R(2).
- (5) In this *rule* (CIS 5.15.4R), "borrowing" includes, as well as borrowing in a conventional manner, any other arrangement (including a combination of *derivatives*) designed to achieve a temporary injection of *money* into the *scheme property* in the expectation that the sum will be repaid.
- (6) For an ICVC, borrowing does not include any arrangement for the ICVC to pay to a third party (including the ACD) any costs which the ICVC is entitled to amortise under CIS 8.3.4R (set up costs) and which were paid on behalf of the ICVC by the third party.

Restrictions on lending of money

5.15.5

R

/1

- (1) None of the *money* in the *scheme property* of an *authorised fund* may be lent and, for the purposes of this prohibition, *money* is lent by an *authorised fund* if it is paid to a *person* ("the payee") on the basis that it should be repaid, whether or not by the payee.

- (2) Acquiring a *debenture* is not lending for the purposes of (1); nor is the placing of *money on deposit* or in a current account.
- (3) Paragraph (1) does not prevent an *ICVC* from providing an *officer* of the *ICVC* with funds to meet expenditure to be incurred by him for the purposes of the *ICVC* (or for the purposes of enabling him properly to perform his duties as an *officer* of the *ICVC*) or from doing anything to enable an *officer* to avoid incurring such expenditure.

Restrictions on lending of property other than money

5.15.6

R
/1

- (1) The *scheme property* of an *authorised fund* other than *money* must not be lent by way of *deposit* or otherwise.
- (2) Transactions falling within *CIS 5.14* (Stock lending) are not lending for the purposes of (1).
- (3) The *scheme property* of an *authorised fund* must not be mortgaged except under *CIS 5.8* (Property schemes).
- (4) Nothing in this *rule* (*CIS 5.15.6R*) prevents the *ICVC* or the *depository* at the request of the *ICVC*, or the *trustee* at the request of the *manager*, from lending, depositing, pledging or charging *scheme property* for *margin* requirements where transactions in *derivatives* or forward transactions are used for the account of the *authorised fund* in accordance with any other of the *rules* in this chapter.

General power to accept or underwrite placings

5.15.7

R
/1

- (1) Any power in this chapter to invest in *transferable securities* may be used for the purpose of entering into transactions to which this *rule* (*CIS 5.15.7R*) applies, subject to compliance with any restriction in the *instrument constituting the scheme*.
- (2) This *rule* (*CIS 5.15.7R*) applies, subject to (3), to any agreement or understanding:
 - (a) which is an underwriting or sub-underwriting agreement; or
 - (b) which contemplates that *securities* will or may be issued or subscribed for or acquired for the account of the *authorised fund*.
- (3) Paragraph (2) does not apply to:
 - (a) an *option*; or

- (b) a *purchase* of a *transferable security* which confers a right :
 - (i) to subscribe for or acquire a *transferable security*; or
 - (ii) to convert one *transferable security* into another.
- (4) No agreement or understanding to which this *rule* (CIS 5.15.7R) applies may be entered into if it relates to *units in a collective investment scheme*.
- (5) The exposure of an *authorised fund* to agreements and understandings within (2) must, on any *business day*:
 - (a) be covered under CIS 5.13.8R (Cover for transactions for efficient portfolio management) as if the exposure had been incurred in the context of CIS 5.13 (Efficient portfolio management) by means of transactions in *approved derivatives*; and
 - (b) be such that, if all possible obligations arising under them had immediately to be met in full, there would be no breach of any limit in this chapter.

Guarantees and indemnities

5.15.8

R
/1

- (1) An *ICVC* or a *depository* for the account of an *authorised fund* must not provide any guarantee or indemnity in respect of the obligation of any *person*.
- (2) None of the *scheme property* of an *authorised fund* may be used to discharge any obligation arising under a guarantee or indemnity with respect to the obligation of any *person*.
- (3) Paragraphs (1) and (2) do not apply to:
 - (a) any indemnity or guarantee given for *margin* requirements where the *derivatives* or forward transactions are being used in accordance with the *rules* in this chapter;
 - (b) for an *ICVC*:
 - (i) an indemnity falling within the provisions of regulation 62(3) of the *OEIC regulations* (Exemptions from liability to be void);
 - (ii) an indemnity (other than any provision in it which is void under regulation 62 of the *OEIC regulations*) given to the *depository* against any liability incurred by it as a consequence of the safekeeping of any of the *scheme property* by it or by anyone retained by it to assist it to

perform its function of the safekeeping of the *scheme property*; and

(iii) an indemnity given to a *person* winding up a *scheme* if the indemnity is given for the purposes of arrangements by which the whole or part of the property of that *scheme* becomes the first property of the *ICVC* and the *holders* of *units* in that *scheme* become the first *shareholders* in the *ICVC*; and

(c) for an *AUT*, an indemnity given to a *person* winding up a *body corporate* or other *scheme* in circumstances to which *CIS 15.2.7R* (Creation of units) applies.

5.15.9

G

/1

CIS 8.4.1R (Payment of liabilities on transfer of assets) and *CIS 8.5.5R* (Other payments out of scheme property) contain provisions restricting payments out of *scheme property*.

5

5.16 Cover for sales

Application

- 5.16.1 **R** This section (*CIS 5.16*) applies to *ICVCs* other than *futures and options schemes* and *geared futures and options schemes* and to *managers* and *trustees* of *AUTs* other than *futures and options schemes* or *geared futures and options schemes*.

Requirement to cover sales

- 5.16.2 **R** (1) No agreement by or on behalf of an *ICVC* or on behalf of an *AUT* to dispose of property or rights may be made:
- (a) unless the obligation to make the disposal and any other similar obligation could immediately be honoured by the *authorised fund* by delivery of property or the assignment (or, in Scotland, assignation) of rights; and
 - (b) the property and rights at (a) are owned by the *authorised fund* at the time of the agreement.
- (2) Paragraph (1) does not apply to a transaction in *derivatives* or a forward transaction under *CIS 5.13R* (Efficient portfolio management).

Chapter 6

Title, transfer and plan registers

6.1 Introduction

Application

- 6.1.1 **R** This chapter applies in relation to *ICVCs* and *AUTs*
/1
- 6.1.2 **R** This section (*CIS 6.1*) applies to *authorised fund managers* and *depositories*.
/1

Purpose

- 6.1.3 **G** In line with the *regulatory objective* of the protection of *consumers*, this chapter sets out requirements for a *register of unitholders* in an *AUT* and for *plan registers* of both *ICVCs* and *AUTs*. These requirements are intended to ensure that there is a proper record of the ownership of *units*, whether held directly or through a savings plan, *ISA* or *PEP*.
/1

Explanation of this chapter

- 6.1.4 **G** (1) *CIS 6.2* deals with a number of matters concerning the *register of unitholders*, such as its establishment, maintenance and rights of those who wish to inspect it, and the issue of certificates either of registration of ownership in that *register* or in *bearer form*.
/1
- (2) *CIS 6.3* deals with the transferability of *units*, whether by act of parties (for example *sales* or gifts) or by operation of law (death or bankruptcy).
- (3) *CIS 6.4* deals with changes of name and address of *unitholders* and sets out requirements for subdivision, consolidation and conversion of *classes* of *units* and default by *unitholders*.
- (4) *CIS 6.5* deals with *plan registers* of both *ICVCs* and *AUTs*.

6.2 The register of unitholders

Basic requirement

6.2.1

R

/1

- (1) This *rule* (CIS 6.2.1R) applies to *trustees*, except (5) which applies to *managers* and *trustees* and (6) which applies to the *manager* only.
- (2) The *trustee* must establish and maintain a *register* of *unitholders* (the *register*) in accordance with this *rule*.
- (3) The *register* must be maintained in a readable form or in a manner capable of being reproduced in a readable form.
- (4) The *register* must contain:
 - (a) the name and address of each *unitholder* (other than one whose *units* are represented by *bearer certificates*);
 - (b) the number of *units* (including fractions of a *unit*) of each *class* held by each *unitholder* (other than *units* that are represented by *bearer certificates*);
 - (c) the date on which the *unitholder* was registered in the *register* for the *units* standing in his name; and
 - (d) the number of *units* (including fractions of a *unit*) of each *class* currently in *issue* and represented by *bearer certificates* and the numbers of those certificates;

but the *trustee* need not *register* more than four *persons* as the joint *holders* of any *units*.

- (5) The *manager* and the *trustee* must:
 - (a) take all reasonable steps; and
 - (b) exercise all due diligence;

to ensure that the information contained in the *register* is at all times complete and up to date.

- (6) The *manager*, for the purpose of (5), must in particular:
- (a) take any necessary steps to obtain and supply information from or concerning any new *unitholder* of *units* to enable the entry in the *register* to be made; and
 - (b) immediately notify the *trustee* of any information which the *manager* receives relating to the accuracy of or any change to any entry in the *register*.

The register as evidence of title

6.2.2

R

/1

- (1) This *rule* (CIS 6.2.2R) applies to *managers* and *trustees*.
- (2) The *register* is conclusive evidence as to the *persons* respectively entitled to the *units* entered in it. This does not prevent the *trustee* making any deletion or alteration allowed by CIS 6.4.4R (Default by the unitholder).
- (3) No notice of any trust, express, implied, or constructive, which may be entered in the *register* for any *unit* is binding on the *manager* or the *trustee*. But this does not affect the obligations of the *manager* and the *trustee* under CIS 6.5.R (Plan registers).

Inspection of the register and copies of entries

6.2.3

R

/1

- (1) This *rule* (CIS 6.2.3R) applies to *trustees*.
- (2) The *trustee* must make the *register* available for inspection, by or on behalf of the *unitholders* or the *manager*, in the *United Kingdom* free of charge at all times during ordinary office hours. But the *register* may be closed at times and periods (not exceeding 30 *days* in any one year) as determined by the *trustee*.
- (3) The *trustee* must supply to the *manager* at its request a copy of the *register* or any part of it on payment, if the *trustee* so decides, of a reasonable fee.
- (4) The *trustee* must supply to a *unitholder* or his authorised representative at his request and free of charge a copy in print of the entries on the *register* relating to that *unitholder*.

The manager as unitholder

6.2.4

R

/1

- (1) This *rule* (CIS 6.2.4R) applies to *managers* and *trustees*.

- (2) The *manager* may, unless expressly forbidden to do so by the *trust deed*, be a *unitholder*.
- (3) The *manager* must be treated as the *holder* of each *unit* which is in *issue* (other than a *unit* which is represented by a *bearer certificate*) if no *person* is entered in the *register* as the *holder* of that *unit*.
- (4) Where a *unitholder* transfers *units* to the *manager*, they need not be cancelled, nor need the name of the *manager* be entered on the *register* as the new *unitholder*.

Certificates

6.2.5

R

/1

- (1) This *rule* (CIS 6.2.5R) applies to *managers* and *trustees*.
- (2) On or following the *issue* of *units* or, subject to CIS 6.3.1R (Transfer of units by act of parties), at any other time, a certificate or other document recording title to the *units* may be issued to the *unitholder* if, and in such form as, the *manager* and the *trustee* agree.
- (3) The *manager* and the *trustee* must agree on the procedures to be followed in redeeming *units*.
- (4) Where the procedures agreed under (3) require the investor to surrender any document (or provide any information) as a prior condition to obtaining the proceeds of *redemption*, they must also oblige the *trustee* to issue the document or provide any relevant information relating to an entry on the *register* in a timely manner once it is in a position to do so under those procedures.
- (5) Where the *trust deed* enables *bearer certificates* to be issued, the *manager* and *trustee* must agree on their form, and on the procedures to be followed for them.
- (6) The steps required to be taken by a *unitholder* in relation to the *issue* and *redemption* of *units* must be specified in the *prospectus*.

6.3 Transferability of units

Transfer of units by act of parties

6.3.1

R

/1

- (1) This *rule* (CIS 6.3.1R) applies to *trustees*.
- (2) Every *unitholder* is entitled, subject to (3), to transfer *units* held by him for which he is entered in the *register* by an instrument of transfer in any form the *trustee* may approve.
- (3) The *trustee* is not under any duty to accept a transfer:
 - (a) if the number or value of the *units* sought to be transferred would result in the *unitholder*, or the transferee, holding less than any number or value stated in the *prospectus* as the minimum number to be held; or
 - (b) if the *AUT* is a *relevant pension scheme* and the transfer is not one permitted by the *trust deed*; or
 - (c) if the *AUT* is a *relevant charitable scheme* and it would lose its status if the transferee became a *unitholder*; or
 - (d) if the *trust deed* contains a limitation upon the categories of *persons* who may be *unitholders* and the transferee is not within one of those categories; or
 - (e) unless the transfer is excluded by Schedule 19 of the Finance Act 1999 (or any statutory modification or re-enactment of it) from a charge to stamp duty reserve tax, or there has been paid to the *trustee*, for the account of the *AUT*, an amount agreed between the *trustee* and the *manager* not exceeding the amount that would be derived by applying the rate of stamp duty reserve tax to the market value of the *units* being transferred.
- (4) Every instrument of transfer of *units* must be signed by or on behalf of the *unitholder* transferring the *units* (or, in the case of a *body corporate*, sealed by that *body corporate* or signed by one of its *officers* (or in Scotland, two of its *officers*)) authorised to sign it and, unless the transferee is the *manager*, the transferor must be

treated as the *unitholder* until the name of the transferee has been entered in the *register*.

- (5) Every instrument of transfer, duly stamped if it is required to be stamped, must be left with the *trustee* for registration accompanied by:
 - (a) any necessary declarations or other documents that may be required in consequence of any legislation in force at the time; and
 - (b) such other evidence as the *trustee* may require to prove the right of the transferor to transfer the *units* or in the case of a *body corporate* the authority of the signatory on its behalf.
- (6) All instruments of transfer which are registered must be retained by the *trustee* in original, copy or non-documentary form for a period of six years from the date of registration.
- (7) Upon registration of an instrument of transfer, a reference must be made on the *register* enabling the name of the transferor and the transferee and the date of transfer to be identified.

Transfer of units by operation of law

6.3.2

R

/1

- (1) This *rule* (CIS 6.3.2R) applies to *managers* and *trustees*.
- (2) On the death of any one of joint *unitholders*, the surviving *unitholder* or *unitholders* must be the only *persons* recognised by the *trustee* and the *manager* as having any title to or any interest in the *units* held by those joint *unitholders*.
- (3) The executors or administrators of a deceased *unitholder* (who was not one of two or more joint *unitholders*) must be the only *persons* recognised by the *trustee* and the *manager* as having title to the *units* held by the deceased *unitholder*.
- (4) Where any *person* becomes entitled to a *unit* in consequence of the death or bankruptcy of any sole *unitholder* or of the survivor of joint *unitholders*:
 - (a) he may, subject to (b), upon producing evidence of his title required by the *trustee*, either be registered himself as *unitholder* (upon giving written notice to the *trustee*) or transfer the *unit* to some other *person*;
 - (b) CIS 6.3.1R (Transferability of units by act of parties) applies to any such notice or transfer as if the death or bankruptcy had not occurred and as if the notice or transfer were a transfer signed by the *unitholder*;

- (c) the new owner may, subject to (d), give a discharge for all *monies* payable for the *unit*, but will not, until registered as a *unitholder*, be entitled to receive notices or attend or vote at any meeting of *unitholders*; and
- (d) the *trustee* may, at its discretion, retain any *monies* payable for the *unit* until the new owner is registered as the *unitholder* or transfers the *unit*.

6.4 Permitted alterations to the register of unitholders

Change of name and address of unitholder

6.4.1

R

/1

- (1) This *rule* (CIS 6.4.1R) applies to *trustees*.
- (2) The *trustee* must:
 - (a) on receiving written notice of a change of name or change of address of any *unitholder*;
 - (b) on having taken reasonable care; and
 - (c) on compliance with any formalities the *trustee* requires;alter the *register* accordingly.
- (3) Where a certificate has been issued and remains valid and the name of the *unitholder* is altered in the *register*, the *trustee* must either issue a new certificate to the *unitholder* or make an appropriate endorsement on the *unitholder's* existing certificate.

Conversion of units

6.4.2

R

/1

- (1) This *rule* (CIS 6.4.2R) applies to *managers*, except (5), which applies to *managers* and *trustees*.
- (2) This *rule* applies to any *AUT* in which there are *units* of more than one *class* (that is, *income units* and *accumulation units*), and governs the conditions of conversion of *units* of one *class* into *units* of another.
- (3) Conversion is possible under this *rule* only if both *classes* of *unit* are in existence and are offered for *issue* or *sale* at the time of the request for conversion.
- (4) If a *unitholder* requests the *manager* to convert *units*, the *manager* must make a written request to the *trustee* for the conversion; but the *manager* need not do so, nor need the *trustee*

comply with the *manager's* request, if the conversion would result in the *unitholder* holding less than any number or value of *units* of either *class* stated in the *prospectus* as the minimum number to be held.

- (5) If the *manager* makes a request under (4), the *trustee* must, unless excused by (4), convert the *units* into the appropriate number of *units* of the other *class*. That number must be determined by the *manager*, after consulting the *trustee*, on terms that are fair to the *unitholder* requesting conversion and to other *unitholders*.
- (6) CIS 4 (Single-pricing and dealing), CIS 8 (Charges and expenses) and CIS 15 (Dual-pricing and dealing) do not apply to a conversion of *units* in accordance with this *rule*.

Subdivision and consolidation of units

6.4.3

R

/1

- (1) This *rule* (CIS 6.4.3R) applies to *managers* and *trustees*.
- (2) The *manager* may, unless expressly forbidden to do so by the *trust deed*, at any time when no *bearer certificates* are in *issue*, with the approval of the *trustee* determine:
 - (a) that each *unit* is to be subdivided into two or more *units* (after which each *unit* is to stand subdivided); or
 - (b) that two or more *units* are to be consolidated (after which those *units* are to stand consolidated).
- (3) Upon a subdivision or consolidation of *units* the *trustee* must (unless it has done so before the subdivision or consolidation became effective) immediately give to each *unitholder* (or to the first named of joint *holders*) whose name is entered in the *register*, notice of the subdivision or consolidation.

Default by the unitholder

6.4.4

R

/1

- (1) This *rule* (CIS 6.4.4) applies to *managers* and *trustees*.
- (2) Where:
 - (a) the *unitholder* of any *units* defaults in making any payment in *money* or transfer of property due to the *manager* or the *trustee* under the *rules* in this sourcebook, or the *trust deed*, for the *issue* or *sale* of *units* to that *unitholder*; and
 - (b) the *trustee* is satisfied that there has been a default;

the *trustee* may make any deletion or alteration in the *register* that is necessary to compensate for that default, after which the *manager* becomes entitled to those *units* for which the defaulting *unitholder's* name has been removed from the *register* until those *units* are either cancelled or re-sold and paid for.

6.5 Plan registers

Application

- 6.5.1** **R** (1) This rule (CIS 6.5.1R) and CIS 6.5.2G apply to ICVCs and their directors and to managers and trustees.
/1
- (2) The sub-paragraphs of CIS 6.5.4R apply in accordance with CIS 6.5.2R (Table of application)
- 6.5.2** **R** Table Table of application
/1 This table belongs to [CIS 6.5.1]

Sub-paragraph number	ICVC	ACD	Any other director of an ICVC	Manager	Trustee
(1)		X	X		
(2)				X	X
(3)					X
(4) – (7)		X	X	X	X
(8)		X		X	X
(9)		X		X	
(10) – (11)		X			X
(12)		X	X	X	
(13)		X		X	
(14) – (15)		X	X	X	X
(16) – (17)		X		X	
(18)		X	X	X	X
(19)	X	X	X		

Explanation

- 6.5.3** **G** This section (CIS 6.5) permits the directors of an ICVC or the trustee of an AUT to establish a plan register. This section deals with a number of matters concerning its establishment and maintenance and ensures that the holders entered in the plan register have similar rights in respect of notices and disclosure as holders in the main register of holders.

6.5.4

R

/1

Requirement

- (1) For an *ICVC*, the *directors* must not arrange for the *ICVC* to establish a *plan register* unless the conditions in (4) have been satisfied.
- (2) For an *AUT*, the *trustee*, at the request of the *manager*, may, subject to (3), establish and maintain a *plan register* provided that the conditions in (4) have been satisfied.
- (3) The *trustee* must not establish a *plan register* without the prior sanction of an *extraordinary resolution* of the *unitholders* unless:
 - (a) paragraph (4)(b) applies; or
 - (b) for the year to 5 April 1999 (or, if shorter, for the period from the initial *issue* of *units* in the *AUT* to 5 April 1999) the *AUT* was managed with the intention that *units* in the *AUT* should be qualifying investments for the purposes of the Personal Equity Plan Regulations 1989.
- (4) The conditions referred to in (1) and (2) are that:
 - (a) not less than 90 *days* before the establishment of the *plan register*:
 - (i) notice in writing has been given by the *authorised fund manager* to *holders* of the proposal to establish it; and
 - (ii) a revised *prospectus* reflecting that proposal has become available; or
 - (b) the original *prospectus* of the *authorised fund* referred, in accordance with *CIS* 3.5.2R(12) or *CIS* 3.5.2R(13), to the payments that may be paid out of the *scheme property* for the establishment and maintenance of the *plan register*.
- (5) Paragraphs (6) to (19) apply for so long as a *plan register* is maintained.
- (6) The *plan register* must be maintained in a readable form or in a manner capable of being reproduced in a readable form.
- (7) The *plan register* must contain:
 - (a) the name and address of each *plan investor* for whom *units* in the *authorised fund* are held by a *plan manager* or a nominee under a *group plan*;
 - (b) the number of those *units* of each *class* so held for each such *person*;

- (c) the date on which the *plan investor* was registered in the *plan register* in respect of those *units* or any earlier date on which the *plan investor* was registered as a subscriber to a *group plan* in respect of those *units* on a *register* or other record from which the *plan register* was extracted; and
- (d) sufficient information to identify the *group plan* under which the *units* are held and the *plan investor* entered on the *register of holders* as their *holder*.
- (8) The *ACD* or, in the case of an *AUT*, the *manager* and the *trustee*, must:
- (a) take all reasonable steps; and
- (b) exercise all due diligence;
- to ensure that the information contained in the *plan register* is at all times complete and up to date.
- (9) In particular, for the purpose of (8) the *authorised fund manager* must ensure that:
- (a) any necessary steps are taken to obtain and supply information from or concerning any new *plan investor* to enable the entry in the *plan register* to be made; and
- (b) in the case of a *plan register* of an *AUT*, the *trustee* is immediately notified of any information which the *manager* or the *plan manager* or a nominee of the *plan manager* receives relating to the accuracy of, or any change to, any entry in the *plan register*.
- (10) The *ACD* or the *trustee* must make the *plan register* available for inspection in the *United Kingdom* by or on behalf of:
- (a) a *plan investor*, for the entries relating to him; and
- (b) a *plan manager*, for the entries relating to a *group plan* managed by it; and
- (c) for an *AUT*, the *manager*;
- free of charge at all times during ordinary office hours, except that the *plan register* may be closed when the *register* is closed.
- (11) The *ACD* or the *trustee* must supply to the *plan manager*, and (in the case of a *plan register* of an *AUT*) to the *manager*, on request, a copy of the *plan register* or any part of it on payment, if the *trustee* or the *ACD* so decides, of a reasonable fee.

- (12) In the following *rules* a reference to a *shareholder*, *unitholder* or *holder* must be treated as including a *plan investor* in respect of *group plan units* held for that *plan investor*:
- (a) CIS 3.4.2R(4)(b) and CIS 3.4.2R(4)(d) (notice of certain changes to a prospectus);
 - (b) CIS 8.2.6R (Notice of an increase: ICVCs and single-priced AUTs);
 - (c) CIS 8.5.1R(5) (Managers periodic charge);
 - (d) CIS 10.3.6R(1) (Short form accounts in reports); and
 - (e) CIS 10.5.2R(3) (Publication of reports (umbrella schemes)).
- (13) In CIS 10.5.2R(2) (Publication of reports) the reference to each *holder* (or the first named of joint *holders*) entered or entitled to be entered in the *register* must be considered to include each *plan investor* (or the first named of joint *plan investors*) entered in or entitled to be entered in the *plan register*.
- (14) In CIS 11.2.3R (Notice of meetings – for ICVCs) and CIS 11.3.6R (Notice of meetings – for AUTs) the references to *holders* must be considered to include the *persons* who were *plan investors*:
- (a) on the date seven *days* before the notices under these *rules* are sent out; or
 - (b) if the *plan investors' plan units* are *participating securities*, at the close of business on a *day* to be determined by the *authorised fund manager* in accordance with CIS 11.2.2R(2)(a) (Special meaning of shareholder) and CIS 11.3.2R(2)(a) (Special meaning of unitholder).
- (15) Where in this CIS sourcebook there is a reference to *persons* who ought reasonably to be known to an *authorised fund manager* to have made arrangements for the *purchase* of *units* at regular intervals, the reference is treated as including all *plan investors* with similar arrangements for *plan units*.
- (16) (a) The *authorised fund manager* must ensure that at no cost to the *plan investor* or the *scheme property*:
- (i) each notice of a meeting of *holders* given to a *plan investor* includes, or is accompanied by, a statement that the *plan investor* may require the *plan manager* to arrange for the *plan investor* to be able to attend that meeting or to vote on any resolution put to that meeting or both; and

- (ii) the notice is accompanied by an appropriate form of instruction to the *plan manager* for use by the *plan investor*.
 - (b) The *authorised fund manager* must procure that the *plan manager*, at no cost to the *plan investor* or the *scheme property*, acts in accordance with any duly completed form of instruction received by it at least four *business days* (excluding the *day* of receipt and the *day* of the meeting) before the *day* of the meeting or at such later time as the *plan manager* may agree.
- (17) The *authorised fund manager* must give notice to the *plan investor* of any adjourned meeting of *holders* at the same time as notice of that meeting is given to *holders*.
- (18) Any notice or document required to be served upon a *plan investor* will be treated as duly given if it is sent by post to or left at his address as appearing in the *plan register*, and the provisions of CIS 11.6 (Service of notices and other documents) apply.
- (19) For a *plan register* of an *ICVC*, information received by the *ICVC* for the purpose of the establishment or maintenance of the *plan register* under this *rule* does not amount to notice to the *ICVC* of any trust, whether express, implied or constructive.

Chapter 7.

Powers & Duties

7.

PAGE
1

7.1 Introduction

Application

- 7.1.1 **R** /1 The *rules* and *guidance* in this chapter apply in accordance with CIS 7.1.5R (Table of application).

Purpose

- 7.1.2 **G** /1 This chapter assists in achieving the regulatory objective of protecting *consumers* as envisaged by section 2 and 5 of the *Act*, and supports, in their application to ICVCs and AUTs, *Principles* 3, 8 and 10, namely that a *firm* must:

- (1) take reasonable care to organise and control its affairs responsibly and effectively with adequate risk management systems;
- (2) manage conflicts of interest fairly; and
- (3) arrange adequate protection of *clients'* assets when it is responsible for them.

Content of CIS 7

- 7.1.3 **G** /1
- (1) This chapter includes *rules*:
 - (a) to apportion responsibilities between the *ACD*, any other *directors* and the *depository* of an *ICVC*;
 - (b) to apportion responsibilities between the *manager* and *trustee* of an *AUT*;
 - (c) to require the *depository* of an *ICVC* to check that the *ACD* is carrying out certain of its functions in accordance with the *rules* in this sourcebook applicable to it;
 - (d) to require the *trustee* of an *AUT* to check that the *manager* is carrying out certain of its functions in accordance with those *rules*;
 - (e) relating to the *depository's* duties in respect of the safe *custody* of the *scheme property* of an *authorised fund*;
 - (f) to avoid conflicts of interest that could prejudice investors; and

- (g) to provide safeguards when the *directors* or *depository* of an *ICVC*, or the *manager* or *trustee* of an *AUT*, have certain of their functions carried out by a third party.
- (2) *CIS 7.1.4G* to *CIS 7.6.3R* concern the powers, duties and responsibilities of the *directors*, including the *ACD*, and the *depository* of an *ICVC*. *CIS 7.7* to *CIS 7.11* and *CIS 7 Ann 1G* concern the powers and duties of the *manager* and of the *trustee* of an *AUT*.

ICVCs

7.1.4

G

/1

- (1) The *OEIC regulations* require:
 - (a) an *ICVC* to have at least one *director*; and
 - (b) that if an *ICVC* has only one *director*, that *director* must be a *body corporate* which is an *authorised person* and has *permission* under Part IV of the *Act* (Permission to carry on regulated activities) to act as a *director* of an *ICVC*;
 - (c) the business of an *ICVC* to be managed, where an *ICVC* has one *director*, by that *director*, or, where an *ICVC* has more than one *director*, by the *directors*, subject to the *rules* in this sourcebook as to the allocation between the *directors* of responsibilities for the management of the *ICVC*.
- (2) This chapter includes the main *rules* that deal with the allocation mentioned in (1)(c), although other *rules* in this sourcebook also allocate responsibilities between *directors*. This chapter includes provisions concerning the appointment and termination of the appointment of an *ACD*.
- (3) Each *ICVC* must have an *ACD*. Where an *ICVC* is formed with a sole *director*, that *director* will have to satisfy the requirements mentioned in (1)(b) and will be the *ACD*. In these circumstances the provisions that allocate responsibilities between *directors* do not apply. However, because under the *OEIC regulations* the *ACD* will then be responsible for the management of the *ICVC*, the disapplication will not result in a reduction in the *ACD*'s responsibilities.
- (4) Where there is more than one *director*, unless there is a vacancy in the position of *ACD*, no *director* other than the *ACD* is responsible for the exercise of any functions which, under this chapter, are to be exercised exclusively by the *ACD*. However, the board of *directors* is responsible for oversight of the *ACD* in the manner provided for in this chapter.
- (5) The *depository* is responsible for the safekeeping of *scheme property* entrusted to it. It has a number of other responsibilities and powers under this chapter and these responsibilities include ensuring that the *ICVC* is managed in accordance with the *rules* referred to in *CIS 7.4.1R* (General duties of the depository).
- (6) It should be noted that the *depository* and the *directors* are not only required to comply with the *OEIC regulations* and the *rules* in this sourcebook relevant to them, but, in accordance with paragraph 6(1) of schedule 2 to the *OEIC regulations*, they are also bound by the provisions of the *ICVC's instrument of incorporation*.

- (7) The *directors* (including the *ACD* in its role as such) and the *depository* may each, to the extent permitted by this chapter, retain the services of others to assist them to perform their respective functions. Where there is a vacancy in the position of an *ACD*, the *directors* must appoint one or more *authorised persons* to assist them in performing the functions that it would otherwise be the duty of the *ACD* to perform. Where there are no *directors*, the *depository's* powers are extended, temporarily, to enable it to manage the *scheme property*.
- (8) *CIS 7.6.3R* (Conflicts of interest) also contains requirements relating to transactions entered into between the *ICVC* and certain *persons* directly or indirectly connected with it. A transaction which complies with that *rule* remains subject to regulation 44 of the *OEIC regulations*, under which certain transactions between an *ICVC* and a *director* of it, or an *associate* of any such *director*, may be voidable.

7.

7.2 Directors

The directors

7.2.1

R

/1

- (1) If there is only one *director* of the type described in CIS 7.1.4G(1)(b), it must be the *ACD*, but if there is more than one *director* that is a *body corporate*, the *directors* must appoint one of the *directors* that is a *body corporate* to be the *ACD*.
- (2) At any time when the *ACD* is not the sole *director* and (5) does not apply, no *director* other than the *ACD*:
 - (a) is responsible for any of the functions for which the *ACD* is made responsible by CIS 7.3.1R (The *ACD*), but the other *directors* must exercise reasonable care to ensure that the *ACD* undertakes those functions in a competent manner and the *ACD* must give those *directors* the information and explanations they consider necessary for this purpose; and
 - (b) has any power to undertake the management of the *ICVC* to the extent that the management is to be undertaken by the *ACD* in accordance with CIS 7.3.1R.
- (3) In the event of:
 - (a) any *person* becoming or ceasing to be a *director*;
 - (b) the appointment of an *ACD* being terminated;
 - (c) a new *ACD* being appointed; or
 - (d) a corporate *director* (including the *ACD*) becoming aware of any change of its *controller*;

the *FSA* must, immediately after the event, be notified in writing of that event; in the case of (a), by the *ACD*; in the case of (b), by the *ACD* whose appointment is being terminated; in the case of (c), by the new *ACD*; and in the case of (d), by the corporate *director* concerned.
- (4) A *director* must not appoint an alternate *director*.

- (5) At any time when there is no *person* acting as *ACD*, the *directors* have the responsibilities and duties that an *ACD* would have had under *CIS 7.3.1R* (Functions of the *ACD*), but this does not affect the powers of the *directors* under *CIS 7.6.1R* (Committees and appointments).
- (6) At any time that (5) applies, the *directors* must retain the services of one or more *authorised persons* to assist them in performing the functions referred to in *CIS 7.3.1R(2)* and (3) (Functions of the *ACD*).
- (7) Where a document is to be executed by the *ICVC* in accordance with regulation 57 of the *OEIC regulations*, unless (5) applies, it must be executed by the *ACD* and may also be signed (or executed) by one or more of any other *directors*.
- (8) At any time when the *ACD* is the sole *director* it must, to the extent that such action is not already required by the *OEIC regulations* or by *rules* in this sourcebook, be responsible for and have the duty to take the action envisaged by *CIS 7.3.1R(3)(d)*.
- (9) At any time when the *ACD* is sole *director* this *rule* (*CIS 7.2.1R*) does not exclude the *ACD's* functions under *CIS 7.3.1R(2)* and (3) which are then necessary under the requirements of the *OEIC regulations*.

Appointment of *ACD*

7.2.2

R
/1

- (1) Before, or on, the termination of the appointment of an *ACD*, the *directors* (or *director*) of the *ICVC* must take all practicable steps to appoint as the new *ACD* another *person* who is qualified to act as *ACD* and whose appointment must, if made before that termination, take effect immediately on that termination.
- (2) If the *ICVC* ceases to have any *director*, the *depository* has power to appoint a *body corporate* as a *director* and the *ACD* of the *ICVC* (provided the *body corporate* is an *authorised person* and is not prohibited from acting as the *ACD* of an *ICVC* by or under any *rule*).
- (3) The appointment of an *ACD* (other than the first *ACD*), whether under (1) or (2), must terminate at the close of the annual general meeting next following the date of the appointment or (if later) upon the expiration of 12 months from the date the appointment takes effect, unless the appointment has been approved by a resolution of the *shareholders* before the close of that annual general meeting or expiration (as the case may be).

- (4) An *ACD* must not voluntarily terminate its appointment as *ACD* unless the termination is at the same time as the commencement of the appointment of a successor *ACD*.

Termination of appointment of *ACD*

7.2.3

R

/1

- (1) The appointment of an *ACD* as *ACD* terminates immediately upon it ceasing to be a *director*.
- (2) The appointment of an *ACD* as *ACD* terminates if a notice of termination of that appointment, the terms of which have been approved by a resolution of the board of *directors*, is given to the *ACD*.
- (3) If there is no *director* other than the *ACD*, the appointment of an *ACD* as *ACD* terminates if a notice of termination of that appointment is given by the *depository* to the *ACD* and to the *ICVC*, following any of the following events:
- (a) the *ACD* goes into liquidation (except a voluntary liquidation for the purpose of a *scheme of arrangement* upon terms previously approved in writing by the *depository*); or
 - (b) a receiver is appointed in relation to the *ACD* or any part of it; or
 - (c) an administration order is made in relation to the *ACD* under section 8 of the *Insolvency Act 1986*.
- (4) Any termination under (2) or (3) takes effect when the notice is given, or on any subsequent time for its effect stated in the notice, or, if later, the time at which the termination is permitted to take effect under regulation 21 of the *OEIC regulations* (the Authority's approval for certain changes in respect of a company).
- (5) Unless the termination of the appointment of an *ACD* takes effect at the same time as the appointment of a successor *ACD*, the *depository* must ensure that the termination is published in a manner that the *depository* considers appropriate.
- (6) The *depository* is entitled to be reimbursed out of the *scheme property* for its out of pocket expenses in complying with (5).

7.3 The ACD

Functions of the ACD

7.3.1

R
/1

- (1) This *rule* (CIS 7.3.1R) does not apply at any time when the ACD is the sole *director* of the ICVC.
- (2) The ACD must carry out such functions as are necessary in order to ensure compliance with the *rules* in this sourcebook that impose obligations upon the ICVC or the ACD. The ACD's duties under this paragraph are not restricted by (3).
- (3) The functions to be carried out by the ACD include:
 - (a) making decisions as to the constituents of the *scheme property* of the ICVC in accordance with the investment objectives and policy of the ICVC;
 - (b) instructing the *depository* from time to time in writing how rights attaching to the ownership of the *scheme property* are to be exercised, but not in any case where, under CIS 7.4.5R (Exercise of rights in respect of the scheme property), the *depository* has the right to exercise (or not exercise) voting rights after consultation with the *directors*;
 - (c) taking all reasonable steps, and exercising due diligence, to ensure that the *shares* in the ICVC are priced in accordance with CIS 4 (Single-pricing and dealing);
 - (d) taking action immediately to rectify any breach of CIS 4 and, where the breach relates to the incorrect pricing of *shares* or to the late payment in respect of the *issue* of *shares*, rectification must, unless the *depository* otherwise directs, extend to the reimbursement or payment, or arranging the reimbursement or payment, of *money*:
 - (i) by the ACD to *shareholders* and former *shareholders*;
 - (ii) by the ACD to the ICVC; or
 - (iii) by the ICVC to the ACD;

but rectification need not, unless the *depository* otherwise directs, extend to any such reimbursement or payment where it appears to the *depository* that the incorrect pricing, or late payment in respect of *issue*, is of minimal significance; and

- (e) ensuring that the *ICVC* complies with the obligations imposed by, and, when appropriate, exercises the powers provided by, the following provisions of the *OEIC regulations*:
 - (i) 21 : (The Authority's approval for certain changes in respect of *ICVC*);
 - (ii) 36 : (Inspection of directors' service contracts);
 - (iii) 46 : (Share certificates), subject to regulation 47 (exceptions from regulation 46);
 - (iv) 48 : (Bearer shares);
 - (v) 50 : (Power to close register);
 - (vi) 54(1) : (Name to appear in correspondence etc);
 - (vii) 55 : (Particulars to appear in correspondence etc);
 - (viii) Schedule 3 : (Register of shareholders) excluding paragraph 12 of Schedule 4; and
 - (ix) Schedule 4: (Share transfers).

Valuation and pricing : for ICVCs

7.3.2

G

For the purposes of *CIS* 7.3.1R(3)(c) and (d), *CIS* 7 Ann 1G contains *guidance* on the valuation and pricing of *authorised funds*, including:

- (1) pricing controls and the valuation of the *scheme property*;
- (2) recording and reporting of incorrect pricing; and
- (3) procedures to be adopted following incorrect *prices*, including action that should be taken to rectify any breach.

Maintenance of records

7.3.3

R

(1) The *ACD* must make and retain such accounting and other records for the *ICVC* as are necessary:

- (a) to enable the *ICVC* to comply with the *OEIC regulations* and the *rules* in this sourcebook; and

- (b) to demonstrate at any time that such compliance has been achieved.
- (2) The *ACD* must make and retain a daily record of the *shares* in the *ICVC* held, acquired or disposed of by the *ACD*, including the *classes* of such *shares*, and of the balance of any acquisitions and disposals.

Maintenance of capital

7.3.4

R
/1

If, at any time after the size of the *ICVC*'s capital (as provided for the purposes of sub-paragraph 4(1)(c) of Schedule 2 to the *OEIC regulations* in paragraph 4(2) of that Schedule) has reached the minimum size provided in its *instrument of incorporation*, the size of that capital either falls below that minimum or exceeds the maximum size provided in the *instrument of incorporation*, the *ACD* must immediately notify the *FSA* of that fact.

7.4 The depositary

General duties of the depositary

7.4.1

R

/1

- (1) The *depositary* must take reasonable care to ensure that:
- (a) the *ICVC* is managed in accordance with:
 - (i) *CIS 4* (Single-pricing and dealing);
 - (ii) *CIS 9* (Income); and
 - (iii) in relation to *umbrella schemes*, *CIS 12.5.4R* (Income) and *CIS 12.5.7R* (Investment and borrowing powers);
 - (b) the *ICVC* is managed without infringement of any provision of the *instrument of incorporation* that relates to:
 - (i) the *initial offer* or *issue* or *cancellation* or *sale* or *redemption* or pricing of *shares*;
 - (ii) the *dilution levy* or *SDRT provision*;
 - (iii) the valuation of the *scheme property*;
 - (iv) accounting periods (including *half-yearly accounting periods*);
 - (v) the calculation of income available for allocation;
 - (vi) the allocation, payment or retention of income; and
 - (vii) unclaimed distributions; and
 - (c) decisions about the constituents of the *scheme property* do not cause an infringement of *CIS 5* (Investment and borrowing powers).
- (2) The *depositary* must take reasonable care to ensure on a continuing basis that:

- (a) the *ACD* is adopting procedures and methods which are appropriate to ensure that the *price* of a *share* is calculated for each *valuation point* in accordance with *CIS 4* (Single-pricing and dealing); and
 - (b) the *ACD* has maintained sufficient records to show compliance with *CIS 4* (Single-pricing and dealing).
- (3) The *depositary*, when acting in its capacity as *depositary*, must act solely in the interests of the *shareholders*.

Valuation and pricing

7.4.2

G
/1

For the purposes of *CIS 7.4.1R(1)(a)(i)* and *CIS 7.4.1R(2)*, *CIS 7 Ann 1G* contains *guidance* on the valuation and pricing of *authorised funds*, including:

- (1) pricing controls and the valuation of the *scheme property*;
- (2) *depositary's* review of the *ACD's* controls and systems;
- (3) the recording and reporting of incorrect pricing; and
- (4) procedures to be adopted following incorrect *prices*, including action that should be taken to rectify a breach.

Duty to inform the FSA : for ICVCs

7.4.3

R
/1

(1) The *depositary* must inform the *FSA* immediately upon becoming aware of any circumstance where there is no longer certainty that:

- (a) the *ICVC* is managed in accordance with *CIS 7.4.1R(a)(i)*, (ii) and (iii) (General duties of the depositary); and
- (b) decisions about the constituents of the *scheme property* do not cause an infringement of *CIS 5* (Investment and borrowing powers);

unless the *depositary* has taken reasonable care to determine that the circumstance in question is not, and is not likely to become, materially significant.

(2) If the *depositary* becomes aware of a circumstance which it needs to investigate in order to ascertain whether its duty to inform the *FSA* under (1) arises, then:

- (a) the *depositary* must inform the *FSA* of that circumstance immediately after it determines, having taken reasonable care that the circumstance is, or is likely to become, materially significant, or if no such determination is made within 90 *days*

of so becoming aware, then the *depositary* must inform the *FSA* immediately; or

- (b) the *FSA* need not be notified where the *depositary* determines the circumstance is not, or is not likely to become, materially significant.
- (3) The *depositary* must not retire voluntarily unless, before its retirement, it has ensured that the new *depositary* has been informed of any circumstance of which the retiring *depositary* has informed the *FSA* in accordance with (1) or (2), or which is being investigated for the purpose of (2).

Control by the depositary over the scheme property

7.4.4

R

/1

- (1) The *depositary* is responsible for the safekeeping of all of the *scheme property* of the *ICVC* (other than tangible movable property) entrusted to it. The *depositary's* duties under this paragraph are not restricted by (2).
- (2) The *depositary* must:
 - (a) take all steps and execute all documents to ensure that transactions properly entered into for the account of the *ICVC* in accordance with *CIS* 7.2.1R(5) and (6) (The directors) or *CIS* 7.3.1R(3)(a) (The ACD) are completed;
 - (b) ensure that any of that *scheme property* in registered form is, as soon as practicable, registered in the name of the *depositary*, its nominee or a *person* retained by it under *CIS* 7.6.1R (Committees and appointments);
 - (c) take into its *custody* or under its control all of the deeds and other documents relating to title to the *scheme property* other than in respect of transactions in *derivatives* or forward transactions; and
 - (d) ensure that any transaction in *derivatives* or forward transaction is entered into in such a manner as to ensure that any resulting benefit is received by the *depositary*.
- (3) The *depositary* is responsible for the collection of any income due to be paid for the account of the *ICVC* and must hold and deal with any income so collected in accordance with *CIS* 9 (Income).
- (4) The *depositary* must keep such records as are necessary:
 - (a) to enable it to comply with the *rules* in this sourcebook; and
 - (b) to demonstrate that it has achieved such compliance.

Exercise of rights in respect of the scheme property

7.4.5

R

/1

- (1) The *depositary* must, subject to (2), take all steps and execute all such documents as are necessary to secure that instructions properly given to it by the *ACD* as to the exercise of rights (including voting rights) attaching to the ownership of *scheme property* are carried out.
- (2) The *depositary* may exercise (or not exercise) any right of voting conferred by any of the *scheme property* of the *ICVC* which consists of *units* in any other *collective investment scheme* managed or otherwise operated by any *director* of the *ICVC* or by an *associate* of any such *director*, but only after consultation with the *directors* of the *ICVC*.

7.5 The ICVC, its directors and the depositary

Dealings in scheme property

7.5.1

R

/1

- (1) The *ACD* may give instructions as to the acquisition or disposal of property for the account of the *ICVC*. The authority of the *depositary* to give those instructions is not required, except in the case of the acquisition or disposal of immovable property.
- (2) Where the *depositary* is of the opinion that a particular acquisition or disposal of property for the account of the *ICVC* exceeds the powers conferred on the *ICVC* by the *rules* in this sourcebook (and in particular *CIS 5* (Investment and borrowing powers)), the *depositary* may require the *ACD* to cancel the transaction or make a corresponding disposal or acquisition to secure restoration of the previous situation and to meet any resulting loss or expense.
- (3) Where the *depositary* is of the opinion that:
 - (a) an acquisition of property for the account of the *ICVC* necessarily involves documents evidencing title being kept in the *custody* of a *person* other than the *depositary*; and
 - (b) the *depositary* cannot reasonably be expected to accept the responsibility which would otherwise be placed upon it if it were to permit *custody* by that other *person*;

the *ACD* must (for the account of the *ICVC*), if the *depositary* so requests, either cancel the transaction or make a corresponding disposal.

ICVC without a Director

7.5.2

R

/1

- (1) If the *ICVC* ceases to have any *directors*, the *depositary* has the power:
 - (a) to retain the services of an *authorised person* to carry out the functions referred to in *CIS 7.3.1R(3)(a)and(b)* (The *ACD*); or

- (b) provided it is not prohibited from doing so by any law or any *rule*, to manage the *scheme property* itself on behalf of the ICVC;

until in either case; a *director* is appointed; or a winding up of the ICVC is commenced.

Duties of the ACD and depositary: investment and borrowing powers

7.5.3

R

/1

- (1) The *ACD* must take all reasonable steps and exercise due diligence to avoid the *scheme property* being used or invested contrary to any provision in *CIS 5* (Investment and borrowing powers), except to the extent permitted by (6)(c).
- (2) The *depositary* must take all reasonable steps and exercise due diligence to monitor the management of the *scheme property* sufficiently to ensure that the *ACD* complies with (1).
- (3) The *ACD* must, immediately upon becoming aware of any breach of any provision in *CIS 5*, take action, at its own expense, to rectify that breach, unless the breach occurred as the result of a circumstance of one of the types described in (5) and (6).
- (4) When this paragraph (4) applies as a result of (5) or (6), the *ACD* must take the steps necessary to ensure a restoration of compliance with *CIS 5* as soon as is reasonably practicable having regard to the interests of the *shareholders* and, in any event, within the period specified in (8) or, when applicable, (9).
- (5) Paragraph (4) applies:
 - (a) where the *scheme property* is used or invested at any time contrary to any provision of *CIS 5* (other than a provision excusing a failure to comply on a temporary basis); and
 - (b) the reason for the contravention is beyond the control of both the *ACD* and the *depositary*.
- (6) (a) Paragraph (4) applies to a transaction (“subsequent transaction”) deriving from a right (such as the right to convert stock or subscribe to a rights issue) attributable to an *investment* (‘original *investment*’) of the ICVC if:
 - (i) the subsequent transaction, but for this *rule* (*CIS 7.5.3R*) would constitute a breach of *CIS 5*; and
 - (ii) at the time of the acquisition of the original *investment*, it was reasonable for the *ACD*, on the assumption that any right attached to the original *investment* when it was

acquired would be exercised, to expect that a breach would not be caused by the subsequent transaction.

- (b) In this paragraph (6) reference to the exercise of a right includes the taking effect of a right without any action by or on behalf of the *depositary* or the *ICVC*.
 - (c) Nothing in *CIS 5* prevents the *ICVC* from entering into a transaction of the type described in (a) provided that the *ACD* obtains the prior written consent of the *depositary*.
- (7) Immediately upon the *depositary* becoming aware of any circumstance described in (5) or any breach resulting from the exercise of, or receipt of a benefit from, a right in the circumstance described in (6), it must take the steps necessary to ensure that the *ACD* complies with (4).
- (8) The maximum period for restoration of compliance under (4) starts at the date of discovery of the relevant circumstance and lasts, subject to any extension under (9):
- (a) except where (b), (c) or (d) applies, for six months;
 - (b) where the transaction in question was a transaction in *derivatives* or a forward transaction under *CIS 5.6* (Futures and options schemes) or *CIS 5.7* (Geared futures and options schemes), until the close of business five *business days* later;
 - (c) where the transaction in question was entered into under *CIS 5.13R* (Efficient portfolio management), until the close of business five *business days* later; and
 - (d) where the *ICVC* is a *property scheme* and the property in question is an immovable, for two years.
- (9) The period specified at (8)(b) and (c) (five *business days*) is extended:
- (a) if the transaction involved a delivery of a *commodity*, from five to twenty *business days*;
 - (b) if the reason for the contravention in (5) is the inability of the *ACD* to *close out* a transaction because of a limit in the number or value of transactions imposed by an *eligible derivatives* market, until five *business days* after:
 - (i) the inability resulting for any such limit is removed; or
 - (ii) it becomes, to the knowledge of the *ACD*, reasonably practicable and reasonably prudent for the transaction to be closed out in some other way.

7.6 Committee, appointments and conflicts of interest

Committees and appointments

7.6.1

R

/1

- (1) The *directors* have the power to delegate to any *director*, or any committee consisting of one or more *directors*, any of the *directors*' powers or duties, but the *directors* remain responsible for the acts or omissions of any such *director* or committee as if they were acts or omissions of the *directors*. This paragraph (1) is subject to CIS 7.2.1R(3) (The directors).
- (2) The *ACD* or the *directors* have the power to retain the services of anyone, including the *depository*, to assist the *ACD* or the *directors* (as the case may be) to perform their respective functions.
- (3) The *depository* has the power to retain the services of anyone, including a *director* of the *ICVC*, to assist the *depository* to perform its functions, but must not retain the services of:
 - (a) the *ICVC* or any *director* of the *ICVC* to assist the *depository* to perform:
 - (i) any function of oversight in respect of the *ICVC*, its *directors* or any of them; or
 - (ii) any function of *custody* or control of the *scheme property* of the *ICVC*;
 - (b) an *associate* of the *ICVC* or of any of the *directors* of the *ICVC* to assist the *depository* to perform any function in (a)(i);
 - (c) a *nominee company* or anyone else to assist it to perform the function of being a *custodian* of documents evidencing title to *scheme property* of the *ICVC* unless the arrangements with the *custodian* prohibit the *custodian* from releasing the documents into the possession of a third party without the consent of the *depository*.
- (4) If:

- (a) the *ACD* retains the services of (or causes the *ICVC* to retain the services of) anyone to assist the *ACD* to perform any function concerning the management of the *scheme property* of the *ICVC*; or
- (b) the *ACD* or the *directors* of the *ICVC* retain the services of (or cause the *ICVC* to retain the services of) the *depository*, or an *associate* of any of the *directors* of the *ICVC* or of the *depository*, to assist the *ACD* or the *directors* (as the case may be) to perform any of their respective functions; or
- (c) the *depository* retains the services of a *director* of the *ICVC* or an *associate* of such a *director* or of the *depository* to assist the *depository* to perform the functions of the *depository*

then, in the case of (a), the *ACD* and in the case of (b), the *ACD* or the *directors* and in the case of (c), the *depository*, remains responsible for the acts or omissions of the *person* retained as if they were the acts or omissions of the *ACD* or of the *directors* or of the *depository* (as the case may be).

- (5) Subject to the provisions of the *OEIC regulations* and to (1) and (4), a *person* retaining services under (2) or (3) will not be held responsible by the *FSA* by virtue of the *rules* in *CIS* for any act or omission of the *person* so retained if the *person* retaining services can show:
 - (a) that it was reasonable for the *person* retaining services to obtain assistance to perform the function in question;
 - (b) that the *person* retained was and remained competent to provide assistance in the performance of the function in question; and
 - (c) that the *person* retaining services had taken reasonable care to ensure that the assistance in question was provided by the *person* retained in a competent manner.
- (6) At any time when *CIS* 7.2.1R(5) (The directors) applies, the *directors* have, in respect of the functions conferred on the *ACD* in accordance with *CIS* 7.3.1R (The ACD), the same rights to retain the services of other *persons* to assist in the performance of those functions and have the same responsibilities for the acts or omissions of the *person* retained that an *ACD* has under this rule *CIS* 7.6.1R.

Appointments and responsibility for regulatory obligations

7.6.2

G
/1

SYSC 3.2 contains *guidance* relating to delegation, including external delegation. SYSC 3.2.4G(1) states that a *firm* cannot contract out of its regulatory obligations, but this does not affect CIS 7.6.1R(5).

Conflict of interests

7.6.3

R
/1

- (1) The *ACD*, any other *director* and the *depository*, must respectively take all reasonable steps to ensure that a transaction within any of (a) to (f) is not entered into:
- (a) the placing of cash forming part of the *scheme property* in any current, *deposit* or loan account with an *affected person* unless the *affected person* is an *eligible institution* and the arm's length requirement in (2) is satisfied;
 - (b) the lending of *money* by an *affected person* to, or for the account of, the *ICVC*, unless the *affected person* is an *eligible institution*, and the arm's length requirement in (2) is satisfied;
 - (c) the *sale* of, or dealing in, property by an *affected person*, to, or with, the *ICVC* (or the *depository* for the account of the *ICVC*), unless (4) applies; and for the purpose of this paragraph (c), a *sale* includes any lease or other transaction under which movable or immovable property is made available by the *ICVC*;
 - (d) the vesting of property (other than cash) by an *affected person* in the *ICVC* or the *depository* for the account of the *ICVC* against the *issue* of *shares* in the *ICVC*, unless:
 - (i) paragraph (3) applies; or
 - (ii) it is vested for the purpose of arrangements by which the whole or part of the property of a *body corporate* or a *collective investment scheme* becomes the first property of the *ICVC* and the *holders of shares* or *units* in the *body corporate* or *collective investment scheme* become the first *shareholders* in the *ICVC*;
 - (e) the *purchase* of *scheme property* by an *affected person* from the *ICVC* (or the *depository* acting for the account of the *ICVC*), unless CIS 4.5.4R (In specie cancellation) applies, or unless (3) applies. For the purpose of this paragraph (e), a *purchase* includes any lease or other transaction under which *scheme property* that is movable or immovable property is made available by the *ICVC*.

- (f) transactions within CIS 5.14 (Stock lending) by an *affected person* with, or in relation to, the ICVC unless the arm's length requirement in (2) is satisfied.
- (2) The arm's length requirement is that the arrangements are at least as favourable to the ICVC as would be any comparable arrangement effected on normal commercial terms negotiated at arm's length between the *affected person* and an independent party.
- (3) There is no breach of (1)(c), (d) or (e) if (4) (best execution *on-exchange*) or (5) (independent valuation) or (6) (arm's length transaction) applies.
- (4) There is best execution *on-exchange* for the purposes of (3) if:
- (a) the property is an *approved security* or an *approved derivative*;
 - (b) the transaction is effected under the rules of the relevant exchange with or through a *person* who is bound by those rules;
 - (c) there is evidence in writing of the effecting of the transaction and of its terms; and
 - (d) the ACD has taken all reasonable steps to effect the transaction or to ensure that it is effected on the terms which are the best available for the ICVC.
- (5) There is independent valuation for the purposes of (3) if:
- (a) the value of the property is certified in writing for the purpose of the transaction by a *person* selected or approved by the *depository* as:
 - (i) independent of any *affected person*; and
 - (ii) qualified to value property of the relevant kind; and
 - (b) the *depository* is of the opinion that the terms of the transaction are not likely to result in any material prejudice to *shareholders*.
- (6) There is an arm's length transaction for the purposes of (3) if:
- (a) paragraph (4)(a) is not satisfied; and
 - (b) it is not reasonably practicable to obtain an independent valuation under (5); and

- (c) the *depository* has reliable evidence that the transaction is or will be on terms which satisfy the arm's length requirement in (2).
- (7) Paragraphs (1)(a) to (f) are subject to any provision in the *instrument of incorporation* forbidding the taking of advantage of all or any of them.

7.7 AUTs: powers and duties

Introduction

7.7.1

G

^{/1}

- (1) The *guidance* in CIS 7.8.2G (Valuation and pricing) and the rest of CIS 7 relate to the powers and duties of the *manager* and the *trustee*. In addition, both the *manager* and the *trustee* have fiduciary duties under the general law relating to trusts, and powers and duties under other chapters of this sourcebook and the *trust deed*.
- (2) Generally, the *manager* is responsible for managing the *AUT*: in particular for managing the investments, valuing the *scheme property* and pricing, selling and redeeming *units*.
- (3) The *trustee* has duties of oversight and is responsible for the title to investments.
- (4) This chapter also contains provisions relating to:
 - (a) the appointment of the *manager* or the *trustee*;
 - (b) the appointment of an auditor;
 - (c) transactions where there may be a conflict of interests between the *AUT* and the *manager* or the *trustee* or certain other *persons*;
 - (d) the delegation of functions by the *manager* or the *trustee*.

7.8 The manager

Management duties

7.8.1

R

/1

- (1) The *manager* must manage the *AUT* in accordance with:
 - (a) the *trust deed*;
 - (b) the *rules* in this sourcebook; and
 - (c) the most recently published *prospectus*.
- (2) It is the *manager's* right and duty, subject to (1), to make decisions as to the constituents of the *scheme property* in accordance with the investment objectives and policy stated in the *prospectus*.
- (3) The *manager* must instruct the *trustee* from time to time in writing how rights attaching to the ownership of the *scheme property* are to be exercised; but not in any case where, under *CIS* 7.9.5R(2) (Exercise of the rights in respect of the scheme property), the *trustee* has the right to exercise (or not exercise) voting rights after consultation with the *manager*.
- (4) The duty at (1) extends to taking all reasonable steps, and exercising due diligence, to ensure that the *units* in the *AUT* are priced in accordance with *CIS* 4 (for a *single-priced AUT*) or *CIS* 15 (for a *dual-priced AUT*).
- (5) The duty at (1) extends to taking action immediately to rectify any breach of *CIS* 4 or *CIS* 15 and, where the breach relates to the incorrect pricing of *units*, or to the late payment in respect of the *issue* of *units*, rectification must, unless the *trustee* otherwise directs, extend to the reimbursement or payment of *money*:
 - (a) by the *manager* to *unitholders* or to former *unitholders*;
 - (b) by the *manager* to the *trustee*; or
 - (c) by the *trustee* (for the account of the *AUT*) to the *manager*;

but rectification need not, unless the *trustee* otherwise directs, extend to any such reimbursement or payment where it appears to the *trustee* that the incorrect pricing, or late payment in respect of *issue*, is of minimal significance.

Valuation and pricing

7.8.2

G

/1

For the purposes of CIS 7.8.1R(4) and (5), CIS 7 Ann 1G contains *guidance* on the valuation and pricing of *authorised funds*, including:

- (1) pricing controls and the valuation of the *scheme property*;
- (2) recording and reporting of incorrect pricing; and
- (3) procedures to be adopted following incorrect prices, including action that should be taken to rectify any breach.

Maintenance of records

7.8.3

R

/1

(1) The *manager* must make and retain accounting and other records that are necessary:

- (a) to enable it to comply with the *rules* in this sourcebook; and
- (b) to demonstrate at any time that such compliance has been achieved.

(2) The *manager* must make and retain for a period of six years a daily record of the *units* held, acquired or disposed of, by it, including the *classes* of such *units*, and of the balance of any acquisitions and disposals.

(3) The *manager* must make the daily record available for inspection in the *United Kingdom* by the *trustee* free of charge at all times during ordinary office hours and must supply the *trustee* with a copy of the record or any part of it on request free of charge.

Manager to supply information to trustee

7.8.4

R

/1

The *manager* must on the request of the *trustee* immediately supply it with such information concerning the management and administration of the *AUT* as the *trustee* may reasonably require.

Auditor

7.8.5

R

/1

(1) The *manager* must, at the outset and upon any vacancy, with the approval of the *trustee* appoint as an auditor for the *AUT* any

person qualified for appointment as auditor of an *authorised person*.

- (2) The audit fees of the auditor are determined by the *manager* with the approval of the *trustee*.
- (3) The *manager* may, with the approval of the *trustee*, at any time, remove an auditor; this power exists notwithstanding anything in any agreement between the *persons* concerned.

Tax returns

7.8.6

R

/1

The *manager* must from time to time prepare and supply to the *trustee* the returns relating to the *scheme property* required to be submitted by the *trustee* to the Board of Inland Revenue.

7.9 The trustee

Oversight by the trustee of the manager

7.9.1

R

/1

- (1) The *trustee* must take reasonable care to ensure:
 - (a) except in relation to *CIS 5* (Investment and borrowing powers), and subject to (4) and (5), that the *AUT* is managed by the *manager* in accordance with *CIS 7.8.1R* (Management duties); and
 - (b) in relation to *CIS 5* (Investment and borrowing powers), that decisions about the constituents of the *scheme property* do not cause an infringement of *CIS 5*.
- (2) The *trustee* must take reasonable care to ensure on a continuing basis that:
 - (a) the *manager* is adopting procedures and methods which are appropriate to ensure that:
 - (i) the *price* of a *unit* of a *single-priced AUT* is calculated for each *valuation point* in accordance with *CIS 4*; and
 - (ii) the prices at which *units* of a *dual-priced AUT* are sold and redeemed are within the limits for the time being prescribed by *CIS 15.4.4R* (Sale price parameters) and *CIS 15.4.9R* (Redemption price parameters); and
 - (b) the *manager* makes and retains sufficient records to show compliance with *CIS 4* or *CIS 15* as the case may be.
- (3) If the *trustee* taking reasonable care is at any time not certain of any matter specified in (2), it must inform the *FSA*.
- (4) The *trustee*:
 - (a) must take reasonable care to ensure that:
 - (i) the *manager* considers whether or not to exercise the power provided by *CIS 4.6.3R(1)(c)* and (d) (Dilution levy and SDRT provision) or, for *dual-priced AUTs*, *CIS*

15.6.3R(1) (SDRT provision) and the amount or rate of any *SDRT provision* that is imposed; and

- (ii) in that consideration the *manager* has, so far as the *trustee* is aware, taken account of all factors that are material and relevant to the *manager's* decision; and
 - (b) subject to (a), has no duty in respect of the *manager's* exercise or omission to exercise the power provided referred to in (a).
- (5) The *trustee* of a *single-priced AUT*:
- (a) must also take reasonable care to ensure that:
 - (i) the *manager* considers whether or not to exercise the power provided by *CIS* 4.6.3R(1)(a) or (b) and the amount or rate of any *dilution levy* that is imposed; and
 - (ii) in that consideration the *manager* has, so far as the *trustee* is aware, taken account of all factors that are material and relevant to the *manager's* decision; and
 - (b) subject to (a), has no duty in respect of the *manager's* exercise or omission to exercise the power referred to in (a).

Valuation and pricing : for AUTs

7.9.2

G
/1

For the purposes of *CIS* 7.9.1R(1)(a) and *CIS* 7.9.1R(2), *CIS* 7 Ann 1G contains *guidance* on the valuation and pricing of *authorised funds*, including:

- (1) pricing controls and the valuation of the *scheme property*;
- (2) a *trustee's* review of the *manager's* controls and systems;
- (3) the recording and reporting of incorrect pricing; and
- (4) procedures to be adopted following incorrect prices, including action that should be taken to rectify any breach.

Duty to inform the FSA : for AUTs

7.9.3

R
/1

- (1) The *trustee* must inform the *FSA* immediately upon becoming aware of any circumstance as a result of which there is no longer certainty that:
 - (a) except in relation to *CIS* 5 (Investment and borrowing powers), the *AUT* is managed by the *manager* in accordance with *CIS* 7.8.1R(1)R (Management duties); and

- (b) decisions about the constituents of the *scheme property* do not cause an infringement of CIS 5;

unless the *trustee* has taken reasonable care to determine that the circumstance in question is not, and is not likely to become, materially significant.

- (2) If the *trustee* becomes aware of a circumstance which it needs to investigate in order to ascertain whether its duty to inform under (1) arises, then:
- (a) the *trustee* must inform the *FSA* of that circumstance immediately after it determines the circumstance is, or is likely to become, materially significant, or if no such determination is made within 90 *days* of so becoming aware, then the *depository* must inform the *FSA* immediately after the end of the 90 *days*; or
- (b) the *FSA* need not be notified where the *trustee* determines the circumstance is not, or is not likely to become, materially significant.
- (3) The *trustee* must not retire voluntarily unless, before its retirement, it has ensured that the new *trustee* has been informed of any circumstance of which the retiring *trustee* has informed the *FSA* in accordance with (1) or (2) or which is being investigated for the purpose of (2).

Control by the trustee over the scheme property

7.9.4

R

/1

- (1) The *trustee* must take all steps and complete all documents which are necessary to secure that transactions for the account of the *AUT* properly entered into by the *manager* in accordance with its powers under the *rules* in this sourcebook are completed.
- (2) The *trustee* must take into its *custody* or under its control all the *capital property* of the *AUT* and hold it in trust for the *unitholders* in accordance with the *rules* in this sourcebook and the *trust deed*.
- (3) The *trustee* is responsible for the collection of any income due to be paid for the account of the *AUT* and for claiming any repayment of tax, and must hold any income received in trust for the *unitholders* in accordance with the *rules* in this sourcebook and the *trust deed*.
- (4) The *trustee* must make and retain such records as are necessary:
- (a) to enable it to comply with the *rules* in this sourcebook; and

- (b) to demonstrate that such compliance by it has been achieved.

Exercise of the rights in respect of the scheme property

7.9.5

R

/1

- (1) The *trustee* must take all steps and execute all such documents as are necessary to secure that instructions properly given to it by the *manager* as to the exercise of rights (including voting rights) attaching to the ownership of *scheme property* are carried out.
- (2) The *trustee* may exercise (or not exercise) any right of voting conferred by any of the *scheme property* which is:
 - (a) *units* in any other *collective investment scheme* managed or otherwise operated by the *manager* or by an *associate* of the *manager*; or
 - (b) shares in an approved *investment trust* which form part of the *scheme property* of a *feeder fund* managed or otherwise operated by the *manager* or by an *associate* of the *manager*;

but in either case, only after consultation with the *manager*.
- (3) The *trustee* must, upon the written request of the *manager*, from time to time execute and deliver or cause to be executed or delivered to the *manager* or its nominees such powers of attorney or proxies as the *manager* may reasonably require, in such name or names as the *manager* may request, authorising such attorneys and proxies to vote, consent or otherwise act in respect of all or any part of the *scheme property* not included in (2).
- (4) The *trustee* must, without undue delay, forward to the *manager* all notices of meetings, reports, circulars, proxy solicitations and other documents of a like nature received by it as registered *holder* of any investment.
- (5) In this *rule* (*CIS 7.9.5R*):
 - (a) “voting” includes giving any consent to or approval of any arrangement, scheme or resolution or any alteration in or abandonment of any rights attaching to any part of the *scheme property*; and
 - (b) “right” includes a requisition or joining in a requisition to convene any meeting or a right to give notice of any resolution or to circulate any statement or to consent to any short notice of any meeting.

7.10 The manager and the trustee

Duties of the manager and trustee under the general law

7.10.1

R

/1

- (1) The duties of the *manager* and the *trustee* imposed on them by the *rules* in this sourcebook and by the *trust deed* are in addition to, and not in derogation from, the duties which are otherwise imposed on them by law.
- (2) The *manager* and the *trustee* are required to fulfil those other duties by this *rule* (CIS 7.10.1R) as well as by the general law.
- (3) The *manager* and the *trustee* have, as a result of this *rule* (CIS 7.10.1R), all the powers conferred on them by the general law.
- (4) Paragraphs (1), (2) and (3) apply only in so far as the duties imposed or powers conferred by the general law are not qualified or restricted by the *rules* in this sourcebook and by the *trust deed*.

Dealings in scheme property

7.10.2

R

/1

- (1) The *manager* may give instructions as to the acquisition or disposal of property for the account of the *AUT*. The authority of the *trustee* to give those instructions is not required except in the case of the acquisition or disposal of immovable property.
- (2) Where the *trustee* is of the opinion that a particular acquisition or disposal of property for the account of the *AUT* by the *manager* exceeds the powers conferred on the *manager* by the *rules* in this sourcebook (and in particular CIS 5), the *trustee* may require the *manager* to cancel the transaction or make a corresponding acquisition or disposal to secure restoration of the previous situation and to meet any resulting loss or expense.
- (3) Where the *trustee* is of the opinion that:
 - (a) an acquisition of property by the *manager* necessarily involves documents evidencing title being kept in the *custody* of a *person* other than the *trustee*; and

- (b) the *trustee* cannot reasonably be expected to accept the responsibility which would otherwise be placed upon it if it were to permit *custody* by such a *person*;

the *manager* must (for the account of the *AUT*) cancel the transaction or make a corresponding disposal if the *trustee* so requests.

Duties of the manager and trustee: investment and borrowing powers

7.10.3

R
/1

- (1) The *manager* must take all reasonable steps and exercise all due diligence to avoid the *scheme property* being used or invested contrary to any provision in *CIS 5* (Investment and borrowing powers), except to the extent permitted by (6)(c).
- (2) The *trustee* must take all reasonable steps and exercise due diligence to monitor the management of the *scheme property* sufficiently to ensure that the *manager* complies with (1).
- (3) The *manager* must, immediately upon becoming aware of any breach of any provision in *CIS 5*, take action, at its own expense, to rectify that breach, unless the breach occurred as a result of a circumstance of one of the types described in (5) and (6).
- (4) When this paragraph (4) applies, as a result of (5) or (6), the *manager* must take the steps necessary to ensure a restoration of compliance with *CIS 5* as soon as is reasonably practicable having regard to the interests of the *unitholders* and, in any event, within the period specified in (8) or, when applicable, (9).
- (5) Paragraph (4) applies:
 - (a) where the *scheme property* is used or invested at any time contrary to any provision of *CIS 5* (other than a provision excusing a failure to comply on a temporary basis); and
 - (b) the reason for the contravention is beyond the control of both the *manager* and *trustee*.
- (6) (a) Paragraph (4) applies to a transaction (“subsequent transaction”) deriving from a right (such as the right to convert stock or subscribe to a rights issue) attributable to an *investment* (“original *investment*”) of the *AUT* if:
 - (i) the subsequent transaction, but for this *rule CIS 7.10.3R*, would constitute a breach of *CIS 5*; and
 - (ii) at the time of the acquisition of the original *investment*, it was reasonable for the *manager*, on the assumption that any right attached to the original *investment* when it was

acquired would be exercised, to expect that a breach would not be caused by the subsequent transaction.

- (b) In this paragraph (6) reference to the exercise of a right includes the taking effect of a right without any action by or on behalf of the *trustee* or the *manager*.
 - (c) Nothing in CIS 5 prevents the *manager* from entering into a transaction of the type described in (a) provided that it has obtained the prior written consent of the *trustee*.
- (7) Immediately upon the *trustee* becoming aware of any circumstance described in (5) or any breach resulting from the exercise of, or receipt of a benefit from, a right in the circumstance described in (6), it must take the steps necessary to ensure that the *manager* complies with (4).
- (8) The maximum period for restoration of compliance under (4) starts at the date of discovery of the relevant circumstance and lasts, subject to any extension under (9):
- (a) except where (b), (c) or (d) applies, for six months;
 - (b) where the transaction in question was a transaction in *derivatives* or a forward transaction under CIS 5.6R (Futures and options schemes) or CIS 5.7R (Geared futures and options schemes), until the close of business five *business days* later;
 - (c) where the transaction in question was entered into under CIS 5.13R (Efficient portfolio management), until the close of business five *business days* later; and
 - (d) where the *AUT* is a *property scheme* and the property in question is an immovable, for two years.
- (9) The period specified at (8)(b) and (c) (five *business days*) is extended:
- (a) if the transaction involved a delivery of a *commodity*, from five to 20 *business days*;
 - (b) if the reason for the contravention in (5) is the inability of the *manager* to *close out* a transaction because of a limit in the number or value of transactions imposed by an *eligible derivatives* market, until five *business days* after:
 - (i) the inability resulting from any such limit is removed; or
 - (ii) it becomes, to the knowledge of the *manager*, reasonably practicable and reasonably prudent for the transaction to be closed out in some other way.

Delegation

7.10.4

R

/1

- (1) The *manager* may delegate any function to any *person*, including the *trustee*.
- (2) The *trustee* must not delegate:
 - (a) to the *manager*:
 - (i) any function of oversight in respect of the *manager*; or
 - (ii) any function of *custody* or control of the *scheme property*; or
 - (b) to an *associate* of the *manager*, any function in (a)(i).
- (3) The *trustee* must not delegate to anyone the function of being a *custodian* of documents evidencing title to *scheme property* unless the *arrangements* with the *custodian* prevent the *custodian* from releasing the documents into the possession of a third party without the consent of the *trustee*.
- (4) Subject to (2) and (3), the *trustee* may delegate any function to any *person* including the *manager*.
- (5) If:
 - (a) the *manager* delegates any function concerning the management of the *scheme property*; or
 - (b) the *manager* delegates any function to the *trustee* or to an *associate* of its own or of the *trustee*; or
 - (c) the *trustee* delegates any function to the *manager* or to an *associate* of its own or of the *manager*;

the *manager* or as the case may be the *trustee*, remains responsible, for the acts or omissions of the delegate as if they were the acts or omissions of the *manager*, or as the case may be of the *trustee*.
- (6) In the case of any delegation by the *manager* or the *trustee* to which (5) does not apply, the *manager*, or as the case may be the *trustee* will not be held responsible by the *FSA* by virtue of the rules in *CIS* for any act or omission of the delegate if the *manager* (or *trustee*) can show:
 - (a) that it was reasonable for a delegate to be employed for the function in question; and
 - (b) that the delegate was and remained competent to undertake the function in question; and

- (c) that the *manager* (or *trustee*) had taken reasonable care to ensure that the function in question was undertaken by the agent in a competent manner.

Delegation and responsibility for regulatory obligations

7.10.5

G

/1

SYSC 3.2 contains *guidance* relating to delegation, including external delegation, and SYSC 3.2.4(1)G states that a *firm* cannot contract out of its regulatory obligations, but this does not affect CIS 7.10.4R(6).

Conflict of interests

7.10.6

R

/1

- (1) The *manager* and the *trustee* must respectively take all reasonable steps to ensure that a transaction within any of (a) to (f) is not entered into:
- (a) the placing of cash forming part of the *scheme property* or standing to the credit of the *distribution account* in any current, *deposit* or loan account with an *affected person* unless the *affected person* is an *eligible institution* and the arms length requirement in (2) is satisfied;
 - (b) the lending of *money* by an *affected person* to, or for the account of, the *AUT* unless the *affected person* is an *eligible institution*, and the arm's length requirement in (2) is satisfied;
 - (c) the sale of, or dealing in, property to, or with, the *trustee* for the account of the *AUT* unless (3) applies and, for the purpose of this paragraph (c), a sale includes any lease or other transaction under which movable or immovable *scheme property* is made available by the *trustee*;
 - (d) the vesting of property (other than cash) by an *affected person* in the *trustee* against the *issue* of *units* in the *AUT*, unless upon a *unitisation* or unless (3) applies;
 - (e) the purchase of *scheme property* by an *affected person* from the *trustee*, acting for the account of the *AUT*, unless either CIS 4.5.4R or CIS 15.5.4R (In specie cancellation) or (3) applies. For the purpose of this paragraph (6), a purchase includes any lease or other transaction under which movable or immovable *scheme property* is made available by the *AUT*.
 - (f) transactions within CIS 5.14 (Stock lending) in relation to the *AUT* unless the arm's length requirement in (2) is satisfied.
- (2) The arm's length requirement is that the arrangements are at least as favourable to the *AUT* as would be those of any comparable arrangement effected on normal commercial terms negotiated at

arm's length between the *affected person* and an independent party.

- (3) There is no breach of (1)(c), (d) or (e) if (4) (Best execution on exchange) or (5) (Independent valuation) or (6) (Arm's length transaction) applies.
- (4) There is best execution *on-exchange* for the purposes of (3) if:
 - (a) the property is an *approved security* or an *approved derivative*;
 - (b) the transaction is effected under the rules of the relevant exchange with or through a user who is bound by those rules;
 - (c) there is evidence in writing of the effecting of the transaction and of its terms; and
 - (d) the *manager* has taken all reasonable steps to effect the transaction or to ensure that it is effected on the terms which are the best available for the *AUT*.
- (5) There is independent valuation for the purposes of (3) if:
 - (a) the value of the property is certified in writing for the purpose of the transaction by a *person* selected or approved by the *trustee* as:
 - (i) independent of any *affected person*; and
 - (ii) qualified to value property of the relevant kind; and
 - (b) the *trustee* is of the opinion that the terms of the transaction are not likely to result in any material prejudice to *unitholders*.
- (6) There is an arm's length transaction for the purposes of (3) if:
 - (a) paragraph (4)(a) is not satisfied; and
 - (b) it is not reasonably practicable to obtain an independent valuation under (5); and
 - (c) the *trustee* has reliable evidence that the transaction is or will be on terms which satisfy the arm's length requirement in (2).
- (7) Paragraphs (1)(a) to (f) are subject to any provision in the *trust deed* forbidding the taking of advantage of all or any of them.

7.11 New managers and trustees

Replacement of a manager

7.11.1

R

/1

- (1) The *manager* for the time being is subject to removal by written notice given by the *trustee* to the *manager* upon any of the following events:
 - (a) the *manager* goes into liquidation (except voluntary liquidation for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the *trustee*);
 - (b) a receiver is appointed of the *undertaking* or any part of it;
 - (c) an administration order is made in relation to the *manager* under section 8 of the Insolvency Act 1986;
 - (d) for good and sufficient reason the *trustee* is of the opinion and so states in writing that a change of *manager* is desirable in the interest of the *unitholders*;
 - (e) an *extraordinary resolution* is passed removing the *manager* (or to determine that it be removed as soon as this is permitted by law);
 - (f) *unitholders* of three quarters in value of the *units in existence* (excluding *units* held or treated as held by the *manager* or by any *associate* of the *manager*) make a request in writing to the *trustee* that the *manager* should be removed.
- (2) On receipt of a notice by the *trustee* under (1), the *manager* ceases to be the *manager*; and the *trustee* must by deed appoint another *person* eligible under the *Act* to be the *manager* of the *AUT* upon and subject to that other's entering into such deed or deeds as the *trustee* may require.
- (3) If the name of the *AUT* contains a reference to the name of the former *manager*, the former *manager* is entitled to require the new *manager* and the *trustee* immediately on receipt of a notice under (2) to propose a change in the name of the *AUT*.

Retirement of a manager

7.11.2

R

/1

- (1) The *manager* has the right to retire in favour of another *person* eligible under the *Act* and approved in writing by the *trustee* upon:
 - (a) the retiring *manager* appointing that *person* by deed as *manager* of the *AUT* in its place and assigning to that *person* all its rights and duties as such a *manager*; and
 - (b) the new *manager* entering into such deed or deeds as the *trustee* reasonably considers necessary or desirable to be entered into by that *person* in order to secure the due performance of its duties as a *manager*.
- (2) Upon retirement, the retiring *manager*:
 - (a) is released from all further obligations under the *rules* in this sourcebook and under the *trust deed*. However, this does not affect the rights of the *trustee* or of any *unitholder* or any other *person* in respect of any act or omission on the part of the retiring *manager* before his retirement; and
 - (b) may retain any consideration paid to it in connection with the change without having to account for it to any or all of the *unitholders*.
- (3) Upon the retirement of the retiring *manager* the new *manager* may exercise all the powers and enjoy all the rights and becomes subject to all the duties and obligations of the *manager* under the *rules* in this sourcebook and under the *trust deed* as if the new *manager* had originally been a party to the *trust deed*.

Consequences of retirement

7.11.3

R

/1

- (1) Upon the removal or retirement of the *manager*, the removed or retiring *manager*:
 - (a) remains entitled to all *units* held or treated as held by it;
 - (b) is to be registered in the *register* in respect of those *units*; and
 - (c) may require the *trustee* to issue to it a certificate or certificates for those *units* (if not previously issued).
- (2) Paragraph (1) is subject to any restriction in the *trust deed* deriving from *CIS 2.2.4G(1)(j)* (Limited categories of holder).

Retirement of the trustee

7.11.4

R

/1

- (1) The *trustee* may not retire voluntarily except upon the appointment of a new *trustee*.
- (2) When the *trustee* wishes to retire or ceases to be an *authorised person*, the *manager* may, subject to section 251 of the *Act* (Alteration of *schemes* and changes of *manager* or *trustee*), by a supplemental *trust deed*, appoint another *person eligible* under section 243 of the *Act* (Authorisation orders) to be the *trustee* in its place.

G Valuation and Pricing of authorised funds

1 Table This table belongs to [CIS 7G]

1.	Introduction	
	Application	
(1)	(a)	This Section 1. applies to <i>authorised fund managers</i> and <i>depositories</i> ;
	(b)	Section 2. applies to <i>authorised fund managers</i> ;
	(c)	Section 3. applies to <i>depositories</i> ; and
	(d)	Sections 4. and 5. apply to <i>authorised fund managers</i> and <i>depositories</i> , as indicated.
	Explanation	
(2)	(a)	This annex provides details of the types of checks and standards of control which an <i>authorised fund manager</i> and the <i>depository</i> of <i>authorised funds</i> should have in place for the valuation of the <i>scheme property</i> and pricing of <i>units</i> .
	(b)	This annex then sets out conditions under which the <i>FSA</i> would not consider it necessary for a pricing error of below a certain amount to result in compensation being payable to an investor.
	(c)	This annex relates to <i>CIS</i> 7.3.2G, 7.4.2G, 7.8.2G and 7.9.2G.
2.	Pricing controls by authorised fund managers	
	Introduction	
(1)	This section details the type of control regime the <i>FSA</i> considers that an <i>authorised fund manager</i> should employ to satisfy its obligations under <i>CIS</i> 7.3.1R(3)(c) and <i>CIS</i> 7.8.1R(4).	
(2)	Evidence of persistent or repetitive errors, or errors consistently in an <i>authorised fund manager's</i> favour, is likely to make it more difficult for an <i>authorised fund manager</i> to demonstrate it meets the standards in this section.	
	Method for valuing scheme property	
(3)	An <i>authorised fund manager</i> should determine its method for valuing the <i>scheme property</i> and apply it on a consistent basis.	
	Source of share prices and currency rates	
(4)	(a)	Share prices and currency rates used should be up to date and from a reputable source.
	(b)	The mere use of a source for prices and rates does not amount to delegation under <i>CIS</i> 7.10.4R (Delegation) and obtaining assistance under <i>CIS</i> 7.6.1R (Committees and appointments).
	(c)	Although it should not be necessary to carry out significant substantive checking, the reliability of the source of prices and rates should be kept under regular review and doubtful prices or rates should be followed up.
	Valuation agents	
(5)	(a)	The use of a third party to carry out the valuation function amounts to delegation, in accordance with <i>CIS</i> 7.10.4R (Delegation) and obtaining assistance under <i>CIS</i> 7.6.1R (Committees and appointments).

	(b)	Where the pricing function is delegated under <i>CIS</i> 7.10.4R or when assistance is obtained under <i>CIS</i> 7.6.1R, the <i>authorised fund manager</i> should satisfy itself that the valuation agent's system is robust and will produce accurate results.
	(c)	An <i>authorised fund manager</i> should keep the valuation agent's controls and procedures under review. That review should ensure that changes to controls and procedures, including a series of minor changes, do not have a significant adverse effect on the accuracy of the system.
	(d)	An <i>authorised fund manager</i> should review the outputs from the system regularly, and on any significant system change.
	(e)	In addition, if the valuation agent is also responsible for calculating dealing <i>prices of units</i> , an <i>authorised fund manager</i> should regularly review this system.
	Reconciliation	
(6)	(a)	Unless the valuation and record keeping systems are integrated, the valuation output should be agreed with an <i>authorised fund manager's</i> records of the <i>authorised fund</i> at each <i>valuation point</i> .
	(b)	In addition, an <i>authorised fund manager's</i> records, including debtors and creditors, should be agreed with the <i>depository's</i> records of stocks and both capital and income cash on a frequency agreed between the <i>authorised fund manager</i> and <i>depository</i> . Reconciling items need to be followed up promptly, and debtors reviewed for recoverability.
	Inclusion of investment transactions in valuations	
(7)	(a)	Systems should be in place by which all <i>investment transactions</i> are confirmed as quickly as possible in writing or by electronic means to an <i>authorised fund manager</i> or to a valuation agent.
	(b)	It is desirable that all <i>deals</i> to which the <i>authorised fund</i> is committed, which have been notified not less than one hour before a valuation, are included in that valuation, at estimated prices if necessary.
	(c)	Unless, however, there is likely to be significant movement in the <i>price</i> of a <i>unit</i> , it is more important that an accurate cut-off procedure is in place to ensure that omissions or duplications do not take place, than it is to ensure that estimates are included in a valuation.
	Prices obtained otherwise than from the main pricing source	
(8)	(a)	Where prices are obtained otherwise than from the main pricing source (for example unquoted, suspended, or illiquid stocks), an <i>authorised fund manager</i> should maintain a record of the source and basis for the value placed on the <i>investment</i> .
	(b)	The methodology, procedure and controls for the valuation of those stocks should be regularly reviewed to ensure that the valuations are fair and reasonable in the circumstances.
	Investment and borrowing powers/compliance	
(9)		Procedures should be in place to monitor the applicable <i>rules</i> in <i>CIS</i> 5 and, if breaches occur, to ensure they are rectified in accordance with <i>CIS</i> 7.5.3R or <i>CIS</i> 7.10.3R.
	Unapproved securities	
(10)		To assist with the identification of the level of investment in <i>securities</i> that are not <i>approved securities</i> , the <i>authorised fund manager</i> should notify the <i>depository</i> of any trade in unapproved <i>securities</i> as soon as reasonably practicable.
	Dividends, interest and expenses	
(11)	(a)	A system should be in place to ensure that dividends are accounted for as soon as stocks are quoted ex-dividend, unless, as with some foreign stocks, it is prudent to account for them only on receipt.

	(b)	Fixed interest dividends and interest should be accrued at each <i>valuation point</i> unless the level of materiality makes a longer interval appropriate.
	(c)	Similar considerations apply to the expenses of an <i>authorised fund</i> .
	Tax positions relevant to the authorised fund	
(12)	(a)	The full tax position should be reviewed regularly, including the basis for the current tax charge, the assumptions being used, and the tax rate applicable.
	(b)	Adjustments should be made for substantive changes (for example alterations to the tax profile or likely tax charge) when they occur.
	Dual-priced AUTs	
(13)	In the case of <i>dual-priced AUTs</i> , the justification for figures included for dealing expenses and <i>commissions</i> included in the price of a <i>unit</i> should be reviewed regularly, separately for different markets of different sectors. Adjustment should be made for substantive changes (for example changes in the rate or basis of stamp duty) as and when they occur.	
	Valuation limits	
(14)	(a)	An <i>authorised fund manager</i> should fix a percentage or absolute limit for certain key elements of the valuation, so that any movement outside these limits is investigated. The investigation and its outcome should be evidenced and retained by the <i>authorised fund manager</i> .
	(b)	These key elements could, where relevant, include: <ul style="list-style-type: none"> (i) the movement of the prices and values of individual stocks; (ii) changes in currency rates; and (iii) accrual figures for income, expenses, and tax. Prices which appear not to have changed after a fixed period of time should be investigated, since this may be the result of a price movement having been missed.
	Cash	
(15)	Cash should be reconciled to the bank account regularly, with outstanding items promptly followed up, and a full reconciliation should be sent to the <i>depository</i> at a frequency agreed with the <i>depository</i> .	
	Recording of units in issue	
(16)	Controls should be in place to ensure that the correct number of <i>units</i> in <i>issue</i> is recorded at each <i>valuation point</i> . This should be reconciled with the <i>register</i> of <i>unit-holders</i> or <i>shareholders</i> at a frequency agreed with the <i>depository</i> .	
	Verification by the fund manager of the assets of the authorised fund	
(17)	A copy of the valuation used to produce the <i>price</i> of the <i>units</i> should be sent to the fund <i>manager</i> at least weekly, which he should check. When the <i>authorised fund's valuation point</i> is less frequent than weekly, a copy of the valuation used should be sent to the fund <i>manager</i> as soon as practicable after the <i>valuation point</i> .	
3.	Pricing checks by depositaries	
	Introduction	
(1)	This section provides details of the types of checks a <i>depository</i> should carry out to be satisfied that the <i>authorised fund manager</i> adopts controls and systems which are appropriate to ensure that prices of <i>units</i> are calculated in accordance with <i>CIS</i> 4 or <i>CIS</i> 15, and to ensure that the likelihood of incorrect <i>prices</i> will be minimised. These checks also apply where a <i>manager</i> has delegated all or some of its pricing functions to a third party or where an <i>ACD</i> has obtained the assistance of a third party to carry out all or some of its pricing functions.	
	Review by the depository of authorised fund manager's controls and systems	
(2)	A <i>depository</i> should thoroughly review an <i>authorised fund manager's</i> controls and systems to confirm that they are satisfactory.	

	<p>(3) This review should be carried out:</p> <ul style="list-style-type: none"> (a) at the start of a <i>depository's</i> appointment, taking into account (where relevant) any relevant report made by the retiring <i>depository</i> in accordance with <i>CIS</i> 7.4.3R(3) (Duty to inform the FSA : for ICVCs) and <i>CIS</i> 7.9.3R(3) (Duty to inform the FSA : for AUTs); and (b) thereafter, on a frequency dependent on the risk profile of the <i>authorised fund</i>; (c) when major changes are made by an <i>authorised fund manager</i> to its systems; and (d) when necessary, to ensure that a series of minor changes do not have a significant adverse effect on the integrity of the systems. <p>(4) A review should be carried out more frequently where a <i>depository</i> knows or suspects that an <i>authorised fund manager's</i> controls and systems are weak or are otherwise unsatisfactory. In particular, the prices of unapproved <i>securities</i> and (where unquoted) the basis for their calculation should be subjected to frequent verification, and an examination of the sources of the prices of those <i>securities</i> should be carried out.</p> <p>(5) Additionally, a <i>depository</i> should from time to time review other aspects of the valuation of the <i>scheme property</i> of each <i>authorised fund</i> for which it is responsible, verifying, on a sample basis, if necessary, the assets, liabilities, accruals, <i>units</i> in issue, <i>securities</i> prices and any other relevant matters, for example an accumulation factor or a currency conversion factor.</p> <p>(6) The <i>depository's</i> review should include an analysis of the controls in place to determine the extent to which reliance can be placed in them.</p> <p>(7) A <i>depository</i> should ensure that any issues, which are identified in any such review, are properly followed up and resolved.</p> <p>(8) Where an <i>authorised fund manager's</i> systems are manual, or have been installed or amended recently and are therefore unproven, the level of checking will need to be increased accordingly. This will also be necessary where a number of instances of incorrect pricing have previously been identified.</p>
4.	<p>Recording and reporting of instances of incorrect pricing</p> <p>Recording and reporting by the authorised fund manager</p> <p>(1) An <i>authorised fund manager</i> should record each instance where the fourth significant figure of a price of a <i>unit</i> is incorrect, and, as soon as the error is discovered, report the fact to the <i>depository</i> together with details of the action taken, or to be taken, to avoid repetition.</p> <p>Reporting by the depository</p> <p>(2) In accordance with <i>CIS</i> 7.4.3R and <i>CIS</i> 7.9.3R (Duty to inform the FSA), the <i>depository</i> should report any breach or potential breach of the <i>rules</i> in <i>CIS</i> 4 or <i>CIS</i> 15 immediately to the <i>FSA</i>. This would extend to instances of incorrect pricing of <i>units</i> or late payment. However, notification should relate to instances which the <i>depository</i> considers material only. Materiality should be determined by taking into account a number of factors, including:</p> <ul style="list-style-type: none"> (a) whether an <i>authorised fund manager</i> has followed the pricing controls set out in Section 2; (b) the significance of any breakdown in management controls or other checking procedures; (c) the significance of any failure of systems, including situations where inadequate back-up arrangements exist; (d) the duration of an error (the longer an error persists, the more likely that it will have a material effect on a <i>price</i>); (e) the level of compensation to be paid to <i>holders</i> in an <i>authorised fund</i>; and

		(f) an <i>authorised fund manager's</i> ability (or otherwise) to meet the need for compensation in full.
		Factor (a) would tend to decrease materiality whereas the other factors mentioned will tend to increase it.
	(3)	A <i>depository</i> should also report to the <i>FSA</i> immediately any instance of incorrect pricing where the error is greater than 0.5% of the price of a <i>unit</i> , where a <i>depository</i> believes that reimbursement or payment is inappropriate and should not be paid by an <i>authorised fund manager</i> .
	(4)	In accordance with <i>SUP</i> 16.6.13R, a <i>depository</i> should also make a return to the <i>FSA</i> on a quarterly basis which summarises, by <i>authorised fund manager</i> , the number of instances of incorrect pricing during a particular period. This should include:
	(5)	(a) the number of errors which were greater than 0.5% of the price of a <i>unit</i> ; and
		(b) the number of errors which were less than 0.5% of the price of a <i>unit</i> where a <i>depository</i> did not consider an <i>authorised fund manager's</i> controls and systems to be adequate.
5.		Incorrect pricing of units and reimbursement or payment
		Introduction
	(1)	(a) <i>CIS</i> 7.3.1R(3)(d) and <i>CIS</i> 7.8.1R(5) place a duty on the <i>authorised fund manager</i> to take action to reimburse affected <i>holders</i> , former <i>holders</i> , and the <i>scheme</i> itself, for certain instances of incorrect pricing or late payment. Paragraph (8) and <i>CIS</i> 7 Ann 1G, 2 sets out how <i>money</i> could be paid or reimbursed. This annex does not overrule any legal right to claim compensation.
		(b) However, reimbursement or payment may not be required, if it appears to the <i>depository</i> that the incorrect pricing is of minimal significance. Paragraphs (4) to (6) outline the conditions which the <i>depository</i> should take into account in considering whether an instance of incorrect pricing is of minimal significance.
	(2)	The word "normally" is used throughout this Section 5 to denote "unless the <i>depository</i> directs otherwise".
	(3)	If a <i>depository</i> deems it appropriate, it may, in spite of the circumstances outlined in (4), agree to a payment from the <i>authorised fund manager</i> or from the <i>authorised fund</i> to the <i>holders</i> , former <i>holders</i> , the <i>authorised fund</i> or the <i>authorised fund manager</i> (where appropriate), following an instance of incorrect pricing.
		Instances where incorrect pricing is normally of minimal significance
	(4)	A <i>depository</i> may consider that the instance of incorrect pricing or late payment is of minimal significance if:
		(a) the <i>authorised fund manager</i> and <i>depository</i> meet the standards of control set out in Section 2 and Section 3 of this Annex; and
		(b) in the case of incorrect pricing, the error in pricing of a <i>unit</i> is less than 0.5% of the correct price.
		Instances where incorrect pricing is not normally of minimal significance
	(5)	Any instances of incorrect pricing not covered by (4) will not normally be of minimal significance.
	(6)	Where either a single factor or more than one factor causes an incorrect price over a period of time, the incorrect price is normally not of minimal significance:
		(a) if the standards in Sections 2 and 3 are not met, for all <i>days</i> on which there is an incorrect price; or
		(b) otherwise, only on those <i>days</i> where as a result the <i>price</i> is incorrect by 0.5% or more of the price of a <i>unit</i> .

(7)	If a <i>depository</i> considers that reimbursement or payment is inappropriate, it should report the matter to the <i>FSA</i> , together with its recommendation and justification. The <i>depository</i> should take into account the need to avoid prejudice to the rights of <i>holders</i> , or the rights of <i>holders</i> in a <i>class</i> of <i>units</i> .
(8)	The summary table sets out the effect of this annex on some circumstances in which incorrect pricing can occur, and how <i>holders</i> , former <i>holders</i> , the <i>authorised fund</i> or the <i>authorised fund manager</i> can be reimbursed or paid.
(9)	It may not be practicable, or even, in some cases, legally permissible for the <i>authorised fund manager</i> to obtain reimbursement from <i>holders</i> , where the <i>holders</i> have benefited from the incorrect price.
(10)	In all cases where reimbursement or payment is normally required, amounts due to be reimbursed to <i>holders</i> for individual sums under £10 will not, normally, need to be paid, although an <i>authorised fund manager</i> may pay such a sum, or may wish to make up smaller amounts to a higher figure (such as the £10 minimum).

2 Table Summary table (This table forms part of Section 5, paragraph (8) of this Annex).

	<i>Authorised fund</i>	<i>Authorised fund manager</i>	Incoming holder	Outgoing holder
GAINS				
LOSSES				
<i>Authorised fund</i>		A		
<i>Authorised fund manager</i>	B		D	F
Incoming holder		C		
Outgoing holder		E		

DEALINGS BETWEEN AN *AUTHORISED FUND* AND *AUTHORISED FUND MANAGER* (WHETHER OR NOT *UNITS* ARE SOLD OR REDEEMED FROM *HOLDERS*)

A	The <i>authorised fund</i> gains in relation to the <i>authorised fund manager</i> (<i>issue</i> at too high or cancellation at too low a price). If: (1) incorrect price by less than 0.5%: normally no action; (2) incorrect price by 0.5% or more: the <i>depository</i> will normally compensate the <i>authorised fund manager</i> from the <i>authorised fund</i> .
B	The <i>authorised fund</i> loses vis-à-vis the <i>authorised fund manager</i> (<i>issue</i> at too low or cancellation at too high a price). If:

		(1) incorrect price by less than 0.5%: normally no action;
		(2) incorrect price by 0.5% or more: the <i>depository</i> will normally direct the <i>authorised fund manager</i> to compensate the <i>authorised fund</i> .
DEALINGS BETWEEN <i>HOLDERS</i> AND THE <i>AUTHORISED FUND MANAGER</i> (WHETHER OR NOT THERE IS AN <i>ISSUE</i> OR CANCELLATION OF <i>UNITS</i>)		
C	Incoming <i>holders</i> gain in relation to the <i>authorised fund manager</i> (New <i>holders</i> buy <i>units</i> at too low a price). If:	
	(1)	incorrect price by less than 0.5%: no action;
	(2)	incorrect price by 0.5% or more: see paragraph (9) of this Section 5.
D	Incoming <i>holders</i> lose vis-à-vis the <i>authorised fund manager</i> (New <i>holders</i> buy <i>units</i> at too high a price). If:	
	(1)	incorrect price by less than 0.5%: normally no action;
	(2)	incorrect price by 0.5% or more: the <i>authorised fund manager</i> will normally compensate incoming <i>holders</i>
E	Outgoing <i>holders</i> gain in relation to an <i>authorised fund manager</i> (Outgoing <i>holders</i> sell at too high a price). If:	
	(1)	incorrect price by less than 0.5%: no action;
	(2)	incorrect price by 0.5% or more: see paragraph (9) of this Section 5.
F	Outgoing <i>holders</i> lose in relation to the <i>authorised fund manager</i> (Outgoing <i>holders</i> sell at too low a price). If:	
	(1)	Incorrect price by less than 0.5%: normally no action;
	(2)	Incorrect price by 0.5% or more: the <i>authorised fund manager</i> will normally compensate outgoing <i>holders</i> .

Chapter 8

Charges and Expenses

8.1 Introduction

Application

- 8.1.1** **R** /1
- (1) The *rules and guidance* in this chapter apply in accordance with CIS 8.1.3R (Table of application).
 - (2) The *rules* relating to *preliminary charge*, increase of *preliminary charge*, *redemption charge*, control over maximum charges on *issue* and *redemption* and to exchange of *units* in *umbrella schemes* are, for *dual-priced AUTs*, in CIS 15.

Purpose

- 8.1.2** **G** /1
- (1) This chapter assists in meeting the *regulatory objective* of protecting *consumers* by laying down conditions governing charges imposed on investors when *buying* or *selling units* and governing payments out of *scheme property*.
 - (2) The conditions are intended to provide clarity as to the nature of permitted charges and payments and clear disclosure for existing investors of any increases in charges and payments to the *authorised fund manager*.
 - (3) The *instrument of incorporation* of an *ICVC* will, in accordance with the *OEIC regulations*, provide that the charges or expenses of the *ICVC* may be taken out of the *scheme property*. This chapter:
 - (a) prohibits, or provides conditions applying to, the payment out of the *scheme property* of certain types of charges and expenses;
 - (b) makes certain payments conditional on disclosure in the *prospectus*; and
 - (c) governs the allocation of payments between capital and income.
 - (4) For an *AUT*, this chapter provides what types of charge may be made on investors when they buy or *sell units* and what types of expenses may be met out of the *scheme property*. Provisions governing the allocation of payments between capital and income are also contained in this chapter.

- 8.1.3** **R** /1
- Table Table of application
This table belongs to CIS 8.1.1R

Paragraph or section number	ICVC	ACD	Depository of an ICVC	Manager	Trustee

Note: "X" means "applies". "X(s)" means "applies to the *manager* of a *single-priced AUT* only".

8.2 Charges

Application

8.2.1

G
/1

This section (CIS 8.2) relates to some of the charges that may be made by *authorised fund managers* and to increases in them. In CIS 8.5 there are additional *rules* relating to charges which apply only in relation to *AUTs* or *single-priced AUTs*.

Preliminary charge: ICVCs and single-priced AUTs

8.2.2

R
/1

- (1) In the case of an *ICVC* or a *single-priced AUT*, the *authorised fund manager* must not make any charge or levy in connection with the *issue* or *sale* of *units* except a *preliminary charge* under this rule (CIS 8.2.2R) and a *dilution levy* and *SDRT provision* under CIS 4.6.3R.
- (2) In the case of a *single-priced AUT*, a *preliminary charge* must not be made unless:
 - (a) it is permitted by the *trust deed*; and
 - (b) it is expressed either as a fixed amount or calculated as a percentage of the *price*.
- (3) The *preliminary charge* must not exceed the amount or rate stated in the current *prospectus* in respect of a *unit* of any *class*.

Payments by an ICVC to an ACD

8.2.3

R
/1

No payment may be made or benefit given to the *ACD* (in any capacity) out of the *scheme property*, whether by way of *remuneration* for its services, reimbursement of expenses or otherwise, unless the *prospectus* specifies each type of payment or benefit that may be made or given, each type of expense that may be so reimbursed and, in the case of each category of *remuneration* (or *remuneration* related to a *class* of *share*), specifies:

- (1) how it will be calculated and accrue and when it will be paid; and

- (2) the maximum and current rates or amount of such *remuneration*.

Increases in remuneration of an ACD

8.2.4

R

/1

In the case of an *ICVC*, the *ACD* must not introduce a new category of *remuneration* for its services or make any increase in the current rate or amount of its *remuneration* payable out of the *scheme property* up to or towards any maximum stated in the *prospectus*, unless it has complied with *CIS* 8.2.6R (Notice of an increase – *ICVCs* and single-priced *AUTs*).

Increase in preliminary charge of an authorised fund manager: *ICVCs* and single-priced *AUTs*

8.2.5

R

/1

In the case of an *ICVC* or a *single-priced AUT*, the *authorised fund manager* must not introduce a *preliminary charge*, or increase within any maximum stated (in the case of an *ICVC*) in the *prospectus* or (in the case of a *single-priced AUT*) in the *trust deed*, the current amount or rate of *preliminary charge*, unless it has complied with *CIS* 8.2.6 (Notice of an increase: *ICVCs* single-priced *AUTs*).

Notice of an increase: *ICVCs* and single-priced *AUTs*

8.2.6

R

/1

In the case of an *ICVC* or a *single-priced AUT*, not less than 90 *days* before the introduction or increase under *CIS* 8.2.4 or *CIS* 8.2.5, the *authorised fund manager* must:

- (1) give written notice of that introduction or increase and of the date of its commencement:
 - (a) to all the *persons* who ought reasonably to be known to it to have made an arrangement for the *purchase* of *units* at regular intervals; and
 - (b) (in the case of *remuneration* of the *ACD* payable out of the *scheme property*) to all *shareholders*; and
- (2) revise the *prospectus* to reflect the introduction or new current rate or amount of *remuneration* or *preliminary charge* (or, in the case of an *ICVC*, other *remuneration*) and the date of its commencement, and make the revised *prospectus* available.

Redemption charge: ICVCs

8.2.7

R

/1

- (1) The *ACD* must not make a *redemption charge*, except in accordance with (2), (3) and (4)
- (2) A *redemption charge* must not exceed the amount or rate of *redemption charge* stated in the *prospectus* current at the date when the relevant *shares* were sold by the *ACD* or issued through the *ACD* under CIS 4.5.3R (Issues and cancellations through the authorised fund manager) and, if there was no such statement, the *redemption* or *cancellation* of such *shares* must not be subject to any *redemption charge*.
- (3) The *ACD* must not introduce a *redemption charge* or change the rate or method of calculation of a current *redemption charge* which is adverse to *shareholders* unless, not less than 90 days before the introduction or change, the *ACD* has:
 - (a) given written notice of that introduction or change and of the date of its commencement to all the *persons* who ought reasonably to be known to the *ACD* to have made an arrangement for the *purchase* of *shares* at regular intervals; and
 - (b) revised the *prospectus* to reflect the introduction or change and the date of its commencement and made the revised *prospectus* available.
- (4) If a *prospectus* contains a statement relating to the amount, or the calculation of the amount, of a *redemption charge*, it must also contain a statement as to the determination of the order in which *shares*, which have been acquired at different times by a *shareholder*, are to be taken to be redeemed or cancelled for the purpose of the imposition of the *redemption charge*.

Charges for an exchange of units in an umbrella scheme: ICVCs and single-priced AUTs

8.2.8

R

/1

- (1) In the case of an *umbrella scheme* which is an *ICVC*, the *ACD* may make a charge on an exchange of *shares* in one *sub-fund* for *shares* in another *sub-fund*, but the charge must not exceed the aggregate of:
 - (a) any excess of the current *preliminary charge* payable on the *shares* being acquired over the *preliminary charge* actually paid on the original acquisition of the *shares* being redeemed; and
 - (b) the amount of any fee payable on switching stated in the *prospectus*.

- (2) The *ACD* must not make a charge in excess of the fee referred to in (1)(b), unless the *prospectus* contains a statement as to the determination of the order in which *shares* which have been acquired at different times by a *shareholder* are to be taken to be redeemed or cancelled in so far as necessary for calculating the maximum charge for an exchange of *shares* in one *sub-fund* for *shares* in another *sub-fund*.
- (3) For an *umbrella scheme* which is a *single-priced AUT*, the *manager* must not make any charge on an exchange of *units*:
 - (a) if the exchange is the first to be made by the *unitholder* during any *annual accounting period*;
 - (b) in the case of a second or subsequent exchange, unless:
 - (i) such a charge is authorised by the *trust deed*; and
 - (ii) the amount of the charge is within the maximum for charging on such an exchange stated in the most recently published *prospectus*.

8.3 Restrictions and other requirements relating to payments: ICVCs

Promotional payments

- 8.3.1 **R** /1 No payment or benefit, other than a payment or benefit to the *ACD* not prohibited by any other of the *rules* in this sourcebook, may be made out of or given at the expense of the *scheme property* to any *person* in consideration of that *person* acquiring (whether directly, indirectly, absolutely or conditionally) or promoting the *sale* of, or agreeing so to acquire or to promote the *sale* of, *shares* in the *ICVC*.

Performance fees

- 8.3.2 **R** /1 No payment may be made out of the *scheme property* of an *ICVC* and no *redemption charge* may be made if the amount or frequency of the payment or the amount of the *redemption charge* is intended to depend upon fluctuations in:
- (1) the value of the *scheme property*; or
 - (2) the income attributable to it; or
 - (3) the *price* of a *share* of any *class*,
- as compared with fluctuations in the value or price of property of any description or in an index or other factor designated for the purpose.

Movable and immovable property

- 8.3.3 **R** /1 An *ICVC* (other than a *property scheme*) must not incur any expense for the use by it of any movable or immovable property except to the extent that such property is necessary for the direct pursuit of its business.

Set up costs

8.3.4

R

/1

- (1) When (2) applies, costs of the *authorisation* and incorporation of an *ICVC* and of its *initial offer* or *issue of shares* (or *initial offer* or *issue of shares* in respect of a *sub-fund*) may, subject to *CIS* 8.3.1R (Promotional payments), be amortised over a period not exceeding five years.
- (2) Amortisation under (1) is only permitted if, on or before 30 November 2000, it had commenced and been disclosed in the *prospectus*.

Allocation of payments to capital or income

8.3.5

R

/1

- (1) Any *broker's commission*, fiscal charges and other disbursements, which are necessary to be incurred in effecting transactions for the *ICVC*, and normally shown in contract notes, confirmation notes or difference accounts, may be charged to the *capital account*.
- (2) Any:
 - (a) interest on borrowings and charges incurred in effecting, terminating, negotiating or varying the terms of borrowings;
 - (b) taxation and duties payable in respect of *scheme property*; and
 - (c) costs of the types described in *CIS* 8.3.4R (Set up costs);
 may be paid from *capital property* or *income property* as the *ICVC* considers appropriate.
- (3) All other payments out of the *scheme property* must be made from *income property* in the first instance, but a transfer of the debit item from the *income account* to the *capital account* may be made if the expense is considered to be capital in nature.
- (4) The *ACD* and the *depository* may agree that all or any part so agreed of:
 - (a) any payments permitted by *CIS* 8.2.3R (Payments by an *ICVC* to the *ACD*); and
 - (b) any other charges and expenses of the *ICVC*;
 may be treated as a capital expense and, if met from the *income account* in the first instance, a transfer of the relevant debit made from the *income account* to the *capital account*.

8.4 Other liabilities: ICVCs and AUTs

Payment of liabilities on transfer of assets

8.4.1

R

/1

- (1) Where the property of a *body corporate* or of another *collective investment scheme* is transferred to an *authorised fund* (or to the *depository* for the account of the *authorised fund*) in consideration of the *issue of units* in the *authorised fund* to *shareholders* in that *body corporate* or to *holders* in that other *scheme*, (2) applies.
- (2) The *ICVC* (or its *depository*) or the *trustee* of the *AUT* as the successor in title to the property transferred, may pay out of the *scheme property* any liability arising after the transfer which, had it arisen before the transfer, could properly have been paid out of the property transferred, but only if:
 - (a) there is nothing in the *instrument constituting the scheme* of the *authorised fund* expressly forbidding the payment; and
 - (b) the *directors* of the *ICVC*, or the *manager* of the *AUT*, are, or is, of the opinion that proper provision was made for meeting such liabilities as were known or could reasonably have been anticipated at the time of the transfer.

Tax

8.4.2

R

/1

The restrictions contained in this chapter do not affect any liability for any value added or similar tax related to a charge or expense, but any notice given in accordance with this chapter and any statement in a *prospectus* relating to any charge or expense payable out of the *scheme property* or by any *shareholder* or potential *shareholder* must, if the *person* liable for the charge or expense may also be liable for such tax, contain a statement to this effect.

8.5 Charges and other payments: AUTs

Managers periodic charges

8.5.1

R

/1

- (1) The only payment which may be made to the *manager* out of the *scheme* property by way of *remuneration* for the *manager's* services is a periodic charge (and value added tax on it if any) arrived at and accruing under this *rule* (CIS 8.5.1R).
- (2) A periodic charge is payable only where its payment is authorised by the *trust deed*.
- (3) The amount of periodic charge is calculated by the *manager* as follows:
 - (a) take the *scheme property* at the *valuation point* coinciding with or immediately before the start of the relevant *accrual interval*;
 - (b) take the value (or for a *dual-priced AUT* take the average of the *issue* and *cancellation* valuations) of the *scheme property* as at the point at (a);
 - (c) multiply that value (or in the case of a *dual-priced AUT* multiply the average at (b)) by a fraction (or "rate") not exceeding the maximum percentage (for example, 1/100) arrived at under (4);
 - (d) divide the resulting figure by 365 (366 in a leap year); and
 - (e) multiply the result of the division at (d) by the number of *days* (including fractions of a *day*) in the *accrual interval*.
- (4) The maximum percentage in (3)(c) is:
 - (a) if the *accrual interval* is the first since inception, the annual percentage stated in the original *prospectus* as the rate of the *manager's* periodic charge;
 - (b) if it is not the first *accrual interval* since inception, either:

- (i) the rate actually used at (3)(c) for the previous *accrual interval*; or
 - (ii) a higher rate (still however not exceeding the maximum to the rate of the *manager's* periodic charge stated in the *trust deed*) which the *manager* is permitted to use if it complies with (5).
- (5) The *manager* may not rely on any increase in the maximum percentage unless not less than 90 *days* before implementing the increase:
- (a) it has given notice in writing to the *trustee* and to the *unitholders* of its intention to increase the amount currently charged by way of periodic charge; and
 - (b) it has revised the *prospectus* to reflect the proposed increase in that amount.

Redemption charge: single-priced AUTs

8.5.2

R

/1

- (1) In the case of a *single-priced AUT* the *manager* may, if the *trust deed* permits, make a *redemption charge* for its own benefit.
- (2) (a) A *redemption charge* must not exceed the amount or rate of *redemption charge* stated in the *prospectus* current at the date when the relevant *units* were issued, other than to the *manager*, or sold; and
 - (b) the amount or rate referred to in (a) may be expressed as diminishing over the time during which the *unitholder* has held the *units*, but may not be expressed as liable to vary in any other respect.
- (3) In (2) and (7), “issued” or “sold” in the case of *units* in a *scheme* which has absorbed the whole or part of the property of another *scheme*, is (when relevant) a reference to the *issue* or *sale* of *units* in that other *scheme* so far as it is practicable for the *manager* to ascertain the timing of that *issue* or *sale* as opposed to the *issue* of other *units* held by that *holder*.
- (4) The *manager* must not introduce a *redemption charge*, or change the rate or method of calculation of a current *redemption charge*, in a manner which is adverse to *unitholders*, unless at least 90 *days* before the introduction or change, the *manager*:
 - (a) gave notice in writing of that introduction or change and of the date of its commencement, to the *trustee* and to all the *persons* who ought reasonably to be known to the *manager* to

- have made an arrangement for the *purchase* of *units* at regular intervals; and
- (b) has revised the *prospectus* to reflect the introduction or change and the date of its commencement and has made the revised *prospectus* available.
- (5) A modification of the rate or method which is adverse to redeeming *unitholders* (or *unitholders* selling under CIS 4.5.3R) must be limited so as to apply only to *units* which have been issued (whether at the request of the current *unitholder* or otherwise) after the date on which the modification takes effect.
- (6) Where the *trust deed*, whenever executed, is modified so as to authorise a *redemption charge*, the modification must be expressed so as to apply only to *units* issued after the date on which the modification takes effect.
- (7) In deciding whether and to what extent a charge is deductible for the purposes of this *rule*, *units* held by a *unitholder* are to be taken to be redeemed in the order in which they were issued (other than to the *manager*) or sold (whether or not to their current *unitholder*), unless:
- (a) the *manager* has the *unitholder's* instructions to the contrary; or
- (b) the *manager* selects as the *units* first to be redeemed *units* which are not subject to the deduction; or
- (c) the *manager* and the *trustee* have agreed on another way of deciding the order in which *units* are redeemed which appears to them unlikely materially to prejudice the *holder* concerned.
- (8) A *manager* must not make a *redemption charge* which might reasonably be regarded as restricting the right of *redemption*.

Control over maximum charges on issue, sale and redemptions: single-priced AUTs

8.5.3

R

/1

- (1) In the case of a *single-priced AUT* and in the circumstance envisaged by (2), an introduction of, or change to, either of the charges permitted by CIS 8.2.2R (Preliminary charge : ICVCs and single-priced AUTs) or CIS 8.5.2R (Redemption charge : single-priced AUTs) must not take effect unless:
- (a) the *trust deed* is modified under CIS 11.4.2R (Amendment to the trust deed: with meeting); or

- (b) the *prospectus* is amended following approval of the introduction or change by an *extraordinary resolution* at a meeting of the *holders* called for the purpose.
- (2) The circumstance mentioned in (1) is that (for any individual *unit* notionally issued and redeemed on the same *day*) the maximum amount or percentage of any *preliminary charge* and of any *redemption charge* would in aggregate exceed the maximum amount or percentage for the *preliminary charge* alone which is stated in the *trust deed*.

Remuneration of the trustee and reimbursement of trustees expenses

8.5.4

R
/1

- (1) No payment may be made to the *trustee* out of the *scheme property*, whether by way of reimbursement of expenses or otherwise, except:
 - (a) *remuneration* for the *trustee* in respect of its services and in respect of which the following have been stated in the *prospectus*:
 - (i) the actual amount or rate of the *remuneration* (or how this is determined);
 - (ii) the periods in respect of which the *remuneration* is to be paid;
 - (iii) how the *remuneration* is to accrue; and
 - (iv) when the *remuneration* is to be paid;
 - (b) value added tax on the *remuneration* specified in (a); and
 - (c) reimbursement of expenses properly incurred by the *trustee* in performing or arranging for the performance of the functions conferred on the *trustee* by the *rules* in this sourcebook.
- (2) Payment under (1)(a) must not be made unless authorised by the *trust deed*.

Payments out of the scheme property

8.5.5

R
/1

- (1) No payments may be made out of the *scheme property* of an *AUT* other than payments permitted by the *rules* in this sourcebook, and:
 - (a) *broker's commission*, fiscal charges and other disbursements which are:

- (i) necessary to be incurred in effecting transactions for the *scheme*; and
- (ii) normally shown in contract notes, confirmation notes and difference accounts as appropriate;
- (b) interest on permitted borrowings under the *AUT* and charges incurred in effecting or terminating such borrowings or in negotiating or varying the terms of such borrowings;
- (c) taxation and duties payable in respect of the *scheme property*, the *trust deed* or the *issue of units* and any stamp duty reserve tax charged in accordance with Schedule 19 of the Finance Act 1999 (or any statutory modification or re-enactment of it);
- (d) payments properly required, in the case of a *property scheme*, for the maintenance, repair, refurbishment, management, preservation, protection, development or redevelopment of an immovable owned or leased by the *property scheme*;
- (e) any costs incurred in modifying the *trust deed*, including costs incurred in respect of meetings of *unitholders* convened for purposes which include the purpose of modifying the *trust deed*, where the modification is:
 - (i) necessary to implement, or necessary as a direct consequence of, any change in the law (including changes in the *rules* in this sourcebook); or
 - (ii) expedient having regard to any change in the law made by or under any fiscal enactment and which the *manager* and the *trustee* agree is in the interest of *unitholders*; or
 - (iii) to remove from the *trust deed* obsolete provisions;
- (f) any costs incurred in respect of meetings of *unitholders* convened on a requisition by *unitholders* not including the *manager* or an *associate of the manager*;
- (g) the audit fee properly payable to the auditor and any proper expenses of the auditor;
- (h) the fees and expenses properly payable to the *standing independent valuer* of a *property scheme*;
- (i) the fees of the *FSA* under Schedule 1, Part III of the *Act* or the corresponding periodic fees of any regulatory authority in a country or territory outside the *United Kingdom* in which *units* in the *AUT* are or may be marketed;
- (j) any payment permitted by *CIS 8.4.1R* (Payment of liabilities on transfer of assets); and

(k) value added tax payable in connection with any of (a) to (j).

Exemptions from liability to account for profits

8.5.6

R

/1

- (1) The *manager* is not liable to account to the *trustee* or the *unitholders* for the amount of any charge properly taken in accordance with the *rules* in this sourcebook.
- (2) The *trustee* is not liable to account to the *manager* or the *unitholders* for the amount of any *remuneration* (or expenses) properly paid to the *trustee* in accordance with this chapter.
- (3) The *manager*, or another specified *affected person*, is not required to account to the *trustee*, or the *unitholders*, for any profit made on the *issue, sale, redemption or cancellation* of *units* where prominent disclosure of the non-accountability has been made in the *prospectus*.
- (4) A *person* who is an *affected person* is not liable to account either to another *affected person* or to the *unitholders* for any benefits or profits made or derived from or in connection with:
 - (a) his acting as agent for either or both of the *trustee* and the *manager* in the *sale or purchase* of property to or from the *trustee* for the account of the *AUT*; or
 - (b) his part in any transaction or the supply of services permitted by *CIS 7.10.6R* (Conflict of interests); or
 - (c) his dealing in property equivalent to any owned by (or dealt in for the account of) the *AUT*.

Allocation of payments to capital or income

8.5.7

R

/1

- (1) In the case of an *AUT*, any payments permitted by this chapter (except under *CIS 8.5.5R(1)(a), (b) or (c)* (Payments out of the scheme property)) must be made from the *income account* in the first instance.
- (2) Any payment under *CIS 8.5.5R(1)(a)* must be made from the *capital account*; and any payment under *CIS 8.5.5R(1)(b) or (c)* must be made from the *capital account* or the *income account* as the *trustee* having taken reasonable care determines is appropriate in accordance with the governing law of trusts.
- (3) Following a payment made from the *income account* under (1) or (2), a transfer of the debit item from the *income account* to the *capital account* may be made:

- (a) if the *manager* and the *trustee* agree that the payment is for an item of expense which is capital in nature; and
 - (b) if the governing law of trusts allows.
- (4) The *manager* and the *trustee* may agree that all or any agreed part of:
- (a) any charge permitted by CIS 8.5.1R (Manager's periodic charge); and
 - (b) any payments permitted to be made out of the *scheme property* by CIS 8.5.4R (Remuneration of the trustee and reimbursement of trustee expenses) or CIS 8.5.5R (Payments out of the scheme property);

may be treated as a capital expense and, if met from the *income account* in the first instance, a transfer of the relevant debit made from the *income account* to the *capital account*.

- (5) Where the *trustee* considers that there are insufficient funds to cover any payments made, or to be made, from the *income account* under (1) or (2), a transfer of *credit* to the *income account* from the *capital account* may be made to meet these payments. The *credit* must be re-transferred as soon as sufficient funds are available in the *income account* in respect of the same *annual accounting period*.
- (6) Where, in respect of any *annual accounting period*, taken as a whole, the amount of income received or receivable is less than the net amount of payments made from the *income account*, the shortfall must, as from the end of that period, be charged to the *capital account* and must not subsequently be transferred to the *income account*.

Chapter 9

Income

9.1 Introduction

Application

9.1.1 **R** ^{/1} The *rules and guidance* in this chapter apply in accordance with *CIS 9.1.3R* (Table of application).

Purpose

9.1.2 **G** ^{/1} This chapter assists in achieving the *regulatory objective* of protecting consumers, in particular by providing common standards relating to the periodic distribution of income (or, in the case of *accumulation shares* or *accumulation units*, the credit of the income to capital), and the calculation of the amount of that income.

9.1.3 **R** ^{/1} Table Table of application
This table belongs to [*CIS 9.1.1*]

Paragraph or section number	ICVC	ACD	Any other directors of the ICVC	Depositary of the ICVC	Manager	Trustee

9.2 Requirements

Accounting period

9.2.1

R

/1

- (1) *An authorised fund must have an annual accounting period and a half-yearly accounting period, in accordance with (3) to (7).*
- (2) *An authorised fund must also have an accounting reference date.*
- (3) *The first annual accounting period must begin:*
 - (a) *where the authorised fund makes an initial offer, on the first day of the period of the initial offer; or*
 - (b) *in any other case, on the date on which an authorisation order for the authorised fund comes into effect;*

and each subsequent period must begin immediately after the end of the one before.
- (4) *Each annual accounting period must end either at the end of the day determined under (5) or, if the authorised fund manager so decides, at the valuation point last preceding the end of that day.*
- (5) *The day for the end of the annual accounting period referred to in (4) is:*
 - (a) *the next accounting reference date after the beginning of the period in question; or*
 - (b) *the next but one accounting reference date if:*
 - (i) *that period is the first period, or a period in the course of which a change in the accounting reference date takes place;*
 - (ii) *the next accounting reference date is less than six months after the beginning of the period; and*
 - (iii) *the authorised fund manager so determines after consulting the auditor.*

- (6) A *half-yearly accounting period* is a period beginning with the first *day* of an *annual accounting period* and ending on the *day* which is:
- (a) six months before the next *accounting reference date*; or
 - (b) if the next *accounting reference date* is less than six months after that first *day*, six months before the next *accounting reference date* but one after that first *day*.
- (7) If the *authorised fund manager* notifies the *depository* that a particular *annual accounting period* or *half-yearly accounting period* is to end on a specified *day*, which is not more than seven *days* after, and not more than seven *days* before, the *day* on which the period would otherwise end under (4), (5) and (6), that notice is to have effect provided it was given before the *day* on which the period would otherwise end.

Annual income allocation date

9.2.2

R
/1

- (1) An *authorised fund* must have an *annual income allocation date*, which is the date in any year stated in the most recently published *prospectus* as the date on or before which, in respect of each *annual accounting period*, an allocation of income is to be made.
- (2) The *annual income allocation date* must be a date within four calendar months after the relevant *accounting reference date*.

Annual allocation of income

9.2.3

R
/1

- (1) As at the end of each *annual accounting period*:
 - (a) in the case of an *ICVC*, the *directors* must arrange for the *depository* to transfer;
 - (b) in the case of an *AUT* the *trustee* must transfer;

the *income property* of the *authorised fund* to the *distribution account*.
- (2) In the case of an *ICVC*, the *directors*, and in the case of an *AUT*, the *trustee* (after consulting the *manager*), need not comply with (1) if it appears to them, or it, that the average of the allocations of income to the *holders* (disregarding *holders* of *bearer certificates* and *holders* who are the *authorised fund manager* or the *depository* or *associates* of either of them) would be less than £10 (or the equivalent amount in the *base currency*).

- (3) Any income that, under (2), is not transferred to the *distribution account* must either:
- (a) be carried forward to the next accounting period and be regarded as received at the start of that period; or
 - (b) be credited to capital, as determined by, in the case of an ICVC, its *directors*, or, in the case of an AUT, the *manager*.
- (4) On or before each *annual income allocation date* the *authorised fund manager* must calculate the amount available for income allocation for the immediately preceding *annual accounting period* and must inform the *depository* of that amount.
- (5) The amount available for income allocations is calculated by:
- (a) taking the aggregate of the *income property* received or receivable for the account of the *authorised fund* in respect of the period;
 - (b) for an ICVC:
 - (i) deducting the charges and expenses of the ICVC paid or payable out of *income property* in respect of the period; and
 - (ii) adding the ACD's best estimate of any relief from tax on those charges and expenses;
 - (c) for an AUT:
 - (i) deducting the aggregate of the *manager's* and *trustee's remuneration* and other payments properly paid or payable out of the *income account* in accordance with CIS 8.5.7R (Allocation of payments to capital or income – for AUTs) in respect of the period; and
 - (ii) adding the *manager's* best estimate of any relief from tax on that *remuneration* and those other payments;
 - (d) making such other adjustments as the *authorised fund manager* considers appropriate (in the case of (i) and (ii) below, after consulting the auditors) in relation to:
 - (i) taxation;
 - (ii) the proportion of the *prices* received or paid for *units* that is related to income (taking account of any provisions in the *instrument constituting the scheme* relating to *income equalisation*);

- (iii) potential income which is unlikely to be received until 12 months after the income allocation date;
 - (iv) income which should not be accounted for on an accrual basis because of lack of information about how it accrues;
 - (v) any transfer between income and *capital account* under CIS 8.3.5 (Allocation payments to capital or income – for ICVCs) or CIS 8.5.7 (Allocation of payments to capital or to income - for AUTs); and
 - (e) making any other adjustments (including, in the case of an ICVC, for amortisation under CIS 8.3.4R (Set-up costs) or any reimbursement of set-up costs that the *authorised fund manager* considers appropriate after consulting the auditors.
- (6) On or before the *annual income allocation date*, the *authorised fund manager* must allocate the available income to the *units* of each *class* in *issue* taking account of the provisions of CIS 9.2.4R and CIS 9.2.5R, and:
- (a) for an ICVC, the provisions of its *instrument of incorporation* relating to the proportion of available income attributable to each *class*;
 - (b) for an AUT with both income and *accumulation units* in *issue*, the number of undivided *shares* represented by *units* of each *class* in accordance with CIS 2.6.1R (Units and classes of units in AUTs).

Annual allocation to accumulation shares or accumulation units

9.2.4

R
/1

- (1) The amount of income allocated to *accumulation shares* or *accumulation units*, with effect from the end of the *annual accounting period*, becomes part of the *capital property* and, if *shares* or *units* of any other *class* were in *issue* during that period, the interests of the *holders* of *accumulation shares* or *accumulation units* in that amount must be satisfied by an adjustment, as at the end of the period:
- (a) for an ICVC, in the proportion of the value of the *scheme property* to which the *price* of an *accumulation share* of the relevant *class* is related;
 - (b) for an AUT, in the number of undivided *shares* in the *scheme property* which an *accumulation unit* represents.
- (2) The adjustment under (1) must be such as will ensure that the *price* (for a *dual-priced* AUT, the *issue price*) of an *accumulation share* or *accumulation unit* (in the case of an ICVC, of the

relevant *class*) remains unchanged despite the transfer of income to the *capital property*.

Annual distribution to holders of income shares or income units

9.2.5

R
/1

- (1) Where the *shares in issue* in an ICVC are, or include, *income shares*, on or before each *annual income allocation date*, the ACD must give the *depository* timely instructions sufficient to enable the *depository* to distribute the income allocated to *income shares* among their *holders* and the ACD in proportion to the number of such *shares* held, or treated as held, by them respectively at the end of the relevant *annual accounting period*. The *depository* must pay the distribution in accordance with the instructions.
- (2) Where the *units in issue* of an AUT are, or include, *income units*, on or before each *annual income allocation date*, the *trustee* must distribute the income allocated to *income units* amongst their *holders* and the *manager* in proportion to the numbers of such *units* held, or treated as held, by them respectively at the end of the relevant *annual accounting period*.
- (3) In calculating the amount to be distributed under (1) or (2), the ACD under (1), or the *trustee* under (2), must:
 - (a) deduct any amounts previously allocated by way of interim allocation of income for that *annual accounting period*; and
 - (b) deduct and carry forward in the *income account* such amount as is necessary to adjust that allocation of income to the nearest one-hundredth of a penny (or the equivalent amount in the *base currency*) per *income share* or *income unit*, or such lesser fraction as the *directors* of the ICVC, or the *manager* of the AUT, may determine.

Interim allocations of income

9.2.6

R
/1

- (1) This *rule* (CIS 9.2.6R) applies if at any time the most recently published *prospectus*:
 - (a) states that an allocation of income will be made before the *annual income allocation date* in any year in respect of an *interim accounting period* within the *annual accounting period*; and
 - (b) specifies a date as the *interim income allocation date* in relation to that *interim accounting period*.

- (2) When (1) applies, CIS 9.2.3R to CIS 9.2.5R apply so as to secure the making of an interim allocation of income as if:
- (a) the *interim accounting period* in question and all previous *interim accounting periods* in the same *annual accounting period*, taken together, were the *annual accounting period*;
 - (b) the *interim income allocation date* were the *annual income allocation date*; and
 - (c) in the case of an *ICVC*, the *directors*, and in the case of an *AUT*, the *manager*, were to treat as the available amount of income for the interim allocation a sum which may be less than, but does not exceed, the amount which, in the opinion of the *ACD* or the *manager*, would be available for allocation of income if the *interim accounting period* and all previous *interim accounting periods* in the same *annual accounting period*, taken together, were an *annual accounting period*.

Income equalisation

9.2.7

G
/1

The *instrument constituting the scheme* may provide that an allocation of income (whether annual or interim) be made in respect of each *unit* issued or sold during the accounting period in respect of which that income allocation is made, and may include *income equalisation*. An allocation of income should not include *income equalisation* except in accordance with any such provision.

Tax certificates

9.2.8

R
/1

The *authorised fund manager* must ensure that tax certificates for the income available for allocation are sent or given in accordance with the requirements for the time being of the Board of Inland Revenue, but in any event not less than once for every *annual accounting period*.

Unclaimed distributions

9.2.9

R
/1

Any distribution payment that remains unclaimed must:

- (1) for an *ICVC*, not be forfeited and revert to the *ICVC*, except in accordance with a provision of the *instrument of incorporation* for forfeiture and reversion to the *ICVC* of a distribution unclaimed during the period of six years (or such longer period as may be stated in the provision) after the distribution became due for payment; or

- (2) for an *AUT*, after a period of six years from the date of payment, be transferred to and become part of the *capital property* and thenceforth neither the payee nor the *holder* nor any successor in title to it will have any right except as part of the *capital property*.

Payment of distributions to joint holders (AUTs only)

9.2.10

R

Distributions made to the first named joint *holder* on the *register* will be as effective a discharge to the *trustee* and *manager* as if the first named joint *holder* had been a sole *holder*.

/1

Income derived from stock lending (AUTs only)

9.2.11

R

(1) Where the *scheme property* of an *AUT* is used in *stock lending* transactions under *CIS 5.14*, any income derived from the transaction must form part of the *scheme property*, after deduction of:

/1

- (a) any income payable, immediately or otherwise, to the counterparty or for his account according to the transaction; and
- (b) any reasonable expenses of the *trustee* or *manager* (or reasonable charges of any *custodian*) associated with the transaction.

Chapter 10.

Report and Accounts

10.

10.1 Introduction

Application

- 10.1.1** **R** _{/1} This section applies to *authorised fund managers, depositaries, directors of an ICVC* and auditors.

Application : guidance

- 10.1.2** **G** _{/1} The *persons* to whom each *rule* and *guidance* in this chapter applies are stated either at the beginning of the *rule* or *guidance* or at the beginning of the section that contains the *rule* or *guidance*.

Purpose

- 10.1.3** **G** _{/1} In line with *Principle 7* (Communication with clients), this chapter requires *directors of ICVCs* and *managers of AUTs* to prepare annual and half-yearly reports to *holders* and prospective *holders*, containing up-to-date and good quality information on the progress of the *authorised fund's* investments, their costs, expenses and other related financial information.

Contents of this chapter

- 10.1.4** **G** _{/1}
- (1) This chapter covers the contents of reports on *authorised funds*, including the annual reports of the *depository* and of the auditor, and builds upon the requirements in *CIS 9* (Income), which provides how the *annual accounting periods* and *half-yearly accounting periods* are to be determined.
 - (2) This chapter requires the accounts contained in the annual and half-yearly reports to comply with the Statement of Recommended Practice, Financial Statements of Authorised *open-ended investment companies*, issued by the *FSA* in November 2000 (“SORP relating to Authorised *open-ended investment companies*”) (for a report on an *ICVC*) or with the Statement of Recommended Practice, Financial Statements of *Authorised unit trust schemes*, issued by *IMRO* in January 1997 (“SORP relating to *Authorised unit trust schemes*”) (for a report on an *AUT*).
 - (3) Finally, this chapter permits, in specified circumstances, the accounts contained in an annual or half-yearly report to be in a short form. However, this does not

discharge the *directors* of an *ICVC* or the *manager* from preparing reports with full accounts.

10.2 Preparation of annual and half-yearly reports

Preparation by the manager of an AUT of annual and half-yearly reports

10.2.1

R

/1

- (1) This *rule* (CIS 10.2.1R) applies to a *manager* of an *AUT*.
- (2) The *manager* must, in relation to each *annual accounting period* and *half-yearly accounting period*, prepare a report in respect of the period concerned.
- (3) Where an *AUT's* first *annual accounting period* is a period of less than 12 months, a half-yearly report need not be prepared for any part of that period.

Preparation by the directors of an ICVC of annual and half-yearly reports

10.2.2

G

/1

- (1) This *guidance* (CIS 10.2.2G) applies to the *directors* of an *ICVC*.
- (2) Requirements for the preparation of annual and half-yearly reports are contained in the *OEIC regulations*. Those regulations make the *directors* of an *ICVC* responsible for the preparation of annual and half-yearly reports on the *ICVC* (see regulation 66 (Reports: preparation)). A half-yearly report need not be prepared where an *ICVC's* first *annual accounting period* is less than 12 months.
- (3) The *OEIC regulations* (regulation 66 Reports: preparation), regulation 67 (Reports: accounts) and regulation 68 (Reports: voluntary revision) also contain a number of other requirements relating to reports and accounts of an *ICVC*. These include, for example, requirements that:
 - (a) the *directors* must lay copies of the annual report before the *ICVC* in general meeting; and
 - (b) every annual report is to contain accounts of the *ICVC* and a report by the auditor to the *ICVC's shareholders*.

10.3 Contents of annual and half-yearly reports

Application

- 10.3.1** **R** ^{/1} This section (*CIS 10.3*) applies to the *directors* of an *ICVC* (for a report on an *ICVC*) and to the *manager* (for a report on an *AUT*), except *CIS 10.3.7R* (Duty of the *ACD*), which applies only to the *ACD*.

Explanation

- 10.3.2** **G** ^{/1} This section sets out the contents of each annual and half-yearly report. It sets the scene for *CIS 10.4* (Information to be included in annual and half-yearly reports). That section outlines some more detailed information, which must be included in reports on *authorised funds*. In particular, it distinguishes between requirements to be included in reports on *umbrella schemes* and reports on other categories of *authorised funds*.

Annual reports

- 10.3.3** **R** ^{/1} (1) An annual report on an *authorised fund* other than an *umbrella scheme* must contain:
- (a) full accounts for the *annual accounting period* which must, subject to the *rules* in this chapter, include all the matters required to be included in them by the Statement of Recommended Practice relating to *Authorised open-ended investment companies* or by the Statement of Recommended Practice relating to *authorised unit trust schemes*. Accordingly, references to those accounts (and to short form accounts mentioned in *CIS 10.3.6R*) are not to be construed to relate only to the balance sheet and the statement of total return;
 - (b) the information required to comply with *CIS 10.4.2R* and *CIS 10.4.5R* (Comparative table);
 - (c) (for an annual report on an *ICVC*) the report of the *depository* referred to in *CIS 10.4.6R* (Report of the depository of an *ICVC*) or (for an annual report on an *AUT*) the report of the

- trustee* referred to in CIS 10.4.7R (Report of the trustee of an AUT); and
- (d) the report of the auditor referred to in CIS 10.4.8R (Report of the auditor).
- (2) An annual report on an *umbrella scheme* must contain:
- (a) reports relating to each of its *sub-funds* which must, so far as practicable, contain the accounts and the information that would be required by (1)(a) and (1)(b) if each *sub-fund* were a separate *authorised fund*;
- (b) an aggregation of the accounts required by (a); and
- (c) except as contained in a report relating to a *sub-fund* in accordance with (a):
- (i) the information referred to in (1)(b);
- (ii) (for an annual report on an *ICVC*) the report of the *depository* referred to in CIS 10.4.6R (Report of the depository of an *ICVC*) or (for an annual report on an *AUT*) the report of the *trustee* referred to in CIS 10.4.7R (Report of the trustee of an *AUT*); and
- (iii) the report of the auditor referred to in CIS 10.4.8R (Report of the auditor).
- (3) An annual report relating to a *sub-fund* which is not part of a report under (2) must contain:
- (a) so far as practicable, the accounts and the information that would be required by (1)(a) and (1)(b) if the *sub-fund* were a separate *authorised fund*;
- (b) the copy report relating to the *umbrella scheme* referred to in (2)(c)(ii); and
- (c) the report of the auditor referred to in CIS 10.4.8R (Report of the auditor).
- (4) The *directors* of an *ICVC* or the *manager* of an *AUT* must ensure that the accounts referred to in (1)(a), (2)(a) and (3)(a) give a true and fair view of the net income and the net gains or losses on the *scheme property* of the *authorised fund* or, in the case of (2)(a) and (3)(a), *sub-fund*, for the *annual accounting period* in question and the financial position of the *authorised fund* or *sub-fund* as at the end of that period.

Half-yearly reports

10.3.4

R

/1

- (1) A half yearly report on an *authorised fund*, other than an *umbrella scheme* must contain:
 - (a) full accounts for the *half-yearly accounting period* which must, subject to the *rules* in this chapter, consist of the matters required by the Statement of Recommended Practice relating to *Authorised open-ended investment companies* or by the Statement of Recommended Practice relating to *Authorised unit trust schemes* ; and
 - (b) the information required to comply with *CIS 10.4.2R*;
- (2) A half yearly report on an *umbrella scheme* must contain:
 - (a) reports relating to each of its *sub-funds* which must, so far as practicable, contain the accounts and information that would be required by (1) if each *sub-fund* were a separate *authorised fund*; and
 - (b) an aggregation of the accounts required by (a) and, except as contained in a report relating to a *sub-fund* in accordance with (a), the information required to comply with *CIS 10.4.2R*.
- (3) A half-yearly report relating to a *sub-fund* which is not part of a report under (2) must contain so far as practicable the accounts and information that would be required by (1) if the *sub-fund* were a separate *authorised fund*.

Signing of reports

10.3.5

R

/1

- (1) Each report on an *ICVC* (other than a report prepared under *CIS 10.3.3R(2)(a)* and *CIS 10.3.4R(2)(a)*) must be signed by the *ACD*, or, if there is more than one *director* of the *ICVC*, must, following approval of the report by the board of *directors*, be signed on behalf of the board of *directors* of the *ICVC* by the *ACD* and at least one other *director*.
- (2) Each report on an *AUT* (other than a report prepared in accordance with *CIS 10.3.3R(2)(a)* or *CIS 10.3.4R(2)(a)*) must be signed by two *directors* of the *manager* or, if the *manager* has only one *director*, by that *director*.

Short form accounts in reports

10.3.6

R

/1

- (1) If the *directors* of an *ICVC* or the *manager* of an *AUT* so determine, the accounts contained in a report sent or supplied to each *holder* in accordance with *CIS 10.5.2R(2)* and (3) may be

short form accounts except to the extent that, in respect of any particular accounting period, a *holder* (or for joint *holders*, the first named) has requested that a report containing the full accounts of the *authorised fund* or *umbrella scheme* be sent or supplied to him.

- (2) An annual report that contains short form accounts in accordance with (1) must contain:
 - (a) the statement and any report required under *CIS* 10.4.4R (Report of the directors or report of the manager: short form accounts); and
 - (b) the auditor's statement required under *CIS* 10.4.9R instead of the report of the auditor referred to in *CIS* 10.4.8R, unless the latter is qualified, in which case the annual report must contain both.
- (3) Short-form accounts must comply with the relevant requirements of the Statement of Recommended Practice mentioned in *CIS* 10.3.3R(1)(a).
- (4) Accounts to be included in a report to be published or offered in accordance with *CIS* 10.5.2R (Publication of reports), *CIS* 10.5.3R (Reports to be offered to purchasers of units) or *CIS* 10.5.4R (Publication of availability of reports and prospectus) may only be short form accounts to the extent permitted by (1), (2) and (3).

Duty of the ACD

10.3.7

R

/1

The ACD must ensure that each annual and half-yearly report (including any accounts to be contained in it) complies with *CIS* 10.3.3R (Annual reports), *CIS* 10.3.4R (Half yearly reports), *CIS* 10.3.5R (Signing of reports) and (where applicable) with *CIS* 10.3.6R (Short form accounts in reports).

10.4 Information to be included in annual and half-yearly reports

Application

10.4.1

R

/1

This section (CIS 10.4) applies to the *directors* of an *ICVC* (for a report on an *ICVC*) or to the *manager* (for report on an *AUT*), except:

- (1) CIS 10.4.6R (Report of the depositary of an *ICVC*) which applies only to the *depositary* of an *ICVC*;
- (2) CIS 10.4.7R (Report of the trustee of an *AUT*) which applies only to the *trustee* of an *AUT*; and
- (3) CIS 10.4.8R (Report of the auditor) and CIS 10.4.9R (Auditor's statement relating to short form accounts) which apply to the auditors of the *authorised fund*, appointed in accordance with paragraph (4) of Schedule 5 of the *OEIC regulations* (for an *ICVC*) or appointed under CIS 7.8.5R (for an *AUT*).

Report of the directors of an *ICVC* or report of the manager of an *AUT*

10.4.2

R

/1

The matters set out in (1) – (15) must be included in each report of the *directors* (for a report on an *ICVC*) and in each report of the *manager* (for a report on an *AUT*), except where otherwise indicated:

- (1) the names and addresses of :
 - (a) the *authorised fund manager*;
 - (b) the *depositary*;
 - (c) the *registrar*;
 - (d) any *investment adviser*;
 - (e) the auditor; and
 - (f) for a *property scheme*, the *standing independent valuer*;

- (2) (for a report of the *directors*), the names of any *directors* other than the *ACD*;
- (3) a statement that :
 - (a) (for a report of the *manager*) the *AUT* is an *authorised unit trust scheme* under section 243 of the *Act* (*Authorisation orders*); or
 - (b) (for a report of the *directors*) the *ICVC* is an *investment company with variable capital* under regulation 12 (*Authorisation*) of the *OEIC regulations*;
- (4) (for a report of the *directors*) a statement that the *shareholders* of the *ICVC* are not liable for the debts of the *ICVC*;
- (5) a statement as to which of the categories of *authorised fund* in *CIS 2.1.4R* (*Constitution*) the *authorised fund* belongs;
- (6) the investment objectives of the *authorised fund*;
- (7) the *ICVC's* (for a report of the *directors*) or *manager's* (for a report of the *manager*) policy for achieving those objectives;
- (8) a review of the *ICVC's* (for a report of the *directors*) or *manager's* (for a report of the *manager*) investment activities during the period to which the report relates;
- (9) where the *directors* of an *ICVC* or the *manager* of an *AUT* have determined that the accounts contained in the report should be short form accounts, a statement that a report containing the full accounts is available on request;
- (10) particulars of any significant change in the *prospectus* made since the date of the last report;
- (11) particulars of any significant change in the *instrument constituting the scheme* made since the date of the last report;
- (12) a statement of any sub-division or consolidation of *units* which has been effected during the period to which the report relates (but, for an *ICVC*, other than any as between smaller and *larger denomination shares* effected under *CIS 2.5.2G* (*Characteristics of larger and smaller denomination shares*));
- (13) any other significant information which would enable *holders* to make an informed judgement on the development of the activities of the *authorised fund* during this period and the results of those activities as at the end of that period;
- (14) for a report of the *directors* included in a report on an *umbrella scheme* (prepared in accordance with *CIS 10.3.3R(2)* or *CIS*

10.3.4R(2)), a statement to the effect that, as a *sub-fund* is not a legal entity, if the assets attributable to any *sub-fund* were insufficient to meet the liabilities attributable to it, the shortfall might have to be met out of the assets attributable to one or more other *sub-funds* of the *ICVC*; and

- (15) for a report on a *sub-fund*, prepared in accordance with *CIS* 10.3.3R(3) or *CIS* 10.3.4R(3), which is not part of a report on the *umbrella scheme* of which the *sub-fund* is part:
- (a) a statement whether the auditor's report on the annual accounts of the *umbrella scheme* for the period in question was unqualified or qualified and, if it was qualified, that report in full together with any further material needed to understand the qualification;
 - (b) a statement that a report relating to the *umbrella scheme* as a whole is available from the *authorised fund manager* on request; and
 - (c) a statement equivalent to that required by (14) making it clear that the shortfall, or part of it, might have to be met out of the *sub-fund* to which the report relates.

Report of the directors or report of the manager: umbrella schemes

10.4.3

R

For a report on an *umbrella scheme* prepared in accordance with *CIS* 10.3.3R(2) or *CIS* 10.3.4R(2):

- (1) the information required by *CIS* 10.4.2R(1) – (13) must be given in respect of each *sub-fund* if it would vary from that given in respect of the *umbrella scheme* as a whole; and
- (2) *CIS* 10.4.2R(5) applies as if it required a statement in respect of each *sub-fund* that it has investment powers equivalent to those of an *authorised fund* of a stated category under *CIS* 2.1.4R (Constitution).

Report of the directors or report of the manager: short form accounts

10.4.4

R

A report of the *directors* of an *ICVC* or a report of the *manager* of an *AUT* containing short form accounts for any *annual accounting period* must:

- (1) state whether the report of the auditor on the full accounts was unqualified or qualified and, if it was qualified, contain a copy of that report in full together with any further material needed to understand the qualification; and

- (2) state whether the report of the auditor contained a statement under (3), (4) or (5) of CIS 10.4.8R and, if so, set out the statement or statements in full.

Comparative table

10.4.5

R

/1

Each report of the *directors* of an *ICVC* or each report of the *manager* of an *AUT* must contain a comparative table which must set out:

- (1) a performance record over the last five calendar years, or if the *authorised fund* has not been in existence during the whole of that period, over the whole period in which it has been in existence, showing:
- (a) the highest and the lowest *price* (or, for *dual-priced AUTs*, the highest *sale price* and lowest *redemption price*) of a *unit* of each *class* in *issue* during each of those years; and
 - (b) the net income distributed (or, for *accumulation units*, allocated) for a *unit* of each *class* in *issue* during each of those years, taking account of any sub-division or consolidation of *units* that occurred during that period;
- (2) as at the end of each of the last three *annual accounting periods* (or all of the *authorised fund's* annual accounting periods, if less than three):
- (a) the total net asset value of the *scheme property* at the end of each of those years;
 - (b) the net asset value per *unit* of each *class*; and
 - (c) (i) (for a report of the *directors*) the number of *units* of each *class* in *issue*; or
 - (ii) (for a report of the *manager*) the number of *units* of each *class* in existence or treated as in existence;
- (3) if, in the period covered by the table:
- (a) the *authorised fund* has been the subject of any event (such as a *scheme of arrangement*) having a material effect on the size of the *authorised fund*, but excluding any *issue* or *cancellation* of *units* for cash; or
 - (b) there have been changes in the investment objectives of the *authorised fund*;

an indication, related in the body of the table to the relevant year in the table, of the date of the event or change in the investment objectives and a brief description of its nature; and

- (4) for an *umbrella scheme*, the information required by (1) to (3) for each *sub-fund* of the *umbrella scheme*, instead of the information for the *umbrella scheme* as a whole.

Report of the depositary of an ICVC

10.4.6

R

/1

- (1) The *depositary* must make an annual report to *shareholders* which must be delivered to the *directors* in good time to enable its inclusion in the annual report.
- (2) That report must contain:
- (a) a description, which may be in summary form, of the duties of the *depositary* under CIS 7.4.1R (General duties of the depositary) and in respect of the safekeeping of the *scheme property*;
- (b) a statement whether, in any material respect,:
- (i) the *issue, sale, redemption and cancellation*, and calculation of the *price* of the *ICVC's shares* and the application of the *ICVC's income*, have not been carried out in accordance with the *rules* in this sourcebook and, where applicable, the *OEIC regulations* and the *instrument of incorporation* of the *ICVC*;
- (ii) the investment and borrowing powers and restrictions applicable to the *ICVC* have been exceeded.

Report of the trustee of an AUT

10.4.7

R

/1

- (1) The *trustee* must enquire into the conduct of the *manager* in the management of the *AUT* in each *annual accounting period* and must report on that conduct to the *unitholders*. That report must be delivered to the *manager* in good time to enable its inclusion in the annual report.
- (2) The report of the *trustee* must state whether in the *trustee's* opinion the *manager* has managed the *AUT* in that period:
- (a) in accordance with the investment and borrowing powers and restrictions applicable to the *AUT*; and
- (b) otherwise in accordance with the provisions of the *trust deed* and the *rules* in this sourcebook.

- (3) If the *manager* has not done so, the *trustee's* report must describe any material failures and the steps which the *trustee* has taken as a result of those failures.

Report of the auditor

10.4.8

R

/1

The report of the auditor to the *holders* on the accounts of the *authorised fund*, or on the aggregated accounts of the *umbrella scheme* (or for a report prepared for the purposes of CIS 10.3.3R(3), on the accounts of the *sub-fund*) must state:

- (1) whether, in the auditor's opinion, the accounts have been properly prepared in accordance with the Statement of Recommended Practice relating to Authorised *open-ended investment companies*, or the Statement of Recommended Practice relating to *authorised unit trust schemes*, the *rules* in this sourcebook, and the *instrument constituting the scheme*;
- (2) whether, in the auditor's opinion the accounts give a true and fair view of the net income and the net gains or losses on the *scheme property* of the *authorised fund* (or, as the case may be the *scheme property* attributable to the *sub-fund*) for the *annual accounting period* in question and the financial position of the *authorised fund* or *sub-fund* as at the end of that period;
- (3) if the auditor is of the opinion that proper accounting records for the *authorised fund* (or, as the case may be, *sub-fund*) have not been kept or that the accounts are not in agreement with those records, that fact;
- (4) if the auditor has not been given all the information and explanations which, to the best of his knowledge and belief, are necessary for the purposes of his audit, that fact; and
- (5) if the auditor is of the opinion that the information given in the report of the *directors* or in the report of the *manager* for that period is inconsistent with the accounts, that fact.

Auditor's statement relating to short form accounts

10.4.9

R

/1

In relation to short form accounts for any *annual accounting period*, the auditor must state whether, in the auditor's opinion, the short-form accounts are:

- (1) consistent with the full accounts;
- (2) prepared in accordance with:

- (a) the Statement of Recommended Practice relating to Authorised *open-ended investment companies* or in accordance with the Statement of Recommended Practice relating to *authorised unit trust schemes* so far as they relate to short form accounts; and
- (b) the *rules* in this sourcebook and the *instrument constituting the scheme*.

10.5 Publication and availability of annual and half-yearly reports

Application

- 10.5.1 **R** /1
- (1) CIS 10.5.2R(1), (2), (4) - (6) and CIS 10.5.3R – 10.5.4R apply to an *authorised fund manager*; and
 - (2) CIS 10.5.2R(3) applies to the *directors* of an *ICVC* (for an *ICVC*) or to the *manager* (for an *AUT*).

Publication of reports

- 10.5.2 **R** /1
- (1) The *authorised fund manager* must, within four months after the end of each *annual accounting period* and within two months after the end of each *half-yearly accounting period* respectively, publish the *annual report* and half-yearly report in accordance with (2) and (4).
 - (2) (a) The *authorised fund manager* must, subject to (3) provide free of charge:
 - (i) a copy of each annual report and each half-yearly report to each *holder* (or to the first named of joint *holders*) entered in or entitled to be entered in the *register* at the close of business on the last *day* of the relevant accounting period or *half-yearly accounting period*; and
 - (ii) a copy of the report to each *holder* of bearer *units* at his request.
 - (b) A report relating to an *umbrella scheme* to be provided under (a)(i) or (ii) need not contain an aggregation of the accounts relating to each *sub-fund*, but such information must be sent, free of charge, to any *holder* who requests it.
 - (3) For an *umbrella scheme*, if the *directors* of the *ICVC* or *manager* so determine for any accounting period, the reports provided to *holders* in accordance with (2) may be the reports complying with CIS 10.3.3R(3) or CIS 10.3.4R(3) (as the case may be) relating to

the respective *sub-fund* to which their unitholdings relate. However, if requested to do so by any *holder* in respect of any particular accounting period, the *authorised fund manager* must provide to that *holder* (or, for joint *holders*, the first named), a report complying with CIS 10.3.3R(2) or CIS 10.3.4R(2) (as the case may be).

- (4) The *authorised fund manager* must make available the most recent *annual report* (and, if more recent, the most recent half-yearly report) on the *authorised fund* in English prepared under CIS 10.3.3R (Annual reports) and CIS 10.3.4R (Half-yearly reports) for inspection by the public free of charge during ordinary office hours at a place specified for the purpose in the most recently published *prospectus*.
- (5) The *authorised fund manager* must also make the reports referred to in (4) available for the same purpose at a place designated by it in each *EEA State* other than the *United Kingdom* in which it markets *units* in the *authorised fund*, in English and in at least one of that other *EEA State's* official languages.
- (6) The *authorised fund manager* must provide a copy of each annual report and half-yearly report, any report sent or supplied in accordance with (3) and any report containing short form accounts on publication to the *FSA*.

Reports to be offered to purchasers of units

10.5.3

R

/1

- (1) Neither the *ICVC* nor the *authorised fund manager* shall effect any *issue* or *sale* of *units* to any *person* in the *United Kingdom* until it has offered that *person* free of charge a copy in English of the most recent *annual report* of the *authorised fund* and (if more recent) the most recent half-yearly report on the *authorised fund* before the conclusion of that *sale*.
- (2) Neither the *ICVC* nor the *authorised fund manager* shall effect any *issue* or *sale* of *units* to any *person* in the territory of a *EEA State* other than the *United Kingdom* until it has offered that *person* free of charge a copy, in an official language of that *EEA State*, of the most recent *annual report* on the *authorised fund* and (if more recent) the most recent half-yearly report on the *authorised fund* before the conclusion of that *sale*.

Publication of availability of reports and prospectus

10.5.4

R

/1

- (1) The *authorised fund manager* must, with every publication of *prices* in a *UK* newspaper under CIS 4.4.8R (Publications of prices) or CIS 15.4.14R (Publications of prices), publish a

statement that a copy of the most recent annual report or half-yearly report and *prospectus* is available free of charge to anyone who requests the *ICVC* or the *authorised fund manager* for it.

- (2) It will be sufficient compliance with (1) if one of the pages in which the *authorised fund manager* publishes *prices* in the newspaper carries the statement there required in relation to all, or any relevant category of, the *collective investment schemes* referred to in those pages.

Chapter 11

Meetings of holders, amendments to the scheme and service of notices

11.1 Introduction

11.1.1 **R** /1 The *rules* and *guidance* in this chapter apply in accordance with CIS 11.1.4R (Table of application).

Purpose

11.1.2 **G** /1 This chapter helps in achieving the *regulatory objective* of protecting consumers as envisaged by section 2 and 5 of the *Act*, by:

- (1) setting out specific conditions for meetings of *holders*, in particular about convening of meetings, attendance, voting rights and quorums;
- (2) giving *holders* a right to convene a meeting in certain circumstances; and
- (3) providing conditions which must be satisfied if the *instrument constituting the scheme* is to be amended.

Explanation of this chapter

11.1.3 **G** /1 This chapter deals mainly with four subjects.

- (1) Requirements relating to meetings of *holders* (see CIS 11.2 and 11.3). These *rules* are more detailed for a meeting of *unitholders* of an *AUT* (CIS 11.3) than for a meeting of *shareholders* of an *ICVC* (CIS 11.2), where detailed procedures are left to be covered by the *instrument of incorporation* of the *ICVC*;
- (2) Requirements relating to the amendment of an *instrument of incorporation* of an *ICVC* or a *trust deed* of an *AUT* (see CIS 11.4). Changes to the *prospectus* that require approval of *holders* are covered by CIS 3.4.2R (Changes to prospectus);
- (3) Requirements relating to amalgamations, reconstructions and other *schemes of arrangement* that may affect an *authorised fund* (see CIS 11.5). The conversion of an *AUT* to an *ICVC* comes within the meaning of a *scheme of arrangement*.
- (4) Requirements for the service of notices and other documents (see CIS 11.6). The Financial Services and Markets Act 2000 (Services of Notices) Regulations 2001 (SI2001/1420) contain provisions relating to the service of documents. These do not apply to the service of documents under the *rules* in CIS owing to the specific *rules* in this chapter.

11.1.4

R

Table Table of application
This table belongs to [CIS11.1.1]

/1

Paragraph or section number	ICVC	ACD	Any other directors of an ICVC	Depositary of an ICVC	Manager	Trustee
11.1	X	X	X	X	X	X
11.2		X	X			
11.3					X	X
11.4.1G – 11.4.2R	X	X	X			
11.4.3R					X	X
11.4.4R	X	X	X		X	X
11.4.5G					X	
11.5		X	X		X	X
11.6	X	X	X	X	X	X

Note: "X" means "applies".

11.2 Meetings of shareholders

General meetings

- 11.2.1 **R** /1
- (1) The *directors* may convene a general meeting of *shareholders* at any time.
 - (2) On receipt of a requisition that complies with (3), the *directors* must immediately proceed to convene a general meeting of the *ICVC* for a date no later than eight weeks after receipt of the requisition.
 - (3) A requisition must:
 - (a) state the objects of the meeting;
 - (b) be dated;
 - (c) be signed by *shareholders* who, at that date, are registered as the *shareholders* of *shares* representing not less than one-tenth in value of all of the *shares* in the *ICVC* then in *issue*; and
 - (d) be deposited at the head office of the *ICVC*.
 - (4) A requisition may consist of several documents deposited with the *ICVC* at the same time, which must each be in similar form and signed by one or more *shareholders*.

Special meaning of shareholder

- 11.2.2 **R** /1
- (1) Unless any *share* in the *ICVC* is a *participating security*, in *CIS* 11.2.3R to *CIS* 11.2.8R (excluding *CIS* 11.2.4R(3)(a)) "*shareholders*" means:
 - (a) in the case of a registered *share*, *shareholders* on the date seven *days* before the notices of the relevant meeting are sent out, but excluding any *persons* who are known to the *ACD* not to be *shareholders* at the time of the meeting; or

- (b) in the case of bearer *shares*, *shareholders* of bearer *shares* which were in *issue* on the date seven *days* before the notices of the relevant meeting are sent out.
- (2) If any *share* in the ICVC is a *participating security*:
 - (a) a registered *shareholder* is entitled to receive a notice of meeting under CIS 11.2.3R, or a notice of adjourned meeting, if entered on the *register* at the close of business on a *day* to be determined by the ACD, which must not be more than 21 *days* before the notices of the meeting are sent out; and
 - (b) in CIS 11.2.4R(1) and CIS 11.2.5R to CIS 11.2.8R "*shareholders*" means:
 - (i) the *persons* entered on the *register* at a time to be determined by the ACD and stated in the notice of the meeting, which must not be more than 48 hours before the time fixed for the meeting; or
 - (ii) in the case of bearer *shares*, *shareholders* of bearer *shares* which were in *issue* at the time applicable under (i).

Notice of meetings

11.2.3

R

/1

- (1) *Shareholders* must be given at least 14 *days* written notice of a general meeting, inclusive of the date on which the notice is first served and the *day* of the meeting.
- (2) Paragraph (1) does not apply to notice of an adjourned meeting.
- (3) The accidental omission to give notice to, or the non-receipt of notice by, any of the *shareholders* does not invalidate the proceedings at any meeting.

Quorum

11.2.4

R

/1

- (1) The quorum at a meeting of *shareholders* is two *shareholders*, present in *person* or by proxy or, in the case of a *body corporate*, by a duly authorised representative.
- (2) Business must not be transacted at any meeting unless the requisite quorum is present at the commencement of business.
- (3) If within half an hour from the time appointed for the meeting, a quorum is not present, the meeting:
 - (a) if convened on the requisition of *shareholders*, must be dissolved; and

- (b) in any other case, must stand adjourned to:
 - (i) a *day* and time which is seven or more *days* after the *day* and time of the meeting; and
 - (ii) a place to be appointed by the chairman (if a chairman has been appointed in accordance with the *instrument of incorporation*) or otherwise by the *directors*.
- (4) If, at an adjourned meeting under (3)(b), a quorum is not present within 15 minutes from the time appointed for the meeting, one *person* entitled to be counted in a quorum present at the meeting is a quorum.
- (5) Notice of any adjourned meeting of *shareholders* must be given to *shareholders*. That notice must state that one or more *shareholders* present at the adjourned meeting (whatever their number and whatever the number of *shares* held by that *shareholder* or *shareholders*) will form a quorum.

Resolutions

11.2.5

R

/1

- (1) Except where an *extraordinary resolution* is specifically required or permitted by the *rules* in this sourcebook, any resolution of *shareholders* required under the *rules* in this sourcebook or under the *OEIC regulations* is passed by a simple majority of the votes validly cast for and against the resolution at a general meeting of *shareholders*. This *rule* (CIS 11.2.5R) is subject to CIS 11.2.10R(2) (Variation of class rights).
- (2) In the case of an equality of votes cast (whether on a show of hands or on a poll) in respect of a resolution put to a general meeting, any chairman appointed in accordance with the *instrument of incorporation* is entitled to a casting vote in addition to any other vote the chairman may have.

Voting rights

11.2.6

R

/1

- (1) On a show of hands every *shareholder* who:
 - (a) (if an individual), is present in person; or
 - (b) (if a *body corporate*), is present by its representative duly authorised in that regard;has one vote.
- (2) On a poll:

- (a) votes may be given either personally or by proxy or in any other manner permitted by the *instrument of incorporation*;
 - (b) the voting rights attached to each *share* must be the proportion of the voting rights attached to all of the *shares in issue* that the *price* of the *share* bears to the aggregate *price* or *prices* of all of the *shares in issue*:
 - (i) if any *share* in the ICVC is a *participating security*, at the time determined under CIS 11.2.2R(2) (Special meaning of shareholder);
 - (ii) otherwise at the date specified in CIS 11.2.2R(1); and
 - (c) a *shareholder* entitled to more than one vote need not, if he votes, use all his votes or cast all his votes in the same way.
- (3) For joint *shareholders* of a *share*, the vote of the senior who votes, whether in *person* or by proxy, must be accepted to the exclusion of the votes of the other joint *shareholders*. For this purpose, seniority must be determined by the order in which the names stand in the *register of shareholders*.
- (4) (a) No *director* of the ICVC is entitled to be counted in the quorum of, and no *director* nor any *associate* of the *director* is entitled to vote at, any meeting of the ICVC.
- (b) The prohibition in (a) does not apply to any *shares* which the *director* or its *associate* holds on behalf of, or jointly with, a *person* who, if himself the registered *shareholder*, would be entitled to vote and from whom the *director* or its *associate* (as the case may be) has received voting instructions.
- (c) Therefore, for the purpose of CIS 11.2.4R (Quorum) and CIS 11.2.7R (Right to demand a poll), *shares* held, or treated as held, by any *director*, must not, except as mentioned in (b), be regarded as being in *issue*.

Right to demand a poll

11.2.7

R

/1

A resolution put to the vote of a general meeting must be determined on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded:

- (1) by the chairman; or
- (2) by at least two *shareholders* (present in *person* or by proxy or, in the case of a *body corporate*, by a duly authorised representative); or

- (3) by the *depository*; or
- (4) without affecting (1), (2) or (3), in accordance with any relevant provisions contained in the *instrument of incorporation*.

Proxies

11.2.8

R

/1

- (1) A *shareholder* entitled to attend and vote at a meeting of the *ICVC* is entitled to appoint another *person* to attend and vote in his place (whether a *shareholder* or not).
- (2) Except in so far as the *instrument of incorporation* otherwise provides, a *shareholder* is entitled to appoint more than one proxy to attend on the same occasion but a proxy is entitled to vote only on a poll.
- (3) Every notice calling a meeting of the *ICVC* must contain a reasonably prominent statement that a *shareholder* entitled to attend and vote is entitled to appoint a proxy to attend and vote instead of the *shareholder*.
- (4) An instrument appointing a proxy, or any other document necessary to show the validity of, or otherwise relating to, the appointment of a proxy, must not be required to be received by the *ICVC* or any other *person* more than 48 hours before the meeting or adjourned meeting for the appointment to be effective.

Class meetings

11.2.9

R

/1

This chapter applies, unless the context otherwise requires, to *class meetings* as it applies to general meetings of *shareholders*, but by reference to the *shares* of the *class* concerned and the *shareholders* and *prices* of such *shares*.

Variation of class rights

11.2.10

R

/1

- (1) The rights attached to a *class* of *shares* must not be varied except with the sanction of a resolution passed at a *class meeting* of the *shareholders* of the *class*.
- (2) The *instrument of incorporation* may require such a resolution to be passed by more than a simple majority of the votes validly cast for and against it.

11.3 Meetings of unitholders

Convening and attendance at meetings of unitholders

11.3.1

R

/1

- (1) The *trustee* or the *manager* may, at any time, convene a meeting of *unitholders*.
- (2) The *trustee* must, on request in writing of *unitholders* registered as holding not less than one-tenth (or any proportion below one-tenth specified for this purpose in the *trust deed*) in value of the *units* in *issue*, convene a meeting of *unitholders*.
- (3) Any meeting of *unitholders* must be held at such time and place as the *trustee*, after consulting the *manager*, thinks fit.
- (4) The *manager* and *trustee* are each entitled to receive notice of and to attend every meeting of *unitholders*.

Special meaning of unitholder

11.3.2

R

/1

- (1) Unless any *unit* in the *AUT* is a *participating security*, in *CIS* 11.3.3R to *CIS* 11.3.12R, “*unitholders*” means:
 - (a) in the case of registered *units*, *unitholders* on the date seven *days* before the notices of the relevant meeting are sent out, but excluding any *persons* who are known to the *manager* not to be *unitholders* at the time of the meeting; or
 - (b) in the case of bearer *units*, *unitholders* of bearer *units* which were in *issue* on the date seven *days* before the notices of the relevant meeting are sent out.
- (2) If any *unit* in the *AUT* is a *participating security*:
 - (a) a registered *unitholder* is entitled to receive a notice of meeting under *CIS* 11.3.6R, or a notice of adjourned meeting, if entered on the *register* at the close of business on a *day* to be determined by the *manager*, which must not be more than 21 *days* before the notices of the meeting are sent out; and

- (b) in CIS 11.3.3R to CIS 11.3.12R (excluding 11.3.6R), “*unitholders*” means:
- (i) the *persons* entered on the *register* at a time to be determined by the *manager* and stated in the notice of meeting, which must not be more than 48 hours before the time fixed for the meeting; or
 - (ii) in the case of bearer *units*, *unitholders* of bearer *units* which were in *issue* at the time applicable under (i).

Power of a meeting of unitholders

11.3.3 **R** /1 A meeting of *unitholders* duly convened and held in accordance with this chapter is competent by *extraordinary resolution* to require, authorise or approve any act, matter or document in respect of which any such resolution is required or expressly contemplated by the *rules* in this sourcebook, but will not have any other powers.

The chairman

- 11.3.4 **R** /1
- (1) A meeting of *unitholders* must be presided over by a chairman, (who need not be a *unitholder*), nominated in writing by the *trustee*.
 - (2) If no such *person* referred to in (1) is nominated or if at any meeting the *person* nominated is not present within 15 minutes after the time appointed for holding the meeting, the *unitholders* present must choose one of their number to be chairman.

Adjournment

- 11.3.5 **R** /1
- (1) The chairman:
 - (a) may, with the consent of any meeting of *unitholders* at which a quorum is present; and
 - (b) must, if so directed by the meeting;adjourn the meeting from time to time and from place to place.
 - (2) Business must not be transacted at any adjourned meeting, except business which might lawfully have been transacted at the meeting from which the adjournment took place.

Notice of meetings

11.3.6

R

/1

- (1) *Unitholders* must be given at least 14 *days* written notice (or any longer period of notice specified for the purpose in the *trust deed*), inclusive of the date on which the notice is first served and the *day* of the meeting.
- (2) The notice must specify the place, *day* and hour of meeting and the terms of the resolutions to be proposed.
- (3) Unless the *trustee* has convened the meeting, a copy of the notice must be sent to the *trustee*.
- (4) The accidental omission to give notice to, or the non-receipt of notice by, any of the *unitholders* does not invalidate the proceedings at any meeting.
- (5) Notice of any adjourned meeting of *unitholders* must be given to *unitholders*. That notice must state that one or more *unitholders* present at the adjourned meeting, whatever their number, and whatever the number of *units* held by them, will form a quorum.

Quorum

11.3.7

R

/1

- (1) The quorum at a meeting of *unitholders* is the *unitholders* present in person or by proxy or, in the case of a *body corporate*, by a duly authorised representative, of one-tenth in value (or any proportion more than one-tenth in value specified for this purpose in the *trust deed*) of all the *units* in issue:
 - (a) if any *unit* in the *AUT* is a *participating security*, at the time determined under *CIS* 11.3.2R(2) (Special meaning of unitholders);
 - (b) otherwise at the date specified in *CIS* 11.3.2R(1) ;excluding from the calculation any *units* known to have been redeemed before the time of the meeting.
- (2) No business is to be transacted at any meeting unless the requisite quorum is present at the commencement of business.
- (3) If within half an hour from the time appointed for the meeting a quorum is not present, the meeting must stand adjourned to:
 - (a) a *day* and time which is 14 or more *days* after the *day* and time of the meeting; and
 - (b) a place to be appointed by the chairman.

- (4) If, at an adjourned meeting under (3), a quorum is not present within 15 minutes from the time appointed for the meeting, one *person* entitled to be counted in a quorum present at the meeting is a quorum.

Restrictions on the posing of composite resolutions to meetings of unitholders

11.3.8

R

/1

- (1) The amendments to the *trust deed* set out in (2) must not be taken to have been authorised by an *extraordinary resolution* at a meeting of *unitholders*, unless each such modification has been the subject of a separate motion for its approval which has been separately approved by an *extraordinary resolution* at that meeting.
- (2) The amendments to the *trust deed* referred to in (1) are:
- (a) an increase in the maximum of any periodic charge stated in the *trust deed*;
 - (b) an increase in the maximum of any *preliminary charge* stated in the *trust deed*; and
 - (c) an amendment to any provision in the *trust deed* that restricts:
 - (i) the kind of property in which the *scheme property* may be invested; or
 - (ii) the proportion of property to be invested in assets of any description; or
 - (iii) the description of transactions permitted; or
 - (iv) the borrowing powers of the *AUT*.

Voting rights

11.3.9

R

/1

- (1) On a show of hands every *unitholder* who:
- (a) (if an individual) is present in person; or
 - (b) (if a *body corporate*) is present by its representative duly authorised in that regard;
- has one vote.
- (2) (a) On a poll, every *unitholder* who is present in person or by proxy or, in the case of a *body corporate*, by a duly authorised representative has one vote for every complete undivided *share*

in the *scheme property* and a further part of one vote proportionate to any fraction of such an undivided *share* of which he is the *unitholder*.

- (b) A *unitholder* entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.
- (3) A *body corporate* being a *unitholder* may authorise such *person* as it thinks fit to act as its representative at any meeting of *unitholders* and the *person* so authorised is entitled to exercise the same powers on behalf of the *body corporate* which he represents as the *body corporate* could exercise if it were an individual *unitholder*.
- (4) For joint *unitholders*, the vote of the senior who votes, whether in *person* or by proxy must be accepted to the exclusion of the votes of the other joint *unitholders*. For this purpose seniority must be determined by the order in which the names stand in the *register* of *unitholders*.
- (5) On a poll votes may be given either personally or by proxy or in any other manner permitted by the *trust deed*.
- (6) (a) No *manager* is entitled to be counted in the quorum of, and no *manager* nor any *associate* of the *manager* is entitled to vote at, any meeting of *unitholders*.
(b) The prohibition in (a) does not apply to any *units* which the *manager* or its *associate* holds on behalf of, or jointly with a *person* who, if himself the registered *unitholder*, would be entitled to vote and from whom the *manager* or its *associate* (as the case may be) has received voting instructions.
(c) Therefore, for the purpose of this *rule* (CIS 11.3.9R) and the other *rules* in this section (CIS 11.3), the *units* held treated as held by the *manager* must not, except as mentioned in (b), be regarded as being in *issue*.

Right to demand a poll

11.3.10

R

/1

- (1) An *extraordinary resolution* put to the vote of a meeting of *unitholders* must be determined on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded:
 - (a) by the chairman; or
 - (b) by the *trustee*; or

- (c) by one or more *unitholders* present in person or by proxy or, in the case of a *body corporate* by a duly authorised representative, and holding or representing one-twentieth (or any proportion less than one-twentieth specified for this purpose in the *trust deed*) in value of all the *units* in *issue*:
 - (i) if any *unit* in the *AUT* is a *participating security*, at the time determined under *CIS* 11.3.2R(2) (Special meaning of unitholder: participating securities);
 - (ii) otherwise at the date specified in *CIS* 11.3.2R(1) (Special meaning of unitholder);

excluding from that calculation any *units* known to have been redeemed before the time of the meeting.

- (2) Unless a poll is demanded in accordance with (1), a declaration by the chairman that a resolution has been carried or carried unanimously or by a particular majority or lost is conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour or against such resolution.
- (3) If a poll is duly demanded, it must be taken in the manner which the chairman directs. The result of a poll is deemed to be the resolution of the meeting at which the poll was demanded.
- (4) A poll demanded on the election of a chairman or on a question of adjournment must be taken immediately; a poll demanded on any other question must be taken at the time and place which the chairman directs.
- (5) The demand for a poll must not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll has been demanded.

Proxies

11.3.11

R
/1

- (1) The instrument appointing a proxy must be signed by the appointor or of his attorney duly authorised in writing or, if the appointor is a *body corporate*, either under the common seal or by an *officer* or attorney so authorised.
- (2) The instrument appointing a proxy and the power of attorney or other authority (if any) under which it is signed or a notarially certified copy of that power or authority must be deposited at the place which the *trustee*, or the *manager* with the approval of the *trustee*, may in the notice convening the meeting direct (or if no such place is appointed then at the registered office of the *manager*).

- (3) The instrument must be deposited not less than 48 hours before the time appointed for holding the meeting or adjourned meeting (or in the case of a poll before the time appointed for the taking of the poll) at which the *person* named in the instrument proposes to vote, and in default the instrument of proxy is not to be treated as valid.
- (4) No instrument appointing a proxy is valid after the expiration of 12 months from the date stated in it as the date of its execution.
- (5) A *person* appointed to act as proxy need not be a *unitholder*.
- (6) An instrument of proxy may be in the usual common form or in any other form which the *trustee* approves.
- (7) (a) A vote given in accordance with the terms of an instrument of proxy is valid in spite of:
 - (i) the previous death or incapacity of the principal; or
 - (ii) revocation of the proxy or of the authority under which the proxy was executed; or
 - (iii) the transfer of the *units* in respect of which the proxy is given;provided that no intimation in writing of that death, incapacity, revocation or transfer has been received.
- (b) Any such intimation must have been received at the place appointed for the deposit of proxies or, if no such place is appointed, at the registered office of the *manager* before the commencement of the meeting or adjourned meeting at which the proxy is used.

Minutes

11.3.12

R

/1

- (1) Minutes of all resolutions and proceedings at every meeting of *unitholders* must be made and duly entered in books to be from time to time provided for the purpose by, and at the expense of, the *manager*.
- (2) Any minute referred to in (1) purporting to be signed by the chairman of the meeting of *unitholders* is conclusive evidence of the matters stated in it.
- (3) Until the contrary is proved, every such meeting in respect of the proceedings of which minutes have been made are treated as duly held and convened and all resolutions passed at it to have been duly passed.

Class meetings

11.3.13

R

^{/1}

- (1) If the *trustee* is of the opinion that any *extraordinary resolution* to be proposed is one in relation to which there is or might be a conflict of interest between:
- (a) the *unitholders* of *accumulation units* and the *unitholders* of *income units*; or
 - (b) in the case of an *AUT* that is an *umbrella scheme*, between the *unitholders* in one *sub-fund* and the *unitholders* in another;
- that resolution is not to be treated as duly passed, unless instead of being passed at a single meeting of all *unitholders*, it is duly passed at separate meetings respectively of the *unitholders* of *accumulation units* and *income units* or of the *unitholders* in the one *sub-fund* and *unitholders* in the other (as the case may be).
- (2) This chapter applies to each separate meeting held under (1) as it applies to other meetings.

11.4 Amendments to the instrument constituting the scheme

Explanation

11.4.1

G
/1

- (1) This section (*CIS 11.4*) outlines how amendments to the *instrument constituting the scheme* may be made.
- (2) For an *ICVC*, paragraph 5 of Schedule 2 (*Instrument of incorporation*) to the *OEIC regulations*:
 - (a) prohibits any amendment to the statements in the *instrument of incorporation* which are required by Schedule 2, paragraph 2 of the *OEIC regulations*;
 - (b) prohibits any amendment to a provision contained in the instrument of incorporation in accordance with Schedule 2, paragraph 3 of the *OEIC regulations*, unless it has been approved by a resolution of the *shareholders*; and
 - (c) permits any other amendment subject to any restriction imposed by the *rules* in this chapter.
- (3) *CIS 11.4.2R* and sub-paragraphs (1), (4) and (5) of *CIS 11.4.4R* contain the *rules* referred to in (2)(c). The *rules* relating to amendments of a *trust deed* are contained in *CIS 11.4.3R* and sub-paragraphs (2) to (4) and (6) to (8) of *CIS 11.4.4R*.

Amendment to instrument of incorporation: with meeting

11.4.2

R
/1

- (1) An amendment of a provision of the *instrument of incorporation* of an *ICVC* required to comply with paragraphs (3)(1) or (4)(1)(b) or (4)(1)(d) of Schedule 2 (*Instrument of incorporation*) to the *OEIC regulations*, must not be made except by an *extraordinary resolution*, unless:
 - (a) the amendment is to the category of the *ICVC* and is made for the purpose of *CIS 12.5.5R* (An *ICVC* with only one sub-fund); or

- (b) the amendment is to a provision required to comply with paragraph (4)(1)(d) of Schedule 2 of the *OEIC regulations* and is made solely to reflect the introduction of a new *sub-fund*.
- (2) Any other amendment of the *instrument of incorporation* must not be made except by a resolution of the *shareholders*, but this is subject to (3) and to *CIS 11.4.4R* (Amendment to the instrument constituting the scheme: without meeting).
- (3) An amendment to the *instrument of incorporation* that:
 - (a) relates to a particular *class* of *shares* or particular *classes* (and does not relate to a provision required to comply with paragraph 3(1) of Schedule 2 to the *OEIC regulations*); and
 - (b) does not prejudice the *shareholders* of any other *class*;may be made by a resolution passed at a *class meeting* or *class meetings*. That resolution must be an *extraordinary resolution* if the amendment is of a type within (1) and to which (1)(a) or (1)(b) does not apply.

Amendment to the trust deed: with meeting

11.4.3

R

/1

- (1) An amendment must not be made to the *trust deed* except by a deed, expressed to be supplemental to the *trust deed*, entered into by the *manager* and the *trustee* following:
 - (a) the calling of a meeting of *unitholders* by notice (if required under (2)); and
 - (b) the approval of a meeting of *unitholders* (if required under (3)).
- (2) The calling of a meeting is necessary unless the *manager* and *trustee* have agreed that the amendment is one which may, in accordance with *CIS 11.4.4R*, be made without the approval of a resolution.
- (3) The approval of the *unitholders* (signified by the passing at the meeting of an *extraordinary resolution* authorising the amendment) is required in any case where a meeting of *unitholders* has to be called.

Amendment to the instrument constituting the scheme: without meeting

11.4.4

R

/1

- (1) An amendment to the *instrument of incorporation* of an *ICVC* may be made by a resolution of the *directors* in any of the cases to

which (4) applies, unless CIS 11.4.2(1)R (Amendment to the instrument of incorporation: with meeting) applies.

- (2) An amendment to the *trust deed* may be made without the approval of a resolution of *unitholders*, in any of the cases to which (4), (6) or (7) applies. This is subject to:
 - (a) any restriction on the powers to amend the *trust deed* which may be contained in the *trust deed*; and
 - (b) paragraph (3).
- (3) An amendment to the *trust deed* is not within (2) if it:
 - (a) would affect any express restriction imposed by the *trust deed* on the powers which the *manager* and *trustee* or either of them would otherwise be able to exercise within the *rules* in this sourcebook; or
 - (b) would increase the maximum of any *preliminary charge* or periodic charge authorised by the *trust deed* to be made by the *manager*; or
 - (c) would relate to the authority for payments to be made out of the *scheme property* to the *trustee* by way of *remuneration* for the *trustee's* services.
- (4) This sub-paragraph (4) applies in respect of an *authorised fund*, subject to sub-paragraph (5) in the case of an *ICVC*, if the amendment is required solely:
 - (a) to implement any change in the law, including a change brought about by an amendment of the *OEIC regulations* or of the *Act* or of the *rules* in this sourcebook; or
 - (b) as a direct consequence of any such change; or
 - (c) to change the name of the *authorised fund*; or
 - (d) to remove from the *instrument constituting the scheme* obsolete provisions; or
 - (e) in the case of an *umbrella scheme*, to remove references to a *sub-fund*, following the approval of the *FSA* to a proposal to alter the *umbrella scheme* by removing that *sub-fund*; or
 - (f) to make any other change to the *instrument constituting the scheme* which the *directors* (for an *ICVC*) or the *manager* and *trustee* (for an *AUT*) consider does not involve any *holder* or potential *holder* in any material prejudice.
- (5) For an *ICVC*, (4) does not apply unless:

- (a) the *instrument of incorporation* provides for the amendment to be made by a resolution of the *directors*; and
 - (b) the amendment would not introduce or affect any provision relating to the kind of property in which the *scheme property* may be invested unless the amendment is required solely to reflect the introduction of a new *sub-fund*.
- (6) This sub-paragraph (6) applies to an *AUT*, if the amendment is required solely:
- (a) for a *relevant pension scheme* or a *relevant charitable scheme*, to preserve its status as such a *scheme*; or
 - (b) for a *relevant pension scheme*, to specify as the *scheme* or the *investment trust* in which the *AUT* is to invest, a *regulated collective investment scheme* or *eligible investment trust* which has replaced the previous *scheme* or *investment trust* as a result of a *scheme of arrangement*; or
 - (c) to include a provision to enable the *manager* to deduct a *redemption charge*, where the circumstance envisaged by CIS 8.5.3R (Control over maximum charges on issue and redemption: single-priced *AUTs*) and CIS 15.4.11R (Control over maximum charges on issue and redemption: for dual-priced *AUTs*) does not apply; or
 - (d) to replace the *manager* or the *trustee* where it has been removed or wishes to retire or has retired; or
 - (e) to include or change a provision relating to the *remuneration* of the *trustee* for its services in connection with the establishment and maintenance of a *plan register*.
- (7) This sub-paragraph (7) applies to an *AUT*, if the amendment is:
- (a) (i) solely for the purpose of applying to the *AUT* the *rules* applicable to *single-priced AUTs*; or
 - (ii) an amendment which is necessary as a result of an amendment within (i); and
 - (b) made not less than six weeks after:
 - (i) the *manager* has given notice in writing to the *unitholders* and *plan investors* of the proposed amendment and the date on which it is intended to take effect or how that date will be determined; and
 - (ii) the *manager* has revised the *prospectus* to include a statement about the proposed change from dual to single-pricing.

- (8) The notice referred to in (7)(b)(i) must include or be accompanied by suitable information on the nature and implications of the proposed change.

Matters to be included in notices sent to unitholders when a manager proposes a change from dual to single pricing

11.4.5

G
/1

- (1) CIS 11.4.4 R(8) requires any notice given to *unitholders* or *plan investors* when a *manager* proposes a change from dual to single pricing to include or be accompanied by suitable information on the nature and implications of the proposed change. Paragraph (3) of this *guidance* (CIS 11.4.5G) lists some matters which could assist *managers* in their consideration of what constitutes suitable information.
- (2) (a) The matters listed in (3) are not intended to be exhaustive, nor are they in any particular order of importance.

(b) In considering whether information is suitable, *managers* are expected to take into account the amount of information, its relevance and the manner of its presentation.

(c) The *FSA* has no objection to detailed issues being covered by reference to the *prospectus*, *key features* for the *AUT* and other documents, where these documents accompany the notice sent to *unitholders* or *plan investors*.
- (3) (a) The *manager's* reason for the change

The *manager's* reason for the proposed change should be stated.

(b) Time

The notice should state when the proposed change is intended to take effect.

(c) The system

The notice should explain the main features of the single-pricing system

(d) Differences between dual and single-pricing

The notice should outline the main differences between dual and single-pricing.

(e) *Dilution levy*

The notice should also cover *dilution*: what is it, how it will affect investors and the *manager's* policy on imposing a *dilution levy*.

(f) Impact on the investor

The notice should indicate what the implications of a change from dual to single-pricing are for investors, taking into account the particular circumstances of the *AUT* concerned.

(g) Valuation of the *scheme property*

The notice should state the major differences in the valuation of the *scheme property*.

(h) Any other material facts

The notice should state any other material facts that a *unitholder* or *plan investor* should be aware of in order to understand the implications of the intended transition.

11.5 Schemes of arrangement

Schemes of arrangement: explanation

11.5.1

G

/1

- (1) Under section 251 of the *Act* (Alteration of schemes and changes of manager or trustee) or regulation 21 of the *OEIC regulations* (The Authority's approval for certain changes in respect of a company), written notice of certain types of proposed change must be given to the *FSA*. Effect cannot be given to such a change except in accordance with that section or regulation.
- (2) One of the types of proposal that is subject to section 251 or regulation 21 is a proposal that an *ICVC* or *AUT* should be involved in a *scheme of arrangement*.
- (3) The *issue* of *units* in exchange for assets is subject to:
 - (a) *CIS* 4.3.3R (Issue and cancellation of shares by an *ICVC*);
 - (b) *CIS* 4.3.4R (Issue and cancellation of units in an *AUT*);
 - (c) *CIS* 11.5.2R (Scheme of arrangement: requirements); and
 - (d) *CIS* 15.3.5R (Issue by trustee).

Schemes of arrangement: requirements

11.5.2

R

/1

- (1) *A scheme of arrangement* must not result in *holders* of *units* in an *authorised fund* becoming *holders* of *units* in any body other than a *regulated collective investment scheme*.
- (2) For a *UCITS scheme* or a *sub-fund* of a *UCITS scheme*, (1) applies as if the reference to a *regulated collective investment scheme* excluded any *recognised scheme* other than a *scheme* recognised under section 264 of the *Act* (Schemes constituted in other EEA States).
- (3) Where, for the purpose of a *scheme of arrangement*, it is proposed that *scheme property* of an *authorised fund* should become the property of another *regulated collective investment scheme* or *sub-fund* of a *regulated collective investment scheme*, the proposal must not be implemented without the sanction of an

extraordinary resolution of the *holders of units* in the *authorised fund*, unless (4) applies.

- (4) Where, for the purposes of a *scheme of arrangement*, it is proposed that *scheme property* attributable to a *sub-fund* of an *umbrella scheme* should become the property of another *regulated collective investment scheme* or of another *sub-fund* of a *regulated collective investment scheme* (whether or not of that *umbrella scheme*), the proposal must not be implemented without the sanction of:
- (a) an *extraordinary resolution* of the *holders of units* in the *sub-fund* of that *umbrella scheme*; and
 - (b) (unless implementation of the *scheme of arrangement* is not likely to result in any material prejudice to the interests of the *holders of units* in any other *sub-fund* of that *umbrella scheme*) an *extraordinary resolution* of the *holders of units* in that *umbrella scheme*.
- (5) If it is proposed that an *authorised fund* or *sub-fund* of an *umbrella scheme* should receive property (other than its first property) as a result of a *scheme of arrangement* (or an arrangement equivalent to a *scheme of arrangement*) which is entered into by some other *collective investment scheme* or *sub-fund*, or by a *body corporate*, the proposal must not be implemented without the sanction of an *extraordinary resolution* of the *holders of units* in the *authorised fund* or (as the case may be) of the *class* or *classes of units* related to the *sub-fund* unless (6) applies.
- (6) This paragraph (6) applies if the *directors* of the *ICVC* or the *manager* and *trustee* of the *AUT* agree that the receipt of the property concerned for the account of the *ICVC* or *AUT*:
- (a) is not likely to result in any material prejudice to the interests of the *holders of units* in the *authorised fund*; and
 - (b) is consistent with the objectives of the *authorised fund* or *sub-fund*; and
 - (c) could be effected without any breach of a *rule* in *CIS 5* (Investment and borrowing powers).

11.6 Service of notices and other documents

Notices to holders

11.6.1

R

/1

- (1) Where this sourcebook requires any notice or document to be served upon a *holder*, it is duly served :
 - (a) for *units* held by a registered *holder*, if it is:
 - (i) sent by post to or left at the registered *holder's* address as appearing in the *register*; or
 - (ii) delivered by using an electronic medium in accordance with CIS 11.6.2R (Other notices); or
 - (b) for *units* for the time being represented by *bearer certificates*, if it is given in the manner provided for in the most recently published *prospectus*.
- (2) Any notice or document served by post is deemed to have been served on the second *day* following the *day* on which the letter containing the notice or document is posted, and in proving such service it is sufficient to prove that that letter was properly addressed, stamped and posted. Any notice or document left at a registered address or delivered other than by post is deemed to have been served on the *day* it was so left or delivered.
- (3) Service of a notice or document on any one of joint *holders* is effective service on the other joint *holders*.

Other notices

11.6.2

R

/1

- (1) Where this sourcebook requires any notice or document to be served or information to be given to any *person*, including the *FSA*, this must be:
 - (a) in hard copy; or
 - (b) in any other legible form, provided:

- (i) this is consistent with the *ICVC's*, the *director's*, the *authorised fund manager's* or *depository's* knowledge of how the recipient of the notice or document wishes or expects to receive the notice or document;
 - (ii) the *ICVC*, the *director*, the *authorised fund manager* or *depository* is able to produce the item in hard copy;
 - (iii) the recipient is able to know or record the time of receipt; and
 - (iv) the context does not require otherwise.
- (2) In this sourcebook, any requirement that a document be signed may be satisfied by an electronic signature or electronic evidence of assent.
- (3) This *rule* (*CIS 11.6.2R*) is subject to *CIS 4.3.6R* (Instructions or notifications between manager and trustee: for single-priced AUTs) or *CIS 15.3.10R* (Instructions or notifications between manager and trustee: for dual-priced AUTs).

Form of document or notice

11.6.3

G
/1

In this sourcebook:

- (1) *CIS 11.6.2R* does not affect any other legal requirement which may apply in relation to the form or manner of executing a document or agreement; and
- (2) references to written form include hard copy and electronically displayed or recorded information.

Chapter 12

Special Provisions for Certain Categories of Scheme

12.1 Introduction

Application

12.1.1 **R** _{/1} The *rules* and *guidance* in this chapter apply in accordance with CIS 12.1.3R.

Purpose

12.1.2 **G** _{/1} This chapter provides additional *rules* for certain categories of *scheme* so as to recognise some of their special characteristics and to further the *regulatory objective* relating to the protection of *consumers* by providing detailed procedures for such specialist funds. In some cases these special *rules* adapt *rules* elsewhere in this sourcebook.

12.5.8	X	X	X	X	X	X

Note: "X" means applies.

12.2 Futures and options schemes and geared futures and options schemes

Special rules for sales and redemptions

12.2.1

R

/1

- (1) In the case of a *futures and options scheme* and a *geared futures and options scheme*, CIS 4.4.3R (Authorised fund manager's obligation to sell) and CIS 4.4.4R (Authorised fund manager's obligation to redeem) do not apply:
 - (a) in the 15 minutes immediately before a regular *valuation point*, or, if the regular *valuation points* are less than one hour apart, in the last quarter of the interval between them; and
 - (b) if the *authorised fund manager* has stated in the *prospectus* that it is not obliged to *sell* or redeem in the 15 minutes (or lesser period) immediately before a regular *valuation point*.
- (2) In the case of a *futures and options scheme* and a *geared futures and options scheme* that is a *dual-priced AUT*, CIS 15.4.3R (Manager's obligation to sell) and CIS 15.4.7R (Manager's obligation to redeem) are disapplied under the same conditions as in (1)(a) and (b).

12.3 Property schemes

Standing independent valuer

12.3.1

R

/1

- (1) An *authorised fund manager* of a *property scheme* must ensure that any immovables in the *scheme property* are valued by an *appropriate valuer (standing independent valuer)* appointed by the *authorised fund manager*. The appointment must be made with the approval of the *trustee* or *depository* at the outset and upon any vacancy.
- (2) The valuer in (1) must be:
 - (a) for an *AUT*, independent of the *manager* and *trustee*; and
 - (b) for an *ICVC*, independent of the *ICVC*, the *directors* and the *depository*.

Functions of the standing independent valuer

12.3.2

R

/1

- (1) The *authorised fund manager* must ensure that the *standing independent valuer* appointed under CIS 12.3.1R values all the immovables held within the *scheme property*, on the basis of a full valuation with physical inspection (including, where the immovable is or includes a building, internal inspection) at least once a year.
- (2) The *authorised fund manager* must ensure that the *standing independent valuer* values the immovables, on the basis of a review of the last full valuation, at least once a month.
- (3) If either the *authorised fund manager* or the *depository* become aware of any matter appear likely to:
 - (a) affect the outcome of a valuation of an immovable; or
 - (b) cause the valuer to decide to value under (1) instead of under (2),

the one of them becoming aware must immediately inform the *standing independent valuer* of that matter.

- (4) The *authorised fund manager* must use its best endeavours to ensure that any *affected person* reports to the *standing independent valuer* immediately upon that *person* becoming aware of any matter within (3).
- (5) Any valuation by the *standing independent valuer* must be on the basis of an ‘Open Market value’ as defined in Practice Statement 4 in the Royal Institute of Chartered Surveyors’ Appraisal and Valuation Manual (first edition published September 1995) but subject to CIS 4.8.3R(3) (Valuation: requirements).

Special rules for pricing

12.3.3

R

/1

- (1) Any valuation under CIS 12.3.2R has effect, until the next valuation under that *rule*, for the purposes of the value of immovables under CIS 4 and CIS 15.
- (2) An agreement to transfer an immovable or an interest in an immovable is to be disregarded for the purpose of the valuation of the *scheme property* unless it appears to the *authorised fund manager* to be legally enforceable.
- (3) The *rules* in Table 12.3.5R do not apply to *property schemes*.

Failure to obtain minimum subscriptions

12.3.4

R

/1

- (1) Where it appears to the *authorised fund manager* that the aggregate of *monies* paid or agreed to be paid for *units* to be issued or sold is less than £5m (or the equivalent in the *base currency*), the *authorised fund manager* must use its best endeavours to enable the *scheme* to be wound up under CIS 14 or by the court.
- (2) Paragraph (1) must be complied with either:
 - (a) immediately upon the expiry of any *initial offer*; or
 - (b) where there is no *initial offer*, within 21 *days* after the date on which *persons* are first invited to become *holders* in the *scheme*.
- (3) In so far as is practicable, the *authorised fund manager* must pay back to a *holder* any preliminary or other charge by way of *remuneration* which it received in respect of *units* issued up to the end of the period in (2)(a) or (b).

12.3.5

R
/1

Table Rules which do not apply to property schemes
This table belongs to [CIS 12.3.3]

Single-priced ICVC or AUT	Dual-priced AUT
4.2.5R	15.2.4(3)R
	15.2.4(4)(a)R
	15.2.6R
	Item 10 Table 15.8R para 10 – Valuation

Note: Item 10 is disapplied in relation to immovables.

12.4 Feeder funds and Funds of Funds

Special rules for pricing

12.4.1

R

/1

- (1) So far as is practicable, the *authorised fund manager* of a *feeder fund* must *deal* on the same basis (forward or historic) as the *regulated collective investment scheme* into which the *feeder fund* invests.
- (2) The normal *valuation point* for a *feeder fund* must be within two hours after each normal *valuation point* for the *scheme*, or *sub-fund*, into which the *feeder fund* feeds.
- (3) (1) and (2) do not apply to a *feeder fund dedicated* to a single *eligible investment trust*.

Fund of funds schemes

12.4.2

R

/1

- (1) A *fund of funds scheme* must be valued no less frequently than if it were the relevant category of *scheme* by type of investment under CIS 5.11.4R (Eligible combinations of scheme) and the *authorised fund manager* of a *fund of funds scheme* must *deal* on the basis of *forward prices* if that is required for the relevant type of *scheme* under CIS 5.11.4R.
- (2) Where a *fund of funds scheme* invests in *money market schemes* (within CIS 5.5 (Money market schemes)), (1) applies only if the *scheme* does not invest in any other category of *scheme*.

12.5 Umbrella schemes

Qualification for authorisation

12.5.1

R

/1

- (1) A proposed *ICVC umbrella scheme* does not qualify for an *authorisation order* unless each constituent *sub-fund* would, if it were the subject of a separate application for an *authorisation order*, qualify for such an *authorisation order*.
- (2) A proposed *ICVC* that is intended to be an *umbrella scheme* which is to have a *sub-fund* which would, if it were a separate *ICVC*, be a *geared futures and options scheme* or a *property scheme* does not qualify for an *authorisation order* unless each of its proposed *sub-funds* would, if it were a separate *ICVC*, be an *ICVC* of the same category as each of the other *sub-funds* of the proposed *ICVC*.
- (3) A *unit trust scheme* does not qualify to be authorised as an *umbrella scheme* unless each constituent part would, if it were the subject of a separate application for an *authorisation order*, qualify for separate *authorisation* by such an order.

Base currency

12.5.2

R

/1

Any reference in these *CIS rules* to “*base currency*” that relates to:

- (1) a valuation of a *sub-fund*; or
- (2) the *price* of a *unit* in respect of a *sub-fund*; or
- (3) a payment for a *unit*;

is to be treated as if the reference were to the currency stated in the *prospectus* as being the currency to be used for the purpose in question in relation to that *sub-fund*.

Allocation of scheme property

12.5.3 **R**
/1 In so far as any of the *scheme property* of an *ICVC* or an *AUT* that is an *umbrella scheme*, or any assets to be received as part of the *scheme property*, or any costs, charges or expenses to be paid out of the *scheme property*, are not attributable to one *sub-fund* only, the *scheme property*, assets, costs, charges or expenses must be allocated between the *sub-funds* in a manner which is fair to the *holders* of the *umbrella scheme* generally.

Income

12.5.4 **R**
/1 Except in the case of *CIS 9.2.1R* (Accounting period) and *CIS 9.2.2R* (Annual income allocation date), *CIS 9* applies as if each *sub-fund* were a separate *ICVC* or *AUT* (whichever is appropriate).

An ICVC with only one sub-fund

12.5.5 **R**
/1

- (1) If for a period of 24 consecutive months starting at any time after the first *issue* of a *share* of an *ICVC* which is an *umbrella scheme*, *shares* of less than two *sub-funds* are in *issue*, the *directors* must take such action as is necessary to change the category of the *ICVC* or to cause *shares* of more than one *sub-fund* to be in *issue*.
- (2) If (1) becomes, or is reasonably expected by the *directors* to become, applicable, the *ACD* must, before or immediately upon the expiration of the 24 month period, notify the *shareholders* and the *FSA* of any action proposed in order to comply with (1).
- (3) Paragraph (1) does not apply if, on or before the expiration of the 24 month period, winding up of the *ICVC* has commenced.

Other sourcebook provisions relating to umbrella schemes

12.5.6 **G**
/1 *Rules* and some of the *guidance* elsewhere in this sourcebook relate specifically to *umbrella schemes*. For ease of understanding the main provisions are referred to in *CIS 12.5.8G*.

Investment and borrowing powers

12.5.7 **R**
/1 In relation to an *authorised fund* which is an *umbrella scheme* the provisions in *CIS 5* apply to each *sub-fund* as they would for an *authorised fund*, except *CIS 5.2.13R* (Significant influence for *ICVCs*), *CIS 5.2.14R* (Significant influence for managers of *AUTs*) and *CIS 5.2.15R* (Concentration) which will apply only at the level of the *umbrella scheme*.

10.3.3(2) and (3)R; 10.3.4(2) & (3)R;	Annual and half-yearly reports
10.4.2(15) and (16)R and 10.4.3R	Report of the <i>directors/manager</i>
10.4.8R	Report of the auditor
10.5.2R(3)	Publication of reports
11.5.2R	<i>Schemes of arrangement</i>
13.1.3R(9)	Suspension and resumption of <i>dealings</i>
14.3R	Termination of a <i>sub-fund</i>
15.4.3R	<i>Manager's obligation to sell</i>
15.7.4R	Forward and historic pricing (dual-pricing)

Chapter 13

Suspension and resumption of dealings

13.1 Application

- 13.1.1 **R** /1 This chapter applies to *authorised funds* and their *authorised fund managers* and *depositories*, except for CIS 13.1.3R(10) which applies only to *ICVCs* and their *ACDs* and *depositories*.

Purpose

- 13.1.2 **G** /1 This chapter helps in achieving the *regulatory objective* of protecting investors by ensuring they do not buy or redeem *units* at a *price* that cannot be calculated accurately. For instance, due to unforeseen circumstances, it may be impossible to value, or to dispose of and obtain payment for, all or some of the *scheme property* of an *authorised fund*. CIS 13.1.3R(2) sets out the circumstances in which an *authorised fund manager* must or may suspend dealings in *units* and the manner in which a suspension is to be carried into effect.

Requirement

- 13.1.3 **R** /1
- (1) Where (2) applies, the *authorised fund manager* may, with the prior agreement of the *depository*, and must without delay, if the *depository* so requires, suspend the *issue, cancellation, sale and redemption of units* (referred to in this chapter as "*dealings in units*").
 - (2) This paragraph (2) applies if the *authorised fund manager* (or the *depository* in the case of any requirement by the *depository*) is of the opinion that due to exceptional circumstances there is good and sufficient reason in the interests of *holders* or potential *holders*.
 - (3) For the purpose of (2), the *authorised fund manager* or the *depository* (as the case may be) must have regard to the interests of all of the *holders* in the *authorised fund* and not just to the interests of the *holders* of *units* of the *class* or *classes* in which *dealings* are proposed to be suspended.
 - (4) At the time of suspension under (1), the *authorised fund manager*, or the *depository* if it has required the *authorised fund manager* to suspend *dealings* in *authorised fund units*, must:

- (a) inform the *FSA* of the suspension, stating the reason for its action; and
- (b) immediately give written confirmation of the suspension and the reasons for it to:
 - (i) the *FSA*; and
 - (ii) the authorities who are responsible for the authorisation of *collective investment schemes* in each *EEA State* in which the *authorised fund manager* holds itself out as willing to *sell* or redeem *units* of the *authorised fund* concerned, stating the reason for its actions.
- (5) During the period of a suspension, none of the obligations in *CIS 4* (Single-pricing and dealing) and *CIS 15* (Dual-pricing and dealing) relating to the *issue, cancellation, sale* or *redemption* of *units* or to the valuation of *scheme property* apply.
- (6) The suspension of *dealings* in *units* must cease as soon as practicable after the *authorised fund manager*, or the *depository*, in the case of a requirement by it, is no longer of the opinion referred to in (2), and, in any event, within 28 *days* of the commencement of the suspension.
- (7) Before the suspension of *dealings* in *units* ceases, the *authorised fund manager* must inform the *FSA* of the proposed resumption and immediately after the resumption must confirm the resumption by giving notice in writing to the *FSA* and the authorities mentioned in (4)(b)(ii).
- (8) Nothing in this chapter prevents the *authorised fund manager* from agreeing, during the period of the suspension, to *sell* or to redeem *units* or to arrange for the *authorised fund* to *issue* or cancel them at a *price* calculated by reference to the first *valuation point* after resumption of *dealings* in *units*.
- (9) This *rule* (*CIS 13.1.3R*) applies to a *sub-fund* of an *umbrella scheme* as it applies to an *authorised fund*, but by reference to the *units* of the *class* or *classes* related to the *sub-fund* and to the *scheme property* attributable to the *sub-fund*.
- (10) This *rule* (*CIS 13.1.3R*) may be applied to one or more *classes* of *share* of an *ICVC* without being applied to other *classes*, but this does not affect (3).

Suspension beyond 28 days

G
/1

The *FSA* will wish to consider the case for any suspension beyond 28 *days*. It will, if it considers it appropriate, use its powers to extend that period.

Chapter 14

Termination of Authorised funds

14.1 Introduction

Application

14.1.1 **R** /1 The *rules and guidance* in this chapter apply in accordance with *CIS 14.1.4R* (Table of application)

Purpose

14.1.2 **G** /1 This chapter helps with the *regulatory objective* of protecting *consumers*, by providing a cost effective and fair means of winding-up *authorised funds* and terminating *sub-funds* of *ICVCs*. *ENF 17* deals with the *FSA's* powers to revoke the authorisation of *authorised funds* otherwise than by consent.

Explanation of this chapter

14.1.3 **G** /1 *CIS 14.2* deals with the winding-up of a solvent *ICVC*, which under regulation 21 of the *OEIC regulations* requires written notice to and consent from the *FSA*. *CIS 14.3* deals with the termination of a solvent *sub-fund* of an *ICVC*, again under regulation 21. *CIS 14.4* deals with the winding-up of an *AUT*. *CIS 14.5* provides *guidance* on the information to be supplied to the *FSA*, in certain circumstances, when an *authorised fund manager* or *depository* seek the *FSA's* consent to terminate an *authorised fund*.

14.1.4 **R** /1 Table Table of application
This table belongs to [CIS 14.1.1]

Note: "X" means "applies"

14.2 Winding up a solvent ICVC

Explanation of CIS 14.2

14.2.1

G
/1

An *ICVC* may be wound up by the court, but, provided the *ICVC* is solvent and the steps required by the *OEIC regulations* and the conditions contained in this chapter are fulfilled, the winding up may instead be carried out under this chapter. Under regulation 21 of the *OEIC regulations* the *ICVC* must give written notice to the *FSA* of a proposal to wind up the *ICVC*. This section lays down procedures to be followed and the obligations of the *ACD* and any other *directors*. A winding up may not be carried out under these *rules* if there is a vacancy in the position of *ACD*.

14.2.2

G
/1

Table This guidance (CIS 14.2.2G) provides a summary of the main steps necessary in the winding up of a solvent *ICVC* under this chapter, assuming *FSA* approval. This table belongs to [CIS 14.2.2]

Summary of the main steps in winding up a solvent *ICVC* under *FSA* regulations, assuming *FSA* approval

Step number	Explanation	When	Rule
1	Commence preparation of solvency statement	By N	14.2.4(2)
2	Send audited solvency statement to the <i>FSA</i> with copy to <i>depository</i>	By N + 21 days	14.2.4(4) and (5)
3	Receive the <i>FSA</i> approval	N + one month	Regulation 21 of <i>ICVC regulations</i>
4	Normal business ceases; publish notices	E	14.2.5
5	Realise proceeds, wind-up, instruct <i>depository</i> accordingly	ASAP after E	14.2.6
6	Inform the <i>FSA</i> of W/U completion	ASAP after W/U complete	14.2.6(8)
7	Prepare final account + have audited	On completion of W/U	14.2.7

8	Send final account and auditor's report to the FSA + shareholders	Within 2 months of FAP	14.2.7(6)
---	---	------------------------	-----------

Notes: N = Notice to be given to the FSA under regulation 21 of OEIC regulations
 E = Effective time (CIS 14.2.5(1)R)
 W/U = winding-up
 FAP = Final accounting period (CIS 14.2.7(4)R)

When an ICVC is to be wound up

14.2.3

R
/1

- (1) An ICVC must not be wound up except under this chapter or as an unregistered company under Part V of the Insolvency Act 1986.
- (2) An ICVC must not be wound up under this chapter:
 - (a) (i) unless and until effect may be given, under regulation 21 of the OEIC regulations, to a proposal to wind up the affairs of the ICVC otherwise than by the court; and
 - (ii) unless a statement has been prepared and sent or delivered to the FSA under CIS 14.2.4R (Solvency statement) and received by the FSA prior to satisfaction of the condition in (a)(i); or
 - (b) if there is a vacancy in the position of ACD at the effective time; or
 - (c) if it is being wound up under Part V of the Insolvency Act 1986.
- (3) Subject to (2) and the subsequent provisions of this section (CIS 14.2), the appropriate steps to wind up an ICVC under this section must be taken:
 - (a) if an extraordinary resolution to that effect is passed; or
 - (b) when the period (if any) fixed for the duration of the ICVC by its instrument of incorporation expires or any event occurs, for which its instrument of incorporation provides that the ICVC is to be wound up; or
 - (c) on the date stated in any agreement by the FSA in response to a request from the directors for the revocation of the authorisation order in respect of the ICVC, even if that agreement is subject to there being no material change in any relevant factor before the date of the revocation.

Solvency statement

14.2.4

R

/1

- (1) Before a notice being given to the *FSA* under regulation 21 of the *OEIC regulations* of the proposal referred to in *CIS* 14.2.3R(2)(a), the *directors* must make a full enquiry into the *ICVC's* affairs so as to ascertain whether the *ICVC* will be able to meet its liabilities (including contingent and prospective liabilities).
- (2) On or before the giving of that notice, the *ACD* must prepare a statement, reflecting the results of the enquiry in (1), and either:
 - (a) confirming that the *ICVC* will be able to meet all its liabilities within twelve months of the date of that statement; or
 - (b) stating that such confirmation cannot be given.
- (3) The statement referred to in (2) must:
 - (a) relate to the *ICVC's* affairs at a date which must not be more than 28 *days* before the date on which that notice is given to the *FSA*; and
 - (b) if there is more than one *director*, be approved by the board of *directors* and be signed on their behalf by the *ACD* and, if it contains the confirmation under (2)(a), by at least one other *director* if there is one or, if there is no *director* other than the *ACD*, the *ACD*.
- (4) A statement which contains the confirmation under (2)(a) must annex a statement signed by the auditor appointed under Schedule 5 to the *OEIC regulations* to the effect that, in his opinion, the enquiry required by (1) has been properly made and is fairly reflected by the confirmation.
- (5) The statement referred to in (2) must be sent or delivered to the *FSA* and a copy sent to the *depository* either before, or on, or within the 21 *days* following, the date on which notice is given to the *FSA* in accordance with regulation 21 of the *OEIC regulations*.

Consequences of commencement of winding up

14.2.5

R

/1

- (1) In this chapter the "effective time" means the time at which the conditions referred to in *CIS* 14.2.3R(2)(a) and (b) are both satisfied or, if later, the time, determined in accordance with *CIS* 14.2.3R(3), at which the *ICVC* must be wound up.
- (2) Immediately following the effective time:

- (a) *CIS 4* (Single-pricing and dealing) and *CIS 5* (Investment and borrowing powers) cease to apply to the *ICVC*;
 - (b) the *ICVC* must cease to *issue* and cancel *shares*;
 - (c) the *ACD* must cease to *sell* or redeem *shares* or to arrange for the *ICVC* to *issue* or cancel them;
 - (d) no transfer of a *share* may be registered and no other change to the *register* of *shareholders* may be made without the sanction of the *directors*; and
 - (e) the *ICVC* must cease to carry on its business, except so far as may be required for its beneficial winding up; however, the corporate status and corporate powers of the *ICVC* and (subject to the preceding provisions of this *rule* (14.2.5R)) the powers of the *directors* continue until the *ICVC* is dissolved.
- (3) The *ACD* must as soon as practicable after the effective time:
- (a) publish notice of the commencement of the winding up (if the head office of the *ICVC* is situated in England and Wales or Wales) in the London Gazette, or (if the head office of the *ICVC* is situated in Scotland) in the Edinburgh Gazette; and
 - (b) if the *ACD* has not previously notified *shareholders* of the proposal to wind up, give written notice of the commencement of the winding up to the *shareholders*.

Manner of winding up

14.2.6

R

/1

- (1) The *ACD* must, as soon as practicable after the effective time, cause the *scheme property* to be realised and the liabilities of the *ICVC* to be met out of the proceeds.
- (2) The *ACD* must give instructions to the *depository* how such proceeds (until utilised to meet liabilities or make distributions to *shareholders*) must be held and those instructions must be with a view to the prudent protection of creditors and *shareholders* against loss.
- (3) Provided there are sufficient liquid funds available after making adequate provision for the expenses of the winding up and the discharge of the *ICVC*'s remaining liabilities, the *ACD* may arrange for the *depository* to make one or more interim distributions out of those funds. Those distributions are to be to the *shareholders* proportionately to the right of their respective *shares* to participate in *scheme property* as at the effective time.

- (4) When the *ACD* has caused all the *scheme property* to be realised and all of the liabilities of the *ICVC* known to the *ACD* to be met, the *ACD* must arrange for the *depository* to make a final distribution. That distribution is to be on or before the date on which the final account is sent to *shareholders* in accordance with *CIS 14.2.7(6)R* (Final account), and to be of the balance remaining (net of a provision for any further expenses of the *ICVC*) to the *shareholders* in the same proportions as provided by (3).
- (5) Paragraphs (1) to (4) are subject to the terms of any *scheme of arrangement* sanctioned by an *extraordinary resolution* of the *ICVC* passed on or before the effective time.
- (6) Where the *ICVC* and one or more *shareholders* (other than the *ACD*) agree, the requirement in (1) to realise the *scheme property* does not apply to that part of the *scheme property* which is proportionate to the right to participate in *scheme property* of that or those *shareholders*.
- (7) In the case of (6), the *ACD* must cause the *ICVC* to distribute that part of the *scheme property* in specie to that or those *shareholders* in proportion to their respective rights to participate. The distribution is to be effected after making adjustments and retaining such provision as appears to the *ACD* appropriate to ensure that those *shareholders* bear the proportion of the liabilities of the *ICVC* and the expenses of the distribution attributable to their *shares*.
- (8) As soon as is reasonably practicable after the winding up of the *ICVC* (including compliance with *CIS 14.2.7R* (Final account)) is complete, the *ACD* must notify the *FSA* of that fact.
- (9) Where any sum of *money* stands to the account of the *ICVC* at the date of its dissolution, the *ACD* must arrange for the *depository* to pay or lodge that sum within one month after that date in accordance with regulation 33(4) or 33(5) of the *OEIC regulations*.

Final account

14.2.7

R
/1

- (1) As soon as the *ICVC*'s affairs are fully wound up (including distribution or provision for distribution in accordance with *CIS 14.2.6R(4)*), the *ACD* must prepare an account of the winding up showing:
 - (a) how it has been conducted; and
 - (b) how the *scheme property* has been disposed of.

- (2) The account in (1) must:
 - (a) if there is more than one *director*, be approved by the board of *directors* and be signed on their behalf by the *ACD* and at least one other *director*; or
 - (b) if there is no *director* other than the *ACD*, be signed by the *ACD*.
- (3) Once signed, this account is the “final account” for the purposes of this chapter.
- (4) The final account must state the date on which the *ICVC*’s affairs were fully wound up and the date stated must be regarded as the final *day* of the accounting period of the *ICVC* then running (‘final accounting period’).
- (5) The *ACD* must ensure that the *ICVC*’s auditor makes a report in respect of the final account, which states the auditor’s opinion whether the final account has been properly prepared for the purpose of (1).
- (6) Within two months of the end of the final accounting period, the *ACD* must send a copy of the final account and the auditor’s report on it to the *FSA* and to each *person* who was a *shareholder* (or the first named of joint *holders*) immediately before its end.

Duty to ascertain liabilities

14.2.8

R

/1

- (1) The *ACD* must use all reasonable endeavours to ensure that all the liabilities of the *ICVC* are discharged before the completion of the winding up.
- (2) The duty in (1) relates to all liabilities of the *ICVC* of which:
 - (a) the *ACD* is, or becomes, aware before the completion of the winding up; or
 - (b) the *ACD* would have become aware before the completion of the winding up had it used all reasonable endeavours to ascertain the liabilities of the *ICVC*.
- (3) If the *ACD* rejects any claim against the *ICVC* in whole or part, the *ACD* must immediately send to the claimant written notice of its reasons for doing so.

Reports and accounts

14.2.9

R

/1

- (1) While an *ICVC* is being wound up, the following continues to apply:
 - (a) the annual and *half-yearly accounting periods* (required by *CIS* 9.2.1R);
 - (b) the *rules* in *CIS* 9 about annual and interim allocation of income; and
 - (c) annual reports and half-yearly reports (the *rules* for which are in *CIS* 10).
- (2) The *ACD* need not (as would be required under *CIS* 10.5.2R(2) (Publication of reports)) send to each *shareholder* a copy of any report relating to an *annual accounting period* or *half-yearly accounting period* which began after the effective time, if the *directors* of the *ICVC*, after consulting the *FSA*, have taken reasonable care to determine that the interests of *shareholders* are not such as to require the report to be sent to *shareholders*. However, a copy of the report must be supplied free of charge to any *shareholder* requesting one.

Liabilities of the ACD

14.2.10

R

/1

- (1) The *ACD* is personally liable to meet any liability of an *ICVC* wound up under this chapter (whether or not the *ICVC* has been dissolved) that was not discharged before the completion of the winding up, except to the extent that the *ACD* can show that it has complied with *CIS* 14.2.8R (Duty to ascertain liabilities).
- (2) If the proceeds of the realisation of the assets attributable, or allocated in accordance with *CIS* 12.5.3R (Allocation of scheme property), to a particular *sub-fund* of an *umbrella ICVC* are insufficient to meet the liabilities attributable or allocated to that *sub-fund*, the *ACD* must pay to the *ICVC* for the account of that *sub-fund* the amount of the deficit. This is subject to and to the extent that the *ACD* can show that the deficit did not arise as a result of any failure by the *ACD* to comply with the *rules* in *CIS*.
- (3) The liabilities of the *ACD* under this *rule* (*CIS* 14.2.10R) create a debt (in England and Wales in the nature of a specialty) accruing due from it on the completion of the winding up and payable upon the demand of the creditor in question (including the *ICVC* in the circumstances described in (2)).
- (4) The obligations of the *ACD* under this *rule* (*CIS* 14.2.10R) do not affect any other obligation of the *ACD* under these *rules* or the general law.

Additional provisions applicable to umbrella companies

14.2.11

R

/1

- (1) Liabilities of an *umbrella ICVC* attributable, or allocated in accordance with CIS 12.5.3R (Allocation of scheme property), to a particular *sub-fund* must be met first out of the *scheme property* attributable or allocated to such a *sub-fund*.
- (2) If the liabilities to be met out of a particular *sub-fund* of an *umbrella ICVC* are greater than the proceeds of the realisation of the *scheme property* attributable or allocated to that *sub-fund*, the deficit must be met out of the *scheme property* attributable or allocated to the solvent *sub-funds* of that *umbrella ICVC* in which the proceeds of realisation exceed liabilities and divided between those *sub-funds* in a manner that is fair to the *shareholders* in those solvent *sub-funds*.
- (3) Paragraph (2) applies in respect of any deficit arising as a result of additional liabilities accruing to a *sub-fund* through the operation of (2).
- (4) In calculating the amount of liabilities for the purpose of (2), account must be taken of any payments received or to be received from the *ACD* under CIS 14.2.10R (Liabilities of the *ACD*).

Miscellaneous

14.2.12

R

/1

- (1) If:
 - (a) during the course, or as a result, of the enquiry referred to in CIS 14.2.4R(1) (Solvency statement), the *directors* become of the opinion that it will not be possible to provide the confirmation referred to in (2)(a) of that *rule*; or
 - (b) after the effective time, the *ACD* becomes of the opinion that the *ICVC* will be unable to meet all its liabilities within twelve months of the date of the statement provided under (a) of CIS 14.2.4R(2);

the *directors* must immediately present a petition or cause the *ICVC* to present a petition for the winding up of the *ICVC* as an unregistered *ICVC* under Part V of the Insolvency Act 1986.

- (2) If, after the commencement of a winding up under this chapter and before notice of completion of the winding up has been sent to the registrar of companies, there is a vacancy in the position of *ACD*, the *directors* must immediately present or cause the *ICVC* to present or, if there are no *directors*, the *depository* must immediately present, a petition for the winding up of the *ICVC* as an unregistered *ICVC* under Part V of the Insolvency Act 1986.

14.3 Termination of a sub-fund of an umbrella ICVC

Explanation of CIS 14.3

14.3.1

G
/1

- (1) A termination of a *sub-fund* in accordance with this chapter will require alterations to the *ICVC's instrument of incorporation* and *prospectus*. The proposed alterations must be notified to the *FSA* and permitted to take effect in accordance with regulation 21 of the *OEIC regulations* before the termination can commence. On termination, the assets of the *sub-fund* will normally be realised, and the *shareholders* in the *sub-fund* will receive their respective *shares* of the proceeds net of liabilities and the expenses of the termination. A *sub-fund* may also be terminated in connection with a *scheme of arrangement*. In this case, *shareholders* in the *sub-fund* will become entitled to receive *units* in another *regulated collective investment scheme* in exchange for their *shares* in the *sub-fund*.
- (2) The steps involved in the termination of a *sub-fund* are similar to those for the termination of an *ICVC*, so readers may find the *guidance* at CIS 14.2.2G helpful.

Special meanings for CIS 14.3

14.3.2

R
/1

- (1) In this section (CIS 14.3) references to:
- (2) *shares* are references to *shares* of the *class* or *classes* related to the *sub-fund* to be terminated;
- (3) *shareholders* are references to *holders* of such *shares*;
- (4) a *resolution* or *extraordinary resolution* are references to such a resolution passed at a meeting of *holders* of *shares* of the *class* or *classes* referred to in (2);
- (5) *scheme property* are references to the *scheme property* allocated or attributable to the *sub-fund* to be terminated; and
- (6) *liabilities* are references to liabilities of the *ICVC* allocated or attributable to the *sub-fund* to be terminated.

When a sub-fund is to be terminated

14.3.3

R

/1

- (1) A *sub-fund* must not be terminated:
 - (a) unless and until effect may be given under regulation 21 of the *OEIC regulations* to proposals to make the alterations to the *ICVC's instrument of incorporation* and *prospectus* that will be required if the *sub-fund* is terminated; and
 - (b) unless a statement has been prepared and sent or delivered to the *FSA* under *CIS* 14.3.4R (Solvency statement) and received by the *FSA* before satisfaction of the condition in (a).
- (2) Subject to (1) and the subsequent provisions of this section (*CIS* 14.3), a *sub-fund* must be terminated under this chapter:
 - (a) if an *extraordinary resolution* to that effect is passed; or
 - (b) when the period (if any) fixed for the duration of the *sub-fund* by the *instrument of incorporation* of the *ICVC* expires, or any event occurs on the occurrence of which the *instrument of incorporation* provides that the *sub-fund* is to be terminated; or
 - (c) on the date stated in any agreement by the *FSA* to a request from the *directors* of the *ICVC* for the termination of the *sub-fund*.

Solvency statement

14.3.4

R

/1

- (1) Before a notice is given to the *FSA* under regulation 21 of the *OEIC regulations* of the proposal referred to in *CIS* 14.3.3R(1)(a), the *directors* must make a full enquiry into the *ICVC's* affairs to the extent that they relate to the *sub-fund* so as to ascertain whether the *ICVC* will be able to meet its liabilities (including contingent and prospective liabilities).
- (2) On or before that notice is given, the *ACD* must prepare a statement, reflecting the results of the enquiry in (1), and either:
 - (a) confirming that the *ICVC* will be able to meet all liabilities within twelve months of the date of the statement; or
 - (b) stating that the confirmation cannot be given.
- (3) The statement referred to in (2) must:
 - (a) relate to the *ICVC's* affairs at a date which must not be more than 28 *days* before the date on which that notice is given to the *FSA*; and

- (b) if there is more than one *director*, be approved by the board of *directors* and be signed on their behalf by the *ACD* and, if it contains the confirmation under (2)(a), by at least one other *director* if there is one or, if there is no *director* other than the *ACD*, be signed by the *ACD*.
- (4) A statement which contains the confirmation under (2)(a) must annex a statement signed by the auditor appointed under Schedule 5 to the *OEIC regulations* to the effect that, in his opinion, the enquiry required by (1) has been properly made and is fairly reflected by the confirmation.
- (5) The statement referred to in (2) must be sent or delivered to the *FSA* and a copy sent to the *depository* either before, or on, or within the 21 *days* following, the date on which notice is given to the *FSA* in accordance with regulation 21 of the *OEIC regulations*.
- (6) Termination of a *sub-fund* commences at the time at which the conditions referred to in *CIS 14.3.3R(1)(a)* and (b) are both satisfied or, if later, the time determined under *CIS 14.3.3R(2)* at which the *sub-fund* must be terminated.

Consequences of commencement of termination of a sub-fund

14.3.5

R

/1

- (1) Immediately following the commencement of the termination of a *sub-fund*:
 - (a) *CIS 4* (Single-pricing and dealing) and *CIS 5* (Investment and borrowing powers) cease to apply to the *shares* and to the *scheme property*;
 - (b) the *ICVC* must cease to *issue* and cancel *shares*;
 - (c) the *ACD* must cease to *sell* or redeem *shares* or to arrange for the *issue* and *cancellation* of *shares*; and
 - (d) no transfer of a *share* must be registered and no other change to the *register* of *shareholders* must be made without the sanction of the *directors*.
- (2) If the *ACD* has not previously notified *shareholders* of the proposal to terminate the *sub-fund*, the *ACD* must, as soon as practicable after the commencement of the termination, give written notice of the commencement to the *shareholders*.

Manner of termination

14.3.6

R

/1

- (1) The *ACD* must, as soon as practicable after the termination of the *sub-fund* has commenced, cause the *scheme property* to be realised and the liabilities to be met out of the proceeds.
- (2) The *ACD* must give instructions to the *depository* how those proceeds (until utilised to meet liabilities or pay distributions to *shareholders*) must be held. Those instructions must be with a view to the prudent protection of creditors and *shareholders* against loss.
- (3) Provided there are sufficient liquid funds in the *scheme property* available after making adequate provision for the expenses of the termination and the discharge of the liabilities remaining to be discharged, the *ACD* may arrange for the *depository* to make one or more interim distributions out of the funds to the *shareholders* proportionately to the right to participate in *scheme property* attached to their respective *shares* as at the date of the commencement of the termination.
- (4) When the *ACD* has caused all the *scheme property* to be realised and all of the liabilities known to the *ACD* to be met, the *ACD* must arrange for the *depository* to make a final distribution, on or before the date on which the termination account is sent to *shareholders* in accordance with CIS 14.3.7R(5) (Termination account), of the balance remaining (net of a provision for any further expenses of the termination) to the *shareholders* in the same proportions as provided by (3).
- (5) Paragraphs (1) to (4) are subject to the terms of any *scheme of arrangement* sanctioned by an *extraordinary resolution* passed on or before the commencement of the termination.
- (6) Where the *ICVC* and one or more *shareholders* (other than the *ACD*) agree, the requirement in (1) to realise the *scheme property* does not apply to that part of the *scheme property* which is proportionate to the right to participate in *scheme property* of that or those *shareholders*.
- (7) In the case of (6) the *ACD* must cause the *ICVC* to distribute that part of the *scheme property* in specie to that or those *shareholders* in proportion to their respective rights to participate, after making such adjustments or retaining such provision as appears to the *ACD* appropriate for ensuring that that or those *shareholders* bear the proportion of the liabilities and the expenses of the distribution attributable to his or their *shares*.
- (8) Where any sums (including unclaimed distributions) remain standing to the account of the *scheme property* following tender of payment (whether to a creditor or a *shareholder*) the *ACD*

must instruct the *depository* to retain the sums ('tendered sums') in an account ('unclaimed payments account') separate from any other part of the *scheme property*.

- (9) The *depository* must, if and when so instructed by the *ACD*, make a payment out of the unclaimed payments account for the purpose of settling a claim for a tendered sum.
- (10) Any costs and reasonable expenses of the *ACD* for investigating a claim and any costs and expenses incurred by the *depository* in making a payment out of the unclaimed payments account may be deducted from the payment and retained for its own benefit by the *ACD* or the *depository* or both (as the case may be).
- (11) The *person* entitled to any tendered sum is not entitled to any interest in respect of the unclaimed payments account and any interest arising in respect of the unclaimed payments account must be allocated between the continuing *sub-funds* of the *ICVC* in accordance with *CIS* 12.5.3R (Allocation of scheme property).
- (12) Amounts standing to the credit of an unclaimed payments account must be excluded from the value of the *scheme property* and must not be subject to any distribution under the provisions of *CIS* 14.2.6R (Manner of winding up), but upon a dissolution of the *ICVC* under regulation 33 of the *OEIC regulations*, the *depository* must cease to hold those amounts as part of that account and they will become subject to the provisions of *CIS* 14.2.6R(9).

Termination account

14.3.7

R

/1

- (1) As soon as the termination of the *sub-fund* (including distribution or provision for distribution in accordance with *CIS* 14.3.6R(4)) has been completed, the *ACD* must prepare an account of the termination showing:
 - (a) how it has been conducted; and
 - (b) how the *scheme property* has been disposed of.
- (2) The account in (1) must:
 - (a) if there is more than one *director*, following its approval by the board of *directors*, be signed on their behalf by the *ACD* and at least one other *director*; or
 - (b) if there is no *director* other than the *ACD*, be signed by the *ACD*.

- (3) Once signed, this account is the 'termination account' for the purposes of this chapter.
- (4) The *ACD* must ensure that the *ICVC*'s auditor makes a report to the *shareholders* in respect of the termination account which states the auditor's opinion whether the termination account has been properly prepared for the purpose of (1).
- (5) Within two months of the termination of the *sub-fund* being completed, a copy of the termination account and the auditor's report on it must be sent to the *FSA* and to each *person* who was a *shareholder* (or the first named of joint *holders*) immediately before such completion.

Duty to ascertain liabilities

14.3.8

R

/1

- (1) The *ACD* must use all reasonable endeavours to ensure that all the liabilities are discharged before the completion of the termination.
- (2) The duty in (1) relates to all liabilities of which:
 - (a) the *ACD* is, or becomes, aware before the completion of the termination; or
 - (b) the *ACD* would have become aware before the completion of the termination had it used all reasonable endeavours to ascertain the liabilities.
- (3) If the *ACD* rejects any claim against the *ICVC* in respect of a liability in whole or in part, the *ACD* must immediately send to the claimant written notice of its reasons for doing so.

Reports and accounts

14.3.9

R

/1

The obligations under *CIS* 9 (Income) and *CIS* 10 (Reports and accounts) continue in respect of a *sub-fund* being terminated until the completion of the termination.

Liabilities of the ACD

14.3.10

R

/1

- (1) The *ACD* must keep the *ICVC* indemnified against any liability allocated or attributable to a *sub-fund* that has been terminated under these *rules* that was not discharged before the completion of the termination, except to the extent that the *ACD* can show that it has complied with *CIS* 14.3.8R (Duty to ascertain liabilities).

- (2) The liabilities of the *ACD* under (1) create a debt (in England and Wales in the nature of a specialty) accruing due from it on the completion of the termination and payable upon the demand of the *ICVC*.

14.4 Winding up an AUT

Explanation of CIS 14.4

14.4.1

G

/1

This section (*CIS* 14.4) deals with the circumstances in which an *AUT* falls to be wound up and the manner of winding up. Under section 256 of the *Act*, the *manager* or *trustee* of an *AUT* may request the *FSA* to revoke the *authorisation order* in respect of that *AUT*. Section 257 of the *Act* gives the *FSA* the power to make any necessary directions.

When an AUT is to be wound up

14.4.2

R

/1

- (1) Upon the happening of any of the events specified in paragraph (2) and not otherwise:
 - (a) *CIS* 4 (Single-pricing and dealing) or *CIS* 15 (Dual-pricing and dealing), whichever is applicable and *CIS* 5 (Investment and borrowing powers) cease to apply to the *AUT*;
 - (b) the *trustee* must cease to *issue* and cancel *units* in the *AUT*;
 - (c) the *manager* must cease to *sell* and redeem *units* in the *AUT*;
 - (d) the *manager* must cease to arrange the *issue* or *cancellation* of *units* under *CIS* 4.5.3R (Issues and cancellations through the authorised fund manager) or *CIS* 15.5.3R (Issues and cancellations through the manager); and
 - (e) the *trustee* must proceed to wind up the *AUT* in accordance with *CIS* 14.4.3R.
- (2) The events referred to in (1) are:
 - (a) the *authorisation order* is revoked; or
 - (b) in response to a request to the *FSA* by the *manager* or the *trustee* for the revocation of the *authorisation order*, the *FSA* has agreed, albeit subject to there being no material change in any relevant factor, that, on the conclusion of the winding up of the *AUT*, the *FSA* will accede to that request; or

- (c) the expiration of any period specified in the *trust deed* as the period at the end of which the *AUT* is to terminate; or
 - (d) the effective date of a duly approved *scheme of arrangement*, which is to result in the *AUT* that is subject to the *scheme of arrangement* being left with no property; and
 - (e) The date on which a *relevant pension scheme* is notified in writing by the Occupational Pensions Schemes Regulatory Authority that the *scheme* is no longer registered under the Welfare and Pensions Reform Act 1999 as a *stakeholder pension scheme*.
- (3) This *rule* (CIS 14.4.2R) is without prejudice to CIS 13.1.3R (Suspension and resumption of dealing: requirement) and to any order or direction made under section 257 or 258 of the *Act*.

Manner of winding up

14.4.3

R

/1

- (1) In a case falling within CIS 14.4.2R(2)(d), the *trustee* must wind up the *AUT* in accordance with the approved *scheme of arrangement*.
- (2) In any other case falling within CIS 14.4.2R:
 - (a) the *trustee* must, as soon as practicable after the *AUT* falls to be wound up, realise the *scheme property*;
 - (b) after paying therefrom or retaining adequate provision for all liabilities properly so payable and for the costs of the winding up, the *trustee* must distribute the proceeds of that realisation to the *unitholders* and the *manager* (upon production by them of such evidence as the *trustee* may reasonably require as to their entitlement thereto) proportionately to their respective interests in the *AUT* as at the date of the relevant event referred to in CIS 14.4.2R; and
 - (c) any unclaimed net proceeds or other cash (including unclaimed distribution payments) held by the *trustee* after the expiration of twelve months from the date on which they became payable must be paid by the *trustee* into court (or, in Scotland, as the court may direct), subject to the *trustee* having a right to retain any expenses incurred by him relating to that payment.
- (3) In the case of an *AUT* which is a *relevant pension scheme*, payments must not be made to *unitholders* in the *AUT*. The realisation proceeds must be paid by the *trustee* in accordance with the destinations specified in the *trust deed*.

- (4) Where the *trustee* and one or more *unitholders* agree, the requirement in (2) to realise the *scheme property* does not apply to that part of the property proportionate to the entitlement of that or those *unitholders*. The *trustee* may distribute that part in the form of property, after making adjustments or retaining provisions as appears to the *trustee* appropriate for ensuring that, that or those *unitholders* bear a proportional *share* of the liabilities and costs.
- (5) On completion of the winding up in respect of the events referred to in CIS 14.4.2R(2)(b), (c) or (d), the *trustee* must notify the *FSA* in writing of that fact and at the same time the *manager* or *trustee* must request the *FSA* to revoke the relevant *authorisation order*.

Accounting and reports during winding up

14.4.4

R

/1

- (1) Subject to any order of the court, and to paragraphs (2) and (3), while an *AUT* is being wound up, whether under CIS 14.4.3R or otherwise:
 - (a) the annual and *half-yearly accounting periods* continue to run;
 - (b) the provisions about annual and interim allocation of income (in CIS 9) continue to apply; and
 - (c) annual and half-yearly reports (in CIS 9) continue to be required.
- (2) Where, for any annual or *half-yearly accounting period*, the *trustee* (after consulting the *manager* (if appropriate) and the *FSA*) has taken reasonable care to determine that timely production of an annual or half-yearly report is not required in the interests of the *unitholders* or the *FSA*, it may direct that immediate production of the report may be dispensed with.
- (3) The period in question in (2) must be reported on together with the following period in the next report prepared for the purposes of (1) or (4).
- (4) At the conclusion of the winding up, the accounting period then running is regarded as the final *annual accounting period*.
- (5) Within two calendar months after the end of the final accounting period, the annual reports of the *manager* and *trustee* must be published and sent to each *person* who was a *unitholder* immediately before the end of the final accounting period.

14.5 Schemes that are not commercially viable

Explanation of this section

14.5.1

G
/1

- (1) The *FSA* expects that the majority of requests it will receive for the winding up of an *ICVC* (under regulation 21(1) of the *OEIC regulations*) or an *AUT* (under section 256 of the *Act*) will be from *authorised fund managers* and *depositories* who consider that the *AUT* or *ICVC* in question is no longer commercially viable.
- (2) It is in *consumers'* interests to minimise, as far as possible, the period between which the *FSA* receives such requests and responds to them. To assist the *FSA* in arriving at a quick decision, based on all the relevant factors, it would be helpful for the *FSA* to receive the information listed at *CIS 14.5.2G*. Further information, however, may be requested by the *FSA* after receipt of the information, depending on the individual circumstances of the case.

Information to be provided to the FSA

14.5.2

G
/1

The information referred to in *CIS 14.5.1G* is listed below:

- (1) name of the *authorised fund*;
- (2) size of the *authorised fund*;
- (3) number of *holders*;
- (4) whether dealing in *units* has been suspended;
- (5) why the request is being made;
- (6) what consideration has been given to the *authorised fund* entering into a *scheme of arrangement* with another *authorised fund* or *recognised scheme* and the reasons why a *scheme of arrangement* is not possible;
- (7)
 - (a) whether *holders* have been informed of the intention to seek winding up or revocation;
 - (b) if not, when they will be informed;
- (8) details of any proposed preferential switching rights offered or to be offered to *holders*;

- (9) details of any proposed rebate of charges to be made to *holders* who recently purchased *units*;
- (10) where the costs of winding-up will fall;
- (11) the *depository's*:
 - (a) statement whether having taken reasonable care it is certain that a *scheme of arrangement* is not practical and explain what steps have been considered that would result in the *authorised fund* not needing to wind up (for example appointing a replacement *authorised fund manager*);
 - (b) confirmation that:
 - (i) for an *ICVC*, it expects to report in the next report and accounts that the *issue, sale and redemption prices*, the *cancellation* of the *ICVC's shares* and the application of the *ICVC's income* has been carried out in accordance with the *rules* in *CIS*, and, where applicable, the *OEIC regulations* and the *ICVC's instrument of incorporation*, and that the investment and borrowing powers applicable to the *ICVC* have not been exceeded; or
 - (ii) for an *AUT*, it expects to report in the next report and accounts that the *manager* has managed the *AUT* in accordance with the *rules* in *CIS*, or

(for a report and accounts that is unqualified) that there are no unresolved problems concerning the *authorised fund* that ought to be brought to the *FSA's* attention in connection with the possible exercise of powers under section 256 of the *Act*;
- (12) the preferred date for the *FSA's* determination to revoke authorisation or date for the winding up; and
- (13) any additional information or material considered to be relevant to the *FSA's* decision under section 256 of the *Act* or regulation 21 of the *OEIC regulations* (as appropriate).

Chapter 15

Dual-pricing and dealing

15.1 Introduction

Application

15.1.1

R

/1

- (1) This chapter applies in relation to *dual-priced AUTs*. Accordingly, in this chapter:
- (a) references to "AUTs" and to "units" relate only to *dual-priced AUTs* and to *units* in them; and
 - (b) references to "manager" or "trustee" relate only to the *manager* or *trustee* of a *dual-priced AUT*.
- (2) This section (CIS 15.1R) applies to *managers* and *trustees*.
- (3) (a) If, and to the extent that, the *authorised fund manager* and the *depository* so agree, *income units* and *accumulation units* are to be treated, for the purposes in (b) as belonging to the same *class of units*.
- (b) The only purposes to which (a) can apply are:
- (i) ascertaining the number of *units* respectively to be issued or cancelled in order for the *authorised fund manager* to comply with CIS 15.3.4R(3) (Issue of units to meet authorised fund managers obligation to sell) and CIS 15.3.7R(3) (Cancellation and payment for cancelled units); and
 - (ii) Compliance with requirements of this chapter relating to information to be given by the *authorised fund manager* to the *depository*.
- (c) Paragraphs (a) and (b) do not apply to the *income units* and *accumulation units* of an *AUT* unless the rights attached to those *classes* provide for their prices to be calculated by reference to undivided *shares* (howsoever called) in a manner similar to that resulting from CIS 2.6.1R (Units and classes of units in AUTS).

- 15.1.2 **G**_{/1} The *persons* to whom each respective *rule* and *guidance* in this chapter applies are stated either at the beginning of the *rule* or *guidance* or at the beginning of the section containing the *rule* or *guidance*.

Purpose

- 15.1.3 **G**_{/1}
- (1) This chapter helps in achieving the *regulatory objective* of protecting consumers as envisaged by section 2 and 5 of the *Act*. In accordance with *Principle 6* (customers' interests), this chapter is intended to ensure the *manager* pays due regard to its *customers'* interests and treats them fairly.
 - (2) A *manager* is responsible for valuing the *scheme property* of the *AUT* it manages and for calculating the prices of *units* in the *AUT*. As well as arranging for the *issue* and the *cancellation* of *units* for the account of the *AUT*, the *manager* is permitted to *sell* and redeem *units* for its own account. The *rules* in this chapter are intended to ensure that the prices of *units* are properly related to the net value of the *AUT* and, in accordance with *Principle 6* that the *manager* deals fairly with investors when they *purchase* or *sell units*. This chapter provides common standards for these purposes.

Explanation

- 15.1.4 **G**_{/1}
- (1) *Units* of an *AUT* are issued or cancelled by the *trustee* on the *manager's* instructions. In the case of an *issue*, payment in cash of the *issue price* of the *units* or a transfer of assets of an equivalent value must be made to the *trustee* for the account of the *manager* concerned. Payment by the *trustee* for cancelled *units* is normally to be made in accordance with *CIS 15.3.7R* (Cancellation of units).
 - (2) A *manager* may hold *units* for its own account (in its "box"): so a purchaser of *units* from the *manager* may receive *units* which have been issued to the *manager* or that have been redeemed (that is repurchased) by the *manager* from a previous *unitholder*. In addition to *selling* and redeeming *units* for its own account, the *manager* may arrange for the *trustee* to *issue units* direct to an investor or to cancel a *unitholder's units*.
 - (3) The *manager* must be prepared to redeem *units* of a *unitholder* who wishes to realise the value of them. The *manager* can then retain the *units* in its box or it can cancel them.
 - (4) The special provision about initial *issues* and *sales*, at the start of an *AUT's* life, are in *CIS 15.2R* separately from the *rules* about *issues* and *sales* in an ongoing *AUT*.
 - (5) Under this chapter the prices at which *units* may subsequently be issued or cancelled will be determined in accordance with *CIS 15.3.6R* (Issue price) and *CIS 15.3.8R* (Cancellation price) respectively and, in broad outline, will be calculated by valuing the *scheme property* attributable to the *class of units* in question on an *issue* basis or a *cancellation* basis (as appropriate) and dividing that value by the number of those *units* in *issue*. The valuation of the *scheme property* must be in accordance with *CIS 15.8* (Valuation).

- (6) The prices at which *units* may be sold or redeemed must be in the price bracket derived from *CIS 15.4.4R* (Sale price parameters) and *CIS 15.4.9R* (Redemption price parameters).
- (7) *CIS 15.6.3R* (SDRT provision) provides the *manager* with the power to require, for the benefit of the *AUT*, the payment or deduction of a provision for stamp duty reserve tax as an addition to or deduction from (but not part of) the price of the *units*.
- (8) This *CIS 15* is to be applied separately to each *sub-fund* of an *umbrella scheme*.

15.2 Initial offers and unitisations

Application

- 15.2.1 **R** /1 This section applies to *managers*, except CIS 15.2.7R (Creation of units: unitisation) which applies to *trustees*.

Purpose

- 15.2.2 **G** /1 This section helps to protect investors by *rules* intended to ensure the *authorised fund* receives the appropriate amounts for *units* issued as a result of an *initial offer* and that neither the *authorised fund* nor the investor will suffer any material loss as a result of fluctuations in the value of the *scheme property* for so long as *units* are available at the fixed price.

Period of initial offer

- 15.2.3 **R** /1
- (1) The period of the *initial offer* must not exceed 21 *days* and an *initial offer* must, subject to CIS 15.2.6R (Compulsory termination of initial offer), be kept open for the period of the *initial offer*.
 - (2) Where an *initial offer* is of *units* of a *sub-fund*, CIS 15.2.4R, CIS 15.2.5R and CIS 15.2.6R apply as if references in those *rules* to a *unit* were to a *unit* in that *sub-fund*.

Issue of units: initial offer

- 15.2.4 **R** /1
- (1) If *units* are issued by the *trustee* during the period of the *initial offer*, the *units* must be issued by the *trustee* under (2) or (4).
 - (2) If *units* are to be issued under this paragraph, the *manager* must instruct the *trustee* to *issue units* at the beginning of the first *business day* in the period.
 - (3) If *units* are to be issued under (4), at or before the beginning of the first *business day* in the period the *manager* must irrevocably

choose, in respect of that *initial offer*, to proceed either under (4)(a) ('up and running') or under (4)(b) ('pay over and wait') and must notify its choice to the *trustee*.

- (4) Where on any *business day* during the period the *manager* assumes any obligation to *sell units*, it must, depending on its choice under (3), either:
- (a) instruct the *trustee*, at the beginning of the next *business day*, to *issue units* in such number at least as will enable the *manager* immediately to fulfil that obligation, whether from the *units* so issued or from other *units*; or
 - (b) proceed as follows:
 - (i) pay to the *trustee* (in any case where the purchaser has sent a remittance) on the *day* of receipt of the remittance or on the next *business day*, the total amount (or the total amount less the total of the *manager's preliminary charge*, if any, in respect of those *units*); and
 - (ii) as soon as the period of the *initial offer* has come to an end, instruct the *trustee* to *issue units* in the *AUT* in such number at least as will enable the *manager* to fulfil its obligations to *sell units* whether from the *units* so issued or from other *units*.
- (5) The instructions given by the *manager* must state, in relation to each *class* of *unit* to be issued, the number to be issued, expressed either as a number of *units* or as an amount in value (or as a combination of the two).
- (6) The *trustee* must, subject to CIS 15.3.9R (Trustee's refusal to issue or cancel units), *issue units* on receipt of instructions by the *manager* given under this *rule*, and must not, during an *initial offer*, *issue units* otherwise.

Initial price

15.2.5

R

/1

- (1) The *initial price* of a *unit* must be such amount as is agreed between the *manager* and the *trustee* to be the maximum amount (inclusive of any *preliminary charge*) which may be paid by a potential *unitholder* to the *manager* for *units* on an *initial offer*.
- (2) The price for each *unit* issued during the period of the *initial offer* payable by the *manager* to the *trustee* must be the *initial price* of that *unit* less the amount of any *preliminary charge* made in respect of that *unit*.

- (3) The amount which may be retained by the *manager* by way of *preliminary charge* must not exceed the amount stated in the original *prospectus* as the current charge.
- (4) For the purpose of (2), a *unit* is treated as issued during the period of the *initial offer* if the *manager* had agreed to the *sale* of it or received an order for it to be sold before the close of the offer, and it was issued only afterwards.
- (5) During the period of the *initial offer*, the *manager* must not cause *units* to be issued under CIS 15.5.3R (Issues and cancellations through the manager) at a price which is greater than the *initial price*.
- (6) The *initial price* of *units* must, subject to CIS 12.5.2R (Base currency), be expressed in the *base currency* of the *AUT*: but, during the period of the *initial offer*, the *manager* may agree to *sell units* or cause *units* to be issued under CIS 15.5.3R in any other currency.
- (7) Nothing in this *rule* affects the power of the *manager* to require a payment of *SDRT provision* under CIS 15.6.3R (SDRT provision).
- (8) Where the *initial offer* is made in a country outside the *United Kingdom*, there may be added to the *initial price* of *units* offered in that country an amount sufficient to cover additional duty or taxation leviable in that country and the cost of the remittance of *money* to the *United Kingdom*.

Compulsory termination of initial offer

15.2.6

R

/1

- (1) The period of the *initial offer* comes to an end immediately if:
 - (a) the *manager* does not carry out a valuation immediately if after having exercised reasonable care it determines that, if the current *issue price* of a *unit* were to be calculated by reference to an immediate valuation under Table CIS 15.8R (Valuation), it would be likely to vary from the *unit's initial price* (excluding any *preliminary charge* by 2% or more of the *initial price* (excluding any *preliminary charge*); or
 - (b) the *manager* carries out a valuation immediately after it determines as mentioned in (a) that the valuation shows a variation of 2% or more.
- (2) If the period of the *initial offer* comes to an end under (1), the *manager* must immediately refrain from:
 - (a) agreeing to *sell units* at the *initial price*; and

- (b) instructing the *trustee* to *issue units* at the *initial price*, unless either to fulfil an existing obligation of the *manager* to *sell units* at the *initial price* or to fulfil an order for *units* at the *initial price* which the *manager* received before the *initial offer* came to an end.
- (3) The current *issue price* of a *unit* for the purpose of (1) must be calculated on the basis that the number of *units* of each *class* in existence immediately before the valuation is the number for which the *initial price* has been paid, or for which assets have been transferred to the *trustee* in exchange (or treated for the purpose of the valuation as having been paid or exchanged), to the *trustee* before the valuation.

Creation of units: unitisation

15.2.7

R

/1

- (1) The *trustee* has the power, not dependent on an instruction by the *manager*, to *issue units*, having regard to the terms of any *unitisation* to which it is a party. For this purpose, the *trustee* may *issue* any number of *units* in exchange for assets other than *money* but only if it has taken reasonable care to determine that to do so is not likely to result in any material prejudice to the interests of *unitholders* or potential *unitholders*.
- (2) In exercise of the power, the *trustee* must only create *units* in favour of the *persons* entitled under the *unitisation*.

15.3 Issues and cancellations

Application

15.3.1

R

/1

This section applies in relation to the *issue* and *cancellation* of *units* after the close of any *initial offer* of *units* at a fixed price. However, the following *rules* in this section also apply in relation to *initial offers*:

- (1) *CIS* 15.3.5R(3), (4) and (5) (Issue by trustee), except to the extent that *CIS* 15.2.4R(4)(b) applies;
- (2) *CIS* 15.3.9R (Trustee's refusal to issue or cancel units);
- (3) *CIS* 15.3.10R (Instructions or notifications between manager and trustee); and
- (4) *CIS* 15.3.12R (Modification to number of units issued or cancelled)

Purpose

15.3.2

G

/1

This section protects investors by means of *rules* intended to ensure the *trustee* receives or pays out the right amount when *units* are issued or cancelled. Accordingly, it lays down certain procedures for the *issue* and *cancellation* of *units* and sets out how, except for an *initial offer*, the prices of those *units* are to be calculated and paid.

Box management errors

15.3.3

G

/1

- (1) This *guidance* (*CIS* 15.3.3G) applies to *managers*.
- (2) A *manager* is not permitted to *sell* or cancel *units* that it does not own. To do so would be in breach of *CIS* 15.3.4R(3) (Issue of units: manager's instructions) or *CIS* 15.3.7R(3) (Cancellation of units). Errors relating to the number of *units* issued or cancelled can be corrected to the extent permitted by *CIS* 15.3.12R (Modification to number of units issued or cancelled).

- (3) A *manager's* holding of *units* for its own account is commonly known as its "box" of *units*. Appendix CIS G (Correction of box management errors) contains further *guidance* on:
- (a) controls relating to the management of the *authorised fund manager's* box of *units*.
 - (b) recording and reporting errors in calculating the number of *units* of each *class* in the box;
 - (c) correcting such errors; and
 - (d) the payment of compensation in relation to particular categories of error.

Issue of units: manager's instructions

15.3.4

R

/1

- (1) This *rule* (CIS 15.3.4R) applies to *managers*.
- (2) Where the *manager* wishes new *units* to be issued, and complies with CIS 15.3.11R (Timing of instructions to issue or cancel units), it may instruct the *trustee* to *issue* them. Any instructions given by the *manager* must state, in relation to each *class* of *unit* to be issued, the number to be issued, expressed either as a number of *units* or as an amount in value (or as a combination of the two).
- (3) If, at any *valuation point*, the *manager* has any outstanding obligation to *sell units* of any *class*, then it must instruct the *trustee*, before the earlier of:
 - (a) the expiry of two hours since the *valuation point*; or
 - (b) the next *valuation point*;

to *issue units* of the *class* in such number as will at least enable the *manager* to fulfil that obligation immediately, (whether from the *units* so issued or from other *units* of that *class* which it owned immediately before the *valuation point* (or *notified point* if there is one).
- (4) If the *manager* wishes regularly to have a *notified point*, it may notify the *trustee* of its intention, indicating the period of time not exceeding two hours after the *valuation point* at which it wishes the *notified point* to occur; and any change in the period is ineffective unless agreed by the *manager* and the *trustee*.

Issue by trustee

15.3.5

R

/1

- (1) This *rule* (CIS 15.3.5R) applies to *managers* and *trustees*.

- (2) The *trustee* must *issue units* on receipt of and in accordance with instructions given by the *manager* under CIS 15.3.4R (Issue of units: managers instructions), and must not, after an *initial offer*, *issue units* otherwise, but this is subject to (3) and to CIS 15.3.9R (Trustee's refusal to create or cancel units).
- (3) The *trustee* may *issue units* in exchange for assets other than *money*, but its obligation to comply with an instruction to *issue units* in such a case arises only:
 - (a) if it has taken reasonable care to determine that (taking account of any payment that would have been required under CIS 15.6.3R (SDRT provision) if the *units* had been issued for cash) the acquisition of the assets in exchange for the number of *units* to be issued is not likely to result in any material prejudice to the interests of *unitholders* or potential *unitholders*;
 - (b) in a case governed by CIS 11.5.2R(5) (Schemes of arrangement: requirements) that the resolution concerned in relation to the *AUT* of which it is the *trustee* has been duly carried or is not required.
- (4) On the *issue of units*, the *manager* must, by the close of business on the fourth *business day*, following the relevant instructions that were given by the *manager*:
 - (a) pay to the *trustee* in cash or in cleared funds the *issue price* of the *units* and any payment required under CIS 15.6.3R (SDRT provision) to the extent that either remains unpaid; or
 - (b) for an exchange under (3), ensure transfer to the *trustee* of the assets to be taken in exchange.
- (5) For an exchange under (3), the *manager* must ensure that the beneficial interest in the assets is transferred to the *trustee* with effect from the *issue* of the *units*, even if the legal ownership is not then transferred.

Issue price

15.3.6

R

/1

- (1) This *rule* (CIS 15.3.6) applies to *managers*.
- (2) The *issue price* of a *unit* is, subject to (3), calculated as follows:
 - (a) take the proportion, attributable to the *units* of the *class* in question, of the value on the *issue* basis of the *scheme property* by reference to the most recent valuation of the *scheme property*;

- (b) compute the number of *units* of the relevant *class* in *issue* immediately before the valuation in (a);
 - (c) divide the total at (a) by the number of *units* at (b); and
 - (d) express the price in a form that is accurate to at least four significant figures.
- (3) If a method of calculation other than that at (2) is used the *manager* must be sure that it is bound to produce the same result.

Cancellation of units

15.3.7

R

/1

- (1) This *rule* (CIS 15.3.7R) applies to *managers* and *trustees*.
- (2) Where the *manager* wishes *units* to be cancelled, and complies with CIS 15.3.11R (Timing of instructions to issue or cancel units), it may instruct the *trustee* to cancel them. Any instructions given by the *manager* must state, for each *class* of *unit* to be cancelled, the number to be cancelled, expressed either as a number of *units* or as an amount in value (or as a combination of the two).
- (3) Where, at any moment of instruction, the *manager* has any outstanding obligation to *sell units* of a *class*, it may not instruct the *trustee* to cancel *units* of that *class* if or to the extent that its so doing would prevent it immediately from fulfilling any such obligation which had been assumed before the *valuation point* (or *notified point* if there is one).
- (4) The *trustee* must (subject to CIS 15.3.9R (Trustee's refusal to issue or cancel units)) cancel *units* on receipt of instructions given by the *manager*, and the *trustee* may not cancel *units* otherwise.
- (5) Where instructions are given at a time which is less than two hours after the last *valuation point*, and the *trustee* has received but not yet executed instructions previously given under (4), the later instructions must enable the *trustee* to execute both or all sets of instructions simultaneously.
- (6) On the *cancellation* of *units* and on delivery to the *trustee* of such evidence of the title to those *units* as it may reasonably require, the *trustee* must, within the period specified in (7), pay the *cancellation* price of the *units* less any deduction required under CIS 15.6.3R (SDRT provision):
 - (a) (except where (b) applies), to, or to the order of, the *unitholder* or the *manager* as the case may be; or

- (b) In the case of a *relevant pension scheme*, in accordance with the relevant provisions of the *trust deed*.
- (7) The period expires at the close of business on the fourth *business day* following the *cancellation* of the *units*; but, where the *manager* has not ensured that the *scheme property* includes or will include sufficient cash in the appropriate currency (or a sufficient facility to borrow without infringing any restriction in CIS 5.15.3R (General power to borrow) or CIS 5.15.4R (Borrowing limits) within that period, the period is extended, for any relevant currency, until the shortage is rectified by the *manager*.
- (8) Paragraph (6) does not apply where *units* are cancelled following a *cancellation* for property transferred or sold under CIS 15.5.4R (In specie cancellation).

Cancellation price

15.3.8

R

/1

- (1) This rule (CIS 15.3.8R) applies to *managers* and *trustees*.
- (2) The *cancellation* price payable for each *unit* by the *trustee* under CIS 15.3.7R (Cancellation of units) is calculated by:
 - (a) Following steps (a) to (d) set out in CIS 15.3.6R(2) (Issue price) or else following CIS 15.3.6R(3); but
 - (b) for the purposes of 15.3.6R(2)(a), taking the value of the *scheme property* on the *cancellation* basis, not the *issue* basis.

Trustee's refusal to issue or cancel units

15.3.9

R

/1

- (1) This *rule* (CIS 15.3.9R) applies to *trustees*.
- (2) If, on receiving instructions to *issue* or cancel *units*, the *trustee* is of the opinion that it is not in the interests of *unitholders* that:
 - (a) *units* should be issued; or
 - (b) *units* should be cancelled; or
 - (c) *units* should be issued or cancelled in the number requested by the *manager*;

the *trustee* must give notice to the *manager* that it refuses to *issue* or, as the case may be, cancel, all, or a specified number of, the *units*.

- (3) On the giving of such a notice the *trustee* is relieved of the obligation to *issue* or cancel the number of *units* to which the notice relates.

Instructions or notifications between manager and trustee

15.3.10

R

/1

- (1) This *rule* (CIS 15.3.10R) applies to *managers* and *trustees*.
- (2) Any instruction or notification given (or report supplied) under this chapter by the *manager* to the *trustee*:
- (a) must be in writing or in such other form as enables the recipient to know or record the time of receipt and to preserve a legible copy of it;
 - (b) must be recorded by the *manager*, at the time when it is given or supplied.
- (3) Instructions are given within any period under this chapter if they are received by the *trustee* within that period, and instructions received by the *trustee* after the expiry of any period are treated as given after that expiry.
- (4) This *rule* also applies, with the necessary modifications, to any instruction or notification given by the *trustee* to the *manager*.

Timing of instructions to issue or cancel units

15.3.11

R

/1

- (1) This *rule* (CIS 15.3.11R) applies to *managers* and *trustees*.
- (2) A *manager* may at any time give instructions to the *trustee* to *issue* or to cancel *units*.
- (3) Where instructions are given at a time which is less than two hours after the last *valuation point* and before the next *valuation point*, the instructions must be given by reference to the price of the relevant *class of units* calculated (or being calculated) for the last *valuation point*.
- (4) Where instructions are given at a time which is more than two hours after the last *valuation point*:
- (a) the instructions must be given by reference to the price of the relevant *class of units* next to be calculated; and
 - (b) the *trustee* must *issue* or cancel the *units* only after the next *valuation point* has been reached.

Modification to number of units issued or cancelled

15.3.12

R

/1

- (1) This *rule* (CIS 15.3.12R) applies to *managers* and *trustees*.
- (2) The number of *units* issued or cancelled may be modified by the *manager* changing an instruction to *issue* or cancel *units* which has been complied with provided that:
 - (a) the *manager* ensures that any appropriate consequential payment between the *manager* and the *trustee* is made; and
 - (b) the *trustee* agreed to the modification.
- (3) The *trustee* must not agree to a modification under (2) unless it has taken reasonable care to determine:
 - (a) that the purpose of the modification is to rectify the consequences of an error in the instruction relating to the number of *units* held by the *manager*, or issued or cancelled in connection with the *sale* or *redemption* of *units* to or by, the *manager*; and
 - (b) that in view of the quality of the *manager's* control systems the circumstance that resulted in the error in question is an isolated one which is unlikely to recur.
- (4) A modification under (2) is of no effect unless the corrected number of *units* is calculated by the end of the *business day* next following the *valuation point* for the *issue* or *cancellation* in question, or, if the *trustee* agrees, within the payment period applicable to that *issue* or *cancellation* under CIS 15.3.5R (Issue by trustee) or CIS 15.3.7R (Cancellation of units).

15.4 Sale and redemption

Application

- 15.4.1 **R** /1 (1) This section applies to *managers*. CIS 15.4.8R(6) (Payment on redemption) and CIS 15.4.10R(7)(c) (Redemption charge) also apply to *trustees*.
- (2) This section applies to the *sale and redemption* of *units* after the close of any *initial offer*. However, CIS 15.4.3R (Manager's obligation to sell) also applies to *initial offers*.

Purpose

- 15.4.2 **G** /1 This section protects investors by means of *rules* intended to ensure the *manager* deals fairly with investors when they *purchase* or redeem *units*. Accordingly, this section (CIS 15.4) lays down the basic procedures for the *sale and redemption* of *units* and sets out how the resulting payments should be calculated and paid.

Manager's obligation to sell

- 15.4.3 **R** /1 (1) The *manager* must at all times during the *dealing day* be willing to *sell units* and, subject to (2), must, at the request in writing of any *person*, agree to *sell* to that *person units* of at least one *class* or, in the case of an *umbrella scheme*, one *class* in respect of each of its *sub-funds*.
- (2) The *manager's* obligation to *sell units* under (1) does not apply:
- if it has not received payment for the *units* of an amount complying with CIS 15.4.4R (Sale price parameters) or, if the *sale* was at a *forward price* of a stated number of *units*, if it has not received payment of an amount estimated by it to be required; or
 - if the number or value of the *units* sought to be purchased is less than any number or value stated in the *prospectus* as the

minimum number or value of *units*, or *units* of the *class* concerned, that may be purchased or held; or

- (c) (for a *property scheme*) if the *manager* believes, on reasonable grounds, that the number or value of *units* sought to be purchased would lead to any one *person* (or any one *person* and any other *person* who appears to the *manager* to be acting in concert with that *person*) holding more than any number or value stated in the *prospectus* as the maximum number or value to be purchased or held; or
 - (d) if it has reasonable grounds, relating to the circumstances of the *person* concerned, for refusing to *sell units* to him; or
 - (e) if the *sale* would be in breach of a provision in the *trust deed* of any of the types described in paragraphs (j) (Limited categories of unitholders), (m) (Relevant pension schemes) or (n) (Relevant charitable schemes) of CIS 2.2.7G (Provisions that may be included in the trust deed).
- (3) Paragraph (1) does not apply to *units* of any *class*:
- (a) if no *units* of that *class* are in *issue*; or
 - (b) if the *sale* of *units* of that *class* is prohibited by CIS 13 (Suspension and termination).
- (4) *Units* must be sold in the *base currency*, unless the *person* concerned requests, and the *manager* agrees, that the *units* should be sold in another currency.

Sale price parameters

15.4.4

R

/1

- (1) Except in the case of a *large deal*, the *manager's price* for the *sale* of *units* must not exceed the maximum *sale price* of the relevant *class*; that is a price fixed by the *manager* and notified or to be notified to the *trustee* in respect of the last *valuation point* (or, for a *sale* at a *forward price*, to be notified in respect of the next *valuation point*) and that maximum *sale price* itself must not exceed the total (expressed to at least four significant figures) of:
- (a) the *issue price*; and
 - (b) the current *preliminary charge*.
- (2) In the case of an *initial offer*, the *manager's price* for *sale* of *units* must not exceed the *initial price*.

- (3) In the case of a *large deal*, the *manager's price for sale* may exceed the maximum *sale price*, but must not exceed the limit above which the maximum *sale price* could not have been fixed.
- (4) The *manager's price for sale* must not be less than the minimum *redemption price* under CIS 15.4.9R (Redemption price parameters).

Preliminary charge

15.4.5

R
/1

- (1) The *sale price* must not include a *preliminary charge* unless the *trust deed* so permits.
- (2) The *preliminary charge* must be expressed as a fixed amount or as a percentage of the *issue price* and must not exceed an amount or rate calculated in accordance with a statement in the *prospectus* as to the current charge.
- (3) The *manager* must not make any charge or levy in connection with the *sale of units* except a *preliminary charge* in accordance with (1) and (2), but this does not restrict any requirement for a payment under CIS 15.6.3R (SDRT provision).
- (4) Paragraph (1) does not apply on an exchange of *units* within an *umbrella scheme*, but nothing in this *rule* prevents the *manager* from making a charge on such an exchange in accordance with CIS 15.4.12R (Exchange of units in umbrella schemes)

Increase in preliminary charge

15.4.6

R
/1

- The *manager* must not introduce a *preliminary charge* or increase (within the maximum stated in the *trust deed*) the current amount or rate of a *preliminary charge* payable under CIS 15.4.5R unless:
- (1) the new *preliminary charge* is within the maximum stated in the *trust deed*;
 - (2) the introduction or increase would not cause an infringement of CIS 15.4.11R (Control over maximum charges on issue and redemption);
 - (3) not less than 90 *days* before the introduction or increase:
 - (a) the *manager* gave notice in writing of that introduction or increase and of the date of its commencement to the *trustee* and to all the *persons* who ought reasonably to be known to the *manager* to have made an arrangement for the purchase of *units* at regular intervals; and

- (b) the *manager* has revised the *prospectus* to reflect the introduction or new current amount or rate of *preliminary charge* and the date of its commencement and has made the revised *prospectus* available.

Manager's obligation to redeem

15.4.7

R
/1

- (1) The *manager* must at all times during the *dealing day* be willing to redeem *units*; and, accordingly, must at the request in writing of any *unitholder* agree to redeem *units* owned by that *unitholder* for the amount to be paid under CIS 15.4.8R (Payment on redemption).
- (2) Paragraph (1) does not apply:
- (a) if the number or value of the *units* sought to be redeemed is:
- (i) less than the entirety of the *unitholders* holding of *units* of the *class* concerned; and
- (ii) less than any number or value stated in the *prospectus* as the minimum number or value that may be redeemed of *units*, or *units* of the *class* concerned; or
- (b) if the number or value of the *units* sought to be redeemed would result in the *unitholder* holding less than any number or value stated in the *prospectus* as the minimum number of *units*, or *units* of the *class* concerned, that may be held; or
- (c) if the *manager* ensures that the *unitholder* is able to *sell* his *units* on an *investment* exchange at a price not significantly different from the price at which they would have been redeemed; or
- (d) where *units* are redeemed in return for property transferred or sold under CIS 15.5.4R (In specie cancellation); or
- (e) during the period of the *initial offer*; or
- (f) if *redemption* of the *units* of the *class* concerned is prohibited by CIS 13 (Suspension and termination).

Payment on redemption

15.4.8

R
/1

- (1) On agreeing to redeem *units*, the *manager* must, within the period specified in (3):

- (a) (except where (b) applies) pay the *unitholder* the proceeds of *redemption* under (3) (less any deduction under (4) and, where applicable, the cost of remitting the sum abroad); or
 - (b) if a *manager* of a *relevant pension scheme* pay or arrange for the payment of the appropriate proceeds of *redemption* in compliance with the *trust deed* including, where applicable, any time limit therein for payment which is shorter than the period specified in (2).
- (2) The proceeds of *redemption* paid under (1) must not be less than the *manager's price* for *redemption* of *units* under CIS 15.4.9R (Redemption price parameters).
 - (3) The period expires at the close of business on the fourth *business day* following the later of:
 - (a) the *valuation point* immediately after the *manager* receives the request to redeem; or
 - (b) the time when the *manager* has all duly executed instruments and authorisations to effect (or enable the *manager* to effect) transfer of title to the *units*.
 - (4) There may be deducted from the proceeds of *redemption* to be paid under (1) any *redemption charge* permitted under CIS 15.4.10R (Redemption charge) and any payment required under CIS 15.6.3R (SDRT provision).
 - (5) Neither this *rule* CIS 15.4.8R nor CIS 15.4.9R (Redemption price parameters) applies where the *manager* is not redeeming *units* in accordance with this chapter, but is *buying* them as *principal* on an *investment* exchange in accordance with a power in the *trust deed*, which envisages that settlement will be in accordance with the *rules* of that exchange.
 - (6) Nothing in this *rule* require a *manager* or *trustee* to part with *money* for a *cancellation* or *redemption* of *units* where any *money* due on the earlier *issue* or *sale* of those has not been received by the *person* entitled to it under this chapter.

Redemption price parameters

15.4.9

R
/1

- (1) Except in the case of a *large deal*, the *manager's price* for any *redemption* of *units* must not be less than the relevant minimum *redemption price* of a *unit* of the relevant *class* notified, or to be notified to the *trustee*, in respect of the last *valuation point* (or, for a *redemption* at a *forward price*, next to be notified in respect of the next *valuation point*).

PAGE
20

- (2) The minimum *redemption* price must not be less than the relevant *cancellation* price.
- (3) In the case of a *large deal*, the *manager's price* for *redemption* may be less than the minimum *redemption price*, but must not be less than the relevant *cancellation price*.
- (4) Subject to CIS 15.4.12R (Exchange of units in umbrella schemes), in the case of an *umbrella scheme*, the maximum price at which *units* in one *sub-fund* may be acquired in exchange for *units* in another *sub-fund* must not exceed the relevant maximum *sale* price (less any *preliminary charge*) of the new *units*; and the minimum price at which the old *units* may be taken in exchange must not be less than the equivalent minimum *redemption price*.
- (5) The *manager's price* for *redemption* of *units* must not exceed the relevant *issue price* under CIS 15.3.6R (Issue price).

Redemption charge

15.4.10

R

/1

- (1) If the *trust deed* so permits, the proceeds of *redemption* may in accordance with CIS 15.4.8R (Payment on redemption) be arrived at after deduction of a *redemption charge* for the benefit of the *manager*.
- (2) (a) A *redemption charge* must not exceed the amount or rate of *redemption charge* stated in the *prospectus* current at the date when the relevant *units* were issued, other than to the *manager*, or sold; and
 - (b) the amount or rate referred to in (a) may be expressed as diminishing over the time during which the *unitholder* has held the *units*, but may not be expressed as liable to vary in any other respect.
- (3) In (2) and (7), "issued" or "sold" in the case of *units* in an *AUT* which has absorbed the whole or part of the property of another *scheme*, is (when relevant) a reference to the *issue* or *sale* of *units* in that other *scheme* so far as it is practicable for the *manager* to ascertain the timing of that *issue* or *sale* as opposed to the *issue* of other *units* held by that *holder*.
- (4) The *manager* must not introduce a *redemption charge*, or change the rate or method of calculation of a current *redemption charge*, in a manner which is adverse to *unitholders*, unless at least 90 *days* before the introduction or change, the *manager*:
 - (a) gave notice in writing of that introduction or change and of the date of its commencement, to the *trustee* and to all the *persons* who ought reasonably to be known to the *manager* to

- have made an arrangement for the purchase of *units* at regular intervals; and
- (b) has revised the *prospectus* to reflect the introduction or change and the date of its commencement and has made the revised *prospectus* available.
- (5) A modification of the rate or method which is adverse to redeeming *unitholders* (or *unitholders* cancelling *units* under CIS 15.5.3R (Issues and cancellations through the manager)) must be limited so as to apply only to *units* which have been issued (whether at the request of the current *unitholder* or otherwise) after the date on which the modification takes effect.
- (6) Where the *trust deed*, whenever executed, is modified so as to authorise a *redemption charge*, the modification must be expressed so as to apply only to *units* issued after the date on which the modification takes effect.
- (7) In deciding whether and to what extent a charge is deductible for the purposes of this *rule*, *units* held by a *unitholder* are to be taken to be redeemed in the order in which they were issued (other than to the *manager*) or sold, unless:
- (a) the *manager* has the *unitholder's* instructions to the contrary; or
- (b) the *manager* selects as the *units* first to be redeemed *units* which are not subject to the deduction; or
- (c) the *manager* and the *trustee* have agreed on another way of deciding the order in which *units* are redeemed which appears to them unlikely materially to prejudice the *unitholder* concerned.
- (8) A *manager* must not make a *redemption charge* which might reasonably be regarded as restricting the right of *redemption*.

Control over maximum charges on issue and redemption

15.4.11

R

/1

- (1) In the circumstance envisaged by (2), an introduction of, or change to, either of the charges permitted by CIS 15.4.5R (Preliminary charge) or CIS 15.4.9R (Redemption charge) must not take effect unless:
- (a) the *trust deed* is modified under CIS 11.4.3R (Amendment to trust deed: with meeting); or
- (b) as the case may be, the *prospectus* is amended following approval of the introduction or change by an *extraordinary*

resolution at a meeting of the *unitholders* called for the purpose.

- (2) The circumstance mentioned in (1) is that (for any individual *unit* notionally issued and redeemed on the same *day*) the maximum amount or percentage of any *preliminary charge* and of any *redemption charge* would in aggregate exceed the maximum amount or percentage for the *preliminary charge* alone which is stated in the *trust deed*.

Exchange of units in umbrella schemes

15.4.12

R

For an *umbrella scheme*, the *manager* must not make any charge on an exchange of *units*:

/1

- (1) if the exchange is the first to be made by the *unitholder* during any *annual accounting period*; or
- (2) in the case of a second or subsequent exchange, unless:
- (a) such a charge is authorised by the *trust deed*; and
 - (b) the amount of the charge is within the maximum for charging on such an exchange stated in the most recently published *prospectus*.

Notification of prices to the trustee

15.4.13

R

(1) Immediately after completing a valuation under *CIS 15.8R*, (whether regular or otherwise) the *manager* must notify the *trustee* of:

/1

- (a) the *issue price*;
 - (b) the *cancellation price*;
 - (c) the maximum *sale price*; and
 - (d) the minimum *redemption price*; and
 - (e) (in the case of an *umbrella scheme*) the maximum *sale price* for *units* in any *sub-fund* on an exchange of *units*.
- (2) The *prices* to be notified under (1) must:
- (a) relate to *units* of each *class* in *issue*;
 - (b) be those relevant to *deals* based on prices determined at the *valuation point*; and

(c) be in the *base currency*.

- (3) Each notification under (1) must include a statement of the number of *units* of each *class* owned by the *manager* at the *valuation point* (or notified point if there is one).
- (4) As soon as practicable after each notification under (1), the *manager* must notify the *trustee* of the transactions, or types of transaction, for which an *SDRT provision* is applied and the amounts or rates of those *SDRT provisions*.

Publication of prices

15.4.14

R

/1

(1) Where the *manager* holds itself out as willing:

- (a) to *sell* or redeem *units* of any *class*; or
- (b) to *issue* or cancel *units* of any *class* under CIS 15.5.3R (Issues and cancellations through the manager);

it must make public the maximum *sale* and minimum *redemption prices* of those *units* and the current *preliminary charge* (if there is one).

- (2) The prices made public under (1) are to be the price or prices last notified to the *trustee* under CIS 15.4.13R or, in the case of publication in a newspaper, last notified before the relevant newspaper ceased to accept material for publication in the relevant edition.
- (3) The prices to be made public under (1) must be published in at least one national newspaper in the *United Kingdom*, except for any *class* of *units* that is marketed predominantly outside of the *United Kingdom*.
- (4) Where the *manager* holds itself out as willing to *sell* and redeem *units* (or, as the case may be, to *issue* or cancel *units* under CIS 15.5.3R (Issues and cancellations through the manager) in any other *EEA State*, it must also comply with (1) in the manner provided for by the law of that *EEA State*.
- (5) Paragraphs (1) to (4) do not apply to *units* in relation to which the *manager* is excused from dealing with the public.
- (6) The *manager* must disclose the *cancellation price*, orally or in writing, to any *person* who requests it, whether in *person* at, or by any communication addressed to, the *manager's* principal place of business in the *United Kingdom*, and the *manager* must have arrangements to enable it accordingly to disclose, free of

charge, at all times during the *dealing day*, the *cancellation price* last notified to the *trustee*.

15.5 Issues and cancellations through the manager and in specie cancellations

Application

- 15.5.1 **R** This section applies to *managers* and *trustees*.
/1

Purpose

- 15.5.2 **G** (1) CIS 15.5.3R ensures that investors are able, in certain circumstances, to require direct *issues* or *cancellations* of *units* by the *trustee* as an alternative to *buying units* from, or redeeming them with, the *manager*.
/1
- (2) CIS 15.5.4R protects investors in an *AUT* by enabling the *manager*, subject to the conditions in that *rule*, to require a *unitholder* who wishes to redeem his *units* to take, instead of the usual proceeds of *redemption*, a transfer of assets of the *AUT*, or if the *unitholder* requires, to take the net proceeds of the *sale* of the assets.

Issues and cancellations through the manager

- 15.5.3 **R** (1) At the request of any *person*, the *manager* is obliged to instruct the *trustee* to *issue units* to that *person* where the *manager* would otherwise be obliged to *sell* them under CIS 15.4.3R (Manager's obligation to sell).
/1
- (2) At the request of any *unitholder*, the *manager* is obliged to instruct the *trustee* to cancel *units* held by that *unitholder* where the *manager* would otherwise be obliged to redeem them under CIS 15.4.7R (Manager's obligation to redeem).
- (3) The price of a *unit* issued or cancelled under this *rule* must be the *issue* or *cancellation* price of a *unit* of the relevant *class* notified to the *trustee* at the next *valuation point* after the request referred to in (1) or (2), except for an *issue* to which CIS 15.2.5R (Initial price) applies, when it must be the *initial price*.
- (4) (a) In the case of an *issue*, the *manager* may require to be paid in addition to the price under (3):

- (i) For the account of the *manager*, any *preliminary charge* permitted under CIS 15.4.5R;
 - (ii) For the account of the *AUT*, any *SDRT provision* required under CIS 15.6.3R (SDRT provision).
- (b) In the case of a *cancellation*, the *manager* may require to be deducted from the proceeds:
- (i) For the account of the *manager*, any *redemption charge* permitted under CIS 15.4.10R (Redemption charge);
 - (ii) for the account of the *AUT* any deduction required under CIS 15.6.3R.
- (5) The *manager* must pay the *trustee* in accordance with CIS 15.3.5R (Issue by trustee), the *issue price* of any *units* issued under this *rule* CIS 15.5.3R and any payment required under (4)(a)(ii), whether or not the *manager* has received payment from the investor. However, the *manager* may defer instructing the *trustee* to *issue* the *units* until full payment for them has been received.
- (6) Nothing in this *rule* requires the *trustee* or the *manager* to part with *money* for a *cancellation* of *units* in the circumstances described in CIS 15.4.8R(6) (Payment on redemption).

In specie cancellation

15.5.4

R

/1

- (1) This applies where a *unitholder*:
- (a) requests *redemption*, or requests *cancellation* under CIS 15.5.3R (Issues and cancellations through the manager), of *units* representing in value not less than 5% (or any lower percentage stated in the *trust deed*) of the value of the *scheme property* of the *AUT*; and
 - (b) the transfer to him of *scheme property*, instead of a payment under CIS 15.4.8R (Payment on redemption) or CIS 15.5.3R, is either:
 - (i) chosen by the *manager* by a notice of election on the *unitholder*; or
 - (ii) requested by the *unitholder* (in a case where he is permitted to do so under the *trust deed*) at the same time as his request at (a).

- (2) A notice of election under paragraph (1)(b)(i) is invalid if served later than the close of business on the second *business day* following the *day* of receipt of the request in paragraph (1)(a);
- (3) Where a notice of election is served under paragraph 1b(i), the *unitholder* may by a notice served on the *manager* require the *manager*, instead of arranging for a transfer of property, to arrange:
 - (a) for a *sale* of the property; and
 - (b) for payment to the *unitholder* of the net proceeds of *sale*.
- (4) A *manager* must comply with the requirement of a valid notice served on it under (3). A notice under (3) is not valid if served later than the close of business on the fourth *business day* following the *day* of receipt of the notice under (1)(b)(i).
- (5) Where there is to be transfer of property, whether by election or by request:
 - (a) the *manager* must forthwith notify the *trustee* that *redemption* (or *cancellation* under CIS 15.5.3R) of the *units* is to be effected by transfer of property; and
 - (b) the *trustee* must, on receipt of such evidence of title as he may require:
 - (i) cancel the *units*; and
 - (ii) transfer to the *unitholder* his proportionate share of the due property.
- (6) In (5) in this *rule*, ‘proportionate share’ means:
 - (a) such part of each description of asset in the *scheme property* as is proportionate to or as nearly as practicable proportionate to the *unitholder’s share*; or
 - (b) such selection from the *scheme property* as the *trustee*, after consultation with the *manager*, decides is reasonable;having regard to the need to be fair both to the *unitholder* and to continuing *unitholders*.
- (7) Where there is to be a *sale* of property under (3):
 - (a) the *manager* must immediately notify the *trustee* of that fact, and must arrange for a *sale* of the assets that would otherwise have been transferred under (5) (other than any assets which are in cash in the relevant currency for the purposes of the *redemption*); and

- (b) the *trustee* must, on receipt of such evidence of title as it may require:
 - (i) cancel the *units*; and
 - (ii) pay to the *unitholder* the net proceeds of the *sale* and any relevant amount in cash.
- (8) The *scheme property* to be transferred under (6), or the proceeds of *sale* to be paid under (7), are subject to the retention of *scheme property* (including cash) of a value or amount equivalent to any deductions permitted by CIS 15.5.3R (Issues and cancellations through the manager) and which shall be accounted for in the manner provided by that *rule*. However, those deductions must not be taken into account in the value of *units* used for the purpose of (1)(a).
- (9) This *rule* does not enable *units* in a *relevant pension scheme* other than in accordance with that *scheme* to be redeemed.

15.6 SDRT provision

Application

15.6.1 **R** This section applies to *managers*.

/1

Purpose

- 15.6.2 **G**
- (1) Certain transactions in *units* can result in stamp duty reserve tax being paid out of the *scheme property* of the *AUT*. Accordingly, with a view to protecting investors from a resulting diminution in the value of their *units*, and in accordance with *Principle 6* (customers' interests) that a *firm* must pay due regard to the interests of its *customers* and treat them fairly, a *manager* is permitted to require the payment of an *SDRT provision* as an addition to the *price* of *units* when they are issued or sold, and as a deduction when they are cancelled (other than certain in specie *cancellations*) or redeemed.
 - (2) Any *SDRT provision* paid or received by deduction is for the account of the *AUT*.
 - (3) For the purpose of (1) and (2) it does not matter whether the cancellation is under *CIS 15.3* (Issues and cancellations) or under *CIS 15.5* (Issues and cancellations through the manager and in specie cancellations).
 - (4) *CIS 15.6.3R(3)(b)* makes it clear that transactions that are specifically excluded from a charge to stamp duty reserve tax (such as transactions in *units* within an individual pension account) can be excluded from the imposition of an *SDRT provision* without affecting the fairness required by that *rule*.

/1

SDRT provision

- 15.6.3 **R**
- (1) The *manager* has the power to require either or both of:
 - (a) the payment of an *SDRT provision* in respect of the *issue* or the *sale* of *units*; and
 - (b) the deduction of an *SDRT provision* in respect of the *redemption*, or *cancellation* of *units*, other than a *cancellation* of *units* under *CIS 15.5.4R* (In specie cancellation) resulting in a transfer of property that is such part of each description of

/1

asset in the *scheme property* as is proportionate to, or as nearly as practicable proportionate to, the *unitholder's share* in the *scheme property*.

- (2) Any such payment or deduction becomes due at the same time as payment or transfer of property becomes due in respect of the *issue, sale, redemption or cancellation*.
- (3) An *SDRT provision* may be imposed only in a manner that is, so far as practicable, fair to all *unitholders* and potential *unitholders*. However:
 - (a) the imposition of an *SDRT provision* (or a higher *SDRT provision*) in respect of *large deals*, in a manner described in the *prospectus* current at the time of the *deal*, or
 - (b) The exclusion from an *SDRT provision* of any transaction in *units* where the *units* are so held that their *redemption or cancellation* is specifically excluded from a charge to stamp duty reserve tax,

is not unfair

- (4) If the *manager* receives an *SDRT provision* in respect of any *unit* sold or to be sold by it, it must immediately upon receipt of that *SDRT provision* pay it to the *trustee* to become part of the *scheme property* of the *AUT*, except to the extent that it has already been, or will be, paid by the *manager* to the *trustee* on the *issue* of that *unit*.
- (5) If the *manager* deducts an *SDRT provision* from the proceeds of a *unit* it redeemed, it must immediately pay it to the *trustee* to become part of the *scheme property* except to the extent that it already has been, or will be, deducted from the payment by the *trustee* to the *manager* on *cancellation* of that *unit*.

15.7 Forward and historic pricing

Application

15.7.1 **R** This section applies to *managers*.

/1

Purpose

15.7.2 **G** This section protects investors by means of *rules* intended to prevent the *sale* and *redemption* of *units* at an *historic price* where this is liable to be unfair.

/1

15.7.3 **G** (1) There are two ways in which a *manager* may *sell* or redeem *units*; these are at forward and *historic prices*. A *forward price* is one to be fixed at the next *valuation point*, while a *historic price* is one fixed on the basis of the last valuation.

/1

(2) The two pricing systems have different characteristics. The investor knows that a forward *deal* will be priced at the next *valuation point*, but if he is investing a specified sum, he does not know until then how many *units* he will receive (or, if he is seeking to redeem, how much he will receive in cash). The investor knows, by contrast, that a historic *deal* may well represent a price which is outdated (though not by more than 2%), but is able to know, at the time of the *deal*, how much he must pay (or will receive) or the time of the valuation which will be relevant to that price.

(3) The *rules* generally express a preference for forward pricing in that there are numerous occasions when a *price* must be forward, whether or not the *manager* chooses to *deal* in that way. *Issues* or *cancellations* through the *manager* under CIS 15.5.3R (Issues and cancellations through the manager) are always at a *forward price*.

(4) The diagram in CIS 15.7.6G indicates the *valuation point* relevant for *issues* and *cancellations* and for *sales* and *redemptions* in the period between one *valuation point* and the next. In doing so, it takes account of Table 15.7.5 (2) and of earlier *rules* in this chapter, including CIS 15.3.11 (Timing of instructions to issue or cancel units).

Forward and historic pricing

15.7.4 **R** (1) For the *sale* and *redemption* of *units*, the *manager* may, subject to this *rule* CIS 15.7.4R, operate on the basis of forward or *historic*

/1

prices, but its power to choose, or its duty to operate on one basis only, is governed by CIS Table 15.7.5 (2).

- (2) If the prices for the *sale* and *redemption* of *units* related to any *sub-fund* of an *umbrella scheme* are on a forward basis, the prices for the *sale* and *redemption* of *units* related to each other *sub-fund* of that *umbrella fund* must also be on a forward basis; but this paragraph does not apply merely because of a requirement to price on a forward basis temporarily under Part 2 or Part 3 of CIS Table 15.7.5.
- (3) Prices are to be on a forward basis only for the *sale* and *redemption* of *units* in an *AUT* which is a *geared futures and options scheme*, a *property scheme*, a *warrant scheme* or an *umbrella scheme* that includes a *sub-fund* which, if it were the subject of a separate *authorisation order*, would be an *AUT* of one of those categories.
- (4) Table 15.7.5 does not apply during the period of *initial offer* at a fixed price. In Table 15.7.5:
 - (a) 'F Only' means that any price agreed on must be a *forward price*;
 - (b) 'H' means that any price agreed on must be an *historic price* unless the *manager* is required by the table to *deal* at a *forward price*; and
 - (c) 'General dealing' means "in relation to all *sales* and *redemptions* agreed on during the remainder of the relevant *dealing period* (except those that are agreed upon individual deviations)"; and an 'individual deviation' is a decision, in relation to a particular transaction, covered by Part 3 of the Table.

15.7.5

R

Table Explanatory table: Forward or historic pricing (This is the table referred to in CIS 15.7.4R).

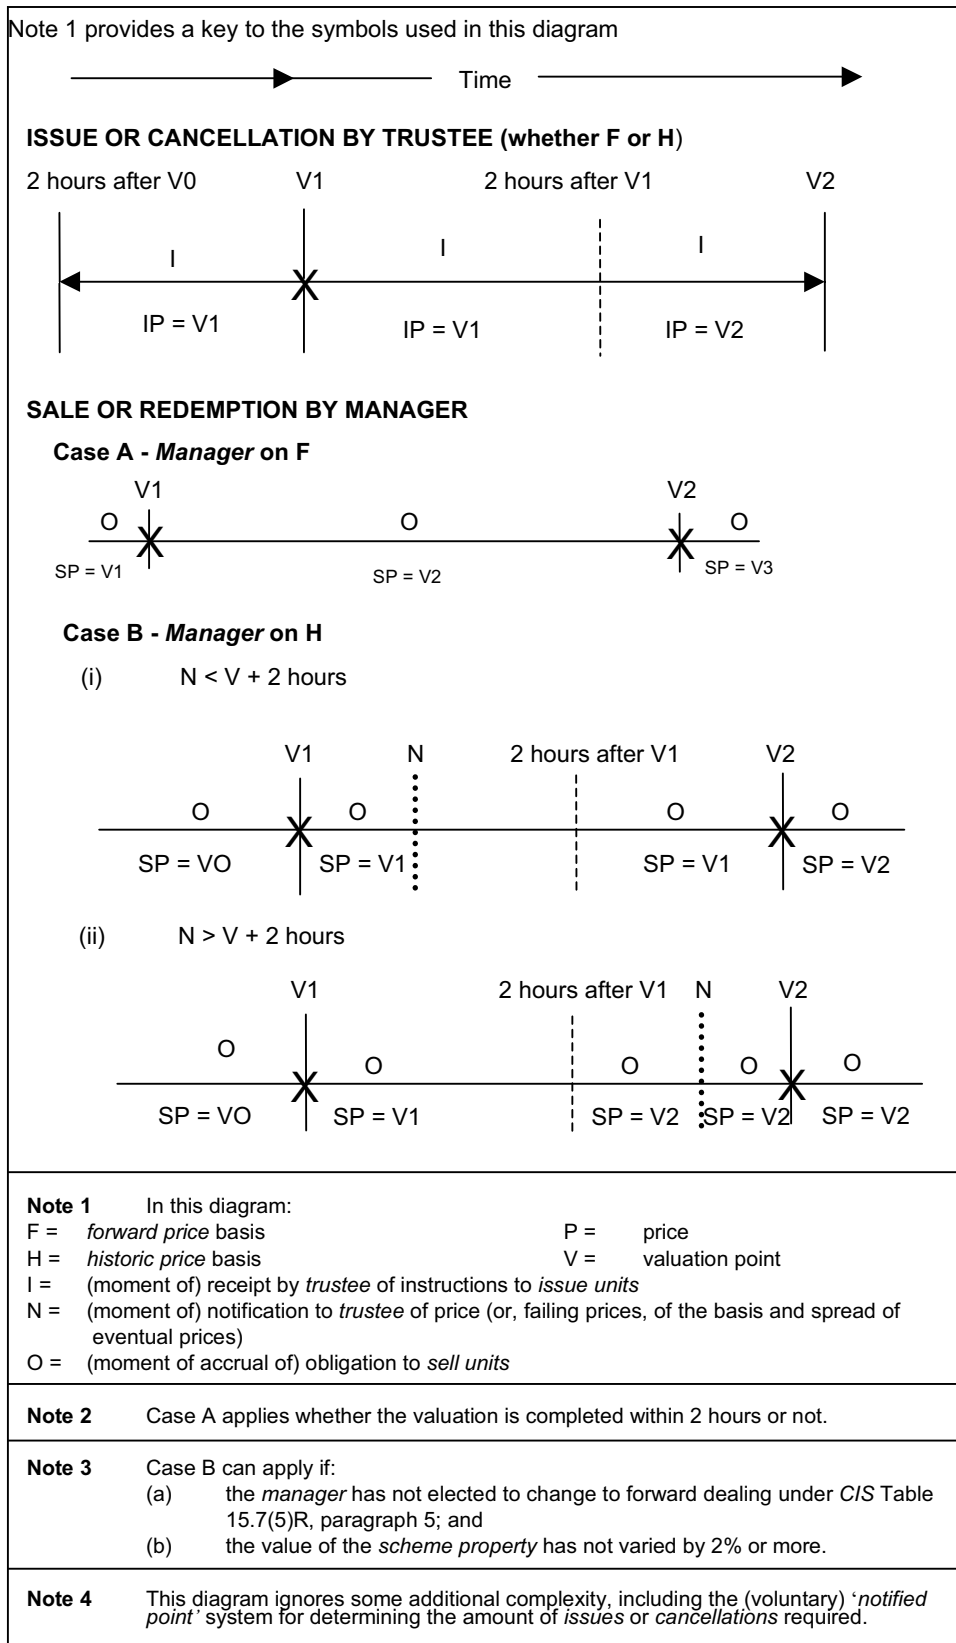

FORWARD OR HISTORIC PRICING

Part 1: General Dealing

1. *Manager's choice.* The *prospectus* must state the *manager's* choice for H or else for F Only.
2. If the *manager's* current choice under 1 is F Only, all its *deals* must be at a *forward price*.
3. A *manager* must not choose H if its normal arrangements for valuation envisage valuations more than one *business day* apart.
4. The remainder of this table applies to a *manager* with a current choice of H.
5. It may at any time elect for F Only in respect of the rest of the then current *dealing period*.

6. If the *manager* binds itself to switch from H to F Only at a certain point in each *dealing period*, this must be stated in the *prospectus*.
 7. An election for (or switch to) F Only will last until the end of the *dealing period* and will then lapse.
 8. For general *dealing* purposes, *redemptions* must be on the same basis as *sales*.
- Part 2: General Dealing – Duty To Adopt Forward Pricing
9. Market movement: F Only applies once the *manager* having taken reasonable care decides that there would be a difference of 2% or more between the current value of the *scheme property*, if immediately valued, and its last calculated value (taking that as 100% for this purpose), but decides not to carry out an additional valuation under CIS 15.8.3R (Valuation of scheme property).
 10. Valuation taking over 2 hours: F Only applies if a new price for *units* of each *class* has not been notified to the *trustee* after 2 hours.
 11. Paragraph (10) does not apply, if within two hours of the *valuation point*, the *manager* has notified the *trustee* of the basis (*issue* or *cancellation*) on which the next prices will be fixed, and of the spread (reckoned in percentage or *money* terms) between the maximum *sale price* and the minimum *redemption price*.
 12. F Only under (9) and (10) will start when the relevant moment arrives, will last until the end of the *dealing period* and will then lapse.
- Part 3: Individual Deviations
13. Paragraphs (14) to (17) apply to an individual transaction without affecting the general position arrived at under Parts 1 and 2.
 14. Request: F Only applies if the applicant for *sale* or *redemption* so requests.
 15. *Large deals*: F Only applies, if the *manager* so decides, for a *large deal*.
 16. *Postal deals*: F Only applies if the order or offer reaches the *manager* through the post or by any similar form of one-way *communication*.
 17. *Issue* or *cancellation* through the *manager*: F Only applies in the case of an *issue* or *cancellation* under CIS 15.5.3R (Issues and cancellations through the manager).
- Part 4: Notification to Trustee
18. The *manager* must notify the *trustee* of the fact and time of any adoption of F only under (5) or Part 2.

Explanatory diagram: pricing at and after valuation point (This is the diagram referred to in CIS 15.7.3G(4).)

15.8 Valuation

Application

15.8.1 **R** This section applies to *managers*.

/1

Purpose

- 15.8.2 **G**
- (1) This section protects investors by providing how the *issue, cancellation, sale and redemption prices* of *units* should be calculated. It also deals with the time and method of valuation of the *scheme property*, with the property that is to be included in a valuation and with the various tax and other adjustments that are either added to or deducted from such a valuation.
 - (2) CIS 15.8.4R contains the detailed *rules* for valuation of the *scheme property* by the *manager*. The Table is subject to other *rules* (see CIS 5.2.5R (Valuation) and CIS 12.3 (Property schemes)).

/1

Frequency of valuation

- 15.8.3 **R**
- (1) **Regular valuation:** for the purposes of determining in accordance with these *rules* the prices at which *units* of either *class* may be issued, cancelled, sold or redeemed, the *manager* must regularly carry out a valuation of the *scheme property*, which must be conducted in accordance with CIS 15.8.4R.
 - (2) **Additional valuation:** the *manager* must inform the *trustee* if the *manager* determines to have an additional *valuation point* in respect of the *AUT* or any *sub-fund*, but this does not prevent the *manager* carrying out a valuation for another purpose that is not against the interests of the *unitholders* at a time that is not to be a *valuation point*.
 - (3) **An additional valuation must be conducted in accordance with CIS 15.8.4R.**
 - (4) **An additional valuation for the purposes of paragraph (9) (market movement) of CIS 15.7.5R (forward and historic pricing) must be conducted:**

/1

- (a) in accordance with *CIS 15.8.4R*; but
- (b) if it is impracticable to conduct a valuation in accordance with that table, the *manager* determines having taken reasonable care, and the *trustee* agrees, that an adequate valuation may be obtained in that way, may be conducted by reference to fluctuations in an index of property reflecting in the composition the *scheme property* the additional valuations may be conducted in that way.

15.8.4

R

Table 15.8R – Valuation
(This is the table referred to in *CIS 15.8.3*)

/1

Section 1: When?	
1.	The <i>manager</i> must carry out valuations under <i>CIS 15.8.3(1)R</i> (Regular valuations) regularly.
2.	The frequency of regular valuation must be specified in the <i>prospectus</i> .
3.	The frequency specified must be at least twice a calendar month.
4.	If the frequency specified is the minimum frequency, the regular valuations must be two weeks or more apart.
5.	Paragraphs 3. and 4. do not apply to <i>warrant schemes</i> or to a <i>sub-fund</i> which is permitted to invest entirely in <i>warrants</i> and there must be at least one <i>valuation point</i> for them on each <i>business day</i> .
6.	Additional valuations under <i>CIS 15.8.3R(2)</i> can take place at any time during a <i>dealing day</i> .
7.	There is no need to value during the period of an <i>initial offer</i> (but see <i>CIS 15.2.6R</i> (Compulsory termination of initial offer)).
Section 2: How?	
8.	The valuation takes place as at a <i>valuation point</i> fixed by the <i>manager</i> under Section 1.
9.	The valuation is in <i>base currency</i> .
10.	Prices must be the most recent prices that can reasonably be obtained after the <i>valuation point</i> with a view to giving an accurate valuation as at that point.
11.	A valuation is in two parts, one on an <i>issue</i> basis and one on a <i>cancellation</i> basis.
12.	To convert to <i>base currency</i> the value of property which would otherwise be valued in another currency the <i>manager</i> must either:
(a)	Select a rate of exchange which represents the average of the highest and lowest rates quoted at the relevant time for conversion of that currency into <i>base currency</i> on the market on which the <i>manager</i> would normally <i>deal</i> if it wished to make such a conversion; or
(b)	Invite the <i>trustee</i> to agree that it is in the interests of <i>unitholders</i> to select a different rate, and, if the <i>trustee</i> so agrees, use that other rate.
Section 3: What?	
13.	All <i>scheme property</i> is included, subject to adjustments arising from this section, and section 4, and this section is to be applied as at the <i>valuation point</i> .
14.	If the <i>trustee</i> has been instructed to <i>issue</i> or cancel <i>units</i> , assume (unless the contrary is shown) that:
(a)	it has done so;
(b)	it has paid or been paid for them; and
(c)	all consequential action required by these <i>rules</i> or by the <i>trust deed</i> has been taken.
15.	If the <i>trustee</i> has issued or cancelled <i>units</i> but consequential action as at 14(c) is outstanding, assume that it has been taken.
16.	If agreements for the unconditional <i>sale</i> or <i>purchase</i> of property are in existence but uncompleted, assume:
(a)	completion; and
(b)	that all consequential action required by their terms has been taken.
17.	Do not include in 16. any agreement which is:
(a)	A <i>future</i> or <i>contract for differences</i> which is not yet due to be performed; or
(b)	An unexpired <i>option</i> written or purchased for the <i>AUT</i> which has not yet been exercised.

18.	Include in 16 any agreement the existence of which is, or could reasonably be expected to be, known to the <i>person</i> valuing the property, assuming that all other <i>persons</i> in the <i>manager's</i> employment take all reasonable steps to inform it immediately of the making of any agreement.	
Section 4: Tax and other adjustments		
19.	Deduct an estimated amount for anticipated tax liabilities:	
	(a)	On unrealised capital gains where the liabilities have accrued and are payable out of the <i>scheme property</i> ;
	(b)	On realised capital gains in respect of previously completed and current accounting periods;
	(c)	On income where the liabilities have accrued;
	(d)	Including stamp duty reserve tax and any other fiscal charge not covered under this deduction.
20.	Deduct:	
	(a)	an estimated amount for any liabilities payable out of the <i>scheme property</i> and any tax on it (treating any periodic items as accruing from day to day);
	(b)	the principal amount of any outstanding borrowings whenever payable;
	(c)	any accrued but unpaid interest on borrowings;
	(d)	the value of any <i>option</i> written (if the <i>premium</i> for writing the <i>option</i> has become part of the <i>scheme property</i>); and
	(e)	in the case of a margined contract, any amount reasonably anticipated to be paid by way of variation <i>margin</i> (that is the difference in price between the last settlement price, whether or not variation <i>margin</i> was then payable, and the price of the contract at the <i>valuation point</i>).
21.	Add an estimated amount for accrued claims for repayment of taxation levied:	
	(a)	on capital (including capital gains); or
	(b)	on income.
22.	Add:	
	(a)	any other credit due to be paid into the <i>scheme property</i> ;
	(b)	in the case of a margined contract, any amount reasonably anticipated to be received by way of variation <i>margin</i> (that is the difference in price between the last settlement price, whether or not variation <i>margin</i> was then receivable, and the price of the contract at the <i>valuation point</i>);
	(c)	any <i>SDRT provision</i> anticipated to be received.
Section 5: Issue Basis		
23.	The valuation of property for that part of the valuation which is on a creation basis is as follows:	
	Property	To be valued at
	(a) Cash	nominal value
	(b) Amounts held in current and deposit accounts	nominal value
	(c) Property which is not within (a), (b) or (d):	
	(i) if <i>units</i> in an <i>AUT</i> to which <i>CIS 15</i> (Dual-pricing and dealing) applies	except where Note 1 applies, the most recent maximum <i>sale</i> price less any expected discount (plus <i>dealing</i> costs) [Note 2]
	(ii) if <i>shares</i> in an <i>ICVC</i> or <i>units</i> of an <i>AUT</i> to which <i>CIS 4</i> (Single-pricing and dealing) applies	the most recent price (plus <i>dealing</i> costs) [Notes 2 and 3]
	(iii) if any other <i>investment</i>	best available market <i>dealing</i> offer price on the most appropriate market in a standard size (plus <i>dealing</i> costs) [Note 2]
	(iv) if other property, or no price exists under (i) or (ii)	<i>manager's</i> reasonable estimate of a buyer's price (plus <i>dealing</i> costs) [Notes 2 and 4]
	(d) Property which is a <i>derivative</i> under the terms of which there may be liability to make, for the account of the <i>AUT</i> , further payments (other than charges, and whether or not secured by <i>margin</i>) when the transaction in the <i>derivative</i> falls to be completed or upon its closing out.	
	(i) if a written <i>option</i> under <i>rule 20(d)</i>	to be deducted (see 20.(d)) at a net valuation of <i>premium</i> . [Notes 5 and 8]
	(ii) if an <i>off-exchange</i> future	net value on closing out [Notes 6 and 8]

		(iii)	if any other such property	net value of <i>margin</i> of closing out (whether as a positive or negative figure) [Notes 7 and 8]
Notes				
	1.		The <i>issue price</i> is taken, instead of the maximum <i>sale price</i> if the <i>manager</i> of the <i>AUT</i> whose <i>scheme property</i> is being valued is also the <i>manager</i> , or an <i>associate</i> of the <i>manager</i> , of the <i>AUT</i> whose <i>units</i> form part of that property.	
	2.		In this Section and in Section 6, “dealing costs” means any fiscal charges, <i>commission</i> or other charges payable in the event of the <i>AUT</i> carrying out the transaction in question, assuming that the <i>commission</i> and charges (other than fiscal charges) which would be payable by the <i>AUT</i> are the least that could reasonably be expected to be paid in order to carry out the transaction. On the <i>issue</i> basis, dealing costs exclude any <i>preliminary charge</i> on sale of <i>units</i> in an <i>AUT</i> .	
	3.		Dealing costs under note 2. Include any <i>dilution levy</i> or <i>SDRT provision</i> which would be added in the event of a <i>purchase</i> by the <i>AUT</i> of the <i>units</i> in question but, if the <i>manager</i> of the <i>AUT</i> being valued, or an <i>associate</i> of the <i>manager</i> , is also the <i>manager</i> of the <i>AUT</i> or the <i>ACD</i> of the <i>ICVC</i> whose <i>units</i> are held by the <i>AUT</i> , must not include a <i>preliminary charge</i> which would be payable in the event of a <i>purchase</i> by the <i>AUT</i> of those <i>units</i> .	
	4.		The buyer’s price is the consideration which would be paid by a buyer for an immediate transfer or assignment (or, in Scotland, assignment) to him at arm’s length.	
	5.		Estimate the <i>premium</i> on writing an <i>option</i> of the same series on the best terms then available on the most appropriate market on which such <i>options</i> are traded; but deduct dealing costs.	
	6.		Estimate the amount of profit or loss receivable or incurable by the <i>AUT</i> on closing out the contract. Deduct minimum dealing costs in the case of profit and add them in the case of loss.	
	7.		Estimate the amount of <i>margin</i> (whether receivable or payable by the <i>AUT</i> on closing out the contract) on the best terms then available on the most appropriate market on which such contracts are traded. If that amount is receivable (e.g. the contract is “in the money”) then add minimum dealing costs to the <i>margin</i> and the value is that figure as a negative sum.	
	8.		If the property is an <i>OTC</i> transaction in <i>derivatives</i> , use the relevant valuation referred to in <i>CIS</i> 5.6.6R (<i>OTC</i> transactions in <i>derivatives</i>).	
Section 6: Cancellation basis				
24.	The valuation of property for that part of the valuation which is on a <i>cancellation</i> basis is as follows:			
	Property		To be valued at	
	(a)	Cash	nominal value	
	(b)	Amounts held in current deposit and loan accounts	nominal value	
	(c)	Property which is not within (a), (b) or (d):		
	(i)	if <i>units</i> in and <i>AUT</i> to which <i>CIS</i> 15 (Dual-pricing and dealing) applies	except where Note 1 applies, the most recent minimum <i>redemption price</i> (less dealing costs) [Note 2]	
	(ii)	if <i>shares</i> in an <i>ICVC</i> or <i>units</i> in an <i>AUT</i> to which <i>CIS</i> 4 (Single-pricing and dealing) applies	the most recent price (less <i>dealing costs</i>) [Notes 2 and 3]	
	(iii)	if any other <i>investment</i>	best available market <i>dealing bid price</i> on the most appropriate market in a standard size (less <i>dealing costs</i>) [Note 2]	
	(iv)	if other property, or no price exists under (i) or (ii)	<i>manager</i> ’s reasonable estimate of a seller’s price (less <i>dealing costs</i>) [Notes 2 and 4]	
	(d)	Property of the type described in 23.:		
	(i)	if a written <i>option</i> under 20.(d)	to be deducted (see 20.(d)) at a net valuation of <i>premium</i> [Notes 5 and 8]	
	(ii)	if an <i>off-exchange future</i>	net value of closing out [Note 8]	
	(iii)	if any other such property	net value of <i>margin</i> on closing out (whether as a positive or negative figure) [Notes 6 and 8]	
Notes				
	1.		The <i>cancellation price</i> is taken instead of the minimum <i>redemption price</i> if the property, if sold in one transaction, would amount to a <i>large deal</i> .	

2. For *dealing* costs see note 2. In 23.. Dealing costs include any charge payable on *redemption* of *units* in an *AUT* (taking account of any expected discount), except where the *manager* of the *AUT* whose property is being valued is also the *manager*, or an *associate* of the *manager*, of the *AUT* whose *units* form part of that property.
3. *Dealing* costs under note 2. include any *dilution levy* or *SDRT provision* which would be deducted in the event of a *sale* by the *AUT* of the *units* in question and, except when the *manager* of the *AUT* being valued, or an *associate* of the *manager*, is also the *manager* of the *AUT* or the *ACD* of the *ICVC* whose *units* are held by the *AUT*, include any charge payable on the *redemption* of those *units* (taking account of any expected discount).
4. The seller's price is the consideration which would be received by a seller for an immediate transfer or assignment (or, in Scotland, assignment) from him at arm's length, less dealing costs.
5. Estimate the *premium* on writing an *option* of the same series on the best terms then available on the most appropriate market on which such *options* are traded, and add dealing costs.
6. For *off-exchange futures*, see note 6. In 23..
7. For net value of *margin* see note 7. In 23..
8. For *over the counter* transactions in *derivatives*, see note 8. in 23..

Valuation under SETS

15.8.5

G
/1

- (1) CIS 15.8.4R requires certain property to be valued at the best available market dealing offer or bid price (depending on whether the property is being valued on an *issue* or *cancellation* basis) for a *deal* of standard size on the most appropriate market, after taking account of dealing costs. If no price exists, the *manager* is required to use a reasonable estimate of a *buying* or *selling* price.
- (2) Under the Stock Exchange Automated Quotation (SEAQ) System, the best market *dealing* offer or bid price in a particular *security* is generally understood to be the 'touch' price. Under *SETS*, the London Stock Exchange publishes an 'official best price' for each *security*, derived from the best prices displayed on the order book. It also publishes a 'last trade price'. The best bid price is the price of the highest buy order on the order book at any given time, and the best offer price is the price of the lowest *sell* order on the book. The last trade price for *securities* traded on *SETS* is published throughout the *day*. The 'official closing price' is based on the last automatically executed trade taken from the order book.
- (3) A *manager* may wish to use the last trade price as the basis for valuing *SETS securities* held as part of the *scheme property*. The last trade price will be a precise figure, not an estimate, and there will be complete certainty that the *security* in question has traded at that price. Alternatively, a *manager* may use the best bid and offer price displayed on the order book as the basis of valuation. Either method is acceptable, provided that the *manager* documents the choice of method and ensures that the procedures are applied consistently and fairly. The basis on which the *scheme property* is to be valued must be set out in the *AUT's prospectus*, as required by CIS 3.5.17R(2)R (Valuation of scheme property).
- (4) Circumstances may arise where the chosen method may not provide a reliable basis for valuation. This could happen, for example, where there has been no recent trade in the *security* concerned or where no reliable price exists. In such cases, the *manager* should exercise judgement to estimate a reasonable price at which the *security* could be bought or sold in the most appropriate market, and should document the reasons for its decision. Where the *manager* imputes a 'spread' in order to arrive at an estimated *buying* or *selling* price – for example,

in circumstances where there are no buy or *sell* orders on the order book, it should be able to justify any assumptions made.

Chapter 16.

Application and notification

16.1 Introduction

Application

16.1.1

G
/1

This chapter covers the processes of applying for authorisation and recognition of a *collective investment scheme*, and the notification to the FSA of the intention to market an overseas *collective investment scheme* in the *United Kingdom*. This chapter also includes *guidance* on the independence of *depositaries* of ICVCs and *managers* and *trustees* of AUTs and *rules* on notifying the FSA in its role as registrar of ICVCs. This chapter also implements Article 6 of the *UCITS Directive*.

- (1) CIS 16.1.1G, 16.1.2G and 16.1.3G apply to *directors* and proposed *directors* of an ICVC, *depositaries* and proposed *depositaries* of an ICVC, ICVCs and proposed ICVCs, *managers* and proposed *managers* of an AUT, *trustees* and proposed *trustees* of an AUT and operators of *collective investment schemes* seeking or applying for recognition under section 264, 270 or 272 of the *Act*.
- (2) CIS 16.1.4D and CIS 16.1.5G apply to the proposed *directors* and proposed *depository* of a new ICVC.
- (3) CIS 16.1.6D and CIS 16.1.7G apply to the proposed *manager* and proposed *trustee* of a new AUT.
- (4) CIS 16.1.8G applies to the operator of a *collective investment scheme* seeking recognition under section 264 of the *Act*.
- (5) CIS 16.1.9G applies to the operator of a *collective investment scheme* seeking recognition under section 270 of the *Act*.
- (6) CIS 16.1.10G applies to the operator of a *collective investment scheme* applying for recognition under section 272 of the *Act*.
- (7) CIS 16.1.11G applies to the ICVC itself, when changes to the *scheme* are proposed.
- (8) CIS 16.1.12G applies to the *manager* and *trustee* of an AUT, when changes to the *scheme* are proposed.
- (9) CIS 16.2.1G to CIS 16.2.4G apply to the *depository*, or proposed *depository*, of an ICVC, to the ICVC, or proposed ICVC, and to any corporate *director*, or proposed corporate *director*, of an ICVC.
- (10) CIS 16.3.1G to CIS 16.3.2G apply to the *trustee*, or proposed *trustee*, and to the *manager*, or proposed *manager*, of an AUT.

- (11) CIS 16.4.1R applies to the *directors* of an ICVC.
- (12) CIS 16.5 applies to the *managers* of an AUT which is a UCITS scheme

Purpose

16.1.2 G_{/1} This chapter helps in achieving the *regulatory objective* of protecting consumers by ensuring that only regulated *schemes*, vetted and approved in accordance with the relevant law and *rules*, can be promoted to the general public. *Guidance* is provided on the various application and notification procedures for *regulated collective investment schemes* as set out in the *Act* and the *OEIC regulations*.

Contacting the collective investment schemes and product regulation department

16.1.3 G_{/1} The Product Assessment Team in the Collective Investment Schemes and Product Regulation Department may be contacted:

- (1) by telephoning on 020 7676 4540; or
- (2) by writing to : The Collective Investment Schemes and Product Regulation Department, The Financial Services Authority, 25 The North Colonnade, Canary Wharf, London E14 5HS; or
- (3) by e-mailing the FSA at productassessment@fsa.gov.uk

Application for authorisation of an ICVC

16.1.4 G_{/1} (1) Regulation 12 of the *OEIC regulations* provides that any application for an *authorisation order* in respect of an ICVC must:

- (a) be made in such manner as the FSA directs;
- (b) include relevant details of all proposed *directors* of the ICVC (in accordance with regulation 13 of the *OEIC regulations*);
- (c) include details of the proposed *depository*; and
- (d) contain or be accompanied by such other information as the FSA reasonably requires.

16.1.5 G_{/1} (1) Application forms and a separate *guidance* note, containing help on how to complete the form and describing the documents the FSA requires as part of the application, are available free of charge from the Collective Investment Schemes and Product Regulation Department of the FSA. An application fee will also be required.

(2) Under regulation 14 of the *OEIC regulations*, an application for a new ICVC must be determined by the FSA within six months of receipt. But within this statutory time frame, the FSA has set a higher service level standard. Except in exceptional circumstances, applicants can expect applications under regulation

12 to be resolved within six weeks of receipt by the *FSA* of all the relevant material.

Application for authorisation of a unit trust scheme

16.1.6

G
/1

- (1) Section 242 of the *Act* provides that any application for an *authorisation order* in respect of an *AUT* must:
- (a) be made by the *manager* and *trustee* or the proposed *manager* and *trustee* of the *AUT*;
 - (b) be made in such manner as the *FSA* directs; and
 - (c) contain or be accompanied by such information as the *FSA* reasonably requires.

16.1.7

G
/1

- (1) As with *ICVCs*, application forms and a *guidance* note on how to apply are available free of charge from the *FSA*.
- (2) Under section 244 of the *Act*, an application should be determined by the *FSA* within six months of receipt. As with *ICVC* applications, the *FSA* has set itself a higher service level standard. Except in exceptional circumstances, applicants can expect applications under section 242 to be resolved within six weeks of receipt of all relevant application material.

Notification in respect of a scheme constituted in another EEA State

16.1.8

G
/1

- (1) Section 264 of the *Act* provides that a *scheme* which is constituted in another *EEA State* as a *scheme* meeting the requirements of the *UCITS directive* will become a *recognised scheme* two months after the operator notifies the *FSA* of its intention to market the *scheme* in the *United Kingdom*.
- (2) The notification is required to include certain information, details of which are set out in *CIS* 17.2. As with the applications described above, a notification form and *guidance* note are available free from the *FSA*.
- (3) Recognition is automatic, unless, within the two month period, the *FSA* notifies the operator that the manner in which it intends to market the *scheme* in the *United Kingdom* does not comply with *United Kingdom* law. However, the *Act* does not give the *FSA* any leeway to shorten the two month waiting period following notification before the *scheme* becomes recognised. Marketing activity in the *United Kingdom* can commence only once the *scheme* is recognised.

Notification in respect of a scheme constituted in a designated country or territory

16.1.9

G
/1

- (1) Section 270 of the *Act* provides that a *scheme* authorised in another country or territory which has been designated by an order made by the Treasury can become a *recognised scheme*, subject to certain specified conditions. The *scheme* is required to be of a class specified in the designation order and the notification must include certain information, details of which are set out in

CIS 17.3. As with *EEA schemes*, a notification form and *guidance* note are available free from the *FSA*.

- (2) The *scheme* becomes recognised either when the *FSA* gives its written approval, or, in the absence of a notice from the *FSA* objecting to recognition, two months after notification by the operator. In practice, the *FSA* will normally contact the operator with its decision within the two month period.

Application in respect of other overseas collective investment schemes

16.1.10

G

/1

- (1) Section 272 of the *Act* provides that the operator of any other overseas *collective investment scheme* may apply for recognition, as long as certain criteria are met. These criteria are:
- (a) that the *scheme* is managed in a country or territory outside the *United Kingdom*;
 - (b) that it does not satisfy the criteria to be recognised under section 264 of the *Act* (Schemes constituted in another EEA State);
 - (c) that it does not satisfy the criteria to be recognised under section 270 of the *Act* (Schemes authorised in a designated countries or territories);
 - (d) that adequate protection is afforded to *participants* in the *scheme*;
 - (e) that there are adequate arrangements for the constitution and management of the *scheme*; and
 - (f) that the powers and duties of the operator and, where there is one, the *trustee* or *depository*, are adequate.
- (2) The notification is required to include certain information, details of which are set out in CIS 17.3. Application forms and a *guidance* note are available free from the *FSA*.
- (3) Under section 275 of the *Act*, the *FSA* is required to determine an application under section 272 within a period of six months from receipt of the completed application. Because of the wide variety of potential applications under this section of the *Act*, the *FSA* does not set a higher service level standard for completion of the application review.
- (4) Under section 277 of the *Act*, the operator of a *scheme* which has been recognised under section 272 must give written notice to the *FSA* of any proposal to alter the *scheme*. Any proposal to replace the operator, *trustee* or *depository* should be notified to the *FSA* by either the operator, *trustee* or *depository*, or by its proposed replacement. As with proposed changes to *AUTs* and *ICVCs*, the *FSA* has one month to consider the proposal. If it does not respond within that time, the proposal automatically becomes effective. In practice, the *FSA* will always aim to respond within the one month period.

Notification of proposed changes to ICVCs

16.1.11

G

/1

- (1) Regulation 21 of the *OEIC regulations* provides that the *ICVC* must give written notice to the *FSA* of certain proposed changes to the *ICVC* (in practice

the *FSA* would expect to receive any notification from the *ACD*). Any proposal involving a change to the *instrument of incorporation* must be accompanied by a signed solicitor's certificate.

- (2) The *FSA* has one month to consider such proposals. In practice, the *FSA* will always aim to respond within the one month period.

Notification of proposed changes to AUTs

16.1.12

G
/1

- (1) Section 251 of the *Act* provides that the *manager* of an *AUT* must give written notice to the *FSA* of any proposal to alter the *scheme* or replace the *trustee*. The *FSA* takes the view that only significant alterations need to be notified, but any alteration involving a change to the *trust deed* is considered significant. Alterations involving a change to the deed must be accompanied by a certificate signed by a solicitor, stating that the change will not affect the compliance of the deed with the *rules* in this sourcebook. Under the same section, the *trustee* of an *AUT* must give written notice of any proposal to replace the *manager*.
- (2) The *FSA* has one month in which to consider the proposal. If it does not respond to the *manager* or *trustee* within that time, the proposal becomes effective. In practice, the *FSA* will always aim to respond within the one month period.

Revocation of authorisation or recognition

16.1.13

G
/1

Revocation of authorisation or recognition is dealt with in separate chapters of this sourcebook. Revocation of authorisation of *AUTs* and voluntary winding up of *ICVCs* are dealt with in *CIS 14* (Termination). Cessation of recognition is dealt with in *CIS 17* (Recognised schemes).

Warning notices

16.1.14

G
/1

- (1) If the *FSA* proposes to refuse any application or object to a notification described in any of paragraphs *CIS 16.1.4G* to *16.1.7G* and *CIS 16.1.9G* to *CIS 16.1.12G*, it must give a *warning notice*. Where the *FSA* proposes to object to a notification under Section 264 of the *Act* (Schemes constituted in other EEA States); the *FSA's* notice will be similar to a *warning notice*.
- (2) The *Act* provides that the *warning notice* must contain, amongst other matters, the *FSA's* reasons for proposing to refuse an application or object to a notification.
- (3) Following receipt of the *warning notice*, the applicant will be given a specified period of not less than 28 *days* to make representations to the *FSA*.
- (4) Further information on the procedure can be found in *DEC 2.2* (Warning notice procedure).

Decision notices

16.1.15

G
/1

- (1) In certain circumstances, after having considered any written and oral representations made by the applicant, the *FSA* may decide to refuse the application or notification. If this happens, the *FSA* is required to give a *decision notice*.
- (2) The *Act* provides that the *decision notice* must contain, amongst other matters, the *FSA*'s reasons for its decision and the procedures for making a reference to the *Financial Services and Markets Tribunal*.
- (3) Further information on the procedure can be found in *DEC 2.3* (Decision notice procedure)

16.2 Independence of depositaries of ICVCs

Introduction

16.2.1

G
/1

- (1) Regulation 15(8)(f) of the *OEIC regulations* provides that the *depositary* of an *ICVC* must be independent of the *ICVC* and of the *persons* appointed as *directors*.
- (2) References in this section (*CIS 16.2G*) to a *depositary* or to a corporate *director* include any *associate* of the *depositary* or corporate *director*.

Independence: depositary, ICVC and corporate director of an ICVC

16.2.2

G
/1

- (1) In addition to the *ACD*, there is the possibility of other *directors* of the *ICVC* being corporations.
- (2) There are at least three possible kinds of link between a *depositary* and an *ICVC*, or a corporate *director* of an *ICVC*:
 - (a) *directors* in common;
 - (b) cross-shareholdings;
 - (c) a contractual commitment.
- (3) If any of these links exists between a *depositary* and an *ICVC* or any corporate *director* of the *ICVC*, the *FSA* will expect the following tests to be satisfied before it could accept that independence is established.
- (4) Influence by *directors*: independence would be lost if by means of executive power either the *depositary* could control the action of the *ICVC* or any corporate *director* of it, or the *ICVC* and its *directors* or both could control the actions of the *depositary*.
- (5) Nor should there be any means by which one board could obtain effective, as opposed to legal, control of the other. The *FSA* would not approve any arrangement, such as quorum provisions or reservation of decision-making capacity to certain *directors*, which could result (even in exceptional circumstances) in loss of effective independence of one company's board from the other.
- (6) Influence by shareholding: independence would be lost if either the *depositary* or the *ICVC* could control the actions of the other by means of shareholders' votes, or the *depositary* or a corporate *director* of the *ICVC* could control the

actions of the other by means of shareholders' votes. Accordingly, there should not at any time be any shareholding in the *depositary* by the *ICVC* and its *directors* and their respective *associates* (taken together) which exceeds 15% of the *depositary's* share capital carrying voting rights whether or not that share capital comprises a single class or several classes of shares. Furthermore there should not be any such shareholding by a *depositary* and its *associates* in the *ICVC* or any of the *directors* of the *ICVC*.

Independence: depositary and individual directors of an ICVC

16.2.3

G

/1

The *FSA* will not consider a *depositary* to be independent of any individual who is a *director* of an *ICVC* in any of the following circumstances:

- (1) the *ICVC director* or any *associate* of the *director* is a *director* and an employee or both of the *depositary*; or
- (2) the *ICVC director* has a direct or indirect shareholding in the *depositary* which might give rise to a potential conflict of interest for the *director*, for this purpose a holding by the *director*, for investment purposes, of shares in the *depositary* that are listed and carry less than 0.5 per cent of the votes at a general meeting or a meeting of the *holders* of the class of shares concerned will not be considered to give rise to a potential conflict of interests; or
- (3) the *ICVC director* has any other relationship (contractual or otherwise) with the *depositary* which might reasonably be expected to give rise to a potential conflict of interest for the *director*.

Other matters affecting independence

16.2.4

G

/1

- (1) Independence and polarisation: the *FSA* considers that independence will need to be specifically appraised in the event of a proposal by the *depositary* to become an *appointed representative* of the *ICVC* or any corporate *director* of it, or for a *director* to become an *appointed representative* of the *depositary*.
- (2) If such a relationship should be contemplated, then arrangements may need to be put into place to satisfy the *FSA* that the necessary independence is preserved. The *FSA* would therefore expect to be consulted in advance about any such proposal.
- (3) Other commitments: the *FSA* expects to be consulted in advance about its view on the consequences for independence of any other intended commitment or relationship which could affect independence, whether directly or indirectly.

16.3 Independence of Trustees and Managers of AUTs

Introduction

16.3.1

G
/1

Section 243(4) of the *Act* states that “The *manager* and the *trustee* must be *persons* who are independent of each other.” As *managers* and *trustees* may have or develop corporate links, the *FSA* has given its view of the criteria against which independence, in the sense of this section of the *Act*, should be tested.

Independence: trustee, manager

16.3.2

G
/1

- (1) There are at least three possible kinds of link between *managers* and *trustees*:
 - (a) *directors* in common between the *manager* and the *trustee*;
 - (b) cross-shareholdings;
 - (c) a contractual commitment.
- (2) If any of these links exist between a *manager* and a *trustee*, the *FSA* expects the following tests to be satisfied in order to ensure that independence is maintained.
- (3) Influence by *directors*: independence would be lost if either company can control the action of the other by means of executive power. Accordingly, there should not be a majority of *directors* on the board of the *trustee* who simultaneously hold directorships on the board of the *manager*, or vice versa.
- (4) Nor should there be any means by which one board could obtain effective, as opposed to legal, control of the other. So, for example, the *FSA* would not approve any arrangement, whether by means of quorum or of reservation of decision-making capacity to certain *directors* which could result (even in exceptional circumstances) in loss of effective independence of one company’s board of the other.
- (5) In determining whether common directorships were curtailing independence, the *FSA* would interpret the concept of “common *director*” to include any *directors* of *associates* of the *trustee* who are simultaneously *directors* of the *manager*, and any *directors* of *associates* of the *manager* who are simultaneously *directors* of the *trustee*.
- (6) Influence by shareholding: independence would be lost if either company can control the actions of the other by means of shareholders’ votes. Accordingly,

there should not be any shareholding in the *trustee* by the *manager* (or vice versa) which exceeds 15% of the other's share capital carrying voting rights – whether or not that share capital comprises a single or several classes of shares, however described. The *FSA* would be willing, however, to look at cases where cross-shareholding exceeds 15% on a case by case basis to see whether there were exceptional grounds for concluding that independence is nevertheless safeguarded by other means.

- (7) In determining whether the 15% test was met, any shareholding held by an *associate* of the *manager* in the *trustee*, or by an *associate* of the *trustee* in the *manager*, would in each case be aggregated with shareholdings held directly by the *manager* or the *trustee* in the other.
- (8) Independence and polarisation: The *FSA* considers that independence will need to be specifically appraised in the event of a proposal by the *trustee* or *manager* (or any of either's *associates*) to become an *appointed representative* of the other. The status of a "tied agent" will mean that the *trustee* of an *AUT* is prohibited by contract from procuring or endeavouring to procure *persons* to enter into *investment agreements* (or certain kinds of *investment agreements* including those relating to *AUTs*) with *persons* other than the *manager*.
- (9) If such a tied relationship should be contemplated, then arrangements may need to be put into place to satisfy the *FSA* that the necessary independence is preserved. The *FSA* would therefore expect to be consulted in advance about any such proposal.
- (10) Other commitments: the *FSA* also expects to be consulted in advance about its view on the consequences for independence of any other intended commitment or relationship which could affect independence, whether directly or indirectly.

16.4 Notification to the FSA in its role as registrar of ICVCs

16.4.1

R
/1

An ICVC shall not later than 14 *days* after the occurrence of the change in question notify the FSA of:

- (1) any amendment to the *instrument of incorporation* of the ICVC;
- (2) any change in the address of the head office of the ICVC;
- (3) any change in the *directors* of the ICVC;
- (4) any change in the *depository* of the ICVC;
- (5) in respect of any *director* or *depository*, any change in the information mentioned in regulation 12(1)(b) or (c) of the *OEIC regulations* (Applications for authorisation);
- (6) any change in the auditor of the ICVC;
- (7) any order in respect of the ICVC made by virtue of regulation 70 of the *OEIC regulations* (Mergers and Divisions).

16.5 Managers of UCITS schemes

16.5.1

R

/1

A *firm* which is the *manger* of an *AUT* which is a *UCITS scheme* must not engage in any activities other than:

- (1) acting as *manager* of:
 - (a) a unit trust; or
 - (b) an *open-ended investment company* or any other body corporate whose business consists of investing its funds with the aim of spreading investment risk and giving its members the benefit of the results of the management of its funds by or on behalf of that body; or
 - (c) any other *collective investment scheme* under which the contribution of the *participants* and the profits or income out of which payments are to be made to them are pooled; or
- (2) acting as the *director* of an *ICVC*; or
- (3) activities for the purposes of or in connection with those in (1) or (2) above.

16.5.2

G

/1

Examples of the connected activities referred to in AUTH 3.20.3R(3) include management of *PEPs*, *ISAs* and stakeholder pensions, as long as they are dedicated to investments in unit trusts and *OEICS* for which the *firm* acts as *manager* or *ACD*.

Chapter 17

Recognised schemes

17.1 Application and purpose

Application

17.1.1

R

/1

- (1) The *rules* and *guidance* in this chapter apply in relation to *recognised schemes* and overseas *collective investment schemes* seeking recognition in the *United Kingdom*.
- (2) CIS 17.1, CIS 17.2, CIS 17.4 (excluding CIS 17.4.9G) apply to the operators of *schemes* recognised or seeking recognition under section 264 of the *Act* (Schemes constituted in other EEA States).
- (3) CIS 17.1, CIS 17.2, CIS 17.3 (excluding CIS 17.3.3R and CIS 17.3.6R) and CIS 17.4 (excluding CIS 17.4.8G) apply to the operators of *schemes* recognised or seeking recognition under section 270 of the *Act* (Schemes authorised in designated countries or territories).
- (4) CIS 17.1, CIS 17.2, CIS 17.3 (excluding CIS 17.3.5G) and CIS 17.4 (excluding CIS 17.4.8G) apply to the operators of *schemes* recognised or seeking recognition under section 272 of the *Act* (Individually recognised overseas schemes).

Purpose

17.1.2

G

/1

- (1) This chapter enables operators of *schemes* established overseas to know what information and documents the *FSA* wish to review so as to enable it to consider whether to recognise their *schemes*, under the *Act*, for *marketing* in the *United Kingdom*. This information will enable the *FSA* to make an informed decision whether or not *schemes* established overseas should be recognised under the *Act*.
- (2) This chapter sets out responsibility for the preparation and maintenance of a *prospectus* (in the case of *schemes* recognised under section 270 and section 272) and requirements relating to it.
- (3) In addition, this chapter sets out the *rules* for operators of *recognised schemes* to maintain certain facilities in the *United Kingdom* under section 283 of the *Act*. It also provides *guidance* on revocation of recognition in relation to *recognised schemes*.

17.2 Information and documents which should be supplied with a notification under section 264 of the Act

17.2.1

G

^{/1}

- (1) If the operator of a *scheme* constituted in a *EEA State* gives notice to the *FSA* under section 264 of the *Act*, as described in that notice is required to contain or be accompanied by certain information as described in *CIS* 17.2.1G(2) to (4) (see the [Financial Services Markets Act 2000 (Recognised Schemes) Regulations 2001 (SI 2001/xx)]).
- (2) The documents must be in English, or accompanied by a translation in English.
- (3) The documents must be certified by the operator to be true copies of the original.
- (4) The following information and documentation must be provided:
 - (a) name of *scheme*;
 - (b) legal form of *scheme*;
 - (c) name and address of operator;
 - (d) the address of the place in the *United Kingdom* for the service on the operator of notices or other documents;
 - (e) the name and address of any supervisory authority or authorities to which the operator is subject in the *EEA State* in which it is established;
 - (f) whether the operator intends to market the *scheme* in the *United Kingdom* in a manner which will involve it carrying on a *regulated activity* in the *United Kingdom*;
 - (g) name and address of *depository*;
 - (h) the address in the *United Kingdom* where the *scheme* facilities (see *CIS* 17.4) will be maintained;
 - (i) details of the arrangements for the *marketing* of *units* in the *United Kingdom*, namely:
 - (i) the proposed commencement date;
 - (ii) whether the *units* or *shares* will be sold by or through: any employed *sales force*; *authorised persons*; or *unsolicited calls*;

- (j) any order or certificate from the authorities of the *EEA State* in which the *scheme* is authorised which demonstrates that the *scheme* complies with the *UCITS directive*;
- (k) a copy of the *instrument constituting the scheme*;
- (l) a copy of the *prospectus* of the *scheme*; and
- (m) a copy of the latest annual report and any subsequent half-yearly report.

Subsequent notification in respect of schemes recognised under section 264 of the Act.

17.2.2

G
/1

Whenever a change occurs in the information supplied or in a document supplied under CIS 17.2.1, the FSA wishes to be notified of these changes.

17.3 Notification to the FSA under section 270 and applications under section 272

Information and documents to be supplied with notifications under sections 270 (designated territories) and applications under section 272 (individually recognised overseas schemes) of the Act

17.3.1

/1

- (1) If the operator of a *scheme* gives notice to the *FSA* under section 270 or makes an application under section 272 of the *Act*, the notice or application must contain (or be accompanied by) the information in *CIS* 17.3.1D(2) to (4).
- (2) The documents must be in English or accompanied by a translation in English.
- (3) The documents must be certified by the operator to be true copies of the original.
- (4) The following list is the information and documentation which is referred to in *CIS* 17.3.1D(1) and which must be provided with a notification under section 270 or application under section 272 of the *Act*.
 - (a) name of *scheme*;
 - (b) legal form of *scheme*;
 - (c) name and address of the operator;
 - (d) the address of the place in the *United Kingdom* for service on the operator of notices or other documents;
 - (e) whether the operator intends to market the *scheme* in the *United Kingdom* in a manner which will involve it carrying on a *regulated activity* in the *United Kingdom*;
 - (f) name and address of any *person* to whom the property subject to the *scheme* is entrusted for safekeeping;
 - (g) the address of the place in the *United Kingdom* where *scheme* facilities (see *CIS* 17.4) will be maintained;
 - (h) details of the arrangements for the *marketing* of *units* in the *United Kingdom*, namely:
 - (i) the proposed commencement date;

- (ii) whether the *units* or *shares* will be sold by or through: any employed sales force (including any *appointed representative*); *persons* authorised under the *Act*; or unsolicited calls;
- (i) a copy of the *instrument constituting the scheme*;
- (j) a copy of the *prospectus* or any similar document giving details of the *scheme*;
- (k) a copy of the latest annual report and any subsequent half-yearly report;
- (l) a copy of any other document affecting the rights of *participants* in the *scheme*; and
- (m) for notifications under section 270 only, a copy of the authorisation document issued by the authority in the designated territory confirming that the *scheme* is of a class covered by the designation order.

Subsequent notification in respect of schemes recognised under sections 270 and 272 of the Act

17.3.2

G
/1

Wherever a change occurs in the information supplied or in a document supplied under CIS 17.3.1, the FSA wishes to be notified of these changes.

Additional information required in the prospectus for notifications under section 272

17.3.3

R
/1

(1) The *prospectus* must contain the following statement:

“Complaints about the operation of the *scheme* may be made to the FSA.”

(2) The *prospectus* must state whether or not investors in the *scheme* would be covered by the *Compensation Scheme*. If investors in the *scheme* are covered by the *Compensation Scheme* the *prospectus* must state how they are covered and who they would need to contact for further information.

Preparation and maintenance of prospectus

17.3.4

R
/1

(1) An operator of a *scheme* which is a *recognised scheme* by virtue of section 270 or 272 of the *Act* must comply, subject to paragraph (2) below, with the requirements set out in CIS 3 in respect of the preparation, publication and inspection of a *prospectus*.

(2) Where a *scheme* recognised under section 270 of the *Act* is managed and authorised in the Bailiwick of Guernsey or the Bailiwick of Jersey or the Isle of Man, the *prospectus* need not

comply with the requirements of *CIS* 3, providing it contains corresponding matter required under the law in their territory.

- (3) An operator of a *collective investment scheme* which is recognised under section 270 or 272 of the *Act* must comply with the requirements in *CIS* 3.3 (False or misleading prospectus) and *CIS* 3.4 (Revision of and changes to prospectus).

Refusal of approval: schemes recognised under section 270 of the Act

17.3.5

G
/1

The *FSA*'s power to refuse recognition and the procedures for this are set out in section 271 of the *Act* and described in *CIS* 16.1.

Refusal of approval: schemes recognised under section 272 of the Act

17.3.6

G
/1

The *FSA*'s power to refuse recognition and the procedures for this are set out in section 276 of the *Act* and described in *CIS* 16.1.

17.4 Facilities in the United Kingdom and revocation of recognition

General

- 17.4.1 **R** /1 The operator of a *recognised scheme* under section 264, section 270 and section 272 of the *Act* must maintain facilities in order to satisfy the requirements of *CIS* 17.4.2 to *CIS* 17.4.7. *CIS* 17.4.8G applies to revocation of a *recognised scheme* under section 264 of the *Act* and *CIS* 17.4.9G applies to cessation or revocation of recognition under section 279 of the *Act*.

Documents

- 17.4.2 **R** /1 (1) The operator of a *recognised scheme* must maintain facilities for inspection (free of charge) and for the obtaining (free of charge, in the case of the documents at (c) and (d), and otherwise at no more than a reasonable charge) of copies in English of:
- (a) the *instrument constituting the scheme*;
 - (b) any instrument amending the *instrument constituting the scheme*;
 - (c) the *prospectus* most recently prepared by the operator; and
 - (d) the annual and half-yearly reports relating to the *scheme* most recently prepared and published by the operator.
- (2) An operator to which paragraph (1) applies must, before conclusion of a *sale* of *units* in the *scheme* to any *person* in the *United Kingdom*, offer that *person* free of charge a copy of the documents mentioned at paragraphs (1)(c) and (d).

Price and redemption

- 17.4.3 **R** /1 (1) The operator must, subject to (2), maintain facilities:

- (a) where information in English can be obtained about the operator's most recently published *sale and purchase prices* of *units* in the *scheme*;
 - (b) where a *participant* in the *scheme* may redeem *units* in the *scheme* and from which payment of the *price on redemption* may be obtained.
- (2) Paragraph (1) does not apply if the operator having taken reasonable care determines that *participants* in the *scheme* are able to *sell* their *units* on an *investment* exchange at a *price* related to the net asset value of the property to which the *units* relate or at a *price* not significantly different from such a *price*: in that case it must maintain facilities for informing *participants* of the *investment* exchange concerned (and of its members or of how a list of its members can be obtained).

Bearer certificates and characteristics of units in the scheme

17.4.4

R

/1

- (1) The operator must maintain facilities at which the *holder* of a *bearer certificate* may obtain free of charge:
- (a) payment of dividends due to him;
 - (b) copies in English of the most recent annual and half-yearly reports of the *scheme*; and
 - (c) details or copies of any notices which have been given or sent to *participants* in the *scheme*.
- (2) The operator must state the nature of the right represented by the *units* in the *scheme*.
- (3) The operator must state whether *persons* other than *holders* can vote at meetings of *holders* and who those *persons* are.

Complaints

17.4.5

R

/1

The operator must maintain facilities at which any *person* who has a complaint to make about the operation of the *scheme* can submit his complaint for transmission to the operator.

Place of facilities

17.4.6

R

/1

- (1) Each of the facilities referred to in *CIS* 17.4 must be maintained at an address in the *United Kingdom*.

- (2) That address must be stated in the *prospectus*.
- (3) That address must be the address of the operator's principal place of business in the *United Kingdom*, or, if there is no such address, the alternative address in paragraph (4).
- (4) The alternative address is such convenient address as the operator determines, except that, in the case of a *scheme* recognised under section 272 of the *Act* where the operator is not an *authorised person*, the alternative address is to be the principal place of business in the *United Kingdom* of the *authorised person* who is the representative of the operator under section 272 of the *Act*.

Service of notice and other documents

17.4.7

R

/1

In relation to notices and documents sent by operators and *depositories* to and from the *United Kingdom*, CIS 11.6 (Service of notices and other documents) applies.

Revocation of recognition: schemes recognised under section 264 of the Act

17.4.8

G

/1

If the operator of a *scheme* recognised under section 264 of the *Act* gives written notice to the *FSA* under section 264(6) that it desires the *scheme* to no longer be recognised, the *scheme* ceases to be recognised.

Revocation of recognition: schemes recognised under sections 270 and 272 of the Act

17.4.9

G

/1

The *FSA* may, in accordance with section 279 of the *Act*, direct that a *scheme* is to cease to be recognised under section 270 of the *Act* or revoke a recognition order under section 272 of the *Act*. For further details, see ENF 16 (Collective Investment Schemes).

Appendix 1

Appendix CIS G

1.1

Appendix

1.1.1

G

Table Correction of box management errors

/1

1 Introduction

APPLICATION

- (1) This appendix applies to *authorised fund managers* and to *depositories*.
- (2) This appendix is the appendix referred to in *CIS* 4.3.8G (Box management errors) and *CIS* 15.3.3G (Box management errors).

2 Controls by authorised fund managers and depositories

CONTROLS BY AUTHORISED FUND MANAGERS

- (1) An *authorised fund manager* needs to be able to demonstrate that it has effective controls over:
 - (a) its calculations of what *units* are owned by it (its "box"); and
 - (b) compliance with the *rules* preventing a negative box (*CIS* 4.3.9R(2), *CIS* 4.3.10R(2), *CIS* 15.3.4R(3), *CIS* 15.3.7R(3), *CIS* 4.3.12R and *CIS* 15.3.12R).
- (2) Evidence of persistent or repetitive errors in relation to these matters, and in particular any evidence of a pattern of errors working in an *authorised fund manager's* favour, will make demonstrating effective controls more difficult.

CONTROLS BY DEPOSITARIES

- (3) A *depository* has a duty under *CIS* 7.4.1R (General duties of the depository) and *CIS* 7.9.1R (Oversight by the trustee of the manager) to ensure (for an *AUT*) that the *manager* of an *AUT* is operating the *AUT* in accordance with the *rules* in this sourcebook, including *CIS* 4 or *CIS* 15, and to ensure (for an *ICVC*) that the *ICVC* is managed in accordance with *CIS* 4.
- (4) A *depository* should therefore make a regular assessment of the *authorised fund manager's* box management procedures (including supporting systems) and controls. This should include reviewing the *authorised fund manager's* controls and procedures when the *depository* assumes office, on any significant change and on a regular basis, to ensure that a series of minor changes do not have a significant effect on the accuracy of the controls and procedures.

3 Recording and reporting of box management errors

- (1) An *authorised fund manager* should record all errors which are made in the calculation of an *authorised fund manager's* box which result in a breach of:
- (a) *CIS* 4.3.9R(2) (Issue of units to meet authorised fund manager's obligation to sell);
 - (b) *CIS* 4.3.10R(2) (Cancellation and payment for cancelled units);
 - (c) *CIS* 15.3.4R(3) (Issue of units: manager's instructions); and
 - (d) application
- and as soon as an error is discovered, the *authorised fund manager* should report the fact to the *depository*, together with details of the action taken, or to be taken, to avoid repetition of the error.
- (2) The *authorised fund manager* should also report to the *depository* immediately any box management errors that do not result in a breach, but would be material under (3).
- (3) A *depository* should report material box management errors to the *FSA* immediately. Materiality should be determined by taking into account a number of factors including:
- (a) the existence of sufficient controls put into place by the *authorised fund manager*;
 - (b) the significance of any breakdown in management controls or other checking procedures;
 - (c) the significance of any failure of systems. This may include situations where inadequate back-up arrangements exist;
 - (d) the duration of an error; and
 - (e) the level of compensation due to *holders*, and an *authorised fund manager's* ability (or otherwise) to meet claims for compensation in full.
- (4) A *depository* should also make a return to the *FSA* (in the manner prescribed by SUP 16.6.13R) on a quarterly basis summarising, by *authorised fund manager* amongst other things, the number of box management errors during a particular period where a *depository* does not consider the breach to have been an isolated error, whether or not the error results in a negative box.

4 Correction of box management errors where no compensation is required

- (1) Correction of errors in calculating an *authorised fund manager's* box, may only be made, without an obligation to compensate *holders*, when:
- (a) the error is an isolated error, and is unlikely to recur;
 - (b) the *authorised fund manager* can demonstrate that it has effective controls in place over box management, including all the areas which affect the figures which are included in the box management calculations; and
 - (c) the requirements of *CIS* 4.3.12R (Modification to number of units issued or cancelled) for *single-priced AUTs* and *ICVCs*, or *CIS* 15.3.12R (Modification to number of units issued or cancelled) for *dual-priced AUTs*, are complied with.
- (2) In addition, no compensation is required if an error resulted in a larger positive box, because this would not have caused a breach of the *rules*.

5 Correction of box management errors where compensation to the authorised fund may be required

Paragraph 4(1) may not apply (for example, because there have been persistent errors, or an individual error has been discovered too late, or the *depository* is not satisfied about the effectiveness of the *authorised fund manager's* systems). In these circumstances, not only should all errors be corrected as soon as possible, but compensation is required to the extent that (a) to (e):

(A) ERROR RESULTS FROM AN UNDER-ISSUE

Where a negative box results from an under-*issue* of units – units sufficient to correct the negative box must immediately be issued, unless this requirement has already been satisfied by subsequent *issues* or by *redemptions* subsequent to the under-*issue*. If the *price* (or, for a *dual-priced AUT*, the *issue price*) has risen, no compensation is required. If the *price* (or, for a *dual-priced AUT*, the *issue price*) has fallen, the *authorised fund manager* must compensate the *authorised fund* for the difference in *price* (or, for a *dual-priced AUT*, the *issue price*) between the *valuation point* at which the *issue* should have been made and the *valuation point* when the under-issued position was extinguished.

(B) ERROR RESULTS FROM AN OVER-CANCELLATION AND THE PRICE OR (FOR A DUAL-PRICED AUT THE CANCELLATION PRICE) HAS RISEN

Where an error results from an over-cancellation, and the *price* (or, for a *dual-priced AUT*, the *cancellation price*) has risen, the error will be automatically corrected with no further penalty, since, when the error is discovered, an *authorised fund manager* must either undertake an *issue* of *units*, or cancel a lower number of *units*, or cover the error by redemptions, all at a higher *price* (or, for a *dual-priced AUT*, the *cancellation price*).

(C) ERROR RESULTS FROM AN OVER-CANCELLATION AND THE PRICE OR (FOR A DUAL-PRICED AUT CANCELLATION PRICE) HAS FALLEN

Where the *price* (or, for a *dual-priced AUT*, the *cancellation price*) has fallen, an *authorised fund manager* is required to rectify the breach immediately by arranging an *issue* of *units*, if it has not already been rectified by a subsequent *issue*, or *covered* by subsequent *redemptions*. An *authorised fund manager* should compensate the *authorised fund* for the difference between the *price* (or, for a *dual-priced AUT*, the *cancellation price*) when the over-cancellation was made and the *price* (or, for a *dual-priced AUT*, the *cancellation price*) when it was rectified, irrespective of whether corrected by *issue*, lower subsequent *cancellation*, or *redemptions*.

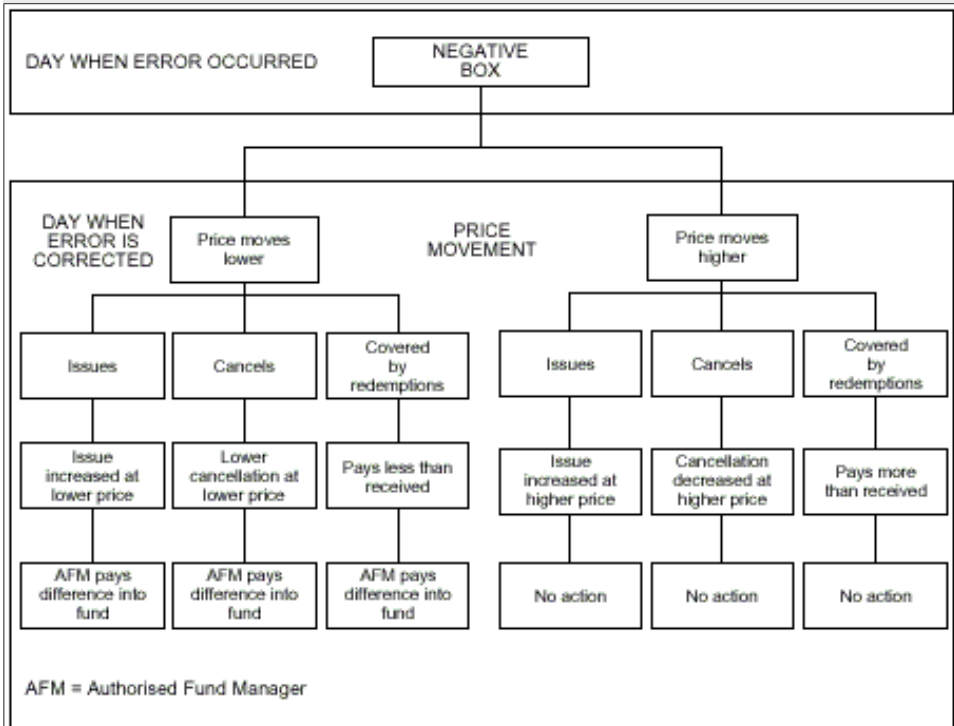

(D) DIAGRAM

Diagram1G sets out the action required under (b) when the *price* (or, in the case of a *dual-priced AUT*, *cancellation price*) has moved higher and under (c) when the *price* (or, in the case of a *dual-priced AUT*, *cancellation price*) has moved lower.

(E) DE MINIMIS PROVISION FOR LATE ISSUE SETTLEMENT OF AUTs

Where interest due on an isolated instance of a late *issue settlement* amounts to a figure which is lower than £25, this may be waived if, in the *depository's* opinion, there will be no material effect on the *authorised fund*, and the *depository* is satisfied with the *authorised fund manager's* system of controls.

Handbook Modules

Schedule3G CIS Sourcebook - Fees and other required payments

- 1 There are no specific requirements for fees or other payments in CIS.

Handbook Modules

Schedule4G CIS Sourcebook - Powers exercised

- 1 The following powers and related provisions in or under the Act have been exercised by the FSA to make the rules in CIS:
- 2 Section 138 (General rule-making power)
- 3 Section 140 (Restriction on managers of authorised unit trust schemes)
- 4 Section 156 (General supplementary powers)
- 5 Section 247 (Trust scheme rules)
- 6 Section 248 (Scheme particulars rules)
- 7 Section 278 (Rules as to scheme particulars)
- 8 Section 283 (Facilities and information in UK)
- 9 Section 340 (Appointment)
- 10 Regulation 6 (FSA rules) of the OEIC regulations
- 11 The following powers in the Act have been exercised by the FSA to give the guidance in CIS
- 12 Section 157(1) (Guidance)
- 13 The following powers in the Act have been exercised by the FSA in CIS to specify and direct:
- 14 Section 270(6)(b)
- 15 Section 274(2),(4) and (5)

Handbook Modules

Schedule5G CIS Sourcebook - Rights of action for damages

- 1 The table below sets out the rules in CIS contravention of which by an authorised person may be actionable under section 150 of the Act (Actions for damages) by a person who suffers loss as a result of the contravention.
- 2 If a "Yes" appears in the column headed "For private person?", the rule may be actionable by a "private person" under section 150 unless a "Yes" appears in the column headed "Removed". A "Yes" in the column headed "Removed" indicates that the FSA has removed the right of action under section 150(2) of the Act. If so, a reference to the rule in which it is removed is also given.
- 3 In accordance with The Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001/xxx), a "private person" is:
 - (1) any individual, except when acting in the course of carrying on a regulated activity; and
 - (2) any person who is not an individual, except when acting in the course of carrying on business of any kind;
- 4 but does not include a government, a local authority or an international organisation.
- 5 The column headed "For other person?" indicates whether the rule is actionable by a person other than a private person, in accordance with those Regulations. If so, an indication of the type of person by whom the rule is actionable is given.
- 6 **Table Actions for damages: the Collective Investment Schemes Sourcebook**

Chapter/ Appendix	Section/ Annex	Paragraph	Right of action under section 150				
			For private person?		For other person?		
			Yes	Removed?	No		
All rules in CIS							

Handbook Modules

Schedule6G CIS Sourcebook - Rules that can be waived

- 1 The FSA may waive any rule in CIS in relation to AUTs under section 250 of the Act (Modification or waiver of rules), except CIS 2.3.3R and CIS 16.5.1R.
- 2 The FSA may waive any rule in CIS in relation to ICVCs under section 250 of the Act (Modification or waiver of rules) , except CIS 2.3.3R.
- 3 Although the FSA has the formal power of waiver under the Act in relation to these rules, much of CIS is designed to ensure that relevant authorised funds comply with the conditions in the UCITS directive. Accordingly, it is most unlikely that in practice UCITS directive derived rules in CIS would be waived.

RECOGNISED INVESTMENT EXCHANGE AND RECOGNISED CLEARING HOUSE SOURCEBOOK INSTRUMENT 2001

- A. The Financial Services Authority makes the rules and gives the guidance in the Annex to this instrument (“REC”) in the exercise of the powers listed in Schedule 4 to REC.
- B. This instrument shall come into force as follows:
 - (1) in so far as it relates to applications to become a recognised body, at the beginning of the day on which sections 287 and 288 of the Financial Services and Markets Act 2000 (the "Act") come into force for the purpose of allowing applications to be made;
 - (2) in so far as it relates to applications for waiver or modification of any notification rule made under section 293 or section 295 of the Act, at the beginning of the day on which section 294 comes into force for the purpose of allowing applications to be made;
 - (3) for any other purpose, at the beginning of the day on which section 19 of the Act (The general prohibition) comes into force.
- C. The provisions of the Act relevant to making rules and listed in Schedule 4 to REC (Powers exercised) are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- D. This instrument may be cited as the Recognised Investment Exchange and Recognised Clearing House Sourcebook Instrument 2001.
- E. The Annex to this instrument (including its Schedules) may be cited as the Recognised Investment Exchange and Recognised Clearing House sourcebook (or REC).

By order of the Board
21 June 2001

Transitional provisions

G Introduction

1 Table

1	This schedule sets out the transitional provisions in <i>REC</i> .
2	The <i>Recognition Requirements Regulations</i> also contain transitional provisions applying to <i>recognised bodies</i> .
3	<i>GEN</i> also contains some technical transitional provisions that apply throughout the <i>Handbook</i> and which are designed to ensure a smooth transition at <i>commencement</i> . These include transitional provisions relevant to record keeping and notification requirements

	Material to which the transitional provision applies		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
1	REC 3 and REC 6	R	<p>In this schedule,</p> <p>(1) “annual report” means a report which an <i>overseas recognised body</i> has to submit to the <i>FSA</i> after <i>commencement</i> under section 295(1) of the <i>Act</i> or any similar or analogous report which an existing overseas recognised body has submitted to the Treasury before <i>commencement</i>;</p> <p>(2) “due date” means the date or time specified in the <i>Financial Services (Notification by Recognised Bodies) Regulations 1995</i> by which an existing UK recognised body was obliged under those regulations to fulfil the existing notification obligation to which the due date relates;</p>	<i>Commencement</i> until one year after <i>commencement</i>	<i>Commencement</i>

Material to which the transitional provision applies	Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
	<p>(3) “existing notification obligation” means any obligation arising under the Financial Services (Notification by Recognised Bodies) Regulations 1995 to give notice of the occurrence of any event or any information to the <i>FSA</i>;</p> <p>(4) “existing overseas recognised body” means an <i>overseas investment exchange</i> or an <i>overseas clearing house</i> which was a recognised investment exchange or a recognised clearing house under the Financial Services Act 1986 and which is a <i>recognised investment exchange</i> or a <i>recognised clearing house</i> under Regulation 9(3) or 9(5) of the <i>Recognition Requirements Regulations</i>;</p> <p>(5) “existing UK recognised body” means a recognised investment exchange or a recognised clearing house under the Financial Services Act 1986 which is a <i>recognised investment exchange</i> or a <i>recognised clearing house</i> under Regulation 9(2) or 9(4) of the <i>Recognition Requirements Regulations</i> and which is not an existing overseas recognised body.</p>		

	Material to which the transitional provision applies		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
2	REC 3	R	Where the due date for an existing notification obligation fell before commencement and that obligation had not been discharged by the existing UK recognised body before commencement, the existing UK recognised body must immediately fulfil that existing notification obligation.	<i>Commencement until one year after commencement</i>	<i>Commencement</i>
3	REC 3	R	Where the due date for an existing notification obligation falls on or after commencement, the existing UK recognised body must fulfil that existing notification obligation on its due date.	<i>Commencement until one year after commencement</i>	<i>Commencement</i>
4	REC 6.6.3	G	In relation to an existing overseas recognised body and in relation to its first report to the <i>FSA</i> after commencement under section 295 of the <i>Act</i> : (1) the reference to the “last report” should be interpreted as a reference to the last annual report submitted to the Treasury; and (2) the reference to a “recognition order” should be interpreted as a reference to the recognition order for that body made under section 40 of the Financial Services Act 1986.	<i>Commencement until one year after commencement</i>	<i>Commencement</i>
5	REC 6.7.5	R	In relation to an existing overseas recognised body that has not previously submitted an annual report to the Treasury, the reference to “recognition order” is to be read as a reference to the recognition order for that body made under section 40 of the Financial Services Act 1986, and the reference to “<i>FSA</i>” is to be read as a reference to the Treasury.	<i>Commencement until one year after commencement</i>	<i>Commencement</i>

Chapter 1.

INTRODUCTION

1.1 Application

- 1.1.1** **G** _{/1} The *rules* and *guidance* in this sourcebook apply to *recognised bodies* and to applicants for recognition as *recognised bodies* under Part XVIII of the *Act* (Recognised Investment Exchanges and Clearing Houses).
- 1.1.2** **G** _{/1}
- (1) *Recognised bodies* are *exempt persons* under section 285 of the *Act* (Exemption for recognised investment exchanges and clearing houses).
 - (2) *UK recognised bodies* must satisfy *recognition requirements* prescribed by the Treasury (in certain cases with the approval of the Secretary of State) in the *Recognition Requirements Regulations*. *Overseas recognised bodies* must satisfy *recognition requirements* laid down in section 292 of the *Act* (Overseas investment exchanges and overseas clearing houses).
 - (3) *Recognised bodies* must also comply with notification requirements in, and with *notification rules* made under, sections 293 (Notification requirements) and 295 (Notification: overseas investment exchanges and clearing houses) of the *Act*.
- 1.1.3** **G** _{/1}
- (1) The *recognition requirements* for *UK recognised bodies* are set out, with *guidance*, in REC 2.
 - (2) The *notification rules* for *UK recognised bodies* are set out in REC 3 together with *guidance* on those *rules*.
 - (3) *Guidance* on the FSA's approach to the supervision of *recognised bodies* is given in REC 4.
 - (4) *Guidance* for applicants (and potential applicants) for *UK recognised body* status is given in REC 5.
 - (5) The *recognition requirements*, *notification rules*, and *guidance* for *overseas recognised bodies* and *guidance* for applicants (and potential applicants) for *overseas recognised body* status are set out in REC 6.
 - (6) The *fees rules* for *recognised bodies* and applicants are set out in REC 7.

1.2 Purpose, status and statutory quotations

Purpose

1.2.1

G
/1

The purpose of the *guidance* in this sourcebook is to give information on how the FSA interprets the *recognition requirements* and other obligations on *recognised bodies* in or under the *Act*. Explanations of the purposes of the *rules* in this sourcebook are given in the chapters concerned.

Status

1.2.2

G
/1

- (1) Most of the provisions in this sourcebook are marked with a G (to indicate *guidance*) or an R (to indicate a *rule*). In addition, there are quotations from statute or statutory instruments which are not marked with any letter unless they form part of a piece of *guidance*. A discussion of the status of provisions marked with a letter, and advice on all aspects of the structure, format and use of all parts of the *Handbook* (including this sourcebook), is included in the Reader's Guide.
- (2) Where the *guidance* states that the FSA may have regard to any factor in assessing or determining whether a *recognition requirement* is satisfied, or that there is compliance with another obligation under the *Act*, it means that the FSA will take that factor into account so far as it is relevant.
- (3) In determining whether a *recognised body* satisfies the *recognition requirements* or complies with other obligations in or under the *Act*, the FSA will have regard to any relevant factor, including, but not limited to, the factors specifically discussed in the *guidance*.

Statutory quotations

1.2.3

G
/1

- (1) This sourcebook contains quotations from the *Act*, the *Recognition Requirements Regulations* and the Companies Act 1989 and, where necessary, words have been added to, or substituted for, the text of these provisions to facilitate understanding.
- (2) The additions and substitutions are enclosed in square brackets ([]). The omission of words within a quotation is indicated by three dots (...).
- (3) Any words in these quotations which have the same meaning as *Handbook* defined terms are shown in italics and their definitions may be found in the *Glossary*.

1.

- (4) As these quotations contain provisions which impose obligations, they are printed in bold type. The use of bold type is not intended to indicate that these quotations are *rules* made by the *FSA*.
- (5) None of the editorial changes made by the *FSA* in these quotations can supersede or alter the meaning of the statutory provision concerned.

Chapter 2

RECOGNITION REQUIREMENTS

2.1 Introduction

2.1.1 **G** This chapter contains the *recognition requirements* for *UK recognised bodies* and sets out *guidance* on those requirements. (The *recognition requirements* for *overseas recognised bodies* are set out in REC 6.)
/1

2.1.2 **G** These *recognition requirements* must be satisfied by applicants for *recognised body* status before recognition is granted and by all *UK recognised bodies* at all times while they are recognised. The same standards apply both on initial recognition and throughout the period *recognised body* status is held. The terms *UK RIE* or *UK RCH* in the *guidance* should be taken, therefore, to refer also to an applicant when appropriate.

2.1.3 **G** (1) The paragraphs in the Schedule to the *Recognition Requirements Regulations* are grouped in this sourcebook in sections which give *guidance* on the same subject for both *UK RIEs* and *UK RCHs*.
/1

(2) The table in REC 2.1.4G indicates in which section each of those paragraphs (and the associated *guidance*) can be found. The *recognition requirement* is reproduced at the start of the section.

2.1.4 **G** Table Location of recognition requirements and guidance
/1

Recognition Re-quirements Re-gulations	Subject	Section in REC 2
Regulation 6	Method of satisfying recognition requirements	2.2
Part I of the Schedule	UK RIE recognition requirements	
Paragraph 1	Financial resources	2.3
Paragraph 2	Suitability	2.4
Paragraph 3	Systems and controls	2.5
Paragraph 4(1)	General safeguards for investors	2.6
Paragraph 4(2)(a)	Access to facilities	2.7
Paragraph 4(2)(b)	Proper markets	2.12
Paragraph 4(2)(c)	Availability of relevant information	2.12
Paragraph 4(2)(d)	Settlement	2.8
Paragraph 4(2)(e)	Transaction recording	2.9
Paragraph 4(2)(f)	Financial crime and market abuse	2.10
Paragraph 4(2)(g)	Custody	2.11
Paragraph 4(3)	Definition of relevant information	2.12
Paragraph 5	Disclosure by issuers of securities	2.12

Paragraph 22	Discipline	2.15
Paragraph 23	Complaints	2.16
Part IV of the Schedule	UK RCH default rules in respect of market contracts	2.17

2.2 Method of satisfying the recognition requirements

2.2.1 Table Recognition Requirements Regulations, Regulation 6

/1

(1) In considering whether a [UK recognised body] or applicant satisfies *recognition requirements* applying to it under these [Recognition Requirements Regulations], the [FSA] may take into account all relevant circumstances including the constitution of the *person* concerned and its *regulatory provisions* and practices within the meaning of section 302(1) of the Act.

(2) Without prejudice to the generality of paragraph (1), a [UK recognised body] or applicant may satisfy *recognition requirements* applying to it under these [Recognition Requirements Regulations] by making arrangements for functions to be performed on its behalf by any other *person*.

(3) Where a [UK recognised body] or applicant makes arrangements of the kind mentioned in paragraph (2), the arrangements do not affect the responsibility imposed by the Act on the [UK recognised body] or applicant to satisfy *recognition requirements* applying to it under these [Recognition Requirements Regulations], but it is in addition a *recognition requirement* applying to the [UK recognised body] or applicant that the *person* who performs (or is to perform) the functions is a fit and proper *person* who is able and willing to perform them.

Relevant circumstances

2.2.2

G

/1

The FSA will usually expect :

- (1) the constitution, *regulatory provisions* and practices of the *UK recognised body* or applicant;
- (2) the nature (including complexity, diversity and risk) and scale of the *UK recognised body's* or applicant's business;
- (3) the size and nature of the market which is supported by the *UK recognised body's* or applicant's *facilities*;

- (4) the nature and status of the types of investor who use the *UK recognised body's* or applicant's *facilities* or have an interest in the market supported by the *UK recognised body's* or applicant's *facilities*; and
- (5) the nature and scale of the risks to the *regulatory objectives* associated with the matters described in (1) to (4);

to be among the relevant circumstances which it will take into account in considering whether a *UK recognised body* or applicant satisfies the *recognition requirements*.

Outsourcing

- 2.2.3** G_{/1} It is the *UK recognised body's* responsibility to demonstrate to the *FSA* that a *person* who performs a function on behalf of the *UK recognised body* is fit and proper and able and willing to perform that function. The *recognition requirement* referred to in Regulation 6(3) applies to the *UK recognised body* and not to any *person* who performs any function on its behalf. In this context, for a *person* to be “fit and proper” does not necessarily imply that he is an *authorised person*, or qualified to be so, or that the required standard is the same as that required either for *authorised persons* or *recognised bodies*.
- 2.2.4** G_{/1} If a *UK recognised body* makes arrangements for functions to be performed on its behalf by *persons* who are *authorised persons* or *recognised bodies*, this does not alter its obligations under Regulation 6.
- 2.2.5** G_{/1} If a *person* who performs a function on behalf of a *UK recognised body* is himself carrying on a *regulated activity* in the *United Kingdom*, he will, unless he is a *person* to whom the *general prohibition* does not apply, need to be either an *authorised person* or an *exempt person*. The *person* to whom a function is delegated is not covered by the *UK recognised body's* exemption.
- 2.2.6** G_{/1} In determining whether the *UK recognised body* meets the *recognition requirement* in Regulation 6(3), the *FSA* may have regard to whether that body has ensured that the *person* who performs that function on its behalf:
- (1) has sufficient resources to be able to perform the function (after allowing for any other activities);
 - (2) has adequate systems and controls to manage that function and to report on its performance to the *UK recognised body*;
 - (3) is managed by *persons* of sufficient skill, competence and integrity;
 - (4) understands the nature of the function it performs on behalf of the *UK recognised body* and its significance for the *UK recognised body's* ability to satisfy the *recognition requirements* and other obligations in or under the *Act*; and
 - (5) undertakes to perform that function in such a way as to enable the *UK recognised body* to continue to satisfy the *recognition requirements* and other obligations in or under the *Act*.
- 2.2.7** G_{/1} In determining whether a *UK recognised body* continues to satisfy the *recognition requirements* where it has made arrangements for any function to be performed on its behalf by any *person*, the *FSA* may have regard, in addition to any of the

matters described in the appropriate section of this chapter, to the arrangements made to exercise control over the performance of the function, including:

- (1) the contracts (and other relevant *documents*) between the *UK recognised body* and the *person* who performs the delegated function;
- (2) the arrangements made to monitor the performance of that function; and
- (3) the arrangements made to manage conflicts of interest and protect confidential regulatory information.

2.3 Financial resources

2.3.1

Table Schedule to the Recognition Requirements Regulations, Paragraph 1

/1

(1) The [UK RIE] must have financial resources sufficient for the proper performance of its [relevant functions] as a [UK RIE].

(2) In considering whether this requirement is satisfied, the [FSA] may (without prejudice to the generality of regulation 6(1)) take into account all the circumstances, including the [UK RIE's] connection with any person, and any activity carried on by the [UK RIE], whether or not it is an exempt activity.

2.3.2

Table Schedule to the Recognition Requirements Regulations, Paragraph 16

/1

(1) The [UK RCH] must have financial resources sufficient for the proper performance of its [relevant functions] as a [UK RCH].

(2) In considering whether this requirement is satisfied, the [FSA] may (without prejudice to the generality of regulation 6(1)) take into account all the circumstances, including the [UK RCH's] connection with any person, and any activity carried on by the [UK RCH], whether or not it is an exempt activity.

2.3.3

G

In determining whether a *UK recognised body* has financial resources sufficient for the proper performance of its *relevant functions*, the *FSA* may have regard to:

/1

- (1) the operational and other risks to which the *UK recognised body* is exposed;
- (2) if the *UK recognised body* acts as a central counterparty or otherwise guarantees the performance of transactions in *specified investments*, the counterparty and market risks to which it is exposed in that capacity;
- (3) the amount and composition of the *UK recognised body's* capital;
- (4) the amount and composition of the *UK recognised body's* liquid financial assets;
- (5) the amount and composition of the *UK recognised body's* other financial resources (such as insurance policies and guarantees, where appropriate);

- (6) the financial benefits, liabilities, risks and exposures arising from the *UK recognised body's* connection with any *person*, including but not limited to, its connection with:
- (a) any *undertaking* in the same *group* as the *UK recognised body*;
 - (b) any other *person* with a significant shareholding or stake in the *UK recognised body*;
 - (c) any other *person* with whom the *UK recognised body* has made a significant investment whether in the form of equity, debt, or by means of any guarantee or other form of commitment;
 - (d) any *person* with whom it has a significant contractual relationship.

Accounting information and standards

2.3.4

G
/1

The *FSA* will usually rely on a *UK recognised body's* published and internal *management accounts* and financial projections, provided that those accounts and projections are prepared in accordance with *UK*, *US* or international accounting standards.

Counterparty and market risks: principles

2.3.5

G
/1

In assessing whether a *UK recognised body* has sufficient financial resources in relation to counterparty and market risks, the *FSA* may have regard to:

- (1) the amount and liquidity of its financial assets and the likely availability of liquid financial resources to the *UK recognised body* during periods of major market turbulence or other periods of major stress for the *financial system*; and
- (2) the nature and scale of the *UK recognised body's* exposures to counterparty and market risks and, where relevant, the counterparties to which it is exposed.

Operational and other risks: principles

2.3.6

G
/1

In assessing whether a *UK recognised body* has sufficient financial resources in relation to operational and other risks, the *FSA* may have regard to the extent to which, after allowing for the financial resources necessary to cover counterparty and market risks, the *UK recognised body's* financial resources are sufficient and sufficiently liquid:

- (1) to enable the *UK recognised body* to continue carrying on properly the *regulated activities* that it expects to carry on; and
- (2) to ensure that it would be able to complete an orderly closure or transfer of its *exempt activities* without being prevented from doing so by insolvency or lack of available funds.

Operational and other risks: standard approach

2.3.7

G
/1

The *FSA* considers that a *UK recognised body* which (after allowing for the financial resources necessary to cover counterparty and market risks) has at any time:

- (1) liquid financial assets amounting to at least six months' operating costs; and
- (2) net capital of at least this amount;

will, at that time, have sufficient financial resources to meet the *recognition requirement* unless there are special circumstances indicating otherwise.

2.3.8

G
/1

- (1) In this standard approach, the *FSA* assumes liquid financial assets are needed to cover the costs that would be incurred during an orderly run down of the *UK recognised body's* business as such, while continuing to satisfy all the *recognition requirements* and complying with any other obligations under the *Act* (including the obligations to pay periodic fees to the *FSA* under *REC 7*).
- (2) The calculation of operating costs may exclude non-cash costs (costs that do not involve an outflow of funds) and variable costs of the *UK recognised body's exempt activities* that would not be incurred if no *exempt activities* were performed. Fixed costs should be included in the assessment of operating costs. The *FSA* would normally expect the capital equal to the amount of liquid financial assets to be in the form of equity.

Operational and other risks: alternative approaches

2.3.9

G
/1

The *FSA* recognises that *UK recognised bodies* may wish to satisfy the *recognition requirements* in different ways. The *FSA* does not prescribe any particular approach to calculating financial resources or to assessing their adequacy. It is willing to discuss with each *UK recognised body* the most appropriate way for it to meet the *recognition requirement* and each *UK recognised body* will need to be able to show the *FSA* that its financial resources are at all times sufficient to meet the *recognition requirement*.

2.4 Suitability

2.4.1 Table Schedule to the Recognition Requirements Regulations, Paragraph 2

/1

- (1) The [UK RIE] must be a fit and proper person to perform the [relevant functions] of a [UK RIE].**
- (2) In considering whether this requirement is satisfied, the [FSA] may (without prejudice to the generality of regulation 6(1)) take into account all the circumstances, including the [UK RIE's] connection with any person.**

2.4.2 Table Schedule to the Recognition Requirements Regulations, Paragraph 17

/1

- (1) The [UK RCH] must be a fit and proper person to perform the [relevant functions] of a [UK RCH].**
- (2) In considering whether this requirement is satisfied, the [FSA] may (without prejudice to the generality of regulation 6(1)) take into account all the circumstances including the [UK RCH's] connection with any person.**

2.4.3 **G** In determining whether a *UK recognised body* is a fit and proper *person*, the *FSA* may have regard to any relevant factor including, but not limited to:

/1

- (1) the commitment shown by the *UK recognised body's governing body* to satisfying the *recognition requirements* and to complying with other obligations in or under the *Act*;
- (2) its arrangements, policies and resources for fulfilling its obligations under the *Act* in relation to its activities as a *UK recognised body*;
- (3) the extent to which its constitution and organisation provide for effective governance;
- (4) the arrangements made to ensure that its *governing body* has effective oversight of the *UK recognised body's relevant functions*;
- (5) the access which its regulatory department has to the *governing body*;
- (6) the size and composition of its *governing body*, including:
 - (a) the number of members of the *governing body* who represent *members* of the *UK recognised body* or other *persons* and the types of *person* whom they represent;
 - (b) the number and responsibilities of any members of the *governing body* with executive roles within the *UK recognised body*; and

- (c) the number of independent members of the *governing body*;
- (7) the structure and organisation of its *governing body*, including any distribution of responsibilities among its members and committees;
- (8) the integrity and competence of its *governing body* and *key individuals*;
- (9) breaches of any relevant law, regulation or code of practice by the *UK recognised body* or its *key individuals*;
- (10) its arrangements for ensuring that it employs individuals who are honest and demonstrate high standards of integrity;
- (11) the effectiveness of its arrangements to control conflicts of interest (see also *REC 2.5*); and
- (12) the independence of its regulatory department from its commercial and marketing departments.

2.4.4

G

/1

In determining whether a *UK recognised body* is a fit and proper *person*, the *FSA* may have regard to its connections with:

- (1) any *undertaking* in the same *group*;
- (2) any owner or part-owner of the *UK recognised body*;
- (3) any *person* who has the right to appoint or remove members of the *governing body* or other *key individuals*;
- (4) any *person* who is able in practice to appoint or remove members of the *governing body* or other *key individuals*;
- (5) any *person* in accordance with whose instructions the *governing body* or any *key individual* is accustomed to act; and
- (6) any *key individual* in relation to the *UK recognised body*.

2.4.5

G

/1

In assessing whether its connection with any *person* could affect whether a *UK recognised body* is a fit and proper *person*, the *FSA* may have regard to:

- (1) the reputation and standing of that other *person*, including his standing with any relevant *UK* or *overseas regulator*;
- (2) breaches of any law or regulation by that other *person*;
- (3) the roles of any of the *UK recognised body's key individuals* who have a position within organisations under the control or influence of that other *person*, including their responsibilities in that organisation and the extent and type of their access to its senior management or governing body;
- (4) the extent to which the *UK recognised body* operates as a distinct entity notwithstanding its connection with that other *person*;
- (5) the extent to which the *UK recognised body's governing body* is responsible for its day-to-day management and operations;

but nothing in this paragraph should be taken to imply any restriction on the ability of a *UK recognised body* to outsource any function to any *person* in a manner consistent with Regulation 6 of the *Recognition Requirements Regulations*.

2.5 Systems and controls

2.5.1

Table Schedule to the Recognition Requirements Regulations, paragraph 3

/1

- (1) The [UK RIE] must ensure that the systems and controls used in the performance of its [relevant functions] are adequate, and appropriate for the scale and nature of its business.**
- (2) Sub-paragraph (1) applies in particular to systems and controls concerning –**
- (a) the transmission of information;**
 - (b) the assessment and management of risks to the performance of the [UK RIE's relevant functions];**
 - (c) the effecting and monitoring of transactions on the [UK RIE];**
 - (d) the operation of the arrangements mentioned in paragraph 4(2)(d) ... ; and**
 - (e) (where relevant) the safeguarding and administration of assets belonging to users of the [UK RIE's] facilities.**

2.5.2

Table Schedule to the Recognition Requirements Regulations, paragraph 18

/1

- (1) The [UK RCH] must ensure that the systems and controls used in the performance of its [relevant functions] are adequate, and appropriate for the scale and nature of its business.**
- (2) This requirement applies in particular to systems and controls concerning –**
- (a) the transmission of information;**
 - (b) the assessment and management of risks to the performance of the [UK RCH's relevant functions];**
 - (c) the operation of the arrangements mentioned in paragraph 19(2)(b) ... ; and**
 - (d) (where relevant) the safeguarding and administration of assets belonging to users of the [UK RCH's] facilities.**

2.5.3

G

/1

In assessing whether the systems and controls used by a *UK recognised body* in the performance of its *relevant functions* are adequate and appropriate for the scale and nature of its business, the *FSA* may have regard to the *UK recognised body's*:

- (1) arrangements for managing, controlling and carrying out its *relevant functions*, including:
 - (a) the distribution of duties and responsibilities among its *key individuals* and the departments of the *UK recognised body* responsible for performing its *relevant functions*;
 - (b) the staffing and resources of the departments of the *UK recognised body* responsible for performing its *relevant functions*;
 - (c) the arrangements made to enable *key individuals* to supervise the departments for which they are responsible;
 - (d) the arrangements for appointing and supervising the performance of *key individuals* (and their departments); and
 - (e) the arrangements by which the *governing body* is able to keep the allocation of responsibilities between, and the appointment, supervision and remuneration of, *key individuals* under review;
- (2) arrangements for the management of conflicts of interest;
- (3) arrangements for internal and external audit; and
- (4) information technology systems.

2.5.4

G
/1

The following paragraphs set out other matters to which the *FSA* may have regard in assessing the systems and controls used for the transmission of information, risk management, the effecting and monitoring of transactions, the operation of settlement arrangements (the matters covered in paragraphs 4(2)(d) and 19(2)(b) of the Schedule to the *Recognition Requirements Regulations*) and the safeguarding and administration of assets.

Information transmission

2.5.5

G
/1

In assessing a *UK recognised body's* systems and controls for the transmission of information, the *FSA* may also have regard to the extent to which these systems and controls ensure that information is transmitted promptly and accurately:

- (1) within the *UK recognised body* itself;
- (2) to *members*; and
- (3) (where appropriate) to other market participants or other relevant persons.

Risk management

2.5.6

G
/1

In assessing a *UK recognised body's* systems and controls for assessing and managing risk, the *FSA* may also have regard to the extent to which these systems and controls enable the *UK recognised body* to:

- (1) identify all the general, operational, legal and market risks wherever they arise in its activities;

2.5.7

G
/1

- (2) measure and control the different types of risk;
- (3) allocate responsibility for risk management to *persons* with appropriate knowledge and expertise; and
- (4) provide sufficient, reliable information to *key individuals* and, where relevant, the *governing body* of the *UK recognised body*.

Where the *UK recognised body* assumes significant counterparty risk (for example, by acting as a central counterparty), the *FSA* may also have regard to:

- (1) the position of the risk management department within the *UK recognised body*, including its access to the *governing body* and its relationship with the commercial or marketing departments of the *UK recognised body*;
- (2) the frequency with which all exposures and risks incurred by the *UK recognised body* are monitored against risk or exposure limits or other appropriate control parameters;
- (3) the frequency with which risk or exposure limits (or other control parameters) are reviewed;
- (4) the reliability of the arrangements for monitoring and assessing intra-day movements in exposures and risks;
- (5) the robustness of the arrangements for calculating, collecting and holding margin payments and the allocation of losses; and
- (6) the arrangements for stress testing of the adequacy of the *UK recognised body's* financial resources to cover its exposures which may arise, for example, with substantial movements in market values or counterparty defaults.

Effecting and monitoring of transactions and operation of settlement arrangements

2.5.8

G
/1

In assessing a *UK RIE's* systems and controls for the effecting and monitoring of transactions, and the systems and controls used by a *UK recognised body* for the operation of settlement arrangements, the *FSA* may have regard to the totality of the arrangements and processes through which a transaction is effected, cleared and settled, including:

- (1) a *UK RIE's* arrangements under which orders are received and matched, and its arrangements for trade and transaction reporting, and (if relevant) for transmission to a settlement system or *clearing house*;
- (2) a *UK recognised body's* arrangements under which clearing and settlement instructions arising from a transaction are entered into its systems to the point at which any rights or liabilities arising from that transaction are discharged; and
- (3) the arrangements made by the *UK recognised body* for monitoring and reviewing the operation of these systems and controls.

Safeguarding and administration of assets

- 2.5.9** G_{/1} In assessing a *UK recognised body's* systems and controls for the safeguarding and administration of assets belonging to users of its *facilities*, the *FSA* may have regard to the totality of the arrangements and processes by which the *UK recognised body*:
- (1) records the assets held and the identity of the owners of (and other *persons* with relevant rights over) those assets;
 - (2) records any instructions given in relation to those assets;
 - (3) records the carrying out of those instructions;
 - (4) records any movements in those assets (or any corporate actions or other events in relation to those assets); and
 - (5) reconciles its records of assets held with the records of any *custodian* or *sub-custodian* used to hold these assets, and with the records of beneficial or legal ownership of those assets.

Management of conflicts of interest

- 2.5.10** G_{/1} A conflict of interest arises in a situation where a *person* with responsibility to act in the interests of one *person* may be influenced in his action by an interest or association of his own, whether personal or business or employment related. Conflicts of interest can arise both for the *employees* of *UK recognised bodies* and for the *members* (or other *persons*) who may be involved in the decision-making process, for example where they belong to committees or to the *governing body*. Conflicts of interest may also arise for the *UK recognised body* itself as a result of its connection with another *person*.
- 2.5.11** G_{/1} The *FSA* recognises that a *UK recognised body* has legitimate interests of its own and that its general business policy may properly be influenced by other *persons* (such as its owners). Such a connection does not necessarily imply the existence of a conflict of interest nor is it necessary to exclude individuals closely connected with other *persons* (for example, those responsible for the stewardship of the owner's interests) from all decision-making processes in a *UK recognised body*. However, there may be decisions, primarily regulatory decisions, from which it may be appropriate to exclude an individual in certain circumstances where an interest, position or connection of his conflicts with the interest of the *recognised body*.
- 2.5.12** G_{/1} *REC 2.5.13G* to *REC 2.5.16G* set out the factors to which the *FSA* may have regard in assessing a *UK recognised body's* systems and controls for managing conflicts of interest.
- 2.5.13** G_{/1} The *FSA* may have regard to the arrangements a *UK recognised body* makes to structure itself and to allocate responsibility for decisions so that it can continue to take proper regulatory decisions notwithstanding any conflicts of interest, including:
- (1) the size and composition of the *governing body* and relevant committees;
 - (2) the roles and responsibilities of *key individuals*, especially where they also have responsibilities in other organisations;

- (3) the arrangements for transferring decisions or responsibilities to alternates in individual cases; and
- (4) the arrangements made to ensure that individuals who may have a permanent conflict of interest in certain circumstances are excluded from the process of taking decisions (or receiving information) about matters in which that conflict of interest would be relevant.

2.5.14

G
/1

The *FSA* may also have regard to the systems and controls intended to ensure that confidential information is only used for proper purposes. Where relevant, *recognised bodies* will have to comply with section 348 (Restrictions on disclosure of confidential information by the *FSA* etc.) and regulations made under section 349 (Exemptions from section 348) of the *Act*.

2.5.15

G
/1

The *FSA* may also have regard to the contracts of employment, staff rules, letters of appointment for members of the *governing body*, members of relevant committees and other *key individuals* and other guidance given to individuals on handling conflicts of interest. Guidance to individuals may need to cover:

- (1) the need for prompt disclosure of a conflict of interest to enable others, who are not affected by the conflict, to assist in deciding how it should be managed;
- (2) the circumstances in which a general disclosure of conflicts of interest in advance of any particular instance in which a conflict of interest arises may be sufficient;
- (3) the circumstances in which a general advance disclosure may not be adequate;
- (4) the circumstances in which it would be appropriate for a conflicted individual to withdraw from involvement in the matter concerned, without disclosing the interest; and
- (5) the circumstances in which safeguards in addition to disclosure would be required, such as the withdrawal of the individual from the decision-taking process, or from access to relevant information.

2.5.16

G
/1

The *FSA* may also have regard to the arrangements made:

- (1) for enforcing rules or other provisions applicable to staff and other *persons* involved in regulatory decisions; and
- (2) to keep records of disclosures of conflicts of interest and the steps taken to handle them.

Internal and external audit

2.5.17

G
/1

A *UK recognised body's* arrangements for internal and external audit will be an important part of its systems and controls. In assessing the adequacy of these arrangements, the *FSA* may have regard to:

- (1) the size, composition and terms of reference of any audit committee of the *UK recognised body's governing body*;
- (2) the frequency and scope of external audit;
- (3) the provision and scope of internal audit;

- (4) the staffing and resources of the *UK recognised body's* internal audit department;
- (5) the internal audit department's access to the *UK recognised body's* records and other relevant information; and
- (6) the position, responsibilities and reporting lines of the internal audit department and its relationship with other departments of the *UK recognised body*.

Information technology systems

2.5.18

G
/1

Information technology is likely to be a major component of the systems and controls used by any *UK recognised body*. In assessing the adequacy of the information technology used by a *UK recognised body* to perform or support its *relevant functions*, the *FSA* may have regard to:

- (1) the organisation, management and resources of the information technology department within the *UK recognised body*;
- (2) the arrangements for controlling and documenting the design, development, implementation and use of information technology systems; and
- (3) the performance, capacity and reliability of information technology systems.

2.5.19

G
/1

The *FSA* may also have regard to the arrangements for maintaining, recording and enforcing technical and operational standards and specifications for information technology systems, including:

- (1) the procedures for the evaluation and selection of information technology systems;
- (2) the arrangements for testing information technology systems before live operations;
- (3) the procedures for problem management and system change;
- (4) the arrangements to monitor and report system performance, availability and integrity;
- (5) the arrangements (including spare capacity and access to back-up facilities) made to ensure information technology systems are resilient and not prone to failure;
- (6) the arrangements made to ensure business continuity in the event that an information technology system does fail;
- (7) the arrangements made to protect information technology systems from damage, tampering, misuse or unauthorised access; and
- (8) the arrangements made to ensure the integrity of data forming part of, or being processed through, information technology systems.

2.5.20

G
/1

The *FSA* may have regard to the arrangements made to keep clear and complete audit trails of all uses of information technology systems and to reconcile (where

appropriate) the audit trails with equivalent information held by system users and other interested parties.

2.6 General safeguards for investors

2.6.1 Table Schedule to the Recognition Requirements Regulations, Paragraph 4(1)

/1

The [UK RIE] must ensure that business conducted by means of its *facilities* is conducted in an orderly manner and so as to afford proper protection to investors.

2.6.2 Table Schedule to the Recognition Requirements Regulations, Paragraph 19(1)

/1

The [UK RCH] must ensure that its *facilities* are such as to afford proper protection to investors.

2.6.3 **G** In determining whether:

/1

- (1) business conducted by means of a *UK RIE's facilities* is conducted so; or
- (2) a *UK RCH's facilities* are such;

as to afford proper protection to investors, the *FSA* may, in addition to the matters dealt with in *REC 2.7* to *REC 2.12*, have regard to all the arrangements made by the *UK recognised body* concerning the operation of its *facilities*.

2.6.4 **G** The *FSA* may also have regard to the extent to which the *UK recognised body's* rules, procedures and the arrangements for monitoring and overseeing the use of its *facilities*:

/1

- (1) include appropriate measures to prevent the use of its *facilities* for abusive or improper purposes;
- (2) provide appropriate safeguards for investors against fraud or misconduct, recklessness, negligence or incompetence by users of its *facilities*;
- (3) provide appropriate information to enable users of its *facilities* to monitor their use of the *facilities*;
- (4) include appropriate arrangements to enable users of its *facilities* to raise queries about any use of those *facilities* which they are reported to have made;
- (5) include appropriate arrangements to enable users of its *facilities* to comply with any relevant regulatory or legal requirements; and
- (6) include appropriate arrangements to reduce the risk that those *facilities* will be used in ways which are incompatible with relevant regulatory or legal requirements;

and in this paragraph "appropriate" should be taken to mean appropriate having regard to the nature and scale of the *UK recognised body's facilities*, the types of *persons* who will use the *facilities* and the use which they will make of those *facilities*.

Orderly markets

2.6.5

G

/1

In determining whether a *UK RIE* is ensuring that business conducted by means of its *facilities* is conducted in an orderly manner (and so as to afford proper protection to investors), the *FSA* may have regard to the extent to which the *UK RIE's* rules and procedures:

- (1) are consistent with the *Code of Market Conduct* (see *MAR* 1);
- (2) prohibit abusive trading practices or the deliberate reporting or publication of false information about trades; and
- (3) prohibit or prevent:
 - (a) trades in which a party is improperly indemnified against losses;
 - (b) trades intended to create a false appearance of trading activity ("wash trades");
 - (c) cross trades executed for improper purposes;
 - (d) improperly prearranged or prenegotiated trades;
 - (e) trades intended to assist or conceal any potentially identifiable trading abuse ("accommodation trades"); and
 - (f) trades which one party does not intend to close out or settle.

2.6.6

G

/1

In determining whether a *UK RIE* is ensuring that business conducted by means of its *facilities* is conducted in an orderly manner (and so as to afford proper protection to investors), the *FSA's* arrangements and practices:

- (1) enable *members* and *clients* for whom they act to obtain the best price available at the time for their size and type of trade;
- (2) ensure:
 - (a) sufficient pre-trade transparency in the *UK RIE's* markets taking account of the practices in those markets and the trading systems used; and
 - (b) sufficient post-trade transparency in the *UK RIE's* markets taking into account the nature and liquidity of the *specified investments* traded, market conditions and the scale of transactions, the need (where appropriate) to preserve anonymity for *members* and *clients* for whom they act, and the needs of different market participants for timely price information;
- (3) include procedures which enable the *UK RIE* to influence trading conditions or suspend trading promptly when necessary to maintain an orderly market; and

- (4) if they include arrangements to support or encourage liquidity:
- (a) are transparent;
 - (b) are not likely to encourage any *person* to enter into transactions other than for proper trading purposes (which may include hedging, investment, speculation, price determination, arbitrage and filling orders from any *client* for whom he acts);
 - (c) are consistent with a reliable, undistorted price-formation process; and
 - (d) alleviate dealing or other identified costs associated with trading on the *UK RIE*'s markets and do not subsidise a market position of a user of its *facilities* or subsidise any margin payments (or the provision of collateral) which such a user would have to make.

2.6.7

G
/1

The *FSA* accepts that block trading, upstairs trading and other types of specialist transactions (such as the "exchange of futures for physicals" in certain commodity markets) can have a legitimate commercial rationale consistent with the orderly conduct of business and proper protection for investors. They may therefore be permitted under the rules of a *UK RIE*, subject to any necessary safeguards, where appropriate.

2.7 Access to facilities

2.7.1

/1

Table Schedule to the Recognition Requirements Regulations, Paragraph 4(2)(a)

Without prejudice to the generality of sub-paragraph [4(1)], the [UK RIE] must ensure that – access to the [UK RIE's] facilities is subject to criteria designed to protect the orderly functioning of the market and the interests of investors;

2.7.2

/1

Table Schedule to the Recognition Requirements Regulations, Paragraph 19(2)(a)

Without prejudice to the generality of sub-paragraph [19(1)], the [UK RCH] must ensure that – access to the [UK RCH's] facilities is subject to criteria designed to protect the orderly functioning of those facilities and the interests of investors;

2.7.3

G

/1

In assessing whether access to a *UK recognised body's facilities* is subject to criteria designed to protect the orderly functioning of the market, or of those *facilities*, and the interests of investors, the *FSA* may have regard to whether:

- (1) the *UK recognised body* limits access as a *member* to *persons*:
 - (a) over whom it can with reasonable certainty enforce its rules contractually;
 - (b) who have sufficient technical competence to use its *facilities*;
 - (c) whom it is appropriate to admit to membership having regard to the size and sophistication of users of its *facilities* and the nature of the business effected by means of, or cleared through, its *facilities*; and
 - (d) (if appropriate) who have adequate financial resources in relation to their exposure to the *UK recognised body* or its central counterparty;
- (2) the *UK recognised body's* membership criteria are objective and are applied in an objective and non-discriminatory manner;
- (3) indirect access to the *UK recognised body's facilities* is subject to suitable criteria, remains the responsibility of a *member* of the *UK recognised body* and is subject to its rules; and
- (4) where access is granted to *members* outside the *United Kingdom*, there are adequate safeguards against *financial crime* (see also *REC 2.10*).

2.7.4

G
/1**Electronic access**

The *FSA* may have regard to the arrangements made to permit electronic access to the *UK recognised body's facilities* and to prevent and resolve problems likely to arise from the use of electronic systems to provide indirect access to its *facilities* by *persons* other than its *members*, including:

- (1) the rules and guidance governing *members'* procedures, controls and security arrangements for inputting instructions into the system;
- (2) the rules and guidance governing the facilities *members* provide to *clients* to input instructions into the system and the restrictions placed on the use of those systems;
- (3) the rules and practices to detect, identify, and halt or remove instructions breaching any relevant restrictions;
- (4) the quality and completeness of the audit trail of any transaction processed through an electronic connection system; and
- (5) procedures to determine whether to suspend trading by those systems or access to them by or through individual *members*.

2.8 Settlement and clearing services

2.8.1

/1

Table Schedule to the Recognition Requirements Regulations, Paragraph 4(2)(d)

Without prejudice to the generality of sub-paragraph [4(1)], the [UK RIE] must ensure that – satisfactory arrangements are made for securing the timely discharge (whether by performance, compromise or otherwise) of the rights and liabilities of the parties to transactions effected on the [UK RIE] (being rights and liabilities in relation to those transactions);

2.8.2

/1

Table Schedule to the Recognition Requirements Regulations, Paragraph 19(2)(b)

Without prejudice to the generality of sub-paragraph [19(1)], the [UK RCH] must ensure that – its clearing services involve satisfactory arrangements for securing the timely discharge (whether by performance, compromise or otherwise) of the rights and liabilities of the parties to transactions in respect of which it provides such services, (being rights and liabilities in relation to those transactions);

2.8.3

G

/1

In determining whether there are satisfactory arrangements for securing the timely discharge of the rights and liabilities of the parties to transactions, the *FSA* may have regard to the *UK recognised body's*:

- (1) rules and practices relating to clearing and settlement;
- (2) arrangements for matching trades and ensuring that the parties are in agreement about trade details;
- (3) arrangements for making deliveries and payments and, where relevant, for collecting margin and holding collateral, in all relevant jurisdictions;
- (4) procedures to detect and deal with the failure of a *member* to settle in accordance with its rules;
- (5) arrangements for taking action to settle a trade if a *member* does not settle in accordance with its rules;
- (6) arrangements for monitoring its *members'* settlement performance; and

2.8.4

G
/1

(7) (where appropriate) *default rules* and default procedures.

A *UK recognised body* will not be regarded as failing to comply with the *recognition requirement* merely because it is unable to arrange for a specific transaction to be settled.

2.9 Transaction recording

2.9.1

/1

Table Schedule to the Recognition Requirements Regulations, Paragraph 4(2)(e)

Without prejudice to the generality of sub-paragraph [4(1)], the [UK RIE] must ensure that – satisfactory arrangements are made for recording transactions effected on the [UK RIE], and transactions (whether or not effected on the [UK RIE]) which are cleared or to be cleared by means of its *facilities*;

2.9.2

/1

Table Schedule to the Recognition Requirements Regulations, Paragraph 19(2)(c)

Without prejudice to the generality of sub-paragraph [19(1)], the [UK RCH] must ensure that – satisfactory arrangements are made for recording transactions which are cleared or to be cleared by means of its *facilities*;

2.9.3

G

/1

In determining whether a *UK recognised body* has satisfactory arrangements for recording the transactions effected on, or cleared or to be cleared by means of, its *facilities*, the *FSA* may have regard to:

- (1) whether the *UK recognised body* has arrangements for creating, maintaining and safeguarding an audit trail of transactions for at least three years (five years in respect of transactions carried out by *members* who are not incorporated in the *United Kingdom* if the *UK recognised body* is a *regulated market*); and
- (2) the type of information recorded and the extent to which the record includes details for each transaction of:
 - (a) the name of the *investment* (and, if relevant, the underlying asset) and the price, quantity and date of the transaction;
 - (b) the identities and, where appropriate, the roles of the counterparties to the transaction;
 - (c) if the *UK recognised body's* rules make provision for transactions to be effected, cleared or to be cleared in more than one type of *facility*, or under more than one part of its rules, the type of *facility* in which, or the part of its rules under which, the transaction was effected, cleared or to be cleared; and

(d) the date and manner of settlement of the transaction.

2.9.4

G
/1

Where transactions are effected on an *UK RIE* and cleared through an *UK RCH*, the *UK recognised bodies* concerned may agree which information is to be recorded by each *UK recognised body* and need not duplicate each other's records.

2.10 Financial crime and market abuse

2.10.1 /1 Table Schedule to the Recognition Requirements Regulations, Paragraph 4(2)(f)

Without prejudice to the generality of sub-paragraph [4(1)], the [UK RIE] must ensure that – appropriate measures are adopted to reduce the extent to which the [UK RIE’s] facilities can be used for a purpose connected with *market abuse* or *financial crime*, and to facilitate their detection and monitor their incidence;

2.10.2 /1 Table Schedule to the Recognition Requirements Regulations, Paragraph 19(2)(d)

Without prejudice to the generality of sub-paragraph [19(1)], the [UK RCH] must ensure that – appropriate measures are adopted to reduce the extent to which the [UK RCH’s] facilities can be used for a purpose connected with *market abuse* or *financial crime*, and to facilitate their detection and monitor their incidence;

2.10.3 /1 **G** In determining whether a *UK recognised body’s* measures are appropriate to reduce the extent to which its *facilities* can be used for a purpose connected with *market abuse* or *financial crime*, to facilitate their detection and to monitor their incidence, the *FSA* may have regard to:

- (1) whether the rules of the *UK recognised body* enable it to disclose any information to the *FSA*, or other appropriate bodies involved in the detection, prevention or pursuit of *market abuse* or *financial crime* in the *United Kingdom* or overseas; and
- (2) whether the arrangements, resources, systems, and procedures of the *UK recognised body* enable it to:
 - (a) monitor the use made of its *facilities* so as to obtain information regarding possible patterns of normal, abnormal or improper use of those *facilities*;
 - (b) detect possible instances of *market abuse* and *financial crime*, for example, by detecting suspicious patterns in the use of its *facilities*;
 - (c) communicate information about *market abuse* and *financial crime* promptly and accurately to appropriate organisations; and
 - (d) cooperate with all relevant bodies in the prevention, investigation and pursuit of *market abuse* and *financial crime*.

2.10.4

G
/1

The law on *market abuse* and *financial crime*, including Part VI of the Criminal Justice Act 1988 and the *Money Laundering Regulations*, applies to *UK recognised bodies*. This *recognition requirement* (and this *guidance*) does not restrict, diminish or alter the obligations contained in that legislation.

2.11 Custody

2.11.1

/1

Table Schedule to the Recognition Requirements Regulations, Paragraph 4(2)(g)

Without prejudice to the generality of sub-paragraph [4(1)], the [UK RIE] must ensure that – where the [UK RIE's] facilities include making provision for the safeguarding and administration of assets belonging to users of those facilities, satisfactory arrangements are made for that purpose.

2.11.2

/1

Table Schedule to the Recognition Requirements Regulations, Paragraph 19(2)(e)

Without prejudice to the generality of sub-paragraph [19(1)], the [UK RCH] must ensure that – where the [UK RCH's] facilities include making provision for the safeguarding and administration of assets belonging to users of those facilities, satisfactory arrangements are made for that purpose.

2.11.3

G

/1

In determining whether a *UK recognised body* has made satisfactory arrangements for the safeguarding and administration of assets belonging to the users of its *facilities*, the *FSA* may have regard to:

- (1) the level of protection which the arrangements provide against the risk of theft or other types or causes of loss;
- (2) whether the arrangements ensure that assets are only used or transferred in accordance with the instructions of the owner of those assets or in accordance with the terms of the agreement by which the *UK recognised body* undertook to safeguard and administer those assets;
- (3) whether the arrangements ensure that the assets are not transferred to the *UK recognised body* or to any other *person* to settle the debts of the owner (or other *person* with the appropriate rights over the assets) except in accordance with valid instructions from a *person* entitled to give those instructions, or in accordance with the terms of the agreement by which the *UK recognised body* undertook to safeguard and administer those assets;
- (4) whether the arrangements include satisfactory procedures to ensure that any rights arising in relation to the assets held as a result of any actions by the *issuers* of those assets (or other relevant persons) are held, transferred or acted upon in a timely and accurate manner in accordance with the instructions of the owner of those assets or in accordance with the terms of the agreement by

which the *UK recognised body* undertook to safeguard and administer those assets;

- (5) whether there are adequate arrangements to ensure the proper segregation of assets belonging to the *UK recognised body* (or to *undertakings* in the same *group*) from those belonging to the users of its *facilities* for the safeguarding and administration of assets;
- (6) whether the arrangements include satisfactory procedures for the selection, oversight and review of *custodians* or sub-*custodians* used to hold the assets;
- (7) whether the agreements by which the *UK recognised body* undertakes to safeguard and administer assets belonging to users of its *facilities* include appropriate information regarding the terms and conditions of that service and the obligations of the *UK recognised body* to the user of the service and of the user of the service to the *UK recognised body*;
- (8) whether the records kept of those assets and the operation of the safeguarding services provide sufficient accurate and timely information:
 - (a) to identify the legal and beneficial owners of the assets and of any *persons* who have charges over, or other interests, in the assets;
 - (b) to record separately any additions, reductions and transfers in each account of assets held for safeguarding or administration; and
 - (c) to identify separately the assets owned by (or, where appropriate, on behalf of) different *persons*, including, where appropriate, the assets owned by *members* of the *UK recognised body* and their clients;
- (9) the frequency of reconciliation of the assets held by (or on behalf of) the *UK recognised body* with the accounts held with the *UK recognised body* by the users of its safeguarding and administration services and the extent of the arrangements for resolving a shortfall identified in any reconciliation; and
- (10) the frequency with which statements of their holdings are provided to the users of the safeguarding and administration services, to the owners of the assets held and other appropriate *persons* in accordance with the terms of the agreement by which the *UK recognised body* undertook to safeguard and administer those assets.

2.11.4

G

/1

Where a *UK recognised body* arranges for other *persons* to provide services for the safeguarding and administration services of assets belonging to users of its *facilities*, it will also need to satisfy the *recognition requirement* in Regulation 6 of the *Recognition Requirements Regulations* (see REC 2.2).

2.12 Proper markets and disclosure of information (UK RIEs only)

2.12.1 Table Schedule to the Recognition Requirements Regulations, Paragraphs 4(2)(b) and 4(2)(c)
/1

Without prejudice to the generality of sub-paragraph [4(1)], the [UK RIE] must ensure that –

(b) dealings in [specified investments] on the [UK RIE] are limited to [specified investments] in which there is a proper market;

(c) appropriate arrangements are made for relevant information to be made available (whether by the [UK RIE] or, where appropriate, by issuers of the [specified investments]) to persons engaged in dealing in [specified investments] on the [UK RIE];

2.12.2 Table Schedule to the Recognition Requirements Regulations, Paragraph 4(3)
/1

In sub-paragraph [4(2)(c)], "relevant information" means information which is relevant in determining the current value of the [specified investments].

2.12.3 Table Schedule to the Recognition Requirements Regulations, Paragraph 5
/1

- (1) In this paragraph –
- “admission to trading”, “securities” and “regulated market” are to be construed in accordance with regulation 2 of the Traded Securities (Disclosure) Regulations 1994;
- “the obligation of disclosure” means the obligation imposed by regulation 3 of those Regulations;
- “issuer” means a *person* who is subject to that obligation whose securities are admitted to trading on a regulated market which the [UK RIE] regulates and supervises; and
- “the relevant securities” mean securities in relation to which the obligation of disclosure arises.
- (2) The rules of the [UK RIE] must enable the [UK RIE] in the event of a failure by an issuer to comply with the obligation of disclosure, –
- (a) to discontinue the admission of the relevant securities to trading;
- (b) to suspend trading in the relevant securities;
- (c) to publish the fact that the issuer has failed to comply with the obligation of disclosure; and
- (d) to make public itself any information which the issuer has failed to publish.
- (3) This paragraph is without prejudice to the requirement in paragraph 4(2)(c)

The general test

2.12.4

G
/1

In determining whether there is a proper market in a *specified investment*, the FSA may have regard to :

- (1) whether there is a sufficient range of *persons* already holding the *specified investment* (or, where relevant, the underlying asset) or interested in *dealing* in it to bring about adequate forces of supply and demand;
- (2) the extent to which there are any limitations on the *persons* who may hold or *deal* in the *specified investment*, or the amounts of the *specified investment* which may be held;
- (3) whether there are effective means to take and make delivery of the *specified investment* (or to settle the contract concerned) and, if appropriate, of any underlying asset; and
- (4) whether there is adequate information in the public domain to enable market participants to make a reasonably informed judgment about the value of the *specified investment* and the risks associated with it.

Comments on the general test

2.12.5

G

/1

There may be a proper market in a *specified investment* although:

- (1) different market participants have access to different information or receive information at different times;
- (2) there is more than one exchange on which the *specified investment* has been *admitted to trading*, or the *specified investment* is traded both *on-exchange* and *over the counter*;
- (3) the *specified investment* is a *derivative* of an underlying asset or other thing in which there is not a proper market;
- (4) the *specified investment* is an underlying asset of a *derivative* in which there is not a proper market for reasons not connected with the underlying asset; and
- (5) the market in the *specified investment* is illiquid, that is to say that it may not be possible to acquire, or to dispose of, a significant quantity of the *specified investment* without a substantial movement in its price.

Specific tests

2.12.6

G

/1

The *FSA* considers that there will usually be a proper market in the following types of *specified investment*:

- (1) a *security admitted to trading* by an arrangement between the *UK RIE* and the *issuer* which requires the *issuer* to comply with admission requirements and continuing obligations, if:
 - (a) in the case of a *security* which is not *listed*, the *UK RIE* requires the *issuer* to comply with initial and continuing obligations which are appropriate for *securities* which may be offered to the public in the *United Kingdom*; or
 - (b) it is a requirement under that arrangement that the *security* is *listed* in an *EEA State*;

and the *UK RIE* has adequate procedures governing the suspension or removal of the *security* from trading;
- (2) a *security admitted to trading* other than by an arrangement with the *issuer*, if:
 - (a) the *security* is admitted to, and has not been removed or suspended from, the *official list* in an *EEA State*; or
 - (b) the *security* is *admitted to trading*, and has not been removed or is not suspended from trading, by an investment exchange or similar organisation, which imposes and enforces requirements on the *issuer* comparable to those required for admission of like *securities* to an *official list* in the *EEA*;

and the *UK RIE* has adequate arrangements to suspend or remove the *security* from trading, including arrangements to obtain *relevant information*;
- (3) a *derivative*, if:

- (a) the terms of the *derivative* are sufficiently precise to provide for an understandable relationship between the price of the *derivative* and the price of the underlying asset or factor;
- (b) the *UK RIE* has adequate procedures for obtaining information relevant for determining whether or not to suspend or discontinue trading in that *derivative*;
- (c) there is sufficient information available to *persons* considering whether to enter into that *derivative* to make a reasonably informed judgment about its value and the risks associated with it; and
- (d) the additional tests in *REC 2.12.7G* or *REC 2.12.8G* are met.

2.12.7

G
/1

Where the *derivative* relates to an underlying asset, the additional tests are:

- (1) there are adequate settlement and delivery procedures for the underlying asset;
- (2) there is sufficient *relevant information* available to *persons* considering whether to enter into the *derivative* for them to make a reasonably informed judgment about the value of the underlying asset; and
- (3) the *UK RIE* has adequate arrangements to obtain *relevant information* about the underlying asset.

2.12.8

G
/1

Where the *derivative* is a *contract for differences* whose terms provide for obligations to be calculated or incurred by reference to fluctuations in an index or other factor, the additional test is that the parties to that *derivative* have access to information about that index or other factor and about fluctuations in that index or other factor.

General comment

2.12.9

G
/1

The general test set out in *REC 2.12.4G* may be satisfied in different ways. The *FSA* does not prescribe any particular requirements which *specified investments* which are to be *admitted to trading* should satisfy or any particular principles which *UK RIEs* should follow in making decisions about the *admission to trading* of *specified investments* (or about whether such *specified investments* should subsequently be removed or suspended from trading). Each *UK RIE* should be able to show the *FSA* that its policies and practices in the *admission to trading* of *specified investments* ensure that the *dealing* will be limited to *specified investments* in which there is a proper market.

Suitability

2.12.10

G
/1

The existence of a proper market in a *specified investment* does not automatically imply that it is a suitable *specified investment* for any particular investor, or class of investors.

Proper information

2.12.11

G
/1

In determining whether appropriate arrangements have been made to make *relevant information* available to *persons* engaged in *dealing in specified investments admitted to trading* on the UK RIE, the FSA may have regard to:

- (1) the extent to which *members* and *clients* for whom they act are able to obtain information about those *specified investments*, either through accepted channels for dissemination of information or through other regularly and widely accessible communication media, to make a reasonably informed judgment about the value and the risks associated with those *specified investments* in a timely fashion;
- (2) what restrictions, if any, there are on the dissemination of *relevant information* to the UK RIE's *members* and *clients* for whom they act; and
- (3) whether *relevant information* is or can be kept to restricted groups of *persons* in such a way as to facilitate or encourage *dealing* in contravention of the *Code of Market Conduct* (see MAR 1).

Own means of dissemination

2.12.12

G
/1

UK RIEs do not need to maintain their own arrangements for disseminating news or information about *specified investments* (or underlying assets) to their *members* where they have made adequate arrangements for other *persons* to do so on their behalf or there are other effective and reliable arrangements for this purpose.

Scope of paragraph 5 of the Schedule to the Recognition Requirements Regulations

2.12.13

G
/1

The *recognition requirement* set out in REC 2.12.3 applies to all UK RIEs which admit relevant securities (as defined in that *recognition requirement*) whether or not they have an arrangement with the *issuer* of those relevant securities.

2.13 Promotion and maintenance of standards

2.13.1 Table Schedule to the Recognition Requirements Regulations, Paragraph 6

/1

(1) The [UK RIE] must be able and willing to promote and maintain high standards of integrity and fair dealing in the carrying on of *regulated activities by persons* in the course of using the *facilities* provided by the [UK RIE].

(2) The [UK RIE] must be able and willing to cooperate by the sharing of information or otherwise, with the [FSA], with any other authority, body or *person* having responsibility in the *United Kingdom* for the supervision or regulation of any *regulated activity* or other financial service, or with an *overseas regulator* within the meaning of section 195 of the *Act*.

2.13.2 Table Schedule to the Recognition Requirements Regulations, Paragraph 20

/1

(1) The [UK RCH] must be able and willing to promote and maintain high standards of integrity and fair dealing in the carrying on of *regulated activities by persons* in the course of using the *facilities* provided by the [UK RCH].

(2) The [UK RCH] must be able and willing to cooperate, by the sharing of information or otherwise, with the [FSA], with any other authority, body or *person* having responsibility in the *United Kingdom* for the supervision or regulation of any *regulated activity* or other financial service, or with an *overseas regulator* within the meaning of section 195 of the *Act*.

2.13.3

G

/1

In determining whether a *UK recognised body* is able and willing to promote and maintain high standards of integrity and fair dealing in the carrying on of *regulated activities*, the *FSA* may have regard to the extent to which the *UK recognised body* seeks to promote and encourage, through its rules, practices and procedures, conduct in *regulated activities* which is consistent with the *Code of Market Conduct* (see *MAR 1*) and with any other codes of conduct, rules or principles relating to behaviour in *regulated activities* which users of the *financial system* in the *United Kingdom* would normally expect to apply to the *regulated activity* and the conduct in question.

2.13.4

G

/1

In assessing the ability of a *UK recognised body* to cooperate with the *FSA* and other appropriate bodies, the *FSA* may have regard to the extent to which the constitution and rules of the *UK recognised body* and its agreements with its

members enable it to obtain information from *members* and to disclose otherwise confidential information to the *FSA* and other appropriate bodies.

2.13.5

G
/1

In assessing the willingness of a *UK recognised body* to cooperate with the *FSA* and other appropriate bodies, the *FSA* may have regard to:

- (1) the extent to which the *UK recognised body* is willing to provide information about it and its activities to assist the *FSA* in the exercise of its functions;
- (2) the extent to which the *UK recognised body* is open with the *FSA* or other appropriate bodies in regulatory matters;
- (3) how diligently the *UK recognised body* investigates or pursues enquiries from the *FSA* or other appropriate bodies; and
- (4) whether the *UK recognised body* participates in appropriate international fora.

2.13.6

G
/1

For the purpose of this section, “information” includes information held about large positions held by *members* of a *UK recognised body*.

2.14 Rules and consultation

2.14.1 Table Schedule to the Recognition Requirements Regulations, paragraph 7

/1

- (1) The [UK RIE] must ensure that appropriate procedures are adopted for it to make rules, for keeping its rules under review and for amending them.**
- (2) The procedures must include procedures for consulting users of the [UK RIE's] facilities in appropriate cases.**
- (3) The [UK RIE] must consult users of its facilities on any arrangements it proposes to make for dealing with penalty income in accordance with paragraph 8(3) ... (or on any changes it proposes to make to those arrangements).**

2.14.2 Table Schedule to the Recognition Requirements Regulations, paragraph 21

/1

- (1) The [UK RCH] must ensure that appropriate procedures are adopted for it to make rules, for keeping its rules under review and for amending them.**
- (2) The procedures must include procedures for consulting users of the [UK RCH's] facilities in appropriate cases.**
- (3) The [UK RCH] must consult users of its facilities on any arrangements it proposes to make for dealing with penalty income in accordance with paragraph 22(3) ... (or on any changes it proposes to make to those arrangements).**

2.14.3 **G** In determining whether a *UK recognised body* has appropriate procedures for it to make rules, for keeping its rules under review and for amending them, the *FSA* may have regard to:

/1

- (1) the arrangements made for taking decisions about making and amending rules in the *UK recognised body*, including the level at which the decisions are taken and any provision for the delegation of decisions by the *governing body*;
- (2) the arrangements made for determining whether or not it is appropriate to consult *members* or other users of the *UK recognised body's facilities*;
- (3) the procedures for consulting *members* and other users of its *facilities* in appropriate cases; and
- (4) the arrangements for notifying *members* (and other appropriate *persons*) of rule changes.

2.14.4 **G** (1) In determining whether a *UK recognised body's* procedures include procedures for consulting users of its *facilities* in appropriate cases, the *FSA* may have

/1

regard to whether those procedures include provision for consulting users of those *facilities* before changes are made to any rules relating to its *regulatory functions*.

- (2) In the FSA's view, a *UK recognised body's* procedures may not need to contain provision for consulting users of its *facilities* before making minor changes to any rules of an administrative or commercial character.

2.14.5

G
/1

- (1) In determining whether a *UK recognised body's* procedures for consulting *members* and other users of its *facilities* are appropriate, the FSA may have regard to the range of persons to be consulted by the *UK recognised body* under those procedures.
- (2) In the FSA's view, consultation with a smaller range of persons may be appropriate where limited, technical changes to a *UK recognised body's* rules are proposed.
- (3) In the FSA's view, a *UK recognised body's* procedures may include provision to restrict consultation where it is essential to make a change to the rules without delay in order to ensure continued compliance with the *recognition requirements* or other obligations under the *Act*.

2.14.6

G
/1

In determining whether a *UK recognised body's* procedures for consulting *members* and other users of its *facilities* are appropriate, the FSA may have regard to the extent to which the procedures include:

- (1) informal discussions at an early stage with users of its *facilities* or appropriate representative bodies;
- (2) publication to users of its *facilities* of a formal consultation paper which includes clearly expressed reasons for the proposed changes and an appropriately detailed assessment of the likely costs and benefits;
- (3) adequate time for users of its *facilities* to respond to the consultation paper and for the *UK recognised body* to take their responses properly into account;
- (4) adequate arrangements for making responses to consultation available for inspection by users of its *facilities*, unless the respondent requests otherwise;
- (5) adequate arrangements for ensuring that the *UK recognised body* has proper regard to the representations received; and
- (6) publication, no later than the publication of the amended rules, of a reasoned account of the *UK recognised body's* decision to amend its rules.

2.15 Discipline

2.15.1 Table Schedule to the Recognition Requirements Regulations, Paragraph 8

/1

- (1) The [UK RIE] must have effective arrangements for monitoring and enforcing compliance with –
- (a) its rules (including rules in relation to the provision of clearing services in respect of transactions other than transactions effected on the [UK RIE]); and
 - (b) the arrangements made by it as mentioned in paragraph 4(2)(d)
- (2) Arrangements made pursuant to sub-paragraph (1) must include procedures for –
- (a) investigating complaints made to the [UK RIE] about the conduct of *persons* in the course of using the [UK RIE's] facilities; and
 - (b) the fair, independent and impartial resolution of appeals against decisions of the [UK RIE].
- (3) Where arrangements made pursuant to sub-paragraph (1) include provision for requiring the payment of financial penalties, they must include arrangements for ensuring that any amount so paid is applied only in one or more of the following ways –
- (a) towards meeting expenses incurred by the [UK RIE] in the course of the investigation of the breach in respect of which the penalty is paid, or in the course of any appeal against the decision of the [UK RIE] in relation to that breach;
 - (b) for the benefit of users of the [UK RIE's] facilities;
 - (c) for charitable purposes.

2.15.2 Table Schedule to the Recognition Requirements Regulations, Paragraph 22

/1

- (1) The [UK RCH] must have effective arrangements for monitoring and enforcing compliance with its rules.
- (2) The arrangements must include procedures for –
- (a) investigating complaints made to the [UK RCH] about the conduct of *persons* in the course of using the [UK RCH's] facilities; and

(b) the fair, independent and impartial resolution of appeals against decisions of the [UK RCH].

(3) Where the arrangements include provision for requiring the payment of financial penalties, they must include arrangements for ensuring that any amount so paid is applied only in one or more of the following ways –

(a) towards meeting expenses incurred by the [UK RCH] in the course of the investigation of the breach in respect of which the penalty is paid, or in the course of any appeal against the decision of the [UK RCH] in relation to that breach;

(b) for the benefit of users of the [UK RCH's] facilities;

(c) for charitable purposes.

2.15.3

G

/1

In determining whether a *UK recognised body* has effective arrangements for monitoring and enforcing compliance with its rules (and, in the case of a *UK RIE*, its settlement arrangements), the *FSA* may have regard to:

- (1) the *UK recognised body's* ability to:
 - (a) monitor and oversee the use of its *facilities*;
 - (b) assess its *members'* compliance with its rules (and settlement arrangements, where appropriate);
 - (c) assess the significance of any non-compliance;
 - (d) take appropriate disciplinary action against *members* in breach of its rules (and settlement arrangements, where appropriate);
 - (e) suspend a *member's* access to its *facilities*;
 - (f) refer *members'* or others' conduct to other appropriate authorities for possible action or further investigation;
 - (g) retain authority over a *member* for at least one year after he has ceased to be a *member*;
 - (h) where appropriate, enforce its rules (and settlement arrangements, where appropriate) against users (other than *members*) of its *facilities*; and
 - (i) take action against suppliers of services to *members* (for example, warehouses) whose performance or conduct may be critical to ensuring compliance with its rules (and settlement arrangements, where appropriate);
- (2) the position, management and resources of the departments responsible for monitoring and overseeing the use of the *UK recognised body's facilities* and for enforcing compliance with its rules (and settlement arrangements, where appropriate); and
- (3) the arrangements made for the determination of disciplinary matters including the arrangements for disciplinary hearings and the arrangements made for appeals from the *UK recognised body's* decisions in those matters.

2.15.4

G
/1

In assessing whether the procedures made by a *UK recognised body* to investigate complaints about the users of its *facilities* are satisfactory, the *FSA* may have regard to:

- (1) whether these procedures include arrangements which enable the *UK recognised body* to:
 - (a) acknowledge complaints promptly;
 - (b) consider and investigate these complaints objectively, promptly and thoroughly;
 - (c) provide a timely reply to the complainant; and
 - (d) keep adequate records of complaints and investigations;
- (2) the arrangements made to enable a *person* who is the subject of a complaint to respond in an appropriate manner to that complaint; and
- (3) the documentation of these procedures and the arrangements made to ensure that the existence of these procedures is brought to the attention of *persons* who might wish to make a complaint.

2.15.5

G
/1

In assessing whether the arrangements include procedures for the fair, independent and impartial resolution of appeals against decisions of a *UK recognised body*, the *FSA* may have regard to at least the following factors:

- (1) the appeal procedures of the *UK recognised body*, including the composition and roles of any appeal committees or tribunals, and their relationship to the *governing body*;
- (2) the arrangements made to ensure prompt hearings of appeals from decisions made by the *UK recognised body*;
- (3) the format, organisation and rules of procedure of those hearings;
- (4) the arrangements made to select the *persons* to preside over those hearings and to serve as *members* of any appeal tribunal;
- (5) the provision for determining whether or not such hearings should be in public;
- (6) the provision made to enable an appellant to be aware of the procedure at any appeal hearing and to have the opportunity to prepare and present his case at that hearing;
- (7) the provision made for an appeal tribunal to give an explanation of its decision;
- (8) the provision for publicity for any appeals or for determining whether or not publicity should be given to the outcome of any appeal.

2.15.6

G
/1

In assessing whether a *UK recognised body's* arrangements include appropriate provision for ensuring the application of any financial penalties in ways described in the *recognition requirement*, the *FSA* may have regard to:

- (1) the *UK recognised body's* policy regarding the application of financial penalties;

(2) the arrangements made for applying that policy in individual cases;
but the *FSA* does not consider that it is necessary for *UK recognised bodies* to follow any specific policy in order to meet this *recognition requirement*.

2.16 Complaints

2.16.1 Table Schedule to the Recognition Requirements Regulations, Paragraph 9

/1

- (1) The [UK RIE] must have effective arrangements for the investigation and resolution of complaints arising in connection with the performance of, or failure to perform, any of its *regulatory functions*.
- (2) But sub-paragraph (1) does not extend to –
- (a) complaints about the content of rules made by the [UK RIE], or
 - (b) complaints about a decision against which the complainant has the right to appeal under procedures of the kind mentioned in paragraph 8(2)(b)
- (3) The arrangements must include arrangements for a complaint to be fairly and impartially investigated by a *person* independent of the [UK RIE], and for him to report on the result of his investigation to the [UK RIE] and to the complainant.
- (4) The arrangements must confer on the *person* mentioned in sub-paragraph (3) the power to recommend, if he thinks appropriate, that the [UK RIE] –
- (a) makes a compensatory payment to the complainant,
 - (b) remedies the matter complained of,
- or takes both of those steps.
- (5) Sub-paragraph (3) is not to be taken as preventing the [UK RIE] from making arrangements for the initial investigation of a complaint to be conducted by the [UK RIE].

2.16.2 Table Schedule to the Recognition Requirements Regulations, Paragraph 23

/1

- (1) The [UK RCH] must have effective arrangements for the investigation and resolution of complaints arising in connection with the performance of, or failure to perform, any of its *regulatory functions*.
- (2) But sub-paragraph (1) does not extend to –
- (a) complaints about the content of rules made by the [UK RCH], or

(b) complaints about a decision against which the complainant has the right to appeal under procedures of the kind mentioned in paragraph 22(2)(b)

(3) The arrangements must include arrangements for a complaint to be fairly and impartially investigated by a *person* independent of the [UK RCH], and for him to report on the result of his investigation to the [UK RCH] and to the complainant.

(4) The arrangements must confer on the *person* mentioned in sub-paragraph (3) the power to recommend, if he thinks it appropriate, that the [UK RCH] –

(a) makes a compensatory payment to the complainant,

(b) remedies the matter complained of, or takes both of those steps.

(5) Sub-paragraph (3) is not to be taken as preventing the [UK RCH] from making arrangements for the initial investigation of a complaint to be conducted by the [UK RCH].

2.16.3

G
/1

In determining whether a *UK recognised body* has effective arrangements for the investigation and resolution of complaints arising in connection with the performance of, or failure to perform, any of its *regulatory functions*, the *FSA* may have regard to the extent to which the *UK recognised body's* resources and procedures enable it to:

- (1) acknowledge complaints promptly;
- (2) make an objective, prompt and thorough initial investigation of complaints;
- (3) provide a timely reply to the complainant after that initial investigation;
- (4) inform the complainant of his right to apply to the *UK recognised body's complaints investigator*; and
- (5) keep adequate records of complaints and investigations.

2.16.4

G
/1

In determining whether a *UK recognised body's* arrangements for the investigation of complaints include appropriate arrangements for the complaint to be fairly and impartially investigated by an independent *person* (a "*complaints investigator*"), the *FSA* may have regard to:

- (1) the arrangements made for appointing (and removing) a *complaints investigator*, including the terms and conditions of such an appointment and the provision for remuneration of a *complaints investigator*;
- (2) the *complaints investigator's* access to, and relationship with, the *UK recognised body's governing body* and *key individuals*;
- (3) the arrangements made for giving complainants access to the *complaints investigator*;
- (4) the facilities made available to the *complaints investigator* to enable him to pursue his investigation and prepare his report and recommendations, including access to the *UK recognised body's records, key individuals* and other

staff (including, where appropriate suppliers, contractors or other *persons* to whom any functions have been outsourced and their staff); and

- (5) the arrangements made for the *UK recognised body* to consider the *complaints investigator's* report and recommendations.

2.17 Recognition requirements relating to the default rules of UK recognised bodies

2.17.1

G

The text of Parts II and IV of the Schedule to the *Recognition Requirements Regulations* is set out below.

/1

2.17.2

Table Schedule to the Recognition Requirements Regulations, Part II

/1

Paragraph 10 (Default rules in respect of market contracts)

(1) The [UK RIE] must have *default rules* which, in the event of a *member* of the [UK RIE] being or appearing to be unable to meet his obligations in respect of one or more *market contracts*, enable action to be taken in respect of unsettled *market contracts* to which he is party.

(2) The [*default rules*] may authorise the taking of the same or similar action in relation to a *member* who appears to be likely to become unable to meet his obligations in respect of one or more *market contracts*.

(3) The [*default rules*] must enable action to be taken in respect of all unsettled *market contracts*, other than those entered into by [an *RCH*] for the purposes of or in connection with the provision of clearing services for the [UK RIE].

Paragraph 11 (Content of rules)

(1) This paragraph applies as regards contracts falling within section 155(2)(a) of the Companies Act [1989].

(2) The [*default rules*] must provide –

(a) for all rights and liabilities between those party as principal to unsettled *market contracts* to which the defaulter is party as principal to be discharged and for there to be paid by one party to the other such sum of money (if any) as may be determined in accordance with the [*default rules*];

(b) for the sums so payable in respect of different contracts between the same parties to be aggregated or set off so as to produce a net sum; and

(c) for the certification by or on behalf of the [UK RIE] of the net sum payable or, as the case may be, of the fact that no sum is payable.

(3) The reference in sub-paragraph (2) to rights and liabilities between those party as principal to unsettled *market contracts* does not include rights and liabilities –

(a) in respect of margin; or

(b) arising out of a failure to perform a *market contract*.

(4) The [*default rules*] may make the same or similar provision, in relation to [*designated non-members*] designated in accordance with the procedures mentioned in subparagraph (5), as in relation to *members* of the [*UK RIE*].

(5) If such provision is made as is mentioned in subparagraph (4), the [*UK RIE*] must have adequate procedures –

(a) for designating the *persons*, or descriptions of person, in respect of whom action may be taken;

(b) for keeping under review the question which *persons* or descriptions of person should be or remain so designated; and

(c) for withdrawing such designation.

(6) The procedures must be designed to secure that –

(a) a *person* is not, or does not remain, designated if failure by him to meet his obligations in respect of one or more *market contracts* would be unlikely adversely to affect the operation of the market; and

(b) a description of persons is not, or does not remain, designated if failure by a *person* of that description to meet his obligations in respect of one or more *market contracts* would be unlikely adversely to affect the operation of the market.

(7) The [*UK RIE*] must have adequate arrangements –

(a) for bringing a designation or withdrawal of designation to the attention of the *person* or description of persons concerned; and

(b) where a description of *persons* is designated, or the designation of a description of persons is withdrawn, for ascertaining which *persons* fall within that description.

Paragraph 12 (Content of rules)

(1) This paragraph applies as regards contracts falling within section 155(2)(b) of the Companies Act [1989].

(2) The [*default rules*] must provide –

(a) for all rights and liabilities of the defaulter under or in respect of unsettled *market contracts* to be discharged and for there to be paid by or to the defaulter such sum of money (if any) as may be determined in accordance with the [*default rules*];

(b) for the sums so payable by or to the defaulter in respect of different contracts to be aggregated or set off so as to produce a net sum;

(c) for that sum –

(i) if payable by the defaulter to the [UK RIE], to be set off against any property provided by or on behalf of the defaulter as cover for margin (or the proceeds of realisation of such property) so as to produce a further net sum;

(ii) if payable by the [UK RIE] to the defaulter, to be aggregated with any property provided by or on behalf of the defaulter as cover for margin (or the proceeds of realisation of such property); and

(d) for the certification by or on behalf of the [UK RIE] of the sum finally payable or, as the case may be, of the fact that no sum is payable.

(3) The reference in sub-paragraph (2) to the rights and liabilities of a defaulter under or in respect of an unsettled *market contract* includes (without prejudice to the generality of that provision) rights and liabilities arising in consequence of action taken under provisions of the [default rules] authorising –

(a) the effecting by the [UK RIE] of corresponding contracts in relation to unsettled *market contracts* to which the defaulter is party;

(b) the transfer of the defaulter's position under an unsettled *market contract* to another *member* of the [UK RIE];

(c) the exercise by the UK RIE of any *option* granted by an unsettled *market contract*.

(4) A “corresponding contract” means a contract on the same terms (except as to price or premium) as the *market contract* but under which the *person* who is the buyer under the *market contract* agrees to sell and the *person* who is the seller under the *market contract* agrees to buy.

(5) Sub-paragraph (4) applies with any necessary modifications in relation to a *market contract* which is not an agreement to sell.

(6) The reference in sub-paragraph (2) to the rights and liabilities of a defaulter under or in respect of an unsettled *market contract* does not include, where he acts as agent, rights or liabilities of his arising out of the relationship of principal and agent.

Paragraph 13 (Notification to other parties affected)

The [UK RIE] must have adequate arrangements for ensuring that –

(a) in the case of unsettled *market contracts* with a defaulter acting as principal, parties to the contract are notified as soon as reasonably practicable of the default and of any decision taken under the [default rules] in relation to contracts to which they are a party; and

(b) in the case of unsettled *market contracts* with a defaulter acting as agent, parties to the contract and the defaulter's principals are notified as soon as reasonably practicable of the default and of the identity of the other parties to the contract.

Paragraph 14 (Cooperation with other authorities)

The [UK RIE] must be able and willing to cooperate, by the sharing of information and otherwise, with the Secretary of State, any *relevant office-holder* ... and any other authority or body having responsibility for any matter arising out of, or connected with, the default of a *member* of the [UK RIE] or any [*designated non-member*].

Paragraph 15 (Margin)

(1) Where the [UK RIE] provides clearing services, the [*default rules*] of the [UK RIE] must provide that in the event of a default, margin provided by the defaulter for his own account is not to be applied to meet a shortfall on a *client* account.

(2) This paragraph is without prejudice to the requirements of any *rules* relating to clients' money made by the [FSA] under sections 138 and 139 of the *Act*.

2.17.3

Table Schedule to the Recognition Requirements Regulations, Part IV

/1

Paragraph 24 (Default rules in respect of market contracts)

(1) The [UK RCH] must have *default rules* which, in the event of a *member* of the [UK RCH] being or appearing to be unable to meet his obligations in respect of one or more *market contracts*, enable action to be taken to close out his position in relation to all unsettled *market contracts* to which he is a party.

(2) The [*default rules*] may authorise the taking of the same or similar action where a *member* appears to be likely to become unable to meet his obligations in respect of one or more *market contracts*.

Paragraph 25 (Content of rules)

(1) The [*default rules*] must provide –

(a) for all rights and liabilities of the defaulter under or in respect of unsettled *market contracts* to be discharged and for there to be paid by or to the defaulter such sum of money (if any) as may be determined in accordance with the [*default rules*];

(b) for the sums so payable by or to the defaulter in respect of different contracts to be aggregated or set off so as to produce a net sum;

(c) for that sum –

(i) if payable by the defaulter to the [UK RCH], to be set off against any property provided by or on behalf of the defaulter as cover for margin (or the proceeds of realisation of such property) so as to produce a further net sum;

(ii) if payable by the [UK RCH] to the defaulter, to be aggregated with any property provided by or on behalf of the defaulter as cover for margin (or the proceeds of realisation of such property); and

(d) for the certification by or on behalf of the [UK RCH] of the sum finally payable or, as the case may be, of the fact that no sum is payable.

(2) The reference in sub-paragraph (1) to the rights and liabilities of a defaulter under or in respect of an unsettled *market contract* includes (without prejudice to the generality of that provision) rights and liabilities arising in consequence of action taken under provisions of the [default rules] authorising –

(a) the effecting by the [UK RCH] of corresponding contracts in relation to unsettled *market contracts* to which the defaulter is party;

(b) the transfer of the defaulter's position under an unsettled *market contract* to another *member* of the [UK RCH];

(c) the exercise by the [UK RCH] of any *option* granted by an unsettled *market contract*.

(3) A “corresponding contract” means a contract on the same terms (except as to price or premium) as the *market contract* but under which the *person* who is the buyer under the *market contract* agrees to sell and the *person* who is the seller under the *market contract* agrees to buy.

(4) Sub-paragraph (3) applies with any necessary modifications in relation to a *market contract* which is not an agreement to sell.

(5) The reference in sub-paragraph (1) to the rights and liabilities of a defaulter under or in respect of an unsettled *market contract* does not include, where he acts as agent, rights or liabilities of his arising out of the relationship of principal and agent.

Paragraph 26 (Notification to other parties affected)

The [UK RCH] must have adequate arrangements for ensuring that parties to unsettled *market contracts* with a defaulter are notified as soon as reasonably practicable of the default and of any decision taken under the [default rules] in relation to contracts to which they are a party.

Paragraph 27 (Cooperation with other authorities)

The [UK RCH] must be able and willing to cooperate, by the sharing of information and otherwise, with the Secretary of State, any *relevant office-holder* ... and any other authority or body having responsibility for any matter arising out of or connected with the default of a *member* of the [UK RCH].

Paragraph 28 (Margin)

(1) The [*default rules*] of the [UK RCH] must provide that in the event of a default, margin provided by the defaulter for his own account is not to be applied to meet a shortfall on a *client* account.

(2) This paragraph is without prejudice to the requirements of any *rules* relating to clients' money made by the [FSA] under sections 138 and 139 of the Act.

- 2.17.4 G_{/1} UK RIEs which, under their rules, have *market contracts* and UK RCHs which, under their rules, enter into *market contracts* are required to have *default rules*. The *default rules* must enable the UK recognised body to take action in relation to a *member* or, for an RIE, a *designated non-member*, who appears unable, or likely to become unable, to meet his obligations in respect of one or more unsettled *market contracts*.
- 2.17.5 G_{/1} This action is to provide for all rights and liabilities of the defaulter and any counterparty to an unsettled *market contract* to be discharged and for there to be paid between the defaulter and each counterparty one sum representing the net amount of all the contracts between them. Where property has been provided by the defaulter as cover for margin, that property may be set off against any amount owing by the defaulter. At the conclusion of this process, the UK recognised body must certify the sum finally payable in each case.
- 2.17.6 G_{/1} The Companies Act 1989 contains provisions which protect action taken by a UK recognised body under its *default rules* from the normal operation of insolvency law which might otherwise leave this action open to challenge by a *relevant office-holder*.

Chapter 3

NOTIFICATION RULES FOR UK RECOGNISED BODIES

3.1 Application and purpose

Application

- 3.1.1** **R** (1) The *notification rules* in this chapter, which are made under section 293 of the *Act* (Notification requirements), apply to all *UK recognised bodies*.
- 3.1.2** **G** (2) The *rules* relating to the form and method of notification in *REC 3.2* also apply to *overseas recognised bodies*.

R
/1

G
/1

G
/1

Purpose

- 3.1.4** **G** The *notification rules* in this chapter are made by the *FSA* in order to ensure that it is provided with notice of events and information which it reasonably requires for the exercise of its functions under the *Act*.

G
/1

3.2 Form and method of notification

Form of notification

3.2.1 **R** /1 Where a *recognised body* is required to give any notice or information under any *notification rule*, it may do so (unless that *rule* expressly provides otherwise) orally or in writing, whichever is the more appropriate in the circumstances, but, where it gives notice or information orally, it must confirm that notice or information in writing promptly.

Method of notification

3.2.2 **R** /1 Unless otherwise stated in the *notification rule*, a written notification required from a *recognised body* under any *notification rule* must be:

- (1) given to, or addressed for the attention of, the *recognised body's* usual supervisory contact at the *FSA*;
- (2) delivered to the *FSA* by one of the methods in *REC 3.2.3R*.

3.2.3 **R** /1 Table Methods of notification

Method of delivery	
(1)	<i>Post</i> to the address in <i>REC 3.2.4R</i>
(2)	Leaving the notification at the address in <i>REC 3.2.4R</i> and obtaining a time-stamped receipt
(3)	Electronic mail to an address for the <i>recognised body's</i> usual supervisory contact at the <i>FSA</i> and obtaining an electronic confirmation of receipt
(4)	Hand delivery to the <i>recognised body's</i> usual supervisory contact at the <i>FSA</i>
(5)	Fax to a fax number for the <i>recognised body's</i> usual supervisory contact at the <i>FSA</i> , provided that the <i>FSA</i> receives a copy of the notification by one of methods (1) – (4) in this table within five <i>business days</i> after the date of the faxed notification

3.2.4

R

^{/1}

The address for a written notification to the *FSA* is:

The Financial Services Authority

25 The North Colonnade

Canary Wharf

London E14 5HS

Timely notification

3.2.5

R

^{/1}

If a *notification rule* requires notification within a specified period:

- (1) the *recognised body* must give the notification so as to be received by the *FSA* no later than the end of that period; and
- (2) if the end of that period falls on a *day* which is not a *business day*, the notification must be given so as to be received by the *FSA* no later than the first *business day* after the end of that period.

Service of Notice Regulations

3.2.6

G

^{/1}

The Financial Services and Markets Act 2000 (Service of Notices) Regulations 2001 (SI 2001/1420) contain provisions relating to the service of documents on the *FSA*. They do not apply to notifications required under the *notification rules* in this chapter and in *REC 6* because of the specific *rules* in this section.

3.3 Waivers

Statutory power

- 3.3.1** **G**_{/1} Under section 294 of the *Act* (Modification or waiver of rules), the *FSA* may, on the application or with the consent of a *recognised body* (including an *overseas recognised body*), direct that any *notification rule* is not to apply to the body or is to apply with such modifications as may be specified in the *waiver*.
- 3.3.2** **G** A *waiver* given under section 294 of the *Act* may be made subject to conditions.
- 3.3.3** **G**_{/1} Under section 294(4) of the *Act*, before the *FSA* may give a *waiver of notification rules*, it must be satisfied that:
- (1) compliance by the *recognised body* with those *notification rules*, or with those *rules* as unmodified, would be unduly burdensome or would not achieve the purpose for which those *rules* were made; and
 - (2) the *waiver* would not result in undue risk to *persons* whose interests those *rules* are designed to protect.

Applications

- 3.3.4** **G**_{/1} Where a *recognised body* wishes to make an application to the *FSA* for a *waiver of a notification rule*, it should in the first instance inform its usual supervisory contact at the *FSA*.
- 3.3.5** **G**_{/1} There is no application form, but applicants should make their application formally and in writing and in accordance with any direction the *FSA* may make under section 294(2) of the *Act*. Each application should set out at least:
- (1) full particulars of the *waiver* which is requested;
 - (2) the reason why the *recognised body* believes that the criteria set out in section 294(4) (and described in *REC 3.3.3G*) would be met, if this *waiver* were granted; and
 - (3) where the *recognised body* believes that these criteria would be met if the *FSA* gave a *waiver* under section 294 subject to any condition, particulars of the kind of condition contemplated.
- 3.3.6** **G**_{/1} The *FSA* may request further information from the applicant, before deciding whether to give a *waiver* under section 294 of the *Act*.

Waivers

3.3.7 G_{/1} Any *waiver* given by the *FSA* under section 294 of the *Act* will be made in writing, stating:

- (1) the name of the *recognised body* in respect of which the *waiver* is made;
- (2) the *notification rules* which are to be waived or modified in respect of that body;
- (3) where relevant, the manner in which any *rule* is to be modified;
- (4) any condition or time limit to which the *waiver* is subject; and
- (5) the date from which the *waiver* is to take effect.

3.3.8 G_{/1} Where the *FSA* considers that it will not give the *waiver* which has been applied for, the *FSA* will give reasons to the applicant for its decision. The *FSA* will endeavour, where practicable, to inform an applicant in advance where it seems that an application is likely to fail unless it is amended or expanded, so that the applicant will have the opportunity to make any necessary amendments or additions before the application is considered.

3.3.9 G_{/1} Where the *FSA* wishes to give a *waiver* under section 294 of the *Act* with the consent of a *recognised body* (rather than on the application of a *recognised body*), the *FSA* will correspond or discuss this with that body in order to agree an appropriate *waiver*.

Reviews of waivers

3.3.10 G_{/1} The *FSA* will periodically review any *waiver* it has given. The *FSA* has the right to revoke a *waiver* under section 294(6) of the *Act*. This right is likely to be exercised in the event of a material change in the circumstances of the *recognised body* or in any fact on the basis of which the *waiver* was given.

3.4 Key individuals and internal organisation

Purpose

3.4.1

G

/1

The purpose of *REC 3.4* is to enable the *FSA* to monitor changes in the arrangements a *UK recognised body* makes for the carrying out of its *relevant functions* or for overseeing the work of *key individuals* or departments responsible for its *relevant functions*.

Key individuals

3.4.2

R

/1

Where, in relation to a *UK recognised body*, a *person* has been appointed or elected, has resigned as, or has ceased to be, a *key individual*, that *UK recognised body* must immediately give notice of that event, and give the information specified for the purposes of this rule in *REC 3.4.4R* to the *FSA*.

3.4.3

G

/1

- (1) *Key individuals* include the *persons* who, under the operational or managerial arrangements of the *UK recognised body*, are appointed to manage the departments responsible for carrying out its *relevant functions*, whether or not they are members of its *governing body*. A *person* appointed to carry out specific tasks, such as to conduct a particular investigation into a specific set of facts, would not usually be a *key individual*.
- (2) A *key individual* need not be an *employee* of a *UK recognised body*. For example, an *employee* of an *undertaking* in the same *group* or a self-employed contractor of a *UK recognised body* might be a *key individual*, depending on the role he plays in that body.
- (3) A department of a *UK recognised body* should be regarded as responsible for carrying out a *relevant function* if it is responsible for any activity or activities which form a significant part of a *relevant function* or which make a significant contribution to the performance of a *relevant function*.
- (4) The *FSA* does not need to be notified where minor changes are made to the responsibilities of a *key individual*, but where a major change in responsibilities is made which amounts to a new appointment, the *FSA* should be notified under *REC 3.4.2R*.

3.4.4

R

/1

The following information is specified for the purposes of *REC 3.4.2R*:

- (1) where a *person* has been appointed or elected as a *key individual*:

- (a) that *person's* name;
 - (b) his date of birth;
 - (c) a description of the responsibilities which he will have in the post to which he has been appointed or elected; or
- (2) where a *person* has resigned as or otherwise ceased to be a *key individual*, that *person's* name.

Standing committees

3.4.5

R
/1

Where the *governing body* of a *UK recognised body* delegates any of its functions (which relate to that *UK recognised body's relevant functions*) to a standing committee, or appoints a standing committee to manage or oversee the carrying out of any of that *UK recognised body's relevant functions*, that *UK recognised body* must immediately notify the *FSA* of that event and give the *FSA* the following information:

- (1) the names of the members of that standing committee; and
- (2) the terms of reference of that standing committee (including a description of any powers delegated to that committee and any conditions or limitations placed on the exercise of those powers).

3.4.6

R
/1

Where:

- (1) there is any change in the composition or the terms of reference of any standing committee referred to in *REC 3.4.5R*; or
- (2) any such committee is dissolved;

the *UK recognised body* must immediately notify the *FSA* of that event and give particulars of any change referred to in (1) to the *FSA*.

3.4.7

G
/1

- (1) Standing committees include permanent committees with executive, supervisory, policy-making or rule-making responsibilities. Committees appointed for particular tasks or committees established for purely consultative or advisory purposes would not usually be considered to be standing committees.
- (2) Committees which include *persons* who are not members of the *governing body* can be standing committees.

3.5 Disciplinary action and events relating to key individuals

Disciplinary action

3.5.1

R

Where any *key individual* of a *UK recognised body*:

/1

- (1) is the subject of any disciplinary action because of concerns about his alleged misconduct;
- (2) resigns as a result of an investigation into his alleged misconduct; or
- (3) is dismissed for misconduct;

that body must immediately give the *FSA* notice of that event, and give the information specified for the purposes of this *rule* in *REC* 3.5.2R.

3.5.2

R

The following information is specified for the purposes of *REC* 3.5.1R:

/1

- (1) the name of the *key individual* and his responsibilities within the *UK recognised body*;
- (2) details of the acts or alleged acts of misconduct by that *key individual*; and
- (3) details of any disciplinary action which has been or is proposed to be taken by that body in relation to that *key individual*.

Other events

3.5.3

R

Where a *UK recognised body* becomes aware that any of the following events has occurred in relation to a *key individual*, it must immediately give the *FSA* notice of that event:

/1

- (1) a petition for bankruptcy is presented (or similar or analogous proceedings under the law of a jurisdiction outside the *United Kingdom* are commenced) against that *key individual*; or

- (2) a bankruptcy order (or a similar or analogous order under the law of a jurisdiction outside the *United Kingdom*) is made against him; or
- (3) he enters into a voluntary arrangement (or a similar or analogous arrangement under the law of a jurisdiction outside the *United Kingdom*) with his creditors.

3.6 Constitution and governance

3.6.1 **R** ^{/1} Where a *UK recognised body* is to circulate any notice or other *document* proposing any amendment to its memorandum or articles of association (or other similar agreement or *document* relating to its constitution) to:

- (1) its shareholders (or any group or class of them); or
- (2) its *members* (or any group or class of them); or
- (3) any other group or class of *persons* which has the power to make that amendment or whose consent or approval is required before it may be made;

that *UK recognised body* must give notice of that proposed amendment, and give the information specified for the purposes of this *rule* in *REC* 3.6.2R to the *FSA*, at the same time as that notice or *document* is circulated.

3.6.2 **R** ^{/1} The following information is specified for the purposes of *REC* 3.6.1R:

- (1) the proposed amendments referred to in *REC* 3.6.1R;
- (2) the reasons for the proposal; and
- (3) a description of the group or class of *persons* to whom the proposal is to be circulated.

3.6.3 **G** ^{/1} A *UK recognised body* which is incorporated as a *company* in the *United Kingdom* will, in many circumstances, be able to comply with *REC* 3.6.1R by providing a copy of the notice of special resolution issued to its shareholders.

3.6.4 **R** ^{/1} Where a *UK recognised body* makes an amendment to its memorandum or articles of association (or other similar agreement or *document* relating to its constitution), that *UK recognised body* must immediately give the *FSA* notice of that event, and give written particulars of that amendment and of the date on which it is to become or became effective.

3.6.5 **G** ^{/1} A *UK recognised body* which is incorporated as a *company* in the *United Kingdom* will, in many circumstances, be able to comply with *REC* 3.6.4R by providing a copy of the special resolution effecting the amendment.

3.6.6

R

/1

Where any change is made to an agreement which relates to the constitution or governance of a *UK recognised body*:

- (1) between that *UK recognised body* and another *person*; or
- (2) between the owners of that *UK recognised body*; or
- (3) between the owners of that *UK recognised body* and another *person*; or
- (4) between other *persons*;

that *UK recognised body* must give the *FSA* notice of that event as soon as it is aware of it, and give written particulars of that change and of the date on which it is to become or became effective.

3.6.7

G

/1

The purpose of *REC 3.6.6R* is to ensure that the *FSA* is informed of changes to agreements which specify the arrangements by which a *UK recognised body* will be governed or by which important decisions will be taken within that body. It is not intended to cover any agreement by which someone is appointed to be a *key individual* or which covers the terms and conditions of service in such an appointment.

3.7 Auditors

3.7.1

R

/1

Where the auditors of a *UK recognised body* cease to act as such, that *UK recognised body* must immediately give the *FSA* notice of that event, and the following information:

- (1) whether the appointment of those auditors expired or was terminated;
- (2) the date on which they ceased to act; and
- (3) if it terminated, or decided not to renew, their appointment, its reasons for taking that action or decision.

3.7.2

R

/1

Where a *UK recognised body* appoints new auditors, that body must immediately give the *FSA* notice of that event, and the following information:

- (1) the name and business address of those new auditors; and
- (2) the date of their appointment as auditors.

3.8 Financial and other information

- 3.8.1** **R** A UK recognised body must give the FSA:
/1
- (1) a copy of its *annual report and accounts*; and
 - (2) a copy of the consolidated *annual report and accounts*:
 - (a) of any *group* in which the UK recognised body is a *subsidiary undertaking*; or
 - (b) (if the UK recognised body is not a *subsidiary undertaking* in any *group*) of any *group* of which the UK recognised body is a *parent undertaking*;
- no later than the time specified for the purpose of this *rule* in REC 3.8.2R.
- 3.8.2** **R** The time specified for the purpose of REC 3.8.1R is the latest of:
/1
- (1) four months after the end of the financial year to which the *document* which is to be given to the FSA relates; or
 - (2) the time when the *documents* described in REC 3.8.1R(1) or REC 3.8.1R(2)(b) are sent to the *members* or shareholders of the UK recognised body; or
 - (3) the time when the *document* described in REC 3.8.1R(2)(a) are sent to the shareholders in a *parent undertaking* of the *group* to which that *document* relates.
- 3.8.3** **R** Where an audit committee of a UK recognised body has prepared a report in relation to any period or any matter relating to any *relevant function* of that UK recognised body, the UK recognised body must immediately give the FSA a copy of that report.
/1
- 3.8.4** **R** A UK recognised body must give the FSA a copy of:
/1
- (1) its quarterly *management accounts*; or
 - (2) its monthly *management accounts*;
- within one month of the end of the period to which they relate.

3.8.5 **G**_{/1} A *UK recognised body* is not required to provide quarterly and monthly *management accounts* in respect of the same period, but *management accounts* (whether quarterly or monthly) should be submitted for all periods. A *UK recognised body* may choose whichever method is the more suitable for it, but where it intends to change from providing monthly to quarterly *management accounts* (or from quarterly to monthly *management accounts*), it should inform the FSA of that fact.

3.8.6 **R**_{/1} A *UK recognised body* must give the FSA:

- (1) a statement of its anticipated income, expenditure and cashflow for each financial year; and
- (2) an estimated balance sheet showing its position as it is anticipated at the end of each financial year;

before the beginning of that financial year.

3.8.7 **R**_{/1} Where the *accounting reference date* of a *UK recognised body* is changed, that body must immediately give notice of that event to the FSA and inform it of the new *accounting reference date*.

3.9 Fees and incentive schemes

- 3.9.1** **G** _{/1} The purpose of *REC 3.9.2R* is to enable the *FSA* to obtain information on changes to standard tariffs for matters such as *membership* and trading and of any scheme introduced by the *UK recognised body* for rebating or waiving fees or charges. A *UK recognised body* is not required to inform the *FSA* of fees or charges for which the *UK recognised body* does not charge according to a standard tariff.
- 3.9.2** **R** _{/1} A *UK recognised body* must give the *FSA* a summary of:
- (1) any proposal to change the fees or charges levied on its *members* (or any group or class of them), at the same time as the proposal is communicated to those *members*; and
 - (2) any such change, no later than the date when it is published or notified to those *members*.

3.10 Complaints

3.10.1

R

^{/1}

Where a *UK recognised body's complaints investigator* has investigated a complaint arising in connection with the performance of, or failure to perform, any of its *regulatory functions*, and that *complaints investigator* has made a recommendation in respect of that complaint that the *UK recognised body* should:

- (1) make a compensatory payment to any *person*; or
- (2) remedy the matter which was the subject of that complaint;

the *UK recognised body* must immediately notify the *FSA* of that event, and give the *FSA* a copy of the *complaints investigator's* report and particulars of his recommendations as soon as that report or those recommendations are available to it.

3.11 Insolvency events

3.11.1

R

/1

On:

- (1) the presentation of a petition for the winding up of a *UK recognised body* (or the commencement of any similar or analogous proceedings under the law of a jurisdiction outside the *United Kingdom*); or
- (2) the appointment of a receiver, administrator, liquidator, trustee or sequestrator of assets of that body (or of any similar or analogous appointment under the laws of a jurisdiction outside the *United Kingdom*); or
- (3) the making of a voluntary arrangement by that body with its creditors (or of any similar or analogous arrangement under the law of a jurisdiction outside the *United Kingdom*);

that body must immediately give the *FSA* notice of that event.

3.12 Legal proceedings

3.12.1

R

/1

If any civil or criminal legal proceedings are instituted against a *UK recognised body*, it must, unless *REC 3.12.2R* applies, immediately give notice of that event and give the following information to the *FSA*:

- (1) in the case of civil proceedings, the name of the claimant, particulars of the claim, the amount of damages and any other remedy sought by the claimant, and particulars of any allegation that any act or omission of that body was in bad faith; and
- (2) in the case of criminal proceedings, particulars of the offence with which that body is charged.

3.12.2

R

/1

A *UK recognised body* is not required to give notice of civil legal proceedings or information about them to the *FSA* under *REC 3.12.1R*, where:

- (1) the amount of damages claimed would not significantly affect that *UK recognised body's* financial resources, if the claim were successful;
- (2) the claim would not have a significant adverse effect on the reputation and standing of that body, if that claim were successful; and
- (3) the claim does not relate to that body's *regulatory functions*.

3.13 Delegation of relevant functions

- 3.13.1** **G**^{/1} (1) The purpose of *REC 3.13* is to enable the *FSA* to monitor any significant instances where *UK recognised bodies* outsource their functions to other *persons* (as they are permitted to do under Regulation 6 of the *Recognition Requirements Regulations* – see *REC 2.2*).
- (2) The *FSA* does not need to be notified of every instance of outsourcing by a *UK recognised body*, but only where an activity or activities which form a significant part of a *relevant function* or which make a significant contribution to the performance of a *relevant function* are outsourced.
- 3.13.2** **R**^{/1} Where a *UK recognised body* makes an offer or agrees to delegate any of its *relevant functions* to another *person*, it must immediately give the *FSA* notice of that event, and:
- (1) inform the *FSA* of the reasons for that delegation or proposed delegation;
- (2) inform the *FSA* of the reasons why it is satisfied that it will continue to meet the *recognition requirements* following that delegation;
- (3) where it makes such an offer by issuing a written invitation to tender to another body or *person*, give the *FSA* a copy of that invitation to tender; and
- (4) where it makes such an agreement, give the *FSA* a copy of that agreement.
- 3.13.3** **R**^{/1} A *UK recognised body* must immediately give the *FSA* notice, where it makes an offer or agrees to undertake any *relevant function* of another *UK recognised body*.

3.14 Products, services and normal hours of operation

Purpose

3.14.1

G

^{/1}

The purpose of *REC 3.14* is to ensure that the *FSA* is informed of planned changes to the services a *UK recognised body* intends to provide and of the normal hours of operation of those services. Unplanned suspensions of those services, unplanned changes in hours of operation and events causing a *UK recognised body* to be unable to provide those services should be notified to the *FSA* under the *rules* in *REC 3.15*.

Products and services

3.14.2

R

^{/1}

Where a *UK RIE* proposes to *admit to trading* (or to cease to *admit to trading*) by means of its *facilities*:

- (1) a *specified investment* (other than a *security* or an *option* in relation to a *security*); or
- (2) a type of *security* or a type of *option* in relation to a *security*;

it must give the *FSA* notice of that event, and the information specified for the purposes of this *rule* in *REC 3.14.6R* to the *FSA*, at the same time as that proposal is first formally communicated to its *members* or shareholders (or any group or class of them).

3.14.3

R

^{/1}

Where a *UK recognised body* proposes to provide (or to cease to provide) clearing services in respect of:

- (1) a *specified investment* (other than a *security* or an *option* in relation to a *security*); or
- (2) a type of *security* or a type of *option* in relation to a *security*;

it must, unless *REC 3.14.4R* applies, give the *FSA* notice of that event and the information specified for the purposes of this *rule* in *REC 3.14.6R*, at the same time as that proposal is first formally communicated to its *members* or shareholders (or any group or class of them).

3.14.4 **R** _{/1} A *UK RCH* is not required to give the *FSA* notice or information under *REC 3.14.3R* where it proposes to offer (or to cease to offer) clearing services under an agreement with a *UK RIE* in respect of a *specified investment* for which that *UK RIE* is required to give the *FSA* notice under *REC 3.14.2R* , provided that the *UK RIE* has given the *FSA* the information specified in *REC 3.14.6R(3)*.

3.14.5 **G** _{/1} *Securities* falling within the same article in Part III of the *Regulated Activities Order* which may be given the same generic description (for example, *shares* admitted to the *UK official list*) will normally be regarded as being of the same type. *Options* in relation to the same type of *security* will normally be regarded as being *options* of the same type.

3.14.6 **R** _{/1} The following information is specified for the purposes of *REC 3.14.2R* and *REC 3.14.3R*:

- (1) a description of the *specified investment* to which the proposal relates;
- (2) where that *specified investment* is a *derivative*, the proposed terms of that *derivative*; and
- (3) in the case of a *UK RIE* which is admitting that *specified investment* to trading, the name of any *RCH* which will provide clearing services in respect of that *specified investment* under an agreement with that *UK RIE*.

3.14.7 **R** _{/1} Where:

- (1) a *UK RIE* proposes to amend the standard terms of any *derivative admitted to trading* by means of its *facilities*; or
- (2) a *UK recognised body* proposes to amend the standard terms relating to the provision of clearing services for any *derivative* in respect of which it provides clearing services;

it must give the *FSA* notice of that event, and written particulars of those proposed amendments, at the same time as that proposal is first formally communicated to its *members* or shareholders (or any group or class of them).

3.14.8 **R** _{/1} Where a *UK recognised body* proposes to make (or to cease to make) arrangements for the safeguarding and administration of assets belonging to any other *person* (other than an *undertaking* in the same *group*), that *recognised body* must give the *FSA* notice of that event, and the information specified for the purposes of this *rule* in *REC 3.14.9R*, at the same time as that proposal is first formally communicated to its *members* or shareholders (or any group or class of them).

3.14.9 **R** _{/1} The following information is specified for the purposes of *REC 3.14.8R*:

- (1) a description of the assets (or types of assets) to which the proposal relates; and
- (2) the date or dates on which arrangements referred to in *REC 3.14.8R* will be made (or cease to be made).

3.14.10

G

^{/1}

The *FSA* does not need to be notified of proposals to offer (or to withdraw offers of) safeguarding and administration services for individual assets of the same type. *Specified investments* (other than *securities*) falling within the same article in Part III of the *Regulated Activities Order* will normally be regarded as being of the same type. *Securities* falling within the same article in Part III of the *Regulated Activities Order* which may be given the same generic description (for example, *shares* admitted to the *UK official list*) will also normally be regarded as being of the same type.

Hours of operation

3.14.11

R

^{/1}

Where a *UK recognised body* proposes to change its normal hours of operation, it must give the *FSA* notice of that proposal, and particulars of, and the reasons for, the actions proposed, at the same time as the proposal is first formally communicated to its *members* or shareholders, or any group or class of them.

3.15 Suspension of services and inability to operate facilities

Purpose

- 3.15.1** **G**
/1
- (1) The purpose of *REC 3.15.2R* to *REC 3.15.5G* is to enable the *FSA* to obtain information where a *UK recognised body* decides to suspend the provision of its services in relation to particular *investments*. Planned changes to the provision of services should be notified to the *FSA* under *REC 3.14*.
 - (2) *REC 3.15.6R* to *REC 3.15.7R* provide for notification to the *FSA* where a *UK recognised body* is unable to operate or provide its *facilities* for reasons outside its control or where it decides to extend its hours of operation in an emergency.

Suspension of services

- 3.15.2** **R**
/1
- Where, for any reason, an *RIE*:
- (1) suspends trading in any *derivative* (other than an *option* in relation to a *security*), in any type of *security* or in any type of *option* in relation to a *security*; or
 - (2) temporarily calls a trading halt in respect of any type of *security* or in any type of *option* in relation to a *security*;

it must immediately give the *FSA* notice of that event, particulars of that *derivative*, type of *security* or type of *option* in relation to a *security*, as the case may be, and the reasons for the action taken.

- 3.15.3** **R**
/1
- Where a *UK recognised body* suspends providing clearing services generally in respect of any *derivative* (other than an *option* in relation to a *security*), type of *security* or type of *option* in relation to a *security*, it must immediately give the *FSA* notice of that event, particulars of that *derivative*, type of *security* or type of *option* in relation to a *security*, as the case may be, and the reasons for the action taken.

- 3.15.4** **R**
/1
- Where a *UK recognised body* suspends any arrangements it makes for the safeguarding and administration of any type of asset belonging to any other *person* (other than an *undertaking* in the same *group*), that *UK recognised body* must immediately give the *FSA* notice of that

event, particulars of that type of asset and the reasons for the action taken.

3.15.5

G

^{/1}

Specified investments (other than *securities* or *options* in relation to *securities*) falling within the same article in Part III of the *Regulated Activities Order* will normally be regarded as being assets of the same type. *Securities* falling within the same article in Part III of the *Regulated Activities Order* which may be given the same generic description (for example, *shares* admitted to the *UK official list*) will normally be regarded as being of the same type. *Options* in relation to the same type of *security* will normally be regarded as being *options* of the same type.

Inability to operate facilities

3.15.6

R

^{/1}

Where, because of the occurrence of any event or circumstances, a *UK recognised body* is unable to operate any of its *facilities* within its normal hours of operation, it must immediately give the *FSA* notice of that inability and inform the *FSA*:

- (1) which *facility* it is unable to operate;
- (2) what event or circumstance has caused it to become unable to operate that *facility* within those hours; and
- (3) what action, if any, it is taking or proposes to take to enable it to recommence operating that *facility*.

Extension of hours of operation

3.15.7

R

^{/1}

Where, because of the occurrence of any event or circumstances, a *UK recognised body* extends its hours of operation, it must immediately give the *FSA* notice of that event, and inform the *FSA*:

- (1) what event or circumstance has caused it to do so;
- (2) the new hours of operation; and
- (3) the date on which it expects to revert to its normal hours of operation.

3.16 Information technology systems

- 3.16.1** **G**_{/1} The purpose of *REC 3.16* is to ensure that the *FSA* receives a copy of the *UK recognised body's* plans and arrangements for ensuring business continuity if there are major problems with its computer systems. The *FSA* does not need to be notified of minor revisions to, or updating of, the *documents* containing a *UK recognised body's* business continuity plan (for example, changes to contact names or telephone numbers).
- 3.16.2** **R**_{/1} Where a *UK recognised body* changes any of its plans for action in the event of a failure of any of its information technology systems resulting in disruption to the operation of its *facilities*, it must immediately give the *FSA* notice of that event, and a copy of the new plan.
- 3.16.3** **R**_{/1} Where any reserve information technology system of a *UK recognised body* fails in such a way that, if the main information technology system of that body were also to fail, it would be unable to operate any of its *facilities* during its normal hours of operation, that body must immediately give the *FSA* notice of that event, and inform the *FSA*:
- (1) what action that *UK recognised body* is taking to restore the operation of the reserve information technology system; and
 - (2) when it is expected that the operation of that system will be restored.

3.17 Inability to discharge regulatory functions

3.17.1

R

^{/1}

Where, because of the occurrence of any event or circumstances, a *UK recognised body* is unable to discharge any *regulatory function*, it must immediately give the *FSA* notice of its inability to discharge that function, and inform the *FSA*:

- (1) what event or circumstance has caused it to become unable to do so;
- (2) which of its *regulatory functions* it is unable to discharge; and
- (3) what action, if any, it is taking or proposes to take to deal with the situation and, in particular, to enable it to recommence discharging that *regulatory function*.

3.18 Membership

3.18.1

G
/1

- (1) The purpose of REC 3.18 is to enable the FSA to monitor changes in the types of *member* admitted by *UK recognised bodies* and to ensure that the FSA has notice of foreign jurisdictions in which the *members* of *UK recognised bodies* are based. *UK recognised bodies* may admit *persons* who are not *authorised persons* or *persons* who are not located in the *United Kingdom*, provided that the *recognition requirements* continue to be met.
- (2) REC 3.18.2R focuses on the admission of *persons* who are not *authorised persons* (whether or not they are located in the *United Kingdom*) and on whether the specific *recognition requirement* relating to access to *facilities* can still be met. REC 3.18.3R focuses on the admission of *members* from outside the UK and whether all relevant *recognition requirements* can be met.
- (3) The information required under REC 3.18 is relevant to the FSA's supervision of the *UK recognised body's* obligations in relation to the enforceability of compliance with the *UK recognised body's rules*. It is also relevant to the FSA's broader responsibilities concerning market confidence and, in particular, its functions in relation to *market abuse* and *financial crime*. It may also be necessary in the case of *members* based outside the *United Kingdom* to examine the implications for the enforceability of *default rules* or collateral and the settlement of transactions, and thus the ability of the *UK recognised body* to continue to meet the *recognition requirements*. It follows that the admission of a *member* from outside the *United Kingdom* who is not an *authorised person* could require notification under both REC 3.18.2R and REC 3.18.3R, although a single report from the *UK recognised body* covering both notifications would be acceptable to the FSA.

3.18.2

R
/1

Where a *UK recognised body* admits a *member* who is not an *authorised person* of a type of which, immediately before that time, that *UK recognised body* had not admitted to *membership*, it must immediately give the FSA notice of that event, and:

- (1) a description of the type of *person* whom it is admitting to *membership*; and
- (2) particulars of its reasons for considering that, in admitting that type of *person* to *membership*, it is able to continue to satisfy the *recognition requirement* in paragraph 4(2)(a) or paragraph 19(2)(a) of the Schedule to the *Recognition Requirements Regulations* which applies to it.

3.18.3

R
/1

Where a *UK recognised body* admits for the first time a *member* whose head or registered office is in a jurisdiction from which that

UK recognised body has not previously admitted *members*, it must immediately give the *FSA* notice of that event, and:

- (1) the name of that jurisdiction;
- (2) the name of any regulatory authority in that jurisdiction which regulates that *member* in respect of activities relating to *specified investments*; and
- (3) particulars of its reasons for considering that, in admitting a *member* from that jurisdiction to *membership*, it is able to continue to satisfy the *recognition requirements* which apply to it.

3.18.4

G

/1

A type of *member* means the description of any group of *members* to whom the same generic description could be applied. For example, the description of any group of *members* separately identified or defined in the rules might constitute a type of *member* for the purposes of this section.

3.19 Investigations

3.19.1 **R** Where a *UK recognised body* becomes aware that a *person* has been appointed by any *regulatory body* (other than the *FSA* or a *UK recognised body*) to investigate:

^{/1}

- (1) any business transacted by means of its *facilities*, if it is an *RIE*; or
- (2) any aspect of the clearing services which it provides;

it must immediately give the *FSA* notice of that event.

3.19.2 **G** A *UK recognised body* need not give the *FSA* notice of:

^{/1}

- (1) routine inspections or visits undertaken in the course of regular monitoring, complaints handling or as part of a series of “theme visits”; or
- (2) routine requests for information; or
- (3) investigations into the conduct of *members* of the *UK recognised body* or of other users of its *facilities* where the use of its *facilities* is a small or incidental part of the subject matter of the investigation.

3.20 Disciplinary action relating to members

3.20.1

R

^{/1}

Where a *UK recognised body* has taken any disciplinary action against any *member* or any *employee* of a *member*, in respect of a breach of a rule relating to the carrying on by the *UK recognised body* of any of its *regulatory functions*, that body must immediately notify the *FSA* of that event, and give:

- (1) the name of the *person* concerned;
- (2) details of the disciplinary action taken by the *UK recognised body*; and
- (3) the *UK recognised body's* reasons for taking that disciplinary action.

3.20.2

R

^{/1}

Where an appeal is lodged against any disciplinary action referred to in *REC 3.20.1R*, the *UK recognised body* must immediately give the *FSA* notice of that event, and:

- (1) the name of the appellant and the grounds on which the appeal is based, immediately; and
- (2) the outcome of the appeal, when known.

3.21 Criminal offences and civil prohibitions

3.21.1

R
/1

Where a *UK recognised body* has evidence tending to suggest that any *person* has:

- (1) been carrying on any *regulated activity* in the *United Kingdom* in contravention of the *general prohibition*; or
- (2) been engaged in *market abuse*; or
- (3) committed a criminal offence under the *Act* or subordinate legislation made under the *Act*; or
- (4) committed a criminal offence under Part V of the Criminal Justice Act 1993 (Insider dealing); or
- (5) committed a criminal offence under the *Money Laundering Regulations*;

it must immediately give the *FSA* notice of that event, and full details of that evidence in writing.

3.22 Restriction of, or instruction to close out, open positions

3.22.1

R

Where a *UK RIE* decides to:

^{/1}

- (1) restrict the open position on any of the contracts of a *member*; or
- (2) issue instructions to a *member* to close out its positions on any contracts;

that *UK RIE* must immediately give the *FSA* notice of that event, and the *member's* name, the nature and size of any position to be restricted or closed out and the reasons for the *UK RIE's* decision.

3.23 Default

3.23.1

R

/1

Where a *UK recognised body* decides to put a *member* into default, it must immediately give notice of that event, and give the following information to the *FSA*, at the same time as that decision is communicated to that *member* or to any other *member* (or group or class of them) of that body:

- (1) the name of the *member* and (where relevant) the class of membership;
- (2) the reasons for that decision; and
- (3) the names of any other exchange or *clearing house* on which, to the best of that *UK recognised body's* knowledge, that *member* clears business or transacts for, or in respect of, its *clients*;

and as soon as practicable afterwards, give the *FSA* a summary of the *member's* open positions, margin liability, cash and collateral balances in respect of that *member's* accounts (including *client* accounts).

Chapter 4

Supervision

4.1 Application and purpose

Application

- 4.1.1** **G**_{/1} REC 4.2, REC 4.3 and REC 4.5 apply to *UK recognised bodies*. REC 4.4 and REC 4.6 to REC 4.8 apply to all *recognised bodies*. REC 4.8 applies to applicants for recognition as a *recognised body*.

Purpose

- 4.1.2** **G**_{/1} This chapter sets out the FSA's approach to the supervision of *recognised bodies* and contains *guidance* on:
- (1) the arrangements for investigating complaints about *recognised bodies* made under section 299 of the *Act* (Complaints about recognised bodies) (REC 4.4);
 - (2) the FSA's approach to the exercise of its powers under:
 - (a) section 296 of the *Act* (FSA's power to give directions) to give directions to *recognised bodies* (REC 4.6);
 - (b) section 297 of the *Act* (Revoking recognition) to revoke *recognition orders* (REC 4.7);

and the procedure to be followed in those cases and where the FSA decides to refuse an application for recognition as a *recognised body* (REC 4.8); and
 - (3) the FSA's approach to, and procedures for, the exercise of its powers under sections 166 and 167 of the Companies Act 1989 to give directions to *UK recognised bodies* in relation to action under their *default rules* (REC 4.5).
- 4.1.3** **G**_{/1} The FSA's general approach to supervision is intended to ensure that:
- (1) the FSA has sufficient assurance that *recognised bodies* continue at all times to satisfy the *recognition requirements* and other obligations imposed by or under the *Act*; and
 - (2) the FSA's supervisory resources are allocated, and supervisory effort is applied, in ways which reflect the actual risks to the *regulatory objectives*.
- 4.1.4** **G**_{/1} In applying these principles of risk based supervision to the supervision of *recognised bodies*, the FSA has had particular regard to the special position of *recognised bodies* under the *Act* as well as to its general duties set out in section 2 of the *Act* (The FSA's general duties).

4.1.5

G

/1

More information on the supervision of *UK recognised bodies* is given in *REC 4.2* and *REC 4.3*. More information on the supervision of *overseas recognised bodies* is given in *REC 6*.

4.2 The supervisory relationship with UK recognised bodies

4.2.1

G
/1

The *FSA* expects to have an open, cooperative and constructive relationship with *UK recognised bodies* to enable it to have a broad picture of the *UK recognised body's* activities and its ability to meet the *recognition requirements*. This broad picture is intended to complement the information which the *FSA* will obtain under section 293 of the *Act* (Notification requirements) or under *notification rules* made under that section (see *REC 3*). The *FSA* will usually arrange meetings between the Markets and Exchanges Division and *key individuals* of the *UK recognised body* for this purpose. The frequency and nature of these meetings may vary in accordance with the risk profile of the *UK recognised body*.

4.2.2

G
/1

UK recognised bodies are likely to develop and adapt their businesses in response to customer demand and new market opportunities. Where such developments involve changes to the way the *UK recognised body* operates, they are likely to involve changes to the way it satisfies the *recognition requirements* and other obligations in or under the *Act*.

4.2.3

G
/1

The *FSA* expects a *UK recognised body* to take its own steps to assure itself that it will continue to satisfy the *recognition requirements* and other obligations in or under the *Act* when considering any changes to its business or operations.

4.2.4

G
/1

However, the *FSA* also expects that *UK recognised bodies* will keep it informed of all significant developments and of progress with its plans and operational initiatives, and will provide it with appropriate assurance that the *recognition requirements* will continue to be satisfied.

4.3 Risk assessments for UK recognised bodies

- 4.3.1** G_{/1} Information is needed to support the *FSA*'s risk based approach to the supervision of all regulated entities. Risk based supervision is intended to ensure that the allocation of supervisory resources and the supervisory process are compatible with the *regulatory objectives* and the *FSA*'s general duties under the *Act*. The central element of the process of risk based supervision is a systematic assessment by the *FSA* (a risk assessment) of the main supervisory risks and concerns for each regulated entity.
- 4.3.2** G_{/1} For each *UK recognised body*, the *FSA* will conduct a periodic risk assessment. This assessment will take into account relevant considerations including the special position of *recognised bodies* under the *Act*, the nature of the *UK recognised body's members*, the position of other users of its *facilities* and the business environment more generally.
- 4.3.3** G_{/1} The risk assessment will guide the *FSA*'s supervisory focus. It is important, therefore, that there is good dialogue between the *FSA* and the *recognised body*. The *FSA* expects to review its risk assessment with the staff of the *UK recognised body* to ensure factual accuracy and a shared understanding of the key issues, and may discuss the results of the risk assessment with *key individuals* of the *UK recognised body*. If appropriate, the *FSA* may send a detailed letter to the body's *chief executive*, chairman or both with proposals for further action or work to address particular concerns or issues and seek their comments on the risk assessment.

4.4 Complaints

Recognised body's arrangements

- 4.4.1** G_{/1} *Recognised bodies* may receive complaints from time to time from their *members* and other people, both about the conduct of *members* and about the *recognised body* itself. A *UK recognised body* will need to have satisfactory arrangements to investigate these complaints in order to satisfy the relevant *recognition requirements* (see *REC 2.15* and *REC 2.16*).

The FSA's arrangements

- 4.4.2** G_{/1} The *Act* does not provide a mechanism for appeals to the *FSA* from decisions by *recognised bodies* in relation to complaints. However, the *FSA* is required by section 299 of the *Act* (Complaints about recognised bodies) to have arrangements to investigate complaints (called *relevant complaints* in the *Act*) which it considers relevant to the question of whether a *recognised body* should remain recognised as such. This section describes aspects of the *FSA's* arrangements for investigating *relevant complaints*.
- 4.4.3** G_{/1} Where the *FSA* receives a complaint about a *recognised body*, it will, in the first instance, seek to establish whether the complainant has approached the *recognised body*. Where this is not the case, the *FSA* will ask the complainant to complain to the *recognised body*. Where the complainant is dissatisfied with the handling of the complaint, but has not exhausted the *recognised body's* own internal complaints procedures (in the case of a complaint against a *UK recognised body*, including by applying to that body's *complaints investigator*), the *FSA* will encourage the complainant to do so.
- 4.4.4** G_{/1} The *FSA* will not usually consider a complaint which has not, in the first instance, been made to the *recognised body* concerned, unless there is good reason for believing that it is a *relevant complaint* which merits early consideration by the *FSA*.
- 4.4.5** G_{/1} When it is considering a *relevant complaint*, the *FSA* will make its own enquiries as appropriate with the *recognised body*, the complainant and other *persons*. It will usually ask the *recognised body* and the complainant to comment upon any preliminary or draft conclusions of its review and to confirm any matters of fact at that stage.
- 4.4.6** G_{/1} The *FSA* will communicate the outcome of its review of a *relevant complaint* to the complainant and the *recognised body*, but will normally only discuss any action which it considers the *recognised body* should take with the *recognised body* itself.

4.5 FSA supervision of action by UK recognised bodies under their default rules

4.5.1 **G**_{/1} *UK recognised bodies* which, under their *rules*, have *market contracts* are required to have *default rules* enabling them (among other things) to take action in relation to a *member* who appears to be unable to meet his obligations in respect of one or more unsettled *market contracts*. The detailed *recognition requirements* relating to the *default rules* are set out in *REC 2.17*.

4.5.2 **G**_{/1} The *default rules* are designed to ensure that rights and liabilities between the defaulter and any counterparty to an unsettled *market contract* are discharged, and for there to be paid between the defaulter and each counterparty one net sum. The Companies Act 1989 contains provisions which protect action taken under *default rules* from the normal operation of insolvency law which might otherwise leave this action open to challenge by a *relevant office-holder*.

4.5.3 **G**_{/1} The Companies Act 1989 also gives the *FSA* powers to supervise the taking of action under *default rules*. Under section 166 of the Companies Act 1989 (Powers of the *FSA* to give directions) (see *REC 4.5.4G*), the *FSA* may direct a *UK recognised body* to take, or not to take, action under its *default rules*. Before exercising these powers the *FSA* must consult the *recognised body* concerned. The *FSA* may also exercise these powers if a *relevant office-holder* applies to it under section 167 of the Companies Act 1989 (Application to determine whether default proceedings to be taken) (see *REC 4.5.9G*).

4.5.4 **G**_{/1} Table The Companies Act 1989: section 166

The *FSA* may issue a “positive” direction (to take action) under section 166(2)(a) of the Companies Act 1989:

Where in any case a [UK RIE] or [UK RCH] has not taken action under its *default rules* – if it appears to [the *FSA*] that it could take action, [the *FSA*] may direct it to do so, ...

but under section 166(3)(a) of the Companies Act 1989:

Before giving such a direction the [FSA] shall consult the [UK RIE] or [UK RCH] in question; and [the FSA] shall not give a direction unless [the FSA] is satisfied, in the light of that consultation ... that failure to take action would involve undue risk to investors or other participants in the market, ...

The *FSA* may issue a “negative” direction (not to take action) under section 166(2)(b) of the Companies Act 1989:

Where in any case a [UK RIE] or [UK RCH] has not taken action under its *default rules* – ... if it appears to the [FSA] that it is proposing to take or may take action, [the FSA] may direct it not to do so.

but under section 166(3)(b) of the Companies Act 1989:

Before giving such a direction the [FSA] shall consult the [UK RIE] or [UK RCH] in question; and the [FSA] shall not give a direction unless [the FSA] is satisfied, in the light of that consultation ... that the taking of action would be premature or otherwise undesirable in the interests of investors or other participants in the market.

4.5.5 G_{/1} The *FSA*'s view is that the exercise of these powers will only be justified in exceptional circumstances. The most likely case in which the *FSA* would consider exercising them is if there were a need to coordinate action by different *UK recognised bodies* because, for example:

- (1) the likelihood of a default may not be apparent to all *UK recognised bodies*; or
- (2) there was a need to avoid premature default action by one *UK recognised body*; or
- (3) significantly different settlement prices had been fixed by different *UK recognised bodies*.

4.5.6 G_{/1} Under section 166(6) of the Companies Act 1989, a negative direction cannot be given if, in relation to the defaulter, either:

- (1) a bankruptcy order or an award of sequestration of the defaulter's estate has been made, or an interim receiver or interim trustee has been appointed; or
- (2) a winding-up order has been made, a resolution for voluntary winding-up has been passed or an administrator, administrative receiver or provisional liquidator has been appointed;

and any previous negative direction will cease to have effect on the making or passing of any such order, award or appointment.

4.5.7 G_{/1} Under section 166(5) of the Companies Act 1989, a negative direction may be expressed to have effect until a further direction is given, which may either be a positive direction or a revocation of the earlier negative direction.

4.5.8 G_{/1} Under section 166(7) of the Companies Act 1989, where a *UK recognised body* has taken action either of its own accord or in response to a direction, the *FSA* may direct it to do or not to do specific things subject to these being within the powers of the *UK recognised body* concerned under its *default rules*. However, the *FSA* cannot give such a direction unless it is satisfied that this will not impede or frustrate the proper and efficient conduct of the default proceedings.

Section 167 of the Companies Act 1989

4.5.9 G_{/1} Where, in relation to a *member* (or *designated non-member*) of a *UK RIE* or a *member* of a *UK RCH*:

- (1) a bankruptcy order; or
- (2) an award of sequestration of his estate; or
- (3) an order appointing an interim receiver of his property; or
- (4) an administration or winding-up order; or
- (5) a resolution for a voluntary winding-up; or
- (6) an order appointing a provisional liquidator;

has been made or passed and the *UK recognised body* has not taken action under its *default rules* as a result of this event or of the matters giving rise to it, a *relevant office-holder* appointed in connection with the order, award or resolution may make an application to the *FSA* under section 167 of the Companies Act 1989 (Application to determine whether default proceedings to be taken).

4.5.10

G

/1

The effect of an application under section 167 of the Companies Act 1989 is to require the *UK recognised body* concerned to take action under its *default rules* or to require the *FSA* to take action under section 166 of the Companies Act 1989 (see REC 4.5.4G).

4.5.11

G

/1

The procedure is that the *FSA* must notify the *UK recognised body* of the application and, unless within three *business days* after receipt of that notice, the *UK recognised body*:

- (1) takes action under its *default rules*; or
- (2) notifies the *FSA* that it proposes to take action forthwith; or
- (3) is directed to take action by the *FSA* under section 166(2)(a) of the Companies Act 1989;

the provisions of sections 158 to 165 of the Companies Act 1989 do not apply in relation to *market contracts* to which the *member* or *designated non-member* is a party or to anything done by the *UK recognised body* for the purpose of, or in connection with, the settlement of any *market contracts*.

4.6 The section 296 power to give directions

- 4.6.1** **G**_{/1} Under section 296 of the *Act* (FSA's power to give directions), the *FSA* has the power to give directions to a *recognised body* in order to secure its compliance with the *recognition requirements* or other obligations in or under the *Act*.
- 4.6.2** **G**_{/1} The *FSA* must also give a direction to a *recognised body* if it is directed to do so by the Treasury under section 308 of the *Act* (Directions by the Treasury).
- 4.6.3** **G**_{/1} The *FSA* is likely to exercise its power under section 296 of the *Act* if it considers that:
- (1) there has been, or was likely to be, a failure to satisfy the *recognition requirements* or there has been a failure to comply with any other obligation in or under the *Act* which has serious consequences;
 - (2) compliance with the direction would ensure that the *recognition requirements*, or other obligation in or under the *Act*, were satisfied; and
 - (3) the *recognised body* is capable of complying with the direction.
- 4.6.4** **G**_{/1} Under section 298(7) of the *Act* (Directions and revocation: procedure), the *FSA* need not follow the consultation procedure set out in the rest of section 298 (see *REC* 4.8), or may cut short that procedure, if it considers it essential to do so. The *FSA* is likely to consider it essential to cut short the procedure if, in the absence of immediate action, there would be:
- (1) a serious risk of substantial losses to investors, particularly *private customers*;
or
 - (2) a serious threat to market confidence or to the stability of the *financial system*;
or
 - (3) a serious risk of *money laundering* or other serious *financial crime*.

4.7 The section 297 power to revoke recognition

- 4.7.1** **G**_{/1} Under section 297 of the *Act* (Revoking recognition), the *FSA* has the power to revoke a *recognition order* relating to a *recognised body*.
- 4.7.2** **G**_{/1} The *FSA* will revoke a *recognition order* if:
- (1) it is directed to do so by the Treasury under section 308 of the *Act* (Directions by the Treasury); or
 - (2) the *recognised body* has asked the *FSA* to revoke the order.
- 4.7.3** **G**_{/1} The *FSA* will usually consider revoking a *recognition order* if:
- (1) the *recognised body* is failing or has failed to satisfy the *recognition requirements* or other obligations in or under the *Act* and that failure has or will have serious consequences; or
 - (2) it would not be possible for the *recognised body* to comply with a direction under section 296 of the *Act* (*FSA*'s power to give directions); or
 - (3) for some other reason, it would not be appropriate for the *FSA* to give a direction under section 296.
- 4.7.4** **G**_{/1} The *FSA* would be likely to consider the conditions in *REC* 4.7.3G(2) or *REC* 4.7.3G(3) to be satisfied in the following circumstances:
- (1) the *recognised body* appears not to have the resources or management to be able to organise its affairs so as to satisfy the *recognition requirements* or other obligations in or under the *Act*; or
 - (2) the *recognised body* does not appear to be willing to satisfy the *recognition requirements* or other obligations in or under the *Act*; or
 - (3) the *recognised body* is failing or has failed to comply with a direction made under section 296 of the *Act*; or
 - (4) the *recognised body* has ceased to carry out *regulated activities* in the *United Kingdom*, or has so changed the nature of its business that it no longer satisfies the *recognition requirements* in respect of the *regulated activities* for which *recognised body* status is relevant.
- 4.7.5** **G**_{/1} In addition to the factors set out in *REC* 4.7.4G, the *FSA* will usually consider that it would not be able to secure an *overseas recognised body's* compliance with the *recognition requirements* or other obligations in or under the *Act* by means of a direction under section 296 of the *Act*, if it appears to the *FSA* that the *overseas recognised body* is prevented by any change in the legal framework or supervisory

arrangements to which it is subject in its *home territory* from complying with the *recognition requirements* or other obligations in or under the *Act*.

4.8 The section 298 procedure

- 4.8.1** **G**_{/1} A decision to:
- (1) revoke a *recognition order* under section 297 of the *Act* (Revoking recognition); or
 - (2) make a direction under section 296 (*FSA's* powers to give directions); or
 - (3) refuse to make a *recognition order* under section 290 (Recognition orders);
- is a serious one and section 298 of the *Act* (Directions and revocation: procedure) sets out a procedure (see *REC 4.8.9G*) which the *FSA* will follow unless, in the case of a revocation of a *recognition order*, the *recognised body* concerned has given its consent (see section 297(1)) or, in a case where the *FSA* proposes to make a direction under section 296, it considers it is essential not to follow, or to cut short, the procedure (see *REC 4.6.4G* and *REC 4.8.7G*).
- 4.8.2** **G**_{/1} The *FSA's* internal arrangements provide for any of these decisions to be taken at an appropriately senior level.
- 4.8.3** **G**_{/1} In considering whether it would be appropriate to exercise the powers under section 296 or section 297 of the *Act*, the *FSA* will have regard to all relevant information and factors including:
- (1) its *guidance to recognised bodies*;
 - (2) the results of its routine supervision of the body concerned;
 - (3) the extent to which the failure or likely failure to satisfy the *recognition requirements* or other obligations in or under the *Act* may affect the *regulatory objectives*.
- 4.8.4** **G**_{/1} In considering whether or not to make a *recognition order*, the *FSA* will have regard to all relevant information and factors, including its *guidance to recognised bodies* and applicants and the information provided by applicants. Details of the application processes and other *guidance* for applicants are set out in *REC 5* and (for overseas applications) *REC 6*.
- 4.8.5** **G**_{/1} The procedures laid down in section 298 of the *Act* are summarised, with the *FSA's* *guidance* about the actions it proposes to take in following these procedures, in the table at *REC 4.8.9G*.
- 4.8.6** **G**_{/1} Before exercising its powers under section 296 or section 297 of the *Act*, the *FSA* will usually discuss its intention, and the basis for this, with the *key individuals* or other appropriate representatives of the *recognised body*. It will usually discuss its intention not to make a *recognition order* with appropriate representatives of the applicant.

4.8.7 G_{/1} Under section 298(7) of the *Act*, the *FSA* need not follow the procedure in section 298 in relation to giving a direction under section 296, when it considers it essential not to do so. *Guidance* on the circumstances in which the *FSA* will usually act in this way is given in *REC* 4.6.4G.

4.8.8 G_{/1} Under section 290(6) of the *Act*, the *FSA* need not follow the procedure in section 298 in relation to a refusal to make a *recognition order* if (under section 307) the Treasury has not given its approval for the *recognition order* to be made. Further *guidance* is given in *REC* 5 and *REC* 6 (for overseas applications).

4.8.9 G_{/1} Table Key steps in the section 298 procedure

	The <i>FSA</i> will:	<i>Guidance</i>
(1)	give written notice to the <i>recognised body</i> (or applicant);	The notice will state why the <i>FSA</i> intends to take the action it proposes to take, and include an invitation to make representations, and the date by which representations should be made.
(2)	take such steps as it considers reasonably practicable to bring the notice to the attention of the <i>members</i> of the <i>recognised body</i> or of the applicant, as the case may be;	The <i>FSA</i> will also notify <i>persons</i> individually (as far as it considers it reasonably practicable to do so) if it considers that the action it proposes to take would affect them adversely in a way which would be different from its effect on other <i>persons</i> of the same class.
(3)	publish the notice so as to bring it to the attention of other <i>persons</i> likely to be affected;	
(4)	receive representations from the <i>recognised body</i> or applicant concerned, any <i>member</i> of the <i>recognised body</i> or applicant, and any other <i>person</i> who is likely to be affected by the action the <i>FSA</i> proposes to take;	The <i>FSA</i> will not usually consider oral representations without first receiving written representations from the <i>person</i> concerned. It will normally only hear oral representations from the <i>recognised body</i> (or applicant) itself or of a <i>person</i> whom it has notified individually, on request.
(5)	write promptly to any <i>person</i> who requests the opportunity to make oral representations if it decides not to hear that <i>person's</i> representations;	The <i>FSA</i> will indicate why it will not hear oral representations and the <i>FSA</i> will allow the <i>person</i> concerned further time to respond.
(6)	have regard to representations made;	
(7)	(when it has reached its decision) notify the <i>recognised body</i> (or applicant) concerned in writing;	
(8)	(if it has decided to give a direction, or revoke or refuse to make a <i>recognition order</i>) take such steps as it considers reasonably practicable to bring its decision to the attention of <i>members</i> of the <i>recognised body</i> or applicant and to other <i>persons</i> likely to be affected.	The <i>FSA</i> will usually give notice of its decision to the same <i>persons</i> and in the same manner as it gave notice of its intention to act.

Chapter 5.

APPLICATIONS FOR RECOGNITION (UK RECOGNISED BODIES)

5.

5.1 Introduction and legal background

- 5.1.1** **G** ^{/1} A *body corporate* or an unincorporated association may apply to the *FSA* for recognition as a *UK recognised body* under sections 287 (Application by an investment exchange) or 288 (Application by a clearing house) of the *Act*.
- 5.1.2** **G** ^{/1} This chapter sets out *guidance* for *UK* applicants and for *UK* entities which are considering making an application. *Guidance* for applicants and prospective applicants for *overseas recognised body* status is given in *REC 6*.
- 5.1.3** **G** ^{/1} The Director General of Fair Trading, the Competition Commission and the Treasury also have specific roles in relation to competition issues raised by applications to become a *recognised body*.
- 5.1.4** **G** ^{/1}
- (1) Under section 303 of the *Act* (Initial report by the Director), the Director General of Fair Trading must issue a report on whether any of the applicant's *regulatory provisions* have a significantly adverse effect on competition. He must send copies of his report to the Treasury, the Competition Commission and the *FSA*.
 - (2) If the Director General of Fair Trading concludes that any of the applicant's *regulatory provisions* have a significantly adverse effect on competition, or if the Director General of Fair Trading concludes that none of the applicant's *regulatory provisions* has a significantly adverse effect on competition, but he nonetheless asks the Competition Commission to consider his report, the Competition Commission must normally make its own report under section 306 of the *Act* (Consideration by Competition Commission) on whether any of the applicant's *regulatory provisions* would have a significantly adverse effect on competition, whether any such effect is justified and, if it is not justified, what action, if any, the Treasury should direct the *FSA* to take.
 - (3) The Treasury's approval is required under section 307 of the *Act* (Recognition orders: role of the Treasury) before a *recognition order* can be made. (See also *REC 5.2.11G*.)
- 5.1.5** **G** ^{/1} The *FSA* must therefore send the Director General of Fair Trading copies of any *regulatory provisions* provided with the application. The *FSA* must also send to the Director General of Fair Trading such information in its possession as a result of the application, including supplementary information received after the application is made, but before it is determined by the *FSA*, as the *FSA* considers will assist the Director General of Fair Trading in discharging his functions in connection with the application.
- 5.1.6** **G** ^{/1} The Office of Fair Trading may also make informal requests for further information from an applicant. The Director General of Fair Trading also has powers under section 305 of the *Act* (Investigations by Director) to obtain compulsorily *documents* or information from the applicant or other *persons*.

5.1.7

G

/1

Potential applicants may wish to consult the Office of Fair Trading separately if they have any queries about the competition assessment or there are any aspects of their rules, guidance or clearing arrangements which they consider they may need to discuss with them.

5.2 Application process

- 5.2.1** G_{/1} An applicant for *recognised body* status needs to demonstrate to the FSA that it is able to meet the *recognition requirements* before a *recognition order* can be made. Once it has been recognised, a *recognised body* has to comply with the *recognition requirements* at all times. (*Guidance on the recognition requirements* applicable to *UK recognised bodies* (and applicants) is given in REC 2).
- 5.2.2** G_{/1}
- (1) There is no standard application form. A prospective applicant should contact the Markets and Exchanges Division at the FSA at an early stage for advice on the preparation, scheduling and practical aspects of its application.
 - (2) It is very important, if an application is to be processed smoothly and in a reasonable time, that it is comprehensively prepared and based on a well-developed and clear proposal.
- 5.2.3** G_{/1} An application should:
- (1) be made in accordance with any directions the FSA may make under section 287 (Application by an investment exchange) or section 288 (Application by a clearing house) of the Act;
 - (2) be accompanied by the applicant’s *regulatory provisions* (the material specifically prescribed in section 287 or section 288);
 - (3) be accompanied by the information, evidence and explanatory material (including supporting documentation) necessary to demonstrate to the FSA that the *recognition requirements* will be met; and
 - (4) be accompanied by the appropriate fee (see REC 7).
- 5.2.4** G_{/1} Other information and documentation which should normally accompany an application is listed in more detail in REC 5.2.14G.
- 5.2.5** G_{/1} A prospective applicant who is an *authorised person* may wish to consult the FSA about the extent to which information which it has already supplied in connection with its status as an *authorised person* can be used to support an application to become a *UK recognised body*.
- 5.2.6** G_{/1} Under section 289 of the Act (Applications: supplementary), the FSA may require the applicant to provide additional information, and may require the applicant to verify any information in any manner. In view of their likely importance for any application, the FSA will normally wish to arrange for its own inspection of an applicant’s information technology systems.
- 5.2.7** G_{/1} At any time after making a formal application, the applicant may make amendments to its rules, guidance or any other part of its application submitted to the FSA. Any amendments or additional information are likely to be forwarded by

the *FSA* to the Director General of Fair Trading and the Treasury under section 303 of the *Act* (Initial report by Director) (see *REC 5.1.5G*).

- 5.2.8** G /1
- (1) The *FSA* will keep the applicant informed of the progress of the application.
 - (2) It may be necessary to ask the applicant to clarify or amplify some aspects of its proposals. The *FSA* may wish to discuss various aspects of the application and may invite the applicant to attend one or more meetings for that purpose. When requested to do so, the *FSA* will explain the nature of the information which it has asked an applicant to supply in connection with its application.
- 5.2.9** G /1
- (1) While the *FSA* is considering the application, the Office of Fair Trading will be reviewing the *regulatory provisions* so that the Director General of Fair Trading is able to make the report required by section 303 of the *Act*.
 - (2) When the Director General of Fair Trading has issued his report, if the circumstances described in *REC 5.1.4G* apply, the Competition Commission must normally make its own report under section 306 of the *Act*.
- 5.2.10** G /1
- Where the *FSA* considers that an applicant satisfies the *recognition requirements*, and that the Treasury has had an opportunity to consider any reports from the Director General of Fair Trading and the Competition Commission, the *FSA* will then seek the Treasury’s approval, under section 307 of the *Act* (Recognition orders: role of the Treasury), to the making of a *recognition order*.
- 5.2.11** G /1
- Under section 307 of the *Act*, the Treasury will have to follow the advice of the Director General of Fair Trading or the Competition Commission as appropriate unless it considers that there are exceptional circumstances for not doing so. The Treasury will therefore ordinarily give its approval to the making of a *recognition order* if the applicant’s *regulatory provisions* are not considered to have a significantly adverse effect on competition or, if they are considered to have that effect, the effect is justified. It will ordinarily refuse its approval if the applicant’s *regulatory provisions* are considered to have any significantly adverse effect on competition and that effect is not considered to be justified.
- 5.2.12** G /1
- Where the *FSA* considers that it is unlikely to make a *recognition order*, or to seek the Treasury’s approval, it will discuss its concerns with the applicant as early as possible with a view to enabling the applicant to make changes to its rules or guidance, or other parts of the application (see *REC 5.2.7G*). If the *FSA* decides that it will not make a *recognition order*, it will follow the procedure set out in section 298 of the *Act* (Directions and revocation: procedure) and described in more detail in *REC 4.8*.
- 5.2.13** G /1
- The *FSA* will notify the applicant if the Treasury does not give its approval under section 307 of the *Act* (Recognition orders: role of the Treasury). Under section 290 (Recognition orders), the *FSA* does not have to follow the section 298 procedure (see *REC 4.8*) in this case and will not normally do so. The Treasury is required in those circumstances to follow a similar procedure under section 310 of the *Act* (Procedure on the exercise of certain powers by the Treasury).
- 5.2.14** G /1
- Table** Information and supporting documentation (see *REC 5.2.4G*).
- | | |
|-----|---|
| (1) | Details of the applicant’s constitution, structure and ownership, including its memorandum and articles of association (or similar or analogous <i>documents</i>) and any agreements between the applicant, its owners or other <i>persons</i> relating to its constitution or governance. |
| (2) | Details of all business to be conducted by the applicant, whether or not a <i>regulated activity</i> . |

- (3) Details of the *facilities* which the applicant plans to operate, including details of the trading platform, settlement arrangements, clearing services and *custody* services which it plans to supply.
- (4) Copies of the last three *annual reports and accounts* and, for the current financial year, quarterly *management accounts*.
- (5) Details of its business plan for the first three years of operation as a *UK recognised body*.
- (6) A full organisation chart and a list of the posts to be held by *key individuals* (with details of the duties and responsibilities) and the names of the *persons* proposed for these appointments when these names are available.
- (7) Details of its auditors, bankers, solicitors and any *persons* providing corporate finance advice or similar services (such as reporting accountants) to the applicant.
- (8) Details of any *relevant functions* to be outsourced or delegated, with copies of relevant agreements.
- (9) Details of information technology systems and of arrangements for their supply, management, maintenance and upgrading, and security.
- (10) Details of all plans to minimise disruption to operation of its *facilities* in the event of the failure of its information technology systems.
- (11) Details of internal systems for financial control, arrangements for risk management and insurance arrangements to cover operational and other risks.
- (12) Details of its arrangements for managing any counterparty risks, including details of margining systems, guarantee funds and insurance arrangements.
- (13) Details of internal arrangements to safeguard confidential or privileged information and for handling conflicts of interest.
- (14) Details of arrangements for complying with the *notification rules* and other requirements to supply information to the *FSA*.
- (15) Details of the arrangements to be made for monitoring and enforcing compliance with its rules and with its clearing, settlement and default arrangements.
- (16) A summary of the legal due diligence carried out in relation to ascertaining the enforceability of its rules (including *default rules*) and arrangements for margin against any of its *members* based outside the *United Kingdom*, and the results and conclusions reached.
- (17) Details of the procedures to be followed for declaring a *member* in default, and for taking action after that event to close out positions, protect the interests of other *members* and enforce its *default rules*.
- (18) Details of *membership* selection criteria, rules and procedures.
- (19) Details of arrangements for recording transactions effected by, or cleared through, its *facilities*.
- (20) Details of arrangements for detecting *financial crime* and *market abuse*, including arrangements for complying with *money laundering* law.
- (21) Details of criteria, rules and arrangements for selecting *specified investments* to be *admitted to trading* on (or cleared by) an *RIE*, or to be cleared by an *RCH* and, where relevant, details of how information regarding *specified investments* will be disseminated to users of its *facilities*.
- (22) Details of arrangements for cooperating with the *FSA* and other appropriate authorities, including draft memoranda of understanding or letters.
- (23) Details of the procedures and arrangements for making and amending rules, including arrangements for consulting on rule changes.
- (24) Details of disciplinary and appeal procedures, and of the arrangements for investigating complaints.

Chapter 6.

OVERSEAS INVESTMENT EXCHANGES AND OVERSEAS CLEARING HOUSES

6.

6.1 Introduction and legal background

6.1.1

G
/1

The *Act* prohibits any *person* from carrying on, or purporting to carry on, *regulated activities* in the *United Kingdom* unless that *person* is an *authorised person* or an *exempt person*. If an *overseas investment exchange* or *overseas clearing house* wishes to undertake *regulated activities* in the *United Kingdom*, it will need to:

- (1) obtain a *Part IV permission* from the *FSA*;
- (2) (in the case of an *EEA firm* or a *Treaty firm*) qualify for *authorisation* under Schedule 3 (EEA Passport Rights) or Schedule 4 (Treaty rights) to the *Act*, respectively; or
- (3) obtain *exempt person* status by being a *regulated market* under the *Investment Services Directive*; or
- (4) obtain *exempt person* status by being declared by the *FSA* to be (in the case of an *overseas investment exchange*) an *ROIE* or (in the case of an *overseas clearing house*) an *ROCH*.

6.1.2

G
/1

Having the status of an *overseas recognised body* facilitates the participation of *overseas investment exchanges* and *overseas clearing houses* in *UK markets*. In comparison with *authorisation*, it reduces the involvement which *UK* authorities need to have in the day-to-day affairs of an *overseas recognised body* because they are able to rely substantially on the supervisory and regulatory arrangements in the country where the applicant's head office is situated.

6.2 Applications

6.2.1

G
/1

- (1) *Overseas investment exchanges and overseas clearing houses* which are considering whether to seek *authorisation* or recognition should first consider whether they will be carrying on *regulated activities* in the *United Kingdom*. *Overseas investment exchanges and overseas clearing houses* which do not carry on *regulated activities* in the *United Kingdom* need take no action.
- (2) Prospective applicants should discuss *authorisation* and recognition with the *FSA* before deciding whether to seek *authorisation* or recognition.

6.2.2

G
/1

A prospective applicant may wish to contact the Markets and Exchanges Division at the *FSA* at an early stage for advice on the preparation, scheduling and practical aspects of an application to become an *overseas recognised body*.

6.2.3

G
/1

Applications for *authorised person* status should be made in accordance with the Authorisation manual (*AUTH*). Applications for recognition as an *overseas recognised body* should be addressed to:

The Financial Services Authority (Markets and Exchanges Division)

25 The North Colonnade

Canary Wharf

London E14 5HS

6.2.4

G
/1

There is no standard application form for application for recognition as an *overseas recognised body*. An application should be made in accordance with any direction the *FSA* may make under section 287 (Application by an investment exchange) or section 288 (Application by a clearing house) of the *Act* and should include:

- (1) the information, evidence and explanatory material necessary to demonstrate to the *FSA* that the *recognition requirements* (set out in *REC 6.3*) will be met;
- (2) the application fee (see *REC 7*);
- (3) the address of the applicant's head office in its *home territory*;
- (4) the address of a place in the *United Kingdom* for the service on the applicant of notices or other *documents* required or authorised to be served on it under the *Act* (see section 292(1));
- (5) the applicant's *regulatory provisions*;
- (6) one copy of each of the following *documents*:
 - (a) its most recent *annual report and accounts*; and

- (b) the applicant’s memorandum and articles of association or any similar or analogous *documents*; and
- (7) information identifying the following (if not contained in the *documents* listed in (5) or (6) or the material referred to in (1)):
 - (a) any type of *regulated activity* which the applicant envisages carrying on in the *United Kingdom*;
 - (b) any type of *specified investment dealt in* on, or cleared by, the applicant;
 - (c) the date by which the applicant wishes the *recognition order* to take effect; and
 - (d) any body or authority which supervises the applicant under the law of the *home territory*, the status of the applicant under that law, and the enactment or regulation under which the supervision is conducted.

6.2.5

G
/1

The *FSA* may require further information from the applicant and may need to have discussions with the appropriate authorities in the applicant’s *home territory*. To allow sufficient time for applications to be processed and for the necessary contacts to be made with the appropriate *home territory* authorities, applications should be made not later than six months before the applicant wishes the *recognition order* to take effect. No guarantee can be given that a decision will be reached within this time, although the *FSA* will endeavour to meet the applicant’s reasonable timing requirements.

6.2.6

G
/1

All material should be supplied in English, or accompanied, if appropriate, by an accurate English translation. An English glossary of technical or statistical terms may be sufficient to accompany tables of statistical or financial information.

6.3 Recognition requirements

6.3.1

G

/1

Before making a *recognition order*, the *FSA* will need to be satisfied that the *recognition requirements* in section 292(3) of the *Act* (Overseas investment exchanges and clearing houses) have been met. These requirements are the only *recognition requirements* applicable to *overseas recognised bodies*.

6.3.2

/1

Table Sections 292(3) and 292(4) state:

Section 292(3)

The requirements are that–

- (a) investors are afforded protection equivalent to that which they would be afforded if the body concerned were required to comply with *recognition requirements*;
- (b) there are adequate procedures for dealing with a *person* who is unable, or likely to become unable, to meet his obligations in respect of one or more *market contracts* connected with the [ROIE] or [ROCH];
- (c) the applicant is able and willing to co-operate with the [FSA] by the sharing of information and in other ways; and
- (d) adequate arrangements exist for co-operation between the [FSA] and those responsible for the supervision of the applicant in the country or territory in which the applicant’s head office is situated.

Section 292(4)

In considering whether it is satisfied as to the requirements mentioned in subsections (3)(a) and (b), the [FSA] is to have regard to–

- (a) the relevant law and practice of the country or territory in which the applicant’s head office is situated;
- (b) the rules and practices of the applicant.

6.3.3

G

/1

The reference to *recognition requirements* in section 292(3)(a) of the *Act* is a reference to the requirements applicable to *UK RIEs* or *UK RCHs* in the *Recognition Requirements Regulations*. These requirements are set out, together with *guidance*, in *REC 2*.

6.4 Competition scrutiny

6.4.1

G
/1

Applications from *overseas investment exchanges* and *overseas clearing houses* are subject to the same competition scrutiny as applications from prospective *UK recognised bodies* (see *REC 5*). The *FSA* will therefore follow the relevant steps set out in *REC 5.2* and may not make a *recognition order* without the approval of the Treasury.

6.4.2

G
/1

Potential applicants may wish to consult the Office of Fair Trading separately if they have any queries about the competition assessment or there are any aspects of their rules or guidance which they consider they may need to discuss with the Office of Fair Trading.

6.

6.5 FSA decision on recognition

- 6.5.1** G_{/1} If the *FSA* considers that the requirements of the *Act* are satisfied, it may make a *recognition order*, which will state the date on which it takes effect.
- 6.5.2** G_{/1} Where the *FSA* considers that it is unlikely to make a *recognition order*, it will discuss its concerns with the applicant with a view to enabling the applicant to make changes to its rules or guidance, or other parts of the application. If the *FSA* decides to refuse to make a *recognition order*, it will follow the procedure set out in section 298 of the *Act* (Directions and revocation: procedure) (which applies in consequence of section 290(5) of the *Act* (Recognition orders)) which is described in more detail in *REC* 4.8.
- 6.5.3** G_{/1} The *FSA* will notify the applicant if the Treasury fails to give its approval under section 307 of the *Act* (Recognition orders: role of the Treasury). Under section 290, the *FSA* is not required to follow the procedure under section 298 in this case and will not normally do so.

6.6 Supervision

6.6.1

G
/1

An *overseas recognised body* is required to notify the FSA of certain events and give information to it on a regular basis and when certain specified events occur. Section 295 of the *Act* (Notification: overseas investment exchanges and overseas clearing houses) requires each *overseas recognised body* to provide the FSA, the Treasury and the Director General of Fair Trading with a report (at least once a year) which contains:

- (1) a statement as to whether any events have occurred which are likely:
 - (a) to affect the FSA's assessment of whether it is satisfied that the *overseas recognised body* continues to satisfy the *recognition requirements* set out in section 292(3) of the *Act* (Overseas investment exchanges and overseas clearing houses)(see REC 6.3); and
 - (b) to have any effect on competition;
- (2) the information specified in the FSA's *notification rules* for *overseas recognised bodies* (see REC 6.7).

6.6.2

G
/1

The following events are examples of events likely to affect an assessment of whether an *overseas recognised body* is continuing to satisfy the *recognition requirements*, or to have an effect on competition:

- (1) significant changes to any relevant law or regulation in its *home territory*, including laws or regulations:
 - (a) governing exchanges or *clearing houses*;
 - (b) designed to prevent insider dealing, market manipulation or other forms of market abuse or misconduct;
 - (c) designed to protect the interests of *clients* of *members* of the *overseas recognised body*, or of a class of bodies which includes the *overseas recognised body*;
 - (d) which affect:
 - (i) the ability of the *overseas recognised body* to seek information (whether compulsorily or voluntarily) from its *members*, including information relating to the price and volume of transactions, the identity of parties to transactions, and the movement of funds associated with transactions;
 - (ii) which affect the ability of the *overseas recognised body* to pass such information, on request, to UK authorities;

- (2) significant changes to its internal organisation or structure;
- (3) significant changes to the practices of the *overseas recognised body* applying to any *regulated activities* carried on by it in the *United Kingdom*;
- (4) any other event or series of events in relation to the body which:
 - (a) affects or may significantly affect cooperation between the *overseas recognised body*, or its supervisor in its *home territory*, and the *FSA*; or
 - (b) has or may have a substantial effect on the structure of the markets in which the body operates; or
 - (c) brings about or may bring about a substantial change in the nature and composition of its *membership* in the *United Kingdom*; or
 - (d) brings about or may bring about a substantial change in the *regulated activities* undertaken by it in the *United Kingdom*.

6.6.3 G_{/1} The period covered by a report submitted under section 295(1) of the *Act* starts on the day after the period covered by its last report or, if there is no such report, after the making of the *recognition order* recognising the *overseas recognised body* as such, and ends on the date specified in the report or, if no date is specified, on the date of the report.

6.6.4 G_{/1} If an *overseas recognised body* changes the period covered by its report, it should ensure that the first day of the period covered by a report is the day immediately following the last day of the period covered by the previous report.

6.6.5 G_{/1} The period covered by a report submitted under section 295(1) of the *Act* would most conveniently be one year.

6.6.6 G_{/1} Copies of the report should be sent to the *FSA*, the Treasury and the Director General of Fair Trading within two months after the end of the period to which it relates.

6.7 Notification rules for overseas recognised bodies

Application

6.7.1 **R** _{/1} The *notification rules* in this chapter, which are made under sections 293 (Notification requirements) and 295 of the *Act* (Notification: overseas investment exchanges and overseas clearing houses), apply to all *overseas recognised bodies*.

Purpose

6.7.2 **G** _{/1} The *notification rules* in this chapter are made by the *FSA* in order to ensure that it is provided with notice of events and information which it reasonably requires for the exercise of its functions under the *Act*.

Reports under section 295

6.7.3 **R** _{/1} Where an *overseas recognised body* includes in its report made under section 295(1) of the *Act* (Notification: overseas investment exchanges and overseas clearing houses) a statement in compliance with section 295(2)(a) of the *Act* that an event has occurred in the period covered by that report which is likely to affect the *FSA*'s assessment of whether it is satisfied as to the requirements set out in section 292(3) (Overseas investment exchanges and overseas clearing houses), it must include particulars of that event.

6.7.4 **R** _{/1} An *overseas recognised body* must include in its report submitted in compliance with section 295(1) of the *Act*:

- (1) particulars of any changes to:
 - (a) its memorandum and articles of association or any similar or analogous *documents*;
 - (b) its *regulatory provisions*;
 - (c) its chairman or president, or *chief executive* (or equivalent);

(2) particulars of any disciplinary action (or any similar or analogous action) taken against it by any supervisory authority in its *home territory*, whether or not that action has been made public in that territory; and

(3) a copy of its *annual report and accounts*;

where those events occurred, or the period covered by that *annual report and accounts* ended, in the period covered by that report.

First report

6.7.5

R
/1

An *overseas recognised body* must include in the first report submitted under section 295(1) of the *Act* after the *recognition order* in relation to that *overseas recognised body* is made:

(1) particulars of any events of the kind described in section 295(2) of the *Act* which occurred;

(2) particulars of any change specified in *REC 6.7.4R(1)* or disciplinary action specified in *REC 6.7.4R(2)* which occurred; and

(3) any *annual report and accounts* which covered a period ending;

after the application for recognition was submitted to the *FSA* but which were not included in the application or in any supplementary information submitted to the *FSA* before the *recognition order* was made.

6.7.6

G
/1

Guidance on the period covered by an *overseas recognised body's* report submitted in compliance with section 295(1) of the *Act* is given in *REC 6.6.3G*.

Changes of address

6.7.7

R
/1

Where an *overseas recognised body* proposes to change:

(1) its address in the *United Kingdom* for the service of notices or other *documents* required or authorised to be served on it under the *Act*; or

(2) the address of its head office;

it must give notice to the *FSA* and inform it of the new address at least 14 days before the change is effected.

Revocation or modification of home territory licence, permission or authorisation

6.7.8 **R** ^{/1} Where an *overseas recognised body* has notice that any licence, permission or authorisation which it requires to conduct any *regulated activity* in its *home territory* has been or is about to be:

- (1) revoked; or
- (2) modified in any way which would materially restrict the *overseas recognised body* in performing any *regulated activity* in its *home territory* or in the *United Kingdom*;

it must immediately notify the *FSA* of that fact and must give the *FSA* the information specified for the purposes of this *rule* in *REC 6.7.9G*, as soon as that information is known to it.

6.7.9 **R** ^{/1} The following information is specified for the purposes of *REC 6.7.8G*:

- (1) particulars of the licence, permission or authorisation which has been or is to be revoked or modified, including particulars of the *overseas recognised body's regulated activities* to which it relates;
- (2) an explanation of how the revocation or modification restricts or will restrict the *overseas recognised body* in carrying on any *regulated activity* in its *home territory* or in the *United Kingdom*;
- (3) the date on which the revocation or modification took, or will take, effect and, if it is a temporary measure, any date on which, or any conditions that must be met before which, it will cease to have effect; and
- (4) any reasons given for the revocation or modification.

Language of notice

6.7.10 **R** ^{/1} Any notice to be given or information to be supplied under these *notification rules* must be supplied in English, and any *document* to be provided must be accompanied, if not in English, by an accurate English translation.

6.7.11 **G** ^{/1} An English glossary of technical or statistical terms may be sufficient to accompany tables of statistical or financial information.

Form and method of notification

6.7.12 **R** ^{/1} The *rules* relating to the form and method of notification in *REC 3.2* also apply to *overseas recognised bodies*.

Waivers

6.7.13

G
/1

Overseas recognised bodies may apply to the *FSA* for a *waiver* of any of the *notification rules*. The procedure is the same as that for applications from *UK recognised bodies*. *Guidance* on the procedure is given in *REC 3.3*.

6.

6.8 Powers of direction and revocation of recognition orders

6.8.1

G
/1

The *FSA* has similar powers to supervise *overseas recognised bodies* to those it has to supervise *UK recognised bodies*. It may (in addition to any other powers it might exercise):

- (1) give directions to an *overseas recognised body* under section 296 of the *Act* (Authority's power to give directions) if it has failed, or is likely to fail, to satisfy the *recognition requirements* or if it has failed to comply with any other obligation imposed by or under the *Act*; or
- (2) revoke a *recognition order* under section 297 of the *Act* (Revoking recognition) if an *overseas recognised body* is failing, or has failed, to comply with the *recognition requirements* or any other obligation in or under the *Act*.

6.8.2

G
/1

The *FSA* will follow the approach in *REC 4.6*, *REC 4.7* and *REC 4.8* if it is considering exercising these powers in relation to an *overseas recognised body*.

Handbook Modules

Schedule1 Record keeping requirements

1 G
 Table

There are no record keeping requirements as such in *REC*.

UK recognised bodies have obligations under the *Recognition Requirements Regulations* to ensure that satisfactory arrangements are made for recording transactions effected by, or cleared through, their *facilities*. See *REC 2.9* for *guidance*.

Handbook Modules

Schedule2 Notification requirements

G

1 Table

The following table summarises the notification requirements applicable to all *recognised bodies*. The *notification rules* are set out in detail in *REC 3* and *REC 6.7* and, to avoid unnecessary repetition, are not set out in detail here.

For completeness, summary details of the main notification requirements in the *Act* itself and the Companies Act 1989 are also included in the table. The summary of these statutory provisions here should not be taken to imply that these are obligations imposed by the *FSA* under its powers nor that the following summary supersedes or alters the meaning of these provisions.

Guidance on the statutory notification requirements for *overseas recognised bodies* is given in *REC 6.6*.

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
<i>UK recognised bodies</i>				
The Act s293(5)	Changes to rules and guidance	Details of change	Change to rule or guidance	Without delay
Companies Act 1989 s157	Proposed changes to <i>default rules</i>	Details of proposed change	Proposal to change <i>default rules</i>	14 days in advance of change
<i>UK recognised investment exchanges</i>				
The Act s293(6)(a)	Changes to arrangements for clearing <i>on-exchange</i> transactions	Details of change	Change to arrangements	Without delay
The Act s293(6)(b)	Changes to criteria determining to whom it will provide clearing services	Details of change	Change to criteria	Without delay
<i>UK recognised clearing houses</i>				
The Act s293(7)(a)	Changes to <i>RIEs</i> for whom clearing services provided	Details of change	Change to <i>RIE</i>	Without delay
The Act s293(7)(b)	Changes to criteria determining to whom (other than <i>RIEs</i>) it will provide clearing services	Details of change	Change to criteria	Without delay
<i>Notification rules for UK recognised bodies (see REC 3)</i>				
<i>REC 3.4</i>	<i>Key individuals</i> and internal organisation	Details of change	Change in <i>key individual</i> or standing committee	Immediately

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
REC 3.5	Disciplinary action and events relating to <i>key individuals</i>	Details of disciplinary action or event	Disciplinary action or awareness of event	Immediately
REC 3.6	Constitution and governance	Details of proposals to amend constitution, amendments to constitution and agreements relating to constitution	Communication of proposal to amend constitution, making amendment to constitution or awareness of agreement relating to constitution	Immediately
REC 3.7	Auditors	Details of removal or appointment of auditors	Removal or appointment of auditors	Immediately
REC 3.8	Financial and other information	See REC 3.8	See REC 3.8	See REC 3.8
REC 3.9	Fees and incentive schemes	Summary of proposals to change fees and charges and changes to fees and charges	Communication to <i>members</i>	Immediately
REC 3.10	Complaints	Copy of adverse report and details of recommendations from <i>complaints investigator</i>	Availability of report or recommendations	Immediately
REC 3.11	Insolvency events	Notice of insolvency event	Insolvency event	Immediately
REC 3.12	Legal proceedings	Details of legal proceedings commenced against <i>UK recognised body</i>	Institution of proceedings	Immediately
REC 3.13	Delegation of <i>relevant functions</i>	Details of offers or agreements to delegate <i>relevant functions</i> and offers or agreements to undertake relevant functions on behalf of another <i>recognised body</i>	Making offer or agreement to delegate	Immediately
REC 3.14	Products, services and normal hours of operation	Proposals to change products, services or normal hours of operation	Communication of proposal to <i>members</i> or shareholders	Immediately
REC 3.15	Suspension of services and inability to operate <i>facilities</i>	Details of suspension of services, inability to operate facilities and extension of hours of operation in an emergency	Event concerned	Immediately

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
REC 3.16	Information technology systems	Details of business continuity plans and details of failure of reserve information technology system	Changes to business continuity plans and failure of reserve information technology system	Immediately
REC 3.17	Inability to discharge <i>regulatory functions</i>	Details of inability to discharge a <i>regulatory function</i>	Event concerned	Immediately
REC 3.18	Membership	Information regarding new types of <i>member</i> and reasons for considering <i>recognition requirements</i> can still be met	Admission of new type of <i>non-authorised person</i> or <i>person</i> from new <i>non-UK</i> jurisdiction to membership	Immediately
REC 3.19	Investigations	Notice of appointment of person to investigate use of <i>facilities</i> or provision of services	Awareness of appointment	Immediately
REC 3.20	Disciplinary action	Details of person against whom disciplinary action taken	Taking disciplinary action	Immediately
REC 3.21	Criminal offences and civil prohibitions	Evidence tending to suggest contraventions of the <i>general prohibition</i> , certain criminal offences or <i>market abuse</i>	Having evidence concerned	Immediately
REC 3.22	Restriction or instruction to close out, open positions	Details of decision to restrict <i>member's</i> open position or instruction to close out position	Decision to take action	Immediately
REC 3.23	Default	Notice of decision to put <i>member</i> into default	Communicating decision to <i>member</i> concerned or any other member	Immediately
<i>Overseas recognised bodies</i>				
The Act s295	Report to FSA	Statement as to whether events have occurred which would affect the FSA's assessment of whether the <i>recognition requirements</i> are met or which might have an effect on competition	Not applicable	Once a year

Notification rules for overseas recognised bodies (see REC 6.7)

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
<i>REC 6.7.3</i>	Events which might affect the <i>FSA's</i> assessment of whether the <i>recognition requirements</i> are met	Particulars of event	Not applicable	Include in report under s295
<i>REC 6.7.4</i>	Inclusion of certain matters in report	See <i>REC 6.7.4</i>	Not applicable	Include in report under s295
<i>REC 6.7.5</i>	First report	See <i>REC 6.7.5</i>	Not applicable	Include in report under s295
<i>REC 6.7.7</i>	Changes of address	Details of new addresses	Decision to change address	14 <i>days</i> in advance of change of address
<i>REC 6.7.8</i> and <i>REC 6.7.9</i>	Revocation or modification of home territory licence etc	Details of revocation or modification	Awareness of revocation or modification	Immediately

Handbook Modules

Schedule4 Powers exercised

1 G
 Table

The following powers and related provisions in the *Act* have been exercised by the *FSA* to make the *rules* in *REC*:

Section 156 (General supplementary powers)

Section 293 (Notification requirements)

Section 295 (Notification: overseas investment exchanges and overseas clearing houses)

The following power in the *Act* has been exercised by the *FSA* to give the *guidance* in *REC*:

Section 157 (1) (Guidance)

Handbook Modules

Schedule5 Rights of action for damages

1 G
 Table

There are no rights of action under section 150 of the *Act* in respect of any contravention by a *recognised body* of any *rule* made under the *Act*.

Handbook Modules

Schedule6 Rules that can be waived

1 G
 Table

The *notification rules* in *REC 3* and *REC 6* can be *waived* by the *FSA* under section 294 of the *Act* (Modification or waiver of rules). (The statutory notification requirements, also summarised in Schedule 2 to *REC*, cannot be *waived* by the *FSA*.)
The *fees rules* in *REC 7* cannot be *waived* by the *FSA*.

Recognised Investment Exchange and Recognised Clearing House sourcebook

Destinations and derivations

G

There was no single source of rules and guidance for recognised bodies under the Financial Services Act 1986. It is not therefore possible to produce detailed tables of destinations and derivations linking most of the provisions of *REC* to existing material.

This schedule provides:

- (i) a list of corresponding recognition requirements under the Financial Services Act 1986 and the Financial Services and Markets Act 2000 and the *Recognition Requirements Regulations*;
- (ii) a list of correspondences between notification requirements under the Financial Services Act 1986 and notification requirements under the Financial Services and Markets Act 2000;
- (iii) a summary of the main guidance issued under the Financial Services Act 1986 or other source material which was used in part in the preparation of the guidance issued in *REC*.

Entries are made in both columns where there is a nearest equivalent provision or one covering the same broad area under both the new and old legislation. "No equivalent" indicates that there is no real equivalent to the provision in the other column.

Recognition requirements

Recognition requirement under the Financial Services Act 1986	Recognition requirement under the Financial Services and Markets Act 2000
<p>UK RIEs</p> <p><u>Schedule 4 to the Financial Services Act 1986</u></p> <p>Paragraph 1 – financial resources (No equivalent) (No equivalent)</p> <p>Paragraph 2(1) – orderly markets and proper protection for investors (No equivalent)</p> <p>Paragraph 2(2) – proper markets and availability of information</p> <p>Paragraph 2(3) – repealed by the Official Listing of Securities (Change of Competent Authority) Regulations 2000</p>	<p><u>Part I of the Schedule to the Recognition Requirements Regulations</u></p> <p>Paragraph 1 – financial resources</p> <p>Paragraph 2 – suitability</p> <p>Paragraph 3 – systems and controls</p> <p>Paragraph 4(1) – orderly markets and proper protection for investors</p> <p>Paragraph 4(2)(a) – access to facilities</p> <p>Paragraphs 4(2)(b), 4(2)(c) and 4(3) – proper markets and relevant information</p> <p>(No equivalent)</p>

LLOYD'S SOURCEBOOK INSTRUMENT 2001

- A The Financial Services Authority makes the rules and gives the directions and guidance in the Annex to this instrument ("LLD") in the exercise of the powers listed in Schedule 4 to LLD (Powers exercised)
- B This instrument shall come into force at the beginning of the day on which section 19 (The general prohibition) of the Financial Services and Markets Act 2000 (the "Act") comes into force.
- C The provisions of the Act relevant to making rules and listed in Schedule 4 to LLD (Powers exercised) are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- D This instrument may be cited as the Lloyd's Sourcebook Instrument 2001.
- E The Annex to this instrument (including its Schedules) may be cited as the Lloyd's sourcebook (or LLD).

By order of the Board
21 June 2001

1 Table Transitional provisions

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1	<i>LLD 7.2.1R</i>	R	Where the <i>Society</i> receives a complaint relating to an act or a failure to act, which occurs before <i>commencement</i>, it may either handle that complaint in accordance with <i>LLD 7.2.1R</i> or with the complaints handling arrangements in effect at the time of the act or the failure to act.	Indefinite	<i>Commencement</i>
2	<i>LLD 7.4.1G</i>	G	The Society's first report to the FSA under <i>LLD 7.4.1G</i> should cover the period from <i>commencement</i> until the end of the following December or June, whichever is earlier.	From <i>commencement</i> until the end of the following December or June whichever is earlier	<i>Commencement</i>

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3	<i>LLD</i> 13.2.2R and <i>LLD</i> 9 to <i>LLD</i> 15	R	The <i>Society</i> must comply with <i>LLD</i> 13.2.2R by identifying and valuing the assets of <i>individual members</i> that become <i>former underwriting members</i> before 1 January 2003 in accordance with the requirements for the identification and valuation of assets contained in the “Conditions and Requirements Relating to Solvency and Reporting” which were approved by the <i>FSA</i>, exercising the powers of HM Treasury under section 83 of the Insurance Companies Act 1982, and which were applicable immediately before <i>commencement</i>.	Indefinite	<i>Commencement</i>

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
4	<i>LLD 13.2.2R</i> and <i>LLD 9</i> to <i>LLD 15</i>	R	The <i>Society</i> must comply with <i>LLD 13.2.2R</i> by identifying and valuing the assets of <i>individual members</i> in accordance with the requirements for the identification and valuation of assets contained in the “Conditions and Requirements Relating to Solvency and Reporting” which were approved by the <i>FSA</i>, exercising the powers of HM Treasury under section 83 of the Insurance Companies Act 1982, and which were applicable immediately before commencement.	<i>Commencement to 31.12.2002</i>	<i>Commencement</i>
5	<i>LLD 15.9R</i> and <i>LLD 15.11R</i>	R	The <i>Society</i> need not comply with <i>LLD 15.9R</i> and <i>LLD 15.11R</i> provided the <i>Society</i> submits to the <i>FSA</i>, at the same time as the report in <i>LLD 15.2.1R</i>, a Statutory Statement of Business and Audit Certificate in the form required immediately before commencement.	<i>Commencement to 31.12.2001</i>	<i>Commencement</i>
6	<i>LLD</i>	G	<u>General transitional provisions</u> <i>GEN</i> contains some technical transitional provisions that apply throughout the <i>Handbook</i> and which are designed to ensure a smooth transition at commencement.	From commencement	<i>Commencement</i>

Chapter 1.

Society's regulatory functions

1.1 Application and purpose

Application

1.1.1

G
/1

The *guidance* in this chapter is relevant to the *Society*.

Purpose

1.1.2

G
/1

The *guidance* in this chapter is intended to:

- (1) promote confidence in the market at Lloyd's by ensuring that it is appropriately and effectively regulated by the *Society* and the *Council* and those to whom the *Council* delegates the *Society's regulatory functions*;
- (2) protect policyholders and *members*; and
- (3) enable the *FSA* to use its resources in an efficient and effective way when regulating *underwriting agents*, and *approved persons* acting for or on behalf of those agents, by making it possible for the *FSA* to rely on the *Society* and the *Council* to carry out certain functions on behalf of the *FSA* or otherwise.

1.2 Carrying out the Society's regulatory functions

Delegation

- 1.2.1** **G**_{/1} The *Society* should establish and maintain a clear, appropriate and effective delegation of responsibilities for the carrying out of the *Society's regulatory functions*, so that the *Council* can adequately monitor and control them.
- 1.2.2** **G**_{/1} The *Council* should:
- (1) approve and record the delegation referred to in *LLD 1.2.1G*; and
 - (2) review it at least once each year.
- 1.2.3** **G**_{/1} The terms and limits of any delegation of authority referred to in *LLD 1.2.1G* should be made clear to those to whom that authority is delegated.
- 1.2.4** **G**_{/1} Any committee to which the *Society* delegates authority under *LLD 1.2.1G* should:
- (1) have formal terms of reference;
 - (2) make and retain proper records, including minutes of its meetings; and
 - (3) be composed of an appropriate number of individuals who are collectively and individually fit and proper.
- 1.2.5** **G**_{/1} Any individual or other *person* to whom the *Society* delegates authority under *LLD 1.2.1G* should:
- (1) have a written statement of the scope of his delegated authority and the purpose for which it is to be exercised;
 - (2) make and retain proper records of the exercise of his delegated authority; and
 - (3) be fit and proper.

Disciplinary arrangements

- 1.2.6** **G**_{/1} The *Society's* disciplinary arrangements, including the activities of its disciplinary and appeal committees, should ensure a prompt, fair and independent hearing for any *person* accused of breaching a *byelaw*, as required by the Human Rights Act 1998.

Dealing with the FSA

- 1.2.7 **G**_{/1} In addition to complying with *Principle 11* in carrying on its *regulated activities*, the *Society* should deal with the *FSA* in an open and co-operative way in carrying out the *Society's regulatory functions* and should tell the *FSA* promptly of anything relating to the *FSA's* regulatory functions about which it would reasonably expect prompt notice.
- 1.2.8 **G**_{/1} The *Society* should ensure that the *FSA* is able to interview or otherwise obtain information directly from the committees, individuals or other *persons* to whom the *Society* delegates responsibility for carrying out the *Society's regulatory functions*.
- 1.2.9 **G**_{/1} The access described in *LLD 1.2.8G* should include appropriate access to the records of the committees, individuals or other *persons* who carry out the *Society's regulatory functions*.

1.3 Conflicts of interest

Arrangements

- 1.3.1** **G**_{/1} The *Society* should establish and maintain appropriate and effective arrangements to ensure that the carrying out of the *Society's regulatory functions* is not subject to any improper influence or appearance of improper influence.
- 1.3.2** **G**_{/1} The arrangements referred to in *LLD 1.3.1G* should extend to conflicts of interest that arise for *employees* of the *Society*, members of the *Council*, and others who may be involved in carrying out the *Society's regulatory functions*.
- 1.3.3** **G**_{/1} In *LLD 1.3* "conflicts of interest" include the appearance of a conflict of interest as well as an actual conflict of interest.
- 1.3.4** **G**_{/1} The *Society* should structure itself and delegate authority so that it can continue properly to carry out the *Society's regulatory functions* despite any conflicts of interest.
- 1.3.5** **G**_{/1} Matters that the *Society* should consider under *LLD 1.3.4G* include, but are not limited to:

 - (1) the size and composition of any committees to which authority to carry out the *Society's regulatory functions* has been or will be delegated; and
 - (2) the necessity to transfer authority to take decisions or responsibilities to alternates should a conflict of interest arise.

Guidelines

- 1.3.6** **G**_{/1} The *Society* should issue guidelines setting out how conflicts of interest are to be handled and where necessary requirements should be imposed to ensure that the guidelines are followed.
- 1.3.7** **G**_{/1} The guidelines or requirements referred to in *LLD 1.3.6G* may be contained, for example, in contracts of employment, staff rules, letters of appointment, or codes of conduct for members of the *Council* and of those committees to which authority to carry out the *Society's regulatory functions* has been delegated.
- 1.3.8** **G**_{/1} The guidelines referred to in *LLD 1.3.6G* should include:

 - (1) guidelines for determining whether a conflict of interest exists;

- (2) the need for prompt disclosure of any conflict of interest to enable others, not affected by the conflict, to decide how it should be managed;
- (3) guidelines for declaring any conflict of interest at proceedings of the *Council* and any committees to which the *Council* delegates responsibility for carrying out the *Society's regulatory functions*;
- (4) the circumstances in which a general advance disclosure of any conflicts of interest will usually be sufficient;
- (5) the circumstances in which a general advance disclosure may not be sufficient;
- (6) the circumstances in which it may be appropriate for a conflicted individual to withdraw from involvement in the matter concerned without disclosing the interest;
- (7) the circumstances in which individuals should withdraw from the decision-making process, from access to relevant information, or from proceedings of the *Council* or of any committees to which authority to carry out the *Society's regulatory functions* has been delegated by the *Council*; and
- (8) the penalty or other sanction that will apply if guidelines are not followed or requirements are not complied with.

1.3.9

G
/1

The *Society* should establish and maintain appropriate and effective arrangements to monitor compliance with the guidelines or requirements referred to in *LLD* 1.3.6G by its staff and other *persons* involved in carrying out the *Society's regulatory functions*.

Register and records

1.3.10

G
/1

The *Society* should:

- (1) make and retain a register of interests; and
- (2) make and retain records of disclosures of conflicts of interest and the steps taken to handle them.

1.4 Confidential regulatory information

1.4.1

G
/1

The *Society* should establish and maintain appropriate and effective arrangements to ensure that confidential regulatory information received or created by the *Society* is used only for carrying out the *Society's regulatory functions* and is subject to appropriate and effective restrictions limiting disclosure and use.

Chapter 2.

2.

Provision of information

2.1 Application and purpose

Application

2.1.1

D
/1

This chapter applies to the *Society* and the directions in it are given to the *Council* and to the *Society* acting through the *Council*.

Purpose

2.1.2

G
/1

The directions in this chapter are given under section 318 of the *Act* (Exercise of powers through Council), for the purpose of achieving the objective specified, as required by section 318(2) of the *Act*, in *LLD 2.2.1D*.

2.2 Specification of objective

2.2.1

/1

The directions and *guidance* in this chapter are given in relation to the exercise of the powers of the *Society* and of the *Council* generally, with a view to achieving the objective of enabling the *FSA* to:

- (1) comply with its general duty under section 314 of the *Act* (Authority's general duty);
- (2) determine whether *underwriting agents*, or *approved persons* acting for them or on their behalf, are complying with the requirements imposed on them by or under the *Act*;
- (3) enforce the provisions of the *Act*, or requirements made under the *Act*, by enabling the *FSA* to consider, where appropriate, whether it should use its powers, for example, to:
 - (a) vary or cancel the *permission* of an *underwriting agent*, under section 45 of the *Act* (Variation etc on the Authority's own initiative);
 - (b) withdraw approval from an *approved person* acting for or on behalf of an *underwriting agent*, under section 63 of the *Act* (Withdrawal of approval) (see *ENF* 7);
 - (c) prohibit an individual acting for or on behalf of an *underwriting agent* from involvement in *regulated activities*, under section 56 of the *Act* (Prohibition orders) (see *ENF* 8);
 - (d) require an *underwriting agent* to make restitution, under section 384 of the *Act* (Power of Authority to require restitution) (see *ENF* 9);
 - (e) discipline an *underwriting agent*, or an *approved person* acting for it or on its behalf, for a breach of a requirement made under the *Act*, including the *Principles*, *Statements of Principle* and *rules* (see *ENF* 11, 12 and 13);
 - (f) apply to court for an *injunction*, restitution order or *insolvency order* (see *ENF* 6, 9 and 10); and
 - (g) prosecute any criminal offence that the *FSA* has power to prosecute under the *Act* (see *ENF* 15).

2.2.2

/1

Information provided to the *FSA* by the *Society* to comply with the *Act*, requirements under the *Act* or *rules*, may also be used by the *FSA* for the purposes stated in *LLD* 2.2.1D.

2.2.3

G

Other sections of *LLD* covering the provision of information to the *FSA* are:

^{/1}

- (1) *LLD* 3.3 (Information about the Central Fund);
- (2) *LLD* 4.3 (Information about the capacity transfer market);
- (3) *LLD* 7.4 (Information about complaints); and
- (4) *LLD* 15 (Reporting by the Society).

2.3 Information on matters likely to be of material concern to the FSA

- 2.3.1** **D**_{/1} The *Society* must immediately inform the *FSA* in writing if it becomes aware that any matter likely to be of material concern to the *FSA* may have arisen in relation to:
- (1) the *regulated activities* for which the *Society* has permission; or
 - (2) *underwriting agents*; or
 - (3) *approved persons* or individuals acting for or on behalf of *underwriting agents*.
- 2.3.2** **G**_{/1} *LLD 2.3.1D* is designed to enable the *FSA* to fulfil its monitoring and enforcement obligations under paragraph 6 of Schedule 1 to the *Act* (The Financial Services Authority), whilst at the same time recognising the *Society's* powers and responsibilities for supervising and regulating the market.
- 2.3.3** **G**_{/1} In view of the *Society's* responsibilities for the *Society's regulatory functions*, the *FSA's* monitoring of *underwriting agents*, and *approved persons* acting for them or on their behalf, may be less intensive than its monitoring of *firms* and *approved persons* outside the Lloyd's market. The purpose of *LLD 2.3.1D* is to ensure that the *Society* informs the *FSA* when it becomes aware, as a result of carrying out the *Society's regulatory functions*, of matters likely to be of material concern to the *FSA*.
- 2.3.4** **G**_{/1} Matters likely to be of material concern to the *FSA* include but are not limited to:
- (1) facts suggesting that an *underwriting agent* may no longer satisfy the *threshold conditions* in relation to a *regulated activity* for which it has a *Part IV permission*;
 - (2) facts suggesting that an *underwriting agent* may have contravened, is contravening, or is likely to contravene, a requirement imposed on it by or under the *Act*;
 - (3) facts suggesting that the interests of *consumers* are or may be at risk;
 - (4) facts suggesting that an *approved person* acting for or on behalf of an *underwriting agent* may not be fit and proper to carry out the functions to which the approval relates;
 - (5) facts suggesting that an *approved person*, or individual acting for or on behalf of an *underwriting agent*, may not be fit and proper to perform functions in relation to a *regulated activity* carried on by a *firm* or *exempt person*;

- (6) facts suggesting that an *approved person* acting for or on behalf of an *underwriting agent* may have failed to comply with a *Statement of Principle*, or may have been concerned in the contravention by an *underwriting agent* of a requirement imposed on it by or under the *Act*; and
- (7) facts suggesting that a *person* may have committed a criminal offence that the *FSA* has power to prosecute under the *Act* and that came to the *Society's* notice in the course of its *regulated activities* or the *Society's regulatory functions*.

2.4 Information on investigations and disciplinary proceedings

2.4.1

D
/1

The *Society* must inform the *FSA* if it commences investigations or disciplinary proceedings relating to apparent breaches:

- (1) of the *Act* or requirements made under the *Act*, including the *threshold conditions* or the *Principles* or other *rules*, by an *underwriting agent*; or
- (2) of the *Statements of Principle* by an individual or other *person* who carries out *controlled functions* for or on behalf of an *underwriting agent*.

2.4.2

D
/1

The *Society* must inform the *FSA* if it commences investigations or disciplinary proceedings which do not fall within the scope of *LLD 2.4.1D* but which:

- (1) involve an *underwriting agent*, or an *approved person* who carries out *controlled functions* for it or on its behalf; or
- (2) may indicate that an individual acting for or on behalf of an *underwriting agent* may not be a fit and proper *person* to perform functions in relation to *regulated activities*.

2.4.3

G
/1

The information provided under *LLD 2.4.1D* and *LLD 2.4.2D* should include information about any:

- (1) commencement of an inquiry under Lloyd's Inquiries and Investigations Byelaw (No 3 of 1983);
- (2) issue of proceedings under Lloyd's Issue of Proceedings by Council Byelaw (No 18 of 1983);
- (3) administrative suspension under Lloyd's Administrative Suspension Byelaw (No 7 of 1987);
- (4) making of a review order under Lloyd's Review Powers Byelaw (No 5 of 1986);
- (5) imposition of penalties under Lloyd's Misconduct and Penalties Byelaw (No 30 of 1996);
- (6) directions given under Lloyd's Suspension: Supplementary and Consequential Matters Byelaw (No 19 of 1983);
- (7) institution of disciplinary proceedings, settlement of disciplinary proceedings, or decisions of a *Disciplinary Tribunal* under Lloyd's Disciplinary Committees Byelaw (No 31 of 1996); and

(8) restitution ordered under Lloyd's Restitution Orders Byelaw (No 24 of 2000).

- 2.4.4** G_{/1} The *Society* need not give the *FSA* notice of routine inspections which form part of regular monitoring or themed visits.
- 2.4.5** G_{/1} At the end of each calendar month, the *Society* should report to the *FSA* on the progress of all investigations and disciplinary proceedings previously reported under *LLD 2.4.1D* and *LLD 2.4.2D* that are still in progress or which ceased during that month.
- 2.4.6** G_{/1} The *Society* should send the *FSA* the information under *LLD 2.4.1D*, *LLD 2.4.2D* and *LLD 2.4.5G* within five business days of the end of each calendar month.

2.5 Co-operation between the FSA and the Society

2.5.1

G

^{/1}

LLD 2.5.2G sets out the FSA's policy regarding notification to the *Society* when the FSA investigates or takes action in relation to an *underwriting agent*, an *approved person* who carries out *controlled functions* for or on behalf of an *underwriting agent*, or an individual acting for or on behalf of an *underwriting agent*.

2.5.2

G

^{/1}

Subject to the restrictions on disclosure or use of confidential information in or under sections 348 (Restrictions on disclosure of confidential information by Authority etc) and 349 (Exceptions from section 348) of the *Act*, any restrictions on disclosure or use that apply under European or common law, and any special circumstances of an individual case, the FSA will notify the *Society* when the FSA does any of the following:

- (1) requires, or authorises an *officer* to require, an *underwriting agent* to provide specified information or documents under section 165 of the *Act* (Authority's power to require information); or
- (2) requires an *underwriting agent* to provide a report by a *skilled person* under section 166 of the *Act* (Reports by skilled persons); or
- (3) appoints an investigator to carry out an investigation under any of sections 167 to 169 of the *Act* (Appointment of persons to carry out general investigations, Appointment of persons to carry out investigations in particular cases, Investigations etc in support of overseas regulator) where the subject of the investigation is an *underwriting agent* or an *approved person* acting for or on behalf of an *underwriting agent*; or
- (4) executes a warrant to search for and to seize documents where the subject of the investigation is an *underwriting agent* or an *approved person* acting for or on behalf of an *underwriting agent*; or
- (5) issues a *supervisory notice*, a *warning notice*, a *decision notice*, a *notice of discontinuance* or a *final notice* in relation to the following administrative enforcement action against an *underwriting agent*:
 - (a) variation or cancellation of *permission* on the FSA's own initiative under sections 45 to 47 of the *Act* (Variation etc at request of authorised person, Variation of permission on acquisition of control, Exercise of power in support of overseas regulator); or
 - (b) restitution required by the FSA under section 384 of the *Act* (Power of Authority to require restitution); or
 - (c) disciplinary action under sections 205 and 206 of the *Act* (Public censure, Financial penalties); or

- (6) issues a *warning notice*, a *decision notice*, a *notice of discontinuance* or a *final notice* in relation to the following administrative enforcement action against an *approved person* acting for or on behalf of an *underwriting agent*:
 - (a) withdrawal of approval under section 63 of the *Act* (Withdrawal of approval); or
 - (b) prohibition from *regulated activities* under section 56 of the *Act* (Prohibition orders); or
 - (c) disciplinary action under section 66 of the *Act* (Disciplinary powers); or
- (7) issues a *warning notice*, a *decision notice*, a *notice of discontinuance* or a *final notice* in relation to the prohibition from *regulated activities* under section 56 of the *Act* (Prohibition orders) of an individual acting for or on behalf of an *underwriting agent*; or
- (8) applies to the court for an *injunction* under section 380 (Injunctions) or restitution order under section 382 (Restitution orders) of the *Act* in relation to an *underwriting agent* or an *approved person* acting for or on behalf of an *underwriting agent*, or for an administration order, winding up order or bankruptcy order against an *underwriting agent* under Part XXIV of the *Act* (Insolvency); or
- (9) commences a criminal prosecution against an *underwriting agent* or *approved person* acting for or on behalf of an *underwriting agent*.

2.5.3**G**

/1

ENF 11 gives further guidance on the policy and procedures which apply in circumstances where both the *FSA* and other regulatory authorities have an interest in investigating or disciplining a *firm*, individual or other *person*. The *FSA* and the *Society* have agreed to have enforcement co-operation arrangements to assist them when they are considering cases of regulatory concern or misconduct of mutual interest.

2.6 Information about the Society's byelaws

- 2.6.1** **G**_{/1} The defined term "*byelaw*" means any Byelaw, direction, regulation, or other instrument made using the powers of the *Council* under section 6 of Lloyd's Act 1982 (including any regulation ratified by the *Council* by special resolution) and any condition or requirement made under any such Byelaw, direction, regulation, or other instrument.
- 2.6.2** **G**_{/1} The *Society* should give the *FSA* adequate notice of all changes it proposes to make to its *byelaws* for supervising and regulating the market at Lloyd's.
- 2.6.3** **G**_{/1} The *Society* should, having regard to the materiality and urgency of a proposed change, consult interested parties on changes it proposes to make to its *byelaws* for supervising and regulating the market at Lloyd's. It should inform the *FSA* about the consultation undertaken and summarise the responses received.
- 2.6.4** **G**_{/1} The *Society* should give the *FSA* copies of all its regulatory and market bulletins and all amendments to its *byelaws* as soon as it publishes them.

Chapter 3.

The Central Fund

3.

3.1 Application and purpose

Application

3.1.1 **R** This chapter applies to the *Society*.

/1

3.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.

/1

Purpose

3.1.3 **G** The *rules* and *guidance* in this chapter are intended to promote confidence in the market at Lloyd's, and to protect certain *consumers* of services provided by the *Society* in carrying on, or in connection with or for the purposes of, its *regulated activities*. They do this by:

/1

- (1) giving guidance to the *Society* about the protection that the *Central Fund* should provide for policyholders; and
- (2) enabling the *FSA* to keep under review the protection the *Central Fund* provides for policyholders.

3.2 The Central Fund

3.2.1

G

/1

The *Society* should seek to ensure that the *Central Fund* provides protection for policyholders at least equivalent to that available to other policyholders under the *compensation scheme*.

3.2.2

G

/1

The *Society* should seek, and take appropriate account of, the *FSA*'s views on all proposed changes in its arrangements relating to the *Central Fund*.

3.3 Information about the Central Fund

3.3.1 **R** ^{/1} The *Society* must give the *FSA* a report on the *Central Fund* as at the end of each calendar quarter.

3.3.2 **R** ^{/1} The report referred to in *LLD* 3.3.1R must reach the *FSA* within two weeks of the end of each calendar quarter and must include information on:

- (1) the net market value of the *Central Fund*;
- (2) payments made from the *Central Fund* in that quarter;
- (3) the types of investment in which the *Central Fund* is held;
- (4) the commencement or cessation of, or any changes in the terms of, any insurance policy taken out to protect the *Central Fund*; and
- (5) any claim made, or circumstances notified that are likely to lead to a claim, under any insurance policy taken out to protect the *Central Fund*.

3.3.3 **G** ^{/1} Because of the significance of the *Central Fund* in the protection of policyholders, the *Society* should notify the *FSA* under *LLD* 3.3.2R(5) of all matters relevant to any actual or potential claim. These include but are not limited to the facts on which that claim is based, the circumstances under which those facts arose and any relevant response to the claim from any insurer or reinsurer concerned.

Chapter 4.

Capacity transfer market

4.

4.1 Application and purpose

Application

4.1.1 **R** This chapter applies to the *Society*.

/1

4.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.

/1

Purpose

4.1.3 **G** The *rules* and *guidance* in this chapter are intended to promote confidence in the market at Lloyd's, and to protect certain *consumers* of services provided by the *Society* in carrying on, or in connection with or for the purposes of, its *regulated activities*. They do this by ensuring that the *Society* appropriately and effectively regulates the *capacity transfer market* so that it operates in a fair and transparent manner.

/1

4.2 Requirement to make byelaws governing conduct in the capacity transfer market

Requirement

- 4.2.1 **R** /1 The *Society* must make appropriate *byelaws* governing conduct in the *capacity transfer market*.

Standards expected

- 4.2.2 **G** /1 The *byelaws* referred to in *LLD* 4.2.1R should:
- (1) ensure that adequate and effective arrangements are in place to enable *members* and *persons* applying to be admitted as *members* to enter into transactions to transfer *syndicate* capacity and settle these transactions in a timely manner;
 - (2) give clear and comprehensive guidance about the dissemination of information that is, or may be, relevant to the price of *syndicate* capacity and the transparency of the *capacity transfer market*; and
 - (3) prohibit unfair and abusive practices (including market manipulation), the misuse of information not generally available, and the dissemination of false or misleading information.
- 4.2.3 **G** /1 The *Society* should have adequate and effective arrangements to:
- (1) record and monitor transactions in the *capacity transfer market*, and maintain adequate audit trails; and
 - (2) suspend or annul transactions where appropriate.
- 4.2.4 **G** /1 The *Society* should have adequate and effective arrangements to monitor and enforce compliance with the *byelaws* referred to in *LLD* 4.2.1R.
- 4.2.5 **G** /1 The *Society* should regularly review the *byelaws* referred to in *LLD* 4.2.1R, taking account of the standards of conduct required in other *UK* financial markets.
- 4.2.6 **G** /1 The *Society's* arrangements for reviewing and amending the *byelaws* referred to in *LLD* 4.2.1R should be timely, effective and impartial and should take into account the *guidance* about conflicts of interest in *LLD* 1.3.

- 4.2.7** G_{/1} The *Society* should consult *members* and *underwriting agents* before it finalises material changes in the *byelaws* referred to in *LLD 4.2.1R*, and should have timely and effective arrangements for notifying them of changes in these *byelaws*.

Changes in byelaws

- 4.2.8** G_{/1} The *Society* should give the *FSA* adequate notice of all changes it proposes to make in its *byelaws* governing conduct in the *capacity transfer market*.

- 4.2.9** G_{/1} The *FSA* will take account of the standards of conduct required in other *UK* financial markets when it reviews proposed changes in the *Society's byelaws* governing the *capacity transfer market*.

4.3 Information about the capacity transfer market

- 4.3.1 **R** /1 The *Society* must give the *FSA* a report as at the end of each calendar quarter in which any capacity is transferred.
- 4.3.2 **R** /1 The report referred to in *LLD* 4.3.1R must reach the *FSA* within one month of the end of the relevant calendar quarter and must include information on:
- (1) the total capacity in *syndicates* transferred during the quarter, analysed by *syndicate* and method of transfer;
 - (2) the number, and nature, of all investigations by the *Society* into conduct in the *capacity transfer market* undertaken or continued during the quarter; and
 - (3) the number, and nature, of all complaints received during the quarter about the operation of the *capacity transfer market*.

Chapter 5.

Former underwriting members

5.

5.1 Application and purpose

Application

5.1.1 **R** This chapter applies to the *Society*.

/1

5.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.

/1

Purpose

5.1.3 **G** The *rules* and *guidance* in this chapter are intended to promote confidence in the market at Lloyd's and to protect certain *consumers* of services provided by the *Society* in carrying on or in connection with or for the purposes of its *regulated activities* by:

/1

- (1) protecting policyholders against the risk that *former underwriting members* may not be able to meet any liabilities to carry out *contracts of insurance* that they underwrote at Lloyd's; and
- (2) enabling the *FSA* to impose requirements under section 320(3) of the *Act* (Former underwriting members) if it considers this appropriate to protect policyholders.

5.2 Requirements relating to former underwriting members

- 5.2.1 **R**_{/1} The *Society* must draw sections 320 to 322 of the *Act* (Former underwriting members, Requirements imposed under section 320, Rules applicable to former underwriting members) to the attention of any *person* ceasing to be an *underwriting member* on or after *commencement*.
- 5.2.2 **R**_{/1} The *Society* must require any *person*, other than a *body corporate*, ceasing to be an *underwriting member* on or after *commencement* to:
- (1) notify the *Society* of any change in his address within one month of the change; and
 - (2) in the case of a natural person, to make arrangements for the *Society* to be notified in the event of his death.
- 5.2.3 **G**_{/1} The *Society* should make and retain records of the notifications made to it under the requirements referred to in *LLD* 5.2.2R. It should give the *FSA* access to these records if the *FSA* requests this.

Chapter 6.

Complaints from policyholders

6.

6.1 Enabling provision, application and purpose

Enabling provision and application

6.1.1

G
/1

The *insurance market direction* in this chapter is given under section 316(1) of the *Act* (Direction by Authority) and applies to *members*.

Purpose

6.1.2

G
/1

The *insurance market direction* given in this chapter is intended to protect the interests of policyholders and potential policyholders by:

- (1) making *members* subject to the *Compulsory Jurisdiction* of the *Financial Ombudsman Service* with respect to the carrying on of insurance business; and
- (2) enabling the complaints of policyholders who are *eligible complainants* to be dealt with under the rules of the *Financial Ombudsman Service*.

6.2 Insurance market direction on policyholder complaints

- 6.2.1**  _{/1} (1) With effect from *commencement*, Part XVI of the *Act* (The Ombudsman Scheme), and in particular section 226 (Compulsory jurisdiction), applies to the carrying on of insurance business by *members*.
- (2) For the purposes of (1) “insurance business” means the *regulated activities* of effecting or carrying out contracts of insurance written at Lloyd’s.
- 6.2.2**  _{/1} Part XVI (The Ombudsman Scheme) is a *core provision* mentioned in section 317(1) of the *Act* (The core provisions).
- 6.2.3**  _{/1} Section 317(2) of the *Act* (The core provisions) provides that references in an applied *core provision* to an *authorised person* are to be read as references to a *person* in the class to which the *insurance market direction* applies. The effect of this, and of the *insurance market direction* set out at *LLD 6.2.1D*, is that Part XVI of the *Act* (The Ombudsman Scheme), and in particular section 226 (Compulsory jurisdiction), apply also to *members*.
- 6.2.4**  _{/1} *Guidance* on the jurisdiction of the *Financial Ombudsman Service* in relation to *members* is given in *DISP 2.5.3G*. The handling of a policyholder complaint against a *member* is covered in *DISP 1.7.1R* and *DISP 1.7.2G*.

Chapter 7.

Complaints from members

7.

7.1 Application and purpose

Application

- 7.1.1 **R** This chapter applies to the *Society*.
/1
- 7.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
/1

Purpose

- 7.1.3 **G** The *rules* and *guidance* in this chapter are intended to promote confidence in the market at Lloyd's, and to protect certain *consumers* of services provided by the *Society* in carrying on, or in connection with or for the purposes of, its *regulated activities*. They do this by ensuring that there are adequate and effective arrangements to handle and resolve complaints from *members* about the conduct of certain activities within the Lloyd's market by the *Society* or by *underwriting agents*.
/1
- 7.1.4 **G** The *Financial Ombudsman Service* will not be able to deal with these complaints and separate *rules* and *guidance* are therefore required.
/1
- 7.1.5 **G** Complaints from policyholders, and complaints from *members* about *members'* *advisers*, are dealt with in *LLD* 6, *DISP* 1.7 and *DISP* 2.5.3G.
/1

7.2 Complaints handling arrangements

7.2.1

R

/1

The *Society* must establish and maintain appropriate and effective arrangements for handling any complaint from a *member* or a *former member* about:

- (1) *regulated activities* carried on by the *Society*;
- (2) the *Society's regulatory functions* carried on by the *Society*, the *Council* or those to whom the *Council* delegates authority to carry out such functions;
- (3) advice given by an *underwriting agent* to a *person* to become, continue or cease to be, a member of a particular *syndicate*; and
- (4) the management by a *managing agent* of the underwriting capacity of a *syndicate* on which the complainant participates or has participated.

7.2.2

G

/1

In establishing the arrangements referred to in *LLD 7.2.1R* the *Society* should have regard to:

- (1) the likely number of complaints it will receive; and
- (2) the nature and complexity of the complaints it is likely to receive and investigate.

7.2.3

G

/1

The arrangements referred to in *LLD 7.2.1R* should have the following features.

- (1) They should allow for complaints to be made by any reasonable means.
- (2) The complaints handling policy and arrangements should be published and be made available to *members*, *former members* and *underwriting agents*.
- (3) Copies of the documents referred to in (2) should be sent to a complainant as soon as a complaint is received.
- (4) The *Society* should ensure that its employees and those of *underwriting agents* are aware of the complaints handling policy and arrangements, and should endeavour to ensure that they act in accordance with them.
- (5) All complaints should be investigated promptly and wherever possible provision should be made for review of that investigation by someone who was not involved in the matter complained of.

- (6) Appropriate management controls should be put in place to ensure that complaints are handled fairly, impartially and consistently and that recurring or systemic problems can be identified and remedied.
- (7) Complaints should be resolved speedily at the earliest stage possible.
- (8) If a complaint cannot be resolved speedily, a letter of acknowledgement should be sent promptly, indicating when the complainant can expect a substantive response.
- (9) All responses to complaints should adequately address the subject matter of the complaint.

7.2.4

G
/1

A response to a complaint should be sent within four weeks of its receipt. This should:

- (1) accept the complaint and where appropriate offer redress (financial or otherwise); or
- (2) reject the complaint and give reasons for doing so; or
- (3) explain that it has not yet been possible to resolve the complaint and that more time is needed to do so, giving reasons for the delay and stating when a further response will be made.

7.2.5

G
/1

If a complaint has not been resolved within eight weeks from the date on which the *Society* received it, the complainant should be told that more time is needed and reasons for the delay should be given, with a date when the complainant will get a further response.

7.2.6

G
/1

At the end of the eight week period referred to in *LLD 7.2.5G*, or at the time it sends a substantive response (if this is earlier), the *Society* should also send the complainant information on:

- (1) any right to refer the complaint:
 - (a) to the *Lloyd's Members' Ombudsman* if the complaint relates to the matters identified in *LLD 7.2.1R(1)* or *LLD 7.2.1R(2)*; or
 - (b) to the *Lloyd's Arbitration Scheme* if the complaint relates to the matters identified in *LLD 7.2.1R(3)* or *LLD 7.2.1R(4)*; or
 - (c) to any other independent dispute resolution scheme that may, pursuant to *LLD 7.5.1R*, replace either of the schemes referred to in (a) and (b); and
- (2) arrangements and procedures for referring the complaint.

7.2.7

G
/1

Any redress accepted by a complainant should be provided promptly.

7.2.8

G
/1

Where financial redress is appropriate, the aim should be to return the complainant to the position he would have been in had the acts or omissions giving rise to the complaint not occurred.

7.2.9

G
/1

The redress referred to in *LLD 7.2.8G* should include a reasonable rate of interest on sums to which the complainant would have been entitled but for the acts or omissions in question.

7.2.10

G
/1

All correspondence and literature about the *Society's* handling of complaints should be in plain language.

7.

7.3 Making and retaining records of complaints

7.3.1

G

/1

The *Society* should make records relating to complaints from *members* and *former members* involving allegations that the complainants have suffered, or may suffer, financial loss, material distress or material inconvenience.

7.3.2

G

/1

The records created under *LLD* 7.3.1G should be retained for a minimum period of three years from the date of receipt of a complaint.

7.4 Information about complaints

7.4.1

G

^{/1}

Within one month of the periods ending June and December in each calendar year, the *Society* should give the *FSA* a report containing the following information:

- (1) the number of complaints received from *members* and *former members* during that period involving allegations that the complainants have suffered, or may suffer, financial loss, material distress or material inconvenience;
- (2) a summary of the nature of these complaints;
- (3) the number of these complaints resolved or rejected;
- (4) the amount of money paid to each complainant referred to in (1) as redress and any other form of redress made; and
- (5) the number of these complaints which have been referred to the *Lloyd's Arbitration Scheme*, the *Lloyd's Members' Ombudsman* or any other independent dispute resolution scheme that may replace either of these schemes.

7.4.2

G

^{/1}

For the purposes of the report referred to in *LLD 7.4.1G*, "complaints resolved" include complaints where the *Society* has completed its consideration of the complaint and either knows the complaint has been resolved to the complainant's satisfaction or has no reason to suspect otherwise.

7.5 Independent dispute resolution schemes

- 7.5.1** **R** ^{/1} The *Society* must maintain by *byelaw* one or more appropriate and effective schemes for the resolution of disputes between an *individual member* or a *former member* who was an *individual member* and:
- (1) his *underwriting agent*; or
 - (2) the *Society*.
- 7.5.2** **R** ^{/1} For the purposes of *LLD 7.5.1R* "*individual member*" includes a *member* which is a *limited liability partnership* or a *body corporate* whose members consist only of, or of the nominees for, a single natural person or a group of connected natural persons.
- 7.5.3** **G** ^{/1} The schemes to which *LLD 7.5.1R* currently refers are the *Lloyd's Arbitration Scheme* and the *Lloyd's Members' Ombudsman* respectively, but the *Society* may maintain other independent dispute resolution schemes in addition to, or instead of, either of these schemes.
- 7.5.4** **G** ^{/1} The schemes referred to in *LLD 7.5.1R* should be operationally independent of the *Society*.
- 7.5.5** **G** ^{/1} An *individual member* or *former member* who was an *individual member* should not have access to the schemes referred to in *LLD 7.5.1R* unless the complaints arrangements maintained by the *Society* have failed to resolve the complaint to his satisfaction within eight weeks of receiving it.
- 7.5.6** **G** ^{/1} The *Society* should give the *FSA* adequate notice of all proposed changes to the *byelaws* relating to the schemes referred to in *LLD 7.5.1R*.
- 7.5.7** **G** ^{/1} When considering what is required to ensure the operational independence of the schemes referred to in *LLD 7.5.1R*, or proposed changes in such schemes, the *Society* should take account of similar arrangements operated by the *Financial Ombudsman Service*.

Chapter 8.

Compensation arrangements for individual members

8.

8.1 Application and purpose

Application

8.1.1 **R** This chapter applies to the *Society*.

^{/1}

8.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.

^{/1}

Purpose

8.1.3 **G** The *rules* and *guidance* in this chapter are intended to promote confidence in the market at Lloyd's, and to protect *consumers* of certain services provided by the *Society* in carrying on, or in connection with or for the purposes of, its *regulated activities*. They do this by ensuring that the *Society* continues to maintain adequate and effective compensation arrangements for *individual members* and *former members* who were *individual members* in respect of claims against *underwriting agents* (other than claims for losses arising only from underwriting or investment risk).

^{/1}

8.1.4 **G** The *compensation scheme* will not compensate *members* or *former members* if *firms* are unable to satisfy claims made in connection with *regulated activities* relating to their participation in Lloyd's *syndicates*. Separate *rules* and *guidance* are therefore required.

^{/1}

8.2 Compensation arrangements for individual members

- 8.2.1 **R**_{/1} The *Society* must maintain *byelaws* establishing appropriate and effective arrangements to compensate *individual members* and *former members* who were *individual members* if *underwriting agents* are unable, or likely to be unable, to satisfy claims by those *members* relating to *regulated activities* carried on in connection with their participation in Lloyd’s *syndicates*.
- 8.2.2 **R**_{/1} For the purposes of *LLD 8.2.1R* “*individual member*” includes a *member* which is a *limited liability partnership* or a *body corporate* whose members consist only of, or of the nominees for, a single natural person or a group of connected natural persons.
- 8.2.3 **G**_{/1} The arrangements referred to in *LLD 8.2.1R*:
- (1) will not compensate losses arising only as a result of underwriting or investment risk to which *individual members* or *former members* who were *individual members* are or were exposed by their participation in Lloyd’s *syndicates*;
 - (2) may be restricted to compensation for losses arising out of fraud, dishonesty or failure to account; and
 - (3) should cover all *regulated activities* carried on by *underwriting agents* relating to Lloyd’s *syndicate* capacity and *syndicate* membership.
- 8.2.4 **G**_{/1} The arrangements referred to in *LLD 8.2.1R* should have a governance structure that is operationally independent from the *Society*, but which is nevertheless accountable to the *Society* for the proper administration of the compensation arrangements.
- 8.2.5 **G**_{/1} If the *Society* proposes to extend the scope of the losses covered by the arrangements referred to in *LLD 8.2.1R* (beyond those resulting from fraud, dishonesty or failure to account), it should have regard to the types of losses covered by the *compensation scheme*.
- 8.2.6 **G**_{/1} In setting the limit of compensation payable for a single loss, and whatever co-insurance should apply, the *Society* should have regard to the compensation payable by the *compensation scheme* for similar claims relating to similar *regulated activities*.
- 8.2.7 **G**_{/1} The *Society* should consult interested parties on proposed changes in the *byelaws* establishing the arrangements referred to in *LLD 8.2.1R*.

8.2.8

G
/1

The *Society* should give the *FSA* adequate notice of all changes it proposes to make to the *byelaws* establishing the arrangements referred to in *LLD* 8.2.1R.

Chapter 9.

Prudential requirements for the Society

9.

9.1 Application and purpose

Application

- 9.1.1 **R** This chapter applies to the *Society*.
/1
- 9.1.2 **G** This chapter applies substantially the same requirements to the *Society* as *IPRU(INS)* applies to *insurers*.
/1
- 9.1.3 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
/1

Purpose

- 9.1.4 **G** The purpose of this chapter and *LLD* 10 to 15 is to:
/1
 - (1) protect policyholders against the risk that the *Society* and *members* may not have adequate financial resources to meet *claims* as they fall due;
 - (2) promote confidence in the market at Lloyd’s by requiring the *Society*, and through it *members*, to maintain resources which are adequate to meet their liabilities;
 - (3) promote confidence in the market at Lloyd’s and enhance public awareness by improving the transparency of financial reporting by the *Society*; and
 - (4) protect the interests of *consumers* of *insurance business* at Lloyd’s.
- 9.1.5 **G** This chapter sets out high level prudential requirements relating to *insurance business* at Lloyd’s.
/1

9.2 General prudential requirements

- 9.2.1 **R** ^{/1} The *Society* must manage its affairs, including the exercise of its *byelaw*-making powers, with due regard to the interests of policyholders and potential policyholders.
- 9.2.2 **R** ^{/1} The *Society* must ensure that its affairs are soundly and prudently managed and take reasonable steps to ensure that the Lloyd's market is soundly and prudently managed.
- 9.2.3 **R** ^{/1} The *Society* must adopt the standards of due care and diligence set out in the custody rules at COB 9 in relation to the custody of assets that constitute *members*' funds.
- 9.2.4 **R** ^{/1} The *Society* may not permit any *syndicate* to carry on both *long-term insurance business* and *general insurance business*.
- 9.2.5 **R** ^{/1} The *Society* must, having regard to the availability and value of the *central assets* of the *Society*, ensure that its assets and its *members*' assets are adequate to meet the liabilities which *members* assume in their *insurance business* at Lloyd's.
- 9.2.6 **R** ^{/1} The *Society* must:
- (1) ensure that its *admissible assets*:
 - (a) that are *investments* are diversified and adequately spread; and
 - (b) taking into account the risks posed to the *Society* by its activities and by the *insurance business* carried on by *members*, are of appropriate safety, yield, maturity and marketability; and
 - (2) take reasonable steps to ensure that the *admissible assets* of *members*:
 - (a) which are *investments* are diversified and adequately spread; and
 - (b) taking into account the type of *insurance business* carried on by *members*, are of appropriate safety, yield, maturity and marketability.

9.3 General guidance on financial resources

- 9.3.1** G_{/1} *LLD 9 to 15 are concerned with the adequacy of the financial resources of the Society and members, which may be threatened by the inherent uncertainties of insurance business.*
- 9.3.2** G_{/1} These uncertainties include:
- (1) uncertainty about the amount of *claims* and expenses;
 - (2) uncertainty about the timing of *claims* and expenses, which may result in assets not being realisable at full value, or at all, when they are needed to pay *claims* and expenses;
 - (3) the risk that non-insurance liabilities may deplete available assets;
 - (4) the risk of adverse movements in the value of, or income from, general or specific assets including fluctuations in interest and foreign exchange rates which may result in a fall in value of the assets held by the *Society* and by its *members*; and
 - (5) the risk of default by *counterparties*.
- 9.3.3** G_{/1} These inherent uncertainties apply both to existing *contracts of insurance* and prospectively to planned new business. In addition *members* are subject to operational risks that impact upon the adequacy of provisions established for past business, the premiums charged for new business and the funds held to support both past and new business.
- 9.3.4** G_{/1} *LLD 9 to 15 address the significant business risks faced by members. They are designed to ensure that the business of the Lloyd's market is properly managed and has in place the controls needed to safeguard policyholders' interests.*
- 9.3.5** G_{/1} The central prudential safeguard is for the *Society* to maintain sufficient net assets to cover any shortfall in *members'* resources. Detailed rules and guidance on this subject are contained in *LLD 11* (Required margins of solvency).
- 9.3.6** G_{/1} The requirement to maintain sufficient assets to cover any shortfall in *members'* resources is underpinned by a standard approach to the valuation and recognition of the assets and liabilities of the *Society* and its *members*. Requirements are made in *LLD 10 to 14* which set out:
- (1) the types of asset which can count towards meeting solvency obligations, any limits on the value which can be placed on an asset, and admissibility limits on the amount of exposure to any one *counterparty*;
 - (2) how insurance and other liabilities should be determined; and

(3) requirements that an *actuary* certify the adequacy of reserves set.

- 9.3.7 G_{/1} For the purpose of calculating solvency in accordance with *LLD 9 to 15*, the *other personal wealth* of *members* is left out of account.
- 9.3.8 G_{/1} The *Society* is required to prepare and submit an audited annual return which reports on assets and liabilities and includes a statement that any shortfall in *members'* resources has been covered. The requirements for reporting are in *LLD 15* (Reporting by the Society).
- 9.3.9 G_{/1} Requirements in relation to valuation and reporting are supplemented by requirements to hold assets that adequately match the risks posed by estimated liabilities. These requirements are contained in *LLD 14* (Assets: market and credit risk).
- 9.3.10 G_{/1} *LLD 10* (Insurance operational risk) includes *rules* requiring premiums and other assets to be held in suitable trust arrangements to provide policyholders with additional safeguards. *LLD 10* (Insurance operational risk) also includes requirements on the *Society* to assess the risks posed to the *Society* by the business underwritten by each *member* and to set capital requirements accordingly.

9.4 Accounting principles and records

Accounting principles

- 9.4.1 **R**_{/1} The *Society* must, for the purposes of *LLD 9 to 15*, apply the *insurance accounts rules* and generally accepted accounting practice, adapted where necessary to apply to the special circumstances of Lloyd's, unless the provisions of this sourcebook otherwise require.
- 9.4.2 **G**_{/1} An important source of such accounting practice is the Statement of Recommended Practice on Accounting for Insurance Business, as issued in December 1998 by the Association of British Insurers and endorsed by the Accounting Standards Board.
- 9.4.3 **G**_{/1} Assets are subject to the valuation and admissibility provisions of *LLD 13* (Assets: valuation and realisability risk) and *LLD 14* (Assets: market and credit risk) and may in the *Lloyd's Return* and for other reporting purposes have attributed to them a lesser value than would be the case under generally accepted accounting practice.
- 9.4.4 **G**_{/1} Liabilities are subject to the valuation and admissibility provisions of *LLD 12* (Determination of liabilities) and may in the *Lloyd's Return* and for other reporting purposes have attributed to them a greater value than would be the case under generally accepted accounting practice.

Records

- 9.4.5 **R**_{/1} The *Society* must make and maintain for an appropriate period adequate accounting records in the *United Kingdom*.
- 9.4.6 **G**_{/1} *LLD 9.4.5R* refers only to those accounting records appropriate to demonstrate compliance by the *Society* with the reporting requirements of *LLD 9 to 15*.
- 9.4.7 **G**_{/1} An appropriate period for the purposes of *LLD 9.4.5R* would normally be not less than 10 years.

Chapter 10.

Insurance operational risk

10.

10.1 Application and purpose

Application

10.1.1 **R** This chapter applies to the *Society*.

/1

10.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.

/1

Purpose

10.1.3 **G** This chapter addresses the systems and controls appropriate to managing operational risk (see also *LLD* 9.1.4G).

/1

10.1.4 **G** There are significant operational risks present in the Lloyd's market arising out of the interrelationships between the entities involved in effecting and carrying out *contracts of insurance*. This chapter therefore contains specific requirements for the *Society* to continue to maintain systems for monitoring and managing operational risk in the market and ensuring that assets are adequately matched to liabilities.

/1

10.1.5 **G** This chapter also requires the *Society* to take reasonable steps to ensure that systems and controls are maintained by *managing agents* to address the risks that arise with respect to the effecting and carrying out of *contracts of insurance*.

/1

10.1.6 **G** General guidance on the adequacy of financial resources is set out at *LLD* 9.3.

/1

10.2 Systems and controls

10.2.1

R

/1

The *Society* must maintain systems and controls that appropriately address the operational risks to which the Lloyd's market is exposed.

10.2.2

G

/1

LLD 10.3 to 10.7 require the *Society* to maintain specific systems and controls that go towards satisfying the *Society's* obligations under *LLD* 10.2.1R.

10.3 Carrying of insurance receivables to trust funds

- 10.3.1 **R**_{/1} The *Society* must take all reasonable steps to ensure that every member carries to a trust fund, in accordance with the provisions of a trust deed, all amounts received or receivable by him, or on his behalf, in respect of any *insurance business*.
- 10.3.2 **R**_{/1} The *Society* must approve the provisions of every trust deed referred to in *LLD* 10.3.1R and any amendments to it.
- 10.3.3 **R**_{/1} The *Society* must take all reasonable steps to ensure that amounts received by *members* in respect of *long-term insurance business* are not carried to the same trust fund as amounts received in respect of *general insurance business*.
- 10.3.4 **G**_{/1} The trust deeds approved by the *Society* under *LLD* 10.3.2R may allow each *member* to pool his separate trust funds, provided that separate funds are maintained for *long-term insurance business* and for *general insurance business*.

10.4 Changes in approved trust deeds

- 10.4.1** **R** ^{/1} The *Society* must at the earliest practicable stage notify the *FSA* of its intention to approve or amend a trust deed.
- 10.4.2** **R** ^{/1} The *Society* must provide the *FSA* with full details of:
- (1) any amendments proposed to any approved trust deed; and
 - (2) any new trust deed it proposes to approve.
- 10.4.3** **R** ^{/1} The information given by the *Society* to the *FSA* under *LLD 10.4.2R* must include a statement of the purpose and the impact of the proposed amendment or new trust deed on policyholders and potential policyholders.
- 10.4.4** **G** ^{/1} The *Society* should, having regard to the materiality of a proposed change, consult interested parties before it gives information to the *FSA* under *LLD 10.4.2R*. The information given to the *FSA* should describe the consultation undertaken and summarise the responses received.
- 10.4.5** **G** ^{/1} Any information given under *LLD 10.4.2R* should be supplied in sufficient time to allow the *FSA* fully to consider the amendment or new deed before it is approved by the *Society*.

10.5 Requirement to maintain risk-based capital system

- 10.5.1** **R** ^{/1} The *Society* must maintain an appropriate and effective risk-based capital system, including:
- (1) a risk-based capital (“RBC”) model to calculate the *funds at Lloyd’s* required to support the *insurance business* of each *member*;
 - (2) arrangements for periodically comparing the premium income of each *syndicate* against the premium income forecast for that *syndicate* used in RBC calculations; and
 - (3) an appropriate dynamic financial model of the *insurance business* carried on in the Lloyd’s market.
- 10.5.2** **R** ^{/1} The *Society* must discuss with the *FSA* any material changes it proposes to make in:
- (1) the RBC model it maintains under *LLD 10.5.1R(1)*;
 - (2) the monitoring arrangements it has established to comply with *LLD 10.5.1R(2)*; and
 - (3) the dynamic financial model it maintains under *LLD 10.5.1R(3)*.
- 10.5.3** **R** ^{/1} The *Society* must give the *FSA* adequate time to review any significant changes that it proposes to make in the RBC model it maintains under *LLD 10.5.1R(1)*, and to assess the implications of those changes for policyholders and potential policyholders and for the adequacy of the *Central Fund*.
- 10.5.4** **R** ^{/1} The *Society* must establish a suitable programme of independent review of the operation of the RBC model and submit the results of each completed review to the *FSA*.
- 10.5.5** **G** ^{/1} The RBC model should take account of the best estimate of prospective losses given the current state of the market. This might be achieved by bulk percentage loads in market sectors that show evidence of soft or softening rates and should take account of the following:
- (1) the expected prospective level of underwriting losses or profits, taking account of the underwriting cycle where one can be made out;

- (2) the prospective variability of underwriting profits or losses;
 - (3) mitigation of risk because of the independence or partial independence of various tranches of *insurance business*; and
 - (4) mitigation of risk based on the prospective reinsurance programme or proxies for reinsurance.
- 10.5.6** G_{/1} The factors listed in *LLD 10.5.5G* should be adjusted for any factors that may increase underwriting risk.
- 10.5.7** G_{/1} If underwriting risk is not considered on a discounted basis within the RBC model, an explicit adjustment for future investment income is appropriate.
- 10.5.8** G_{/1} Any discount rate used in the RBC model should be set with reference to prospective returns on assets. An adjustment should be made for non-interest bearing assets.
- 10.5.9** G_{/1} The RBC model should reflect reserving risk by taking account of factors such as:
- (1) the prospective reserving run-off loss or profit;
 - (2) the prospective variance of run-off loss or profit; and
 - (3) mitigation of risk because of the independence or partial independence of various types of *insurance business* between *classes* and across time.
- 10.5.10** G_{/1} The factors listed in *LLD 10.5.9G* should be adjusted for any other factors that may increase reserving risk, including exposure to latent *claims*, significant litigation or arbitration in progress. The RBC model should also reflect substantial changes in the reinsurance purchased over time.
- 10.5.11** G_{/1} The RBC model should reflect credit risk on reinsurance recoveries by taking account of:
- (1) the spread of outcomes as regards quantum of reinsurance recoverable, for example catastrophe-exposed accounts;
 - (2) the quality of the reinsurers, for example their credit agency ratings; and
 - (3) the possibility of future reinsurer downgrade or failure if a lengthy payout pattern is envisaged.
- 10.5.12** G_{/1} The RBC model should take account of credit risk on receivables other than reinsurance recoveries if these are substantial.
- 10.5.13** G_{/1} The RBC model need not treat asset risk in a sophisticated manner where the character of the asset/liability mix is such that the residual asset risk is small compared to the risk associated with the underwriting. A simple percentage allowance in the discount rate used may well suffice. If not, the formulation of the asset risk should reflect:
- (1) prospective interest and inflation rates and their volatility;
 - (2) the nature, quality, duration and currency of assets; and
 - (3) mitigation of risk because of matching liability profiles.

- 10.5.14 G_{/1} The RBC model should reflect mitigation due to the independence or partial independence between the various risk components.
- 10.5.15 G_{/1} The RBC model should take account of concentrations of assets by *counterparty*, country and economic sector. It should also reflect the potential for asset shocks not matched by compensating changes in the value of liabilities.
- 10.5.16 G_{/1} The RBC model should also provide for loadings where this is appropriate to reflect inadequate systems and controls maintained by any *managing agent*.

10.6 Requirements relating to monitoring aggregations of risk

- 10.6.1** **R**_{/1} The *Society* must establish and maintain effective arrangements to monitor aggregations of risk within the Lloyd’s market.
- 10.6.2** **G**_{/1} The arrangements established by the *Society* under *LLD* 10.6.1R should include regular reviews of the effect on the market as a whole, and on specific parts of it, of a number of realistic disaster scenarios. The arrangements should where appropriate assess significant threats to the market posed by aggregations of risk.
- 10.6.3** **G**_{/1} These arrangements should also enable the *Society* to make and review other ad hoc or periodic analyses of aggregations, or potential aggregations, of risk within the market.
- 10.6.4** **G**_{/1} These arrangements should also enable the *Society* to obtain verification, on a sample basis, of the accuracy or reasonableness of the information on aggregations of risk given to it in respect of individual *syndicates*.
- 10.6.5** **G**_{/1} The *Society* should discuss with the *FSA* the results of its reviews of aggregations of risk and its future plans for aggregation monitoring, including the realistic disaster scenarios it proposes to specify and any other kinds of aggregation it plans to examine. The *Society* should take account of any suggestions the *FSA* makes about the types of aggregation of risk it should monitor and the techniques it should apply to do so.

10.7 Requirements relating to syndicate business plans

- 10.7.1** **R** _{/1} The *Society* must establish and maintain effective arrangements to:
- (1) satisfy itself of the adequacy of the business plans of all new *syndicates* for their first three *syndicate years*; and
 - (2) monitor the business plans of all active *syndicates* for each *syndicate year*.
- 10.7.2** **R** _{/1} The *Society* must where appropriate satisfy itself of the adequacy of the business plans of active *syndicates* for any *syndicate year* if a material change in the *syndicate's insurance business* is proposed or if there is reason to believe the interests of policyholders or potential policyholders are, or may be, threatened.
- 10.7.3** **G** _{/1} The *Society* should require that the *syndicate* business plans submitted to it under *LLD 10.7.1R* include details of:
- (1) the *syndicate's* key characteristics and strategy;
 - (2) the *syndicate's* objectives for the year, including underwriting and financial targets, investment policy, main risks to achieving the plan's targets, and contingency plans;
 - (3) the *class*, size and volume of *insurance business* to be carried on (specifying any proposed new products), including a *syndicate* income projection analysed by *class*;
 - (4) the reinsurance policy and programme, including details of proposed outward reinsurance to other *syndicates*;
 - (5) the reserving policy and methods; and
 - (6) the use of information technology.
- 10.7.4** **G** _{/1} The *Society* should consider each year, in the light of market developments and its assessment of risks to policyholders and potential policyholders, whether *syndicate* business plans should routinely cover areas other than those listed in *LLD 10.7.3G*.
- 10.7.5** **G** _{/1} The *Society* should ensure that the *syndicate* business plans required under *LLD 10.7.1R(2)* are submitted to it at least two months before the start of the relevant year.

- 10.7.6** G_{/1} The *Society* should review the *syndicate* business plans under *LLD* 10.7.1R(2), allocating the resources to be applied to each review with regard to its assessment of the relative risks to policyholders and potential policyholders posed by each *syndicate* (or type of *syndicate*).

- 10.7.7** G_{/1} The *Society* should use the *syndicate* business plans provided under *LLD* 10.7.1R when it plans and carries out its monitoring of *managing agents*, allocating the resource to be applied to monitoring each *managing agent* with regard to the *Society's* assessment of the relative risks to policyholders and potential policyholders posed by each *managing agent's* portfolio of *syndicates*.

10.8 Managing agents systems and controls

- 10.8.1** **R** ^{/1} The *Society* must take reasonable steps to ensure that *managing agents* maintain adequate internal systems and controls to manage the operational risks to which the *syndicates* they manage are exposed, including controls over the processes by which they, on behalf of *members*:
- (1) enter into *contracts of insurance*;
 - (2) settle and pay *claims*;
 - (3) determine *technical provisions* and other provisions; and
 - (4) determine the overall adequacy of the resources supporting the *insurance business*.
- 10.8.2** **G** ^{/1} *Managing agents*, as authorised persons, are required to comply with *PRIN* and *SYSC*. The *FSA* will monitor the Lloyd's market to satisfy itself that *managing agents*, by complying with the requirements of the *Society* in relation to maintaining effective systems and controls, are in compliance with the relevant requirements of *PRIN* and *SYSC*.
- 10.8.3** **G** ^{/1} In making its assessment of the adequacy of the systems and controls operated by *managing agents* the *Society* should take into account the factors listed below.
- (1) The board of *directors* of a *managing agent* is responsible for:
 - (a) approving adequate policies and procedures for managing operational risk;
 - (b) understanding and approving acceptable limits for insurance-liability risks to which *syndicate* members are or may be exposed; and
 - (c) ensuring that an adequate system is in place to enable those risks to be identified, measured and controlled.
 - (2) The policies and procedures for managing the operational risk of each *managing agent* should be:
 - (a) documented and regularly reviewed and updated;
 - (b) effectively communicated to enable all staff to understand and adhere to the policies and procedures which relate to their own responsibilities;
 - (c) comprehensive, with particular reference to business critical processes; and

- (d) regularly reviewed by operationally independent, appropriately trained and suitably skilled staff.
- (3) The senior management of each *managing agent* should have clear and well defined responsibilities for:
 - (a) implementing the policies and procedures approved by the *directors*; and
 - (b) establishing and maintaining an appropriate internal control system, including:
 - (i) an organisational structure with appropriate segregation of duties and with clearly defined responsibilities and reporting relationships;
 - (ii) an assessment procedure that ensures that all significant operational risks are recognised and continually assessed; and
 - (iii) an appropriate system to monitor and ensure compliance with procedures, limits and other controls.
- (4) Appropriate records should be made and maintained by each *managing agent*. These should include records of:
 - (a) an assessment of the validity of notified *claims* by reference to the underlying *contracts of insurance*;
 - (b) any investigations into any delays in underwriting, claims-handling, and other key processes, the remedial action taken and the effect of those delays on the reliability of the records of each *syndicate*;
 - (c) underwriting and *claims* records, so as to enable the *managing agent* to identify trends in the earnings profile and *claims* experience analysed, as appropriate for a proper control of the *insurance business*, by *class* and by source of *insurance business*;
 - (d) sufficient information from both internal and external sources to enable the *managing agent*, so far as reasonably possible, to identify new sources of loss or aggregations of risk whether from changes in the economic, business, legal or physical environment or from any other change in circumstance which might make past experience a poor predictor of the future;
 - (e) appropriate analyses (statistical or otherwise) applied to data, records and information, and appropriate assumptions made in the application of those analyses, to inform key business decisions including the setting of premium rates, the determination of the amount of *technical provisions* and the assessment of the overall adequacy of resources; and
 - (f) regular tests of the adequacy of premiums and *technical provisions* against actual results.

10.9 Requirements relating to the role of actuaries

- 10.9.1 **R** The *Society* must appoint an *actuary* (the *Lloyd's actuary*).
/1
- 10.9.2 **G** The position of *Lloyd's actuary* is not a *controlled function*.
/1
- 10.9.3 **R** The *Society* must ensure that the *Lloyd's actuary*:
/1
- (1) prepares the statement required under *LLD 15.9.1R(2)* to be annexed to the *Lloyd's Return*;
 - (2) is required to take reasonable steps to ensure that the *general insurance business technical provisions* for each *syndicate year* have been reviewed by the *syndicate actuary* under *LLD 10.9.4R(3)(a)* and that an appropriate opinion has been obtained under *LLD 10.9.4R(3)(b)*; and
 - (3) where a *syndicate actuary's* opinion has not been provided, sets appropriate *technical provisions* and, within 6 months of the end of the financial year, submits a report to the *FSA* on the setting of those *technical provisions*.
- 10.9.4 **R** The *Society* must have *byelaws* in place requiring:
/1
- (1) an *actuary* to be appointed to each *syndicate* (the *syndicate actuary*);
 - (2) the *syndicate actuary* of a *long-term insurance business syndicate* to:
 - (a) make an investigation at the end of each *financial year* into the financial condition of the business carried on through each *syndicate year* (other than a *closed year*);
 - (b) make an abstract of his report of the investigation; and
 - (c) prepare the certificate required under *LLD 15.9.1R(3)* to be annexed to the *Lloyd's Return*; and
 - (3) the *syndicate actuary* of a *general insurance business syndicate* to:

- (a) review the *technical provisions* (both gross and net of reinsurance recoveries) of each *syndicate year* (other than a *closed year*); and
- (b) provide an opinion confirming that the *technical provisions* for each *syndicate year* are no less prudent than his best estimate of the amounts required.

10.9.5

R

/1

When the *Society* becomes aware that a *syndicate actuary* of a *general insurance business syndicate* will or may be unable to provide an unqualified opinion under *LLD 10.9.4R(3)(b)*, it must promptly inform the *FSA* that this is the case.

10.9.6

R

/1

The *Society* must have *byelaws* in place requiring a *managing agent* that appoints a *syndicate actuary* to take reasonable care to ensure that the *actuary*:

- (1) has the required skill, resources and experience to perform his duties;
- (2) is a fellow of an *actuarial body* or (except for a *syndicate actuary* of a *long-term insurance business syndicate*) is a fellow of the Casualty Actuarial Society who is a member of an *actuarial body*.

10.9.7

G

/1

For a *general insurance business syndicate* each *actuarial body* requires the *syndicate actuary* to have a practising certificate.

10.10 Limitation of business

10.10.1

R

/1

The *Society* must take all reasonable steps to ensure that:

- (1) *members* which are bodies corporate or partnerships do not carry on any commercial business other than *insurance business* and activities arising directly from that business; and
- (2) *individual members* do not, in their capacity as *underwriting members*, carry on any commercial business other than *insurance business* and activities arising directly from that business.

10.10.2

G

/1

The limitation in *LLD* 10.10.1R(2) does not restrict the ability of *individual members* to conduct other business, at Lloyd's or elsewhere, for which membership of the *Society* is not a necessary pre-condition (for example, accepting employment by an *underwriting agent*).

10.11 Monitoring of transactions between members

10.11.1

R

The *Society* must take reasonable steps to:

^{/1}

- (1) monitor material connected-party transactions involving a *member* in the course of *members' insurance business*; and
- (2) ensure that these do not:
 - (a) distort the financial position and underwriting results of *members*; or
 - (b) result in any substantial risk that *members* may not be able to meet liabilities to policyholders.

Chapter 11.

Required margins of solvency

11.

11.1 Application and purpose

Application

- 11.1.1 **R** This chapter applies to the *Society*.
/1
- 11.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
/1

Purpose

- 11.1.3 **G** This chapter imposes on the *Society* solvency requirements that have a similar effect on Lloyd's as a whole to those imposed on *insurers*. The solvency requirements for *insurers* are set out in *IPRU(INS) 2* (Margins of solvency) (see also *LLD 9.1.4G*).
/1
- 11.1.4 **G** *Members* are not responsible for meeting the liabilities of other *members*, so the *Society* needs to calculate solvency requirements (the *required amount*) attributable to each *member's insurance business*. *LLD 11.2.1R* provides that, where a *member's* assets are insufficient to cover his *required amount*, any shortfall must be covered by *net central assets* of the *Society*.
/1
- 11.1.5 **G** However, especially for *general insurance business*, the requirements of this chapter should be regarded as the minimum. They do not relieve the *Society* of the requirement to assess the actual risks arising from its activities and the *insurance business* carried on at Lloyd's by its *members* and to ensure the adequacy of the assets and other resources available to support those risks.
/1
- 11.1.6 **G** In accordance with *Principle 11* (Relations with regulators), *LLD 11.2.4R* requires the *Society* to inform the *FSA* if the solvency requirement of *LLD 11.2.1R* is or is likely to have been breached. Likewise *LLD 11.2.11R* requires the *Society* to inform the *FSA* if a criterion similar to the *guarantee fund* requirement for *insurers* is or is likely to have been breached.
/1

11.2 Solvency requirement

11.2.1

R

/1

The *Society* must maintain *net central assets* which are adequate to cover the aggregate of:

- (1) for each *member*, the amount by which his *general insurance business assets* are less than the *required amount* calculated under *LLD 11.2.6R*;
- (2) for each *member*, the amount by which his *long-term insurance business assets* are less than the *required amount* calculated under *LLD 11.2.7R*;
- (3) the excess (if any) of the amount calculated under *LLD 11.5.1R* (the *Society margin*) over the sum for all *members* of the *members' margins* for *general insurance business*; and
- (4) the excess (if any) of the sterling equivalent of 800,000 Euros (using the conversion rate notified by the *FSA* from time to time for this purpose) over the sum for all *members* of the *members' margins* for *long-term insurance business*.

11.2.2

G

/1

Where an asset is held as part of *funds at Lloyd's* and is available to meet the liabilities of more than one *member* (interavailable funds), the *Society* may, as it considers appropriate, allocate that asset (net of any attaching liability) between those *members* for the purpose of *LLD 11.2.1R*.

11.2.3

G

/1

LLD 11.2.1R is the central financial requirement placed on the *Society*. The *Society* will need to perform an assessment of the financial position of each *member*, to the extent necessary to confirm continuing compliance with *LLD 11.2.1R*. It will need to have sufficient funds centrally to cover the total of:

- (1) any shortfall in the assets of *members* when, individually, their assets are less than the sum of their liabilities and a *member's margin*, calculated according to formulae set out in *LLD 11.3.1R* and *LLD 11.3.4R*; and
- (2) any adjustment required of the *Society* when the total of *members' margins* is less than the result would have been had the *Society* been treated as a single *insurer* and applied the relevant solvency test to itself.

11.2.4

R

/1

The *Society* must inform the *FSA* promptly if:

- (1) its *net central assets* fall below the amount required under *LLD 11.2.1R*; or

- (2) it cannot confirm that it has maintained the *net central assets* required under *LLD 11.2.1R*.
- 11.2.5** G_{/1} If the *Society* fails to maintain the *net central assets* required under *LLD 11.2.1R*, the *FSA* would expect to require the *Society* to prepare and submit a plan for the restoration of a sound financial position similar to that required from insurers by *SUP*, Appendix 2 1.3, and other remedies might also apply, including the *FSA*'s exercise of its *own-initiative power* under section 45 of the *Act* (Variation etc. on the Authority's own initiative).
- 11.2.6** R_{/1} For each *member*, the *required amount for general insurance business* is the aggregate of:
- (1) his *general insurance business liabilities*; and
 - (2) the *member's margin for general insurance business*, calculated under *LLD 11.3.1R*.
- 11.2.7** R_{/1} For each *member*, the *required amount for long-term insurance business* is the aggregate of:
- (1) his *long-term insurance business liabilities*; and
 - (2) the *member's margin for long-term insurance business*, calculated under *LLD 11.3.4R*.
- 11.2.8** G_{/1} The *member's margin* and the *Society margin* (together with the requirement for the *Society* to maintain *net central assets* to cover any shortfalls) are similar to the *required minimum margin for insurers*.
- 11.2.9** G_{/1} The *required minimum margin* for an *insurer* contains within it a further threshold, that assets must exceed liabilities by the *guarantee fund*. If this requirement is not met, further regulatory actions are triggered. The *guarantee fund* for an insurer is an amount which is calculated as one third of the *required minimum margin* (or the *minimum guarantee fund* if greater).
- 11.2.10** G_{/1} A similar test for the *Society* is whether it maintains *net central assets* to meet the criterion of *LLD 11.2.11R*.
- 11.2.11** R_{/1} The *Society* must inform the *FSA* promptly if its *net central assets* are, or are likely to be, inadequate to cover the aggregate of:
- (1) for each *member*, the amount by which his *general insurance business assets* are less than the *lower required amount* calculated under *LLD 11.2.13R*;
 - (2) for each *member*, the amount by which his *long-term insurance business assets* are less than the *lower required amount* calculated under *LLD 11.2.14R*;
 - (3) the excess (if any) of the amount determined under *LLD 11.5.2R* (the *Society guarantee fund*) over one-third of the sum for all *members* of the *members' margins for general insurance business*; and

(4) the excess (if any) of the sterling equivalent of 800,000 Euros (using the conversion rate notified by the FSA from time to time for this purpose) over one-third of the sum for all *members* of the *members' margins* for *long-term insurance business*.

11.2.12

G

/1

If the *Society* fails to meet this criterion, the FSA would expect to require the *Society* to prepare and submit a short-term financial scheme similar to that required from insurers by SUP, Appendix 2 1.4, and other remedies might also apply, including the FSA's exercise of its *own-initiative power* under section 45 of the *Act* (Variation etc. on the Authority's own initiative).

11.2.13

R

/1

For each *member*, the *lower required amount* for *general insurance business* is the aggregate of:

- (1) his *general insurance business liabilities*; and
- (2) one-third of the *member's margin* for *general insurance business*, calculated under LLD 11.3.1R.

11.2.14

R

/1

For each *member*, the *lower required amount* for *long-term insurance business* is the aggregate of:

- (1) his *long-term insurance business liabilities*; and
- (2) one-third of the *member's margin* for *long-term insurance business*, calculated under LLD 11.3.4R.

11.3 Member's margin

General insurance business

11.3.1 **R** ^{/1} *A member's margin for general insurance business is the higher of the amounts determined under:*

- (1) *LLD 11.4.8R* (the premiums basis); and
- (2) *LLD 11.4.13R* and *LLD 11.4.16R* (the claims basis);

multiplied by the netting-down percentage (to allow for reinsurance) determined under LLD 11.4.20R.

11.3.2 **G** ^{/1} *The member's margin applying throughout a financial year depends on premiums receivable during the previous financial year or claims incurred during the three previous financial years, multiplied in each case by a ratio derived primarily from claims incurred in the previous financial year.*

11.3.3 **G** ^{/1} *LLD 15 (Reporting by the Society) requires the annual returns to reflect the solvency requirements applicable to the following financial year in the statement of the financial position as at the end of a financial year.*

Long-term insurance business

11.3.4 **R** ^{/1} *A member's margin for long-term insurance business is the required margin of solvency which would apply to the member for his long-term insurance business if the member were an insurer and that requirement were modified as in LLD 11.3.6R.*

11.3.5 **G** ^{/1} *IPRU(INS) 2 (Margins of solvency) specifies the margins of solvency which an insurer must maintain.*

11.3.6 **R** ^{/1} *Mathematical reserves (both before and after deduction of reinsurance cessions) and capital at risk must be calculated as if every reinsurance to close were a transfer of engagements.*

11.3.7 **G** ^{/1} *The purpose of LLD 11.3.6R is to ensure that each member's margin applicable to a financial year is calculated by reference to his participation as at the start of the financial year.*

11.3.8

G

/1

As supplementary sickness and accident *insurance business* is not written as part of any *long-term insurance contract* at Lloyd's, this chapter does not include solvency requirements for that business.

11.4 General insurance

Provisions common to the premiums and claims bases

- 11.4.1 **R** /1 In *LLD 11.4.8R* and *LLD 11.4.13R*, *actuarial health insurance* means *general insurance business* which is sickness insurance and satisfies the following conditions:
- (1) the gross premiums receivable are calculated on the basis of sickness tables appropriate to *insurance business*;
 - (2) the reserves include provision for increasing age;
 - (3) an additional premium is collected in order to set up appropriate additional prudential provisions;
 - (4) it is not possible for the *member* or *syndicate* to cancel the contract after the end of the third year of insurance; and
 - (5) the contract provides for the possibility of increasing premiums or reducing benefits during its currency.
- 11.4.2 **R** /1 In *LLD 11.4.8R*, *LLD 11.4.13R* and *LLD 11.4.19R*, the *member's* share of premiums receivable and *claims* incurred:
- (1) excludes amounts in respect of *syndicate years* which have been *closed into open syndicate years* in which the member did not participate at the end of the previous *financial year*; but
 - (2) includes amounts, determined under *LLD 11.4.4R*, in respect of *syndicate years* which have been *closed into open syndicate years* in which the *member* participated at the end of the previous *financial year*.
- 11.4.3 **G** /1 The *member's* share includes amounts in respect of *open syndicate years* in which the *member* participated at the end of the previous *financial year*.
- 11.4.4 **R** /1 In *LLD 11.4.2R* the *member's* share for a *closed syndicate year* must be determined by reference to the *member's* participation in the *open syndicate year* into which it has been *closed*.

- 11.4.5** G_{/1} *LLD 11.4.4R* establishes the principle that a *member's* share of premiums and *claims* is determined according to the *member's* participation in the *open syndicate year* into which the *closed syndicate year* has been *closed*. Therefore any participation the *member* had in the *closed syndicate year* (or any other *syndicate year* into which it was previously *closed*) should not be used. This applies whenever amounts were *receivable*, paid, outstanding or recoverable, and to whatever date they relate.
- 11.4.6** R_{/1} In determining for each *member* the amount of *general insurance business premiums receivable* in a period for the purposes of *LLD 11.4.8R* and *LLD 11.4.11R*, premiums under contracts of reinsurance accepted shall be included, but amounts *receivable* under contracts of *reinsurance to close* accepted shall be excluded.
- 11.4.7** G_{/1} Subject to *LLD 11.4.2R*, *LLD 11.4.4R* and *LLD 11.4.6R*, the amounts of premiums and *claims* should be determined in accordance with the accounting principles and rules contained in the *insurance accounts rules* and generally accepted accounting practice. They should therefore exclude amounts arising from contracts, regardless of their legal form, that do not fall to be classified as insurance or reinsurance under generally accepted accounting practice.
- Premiums basis**
-
- 11.4.8** R_{/1} Subject to *LLD 11.4.2R*, *LLD 11.4.6R* and *LLD 11.4.9R*, for each *member* the premiums basis referred to in *LLD 11.3.1R* is his share of the *general insurance business premiums receivable* (or one-third of his share for *actuarial health insurance*) in the previous *financial year* multiplied by 16% of the factor determined under *LLD 11.4.11R*.
- 11.4.9** G_{/1} If the *Society* cannot determine premiums gross of commission without disproportionate expense, it may calculate the premiums net of commission and then gross up by the ratio of gross to net premiums for the *members* taken together.
- 11.4.10** G_{/1} In setting the premium basis at 16% of premiums in the year (and one-third of this for *actuarial health insurance*), *LLD 11.4.8R* is similar to the corresponding calculation for *insurers*. Liabilities subjected to *reinsurance to close* are treated as having been written originally by *members* of the accepting *syndicate year*, rather than of the ceding *syndicate year*.
- 11.4.11** R_{/1} The factor referred to in *LLD 11.4.8R* is the ratio for all *members* taken together of *general insurance business premiums receivable* in the previous *financial year* net of *inter-syndicate reinsurance* premiums, to those premiums before deducting *inter-syndicate reinsurance* premiums.
- 11.4.12** G_{/1} Adjustments are made for *inter-syndicate reinsurance* on an approximate basis to enable Lloyd's as a whole to avoid double-counting part of the margin.

Claims basis

- 11.4.13 **R**_{/1} For each *member*, the claims basis referred to in *LLD* 11.3.1R is his share, determined under *LLD* 11.4.2R, of the *general insurance business claims* incurred (or one-third of his share in the case of *actuarial health insurance*) in the three previous *financial years* divided by three and multiplied by 23% of the factor determined under *LLD* 11.4.17R.
- 11.4.14 **G**_{/1} *LLD* 11.4.4R and *LLD* 11.4.6R apply to the determination of claims incurred.
- 11.4.15 **G**_{/1} In setting the claims basis at 23% of the annual average of *claims* incurred in the three year period (and one-third of this for *actuarial health insurance*), *LLD* 11.4.13R is similar to the corresponding calculation for *insurers*. Liabilities subjected to *reinsurance to close* are treated as having been written originally by *members* of the accepting *syndicate year*, rather than the ceding *syndicate year*.
- 11.4.16 **R**_{/1} For a *member*, the claims basis referred to in *LLD* 11.3.1R is nil if:
- (1) every *open syndicate year* in which the *member* participated at the end of the previous *financial year*; and
 - (2) every other *syndicate year* which has been *closed* into any such *open syndicate year*;
- commenced after the start of the third last previous *financial year*.
- 11.4.17 **R**_{/1} The factor referred to in *LLD* 11.4.13R is the ratio for all *members* taken together of *general insurance business claims* paid in the three previous *financial years* net of *inter-syndicate reinsurance* recoveries, to those *claims* before deducting *inter-syndicate reinsurance* recoveries.
- 11.4.18 **G**_{/1} Adjustments are made for *inter-syndicate reinsurance* on an approximate basis to enable Lloyd's as a whole to avoid double-counting part of the margin.

Factor to net down for reinsurance

- 11.4.19 **R**_{/1} For the purposes of *LLD* 11.4.20R and subject to *LLD* 11.4.2R, the ratio for each *member* is the ratio for the previous *financial year* of his share of net (of reinsurance) *claims* incurred to his share of gross *claims* incurred divided by the factor determined under *LLD* 11.4.21R.
- 11.4.20 **R**_{/1} For each *member* the netting-down percentage referred to in *LLD* 11.3.1R is:
- (1) where the ratio determined under *LLD* 11.4.19R is greater than 100%, 100%; or
 - (2) the ratio determined under *LLD* 11.4.19R, where it is greater than 50%, but not greater than 100%; or

(3) in any other case, 50%.

11.4.21

R

/1

The factor referred to in *LLD* 11.4.19R is the ratio for all *members* taken together of *general insurance business claims* paid in the previous *financial year* net of *inter-syndicate reinsurance recoveries*, to those *claims* before deducting *inter-syndicate reinsurance recoveries*.

11.4.22

G

/1

Adjustments are made for *inter-syndicate reinsurance* on an approximate basis to enable Lloyd's as a whole to avoid double-counting part of the margin.

11.5 Society margin

- 11.5.1** **R** _{/1} The *Society* must calculate the *required minimum margin* it would have to maintain under *IPRU(INS) 2* (Margins of solvency) if it were an *insurer* carrying on all the *general insurance business* carried on by its *members*, but eliminating *inter-syndicate reinsurance* (the *Society margin*).
- 11.5.2** **R** _{/1} The *Society* must calculate the *guarantee fund* it would have to maintain under *IPRU(INS) 2* (Margins of solvency) if it were an *insurer* carrying on all the *general insurance business* carried on by its *members*, but eliminating *inter-syndicate reinsurance* (the *Society guarantee fund*).
- 11.5.3** **G** _{/1} The *required minimum margin* and the *guarantee fund* must, under *IPRU(INS)*, at least equal the *minimum guarantee fund*. So the *Society margin* and the *Society guarantee fund* must at least equal the *minimum guarantee fund* which would apply if the *members* taken together constituted an *insurer*, other than a mutual, authorised for all *classes* of *general insurance business* carried on at Lloyd’s.
- 11.5.4** **G** _{/1} Appendices 2.1 to 2.3 of *IPRU(INS)* also set out how the “premium basis”, the “claims basis” and the *minimum guarantee fund* should be calculated for an *insurer*.
- 11.5.5** **G** _{/1} For the purpose of *LLD 11.5.1R* and *LLD 11.5.2R* the *Society* may make appropriate approximations, taking reasonable care to avoid underestimating the *Society margin* and the *Society guarantee fund*.

Chapter 12.

Determination of liabilities

12.1 Application and purpose

Application

12.1.1 **R** This chapter applies to the *Society*.

/1

12.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.

/1

Purpose

12.1.3 **G** These requirements provide safeguards against the risk that insurance liabilities will be underestimated (see also *LLD 9.1.4G*).

/1

12.1.4 **G** Under *LLD 9.4.1R*, subject to *LLD 9 to 15*, the *insurance accounts rules* and generally accepted accounting practice apply to the valuation of assets and the determination of liabilities.

/1

12.2 Requirement to determine liabilities

- 12.2.1** **R** ^{/1} The *Society* must:
- (1) identify and attribute a value to its liabilities; and
 - (2) take all reasonable steps to ensure that the liabilities of its *members* arising out of the *insurance business* which they carry on at Lloyd's are identified and attributed a value, under *LLD 12.3*, *LLD 12.4* and *LLD 12.5*.
- 12.2.2** **G** ^{/1} *Members* are organised into *syndicate years*, each of which is managed by a *managing agent*. For the *Society* to comply with the requirements of this chapter, it needs to ensure that *managing agents* effectively apply the *rules* in this chapter to individual *syndicate years*.
- 12.2.3** **G** ^{/1} In general terms, the liabilities for the purposes of this chapter are:
- (1) the *member's* share of the *insurance business* liabilities which fall to be identified and valued for each *syndicate year*;
 - (2) any liabilities of a *member*, not covered by (1), arising from the *insurance business* that he carries on at Lloyd's; and
 - (3) any liabilities of the *Society*, other than liabilities that are subordinated to the interests of policyholders.
- 12.2.4** **R** ^{/1} For *credit insurance business of members*, the *Society* must determine the equalisation reserve that would apply if all the *members* taken together constituted a single *insurer* subject to *IPRU(INS)*.
- 12.2.5** **G** ^{/1} The *Society* may:
- (1) allocate the equalisation reserve under *LLD 12.2.4R* between *open syndicate years* and *members* in any way it considers appropriate; and
 - (2) choose not to allocate all or any part of it to *members* but instead treat it as a liability of the *Society*.
- Provision for related insurance undertakings**
-
- 12.2.6** **R** ^{/1} Subject to *LLD 12.2.7R*, if a related undertaking is an *insurance undertaking* which has a deficit in the assets available to cover its

liabilities or to cover the notional *required minimum margin*, the *Society* must make provision for:

- (1) its proportionate share of that deficit; or
- (2) in the case of a *subsidiary undertaking*, the whole of that deficit.

12.2.7

R

^{/1}

For the purposes of *LLD* 12.2.6R, the identification and valuation of assets must be determined, and the deficit must be valued, in accordance with *LLD* 13.15.4R, except that any liability which is a debt to the *Society* need not be valued at more than the value placed on that debt as an asset of the *Society*.

12.3 Members' liabilities

12.3.1

R

/1

For *open syndicate years*, a *member's* liabilities are the aggregate of:

- (1) his proportionate share of the liabilities of each *open syndicate year* in which he participates, including:
 - (a) liabilities associated with earlier *syndicate years* that have been *closed into* that year; and
 - (b) any equalisation reserve allocated to him for the *syndicate year* by the *Society* under *LLD 12.2.5G*; and
- (2) for *open syndicate years* through which he carries on *general insurance business* taken together, if $A+B$ exceeds C , $A+B-C$, where:
 - (a) A is the total of his proportionate shares for each *syndicate year* of the accumulated excess of income over outgoings;
 - (b) B is the amount of any unpaid additional contributions he is required to make to the funds maintained for the *syndicate years* by the *managing agents*; and
 - (c) C is the total of his proportionate shares of the liabilities net of reinsurance recoveries.

12.3.2

R

/1

For the purpose of *LLD 14.3* (Currency matching and localisation), the amounts in:

- (1) *LLD 12.3.1R(2)*, which are intended to prevent the premature release of profits; and
- (2) *LLD 12.2.4R* (the equalisation reserve);

may be left out of account.

12.3.3

R

/1

For the purposes of this chapter the following liabilities may be left out of account:

- (1) liabilities of a *member* for guarantees or letters of credit issued to support the *insurance business* he carries on at Lloyd's, where the

guarantor or issuer has no recourse to *premium trust funds* or *funds at Lloyd's*;

- (2) liabilities which have been covered by a *reinsurance to close* with reinsurers who were *members* when the *reinsurance to close* was effected;
- (3) liabilities of a *member*, which arise other than in connection with the *insurance business* he carries on at Lloyd's or his membership of the *Society*, and cannot be met from his *funds at Lloyd's* until those funds are released to him; and
- (4) liabilities for 1992 and prior *general insurance business* reinsured by Equitas Reinsurance Ltd.

12.3.4

G

/1

LLD 12.3.1R requires the aggregate net surplus (if any) in a member's participations in *open general insurance business syndicates* to be treated as part of his liabilities. This is analogous to the treatment of open years for an *insurer* using the fund basis of accounting. LLD 12.3.3R allows liabilities not relevant to the solvency of the Lloyd's market and (to prevent double-counting) amounts covered by *reinsurance to close* to be left out of account.

12.4 General insurance business technical provisions

12.4.1 G_{/1} This section relates only to liabilities arising in *general insurance business* syndicates. Each *member* is liable for his share of the liabilities of each *syndicate year* in which he participates. Provisions for these liabilities include *technical provisions* for insurance liabilities and provisions for any other liabilities. This section also provides *guidance* on the valuation of reinsurance recoveries.

12.4.2 R_{/1} The gross *technical provisions* set for *general insurance business liabilities* arising in any *syndicate year* (other than the equalisation reserve arising under *LLD 12.2.5G*) must not be less than the best estimate of the monetary amount expected ultimately to be payable to discharge all liabilities for that *syndicate year* not covered by other provisions, before taking reinsurance into account, less a prudent allowance for future premiums not yet accrued.

12.4.3 G_{/1} The *managing agent* will normally set the *technical provisions* for a *syndicate year*. The *Society* will need to take all reasonable steps to ensure that the provisions comply with these *rules*. *LLD 10.9* (Requirements relating to the role of actuaries) requires that the year end provisions be verified by an *actuary* appointed by the *managing agent* or that the *Lloyd's actuary* sets the provisions.

12.4.4 G_{/1} The gross *technical provisions* in *LLD 12.4.2R* should include:

- (1) gross notified outstanding *claims*;
- (2) incurred but not reported losses;
- (3) unexpired risks (including potential losses on *insurance business* still to be written under binding agreements and similar arrangements); and
- (4) future claims-handling costs, including the costs of managing the run-off of the *insurance business*.

12.4.5 G_{/1} The guidance in *LLD 12.4.4G* is not intended to require separate identification of these amounts beyond that required for reporting purposes, except to the extent necessary for proper estimation of the total.

12.4.6 G_{/1} The prudent allowance for future premiums in *LLD 12.4.2R* should allow for anti-selection by policyholders. Except to the extent that there is a legitimate set off against other liabilities, it should not be assumed that the liabilities arising from future premiums to be received on any group of contracts are less than those premiums.

- 12.4.7 **R**_{/1} The *technical provisions* (net of reinsurance) for any *syndicate year* being *closed by reinsurance to close* must at least equal the part of the *reinsurance to close* premium that relates to those provisions.
- 12.4.8 **R**_{/1} **Discounting** must not be applied when calculating *technical provisions*.
- 12.4.9 **G**_{/1} The provisions for incurred but not reported losses and unexpired risks should allow for a *syndicate's* exposure to losses arising from one or more known major catastrophes or from a known potential cause of loss (including post balance sheet date losses).
- 12.4.10 **G**_{/1} Where it is reasonable and prudent to do so, the provision for unallocated future claims-handling costs should be calculated on the practical assumption that each *syndicate* is a going concern. Otherwise, provision should be made on the basis that the *syndicate* has ceased or will cease trading, in whole or part, as appropriate. The gross provision for unallocated claims-handling costs should include costs of handling reinsurance recoveries as well as the costs of handling gross *claims*.
- 12.4.11 **G**_{/1} The value of reinsurance recoveries should be the net monetary amounts expected ultimately to be received for each *syndicate year*, net of future reinsurance premiums and other liabilities under the reinsurance contract, with:
- (1) an appropriate provision for potential reinsurance bad debts; and
 - (2) an allowance for any costs of borrowing necessary to cope with delays in reinsurance recoveries.
- 12.4.12 **G**_{/1} The provision for future reinsurance premiums should be made irrespective of the *syndicate year* to which the reinsurance premiums will be charged. Where the reinsurance has not yet been purchased, the appropriate provision should be no less than the reduction in liabilities assumed from that reinsurance cover.
- 12.4.13 **G**_{/1} *LLD* 12.4.12G is intended to ensure that an adequate provision is set up, where the reinsurance premium is to be charged to a *syndicate year* other than that to which the recoveries will accrue. The provision may not be avoided by charging the premium to a future *syndicate year*. This could be particularly important where reinsurance is placed on the basis of losses which occur during the year of account, or where policies are written for periods in excess of one year, or under binding arrangements. Where it is intended that the premium will be charged to a future *syndicate year*, stop loss and similar protections applicable to the current *syndicate year* would not normally cover it.
- 12.4.14 **R**_{/1} **To avoid double-counting of liabilities, reinsurance with other *syndicate years* must be treated as 100% recoverable, except that allowance must be made for reinsurance disputes.**
- 12.4.15 **G**_{/1} When making allowance for reinsurance disputes under *LLD* 12.4.14R, the scope for unidentified and potential disputes should be considered in addition to known disputes.
- 12.4.16 **G**_{/1} Contracts of reinsurance should be assessed in accordance with the Principles of Financial Reporting Standard 5 (as issued in April 1994 and amended in December 1998). That is, if the contract has the characteristics of an investment it must be treated as such and valued for solvency purposes under *LLD* 13 (Assets: valuation and realisability risk) and *LLD* 14 (Assets: market and credit risk).

12.5 Long-term liabilities

Application

- 12.5.1** **G**
/1 This section applies to the *long-term insurance business liabilities* of *members*. The requirements of this section are comparable with those that apply to *insurers* carrying on *long-term insurance business*.
- 12.5.2** **G**
/1 The requirements of this section take account of the fact that the *Society* restricts the types of *long-term insurance business* carried on at Lloyd’s to term insurance of no more than 25 years duration.
- 12.5.3** **G**
/1 *LLD* 10.9.4R(1) requires the *Society* to require each *syndicate* to have a *syndicate actuary*. *LLD* 15 (Reporting by the *Society*) requires a certificate from each *syndicate actuary* of a *long-term insurance business syndicate* in the specified format. This should attest to, among other things, compliance with the valuation and reporting requirements of *LLD* 9 to 15.

Determination of liabilities

- 12.5.4** **R**
/1 The determination of the amount of *long-term insurance business liabilities* (other than those that have fallen due for payment before the valuation date) must:

 - (1) be made on actuarial principles that have due regard to the reasonable expectations of policyholders; and
 - (2) make proper provision for all liabilities, on prudent assumptions that include appropriate allowance for adverse deviation of any relevant factors.
- 12.5.5** **R**
/1 The determination under *LLD* 12.5.4R must take account of all prospective liabilities as determined by the conditions of each existing *contract of insurance*, taking credit for premiums payable after the valuation date.
- 12.5.6** **G**
/1 In valuing liabilities, account should be taken of the following factors:

 - (1) all guaranteed benefits, including guaranteed surrender values;
 - (2) all options available to the policyholder under the terms of the contract;

- (3) expenses, including commissions; and
- (4) any rights or obligations under contracts of reinsurance in respect of *long-term insurance business*.

12.5.7 **G**_{/1} While the limitation on *long-term insurance business* described in *LLD 12.5.2G* remains in place the "gross premium" method of valuation should generally be the most appropriate. However, the *syndicate actuary* may use an alternative method where he considers this to be more appropriate to the particular circumstances of the *syndicate*.

Method of calculation

12.5.8 **R**_{/1} Subject to *LLD 12.5.9R* to *LLD 12.5.11R*, the amount of the liabilities for each *long-term insurance contract* must be determined separately by a prospective calculation.

12.5.9 **R**_{/1} A retrospective calculation may be used to determine the liabilities where a prospective method cannot be used for a particular type of *long-term insurance contract* or benefit under the contract, or where it can be demonstrated that the resulting amount of the liabilities would be no lower than would be the case with a prudent prospective calculation.

12.5.10 **R**_{/1} Appropriate approximations or generalisations may be made where they are likely to provide the same, or a higher, result than separate calculations of the liabilities for each *long-term insurance contract*.

12.5.11 **R**_{/1} Where appropriate, additional provision must be established on an aggregated basis for general risks that are not individualised.

12.5.12 **R**_{/1} The method for calculating the amount of the liabilities and the assumptions used must not be subject to discontinuities from year to year arising from arbitrary changes and must recognise the distribution of profits in an appropriate way over the duration of each contract.

Avoidance of future valuation strain

12.5.13 **R**_{/1} The total amount of the liability for a group of similar *long-term insurance contracts* must not be less than an amount which, if the assumptions adopted for the valuation remained unaltered and were fulfilled in practice, would enable similarly determined liabilities to be covered at all times in the future from resources which arise only from the contracts and assets covering the amount of the liability determined at the current valuation.

12.5.14 **R** /1 The *mathematical reserves* and other insurance and non-insurance liabilities for any *syndicate year* being *closed* by *reinsurance to close* must be at least equal to the *reinsurance to close* premium.

Rates of interest

12.5.15 **R** /1 The rates of interest used to calculate the present value of future payments by or to the fund maintained for the *syndicate year* by the *managing agent* must be no greater than the rates of interest determined:

- (1) from a prudent assessment, under *LLD 12.5.17R*, of the yields on existing assets in the *premium trust fund*; and
- (2) to the extent appropriate, from the yields assumed, under *LLD 12.5.16R* and *LLD 12.5.23R*, on sums to be invested in the future.

12.5.16 **R** /1 (1) Subject to (2), when the value of assets in the *premium trust fund* is less than the *mathematical reserves* and other insurance and non-insurance liabilities using a gross valuation interest rate under *LLD 12.5.15R*, the shortfall is assumed to be met by contributions by *members* invested at a yield not exceeding the long term reinvestment rate in *LLD 12.5.24R(1)*.

- (2) If the weighted average, using asset values and contribution amounts as weights, of:
 - (a) the yield on the assets in the *premium trust fund* backing *mathematical reserves* calculated under *LLD 12.5.15R(1)*; and
 - (b) the yield on contributions from *members* assumed under (1);
 is less than the gross valuation interest rate, the gross valuation interest rate must be reduced and additional contributions assumed from *members* until this test is satisfied.

12.5.17 **R** /1 For the purposes of *LLD 12.5.15R*, the yield (before any adjustment to take account of the effect of taxation) must not exceed the yield on that asset, calculated under *LLD 12.5.18R* to *LLD 12.5.22R*, reduced by 2.5% of that yield.

12.5.18 **R** /1 When calculating the yield on an asset under *LLD 12.5.17R*, the future income from any asset required to be taken into account (whether interest, dividends or repayment of capital) must be reduced by a proportion corresponding to such of the excess exposure to assets of that description as may reasonably be attributed to those assets.

12.5.19 **R** ^{/1} Subject to *LLD* 12.5.23R, the yield on fixed interest securities must be the annual rate of interest which, if used to calculate the present value of future interest payments before the deduction of tax and the present value of any repayments of capital, would result in the sum of those amounts being equal to the value of the asset.

12.5.20 **R** ^{/1} Subject to *LLD* 12.5.22R, the yield on equity *shares* or land (other than fixed interest securities) must be the ratio to the value of the asset of the income before deduction of tax that would be received within 12 months following the valuation date, on the assumption that the asset will be held throughout that period and that the factors that affect income will remain unchanged, taking account of any changes in those factors known to have occurred by the valuation date including:

- (1) any known changes in the rental income from land or in dividends on equity *shares*;
- (2) any forecast changes in dividends that have been publicly announced by the valuation date;
- (3) the effect of any alterations in capital structure; and
- (4) the value (at the most recent date for which it is known at the valuation date) of any determinant of the amount of any future interest payment, and this value must be treated as remaining unaltered in the future.

12.5.21 **R** ^{/1} Subject to *LLD* 12.5.22R, the yield on investments other than equity *shares*, land or fixed interest securities must be the annual rate of interest which, if it were used to calculate the present value of future interest payments (before the deduction of tax) and the present value of any repayments of capital, would result in the sum of these amounts being equal to the value of the asset, on the assumption that:

- (1) the value of any determinant of the amount of the next interest payment and capital repayment made during the following 12 months will be the value of that determinant at the most recent date for which it is known at the valuation date;
- (2) the amount of future interest payments and capital repayments will take account, where appropriate, of:
 - (a) the right of either party to have the investment repaid; and
 - (b) an assumed yield on other comparable investments made in the future not exceeding an amount determined under *LLD* 12.5.23R to *LLD* 12.5.25R; and

- (3) indices and all other factors that affect future income payments or capital repayments will remain unchanged after the valuation date.

12.5.22

R

In calculating the yield on an asset:

^{/1}

- (1) if the asset is not equity *shares* or land:
 - (a) a prudent adjustment must be made to exclude that part of the yield estimated to represent compensation for the risk that the income from the asset might not be maintained or that capital repayments might not be received as they fall due; and
 - (b) in making that adjustment, regard must be had wherever possible to the yields on risk-free investments of a similar term in the same currency;
- (2) if the asset is equity *shares* or land, adjustments to yields must be made, as appropriate, to exclude that part of the yield from each category of asset needed to compensate for the risk that the aggregate income from that category of asset, taking one year with another, might not be maintained;
- (3) in (2), a "category of asset" comprises assets of a similar nature, type and degree of risk.

12.5.23

R

Where it is necessary to make an assumption about the yields on sums to be invested in the future, other than sums representing a shortfall referred to in *LLD* 12.5.16R, yields must be determined under *LLD* 12.5.24R and *LLD* 12.5.25R.

^{/1}

12.5.24

R

Where *LLD* 12.5.23R applies and liabilities are denominated in sterling, the yield (before any adjustment to take account of the effect of taxation) assumed:

^{/1}

- (1) on any investment to be made more than three years after the valuation date, must not exceed the lowest of:
 - (a) the long term gilt yield current on the valuation date; or
 - (b) 3% per annum, increased by two thirds of the excess, if any, of the long term gilt yield current on the valuation date over 3% per annum; or
 - (c) 6.5% per annum;

where "the long term gilt yield" means the annualised equivalent of the 15 year yield for *United Kingdom* Government fixed-interest securities jointly compiled by the Financial Times, the Institute of Actuaries and the Faculty of Actuaries; and

(2) on any investment to be made not more than three years after the valuation date must not exceed the assumed yield determined under *LLD 12.5.17R* adjusted linearly over the three years to the yield determined in accordance with (1).

12.5.25 **R** Where *LLD 12.5.23R* applies and liabilities are denominated in currencies other than sterling, the yield must be determined on assumptions that are as prudent as those under *LLD 12.5.24R*.

12.5.26 **R** (1) A rate of interest determined for the purposes of *LLD 12.5.15R* must not exceed the adjusted overall yield on assets calculated as the weighted average of the reduced yields on the individual assets, calculated under *LLD 12.5.17R*.

(2) When the weighted average in (1) is calculated, the weight given to each investment must be its value as an asset determined under *LLD 13* (Assets: valuation and realisability risk) and *LLD 14* (Assets: market and credit risk).

12.5.27 **R** For the purpose of determining the rates of interest to be used in valuing different categories or types of *long-term insurance contract*, the assets may, where appropriate, be notionally apportioned between the different categories or types of contract.

Rates of mortality and disability

12.5.28 **R** Where relevant, the amount of the liability for any category or type of *long-term insurance contract* must be determined on the basis of prudent rates of mortality and disability.

Expenses

12.5.29 **R** (1) The provision (including any implicit provision) for expenses must be not less than the amount required, on prudent assumptions, to meet the total cost (net of the effect of taxation) likely to be incurred in fulfilling *long-term insurance contracts* if the *syndicate* were to cease to transact new business 12 months after the valuation date.

(2) Allowance must be made for the effect of inflation on future expenses, on prudent assumptions about the future rates of increase in prices and earnings.

12.5.30 **G** For an individual *syndicate year*, the provision for expenses under *LLD 12.5.29R*(1) should take into account fair apportionments of:

(1) the overall *syndicate* expenses for the year following the valuation;

- (2) any costs which would be incurred in closing the *syndicate* to new business; and
- (3) the cost of running off the *syndicate* on a care and maintenance basis, allowing for a prudent level of new business being written in the year following the valuation.

Options

12.5.31 **R** Provision must be made on prudent assumptions to cover any increase in liabilities caused by policyholders exercising options under their *contracts of insurance*.

12.5.32 **R** Where a *long-term insurance contract* includes an option for the policyholder to secure a guaranteed cash payment within 12 months following the valuation date, provision for that option must ensure that the value placed on the contract is not less than the provision needed to meet that option, if exercised.

Long-term insurance contracts not to be treated as assets

12.5.33 **R** *Long-term insurance contracts*, except reinsurance covering the *syndicate year*, must not be treated as assets.

No credit for profits from voluntary discontinuance

12.5.34 **R** Allowance must not be made for the voluntary discontinuance of any *long-term insurance contract*, if the allowance would reduce the amount of the liability.

Nature and term of assets

12.5.35 **R** The determination of the amount of *long-term insurance business liabilities* must take account of the nature and term of the assets representing those liabilities, and the value placed upon them, and must include prudent provision against the effects of possible future changes in the value of the assets on:

- (1) the ability of *syndicate* members to meet their obligations arising under *long-term insurance contracts* as they arise; and
- (2) the adequacy of the assets to meet the liabilities, as determined under *LLD 12.5.8R* to *LLD 12.5.33R*.

Chapter 13.

Assets: valuation and realisability risk

13.1 Application and purpose

Application

13.1.1 **R** This chapter applies to the *Society*.

/1

13.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.

/1

Purpose

13.1.3 **G** This chapter sets out the basis on which different assets are to be identified and valued (see also *LLD 9.1.4G*).

/1

13.1.4 **G** The risks which this chapter in part addresses arise because of:

/1

- (1) uncertainty about the time at which *claims* may fall due; and
- (2) difficulties, costs and uncertainty in realising assets earlier than anticipated.

13.1.5 **G** *LLD 9.2.5R* requires the *Society* to ensure it and its *members* maintain adequate assets to meet the liabilities which it assumes and which its *members* severally assume. *LLD 11.2.1R* requires the *Society* to assess the financial position of each *member* and to maintain sufficient *net central assets* to cover at least the total of *members'* solvency deficits.

/1

13.2 Identification and valuation of assets

- 13.2.1 **R**_{/1} The *Society* must identify its assets and value them in accordance with this chapter and *LLD 14 (Assets: market and credit risk)*.
- 13.2.2 **R**_{/1} The *Society* must take all reasonable steps to ensure the identification and valuation (in accordance with this chapter and *LLD 14 (Assets: market and credit risk)*) of each *member's admissible assets* which are available to meet his underwriting liabilities.
- 13.2.3 **R**_{/1} For the purposes of *LLD 13.2.2R* a *member's admissible assets* which are available to meet his underwriting liabilities include his *funds at Lloyd's* and his share of *premium trust funds*, but exclude funds held outside Lloyd's (*other personal wealth*).
- 13.2.4 **R**_{/1} For the purposes of *LLD 13.2.1R* and *LLD 13.2.2R*, assets in respect of *long-term insurance business* and *general insurance business* must be separately identified.
- 13.2.5 **G**_{/1} *LLD 9.4.1R* sets out the basic rule under which assets are to be valued for the purpose of calculating solvency, including:

 - (1) whether, and when, to recognise or ignore an asset; and
 - (2) which description to place on an asset;

but the application of the basic rule in *LLD 9.4.1R* is subject both to this chapter and *LLD 14 (Assets: market and credit risk)*.
- 13.2.6 **G**_{/1} A lower value than that required by this chapter and *LLD 14 (Assets: market and credit risk)* (or a nil value) may be attributed to any asset identified under this chapter.

13.3 Maturity and marketability of assets

13.3.1 G_{/1} *LLD 9.2.6R* requires the *Society* to ensure that its *admissible assets*, and to take reasonable steps to ensure that *members' admissible assets*, are of appropriate maturity and marketability. In doing so, the *Society* should have regard to the expected timing of liabilities (especially policyholder *claims*) and the need to make a prudent allowance for the risk that liabilities may fall due earlier than expected.

13.3.2 G_{/1} In considering whether an allowance should be made for the risk that *claims* may fall due earlier than expected, the following should be taken into account:

- (1) the type of *insurance business*;
- (2) the past history of volatility;
- (3) options available to policyholders and the circumstances in which they are likely to exercise them;
- (4) options available to the *syndicate* and any incentive for the *syndicate* to exercise them;
- (5) the other cashflow needs of the *syndicate*, including the need to fund overseas regulatory requirements; and
- (6) the extent to which *technical provisions* for *long-term insurance business* are discounted (*technical provisions* for *general insurance business* cannot be discounted, under *LLD 12.4.8R*).

13.3.3 G_{/1} In determining whether assets are of appropriate maturity, marketability and realisability, the following should be taken into account:

- (1) the expected date of maturity, redemption, repayment or disposal;
- (2) foreseeable potential delays in the date of maturity, redemption, repayment or disposal;
- (3) the arrangements necessary to ensure that assets are located in, or transferred to, the appropriate trust fund;
- (4) any uncertainty about the value of the asset at its expected date of realisation;
- (5) the speed with which assets may be realised earlier if needed;
- (6) the loss in value which might occur if assets were realised quickly; and
- (7) the amount of any surplus of assets over liabilities.

13.3.4

G

/1

Reliance should not be placed upon expected cash flows from future new *insurance business* as a means of avoiding the need to hold assets that are appropriately marketable or otherwise realisable.

13.4 Admissible assets

- 13.4.1** **R** ^{/1} Assets are admissible for the purposes of *LLD* 13.2.1R only if they fall within the description of *admissible assets* in *LLD* 13.4.3R, or are a *derivative* contract or *quasi-derivative contract* falling within *LLD* 13.6.1R.
- 13.4.2** **G** ^{/1} The list of *admissible assets* has been drawn up with the aim of excluding assets:
- (1) for which there is no sufficiently objective and verifiable basis of valuation; or
 - (2) whose realisability cannot be relied upon with sufficient confidence; or
 - (3) whose nature presents an unacceptable custody risk; or
 - (4) the holding of which may give rise to significant liabilities or onerous duties; or
 - (5) which give rise to excessive market or *counterparty* risk (for which see *LLD* 14 (Assets: market and credit risk)).
- 13.4.3** **R** ^{/1} Description of *admissible assets* (see *LLD* 13.4.1R)
- (1) Investments in, and amounts due from disposal of:
 - (a) *debt securities*, bonds and other money and capital market instruments; or
 - (b) loans; or
 - (c) *shares* and other variable yield participations; or
 - (d) units in schemes falling within the *UCITS directive* and in other *collective investment schemes*; or
 - (e) land, buildings and immovable property rights.
 - (2) Debts and claims that are:
 - (a) debts owed by reinsurers, including reinsurers' shares of *technical provisions*; or
 - (b) deposits with and debts owed by ceding undertakings; or

- (c) debts owed by policyholders and intermediaries arising out of direct insurance and reinsurance operations (except where *LLD 13.8.7R* applies); or
 - (d) debts owed by a *member* to another *member* of the *Society* where the debt is a liability arising out of the *insurance business* he carries on at *Lloyd's*; or
 - (e) in respect of *general insurance business* only, claims arising out of salvage and subrogation; or
 - (f) tax recoveries; or
 - (g) claims against guarantee funds.
- (3) Other assets which are:
- (a) tangible fixed assets, other than land and buildings; or
 - (b) cash at bank and in hand, deposits with *credit institutions* and any other bodies permitted to receive *deposits*; or
 - (c) *deferred acquisition costs*; or
 - (d) accrued interest and rent, other accrued income and prepayments.
- (4) In relation to *members' funds at Lloyd's*, other assets which are:
- (a) guarantees and letters of credit issued by *credit institutions* or by *insurance undertakings*; or
 - (b) verifiable sums arising out of life insurance policies.

13.5 Restriction of value to realisable amounts

13.5.1

R

^{/1}

The value of assets must be reduced by:

- (1) the expenses of realisation, if they were not already deducted in arriving at that value; and
- (2) any reduction in value which would occur if the asset needed to be realised at short notice to meet liabilities falling due earlier than expected.

13.5.2

G

^{/1}

Short notice in this context should not normally be taken to be more than 12 months.

 13.6 Derivatives

- 13.6.1** **R** ^{/1} An asset which is a *derivative* contract or a *quasi-derivative contract* is not admissible unless it has a *prescribed pricing basis* and it is:
- (1) held to reduce investment risk or for the purpose of efficient portfolio management;
 - (2) held in connection with assets falling within the description of an *admissible asset* in *LLD 13.4.3R*;
 - (3) *covered*;
 - (4) capable of being readily closed out; and
 - (5) based on underlying assets falling within the description of an *admissible asset* in *LLD 13.4.3R*, an index of those assets or an official index of retail prices.
- 13.6.2** **G** ^{/1} Under *LLD 13.4.1R*, and for the purposes of *LLD 9* to *15*, a value may not be attributed to an asset that is not an *admissible asset*. The list of *admissible assets* in *LLD 13.4.3R* excludes assets that give rise to unacceptable valuation, realisability, liability, market or *counterparty* risks. *LLD 13.6.1R* applies equivalent restrictions to *derivative* contracts and *quasi-derivative contracts*. The aim is to reduce the assumption of those risks, especially market risk.
- 13.6.3** **G** ^{/1} A *derivative* contract or *quasi-derivative contract* that does not comply with *LLD 13.6.1R* is an inadmissible asset. As with other inadmissible assets the *Society* and its *members* are not prohibited from holding it provided that no value is attributed to it. In some circumstances a provision may need to be established to protect against the risk of liability from a *derivative* contract or *quasi-derivative contract* whether or not it is admissible.
- 13.6.4** **G** ^{/1} Due regard should be paid to *guidance* note 4.2 (Use of derivative contracts in insurance funds) set out in *IPRU(INS)*.

13.7 Stock lending agreements

- 13.7.1 **R** /1 Provided the conditions specified in *LLD* 13.7.2R, and either *LLD* 13.7.5R or *LLD* 13.7.6R (as appropriate), are satisfied, value may be attributed to:
- (1) *securities* sold under a stock lending agreement as if those *securities* had been retained; and
 - (2) assets provided for the purchase of *securities* under that agreement as if consideration had not been provided.
- 13.7.2 **R** /1 Subject to *LLD* 13.7.3R and *LLD* 13.7.4R, for the purposes of *LLD* 13.7.1R the conditions are that:
- (1) the *securities* have been sold to or purchased from an *approved credit institution* or an approved investment firm; and
 - (2) that sale or purchase was made subject to an agreement that the *approved credit institution* or approved investment firm would subsequently, either on demand or within six months of that sale or purchase, sell back or purchase back equivalent *securities*.
- 13.7.3 **R** /1 Value must not, however, be attributed to:
- (1) any consideration received for the sale of *securities* under a stock lending agreement (or any assets purchased with such consideration) up to the limit of the value of the *securities* sold; or
 - (2) any *securities* purchased under a stock lending agreement (or any assets purchased with the proceeds of the sale of those securities) up to the limit of the consideration provided.
- 13.7.4 **R** /1 Where, at any time after the sale or purchase of *securities* under a stock lending agreement either:
- (1) the amount of the consideration received for sale of the *securities* falls below the value of the *securities* sold by more than 2.5%; or
 - (2) the value of the *securities* purchased falls below the value of the consideration provided by more than 2.5%;

additional consideration equal to the shortfall must be obtained before the end of the working day following the day when the shortfall occurred.

13.7.5

R

/1

For the purposes of *LLD 13.7.1R*, where *securities* are purchased from an *approved credit institution* or approved investment firm and the consideration provided is other than by way of sale of the *securities*, the conditions are that the *securities* purchased:

- (1) are issued by an *approved credit institution*; and
- (2) do not include:
 - (a) *securities* (other than *approved securities*) issued by the same *counterparty* whose aggregate value amounts to more than 15% of the value of the *securities* purchased; or
 - (b) if (a) is not satisfied, *securities* whose value when aggregated with existing exposure to assets of the same description, or to the same *counterparty*, would exceed the appropriate *permitted asset exposure limit* or *permitted counterparty exposure limit*, as determined under *LLD 14* (Assets: market and credit risk).

13.7.6

R

/1

For the purposes of *LLD 13.7.1R*, where *securities* are sold to an *approved credit institution* or an approved investment firm, the conditions are that:

- (1) the consideration provided by the *approved credit institution* or approved investment firm is:
 - (a) cash; or
 - (b) *approved securities*; or
 - (c) *listed securities*; or
 - (d) *securities* issued by an *approved credit institution*; or
 - (e) a charge over the assets set out in (a) to (d); or
 - (f) a letter of credit established with an *approved credit institution*; or
 - (g) a guarantee provided by an *approved credit institution*; and
- (2) the consideration does not include:
 - (a) except to the extent that *LLD 13.7.6R(2)(b)* is satisfied, an amount which, when aggregated with existing exposure to assets of the appropriate description or to the relevant *counterparty*, would exceed the appropriate *permitted asset*

exposure limit or *permitted counterparty exposure limit*, as determined under *LLD 14* (Assets: market and credit risk); or

- (b) an amount, more than 15% of which takes the form of *securities* (other than *approved securities*) issued by, letters of credit established with, guarantees provided by, cash deposited with, a charge over cash deposited with or a charge over *securities* issued by, the same *counterparty*; and
- (3) the consideration to be provided for the subsequent purchase back of equivalent *securities* is:
 - (a) cash denominated in the same currency where the consideration for the original purchase by the *approved credit institution* or approved investment firm was (wholly or in part) cash; and
 - (b) equivalent to the *securities* provided as consideration where the consideration was (wholly or in part) *securities*.

13.7.7

R
/1

Where a number of stock lending agreements have been entered into, for the purposes of *LLD 13.7.5R* and *LLD 13.7.6R*:

- (1) any or all agreements under which the subsequent sale or purchase has not taken place at the valuation date may be treated as one agreement; and
- (2) in such case, the 15% limits in *LLD 13.7.5R(2)(a)* and *LLD 13.7.6R(2)(b)* must be calculated by reference to the aggregate of the value of the *securities* purchased under *LLD 13.7.5R* or the amount of any consideration in *LLD 13.7.6R*.

13.7.8

R
/1

Where consideration has been received for any other sale of the kind described in *LLD 13.7.1R*, in addition to any other exposure to assets or to a *counterparty*:

- (1) if the consideration takes the form of a letter of credit established with, or a guarantee provided by, an *approved credit institution*, then it must be treated as giving rise to exposure to that institution by the amount of the consideration;
- (2) if the consideration takes the form of a charge over *securities*, then it must be considered to give rise to exposure to *securities* of the same description and to the issuer of those *securities* by the amount of the consideration; and
- (3) if the consideration takes the form of cash deposited with another party for the benefit of the *Society* or a *member*, or a charge over cash deposited with another party, then it must be considered to give rise to exposure to that party by the amount of the consideration.

13.7.9

R

In these *rules* the amount of any consideration must:

/1

- (1) in the case of a letter of credit established with an *approved credit institution*, be the lower of the amount made available under the letter of credit and the value of the assets sold; or
- (2) in the case of a guarantee provided by an *approved credit institution*, be the lower of the amount of the guarantee and the value of the assets sold; or
- (3) in the case of assets of the types in *LLD 13.7.6R(1)(a) to (d)*, or a charge over those assets, be the value of the assets as determined under this chapter and *LLD 14 (Assets: market and credit risk)*.

13.8 Debts and other rights

- 13.8.1** **R** Subject to *LLD* 13.8.12R, the value of an asset that is a *secured debt* due, or to become due, other than a debt to which *LLD* 13.8.3R or *LLD* 13.8.8R applies, must:
- /1
- (1) for a debt which is, or will become, due within 12 months of the valuation date (including any debt which would become due within that period if any right to require payment were to be exercised), be the amount which can reasonably be expected to be recovered for that debt; and
 - (2) for any other debt, be the amount which would reasonably be paid as consideration for an immediate assignment of the debt.
- 13.8.2** **G** In assessing the value of an asset under *LLD* 13.8.1R and *LLD* 13.8.5R, due account should be taken of the nature and quality of the security and the terms and conditions for payment.
- /1
- 13.8.3** **R** For *long-term insurance business*, the value of an asset that is a debt due, or to become due, and is secured on a *policy* of insurance written at Lloyd's and which (together with any other debt secured on that *policy*) does not exceed the amount payable on a surrender of that *policy* at the valuation date, must be the amount of that debt.
- /1
- 13.8.4** **R** Subject to *LLD* 13.8.12R, the value of an asset that is an unsecured debt due, or to become due, other than a debt to which *LLD* 13.6.1R, *LLD* 13.8.5R, *LLD* 13.8.7R or *LLD* 13.13.1R applies, must:
- /1
- (1) in the case of a debt which is, or will become, due within 12 months of the valuation date (including any debt which would become due within that period if any right to require payment were to be exercised), be the amount which can reasonably be expected to be recovered for that debt; and
 - (2) in the case of any other debt, be the amount which could reasonably be expected to be paid as consideration for an immediate assignment of the debt.
- 13.8.5** **R** Subject to *LLD* 13.8.6R, the value of any assets that are rights under a contract of reinsurance must be the amount which can reasonably be expected to be recovered by exercising those rights.
- /1

- 13.8.6 **R** /1 *LLD* 13.8.5R does not apply to rights under a contract of reinsurance for *long-term insurance business* except to the extent that debts are due under that contract.
- 13.8.7 **R** /1 Value must not be attributed to any asset that is a debt due, or to become due:
- (1) from an *intermediary* for money advanced on account of commission to which that *intermediary* is not absolutely entitled at the valuation date; or
 - (2) in respect of *premiums* (account having been taken of rebates, refunds and commissions payable) which are recorded in the relevant accounting records as due and payable and has been outstanding for more than three months.
- 13.8.8 **R** /1 For *general insurance business*, the value of any assets that are subrogation rights must be the amount that can reasonably be expected to be recovered by exercising those rights.
- 13.8.9 **R** /1 For *general insurance business*, the value of any assets that are *salvage rights* must be the amount that can reasonably be expected to be recovered by exercising those rights.
- 13.8.10 **R** /1 The value of any asset that is a right to recover assets transferred by way of *initial margin* must be determined:
- (1) where the *initial margin* was a cash payment, as if a debt were owed for that amount; and
 - (2) where the *initial margin* took the form of a transfer of *securities*, as if a debt were owed of an amount equal to the value of such *securities* as determined under this chapter and *LLD* 14 (Assets: market and credit risk).
- 13.8.11 **R** /1 The value of any rights arising from an asset that is a *derivative contract* to which *LLD* 13.6.1R does not apply, or under a *quasi-derivative contract* to which *LLD* 13.6.1R does not apply, must be the value of any right to recover assets transferred as *initial margin* together with the value of any other unconditional right to receive a specified amount.
- 13.8.12 **R** /1 *LLD* 13.8.1R and *LLD* 13.8.4R do not apply to any rights (other than debts due) in respect of:
- (1) *securities* or beneficial interests in a *limited liability partnership*; or
 - (2) units or other beneficial interests in a *collective investment scheme*; or

- (3) a *derivative* contract, except to the extent provided under *LLD* 13.8.10R or *LLD* 13.8.11R; or
- (4) a contract or asset which is a *quasi-derivative contract* except to the extent provided under *LLD* 13.8.10R or *LLD* 13.8.11R or where a *derivative* contract asset includes an element of debt.

13.9 Land

13.9.1

R

^{/1}

The value of an asset that is land must not be greater than the amount which would be realised (after deduction of reasonable sale expenses) if the land were sold at a price equal to the most recent valuation made by a *qualified valuer*, which valuation must have been made not more than three years before the end of the relevant *syndicate year*.

13.10 Equipment

- 13.10.1** **R** ^{/1} The value of an asset that is office machinery (other than computer equipment), furniture, motor vehicles and other equipment must, in the *syndicate year* in which it is purchased, be not greater than one-half of its cost and must be left out of account in any subsequent year.
- 13.10.2** **R** ^{/1} The value of an asset that is computer equipment, including software must:
- (1) in the *syndicate year* in which it is purchased, not be greater than three-quarters of the cost;
 - (2) in the next *syndicate year*, not be greater than one-half of the cost;
 - (3) in the *syndicate year* after that, not be greater than one-quarter of the cost; and
 - (4) in any following year, be nil.

13.11 Securities and beneficial interests in limited liability partnerships

13.11.1

R

Subject to *LLD* 13.11.2R, the value of an asset that is an investment to which this *rule* applies, must:

^{/1}

- (1) where the investment is transferable and *LLD* 13.11.3R does not apply, be the market value;
- (2) where the investment is transferable and *LLD* 13.11.3R applies, be the lower of:
 - (a) the market value; and
 - (b) the amount which could reasonably be expected as consideration for an assignment or transfer of the investment at a date not later than 12 months after the valuation date; or
- (3) where the investment is not transferable:
 - (a) be the amount payable on redemption on the valuation date, or on the most recent date before the valuation date when the issuer of the investment could have been required to redeem it; or
 - (b) where the investment cannot be redeemed, be the amount which would reasonably be paid as consideration for surrendering the interest in the investment.

13.11.2

R

LLD 13.11.1R applies to the valuation of investments comprising *securities* (but not those which are *derivative* contracts, units or other beneficial interests in *collective investment schemes* or *quasi-derivative contracts*) and beneficial interests in *limited liability partnerships*, and, for the purposes of *LLD* 13.11.5G, investments includes loans.

^{/1}

13.11.3

R

Subject to *LLD* 13.11.4R, for the purposes of *LLD* 13.11.1R(1) and (2), this *rule* applies where it is not reasonable to assume that, had negotiations for assigning or transferring the investment started seven working days or less before the valuation date, the investment could have been assigned for an amount not less than 97.5% of the market value, other than to the issuer or to an associate of the issuer.

^{/1}

13.11.4 **R** ^{/1} *LLD 13.11.3R does not apply if it would otherwise apply by reason only that:*

- (1) *the listing of the investment has been temporarily suspended after the stock exchange on which the investment is listed or the regulated market on which facilities for dealing have been granted received price sensitive information; or*
- (2) *the extent of the holding would prevent an orderly disposal of the investment for at least 97.5% of the market value.*

13.11.5 **G** ^{/1} Where more than one unlisted investment is made (other than investments exclusively comprising loans) and their total value is greater than the aggregate of the values of each investment valued separately, then the higher value may be attributed to the investments, if it is reasonable to assume that none of the investments would be assigned or transferred separately.

13.12 Collective investment schemes

- 13.12.1** **R** ^{/1} The value of assets that are units or other beneficial interests in a *collective investment scheme* to which *LLD 13.12.2R* applies must:
- (1) where the issuer can be required to purchase the units or other beneficial interests from the holder upon the holder giving notice of one month or less, be the price at which the issuer would have purchased the units or other beneficial interests on the valuation date or the most recent date before the valuation date on which it could have been required to make that purchase; or
 - (2) where the issuer cannot be required to purchase the units or other beneficial interests as set out in *LLD 13.12.1R(1)*, be a value determined under *LLD 13.11.1R*.
- 13.12.2** **R** ^{/1} *LLD 13.12.1R* applies to units or other beneficial interests in:
- (1) a scheme falling within the *UCITS directive*; or
 - (2) an *authorised unit trust scheme* or a *recognised scheme*; or
 - (3) any other *collective investment scheme* where:
 - (a) the scheme does not include *derivative* contracts unless they are contracts to which *LLD 13.6.1R* applies;
 - (b) the scheme does not include *quasi-derivative contracts* unless they are contracts to which *LLD 13.6.1R* applies; and
 - (c) the scheme does not include assets except those for the valuation of which provision is made in this chapter or *LLD 14* (Assets: market and credit risk).

13.13 Deferred acquisition costs

13.13.1

R

/1

In the case of *general insurance business*, the value of an asset that comprises *deferred acquisition costs* must be the value as determined under *LLD 9.4.1R*.

13.14 Reversionary interests

13.14.1

R

/1

The value of an asset that is a *long-term insurance business asset* consisting of an interest in land which is a remainder, reversionary interest, right of fee subject to a life rent or other future interest, whether vested or contingent, must be the amount that can reasonably be expected to be paid as consideration for an immediate transfer or assignment of that interest.

13.15 Related and subsidiary undertakings

- 13.15.1 **R** /1 The value of any *shares* held by the *Society* in a related undertaking of the *Society* must not exceed the value, determined in accordance with *IPRU(INS)* (other than *IPRU(INS)* 4.14(1)(a) to (c)), of its surplus assets.
- 13.15.2 **R** /1 The surplus assets of a related undertaking are its total assets excluding:
- (1) subject to *LLD* 13.15.4R, the assets that are selected to cover its liabilities and, in the case of a related undertaking which is an *insurance undertaking*, to cover the notional *required minimum margin*;
 - (2) assets that are interests directly or indirectly held in the related undertaking's own capital (including *shares* and subordinated debt) or in liabilities of the *Society* that are subordinated to the interests of policyholders;
 - (3) where the related undertaking carries on *long-term insurance business*, profit reserves and future profits;
 - (4) assets which represent either a *long-term insurance business* fund or a fund the allocation of which as between policyholders and other purposes has yet to be determined;
 - (5) amounts due, or to become due, in respect of share capital, or other contributions from members of the related undertaking, subscribed or called for but not fully paid up; and
 - (6) assets that cannot effectively be made available or realised to meet liabilities of the *Society* or *members*, including assets that represent capital not owned, directly or indirectly, by the *Society*.
- 13.15.3 **G** /1 Examples of assets that may not be effectively available include blocked currency and minority interests which cannot be readily realised.
- 13.15.4 **R** /1 The assets identified in *LLD* 13.15.2R(1) to be deducted from the total assets:
- (1) where the related undertaking is an *insurance undertaking*, must be identified and valued in accordance with relevant regulatory

requirements as to the value, admissibility, nature, location or matching that apply to the assets available to cover its liabilities and the notional required minimum margin;

- (2) where the related undertaking is not an *insurance undertaking*, must be of a value at least equal to the amount of its liabilities, determining that value and that amount in accordance with *IPRU(INS)* (other than 4.14(1)(a) to (c)); and
- (3) in both cases, must not include:
 - (a) assets falling within *LLD* 13.15.2R(2); or
 - (b) assets falling within *LLD* 13.15.2R(5) where the amount is due, or to become due, from a *member*, the *Society* or a related undertaking.

13.15.5 G_{/1} Where the relevant regulatory requirements merely identify the categories of assets that are eligible to cover liabilities or represent the notional required minimum margin, the *Society* may select which assets it actually identifies for these purposes. That selection may take the form of a selection of a pro rata proportion of all eligible assets.

13.15.6 G_{/1} Even where the relevant regulatory requirements would allow assets excluded by *LLD* 13.15.4R(3) to cover liabilities and represent the notional required minimum margin, those assets should be ignored. Without using assets excluded by *LLD* 13.15.4R(3), the assets identified should be sufficient to satisfy the relevant regulatory requirements.

13.15.7 G_{/1} Other types of asset, including those excluded from the definition of surplus assets, may be used to cover liabilities and the notional *required minimum margin* where permitted by the relevant regulatory requirements. Similarly for a non-insurance undertaking a value may be attributed, using the *IPRU(INS)* rules relating to the valuation of assets, to other types of asset, even where excluded from the definition of surplus assets.

13.15.8 R_{/1} For the purposes of *LLD* 13.15.4R the relevant regulatory requirements are:

- (1) in the case of an *insurance undertaking* established in a *designated State or territory*, the regulatory requirements of that State or territory applicable to an undertaking carrying on direct *insurance business* (even if it is a pure reinsurer); and
- (2) in the case of any other *insurance undertaking*, subject to *LLD* 13.15.9R, the rules in *IPRU(INS)* applicable to an *insurer* with its head office in the United Kingdom (whether or not it is such an *insurer*).

13.15.9 R_{/1} For the purposes of *LLD* 13.15.8R(2):

- (1) *IPRU(INS)* 2.10R to *IPRU(INS)* 2.13R are to be applied as if the *insurance undertaking* satisfied the condition in *IPRU(INS)* 2.10R(1); and

(2) *IPRU(INS) 4.14R(1)(a) to (c)* are ignored.

13.16 Debts due or to become due from a related undertaking

13.16.1

R

^{/1}

The value of any debt due, or to become due, from a related undertaking must not exceed the amount reasonably expected to be recovered in respect of the debt, taking into account only the value of:

- (1) the assets identified under *LLD* 13.15.2R(1); and
- (2) any security held in respect of the debt.

Chapter 14.

Assets: market and credit risk

14.1 Application and purpose

Application

14.1.1 **R** This chapter applies to the *Society*.

/1

14.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under sections 150(2) of the *Act* as a provision giving rise to no such right of action.

/1

Purpose

14.1.3 **G** *LLD* 9.2.5R requires the *Society* to ensure that it and its *members* maintain adequate assets to meet the liabilities that it assumes and which *members* assume. *LLD* 11.2.1R requires the *Society* to maintain sufficient *net central assets* to cover the total of solvency deficits of *members*.

/1

14.1.4 **G** The requirements in this chapter address both specific and general market risk. Specific market risk refers to the risk arising from fluctuations in the value of specific assets. General market risk refers to more widespread fluctuations in market values. It includes foreign exchange risk (see also *LLD* 9.1.4G).

/1

14.2 Limitation of general market risk □ all types

14.2.1

G
/1

A fluctuation in asset values may have an impact upon the value of the *Society's* own assets and the assets of *members* and upon the amount of their liabilities. Any of these effects may have an impact on the ability to meet valid *claims* as they fall due. In many, but not all, cases these effects may offset each other especially where assets are closely matched to the liabilities they cover.

14.2.2

G
/1

The *Society* should limit this net exposure to specific market risk by requiring a close matching of assets to the liabilities they cover.

14.2.3

G
/1

The *Society* should take all reasonable steps to ensure that prudent provision is made, or other appropriate measures taken, against the effects of likely future changes in general asset values on:

- (1) the ability of *members* to meet valid *claims* as they fall due; and
- (2) the adequacy of assets to meet those *claims*.

14.3 Currency matching and localisation

- 14.3.1** **R** ^{/1} The *Society* must take reasonable steps to ensure that *members* in aggregate comply with the matching rules set out in:
- (1) Annex 1 of the Second Non-Life Directive (88/357/EEC) in relation to *general insurance business*; and
 - (2) Annex 1 of the Third Life Directive (92/96/EEC) in relation to *long-term insurance business*;
- as if all discretionary powers of the *United Kingdom* as Member State have been fully exercised in favour of the *Society* and *members*. In complying with this *rule* the *Society* may exercise, in favour of *members*, any discretion allowed to the *United Kingdom* as a Member State under those Directive provisions.
- 14.3.2** **G** ^{/1} LLD 14.3.3R does not apply to:
- (1) *insurance business* carried on outside the *EEA States*; or
 - (2) reinsurance business (unless it is facultative reinsurance).
- 14.3.3** **R** ^{/1} The *Society* must take reasonable steps to ensure that assets (other than *claims* against reinsurers) held pursuant to LLD 14.3.1R in respect of risks situated within the *EEA* are localised within the *EEA*, or if they cover liabilities in any currency other than sterling, in any *EEA State* or the state of that currency.
- 14.3.4** **R** ^{/1} Claims against debtors must be treated as situated in the state where those debts can be liquidated.

14.4 Assets to be taken into account only to a specified extent

14.4.1

G
/1

LLD 13 (Assets: valuation and realisability risk) specifies the classes of assets which are *admissible assets* and *valuation rules*. LLD 14.5 and LLD 14.6 contain *rules* which, for certain classes of assets, place limitations on the value which may be attributed to them in the *Lloyd's Return* and for solvency purposes. So, having identified and valued assets under LLD 13 (Assets: valuation and realisability risk), the aggregate value of those assets both for each *member* (taking their *funds at Lloyd's* and share of *premium trust fund* assets together) and for the *Society* in both cases will be reduced by an amount representing the total of:

- (1) the amount of exposure to assets of any description over the *permitted asset exposure limit* for assets of that description, as determined under LLD 14.5;
- (2) the amount of exposure to a *counterparty* over the *permitted counterparty exposure limit* for that *counterparty*, as determined under LLD 14.6; and
- (3) the amount of excess concentration with a number of *counterparties*, as determined under LLD 14.6.

14.4.2

R
/1

Where a *member* carrying on *long-term insurance business* has attributed assets partly to a *long-term insurance business fund* and partly to other assets, any reduction required to be made under LLD 14.5 or LLD 14.6 must be made in the same proportion as the attribution.

14.4.3

R
/1

The following assets need not be taken into account in any of the calculations described in LLD 14.5 and LLD 14.6:

- (1) *approved securities* or any interest accrued on them; or
- (2) debts to which LLD 13.8.3R applies; or
- (3) rights to which LLD 13.8.5R, LLD 13.8.8R or LLD 13.8.9R applies; or
- (4) debts in respect of premiums; or
- (5) monies due from, or guaranteed by, the government of any *Zone A country*; or
- (6) holdings in a scheme falling within the *UCITS directive*; or
- (7) deferred acquisition costs; or

(8) any of the assets described under *LLD* 13.4.3R(4).

14.5 Permitted asset exposure limits

- 14.5.1** **R** Subject to *LLD 14.5.2R*, the *Society* must:
/1
- (1) ensure that the value of its *admissible assets*, calculated under *LLD 13 (Assets: valuation and realisability risk)*; and
 - (2) take reasonable steps to ensure that the value of the *admissible assets* for each *member* individually, calculated under *LLD 13 (Assets: valuation and realisability risk)*;
- do not, for each description of asset, exceed the *permitted asset exposure limits* set out in *LLD 14.5.17R*.
- 14.5.2** **R** In applying the less restrictive *permitted asset exposure limits* set out in *LLD 14.5.17R* for *individual members*, the *Society* must ensure that in aggregate compliance with Article 22 of the Third Non-Life Directive (92/49/EEC) and Article 22 of the Third Life Directive (92/96/EEC) is maintained.
- 14.5.3** **G** The percentages in the table of *permitted asset exposure limits* set out in *LLD 14.5.17R* should be applied separately to the *admissible assets* of each description for each *member* and the *Society*.
/1
- 14.5.4** **G** In the same way that *LLD 9 to 15* does not prohibit the holding of any type of asset, *LLD 14.5.1R* does not prohibit the holding of excess assets of each description, but simply limits the extent to which they can be counted for solvency and reporting purposes.
/1
- 14.5.5** **R** The asset exposure under *LLD 14.5.1R* must be calculated by determining the amount of exposure to assets of each description by:
/1
- (1) ascribing a value to assets of each description under *LLD 13 (Assets: valuation and realisability risk)*; or
 - (2) where the assets are of a description for which no provision for valuation is made in *LLD 13 (Assets: valuation and realisability risk)*, an amount which would reasonably be paid as consideration for an immediate assignment or transfer of those assets;
- and adjusting the value of the assets under *LLD 14.5.10R* to *LLD 14.5.15R*.

- 14.5.6 **R** /1 Where there is exposure to assets of any description in excess of the *permitted asset exposure limit* for those assets, the reduction required under *LLD 14.5.1R* must be made:
- (1) by deducting (as far as possible) the amount of the excess from the assets of that description; and
 - (2) where there are insufficient assets of that description to eliminate the excess, by making an appropriate deduction from the aggregate value of the assets which may otherwise be taken into account for any of the purposes in *LLD 13* (Assets: valuation and realisability risk) and this chapter.
- 14.5.7 **R** /1 The *permitted asset exposure limits* in *LLD 14.5.17R* are the percentages of all *admissible assets* (excluding reinsurance recoveries).
- 14.5.8 **R** /1 In the case of an *admissible asset* not covered by any of the descriptions in *LLD 14.5.17R* (other than a *derivative contract* or *quasi-derivative contract*), the *permitted asset exposure limit* in *LLD 14.5.1R* is 100%.
- 14.5.9 **R** /1 The amount arrived at under *LLD 14.5.5R* for assets of each description must be increased or decreased (as the case may be) by the value of assets of that description which are deemed to have been acquired or disposed of as a result of a futures contract.
- 14.5.10 **R** /1 For the purposes of *LLD 14.5.9R*, assets are deemed to have been acquired or disposed of as a result of a futures contract if, at the valuation date, a futures contract has been entered into (but not closed out) which:
- (1) provides for the acquisition of assets; or
 - (2) is *listed* and provides for the disposal of assets; or
 - (3) is not *listed* but provides for the disposal of assets to an *approved counterparty*, and where it is prudent to assume the disposal will take place within one year of the valuation date.
- 14.5.11 **R** /1 The amount arrived at under *LLD 14.5.5R* for assets of each description must be increased or decreased (as the case may be) by the value of assets of that description which are deemed to have been acquired or disposed of through an *option*.
- 14.5.12 **R** /1 For the purposes of *LLD 14.5.11R*, assets are deemed to have been acquired or disposed of through an *option* if, at the valuation date, it is prudent to assume the *option* will be exercised and that the *option*:
- (1) provides for the acquisition of assets; or
 - (2) is *listed* and provides for the disposal of assets; or

- (3) is not *listed* but provides for the disposal of assets to an *approved counterparty*, and it is prudent to assume the disposal will take place within one year of the valuation date.
- 14.5.13 **R** /1 The amount arrived at under *LLD 14.5.5R* for assets of each description must be increased by the value of any assets of that description which were transferred as *initial margin*.
- 14.5.14 **R** /1 The amount arrived at under *LLD 14.5.5R* for assets of each description must be increased or decreased (as the case may be) by the value of assets deemed to have been acquired or disposed of under:
- (1) an undiversified *contract for differences*; or
 - (2) a contract or asset other than a diversified *contract for differences* which is a *quasi-derivative contract*.
- 14.5.15 **R** /1 For the purposes of *LLD 14.5.14R*, assets must be treated as having been acquired when the contracts covering those assets are entered into.
- 14.5.16 **R** /1 In the case of the *Society*, the amount arrived at under *LLD 14.5.5R* and *LLD 14.5.9R* to *LLD 14.5.15R* for assets of the *Society* of any description must be increased by an amount representing the exposure, if any, of its *subsidiary undertakings* to assets of that description, calculating the exposure under paragraphs 4 to 11 of Appendix 4.2 of *IPRU(INS)* as if the *subsidiary undertakings* were *insurers* (whether they are or not).
- 14.5.17 **R** /1 Table Permitted asset exposure limits (see *LLD 14.5.1R*, *LLD 14.5.7R* and *LLD 14.5.8R*)

	Definition of asset	Percentage of all admissible assets, in each case for <i>general insurance business and long-term insurance business</i>	Percentage of all admissible assets, in each case for <i>general insurance business and long-term insurance business for individual members</i>
1	Land or an interest in land. Where there is more than one piece of land the value ascribed to the aggregate may, where applicable, be greater than the value of any pieces of land valued separately	5%	5%
1a	A reversionary interest or a remainder not falling within 1	1%	1%
2	All debts which are, or are to become, due from any one individual (except an individual connected with the <i>member</i>) being debts which are fully secured on any dwelling or any land belonging to it owned or to be purchased by the individual and used or to be used by him for his own residence	1%	1%
3	All debts due, or to become due, from an individual, other than debts specified in 2	0.25%	0.25%
4	All unsecured debts (other than those arising under the terms of debt securities or debts from a <i>regulated institution</i>) which have, or are to, become due from any one <i>counterparty</i> other than an individual, <i>body corporate</i> or group	1%	1%

E

	Definition of asset	Percentage of all admissible assets, in each case for <i>general insurance business and long-term insurance business</i>	Percentage of all admissible assets, in each case for <i>general insurance business and long-term insurance business for individual members</i>
5	All unsecured debts (other than those arising under the terms of debt securities or debts from a <i>regulated institution</i>) which are, or are to become, due from any one company, taken with all such debts which are, or are to become due from a <i>connected company</i> of that company	1%	1%
6	All unsecured debts (other than those arising under the terms of debt securities or debts from an <i>approved counterparty</i>) which are, or are to become, due from any one <i>regulated institution</i> , taken together with all such debts which are, or are to become, due from a <i>connected company</i> of that institution	2.5%	2.5%
7	All debts, other than those arising under the terms of debt securities, which are, or are to become, due from any one <i>counterparty</i> which is not an <i>approved counterparty</i> taken together with all such debts which are, or are to become, due from any <i>connected company</i> (other than an <i>approved counterparty</i>) of that <i>counterparty</i>	5%	5%

	Definition of asset	Percentage of all admissible assets, in each case for <i>general insurance business and long-term insurance business</i>	Percentage of all admissible assets, in each case for <i>general insurance business and long-term insurance business for individual members</i>
8	All debts, other than short term deposits with an <i>approved credit institution</i> or debts arising under the terms of debt securities, which are, or are to become, due from any one <i>approved counterparty</i> , taken with all such debts which are, or are to become, due from any <i>connected company</i> of that <i>approved counterparty</i>	10%	10%
9	All debts which are, or are to become, due from an <i>approved credit institution</i> (or a <i>connected company</i> of that institution) taken together	20%	20%
10	The aggregate of debts of the descriptions in 3, 4 and 5	5%	5%

	Definition of asset	Percentage of all admissible assets, in each case for <i>general insurance business</i> and <i>long-term insurance business</i>	Percentage of all admissible assets, in each case for <i>general insurance business</i> and <i>long-term insurance business</i> for <i>individual members</i>
11	<p>All investments of a kind to which <i>LLD</i> 13.11.1R applies (other than secured debt securities, debt securities (excluding hybrid securities) issued by a <i>regulated institution</i> or investments which are <i>listed</i> and <i>readily realisable</i>) issued by any one issuer taken together with:</p> <p>(a) all units or other beneficial interests in a <i>collective investment scheme</i> falling within <i>LLD</i> 13.12.2R(3) issued by that issuer; and</p> <p>(b) all investments of the kinds mentioned in this section which are issued by a <i>connected company</i> of that issuer</p>	1%	2%
12	The aggregate of assets of any of the descriptions in 1a and 11	10%	20%
13	All <i>shares</i> and <i>hybrid securities</i> issued by any one issuer with all such <i>securities</i> issued by a <i>connected company</i> of that issuer	2.5%	5%
14	All <i>securities</i> issued by any one issuer which is not an <i>approved counterparty</i> , taken with all <i>securities</i> issued by a <i>connected company</i> , except an <i>approved counterparty</i> , of that issuer	5%	10%

	Definition of asset	Percentage of all admissible assets, in each case for <i>general insurance business and long-term insurance business</i>	Percentage of all admissible assets, in each case for <i>general insurance business and long-term insurance business for individual members</i>
15	All <i>securities</i> issued by any one <i>counterparty</i>	10%	20%
16	All holdings in any one <i>authorised unit trust scheme</i> or <i>recognised scheme</i>	25%	50%
17	All cash	3%	3%
18	All computer equipment	5%	5%
19	All office machinery (except computer equipment) taken together with all furniture, motor vehicles and other equipment	2.5%	2.5%

14.6 Counterparty exposure limits

- 14.6.1** **R** ^{/1} The *Society* must ensure that the value of its *admissible assets* calculated under *LLD* 14.5 are further reduced to the *permitted counterparty exposure limits* set out in *LLD* 14.6.3R, *LLD* 14.6.4R, *LLD* 14.6.10R and *LLD* 14.6.11R, subject to *LLD* 14.6.14R(2) and take reasonable steps to ensure that the value of the *admissible assets* for each *member* individually calculated under *LLD* 14.5 are further reduced to the *permitted counterparty exposure limits* set out in *LLD* 14.6.3R, *LLD* 14.6.4R, *LLD* 14.6.10R and *LLD* 14.6.11R, subject to *LLD* 14.6.14R.
- 14.6.2** **G** ^{/1} Exposure to any one *counterparty* (when taken with its *connected companies*) is also restricted. *LLD* 14.6 requires the value of all investments in debts due from a *counterparty* and rights against a *counterparty* to be aggregated in order to calculate the *counterparty* exposure. The *counterparty* exposure calculation is arrived at after taking account of the *permitted asset exposure limits*, thus avoiding double counting.
- 14.6.3** **R** ^{/1} If the *counterparty* is an individual, an unincorporated body, or a government of a state or any public body, local authority or nationalised industry of a state, the *permitted counterparty exposure limit* is 5% of all *admissible assets* (excluding reinsurance recoveries).
- 14.6.4** **R** ^{/1} If the *counterparty* is a *body corporate* or a group of companies, the *permitted counterparty exposure limit* is the lower of:
- (1) if the exposure is to a body which is not an *approved counterparty*, 5% of all *admissible assets* (excluding reinsurance recoveries); or
 - (2) if the exposure is to a body which is an *approved counterparty* and the exposure does not arise from debts which are, or will become, due as a result of short term deposits made with an *approved credit institution*, 10% (or where prudent a lower amount) of all *admissible assets* (excluding reinsurance recoveries); or
 - (3) 20% of all *admissible assets* (excluding reinsurance recoveries).
- 14.6.5** **R** ^{/1} Where a reduction is required as a result of *LLD* 14.6.3R, *LLD* 14.6.4R or *LLD* 14.6.10R, the reduction must be made by a deduction from the aggregate value of the assets which could

otherwise be taken into account for any of the purposes in *LLD 13* (Assets: valuation and realisability risk).

14.6.6

R
/1

Subject to *LLD 14.6.7R* and *LLD 14.6.8G*:

- (1) the value of all investments (determined under *LLD 13.11*) issued by any one *counterparty* and the value of all rights (determined under *LLD 13.6.1R* and *LLD 13.8*) against that *counterparty*, in each case up to the amount of the relevant *permitted asset exposure limit*, must be aggregated; and
- (2) if the *counterparty* is an issuer of a *collective investment scheme* falling within *LLD 13.12.2R(3)*, the value must include the value of units or other beneficial interests in the *collective investment scheme*.

14.6.7

R
/1

The aggregation required under *LLD 14.6.6R* need not include the value of the rights referred to in *LLD 14.6.6R(1)*, if those rights exist in respect of an obligation to be fulfilled by a *counterparty* and:

- (1) the obligation is a secured obligation which:
 - (a) is secured by cash deposited with, a letter of credit established with, or *securities* issued by, or a guarantee provided by, an *approved credit institution* or an *approved financial institution*; and
 - (b) is due to be fulfilled within 12 months of the valuation date; or
- (2) the obligation is secured by *listed securities* which are readily realisable, or by *approved securities* which:
 - (a) were deposited with an *approved credit institution*, an *approved financial institution* or an *approved investment firm*; and
 - (b) are beneficially owned by the *counterparty*, but will not be available for the benefit of creditors generally if the *counterparty* is wound up.

14.6.8

G
/1

If there are liabilities to the *counterparty* which may be offset against the assets mentioned in *LLD 14.6.7R*, in accordance with generally accepted accounting practice, then these liabilities may be offset for the purposes of the aggregation required under *LLD 14.6.6R*.

14.6.9

R
/1

[In the case of the *Society*, the amount arrived at under *LLD 14.6.6R* to *LLD 14.6.8G* must be increased by an amount representing the exposure, if any, of its *subsidiary undertakings* to the *counterparty*, calculating the exposure under paragraphs 13 to 15 of Appendix 4.2 of *IPRU(INS)* as if the *subsidiary undertakings* were insurers (whether they are or not).]

PAGE
16

- 14.6.10 **R** /1 The deduction for an amount of exposure to a *counterparty* over the *permitted counterparty exposure limit* must be calculated by subtracting from the amount of the exposure to the *counterparty*, the amount of the *permitted counterparty exposure limit* and, if the figure arrived at is negative, it must be taken to be zero.
- 14.6.11 **R** /1 However, if exposure to a *counterparty* is in excess of the *permitted counterparty exposure limit* in more than one of the circumstances set out in *LLD 14.6.4R*, the deduction required must be made in the circumstances of the greatest excess exposure.
- 14.6.12 **R** /1 If there is exposure to more than one *counterparty* of the type mentioned in *LLD 14.6.4R(2)*, then the aggregate of these exposures must not exceed 40% of all *admissible assets*.
- 14.6.13 **R** /1 For the purposes of *LLD 14.6.12R*:
- (1) exposure to a *counterparty* is to be taken into account only up to the level of the *permitted counterparty exposure limit* for that *counterparty*;
 - (2) exposure to a *counterparty* is not to be taken into account if it does not exceed 5% of all *admissible assets* (excluding reinsurance recoveries); and
 - (3) exposure to a *counterparty* is not to be taken into account if the *permitted counterparty exposure limit* does not exceed 5% of all *admissible assets* (excluding reinsurance recoveries).
- 14.6.14 **R** /1 For the purposes of *LLD 14.6.1R*:
- (1) in respect of *individual members*, the *permitted counterparty exposure limits* are double those set out in *LLD 14.6.3R*, *LLD 14.6.4R* and *LLD 14.6.12R*; and
 - (2) in respect of assets falling within *LLD 14.5.17R(16)*, the *permitted counterparty exposure limits* are 50% of all *admissible assets* (excluding reinsurance recoveries).

Chapter 15.

Reporting by the Society

15.1 Application and purpose

Application

- 15.1.1 **R** This chapter applies to the *Society*.
/1
- 15.1.2 **R** A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
/1

Purpose

- 15.1.3 **G** The requirements in this chapter lay down a minimum level of disclosure of financial information and of transparency.
/1
- 15.1.4 **G** This chapter requires the *Society* to report on the *insurance business* carried on by *members* and on the assets and liabilities of *members* and the *Society*.
/1
- 15.1.5 **G** The *Lloyd's Return* is made annually and contains the statement required from the *Society* that it has maintained the margin of solvency required under *LLD 11* (Required margin of solvency). This does not absolve the *Society* from the obligation to maintain the required margin of solvency at all times.
/1
- 15.1.6 **G** This statement of solvency is required to be supported by sufficient detail to allow the *FSA* to form an opinion on the adequacy of the matters stated and to evaluate other key financial data. All the information submitted as part of the *Lloyd's Return* will be made available for public inspection.
/1
- 15.1.7 **G** The *Lloyd's Return* is based on the return required from *insurers*, but the format and content have been modified where necessary to reflect the special characteristics of Lloyd's.
/1
- 15.1.8 **G** Where appropriate, the *Society* is also required to modify reporting to make it more like that of an *insurer*. This is to aid comparisons between Lloyd's and *insurers*.
/1

15.2 Requirement to report to the FSA

- 15.2.1** **R** ^{/1} The *Society* must report to the *FSA* within 6 months of the end of each *financial year* on its financial situation and solvency and on the whole of the *insurance business* carried on by *members*.
- 15.2.2** **R** ^{/1} The report in *LLD* 15.2.1R must be prepared in accordance with *LLD* 9.4.1R and this chapter.
- 15.2.3** **R** ^{/1} The report in *LLD* 15.2.1R must include:
- (1) the *Lloyd's Return* which comprises a completed set of the forms set out in *LLD* 15 Annex 1R, together with any statements, notes, reports or certificates required by this chapter; and
 - (2) a copy of the *syndicate* accounts for each *syndicate* that is required by *byelaw* to prepare accounts for the *financial year*.
- 15.2.4** **R** ^{/1} The *Lloyd's Return* must be examined and reported on by the auditors appointed to audit the affairs of the *Society*.
- 15.2.5** **R** ^{/1} The *Society* must provide a printed copy of the *Lloyd's Return* to the *FSA*, with Form 9 signed by three signatories who are senior officers of the *Society* each duly authorised by the *Council* to sign the *Lloyd's Return* on behalf of the *Society*.
- 15.2.6** **R** ^{/1} If the *FSA* notifies the *Society* that any part of the *Lloyd's Return* is not in conformity with this chapter, the *Society* must promptly make any appropriate corrections or adjustments and if necessary re-submit the *Lloyd's Return* (or relevant part of it).
- 15.2.7** **G** ^{/1} The *Society* should make the report, including amendments and corrections, and amalgamated *syndicate* accounts available at its head office for inspection by policyholders and potential policyholders and *members*.
- 15.2.8** **G** ^{/1} The signatories that are required under *LLD* 15.2.5R should where possible include the Chairman and Chief executive of the *Society*.

15.3 Content and form of the Lloyd's Return

15.3.1

R

/1

In preparing the *Lloyd's Return*, the *Society* must:

- (1) complete the forms in *LLD 15 Annex 1R*, subject to *LLD 9* to *15*:
 - (a) following the requirements of and making the disclosures required under Appendices 9.1, 9.2, 9.3 and 9.4 of *IPRU(INS)*; and
 - (b) having regard to Guidance Note 9.1 of *IPRU(INS)*;

as if in the documents referred to in (a) and (b) references to an *insurer* were references to the *Society* and *members*, and adapting the requirements in (a) and the guidance in (b) where necessary;
- (2) complete the forms in *LLD 15 Annex 1R* using standard accounting classes as set out in *LLD 15 Annex 6R* where the forms require reporting by accounting class;
- (3) report treaty reinsurance general business falling in accounting classes 9 to 10 as set out in *LLD 15 Annex 6R* in Forms 28 and 29 in *LLD 15 Annex 1R* by reference to the categories in the underlying accounting classes; and
- (4) complete forms 13, 14, 40-60 in *LLD 15 Annex 1R* for each *long-term insurance business syndicate*.

15.3.2

R

/1

- (1) Where a reinsurance contract in *LLD 15.3.1R(3)* covers more than one underlying accounting class as set out in *LLD 15 Annex 6R* it must be apportioned between accounting classes in the way that best reflects its underlying composition.
- (2) However, where the apportionment in (1) cannot be made with reasonable accuracy or without disproportionate effort, then the contract must be allocated to the accounting class as set out in *LLD 15 Annex 6R* that most closely reflects its underlying composition.
- (3) Whether apportioned under (1) or allocated under (2), a consistent approach must be taken to reporting:
 - (a) the progress of a treaty in subsequent years; and

- (b) substantially similar *insurance business* in subsequent years.
- (4) Where a different policy is subsequently followed a suitable explanatory note must be provided.
- 15.3.3** **R** /1 If, during the financial year in question, the *Society* has agreed to, or carried out, a material connected party transaction, it must provide a brief description of that transaction by way of a supplementary note to the *Lloyd's Return*.
- 15.3.4** **R** /1 The description to be provided under *LLD 15.3.3R* must state:
- (1) the names of the transacting parties;
 - (2) a description of the connection between the parties;
 - (3) a description of the transaction;
 - (4) the amounts involved;
 - (5) any other elements of the transaction needed for an understanding of its effect or potential effect upon the financial position of the *Society*; and
 - (6) amounts written off in the period in respect of debts due to or from transacting parties which are connected parties.
- 15.3.5** **R** /1 Transactions with the same connected party may be disclosed on an aggregated basis unless separate disclosure is needed for a proper understanding of the effect of the transactions upon the financial position of the *Society*.

15.4 Risk groups for general insurance business

- 15.4.1** **R** ^{/1} The *Society* must for the purposes of reporting under this chapter:
- (1) classify the direct and facultative *general insurance business* of *members* according to appropriate risk groups; and
 - (2) where the risks are material, complete a separate Form 34 in *LLD 15 Annex 1R* for each group.
- 15.4.2** **R** ^{/1} The *Society* must not include:
- (1) policies falling within *classes 14, 15, 16, 17 or 18* within the same risk group as policies falling within any other *class*, except that policies falling within *class 14* may be included in the same risk group as policies falling within *class 15*; or
 - (2) policies in respect of private motor car risks, within the same risk group as policies in respect of other risks falling within accounting class 2 as set out in *LLD 15 Annex 6R*; or
 - (3) policies in respect of comprehensive private motor car risks, within the same risk group as policies in respect of non-comprehensive private motor car risks; or
 - (4) policies transferred to *members* by way of a transfer under section 111 of the *Act* (Sanction of the court for business transfer schemes), within the same risk group as other policies.
- 15.4.3** **G** ^{/1} In assessing what are appropriate risk groups for reporting purposes the *Society* should ensure where possible that:
- (1) each risk group should include only risks from within a single accounting class and in relation to a single country;
 - (2) policies are not included in the same risk group where, having regard to the patterns of risk, *claims* incurrence and settlement patterns, it is necessary to group them separately for the purposes of applying statistical methods in calculating the provision for *claims* outstanding in accordance with generally accepted accounting practice; and
 - (3) claims-made policies are not included in the same risk group as policies which are not claims-made policies, except:
 - (a) where this is not possible without disproportionate expense; and

(b) where the policies within the risk group do not exhibit materially different characteristics.

- 15.4.4** **G**_{/1} Subject to *LLD 15.4.2R(1)* and (2) and *LLD 15.4.3G(3)*, the *Society* may in respect of any accounting class include all *insurance business* carried on by *members* in any country in any *financial year* as a single risk group.
- 15.4.5** **G**_{/1} Notwithstanding the provisions of *LLD 15.4.2R(1)* and (2) and *LLD 15.4.3G(3)*, the *Society* may classify all *insurance business* carried on by *members* in any country in respect of any accounting class in any *financial year* as a single risk group, as long as gross premiums written for that year in respect of that *insurance business* are less than 5% of the world-wide gross premiums written for all accounting classes for that year.
- 15.4.6** **G**_{/1} The requirements to report a separate risk group in *LLD 15.4.2R(1)* do not apply where, in the case of any *financial year*, the gross premiums receivable for that year in respect of that risk group would be less than £1million.
- 15.4.7** **G**_{/1} Further guidance on risk groups and country classification is in *IPRU(INS)*, Guidance Note 9.1, paragraph 9.4.
- 15.4.8** **R**_{/1} **The *Society* must give the *FSA* notice of proposed changes to the definition or classification of the risk groups in *LLD 15.4.1R*, sufficient to allow the *FSA* properly to assess the implications of the proposals.**

15.5 Major treaty reinsurers

- 15.5.1** **R** ^{/1} The *Society* must, in connection with the *general insurance business* carried on by *members*, include in the *Lloyd's Return* a statement of major treaty reinsurers.
- 15.5.2** **R** ^{/1} A major treaty reinsurer is any insurance company to which in the *financial year* in question or any of the five preceding *financial years*:
- (1) in the case of proportional reinsurance, 2% or more of the gross premiums receivable in respect of *general insurance business* of the *members* in aggregate has been ceded; or
 - (2) in the case of non-proportional reinsurance, 5% or more of the gross premiums receivable in respect of *general insurance business* has been ceded.
- 15.5.3** **G** ^{/1} The *Society* should be treated as if it were a major treaty reinsurer when *inter-syndicate reinsurance* in aggregate exceeds the amounts set out in *LLD 15.5.2R*.
- 15.5.4** **G** ^{/1} The requirements of *LLD 15.5.1R*, *LLD 15.6.1R* and *LLD 15.7.1R* may be satisfied by giving a fair view and making use of an appropriate degree of approximation. The *Society* may employ any reasonable methods to establish the information required.
- 15.5.5** **G** ^{/1} *LLD 15.5.2R* and *LLD 15.7.2R* should be interpreted in relation to the period in which these reporting requirements come into effect. In the first *Lloyd's Return*, only one *financial year* will be reported on, in the second *Lloyd's Return*, two, and so on.
- 15.5.6** **R** ^{/1} The statement required under *LLD 15.5.1R* must include:
- (1) the full name of each major treaty reinsurer;
 - (2) the amount of the reinsurance premiums payable in the *financial year* to each such reinsurer;
 - (3) whether and if so how the reinsurer was connected to any *member* or any *managing agent*;
 - (4) the amount of any debt of each such reinsurer included at line 75 of Form 13 in *LLD 15 Annex 1R*;

- (5) the amount of any deposit received from each such reinsurer under reinsurance treaties included at line 31 of Form 15 in *LLD 15 Annex 1R*; and
- (6) the reinsurers' share of *technical provisions* shown on Form 13 in *LLD 15 Annex 1R*, except that in respect of claims incurred but not reported, such recoveries need only be included to the extent that they are in respect of specific occurrences for which provisions have been allocated;

or, as the case may be, a statement that having aggregated the reinsurance ceded by *members* no reinsurer is a major treaty reinsurer.

15.6 Major facultative reinsurers

- 15.6.1** **R** ^{/1} The *Society* must, in connection with the *general insurance business* carried on by *members*, include in the *Lloyd's Return* a statement of major facultative reinsurers.
- 15.6.2** **R** ^{/1} A major facultative reinsurer is an insurance company to which or with respect to which:
- (1) 0.5% or more of the gross premiums *receivable* in respect of *general insurance business* of the *members* in aggregate has been ceded; or
 - (2) the addition of the amounts in items (4) and (5) of *LLD 15.5.6R* produces an amount exceeding 1% of the aggregate gross assets of *members*.
- 15.6.3** **G** ^{/1} The *Society* should be treated as if it were a major facultative reinsurer when *inter-syndicate reinsurance* in aggregate exceeds the amounts set out in *LLD 15.6.2R*.
- 15.6.4** **R** ^{/1} The statement required under *LLD 15.6.1R* must include the matters listed in *LLD 15.5.6R*, with appropriate amendments.

15.7 Major reinsurance cedants

- 15.7.1** **R** ^{/1} The *Society* must, in connection with the *general insurance business* carried on by *members*, include in the *Lloyd's Return* a statement of major reinsurance cedants.
- 15.7.2** **R** ^{/1} A major reinsurance cedant is an insurance company which in the *financial year* in question or any of the three preceding *financial years*:
- (1) cedes an amount which exceeds 5% of the gross premiums *receivable by members* in respect of *general insurance business* accepted under reinsurance treaties; and
 - (2) cedes an amount which exceeds 2% of the gross premiums *receivable by members* in respect of *general insurance business*.
- 15.7.3** **G** ^{/1} The *Society* should be treated as if it were a major reinsurance cedant when inter-syndicate cessions in aggregate exceed the amounts set out in *LLD 15.7.2R*.
- 15.7.4** **R** ^{/1} The statement required under *LLD 15.7.1R* must include the matters listed in *LLD 15.5.6R*, with appropriate amendments.

15.8 Additional information

Derivative contracts

15.8.1

R
/1

The *Society* must annex a statement to the *Lloyd's Return* comprising a brief description of:

- (1) any *byelaws* and guidelines issued by the *Society* governing the use of *derivative* contracts;
- (2) any provision in those guidelines governing the use of contracts under which *members* have a right or obligation to acquire or dispose of assets which was not, at the time when the contract was entered into, reasonably likely to be exercised and the circumstances in which, pursuant to that provision, such contracts may be used;
- (3) the extent to which *members* were during the *financial year* a party to any contracts of the kind described in (2);
- (4) the extent to which any of the amounts recorded in Form 13 would be changed if assets which *members* had a right or obligation to acquire or dispose of under *derivative* contracts outstanding at the end of the *financial year* (being, in the case of *options*, only those *options* which it would have been prudent to assume would be exercised) had been acquired or disposed of;
- (5) the difference between (4) and the amount which would result under (4) if such *options* had been exercised and this were reflected in Form 13 to the maximum extent;
- (6) how different the information provided pursuant to (4) and (5) would have been if, instead of applying to contracts outstanding at the end of the *financial year*, (4) and (5) had applied to *derivative* contracts outstanding at such other time during the *financial year* as would have changed the amounts in Form 13 to the maximum extent;
- (7) the maximum loss which would be incurred by *members* on the failure by any one other person to fulfil its obligations under *derivative* contracts outstanding at the end of the *financial year*,

both under existing market conditions and in the event of other foreseeable market conditions, together with an assessment of whether such maximum loss would have been materially different at any other time during the *financial year*;

- (8) the circumstances surrounding the use of any *derivative* contract held at any time during the *financial year* which did not fall within *LLD* 13.6.1R; and
- (9) the total value of any fixed consideration received by *members* (whether in cash or otherwise) during the *financial year* in return for granting rights under *derivative* contracts and a summary of contracts under which such rights have been granted.

15.8.2

G

/1

In relation to required disclosures of *derivative* contracts in *LLD* 15.8.1R, references to a *derivative* contract and related expressions should be taken to include:

- (1) any *derivative* contract entered into by a *managing agent* on behalf of a *member* as part of that *member's insurance business*; and
- (2) any *derivative* contract entered into by the *Society*.

15.8.3

G

/1

Contracts that are *quasi-derivative contracts* should be treated as *derivative* contracts.

15.8.4

R

/1

For the purposes of *LLD* 15.8.1R, if *members* are a party to:

- (1) a *contract for differences*; or
- (2) any other contract which is to be, or may be, settled in cash

they must be treated as having a right or obligation to acquire or dispose of the assets underlying the contract.

General insurance business ceded

15.8.5

R

/1

The *Society* must annex to the *Lloyd's Return* a statement:

- (1) of each major treaty reinsurer and major facultative reinsurer; and
- (2) for each of the realistic disaster scenarios set by the *Society* under *LLD* 10.6, of the contribution it is assumed each such reinsurer would provide in the event of that disaster occurring.

15.8.6

G

/1

The requirements of *LLD* 15.8.5R may be satisfied by giving a fair view and may make use of an appropriate degree of approximation. The *Society* may employ any reasonable methods to establish the information required. The *Society* may also include such explanation as it considers to be necessary to allow a reasonable interpretation to be put on this statement.

The Society

15.8.7 **R** The *Society* must annex to the *Lloyd's Return* a statement naming each individual who has served:

/1

- (1) on the *Council*;
- (2) as Chairman of the *Council*; and
- (3) as Chief Executive Officer of the *Society*;

at any time during the *financial year*, including in each case the dates of commencement or end of service (as the case may be) of any individual who has not served for the entire year.

Capacity controlled

15.8.8 **R** The *Society* must annex to the *Lloyd's Return* a statement identifying any *members*, *members' agents* or *managing agents* that control a significant share of the underwriting capacity of the *Society*.

/1

15.8.9 **R** To control a significant share means:

/1

- (1) in relation to a *managing agent*, managing, directing through one or more Members' Agent Pooling Arrangements or owning, whether directly or in conjunction with *connected persons*, capacity which in aggregate is greater than 5% of the total underwriting capacity of the *Society*;
- (2) in relation to a *members' agent*, directing through one or more Members' Agent Pooling Arrangements or owing, whether directly or in conjunction with *connected persons*, underwriting capacity which in aggregate is greater than 2.5% of the total underwriting capacity of the *Society*; and
- (3) in relation to a *member*, owning, whether directly or in conjunction with *connected persons*, underwriting capacity which, in aggregate, is greater than 2.5% of the total underwriting capacity of the *Society*.

15.8.10 **G** The statement in *LLD* 15.8.8R should include comparative figures for the preceding two *financial years* and should state:

/1

- (1) the name of the *managing agent*, *members' agent* or *member*;
- (2) the amount of capacity owned, directed or managed in each case;
- (3) the names of the *connected persons* (if any); and
- (4) their respective shares.

 15.9 Certificates and audit report

Certificates

15.9.1

RThe *Society* must annex to the *Lloyd's Return*:

/1

- (1) a certificate from the *Council*, including the statements required by *LLD 15 Annex 2R*;
- (2) a statement from the *Lloyd's actuary*, including the statements required by *LLD 15 Annex 3R*;
- (3) a certificate from the *syndicate actuary* of each *syndicate* which carries on *long-term insurance business*, including the statements required by *LLD 15 Annex 4R*, and;
- (4) an abstract from the *syndicate actuary* of each *syndicate* which carries on *long-term insurance business* of the *actuary's* report made under *LLD 10.9.4R(2)(b)*.

Audit report

15.9.2

R

The *Society* must ensure that the *Lloyd's Return* and every document annexed to or provided with it has been examined by the *Society's* auditors and must provide with the *Lloyd's Return* an audit certificate in respect of that examination.

/1

15.9.3

R

The certificate in *LLD 15.9.2R* must be in the form set out in *LLD 15 Annex 5R*.

/1

 15.10 The Lloyd's global account

- 15.10.1 **R** The *Society* must prepare a global account in respect of each *financial year* that amalgamates all *syndicate* accounts for that year.
/1
- 15.10.2 **R** The global account must be prepared and submitted to the *FSA* within 6 months of the end of the *financial year* and state that it is prepared in compliance with *LLD* 9 to 15.
/1
- 15.10.3 **R** The notes to the global account must include details of:
/1
- (1) inter-syndicate *insurance business*, including premiums received or *receivable* and *claims* paid;
 - (2) the method by which run-off *claims* are taken into account;
 - (3) the method by which the premium income limits of *members* are calculated; and
 - (4) the bases and methods used in the calculation of *technical provisions* for *long-term insurance business*.
- 15.10.4 **R** The notes to the global account must state:
/1
- (1) the aggregate amount of *members'* qualifying assets and how that is divided between:
 - (a) Lloyd's deposits;
 - (b) personal reserve funds;
 - (c) special reserve funds; and
 - (d) other qualifying assets;
 - (2) the aggregate amount of the *central assets* and how that is divided between:
 - (a) the net assets of the *Central Fund*; and
 - (b) other *net central assets*;

- (3) the reason why any charges to tax are not shown in the accounts and the basic rate of tax applicable to amounts of tax deducted at source; and
- (4) the estimated average rates of commission and brokerage charged by brokers.

15.10.5

R

The *Society* must provide a printed copy of the global account to the *FSA*.

^{/1}

 **15.11 Public disclosure**

- 15.11.1**  The *FSA* will make all the documents received by it under this chapter available to the public.
/1
- 15.11.2**  The *Society* must provide within a period not exceeding 30 days:
- (1) on demand to any *member* or policyholder a copy of the *Lloyd's Return* and the *global account* most recently submitted to the *FSA*; and
 - (2) if specifically requested by a *member* or policyholder, a copy of any *syndicate* account submitted to the *FSA*.
- 15.11.3**  Copies of the *Lloyd's Return*, the *global account* and the *syndicate* accounts may be provided, if the applicant so requests, in electronic form.
/1
- 15.11.4**  The *Society* may make a charge for the provision of the *Lloyd's Return*, the *global account* and of each *syndicate* account to cover its reasonable costs, including those of printing and postage.
/1

15.12 Other requirements

15.12.1

G
/1

IPRU(INS) 9.38R requires the *Society* to make a statistical report of *members'* *insurance business* activities in *EEA States*.

R Instructions for completion of Form 15

1 Table

1	Line 11 Column 1 corresponds to the sum of 25.11+25.13+25.15+25.30 for the closing year.
2	Line 12 Column 1 corresponds to the sum of 25.11+25.13+25.15+25.30 for naturally <i>open</i> years.
3	Line 13 Column 1 corresponds to the sum of 25.11+25.13+25.15+25.30 for run-off years.
4	The amounts in line 15 must sum to the amount at line 28 to Form 37. Any difference between the credit equalisation provisions allocated to <i>members</i> and their proportionate shares of the provisions allocated to the <i>open syndicate years</i> on which they participate must be included in the form for other <i>members'</i> liabilities.
5	Separate forms are required for <i>syndicate</i> liabilities, other <i>members'</i> liabilities, central liabilities and aggregate liabilities.
6	No entries arise in lines 11 to 13, 16 to 19 or 31 to 43 for the central liabilities of the <i>Society</i> .
7	Aggregate <i>member's</i> liabilities include aggregate net surpluses in <i>open syndicate years</i> (for those <i>members</i> with surpluses) to be shown at line 16 and credit equalisation provisions at line 15. Nothing arises in lines 11 to 13 or 31 to 46.
8	Amounts in lines 11 to 13 and 16 must be stated gross of reinsurers' share.
9	The amount at line 11 should include the amount relating to future years of account shown in a footnote as required by instruction 3 to Form 20 and exclude any amounts included in line 12.
10	The amount at line 12 should include amounts relating to <i>syndicate years</i> reinsured into the latest two years of account before the year end, but must exclude any <i>reinsurance to close</i> as at the end of the year end since these amounts are included in line 11.

R Instructions for completion of Form 17

1 Table

1	Form 17 must be completed in respect of each category for which a separate Form 13 is supplied.				
2	The codes specified in instruction 1 to Form 13 <i>are</i> to be used as appropriate.				
3	<i>Derivative</i> contracts must be analysed according to the description of assets shown in the second description column of Form 17, which represents the <i>principal</i> subject of the contract.				
4	<i>Derivative</i> contracts must be reported as assets in column 1 of Form 17 if their value to the <i>insurer</i> (gross of variation <i>margin</i>) is positive and as liabilities in column 2 of Form 17 if their value (gross of variation <i>margin</i>) to the <i>insurer</i> is negative.				
5	All amounts included at lines 11 to 35 of Form 17 in respect of <i>derivative</i> contracts must be as determined without making any allowance for variation margin.				
6	Amounts in respect of a <i>derivative</i> contract may only be included net of amounts in respect of any other <i>derivative</i> contract if : <table border="1" data-bbox="427 884 1444 1012"> <tr> <td>(a)</td> <td>obligations of the <i>insurer</i> under the contracts may be set off against each other under generally accepted accounting practice; and</td> </tr> <tr> <td>(b)</td> <td>such other contract has the effect (in whole or in part) of <i>closing out</i> the obligations of the <i>insurer</i> under the first mentioned contract.</td> </tr> </table>	(a)	obligations of the <i>insurer</i> under the contracts may be set off against each other under generally accepted accounting practice; and	(b)	such other contract has the effect (in whole or in part) of <i>closing out</i> the obligations of the <i>insurer</i> under the first mentioned contract.
(a)	obligations of the <i>insurer</i> under the contracts may be set off against each other under generally accepted accounting practice; and				
(b)	such other contract has the effect (in whole or in part) of <i>closing out</i> the obligations of the <i>insurer</i> under the first mentioned contract.				
7	The effect of any variation margin upon amounts included at lines 11 to 35 of Form 17 must be shown at line 41.				
8	The entry at 17.49.1 must be included at 13.44.1.				
9	The entry at 17.49.2 must be included at 15.49.1 or 14.38.1 as appropriate.				
10	Rights to recover assets transferred by way of <i>initial margin</i> must not be shown in Form 17

R Instructions for completion of Form 20

1 Table

1	The underwriting years commencing in the <i>financial years</i> shown between the columns headed “YY” and “Latest YY” must be in order (with the most recent year to the right) and correspond to the underwriting year commencing in this <i>financial year</i> and the previous underwriting years respectively.
2	Amounts must be analysed by year of account not by original underwriting year. A note to Form 20 must reconcile the consequential differences from amounts appearing in Form 24.
3	If any <i>syndicate year</i> has been <i>closed</i> into <i>the</i> year of account commencing after the year end and the <i>technical provision</i> is greater than the <i>reinsurance to close</i> for that <i>syndicate year</i> , (see Form 25 instruction 2) then the total of the amounts of the difference should be stated as a note to Form 20, <i>analysed</i> by accounting class.
4	The total of each row 11–21 and the amounts required to be stated by instruction 3 must equal the total in line 69 to Form 24.

R Instructions for completion of Form 24

1 Table

1	The underwriting years commencing in the <i>financial years</i> shown between the columns headed “29 29” and “99 99” must be in order (with the most recent year to the right) and correspond to the underwriting year commencing in this <i>financial year</i> and the previous nine underwriting years respectively.
2	The amount in line 53 must equal the amount in line 31 of Form 25.
3	Amounts in lines 11–29 and 39–51 relating to <i>syndicate years</i> that commenced in the <i>financial year</i> or the previous two <i>financial years</i> (including <i>syndicate years</i> that have been <i>closed</i> into those <i>syndicate years</i>) must be included in the forms relating to naturally <i>open years</i> . Amounts relating to other <i>syndicate years</i> must be included in the forms relating to run–off years.
4	For naturally <i>open years</i> , the amount at line 30 is the total of provisions for all <i>syndicate years</i> that remain <i>open</i> (that is: go into run–off) at the end of the 3rd <i>financial year</i> less any <i>reinsurance to close premiums</i> received from run–off years <i>closed</i> at the end of, or during, the <i>financial year</i> . For run–off years, the amount at line 30 is the total of any <i>reinsurance to close premiums</i> payable to close <i>syndicate years</i> into naturally <i>open years</i> less the total of provisions for all <i>syndicate years</i> that go into run–off. In each case a <i>syndicate year</i> includes <i>syndicate years closed</i> into that <i>syndicate year</i> . Amounts relating to <i>closed syndicate years</i> must be included in the column relating to the original underwriting year. The allocation of <i>reinsurance to close premiums</i> between accounting classes <i>and</i> original underwriting year may be done in any reasonable manner.
5	Amount shown in lines 21 to 29 must exclude <i>claims</i> management costs.
6	The amounts shown in lines 51 and 53 must exclude credit equalisation provisions.
7	The amounts shown at lines 11 to 49 must be payable or receivable <i>during</i> the <i>financial year</i> .

R Instructions for completion of Form 25

1 Table

1	The underwriting years commencing in the <i>financial years</i> shown between the columns headed “29 29” and “99 99” must be in order (with the most recent year to the right) and correspond to the underwriting year commencing in this <i>financial year</i> and the previous nine underwriting years respectively.
2	Line 31 must equal line 53 to Form 24. The amount included for each <i>syndicate year</i> should sum to the solvency provision, even (in the case of a closing <i>syndicate year</i>) if this exceeds the <i>reinsurance to close</i> .
3	Amounts relating to <i>syndicate years</i> that commenced in the <i>financial year</i> or the previous <i>financial year</i> (including <i>syndicate years closed</i> , or being <i>closed</i> , into those <i>syndicate years</i> and <i>syndicate years</i> being <i>closed</i> into the following <i>open</i> underwriting years) must be included in the forms relating to naturally <i>open</i> years. Other <i>syndicate years</i> must be included in the forms relating to run-off years.
4	Lines 11 to 14 must exclude <i>claims</i> management

R Instructions for completion of Form 29

1 Table

1	The underwriting years commencing in the <i>financial years</i> shown between the columns headed “29 29” and “99 99” must be in order (with the most recent year to the right) and correspond to the underwriting year commencing in this <i>financial year</i> and the previous nine underwriting years respectively.
2	The allocation of amounts in line 30 between categories and underwriting year may be done in any reasonable manner consistent with Form 25.
3	Amounts relating to <i>syndicate years</i> that commenced in the <i>financial year</i> or the previous <i>financial year</i> (including <i>syndicate years closed</i> , or being <i>closed</i> , into those <i>syndicate years</i> and <i>syndicate years</i> being <i>closed</i> into the following <i>open</i> underwriting years) must be included in the forms relating to naturally <i>open</i> years. Other <i>syndicate years</i> must be included in the forms relating to run-off years.
4	Lines 11 to 14 must exclude <i>claims</i> management costs.
5	The amounts shown in the first column must be analysed on continuation sheets by underwriting year for <i>financial years</i> ending after 31 December 2003.
6	The box marked “Business category” must be completed by inserting one of the letters “a” to “h” according to which of the sub-paragraphs of instruction 7 for completing Form 28 describes the business category to which the form relates.

2	Line 39 equals line 32 [line 21 0.1% + line22 0.15% + line 23 0.3%] for Classes I, II and IX.

R Certificate by the Council (see LLD 15.9.1R(1))

1 Table

1	<p>Subject to 5, the certificate required by LLD 15.9.1R(1) must state:</p> <p>(1) in relation to Forms 9 to 17, 20 to 42, the supplementary notes to the forms and the statements required under LLD 15.5.1R(3), LLD 15.6.1R and LLD 15.7.1R, LLD 15.8.1R, LLD 15.5.5R and LLD 15.8.8R, that:</p> <p>(a) the <i>Lloyd's Return</i> has been prepared in accordance with LLD 9 to 15;</p> <p>(b) proper accounting records have been maintained and adequate information has been obtained by the <i>Society</i>; and</p> <p>(c) an appropriate system of control has been established and maintained by the <i>Society</i> over its transactions and records;</p> <p>(2) that reasonable enquiries have been made by the <i>Society</i> for the purpose of determining whether any <i>persons</i> are connected for the purposes of LLD 9 to 15;</p> <p>(3) that, as applicable, the assets held by <i>members</i> throughout the <i>financial year</i> in question enabled the <i>Society</i> to comply with LLD 14.3.1R (Currency matching and localisation); and</p> <p>(4) in relation to the statement required by LLD 15.9.1R(2) to be made by the <i>Lloyd's actuary</i>, that:</p> <p>(a) for the purpose of preparing the statement, proper accounts and records have been maintained; and</p> <p>(b) the information given has been ascertained in conformity with LLD 15.9.1R.</p>
2	Subject to 5, the certificate required by LLD 15.9.1R(1) must state that the required margin has been maintained throughout the <i>financial year</i> in question.
3	<p>Subject to 5, the certificate required by LLD 15.9.1R(1) must also state in relation to the <i>long-term insurance business</i> carried on by <i>members</i>:</p> <p>(1) that the requirements of IPRU(INS) 3.1R to 3.5R have been fully complied with and in particular that, subject to the provisions of IPRU(INS) 3.2R(3), assets attributable to <i>long-term insurance business</i>, the income arising, the proceeds of any realisation of such assets and any other income or proceeds allocated to the <i>long-term insurance business</i> fund or funds have not been applied otherwise than for the purpose of the <i>long-term insurance business</i>;</p> <p>(2) that any amount payable from or receivable by the <i>long-term insurance business</i> fund or funds in respect of services rendered by or to any other business carried on by a <i>member</i> or by a <i>person</i> who, for the purposes of IPRU(INS) 3.4R, is connected with it or is a subsidiary undertaking of it has been determined and where appropriate apportioned on terms which are believed to be no less than fair to that fund or those funds, and any exchange of assets representing such fund or funds for other assets of the <i>member</i> has been made at fair market value;</p> <p>(3) that all guarantees given by a <i>member</i> of the performance by a related <i>insurer</i> which would fall to be met by any <i>long-term insurance business</i> fund have been disclosed in the <i>Lloyd's Return</i>, and that the fund or funds on which each of those guarantees would fall has been identified in it;</p> <p>(4) that the return in respect of <i>long-term insurance business</i> is not distorted by agreements between the <i>members</i> concerned or by any arrangements which could affect the apportionment of expenses and income; and</p> <p>(5) that IPRU(INS) 3.5R has been fully complied with.</p>
4	<p>Subject to 5, where the <i>Council</i> is satisfied that:</p> <p>(1) the systems of control established and maintained by <i>managing agents</i> complied, at the end of the <i>financial year</i> in question, with any relevant guidance and it is reasonable to believe that those systems continued so to comply and will continue to so comply; or</p>

-
- (2) the *Lloyd's Return* has been prepared in accordance with any relevant guidance; this must be so stated, by listing that guidance, in the certificate required by *LLD* 15.9.1R(1).
- 5 Where, in the opinion of those signing the certificate, the circumstances are such that any of the statements required by 1 to 4 cannot truthfully be made, the relevant statements must be omitted.
- 6 Where, by virtue of 5, any statements have been omitted from the certificate this fact must be stated in a note.

R Statement by the Lloyd's actuary (see LLD 15.9.1R(2))

1 Table

1	<p>The statement required by <i>LLD 15.9.1R(2)</i> must be prepared and signed by the <i>Lloyd's actuary</i>, and must:</p> <p>(1) state whether, for every <i>syndicate year</i> in which <i>members</i> carry on <i>general insurance business</i> either:</p> <p>(a) the <i>syndicate actuary</i> has provided an unqualified opinion, which:</p> <p>(i) is in a form conforming to guidance from the <i>actuarial bodies</i>; and</p> <p>(ii) confirms that the <i>technical provisions</i> set by the <i>managing agent</i> are at least equal to the <i>syndicate actuary's</i> best estimate; or</p> <p>(b) the <i>Lloyd's actuary</i> has set the <i>technical provisions</i> (both gross and net of reinsurance recoveries); and</p> <p>(2) describe any source of uncertainty in the liabilities covered by the <i>technical provisions</i>, which in his opinion is material to the <i>Society</i> as a whole:</p> <p>(a) which any <i>syndicate actuary</i> mentions in his opinion; or</p> <p>(b) which affects any <i>syndicate year</i> for which the <i>Lloyd's actuary</i> has set the <i>technical provisions</i>.</p>
2	<p>If the <i>Lloyd's actuary</i> has set the <i>technical provisions</i> for any <i>syndicate year</i>, the statement must include an opinion covering those <i>technical provisions</i>, which:</p> <p>(1) confirms that they are at least equal to his best estimate; and</p> <p>(2) is in a form conforming to guidance for <i>syndicate actuaries</i> from the <i>actuarial bodies</i>, modified to show:</p> <p>(a) that he is retained by the <i>Society</i> and not the <i>managing agent</i>;</p> <p>(b) that he, and not the <i>managing agent</i>, set the <i>technical provisions</i>; and</p> <p>(c) separately, the <i>technical provisions</i> of each <i>syndicate year</i> covered.</p>
3	<p>If the <i>Lloyd's actuary</i> considers it necessary, such qualification, amplification or explanation as may be appropriate must be added to the statement.</p>

R Certificate by syndicate actuary (see LLD 15.9.1R(3))

1 Table

1	<p>The certificate required by <i>LLD 15.9.1R(3)</i> to be signed by the <i>syndicate actuary</i> appointed to a <i>syndicate</i> in which <i>members</i> carry on <i>long-term insurance business</i> must state:</p> <ol style="list-style-type: none"> (1) whether in his opinion, proper records have been kept by the <i>managing agent</i> adequate for the purpose of the valuation of the liabilities of the <i>syndicate</i>; (2) whether the sum of the <i>mathematical reserves</i> and the deposits received from reinsurers as shown in Form 14 constitute proper provision at the end of the <i>financial year</i> for the <i>long-term insurance business liabilities</i> where these liabilities: <ol style="list-style-type: none"> (a) include any increase in liabilities arising from a distribution of surplus as a result of an investigation as at the end of the <i>financial year</i> into the financial condition of the <i>long-term insurance business</i>; and (b) include all liabilities arising from deposit back arrangements; but exclude liabilities which had fallen due before the end of the <i>financial year</i>, other than those arising from deposit back arrangements; (3) whether the liabilities have been valued in accordance with <i>LLD 9 to 15</i> in the context of assets valued in accordance with <i>LLD 9 to 15</i>, as shown in Form 14; (4) by way of a list, the professional guidance that has been complied with; (5) whether in his opinion, premiums for contracts entered into during the <i>financial year</i> and the income earned on them are sufficient on reasonable actuarial assumptions, taking into account other financial resources of the <i>members</i> and the <i>Society</i> that are available for the purpose, to enable the <i>members</i> to meet their commitments and, in particular, to establish adequate <i>mathematical reserves</i>; and (6) whether the amounts in Form 60 are accurate.
2	<p>If the <i>syndicate actuary</i> considers it necessary, such qualification, amplification or explanation as may be appropriate must be added to the certificate.</p>

R Auditors' report (see LLD 15.9.3R)

1 Table

1	<p>The report required by <i>LLD 15.9.3R</i> must, in addition to any statement required by section 237(2) and (3) of the Companies Act, state:</p> <p>(1) that in the auditors' opinion, Forms 9 to 17, 20 to 42, the supplementary notes to the forms and the statements required under <i>LLD 15.5.1R(3)</i>, <i>LLD 15.6.1R</i>, <i>LLD 15.7.1R</i>, and <i>LLD 15.8.1R</i> have been properly prepared in accordance with <i>LLD 9 to 15</i>;</p> <p>(2) that according to the information and explanations that the auditors have received:</p> <p>(a) in their opinion, the certificate required to be signed in accordance with <i>LLD 15.9.1R(1)</i>, otherwise than in relation to statements to which 1(3) relates, has been properly prepared in accordance with <i>LLD 9 to 15</i>; and</p> <p>(b) subject to 1(3), it was or was not unreasonable for the persons giving the certificate to have made the statements in it (other than statements to which 1(3) relates); and</p> <p>(3) the extent to which, in giving their opinion, the auditors have relied:</p> <p>(a) in respect of financial information supplied to the <i>Society</i> by <i>managing agents</i> on behalf of <i>syndicates</i>, on work carried out by <i>syndicate</i> auditors; and</p> <p>(b) in respect of <i>long term insurance business</i> carried on by <i>members</i>, on the certificates of the <i>syndicate actuaries</i> given in accordance with the requirements of <i>LLD 9 to 15</i> with respect to the amounts in Form 60.</p>
2	<p>The audit opinion required by 1(2)(a) does not extend to cover the statements required under:</p> <p>(1) <i>LLD 15.8.5R</i> and <i>LLD 15.8.8R</i>; and</p> <p>(2) <i>LLD 15 Annex 2R 1(4)</i>, but only in so far as it relates to relevant guidance which either states that compliance with the guidance need not be audited or which relates to controls with respect to money laundering.</p>
3	<p>To the extent that the information and explanations they have received do not allow the auditors to express an opinion on whether it was or was not unreasonable for the <i>Council</i> to have made the statement required by <i>LLD 15 Annex 2R 1(c)</i> the auditors must add to their report such qualification, amplification or explanation as may be appropriate.</p>
4	<p>Where the auditors refer in their report or in any note attached to their report to any uncertainty, the report must state whether, in the auditors' opinion, that uncertainty is material to determining whether the <i>Society</i> is able to meet the solvency requirements of <i>LLD 9 to 15</i>.</p>

R Accounting classes (see LLD 15.3.1R(2))

1 Table

1 For the purposes of *LLD* 9 to 15, the accounting classes for *general insurance business* are those set out in the following table:

2 Table Accounting classes

Accounting class	Description	Corresponding classes of <i>general insurance business</i>
1	Accident and health	1 (other than 1(p) and 2
2	Motor	1(p), 3 and 10
3	Aviation	1(p), 5 and 11
4	Marine	1(p), 6 and 2
5	Transport	7
6	Property	4, 8, and 9
7	Third party liability	13
8	Miscellaneous and pecuniary loss	14, 15, 16, 17 and 18
9	Non proportional treaty	
10	Proportional treaty	
11	Marine, aviation and transport treaty	

Handbook Modules

Schedule 1G Lloyd's sourcebook - Record keeping requirements

- 1 The aim of the guidance in the following table is to give the reader a quick overall view of the relevant record keeping requirements.
- 2 It is not a complete statement of those requirements and should not be relied on as if it were.
- 3

Table	Record keeping requirements
-------	-----------------------------

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
LLD 1.2.2G(1)	Delegation of responsibility for carrying out the <i>Society's regulatory functions</i>	Not specified	Not specified	Not specified
LLD 1.2.4G(2)	Records of any committee with delegated authority to carry out the <i>Society's regulatory functions</i>	Should include minutes of its meetings	Not specified	Not specified
LLD 1.2.5G(2)	An individual's or other <i>person's</i> exercise of his delegated authority to carry out the <i>Society's regulatory functions</i>	Not specified	Not specified	Not specified
LLD 1.3.10G(1)	Interests of those involved in carrying out the <i>Society's regulatory functions</i>	Register of interests	Not specified	Not specified
LLD 1.3.10G(2)	Conflicts of interest of those involved in carrying out the <i>Society's regulatory functions</i>	Disclosures of conflicts of interest and the steps taken to handle them	Not specified	Not specified
LLD 4.2.3G(1)	Transactions in the <i>capacity transfer market</i>	Adequate audit trails	Not specified	Not specified
LLD 5.2.3G	Notifications made to the <i>Society</i> by, or on behalf of, certain <i>persons</i> who have ceased to be <i>underwriting members</i>	Changes of address and deaths of certain <i>persons</i> who have ceased to be <i>underwriting members</i>	Not specified	Not specified

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
<i>LLD 7.3.1G</i> <i>LLD 7.3.2G</i>	Complaints from <i>members</i> or <i>former members</i> involving allegations that they have suffered, or may suffer, financial loss, material distress or material inconvenience	Not specified	Not specified	Minimum period of 3 years from receipt of complaint
<i>LLD 9.4.5R</i>	Accounting records	Sufficient to demonstrate compliance with <i>LLD 9</i> to <i>15</i>	As required in accordance with <i>LLD 9</i> to <i>15</i>	Normally not less than 10 years
<i>LLD 10.8.3G(4)</i>	<i>Managing agents'</i> records	Various records and analyses of underwriting and claims	Not specified	Not specified

Handbook Modules

Schedule 2G Lloyd's sourcebook - Notification requirements

- 1 The aim of the guidance in the following table is to give the reader a quick overall view of the relevant requirements for notifications and reporting.
- 2 It is not a complete statement of those requirements and should not be relied on as if it were.
- 3

Table	Notification requirements
-------	---------------------------

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
<i>LLD 2.3.1D</i>	Any matter likely to be of material concern to the <i>FSA</i> in relation to the <i>regulated activities</i> for which the <i>Society</i> has permission; or <i>underwriting agents</i> ; or <i>approved persons</i> or individuals acting for or on behalf of <i>underwriting agents</i>	Includes but is not limited to matters listed in <i>LLD 2.3.4G</i>	The <i>Society</i> becomes aware of the matter	Immediate
<i>LLD 2.4</i>	Commencement, continuation and cessation of relevant investigations and disciplinary proceedings	Commencement, continuation and cessation of investigations and disciplinary proceedings listed in <i>LLD 2.4.1D</i> , <i>LLD 2.4.2D</i> and <i>LLD 2.4.3G</i>	End of each calendar month	5 business days
<i>LLD 2.6.2G</i> <i>LLD 2.6.3G</i>	Proposed changes in <i>byelaws</i> for supervising and regulating the market at Lloyd's	Details of proposed changes, consultation undertaken and responses to consultation	Not specified	The <i>FSA</i> should be given adequate notice
<i>LLD 2.6.4G</i>	Regulatory and market bulletins; and all amendments to <i>byelaws</i>	Copies of bulletins and amendments	Publication	Immediate

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
LLD 3.3	Information about the <i>Central Fund</i>	Information on the <i>Central Fund's</i> net market value, payments, investments, changes in any insurance policy and any claims on the latter, or circumstances likely to lead to a claim	End of each calendar quarter	2 weeks
LLD 4.3	Information about the <i>capacity transfer market</i>	Capacity transferred, investigations into conduct in the <i>capacity transfer market</i> , and all complaints received	End of each calendar quarter in which any capacity is transferred	1 month
LLD 7.4	Information about certain complaints from <i>members</i> and <i>former members</i>	Number, nature, resolution and referral of these complaints	End June and end December	1 month
LLD 10.4	Intention to approve or amend a trust deed	New trust deed and proposed amendment, plus a statement of the purpose of the deed/amendment and an analysis of its impact	The <i>Society</i> intends to approve or amend a trust deed	Sufficient time for the <i>FSA</i> to consider proposals before <i>Society</i> approval
LLD 10.5.2G	Material changes proposed to risk-based capital system	Details of proposed changes	The <i>Society</i> intends to make amendments to risk-based capital system maintained under <i>LLD 10.5.1R</i>	Adequate time for the <i>FSA</i> to review proposals and assess their implication
LLD 10.5.4G	Independent reviews commissioned by the <i>Society</i> of the operation of the RBC model	Results of each review	Completion of the review	Not specified
LLD 10.6	Reviews of aggregations of risk and plans for monitoring aggregations of risk	Discussion	Completion of regular reviews	Not specified
LLD 10.9.5R	A <i>syndicate actuary</i> of a <i>general insurance business syndicate</i> will or may be unable to provide an unqualified opinion under <i>LLD 10.9.4R(3)(b)</i>	Not specified	The <i>Society</i> becomes aware	Prompt notification

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
<i>LLD 11.2.4R</i>	If the solvency requirements of <i>LLD 11.2.1R</i> are not maintained	A plan for the restoration of a sound financial position	The <i>Society</i> becomes aware	Prompt notification
<i>LLD 11.2.11R</i>	If criterion similar to the <i>guarantee fund</i> requirement for <i>insurers</i> is not maintained	A short-term financial scheme similar to that required from <i>insurers</i> under <i>SUP</i> , Appendix 2 1.4	The <i>Society</i> becomes aware	Prompt notification
<i>LLD 15</i>	<i>Lloyd's Return</i> and Lloyd's global account	Detailed reports in accordance with the requirements of <i>LLD 15</i> and its Annexes	End of each <i>financial year</i>	6 months

Schedule 3G Lloyd's sourcebook - Fees and other required payments

- 1 There are no requirements for fees or other payments in LLD.

Handbook Modules

Schedule 4G Lloyd's sourcebook - Powers exercised

- 1 The following powers have been exercised by the FSA to make LLD.
- 2 The rules in LLD 3 to LLD 5 and LLD 7 to LLD 15 are made under section 138 of the Act (General rule-making power).
- 3 The directions in LLD 2 are given under section 318 of the Act (Exercise of powers through Council).
- 4 The direction in LLD 6 is given under section 316 of the Act (Direction by Authority).
- 5 The guidance is given under section 157(1) of the Act (Guidance).

Handbook Modules

Schedule 5G Lloyd's sourcebook - Rights of action for damages

- 1 The table below sets out the rules in LLD contravention of which by an authorised person may be actionable under section 150 of the Act (Actions for damages) by a person who suffers loss as a result of the contravention.
- 2 If a "Yes" appears in the column headed "For private person?", the rule may be actionable by a "private person" under section 150 (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001 No 2256)). A "Yes" in the column headed "Removed" indicates that the FSA has removed the right of action under section 150(2) of the Act. If so, a reference to the rule in which it is removed is also given.
- 3 The column headed "For other person?" indicates whether the rule may be actionable by a person other than a private person (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of person by whom the rule may be actionable is given.
- 4

Table	Rights of action for damages

Chapter 1

Professional firms

1.1 Application and Purpose

Application

- 1.1.1** **R** This sourcebook applies as follows:
/1
- (1) *PROF 1 to PROF 4 apply to exempt professional firms; and*
 - (2) *PROF 5 applies to authorised professional firms.*

- 1.1.2** **G** This sourcebook is also relevant to *designated professional bodies*.
/1

Purpose

- 1.1.3** **G** Under Part XX of the *Act* (Provision of Financial Services by Members of the Professions) certain individuals, partnerships or corporate entities, known as *exempt professional firms*, can carry on particular *regulated activities* (which the *Act* terms *exempt regulated activities*) under supervision and regulation by *designated professional bodies*.
/1

- 1.1.4** **G** This sourcebook outlines:
/1
- (1) the arrangements for designation of professional bodies;
 - (2) the conditions for activities to be treated as *exempt regulated activities* (see *PROF 2.1.3G*);
 - (3) the *FSA's* duty to keep itself informed about how *designated professional bodies* supervise and regulate the *exempt regulated activities* of *exempt professional firms* and how *exempt professional firms* carry on *exempt regulated activities*;
 - (4) the *FSA's* power under section 328 of the *Act* (Directions in relation to the general prohibition) to make a direction to deny the exemption to different classes of *person* or to different descriptions of *regulated activity*;
 - (5) the implications for an *authorised professional firm* that carries on *non-mainstream regulated activities*.

- 1.1.5** **G** This sourcebook also contains disclosure *rules* made by the *FSA* under the power conferred by section 332(1) of the *Act* (Rules in relation to persons to whom the general prohibition does not apply). These *rules* apply to *exempt professional*
/1

firms for the purpose of ensuring that their *clients* are made aware that *exempt professional firms* are not *authorised persons*.

1.1.6

G

/1

The *rules* and *guidance* in this sourcebook are intended to:

- (1) assist the protection of *clients* of *exempt professional firms* by ensuring that the *FSA* has information which allows it to keep under review the exercise of the direction power under section 328 of the *Act* (see *PROF* 1.1.4G(4));
- (2) promote public understanding of the *financial system* by ensuring that the *clients* of an *exempt professional firm* are made aware that the firm is not an *authorised person*; and
- (3) enable the *FSA* to use its resources in an efficient and effective way in the collection of information relevant to its duty to keep itself informed under section 325 of the *Act* (*Authority's general duty*).

Chapter 2

2

Status of exempt professional firm

2.1 Designated professional bodies and exempt regulated activities

Designated professional bodies

- 2.1.1** G_{/1} The Treasury designates professional bodies. Section 326 of the *Act* (Designation of professional bodies) sets out the conditions a body must satisfy before it can be designated.
- 2.1.2** G_{/1} The professional bodies that have been designated by the Treasury are listed in *PROF 2 Ann 1G*.

Exempt regulated activities

- 2.1.3** G_{/1} Section 327 of the *Act* (Exemption from the general prohibition) sets out the conditions which must be met for a *person* to be treated as an *exempt professional firm*, and for the *person's regulated activities* to be treated as *exempt regulated activities*. If the exemption in section 327 does not apply to a *person* and the *person* carries on a *regulated activity*, the *person* may contravene the *general prohibition* and be committing a criminal offence. The *FSA's* approach to the use of its powers in respect of alleged contraventions of the *general prohibition* is explained in *ENF 15*.
- 2.1.4** G_{/1} If the *FSA* has made a direction under section 328 of the *Act* (Directions in relation to the general prohibition) (see *PROF 3.2*) in relation to classes of *person* (or *regulated activity*), then a *person* within the class (or carrying on the *regulated activity*) specified will not be an *exempt professional firm*. In addition, section 329 of the *Act* (Orders in relation to the general prohibition) gives the *FSA* power to make an order disapplying the Part XX exemption from a *person* named in the Order. The *FSA's* general approach to the use of this power is explained in *ENF 18*.
- 2.1.5** G_{/1} Section 327(2) provides that an *exempt professional firm* must be a *member* of a profession or be controlled or managed by one or more *members*.
- 2.1.6** G_{/1} The effect of section 327(7) of the *Act* is that an *exempt professional firm* can carry on *regulated activities* in that capacity or as an *exempt person* but not otherwise. Therefore, an *exempt professional firm* cannot be an *authorised person*.
- 2.1.7** G_{/1} The *Act* does not, however, prevent an *exempt professional firm* from carrying on, in addition to *exempt regulated activities*, any *regulated activities* in relation to which it is an *exempt person*. For example, it is possible for an *exempt professional firm* to carry on *regulated activities* as an *appointed representative*.

- 2.1.8** G
/1 Section 327 also sets out the conditions which determine the particular *regulated activities* an *exempt professional firm* may carry on.
- 2.1.9** G
/1 Section 327(6) of the *Act* gives the Treasury power to make an order specifying activities, or activities relating to specified *investments*, that a *person* cannot carry on as an *exempt professional firm*. The relevant order is listed in *PROF 2 Ann 2G*.
- 2.1.10** G
/1 Section 332(3) of the *Act* requires a *designated professional body* to make rules that define the particular *regulated activities* which its *members* are allowed to carry on. Section 332(4) of the *Act* provides that those rules must be designed to secure that, in providing a particular professional service to a particular *client*, a *member* must carry on only *regulated activities* which arise out of, or are complementary to, the provision by the *member* of that professional service to the *client*.
- 2.1.11** G
/1 The *FSA* is required to approve the rules *designated professional bodies* make under section 332(3) of the *Act*. These rules must be in place in order to allow a *person* to be an *exempt professional firm*. They add to the other conditions within section 327 but do not override them, and a firm may need to refer to section 327 if it is in doubt whether an activity is an *exempt regulated activity*.
- 2.1.12** G
/1 Section 327(3) deals with the treatment by a firm of a pecuniary reward or other advantage received from anyone other than the firm's *client*. For a *regulated activity* to be treated as an *exempt regulated activity*, the firm must account to its *client* for any such receipt. The *FSA* considers this to mean that an *exempt professional firm* must hold to the order of its *client* any such reward or other advantage that it receives.
- 2.1.13** G
/1 Section 327(4) states that the manner of the provision of any service in the course of carrying on *regulated activities* must be incidental to the provision by the *exempt professional firm* of professional services. For this purpose, professional services are services which do not constitute carrying on a *regulated activity*, and the provision of which is supervised and regulated by a *designated professional body*.
- 2.1.14** G
/1 The *FSA* considers that to satisfy the condition in section 327(4) *regulated activities* cannot be a major part of the practice of the firm. The *FSA* also considers the following further factors to be among those that are relevant:

 - (1) the scale of *regulated activity* in proportion to other professional services provided;
 - (2) whether and to what extent activities that are *regulated activities* are held out as separate services; and
 - (3) the impression given of how the firm provides *regulated activities*, for example through its advertising or other promotions of its services.
- 2.1.15** G
/1 The *FSA's* view is that, in the context of section 327 as an exemption from the *general prohibition*, the conditions in section 327 should be interpreted as not imposing any restriction on the *regulated activities* that an *exempt professional firm* may carry on outside the *United Kingdom*. For further guidance on when a *regulated activity* is carried on 'in the *United Kingdom*', *exempt professional firms* are referred to section 418 of the *Act* and the *guidance* in *AUTH 2.4*.

Status of exempt professional firm G

1 Table Designated professional bodies (see PROF 2.1.2G)

On 28 March 2001 the following professional bodies were designated by the Treasury under section 326(1) of the *Act*:

- the Law Society
- the Law Society of Scotland
- the Law Society of Northern Ireland
- the Institute of Chartered Accountants in England and Wales
- the Institute of Chartered Accountants of Scotland
- the Institute of Chartered Accountants in Ireland
- the Association of Chartered Certified Accountants
- the Institute of Actuaries

Status of exempt professional firm G

1 Table Non Exempt activities orders under section 327(6) of the Act (see PROF 2.1.9G)

As at 21 June 2001 the Treasury had made the following order under section 327(6):

The Financial Services and Markets Act 2000 (Professions)
(Non-Exempt Activities) Order 2001 (SI 2001/1227)

Chapter 3

The FSA's duties and powers

3.1 The FSA's duty to keep itself informed

3.1.1

G
/1

Section 325 of the *Act* (Authority's general duty) imposes on the *FSA* a duty to keep itself informed about:

- (1) the way in which *designated professional bodies* supervise and regulate the carrying on of *exempt regulated activities* by *exempt professional firms*; and
- (2) the way in which *exempt professional firms* carry on *exempt regulated activities*.

3.1.2

G
/1

The *FSA* keeps itself informed in a number of ways. A *designated professional body* has a duty under section 325(4) of the *Act* to cooperate with the *FSA*. The *FSA* envisages it will make arrangements with each of the *designated professional bodies* about the information they provide to it, to include information about:

- (1) complaints and redress arrangements;
- (2) complaints volumes and their analysis;
- (3) disciplinary action;
- (4) supervisory activity; and
- (5) the activities carried on by *exempt professional firms*, the risks arising from them and how they are mitigated, for example by monitoring activity or training and competence arrangements.

3.1.3

G
/1

Information may also be obtained from *exempt professional firms*, government departments, trade bodies, consumer organisations and *clients* of *exempt professional firms*. The *FSA* may also commission or carry out reviews of the supervisory and regulatory activities of a *designated professional body* and commission or carry out research about, or surveys of, *exempt professional firms* or their *clients*.

3.2 The FSA's power to make a direction

- 3.2.1** **G**
/1 Section 328 of the *Act* (Directions in relation to the general prohibition) gives the FSA power to make a direction that the exemption under section 327 of the *Act* (see *PROF* 2.1.3G) does not apply to the extent specified in the direction. Section 328 allows the FSA to make a direction in relation to different classes of *person* or different descriptions of *regulated activity*.
- 3.2.2** **G**
/1 If the FSA gives a direction in relation to specified classes of *person*, then any *person* within those classes may be in contravention of the *general prohibition* unless:

 - (1) it ceases to carry on *regulated activities*; or
 - (2) it is an *authorised person*; or
 - (3) it is an *exempt person*.
- 3.2.3** **G**
/1 A direction might also cover classes of *persons* who are *members* of different *designated professional bodies*.
- 3.2.4** **G**
/1 Were the FSA to give a direction in relation to a description of *regulated activity* (for example, *dealing in investments as agent*), then that activity could no longer be carried on within the terms of the exemption.
- 3.2.5** **G**
/1 The FSA may exercise its direction power only if it is satisfied that it is desirable in order to protect the interests of *clients*. In considering whether it is satisfied, the FSA is required by section 328(7) of the *Act* to have regard, among other things, to the effectiveness of any arrangements made by a *designated professional body*:

 - (1) for securing compliance with *rules* made under section 332(1) of the *Act* (see *PROF* 4.1.1G);
 - (2) for dealing with complaints against its *members* in relation to the carrying on by them of *exempt regulated activities* (see *PROF* 4.1.4G(2)(d));
 - (3) in order to offer redress to *clients* who suffer, or claim to have suffered, loss as a result of misconduct by its *members* in their carrying on of *exempt regulated activities* (see *PROF* 4.1.4G(2)(d)); and
 - (4) for cooperating with the FSA under section 325(4) of the *Act* (see *PROF* 3.1.2G).
- 3.2.6** **G**
/1 Section 330 of the *Act* (Consultation) sets out procedures which the FSA must follow if it wishes to make a direction. Except as specifically provided in section 330:

 - (1) the FSA must consult publicly on its proposed direction;

3.2.7

G
/1

- (2) the *FSA* must have regard to any representations made in response to the consultation; and
- (3) if the *FSA* then gives the proposed direction, it must publish an account of the representations made and its response to them.

The directions the *FSA* has made under section 328 are set out in *PROF 3 Ann 1G*.

The FSA's duties and powers G

1 Table Directions made by the FSA under section 328 of the Act (see PROF 3.2.7G)

As at 21 June 2001 the *FSA* had made no directions under section 328 of the *Act*.

Chapter 4

Disclosure

4.1 Disclosure rules

- 4.1.1** **G** _{/1} The effectiveness of arrangements made by a *designated professional body* for securing compliance with the *rules* in this chapter is one of the factors that the *FSA* must take into account in considering whether to exercise its power to give a direction under section 328 of the *Act* (see *PROF 3.2.5G*).
- 4.1.2** **R** _{/1} **An exempt professional firm must avoid making any representation to a client that:**
- (1) it is authorised under the *Act* or regulated by the *FSA*; or
 - (2) the regulatory protections provided by or under the *Act* to a *person* using the services of an *authorised person* are available.
- 4.1.3** **R** _{/1} **An exempt professional firm must, before it provides a service which includes the carrying on of a regulated activity in the United Kingdom with or for a client, disclose in writing to the client in a manner that is clear, fair and not misleading that it is not authorised under the Act.**
- 4.1.4** **G** _{/1}
- (1) The *FSA* considers that material provided to satisfy *PROF 4.1.3R* need not be tailored to the individual *client*. The disclosure may be provided alongside or integrated with other material provided to a *client*. *Exempt professional firms* may therefore include the information within engagement letters or client care letters, if they wish.
 - (2) The *FSA* considers that it is important that *clients* understand the implications for them of receiving services from an *exempt professional firm* that is not authorised under the *Act*. The *FSA* therefore expects *designated professional bodies* to make rules covering the information to be provided to *clients*. These rules should require *exempt professional firms* to make a disclosure to *clients* containing the following elements:
 - (a) a statement that the *exempt professional firm* is not an *authorised person*;
 - (b) the nature of the *regulated activities* carried on by the *exempt professional firm*, and the fact that they are limited in scope;
 - (c) a statement that the *exempt professional firm* is regulated for these *regulated activities* by the *exempt professional firm's designated professional body*, identifying the *designated professional body* concerned; and
 - (d) the nature of the complaints and redress mechanisms available to *clients* in respect of these *regulated activities*.

- (3) *Exempt professional firms* should also ensure that any statement that makes reference to the *FSA* does not lead a *client* to suppose that the *FSA* has direct regulatory responsibility for the *exempt professional firm*. This could be a breach of *PROF 4.1.2R*.

4.1.5

G

/1

For further guidance on when a *regulated activity* is carried on ‘in the *United Kingdom*’, *exempt professional firms* are referred to section 418 of the *Act* and the *guidance* in *AUTH 2.4*.

Chapter 5

Non-mainstream regulated activities

5.1 Application and Purpose

Application

- 5.1.1 **R** This chapter applies to an *authorised professional firm* that carries on *non-mainstream regulated activities*.

/1

Purpose

- 5.1.2 **G** This chapter:
- (1) contrasts "*exempt regulated activities*" with "*non-mainstream regulated activities*";
 - (2) sets out the conditions which must be satisfied for a *regulated activity* of an *authorised professional firm* to constitute a *non-mainstream regulated activity*; and
 - (3) refers to other parts of the *Handbook* in which provisions are disapplied or modified in relation to *authorised professional firms* when carrying on *non-mainstream regulated activities*.

/1

Exempt regulated activities contrasted with non-mainstream regulated activities

- 5.1.3 **G**
- (1) The FSA's policy is designed to provide so far as possible a level playing field for authorised and unauthorised members of the professions in relation to the carrying on of similar activities.
 - (2) Subject to conditions (see *PROF 2*), members of *designated professional bodies* that are not authorised can carry on particular *regulated activities*, known as *exempt regulated activities*, and obtain the benefit of the exemption under section 327 of the *Act* from the *general prohibition*.
 - (3) In contrast, *non-mainstream regulated activities* are particular *regulated activities* carried on by an *authorised professional firm*. If the *professional firm* were not authorised under the *Act*, these same activities would be *exempt regulated activities* which, if the *firm* could meet the necessary conditions in section 327, would enable it to benefit from the section 327 exemption.

/1

5.1.4

G
/1

(4) Therefore, a number of provisions of the *Handbook* (see *PROF 5.3*) have been disapplied or modified in respect of these *non-mainstream regulated activities* of *authorised professional firms*.

A "non-mainstream regulated activity" is defined in the *Glossary* as "a regulated activity of an *authorised professional firm* in relation to which the conditions in *PROF 5.2.1R* are satisfied". Conditions (1) to (5) of *PROF 5.2.1R* replicate section 327(1)(b)(i), (3), (4), (5) and (6) of the *Act*, as if those conditions applied to an *authorised professional firm*.

5.2 Nature of non-mainstream regulated activities

Conditions for non-mainstream regulated activity

5.2.1

R

/1

A "*non-mainstream regulated activity*" is a *regulated activity* of an *authorised professional firm* in relation to which the following conditions are satisfied:

- (1) the *firm* must not receive from a *person* other than his client any pecuniary reward or other advantage, for which he does not account to his client, arising out of the carrying on of the *regulated activity*;
- (2) the manner of the provision by the *firm* of any service in the course of carrying on the *regulated activity* must be incidental to the provision by it of professional services (see *PROF 5.2.2R*);
- (3) the *regulated activity* must not be of a description, or relate to an investment of a description, specified in The Financial Services and Markets Act 2000 (Professions) (Non-Exempt Activities) Order 2001 (SI 2001/1227) or in any other order made by the Treasury under section 327(6) of the *Act* (see *PROF 2 Annex 2G*);
- (4) there must not be in force any direction under section 328 of the *Act* (Directions in relation to the general prohibition) in relation to:
 - (a) a class of *person* which would have included the *firm* were it not an *authorised person*; or
 - (b) a description of *regulated activity* which includes the *regulated activity* the *firm* proposes to carry on; and
- (5) the *regulated activities* must be activities which *exempt professional firms* which are *members* of the same *designated professional body* as the *authorised professional firm* are permitted to carry on under rules made by that body as required by section 332(3) of the *Act*.

5.2.2

R

/1

In *PROF 5.2.1R(2)*, "professional services" means services:

- (1) which do not constitute a *regulated activity*; and
- (2) the provision of which is supervised and regulated by a *designated professional body*.

5.3 Reference to sourcebooks and manuals

Introduction

- 5.3.1** **G**_{/1} Parts of the *Handbook* in which provisions are disapplied or modified in relation to *authorised professional firms* when carrying on *non-mainstream regulated activities* include those described in *PROF 5.3.2G* to *PROF 5.3.5G*.

Conduct of business sourcebook

- 5.3.2** **G**_{/1} *COB 1.2.1R(4)* provides that *COB* does not apply to an *authorised professional firm* with respect to its *non-mainstream regulated activities* except for *COB 2.1* (Clear, fair and not misleading communication), *COB 3* (Financial promotion) and *COB 4.2.1R-COB 4.2.6G*, *COB 4.2.9R-COB 4.2.11E* and *COB 4.2.15E(26)* (Terms of business and client agreements with customers).

The Training and Competence sourcebook

- 5.3.3** **G**_{/1} *TC 2.1.1R(2)* provides that chapter 2, which imposes the substantive training and competence requirements, does not apply to an *authorised professional firm* with respect to its *non-mainstream regulated activities*.

The Money Laundering sourcebook

- 5.3.4** **G**_{/1} *ML 8.1.3R* provides that the Money Laundering sourcebook does not apply to *authorised professional firms* when carrying on *non-mainstream regulated activities*.

Supervision manual

- 5.3.5** **G**_{/1} *SUP 10.1.18R* provides that *SUP 10* (Approved persons), does not apply (except in respect of the *required functions*) to an *authorised professional firm* in respect of its *non-mainstream regulated activities*. So a person such as a *partner*, whose only *regulated activities* are incidental to his professional services, in an *authorised professional firm* whose principal purpose is to carry on activities other than *regulated activities*, need not be an *approved person*.

Annex A: Extract from the Building Societies Act 1986	16
Annex B: Form of Application for the Right to Obtain Access to the Register of Members of a Building Society	20

1.1 Introduction

- 1.1.1 This chapter gives guidance to building societies, and to those members of building societies considering making an application to the FSA about the exercise of the right to obtain access to the registers of members of building societies. This right is governed by the provisions of paragraph 15 of Schedule 2 to the 1986 Act. Since the functions under paragraph 15 of Schedule 2 to the 1986 Act have not been amended by the Act, there is no material change in this guidance compared with the procedure and practice previously adopted by the Commission.
- 1.1.2 This guidance is not a definitive interpretation of the 1986 Act. That is a matter for the courts.

1.2 Registers of Members

- 1.2.1 Each society is under a statutory obligation to maintain a register of its members (although the form in which it is maintained is at the discretion of the society). The register must show each member's name and address and whether that person is a shareholding member or a borrowing member. The register must be kept at the society's principal office or such other place or places as the society's directors think fit.
- 1.2.2 Companies are under a statutory obligation to make their share registers available for inspection by the general public. There is no equivalent obligation on building societies with respect to the registers of their members. A society is not required to allow access to its register other than in the circumstances provided for in paragraph 15 of Schedule 2 to the 1986 Act. Except to the limited extent that access is permitted under that paragraph, a society's register of members is confidential (and subject to data protection legislation).
- 1.2.3 There are two principal reasons for the confidentiality of the registers of members of building societies. First, it is to protect the privacy of members, whether individually or generally, so the fact that a person is either a shareholder in or a borrower from a

particular society (or both) is not subject to indiscriminate disclosure. Second, it is to protect the commercial interests of societies given that it could be to their competitive disadvantage if the identities of their shareholding and borrowing members, who are their customers, were readily available to competitor organisations (the identity of whose customers is not so available).

1.2.4 However, building societies are mutual associations of members. As such, it is in principle reasonable for members to be able to pursue a direct interest in the business and management of “their” society and to get in touch with each other on matters of mutual concern.

1.2.5 Within the framework set out in paragraph 15 of Schedule 2 to the 1986 Act, it is the responsibility of the FSA to balance the rights of individual members generally to privacy, and of societies to commercial confidentiality, with the reasonable right of particular individual members to get in touch with each other on matters relating to the affairs of their society. The confidentiality of the information held on the register can be set aside only where the applicant can make out the case within the exceptional circumstances described in paragraph 15 of Schedule 2. In the opinion of the FSA, the exception is to be considered as much a privilege as a right.

1.3 Statutory Framework

1.3.1 Paragraph 15 of Schedule 2 to the 1986 Act governs when and how access to the register of members of a building society may be obtained. Subject to the exception provided for in paragraph 15(1) of Schedule 2, access may only be granted on a direction by the FSA. Paragraph 15(2) of Schedule 2 provides that a member may, if qualified to do so, make a written application to the FSA to exercise the right to obtain members’ names and addresses from the register of the society of which he or she is also a member, for the purposes of communicating with those other members of the society on a subject relating to its affairs. The text of the relevant legislation is at Annex A.

- 1.3.2 Paragraph 15(1) of Schedule 2 provides for an exception to the requirement to make an application to the FSA. Where the FSA has cancelled a society's permission to accept deposits and the society has not had its permission reinstated by the FSA, a member of that society has the right to obtain the names and addresses of its members from the register without application to the FSA. In this case, the applicant is not required to have been a member for any specified period but the minimum shareholding or minimum mortgage debt requirements described in paragraph 1.3.3 may still apply.
- 1.3.3 A member is qualified for the purposes of obtaining access under paragraph 15(1) or (2) of Schedule 2 if, under the rules of the society, he or she may join in a members' requisition for a special meeting or in nominating a person for election as a director. This means that the applicant must be an investing or borrowing member of the society. If the society's rules prescribe a minimum investment or mortgage debt the member must hold shares or have a mortgage debt of at least that amount. The minimum cannot exceed £100 in either case (which figure the Treasury may change by Order). In cases covered by paragraph 15(2) of Schedule 2, the society may also require the applicant to have been a member for such period as may be specified in its rules. In most cases this is two years (the maximum permitted by the 1986 Act).
- 1.3.4 An application under paragraph 15(2) of Schedule 2 is subject to the payment of a reasonable fee, currently £25, to the FSA. Where an application is made, the FSA may direct the society to give the member access to the register provided the FSA is satisfied that:
- (1) the applicant requires the right for the purposes of communicating with members of the society "*on a subject relating to its affairs*"; and
 - (2) the applicant has not, since making the application, voluntarily ceased to be a member of the society.
- 1.3.5 The FSA must also have regard to "*the interests of the members as a whole*" and "*to all the other circumstances*".

- 1.3.6 If access is granted it may only be used to obtain the names and addresses of members for the purposes of communicating with them on a subject relating to its affairs (see also paragraphs 1.5.10 to 1.5.12).
- 1.3.7 Before giving a direction, the FSA is required to give particulars of the application to the building society concerned and to give it the opportunity to make representations. If either the applicant or the society so requests, the FSA must give both the opportunity of being heard by it.
- 1.3.8 A direction given by the FSA may be subject to such limitation or conditions as the FSA may think fit.
- 1.3.9 If the FSA directs that the applicant shall have the right to obtain access to the register, the applicant may apply in writing to the society, describing the subject on which it is proposed to communicate with other members of the society. The society is required to give the applicant all necessary information as to where the register is kept and reasonable facilities (including office accommodation) for inspecting it and taking copies of any names and addresses.
- 1.3.10 The applicant only has the right to take names and addresses from the register. A society may make the information from the register available to an applicant in such a way that only those names and addresses are disclosed.
- 1.3.11 Information obtained by the applicant from the register of the society concerned and relating to a member of that society may not be disclosed to any other persons without the consent of that member whose name and address has been taken from the register. Nor may it be disclosed for purposes not connected with the purposes given at the time the FSA made its direction. Contravention of these requirements is a criminal offence.
- 1.3.12 Paragraph 6 of Schedule 14 to the 1986 Act provides that any dispute as to the rights of a member under paragraph 15 of Schedule 2 shall be referred to the FSA and

treated as a reference to arbitration; and its award shall have the same effect as that of an arbitrator in a reference under paragraph 4(1) of Schedule 14.

1.4 Making an Application

1.4.1 Applications must be made to the FSA in writing in the form of Annex B to this chapter.

1.4.2 Each application must be accompanied by the prescribed fee, which is currently £25 (cheques should be made payable to the Financial Services Authority). This fee is not refundable in any circumstances.

1.4.3 Should an applicant wish to obtain access to the registers of more than one society (the applicant must, of course, be a qualified member of each of them), there must be a separate application, for each of which a separate fee must be paid.

1.4.4 The FSA will acknowledge all applications within 5 working days of receipt.

1.4.5 To assist the FSA in its consideration of an application, and the society in making any representations on it, the application should set out clearly and concisely the issues about which the applicant wishes to communicate with other members and the purposes in doing so. In addition to this statement, the FSA requires at the time of the initial application a draft of the communication that would be sent should the FSA direct the society to give the applicant access to the register.

1.4.6 Without prejudice to its consideration of an application in any particular case, applicants should note the following general guidelines when preparing an application:

- (1) the FSA will expect the member making the application to have read carefully the relevant provisions of the 1986 Act and this chapter;

- (2) it is important to be specific about the purpose of the application, how it relates to the affairs of the society and why and how access to the register of members is necessary to achieve the applicant's objective;
- (3) an applicant should think carefully about the purpose and content of the proposed communication before making the application so as to minimise the need for substantive changes to it at a later date;
- (4) an application may be supported by such information or documents as the applicant may wish, but these will be considered to form part of the application, will be seen by the society and be open to comment by it;
- (5) where an applicant submits two or more applications (together or in quick succession) it should be made clear as to why access to the register of members of each of the societies is necessary and how the purpose of each application relates to the affairs of that society;
- (6) should an applicant be successful he or she will incur expenditure in taking names and addresses from the register and then producing and mailing the communication and the applicant should take this into account before submitting an application.

1.5 Considering an Application

- 1.5.1 The FSA will consider, first, whether the application contains all the relevant information. It may ask the applicant to provide further information or clarify what has already been given.
- 1.5.2 If, in the opinion of the FSA, the application is defamatory, frivolous or vexatious, the FSA may decide that it would be inappropriate to consider it further. The applicant will be informed of such decision as soon as practicable. In such cases the FSA may give the applicant an opportunity (normally only once) to revise the application to take the FSA's opinion into account. If a revised application is received by the FSA within

10 working days of the FSA's notice that the previous application was unacceptable (or such other period as the FSA may, in the circumstances, consider reasonable), a further fee will not be payable.

- 1.5.3 If the FSA is satisfied that the application provides all the relevant information and is, on the basis of that information, a valid application for the purposes of paragraph 15 of Schedule 2, the FSA will send the application, together with any supporting information or documents provided by the applicant, to the society. The society will be asked to confirm that the applicant was qualified to make the application at the time it was made and, if so, invited to make written representations on it to the FSA. The FSA will also ask the society whether it wishes to make oral representations at a hearing held by the FSA. The FSA will normally expect a society to submit its representations, or to confirm that none are to be made, within 15 working days of receipt of the copy of the application.
- 1.5.4 Once the FSA has received the society's written representations, together with any supporting information or documents, a copy will be sent to the applicant with an invitation to make written comments on them to the FSA. The FSA will also ask whether the applicant wishes to make oral representations, irrespective of whether the society has indicated that it would wish to do so. The FSA will normally expect an applicant to provide written comments or to confirm that none are to be made within 15 working days of receipt of the invitation.
- 1.5.5 Once the FSA has received the applicant's written comments, a copy of them will be sent to the society. This will normally be for information only. However, in any case where, in the opinion of the FSA, the applicant has introduced new matters which can properly be dealt with as part of the existing application, the society will be given the opportunity to make further representations. If the applicant has introduced new matters which, in the opinion of the FSA, cannot properly be dealt with as part of the existing application, the FSA may ask the applicant to make a new application or it may disregard the new matters for the purposes of the application under consideration. In the latter case the FSA will inform the applicant accordingly.

- 1.5.6 The FSA may seek further information or other documents from either the applicant or the society at any time.
- 1.5.7 Paragraph 15(2) of Schedule 2 sets out the criteria to which the FSA should have regard in considering an application:
- (1) the purpose of the proposed communication must be on “*a subject relating to its (the society’s) affairs*”;
 - (2) the FSA should have “*regard to the interests of the members as a whole*”;
 - (3) the FSA should have “*regard ... to all the other circumstances*”.
- 1.5.8 Paragraph 15(3) of Schedule 2 provides that the FSA may give a direction “*subject to such limitations or conditions as the Authority may think fit*”.
- 1.5.9 The FSA will consider each application on its merits. The purpose of the guidance in paragraphs 1.5.10 to 1.5.20 is to give a broad indication of the FSA’s approach and the criteria to which it will have regard.

“a subject relating to its (the society’s) affairs”

- 1.5.10 The 1986 Act does not define “*affairs*”. As a general proposition, the FSA considers that “*affairs*” will primarily relate to matters connected with the society’s finances, its business activities and the manner in which it carries on those activities, and not just to the applicant’s personal affairs. Bearing in mind the considerations discussed in paragraph 1.2.3, the matters about which the member wishes to communicate with other members, will, in the opinion of the FSA, normally need to be of a substantial nature and must relate to the particular society concerned. The FSA will expect the applicant to demonstrate not only why he or she is personally concerned about, or affected by, these matters (rather than simply being concerned or affected in some more general way) but also why it is necessary that this concern is communicated direct to other members.

1.5.11 Paragraph 15 of Schedule 2 requires each application to be considered separately by the FSA so that it cannot consider applications with the same, or similar purpose, or related to the same, or similar issue, as if they were a “class application”. So, for example, an application from a member wishing to obtain the required support of other members to stand for election to the board of directors of a society will be considered individually and on its merits, notwithstanding any previous decision the FSA may have taken on an application with the same, or similar, purpose.

1.5.12 The FSA will wish to be satisfied that the wording of the communication is consistent with the stated purpose of the application. It may invite the society to comment on the communication but the society cannot itself stipulate what its terms should be.

“the interests of the members as a whole”

1.5.13 The FSA will balance the wider interests of the membership as a whole with those of any one individual member or group of members. The FSA will require the applicant to demonstrate that the communication raises matters which are likely to be of interest to the society’s members generally or at least a substantial section of them. The FSA will take into consideration any evidence of support from other members of the society, should the applicant claim that this has already been given.

1.5.14 Whilst the right to make an application is open to all qualified members of the society, the FSA is of the opinion that, as a general proposition, access to the register is not an appropriate vehicle for the pursuit of a private grievance between a member and the society or the pursuit of a more general campaign affecting the building societies sector as a whole. The Act provides for a reference to the Financial Services Ombudsman for the investigation of a customer complaint and the 1986 Act provides for a reference to the High Court (in Scotland, the Court of Session) for the resolution of a membership dispute.

1.5.15 The 1986 Act does not require that a person who is given access to the register must write to all the members. To do so would mean that the right of access was of little

practical value. In the opinion of the FSA, it is acceptable for the applicant to write, for example, to a random selection of members or to those living in a particular geographical area. However, the FSA may require the communication to indicate whether or not it has been sent to all the members or only a proportion of them (and, if so, on what basis that proportion was selected).

“all the other circumstances”

- 1.5.16 The circumstances that may be appropriate for the FSA to take into account can only be identified in the particular case at the particular time. As a general proposition, the FSA will take into account any relevant information in respect of the applicant’s relationship with the society. This could include, for example, previous applications for access to the register. The FSA will also take into account whether the applicant has raised the issue about which he or she is concerned at the society’s annual general meeting or whether he or she would be able to do so at a future meeting. The FSA will at the same time take into account any evidence that the society has attempted to frustrate the member’s legitimate right to speak on the issue at the annual general meeting or seems likely to do so on a future occasion.
- 1.5.17 The FSA will also take into account the likely effect on building societies generally should the applicant be given access to the register of members of a particular society and write to the other members as proposed. It will consider whether, should it direct that an applicant be given access to the register of one society, this could have any adverse impact on other societies, for example, a possible risk to confidence. The FSA will also expect the applicant to explain why it is not possible to obtain support in some other way and so why it is necessary to have the privilege of accessing the register of members. The FSA will expect an applicant to show an awareness of these wider considerations and will wish to be assured that they will be appropriately reflected in both the tone and the content of the communication.
- 1.5.18 An applicant will be expected to disclose to the FSA whether he or she is acting in a purely personal capacity or on behalf of, or in concert with, any other person or institution, or whether he or she has an interest in the society beyond the fact of being

a member of it. Where the applicant has not made such a disclosure, but the FSA has reason to believe that he or she may be acting for or in concert with another party, the FSA will make enquiries to establish the facts and will invite the applicant to comment on its findings. Each application to inspect the register of members is considered on its merits. Where an application is made by a member whom the FSA considers to be in effect acting on behalf of a third party commercial institution, it will in particular have regard to: (a) the nature of the member's own interest in the application and the third party institution's objectives; (b) the interest of members as a whole in preserving privacy and the society's right to commercial confidentiality in its membership list; (c) any interaction between the application and the detailed and mandatory procedures under the 1986 Act governing mergers of building societies or as the case may be transfers of business to commercial companies; and (d) other means open to the member and the third party institution to communicate with members on the relevant subject. The interests of the members as a whole should not be confused with the personal interests of one or more individual members.

“such limitations or conditions as the Authority may think fit”

1.5.19 The 1986 Act imposes a specific restriction on any person who has taken information from the register of members. That is, the information may not be further disclosed (by that person or anyone to whom the information has been disclosed in accordance with the direction given by the FSA) except with the consent of the member to which it relates or for the purposes for which the 1986 Act provides. This is an essential safeguard against the abuse of the privilege of being given access to the register of members and contravention of the restriction is a criminal offence.

1.5.20 The FSA will consider what limitations or conditions it should properly attach to a direction in each particular case. However, and without prejudice to the exercise of its discretion, the FSA will normally consider limitations or conditions in the following areas:

- (1) whether the information taken from the register may be further disclosed and, if so, those to whom it may be disclosed and, in particular, if the FSA decides to

direct access to the register of members in the circumstances outlined in paragraph 1.5.18, it will impose such conditions as may be necessary to ensure that the third party institution does not directly or indirectly gain access to the information in the register or use the proposed communication by the applicant with other members to damage the society;

- (2) that the communication must be in writing and addressed separately to each of the members to whom it is sent;
- (3) that the material terms of the communication sent must be those seen by the FSA at the time it reached its decision on the application;
- (4) that the communication is accurate, is not offensive, is not misleading (including any inference that the communication is being made by, or on behalf of, the society), is not likely to bring about a loss of confidence in the society (or in societies generally) or otherwise harm its current or future business;
- (5) that the communication must be sent within a specified time;
- (6) that the applicant is given a specified period during which the relevant information is to be made available.

1.6 Oral hearings

1.6.1 Should either the society or the applicant ask for an opportunity of being heard by the FSA, then it will invite both parties to attend a hearing. If neither party so requests, the FSA will normally decide the application on the basis of the written evidence available to it, including the application, the society's comments (paragraph 1.5.3) and the applicant's written comments (paragraphs 1.5.4 and 1.5.5) together with the results of any enquiries the FSA itself may have made.

1.6.2 If there is an oral hearing this will normally be taken by one or more persons authorised by the FSA to act on its behalf.

- 1.6.3 The FSA will normally give the applicant and the society not less than 10 working days formal notice that there will be a hearing, including the place and time at which it will be held.
- 1.6.4 The hearing will normally be held in public. However, if either the applicant or the society requests that the hearing be held in private, the person(s) taking the hearing will listen to arguments from both parties before deciding whether to admit the public (which may include representatives of the media).
- 1.6.5 Whilst the proceedings will be comparatively informal, the applicant and the society may, if they wish, be legally represented. In any such case, the FSA must be notified at least 5 working days in advance of the hearing so that it may inform the other party. The applicant and the society may also be assisted by such other persons as the FSA considers reasonable in the circumstances.
- 1.6.6 The person(s) taking the hearing will introduce the proceedings and deal with any preliminary matters. The applicant and the society will then each be invited to present their cases, in that order. Each will have the opportunity to comment on the case presented by the other. The person(s) taking the hearing may ask such questions as they consider necessary, particularly to establish or elucidate matters of fact, but will not respond to questions from either of the parties. This procedure may be varied according to the circumstances of the particular case.

1.7 Deciding an Application

- 1.7.1 The person taking the hearing will not normally announce a decision at the hearing or give any indication as to the FSA's likely decision.
- 1.7.2 The FSA's decision with reasons will always be given in writing. The FSA will normally expect to issue its decision within 15 working days of a hearing. A copy will be sent to the applicant and to the society.

1.7.3 The FSA will make its decision public. It would also normally expect to make copies of its written decision with reasons available to those interested to see it. It may decide not to do so, however, where it considers that publication could be prejudicial to the interests of shareholders or depositors in or with the society. The FSA will, if either applicant or society objects to the publication of its written decision, give both parties the opportunity to make representations to it.

EXTRACT FROM THE 1986 ACT

Schedule 2, paragraph 15

“Right of members to obtain particulars from the register

15. (1) At any time when a building society -

(a) has had its permission under Part IV of the Financial Services and Markets Act 2000 to accept deposits cancelled;

and

(b) has not subsequently been granted such permission,

a member of the society shall, subject to sub-paragraph (1A) below, have the right to obtain, from the register kept under paragraph 13 above, the names and addressees of members of the society, for the purpose of communicating with them on a subject relating to the affairs of the society.

(1A) Sub-paragraph (1) above shall not apply unless the member in question

(a) is qualified under the rules of the society to join in a members' requisition for a special meeting, or to join in nominating a person for election as a director; or

(b) would be so qualified if any requirements as to length of time a person must have been a shareholding or borrowing member were omitted.

(2) If, at any time not falling within sub-paragraph (1) above, a member of a building society who is qualified under the rules of the society to join in a members' requisition for a special meeting, or to join in nominating a person for election as a director, makes a written application to the Authority for the right to obtain names and addresses from the register, the Authority -

(a) if satisfied that the applicant -

(i) requires that right for the purpose of communicating with members of the society on a subject relating to its affairs; and

(ii) has not, since making the application, voluntarily ceased to be a member of the society; and

(b) having regard to the interests of the members as a whole and to all the other circumstances; and

(c) on payment by the applicant of a reasonable fee;

may direct that the applicant shall have the right to obtain from the register the names and addresses of the members for the purpose of communicating with them on that subject.

(3) Any direction under sub-paragraph (2) above may be given subject to such limitations or conditions as the Authority may think fit.

(4) Before giving a direction under sub-paragraph (2) above, the Authority shall give particulars of the application to the building society and shall afford the society an opportunity of making representations with respect to the application; and the Authority shall, if the applicant or the society so requests, afford to the applicant and to the society an opportunity of being heard by it.

(5) A member entitled under this paragraph to obtain the names of members of a building society may apply in writing to the society, describing in the application the subject on which he proposes to communicate with other members of the society; and the society shall give him all necessary information as to the place or places where the register, or part of it, is kept, and reasonable facilities for inspecting the register and taking a copy of any names and addresses in the register.

(6) A building society shall not be obliged to disclose to a member making an application under this paragraph any particulars contained in the register other than the names of the members and their addresses, and may construct the register in such a way that it is possible to disclose the names and addresses to inspection without disclosing any such other particulars.

(7) No information obtained under sub-paragraph (1) or (2) above or this sub-paragraph and relating to a member of the society may be disclosed except -

(a) with the consent of that member; or

(b) in the case of information obtained under sub-paragraph (1) or (2) above, for purposes connected with the purpose mentioned in that paragraph.

(8) Any person who discloses information in contravention of subparagraph (7) above shall be liable -

(a) on conviction on indictment, to imprisonment for a term not exceeding two years or to a fine or both; and

(b) on summary conviction, to a fine not exceeding the statutory maximum.

**APPLICATION FOR THE RIGHT TO OBTAIN ACCESS
TO THE REGISTER OF MEMBERS OF A BUILDING SOCIETY**

This form is to be completed by a member of a building society who wishes to be given access to the register of members of the building society of which he or she is a member in accordance with paragraph 15 of Schedule 2 to the Building Societies Act 1986 (as amended by and under the Financial Services and Markets Act 2000) and who is qualified under that paragraph to make such an application. Before completing this form you are advised to read the guidance published by the Financial Services Authority.

On completion this form should be sent to the Financial Services Authority, 25 The North Colonnade, Canary Wharf, London E14 5HS. Copies of this form and the guidance may also be obtained from this address.

1. Name of the society of which you are a qualified member to whose register of members you wish to be given access:

2. Name and address of applicant:

Name

Address

Telephone

3. Share account details

Account name (s)

Account number (s)

4. Mortgage account details

Account name (s)

Account number (s)

NOTE

If the name and/or the address in which you hold either or both of the above accounts are different from the name and address given for the purposes of this application, please specify that in which it/they are held.

Name

Address

5. Please specify the subject on which you wish to communicate with other members of the society and the points you would wish to make in your communication. Please also enclose a draft of your proposed communication.

6. If there is any other information or documents, in addition to your draft communication, you would wish to form part of your application, please specify.

DECLARATION

7. I declare that I am qualified under the rules of the society named above to make this application.

8. I understand that this application form, and any information or documents enclosed with it, may be sent to the society, which may make representations about it to the FSA.

9. I have read and understand the statutory restrictions which will restrict me from disclosing any information I take from the register if I am given access to it.

10. I enclose payment of £25 in respect of this application. I understand that this fee is not refundable.

DEFINITIONS

“the 1986 Act”	the Building Societies Act 1986 ¹
“the Authority”	the Financial Services Authority
“amalgamation agreement”	a formal agreement between societies on the terms of their amalgamation
“the board”	the board of directors of a building society
“the BSA”	the Building Societies Association
“borrower” or “borrowing member”	a person who is indebted to a society in respect of a loan fully, or where the Rules so provide, substantially secured on land
“the Central Office”	the department of the Authority carrying out the registration functions transferred from the Central Office of the Registry of Friendly Societies
“this chapter”	this chapter of the IPSB on Merger Procedures
“the Commission”	the former Building Societies Commission
“DTI”	the Department of Trade and Industry, Industrial Relations Division
“Fees Rules”	the Rules made by the Authority from time to time under paragraph 17 of Schedule 1 to the Financial Services and Markets Act 2000 prescribing the fees to be paid in connection with the discharge of its functions under the 1986 Act.
“First, Second, Third Criterion”	see “the Three Criteria”
“Instrument of Transfer”	the Instrument of Transfer of Engagements required by Section 94(6) of the 1986 Act
“the IPSB”	the Interim Prudential Sourcebook for building societies
“member”	a shareholding or borrowing member of a society

¹ As amended by and under the Building Societies Act 1997 and the Financial Services and Markets Act 2000. The 1986 Act has also been amended by other legislation.

“Memorandum”	the Memorandum of a building society required by paragraph 2 of Schedule 2 to the 1986 Act
“merger”	an amalgamation or transfer of engagements
“Merger Document”	the document or booklet containing the Schedule 16 Statement
“Merger Notification Statement”	a statement sent to members in the circumstances described in section 6
“Merger Resolutions”	the shareholding members’ resolution and borrowing members’ resolution required to approve a merger where no direction under Section 42(B)(3) has been given
“OFT”	the Office of Fair Trading
“PIBS”	Permanent interest-bearing shares, a type of deferred share
“proxy voting form”	an instrument appointing a proxy to attend a meeting of a society and vote on the member’s behalf
“rationale”	the explanation of the reasons for a proposed merger provided to the members of a society by its board of directors
“the Rules”	the Rules of a building society
“Schedule 16 Statement” or “the Statement”	the statutory statement required by Schedule 16 to the 1986 Act to be sent to every member entitled to notice of a meeting of the society
“section”	a section of this chapter
“shareholder” or “shareholding member”	a person holding a share in a society (by investing in one or more share accounts or holding PIBS or other deferred shares).
“society”	a building society
“successor society”	a society accepting a transfer of engagements or the new society in the case of an amalgamation
“the Three Criteria”	the criteria prescribed by Section 95(4) of the 1986 Act which the Authority has to consider when deciding whether to confirm a merger ²

² The Three Criteria are varied in certain circumstances - see section 6.

“transferee society”	a society accepting a transfer of engagements from another society
“transferor society”	a society transferring its engagements to another society
“UKLA”	the UK Listing Authority (currently the Authority).

MERGER PROCEDURES

1. INTRODUCTION

Purpose of the chapter

- 1.1 This chapter replaces the Merger Procedures Guidance Note issued by the Commission in May 1999. It gives guidance on the requirements of the 1986 Act, as amended by and under the Financial Services and Markets Act 2000, under which certain functions of the Commission were transferred to the Authority. However, since the nature of the transferred functions remains substantially unaltered, there is no significant change in this guidance compared with the guidance previously issued by the Commission on the procedures to be followed by a building society proposing to merge with another building society. **This chapter is not intended to be exhaustive and is not a substitute for looking at the 1986 Act and the Mergers Regulations 1987 (SI 1987/2005) as amended by the Mergers (Amendment) Regulations 1995 (SI 1995/1874), the Merger Notification Statements Regulations 1999 (SI 1999/1215), where applicable, and a society's own Rules. Nor is it a substitute for the society seeking its own legal advice.** It gives a description of the relevant provisions of the 1986 Act, of the information which must be made available to the Authority and to societies' members, together with an outline of the procedures to be followed at general meetings, and the voting majorities required to pass the Merger Resolutions which the members are to be asked to approve. This chapter describes the role of the Authority in approving the statements to members under Schedule 16 to the 1986 Act, in its prudential supervision of mergers, and in confirmation hearings. It also gives a broad indication of the way in which the Authority may be expected to exercise its discretionary powers. **Except as described in section 6, to which section 7 of this chapter also applies, this chapter is concerned only with voluntary Mergers under Sections 93 and 94 of the 1986 Act.**
- 1.2 It is for the boards of societies to assess the case for a merger, and they must explain and recommend their decision to their members. However the Authority's staff are available to give advice on the procedures to be followed and the information required to ensure that the members can reach fully informed decisions. **Societies are strongly recommended to consult the Authority early on in the formative stages of merger**

discussions. Such consultation will, of course, be treated in the strictest confidence. It will also be helpful to have regard to the indicative timetable set out in paragraph 8.3.

- 1.3 Societies should consult their own legal advisers about the application of the provisions of the 1986 Act, and the general law, to the particular features of a proposed merger.
- 1.4 This chapter considers each stage of the merger procedure in chronological order. The remainder of this section gives a synopsis of the relevant requirements of the 1986 Act, which are then discussed in more detail in subsequent sections.

Section 2, Preliminary Matters, considers the rationale for a merger and its terms and the handling of public announcements, and gives guidance on certain prudential issues.

Section 3, Information Provided to Members, discusses the form and content of the statutory Schedule 16 Statement and the accompanying rationale and statements by the board of the society, and describes the form of application to be made to the Authority for approval of the Statement.

Section 4, General Meetings and Resolutions, discusses the resolutions and majorities required to pass them, the notice of meeting, the register of members and members' entitlement to vote, the arrangements for general meetings and the scrutineers' report. It also describes the Authority's discretionary powers.

Section 5, Confirmation, describes the form of application to the Authority for confirmation of a merger, and the procedures which the Authority expects to follow in considering and hearing written and oral representations and in reaching its decision.

Section 6, Transfer of Engagements under Direction, describes the modified procedure to be followed when a society has been directed by the Authority to transfer its engagements to another society and/or to proceed by board resolution.

Section 7, Registration and Dissolution, briefly discusses the process of registration of amalgamations or transfers of engagements and dissolution of the amalgamated or transferor societies.

Section 8, Timetable, reviews the expected timetable, including statutory notice periods, which may be expected to apply to a merger from start to finish.

Statutory Requirements

- 1.5 The statutory provisions concerning mergers are in Sections 93 to 96 of, and Schedule 16 to, the 1986 Act, where three types of transaction are provided for:

Amalgamation, where two or more societies unite to form a new “successor” society;

Transfer of engagements, where a society (the transferor) transfers its membership and the whole of its undertaking to another (the transferee), which then continues as before; and

Partial transfer of engagements, where a society transfers only a part of its membership and business to another society (for example, some outlying branches).

The procedures for all three are much the same, and the differences are explained in the relevant sections of this chapter. The Authority’s practice as described in this chapter is derived exclusively from previous experience of transfers of engagements because, so far, there have been no amalgamations nor partial transfers under the 1986 Act. However, it is not expected that the Authority’s handling of amalgamation procedures would be significantly different from what is described here.

- 1.6 The purposes of the provisions of the 1986 Act are to ensure that the members are given all the material information they need about the terms of the merger which they are asked to approve and a proper opportunity to cast their votes. Subsequently, they are to be given the opportunity to make representations about that process before the merger is confirmed.
- 1.7 The 1986 Act makes no provision for a merger to be initiated by any other means than a proposal by a board put to the society’s members. It requires that each member who is entitled to receive notice of the general meeting at which the Merger Resolutions are to be moved must also receive a copy of the Schedule 16 Statement. A merger must be approved by a **shareholding members’ resolution** and a **borrowing members’ resolution**. There is an additional voting requirement for the approval of a partial transfer of engagements.

- 1.8 If the terms of a merger include provision for the payment of **compensation to directors or other officers** for loss of office or of income, then the proposed payments must be approved by a separate **special resolution**. A further special resolution may also be required if there is to be a distribution to members which exceeds the limits described in paragraph 4.4.
- 1.9 Sections 93 to 96 of the 1986 Act specify certain procedures for the consideration of representations by interested parties concerning **confirmation**, and the criteria which the Authority must consider before deciding whether or not to confirm a merger. The Authority may not consider matters concerning the merits of merger proposals or the fairness of the terms which the members have approved by passing the Merger Resolutions.
- 1.10 The statutory requirements of the 1986 Act are explained and discussed in more detail in subsequent sections of this chapter. In addition, societies and their advisers must have regard to the legislation mentioned below.
- 1.11 **Fair Trading Act 1973:** societies should inform the Office of Fair Trading of a proposed amalgamation or transfer of engagements where, currently, the merged society will have a market share in the UK, or in any substantial part of the UK, of at least 25%, or where the assets of the transferor society exceed £70 million. The OFT will then advise whether or not the Director General of Fair Trading proposes to recommend to the Secretary of State that the merger be referred to the Competition Commission. In some cases the OFT may wish to discuss the proposal with the societies before deciding. It is essential that any submission to the OFT is undertaken at the earliest possible opportunity since, should the Secretary of State decide to refer a merger to the Competition Commission that would be a “material fact” to be disclosed in the Schedule 16 Statement, unless it is impracticable to put the matter to members until the Competition Commission has reported. Societies may need to consider the Competition Act 1998 when planning a merger. However, the merger control structure described above is left in place by the 1998 Act, although with some amendment.
- 1.12 **Transfer of Undertakings (Protection of Employment) Regulations 1981 (SI 1981/1794):** These Regulations have the effect that the employees of a transferor society automatically become the employees of the transferee society following the merger. They require, in particular, information to be given in certain cases to employees’ representatives, long enough before the merger takes place, to enable

consultations to be held between the society and those representatives. Failure to inform or consult in this way is a ground for reference of the matter to an industrial tribunal and there are other significant provisions. Societies are advised to consult “Employment Rights on the Transfer of an Undertaking” (Employment Legislation Pack Booklet No: PL699) which explains the Regulations and is available from the DTI Order Line (Tel: 0870 1502500).

- 1.13 **Taxes Acts:** Societies should take advice on the timing and amount of tax liabilities.

2. PRELIMINARY MATTERS

Rationale for a Merger

- 2.1 It is a matter for the board to decide whether to recommend a merger to its members. The overriding duty of the board is to reach a view having regard to what is in the best interests of the society, and its members as a whole, both present and future, borrowing members and shareholding members. The board may also reasonably consider the interests of customers who are not members, of the staff, suppliers of goods and services, and of the wider community.
- 2.2 A well planned and well matched merger can benefit both the shareholding and borrowing members and the staffs of both societies by producing a combined society with the financial strength and management expertise and experience needed to compete successfully in the market place. It must be recognised, however, that in many instances it will take time for economies of scale to be achieved and a careful assessment of projected costs is essential to a realistic view of whether such economies are likely to be achievable. On the other hand, a merger between two weak and over-extended societies may produce an even weaker one. It is better to negotiate a merger from a reasonably secure position than to be obliged to seek a merger when the society has become too weak to carry on as an independent entity.
- 2.3 This chapter cannot deal exhaustively with all the factors to be taken into account by a board when deciding whether to recommend a merger to its members. Moreover, there will be factors peculiar to particular cases. However, the following paragraphs draw attention to those matters which the Authority expects boards to consider in all cases.
- 2.4 Consideration of a merger can normally be expected to emerge from the board's regular consideration of the strategic options available to the society. That is not to say that merger as a transferor society should always figure as an option in every society's corporate plan. On the other hand, every board should be alive to business trends which point to, or which, if not altered, will point to, the need to consider options for merger. In short, a merger should be foreseen and planned. Alternatively, of course, a board which wishes its society to remain independent must have a clear strategic view of how that can be achieved in a variety of realistic planning scenarios. Whether or not a board is considering a merger, it should as a matter of prudence, know how it

would respond to a proposal or counterproposal to merge or to transfer its business to a commercial company.

- 2.5 If a board foresees the possibility of a merger, then it should plan for that eventuality. Societies which see themselves as transferees will need to consider the desired characteristics of potential partners, including, for example, geographical presence, mortgage book quality, and product market share. Societies contemplating the transfer of their engagements will need to consider whether the interests of their members would best be served by a local or regional alliance or access to a national network of branches and services. Although the interests of shareholding and borrowing members are paramount, boards also have an obligation to consider the consequences of merger options upon the terms and conditions of employment and job prospects of their staff, and the interests of their pensioners. It is also reasonable, particularly for local and regional societies, to consider the implications for the local economy, where, for example, a regional or head office may eventually be closed to achieve economies of scale.
- 2.6 The range of issues which both boards have to consider will vary from case to case and is for the board to decide. At one end of the scale there will be the case where a small society merges with a large one and, at the other end, where two or more societies of broadly comparable size join to form one significantly larger. Whatever the proposal under consideration the board will necessarily have regard to this primary duty to reach a view on what is in the best interests of the society, and its members as a whole. It will also be conscious of the need to give an account of the board's rationale in recommending the merger to members, in particular if a statutory merger statement is included in the Merger Document (see paragraph 3.23).

Terms of a Merger

- 2.7 The terms negotiated between the parties in a merger will be set out in a formal agreement. In the case of a transfer of engagements, Section 94(6) of the 1986 Act requires the "extent of the transfer", and in practice the other agreed terms, to be recorded in an Instrument of Transfer. For an amalgamation, Section 93(2) of the 1986 Act requires the parties to agree on a Memorandum and Rules for the successor society, and each to approve the terms of the amalgamation by Merger Resolutions, so that there must be agreement on the terms. The Authority will expect the Instrument of Transfer or amalgamation agreement to be signed before the Authority approves the

Schedule 16 statement, although it will be conditional on, among other things, approval by members and confirmation by the Authority. In both cases the boards of the societies will have approved the Instrument or agreement and the Schedule 16 statement and, in the case of an amalgamation, the Memorandum and Rules of the successor society. Before such approval by the boards, drafts of the proposed Memorandum and Rules should have been cleared with the Central Office. The Rules of transferee societies should provide that members of transferor societies are not disenfranchised for any period after the merger is effected (see paragraph 3.16 and rule 4(9) of the BSA Model Rules 5th edition).

2.8 Although vesting of the “property, rights and liabilities” of the transferor society in the transferee society on completion of a transfer of engagements is a statutory process by virtue of Section 94(8) of the 1986 Act, the Instrument of Transfer performs an important function. Not only is it required by the 1986 Act, but it is required to identify the extent of the transfer (Section 94(6)), since a transfer can be of all or part of the engagements of the transferor society. Thus, on a transfer of all the engagements of a society, the Instrument of Transfer should include a specific statement that all are included. If the transfer is of part only, then the instrument should specify precisely what is being transferred. As explained, an amalgamation agreement is required in practice for all amalgamations, but again the actual process of transferring the assets of the societies to, and vesting them in, the new society is by operation of the 1986 Act. Section 93(4) of the 1986 Act, which does this, does not allow for exceptions to the vesting since the nature of an amalgamation is that all the assets of all the societies are vested in the successor society.

2.9 The Instrument of Transfer, or amalgamation agreement, will also allow matters of detail to be recorded. So it will contain, for example, provision for:

- (a) any changes to the terms and conditions of PIBS and share and deposit accounts, including the integration of the product lines of the transferor society(ies) into those of the transferee or successor society;
- (b) any changes to the terms and conditions of mortgage accounts and other loans;

- (c) any bonus to be paid to members;
- (d) the terms and conditions on which staff will be employed or made redundant;
- (e) pension scheme arrangements;
- (f) integration of operations;
- (g) the terms and conditions on which directors and other officers are to continue in office or cease to hold office, including the posts they will hold and any extra-contractual compensation to be paid for loss of office or reduction in emoluments;
- (h) the specified target date for completion of the merger, bearing in mind that the actual date is a product of the 1986 Act (Sections 93(3)(b) & (4) and 94(8)), and for action if that date is not achieved;
- (i) any conditions precedent, such as members' votes and the Authority's confirmation, and for the circumstances in which the Instrument or amalgamation agreement might be terminated.

Bonus Payments to Members

2.10 Whether any bonus is to be paid to members and, if so, its amount and distribution, are matters to be agreed by the boards of the societies concerned and to be approved by their members, subject to the discretion described in paragraphs 4.41 and 4.42. However, the Authority will wish to be satisfied that the combined society will maintain a prudent solvency ratio after the bonus is paid. A bonus may, for example, be paid to the members of a transferor society with a higher capital ratio than the transferee society so as to equalise the reserves which both bring to the combined society. If it is thought desirable also to pay a bonus to the members of the transferee society, then the reserves of the combined society may be "equalised" at a level below

the capital ratio of the transferee society, but only if it is prudent to do so. The statutory requirements for approval of bonus payments are described in paragraph 4.4.

- 2.11 A bonus is a distribution of the funds of either or both societies, and may be paid by a number of methods, or some combination of them, including, for example: a flat rate lump sum; a sum calculated as a percentage of balances; or an increase or (for mortgage accounts) a decrease in the interest rates paid or charged for a limited period. Maintenance of interest rate differentials existing before the date of completion of the merger between those offered by (say) the transferor society and the transferee society would not normally be characterised as a bonus. However, each society, and the Authority, will wish to be satisfied that any differential is consistent with its established pricing policy and is not the result of a change adopted, for example, when the society decided to seek a merger. Each case where interest rate differentials are to be maintained, for whatever period, will need to be considered to determine whether or not it constitutes a bonus, and societies may wish to take professional advice on the matter.

Compensation to Directors and Other Officers

- 2.12 Any compensation proposed to be paid to directors or other officers must be disclosed in the Schedule 16 Statement and approved by a separate special resolution of the members (see paragraphs 3.11 and 4.3). “Compensation” is not defined in the 1986 Act. In the Authority’s opinion, compensation does not include statutory redundancy payments, damages for breach of contract or other payments, for example, falling due under the terms of a pre-existing contract of employment, or a pre-existing arrangement giving rise to a reasonable expectation. However, it does include any proposed ex-gratia payments in money or money’s worth. Societies should consider very carefully the extent to which any proposed payment may exceed the amount provided for by statute or contract. In view of the requirement in Section 96(3) of the 1986 Act that unauthorised payments must be repaid by the recipient, societies are advised to take legal advice on any payments which are not specifically authorised by the terms of a resolution passed by the members in accordance with Section 96(1) of the 1986 Act. All proposed payments requiring approval by such special resolution should be disclosed in the Schedule 16 Statement under the power in paragraph 1(4)(f) of that Schedule. In addition, the Schedule 16 Statement should disclose any other payments to directors or other officers arising directly from the merger. So that members are aware of the direct interest of the directors or other officers in a merger, societies should consider whether the amount, as distinct from the fact, of statutory or

contractual payments should be disclosed where these arise directly from the merger. More generally, societies need to consider whether any facts relevant to any director or other officer, or to any person(s) connected with them, should be disclosed where these are material to the interests of the members who are to be asked to vote on the proposed merger. In determining the amount of compensation which might be justified, the board must strike a balance between fairness to the individuals who will suffer a loss of income and the interests of the members, bearing in mind that the compensation will be at a cost either to any bonus to the members or to the reserves to be transferred to the combined society.

Public Announcement

- 2.13 Boards of both societies may wish to announce a merger proposal as soon as agreement in principle has been reached between them and, in particular, to inform their members and staff of the proposed terms. However, boards will often wish to delay an announcement for as long as possible, perhaps for prudential or commercial reasons, or because they first wish to settle all the details of the proposed terms. Societies with listed PIBS will need to have regard to the UKLA requirement concerning early disclosure of information affecting the price of securities. Subject to this, there is no objection to delay, in principle, and there may be good reasons for it. Unfortunately, experience shows that every day's delay after agreement in principle has been reached carries an increasing risk of premature leak. Indeed, the very reasons for delay may make the merger a subject for intense speculation and increase the risks of a leak. In these circumstances then, boards must have contingency plans to make an early announcement to deal with any potentially damaging rumours and to avoid members being misled or left in a state of uncertainty.
- 2.14 The announcement, particularly information provided directly to members and staff, should make it clear that the merger proposal is subject to approval by the members and completion of the statutory procedures. Boards should be careful to avoid giving even the impression that the outcome is a foregone conclusion, and should indicate any matters of substance on which the proposed terms of the merger remain to be settled. Briefing of staff who will be responsible for responding to enquiries from members and the press should be considered carefully and prepared in advance of the announcement to avoid any risk of members being unintentionally misled.
- 2.15 The Authority is not required to approve the content or wording of announcements or preliminary information sent to members. However, it will be happy to comment on

drafts shown to it at an early stage, and may be able to help societies to avoid unintentionally misleading statements.

Prudential Issues

- 2.16 Before a firm proposal is agreed, the participating societies should consult with the Authority's staff to discover whether there is any prudential objection to the proposal. The Authority will need to be satisfied that the combined society will be managed prudently from the date of completion of the merger and comply with the Principles for Businesses and with all the relevant rules made by the Authority. The Authority will also wish to know that post-merger arrangements and agreements provide for the proper integration or rationalisation of the operations of the combined society, and of its connected undertakings, joint ventures or arrangements with third parties (for example, for the provision of unsecured loans, insurance and investment services) and that any commercial conflicts of interest have been resolved.
- 2.17 In all cases, prudential information should be provided, but the amount of information will depend upon the circumstances of each case. For example, if a merger involves societies of much the same total asset size, or where the merger will result in a significant increase in the transferee society's assets, or involves a change of strategy, new kinds of business or carrying on business in a new geographical area, the Authority will expect substantial prudential information and societies should also expect this to form the basis of more detailed discussions with the Authority's staff. On the other hand, in a merger where a small society is transferring its engagements to a very much larger one, the prudential information to be provided is likely to be that much less. In all cases the Authority will ask for the prudential information at an early stage so that there is adequate time for discussion before it is asked formally to approve the Schedule 16 Statement.
- 2.18 Boards should note, however, that while the Authority will expect the kinds of information described here, it is for the boards themselves to exercise due diligence and to be satisfied that the merger and its terms are prudent and in the interests of their members.
- 2.19 As is noted, the Authority's need for prudential information can be expected generally to relate to prudential issues, but societies may find it helpful to note the following paragraphs which describe some of the particular issues which the Authority will

expect to be addressed. In all cases, societies should have regard to the relevant chapters of the IPSB.

Direction and management

- 2.20 Current and future board composition and succession plans for, say, the three years immediately following the merger.
- 2.21 Current and future senior management and structure, indicating spans of responsibility (which may most easily be presented in chart form) and any areas where there may be a need for additional expertise or experience to be acquired by the combined society with plans and timescale for acquiring such expertise.

Accounting and control systems

- 2.22 Generally, outline plans and timetables for the integration of accounting, control and inspection systems, including the linking or harmonisation of computer systems. This may usefully be divided between initial or short term arrangements and foreseen longer term developments. More particularly, the information should include arrangements to ensure continuity and the integration of:
 - (a) accounting records;
 - (b) systems of internal control, including management information systems and IT systems; and
 - (c) systems of inspection (internal audit)

For all significant mergers the Authority will wish to receive, prior to the effective date of the merger, a letter from the transferee society's external auditors stating whether, in their opinion, the accounting records and systems of control and of inspection established for the merged society will be effective from the effective date.

Business plan

- 2.23 The rationale for the merger will need to be explained and justified in full, including existing and potential future business and marketing opportunities, the benefits of geographical concentration or diversification of business, economies of scale

(particularly administrative), and future funding and lending strategies. Proposals for rationalisation or integration of administrative offices and branches will need to be set out in full, including the implications of the proposed merger for the terms and conditions of staff employment and their future job prospects with the combined society.

Financial prospects

2.24 Information on the financial prospects for the combined society will need to include:

- (a) estimates, broken down to an appropriate level of detail, of short term additional costs and long term savings (if any) anticipated from the merger; and
- (b) revenue account, balance sheet and solvency ratio projections for the first three to five years of operation.

This information must be supported by statements of the assumptions on which it has been based. In addition, the effect of changes on those assumptions should be illustrated, from a best case to a worst case scenario.

Connected undertakings and agencies

2.25 The integration and future operation, management and control of connected undertakings, together with arrangements with other parties for the continuing provision of services under agency agreements, should be described in full.

3. INFORMATION PROVIDED TO MEMBERS

Statutory Requirements

- 3.1 Part I of Schedule 16 to the 1986 Act requires a building society which desires to merge with another society to send to every member entitled to notice of a meeting of the society a statement concerning the matters specified in the Schedule. The statement is to be included in or with the notice of the meeting at which the Merger Resolutions are to be moved. No statement shall be sent unless its contents, so far as they concern the specified matters, have been approved by the Authority. Where the transferee society has obtained the consent of the Authority to proceed by board resolution then it is exempt from this requirement (see paragraphs 4.41 and 4.42).
- 3.2 Meeting arrangements and resolutions are discussed in section 4.

The Schedule 16 Statement

- 3.3 The Schedule 16 Statement must set out the present financial positions of each of the merging societies, the terms of the merger agreed between them and summarise the main provisions of the Instrument of Transfer. It must also include any other matter which the Authority may require. In the case of an **amalgamation**, the Statement must additionally include the proposed Memorandum and Rules of the successor society which are to be approved by the special resolution required to approve the merger (Section 93(2) of the 1986 Act), as well as the terms of the amalgamation agreement between the societies.
- 3.4 The Schedule 16 Statement does not have to be a discrete document. In fact it will usually be convenient to include it in a comprehensive Merger Document also containing the board's rationale for recommending the merger, the notice of the meeting at which the Merger Resolutions are to be moved, an explanation of the merger procedure (including details of the confirmation stage - see section 5) and a description of the requirements of the society's Rules concerning entitlement to vote. However, the Schedule 16 Statement within the Merger Document should be clearly identified as such (either by printing it on a different colour of paper or by some other means). An example of a *pro forma* Merger Document is given in Annex A.
- 3.5 The required contents of the Schedule 16 Statement are discussed in detail in the following paragraphs.

The Financial Position

- 3.6 Paragraph 1(4)(a) of Schedule 16 to the 1986 Act requires the Statement to contain information concerning the financial position of each of the societies participating in the merger. The members should be given sufficient information to enable them to gain an accurate understanding of the key financial features of their businesses. The information will include a balance sheet, recent results and certain financial ratios; for this purpose it is necessarily rather more detailed than is required for the annual Summary Financial Statement. In addition, further information will be required concerning accounting policies and other matters, as set out in paragraph 3.10.
- 3.7 The information should comprise consolidated accounts of each society and its connected undertakings prepared at a common balance sheet date which should be no more than 6 months before the date on which the Statement is approved by the Authority, or the date on which the Statement is to be sent to the members if that is expected to be significantly later. Information regarding results should relate to the relevant period ending on the chosen balance sheet date. The figures may be derived from audited or unaudited accounts. In either case, the source must be stated. If unaudited figures are used, the Authority will require a “letter of comfort” from the relevant society’s external auditors confirming that, in their opinion:
- (a) the figures have been correctly abstracted from the society’s records;
 - (b) the financial information is not misleading in the context in which it appears; and
 - (c) in reviewing the data relating to the Statement, nothing has come to their attention which would cast doubt on the directors’ statement (see paragraph 3.8) that there has been no material change affecting the information given.
- 3.8 Since the financial information will necessarily relate to a period ending somewhat before the date of approval of the Schedule 16 Statement, the board is required to state whether or not there have been any material changes to the financial position in the interim. If the effect of a change cannot be quantified, it must be described so that the members at least know that it has been identified and is relevant to their consideration of the proposed merger. Failure to disclose such changes will be relevant to the Authority’s subsequent consideration of the society’s application for confirmation of the merger (see paragraphs 5.4, 5.12 and 5.13).

- 3.9 Differences in accounting policies could result in some loss of comparability between the financial information given for each society. Some adjustments to the figures may, therefore, be necessary to give the members a proper understanding of the societies' relative financial positions. Any adjustments made should be explained by way of a note. If there are no significant differences in accounting policies, then that should be stated for the avoidance of doubt.
- 3.10 Notes to the financial position should also provide information on the following matters:
- (a) the book amounts and market values of listed securities held as liquid assets;
 - (b) the book amounts and current market values of land and buildings; with an indication of the basis on which current market value has been determined;
 - (c) any significant differences in policy or practice with regard to the depreciation and estimated asset lives of tangible fixed assets;
 - (d) pension arrangements of each society including, for funded schemes, details of latest actuarial valuations;
 - (e) summary information on the business of connected undertakings;
 - (f) an estimate of the costs and benefits of the proposed merger.

Interests of Directors and Other Officers

- 3.11 Subparagraphs 1(4)(b) and (c) of Schedule 16 to the 1986 Act require the Statement to disclose any interests of the directors in the merger and any compensation to be paid to them or other officers. This information must be comprehensive and clear. It should include the following:
- (a) the interests of the directors in the merger, including appointment of existing directors to the main board or local board of the combined society, or to any other position with that society, together with any significant resultant change in present or expected future levels of fees or other emoluments and benefits in kind;

- (b) any compensation payable to directors or other officers for loss of office or reduction in emoluments, and the basis on which it is calculated; if a global sum is proposed to be given to a group of persons, the intended manner of apportionment should be stated (see paragraph 2.12);
 - (c) any payments to be made to directors or other officers arising from the merger, whether provided for in contracts of employment or under covenant or some arrangement giving rise to a reasonable expectation;
 - (d) any proposed benefits to directors or other officers by way of fees for professional services, stating the nature of the services to be provided and the anticipated annual fee income; and
 - (e) any other benefits to directors or other officers, or to any persons connected with them, arising from, or as a consequence of, the merger.
- 3.12 If the directors or other officers have no material interest, either by way of change in remuneration, as widely defined above, or by payment of compensation for loss of office or in any other form, for example, a pension, this should be stated explicitly, for the avoidance of doubt.

Bonus Payments to Members

- 3.13 Paragraph 1(4)(d) of Schedule 16 to the 1986 Act requires the Statement to specify the bonus, if any, to be paid to members in consideration of the merger. The Authority's views on what may, or may not, be regarded as bonus are given in paragraph 2.11, and the statutory requirements for approval of bonus payments are described in paragraph 4.4.
- 3.14 The method of calculation of a bonus should be explained in the Schedule 16 Statement; for example, x% of the lower of the share account balances held at the end of the last financial year and those balances held on the effective date of merger (giving precise dates and times for calculating the balances), and the estimated maximum total amount payable to members. The effect on the reserves of the combined society should be shown by stating the estimated gross and net costs of the bonus and the resulting reduction in the reserve/asset ratio (see also Annex A, items A.3 and B.6).

Other Matters

- 3.15 As is noted in paragraph 2.9, the Instrument of Transfer (or amalgamation agreement) will normally make provision for a number of matters in addition to those concerning the interests of directors and other officers and any bonus to be paid to the members. Such matters must be explained in the Schedule 16 Statement, together with any other matters of which the Authority may require particulars to be given (see paragraph 1(4)(f) of Schedule 16 to the 1986 Act). They are discussed in the following paragraphs.
- 3.16 **Post-merger membership rights** should be secured by the adoption of BSA Model Rule 4(9) (Fifth Edition, November 1997) or a similar Rule to the same effect. The purpose of the Rule is to ensure that members of a transferor society are not disenfranchised. It provides that they are deemed to have been members of the transferee society from the date when they became members of the transferor society. Societies' Rules, in conformity with the 1986 Act, must provide, inter alia, that a member is entitled to vote on a resolution of the society if he was a member at the end of the last financial year before the voting date and on the voting date. If, for example, a transferee society has a financial year ending on 31 December, its AGM in the following April and the effective date for a merger is in March, then the deemed membership Rule will enfranchise those who were members of the transferor society on or before 31 December. The existence, or absence, of this Rule must be recorded in the Schedule 16 Statement in any case where it is likely to have any significant effect on members' rights.
- 3.17 **Proposed changes to the terms and conditions of share and deposit accounts** must be fully and clearly explained in the Schedule 16 Statement. In a transfer of engagements, shares and deposits held with the transferor society will become held with the transferee society. Such accounts will either be transferred into the nearest equivalent account of the transferee society, become new products of the transferee society, or continue on existing terms but be closed to new investors. It is most helpful to tabulate the proposed integration of accounts in a schedule listing the accounts of the transferor society opposite the accounts of the transferee society to which they are to be transferred, together with the interest rates payable, or proposed to be paid, on each account. A similar presentation will be required to show the proposed integration of accounts in an amalgamation. In preparing this the provisions of Section 8 of the 1986 Act should be borne in mind.

- 3.18 **Proposed changes to the terms and conditions of mortgage accounts** must be explained (see paragraph 1(4)(e) of Schedule 16 to the 1986 Act). Alternatively, if no changes are proposed to be made, the Schedule 16 Statement must include an assurance to that effect, for the avoidance of doubt.
- 3.19 **Terms and conditions of employment of staff**, including any special bonus or other benefits in connection with the merger, as provided by the Instrument of Transfer (or amalgamation agreement), must be set out. In addition, the Authority will require the Schedule 16 Statement to include an explanation of the Board's intentions with regard to the closure or integration of head office departments and branches, any reductions in the number of staff employed and redundancies, insofar as these matters are not provided for in the Instrument of Transfer (or amalgamation agreement).
- 3.20 **Future pension arrangements** for staff, directors and other officers, as provided by the Instrument of Transfer (or amalgamation agreement), are to be set out.
- 3.21 Finally, the **conditional and termination clauses** of the Instrument of Transfer (or amalgamation agreement) should be summarised.

Board Rationale and Statements

- 3.22 A board putting a merger proposal to its members has, in addition to its statutory duty to provide a Schedule 16 Statement, a fiduciary duty to provide its members with essential factual information and a fair assessment of the issues so that they can take informed decisions on whether to approve the board's proposals. The Authority, therefore, expects that the Merger Document (see paragraph 3.4) will include an explanation by or on behalf of the board of the reasons for the merger and the choice of merger partner. This rationale should give a fair assessment of the advantages and disadvantages of the merger and should be entirely consistent with the facts set out in the Schedule 16 Statement. In addition to explaining the rationale and its consequences for the members, it should explain the effect on the staff's terms and conditions of employment and expectations for future employment prospects. The planned timescale for integration of the businesses should also be explained.
- 3.23 The 1986 Act requires that members must be notified of written non-confidential proposals to their society either to merge with another society or to be taken over by a commercial company. Part II of Schedule 16 to the 1986 Act imposes a duty to send a **merger statement** to members, advising them of a proposal to merge, and Part IA of

Schedule 17 to the 1986 Act imposes a like duty to send a **transfer proposal notification**, advising them of a proposed takeover. If a proposal of either kind has been received, then notification of the prescribed particulars must be sent to every member entitled to notice of a meeting, either separately or together with every notice of the society's annual general meeting, and (where such notification has not already been given) must be included with every notice of the special meeting at which Merger Resolutions are to be moved.

- 3.24 Where notification of takeover or other merger proposals accompanies the notice of a meeting to consider Merger Resolutions, then
- (a) any merger statement must give notice of the fact that a written merger proposal has been received unless notice has already been given to members, or it was received 42 or less days before the meeting, with details of the identity of the proposer, with or without particulars regarding the proposal. If the proposer requests in writing that the proposal be treated as confidential, disclosure is not required. The merger which the members are being asked to vote upon need not be the subject of a merger statement.
 - (b) any transfer proposal notification must give notice of the fact that a written proposal has been received with details of the identity of the proposer, with or without particulars regarding the proposal. If the proposer requests in writing that the proposal be treated as confidential, disclosure is not required.

An invitation to discuss a possible proposal probably would not constitute a proposal within either Schedule.

Provision of merger or transfer proposal statements is a statutory requirement. Provided they accompany the notice of meeting, they may be included in a Schedule 16 Statement, or alternatively may more conveniently be included as one or more discrete paragraphs within the board's rationale explaining its choice of merger partner.

- 3.25 The rationale itself is not a statutory requirement, and is not subject to approval by the Authority. However, the Authority will take account of the information it provides when considering whether to confirm the merger (see section 5, particularly paragraphs 5.9 and 5.12). Societies will, therefore, find it helpful to consult the Authority's staff about the drafting and content of the rationale.

- 3.26 The whole Merger Document should be covered by a **responsibility statement** by the directors of each society. This may be given along the following lines:

“The directors of Building Society and the directors of Building Society accept responsibility for the information relating to their respective societies which is contained in this document. To the best of the knowledge and belief of the directors (who have taken all reasonable care to ensure that such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information”.

- 3.27 The Authority will require the Schedule 16 Statement to include a statement as to whether or not the merger will conflict with any **contractual obligations**, including agency agreements, of either society or their connected undertakings.

Application and the Authority’s Approval

- 3.28 A society’s formal application to the Authority for approval of a Schedule 16 Statement is likely to be the culmination of many weeks of discussion with the Authority’s staff who will have reviewed and commented upon a draft or successive drafts of the Statement, having had regard also to drafts of the Instrument of Transfer (or amalgamation agreement) and the prudential information described in section 2. Societies should also have cleared any proposed Rule changes or, in the case of an amalgamation, the proposed Memorandum and Rules of the successor society, with the Central Office. The probable sequence of events is described more fully in section 8. The case where the Authority has consented to a transferee society proceeding by board resolution, and thereby exempting it from the requirement to put Merger Resolutions, and sending a Schedule 16 Statement, to its members, is described in paragraphs 4.41 and 4.42.

- 3.29 Schedule 16 Statements must be prepared to the same standards as apply to financial statements and directors’ reports. An application to the Authority for approval of a Schedule 16 Statement must be made in writing and should include a declaration made on behalf of the board, that the Statement is complete and includes all material information of which, in the opinion of the directors, the members should be aware. That declaration should say whether or not there have been any other merger or takeover proposals (confidential or otherwise see paragraph 3.23) and confirm that the

information about them is correct. The application should be accompanied by the following documents:

- (a) an authenticated copy of the executed amalgamation agreement or Instrument of Transfer, as the case may be;
- (b) two authenticated copies of the final draft of the Merger Document (or documents) in printer's proof form, including the Schedule 16 Statement, the board rationale, the notice of the general meeting and Merger Resolutions (including, in the case of an amalgamation, the proposed Memorandum and Rules of the successor society), any merger or transfer proposal statements as mentioned in paragraphs 3.23 and 3.24, and the directors' responsibility statements;
- (c) any other documents, such as a covering letter for the Merger Document(s) and proxy voting forms;
- (d) an assurance from the chairman of each society that the Schedule 16 Statement is complete, accompanied by a compliance schedule listing the requirements of the 1986 Act and of this chapter for a Schedule 16 Statement and indicating where in the statement of that society that requirement has been met and confirmation that all the interests of the directors and officers are included in it.
- (e) an assurance by, or on behalf, of the board that the society's systems for verification of membership records are capable of providing the information required to fulfil the relevant requirements of the 1986 Act and the Rules (see paragraph 4.15);
- (f) a letter of comfort from the society's external auditors as specified in paragraph 3.7;
- (g) the appropriate fee as specified in the current Fees Rules;
- (h) confirmation that the final draft as submitted for approval does not differ from that previously seen by the Authority or, where it does, indicating each change that has been made.

3.30 The Authority's approval of the Schedule 16 Statement will be confirmed by returning to the society one authenticated copy of the Statement with the Authority's certificate of approval signed by an authorised signatory for the Authority. There is no statutory requirement for copies of Schedule 16 Statements to be placed on the public files of societies but, because the documents are in the public domain, it is the Authority's practice to pass copies to the Central Office for filing. Were a public announcement about the merger not to be made until after the Authority had approved the Schedule 16 Statement, the Authority would not pass a copy of the Statement to the Central Office until after the announcement. The supporting documents listed above will not be passed to the Central Office.

4. GENERAL MEETINGS AND RESOLUTIONS

This section describes the requirements of the 1986 Act concerning members' entitlement to vote, the register of members and the sending of notices of meetings. It also discusses general meeting arrangements, the resolutions and majorities required and the counting of votes. Finally, it gives guidance on the discretion which the Authority may exercise in these matters. The directors of each society must satisfy themselves that they observe the general law on meetings, the relevant provisions of the 1986 Act and their own Rules.

Resolutions and Voting Majorities

4.1 The 1986 Act provides that a merger must be approved by the requisite Merger Resolutions (Sections 93(2)(c) and 94(2) and (5)(a)) as follows

- (a) **a shareholding members' resolution** (see definition in paragraph 27A of Schedule 2 to the 1986 Act) passed on a poll by a majority of at least 75% of shareholders qualified to vote and voting; and
- (b) **a borrowing members' resolution** passed on a poll by a simple majority of borrowing members qualified to vote and voting (see definition in paragraph 29(1) of Schedule 2 to the 1986 Act);

provided that, in each case, notice has been duly given that the resolution is to be moved as a shareholding members' resolution or a borrowing members' resolution, as the case may be. A member may vote either in person at the meeting or by appointing a proxy (paragraphs 27A(b) and 29(1) of Schedule 2 to the 1986 Act do not provide that the voting on these may be conducted by postal ballot).

4.2 In the case of a **partial transfer of engagements**, in addition to the approval of the members as a whole by passage of the shareholding members' resolution and borrowing members' resolution described above, the society must obtain the approval of an "affected shareholders' resolution", which must be passed by the majority of the affected shareholders eligible to vote; that is, those shareholders in respect of whose

shares it is proposed that the engagements should be transferred (Section 94(3) and (4)) of the 1986 Act. But note that the resolution must be passed by a majority of the affected members eligible to vote, not just a simple majority of those who actually do vote.

4.3 Section 96(1) of the 1986 Act provides that, where a society wishes to pay **compensation** to directors or other officers for loss of office or diminution of emoluments, such compensation must be approved by a special resolution of the society's members (see also paragraph 2.12), separate from the Merger Resolutions. The special resolution must be passed by a majority of at least 75% of those qualified to vote and voting. The Treasury has not made regulations under Section 96(2) of the 1986 Act to set limits below which compensation may be paid without the authority of a special resolution. Therefore, in every case where compensation is proposed, the members must vote on the proposal as a separate issue from whether they approve the merger itself. "Other officers" include, in addition to the Chief Executive and Secretary, any persons who exercise managerial functions under the immediate authority of a director or the Chief Executive of a society (Section 119 of the 1986 Act defines "manager" and "officer").

4.4 The **members' approval of bonus payments** is required as part of the Merger Resolutions (see Section 96(4) to (6) of the 1986 Act) and see paragraph 2.11 for the Authority's view of what may constitute a bonus). If the total gross cost of the proposed bonus(es) (i.e. without any adjustment for prospective corporation tax recovery) is within the prescribed limit, then approval for it need only be included in each of the Merger Resolutions of the society whose funds are to be distributed. If it exceeds that limit then it must be included in each of the Merger Resolutions of each participating society. The prescribed limit was changed by the Building Societies (Mergers) (Amendment) Regulations SI 1995/1874 amending SI 1987/2005 and now is:

- (a) in either a full transfer of engagements or an amalgamation, 5% of the total assets, as stated in the Schedule 16 Statement, of the society to whose members the bonus is to be paid;
- (b) in a partial transfer of engagements, 5% of the share liabilities, as given in the Schedule 16 Statement, to be transferred;

or a sum equal to the society's reserves after deducting its fixed assets (apportioned pro rata in respect of 4.4(b)), whichever is the less. The Regulations should be consulted for the full detail of the calculations.

Entitlement to Vote

- 4.5 Paragraph 5 of Schedule 2 to the 1986 Act provides that no person may be a member of a building society unless he or she is a shareholding member or a borrowing member. A shareholding member is a person who holds a share in the society (that is, an investment in a share account or PIBS). A borrowing member is a person who is indebted to the society in respect of a loan fully secured on land. However, the Rules may provide that borrowing membership is conferred by a loan substantially secured on land, or shall cease if the loan is foreclosed or the land is taken into possession by the society. A minor (that is a person under 18 years of age) may be a member, but may not vote on any resolution.
- 4.6 The mandatory provisions of Schedule 2 to the 1986 Act concerning a member's entitlement to vote on a resolution, which must be reflected in societies' Rules, are that the member must be a member on the voting date, must have been a member at the end of the last financial year before the voting date (paragraph 23(1) of Schedule 2) and must have attained the age of 18 years (paragraphs 5(3) and 34(2) of Schedule 2) on or before the date of the meeting. So far as borrowing members are concerned, the member is not entitled to vote in that capacity if his indebtedness to the society at any relevant date is less than £100 (paragraphs 29(2) and 36 of Schedule 2).
- 4.7 However, Schedule 2 specifies the following further provisions, some, none or all of which **may** be included in a society's Rules with respect to the **entitlement of shareholding members to vote** on any resolution; a person must (see Schedule 2 paragraphs 23(3) to (5) and 36):
- (a) have a qualifying shareholding (which must not be set higher than £100), in one or more share accounts or PIBS, on the "qualifying shareholding date";
 - (b) hold shares on the voting date; and
 - (c) have held shares continuously between those two dates.

4.8 The “**qualifying shareholding date**” is either the last day of the financial year preceding the voting date or, if the voting date falls during that part of a financial year which follows the conclusion of the society’s Annual General Meeting commenced in that year, the first day of the period beginning 56 days before the date of the meeting. Therefore, if a society’s Rules, following the BSA Model Rules (Fifth Edition), include the provisions concerning shareholding and continuity of membership described in paragraph 4.7, **and if the voting date is later than the AGM in that year**, a person to be entitled to vote on a shareholding members’ resolution must:

- (a) have been a shareholding member on the last day of the previous financial year;
- (b) have held shares to the value of at least £100 on the day 56 days before the date of the meeting;
- (c) have held shares continuously from the 56th day through to the voting date;
and
- (d) hold shares on the voting date

But note that there is no requirement for continuity of shareholding between 4.8(a) and (b). (In contrast, in the case of an ordinary or special resolution, membership at 4.8(a) may be satisfied by either borrowing or shareholding membership provided the shareholding member satisfies the other conditions of 4.8(b) to (d) in order to vote in his or her capacity as a shareholder.) Note also that a person cannot meet a requirement for “holding shares” on a given date, or during a given period, by relying on his holding of a share account with an overdrawn balance; and a person cannot meet a requirement for being a “member” on a given date (for example, at 4.8(a)) by relying on his holding of such a share account.

4.9 The mandatory provisions of Schedule 2 to the 1986 Act concerning **entitlement to vote on a borrowing members’ resolution** are, as noted above, that the member must have been, and be, indebted to the society for at least £100 (whether on one or

more accounts) at the end of the last financial year before the voting date, and on the voting date, in respect of an advance fully secured (or, if the Rules permit, substantially secured) on land (paragraphs 5(2), 23(1), 29(2) and 36 of Schedule 2) and have attained the age of 18 years by the date of the meeting (paragraphs 5(3) and 34(2) of Schedule 2). But note that there is no dispensation in the 1986 Act for the Rules to reduce the qualifying amount below £100, nor to provide for a continuity of membership qualification.

4.10 Schedule 2 makes provision in respect of **joint shareholders** (paragraph 7) and **joint borrowers** (paragraph 8). The only person entitled to exercise the right to vote on behalf of the joint shareholders or joint borrowers is the one who is named first in the records of the society, described respectively as the “representative joint (share)holder” or the “representative joint borrower”.

4.11 A member may vote once only on any resolution, irrespective of the number of accounts he or she may hold. The amount of the balance(s) held on an account(s) is not material, except to qualify to vote (see paragraphs 4.7 and 4.8). Thus, a member with several share accounts and/or several mortgage accounts, whether as sole and/or representative joint shareholder or representative joint borrower, may vote once only on any resolution. When the membership votes as a whole on an ordinary or a special resolution, each member may vote only once, whether he or she is a shareholding or a borrowing member or both. Where shareholding members and borrowing members vote separately, as on the Merger Resolutions, members entitled to vote may vote only once, if a shareholding member, on the shareholding members’ resolution and once, if a borrowing member, on the borrowing members’ resolution. A person entitled to vote both as a shareholding member and as a borrowing member may, of course, vote once on each resolution.

4.12 The “**voting date**” is defined by paragraph 23(6) of Schedule 2 as, for this purpose, either:

- (a) for members who appoint a proxy, the last date specified by the society for the receipt of proxy voting forms, which may not be more than 7 days before the

date of the meeting (paragraph 24(6) of Schedule 2). A proxy vote remains valid if the member ceases to be a member after the proxy voting date but before the date of the meeting (paragraph 24(2) of Schedule 2); or

(b) for all other members, the date of the meeting.

4.13 The guidance given in the foregoing paragraphs of this section is intended to give a general description of the provisions of the 1986 Act and of the Rules suggested by the BSA Model Rules. Societies should satisfy themselves that they observe the specific provisions of the 1986 Act and of their own Rules.

Register of Members

4.14 Every society is required to maintain a register of the names and addresses of its members and whether each member is a shareholding member or a borrowing member or both (paragraph 13 of Schedule 2 to the 1986 Act). The register should, so far as possible, be “de-duplicated”; that is, multiple account holders should be identified and their names recorded once only in the register. A society’s systems must also be capable of recognising those members who are eligible to vote by, for example, aggregating share account balances of multiple account holders to check that they have the requisite qualifying shareholding, by checking members’ continuity of shareholding (if and where applicable), and by identifying minors including (separately) those who will shortly attain their majority (see paragraphs 4.6 and 4.9). Other situations requiring careful consideration are, for example, in relation to powers of attorney, personal representatives, and death of the representative joint holder or borrower. This information is required to ensure that the notice of the meeting is sent to all the members entitled to receive it and so that the scrutineers have adequate systems to validate the votes cast on the Merger Resolutions (see also paragraph 4.20).

4.15 It will be necessary for the directors of a society contemplating a merger to satisfy themselves, in consultation with their external auditors, that the society’s systems are capable of delivering the information described above. The Authority will require an assurance on this point when the society applies for approval of the Schedule 16 Statement (see paragraph 3.29(e)). One of the criteria which the Authority has to consider at the confirmation stage is whether some relevant requirement of the 1986 Act or the Rules was not fulfilled (see paragraphs 5.15 to 5.19).

- 4.16 The problem of avoiding duplication in the register of members is significant for most societies of any size. It has been aggravated by the proliferation of types of account over the last decade or so. Societies generally now seek to establish, when new accounts are opened, whether or not the applicant is an existing member and, if so, which accounts are relevant to voting and other membership rights. The task of identifying multiple account holders is complicated by confidentiality requirements. For example, if two accounts are held by a Mr A Smith and a Dr A Smith, both at the same address, the society cannot know (in the absence of other information such as date of birth) whether the two accounts belong to the same person, one opened before and one after he qualified, or by the doctor and his son. A letter of enquiry to one asking about both accounts would risk breaching customer confidentiality. If it is the same person, there is a risk that he will be given the opportunity to vote twice or, if neither account holds more than £100 but they aggregate above that qualifying amount, be denied a vote to which he is entitled.
- 4.17 Where a society identifies a number of accounts which appear to be held by a single member, but it cannot be sure, then it must send separate meeting notices in respect of each account. However, its systems should identify the possible multiple holding so that, if more than one vote is received in respect of that group of accounts, the scrutineers are alerted to the possibility, and can check the proxy forms for evidence of invalid duplicate votes. The voter's declaration suggested by the BSA, in conformity with paragraph 34 of Schedule 2 to the 1986 Act, provides some protection against votes being cast by minors, and attempts the same for duplicate votes (see Enclosure 2 to BSA Circular 5177). It is, however, the duty of each society to make sure that its register of members is reliable.

General Meeting Arrangements

- 4.18 Paragraphs 4.19 to 4.34 consider the requirements for sending notices of meetings and Schedule 16 Statements to members, and the conduct of meetings at which Merger Resolutions are to be moved. It is for societies to satisfy themselves that they comply with the relevant requirements of the 1986 Act, their Rules and the general law on meetings.

Notice of Meeting

- 4.19 The statutory requirements concerning notices are in paragraph 22 of Schedule 2 to the 1986 Act. Notice of the meeting must be given to each shareholding and borrowing member of the society who would be eligible to vote at the meeting if the meeting were held on the date of the notice (a single date for all notices irrespective of when they are despatched). In addition, notice must also be given to any person who will attain the age of 18 years after the date of the notice but on or before the date of the meeting, and to every person who becomes a shareholding or borrowing member of the society after the date of the notice but before the final date for receipt of proxy voting forms, and who would, in either case, be eligible to vote at the meeting if he remained a member until then. (In practice, this may mean sending out a notice to every such person, even if they will, in fact, not be entitled to vote). The Schedule 16 Statement must be sent in or with the notices (paragraph 1(2) of Schedule 16 to the 1986 Act). Accidental omission to give notice of a meeting to any person entitled to receive it does not invalidate the proceedings at the meeting. However, “accidental omission” does not include a systemic failure to send notices (e.g. omitting to send notices to new members, or omission of a group or class of members from the mailing list arising from a fault in a computer programme), nor all cases of error by management - see also paragraph 4.39.
- 4.20 The 1986 Act also provides, in paragraph 21 of Schedule 2, for the **length of notice** to be given to members. The period of notice given must be not less than 21 days or such longer period as the society’s Rules prescribe. The precise procedures for sending notices, the way in which the days are to be counted, and presumed receipt of notices duly sent, will normally be set out in the Rules. Particular points to note are:
- (a) the 21 days’ notice expires with the closing date for the receipt of proxy voting forms, not the date of the meeting;
 - (b) if reliance is to be placed on a provision in the Rules that notices can be deemed to be served 24 hours after posting, then first class post or equivalent means of delivery should be used, but it is advisable to allow a margin of at least an extra day or two, or more if second class post is used;
 - (c) if a society contracts with a commercial mailing firm, it must ensure that the firm is comprehensively instructed about the society’s despatch and delivery requirements, and the society should carry out spot checks to satisfy itself that

its instructions are being properly carried out. A failure by the contractor may invalidate the meeting, even if the society itself has used its best endeavours to police the operation.

- 4.21 The Schedule 16 Statement is required, by paragraph 1(2) of that Schedule, to be sent “**in or with**” the notice of the meeting to every member entitled to that notice. As is suggested in paragraph 3.4, it may be expedient to include both in a comprehensive Merger Document.
- 4.22 Notices and Statements need not be sent to any member in whose case the society has reason to believe that communications sent to him at his registered address are unlikely to be received by him (paragraph 14 of Schedule 2 to the 1986 Act). However, a society is required instead to place notices of the meeting prominently in every branch office, or to place advertisements in newspapers circulating in the areas in which the society’s members live. Such notices or advertisements must be placed at least 21 days before the date of the meeting, and must state where members can obtain copies of the Schedule 16 Statement, the Merger Resolutions and proxy voting forms (Schedule 2, paragraph 35(4)).
- 4.23 It should be noted, however, that a member’s “registered address” may not be the address shown in the society’s register of members but a different address to which the member has requested that communications from the society be sent (Schedule 2, paragraph 13(4)).

Conduct of the Meeting

- 4.24 The meeting should be held at a time and place considered by the board to be most convenient for the generality of the society’s members. This may well not be the same as the traditional time and place for the annual general meeting. In deciding on this, the board should take account of the geographical location of their members. For example, for a society with a majority of its members living in a compact geographical region there must be a strong presumption in favour of an evening meeting. Consideration should be given to the possibility of a larger attendance than usual at a meeting to consider a merger.
- 4.25 Subject to the society’s Rules, its chairman will normally chair the meeting. His function as chairman of the meeting is to ensure that all views are presented and properly discussed. He is unlikely to be able to fulfil that role if he acts also as chief

advocate of a merger which is controversial among members. In such cases it might be appropriate to give to another director the initial task of explaining the merger and of responding to questions from members.

- 4.26 Merger Resolutions or the other resolutions mentioned in paragraphs 4.1 to 4.3, cannot be amended at the meeting except in a way which does not change their substance at all. This is because an amendment to such a resolution has to be subject to the same procedure and period of notice to members as the resolution itself. If a board decides, after due notice of such a resolution has been sent to the members, that the resolution should be amended, then it will be necessary to submit the amended resolution, with due notice, to a general meeting at a later date, unless of course there is still time to fulfil the notice requirements.

Conduct of the Voting

- 4.27 The conduct of the voting must not only be fair but also be seen to be fair, otherwise the result may be called into question. So it is highly desirable that the votes are counted by independent scrutineers. The board may ask the scrutineers, in advance of the meeting, for a running tally of the number of votes being cast if it thinks it might properly encourage more members to vote if the response is low. However, to ask the scrutineers **how** the votes are being cast, before the time comes at the meeting to instruct proxies, carries the risk of accusations, however unfounded they may be, and possible challenge at the confirmation stage, that the board suppressed proxy votes against the resolutions, or unduly influenced members to vote in favour. A board which asks the scrutineers for a running tally of votes, and which circulates its members with further exhortations to vote, must be prepared to argue its case in the face of such accusations at the confirmation hearing. Any circular to members sent after the Merger Document must, therefore, be very carefully considered.
- 4.28 Experience has demonstrated the need for societies to take the greatest care to ensure that they comply strictly with the statutory procedural requirements and their own Rules on meetings and resolutions. The chairman of the meeting should ensure that he or she is well briefed and aware of the Rules and the general law relating to procedural resolutions, such as resolutions to adjourn the meeting. The Authority will require a confirmatory report from the scrutineers on the validity of the voting procedures when the society applies for confirmation (see paragraph 4.38).

4.29 The procedures for the conduct of proxy voting will normally be provided for in the society's Rules, in conformity with paragraphs 24 and 34 of Schedule 2 to the 1986 Act which requires that every proxy form sent by a society to its members must enable the member to direct the proxy how to vote (Schedule 2 paragraph 24(4A)). To minimise the risk of the society's proxy voting procedures being misunderstood, the Authority recommends that the proxy form should include:

- (a) adequate space to insert the name of a proxy other than the chairman of the meeting, and a statement (which must also appear in the notice of the meeting) that the proxy appointed need not be a member of the society (a reminder that the voting member's own name should **not** be inserted might avoid a common problem);
- (b) provision to instruct the proxy to vote either in favour of the resolution, or against it;
- (c) an explicit statement that if the member does not instruct the proxy to vote for or against the resolution, then the proxy will cast the vote, or abstain, as he or she thinks fit;
- (d) the declaration in accordance with paragraph 34 of Schedule 2;
- (e) full recital of the text of the shareholding members' resolution or borrowing members' resolution or, if this is not practicable (e.g. because of space restrictions), a clear indication that the full text may be found in the notice of the meeting;
- (f) instructions as to the return of the completed proxy forms, including the last date for receipt by the society or by the scrutineers. A pre-addressed and pre-paid envelope or other sealed means of return should be provided.

4.30 The 1986 Act does not require societies to send proxy voting forms to members with notices of meetings (except where directors are to be elected). However, the Authority believes that, on a matter as important as a merger, societies would be well advised to send a proxy voting form to members with the notice of meeting. This will avoid any suggestion that members were discouraged from voting, that obstacles were put in their way, or that the society wished (for whatever reason) to be able to identify those who had requested proxy voting forms. If a society decides, nevertheless, not to

send proxy forms to members entitled to vote, then it should make clear to the members that proxy voting forms can be obtained on demand from its branches and/or by application to a central point.

- 4.31 The arrangements for the collection of the proxy forms should be such as to secure confidentiality and to avoid the risk of loss, whether accidental or deliberate. The procedures may provide for return of proxy forms to the scrutineers either directly (if permitted by the society's Rules) or to the society's offices. Where proxy forms are returned to the society's offices, the Authority recommends that the procedures should incorporate the following features:
- (a) the proxy form should be enveloped or otherwise sealed so that the members' voting instructions are concealed;
 - (b) the envelope provided should be clearly marked so that the society can readily identify and separate it from other mail without the envelope being opened;
 - (c) staff responsible for receiving and sorting mail should be given specific instructions about the handling of proxy forms and the overriding importance of security;
 - (d) secure storage of proxy forms should be provided up to the point at which they are handed over to the scrutineers;
 - (e) equivalent handling and security procedures should be applied to proxy forms handed in at branches.
- 4.32 The Authority suggests that proxy voting forms for shareholders and borrowers should be easily distinguishable, perhaps by colour coding, both as an aid to members who may be entitled to vote in each capacity, and as an aid to the scrutineers counting the votes.
- 4.33 Members may, after submitting a proxy vote, choose to attend the meeting and vote in person. There must, therefore, be satisfactory systems in place at the meeting to identify and cancel any proxy votes they may have returned.

Postal Ballots

- 4.34 Paragraph 33 of Schedule 2 to the 1986 Act specifically excludes shareholding members' resolutions and borrowing members' resolutions from its permission for the Rules to provide for voting by postal ballot. This is reinforced in the definition of these resolutions in paragraphs 27A and 29 of Schedule 2. Although other resolutions associated with the merger process might be capable of being approved by postal ballot, in practice voting on all resolutions related to the merger will be by members voting in person or by proxy at a general meeting.

Scrutineers' Report

- 4.35 The scrutineers are responsible for checking the validity of votes cast in person and by proxy. Given the need to ensure that the vote represents the views of the members, the scrutineers should be independent of the society and should not have a direct interest in the result of the voting. It will usually be appropriate to appoint the society's auditors, and it is desirable that they should be appointed not just for the arithmetical count of votes but also to supervise the voting process as a whole so that they are in a position to confirm, after the vote, that all the requirements of the 1986 Act and the society's Rules have been complied with. This would include:
- (a) determining and validating member mailing lists for notices of meetings and Schedule 16 Statements;
 - (b) despatch procedures;
 - (c) timing of notices and despatch of documents;
 - (d) form and content of proxy voting forms;
 - (e) receipt and custody of completed proxy voting forms;
 - (f) validation of completed proxy voting forms to establish that members are qualified to vote and that forms are properly completed;
 - (g) identification and validation of members attending and voting at the general meeting;

- (h) voting procedures at the meeting including casting of proxy votes, count of votes cast in person and aggregation of proxy and personal votes.

4.36 To fulfil the duties outlined above, it is suggested that the scrutineers would need to:

- (a) examine the systems and procedures to be employed by the society, before they are implemented, to ensure that they are satisfactory;
- (b) carry out such checks and tests as they consider necessary during the operation of the procedures as will enable them to be satisfied that the specified procedures are being carried out in practice;
- (c) provide that where validation functions are carried out by the society's staff this is done under the direction and supervision of the scrutineers;
- (d) direct and supervise the count of the votes cast both by proxy and personally at the meeting.

4.37 Validation checks during the counting of votes may be expected to include the following:

- (a) only proxy forms which comply with the 1986 Act and the society's Rules have been used;
- (b) the member is eligible to vote under the 1986 Act and under the society's Rules (a proxy vote may still be valid even though the member ceases to be a member after the closing date for receipt of proxies - see paragraph 4.12 (b));
- (c) only one proxy form per member eligible to vote is included in the count (separate forms may be sent to and returned by a person eligible to vote on both a shareholding members' resolution and a borrowing members' resolution);
- (d) minors are excluded or that there is an explicit confirmation by each member voting by proxy that he is aged 18 or over;
- (e) the proxy form is completed and signed and is otherwise valid (where a proxy voting form lacks a signature but is otherwise valid, it is usual, if time permits,

for the scrutineers to return the form to the member for signature and return in a pre-paid envelope).

4.38 The scrutineers' initial report will be made to the society at the meeting (which may be adjourned for this purpose). The Authority will require, in support of a society's application for confirmation under Sections 93(2)(d), 94(7)(a) and 95(3), a report from the scrutineers on the result of the vote (distinguishing between votes cast in person and by proxy), the total number of members eligible to vote (and the proportion of that number that the votes cast represent), and also confirmation that, in the opinion of the scrutineers the arrangements for the conduct of voting were such as to ensure that:

- (a) notices of the meeting and Schedule 16 Statements were sent to all those entitled to receive them, in accordance with the 1986 Act and the Rules of the society having regard, among other things, to the matters referred to in this chapter;
- (b) the periods of notice given complied with the requirements of the 1986 Act and of the society's Rules, taking into consideration established conventions for the counting of days;
- (c) there were satisfactory procedures to ensure confidentiality of proxy voting forms and to minimise the risk of loss or unauthorised access;
- (d) there were satisfactory procedures to ensure that the count of votes cast personally at the meeting included only votes cast by members eligible to vote and who had not mandated, or had withdrawn, a proxy vote.

4.39 In relation to the notice of the meeting, the scrutineers' report may properly have regard to the provision of paragraph 22(3) of Schedule 2 to the 1986 Act that "accidental omission to give notice of a meeting to, or non-receipt of notice of a meeting by, any person entitled to receive notice of the meeting shall not invalidate the proceedings at that meeting". It should be noted, however, that there is authority to the effect that "accidental" and "non-receipt" would not cover all cases of "error" on the part of the society, for example an erroneous decision of management not to send notices to particular persons or groups of persons.

4.40 The Authority would find it helpful if the scrutineers' report would also comment upon any procedural difficulties encountered and give an analysis of the reasons why

votes were found to be invalid, if the numbers of invalid votes appear to be significant (see also paragraph 5.14).

The Authority's Discretion

- 4.41 The Authority has power under Section 94(5)(b) of the 1986 Act to exempt the transferee society in a transfer of engagements from the duty to call a meeting and put a Schedule 16 Statement and Merger Resolutions to its members, but to proceed instead by board resolution (see paragraph 1(1) of Schedule 16 to the 1986 Act). Before it exercises this discretion the Authority will wish to review the prudential information described in section 2 and, in particular, will wish to be satisfied that the merger will not affect the interests of the members of the transferee society to any significant extent. The Authority will also wish to know whether the merger will mean a change of policy by the society, for example by a significant move into a new geographical area or into a new business activity. Unless it is persuaded otherwise in the circumstances of any particular case, the Authority will not normally grant this exemption unless the total assets of the transferee society are substantially larger than the total assets of the transferor society, and a total asset ratio of 5:1 will be used by the Authority as a broad first measure of relative significance. The general presumption will be that a society, being a mutual institution, should consult its members over an issue as important as a merger unless there are compelling arguments to the contrary.
- 4.42 However, if the transferor society proposes to pay bonuses in excess of the prescribed limit (see paragraph 4.4) then, notwithstanding that the Authority has granted an exemption, the transferee society must seek the approval of its members of a resolution on the terms of the merger (Section 96(4)(b) of the 1986 Act). Similarly, if the transferee society has to change its Rules to avoid disenfranchising members of the transferor society (see paragraph 3.16) it must do so by special resolution. It would be wrong to invite the members to approve a Rule change which was a consequence of a merger without inviting them to approve the merger itself.

5. CONFIRMATION

No merger can take effect until it has been confirmed by the Authority. This section describes the form of application and public notice required and explains the Authority's view of how the statutory Confirmation Criteria should be interpreted. Finally, it gives guidance on the procedure customarily followed by the Authority when considering confirmation applications and hearing representations.

Application

- 5.1 Section 93(2)(d) of the 1986 Act, on amalgamations, and Section 94(7)(a), on transfers of engagements, together with paragraph 7 of Schedule 16, provide that when the necessary Merger Resolutions have been passed the societies concerned must apply to the Authority for confirmation of the merger in such manner as the Authority may direct. The societies are also required, by paragraph 8 of Schedule 16, to publish notices of their applications in one or more of the London, Edinburgh and Belfast Gazettes as the Authority directs, and if it so directs, in one or more newspapers. The choice of official Gazettes and national or local newspapers will, of course, have regard to the area in which the societies' members live.
- 5.2 The parties in an amalgamation should make a joint application for confirmation to the Authority, while the parties to a transfer of engagements should make separate applications for confirmation of the transfer. These applications should specify the date on which the merger is intended to take effect and should be accompanied by two authenticated copies of the Instrument of Transfer, or the amalgamation agreement, and of the Merger Document or separate Schedule 16 Statement. In addition, in the case of an amalgamation, three signed copies of the Memorandum and Rules of the successor to the amalgamating societies should be sent to the Central Office. The scrutineers' report described in paragraphs 4.38 to 4.40, and a certified copy of the minutes of the general meeting at which the Merger Resolutions were moved, must be enclosed with each application.
- 5.3 A pro forma public notice of application, and pro forma letters of application are set out in Annex B.

The Confirmation Criteria

Statutory Provisions

- 5.4 Section 95(3) and (4) of the 1986 Act provides that the Authority must confirm an amalgamation or transfer of engagements **unless** it considers that any one or more of the following Three Criteria apply:
- (a) some information material to the members' decision about the merger was not made available to all the members eligible to vote; or
 - (b) the vote on any resolution approving the merger does not represent the views of the members eligible to vote; or
 - (c) some relevant requirement of the 1986 Act or of the Rules of any of the societies was not fulfilled.

Section 95(5) then provides that the Authority shall not be precluded from confirming a merger by virtue only of the non-fulfilment of some relevant requirement of the 1986 Act or the Rules (the Third Criterion in 5.4(c)) if it appears to the Authority that the failure could not have been material to the members' decision about the merger, and the Authority gives a direction under that sub-section that the failure is to be disregarded.

- 5.5 Where the Authority would be precluded from confirming a merger by reason of any of the defects specified in the Three Criteria, Section 95(6) provides that it may direct a society to remedy the defects. A direction under that sub-section may require a society to call a further meeting; for example, to vote again in the light of a revised Schedule 16 Statement containing material information previously omitted, or after correction of defects in the systems for sending notices of meeting and Statements and validation of votes. If the Authority is then satisfied, having considered evidence furnished by the society, that the defects have been substantially remedied, it must confirm the merger. If not, then confirmation must be refused.

Scope of the Authority's Powers

- 5.6 The Authority's powers in connection with applications for confirmation of a merger are confined to considerations of whether, in the light of the facts, any of the Three

Criteria apply. It is not for the Authority to consider, or make judgements about, the merits of a proposed merger or the fairness of its terms; these matters are first for the board of a society, and then for its members to decide. Once the members have approved the merger and its terms, the Authority has no powers to require a society to make any changes to those terms. The Authority's discretionary powers are similarly confined to the matters described in paragraphs 5.4 and 5.5.

- 5.7 The Authority has no general power to determine disputes between a society and its members. Disputes concerning the services provided by societies in the ordinary course of their business are generally a matter, in the first instance, for a society's internal complaints procedure. They may also fall within the jurisdiction of the Financial Services Ombudsman. Disputes between a building society and a member of the society, in his capacity as a member, in respect of any rights or obligations arising from the Rules of the society or the provisions of the 1986 Act, fall within the jurisdiction of the High Court or, in Scotland, the Court of Session (Section 85 of and Schedule 14 to the 1986 Act). However, the Authority does have power, on the written application of an eligible member, to direct that the member has the right to obtain names and addresses from the society's register of members. Before it gives such a direction, the Authority is required to be satisfied that the member requires that right for the purpose of communicating with members of the society on a subject relating to its affairs, and must have regard to the interests of the members as a whole and to all the other circumstances (Schedule 2, paragraph 15). A fee is payable by the applicant. Chapter 1 on applications for access to the register of members explains who is eligible to apply.

Purpose of Confirmation

- 5.8 The purpose of the confirmation process is to enable:
- (a) interested parties to make representations with regard to the Three Criteria;
 - (b) the society to respond to those representations;
 - (c) the Authority to make such enquiry as it considers necessary to reach informed conclusions on the Three Criteria.
- 5.9 The Authority, in reaching its view on each of the Three Criteria, has to assess not only the points made to it in representations, and the society's responses, but also to

make such further enquiries as it considers necessary. In deciding how far it should pursue such enquiries, the Authority has to have regard to the role and effect of confirmation, and to the mischief which it is intended to prevent. The Authority considers that one role of confirmation is to provide a protection to members against the provision to them by the society of information which is inadequate, obscure or misleading, and against voting irregularities: in other words to ensure that the vote represents the informed decision of the members. The Authority would hope that this safeguard would work in the majority of cases by raising relevant issues early - by causing the board of a society to take care **not** to put confirmation at risk on this account - rather than by the Authority finding that it needed to withhold confirmation at the last stage. In considering the First Criterion, the Authority will have regard to the totality of the information provided to the members by the board of a society and not exclusively to the Schedule 16 Statement.

5.10 The task of the Authority is accordingly:

- (a) to reach a considered view on each of the Three Criteria;
- (b) if that view is that none applies, to confirm;
- (c) if either of the First Two Criteria apply to direct the appropriate remedial action, or to refuse confirmation;
- (d) if the Third Criterion applies, to consider whether it is appropriate to direct that any failure be disregarded: if not, to direct the appropriate remedial action or to refuse confirmation.

In considering the Three Criteria, the Authority may well have to look again at the Schedule 16 Statement, or at issues which were considered in connection with approving that Statement. In doing so, it has a duty to consider information and arguments put to it by representers and by the society, which of their nature were not available earlier, as well as those arising from its own further consideration of the criteria. The Authority would clearly only change the view reached at the time of approval of the Schedule 16 Statement if there were good reasons to do so. But it is under a duty to examine the Statement and connected issues at the time of confirmation in the light of any new information and arguments which become available. Accordingly, the Authority cannot be bound at the confirmation stage to the

view that was taken at the earlier stage as to whether further factual information should be included in the Schedule 16 Statement or as to the accuracy of its contents.

- 5.11 The task of considering each of the Three Criteria is still necessary even if there are no representations. Without such enquiry and consideration the confirmation process would not properly be carried out. The Authority's view of how the Three Criteria should be interpreted and applied is given in the following paragraphs.

The First Criterion

- 5.12 This criterion requires the Authority to consider whether some material information was not made available to the members. The Authority's own view, in which it concurs with the view developed by the Commission in its confirmation decisions, can be summed up as follows:

- (a) the words “**made available to all the members eligible to vote**” mean that the criterion is mainly, if not exclusively, directed to the information provided by a society to the generality of its members;
- (b) the extent of “**information not made available**” can reasonably be assessed by considering how far the totality of information made available falls short of what might be expected to be put to its members by a financial institution of standing and repute seeking to put sufficient information and a fair and balanced assessment of it, and the board's conclusions, to the members to enable them to take an informed decision;
- (c) the words “**material to the members' decision**” require the Authority then to focus on whether it is within the bounds of reasonable possibility that the members' decision would have been different, had any deficiency in information been made good, i.e. whether it could have changed the decisions on voting of sufficient members to lead to a different conclusion. If it is within the bounds of reasonable possibility that the deficiency might have changed the outcome, it is not for the Authority to determine whether it would actually have done so - it should put the decision back to the members. This test requires the Authority to take account both of the size of the vote and of the size of the majority within it;

- (d) the relevance of a particular piece of information to an investor and to a borrower may well be different. Accordingly, it is necessary to consider materiality separately in relation to the shareholding members' resolution and the borrowing members' resolution.

5.13 The Authority's approach to determining whether this criterion is met will accordingly be:

- (a) to review the material put to members, in the light of the members' representations made and the society's responses, but also taking points of its own accord;
- (b) to consider, on the basis of that review, what information relevant to the decision of shareholders, or of borrowers, or both, might reasonably have been expected to be put to members by the board of a society of repute considering its fiduciary duty, and the extent to which (if at all) the information actually put falls short of that;
- (c) to consider separately in relation to the shareholding members' resolution and in relation to the borrowing members' resolution, whether any deficiency so identified was sufficient to amount to "information material to the members' decision".

The Second Criterion

5.14 This criterion requires the Authority to consider whether the votes on the Merger Resolutions do not represent the views of the members. The main mischief to which it appears to be directed is a merger approved by a small and unrepresentative vote. However, a very low turnout, of itself, does not necessarily mean that the criterion applies. It has to be considered in the context of the other criteria, and of any other factors which may have affected the turnout: for example, whether all the members entitled to vote were fully and clearly informed of the terms of the merger proposal and its consequences; whether the members were afforded adequate facilities and opportunity to cast their votes; and the scrutineers' report on the conduct and counting of votes, including the number of, and reasons for, invalid proxy votes.

The Third Criterion

5.15 This criterion requires the Authority to consider whether the relevant requirements of the 1986 Act and the Rules have been fulfilled. The phrase “**some relevant requirement of this Act or the rules of the society**” appears explicitly three times in Section 95 of the 1986 Act:

- (a) sub-section (4)(c) in the specification of this criterion;
- (b) sub-section (5) which gives the Authority power to disregard certain non-fulfilments;
- (c) sub-section (10) which provides that a failure to meet such a relevant requirement shall not invalidate a transfer of engagements, although such failure by a society without a reasonable excuse is a criminal offence.

The interpretation of the phrase is also directly relevant to sub-section (6) - the power of the Authority to give the society a direction to remedy defects specified in paragraphs (a) to (c) of sub-section (4).

5.16 Sub-section (11) defines “relevant requirement”:

“In this section “relevant requirement”, with reference to this Act or the rules of a society, means a requirement of section 93 or 94 or this section or of Schedule 16 to this Act or of any rules prescribing the procedure to be followed by the society in approving or effecting an amalgamation or transfer of engagements”.

The Authority considers that this sub-section should be read naturally. The words “prescribing the procedure to be followed by the society in approving or effecting” a merger apply only to the Rules, in order to specify which of the Rules of the society are “relevant requirements”. They do not apply as a matter of normal construction of the sentence to the “applicable provisions of this Act”: nor is it necessary that they should do so, since those provisions are specified in the sub-section.

5.17 The Authority recognises that the interpretation of “relevant requirement of the Act”, which it considers stems from the natural construction of Section 95(11) of the 1986 Act and which is necessary to give effect to Parliament’s intentions for Section 95(6)

and (10), does not quite fit Section 95(5). The test which the Authority has to apply in the case of sub-section (5) to a non-fulfilment of a relevant requirement of the 1986 Act is:

“if it appears to the Authority that it could not have been material to the members’ decision about the amalgamation or transfer”.

That test clearly is designed to relate to a failure to meet a procedural requirement or to some other failure which might have an effect on the voting.

5.18 The wording of Section 95 of the 1986 Act is such that no construction of the phrase is entirely free from difficulty. The Authority’s view is that the wording, and the intentions of Parliament, are best met by following the natural construction of sub-section (11), as a result applying a wide interpretation in sub-sections (4), (6) and (10), but only considering that it is open to the Authority to make a direction under sub-section (5) in relation to non-fulfilment of a procedural requirement or other failure to which the test in that sub-section is apposite.

5.19 The Authority considers that the relevant requirements of the Rules are those which prescribe the procedure to be followed that is, in particular, the Rules concerning membership, special meetings, notice of meetings, procedure at meetings, entitlement of members to vote on resolutions, appointment of proxies and joint shareholders and borrowers.

Procedure

5.20 The procedure to be followed in the confirmation process is prescribed by Part III, paragraphs 7 to 9, of Schedule 16 to the 1986 Act. Any interested party has the right to make written representations, and/or to give notice of intention to make oral representations to the Authority with respect to a society’s application for confirmation. Written representations are to be copied to the participating societies, which are to be afforded the opportunity to comment on them in writing or orally at the hearing of their applications.

Representations

5.21 Persons making representations should state why they claim to be interested parties, for example their category of membership of the society, and the ground or grounds

for their representations by reference to the Three Criteria discussed above. Written representations, or notice of a person's intention to make oral representations, or both, must be in writing. They must reach the Authority at the address, and by the date, given in the Merger Document issued to members and subsequently published by notice in the official Gazettes and newspapers as required by the 1986 Act. Persons who make written representations and who subsequently decide also to make oral representations must, nevertheless, give notice of that intention in writing to the Authority by the same date. Representations received out of time will not be considered unless, exceptionally and at the sole discretion of the Authority, they appear to the Authority to raise matters of substance relevant to the Three Criteria which are not already under consideration.

5.22 Representations or notices to the Authority will fall into one of the following three categories:

- (a) written representations only
- (b) written representations with notice of intention to make oral representations
- (c) notice of intention to make oral representations only.

5.23 The Authority will acknowledge the receipt of each representation or notice and will send a copy of chapter 4 of this IPSB on confirmation procedures to each representer. It will send copies of all written representations to the societies concerned and will afford them an opportunity to comment on them.

5.24 Copies of the society's comments on representations in category 5.22(b) will be sent to those who made the representations so that they may concentrate their oral representations on the points which they consider to remain at issue. Persons making written representations who wish to see the society's response must, therefore, give notice of intention to make oral representations. The Authority will consider the written representations in category 5.22(a) and the societies' responses to them in advance of the date set for hearing oral representations. The society may, exceptionally, apply to put to the Authority in confidence documents which the society considers to be commercially sensitive: the Authority will decide on the merits of each case whether, and on what terms, to accept them as being confidential. Persons in category 5.22(c) will be asked to inform the Authority, in advance of the

hearing, of the subject and general grounds of the representations they intend to make and their responses will be copied to the society.

- 5.25 Interested parties may join together in making collective representations and they may also appoint a person, either one of their number or another, to represent them at the hearing. They should notify the Authority in advance if this is what they intend to do.

Conduct of the hearing

- 5.26 The Authority may appoint one or more persons to hear and decide applications on its behalf. In the absence of notices of intention to make oral representations the Authority would expect to decide the applications having regard to the written representations, the societies' responses and other information available to it, without the need for an oral hearing.
- 5.27 The Authority will notify the societies and those making oral representations of the time and place of the hearing. If there are a significant number of persons wishing to make oral representations, then the hearing may extend beyond one day and may be adjourned from time to time and from place to place. The Authority will try to advise participants of the day when they may expect to make their representations and when the societies' representatives may be expected to respond.
- 5.28 The Authority expects that hearings will be in public. Members of the general public and the press will be asked to wait outside at the outset of the hearing. The participants will then be asked if any of them has good reason to object to the admission of the general public and the press (such as, for example, the need to refer to personal financial affairs). The Authority may decide that parts of the hearing shall be in private if that appears to it to be desirable. If there are no reasonable objections, the general public and the press will then be admitted, within the limits of the space available.
- 5.29 The procedure will be informal. While all participants will be invited to speak concisely and to avoid repetition the Authority will be considerate towards those who are not professionally represented. The individual or panel taking the hearing on behalf of the Authority may question the participants as the hearing proceeds. The sequence of events will be broadly as follows:

- (a) any preliminary matters (such as the admission of the public or other procedural questions) will be dealt with;
- (b) the person(s) appointed to hear the applications will introduce the proceedings;
- (c) the representatives of the societies will be invited to present their applications for confirmation, including a description of the events at the meetings at which the Merger Resolutions were put to the members, the statement of the voting on the resolutions, as well as any other matters which they wish to introduce at that stage;
- (d) the other participants will be invited to make their representations; where appropriate the Authority would expect to call them in a list marshalled, so far as possible, by subject matter;
- (e) the representatives of the societies (or of the relevant society) will be invited to reply to, or comment on, the points made by the other participants;
- (f) the other participants will be invited to comment on the societies' replies in so far as those replies raise new issues.

5.30 The above procedure may be varied according to the circumstances at the hearing, and is intended only as a guide to the probable order of events. The hearing may be adjourned if the Authority considers that is necessary to enable facts to be checked or additional information to be obtained.

The Authority's decision

5.31 The Authority will not normally give an oral decision at the end of the hearing and may be expected to reserve its decision to be issued later in writing, setting out its reasons. Copies of the written decision will be sent to the participants and, on request, to any other person. The decision may also be published, and the Authority usually asks the Central Office to place copies on the public files of the participating societies.

6. TRANSFER OF ENGAGEMENTS UNDER DIRECTION

This section describes the Authority’s powers to direct a society to transfer all its engagements to one or more other societies and/or to proceed by board resolution, and the modified merger procedure consequently prescribed by the 1986 Act.

- 6.1 Section 42B of the 1986 Act provides that, if the Authority considers it expedient to do so to protect the investments of shareholders or depositors, it may direct a society, among other things, to transfer all its engagements to one or more other societies within a specified period (subsection (1)(a)). In such a case, or where the Authority would have directed a transfer of engagements, but for the fact that negotiations were already under way, the Authority may also direct that the approval of the transfer of engagements by the transferor society may be by board resolution rather than by Merger Resolution. In these circumstances, because neither a Schedule 16 Statement nor Merger Resolutions are required, the 1986 Act requires the society instead to send to every member entitled to notice of a meeting a statement (referred to below as a “**Merger Notification Statement**”) before it applies for confirmation of the transfer of engagements, (paragraphs 3 and 4 of Schedule 8A to the 1986 Act). Finally, in these circumstances, the First and Second Criteria concerning information made available to, and the views of, the members (see section 5) are replaced by a single criterion:

“the members or a proportion of them would be unreasonably prejudiced by the transfer;” (paragraph 5 of Schedule 8A to the 1986 Act).

- 6.2 Where a society is proceeding under a Section 42B(3) direction by board resolution, the Schedule 16 Statement is replaced by a Merger Notification Statement and a general meeting of the society is not required. The contents of the Merger Notification Statement are prescribed by The Building Societies (Merger Notification Statement) Regulations 1999 (SI1999/1215).

- 6.3 The Merger Notification Statement must have been approved by the Authority before it is sent to the members, and must be sent within the specified time limit.

Applications for approval should, in general, follow the procedure described in paragraph 3.28, and the final draft of the Merger Notification Statement should be accompanied by the relevant documents listed in paragraph 3.29, but as appropriate to the particular case and the less extensive information the statement is required to contain.

- 6.4 Section 4 (General Meetings and Resolutions) does not apply, except that the directors will need to be satisfied that the society's register of members is correct to enable the society to send Merger Notification Statements to those entitled to receive them.
- 6.5 When the board has resolved to transfer the society's engagements and Merger Notification Statements have been sent to its members, the society may apply to the Authority for confirmation of the transfer of engagements, but using an adaptation agreed with the Authority of the *pro forma* in Annex B1. The procedure described in section 5 is to be followed, including the publication of notices in the official Gazettes and newspapers and the form of application. However, the lapse of time between each stage of the procedure may be modified according to the particular circumstances of a case, and having regard to the need to protect the investments of shareholders or depositors. While a scrutineer's report will not be required, the Authority will require a report from the society's external auditors on the adequacy of the society's systems to fulfil the requirements of the 1986 Act and the Rules with regard to the sending of Merger Notification Statements. This is, of course, relevant to the Authority's consideration of the Third Criterion.
- 6.6 As is noted in paragraph 6.1, the First and Second Criteria are replaced, in those circumstances, by a single criterion as to whether the members or a proportion of them "would be unreasonably prejudiced by the transfer". Whether this special criterion applies will be a matter of judgement for the Authority to make in the light of any representations made to it and its own enquiries in respect of the particular case. It follows also that, in considering the Third Criterion, the Authority will take account of the modified procedure.

7. REGISTRATION AND DISSOLUTION

- 7.1 When the Authority has confirmed a merger (whether voluntary or under direction) it will notify the Central Office and the societies concerned.
- 7.2 **In the case of an amalgamation**, the Central Office is required to be satisfied as regards the proposed Rules, Memorandum and name of the successor society. The amalgamating societies are, therefore, advised to clear drafts of the proposed Rules and Memorandum with the Central Office at an early stage (see paragraph 3.28). When they apply to the Authority for confirmation under Section 93(2) of the 1986 Act, the amalgamating societies must also send three signed copies of the Rules and Memorandum to the Central Office (Section 93(2)(d)). If the Central Office is satisfied on these matters it will, upon confirmation, register the successor society and issue to it a certificate of incorporation specifying the date (the specified date) from which the incorporation takes effect, and will return to it one copy each of the Rules and Memorandum together with a certificate of registration. Copies are placed on the public file of the successor society.
- 7.3 On the specified date of the amalgamation, all the property, rights and liabilities of the amalgamating societies are transferred to the successor society, the successor is given such permission under Part IV of the Act as the Authority considers appropriate, and the amalgamated societies are dissolved and their registrations cancelled (Section 93, sub-sections (4), (5) and (6) and Section 103(1) of the 1986 Act). In deciding on the appropriate terms of the permission for the successor society, the Authority will have regard to the terms of the permissions of the amalgamating societies, including any limitations or requirements. It will also have regard to the business plan for the successor society.
- 7.4 **In the case of a transfer of engagements**, the Central Office will register a copy of the Instrument of Transfer of Engagements and issue a registration certificate to the transferee society. A copy of the Instrument of Transfer and the registration certificate are placed on the public file of the transferee society. On the date specified in the registration certificate, the property, rights and liabilities of the transferor society are transferred to the transferee society, by virtue of Section 94(8) of the 1986 Act, the transferor society's authorisation is revoked by the Authority, and the society itself is dissolved (Section 94(10)). The transferor society's registration is subsequently cancelled by the Central Office under Section 103(1).

8 TIMETABLE

8.1 The time taken to complete a merger will vary from case to case. As a general rule of thumb, it is unlikely that a merger can proceed from board decision through approval of the Schedule 16 Statement, general meeting and confirmation hearing, to the effective date, in less than 6 months. It is essential to the good and orderly management of a merger that the societies concerned meet with the Authority's staff as soon as their boards have resolved to seek a merger, and agree upon a provisional timetable. This can then be fixed by the time the Schedule 16 Statement is approved. The members can then be notified, as they must be, of the date provisionally set for the confirmation hearing and of the proposed date of completion of the merger in the Merger Document.

8.2 The likely sequence of events is as follows:

Stage 1 Informal consultations with the Authority's supervisory staff on both substance and timing of the proposed merger.

Stage 2 Submission to the Authority of:

(a) prudential information: this should be available to the Authority for discussion with the society well before the Schedule 16 Statement is submitted for approval;

(b) written details of the proposed terms of the merger: it will be helpful for both the societies and the Authority to be clear about these matters as soon as possible after Stage 1 and well before Stage 3 is reached.

Submission to the Central Office, in the case of an amalgamation, of preliminary draft Rules and Memorandum, noting any unresolved issues.

Stage 3 Submission to the Authority and, in respect of (b) below, to the Central Office in draft of the following:

- (a) the Instrument of Transfer or amalgamation agreement embodying the merger terms provisionally agreed by the respective boards of directors;
- (b) in the case of an amalgamation, the proposed Rules and Memorandum of the successor society;
- (c) the Merger Document, including the Schedule 16 Statement, unless consent to proceed by way of board resolution is being sought in respect of the transferee society, together with the explanations of change, comparability and commitments referred to in paragraphs 3.8 to 3.10 and 3.27;
- (d) notice of the meeting at which the Merger Resolutions are to be moved, which may form part of (c) above;
- (e) the proxy voting forms to be used.

After examination of these drafts, the Authority or, as the case may be, Central Office staff will return them with any comments and, if necessary, will discuss them with the societies and their advisers. Any clearance by the Authority at this stage is provisional, and the Authority may seek further modification of the documents in the light of later information. Similarly, any clearance given by the Central Office is subject to review of the proofs submitted at stage 4.

If the transferee society is applying for consent to proceed by way of board resolution, formal application to do so (with supporting justification) should be made to the Authority at this stage.

- | | |
|---------|---|
| Stage 4 | Submission of printers' proofs of the above draft documents. |
| Stage 5 | Informal clearance of near-final proofs (particularly of the Schedule 16 Statement(s)) by the Authority. |
| | Informal clearance of proof copies of Rules and Memorandum by the Central Office, in the case of an amalgamation. |

Stage 6

Formal submission of the Schedule 16 Statement(s) for approval by the Authority. The covering letter should include a declaration on behalf of the board of the society either:

- (a) that there has been no material change in the financial position of the society since the date of the information provided in the Schedule 16 Statement; or
- (b) that there has been such a change and that it is fairly reflected in the wording of the statement.

This submission should be accompanied by:

- (c) a certified copy of the Instrument of Transfer or amalgamation agreement as executed;
- (d) two copies of the final printers' proof of the Schedule 16 Statement signed by the Secretaries of each society;
- (e) a final printers' proof of the complete Merger Document to be sent to members, together with any covering letter and other documents to be sent with it, including proxy voting forms;
- (f) an assurance from the chairman of each society that the Schedule 16 Statement is complete and that all material interests of directors and officers are disclosed in it;
- (g) an assurance by or on behalf of the board on systems.
- (h) letter of comfort from the society's external auditors when required (see paragraph 3.7);
- (i) confirmation that drafts submitted for approval are identical to those seen at stage 5;
- (j) the fee payable by each society to the Authority.

NB Schedule 16 Statements should not be printed for distribution to members until after Stage 7.

Stage 7 Approval by the Authority of the Schedule 16 Statement, or the Authority's consent to proceed by board resolution. Approval or consent will be given by letter and one proof copy of the Schedule 16 Statement, with the certificate of approval signed on behalf of the Authority, will be returned to the society.

Stage 8 Printing and circulation of documents to members in time to be received by them at least 21 days before the voting date for the meeting at which the Merger Resolutions are to be moved (see paragraphs 4.12, 4.19 and 4.20).

Stage 9 The meetings at which the Merger Resolutions are moved.

Stage 10 If the Merger Resolutions have been passed, application to the Authority for confirmation and publication of notices of that application in the London and Edinburgh or Belfast Gazettes, and in other newspapers (as the Authority directs). The application must notify the Authority of the specified effective date for the merger, and be accompanied by two authenticated copies of the Instrument of Transfer or amalgamation agreement. In addition, in an amalgamation, four signed copies of the Memorandum and Rules of the successor society should be sent to the Central Office. The societies must report to the Authority on the outcome of their meetings.

Stage 11 Notification by the Authority of the time and place of the confirmation hearing, if it is necessary to hold an oral hearing. The societies should allow sufficient time before the proposed effective date for the Authority to consider and write its decision, and in case it proves necessary to adjourn the hearing.

Stage 12 Confirmation hearing and decision by the Authority whether to confirm the merger.

Stage 13 Registration by the Central Office to give effect to the amalgamation or transfer of engagements.

8.3 The following table indicates the likely minimum time to be taken by the main stages outlined above:

Pre Day 1	Board Resolution to Merge Initial discussions with Authority re timetable and prudential information Submission of terms and initial prudential information to Authority Submission of draft Rules and Memorandum to Central Office (amalgamations)
Day 1	First draft of Schedule 16 Statement and chairman's letter and notice of meetings, draft Rules and Memorandum (amalgamations) (Stage 3)
Day 28	Authority gives informal approval to Schedule 16 Statement, Instrument of Transfer signed (Stage 5)
Day 35	Formal Schedule 16 approval by the Authority (Stage 7)
Day 35-43	Printing, enveloping and mailing of Schedule 16 Statement and notice of meetings (Stage 8)
Day 65 - 70	Last date for receipt of proxy votes (depending on Act and Rules)
Day 72	SGM (Stage 9)
Day 75	Application to Authority for confirmation (Stage 10) Rules and Memorandum to Central Office (amalgamations)
Day 93	Closing date for receipt of representations
Day 114	Confirmation hearing (Stage 12)
Day 142	Authority's Decision on Confirmation (Stage 12)
Day 160	Effective Date

Notes:

- (a) Within the above timetable prudential information to be submitted.
- (b) A significant amount of financial information needs to be assessed by the Authority prior to approval of Schedule 16 Statement.
- (c) Prior to approval of Schedule 16 Statement a plan/timetable for integration of systems to be drawn up. Auditors sign off required prior to effective date.

PRO FORMA MERGER DOCUMENT

1. Title Page

Including suggestion to consult professional advisers and reference to meeting notice and voting procedures.

2. Directors' Responsibility Statement

See paragraph 3.26.

3. Board Rationale

Including statutory Merger Statement, if required (see paragraphs 3.23 and 3.24).

4. The Merger Process

Description and explanation of:

- (a) the general meeting and Merger Resolutions;
- (b) the confirmation process, including the right of interested parties to make representations to the Authority, the dates provisionally set for receipt of written representations and notice of intention to make oral representations, and for the confirmation hearing, and the confirmation criteria specified in Section 95 of the 1986 Act;
- (c) the planned effective date of the merger.

5. The Instrument of Transfer of Engagements or Amalgamation Agreement

The address of the principal office of the society where the Instrument of Transfer or amalgamation agreement will be available for inspection, and whether copies of the Instrument or agreement will also be available at branch offices, with a cross-reference to Section B of the Schedule 16 Statement.

6. The Schedule 16 Statement

Statement Required by Schedule 16 to the Building Societies Act 1986

Proposed Transfer of Engagements of [ABC] Building Society to [DEF] Building Society

or

Proposed Amalgamation of [ABC] Building Society and [DEF] Building Society to form [GHI] Building Society

Section A: Financial Position of Each Society

1. *Balance Sheets*

Summarised balance sheets derived from the audited [unaudited] [consolidated] accounts of [ABC] [society] [Group] for the financial year ended (date) [as at (date)] and from the audited [unaudited] [consolidated] accounts of [DEF] [society][Group] for the financial year ended (date) [as at (date)] are set out below:

	Notes	ABC [Group] £m	DEF [Group] £m
<i>Assets</i>			
Liquid assets	4(b)	•	•
Mortgages	4(e)	•	•
Other loans	4(e)	•	•
Fixed and other assets	4(c),(d)	•	•
		<hr/>	<hr/>
		•	•
<i>Liabilities</i>			
Shares		•	•
Borrowings		•	•
Other liabilities		•	•
Subordinated liabilities		•	•
Subscribed capital		•	•
Reserves		•	•
Other capital		•	•
- revaluation reserve		•	•
[- other]		•	•
		<hr/>	<hr/>
		•	•

2. *Results*

Particulars derived from the audited [unaudited] [consolidated] accounts of [ABC] [Group] for the period ended (date) and from the audited [unaudited] [consolidated] accounts of [DEF] [Group] for the period ended (date):

	ABC [Group] £m	DEF [Group] £m
Net interest receivable	•	•
Other income and charges	•	•
Administrative expenses	•	•
Provisions	•	•
	<hr/>	<hr/>
Profit/loss for the period before taxation	•	•
Taxation	•	•
Minority interests	•	•
	<hr/>	<hr/>
Profit/loss for the period	•	•

3. *Key Financial Ratios*

	ABC [Group] %	DEF [Group] %
As a percentage of shares and borrowings:		
Gross capital	•	•
Liquid assets	•	•
As a percentage of mean total assets:		
Profit after taxation for the period	•	•
Management expenses for the period	•	•

The above percentages have been calculated from the balance sheets summarised above.

Gross capital comprises reserves and other capital, plus subscribed capital and subordinated liabilities, and amounts to £..... million for [ABC] and £..... million for [DEF].

Shares and borrowings, adjusted to exclude interest accrued but not yet credited to accounts, amount to £..... million for [ABC] and £.... million for [DEF].

Average total assets is calculated as the mean of the total assets at the beginning and end of the period and amounts to £..... million for [ABC] and £..... million for [DEF].

The estimated gross and net costs of the bonus to be paid to members are £....

The ratio of gross capital to shares and borrowing of the combined society, after allowing for the net cost of the bonus to be paid to members, is estimated to be%. On the same basis of calculation, but not accounting for the bonus payment, this ratio is estimated to be%.

4. *Notes to the Financial Position*

(a) Accounting policies

[Identify any significant differences between the accounting policies adopted by the two societies, and quantify the impact of a change in policy to achieve consistency. If there are no such differences then this should be stated].

(b) Liquid assets include listed securities as follows:

	ABC [Group] £m	DEF [Group] £m
Amount included in the balance sheet	• _____	• _____
Market value	• _____	• _____

(c) Fixed and other assets

	ABC [Group] £m	DEF [Group] £m
Tangible fixed assets	•	•
[Intangible fixed assets]	•	•
Other assets	•	•
	<hr/>	<hr/>
	•	•
	<hr/>	<hr/>

[Describe the nature of any intangible fixed assets and the method of amortisation thereof, if any]

(d) Tangible fixed assets

	ABC [Group] £m	DEF [Group] £m
Net book amount of land and buildings		
Freehold	•	•
Long leasehold	•	•
Short leasehold	•	•
	<hr/>	<hr/>
	•	•
Other tangible fixed assets	•	•
	<hr/>	<hr/>
	•	•
	<hr/>	<hr/>

[For each society's land and buildings give the difference between the net book amount and estimated current market value, or a director's opinion that there is no material difference between the two. Indicate the basis on which current market value has been determined, the effective date of the valuation and the name(s) of the valuer(s)]

[Identify significant differences in depreciation policy or estimated asset lives, quantifying the impact of any change to a common basis]

(e) Provisions for losses on mortgages and other loans

	ABC [Group] £m	DEF [Group] £m
Specific provisions	•	•
General provisions	•	•
	<hr/>	<hr/>
Total amount offset against mortgages and other loans	•	•
	<hr/>	<hr/>

(f) Pensions

[Describe the pension schemes of each society and the extent to which funded schemes are, on the basis of the latest actuarial valuations, in surplus or deficit. Give date of most recent actuarial valuation.]

(g) Summary information on the businesses of [connected undertakings]

The financial information given above includes the assets and liabilities and results of the Society and the following subsidiary undertakings and associated undertakings.

ABC [Group]

Subsidiary undertakings [names]	Principal activity
------------------------------------	--------------------

Other associated undertakings
[names]

DEF [Group]

Subsidiary undertakings
[names]

Other associated undertakings
[names]

(h) Post balance sheet events

[see paragraph 3.8]

5. *Costs and benefits of the merger*

[Give a factual assessment of the quantifiable and unquantifiable actual and expected costs and benefits, including integration, rationalisation and future business plans]

Section B: Instrument of Transfer of Engagements or Amalgamation Agreement

The paragraphs below prefaced by “Note” do not appear in [nor are they a paraphrase of the text in] the Instrument of Transfer or amalgamation agreement and are intended for the additional information of members.

The Instrument of Transfer or amalgamation agreement provides, inter alia, for the following matters.

1. *Name of Society*

The name of the combined society will be Building Society.

2. *Transfer of Assets and Liabilities*

On the Effective Date (see item 10) the property, rights and liabilities of [ABC] Building Society will be transferred to and vest in [DEF] Building Society (the combined society). [In an amalgamation, the assets and liabilities of both societies are vested in the new successor society.]

3. *Membership Rights*

[Give the provisions of the Instrument of Transfer or amalgamation agreement concerning deemed membership. See paragraph 3.16]

4. *Share Accounts and Deposit Accounts*

On the Effective Date, share and deposit account balances of [ABC] Building Society will become share and deposit account balances with [DEF] Building Society on the following terms:

[Give the provisions of the Instrument of Transfer or amalgamation agreement and refer to the Investment Schedules in Section C]

Note: interest rates which are variable are subject to change either before or after the Effective Date of the merger.

[Provisions concerning PIBS]

5. *Mortgage Accounts*

On the Effective Date, the indebtedness of any person to [ABC] Building Society for a loan made by it [fully] secured on residential property will become indebtedness to [DEF] Building Society to the same extent and such indebtedness will be subject to the same terms and conditions as presently apply except that the Rules of [DEF] Building Society rather than the Rules of [ABC] Building Society shall apply.

[Alternatively, give the provisions of the Instrument of Transfer or amalgamation agreement concerning any change in terms and conditions]

Note: [give any further explanation necessary to a clear statement of any changes, including those effected by the transferee society's Rules]

6. *Bonus to Members*

[Give the provisions of the Instrument of Transfer or amalgamation agreement and the estimated net cost of the bonus. See paragraphs 3.13 and 3.14]

7. *Directors and Other Officers*

[Give the provisions of the Instrument of Transfer or amalgamation agreement]

Note: [Describe any changes in fees and contracts of employment or bonus schemes, or whether there will be no change]

Note: [Describe any compensation to be authorised by separate special resolution, or state that no such compensation is to be paid. State whether any person is not to take up employment with the combined society and that any payments to be made under their contracts of employment do not fall to be approved by special resolution. See paragraphs 3.11 and 3.12]

8. *Employees*

[Give the provisions of the Instrument of Transfer or amalgamation agreement]

Note: [State, unless the Instrument or agreement so provides, whether there are to be any changes to terms and conditions of employment, and what they are, and explain how any staff reductions are to be achieved and the planned timescale.]

9. *Pension Arrangements*

[Give the provisions of the Instrument of Transfer or amalgamation agreement]

10. *Conditions and Termination Provisions*

[Give details of the provisions of the Instrument of Transfer or amalgamation agreement which (a) impose conditions on the completion of the transfer of engagements, such as approval by the members and confirmation by the Authority, and (b) provide for the termination of the agreement if one or more of the conditions is not met or in any other circumstances.]

11. *Rules and Memorandum*

[Explain any proposed Rule changes and, in the case of an amalgamation, any differences in the proposed Rules and Memorandum compared with the existing societies.]

Section C: The Investment Schedules

[These are the schedules referred to in Section B.4 and in paragraph 3.17]

Section D: Information for Holders of PIBS

[If either society has issued Permanent Interest Bearing Shares]

Section E: Other Matters

1. Save for [the following and] the matters referred to in Section B.7 no director or other officer of [ABC] Building Society or [DEF] Building Society will receive any benefits in connection with the merger or will have any material interest in the merger.

[Describe any other interests of directors or other officers and persons (including companies) connected with them by way of, for example, fees for professional services, or supply of goods and services]

2. The directors of [ABC] Building Society and the directors of [DEF] Building Society confirm that the transfer of engagements [amalgamation] will not conflict with any contractual commitments of their Society or its connected undertakings.
3. The directors of [ABC] Building Society and the directors of [DEF] Building Society confirm that there has been no material change in the financial position of their Society or its connected undertakings since [date], the date to which the information in Section A relates [other than the post balance sheet event(s) described in Section A 4(h)].

	INDEX	82

DEFINITIONS AND NOTES

“the Act”	the Financial Services and Markets Act 2000
“the 1986 Act”	the Building Societies Act 1986 as amended ⁽¹⁾
“AGM”	Annual General Meeting
“the Authority”	the Financial Services Authority
“the Banking Regulator”	the Authority or other competent authority in another EEA state, as the case may be ⁽²⁾
“the board”	the board of directors of a society
“borrower” or “borrowing member”	a person who is indebted to a society in respect of a loan fully secured or, where the Rules so provide, substantially secured on land
“the BSA”	the Building Societies Association
“the Central Office”	the department of the Authority carrying out the registration functions transferred from the Central Office of the Registry of Friendly Societies ⁽²⁾
“the Commission”	the former Building Societies Commission ⁽²⁾
“the Confirmation Criteria”	the criteria specified in Section 98(3) of the 1986 Act which the Authority has to consider when deciding whether to confirm a transfer of the business of a society to a commercial company ⁽³⁾
“conversion”	the transfer of the business of a society to a specially formed company
“existing company”	a company which is a company within the meaning of the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 and is a public company limited by shares, or is incorporated in an EEA State other than the United Kingdom and has power to offer its shares and debentures to the public, and which is carrying on business as a going concern on the date of the Transfer Agreement

DEFINITIONS AND NOTES (Continued)

“the Fees Rules”	the Rules made by the Authority from time to time under paragraph 17 of Schedule 1 to the Act prescribing the fees to be paid in connection with the discharge of its functions under the 1986 Act
“the First, Second, Third and Fourth Criteria”	see the “Confirmation Criteria”, and relating respectively to the criteria specified in subsections (a), (b), (c) and (d) of Section 98(3) of the 1986 Act ⁽³⁾
“member”	a shareholding or borrowing member of a society
“PIBS”	Permanent interest bearing share, a type of deferred share in a society
“proxy voting form”	an instrument appointing a proxy to attend a meeting of a society and vote on the member's behalf
“Qualifying Day”	the day specified in the Transfer Agreement as the qualifying day for the purposes of Section 100 of the 1986 Act
“Rules”	the Rules of a society
“SGM”	Special General Meeting
“shareholder” or “shareholding member”	a person holding shares in a society (by virtue of investing in one or more share accounts or holding PIBS or other deferred shares)
“society”	a building society
“specially formed company”	a company formed by a society (and by no other than its nominees) for the purpose of assuming and conducting the society's business in its place, which is a company within the meaning of the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 and is a public company limited by shares, or is incorporated in an EEA State other than the United Kingdom and has power to offer its shares or debentures to the public

DEFINITIONS AND NOTES (Continued)

“Statutory Cash Bonus”	the bonus required by Section 100(2)(b) and (4) of the 1986 Act to be paid to every shareholder of the society who held shares on the Qualifying Day and was not eligible to vote on the requisite shareholding members' resolution
“successor” or “successor company”	a company, whether an existing company or a specially formed company, to which the business of a society is proposed to be transferred
“takeover”	the transfer of the business of a society to an existing company
“transfer”	a conversion or takeover, or both, as the context requires
“Transfer Agreement”	the agreement required by Section 97(4)(b) of the 1986 Act between a society and its successor company on the terms of the transfer
“Transfer Document”	the document or booklet containing, <i>inter alia</i> , either the Transfer Statement or the Transfer Summary
“Transfer Regulations”	the Building Societies (Transfer of Business) Regulations 1998 (SI 1998/212)
“Transfer Resolutions”	the shareholding members' resolution and borrowing members' resolution required to approve a transfer where no direction under Section 42B(4) of the 1986 Act has been given
“Transfer Statement”	the statement required by Schedule 17 to the 1986 Act to be sent in or with the notice of the meeting at which the Transfer Resolutions are to be considered or, if a Transfer Summary is sent, made available to every member entitled to notice of a meeting of the society
“Transfer Summary”	the summary of the Transfer Statement which may, in accordance with Schedule 17 to the 1986 Act, be sent, instead of the Transfer Statement, in or with the notice of the meeting at which the Transfer Resolutions are to be considered, to every member entitled to receive that notice

DEFINITIONS AND NOTES (Continued)

“Trustee Account Holder”	a person who is a shareholding or borrowing member of a society, by virtue of being the sole or representative joint holder of an account which he holds in trust for another person or persons any one or more of whom cannot reasonably practicably act in relation to that account themselves by reason of ill-health or old age or any physical or mental incapacity or disability, as provided by Section 102D of the 1986 Act, whether or not the account holder is a shareholding or borrowing member in respect of any other accounts
“the UKLA”	the UK Listing Authority (currently the Authority)
“vesting date”	the date on which all the property, rights and liabilities of the society making the transfer, except any shares in the successor company, are transferred to the successor company.

NOTES:

- (1) The Building Societies Act 1986 was amended by the Building Societies Act 1997 and by and under the Financial Services and Markets Act 2000. The 1986 Act has also been amended by other legislation.
- (2) The functions of the Bank of England under the Banking Act 1987, which was repealed by the Act, were transferred to the Authority by the Bank of England Act 1998. Similarly, the functions of the Commission, and of the Central Office of the Registry of Friendly Societies were transferred to the Authority by and under the Financial Services and Markets Act 2000.
- (3) The Confirmation Criteria are varied in certain circumstances - see Section 7.

1. INTRODUCTION

The Purpose of this Chapter

- 1.1 This chapter replaces the Transfer Procedures Guidance Note published by the Commission in April 1998. It gives guidance on the requirements of the 1986 Act relevant to, and on the procedures to be followed by, a building society proposing to transfer its business to a company authorised for the purposes of the Act to accept deposits. **It is not intended to be exhaustive, and is not a substitute for looking at the 1986 Act and the Transfer Regulations, on which a society should seek its own legal advice.** It describes the relevant provisions of the 1986 Act, and the information which must be made available to the Financial Services Authority and to the society's members, and outlines the procedures to be followed at general meetings, including the voting majorities required to pass the Transfer Resolutions. The chapter also describes the role of the Authority in approving the Transfer Statement which must be sent to the members and in the confirmation procedure, together with its ongoing prudential supervision during the transfer process. The Transfer Summary, which a society may send to its members instead of the Transfer Statement, is also discussed. **Except as described in section 7, to which section 8 also applies, this section is concerned only with voluntary transfers under Section 97 of the 1986 Act.**
- 1.2 It is for the directors of a society to assess the case for transfer, and they must explain and recommend their decision to the members. However, the Authority's staff are willing to discuss with a society the procedures to be followed and the information required to ensure that the members can reach fully informed decisions. **Societies are strongly recommended to consult the Authority early on in the formative stages of transfer proposals.** Such consultation will, of course, be treated in the strictest confidence. It will be helpful, also, to have regard to the indicative timetable set out in section 9.
- 1.3 Societies should consult their own legal advisers about the application of the provisions of the 1986 Act, and the general law, to the particular features of a proposed transfer.
- 1.4 This chapter considers each stage of the transfer procedure in chronological order. The remainder of this section gives a synopsis of the relevant requirements of the 1986 Act, which are then discussed in more detail in subsequent sections, as follows:

Section 2, Preliminary Matters, considers the rationale for a transfer and the handling of public announcements, and gives guidance on certain prudential issues.

Section 3, Terms of a Transfer, considers the mandatory provisions of Section 100 of the 1986 Act concerning the successor company's obligation to treat former shareholders of the society as depositors with it, and the Statutory Cash Bonus. It also considers the mandatory provisions of Sections 102B to D of the 1986 Act, concerning distributions to members who are Trustee Account Holders, the statutory restrictions on distributions to members in Section 100, and the permissive provisions of Sections 100 and 102A. The protective provisions for specially formed successor companies are also discussed.

Section 4, Information Provided to Members, discusses the form and content of the statutory Transfer Statement and the Transfer Summary, and the accompanying rationale and other statements by the board, and describes the form of application to be made to the Authority for approval of the Transfer Statement.

Section 5, General Meetings and Resolutions, discusses the register of members and members' entitlement to vote, the arrangements for general meetings, the conduct of voting on the Transfer Resolutions and the scrutineers' report.

Section 6, Confirmation, describes the form of application to the Authority for confirmation of a transfer, and the procedures which the Authority expects to follow in considering and hearing written and oral representations and in reaching its decision.

Section 7, Transfers Under Direction, describes the modified procedure to be followed when a society has been directed by the Authority to transfer its business to a company and to proceed by board resolution.

Section 8, Notification and Dissolution, briefly discusses the process of notification of the vesting date and dissolution of the society.

Section 9, Timetable, reviews the several stages of a transfer from start to finish.

Statutory Requirements

- 1.5 The provisions of the 1986 Act concerning transfers are in Sections 97 to 102D of, and paragraph 30 of Schedule 2 and Schedule 17 to the 1986 Act, where two types of transfer of business are provided for:

to a **specially formed company**, known as conversion; or

to an **existing company**, known as a takeover*.

The procedures are the same in each case, except that the specification of the turnout required to pass the shareholding members' resolution to approve a takeover is, in effect, higher than is required to approve a conversion. The 1986 Act also provides that a specially formed company shall have qualified protection from takeover for up to five years after the vesting date.

- 1.6 One of the principal purposes of these provisions of the 1986 Act is to ensure that the members are given all the material information they need about the terms of the transfer which they are asked to approve, and proper opportunity to cast their votes. Subsequently, they are given the opportunity to make representations about that process before the transfer is confirmed. The 1986 Act also prescribes certain mandatory terms, and places restrictions on certain permitted terms, of a transfer.
- 1.7 The 1986 Act makes no provision for a transfer to be initiated by any means other than a recommendation of an agreed proposal put by the board of a society to its members (see paragraph 11.10 of the Commission's *Decision to confirm the transfer of Halifax Building Society to Halifax plc*, which related to alternative distribution schemes) and the transfer Regulations require the board of a society to give particulars, in the Transfer Statement, of the options for the future conduct of the society's business which it considered before deciding to recommend the transfer to the members and of the reasons why it recommends the proposed terms. Each member who is entitled to receive notice of the general meeting at which the Transfer Resolutions are to be moved must also receive (or have made readily available to him if the Transfer Summary is provided) a copy of a statutory Transfer Statement. A transfer must be approved by a **shareholding members' resolution** and a **borrowing members' resolution**. The majorities required to pass these resolutions are described in section 5.
- 1.8 If the terms of a transfer include provision for the payment of **compensation to directors or other officers** for loss of office or of income attributable to the transfer, then the proposed payments must be authorised by a separate **special resolution**. If the

*A takeover may take the form of a transfer of the business of a society to a subsidiary of the society which is an existing company carrying on business as a going concern, as in the case of Halifax plc (formerly Halifax Syndicated Loans Limited).

terms include provision for any director or other officer to receive **increased emoluments** in consequence of the transfer, then an **ordinary resolution** approving that provision must be put before a meeting of the society.

1.9 The 1986 Act specifies certain procedures for the consideration of representations by interested parties concerning **confirmation**, and the criteria which the Authority must consider before deciding whether or not to confirm a transfer. **The matters which the Authority may consider do not include the merits of the transfer proposals, nor the fairness of the terms, which the members will have approved by passing the Transfer Resolutions.**

1.10 The statutory requirements of the 1986 Act are explained and discussed in more detail in subsequent sections of this chapter. However, as is stated in paragraph 1.1, this chapter is not exhaustive and is not a substitute for considering, and taking professional advice on, the primary documents, which include:

the Building Societies Act 1986, as amended by or under other legislation, including:

the Building Societies (Joint Account Holders) Act 1995

the Building Societies (Distributions) Act 1997

the Building Societies Act 1997 and

the Financial Services and Markets Act 2000 (in particular by the Financial Services and Markets Act 2000 (Mutual Societies) Order 2001)

the Building Societies (Transfer of Business) Regulations 1998 (SI 1998/212)

Judgments of the High Court in:

Abbey National Building Society v The Building Societies Commission [1989] 5 BCC 259

Cheltenham & Gloucester Building Society v The Building Societies Commission [1994] 4 All ER 65, [1995] Ch 185, and [1994] 3 WLR 1238

The Building Societies Commission v Halifax Building Society and Leeds Permanent Building Society [1995] 3 All ER 193

R v The Building Societies Commission, ex parte Whitmey, unreported, 16 April 1997, Lightman J (relating to the Alliance & Leicester Confirmation Decision).

Building Societies Commission Confirmation Decisions on applications by:

Abbey National Building Society (5 June 1989)

Cheltenham & Gloucester Building Society (5 July 1995)

National & Provincial Building Society (3 July 1996)

Alliance & Leicester Building Society (11 March 1997)

Woolwich Building Society (16 May 1997)

Halifax Building Society (23 May 1997)

Bristol and West Building Society (9 July 1997)

Northern Rock Building Society (18 July 1997)

Birmingham Midshires Building Society (18 March 1999)

Bradford & Bingley Building Society (28 September 2000)

2. PRELIMINARY MATTERS

Rationale for a Transfer

2.1 It is a matter for the board of a society to decide whether to recommend a transfer to its members. The overriding duty of the board is to reach a view having regard to what is in the best interests of the society in the short and long term, including the interests of the members as a whole, both present and future, as members of a building society, both borrowing members and shareholding members. The board of a society may also reasonably consider the interests of customers who are not members, of the staff, of suppliers of goods and services, and of the wider community.

2.2 The decision of the board to recommend a transfer must be based on a proper evaluation of the issues in relation to a strategic assessment of how the society can best serve its members. One element of that assessment will be the forward business plan of the successor company (including, in the case of a takeover, how the successor company plans to integrate the business of the society) which will be relevant to:

the presentation of the case to the members; and

the submission to the Banking Regulator for authorisation to accept deposits.

Copies of the plan should be provided to the Authority and to the Banking Regulator (if the latter is a different authority in another member state).

2.3 Neither conversion nor takeover are likely to figure routinely as options in societies' corporate plans. However, a board may develop the society's business in ways which point to the need to consider the transfer option: in which case, a transfer should be foreseen and emerge from the board's strategic plans. If a board is considering the options of conversion or merger with another society, it should, as a matter of prudence, consider how it would respond to a counter proposal and develop appropriate contingency plans.

2.4 When a board is seriously considering conversion or a takeover, the range of issues which it will need to assess will vary from case to case and is for the board to decide. However, the board will necessarily have regard to its primary duty to reach a view on what is in the best interest of the members, as members of a building society, and not only their short-term interests. It will also be conscious of the requirement to give, in

the Transfer Statement, a factual account of the options which it considered and of the reasons why it decided to recommend to the members the terms of any proposed transfer and of the qualifying conditions for any distribution of funds or shares in the successor company in consideration of the transfer.

Public Announcement

2.5 A board will usually wish to announce its proposals as soon as possible after it has decided to recommend a transfer to the society's members. In particular, the board will no doubt wish to inform the members and staff of the proposed terms so that they do not then operate their accounts, or otherwise act, in ignorance of proposals which would have affected their behaviour. The board will also wish to avoid misleading potential investors and borrowers; and societies with listed PIBS must have regard to the UKLA requirements concerning early disclosure of any information which might affect the price of securities. However, a board may not feel able to make an immediate announcement, perhaps for prudential or commercial reasons, or because it first wishes to settle all the details of the proposed terms. In these circumstances, the board must have contingency plans to make an early announcement to deal with any potentially damaging rumours and to avoid members being misled or left in a state of uncertainty. In considering the timing and terms of an announcement, the board will wish to minimise the risk of destabilising flows of funds.

2.6 The announcement, particularly information provided directly to members and staff, should make it clear that the proposal is subject to approval by the members and completion of the statutory procedures. It should also be made clear, in the case of a takeover, and if such is the case, that the proposal is subject to completion of due diligence investigations by the acquirer and, in either a conversion or takeover when shares in the successor company are to be issued, that the proposal is subject to the shares being listed on the London Stock Exchange or elsewhere. Boards should be careful to avoid appearing to assume that the outcome is a foregone conclusion, and should identify any matters of substance on which the proposed terms of the transfer remain to be settled. Briefing of staff who will be responsible for responding to enquiries from members and the Press should be considered carefully and prepared in advance of the announcement to avoid any risk of members being unintentionally misled. A freephone helpline may be desirable for members' enquiries about whether they qualify for any distribution under the proposed transfer scheme, but again the staff must be well briefed. It is essential that the announcement, and subsequent information given to members before they are sent the statutory Transfer Statement, or Summary,

and in any briefing of the Press, is entirely consistent with what will appear in that Statement. In particular, members should be advised to await the Transfer Summary, and especially the Transfer Statement which will contain full details of the proposals and the information relevant to their decision on how they wish to vote.

- 2.7 The Authority is not required to approve the content or wording of announcements or preliminary information sent to members. However, it will be happy to comment on drafts shown to it at an early stage, and may be able to help societies to avoid unintentionally misleading statements.
- 2.8 The board should consult the Authority and, if a different body, the Banking Regulator at an early stage in its consideration of transfer proposals, and certainly no later than its decision in principle to seek a transfer. The complexities of the statutory provisions are such that it is necessary to have the proposed transfer terms specified very closely indeed before it is possible for the Authority to take a view on whether the proposals are fully in conformity with the 1986 Act. The Banking Regulator will not be in a position, at this early stage, to give positive assurances as to the authorisation of the successor company. However, a prudent board will seek the views of the Authority, and also, if different, of the Banking Regulator, before it decides to announce its transfer proposals to the members. This preliminary discussion with the Authority will necessarily cover the proposed structure of the successor company or group and a written specification of the transfer terms, particularly the scheme for distribution of any consideration to be offered to the members for the loss of their membership rights in the society, which members and other persons are to benefit, and the criteria for qualification.
- 2.9 Should there be a difference of view between the Authority and the society as to whether a scheme, or a particular feature of it, is in conformity with the 1986 Act, it may prove desirable to apply to the High Court for a declaration. It will then be necessary for any preliminary announcement of the board's proposals to make the position clear, and for it to allow sufficient time in its proposed timetable for the application to be heard, and for any appeal.

Prudential Issues

- 2.10 In addition to information about the proposed transfer scheme, the Authority will expect the board to provide it with information about its plans for ensuring the prudent management of the society through to the proposed vesting date. That information will be consistent with what the board itself will require, bearing in mind that it is for the

board to exercise due diligence and to be satisfied that the society's business continues to be directed and managed prudently. The information required is:

- (a) the names and responsibilities of senior managers assigned to manage the transfer process;
- (b) an assessment of the systems requirements of the transfer process, together with the specification of work to be done by consultants (e.g. the external auditors/scrutineers) and their report(s);
- (c) contingency plans, with sensitivity and risk assessments, for managing funding and liquidity during the transitional period;
- (d) copies of the business plans of the successor company as submitted in connection with its authorisation to accept deposits.

2.11 The Authority will also wish to have a letter of consent, from or on behalf of the board, to the Authority discussing the society's affairs with the Banking Regulator (if a different body) and the UKLA (if a different body and an issue of shares in the successor company is intended to be made in connection with the transfer).

2.12 A transfer is exceptionally time-consuming for senior management. The Authority will wish to be satisfied that the society has sufficient management resources to cover both the transfer and its day-to-day business within its proposed transfer timetable. It will usually be necessary for the society severely to limit new business developments and initiatives during the transitional period. It should also be noted that the requirements for information to be provided to members mean that full disclosure will be required in the Transfer Statement of any negotiations in progress on acquisition or other links during the transfer process. The Banking Regulator must be kept fully informed of any such plans because any changes to the society's business, structure, controls etc. may well be important factors in its authorisation process.

2.13 The Authority will appoint a project team, responsible for operational management of the Authority's functions in relation to the transfer process. The expectation would be that the team will include the Manager responsible for the society's supervision and one of the Authority's legal advisers. Names and contact numbers will be provided to the society. The Authority would strongly advise a society similarly to appoint a project team, headed by a senior manager responsible to the board for management of the whole

process and with authority to control the drafting and verification of the Transfer Document, other briefing and information to members, and responses to representations at the confirmation stage. Strong central control under the direction of the board is, in the Authority's view, essential for effective management of a transfer.

- 2.14 The society will be expected to provide the Authority with a systems report from its auditors together with an action plan to remedy any shortcomings. The Banking Regulator, if a different body, may have similar requirements. This report is only part of the full information package which the Banking Regulator will (or is likely to) require for the purposes of authorising the successor company to accept deposits and which will be needed so that the Authority can be satisfied in relation to its requirements up to the vesting date.
- 2.15 The society will need to develop plans to deal with a number of possible contingencies; for example, receipt of a counter-offer (whether private or public) during the transfer process, changes in market conditions or financial results which materially affect the information given in the Transfer Statement, failure to obtain the members' approval, delay of the planned vesting date and of any flotation, and greater exposure to liquidity risk during the transitional period. The Transfer Agreement should include provision for its termination if, for any reason, flotation does not take place within a specified period after confirmation, and for the board to decide not to proceed if market conditions or other developments mean that it would not be reasonable to do so having regard to the basis on which it secured the approval of the members. The Authority will wish to see the society's contingency plans.
- 2.16 Before it approves the Transfer Statement, the Authority will wish to be satisfied that the successor company is expected to be authorised, or, as the case may be, to continue to be authorised, to accept deposits. It will also ask the Banking Regulator, if different, to confirm that the information given in the draft Transfer Statement appears to be consistent with, and has no material omission of, information available to the Banking Regulator.

3. TERMS OF A TRANSFER

This section discusses the provisions of the 1986 Act which prescribe the terms of a transfer which must be included in the Transfer Agreement and the restrictions on terms which may be included. It also discusses the formation of, and protective provisions for, specially formed companies and the status of existing companies.

- 3.1 Section 97(4) of the 1986 Act provides that in order to transfer its business to a company, *inter alia*, a society must agree conditionally with its successor in a Transfer Agreement on the terms of the transfer which, in so far as they are “regulated terms” (as defined in Section 97(12)), comply with Sections 99 and 100 of the 1986 Act and with the Transfer Regulations. In the case of a specially formed company, a society must also secure that the articles of association of the successor company have the requisite protective provisions prescribed by Section 101(2) of the 1986 Act.

The Qualifying Day

- 3.2 The choice of Qualifying Day is important because it is a determining factor in deciding which members must have conferred upon them a right to the Statutory Cash Bonus provided by Section 100 of the 1986 Act. It may also be relevant in deciding which members may receive certain rights under a proposed distribution of funds or of shares in the successor company. The Commission’s view was that there can be only one Qualifying Day for these purposes, which must be clearly distinguished from any other “reference dates” which may be chosen by a society for the purposes of its transfer scheme. Subsection (13) of Section 100 defines the Qualifying Day as the day specified in the Transfer Agreement as the qualifying day for the purposes of that subsection. This does not appear to restrict the society’s choice of qualifying day. A number of arguments for such a restriction have been advanced, including that the use of the past tense “which expired with the qualifying day” in subsection (9), read in the context of Section 100 as a whole, indicates that the Qualifying Day must pre-date the Transfer Agreement. The Authority has not been required to express a view on the matter (and see paragraphs 4.20 and 17.4 of the Commission’s *Decision to confirm the transfer of the business of Cheltenham & Gloucester Building Society to a subsidiary of Lloyds Bank plc*).
- 3.3 For completeness, it should be noted that the Authority takes the view that the conditional Transfer Agreement must have been signed by the society and its successor company and commenced (albeit conditionally) before the Authority can approve the

Transfer Statement. This is because the Authority must be satisfied, before it approves the Transfer Statement, that the Statement correctly describes the proposed terms of the transfer as provided by the Transfer Agreement, and the Agreement cannot properly be said to exist until it has been signed by the parties concerned. The Transfer Agreement, as is made clear by its definition in Section 97(12) of the 1986 Act, is necessarily conditional, *inter alia*, on the society's members' approval of the Transfer Resolutions under Section 97(4)(c), and confirmation of the transfer by the Authority (which includes confirmation by the Banking Regulator that it expects to authorise the successor company) under Section 98(2) of the 1986 Act.

Share Accounts

- 3.4 Section 100(2)(a) and (3) of the 1986 Act provide that the terms of a transfer **must** require the successor company to assume as from the vesting date a liability in respect of a deposit to every member of the society equal to the value of the shares held by such member immediately before the vesting date. In other words, amounts held in share accounts on the eve of the vesting date must become identical amounts held in deposit accounts from the start of the vesting date.

Statutory Cash Bonus

- 3.5 Section 100(2)(b) and (4) of the 1986 Act provide that the terms of a transfer **must** confer a right to a distribution of funds by way of bonus, whether paid by the society or its successor company, on every member of the society who held shares in the society on the Qualifying Day but was not eligible to vote on the shareholding members' resolution. Where the account is in joint names, see also paragraph 3.12, Schedule 2 to the 1986 Act and the Rules of a society prescribe who is eligible to vote (see section 5). Broadly speaking, members who are not entitled to vote on the resolution are those who are under 18 years of age on the date of the meeting or, if the Rules so provide, those who had less than the qualifying shareholding (usually £100) on the qualifying shareholding date or who ceased to hold shares in the period between the qualifying shareholding date and the voting date. However, the High Court declared in *Abbey National Building Society v The Building Societies Commission* that, in order to qualify for the Statutory Cash Bonus, in addition to having held shares in the society on the Qualifying Day, a member also must have held shares continuously between the Qualifying Day and the vesting date. In coming to this judgement, the Vice Chancellor found the sequence of tenses used in subsection (4) of Section 100 of the 1986 Act to be illuminating: "It says that a member **is** a qualifying member if he **held** shares

in the society on the qualifying day and **was not** eligible to vote The subsection is therefore looking at somebody who at a particular point of time is a member and who had certain qualifications in the past the relevant date for establishing membership is the vesting day it is implicit in subsection (4) that the person must have been a member on the qualifying day and have remained a member thereafter continuously through until the vesting day”. In settling the terms of the declaration, the Vice Chancellor confirmed that when referring to the member remaining a member between the two dates, he intended to mean as a member holding shares.

- 3.6 The bonus is to be calculated as that proportion which the society’s reserves bear to its total liability to its members in respect of shares, as shown in the latest balance sheet of the society, applied to the value of the shares held by the member on the Qualifying Day. If a Transfer Statement is approved and sent to the members just before, or shortly after, the end of the financial year of the society, it will be important to note that the Annual Report and Accounts for the year will have been published by the vesting date, when qualifying membership has to be established and the bonus is due to be paid. In those circumstances, “the latest balance sheet of the society” will be that published in the most recent Annual Accounts. The same considerations may apply when a society publishes half-yearly results.
- 3.7 The Authority may direct, however, where it confirms a transfer of a society’s business to an existing company (i.e. only in a takeover), that no Statutory Cash Bonus is paid or that a lesser amount is paid than that referred to in paragraph 3.6, having regard to what is equitable between the members.

Distributions To Members

- 3.8 Section 100(1) of the 1986 Act provides that:

“Subject to subsections (2) to (10), the terms of a transfer of business by a building society to the company which is to be its successor may include provision for part of the funds of the society or its successor to be distributed among, or other rights in relation to shares in the successor conferred on, members of the society, in consideration of the transfer”.

- 3.9 In respect of rights to shares, Section 100(8) of the 1986 Act provides that:

“Where, in connection with any transfer, rights are to be conferred on members of the society to acquire shares in priority to other subscribers, the right shall be restricted to those of its members who held shares in the society throughout the period of two years which expired with the qualifying day; and it is unlawful for any right in relation to shares to be conferred in contravention of this subsection”;

and, in respect of a distribution of funds, Section 100(9) of the 1986 Act provides that:

“Where the successor is an existing company, any distribution of funds to members of the society, except for the distribution required by subsection (2)(b), shall only be made to those members who held shares in the society throughout the period of two years which expired with the qualifying day; and it is unlawful for any distribution to be made in contravention of the provisions of this subsection”;

while, in respect of a transfer to a specially formed company, Section 100(10) of the 1986 Act provides:

“The following restrictions apply to any distribution of funds, or any conferring of rights in relation to shares, in connection with the transfer of its business from the society to its successor where the successor is a company specially formed by the society, that is to say-

(a) no distribution shall be made except that required by subsection (2)(b);
and

(b) where negotiable instruments acknowledging rights to shares are issued by the successor within the period of two years beginning with the vesting date, no such instruments shall be issued to former members of the society unless they are also issued, and on the same terms, to all other members of the company;

and it is unlawful for any distribution of funds to be made in contravention of the provisions of this subsection”.

3.10 The meanings of subsections (1), (8), (9) and (10) of Section 100 of the 1986 Act have been considered by the High Court in four cases: *Cheltenham & Gloucester Building*

Society v The Building Societies Commission, in relation to distributions of funds, and *Abbey National Building Society v The Building Societies Commission*, *The Building Societies Commission v Halifax Building Society and Leeds Permanent Building Society* and *R v The Building Societies Commission, ex parte Whitmey* in relation to share distributions. These judgments related to specific proposals and may not necessarily be directly relevant in all respects to transfer schemes proposed by other societies in the future. A society must obtain its own advice when formulating proposals for a cash or share distribution scheme.

- 3.11 As is explained in paragraph 2.8, the Authority will have to see a fully specified description of the distribution scheme before it can form its own view of whether it is in conformity with the 1986 Act. The Authority would find it helpful if the society enclosed copies of the legal advice it has received when submitting a scheme for consideration.

Joint Share Account Holders

- 3.12 Paragraph 7 of Schedule 2 to the 1986 Act deals with joint shareholders and defines the “representative joint holder” as “that one of the joint holders who is named first in the records of the society.” Paragraphs 7(5) and (5A) of that Schedule provide that, for the purposes of Sections 87 and 93 to 102 of the 1986 Act, the shares shall be treated as held by the representative joint holder alone and, accordingly, joint holders, other than the representative joint holder, shall not be regarded as members of the society by reason only of being a joint holder of those shares. The effect of this provision (but subject to the provisions of Section 102A) is that if, for example, the representative joint holder dies, or the order of names on the account is changed in the two years preceding the Qualifying Day, any rights to a distribution under a transfer scheme, which are conferred on those who have held shares for two years up to the Qualifying Day, cannot devolve upon any other joint account holder, unless that holder is in his or her own right, by virtue of another account holding, a two-year shareholding member.
- 3.13 Section 102A, however, provides that, in certain circumstances, second named joint holders, **who have themselves held shares in the society continuously during the two year qualifying period**, whether as sole or joint holders of shares, may qualify for a right which otherwise could only have gone to a first named holder. Cases which would be covered by the provisions of Section 102A include: the death of the first named holder, including where, for example, a third named joint account holder would move up the scale if both the previous first named and second named holders were killed in
