the same car accident; the creation of a joint account, for example, on marriage; the division of a joint account on divorce or separation, or for any other reason, **where the previous first named holder has ceased to hold shares in the society**; and when there has been a change in the order of names within an account.

- 3.14 Points to note are that Section 102A applies only to joint share account holders (joint borrowers are not affected) and is only relevant where the application of the two year qualifying period prescribed by Section 100 is relevant to a proposed distribution of funds or conferring of rights to shares. The provisions of Section 102A are permissive, not mandatory (see paragraphs 13.2 to 13.5 of the Commission's *Confirmation Decision on the application by National & Provincial Building Society*) and are not "relevant requirements" of the 1986 Act (see paragraph 6.17). It is for the society's board when proposing a transfer scheme to decide whether to incorporate in its distribution scheme none, some, or all of the cases where Section 102A allows membership of a joint account, other than as the first named holder, to count towards the two year qualifying period. Finally, these provisions do not affect the position of the personal representatives or beneficiaries of deceased sole holders of share accounts. Societies should obtain their own advice on all these matters when considering how they wish to construct the terms of a proposed distribution scheme.

Trustee Account Holders

- 3.15 A member who holds funds in a share account, or holds a mortgage account, on trust for another person is not a Trustee Account Holder unless the following conditions are satisfied. Sections 102B to D of the 1986 Act require that, if the terms of a transfer include distributions of funds or of rights to shares to members of the society, then each Trustee Account Holder shall be treated by the society and its successor as not being disentitled from receiving, in addition to any distribution to which he or she may be entitled in any other capacity, a separate distribution in respect of each account which he or she holds in trust for certain categories of beneficiaries (provided that, as holder of that account, he or she meets the conditions for receipt of a distribution under the scheme). An account may be either a share account or a mortgage account of which the Trustee Account Holder may be the sole or representative joint holder. A member may receive only one distribution for each account he or she holds as a Trustee Account Holder (irrespective of the number of account holders or beneficiaries of that account) and a member who holds only one account may receive only one distribution in respect of that account whether as a member or, if he or she so decides, as a Trustee Account Holder. If a person is a qualifying beneficiary of more than one

account held by a Trustee Account Holder (referred to in Section 102D(5) as “duplicate accounts”), then only a single distribution is required to be paid in respect of the duplicate accounts whether or not there are other qualifying beneficiaries of those accounts. A change in the identity of the Trustee Account Holder during any qualifying period for a distribution does not affect the entitlement to a distribution in respect of the account. The categories of qualifying beneficiaries of such accounts are persons who cannot reasonably practicably act in relation to the accounts themselves by reason of ill-health or old age or any physical or mental incapacity or disability.

- 3.16 A society will need to take its own legal advice as to the interpretation of these Sections and whether and, if so, what advice it should give to its members to help them decide whether they are Trustee Account Holders. The Authority will wish to see that advice to help it reach a view on whether the society’s proposals appear to it to be lawful, while recognising that only the courts can interpret the law. With that important proviso in mind, the Authority has taken the view that a scheme may provide that a member is a Trustee Account Holder if the funds (or debt) in the relevant account are held either wholly or partly for one or more qualifying beneficiaries. PIBS do not appear to be share “accounts” as described by Sections 102B to D so that a person could not be a Trustee Account Holder in respect of a holding of PIBS.
- 3.17 A society is not required to notify its members of these provisions. However, unless it does so, it will not gain the protection of Section 102B(4) which provides that a Trustee Account Holder will not be entitled to a distribution in that capacity if the society has notified him that he must make a statutory declaration and the Trustee Account Holder has not made such a declaration before the date specified in the society’s notice to him. Moreover, the Transfer Regulations require that the Transfer Statement must contain a forecast of the amount and proportion of the total consideration which is expected to be distributed to Trustee Account Holders (see paragraph 4.2c).
- 3.18 It appears to the Authority that it will be desirable for the final date for receipt of statutory declarations from Trustee Account Holders to be shortly before the vesting date so that declarations may take account of any changes in the identity of the account holder or the status of the beneficiary or beneficiaries. Trustee Account Holders must also be able to make an informed judgement as to whether the terms of the distribution scheme are such that making a statutory declaration will be in the best interests of the beneficiary or beneficiaries of an account; they cannot do this until the

full terms of the proposed scheme have been published in the Transfer Statement and made available for inspection in the Transfer Agreement. The Authority expects, therefore, that societies will issue notices under section 102B to Trustee Account Holders not later than despatch of notices of the SGM at which the Transfer Resolutions are to be considered, and that the specified date for returning statutory declarations by Trustee Account Holders will be on, or shortly before, the vesting date or, in any event, not less than 1 month after the despatch of the notices. No regulations have been made by the Treasury under Section 102D(11). However, to meet the requirement that the Transfer Statement must contain a forecast of distributions to Trustee Account Holders, and so that it can determine the qualifying conditions for, and estimate the value of distributions to members generally, and individually, particularly if the scheme includes a variable element, the Authority expects that a society will need to write to all its members at least 2 months before the Transfer Statement is expected to be issued advising them of the procedures for dealing with distributions to Trustee Account Holders, perhaps also with the notices envisaged by Section 102B(4), and asking them, if appropriate, to register their interest in making statutory declarations as Trustee Account Holders.

The Successor Company

- 3.19 **In a conversion**, the successor company must be specially formed by the society (and by no others than its nominees) wholly or partly for the purpose of assuming and conducting the society's business in its place and must be a company within the meaning of the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 which is a public company limited by shares (Section 97(12) of the 1986 Act) or a body corporate incorporated in another EEA State with power to offer its shares or debentures to the public (Section (97(13)). Section 98(3) of the 1986 Act provides that the Authority shall not confirm the transfer if there is a substantial risk that the successor will not become a credit institution which is authorised to accept deposits for the purposes of the Act. The society must secure that the successor company is formed having articles of association with the "requisite protective provisions" (Section 97(4)(a) of the 1986 Act).
- 3.20 The terms of the transfer must include provision to secure that the society ceases to hold any shares in the specially formed successor company by the date on which the society is to dissolve (Section 100(11) of the 1986 Act). The provisions of the 1986 Act concerning the dissolution of the society and the disposal of any shares in its successor are discussed in section 8.

- 3.21 The “requisite protective provisions” are the provisions of Section 101 of the 1986 Act which require the successor company to ensure that it does not allow one person, or two or more persons acting in concert, to hold more than 15% of the shares of the company during the period from the company’s incorporation until 5 years after the vesting date. The purpose of this provision is, clearly, to protect the newly converted bank from takeover. The provisions will cease to apply if the Authority so directs, or if the successor company acquires another financial institution, as defined in Section 101(6), or if the shareholders resolve to that effect by a majority representing at least 75% of the nominal value of shares giving voting rights.
- 3.22 **For a takeover**, an existing company, which is to assume and conduct the society’s business in its place, is defined in Section 97(12) and (13) of the 1986 Act as a company within the meaning of the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 which is a public company limited by shares, or a body corporate incorporated in another EEA State with power to offer shares or debentures to the public, “carrying on business as a going concern on the date of the transfer agreement”. Section 98(3) provides that the Authority shall not confirm the transfer if there is a substantial risk that the successor will not become or, as the case may be, remain a credit institution which is authorised to accept deposits for the purposes of the Act. The effect of these provisions is that the business of a society may be transferred to a body corporate incorporated in another EEA State which, at the date of the Transfer Agreement, is a going concern and which is acceptable as a deposit taker to the appropriate regulatory authority. To be a going concern, the company must actively be carrying on a business before it can enter into an agreement to acquire the business of a society. Conversely, it would not seem possible to use a company which carries on no substantive business, other than employing its capital, simply as a vehicle for taking over a society.
- 3.23 The successor company does not need to be authorised to accept deposits at the time of the takeover offer or the Transfer Agreement; but it must be carrying on business as a going concern. However, subsequent authorisation is a key criterion. An offer will not be credible unless the company has first obtained an indication from the Authority or other EEA competent authority that it is prepared to authorise, or to continue the authorisation of, the successor company, upon transfer. As a practical matter, the authorities would find it difficult to authorise an institution whose business from the time of authorisation was not predominantly banking or deposit taking and would require to be satisfied that the parent company (if any) as controller was fit and proper.

Compensation For Loss of Office and Increased Emoluments

- 3.24 **Any compensation** for loss of office or diminution of emoluments attributable to the transfer which is proposed to be paid to directors and other officers must be approved by a separate special resolution, in addition to the Transfer Resolutions required to approve the terms of transfer as a whole (Section 99 of the 1986 Act). Loss of office includes loss of office in any other body held by virtue of the director's or other officer's position in the society. "Compensation" is not defined in the 1986 Act, except to the extent that Section 99(6) says that it includes benefits in kind. In the Authority's opinion, compensation does not include statutory redundancy payments, damages for breach of contract, or other payments, for example, falling due under the terms of a pre-existing contract of employment, or a pre-existing arrangement giving rise to a reasonable expectation. However, it does include any proposed ex-gratia payments or other provision of benefits in money or money's worth. Societies should consider very carefully the extent to which any proposed payment may exceed the amount provided for by statute or contract. In view of the requirement in Section 99(4) that unauthorised payments must be repaid by the recipient, societies are advised to take legal advice on any payments which are not specifically authorised by the terms of a special resolution passed by the members in accordance with Section 99(2)(a). The Treasury has not made any regulations under Section 99(2)(b) and (3).
- 3.25 All proposed payments requiring approval by special resolution must be disclosed in the Transfer Statement. In addition, the Authority will require disclosure in the Transfer Statement of any other payments to directors or other officers arising directly from the transfer. So that members are aware of the direct interest of the directors or other officers in a transfer, societies should consider whether the amount, as distinct from the fact, of any statutory or contractual payments should be disclosed where these arise directly from the transfer. More generally, societies need to consider whether any facts relevant to any director or other officer, or to any person(s) connected with any director, should be disclosed where these are material to the decision of the members who are to be asked to vote on the proposed transfer.
- 3.26 **Increased emoluments** are defined by Section 99A of the 1986 Act as an increase in consequence of the transfer, and included in the terms of the transfer, for any director or other officer, whether by way of increased remuneration or the grant of share options or otherwise. The Authority is of the view that this formulation would include the receipt

of distributions of funds or of rights to shares in consideration of the transfer which are made to directors or other officers in their capacity as employees or pensioners of the society or any of its subsidiaries. However, this is a matter which can only be conclusively determined by the courts.

- 3.27 Any such increase in emoluments is required by Section 99A(2) of the 1986 Act to be put before a meeting of the society in an ordinary resolution approving such provision. However, although such an ordinary resolution must be put to a meeting, it is not required to be passed in order to authorise such increases which will be authorised by the general approval of the transfer and its terms provided by the passage of the Transfer Resolutions. Neither is it required that the ordinary resolution be put before the meeting which is to consider the Transfer Resolutions. However, as is explained below, any proposed increase in emoluments will have to be explained in the Transfer Statement, and the Authority will have to be satisfied that the requisite ordinary resolution was put before a meeting of the society when it considers a society's application for confirmation of a transfer.

4. INFORMATION PROVIDED TO MEMBERS

Statutory Requirements

- 4.1 Section 98(1) of and Part I of Schedule 17 to the 1986 Act require a building society which desires to transfer its business to a company to send a statement relating to the proposed transfer to every member entitled to notice of a meeting of the society. This may be either a Transfer Statement or a Transfer Summary, and is to be included in or with the notice of the meeting at which the Transfer Resolutions are to be moved. If a Transfer Summary is sent, then the society must also make the Transfer Statement available forthwith, free of charge, to every member who asks for it. The Treasury has power to make regulations for the purpose of specifying the matters of which Transfer Statements and Transfer Summaries are to give particulars. No Transfer Statement shall be sent or made available unless its contents, so far as they concern the matters so specified, and any other matters which the Authority may require in the case of a particular transfer, have been approved by the Authority. The Transfer Summary, however, is not required to be approved by the Authority.

The Transfer Statement

- 4.2 The Transfer Statement has to contain the particulars of the “prescribed matters” which are set out in Schedule 1 to the Transfer Regulations. It must also include particulars of any other matters which the Authority may require (paragraph 3(1)(b) of Schedule 17 to the 1986 Act). Note that Regulation 3(2) of the Transfer Regulations provides that if a particular matter is not ascertainable at the time, a forecast may be given; for example, of the percentage amount of the Statutory Cash Bonus, or of the division of any distribution of shares or cash among different classes of recipient (see subparagraph c). The principal matters which a Transfer Statement must contain can be summarised as follows:
- (a) a factual statement of the strategic options considered by the board and the reasons why it decided to **recommend** the particular proposals being put to the members. In the case of a takeover, the board must also provide a valuation of the business compared with the consideration which is proposed to be paid by the successor company, and state whether it considers the offer price to be fair and reasonable;

- (b) disclosure of the names of any building societies or companies from which written proposals for merger or takeover were received within the preceding 12 months as required by Regulation 3 of the Transfer Regulations. The fact of the proposal, the name of the proposer and the terms of the proposal must be disclosed, unless the proposer has requested either that the whole matter, or just the terms of the proposal, be treated as confidential. An invitation to discuss a possible merger or takeover would probably not constitute a “proposal”. A society should consider carefully, and take advice on, whether any approach it has received does qualify as a disclosable proposal. If no proposals have been received that fact could be stated in the Transfer Statement, for the avoidance of doubt;
- (c) details of any share and/or cash distribution scheme, as provided by the Transfer Agreement, and showing separately the estimated amount of the benefits (if any) to be conferred on members, Trustee Account Holders, and on others such as employees and pensioners of the society, and giving information about the value of any shares including, if unquoted ordinary shares, an illustrative estimate of the market price of the shares if they had been issued at some specified date within the previous 6 months;
- (d) the consequences of the transfer for members of the society, including a clear explanation of the potential effects on interest rates and containing, in particular, a factual statement of changes in the factors relevant to the determination of interest rates on retail deposits and loans by the successor company compared with the society (having regard to the need for the company to pay dividends to its shareholders), and including any change in the terms on which deposits are to be held and any changes in the applicable terms of the statutory protection scheme and complaints handling arrangements;
- (e) the consequences of the transfer for employees of the society, including any changes in the branch structure or economies in head office departments;
- (f) the financial interests of the directors and other officers arising from, or as a consequence of, the transfer. If directors or other officers have no financial interests in the transfer, either by way of increased emoluments, compensation or other benefits, this should be stated explicitly, for the avoidance of doubt;

- (g) the main features of the published consolidated annual accounts of the society group for the last 3 financial years and its current financial position, including the amount of the society's reserves, at a date not more than 6 months prior to the date of the Transfer Statement;
- (h) in the case of a takeover, the main features of the published annual accounts of the successor company group for the last 3 financial years, its current financial position at a date not more than 6 months prior to the date of the Transfer Statement, and key business indicators of the society group and the successor company group for each of the past 3 financial years. If the successor company is a significant subsidiary within a group, the Authority may require corresponding information about the company alone to be given;
- (i) the future financial prospects of the successor company;
- (j) the intended range and relative importance of the activities of the successor company and any change proposed following the transfer;
- (k) in the case of a takeover, the structure and activities of any group to which the successor company belongs;
- (l) a summary of the provisions of the Transfer Agreement concerning the conditions precedent to its completion and providing for its termination;
- (m) a statement as to whether the transfer will conflict with any contractual obligations of the society (which would include agency agreements);
- (n) the total estimated costs and expenses of the transfer, together with (if applicable) the estimated amount of, and the terms on which, fees and disbursements will be paid to advisers, such as merchant bankers, relating to the valuation of the business;
- (o) responsibility statements by the directors of the society and the successor company, and opinions of the external auditors and any other experts, such as merchant bank advisers;
- (p) if a Transfer Summary is issued, a statement that the full Transfer Statement will be provided free and on request and how it can be obtained.

The Transfer Summary

- 4.3 A Transfer Summary may be sent, instead of the Transfer Statement, in or with the notice of the meeting at which the Transfer Resolutions are to be considered, to every member entitled to that notice. As its title indicates, the Transfer Summary must contain information derived from the Transfer Statement, particulars of which are prescribed by Schedule 2 to the Transfer Regulations: principally, that is, the matters described in paragraph 4.2, in summary form, excepting detailed financial information and terms of the Transfer Agreement. The basic qualifying conditions for a distribution of funds or shares might, for example, be summarised in the form of flow charts. More complex information, such as that relating to successors to deceased members, or second named joint account holders, should also be summarised with affected persons being referred to the Transfer Statement and, perhaps, special leaflets on particular terms.
- 4.4 Unlike the Transfer Statement, the Transfer Summary does not have to be approved by the Authority. It is to be compiled by, and on the responsibility of, the directors of the society and of the successor company. If a society decides to send a Transfer Summary, rather than the Transfer Statement, with the notice of the meeting, then the Transfer Summary must contain the directors' responsibility statements and state that it has not been approved by the Authority while the full Transfer Statement, which has been so approved, is on request available free of charge, to any member of the society to whom the Transfer Summary was sent, at any branch or office of the society or by post.

The Transfer Document

- 4.5 The Transfer Statement or Transfer Summary does not have to be a separate document. In practice it will usually be convenient to include it in a comprehensive Transfer Document which will also contain the notice of the meeting at which the Transfer Resolutions are to be moved, an explanation of the transfer procedure (including details of the confirmation stage - see section 6) and a description of the requirements of the society's Rules concerning entitlement to vote. It may also be convenient to include additional material required by the UKLA in connection with a flotation. However, the statutory Transfer Statement or Transfer Summary within the Transfer Document should be clearly identified as such (either by printing it on a different colour of paper or by some other means). An illustrative example of the structure of a Transfer Document containing a Transfer Statement is given in Annex A to this chapter. A Transfer Document containing a Transfer Summary should take much the same form (in that

case, the Transfer Statement made available to the members on request could be a separate document).

- 4.6 If shares in the successor company are proposed to be offered to members, either for subscription or free of charge, the society will need to consider whether and, if so, how it should combine the information relevant to the members' decision on the proposed transfer, and that relevant to the share offer, in one document. The two requirements differ, particularly in extent. Combining the Transfer Statement and share prospectus may run the risk of confusing the issues for some members.
- 4.7 The Authority and its staff may be willing, but only if time and its resources permit, to comment informally on material additional to the statutory Transfer Statement which the board proposes to put to the members. The Authority considers that, if asked, it can best help the board and the members by making informal comments at the formative stage. However, it will only comment on the clear understanding that the final decision on what information to put to the members outwith the Transfer Statement is for the board to decide. The Authority is conscious that it may have to assess such additional material in the light of representations on the society's application for confirmation of the proposed transfer, and any comments which it does offer are without prejudice to its position in those proceedings.
- 4.8 However, the Authority cannot undertake the additional work of reviewing and commenting upon the draft Transfer Summary. As is noted in paragraph 4.4, the board alone is responsible for ensuring that the Summary fairly and accurately summarises the prescribed information in the Transfer Statement, and that it fulfils the requirements of the 1986 Act and the Transfer Regulations. As with the other information provided to the members in addition to the Transfer Statement, the Authority will review the Transfer Summary at the confirmation stage of the transfer procedure.

Board Statements

- 4.9 The Transfer Regulations, deliberately confine the particulars required to be included in the statutory Transfer Statement to information which is factual and which can be verified by a society and its professional advisers, including factual statements of the reasons why the board decided to recommend the transfer and its terms (which may include statements of the board's belief and opinions, clearly identified as such) and the options it considered for the future conduct of the society's business, all of which can be verified by reference to the board's minutes and papers. A board may choose to engage

in more general advocacy of the merits or fairness of its proposals elsewhere in the documents sent to members, in which case, the Authority may have to have regard to whether such material is consistent with the information given in the statutory Transfer Statement when it comes to consider an application for confirmation.

- 4.10 The whole Transfer Document should be covered by **responsibility statements** by the directors of the society and the successor company. This may be given along the following lines (either a joint statement or separate statements by each board):

“The directors of Building Society and the directors of accept responsibility for the information relating respectively to the society and the company which is contained in this document. To the best of the knowledge and belief of the directors (who have taken all reasonable care to ensure that such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information”.

Application and Authority Approval

- 4.11 It will be helpful to both the society and the Authority for the society to consult the Authority about the outline structure of, and main features to be contained in, the Transfer Document at an early, formative stage. The Authority will also be prepared to consider a full specification of the proposed cash or share distribution scheme. Thereafter, a formal written application for approval of the statutory Transfer Statement must be made to the Authority by, or on behalf of, the board and accompanied by a draft Transfer Statement which should be as complete as is reasonably practicable at that stage, together with the fee prescribed by the current Fees Rules.

- 4.12 The Authority will then consider the application and decide whether or not to approve the Transfer Statement. It must satisfy itself that:

- (a) in its opinion, the terms of the transfer scheme described in the Transfer Statement are consistent with the 1986 Act;
- (b) the Transfer Statement contains particulars of the matters required by the Transfer Regulations;
- (c) there is no further material information which it appears to the Authority, on the basis of what it knows at that time, is relevant to the decision of the members

and is appropriate to the Transfer Statement (since that Statement carries the explicit approval of the Authority);

- (d) the information in the Transfer Statement is presented clearly, in a balanced way, is consistent with the facts as known to the Authority, and is supported by responsibility statements from the directors and by opinions from the society's auditors and advisers.

For that purpose, the Authority will require supporting documentary information, including, in particular:

- (e) the draft Transfer Agreement, which will incorporate a full specification of the transfer distribution scheme (the Transfer Statement by itself being an inadequate basis for considering the legal issues);
- (f) a description, supported by opinions of the society's auditors and legal advisers, of the terms of the proposed scheme of distributions of funds or shares to members, Trustee Account Holders and others, including the systems and procedures required to make the distributions and copies of the notices and other documents to be used;
- (g) in the case of a specially formed company, the draft articles of association of the successor company (including the requisite protective provisions);
- (h) the Rules of the society (6 copies);
- (i) the full accounts and auditors' reports on which the financial information is based;
- (j) a checklist of the information required by the Transfer Regulations showing where each item may be found in the draft Transfer Statement.

4.13 The process of consideration will consist of discussions and correspondence between the Authority and the society, which are likely to lead to the production by the society of one or more redrafts of the Transfer Statement to take account of the Authority's comments, and refinements proposed by the society, to improve the clarity, completeness and drafting of the Statement. Clearly, the time necessary to complete this process will depend upon the quality and completeness of the draft Statement submitted with the first

application, the complexity of the proposed terms of the transfer and whether they include any novel features, and whether it proves necessary to apply to the High Court for the determination of any legal issues. The Authority will seek to deal with the process efficiently and expeditiously. However, its speed of response will necessarily be affected by the factors referred to above as well as the commitments and priorities of the Authority's relevant resources. The draft Transfer Statement must also be fully verified, to the satisfaction of the board, which process may be expected to take up to 6 weeks.

- 4.14 The Fees Rules provide that a further fee is payable by the society each time it submits a revised draft Transfer Statement to the Authority for approval. However, the Authority may waive or reduce the additional fee where it is satisfied that the revisions to the original, or previous, draft are not substantial.
- 4.15 When the society has settled on the final draft of a Transfer Statement which the Authority is minded to approve, the society should submit two authenticated copies of the final draft Transfer Statement to the Authority with the following documents:
- (a) a certified copy of the Transfer Agreement made between the society and the successor company;
 - (b) the Memorandum and Articles of Association of the successor company;
 - (c) a checklist of the information required to be included in the Transfer Statement pursuant to the Transfer Regulations;
 - (d) certified copy of an opinion from the society's auditors pursuant to paragraph 17 of Part I of Schedule 1 to the Transfer Regulations;
 - (e) certified copies of any other experts' reports or opinions which appear or are referred to in the Transfer Statement;
 - (f) certified copy of an opinion from the successor company's auditors pursuant to paragraph 17 of Part I of Schedule 1 to the Transfer Regulations;
 - (g) statutory accounts of the society and its connected undertakings for the previous 3 financial years, together with a reconciliation between those accounts and the figures appearing in the Transfer Statement;

- (h) in the case of an existing company, consolidated statutory accounts of the company/group for the previous 3 financial years, together with a reconciliation between those accounts and the figures appearing in the Transfer Statement;
- (i) certified copy of a letter of consent from the society's auditors relating to the issue of the Transfer Statement;
- (j) in the case of an existing company, certified copy of a letter of consent from the successor company's auditors relating to the issue of the Transfer Statement;
- (k) certified copy of a letter of consent from the Banking Regulator relating to the issue of the Transfer Statement with the inclusion of a statement as to the willingness of the Banking Regulator to authorise or, as the case may be, to continue to authorise the successor company to accept deposits;
- (l) certified copies of letters of consent from any other experts relating to the issue of the Transfer Statement with the inclusion of any reports or opinions referred to in paragraph 4.15(e);
- (m) certified copies of responsibility letters signed by the directors of the society (see paragraph 4.10);
- (n) certified copies of responsibility letters signed by the directors of the successor company (see paragraph 4.10);
- (o) certified copies of the minutes of the boards of the society and the successor company approving the Transfer Statement, the Transfer Agreement and related documents and approving the release of the responsibility letters mentioned in 4.15(m) and (n) (respectively) to the Authority;
- (p) an assurance from the directors of the society concerning the society's register of members and its systems (see paragraph 5.15);
- (q) a declaration by the directors of the society, and a similar declaration (as appropriate) by the directors of the successor company, along the following lines:

“We confirm that the statutory Transfer Statement was approved at a meeting of the Board of Directors of the Society held on (.....). The Directors of the Society agreed that copies of the responsibility letter could be made available to the Financial Services Authority in connection with this application. We also confirm that apart from the inclusion of [.....] no other changes have been made to the statutory Transfer Statement from the Pre-Approval proof dated (.....) handed to you on (.....) and that no changes have been made to the Transfer Agreement from the draft dated (.....) and handed to you on (.....).”

“We hereby request pursuant to our application dated (.....), that the Financial Services Authority approves, in accordance with paragraph 4(3) of Schedule 17 to the 1986 Act, the contents of the statutory Transfer Statement so far as they concern the prescribed matters (as defined in paragraph 1 of that Schedule) and any matter of which particulars are required to be given under paragraph 3(1)(b) of that Schedule.”

4.16 The Authority’s statement of approval of the Transfer Statement will be given as is set out in Annex A.

4.17 The Authority’s approval of the Transfer Statement will be confirmed by returning to the society one authenticated copy of the Transfer Statement with the Authority’s certificate of approval signed by an authorised signatory for the Authority. The society will be asked to give 50 copies of the printed Transfer Document and Transfer Summary, if any, to the Authority when they are available. There is no statutory requirement for copies of the Transfer Statement and Transfer Summary to be placed on the public file of a society but, because they are both public documents, the Authority will pass copies of them, and the Transfer Document, to the Central Office for filing. If a public announcement of the transfer proposal was not to be made until after the Authority had approved the Transfer Statement, the Authority would not pass copies of the Statement, Summary or Document to the Central Office until after the announcement. None of the other documents referred to in paragraph 4.15 will be passed to the Central Office.

4.18 The number of copies of the Transfer Statement to be printed will, of course, depend upon whether a society intends to distribute a Transfer Summary to its members with the notice of the general meeting. In that case, the society must make its own judgement

about the number of copies of the full Transfer Statement to be printed, bearing in mind the requirements of paragraph 4(2) of Schedule 17 that sufficient copies must be available at every office or branch of the society and for despatch by mail.

A Note on Style

4.19 A Transfer Document is bound to be lengthy and somewhat complex. It has to contain a lot of information, but its complexity will depend to a large extent on the terms of the transfer, particularly the transfer distribution scheme, proposed by the board. Bearing in mind that the purpose of the Transfer Statement is to provide information to the generality of members, it should be written in a clear and concise style and, so far as possible, in plain English. The Authority will be concerned that, because the statutory Transfer Statement is largely concerned with matters of fact, those matters are presented clearly and unambiguously. To the extent that it is necessary to include statements of the opinion or belief of the board, those statements should be clearly identified as such in the Transfer Statement. The board's views on the fairness and merits of the proposed transfer and its terms will form a separate part of the Transfer Document, as discussed in paragraph 4.9. Annex A suggests a structure for the Transfer Document which is designed to present its readers with a clear and logical sequence of topics. The Authority suggests that one of the main tasks of the society's project manager (see paragraph 2.13) should be to ensure that the Transfer Document is drafted in a clear and concise style. This will be a great help in achieving the Authority's approval of the Transfer Statement, and the board's verification of the whole Transfer Document, without undue difficulty and within a reasonable timescale.

5. GENERAL MEETINGS AND RESOLUTIONS

This section describes the requirements of the 1986 Act concerning members' entitlement to vote, the register of members and the sending of notices of meetings. It also discusses general meeting arrangements, the resolutions and majorities required and the counting of votes. *The directors of a society must satisfy themselves that they observe the general law on meetings, the relevant provisions of the 1986 Act and the society's own Rules.*

Resolutions and Voting Majorities

5.1 The 1986 Act provides that a transfer must be approved by the requisite Transfer Resolutions in accordance with paragraph 30 of Schedule 2 (Section 97(4)(c)) as follows:

- (a) **a borrowing members' resolution** passed on a poll by a simple majority of borrowing members qualified to vote and voting (see paragraph 29(1) of Schedule 2 for the definition of a borrowing members' resolution); and
- (b) **a shareholding members' resolution** (see definition in paragraph 27A of Schedule 2) passed on a poll by a majority of at least 75% of shareholders qualified to vote and voting, and on which:
 - (i) in the case of a **conversion**, not less than 50% of shareholders qualified to vote on a shareholding members' resolution **voted** (see SI 1997/2714); or
 - (ii) in the case of a **takeover**, not less than 50% of shareholders qualified to vote on a shareholding members' resolution (or shareholders so eligible who held not less than 90% of the total share balances held on the voting date by all shareholders qualified to vote) **voted in favour**;

provided that, in each case, notice has been duly given that the resolution is to be moved as a shareholding members' resolution or a borrowing members' resolution, as the case may be, and, in the case of the shareholding members' resolution, that the resolution will not be effective unless it satisfies the requirements specified in 5.1 (b) A member may vote either in person at the meeting or by appointing a proxy, and paragraph 33(1) of

Schedule 2 provides that the voting on Transfer Resolutions may **not** be conducted by postal ballot.

- 5.2 Section 99(2) of the 1986 Act provides (see paragraph 3.24) that, where a society proposes to pay **compensation to directors or other officers** for loss of office or diminution of emoluments, attributable to the transfer, such compensation must be approved by a special resolution of the society's members; that is, a resolution passed by a majority of at least 75% of members (both shareholding and borrowing members together) qualified to vote and voting (paragraph 27 of Schedule 2 to the 1986 Act). This resolution is separate from the Transfer Resolutions required to approve the other terms of transfer. The Treasury has not made regulations under Section 99(3) of the 1986 Act to set limits below which compensation may be paid without the authority of a special resolution. Therefore, in every case where compensation is proposed, the members must vote on the proposal as a separate issue from whether they approve the proposed transfer itself. "Other officers" include, in addition to the Chief Executive and Secretary, any persons who exercise managerial functions under the immediate authority of a director or the Chief Executive of a society (see "manager" and "officer" in Section 119 of the 1986 Act).
- 5.3 As is described in paragraphs 3.26 and 3.27, if the terms of a transfer include provision **for increased emoluments of directors or other officers** in consequence of the transfer, an ordinary resolution approving any such provision must be put before a meeting of the society. An ordinary resolution is passed by a simple majority of members (both shareholding and borrowing members voting together) qualified to vote and voting. However, it is not required that the resolution must be put to the same meeting as the Transfer Resolutions, neither is approval of the ordinary resolution required to authorise such increased emoluments which, as terms of the transfer, are authorised by the passage of the Transfer Resolutions. The purpose of Section 99A of the 1986 Act is to give the members an opportunity to express their views on these matters separately from their decision on whether or not to approve the transfer and its terms.

Notice of the Meeting

- 5.4 Paragraph 22 of Schedule 2 to the 1986 Act requires that notice of a meeting shall be given to every member of a society who would be eligible to vote at the meeting. The notice is also to be given to every member who will attain the age of 18 years on or before the date of the meeting, and to every person who becomes a shareholding or

borrowing member of the society after the date of the notice but before the date specified by the society as the final date for the receipt of proxy voting forms. Note also that the Transfer Statement or the Transfer Summary, as the case may be, must also be sent to every member entitled to notice of the meeting (paragraphs 2 and 4(1) of Schedule 17 to the 1986 Act).

Entitlement to Vote

- 5.5 Paragraph 5 of Schedule 2 to the 1986 Act provides that no person may be a member of a building society unless he or she is a shareholding member or a borrowing member. A shareholding member is a person who holds a share in the society (that is, an investment in a share account or PIBS). A borrowing member is a person who is indebted to the society in respect of a loan fully secured on land. However, the Rules may provide that borrowing membership is conferred by a loan substantially secured on land, or shall cease if the loan is foreclosed or the land is taken into possession by the society. A minor (that is a person under 18 years of age) may be a member, but may not vote on any resolution.
- 5.6 The mandatory provisions of Schedule 2 to the 1986 Act concerning a member's entitlement to vote on a resolution, which must be reflected in societies' Rules, are that the member must be a member on the voting date, must have been a member at the end of the last financial year before the voting date (paragraph 23(1) of Schedule 2) and must have attained the age of 18 years (paragraphs 5(3) and 34(2) of Schedule 2) on or before the date of the meeting. So far as borrowing members are concerned, the member is not entitled to vote in that capacity if his indebtedness to the society at any relevant time is less than £100 (paragraphs 29(2) and 36 of Schedule 2).
- 5.7 However, Schedule 2 specifies the following further provisions, some, none or all of which **may** be included in a society's Rules with respect to the **entitlement of shareholding members to vote** on any resolution; a person must (see Schedule 2 paragraphs 23(3) to (5) and 36):
- (a) have a qualifying shareholding (which must not be set higher than £100), in one or more share accounts or PIBS, on the "qualifying shareholding date";
 - (b) hold shares on the voting date; and
 - (c) have held shares continuously between those two dates.

5.8 The “**qualifying shareholding date**” is either: the last day of the financial year preceding the voting date; or, if the voting date falls during that part of a financial year which follows the conclusion of the society’s AGM commenced in that year, the first day of the period beginning 56 days before the date of the meeting. Therefore, if a society’s Rules, following the BSA Model Rules (Fifth Edition), include the provisions concerning shareholding and continuity of membership, described in paragraph 5.7, **and if the voting date is later than the AGM in that year**, a person to be entitled to vote on a shareholding members’ resolution must:

- (a) have been a shareholding member on the last day of the previous financial year;
- (b) have held shares to the value of at least £100 on the day 56 days before the date of the meeting;
- (c) have held shares continuously from the 56th day through to the voting date; and
- (d) hold shares on the voting date.

But note that there is no requirement for continuity of shareholding between 5.8(a) and (b) (In contrast, in the case of an ordinary or special resolution, membership at 5.8(a) may be satisfied by either borrowing or shareholding membership provided the shareholding member satisfies the other conditions of (b) to (d). in order to vote in his or her capacity as a shareholder.) Note also that a person cannot meet a requirement for “holding shares” on a given date, or during a given period, by relying on his holding of a share account with an overdrawn balance; and a person cannot meet a requirement for being a “member” on a given date (for example, at 5.8(a)) by relying on his holding of such a share account.

5.9 The mandatory provisions of Schedule 2 concerning **entitlement to vote on a borrowing members’ resolution** are, as noted above, that the member must have been, and be, indebted to the society for at least £100 (whether on one or more accounts) at the end of the last financial year before the voting date, and on the voting date, in respect of an advance fully secured (or, if the Rules permit, substantially secured) on land (paragraphs 5(2), 23(1), 29(2) and 36 of Schedule 2) and have attained the age of 18 years by the date of the meeting (paragraphs 5(3) and 34(2) of Schedule 2). But note that there is no dispensation in the 1986 Act for the Rules to reduce the qualifying amount below £100, nor to provide for a continuity of membership qualification.

- 5.10 Schedule 2 makes provision in respect of **joint shareholders** (paragraph 7) and **joint borrowers** (paragraph 8). The only person entitled to exercise the right to vote on behalf of the joint shareholders or joint borrowers is the one who is named first in the records of the society, described respectively as the “representative joint holder” or the “representative joint borrower”.
- 5.11 A member may vote once only on any resolution, irrespective of the number of accounts he or she may hold. The amount of the balance(s) held on account(s) is not material, except to qualify to vote - see paragraphs 5.6 to 5.8. Thus, a member with several share accounts and/or several mortgage accounts, whether as sole and/or representative joint holder, may vote once only on any resolution. When the membership votes as a whole on an ordinary or a special resolution, each member may vote only once, whether he or she is a shareholding or a borrowing member or both. Where shareholding members and borrowing members vote separately, as on the Transfer Resolutions, members entitled to vote may vote only once, if a shareholding member, on the shareholding members’ resolution and once, if a borrowing member, on the borrowing members’ resolution. A person entitled to vote both as a shareholding member and as a borrowing member may of course, vote once on each resolution.
- 5.12 The “**voting date**” is defined by paragraph 23(6) of Schedule 2 as, for this purpose, either:
- (a) for members who appoint a proxy, the last date specified by the society for the receipt of proxy voting forms, which may not be more than 7 days before the date of the meeting (paragraph 24(6) of Schedule 2). A proxy vote remains valid if the member ceases to be a member after the proxy voting date but before the date of the meeting (paragraph 24(2) of Schedule 2); or
 - (b) for all other members, the date of the meeting.
- 5.13 The guidance given in the foregoing paragraphs of this section is intended to give a general description of the provisions of the 1986 Act and of the Rules suggested by the BSA Model Rules. Societies are advised to satisfy themselves that they observe the specific provisions of the 1986 Act and of their own Rules.

Register of Members

- 5.14 Every society is required to maintain a register of the names and addresses of its members and whether each member is a shareholding member or a borrowing member or both. (Schedule 2, paragraph 13). The register should, so far as possible, be “de-duplicated”; that is, multiple account holders should be identified and their names recorded once only in the register. A society’s systems must also be capable of recognising those members who are eligible to vote by, for example, aggregating share account balances of multiple account holders to check that they have the requisite qualifying shareholding, by checking members’ continuity of shareholding, and by identifying minors (see paragraphs 5.5, 5.6 and 5.9). This information is required to ensure that the notice of the meeting is sent to all the members entitled to receive it, and that the scrutineers have adequate systems to validate the votes cast on the Transfer Resolutions.
- 5.15 The directors of a society contemplating a transfer must satisfy themselves, in consultation with their external auditors, or other advisers, that the society’s systems are capable of delivering the information described above. The Authority will require an assurance on this point when the society applies for approval of the Transfer Statement. One of the criteria which the Authority has to consider at the confirmation stage is whether some relevant requirement of the 1986 Act or the Rules was not fulfilled (see section 6).
- 5.16 The problem of avoiding duplication in the register of members is significant for most societies of any size. Societies generally now seek to establish, when new accounts are opened, whether or not the applicant is an existing member and, if so, which accounts are relevant to voting and other membership rights. The task of identifying multiple account holders is complicated by confidentiality requirements. For example, if two accounts are held by a Mr A Smith and a Dr A Smith, both at the same address, the society cannot know (in the absence of other information such as date of birth) whether the two accounts belong to the same person, one opened before and one after he qualified, or by the doctor and his son. A letter of enquiry to one asking about both accounts would risk breaching customer confidentiality. If it is the same person, there is a risk that he will be given the opportunity to vote twice or, if neither account holds more than £100 but they aggregate above that qualifying amount, be denied a vote to which he is entitled. It is good practice for a society, when it has announced its intention to transfer its business, to write to all its members individually setting out the information about them which it holds on its records, inviting them to confirm that the

information is correct and to say whether they have received more than one such letter as a shareholder or as a borrower.

- 5.17 Where a society identifies a number of accounts which appear to be held by a single member, but it cannot be sure, then it must send separate meeting notices in respect of each account which satisfies the qualifying conditions for entitlement to vote. Where such accounts do not separately entitle the member to vote but would do so if aggregated (by satisfying the £100 minimum shareholding condition) the society may consider it advisable to send separate notices in respect of each account with the warning that, on the information available to it, the society believes that the member is not eligible to vote. However, its systems should identify the possible multiple holding so that, if more than one vote is received in respect of that group of accounts, the scrutineers are alerted to the possibility, and can check the proxy forms for evidence of invalid duplicate votes. The voter's declaration suggested by the BSA Model Rules, in conformity with paragraph 34 of Schedule 2 to the 1986 Act, provides some protection against votes being cast by minors, but none against duplicate votes. It is, however, the duty of each society to make sure that its register of members is reliable.

General Meeting Arrangements

- 5.18 Paragraphs 5.19 to 5.25 consider the requirements for sending notices of meetings and Transfer Statements, or Transfer Summaries, to members, and the conduct of meetings at which Transfer Resolutions are to be moved. It is for societies to satisfy themselves that they comply with the relevant requirements of the 1986 Act, their Rules and the general law on meetings

Notice of Meeting

- 5.19 The statutory requirements concerning notices to members are in paragraph 22 of Schedule 2 to the 1986 Act. Notice of the meeting must be given to each shareholding and borrowing member of the society who would be eligible to vote at the meeting if the meeting were held on the date of the notice (a single date for all notices irrespective of when they are despatched). In addition, notice must also be given to any person who will attain the age of 18 years after the date of the notice but on or before the date of the meeting, and to every person who becomes a shareholding or borrowing member of the society after the date of the notice but before the final date for receipt of proxy voting forms, provided, in each case, that the member will be entitled to vote. Note also that the Transfer Statement or Transfer Summary must be sent in or with the notice to every

person entitled to receive it (paragraphs 2 and 4 of Schedule 17 to the 1986 Act). Accidental omission to give notice of a meeting to any person entitled to receive it does not invalidate the proceedings at the meeting. However, “accidental omission” does not include a systemic failure to send notices (e.g. omitting to send notices to new shareholders or borrowers, or omission of a group or class of members from the mailing list arising from a fault in a computer programme), nor all cases of error by management - see also paragraph 5.38.

5.20 The 1986 Act also provides, in paragraph 21 of Schedule 2, for the **length of notice** to be given to members. The period of notice given must be not less than 21 days or such longer period as the society’s Rules prescribe. The precise procedures for sending notices, the way in which the days are to be counted, and presumed receipt of notices duly sent, will normally be set out in the Rules. Particular points to note are:

- (a) the 21 days’ notice expires with the closing date for the receipt of proxy voting forms, not the date of the meeting;
- (b) if reliance is to be placed on a provision in the Rules that notices can be deemed to be served 24 hours after posting, then first class post or equivalent means of delivery should be used. However, it is advisable to allow a margin of at least an extra day or two, but more if second class post is used;
- (c) if a society contracts with a commercial mailing firm, it must ensure that the firm is comprehensively instructed about the society’s despatch and delivery requirements, and the society should carry out spot checks to satisfy itself that its instructions are being properly carried out. A failure by the contractor may invalidate the meeting, even if the society itself has used its best endeavours to police the operation.

5.21 The Transfer Statement or Transfer Summary, as the case may be, is required, by paragraph 4(1) of Schedule 17 to the 1986 Act, to be sent “**in or with**” the notice of the meeting to every member entitled to that notice. As is suggested in section 4, it may be expedient to include both in a comprehensive Transfer Document or booklet.

5.22 Notices and Statements or Summaries need not be sent to any member in whose case the society has reason to believe that communications sent to him at his registered address are unlikely to be received by him (Schedule 2, paragraph 14). In those circumstances, a society is required to place notices of the meeting prominently in every branch office, or

to place advertisements in newspapers circulating in the areas in which the society's members live. Such notices or advertisements must be published at least 21 days before the date of the meeting, and must state where members can obtain copies of the Transfer Summary, the Transfer Statement, the Transfer Resolutions and proxy voting forms (paragraph 35 of Schedule 2 to the 1986 Act).

- 5.23 It should be noted, however, that a member's "registered address" may not be the address shown in the society's register of members but a different address to which the member has requested that communications from the society be sent (paragraph 13(4) of Schedule 2 to the 1986 Act).

Conduct of the Meeting

- 5.24 The meeting should be held at a time and place considered by the board to be most convenient for the generality of the society's members. This may not necessarily be the same as the traditional time and place for the AGM. In deciding on this, the board should take account of the geographical location of their members, and the probability that an unusually large number of members may wish to attend a meeting to consider a proposed transfer.
- 5.25 Subject to the society's Rules, its chairman will normally chair the meeting. His function as chairman of the meeting is to ensure that all views may be presented and properly discussed. He is unlikely to be able to fulfil that role if he acts also as chief advocate of proposals which are controversial among members. In such cases it might be appropriate to give to another director the tasks of explaining the board's recommendations and of responding to questions from members.
- 5.26 A Transfer Resolution cannot be amended at the meeting except in a way which does not change its substance at all. This is because an amendment to such a resolution has to be subject to the same procedure and period of notice to members as the resolution itself. If a board decides, after due notice of such a resolution has been sent to the members, that the resolution should be amended, then it will be necessary to submit the amended resolution, with due notice, to a general meeting at a later date, unless of course there is still time to fulfil the notice requirements.

Conduct of the Voting

- 5.27 The conduct of the voting must not only be fair but also be seen to be fair, otherwise the result may be called into question by representers at the confirmation stage. The votes must be counted by independent scrutineers. The board may ask the scrutineers, in advance of the meeting, for a running tally of the number of votes being cast if it thinks it might properly encourage more members to vote if the response is low. However, to ask the scrutineers **how** the votes are being cast, before the time comes at the meeting to instruct proxies, carries the risk of accusations, however unfounded they may be, and possible challenge at the confirmation stage on the grounds that the board suppressed proxy votes against the Resolutions, or unduly influenced members to vote in favour. A board which asks the scrutineers for a running tally of votes, and which circulates its members with further exhortations to vote, must be prepared to argue its case in the face of such accusations at the confirmation hearing. Any circular to members sent after the Transfer Document was sent to them must, therefore, be very carefully considered.
- 5.28 Experience has demonstrated the need for societies to take the greatest care to ensure that they comply strictly with the statutory procedural requirements and their own Rules on meetings and resolutions. The person chairing the meeting should ensure that he or she is well briefed and aware of the Rules and the general law relating to procedural resolutions, such as resolutions to adjourn the meeting. The Authority will require a confirmatory report from the scrutineers on the validity of the voting procedures when the society applies for confirmation (see paragraph 5.34).
- 5.29 The procedures for the conduct of proxy voting will normally be provided for in the society's Rules, in conformity with paragraphs 24 and 34 of Schedule 2. The 1986 Act requires that every proxy form sent by a society to its members must enable the member to direct the proxy how to vote (paragraph 24(4A)). In addition, to minimise the risk of the society's proxy voting procedures being misunderstood, the Authority recommends that the design of the proxy form is carefully considered (preferably a self-contained form clearly to be returned intact) and that it should include:
- (a) adequate space to insert the name of a proxy other than the chairman of the meeting, and a statement (which must also appear in the notice of the meeting) that the proxy appointed need not be a member of the society (a reminder that the voting member's own name should not be inserted will also be helpful);

- (b) an explicit statement that if the member does not instruct his proxy to vote for or against the resolution, then the proxy will cast the vote, or abstain, as he thinks fit;
- (c) the declaration, as provided by the Rules, in accordance with paragraph 34 of Schedule 2;
- (d) full recital of the text of the shareholding members' or borrowing members' resolution(s) or, if this is not practicable (e.g. because of space restrictions), a clear indication that the full text may be found in the notice of the meeting;
- (e) instructions as to the return of completed proxy forms, including the last effective date for receipt by the society or by the scrutineers. A pre-addressed and pre-paid envelope or other sealed means of return should be provided.

5.30 The 1986 Act does not require societies to send proxy voting forms to members with notices of meetings. However, the Authority believes that, on a matter as important as a transfer, and bearing in mind the 50% turnout (conversion) and 50% support (takeover) requirements on the shareholding members' resolutions, societies would be well advised to send a proxy voting form to members with the meeting notice. If a society decides, nevertheless, not to send proxy forms to members entitled to vote, then it should make clear to the members that proxy voting forms can be obtained on demand from its branches and/or by application to a central point.

5.31 The arrangements for the collection of the proxy forms should be such as to secure confidentiality and to avoid the risk of loss, whether accidental or deliberate. The Rules may provide for return of proxy forms to the scrutineers either directly or to the society's principal office. Where proxy forms are returned to the society's offices, the Authority recommends that the procedures should incorporate the following features:

- (a) the proxy form should be enveloped or otherwise sealed so that the members' voting instructions are concealed;
- (b) the envelope provided should be clearly marked so that the society can readily identify and separate it from other mail without the envelope being opened;

- (c) staff responsible for receiving and sorting mail should be given specific instructions about the handling of proxy forms and the overriding importance of security;
 - (d) secure storage of proxy forms should be provided up to the point at which they are handed over to the scrutineers;
 - (e) equivalent handling and security procedures should be applied to proxy forms handed in at branches.
- 5.32 The Authority suggests that proxy voting forms for shareholders and borrowers should be easily distinguishable, perhaps by colour coding, both as an aid to members who may be entitled to vote in each capacity, and as an aid to the scrutineers counting the votes.
- 5.33 Members may attend the meeting and vote in person. There must, therefore, be satisfactory systems in place in accordance with the Rules to identify and cancel any proxy votes they may previously have returned.

Scrutineers' Report

- 5.34 The scrutineers are responsible for checking the validity of votes cast in person and by proxy. The scrutineers must be independent of the society and not have a direct interest in the result of the voting. For example, they should not be officers expecting to receive compensation or appointments under the terms of the transfer. It will usually be appropriate to appoint the society's auditors, and it is desirable that they should be appointed not just for the arithmetical count of votes but also to supervise the voting process as a whole so that they are in a position to confirm, after the vote, that all the requirements of the 1986 Act and the society's Rules have been complied with. This would include:
- (a) determining and validating member mailing lists for notices of the meeting and Transfer Statements or Transfer Summaries and for Trustee Account Holders (see paragraphs 3.15 and 5.4);
 - (b) despatch procedures;
 - (c) timing of notices and despatch of documents;

- (d) form and content of proxy voting forms;
- (e) receipt and custody of completed proxy voting forms;
- (f) validation of completed proxy voting forms to establish that members are qualified to vote and that forms are properly completed;
- (g) identification and validation of members attending and voting at the general meeting;
- (h) voting procedures at the meeting including casting of proxy votes, count of votes cast in person and aggregation of proxy and personal votes cast on the Transfer Resolutions, and on any special resolution required to authorise the payment of compensation to directors or other officers;
- (i) voting procedures at the meeting, or at another meeting, as the case may be, and the count of votes on any ordinary resolution to approved increased emoluments of directors or other officers (if required).

5.35 To fulfil the duties outlined above, it is suggested that the scrutineers would need to:

- (a) examine the systems and procedures to be employed by the society, before they are implemented, to ensure that they are satisfactory;
- (b) carry out such checks and tests as they consider necessary during the operation of the procedures as will enable them to be satisfied that the specified procedures are being carried out in practice;
- (c) provide that where validation functions are carried out by the society's staff this is done under the direction and supervision of the scrutineers;
- (d) direct and supervise the count of the votes cast both by proxy and personally at the meeting.

5.36 Validation checks during the counting of votes may be expected to include the following:

- (a) only proxy forms which comply with the 1986 Act and the society's Rules have been used;
- (b) the member is eligible to vote under the 1986 Act and under the society's Rules (**NB** a proxy vote may still be valid even though the member has ceased to be entitled to attend and vote at the meeting after the closing date for receipt of proxies - see paragraph 5.12 (a));
- (c) only one proxy form per member eligible to vote is included in the count (separate forms may be sent to and returned by a person eligible to vote on both the shareholding members' resolution and the borrowing members' resolution);
- (d) minors are excluded and that there is an explicit confirmation by each member voting by proxy that he is aged 18 or over;
- (e) the proxy form is completed and signed and is otherwise valid (where a proxy form lacks a signature but is otherwise valid, it is usual, if time permits, for the scrutineers to return the form to the member for signature and return in a pre-paid envelope).

5.37 The scrutineers' initial report will be made to the society at the meeting (which may be adjourned for this purpose). The Authority will require, in support of a society's application for confirmation under Sections 97(4)(d) and 98 of the 1986 Act, a report from the scrutineers on the result of the vote on each Resolution (distinguishing between votes cast in person and by proxy), the total number of members eligible to vote (and the proportion of that number that the votes cast represent), the numbers of invalid votes cast and also confirmation that, in the opinion of the scrutineers, the arrangements for the conduct of the voting were such as to ensure that:

- (a) notices of the meeting and Transfer Statements or Transfer Summaries were sent to all those entitled to receive them, in accordance with the 1986 Act and the Rules of the society having regard, *inter alia*, to the matters referred to in this chapter;
- (b) the periods of notice given complied with the requirements of the 1986 Act and of the society's Rules, taking into consideration established conventions for the counting of days;

- (c) there were satisfactory procedures to ensure the security of proxy voting forms and to minimise the risk of loss or unauthorised access;
- (d) there were satisfactory procedures to ensure that the count of votes cast personally at the meeting included only votes cast by members eligible to vote and who had not mandated, or had withdrawn, a proxy vote.

5.38 In relation to the notice of the meeting, the scrutineers' report may properly have regard to the provision of paragraph 22(3) of Schedule 2 to the 1986 Act that "accidental omission to give notice of a meeting to, or non-receipt of notice of a meeting by, any person entitled to receive notice of the meeting does not invalidate the proceedings at that meeting". It should be noted, however, that there is authority to the effect that "accidental" and "non-receipt" would not cover all cases of "error" on the part of the society, for example an erroneous decision of management not to send notices to particular persons or groups of persons.

5.39 The Authority would find it helpful if the scrutineers' report would also comment upon any procedural difficulties encountered and, if the numbers of invalid votes appear to be significant, give an analysis of the reasons why votes were found to be invalid (see also section 6).

6. CONFIRMATION

No transfer can take effect until it has been confirmed by the Authority. This section first describes the form of application and public notice required. It then explains the Authority's view of how the statutory Confirmation Criteria should be interpreted. Finally, it gives guidance on the procedure customarily followed by the Authority when considering confirmation applications and hearing representations.

Application

- 6.1 Sections 97(4)(d) and 98(2) of, together with Part II of Schedule 17 to the 1986 Act, provide that when the necessary Transfer Resolutions have been passed the society must apply to the Authority for confirmation of the transfer in such manner as the Authority may direct. The society is also required, by paragraph 7 of Schedule 17, to publish notices of its application in one or more of the London, Edinburgh and Belfast Gazettes as the Authority directs and, if it so directs, in one or more newspapers. The choice of official Gazettes and national or local newspapers will, of course, have regard to the area in which the society's members live.
- 6.2 The application should specify the date on which the transfer is intended to take effect and should be accompanied by two authenticated copies of the Transfer Agreement. The scrutineers' report described in section 5, and a certified copy of the minutes of the general meeting at which the Transfer Resolutions were moved, together with a transcript of the meeting, must also be enclosed with the application, together with 10 copies each of the Transfer Document and the Transfer Summary (if sent), and copies of all other documents sent to members and any advertising material in connection with the proposed transfer. If a Transfer Summary was sent, the application should also be accompanied by a checklist of the information prescribed by Schedule 2 to the Transfer Regulations showing where each item may be found in the Transfer Summary.
- 6.3 A *pro forma* public notice of application, and *pro forma* letter of application are at Annex B. The appropriate fee is payable with the application, and a further fee is payable by the society if there is an oral hearing of the application, as prescribed by the Fees Rules.

The Confirmation Criteria

Statutory Provisions

6.4 Section 98(2) and (3) of the 1986 Act provides that the Authority must confirm a proposed transfer **unless** it considers that any one or more of the following four Confirmation Criteria apply:

- (a) some information material to the members' decision about the transfer was not made available to all the members eligible to vote; or
- (b) the vote on any resolution approving the transfer does not represent the views of the members eligible to vote; or
- (c) there is a substantial risk that the successor will not become or, as the case may be, remain a credit institution which is authorised to accept deposits for the purposes of the Act; or
- (d) some relevant requirement of the 1986 Act or of the Rules of the society was not fulfilled.

Section 98(4) of the 1986 Act then provides that the Authority shall not be precluded from confirming a transfer of business by virtue only of the non-fulfilment of some relevant requirement of the 1986 Act or the Rules (the Fourth Criterion in 6.4(d)) if it appears to the Authority that the failure could not have been material to the members' decision about the transfer, and the Authority gives a direction under that subsection that the failure is to be disregarded. Section 98(7) then provides that a failure to comply with a relevant requirement of the 1986 Act or the Rules shall not invalidate a transfer, once confirmed.

6.5 Where the Authority would be precluded from confirming a transfer by reason of any of the defects specified in the Confirmation Criteria, Section 98(5) and (6) of the 1986 Act provides that it may direct a society to remedy the defects. A direction under Section 98(5) may, amongst other things, require a society to:

- (a) call a further meeting; for example, to vote again in the light of a revised Transfer Statement containing material information previously omitted or after

correction of defects in the systems for sending meeting notices and Transfer Statements or Transfer Summaries and validation of votes;

- (b) secure the variation of the Transfer Agreement; or
- (c) secure the alteration of the protective provisions in the articles of association of a specially formed successor company.

If the Authority is then satisfied, having considered evidence furnished by the society, that the defects have been substantially remedied, it must confirm the transfer. If not, then confirmation must be refused.

Scope of the Authority's Powers

- 6.6 The Authority's powers in connection with applications for confirmation of a transfer are confined to considerations of whether, in the light of the facts, any of the Confirmation Criteria apply. It is not for the Authority to consider, or make judgements about, the merits of a proposed transfer or the fairness of its terms; these matters are first for the board of a society, and then for its members, to decide. Once the members have approved the transfer and its terms, the Authority has no powers to require a society to make any changes to those terms, although it may direct a society to remedy any failure to comply with a relevant requirement of the 1986 Act as a condition of confirmation.
- 6.7 The Authority has no general power to determine disputes between a society and its members, nor to seek to enforce other legislation or the general law. Disputes concerning services provided by societies in the ordinary course of their business are generally a matter, in the first instance, for a society's internal complaints procedure. They may also fall within the jurisdiction of the Financial Services Ombudsman Scheme. Disputes between a building society and a member of the society, in his or her capacity as a member, in respect of any rights or obligations arising from the Rules of the society or the provisions of the 1986 Act, fall within the jurisdiction of the High Court or, in Scotland, the Court of Session (Section 85 of and Schedule 14 to the 1986 Act). However, the Authority does have power, on the written application of certain members, to direct that the member has the right to obtain names and addresses from the society's register of members. Before it gives such a direction, the Authority is required to be satisfied that the member requires that right for the purpose of communicating with other members of the society on a subject relating to its affairs, and must have regard to the interests of the members as a whole and to all the other circumstances (paragraph 15

of Schedule 2 to the 1986 Act). A fee is payable by the applicant. Chapter 1 of this volume 2 of the IPSB gives guidance on applications for access to the register of members

Purpose of Confirmation

- 6.8 The purpose of the confirmation process is to enable:
- (a) interested parties to make representations with regard to the Confirmation Criteria;
 - (b) the society to respond to those representations;
 - (c) the Authority to make such enquiry as it considers necessary to reach informed conclusions on each of the Confirmation Criteria.
- 6.9 The Authority, in reaching its view on each of the Confirmation Criteria, has not only to assess the points made to it in representations, and the society's responses, but also to make such further enquiries as it considers necessary. In deciding how far it should pursue such enquiries, the Authority has to have regard to the role and effect of confirmation, and to the mischiefs which it is intended to prevent. The Authority considers that one role of confirmation is to provide a protection to members against the provision to them by the society of information which is inadequate, obscure or misleading, and against voting irregularities: in other words to ensure that the vote represents the informed decision of the members. The Authority would hope that this safeguard would work in the majority of cases by causing the board of a society to take care during the preparation of the Transfer Statement **not** to put confirmation at risk on this account; otherwise the Authority might find that it had to withhold confirmation at the last stage. In considering the First Criterion, the Authority will have regard to the totality of the information provided to the members by the board of a society, and not exclusively to the Transfer Statement and Transfer Summary.
- 6.10 The task of the Authority is accordingly:
- (a) to reach a considered view on each of the Confirmation Criteria;
 - (b) if that view is that none applies, to confirm;

- (c) if one or more of the First Three Criteria apply, to direct the appropriate remedial action, or to refuse confirmation;
- (d) if the Fourth Criterion applies, to consider whether it is appropriate to direct that failure be disregarded; if not, to direct the appropriate remedial action or to refuse confirmation.

In considering the Confirmation Criteria, the Authority may well have to look again at the Transfer Statement, or at issues which were considered in connection with approving that Statement. It may also then have to consider the adequacy of the Transfer Summary. In doing so, it has a duty to consider information and arguments put to it by representers and by the society, which of their nature were not available earlier, as well as those arising from its own consideration of the Criteria. The Authority would clearly only change the view reached at the time of approval of the Transfer Statement if there were good reason to do so. But it is under a duty to examine the Statement and connected issues at the time of confirmation in the light of any new information and arguments which become available. Accordingly, the Authority cannot be bound at the confirmation stage to the view that was taken at the earlier stage as to whether further factual information should be included in the Transfer Statement or as to the accuracy of its contents or the view taken as to the legality of the scheme.

- 6.11 The task of considering each of the Confirmation Criteria would still be necessary even if there were no representations. Without such enquiry and consideration the confirmation process would not properly be carried out. The Authority's view of how the Confirmation Criteria should be interpreted and applied is given in the following paragraphs.

The First Criterion

- 6.12 This criterion requires the Authority to consider whether some material information was not made available to the members. The Authority's own view, in which it concurs with the view previously adopted by the Commission in its confirmation decisions, can be summarised as follows:
- (a) the words "**made available to all the members eligible to vote**" mean that the criterion is mainly, if not exclusively, directed to the information provided by a society to the generality of its members;

- (b) the extent of “**information not made available**” can reasonably be assessed by considering how far the totality of information made available falls short of what might be expected to be put to its members by a financial institution of standing and repute seeking to put sufficient information and a fair and balanced assessment of it, and the board’s conclusions, to the members to enable them to take an informed decision;
- (c) the words “**material to the members’ decision**” require the Authority then to focus on whether it is within the bounds of reasonable possibility that the members’ decision would have been different had any deficiency in the information been made good, i.e. whether it could have changed the decisions on voting of sufficient members to lead to a different conclusion. If it is within the bounds of reasonable possibility that the deficiency might have changed the outcome, it is not for the Authority to determine whether it would actually have done so - it should put the decision back to the members. This test requires the Authority to take account both of the size of the vote and of the size of the majority within it;
- (d) the relevance of a particular piece of information to an investor and to a borrower may well be different. Accordingly, it is necessary to consider materiality separately in relation to the shareholding members’ resolution and the borrowing members’ resolution.

6.13 The Authority’s approach to determining whether this criterion is met is accordingly:

- (a) to review the material put to members, in the light of the representations made and the society’s responses, but also taking points of its own accord;
- (b) to consider, on the basis of that review, what information relevant to the decision of shareholders, or of borrowers, or both, might reasonably have been expected to be put to members by the board of a society of repute considering its fiduciary duty, and the extent to which (if at all) the information actually put falls short of that;
- (c) to consider separately in relation to the shareholding members’ resolution and in relation to the borrowing members’ resolution, whether any deficiency so identified was sufficient to amount to “information material to the members’ decision”.

The Second Criterion

- 6.14 This criterion requires the Authority to consider whether the votes on the Transfer Resolutions do not represent the views of the members. The main mischief to which it appears to be directed is a resolution approved by a small and unrepresentative vote.

The Third Criterion

- 6.15 This criterion is concerned with a matter of fact, to be established by reference to the Banking Regulator if a different body.

The Fourth Criterion

- 6.16 This criterion requires the Authority to consider whether the relevant requirements of the 1986 Act and the Rules have been fulfilled. The phrase “**relevant requirement of this Act or the rules of the society**” appears explicitly three times in Section 98 of the 1986 Act:

- (a) sub-section (3)(d) in the specification of this criterion;
- (b) sub-section (4) which gives the Authority power to disregard certain non-fulfilments;
- (c) sub-section (7) which provides that a failure to meet such a relevant requirement shall not invalidate a transfer of business, although such failure by a society without a reasonable excuse is a criminal offence.

The interpretation of the phrase is also directly relevant to sub-section (5) - the power of the Authority to give the society a direction to remedy defects specified in paragraphs (a) to (d) of sub-section (3).

- 6.17 Sub-section (8) defines “relevant requirement”:

“(8) In this section “relevant requirement”, with reference to this Act or the rules of a society, means a requirement of the applicable provisions of this Act or of any rules prescribing the procedure to be followed by the society in approving the transfer and its terms.”

Section 97(2) in turn defines “the applicable provisions” other than Section 97 as:

“section 98, section 99, section 99A, section 100, section 101, section 102, sections 102B, 102C and 102D, paragraph 30 of Schedule 2 and Schedule 17.”

It will be noted that Section 102A (joint account holders) of the 1986 Act is not an applicable provision and, thus, not a relevant requirement.

6.18 The Authority considers that sub-section (8) of Section 98 should be read naturally. The words “prescribing the procedure to be followed by the society in approving the transfer and its terms” apply only to the Rules, in order to specify which of the Rules of the society are “relevant requirements”. They do not apply as a matter of normal construction of the sentence to the “applicable provisions of this Act”; nor is it necessary that they should do so, since those provisions are specified in Section 97(2).

6.19 In the Authority’s view, the above interpretation of “relevant requirement of the 1986 Act” stems from the natural construction of Sections 98(8) and 97(2) which, in turn, is necessary to give effect to Parliament’s intentions for Section 98(5), (6) and (7). The Authority recognises that this interpretation does not quite fit Section 98(4). The test which the Authority has to apply in the case of sub-section (4) to a non-fulfilment of a relevant requirement of the 1986 Act is:

“if it appears to the Authority that it could not have been material to the members’ decision about the transfer”.

That test clearly is designed to relate to a failure to meet a procedural requirement or to some other failure which might have an effect on the voting.

6.20 The wording of Section 98 is such that no construction of the phrase is entirely free from difficulty. The Authority’s view is that the wording, and the intentions of Parliament, are best met by following the natural construction of sub-section (8), as a result applying a wide interpretation in sub-sections (3), (5) and (7), and implicitly in (6), but only considering that it is open to the Authority to make a direction under sub-section (4) in relation to non-fulfilment of a procedural requirement or other failure to which the test in that sub-section is apposite.

6.21 The Authority accordingly considers that the relevant requirements are those in:

- (a) sections 97 to 102, and 102B to D of, together with paragraph 30 of Schedule 2 to and Schedule 17 to the 1986 Act;
- (b) the Transfer Regulations; and
- (c) the Rules which prescribe the procedure to be followed; that is, in particular, the Rules concerning: membership; special meetings; notice of meetings; procedure at meetings; entitlement of members to vote on resolutions; appointment of proxies; and joint shareholders and borrowers.

Procedure

6.22 The procedure to be followed in confirmation proceedings is prescribed by Part II of Schedule 17 to the 1986 Act. Any interested party has the right to make written and/or oral representations to the Authority with respect to a society's application for confirmation. Written representations are to be copied to the society, which is to be afforded the opportunity to comment on them orally at the hearing of its application or in writing.

Representations

6.23 Persons making representations should state why they claim to be interested parties, for example, their category of membership of the society, and the ground or grounds for their representations by reference to the Confirmation Criteria discussed above. Notice of a person's intention to make oral representations must be in writing. Such notices and written representations must reach the Authority at the address, and by the specified date customarily given in the Transfer Document issued to members and subsequently confirmed by notice published in the official Gazettes and newspapers as required by the 1986 Act. Persons who make written representations but subsequently decide also to make oral representations must, nevertheless, give notice of that intention in writing to the Authority by the same date. Representations received out of time will not be considered unless, exceptionally and at the sole discretion of the Authority, they appear to the Authority to raise matters of substance relevant to the Confirmation Criteria which are not already under consideration.

6.24 Representations or notices to the Authority will fall into one of the following three categories:

- (a) written representations only;
- (b) written representations with notice of intention to make oral representations;
- (c) notice of intention to make oral representations only.

6.25 The Authority will acknowledge the receipt of each representation or notice and will send a copy of the chapter of the IPSB on confirmation procedures to each representer. It will send copies of all written representations and notices to the society and will afford it an opportunity to comment on the written representations.

6.26 The Authority will consider the written representations in category 6.24(a) and the society's responses to them in advance of the date set for hearing oral representations. Copies of the society's comments on representations in category 6.24(b) will be sent to those who made the representations so that they may concentrate their oral representations on the points which they consider to remain at issue. A person making written representations who also wishes to see the society's response must, therefore, also give notice of intention to make oral representations. The society may, exceptionally, apply to put to the Authority in confidence documents which the society considers to be commercially sensitive: the Authority will decide on the merits of each case whether, and on what terms, to accept them as being confidential. Persons in category 6.24(c) will be asked to inform the Authority, in advance of the hearing, of the subject and general grounds of the representations they intend to make, and their responses will be copied to the Society.

6.27 Interested parties may join together in making collective representations and they may also appoint a person, either one of their number or another, to represent them at the hearing. They should notify the Authority in advance if this is what they intend to do.

Conduct of the hearing

6.28 The Authority will usually appoint one or more persons to hear and decide an application on its behalf. In the absence of notices of intention to make oral representations the Authority would expect to decide the application, having regard to the written representations, the society's responses and other information available to it, without the need for a public hearing. If there is a public hearing, an additional fee is payable by the society.

- 6.29 The Authority will notify the society and those making oral representations of the time and place of the hearing. If there are a significant number of persons wishing to make oral representations, then the hearing may extend beyond one day and may be adjourned from time to time and from place to place. The Authority will try to advise participants of the day when they may expect to make their representations and of when the society's representatives may be expected to respond.
- 6.30 The Authority expects that hearings will be in public. Members of the general public and the press will be asked to wait outside at the outset of the hearing. The participants will then be asked if any of them has good reason to object to the admission of the general public and the press (such as, for example, the need to refer to personal financial affairs). The Authority may decide that parts of the hearing shall be in private if that appears to it to be desirable. If there are no reasonable objections, the general public and the press will then be admitted, within the limits of the space available. Only the representatives of the society and those who have given due notice of intention to make oral representations may address the Authority.
- 6.31 The procedure will be informal. While all participants will be invited to speak concisely and to avoid repetition, the Authority will be considerate towards those who are not professionally represented. The panel taking the hearing on behalf of the Authority may question the participants as the hearing proceeds. The sequence of events will be broadly as follows:
- (a) any preliminary matters (such as the admission of the public or other procedural questions) will be dealt with;
 - (b) the chairman of the Authority panel will introduce the proceedings;
 - (c) the representatives of the society will be invited to present the application for confirmation, including a description of the events at the meeting at which the Transfer Resolutions were put to the members, the voting on the Resolutions, and any other matters which they wish to introduce at that stage;
 - (d) the other participants will be invited to make their representations; where appropriate the Authority would expect to call them in a list marshalled, so far as possible, by subject matter;

- (e) the representatives of the society will be invited to reply to, or comment on, the points made by the other participants;
- (f) the other participants will be invited to comment on the society's replies insofar as those replies raised new issues.

6.32 This procedure may be varied according to the circumstances at the hearing, and is intended only as a guide to the probable order of events. The hearing may be adjourned if the Authority considers that necessary to enable facts to be checked or additional information to be obtained.

The Authority's decision

6.33 The Authority will not normally give an oral decision at the end of the hearing, but may be expected to reserve its decision to be issued later in writing, setting out its reasons. Copies of the written decision will be sent to the participants, and can be purchased by any other person. The Authority will ask the Central Office to place a copy on the public file of the society.

7. TRANSFERS UNDER DIRECTION

This section describes the Authority’s powers to direct a society to transfer its business to a company, and to proceed by board resolution, and the modified transfer procedure consequently prescribed by the 1986 Act.

- 7.1 Section 42B of the 1986 Act provides that, if the Authority considers it expedient to do so to protect the investments of shareholders or depositors, it may direct a society, *inter alia*, to transfer its business to a company within a specified time (subsection (1)(b)). In such a case, or where the Authority would have directed a transfer, but for the fact that negotiations were already under way, the Authority may also direct that the approval of the transfer shall be by board resolution rather than the Transfer Resolutions. In these circumstances, because neither a Transfer Statement nor Transfer Resolutions are required, the 1986 Act requires the society instead to send to every member entitled to notice of a meeting a statement (referred to below as a “**transfer notification statement**”) before it applies for confirmation of the transfer (paragraphs 9 and 10 of Schedule 8A to the 1986 Act). Finally, in these circumstances, the first two Confirmation Criteria concerning information made available to, and the views of, the members (see section 6) are replaced by a single criterion:

“the members or a proportion of them would be unreasonably prejudiced by the transfer;”

(paragraph 11 of Schedule 8A to the 1986 Act).

- 7.2 Where a society is proceeding under a Section 42B direction by board resolution, the Transfer Statement is replaced by a transfer notification statement and a general meeting of the society is not required. The contents of the transfer notification statement are prescribed by Schedule 3 to the Transfer Regulations. In brief, the members are to be informed that the statement is issued on the responsibility of the directors of the society and the successor company, and:
- (a) that the board, acting under direction of the Authority, has resolved to transfer the business;
 - (b) of the confirmation procedure, including the last date for receipt by the Authority of written representations and notices of intention to make oral representations and the expected date of the hearing of the society’s application;

- (c) of the name, address and nature of the successor company, and the proposed vesting date;
- (d) of the consequences for the members, including the loss of membership rights in the society, any changes in the terms and conditions of share and mortgage accounts, and deposit protection schemes;
- (e) the terms of any distribution of funds or shares in the successor company and of the Statutory Cash Bonus; and
- (f) of the interests of the directors and other officers of the society in the transfer, including any compensation or increase in emoluments to which the Authority has given its consent under paragraphs 7 and 8 of Schedule 8A to the 1986 Act.

7.3 The transfer notification statement must have been approved by the Authority before it is sent to the members. Applications for approval should, in general, follow the procedure described in paragraphs 4.11 to 4.17, and the final draft of the statement should be accompanied by the relevant documents listed in paragraph 4.15, but as appropriate to the particular case and the less extensive information the statement is required to contain.

7.4 Section 5 (General Meetings and Resolutions) does not apply, except that the directors will need to be satisfied that the society's register of members is correct to enable the society to send transfer notification statements, and notices under Section 102B (Trustee Account Holders) of the 1986 Act, to those to whom they must be sent if the society is to gain the protection of Section 102B(4).

7.5 When the board has resolved to transfer the business and transfer notification statements have been sent to its members, the society may apply to the Authority for confirmation of the transfer, but using an adaptation agreed with the Authority of the *pro forma* in Annex B2. The procedure described in section 6 is to be followed, including the publication of notices in the official Gazettes and newspapers and the form of application. However, the lapse of time between each stage of the procedure may be modified according to the particular circumstances of a case, and having regard to the need to protect the investments of shareholders or depositors. While a scrutineer's report will not be required, the Authority will require a report from the society's external auditors on the adequacy of the society's systems to fulfil the requirements of the 1986

Act and the Rules with regard to the sending of transfer notification statements and notices to Trustee Account Holders. This is, of course, relevant to the Authority's consideration of the Fourth Confirmation Criterion.

7.6 As is noted in paragraph 7.1, the First and Second Confirmation Criteria are replaced, in those circumstances, by a single criterion as to whether the members or a proportion of them "would be unreasonably prejudiced by the transfer". Whether this special criterion applies will be a matter of judgement for the Authority to make in the light of any representations made to it and its own enquiries in respect of the particular case. In making its judgement, the Authority will also have regard to the view it then takes as to whether it should exercise its discretion under Section 100(7) of the 1986 Act to direct that no Statutory Cash Bonus, or a reduced bonus, is to be paid "having regard to what is equitable between the members of the society". It follows also that, in considering the Fourth Criterion, the Authority will take account of the modified procedure.

7.7 The Fees Rules provide that fees are to be paid to the Authority:

- (a) with an application for approval of a transfer notification statement under paragraph 9(4) of Schedule 8A to the 1986 Act, and a further fee with any subsequent substantial revision;
- (b) with an application for confirmation under Section 97(4)(d) of, paragraph 6 of Schedule 17 and Schedule 8A to, the 1986 Act; and a further fee if oral representations are to be heard.

8. NOTIFICATION AND DISSOLUTION

- 8.1 When the Authority has confirmed a transfer (whether voluntary or under direction) it will notify the Central Office and the society concerned.
- 8.2 Section 97(8) of the 1986 Act requires the society to notify the Authority of the vesting date, and it must do so no later than 7 days before that date, and, unless a notice is given under subsection (10), subsection (9) provides that the society shall be dissolved on that date. Subsection (10) provides that, if necessary for the purpose of facilitating the disposal of its shares in its successor, the society may include, in the notice of the vesting date, notice of a later date for the dissolution of the society, and it is on this later date that the society is dissolved. A society which gives such a notice must cease to transact any business as from the notified vesting date, except such as may be necessary to dispose of its shares in its successor.
- 8.3 Section 97(7) of the 1986 Act provides that, where a society continues to hold shares in its successor after the vesting date, the consideration for the disposal of those shares, together with any other property, rights or liabilities of the society acquired or incurred after that date, shall be transferred to and vested in the successor company on the date specified for the society's dissolution. All other property, rights and liabilities of the society are to be transferred to the successor company on the vesting date.
- 8.4 The Central Office will record the relevant date, or dates, notified to the Authority by the society.
- 8.5 The society will be dissolved on the vesting date or on the later date for dissolution referred to in paragraph 8.2, and its registration will subsequently be cancelled by the Central Office under the provisions of Section 103(1)(a) of the 1986 Act.

9. TIMETABLE

- 9.1 The society will need to draw up a project plan covering the key elements in the transfer process and the relationships between them, and specifying when it wishes to receive the necessary clearances from the Authority. The time needed for the process will depend, among other things, on the length of time it takes to settle the final terms of the distribution scheme, the complexity of those terms and whether the scheme raises new legal issues (perhaps requiring resolution by application to the High Court), and the time needed to verify the register of members and the record of Trustee Account Holders. It will also be affected by the facility with which the society and its advisers can develop satisfactory documents and respond to enquiries and representations. The plan and the timetable will, of course, need to cover all that will be required of the society, and the successor company, in relation to the requirements of the Banking Regulator, and of UKLA concerning the listing of any shares in the successor company.
- 9.2 It will be helpful for the society to discuss its plans with the Authority during their formative stages, when the Authority will be prepared to give a view on their feasibility. However, although the Authority may agree that a planned timetable appears to be manageable, it cannot undertake to meet any deadlines set by the society. In particular, the Authority cannot be constrained in the proper performance of its statutory functions by, for example, the society's wish to put the Transfer Resolutions to a SGM on or before the date of the AGM in that year, or the planned flotation date. The Authority will be mindful of the need to ensure that there is adequate time, compatible with its other business and commitments, to:
- (a) consider whether the proposed distribution scheme is in conformity with the 1986 Act;
 - (b) consider and approve the Transfer Statement, including time to deal with renewed applications if significant changes have to be made;
 - (c) give interested parties an opportunity to make considered representations at the confirmation stage, for the society to respond to those representations, and for the Authority to consider all the evidence and arguments, including making any necessary further enquiries of its own; and
 - (d) write a reasoned confirmation decision.

9.3 The likely sequence of events is as follows:

- Stage 1 Informal preliminary discussions with the Authority and, if different, the Banking Regulator on both substance and timing of the proposed transfer.
- Stage 2 Public announcement of the transfer proposals. The Authority will be ready to comment on drafts of the announcement and any supporting material, although the terms of the announcement are for the society to decide and the Authority is not required to approve them.
- Stage 3 Consultation with the Authority on the outline structure of, and main features to be contained in, the Transfer Statement, and on the full specification of the proposed cash and/or share distribution scheme.
- Stage 4 Submission to the Authority of the prudential information described in section 2.
- Stage 5 Initial application to the Authority, with the appropriate fee, for approval of a full draft of the Transfer Statement, contained within a draft Transfer Document, supported by the material described in paragraph 4.12.
- Stage 6 Consideration by the Authority, and discussion with the society and its advisers, of the draft documents, including submission by the society of revised drafts as necessary. At this stage, the Authority's staff will also be ready to comment informally on draft proxy forms and other material proposed to be sent to the members with, or in advance of, the Transfer Document. By this stage also, the society ought to have undertaken any mailing to members which it thinks necessary to verify its register of members (see paragraphs 5.14 to 5.17), and to notify them of the rights of Trustee Account Holders (See paragraph 3.18).
- Stage 7 **(if necessary)** Further application to the Authority, with a further fee, for approval of a significantly revised Transfer Statement (see paragraph 4.14).
- Stage 8 Production of printer's proofs of the draft documents. At this stage it will be advisable for the society to determine, perhaps by mailing to a

sufficient number of staff, whether the notice and Transfer Document pack (especially if it contains the Transfer Statement) is deliverable through domestic letter boxes.

- Stage 9 Informal indication by the Authority that it is satisfied with near-final proofs of the Transfer Statement, and the Transfer Agreement.
- Stage 10 Formal submission to the Authority of the final draft of the Transfer Statement, together with the supporting documents described in paragraph 4.15.
- Stage 11 Approval by the Authority of the Transfer Statement. One proof copy of the Statement, identified and signed on behalf of the Authority, will be returned to the society.
- Stage 12 Printing and distribution of meeting notice and Transfer Document to members of the society in time to be received by them **at least 21 days before the last date for receipt of proxy forms** for the meeting at which the Transfer Resolutions are to be moved. The Authority would appreciate being provided with a number (to be agreed) of copies of the final printed Transfer Document and any Transfer Summary and of the Transfer Statement if printed separately for distribution on request. Although not required by the 1986 Act, one copy of each will be passed to the Central Office to be placed on the public file of the society.
- Stage 13 The meeting at which the Transfer Resolutions are moved.
- Stage 14 If the Transfer Resolutions are passed, application to the Authority for confirmation and publication of notices of that application in the official Gazettes and newspapers. The application should be accompanied by the requisite fee and the material specified in paragraph 6.2.
- Stage 15 Last date for receipt by the Authority of representations with respect to the applications. A minimum of **four weeks should be allowed between Stages 14 and 15 and a further four weeks to Stage 16** (with extra time allowed for any public holidays which intervene). Representations will be copied to the society for its comments as and when they are received. The Authority will then require sufficient time

before the hearing to consider and assess all the representations and the society's responses, and to make any further enquiries which it may think necessary.

Stage 16 The confirmation hearing.

Stage 17 Notification to the society and representers, and publication, of the Authority's Decision. It is advisable to **allow a minimum of four weeks between Stages 16 and 17**, again allowing extra time for any public holidays.

Stage 18 Notification by the society to the Authority of the vesting date and, if later, the date of dissolution of the society.

Stage 19 Vesting date and, if later -

Stage 20 Dissolution of the society.

9.4 When considering the proposed vesting date, the society will no doubt consult its merchant bank advisers as to timing, particularly when shares are to be offered for subscription to raise new capital, having regard to other possible major share offers.

Illustrative structure for a
TRANSFER DOCUMENT
containing a Transfer Statement

Title page:

Should include a recommendation on the following lines:

“When considering what action you should take, you are recommended to obtain advice from your solicitor, accountant, or other professional financial adviser.”

and the directors’ responsibility statement (short form with cross reference to item B9)

PART A

1. Summary of the Transfer procedure and Special General Meeting

The Transfer procedure
 Notice of the SGM
 Directions to the SGM venue
 Guidance on entitlement to vote

2. Background to, and rationale for, the proposals

Merits of the proposed transfer
 Conclusions and Recommendations

PART B: THE STATUTORY TRANSFER STATEMENT

Issued in accordance with Section 98 of and Schedule 17 to the Building Societies Act 1986

(Note: If a Transfer Summary is issued it must include a statement that this Transfer Statement will be handed or sent to members forthwith free of charge and on request, and where and how it can be obtained.)

3. Review of Options and Value of Consideration

Introduction - to explain that under the proposed terms of the transfer the business of the society will be transferred to an authorised bank and that approval of the terms of the transfer will include, if such is the case, the distribution of part of the consideration for the transfer to non-members. Should also explain that the transfer is subject to approval by the members, authorisation by the Banking Regulator and confirmation by the Authority, and include a brief explanation of the termination provisions of the Transfer Agreement
 Factual statement of strategic options considered
 Disclosure of any non-confidential proposals received

Reasons for choice and recommendation of proposed transfer
Reasons for choice and recommendation of terms of the proposed distribution scheme
Valuation of the business and methodology (takeover only)
Estimated value of shares in successor
Analysis of distribution of shares and/or cash as between members, Trustee Account Holders and non-members respectively
Statement that approval of the Transfer Resolution includes approval of distributions to non-members

4. Consequences for shareholders, borrowers and employees

The distribution of shares and/or cash in the successor company
The amount of the society's reserves and Statutory Cash Bonus
Any changes in the terms and conditions of share and deposit accounts, mortgages and loans
Changes in the factors relevant to determining retail interest rates (product pricing)
Comparative average interest rates on retail deposits and loans of the society and the successor company over the previous 3 financial years (takeover only)
Loss of membership rights in the society
The statutory deposit protection scheme (summary of any differences)
Arrangements for settlement of disputes
Consequences for staff, including changes in terms of employment

5. Interests of directors and other officers of the society and successor company

Directors and other officers of the society
Directors and other officers of the company
Interests of directors, officers and employees in the share and/or cash distribution and the Statutory Cash Bonus
Any compensation or increased emoluments under Sections 99 and 99A of the 1986 Act

6. The management, activities and operations of the successor company following the transfer

Management
Activities and operations, including a comparison of their range and relative importance with those of the society and any intended change, together with, in the case of a takeover, comparative business indicators of the society and the successor company for each of the previous 3 financial years
Structure and activities of any group to which the company belongs
Ownership of the society's subsidiaries and interests in other associated bodies
Particulars of any person having an interest in 3% or more of the successor company's equity share capital.
Name, head office and principal objects of the company

The protective provisions in the articles of association in accordance with Section 101 of the 1986 Act (conversion only)
The auditors of the society and of the company

7. Financial information

The consolidated financial position of the society and its subsidiaries at the most recent practicable date, and the Society's reserves at that date and the main features of the published annual group accounts for the last 3 years

In the case of a takeover, the consolidated financial position of the successor company/group at the most recent practicable date and the main features of the published annual group accounts for the last 3 years

The share capital of the successor company

Future financial prospects of the successor company

8. General information

Summary of the terms of the Transfer Agreement concerning conditions precedent and termination

Summary of principal rights which will attach to the ordinary shares in the successor company

Costs and expenses of the transfer (including the fee arrangements for merchant bankers)

Whether the transfer will conflict with any contractual arrangements

9. Opinions, reports and consent letters of auditors and other experts

Auditors' opinions

Other experts' opinions

Consent letters

Director's Responsibility Statement

10. Banking Regulator authorisation

11. Statement of statutory approval by the Financial Services Authority

STATEMENT OF STATUTORY APPROVAL BY THE FINANCIAL SERVICES AUTHORITY

Building Societies Act 1986

(c.53)

Approval by the Financial Services Authority of the Transfer Statement of [] Building Society.

The Financial Services Authority (“the Authority”) in exercise of the power conferred on the Authority by paragraph 4(3) of Schedule 17 to the Building Societies Act 1986 (“the 1986 Act”) and considering that the Transfer Statement of [] Building Society (“the Society”) is in conformity with the applicable provisions of the 1986 Act and the Building Societies (Transfer of Business) Regulations 1998 (SI 1998 No. 212) and appears to be factually consistent with the information provided to the Authority by the Society in connection with the Transfer Statement, which information includes the declarations of responsibility by the directors of the Society and of [] -

HEREBY APPROVES the above Transfer Statement so far as its contents concern the matters required to be approved by the said Schedule.

In this approval expressions used in the 1986 Act have the meanings which they bear in the 1986 Act and “the Transfer Statement” means the statement by the Society a draft of which is initialled for the purpose of identification “[]”.

[date]

[Name]

For and on behalf of the Authority

Notes:

This approval does not extend to any matters not forming part of the Transfer Statement as required by the 1986 Act and the Regulations, whether or not such matters are the subject of cross-reference in the statement as so required.

The giving of this approval is without prejudice to any issues which the Authority may have to consider on an application by the Society for confirmation of the transfer pursuant to Section 98 of the 1986 Act.

PART C: ADDITIONAL INFORMATION

- 12. Definitions**
- 13. List of share accounts of the society**
- 14. Documents available for inspection**
- 15. Accountants' report on the successor company**
- 16. Statutory statement for the last financial year**
- 17. Other**

PRO FORMA:

- 1. Notice of Application**
- 2. Application to the Authority for confirmation**

Publication of Notice of application to the Authority for confirmation of a transfer in the London, Edinburgh, or Belfast Gazettes and in any newspapers as directed by the Authority.

BUILDING SOCIETIES ACT 1986

Notice under paragraph 7 of Schedule 17 to the 1986 Act

Notice is hereby given that Building Society, Register No.....B, whose principal office is at, desires to transfer its business to, and that the society has applied to the Financial Services Authority to confirm the transfer.

Any interested party may make written representations to the Authority and/or give notice of intention to make oral representations to the Authority with respect to the application. Written representations and notices of intention to make oral representations should be received by the Authority at 25 The North Colonnade, Canary Wharf, London, E14 5HS by 20.... Oral representations will be heard by the Authority on20.. at a time and place to be determined by the Authority.

Form of application to the Authority for confirmation of transfer of business to a company

To the Financial Services Authority

BUILDING SOCIETIES ACT 1986

APPLICATION UNDER SECTIONS 97(4) AND 98(2) OF, AND PART II OF SCHEDULE 17 TO, THE 1986 ACT FOR CONFIRMATION OF A TRANSFER OF BUSINESS TO A COMPANY

..... **BUILDING SOCIETY, REGISTER NO.....B**

The above-named society desires to transfer its business to on20... [insert vesting date] and applies to the Authority to confirm the transfer.

In making this application the society declares that:

1. At a meeting of Building Society held on20.. the following resolutions were passed:

A shareholding members' resolution, as required by paragraph 30 of Schedule 2 to the 1986 Act, passed in accordance with paragraph [30(2) or 30(3) as the case may be], that Building Society do transfer its business to in accordance with the terms of the transfer agreement, two copies of which, authenticated by the Secretary of the society, are enclosed with this application.

A borrowing members' resolution, as required by paragraph 30 of Schedule 2 to the 1986 Act that Building Society do transfer its business to in accordance with the terms of the above-mentioned transfer agreement.

2. A transfer statement, in accordance with Schedule 17 to the 1986 Act, approved by the Authority, so far as it concerned matters required by that Schedule to be so approved, was [sent] [made available] to each member of Building Society who was entitled to receive it [, and a transfer summary was sent to those members] in accordance with Schedule 17 to the 1986 Act.

(Seal of the Society making the application)

4.7 Procedure at the hearing	5
4.8 The FSA's decision	6

4.1 Introduction

4.1.1 This note is for the guidance of those making written representations to the FSA and/or those participating in oral confirmation hearings. It sets out the procedures which the FSA will normally follow.

4.1.2 The 1986 Act provides that when the necessary merger resolutions have been passed the societies must obtain confirmation by the FSA of the merger in accordance with Section 93(2) (amalgamations) or Section 94(7) (transfers of engagements) of the 1986 Act. If the FSA confirms the merger it will issue a registration certificate.

4.1.3 References to the relevant provisions of the 1986 Act are given in parenthesis in this Note. The term “merger” means either an amalgamation or a transfer of engagements as provided by sections 93 and 94 of the 1986 Act.

4.2 The Role of Confirmation

4.2.1 The role of the confirmation procedures is limited. Section 95(3) and (4) of the 1986 Act provide that the FSA must confirm a transfer unless it considers that:

- (1) some information material to the members’ decision about the merger was not made available to all the members eligible to vote; or,
- (2) the vote on any resolution approving the merger does not represent the views of the members eligible to vote; or,
- (3) some relevant requirement of the 1986 Act or the rules of any of the societies was not fulfilled.

4.2.2 These are the only grounds on which the FSA may refuse confirmation, or direct the society to remedy any defects. It is not the FSA’s function to make any judgement about the merits of the proposals which the members have approved.

- 4.2.3 If the FSA finds that there are defects, it may direct the society to take steps to remedy them. These include the calling of further meetings. If it is then satisfied that the defects have been substantially remedied, it must confirm the merger; if not, it must refuse confirmation (Section.95(6) of the 1986 Act).
- 4.2.4 The FSA may direct that non-fulfilment of some relevant requirement of the 1986 Act or of the rules of the society is to be disregarded, if it appears to the FSA that the failure could not have been material to the members' decision (Section.95(5)). "Relevant requirement" in this context means a requirement of section 93, 94 or 95 of or Schedule 16 to the 1986 Act or of any rules prescribing the procedure to be followed by the society in approving or effecting the merger (Section 95(11) of the 1986 Act).
- 4.2.5 The 1986 Act provides that any accidental failure to send the notice of meeting and merger statement to any person entitled to receive them does not invalidate the proceedings at the special general meeting (paragraph 22(3) of Schedule 2 to the 1986 Act).

4.3 Representations to the FSA

- 4.3.1 Any interested party has the right to make representations to the FSA with respect to the societies' applications for confirmation. They should state clearly why the person making the representations claims to be an interested party e.g. membership of the society and the matters to which the representations are directed.
- 4.3.2 Written representations, or notice of a person's intention to make oral representations, or both, must be in writing. They must reach the FSA at 25 The North Colonnade, Canary Wharf, London E14 5HS by the date quoted in the merger documentation issued to members and published in the official Gazettes and (usually) some newspapers. Persons who make written representations, but subsequently decide also to make oral representations must, nevertheless, give notice of that intention, in writing, to the FSA by the same date (paragraphs 8 and 9 of Schedule 16 to the 1986 Act).

4.3.3 Representations or notices to the FSA will fall into one of the following three categories:

- (1) Written representations only.
- (2) Written representations with notice of intention to make oral representations.
- (3) Notice of intention to make oral representations only.

4.3.4 The FSA will send copies of all written representations to the society, and will afford it an opportunity to comment on them (paragraph 9 of Schedule 16 to the 1986 Act).

4.3.5 Copies of the society's comments on representations in category 4.3.3(2) will be sent to those who made the representations so that they may concentrate their representations at oral hearings on the points which they consider to remain at issue. Persons making written representations who wish to see the society's comments must, therefore, also give notice of intention to make oral representations. Any documents referred to in the society's comments will be made available by the society for inspection at a specified place which will be notified to those making oral representations. (The society may, exceptionally, apply to put to the FSA in confidence documents which the society considers to be commercially sensitive: the FSA will decide on hearing argument whether, and on what terms, to accept them as confidential). Persons in category 4.3.3(3) will be asked to inform the FSA, in advance of the hearing, of the subject and general grounds of the representations they intend to make. The FSA will pass this information to the society.

4.3.6 Interested parties may join together in making collective representations and they may also appoint a person, either one of their number or another, to represent them at the hearing. They should notify the FSA in advance if this is what they intend to do.

4.4 Purpose of the hearing

4.4.1 The purpose of the hearing is to enable interested parties to make representations, and to enable the FSA to make such enquiry as it considers necessary, both of the society

and of those making representations, in order to reach an informed view on those aspects of the decision on confirmation to which the representations are directed. The FSA will examine all the representations, whether written or oral, in relation to the three statutory criteria described in paragraph 4.2.1. In the light of that examination, and consideration of all the representations and the society's response, the FSA will decide whether to confirm, or direct the society to correct any defects, or to refuse to confirm the merger. It is for the FSA to decide whether the matters discussed in representations are relevant to the statutory criteria.

4.5 Persons hearing the applications

4.5.1 The hearing will be taken by a person or persons appointed by the FSA to hear and decide the applications on its behalf, and they will be assisted by staff of the FSA.

4.6 Time and place

4.6.1 Hearings will normally start at about mid-morning on the day quoted in the merger documentation sent to members, and at a place which will be notified to the participants. If there are a significant number of persons wishing to make oral representations, then the hearing may extend beyond one day and may be adjourned from time to time and from place to place.

4.7 Procedure at the Hearing

4.7.1 The FSA expects that oral hearings will be in public. Members of the general public and the Press will be asked to wait outside at the outset of the hearing. The participants will then be asked if any of them has good reason to object to the admission of the general public (including the Press). The Press and the general public will then be admitted, within the limits of the space available, unless an objection by a participant is upheld by the FSA. However, the FSA may decide that parts of the hearing shall be in private if that appears to it to be desirable (for example, if representers feel it necessary to disclose their personal affairs).

4.7.2 The procedure will be informal. While all participants will be expected to speak concisely and to avoid repetition, the FSA will be considerate towards those who are not professionally represented. The persons appointed to hear the applications may question the participants as the hearing proceeds. The sequence of events will be broadly as follows:-

- (1) Any preliminary matters (such as the admission of the public or other procedural questions) will be dealt with.
- (2) The person chairing the hearing on behalf of the FSA will introduce the proceedings.
- (3) The representatives of the Societies will be invited to speak to their applications, including a description of the events at the meetings at which the transfer resolutions were put to the members, a statement of the voting on the resolutions, and any other matters which they wish to introduce at that stage.
- (4) The other participants will be invited to speak to their representations. Where appropriate the FSA would expect to call them in a list marshalled, so far as possible, by subject matter.
- (5) The representatives of the society will be invited to reply to, or comment on, the points made by the other participants.
- (6) The other participants will be invited to comment on the society's replies.

4.7.3 The above procedure may be varied according to the circumstances at the hearing, and is intended only as a guide to the probable order of events. The hearing may be adjourned if the FSA considers that necessary to enable facts to be checked or additional information to be obtained.

4.8 The FSA's decision

4.8.1 The FSA will not normally give an oral decision at the end of the hearing. The FSA will subsequently issue a written decision, setting out its reasons. A copy of the written decision will be sent to each of the participants in the hearing and to those who made written representations and, on request, to any other person. The decision may also be published.

5.1 Introduction

5.1.1 This chapter is for the guidance of those making written representations to the FSA and/or those participating in oral confirmation hearings. It sets out the procedures which the FSA intends to follow.

5.1.2 The 1986 Act provides that when a society has approved the transfer of its business to a plc by passing the transfer resolutions, it must then obtain confirmation by the FSA of the transfer and its terms (Section 97(4) of the 1986 Act). If the FSA confirms the transfer, then all the property, rights and liabilities of the society, except any shares in its successor company, transfer on the vesting date to the successor company (Section 97(6) of the 1986 Act), which date is specified in or determined by the transfer agreement between the society and the successor company.

5.2 The role of confirmation

5.2.1 The criteria to which the FSA has to have regard are limited. It is **not** within the FSA's power to make any judgement about the merits or fairness of the proposals which the members have approved.

5.2.2 Section 98(2) and (3) of the 1986 Act provide that the FSA **must** confirm a transfer **unless** it considers that:

- (1) some information material to the members' decision about the transfer was not made available to all the members eligible to vote; or
- (2) the vote on any resolution approving the transfer does not represent the views of the members eligible to vote; or,
- (3) there is a substantial risk that the successor company will not become or, as the case may be, remain a credit institution which is authorised to accept deposits for the purposes of the Financial Services and Markets Act 2000; or

- (4) some relevant requirement of the 1986 Act or the rules of the society was not fulfilled.

5.2.3 These are the **only** grounds on which the FSA may refuse confirmation, or direct the society to remedy any defects. If the FSA finds that there are defects it may direct the society to take steps to remedy them. If the FSA is then satisfied that the defects have been substantially remedied, it must confirm the transfer; if not, it must refuse confirmation (Section 98(5) and (6) of the 1986 Act).

5.2.4 In the case of the ground mentioned in paragraph 5.2.2(4), the FSA may direct that non-fulfillment of some relevant requirement of the 1986 Act or of the rules of the society is to be disregarded, if it appears to the FSA that the failure could not have been material to the members' decision (Section 98(4) of the 1986 Act). "Relevant requirement" in this context means a requirement of the provisions of the 1986 Act applicable to the transfer of a society's business (which are Sections 97 to 102 and 102B to D, paragraph 30 of Schedule 2, Schedule 17 and the Transfer Regulations made under the 1986 Act) and any Rules prescribing the procedure to be followed by the society in approving the transfer and its terms (that is, generally, the rules concerning: membership; special meetings; notice of meetings; procedure at meetings; entitlement of members to vote on resolutions; appointment of proxies; and joint shareholders and borrowers).

5.2.5 The 1986 Act provides that any accidental omission to give the notice of the meeting to, or non-receipt of the notice by, a person entitled to receive it does not invalidate the proceedings at the special general meeting (Schedule 2, paragraph 22(3)).

5.3 Purpose of the hearing

5.3.1 The purpose of the hearing is to enable interested parties to make representations, and to enable the FSA to make such enquiry as it considers necessary, both of the society and of those making representations, in order to reach an informed view. The FSA will examine all the representations, whether written or oral, in relation to the four statutory criteria described in paragraph 5.2.2. In the light of that examination, and consideration of all the representations and the society's response, the FSA will make its decision.

5.4 Making representations to the FSA

5.4.1 Any interested party has the right to make written and oral representations to the FSA with respect to the society's application for confirmation. Those making written representations and those giving notice of intention to make oral representations should state clearly why they claim to be interested parties (e.g. the category of their membership of the society). Those making written representations should also identify the ground or grounds, in paragraph 5.2.2, to which their representations are directed and it will be helpful if those giving notice of intention to make oral representations will do likewise.

5.4.2 Written representations, or written notice of a person's intention to make oral representations, or both, must be addressed to the Financial Services Authority and must reach the FSA at 25 The North Colonnade, Canary Wharf, London E14 5HS by the date quoted in the transfer documentation issued to members. Unwritten representations and notice (for example by telephone) cannot be accepted. Written representations and notices transmitted by fax or E-Mail can be accepted provided they are confirmed by the original signed copy which must be received by the FSA within 24 hours of the closing date. Persons who make written representations but subsequently decide also to make oral representations must, nevertheless, give notice of that intention, in writing, to the FSA at the above address by the same date (paragraph 7 of Schedule 17 to the 1986 Act).

5.4.3 Representations or notices to the FSA will fall into one of the following three categories:

- (1) written representations only;
- (2) written representations with notice of intention to make oral representations;
- (3) notice of intention to make oral representations only.

5.4.4 The FSA will send copies of all written representations to the society, and will afford it an opportunity to comment on them (paragraph 8 of Schedule 17 to the 1986 Act). The FSA will consider the written representations in categories 5.4.3(1) and (2), and the society's responses to them. A synopsis of the representations (probably in the form of a summary of each of the main points made and the numbers of persons making each point) and the society's responses may be made available to those participating in the oral hearing. This is intended to inform those making oral representations of the points already under consideration by the FSA with a view to avoiding unnecessary repetition.

5.4.5 Copies of the society's comments on representations in category 5.4.3(2) will be sent to those who made the representations in time for the oral hearing so that they may concentrate their oral representations on the points which they consider to remain at issue. A person making written representations who wishes to see the society's comments must, therefore, also give notice of intention to make oral representations. Any documents referred to in the society's comments will be made available by the society for inspection at a specified place which will be notified to those making oral representations. (The society may, exceptionally, apply to put to the FSA in confidence documents which the society considers to be commercially sensitive: the FSA will decide on hearing argument whether, and on what terms, to accept them as being confidential). Persons in category 5.4.3(3) will be asked to inform the FSA, in advance of the oral hearing, of the subject and general grounds of the representations they intend to make; the FSA will copy any response to the society.

5.4.6 Interested parties may join together in making collective representations and they may also appoint a person, either one of their number or another, to represent them at the oral hearing. They should notify the FSA in advance if this is what they intend to do. The FSA will notify this to the society.

5.5 Panel taking the hearing

5.5.1 A Panel will be appointed by the FSA to consider and decide the application on its behalf. The panel will conduct the oral hearing if one is required.

5.6 Time and place

5.6.1 Oral hearings will normally start at about mid-morning on the date quoted in the transfer documentation sent to members and at a place which will be notified to the participants. If there is a significant number of persons wishing to make oral representations, then the hearing may extend beyond one day and may be adjourned from time to time and from place to place. The FSA will try to advise participants of the day when they may expect to make their representations, and of when the society's representatives may be expected to respond.

5.7 Procedure at the hearing

5.7.1 The FSA expects that oral hearings will be held in public. Members of the general public and the press will be asked to wait outside at the commencement of the hearing. The participants will then be asked if any of them has good reason to object to the admission of the general public or the press (such as, for example, the need to refer to personal financial affairs). Unless an objection by a participant is upheld by the FSA, the press and the general public will then be admitted, within the limits of the space available. However, the FSA may decide that parts of the hearing shall be in private if that appears to it to be desirable.

5.7.2 The procedure will be informal. All participants will be expected to speak concisely and avoid repetition. The FSA will be considerate towards those who are not professionally represented. Members of the Panel taking the hearing may question the participants. The sequence of events will be broadly as follows:

- (1) any preliminary matters (such as the admission of the public or other procedural questions) will be dealt with;
- (2) the chairman of the Panel will introduce the proceedings;
- (3) the representatives of the society will be invited to speak to the application, including a description of the events at the meeting at which the transfer

resolutions were put to the members, a statement of the voting on the resolutions, and any other matters which they wish to introduce at that stage;

- (4) the other participants will be invited to speak to their representations. The FSA expects to call them in a list marshalled, so far as possible, by subject matter;
- (5) the representatives of the society will be invited to reply to, or comment on, the points made by the other participants;
- (6) the other participants will be invited to comment on the society's replies.

5.7.3 This procedure may be varied according to the circumstances at the hearing, and is intended only as a guide to the probable order of events. The hearing may be adjourned if the FSA considers that necessary to enable facts to be checked or additional information to be obtained.

5.8 The FSA's decision

5.8.1 At the end of the oral hearing, the FSA will reserve its decision. A copy of its written decision, including its findings on the points made in representations, will be published and copies will be sent to the society, and to those making written and/or oral representations.

**THE INTERIM PRUDENTIAL SOURCEBOOK FOR FRIENDLY SOCIETIES
INSTRUMENT 2001**

Introduction

1. The *FSA* makes the rules and other provisions in this instrument.
2. The rules and guidance in the *IPRU(FSOC)* are made under the following sections of the *Act* –
 - (a) section 138 (general rule making power);
 - (b) section 141 (insurance business rules);
 - (c) section 149 (evidential provisions);
 - (d) section 150(2) (actions for damages);
 - (e) section 156 (general supplementary powers);
 - (f) section 157(1) (guidance); and
 - (g) section 340 (appointment of auditors and actuaries).
3. This instrument will come into force at the beginning of the day on which section 19 of the *Act* (the general prohibition) comes into force.
4. This instrument is to be interpreted in accordance with, and applies subject to, the general provisions contained in the General Provisions Instrument 2001.
5. This instrument may be cited as the Interim Prudential Sourcebook for Friendly Societies Instrument 2001.
6. This instrument, excluding the provisions in this Introduction, may be cited as the Interim Prudential Sourcebook for Friendly Societies.

By order of the Board

19 July 2001

INTERIM PRUDENTIAL SOURCEBOOK FOR FRIENDLY SOCIETIES

GUIDANCE

THE PURPOSE OF THE PRUDENTIAL RULES FOR FRIENDLY SOCIETIES AND AN OVERALL DESCRIPTION

1. The prudential rules for a *friendly society* are to be seen in the context of the Principles for Businesses. These are high level obligations applying to all authorised persons and are set out in the High Level Standards part of the Handbook (PRIN).
2. So far as a *friendly society* is concerned, the Principles for Businesses are particularly relevant to its internal systems and controls. Principle 3, for example, requires a firm to take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems. Principle 4 requires a firm to maintain adequate financial resources.
3. In addition to the general obligations placed on a *friendly society*, certain staff of all authorised persons are subject to a number of high level obligations, referred to as Statements of Principle. The FSA has issued a Code of Practice to help determine whether an approved person's conduct has complied with a Statement of Principle. The Statements and the Code are set out in the High Level Standards part of the Handbook (APER).
4. One of the features of a *contract of insurance* is the long period of risk the contract may cover. The prudential rules for *friendly societies* seek to protect the *policyholder* against the risk that a *friendly society* will fail to meet a valid *claim* as it falls due or to fulfil the reasonable expectations of *policyholders*.

5. The Interim Prudential Sourcebook for Friendly Societies (*IPRU(FSOC)*) starts by limiting the risks to which a *friendly society may be* subject. Rule 1.3 in Chapter 1 requires that the business of a *directive friendly society* is restricted to *insurance business*.
6. Chapter 2 covers compliance and supervision of *registered branches* and *subsidiaries* and jointly controlled bodies.
7. Chapter 3 focuses on systems and controls. *Friendly societies* should also refer to the provisions on senior management arrangements, systems and controls in the High Level Standards part of the Handbook (SYSC) and to Annex 3 of *IPRU(FSOC)*.
8. The rules in Chapter 4 set out the *required margins of solvency* for a *friendly society* having regard to the type of its business.
9. The extent to which an asset may be taken into account for prudential purposes, and the method of valuing it, is determined in accordance with the rules in the Appendices. It is a fundamental part of the approach to prudential regulation for *friendly societies* that the rules limit the assets which are ‘admissible’ for solvency purposes and specify the methods of valuation. Similarly, the amount of a liability is determined in accordance with the rules in the Appendices.
10. Provisions in Chapter 4 also require a liability in any particular currency to be matched by assets in that currency. Further provisions relate to the location of assets.
11. As part of the continuing supervision of a *friendly society*, the rules in Chapter 5 require the *friendly society* to prepare certain accounts and statements in accordance with the rules and deposit them with the *FSA*. In addition, Chapter 6 requires a *friendly society* to make certain statistical returns.
12. Chapter 7 contains the definitions used throughout *IPRU(FSOC)* and some general provisions.

13. Chapter 8 contain transitional provisions.
 14. The Appendices are part of the rules.
 15. *FSA* guidance is set out in the Annexes and *friendly societies* may also wish to refer to the guidance in *IPRU(INS)*.
-

- Annex 5 Guidance on exemption from triennial valuation
- Attachment - Proforma Application
- Annex 6 [Deleted]
- Annex 7 Guidance on the use of derivative contracts by directive friendly societies

Chapter 1

APPLICATION

Application

- 1.1 These rules apply to a *friendly society* which has permission under the *Act* to effect or carry out *contracts of insurance*.

Actions for damages

- 1.2 Section 150(1) of the *Act* does not apply.¹

Restriction of business to insurance

- 1.3 (1) A *directive friendly society* must not carry on any commercial business in the United Kingdom or elsewhere other than *insurance business* and activities directly arising from that business.
- (2) (1) does not prevent a *friendly society* which was on 15 March 1979 carrying on *long-term insurance business* and a savings business in the United Kingdom from continuing to carry on the savings business.

¹ A private person therefore has no right of action under this section against a *friendly society* for breach of the prudential rules.

Chapter 2

INTEGRITY, SKILL, CARE AND DILIGENCE

Legal compliance

- 2.1 A *friendly society* must take reasonable steps to ensure that –
- (a) it does not carry on activities beyond its powers;
 - (b) it and its *registered branches* comply with –
 - (i) any requirements of or under the *1992 Act* or the *Act* which relate to the conduct of its *insurance business*, and
 - (ii) any requirement (whether of the law of any part of the United Kingdom or of the law of another *EEA State*) which gives effect to the *insurance Directives* or is otherwise applicable to the insurance activities of the *friendly society*.

Supervision of subsidiaries and jointly-controlled bodies

- 2.2 (1) A *friendly society* must supervise the activities-
- (a) of any *subsidiary* or of any body of which the *friendly society* has joint control; and
 - (b) of any *registered branch* of the *friendly society*;
- with due care and diligence, having due regard to the interests of its *policyholders* and without detriment to the conduct of the *friendly society's* activities.
- 2.3 (1) A *friendly society* should ensure that its *subsidiaries, jointly controlled bodies, or registered branches* are-
- (a) directed and managed with prudence, integrity and adequate professional skill; and
 - (b) comply with any applicable requirements of or under the *Act* and the *1992 Act*.
- (2) Contravention of (1) may be relied upon as tending to establish contravention of rule 2.2

Chapter 3

MANAGEMENT AND CONTROL

Accounting records and systems of control

- 3.1 (1) Every *friendly society* must and must procure that every *registered branch*-
- (a) keep (or keeps) adequate accounting records; and
 - (b) establish and maintain (or establishes and maintains) adequate systems of control of its business and records and of inspection and report.
- (2) The accounting records must be sufficient to-
- (a) comply with the requirements of section 68 of the *1992 Act*; and
 - (b) enable the *friendly society* acting through the *committee* properly to discharge the duties imposed on it and them by or under the *1974 Act*,
as the case may be.
- (3) The systems of control which are to be established and maintained by a *friendly society* or a *registered branch* are systems for the control of the conduct of their activities in accordance with the *Act* and the *1992 Act* and the decisions of the *committee*, and for the control of the accounting and other records of its activities.
- (4) The system of inspection and report which is to be established and maintained by a *friendly society* or *registered branch* is a system of inspection on behalf of and report to the *committee* on the operation of the systems of control required by (1) (b).
- (5) The systems of control and of inspection and report must be adequate to enable the *committee* properly to discharge the duties imposed on it by or under the *Act*, the *1992 Act* or the *1974 Act* and the functions of direction of the affairs of the *friendly society* or *registered branch*. No such system of control will be treated as adequate unless there is kept available to the *committee* a detailed statement in writing of the system as in operation for the time being.
- (6) Without prejudice to the generality of (5), the systems of control and of inspection and report must be such as to secure that the activities of the *friendly society* or *registered branch* are so conducted and its records so kept that-
- (a) the information necessary to enable the *committee* to discharge its duties and functions is sufficiently accurate, and is available with sufficient regularity or at need and with sufficient promptness, for those purposes; and

- (b) the information regularly obtained by or furnished to the *FSA* under or for the purposes of this *Act* or the *1992 Act* is sufficiently accurate for the purpose for which it is obtained or furnished and is furnished at the regularity required by or under the *Act* or the *1992 Act*².
- (7) Every *friendly society* must within the period of 6 months beginning with the end of each *financial year* make and send to the *FSA* a statement of their opinion whether the requirements of this rule have been complied with in respect of that year by the *friendly society* and the statement must be signed by the chairman on behalf of the *committee* and by the chief executive.

[Audit of systems and records – proposed to be deleted in CP 91

- 3.2
- (1) A *friendly society* must procure that its auditors make a report to the *FSA* as respects each *financial year* of the *friendly society*, on the conduct of the activities of the *friendly society* in that year in relation to the matters specified in (2) below.
 - (2) The auditors' report must deal with-
 - (a) the accounting records kept by the *friendly society* under rule 3.1; and
 - (b) the systems of control of its business and records and of inspection and report maintained under that section.
 - (3) The report must state the auditors' opinion as respects the matters specified in (2) as follows, that is to say-
 - (a) as regards the accounting records of the *friendly society*, whether or not they comply with the requirements of rule 3.1 and, if not, specifying each requirement not complied with and the respects in which it was not complied with;
 - (b) as regards the system of control of its business and records, whether or not the system complies with the requirements of rule 3.1 and, if not, specifying each requirement not complied with and the respects in which it was not complied with;
 - (c) as regards the system of inspection and report, whether or not the system complies with the requirements of rule 3.1 and, if not, specifying each requirement not complied with and the respects in which it was not complied with.
 - (4) Where an *incorporated friendly society* had, at any time during the year to which the report relates, *subsidiaries* or jointly controlled other bodies, the auditors' report must deal also with and contain corresponding statements of their opinion as to compliance with the requirements of rule 3.1 in its

application to *incorporated friendly societies* having *subsidiaries* or jointly controlling other bodies.

- (5) The auditors of a *friendly society* must send their report under this rule to the *friendly society* and, subject to (6) below, must do so within the period of 6 months beginning with the end of the *financial year* to which it relates, and the *friendly society* must, within the period of 9 months so beginning, send the report to the *FSA* together with such comments as the *friendly society* acting through the *committee* thinks fit to make.
- (6) A *friendly society* may allow its auditors a longer period in which to send their report than that specified in (5), but not so as to prevent the *friendly society* from complying with the duty imposed on it by (5) as regards the *FSA*.
- (7) If the *friendly society* acting through its *committee* makes any comments to the *FSA* under (5), the *friendly society* must cause a copy of the comments to be sent to the auditors when or before they send them to the *FSA* with the report under that rule.]

Chapter 4

FINANCIAL PRUDENCE

I. MARGINS OF SOLVENCY

Basic requirement³

- 4.1 (1) Subject to (3), a *friendly society* (other than a *flat rate benefits business friendly society*) must maintain a margin of solvency in accordance with rules 4.2 to 4.10.
- (2) Where a *friendly society* carries on both *long-term insurance business* and *general insurance business*, (1) has effect as if the requirement to maintain a margin of solvency were a requirement to maintain separate margins in respect of the two kinds of business.
- (3) As long as the society maintains an excess of the value of its assets over the amount of its liabilities, (1) does not apply to a *non-directive friendly society* which does not have permission to effect *contracts of insurance* and is only carrying out contracts of *long-term* or *general insurance business* which were effected before 13 September 1993 (or effected pursuant to the terms of such a contract).
- (4) A margin of solvency is the excess of the value of the *friendly society's* assets over the amount of its liabilities, that value and amount being determined in accordance with the *asset valuation rules* and *liability valuation rules* and rule 4.7.

Calculating the required margin of solvency

- 4.2 (1) Subject to (2) to (4), the *required margin of solvency* must be determined-
- (a) with respect to a *friendly society* which carries on *long-term insurance business*, in accordance with Appendix 1; and
- (b) with respect to a *friendly society* which carries on *general insurance business*, by taking the greater of the two sums resulting from the application of the two methods of calculation set out in Parts I and II of Appendix 2.
- (2) For a *contract of insurance* to which rule 7.6(a) applies, the *required margin of solvency* must be determined by taking the aggregate of the results arrived at by applying-

³ The requirement for a plan for the restoration of a sound financial position to be submitted by a *friendly society* which breaches this rule is in *SUP*, App II, 1.3.1.

- (a) in the case of so much of the contract as is within any *class of long-term insurance business*, the appropriate method under Appendix 1; and
 - (b) in the case of so much of the contract as is within *general insurance business class 1 or 2*, the method of calculation set out in Part I of Appendix 2 (excluding 6, 7 and 8).
- (3) Where a *friendly society* carries on *long-term insurance business* and owing to the nature of that business more than one margin of solvency is produced in respect of that business by the operation of these rules, the margins in question must be aggregated.
- (4) Where a *friendly society* carries on both *long-term insurance business* and *general insurance business* and is accordingly required to maintain separate margins of solvency in respect of the two kinds of business-
- (a) the provisions in (1) to (3) apply for determining the margin of solvency for each kind of business separately; and
 - (b) assets other than those representing the funds maintained by the *friendly society* in respect of its *long-term insurance business*, if they are not included among the assets covering the liabilities and the *required margin of solvency* relating to the *friendly society's general insurance business*, may be included among the assets taken into account in covering the liabilities and the *required margin of solvency* for the *friendly society's long-term insurance business*.

The guarantee fund⁴

- 4.3 A *directive friendly society* and a *non-directive incorporated friendly society* must ensure that its *required margin of solvency* does not fall below the *guarantee fund*.

Calculating the guarantee fund

- 4.4 (1) Subject to (2) and (3), the guarantee fund is one-third of the *required margin of solvency*.
- (2) In the case of a *friendly society* which is-
- (a) an *incorporated friendly society*; or
 - (b) an (unincorporated) *friendly society*, which is not a *non-directive friendly society*,

the *guarantee fund* must not be less than an amount (the minimum guarantee fund) arrived at in accordance with rule 4.5 for *long-term insurance business*

⁴ The requirement for a short term plan to be submitted by a *friendly society* which breaches this rule is imposed by SUP, App II, 1.4.1.

and rule 4.6 for *general insurance business*, whether the *required margin of solvency* is greater or less than that amount.

- (3) In the case of *long-term insurance business*, items that are not *implicit items* must be at least large enough to cover either the *minimum guarantee fund* or 50% of the *guarantee fund*, whichever is the greater.

Minimum guarantee fund: long-term insurance business

- 4.5 (1) In the *financial year* during which a *friendly society* first obtains permission under the *Act* (or is authorised under its predecessor legislation) to carry on *long-term insurance business*, the *minimum guarantee fund* is the amount in column 2 of the table, which corresponds to the *friendly society's annual contribution income* in respect of that business in the last preceding *financial year*, as shown in column 1 of the table.

Contribution Income (in Euro)	<i>Minimum guarantee fund</i> (in Euro)
1,000,000 or less	100,000
1,000,001 - 1,500,000	200,000
1,500,001 - 2,000,000	300,000
2,000,001 - 2,500,000	400,000
2,500,001 - 3,000,000	500,000
3,000,001 or more	600,000

But where a *friendly society* had no *annual contribution income* in respect of *long-term insurance business* in the last preceding *financial year* or has not been in existence long enough to have a preceding *financial year*, the *minimum guarantee fund* is 100,000 Euro.

- (2) In any subsequent *financial year* during which a *friendly society* has permission to carry on *long-term insurance business*, the *minimum guarantee fund* is the greater of either-

- (a) the amount in column 2 of the table in (1) that corresponds to the *friendly society's annual contribution income* in respect of *long-term insurance business* in the last preceding *financial year*; or
- (b) the amount of the *minimum guarantee fund* required to be maintained by the *friendly society* in the last preceding *financial year*,

providing that if the amount referred to in (a) and (b) is the same, the *minimum guarantee fund* is that amount.

- (3) Where a *friendly society* obtains permission under the *Act* (or has obtained authorisation under its predecessor legislation) to carry on *long-term insurance business*-

- (a) of a *class* additional to that in respect of which it already has permission; or

- (b) in a part of the United Kingdom additional to that in respect of which it already has permission,

a *minimum guarantee fund* of 600,000 Euro must be maintained by that *friendly society* for the whole of its *long-term insurance business* (that is to say, not only for the additional business carried on but also for the business previously carried on).

Minimum guarantee fund: general insurance business

- 4.6 The *minimum guarantee fund* in respect of *general insurance business* carried on by a *friendly society* is 225,000 Euro.

Valuation of solvency margins

- 4.7 (1) Where a *friendly society* has assets equal to or in excess of its liabilities as valued in accordance with the *asset valuation rules* and *liability valuation rules*, then (2) and (3) have effect for determining the extent to which the value of the assets exceeds the amount of liabilities in connection with the *required margin of solvency*, the *guarantee fund* and the *minimum guarantee fund*.
- (2) In the case of *general insurance business*, any claim which a *friendly society* has against its members by way of a call for supplementary contributions for a *financial year* must be treated as having its full value for that *financial year*, but the value must not exceed-
- (a) 50% of the difference between the maximum contributions and the contributions called in; or
- (b) 50% of the *required margin of solvency* which would otherwise be required.
- (3) The items which relate to future surpluses, *zillmerising* and hidden reserves (referred to as implicit items) must be treated as having no value⁷.

4.8 – 4.10 [Moved to Annex 4]

II. ADEQUACY OF ASSETS

- 4.11 The remaining rules in this chapter do not apply to *non-directive friendly societies*.

- 4.12 (1) A *friendly society* must secure-
- (a) that its liabilities under *contracts of insurance*, other than liabilities in respect of *linked benefits*, are covered by assets of appropriate safety, yield and marketability having regard to the *classes* of business carried on; and

⁷ The *FSA* may, under section 148 of the *Act*, direct that any of the *implicit items* may be valued. See Annex 4.

- (b) without prejudice to the generality of (a), that its investments are appropriately diversified and adequately spread and that excessive reliance is not placed on investments of any particular category or description⁵.
- (2) A *friendly society* which has entered into a *linked long-term contract* must secure that, as far as practicable, its liabilities under the contract in respect of *linked benefits* are covered as follows-
- (a) if those benefits are linked to the value of units in an undertaking for collective investments in transferable *securities* or to the value of assets contained in an internal fund, by those units or assets;
 - (b) if those benefits are linked to a share index or other reference value not mentioned in (a), by units which represent that reference value, or by assets of appropriate safety, yield and marketability which correspond, as nearly as may be, to the assets on which that reference value is based⁶.
- (3) A *friendly society* which has entered into a *linked long-term contract* must also secure that its liabilities under the contract in respect of *linked benefits* which are not covered by contracts of reinsurance are covered by assets of a description contained in rule 4.21.
- (4) In (3), '*linked long-term contract*' does not include a *pension fund management contract* unless it is combined with a *contract of insurance* covering either conservation of capital or payment of a minimum interest.

III ADEQUACY OF PREMIUMS

- 4.13 (1) Before entering into a *long-term insurance contract*, a *directive friendly society* must satisfy itself that the aggregate of-
- (a) the *premiums* payable under the contract and the income which will be derived from them; and
 - (b) any other resources of the *friendly society* which are available for the purpose,
- will be sufficient, on reasonable actuarial assumptions, to meet all *commitments* arising under or in connection with the contract.
- (2) A *friendly society* must not rely on other resources for the purposes of (1) in such a way as to jeopardise the solvency of the *friendly society* in the long term.

⁵ See Guidance Note P.1 of *IPRU (INS)*.

⁶ See paragraph 2 of Guidance Note 4.4 *IPRU (INS)*.

IV CURRENCY MATCHING AND LOCALISATION

Matching: general requirement

- 4.14 (1) Where the liabilities of a *friendly society* in any particular currency exceed 5% of the *friendly society's* total liabilities, the *friendly society* must hold sufficient assets in that currency to cover at least 80% of the *friendly society's* liabilities in that currency.
- (2) Where a *friendly society* carries on both *long-term insurance* and *general insurance business*, the requirements of (1) apply to the assets and liabilities of each kind of business separately.
- (3) Where the *contract of insurance* expresses any liability in terms of a particular currency, that liability must be regarded as a liability in that currency.
- (4) For the purposes of rules 4.14 to 4.19-
- (a) “assets” means assets valued in accordance with the *asset valuation rules*;
 - (b) “liabilities” means provision by a *friendly society* to cover liabilities arising under or in connection with *contracts of insurance* (not being liabilities relating to *insurance business* excluded by rule 4.19); and
 - (c) references to ‘assets in a currency’ (or similar expressions) must be construed as references to assets expressed in or capable of being realised (without exchange risk) in that currency; and an asset is capable of being realised (without exchange risk) in a currency if it is reasonably capable of being realised in that currency without risk that changes in exchange rates would reduce the cover of liabilities in that currency.

Matching: property linked benefits

- 4.15 (1) In so far as the liabilities for *property linked benefits* and *index linked benefits* are covered by assets which determine the benefits payable under a *linked long-term contract*, rule 4.14 does not apply.
- (2) In so far as the liabilities for *property linked benefits* are determined by reference to assets in a currency other than that in which the *friendly society's* obligations to the *policyholder* are expressed, those liabilities must for the purposes of rule 4.14 be deemed to be liabilities in the first-mentioned currency.

Matching: currency of general insurance business liabilities

- 4.16 (1) The currency of a *friendly society's* *general insurance business liabilities* must, for the purposes of rule 4.14, be determined as follows.

- (2) Where the liabilities are not expressed as liabilities in terms of a particular currency, they must be regarded as liabilities in the currency of the country in which the risk is situated or, if the *friendly society* on reasonable grounds so determines, in the currency in which the *premium* payable under the contract is expressed.
- (3) However, where, in accordance with the nature of the risks, the *friendly society's* liabilities are liabilities in a currency other than that determined in accordance with (2), the *friendly society* may regard its liabilities as liabilities in the currency which it will use in accordance with past experience or, in the absence of such experience, in the currency of the country in which it is established.
- (4) Where a *claim* has been notified to a *friendly society* and the *friendly society's* liability in respect of that claim is payable in a currency other than one which would result from the application of (2) or (3), the liability must be regarded as a liability in the currency in which the *friendly society* is actually obliged to pay it.
- (5) Where a *claim* is assessed in a currency which is known to the *friendly society* in advance but which is different from a currency determined in accordance with (2), (3) or (4), the *friendly society* may regard its liabilities as liabilities in that currency.

Matching: exceptions for certain liabilities

4.17 A *friendly society* need not cover its liabilities by assets in a particular currency if those assets would amount to 7% or less of the remainder of its assets in other currencies.

Localisation

- 4.18 (1) Assets held pursuant to rule 4.14 must be held-
- (a) if they cover liabilities in sterling, in any *EEA State*;
 - (b) if they cover liabilities in any other currency, in any *EEA State* or in the country of that currency.
- (2) For the purposes of applying (1) to tangible assets and assets consisting of a claim against a debtor or a *listed* or *unlisted* investment -
- (a) a tangible asset is to be regarded as held in the place where it is situated;
 - (b) an asset consisting of a claim against a debtor is to be regarded as held in any place where it can be enforced by legal action;
 - (c) an asset consisting of a *listed* investment is to be regarded as held in any place where-

- (i) if there is a stock exchange (of the kind described in (a) of the definition of '*listed*'), it is *listed*, or
- (ii) if there is a *regulated market*, it is dealt in; and
- (d) an asset consisting of an *unlisted* investment issued by an incorporated *company* is to be regarded as held in the place where the head office of the *company* is situated.

Exclusions from rules 4.14 to 4.18

4.19 Nothing in rules 4.14 to 4.18 applies to *insurance business* carried on outside the *EEA States*.

V SEPARATION BETWEEN LONG-TERM INSURANCE BUSINESS ASSETS AND OTHER ASSETS

4.20 A *friendly society* which has permission to carry on *long-term insurance business* must –

- (a) secure that the assets representing the funds maintained by the *friendly society* in respect of its *long-term insurance business* are only applicable for the purposes of that business; and
- (b) ensure that adequate arrangements are in force for securing that transactions affecting the assets of the *friendly society* (other than transactions outside its control) do not operate unfairly between the assets representing the funds maintained by the *friendly society* in respect of its *long-term insurance business* and the other assets of the *friendly society*.

VI. LINKED LONG-TERM CONTRACTS

4.21 (1) A *friendly society* must not contract to provide benefits under any contract to which this rule applies which are determined, either wholly or partly -

- (a) by reference to the value of, or the income from, or fluctuations in the value of, property of any description other than property of any of the descriptions specified in Part I of Appendix 3 (subject to the provisions of Part II of that Appendix); or
- (b) whether directly or indirectly, by reference to fluctuations in any index of the value of property other than an *approved index*.

(2) This rule applies to *linked long-term contracts* for *ordinary long-term insurance business* other than contracts to manage the investments of pension funds that are not combined with *contracts of insurance* covering either conservation of capital or payment of a minimum interest, except that benefits payable under such contracts must not be determined, either wholly or partly,

by reference to the value of, or the income from, or fluctuations in the value of *derivative contracts* other than *permitted derivative contracts*.

- (3) Any reference to contracts of a similar description to any specified contract is a reference to contracts which correspond with that contract in both the following respects-
- (a) the provisions defining the descriptions of property or indices by reference to which the benefits are to be determined are the same; and
 - (b) the *friendly society* or other person undertaking to pay the benefits is the same.

4.22 The property described in rule 4.21 is either-

- (a) *permitted connected property*, not being a contract or asset having the effect of a *derivative contract*; or
- (b) a *permitted derivative contract* or a contract or asset having the effect of a *permitted derivative contract* either of which when taken together with a *permitted derivative contract* has the effect that the *friendly society* holds either *permitted connected property* or a *permitted derivative contract* in connection with such property.

4.23 For the purposes of rule 4.21-

- (a) a *derivative contract* is deemed to be covered if it would not require a significant provision (within the meaning of 13(4) of Appendix 4) to be made in respect of it pursuant to 3 of Appendix 5 if it were a *derivative contract* to which that provision applied; and
- (b) "*permitted connected property*" means property of any of the descriptions in 1 to 8 or 10 of Appendix 3 which is not property falling within (a) to (d) of 12 of Appendix 3.

VII. LIQUIDITY

4.24 A *friendly society* must maintain liquid assets sufficient to meet its liabilities as they become due.

Chapter 5

PRUDENTIAL REPORTING

Annual actuarial investigation

5.1 (1) A *friendly society* which-

- (a) is a *directive friendly society*; or
- (b) a *non-directive incorporated friendly society* (other than a *flat rate benefits business friendly society*),

must cause an investigation to be made by the *appointed actuary* into the financial condition of the *friendly society* in respect of its *long-term insurance business* as at the end of each *financial year*.

(2) When such an investigation has been made, the *friendly society* must-

- (a) cause an abstract of the actuary's report of the investigation to be made; and
- (b) deposit three copies of that abstract with the *FSA* within 6 months of the end of the *financial year* to which it relates,

and one of those copies must be signed as required by rule 5.12.

(3) An investigation under this rule must include-

- (a) a determination of the liabilities of the *friendly society* attributable to its *long-term insurance business*; and
- (b) a valuation of any excess over those liabilities of the assets representing the fund or funds maintained by the *friendly society* in respect of that business and, where any rights of any long-term *policyholders* to participate in profits relate to particular parts of such a fund, a determination of any excess of assets over liabilities in respect of each of those parts.

(4) Rules 5.5 to 5.12 apply in respect of the abstract required by (2)(a) (referred to as the "FSC1 return").

Triennial actuarial investigation

5.2 (1) At least once in every *period* of 3 years, a *friendly society* (other than a *flat rate benefits business friendly society*) which-

- (a) is a *non-directive unincorporated friendly society* must cause an investigation to be made by the *appropriate actuary* into the financial condition of the *friendly society* in respect of its *insurance business*; and
 - (b) is a *directive friendly society* or *non-directive incorporated friendly society* must cause an investigation to be made by the *appropriate actuary* into the financial condition of the *friendly society* in respect of its *general insurance business*.
- (2) Subject to (8) or (9), when an investigation under this rule has been made, the *friendly society* must-
- (a) cause an abstract of the actuary's report of the investigation to be made; and
 - (b) deposit three copies of that abstract with the *FSA* within 6 months of the end of the *period* to which it relates,
- and one of those copies must be signed as required by rule 5.20.
- (3) Subject to (4), a *friendly society* must deposit with the *FSA*, not later than 6 months after each anniversary of the date to which the accounts of the *friendly society* were made up for the purposes of the last investigation into its financial condition under this rule-
- (a) a certificate given by the *appropriate actuary*, in the format of Form FSC4, that there has been no material change in its financial condition in respect of its *insurance business* since it sent the last abstract under (2); or
 - (b) a statement by the *appropriate actuary* that he is unable to give such a certificate.
- (4) A *friendly society* is not under the duty imposed by (3)(b) if, before a date by which a certificate or statement must be deposited, a further investigation under this rule has been carried out and the requisite abstract has been deposited with the *FSA*.
- (5) If a *friendly society* deposits with the *FSA* a statement under (3)(b), the *friendly society* must cause an investigation to be carried out under this rule, and in such a case-
- (a) the date to which the *friendly society's* accounts are made up for the purposes of the investigation must be the latest anniversary of the date to which its accounts were made up for the purposes of the last investigation under this rule; and

- (b) the abstract required by (2) must be deposited with the *FSA* within 6 months of the date by which that statement was required to be deposited under (3).
- (6) An investigation under this rule into the financial condition of a *friendly society* which falls within (1)(a) must include-
 - (a) a valuation of the liabilities of the *friendly society* attributable to its *insurance business*; and
 - (b) a determination of any excess over the liabilities so attributable of the assets representing the fund or funds maintained by the *friendly society* in respect of its *insurance business* and, where any rights of any long-term *policyholders* to participate in profits relate to particular parts of such a fund, a determination of any excess of assets over liabilities in respect of each of those parts.
 - (7) An investigation under this rule into the financial condition of a *friendly society* falling within (1)(b) must include-
 - (a) a valuation of the liabilities of the *friendly society* attributable to its *general insurance business*; and
 - (b) a determination of any excess over the liabilities so attributable of the assets representing the fund or funds maintained by the *friendly society* in respect of that business.
 - (8) A *non-directive unincorporated friendly society* must complete an abstract in the Form required under rule 5.13 (referred to as the “FSC2 return”).
 - (9) A *directive friendly society* or *non-directive incorporated friendly society* (other than a *flat rate benefits business friendly society*) which is carrying on *general insurance business* must complete an abstract in the Form required under rules 5.14 to 5.19 (referred to as the “FSC3 return”).

Correction of abstracts

- 5.3 (1) If within 24 months of the date of deposit, the *FSA* notifies the *friendly society* that any Form (including any supplementary note to a Form) included in the FSC1, FSC2 or FSC3 return appears to it to be inaccurate or incomplete, the *friendly society* must consider the matter and within one month of the date of notification it must correct any inaccuracies and make good any omissions and deposit the relevant parts of the documents again.
- (2) One of the copies referred to in (1) must be signed –
 - (a) by the *appropriate actuary* if the Form is the actuary’s certificate;
 - (b) by the auditor if the Form is the auditor’s report;

- (c) in the case of all other Forms by the chief executive, the secretary and one *committee* member of the *friendly society* (or two members of the *committee* if the offices of chief executive and secretary are held by the same person).

The FSC1 return

5.4 [deleted]

5.5 (1) The FSC1 return must include:

- (a) Form FSC1
- (b) a balance sheet;
- (c) revenue accounts;
- (d) a valuation abstract;
- (e) a certificate by the *appointed actuary*; and
- (f) a report of the auditors.
- (g) a statement that the *friendly society* consents to the FSC1 return being placed on its *public file*.

(2) Rules 5.6 to 5.12 apply to the preparation of the FSC1 return.

Balance sheet

5.6 (1) The balance sheet must consist of Forms 9, 13, 14, 15 and 17 (as appropriate) prepared in accordance with the instructions in Appendix 6.

(2) Form 13 must be completed in respect of -

- (a) the total *long-term insurance business* assets of the *friendly society*; and
- (b) the *long-term insurance business* assets appropriated by it in respect of each separate *long-term insurance business* fund or group of funds for which separate assets have been appropriated.

(3) A separate Form 13 must be completed in respect of its total assets other than *long-term insurance business* assets and its corresponding liabilities must be shown in Form 15.

(4) Form 14 must be completed in respect of -

- (a) the total *long-term insurance business liabilities* and margins of the *friendly society*; and
- (b) the *long-term insurance business liabilities* and margins for each separate *long-term insurance business* fund or group of funds for which separate assets have been appropriated.

5.7 For each Form 13 which a *friendly society* is required to complete in accordance with rule 5.6(2) and (3), it must complete Form 17 in respect of the

same business; except that where in respect of that Form all amounts required to be shown would be zero and no supplementary note would be required, Form 13 may instead be accompanied by a supplementary note to that effect and Form 17 may be omitted.

Revenue Account

- 5.8 (1) The revenue account must consist of Forms 40, 40A, 40B and 40C (as appropriate) prepared in accordance with the instructions in Appendix 8 and so that-
- (a) a separate Form 40 is prepared in respect of each *long-term insurance business* fund, Form 40A for each other revenue account fund and Form 40B for each management fund maintained;
 - (b) where there is more than one fund for ordinary *long-term insurance business* or for *industrial assurance business*, the *friendly society* must also complete a summary Form for ordinary *long-term insurance business* or for *industrial assurance business*, as the case may require; and
 - (c) where there is more than one fund for other revenue account funds the *friendly society* must also complete a summary Form.
- (2) The revenue account must also include Forms 41 to 45 prepared separately in respect of ordinary *long-term insurance business* and *industrial assurance business* and in accordance with the instructions in Appendix 8.

Valuation abstract

- 5.9 The valuation abstract must consist of Forms 46 to 49, 51 to 58, 60 and 61A (as appropriate) prepared in accordance with the instructions in Appendix 9.

Actuary's Certificate

- 5.10 The *appointed actuary* must give a certificate in the terms, as appropriate, of Form 61B.

Auditor's Report

- 5.11 (1) The auditor's report in Form 61C must state whether in his opinion the balance sheet and revenue accounts (Forms 9 to 45 including any supplementary notes) and information relating thereto have been properly prepared and presented in accordance with the rules in chapters 4 & 5.
- (2) In giving this opinion the auditor must state whether he has relied on -
- (a) the certificate of the actuary given in accordance with rule 5.10 with respect to the *mathematical reserves* and the *required minimum margin* of the *friendly society*; and

- (b) the identity and value of any *implicit items* valued in accordance with a waiver under section 148 of the *Act*.
- (3) In giving the opinion in Form 61C, where the auditor undertaking the central audit has relied on work done at the branches by other firms of accountants, he must state that he has relied on other accountants for this work. In this case, he must ensure that a list of these firms is appended together with details of the particular branches for which they undertook the audit.
- (4) Where the auditor refers in his report or any note attached thereto to any uncertainty, the report must state whether, in the auditor's opinion, that uncertainty is material to determining whether the *friendly society* has available assets in excess of its *required minimum margin*.

Signatures

- 5.12
- (1) The *appointed actuary* must sign the certificate in Form 61B.
 - (2) The auditor must sign the report in Form 61C.
 - (3) The FSC1 Return must be signed, in Form 61D, by the *appointed actuary* and the chief executive, the secretary and one *committee* member of the *friendly society* (or two members of the *committee* if the offices of chief executive and secretary are held by the same person).

FSC2 Return

- 5.13
- (1) The FSC2 return must include –
 - (a) Forms FSC2, 9, 9A, 9B and 9C; and
 - (b) a statement that the *friendly society* consents to the FSC2 return being placed on its *public file*.
 - (2) Form 9A must provide a synopsis of the report by the *appropriate actuary* into the investigation into the financial condition of the *friendly society* in respect of its *insurance business* including the statements, information and comments set out in that Form, together with the *appropriate actuary*'s assessment of the financial viability of the *friendly society* and any changes that are necessary or desirable and the likely consequences of taking no action.
 - (3) The *appropriate actuary* must give and sign a certificate in the terms, as appropriate, of Form 9B.
 - (4) Form 9C must be signed by the chief executive, the secretary and one *committee* member of the *friendly society* (or two members of the *committee* if the offices of chief executive and secretary are held by the same person).

FSC3 return

- 5.14 (1) The FSC3 return must include:
- (a) Form FSC3
 - (b) a balance sheet;
 - (c) a revenue account;
 - (d) a certificate by the *appropriate actuary*; and
 - (e) a report of the auditors.
 - (f) a statement that the *friendly society* consents to the FSC3 return being placed on its *public file*.
- (2) Rules 5.15 to 5.19 apply to the preparation of the FSC3 return.

Balance sheet

- 5.15 (1) The balance sheet must consist of Forms 9, 11, 12, 13, 14, 15 and 17 (as appropriate) prepared in accordance with the instructions in Appendix 6.
- (2) Form 13 must be completed in respect of *general insurance business assets*. Where a *friendly society* also carries on *long-term insurance business*, a separate Form 13 must be completed by the *friendly society* in respect of its *long-term insurance business assets* and its corresponding liabilities and margins must be shown in Form 14.

Revenue Account and Additional Information

- 5.16 (1) The revenue account must comply with the instructions in Appendix 7 and must be as set out in Form 20 and a *friendly society* must complete a separate account in Form 20 in respect of each *class of general insurance business* and a summary account in that Form in respect of the whole of the *general insurance business* carried on by it.
- (2) A *friendly society* must in respect of each *class of general insurance business*, and in accordance with the instructions in Appendix 7, complete Forms 21 to 23.
- (3) Form 23A must be completed, in accordance with the instructions in Appendix 7, by a *friendly society* in respect of its *general insurance business*.

Actuary's Certificate

- 5.17 The *appropriate actuary* must give a certificate in the terms, as appropriate, of Form 23B.

Auditor's Report

- 5.18 (1) The auditor's report in Form 23C must state whether in his opinion the balance sheet, revenue accounts and *general insurance business* statements (Forms 9 to 23 including any supplementary notes) and information relating thereto have

been properly prepared and presented in accordance with the rules and guidance in this part of the *IPRU(FSOC)*.

- (2) In giving this opinion, the auditor must state whether he has relied on the identity and value of any *implicit items* valued in accordance with a waiver under section 148 of the *Act*. Where the auditor undertaking the central audit has relied on work done at the branches by other firms of accountants, he must state that he has relied on other accountants for this work. In this case, he must ensure that a list of these firms is appended together with details of the particular branches for which they undertook the audit.
- (3) Where the auditor refers in his report or any note attached thereto to any uncertainty, the report must state whether, in the auditor's opinion, that uncertainty is material to determining whether the *friendly society* has available assets in excess of its *required minimum margin*.

Signatures

- 5.19
- (1) The *appropriate actuary* must sign the certificate in Form 23B.
 - (2) The auditor must sign the report in Form 23C.
 - (3) The FSC3 Return must be signed, in Form 23D, by the chief executive, the secretary and one *committee* member of the *friendly society* (or two members of the *committee* if the offices of chief executive and secretary are held by the same person).

Completion of Forms

- 5.20
- Rules 5.21 to 5.24 apply to the completion of any Form to be included in the *FSC return*.

Headings

- 5.21
- The *friendly society's* register number is to be entered on every page in the relevant box. Boxes marked 'period ended 31 December' must be completed so as to show, in numerals, the date of the last day of the *period* to which the *FSC return* relates. Boxes marked "OB/IB" must be completed to indicate whether the Form is completed in respect of ordinary assurance business (OB) or industrial assurance (IB). No entry must be made in a box which is shaded or is not labelled.

Information to be fairly stated

- 5.22
- Every Form (including supplementary notes to Forms) required to be prepared under the rules in this chapter must fairly state the information provided in it on the basis required by the rules.

Valuation of assets and liabilities

- 5.23 Unless the context otherwise requires, the value or amount given for an asset or a liability of the *friendly society* included in any Form (or supplementary note to a Form) must be the value or amount of that asset or liability as determined in accordance with the *asset valuation rules* and *liability valuation rules* in Appendices 4 and 5.

Presentation of amounts

- 5.24 Some Forms permit amounts to be entered in £000 but advantage may be taken of this only if none of the entries in the relevant Form is less than £500. All entries in a Form must be in the same monetary units. Negative amounts must be shown between round brackets.

Intra-group transactions

- 5.25 (1) If, during the *financial year* in question, a *friendly society*, has agreed to, or carried out, a *material connected-party transaction*, it must provide a brief description of that transaction by way of supplementary note to Form 20 or Form 40.
- (2) The description to be provided in accordance with (2) must state –
- (a) the names of the transacting parties;
 - (b) a description of the relationship between the parties;
 - (c) a description of the transaction;
 - (d) the amounts involved;
 - (e) any other elements of the transaction necessary for an understanding of its effect upon the financial position or performance of the *friendly society*; and
 - (f) amounts written off in the period in respect of *debts* due to or from *connected parties*.
- (3) Transactions with the same *connected party* may be disclosed on an aggregated basis unless separate disclosure is needed for a proper understanding of the effect of the transactions upon the financial position or performance of the *friendly society*.
- 5.26 A *directive friendly society* must provide to any person (or the person who has already been provided with a copy under (a)) within 30 days of the date of request (or, in the case of (b), the date of deposit under rule 5.3):
- (a) a copy of any of the documents last deposited by the *friendly society* under rules 5.1 or 5.2; and

- (b) a copy of any document deposited under rule 5.3 which corrects or makes good any document provided under (a),

in printed form, but (in the case of (a)) the *friendly society* may make a charge to cover its reasonable costs, including those of printing and postage.

STATISTICAL INFORMATION RELATING TO EEA BRANCHES AND SERVICES OPERATIONS

Interpretation

6.1 In this chapter-

- (a) references to *insurance business*, *general insurance business* and *long-term insurance business* do not include *reinsurance business*;
- (b) "gross *claims*" means the amount paid in respect of *claims*, including reinsured amounts;
- (c) "gross premiums" means *premiums* after deduction of discounts, refunds, rebates of *premium* and any taxes or levies that are related to those *premiums* but before deduction of *premiums* for reinsurance ceded and before deduction of *commission payable* by the *friendly society*; and
- (d) references, in relation to the provision of general insurance or the carrying on of *general insurance business*, to the groups of *classes* are to the following two groups-
 - (i) accident and sickness, that is to say, *general insurance business* of *classes* 1 and 2, and
 - (ii) miscellaneous financial loss, that is to say, *general insurance business* of *class* 16.

Insurance statistics: EEA states

6.2 (1) A *directive friendly society* which in a *financial year*-

- (a) carries on *long-term insurance business* in an *EEA State* other than the United Kingdom through an overseas branch in that State; or
- (b) *provides long-term insurance* in an *EEA State* other than the United Kingdom through an establishment in another *EEA State*,

must prepare in respect of *long-term insurance business* so carried on by it, or *long-term insurance* so provided by it, a statement of gross premiums *receivable* by each of *classes* I to VII.

(2) A *directive friendly society* which in a *financial year*-

- (a) carries on *general insurance business* in an *EEA State* other than the United Kingdom through an overseas branch in that State; or

- (b) *provides general insurance* in an *EEA State* other than the United Kingdom through an establishment in another *EEA State*,

must prepare in respect of *general insurance business* so carried on by it, or general insurance so provided by it, a statement of gross premiums *receivable*, commissions attributable to those *premiums* and gross *claims* by each group of *classes*.

- (3) The statements referred to in (1) and (2) must be prepared separately in respect of each *EEA State* in which the *friendly society* carries on the *insurance business* or *provides the insurance*.

Supplementary provisions

- 6.3 (1) Where a statement or underwriting account is prepared by a *friendly society* under rule 6.2, the *friendly society* must-
 - (a) cause the statement or account to be printed; and
 - (b) deposit three copies of the statement or account with the *FSA* within nine months after the end of the *financial year* to which it relates.
- (2) One of the copies of any statement or account deposited under (1) must be signed by the chief executive or secretary of the *friendly society*.
- (3) If within 24 months of the date of deposit, the *FSA* notifies the *friendly society* that a document deposited under (1) appears to it to be inaccurate or incomplete, the *friendly society* must consider the matter and within one month of the date of notification it must correct any inaccuracies and make good any omissions and deposit the relevant parts of the documents again.

Notification of non-provision of insurance or non-carrying on of business

- 6.4 (1) Subject to (2), where a *friendly society* which has notified the *FSA* in accordance with *SUP*-
 - (a) of its intention to establish an overseas branch in an *EEA State* other than the United Kingdom; or
 - (b) of its intention to *provide insurance* in an *EEA State* other than the United Kingdom,

does not in any *financial year* carry on *insurance business* or, as the case may be, *provide insurance* in that State, it must send to the *FSA* a notification of that fact within nine months after the end of the *financial year* to which the notification relates, signed by the chief executive or secretary of the *friendly society*.

- (2) (1) does not apply if the *friendly society* has, before the beginning of the *financial year*, informed the *FSA* that it no longer intends to carry on *insurance business* or, as the case may be, *provide insurance* in the *EEA State* in question.
- (3) If within 24 months of the date of deposit, the *FSA* notifies the *friendly society* that a document deposited under (1) appears to it to be inaccurate or incomplete, the *friendly society* must consider the matter and within one month of the date of notification it must correct any inaccuracies and make good any omissions and deposit the relevant parts of the documents again.

Chapter 7

DEFINITIONS

Part I Definitions

7.1 In this Part of the *IPRU(FSOC)*, unless the contrary intention appears, the following definitions apply –

<p><i>Accounts Regulations</i> means the Friendly Societies (Accounts and Related Provisions) Regulations 1994, S.I. 1994/1983;</p>
<p><i>accumulating with-profits policy</i> means a <i>with-profits policy</i> which has a readily identifiable current benefit, whether or not this benefit is currently realisable, which is adjusted by an amount explicitly related to the amount of any <i>premium</i> payment and to which additional benefits are added in respect of participation in profits by additions directly related to the current benefit, or a policy with similar characteristics;</p>
<p><i>1974 Act</i> means the Friendly Societies Act 1974;</p>
<p><i>1992 Act</i> means the Friendly Societies Act 1992;</p>
<p><i>Accounts Directives</i> means Council Directives 78/660/EEC for companies, 91/674/EEC for insurance companies, 86/635/EEC for banks and 83/349/EEC for consolidated accounts;</p>
<p><i>Act</i> means Financial Services and Markets Act 2000;</p>
<p><i>ancillary risk</i>, in relation to a <i>friendly society</i> with permission under the <i>Act</i> to insure a principal risk belonging to one <i>class</i> of <i>general insurance business</i>, means a risk included in another such <i>class</i> which is -</p> <ul style="list-style-type: none">(a) connected with the principal risk;(b) concerned with the object which is covered against the principal risk; and(c) the subject of the same contract insuring the principal risk;
<p><i>annual contribution income</i> means, in relation to a <i>friendly society's long-term insurance business</i>, the income of the <i>friendly society</i> in a <i>financial year</i> without any deduction for reinsurance cessions;</p>
<p><i>annuities on human life</i> does not include superannuation allowances and annuities payable out of any fund applicable solely to the relief and maintenance of persons engaged or who have been engaged in any particular profession, trade or employment, or of the dependants of such persons;</p>

<i>appointed actuary</i> means an actuary appointed under <i>SUP</i> 4.13.1R;
<i>appropriate actuary</i> means an actuary appointed under <i>SUP</i> 4.4.1R;
<p><i>approved counterparty</i> means any of the following –</p> <ul style="list-style-type: none"> (a) an <i>approved credit institution</i> (b) a person who is exempt pursuant to section 43 of the Financial Services Act 1986 (c) a person who is permitted under the <i>Act</i> to conduct investment business of a kind which includes entering into <i>unlisted derivative contracts</i> as principal; or (d) in respect of a transaction involving a new issue of <i>securities</i> which are to be <i>listed</i>, the <i>issuer</i> or an <i>approved investment firm</i> acting on behalf of the <i>issuer</i>;
<i>approved credit institution</i> means an institution recognised or permitted under the law of an <i>EEA State</i> to carry on any of the activities set out in Annex 1 to the <i>Banking Co-ordination Directive</i> ;
<i>approved derivative contract</i> has the meaning given in 13(6) of Appendix 4;
<p><i>approved financial institution</i> means any of the following –</p> <ul style="list-style-type: none"> the European Central Bank; the central bank of an <i>EEA State</i>; the International Bank for Reconstruction and Development; the International Finance Corporation; the International Monetary Fund; the Inter-American Development Bank; the African Development Bank; the Asian Development Bank; the Caribbean Development Bank; the European Investment Bank; the European Community; the European Atomic Energy Community; and the European Coal and Steel Community;
<p><i>approved index</i> means either –</p> <ul style="list-style-type: none"> (a) an index which is – <ul style="list-style-type: none"> (i) calculated independently, (ii) published at least once every week, (iii) based on constituents, each of which is property falling within 1

<p>to 8 or 10 of Appendix 3, and</p> <p>(iv) calculated on a basis which is made available to the public and which includes both the rules for including and excluding constituents and the rules for valuation which must use an arithmetic average of the value of the constituents;</p> <p>(b) a national index of retail prices published by or under the authority of a government of a State belonging to Zone A as defined in Council Directive 89/647/EEC of 18 December 1989 on a solvency ratio for credit institutions; or</p> <p>(c) an index which is –</p> <p>(i) based on constituents, each of which is property falling within 1 to 8 or 10 of Appendix 3, and</p> <p>(ii) in respect of which a <i>derivative contract</i> is listed;</p>
<p><i>approved investment firm</i> means an investment firm as defined in article 2 of Council Directive 93/22/EEC of 10 May 1993 on investment services in the <i>securities</i> field;</p>
<p><i>approved securities</i> means any of the following –</p> <p>(a) any <i>securities</i> issued or guaranteed by, or the repayment of the principal of which, or the interest on which is guaranteed by, and any loans to or deposits with, any of the following, namely, any government, public or local authority or nationalised industry or undertaking, which belongs to Zone A as defined in the <i>Banking Co-ordination Directive</i>; and</p> <p>(b) any loan to, or deposit with, an <i>approved financial institution</i>;</p>
<p><i>asset valuation rules</i> are the rules in Appendix 4;</p>
<p><i>associate</i> means -</p> <p>(a) the wife or husband or <i>minor son</i> or <i>daughter</i> of that person;</p> <p>(b) the trustees of any settlement under which that person has a life interest in possession, or, in Scotland, a life interest;</p> <p>(c) any <i>company</i> of which that person is a director; or</p> <p>(d) any person who is an employee or partner of that person; and</p> <p>if that person is a <i>company</i> –</p> <p>(i) any director of that <i>company</i>,</p>

<p>(ii) any <i>subsidiary undertaking</i> of that <i>company</i>, or</p> <p>(iii) any director or employee of any such <i>subsidiary undertaking</i>; and</p> <p>if that person has made an agreement or arrangement with any other person –</p> <p>(iv) with respect to the acquisition, holding or disposal of <i>shares</i> or other interests in the <i>company</i> concerned or another <i>company</i> of which it is a <i>subsidiary undertaking</i>, or</p> <p>(v) under which they undertake to act together in exercising their voting power in relation to the <i>company</i> concerned or another <i>company</i> of which it is such an undertaking,</p> <p>that other person;</p>
<p><i>Banking Co-ordination Directive</i> means Council Directive 2000/12/EC of 20 March 2000 relating to the taking up and pursuit of the business of credit institutions;</p>
<p><i>building society</i> means a building society within the meaning of the Building Societies Act 1986;</p>
<p><i>business amount</i> means –</p> <p>(a) for a <i>friendly society</i> carrying on only <i>general insurance business</i>, the <i>general insurance business amount</i>;</p> <p>(b) for a <i>friendly society</i> carrying on only <i>long-term insurance business</i>, the <i>long-term insurance business amount</i>; and</p> <p>(c) for a <i>friendly society</i> carrying on both <i>general insurance business</i> and <i>long-term insurance business</i>, in the case of its <i>general insurance business assets</i>, the <i>general insurance business amount</i> and in the case of its <i>long-term insurance business assets</i>, the <i>long-term insurance business amount</i>;</p>
<p><i>charges for management</i> means amounts chargeable in respect of the management of an <i>internal linked fund</i> in accordance with the rules of the <i>friendly society</i> and the conditions of those <i>contracts of insurance</i> under which <i>property linked benefits</i> are linked to the value of the fund or units of the fund;</p>
<p><i>claim</i> means a claim against a <i>friendly society</i> under a <i>contract of insurance</i>;</p>

<p><i>claims-made policy</i> means a contract of liability insurance which provides that no liability is incurred by the <i>friendly society</i> in respect of an incident unless –</p> <p>(a) the incident is notified to the <i>friendly society</i> (or its agent or representative), and</p> <p>(b) such notification is received by the <i>friendly society</i> (or its agent or representative) before the end of a specified <i>period</i> which is no longer than three years following the final date for which cover is provided under the contract;</p>
<p><i>claims management costs</i> refers to those <i>claims</i> management costs required by the <i>Accounts Regulations</i> (note (4) to the income and expenditure account format) to be included in <i>claims</i> incurred other than those which, whether or not incurred through the employment of the <i>friendly society's</i> own staff, are directly attributable to particular <i>claims</i>;</p>
<p><i>class</i>, in relation to <i>insurance business</i>, means a class of <i>long-term insurance business</i> or a class of <i>general insurance business</i> listed in Part III of chapter 7;</p>
<p><i>collective investment fund</i> includes a <i>collective investment scheme</i>;</p>
<p><i>collective investment scheme</i> has the meaning given in section 235 of the <i>Act</i>;</p>
<p><i>commission payable</i> means the amounts recorded during a <i>financial year</i> of a <i>friendly society</i> as due to intermediaries and cedants in respect of the inception, amendment or renewal of <i>contracts of insurance</i>, whether or not paid during that year;</p>
<p><i>commitment</i> means a commitment represented by <i>insurance business</i> of any of the <i>classes</i> of <i>long-term insurance business</i> specified in Part III of chapter 7</p>
<p><i>committee</i> means the committee of management or other directing body of a <i>friendly society</i> or <i>registered branch</i>;</p>
<p><i>company</i> includes a body corporate;</p>
<p><i>connected</i>, in relation to two bodies corporate (A and B), means that:</p> <p>(a) B is a <i>related undertaking</i> of A;</p> <p>(b) B is a <i>participating undertaking</i> in A; or</p> <p>(c) B is a <i>related undertaking</i> of a <i>participating undertaking</i> in A;</p>

connected individual of a friendly society means a person who –

- (a) controls, or is a partner of a person who controls, the *friendly society*;
or
- (b) is a member of the *committee* of the *friendly society* or the wife or husband or a *minor son or daughter* of such a member,

and for the purposes of the above a person controls a *company* if he is –

- (c) a person in accordance with whose directions or instructions the *committee* is accustomed to act; or
- (d) a person who either alone or with any *associate* or *associates* is entitled to exercise, or control the exercise of, 15 % or more of the voting power at any general meeting of the *friendly society*;

connected-party transaction means the transfer of assets or liabilities or the performance of services by, to or for a *connected* person irrespective of whether or not a price is charged;

contract for differences means a contract which falls within article 85 of the Financial Services and Markets Act (Regulated Activities) Order 2001;

contract of insurance includes:

- (a) fidelity bonds, performance bonds, administration bonds, bail bonds, customs bonds, or similar contracts of guarantee, effected in return for the payment of one or more premiums;
- (b) tontines;
- (c) when effected or carried out by a body that carries on the business of effecting or carrying out *contracts of insurance* apart from this paragraph, capital redemption contracts and *pension fund management contracts*;
- (d) contracts to pay *annuities on human life*;
- (e) contracts of a kind referred to in article 1(2)(e) of the *first life Directive*;
and
- (f) contracts of a kind referred to in article 1(3) of the *first life Directive*;

counterparty in relation to a *friendly society* means –

- (a) any one individual;
- (b) any one unincorporated body of persons;
- (c) any one *company* not being a member of a *group*;
- (d) any *group* of *companies* excluding any *companies* within the *group* which are *subsidiary undertakings* of the *friendly society*; or
- (e) any government of a State together with all the public bodies, local authorities or nationalised industries of that State,

in which the *friendly society* has made investments or against whom it has rights whether in pursuance of a contract entered into by the *friendly society* or otherwise;

court except in relation to the winding-up of an *incorporated friendly society*, means –

- (a) in the case of a body whose registered office is situated in England and Wales or in Northern Ireland, the county *court* for the district in which the office is situated;
- (b) in the case of a body whose registered office is situated in Scotland, the sheriff in whose jurisdiction the office is situated; and, in relation to the winding-up of an *incorporated friendly society*, means the *court* which has jurisdiction under the applicable winding-up legislation to wind-up the *friendly society*;

daughter includes stepdaughter;

debt includes an obligation to pay a sum of money under a negotiable instrument;

debt security includes bonds, notes, debentures and debenture stock;

debts due or to become due includes any *debts* which would become due if the *friendly society* were to exercise any right to which it is entitled to require payment or repayment of the same;

deferred acquisition costs means those items referred to at G II under the heading "Assets" in Part I of Schedule 2 to the *Accounts Regulations*;

<p><i>dependant of a friendly society</i> means –</p> <p>(a) a <i>subsidiary undertaking</i> of that <i>friendly society</i>; or</p> <p>(b) a body jointly controlled by that <i>friendly society</i> and another person,</p> <p>within the meaning of section 13 of the <i>1992 Act</i> the value of whose shares is taken to be the value of its surplus assets under 3 of Appendix 4;</p>
<p><i>deposit back arrangement</i>, in relation to a contract of reinsurance, means an arrangement whereby an amount is deposited by the reinsurer with the cedant;</p>
<p><i>derivative contract</i> means a <i>contract for differences</i>, a <i>futures contract</i> or an <i>option</i> and includes a contract under which the amount payable by either party is calculated by reference to the amortised value of any property;</p>
<p><i>direct insurance business</i> has the meaning given in <i>IPRU(INS)</i>;</p>
<p><i>directive friendly society</i> means a <i>friendly society</i> other than a <i>non-directive friendly society</i>;</p>
<p><i>designated state or territory</i> means any <i>EEA State</i> (other than the United Kingdom), Switzerland, a state in the United States of America, Canada or a province of Canada, Australia, South Africa, Singapore and Hong Kong;</p>
<p><i>diversified contract for differences</i> means a <i>contract for differences</i> whose value does not depend to a significant extent on fluctuations in the value of, or the income from, assets of any of the descriptions in B19 to B28, B30 or B32 to B38 of Part II of this Annex and <i>undiversified contract for differences</i> must be construed accordingly;</p>
<p><i>EEA insurer</i> has the meaning given in <i>IPRU(INS)</i>;</p>
<p><i>EEA State</i> means a State which is a contracting party to the agreement on the European Economic Area signed at Oporto on 2 May 1992;</p>
<p><i>EEA State in which a risk or commitment is situated</i> in relation to a <i>contract of insurance</i> means –</p> <p>(a) where the person who entered into the contract with the <i>friendly society</i> on any date is an individual, the <i>EEA State</i> where he has his habitual place of residence on that date; and</p> <p>(b) in any other case, the <i>EEA State</i> where the establishment of that person is situated on that date;</p>
<p><i>equivalent securities</i> means <i>securities</i> issued by the same <i>issuer</i> being of an identical type and having the same nominal value, description and amount;</p>

<i>established surplus</i> has the meaning given in 6(7) of Appendix 5;
<i>excess concentration with a number of counterparties</i> has the meaning given in B17 of Annex B to Appendix 4;
<i>exposure</i> – (a) in relation to assets, means an amount determined in accordance with B4 to B12 of Annex B to Appendix 4; (b) in relation to a <i>counterparty</i> , means an amount determined in accordance with B13 to B17 of Annex B to Appendix 4;
<i>financial year</i> means the period of 12 months ending with 31 December and the initial <i>financial year</i> of a <i>friendly society</i> must be such period as expires at the end of the calendar year in which it is registered under the <i>1974 Act</i> or incorporated under the <i>1992 Act</i> and the final <i>financial year</i> of the <i>friendly society</i> must be such shorter period than 12 months as expires on the date as at which the <i>friendly society</i> makes up its final accounts;
<i>first non-life Directive</i> means Council Directive 73/239/EEC of 24 July 1973 on the co-ordination of laws, regulations and administrative provisions relating to the taking-up and pursuit of the business of direct insurance other than life assurance;
<i>first life Directive</i> means Council Directive 79/267/EEC of 5 March 1979 on the co-ordination of laws, regulations and administrative provisions relating to the taking up and pursuit of the business of direct life assurance;
<i>fixed interest securities</i> means <i>securities</i> which under their terms of issue provide for fixed amounts of interest;
<i>flat rate benefits business friendly society</i> means a <i>friendly society</i> whose <i>insurance business</i> is restricted to the provision of benefits which vary according to the resources available and in which the contributions of members are determined on a flat rate basis;
<i>friendly society</i> means an <i>incorporated friendly society</i> or a <i>registered friendly society</i> ;
<i>FSA</i> means the Financial Services Authority;
<i>FSC return</i> means any of FSC1 return, FSC2 return and FSC3 return;
<i>futures contract</i> means a contract which falls within article 84 of the Financial Services and Markets Act (Regulated Activities) Order 2001;
<i>general insurance business</i> means <i>insurance business</i> of any of the <i>classes</i> of general insurance specified in Part III of chapter 7;

<p><i>general insurance business amount</i> means the higher of –</p> <p>(a) the aggregate of the <i>friendly society's insurance liabilities</i> (net of <i>reinsurance</i>) in respect of <i>general insurance business</i> and an amount equal to whichever is the greater of 400,000 Euro or 20% of the <i>general premium income</i>; or</p> <p>(b) such other amount as the <i>friendly society</i> may select not exceeding the value of its assets (other than <i>long-term insurance business assets</i> and excluding <i>reinsurance recoveries</i>) as determined in accordance with the <i>asset valuation rules</i>;</p>
<p><i>general insurance business assets</i> means assets of a <i>friendly society</i> or <i>insurance company</i> which are, for the time being, identified as representing the <i>general insurance business</i> fund or funds maintained by that body in respect of its <i>general insurance business</i>, and</p> <p><i>general insurance business liabilities</i> means liabilities of the body which are attributable to its <i>general insurance business</i>;</p>
<p><i>general premium income</i> means, in any year, the net amount, after deduction of any <i>premiums</i> payable for <i>reinsurance</i>, of the <i>premiums receivable</i> in that year in respect of all <i>insurance business</i> other than <i>long-term insurance business</i>;</p>
<p><i>gross premiums</i>, in relation to a <i>friendly society</i> and a <i>financial year</i> –</p> <p>(a) means <i>premiums</i> after deduction of discounts, refunds and rebates of <i>premium</i> but before deduction of <i>premiums</i> for <i>reinsurance</i> ceded and before deduction of <i>commission payable</i> by the <i>friendly society</i>; and</p> <p>(b) includes <i>premiums receivable</i> by the <i>friendly society</i> under <i>reinsurance</i> contracts accepted by the <i>friendly society</i>;</p>
<p><i>group</i> has the meaning given in section 262(1) of the Companies Act 1985;</p>
<p><i>guarantee fund</i> has the meaning given in rule 4.4(1);</p>
<p><i>hybrid linked contract</i> means a <i>contract of insurance</i> the effecting of which constitutes the carrying on of <i>long-term insurance business</i> and which contains an option or options such that at some future time the contract may, according to how such option or options are exercised, constitute either a <i>linked contract</i> or a <i>non-linked contract</i>;</p>
<p><i>implicit items</i> has the meaning given in rule 4.7(3);</p>
<p><i>incepted</i> refers to the time when the liability to risk of a <i>friendly society</i> under a <i>contract of insurance</i> commenced and, for this purpose, a contract providing continuous cover is deemed to commence on each anniversary date of the contract;</p>
<p><i>incorporated friendly society</i> means a <i>friendly society</i> incorporated under the</p>

<i>1992 Act</i> ;
<i>index linked benefits</i> means benefits –
(a) provided for under a <i>linked long-term contract</i> ; and
(b) determined by reference to fluctuations in, or an index of, the value of property of any description (whether or not specified in the contract);
<i>index linked contract</i> means a <i>linked contract</i> conferring <i>index linked benefits</i> ;
<i>index linked liabilities</i> means <i>insurance liabilities</i> in respect of <i>index linked benefits</i> ;
<i>industrial and provident society</i> means any society registered (or deemed to be registered) under the Industrial and Provident Societies Act 1965 or the Industrial and Provident Societies Act (Northern Ireland) 1969;
<i>industrial assurance business</i> has the meaning given in <i>IPRU(INS)</i> ;
<i>initial margin</i> in respect of a <i>derivative contract</i> or a contract or <i>asset</i> having the effect of a <i>derivative contract</i> means assets which, before or at the time the contract is entered into, are transferred by the <i>friendly society</i> subject to a condition that such assets (or, where the assets transferred are <i>securities, equivalent securities</i>) will be returned to the <i>friendly society</i> on completion of that contract;
<i>insurance business</i> means the business of effecting or carrying out <i>contracts of insurance</i> as principal;
<i>insurance company</i> means a person or body of persons (whether incorporated or not) carrying on <i>insurance business</i> other than a <i>friendly society</i> ;
<i>insurance Directives</i> means –
(a) the <i>first non-life Directive</i> , the <i>second non-life Directive</i> and the <i>third non-life Directive</i> , and such other Directives as make provision with respect to the business of direct insurance other than long-term assurance; and
(b) the <i>first life Directive</i> , the <i>second life Directive</i> and the <i>third life Directive</i> , and such other Directives as make provision with respect to the business of direct long-term assurance;
<i>insurance holding company</i> means an undertaking whose main business is to acquire and hold <i>participations</i> in <i>subsidiary undertakings</i> , where those <i>subsidiary undertakings</i> are exclusively or mainly <i>insurance undertakings</i> ;

<i>insurance liabilities</i> means amounts calculated in accordance with <i>liability valuation rules</i> in respect of those items shown at C and D under the heading "Liabilities" in Part I of Schedule 2 to the <i>Accounts Regulations</i> ;
<i>insurance undertaking</i> has the meaning given in <i>IPRU(INS)</i> ;
<i>insurer</i> has the meaning given in <i>IPRU(INS)</i> ;
<i>intermediary</i> means a person who in the course of any business or profession invites other persons to make offers or proposals or to take other steps with a view to entering into <i>contracts of insurance</i> with a <i>friendly society</i> , other than a person who only publishes such invitations on behalf of, or to the order of, some other person;
<i>internal linked fund</i> means an account to which a <i>friendly society</i> appropriates certain <i>linked assets</i> and which may be sub-divided into units the value of which is determined by the <i>friendly society</i> by reference to the value of those <i>linked assets</i> ;
<i>IPRU(FSOC)</i> means the Interim Prudential Sourcebook for Friendly Societies;
<i>IPRU(INS)</i> means the Interim Prudential Sourcebook for Insurers;
<i>issuer</i> in respect of a <i>collective investment scheme</i> means the manager or operator of the scheme and in respect of an interest in a limited partnership means the partnership;
<i>jointly controlled body</i> is to be construed in accordance with section 13 of the <i>1992 Act</i> ;
<i>liability valuation rules</i> are the rules in Appendix 5;
<i>life Directives</i> means the <i>first life insurance Directive</i> , the <i>second life Directive</i> , and the <i>third life Directive</i> ;
<i>linked assets</i> means, in relation to a <i>friendly society</i> , <i>long-term insurance business assets</i> of the <i>friendly society</i> which are, for the time being, identified in the records of the <i>friendly society</i> as being assets by reference to the value of which <i>property linked benefits</i> are to be determined;
<i>linked benefits</i> , in relation to a <i>linked long-term contract</i> , means benefits payable to the <i>policyholder</i> which are determined by reference to the value of or the income from property of any description (whether or not specified in the contract) or by reference to fluctuations in, or in an index of, the value of property of any description (whether or not so specified);
<i>linked contract</i> means a contract falling within <i>class III</i> , and <i>non-linked contract</i> must be construed accordingly;

linked long-term contract means a *contract of insurance*, the effecting of which constitutes the carrying on of *long-term insurance business*, and under which *linked benefits* are payable;

listed means, in relation to an investment –

- (a) that there has been granted and not withdrawn a listing in respect of that investment on any stock exchange in an *EEA State* which is a stock exchange under the law of that State; or
- (b) that facilities have been granted for dealing in that investment on a *regulated market*,

and *unlisted* must be construed accordingly;

long-term insurance business means *insurance business* of any of the *classes* of long-term insurance specified in Part III of chapter 7;

long-term insurance business amount means the higher of –

- (a) the amount of the *friendly society's insurance liabilities* in respect of *long-term insurance business* (net of reinsurance ceded and excluding *property linked liabilities*), together with -
 - (i) the amount of the *required margin of solvency* (or the amount of the *minimum guarantee fund* if greater) determined in accordance with rules 4.2 and 4.5 and Appendix 1 less the amount of any *implicit item* valued in accordance with a waiver under section 148 of the *Act*, and
 - (ii) the amount of any *deposit-back* in connection with a contract of reinsurance in respect of *long-term insurance business*; or
- (b) such other amount as the *friendly society* may select not exceeding the value of its assets (other than *general insurance business assets* and excluding *reinsurance recoveries* and assets required to match *property linked liabilities*) in accordance with the *asset valuation rules*,

except that for the purposes of determining the *permitted asset exposure limit* under paragraph B3 of Annex B of Appendix 4, *index linked liabilities* must also be excluded from (a) and assets required to match such liabilities must be also excluded from (b);

long-term insurance business assets means assets of a *friendly society* or *insurance company* which are, for the time being, identified as representing the *long-term insurance business* fund or funds maintained by that body in respect of its *long-term insurance business*; and

long-term insurance business liabilities means liabilities of the body which are attributable to its *long-term insurance business*;

<p><i>long-term gilt yield</i> means the annualised equivalent of the 15 year medium coupon yield for United Kingdom Government fixed-interest <i>securities</i> jointly compiled by the Financial Times, the Institute of Actuaries and the Faculty of Actuaries;</p>
<p><i>long-term liabilities</i> means liabilities of a <i>friendly society</i> arising under or in connection with contracts for <i>long-term insurance business</i> including <i>liabilities</i> arising from <i>deposit back arrangements</i>;</p>
<p><i>management expenses</i> means all expenses, other than commission, incurred in the administration of a <i>friendly society</i> or its business;</p>
<p><i>market value</i> means the market value as determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate to societies;</p>
<p><i>material connected-party transaction</i> means a <i>connected-party transaction</i> for which (together with any similar transactions):</p> <ul style="list-style-type: none"> (a) the price actually paid or received for the transfer of assets or liabilities or the performance of services; or (b) the price which would have been paid or received had that transaction been negotiated at arm's length between unconnected parties, <p>exceeds:</p> <ul style="list-style-type: none"> (c) in the case of a <i>friendly society</i> that carries on either <i>general insurance business</i> or <i>long-term insurance business</i>, but not both, 5% of the <i>general business amount</i> or <i>long-term business amount</i>, as applicable; or (d) in the case of a <i>friendly society</i> that carries on both types of business either – <ul style="list-style-type: none"> (i) 5% of the <i>long-term business amount</i> where the transaction is in connection with the <i>friendly society's long-term business</i>; and (ii) in other cases, 5% of the <i>general business amount</i>;
<p><i>mathematical reserves</i> means the provision made by a <i>friendly society</i> to cover liabilities (excluding liabilities which have fallen due and liabilities arising from <i>deposit back arrangements</i>) arising under or in connection with contracts for <i>long-term insurance business</i>;</p>
<p><i>memorandum</i> has the meaning given by paragraph 4(3) of Schedule 3 to the 1992 Act;</p>
<p><i>minimum guarantee fund</i> has the meaning given in rule 4.4(2);</p>

minor, in relation to Scotland, means not having attained the age of sixteen;

modifications, in relation to *enactments*, includes additions, omissions and amendments;

non-directive friendly society means

- (1) a *friendly society* whose *insurance business* is restricted to the provision of benefits which vary according to the resources available and in which the contributions of the members are determined on a flat-rate basis;
- (2) a *friendly society* whose *long-term insurance business* is restricted to the provision of benefits for employed or self-employed persons belonging to an undertaking or group of undertakings, or a trade or group of trades, in the event of death or survival or of discontinuance or curtailment of activity (whether or not the *commitments* arising from such operations are fully covered at all times by *mathematical reserves*);
- (3) a *friendly society* which undertakes to provide benefits solely in the event of death where the amount of such benefits does not exceed the average funeral costs for a single death or where the benefits are provided in kind;
- (4) a *friendly society* (carrying on *long-term insurance business*) –
 - (a) whose articles of association contain provisions for calling up additional contributions from members or reducing their benefits or claiming assistance from other persons who have undertaken to provide it; and
 - (b) whose annual *gross premium* income (other than from contracts of *reinsurance*) has not exceeded 500,000 Euro for each of the three preceding *financial years*;
- (5) a *friendly society* (carrying on *general insurance business*) whose –
 - (a) registered rules contain provisions for calling up additional contributions from members or reducing their benefits;
 - (b) *gross premium* income (other than from contracts of *reinsurance*) for the preceding *financial year* did not exceed 1,000,000 Euro; and
 - (c) members provided at least half of that *gross premium* income; or
- (6) a *friendly society* whose liabilities in respect of *general insurance business* are fully reinsured with or guaranteed by other mutuals (including *friendly societies*);

and whose *insurance business* is limited to that described in paragraphs (1) to (6);

non-life Directives means the *first non-life Directive*, the *second non-life Directive*, and the *third non-life Directive*;

non-linked contract see *linked long term contract*;

non-profit policy see *with-profits policy*;

officer means –

- (a) in relation to a *registered friendly society* or a *registered branch* –
 - (i) a trustee;
 - (ii) the treasurer, secretary and chief executive (however described);
 - (iii) a member of the *committee*; and
 - (iv) a person appointed by the *friendly society* or branch to sue or be sued on its behalf; or
- (b) in relation to an *incorporated friendly society*, a member of the *committee*, the chief executive (however described) and the secretary;

option means an *option* which falls within article 83 of the Financial Services and Markets Act (Regulated Activities) Order 2001 or a *warrant*;

ordinary long term insurance business means long-term *insurance business* which is not *industrial assurance business*;

participating undertaking means an undertaking which holds a *participation* in another undertaking;

participation means:

- (a) the holding of a participating interest within the meaning of section 411(2) of the *Act*; or
- (b) the holding, directly or indirectly, of 20% or more of the voting rights or capital;

pension fund management contract means a contract to manage the investments of pension funds (other than funds solely for the benefit of the officers or employees of the person effecting or carrying out the contract and their dependants or, in the case of a *company*, partly for the benefit of officers or employees and their dependants of its *subsidiary* or holding company or a *subsidiary* of its holding company);

<p><i>period</i> means –</p> <p>(a) for the purposes of completion of the FSC2 or FSC3 return, the date since the last return or three years if there was no previous actuarial investigation; and</p> <p>(b) for the purpose of completion of the FSC1 return the <i>financial year</i> to which the return relates;</p>
<p><i>permanent health contract</i> means a contract falling within <i>class IV</i>;</p>
<p><i>permitted asset exposure limit</i> for assets of any of the descriptions in Part II of Annex B of Appendix 4 is the percentage of the <i>business amount</i> set out opposite the relevant paragraph; in the case of an asset which is not covered by any of the descriptions in Part II of Annex B of Appendix 4 (other than a <i>derivative contract</i>), the permitted asset exposure limit is nil;</p>
<p><i>permitted connected property</i> has the meaning given in rule 4.23(b);</p>
<p><i>permitted counterparty exposure limit</i> means –</p> <p>(a) where the <i>counterparty</i> is an individual or an unincorporated body of persons, 5% of the <i>business amount</i>;</p> <p>(b) where the <i>counterparty</i> is a <i>counterparty</i> of the type mentioned in (e) in the definition of <i>counterparty</i>, 5% of the <i>business amount</i>;</p> <p>(c) where the <i>counterparty</i> is a body corporate or <i>group</i>, each of</p> <p>(i) 20% of the <i>business amount</i> or £2 million, whichever is the larger,</p> <p>(ii) 10% of the <i>business amount</i> where the <i>exposure</i> arises otherwise than by reason that <i>debts</i> are due, or are to become due, as a result of <i>short term deposits</i> made with an <i>approved credit institution</i>, and</p> <p>(iii) 5% of the <i>business amount</i> where the <i>exposure</i> is other than to bodies which are <i>approved counterparties</i>;</p>

<p><i>permitted derivative contract</i> means a <i>derivative contract</i> which –</p> <p>(a) is covered and –</p> <p>(i) is held in connection with property of the type described in rule 4.22 for the purpose of reduction of investment risk or efficient portfolio management, or</p> <p>(ii) has the effect of a <i>permitted derivative contract</i> held in connection with such property for such purpose; and</p> <p>(b) satisfies the conditions in 13(6) to 13(8) of Appendix 4 except that the references in 13 of Appendix 4 to "an asset for the valuation of which provision is made in this chapter" is construed as reference to <i>permitted connected property</i>;</p>
<p><i>policyholder</i> has the meaning given in <i>IPRU(INS)</i>;</p>
<p><i>premium</i> includes a contribution in respect of an insurance benefit and the consideration for the granting of an annuity;</p>
<p><i>proper valuation</i> means, in relation to land, a valuation made by a qualified valuer not more than three years before the <i>relevant date</i> which determined the amount which would be realised at the time of the valuation on an open market sale of the land free from any mortgage or charge;</p>
<p><i>property linked benefits</i> means benefits other than <i>index linked benefits</i> –</p> <p>(a) provided for under a <i>linked long-term contract</i>; and</p> <p>(b) determined by reference to the value of, or income from, property of any description (whether specified in the contract or not);</p>
<p><i>property linked contract</i> means a <i>linked contract</i> conferring <i>property linked benefits</i>;</p>
<p><i>property linked liabilities</i> means <i>insurance liabilities</i> in respect of <i>property linked benefits</i>;</p>
<p><i>provision of insurance</i> by a <i>directive friendly society</i> in the United Kingdom or any other <i>EEA State</i> means –</p> <p>(a) the covering (otherwise than by way of reinsurance) of a risk situated there through an establishment in another <i>EEA State</i> ('the provision of general insurance'); and</p> <p>(b) the covering (otherwise than by way of reinsurance) of a <i>commitment</i> situated there through an establishment in another <i>EEA State</i> ('the provision of long-term insurance');</p>

<p><i>public file</i>, in relation to a <i>friendly society</i>, means the file relating to the <i>friendly society</i> which the <i>FSA</i> is required to maintain under section 104 of the <i>1992 Act</i>;</p>
<p><i>pure reinsurer</i> has the meaning given in <i>IPRU(INS)</i>;</p>
<p><i>qualified valuer</i>, in relation to any particular type of land in any particular area, means a person who is a fellow or professional associate of the Royal Institution of Chartered Surveyors or a fellow or associate of the Incorporated Society of Valuers and Auctioneers or a fellow or associate of the Rating and Valuation Association and either –</p> <p>(a) has knowledge of and experience in the valuation of that particular type of land in that particular area; or</p> <p>(b) has knowledge of and experience in the valuation of land and has taken advice from a valuer who he is satisfied has knowledge of and experience in the valuation of that particular type of land in that particular area;</p>
<p><i>readily realisable</i> in relation to a <i>listed</i> investment means a <i>listed</i> investment in respect of which 9(4) of Appendix 4 does not apply or, by virtue of 9(5) of Appendix 4, is to be taken not to apply;</p>
<p><i>receivable</i> in relation to a <i>friendly society</i>, a <i>period</i>, a <i>financial year</i> and a <i>premium</i> means, unless otherwise specified, such amounts as become due to the <i>friendly society</i>, whether or not received by the <i>friendly society</i> during that <i>period</i> or <i>financial year</i>, including (where appropriate) income which has accrued, except that in Appendix 2, "<i>receivable</i>" only includes amounts <i>receivable</i> in respect of <i>contracts of insurance incepted</i> in that <i>period</i> or <i>financial year</i>;</p>
<p><i>recoverable</i>, in relation to a <i>friendly society</i> and a <i>financial year</i>, means recorded in the <i>friendly society's</i> books as due in that year, whether or not the <i>friendly society</i> has received any payment;</p>
<p><i>reference period</i>, in relation to a <i>friendly society</i>, means the three last preceding <i>financial years</i>;</p>
<p><i>registered address</i>, in relation to a member of an <i>incorporated friendly society</i>, has the meaning given in paragraph 14(6) of Schedule 3 to the <i>1992 Act</i>;</p>
<p><i>registered branch</i> means a branch of a <i>registered friendly society</i> which is separately registered within the meaning of the <i>1974 Act</i>;</p>
<p><i>registered friendly society</i> means a <i>friendly society</i> registered within the meaning of the <i>1974 Act</i> by virtue of section 7(1)(a) of that Act or any <i>enactment</i> which it replaced, and includes any <i>registered branches</i> of the <i>friendly society</i>;</p>

regulated institution means any of the following –

- (a) an *EEA insurer* or *UK insurer*;
- (b) an *approved credit institution*;
- (c) a *friendly society* which is authorised to carry on *insurance business*; and
- (d) an *approved investment firm*;

regulated market means a market which is characterised by –

- (a) regular operation;
- (b) the fact that regulations issued or approved by the appropriate authority of the state where the market is situated –
 - (i) define the conditions for the operation of and access to the market,
 - (ii) define the conditions to be satisfied by a financial instrument in order for it to be effectively dealt in on the market, and
 - (iii) require compliance with reporting and transparency requirements comparable to those laid down in articles 20 and 21 of the Council Directive 93/22/EEC of 10 May 1993 on investment Services in the securities field; and
- (c) in the case of a market situated outside the *EEA States*, the fact that the financial instruments dealt in are of a quality comparable to those in a *regulated market* in the United Kingdom;

reinsurance business means the effecting and carrying out of contracts of reinsurance;

related undertaking means an undertaking in which a *participation* is held by another undertaking or which is a *subsidiary undertaking*;

relevant capital sum means –

- (a) for whole life assurances, the sum assured;
- (b) for policies where a sum is payable on maturity (including policies where a sum is also payable on earlier death), the sum payable on maturity;
- (c) for deferred annuities, the capitalised value of the annuity at the vesting date (or the cash option if it is greater);
- (d) for capital redemption contracts, the sums payable at the end of the contract period; and
- (e) for *linked long-term contracts*, notwithstanding (a) to (d), the lesser of:
 - (i) the amount for the time being payable on death, and
 - (ii) the aggregate of the value for the time being of the units allocated to the contract (or, where entitlement is not denoted by means of units, the value for the time being of any other measure of entitlement under the contract equivalent to units) and the total amount of the *premiums* remaining to be paid during such part of the term of the contract as is appropriate for *zillmerising*, or, if such *premiums* are payable beyond the age of seventy five, until that age, excluding in all cases any vested reversionary bonus and any capital sums for temporary assurances;

relevant date means, in relation to the valuation of any asset for any purpose for which the *asset valuation rules* apply, the date when the asset falls to be valued for that purpose;

required margin of solvency has the meaning given in rule 4.1;

required minimum margin means the greater of the appropriate *required margin of solvency* and the amount of the appropriate *minimum guarantee fund*;

second non-life Directive means Council Directive 88/357/EEC of 22 June 1988 on the co-ordination of laws, regulations and administrative provisions relating to direct insurance other than life assurance and laying down provisions to facilitate the effective exercise of freedom to provide services and amending Directive 73/239/EEC;

second life Directive means Council Directive 90/619/EEC of 8 November 1990 on the co-ordination of laws, regulations and administrative provisions relating to direct life assurance, laying down provisions to facilitate the effective exercise of freedom to provide services and amending Directive 79/267/EEC;

<i>securities</i> includes <i>shares</i> , <i>debt securities</i> , Treasury Bills, Tax Reserve Certificates and Certificates of Tax Deposit;
<i>settlement date</i> means any date on which the fulfilment of an obligation under a <i>derivative contract</i> is or may be required;
<i>share</i> has the meaning given in Part VII of the Companies Act or Part VIII of the Companies (Northern Ireland) Order 1986;
<i>short term deposit</i> means a sum of money which may be withdrawn at the discretion of the lender without penalty or loss of accrued interest by giving notice of withdrawal of one month or less;
<i>son</i> includes stepson;
<i>subsidiary</i> is construed in accordance with section 13 of the <i>1992 Act</i> ;
<i>subsidiary undertaking</i> is construed in accordance with section 258 of the Companies Act and Article 266 of the Companies (Northern Ireland) Order 1986;
<i>SUP</i> means the Supervision Manual;
<i>surplus assets</i> has the meaning given in rule 3(3);
<i>taxes included in premiums</i> has the same meaning as the words "taxes pertaining to the <i>premiums</i> " in the third indent of the first sub-paragraph of article 16(3) of the <i>first non-life Directive</i> ;
<i>third non-life Directive</i> means Council Directive 92/49/EEC of 18 June 1992 on the co-ordination of laws, regulations and administrative provisions relating to direct insurance other than life assurance and amending Directives 73/239/EEC and 88/357/EEC;
<i>third life Directive</i> means Council Directive 92/96/EEC of 10 November 1992 on the co-ordination of laws, regulations and administrative provisions relating to direct life assurance and amending Directives 79/267/EEC and 90/619/EEC;
<i>UCITS Directive</i> means Council Directive 85/611/EEC of 20 December 1985 on the co-ordination of laws, regulations and administrative provisions relating to undertakings for collective investments in transferable securities;
<i>UK insurer</i> has the meaning given in <i>IPRU(INS)</i> ;
<i>valuation date</i> , in relation to an actuarial investigation, means the date to which the investigation relates;
<i>variation margin</i> means –
(a) in respect of a <i>derivative contract</i> , or a contract having the effect of a

<p><i>derivative contract</i>, assets (other than assets transferred by way of <i>initial margin</i>) which, at the <i>relevant date</i>, have been transferred by, to, or for the benefit of, the <i>friendly society</i> in pursuance of a condition in that contract or a related contract; and</p> <p>(b) in respect of an asset having the effect of a <i>derivative contract</i>, assets which, at the <i>relevant date</i>, have been transferred by, to, or for the benefit of, the <i>friendly society</i> in pursuance of a contractual right conferred, or obligation imposed, by the holding of the asset having the effect of a <i>derivative contract</i>;</p>
<p><i>warrant</i> means an instrument which falls within article 79 of the Financial Services and Markets Act (Regulated Activities) Order 2001 (SI 2001, No 544);</p>
<p><i>weighted average of the yield</i> has the meaning given in 19(5)(d) of Appendix 9;</p>
<p><i>with-profits fund</i> for the purposes of Chapter 5 and Appendices 6 to 10 means:</p> <p>(a) a <i>long-term insurance fund</i> (or that part of such a fund) in which <i>policyholders</i> are eligible to participate in any <i>established surplus</i>; and</p> <p>(b) where it is a <i>friendly society's</i> usual practice to restrict <i>policy-holders'</i> participation in any <i>established surplus</i> to that arising from only a part of the fund (or part fund) falling within (a), that part (or that part of the part fund);</p>
<p><i>with-profits policy</i> means a contract falling within a <i>class</i> of long-term insurance which is eligible to participate in any part of any <i>established surplus</i>, and non-profit policy must be construed accordingly;</p>
<p><i>working day</i> means any day other than Saturday, Sunday, Good Friday, Christmas Day and any day which is a bank holiday in any part of the United Kingdom under section 1 of the Banking and Financial Dealings Act 1971;</p>
<p><i>zillmerising</i> means the method known by that name for modifying the net <i>premium</i> reserve method of valuing a long-term policy by increasing the part of the future <i>premiums</i> for which credit is taken so as to allow for initial expenses.</p>

PART II – General Provisions

- 7.2 A word which is printed in italics is used in the defined sense.
- 7.3 Unless the context otherwise requires, a word or phrase which is defined in a related enactment bears the same meaning as in that enactment.
- 7.4 Unless the context requires, a word which is related to a defined word is construed by reference to the defined word.
- 7.5 In *IPRU(FSOC)*, the cross referencing within Forms follows the sequence “Form.Line.Column”.

Subsidiary and ancillary provisions

- 7.6 For the purposes of *IPRU(FSOC)*:
- (a) a *contract of insurance* is to be treated as falling within a *class* of *long-term insurance business* notwithstanding the fact that it contains supplementary provisions falling within *class* 1 (accident) or *class* 2 (sickness) if:
 - (i) its principal object is that of a contract falling within a *class* of *long-term insurance business*, and
 - (ii) it is effected or carried out by a *friendly society* which has permission to effect or carry out contracts falling within *class* I (life and annuity); and
 - (b) a *contract of insurance* whose principal risk falls within any of *classes* 1, 2 or 16 is to be treated as falling within that *class* and no other, notwithstanding the fact that it also covers *ancillary risks*.

PART III

CLASSES OF LONG-TERM INSURANCE BUSINESS

Number	Description	Nature of business
I	Life and annuity	Effecting or carrying out <i>contracts of insurance</i> on human life or contracts to pay <i>annuities on human life</i> , but excluding (in each case) contracts within <i>class III</i> .
II	Marriage and birth	Effecting or carrying out <i>contracts of insurance</i> to provide a sum on marriage or on the birth of a child, being contracts expressed to be in effect for a period of more than one year.
III	Linked long term	Effecting or carrying out <i>contracts of insurance</i> on human life or contracts to pay <i>annuities on human life</i> where the benefits are wholly or partly to be determined by reference to the value of, or the income from, property of any description (whether or not specified in the contracts) or by reference to fluctuations in, or in an index of, the value of property of any description (whether or not so specified).
IV	Permanent health	Effecting or carrying out <i>contracts of insurance</i> providing specified benefits against risks of persons becoming incapacitated in consequence of sustaining injury as a result of an accident or of an accident of a specified class or of sickness or infirmity, being contracts that - (a) are expressed to be in effect for a period of not less than five years, or until the normal retirement age for the persons concerned, or without limit of time; and (b) either are not expressed to be terminable by the <i>friendly society</i> , or are expressed to be so terminable only in special circumstances mentioned in the contract.
V	Tontines	Effecting or carrying out tontines.
VI	Capital redemption	Effecting or carrying out capital redemption contracts.

VII	Pension fund management	Effecting or carrying out- (a) <i>pension fund management contracts</i> ; or (b) contracts of the kind mentioned in (a) that are combined with <i>contracts of insurance</i> covering either conservation of capital or payment of a minimum interest.
-----	-------------------------	--

CLASSES OF GENERAL INSURANCE BUSINESS

Number	Description	Nature of business
1	Accident	<p>Effecting or carrying out <i>contracts of insurance</i> providing fixed pecuniary benefits or benefits in the nature of indemnity (or a combination of both) against risks of the person insured or, in the case of a contract made by virtue of section 140, 140A or 140B of the Local Government Act 1972, a person for whose benefit the contract is made -</p> <ul style="list-style-type: none"> (a) sustaining injury as the result of an accident or of an accident of a specified class, or (b) dying as the result of an accident or of an accident of a specified class, or (c) becoming incapacitated in consequence of disease or of disease of a specified class, <p>inclusive of contracts relating to industrial injury and occupational disease but exclusive of contracts falling within <i>class 2</i> or within <i>class IV</i>.</p>
2	Sickness	<p>Effecting or carrying out <i>contracts of insurance</i> providing fixed pecuniary benefits or benefits in the nature of indemnity (or a combination of the two) against risks of loss to the persons insured attributable to sickness or infirmity, but exclusive of contracts falling within <i>class IV</i>.</p>
16	Miscellaneous financial loss	<p>Effecting or carrying out <i>contracts of insurance</i> against any of the following risks, namely –</p> <ul style="list-style-type: none"> (a) risks of loss to the persons insured attributable to them being unemployed; (b) risks of loss to the persons insured attributable to them being in distressed circumstances; or (c) risks of loss to the persons insured attributable to sickness or infirmity, <p>but not including of contracts falling within <i>class 2</i> or <i>class IV</i>.</p>

Chapter 8

TRANSITIONAL PROVISIONS

Guidance:

GEN (the part of the *FSA Handbook* in High Level Standards which has the title General Provisions) contains some technical transitional provisions that apply throughout the Handbook and which are designed to ensure a smooth transition at commencement of the *Act*. These include transitional provisions relevant to record keeping and notification rules.

SUP contains transitional provisions which carry forward written concessions relating to pre-commencement provisions.

Appendix 1

LONG-TERM INSURANCE BUSINESS MARGIN OF SOLVENCY

Long-term classes I and II

1. (1) For *long-term insurance business* of class I or II the margin of solvency must be determined by taking the aggregate of the results arrived at by applying the calculation described in (2) ("the first calculation") and the calculation described in (3), (4) and (5) ("the second calculation").
 - (2) For the first calculation-
 - (a) a sum equal to 4% of the *mathematical reserves* for direct insurance business and reinsurance acceptances without any deduction for reinsurance cessions must be taken;
 - (b) the amount of the *mathematical reserves* at the end of the last preceding *financial year* after the deduction of reinsurance cessions must be expressed as a percentage of the amount of those *mathematical reserves* before any such deduction; and
 - (c) the sum mentioned in (a) must be multiplied-
 - (i) where the percentage arrived at under (b) is greater than 85% by that greater percentage, and
 - (ii) in any other case, by 85%.
 - (3) For the second calculation-
 - (a) subject to (4) and (5), a sum equal to 0.3% of the capital at risk for contracts on which the capital at risk is not a negative figure must be taken;
 - (b) the amount of the capital at risk at the end of the last preceding *financial year* for contracts on which the capital at risk is not a negative figure, after the deduction of reinsurance cessions, must be expressed as a percentage of the amount of that capital at risk before any such deduction; and
 - (c) the sum arrived at under (a) must be multiplied-
 - (i) where the percentage arrived at under (b) is greater than 50% by that greater percentage, and
 - (ii) in any other case, by 50%.

- (4) Where a contract provides for benefits payable only on death within a specified period and is valid for a period of not more than three years from the date when the contract was first made, the percentage to be taken for the purposes of (3)(a) must be 0.1%; and where the period of validity from that date is more than three years but not more than five years, the percentage to be so taken must be 0.15%.
- (5) For the purposes of (4), the period of validity of the contract evidencing a group policy is the period from the date when the *premium* rates under the contract were last reviewed for which the *premium* rates are guaranteed.
- (6) For the purposes of the second calculation, the capital at risk is-
- (a) in any case in which an amount is payable in consequence of death other than a case falling within (b), the amount payable on death; and
- (b) in any case in which the benefit under the contract in question consists of the making, in consequence of death, of the payment of an annuity, payment of a sum by instalments or any other kind of periodic payments, the present value of that benefit,
- less in either case the *mathematical reserves* in respect of the relevant contracts.
- (7) When the amount of the *mathematical reserves* referred to in (2)(a), or the amount of the capital at risk referred to in (3)(a), is to be calculated for the purposes of determining the margin of solvency, the day as on which that amount is calculated must be the same as that on which the margin of solvency is determined; and the *mathematical reserves* referred to in (6) must also be calculated as on that day when the capital at risk in question is that referred to in (3)(a), but must be calculated as at the end of the last preceding *financial year* when the capital at risk in question is that referred to in (3)(b).

Long-term classes III and VII

2. (1) For *long-term insurance business* of class III or VII the margin of solvency must be determined in accordance with (2) to (5).
- (2) In so far as a *friendly society* bears an investment risk, the first calculation must be applied.
- (3) In so far as-
- (a) a *friendly society* bears no investment risk;
- (b) the total expired and unexpired term of the relevant contract exceeds five years; and

- (c) the allocation to cover *management expenses* in the relevant contract has a fixed upper limit which is effective as a limit for a period exceeding five years,

the first calculation must be applied, but as if 1(2)(a) contained a reference to 1% instead of 4%.

- (4) If neither (2) nor (3) applies, then, subject to (5), the *required margin of solvency* is zero.
- (5) Where a *friendly society* covers a death risk, a sum arrived at by applying the second calculation (disregarding 1(4) and (5)) must be added to the margin of solvency, including a *required margin of solvency* of zero, arrived at under (2), (3) or (4).

Long-term classes IV and VI

- 3. For *long-term insurance business* of class IV or VI the margin of solvency must be determined by applying the first calculation.

Long-term class V

- 4. For *long-term insurance business* of class V the margin of solvency must be 1% of the assets of the relevant tontine.

Appendix 2

GENERAL INSURANCE BUSINESS SOLVENCY MARGIN

Part I: the Premiums Basis

1. The *gross premiums receivable* in respect of the *friendly society's* entire *general insurance business* for the last preceding *financial year* must be aggregated.
2. From the aggregate arrived at under 1 there must be deducted-
 - (a) any taxes included in the *premiums* mentioned in 1; and
 - (b) any levies that are related to *premiums* and are recorded in the *friendly society's* books as payable in the last preceding *financial year* in respect of *general insurance business*.
3. The amount arrived at under 2 must be multiplied by twelve and divided by the number of months in the *financial year*.
4. If the amount arrived at under 3 is more than 10 million Euro, it must be divided into two portions, the former consisting of 10 million Euro and the latter comprising the excess.
5. Where there has been a division into two portions pursuant to 4, there must be calculated and added together 18% and 16% of the two portions respectively; and where there has been no such division, there must be calculated 18% of the amount arrived at under 3.
6. In the case of *general insurance business* consisting of health insurance based on actuarial principles, 5 applies with the substitution of "6%" for "18%" and "5 1/3% " for "16%", but only if all the necessary conditions are satisfied.
7. For the purposes of 6, the necessary conditions are as follows-
 - (a) the *gross premiums receivable* are calculated on the basis of sickness tables appropriate to *insurance business*;
 - (b) the reserves include provision for increasing age;
 - (c) an additional *premium* is collected in order to set up a safety margin of an appropriate amount;
 - (d) it is not possible for the *friendly society* to cancel the contract after the end of the third year of insurance; and
 - (e) the contract must provide for the possibility of increasing *premiums* or reducing payments during its currency.

8. Where 6 applies to a *friendly society* whose *general insurance business* consists partly of health insurance based on actuarial principles and partly of other business, the procedure provided in 1 to 6 must operate separately for each part of the *general insurance business*, so as to produce a sum under 6 for the health insurance and a sum under 5 for the other business.
9. (1) If the provision for *claims* outstanding at the end of the last preceding *financial year* exceeds the provision for *claims* outstanding at the beginning of that year, the amount of the excess must be added to the amount of *claims* paid in the last preceding *financial year*.
- (2) If the provision for *claims* outstanding at the beginning of the last preceding *financial year* exceeds the provision for *claims* outstanding at the end of that year, the amount of the excess must be deducted from the amount of *claims* paid in the last preceding *financial year*.
10. (1) For the purposes of 9, the “amount of *claims* paid”, in relation to a *friendly society* and a *financial year*, is the amount that is recorded in the *friendly society's* books at the end of the *financial year* as paid by it (whether or not payment has been effected in that year) in full or partial settlement of-
- (a) the *claims* described in (2); and
- (b) the expenses described in (3),
- less any *recoverable* amounts within the meaning of (4).
- (2) The *claims* mentioned in (1) are *claims* including *claims* relating to business accounted for over a longer period than a *financial year*.
- (3) The expenses mentioned in (1) are expenses (such as, for example, legal or medical costs) which are incurred by the *friendly society*, whether through the employment of its own staff or otherwise, and are directly attributable to the settlement of individual *claims*, whether or not the individual *claims* in question are those mentioned in (1).
- (4) *Recoverable* amounts for the purposes of (1) are amounts *recoverable* by the *friendly society* in respect of the *claims* mentioned in (1) or other *claims*, including amounts *recoverable* from third parties and amounts *recoverable* from other *insurance undertakings* but excluding amounts *recoverable* in respect of reinsurance ceded by the *friendly society*.
11. (1) For the purposes of 9, the “provisions for *claims* outstanding”, in relation to a *friendly society* and a *financial year*, is the amount set aside by the *friendly society* as at the beginning or end of the *financial year* as being an amount likely to be sufficient to meet-
- (a) the *claims* described in (2); and
- (b) the expenses described in (3),
- less any *recoverable* amounts within the meaning of (4).

- (2) The *claims* mentioned in (1) are *claims* in respect of incidents occurring-
- (a) in the case of an amount set aside as at the beginning of the *financial year*, before the beginning of that year; and
 - (b) in the case of an amount set aside as at the end of a *financial year*, before the end of that year,

being *claims* which have not been treated as *claims* paid and including *claims* relating to business accounted for over a longer period than a *financial year*, *claims* the amounts of which have not been determined and *claims* arising out of incidents that have not been notified to the *friendly society*.

- (3) The expenses mentioned in (1) are expenses (such as, for example, legal or medical costs) which are likely to be incurred by the *friendly society*, whether through the employment of its own staff or otherwise and are directly attributable to the settlement of individual *claims*, whether or not the individual *claims* in question are those mentioned in (1).
 - (4) ‘Recoverable amounts’ for the purposes of (1) are amounts estimated by the *friendly society* to be *recoverable* by it in respect of the *claims* mentioned in (1), including amounts *recoverable* from third parties and amounts *recoverable* from other *insurance undertakings* but excluding amounts *recoverable* in respect of reinsurance ceded by the *friendly society*.
12. From the amount determined under 9(1) or (2) there must be deducted the total sum *recoverable* in respect of that amount under reinsurance contracts ceded.
13. The amount determined under 12 must be expressed as a percentage of the amount determined under 9(1) or (2).
14. The sum arrived at under 5 or 6 or the aggregate of the sums arrived at under 5 and 6, as the case may be, must be multiplied-
- (a) where the percentage arrived at under 13 is greater than 50% but not greater than 100%, by the percentage so arrived at;
 - (b) where the percentage so arrived at is greater than 100%, by 100%; and
 - (c) in any other case, by 50%.

Part II: the Claims Basis

15. If a *friendly society* has not been in existence long enough to acquire a *reference period*, this Part II does not apply to the *friendly society*, and Part I must be applied.
16.
 - (1) If the provision for *claims* outstanding at the end of the *reference period* exceeds the provision for *claims* outstanding at the beginning of the *reference period*, the amount of the excess must be added to the *amount of claims* paid in the *reference period*.
 - (2) If the provision for *claims* outstanding at the beginning of the *reference period* exceeds the provision for *claims* outstanding at the end of the *reference period*, the amount of the excess must be deducted from the amount of *claims* paid in the *reference period*.
 - (3) For the purposes of this paragraph, the expressions "amount of *claims* paid" and provision for *claims* outstanding have, in relation to a *reference period*, the same meaning as they have in 9 in relation to a *financial year*.
17. The aggregate obtained under 16(1) or (2) must be divided by the number of months in the *reference period* and multiplied by twelve.
18. If the amount arrived at under 17 is more than 7 million Euro, it must be divided into two portions, the former consisting of 7 million Euro and the latter comprising the excess.
19. Where there has been a division into two portions pursuant to 18, there must be calculated and added together 26% and 23% of the two portions respectively; and where there has been no such division, there must be calculated 26% of the amount arrived at under 17.
20. In the case of *general insurance business* consisting of health insurance based on actuarial principles, 19 applies with the substitution of "8 2/3 %" for "26%" and "7 2/3 %" for "23%", but only if all the necessary conditions are satisfied.
21. The necessary conditions for the purposes of 20 are the same as those set out in 7.
22. In a case of the kind mentioned in 8, that paragraph applies (with the necessary modifications) so as to produce separate sums under 19 and 20.
23. The sum arrived at under 19 or 20 or the aggregate of the sums arrived at under 19 and 20, as the case may be, must be multiplied by the same percentage as is applicable for the purposes of 14.

Appendix 3

PERMITTED LINKS

Part I - Descriptions of property by reference to which benefits may be determined

1. Listed securities which are *readily realisable*, not being securities which are:
 - (a) *approved securities*;
 - (b) loans or deposits of the kinds mentioned in 4 or 7;
 - (c) units or other beneficial interests in a *collective investment fund*; or
 - (d) *derivative contracts*.

2. Unlisted securities which are *readily realisable*, not being securities which are:
 - (a) *approved securities*;
 - (b) loans or deposits of the kinds mentioned in 4 or 7;
 - (c) units or other beneficial interests in a *collective investment fund*; or
 - (d) *derivative contracts*.

3. Land (including any interest in land) in an *EEA State*, Australia, Canada, the Channel Islands, Gibraltar, Hong Kong, the Isle of Man, New Zealand, the Republic of South Africa, Singapore or the United States of America.

4. Loans-
 - (a) which are fully secured by mortgage (or in Scotland, by standard security) or charge on land (or any interest in land) which-
 - (i) is situated in any of the countries specified in 3, and
 - (ii) in the case of a loan made to a person other than a body corporate, is not used wholly or mainly for domestic purposes, and
 - (b) in relation to which the rate of interest and the due dates for the payment of interest and the repayment of principal can be fully ascertained from the terms of any agreement relating to the loan.

5. Units or other beneficial interests in-
 - (a) a scheme falling within the *UCITS Directive*;
 - (b) a *collective investment fund* which satisfies the following conditions-
 - (i) the property of the fund comprises property of any of the descriptions in 1 to 10;

- (ii) the units are *readily realisable* at a price which represents the net value per unit of the assets and liabilities of the fund; and
 - (iii) the price at which the units may be bought and sold is published regularly.
6. *Approved securities.*
 7. Loans to or deposits with an *approved credit institution*, an *approved financial institution* or an *approved investment firm*.
 8. Income due, or to become due, in respect of property of any of the descriptions specified in the foregoing of this Appendix.
 9. *Permitted derivative contracts.*
 10. Cash.
 11. Units, by whatever name called, in a real or notional fund (not being a scheme or undertaking of a kind mentioned in 5) which is limited to the descriptions of property mentioned above, not being property falling within (a) to (d) of 12, and which under the contract is to be managed either-
 - (a) wholly by the *friendly society*; or
 - (b) wholly or to any extent by another person being a person for whose acts and omissions in managing the fund the *friendly society* assumes responsibility towards the policyholder as if they were the acts or omissions of the *friendly society*, and otherwise (if at all) by the *friendly society*.

Part II - Restrictions on determination of benefits by reference to property described in Part I

12. Benefits payable under any contract to which rule 4.21 applies must not be determined by reference to-
 - (a) property of any of the descriptions specified in 2, 5(b) or 7 if the value of such property is determined, either wholly or partly, by reference to the value of, the income from, fluctuations in the value of or fluctuations in the income from, property other than property of the descriptions in Part I;
 - (b) property of the description specified in 2 in excess of 10% of the aggregate *property linked benefits* under the contract;
 - (c) property of the description specified in 5(b) which in aggregate value exceeds 10% of the *property linked benefits*, unless the contract under which the benefits are payable has been marketed in accordance with

any legal restrictions which apply to the marketing of the corresponding *collective investment fund*; or

- (d) property of any of the descriptions specified in Part I which has the effect of a *derivative contract* other than a *permitted derivative contract*.

Appendix 4

ASSET VALUATION RULES

Interpretation

1. (1) [deleted]
- (2) For the purposes of this Appendix and Appendix 6, a *debt* owed to (or an obligation to be fulfilled for the benefit of) a *friendly society* must be regarded as being secured only to the extent that it is-
 - (a) secured by-
 - (i) a letter of credit established with an *approved credit institution*;
or
 - (ii) a guarantee provided by an *approved credit institution*,

and the sum of the aggregate amount available under all letters of credit established for the benefit of the *friendly society* with the same *counterparty*, the aggregate amount of all guarantees issued for the benefit of the *friendly society* by that *counterparty* and the amount of any *exposure* of the *friendly society* to that *counterparty* does not exceed the *permitted counterparty exposure limit* for that *counterparty*;
or
 - (b) secured by assets for the valuation of which provision is made in this Appendix and-
 - (i) the value of such assets (after deducting reasonable expenses of sale and the amount of any other *debt* or obligation secured thereon having priority to or ranking equally with the *debt* or obligation) is sufficient to enable the *debt* or obligation to be discharged in full;
 - (ii) the value of the assets when aggregated with the *friendly society's exposure* to assets of the same description does not exceed the *permitted asset exposure limit* for assets of that description (as set out in Part II of Annex B); and
 - (iii) where the assets give rise to *exposure* to a *counterparty*, the *exposure* of the *friendly society* to that *counterparty*, when added to the sum of the aggregate amount available under all letters of credit established for the benefit of the *friendly society* with that *counterparty*, and the aggregate amount of all guarantees issued for the benefit of the *friendly society* by that *counterparty*, does not exceed the *permitted counterparty exposure limit* for that *counterparty*.

- (3) For the purposes of (2) -
- (a) the aggregate amount available under letters of credit established with a *counterparty* must be taken not to exceed the sum of the aggregate amount of all *debts* and the aggregate value of all obligations in respect of which those letters of credit were established;
 - (b) the aggregate amount of guarantees issued by a *counterparty* must be taken not to exceed the sum of the aggregate amount of all *debts* and the aggregate value of all obligations so guaranteed; and
 - (c) assets which are securing any other *debt* owed to (or obligation to be fulfilled for the benefit of) the *friendly society* must be treated as if they were assets of the *friendly society*.

Application

2. (1) This Appendix (the ‘asset valuation rules’) applies with respect to the determination of the value of assets of a *friendly society* for the purposes of chapters 4 and 5.
- (2) Where a *friendly society* has entered into any contracts for the payment of *property linked benefits*, 3 to 15 do not apply with respect to the determination of the value of the *linked assets* to the extent that they are held in compliance with the requirements of rule 4.12(2) and (3) to match liabilities in respect of such benefits under such contracts and the value of such assets must be determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate for *insurance business*.
- (3) Any asset to which 2 to 15 apply (other than cash) for the valuation of which no provision is made in those paragraphs must be left out of account for the purposes specified in (1).
- (4) Where in all the circumstances of the case it appears that any asset is of a lesser value than the amount calculated in accordance with the *asset valuation rules*, such lesser value must be the value of the asset.
- (5) For the purposes of (4), in determining whether it appears that an asset is of a lesser value than the amount calculated in accordance with the *asset valuation rules*, regard must be had to the underlying security and in, the case of bonds, *debt securities* and other money and capital market instruments, the credit rating of the *issuer*, including whether the *issuer* belongs to Zone A as defined in the Council Directive 89/647/EEC of 18 December 1989 on a solvency ratio for credit institutions and, where the *issuer* is an international organisation, whether it includes at least one *EEA State* among its members.
- (6) Notwithstanding (1) (but subject to the conditions set out in (7)) and in relation to an actuarial investigation of its *long-term insurance business* only, a

friendly society may elect to assign to any of its assets the value given to the asset in question in the books or other records of the *friendly society*.

- (7) The conditions referred to in (6) are-
- (a) that the election must not enable the *friendly society* to bring into account any asset for the valuation of which no provision is made in this Appendix;
 - (b) that the value assigned to the aggregate of the assets must not be higher than the aggregate of the value of those assets as determined in accordance with the *asset valuation rules*.
- (8) Where a *friendly society* has entered into a contract for the conversion of currency which satisfies the conditions set out in (9), then for any of the purposes for which the *asset valuation rules* apply, the *friendly society* must treat the conversion as having been made on the *relevant date*.
- (9) The conditions referred to in (8) are that-
- (a) either-
 - (i) the contract provides for the conversion into another currency of an amount representing the sale of an asset which has, on the *relevant date*, been sold but not delivered, or
 - (ii) the contract provides for the purchase of currency for the purpose of settling the purchase of an asset which has, on the *relevant date*, been purchased but not delivered;
 - (b) the conversion is to take place during a period which is-
 - (i) where the contract is in connection with the delivery of a *listed security*, a period commencing on the date of the contract and extending for the usual period of settlement as laid down by the rules of the relevant stock exchange or *regulated market*; or
 - (ii) where the contract is in connection with the delivery of any other asset, a period commencing on the date of the contract and extending for twenty *working days* thereafter; and
 - (c) the contract is *listed* or has been entered into with an *approved counterparty*.

Shares in a related undertaking

3. (1) Where any *shares* are held by a *friendly society* in a *related undertaking*, which is an *insurance undertaking* or *insurance holding company*:

- (a) the value of the *shares* must not exceed the value, determined in accordance with rule 4.2 of *IPRU(INS)* of the *related undertaking's* surplus assets (as defined in *IPRU(INS)*);
 - (b) the *friendly society* must make provision in respect of the *related undertaking* in accordance with rule 5.3A of *IPRU(INS)*.
- (2) Where any *shares* are held by a *friendly society* in a *related undertaking* which is not an *insurance undertaking* or *insurance holding company*, the value of the *shares* must not exceed the greater of:
- (a) the value, determined in accordance with this Appendix (other than 15(1)(a) to (c)) of the *related undertaking's surplus assets*; and
 - (b) the value of those *shares* as determined under rule 9.
- (3) The *surplus assets* of a *related undertaking* (other than an *insurance undertaking* or an *insurance holding company*) are its total assets excluding:
- (a) the assets that are selected to cover liabilities;
 - (b) assets that are interests directly or indirectly held in the *related undertaking's* own capital;
 - (c) amounts due, or to become due, in respect of *share* capital, or other contributions from members of the *related undertaking*, subscribed or called for but not fully paid up; and
 - (d) assets that cannot effectively be made available or realised to meet losses (if any) arising in the *friendly society*, including assets that represent capital not owned, directly or indirectly, by the *friendly society*.
- (4) The assets selected in (3)(a) to be excluded from the total assets:
- (a) must be of a value at least equal to the amount of the liabilities of the *related undertaking*, determining that value and that amount in accordance with this Appendix (other than 15(1)(a) to (c)) and Appendix 5; and
 - (b) must not include:
 - (i) assets falling within (3)(b), or
 - (ii) assets falling within (3)(c) where the amount is due, or to become due, from a *related undertaking*.

Debts due or to become due from a related undertaking

4. The value of any *debt* due, or to become due, from a *related undertaking* must not exceed the amount reasonably expected to be recovered in respect of the *debt* taking into account only the value of:

- (a) the assets identified in 3(3)(a); and
- (b) any *security* held in respect of the *debt*.

Assets sold to or purchased from an approved credit institution or an approved investment firm subject to an agreement for resale or repurchase

5. (1) Where a *friendly society* has sold *securities* to or purchased *securities* from an *approved credit institution* or an *approved investment firm* and such sale or purchase was made subject to an agreement that the *approved credit institution* or *approved investment firm* would, either on demand by the *friendly society* or within six months of such sale or purchase, subsequently sell to or purchase from the *friendly society* equivalent *securities*, then if at the *relevant date* such subsequent sale or purchase has not taken place and the conditions specified in (2) and either (3) or (4) (as appropriate) are satisfied, the *friendly society*-

- (a) must value-
 - (i) *securities* sold by it under such agreement as if such *securities* had been retained by it, and
 - (ii) assets provided by it as consideration for the purchase of *securities* under such agreement as if such consideration had not been provided by it; and
- (b) must not ascribe a value to-
 - (i) any consideration received for the sale of *securities* under such agreement (or any assets purchased by it with such consideration) up to the limit of the value of the *securities* sold, or
 - (ii) any *securities* purchased by it under such agreement (or any assets purchased with the proceeds of the sale of any such *securities*) up to the limit of the consideration (valued in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate to *friendly societies*) provided by it.

(2) The condition specified in this paragraph is that, where at any time after the sale or purchase of *securities* by the *friendly society* under an agreement described in (1) either-

- (a) the amount of the consideration received by the *friendly society* for the sale of the *securities* fell below the value of the *securities* sold by it; or

- (b) the value of the *securities* purchased by the *friendly society* fell below the value of the consideration provided by it,

by more than 2.5% of the value of the *securities* sold or purchased (as the case may be), the *friendly society* demanded additional consideration whose amount was equal to the shortfall and such demand was complied with before the end of the *working day* next following the day on which such shortfall occurred.

- (3) The conditions specified in this paragraph are that, if the *friendly society* purchases *securities* from an *approved credit institution* or an *approved investment firm* and the consideration provided by the *friendly society* is other than by way of sale of *securities*-

- (a) the *securities* purchased are-

- (i) *approved securities*,
- (ii) *listed securities*, or
- (iii) *securities* issued by an *approved credit institution*; and

- (b) the *securities* purchased do not include-

- (i) *securities* (other than *approved securities*) issued by the same *counterparty* whose aggregate value amounts to more than 15% of the value of the *securities* purchased, or
- (ii) if the condition in (b)(i) is not satisfied, *securities* whose value when aggregated with the *friendly society's* existing *exposure* to assets of the same description or to the same *counterparty* would exceed the appropriate *permitted asset exposure limit* or *permitted counterparty exposure limit* as determined in accordance with 15 and Annex B.

- (4) The conditions specified in this paragraph are that, if the *friendly society* sells *securities* to an *approved credit institution* or an *approved investment firm*,-

- (a) the consideration provided by the *approved credit institution* or *approved investment firm* is-

- (i) cash,
- (ii) *approved securities*,
- (iii) *listed securities*,
- (iv) *securities* issued by an *approved credit institution*,
- (v) a charge over assets set out in (i) to (iv),
- (vi) a letter of credit established with an *approved credit institution*, or
- (vii) a guarantee provided by an *approved credit institution*; and

- (b) the consideration does not include-
 - (i) except to the extent that the condition in (b)(ii) is satisfied, consideration whose amount when aggregated with the *friendly society's* existing *exposure* to assets of the appropriate description or to the relevant *counterparty* would exceed the appropriate *permitted asset exposure limit* or *permitted counterparty exposure limit* as determined in accordance with 15 and Annex B, or
 - (ii) consideration of more than 15% of the aggregate amount of which takes the form of *securities* (other than *approved securities*) issued by, letters of credit established with, guarantees provided by, cash deposited with, a charge over cash deposited with or a charge over *securities* issued by, the same *counterparty*; and
 - (c) the consideration to be provided by the *friendly society* for the subsequent purchase of *equivalent securities* is-
 - (i) where the consideration for the original purchase by the *approved credit institution* or *approved investment firm* was (wholly or in part) cash, cash denominated in the same currency, and
 - (ii) where the consideration was (wholly or in part) *securities*, *securities* equivalent to the *securities* provided by way of consideration.
- (5) For the purposes of this paragraph, where the *friendly society* has received consideration in respect of a sale of the kind described in (1), in addition to any other *exposure* to assets or to a *counterparty*-
- (a) if such consideration takes the form of a letter of credit established with, or a guarantee provided by, an *approved credit institution*, it must be considered to give rise to *exposure* to that institution by the amount of the consideration;
 - (b) if such consideration takes the form of a charge over *securities*, it must be considered to give rise to *exposure* to *securities* of the same description and to the *issuer* of those *securities* by the amount of the consideration; and
 - (c) if such consideration takes the form of cash deposited with another party for the benefit of the *friendly society*, or a charge over cash deposited with another party, it must be considered to give rise to *exposure* to that party by the amount of the consideration.
- (6) For the purposes of this paragraph, the amount of any consideration must be-

- (a) where the consideration is a letter of credit established with an *approved credit institution*, the lower of the amount made available under the letter of credit and the value of the assets sold;
 - (b) where the consideration is a guarantee provided by an *approved credit institution*, the lower of the amount of the guarantee and the value of the assets sold;
 - (c) where the consideration takes the form of assets of any of the types mentioned in (4)(a)(i) to (iv), or a charge over such assets, the value of the assets as determined in accordance with the *asset valuation rules*; and
 - (d) where the consideration takes the form of a Talisman short term certificate, the value of the *securities* represented by that certificate.
- (7) Where a *friendly society* has entered into a number of agreements described in (1), for the purposes of (3) and (4) of this paragraph-
- (a) any or all agreements under which the subsequent sale or purchase has not taken place at the *relevant date* may be treated as one agreement; and
 - (b) in such case, the 15% limits referred to in (3)(b)(i) and (4)(b)(ii) must be calculated by reference to the aggregate of the value of the *securities* purchased under (3) and the amount of any consideration under (4).

Debts and other rights

6. (1) The value of any *debt* due, or to become due, to a *friendly society*, other than a *debt* to which 4, 11 or 13 applies or to which (2), (3), (4) or (6) of this rule applies, must be-
- (a) in the case of a *debt* which is due, or will become due, within twelve months of the *relevant date* (including any *debt* which would become due within that period if the *friendly society* were to exercise any right to which it is entitled to require payment of the same), the amount which can reasonably be expected to be recovered in respect of that *debt*; and
 - (b) in the case of any other *debt*, the amount which would reasonably be paid by way of consideration for an immediate assignment of the *debt*,
- in either case due account being taken of the terms and conditions for payment of the *debt* and, where the *debt* is secured, the nature and quality of the security.
- (2) Any *debt* due, or to become due, to a *friendly society* under a letter of credit must be left out of account for the purposes for which the *asset valuation rules* apply.

- (3) In the case of *long-term insurance business* carried on by a *friendly society*, the value of any *debt* due, or to become due, to the *friendly society* which is secured on a policy of insurance issued by the *friendly society* and which (together with any other *debt* secured on that policy) does not exceed the amount payable on a surrender of that policy at the *relevant date* must be the amount of that *debt*.
- (4) Subject to (5), the value of any rights of the *friendly society* under a contract of reinsurance to which it is a party must be the amount which can reasonably be expected to be recovered in respect of those rights.
- (5) (4) does not apply to-
- (a) rights under a contract of reinsurance in respect of *long-term insurance business* except to the extent that *debts* are due under such contracts; or
 - (b) *debts* to which 4 applies which are due or are to become due.
- (6) Any *debt* due, or to become due, to a *friendly society*-
- (a) from an *intermediary* in respect of money advanced on account of commission to which that *intermediary* is not absolutely entitled at the *relevant date*; or
 - (b) which is a *debt* owed in respect of *premiums* (due account being taken of rebates, refunds and commissions payable) which is recorded in the *friendly society's* accounting records as due and payable and has been outstanding for more than three months,
- must be left out of account for the purposes of the *asset valuation rules* .
- (7) The value of any right to recover assets transferred by way of *initial margin* in respect of a *derivative contract* or a contract or asset having the effect of a *derivative contract* must be determined-
- (a) where the *initial margin* was a payment in cash, as if there were a *debt* owed to the *friendly society* for that amount; and
 - (b) where the *initial margin* took the form of a transfer of *securities*, as if there were a *debt* owed to the *friendly society* of an amount equal to the value of such *securities* as determined in accordance with the *asset valuation rules*.
- (8) The value of any rights arising under a *derivative contract* to which 13 does not apply, or under a contract or asset having the effect of such a contract, must be the value of any right to recover assets transferred by way of *initial margin* together with the value of any other unconditional right to receive a specified amount.

- (9) This rule must not apply to any rights (other than *debts* due) in respect of-
- (a) investments in *related undertakings*;
 - (b) *securities* or beneficial interests in a limited partnership;
 - (c) units or other beneficial interests in a *collective investment scheme*;
 - (d) a *derivative contract*, except as provided under (7) or (8); or
 - (e) a contract or asset which has the effect of a *derivative contract* except as provided under (7) or (8) or under 14(4) or (5).

Land

7. (1) The value of any land of a *friendly society* (other than land held by the *friendly society* as security for a *debt* or to which (2) or 12 applies) must be not greater than the amount which (after deduction of the reasonable expenses of sale) would be realised if the land were sold at a price equal to the most recent *proper valuation* of that land which has been provided to the *friendly society* and any such land of which there is no *proper valuation* must be left out of account for the purposes for which the *asset valuation rules* apply.
- (2) The value of any interest in land which is determinable upon the death of any person or upon the happening of some other future event or at some future time must be the amount which would reasonably be paid by way of consideration for an immediate transfer thereof.

Equipment

8. (1) The value of any computer equipment of a *friendly society*-
- (a) in the *financial year* of the *friendly society* in which it is purchased, must not be greater than three-quarters of the cost thereof to the *friendly society*;
 - (b) in the first *financial year* thereafter, must not be greater than one-half of that cost;
 - (c) in the second *financial year* thereafter, must be not greater than one-quarter of that cost; and
 - (d) in any subsequent *financial year*, must be left out of account for the purposes for which the *asset valuation rules* apply.
- (2) The value of any office machinery (other than computer equipment), furniture, motor vehicles and other equipment of a *friendly society*, must be, in the *financial year* of the *friendly society* in which it is purchased, not greater than one-half of the cost thereof and must be, in any subsequent *financial year*, left out of account for the purposes for which the *asset valuation rules* apply.

Securities and beneficial interests in limited partnerships

9. (1) Subject to (2), this paragraph applies to the valuation of investments comprising *securities* and beneficial interests in limited partnerships and, for the purposes of (6), investments includes loans.
- (2) This paragraph does not apply to the valuation of *securities* which are-
- (a) *derivative contracts*;
 - (b) [deleted]
 - (c) units or other beneficial interests in *collective investment schemes*, except as provided in 10(2); or
 - (d) contracts or assets having the effect of *derivative contracts*, except as provided in 14(4).
- (3) Subject to (6), the value of an investment to which this rule applies must be-
- (a) where the investment is transferable and (4) does not apply, the *market value*;
 - (b) where the investment is transferable and (4) applies, the lower of-
 - (i) the *market value*, and
 - (ii) the amount which would reasonably be expected to be received by way of consideration for an assignment or transfer of the investment at a date not later than twelve months after the *relevant date*, it being assumed that negotiations for the assignment or transfer commenced on the *relevant date* and the assignment or transfer was made other than to the *issuer* or to an *associate* or an *associate company* of the *issuer* or of the *friendly society*; or
 - (c) where the investment is not transferable-
 - (i) the amount payable on redemption on the *relevant date* or the most recent date before the *relevant date* on which the *issuer* of the investment could have been required to redeem the investment, or
 - (ii) where the investment cannot be redeemed, the amount which would reasonably be paid by way of compensation for the surrender of the interest in the investment.
- (4) Subject to (5), this paragraph applies where it is not reasonable to assume that, had negotiations for the assignment or transfer of the investment commenced not more than seven *working days* before the *relevant date*, the investment

could have been assigned or transferred on the *relevant date* for an amount not less than 97.5% of the *market value* other than to the *issuer* or to an *associate* or an *associate company* of the *issuer* or of the *friendly society*.

- (5) (4) must be taken not to apply if it applies by reason only that-
- (a) the listing of the investment has been temporarily suspended following receipt of price sensitive information by the stock exchange on which the investment is *listed* or the *regulated market* on which facilities for dealing have been granted; or
 - (b) the extent of the holding would prevent an orderly disposal of the investment for an amount equal to or greater than 97.5% of the *market value*.
- (6) Where a *friendly society* has made more than one *unlisted* investment (other than a number of investments exclusively comprising loans) and the value of such investments when taken together is greater than the aggregate of the values of each investment valued separately, then such higher value may be ascribed to the investments if it is reasonable to assume that none of the investments would be assigned or transferred separately.

Beneficial interests in collective investments schemes

10. (1) Subject to (3), this rule applies to holdings of units, or other beneficial interests in-
- (a) a scheme falling within the *UCITS Directive*;
 - (b) an authorised unit trust scheme or a recognised scheme within the meaning of the *Act* (not falling within (a)); or
 - (c) any other *collective investment scheme* where-
 - (i) the scheme does not employ *derivative contracts* unless they are contracts to which 13 applies,
 - (ii) the scheme does not employ contracts or assets having the effect of *derivative contracts* unless they have the effect of *derivative contracts* to which 13 applies, and
 - (iii) the property of the scheme does not include assets other than those for the valuation of which provision is made in the *asset valuation rules*.
- (2) The value of units or other beneficial interests in a *collective investment scheme* to which this rule applies must be-
- (a) where the *issuer* can be required to purchase the units or other beneficial interests from the holder upon the holder giving notice of one

month or less, the price at which the *issuer* would have purchased the units or other beneficial interests on the *relevant date* or the most recent date before the *relevant date* on which it could have been required to make such a purchase; or

- (b) where the *issuer* cannot be required to purchase the units or other beneficial interests as set out in (a), a value determined in accordance with 9.
- (3) Other than as provided in 14(4), this rule must not apply to units or other beneficial interests in a *collective investment scheme* which has the effect of a *derivative contract*.

Deferred acquisition costs

- 11. In the case of *general insurance business*, the value of *deferred acquisition costs* must be the value as determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate to *friendly societies*.

Reversionary interests etc.

- 12. The value of any *long-term insurance business asset* of a *friendly society* consisting of an interest in property which is a remainder, reversionary interest, right of fee subject to a life rent or other future interest, whether vested or contingent must be the amount which would reasonably be paid by way of consideration for an immediate transfer or assignment of it.

Derivative contracts

- 13. (1) The value of rights (other than rights to recover assets transferred by way of *initial margin*) under a *derivative contract* to which this rule applies must be-
 - (a) in the case of a *listed derivative contract*, the *market value*; and
 - (b) in the case of an *unlisted derivative contract*, the amount which would reasonably be paid by way of consideration for closing out that contract,in either case taking into account the *market value* of any assets which, at the *relevant date*, have been transferred by way of *variation margin*.
- (2) This rule applies to an *approved derivative contract* which is covered and-
 - (a) which is held in connection with a contract or asset of the type described in (3) for the purposes of reduction of investment risks or efficient portfolio management; or
 - (b) which has effect as if so held for such purposes.
- (3) The contract or asset described in this paragraph must be either-

- (a) an *approved derivative contract* or a contract or asset having the effect of an *approved derivative contract* which, when taken together with the *approved derivative contract* the rights under which are being valued in accordance with this rule, would have the effect that the *friendly society* either holds an asset for the valuation of which provision is made in this chapter or holds an *approved derivative contract* in connection with such an asset; or
 - (b) an asset for the valuation of which provision is made in this chapter, being neither a *derivative contract* nor a contract or asset having the effect of a *derivative contract*.
- (4) For the purposes of this rule an *approved derivative contract* is covered if it does not require a significant provision to be made in respect of it pursuant to 3 of Appendix 5.
- (5) For the purposes of determining in accordance with (4) whether a required provision is significant, regard must be had to the obligations of the *friendly society* under the contract and the volatility of the assets identified by the *friendly society* as being suitable to cover such obligations, and the required provision in respect of any one *derivative contract* must be deemed to be significant if-
- (a) the aggregate provision required in respect of all contracts having a similar effect is significant; or
 - (b) the aggregate provision required in respect of all contracts with which it is connected is significant.
- (6) In this rule, an 'approved derivative contract' is a *derivative contract* entered into by a *directive friendly society* which-
- (a) either is *listed* or has been entered into with an *approved counterparty*;
 - (b) the *friendly society* reasonably believes may be readily closed out; and
 - (c) is either a *contract for differences* to which (7) applies or a *futures contract* or an *option* to either of which (8) applies.
- (7) This paragraph applies to-
- (a) a *contract for differences* under which the amount payable by either party is calculated solely by reference to fluctuations in any of the following-
 - (i) the value of an asset for the valuation of which provision is made in this chapter,
 - (ii) the amount of income from such an asset over a defined period,

- (iii) an index of such assets, being an index in respect of which a *derivative contract* is listed, or
- (iv) a national index of retail prices published by or under the authority of a government of a State belonging to Zone A as defined in Council Directive 89/647/EEC of 18 December 1989 on a solvency ratio for credit institutions,

or an arithmetic average thereof; and

- (b) a contract under which the amount payable by either party is calculated by reference to the difference between the *market value* and the amortised value of any asset for the valuation of which provision is made in this Appendix.
- (8) This paragraph applies to a *futures contract* or an *option* which in either case provides for the acquisition or disposal of assets for the valuation of all of which provision is made in this Appendix at a price which is determined by one or more of the following methods-
- (a) for each date on which the contract may be completed or the *option* exercised, the price is a fixed amount under the terms of the contract or *option*;
 - (b) it is determined by reference to the *market value* or the amortised value of an asset for the valuation of which provision is made in this chapter or the amount of income over a defined period from such an asset;
 - (c) it is determined by reference to an index of the kind mentioned in (7)(a)(iii) or (iv).

Contracts and assets having the effect of derivatives

14. (1) Subject to (3), for the purposes of this Appendix, a contract has the effect of a *derivative contract* if it is a contract (other than a *derivative contract*) which provides whether upon the exercise of a right by the *friendly society* or otherwise-
- (a) for payment (at any time) of amounts which are determined by fluctuations in-
 - (i) the value of property of any description,
 - (ii) an index of the value of property of any description,
 - (iii) income from property of any description, or
 - (iv) an index of income from property of any description;

- (b) for delivery of an asset (other than an asset for the valuation of which provision is made in 8) to or by the *friendly society*; or
 - (c) for the conversion of an asset held by the *friendly society* or another party to-
 - (i) an asset of a different type, or
 - (ii) a different asset of the same type.
- (2) Subject to (3), for the purposes of this Appendix an asset has the effect of a *derivative contract* if the asset is an asset (other than an *approved security* or an asset falling within 10(1)(a)) and the holding of the *asset* confers contractual rights or imposes contractual obligations to make or accept payment, delivery or conversion as set out in (1)(a) to (c).
- (3) A contract or asset does not have the effect of a *derivative contract* by reason only that-
- (a) it provides for the unconditional delivery of assets, or for the payment for unconditional delivery of assets, such delivery or payment to be made within a period not exceeding the period commencing at the date of the contract and extending-
 - (i) in the case of a *listed security*, for the usual period for delivery or payment as determined by the rules of the stock exchange or *regulated market* on which the *securities* are *listed* or facilities for dealing have been granted, or
 - (ii) in any other case, for twenty *working days*;
 - (b) it is a contract of the type described in 2(8) in respect of which the conditions set out in 2(9) have been satisfied; or
 - (c) it is a transaction to which 5(1) applies.
- (4) Rights in respect of a contract or asset whose effect is that of a *derivative contract* to which 13 applies must-
- (a) where the asset is a security, be valued in accordance with 9;
 - (b) where the asset comprises units or other beneficial interests in a *collective investment scheme*, be valued in accordance with 10; and
 - (c) where the asset is a *debt* or other right, be valued in accordance with 6.
- (5) Rights in respect of a contract or *asset* whose effect is that of a *derivative contract* to which 13 does not apply must have a value determined in accordance with 6(8).

- (6) For the purposes of determining whether a contract or asset has the effect of a *derivative contract* to which 13 applies, it must be deemed to have the effect of a *derivative contract* which is *listed* or transacted with an *approved counterparty* if it is itself *listed* or so transacted.

Assets to be taken into account only to a specified extent

15. (1) Subject to (2) to (6), the aggregate value of the assets of a *directive friendly society* as determined in accordance with the *asset valuation rules* must, for any of the purposes for which the *asset valuation rules* apply, be reduced by an amount representing the aggregate of-
- (a) the amount by which the *friendly society* is exposed to assets of any description in excess of the *permitted asset exposure limit* for assets of that description;
 - (b) the amount by which the *friendly society* is exposed to a *counterparty* in excess of the *permitted counterparty exposure limit* for such *counterparty*;
 - (c) the amount by which the *friendly society* has an *excess concentration with a number of counterparties*;
 - (d) the value of any assets transferred to or for the benefit of the *friendly society* in pursuance of a condition in a *derivative contract* to which 13 does not apply or a related contract; and
 - (e) the value of any assets transferred to or for the benefit of the *friendly society* in pursuance of a contract whose effect is that of a *derivative contract* to which 13 does not apply or a related contract,

as determined in accordance with Annex B.

- (2) Where a *friendly society* is exposed to assets of any description in excess of the *permitted asset exposure limit* for such assets, the reduction required to be made by (1)(a) must be made-
- (a) by deducting (as far as possible) the amount of the excess from the assets of that description held by the *friendly society*; and
 - (b) where the *friendly society* does not hold sufficient assets of that description to eliminate the excess (or does not hold any assets of that description) by making an appropriate deduction from the aggregate value of the assets which the *friendly society* would otherwise be permitted to take into account for any of the purposes for which the *asset valuation rules* apply.
- (3) Where a *friendly society* is required to make a reduction in accordance with (1)(b), (c), (d) or (e), the reduction must be made by making a deduction from the aggregate value of the assets which the *friendly society* would otherwise be

permitted to take into account for any of the purposes for which the *asset valuation rules* apply.

- (4) Where a *friendly society* carrying on *long-term insurance business* has attributed assets partly to a *long-term insurance business* fund and partly to its other assets, any reduction required to be made by this rule must be made in the same proportion as the attribution.
- (5) Assets of a *friendly society* comprising-
 - (a) *approved securities* or any interest accrued thereon;
 - (b) *debts* to which 6(3) applies;
 - (c) rights to which 6(4) applies;
 - (d) *debts* in respect of *premiums*;
 - (e) moneys due from, or guaranteed by, the government of any State which belongs to Zone A as defined in Council Directive 89/647/EEC of 18 December 1989 on a solvency ratio for credit institutions;
 - (f) *shares* in or *debts due or to become due* from a *dependant* falling within 3;
 - (g) holdings in a scheme falling within the *UCITS Directive*; or
 - (h) *deferred acquisition costs*,

must not be taken into account in any of the calculations described in (1).

- (6) Where a *friendly society* has entered into any contracts providing for the payment of *index linked benefits*, the provisions of (1)(a) must not apply to assets of that *friendly society* to the extent that they are held to match liabilities in respect of such benefits.

Annex A to Appendix 4

VALUATION OF *DEPENDANTS*

[Deleted]

Annex B of Appendix 4

ASSETS TO BE TAKEN INTO ACCOUNT ONLY TO A SPECIFIED EXTENT

PART I: the method of calculation of excess exposure

B1. [deleted]

B2. [deleted]

B3. [deleted]

Calculation of exposure to assets

B4. A value must be ascribed to assets of each description which must be an amount determined in accordance with the *asset valuation rules* or, where the assets are of a description for the valuation of which no provision is made in those rules, an amount which would reasonably be paid by way of consideration for an immediate assignment or transfer of such assets. The amount by which the *friendly society* is exposed to assets of each description must be determined by adjusting the value of the assets in accordance with B5 to B11A.

Adjustments in respect of futures contracts

B5. The value ascribed under B4 in respect of assets of each description must be increased or decreased by the value of assets of that description which the *friendly society* is deemed to have acquired or disposed of pursuant to a *futures contract*.

B6. For the purposes of B5, the *friendly society* must be deemed to have acquired or disposed of assets pursuant to a *futures contract* if, at the *relevant date*, it has entered into (and not closed out) a *futures contract* which-

- (a) provides for the acquisition of assets by the *friendly society*;
- (b) is *listed* and provides for the disposal of assets by the *friendly society*;
or
- (c) is not *listed* but provides for the disposal of assets by the *friendly society* to an *approved counterparty* and it is prudent to assume that such disposal will take place within one year of the *relevant date*.

Adjustments in respect of options

B7. The figure arrived at under B4 to B6 in respect of assets of each description must be increased or decreased by the value of assets of that description which the *friendly society* is deemed to have acquired or disposed of pursuant to an *option*.

- B8. For the purposes of B7, the *friendly society* must be deemed to have acquired or disposed of assets pursuant to an *option* if, at the *relevant date*, it is a party to an *option* and it is prudent to assume that the *option* will be exercised and the *option* is one which-
- (a) provides for the acquisition of assets by the *friendly society*;
 - (b) is *listed* and provides for the disposal of assets by the *friendly society*;
or
 - (c) is not *listed* but provides for the disposal of assets by the *friendly society* to an *approved counterparty* and it is prudent to assume that such disposal will take place within one year of the *relevant date*.

Adjustments in respect of initial margins

- B9. The figure arrived at under B4 to B8 in respect of assets of each description must be increased by an amount representing the value of any assets of that description which have been transferred by the *friendly society* by way of *initial margin*.

Adjustments in respect of an undiversified contract for differences or a contract or asset having the effect of a derivative contract

- B10. The amount arrived at in accordance with B4 to B9 must be increased or decreased by an amount representing the value of assets which the *friendly society* is deemed to have acquired or disposed of under-
- (a) an *undiversified contract for differences*; or
 - (b) a contract or asset other than a *diversified contract for differences* which has the effect of a *derivative contract*.

- B11. For the purposes of B10, the *friendly society* must be deemed to have achieved the effect of such contract by entering into appropriate *futures contracts* or *options*. The assets deemed to be acquired or disposed of must be dealt with in accordance with the provisions in B5 and B7 respectively.

Adjustment in respect of subsidiary undertakings

- B11A. The amount arrived at under B4 to B11 must be increased by an amount representing the *exposure*, if any, of the *friendly society's dependants* to assets of that description, calculating that *exposure* by applying B4 to B11 each *dependant* as if it were a *friendly society*.

Excess asset exposure

- B12. The amount by which the *friendly society* is exposed to assets of a particular description in excess of the *permitted asset exposure limit* must be calculated by subtracting the *permitted asset exposure limit* for assets of that description

from the corresponding amount of the *exposure*, calculated in accordance with B4 to B11A. For this purpose, *exposure* to assets must be excluded to the extent that such *exposure* has caused the recognition of excess *exposure* to assets of a different description. If the figure arrived at is negative, it must be taken to be zero.

Calculation of exposure to a counterparty

B13. Subject to B14 to B15A, the value of all investments (determined in accordance with 9 of Appendix 4) issued by any one *counterparty* and the value of all rights (determined in accordance with 6, 13 and 14 of Appendix 4) against that *counterparty*, in each case up to the amount of the appropriate *permitted asset exposure limit*, must be aggregated. Where the *counterparty* is an *issuer* of a *collective investment scheme* falling within 10(1)(c) of Appendix 4, the value of units or other beneficial interest in the *collective investment scheme* must be included.

B14. Where a *friendly society* has rights in respect of an obligation to be fulfilled by a *counterparty* and-

- (a) the obligation is a secured obligation which-
 - (i) is secured by cash deposited with, or a letter of credit established with, or *securities* issued by, or a guarantee provided by, an *approved credit institution* or an *approved financial institution*; and
 - (ii) is due to be fulfilled within 12 months of the *relevant date*; or
- (b) the obligation is a secured obligation which is secured by *listed securities* which are *readily realisable* or by *approved securities* which in either case-
 - (i) have been deposited with an *approved credit institution*, an *approved financial institution* or an *approved investment firm*; and
 - (ii) are beneficially owned by the *counterparty* but will not be available for the benefit of creditors generally in the event of the winding-up of the *counterparty*,

the aggregation required by B13 need not include the value of such rights.

B15. If the *friendly society* has liabilities to the *counterparty* which may be offset against the above mentioned assets in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate for *friendly societies*, then such liabilities may be offset for the purposes of the aggregation required by B13.

- B15A. The amount arrived at in accordance with B13 to B15 must be increased by the amount by which any *dependant* is *exposed* to a *counterparty*.

Excess counterparty exposure

- B16. The amount by which the *friendly society* is exposed to a *counterparty* in excess of the *permitted counterparty exposure limit* must be calculated by subtracting from the amount of the *exposure* to such *counterparty* the amount of the *permitted counterparty exposure limit* for such *counterparty*. If the figure arrived at is negative, it must be taken to be zero. If the *friendly society* is exposed to a *counterparty* in excess of the *permitted counterparty exposure limit* in more than one of the circumstances set out in (c) of the definition of *permitted counterparty exposure limit*, it must make the deduction required under 15(1)(b) of Appendix 4 only in respect of the circumstances leading to the greatest excess *exposure*.

Excess concentration with a number of counterparties

- B17. Where there is *exposure* to a *counterparty* of the type mentioned in (c)(ii) of the definition of *permitted counterparty exposure limit*, 40% of the *business amount* must be deducted from the aggregate of such *exposures*. The amount so arrived at is the excess concentration with a number of counterparties. Where this amount is negative, it must be taken to be zero. For the purposes of this paragraph-

- (a) *exposure* to a *counterparty* must be taken into account only up to the level of the *permitted counterparty exposure limit* for that *counterparty*;
- (b) *exposure* to a *counterparty* must not be taken into account if it does not exceed 5% of the *business amount*; and
- (c) *exposure* to a *counterparty* must not be taken into account if the corresponding *permitted counterparty exposure limit* does not exceed 5% of the *business amount*.

Part II: description of asset and corresponding business amount

- | | | |
|------|--|----|
| B18. | A piece of land or a number of pieces of land (or one or more interests in such pieces of land) to which in the most recent <i>proper valuation</i> of such pieces of land an aggregate value is ascribed which is greater than the aggregate of the value of each of such pieces of land or interests valued separately. | 5% |
| B19. | A reversionary interest or a remainder not falling within B18. | 1% |
| B20. | All <i>debts due or to become due</i> from any one individual (other than a <i>connected individual</i> of the <i>friendly society</i>), being <i>debts</i> which are fully secured on any dwelling or any land appurtenant (or in Scotland, appertaining) thereto owned or to be purchased by the individual and used or to be used by him for his own | 1% |

residence.

B21.	All <i>debts due or to become due</i> from any one individual, other than <i>debts</i> specified in B20.	0.25%

B23.	All unsecured <i>debts</i> (other than <i>debts</i> arising under the terms of <i>debt securities</i> or <i>debts</i> from a <i>regulated institution</i>) <i>due or to become due</i> from any one <i>company</i> , taken together with all such <i>debts due or to become due</i> from a connected company of that <i>company</i> .	1%
B24.	All unsecured <i>debts</i> (other than <i>debts</i> arising under the terms of <i>debt securities</i> or <i>debts</i> from an <i>approved counterparty</i>) <i>due or to become due</i> from any one <i>regulated institution</i> , taken together with (where that institution is a <i>company</i>) all such <i>debts due or to become due</i> from a connected company of that institution.	2.5%
B25.	All <i>debts</i> , other than <i>debts</i> arising under the terms of <i>debt securities</i> , <i>due or to become due</i> from any one <i>counterparty</i> which is not an <i>approved counterparty</i> taken together with all such <i>debts due or to become due</i> from any connected company (other than an <i>approved counterparty</i>) of that <i>counterparty</i> .	5%
B26.	All <i>debts</i> , other than short-term deposits with an <i>approved credit institution</i> or <i>debts</i> arising under the terms of <i>debt securities</i> , <i>due or to become due</i> from any one <i>approved counterparty</i> , taken together with all such <i>debts due or to become due</i> from any connected company of that <i>approved counterparty</i> .	10%
B27.	All <i>debts due or to become due</i> from an <i>approved credit institution</i> (or a <i>connected company</i> of that institution) taken together unless – (a) the <i>friendly society</i> has notified the <i>FSA</i> that it places deposits with that institution; and (b) the total amount of <i>debts due or to become due</i> does not exceed £2 million.	20%
B28.	The aggregate of <i>debts</i> of the descriptions in B21, B22 and B23.	5%

B29.	All investments of a kind which may be valued in accordance with 9 of Appendix 4 (other than secured <i>debt securities</i> , <i>debt securities</i> issued by a <i>regulated institution</i> or investments which are <i>listed</i> and <i>readily realisable</i>) issued by any one <i>issuer</i> taken together with-	1%
	(a) all units or other beneficial interests in a <i>collective investment scheme</i> failing within 10(1)(c) of Appendix 4 issued by that <i>issuer</i> ; and with	
	(b) all investments of the kinds mentioned in this paragraph issued by a <i>connected company</i> of that <i>issuer</i> .	
B30.	The aggregate of assets of any of the descriptions in B19 and B29.	10%
B31.	All <i>shares</i> issued by any one <i>issuer</i> taken together with all such <i>securities</i> issued by a <i>connected company</i> of that <i>issuer</i> .	2.5%
B32.	All <i>securities</i> issued by any one <i>issuer</i> which is not an <i>approved counterparty</i> taken together with (where that <i>issuer</i> is a <i>company</i>) all <i>securities</i> issued by a <i>connected company</i> , other than an <i>approved counterparty</i> , of that <i>issuer</i> .	5%
B33.	All <i>securities</i> issued by any one <i>counterparty</i> .	10%
B34.	All holdings in any one authorised unit trust scheme or recognised scheme.	5%
B35.	All cash.	3%
B36.	All computer equipment.	5%
B37.	All office machinery (other than computer equipment) taken together with all furniture, motor vehicles and other equipment.	2.5%

Appendix 5

LIABILITY VALUATION RULES

Application

1. This Appendix (the 'liability valuation rules') applies with respect to the determination of the amount of liabilities of a *friendly society* for the purposes of chapters 4 and 5.

Long-term and general insurance business

2. (1) Subject to the provisions below, the amount of liabilities of a *friendly society* in respect of *long-term insurance business* and *general insurance business* and other lawful activities must be determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate for *insurance business*.
- (2) In determining under (1) the amount of liabilities of a *friendly society*, all contingent and prospective liabilities must be taken into account.

Provision for adverse changes

3. (1) A *friendly society* which has or may have (following the exercise of any right by the *friendly society* or any other party) an obligation to which this rule applies to deliver assets or make a payment must-
 - (a) at all times identify the assets held by it which it considers to be the most suitable to cover such obligation; and
 - (b) make prudent provision for the effect on the amount of its excess assets of adverse variations between the value of the assets identified and the value of the assets which it is or may be obliged to deliver or the amount of the payment which it is or may be obliged to make.
- (2) For the purposes of (1) the *friendly society* must take into account all reasonably foreseeable adverse variations and must have particular regard to past volatility in the value of the assets concerned (or assets of a similar nature) and the possibility of adverse changes in such volatility in the future.
- (3) For the purposes of this rule "the amount of its excess assets" means the difference between the aggregate value of its assets (other than *linked* assets to the extent that they are held to match *property linked liabilities*) determined in accordance with Appendix 4 and the amount of its liabilities (other than *property linked liabilities* or liabilities for which provision is made in accordance with this rule).
- (4) Subject to (5), this rule applies to an obligation-

- (a) under a contract relating to investments of the kinds mentioned in item B under the heading "Assets" in Part I of Schedule 2 to *Accounts Regulations* (whether such contract constitutes an asset or liability of the *friendly society*);
 - (b) undertaken for the purposes of, or in connection with the making of, investments of the kind mentioned in (a); or
 - (c) under a contract providing for the purchase, sale or exchange of currency.
- (5) This rule does not apply to a contract to the extent that it relates to, or is for the purposes of the making of an investment in, or is in connection with the making of an investment in, a building which is to be occupied by the *friendly society* and used by the *friendly society* for the conduct of its business.

General insurance business liabilities

4. The amount of *insurance liabilities* which are *general insurance business liabilities* must be determined in accordance with the regulations set out in Part VI of Schedule 6 to the *Accounts Regulations*.

Long-term insurance business liabilities

5. (1) The determination of the amount of *long-term liabilities* (other than liabilities which have fallen due for payment before the *valuation date*) must be made on actuarial principles which must have due regard to the reasonable expectations of *policyholders* and must make proper provision for all liabilities on prudent assumptions that must include appropriate margins for adverse deviation of the relevant factors.
- (2) The determination must take account of all prospective liabilities as determined by the policy conditions for each existing contract, taking credit for *premiums* payable after the *valuation date*.
- (3) Without prejudice to the generality of (1), the amount of the *long-term liabilities* must be determined in compliance with each of 6 to 16 and must take account, inter alia, the following factors:
- (a) all guaranteed benefits, including guaranteed surrender values;
 - (b) vested, declared or allotted bonuses to which *policyholders* are already either collectively or individually contractually entitled;
 - (c) all options available to the *policyholder* under the terms of the contract;
 - (cc) discretionary charges and deductions, in so far as they do not exceed the reasonable expectations of *policyholders*;
 - (d) expenses, including commissions; and

- (e) any rights under contracts of reinsurance in respect of *long-term insurance business*.

Method of calculation

- 6. (1) Subject to (2), (3) and (4), the amount of the *long-term liability* must be determined separately for each contract by a prospective calculation.
- (2) A retrospective calculation may be applied to determine the liabilities where a prospective method cannot be applied to a particular type of contract or benefit, or where it can be demonstrated that the resulting amount of liabilities would be no lower than would be required by a prudent prospective calculation.
- (3) Appropriate approximations or generalisations may be made where they are likely to provide the same, or a higher, result than individual calculations of the same amount of the liabilities in respect of each contract.
- (4) Where necessary, additional amounts must be set aside on an aggregated basis for general risks which are not individualised.
- (5) The method of calculation of the amount of the liabilities and the assumptions used must not be subject to discontinuities from year to year arising from arbitrary changes and must be such as to recognise the distribution of profits in an appropriate way over the duration of each policy.
- (6) The liabilities for contracts under which the *policyholder* is eligible to participate in any *established surplus* must have regard to the level of the *premiums* under the contracts, to the assets held in respect of those liabilities, and to the custom and practice of the *friendly society* in the manner and timing of the distribution of profits or the granting of discretionary additions, as the case may be.
- (7) In this paragraph ‘established surplus’ means an excess of assets representing the whole or a particular part of the fund or funds maintained by the *friendly society* in respect of its *long-term insurance business* over the liabilities, or a particular part of the liabilities, of the *friendly society* attributable to that business as shown by an investigation to which rule 5.1 or 5.2 applies.

Avoidance of future valuation strain

- 7. The amount of the liability determined in respect of a group of contracts must not be less than such amount as, if the assumptions adopted for the valuation were to remain unaltered and were fulfilled in practice, would enable liabilities similarly determined at all times in the future to be covered from resources arising solely from the contracts and the assets covering the amount of the liability determined at the current valuation.

Valuation of future premiums

8. (1) Where further specified *premiums* are payable by the *policyholder* under a contract (not being a *linked long-term contract*) under which the *policyholder* is eligible to participate in any *established surplus* and benefits (other than benefits arising from a distribution of surplus) are determined from the outset in relation to the total *premiums* payable thereunder, then, subject to (4) and 9 -

- (a) where the *premiums* under the contract are at a uniform rate throughout the period for which they are payable, the *premiums* to be valued must not be greater than such level *premiums* as, if payable for the same period as the actual *premiums* under the contract and calculated according to the rates of interest and rates of mortality or disability which are to be employed in calculating the liability under the contract, would have been sufficient at the outset to provide for the benefits under the contract according to the contingencies upon which they are payable, exclusive of any additions for profits, expenses or other charges;
- (b) where the *premiums* under the contract are not at a uniform rate throughout the period for which they are payable, the *premiums* to be valued must not be greater than such *premiums* as would be determined on the principles set out in (a) modified as appropriate to take account of the variations in the *premiums* payable by the *policyholder* in each year,

save that a *premium* to be valued must in no year be greater than the amount of the *premium* payable by the *policyholder*.

(2) Where the terms of the contract have changed since the contract was first made (the terms of the contract being taken to change for the purposes of this paragraph if the change is indicated in an endorsement on the policy but not if a new policy is issued), then, for the purposes of (1) one of the following assumptions must be made, namely that-

- (a) the change from the date it occurred was provided for in the contract when it was made;
- (b) the terms of the contract are those which apply from the date of the change except that a single *premium* is payable, at the date of the change, of an amount equal to the liability under the policy immediately before the change, calculated on a basis consistent with the *liability valuation rules* and with the *premiums* actually payable from the date of the change; or
- (c) the contract is in two parts, the first of which is for the benefits purchased by the actual *premiums* payable from the date of the change under the *friendly society's* scales of *premiums* at that date, and the second of which is for all other benefits under the policy for which no *premiums* are payable after that date

- (3) Where under a contract (not being a *linked long-term contract*) the *policyholder* is eligible to participate in any *established surplus*, and
- (a) each *premium* paid increases the benefits (other than benefits arising from a distribution of surplus) provided under the contract; or
 - (b) the amount of a *premium* payable in future is not determinable until it comes to be paid,

future *premiums* and the corresponding liability may be left out of account so long as adequate provision is made against any risk that the increase in the liabilities of the *friendly society* resulting from the payment of future *premiums* might exceed the amount of the *premiums*.

- (4) An alternative valuation method to that described in (1) to (3) may be used where it can be demonstrated that the alternative method results in reserves no less, in aggregate, that would result from use of the method described in (1) to (3).

Acquisition expenses

9. (1) In order to take account of acquisition expenses, the maximum annual *premium* to be valued under 8 may (subject to (2)) be increased by an amount not greater than the equivalent, taken over the whole period of *premium* payments and calculated according to the rates of interest and rates of mortality or disability employed in valuing the contract, of 3.5% (or the defined percentage, if it is lower than 3.5%) of the *relevant capital sum* under the contract.
- (2) For the purposes of (1) "the defined percentage" is the percentage arrived at by taking (for all contracts of the same type as the contract in question for which an adjustment is made) the average of the percentages of the *relevant capital sum* under each such contract that represent the acquisition costs incurred which, after allowing for the effects of taxation, might reasonably be recovered from the *premiums* payable under the contract.
- (3) The increase permitted by (1) must be subject to the limitation that the amount of a future *premium* valued must not in any event be greater than the amount of the *premium* actually payable by the *policyholder*.
- (4) For the purposes of this rule-
- (a) for contracts other than temporary assurances, the *relevant capital sum* under a contract must be arrived at in accordance with rule 4.9(4); and
 - (b) for temporary assurances, the *relevant capital sum* must be the sum assured on the *valuation date*.

Rates of interest

10. (1) The rates of interest to be used in calculating the present value of future payments by or to a *friendly society* must be no greater than the rates of interest determined from a prudent assessment of the yields on existing assets attributed to the *long-term insurance business* and, to the extent appropriate, the yields which it is expected will be obtained on sums to be invested in the future.
- (2) For the purposes of (1), the assumed yield on an asset attributed to the *long-term insurance business*, before any adjustment to take account of the effect of taxation, must not exceed the yield on that asset calculated in accordance with (3) to (7), reduced by 2.5% of that yield.
- (3) For the purpose of calculating the yield on an asset-
 - (a) the asset must be valued in accordance with the *asset valuation rules*, excluding any provision under which assets may be taken at lower book values for the purposes of an investigation to which rule 5.1 or rule 5.2 applies; and
 - (b) the future income from the asset required to be taken into account (whether interest, dividends or repayment of capital) must be reduced by a proportion corresponding to such part of any excess *exposure* to assets of that description, calculated in accordance with B11 of Annex B to Appendix 4, as may reasonably be attributed to such assets.
- (4) For *fixed interest securities* the yield on an asset, subject to (7), must be that annual rate of interest which, if used to calculate the present value of future payments of interest before the deduction of tax and the present value of repayments of capital, would result in the sum of those amounts being equal to the value of the asset.
- (5) For variable interest investments (that is to say, investments which are not *fixed interest securities*) that are equity *shares* other than those within (5A) or land, the yield on an asset, subject to (7), must be the ratio to the value of the asset of the income before deduction of tax which would be received in the period of twelve months following the *valuation date* on the assumption that the asset will be held throughout that period and that the factors which affect income will remain unchanged, so however that account must be taken of any changes in those factors known to have occurred by the *valuation date* and in particular, without prejudice to the generality of the foregoing, of-
 - (a) any known changes in the rental income from property or in dividends on equity *shares*;
 - (b) any forecast changes in dividends which have been publicly announced by the *valuation date*;
 - (c) the effect of any alterations in capital structure; and
 - (d) the value (at the most recent date for which it is known at the *valuation date*) of any determinant of the amount of any future interest payment,

the said value being deemed to remain unaltered for all subsequent dates.

- (5A) For variable interest investments that are equity *shares* in *companies* subject to, or drawing up accounts as if subject to, legislation implementing the *Accounts Directives*, or which draw up a set of accounts in accordance with International Accounting Standards Committee accounting standards or US generally accepted accounting practice, the yield on an asset, subject to (7A), must be the ratio to the value of the asset of-

- (a) A + B; or
- (b) 2 times A,

whichever is lower,

where A = the income which would be received if it were calculated in accordance with (5),

and B = half the excess (if any) of the relevant amount over A, but B must not be less than zero.

- (5B) For the purposes of (5A), the 'relevant amount' in relation to equity *shares* is the issuing *company's* profits after taxation from its ordinary activities for the preceding *financial year*, in so far as attributable to those equity *shares*, so however, without prejudice to the generality of the foregoing, that account is taken of the effect of any alterations in capital structure.
- (5C) For the purposes of (5B), the issuing *company's* profits after taxation from its ordinary activities for the preceding *financial year* must be derived from accounts drawn up in accordance with legislation implementing the *Accounts Directives* or, if accounts are not drawn up in accordance with the *Accounts Directives*, from accounts drawn up in accordance with International Accounting Standards Committee accounting standards or US generally accepted accounting practice.
- (5D) Where (5A) applies, and a *company's* accounting period is longer or shorter than a year, the amount of profits or losses for that period must be annualised, and the annualised figure must be used to calculate the yield.
- (6) Subject to (6a), for variable interest investments (that is to say, investments which are not *fixed interest securities*) other than equity *shares* or land, the yield on an asset, subject to (7), must be that annual rate of interest which, if used to calculate the present value of future payments of interest, before deduction of tax, and the present value of repayments of capital, where applicable, would result in the sum of these amounts being equal to the value of the asset, on the assumption that-
- (a) the value of any determinant of the amount of the next interest rate payment and capital repayment made during the following twelve

- months will be the value of that determinant at the most recent date for which it is known at the *valuation date*;
- (b) the amount of future interest payments and capital repayments will take account, where appropriate, of-
 - (i) the right of either party to have the investment repaid, and
 - (ii) an assumed yield on other comparable investments made in the future not exceeding an amount determined in accordance with (8) to (10); and
 - (c) indices and all other factors which affect future income payments or capital repayment will remain unchanged after the *valuation date*.
- (6A) For investments in *collective investment schemes* given a value as an asset in accordance with paragraph 10 of Appendix 4, the yield may be determined as the weighted average of the yields (as determined by this rule) on each of the investments held by the *collective investment scheme*.
- (7) In calculating the yield on an asset under this rule-
- (a) if the asset does not consist of equity *shares* or land-
 - (i) a prudent adjustment must be made to exclude that part of the yield estimated to represent compensation for the risk that the income from the asset might not be maintained or that capital repayments might not be received as they fall due; and
 - (ii) in making that adjustment, regard must be had wherever possible to the yields on risk-free investments of a similar term in the same currency;
 - (b) for assets which are equity *shares* or land, adjustments to yields must be made as appropriate to exclude that part, if any, of the yield from each category of asset that is needed to compensation for the risk that the aggregate income from that category of asset, taking one year with another, might not be maintained; for the purposes of this paragraph, a "category of asset" comprises assets of a similar nature, type and degree of risk.
- (7A) Notwithstanding (7)(b), for equity *shares* within (5A), adjustments to yields must be made as appropriate to exclude that part, if any, of the yield from each 'category of asset' that is needed to compensate for the risk that the aggregate profits earned by a *company* might not be maintained; and for the purposes of this paragraph, **category of asset** has the same meaning as in (7)(b).
- (8) To the extent that it is necessary to make an assumption about the yields which will be obtained on sums to be invested in future, the yield must be determined in accordance with (9) and (10).

- (9) Where the liabilities are denominated in sterling, the yield assumed, before any adjustments to take account of the effect of taxation-
- (a) on any investment to be made more than three years after the *valuation date*, must not exceed the lowest of-
 - (i) the long-term gilt yield current on the *valuation date*,
 - (ii) 3% per annum, increased by two-thirds of the excess, if any, of the long-term gilt yield current on the *valuation date* over 3% per annum, or
 - (iii) 6.5% per annum,where "the long-term gilt yield" means the annualised equivalent of the 15 year yield for United Kingdom Government *fixed-interest securities* jointly compiled by the Financial Times, the Institute of Actuaries and the Faculty of Actuaries; and
 - (b) on any investment to be made at any time not more than three years after the *valuation date* must not exceed the assumed yield determined under (2) adjusted linearly over the said three years to the yield determined in accordance with (a).
- (10) Where the liabilities are denominated in currencies other than sterling, the yield must be determined on assumptions that are as prudent as those made under (9).
- (11) In no case must a rate of interest determined for the purposes of (1) exceed, the adjusted overall yield on assets calculated as the weighted average of the reduced yields on the individual assets arrived at under (2); and when that weighted average is calculated-
- (a) the weight given to each investment must be its value as an asset determined in accordance the *asset valuation rules*, excluding any provision under which assets may be taken at lower book values for the purposes of any investigation to which rule 5.1 or rule 5.2 applies; and
 - (b) except in relation to the rate of interest used in valuing payments of *property linked benefits*, both the yield and the value of any *linked assets* (as so defined) must be omitted from the calculation.
- (12) For the purpose of determining the rates of interest to be used in valuing a particular category of contracts the assets may, where appropriate, be notionally apportioned between different categories of contracts.

Rates of mortality and disability

11. The amount of the liability in respect of any category of contract must, where relevant, be determined on the basis of prudent rates of mortality and disability and any other decrement that take into account-
- (a) where the *policyholder* is an individual, the state in which he has his habitual residence; and
 - (b) where the *policyholder* is not an individual, the state in which the establishment of the *policyholder* to which the *commitment* covered by the contract relates is situated.

Expenses

12. (1) Provision for expenses, whether implicit or explicit, must be not less than the amount required, on prudent assumptions, to meet the total net cost, after taking account of the effect of taxation, that would be likely to be incurred in fulfilling contracts if the *friendly society* were to cease to transact new business twelve months after the *valuation date*.
- (2) The provision mentioned in (1) must have regard to, among other things, the *friendly society's* actual expenses in the last twelve months before the *valuation date* and to the effects of inflation on future expenses on prudent assumptions as to the future rates of increase in prices and earnings.

Options

13. (1) Provision must be made on prudent assumptions to cover any increase in liabilities caused by *policyholders* exercising *options* under their contracts.
- (2) Where a contract includes an *option* whereby the *policyholder* could secure a guaranteed cash payment within twelve months following the *valuation date*, the provision for that *option* must be such as to ensure that the value placed on the contract is not less than the amount required to provide for the payments that would have to be made if the *option* were exercised.
- (3) Where a contract includes an option whereby the *policyholder* could secure a cash payment but (2) does not apply, the provision for that option must be such as to ensure that, if the assumptions adopted for the valuation of the contract are fulfilled in practice –
- (a) the resulting value (and therefore the provision) is not less than the amount required to provide for the payment which would have to be made if the option were exercised; and
 - (b) the payment when it falls due is covered from resources arising solely from the contract and from the assets covering the amount of the liability determined at the current valuation.
- (4) For the purposes of (3) the amount of a cash payment secured by the exercise of an option is assumed to be -

- (a) in the case of an *accumulating with-profits policy*, the lower of-
 - (i) the amount which would reasonably be expected to be paid if the option were exercised, having regard to the representations of the *friendly society*; and
 - (ii) that amount, disregarding all discretionary adjustments; and
- (b) in the case of any other policy to which this paragraph applies, the amount which would reasonably be expected to be paid if the option were exercised, having regard to the representations of the *friendly society*, without taking into account any expectations regarding future distributions of profits or the granting of discretionary additions in respect of an *established surplus* or in anticipation of such additions.

Contracts not to be treated as assets

- 14. No contract for *long-term insurance business* must be treated as an asset.

No credits for profits from voluntary discontinuance

- 15. Allowance must not be made in the valuation for the voluntary discontinuance of any contract if the amount of the liability so determined would thereby be reduced.

Nature and term of assets

- 16. The determination of the amount of *long-term liabilities* must take into account the nature and term of the assets representing those liabilities and the value placed upon them and must include prudent provision against the effects of possible future changes in the value of the assets on-
 - (a) the ability of the *friendly society* to meet its obligations arising under contracts for *long-term insurance business* as they arise; and
 - (b) the adequacy of the assets to meet the liabilities as determined in accordance with 6 to 15.

Appendix 6

BALANCE SHEET (Forms 9 to 17)

1. All the Forms included in the part of the *FSC return* to which this Appendix relates (Forms 9 to 17) must be completed as required by this Appendix.

Currency

2. A supplementary note to Form FSC1 or Form FSC3 (as appropriate) must be included in the *FSC return* stating the bases of conversion employed for -
 - (a) amounts of *premiums* and other income *receivable* in a currency other than sterling; and
 - (b) the amounts of *claims* and other expenditure payable in a currency other than sterling.

Presentation of Amounts

3.
 - (1) Where in any Form an amount which is shown as brought forward from a previous period differs from the corresponding amount shown as carried forward from that period and the difference is not due solely to the fact that a different rate has been used to express other currencies in sterling, an explanation of the reason for the difference must be given by way of a supplementary note to that Form.
 - (2) Except to the extent permitted by (3), amounts due to or from the *friendly society* must be shown gross.
 - (3) In calculating amounts due from or to the *friendly society* (other than for the completion of Form 17),
 - (a) amounts due from any person may, unless expressly provided otherwise, be included net of amounts which are due to that person, provided that such amounts may be set-off against each other under generally accepted accounting practice; and
 - (b) amounts due to any person may, unless expressly provided otherwise, be included net of amounts due from that person, provided that such amounts may be set-off against each other under generally accepted accounting practice.
 - (4) If the amounts shown include amounts calculated on the basis set out in (3), a supplementary note to Form 13 to that effect must be provided.
4. In Form 9 -

- (a) for a *friendly society* carrying on only *long-term insurance business*, lines 11 to 13 may be omitted;
- (b) for a *friendly society* carrying on only *general insurance business*, lines 21 to 44 may be omitted;
- (b) the *implicit items* at lines 11a, 31, 32 and 33 are those admitted under rule 4.8 to 4.10;
- (d) the entry at lines 51 and 52 must not include provision for any liability to tax on capital gains referred to in 9(2)(b); and
- (e) in the FSC1 return the entries at lines 11 to 13 may be a prudent estimate with reference to the last periodic investigation into the financial condition of the *friendly society* in respect of its *general insurance business*.

Margin of solvency for general insurance

5. (1) Amounts included in Forms 11 and 12 in respect of -

- (a) gross premiums receivable,
- (b) *claims* paid,
- (c) *claims* outstanding, and
- (d) reinsurance recoveries,

must be determined in accordance with rule 4.6 and Appendix 2.

(2) Where any amount included in Form 11 or 12 pursuant to (1) above differs from the aggregate of the corresponding amounts included in Forms 21 and 22, there must be stated by way of supplementary note to Form 11 or 12, as the case may be,

- (a) the amount of such difference, and
- (b) an explanation for such difference.

Investment

6. In Form 13 -

- (a) a Form 13 must be completed for the total *long-term insurance business* assets of the *friendly society* and for each fund or group of funds for which separate assets are appropriated. The words "Total *long-term insurance business assets*" or the name of the fund must be shown against the heading "Category of assets";
- (b) a separate Form 13 must be completed in respect of the total assets of the *friendly society* other than any *long-term insurance business assets*. The words "Total other than *long-term insurance business assets*" must be shown against the heading "Category of assets";

- (c) in lines 11 to 86: for the purpose of classifying (but not valuing) assets, headings and descriptions used in the Form, whenever they also occur in the balance sheet format prescribed by the *Accounts Regulations*, must have the same meaning as in those *Accounts Regulations*; assets must be valued in accordance with the *asset valuation rules*; and assets of any particular description must be shown after deduction of assets of that description which (for any reason) fall to be left out of account under 15(2)(a) of Appendix 4;
- (d) the aggregate value of those investments which are:
 - (i) *unlisted* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with 9 of Appendix 4, or
 - (ii) *listed* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with 9 of Appendix 4 and which are not *readily realisable*, or
 - (iii) units or other beneficial interests in *collective investment schemes* falling within 10(1)(c) of Appendix 4, or
 - (iv) reversionary interests or remainders in property other than land or buildings,

must be stated by way of a supplementary note to this Form, together with a description of such investments;

- (e) the aggregate value of those investments falling within lines 46 or 48 which are hybrid *securities* must be stated by way of a supplementary note to this Form; and
- (f) lines 60 to 63 and 85 relate only to *general insurance business*.

Counterparty exposure

- 7. (1) There must be given by way of a supplementary note to Form 13 -
 - (a) the maximum extent to which, in accordance with any investment guidelines operated by the *friendly society*, it was permitted to be exposed to any one *counterparty* during the period;
 - (b) the maximum extent to which, in accordance with such guidelines, it was permitted to be exposed to any one *counterparty*, other than by way of *exposure* to an *approved counterparty*, during the period; and
 - (c) an account of any occasions during the period on which either of those amounts was exceeded.

- (2) In each case where the *exposure* of the *friendly society* to a *counterparty* (calculated in accordance with Annex B of Appendix 4) at the end of the period exceeds 5% of its *long-term insurance business* or *general insurance business amount*, as appropriate, the amount of that *exposure* and the nature of the assets held which give rise to that *exposure*, must be stated by way of a note to Form 13.

Provision for adverse changes

8. There must be stated by way of a note to Form 14 (and in Form 15 in respect of any *general insurance business*) the methods and assumptions used to determine the amount of any provision made pursuant to 4 in Appendix 5 or, if there is no such provision, the methods and assumptions used to determine that no provision is required.

Liabilities

9. (1) Form 14 must be completed for the total *long-term insurance business liabilities* and margins of the *friendly society* and for each fund or group of funds for which separate assets are appropriated. The words "Total *long-term insurance business assets*" or the name of the fund must be shown against the heading "Category of assets".
- (2) Subject to (4) and (5), the following information must be given by way of a supplementary note to Form 14 or 15 -
- (a) in the case of any charge over the assets of the *friendly society* (including any arrangement whatsoever, whether contractual or otherwise, which operates to secure the prior claim of any person over general creditors to any assets on a winding up of a *friendly society*), the particulars specified in (3) or a statement that there are no such charges;
 - (b) the total potential liability, and the amount provided for that liability, to taxation on capital gains which might arise if the *friendly society* disposed of its assets, or a statement that there is no such potential liability;
 - (c) a brief description of any other liabilities being contingent liabilities not included in Form 14 or 15 (other than liabilities arising under an inwards *contract of insurance*) including, where practicable, the amounts or estimated amounts of those liabilities, or a statement that there are no such contingent liabilities;
 - (d) a brief description of any guarantee, indemnity or other contractual *commitment*, effected by the *friendly society* other than in the ordinary course of its *insurance business*, in respect of the existing or future liabilities of any *associate* bodies, including -

- (i) the maximum liability of the *friendly society* specified in such guarantee, indemnity or contractual *commitment*, or a statement that no such amount is specified,
 - (ii) the amount of any provision made in respect of such liability, and
 - (iii) the amount reported under (c) in respect of such liability,
- or a statement that there are no such guarantees, indemnities or contractual *commitments*; and
- (e) a description of any other uncertainty where such a description is, in the opinion of the *committee*, necessary for a proper understanding of the financial position of the *friendly society*.
- (3) The particulars referred to in (2)(a) are -
- (a) the nature of the charge, including a brief description of the terms which are relevant to securing the prior claim of any person to assets which are subject to the charge;
 - (b) for each line in Form 13, the amount included in respect of assets which are subject to the charge; and
 - (c) for each line in Form 14 or 15, the amount included in respect of liabilities which are secured by the charge.
- (4) (2)(a) and (c) may be disregarded by a *friendly society* in the case of -
- (a) one or more charges over assets which are attributable to either the *long-term insurance business assets* or the *general insurance business assets* and whose aggregate value (as shown on Form 13) does not exceed 2.5% of the long-term or *general insurance business amount*, as the case may be;
 - (b) one or more contingent liabilities whose aggregate value does not exceed 2.5% of the long-term or *general insurance business amount*, as the case may be.
- (5) (2)(d) may be disregarded by a *friendly society* in respect of one or more guarantees, indemnities or contractual *commitments* where the aggregate of the maximum liabilities specified in such guarantees, indemnities or contractual *commitments* does not exceed 2.5% of the *long-term* or *general insurance business amount*, as the case may be.

Derivative contracts

10. (1) Form 17 must be completed in respect of the total *long-term insurance business assets* and in respect of the total other than *long-term insurance*

business assets of the *friendly society*. Form 17 must also be completed for each fund or group of funds for which separate assets are appropriated. The words "Total *long-term insurance business assets*" or "Total other than *long-term insurance business assets*" or the name of the fund must be shown against the heading "Category of assets".

- (2) Any *derivative contract* entered into by the *friendly society* -
- (a) the value of which is taken into account for the purpose of calculating benefits payable to *policyholders* and members under *property linked contracts*; or
 - (b) in order to match its liabilities in respect of the payment of *index-linked benefits*,

must be excluded from Form 17. Rights to recover assets transferred by way of *initial margin* must not be shown on Form 17.

- (3) *Derivative contracts* must be analysed according to the description of assets shown in the second column to Form 17 which represents the principal subject of the contract, and must be reported as assets in column 1 of Form 17 if their value (gross of *variation margin*) to the *friendly society* is positive and as liabilities in column 2 of Form 17 if their value (gross of *variation margin*) to the *friendly society* is negative.
- (4) All amounts included in lines 11 to 35 of Form 17 in respect of *derivative contracts* must be determined without making any allowance for *variation margin* and the effect of any *variation margin* upon those amounts must be shown at line 41.
- (5) Amounts in respect of a *derivative contract* may only be included net of amounts in respect of any other *derivative contract* if -
- (a) obligations of the *friendly society* under the contracts may be set-off against each other under generally accepted accounting practice; and
 - (b) such other contract has the effect (in whole or in part) of closing out the obligations of the *friendly society* under the first mentioned contract.
- (6) Where, in respect of any *derivative contract* included in Form 17, assets have been transferred to or for the benefit of a *friendly society* by way of *variation margin* there must be stated by way of a supplementary note to Form 17 -
- (a) the aggregate amount of any liability to repay such assets or equivalent assets;
 - (b) for each line in Form 13, the amount included in respect of such assets; and

- (c) to what extent any amounts included in Form 13 have taken account of any requirement to repay such assets or equivalent assets.

(7) If -

- (a) the aggregate value of rights, under contracts or in respect of assets, either of which have the effect of *derivative contracts*, exceeds 2.5% of the aggregate value of assets shown at line 89 of Form 13; or
- (b) the aggregate amount of liabilities under contracts or in respect of assets, either of which have the effect of *derivative contracts*, exceeds 2.5% of the aggregate of the amounts shown in lines 17 to 39 of Form 14 or lines 31 to 51 of Form 15, as appropriate,

the corresponding value, if not zero, must be stated by way of a supplementary note to Form 17 for each line in Forms 13, 14 and 15 and (6) applies to the *friendly society* as if such contracts had been included in Form 17.

- (8) Every *friendly society* must, in respect of the period, annex to Form 17 a supplementary note comprising a brief description of
 - (a) any investment guidelines operated by the *friendly society* for the use of *derivative contracts* (including a contract or asset which, wholly or in part, has the effect of a *derivative contract*);
 - (b) any provision made by such guidelines for the use of contracts under which the *friendly society* had a right or obligation to acquire or dispose of assets which was not, at the time when the contract was entered into, reasonably likely to be exercised and, if so, the circumstances in which, pursuant to that provision, such contracts would be used;
 - (c) the extent to which the *friendly society* was during the period a party to any contracts of the kind described in (b);
 - (d) the extent to which any of the amounts recorded in Form 13 would be changed if assets which the *friendly society* had a right or obligation to acquire or dispose of under *derivative contracts* outstanding at the end of the period (being in the case of *options*, only those *options* which it is prudent to assume would be exercised) had been so acquired or disposed of;
 - (e) how different the information provided pursuant to (d) would have been if such *options* as were outstanding at the end of the period had been exercised in such a way as to change the amounts referred to in (d) to the maximum extent;
 - (f) how different the information provided pursuant to (d) and (e) would have been if, instead of applying to contracts outstanding at the end of the period, they had applied to *derivative contracts* outstanding at such

other time during the period as would have changed the amounts referred to in (d) and (e) to the maximum extent;

- (g) the maximum loss which would be incurred by the *friendly society* on the failure by any one other person to fulfil its obligations under *derivative contracts* outstanding at the end of the period, both under existing market conditions and in the event of other foreseeable market conditions, together with an assessment of whether such maximum loss would have been materially different at any other time during the period;
- (h) the circumstances surrounding the use of any *derivative contract* held at any time during the period which did not fall within 13(2) of Appendix 4, or (where appropriate) within the definition of *permitted derivative contract*; and
- (i) the total value of any fixed consideration received by the *friendly society* (whether in cash or otherwise) during the period in return for granting rights under *derivative contracts* and a summary of contracts under which such rights have been granted.

(9) For the purposes of 10, a *friendly society* which is a party to -

- (a) a *contract for differences*; or
- (b) any other contract which is to be, or may be, settled in cash,

must be taken to have a right or obligation to acquire or dispose of the assets underlying the contract.

Appendix 7

GENERAL INSURANCE BUSINESS: REVENUE ACCOUNT AND ADDITIONAL INFORMATION (Forms 20 to 23A)

1. All the Forms included in the part of the FSC3 Return to which this Appendix relates (Forms 20 to 23A) are to be completed as required by this Appendix.

Premiums

2. In all Forms to which this Appendix relates, amounts required to be shown in respect of *premiums* must be shown before deduction for commissions.
3. For the purposes of Form 23 -
 - (a) *gross premiums* earned in respect of a period must be such proportion of *gross premiums* written as is attributable to risks borne by the *friendly society* during that period; and
 - (b) the reinsurers' share of *premiums* earned must be attributed to the same period as the corresponding *gross premiums* earned, so as to calculate the net earned *premium* for the period.

Unearned premiums

4. In Form 21, the basis on which unearned *premiums* are calculated and the reason for adopting this basis must be stated by way of supplementary note.

Acquisition costs

5. The basis used for the determination of amounts for acquisition costs (other than commission) payable in the period in question and carried forward to the next period, as shown at line 22 of Form 22, must be stated by way of a supplementary note to that Form.

Claims

6. In all Forms to which this Appendix relates, amounts required to be shown for *claims* must not include amounts in respect of *claims management costs*.
7. (1) In Form 23, where an amount or number is required to be shown for *claims* in respect of a period, that amount or number must be determined on the basis of *claims* arising from incidents occurring during that period.
 - (2) For the purposes of (1), an incident giving rise to a claim under a *claims-made policy* must be deemed to occur on the earlier of -
 - (a) the date on which it is notified in accordance with the terms of that policy; or

- (b) the date on which the period for which cover is provided under that policy expires.

Reinsurance

- 8. Where the reinsurers' share of *claims* incurred (as stated in Form 22) includes amounts expected to be recovered from reinsurers more than twelve months after the payment of the underlying gross *claims* by the *friendly society*, the amount of such recoveries must be stated by way of note to Form 22.

Administration

- 9. Where arrangements have been made for the provision of management services to a *friendly society* by another organisation, there must be given by way of supplementary note to Form 20 a summary of the arrangements in force including details of the organisation providing the service.

Claims management costs

- 10. (1) In Form 22, the basis used for the determination of amounts for *claims management costs* payable in the period in question and carried forward to the following period must be stated by way of note.

- (2) If, in respect of any *class* of *general insurance business* -

- (a) no amount for *claims management costs* is shown as being carried forward to the following period, and
- (b) an amount for net *claims* is shown as being carried forward to that period,

the reason for anticipating that there will be no *claims management costs* incurred during the following period must be included in the note required by (1).

- (3) If, within a *class* of *general insurance business*, a *friendly society* has ceased to effect new contracts of insurance (that is any *contract of insurance* effected by the *friendly society* other than in fulfilment of its obligations under subsisting contracts) during the period in question, the basis upon which any additional costs arising as a result of such cessation have been determined or the reason for anticipating that no such additional costs will be incurred must be included in the note required by (1).

- (4) Where the amount in respect of *claims management costs* carried forward included in any Form 22 has been determined after taking into account the expected investment return, the following must be stated by way of supplementary note -

- (a) the rates of investment return assumed; and

- (b) the average interval between the end of the period in question and the date by which the *claims management costs* are expected to be expended.

Provision for unexpired risks

- 11. (1) The amount included for the provision for unexpired risks in any Form 22 prepared in respect of a *class* of *general insurance business* must include any amount determined to be a necessary provision in relation to the reasonable expectations of the *friendly society's* policyholders and must further be determined without taking into account any surplus expected to arise on the unexpired risks falling within other *classes* of *general insurance business*.
- (2) Where in determining the amount of the overall provision for unexpired risks (line 13 in Form 15 less line 62 of Form 13) credit has been taken for any aggregate surplus expected to arise on the unexpired risks falling in any *class* of *general insurance business*, the amount of that credit must be included as a negative amount at line 19 of Form 22 for that *class* of *general insurance business*.
- (3) Where the amount included at column 3 of line 19 (provision for unexpired risks) in any Form 22 has been determined after taking into account the expected investment return, the following must be stated by way of supplementary note -
 - (a) the provision for unexpired risks before taking such investment return into account;
 - (b) the rates of investment return assumed; and
 - (c) the average interval between the end of the period in question and the date at which *claims* are expected to be settled in cash.

Cessation of business

- 12. If the *friendly society* has not effected any new contracts of insurance (that is any *contract of insurance* effected by the *friendly society* other than in fulfilment of its obligations under subsisting contracts of insurance) of any one or more *classes* of *general insurance business* during the period, the date on which the last new contract of each such *class* was effected must be stated by way of supplementary note to Form 20.

General insurance business statement

- 13. The following information must be given in Form 23A -
 - (a) the date to which the investigation relates;
 - (b) the date to which the latest previous investigation under rule 5.2; and

- (c) a synopsis of the report by the *appropriate actuary* on his investigation into the financial condition of the *friendly society* in respect of its *general insurance business*, including the actuary's assessment of the financial viability of the *friendly society* and his interpretation of the reasonable expectations of its members.

Appendix 8

LONG-TERM INSURANCE BUSINESS: REVENUE ACCOUNT, OTHER REVENUE ACCOUNT AND ADDITIONAL INFORMATION (Forms 40 to 45)

1. Forms 40 to 45 are to be completed as required by this Appendix.
2.
 - (1) All amounts must be shown in sterling and, except for valuation unit prices, may only be shown to the nearer £1,000 in the circumstances described in rule 5.25.
 - (2) A note must be included in the *FSC return* stating the bases of conversion for amounts in currencies other than sterling in accordance with 2 of Appendix 6.
 - (3) Valuation unit prices must be shown to the same accuracy as used in the valuation.
3. Where a *friendly society* maintains more than one *long-term insurance business* fund, other revenue account fund or members surplus and savings accounts, a statement must be annexed to Forms 40, 40A and 40C giving the principles and methods applied to apportioning the investment income, increase or decrease in the value of assets brought into account, expenses and taxation between the different funds and accounts.
4. The box marked “Name of Fund/Summary” in each Form must be completed by the inclusion of a discrete name or number to identify each fund or, if the Form relates to a part of the fund, the fund of which it is part. Where there is only one fund for ordinary *long-term insurance business* or for *industrial assurance business* or for some other revenue account fund, as the case may be, the number “1” must be shown in the box marked “No. of Fund/Summary”. Where the Form is a summary Form the number “99” must be inserted in that box. The box marked “No. of part of fund” must show a discrete number for each part of a fund or the figure “0” if the Form is a statement of the whole fund.
5. In Form 40 –
 - (a) any item of income which cannot properly be allocated to lines 11, 12, 13, 14, or 14a must be entered in line 15, and similarly, any item of expenditure which cannot properly be allocated to lines 21, 22, 23 or 24 must be entered in line 25. Particulars of such items must be specified in a supplementary note;
 - (b) where a *friendly society* decides to allocate to the *long-term insurance business* the whole or any part of investment income and/or net capital gains arising from assets not attributable to its *long-term insurance business*, the amounts in question must be shown as a transfer in line 14a or 26 and particulars must be specified in a supplementary note;

- (c) the entry at line 12 is to exclude value re-adjustments on investments and gains on the realisation of investments, which must be shown in lines 13 or 14 as appropriate;
 - (d) the entry at line 11 is to exclude any change in the provision for unearned *premiums*; and
 - (e) the entry at line 21 is to exclude *claims management costs*, which must be included in line 21 of Form 40B, and any change in the provisions of *claims*.
6. Where arrangements have been made for the provision of management services to a *friendly society* by another organisation, there must be given by way of supplementary note to Form 40B a summary of the arrangements in force including details of the organisation providing the service.
7. Societies conducting combined sickness and savings business must, in respect of members surplus and savings accounts, complete separate Forms 40C for the transactions which have been classified as relating to *long-term insurance business* and for the transactions which have been classified as not relating to *long-term insurance business*.
8. Forms 41 to 45 are to be completed separately in respect of each fund for which a separate *long-term insurance business* revenue account fund is required to be prepared in Forms 40.
9. In Form 41, in dividing the *management expenses* between lines 43, 44 and 45;
- (a) costs of a non-recurring nature, such as those incurred in developing new systems, new premises, or the costs of corporate re-structuring, must normally be shown in line 45;
 - (b) the costs incurred in writing new business (or in obtaining incremental (but not indexed) *premiums* on existing business), such as underwriting, policy issue, setting up (or amending) records and the maintenance and development of the sales and marketing organisation must be reported in line 43; and
 - (c) the balancing item will be expenses related to the ongoing costs throughout the year of maintaining the business in force (including any investment management costs) and must be reported in line 44.
10. In Form 43 -
- (a) the basis on which assets have been valued must be stated in a supplementary note;
 - (b) the aggregate value of rights (gross of *variation margin*) and the aggregate amount of liabilities (gross of *variation margin*) under *derivative contracts* (or in respect of contracts or assets which have the

effect of a *derivative contract*) must be stated in a supplementary note. The corresponding figures net of *variation margin* must also be stated. For this purpose, rights and liabilities must not be set off against one another unless

- (i) such rights and liabilities may be set off against each other in accordance with generally accepted accounting principles, and
 - (ii) such set off results (in whole or in part) from the closing out of obligations under a contract; and
- (c) where there is a liability to repay *variation margin* and there are no arrangements for netting of amounts outstanding or the arrangements would not permit the accounting of such amounts on a net basis in accordance with generally accepted accounting principles it must be so stated in a supplementary note.

11. In Form 44 -

- (a) double counting of items arising from cross investment between *internal linked funds* is to be eliminated;
- (b) any item of income which cannot properly be allocated to lines 11, 12 or 13 must be entered in line 14, and similarly, any item of expenditure which cannot properly be allocated to lines 21, 22, 23, 24 or 25 must be entered in line 26 and particulars of such items must be specified in a supplementary note; and
- (c) the gross value of units created must be shown in line 11 and the gross value of units cancelled must be shown in line 21.

12. In Form 45 -

- (a) Column 3 must show the provision for tax on unrealised capital gains as a percentage of the taxable unrealised capital gain. Similarly, column 4 must show the provision for tax on realised capital gains as a percentage of the taxable realised capital gain;
- (b) the liquidity percentage in column 5 must be the sum of the values of *approved securities*, short-term deposits and cash held by the fund, less any liabilities included in column 6 or 7 of Form 43 shown as a percentage of the *net asset value* in column 8 of Form 43; and
- (c) where there is more than one series of units for any *internal linked fund* the valuation price of each series of unit must be given in column 6 together with the name of that series of unit.

Appendix 9

ABSTRACT OF ACTUARIAL INVESTIGATION (Forms 46 to 61A)

The following information must be given in Form 61A of the *FSC return* and

- (i) the answers must be numbered to accord with the corresponding numbers of this Appendix;
- (ii) all amounts must be shown in sterling and, except for valuation unit prices, may only be shown to the nearer £1,000 in the circumstances described in rule 5.25;
- (iii) valuation unit prices must be shown to the same accuracy as used in the valuation; and
- (iv) yields must be shown as percentages to two decimal places.

1. The *valuation date*.
2. The date to which the latest previous investigation under rule 5.1 related.
3. A statement that the valuation has been made in conformity with 5 in Appendix 5 or, where this was not the case, such qualification, amplification or explanation as necessary.
4. (1) Subject to (2), for each category of *non-linked contract* which -
 - (a) comprises *accumulating with-profit policies*, a full description of the benefits, including -
 - (i) the circumstances in which, and method by which, an adjustment to the identifiable current benefit attributable to a policy could be made on the payment of any claim, including by full or partial surrender, or upon the determination of the amount of any charges deducted under the policy together with a description of the *friendly society's* policy and past practice in this regard;
 - (ii) where the discounted value of the liability in respect of current benefits including vested bonuses shown in column 12 of Form 52 is less than the full amount of the current benefit shown in column 11 and the discounted value assumes the exercise of any discretionary adjustments of the type referred to in (a)(i), a general description of such adjustments made during the period;
 - (iii) any guaranteed investment returns or bonus rates;
 - (iv) any guaranteed surrender values; and

- (v) any material options;
 - (b) comprises policies (other than those included in (a)) which provide for benefits to be determined on the basis of interest accrued (at a rate to be determined from time to time) in respect of *premiums* paid, a full description of the benefits, including -
 - (i) the method used to calculate surrender values;
 - (ii) any guaranteed investment returns;
 - (iii) rates of interest applied during the period;
 - (iv) any guaranteed surrender values; and
 - (v) any material options; and
 - (c) does not fall within (a) or (b) and which is not sufficiently described by the entry in column 1 of Form 51, a full description of the benefits, including any *premium* rate guarantees and material options.
- (2) Information required under (1) need not be provided for any category of contract -
- (a) where no contracts were effected by the *friendly society* during the period; and
 - (b) which has been included in Forms 51 or 52 under the miscellaneous headings specified in 20(3)(e)(vi) and 20(3)(e)(x).
5. (1) Subject to (4), for each category of *linked long-term contract* -
- (a) the name given to that category;
 - (b) the type of contract, classified according to the categories set out in 20(3)(a), (b), (c), (d) and (e);
 - (c) a statement of the frequency of *premiums*;
 - (d) a brief description of the benefits under the contract, including any eligibility to participate in profits, any guarantees and any material options;
 - (e) details of any guaranteed investment returns;
 - (f) a description of the way in which the *friendly society* recovers out of policies its costs (including acquisition expenses and commission, renewal expenses and commission and the costs attributable to the provision of policy benefits). Where the policy provides for the

allocation of units, the annual rate of any management charges must be given. Where the amount of *premiums* deemed to be invested after allowing for the effect of any charges is greater than the amount of the *premiums*, an explanation must be given;

- (g) details of any restrictions on increases in charges;
 - (h) the method used to calculate surrender or transfer values;
 - (i) whether benefits are (or may be) determined (whether wholly or in part) by reference to the value of an *internal linked fund* or to the value of assets or an index. Where the link is to the value of assets or an index, those assets or that index must be specified and details of the relationship between their value and benefits payable to *policyholders* must be given;
 - (j) a brief description of any other features of the contract not disclosed which are material to the method and basis of valuation;
 - (k) whether the contract was open to new business in the period to the *valuation date*; and
 - (l) any increases in the rates of charges applied generally to contracts during the period, including charges for the provision of policy benefits met by the cancellation of units notionally allocated to contracts.
- (2) Where the terms and conditions and the method and basis for determining the amount of the *long-term liabilities* are not materially different for a number of categories of contract, only one description need be given pursuant to (1), provided that the name of each such category is given in the *friendly society's* response to (1)(a).
- (3) For each category of *linked long-term contract* which contains a with-profits option, the information required by 4(1)(a) must also be given.
- (4) Information required under (1)(a) to (k) and (3) need not be provided for any category of contract
- (a) where no contracts were effected by the *friendly society* during the period; and
 - (b) which has been included under the miscellaneous heading in Form 53 or 54.
- (5) A description of the method, or if there is more than one method of the methods and the types of unit to which each applies, used for the creation and cancellation of units in the *internal linked fund* and determining unit prices for the allocation of units to, and the cancellation of units from, policies.

- (6) A description of the method, or if there is more than one method of the methods and the types of unit to which each applies, used to determine the provision for tax on realised and unrealised capital gains and the percentage or percentages of these gains deducted or provided for during the period.
 - (7) Whenever units of the type referred to in 5 of Appendix 3 are held by an *internal linked fund*, or where *property linked benefits* are linked to such units, the rate of discount, commission or other allowance made to the *friendly society* on the purchase, sale or holding of units and the extent to which the *policyholder* or member benefits from such discount, commission or other allowance.
6. (1) The general principles and methods adopted in the valuation including specific reference to the following
- (a) the method by which account has been taken of *derivative contracts* or contracts or assets having the effect of *derivative contracts* in the determination of the amount of the *long-term liabilities*;
 - (b) the method by which due regard has been given to the reasonable expectations of *policyholders* as required by 5 in Appendix 5 by which account has been taken of the custom and practice of the *friendly society* in the manner and timing of the distribution of profits or the grant of discretionary additions over the duration of each policy, as required by 6(6) in Appendix 5;
 - (c) where the net *premium* method has been used, whether and to what extent it has been modified, for what purposes any such modification has been made and whether any modifications on account of *zillmerising* conform to 9 in Appendix 5;
 - (b) whether any negative reserves arose and the steps taken to ensure that no *contract of insurance* was treated as an asset, as required by 14 in Appendix 5;
 - (e) whether any specific reserve has been made for future bonuses and, if so, at what rate or rates;
 - (f) the basis of the provision made for any prospective liability for tax on unrealised capital gains;
 - (g) in the case of *linked long-term contracts* and contracts falling within 4(1)(a) and 4(1)(b), the basis of the reserve made for any investment performance guarantees; and
 - (h) the basis of the reserve made for any guarantees and options (other than investment performance guarantees included in (g)).
- (2) For the purpose of (1) where, in determining the provisions referred to in (1)(f) or the reserves referred to in 7(7) or 7(8), account has been taken of the fact

that the fund has been brought into Form 58 at book value in accordance with 2(6) of Appendix 4, that fact must be stated.

7. (1) Unless shown in Forms 51, 52, 53 or 54, the rates of interest and tables of mortality and morbidity assumed in the valuation of each category of contracts.
- (2) If the tables used have not been published, full details of the rates of mortality or morbidity used.
- (3) A general description of how the tables of mortality and morbidity assumed in the valuation of the various categories of contract have regard to the State of the *commitment*.
- (4) Details of any allowance made for future reductions in the rates of mortality in the tables of mortality assumed in the valuation of annuity contracts.
- (5) Details of any allowance made, and the amount of any reserve held, for any possible detrimental impact of significant changes in the incidence of disease or developments in medical science on the mortality and morbidity experience of the *friendly society* in the tables of mortality and morbidity assumed in the valuation of contracts.
- (6) A description of all the scenarios of future changes in the value of assets which have been tested in order to take account of the nature (including currency) and term of the assets held in determining the amount of the *long-term liabilities* in accordance with 16 in Appendix 5 identifying that scenario which produces the most onerous requirement (whether or not a reserve is thereby required).
- (7) The amount of any reserve made pursuant to 16(a) in Appendix 5, together with a brief description of the method used and assumptions made to calculate any such reserve.
- (8) In respect of that scenario described under (6) which produces the most onerous requirement (whether or not a reserve is thereby required), the amount of any reserve made pursuant to 16(b) in Appendix 5, together with -
 - (a) a description of the changed assumptions made (other than the changed interest rate stated in Form 57) in calculating such requirement;
 - (b) a brief description of the method used to calculate such requirement; and
 - (c) resulting from the application of such changed assumptions -
 - (i) the change in the aggregate amount of the *long-term liabilities*, and
 - (ii) the aggregate amount by which the assets allocated to match such liabilities in the scenario have changed in value from the amount of those assets shown in Form 13.

- (9) A general description of how the rates of interest assumed in the valuation of the various categories of contract with liabilities denominated in currencies other than sterling have taken into account the currency of the liabilities.
8. (1) In respect of *non-linked contracts* -
- (a) where appropriate, the proportion of the office *premiums* explicitly or implicitly reserved for expenses and profits for each type of insurance (as shown in column 8 of Form 51 or column 10 of Form 52);
 - (b) the method by which a reserve has been made for expenses after *premiums* have ceased or where no future *premiums* are payable or where the method of valuation does not take credit for future *premiums* as an asset;
 - (c) where a prospective method of valuation has not been used, details of the tests made of the adequacy of the method used; and
 - (d) where in valuing contracts falling within the circumstances described in 8 of Appendix 5, future *premiums* brought into account are not in accordance with that rule, such additional information as is necessary to demonstrate whether the *mathematical reserves* determined in the aggregate for each of the main categories of contract are greater than an amount for each such category calculated in accordance with 6 to 16 in Appendix 5.
- (2) Where the *mathematical reserves* (after deduction of reinsurance cessions) determined in the aggregate for all categories of contracts referred to in (1)(d) represent less than 5% of the total *mathematical reserves* (after deduction of reinsurance cessions) for all *non-linked contracts*, it is sufficient for the actuary to state that the *mathematical reserves* for each such category of contracts are not less than the *mathematical reserves* that would be determined on a net *premium* reserving basis which, in that case, must be specified by the actuary in the abstract.
9. For each category of *linked long-term contract*:-
- (a) all assumptions made in calculating the valuation net liability in columns 12 and 13 of Form 53 and 54; and
 - (b) where an explicit reserve has not been made for meeting the expenses likely to be incurred in future in fulfilling the existing contracts on the basis of specific assumptions in regard to the relevant factors, details of the basis used in testing the adequacy of the reserves to satisfy 12(1) of Appendix 5.
10. (1) The assumed levels of inflation of expenses and the basis used in the valuation to allow for such future inflation.

- (2) The aggregate amount, grossed up for taxation where appropriate, arising during the twelve months after the *valuation date* from implicit and explicit reserves made in the valuation to meet expenses in fulfilling contracts in force at the *valuation date* and a general description of the sources of such amounts.
 - (3) The method and basis of calculation of the requirement (whether or not a reserve is thereby required) in respect of the expenses of continuing to transact new business during the twelve months following the *valuation date* and the amount of the reserve so calculated.
 - (4) The method and basis of calculation of the requirement (whether or not a reserve is thereby required) to provide for the costs of closure to new business, if the *friendly society* were to cease to transact new business twelve months after the *valuation date* and the amount of the reserve so calculated.
- 11.
- (1) A schedule of the sum of the *mathematical reserves* (other than liabilities for *property linked benefits*) and the liabilities in respect of deposits received from reinsurers as shown in Form 14, analysed by reference to the currencies in which the liabilities are expressed to be payable together with the value of the assets, analysed by reference to currency, which match such liabilities.
 - (2) In the schedule required by (1), liabilities totalling up to 2% of the total required to be analysed may be grouped together as "other currencies", and the assets matching those liabilities need not be analysed provided that the proportion of such liabilities which are matched by assets in the same currency is stated.
- 12.
- (1) For *long-term insurance business* ceded on a facultative basis to a reinsurer who is not authorised to carry on *insurance business* in the United Kingdom at any time during the period, the aggregate of *premiums* payable by the *friendly society* to all such reinsurers (divided according to *financial years*, if appropriate) and the aggregate amount deposited at the *valuation date* under any *deposit back arrangement*; and the amount of any such *premiums* payable by the *friendly society* to a reinsurer with whom the *friendly society* is connected and the aggregate amount deposited at the *valuation date* under any *deposit back arrangement*.
 - (2) For each treaty of reinsurance where the *friendly society* is the cedant and under which business is in force at the *valuation date* -
 - (a) the name of the reinsurer;
 - (b) whether the reinsurer is authorised to carry on *insurance business* in the United Kingdom;
 - (c) whether the *friendly society* and the reinsurer are connected;
 - (d) an indication of the nature and extent of the cover given under the treaty;

- (e) the *premiums* payable by the *friendly society* under the treaty during the period;
 - (f) the amount deposited at the *valuation date* in respect of the treaty under any *deposit back arrangements*;
 - (g) the extent to which provision has been made for any liability of the *friendly society* to refund any amounts of reinsurance commission in the event of lapses or surrender of the contract; and
 - (h) whether the treaty is closed to new business.
13. (1) Subject to (2), for each *with-profits fund*⁷, except where such information is provided elsewhere in the FSC 1 return -
- (a) a revenue account in the format of Form 40 with a supplementary note stating the amount, if any, of investment income relating to *linked assets* included in line 12; and
 - (b) a statement of liabilities and margins in the format of Form 14 with a supplementary note stating the amount, if any, of the increase or decrease, as the case may be, in the value of *non-linked assets*.
- (2) Where the amount (or part of the amount) of any increase or decrease in *non-linked assets* has yet to be allocated between *with-profits funds* or between one or more *with-profits funds* and other purposes, the information required by (1)(b) in aggregate for that amount or part amount, with a supplementary note which:
- (a) identifies the *with-profits funds* to which the information relates;
 - (b) provides the information in lines 11 to 49 of Form 14 separately in respect of each *with-profits fund*; and
 - (c) without prejudice to 14(2), describes the basis upon which increases or decreases in the value of *non-linked assets* are, or will be, allocated between the *with-profits funds* or between the *with-profits funds* and other purposes.
14. (1) The principles on which the distribution of profits among *policyholders* and members is based as described in any of the following documents:
- (a) the *memorandum*, if any, and the registered rules of the *friendly society*;
 - (b) *committee* resolutions of the *friendly society*;
 - (c) any policy or contract issued by the *friendly society*;
 - (d) any advertisement issued by or on behalf of the *friendly society*;

⁷ *With-profits fund* includes subfunds (whether notional or real).

- (e) any document required to be issued under the rules in the Conduct of Business Sourcebook or which was required to be issued by any regulatory body recognised under the Financial Services Act 1986; and
 - (f) any other relevant document.
- (2) For each *with-profits fund*, a description of the *friendly society's* policy and (insofar as it may be relevant to *policyholders'* reasonable expectations) its past practice as to:
- (a) how the *with-profits fund* is defined, which assets, liabilities, income and expense are allocated to it and how the amounts of such assets, liabilities, income and expense are determined;
 - (b) whether any non-profits *insurance business*, or any profit on it, is attributed to the *with-profits fund* and, if so, the nature and volume of such business;
 - (c) how assets within the *with-profits fund* are invested;
 - (d) the level of surplus or free reserves to be maintained in the *with-profits fund*; and
 - (e) the relationship between the performance of the *with-profits fund* and discretionary benefits allocated to *policyholders* including:
 - (i) whether an asset-share methodology, or equivalent methodology, is used or is to be used and, if so, how asset shares are calculated (including whether and how investment income, increases or decreases in the value of investments or other assets, expenses, miscellaneous surpluses and deficits, taxation and other items of income and expense are attributed to asset shares) and how they relate to the benefits actually allocated to *policyholders*;
 - (ii) an indication of how, under different scenarios as to the performance of the fund, discretionary benefits are to be smoothed from period to period;
 - (iii) the pattern of allocation for discretionary benefits over the life of a *with-profits policy*, including the balance between annual and terminal bonuses;
 - (iv) how fairness is maintained between different categories of policy and different categories of *policyholder* and between *policyholders* collectively and the *friendly society* itself; and
 - (v) any other factors which are material to the allocation of discretionary benefits to *policyholders*; and

- (f) the principles followed by the *friendly society* in setting actual proportions of profits distributed to *policyholders* and shareholders.
 - (3) A description of the methods used to ensure that the aims described in (2) are achieved.
 - (4) Subject to (5), if different principles or bonus policies apply to different categories of *with-profit policies* issued by the *friendly society*, the information in (1) to (3) must be given in respect of each category.
 - (5) Categories of *with-profits policies* which, apart from this paragraph would require separate information in accordance with (4) need only be listed under this paragraph, and the information in (1) to (3) need not be supplied, provided that
 - (a) the aggregate amount of *established surplus* allocated to *policyholders* in all such categories is less than 10% of the aggregate amount of *established surplus* allocated to all *policyholders* (as reported at line 46 of Form 58);
 - (b) the amount of *established surplus* allocated to *policyholders* in any one such category is less than 5% of the aggregate amount of *established surplus* allocated to all *policyholders* (as reported at line 46 of Form 58); and
 - (c) none of the categories was introduced during the period.
15. (1) Particulars of the bonus allocated to each category of contract, including the basis of calculation and the circumstances and the form in which the bonus is payable, together with -
- (a) where the rates of bonus allocated depend on the original term of the contract or on the period of years a contract has been in force, specimen rates at 5-year intervals of original term or duration, as the case may be;
 - (b) where the rates of bonus allocated depend on the age of the life assured, specimen rates at 10-year intervals of age;
 - (c) where the rates of bonus allocated depend on the date of each previous *premium* payment, specimen rates at 5-year intervals of time since the *premium* was paid, and for *premiums* paid in each of the five years ending with the current year; and
 - (d) in all other cases, full details of the rates of bonus allocated.
- (2) Where the rates of bonus allocated depend on a formula or a series of formulae, then the formula or formulae must be listed instead of the specimen rates. Wherever appropriate, rates of bonus are to be expressed as a fraction of the

attribute of the contract to which they are related, e.g. as rates per £1000 of the sum assured and existing bonuses.

- (3) Information required under (1) need not be provided for any category of contract -
 - (a) where no contracts were effected by the *friendly society* during the report period; and
 - (b) which has been included under the miscellaneous heading in Forms 51, 52, 53 or 54.
16. (1) A statement of practice regarding any bonus payments (in addition to those for which the *friendly society* had become contractually liable) to be made on *claims* arising in the period up to the next investigation, including the basis of calculation and the form in which the bonus is payable, together with -
 - (a) where the rates of bonus depend on the original term of the contract or on the period of years a contract has been in force, specimen rates at 5-year intervals of original term or duration, as the case may be;
 - (b) where the rates of bonus depend on the age of the life assured, specimen rates at 10-year intervals of age;
 - (c) where the rates of bonus depend on the date of each previous *premium* payment, specimen rates at 5-year intervals of time since the *premium* was paid, and for *premiums* paid in each of the five years ending with the current year; and
 - (d) in all other cases, full details of the rates of bonus.
- (2) Where the rates of bonus depend on a formula or a series of formulae, then the formula or formulae must be listed instead of the specimen rates. Wherever appropriate, rates of bonus are to be expressed as a fraction of the attribute of the contract to which they are related, e.g. as rates per £1000 of the sum assured and existing bonuses.

Form 46

17. (1) A statement in Form 46 summarising changes in *long-term insurance business* for all non-group contracts. Information is to be given gross of reinsurance ceded and must be provided separately for United Kingdom and overseas business, taxable and non-taxable business, and in each case for *non-linked contracts* and *linked long-term contracts*. For group contracts only the number of contracts in force at the end of the period is to be given in a note to the appropriate statement.
- (2) In Form 46 -

- (a) the figures for annual *premiums* must include repeated or recurrent single *premiums* where the level of *premium* is defined;
- (b) for *hybrid-linked contracts*, movements between linked and non-linked business must be shown in lines 13 and 27 as appropriate; and
- (c) only claim payments which result in the termination of a contract providing cover for other insured events must be shown in line 22.

Form 47

18. (1) Separate statements in the form set out in Form 47 analysing new *long-term insurance business* for United Kingdom business and overseas business, taxable and non-taxable business, and in each case for *non-linked contracts* and *linked long-term contracts*. New business must be shown gross of reinsurance ceded and must include increases to *premiums* on existing policies, and in dealing with such increases, columns 2 and 5 must be left blank.
- (2) Single *premium* contracts must consist of those contracts under which there is no expectation of continuing *premiums* being paid at regular intervals and additional single *premiums* paid in respect of existing individual contracts must be included. Regular *premium* contracts must include those contracts under which *premiums* are paid at regular intervals during the policy year, including repeated or recurrent single *premiums* where the level of *premium* is defined.
- (3) The information must be shown separately and totalled within each section in the sequence
- (i) tax exempt business
 - (ii) taxable business.
- (4) The information must be shown separately and totalled within each section in the sequence -
- (i) United Kingdom direct written business
 - (ii) United Kingdom reinsurance accepted
 - (iii) overseas direct written business
 - (iv) overseas reinsurance accepted.
- (5) The information is to be analysed and totalled within each type of business in the following sequence -
- (i) life assurance and general annuity business
 - (ii) pension business
 - (iii) permanent health business
 - (iv) other business.
- (6) The information is to be further analysed and sub-totalled in the following sequence –

- (i) *accumulating with-profit policies*
- (ii) *non-linked with-profits policies*
- (iii) *non-linked non-profit policies*
- (iv) *index linked contracts*
- (v) *other linked long-term contracts*

and where a policy falls within more than one of the categories, it must be placed in the first appropriate category.

- (7) Within each sub-division required under (5) and (6), the appropriate types of insurance from the following list are to be shown separately -
- (i) whole life assurance
 - (ii) endowment assurance
 - (iii) pure endowment assurance
 - (iv) term assurance
 - (v) other assurance (to be specified)
 - (vi) deferred annuity
 - (vii) annuity in payment
 - (viii) other annuity (to be specified)
 - (ix) permanent health insurance
 - (x) capital redemption assurance
 - (xi) annuity certain
 - (xii) group pension
 - (xiii) group life
 - (xiv) group permanent health
 - (xv) other group (to be specified).

- (8) In the case of group contracts, the information to be given is to relate to new contracts and increments under existing contracts. The amount of the increment under an existing contract must be taken to be the increase in the annual *premium* shown in Form 51, 52, 53 or 54 as appropriate, over the previous highest level shown in those Forms. Decreases in any year for an existing contract are to be ignored.

Forms 48 and 49

19. (1) Separate statements of *long-term insurance business assets* (other than assets held to match *property linked* or *index linked liabilities*) are to be given in Forms 48 and 49 in respect of each fund or group of funds for which separate assets are appropriated. The word "Total" or the name of the fund must be shown against the heading "Category of assets".
- (2) A brief description of the extent to which any of the amounts recorded in Form 48 would be changed if assets which the *friendly society* had a right or obligation to acquire or dispose of under *derivative contracts* or contracts having the effect of *derivative contracts* outstanding at the end of the period (being in the case of *options*, only those *options* which it would have been prudent to assume would be exercised) had been so acquired or disposed of.

- (3) A brief description of how different the information provided pursuant to (2) would have been if such *options* as were outstanding at the end of the period had been exercised in such a way as to change the amounts referred to in (2) to the maximum extent.
- (4) A brief description of how different the information provided pursuant to (2) and (3) would have been if, instead of applying to contracts outstanding at the end of the period, they had applied to *derivative contracts* outstanding at such other time during the period as would have changed the amounts referred to in (2) and (3) to the maximum extent.
- (5) In Form 48 -
- (a) the expected income is to be given as the amounts before deduction of tax which would be received in the next period on the assumption that the assets will be held throughout the period and that the factors which affect income will remain unchanged but account must be taken of any changes in those factors known to have occurred by the *valuation date* (in particular, changes of the type (a), (b), (c) or (d) denoted in 10(5) of Appendix 5). The expected income shown in this Form must be that determined before any adjustments considered necessary because of 10(6) or (7) of Appendix 5;
 - (b) where a particular asset is required to be taken into account only to a specified extent by the application of the admissibility limits, the expected income from that asset must be included only to the same extent;
 - (c) the treatment of the expected income from any asset where the payment of interest is in default and the amount of interest involved must be stated in a supplementary note;
 - (d) where the yield in column 3 for a type of asset shown in line 17, 18 or 19 of the Form (assumed to be zero for assets in line 19) is significantly different from the *weighted average of the yields* for each asset of that type determined in accordance with 10(7) of Appendix 5, then the latter yield figure must be shown in a note to the Form. For this purpose, the *weighted average of the yields* means an average yield weighted by the value of each asset of that type as entered in column 1; and
 - (e) where an entry at 13.87.1 has resulted from excess *exposure* to a *counterparty* or *excess concentration with a number of counterparties*, the aggregate value of the assets of the *friendly society* giving rise to *exposure* to such *counterparties* must be stated in a supplementary note, together with the expected income from those assets.
- (6) In Form 49 -
- (a) the gross redemption yield in columns 2 and 5 for each asset must be calculated as in 10(3), (4) and (6) of Appendix 5, leaving out of account

any adjustment considered necessary because of 10(7) of Appendix 5. Where a number of assets with different gross redemption yields are held, the weighted average gross redemption yield must be calculated using as weights the value of the asset applicable for entry into columns 1 and 4 respectively;

- (b) the value of admissible higher yielding assets to be shown in columns 3 and 6 must be the value of admissible assets as shown in Form 13 where the gross redemption yield on those assets exceeds the gross redemption yield shown in columns 2 and 5 respectively by at least 1.5%; and
- (c) where *securities* may be redeemed over a period at the option of the guarantor or the *issuer*, they must be classified on the assumption that they will be redeemed at the latest possible date or, if it is assumed that they will be redeemed at any earlier date, a note must be provided explaining what assumption has been made.

Forms 51, 52, 53 and 54

- 20. (1) Separate statements in Forms 51, 52, 53 and 54 and separate valuation summaries must be completed in respect of each separate fund or part of a fund for which a surplus is determined under rule 5.1.
- (2) Separate totals for column 5 on Form 51 and columns 5, 6 and 7 on Forms 52, 53 and 54 must be shown for sums insured, for annuities per annum and for other measures of benefit.
- (3) In relation to Forms 51, 52, 53 and 54 -
 - (a) information must be shown separately and totalled for each of the following -
 - (i) United Kingdom business
 - (ii) Overseas business;
 - (b) the information must be shown on separate pages and totalled for each type of business in the following sequence -
 - (i) life assurance and general annuity business - taxable
 - (ii) life assurance and general annuity business - non-taxable
 - (iii) pension business
 - (iv) permanent health business - taxable
 - (v) permanent health business - non-taxable
 - (vi) other business;
 - (c) the information is to be further analysed and sub-totalled for -
 - (i) direct written business
 - (ii) reinsurance accepted

(iii) reinsurance ceded

and totals net of reinsurance ceded are also to be shown, provided that where any information to be provided in accordance with (c)(iii) duplicates any information required to be provided in accordance with (d), (e) and (f) in respect of (c)(i) or (ii), then for the purpose of (c)(iii), the total of the reinsurance ceded may be shown in respect of the duplicated information;

(d) the information must be further analysed and sub-totalled within each basis of participation in profits in the following sequence -

- (i) *with-profits policies*
- (ii) *non-profit policies*;

(e) within each sub-division required under (b), (c) and (d) the appropriate types of insurance from the following list must be shown separately –

- (i) whole life assurance
- (ii) endowment assurance
- (iii) pure endowment assurance
- (iv) term assurance
- (v) other assurance (to be specified)
- (vi) miscellaneous assurance
- (vii) deferred annuity
- (viii) annuity in payment
- (ix) other annuity (to be specified)
- (x) miscellaneous annuity
- (xi) permanent health insurance
- (xii) capital redemption assurance
- (xiii) annuity certain,
- (xiv) group pension
- (xv) group life
- (xvi) group permanent health
- (xvii) other group (to be specified)

and particulars must also be shown of any subsidiary provisions within *general insurance business class 1 or 2*;

(f) a further sub-division into each separate category of contract is required as follows -

- (i) Forms 51 and 52 - each category of contract which is valued on a different valuation basis;
- (ii) Form 53 - each category of contract which provides different guarantees or options, and each category of unit link. For the purpose of determining the category of the unit link, all authorised unit trusts may be considered to be one category and all *internal linked funds* may be considered to be one category;

- (iii) Form 54 - each category of contract which provides different guarantees or options, and each category of index. Where the link is to a proportion of an index each different proportion must be treated as a different category;
- (g) any contract which consists of a combination of different types of insurance, as described in (e), must be treated as a number of separate contracts each dealing with one of the different types of insurance so combined and the amount by which the total number of contracts shown in column 4 of any valuation summary exceeds the actual number of contracts to which that valuation summary relates must be stated in a supplementary note;
- (h) for *linked contracts* with both *property linked* and *index linked benefits*, each benefit must be shown on Form 53 or 54 as appropriate, and a note must be attached describing the manner in which details relating to the number of contracts and the amounts of benefits, *premiums* and other liabilities have been treated. Where the number of contracts is overstated in aggregate, the amount of the overstatement must be stated in a supplementary note;
- (i) for *linked contracts* which are also *accumulating with-profits policies*, that part of the benefits which are with-profits must be shown on Form 52 and the remainder of the benefits on Form 53 and/or 54 as appropriate, and a note must be attached describing the manner in which details relating to the number of contracts and the amounts of benefits, *premiums* and other liabilities have been treated. Where the number of contracts is overstated in aggregate, the amount of the overstatement must be stated in a supplementary note;
- (j) reserves calculated on an aggregate basis (including reserves for taxation on capital gains, for investment performance guarantees or other special reserves) or adjustments must be shown on separate lines in the *mathematical reserves* column and the particulars of such reserves or adjustments must be specified;
- (k) contracts the nature of which or the method of valuation of which makes it impossible or inappropriate to give the information in the exact form required by Forms 51, 52, 53 and 54 must be shown on a separate valuation summary with appropriately modified column headings and the reason for the modification stated in a supplementary note; and
- (l) where a net premium method of valuation is not used for contracts reported on Form 51 then, notwithstanding (k)–
 - (a) columns 7 and 8 must be left blank;
 - (b) if the method used does not separately identify suitable values to be entered in columns 9 and 10, then the total amount of

mathematical reserves must be entered in columns 9 and 12, and columns 10 and 11 must be left blank; and

- (c) if the method used does separately identify suitable values to be entered in columns 9 and 10, then the entry in column 11 must be the amount entered in column 10 less the amount reserved for future expenses, so that the amount in column 12 equals the amount in column 9 less the amount in column 11.

Forms 55 and 56

- 21. (1) Separate analyses of unit liabilities in Forms 55 and 56 in respect of each separate fund or part of a fund for which a surplus is determined under rule 5.1.
- (2) The analyses of unit liabilities must also include liability in respect of any amounts deposited with the *friendly society* under a *deposit back arrangement* which are either unit liabilities in respect of *property linked benefits* or investment liabilities in respect of *index linked benefits*.
- (3) In the event that the liability for a specific fund link is wholly reinsured so that entries in columns 8 and 9 of Form 55 are omitted in accordance with (4)(g), if such be the case, a statement to the effect that the provisions of rule 4.11 have been complied with in accordance with any published guidance in relation to the liabilities so reinsured.
- (4) In Form 55 -
 - (a) separate Forms must be prepared in respect of *internal linked funds* and directly held assets;
 - (b) separate line must be used for each asset to which benefits are linked and each different type of unit of each *internal linked fund*;
 - (c) columns 5, 6, 7, 8, 9 and 10 must be sub-totalled for each fund link and totalled for all links;
 - (d) the aggregate of the total figures shown for column 8 (excluding any amount shown in column 8 pursuant to (h)) and 9 in each Form prepared in respect of a separate fund or part of a fund must equal the appropriate figure shown as the total of column 12 of Form 53;
 - (e) for links to directly held assets, column 6 must not be used;
 - (f) for *internal linked funds*, the total of column 5 must equal the total of column 8 of the summarised Form 43, and the total of column 6 must equal the total of column 3 of the summarised Form 43;
 - (g) where the liability shown in column 11 of Form 53 for a specific fund link is wholly reinsured with a reinsurer, being an insurer (other than an EEA firm) with permission under the Act to effect or carry out contracts

of reinsurance or another *friendly society*, so that entries in columns 8 and 9 of this Form would otherwise be identical, the entries in respect of that fund link must be aggregated and shown on a separate line with the name of the fund link to be shown in column 1 as "wholly reinsured"; and

- (h) any amounts included in this analysis in accordance with (2), being unit liabilities in respect of *property linked benefits* deposited with the *friendly society* under a *deposit back arrangement*, must (for each *internal linked fund* or directly held asset), be shown on a separate line with the name of the unit type to be shown in column 2 as "amounts deposited back".

(5) In Form 56 -

- (a) assets and liabilities in column 2 must be listed individually except that where a group of assets of similar type is held which is intended to mirror the performance of an index, a description of the type of assets held may be given. Liabilities must be shown between round brackets and must be fully described;
- (b) a separate sub-total of assets and liabilities must be used for each index link and for each combination of assets and liabilities matching the *friendly society's* liability under any *deposit back arrangement*. Links to different percentages of an index must be treated as different index links;
- (c) for each index link, the sub-totalled values in column 2 (excluding those held in respect of any *deposit back arrangement*) must match the appropriate entries in column 12 of Form 54 net of reinsurance ceded;
- (d) assets and liabilities arising from *derivative contracts* (or contracts or assets which have the effect of a *derivative contract*) must be shown separately. Amounts must be shown net of *variation margin* in column 2 and gross of *variation margin* in column 3. Rights to recover assets transferred by way of *initial margin* must not be shown on Form 56;
- (e) where there is a liability to repay *variation margin* and there are no arrangements for netting of amounts outstanding or the arrangements would not permit the accounting of such amounts on a net basis in accordance with generally accepted accounting practice, it must be so stated in a supplementary note to the Form; and
- (f) any provision for adverse changes must be determined in accordance with 4 of Appendix 5 and shown in a supplementary note to the Form.

Form 57

22. (1) Separate statements in Form 57 for each fund or group of funds for which separate assets are appropriated in respect of all *long-term liabilities* except -

- (a) the unit liabilities in respect of *property linked benefits* as shown in column 12 of Form 53;
 - (b) the investment liabilities in respect of *index linked benefits* as shown in column 12 of Form 54;
 - (c) any reserve in respect of provisions made for tax on unrealised capital gains in arriving at the valuation price of *internal linked funds*; and
 - (d) the liabilities in respect of any amounts deposited with the *friendly society* under a *deposit back arrangement* which are either unit liabilities in respect of *property linked benefits* or investment liabilities in respect of *index linked benefits*.
- (2) A general description of the method by which the yield on assets other than equity *shares* and land was adjusted in accordance with 10(7) of Appendix 5.
- (3) For assets which are equity *shares* or land, a description of the categories into which such assets were divided for the purposes of 10(7) of Appendix 5, together with the method and basis by which the yield on such assets was adjusted in accordance with that rule.
- (4) In relation to Form 57 -
- (a) a separate Form must be completed in respect of each fund or group of funds for which separate assets are appropriated. The word "Total" or the name of the fund must be shown against the heading "Category of assets";
 - (b) separate Forms must be prepared for sterling and non-sterling liabilities;
 - (c) separate Forms are required for with-profit and non-profit contracts within the following types of business -
 - (i) life assurance and annuity business
 - (ii) pension business
 - (iii) permanent health business
 - (iv) other business;
 - (d) separate Forms are required for each rate of interest used in the valuation in pursuance of 10(12) of Appendix 5 and may include all contracts valued at the same rate, subject to (b) and (c). Contracts valued at a lower rate of interest but subject to the same apportionment of assets may also be included provided that the rationale for such inclusion is given in a supplementary note. Each of the valuation rates of interest used must be shown against the heading "Rate of interest". The highest valuation rate of interest used must be shown in line 31 or 32 as appropriate;

- (e) the Forms specified in (a), (b), (c) and (d) must exclude the liabilities described in (1)(a) to (d) and must cover at least 90% of the remaining *long-term liabilities*. The balance of the remaining *long-term liabilities* must be shown in a separate Form in which lines 31 and 32 must be left blank, and details of the contracts covered by the Form must be given in a supplementary note to the Form. The word "Balance" must be shown against the heading "Rate of interest";
- (f) a summary of all the separate Forms must be produced as a separate Form in which lines 31 and 32 must be left blank. The word "Total" must be shown against the heading "Rate of interest";
- (g) the risk adjusted yield in columns 2 and 6 for each asset included in column 1 and 5 respectively must be that calculated as in 10(3) to (6) of Appendix 5, taking account of any adjustment considered necessary because of 10(7) of Appendix 5. Where a number of assets with different risk adjusted yields are held, the weighted average risk adjusted yield must be calculated using as weights the value of the asset applicable for entry into columns 2 and 6;
- (h) the value of each asset included in column 1 must be the value attributed to it in Form 13 and the assets will be grouped according to Note 1 to Form 48 including adjustments in respect of accrued interest as required by that Note;
- (i) where the valuation has been carried out at a net rate or rates of interest the figure in line 31 must be the net rate grossed up at the corresponding effective rate of tax in respect of the highest valuation rate of interest used in the Form;
- (j) the mathematical reserve in line 33 must include any increase in reserve resulting from the bonus declaration for the year and must be net of reinsurance ceded;
- (k) the entries shown at columns 3, 4, 5 and 6 must be those applicable to the scenario described in the answer to 7(8). The entries in column 3 must be the value of the assets shown in column 1 according to the changed assumptions of that scenario. The entries in column 4 must be the value of assets on the changed assumptions for each type of asset notionally re-allocated to cover the mathematical reserve or other liability, net of reinsurance, in the resilience scenario. The entries in column 5 must equal the sum of the entries in columns 3 and 4; and
- (l) the entries in line 29, column 1 must equal the entries in line 33, column 1. The entries in line 29, column 5 must not be less than the entries in line 33, column 5.

Form 58

23. (1) Separate statements of the results of the valuation in Form 58 in respect of each separate fund or part of a fund for which a surplus is determined under rule 5.1.
- (2) In relation to Form 58 -
- (a) where interim, mortuary or terminal bonuses are determined in advance of a valuation and are paid in anticipation of surplus arising at the valuation, the amounts of such bonus actually paid in the period up to *valuation date* must be entered in lines 12 and 41. To the extent that it is the practice of the *friendly society* to make specific provision for the cost of such bonuses payable on future *claims* out of surplus arising at a valuation, such amounts must be treated as amounts allocated to *policyholders* and members at the valuation in question and included in line 44 and the actual amounts paid must not appear at lines 12 and 41 at future valuations. An appropriate note must be appended identifying the various items where necessary; and
- (b) where policies have been transferred from one fund to another, the associate transfer of reserves must not be included as a "transfer" in this Form. Where any other transfer has been made, only one positive figure must be inserted in either line 15 or line 34 (depending on the direction of the net transfer) leaving the other line blank.

Forms 60 and 61

24. (1) A statement of the *required minimum margin* for *long-term insurance business* in Form 60 and of the *required margin of solvency* for the subsidiary provisions in Form 61.
- (2) If the gross annual office *premiums* for the subsidiary provisions in force on the *valuation date* do not exceed 1% of the gross annual office *premiums* in force on that date for all *long-term insurance business*, Form 61 need not be completed provided it can be stated that the entry in line 51 of Form 60 exceeds the amount that would be obtained if Form 61 were to be completed. In this circumstance, the method of estimating the entry in line 51 of Form 60, together with a statement of the gross annual office *premiums* in force at the *valuation date* in respect of the subsidiary provisions, must be given.

FSC 1 – Notes to Form 13

1

The Accounts Regulations refer to the Friendly Societies (Accounts and Related Provisions) Regulations 1994.

2

The admissibility limits are those applied under Annex B to Appendix 4.

3

‘Assets of a type not valued above’ refers to assets left out of account under rule 2(3) of Appendix 4.

FSC 1 – Notes to Form 14

- 1** The entry at lines 11 and 19b must equal the sum of lines 21, 43, 44 and 45 of the corresponding Form or Forms 58.
- 2** The entry at line 12 must equal the total of line 42 of the corresponding Form or Forms 58.
- 3** The entry at line 13 must equal the total of line 49 of the corresponding Form or Forms 58.
- 4** The entry at line 14 must equal the total of line 59 of the corresponding Form or Forms 40.
- 5** The entry at line 19a must equal the entry at line 49 on Form 40B.
- 6** The entry at lines 19b and 19c must equal the sum of the entries at line 59 on Form 40C.
- 7** The entry at line 19d must equal the entry at line 69 on Form 40A.
- 8** The entry at line 51 must be:
 - (a) the value of the admissible assets (as included in line 89 of the appropriate Form 13) representing the long term insurance business funds, fund or group of funds to which the Form relates, less
 - (b) the amount of those funds, fund or group of funds, being the sum of the amounts shown at lines 14 and 49.
- 9** The entry at line 63 must be the amount specified in paragraphs (a)(ii) of *the appointed actuary's* certificate (Form 61B), but only insofar as it relates to the fund, funds or group of funds to which this Form 14 relates.

FSC 1 – Notes to Forms 48 and 49

1. Where Form 13 is for the same fund or group of funds:-

- the entry at 48.11.1 must be equal to 13.11.1.
- the entry at 48.12.1 must be equal to 13.45.1 and the appropriate part of 13.84.1.
- the entry 48.13.1 must be equal to 13.46.1 and the appropriate part of 13.84.1.
- the entry 48.14.1 must be equal to 13.47.1 and the appropriate part of 13.84.1.
- the entry at 48.15.1 must be equal to 13.42.1 + 13.48.1 and the appropriate part of 13.84.1.
- the entry at 48.16.1 must be equal to 13.41.1 + 13.43.1.
- the entry at 48.17.1 must be equal to 13.50.1 and the appropriate part of 13.84.1.
- the entry at 48.29.1 must be equal to 13.87.1 + 13.89.1 – 13.58.1 – 13.59.1.

The appropriate part of the entry at 13.84.1 to be included in lines 12 to 15 is that part which represents accrued interest on assets included in the relevant line of Form 48. The amounts so included shall be stated in a supplementary note to Form 48.

- 2.
- The entries at 48.12.3, 48.13.3, 48.14.3 and 48.15.3 must be equal to 49.19.2, 49.29.2, 49.19.5 and 49.29.5 respectively. The yields to be inserted in column 3 of form 48 for other categories of asset must be the running yields determined in accordance with rules 10(3) to (6A) in Appendix 5.
 - The entry at 48.29.3 must be the weighted average of the yields in column 3 of Form 48, where the weight given to each asset is the value of that asset applicable for entry into column 1; assets not producing income must be included in the calculation.
 - The entries at 49.19.1, 49.19.2, 49.19.4, 49.19.5, 49.29.1, 49.29.2, 49.29.4 and 49.29.5 must be equal to the values at 48.12.1, 48.12.3, 48.14.1, 48.14.3, 48.13.1, 48.13.3, 48.15.1 and 48.15.3 respectively.
 - The entries at 49.19.2, 49.19.5, 49.29.2 and 49.29.5 must be the weighted average of the yields in columns 2 and 5 as appropriate for lines 11 to 18 and 21 to 28 respectively, where the weight given to each yield is the value shown in columns 1 and 4 respectively.

Long term insurance business: Annual Investigation – Actuary’s Certificate

Name of Society

Period ended 31 December

Reg No	

I certify that:

- (a) (i) in my opinion, proper records have been kept by the society adequate for the purpose of the valuation of the liabilities of its long term insurance business;
- (ii) the sum of the mathematical reserves and the deposits received from reinsurers as shown in Form 14 together, if the case so requires, with £..... (being part of the excess of the value of the admissible assets representing the long term insurance business funds over the amount of those funds shown in Form 14) constitute proper provision at the end of the financial year for the long term insurance liabilities (including all liabilities arising from deposit back arrangements, but excluding liabilities which have fallen due before the end of the financial year) including any increase in those liabilities arising from a distribution of surplus as a result of any investigation as at that date into the financial condition of the long term insurance business; and
- (iii) for the purpose of sub-paragraph (ii) above the liabilities have been assessed in accordance with Appendix 5 in the context of assets valued in accordance with Appendix 4, as show in Form 13;
- (iv) in my opinion, premiums for contracts entered into during the financial year and income earned thereon are sufficient, on reasonable actuarial assumptions, and taking into account the other financial resources of the society that are available for the purpose, to enable the society to meet its commitments in respect of those contracts, and, in particular, to establish adequate mathematical reserves; and
- (v) I have complied with the Institute of Actuaries and Faculty of Actuaries professional guidance notes listed below.

- (b) The amount of the required minimum margin of solvency applicable to the society’s long term insurance business immediately following the end of the financial year (including any amounts resulting from any increase in liabilities arising from a distribution of surplus as a result of the investigation into the financial condition of the long term insurance business) is £.....
- (c) I have the following additional comments (use extra pages).

Descriptive Section

Name of Society:

Reg No

1. The date to which the investigation relates is

2. The date to which the latest previous investigation relates is

3. A synopsis of the report by the appropriate actuary on his investigation into the financial condition of the society in respect of its insurance business, including

- a statement of the assets and liabilities of the society;
- information and comments on the
 - changes in membership of the society,
 - benefit entitlements that have been valued,
 - mortality, sickness and claims experience of the society,
 - investment returns achieved by the society,
 - suitability of the assets held by the society,
 - provisions made for future expenses,
 - reserves set aside for activities of the society not covered by the valuation,
 - scope for enhancement of benefits; and
- the actuary's assessment of the financial viability of the society and, where the assessment indicates that changes are necessary or desirable, the options open to the *committee* along with the advantages and disadvantages of each course of action and the likely consequences of taking no action.

FSC 2 – FORM 9B

Returns under the Friendly Societies Prudential Rules

Actuary's Certificate

Name of Society

Period ended 31 December

Reg No	

I certify that:

- (a) (i) in my opinion, proper records have been kept by the society adequate for the purpose of the valuation of the liabilities of its insurance business;
- (ii) the contents of the synopsis in Form 9A correctly reflect the results of my investigation into the financial condition of the society in respect of its insurance business;
- (iii) no matters, except as described in Form 9A, have come to my attention during the course of my investigation which in my opinion prejudice the financial viability of the society or the reasonable expectations of its members;
- (iv) I have had regard to the following Institute of Actuaries and Faculty of Actuaries professional guidance notes and, in so far as they are relevant to my investigation for the purposes of this certificate, I have complied with them

- (b) The amount of the required minimum margin of solvency applicable to the society's insurance business immediately following the end of the period of investigation (including any amounts resulting from any increase in liabilities arising from a distribution of surplus as a result of the investigation into the financial condition of the insurance business) is £.....
- (c) I have the following additional comments (use extra pages).

NOTES

1. Amounts included at lines 11 to 18 must be shown undiscounted.
2. The values in column 4 must be calculated as follows: for lines 11 to 18 values in columns 2 + 3 – 1; for line 19 values in columns 3 – 1; and for lines 21 to 29 values in columns 1 + 2 – 3.
3. The amounts shown at lines 11 to 13 must exclude amounts in respect of claims management costs.

FSC 3 – Notes to Form 23

1 All figures must be shown net of the reinsurers' share.

2 Columns 1 to 9 must be shown undiscounted.

3 All amounts shown must exclude claims management costs.

4 The percentage shown at column 12 must be the ratio of the columns 3 + 4 + 5 + 6 – 2 to column 2.

5 The percentage shown at column 13 must be the ratio of the columns 1 + 3 + 4 + 5 + 6 to column 11.

6 $23.29.5 + 23.29.6 = 22.13.3 + 22.17.3$;
 $23.29.7 + 23.29.8 = 22.13.1$; and
 $23.29.4 = 22.13.2 + 22.17.2$

7 The percentages shown at columns 12 and 13 must be expressed as percentages to one place of decimals.

Period ended 31 December

Reg No	

I certify that:

- (a) (i) in my opinion, proper records have been kept by the society adequate for the purpose of determining the technical provisions in Form 15;
- (ii) in my opinion, the technical provisions shown in Form 15 are appropriate having regard to the nature of general insurance business undertakings of the society including my interpretation of the reasonable expectations of its members as described in Form 23A; and
- (iii) for the purpose of sub-paragraph (ii) above the liabilities have been assessed in accordance with Appendix 5 in the context of assets valued by the *committee* of the society in accordance with Appendix 4, as show in Form 13;
- (iv) the contents of the synopsis in Form 23A correctly reflect the results of my investigation into the financial condition of the society in respect of its insurance business in so far as that investigation relates to general insurance business;
- (v) I have had regard to the following Institute of Actuaries and Faculty of Actuaries professional guidance notes and, in so far as they are relevant to my investigation for the purposes of this certificate, I have complied with them

(b) I have the following additional comments (use extra pages).

CERTIFICATE OR STATEMENT

FORM FSC4

given by the appropriate actuary pursuant to rule 5.2(3)

Period ended 31 December

The appropriate actuary is requested to complete the certificate in section A, or if unable to do so, the statement in section B. The chief executive of the society is requested to sign section C.

SECTION A

CERTIFICATE

I,⁽¹⁾, CERTIFY that in my opinion there has been no material change in the financial condition of⁽²⁾ in respect of its insurance business since the society sent the last abstract of the appropriate actuary's report (on the society's financial condition as at⁽³⁾) to the Financial Services Authority under rule 5.2(2) which would be likely to result in the value of the liabilities (including any required margin of solvency) exceeding the value of the assets should a full investigation be undertaken as at⁽⁴⁾. I am unaware of any circumstances arising between the year end to which the certificate relates and the date on which it is signed which would cause the society to fail to meet its minimum solvency requirement⁽⁵⁾ / the society's liabilities to exceed its assets⁽⁵⁾.

Signed
Fellow of the of Actuaries

Date

SECTION B

STATEMENT

I,⁽¹⁾, am unable to give a certificate in the form set out in section A above in respect of⁽²⁾.

Signed
Fellow of the of Actuaries

Date

SECTION C

Signed (Chief Executive)

Date

Notes to sections A, B and C

- ⁽¹⁾ insert full name of appropriate actuary
- ⁽²⁾ insert name of friendly society
- ⁽³⁾ insert effective date of last actuarial abstract
- ⁽⁴⁾ insert date of year end to which the certificate relates
- ⁽⁵⁾ delete as appropriate – on the basis of rule 4.1

**The form should be sent to
The Financial Services Authority, 25 The North Colonnade, Canary Wharf, London E14 5HS**

GUIDANCE ON CORPORATE GOVERNANCE OF FRIENDLY SOCIETIES

This Annex sets out the *FSA's* view of best practice in the corporate governance of *friendly societies*.

The committee of management

1. (1) The *committee* should meet regularly, retain full and effective control over the *friendly society* and monitor the executive management, subject always to the authority vested in members either directly or through delegate bodies, either annually or at other properly constituted meetings.
- (2) The effectiveness of a *committee's* arrangements for monitoring the performance of executive management and for the overall control and direction of the *friendly society* are important tests of its compliance with the *FSA* principles for business in particular principles 2 (“Skill, care and diligence”) and 3 (“Management and control”).
- (3) There should be appropriate arrangements such as a clearly accepted division of responsibilities at the head of a *friendly society*, which will ensure a balance of power and authority, such that no one individual can exert undue influence.
- (4) The *1992 Act* envisages that the offices of Chairman and Chief Executive would be separately held.
- (5) In relation to the size of the *friendly society*, the *committee* should include non-executive members of sufficient number for their views to carry significant weight in the *committee's* decisions.
- (6) A *committee* should have non-executive members of sufficient quality, breadth of experience and calibre for their views to carry weight in the *committee's* decisions and who, individually, can devote the necessary time and attention to the *friendly society's* business.
- (7) There should be an agreed procedure for any member of the *committee* to seek additional information from the executives and to take independent professional advice at the *friendly society's* expense; as may be necessary in the furtherance of his/her duties.

Non-Executive members of the committee of management

2. (1) Non-executive members of the *committee* should bring an independent judgement to bear on issues of strategy, performance, resources, including key appointments, and standards of conduct.
- (2) In assessing whether a candidate for election has an appropriate level of competence, consideration should be given to his or her previous experience of similar responsibilities, the record in performing them and, where appropriate, whether the candidate has relevant qualifications and training. Also important is the individual's ability to bring informed, independent judgement to bear on the issues considered by the *committee*.

- (3) They should be independent of management and free from any business or other relationship which could materially interfere with the exercise of their independent judgement.
- (4) If fees are paid they should reflect the time which non-executives commit to the *friendly society* and the particular responsibilities related to the size, complexity and diversity of the *friendly society's* business.
- (5) Non-executive members should be elected for specified terms subject to the ceiling imposed by paragraph 6(1)(a) of Schedule 11 to the *1992 Act*; and re-election should not be automatic. Candidates for election as non-executive members should be selected from as wide a constituency as possible.

Executive members of the committee of management

3. (1) Where appointments of senior executives are subject to a formal service contract for a fixed term, the term should not exceed 3 years.
- (2) In the case of any other service contract the period of notice which the *friendly society* has to give to terminate the contract should not exceed 1 year.
- (3) There should be full and clear disclosure of the total emoluments and terms of appointment (including notice) of all of the members of the *committee*.
- (4) Such disclosure would normally be given in the accounts issued by the *friendly society* to its members.

GUIDANCE ON RELATIONSHIPS WITH CONTROLLED BODIES

[Deleted]

GUIDANCE ON OFFICERS' LIABILITY INSURANCE

Introduction

1. This Annex draws attention to the need for a *committee* of a *friendly society* to consider whether to purchase and maintain liability insurance for *officers* and to make sure that the terms of any such policy are fully understood and meet the *friendly society's* needs. A *committee* should disclose the fact that the *friendly society* has purchased or maintained such insurance in the *committee's* annual report.

Section 106

2. Section 106 of the *1992 Act* provides that a *friendly society* cannot exempt its *officers* (including the *appropriate actuary*) or auditors from liability for negligence, default, breach of duty or breach of trust, or indemnify them against such liability. A *friendly society* may, however, indemnify its *officers* or auditors against liability for defence against proceedings where judgement is favourable or the person is acquitted. Section 106 also provides that a *friendly society* can purchase and maintain insurance against any such liability.
3. A *friendly society* which attempts either directly or indirectly (eg, via a year end bonus) to compensate its *officers* for any liabilities arising as a result of error or omission would contravene the provisions of section 106. Such contravention would also clearly risk breaching principle 2 of the *FSA Principles for Businesses* (conduct of business with due skill, care and diligence).

Duty of care

4. Annex 3 (Guidance on Systems of Accounting, Control of Business and Inspection and Report) draws attention to the increasing risks faced by *friendly societies* in the light of the increasing complexity of operations and the increasing pace of change and risks in the financial markets. These factors have led to an increase in the risk that errors and omissions will occur which may give rise to substantial liabilities for *officers*.
5. Annex 3 also draws attention to the special duty of care that the *officers* of a *friendly society* have in respect of safeguarding the interests of *policyholders*. This duty is recognised in principle 6 of the *FSA Principles for Businesses* (paying due regard to *policyholders* interests and treating them fairly). In the *FSA's* view, because of the increasing risk of error and omission, and the possibility that any liabilities which may arise as a result could be substantially greater than an *officer's* or *officers'* financial resources to cover them, that duty of care places a responsibility on a *committee* to consider whether the *friendly society* should obtain indemnity insurance cover for appropriate *officers* in the interests of members (see 6).

Liability insurance

6. The *FSA* will expect any *committee* that has not already done so to give formal consideration to whether to obtain indemnity insurance cover against error and omission for appropriate *officers* (eg. *committee* and senior executives). The *committee*

may wish to take into account a number of factors including: the implications of the risks inherent in the nature and scale of the *friendly society's* business; the cost of the indemnity insurance *premiums*; and *officers'* concerns about the risk of liability that they face because of their duties and responsibilities for the *friendly society*. The minutes of the meeting at which the issue was formally discussed by the *committee* should record the decision reached and underlying reasoning.

7. A *committee* which decides to obtain and maintain indemnity insurance cover for its *officers* will need to ensure that the implications of the policy terms and conditions, and particularly of the list of exclusions, are fully understood. The best starting point may be for the *committee* to decide the key elements it thinks are essential for such a policy before considering, in conjunction with its professional advisers, whether the terms and conditions of specific policies adequately meet those requirements.
8. The *committee* of a *friendly society* which has obtained suitable indemnity cover should not relax its approach to minimising the risks of liability arising from error and omission. It is very important that a *committee* takes every step it can to ensure its *friendly society's* systems are adequate to minimise the risks: systems of control should be sufficient to minimise the risk of errors or omissions occurring; systems of inspection and report need to be capable of identifying any such problems at an early stage, so that matters can be rectified quickly before substantial damage has occurred.

Reporting requirements

9. For companies subject to the requirements of the Companies Acts the fact of the purchase and/or maintenance of indemnity insurance against *officers'* and auditors' liabilities should be disclosed in the directors' report to the annual accounts. The *FSA* considers that the *committee* of a *friendly society* which obtains and/or maintains such an insurance policy should similarly disclose the fact to members in the *committee's* annual report.

Part I

GUIDANCE ON SYSTEMS OF ACCOUNTING, CONTROL OF BUSINESS AND INSPECTION AND REPORT

1. This Part of the Annex sets out the key issues that the *FSA* considers the *committee* and the management of a *friendly society* need to address if the *friendly society's* systems are to satisfy the principle 3 of the *FSA* Principles for Business. That principle requires a *friendly society* to take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems. The *FSA* expects that these issues will have been considered by a *friendly society's committee* in preparing its reports under rule 3.1.

A. INTRODUCTION

Background

2. Rule 3.1 requires the *committee* of a *friendly society* to send a statement of opinion (also referred to in this note as the rule 3.1 report) to the *FSA* each year on the compliance of the *friendly society* with that section.
3. This Annex provides practical guidance to *friendly societies* about the key issues in the *FSA's* view that:
 - (a) need to be addressed if the requirements of rule 3.1 are to be satisfied; and
 - (b) need to be considered by the *friendly society's committee* in preparing its reports to the *FSA*,

and also provides guidance on the format of reports.

Application of rule 3.1

4. Experience among financial institutions generally continues to demonstrate the importance for the protection of investors of adequate systems of control. As far as *friendly societies* are concerned the powers under the *1992 Act*, the increasing complexity of *friendly societies' operations* (including activities carried on by the controlled bodies of *incorporated friendly societies*) combined with the increased pace of change in financial markets emphasises the need for such systems. Rule 3.1 requires *friendly societies* to:
 - (a) cause adequate accounting records to be kept; and
 - (b) establish and maintain systems of control of business and records and of inspection and report.

These requirements are intended to form a sound basis for the control of *friendly societies' businesses* and the protection of *policyholders' funds*. The requirements of rule 3.1 apply to *friendly societies* and *registered branches* and should also be applied by *incorporated friendly societies* with respect to any controlled bodies (see 8).

5. Chapter 3 covers the roles of *committees*, and the *FSA* with regard to systems and reporting. As with other prudential provisions, it is the responsibility of the *committee* of a *friendly society* to ensure the requirements of rule 3.1 are met and to be able to demonstrate that to the *FSA*. The *FSA* sees the main elements of the *committee's* responsibilities to be:
- (a) establishing and maintaining arrangements for the continuous review of systems, including those for new business;
 - (b) [deleted]
 - (c) assessing whether the *friendly society* (including any *registered branches*), or the *friendly society* and any controlled bodies (“the group”), has complied with the relevant requirements of the Act, *FSA* rules made under the Act and the 1992 Act for the period under review and, as necessary, identifying any shortcomings in compliance with the requirements, together with the corrective actions taken or proposed, including timetable;
 - (d) preparing and submitting the rule 3.1 reports required by the *FSA* from the *committee* by the due date; and
 - (e) discussing with the *FSA* any issues arising from these reports and, where appropriate, corrective actions taken or planned.

Satisfying the requirements of rules 3.1

6. It would not be practical to document all the possible considerations the *committee* and management of a *friendly society* will have to take into account in considering whether their *friendly society* satisfies the requirements of rule 3.1. This note therefore focuses on the main issues which, in the opinion of the *FSA*, need to be addressed by the *committee* and by the management of a *friendly society* if the *friendly society* is to satisfy the requirements of rule 3.1. Where the chief executive of a *friendly society* is not also a member of the *committee*, it is nevertheless still important that he or she gives full consideration to these issues - not least because the chief executive is required to be a signatory to the *committee's* reports to the *FSA* under rule 3.1. This note includes a framework which the *FSA* believes can be applied to all *friendly societies* but also recognises the considerable diversity in nature, scale and scope of *friendly societies' operations*.
7. The *FSA* expects that the issues set out in this Annex will have been addressed prior to the preparation of the rule 3.1 report.

Controlled bodies

8. [deleted]

Friendly societies with registered branches

9. Rules 2.2 and 2.3 require a *friendly society* with *registered branches* to supervise the activities of the branches, notwithstanding the duties of the *committees* and managements of those branches. This includes supervision of compliance with the

requirements of rule 3.1. The management information provided to the *committee* and management of a *friendly society* which has *registered branches* will need to include information about the activities of the *friendly society* as a whole (see 18).

Business standards

10. Principle 3 of the FSA Principles for Businesses requires a *friendly society* to take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems. The high standards needed for the management of a *friendly society* apply not only to accounting records and controls, but more broadly to business controls over all aspects - including key management information - of the business carried on by a *friendly society*.

B. ACCOUNTING RECORDS AND SYSTEMS

11. The principal reasons why a *friendly society* (including any *registered branch*) or a group is required by rule 3.1 to maintain adequate accounting and other records are:
- (a) to provide the *committee* and management of a *friendly society* (or a branch) with adequate financial and other information to enable them to conduct its business in a prudent manner on a day to day basis;
 - (b) to enable members of the *committee* to fulfil their statutory duties in relation to the preparation of annual accounts in accordance with sections 69 and 70 and the regulations made under section 70 of the *1992 Act* (currently the *Accounts Regulations*);
 - (c) to safeguard the assets of the *friendly society* (or branch) and the interests of *policyholders*;
 - (d) to enable the *friendly society* (or branch) properly to discharge the duties imposed on it by or under the *Act*, *FSA* rules made under the *Act* and the *1974 Act* and/or the *1992 Act*; and
 - (e) to provide the *committee* and the management of the *friendly society* (or branch) with sufficiently timely and accurate information to enable them to submit the information required or requested by the *FSA*.
12. When forming their opinion on whether the accounting and other records are adequate, the *committee* and chief executive of a *friendly society* should assess the scope and nature of the records in the context of the *friendly society's* needs and particular circumstances. They should have regard to the manner in which the business is structured, organised and managed, as well as the size and nature of the *friendly society* and the volume and complexity of its transactions and commitments. In particular, they will need to satisfy themselves that the records:
- (a) are kept in legible form and/or are capable of reproduction in a legible form to be inspected or made available for inspection;
 - (b) are such that adequate precautions are taken for guarding against the possibility of falsification and for facilitating the discovery of falsification should that occur;

- (c) are such that sufficient information is available to enable the rights and expectations of the *policyholders* to be determined;
- (d) capture and record on a timely basis, and in an orderly fashion every transaction and commitment which a *friendly society* or any *registered branch* enters into with sufficient information about each to explain:
 - (i) its nature and purpose;
 - (ii) the assets and/or liabilities, actual and contingent, which arise or may arise from it;
 - (iii) the income and/or expenditure, current and deferred, which arise from it;
- (e) disclose in an orderly and integrated manner, and with reasonable accuracy and promptness, the state of the business at any time.

The *committee* and management of a *registered branch* will also need to have regard to the matters in (a) to (e).

13. The records should be maintained so as to enable the financial and business information to be extracted promptly so that the *committee* and management can monitor and control the performance of the business, the state of its affairs and the risks to which it is exposed.

C. SYSTEMS OF BUSINESS CONTROL

General

14. It is important for a *friendly society* to identify the risks associated with each area of the business it undertakes and the manner in which it carries out that business. Risks associated with the activities of any *registered branches* or controlled bodies should be similarly identified. Control objectives may then be set for each area of the business, and controls established and maintained which address appropriately the identified risks with the aim of ensuring:
- (a) the conduct of the business in a prudent manner and in accordance with the *friendly society's* statements of policy and business practice and any applicable registered rules;
 - (b) that the *committee* and management have sufficient, and sufficiently reliable, financial information to enable them to effectively direct, control and monitor the business and manage the risks identified; and
 - (c) compliance with all relevant statutory and regulatory requirements.
15. It is not practical for this section of the Annex to set out a comprehensive list of the risks that arise or the controls that might be established to address the risks. This section therefore focuses on general areas of concern to *friendly societies* and, in particular on the "high level" controls (see 16 to 24) that need to be established in these areas. "High level" controls would, in this context, be the overall supervisory controls

available to and exercised by the *committee* and other senior *officers* (eg chief executive) - see also B4 in Attachment B of this Annex and C2(e) and C5(b) in Attachment C of this Annex.

Organisational control systems

16. A *friendly society* needs:
- (a) clearly defined organisational arrangements together with a defined structure of authorities and responsibilities - including reporting lines - distinguishing between decisions to be reserved for the *committee* and those to be delegated to managers and other employees; and
 - (b) arrangements for reviewing compliance with, and effectiveness of, organisational controls.
17. In forming their opinion on systems of business control the *committee* and chief executive of a *friendly society* need to establish whether:
- (a) the *friendly society's* overall organisational arrangements are adequately defined and documented, for example in an organisational manual;
 - (b) the *friendly society's* decision-making processes together with authority limits and responsibilities are adequately defined and documented, for example in operating manuals; and
 - (c) compliance with approved authority limits and stipulated segregation of duties is effectively monitored and controlled.

Management information systems

18. Rule 3.1(5) requires the *committee* of a *friendly society* (including a *friendly society* with *registered branches*, see 9) or the *committee* of a *registered branch* to maintain information systems which, amongst other matters:
- (a) enable the respective *committee* to direct and control the *friendly society's* business or the *registered branch's* business; and
 - (b) provide information required by the *FSA* in its role of prudential supervisor.
19. In evaluating whether a *friendly society* has complied with the requirements, the *committee* and management of the *friendly society* need to satisfy themselves that:
- (a) the information is sufficient to enable the *committee* to determine whether the *friendly society* is meeting the requirement to maintain adequate financial resources (see the rules in chapter 4 and also the guidance in 21);
 - (b) the information available for the different areas of a *friendly society's* activities, including those of controlled bodies, is sufficient for the proper assessment of the risks (including those arising from current relevant market conditions and trends) and the proper determination of the need for capital and liquidity;

- (c) the information about the relative assets and liabilities attributable to different classes of members is sufficient to enable the *friendly society* to determine whether the reasonable expectations of each class of *policyholders* are likely to be met;
- (d) the information available is sufficiently comprehensive to provide the *committee* with a clear statement of the performance and financial position of the *friendly society* (including any *registered branches*) and, if appropriate, the group;
- (e) management information reports are prepared as regularly as necessary to ensure that the *committee* is given timely information about all aspects of the business;
- (f) actual performance is compared with planned or budgeted performance on a regular basis and significant variations are highlighted and explained (see also A6 of Attachment A of this Annex);
- (g) sufficient attention is focused on key factors affecting income and expenditure, including capital expenditure, and that appropriate performance indicators are employed; and
- (h) management information is accurately prepared from the underlying accounting and other records and is presented in a form which is clear, consistent and understandable to those persons for whom it is provided.

The *committee* and management of a *registered branch* will also need to have regard to the matters in (a) to (h) in so far as they are relevant to a branch.

- 20. It is important that the form and content of management information is regularly reviewed to ensure that it remains appropriate and relevant to the current pattern of a *friendly society's* business and to market conditions.
- 21. In forming a view on whether the management information system is sufficiently comprehensive, the *committee* and management of a *friendly society* need to consider whether the information made available to them provides, where relevant, a clear statement of:
 - (a) the solvency position;
 - (b) the liquidity position;
 - (c) surpluses and shortfalls, assets and liabilities, profits and losses in respect of controlled bodies;
 - (d) the performance of investments;
 - (e) for a *friendly society* which makes use of *derivative contracts* the *exposures* and uncovered transactions arising from off-balance sheet transactions; and
 - (f) the financial viability of products and controlled bodies.

The *committee* and management of a *registered branch* will also need to have regard to the matters in (a) to (f) in so far as they are relevant to a branch.

22. Where the *friendly society* has controlled bodies it is particularly important that information covers all the component activities and also the overall group position.

Information for the FSA

23. Rule 3.1(5)(b) requires the systems of control and of inspection and report to be maintained to ensure that the information reported to the *FSA* is sufficiently accurate for the purpose for which it is obtained and is regularly provided. In the case of items requiring estimates or judgement by management there will inevitably be a degree of approximation involved. In these cases, the approximations should be capable of being clearly explained, and should be based on stated assumptions. Financial information should be reviewed prior to submission to the *FSA* at sufficiently senior levels in the *friendly society* to ensure, amongst other matters, consistency with any applicable guidance notes and consistency of information provided in different returns but drawn from the same data source.

Planning systems

24. The *committee* and management of a *friendly society* have to satisfy the *FSA* Principles for Businesses in respect of the *friendly society's* current and its future business. For this reason the *committee* and management need to satisfy the *FSA* that the *friendly society* currently meets the requirements of the *FSA* Principles for Businesses and in addition that there is the capacity and intention to continue to do so. A satisfactory planning system is essential for this latter purpose. Further details are set out in Attachment A of this Annex.

Compliance with statutory and other requirements

25. [Deleted]

26. [Deleted]

Documentation of systems

27. Rule 3.1(4)(b) provides that systems of control should not be treated as if they have been established or maintained unless a detailed statement in writing of the systems as in operation for the time being is kept available for the *committee*. Further details are set out in Attachment B of this Annex.

D. SYSTEM OF INSPECTION AND REPORT

28. The requirement for a *friendly society* or a *registered branch* to establish and maintain a system of inspection and report is distinct from the requirement to establish and maintain systems of control. The *FSA* expects that the system of inspection will be undertaken by one or more independent inspectors ("the inspection function"). In this context independent means independent of the functions inspected, see C3(a) at Attachment C of this Annex. The precise arrangements will depend upon the size and nature of the *friendly society* and could therefore vary considerably. Suitable arrangements would include a department (eg an internal audit department) of one or

more members of staff appointed on a full or part-time basis or inspection services provided from outside the *friendly society*, for example from an auditing firm other than the *friendly society's* auditors (who would not normally be expected to provide inspection services - see C6(a) of Attachment C of this Annex). The inspection function should report direct to the *committee* or the audit sub-committee (see 29). The needs of the smallest *friendly societies* with respect to a system of inspection and report may be very simple and it is for the *committee* of such a *friendly society* to consider how best to fulfil the requirements. Further details are set out in Attachment C of this Annex.

E. COMMITTEE REVIEW AND OVERSIGHT

29. The ultimate responsibility for ensuring a *friendly society* complies with the requirements of rule 3.1 rests with the *committee* (see 5). The *committee* will therefore need effective oversight and review procedures to be able to discharge its responsibilities, including those under rule 3.1. An audit sub-committee can assist a *committee* in this respect - although such a sub-committee cannot have delegated to it the responsibilities of the full *committee* for the systems of control and of inspection and report. The *committee* of a *friendly society* may wish to consider whether to establish an audit sub-committee, which would normally be expected to consist of non-executive *committee* members, to advise it on at least some of the issues it will need to consider. As with any sub-committee of the *committee*, the audit sub-committee will need to have documented terms of reference which make clear its role, responsibilities and reporting lines. It would not be appropriate for an audit sub-committee, or any of its members, to carry out inspections themselves, since this would put the members of the sub-committee in the position of being responsible for reviewing the effectiveness of their own work. The matters on which an audit sub-committee might advise include:
- (a) the review of the adequacy of the *friendly society's* system of business control;
 - (b) the preparation and supervision of the *friendly society's* inspection programme;
 - (c) the receiving of reports from the inspection function and reporting to the *committee* on the inspection programme together with recommendations for improvements;
 - (d) the review of the effectiveness of the *friendly society's* system of inspection and report, including an assessment of the scope of work performed by the inspection function, the nature and timing of inspection reports and the adequacy of resources available to the inspection function;
 - (e) the review of the adequacy of management information and other reports made available to the *committee*;
 - (f) the review of the annual accounts prior to their approval by the *committee*;
 - (g) any major problems arising which might have a detrimental impact upon the *friendly society's* solvency position or reputation; and
 - (h) liaison with the *friendly society's* auditors, including discussion on the scope of and matters arising from the audit.

If a *friendly society* has not established an audit sub-committee the matters in (a) to (h) will need to be dealt with directly by the full *committee*.

F. ANNUAL REPORTS BY THE COMMITTEE

Statement of opinion of committee of management and chief executive

30. As explained in 2 the *committee* of a *friendly society* is required to send a statement of opinion to the *FSA* every year stating whether the *friendly society* has complied with the requirements of rule 3.1 and, in the case of a *friendly society* with branches or a *friendly society* with controlled bodies, stating whether its branches or controlled bodies have complied with the requirements.
31. The purposes of requiring an annual statement of opinion by the *committee* and chief executive are:
- (a) to focus the attention of the *committee* on the need to review and develop systems in line with the changing business environment and risks associated with it, in order to provide adequate protection to members' funds; and
 - (b) to take the first step in satisfying the *FSA* that the *committee* has done so.

In forming their opinion, the *committee* and chief executive will need to consider the matters which are set out in rule 3.1 and in this Annex.

Criteria for determining compliance and non-compliance

32. The *FSA* considers that rule 3.1(6) requires matters to be reported which individually or collectively are significant and which result in there not being reasonable assurance that the requirements of rule 3.1 have been complied with in some significant respect at any time during the year. The matters reported should be confined to significant shortcomings and exceptions only (see 34). It is not necessary for the reports to detail how the *friendly society* has achieved compliance with the provisions of rule 3.1. Where significant deficiencies have been identified and reported, the *FSA* expects the report to include: explanations of the shortcomings or exceptions which are sufficiently detailed to enable the *FSA* to understand the matters being reported and their seriousness without the necessity to refer to other sources of information; a statement of the corrective measures taken and/or to be taken; and date of full rectification or target timetable for completion of the corrective action. A shortcoming that has been rectified before the year end will still need to be reported, with details provided of the corrective action that was taken and the date rectification was achieved.
33. [deleted].
34. The *FSA* does not consider that minor deficiencies identified in the accounting records, or systems of control and of inspection and report, need to be reported provided that the *committee* and the chief executive have satisfied themselves that those deficiencies were not symptomatic of more serious problems. If a *committee* is undecided as to whether a particular marginal matter is of sufficient significance to require inclusion in its rule 3.1 report, it should seek the advice of the *friendly society's* auditors.

Matters to be reported to the FSA

35. Circumstances in which the *FSA* would normally expect exceptions to be included in the rule 3.1 report include:
- (a) the absence of accounting records, or of systems of control, or of the system of inspection and report, or of the documentation of the systems of control necessary to enable *committee* members and other *officers* to discharge their duties;
 - (b) a significant weakness or failure in any of the records or systems or documentation of those systems which occurred during the year; and
 - (c) other matters which resulted, individually or collectively, in there not being reasonable assurance that the requirements of rule 3.1 have been complied with.

36. A format for rule 3.1 reports is provided in Attachment D of this Annex.

37. The *FSA* intends the rule 3.1 reporting process to be beneficial for the *committee* of a *friendly society*, as well as fulfilling the purposes of prudential supervision. In the normal course of events the *FSA* would not expect a qualified report to trigger the exercise of any of its powers provided there was evidence that the *committee* was carrying out its duties conscientiously and taking appropriate corrective action. Conversely, in the context of maintaining a frank and open supervisory relationship between the *FSA* and a *friendly society*, the *FSA* would view seriously any failure to disclose known significant shortcomings.

38. [deleted].

The FSA's response to reports received

39. The reports received from *friendly societies* will, together with other information available to it, be used by the *FSA* as part of its evaluation of the position of each *friendly society* in relation to:

- (a) the requirements of rule 3.1; and
- (b) the *FSA* Principles for Businesses.

40. When a qualified report is received the *FSA* will consider whether the corrective action appears sufficient, and whether it calls in question the adequacy of the protection of the interests of *policyholders* of the *friendly society*. A qualification of the rule 3.1 report may not call such protection into question, provided that the report also indicates timely and effective corrective action. Before reaching any conclusions, however, a meeting with a *friendly society's committee* and/or management may be arranged, which the *friendly society's* auditors may also be asked to attend. The purposes of such a meeting would be to:

- (a) establish whether or not the matters reported are prudentially significant;
- (b) understand fully any proposals in the report for corrective action; and

- (c) where appropriate, agree a basis for monitoring the implementation and effectiveness of the proposals.

Whether or not a report is qualified, the *FSA* may wish to explore the basis of the assessment by the *committee* in its report. In so doing, the *committee* may be asked to satisfy the *FSA* on how it has dealt with the various issues in this Annex.

Part II

GUIDANCE ON SYSTEMS OF CONTROL OVER INVESTMENTS

1. This Part of the Annex provides guidance on the main elements of systems of control over investments in conjunction with Part I of this Annex which provides guidance on Systems of Accounting, Control of Business and Inspection and Report. A and B of this Part of the Annex include guidance of general application to *friendly societies*. C provides guidance to *directive friendly societies* which make use of *derivative contracts*.

A - Background

2. Chapter 3 includes a number of provisions with implications for the establishment and maintenance of systems of control over a society's investments - the main provisions are listed below. For ease of reference the provisions listed are split into two elements, those with general implications for the accounting records of, systems of control over, and inspection and report on a society's investments (see 3 to 5) and those which have specific implications for a society's investment policy (see 6 to 13). These lists are not intended to be exhaustive.
3. Principle 3 of the *FSA Principles for Businesses* requires a *friendly society* to take reasonable care to organise and control its affairs responsibly and effectively with adequate risk management systems.
4. Rule 3.1(1) requires every society and branch to "establish and maintain adequate systems of control of its business and records and of inspection and report".
5. Rule 3.1(4) requires the systems of control and inspection and report to be such as to enable the *committee* properly to discharge the duties imposed on them under the *Act*, the *1992 Act* or the *1974 Act*, and for the *committee*, the functions of direction of the affairs of the society or branch.

Requirements with implications for investment policy

General

6. Section 46 of the *1974 Act* (as amended by the *1992 Act*): this section provides information about the investments into which societies registered under the *1974 Act* may place funds, and includes any investment in which trustees are authorised by law to invest funds.
7. Section 14 of the *1992 Act*: this section provides information about the investments into which incorporated societies may place funds.
8. [deleted].

Applicable to directive friendly societies

9. Rule 4.12(1) requires the assets backing insurance liabilities (other than in respect of *linked benefits*) for a *directive friendly society* to satisfy the following conditions:

- (a) “.....of appropriate safety, yield and marketability having regard to the *classes* of business carried on”; and
 - (b) “..... investments are appropriately diversified and adequately spread and that excessive reliance is not placed on investments of any particular category or description”.
10. Rule 4.12(2) applies to the *linked long-term contracts* of a directive society for which liabilities are covered by the value of assets in an internal fund, or units in a collective investment in transferable *securities*, or by reference to a share index, or by assets of appropriate safety, yield and marketability which correspond, as nearly as may be, to the assets on which the reference value is based.
 11. Rule 4.12(3) also applies in respect of the *linked long-term contracts* of a directive society and requires the society to secure that its liabilities under the contract in respect of *linked benefits* are covered by assets of a description specified in Appendix 3.
 12. 15 of, and Annex B to, Appendix 4 **specify** the reductions that should be applied to the aggregate value of a directive society’s assets for the purposes of the determination of the society’s *required margin of solvency* taking account, amongst other matters, of *permitted asset* and *counterparty exposure limits* and *excess concentration with a number of counterparties* (see 20 to 22).
 13. Rules 4.14 to 4.19, which apply to directive societies, set out the requirements for matching and localisation of assets.

B - Systems of control

Importance of adequate controls

14. The investments a *friendly society* makes on behalf of its *policyholders* are an important area of its operations: the transactions may be large in relation to other areas of the society's business; and the effects on the society arising from negligence, error or irregularity could be significant. It is therefore important for a society to have preventative controls in place. The nature of those controls will vary with the size and nature of the society and whether or not it makes use of complex investment instruments such as *derivative contracts*. The following guidance on the systems of control over investments should be considered within the overall context of the guidance in Annex 3.
15. The systems of control over investments of societies will generally include the following features:
 - (a) documentation: this is usually in the form of the investment policy (see 17 to 23);
 - (b) a comprehensive management information system (see 24); and
 - (c) adequate operational controls over investments (see 25 to 27).
16. Additional considerations for *directive friendly societies* which make use of *derivative contracts* are included in C (see 31 and 32).

Investment policy - general

17. It is important that the *committee* gives consideration to documenting the investment policy and takes the necessary steps to ensure that the current investment policy is being applied, and that there are systems of control which would result in the *committee* being consulted before any decision is made which may not be in accordance with the current policy. In establishing the policy a *committee* will need to take account of these rules, any requirements in the society's registered rules and advice from the *appointed* or *appropriate actuary*.
18. The *committee* should ensure that the society's investment policy is one which is appropriate for the society's type of business and its business plans. The policy needs to be appropriate to the size and nature of the society, and recognise changing market circumstances and be reviewed and revised as necessary from time to time. Where a *friendly society* instructs an investment adviser to make investments for it, the society's investment policy should be reflected in any contracts or agreements made with the organisation engaged to invest the funds of the society.

Investment policy of a society doing linked long-term business

19. The *committee* of a society which has been authorised to write *class III* business (linked long-term), will need to ensure that the investment policy with respect to the assets of its linked long-term funds takes into account fully the requirements of the rules in chapter 4.

Investment policy of a directive society - exposure limits

20. The *committee* of a *directive friendly society* should consider whether to include limits in its investment policy on the following matters:
 - (a) the society's *exposure* to particular assets, taking the provisions and limits in Annex B to Appendix 4 (see 12) into account; and
 - (b) the society's *exposure* to particular *counterparties* taking the limits in B2 of Annex B to Appendix 4 into account (see also 22).
21. The *committee* of a society which has, or is likely to have, significant aggregate exposures to one or more *counterparties* will need to ensure the society has appropriate procedures in place for assessing the creditworthiness of those *counterparties*. The *committee* may, as a result of the assessments, consider it prudent to set lower internal limits than those in Annex B to Appendix 4. The *committee* of a society which uses a third party to manage some of its investments should ensure that for monitoring purposes (see 24) the exposure to a particular *counterparty* in the funds under third party management is aggregated with the *exposure* to that *counterparty* in the funds managed by society staff.
22. In considering counterparty exposure limits, and for the purposes of monitoring aggregate *exposures* to particular *counterparties* (see 24), the *committee* will need to take into account the requirements in B13 to B15A of Annex B to Appendix 4. These provide for the aggregation of *exposures* arising from all types of investment in or with a *counterparty*, together with the value of all rights against that *counterparty* (subject to the exceptions in B14 and B15 of Annex B to Appendix 4) in each case up to the permitted asset exposure limits. The *committee* should also take into account the provisions of B16 of Annex B to Appendix 4 with respect to *excess concentration with a number of counterparties*. The *committee* will need to remember that the permitted *exposure* limits set out in Annex B to Appendix 4 represent the maximum amounts which can be valued for solvency purposes.

Exposure limits - additional considerations

23. The *committee* of a *directive friendly society*, particularly if it makes use of the powers under section 14 of the *1992 Act*, should consider whether, in addition to any policy limits arising from the *exposure* and concentration provisions in Annex B to Appendix 4 (see 20 to 22), internal policy limits for aggregate exposures to certain categories of assets should be included in the investment policy. The limits for certain categories of assets will need to take account, where applicable, of rule 4.12(1) (see 9). In addition the level of the society's free assets should be taken into account, bearing in mind the possibility that such assets might in future be needed to cover *insurance liabilities* or minimum margin of solvency.

Management information

24. It is important for a society to have adequate monitoring and reporting arrangements commensurate with the size and nature of the investment activities. The management information needs to be designed to: enable monitoring against policy limits (and statutory limits where applicable); help assess, in conjunction with the inspection function, the effectiveness of existing operations and controls over the management of investments; and provide a basis on which to determine future investment policy. In this context a *committee* will need to ensure a record of investment decisions, and who made them, is kept for reference purposes. Reports should be provided at regular intervals to the society's *committee* and senior management; frequent reporting being essential where material investment transactions are regularly made and/or where complex investment instruments such as *derivative contracts* are being used.

Operational controls

25. The operational controls necessary for a satisfactory control system will vary with the size and nature of the society, the investment strategy and whether third parties are used to manage the investments (see 26). The control system will need to be sufficient to match the complexity of the investment instruments being used. Controls need to be designed to ensure:
- (a) the safeguarding of the assets of the society;
 - (b) compliance with the documented investment policy;
 - (c) investment deals are performed in an orderly and efficient manner; and
 - (d) the risk of loss from negligence, error or irregularity is minimised.

Third party investment managers

26. Where a third party has been appointed to manage part or all of a society's investments, the *committee* should be satisfied that the third party is able to comply with, and adhere to, the society's investment policy criteria and policy limits. In addition the *committee* will need to be satisfied that there are appropriate and effective controls in place. This is particularly important for an *incorporated friendly society* if the investment manager holds funds on its behalf. Before appointing such a third party, or in reviewing the appointment of the existing investment manager, the *committee* will need to be satisfied as to the following:
- (a) the standing of the third party, including whether it is subject to a regulatory regime;

- (b) compliance by the third party with the parameters the *committee* considers essential for the society's investment manager. Such parameters might include: performance requirements, minimum staff size (e.g. so that there are sufficient staff to allow for adequate segregation of duties, particularly if complex investment instruments such as derivatives are to be used) and capitalisation requirements;
- (c) the terms of the agreement with the third party:
 - (i) that the agreement sets out clearly the parameters within which the third party may operate, in particular:
 - does it take account of the relevant legislative constraints?
 - does it take account of the society's investment policy criteria and policy limits?
 - (ii) that the agreement provides adequate safeguard for the society in the event of negligence, error or irregularity by the third party;
- (d) the management information (see 24) to be provided by the third party, in particular is the information sufficient for the *committee* to be able to assess performance and monitor compliance with legislative constraints, investment policy criteria and policy limits.

27. The service provided by the investment manager should not only be monitored throughout the year but should also be subject to more fundamental review on a regular basis.

Audit

28. Internal audit will have a role in the operation of the systems of control over investments. Internal audit may:
- (a) advise on design of systems of control or improvements to existing systems
 - (b) assess the effectiveness of systems from time to time
 - (c) test compliance with existing procedures.

29. [deleted].

Committee responsibilities

30. The *committee* of a *friendly society* will need to assess the effectiveness of the arrangements for the systems of control over the society's investments (including where transactions are carried out by a third party on a society's behalf) drawing on the auditors' advice as appropriate, in order to satisfy the requirements of rule 3.1 on this aspect of their responsibilities.

C - Additional considerations for controls over derivative contracts

31. 13 to 15 of, and Annex B to, Appendix 4 includes specific provisions with respect to *derivative contracts* and contracts or assets having the effect of *derivative contracts*. This includes provisions restricting those contracts which may be counted as assets for the purposes of determining a *directive friendly society's* regained *margin of solvency*. Annex 6 refers to

Guidance Note 4.2 in *IPRU(INS)* which discusses valuation issues surrounding the use of *derivative contracts*. That Annex also draws attention to the need for the *committee* and management of a society which uses *derivative contracts* to have sufficient understanding of the nature and risks of the contracts it uses to ensure there are effective systems in place to monitor the use of derivatives.

32. The *committee* of a society which uses *derivative contracts* will need to take all steps which are reasonable, taking into account the nature and scale of the use of derivatives, to ensure that:
- (a) the nature of the derivatives being used and the related risks (including interest rate risk, foreign exchange risk and operational risk) are fully understood by management even where a third party manages derivative transactions as part of the investment management service supplied to the society;
 - (b) the investment policy document sets out the objectives and policies for the use of derivatives; there are documented exposure limits for: total exposure to, and/or volume of, derivative transactions; maximum exposures to, and/or volumes of, permitted types of derivative transactions; exposure to counterparties; and exposure to uncovered transactions; where a society's staff manage derivative transactions dealer limits for individual dealers will need to be documented;
 - (c) the society has control and/or monitoring procedures which:
 - (i) ensure that transactions are in line with the *committee's* policies and new types of instrument are not dealt with without prior consideration at *committee* level;
 - (ii) ensure the *committee* and senior management are provided regularly with statistics and information (appropriately summarised) on the trading volumes of derivatives by type of product including regular reports of all off-balance sheet transactions, mark-to-market position, contingencies and commitments; and
 - (iii) focus particular attention on uncovered transactions (which may only be undertaken in relation to assets which do not match technical provisions) so that in no circumstances is the minimum margin of solvency endangered nor are members' reasonable expectations adversely affected. Systems are needed which are adequate to prevent exposure to unacceptable volatile risks, and to monitor transactions with a frequency commensurate with volatility and risk. The systems in place need to be designed to trigger the society's strategy to hedge or close out a transaction whenever adverse movements or events threaten a significant worsening of the solvency position;
 - (d) where derivative transactions are managed by society staff:
 - (i) staff authorised to carry out derivative transactions are suitably qualified and competent to transact the range and type of transactions being undertaken and understand the nature of the exposures (including both *counterparty* and market risk) which the use of *derivative contracts* will create;
 - (ii) the resources (including staff resources) and systems are sufficient to cope with the volume and volatility of transactions undertaken. This applies to back office (e.g. accounting staff, record keepers), as well as front office (e.g. fund managers, dealers) systems;

- (iii) control procedures include independent agreement and reconciliation of positions, independent checking of prices, agreement of profits to accounting profit, appropriate authorisation where dealing limits have been exceeded;
 - (iv) to ensure effective control, those with responsibility for the control systems in respect of derivative transactions are independent of the dealers; and
 - (v) senior managers have the capacity and resources to be able to analyse and monitor the risk of all derivative transactions undertaken both by individual transaction and in aggregate (including interest rate risk, foreign exchange risk, fraud, error, unauthorised access to confidential information and other operational risks). Basic monitoring information may be needed in a daily report to managers. Monitoring information (including that supplied by third party managers) will need to include mark-to-market information in respect of all outstanding derivative transactions, valuing derivatives and underlying assets hedged at their current market price to check whether instruments are fulfilling expectations; and
- (e) there are adequately tested and approved valuation models which are used to value open positions and derivative instruments and that amendment to their programmes are controlled. Such models should include an appropriate test of the robustness of the portfolio to stress in changing investment conditions.

BUSINESS PLANNING

Introduction

- A1. The *committee* of a *friendly society* should be aware of the importance of having an integrated system for planning, budgeting, financial accounting, monitoring of actual against budget and feedback of results into management decisions and back into the planning process. However, just how sophisticated a *friendly society's* planning systems need to be will depend upon the size and nature of the *friendly society's* operations. The information in this Annex is neither intended to be prescriptive of what elements of a *friendly society* should be included in its system of business planning, nor can it be comprehensive of all matters that might be appropriate to the business planning of a *friendly society* - there are other publications available on such matters. The information in this Annex is intended to be helpful to *committees* and management, in particular, in providing information on key elements of a full planning system which the *committee* and management of a *friendly society* need to consider before determining on or revising the *friendly society's* system of business planning and documented plans. The *committee* and management will need to decide on the appropriate planning horizon for their *friendly society*, consistent with the *friendly society's* circumstances and appropriate to the effective management of the risks the *friendly society* faces, including any risks that may arise from its own initiatives as well as those arising from the changing business environment.
- A2. The key features of an integrated planning system include:
- (a) clearly defined and documented short, medium and long-term planning, with clear allocation of responsibilities within the *friendly society* for the development, review and approval of plans, and the subsequent monitoring of performance against them;
 - (b) the conclusions, recommendations, financial projections and assumptions set out in any plan need to be based on adequate data obtained from internal and external sources, and by appropriate critical analysis;
 - (c) a range of possible outcomes need to be considered, relating to varying levels of risk and/or uncertainty, and the financial impact on a *friendly society's* solvency margin should be considered by the *friendly society's* actuary; and
 - (d) key indicators should be identified against which actual performance can be tracked. Actual data should be prepared on a basis consistent with the plan, to enable proper comparison to be made.

Strategic planning

- A3. A corporate plan focusing on longer term strategic issues may be developed. Such a plan should be reviewed regularly in the light of experience and changing circumstances and could include elements of the *friendly society's* medium term planning, see A5. The key elements for a strategic plan include:

- (a) views on the markets in which the *friendly society* competes or proposes to compete in;
- (b) identification of the *friendly society's* strengths and weaknesses, market and other opportunities open to it, and threats to the *friendly society's* market and financial strength;
- (c) the *friendly society's* strategic aims and the action which needs to be taken to achieve those aims;
- (d) any major resource implications of the strategic aims - including for information technology, senior management and staff as well as financial implications; and
- (e) financial projections - including cash flow forecasting and projections based on different assumptions (eg. on optimistic, pessimistic and expected bases).

A4. A corporate plan including a *friendly society's* strategic aims should not simply consist of a number of desirable aims, but should set out the processes whereby these will be achieved. It will then be important to monitor the extent of achievement of the specified action steps, so that, if necessary, appropriate corrective action may be taken.

Medium term planning

A5. The medium term planning of a *friendly society*:

- (a) may provide for the setting, review and revision of medium term financial and other objectives, as appropriate, consistent with the *friendly society's* longer term strategic aims and targets; and
- (b) as appropriate, may include new business activities, which need to be adequately researched, analysed and appraised in terms of feasibility, financial returns and requirements for capital.

Short term planning

A6. Adequate short term financial and operating plans are necessary as a basis for measuring performance and taking tactical decisions. In general terms this means that a *friendly society's* short term planning will need to include the setting of an annual budget (which may include cash flow forecasting), against which actual performance can be monitored (see also 19(f) of Part I of this Annex).

Business continuity planning

A7. A *friendly society* will need to consider its arrangements to ensure continuity of business in the event of some unforeseen disaster such as a fire or bomb damage. A business continuity plan should, as appropriate, deal with the possibility of major computer hardware or software failure as well as other wider aspects such as premises, personnel and external communications. These arrangements should be regularly reviewed and tested to ensure that they work in practice.

Information technology

- A8. Information technology (IT) will be a major feature of the business of a number of *friendly societies*. IT brings significant benefits to such *friendly societies*, but also brings considerable risks. The issues which the *committee* and management of a *friendly society* will need to address, as appropriate, include:
- (a) the extent to which a *friendly society's* IT strategy is consistent with its longer term strategic aims;
 - (b) whether the procedures for evaluating significant IT investments are sufficiently comprehensive to ensure that the technical and business cases for the investments are clearly demonstrated;
 - (c) within the *friendly society*, at *committee* as well as operational level, there should be an appropriate allocation of responsibility for IT issues;
 - (d) the security of data and systems is of paramount importance, controls will therefore need to be in place to minimise the risk of unauthorised access or the loss of data. Such controls should cover not only centralised mainframe processing but also remote terminals and stand-alone or linked PCs;
 - (e) the exercise of strong control by the *committee* over the development of new or significantly modified IT systems. Appropriate technical and project management skills are likely to be required and a *committee* will need to determine whether it is appropriate to seek expert assistance from outside the *friendly society* in order to facilitate the process; and
 - (f) appropriate skills and experience are needed to enable the inspection function to assess the effectiveness of IT controls. The involvement of the inspection function in an advisory capacity during the development of significant new IT systems, will be needed to help ensure that appropriate controls are in place.

Human resources planning

- A9. The *committee* and management of a *friendly society*, in particular one which has taken, or proposes to take, advantage of the opportunities afforded by the *1992 Act*, may need to consider the overall current and future human resources requirements. Such considerations include the planning for, and development of, human resources where a *friendly society* is proposing to enter a field of business activity with which it is not familiar. The matters on which the *committee* and management may need to be satisfied include that:
- (a) the *friendly society* has identified its present and future staffing and skill requirements relative to its business activities and has defined recruitment, training and development plans to achieve them; and
 - (b) there are arrangements for securing the supply of appropriately skilled members of the *committee*, directors of controlled bodies, managers and staff.

ATTACHMENT B TO ANNEX 3

DOCUMENTATION OF SYSTEMS

Introduction

- B1. The need for the documentation of systems is primarily twofold:
- (a) whilst control systems might be operated satisfactorily for a time without documentation, the absence of documentation makes it impossible to ensure that the systems of control are maintained over time; and
 - (b) the *committee* and others (e.g. external auditors and those carrying out the inspection function) have specific responsibilities in respect of the control systems. The absence of documentation makes it impossible for those reviewing the systems to satisfy themselves that the controls being operated are those that have been authorised, that they are complete and that they are adequate for their purpose.
- B2. Whilst the overall content of such documentation should be comprehensive (see B3(a)), it will of course vary from *friendly society* to *friendly society*, according to the nature and scale of business and may only need to be relatively simple for a small *friendly society* with few staff. The specific content of documents may also need to vary within a *friendly society* appropriate to the levels of staff for whose use it has been prepared. Documentation prepared for the *committee* and/or management (see also B4) may need to be wider in scope and to include a greater emphasis on controls, but less detail about operational procedures, than documentation for more junior staff. Documentation prepared for more junior staff will need to include detailed information about the procedures to be followed but may only need to cover the control procedures applicable to the work of the staff concerned.

Form of documentation

- B3. The *committee* and management of a *friendly society* will determine the form of control system documentation to be adopted. They should, however, take into account a number of considerations about the documentation, including that:
- (a) **it should be comprehensive:** and should cover all material aspects of the operations and business of the *friendly society*;
 - (b) **it should be integrated:** separate elements of the system should be interrelated and cross-referred in such a way that the system can be viewed as an integrated whole;
 - (c) **it should identify risks, and the controls established to guard against those risks:** the controls need to be identified and their purpose defined so that their effectiveness can be evaluated and so that the relationship and interdependency with other controls can be established;

- (d) **it should attribute responsibility for operating the controls:** there need to be named persons or posts for each control operation, alternatives in case of absence and continuity of standards of control during absence;
- (e) **it should state how the operation of the control is to be evidenced:** methods of evidencing include - signatures or initials; records and registers; retention of control documents; staff attendance records;
- (f) **it should establish a comprehensive and unambiguous control discipline:** the instructions should be clear and precise, avoiding expressions in relation to control functions such as “normally” and “if possible”;
- (g) **it should be suitable for practical day to day use:** the separate specifications of controls should have a practical role in the review and improvement of systems, for example, through the inspection function;
- (h) **it should be up to date:** there should be an accurate description of the system that has been established and is operating. When changes or modifications are made, the appropriate systems of control will need to be established and documented by the time the changes become operative; and
- (i) **it should require confirmation of compliance:** managers of different areas of a *friendly society*'s business are key control points within the overall control system. They should periodically be required to confirm to the *committee*, to the best of their knowledge and belief, compliance of controls within the system which has been established.

B4. Documentation should not be restricted to “lower level” clerical and authorisation controls applied in transaction processing, but should also cover “high level” controls (see 15 of Part I of this Annex), including:

- (a) powers to be exercised only by the *committee*, and powers delegated to others;
- (b) the purpose, composition and reporting lines of *committee* member sub-committees and senior management to whom powers and responsibilities have been delegated;
- (c) the role, responsibilities and reporting lines of *committee* members; and
- (d) the timing, form and purpose of *committee* meetings and the mechanism whereby agreed *committee* strategies, policies and decisions are recorded and their implementation monitored.

Computer controls

B5. The documentation of computer controls need to be integrated within the overall documentation of a *friendly society*'s system of business control. Where operating manuals are provided by a computer supplier these can often form a useful part of a *friendly society*'s procedures documentation but it is unlikely that such manuals will be in a form which enables them to form part of the control documentation. The matters set out in B3 apply equally to the controls surrounding computer systems.

- B6. There will be a number of key controls performed within the computer programs and a *friendly society* will need to ensure that it documents all such controls if reliance is being placed on them.

ATTACHMENT C TO ANNEX 3

SYSTEM OF INSPECTION AND REPORT

Purpose of the system

- C1. The purpose of a system of inspection is:
- (a) to provide a continuous appraisal for management and the *committee* as to the overall effectiveness of the control systems, including all proposed changes, and to recommend improvements where considered desirable or necessary;
 - (b) to determine whether the systems and controls established by the management and the *committee* have operated as laid down in the control documentation of the *friendly society* or *registered branch* and comply with policies, procedures, laws, regulations and any other requirements; and
 - (c) to assess whether financial and operating information supplied to management and the *committee* is accurate, appropriate, timely and complete.
- C2. A *friendly society* should ensure that, in addition to coverage of operational activities, its system of inspection adequately covers the following areas - as appropriate to the scale and nature of the business:
- (a) controls to verify the accuracy and completeness of returns and other information provided to the *FSA*;
 - (b) controls to ensure compliance with relevant statutory and regulatory requirements;
 - (c) broader management controls, such as controls over business planning, systems for monitoring and reporting on financial performance and other key business indicators;
 - (d) controls over new areas of business and other initiatives, whether carried out within the *friendly society* or through controlled bodies; and
 - (e) the “high level” controls referred to Part I of this Annex.
- C3. The *committee* and management of a *friendly society* will need to satisfy themselves that the following considerations have been properly addressed within the context of the scale, range, complexity and pace of development of the *friendly society*'s business:
- (a) the inspection function is independent of the functions it inspects in order to maintain its objectivity;
 - (b) sufficient resources are available to achieve the agreed objectives of the inspection function;

- (c) qualifications, experience and training of individuals performing the inspection function are adequate in relation to the objectives; and
- (d) the status and reporting relationship of the head of the inspection function is sufficient to maintain the independence and objectivity of the function. It is important to ensure that, in addition to regular reporting to management and the *committee* (see C5(f)), the head of the inspection function has the right of direct access to the highest level of management and the *committee*.

C4. An audit sub-committee can have a key role to play in controlling the work of the inspection function and receiving its reports. The role of the audit sub-committee is covered in more detail in 29 of the main text of this Appendix.

Key elements of a system

C5. The key elements of a satisfactory system of inspection include:

- (a) **Terms of reference:** these should be specified with precision and should include, amongst other matters, scope and objectives of the inspection function, access to records, powers to obtain information/explanations from staff, and reporting requirements. The terms of reference should be approved by management and the *committee*. The *friendly society's* inspectors (or internal auditors) will require a wide-ranging access to records and documents, including material prepared for and by the *committee*. They will also need to be empowered to obtain information and explanations from staff at all levels, and *committee* members.
- (b) **Risk analysis:** risks identified and the controls put in place by management to address those risks should be considered in each area or cycle of the *friendly society's* business. The adequacy of the controls should be assessed. Weaknesses in control should be drawn to the attention of the *committee* or audit sub-committee and other senior *officers* of the *friendly society* as specified in the terms of reference. In this context risk factors may include more than just the risk of pecuniary loss, or error or mis-statement in the accounting records. As appropriate, reputational risk, and wider business and operational risk, may also need to be considered. Full consideration should be given to the high level controls in place within the *friendly society*. These include the controls referred to in 15 of Part I of this Annex and C2(e) - see also B4 in Attachment B of this Annex.
- (c) **Inspection plan:** an inspection plan should be developed covering all aspects of the *friendly society's* business and which, in the opinion of the *committee*, satisfies the requirements of rule 3.1. The inspection function should focus in particular on those areas identified in the risk analysis as higher risk, taking into account the related inherent risk factors and controls in place. However, all areas of the *friendly society's* business should be covered over a set time frame and the inspection plan should identify the scope and frequency of the work to be carried out in each area. The plan should be reviewed and approved at *committee* level, or by the audit sub-committee on behalf of the *committee*, before work commences.

- (d) **Detailed programmes:** these will set out the specific tests to be performed in each area of the inspection plan.
- (e) **Working papers:** adequate working papers should be maintained to record audit planning and execution, principal findings and follow-up action. Amongst other matters, the papers should provide: evidence of the individual who performed the programmed work; how it was controlled and supervised; and record the conclusions reached - with cross-referencing to the reports made and action taken.
- (f) **System of reporting:** the results of the work performed should be reported to senior management and any audit sub-committee and the *committee* in accordance with the terms of reference. Such reporting should be carried out on a regular and timely basis. Obviously serious matters should be raised immediately. The reports should briefly describe the area(s) covered, significant matters arising, recommendations and overall conclusions. Procedures should be established to make sure the recommendations have been implemented or non-implementation validly justified.

Reporting and review

C6. The *committee* and management of a *friendly society* need to satisfy themselves that the system of inspection is being properly carried out. In order to review the overall effectiveness of the inspection function, the *committee* needs to consider the following aspects:

- (a) adequacy of resources, including number, experience and skills of those providing inspection services. There may be areas (eg computer audit) for which specific skills may need to be obtained from an external source. A *friendly society's* auditors would not normally be expected to provide such inspection services, as there is potential for a conflict of interest to arise. This position is so, regardless of whether the work would be carried out by persons not directly involved in the audit or rule 3.2 review of the *friendly society*;
- (b) adequacy and scope of planning and work performed, including the allocation of inspection effort to each area of the *friendly society's* business;
- (c) frequency, quality and timeliness of reporting on matters arising from the inspections;
- (d) consideration and resolution of points and recommendations raised, and reasons for any rejection of major points; and
- (e) review of overall effectiveness of the inspection function.

ATTACHMENT D TO ANNEX 3

**Report by the Committee of Management of [NAME OF *FRIENDLY SOCIETY*]
under rule 3.1 of *IPRU(FSOC)***

In our opinion during the year ended _____, the requirements of rule 3.1 were* (complied with)/ (complied with except in the respects set out in the attached Schedule [A]).

Signed by:

_____ Chairman

_____ Chief Executive

Date _____

* Delete as appropriate

Schedule [A] to the Committee's report for the year ended
_____ under rule 3.1 of IPRU(FSOC)

1. Exceptions arising in previous years:

(a) Remedied during 200_ [current report year]

Under each appropriate heading provide a clear description of the exception, remedial action(s) taken and date of full rectification.

(b) Exceptions not fully rectified during 200_ [current report year]

Under each appropriate heading provide a clear description of the exception, the action(s) taken and/or remaining to be taken and timetable for completion.

2. Exceptions arising in 200_ [current report year]

(a) Remedied during 200_ [current report year]

Under each appropriate heading provide a clear description of the exception, remedial action(s) taken and date of full rectification.

(b) Exceptions not rectified during 200_ [current report year]

Under each appropriate heading provide a clear description of the exception, action(s) taken and/or to be taken and timetable for completion.

GUIDANCE ON MARGINS OF SOLVENCY AND THE GUARANTEE FUND

Introduction

1. This Annex gives guidance to *friendly societies* on the application of rules 4.1 to 4.7 which set out the requirements for maintenance of a *required margin of solvency* and a *guarantee fund*. It explains how different categories of *friendly societies* are affected. This Annex does not apply to *flat rate benefits business friendly societies*.

The required margin of solvency

2. Rule 4.1 provides that a *friendly society* which has permission to carry on *general insurance business* and/or *long-term insurance business* is required to maintain a margin of solvency of an amount prescribed in rules 4.2 to 4.10.
3. Rules 4.2 to 4.10 do not apply to any *friendly society* which does not have permission to effect new contracts of insurance and is only carrying out contracts of *long-term or general insurance business* which were effected before 13 September 1993. Such societies must maintain an excess of the value of the *friendly society's* assets over the amount of its liabilities.
4. A *friendly society's* failure to maintain a *required margin of solvency* would be an early warning sign of difficulty. The *FSA* would under *SUP* require the *friendly society* to submit a suitable restoration plan within a specified reasonable time and give effect to the plan. The *required margin of solvency* might be restored by, for example, tighter budgetary control, restriction of new business, reinsurance arrangements or changes in investment mix.

Implicit items: future surpluses

- 4A. (1) A *friendly society* may apply for a waiver from rule 4.7(3) under section 148 of the *Act* (see *SUP*) so that the *implicit item* relating to future surpluses may be valued at not more than 50% of the full amount of future surpluses.
 - (2) For the purposes of (1), the full amount of future surpluses is the estimated annual surplus multiplied by a factor which as nearly as may be represents the average number of years remaining to run on policies, but does not exceed 10.
 - (3) For the purposes of (2) -
 - (a) the estimated annual surplus is one-fifth of the surplus ("the periodic surplus") made in *long-term insurance business* over a period of five years ("the relevant period") ending on the last day of the most recent *financial year* for which a valuation for the purposes of rule 5.1 has been carried out, substantial items of an exceptional nature being excluded; and
 - (b) the average number of years remaining to run on policies is calculated-

- (i) by multiplying the number of years to run on each policy by the actuarial value of the benefits payable under the policy, adding together the products so obtained and dividing the total by the aggregate of the actuarial values of the benefits payable under all the policies, or
- (ii) by an approximation to this method of calculation suitable to the circumstances of the case, including, where appropriate, an approximation involving the grouping of contracts,

appropriate allowance being made in either case for premature termination of contracts.

(4) For the purposes of (3)(a) -

- (a) where a valuation under rule 5.1 has been carried out annually in relation to the relevant period, the annual surplus made in *long-term insurance business* for any particular year of the relevant period is the surplus (if any) arising in the *long-term insurance business* fund since the last such valuation, and the periodic surplus must be taken to be the aggregate of those annual surpluses less any deficiencies in the *long-term insurance business* fund during that period;
- (b) where a *friendly society* has carried on *long-term insurance business* throughout the relevant period, but valuations under rule 5.1 have not been made annually in that period, the periodic surplus is the aggregate of surpluses arising in the *long-term insurance business* fund since the last valuation preceding the relevant period less any deficiencies in the *long-term insurance business* fund since the last valuation, except that the surplus or deficiency arising in the period ending with the first valuation within the relevant period is proportionately reduced to allow for any period of time falling outside the relevant period; and
- (c) where a *friendly society* has not carried on *long-term insurance business* throughout the relevant period, the periodic is the aggregate of any surpluses arising in the *long-term insurance business* fund during that part of the relevant period for which *long-term insurance business* was carried on less any deficiencies in the *long-term insurance business* fund during that part of that period.

Implicit items: Zillmerising

- 4B. (1) A *friendly society* may apply for a waiver from rule 4.7(3) so that where *zillmerising* is appropriate, but either is not practised or is at a rate less than the loading for acquisition costs included in the *premium* then, subject to (6), the item relating to *zillmerising* is valued at an amount not exceeding the difference between-
- (a) the *non-zillmerised* or partially *zillmerised* figure for *mathematical reserves* maintained by the *friendly society* concerned; and
 - (b) a figure for *mathematical reserves* (not less than those required in accordance with Appendix 5) *zillmerised* at a rate equal to the loading for acquisition costs included or allowed for in the *premium*.

- (2) Where *zillmerising* is not practised, then subject to (6), the value given by (1) (less any amount relating to temporary assurances) may not exceed 3.5% of the aggregate of the difference between-
- (a) the *relevant capital sums* for *long-term insurance business* activities; and
 - (b) the *mathematical reserves* (excluding *mathematical reserves* for temporary assurances).
- (3) Where *zillmerising* is practised but is at a rate less than the loading for acquisition costs, then, subject to (6), the value given by (1) (less any amount relating to temporary assurances) together with the difference between the partially *zillmerised mathematical reserves* and the *non-zillmerised mathematical reserves* may not exceed 3.5% of the aggregate of the difference between-
- (a) the *relevant capital sums* of *long-term insurance business* activities; and
 - (b) the *mathematical reserves* (excluding *mathematical reserves* for temporary assurances).
- (4) In (2) and (3) "*relevant capital sums*" means-
- (a) for whole life assurances, the sum assured;
 - (b) for policies where a sum is payable on maturity (including policies where a sum is also payable on earlier death), the sum payable on maturity;
 - (c) for deferred annuities, the capitalised value of the annuity at the vesting date (or the cash option if it is greater);
 - (d) for capital redemption contracts, the sums payable at the end of the contract period; and
 - (e) for *linked long-term contracts*, notwithstanding (a) to (d), the lesser of-
 - (i) the amount for the time being payable on death, and
 - (ii) the aggregate of the value for the time being of the units allocated to the contract (or, where entitlement is not denoted by means of units, the value for the time being of any other measure of entitlement under the contract equivalent to units) and the total amount of the *premiums* remaining to be paid during such part of the term of the contract as is appropriate for *zillmerising*, or, if such *premiums* are payable beyond the age of seventy five, until that age, excluding in all cases any vested reversionary bonus and any capital sums for temporary assurances.
- (5) Where, under the contract relating to any such business as is mentioned in (4), the payment of *premiums* is to stop before the sum assured becomes due, then, notwithstanding (4), "*relevant capital sums* " in (1) to (3) means the *mathematical reserves* appropriate for that contract at the end of the *premium-paying* term.
- (6) For the purposes of this guidance-

- (a) reserves for vested reversionary bonuses will not be regarded as *mathematical reserves*; and
- (b) the result given by (1), (2) or (3) will be reduced by the amount of any undepreciated acquisition costs brought into account as an asset.

Implicit items: hidden reserves

- 4C. A *friendly society* may apply for a waiver from rule 4.7(3) so that the *implicit item* relating to hidden reserves, if it consists of hidden reserves resulting from the underestimation of assets and overestimation of liabilities (other than *mathematical reserves*), may, in so far as the hidden reserves in question are not of an exceptional nature, be given its full value.

Guarantee fund

5. Rules 4.3 to 4.7 provide for the maintenance of the *guarantee fund*. The *guarantee fund* is generally one-third of the calculated *required margin of solvency*. For *directive* and *incorporated friendly societies*, the *guarantee fund* should be not less than the amount set out in rules 4.5 and 4.6 and this is known as the *minimum guarantee fund*.
6. Failure to meet the *guarantee fund* requirement would be regarded as very serious. The *FSA* would require the *friendly society* to submit and effect a short-term financial scheme if a *friendly society's guarantee fund* or *minimum guarantee fund* falls below requirement. Reasonable time would be granted to have discussions and to convene a meeting, and this would be expected normally to be followed by immediate action, for example, increased contributions or reduced benefits.

Minimum Requirements

7. Chapters 4 and 5 which are based on the *insurance Directives*, set out the current solvency and valuation requirements for *friendly societies* carrying on *insurance business*. Rules of this type cannot take into account the individual needs of a particular *friendly society*, but should be regarded as an absolute minimum requirement which will be supplemented by explicit or implicit margins on the advice of the actuary.
8. There are some important modifications contained in Chapter 4 by way of relaxation of the requirements for *friendly societies* which are neither *directive friendly societies* nor *incorporated friendly societies* in recognition of their different status or much smaller size. These modifications are:
- (a) a *non-directive friendly society* which does not have permission to effect new contracts of insurance and is only carrying out contracts of *long-term* or *general insurance business*, which were effected before 13 September 1993, will not be subject to the specific margin of solvency requirements, as rules 4.2 to 4.10 are not applied to such *friendly societies* (rule 4.1);
 - (b) the requirement to have a *minimum guarantee fund* does not apply to *directive* and *incorporated friendly societies* (rule 4.4);

- (c) the matching and localisation provisions in rules 4.14 to 4.19 apply only to *directive friendly societies* (rule 4.11); and
- (d) the limits placed on the extent to which certain assets may be taken into account in determining their value in the insurance fund apply only to *directive friendly societies* (15(1) of Appendix 4).

9. In addition to these modifications, the *FSA* has power under section 148 of the *Act* to direct that certain requirements do not apply to any particular *friendly society*, and there may be circumstances where the *minimum guarantee fund* may be varied in the case of certain *non-directive incorporated friendly societies*.

10. These waivers or modifications do not lessen the requirement for prudent management, and may be accompanied by conditions.

11.1 The requirements for the various categories are summarised below:

Life Directive Friendly Societies

11.2 (1) These would include any *friendly society* which carries on *long-term insurance business* where:

- (a) its rules do not contain provision for calling up additional contributions, for reducing benefits or for claiming assistance from other persons who have undertaken to provide it; or
- (b) its *annual contribution income* from *long-term insurance business* exceeded 500,000 Euro for 3 consecutive years.

(2) Valuation is made annually and the rules in chapter 4 and rule 5.1 apply.

Non-life Directive Friendly Societies

11.3 (1) Similarly, these would include any *friendly society* which carries on *general insurance business* where:

- (a) its rules do not contain provision for calling up additional contributions or for reducing benefits; or
- (b) its *annual contribution income* from *general insurance business* in any previous year exceeded 1,000,000 Euro.

(2) Valuation is made triennially and rules in chapter 4 (other than rules 4.5 – *minimum guarantee fund* and rule 4.12 – adequacy of *premiums*) and rule 5.2 apply.

Incorporated Friendly Societies other than those included above

11.4 (1) Long-term Business

These may fall outside the EC requirements but fall within the scope of rule 5.1 and are required to be valued annually. The *required margin of solvency* is set out in rules 4.1 to 4.10. New *friendly societies* should have margins of solvency at least equal to the

appropriate *minimum guarantee fund*. Rule 4.5 specifies a *minimum guarantee fund* with a threshold of 100,000 Euro increasing in steps. This may be varied by the exercise of the *FSA*'s power under section 148 of the *Act*.

- (2) Accordingly, a *non-directive friendly society* carrying on *long-term insurance business* will be expected to meet the solvency margin requirement immediately following incorporation. However, a valuation at that date is not necessarily required unless that date would otherwise be a normal *valuation date*.

Non-directive incorporated Friendly Societies carrying on general insurance business

- 11.5 Similar considerations will apply in the case of *friendly societies* carrying on *general insurance business*. The *minimum guarantee fund* is 225,000 Euro. These societies are required to be valued triennially.

Other non-directive Friendly Societies

- 11.6 (1) *Non-directive friendly societies* which have permission to carry on *long-term* or *general insurance business* are within the scope of rule 4.1 and are required to be valued triennially.
- (2) The margin of solvency requirements for these societies are set out in Chapter 4. However the specific requirements in respect of the maintenance of a *minimum guarantee fund* (rules 4.5 and 4.6) and 4.11 to 4.19 (including those in respect of matching and localisation) do not apply to them. These societies are also not subject to the admissibility limit rules in paragraph 15(1) of Appendix 4.
- (3) Societies which do not have permission to effect new *contracts of insurance* and are only carrying out contracts of *long-term* or *general insurance business*, which were effected before 13 September 1993 are not required to maintain a specified margin of solvency. Such societies should maintain an excess of the value of the *friendly society's* assets over the amount of its liabilities. They will be required to carry out triennial valuations unless exempted under the *Act*. If any valuation nevertheless discloses a level of concern then the *FSA* may take appropriate remedial action.

GUIDANCE ON EXEMPTION FROM TRIENNIAL VALUATION

- 1 This Annex gives guidance to *friendly societies* who may wish to seek exemption from the requirement in rule 5.2 to cause an actuarial investigation to be carried out.
- 2 Rule 5.1 requires any *friendly society* with permission to carry on *long-term insurance business* which is-
- (a) a *directive friendly society*; or
 - (b) an *incorporated friendly society*,
- to cause the *appointed actuary* to carry out an annual investigation into the *friendly society's* financial condition in respect of its *long-term insurance business*.
- 3 Rule 5.2 provides that any *friendly society* which carries on any *insurance business* which is not subject to the annual valuation requirement under rule 5.1 should cause the *appropriate actuary* to carry out an investigation into the financial condition of that *insurance business* at least once every 3 years. Generally this would be as at the 3rd anniversary of the 31 December when the previous valuation was due. The requirements in relation to this triennial valuation are set out in rule 5.2(1) to (6).
- 4 The *FSA* has power under section 148 of the *Act* to waive or modify the application of rule 5.2 to a particular *friendly society* (see *SUP*). This may include dispensing with the valuation requirement entirely or modifying it, e.g. to substitute a quinquennial valuation or to restrict the scope of the valuation to only part of the *insurance business*.
- 5 Notwithstanding the fact that a *friendly society* may have been exempted from the requirement to carry out an actuarial investigation under rule 5.2, there may be circumstances when the *committee* may, in order to comply with the FSA Principles for Businesses, nonetheless need to cause an actuarial valuation to be carried out.
- 6 Applications for exemption should be made as soon as possible after the *financial year* end for which valuation is due. Initial enquiries may be made before the end of the *financial year*.
- 7 An application form for a waiver or modification of rule 5.2 is set out below.

PROFORMA APPLICATION

Insurance Firms Division
The Financial Services Authority
25 The North Colonnade
Canary Wharf
London
E14 5HS

Dear Sir or Madam,

Request for dispensation from actuarial investigation

The _____ (insert name of friendly society) _____ hereby requests dispensation from the requirement to cause an actuarial investigation to be carried out as at under rule 5.2 of the FSA Interim Prudential Sourcebook for Friendly Societies for one or more of the following reasons -

(a) the purposes of the friendly society are such that (1)

(b) the nature of the friendly society's business is such that (1)

(c) the manner in which the friendly society's business is carried on is such that (1)

(d) the scale of the business is such that the contribution income for each year since the previous valuation date has been as follows, _____ the assets as at the valuation date are £ _____ and no changes in rates of benefits or contributions have been made since the previous valuation date.

[I am also attaching a certificate signed by the friendly society's appropriate actuary supporting the friendly society's request for a dispensation (2)].

(Signed) Chief Executive

Notes

(1) Please provide details of why the friendly society is seeking dispensation;

(2) The actuary's certificate is optional - please delete this sentence if the certificate is not provided. If an actuary's certificate is to be attached it should be in the form set out overleaf.

[where supporting actuary's certificate is to be attached it should read as follows]

I have performed an initial investigation as follows:-

I am of the opinion that the friendly society's margin of solvency as at [] was/is likely to be in excess of the required margin of solvency and is expected to remain so for the foreseeable future and for so long as there is no significant change in the nature or volume of business transacted or in the nature or distribution of the assets held by the friendly society and I support the application on the ground(s) that

(Signed) Fellow of the

of Actuaries

GUIDANCE ON NEW BUSINESS DEVELOPMENTS AND NEW INITIATIVES

[Deleted]

GUIDANCE ON THE USE OF DERIVATIVE CONTRACTS BY DIRECTIVE FRIENDLY SOCIETIES

Introduction

1. The main purpose of this Annex is to draw attention to the rules which cover whether a *derivative contract* has an admissible value which can count towards a *friendly society's* solvency margin. Guidance Note 4.2 in *IPRU(INS)* applicable to *insurers* other than *friendly societies* discusses the valuation issues surrounding the use of *derivative contract*. The guidance it gives is also generally applicable to *friendly societies*.

Approved derivatives contracts

2. An *approved derivative contract*, if held by a *directive friendly society* which maintains the *required margin of solvency*, in accordance with Part I of Chapter 4, may have an admissible value which can count towards a *friendly society's required solvency margin*. However, any *derivative contract* which is a liability to a *friendly society* (whether or not it falls within the definition of an *approved derivative contract* and is held for the purposes specified in 13 of Appendix 4) will count as a liability for solvency purposes.
3. [deleted].

Information for the FSA

4. A *friendly society* which proposes to make use of *derivative contracts* for the first time is asked to inform *FSA* staff of its proposals.

Note of caution

5. You will no doubt be aware, from the publicity given to a number of cases, that the use of *derivative contracts* can, if not properly controlled, adversely affect the financial viability of an institution. It is important that any institution which decides to use such contracts has sufficient understanding at board/*committee* and senior executive level of the nature and risks of the *derivative contracts* it is proposed to use, to ensure there are effective systems in place to monitor and control the use of derivatives - including where derivative transactions are carried out by investment managers on behalf of the institution. The *committee* of a *friendly society* which is considering using *derivative contracts* will need to be satisfied that there is sufficient understanding at appropriate levels, and that effective control systems are in place, before the *friendly society* commences to use *derivative contracts*.

MARKET CONDUCT SOURCEBOOK (AMENDMENT) INSTRUMENT 2001

- A. The Financial Services Authority alters MAR 1 (Code of Market Conduct) in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000:

Section 119 (The Code);

Section 157(1) (Guidance).

- B. This instrument comes into force immediately.
- C. MAR 1 is amended as set out in the Annex to this instrument.
- D. This instrument may be cited as the Market Conduct Sourcebook (Amendment) Instrument 2001.

By order of the Board
19 July 2001

ANNEX
Amendments to MAR 1

1. In both MAR 1.4.3E and MAR 1.4.4E, change "MAR 1.4.20C - MAR 1.4.28C" to "MAR 1.4.20C - MAR 1.4.31C".
2. In MAR 1.4.19E, change "MAR 1.4.26C and MAR 1.4.28C" to "MAR 1.4.26C, MAR 1.4.28C and MAR 1.4.31C".
3. In MAR 1.4.28C(1)(a), delete "or non-equity".
4. In MAR 1.4.29E, after "MAR 1.4.28C" insert ":".
5. In MAR 1.4.30E, delete "or non-equity" in the first sentence.
6. After MAR 1.4.30E, insert:

"(E) UNDERWRITING AGREEMENTS

1.4.31 C Agreeing to underwrite an issue of *securities* will not of itself amount to a misuse of information."

7. In MAR 1.6.17G, delete the final sentence; that is, delete the sentence which reads "For example, where a long position holder has accumulated his position in an open and transparent manner, the *regular user* is likely to expect the short position holders to be aware of the situation and to protect themselves accordingly".
8. In both MAR 1.8.7G(1) and (2), delete "or non-equity"
9. In MAR 1.11.2G:
 - (1) substitute "19 July 2001" for "31 May 2001"; and
 - (2) insert "virt-x Exchange Limited" before "virt-x plc".

SUPERVISION MANUAL (AMENDMENT) INSTRUMENT 2001

- A. The Financial Services Authority makes the rules and gives the guidance in this instrument in the exercise of the powers and related provisions in or under the Financial Services and Markets Act 2000 (the "Act") listed in Annex D to this instrument.
- B. The provisions of the Act relevant to making rules and listed in Annex D to this instrument are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- C. This instrument comes into force as follows:
- (1) Annex A: immediately;
 - (2) Annex B: at the beginning of the day on which section 19 of the Act (The general prohibition) comes into force;
 - (3) Annexes C and D and paragraphs A to E on this page: immediately.
- D. SUP is amended as follows:
- (1) in the Transitional provisions, after paragraph 6 in the table under the heading "G (1) Transitional provisions relating to the Supervision manual only" insert the paragraph in Annex A to this instrument;
 - (2) in the Transitional provisions, under the heading "G (2) Transitional provisions relating to written concessions" insert the provisions in Annex B to this instrument;
 - (3) Schedule 4 to SUP is amended in accordance with Annex C to this instrument.
- E. This instrument may be cited as the Supervision Manual (Amendment) Instrument 2001.

By order of the Board
19 July 2001

ANNEX A
Additional paragraph for the Transitional provisions
relating to the Supervision manual only

6A	SUP 9.4	G	<p><u>Individual guidance</u></p> <p>(1) If a <i>person</i> acts in accordance with individual written guidance:</p> <p style="padding-left: 40px;">(a) given to him by any <i>previous regulator</i> (or body whose functions were assumed by a <i>previous regulator</i>);</p> <p style="padding-left: 40px;">(b) relating to any pre-commencement provision; and</p> <p style="padding-left: 40px;">(c) in the circumstances contemplated by that guidance;</p> <p>then the <i>FSA</i> will proceed on the footing that the <i>person</i> has complied with the aspects of any provision in or under the <i>Act</i> (including a <i>rule</i> or <i>guidance</i> in the <i>Handbook</i>) to which the guidance relates if:</p> <p style="padding-left: 40px;">(d) that provision is substantially similar to the pre-commencement provision in relation to the matter with which the guidance is concerned;</p> <p style="padding-left: 40px;">(e) the guidance was current immediately before <i>commencement</i>; and</p> <p style="padding-left: 40px;">(f) the guidance has not been superseded.</p> <p>(2) SUP 9.4.2G to SUP 9.4.4G are relevant for individual written guidance in (1) in the same way as for individual written <i>guidance</i> given by the <i>FSA</i>.</p> <p>(3) References to "individual written guidance" in (1) and (2) include a written concession from a pre-commencement provision which is substantially similar to <i>guidance</i> in the <i>Handbook</i>.</p>	From 19 July 2001	21 June 2001
----	---------	----------	--	-------------------	--------------

ANNEX B
Transitional provisions relating to written concessions

1. The purpose of the transitional provisions in the following table is to carry forward existing written concessions relating to pre-commencement provisions – for example, formal waivers or modifications given by IMRO, PIA or SFA (“an SRO”) and the recognised professional bodies, written concessions from the standards in the FSA’s Guide to Banking Supervisory Policy, and formal written consents and determinations made by an SRO under an SRO rule.
2. An existing written concession is only carried forward if the pre-commencement provision to which it relates is substantially similar to a *rule* in the *Handbook*. The substantially similar test should be applied to the specific element of the *rule* to which the written concession relates. An existing written concession from a pre-commencement provision which is substantially similar to *guidance* in the *Handbook* is carried forward in the same way as pre-commencement individual written guidance; see transitional provision 6A (Individual guidance) in the schedule of Transitional provisions applying to the Supervision manual only.
3. An existing written concession is carried forward on a temporary basis only – for 12 months from *commencement* or, in the case of modifications relating to the Interim Prudential sourcebooks or *SUP* 16.6 (Compliance reports) or *SUP* 16.7 (Financial reports), until the relevant provisions cease to apply. A *firm* wishing to retain the benefit of a concession after that time will need to apply in good time for a *waiver* (see *SUP* 8 (Waiver and modification of rules)).
4. An existing written concession is carried forward as an amendment to the *rule* to which it relates. Any such amendment has effect for all purposes (including *FSA* enforcement action and actions for damages under section 150 of the *Act*).
5. An existing written concession is not carried forward if, and to the extent that, doing so would be inconsistent with a community obligation of the *United Kingdom*, in particular with the proper implementation of a directive.
6. These transitional provisions do not apply to *rules* which are continued by designation of pre-commencement provisions rather than made as new *rules*. Written concessions of such *rules* are carried forward, to similar effect, as *waivers* (given under section 148 of the *Act*) by article 8 of The Financial Services and Markets Act 2000 (Transitional Provision and Savings) (Rules) Order 2001 (SI 2001/1534). The relevant *rules* are:
 - (1) in *IPRU(BANK)*, 3.3.15R in chapter GN; and
 - (2) in *IPRU(INV)*, those identified as designated *rules* in the schedule to *IPRU(INV)* entitled "Powers exercised".
7. Definitions for these transitional provisions, additional to those in the *Glossary*, are provided at paragraph 4 of the table.

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1	<p>Rules in:</p> <p>COB</p> <p>IPRU</p> <p>MAR 2</p> <p>SUP</p> <p>TC</p>	R	<p>(1) A <i>rule</i> listed in column (2) (including <i>evidential provisions</i>, <i>transitional rules</i> and relevant defined expressions) is disapplied, or is modified in its application, to a <i>firm</i>:</p> <p>(a) in order to produce the same effect, including any conditions, as a written concession had on a pre-commencement provision listed in paragraph 2; and</p> <p>(b) for the same period as the written concession would have lasted, if shorter than the period in column (5);</p> <p>if:</p> <p>(c) the <i>rule</i> is substantially similar to the pre-commencement provision in relation to the matter with which the written concession is concerned;</p> <p>(d) the written concession was current as respects the <i>firm</i> immediately before <i>commencement</i>;</p> <p>(e) there is no specific transitional <i>rule</i> relating to the written concession; and</p> <p>(f) the written concession has not been superseded by a <i>waiver</i> from the <i>FSA</i>.</p> <p>(2) Paragraph (1) does not have effect if, and to the extent that, it would be inconsistent with any community obligation of the <i>United Kingdom</i>.</p>	<p>If the <i>rule</i> in column (2) appears in <i>IPRU</i> or in <i>SUP</i> 16.6 or 16.7, from <i>commencement</i> until that <i>rule</i> is revoked.</p> <p>Otherwise, from <i>commencement</i> for 12 months.</p>	<p><i>Commencement</i></p>

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
2	As paragraph 1	R	<p>The pre-commencement provisions referred to in paragraph 1(1) are those contained in any of the following (including relevant defined expressions):</p> <ul style="list-style-type: none"> (1) the legislative provisions of the <i>FSA</i> as designated agency under the Financial Services Act 1986; (2) the rules of <i>IMRO</i>, <i>PIA</i>, <i>SFA</i> and the <i>recognised professional bodies</i>; (3) the Insurance Companies Act 1982 and relevant secondary legislation; (4) the Friendly Societies Act 1992 and relevant secondary legislation; (5) the Banking Act 1987, relevant secondary legislation and the <i>FSA</i>'s Guide to Banking Supervisory Policy; (6) the Building Societies Act 1986, relevant secondary legislation and the Building Societies Commission's Prudential Notes, Guidance Notes and DCE (Dear Chief Executive) letters. 	As paragraph 1	<i>Commencement</i>
3	As paragraph 1	R	<p><u>Notification of relevance etc of concession</u></p> <p>A <i>firm</i> which has the benefit of a written concession to which paragraph 1 applies must notify the <i>FSA</i> immediately if it becomes aware of any matter which is material to the relevance or appropriateness of the written concession.</p>	As paragraph 1	<i>Commencement</i>

ANNEX C
Amendment to Schedule 4 to SUP

In Schedule 4 to SUP, insert the following in the list of powers and related provisions exercised by the FSA to make the rules in SUP:

- Section 118(8) (Market abuse)
- Section 139(1) and (4) (Miscellaneous ancillary matters)
- Section 141 (Insurance business rules)
- Section 144 (Price stabilising rules)
- Section 147 (Control of information rules)
- Section 150(2) (Actions for damages)
- Section 238(5) (Restrictions on promotion)
- Section 247 (Trust scheme rules)
- Section 340 (Appointment)
- Regulation 6(1) of the *OEIC Regulations* (FSA rules)

ANNEX D

Powers exercised

The following powers and related provisions in or under the Act have been exercised to make the rules in this instrument:

- Section 59 (Approval for particular arrangements)
- Section 118(8) (Market abuse)
- Section 138 (General rule-making power)
- Section 139(1) and (4) (Miscellaneous ancillary matters)
- Section 141 (Insurance business rules)
- Section 144 (Price stabilising rules)
- Section 145 (Financial promotion rules)
- Section 146 (Money laundering rules)
- Section 147 (Control of information rules)
- Section 149 (Evidential provisions)
- Section 150(2) (Actions for damages)
- Section 156 (General supplementary powers)
- Section 238(5) (Restrictions on promotion)
- Section 247 (Trust scheme rules)
- Section 340 (Appointment)
- Regulation 6(1) of the Financial Services and Markets Act 2000 (Open-ended investment company) Regulations 2001 (FSA rules)

The following power in the Act has been exercised to give the guidance in this instrument:

- Section 157(1) (Guidance)

COMPLAINTS AGAINST THE FSA SCHEME

INSTRUMENT 2001

- A. The Financial Services Authority makes the arrangements and the provisions in the Annex to this instrument ("COAF") in the exercise of the powers listed in Schedule 4 to COAF (Powers exercised).
- B. This instrument comes into force at the beginning of the day on 3rd September 2001.
- C. This instrument may be cited as the Complaints against the FSA Scheme Instrument 2001.
- D. The Annex to this instrument (including its schedules) may be cited as the Complaints against the FSA Scheme, or COAF.

By order of the Board

19 July 2001

Transitional Provisions

G

- 1 There are no transitional provisions in COAF. However, COAF 2 (Transitional Complaints Scheme) is itself a separate Transitional Complaints Scheme covering complaints against the FSA or PIA, IMRO or SFA in respect of matters arising before the date that section 19 (the general prohibition) of the Act comes into force.

Chapter 1

Complaints against the FSA

1.1 Introduction

- 1.1.1** G_{/1} (1) Paragraph 7 of Schedule 1 to the *Act* requires the *FSA* to maintain a *complaints scheme* for the investigation of complaints arising in connection with the exercise of, or failure to exercise, any of its functions under the *Act* (other than its legislative functions).
- (2) The *FSA* is required to appoint an independent person as *Complaints Commissioner* to be responsible for the conduct of investigations in accordance with the *complaints scheme*.
- 1.1.2** G_{/1} The *complaints scheme* provides that there may be two distinct stages for each complaint. In the first stage, the *FSA* itself will investigate any complaint that meets the requirements of the *complaints scheme* (see *COAF* 1.4) and take whatever action to resolve the matter it thinks appropriate. A complaint will normally only proceed to the second stage if the complainant is dissatisfied with the *FSA*'s determination of his complaint or how it has been handled. This second stage consists of investigation of the complaint by the *Complaints Commissioner*, followed, wherever he finds for the complainant, by his recommendation to the *FSA* on the form of redress that is appropriate in the circumstances.
- 1.1.3** G_{/1} (1) The *complaints scheme* is made by the *FSA* in accordance with its obligations under paragraphs 7 and 8 of Schedule 1 to the *Act*.
- (2) Where the *Act* requires the *FSA* to make a particular arrangement as part of the *complaints scheme*, this is recognised in the following text by the use of the word 'must'. In contrast, where a provision in the *complaints scheme* states that someone "will" do something, this denotes that the *FSA* is committing itself or the *Complaints Commissioner* to some action which, though not specifically required by the *Act*, is nevertheless viewed as necessary to give effect to the intentions of the *Act*.
- (3) Each provision in the *complaints scheme* is, consistent with the style and format of the Handbook, identified by the letter "G". It nevertheless constitutes a definitive statement of the *complaints scheme* which the *FSA* is required to maintain.
- 1.1.4** G_{/1} The *complaints scheme* has effect from 3 September 2001.
- 1.1.5** G_{/1} In this *complaints scheme*, "complaint" means any expression of dissatisfaction about the manner in which the *FSA* has carried out its functions under the *Act* other than its legislative functions.
- 1.1.6** G_{/1} The transitional provisions in *GEN* do not apply to the *complaints scheme*.
- 1.1.7** G_{/1} Further details of the practical operation of the *complaints scheme* are available from the office of the *FSA*'s company secretary, who may be contacted at 25 The

North Colonnade, Canary Wharf, London E14 5SH, Tel No. 020 7676 9870 or by e-mail at complaints@fsa.gov.uk.

1.2 Application

- 1.2.1** **G**_{/1} Anyone directly affected by the way in which the *FSA* has carried out its functions may bring a complaint under the *complaints scheme*, provided the complaint meets the requirements of the *complaints scheme* (see *COAF* 1.4). This includes *firms* and issuers of listed securities and any *customer* or prospective *customer*, whether an individual or a *body corporate*, or *market counterparty*.
- 1.2.2** **G**_{/1} The *complaints scheme* applies in relation to complaints made about the way in which the *FSA* has carried out its functions under the *Act*. The *FSA* is also applying the main elements of the *complaints scheme* in respect of complaints against the *FSA* arising in connection with the exercise of its functions under previous legislation and in respect of complaints made against *PIA*, *IMRO* and *SFA*. Those arrangements are set out in the *transitional complaints scheme*.

1.3 The Complaints Commissioner

1.3.1

G

/1

- (1) The *FSA* must appoint an individual, subject to the approval of the Treasury, as *Complaints Commissioner* to carry out the functions conferred on him by the *complaints scheme*.
- (2) In appointing the *Complaints Commissioner*, the *FSA* is advised by an appointment panel comprising the Deputy Chairman of the *FSA*, the Chairmen of the Practitioner and Consumer Panels established under sections 9 and 10 of the *Act* and another person who is independent of the *FSA*.

1.3.2

G

/1

- (1) The *Complaints Commissioner* is appointed for a period of three years and may be dismissed from office only for reason of becoming:
 - (a) incapacitated by physical or mental illness; or
 - (b) otherwise unfit to discharge the functions of his office;and subject in either event to the approval of the Treasury.
- (2) No person who has attained the age of 70 years is eligible to be or to remain a *Complaints Commissioner*.
- (3) The *Complaints Commissioner* must not be an employee of the *FSA* and is required to act independently of, and without favouring, the *FSA*.

1.3.3

G

/1

The *FSA* will remunerate the *Complaints Commissioner* and will provide him with sufficient resources to equip him with suitable accommodation and staff. No member of the *Complaints Commissioner's* staff may be an employee of, or perform any duties for, the *FSA*.

1.4 Coverage and scope of the scheme

1.4.1

G
/1

- (1) The *complaints scheme* provides a procedure for enquiring into and, if necessary, addressing allegations of misconduct by the *FSA* arising from the way in which it has carried out or failed to carry out its functions. The *complaints scheme* covers complaints about the way in which the *FSA* has acted or omitted to act, including complaints alleging:
 - (a) mistakes and lack of care;
 - (b) unreasonable delay;
 - (c) unprofessional behaviour;
 - (d) bias; and
 - (e) lack of integrity.
- (2) Because the *complaints scheme* is concerned with complaints about the way in which the *FSA* has discharged its functions, it does not cover complaints about the actions of the *Financial Ombudsman Service* or the *Financial Services Compensation Scheme*.
- (3) To be eligible to make a complaint under the *complaints scheme*, a person (see *COAF* 1.2.1G) must be seeking a remedy (which for this purpose may include an apology) in respect of some inconvenience, distress or loss which the person has suffered as a result of being directly affected by the *FSA*'s actions or inaction.

Exclusions from the scheme

1.4.2

G
/1

Each of the following is excluded from the *complaints scheme*:

- (1) complaints about the *FSA*'s relationship with its employees;
- (2) complaints connected with contractual or commercial disputes involving the *FSA* and not connected to its functions under the *Act*; and
- (3) complaints in relation to the performance of the *FSA*'s legislative functions under the *Act* (including making *rules* and issuing codes and general *guidance*).

Alternative remedies

1.4.3

G
/1

The *FSA* will not investigate a complaint under the *complaints scheme* which it reasonably considers:

- (1) could have been, or would be, more appropriately dealt with in another way (for example by referring the matter to the *Tribunal* or by the institution of other legal proceedings); or
- (2) amounts to no more than dissatisfaction with the *FSA*'s general policies or with the exercise of discretion where no unreasonable, unprofessional or other misconduct is alleged.

1.4.4

G
/1

A complaint which is connected with, or which arises from, any form of continuing action by the *FSA* will not normally be investigated by either the *FSA* or the *Complaints Commissioner* until the complainant has exhausted the procedures and remedies under the *Act* which are relevant to that action. An investigation may be commenced before the completion of those procedures if, in the exceptional circumstances of the case, it would not be reasonable to expect the complainant to await the conclusion of the *FSA*'s action.

Certain complaints to be in writing

1.4.5

G
/1

- (1) A complaint made orally by a consumer will be investigated by the *FSA*. If the complaint cannot be resolved quickly, the *FSA* will write to the complainant inviting him to confirm its understanding of the complaint.
- (2) Other persons complaining orally will be asked to confirm their complaint in writing (this includes in electronic form), and the *FSA* will not normally investigate a complaint until the complainant has done so.

Time limits

1.4.6

G
/1

Complaints should be made within 12 months of the date on which the complainant first became aware of the circumstances giving rise to the complaint. Complaints made later than this will be investigated under the *complaints scheme* only if the complainant can show reasonable grounds for the delay.

Cost

1.4.7

G
/1

The *FSA* will not make any charge to complainants in relation to the *complaints scheme*.

1.5 Procedure

The FSA's initial response to complaints

- 1.5.1** **G**_{/1} The FSA will acknowledge a complaint within five working days of receipt. It will send each complainant a leaflet explaining how the *complaints scheme* works, including details of his right to refer the complaint to the *Complaints Commissioner* if he is dissatisfied with the way in which the FSA has dealt with it (see COAF 1.5.5G).

Stage 1: Investigation of complaints by the FSA

- 1.5.2** **G**_{/1} The FSA will arrange for an initial investigation by its own staff of any complaint which satisfies the provisions of COAF 1.4.1G to COAF 1.4.6G. That investigation will be carried out by a suitably senior member of staff who has not previously been involved in the matter complained of, with a view to resolving the matter to the complainant's satisfaction. The FSA will seek to resolve the complaint as quickly as possible.
- 1.5.3** **G**_{/1} The FSA will aim to ensure that all investigations are completed within eight weeks. If it has not completed the investigation of a complaint within four weeks, the FSA will write to the complainant reporting that fact.
- 1.5.4** **G**_{/1} If the FSA concludes that a complaint is well founded, it will tell the complainant what it proposes to do to remedy the matters of complaint.
- 1.5.5** **G**_{/1} Remedying a well founded complaint may include offering the complainant an apology, taking steps to rectify an error or, if appropriate, the offer of a compensatory payment on an ex-gratia basis. If the FSA decides to reject a complaint, it will give its reasons for doing so to the complainant.
- 1.5.6** **G**_{/1} Complainants who are dissatisfied with the outcome of an investigation, or who are dissatisfied with the FSA's progress in investigating a complaint, may refer the matter to the *Complaints Commissioner*, who may decide to carry out his own investigation.

If the FSA does not investigate a complaint, will the Complaints Commissioner do so?

- 1.5.7** **G**_{/1} Within ten working days of receiving a complaint, the FSA will notify the *Complaints Commissioner* of each complaint which it decides not to investigate and will inform the complainant that it has done so. The *Complaints*

Commissioner will, after considering any representations from the complainant and the FSA, then decide whether the complaint falls within the scope of the *complaints scheme* and, if so, whether to conduct an investigation.

1.5.8 G_{/1} If a complaint is referred or notified to the *Complaints Commissioner* before the FSA has had the opportunity to conduct or complete an investigation, the *Complaints Commissioner* will consider whether it would be desirable to allow the FSA that opportunity before conducting his own investigation.

1.5.9 G_{/1} The *Complaints Commissioner* will not investigate any complaint which is outside the scope of the *complaints scheme*, but the final decision on whether a particular case is so excluded rests with the *Complaints Commissioner*.

Stage 2: Conduct of investigations by the Complaints Commissioner

1.5.10 G_{/1} The *Complaints Commissioner* may conduct an investigation in whatever manner he thinks appropriate including obtaining, at the FSA's expense, such external resources as may be reasonable. In performing his functions in accordance with the *complaints scheme*, the *Complaints Commissioner* must at all times act independently of the FSA.

1.5.11 G_{/1} The *Complaints Commissioner* may appoint a person to conduct the whole or any part of an investigation on his behalf but subject to his direction. That person must not be an officer or employee of the FSA.

1.5.12 G_{/1} The FSA will afford the *Complaints Commissioner* all reasonable co-operation, including giving access to its staff and information. The FSA may, in affording the *Complaints Commissioner* access to information, have regard to the need to maintain the confidentiality of certain kinds of information. This would include, for example, taking appropriate steps to ensure that the identity of an informant is not disclosed, or maintaining the confidentiality of information given to the FSA under international arrangements. In any case where the FSA decides that it should withhold information, it will inform the Commissioner of the nature of that information and its reasons for withholding it.

1.5.13 G_{/1} The FSA is not, because of any investigation being conducted by the *Complaints Commissioner*, prevented from continuing to take such action, or such further action, as it considers appropriate in relation to any matter which is related to a complaint or a complainant.

1.5.14 G_{/1} The *Complaints Commissioner* will ensure that, before he concludes an investigation and makes a report, any *person* who may be the subject of criticism in it is given notice of, and the opportunity to respond to, that criticism.

1.5.15 G_{/1} In the investigation of a complaint by either the FSA or the *Complaints Commissioner*, any finding of fact of:

- (1) a court of competent jurisdiction (whether in the *United Kingdom* or elsewhere); or
- (2) the *Tribunal*; or
- (3) any other tribunal established by legislative authority (whether in the *United Kingdom* or elsewhere); or

(4) any independent tribunal charged with responsibility for hearing a final appeal from the regulatory decisions of *PIA*, *IMRO* or *SFA*;

which has not been set aside on appeal or otherwise, shall be conclusive evidence of the facts so found, and any decision of that court or tribunal shall be conclusive.

1.5.16 G_{/1} Any findings of fact or decisions of courts or tribunals not covered by *COAF* 1.5.15G will carry such weight as the *FSA* or the *Complaints Commissioner* considers appropriate in the circumstances.

1.5.17 G_{/1} In deciding whether a complaint is well founded and, if so, in deciding what steps he should recommend the *FSA* to take, the *Complaints Commissioner* will have regard to the *FSA*'s statutory objectives and the considerations set out in sections 2(3) or 73(1) of the *Act*.

1.5.18 G_{/1} The *Complaints Commissioner* may, if he thinks it appropriate, recommend that the *FSA* take either or both of the following steps:

- (1) remedy the matters of complaint; or
- (2) make a compensatory payment to the complainant.

Reports on investigations

1.5.19 G_{/1} The *Complaints Commissioner* must report to the *FSA* and to the complainant on the results of his investigation, giving reasons for any recommendations he makes.

1.5.20 G_{/1} The *Complaints Commissioner* will ensure that his report, apart from identifying the *FSA*, does not mention the name of any other person or contain particulars which are likely to identify any other person unless:

- (1) in the opinion of the *Complaints Commissioner* the omission of such particulars would be likely to impair the effectiveness of the report; or
- (2) after taking into account the public interest, as well as the interests of the complainant and the interests of other persons, the *Complaints Commissioner* considers it necessary to mention the name of that person or to include in the report those particulars (see also *COAF* 1.5.14G).

1.5.21 G_{/1} The *Complaints Commissioner* may publish his report (or any part of it) if he considers that the report (or any part of it) ought to be brought to the attention of the public.

1.5.22 G_{/1} The *FSA* must, in any case where the *Complaints Commissioner* has reported that a complaint is well founded, or where he has criticised the *FSA* in his report, inform the *Complaints Commissioner* and the complainant of the steps which it proposes to take by way of response.

1.5.23 G_{/1} The *FSA* must, if required by the *Complaints Commissioner* to do so, publish the whole or a specified part of its response.

1.5.24 G_{/1} In deciding how it should respond to a report from the *Complaints Commissioner*, the *FSA* will, as well as having regard to its statutory objectives and the considerations set out in section 2(3) or 73(1) of the *Act*, normally take into account the following:

- (1) the gravity of the misconduct which the *Complaints Commissioner* has identified and its consequences for the complainant;
- (2) the nature of the *FSA*'s relationship with the complainant and the extent to which the complainant has been adversely affected in the course of his direct dealings with the *FSA*;
- (3) whether what has gone wrong is at the operational or administrative level (rather than in relation to matters of policy or where the *FSA*'s actions have necessarily had to reflect a balancing of conflicting interests and complex issues);
- (4) the impact of the cost of compensatory payments on *firms*, issuers of listed securities and, indirectly, consumers.

1.6 General

Confidentiality

1.6.1

G
/1

The *Complaints Commissioner* must observe any statutory restrictions applicable to him relating to the disclosure of confidential information.

Annual Report

1.6.2

G
/1

The *Complaints Commissioner* will each year submit a report to the *FSA Board*, for publication, on investigations concluded by him during the 12-month period ending 31 March. The report may include information concerning trends in the subject matter of complaints and on the general lessons which he considers the *FSA* should learn.

Chapter 2

2

Transitional complaints scheme

2.1 Introduction

- 2.1.1** G_{/1} In accordance with the power conferred by The Financial Services and Markets Act 2000 (Transitional Provisions) (Ombudsman Scheme) Order 2001 (“the Order”), the *FSA* has made arrangements for the investigation of complaints:
- (1) arising in connection with the exercise before the *commencement day* of any functions conferred on the *FSA* by or under any enactment (other than the *Act*), or the failure to exercise any such function before *commencement*; or
 - (2) against *PIA*, *IMRO* or *SFA* in respect of matters arising before the *commencement day*.
- 2.1.2** G_{/1} The arrangements made by the *FSA* are set out in the following provisions of this *transitional complaints scheme*.
- 2.1.3** G_{/1} The Order requires the *FSA* to ensure that the *transitional complaints scheme* complies with paragraph 7 of Schedule 1 to the *Act* and provides that the *FSA* may apply such provisions of paragraph 8 of Schedule 1 as it considers to be appropriate. The *FSA* has decided to apply most of the provisions of paragraph 8 so that, with suitable modification to take account of the different persons involved, the *transitional complaints scheme* will operate in substantially the same way as the *complaints scheme* which, going forward, provides a scheme for investigating complaints against the *FSA* in respect of its functions under the *Act*. One difference is that the *transitional complaints scheme* does not make provision for compensatory payments to be made to complainants.
- 2.1.4** G_{/1} The *FSA* is required to appoint an independent person as *Complaints Commissioner* to be responsible for the conduct of investigations in accordance with the *complaints scheme*, and that person is also responsible for the conduct of investigations under this *transitional complaints scheme*.
- 2.1.5** G_{/1}
- (1) Where the *FSA* is required to make a particular arrangement as part of the *transitional complaints scheme*, this is recognised in the following text by use of the word ‘must’. In contrast, where a provision in the *transitional complaints scheme* states that someone “will” do something, this denotes that the *FSA* is committing itself or the *Complaints Commissioner* to some action which, though not specifically required, is nevertheless viewed as necessary to give effect to the intentions of the *Act*.
 - (2) Each provision in the *transitional complaints scheme* is, consistent with the style and format of the Handbook, identified by the letter “G”. It nevertheless constitutes a definitive statement of the *transitional complaints scheme* which the *FSA* is maintaining.
- 2.1.6** G_{/1} References in this *transitional complaints scheme* to the *FSA*’s functions are references to its statutory functions (other than its legislative functions) arising in connection with the Financial Services Act 1986 and the Banking Act 1987 and

functions conferred on the *FSA* by or under other enactments (other than the *Act*). References to the functions of *PIA*, *IMRO* or *SFA* are references to their functions arising in connection with the Financial Services Act 1986 (other than their functions of making rules and issuing guidance).

2.1.7 G_{/1} For the purposes of the *transitional complaints scheme*, the *FSA* is responsible for receiving, investigating and responding to complaints made against *PIA*, *IMRO* or *SFA*.

2.1.8 G_{/1} The *transitional complaints scheme* has effect from 3 September 2001 and is concerned with complaints against the *FSA*, *PIA*, *IMRO* and *SFA* made on or after that date and with complaints made before that date but only if they had not, by 3 September, been referred to an independent person for review.

2.1.9 G_{/1} In this *transitional complaints scheme*:

- (1) “complaint” means any expression of dissatisfaction about the manner in which the *FSA* has carried out its statutory functions (other than its legislative functions) and about the manner in which *PIA*, *IMRO* or *SFA* have carried out their functions arising in connection with the Financial Services Act 1986 (other than their functions of making rules and issuing guidance);
- (2) *firm* includes any person who is or was a person authorised under Chapter III of Part I of the Financial Services Act 1986; and
- (3) “Financial Services Tribunal” means the Tribunal established under section 96 of the Financial Services Act 1986.

2.1.10 G_{/1} The transitional provisions in *GEN* do not apply to the *transitional complaints scheme*.

2.1.11 G_{/1} Further details of the practical operation of the *transitional complaints scheme* are available from the office of the *FSA*’s company secretary who may be contacted at 25 The North Colonnade, Canary Wharf, London E14 5SH, Tel No. 020 7676 9870 or by e-mail at complaints@fsa.gov.uk.

2.2 Application

2.2.1

G
/1

Anyone directly affected by the way in which the *FSA*, *PIA*, *IMRO* or *SFA* has carried out their functions may bring a complaint under the *transitional complaints scheme*, provided the complaint meets the requirements of the *transitional complaints scheme* (see *COAF* 2.3). This includes *firms* and issuers of listed securities and any customer or prospective customer, whether an individual or a body corporate, or market counterparty.

2.3 Coverage and scope of the scheme

2.3.1

G

/1

- (1) The *transitional complaints scheme* provides a procedure for enquiring into and, if necessary, addressing allegations of misconduct by the *FSA*, *PIA*, *IMRO* and *SFA* arising from the way in which they have carried out or failed to carry out their functions. The *transitional complaints scheme* covers complaints about the way in which the *FSA*, *PIA*, *IMRO* or *SFA* have acted or omitted to act, including complaints alleging:
 - (a) mistakes and lack of care;
 - (b) unreasonable delay;
 - (c) unprofessional behaviour;
 - (d) bias; and
 - (e) lack of integrity.
- (2) The *transitional complaints scheme* does not cover complaints about the actions of the Financial Ombudsman Service, the Financial Services Compensation Scheme, the Investors' Compensation Scheme or of any independent complaints investigation body established by *PIA*, *IMRO* or *SFA*.
- (3) The *transitional complaints scheme* does not cover complaints arising in connection with the functions which the *FSA* was authorised to carry out by the Contracting Out (Functions in Relation to Insurance) Order 1998.
- (4) To be eligible to make a complaint under the *transitional complaints scheme*, a person (see *COAF 2.2.1G*) must be seeking a remedy (which for this purpose may include an apology) in respect of some inconvenience, distress or loss which the person has suffered as a result of being directly affected by the actions or inaction of the *FSA*, *PIA*, *IMRO* or *SFA*.

Exclusions from the scheme

2.3.2

G

/1

Each of the following is excluded from the *transitional complaints scheme*:

- (1) complaints about the relationship of the *FSA*, *PIA*, *IMRO* or *SFA* with its employees;
- (2) complaints connected with contractual or commercial disputes involving the *FSA*, *PIA*, *IMRO* or *SFA* and not connected to their regulatory functions; and
- (3) complaints in relation to the performance of the *FSA*'s legislative functions under the Financial Services Act 1986 or the Banking Act 1987, or the

functions of *PIA*, *IMRO* or *SFA* in relation to their functions of making rules or issuing guidance;

- (4) complaints which, before 3 September 2001, have, following an investigation by the executive of the *FSA*, *PIA*, *IMRO* or *SFA*, been referred for further investigation by a person who is independent of the *FSA* or of any such organisation.

Alternative remedies

2.3.3

G
/1

The *FSA* will not investigate a complaint under the *transitional complaints scheme* which it reasonably considers:

- (1) could have been, or would be, more appropriately dealt with in another way (for example by referring the matter to the Financial Services Tribunal or to the committees, tribunals and appeal bodies or to any successor tribunal of *PIA*, *IMRO* or *SFA* or by the institution of other legal proceedings); or
- (2) amounts to no more than dissatisfaction with the general policies of the *FSA* or of *PIA*, *IMRO* or *SFA* or with the exercise of discretion by any such body where no unreasonable, unprofessional or other misconduct is alleged.

2.3.4

G
/1

A complaint which is connected with, or which arises from, any form of continuing action by the *FSA*, *PIA*, *IMRO* or *SFA* will not normally be investigated by either the *FSA* or the *Complaints Commissioner* until the complainant has exhausted the procedures and remedies under the Financial Services Act 1986 or, as appropriate, under the rules of *PIA*, *IMRO* or *SFA* which are relevant to that action. An investigation may be commenced before the completion of those procedures if, in the exceptional circumstances of the case, it would not be reasonable to expect the complainant to await the conclusion of such action.

Certain complaints to be in writing

2.3.5

G
/1

- (1) A complaint made orally by a consumer will be investigated by the *FSA*. If the complaint cannot be resolved quickly, the *FSA* will write to the complainant inviting him to confirm its understanding of the complaint.
- (2) Other persons complaining orally will be asked to confirm their complaint in writing (this includes in electronic form) and the *FSA* will not normally investigate a complaint until the complainant has done so.

Time limits

2.3.6

G
/1

Complaints should be made within 12 months of the date on which the complainant first became aware of the circumstances giving rise to the complaint. Complaints made later than this will be investigated under the *transitional complaints scheme* only if the complainant can show reasonable grounds for the delay.

Cost

2.3.7

G
/1

The FSA will not make any charge to complainants in relation to the *transitional complaints scheme*.

2.4 Procedure

The FSA's initial response to complaints

- 2.4.1** G_{/1} The *FSA* will acknowledge a complaint within five working days of receipt. It will send each complainant a leaflet explaining how the *transitional complaints scheme* works, including details of his right to refer the complaint to the *Complaints Commissioner* if he is dissatisfied with the way in which the *FSA* has dealt with it (see *COAF* 2.4.6G).

Stage 1: Investigation of complaints by the FSA

- 2.4.2** G_{/1} The *FSA* will arrange for an initial investigation by its own staff of any complaint which satisfies the provisions of *COAF* 2.3.1G to *COAF* 2.3.6G. That investigation will be carried out by a suitably senior member of staff who has not previously been involved in the matter complained of, with a view to resolving the matter to the complainant's satisfaction. The *FSA* will seek to resolve the complaint as quickly as possible.
- 2.4.3** G_{/1} The *FSA* will aim to ensure that all investigations are completed within eight weeks. If it has not completed the investigation of a complaint within four weeks, the *FSA* will write to the complainant reporting that fact.
- 2.4.4** G_{/1} If the *FSA* concludes that a complaint is well founded it will tell the complainant what it proposes to do to remedy the matters of complaint.
- 2.4.5** G_{/1} Remediating a well-founded complaint may include offering the complainant an apology and taking steps to rectify an error. If the *FSA* decides to reject a complaint, it will give its reasons for doing so to the complainant.
- 2.4.6** G_{/1} Complainants who are dissatisfied with the outcome of an investigation, or who are dissatisfied with the *FSA*'s progress in investigating a complaint, may refer the matter to the *Complaints Commissioner*, who may decide to carry out his own investigation.

If the FSA does not investigate a complaint, will the Complaints Commissioner do so?

- 2.4.7** G_{/1} Within ten working days of receiving a complaint, the *FSA* will notify the *Complaints Commissioner* of each complaint which it decides not to investigate and will inform the complainant that it has done so. The *Complaints Commissioner* will, after considering any representations from the complainant and

the *FSA*, then decide whether the complaint falls within the scope of the *transitional complaints scheme* and, if so, whether to conduct an investigation.

2.4.8 G_{/1} If a complaint is referred or notified to the *Complaints Commissioner* before the *FSA* has had the opportunity to conduct or complete an investigation, the *Complaints Commissioner* will consider whether it would be desirable to allow the *FSA* that opportunity before conducting his own investigation.

2.4.9 G_{/1} The *Complaints Commissioner* will not investigate any complaint which is outside the scope of the *transitional complaints scheme*, but the final decision on whether a particular case is so excluded rests with the *Complaints Commissioner*.

Stage 2: Conduct of investigations by the Complaints Commissioner

2.4.10 G_{/1} The *Complaints Commissioner* may conduct an investigation in whatever manner he thinks appropriate including obtaining, at the *FSA*'s expense, such external resources as may be reasonable. In performing his functions in accordance with the *transitional complaints scheme*, the *Complaints Commissioner* must at all times act independently of the *FSA*, *PIA*, *IMRO* and *SFA*.

2.4.11 G_{/1} The *Complaints Commissioner* may appoint a person to conduct the whole or any part of an investigation on his behalf but subject to his direction. That person must not be an officer or employee of the *FSA*, *PIA*, *IMRO* or *SFA*.

2.4.12 G_{/1} The *FSA* will afford the *Complaints Commissioner* all reasonable co-operation including giving access to its staff and information. The *FSA* may, in affording the *Complaints Commissioner* access to information, have regard to the need to maintain the confidentiality of certain kinds of information. This would include, for example, taking appropriate steps to ensure that the identity of an informant is not disclosed or maintaining the confidentiality of information given to the *FSA* under international arrangements. In any case where the *FSA* decides that it should withhold information it will inform the *Complaints Commissioner* of the nature of that information and its reasons for withholding it.

2.4.13 G_{/1} The *FSA*, *PIA*, *IMRO* and *SFA* are not, by reason of any investigation being conducted by the *Complaints Commissioner*, prevented from continuing to take such action, or such further action, as they consider appropriate in relation to any matter which is related to a complaint or a complainant.

2.4.14 G_{/1} The *Complaints Commissioner* will ensure that, before he concludes an investigation and makes a report, any person who may be the subject of criticism in it is given notice of, and the opportunity to respond to, that criticism.

2.4.15 G_{/1} Upon *PIA*, *IMRO* or *SFA* ceasing to have any further regulatory functions, the *Complaints Commissioner* may discharge his obligation to give notice of any potential criticism of them by giving such notice to, and inviting representations from, the *FSA*.

2.4.16 G_{/1} In the investigation of a complaint by either the *FSA* or the *Complaints Commissioner*, any finding of fact of:

- (1) a court of competent jurisdiction (whether in the *United Kingdom* or elsewhere); or
- (2) the Financial Services Tribunal; or

(3) any other tribunal established by legislative authority (whether in the *United Kingdom* or elsewhere); or

(4) any independent tribunal charged with responsibility for hearing a final appeal from the regulatory decisions of *PIA*, *IMRO* or *SFA*;

which has not been set aside on appeal or otherwise, shall be conclusive evidence of the facts so found and any decision of that court or tribunal shall be conclusive.

2.4.17 G_{/1} Any findings of fact or decisions of courts or tribunals not covered by *COAF* 2.4.16G will carry such weight as the *FSA* or the *Complaints Commissioner* considers appropriate in the circumstances.

Reports on investigations

2.4.18 G_{/1} The *Complaints Commissioner* must report to the *FSA* and to the complainant on the results of his investigation, giving reasons for any recommendations he makes.

2.4.19 G_{/1} The *Complaints Commissioner* will ensure that his report, apart from identifying the *FSA*, *PIA*, *IMRO* or *SFA*, does not mention the name of any other person or contain particulars which are likely to identify any other person unless:

- (1) in the opinion of the *Complaints Commissioner* the omission of such particulars would be likely to impair the effectiveness of the report; or
- (2) after taking into account the public interest, as well as the interests of the complainant, and the interests of other persons, the *Complaints Commissioner* considers it necessary to mention the name of that person or to include in the report those particulars (see also *COAF* 2.4.14G).

2.4.20 G_{/1} The *Complaints Commissioner* may publish his report (or any part of it) if he considers that the report (or any part of it) ought to be brought to the attention of the public.

2.4.21 G_{/1} The *Complaints Commissioner* may, if he thinks it appropriate, recommend that the *FSA* remedy the matters of complaint, but any such remedy shall not include a recommendation that a compensatory payment be made.

2.4.22 G_{/1} The *FSA* must, in any case where the *Complaints Commissioner* has reported that a complaint is well founded or where he has criticised the *FSA*, *PIA*, *IMRO* or *SFA* in his report, inform the *Complaints Commissioner* and the complainant of the steps which it proposes to take by way of response.

2.4.23 G_{/1} The *FSA* must, if required by the *Complaints Commissioner* to do so, publish the whole or a specified part of its response.

2.5 General

Confidentiality

2.5.1

G
/1

The *Complaints Commissioner* must observe any statutory restrictions applicable to him relating to the disclosure of confidential information.

Annual Report

2.5.2

G
/1

The *Complaints Commissioner* will each year submit a report to the *FSA Board*, for publication, on investigations concluded by him during the 12-month period ending 31 March. The report may include information concerning trends in the subject matter of complaints and on the general lessons which he considers the *FSA* should learn.

Handbook Modules

Schedule1 Record keeping requirements

G

- 1 There are no record keeping requirements in COAF.

Handbook Modules

Schedule2 Notification requirements

G

- 1 There are no notification requirements in COAF.

Handbook Modules

Schedule3 Fees and other required payments

G

- 1 There are no requirements for fees or other payments in COAF.

Handbook Modules

Schedule4 Powers exercised

G

- 1 The following powers and related provisions in the Act, the Financial Services and Markets Act 2000 (Commencement No.4 and Transitional Provisions) Order 2001 (SI 2001/2364) (the "Commencement No.4 Order") and the Financial Services and Markets Act 2000 (Transitional Provisions) (Ombudsman Scheme and Complaints Scheme) Order 2001 (SI2001/2326) (the "Transitional Provisions Order") have been exercised by the FSA to make the Complaints against the FSA Scheme:
 - (1) Paragraphs 7 and 8 (Arrangements for the investigations of complaints) of Schedule 1 to the Act;
 - (2) Article 2(2) of the Commencement No.4 Order; and
 - (3) Article 18 (Transitional complaints against the Authority) of the Transitional Provisions Order.

FEES INSTRUMENT 2001

- A. The Financial Services Authority makes the rules and gives the guidance in this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (the "Act"):
- Section 156 of the Act (General supplementary powers);
 - Section 157(1) of the Act (Guidance);
 - Paragraph 17(1) of Schedule 1 to the Act (Fees).
- B. The provisions of the Act relevant to making rules and listed above are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- C. This instrument shall come into force at the beginning of the day on which section 40 of the Act (Application for permission) comes into force.
- D. AUTH is amended by:
- (i) inserting, after AUTH 3, the provisions in Annex A to this instrument;
 - (ii) inserting, after Schedule 2, the provisions in Annex B;
 - (iii) inserting, at the beginning of Schedule 4, "The following powers and related provisions in the *Act* have been exercised by the *FSA* to make the *rules* in *AUTH*:
 - Section 156 (General supplementary powers)
 - Paragraph 17(1) of Schedule 1 (Fees)";
 - (iv) deleting Schedule 5, and replacing it with the provisions in Annex C;
 - (v) deleting Schedule 6, and replacing it with the provisions in Annex D.
- E. CIS is amended by:
- (i) inserting, after CIS 17, the provisions in Annex E to this instrument;
 - (ii) inserting, after Schedule 2, the provisions in Annex F;
 - (iii) inserting, in Schedule 4, before " Regulation 6 of the *OEIC regulations* (FSA rules)", "Paragraph 17(1) of Schedule 1 (Fees)";
 - (iv) inserting at the end of Schedule 6, "4. No *rules* in *CIS* 18 can be *waived* by the *FSA*".
- F. REC is amended by:
- (i) inserting, after REC 6, the provisions in Annex G to this instrument;
 - (ii) inserting, after Schedule 2, the provisions in Annex H;

- (iii) inserting, in Schedule 4, after " Section 295 (Notification: overseas investment exchanges and overseas clearing houses)", "Paragraph 17(1) of Schedule 1 (Fees)".

G. This instrument may be cited as the Fees Instrument 2001.

By order of the Board
19 July 2001

ANNEX A

Chapter 4.

Authorisation Fees

4.

4.1 Introduction

Application

- 4.1.1** **R** This chapter applies to:
/1
- (1) every applicant for *Part IV permission* (including an *incoming firm* applying for *top-up permission*); and
 - (2) every *Treaty firm* that wishes to exercise a *Treaty right* to qualify for *authorisation* under Schedule 4 to the *Act* (Treaty rights) in respect of *regulated activities* for which it does not have an *EEA right*.

- 4.1.2** **G** This chapter does not apply to:
/1
- (1) an *EEA firm* that wishes to exercise an *EEA right*; or
 - (2) an *ICVC*; or
 - (3) a *UCITS qualifier*.

Purpose

- 4.1.3** **G** The purpose of this chapter is to set out the requirements on applicants for *Part IV permission*, and *Treaty firms* qualifying for *authorisation* under Schedule 4 to the *Act* (Treaty rights), to pay fees.
/1

Background

- 4.1.4** **G** *GEN 3* (FSA Fees – General Provisions) applies to fees required by this chapter.
/1
- 4.1.5** **G** Most of the detail of what fees are payable by applicants and *Treaty firms* is set out in *AUTH 4 Ann 1R*, the provisions of which will vary from one financial year to another. Accordingly a fresh *AUTH 4 Ann 1R* will come into force, following consultation, for each financial year.
/1
- 4.1.6** **G** The rates set for authorisation fees represent an appropriate proportion of the costs of the *FSA* in processing the application or exercise of *Treaty rights*.
/1

- 4.1.7** G_{/1} Applications (and exercises of *Treaty rights*) are categorised by the *FSA* for the purpose of fee raising as complex, moderately complex and straightforward as identified in *AUTH 4 Ann 1R*. This differentiation is based on the permitted activities sought and does not reflect the *FSA*'s risk assessment of the applicant (or *Treaty firm*).
- 4.1.8** G_{/1} A potential applicant (or *Treaty firm*) has the opportunity to discuss its proposed application (or exercise of *Treaty rights*) with the *FSA* before submitting it formally (see *AUTH 3.9.1G*). If an applicant (or *Treaty firm*) does so, the *FSA* will be able to use that dialogue to make an initial assessment of the fee categorisation and therefore indicate the authorisation fee that should be paid.
- 4.1.9** G_{/1} See *AUTH 3.9* in relation to the procedures for making applications for *Part IV permission* and *AUTH 5* for procedures for the exercise of *Treaty rights* by *Treaty firms*.
- 4.1.10** G_{/1} Authorisation fees are not refundable.

4.2 Obligation to Pay Authorisation Fees

General

- 4.2.1 **R** ^{/1} A person to whom this chapter applies must pay to the FSA an authorisation fee for each application made (or exercise of a *Treaty right*), as set out in *AUTH 4 Ann 1R*.

Amount

- 4.2.2 **R** ^{/1} In respect of a particular application (or exercise) the authorisation fee referred to in *AUTH 4.2.1R* is the highest of the tariffs set out in part 1 of *AUTH 4 Ann 1R* which apply to that application (or exercise).
- 4.2.3 **G** ^{/1} If an application (or exercise of a *Treaty right*) falls within more than one category, only one fee is payable. That fee is the one for the category to which the highest fee tariff applies.

Due date and method of payment

- 4.2.4 **R** ^{/1} The sum payable under *AUTH 4.2.2R* must be paid:
- (1) by bankers draft, cheque or other payable order;
 - (2) in full without deduction; and
 - (3) on or before the date on which the application is made (or notice of exercise is given).
- 4.2.5 **G** ^{/1} An application for a *Part IV permission* will not be complete until the appropriate fee is paid, and the six month period for consideration will not start until that time (see further *AUTH 3.9.30G*).

Modification for certain Treaty firms

4.2.6

R

/1

If a certificate has been issued under paragraph 3(4) of schedule 4 to the *Act* in respect of an exercise of a *Treaty right*, no sum payable under *AUTH* 4.2.2R.

4.2.7

R

/1

If no certificate has been issued under paragraph 3(4) of schedule 4 to the *Act* in respect of an exercise of a *Treaty right*, the sum payable is as specified in Part 4 of *AUTH* Ann 1R.

Authorisation fees payable in relation to the period from applications day to 31 March 2002

Part 1 – Authorisation fees payable

Application type (see Part 2)	Amount payable
(a) Version 1 credit unions	£500
(b) Straightforward	£2,000
(c) Moderately complex	£5,000
(d) Complex	£25,000

Part 2 – Complexity Groupings

Straightforward cases

Activity grouping	Description
A.1	Version 2 credit unions only
A.3	Friendly societies only
A.4	Friendly societies only
A.12	Advisory arrangers, dealers or brokers (holding or controlling client money and/or assets)
A.13	Advisory arrangers, dealers or brokers (not holding or controlling client money and/or assets)
A.14	Corporate finance advisers
A.15	Advisory only firms

Moderately complex cases

Activity grouping	Description
A.5	Managing agents at Lloyd's
A.7	Fund managers (holding or controlling client money and/or assets)
A.8	Fund managers (not holding or controlling client money and/or assets)
A.9	Operators, trustees and depositaries of collective investment schemes
A.10	Firms dealing as principal
A.11	Execution only arrangers, dealers or brokers

Complex cases

Activity grouping	Description
A.1	Deposit acceptors (excluding credit unions)
A.3	Firms conducting insurance activities subject only to prudential regulation (excluding friendly societies)
A.4	Firms conducting insurance activities subject to both prudential and conduct of business regulation (excluding friendly societies)

Part 4 – Authorisation fees for Treaty firms

- 1 If the Treaty firm wishes to undertake the permitted activities in question through its branch in the United Kingdom, the fee is 50% of the fee that would be payable under AUTH 4.2.2R.
- 2 If the Treaty firm wishes to undertake the permitted activities in question by providing services in the United Kingdom, the fee is 25% of the fee which would be payable under AUTH 4.2.2R.

Part 5 – Activity groupings

Activity grouping	Fee-payer falls in the activity group if:
A.1 Deposit acceptors	<p>Its permission includes accepting deposits</p> <p>BUT DOES NOT include one or more of the following:</p> <ul style="list-style-type: none"> • effecting contracts of insurance; • carrying out contracts of insurance.
A.3 Firms conducting insurance activities subject only to prudential regulation	<p>Its permission includes either or both of the following:</p> <ul style="list-style-type: none"> • effecting contracts of insurance; • carrying out contracts of insurance; <p>BUT ONLY in respect of specified investments that are:</p> <ul style="list-style-type: none"> – general insurance contracts; or – long-term insurance contracts other than life-policies.
A.4 Firms conducting insurance activities subject to both prudential and conduct of business regulation	<p>Its permission includes one or more of :</p> <ul style="list-style-type: none"> • effecting contracts of insurance; • carrying out contracts of insurance; <p>both in respect of specified investments including life policies.</p> <ul style="list-style-type: none"> • entering as provider into a funeral plan contract.
A.5 Managing agents at Lloyd's	<p>Its permission includes:</p> <p>managing the underwriting capacity of a Lloyd's syndicate as a managing agent at Lloyd's.</p>
A.6 The Society of Lloyd's	<p>It is an authorised person under section 315(2) of the Act.</p>
A.8 Fund Managers (not holding or controlling client money and/or assets)	<p>Its permission includes the following:</p> <ul style="list-style-type: none"> • managing investments; and • a requirement that prohibits the firm from holding and/or controlling client money. <p>BUT MUST NOT include:</p> <ul style="list-style-type: none"> • safeguarding and administration of assets (without arranging); • arranging safeguarding and administration of assets.

<p>A.9 Operators, Trustees and Depositaries of collective investment schemes</p>	<p>Its permission includes one or more of the following:</p> <ul style="list-style-type: none"> • establishing, operating or winding up a regulated collective investment scheme; • establishing, operating or winding up an unregulated collective investment scheme; • acting as trustee of an authorised unit trust scheme; • acting as the depositary or sole director of an open-ended investment company. <p>AND PROVIDED the firm is NOT a corporate finance advisory firm OR the activities it has (as listed above) are otherwise limited to carrying out corporate finance business.</p>
<p>A.10 Firms dealing as principal</p>	<p>Its permission includes:</p> <p>dealing in investments as principal</p> <p>BUT NOT if one or more of the following apply:</p> <ul style="list-style-type: none"> • activity is carried on exclusively in respect of life policies; • firm is acting exclusively as a matched principal broker <p>AND PROVIDED the firm is NOT a corporate finance advisory firm OR the activities it has (as listed above) are otherwise limited to carrying out corporate finance business.</p>
<p>A.11 Execution-only arrangers, dealers or brokers</p>	<p>Its permission includes one or more of the following:</p> <ul style="list-style-type: none"> • dealing in investments as agent; • arranging (bringing about) deals in investments; • making arrangements with a view to transactions in investments; • dealing as principal in investments where the activity is carried on exclusively in respect of life policies or where the firm acts as a matched principal broker. <p>BUT MUST NOT include one or more of the following:</p> <ul style="list-style-type: none"> • advising on investments (except pensions transfers and pension opt-outs); or • advising on pension transfers and pension opt-outs. <p>AND PROVIDED the firm is NOT a corporate finance advisory firm OR the activities it has (as listed above) are otherwise limited to carrying out corporate finance business.</p>

<p>A.12 Advisory arrangers, dealers, or brokers (holding or controlling client money and/or assets)</p>	<p>Its permission includes one or more of the following:</p> <ul style="list-style-type: none"> • dealing in investments as agent; • arranging (bringing about) deals in investments; • making arrangements with a view to transactions in investments ; • dealing as principal in investments where the activity is carried on as a matched principal broker. <p>AND MUST INCLUDE one or more of:</p> <ul style="list-style-type: none"> • advising on investments (except pension transfers and pension opt-outs); • advising on pension transfers and pension opt-outs; • advising on syndicate participation at Lloyd's. <p>AND PROVIDED the firm is NOT a corporate finance advisory firm OR the activities it has (as listed above) are otherwise limited to carrying out corporate finance business.</p> <p>AND CAN HAVE one or more of:</p> <ul style="list-style-type: none"> • safeguarding and administering of assets; • arranging safeguarding and administration of assets • the ability to hold and/or control client money (that is there is no requirement which prohibits a firm from doing this) <p>AND MUST NOT otherwise meet the requirements to fall in the A.4 activity group.</p>
---	--

<p>A.13 Advisory arrangers, dealers, or brokers (not holding or controlling client money and/or assets)</p>	<p>Its permission includes one or more of the following:</p> <ul style="list-style-type: none"> • dealing in investments as agent; • arranging (bringing about) deals in investments; • making arrangements with a view to transactions in investments; • dealing as principal in investments where the activity is carried on as a matched principal broker. <p>AND MUST include one or more of:</p> <ul style="list-style-type: none"> • advising on investments (except pension transfers and pension opt-outs); • advising on pension transfers and pension opt-outs; • advising on syndicate participation at Lloyd's <p>BUT NOT include:</p> <ul style="list-style-type: none"> • safeguarding and administration of assets. • arranging safeguarding and administration of assets <p>AND PROVIDED the firm is NOT a corporate finance advisory firm OR the activities it has (as listed above) are otherwise limited to carrying out corporate finance business.</p> <p>AND MUST HAVE a requirement in its permission that the firm cannot hold and/or control client money.</p> <p>AND MUST NOT otherwise meet the requirements to fall in the A.4 activity group.</p>
<p>A.14 Corporate finance advisers</p>	<p>The firm is carrying on corporate finance business.</p>
<p>A.15 Advisory only firms</p>	<p>Its permission includes one or more of the following:</p> <ul style="list-style-type: none"> • advising on investments (except pension transfers and pension opt-outs); • advising on syndicate participation at Lloyd's <p>BUT MUST NOT include any of the dealing/arranging activities used in defining the A.11 to A.13 activity groups above.</p> <p>AND PROVIDED the firm is NOT a corporate finance advisory firm OR the activities it has (as listed above) are otherwise limited to carrying out corporate finance business.</p>
<p>A.16 Pensions review levy firms</p>	<p>It was liable to pay the Pensions Levy to the PIA in 2001/2002.</p>

ANNEX B

Authorisation manual Schedule 3 Fees and other required payments

G

1. The aim of the *guidance* in the following table is to give the reader a quick over-all view of the relevant requirements for paying fees.
2. It is not a complete statement of those requirements and should not be relied on as if it were.

Type of fee	Trigger event	Date/Time for payment	Amount/rate	Handbook reference
Authorisation/ application fee	Application for a <i>Part IV permission</i>	On making the application	See <i>AUTH 4 Ann</i> 1R, Part 1	<i>AUTH 4.2</i>
Authorisation/ application fee	Exercise of a <i>Treaty</i> <i>right</i>	On exercising that right	See <i>AUTH 4 Ann</i> 1R, Part 4	<i>AUTH 4.2.6R to</i> <i>4.2.7R</i>

ANNEX C

Authorisation manual
Schedule 5
Rights of action for damages

G

1. The table below sets out the *rules* in *AUTH* contravention of which by an *authorised person* may be actionable under section 150 of the *Act* (Actions for damages) by a *person* who suffers loss as a result of the contravention.

2. If a “Yes” appears in the column headed “For private person?”, the *rule* may be actionable by a “*private person*” under section 150 (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001 No 2256)). A “Yes” in the column headed “Removed” indicates that the *FSA* has removed the right of action under section 150(2) of the *Act*. If so, a reference to the *rule* in which it is removed is also given.

3. The column headed “For other person?” indicates whether the *rule* may be actionable by a *person* other than a *private person* (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of *person* by whom the *rule* may be actionable is given.

Actions for damages: Authorisation manual

Chapter/ Appendix	Section/ Annex	Paragraph	Right of action under section 150			
			For private person?	Removed?	For other person?	
All rules in <i>AUTH 4</i>			Yes	No	No	

ANNEX D

Authorisation manual **Schedule 6** **Rules that can be waived**

G

The *rules* in *AUTH 4* cannot be *waived* by the *FSA*.

ANNEX E

18.1 Introduction

Application

18.1.1

R

/1

This chapter applies to:

- (1) every *person* seeking an *authorisation order* for, or recognition of, a *collective investment scheme*;
- (2) every *manager* of an *authorised unit trust*;
- (3) every *ACD* of an *ICVC*; and
- (4) every *person* who, under the constitution or founding arrangements of a *recognised scheme*, is responsible for the management of the property held for or within the *scheme*;

Purpose

18.1.2

G

/1

The purpose of this chapter is to set out the requirements for the payment of fees relating to *collective investment schemes*.

Background

18.1.3

G

/1

GEN 3 (FSA Fees – General Provisions) applies to fees required by this chapter and explains how the *FSA* sets fees.

18.1.4

G

/1

Most of the detail of the fees payable in relation to a *collective investment scheme* is set out in *CIS 18 Annex 1R*. The provisions of the Annex may vary from one financial year to another. Accordingly a fresh *CIS 18 Annex 1R* will come into force, following consultation, for each financial year.

18.1.5

G

/1

The fees for *collective investment schemes* reflect the estimated costs to the *FSA* of assessing applications and notifications, considering proposals to change *regulated collective investment schemes*, maintaining up to date records about them, and related policy work.

18.1.6

G

/1

The level of fees payable in respect of an application or a notification will vary depending upon the provision of the *Act* under which it is made. This fee is adjusted when the *scheme* concerned is an *umbrella scheme*.

18.3 Obligation to pay notification and application fees

General

- 18.3.1 **R**_{/1} The *person* identified in Part A of CIS 18 Annex 1R as the "relevant fee payer" must pay each fee applicable to any application or notification as specified in part A of CIS 18 Annex 1R.

Due date

- 18.3.2 **R**_{/1} The relevant fee payer must pay a fee identified in Part A of CIS 18 Annex 1R on or before the date on which the relevant application or notification is made.
- 18.3.3 **G**_{/1} Any application or notification, for which a fee is payable under this section, will be treated as incomplete until that *fee* is paid.

Method of payment

- 18.3.4 **R**_{/1} A fee identified in Part A of CIS 18 Annex 1R must be paid by bankers draft, cheque or other payable order.

R Fees payable in relation to the period from applications day to 31 March 2002

1 Table Part A – Application and notification

Section of the Act etc	Nature and purpose of fee	Payable by	Amount of fee	Umbrella fund factor (Note 3)
Regulation 85 of the OEIC Regulations	On application for an order declaring a scheme to be an ICVC	An applicant (Note 1)	£1,200	2
Section 242	On application for an order declaring a scheme to be an authorised unit trust scheme	An applicant (Note 1)	£1,200	2
Section 264	On giving notice under section 264	The operator (Note 2)	£600	2
Section 270	On giving a notice under section 270	The operator (Note 2)	£600	2
Section 272	On application for an order declaring a scheme to be an individually recognised overseas scheme	An applicant (Note 1)	£14,000	2

2 Table Part B – Periodic fees

Nature and purpose of fee	Payable by	Amount of fee	Umbrella fund factor (Note 3)
Periodic fee for an ICVC	The authorised corporate director		
Periodic fee for an authorised unit trust scheme	The manager		
Periodic fee for a scheme recognised under section 264 of the Act	The operator		
Periodic fee for a scheme recognised under section 270 of the Act	The operator		
Periodic fee for a scheme recognised under section 272 of the Act	The operator		

Notes:

- 3 The fee must accompany the application
- 4 The fee must accompany the notice

-
- 5 For an umbrella fund the fee is multiplied by the factor shown in the final column of the above tables

ANNEX F

Collective Investment Schemes sourcebook Schedule 3 Fees and other required payments

G

1. The aim of the *guidance* in the following table is to give the reader a quick over-all view of the relevant requirements for paying fees.
2. It is not a complete statement of those requirements and should not be relied on as if it were.

Type of fee	Trigger event	Date/Time for payment	Amount/rate	Handbook reference
Periodic fee	-	On or before 30 April in each year, or 30 days after the <i>scheme</i> is <i>recognised</i> or the <i>scheme's</i> <i>authorisation order</i> is made	See <i>CIS</i> 18 Ann 1R, Part B	<i>CIS</i> 18.2
Application/ notification fee	See <i>CIS</i> 18 Ann 1R, Part A	On or before making the relevant application or notification	See <i>CIS</i> 18 Ann 1R, Part A	<i>CIS</i> 18.3

ANNEX G

7.1 Introduction

Application

- 7.1.1** **R** This chapter applies to every *recognised body* and to every applicant for recognition as a *recognised body* under Part XVIII of the *Act* (Recognised investment exchanges and clearing houses).
/1

Purpose

- 7.1.2** **G** The purpose of this chapter is to set out the requirements on *recognised bodies* and applicants for recognition as *recognised bodies* to pay fees which (with other fee requirements in the *Handbook*) provide the funding for the *FSA's* functions.
/1

Background

- 7.1.3** **G** *GEN 3* (FSA Fees – General Provisions) applies to fees required by this chapter, and explains how the *FSA* sets its fees.
/1
- 7.1.4** **G** Most of the detail of the fees payable by *recognised bodies* and applicants is set out in *REC 7 Annex 1R*. The provisions of the annex will vary from one financial year to another. Accordingly a new annex will come into force, following consultation, for each financial year.
/1
- 7.1.5** **G** The fee applicable to a *recognised body* reflects the estimated cost to the *FSA* of discharging its functions in relation to that *recognised body*. Fees are set for *UK recognised bodies* on an individual basis.
/1
- 7.1.6** **G** Application fees are calculated from a tariff structure intended to reflect the estimated cost of processing an application of that type and complexity.
/1
- 7.1.7** **G** A *recognised body* may also have obligations to pay fees to the *FSA* under other *rules* or arising from legislation other than the *Act*. For example, a *recognised body* may have an obligation to pay a fee as an approved operator of a relevant system under the Uncertificated Securities Regulations 1995.
/1
- 7.1.8** **G** The *FSA* does not specify a method of payment for *recognised bodies* or applicants. However the *FSA* expects that a *recognised body* or an applicant will generally pay its fee by electronic credit transfer.
/1

7.3 Application fees

Amount

7.3.1 **R** ^{/1} An applicant for recognition as a *UK recognised body* under section 287 or section 288 of the *Act* must pay to the *FSA* in full and without any deduction the application fee specified for that type of application in part 3 of *REC 7 Annex 1R* for the year in which the application is made.

7.3.2 **R** ^{/1} An applicant for recognition as an *overseas recognised body* under section 287 or section 288 and section 292 of the *Act* must pay to the *FSA* in full and without any deduction the application fee specified in part 4 of *REC 7 Annex 1R* for the year in which the application is made.

Due dates

7.3.3 **R** ^{/1} An applicant must pay the application fee on or before the date on which the application is made.

7.3.4 **G** ^{/1} The *FSA* will not consider an application for recognition until the application fee has been paid.

Fees (2001/2002)

R

1 Table Fees payable in relation to the period from applications day to 31 March 2002

In this table:

the term "recognised body" includes a recognised investment exchange or a recognised clearing house recognised under the Financial Services Act 1986 and which is a *recognised body* under Regulation 9 of the *Recognition Requirements Regulations*; and

the term "recognition order" includes a recognition order made by the FSA under section 37 or section 39 of the Financial Services Act 1986 or a recognition order made by the Treasury under section 40 of the Financial Services Act 1986.

Part 1 – Periodic fees for UK recognised bodies

Name of UK recognised body	Amount payable	Due date
COREDEAL Limited		
CRESTCo Limited		
The International Petroleum Exchange of London Limited		
Jiway Limited		
LIFFE Administration and Management		
The London Clearing House Limited		
The London Metal Exchange Limited		
The London Stock Exchange Limited		
OM London Exchange Limited		
virt-x Exchange Limited		
Any other UK recognised body recognised as such by a recognition order made:		
– before 30 June 2001		
– between 1 July 2001 and 30 September 2001		
– between 1 October 2001 and 31 December 2001		
– between 1 January 2002 and 31 March 2002		

Part 2 – Periodic fees for overseas recognised bodies

Name of overseas recognised body	Amount payable	Due date
Cantor Financial Futures Exchange		
Chicago Mercantile Exchange		
Chicago Board of Trade		

Eurex Zurich		
NASDAQ		
New York Mercantile Exchange		
New Zealand Futures and Options Exchange		
Swiss Exchange		
Sydney Futures Exchange		
Warenterminbörse Hannover		
Any overseas recognised body recognised as such by a recognition order made:		
– before 30 June 2001		
– between 1 July 2001 and 30 September 2001		
– between 1 October 2001 and 31 December 2001		
– between 1 January 2002 and 31 March 2002		
Part 3 – Application fees for applicants for recognition as a UK recognised body		
Description of applicant	Amount payable	Due date
Applicant for recognition as a UK RIE	£ 75,000	Date application is made
Applicant for recognition as a UK RCH	£ 75,000	
Additional fees for applicant who proposes to:		
– act as a central counterparty	£ 25,000	
– offer safeguarding and administration services	£ 25,000	
– use substantially new and untested information technology systems in the performance of its relevant functions	£ 25,000	
Part 4 – Application fees for applicants for recognition as an overseas recognised body		
Description of applicant	Amount payable	Due date
Applicant for recognition as an overseas recognised body	£ 35,000	Date application is made

GENERAL PROVISIONS AND GLOSSARY (AMENDMENT) INSTRUMENT 2001

Powers exercised

- A. The Financial Services Authority makes the provisions in this instrument in the exercise of:
- (1) the powers and related provisions listed in Schedule 4 to the General provisions (Powers exercised);
 - (2) article 15 of The Financial Services and Markets Act 2000 (Transitional Provisions) (Ombudsman Scheme and Complaints Scheme) Order 2001 (SI 2001/2326);
 - (3) the following articles of the Financial Services and Markets Act 2000 (Transitional Provisions, Repeals and Savings)(Financial Services Compensation Scheme) Order 2001 (SI 2001/2967):
 - (a) articles 4(3) and 4(4) (Pending applications);
 - (b) article 6(2) (Post-commencement applications);
 - (c) articles 9(3) and 9(4) (Article 9 defaults occurring before commencement);
 - (d) article 10(2) (Applications in respect of compulsory liability insurance);
 - (e) article 12(3) (Applications under the new scheme);
 - (f) article 23 (Record keeping and reporting requirements relating to pre-commencement acts).
- B. The provisions of the Financial Services and Markets Act 2000 (the "Act") relevant to making rules and referred to above are specified for the purpose of section 153(2) of the Act (Rule-making instruments).

Commencement

- C. This instrument comes into force immediately.

Amendment of the General provisions and the Glossary

- D. The Glossary is amended in accordance with Annexes A, B, C and D to this instrument.
- E. The General provisions are amended in accordance with Annex E to this instrument.
- F. Both the General provisions (other than GEN 2.1.8R) and the Glossary are made, additionally, under the powers and related provisions listed at A(2) and (3).

Citation

- G. This instrument may be cited as the General Provisions and Glossary (Amendment) Instrument 2001.

By order of the Board
20 September 2001

ANNEX A

Amendments to the Glossary arising from completion of statutory instruments

1. Insert the following definitions at the place already indicated in the Glossary:

policy (as defined in article 2 of the Financial Services and Markets Act 2000 (Meaning of "Policy" and "Policyholder") Order 2001 (SI 2001/2361)) as the context requires:

(a) a *contract of insurance*, including one under which an existing liability has already accrued; or

(b) any instrument evidencing such a contract.

policyholder (as defined in article 3 of the Financial Services and Markets Act 2000 (Meaning of "Policy" and "Policyholder") Order 2001 (SI 2001/2361)) the *person* who for the time being is the legal holder of the *policy*, including any *person* to whom, under the *policy*, a sum is due, a periodic payment is payable or any other benefit is to be provided or to whom such a sum, payment or benefit is contingently due, payable or to be provided.

2. Amend the definition of "previous regulator" as shown below (underlining indicates new text, striking through indicates deleted text):

previous regulator ...

(5) (in relation to an *underwriting agent* which obtained the *permission* relevant to that category under the Financial Services and Markets Act 2000 (Repeals, Transitional Provisions and Savings) Order 2001 (SI 2001/2636 [~~number to be added later~~])) the *Society of Lloyd's*;

ANNEX B
Technical corrections of the Glossary

1. Delete the definition of "takeover promotion".
2. Amend the following definitions as shown below (underlining indicates new text, striking through indicates deleted text):

approved depositary any depositary:

(a) ~~that~~ which is subject to regulation by a national regulatory body in connection with its custody services;

(b) ~~that~~ which is required to prepare audited accounts;

(c) whose latest annual audit report is not materially qualified;
and

(d) which:

~~(e) that~~ (i) has minimum net assets of £5 million (or its equivalent in any other currency at the relevant time) and has surplus revenue over expenditure for the last two financial years; or

(ii) if not, nevertheless has adequate financial resources for its business.

~~(d) whose latest annual audit report is not materially qualified.~~

direct offer financial promotion

a *non-real time financial promotion* which:

(a) contains:

(i) an offer by the *firm* or another person to enter into a *controlled agreement* with anyone who responds to the *financial promotion*; or

(ii) an invitation to anyone who responds to the *financial promotion* to make an offer to the *firm* or another person to enter into a *controlled agreement*; and

(b) specifies the manner of response or includes a form in which any response is to be made (for example by providing a tear-off slip).

life policy

(1) (except in COB) (in accordance with the definition of "qualifying contract of insurance" in article 3(1) of the *Regulated Activities Order*) a *long-term insurance contract* ~~(which includes a *pension policy*)~~ other than a reinsurance contract and a *pure protection contract*.

(2) (in COB) a long-term insurance contract in (1) or a pension policy.

overseas financial services institution

an institution authorised to carry on any regulated activity or other financial service by an overseas regulator in an EEA State other than the United Kingdom by a competent authority, or in any other country or territory by a regulatory body which is a member of IOSCO.

parent undertaking

...

(iii) it has the right to exercise a dominant influence over S through:

(A) provisions contained in S's memorandum or articles; or

(B) a control contract; or

...

professional firm

~~(in accordance with sections 325(2) (Definition of "members") and 327(2) (Exemption from the general prohibition of the Act)-~~
a *person* which is:

(a) an individual who is entitled to practise a profession regulated by a *designated professional body* and, in practising it, is subject to its rules, whether or not he is a member of that body; or

(b) a *person* (not being an individual) which is controlled and managed by one or more such individuals
~~managed and controlled by one or more individuals each of whom:~~

~~(i) is entitled to practise a profession regulated by a *designated professional body*, and~~

~~(ii) in practising it is subject to the rules of the *designated professional body*.~~

regulated market

(a) (as defined in article 1 of the *ISD*) a market for the instruments listed in Section B of the Annex to the *ISD* which:

(~~ia~~) appears on the list of such markets drawn up by the market's *Home State* as required by article 16 of the *ISD*;

(~~iib~~) functions regularly;

(~~iiie~~) is characterised by the fact that regulations issued or approved by the competent authorities define the conditions for the operation of the market, the conditions for access to the market and, where Directive 79/279/EEC is applicable, the conditions governing admission to listing imposed in that Directive and, where that Directive is not applicable, the

conditions that must be satisfied by a financial instrument before it can effectively be dealt in on the market; and

(iv~~d~~) requires compliance with all the reporting and transparency requirements laid down by articles 20 and 21 of the *ISD*;

(see Part 1 of SUP 17 Ann 5G for an indicative list of these markets-); and

(b) (in SUP 17 and, unless the context otherwise requires, elsewhere in the Handbook) a market notified under article 16 of the ISD, as included in point 30b of Annex IX to the Agreement of the European Economic Area, to the Standing Committee of the EFTA States as defined in that agreement;

(see Part 2 of SUP 17 Ann 5G for an indicative list of these markets).

requisite details

the details required ~~under in~~ the ~~Financial Services and Markets Act 2000 (EEA Passport Rights) Regulations 2001 (SI 2001/1376)~~ *EEA Passport Rights Regulations* and set out in *SUP 13 Ann 1R (Requisite details: branches)* and *SUP 13 Ann 1R (Requisite details: cross border services)*.

safeguarding and administering investments

the *regulated activity*, specified in article 40 of the *Regulated Activities Order* (Safeguarding and administering investments), which is in summary: the safeguarding ~~and the administration of~~ assets belonging to another and the administration of those assets, or arranging for one or more other *persons* to carry on that activity, where: ...

Annex C

Amendments to the Glossary arising from the making of DISP

1. Insert the following definitions in the appropriate alphabetical position:

<i>annual budget</i>	the annual budgeted costs of operating the <i>Financial Ombudsman Service</i> .
<i>Banking Ombudsman scheme</i>	the <i>former scheme</i> set up, on a voluntary basis, to handle complaints against those banks which subscribed to it.
<i>Building Societies Ombudsman scheme</i>	the <i>former scheme</i> set up and recognised under the Building Societies Act 1986 to handle complaints about <i>building societies</i> .
<i>former Ombudsman</i>	an ombudsman, arbitrator or independent investigator appointed under a <i>former scheme</i> .
<i>former scheme</i>	any of the following: (a) the <i>Banking Ombudsman scheme</i> ; (b) the <i>Building Societies Ombudsman scheme</i> ; (c) the <i>FSA scheme</i> ; (d) the <i>IMRO scheme</i> ; (e) the <i>Insurance Ombudsman scheme</i> ; (f) the <i>Personal Insurance Arbitration Service</i> ; (g) the <i>PIA Ombudsman scheme</i> ; (h) the <i>SFA scheme</i> .
<i>FSA scheme</i>	the <i>former scheme</i> operated by the <i>FSA</i> under paragraph 4 of Schedule 7 to the Financial Services Act 1986 for the investigation of complaints arising out of the conduct of investment business.
<i>IMRO scheme</i>	the <i>former scheme</i> set up by <i>IMRO</i> under the Financial Services Act 1986 and the <i>Investment Ombudsman Memorandum</i> to handle complaints against members of <i>IMRO</i> .

<i>Independent Investigator</i>	the <i>former Ombudsman</i> under the <i>FSA scheme</i> .
<i>Insurance Ombudsman scheme</i>	the <i>former scheme</i> set up, on a voluntary basis, to handle complaints against those insurance companies which subscribed to it.
<i>Investment Ombudsman</i>	the <i>former Ombudsman</i> under the <i>IMRO scheme</i>
<i>Ombudsman Transitional Order</i>	the Financial Services and Markets Act 2000 (Transitional Provisions) (Ombudsman Scheme and Complaints Scheme) Order 2001 (SI 2001/2326).
<i>Personal Insurance Arbitration Service</i>	the <i>former scheme</i> set up on a voluntary basis and run by the Chartered Institute of Arbitrators to handle complaints against those insurance companies which subscribed to it.
<i>PIA Ombudsman scheme</i>	the <i>former scheme</i> set up by <i>PIA</i> under the Financial Services Act 1986 and operated by the PIA Ombudsman Bureau Ltd to handle complaints against members of <i>PIA</i> .
<i>relevant existing complaint</i>	<p>(in accordance with <i>the Ombudsman Transitional Order</i>) a complaint which:</p> <p>(a) was referred to a <i>former scheme</i> at any time before <i>commencement</i>, by a person who was at that time entitled, under the terms of the <i>former scheme</i>, to refer such a complaint (whether described in that scheme as the making of a complaint, the referral of a dispute, the submission of a claim, or otherwise); and</p> <p>(b) has not, before <i>commencement</i>, been rejected, withdrawn, settled or determined by <i>the former Ombudsman</i> (whether by a substantive decision, or by closure of the case without a substantive decision).</p>
<i>relevant new complaint</i>	<p>(in accordance with the <i>Ombudsman Transitional Order</i>) a complaint referred to the <i>Financial Ombudsman Service</i> after <i>commencement</i> which relates to an act or omission occurring before <i>commencement</i> if:</p> <p>(a) the act or omission is that of a person who was, immediately before <i>commencement</i>, subject to a <i>former scheme</i>;</p> <p>(b) the act or omission occurred in the carrying on by that</p>

person of an activity to which that *former scheme* applied;
and

(c) the complainant is eligible and wishes to have the
complaint dealt with under the new scheme;

for the purposes of (c), where the complainant is not eligible
in accordance with *DISP 2* (Jurisdiction of the Financial
Ombudsman Service), an *Ombudsman* may, nonetheless, if
he considers it appropriate, treat the complainant as eligible
if he would have been entitled to refer an equivalent
complaint to the *former scheme* in question immediately
before *commencement*.

*relevant new
complaint*

(in accordance with the *Ombudsman Transitional Order*) a
complaint referred to the *Financial Ombudsman Service*
after *commencement* which relates to an act or omission
occurring before *commencement* if:

(a) the act or omission is that of a person who was,
immediately before *commencement*, subject to a *former
scheme*;

(b) the act or omission occurred in the carrying on by that
person of an activity to which that *former scheme* applied;
and

(c) the complainant is eligible and wishes to have the
complaint dealt with under the new scheme;

for the purposes of (c), where the complainant is not eligible
in accordance with *DISP 2* (Jurisdiction of the Financial
Ombudsman Service), an *Ombudsman* may, nonetheless, if
he considers it appropriate, treat the complainant as eligible
if he would have been entitled to refer an equivalent
complaint to the *former scheme* in question immediately
before *commencement*.

*SFA Complaints
Bureau*

the first stage of the *SFA scheme* which aimed to resolve
complaints by conciliation.

*SFA Consumer
Arbitration Scheme*

the second stage of the *SFA scheme*, which determined
complaints by means of arbitration.

SFA scheme

the *former scheme* (including the *SFA Complaints Bureau*
and the *SFA Consumer Arbitration Scheme*) set up by the
SFA to handle complaints against members of the *SFA* under
the Financial Services Act 1986.

2. Amend the following definitions as shown below (underlining indicates new text, striking through indicates deleted text):

<i>Compulsory Jurisdiction</i>	the jurisdiction of the <i>Financial Ombudsman Service</i> to which <i>firms</i> <u>(and certain <i>unauthorised persons</i> as a result of the <i>Ombudsman Transitional Order</i>)</u> are compulsorily subject.
<i>chargeable case</i>	any complaint referred to the <i>Financial Ombudsman Service</i> , apart from those where the <i>Ombudsman</i> considers it apparent from the complaint received, and from any <i>final response</i> which has been issued by the <i>firm</i> , that the complaint should not proceed because: (a) the complainant is not an <i>eligible complainant</i> in accordance with <i>DISP 2</i> ; or (b) the complaint does not fall within the jurisdiction of the <i>Financial Ombudsman Service</i> (as described in <i>DISP 2</i>) or falls outside the time limits set out in <i>DISP 2.3</i> (Time limits for referral of complaints to the <i>Financial Ombudsman Service</i>); or (c) the <i>Ombudsman</i> considers that the complaint should be dismissed without consideration of its merits under <i>DISP 3.3</i> (Dismissal of complaints without consideration of the merits); or (d) the <i>Ombudsman</i> considers, at any stage, that the complaint should be dismissed under <i>DISP 3.3.1R(2)</i> on the grounds that it is frivolous or vexatious.
<i>final response</i>	a written response from the <i>firm</i> which: (a) accepts the complaint, and, where appropriate, offers redress; or (b) offers redress without accepting the complaint; or (c) rejects the complaint <u>and gives</u> reasons for doing so; and contains information about the right to refer the complaint to the <i>Financial Ombudsman Service</i>. <u>and which informs the complainant that, if he remains dissatisfied with the <i>firm's</i> response, he may now refer his complaint to the <i>Financial Ombudsman Service</i> and must do so within six months.</u>

- general levy* (in *DISP*) the annual fee raised from a *firm* under the *rules* to fund a part agreed between the *Financial Ombudsman Service* and the *FSA* of the *Financial Ombudsman Service's annual budget*.
- industry_block* (in *DISP*) a grouping of *firms* by common business activity for the purposes of calculating the *general levy*.
- relevant business* (in *DISP*) that part of a *firm's* business which it conducts with private individuals and which is subject to the jurisdiction of the *Financial Ombudsman Service* as provided for ~~under~~ in *DISP* 2.6 (To which activities do the rules apply?) , measured by reference to the appropriate tariff_base for each *industry_block*.
- relevant complaint* (1) (in *DISP*) a relevant existing complaint or a relevant new complaint.
- (2) (in *REC*) (as defined in section 299(2) of the *Act* (Complaints about recognised bodies)) a complaint which the *FSA* considers is relevant to the question of whether a *recognised body* should remain a *recognised body*.

Annex D

Amendments to the Glossary arising from the making of AUTH 5, SUP 13, SUP 14 and SERV

1. Insert the following definitions at the appropriate alphabetical position:

EEA Passport Rights Regulations the Financial Services and Markets Act 2000 (EEA Passport Rights) Regulations 2001 (SI 2001/2511).

financial institution (in accordance with paragraph 5(c) of Schedule 3 to the *Act* (EEA Passport Rights: EEA firm) and article 1(5) of the *Banking Consolidation Directive* (Definitions)) an undertaking, other than a *credit institution*, the principal activity of which is to acquire holdings or to carry on one or more of the *listed activities* listed in points 2 to 12 of Annex I to the *BCD*, which is a subsidiary of the kind mentioned in article 19 of the *BCD* and which fulfils the conditions in articles 18 and 19 of the *BCD*.

SERV the Special guide for service companies, forming part of the *Handbook*.

2. Amend the following definition as shown below (underlining indicates new text):

permitted activity (1) (except in AUTH 5 and SUP 14) a regulated activity which a firm has permission to carry on.

(2) (in AUTH 5 and SUP 14) an activity identified in a consent notice, a regulator's notice or, where none is required, a notice of intention.

Annex E
Amendments to the General provisions

1. In paragraph 6 of the table of transitional provisions for GEN, delete the sentence which starts "Transitional provisions in *COB* ...".

2. In Schedule 4 to GEN:

(a) in paragraph 1(43), delete the full stop at the end;

(b) after paragraph 1(43), add:

"(44) article 15 of The Financial Services and Markets Act 2000 (Transitional Provisions) (Ombudsman Scheme and Complaints Scheme) Order 2001 (SI 2001/2326)

(45) the following articles of the Financial Services and Markets Act 2000 (Transitional Provisions, Repeals and Savings)(Financial Services Compensation Scheme) Order 2001 (SI 2001/2967):

(a) articles 4(3) and 4(4) (Pending applications);

(b) article 6(2) (Post-commencement applications);

(c) articles 9(3) and 9(4) (Article 9 defaults occurring before commencement);

(d) article 10(2) (Applications in respect of compulsory liability insurance);

(e) article 12(3) (Applications under the new scheme);

(f) article 23 (Record keeping and reporting requirements relating to pre-commencement acts)."

(c) renumber paragraph 7 as paragraph 8 and insert above it:

"7 *GEN* 2.1.8R is made by *FOS Ltd* in the exercise of its powers referred to in Schedule 4 to *DISP*."

**CONDUCT OF BUSINESS SOURCEBOOK (AMENDMENT) INSTRUMENT
2001**

Powers exercised

- A. The Financial Services Authority alters the Conduct of Business sourcebook in the exercise of the powers listed in Schedule 4 to the Conduct of Business sourcebook (Powers exercised).
- B. The provisions of the Financial Services and Markets Act 2000 (the "Act") relevant to making rules and identified in paragraph A are specified for the purpose of section 153(2) of the Act (Rule-making instruments).

Commencement

- C. This instrument comes into force immediately.

Amendment of the Conduct of Business sourcebook

- D. The Conduct of Business sourcebook is amended as set out in Annex 1 to this instrument.
- E. The transitional rules in the Conduct of Business sourcebook are amended as set out in Annex 2 to this instrument.

Citation

- F. This instrument may be cited as the Conduct of Business Sourcebook (Amendment) Instrument 2001.

By order of the Board
20 September 2001

ANNEX 1

Amendments to the Conduct of Business Sourcebook

In this Annex, where amendments are shown rather than described, underlining indicates new text and striking through indicates deleted text.

COB 1.4 General application: where?

1. COB 1.4.3R (b) Amend as shown below:

COB 6.5, COB 6.7 and COB 6.8 (Content of key features, Cancellation and withdrawal, Insurance contracts; life and general) but only in relation to long term insurance business carried on with a customer habitually resident in the United Kingdom; and

- if relevant, the provisions in (c)

Otherwise, *COB* applies in full

2. COB 1.4.3R (d) Amend as shown below:

Only the following apply:—

- *COB 5.5.7R and COB 5.5.8R (Overseas business); and*
- *COB 6.5, COB 6.7 and COB 6.8 (Content of key features, Cancellation and withdrawal, Insurance contracts - life and general) but only in relation to long term insurance business carried on with a customer habitually resident in the United Kingdom*

COB 1.6 Application to stock lending activity, corporate finance business and oil market participants

1. COB 1.6.4R Amend as shown below:

Corporate finance business

Chapter 3 Financial promotion, except COB 3.8.6G – COB 3.8.20G and COB 3.9

COB 2.2 Inducements and soft commission

1. COB 2.2.7G In the heading to the table, delete "- joint marketing exercises".

2. COB 2.2.16R Delete from "If a *firm*" to "in writing of:" and replace with the following:

Before a *firm* enters into a *client agreement* authorising it to *deal* for a *customer*, either directly or indirectly, with or through the agency of another *person*, under a *soft commission agreement* which the *firm* has, or knows, or ought reasonably to know, that another member of its *group* has, with that other *person*, the *firm* must inform the *customer* in writing of:

3. COB 2.2.18R Delete from "If a *firm*" to "the *firm* must:" and replace with the following:

If a *firm* has, or knows, or ought reasonably to know, that another member of its *group* has a *soft commission agreement* with another *person* under which either the *firm* or that other member of its *group* *deals* for a *customer*, the *firm* must:

COB 2.4 Chinese Walls

1. COB 2.4.4R Amend as shown below:

(1)...but only to the extent that the business of one of those parts involves the carrying of *designated investment business* or related ancillary activities.

COB 3 Financial Promotion

1. COB 3.2.4R (2)(c) Amend as shown below:

(except where COB 3.2.3R applies) if the *firm*.....
2. COB 3.2.4R (3) Amend as shown below:

(except where COB 3.2.3R applies) if the *firm*.....
3. COB3 Ann 4G Table B Amend the following provision as shown below:

A *direct offer financial promotion* for a *PEP* or *ISA transfer* should include details of the likely advantages and disadvantages of transferring an existing *PEP* or *ISA* holding, including:
4. COB 3.1.5R Insert a new heading for COB 3.1.5R as follows:

Authorised professional firms
5. COB 3.3.4G Amend as shown below:

There is no need for a *financial promotion* which is indicated in ~~COB 3.3.3~~ COB 3.3.1R to be outside the territorial scope of the application of the chapter to be *approved* before being *communicated* by an

unauthorised person (because the restriction in section 21 of the *Act* does not apply).

6. COB 3.5.6R (3)

Amend as shown below:

a "recipient" of a communication is the *person* to whom the communication is made or, in the case of a *non-real time communication* financial promotion which is directed at *persons* generally, any *person* who reads or hears the communication.

7. COB 3.8.7G

Amend the heading for this provision as shown below:

Non-real time financial promotions: guidance on ~~fair, clear~~ clear, fair and not misleading

8. COB 3.10.3R (2)(b)

Delete the full stop at the end and replace with "; or".

9. COB 3.10.3R

Insert the following new provision after COB 3.10.3R(2):

(3) the *financial promotion*:

- (a) relates to a *controlled activity* to be carried on by an *authorised person* or *exempt person*; and
- (b) the only *controlled investments* involved or which reasonably could be involved are:
 - (i) *readily realisable securities* (other than *warrants*); and
 - (ii) generally marketable non-g geared *packaged products*.

COB 4.1 Client classification

1. COB 4.1.11E (1)(a)(i)

Amend as shown below:

COB 3.9 (Direct offer financial promotions), COB 3.12-4 (Communication and approval of financial promotions of overseas or an unauthorised person) and COB 3.13 (Additional requirements for financial promotions for an overseas long-term insurer);

COB 5.7 Disclosure of charges, remuneration and commission

1. COB 5.7.5R Amend as shown below:
 - (1) Before effecting a transaction in a *life policy* with or for a *private customer*, and subsequently on request of the *private customer*, a *firm* must disclose to that *private customer*, in cash terms:
 - (a) except where the firm is an independent intermediary, any remuneration payable by it or its *associates* to its *employees* or agents; and
 - (b) any remuneration or commission receivable by it, in connection with the transaction;unless COB 5.7.9R or COB 5.7.10R ~~apply~~ applies.
 - (2) Before effecting a transaction in any other *packaged product* with or for a *private customer*, ~~or~~ and subsequently on request of the *private customer*, an *independent intermediary* or *product provider* must disclose to that *private customer*, in cash terms:
 - (a) except where the firm is an independent intermediary, any remuneration payable by it or its *associates* to its *employees* or agents; and
 - (b) any remuneration or commission receivable by it, in connection with the transaction;unless COB 5.7.9R or COB 5.7.10R ~~apply~~ applies.
2. COB 5.7.17G (2)(d)(i) Add "or" at the end of this provision.
3. COB 5.7.17G (2)(d)(ii) Renumber this provision as (iii) and insert above it the following:
 - (ii) for arranging this policy xyz Ltd expect to incur sales costs of £ ..."; or

COB 6.3 Post-sale confirmation: life policies

1. COB 6.3.1R Amend as shown below:

COB 6.3 applies to a *firm* in accordance with COB 6.1.1R, in respect of life policies.

COB 6.5 Content of key features and important information

1. COB 6.5.21G Amend as shown below:

~~A firm should set out the following information:~~ The information required by COB 6.5.20R should include:

COB 6.6 Projections

1. COB 6.6.34R (2) Amend as shown below:

The relevant *premium* must be accumulated to the *projection date* at the rate of return for its class of business as detailed in COB 6.6.50R - COB 6.6.52R, subject to charges and expenses (as described in COB 6.6.23R) and the cost of risk benefits. The intermediate projection rate need not be used for an existing contract.

2. COB 6.6.36R (2) Amend as shown below:

The relevant contribution must be accumulated to the *projection date* at the rates of return for the relevant class of business as detailed in COB 6.6.50R, subject to charges and expenses (as described in COB 6.6.23R). The intermediate rate of return need not be used for an existing contract.

3. COB 6.6.81R Amend as shown below

Factor	Formula
(1)	$(1+E)*[\ddot{a}_n^{(12)} + D_{x+n}/D_x * \ddot{a}_{x+n}^{(12)}]$
(2)	$(1+E)*[\ddot{a}_n^{(12)} + D_{x+n}/D_x * \ddot{a}_{x+n}^{(12)}]$
(3)	$(1+E)*[a_y - a_{x:y}]$
(4)	$(1+E)*[\ddot{a}_f^{(12)} + .045 * 0.45*(a_m - a_{m:t})]$
(5)	$(1+E)*[\ddot{a}_f^{(12)} + 0.50*(a_m - a_{m:t})]$
(6) namely $a_x^{(12)}$	$= a_x + 13/24$
(7) namely $\ddot{a}_{x:t}^{(12)}$	$= 13/24 * \ddot{a}_{x:t} + 11/24 * a_{x:t}$

COB 6.9 With-Profits Guides

1. COB 6.9.4R (1) Amend as shown below:

not later than six months after its financial year end or, if later, two months after the end of the lodgement period for annual regulatory returns, produce a separate and self-contained guide for each with-profits fund that it maintains, unless the fund is closed to new policyholders;

COB 7.1 Conflict of interest and material interest

1. COB 7.1.7G Amend as shown below:

When it is not practical for a *firm* to act in accordance with COB 7.1.6E, it may demonstrate that it has taken reasonable steps to ensure fair treatment for its ~~private~~ *customers* by relying on a policy of independence....

COB 7.9 Lending to private customers

1. COB 7.9.5R (2) Delete the full stop and replace it with "; or".
2. COB 7.9.5R Insert after COB 7.9.5R (2):
 - (3) a *long-term insurer* lends *money* or grants *credit* to a *private customer*, or arranges for any other *person* to do so, in connection with a *life policy*.

COB 8.1 Confirmation of transactions

1. COB 8.1.17E Amend as shown below:

Content of a confirmation of transaction - additional content relating to transactions in units in a regulated collective investment scheme	
1.	If the <i>firm</i> is not the <i>operator</i> and the transaction was <i>executed</i> with the <i>customer</i> by the <i>firm</i> as <i>principal</i> , that fact.
2.	The name of the <i>scheme</i> and the type and number of <i>units</i> involved.
3.	The amount of:
	(a) the <i>operator's</i> initial <i>charges</i> if any (in cash or percentage terms), if any; and
	(b) any <i>charges</i> (other than the initial <i>charges</i>) made by the <i>firm</i> to the <i>customer</i> in respect of the transaction and, unless such <i>charges</i> to the <i>customer</i> are made on the same basis, the basis on which the amount of the <i>charges</i> was determined.
4.	A statement that the price at which the transaction has been <i>executed</i> is on an

COB 9.3 General transactions

1. COB 9.3.105R (2) Amend as shown below:

the total ~~contingent liability investment~~ margined transaction requirement, which is calculated in accordance with COB 9.3.115R.

2. COB 9.3.118G Amend the following provision as shown below:
- The terms '*client* equity balance' in COB 9.3.113R and '*firm's* equity balance' in COB 9.3.114R refer to cash values and do not include non-cash *collateral* or other *designated investments* held in respect of a ~~*contingent liability investment*~~ *margined transaction*.

COB 9.5 Client money distribution

1. COB 9.5.5R Amend as shown below:
- A *primary pooling event* occurs:
- (1) on the *failure* of the *firm*; or
- (2) on the vesting of assets in a *trustee* in accordance with an '*assets requirement*' imposed under section ~~46-48~~ (1)(b) of the *Act*; or

COB 10.2 Application of general COB rules

1. COB 10.2.1R Amend as shown below:
- An *operator* when it is undertaking *scheme management activity*:
- (1) must comply with the *rules* specified in COB 10.2.5R as modified by COB 10.2.3R and in COB 10.2.5R; and
- (2) need not comply with any other rule in COB; ~~and~~ .

2. COB 10.2.2G Define "operator" as shown below:
- Firms* which are ~~operators~~ *operators* are reminded that under the *Glossary*:

COB 10.3 Modification of the allocation rule

1. COB 10.3.2G Amend the following provision as shown below:
- COB 10.3.3E replaces COB 7.7.6E. COB 10.3.3E modifies the general *rule* on the timing of allocation (~~ie that is~~, COB 7.7.5R) to take into account the kind of *scheme* in which no *participant* is a *private customer*.

COB 10.7 Periodic Statements for an unregulated collective investment scheme

1. COB 10.7.5R Before "if the *participant* has so requested", delete "(1)".

ANNEX 2

Amendments to the Transitional Rules

In this Annex, where amendments are shown rather than described, underlining indicates new text and striking through indicates deleted text.

COB Table TR1: COB Transitional Provisions

1. 1.4 ETP2 R Delete the wording in columns (2) to (6) and insert "[deleted]" in column (4).
2. 1.5 ETP2 G In column (2), amend "ETP2" to "ETP1".
3. 1.13 ETP8 R (2) Delete the current wording and replace with the following:
 - (2) A *pre-N2 firm* which, before *commencement*, was an appointed representative under the Financial Services Act 1986, but has now become an *authorised person*, must, if it wishes to take advantage of the transitional relief in (1), take reasonable steps to ensure that it does not mislead *customers* as to its status as an *authorised person* in any of the written material in (1).
4. 1.14 ETP8 G Number the existing text as (1) and insert below it the following:
 - (2) A statement that the *firm* is a 'representative' of another *firm* is unlikely, on its own to mislead. But if written materials refer to the *firm* as an appointed representative, reasonable steps under COB TR1 1.13 R (2) could include notifying the *firm's private customers* of the change in its status to an *authorised person*; or modifying the *firm's* existing stationery.
5. 2.3 TTP3 R Amend as shown below:

A *pre-N2 firm* will not contravene any of the provisions labelled *TTP3* in Table *COB TR 2* to the extent that it is able to demonstrate that, on or after *commencement*, it has provided its *customers* with a *periodic statement* required by *COB 8.2.4R* (Requirement for a periodic statement) or a *client statement* required by *COB 9.1.59R* (Production and despatch of client

statements) for the period in which *commencement* falls, in accordance with the *corresponding rules* of its *previous regulator*.

6. 3.2 TSP2 R (1) Amend as shown below:

(1) Subject to (2) and (3), a *pre-N2 firm* will not contravene any of the provisions in Table *COB TR 2* labelled *TSP2* to the extent that, on or after *commencement*, it is able to demonstrate that it has continued to use, or rely upon, *terms of business* (including a *client agreement*), or a *soft commission agreement*, given to, or made with, a *person* before the end of the *transitional period* in accordance with the *corresponding rule* of its *previous regulator*.

7. 3.8 TSP6 R Number existing text as (1) and insert below it the following:

(2) A *pre-N2 firm* will not contravene any of the provisions labelled TSP in Table COB TR2 to the extent that it is able to demonstrate that, on or after *commencement*, its auditors have provided its *previous regulator* with written confirmation of the type required by COB 9.3.42R (2)(a) in accordance with the *corresponding rule* of its *previous regulator*.

COB Table TR2: COB provisions to which transitional relief attaches

Amend those parts of the table that follow as shown:

10.7.6R	Record keeping requirements	ETP1		

COB Table TR3: Client classification provisions

1. 1.1R (2), (4), (6) and (8) Amend as shown below:

- (2) If a *firm* before *commencement* classified an existing *client*, other than another *firm* or *overseas financial services institution*, as a *market counterparty* in accordance with the rules of its *previous regulator*, it will not contravene a *rule* in the *Handbook* by treating the *client* as a *market counterparty*, unless (3) applies.
- (4) If a *firm* before *commencement* classified an existing *client*, other than another *firm* or *overseas financial services institution* or a *client* within COB TR1 1.6, as a non-private customer in accordance with the rules of its *previous regulator*, it will not contravene a *rule* in the *Handbook* by treating that *client* as an *intermediate customer*.
- (6) If a *firm* before *commencement* classified an existing *client*, other than another *firm* or *overseas financial services institution*, as a *private customer* in accordance with the rules of its *previous regulator*, it will not contravene a *rule* in the *Handbook* by treating that *client* as a *private customer*.
- (8) If a *firm* before *commencement* classified an existing *client*, other than another *firm* or *overseas financial services institution*, as an ordinary business investor in accordance with the rules of its *previous regulator*, it will not

contravene a *rule* in the *Handbook* by treating that *client* as an *intermediate customer*.

TRAINING AND COMPETENCE SOURCEBOOK

(AMENDMENT) INSTRUMENT 2001

Powers exercised

A. The Financial Services Authority amends the Training and Competence Sourcebook in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (the "Act"):

(1) section 138 (General rule-making power)

(2) section 150(2) (Actions for damages)

(3) section 156 (General supplementary powers).

B. The provisions of the Act relevant to rules and listed above are specified for the purpose of section 153(2) of the Act (Rule-making instruments).

Commencement

C. This instrument shall come into force at the beginning of the day on which section 19 of the Act (The general prohibition) comes into force.

Amendments to the Training and Competence Sourcebook

D. The Training and Competence Sourcebook is amended in accordance with the Annex to this instrument.

Citation

E. This instrument may be cited as the Training and Competence Sourcebook (Amendment) Instrument 2001.

By order of the Board
20 September 2001

ANNEX

1. For TC Transitional Provision 5 substitute the following:

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
5	TC 2	R	(1) TC 2 does not apply to an <i>ex-section 43 firm</i> in respect of activities for which it would have been an exempted person under section 43 of The Financial Services Act 1986 before <i>commencement</i>.	From <i>commencement</i> for 24 months	<i>commencement</i>

MARKET CONDUCT SOURCEBOOK (AMENDMENT NO 2) INSTRUMENT 2001

Powers exercised

- A. The Financial Services Authority alters MAR 2 (Price stabilising rules) and MAR 3 (Inter-professional conduct) in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000:
- (1) section 138 (General rule-making power);
 - (2) section 144 (Price stabilising rules);
 - (3) section 145 (Financial promotion rules);
 - (4) section 150(2) (actions for damages); and
 - (5) section 156 (General supplementary powers).

Commencement

- B. This instrument comes into force immediately.

Amendment of Price stabilising rules

- C. MAR 2 is amended by the insertion of the following heading above MAR 2.1.9R:
"Rights of action for damages".
- D. MAR 2 is amended by the deletion of the following wording in MAR 2.1.9R:
"price stabilising"

Amendment of Inter-professional conduct

- E. MAR 3 is amended by the insertion of the following after MAR 3.1.4R:
"Rights of action for damages
3.1.5 R "A contravention of the rules in MAR 3 does not give rise to a right of action by a private person under section 150 of the Act (and each of the rules in this instrument is specified under section 150(2) of the Act as a provision giving rise to no such right of action.)"

Destinations

- F. MAR is amended by the deletion of the following text:
"The rules in MAR can be waived by the FSA under section 148 of the Act (modification or waiver of rules), except for:
MAR 2.1.1(2)R (Application)
MAR 2.X.XR (Actions for damages)
MAR 3.1.5R (Actions for damages)"

Citation

G. This instrument may be cited as the Market Conduct Sourcebook (Amendment) Instrument 2001.

By order of the Board
20 September 2001

MARKET CONDUCT SOURCEBOOK (AMENDMENT NO 3) INSTRUMENT 2001

Powers exercised

A. The Financial Services Authority makes the rules and gives the guidance in the Annex to this instrument (MAR 4 (Endorsement of the Takeover Code)) in the exercise of the following powers and related provisions in the Act:

- (1) section 138 (General rule-making power)
- (2) section 143 (Endorsement of codes etc.)
- (3) section 157(1) (Guidance).

Commencement

B. This instrument comes into force immediately.

Amendment of schedules

C. In schedule 4 (Powers exercised), insert the following after “Section 138 (General rule-making power)”

“Section 143 (Endorsement of codes etc.)”.

D. In schedule 5 (Rights of action for damages), insert the following at the end of the table:

Chapter/ Appendix	Section/ Annex	Paragraph	For Private Person?	Removed	For other person?
<i>MAR 4</i>			Yes	No	No
(all rules)					

Amendment of Derivations

E. The table of derivations is amended by the insertion of the following at the end of the table:

Ch/App	S/Ann	P		Subject	Source	Reference
MAR 4	3	1	R	Further support of the Takeover Panel's functions	FSA rules and SFA rules	Financial Services (Conduct of Business) Rules 1990, rule 2.12(1) SFA rule 5-48(1)
MAR 4	3	5	R	Further support of the Takeover Panel's functions	SFA rules	SFA rule 5-48(2)

Amendment of destinations

F. The table of destinations is amended by the insertion of the following at the end of the table:

Source reference	Subject	Module	Ch/App	S/Ann	P		
Financial Services (Conduct of Business) Rules 1990, rule 2.12(1) and SFA rule 5.48(1)	Further support of the Takeover Panel's functions	MAR	4	3	1	R	
Financial Services (Conduct of Business) Rules 1990, rule 2.12(2) and SFA rule 5.48(2)	Further support of the Takeover Panel's functions	MAR	4	3	5	R	

Citation

By order of the Board
20 September 2001

ANNEX

Chapter 4

Endorsement of the Takeover Code

4.1 APPLICATION AND PURPOSE

Application

4.1.1 **R** This chapter applies to every *firm* whose *permission* includes, or ought to include, any *designated investment business*, except as set out in MAR 4.4.1R.
/1

4.1.2 **G** MAR 4.1.1R applies regardless of whether the *firm's* activity:
/1

- (1) is a *regulated activity*;
- (2) is carried on from an office of the *firm* in the *United Kingdom*; or
- (3) is in respect of a *client* in the *United Kingdom*.

Purpose

4.1.3 **G** The *Takeover Code* and the *SARs* provide valuable regulation in the areas of takeovers, mergers and substantial acquisition of *shares* of companies. The purpose of endorsing the *Takeover Code* and the *SARs* is to provide them with statutory support. The other requirements in this chapter provide further support for the functions of the *Takeover Panel*.
/1

4.1.4 **G** Endorsing the *Takeover Code* and the *SARs* and imposing the other requirements in this chapter furthers the FSA's *regulatory objectives*, and in particular the objectives of market confidence and protection of consumers.
/1

4.2 ENDORSEMENT

4.2.1

R

The *FSA* endorses:

^{/1}

- (1) the *Takeover Code*; and
- (2) the *SARs*;

as respects the *firms* described in *MAR 4.1.1R*.

4.2.2

G

The *FSA*'s endorsement in *MAR 4.2.1R* has effect in relation to the *Takeover Code* and the *SARs* as amended from time to time. This is because the *FSA* has notified the *Takeover Panel* that it is satisfied with the *Takeover Panel's* consultation procedures, and not withdrawn that notification, in accordance with section 143(6) of the *Act* (Endorsement of codes etc.).

^{/1}

4.2.3

G

The effect of the *FSA*'s endorsement in *MAR 4.2.1R* is that, under section 143 of the *Act* (Endorsement of codes etc.):

^{/1}

- (1) at the request of the *Takeover Panel*, the *FSA* may take enforcement action against a *firm* which contravenes the *Takeover Code* or the *SARs*, under Part IV (Permission to Carry on Regulated Activities), Part XIII (Incoming firms: Intervention by Authority), Part XIV (Disciplinary Measures) and Part XXV (Injunctions and Restitution) of the *Act* (see *ENF 14.10*); and
- (2) at the request of the *Takeover Panel*, the *FSA* may take enforcement action against an *approved person* under section 66(2)(b) of the *Act* (Disciplinary powers).

4.2.4

G

A failure to comply with a requirement imposed, or ruling given, by the *Takeover Panel* under the *Takeover Code* or the *SARs* has the same effect as a contravention of the *Takeover Code* or the *SARs*, under section 143(5) of the *Act* (Endorsement of codes etc.).

^{/1}

4.2.5

G

ENF 14.10 contains *guidance* on the *FSA*'s exercise of its enforcement powers in this area.

^{/1}

4.3 FURTHER SUPPORT OF THE TAKEOVER PANEL'S FUNCTIONS

- 4.3.1** **R** ^{/1} A *firm* must not act, or continue to act, for any *person* in connection with a transaction to which the *Takeover Code* or the *SARs* apply (including a *rule 8 transaction*) if the *firm* has reasonable grounds for believing that the *person* in question, or his principal, is not complying or is not likely to comply with the *Takeover Code* or the *SARs*.
- 4.3.2** **G** ^{/1}
- (1) The *Takeover Panel* publishes notices regarding compliance with the *Takeover Code* and *SARs*. It may also, from time to time, name in those notices *persons* as *persons* that, in the *Takeover Panel's* opinion, are not likely to comply with the *Takeover Code* or the *SARs*. Any notices of this type will be available on the *Takeover Panel's* website (www.thetakeoverpanel.org.uk).
 - (2) A *firm* should keep itself informed of *Takeover Panel* notices and take them into account in seeking to comply with *MAR 4.3.1R*. If the *Takeover Panel* were to name such a *person* in such a notice, the *FSA* would expect a *firm* to comply with *MAR 4.3.1R* by not acting or continuing to act for that *person*.
 - (3) The *FSA* would not regard a *firm* as in breach of *MAR 4.3.1R* where the *Takeover Panel* has indicated that it is content for the *firm* to act in relation to that transaction.
- 4.3.3** **G** ^{/1}
- (1) Where a restriction under *MAR 4.3.1R* applies, among other things the *firm* is prevented from carrying on any *designated investment business* activity, or *communicating* or *approving* any *financial promotion*, in connection with a transaction to which the *Takeover Code* or the *SARs* apply.
 - (2) Where a restriction under *MAR 4.3.1R* applies, the *firm* is not prevented from carrying on other activities (including *regulated activities*) in relation to that *person*. This includes *designated investment business* activity which is not in connection with a transaction to which the *Takeover Code* or the *SARs* apply.
- 4.3.4** **G** ^{/1}
- (1) Where a restriction under *MAR 4.3.1R* applies, an *authorised professional firm* is not prevented from providing professional advice or representation in any proceedings to the *person* where that falls within section 327(8) of the *Act*. This means that the *person* can obtain legal advice or representation in any proceedings from a law firm and accounting advice from an accounting firm: see *MAR 4.4.1R(2)*.
 - (2) While the *FSA* recognises the duty of *authorised professional firms* to act in the best interests of their clients, the duty cannot override the provisions of the *Takeover Code* or *SARs* so as to require the *authorised professional firm* to provide services in breach of, or enable breach of, the *Takeover Code* or *SARs*.

- 4.3.5 **R**^{/1} A *firm* must provide to the *Takeover Panel*:
- (1) any information and documents in its possession or under its control which the *Takeover Panel* requests to enable the *Takeover Panel* to perform its functions; and
 - (2) such assistance as the *Takeover Panel* requests and as the *firm* is reasonably able to provide to enable the *Takeover Panel* to perform its functions.
- 4.3.6 **G**^{/1} In MAR 4.3.5R, “documents” includes information recorded in any form and, in relation to information recorded otherwise than in legible form, references to providing documents include references to producing a copy of the information in legible form.
- 4.3.7 **G**^{/1} As a result of section 413 of the *Act* (Limitation on powers to require documents), MAR 4.3.5R does not require a *firm* or an *authorised professional firm* to produce, disclose or permit the inspection of *protected items*.

4.4.1

R

/1

This chapter is subject to the following exceptions:

- (1) this chapter does not require an *authorised professional firm* to contravene any rule or principle of, or requirement of a published guidance note relating to, professional conduct applying generally to members of the profession regulated by its *designated professional body*;
- (2) this chapter does not prevent an *authorised professional firm* from providing professional advice, that is, in accordance with section 327(8) of the *Act*, advice:
 - (a) which does not constitute carrying on a *regulated activity*; and
 - (b) the provision of which is supervised and regulated by a *designated professional body*;
- (3) this chapter does not have effect in relation to an *authorised professional firm* in respect of *non-mainstream regulated activity*; and
- (4) this chapter does not apply to:
 - (a) a *UCITS qualifier*; or
 - (b) an *incoming EEA firm* which has *permission* only for *cross border services* and which does not carry on *regulated activities* in the *United Kingdom*.

**INTERIM PRUDENTIAL SOURCEBOOK FOR FRIENDLY SOCIETIES
(AMENDMENT) INSTRUMENT 2001**

- A. The Financial Services Authority amends the Interim Prudential Sourcebook for Friendly Societies in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (the "Act"):
- (a) section 138 (general rule making power);
 - (b) section 141 (insurance business rules);
 - (c) section 150(2) (actions for damages);
 - (d) section 156 (general supplementary powers);
 - (e) section 157 (guidance); and
 - (f) section 340 (appointment of auditors and actuaries).
- B. The provisions of the Act relevant to making rules and listed above are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- C. This instrument comes into force immediately.
- D. IPRU(FSOC) is amended in accordance with the Annex to this instrument.
- E. This instrument may be cited as the Interim Prudential Sourcebook for Friendly Societies (Amendment) Instrument 2001.

By order of the Board
20 September 2001

ANNEX

1. Delete rule 3.2 (Audit of systems and records).
2. For paragraph C6(a) of Attachment C to Annex 3 substitute:

“adequacy of resources, including number, experience and skills of those providing inspection services. There may be areas (eg computer audit) for which specific skills may need to be obtained from an external source. *A friendly society’s* auditors would not normally be expected to provide such inspection services, as there is potential for a conflict of interest to arise;”

3. For rule 4.11 substitute:

“Except for rule 4.24, which applies to all *friendly societies*, the remaining rules in this chapter do not apply to *non-directive friendly societies*.”

4. For the rider to paragraph 4 of Annex 3, Part I substitute:

“These requirements are intended to form a sound basis for the control of *friendly societies’* businesses and the protection of *policyholders’* funds. The requirements of rule 3.1 apply to *friendly societies* and *registered branches*.”

5. For paragraph 30 of Annex 3, Part I substitute:

“As explained in 2 the *committee* of a *friendly society* is required to send a statement of opinion to the *FSA* every year stating whether the *friendly society* has complied with the requirements of rule 3.1 and in the case of a *friendly society* with *registered branches*, stating whether its branches have complied with the requirements.”

6. For paragraph 31 of Annex 3, Part II substitute:

“13 to 15 of, and Annex B to, Appendix 4 includes specific provisions with respect to *derivative contracts* and contracts or assets having the effect of *derivative contracts*. This includes provisions restricting those contracts which may be counted as assets for the

purposes of determining a *directive friendly society's required margin of solvency*. Annex 7 refers to Guidance Note 4.2 in *IPRU(INS)* which discusses valuation issues surrounding the use of *derivative contracts*. That Annex also draws attention to the need for the *committee* and management of a society which uses *derivative contracts* to have sufficient understanding of the nature and risks of the contracts it uses to ensure there are effective systems in place to monitor the use of derivatives.”

**INTERIM PRUDENTIAL SOURCEBOOK FOR INSURERS (AMENDMENT)
INSTRUMENT 2001**

- A. The Financial Services Authority amends the Interim Prudential Sourcebook for Insurers in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (the "Act"):
- (a) section 138 (general rule making power);
 - (b) section 141 (insurance business rules);
 - (c) section 150(2) (actions for damages);
 - (d) section 156 (general supplementary powers);
 - (e) section 157 (guidance); and
 - (f) section 340 (appointment of auditors and actuaries).
- B. The provisions of the Act relevant to making rules and listed above are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- C. This instrument comes into force immediately.
- D. IPRU(INS) is amended:
- (1) in accordance with Annex A to this instrument;
 - (2) by suspending DAA14 in volume 3 until 1 June 2002; and
 - (3) by adding DAA15 (as set out in Annex B to this instrument) at the end of volume 3 for temporary period until 31 May 2002.
- E. This instrument may be cited as the Interim Prudential Sourcebook for Insurers (Amendment) Instrument 2001.

By order of the Board
20 September 2001

Annex A

1. For part (a) of the definition of *participation* in rule 11.1 substitute the following:

“(a) the holding of a participating interest within the meaning of section 421(2) of the *Act*;
or”

2. For rule 10.(2)(4) substitute the following:

“(4) The declaration required by (1):

- (a) must be made in writing and deposited with the FSA at the same time as the documents required by rules 9.3 and 9.4;
- (b) must be signed by the persons described in rule 9.33(1)(a); and
- (c) must include a statement from the auditors that, in their opinion, it has been properly compiled in accordance with rule 10.2 from information provided to the *insurer* by other members of the *insurance group* and from the *insurer's* own records.”

3. For part (b) of the definition of *long-term insurance business amount* in rule 11.1 substitute the following:

“(b) such other amount as the *insurer* may select not exceeding the value of its assets (other than *general insurance business assets* if the *insurer* is a *general insurer* and excluding *reinsurance recoveries* and assets required to match *property linked liabilities*) in accordance with the *Valuation of Assets Rules*,”

4. For the first paragraph of the definition of *contract for differences* in rule 11.1 substitute the following:

“a contract for differences or any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss by reference to fluctuations in-”

5. For the last paragraph of the definition of *non-directive insurer* in rule 11.1 substitute the following:

“whose *insurance business* is limited to that described in paragraphs (1) to (7)”

6. For rule 10.1 substitute the following:

“10.1 This chapter applies to an *insurer* (other than a *pure reinsurer*) that is a *subsidiary undertaking* of an *ultimate insurance parent undertaking* and whose head office is in the United Kingdom.”

Your Ref:

Dear Appointed Actuary

Resilience Test

As you will be aware, Regulation 75 of the determination of liability regulations in the Insurance Companies Regulations 1994 requires prudent provision to be made against the effects of possible future changes in the value of assets on the adequacy of these assets to meet the liabilities. This regulation is being carried forward, from 1 December 2001, in Rule 5.17 of the Interim Prudential Sourcebook for Insurers.

Guidance on how Appointed Actuaries should interpret this regulation has, in the past, been given in letters from the Government Actuary, which give advice on how this so-called 'resilience test' should be applied. These letters explain that actuaries should consider a range of possible financial conditions in the future, and the extent to which the solvency margin should be viewed as sufficient to enable the office to meet its liabilities in such circumstances. The present guidance is in the Government Actuary's letter (DAA14) dated 14 May 2000.

This concept of resilience testing is of course fully consistent with the proposed new regime for all financial institutions, as set out in our recent consultation document on the Integrated Prudential Sourcebook, CP97. This document envisages that there should be appropriate judgement by each firm of the financial scenarios to be considered for this purpose, taking account of the nature of the assets and liabilities of the firm as well as perceptions of potential market movements. Accordingly, we consider that this element of the guidance is the key aspect on which attention should now be focused.

The present guidance sets out three specific possible future scenarios, each of which should be tested by the actuary in his or her resilience test. These scenarios have been developed and modified over the last ten years to reflect changing perceptions of the range of investment scenarios that could arise, and changes to the regulations. Since we are now operating in a low inflationary environment in which a significant rise in interest rates on fixed interest securities is considerably less likely, the FSA considers that the test set out in the present scenario three appears unrealistic. (In the possible converse scenario, the present rules for valuing liabilities do of course already make proper allowance for possible falls in the yield on fixed-interest securities.)

Accordingly, in the light of all the above considerations, the FSA has decided that the guidance should be modified and simplified so that, in place of the present recommended set of scenarios for the resilience test, the actuary should, as a minimum, consider the scenario of a fall in the value of equities of the greater of

- (a) 25%, subject to the fall being restricted to such as would not produce a P/E ratio on the FTSE Actuaries All Share Index lower than 75% of the inverse of the long term gilt yield (as defined in regulation 69 of the Insurance companies Regulations 1994 and rule 5.11 of the Interim Prudential Sourcebook for Insurers), and
- (b) 10%.

At the same time, the actuary should make the prudent assumption that company earnings might fall by 10% (shortly after the above fall in equity values), but that dividends would remain unaltered when assessing the corresponding rate of interest at which the liabilities should be valued.

The actuary would then be expected to apply his or her own professional judgement in considering the level of changes in the value of other types of investment held by the insurer for the purpose of this resilience test. Naturally the prudence concept must be paramount. Reductions in fixed interest yields, and/or the reversion of the current yield curve to a more normal shape, are among the obvious possibilities.

The actuary should also take account of the nature of the assets and liabilities. For example the actuary to an insurer which has only unit linked business, some of which carries a guaranteed annuity rate, should not necessarily assume equity values fall in applying tests for lower fixed interest rates. Indeed actuaries to such insurers should consider their resilience to a rise in equity values combined with falling interest rates.

The above text replaces with immediate effect the guidance in the Government Actuary's letter DAA14. This guidance is also given under section 157 of the Financial Services and Markets Act 2000 and, on a temporary basis until 31 May 2002, replaces that contained in the Interim Prudential Sourcebook for Insurers as DAA14 in Volume 3. After 31 May 2002, this guidance will lapse or (following consultation) become permanent guidance. This temporary

guidance has been given without consultation because the FSA considers that the delay involved in consulting would be prejudicial to the interests of consumers. The FSA will make a further announcement about this guidance when it is appropriate to do so. In the meantime, the FSA expects actuaries to apply the above principles when monitoring and assessing the ongoing financial condition of their firms.

We would also of course expect that actuaries will continue to investigate a wide range of possible future investment scenarios for the purpose of reporting to their boards on their stress testing of the firm. As I am sure you will be aware, we are likely to ask to see a copy of these reports from time to time as part of our ongoing supervision of firms.

Yours sincerely

T W Hewitson
Head of Actuarial Department
Financial Services Authority

AUTHORISATION MANUAL (AMENDMENT) INSTRUMENT 2001

Powers exercised

- A. The Financial Services Authority alters the Authorisation manual in the exercise of the following powers in the Financial Services and Markets Act 2000 (the "Act"):
- (1) paragraph 5(4) of Schedule 4 (Treaty Rights: Notice to Authority) (and sections 51(3) and (6) (Applications under this Part));
 - (2) section 157(1) (Guidance).

Commencement

- B. This instrument comes into force at the beginning of the day on which section 19 of the Act (The general prohibition) comes into force.

Amendment of the Authorisation manual

- C. The Authorisation manual is amended by inserting, after AUTH 4, the provisions in the Annex to this instrument.
- D. Schedule 2 to the Authorisation manual (Notification requirements) is amended by inserting the following new row as the penultimate row of the table:

<i>AUTH</i> 5.3.9D	Intention of <i>incoming Treaty firm</i> to carry on a <i>regulated activity</i> in the <i>United Kingdom</i>	Matters relevant to the notice as indicated in the application pack	Intention to carry on a <i>regulated activity</i>	At least seven days in advance
-----------------------	---	---	---	--------------------------------

- E. Schedule 4 to the Authorisation manual (Powers exercised) is amended by inserting at the end "Paragraph 5(4) of Schedule 4 (Treaty Rights: Notice to Authority).".

Citation

- F. This instrument may be cited as the Authorisation Manual (Amendment) Instrument 2001.

By order of the Board
20 September 2001

Annex
AUTH 5 (Qualifying for authorisation under the Act)

SUPERVISION MANUAL (AMENDMENT NO 2) INSTRUMENT 2001

Powers exercised

- A. The Financial Services Authority alters the Supervision manual in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (the "Act"):
- (1) section 59 (Approved persons)
 - (2) section 138 (General rule-making powers);
 - (3) Section 156 (General supplementary powers);
 - (4) section 157(1) (Guidance);
 - (5) section 340 (Appointment);
 - (6) paragraph 19 of Schedule 3 (EEA Passport Rights: Establishment);
 - (7) paragraph 20 of Schedule 3 (EEA Passport Rights: Services).
- B. The provisions of the Act listed above (other than section 157(1)) are specified for the purpose of section 153(2) of the Act (Rule-making instruments).

Commencement

- C. This instrument comes into force as follows:
- (1) the provisions in Annexes A, B, C and D to this instrument: at the beginning of the day on which section 19 of the Act (The general prohibition) comes into force;
 - (2) the remainder of this instrument: immediately.

Amendment of the Supervision manual

- D. SUP is amended as follows:
- (1) after SUP 4, insert the provisions in Annex A to this instrument;
 - (2) after SUP 12, insert the provisions in Annex B to this instrument;
 - (3) after SUP 15.7, insert the provisions in Annex C to this instrument;
 - (4) in SUP 16, insert the provisions in Annex D to this instrument;
 - (5) SUP is amended in accordance with Annex E to this instrument.

Citation

E. This instrument may be cited as the Supervision Manual (Amendment No 2)
Instrument 2001.

By order of the Board
20 September 2001

ANNEX A

Chapter 5

Reports by skilled persons

5.1 Application and purpose

Application

- 5.1.1** **R**_{/1} (1) This chapter applies to every *firm*.
(2) The *rules*, and the *guidance on rules* in SUP 5.5 (Duties of firms), do not apply to a *UCITS qualifier*.

- 5.1.2** **G**_{/1} This chapter (other than the *rules*, and *guidance on rules*, in SUP 5.5 (Duties of firms)) is also relevant to certain unauthorised *persons* within the scope of section 166 of the *Act* (Reports by skilled persons) (see SUP 5.2.1G).

Purpose

- 5.1.3** **G**_{/1} The purpose of this chapter is to give *guidance* on the *FSA*'s use of the power in section 166 of the *Act* (Reports by skilled persons). The purpose is also to make *rules* requiring a *firm* to include certain provisions in its contract with a *skilled person* and to give assistance to a *skilled person*. These *rules* are designed to ensure that the *FSA* receives certain information from a *skilled person* and that a *skilled person* receives assistance from a *firm*.

5.2 The FSA's power

Who may be required to provide a report?

5.2.1

G

^{/1}

Under section 166 of the *Act* (Reports by skilled persons), the *FSA* may, by giving a written notice, require any of the following *persons* to provide it with a report by a *skilled person*:

- (1) a *firm*;
- (2) any other *member* of the *firm's group*;
- (3) a *partnership* of which the *firm* is a *member*;
- (4) a *person* who has at any relevant time been a *person* falling within (1), (2) or (3);

but only if the *person* is, or was at the relevant time, carrying on a business.

5.3 Policy on the use of skilled persons

5.3.1

G
/1

The appointment of a *skilled person* to produce a report under section 166 of the *Act* (Reports by skilled persons) is one of the *FSA's* regulatory tools. The tool may be used:

- (1) for diagnostic purposes, to identify, assess and measure risks;
- (2) for monitoring purposes, to track the development of identified risks, wherever these arise;
- (3) in the context of preventative action, to limit or reduce identified risks and so prevent them from crystallising or increasing; and
- (4) for remedial action, to respond to risks when they have crystallised.

SUP 5 Ann 1G gives examples of circumstances in which the *FSA* may use the *skilled persons* tool.

5.3.2

G
/1

The decision to require a report by a *skilled person* will normally be prompted by a specific requirement for information, analysis of information, assessment of a situation or expert advice or recommendations. It will usually be part of the risk mitigation programme applicable to a *firm*, or the result of an event or development relating or relevant to a *firm*, or prompted by a need for verification of information provided to the *FSA*.

5.3.3

G
/1

When making the decision to require a report by a *skilled person*, the *FSA* will have regard, on a case-by-case basis, to all relevant factors. Those are likely to include:

- (1) circumstances relating to the *firm*;
- (2) alternative tools available, including other statutory powers;
- (3) legal and procedural considerations;
- (4) the objectives of the *FSA's* enquiries;
- (5) cost considerations; and
- (6) considerations relating to *FSA* resources.

SUP 5.3.4G to *SUP 5.3.10G* give further guidance on these listed factors.

5.3.4

G
/1

Circumstances relating to the firm

The *FSA* will have regard to circumstances relating to the *firm*, for example:

- (1) attitude of the *firm*: whether the *firm* is being cooperative;

- (2) history of similar issues: whether similar issues have arisen in the past and, if so, whether timely corrective action was taken;
- (3) quality of a *firm's* systems and records: whether the *FSA* has confidence that the *firm* has the ability to provide the required information;
- (4) objectivity: whether the *FSA* has confidence in the *firm's* willingness and ability to deliver an objective report;
- (5) conflicts of interest: whether the subject matter of the enquiries or the report involves actual or potential misconduct and it would be inappropriate for the *FSA* to rely on the *firm* itself to enquire into the matter; and
- (6) knowledge or expertise available to the *firm*: whether it would be appropriate to involve a third party with the required technical expertise.

Alternative tools available, including other statutory powers

5.3.5

G
/1

The *FSA* will have regard to alternative tools that may be available, including for example:

- (1) obtaining what is required without using specific statutory powers (for example, by a visit by *FSA* staff or a request for information on an informal basis);
- (2) requiring information from *firms* and others, including authorising an agent to require information, under section 165 of the *Act* (Authority's power to require information);
- (3) appointing investigators to carry out general investigations under section 167 of the *Act* (Appointment of persons to carry out general investigations) (see *ENF* 2.5 for the *FSA's* policy on the use of this power); and
- (4) appointing investigators to carry out investigations in particular cases under section 168 of the *Act* (Appointment of persons to carry out investigations in particular cases) (see *ENF* 2.5 for the *FSA's* policy on the use of this power).

Legal and procedural considerations

5.3.6

G
/1

The *FSA* will have regard to legal and procedural considerations including:

- (1) statutory powers: whether one of the other available statutory powers is more appropriate for the purpose than the power in section 166 of the *Act* (Reports by skilled persons);
- (2) subsequent proceedings: whether it is desirable to obtain an authoritative and independent report for use in any subsequent proceedings; and
- (3) application of the *Handbook rules*: whether it is important that the relevant *rules* in the *Handbook* should apply, for example *SUP* 5.5.1R which obliges the *firm* to require and permit the skilled person to report specified matters to the *FSA*.

The objectives of the FSA's enquiries

5.3.7

G
/1

The FSA will have regard to the objectives of its enquiries, and the relative effectiveness of its available powers to achieve those objectives. For example:

- (1) historic information or evidence: if the objectives are limited to gathering historic information, or evidence for determining whether enforcement action may be appropriate, the FSA's information gathering and investigation powers under sections 165 (Authority's power to require information), 167 (Appointment of persons to carry out general investigations) and 168 (Appointment of persons to carry out investigations in particular cases) of the Act are likely to be more appropriate than the section 166 power (Reports by skilled persons); and
- (2) expert analysis or recommendations: if the objectives include obtaining expert analysis or recommendations (or both) for diagnostic, monitoring, preventative or remedial purposes, the section 166 power (Reports by skilled persons) may be an appropriate power to use, instead of, or in conjunction with, the FSA's other available powers.

Cost considerations

5.3.8

G
/1

In accordance with its general policy the FSA will have regard to the question of cost, which is particularly pertinent in relation to *skilled persons* because:

- (1) if the FSA uses the section 166 power (Reports by skilled persons) the *firm* will appoint, and will have to pay for the services of, the *skilled person*;
- (2) if the FSA uses its other information gathering and investigation powers, it will either authorise or appoint its own staff to undertake the information gathering or investigation (or both), or it will pay for the services of external competent persons to do so; in either case the costs will be recovered under the FSA's general fee scheme.

5.3.9

G
/1

In having regard to the cost implications of using the section 166 power (Reports by skilled persons) alternative options (such as visits) or other powers, the FSA will take into account relevant factors, including:

- (1) whether the *firm* may derive some benefit from the work carried out and recommendations made by the *skilled person*, for instance a better understanding of its business and its risk profile, or the operation of its information systems, or improvements to its systems and controls;
- (2) whether the work to be carried out by the *skilled person* is work that should reasonably have been carried out by the *firm*, or by persons instructed by the *firm* on its own initiative; for instance a compliance review or the development of new systems;
- (3) whether the *firm's* record-keeping and management information systems are poor and:
 - (a) the required information and *documents* are not readily available; or
 - (b) an analysis of the required information cannot readily be performed without expert assistance;

- (4) whether the *firm* appears to have breached requirements or standards under the *regulatory system* or otherwise put the interests of consumers at risk, and it is unable or unwilling to review and remedy the matters of concern, or the *FSA* considers that it cannot rely on the *firm* to do so; and
- (5) the perceived probability and seriousness of possible breaches of regulatory requirements and the possible need for further action.

Considerations relating to FSA resources

5.3.10

G

The *FSA* will have regard to *FSA*-related considerations including:

^{/1}

- (1) *FSA* expertise: whether the *FSA* has the necessary expertise; and
- (2) *FSA* resources: whether the resources required to produce a report or to make enquiries are available within the *FSA*, or whether the exercise will be the best use of the *FSA*'s resources at the time.

5.4 Appointment and reporting process

Scope of report

- 5.4.1** **G**_{/1} The *FSA* will send a notice in writing requiring the *person* in *SUP* 5.2.1G to provide a report by a *skilled person* on any matter if it is reasonably required in connection with the exercise of its functions conferred by or under the *Act*. The *FSA* may require the report to be in whatever form it specifies in the notice (*SUP* 5 Ann 2G summarises the appointment and reporting processes).
- 5.4.2** **G**_{/1} As part of the decision making process the *FSA* will normally contact the *person* in *SUP* 5.2.1G to discuss its needs before finalising its decision to require a report by a *skilled person*. This will provide an opportunity for discussion about the appointment, whether an alternative means of obtaining the information would be better, what the scope of a report should be, who should be appointed, and the likely cost.
- 5.4.3** **G**_{/1} The *FSA* will give written notification to the *person* in *SUP* 5.2.1G of the purpose of the report, its scope, the timetable for completion and any other relevant matters. The *FSA* will state the matters which the report is to contain as well as any requirements as to the report's format. For example, a report on controls may be required to address key risks, key controls and the control environment. The *FSA* attaches importance to there being a timetable for each report and to the *skilled person*, with the cooperation of the *person* in *SUP* 5.2.1G, keeping to that timetable.
- 5.4.4** **G**_{/1} The written notification in *SUP* 5.4.3G may be preceded or followed by a discussion of the *FSA*'s requirements and the reasons for them. This may involve the *FSA*, the *person* in *SUP* 5.2.1G and the person who has been, or is expected to be, appointed as the *skilled person*. The *FSA* recognises that there will normally be value in holding discussions involving the *skilled person* at this stage. These discussions may include others if appropriate.
- 5.4.5** **G**_{/1} The *FSA* will wish to conduct the discussion with the *firm*, its *skilled person* and any others within a timescale appropriate to the circumstances of the case.

Appointment process

- 5.4.6** **G**_{/1} The *skilled person* is appointed by the *person* in *SUP* 5.2.1G. The *FSA* will normally seek to agree in advance with the person in *SUP* 5.2.1G the *skilled person* who will make the report. The *Act* requires that the *skilled person* be nominated or approved by the *FSA*:

- (1) if the *FSA* decides to nominate the *skilled person* who is to make the report, it will notify the *person* in *SUP 5.2.1G* accordingly; and
- (2) alternatively, if the *FSA* is content to approve a *skilled person* selected by the *person* in *SUP 5.2.1G*, it will notify the latter *person* of that fact.

The *FSA* may give the *person* in *SUP 5.2.1G* a shortlist from which to choose.

5.4.7

G

/1

A *skilled person* must appear to the *FSA* to have the skills necessary to make a report on the matter concerned. A *skilled person* may be an accountant, lawyer, *actuary* or *person* with relevant business, technical or technological skills.

5.4.8

G

/1

When considering whether to nominate or approve a *skilled person* to make a report, the *FSA* will have regard to the circumstances of the case, including whether the proposed *skilled person* appears to have:

- (1) the skills necessary to make a report on the matter concerned;
- (2) the ability to complete the report within the time expected by the *FSA*;
- (3) any relevant specialised knowledge, for instance of the *person* in *SUP 5.2.1G*, the type of business carried on by the *person* in *SUP 5.2.1G*, or the matter to be reported on;
- (4) any professional difficulty or potential conflict of interest in reviewing the matters to be reported on, for instance because the matters to be reported on may involve questions reflecting on the quality or reliability of work previously carried out by the proposed *skilled person*; and
- (5) enough detachment, bearing in mind the closeness of an existing professional or commercial relationship, to give an objective opinion on matters such as:
 - (a) matters already reported on by the *skilled person* (for example, on the financial statements of the *person* in *SUP 5.2.1G* or in relation to their systems and controls);
 - (b) matters that are likely to be contentious and may result in disciplinary or other enforcement action against the *person* in *SUP 5.2.1G*, its management, *shareholders* or *controllers*; or
 - (c) matters that the *skilled person* has been involved in, in another capacity (for example, when a *skilled person* has been involved in developing an information system it may not be appropriate for him to provide a subsequent opinion on the adequacy of the system).

5.4.9

G

/1

In appropriate circumstances, it may be cost effective for the *FSA* to nominate or approve the appointment of a *skilled person* who has previously acted for, or advised, the *person* in *SUP 5.2.1G*. For example, the *FSA* may nominate, or approve the appointment of, the auditor of a *person* in *SUP 5.2.1G* to prepare a report taking into account, where relevant, the considerations set out in *SUP 5.4.7G*.

Reporting process

5.4.10

G

/1

The *FSA* will normally require the *person* in *SUP 5.2.1G* to appoint a *skilled person* to report to the *FSA* through that *person*. In the normal course of events the *FSA*

expects that the *person* in SUP 5.2.1G will be given the opportunity to provide written comments on the report prior to its submission to the FSA (SUP 5 Ann 2G summarises the reporting process).

5.4.11

G
/1

The FSA may enter into a dialogue with the *skilled person*, and is ready to discuss matters relevant to the report with him, during the preparation of the report. Such discussions will normally involve or be through the *person* in SUP 5.2.1G.

5.4.12

G
/1

The FSA will normally specify a time limit within which it expects the *skilled person* to deliver the report. The *skilled person* should, in complying with its contractual duty under SUP 5.5.1R, take reasonable steps to achieve delivery by that time. If the *skilled person* becomes aware that the report may not be delivered on time, he should inform the FSA and the *person* in SUP 5.2.1G as soon as possible. If the *skilled person* becomes aware that there may be difficulties delivering the report within cost estimates, he will no doubt wish to advise the *firm*.

5.4.13

G
/1

The FSA may meet with the *person* in SUP 5.2.1G and the *skilled person* together to discuss the final report. The FSA may also wish to discuss the final report with the *skilled person* present but without the *person* in SUP 5.2.1G.

5.5 Duties of firms

Contract with the skilled person

5.5.1

R

/1

When a *firm* appoints a skilled person to provide a report under section 166 of the *Act* (Reports by skilled persons), the *firm* must, in a contract with the *skilled person*:

- (1) require and permit the *skilled person* during and after the course of his appointment:
 - (a) to cooperate with the *FSA* in the discharge of its functions under the *Act* in relation to the *firm*; and
 - (b) to communicate to the *FSA* information on, or his opinion on, matters of which he has, or had, become aware in his capacity as *skilled person* reporting on the *firm* in the following circumstances:
 - (i) the *skilled person* reasonably believes that, as regards the *firm* concerned
 - (A) there is or has been, or may be or may have been, a contravention of any relevant *requirement* that applies to the *firm* concerned; and
 - (B) that the contravention may be of material significance to the *FSA* in determining whether to exercise, in relation to the *firm* concerned, any functions conferred on the *FSA* by or under any provision of the *Act* other than Part VI. (Official Listing); or
 - (ii) the *skilled person* reasonably believes that the information on, or his opinion on, those matters may be of material significance to the *FSA* in determining whether the *firm* concerned satisfies and will continue to satisfy the *threshold conditions*; or
 - (iii) the *skilled person* reasonably believes that *firm* is not, may not be or may cease to be a going concern;

- (2) require the *skilled person* to prepare a report, as notified to the *firm* by the *FSA*, *within the time specified by the FSA*; and
- (3) waive any duty of confidentiality owed by the *skilled person* to the *firm* which might limit the provision of information or opinion by that *skilled person* to the *FSA* in accordance with (1) or (2). (See also *SUP 5.5.13G*. and *SUP 5.6*)

5.5.2

G
/1

In complying with the contractual duty in *SUP 5.5.1R(1)* the *FSA* expects that a *skilled person* appointed under section 166 of the *Act* (Reports by skilled persons) will cooperate with the *FSA* by, amongst other things, providing information or documentation about the planning and progress of the report and its findings and conclusions, if requested to do so. A *firm* should therefore ensure that the contract it makes with the *skilled person* requires and permits the *skilled person* to provide the following to the *FSA* if requested to do so:

- (1) interim reports;
- (2) source data, *documents* and working papers;
- (3) copies of any draft reports given to the *firm*; and
- (4) specific information about the planning and progress of the work to be undertaken (which may include project plans, progress reports including percentage of work completed, details of time spent, costs to date, and details of any significant findings and conclusions).

5.5.3

G
/1

If the *FSA* is considering asking for the information specified in *SUP 5.5.2G* it will take into consideration the cost of the *skilled person* complying with the request, and the benefit that the *FSA* may derive from the information. For example, in most cases, the *FSA* will not need to request a *skilled person* to give it source data, *documents* and working papers. However, the *FSA* may do so when it reasonably believes that this information will be relevant to any investigation it may be conducting, or any action it may need to consider taking against the *firm*.

5.5.4

G
/1

In complying with the contractual duty in *SUP 5.5.1R*, the *FSA* expects that, in the case of substantial or complex reports, the *skilled person* will give a periodic update on progress and issues to allow for a re-focusing of the report if necessary. The channel of communication would normally be directly between the *skilled person* and the *FSA*. However, the *FSA* would also expect *firms* normally to be informed about the passage of information, and the *skilled person* would usually be expected to keep the *firm* informed of any communication between the *skilled person* and the *FSA*.

5.5.5

R
/1

A *firm* must ensure that the contract required by *SUP 5.5.1R*:

- (1) is governed by the laws of a part of the *United Kingdom*;
- (2) expressly
 - (a) provides that the *FSA* has a right to enforce the provisions included in the contract under *SUP 5.5.1R* and *SUP 5.5.5R(2)*;
 - (b) provides that, in proceedings brought by the *FSA* for the enforcement of those provisions, the *skilled person* is not to

have available by way of defence, set-off or counterclaim any matter that is not relevant to those provisions;

- (c) (if the contract includes an arbitration agreement) provides that the *FSA* is not, in exercising the right in (a), to be treated as a party to, or bound by, the arbitration agreement; and
 - (d) provides that the provisions included in the contract under *SUP 5.5.1R* and *SUP 5.5.5R(2)* are irrevocable and may not be varied or rescinded without the *FSA*'s consent; and
- (3) is not varied or rescinded in such a way as to extinguish or alter the provisions referred to in (2)(d).

5.5.6 G /1 The Contracts (Rights of Third Parties) Act 1999, or Scots common law, enables the *FSA* to enforce the rights conferred on it under the contract against the *skilled person*.

5.5.7 G /1 If the *FSA* considers it appropriate, it may request the *firm* to give it a copy of the draft contract before it is made with the *skilled person*. The *FSA* will inform the *firm* of any matters that it considers require further clarification or discussion before the contract is finalised.

5.5.8 G /1 The *FSA* expects the *firm*, in complying with *Principle 11*, to give the *FSA* information about the cost of the *skilled persons* report. This may include both an initial estimate of the cost as well as the cost of the completed report. This information is required to help inform the *FSA*'s decision making in the choice of regulatory tools. Information about the number and cost of reports by *skilled persons* will be published by the *FSA*.

Assisting the skilled person

5.5.9 R /1 A *firm* must provide all reasonable assistance to any *skilled person* appointed to provide a report under section 166 of the *Act* (Reports by skilled persons).

5.5.10 G /1 In providing reasonable assistance under *SUP 5.5.9R*, a *firm* should take reasonable steps to ensure that, when reasonably required by the *skilled person*, each of its *appointed representatives* waives any duty of confidentiality and provides reasonable assistance as though *SUP 5.5.1R(3)* and *SUP 5.5.9R* applied directly to the *appointed representative*.

5.5.11 G /1 Reasonable *assistance* in *SUP 5.5.9R* should include:

- (1) access at all reasonable business hours for the *skilled person* to the *firm*'s accounting and other records in whatever form;
- (2) providing such information and explanations as the *skilled person* reasonably considers necessary or desirable for the performance of his duties; and
- (3) permitting a *skilled person* to obtain such information directly from the *firm*'s auditor as he reasonably considers necessary or desirable for the proper performance of his duties.

Responsibility for delivery

5.5.12

G
/1

In complying with *Principle 11*, a *firm* is expected to take reasonable steps to ensure that a *skilled person* delivers a report in accordance with the terms of his appointment.

Assistance to skilled persons from others

5.5.13

G
/1

Section 166(5) of the *Act* (Authority's power to require information) imposes a duty on certain *persons* to give assistance to a *skilled person*. The *persons* on whom this duty is imposed are those who are providing, or have at any time provided, services to any *person* falling within *SUP 5.2.1G*. They include suppliers under *material outsourcing arrangements*.

5.6 Confidential information and privilege

Confidential information

5.6.1

G

/1

Within the legal constraints that apply, the *FSA* may pass on to a *skilled person* any information which it considers relevant to the *skilled person's* function. A *skilled person*, being a primary recipient under section 348 of the *Act* (Restrictions on disclosure of confidential information by Authority etc.), is bound by the confidentiality provisions in Part XXIII of the *Act* (Public record, disclosure of information and cooperation) as regards confidential information he receives from the *FSA* or directly from a *firm* or other *person*. A *skilled person* may not pass on confidential information without lawful authority, for example, where an exception applies under the Financial Services and Markets Act 2000 (Disclosure of Confidential Information) Regulations 2001 (SI 2001/2188) or with the consent of the *person* from whom that information was received and (if different) to whom the information relates. The *FSA* will indicate to a *skilled person* if there is any matter which cannot be discussed with the *person* in SUP 5.2.1G

5.6.2

G

/1

Banking confidentiality and legal privilege

The *limitations* in the following sections of the *Act* are relevant to this chapter:

- (1) section 175(5) (Information and documents: supplemental provisions) under which a person may be required under Part XI of the *Act* (Information Gathering and Investigations) to disclose information or produce a document subject to banking confidentiality (with exceptions); and
- (2) section 413 (Protected items), under which no *person* may be required to produce, disclose or allow the inspection of *protected items*.

ANNEX B

Chapter 13

Exercise of passport rights by UK firms

13.1 Application and purpose

Application

- 13.1.1** G_{/1} This chapter applies to a *UK firm*, that is, a *person* whose head office is in the *United Kingdom* and which is entitled to carry on an activity in another *EEA State* subject to the conditions of a *Single Market Directive*. Such an entitlement is referred to in the *Act* as an *EEA right* and its exercise is referred to in the *Handbook* as passporting.
- 13.1.2** G_{/1} This chapter also applies to a *UK firm* which wishes to establish a *branch* in, or provide *cross border services* into, Gibraltar. The Financial Services and markets Act 2000 (Gibraltar) Order 2001 provides that a *UK firm* is to be treated as having an entitlement corresponding to its *EEA right*, to establish a *branch* in, or provide *cross border services* into, Gibraltar under any of the *Single Market Directives*. So, references in this chapter to an *EEA State* or an *EEA right* include references to Gibraltar and the entitlement under the Gibraltar Order respectively.
- 13.1.3** G_{/1} This chapter does not apply to:
- (1) a *firm* established in an *EEA State* other than the *United Kingdom*; passporting by such a *firm* in or into the *United Kingdom* is a matter for its *Home State regulator* although *guidance* is given in ■ **AUTH 5** (Qualifying for authorisation under the Act);
 - (2) other *overseas firms* (that is, *overseas firms* established outside the *EEA*); such *firms* are not entitled to passport into another *EEA State* and, where relevant, may need to obtain authorisation in each *EEA State* in which they carry on business;
 - (3) any insurance activity by way of provision of services which is provided by an *EEA firm* participating in a *community co-insurance operation* otherwise than as *leading insurer*; article 26.2 of the *Second Non-Life Directive* provides that only the *leading insurer* in such an operation is required to complete any passporting formalities (see also article 11 of the *Regulated Activities Order*); or
 - (4) the marketing of a *UCITS* scheme by its operator in another *EEA State* under the *UCITS Directive* (see ■ **CIS 2.3.4G**).
- 13.1.4** G_{/1} ■ **SUP 13 Ann X** [to be issued later] contains *guidance* on the *Single Market Directives*.

Purpose

13.1.5

G
/1

This chapter gives *guidance* on Schedule 3 to the *Act* for a *UK firm* which wishes to exercise its *EEA right* and establish a *branch* in, or provide *cross border services* into, another *EEA State*. That is, when a *UK firm* wishes to establish its first *branch* in, or provide *cross border services* for the first time into, a particular *EEA State*.

13.1.6

G
/1

The chapter also explains how a *UK firm* which has already established a *branch* in, or is providing *cross border services* into, another *EEA State*, may change the details of its *branch* or of the *cross border services* it is providing: for example, where a *UK firm* wishes to establish additional *branches* in an *EEA State* in which it has already established a *branch* where this would result in a change to the details provided previously. Such changes are governed by the *EEA Passport Rights Regulations*.

 13.2 Introduction

- 13.2.1**  This *chapter* gives *guidance* to *UK firms*. In most cases *UK firms* will be *authorised persons* under the *Act*. However, under the *Banking Consolidation Directive*, a subsidiary of a *firm* which is a *credit institution* which meets the criteria set out in that Directive also has an *EEA right*. Such an unauthorised subsidiary is known as a *financial institution*. References in this chapter to a *UK firm* include a *financial institution*.
/1
- 13.2.2**  A *UK firm* should be aware that the *guidance* is the *FSA's* interpretation of the *Single Market Directives*, the *Act* and the legislation made under the *Act*. The *guidance* is not exhaustive and is not a substitute for *firms* consulting the legislation or taking their own legal advice in the *United Kingdom* and in the relevant *EEA States*.
/1
- 13.2.3**  In some circumstances, a *UK firm* that is carrying on business which is outside the scope of the *Single Market Directives* has a right under the *Treaty* to carry on that business. For example, an *insurer* carrying on both direct insurance and reinsurance business is not covered by the *Insurance Directives* in respect of the reinsurance element. It may, however, have rights under the *Treaty* in respect of its reinsurance business. Such *UK firms* may wish to consult with the *FSA* on their particular circumstances (see ■ SUP 13.12.2G).
/1

13.3 Establishing a branch in another EEA State

What constitutes a branch

13.3.1

G

/1

Guidance on what constitutes a *branch* is given in ■ SUP 13 Ann X [to be issued later].

The conditions for establishing a branch

13.3.2

G

/1

A *UK firm* cannot establish a *branch* in another *EEA State* for the first time under an *EEA right* unless the conditions in paragraphs 19(2), (4) and (5) of Part III of Schedule 3 to the *Act* are satisfied. It is an offence for a *UK firm* which is not an *authorised person* to contravene this prohibition (paragraph 21 of Part III of Schedule 3 to the *Act*). These conditions are that:

- (1) the *UK firm* has given the *FSA*, in accordance with the *FSA rules* (see ■ SUP 13.5.1R), notice of its intention to establish a *branch* (known as a notice of intention) which;
 - (a) (i) identifies the activities which it seeks to carry on through the *branch*; and
 - (b) (i) includes such other information as may be specified by the *FSA* (see ■ SUP 13.5.1R);
- (2) the *FSA* has given notice (known as a *consent notice*) to the *Host State regulator*; and
- (3) (a) the *Host State regulator* has notified the *UK firm* (or, where the *UK firm* is passporting under the *Insurance Directives*, the *FSA*) of the *applicable provisions*; or
 - (b) two months have elapsed beginning with the date on which the *FSA* gave the *consent notice*.

13.3.3

G

/1

Where the *UK firm* is passporting under the *Insurance Directives* and the *Host State regulator* has notified the *FSA* of the *applicable provisions*, then under paragraph 19(9) of Part III of Schedule 3 to the *Act*, the *FSA* is required to inform the *firm* of these provisions.

How long will the process take?

13.3.4 G_{/1} The FSA has three months from receiving a UK firm's notice of intention to consider it and, if satisfied with the proposal, notify the relevant *Host State regulator*. The *Host State regulator* then has a further two months to notify the *applicable provisions* (if any) and prepare for the supervision, as appropriate, of the UK firm.

Issue of a consent notice to the Host State regulator

13.3.5 G_{/1} (1) If a UK firm has given the FSA a notice of intention in the required form, then:

- (a) if the UK firm's EEA right derives from the *Banking Consolidation Directive* or the *Investment Services Directive*, the FSA will give the *Host State regulator* a *consent notice* within three months unless it has reason to doubt the adequacy of a UK firm's resources or its administrative structure;
- (b) if the UK firm's EEA right derives from the *Insurance Directives*, the FSA will give the *Host State regulator* a *consent notice* within three months unless it has reason to:
 - (i) doubt the adequacy of the UK firm's resources or its administrative structure; or
 - (ii) question the reputation, qualifications or experience of the *directors* or managers of the UK firm or its proposed authorised agent,
 in relation to the business the UK firm intends to conduct through the proposed *branch*;

(2) in assessing the matters in ■ SUP 13.3.5G(1)(b) the FSA may, in particular, seek further information from the *firm* or require a report from a *skilled person* (see ■ SUP 5 (Skilled Persons)).

13.3.6 G_{/1} (1) If the FSA gives a *consent notice*, it will inform the UK firm in writing that it has done so.

(2) The *consent notice* will contain, among other matters, the *requisite details* (see ■ SUP 13 Ann 1R) or (if the firm is passporting under the *Insurance Directives*) the EEA relevant details (see ■ SUP 13 Ann 2R) provided by the UK firm in its notice of intention (see ■ SUP 13.5(Notices of intention)).

13.3.7 G_{/1} (1) If the FSA proposes to refuse to give a *consent notice*, then paragraph 19(8) of Part III of Schedule 3 to the *Act* requires the FSA to give the UK firm a *warning notice*.

(2) If the FSA decides to refuse to give a *consent notice*, then paragraph 19(12) of Part III of Schedule 3 to the *Act* requires the FSA to give the UK firm a *decision notice* within three months of the date on which it received the UK firm's notice of intention. The UK firm may refer the matter to the *Tribunal*.

(3) For details of the FSA's procedures for the giving of *warning notices* or *decision notices* and references to the *Tribunal* see ■ DEC 2 (Statutory notice procedure: Warning notice and decision notice procedure) and ■ DEC 5 (References to the Tribunal, publication and service of notices).

13.4 Providing cross border services into another EEA State

Where is the service provided?

- 13.4.1 **G**_{/1} Guidance on where a *cross border service* is provided is given in ■ SUP 13 Ann 3G [to be issued later].

The conditions for providing cross border services into another EEA State

- 13.4.2 **G**_{/1} A *UK firm* cannot start providing *cross border services* into another *EEA State* under an *EEA right* unless it satisfies the conditions in paragraphs 20(1) of Part III of Schedule 3 to the *Act* and, if it derives its *EEA right* from the *Insurance Directives*, paragraph 20(4B) of Part III of Schedule 3 to the *Act*. It is an offence for a *UK firm* which is not an *authorised person* to breach this prohibition (paragraph 21 of Part III of Schedule 3 to the *Act*). The conditions are that:

- (1) the *UK firm* has given the *FSA*, in the way specified by *FSA rules* (see ■ SUP 13.5.2R), notice of its intention to provide *cross border services* (known as a notice of intention) which:
 - (a) identifies the activities which it seeks to carry on by way of provision of *cross border services*; and
 - (b) includes such other information as may be specified by the *FSA* (see ■ SUP 13.5.2R); and
- (2) if the *UK firm* is passporting under the *Insurance Directives*, the *firm* has received written notice from the *FSA* as described in ■ SUP 13.4.6G.

How long will the process take?

- 13.4.3 **G**_{/1} On receipt of a *UK firm's* notice of intention (prepared in accordance with ■ SUP 13.4.2(1) and ■ SUP 13.5.2R) then:
- (1) if the *EEA right* is derived from the *Investment Services Directive* or the *Banking Consolidation Directive*, the *FSA* has one month to notify the relevant *Host State regulator*;
 - (2) however, a *UK firm* passporting under the *Banking Consolidation Directive* and the *Investment Services Directive* may start providing *cross border services* as soon as it satisfies the relevant conditions (see ■ SUP 13.4.2G);

- (3) if the *EEA right* is derived from the *Insurance Directives*, the *FSA* has one month to consider it and, if satisfied with the proposal, notify the relevant *Host State regulator*.

Issuing a consent notice or notifying the Host State regulator

13.4.4

G

/1

If a *UK firm* has given the *FSA* a notice of intention in the required form, then:

- (1) if the *UK firm's EEA right* derives from the *Investment Services Directive* or the *Banking Consolidation Directive*, paragraph 20(3) of Part III of Schedule 3 to the *Act* requires the *FSA* to send a copy of the notice of intention to the *Host State regulator* within one month of receipt; or
- (2) (a) if the *UK firm's EEA right* derives from the *Insurance Directives*, paragraph 20(3A) of Part III of Schedule 3 to the *Act* requires the *FSA*, within one month of receiving the notice of intention, to:
 - (i) give notice in a specified form (known as a *consent notice*) to the *Host State regulator*; or
 - (ii) give written notice to the *UK firm* of its refusal to give a *consent notice* and the reasons for that refusal.
- (b) The issue or refusal of a *consent notice* is the consequence of a regulatory decision, and the *consent notice* is not a *statutory notice* as set out in section 395 of the *Act*. As such, the *FSA* will follow the decision making procedures set out in ■ **DEC 1** (Application, Purpose and Introduction). A *UK firm* that receives notice that the *FSA* refuses to give a consent notice may refer the matter to the *Tribunal* under paragraph 20(4A) of Part III of Schedule 3 to the *Act*. For procedures relating to references to the *Tribunal* see ■ **DEC 5** (References to the Tribunal, publication and service of notices).

13.4.5

G

/1

When the *FSA* sends a copy of a notice of intention, or if it gives a *consent notice* to the *Host State regulator*, it must inform the *UK firm* in writing that it has done so (para 20 (4) of Schedule 3 to the *Act*).

Applicable provisions for cross border services

13.4.6

G

/1

- (1) If the *UK firm* is passporting under the *Investment Services Directive*, then when the *Host State regulator* receives the notice of intention, it should inform the *UK firm* of any *applicable provisions*.
- (2) If the *UK firm* is passporting under the *Insurance Directives*, then the *Host State regulator* may notify the *FSA* if there are any applicable provisions. If so, the *FSA* will inform the *UK firm* of the *applicable provisions*.
- (3) If a *UK firm* is not notified of the *applicable provisions*, it should, for its own protection, take all reasonable steps to determine the *applicable provisions* for itself.

13.5 Notices of intention

Specified contents: notice of intention to establish a branch

13.5.1

R

/1

A UK firm wishing to establish a *branch* in a particular EEA State for the first time under an EEA right must include in its notice of intention given to the FSA:

- (1) The information specified in ■ SUP 13 Ann 1R; and
- (2) if the UK firm is passporting under the *Insurance Directives*, the information specified in ■ SUP 13 Ann 2R.

Specified contents: notice of intention to provide cross border services

13.5.2

R

/1

A UK firm wishing to provide *cross border services* into a particular EEA State for the first time under an EEA right must include, in its notice of intention given to the FSA:

- (1) if the UK firm is passporting under the *Investment Services Directive* or the *Insurance Directives*, the information specified in ■ SUP 13 Ann 3R;
- (2) if the UK firm is passporting under the *Banking Consolidation Directive*, the activities which it intends to carry on.

Specified manner: form and delivery

13.5.3

R

/1

(1) The notice of intention under ■ SUP 13.5.1R and ■ SUP 13.5.2R must be:

- (a) given to a member of, or addressed for the attention of, the Corporate Authorisation department, if submitted with an application for *Part IV permission*, or the Passport Notifications Unit in any other circumstances; and
- (b) delivered to the FSA by one of the methods in (2).

- (2) The notice of intention may be delivered by:
- (a) *post* to the address in (3); or
 - (b) leaving the application at the address in (3) and obtaining a time-stamped receipt; or
 - (c) hand delivery to a member of the Corporate Authorisation department (if submitted with an application for *Part IV permission*) or to the Passport Notification Unit;
 - (d) electronic mail to the address in (4) if not submitted with an application for *Part IV Permission* and obtaining an electronic confirmation of receipt;
 - (e) fax to the Passport Notifications Unit on 0207 676 xxxx (if not submitted with an application for *Part IV Permission*) provided that the FSA receives a copy by one of the methods (a) to (d) above within five *business days* after the date of the faxed notification.
- (3) The address for notices of intention is: The Financial Services Authority, 25 The North Colonnade, Canary Wharf, London E14 5HS.
- (4) Email: passport.notifications@fsa.gov.uk

13.5.4

A standard form of notice of intention that a *UK firm* may wish to use is available from the Passport Notifications Unit (see ■ SUP 13.12 (Sources of further information)).

Unregulated activities

13.5.5

A notice of intention may include activities within the scope of the relevant *Single Market Directive* which are not *regulated activities* (paragraphs 19(3) and 20(2) of Part III of Schedule 3 to the *Act*). Regulation 19 of the *EEA Passport Rights Regulations* states that where a *UK firm* is able to carry on such an *unregulated activity* in the *EEA State* in question without contravening any law of the *United Kingdom* (or any part of the *United Kingdom*) the *UK firm* is treated, for the purposes of the exercise of its *EEA right*, as being authorised to carry on that activity.

Translations

13.5.6

- (1) A *UK firm* passporting under the *Banking Consolidation Directive* or the *Insurance Directives* may have to submit the *requisite details* or relevant details in the language of the *Host State* as well as in English. For a *UK firm* passporting under the *Insurance Directives* this translated document will not include the relevant UK details. Further information is available from the Passport Notification Unit.

- (2) A *UK firm* may wish to discuss with the Passport Notifications Unit the appropriate time for providing the translations in (1), given that further information or clarification of the details provided may be required by the *FSA*.
- (3) A *UK firm* passporting under the *Insurance Directives* should keep the *EEA* and *UK* relevant details separate as, if the application is approved, only the former will be sent to the *Host State regulator*.

Notifications to more than one EEA State

13.5.7

G

^{/1}

If a *UK firm* wishes to establish *branches* in, or *provide cross border services* into, more than one *EEA State*, a single notification may be provided but the *requisite details* or relevant details for each *EEA State* should be clearly identifiable.

13.6 Changes to branches

13.6.1 G_{/1} Where a *UK firm* is exercising an *EEA right* and has established a *branch* in another *EEA State*, any changes to the details of the *branch* are governed by the *EEA Passport Rights Regulations*. References to regulations in this section are to the *EEA Passport Rights Regulations*. A *UK firm* which is not an *authorised person* should note that, under regulation 18, contravention of the prohibition imposed by regulation 11(1), 13(1) or 15(1) is an offence. It is a defence, however, for the *UK firm* to show that it took all reasonable precautions and exercised due diligence to avoid committing the offence.

13.6.2 G_{/1} *UK firms* should note that if a *branch* in another *EEA State* ceases to provide services, this may represent a change in *requisite details* or relevant details.

13.6.3 G_{/1} *UK firms* should also note that changes to the details of *branches* may lead to changes to the *applicable provisions* to which the *UK firm* is subject. These changes should be communicated to the *UK firm* either by the *Host State regulator*, or, if the *firm* is passporting under *Insurance Directives*, via the *FSA*.

Firms passporting under the Investment Services Directive and Banking Consolidation Directive

13.6.4 G_{/1} If a *UK firm* has exercised an *EEA right*, under the *Investment Services Directive* or the *Banking Consolidation Directive*, and established a *branch* in another *EEA State*, regulation 11(1) states that the *UK firm* must not make a change in the *requisite details* of the *branch* (see ■ SUP 13 Ann 1R), unless it has satisfied the requirements of regulation 11(2), or, where the change arises from circumstances beyond the *UK firm's* control, regulation 11(3) (see ■ SUP 13.6.10G).

13.6.5 G_{/1} Where the change arises from circumstances within the control of the *UK firm*, the requirements in regulation 11(2) are that:

- (1) the *UK firm* has given notice to the *FSA* and to the *Host State regulator* stating the details of the proposed change;
- (2) the *FSA* has given the *Host State regulator* a notice informing it of the details of the change; and
- (3) either the *Host State regulator* has informed the *UK firm* that it may make the change, or the period of one month beginning with the day on which the *UK firm* gave the *Host State regulator* the notice in (1) has elapsed.

Firms pasporting under the Insurance Directives

13.6.6 G_{/1} If a *UK firm* has exercised an *EEA right* under the *Insurance Directives* and established a *branch* in another *EEA State*, regulation 13(1) states that the *UK firm* must not make a change in the relevant *EEA details* (see ■ SUP 13 Ann 3R), unless it has satisfied the requirements of regulation 13(2), or, where the change arises from circumstances beyond the *UK firm's* control, regulation 13(3) (see ■ SUP 13.6.10G).

13.6.7 G_{/1} Where the change arises from circumstances within the control of the *UK firm*, the requirements in regulation 13(2) are that:

- (1) the *UK firm* has given notice to the *FSA* and to the *Host State regulator* stating the details of the proposed change;
- (2) the *FSA* has given the *Host State regulator* a notice informing it of the details of the proposed change;
- (3) the period of at least one month beginning on the day on which the *UK firm* gave the *FSA* the notice in (1) has elapsed; and
- (4) either:
 - (a) a further period of one month has elapsed; or
 - (b) the *FSA* has informed the *UK firm* of any consequential changes in the applicable provisions of which the *FSA* has been notified by the *Host State regulator*.

13.6.8 G_{/1} If a *UK firm* has exercised an *EEA right* under the *Insurance Directives* and established a *branch* in another *EEA State*, regulation 15(1) states that the *UK firm* cannot make a change in any of the *UK relevant details* (see ■ SUP 13 Ann 2R) unless the *UK firm* has given a notice to the *FSA* stating the details of the proposed change at least one month before the change is effected.

13.6.9 G_{/1} Where a *UK firm* with *Part IV permission* to carry on both *long-term* and *general insurance business*, is passporting under the *Insurance Directives* and wishes to extend its *general insurance business* to include *long term insurance business* (or vice versa), it should complete a new notice of intention (see ■ SUP 13.5(Notices of intention) and not a change in *requisite details* notification.

Changes arising from circumstances beyond the control of a UK firm

13.6.10 G_{/1} (1) If the change arises from circumstances beyond the *UK firm's* control, the *UK firm*:

- (a) is required by regulation 11(3) or regulation 13(3) to give a notice to the *FSA* and to the *Host State regulator* stating the details of the change as soon as reasonably practicable;
- (b) may, if it is passporting under the *Insurance Directives*, make a change to its *UK relevant details* under regulation 15(1) if it has, as soon as practicable (whether before or after the change), given notice to the *FSA* stating the details of the change.

- (2) The *FSA* believes that for a change to arise from circumstances beyond the control of a *UK firm*, the circumstances should be outside the control of the firm as a whole and not just the branch in the *EEA State*.

The process

- 13.6.11** G_{/1} When the *FSA* receives a notice from a *UK firm* (see ■ SUP 13.6.5G(1) and ■ SUP 13.6.7G(1)) it is required by regulations 11(4) and 13(4) to either refuse, or consent to the change within a period of one month from the day on which it received the notice.
- 13.6.12** G_{/1} If the *FSA* consents to the change, then under regulations 11(5) and 13(5) it will:
- (1) give a notice to the *Host State regulator* informing it of the details of the change; and
 - (2) inform the *UK firm* that it has given the notice, stating the date on which it did so.
- 13.6.13** G_{/1} If a *UK firm* is passporting under the *Investment Services Directive* or *Banking Consolidation Directive*, then regulation 11(7) states that the *FSA* may not refuse to consent to a change unless, having regard to the change and to the EEA activities the *UK firm* is seeking to carry on, it doubts the adequacy of the administrative structure or the financial situation of the *UK firm*. In reaching its determination, the *FSA* may have regard to the adequacy of management, systems and the presence of relevant skills needed for the EEA activities to be carried on.
- 13.6.14** G_{/1} If a *UK firm* is passporting under the *Insurance Directives*, then regulation 13(7) states that the *FSA* may not refuse to consent to a change unless, having regard to the change, the *FSA* has reason:
- (1) to doubt the adequacy of the *UK firm's* administrative structure or financial situation; or
 - (2) to question the reputation, qualifications or experience of the directors or managers of the firm or the authorised agent;
- in relation to the business conducted, or to be conducted, through the branch.
- 13.6.15** G_{/1} If the *FSA* refuses to consent to a change, then under regulations 11(6) and 13(6):
- (1) the *FSA* will give notice of the refusal to the *UK firm*, stating its reasons and giving an indication of the *UK firm's* right to refer the matter to the *Tribunal* and the procedures on such a reference; to satisfy this requirement, the *FSA* will give the *UK firm* a *decision notice* following the procedures in *DEC* (but they will not get a *warning notice* first); and
 - (2) the *UK firm* may refer the matter to the *Tribunal*; for details of procedures for a reference to the *Tribunal* see *DEC* 5 (References to the *Tribunal*, publication and service of notices).

13.7 Changes to cross border services

13.7.1 G_{/1} Where a *UK firm* is exercising an *EEA right*, other than under the *Banking Consolidation Directive*, and is providing *cross border services* into another *EEA State*, any changes to the details of the services are governed by the *EEA Passport Rights Regulations*. References to regulations in this section are to the *EEA Passport Rights Regulations*. A *UK firm* which is not an *authorised person* should note that contravention of the prohibition imposed by regulation 12(1) or 16(1) is an offence. It is a defence, however, for the *UK firm* to show that it took all reasonable precautions and exercised due diligence to avoid committing the offence.

13.7.2 G_{/1} *UK firms* should also note that changes to the details of *cross border services* may lead to changes to the *applicable provisions* to which the *UK firm* is subject.

Firms passporting under the Investment Services Directive

13.7.3 G_{/1} If a *UK firm* is passporting under the *Investment Services Directive*, regulation 12(1) states that the *UK firm* must not make a change in its programme of operations, or the activities to be carried on under its *EEA right*, unless the relevant requirements in regulation 12(2) have been complied with. These requirements are:

- (1) the *UK firm* has given a notice to the *FSA* and to the *Host State regulator* stating the details of the proposed change; or
- (2) if the change arises as a result of circumstances beyond the *UK firm's* control, the *UK firm* has as soon as practicable (whether before or after the change) given a notice to the *FSA* and to the *Host State regulator*, stating the details of the change.

Firms passporting under the Insurance Directives

13.7.4 G_{/1} If a *UK firm* has exercised an *EEA right* under the *Insurance Directives* and is providing *cross border services* into another *EEA State*, regulation 16(1) states that the *UK firm* must not make a change in the relevant details (see ■ SUP 13 Ann 3R) unless the relevant requirements in regulation 16(3) or, where the change arises from circumstances beyond the *UK firm's* control, regulation 16(4), have been complied with.

13.7.5 G_{/1} Regulation 16(3) provides that:

- (1) the *UK firm* has given a notice to the *FSA* stating the details of the proposed change; and

(2) the *FSA* has given the *Host State regulator* a notice informing it of the details of the proposed change.

13.7.6

G
/1

If the change arises from circumstances beyond the *UK firm's* control, the *UK firm* is required by regulation 16(4) to give a notice to the *FSA* stating the details of the change as soon as reasonably practicable (whether before or after the change). See also ■ SUP 13.6.10G(2), as relevant to *cross border services*.

13.7.7

G
/1

When the *FSA* receives a notice from a *UK firm* (see ■ SUP 13.7.3G(1) and ■ SUP 13.7.5G), it is required by regulations 16(5) to either refuse or consent to the change within one month of receipt.

13.7.8

G
/1

If the *FSA* consents to the change it will:

- (1) give a notice to the *Host State regulator* informing it of the details of the proposed change; and
- (2) inform the *UK firm* that it has given the notice, stating the date on which it did so.

13.7.9

G
/1

If the *FSA* refuses to consent to a change it will follow the decision making procedures set out in ■ DEC 1 (Application, Purpose and Introduction). The *FSA* is required by regulation 16(7) to give notice of the refusal to the *UK firm*, stating its reasons and giving an indication of the *UK firm's* right to refer the matter to the *Tribunal* and the procedures that apply to such a reference; to satisfy this requirement, the *FSA* will give the *UK firm* a *decision notice* following the procedures in *DEC* (but it will not get a *warning notice* first). For details of procedures relating to references to the *Tribunal* see ■ DEC 5 (References to the *Tribunal*, publication and service of notices).

13.7.10

G
/1

Where a *UK firm* with *Part IV permission* to carry on both *long-term* and *general insurance business* is passporting under the *Insurance Directives* and wishes to extend its *general insurance business* to include *long term insurance business* (or vice versa), it should complete a new notice of intention (see ■ SUP 13.5 (Notices of intention)) and not a change in *requisite details* notification.

Firms passporting under the Banking Consolidation Directive

13.7.11

G
/1

A *UK firm* providing *cross border services* under the *Banking Consolidation Directive* is not required to supply *requisite details*. Therefore there are no *requisite details* for changes to *cross-border services* provided under the *Banking Consolidation Directive*.

13.8 Changes of details: provision of notices to the FSA

13.8.1

R

/1

- (1) A notice of a change to a *branch* under ■ SUP 13.6.5 G(1), ■ SUP 13.6.7G(1) and ■ SUP 13.6.8G(1) and a notice of a change to *cross border services* under ■ SUP 13.7.3G(1) or ■ SUP 13.7.5G(1) must be:
 - (a) given to a member of, or addressed for the attention of, the Passport Notifications Unit; and
 - (b) delivered to the FSA by one of the methods in (2).
- (2) The notice of intention may be delivered by:
 - (a) *post* to the address in (3); or
 - (b) leaving the application at the address in (3) and obtaining a time-stamped receipt; or
 - (c) hand delivery to a member of the Corporate Authorisation department (if submitted with an application for *Part IV permission*) or the Passport Notification Unit;
 - (d) electronic mail to the address in (4) if not submitted with an application for *Part IV Permission* and obtaining an electronic confirmation of receipt;
 - (e) fax to the Passport Notifications Unit on 0207 676 xxxx (if not submitted with an application for *Part IV Permission* provided that the FSA receives a copy by one of the methods (a) to (d) above within five *business days* after the date of the faxed notification.
- (3) The address for notices of intention is: The Financial Services Authority, 25 The North Colonnade, Canary Wharf, London E14 5HS.
- (4) Email: passport.notifications@fsa.gov.uk

13.8.2

G

/1

UK firms passporting under the *Banking Consolidation Directive* or the *Insurance Directives* may be required to submit the changes to the *requisite details* or relevant details in the language of the *Host State* as well as in English. See ■ SUP 13.5.6G.

13.9 How does the Handbook apply to branches and cross border services?

13.9.1

G
/1

Annex [X] [to be issued later] summarises how the *FSA Handbook* applies to *branches* of a *UK firm* established in other *EEA States* or to *cross border services* provided by a *UK firm* into another *EEA State*.

13.10 Applicable provisions

- 13.10.1** G_{/1} *UK firms* are reminded that conduct of business rules, and other rules made for the general good, may apply to business carried on in the *Host State* by a *UK firm*. These are known in the *Act* as the *applicable provisions* (paragraph 19(13) of Part III of Schedule 3 to the *Act*).
- 13.10.2** G_{/1} *UK firms* passporting under the *Banking Consolidation Directive* should note that, under the Directive, the *Host State* is responsible, together with the *FSA*, for monitoring the liquidity of a *branch* established by a *UK firm* in another *EEA State*.
- 13.10.3** G_{/1} These *Host State* provisions often have requirements about the soliciting of business, for example, advertising and cold-calling rules. A *UK firm* should ensure it is familiar with, and acts in compliance with, the relevant requirements of its *Host State regulator*.

13.11 Record keeping

13.11.1

R

/1

(1) A *UK firm* which is exercising an *EEA right* must make and retain a record of:

- (a) the services or activities it carries on from a *branch in*, or provides cross-border into, another *EEA State* under that *EEA right*; and
- (b) the *requisite details* or relevant details relating to those services or activities (if applicable).

(2) The record in (1) must be kept for three years from the earlier of the date on which:

- (a) it was superseded by a more up-to-date record; or
- (b) the *UK firm* ceased to have a *branch in*, or carry on *cross border services* into, any *EEA State* under an *EEA right*.

13.11.2

G

/1

The record in ■ SUP 13.11.1R need not relate to the level of business carried on. A *UK firm* may comply with ■ SUP 13.11.1R by, for example, keeping copies of all notices of intention and notices of changes of *requisite details* or relevant details.

13.11.3

G

/1

A *UK firm* should monitor the business carried on under an *EEA right* to ensure that any changes to *requisite details* or relevant details are notified as required by ■ SUP 13.7 (Changes to cross border services).

13.12 Sources of further information

13.12.1

G

/1

- (1) Given the complexity of issues raised by passporting, *UK firms* are advised to consult legislation and also to obtain legal advice at earliest opportunity. Firms are encouraged to contact their usual supervisory contact at the *FSA* to discuss their proposals. However, a *UK firm* which is seeking *guidance* on procedural or notification issues relating to passporting should contact the Passport Notifications Unit.
- (2) An applicant for *Part IV permission* which is submitting a *notice of intention* with its application for such *permission* (see ■ [AUTH 3.20](#) (Specific obligations: applicants seeking to establish a branch in, or provide services, into another EEA State)) should contact the Corporate Authorisation department in the first instance (see ■ [AUTH 1.9](#) (Next Steps)).

13.12.2

G

/1

To contact the Passport Notifications Unit, from which a standard form of notice of intention can be obtained:

- (1) telephone on 020 7676 1000; fax on 020 7676 xxxx; or
- (2) write to: The Passport Notifications Unit, The Financial Services Authority, 25 The North Colonnade, Canary Wharf, London E14 5HS; or
- (3) Email: passport.notifications@fsa.gov.uk

Requisite details: branches

1 Table

Type of firm	Requisite details (see notes 1 & 2)
Credit institution or	(a) particulars of the programme of operations carried on, or to be carried on, from the <i>branch</i> , including a description of the particular <i>EEA</i> activities to be carried on, and of the structural organisation of the <i>branch</i> ;
Investment firm	(b) the address in the <i>EEA State</i> in which the <i>branch</i> is, or is to be, established from which information about the business may be obtained; and (c) the names of the managers of the branch.
Insurance undertaking	(1)(a) the address of the <i>branch</i> ; (b) the name of the <i>UK firm's</i> authorised agent (see note 3) and, in the case of a <i>member of Lloyd's</i> , confirmation that the authorised agent has power to accept service of proceedings on behalf of <i>Lloyd's</i> ; (c) the <i>classes</i> or parts of <i>classes</i> of business carried on, or to be carried on, and the nature of the risks or commitments covered, or to be covered, in the <i>EEA State</i> concerned; (d) details of the structural organisation of the <i>branch</i> ; (e) the guiding principles as to reinsurance of business carried on, or to be carried on, in the <i>EEA State</i> concerned, including the <i>firm's</i> maximum retention per risk or event after all reinsurance ceded; (f) estimates of: (i) the costs of installing administrative services and the organisation for securing business in the <i>EEA State</i> concerned; (ii) the resources available to cover those costs; and (iii) if contracts of a kind falling within paragraph 18 of Schedule 1 to the <i>Regulated Activities Order</i> (assistance) are, or are to be, effected or carried out, the resources available for providing assistance; (g) for each of the first three years following the establishment of the <i>branch</i> : (i) estimates of the <i>firm's</i> margin of solvency and the margin of solvency required and the method of calculation; (ii) if the <i>firm</i> carries on, or intends to carry on, business comprising the effecting or carrying out of contracts of <i>long-term insurance</i> , the details mentioned in paragraph (2) as respects the business carried on, or to be carried on, in the <i>EEA State</i> concerned; and

- (iii) if the *firm* carries on, or intends to carry on, business comprising the effecting or carrying out of contracts of *general insurance*, the details mentioned in paragraph (3) as respects the business carried on, or to be carried on, in the *EEA State* concerned;
- (h) if the *firm* covers, or intends to cover, relevant motor vehicle risks, details of the *firm's* membership of the national bureau and the national guarantee fund in the *EEA State* concerned; and
- (i) if the *firm* covers, or intends to cover, health insurance risks, the technical bases used, or to be used, for calculating premiums in respect of such risks.
- (2) The details referred to in (1)(g)(ii) are:
 - (a) the following information, on both optimistic and pessimistic bases, for each type of contract or treaty:
 - (i) the number of contracts or treaties expected to be issued;
 - (i) the total premium income, both gross and net of reinsurance ceded;
 - (i) the total sums assured or the total amounts payable each year by way of annuity;
 - (b) detailed estimates, on both optimistic and pessimistic bases, of income and expenditure in respect of direct **business**, reinsurance acceptances and reinsurance cessations; and
 - (c) estimates relating to the financial resources intended to cover underwriting liabilities.
 - (3) The details referred to in (1)(g)(iii) are:
 - (a) estimates relating to the expenses of management (other than the costs of installation), and in particular those relating to current general expenses and **commissions**;
 - (b) estimates relating to premiums or contributions (both gross and net of all reinsurance ceded) and to claims (after all reinsurance recoveries); and
 - (c) estimates relating to the financial resources intended to cover underwriting liabilities.

Notes

Note 1: The *requisite details* or relevant details specified in this annex are those in the *EEA Passport Rights Regulations*; that is, those in regulation 1 for *credit institutions* and *investment firms* and those in regulation 14 for *insurance undertakings*.

Note 2: In this table, the references to classes of insurance have the meaning given to them in Schedule 1 to the **Regulated Activities Order**.

Note 3: For the purposes of this table, 'authorised **agent**' means an agent or **employee** of the **insurance undertaking** who has authority (a) to bind the **insurance undertaking** in its relations with third parties, and (b) to represent the **insurance undertaking** in its relations with **overseas regulators** and courts in the **EEA State** of the **branch**.

Relevant UK details: branches of insurance undertakings

1 Table

Relevant UK details	
(1)	the names of the <i>UK firm's</i> managers and main agents in the <i>EEA State</i> concerned;
(2)	particulars of any association which exists or is proposed to exist between: <ol style="list-style-type: none"> (a) the directors and controllers of the <i>UK firm</i>; (b) any <i>person</i> who will act as insurance broker, agent, loss adjuster or reinsurer for the <i>UK firm</i> in the <i>EEA State</i> concerned;
(3)	the names of the principal reinsurers of business to be carried on in the <i>EEA State</i> concerned;
(4)	the sources of business in the <i>EEA State</i> concerned (for, example, insurance brokers, agents, own employees or direct selling) with the approximate percentage expected from each of these sources;
(5)	copies or drafts of: <ol style="list-style-type: none"> (a) any separate reinsurance treaties covering business to be written in the <i>EEA State</i> concerned; (b) any standard agreements which the <i>UK firm</i> will enter into with brokers or agents in the <i>EEA State</i> concerned; (c) any agreements which the insurance undertaking will enter into with persons (other than employees of the <i>UK firm</i>) who will manage the business to be carried on in the <i>EEA State</i> concerned;
(6)	in the case of a <i>UK firm</i> which intends to carry on long-term business: <ol style="list-style-type: none"> (a) the technical bases which the actuary appointed in accordance with <i>SUP 4.3.1R</i> proposes to use for each class of business to be carried on in the <i>EEA State</i>, including the bases needed for calculating premium rates and mathematical reserves; (b) a statement by the actuary so appointed whether he considers that the premium rates which will be used in the <i>EEA State</i> concerned are suitable; (c) a statement by that actuary whether he agrees with the information provided under relevant EEA details (1)(e) and (2)(b) and (c); (d) the technical bases used to calculate the statements and estimates referred to in relevant EEA details (2); and
(7)	in the case of a <i>UK firm</i> which intends to carry on general business, copies or drafts of any agreements which the <i>UK firm</i> will have with main agents in the <i>EEA State</i> concerned.

Requisite and relevant details: Cross Border Services

1 Table

Type of firm	Requisite / relevant details
<i>Investment firm</i>	<p>Requisite Details</p> <p>(a) details of the programme of operations, stating in particular the service or services the <i>UK firm</i> intends to provide.</p>
<i>Insurance Undertaking</i>	<p>Relevant details (regulation 17)</p> <p>(a) the <i>EEA State</i> in which the EEA activities are carried on, or are to be carried on;</p> <p>(b) the nature of the risks or commitments covered, or to be covered, in the <i>EEA State</i> concerned;</p> <p>(c) if the <i>firm</i> covers, or intends to cover, relevant motor vehicle risks (note 1):</p> <p>(i) the name and address of the claims representative (note 2); and</p> <p>(ii) details of the firm's membership of the national bureau and the national guarantee fund in the <i>EEA State</i> concerned; and</p> <p>(d) if the insurer covers, or intends to cover, health insurance, the technical bases used, or to be used, for calculating premiums in respect of such risks;</p>

Chapter 14

Incoming EEA firms:
changing details and
cancelling qualification
for authorisation.

14.1 Application and purpose

Application

- 14.1.1** G_{/1} This chapter applies to an *incoming EEA firm* which has established a *branch* in, or is providing *cross border services* into, the *United Kingdom* under one of the *Single Market Directives* and, therefore, qualifies for *authorisation* under Schedule 3 to the *Act*.
- 14.1.2** G_{/1} ■ SUP 14.6(Cancelling qualification for authorisation), which sets out how to cancel qualification for *authorisation* under the *Act*, also applies to:
- (1) an *incoming Treaty firm* that qualifies for *authorisation* under Schedule 4 to the *Act*; and
 - (2) a *UCITS qualifier* that is an *authorised person* under Schedule 5 to the *Act*; a *UCITS qualifier* should, however, refer to *CIS* for full details of applicable *rules* and *guidance*.
- 14.1.3** G_{/1}
- (1) Under the Gibraltar Order made under section 409 of the *Act*, a Gibraltar firm is treated as an *EEA firm* under Schedule 3 to the *Act* if it is:
 - (a) authorised in Gibraltar under the *Insurance Directives*; or
 - (b) authorised in Gibraltar under the *Banking Consolidation Directive*.
 - (2) A Gibraltar insurance company is allowed to passport its services into the *United Kingdom* if it complies with the relevant notification procedures. Similarly, a Gibraltar *credit institution* is allowed to passport into the *United Kingdom* to provide banking services provided those services fall within items 1 to 6 in Annex 1 to the *Banking Consolidation Directive*. So, any references in ■ SUP 14 to *EEA State* or *EEA right* include references to Gibraltar and the entitlement under the Gibraltar Order.

Purpose

- 14.1.4** G_{/1} This chapter gives *guidance* on the *Act* and the *EEA Passport Rights Regulations* made under the *Act*, for an *incoming EEA firm* which has established a *branch* in, or is providing *cross border services* into, the *United Kingdom* and wishes to change the details of the *branch* or *cross border services*. These are known as *requisite details*, or for firms passporting under the *Insurance Directives* relevant details.
- 14.1.5** G_{/1} This chapter also explains how an *incoming EEA firm*, an *incoming Treaty firm* or a *UCITS qualifier* may cancel its qualification for *authorisation* under the *Act*.

14.1.6

G

/1

This chapter does not, however, give *guidance* on the procedures for the establishment of a *branch* in, or the providing of *cross border services* into, the *United Kingdom* for the first time. So, an *incoming EEA firm* that wishes to change or supplement the nature of its operations in the *United Kingdom* from the providing of *cross border services* to the establishment of a *branch* (or vice versa) should refer to ■ **AUTH 5** (Qualifying for authorisation under the Act).

14.1.7

G

/1

In addition, the chapter does not give *guidance* on the procedures for making an application for *top-up permission*, to carry on *regulated activities* in the *United Kingdom* which are outside the scope of the *Single Market Directives* and for which the firm cannot exercise *Treaty rights*. *Incoming EEA firms* seeking a *top-up permission* should refer to ■ **AUTH 5**.

14.2 Changes to branch details

14.2.1

G
/1

Where an *incoming EEA firm* is exercising an *EEA right* and has established a *branch* in the United Kingdom, the *EEA Passport Rights Regulations* govern any changes to the details of that *branch*. Where an *incoming EEA firm* has complied with the relevant provisions in the *EEA Passport Rights Regulations*, then the *firm's permission* given under Schedule 3 to the *Act* is to be treated as varied accordingly. All references to regulations in ■ SUP 14 are to the *EEA Passport Rights Regulations*.

Firms passporting under the Investment Services Directive and Banking Consolidation Directive

14.2.2

G
/1

- (1) Where an *incoming EEA firm*, passporting under the *Investment Services Directive* or *Banking Consolidation Directive*, has established a *branch* in the *United Kingdom*, regulation 4 states that it must not make a change in the *requisite details* of the *branch* (see ■ AUTH 5 Ann 1G) unless it has complied with the relevant requirements.
- (2) The relevant requirements are set out in regulation 4(4) or, where the change arises from circumstances beyond the *incoming EEA firm's* control, in regulation 4(5).

14.2.3

G
/1

Where the change arises from circumstances within the control of the *incoming EEA firm*, the requirements in regulation 4(4) are that:

- (1) the *incoming EEA firm* has given notice to the *FSA* (see ■ SUP 14.4.1G) and to its *Home State regulator* stating the details of the proposed change;
- (2) the *FSA* has received a notice stating those details; and
- (3) either:
 - (a) the *FSA* has informed the firm that it may make the change; or
 - (b) the period of one month beginning with the date on which the *incoming EEA firm* gave the *FSA* the notice mentioned in (1) has elapsed.

14.2.4

G
/1

Changes to the *requisite details* may lead to changes to the *applicable provisions* to which the *incoming EEA firm* is subject. The *FSA* will, as soon as practicable after receiving a notice in ■ SUP 14.2.2G or ■ SUP 14.2.3G, inform the *incoming EEA firm* of any consequential changes in the *applicable provisions* (regulation 4(6)).

Firms passporting under the Insurance Directives

- 14.2.5** G_{/1} (1) Where an *incoming EEA firm*, passporting under the *Insurance Directives* has established a *branch* in the *United Kingdom*, regulation 6 states that it must not make a change to the information referred to in regulation 2(5)(a) to (c) (see ■ AUTH 5 Annex 1G) unless it has complied with the relevant requirements.
- (2) The relevant requirements are set out in regulation 6(4) or, where the change arises from circumstances beyond the *incoming EEA firm's* control, regulation 6(5).

- 14.2.6** G_{/1} Where the change arises from circumstances within the control of the *incoming EEA firm*, the relevant requirements in regulation 6(4) are that:
- (1) the *incoming EEA firm* has given a notice to the *FSA* (see ■ SUP 14.4.1G) and to its *Home State regulator* stating the details of the proposed change;
- (2) the *FSA* has received from the *Home State regulator* a notice stating that it has approved the proposed change;
- (3) the period of at least one month beginning with the day on which the *incoming EEA firm* gave the *FSA* the notice in (1) has elapsed; and
- (4) either:
- (a) a further period of one month has elapsed; or
 - (b) the *FSA* has informed the *Home State regulator* of any consequential changes in the *applicable provisions*.

- 14.2.7** G_{/1} Under regulation 6(6) the *FSA* is required, as soon as practicable, to:
- (1) acknowledge receipt of the documents sent under regulation 6(4) or 6(5); and
- (2) in the case of a notice under regulation 6(5), inform the *incoming EEA firm's Home State regulator* of any consequential changes in the *applicable provisions*.

Changes arising from circumstances beyond the control of an incoming EEA firm

- 14.2.8** G_{/1} If the change arises from circumstances beyond the *incoming EEA firm's* control, the *firm* is required by regulation 4(5) (see ■ SUP 14.2.2G) or regulation 6(5) (see ■ SUP 14.2.5G(2)) to give a notice to the *FSA* (see ■ SUP 14.4.1G) and to its *Home State regulator* stating the details of the change as soon as reasonably practicable.

- 14.2.9** G_{/1} The *FSA* believes that for a change to arise from circumstances beyond the control of an *incoming EEA firm*, the circumstances should be outside the control of the firm as a whole and not just its *UK branch*. For example, the *FSA* considers that this provision would be unlikely to apply to circumstances in which lack of planning at the *incoming EEA firm's* head office resulted in a problem arising in a *UK branch* which was outside its control. In practice, therefore, use of this provision is likely to be rare.

14.3 Changes to cross border services

- 14.3.1** G_{/1} Where an *incoming EEA firm* passporting under the *Investment Services Directive* or *Insurance Directives* is exercising an *EEA right* and is providing *cross border services* into the *United Kingdom*, the *EEA Passport Rights Regulations* govern any changes to the details of those services. Where an *incoming EEA firm* has complied with the relevant provisions in the *EEA Passport Rights Regulations*, then the *firm's permission* given under Schedule 3 to the *Act* is to be treated as varied accordingly.

Firms passporting under the Investment Services Directive

- 14.3.2** G_{/1} Where an *incoming EEA firm*, passporting under the *Investment Service Directives*, is providing *cross border services* into the *United Kingdom*, it must not make a change in the details referred to in regulation 5(1) (see ■ AUTH 5 Ann 2G) unless it has complied with the relevant provisions in regulation 5(3).

- 14.3.3** G_{/1} The relevant provisions in regulation 5(3) are that:
- (1) the *incoming EEA firm* has given a notice to the *FSA* (see ■ SUP 14.4.1G) and to its *Home State regulator* stating the details of the proposed change;
 - (2) if the change arises from circumstances beyond *the incoming EEA firm's* control, that firm has, as soon as practicable, given to the *FSA* and to its *Home State regulator* the notice in (1).

- 14.3.4** G_{/1} Under regulation 5(4), the *FSA* is required, as soon as practicable after receiving the notice in ■ SUP 14.3.3G, to inform the *incoming EEA firm* of any consequential changes in the *applicable provisions*.

Firms passporting under the Insurance Directives

- 14.3.5** G_{/1} If an *incoming EEA firm* passporting under the *Insurance Directives* is providing *cross border services* unto the *United Kingdom*, it must not make a change to the details referred to in regulation 7(1) (see ■ AUTH 5 Ann 2G) unless it has complied with the relevant provisions.

- 14.3.6** G_{/1} The relevant provisions are those set out in regulation 7(4), namely that:
- (1) the *incoming EEA firm* has given a notice to its *Home State regulator* stating the details of the proposed change; and
 - (2) the *Home State regulator* has passed on to the *FSA* the information contained in that notice.

14.3.7

G

/1

If the change arises from circumstances beyond the *incoming EEA firm's* control, the *incoming EEA firm* is required to comply with the relevant provisions referred to in ■ SUP 14.3.6G as soon as reasonably practicable (whether before or after the change). See also ■ SUP 14.2.9, as relevant to *cross border services*.

14.4 Notices of proposed changes: form and delivery

14.4.1

G
/1

- (1) Regulation 7 to 9 of the Financial Services and Markets Act 2000 (Services of Notices) Regulations 2001 (SI2001/1420) govern the manner in which notices may be submitted to the FSA under the *EEA Passport Rights Regulations*. In summary, they should be delivered or posted to the FSA's address (See (2) below) and will be treated as given when received by the FSA. They should not be sent by fax or electronic mail.
- (2) The address for notices is: The Financial Services Authority, 25 The North Colonnade, Canary Wharf, London, E14 5HS

14.5 Variation of a top-up permission to carry on regulated activities outside the scope of the Single Market Directives

- 14.5.1** G_{/1} Where an *incoming EEA firm* has been granted *top-up permission* by the FSA and wishes to vary that *permission*, the *Act* requires it to apply to the FSA for a variation of that *top-up permission*.
- 14.5.2** G_{/1} Guidance on the procedures for applying for a variation of a *permission* granted under Part IV of the *Act*, including a *top-up permission*, is given in ■ SUP 6 (Applications to vary and cancel Part IV Permission).

14.6 Cancelling qualification for authorisation

Incoming EEA firms

- 14.6.1** G_{/1} Section 34 of the *Act* states that an *incoming EEA firm* no longer qualifies for *authorisation* under Schedule 3 to the *Act* if it ceases to be an *incoming EEA firm* as a result of:
- (1) having its *EEA authorisation* withdrawn by its *Home State regulator*; or
 - (2) ceasing to have an *EEA right* in circumstances in which *EEA authorisation* is not required; this is relevant to a *financial institution* that is a subsidiary of a *credit institution* (of the kind mentioned in Article 19 of the *Banking Consolidation Directive*) which fulfils the conditions in articles 18 and 19 of that *Directive*.
- 14.6.2** G_{/1} In addition, under section 34(2) an *incoming EEA firm* may ask the *FSA* to give a direction cancelling its *authorisation* under Schedule 3 to the *Act*.
- 14.6.3** G_{/1} Regulation 8 states that where an *incoming EEA firm* which qualifies for *authorisation* under Schedule 3:
- (1) has ceased, or is to cease, to carry on *regulated activities* in the *United Kingdom*; and
 - (2) gives notice of that fact to the *FSA*;
- the notice is treated under regulation 8 as a request for cancellation of the *incoming EEA firm's* qualification for *authorisation* under Schedule 3 to the *Act* and so as a request under section 34(2) of the *Act*.
- 14.6.4** G_{/1} Where a *financial institution* (that is, a subsidiary of a *credit institution*) is passporting under the *Banking Consolidation Directive* (see ■ SUP 14.6.1G(2)), regulation 9(1) states that the *incoming EEA firm* may request the *FSA* to direct that its qualification for *authorisation* under Schedule 3 to the *Act* is cancelled from such date as may be specified in the direction.
- 14.6.5** G_{/1} The *FSA* may not, however, give a direction referred to in ■ SUP 14.6.4G unless:
- (1) the *incoming EEA firm* has given notice to its *Home State regulator*; and
 - (2) the *FSA* has agreed with the *Home State regulator* that the direction should be given.
- 14.6.6** G_{/1} Regulation 9(3) requires that the date specified by the *FSA* in a direction referred to in ■ SUP 14.6.4G:

- (1) must not be earlier than the date requested in the application; but
- (2) subject to (1), is as agreed between the FSA and the *incoming EEA firm's Home State regulator*.

14.6.7 G_{/1} The FSA is required to send, as soon as practicable, a copy of the direction to the *incoming EEA firm* and to its *Home State regulator* (regulation 9(4)).

14.6.8 G_{/1} Where the FSA gives a direction referred to in ■ SUP 14.6.4G, the *incoming EEA firm* may apply for *Part IV permission* (see ■ AUTH 3 (Applications for Part IV Permission)) to take effect not earlier than the date that its qualification for *authorisation* is cancelled (as specified in the direction).

Incoming Treaty firms

14.6.9 G_{/1} Section 35 of the *Act* states that an *incoming Treaty firm* no longer qualifies for *authorisation* under Schedule 4 to the *Act* if its *Home State* authorisation is withdrawn.

14.6.10 G_{/1} In addition, under section 35(2) an *incoming Treaty firm* may ask the FSA to give a direction cancelling its *authorisation* under Schedule 4 to the *Act*.

UCITS qualifiers

14.6.11 G_{/1} Section 36 of the *Act* states that a *UCITS qualifier* may ask the FSA to give a direction cancelling its *authorisation* under paragraph 1(1) of Schedule 5 to the *Act*. *UCITS qualifiers* should also refer to ■ CIS 17.4.8G (Revocation of recognition: Schemes recognised under section 264 of the *Act*).

14.7 Cancellation of a top-up permission to carry on regulated activities outside the scope of the Single Market Directives

14.7.1

G
/1

Where an *incoming EEA firm*, an *incoming Treaty firm* or a *UCITS qualifier* wishes to cancel its *top-up permission*, either with or without cancellation of its qualification for *authorisation* under Schedule 3, 4, or 5 to the *Act*, it should make an application following the procedures set out in ■ SUP 6 (Applications to vary and cancel Part IV Permission).

14.8 Further guidance

14.8.1

G

^{/1}

For further *guidance* on passporting procedures, an *incoming EEA firm* should contact the *FSA's* Passport Notifications Unit or their usual supervisory contact at the *FSA*. *Incoming Treaty firms* and *UCITS qualifiers* should speak to their usual supervisory contact at the *FSA* in the first instance

ANNEX C

15.8 Notification in respect of particular products and services

Management of occupational pension scheme assets

15.8.1

R

/1

A *firm* which manages the assets of an *occupational pension scheme* must notify the *FSA* as soon as reasonably practicable if it receives any request or instruction from a trustee which it:

- (1) knows; or
- (2) on substantial grounds:
 - (a) suspects; or
 - (b) has cause reasonably to suspect;

is at material variance with the trustee's duties.

Knowingly or recklessly giving the FSA information which is false or misleading in a material particular may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). SUP 15.6.1R and SUP 15.6.3R require an authorised person to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided. SUP 16.3.10R requires an authorised person to submit reports containing all the information required. Contravention of these requirements may lead to disciplinary sanctions or other enforcement action by the FSA. It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. Any additional information of relevance should be provided by letter direct to the FSA.

I confirm that the information in this form is accurate and complete to the best of my knowledge and belief and that I have read the Guidance Notes to this form.

Notes on Completion

- 1 If you have any difficulty in completing this return, please telephone your normal supervisory contact at the FSA.
- 2 Complete the return half yearly as at end of June and December. Institutions wishing to report at dates which coincide with the financial year end should apply to the FSA for a waiver (see SUP 8).
- 3 Enter amounts to the nearest thousand omitting £000s/€000s.
Calculated amounts should be rounded to the nearest thousand, or two decimal places as appropriate.
- 4 For definitions of items, refer to the Guidance Notes for the form.
- 5 To assist with the scanning process, please enter all data neatly within the relevant boxes and do not enter the % symbol in any boxes on this return
- 6 Submit the form within **10 business days**, or **12 business days** for those institutions reporting electronically, clearly addressed to:
The Financial Services Authority
c/o Monetary and Financial Statistics Division
Domestic Banking Statistics (HO-4)
Bank of England
Threadneedle Street
London EC2R 8AH
- 7 Returns may also be delivered to the Works Gate at the Lothbury entrance of the Bank of England between 9.00am and 5.00pm, Monday to Friday. Envelopes should be clearly addressed as above.

APPENDIX B-IX: BACKTESTING RESULTS

Multiplication factor

10	Minimum multiplication factor (rounded to 2 decimal places x 100, ie input as integers)	<input style="width: 100%;" type="text"/>
20	Number of regulatory backtesting exceptions recorded over last 250 business days.	<input style="width: 100%;" type="text"/>
30	Plus factor (rounded to 2 decimal places x 100, ie input as integers)	<input style="width: 100%;" type="text"/>
40	Multiplication factor (items 10 and 30)	<input style="width: 100%;" type="text"/>

Backtesting on total portfolio

50	Number of recorded backtesting exceptions in last reporting period	<input style="width: 100%;" type="text"/>
----	--	---

51.0 Exceptions recorded during last reporting period:

	Date (dd / mm / yyyy)	VaR measure (note 1) (000s)	Actual loss (note 2) (000s)
51.01	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.02	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.03	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.04	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.05	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.06	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.07	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.08	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.09	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.10	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.11	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
51.12	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>

52.0 Five largest daily losses over last reporting period:

	Date (dd / mm / yyyy)	VaR measure (note 1) (000s)	Actual loss (note 2) (000s)
52.1	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
52.2	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
52.3	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
52.4	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
52.5	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>

53.0 Five largest backtesting VaRs¹ over last reporting period:

	Date (dd / mm / yyyy)	VaR measure (note 1) (000s)	Actual loss (note 2) (000s)
53.1	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
53.2	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
53.3	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
53.4	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
53.5	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>

Note 1. The VaR measure for backtesting purposes should be calibrated to a one-day holding period and a 99% one-tailed confidence limit.
 Note 2 Actual profit/loss is the day's actual P&L arising from trading activities within the scope of the model.

Backtesting on portfolios for specific risk

60 Number of backtesting exceptions on interest rate portfolio in last reporting period

60.1 Exceptions reported during last reporting period:

	Date (dd / mm / yyyy)		VaR measure (note 3) (000s)		Actual loss (note 4) (000s)
60.11		/			
60.12		/			
60.13		/			
60.14		/			
60.15		/			
60.16		/			
60.17		/			
60.18		/			
60.19		/			
60.20		/			
60.21		/			
60.22		/			

If the reporting institution conducts backtesting on a sub-portfolio level, this should be repeated for each sub-portfolio that is subject to interest rate specific risk

70 Number of backtesting exceptions on equities portfolio in last reporting period

70.1 Exceptions reported during last reporting period:

	Date (dd / mm / yyyy)		VaR measure (note 3) (000s)		Actual loss (note 4) (000s)
70.11		/			
70.12		/			
70.13		/			
70.14		/			
70.15		/			
70.16		/			
70.17		/			
70.18		/			
70.19		/			
70.20		/			
70.21		/			
70.22		/			

If the reporting institution conducts backtesting on a sub-portfolio level, this should be repeated for each sub-portfolio that is subject to interest rate specific risk

Note 3 This is the VaR measure (99% confidence limit, one-day holding period) related to specific risk on the sub-portfolio.

Note 4 This is the actual loss related to specific risk on the sub-portfolio.

APPENDIX B-X: EXPOSURES COLLATERALISED/GUARANTEED/NETTED

This return records the adjustments made by the reporting institution in respect of exposures collateralised or guaranteed or netting, where the collateral/guarantee has been used to reduce the risk weight coefficient of the underlying asset, eg show the amounts in column 3 transferred from item B40.4 (100% weight) to item B40.1 (0% weight).

Capital base for the period of this report: _____ Date agreed: _____

Currency of completion: _____

Knowingly or recklessly giving the FSA information which is false or misleading in a material particular may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). SUP 15.6.1R and SUP 15.6.3R require an authorised person to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided. SUP 16.3.10R requires an authorised person to submit reports containing all the information required. Contravention of these requirements may lead to disciplinary sanctions or other enforcement action by the FSA. It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. Any additional information of relevance should be provided by letter direct to the FSA.

I confirm that the information in this form is accurate and complete to the best of my knowledge and belief and that I have read the Guidance Notes to this form.

Signature of authorised signatory: _____ Date: _____

Name: _____ Position held: _____

In the event of a query, the Financial Services Authority may, in the first instance, contact (block letters please):

Notes on completion

- 1 Complete the return quarterly on an unconsolidated/solo-consolidated basis and consolidated basis as at end of March, June, September and December. Institutions wishing to report as at dates which coincide with the financial year end should apply to the FSA for a waiver (see SUP 8).
- 2 The form should be returned within 10 business days of the reporting date when completed on an unconsolidated/ solo-consolidated basis and within 20 business days of the reporting date when completed on a consolidated basis. Please address the form to your normal supervisory contact in:

**Financial Services Authority
25 The North Colonnade
Canary Wharf
London
E14 5HS**
- 3 If you have any difficulty in completing this form, please telephone your FSA supervisor for guidance.

FSA use only	Logged in	Data entered
--------------	-----------	--------------

September 2001

* For unconsolidated/solo-consolidated entities, this will be the FSA firm reference number. For consolidated reports, this will be the FSA firm reference number of the institution on whom the requirement to report has been placed. This box must be filled in by all reporters (SUP 16.3.7R).

PART 1

LARGEST EXPOSURES TO INDIVIDUAL NON-BANK COUNTERPARTIES AND GROUPS OF CLOSELY RELATED

Counterparty (i) (1)	Gross exposure (ii) (2)		Net exposure (ii) (3)	
	(a) At reporting date	(b) Maximum during period	(a) At reporting date	(b) Maximum during period

(i) Principal counterparty(ies) in the case of groups of closely related non-bank counterparties.

(ii) Any exposure denominated other than in £ (either partially or wholly) should be marked with a *.

NON-BANK COUNTERPARTIES

Specific bad debt provisions made at reporting date against the exposure in column 2(a) or 3(a) (4)	Eligible collateral held (5)		Covered by guarantees (6)		Amount included in clustering ratio calculation (7)
	(a) Cash	(b) Zone A Government securities	(a) Parent bank	(b) Third party	

PART 2 (i)

LARGEST EXPOSURES TO INDIVIDUAL NON-BANK COUNTERPARTIES AND GROUPS OF CLOSELY RELATED

Counterparty (i) (1)	Gross exposure (ii)(iii) (2)		Net exposure (ii)(iii) (3)		Specific bad debt provisions made at reporting date against the exposure in column 2(a) or 3(a) (4)
	(a) At reporting date	(b) Maximum during period	(a) At reporting date	(b) Maximum during period	

(i) Principal counterparty(ies) in the case of groups of closely related non-bank counterparties.

(ii) Any exposure denominated other than in £ (either partially or wholly) should be marked with a *.

NON-BANK COUNTERPARTIES CONNECTED TO THE REPORTING BANK

Eligible collateral held (5)		Covered by guarantees (6)		Amount exempt under a connected exposure concession (7)	Amount included in clustering ratio calculation (8)
(a) Cash	(b) Zone A Government securities	(a) Parent bank	(b) Third party		

(iii) The total exposure to the counterparty(ies) listed in column 1 should be reported but exposures up to and including 1 year (original) maturity to group financial companies should also be separately identified in brackets.

PART 2 (ii)

LARGEST EXPOSURES TO BANKS, BUILDING SOCIETIES, RECOGNISED INVESTMENT FIRMS,
RECOGNISED CLEARING HOUSES AND RECOGNISED EXCHANGES CONNECTED TO THE REPORTING BANK

Counterparty (1)	Gross exposure (i) (2)		Net exposure (i) (3)		Specific bad debt provisions made at reporting date against the exposure in column 2(a) or 3(a) (4)
	(a) At reporting date	(b) Maximum during period	(a) At reporting date	(b) Maximum during period	

(i) Any exposure denominated other than in £ (either partially or wholly) should be marked with a *.

Eligible collateral held		Covered by guarantees		Amount exempt under a connected exposure concession	Amount included in clustering ratio calculation
(a) Cash	(b) Zone A Government securities	(a) Parent bank	(b) Third party		
(5)		(6)		(7)	(8)

PART 3 (i)

LARGEST EXPOSURES TO BANKS, BUILDING SOCIETIES, RECOGNISED INVESTMENT FIRMS, GILT-EDGED RECOGNISED CLEARING HOUSES AND RECOGNISED EXCHANGES WITH A MATURITY OF 1 YEAR OR LESS

Counterparty (1)	Gross exposure (i) (2)		Net exposure (i) (3)		Specific bad debt provisions made at reporting date against the exposure in column 2(a) or 3(a) (4)
	(a) At reporting date	(b) Maximum during period	(a) At reporting date	(b) Maximum during period	

(i) Any exposure denominated other than in £ (either partially or wholly) should be marked with a *.

MARKET MAKERS, STOCK EXCHANGE MONEY BROKERS,

Exposure to counterparties closely related to counterparty in column 1 (ii) (5)	Eligible collateral held (6)		Covered by guarantees (7)	
	(a) Cash	(b) Zone A Government securities	(a) Parent bank	(b) Third party

(ii) Other than banks, building societies, recognised investment firms, gilt-edged market makers, stock exchange money brokers, recognised clearing houses and recognised exchanges.

PART 3 (ii)

LARGEST EXPOSURES TO BANKS, BUILDING SOCIETIES, RECOGNISED INVESTMENT FIRMS, GILT-EDGED RECOGNISED CLEARING HOUSES AND RECOGNISED EXCHANGES WITH A MATURITY OF OVER 1 YEAR

Counterparty (1)	Gross exposure (i) (2)		Net exposure (i) (3)		Specific bad debt provisions made at reporting date against the exposure in column 2(a) or 3(a) (4)
	(a) At reporting date	(b) Maximum during period	(a) At reporting date	(b) Maximum during period	

(i) Any exposure denominated other than in £ (either partially or wholly) should be marked with a *.

MARKET MAKERS, STOCK EXCHANGE MONEY BROKERS,

Exposure to counterparties closely related to counterparty in column 1 (ii) (5)	Eligible collateral held (6)		Covered by guarantees (7)		Amount exempt under a 1-3 year derivative concession (8)	Amount included in clustering ratio calculation (9)
	(a) Cash	(b) Zone A Government securities	(a) Parent bank	(b) Third party		

(ii) Other than banks, building societies, recognised investment firms, gilt-edged market makers, stock exchange money brokers, recognised clearing houses and recognised exchanges.

PART 4

LARGEST EXPOSURES TO CENTRAL GOVERNMENTS AND CENTRAL BANKS

Counterparty (1)	Gross exposure (1) (2)		Net exposure (1) (3)	
	(a) At reporting date	(b) Maximum during period	(a) At reporting date	(b) Maximum during period
ZONE A				
ZONE B				

(i) Any exposure denominated other than in £ (either partially or wholly) should be marked with a *.

Notes for completing Part 5

- a) Principal customer in the case of closely related depositors/lenders.
- b) Where an individual deposit comprises 25% or more of the total for a particular depositor / group of depositors and has a different maturity from the remainder, it should be reported separately and bracketed. Otherwise where deposits have been received with a variety of maturity dates, reporting institutions need not supply a full list of dates but may write the letter V in the first section of column 2. Where the deposit is undated, this column should be left blank.
- c) Enter the currency and not the amount. The codes used for each currency should be consistent with the international codes used for the Bank of England returns. Where an individual deposit comprises 25% or more of the total for a particular depositor/group of depositors and has a different currency from the remainder, it should be reported separately and bracketed. Otherwise, where deposits are received in a variety of currencies, reporting institutions need not supply details of each currency amount but may write the letter V in the first section of column 3. Where the deposit is in sterling, this column should be left blank.
- d) Enter the sterling (or euro amount, if appropriate) or the sterling equivalent (or euro equivalent) if the deposit/loan is in currency other than sterling (or euro).
- e) Only complete this column for deposits still outstanding at the reporting date.
- f) Funds subject to the FSA's (previously SIB's) client money regulations.
- g) Funds held in accounts operated by a Financial Services Act authorised firm under a mandate signed by the account holder.

Notes on Completion

- 1 If you have any difficulty in completing this return, please telephone your normal supervisory contact at the FSA.
- 2 Complete the return quarterly on an unconsolidated/solo consolidated basis in conjunction with Form BSD3.
- 3 Complete the return half-yearly on a consolidated basis in conjunction with Form BSD3.
- 4 Enter amounts to the nearest thousands omitting £000s/€000s
- 5 For definitions of items, refer to the Guidance Notes
- 6 To assist with the scanning process, please enter all data neatly within the relevant boxes and do not enter the % symbol in any boxes on this return.
- 7 Submit within 10 business days for unconsolidated/solo consolidated returns and 20 business days for consolidated returns or 12 and 22 business days respectively for those institutions reporting electronically to:

**The Financial Services Authority
c/o Monetary and Financial Statistics Division
Domestic Banking Statistics (HO-4)
Bank of England
Threadneedle Street
London EC2R 8AH**

- 8 Returns may also be delivered to the Works Gate at the Lothbury entrance of the Bank of England between 9.00am and 5.00pm, Monday to Friday. Envelopes should be clearly addressed as above.

1. FORM B7
2. FORM BSD3
3. FORM LE2
4. FORM LR
5. FORM M1
6. FORM SLR1
7. Supervisory guidance notes

Analysis of Profits, Large Exposures and Certain Other Miscellaneous Information (Form B7)

Form B7 should be completed by UK branches of banks established outside the EEA (as defined in the Handbook Glossary of Definitions) as at end-June and end-December, or at dates which coincide with the branch's accounting period and have been agreed with the Financial Services Authority (FSA). This form should be completed using the accruals based accounting method, although market value based accounting may be used if the branch prepares its financial statements on this basis. It will, however, be assumed that branches are completing the form using the accruals based accounting method unless they have otherwise notified the FSA in writing.

Please read the Supervisory Guidance Notes (SGN), the FSA Banking Supervisory Policy Guide and the Interim Prudential Sourcebook for Banks in conjunction with these reporting instructions.

CURRENT YEAR'S PROFIT AND LOSS

1.1 Interest received and receivable

Include under this heading:

- (a) interest income which had accrued during the current accounting period whether or not it has been received;
- (b) all income having the character of interest and, in particular, amounts arising from the amortisation of discounts on the purchase of investment securities and fees and commissions which are similar in nature to interest, including swap interest where the instrument is used for hedging purposes. Interest which is identified as doubtful should not be credited to the profit and loss account but should instead be credited to an interest suspense account on the balance sheet. The crediting of interest to the suspense account should cease when there is no longer any realistic prospect of receiving it, and the balance should be written off once it is beyond realistic prospect of recovery.

1.2 Dividend income

Reporting institutions should include here all dividend income received and receivable (ie where the stock has gone "ex-div") from equity shares. Dividends from equity shares should be included from the announcement date or in the case of quoted shares from the "ex-div" date.

1.3 Fees and commissions received and receivable

Income from charges made for services provided by the reporting institution, eg for the provision of current account facilities, trade finance activities, corporate advice, investment management and trustee services, guarantees and indemnities, commission on foreign currency transactions, underwriting the issue of securities etc.

Do not include here fees and commissions which are similar in nature to interest such as front end fees in lieu of interest, as these should be reported under item 1.1.

1.4 Dealing profit/(loss)

This is the buying or selling of any financial instrument. Interest should be reported gross except where the interest flows arising from a contract are settled net, eg the interest flows on an interest rate swap would normally be reported net.

Include:

- (a) all profits and losses, including amounts resulting from marking-to-market from dealing in securities, foreign exchange, and other financial instruments;
- (b) fees received for dealing in securities such as brokerage costs; and
- (c) amounts resulting from the marking-to-market of the financial instruments held for dealing.

Profits and losses from the sale of investment securities should not be reported here but under item 1.6. The funding cost of the dealing operation may be included within this item where such a treatment is adopted in the financial statements of the branch.

1.5 Intra-group income

Include all income here which would otherwise have been included under items 1.1 to 1.4 and 1.6, but which has been earned from group companies. (This income should not also be reported under items 1.1 to 1.4.) The definition of group companies should include Head Office, fellow branches and other group companies as defined in SGN12.

Where the systems of the branch are such that it would be unduly expensive, impractical or of little benefit to the FSA to provide an analysis of intra-group income then such income need not be separately reported. The written agreement of the FSA should be obtained for reporting on this basis.

1.6 Other operating income

Include here the profit or loss on the sale of investment securities and tangible fixed assets, rentals receivable and sundry sources of income which do not fall into one of the other income categories. Investment securities are defined as securities intended for use on a continuing basis in the activities of the bank, but securities should not be treated as investment securities unless they are held for identified purpose and the securities held are clearly identifiable. Amounts within other operating income that represent more than 5% of the total income figure (item 1) should be entered in items 1.6A, 1.6B and 1.6C in descending order of size. Ignore further items if there are more than three breaking the 5% limit.

2.1 Interest paid and payable

Include under this heading:

- (a) interest expense which has accrued during the current accounting period whether or not it has been paid; and
- (b) all expenditure having the character of interest, and, in particular, amounts arising from the amortisation of premiums on the purchase of investment securities and fees and commissions which are similar in nature to interest and swap interest where the instrument is used for hedging purposes.

2.2 Fees and commissions paid and payable

Include charges for all services rendered to the company by third parties, excluding those which have the character of interest and are included under item 2.1.

2.3 Staff expenses

Include here:

- (a) salary costs;
- (b) employer's national insurance contributions;
- (c) employer's contribution to any pension scheme; and
- (d) costs of staff benefits paid on a per capita basis, such as private medical insurance and luncheon vouchers.

2.4 Administration expenses

Include here any general staff benefits, together with rent, rates, electricity, stationery costs, etc.

2.5 Depreciation

This item should include depreciation, amortisation and other amounts written off in respect of tangible and intangible fixed assets.

2.6 Intra-group expenditure

Include all expenditure which would otherwise have been included within items 2.1 to 2.4 and 2.7, but which has been paid to, or is due to, group companies as defined in SGN12. Where the systems of the branch are such that it would be unduly expensive, impractical or of little benefit to the FSA to provide an analysis of intra-group expenditure then such expenditure need not be separately reported. The written agreement of the FSA should be obtained before reporting on this basis.

2.7 Other operating charges

Include here those items of expenditure which do not fall within items 2.1 to 2.5. Amounts within other operating charges which represent more than 5% of the total expenditure figure (item 2) should be entered in items 2.7A, 2.7B and 2.7C in descending order of size. Ignore further items if there are more than three breaking the 5% limit.

4.1 Provisions for bad and doubtful debts

Suspended interest should not be included here, nor should suspended interest be included within item 1.1. This item should equal item 10.3. Specific and General should be as per the branch balance sheet.

4.2 Provisions for contingent liabilities and commitments

Include here charges for provisions against contingent liabilities and commitments which would, if not provided for here, be shown under off-balance sheet items 7 and 8.

4.3 Taxation

Include here the tax charge for the period. Where this has not yet been arrived at, an estimation of the tax charge should be included, based on the pre-tax profit figure and the average historic tax rate of the institution in previous years. The historic rate of tax should be adjusted for any changes in circumstances as appropriate, including changes in the rate of corporation tax, changes in the nature of businesses, etc.

4.4 Provisions / Amounts written off fixed asset investments

Provisions / amounts written off, and adjustments to amounts previously written off, in respect of fixed asset investments, including debt and equity securities held either to maturity or as long term investments.

BALANCE SHEET ANALYSIS

6.1-6.5 Quoted investments

This should comprise the net long or short position of investments listed on recognised exchanges (the UK and overseas official stock exchanges and the Unlisted Securities Market) and "over the counter" stock markets for which a publicly ascertainable price is regularly available. In arriving at the market valuation, long positions should be valued at bid price and short positions should be valued at the offer price. In the event that the bank is only able to access the mid-market or single values, it should have regard to the fact these prices will have to be adjusted to some degree in order to arrive at a prudent valuation.

6.6-6.9 Unquoted investments

Include here, at the original cost valued at the reporting rate of exchange, those investments which are not traded on a recognised exchange as defined for items 6.1 to 6.5, and those "over the counter" investments which do not meet the criteria to be included under items 6.1 and 6.5.

OFF-BALANCE SHEET ITEMS

7.1 Acceptances and endorsements

Endorsements of bills for customers (including per aval endorsements) should be reported at the full nominal amount, less any amount for bills which the branch now holds but had previously endorsed. Where the reporting institution is the first endorser of a bill which has been accepted by a bank other than the reporting bank, such endorsements should be reported in item 7.2. (Where a reporting institution has endorsed its own acceptances no further amount should be reported than the acceptance reported in item 7.2.) If the reporting institution is not the first endorser of a bill already accepted by a bank, such endorsements need not be reported.

Endorsements of bills which have not been accepted by a bank should be reported here, but endorsements of bills which have been previously endorsed by two or more banks need not be reported.

Acceptances, other than own acceptances which represent a genuine liability as opposed to a contingent liability and should be reported on balance sheet, should also be reported here.

7.2 Guarantees and irrevocable letters of credit (Direct credit substitutes)

Guarantees and irrevocable letters of credit (ie direct credit substitutes) relate to the financial requirements of a counterparty, where the risk of loss to the reporting institution on the transaction is equivalent to a direct claim on the counterparty, ie the risk of loss depends on the creditworthiness of the counterparty (refer to Form BSD3 item A340 for detail of instruments which should be reported).

Letter of credit not eligible for inclusion in item 8.2 should be reported here. However, standby letters of credit which are related to non-financial transaction should be reported in item 7.4.

7.3 Assets pledged by the bank as collateral security

Include all guarantee obligations incurred and assets pledged as collateral security on behalf of third parties. Where the assets have been given as security in connection with the reporting institution's participation in a payments/settlements system such as CREST or Euroclear, the particular payments/settlements system should be reported with the liabilities being secured at the reporting date. Where assets have been given as security to secure the reporting institution's other liabilities (for example, property which has been mortgaged and hire purchase agreements pledged as collateral), the assets reported should exclude any element of unearned finance charges.

7.4 Other contingent liabilities

Report all contingent liabilities which do not fall within one of the definitions for items 7.1 and 7.3.

8.1 Sale and option to resell transactions

Include all instruments where the purchaser of assets has the option to resell them to the vendor. They should be reported under this item at the price agreed in the event of a repurchase. If there is no repurchase price agreed then use the price at the reporting date.

8.2 Documentary credits and short-term trade-related transactions

Report short-term (defined as less than or equal to six months), self liquidating trade-related items such as documentary letters of credit issued by the reporting institution which are, or are to be, collateralised by the underlying shipment, ie where the credit provides for the reporting institution to retain title to the underlying shipment. Such letters should be weighted according to the counterparty on whose behalf the credit is issued and reporting whether or not the terms and conditions of the credit have yet to be complied with.

Letters of credit issued by the reporting institution without provision for the reporting institution to retain title to the underlying shipment or where the title has passed from the reporting institution should be reported under Guarantees and irrevocable letters of credit (direct credit substitutes), ie item 7.2. A memorandum of pledge and a trust receipt are not regarded as giving the reporting institution title, and transactions secured by these should be shown under item 7.2.

Letters of credit issued on behalf of a counterparty back-to back with letters of credit of which the counterparty is a beneficiary ("back-to-back" letters) should be reported in full.

Letters of credit advised by the reporting institution or for which the reporting institution is acting as reimbursement agent should not be reported.

8.3 Forward asset purchases and forward deposits placed

Include commitments for loans and other on-balance-sheet items with certain drawdown. Exclude foreign currency spot deposits with value dates one or two working days after the reporting date.

8.4 Undrawn facilities

Include all undrawn committed credit facilities with uncertain drawdown, including those with bank counterparties.

9 Exchange rate and interest rate related contracts

Counterparty risk on exchange rate and interest rate related contracts should be reported in this section. Exposures should be reported on a gross basis, unless they are netted by novation or in accordance with the guidance set out in Chapter NE (Collateral and netting) of the FSA Banking Supervisory Policy Guide and/or the Interim Prudential Sourcebook for Banks.

Only contracts with a positive mark to market value should be included. However, institutions should record a potential future credit exposure in respect of all OTC derivative contracts.

9.1 Exchange rate contracts

Only exchange rate contracts of over 14 days original maturity (excluding a settlement period of up to 2 days) should be reported in this section. Foreign currencies should be interpreted to include gold, silver, platinum and palladium. Report the amount arising from cross currency swaps, cross currency interest rate swaps, outright forward foreign exchange contracts, currency futures, currency options purchased, equity futures, equity swaps, equity options purchased, commodity futures, commodity swaps, commodity options purchased and similar instruments.

9.3 Interest rate contracts

Report the amount arising from single currency interest rate swaps, basis swaps, forward rate agreements and products with similar characteristics, interest rate futures (including bond futures and options purchased), interest rate options purchased, synthetic agreements for forward exchange (SAFE), exchange rate agreements (ERA), forward exchange agreements (FXA) and similar instruments.

For forward foreign exchange agreements, if the notional principal amounts, between the front and back legs, differs by more than 10%, then the lower amount should be reported as the notional principal for the interest rate treatment and the difference will attract exchange rate add-ons.

9.1 & 9.3 Notional principal

For exchange rate contracts, the notional principal should be taken as the contract amount or the underlying principal amount of the contract. As regards the notional currency being received by the reporting institution, this should be translated into sterling at the spot exchange rate on the reporting date (see SGN34 for more detail generally).

Refer to SGN34 for guidance on remaining maturity.

9.2 & 9.4 Credit Equivalent

Reporting institutions should complete these lines using either the replacement cost or original exposure method. In general, where a reporting institution actively trades these instruments or where such instruments form a significant part of its treasury operation, the replacement cost method should be used. The original exposure method should only be used where the institution does not actively trade and with written agreement from the FSA. Reporting institutions should indicate the method used in the boxes provided.

Further guidance is included in Appendix 1 (replacement cost method) and SGN36 (original exposure method).

MEMORANDUM ITEMS

Provisions against bad and doubtful debts

10.1 Previous balance

Show the balance outstanding on the specific and general provisions account at the end of the previous accounting year relating to debts considered bad or doubtful. Do not include provisions made against the value of investments. **The date to which the balance refers should be shown in the space provided.**

10.2 Adjustments for exchange rate movements

Enter any adjustments made for exchange rate movements in respect of provisions denominated in currencies other than sterling. Where the adjustment is negative, report the amount in brackets.

10.3 Charge/credit to profit and loss account

Enter the net charge or credit to the profit and loss account in respect of provisions; this should equal item 4.1. A net credit should be shown in brackets. The gross charge for new provisions should be offset by other items, including any provisions made in earlier years but now released in the current year's profit and loss account. The charge or credit for specific provisions should not include the charge or credit for provisions in respect of suspended interest (unless it is the practice of the reporting institution to show suspended interest as interest receivable in the P&L account).

10.4 Amounts written off

Enter the gross amount written off (before recoveries, which should be reported in item 10.5).

10.5 Recoveries of amounts previously written off

Enter the total amount of loans recovered which have previously been written-off.

10.6 Other

Enter any other items, including exceptional provisions and transfers between general and specific provisions.

10.7 Current balance

The current balance should be the sum of items 10.1 to 10.6.

LARGE EXPOSURES

11 Twenty largest exposures to banks and building societies

List in descending order of magnitude (ie the largest exposure first) the twenty largest credit exposures to banks and building societies. The listing should commence on line 11A. Each large exposure should only be reported once, at the top level. The total of each column of the large exposures should be entered on the first line.

For the definitions of exposures and counterparties which should be used (see SGN9 to SGN13), for banks, see SGN20 (excluding investment firms).

Exposures of up to and including **1 year remaining maturity at the reporting date should be reported in column 4.**

For interest rate and foreign exchange rate contracts, the amounts at risk should be reported as the "credit equivalent amount" using the same basis of valuation as in item 9.

12 Twenty largest exposures to other counterparties

List in descending order of magnitude (ie the largest exposure first) the twenty largest credit exposures to counterparties other than those covered in item 11 (both UK and overseas). Include the non-bank private sector, central banks, international organisations (including regional development banks and the Bank for International Settlements (BIS)), and the UK and overseas public sectors. The listing should commence on line 12A. Each large exposure should only be reported once, at the top level. The total of each column of the large exposures should be entered on the first line.

See SGN9 to SGN13, SGN18, SGN20 to SGN23.

Exposures of up to and including **1 year remaining maturity at the reporting date should be reported in column 4.**

For interest rate and foreign exchange rate contracts, the amounts at risk should be reported as the "credit equivalent amount" using the same basis of valuation as in item 9.

Exposures should be valued in accordance with the Supervisory Guidance Notes, except that, in the circumstances below, the exposure should be measured as less than the nominal exposure. In reporting large exposures, credit balances should not be offset against debit balances unless consistent with Chapter NE (Collateral and netting) of the FSA Banking Supervisory Policy Guide or the Interim Prudential Sourcebook for Banks, whichever is current at the reporting date.

Underwriting commitments

The exposure arising from underwriting commitments should be taken as the full amount of the sum underwritten, less amounts of the issue which the reporting bank has sub-underwritten with, or sold to, another counterparty.

APPENDIX 1 - REPLACEMENT COST METHOD

Reporting institutions should mark-to-market in a prudent and consistent manner. Institutions should develop their own methodology for calculating market values, details of which should be made available to the FSA on request; the following guidelines should however be observed.

For swaps, forward rate agreements and products with similar characteristics, outright forward foreign exchange contracts and futures, the mark-to-market approach should be based on an estimation of the net present value of the future cash flows of the contract, using interest rates based on current market rates and relevant to periods in which the cash-flows will arise (commonly for example, the rates from a derived yield curve for zero-coupon government bonds).

For options purchased, the mark-to-market approach should be based on a value of the option reflecting, inter alia, the amount by which the option is "in the money" (ie the amount, if any, by which the rate at which the option can be exercised is more favourable than the current market rate when applied to the notional principal underlying the option), the time to expiry of the option, the volatility of the underlying exchange or interest rate, and (for currency options) the interest rate differential between the two currencies. Typically such valuations will be based on mathematically complex formulae, and will value the option at an amount above its "in the money" value. Reporting institutions whose involvement in options is limited and who have not developed suitable methodology may value options at their "in the money" value. The written consent of the FSA should be obtained to valuing options in this way.

Credit equivalent amount

In order to calculate the credit equivalent amount of these instruments, a bank should add together:

- (a) the total replacement cost (obtained by marking to market) of all its contracts with a positive value; and
- (b) an amount for potential future credit exposure which reflects the residual maturity of the contract, calculated as a percentage of notional principal amount according to the following matrix.

Residual maturity	Interest rate contracts	Exchange rate contracts
One year or less	Nil	1.0%
Over one year	0.5%	5.0%

Institutions should record a potential future credit exposure in respect of all OTC derivative contracts that might in the future have a positive mark-to-market value. Thus for a given contract, an amount may arise under (b) even if no amount arises under (a).

No potential exposure should be calculated for single currency interest rate basis swaps; the credit equivalent amount on these contracts should be evaluated solely on the basis of mark-to-market value.

BSD3 REPORTING INSTRUCTIONS

These instructions should be read in conjunction with the Supervisory Guidance Notes as necessary. For convenience, these reporting instructions will refer to the Supervisory Guidance Notes as 'SGN', the FSA Banking Supervisory Policy Guide as 'FSA Policy Guide', and the Interim Prudential Sourcebook for Banks as 'IPRU (BANK)'.

A1 Currency of completion

The form should be completed in Sterling until further notice. This box has been included in preparation of possible future entry to EMU by the UK.

SECTION A: BANKING BOOK

ASSETS

A10 Cash

Notes and coin, including holdings of notes issued by the appropriate authority which are required to be held as backing for the reporting institution's own issue of bank notes. (Gold coin should be reported in item A20 unless there is difficulty in separately identifying such holdings.)

A20 Gold bullion and coin

Physical holdings of gold bullion and gold coin beneficially owned by the reporting institution, including that held on an allocated basis by other institutions. Gold held as custodian for others should not be reported. Short positions in gold should not be reported here but reported with liabilities in this return.

The treatment of other precious metals (silver, platinum and palladium) should be discussed with the Financial Services Authority (FSA). (See also item A260.)

A30 Cash items in the course of collection

The total amount of cheques, etc drawn on and in the course of collection on other banks, and debit items in transit between domestic offices of the reporting institution in each country. Report cheques that have been credited to customer's accounts but are held overnight before being presented or paid into the reporting institution's account with another institution.

A40 Items in suspense

All debit balances not in customers' names but relating to customers' funds, eg debit balances awaiting transfer to customers' account rather than the reporting institution's own internal funds. Also report funds of the reporting institution lodged with applications for new issues, even if the funds may be returnable, and items in the course of settlement (amounts receivable in respect of transactions not due until a future settlement date, where the asset is to be reported on a contract date basis).

Items in the course of settlement resulting from securities transactions should be treated as follows:

- (a) Sales of securities from the banking book where delivery will only take place against receipt of cash (“cash against documents”):
- (i) amounts receivable where the transactions have not reached settlement date should be reported in the 0% band;
 - (ii) amounts receivable where the transactions are up to and including 4 days past due settlement date should be reported in the 0% band;
 - (iii) when an unsettled transaction is more than 4 days past the due settlement date, a capital requirement should be calculated based on either the potential loss on the deal, defined as the difference between the amount due and the current market value of the security being settled (column one below) or the agreed settlement price (column two below). That capital requirement should be entered in item A40.5 and be weighted at 100%. The difference between the capital requirement and the total amount receivable should continue to be weighted at 0%.

Number of Working Days past due settlement date	Column One Percentage of Potential Loss	Column Two Percentage of Agreed Settlement Price
0 - 4	Nil	Nil
5 -15	8%	0.5%
16-30	50%	4.0%
31-45	75%	9.0%
46 or more	100%	100% of Potential Loss (as Column 1)

- (b) Transactions in tradeable securities involving the delivery of the securities (cash), when the cash (securities) are not received at the same time (“free delivery”):-
- (i) if settlement of the transaction is effected across a national border, amounts receivable up to and including one business day after the securities (cash) have been delivered without the cash (securities) being received in return should be reported in the 0% band;
 - (ii) all unsettled transactions more than one day past the due settlement date should be weighted according to the counterparty of the transaction.
- (c) Settlement risk arising from trading securities in the Trading Book should be reported in the Trading Book column of item A40. The capital requirement should also be reported in item B10 (Free Deliveries) or item B50 (Unsettled Transactions).

In the case of rolling settlement dates the due settlement date should be interpreted as the first settlement date, ie the settlement date before the settlement date is rolled over.

A50-A110 LOANS, ADVANCES AND BILLS HELD

Funds lent to or placed with customers/counterparties including :

- (a) the book value of assets leased out under finance lease agreements net of deferred tax provided, but legally owned by the reporting institution;
- (b) holdings of certificates of deposit (other than those issued by the reporting institution) and negotiable deposits made on terms identical to those on which a certificate of deposit would have been issued, but for which it has been mutually convenient not to have issued a certificate (these items should be reported on a contract date basis);
- (c) loans made under conditional sale agreements and hire purchase contracts;
- (d) acceptances discounted;
- (e) advances purchased by or assigned to the reporting institution under a transferable loan facility, purchase and resale agreements, factoring, or similar arrangement;
- (f) initial margin payments with futures markets. These are effectively exposures to a recognised exchange and will therefore attract a weight of 20% (unless the exchange is not recognised for this purpose, see Chapter BC (Credit Risk In The Banking Book), Section 5, of the FSA Policy Guide/IPRU (BANK), as relevant, in which case a weight of 100% will apply).

Exclude unearned finance charges.

Bills, etc

Enter at book value bills, promissory notes and other negotiable paper owned (including à forfait paper). These items (including those bills eligible for rediscount at the Bank of England and other central banks) should be reported in the categories below according to the drawee; the weighting for accepting bills, however, should be determined according to the acceptor.

Accruals

Wherever possible, accruals should be reported against the relevant category of counterparty (see SGN7).

Export credit

Report in the 0% band of the relevant counterparty category all medium and long-term lending (ie with an original maturity of two years and over) covered by an unconditional ECGD bank guarantee (Supplier Credit Finance Facility, Buyer Credit, ECGD guaranteed Lines of Credit and any outstanding lending under the, now discontinued, Specific Bank Guarantee, Comprehensive Extended Terms Bank Guarantee and all lending supported by a FINCOBE endorsement of by an irrevocable letter of credit, confirmed by a bank, which, in turn, has obtained an ECGD guarantee on its confirmation).

Only the part of the loan fully and unconditionally guaranteed by ECGD should be reported in the 0% band (that part of the loan not guaranteed by ECGD should be reported in other weighting bands as appropriate).

The reporting institution should report in the 0% band its own participation in syndicated loans made under ECGD bank guarantee, even if it does not itself hold the guarantee.

The following should not be reported in the 0% band:

- (a) lending under ECGD bank guarantees where the cover is conditional in that it is restricted to certain political risks (eg confiscation cover or, cover under option 1 or 2 of the Project Financing Scheme);
- (b) outstanding lending supported by an ABE endorsement under the (now discontinued) ECGD Comprehensive Extended Terms Guarantee;
- (c) loans made against assignments of rights by exporters to the reporting institution under ordinary ECGD policies; and
- (d) loans made against the security of ECGD insurance cover.

Lending under equivalent schemes operated by other Zone A countries, and Zone B countries where denominated in local currency and funded in that currency, should be reported in the 0% band to the extent of the cover. Reporting institutions should agree with the FSA which schemes may be regarded as "equivalent" and merit a 0% weighting.

Where lower risk weights have been applied as a result of export credit guarantees, an entry should be made in Appendix A-III.

Factoring

Report the total amount of debts assigned to the reporting institution under factoring or other similar arrangements as an exposure to the debtor.

Where the debt is assigned to the reporting institution with no recourse the debt should be weighted as a claim on the debtor.

Where the debt is assigned to the reporting institution for no consideration and on a recourse basis the debt should be weighted at 0%.

Where the debt is assigned to the reporting institution for a consideration and on a recourse basis the amount of the consideration should be weighted as a claim on the debtor and the remaining portion should be weighted at 0%.

Where a guarantee has been given eg from the assignor's parent, the risk weighting of the guarantor may be applied.

A50 Central governments and central banks

Deposits placed with, and loans made to central governments and central banks, including funds which the reporting institution is required to place on deposit with central banks and monetary authorities. Include in the 10% weighting band Treasury bills and any other bills (by definition with one year or less original maturity) issued by central governments and central banks.

Include similar claims on the European Commission, the European Economic Community (EEC), the European Coal and Steel Community (ECSC) and Euratom.

Do not report balances with international organisations such as the Council of Europe, the United Nations or European Space Agency in this item; they should be reported in item A100 in the 100% band.

A60 Lending to group companies

Claims on those group companies which are not required to be consolidated for the purposes of this return should be recorded. Only claims on group companies which meet the conditions set out in Chapter CS (Consolidated supervision), Section 3, Paragraph 2(b), of the FSA Policy Guide/IPRU (BANK) should be reported in the 0% band. Those claims which are eligible for inclusion in the 0% band should first be agreed with the FSA.

For the unconsolidated return, include lending to subsidiaries and associates included in the consolidated RAR and those that would be included were it not for the fact they are supervised by another UK regulator until the Financial Services and Markets Act 2000 is in force.

A70 Banks and investment firms (including building societies & MDBs).

For the definition of banks, investment firms and multilateral development banks (MDBs), see SGN20 and SGN Appendix E.

A80 Public sector entities

For the definition of public sector entities, see SGN23.

A90 Loans secured by mortgage(s) on residential property

Report loans to individuals secured by mortgage on residential properties (both freehold and leasehold) which are or will be occupied by the borrower, or which are rented, where such loans are fully secured by a first priority charge. If any part of the property is used for non-residential purposes, the mortgage loan should not be reported here but should be reported in item A100. However, mortgage loans secured on property where the occupier works at home but no structural alterations are required to return the property to full residential use may be reported here.

Report mortgage loans to housing associations* registered with the Housing Corporation, Scottish Homes and Tai Cymru (Housing for Wales), and to housing companies that are registered with Scottish Homes, which are fully secured by a first priority charge on housing association/company residential property which is rented.

Report loans to the Housing Finance Corporation which are secured by a first priority charge over its assets.

Report mortgage sub-participations which are fully and specifically secured against residential mortgage loans which are eligible for a 50% weight.

For the purposes of this item the following definitions apply:

* Also called 'residential social landlords'.

“Fully secured” means that the value of the property is greater than or equal to the value of the loan (ie a maximum loan to value ratio of 100%). Whilst there is no requirement for reporting institutions to revalue properties on a regular basis, where such valuation has been made and it is found that the loan to value ratio exceeds 100%, such loans should be weighted at 100% (and reported in item A100). (However, if the shortfall in the security value is fully covered by a specific provision, the net amount of the exposure may continue to be weighted at 50%). Conversely, where revaluation indicates that the loan to value ratio has fallen to 100% or less, the loan may be weighted at 50% and reported in item A90.

“First priority charge” means a first fixed (legal or equitable) charge or a first floating charge. In the case of the latter, reporting institutions should ensure (by, for example, including a negative pledge to this effect in the documentation) that no prior ranking charges can be taken over the assets concerned.

The above treatment may also be applied to loans to special purpose mortgage finance vehicles which include covenants restricting the vehicles’ activities to mortgage business and which provide for the loan to be repaid on demand should the covenants be breached and which also meet the criteria to be met by mortgage backed securities qualifying for a 50% risk weighting set out in item A150.

A100 Other loans, advances and bills held

Report here exposures to counterparties not already included above, including exposures to recognised clearing houses and exchanges.

The Council of Europe, United Nations and its agencies (other than the World Bank and International Finance Corporation - see SGN Appendix E), European Space Agency and Eurofima should be included here rather than under item A50. Report balances with Euroclear and Cedel in the 20% band.

A120-A190 INVESTMENTS

Report securities, together with any associated accrued interest, with an original maturity of over one year such as equities, eurobonds and FRNs (instruments with an original maturity of one year or less should be reported in items A50-A110). All securities (including British Government stocks) should be reported on a contract day basis, with the payments due or receivable in respect of such transactions to be shown gross in items A760 and A40. Only long positions in securities should be reported in this section of the return (see SGN27). Where it is not possible to identify separately interest accruals they should be reported in item A260 in the appropriate risk weighting band.

Enter in items A130, A140, A150, A170 and A180 securities guaranteed by central governments or central banks meeting the conditions for guarantees (see SGN28) at either 10% or 20% depending on whether the residual maturity of the security is one year or less or over one year respectively. If the guarantor is a Zone B central government or central bank, the security must be in the local currency of the issuer and guarantor.

A120 Central governments and central banks

Holdings of securities and debt instruments (other than bills - see item A50) issued by central governments and central banks. Include such instruments issued by the European Commission, the European Coal and Steel Community and Euratom.

Only holdings of certificates of tax deposit should be reported in the 0% band together with interest accruals on holdings of securities and debt instruments where the issuer is a Zone A central government or central bank or where the issuer is a Zone B central bank or government and the security is in the local currency of the issuer. For the determination of the appropriate weight band for other securities held, see SGN15. Where it is not possible to identify separately interest accruals they should be reported in item A260 in the appropriate risk weighting bands.

Report both the gross long position and net long position (ie the gross long position minus the gross short position - item A120 less item A710) in such securities (see SGN27). The total (item A120) should be the sum of the gross long positions. If there are no short positions relevant to a particular band, the net long position box should nevertheless be completed showing an amount equal to the gross long position.

See SGN27 for the treatment of short positions in these securities taken on behalf of the reporting institution by related Gilt Edged Market Makers.

A130 Public sector entities

For the definition of public sector entities, see SGN23.

A140 Banks (unsubordinated FRNs etc)

Unsubordinated FRNs and similar types of non-capital debt instruments issued by banks and investment firms (for definition, see SGN20) with an original maturity of over one year. In the case of securities issued by Zone B banks, the weighting applied should be 20% if the residual maturity is one year or less and 100% if over one year.

Holdings of subordinated debt issued by Multilateral Development Banks (as listed in SGN Appendix E) attract a risk weighting of 100%.

A150 Mortgage backed securities

Only holdings of US GNMA securities with a floating rate, or with a fixed rate if the residual maturity is one year or less, should be reported in item A150.1. Fixed rate GNMA securities with a residual maturity of over one year together with FHLMC and FNMA mortgage backed securities should be reported in item A150.2.

Stripped bonds should be reported in the 100% risk weight category regardless of counterparty.

Report in item A150.3 holdings of securities issued by special mortgage finance vehicles which meet the following conditions (also set out in Chapter BC (Credit risk in the banking book), Section 3, Paragraph 7d, of the FSA Policy Guide/IPRU (BANK)). Holdings of securities which do not meet these conditions should be reported in item A150.4.

- (i) they are fully secured against residential mortgages which meet the conditions set out in item A90, with a first priority charge;
- (ii) the vehicle's activities are restricted by its articles of association to mortgage business. The vehicle may also hold assets qualifying for a risk weighting of 50% or less;
- (iii) the mortgage loans must not be in default at the time at which they are transferred to the vehicle;

- (iv) the notes embody an express promise to repay the bearer;
- (v) the issue documentation contains provisions which would ultimately enable noteholders to initiate legal proceedings directly against the issuer of the mortgage backed security. As an example such provisions would allow noteholders to proceed against the issuer where the trustee, having become bound to take steps and/or to proceed against the issuer, fails to do so within a reasonable time and such failing is continuing;
- (vi) the documentation contains provisions which would ultimately enable noteholders to acquire the legal title to the security (ie the mortgagee's interest in it) and to realise the security in the event of a default by the mortgagor.

Report in item A150.4 notes:

- (i) issued by those companies whose business is not limited as specified above by their articles of association; and/or
- (ii) which absorb more than their pro rata share of losses in the event of arrears or default, eg junior notes, and/or
- (iii) where the security agreement does not provide that noteholders remain fully secured at all times; and/or
- (iv) where mortgage loans backing the securities were in default at the time when they were transferred to the vehicle.

A160 Investments in subsidiaries and associated companies

In determining which entities count as subsidiaries and associated companies, the same accounting treatment should be adopted as that used in the preparation of statutory accounts.

Investments that have a negative value should not be offset against those with a positive value. Investments that have a negative value should instead be reported in item A260.1 until they again have a positive value.

Where the 'embedded value' method is used to value investments in life assurance subsidiaries and associates, the value using this method should be reported here.

When completing this return on a consolidated basis, investments in subsidiary and associated companies should not be included when those companies are included in the consolidation.

A170 Investments in bank and financial firm capital

All items reported here should be shown at full book value, with no reduction for any amortisation which the issuer may be applying in calculating its own capital base. Any amounts shown in respect of net underwriting commitments should be shown at book value and not reduced to take account of any scaling factors which may have been agreed by the FSA; this may result in a difference between the figures shown here and those on the Form M1. Banks which have agreed a trading book or other concession with the FSA **should complete the Form M1.**

Report here

- (i) all long, physical positions in instruments which are included in the capital of the issuing credit or financial institution (including such instruments sold under sale and repurchase or similar agreements, instruments carrying third party guarantees (including central government guarantees), American depository receipts, and net commitments to underwrite new issues of such instruments (from working day zero);
- (ii) all indirect holdings of credit or financial institution's capital taken via instruments issued by their holding companies or vehicles whose business is exclusively or mainly to hold or repackage credit and/or financial institutions' capital instruments. (The FSA may however agree that it is appropriate not to include these where the instruments are fully protected from any risk on the underlying capital instruments);
- (iii) equity holdings in investment trusts, and holdings of units in unit trusts, mutual funds or other investment vehicle established exclusively or mainly to hold credit or financial institutions' capital instruments;
- (iv) any other holdings of instruments of a capital nature relating to credit or financial institutions.

A credit institution is an undertaking whose business is to receive deposits or other repayable funds from the public and to grant credits for its own account. The term financial institution for the purposes of this item should be taken to include all directly regulated or supervised institutions or financial holding companies whose exclusive or main business is to carry out one or more of activities listed in points 2-12 in Annex I to the Banking Consolidation Directive (2000/12/EC). These activities are outlined in Chapter CA (Definition of capital), Section 10, of the FSA Policy Guide/IPRU (BANK). Long and short positions in any of the above may be netted only where they are in identical instruments.

Banks need not report here

- (i) short positions in capital instruments; or
- (ii) exposures to capital instruments taken through forward purchases, futures, options and other derivative instruments.

Where banks are unsure what instruments it is appropriate to deduct they should refer to their line supervisor.

Unless the conditions set out in Section 10.3 of Chapter CA (Definition of capital) of the FSA Policy Guide/IPRU (BANK) apply, all holdings of bank and financial institution capital instruments held in the Banking Book should be reported in item A171 as deductible. Banks which do not have a Trading Book concession should also report all holdings of bank and financial institution capital instruments in the Trading Book as deductible in item A171. Banks should ordinarily record the book value of their holdings. However, where banks are underwriting the capital instruments of banks and financial institutions they may apply the relevant scaling factors listed in Chapter TU (Underwriting in the capital adequacy framework), Section 3, Paragraphs 8-10, of the FSA Policy Guide/IPRU (BANK).

The value of items falling within the Trading Book concession as reported on Form M1 should be entered in item A172. It may be appropriate to risk weight other holdings. The reporting institution should obtain the FSA's agreement before including such other holdings.

Where scaling factors have been applied to capital instruments reported in A171, the sum of A171 and A172 will not necessarily equal to the amount reported in item A170.

A180 Qualifying holdings / other investments

Report here any qualifying holdings in commercial companies which are not reported as subsidiaries or associates. A reporting institution's holding constitutes a 'qualifying holding' if it is a direct or indirect holding in an undertaking which represents 10% or more of the capital or of the voting rights or which makes it possible to exercise a significant influence over the management of the undertaking in which the holding subsists.

Banks may not include positions where

- the shares held are not financial fixed assets;
- the FSA has agreed that non-deduction is appropriate in cases where the shares are held temporarily during a financial reconstruction or rescue operation;
- the shares are held during the normal course of underwriting;
- the shares are held in the bank's name on behalf of others; or
- the shares are held in exceptional circumstances. Banks should obtain the FSA's agreement to non-deduction in such cases. The FSA is only likely to agree non deduction is appropriate where the bank has increased its capital or taken other equivalent measures, or has agreed to do so.

All banks which have qualifying holdings **should complete the Form M1**. Any qualifying holding which is in excess of the thresholds indicated on form M1 should be reported as deductible. The deductible amount reported in item A180.4 should equal the deductible holdings reported on Form M1. Non-deductible holdings should be reported in items A180.1 to A180.3.

Other Investments in counterparties not already included in items above (ie items 120 to 170) and are not qualifying holdings as defined in above should be reported in A180 and in items A180.1 to A180.3 as appropriate.

A200-A260 OTHER ASSETS

A210 Other intangible assets

Only report in item A210.1 mortgage servicing rights where there is an active and liquid market in which they can be traded. At present, this condition is only met in respect of mortgage servicing rights traded in the US market. (Valuation of these items should be discussed with the FSA.)

A220 & A230 Own premises and other property/real estate

Own premises should include the value in its books of property occupied or being developed for occupation by the reporting institution. Also report in item A220 property which is occupied or is for the purpose of occupation by employees of the reporting institution. Other property and real estate beneficially owned by the reporting institution but not occupied or used in the operation of its business should be reported in item A230.

A240 Operating leases

Report equipment owned by the reporting institution which has been leased out under an operating lease. Report any contracted future rental payments (net of future finance charges) weighted according to the lease; the residual value of the asset should be reported in the 100% weighting band.

A250 Plant, equipment and other fixed assets

This should include plant and equipment owned or recorded as such by the reporting institution and used in connection with its own business. Equipment leased out under operating leases should not be reported here but in item A240. Equipment leased out under finance leases should be reported in items A50 to A110.

Where the reporting institution is the lessee under a finance lease, or a hirer under a hire purchase contract, the asset should be recorded in the 100% band. If the reporting institution is acting as a broker or agent for a sub-lease or back-to-back lease, the asset should not be reported on the balance sheet provided that there is no recourse to the reporting institution in the event of a default (see Chapter SE (Securitisation and asset transfers) of the FSA Policy Guide/IPRU (BANK)).

A260 Other assets

Report any other assets not reported elsewhere, eg sundry debtors, prepayments and accruals not identified elsewhere (see SGN7). Also include investments in subsidiaries and associated companies where the value of these investments is currently negative (investments with a positive value should be reported in A160).

Overall net positive mark-to-market valuations of interest rate, foreign exchange, equity, commodity and precious metals related contracts in the Banking Book should be weighted at 0% here - see items A472, A474, A452. Overall net negative mark-to-market values should be included under item A760.2. Assets relating to premia paid out on interest rate and foreign exchange options contracts bought on exchanges and subject to daily margining requirements should be reported under item A260.1. Also include in A260.1 negative investments in subsidiaries and associated companies.

In appropriate cases, physical positions in respect of commodities may be reported here. Reporting institutions should agree such cases with the FSA before reporting on this basis. Physical positions should be weighted at 100%. Positions in different commodities should not be netted.

Deferred tax assets should be included in item A260.4.

A265 Assets consolidated via Aggregation Plus

When completing this return on a consolidated basis, which includes subsidiaries consolidated via aggregation plus (rather than on a line by line basis), the total assets of the subsidiaries consolidated in this manner should be reported in this box. Intra-group assets should be excluded.

A280-A330 MEMORANDUM ITEMS

A280 Connected lending of a capital nature

Report all connected lending of a capital nature and indicate, in the lines provided, in which weight band on the assets section of this return the lending has been reported. Also report both long term subordinated loans and one-off payments by the reporting institution to vehicles established for loan packaging schemes, where the reporting institution is the servicing agent (see Chapter SE (Securitisation and asset transfers) of the FSA Policy Guide/IPRU (BANK)). For the definition of a connected counterparty see SGN13.

Do not report loans to subsidiaries and associated companies where the loan has already been reported in item A160.

Any items included here should be excluded from total risk assets in the appropriate risk weight band in Section B (see note to item B330). If doubt exists as to the inclusion of an asset in this item refer to the FSA for guidance.

A290 Loans to directors, controllers and their associates

Directors, controllers, and their associates are as defined in sections 417, 178/180, and 422 of the Financial Services and Markets Act 2000 respectively (and in Section 105 of the Banking Act 1987 as amended by The Banking Co-ordination (Second Council Directive) Regulations 1992). Loans to employees of a reporting institution's parent undertaking should also be included here. Indicate, in the lines provided, in which weight band on the assets of this return the lending has been reported.

If a loan reported here is of a capital nature, it should be included additionally in item A280.

A300 Loans to non-group companies with which directors and controllers are associated

For the purposes of this item (refer to SGN12 and 13), include as a director/controller any employee of the reporting institution who is appointed by the reporting institution to be a director of another company.

Any employee of the reporting institution is deemed to be associated with another company, whether the company is registered or domiciled in the UK or overseas, if any of the conditions set out in SGN14 are met:

The definition should be consistent with that adopted for reporting on Form LE2.

Indicate, in the lines provided, in which weight band on the assets section of this return the lending has been reported.

If a loan reported here is of a capital nature, it should be included additionally in item A280.

A310 Direct credit substitutes give on behalf of connected counterparties.

For the definition of connected counterparties, see SGN13. Indicate, in the lines provided, in which weight band within item A340 the direct credit substitute has been reported.

A320 Investments in central governments and central banks (net short positions)

Report net short positions in central government and central bank securities. This should equal item A710.1 after allowing for any long positions in the same securities (see SGN27).

See SGN27 for the treatment of short positions in these securities taken on behalf of the reporting institution by related Gilt Edged Market Makers.

All positions after weighting shown here should be reported with a positive sign.

A330 Encumbered assets

List in these lines any assets not freely available to meet the claims of the generality of creditors in a liquidation of the reporting institution because they are subject to charge, pledge or other restriction.

Under item A330.1, list the assets and the item number (indicating whether in the Banking Book or Trading Book) within the return to which they refer, which have been given as security in connection with the reporting institution's participation in a payments/settlements system such as CREST or Euroclear. The particular payments/settlements system should be listed with the liabilities being secured at the reporting date recorded under column 1. For the purposes of detailing the total amount of assets securing liabilities, assets pledged in excess of the actual liability to individual systems at the reporting date should not be reported.

Under item A330.2, list the assets and the item number on the return to which they refer, which have been given as security to secure the reporting institution's other liabilities (for example, property which has been mortgaged and hire purchase agreements pledged as collateral). Assets reported should exclude any element of unearned finance charges.

Total liabilities being secured at the reporting date (item A330, column 1) should equal the sum of items A330.1 and A330.2 below. Total assets at the reporting date securing liabilities reported in column 1 (item A330, column 2) will not necessarily equal the sum of items A330.1 and A330.2 below as any asset which is securing more than one creditor should not be double counted in the total.

A335 Deduction plus subsidiaries

When completing this return on a consolidated basis, which includes subsidiaries consolidated via deduction plus, the total assets of the subsidiaries consolidated in this manner should be reported in this box.

OFF BALANCE SHEET

For off-balance items A340 to A440, the principal amount should be shown.

The credit equivalent amount for off-balance sheet items is derived by first multiplying the nominal/principal amount by the given credit conversion factor. The weighted amount column is then derived by multiplying the resultant credit equivalent amount by the appropriate risk weight or by deducting it from the reporting institution's capital base (see SGN15).

Intra group off-balance sheet items should be reported under the relevant item and weighted according to the terms in the Chapter CS (Consolidated supervision), Section 3, Paragraph 2a, of the FSA Policy Guide/IPRU (BANK).

Multi-option facilities and other composite products should be disaggregated into their component parts, eg into a credit commitment, NIF, etc, and each component weighted according to the usual classification. However, components carrying the lowest conversion factors should be disregarded to the extent that the total value of all components exceeds the value of the facility.

A340 Direct credit substitutes

Direct credit substitutes relate to the financial requirements of a counterparty, where the risk of loss to the reporting institution on the transaction is equivalent to a direct claim on the counterparty, ie the risk of loss depends on the creditworthiness of the counterparty. Report instruments such as:

- (a) acceptances granted and risk participations in bankers' acceptances. Where a reporting institution's own acceptances have been discounted by that institution the nominal value of the bills held should be deducted from the nominal amount of the bills issued under the facility and a corresponding on-balance sheet entry made:
- (b) guarantees given on behalf of customers to stand behind the current obligations of the customer and to carry out these obligations should the customers fail to do so, eg a loan guarantee;
- (c) guarantees of leasing operations;
- (d) guarantees of a capital nature such as undertakings given to non-bank company authorised under the Financial Services Act (being replaced by the Financial Services and Markets Act 2000) which are considered as capital by the appropriate regulatory body until the Financial Services and Markets Act 2000 applies. Such guarantees given to a company which is not connected to the reporting institution should be weighted at 100% and those to a connected company should be deducted from the reporting institution's capital base (item A340.6);
- (e) letters of credit not eligible for inclusion in item A360;
- (f) standby letters of credit, or other irrevocable obligations, serving as financial guarantees where the bank has an irrevocable obligation to pay a third party beneficiary if the customer fails to repay an outstanding commitment, eg letters of credit supporting the issue of commercial paper, delivery of merchandise, or for stock lending (standby letters of credit which are related to non-financial transactions should be reported in item A350 below);

- (g) re-insurance or window letters of credit;
- (h) acceptances drawn under letters of credit, or similar facilities where the acceptor does not have specific title to an identifiable underlying shipment of goods (eg sales of electricity);
- (i) confirmations of letters of credit.

Direct credit substitutes of a capital nature

Any direct credit substitutes which are of a capital nature and connected to the reporting institution or given to another bank should be reported in item A340.6 and will be deducted from capital in the calculation of the risk asset ratio.

Include:

- a) guarantees of other credit and financial institutions' capital instruments given by the reporting institution;
- b) guarantees given by the reporting institution which are included in the supervisory capital of another credit or financial institution eg the subordinated guarantee of loan stocks raised by vehicle company subsidiaries of the reporting institution, where the loan stock is treated as subordinated term debt of the reporting institution should not be included here. (The FSA may however agree that a different treatment is appropriate. Reporting institutions should discuss such cases with the FSA.)

A350 Transaction-related contingents

Transaction-related contingents relate to the on-going trading activities of a counterparty where the risk of loss to the reporting institution depends on the likelihood of a future event which is independent of the creditworthiness of the counterparty. They are essentially guarantees which support particular non-financial obligations rather than supporting customers' general financial obligations. Report such items as:

- (a) performance bonds, warranties and indemnities (indemnities given for lost share certificates or bills of lading and guarantees of the validity of papers rather than of payment under certain conditions should not be reported in this return);
- (b) bid or tender bonds;
- (c) advance payment guarantees;
- (d) VAT, customs and excise bonds. The amount recorded for such bonds should be the reporting institution's maximum liability (normally twice the monthly amount being guaranteed);
- (e) standby letters of credit relating to a particular contract or to non-financial transactions (including arrangements backing, inter alia, subcontractors' and suppliers' performance. labour and materials, contracts, and construction bids).

A360 Trade-related contingents

Report short-term, self liquidating trade-related items such as documentary letters of credit issued by the reporting institution which are, or are to be, collateralised by the underlying shipment, ie where the credit provides for the reporting institution to retain title to the underlying shipment. Such letters should be weighted according to the counterparty on whose behalf the credit is issued and reporting whether or not the terms and conditions of the credit have yet to be complied with.

Letters of credit issued by the reporting institution without provision for the reporting institution to retain title to the underlying shipment or where the title has passed from the reporting institution should be reported under direct credit substitutes (item A340). A memorandum of pledge and a trust receipt are not regarded as giving the reporting institution title, and transactions secured by these should be shown under item A340.

Letters of credit issued on behalf of a counterparty back-to back with letters of credit of which the counterparty is a beneficiary ("back-to-back" letters) should be reported in full.

Letters of credit advised by the reporting institution or for which the reporting institution is acting as reimbursement agent should not be reported.

A370 Sale and repurchase agreements

See SGN29.

Repos

Report sale and repurchase agreements ("repos"), ie when the reporting institution is the seller of the asset where the asset sold is not reported on the balance sheet. If the asset sold is kept on balance sheet it should not be reported here but in the relevant line in the on-balance sheet section of this return. When the asset does not appear on the balance sheet the weighting category is to be determined by the issuer of the security (or borrower in the case of a loan) and not according to the counterparty with whom the transaction has been entered into.

Purchase and resale agreements ("reverse repos") should not be reported in item A370; the liability under such reverse repos should be reported under item A720.

The reporting institution should refer to the FSA where it has a repo in item A370 and offsettable short stock positions on balance sheet in item A320 or A710.2 which would comply with the guidance for the netting of stock positions (see SGN27).

A380 Asset sales with recourse

Asset sales with recourse where the credit risk remains with the bank fall into the weighting category determined by the asset and not according to the counterparty with whom the transaction has been entered into. Report put options written where the holder of the asset is entitled to put the asset back to the reporting institution, eg if the credit quality deteriorates. Also report put options written by the reporting institution attached to marketable instruments or other physical assets.

A390 Forward asset purchases

The weight should be determined by the asset to be purchased, not the counterparty with whom the contract has been entered into. Include commitments for loans and other on-balance sheet items with certain drawdown. Exclude foreign currency spot deposits with value dates one or two working days after trade date.

A400 Forward forward deposits placed

Agreements between two parties whereby one will pay, and the other receive, an agreed rate of interest on a deposit to be placed by one with the other at some predetermined date in the future. Exclude foreign currency spot deposits with value dates one or two working days after trade date.

The weight should be determined according to the counterparty with whom the deposit will be placed.

A410 Uncalled partly-paid shares and securities

Only report if there is a specific date for the call on the unpaid part of the shares and securities held. If there is no specific date, the unpaid part should be treated as a long-term commitment (see item A440).

A420 NIFs and RUFs

Note issuance facilities and revolving underwriting facilities should include the total amounts of the reporting institution's underwriting obligations of any maturity. Where the facility has been drawn down by the borrower and the notes are held by anyone other than the reporting institution, the underwriting obligation should continue to be reported at the full nominal amount.

The reporting institution's own holding of the notes should be reported in items A50 to A110 and therefore the nominal amount of the notes held should be deducted from the nominal amount of the facility to be shown here.

A430 Endorsements of bills

Endorsements of bills (including per aval endorsements) should be reported at the full nominal amount, less any amount for bills which the reporting institution now holds but had previously endorsed.

Where the reporting institution is the first endorser of a bill which has been accepted by a bank other than the reporting bank, such endorsements should be reported in item A430.1. (Where a reporting institution has endorsed its own acceptances no further amount should be reported than the acceptance reported in item A340.) If the reporting institution is not the first endorser of a bill already accepted by a bank, such endorsements may not be reported.

Endorsements of bills which have not been accepted by a bank should be reported in items A430.2 to A430.4 according to the risk weight category of the issuer; where such a bill has been previously endorsed by a bank, the reporting institution's endorsement will justify a 20% weight. Endorsements of bills which have been previously endorsed by two or more banks may not be reported.

A440 Other commitments

Report here other undrawn commitments, classified as to whether:

- (i) they have an original maturity of one year or less or are unconditionally cancellable at any time (item A440.1); or
- (ii) they have an original maturity of over one year (items A440.2 to A440.7) and are not unconditionally cancellable at any time.

The reporting institution is regarded by the FSA as having a commitment regardless of whether it is revocable or irrevocable, conditional or unconditional and, in particular whether or not it contains a "material adverse change" clause.

Rolling or undated/open-ended commitments ("evergreens" and including overdrafts) should be included under (i) providing that they are unconditionally cancellable at any time without notice and subject to credit review at least annually. Other rolling or undated commitments should normally be reported under (ii) (but see (b) below).

Unused credit card lines should be reported under (i).

Securities underwriting

Securities underwriting commitments should not be reported on this return, with the exception of NIFs and RUFs (item A420).

Commitments to provide capital to connected counterparties (and other banks)

Amounts reported under item A440.7 should be multiplied by the 50% credit conversion factor before entering, so that an appropriately reduced amount is carried through to Section D (item D420). If, however, the item would normally attract a credit conversion factor of 0% for the reasons above, it should continue to be reported under item A440.1.

Commitments with certain drawdown

Commitments for loans and other on-balance sheet items with certain drawdown should not be reported here but under item A390.

The maturity of a commitment

See SGN8 for general guidance on maturity. The maturity of a commitment should be determined in accordance with the following:

(a) *Original maturity*

The maturity of a commitment should be measured from the earlier of (i) thirty days (sixty days in the case of syndicated facilities) following the date of 'firm offer' or (ii) the date at which the facility becomes available to be drawn down, until its expiry date, after which the facility is no longer available to be drawn down.

The date of 'firm offer' will often be earlier than the date of signature of the agreement to provide a facility. For example, a 'firm offer' may still be subject to documentation and material adverse change. However, if an offer is made prior to the credit assessment of the customer and/or the institution reserves the right to withdraw the offer at its discretion, this should not be regarded as firm. In the case of a non-underwritten (or best efforts) syndicated facility, the date of 'firm offer' is deemed to be that on which the arranger(s) confirms to the potential borrower that the facility is fully subscribed. Where an institution(s) underwrites a facility which is subsequently to be syndicated (notwithstanding the fact that the offer to underwrite may be subject to documentation and 'force majeure' clauses), it should measure its commitment from the date of its 'firm offer'. However, if the subsequent syndication is 'successful', the underwriter(s) may then measure its commitment afresh from the same date as the syndicate banks ie the earlier of 60 days after the date on which the underwriter(s) confirms to the borrower the results of general syndication or the date at which the facility becomes available for draw down. Syndication of an underwritten commitment is deemed to be 'successful' if, after the close of syndication, the underwriter(s) is not left with more than:

- (i) any specified target amount (in circumstances where such a precise target has been set and advised to the bank); or
- (ii) 50% of the total underwritten amount.

The thirty day (sixty day in the case of syndicated facilities) 'window' is intended to be a reasonable period after the date of firm offer during which the practicalities of arranging a facility (eg finalising documentation) can be completed.

Even if the formal agreement to provide the facility indicates an original maturity of one year or under, a commitment should be reported as having an original maturity of over one year if the reporting institution assumes additional legal or moral obligations which imply a maturity of over one year. Reporting institutions should satisfy themselves that no such additional obligations exist.

Examples of facilities with such obligations include, but are not limited to:-

- (i) facilities with provisions for extension in the documentation, other than in accordance with (b)(i) or (ii) below;
- (ii) facilities which the customer reasonably expects to be extended automatically; and
- (iii) facilities on terms which may be used to penalise an institution if it declines to extend a commitment in accordance with (b)(i) below; eg for the remaining period of the commitment the customer has the right to make drawings of a longer maturity or on otherwise better terms than if the institution had not declined to extend; or, in a syndicated facility where the borrower is able to draw on the institution individually before the other syndicate banks (up to the limit of its commitment) for the remaining period of the facility.

(b) *Extensions/renegotiations of commitments prior to their expiry date*

In cases where the terms of a commitment have been renegotiated and/or the maturity of a commitment extended, the original maturity should be measured from the start of the initial commitment (see (a) above) until the expiry date of the renegotiated/extended facility. The only exceptions should be where either:

- (i) the 'firm offer' to extend the commitment is given in the final thirty days (sixty days in the case of syndicated facilities) of the initial commitment period, following a full credit assessment of the customer; or
- (ii) the renegotiation/extension involves a full credit assessment of the customer and the reporting institution has the right, without notice, to withdraw the existing commitment at the time when the renegotiation/extension is requested and to refuse the request for the renegotiated/extended commitment.

In these two cases the extended/renegotiated facility may be reported as a new commitment. This applies equally to extensions/renegotiations of facilities of one year and under and facilities of over one year. Again the thirty day (sixty day for syndicated facilities) 'window' is considered a reasonable period after the date of firm offer in which the practicalities of extending a facility (eg finding replacement banks in a syndicate) can be completed. Reporting institutions should note that completion of new documentation may not be sufficient to cause a facility to be considered as a new commitment.

(c) *A commitment to provide a loan (or purchase an asset) which has a maturity of over one year but which must be drawn down within a period of one year or under.*

Such commitments should be treated as having a maturity of one year or under provided any undrawn portion of the facility is automatically cancelled at the end of the draw-down period.

(d) *A commitment to provide a loan (or purchase an asset) to be drawn down in a number of tranches, some where the availability of the commitment is one year or under, some where it is over one year.*

The whole commitment should be considered as having a maturity of over one year.

(e) *Commitments for fluctuating amounts*

Where a commitment provides for a customer to have a facility limit which varies during the period of the commitment, eg for seasonal reasons, the amount of the commitment should at all times be taken as the maximum amount that can be drawn under the commitment for the remaining period of the commitment.

(f) *Forward commitments*

A forward commitment is where the reporting institution is committed to making a facility available at a future date. The original maturity of the commitment should be measured from the earlier of

- (i) thirty days following the date of 'firm offer' or
- (ii) the date at which the facility is available to be drawn down, until the facility expires.

(g) *Commitments for off-balance sheet transactions*

A distinction is drawn between a commitment to provide an off-balance sheet facility which may or may not be drawn by the customer, and a commitment to provide an off-balance sheet instrument with certain draw-down. For example:

- (i) a commitment of over one year to provide a trade related contingent facility at a future date which may or may not be drawn down should be given a credit conversion factor (ccf) of 50% (the ccf for long-term commitments) multiplied by 20% (the ccf for trade-related contingents), ie an effective ccf of 10%; report 20% of the principal amount in the relevant section in item A440, depending on the counterparty weight. Similarly, a long-term commitment to provide a guarantee facility would receive a ccf of 50% multiplied by 100%, ie an effective ccf of 50%; report 100% of the principal amount in the relevant section of item A440; but
- (ii) a commitment (short-term or long-term) to provide a trade-related contingent item where it is certain that the draw-down will occur at some date, or range of dates, in the future should be given a ccf of 20% (ie without multiplying by the relevant ccf for a commitment) and reported in the relevant section of item A360. Similarly, a commitment to issue a guarantee with certain draw-down at a particular date, or range of dates, in the future should receive a ccf of 100% and be reported under item A340.

(h) *'Linked' commitments*

Two or more commitments may be regarded as 'linked' if they are arranged simultaneously for the same or connected customer(s). Where a reporting institution enters into one or more commitment(s) of over one year and one or more commitment(s) of one year and under, these should be reported as 'linked' (ie aggregated and reported according to the maturity of the longer/longest of the commitments) where either:

- (i) the facilities cannot be drawn down, renegotiated or cancelled separately; or
- (ii) the customer is seeking two or more commitments for the same purpose and has no legitimate commercial reason for doing so.

Where a reporting institution enters into 'linked' commitments which begin and/or mature at different dates, the maturity of the combined commitment should be measured from the commencement of the first commitment (as set out in section (a) above) to the expiry date of the last commitment. For example, where one 'linked' commitment runs from January to January and another runs from June to June, the institution would report a single commitment of over one year (ie ccf of 50%) running from January to June.

A452 OTC Derivative Contracts (replacement cost method)

This item gives the capital requirement for counterparty risk on OTC derivatives contracts under the replacement cost method. It equals the Weighted Amount in item 60 of Appendix A-I.

Note the general comments for Appendices A-I and A-II on what appendices should be completed.

A462 Aggregate net short open foreign currency position

Reporting institutions which also complete Section B should not report a number in this item, as the capital requirement for foreign exchange risk should be calculated via item B180. All other reporting institutions should complete this item. The figure reported here should have a positive sign.

The aggregate net short position (net foreign exchange position) should be calculated in accordance with Chapter FX (Foreign exchange risk), Section 3, of the FSA Policy Guide/IPRU (BANK) as relevant. The amount reported in item A462 should be equal to $Y+g$ in the notation of Chapter FX (Foreign exchange risk), Section 4.4, of the FSA Policy Guide/IPRU (BANK). However, where fx options business is undertaken, the following adjustments should be made:

- (1) where the simple carve-out method is used, the options capital charges should be multiplied by 12.5 and added to the net short position, so that the amount reported in item A462 is equal to $Y+g+12.5*(C+D)$ in the notation of Chapter FX (Foreign exchange risk), Section 4.4, of the FSA Policy Guide/IPRU (BANK).
- (2) where one of the write-off methods is used, the options should not be included in the calculation of the net short position.
- (3) where one of the other options methods are used, banks should consult their supervisor.

Institutions whose net open position calculated according to Chapter FX (Foreign exchange risk), Section 3, of the FSA Policy Guide/IPRU (BANK) is less than or equal to 2% of previous period's Large Exposures Capital Base may alternatively calculate their net open position as the difference between the value of foreign currency assets and the value of foreign currency liabilities (regardless of whether the result is long or short), on a consistent basis.

The basic method should be used to calculate foreign exchange risk unless the reporting institution is using a VaR model.

A472 & A474 Original exposure method

The original exposure method is not considered to be appropriate after end March 1999. The replacement cost method should be used to calculate the counterparty risk on OTC derivative contracts. Consequently, these boxes should contain zeros in future.

LIABILITIES

CORE CAPITAL - TIER 1

A480 Ordinary shares/common stock

This should be reported at nominal paid-up value; where shares have been issued at a premium, the premium should be reported under reserves (item A500.1). Partly-paid shares should be reported at the amount paid. Do not report the unpaid element of partly-paid shares, or authorised but unissued share capital; also exclude holdings by the reporting institution of its own shares and shares issued after 1 January 1992 by the capitalisation of property revaluation reserves.

A490 Perpetual non-cumulative preferred shares/stock

Report perpetual non-cumulative preferred shares/stock and perpetual non-cumulative preferred shares convertible into ordinary shares, including any such shares redeemable at the option of the issuer and with the prior consent of the FSA. Only shares which have been issued and paid up should be reported.

Preferred shares issued via limited purpose vehicles may be included here. Reporting institutions should obtain the agreement of the FSA before doing this.

A500 Reserves

A500.1 Share premium account

Report any amount received by the reporting institution in excess of the nominal value of shares reported in items A480 or A490. Any share premium in respect of Tier 2 instruments should be reported indistinguishably with those instruments.

A500.2 Disclosed prior years reserves (excluding item A580), disclosed current year's positive movement on reserves and negative movements on reserves

Report the disclosed, undistributed balance on profit and loss account attributable to previous years (ie revenue reserves), reserves arising from exchange rate translation differences and other reserves (eg capital redemption reserves and capital gifts). Do not report reserves arising from the revaluation of fixed assets; such reserves should be shown under item A580. Report here any adjustment in respect of dividends which are not covered by current year's profit verified by external audit.

Before publication of full year prior year reserves, include here any prior year's earnings which have been verified by external auditors in accordance with Chapter CA (Definition of capital), Section 5.3, of the FSA Policy Guide/IPRU (BANK).

Report here disclosed (ie published) current year's positive movement on reserves (other than those shown under item A580). If current year's movements on reserves are negative report these here (whether or not disclosed).

A500.3 Current year's retained profit verified by external audit

Report only current year's earnings (net of foreseeable charges) where they have been verified by external auditors (in accordance with Chapter CA (Definition of capital), Section 5.3, of the FSA Policy Guide/IPRU (BANK)) at the date the return is submitted to the FSA. However, if this verification took place **after** the date to which the return relates, the FSA should be alerted to this fact when the return is submitted. No deduction need be made for dividends that have not been announced by the reporting date. Interim retained earnings of subsidiaries within banking groups which have been verified by external auditors may also be reported even if they are not separately disclosed. Current year's profit that has not been verified by external audit should be reported in item A670. Current's year's losses should be reported in item A510.

If dividends paid or proposed before the reporting date exceed verified earnings, then that excess should be deducted from item A500.2 and '0' should be reported here.

Pension fund assets arising from either a pension fund surplus or deficiency should be deducted from this item. Pension fund liabilities arising from pension fund surpluses should be added; whereas pension fund liabilities arising from pension fund deficiencies should not be added back but should be added to item A760.2.

A510 Current year's losses

Report all current year's losses. Unpublished losses from the previous accounting period should also be shown here.

Where the reporting institution has verified its position, in accordance with Chapter CA (Definition of capital), Section 5.3, of the FSA Policy Guide/IPRU (BANK), up to an earlier reporting date, subsequent unverified profits do not reduce the loss reported here, but should instead be reported in item A670.

A520 Minority interests (in Tier 1 capital)

Where the reporting institution reports on a solo consolidated or consolidated basis, enter the claim by outside interests in Tier 1 capital items (see items A480 and A490) of any partly-owned subsidiary company or minority owned company which is included in this particular return.

A530 Total of items 480 to 520

This should equal the sum of items A480 to A520, taking account of any negative figures, ie those with a **minus sign**.

A540 Goodwill, other intangible assets and other adjustment

This should equal the sum of items A200 and A210.2. Include here the deduction for holdings of own shares not held for trading but which have not been excluded in item A480.

A550 Total Tier 1 capital

Tier 1 capital equals item A530 less any amounts reported in item A540.

SUPPLEMENTARY - TIER 2

A580 Fixed asset revaluation reserves

Report reserves relating to the revaluation of fixed assets. Report also shares issued by the capitalisation of property revaluation reserves after 1 January 1992.

A590 General provisions

Report general provisions that are held against possible or latent losses but where the losses have not as yet been identified. Provisions earmarked or held specifically against lower valuations of particular claims or classes of claims should not be reported here, but netted against the value of the asset against which they have been made (see SGN6). This item should include any general provisions against the value of investments.

A600 Hybrid (debt/equity) capital instruments

Report:

- (i) Perpetual cumulative preferred shares, including such shares redeemable at the option of the issuer with the prior consent of the FSA, and including also share premia on these instruments;
- (ii) Perpetual subordinated debt which meets the conditions for primary perpetual subordinated debt set out in Chapter CA (Definition of capital), Sections 6 and 8, of the FSA Policy Guide/IPRU (BANK), including such debt which is convertible into equity, either mandatorily or at the option of either the issuer or lender.

A610 Subordinated term debt

Report here the amount of subordinated term debt (ie the amount of principal outstanding before amortisation) which has been approved by the FSA as qualifying for inclusion in Tier 2 capital under the terms of Chapter CA (Definition of capital), Sections 7 and 8, of the FSA Policy Guide/IPRU (BANK) (see item A790). This item should equal the sum of items A790.21 column "Sterling equivalent", A790.22 column "Sterling equivalent" and A790.1.

A620 Minority interests in Tier 2 capital

Where the reporting institution reports on a solo consolidated or consolidated basis, enter the claim by outside interests in any partly-owned subsidiary or minority owned company in the form of any Tier 2 capital term.

ADJUSTMENT TO CAPITAL (see ANNEX 1 for details of calculation)

A621 Excess general provisions

The maximum amount allowable for inclusion in Tier 2 capital is 1.25% of total risk weighted assets. This item equals the greater of item (A590 less total risk weighted assets multiplied by 1.25%) and zero.

A622 Excess Tier 2 subordinated term debt

The maximum amount of Tier 2 subordinated term debt that qualifies for inclusion as capital is 50% of Tier 1 capital. Report here the subordinated term debt which exceeds the limit on Tier 2 subordinated term debt. This item equals the greater of (item A790 **less** 50% of A550) and zero.

Subordinated term debt that does not qualify for inclusion as capital (under the terms of Chapter CA (Definition of capital), Sections 7 and 8, of the FSA Policy Guide/IPRU (BANK)) should be reported in item A670.

A623 Amortisation on Tier 2 subordinated term debt

Report here the difference between the nominal amount of the stock and the amortised amount (ie item A610 **less** A790).

A624 Total of items A580 to A623

This equals the sum of items A580 to A620 **less** the sum of items A621 to A623.

A625 Tier 2 capital in excess of the overall limit / Excess Tier 2 capital

The maximum amount (ie the overall limit at the consolidated level, or the solo level when a bank is not part of a consolidated group) of Tier 2 (or Tier 2 plus Tier 3 for institutions that are subject to CAD capital requirements) which is eligible for inclusion as capital is 100% of Tier 1 capital. Where the reporting institution is exempt from the Capital Adequacy Directive capital requirements at the reporting date (see Chapter CB (Trading book/banking book division), Section 4, of the FSA Policy Guide/IPRU (BANK) for details of exemption), the amount by which Tier 2 capital exceeds Tier 1 capital overall should be reported here (ie it equals the greater of zero and (item A624 **less** item A550)).

Where the reporting institution is subject to CAD capital requirement, the excess (Tier 2 plus Tier 3) capital which is not eligible for inclusion as capital equals the greater of (the sum of items A624, A631 and A633 **less** item A550) and zero. Tier 2 capital plus Tier 3 subordinated debt used to meet the Trading Book capital requirement is limited to 200% of Tier 1 capital used to meet those requirements. Tier 3 subordinated debt should first be designated as excess capital, if any excess capital remains when Tier 3 subordinated debt has been used up, then Tier 2 capital should be designated as being excess capital.

A630 Total eligible Tier 2 capital

This is item A624 **less** A625.

TRADING BOOK CAPITAL - TIER 3

A631 Short term subordinated debt

Report short term subordinated debt which has been approved by the FSA as qualifying for inclusion in Tier 3 capital detailed in Chapter CA (Definition of capital), Section 9.2, of the FSA Policy Guide/IPRU (BANK).

A633 Minority Interests (in short term subordinated debt)

Where the reporting institution reports on a solo consolidated or consolidated basis, enter the claim by outside interests in any partly owned subsidiary or minority owned company in the form of Tier 3 capital.

ADJUSTMENT TO CAPITAL (see ANNEX 1 for details of calculation)

A635 Excess Tier 3 debt

The overall limit on (Tier 2 plus Tier 3) capital which is eligible for inclusion as capital is 100% of Tier 1 capital. Excess (Tier 2 plus Tier 3) capital equals the greater of (the sum of items A624, A631 and A633 less item A550) and zero. Tier 3 subordinated debt should first be designated as excess capital, if any excess capital remains when Tier 3 subordinated debt has been used up, then Tier 2 capital should be designated as being excess capital. Report here the amount of Tier 3 capital which exceeds the overall limit.

A638 Total eligible Tier 3 Capital

Eligible Tier 3 capital is limited to 200% of Tier 1 capital left over after supporting the Banking Book capital requirements. Report Tier 3 capital not eligible for inclusion in item A635. This item equals the sum of items A631 and A633 less item A635.

OTHER CAPITAL

A660 Ineligible Tier 2 and Tier 3 capital

This is the capital which has been deducted from Tier 2 and Tier 3 capital as being not eligible for inclusion as capital. This item equals the sum of items A621 to A623, A625 and A635.

A670 Other capital

Report preference shares, perpetual loan stocks and subordinated term debt not accepted by FSA as qualifying for inclusion as capital within the terms of Chapter CA (Definition of capital), Sections 6-8, of the FSA Policy Guide/IPRU (BANK).

Also report working capital provided by a non-resident office of the reporting institution.

Report current year's profits which have not been verified by external audit in accordance with Chapter CA (Definition of capital), Section 5.3, of the FSA Policy Guide/IPRU (BANK) and also any undisclosed profits relating to the previous year which have not been so verified.

OTHER NON-CAPITAL LIABILITIES

A680 Own bank notes issued

Bank notes in circulation, ie the reporting institution's issue of notes less any own notes held.

A700 Marketable securities issued:

A700.1 Certificates of deposit

Report all certificates of deposit issued by the reporting institution, whether at fixed or floating rates, and still outstanding. Also report negotiable deposits taken on terms in all respects identical to those on which a certificate of deposit would have been issued, but for which it has been mutually convenient not to have issued certificates. If a reporting institution holds certificates of deposits which it has itself issued, these should not be reported in this return.

A700.2 Promissory notes and bills

Report promissory notes, bills and other negotiable paper issued (including commercial paper) by the reporting institution including bills drawn under an acceptance credit facility provided by another institution.

A700.3 Unsubordinated FRNs and other long term paper

Report unsubordinated FRNs and other unsubordinated market instruments issued. Subordinated capital market instruments should be reported under item A610 or A631 as appropriate.

A710 Investments (short positions)

See SGN27. Do not use brackets in the weighted amount column.

Report gross short positions in securities issued by central governments and central banks under item A710.1 and gross short positions in other investments under item A710.2.

A720 Liabilities in respect of sale and repurchase agreements

See SGN29.

This entry applies to sale and repurchase agreements associated with reverse repos. Where the reporting institution reports assets reversed in on the balance sheet, the liability under such agreements should be reported here.

A730 Tax provisions

Deferred tax assets should be reported as an asset in item A260.4.

A750 Other provisions

Report provisions made other than those reported above (items A590, A730 and A740). Specific provisions (see SGN6) should also be excluded from this item, except where they have been created in respect of off-balance sheet items.

A760 Other

Report credit items in the course of transmission and items in suspense (including credit items in the course of settlement, to be shown separately in item A760.1).

Also report all internal accounts and other liabilities not reported elsewhere, eg sundry creditors and liabilities under finance leases.

Include net short positions in physical commodities where the FSA has agreed that commodity transactions may be included in the Banking Book.

Include also liabilities arising in respect of pension scheme deficiencies; those arising in respect of a pension fund surplus should be included under item A500.3.

A765 Non capital liabilities consolidated via aggregation plus

When completing this return on a consolidated basis which includes subsidiaries consolidated via aggregation plus, rather than on a line by line basis, the total liabilities of those subsidiaries should be reported here. Intra group capital and liabilities should be excluded.

A770 Total liabilities

This is the sum of items A530, A630 and A638 to A765. It should equal item A270.

A780-A790 MEMORANDUM ITEMS

A780 Deposits from connected customers

Connected customers are defined as other group companies (excluding those companies which are included in the consolidation of this particular return), directors, controllers and their associates, and non-group companies with which directors and controllers are associated as set down in items A290 and A300, and SGN12 and SGN13.

A790 Subordinated term debt

Only the issues of subordinated term debt which the FSA has agreed qualify for inclusion in Tier 2 capital under the terms of Chapter CA (Definition of capital), Sections 7 and 8, of the FSA Policy Guide/IPRU (BANK) should be reported here.

Report under item A790.1 only convertible subordinated term bonds which are mandatorily convertible into equity (but see item A600 for treatment of convertible subordinated perpetual debt). Subordinated bonds which are convertible into equity at either the issuer's or investors' option (where these bonds are not eligible for inclusion in item A600) should be reported under item A790.2.

Dated preference shares and subordinated, unsecured loan stocks of over 5 years' original maturity issued by the reporting institution should be shown after amortisation in item A790.2. The amount shown in item A790.2 should be further divided between items A790.21 and A790.22 as necessary in the relevant sub-total boxes. The amount of principal outstanding before amortisation should also be entered in the sub-total boxes in the "amount" column in the currency of repayment, which should be entered in the "currency" column. The "sterling equivalent" is then this amount converted to sterling at the current exchange rate for the currency concerned on the day of the report unless, via a subordinated swap or some other hedging mechanism that is an integral part of the original preference share or subordinated loan stock agreement, the exchange rate has effectively been fixed - in which case that fixed rate may with be used. The reporting institution should obtain the FSA's agreement before doing this.

Individual stocks which are repayable in full on maturity should be listed in item A790.21 in lines a to e. Where there are more than five stocks issued (ie a to e) annotate the form "see attached list" in this section and attach a full list of such stocks. The amounts to be reported after amortisation are shown below and relate to the period between the date of the return and maturity date:

<u>Years to maturity</u>	<u>Amortised amount</u>
more than 4	100% of nominal
less than and including 4 but more than 3	80% of nominal
less than and including 3 but more than 2	60% of nominal
less than and including 2 but more than 1	40% of nominal
less than and including 1	20% of nominal

The amount of subordinated, unsecured loan stock should be multiplied by the amortisation values shown above. In the case of optional repayment dates the longest date should be used to determine the final maturity if the exercise of the option lies with the issuer, and the shortest date if with investors.

Report in item A790.22 in lines a to h the original outstanding value of individual stocks which are repayable in instalments. Where banks have more than 10 such holdings, they may aggregate the smallest holdings (by value) and record the total under A190.21j and A790.22j. The amortised amount shown should be agreed with the FSA.

APPENDICES A-I & A-II

For those reporting institutions that also complete Section B, Appendices A-I and A-II should include only those contracts that fall within the Banking Book. Contracts within the Trading Book should be reported in Section B. Reporting institutions which do not complete Section B should give details of all their interest rate, exchange rate, equity, commodity and precious metal related contracts in these appendices.

Swaps attached to loans and bonds.

Under certain conditions the risk attached to a floating (or fixed) rate loan/bond and a linked interest rate or currency swaps may be equivalent to a fixed (or floating) rate loan. In this case the swap need not be reported providing the following conditions are met;

- (i) the swap and loan should have matching obligations (ie identical interest periods);
- (ii) the swap and loan should be explicitly linked such that if the counterparty defaults under the loan or swap, or goes into liquidation, all payments under the swap agreement cease and the loan becomes immediately repayable;
- (iii) netting or floating (or fixed) rate payments on the loan and the swap should meet all the existing (or future) on-balance sheet netting criteria (see SGN26).

Appx A-I Counterparty exposure on OTC derivative contracts-Replacement Cost Method

The credit equivalent amount is the sum of the replacement cost and the potential future credit exposure. The weighted amount is the product of the credit equivalent amount and the risk weight. Claims in respect of foreign exchange contracts with original maturity of 14 days or less should not be reported on this Appendix. Futures and options should not be reported on this Appendix if the contracts concerned are traded on exchanges subject to daily margining requirements.

All exposures in this section should be reported gross, unless they are netted by novation or the terms set out in Chapter NE (Collateral and netting), Sections 5-8, of the FSA Policy Guide/IPRU (BANK) have been met.

Note that Appendix A-I will not agree with Appendix A-II, since Appendix A-II is completed on a gross basis and also includes exchange traded items.

Replacement Cost

See SGN34 for guidance more generally. Only contracts with a positive mark-to-market value should be reported under this heading (however, institutions should record a potential future credit exposure in respect of all OTC derivative contracts that might in the future have a positive mark-to-market value). All contracts with a positive mark-to-market value should be reported in Appendix I (unless netting is consistent with Chapter NE (Collateral and netting), Sections 5-8, of the FSA Policy Guide/IPRU (BANK)). The overall net positive mark-to-market value should be allocated to the 0% band in the on-balance sheet section of the form (see item A260).

Potential Future Credit Exposure

Potential FCE should be calculated in accordance with the guidance set out in SGN34.

Net reporting of Replacement Cost

Where the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) have been met then, on a bilateral basis (ie for each counterparty), the net replacement cost of nettable contracts may be reported (see SGN26 and SGN35).

Net Reporting of Potential Future Credit Exposure

The netting of add-ons is possible provided the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) have been met. (See SGN26 and SGN35.)

Forward FX Contracts undertaken through Multilateral Netting Schemes

The credit equivalent amount for a reporting institution using a multilateral netting scheme should also be reported in Appendix I as outlined in SGN35.

Appendix A-II: Supplementary Information On Derivative Contracts

Replacement Cost Method

This section should be completed on a gross basis, even where legally enforceable netting agreements are in place, and is used for general supervisory information. As a result, this section will not necessarily reconcile with the previous section. All contracts (ie those with positive, negative and zero mark to market values) should be reported under the heading 'Notional Principal Amounts by Residual Maturity'.

Reporting institutions' exposure to OTC contracts should be reported by the relevant product and counterparty type. Their exposure to exchange traded contracts should be reported by product type only.

Reporting institutions should include their exposures arising from options with their other contracts, but should also identify them separately as a memo item. Within the memo item on options, those which are exchange traded should be separately identified from those originating from the OTC market.

Interest Rate Contracts

Report single currency interest rate swaps, basis swaps, forward rate agreements and products with similar characteristics, interest rate futures, interest rate options purchased and written (including caps, collars and floors purchased as stand-alone contracts), forward purchases and sales of bonds, and similar instruments. Bond futures and bond options purchased and written should also be reported here.

Foreign Exchange Contracts

Only exchange rate contracts of over 14 days original maturity (excluding a settlement period of up to 2 days) should be reported. Foreign exchange contracts with a shorter original maturity do not require regulatory capital for counterparty risk (but do require capital for market risk).

Report cross currency swaps, cross currency interest rate swaps (the exchange of principal on such swaps should be excluded from the on-balance sheet section of this return), outright forward foreign exchange contracts, currency futures, currency options purchased and written and similar instruments. Contracts based on gold should be included here.

For the reporting of SAFEs (synthetic agreements for forward exchange), ERAs should be treated as interest rate instruments; FXAs may also qualify for interest rate add-ons unless the notional principal amounts for the first (front-end) and second (back-end) contracts differ by more than 10%, in which event the lower amount should be treated as the notional principal for the interest rate contract and the difference in the contract amounts should attract the exchange rate add-ons.

Equity Contracts

Equity options purchased and written, forward purchases and sales of equities, and equity futures should also be reported here.

Commodity Contracts

All positions in respect physical commodities and derivative positions relating to commodities should be reported in the Trading Book for CAD banks. The reporting institution may agree with the FSA a different reporting treatment.

Precious Metals Contracts

All positions in respect of physical amounts of precious metals (not gold) and derivative positions relating to precious metals (other than gold) should be reported in the Trading Book for CAD banks. The reporting institution may agree with the FSA a different reporting treatment.

Notional principal amounts by maturity

The notional principal amount for each contract should be reported in these items, regardless of whether it is matched by another contract or whether it has a positive mark to market value. This section should include all derivative contracts to which the reporting institution is party, including options written and purchased (see SGN35 for more detail generally).

For exchange traded contracts, margins paid to exchanges should be separately identified and reported on the counterparty risk section of Sections A and B. The value of the underlying contracts should be reported here.

Remaining maturity

The remaining maturity of a swap should be taken as the time until final expiry of the swap. For FRAs and similar products, the remaining maturity should be taken as the time from the reporting date until the end of the period to which the interest rate underlying the contract relates (see SGN35 for more detail generally).

APPENDIX A-III: EXPOSURES COLLATERALISED/GUARANTEED/NETTED

When exposures being netted for the calculation of counterparty risk all fall in the Banking Book, the net exposure should be reported as a risk in Section A (in the Banking Book column). Similarly if all exposures fall in the Trading Book, the net exposure should be reported as a risk in the Trading book (in Section B, with a corresponding entry in the Trading Book column in Section A). If the exposures are divided between both Banking and Trading Book, the net amount should be reported as a risk in the Trading Book in Section B. As soon as a counterparty ceases to be a counterparty to an exposure in the Trading Book, the net amount should be considered to be in the Banking Book.

The residual netted amount should be reported in the relevant risk weighting band for counterparty risk. But see SGN5. If the statutory accounting treatment is gross but the terms of Chapter NE (Collateral and netting) of the FSA's Policy Guide/IPRU (BANK) have been met, and the FSA has agreed netting is appropriate for the Trading Book (Section B) reporting purposes, those exposures netted out should be reported in the zero percent band in the relevant asset category. The adjustments made by the reporting institution to the Trading Book (Section B) in respect of netted exposures should be shown additionally in Appendix B-X.

The above treatment should be applied to netting of on balance sheet exposures, the netting of the replacement cost of off balance sheet exposures and any netting of the potential future credit exposure (add-on).

APPENDIX A-IV - CURRENT YEAR'S PROFIT & LOSS ACCOUNT

This appendix covers the reporting institution's profit & loss account for the current financial year up to the reporting date. For those reporting institutions which have elected to report at dates which do not coincide with their financial year end, this appendix should be completed as at their last management accounts. In such instances, the specific period and relevant quarter covered should be inserted in the space and box provided.

INCOME

10 & 20 Interest received and receivable/interest paid and payable

Include under these headings both interest actually received and paid, and interest receivable and payable which has accrued but has not yet been received or paid. Amounts accrued should be based on the latest date to which these calculations were made; thus for an institution which accrues profits on a daily basis, accruals should include amounts up to and including the reporting date. Also include under this heading income accrued in respect of the amortisation of discounts (and premiums) on the purchase of fixed maturity investments which are not held for dealing (eg Treasury Bills).

30 Net interest income

Show under this heading the net interest received and receivable (ie item 10 less item 20). Where interest paid any payable exceeds interest received and receivable the net figures should be shown with a minus sign (not brackets) to indicate a negative figure.

40 Profit/(loss) on foreign exchange dealing

Revelations of foreign exchange positions and, if identifiable, fees and commissions of foreign exchange business should be included under this heading. If it is not possible to identify fees and commissions derived from this activity separately, they should be included with other fees and commissions in item 70.

A net loss should be shown with a minus sign (not brackets) to indicate a negative figure.

Where the reporting institution is engaged in deposit swap dealing (also sometimes known as interest arbitrage dealing) and does not distinguish between profits and losses on the foreign exchange element of the transaction and the interest differential, the whole transaction should be shown under items 10 to 30; a deposit swap profit should be treated as income (item 10) and a loss as an expense (item 20).

50 Profit/(loss) on investments held for dealing

Include all profits or losses (including revaluation profits or losses) other than those arising from the sale of investments in subsidiary or associated companies, trade investments or the amortisation of premiums or discounts on the purchase of fixed maturity investments which are not held for dealing.

70 Income from fees and commissions

Include charges made for services provided by the reporting institution, eg for the provision current account facilities, corporate advice, investment management and trustee services, guarantees and indemnities, commission on the sale of insurance of travellers cheques etc. Only include fees and commissions from customers for the provision of foreign exchange services if they cannot be separately identified and included under item 40.

80 Dividends/share of profits from subsidiary and associated companies

Reporting institutions reporting on an unconsolidated basis should include the dividends from other group companies only, together with the revaluation of any investment in subsidiaries or associates if equity accounting; those reporting on a consolidated basis should include only the share of profits from associated companies according to the normal convention of accounting as currently set out in Financial Reporting Standard 9, "Accounting for the Results of Associated Entities".

90 Profit/(loss) on fixed assets (including revaluation)

Include the profit or loss on the sale of non-trading assets of the reporting institution, eg premises, equipment, subsidiary and associated companies and trade investments. In respect of revaluation surpluses/deficits, reporting institutions should follow normal accounting practice: amounts in respect of surpluses/deficits normally taken to the profit and loss account, eg movements in provisions against trade investments, should be included in this item; amounts normally taken direct to reserves should not be included here.

100 Other income

Include under this heading income from any other source (other than extraordinary items which should be included under item 200).

EXPENSES

Operation expenses

110 Staff

Include salary costs, employer's national insurance contributions, the employer's contribution to any pension scheme, and the costs of staff benefits paid on a per capita basis such as private medical insurance and luncheon vouchers; general staff benefits, such as subsidised restaurants, should be included under "occupancy" (item 120) or "other" (item 130) as appropriate.

120 Occupancy

Include rates, rent, insurance of building, lighting, heating, depreciation and maintenance costs.

130 Other

This comprises all other expenditure.

140 Net charge/(credit) for provisions

150

This should equal item 40 on Appendix A-V (see relevant definition).

160 Provisions for taxation

For returns covering less than a year, the taxation charge should be estimated by applying a reasonable estimate of the reporting institution's effective tax rate applicable for the year in question.

170 Provisions for dividends

For returns covering less than a year, provision should be made for an appropriate portion of the estimated total dividend to be paid for the year.

200 Extraordinary items

Extraordinary items, as defined by Financial Reporting Standard 3, should be reported net of attributable taxation. Where extraordinary charges exceed extraordinary income, the net negative figure should be shown with a minus sign (not brackets).

APPENDIX A-V - PROVISIONS AGAINST BAD AND DOUBTFUL DEBTS AND INVESTMENTS

10 Previous balance

Show the balance outstanding on the specific and general provisions account at the end of the previous accounting year relating to debts considered bad or doubtful. From end December 2001, this should include provisions made against the value of investments. The date to which the balance refers should be shown in the space provided.

20 Adjustments for acquisitions/disposals

Enter any adjustments made as a result of an acquisition or disposal of a subsidiary company the balance sheet of which includes specific or general provisions and is included in the consolidation for the particular return. Where the net adjustment is negative, report the amount with a minus sign (not brackets).

30 Adjustments for exchange rate movements

Enter any adjustments made for exchange rate movements in respect of provisions denominated in currencies other than sterling. Where the adjustment is negative, report the amount a minus sign (not brackets).

40 Charge/credit to profit and loss account

Enter the net charge or credit to the profit and loss account in respect of provisions; this should equal items 140 & 150 on Appendix A-IV. A net credit should be shown with a minus sign (not brackets). The gross charge for new provisions should be offset by other items including any provisions made in earlier years but now released in the current year's profit and loss account. The charge or credit for specific provisions should include the charge or credit for provisions in respect of suspended interest where it is the practice of the reporting institution to show suspended interest as interest receivable in the profit and loss account.

50 Amounts written off

Enter the gross amount written off (before recoveries which should be reported in item 60).

60 Recoveries of amounts previously written off

Enter the total amount of loans recovered which have previously been written-off.

70 Other

Enter any other items, including exceptional provisions and transfers between general and specific provisions.

80 Current balance

The current balance should be the sum of items 10-70. The figure in column 1 should, from December 2001, equal the total of items 150 and 230.

**90 - Specific provisions against bad and doubtful debts
150**

In the relevant boxes, show the assets (by risk weights) against which specific provisions have been made. Total specific provisions (item 150) should equal the total of items 90 to 140. Include in column 1 earmarked general provisions which are in the nature of specific provisions. Such cases should be agreed with the FSA. All figures should be positive. Specific provisions against the value of investments should be reported in items 170-230.

160 Gross value of loans against which specific provision have been made

Enter the total gross value, before deduction of provisions, of loans against which specific provisions have been made.

Where specific provisions have been made against credit card lending, the aggregate value of these provisions should be reported here, and the FSA informed as to the amount of this item relating to such provisions.

**170 - Specific provisions against the value of investments other than trading investments
230**

Where the reporting institution carries provisions in its books for the diminution in value of investments other than trading investments they should be shown here, analysed according to the risk weighting of the investment to which they relate. Total provisions (item 230) should equal the total of items 170 to 220. All figures should be positive.

ANNEX 1: CALCULATION FOR ELIGIBLE TIER 2 AND TIER 3 CAPITAL

CAPITAL BASE BEFORE ADJUSTMENT		£'000s
1	Total Tier 1 :(Section A item A550)	<input type="text"/>
2	Total Tier 2 : Supplementary capital before adjustments (sum of items A580 to A620 of Section A)	<input type="text"/>
3	Total Tier 3 : Trading book capital before adjustments (Section A items A631 + A633)	<input type="text"/>
 ADJUSTMENTS TO CAPITAL		
General Provisions Adjustment		
4	Total Risk Weighted Assets from Section D item D510	<input type="text"/>
5	Limit on general provisions (1.25% of item 4)	<input type="text"/>
6	Eligible general provisions (lower of item A590 and item 5)	<input type="text"/>
7	Excess general provisions (higher of [item A590 - item 5] and zero)	<input type="text"/>
Subordinated Term Debt Adjustment		
8	Amortisation on Tier 2 subordinated term debt (item A610 - item A790)	<input type="text"/>
9	Tier 2 subordinated term debt after amortisation (item A610 - item 8)	<input type="text"/>
10	Limit on Tier 2 subordinated term debt (50% of item 1)	<input type="text"/>
11	Eligible Tier 2 subordinated term debt (lower of item 9 and item 10)	<input type="text"/>
12	Excess Tier 2 subordinated term debt (higher of [item 9 - item 11] and zero)	<input type="text"/>
Eligible Capital Adjustment		
13	Tier 2 less excess general provisions and excess Tier 2 subordinated term debt (item 2 - [items 7+8+12])	<input type="text"/>
 <u>Non-CAD Banks only (exempt from CAD capital requirements at reporting date)</u>		
14	Overall limit on Tier 2 (100% of item 1)	<input type="text"/>
15	Tier 2 capital in excess of the overall limit (higher of [item 13 - item 14] and zero)	<input type="text"/>
 <u>CAD Banks only:</u>		
16	Overall limit on Tier 2 plus Tier 3 (100% of item 1)	<input type="text"/>
17	Excess Tier 2 and Tier 3 capital (higher of [items 3+13-16] and zero)	<input type="text"/>
	<i>of which:</i>	
	Excess Tier 3 capital (subordinated term debt not eligible for inclusion)	<input type="text"/>
	Excess Tier 2 capital (item 17 - item 17.1)	<input type="text"/>
18	Eligible Tier 2 capital (items 13 - [item 15 or item 17.2])	<input type="text"/>
 Capital Allocated To The Banking Book		
19	Banking Book Capital Requirements (RWA for the current reporting period x B Book trigger ratio)	<input type="text"/>
20	Tier 1 capital (item 19 - item 21)	<input type="text"/>
21	Eligible Tier 2 capital (lower of item 18 and 50% of item 22)	<input type="text"/>
22	Total capital allocated to the Banking Book (items 20+ 21)	<input type="text"/>

ELIGIBLE CAPITAL AVAILABLE TO SUPPORT THE TRADING BOOK

23	Tier 1 capital remaining after supporting the Banking Book (item 1 - item 20)	<input type="text"/>
24	Eligible Tier 2 capital remaining after supporting the Banking Book (item 18 - item 21)	<input type="text"/>
25	Limit on Eligible Tier 3 capital (item 23 x 2)	<input type="text"/>
26	Eligible Tier 3 capital (lower of [item 3 - item 17.1] and item 25)	<input type="text"/>
27	TOTAL ELIGIBLE CAPITAL (TIERS 1, 2 AND 3) (items 1+ 18+26)	<input type="text"/>

Note.

Items 14 and 16 are the overall limit at the consolidated level, or the solo level when a bank is not part of a consolidated group.

Where the reporting institution is subject to CAD capital requirement, at a solo-consolidated and consolidated level, tier 2 capital plus Tier 3 subordinated debt used to meet the Trading Book capital requirement is limited to 200% of Tier 1 capital used to meet those requirements. For item 17, Tier 3 subordinated debt should first be designated as excess capital, if any excess capital remains when Tier 3 subordinated debt has been used up, then Tier 2 capital should be designated as being excess capital.

Total capital allocated to the Banking Book (Item 22) should equal the capital required to support the Banking Book as reported in item 19 unless there is insufficient capital available to meet the regulatory capital requirements while satisfying the constraints on capital. Item 22 should equal the sum of Tier 1 and Eligible Tier 2 capital (ie items 20 and 21). Use as much Tier 2 capital as possible subject to the constraint that *at least half the capital used to support the banking book should be Tier 1 capital*: eligible Tier 2 capital allocated to the Banking Book (ie item 21) should be less than or equal to Tier 1 capital allocated to the Banking Book (item 20). Item 21 should equal item 22 divided by 2 unless (item 22/2) is greater than eligible Tier 2 capital (ie item 18); in this case item 21 should equal 18, and item 20 should equal item 19 **less** item 21. Tier 3 capital should not be held against Banking Book risks. If item 22 is less than item 19 then the institution may have insufficient capital to meet its regulatory capital requirements and should contact its line supervisor immediately.

Item 7 equals Section A item A621.

Item 8 equals Section A item A623.

Item 12 equals Section A item A622.

Item 15 or item 17.2 equals Section A item A625.

Item 17.1 equals Section A item A635.

BSD3-SECTION B: TRADING BOOK FOR SOLO BANK AND LINE BY LINE CONSOLIDATED ENTITIES

General Notes

- 1 For consolidated returns, the companies to be included in the consolidation should be those agreed between the reporting institution and the FSA in accordance with the FSA's Policy on Consolidated Supervision (Chapter CS (Consolidated supervision) of the FSA Policy Guide/IPRU (BANK)).

The Trading Book

- 2 The coverage of this section is limited to the Trading Book of a bank. Banks which have agreed with the FSA that they do not have a Trading Book should not fill in this section, and should proceed to Section D.
- 3 Article 2.6 of the Capital Adequacy Directive (CAD - 93/6/EEC) and its subsequent amendment (98/31/EC) provide the Trading Book definition.

In accordance with this, a bank's trading book consists of:

- a) an institution's proprietary positions in financial instruments, commodities and commodity derivatives which are held for resale and/or which are taken on by the institution with the intention of benefiting from actual and/or expected short-term price or interest rate movements, matched principal broking positions in financial instruments commodities and commodity derivatives, and positions in financial instruments, commodities, commodity derivatives and other non-financial instruments taken in order to hedge other elements of the Trading Book.
- b) the exposures arising from unsettled transactions, free deliveries and over-the-counter (OTC) derivative instruments referred to in paragraphs 1, 2, 3 and 5 of Annex II of the CAD (as amended),
- c) the exposures due to repurchase agreements (repos) and securities and commodity lending which are based on securities or commodities included in the Trading Book as defined in (a) referred to in paragraph 4 of Annex II of the CAD (as amended),
- d) those exposures due to reverse repurchase agreements and securities and commodities borrowing transactions described in the paragraph 4 of Annex II of the CAD (as amended), which meet all the following conditions:
 - i) the exposures are marked to market daily following the procedures laid down in Annex II of the CAD unless they are cash items;
 - ii) the collateral is adjusted daily to take account of changes in the value of the securities or commodities involved and the bank's rule for collateralisation should be acceptable to the FSA;

- iii) the agreement or transaction provides for the bank's claims to be automatically and immediately offset against its counterparty's claims if the latter defaults;
- iv) such agreements or transactions are confined to their accepted and appropriate use and artificial transactions, especially those not of a short-term nature, should be excluded;

Where the contractual relationship fails to meet conditions (ii) and (iii) above, the contract may still be included in the Trading Book but should be treated as an undocumented reverse repo.

- e) exposures in the form of fees, commission, interest, dividends, and margin on exchange-related derivatives directly related to the items included in the Trading Book referred to in paragraph 6 of Annex II of the CAD (as amended).

Whether particular items fall to be included or excluded from an institution's Trading Book should be decided in accordance with objective procedures including, where appropriate, accounting standards in the institution concerned. A reporting institution should set out its procedures in its Trading Book policy statement.

4 The financial instruments referred to in the preceding paragraph are defined in Section B of the Annex to the Investment Services Directive (ISD - 93/22/EEC). These are:

- 1)
 - a) Transferable securities;
 - b) Units in collective investment undertakings.
- 2) Money-market instruments¹.
- 3) Financial-futures contracts, including equivalent cash settled instruments.
- 4) Forward interest rate agreements (FRAs).
- 5) Interest-rate, currency and equity swaps.
- 6) Options to acquire or dispose of any instruments falling within this section of the annex including equivalent cash-settled instruments. This category includes in particular options on currency and on interest rates."

Valuation

5 See SGN5. Each bank should have agreed a Trading Book policy with the FSA which, amongst other items, covers the valuation of positions. Positions should be valued for reporting on this form in line with the valuation procedure set out in the Trading Book policy. However, positions in the Trading Book should be marked to market on a daily basis and valued on this basis for inclusion on this form.

¹ This does not include deposits and loans.

- 6 The valuation of individual complex instruments might not be covered explicitly in the Trading Book policy, but the policy should outline a procedure for dealing with such instruments. Advice should be sought from the FSA on the treatment of such instruments.

Specific Provisions

- 7 All items reported for the purpose of calculating the capital requirement for counterparty risk (items B10 to B100) should be reported net of any specific or earmarked general provisions made.

Transfers of general market risk

- 8 See SGN33.

B10-B100 COUNTERPARTY RISK ARISING FROM:

Analysis of Categories

For each category of counterparty risk there is a breakdown of the total into different weighting bands (0%, 10%, 20% 100%) depending on the risk weight attributed to the counterparties. For a list of items and more detail on risk weights, see SGN15.

B10 Free deliveries

Reporting institutions should include here any transactions in tradable securities which involve the delivery of the securities (cash) when the cash (securities) is not received at the same time [this is termed a "free delivery"]. When the securities (cash) have been delivered this will be considered to be a claim on the counterparty equivalent to the current market value of the tradable security for the provider of the cash or the cash for the provider of the securities, whichever is outstanding. This includes exchange-traded contracts involving physical delivery.

If settlement of the transaction is effected across a national border, the capital requirement may only be triggered one business day after the securities (cash) have been delivered without the cash (securities) being received in return.

B20 Margins

Reporting institutions should include both initial margin payments and any surplus margin payments placed with exchanges and clearing houses. These are taken to be exposures to the exchanges and clearing houses and will attract the relevant weight for the exchange.

B30 Fees and commissions

Reporting institutions should include any fees due to them which arise from transactions falling in the Trading Book, which have not yet been received.

B40 Other counterparty risk in the Trading Book

Reporting institutions should report here all other counterparty risk that arises in the Trading Book. For example, if a loan is transferred to the Trading Book because it is hedging a position in a financial instrument (see Chapter CB (Trading book/banking book division), Section 3, Paragraph 9, of the FSA Policy Guide (in IPRU (BANK), Section 3, Paragraph 11)), the counterparty risk on the loan should be reported here. When the reporting institution has transferred general market risk from the Banking Book to the Trading Book (see Chapter CB of the FSA Policy Guide, Section 3, Paragraph 11 (Paragraph 13 in IPRU (BANK))), there is no associated transfer of specific or counterparty risk and the transfer will not result in an entry in item B40. Off balance sheet items reported here should attract the standard Credit Conversion Factors prior to be risk weighted (see Reporting Instructions to Section A for details of these factors).

B50 Unsettled transactions

Reporting institutions should report here the total capital requirement for counterparty risk on unsettled transactions. Item B50 should equal item 120 of Appendix B-I.

B60 OTC Derivatives

Reporting institutions should report here the total capital requirement for counterparty risk on OTC derivatives. The weighted amount in item B60 should equal line 60 of Appendix B-II.

B70 Undocumented repos/reverse repos

Reporting institutions should report here the total capital requirement for undocumented repos/reverse repos, and, if line supervisors have so requested, documented repos/reverse repos. The weighted amount in item B70 should equal line 50 of Appendix B-IV. Additionally, repos will give rise to a general market risk position that should be reported in either item B200 or B240 and their underlying Appendices.

B80 Documented repos

Reporting institutions should report here the total capital requirement for documented sale and repurchase agreements (repos). The weighted amount item in item B80 should equal item 100 of Appendix B-IV. Additionally, repos will give rise to a general market risk position that should be reported in either item B200 or B240 and their underlying Appendices.

B90 Documented reverse repos

Reporting institutions should report here the total capital requirement for documented reverse sale and repurchase agreements (reverse repos). The weighted amount item in B90 should equal item 150 of Appendix B-IV. Additionally, reverse repos will give rise to a general market risk position that should be reported in either item B200 or B240 and their underlying Appendices.

B100 Total counterparty risk in the Trading Book

This equals the sum of items B10 to B90.

B110-B140 LARGE EXPOSURES IN THE TRADING BOOK

When an exposure arising from tradable securities in the Trading Book exceeds 25% of adjusted capital base, it should be broken down on the Form LE2 into the individual exposures undertaken with the group of connected counterparties. The nature of each exposure should be identified along with the appropriate capital charge for counterparty or specific risk. The reporting institution should show how these capital charges have been used to generate the additional capital charge for large exposures reported in items B120 and B130.

The calculation for determining the incremental capital requirement involves the following sequential steps:

- a) Net any short securities positions against long securities positions, netting the short items against the highest long specific risk weighted items (Note: the specific risk weights of netted items need not be identical).
- b) Rank the remaining net long securities positions in order according to specific risk weighting factors (ie lowest weighted items first, highest weighted items last).
- c) Taking the lowest weighted items first, apply these exposures to the difference between the non securities exposure to the counterparty and 25% of the amended capital base (ie the "headroom" up to 25% of the amended capital base is employed to cover the lowest weighted exposures)
- d) Incremental capital is considered necessary for remaining net long securities exposures as follows:
 - i) if the excess exposure has been extant for 10 days or less, the specific risk weighting for exposures ranked in excess of 25% of the amended capital are multiplied by 200%.
 - ii) if the excess exposure has been extant for more than 10 days, the specific risk weightings for exposures ranked in excess of 25% of the amended capital base are multiplied by the following factors.

Excess exposure over 25% of amended capital base (acb)	Factor applied to specific risk weighting
Up to 40% of acb	200%
From 40% to 60% of acb	300%
From 60% to 80% of acb	400%
From 80% to 100% of acb	500%
From 100% to 250% of acb	600%
Over 250% of acb	900%

B110 Adjusted large exposures capital base

Report here the adjusted large exposures capital base (ie the adjusted capital base shown on Form LE2 (part 5) as at BSD3 reporting date) which the bank has agreed with the FSA.

B120 Excesses that have existed for 10 days or less

Report here the aggregate specific risk capital requirement of any large exposures excesses that have arisen on tradable securities in the Trading Book which have been in existence for 10 days or less. Only the amount of the exposure over 25% of the adjusted capital base should be reported here.

B130 Excesses that have existed for more than 10 days

Report here the aggregate specific risk capital requirement of any large exposures excesses that have arisen on tradable securities in the Trading Book which have been in existence for more than 10 days. The excess should be broken down into those parts within each band above 25%. Only the amount of the exposure over 25% and up to 40% of capital should be reported in item B130.1, that part of the exposure over 40% and up to 60% should be reported in item B130.2, etc. Item B130 should be the sum of items B130.1 to B130.6.

B140 Capital Requirement for Large Exposures

Report here the sum of the capital requirements generated from items B120 and B130.

B150-B180 FOREIGN EXCHANGE POSITION RISK

For more detailed information on the specification of capital for foreign exchange risk, see Chapter FX (Foreign exchange risk) of the FSA Policy Guide/IPRU (BANK).

B150 For basic approach

The total capital required for foreign exchange risk treated under the basic approach should be reported here. Item B150 should equal the item for the capital requirement for the basic method from Appendix B-V (column 2).

B160 For Backtesting Approach

The total capital required for foreign exchange risk treated under the backtesting approach should be reported here. Item B160 should equal the item for the capital requirement for the backtesting method from Appendix B-V (column 3).

B170 Additional Capital Charge for Options

The way in which these items should be completed should depend upon the method under which the reporting bank has agreed with its supervisor that it will calculate the capital requirement on its options portfolio.

B170.1 Using the Carve Out Approach

Banks should report here the capital requirement arising from options on foreign exchange instruments treated under the carve out approach to options.

B170.2 Using CAD1 Models (Scenario Matrix/Buffer) Approach

Banks should report here the capital requirement arising from options on foreign exchange instruments treated under the scenario matrix or buffer approach to options.

B180 Total foreign exchange risk

This item should be the sum of the capital requirement for foreign exchange risk treated under each of the different methods plus any additional capital requirements reported for options. Item B180 should equal the sum of items B150, B160 and B170.

B190-B220 INTEREST RATE POSITION RISK

For more detailed information on the specification of capital for interest rate risk, see Chapter TI (Interest rate position risk) of the FSA Policy Guide/IPRU (BANK).

B190 Specific Risk

Report here the sum of individual net position (as defined in Chapter TI (Interest rate position risk) of the FSA Policy Guide/IPRU (BANK) within each risk weighted amount. Specific risk on positions arising from underwriting should be included here. The risk weights refer to those applicable for interest rate specific risk. Item B190 should equal the sum of items B190.1 to B190.5.

The specific risk weights are:

0.00% Certain Central Government debt instruments;

Debt instruments should be given a 0% specific risk weighting if:

- a) they are issued by, fully guaranteed by, or fully collateralised by securities issued by Zone A² central governments and central banks, including the European Communities; or
- b) they are issued by, or fully guaranteed by, Zone B central governments and central banks with a residual maturity of 1 year or less and are denominated in local currency and funded by liabilities in the same currency.

0.25% Qualifying Items up to 6 months residual maturity

1.00% Qualifying Items over 6 and up to 24 months residual maturity

1.60% Qualifying Items over 24 months residual maturity

² See SGN Appendix C.

Debt instruments should be treated as qualifying if any of the following conditions apply:

- a) they are issued by, or fully guaranteed by, Zone B central governments and central banks with a residual maturity of over 1 year and are denominated in local currency and funded by liabilities in the same currency.
- b) They are securities issued by, or fully collateralised by claims on, a multilateral development bank as listed in the Solvency Ratio Directive. The European Commission may amend this list periodically (see SGN Appendix E for more detail).
- c) They are issued, guaranteed, endorsed, or accepted, by a credit institution incorporated in a Zone A country (see SGN Appendix C for details of Zone A and B countries);
- d) They are issued, or guaranteed, endorsed, or accepted, by a credit institution incorporated in a Zone B country and have a residual maturity of 1 year or less;
- e) They are issued, or guaranteed, by an investment firm that is incorporated in a Zone A country and subject to the Capital Adequacy Directive, or to a regime that FSA deems to be CAD equivalent;
- f) They are issued, or guaranteed, by an investment firm that is incorporated in a Zone B country and subject to the Capital Adequacy Directive, or to a regime that the FSA deems to be CAD equivalent; and they have a residual maturity of 1 year or less;
- g) They are issued by, or guaranteed by, Zone A public sector entities (see SGN23);
- h) They are issued by, or guaranteed by, a company whose equity is eligible for 2% equity specific risk weighting.
- i) The issue, or an issue of equivalent ranking in a liquidation, or an issue of equivalent ranking in a liquidation of the guarantor, is rated investment grade (or its equivalent for money market obligations), or above and the reporting bank is unaware of any sub-investment grade³ rating issued by any of the relevant credit rating agencies (see SGN Appendix H for the list of agencies which are considered relevant).

Convertible securities, such as bonds and preference shares, that are treated as debt instruments should be given a specific risk weighting identical to other debt items for the same issuer as described in the preceding paragraphs. Convertible securities (as defined in Chapter TE (Equity position risk), Section 2, Paragraph 4, of the FSA Policy Guide/IPRU (BANK)) should be treated as equities when:

- a) the first date at which conversion may take place is less than three months ahead, or the next such date (where the first has passed) is less than a year ahead, and:
- b) the convertible is trading at a premium of less than 10%, where the premium is defined as the current mark to market value of the convertible less the mark to market value of the underlying equity, expressed as a percentage of the mark to market value of the underlying equity.

³ Chapter BC (Credit risk in the banking book), Section 5, of the FSA Policy Guide/IPRU (BANK) includes a list of the relevant cut off points for investment grade for each relevant ratings agency.

Otherwise, a bank may treat equity convertibles as either:-

- a) an equity position based upon conversion of the bond and deducting from capital (by including in item B215) any losses, including accrued interest, that may arise from this "conversion" for the purposes of calculating the capital requirements, but limiting the size of any profits from the "conversion" to the sum of the specific and general risk requirements; or
- b) a debt item.

8.00% Non-Qualifying Items

Debt instruments where the issuer does not meet the requirements established above are deemed to be non-qualifying items.

B200 General Market Risk

This item should contain the total capital requirement for general market risk arising from positions in interest rate instruments and their derivatives. The detail behind this calculation should be reported in Appendix B-VI. Item B200 should equal the total Item in the Total General Market Interest Rate Risk column of Appendix B-VI.

B210 Additional Capital Charge for Options

The way in which these items are completed should depend upon the method under which the reporting bank has agreed with its supervisor it will calculate the capital requirement on its options portfolio.

B210.1 Using the Carve Out Approach

Banks should report here the capital requirement arising from options on interest rate instruments treated under the carve out approach to options (see in Chapter TI (Interest rate position risk), Section 7, of the FSA Policy Guide/IPRU (BANK)).

B210.2 Using CAD1 Models Approach

Banks should report here the capital requirement arising from options on interest rate instruments treated under the scenario matrix or buffer approach to options.

B215 Interest Rate Risk on Equity Derivatives

Reporting institutions should include in this box any interest rate risk arising from equity derivatives (including options) which is not processed via either an approved model or the usual methods for interest rate general market risk (see in Chapter TE (Equity position risk), Section 5, Paragraph 5, of the FSA Policy Guide/IPRU (BANK)).

Reporting institutions should also report here the absolute value of any loss on "conversion" for those convertibles and depository receipts that are being treated as equities for regulatory reporting purposes. Where there is a profit on "conversion", this profit may be reported here as a negative number up to a maximum of the sum of the specific and general risk requirements reported on the underlying equities.

B220 Total Interest Rate Position Risk

This item should be the sum of items B190, B200, B210 and B215.

B230-B270 EQUITY POSITION RISK**B230 Specific Risk**

This item should contain the total capital requirement for specific risk arising from positions in equities and their derivatives. The details behind this calculation should be reported in Appendix B-VII. Item B230 should equal 8% of the total of Columns 1 plus 4% of the total of Column 2 on Appendix B-VII.

B240 General Market Risk

This item should contain the total capital requirement for general market risk arising from positions in equities and their derivatives. The details behind this calculation should be reported in Appendix B-VII. Item B240 is 8% of the sum of the total of Columns 5 and 6 on Appendix B-VII.

B250 Additional Capital Charge for Options

The way in which these items are completed should depend upon the method under which the reporting bank has agreed with its supervisor it will calculate the capital requirement on its options portfolio.

B250.1 Using the Carve Out Approach

Banks should report here the capital requirement arising from options on equities treated under the carve out approach to options.

B250.2 Using CAD1 Models Approach

Banks should report here the capital requirement arising from options on equities treated under the scenario matrix or buffer approach to options.

B270 Total Equity Position Risk

This item should be the sum of the capital requirements for specific and general market risk on equities plus any additional capital requirements reported for options.

B280 Commodity position risk

Report here the total capital requirement for commodity position risk under the standard approach. This item should equal item 50 (column F) from Appendix B-VIII.

B282 Additional Capital Charge for Options

The way in which these items are completed should depend upon the method under which the reporting bank has agreed with its supervisor it will calculate the capital requirement on its options portfolio. This item should equal the sum of items B282.1 and B282.2

B282.1 Using the Carve Out Approach

Banks should report here the capital requirement arising from options on commodity instruments treated under the carve out approach to options.

B282.2 Using CAD1 Models (Scenario Matrix/Buffer) Approach

Banks should report here the capital requirement arising from options on commodity instruments treated under the scenario matrix or buffer approach to options.

B284 Total commodity position risk

Report here the total capital requirement for commodity position risk. This item should equal the sum of items B280 and B282.

B290-B340 INTERNAL MODELS APPROACH

B290 Previous day's value at risk

This equals the bank's regulatory (10 day, 99%) VaR calculated for the previous day.

B300 Average of previous 60 days' value at risk

This equals the average of the bank's regulatory VaR figures over the last 60 business days.

B310 Multiplication factor

This equals item 40 of Appendix B-IX. This item should be rounded to 2 decimal places and multiplied by 100 and entered in the relevant box as integers, eg a multiplication factor of 3.0 should be entered as 300.

B320 Capital charge for general market risk

This equals the greater of (item B300 multiplied by B310/100) and item B290.

B330 Capital surcharge for specific risk

A bank that models specific risk should increase its market risk capital requirement by a surcharge for specific risk. A bank may choose to calculate its surcharge as either:

- (a) an amount equal to the specific risk portion of the VaR measure calculated according to the Guidelines on internal models.
- (b) an amount equal to the VaR measures of sub-portfolios that are subject to specific risk.

In both cases, the surcharge for specific risk should be calculated as an average over the previous 60 business days.

B340 Total capital requirement for risk subject to internal models

This equals the sum of items B320 and B330.

APPENDIX B-I: UNSETTLED TRANSACTIONS

Reporting institutions should report any transactions (excluding repurchase and reverse repurchase agreements and stock borrowing and lending) where delivery of the instrument takes place against receipt of cash, but which remain unsettled 5 business days after their due date. Banks should report the difference between the contracted amount due and the current market value of the instrument as the "potential loss" (Lines 10 to 60) but may agree a different treatment with the FSA. This should be multiplied by the relevant factor in column 1 of the table below to obtain the capital requirement. A bank may instead report the agreed settlement price (Lines 70 to 110), which should be multiplied by the relevant factor in column 2 of the table below. This treatment should be agreed with the FSA before being adopted. Transactions 46 or more days past due should be reported on the basis of "potential" loss.

Note that the capital requirement for such transactions should not be multiplied by the counterparty risk weight.

Number of Working Days after due Settlement Date	Column 1	Column 2
0 - 4	Nil	Nil
5 - 15	8%	0.5%
16 - 30	50%	4.0%
31 - 45	75%	9.0%
46 or more	100%	100% of Potential Loss (as per Column 1)

Within Appendix B-I, item 60 should equal the capital charge figure for Rows 10 to 50 and item 110 should equal the capital charge figure for Rows 70 to 100. Item 120 is the sum of items 60 and 110.

APPENDIX B-II - COUNTERPARTY EXPOSURE ON OTC DERIVATIVE CONTRACTS (REPLACEMENT COST METHOD)

OTC Contracts

The credit equivalent amount is the sum of the replacement cost and the potential future credit exposure. The weighted amount is the product of the credit equivalent amount and the risk weight. This section should be filled in only for OTC derivative contracts within the Trading Book. Capital charges for counterparty risk on forward sales and purchases of equities and bonds should not be reported in this Appendix, but in Appendix B-IV. All forward transactions in the Trading Book should, however, also be reported in Appendix B-III. Similar contracts in the Banking Book should be reported in Section A. The reporting instructions for Appendix A-I should also be applied to this Appendix. Foreign exchange contracts with original maturity of 14 days or less should not be reported on this Appendix. Futures and options should not be reported where the contracts concerned are traded on exchanges subject to daily margining requirements.

Appendix B-II will not agree with Appendix B-III, since Appendix B-III is completed on a gross basis and includes exchange traded items.

Replacement Cost

For the purposes of measuring counterparty risk inherent in derivative contracts, a risk weight of 50% should be applied in respect of counterparties which would usually attract a counterparty risk weight of 100% (see SGN34 for more detail generally).

These instruments should be valued in line with the valuation policy included in the Reporting Institution's Trading Book policy statement.

Potential Future Credit Exposure

All OTC derivative contracts that may in the future have a positive mark-to-market value should be subject to a capital charge for potential future credit exposure (see SGN34 for guidance on calculation).

Net reporting of Replacement Cost

Where the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) have been met then, on a bilateral basis (ie for each counterparty) the net replacement cost of nettable contracts may be reported (See SGN26, SGN35).

Net Reporting of Potential Future Credit Exposure

See SGN35.

Forward FX Contracts undertaken through Multilateral Netting Schemes

The credit equivalent amount for a reporting institution using a multilateral netting scheme should also be reported in Appendix B-II as set out in SGN35.

APPENDIX B-III: SUPPLEMENTARY INFORMATION ON OTC DERIVATIVE CONTRACTS

(REPLACEMENT COST METHOD)

This appendix should be completed on a gross basis, even where legally enforceable netting agreements are in place. It is used for general supervisory information. All derivative contracts should be reported on this section, including options written and other contracts with negative mark to market value. As a result, this section will not usually reconcile with the previous section. Contracts which do not have positive mark to market values should be reported in the Notional Principal Amounts section (the first four columns) only.

Reporting institutions' exposure to OTC contracts should be reported by the relevant product and counterparty type. Their exposure to exchange traded contracts should be reported by product type only.

Reporting institutions should include their exposures arising from options with their other contracts, but should also identify them separately as a memo item. Within the memo item on options, those which are exchange traded should be separately identified from those originating from the OTC market.

Interest Rate Contracts

The reporting instructions for Appendix A-II should also be applied to this item.

Foreign Exchange Contracts

Only exchange rate contracts of over 14 days original maturity (excluding a settlement period of up to 2 days) should be reported. The reporting instructions for Appendix A-II should also be applied to this item.

Equity Contracts

The reporting instructions for Appendix A-II should also be applied to this item.

Commodity Contracts

All positions in respect of physical commodities and derivative positions relating to physical commodities should be reported here. Reporting institutions may however seek the agreement of the FSA that a different reporting treatment is appropriate. Commodity futures and options should not be reported where the contracts concerned are traded on exchanges subject to daily margining requirements.

Precious Metals Contracts

Include here futures, forwards, swaps, options and similar instruments involving precious metals other than gold. Futures and options should not be reported where the contracts concerned are traded on exchanges subject to daily margining requirements.

Notional principal amounts by maturity

The notional principal amount for each contract should be reported in these items, regardless of whether it is matched by another contract or whether it has a positive mark to market value. This section should include all derivative contracts to which the reporting institution is party, including options written and purchased (see SGN 34 for more detail generally).

For exchange traded contracts, margins paid to exchanges should be separately identified and reported on the counterparty risk section of Sections A and B. The value of the underlying contracts should be reported here.

Replacement Cost

Reporting institutions should include here the replacement cost (mark-to-market) on off balance sheet contracts. Items with a negative mark to market value should be excluded.

APPENDIX B-IV: COUNTERPARTY RISK ON REPOS AND REVERSE REPOS

This appendix covers all repos, reverse repos and other transactions with a similar economic effect (eg stock borrowing/stock lending or sell-buy/buy-sell).

In the Trading Book, repo transactions are deemed to give rise to counterparty exposure.

Counterparty Risk On Documented Repos/Reverse Repos

In these sections, banks should report **all** Trading Book transactions, regardless of the terminology used, that meet the following criteria (arrangements where the bank has lent a third party's securities at its own risk are included):

- i) a bank has sold (or lent) Trading Book securities to a counterparty subject to buy back (or a return clause), and
- ii) the documentation forming the written agreement (whether a master agreement, or documentation used on specific occasions) provides for the claims of the bank to be automatically and immediately set off against the claims of the counterparty in the event of the latter's default, and the bank has the right to call for variation margin daily when there is a material adverse market move against it.

Transactions which fail to meet these criteria should be reported as undocumented repos/reverse repos.

Transactions that are fully collateralised should still be reported in columns 1 and 2. As the amount reported in each of these two columns will be the same for fully collateralised deals, the counterparty risk requirement will be zero. However, it is important that these deals are included otherwise these items would understate the volume of repo/reverse repo business being transacted.

When completing Lines 60 to 90 and Lines 110 to 140, it should be assumed that each individual repo or reverse repo cannot be overcollateralised in the absence of netting. Regarding repos (lines 60 to 90): if collateral held is worth more than 100% of the market value of the securities sold or lent, then the reported value of collateral on that deal should be the same as the market value of the securities. Excess collateral held for a repo with one counterparty should not offset a shortfall in collateral held for another repo with the same counterparty or another counterparty. Regarding reverse repos (lines 110 to 140): if the market value of securities bought or borrowed on a reverse repo is more than 100% of the market value of the collateral given, the reported value of the securities on that deal should be the same as the market value of the collateral. Excess securities received under a reverse repo with one counterparty should not offset a shortfall in securities received under another reverse repo with the same counterparty or another counterparty.

This Appendix only captures counterparty risk on repos and reverse repos. Consequently, the market risk arising from transactions that are reported in this section should still be reported in those sections of the form which capture market risk exposures arising from interest rate and equity position risk, depending on the nature of the security underlying the repo or reverse repo.

In both cases, Column 3 should be Column 1 minus Column 2. The weighted amount in Column 5 should be the multiple of the amount at risk (Column 3) and the Weight (Column 4). Item 100 is the sum of the Weighted Amount (Column 5) in rows 60 to 90. Item 150 is the sum of the Weighted Amount (Column 5) in rows 110 to 140.

Documented Repos

For documented repos, the weighted amount should be the higher of zero and:

{Market value of securities sold or lent - Market value of collateral taken}

x counterparty risk weight x 8%

If it seems to the FSA that the nature of a bank's repo/reverse repo business is such that the risks are significant (eg in terms of the volume or nature of activity), the FSA may require that all such transactions are treated as forwards (ie with risk cushions applying). Where the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) are met, the replacement cost of a bank's repos and reverse repos with a single counterparty may still be netted, but the risk cushion factors should not be netted.

Securities, and if appropriate collateral, should be marked to market at least once a day. The amounts to be received or given should include all cashflows related to the securities and the transactions - manufactured dividends, interest, fees. Thus the amount to be received would include payments which the counterparty should have made to the bank but which have not yet been received, and the amount to be given would include payments which should have been made to the counterparty but which have not yet been paid. Receivables may not be included on the day when they are due, but they should be included if not received the following business day.

Collateral received may take the form of a guarantee, letter of credit, or similar instrument provided by a Zone A bank if that bank would not be considered to be a connected lender if it was making a loan to the recipient of the securities. In the event that the guarantor is not a Zone A bank or is a connected bank, the capital requirement for the securities lender should be:-

Market Value of Securities lent x Counterparty Risk Weight x 8%

Documented Reverse Repos

For documented reverse repos, the weighted amount will be the higher of zero and:

{Market value of collateral given - Market value of securities bought or borrowed}

x counterparty risk weight x 8%

If it seems to the FSA that the nature of a bank's reverse repo business is such that the risks are significant (eg in terms of the volume or nature of activity), the FSA may require that all such transactions are treated as forwards (with the application of risk cushion factors). Where the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) are met, the replacement cost of a bank's repos and reverse repos with a single counterparty may still be netted, but the risk cushion factors should not be netted.

Undocumented Repos / Reverse Repos

Repos/reverse repos that do not meet the documentation and margining requirements set out above are referred to as undocumented repos and should be treated as follows: the measure used takes account of both the current replacement cost of the contract, and its potential value. The latter is incorporated through use of risk cushion factors (RCF) which reflect the likely volatility of security prices. These risk cushion factors are derived from the matrix of add-ons used to calculate the capital requirements for potential future exposures on off-balance sheet contracts. In determining the size of the risk cushion factor, reference is made to the maturity of the securities and of the collateral, rather than to the maturity of the transaction. The risk cushion factors are:

Interest rate products

<u>Residual maturity:</u>	<u>risk factor</u>
less than one year	0.25%
to five years	0.50%
five years or over	1.50%
Equities	6.00%

Where one side of a transaction is denominated in a currency other than that of the other side, and circumstances are such that a risk cushion factor applies, the risk cushion factors should be each increased by 1%.

In assigning risk cushions, banks should be aware of the following:

Where the collateral is provided in the form of cash, a guarantee, a letter of credit, or an instrument performing a similar function issued by a Zone A bank, a risk cushion factor of 0% should be applied.

Where the bank is receiving securities in exchange for cash (or collateral), the weighted amount is:

{replacement cost of forward + potential future credit exposure}

x counterparty risk weight x 8%

where

replacement cost

= higher of zero and the difference between market value of securities to be received and contracted value for forward delivery (in the case of forward purchases) or market value of collateral (in the case of repos);

potential future credit exposure

= the risk cushion factor applicable to the securities (or collateral if it is higher) multiplied by the contracted value for forward delivery;

Column 3 should be the sum of Columns 1 and 2. The weighted amount in Column 5 should be the multiple of the amount at risk (Column 3) and the Weight (Column 4). Item 50 is the sum of the Weighted Amount (Column 5) in rows 10 to 40.

Netting Of Counterparty Risk On Repos/Reverse Repos

Counterparty risk on repos and reverse repos with the same counterparty may be netted when the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) have been met. Counterparty risk on repos arises when the value of the collateral reversed in is less than the value of the securities repoed out, while counterparty risk on reverse repos arises when the value of the securities reversed in is less than the value of the collateral given. This counterparty risk can be offset either by excess collateral on other repos or excess securities received on other reverse repos with the same counterparty.

Lines 60 to 90: If the total amount of collateral held on repos with the same counterparty is worth more than 100% of the market value of the securities sold or lent, the reported value of collateral on these deals should be the same as the market value of the securities. Excess collateral held on repos with one counterparty (lines 60 - 90 column 2) may be used to offset a shortfall in securities received on reverse repos with that counterparty (by transferring the excess to column 2 of lines 110 - 140). In other words if reverse repos with one counterparty are undercollateralised, any excess collateral received on repos with that counterparty may be included to increase the market value of securities received on reverse repos.

Lines 110 to 140: If the market value of securities bought or borrowed on reverse repos with the same counterparty is worth more than 100% of the market value of the collateral given, the reported value of the securities on these deals should be the same as the market value of the collateral. Again, excess securities received on reverse repos with one counterparty (column 2 lines 110 - 140) may be used to offset a shortfall in collateral held on repos with that counterparty (by transferring the excess to column 2 of lines 60 - 90). In other words if repos with one counterparty are undercollateralised, any excess securities received on reverse repos with that counterparty can be included to increase the market value of collateral taken on repos.

Example

Repos: market value of securities sold = 100mn

market value of cash received = 95mn

Reverse repos: market value of cash forwarded = 200mn

market value of securities bought = 202mn

All transactions are conducted with a Zone A bank (weighted at 20%).

Reporting: Line 80 column 1 = 100mn; column 2 = 97mn; column 3 = 3mn;

Line 130 column 1 = 200mn; column 2 = 200mn; column 3 = 0mn.

In this particular example, the 2mn of excess securities on the reverse repos has been transferred to collateral taken on the repos (column 2).

Repos

When netting is allowed, the weighted amount will be the higher of zero and:

{Market value of securities sold or lent - Market value of collateral taken - Reductions from netting} x counterparty risk weight x 8%

Reverse Repos

When netting applies, the weighted amount will be the higher of zero and:

{Market value of collateral given - Market value of securities bought or borrowed - Reductions from netting} x counterparty risk weight x 8%

APPENDIX B-V: CAPITAL REQUIREMENT FOR FOREIGN EXCHANGE RISK

Appendix B-V should be completed on the basis of underlying positions and not capital requirements. The capital requirement derived from the positions reported in this Appendix should be reported in items B150 and B160.

Banks should identify their "base currency" in the "Base currency" box. A UK-incorporated bank's base currency will generally be sterling, in which case the bank should write the 2 and 4 character country codes (UK / UKIN) in the base currency box. Where a bank wishes to use another currency as base, it should first discuss the matter with its supervisor.

The net open position in each currency (including gold but excluding the base currency) should be calculated according to Chapter FX (Foreign exchange risk), Section 3, of the FSA Policy Guide/IPRU (BANK). Positions in composite currencies may either be broken down into positions in the component currencies according to the quotas in force, or treated as positions in a separate currency. However, one or other method should be used consistently. Positions in American depository receipts should be treated as positions in the currency of the underlying instrument.

For consolidated returns, net open positions should include the non-base currency exposures of any subsidiaries where the Trading Book is consolidated line-by-line. When subsidiaries' Trading Books are consolidated by aggregation-plus, the subsidiaries' foreign exchange exposure should be calculated separately. Where a reporting institution has a non-base currency investment in an aggregation-plus subsidiary and the foreign exchange risk in that subsidiary is calculated using that currency as the base currency, then the investment, including retained earnings, should be included in the reporting institution's foreign currency position for the purposes of this appendix. Where the foreign exchange risk in the subsidiary is calculated using the same base currency as in the reporting institution then the investment in the subsidiary, plus retained earnings, should not be included in the calculation of the reporting institution's foreign currency position for the purposes of this appendix.

The net position in all currencies in which either the gross long or the gross short position exceeds £1million equivalent should be separately identified in column 1. Institutions should enter the 2 and 4 character country codes in the relevant boxes for any additional currencies not listed on the appendix. Where the number of currencies exceeds the number of lines provided, these (the smallest in value) should be aggregated and reported on lines U8 / UNAS (for net long positions) and U9 / UNAL (for net short positions).

The net position in other currencies (ie individual positions below £1million) should be aggregated according to whether they are long or short and included in the lines OTHL and/or OTHS. Net positions in gold should be separately identified in the "gold" section of column 1.

The base currency item in Column 1 (usually sterling) is a balancing item. It should be calculated as the amount required to make the sum of the positions in currencies (excluding gold) reported in Column 1 equal to zero.

Positions in Column 1, other than the balancing item in the base currency, should be allocated to either Column 2 or 3 in line with the agreed policy set out in the Trading Book Policy Statement. (In certain circumstances, it may be appropriate to split the position in one pre-determined currency, with only a proportion included in the backtesting method. Such a treatment should also be agreed in advance with the supervisor).

The capital requirement for the basic method, which should be reported at the bottom of Column 2, is 8% of the higher of the aggregate net short/long open currency positions reported in Column 2 plus 8% of the absolute value of gold position reported in column 2. This will appear in item B150.

The capital requirement for currency and gold positions included in the backtesting method should be reported at the bottom of column 3 and in item B160. The minimum requirement is 2% of the sum of the higher of net short/long open currency positions and the absolute value of the position in gold in Column 3: the entry at the bottom of Column 3 and in item B160 must be at least as large as this in order for the return to be processed.

From 1 September 1999, only the basic method should be used to calculate foreign exchange risk unless the reporting institution is using a VaR model. Accordingly, Columns 2 and 3 are no longer applicable, as column 1 is the same as column 2.

APPENDIX B-VI - CAPITAL REQUIREMENT FOR INTEREST RATE GENERAL MARKET RISK

Chapter TI (Interest rate position risk) of the FSA Policy Guide/IPRU (BANK) contains three alternative methods that may be used for the calculation of interest rate general market risk. Reporting institutions should specify which method they use for each category of instrument, but this will form part of their Trading Book policy statement and will not be reported on this form. Reporting institutions are not required to report the full details of the calculation performed under those methods to arrive at the capital requirement for each currency. However, banks should maintain systems to perform this calculation, and their supervisors might sometimes ask to see the detailed calculations for particular currencies. These need not be produced in a standard format, as the supervisor will accept a printout from the reporting bank's internal system.

Reporting institutions should report the weighted net long and net short position in interest rate products in each zone, broken down by currency of denomination (rather than country of issue,) as listed (for unlisted currencies, use the 2 and 4 character country codes where appropriate) on the appendix: ie for banks reporting under the duration-based approach, $\text{nominal} \times \text{price} \times \text{duration} \times \text{assumed move in rates}$ (or if using models, $\text{PV01} \times \text{assumed move in rates}$), and under the maturity-based approach, $\text{nominal} \times \text{price} \times \text{weighting factors}$. These figures should be derived from the individual net positions used in either the maturity or duration based approaches or from models recognised by the FSA, and will not necessarily (depending on whether the duration or maturity approach, or a combination of the two, is used) cross reference with the capital requirement arising from the maturity based, duration based and simple approaches (Columns 1 to 6 do not equal Columns 7 to 10). The total general market interest rate risk position will be the sum of the columns for maturity based approach, duration based approach and simplified method.

Simplified Method: Interest Rate

Reporting institutions which have chosen to apply the simplified method (Chapter TI (Interest rate position risk), Section 4, of the FSA Policy Guide/IPRU (BANK)) for interest rate risk should report the resultant capital requirement for each currency in the simplified method column. The figures input to this column should be derived using the simplified approach.

Maturity Based Approach

The capital requirement for positions treated under the maturity based approach should be reported in column 7. The maturity bands covered by each zone are:

	Maturity Based Approach	Maturity Based Approach
	Coupon of 3% or more	Coupon under 3%
Zone One	12 Months & Under	12 Months & Under
Zone Two	Over 12 Months & Up to 4 Years	Over 12 months & Up to 3.6 Years
Zone Three	Over 4 Years	Over 3.6 Years

Duration Based Approach

The capital requirement for positions treated under the duration based approach should be reported in column 8. The duration bands covered by each zone are:

	Duration Approach
Zone One	12 months & Under
Zone Two	Over 12 months and up to 3.6 Years
Zone Three	Over 3.6 Years

General

Positions in sterling index linked gilts should be reported in a separate line.

From 1 January 1999, the euro and the participating national currency units should be treated as the same currency and be reported in the line for the euro. The euro should not be capitalised.

Details should be provided for each individual currency listed on this form. Details for individual currencies in which the reporting institution has aggregate long and short positions equivalent to £1million or more should be entered in the blank rows provided.

Business in currencies with aggregate long and short positions below £1million should be aggregated and reported in the row for non material countries. This row should be completed on a gross basis. Positions in one currency should not be used to offset positions in another currency.

Reporting institutions which prefer to submit data on interest rate positions in each currency (using the 2 and 4 character country codes) regardless of materiality may do so. Where the number of currencies exceeds the number of lines provided, these (the smallest in value) should be aggregated and reported on the line U9 / UNAL.

Embedded Interest Rate Risk On Equity Derivatives (Including Options)

For general interest rate position risk on equity derivatives, an amount equal to the notional underlying equities may be included in Appendix B-VI as government securities with a coupon below 3% in the currency concerned. Banks should only report in this way if the FSA is satisfied, and has given express written agreement, that sufficient controls are in place to monitor this interest rate exposure and to take account of dividend exposures and liquidity risk. If a bank has an approved interest rate sensitivity model, the interest exposure may be incorporated into that model.

Unless otherwise agreed with the FSA, embedded interest rate exposures in equity derivatives should be calculated as in Chapter TE (Equity position risk), Section 5, Paragraphs 5-7, of the FSA Policy Guide/IPRU (BANK) and reported in item B215.

APPENDIX B-VII: EQUITY POSITION RISK

Banks should report their equity portfolio subdivided by country of issuer (rather than by currency). Banks should report separately their equity position in each country listed in Appendix B-VII. For all other countries, banks may choose to report these using the additional lines (using the 2 and 4 character country codes, largest in value first) or aggregate the material countries and report on line U9 / UNAL where the number of currencies exceeds the number of lines provided, or aggregate into a single row (XF / NONM) the reported figures for those countries in which the total gross equity position is less than £1 million, but offsetting of positions should not be applied between countries so aggregated (ie net equity positions for each country should be aggregated disregarding sign).

Standard Method

Gross equity positions (including positions in indices) should be reported in Columns 1, 2 or 3 according to the tests and definitions set out in Chapter TE (Equity position risk), Section 4, of the FSA Policy Guide/IPRU (BANK). Under the standard method positions in "highly liquid" stocks which form a "diversified portfolio" for the country concerned should be reported in Column 2. Positions in highly liquid indices which attract a charge for execution risk should be reported in column 3. All other positions should be reported in Column 1. Banks should include any notional equity instruments underlying positions in derivatives, but should exclude positions in "highly liquid" equity indices, unless they have been broken down into their components for the purpose of offsetting other positions. The capital requirement for specific/execution risk calculated from these positions is the total of Column 1 multiplied by 8% plus the total of Column 2 multiplied by 4% plus the total of Column 3 multiplied by 0%. This capital requirement should not be reported in Appendix B-VII, but in item B230. Column 4 is the sum of Columns 1, 2 and 3.

The absolute value (ie disregarding sign) of net equity positions should be reported in Columns 5 and 6. Banks should include any notional equity instruments, underlying positions in derivatives and also any positions in indices. For “concentrated” positions, ie those which form more than 20% of the total gross equity position for the country concerned, the value of the position in excess of 20% should be reported in Column 5 (disregarding sign), the remainder of the position being included in Column 6. If more than one concentrated position exists within a country portfolio, the reported excess positions should be aggregated without offsetting (ie disregarding sign) or use zone A/B distinction.

Column 7 is the sum of Columns 5 and 6. The capital requirement for general risk calculated from these positions is the total of Columns 5 and 6 multiplied by 8%. This capital requirement should not be reported in Appendix B-VII, but in item B240.

Equity positions arising from underwriting should be included within the gross and net equity positions reported for the relevant country. When discount factors are applied to underwriting positions prior to Working Day Zero and for the subsequent five days, the discounted position should be aggregated with other net equity positions for that country without offsetting (ie disregarding sign). [See Chapter TU (Underwriting in the capital adequacy framework) of the FSA Policy Guide/IPRU (BANK) for more details on the treatment of underwriting.]

Equity Simplified Method

Banks which have chosen to apply the simplified method for equity position risk should report gross equity positions either entirely in Column 1 (attracting an 8% charge). Equity index positions should be included in the gross position for the relevant country. The capital requirement for specific risk, which should be reported in item B230, is the total of Column 1 multiplied by 8%.

Under the simplified method the general risk requirement is calculated in the same way as under the standard method: the capital requirement for general market risk, which should be reported in item B240, is the total of Columns 5 and 6 multiplied by 8%.

APPENDIX B-VIII - COMMODITY POSITION RISK

This section outlines the calculation of capital charges for commodity position risk. For the purposes of this section, a commodity includes any physical product which is or can be traded on a secondary market and positions in respect of contracts whether tangibles or intangibles not covered elsewhere in these reporting instructions. Commodities therefore include agricultural products, base metals, other minerals and various precious metals; however, gold is excluded and is treated as a foreign currency according to the methodology set out under Appendix B-V. Any bank which is unsure whether a particular type of contract should be treated as a commodity for the purposes of this note should contact its line supervisor.

The capital requirements outlined here are intended to cover market-related risks. Banks may in addition face counterparty credit risk; the methodology for calculating the capital requirements in respect of such credit risk remains unchanged as is explained in Appendix A-1. The funding of commodities positions may, moreover, result in a bank incurring interest or foreign exchange exposure. If this is so, then such positions should be recorded as described in Appendices B-V and B-VI.

There are three alternatives for measuring commodity position risk: the internal models approach, the maturity ladder approach and the simplified approach. This section is concerned with the maturity ladder and simplified approaches only. Banks may choose themselves whether they wish to use the simplified or maturity ladder methodologies or some combination of the two.

Definition of a single commodity

Capital charges should be calculated for each commodity separately; long and short positions in the same commodity only should be matched (see below) prior to determining the net open position. For the purpose of these calculations, specific items may be considered as being elements of the same commodity if:

- (a) positions in different sub-categories are deliverable against each other; or
- (b) positions in commodities which are close substitutes for each other such that price movements over a minimum period of one year can be shown to have a stable and reliable correlation of at least 0.9.

Banks may undertake the matching of positions under option (b) above. However they should obtain the prior approval of their line supervisor before doing so. A bank wishing to treat positions in respect of non-identical items as the same commodity should be able to demonstrate that the correlation is valid and to monitor its continuing validity.

Derivative positions

All commodity derivatives and off-balance sheet positions which are affected by changes in commodities prices should be included in the calculation of commodity risk capital charges. These include commodity futures, commodity swaps and options. In applying the maturity ladder and simplified approaches, commodity derivative positions should be converted into notional commodity positions and assigned a maturity as follows:

- futures and forward positions relating to individual commodities should be included as notional amounts of barrels, kilos etc. and should be assigned a maturity based on their expiry date;
- commodity swaps where one leg is fixed price and the other is the current market price should be incorporated as a series of positions equal to the notional amount of the contract, with one position corresponding with each payment on the swap and slotted into the maturity ladder accordingly. The positions will be long positions if the bank is paying fixed and receiving floating and short positions if the bank is receiving fixed and paying floating; and
- for commodity swaps where the legs are in different commodities, each leg should be included in the relevant maturity ladder. No matching or off-setting should be carried out unless the commodities belong to the same sub-category as defined above.
- options and warrants on commodities may be treated under one of two methods. A simple method, called the carve-out, may be used for portfolios which contain (at most) only a small number of written options or warrants, and providing also they contain only plain vanilla and shorter-dated instruments. Banks with larger and/or more complex options portfolios should seek recognition for one of the option risk management models described in Chapter TS (CAD1 models) in the FSA Policy Guide/IPRU (BANK).

Maturity ladder approach

In utilising this methodology, each commodity position (spot plus forward) should be expressed in terms of a standard unit of measurement (barrels, tonnes, kilos). The adjustment of derivative items into notional commodity amounts is dealt with below. For each commodity, contracts or holdings expressed in a standard unit of measurement should be assigned to one of seven maturity or time bands (see below). Physical stocks should be entered into the first time band. A separate maturity ladder will apply to each commodity as defined above.

Table 1 - Time bands and spread rates

Time bands and spread rates

Time band	Spread rate
0-1 month	1.5%
1-3 months	1.5%
3-6 months	1.5%
6-12 months	1.5%
1-2 years	1.5%
2-3 years	1.5%
over 3 years	1.5%

Matched long and short positions in each time band should incur a capital charge. When calculating this charge, the sum of matched positions (i.e. both long and short positions) should be multiplied first by the spot price for that commodity and second by the spread rate for that band (1.5%). Any remaining unmatched position in a time band may be carried forward to the next time band. This amount may then be used to off-set positions in time bands that are further out. As the hedging of positions in different time bands is imprecise, a surcharge equal to 0.6% of the net position carried forward should be added in respect of each time band that the net position is carried forward.

In addition to matching within time bands set by the maturity ladder, banks may also engage in pre-processing (also known as off-setting or optimisation) in respect of commodities which have daily delivery dates. Under this procedure, banks may off-set long and short positions in a given commodity which mature on the same day or which mature within ten days of each other and are not required to carry these positions into the maturity ladder calculation. Banks may treat these ten-day periods as referring to business days. In addition, such ten-day periods need not be fixed and sequential and may overlap; a bank may therefore off-set a long position on day 45 with a short position on day 54 and another long position on day 48 with a short position on day 57 (all expressed in terms of working days). Ten-day off-set periods may cross maturity time bands.

A capital charge of 15% is applied to the residual net open amount after any pre-processing/optimisation, matching and carrying forward is complete.

Simplified approach

In calculating the capital charge for directional risk under the simplified approach, a similar procedure is adopted to that under the maturity ladder approach but with the important exception that all positions are treated as if they are in the same time band. A capital charge equal to 15% of the net position, long or short, is incurred in respect of each commodity. To guard against basis risk, interest rate risk and forward gap risk, the total capital charge for each commodity is subject to an additional capital charge equal to 3% of a bank's gross positions, long plus short, in the relevant commodity.

Reporting instructions - definitions

The total gross value of short and long positions for each commodity group should be recorded in columns A and B. Net open positions for each commodity group should be represented in column C. The total capital charge incurred in respect of the simplified approach should be recorded in column D and the total capital charge incurred through the maturity ladder approach in column E. The total of columns D and E should be recorded in column F.

Banks should use their judgement as to which commodities fall within a particular group. The same data as defined in the preceding paragraph should also be given for the top ten commodity positions, ranked by capital, which are held by the reporting bank. The definition of a commodity is given above. Banks may however agree materiality levels with their line supervisor. In such cases, banks may report separately commodity positions or capital charges that fall below the materiality threshold.

APPENDIX B-IX - BACKTESTING RESULTS

10 Minimum multiplication factor

This is the minimum multiplication factor which the FSA considers to be appropriate. This item should be rounded to 2 decimal places, multiplied by 100 and entered in the relevant box as integers (eg, a multiplication factor of 3.15 should be reported as 315).

20 Number of recorded backtesting exceptions

Reporting institutions should determine daily whether an exception has occurred. In order to determine whether an exception has occurred, the institution should compare the 'actual profit and loss' for the previous trading day with the corresponding VaR forecast for that trading day (calibrated to a one-day holding period and a 99% one-tail confidence limit). An exception occurs each time the actual daily loss exceeds the corresponding VaR estimate. This exception should be recorded. However the FSA may agree in particular cases that it is appropriate for such exceptions not to be recorded.

For this purpose, 'actual P&L' means the day's P&L arising from trading activities within the scope of the model. This measure should be 'cleaned' by excluding material non-market elements which might mask a loss. As part of the model recognition process, a reporting institution will agree its backtesting procedures with the FSA. Inter alia, the reporting institution and the FSA will agree on a definition of profit and loss to be used in backtesting, and on the scope of activities which should be included in the calculation of profit and loss. The profit and loss figures reported here should be based on this agreed definition and scope.

30 Plus factor

The plus factor is based on the number of recorded backtesting exceptions in item 20 :

<u>Exceptions</u>	<u>Pus Factor</u>
Up to 4	0.00
5	0.40
6	0.50
7	0.65
8	0.75
9	0.85
10 or more	1.00

The plus factor should be multiplied by 100 and entered in the relevant box as integers (eg, a factor of 0.40 should be reported as 40).

40 Multiplication factor

This equals the sum of items 10 and 30.

50 Number of backtesting exceptions on total portfolio

A reporting institution should report the number of exceptions recorded over the last reporting period (ie quarter for solo-consolidated/unconsolidated return, half year for consolidated return). These exceptions should be specified under item 51.0. In addition, the five largest daily losses and the five largest VaR measures (based on the one-day holding period and 99% confidence interval) should be reported separately under item 52.0 and item 53.0 respectively.

The VaR measure for backtesting purposes should be calibrated to a one-day holding period and a 99% one-tail confidence limit, and the actual profit and loss is the day's actual profit and loss arising from trading activities within the scope of the model. The VaR for a particular date should be the VaR forecast that was produced as at close of business on the previous trading day.

60 Number of backtesting exceptions on interest rate specific risk

A reporting institution should report the number of exceptions on portfolio for specific risk over the last reporting period. At a minimum, a reporting institution should conduct backtesting on the portfolios containing interest rate specific risk and the portfolios containing equity specific risk separately. The exceptions for interest rate specific risk should be specified under item 60.1. If the reporting institution conducts backtesting on a sub-portfolio level, this should be repeated for each sub-portfolio that is subject to interest rate specific risk.

The VaR measure for backtesting purposes should be calibrated to a one-day holding period and a 99% one-tail confidence limit, and the actual profit and loss is the day's actual profit and loss arising from trading activities within the scope of the model. The VaR for a particular date should be the VaR forecast that was produced as at close of business on the previous trading day.

70 Number of backtesting exceptions on equity specific risk

Report here the exceptions reported on backtesting on the portfolios containing equity specific risk. If the reporting institution conducts backtesting on a sub-portfolio level, this should be repeated for each sub-portfolio that is subject to equity specific risk.

The VaR measure for backtesting purposes should be calibrated to a one-day holding period and a 99% one-tail confidence limit, and the actual profit and loss is the day's actual profit and loss arising from trading activities within the scope of the model. The VaR for a particular date should be the VaR forecast that was produced as at close of business on the previous trading day.

APPENDIX B-X: EXPOSURES COLLATERALISED/GUARANTEED/NETTED

When exposures being netted for the calculation of counterparty risk all fall in the Banking Book, the net exposure should be reported as a risk in Section A (in the Banking Book column). Similarly if all exposures fall in the Trading Book, the net exposure should be reported as a risk in the Trading book (in Section B, with a corresponding entry in the Trading Book column in Section A). If the exposures are divided between both Banking and Trading Book, the net amount should be reported as a risk in the Trading Book in Section B. As soon as a counterparty ceases to be a counterparty to an exposure in the Trading Book, the net amount should be reported as part of the Banking Book.

The residual netted amount should be reported in the relevant risk weighting band for counterparty risk. But see SGN5 for guidance. If the statutory accounting treatment is gross but the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) on netting have been met, and netting has been agreed for Trading Book (Section B) reporting purposes, those exposures netted out should be reported in the zero percent band in the relevant asset category. The adjustments made by the reporting institution to the Trading Book (Section B) in respect of netted exposures should be shown additionally in Appendix B-X.

The above treatment may be applied to netting of on balance sheet exposures, the netting of the replacement cost of off balance sheet exposures, and any netting of the potential future credit exposure (add-on).

BSD3 SECTION C - CONSOLIDATION VIA AGGREGATION PLUS INTO THE TRADING BOOK

Reporting institutions using the aggregation plus methodology to consolidate entities into the consolidated Trading Book should complete this section on consolidated returns. Each entity consolidated via aggregation plus should be entered on a separate line. Entities consolidated using the line-by-line method should not be reported here, but should be included in the consolidated Section B.

Note that incremental capital for large exposures is calculated on a line-by-line basis.

The Trading Book capital requirement for each entity is based on either the FSA's capital requirements or those of the subsidiary's local regulator; each reporting institution should have agreed with its line supervisor which the appropriate treatment for each subsidiary, and should annotate this on each line of the form.

Part of the Trading Book may be consolidated using line by line consolidation and part using aggregation plus; in this case, only the capital requirement for risks consolidated using aggregation plus should be reported here, with the remaining Trading Book positions reported in the consolidated Section B.

The FSA may agree with reporting institutions which are part of large groups that it is appropriate for them to report at the level of an intermediate holding company. The way in which this should be reported on the form will be agreed directly with the institution concerned.

Column A FSA / local regulator's rules applied

Where the FSA's requirements are applied, enter '1'. Where the local regulator's rules are applied, enter '0'. The local regulator's rules should only be used where they are considered to be equivalent to the CAD. The bank should seek the FSA's opinion on whether this is the position in particular cases. For further details see Chapter CS (Consolidated supervision) of the FSA Policy Guide/IPRU (BANK).

Column B Trigger ratio applied

Where the FSA's requirements are applied, the trigger ratio applied should be the consolidated Trading Book trigger ratio. The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and entered in the relevant boxes as integers (eg, a ratio of 8.50% should be reported as 850).

Where local regulator's rules are applied, some local regulators set more than one supervisory ratio, the first ratio being the figure below which the subsidiary risks withdrawal of authorisation or some formal sanction, and another ratio being a figure below which the subsidiary must report its position immediately to the local supervisor but no remedial action or sanction will be imposed. In such cases, the capital requirement reported here should be that according to the former ratio.

Where no supervisory ratio is used, and instead a capital requirement is directly computed, then the subsidiary should report 8% here.

Column C Trigger capital requirement

Institutions should report here for each subsidiary the total capital requirement set by the supervisor whose rules or requirements are applied. If the FSA requirements are applied, the capital charges should be calculated for the subsidiary in accordance with Chapters CS (Consolidated supervision) and CO (Capital adequacy overview) of the FSA Policy Guide/IPRU (BANK) and should be scaled up (ie the capital charge divided by 8% and multiplied by the trigger ratio) by institution's consolidated Trading Book trigger ratio.

If another (CAD-equivalent) supervisor's rules are applied, the capital requirement is the amount set by that supervisor. FSA's consolidated Trading Book trigger ratio should not be applied.

Where the subsidiary's capital requirement for market risks is partly or wholly determined by use of a recognised internal model, then any plus factor applied on a solo basis to that subsidiary should also be applied during the process of aggregation plus consolidation: that is, the capital requirement reported should include the plus factor. It should also use the same multiplication factor as that imposed by the local regulator.

Where the capital requirement of the subsidiary includes an incremental capital charge for large exposures on a solo basis, this charge should **not** be included in column C; the exposures of each entity should be consolidated line-by-line instead and any incremental capital for large exposures will be reported in a consolidated Section B.

Column D Notional risk weighted assets

Report here the notional risk weighted assets applicable to the capital requirement reported in each subsidiary. The notional risk weighted assets equal (column C divided by column B) multiplied by 10000.

Column E Incremental capital for large exposures

Column E is a memorandum item. The incremental capital charge applied to each subsidiary should be reported here.

Columns F-J Capital requirement against which Tier 3 capital may / may not be held

Report in column F the capital requirement for market risks, where local regulator's rules are applied and the local regulator allows the use of Tier 3 capital, or where the FSA requirements are applied.

Report in column G the capital requirements for market risks, where the local regulator does not allow the use of Tier 3 capital.

Tier 3 capital should not be used to support counterparty/settlement risks. However, where the local regulator permits a subsidiary to use Tier 3 capital to support counterparty/settlement risks, the institution may apply to the FSA for permission to use Tier 3 capital to support counterparty/settlement risks in that subsidiary on consolidation. Where the FSA has given express written agreement, these counterparty/settlement risks should be reported in column H.

Report in column J the capital requirement for counterparty/settlement risks against which Tier 3 may **not** be held.

Column K Plus factor

Report here the plus factor applied to the internal model in each entity (where applicable). Where no internal model is used for regulatory purposes, report 'N/A'. Where an internal model is used for regulatory purposes, but the plus factor applied is zero, report '0' (where the factor is greater than zero, this should be multiplied by 100 and reported as integers).

Column L Target capital requirement

Report here the capital requirement when the target ratio is applied. Where the FSA requirements are applied to a subsidiary, the capital requirements reported in column C should be multiplied by the consolidated Trading Book target ratio and divided by the consolidated Trading Book trigger ratio. Capital requirements for subsidiaries consolidated using local regulators' rules need not be scaled up.

Thus, column L equals the greater of column A * column C * (item D150/Column B) and column C

BSD3 SECTION D: CAPITAL ADEQUACY SUMMARY

D10-D30 CAPITAL BASE

D10 Tier 1: Core capital

This equals item A550.

D20 Eligible Tier 2

This equals item A630.

D30 Eligible Tier 3

This equals item A638.

D40 Total Eligible capital

This equals the sum of item D10 to item D30.

D50-D90 BANKING BOOK CAPITAL REQUIREMENTS / RISK WEIGHTED ASSETS

D50 Banking Book trigger ratio

This item equals the Banking Book trigger ratio set by the FSA. The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers (eg, a ratio of 10.5% should be reported as 1050).

D60 Banking Book target ratio

This item equals the Banking Book target ratio set by the FSA. The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers (eg a ratio of 12% should be reported as 1200).

D70 Total Banking Book risk weighted assets

This item collects totals for risk weighted assets and off-balance sheet items, by weighting band, reported in Section A.

Item D70.1 equals zero.

Item D70.2 equals the sum of the amounts reported in the column of weighted Banking Book amounts for the 10% band for all assets and off-balance sheet items in Section A (ie all the 10% band assets from item A40.2 to item A260.2, all the 10% band off-balance sheet items from item A340.2 to item A 440.3) plus the weighted Banking Book amount column for memorandum item A320.2 (which should be a positive number), **less** the weighted Banking Book amount for memorandum item A280.2. (Memorandum item A280. 2 is deducted in the above sum because it will be deducted elsewhere from capital, and yet has also been included within one of the amounts recorded in the risk weighted items above.)

Item D70.3 equals the sum of the amounts reported in the column of weighted Banking Book amounts for the 20% band for all assets and off-balance sheet items in Section A (ie all the 20% band assets from item A30 to item A260.3, and all the 20% band off-balance sheet items from item A340.3 to item A 440.4) plus the weighted Banking Book amount column for memorandum item A320.3 (which should be a positive number), **less** the weighted Banking Book amount for memorandum item A280.3. (Memorandum item A280.3 is deducted in the above sum because it will be deducted elsewhere from capital, and yet has also been included within one of the amounts recorded in the risk weighted items above.)

Item D70.4 equals the sum of the amounts reported in the column of weighted Banking Book amounts for the 50% band for all assets and off-balance sheet items in Section A (ie all the 50% band assets from item A40.4 to item A150.3, and all the 50% band off-balance sheet items from item A340.4 to item A440.5), **less** the weighted Banking Book amount for memorandum item A280.4. (Memorandum item A280.4 is deducted in the above sum because it will be deducted elsewhere from capital, and yet has also been included within one of the amounts recorded in the risk weighted items above.)

Item D70.5 equals the sum of the amounts reported in the column of weighted Banking Book amounts for the 100% band for all assets and off-balance sheet items in Section A (ie all the 100% band assets from item A40.5 to item A260.4, and all the 100% band off-balance sheet items from item A340.5 to item A440.8) plus the weighted Banking Book amount column for memorandum item A320.4 (which should be a positive number), plus item A462, **less** the weighted Banking Book amount for memorandum item A280.5. (Memorandum item A280.5 is deducted in the above sum because it will be deducted elsewhere from capital, and yet has also been included within one of the amounts recorded in the risk weighted items above.)

Item D70.6 is the sum of the original exposure and replacement cost methods for OTC derivatives in the Banking Book (ie the sum of items A452, A472 and A474).

D80 Banking book capital requirements

This equals total Banking Book risk weighted assets (item D70) multiplied by the Banking Book trigger ratio (item D50/10000).

D90-D110 CAPITAL ALLOCATED TO THE BANKING BOOK

Item D110 should equal the capital required to support the Banking Book as reported in item D80 unless there is insufficient capital available to meet the regulatory capital requirements while satisfying the constraints on capital.

Total capital allocated to the Banking Book (ie item D110) should equal the sum of Tier 1 and Eligible Tier 2 capital (ie items D90 and D100). Use as much Tier 2 capital as possible subject to the constraint that *at least half the capital used to support the banking book should be Tier 1 capital* : eligible Tier 2 capital allocated to the Banking Book (ie item D100) should be less than or equal to Tier 1 capital allocated to the Banking Book (item D90). Item D100 should equal item D110 divided by 2 unless (item D110/2) is greater than eligible Tier 2 capital (ie item D20); in this case item D100 should equal D20, and item D90 should equal item D80 **less** item D100.

Tier 3 capital should not be held against Banking Book risks. If item D110 is less than item D80, then the institution may have insufficient capital to meet its regulatory capital requirements and should contact its line supervisor immediately.

D120-D320 TRADING BOOK CAPITAL REQUIREMENTS/NOTIONAL RISK WEIGHTED ASSETS

D120 Exempt from CAD reporting date

This is a simple YES/NO field. If reporting institutions were exempt from the Capital Adequacy Directive capital requirement at the reporting date (see Chapter CB (Trading book/banking book division), Section 4, of the FSA Policy Guide/IPRU (BANK) for details of exemption), they should tick "YES" and progress to item D130. Non-exempt institutions should progress to D140.

D130 If Yes, number of days over threshold in reporting period

If a reporting institution is exempt from the CAD capital requirement at the reporting date, it should report here the number of days on which it has exceeded the lower threshold (euro 15mn or 5% of its combined on- and off-balance sheet positions, see Chapter CB (Trading book/banking book division), Section 4, Paragraph 2, of the FSA Policy Guide (Section 4, Paragraph 3 of IPRU (BANK)) for details) since the last reporting date. If on any day it has exceeded the higher threshold (euro 20mn or 6%), it should complete Section B.

D140 Trading Book trigger ratio

This is the Trading Book trigger ratio set by the FSA for CAD banks. The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers (eg, a ratio of 11% should be reported as 1100).

D150 Trading Book target ratio

This is the Trading Book target ratio set by the FSA for CAD banks. The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers (eg, a ratio of 11.50% should be reported as 1150).

D160-D220 CAPITAL REQUIREMENTS FOR SOLO AND LINE BY LINE CONSOLIDATED ENTITIES

The Standard Approach takes the Trading Book capital "haircuts" from Section B (ie the capital which would be required for these exposures if the Basle minimum 8% capital ratio were applied) and calculates the capital requirements by applying the reporting institution's Trading Book trigger ratio. Where this form is completed on a consolidated basis, the institution's consolidated Trading Book trigger ratio will apply. If the FSA has agreed that it is appropriate for an institution to use a Value at Risk model (Internal Model Approach) in calculating capital requirements, it will also have discussed with the institution extra reporting appropriate to its particular circumstances. The numbers for the Internal Model Approach are reported in item B290 to item B340, and may replace all or part of the Trading Book capital requirements reported in items D180 to D210 above, or for aggregation plus consolidated subsidiaries reported in item D300 below.

D160 Counterparty/Settlement risk

This equals item B100 divided by 8% and multiplied by the institution's Trading Book trigger ratio.

D170 Incremental capital for large exposures

This equals item B140 of section B divided by 8% and multiplied by the institution's Trading Book trigger ratio. Note that when this form is completed on a consolidated basis, item B140 will include incremental capital for large exposures for the consolidated group as set out on Form LE2 (part 5) (ie including subsidiaries consolidated using the aggregation plus method as well as those consolidated line-by-line), since large exposures are consolidated line-by-line only.

D180 Foreign exchange risk

This equals item B180 divided by 8% and multiplied by the institution's Trading Book trigger ratio.

D190 Interest rate position risk

This equals item B220 divided by 8% and multiplied by the institution's Trading Book trigger ratio.

D200 Equity position risk

This equals item B270 divided by 8% and multiplied by the institution's Trading Book trigger ratio.

D210 Commodity position risk

This equals item B284 divided by 8% and multiplied by the institution's Trading Book trigger ratio.

D220 Total capital requirement for trading book risk not subject to models

This equals the sum of item D160 to item D210 above.

D230-D250 INTERNAL MODELS APPROACH**D230 Capital charge for market risk**

This equals item B320 divided by 8% and multiplied by the institution's Trading Book trigger ratio.

D240 Capital charge for specific risk

This equals item B330 divided by 8% and multiplied by the institution's Trading Book trigger ratio.

D250 Total capital requirement for risk subject to internal models

This item should equal the sum of items D230 and D240.

D260-D300 CAPITAL REQUIREMENTS FOR ENTITIES CONSOLIDATED VIA AGGREGATION PLUS

Reporting institutions should complete these items only when the return is submitted on a consolidated basis. The capital requirements for individual subsidiaries consolidated using the aggregation plus methodology (see Chapter CS (Consolidated supervision) of the FSA Policy Guide/IPRU (BANK)) are reported in Section C.

D260 Market risk against which Tier 3 capital may be held

This equals item C30 column F.

D270 Market risk against which Tier 3 capital may not be held

This equals item C30 column G.

D280 Non-market risk against which Tier 3 capital may be held

This equals item C30 column H.

D290 Non-market risk against which Tier 3 capital may not be held

This equals item C30 column J.

D300 Total capital requirements for entities consolidated via aggregation plus

This equals item C30 column C.

D310 Total Trading Book capital requirements

This item is the sum of items D220, D250 and D300.

D320 Total Trading Book notional risk weighted assets

This equals items $([D220 \text{ plus } D250] \text{ divided by item } D140) * 10000 \text{ plus item } C30 \text{ column } D$.

D330-D360 CAPITAL ALLOCATED TO THE TRADING BOOK

These items depend on the total Trading Book capital requirements and on the capital remaining after allocating capital to support the Banking Book. Tier 1 capital remaining after supporting the Banking Book equals item D10 less item D90; eligible Tier 2 capital remaining after supporting the Banking Book equals item D20 **less** item D100.

D330 Tier 1 capital

This item must not exceed the amount of Tier 1 remaining after supporting the Banking Book.

D340 Eligible Tier 2 capital

This item should not exceed the amount of eligible Tier 2 capital remaining after supporting the Banking Book. It should not exceed 200% of Tier 1 capital used to support the Trading Book (ie item D330 multiplied by 2).

D350 Eligible tier 3 capital

This item must not be greater than item D30 for the form to be processed. Institutions should allocate as much Tier 3 capital as possible to the Trading Book, since it should not be allocated to the Banking Book and should not contribute to the adjusted capital base if it is not used. Therefore, maximise the use of Tier 3 subject to the following two constraints: first, capital requirements for counterparty/settlement risk should not be satisfied using Tier 3 capital; second, the amount of Tier 2 capital and Tier 3 subordinated term debt used to satisfy the Trading Book capital requirements should not exceed twice the amount of Tier 1 capital used to meet those requirements (ie item D330 should be at least 50% of the sum of items D340 and D350).

The following method may be used to fill in item D330 to item D350:

- (i) Item D330 should be at least one third of item D310.
- (ii) Item D350 should be maximised subject to it not exceeding either the available Tier 3 capital (item D30) or the capital requirement against which Tier 3 capital may be used (the sum of items D220, D250, D260 and D280 less item D160).
- (iii) Item D340 is the remaining capital which has not yet been met by either Tier 1 or Tier 3 capital. This should equal item D310 less the sum of items D330 and D350.

Tier 3 capital should not be used to meet counterparty / settlement risk capital requirements.

D360 Total capital allocated to the Trading Book

This equals the sum of items D330 to D350. If the institution has sufficient capital after supporting its Banking Book requirements to support its Trading Book requirements, then item D360 should also equal item D310. If item D360 is less than item D310, then the institution may have insufficient capital to meet its regulatory capital requirements and should contact its line supervisor immediately.

D370-D390 ELIGIBLE CAPITAL NOT USED TO SUPPORT EITHER BOOK

D370 Tier 1

This is the amount of Tier 1 capital remaining after supporting the Banking Book and the Trading Book but before deductions (ie item D10 **less** the sum of items D90 and D330).

D380 Eligible Tier 2

This is the amount of Eligible Tier 2 capital remaining after supporting the Banking Book and the Trading Book but before deductions (ie item D20 **less** the sum of items D100 and D340).

D390 Total excess Tier 1 and eligible Tier 2 capital before deductions

This is the amount of total Tier 1 and eligible Tier 2 capital remaining after supporting the Banking Book and the Trading Book but before deduction (ie item D390 equals the sum of items D370 and D380). If item D390 is less than item D470, then the reporting institution may have insufficient Tier 1 and 2 capital left over after supporting the Banking Book and the Trading Book capital requirements to support the deductions from capital; it should contact its supervisor immediately in this case.

D400-D470 DEDUCTIONS FROM CAPITAL

D400 Investment in subsidiaries and associated companies

This equals item A160.

D410 Connected lending of a capital nature

This equals item A280.

D420 Off-balance sheet items of a capital nature

This equals item A340.6, A370.6, A380.6, A390.6, A410.5 and A440.7.

D430 Investments in bank and financial firm capital

This equals item A171.

D440 Qualifying holdings

This equals item A180.4

D450 Deduction plus consolidation

Where a reporting institution is exempt from capital requirements under CAD at both the solo level and consolidated level, and where it has been determined that some or all of its subsidiaries should be consolidated using deduction plus, these deductions should be reported here. The amounts deducted should be the higher of the investment in the affiliate and the affiliate's capital requirement as determined by its deduction from capital base. The assets of the affiliate should not be included in the calculation of weighted risk assets.

D460 Other deductions

All deductions from capital under The Banking Consolidation Directive (2000/12/EC) arising from subsidiaries which are consolidated using aggregation plus are reported here. For subsidiaries consolidated according to the FSA's requirements, the deductions should be for items which would correspond to item D400 to item D460 for that subsidiary. For subsidiaries consolidated using a local regulator's rules, the deduction should be all the deductions from capital made by the local regulator; for example, for subsidiaries of a securities and futures firm, this would include any deductions made from capital when assessing the "financial resources". However, in that case, if a deduction related to a firm which is part of the group consolidation (and which would then result in a double deduction), the institution should agree with the FSA the method of reporting. The FSA may require further deductions relating to any part of the consolidated reporting institution on a case by case basis; these would probably relate to amounts reported in items A290, A300 and A310.

D470 Total deductions

This equals the sum of item D400 to item D460.

D480 Own Funds

This is 'own funds' as defined in Article 34 of the Banking consolidation Directive (2000/12/EC), as amended by CAD Annex V. This directive replaces The Directive on Own Funds, "OFD" (89/229/EEC). This should equal total eligible capital (ie item D40) **less** total deductions from Tier 1 and eligible Tier 2 capital (ie item D470).

D490 Adjusted capital base

The adjusted capital base is the sum of Tier 1 capital, eligible Tier 2 capital and **used** Tier 3 capital **less** deductions from capital (ie the sum of items D10, D20 and D350 less item D470).

D500 Total capital requirements

This represents the Banking Book and Trading Book capital requirements when the trigger ratios are applied. This equals the sum of items D80 and D310.

D510 Total risk weighted assets

This represents the Banking Book risk weighted assets and Trading Book notional risk weighted assets. This item equals the sum of items D70 and D320.

D520 Published risk asset ratio

This is an expression of the institution's capital adequacy relative to the Basle minimum 8% capital ratio. It is the ratio of the institution's adjusted capital base to the sum of its Banking Book risk weighted assets and its Trading Book notional risk weighted assets, expressed as a percentage. It equals item D490 multiplied by 100 and divided by item D510.

The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers in the relevant box (eg, a ratio of 10.50% should be reported as 1050).

D530 Trigger capital adequacy ratio

This is the institution's capital adequacy relative to its trigger capital requirements. It is the ratio of the institution's adjusted capital base to its supervisory capital requirement according to the trigger ratios set by the FSA (or by the local regulator for entities consolidated using the aggregation plus methodology). The ratio is expressed as a percentage: an institution with a trigger capital adequacy ratio less than 100 has insufficient capital to meet its regulatory requirements and it should contact its line supervisor immediately. This item should equal (item D490 multiplied by 100) and divided by item D500.

The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers in the relevant box (eg a ratio of 110.40% should be reported as 11040).

D540 Target capital adequacy ratio

This is the institution's capital adequacy relative to its supervisory target capital requirements. It is the ratio of the institution's adjusted capital base to its supervisory capital requirement according to the target ratios set by the FSA. The ratio is expressed as a percentage: an institution with a target capital adequacy ratio less than 100 has insufficient capital to meet its regulatory requirements and it should contact its line supervisor immediately. This item should equal item D490 multiplied by 100 and divided by the sum of (item D70 multiplied by item D60/10000, item D150 divided by item D140 and multiplied by items [D220 plus D250], and item C30 column L).

The ratio (ie percentage rounded to 2 decimal places) should be multiplied by 100 and reported as integers (eg a ratio of 105.35% should be reported as 10535).

Large Exposures (Form LE2)

Introduction

Form LE2 should be completed quarterly by UK banks only, as defined in the Handbook Glossary of Definitions. These notes should be read in conjunction with all relevant chapters set out in the Financial Services Authority Banking Supervisory Policy Guide or the Interim Prudential Sourcebook for Banks (and the Supervisory Guidance Notes (SGN) in this folder) in force at the date to which the form relates. There are a number of ways in which the Financial Services Authority (FSA) may seek additional information to be reported by the reporting bank either regularly or in respect of certain reporting dates only.

For convenience, these reporting instructions will refer to the FSA Banking Supervisory Policy Guide as 'FSA Policy Guide' and the Interim Prudential Sourcebook for Banks as 'IPRU (BANK)'.

Denomination of Reported Exposures

Exposures should be reported in £000s but a different currency denomination may be agreed in writing with the FSA. Claims, loans and advances, whether denominated in currencies other than sterling, gold and other precious metals or other commodity units should be translated into sterling at the closing middle market spot rate for the day of the report. Where the maximum exposure during a reporting period is required to be reported, the closing middle market spot rate for the day on which the maximum exposure occurs should be used.

Exposure Limits and Concessions

Prior agreement should be obtained from the FSA before an exposure is entered into which exceeds 25% of LECB. Such agreement may be obtained for: (1) exempt exposures eg interbank exposures with a maturity of one year or less; (2) exposures covered by collateral¹; (3) exposures covered by guarantees²; (4) exposures within the scope of a connected exposure concession; (5) exposures covered by a 1-3 year derivative concession; or (6) exposures subject to soft limits. The written prior agreement of the FSA should be obtained before any exposures falling into any of the aforementioned categories are entered in the appropriate columns.

An exposure

See SGN9. For the purpose of reporting large exposures on both an unconsolidated/solo-consolidated and consolidated basis, an exposure should be measured as the amount at risk arising from the aggregate of the reporting bank's business, whether conducted on or off-balance sheet³.

¹ Only cash and Zone A central government and central bank securities should be regarded as eligible collateral.

² Either parental or third party guarantees.

³ **NOTE :** Exposures entered into by a bank as a trustee are excluded from the scope of the large exposures return.

A counterparty

See SGN11 to SGN13 and SGN19 to SGN23.

References to banks hereafter in these reporting instructions are intended to include banks, building societies and recognised investment firms (as defined in SGN20), as well as recognised clearing houses and recognised exchanges (these being listed in Chapter BC (Credit risk in the banking book), Section 5, of the FSA Policy Guide/IPRU (BANK)).

The identity of a counterparty will generally be one of the following:

- (i) the borrower (customer);
- (ii) the person guaranteed (where the reporting bank is providing such guarantee);
- (iii) in the case of a security held, the issuer of a security;
- (iv) or in the case of a derivatives contract the party with whom the contract was made.

In some circumstances, it may be uncertain which of two counterparties is the primary obligor (eg on a bill where there is a claim on both the drawer and the acceptor). When in doubt, the reporting bank should either report the exposure twice, as an exposure to each counterparty, or ask the FSA for its view. However, in the case of:-

- (a) bills held which have been accepted by a bank (other than the reporting bank), the claim should be reported as a claim on a bank;
- (b) per aval endorsements on the bills held by the reporting bank, the claim should be reported as a claim of over one year maturity on the avalising bank;
- (c) transactions where a third party has provided an explicit unconditional irrevocable guarantee, may be reported as an exposure to the guarantor. Banks should seek the FSA's agreement to their reporting in this way. In agreeing this, the FSA would expect banks to include a section on guaranteed exposures in their large exposures policy statement. In particular, the FSA would expect a consistent approach to be adopted in the reporting of such exposures. The FSA does not expect banks to report exposures to guarantors without having first approved the credit risk on the guarantor and the type of the exposure under the bank's normal credit approval procedures. In the case of bills issued by Westminster Council on behalf of London boroughs (within the terms of S.35 of the Greater London (General Powers) Act 1969) the exposures should be reported as an exposure to Westminster Council; and
- (d) banks should exercise care in identifying the entity with whom they have entered into a contract. For example, where the reporting institution funds the activities of a company that trades on an exchange, whether for that company's own account or on behalf of clients, the full amount of such funding should be reported as an exposure to that company. An alternative reporting method may however be agreed with the FSA in writing.

Coverage

Form LE2 should be completed both on an unconsolidated/solo-consolidated basis and, where relevant, a consolidated basis:-

- (a) Exposures arising in all of the bank's branches (including overseas branches) and any subsidiaries which are included for the purpose of the bank's 'solo' (unconsolidated) capital ratio should be reported in Form LE2 completed on an unconsolidated/solo-consolidated basis. Where subsidiaries are included, this should be agreed in writing with the FSA.
- (b) Exposures in companies reported under (a) above, together with exposures arising in group companies which are included for the purpose of the bank's consolidated reporting, should be reported on Form LE2 on a consolidated basis. Where such group companies are included, this should be agreed in writing with the FSA.

Important: All companies subject to consolidation should be included in a reporting bank's consolidated large exposures return regardless of the technique used for consolidation on the Form BSD3. The scope of a bank's solo and consolidated supervisory returns should be determined by the principles set out in Chapter CS (Consolidated supervision) of the FSA Policy Guide/IPRU (BANK). Whether there are such companies to be included should be agreed in writing with the FSA.

Large Exposures Capital Base (LECB)

The capital base used as the basis for monitoring and controlling large exposures should be calculated in the same way as that used for capital adequacy monitoring ie the sum of allowable Tier 1 and Tier 2 capital less any deductions. The LECB should be agreed in writing with the FSA on an annual basis and reported on the front of Form LE2. Where holdings of tradeable securities subject to soft limits have been agreed with the FSA, an adjusted capital base incorporating Tier 3 capital may be used to measure exposures against. This adjusted capital base should be reported in Part 5.

Netting

The circumstances in which net exposures are considered appropriate for LE2 purposes are set out below.

1 On balance sheet

- (a) credit balances should not be offset against debit balances unless the provisions set out in Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) are met.

Note: Back-to-backs allowed to be netted out on returns made to the Bank of England for statistical purposes should not be netted out in calculating the size of an exposure for LE2 purposes.

- (b) where a repo/reverse repo or similar transaction is involved, this should be consistent with Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK). Netting of claims and obligations arising from all repos/reverse repos held in the trading book will then be considered acceptable.

However, note that in the banking book netting of counterparty risk will not generally be considered acceptable because:

- (i) repos should attract issuer risk on the securities repoed out;
- (ii) reverse repos where eligible collateral⁴ is reversed in should attract issuer risk on that eligible collateral.

As there is no counterparty risk reportable in the above circumstances it follows that there are no claims capable of being netted.

The only circumstances in which counterparty risk will arise is when a reverse repo is undertaken where the collateral reversed in is ineligible. Such reverse repos should be reported as if an unsecured cash loan had been made to the counterparty to the reverse repo. It is acceptable for such counterparty risk to be reported net of obligations to the same counterparty arising from:

- (i) other reverse repo business where eligible collateral has been taken, with the same counterparty and only to the extent that the value of the collateral taken is in excess of the cash paid away;
- (ii) on repos with the same counterparty and similarly only to the extent that the cash reversed in exceeds the value of the securities repoed.

Reporting banks wishing to net counterparty risk arising from repo business in the banking book should first contact their line supervisors. The FSA would consider that it was appropriate to report on this basis where the bank's systems were adequate for this purpose.

Risk cushion factors, when applicable, should be reported gross. The residual maturity of the securities should be used to calculate the risk cushion factor (not the maturity of the repo transaction). Where both legs of the transaction involve securities, the risk cushion factor should be calculated using the maturity of the longer dated securities.

2 Off balance sheet netting

Amounts due in respect of foreign exchange, interest rate, equity and commodity related transactions may be reported net if the net amount derived is pursuant to the application of a bilateral agreement (between two counterparties) based upon netting by novation (see SGN26).

⁴ For these purposes eligible collateral is restricted to Zone A central government and central bank securities.

To benefit from close-out netting, the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) should be met; if they are, then the credit equivalent amount of a bank's portfolio of contracts with each counterparty should be obtained by adding together:

- (a) the net replacement cost of all nettable contracts with a positive mark to market value offset by all contracts with a negative mark to market value;
- (b) for each contract in the portfolio the amount for the potential future credit exposure (add-on) as described elsewhere.

NOTE: For these purposes, the maturity of the net replacement cost should be taken as ≤ 1 year if there is at least one ≤ 1 year obligation included under the netting agreement. In such circumstances reporting of net current exposure to banks may only be reported in Part 3(i) of the Form.

If there are no ≤ 1 year obligations but there exist obligations of >1 year but ≤ 3 years then the maturity of the net replacement cost figure should be taken to fall between 1 and 3 years also.

The netting of add-ons is considered acceptable where the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) have been met (see SGN35). However, where the potential future exposures (add-ons) cannot be netted, these should be calculated and reported according to the residual maturity of the contract (ie add-ons relating to >1 year contracts should be reported gross in either Part 3(i) or 3(ii)).

When dealing with a counterparty incorporated in a netting friendly jurisdiction but which has subsidiaries or branches located in netting unfriendly jurisdictions, transactions with those subsidiaries and branches should continue to be reported gross. Thus the aggregate exposure to such a counterparty will be a mixture of net and gross exposures.

The Amount at Risk

For exposures arising in the banking book the amount at risk should, with certain exceptions detailed below (or otherwise advised to the reporting bank), be reported as the book value of the reporting bank's actual or potential claims, contingent liabilities or assets.

Exposures should be calculated in accordance with UK generally accepted accounting practice. In certain cases the reporting bank may wish to adopt an alternative accounting practice. Such cases should be discussed with the FSA in order to determine whether reports are acceptable on that basis. The accounting practice adopted for the reporting of exposures should, unless otherwise stated below, be consistent with that used for the calculation of the reporting bank's capital base.

For exposures arising in the trading book, all positions should be marked-to-market daily. (However, if for cash items with a residual maturity of one month or less the bank wishes not to do this, it should seek the prior approval of the FSA in writing.) Where a market determined price is not readily available, the reporting bank may generate its own mark-to-market valuation. Positions should be valued in accordance with the procedures outlined in the trading book policy statement agreed with the FSA.

Interest and Dividends

The value of outstanding claims should include interest and dividends due but not yet received if such amounts are reflected in the reporting bank's capital base. However, in recognising the systems difficulties of reporting inclusive of such amounts, the FSA may agree, in writing, for the following treatment to be applied to exposures in the Banking Book. Provided the exposure is well below 25% of LECB, or a pre-agreed limit, there is no need for the bank to include the accrued interest element in the reported figure. If an exposure is close to the 25% level, or a pre-agreed limit, then the bank should be able to demonstrate that the exposure, inclusive of the accrued interest element, is below the limit and to guarantee that the limit is not breached. This treatment should not be adopted for Trading Book exposures. Since these exposures are marked to market daily, the accrued interest element is included in the mark to market valuation. (Unearned finance charges in relation to instalment lending should be excluded.)

Securities Positions and Positions Arising from Derivative Contracts

(i) Issuer risk

Where a bank deals in securities the exposure (to the issuer of the security) should be calculated as follows:

- (a) Banking Book - the sum of the excess, where positive, of the book value of all long positions over all short positions, (ie the net long position), for each instrument issued by the issuer. A long position in one security issue should not be offset by a short position in another security issue made by the same issuer except for securities issued by central governments and central banks.

Netting of long and short positions may be adopted for securities issued by central governments and central banks, where the criteria set out in SGN27 are all met.

- (b) Trading Book - the excess of the current market value of all long positions over all short positions for each instrument issued by the counterparty should first be calculated. The exposure is then calculated as the excess, where positive, of the current market value of all long positions over all short positions in **all** the financial instruments issued by the counterparty. (Positions should not be netted within groups of closely related counterparties.)

Positions should not be netted between banking and trading books.

Forward Transactions

For both Banking and Trading Book calculations, commitments to buy securities at a future date (including futures contracts) should be included as long positions and forward sales as short positions. Where a bank has made a commitment to an issuer under a note issuance facility to purchase, at the request of the issuer, securities which are unsold on the issue date, these should be added to the long positions. (Note issuance facilities include revolving underwriting facilities, Euronote facilities and any similar arrangements.) A net short position does not give rise to an exposure covered by this return.

Options Positions

The following treatment should be given to options:

- (a) on securities
 - (i) Written Put - long position in the underlying security.
 - (ii) Purchased Put - short position in the underlying security
 - (iii) Purchased Call (where the contract has been given a book value in the accounts of the reporting institution) - long position in the underlying security.
 - (iv) Written Calls - do not give rise to an exposure covered by this return.
- (b) on an index
 - (i) Broadly based and cash settled indices - there is no requirement for these indices to be broken down into their constituent elements. The highly liquid equity indices listed in Chapter LE (Large exposures), Section 12, of the FSA Policy Guide/IPRU (BANK) may be regarded as broadly based.
 - (ii) Narrowly based/non-cash settled indices - these indices should be decomposed into their component stocks in order to calculate the issuer risk on the underlying.

In order to calculate the amount to be included in the issuer risk calculation, the notional principal valued at the strike price should be used.

Repos/Reverse Repos

- (a) Banking Book - For repos in the banking book the security sold should be included as a long position. Reverse repos should be treated as loans unless eligible collateral is held (ie Zone A government securities and cash) in which case they should be regarded as collateralised loans and the collateral held included as a long position. (The forward leg should not be included as a short position.) Where collateral is ineligible the counterparty risk on the cash loan should be reported in full.
- (b) Trading Book - For both repos and reverse repos in the trading book include outgoing security if the reporting bank is the ultimate owner. In addition the counterparty risk on both repos and reverse repos should be reported (see below Counterparty Risk - Repos/Reverse Repos).

For stock lending transactions the same reporting treatment as in respect of repos apply and those in respect of reverse repos should be adopted for stock borrowing.

Underwriting commitments

This covers discrete issues of securities (equities and bonds) only. The treatment for underwriting set out here does not extend to any commitment of a continuing or revolving nature. The exposure arising from other underwriting commitments should be taken to be the full amount of the sum underwritten.

There are two distinct phases in the reporting of underwriting commitments in respect of securities issues: (i) date of initial commitment until Working Day Zero and (ii) Working Day Zero onwards. (Date of initial commitment and working day zero are defined in Chapter TU (Underwriting in capital adequacy framework) of the FSA Policy Guide/IPRU (BANK).)

- (i) Date of initial commitment until working day zero - for both non-expert and expert underwriters notification should be on the basis of a credit equivalent amount (CEA). Amounts sub-underwritten or sold forward should only be offset against the underwriting commitment when calculating the CEA when such commitments are received prior to the reporting institution committing to the client. The CEA should be calculated (on the basis of the net amount where applicable) using the credit conversion factors set out in the following table:

	Implied Conversion Factor	Post-notify (10%) (1)	Pre-notify (25%) (2)	Maximum "expert" guideline (3)
All debt instruments	18.75%	53%	133%	400%
Preference share, constituents of the FT-SE 100 index, and related convertibles, US S&P 500, Japan Nikkei 225	23%	44%	108%	325%
Constituents of FT All-share index & related convertibles; other major non-UK equities	30%	34%	83%	250%
Other equities with a normal market size and other second tier non-equities	43%	24%	58%	175%
Other UK and non-UK equities and related convertibles	75%	14%	33%	100%

(1) The nominal amount (expressed as a percentage of capital) which corresponds to the post-notification threshold when converted into credit equivalent terms.

(2) The nominal amount (expressed as a percentage of capital) which corresponds to the post-notification threshold when converted into credit equivalent terms.

(3) The lower of 400% nominal or three times the pre-notification trigger. (The latter applies in all cases other than debt underwriting.)

- (ii) Working Day Zero Onwards - post working day zero exposures for both experts and non-experts are calculated on the same basis. The measure of exposure is based upon the net underwriting position (= gross underwriting commitment + purchases - sales - sub-underwritings) multiplied by a discount factor. Discount factors should be applied as follows:

Working Day 0	100%
Working Day 1	90%
Working Day 2	75%
Working Day 3	75%
Working Day 4	50%
Working Day 5	25%
after Working Day 5	0%

The amount to be reported = the net underwriting position x (100% - discount factor). This net exposure should be aggregated with other exposures to the issuer. Holdings of securities as a result of an underwriting commitment are also eligible for soft limits as set out below.

(ii) Counterparty risk

Forward Transactions

Forward sales and purchases of securities in both the banking and trading books give rise to a counterparty exposure. When receiving securities in exchange for cash or securities the reporting bank should report the higher of:

- (i) zero plus an add-on for potential future exposure; or
- (ii) the difference between the market value of the securities to be received and the contracted value for forward delivery plus an add-on for potential future exposure.

When receiving cash or securities in exchange for securities, the reporting bank should report the higher of:

- (i) zero plus an add-on for potential future exposure; or
- (ii) the difference between the contracted value for forward delivery and the market value of the securities to be delivered plus an add-on.

The amounts to be received or given should include all cash flows related to the securities and the transactions.

The add-on should be calculated in accordance with the risk cushion factors set out in Chapter TC (Counterparty risk in the trading book), Section 3.3.3, of the FSA Policy Guide/IPRU (BANK).

In addition to these types of exposure, where compensation is due to be paid in the future in exchange for a contract, the current market value of the payment due should be reported.

Settlement of transactions

(a) Free Deliveries

An immediate exposure arises where the reporting bank has settled its side of the transaction but not yet received the countervalue ie final funds or an undertaking to effect transfer of funds by close of business on the same business day. Where the reporting institution has provided the cash the current market value of the asset being purchased should be reported for trading book exposures, and the book value for banking book exposures. Where the reporting institution has the asset the cash due should be reported for both banking and trading book exposures. (Where the transaction is effected across a national border there is a window of one working day.)

(b) Unsettled Securities Transactions

In both the banking and trading books, claims on a counterparty arising in the course of settlement of a securities transaction where neither the reporting institution nor the counterparty have settled their side of the transaction should be reported where settlement is 5 days overdue. The exposure should be calculated as the difference between the amount due and the current market value of the instrument.

Repos/Reverse Repos

For repos/reverse repos in the trading book the exposure to the counterparty should be calculated as the mark-to-market differential between the collateral provided by the reporting bank and that received from the counterparty. In the case of undocumented repos, an add-on for potential future exposure should be included in accordance with the risk cushion factors set out in Chapter TC (Counterparty risk in the trading book), Section 3.3.3, of the FSA Policy Guide/IPRU (BANK).

Interest Rate, Foreign Exchange Rate, Equity and Commodity Related Contracts

For exposures relating to over-the-counter interest rate (OTC), foreign exchange rate, equity and commodities contracts the amount at risk for the reporting of large exposures may be less than the nominal exposure. These exposures should be reported and aggregated with other exposures to the same counterparty.

Interest rate related contracts: single currency interest rate swaps, basis swaps, forward rate agreements and products with similar characteristics, interest rate options purchased (including caps, collars and floors purchased as stand-alone contracts) and similar instruments should be reported as interest rate related contracts. Contracts of a similar nature concerning bonds should also be included in this category.

Foreign exchange rate related contracts: cross currency swaps, cross currency interest rate swaps, forward foreign exchange contracts, currency options purchased and similar instruments should be reported as foreign exchange related contracts. Contracts of a similar nature concerning gold should also be included in this category.

Equity and Commodities Contracts: Equity options purchased, swaps and similar contracts, commodity options purchased, swaps and similar instruments involving physical commodities.

The amount at risk should be calculated as the credit equivalent amount (CEA) of these items which should be arrived at by the replacement cost method. For Banking Book transactions, this should be consistent with reporting on Form BSD3. For Trading Book exposures, valuations should be made in line with the valuation procedures outlined in the Trading Book Policy Statement which should be agreed with the FSA.

Note: *No CEA should be reported for either contracts traded on exchanges where they are subject to daily margining requirements or for OTC foreign exchange contracts (except contracts concerning gold) with an original maturity of 14 calendar days or less. When trading on an exchange with daily margining requirements, credit exposure only arises in respect of initial margin and excess variation margin payments. These exposures should be reported as on-balance sheet exposures to the exchange (or its associated clearing house).*

Mark-to-market amount

Reporting banks should mark-to-market in a prudent and consistent manner. See SGN34 for further guidance.

Notional principal amount

For exchange rate contracts and bond options, the notional principal amount should be taken as the amount of principal underlying the contract, as regards the asset (currency, equity, bond or commodity) being received by the reporting bank, translated into sterling at the spot exchange rate on the reporting date.

For an amortising swap, ie one based on a steadily declining notional principal, the notional principal should be taken as the amount outstanding at the reporting date.

For a swap based on a fluctuating level of principal, the notional principal should be taken as the maximum notional principal outstanding over the remaining life of the swap.

For amortising interest rate swaps with cash-flow mismatches in payments, the notional principal may differ between the two sides of the swap. The notional principal amount should be taken as the amount of principal underlying the contract as regards the asset being received by the reporting bank.

For swaps involving reference assets, the notional principal should relate to the total volume over the whole contract (not simply the volume per settlement period).

For options purchased, the notional principal should be taken as the underlying principal on the option, using for currency options, the received currency at the spot rate on the reporting date.

For contracts with multiple exchanges of principal the potential future exposure should be multiplied by the number of payments still to be made under the contract.

Banks should not generally enter into contracts at off market prices. If any contracts are undertaken at off market prices banks should contact their line supervisor to discuss the background and to agree a reporting treatment. Where swaps are arranged at off-market rates or where options begin deep in the money, contracts may include an element of “disguised” credit exposure. In general, the FSA would consider a disguised credit exposure to be present where the contract either starts with a significantly positive mark to market, or because of an assumption of unchanged interest and exchange rates. In the case of interest rate or cross currency swaps arranged at off-market prices, the FSA will require special treatment for contracts which have been created in order to disguise a credit exposure to the counterparty. Such cases should be discussed with the FSA.

Remaining maturity

The remaining maturity of a swap should be taken as the time until the final expiry of the swap. For FRAs and similar products, the remaining maturity should be taken as the time from the reporting date until the end of the period to which the interest rate underlying the contract relates (see SGN34 for more detail generally).

For contracts that are structured to settle outstanding exposure following specified payment dates and where the terms are reset such that the mark to market value of the contract is zero on these specified dates, the residual maturity should be set equal to the time until the next reset date. However, in the case of interest rate contracts with a residual maturity of more than one year, the potential future exposure matrix multiplier may be subject to a floor of 0.5% even if there are reset dates of a shorter duration.

Replacement cost methodology

The credit equivalent amount should be calculated in accordance with the reporting instructions set out in SGN34.

Reportable Exposures

Exposures to the following categories of counterparties should be reported separately:-

- (i) An individual non-banks counterparty
- (ii) Closely related counterparties
- (iii) A connected counterparty
- (iv) A bank, building society, recognised investment firm, recognised clearing house or recognised exchange
- (v) A central government
- (vi) Zone A/Zone B countries

Exposure to individual, or groups of closely related, counterparties should be reported in columns 2 and 3 in each category of counterparty in descending order by size. Exposures to individual counterparties which constitute a group of closely related counterparties (see SGN12) should be reported as one exposure.

Where reporting is on a gross basis, the exposure at the reporting date should be included in column 2(a) and the maximum during the period in 2(b). Where the terms outlined in Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) are met, such that reporting is on a net basis, the exposure at the reporting date should be included in column 3(a) and the maximum during the period in 3(b).

Exposure Categories

PART 1

Exposures to individual non-bank counterparties and groups of closely related non-bank counterparties should be reported in this section. Exposures to international organisations (including multilateral development banks and the Bank for International Settlements (BIS)) should be included here.

The 20 largest exposures should be listed (unless a lower number has been agreed by the reporting bank with the FSA) and any other exposure which exceeds 10% (unless a lower % has been agreed with the FSA) of the reporting bank's capital base.

PART 2

This includes exposures to individual non-bank counterparties and groups of closely related non-bank counterparties which are connected to the reporting bank should be reported in Part 2(i). Exposures to banks connected to the reporting bank should be included in Part 2(ii). Any amounts exempt under a connected exposure "concession", agreed in writing with the FSA, should be reported in column (7).

PART 3

This covers exposures to banks, building societies, recognised investment firms, recognised clearing houses and recognised exchanges. Additionally, where the reporting bank is exposed to a bank which is closely related to a non-bank counterparty to which the reporting bank is also exposed and the exposure to the bank and *the non-bank counterparties* taken together exceeds 10% of the reporting bank's capital base, the exposure to the bank should be reported here in Part 3(i) if the exposure is ≤ 1 year in maturity and that part of the exposure $>$ one year maturity, if any, reported in Part 3(ii). Exposures to counterparties closely related to the counterparties reported in column 1 should be reported in column 5.

The 20 largest exposures (unless a lower number has been agreed by the reporting bank with the FSA) and any other exposures which exceed 10% of the reporting bank's large exposures capital base (LECB) should be reported. Where a loan is repayable in instalments the amounts should be reported in parts (i) and (ii) in accordance with the maturity of the instalments, such that the amount repayable within one year will be included in Part 3(i) and that part due to be paid in over 1 year will be included in Part 3(ii). A security with optional redemption dates which are exercisable by the holder should be classified according to the first optional redemption date. Exposures arising from repos/reverse repos should be reported in 3(i) or 3(ii) according to the maturity of the repo contract not the security repoed.

PART 4

Exposures to central governments and central banks which exceed 10% of the reporting bank's capital base should be included in this section. Exposures to local authorities, states, other public sector bodies and state owned banks which it is appropriate to treat as an exposure to a central government should also be reported here (such cases should be agreed with the FSA). The reported exposures should be split between Zone A and Zone B.

PART 5

Holdings of tradeable securities in the Trading Book which are subject to soft limits should be included in this section.

Where an exposure to an issuer arising as a result of inclusion of holdings of tradeable securities in the Trading Book exceeds 25% of LECB the FSA may agree in writing that the use of soft limits is appropriate. Where the FSA has been pre-notified of and agreed a reporting institution's limits for soft limited exposures, exposures which do not exceed these limits need not be further pre-notified to the FSA although they should be post-notified on the Form LE2 and subject to incremental capital requirements. Such exposures should be marked with an (S) and listed in Part 5 of the Form. The capital charges listed here should be carried across to items B120 and B130 of the Form BSD3 and any incremental capital charge calculated on that form.

Reducing an Exposure

Syndicated loans/Sub-participations

Where the reporting bank acts as manager or co-manager of a loan financed by more than one institution, the other participating institution's share of the loan should not be reported as an exposure by the reporting bank. The participating institution, however, should have made a deposit with the manager covering its full share of the loan, and there should be no recourse to the manager by the participating institution should the borrower fail to repay. A participating institution should report its exposure as an exposure to the ultimate borrower.

Bad debt provisions

The book value should be reported gross of provisions for bad and doubtful debts. Similarly, where an exposure is marked to market the valuation should be gross of any provisions. Such provisions should however be reported in column 4 and the calculation of exposures against large exposures limits in Chapter LE (Large exposures) of the FSA Policy Guide/IPRU (BANK) should be made using exposures net of specific provisions (ie figures in column 2 or 3 of the return net of column 4). Exposures should also be reported net of write-offs which have occurred since the last reporting date. These write-offs should be reported in a schedule to the form.

Exposures secured by Eligible Collateral

Where an exposure is fully secured by cash collateral in accordance with the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK), the value of collateral held should be reported in column 5(a) of Parts 1, 2 and 4, and column 6(a) of Parts 3(i) and 3(ii). Where Zone A government securities are held as collateral, the value of the securities held should be reported in column 5(b) of parts 1, 2 and 4, and 6(b) in parts 3(i) and 3(ii).

Exposures covered by guarantees

Where an exposure is guaranteed, either by the parent bank of the reporting bank or a third party, the amount so guaranteed should be reported in column 6(a) and 6(b) respectively in Parts 1, 2 and 4 and column 7(a) and 7(b) in parts 3(i) and 3(ii). If an exposure to the original counterparty is reduced by virtue of a guarantee the exposure to the guarantor should be recorded.

1-3 year derivative concession

Derivative exposures with a maturity of over one year but under three years may be weighted at 20% for the calculation of exposures against limits in appropriate cases. Such cases should be agreed in advance in writing with the FSA. For reporting, these exposures should be included un-weighted in amounts reported in column 2 or 3 of Part 3(ii). The amount exempt under this treatment should be reported in column 8.

Connected exposure concessions

Where a connected exposure concession eg a treasury concession has been agreed, amounts covered by the concession should be included in column 7 of Part 2(i) and Part 2(ii).

Amount included in clustering ratio

This should be the gross/net exposure less any amounts allowed to be set off under columns (4)-(9) where relevant. **Care:** amounts reported as being covered by a third party guarantee may not be excluded from the clustering ratio calculation depending upon the status of the guarantor. All entries in the clustering ratio columns in Parts 1-4 should be summed and the total reported in the box provided in Part 4. This total should be measured as a % of capital base so as to monitor compliance with the limit agreed with the FSA for the reporting bank.

LIQUIDITY RETURN (FORM LR)

These instructions should be read in conjunction with the Supervisory Guidance Notes as necessary. For convenience, these reporting instructions will refer to the Supervisory Guidance Notes as 'SGN', the FSA Banking Supervisory Policy Guide as 'FSA Policy Guide' and the Interim Prudential Sourcebook for Banks as 'IPRU (BANK)'.

General Notes¹

Completion and submission to the FSA

- 1 Institutions should submit completed and signed returns to the Financial Services Authority (FSA) c/o Monetary and Financial Statistics Division of the Bank of England. All returns should be sent to the address printed on the cover page of the form within ten business days after the reporting date, or twelve business days for those institutions reporting electronically. For reporting dates and the basis of reporting, see SGN3 and SGN Appendix I respectively. Institutions should note that the reporting cycle is dependent upon the basis on which they report to the Bank of England on Form BT (see Note 3 on the front of the Form LR)².
- 2 Institutions may choose whether they report on a trade date or settlement date basis. However, the institution should report consistently on one basis both across the return and between reporting periods.
- 3 Branches of European Union and non-European Union institutions (EEA banks and UK branches of banks established outside the EEA) who have agreed a global concession with regard to liquidity reporting will not normally be required to complete this return. This is because their liquidity is supervised by the home supervisor. However, the supervisor may request such information in a similar format should the need arise. .

Cross validation

- 4 This return does not cross reconcile with any other prudential or statistical returns.
- 5 Validations are carried out internally within the form. In addition, the FSA will wish to compare for reasonableness the figures provided on this return with those provided on other returns.

Liquidity reporting in individual currencies

- 6 This return should be completed on the basis of all currencies combined. Currencies should be translated into sterling (or euros if appropriate, see SGN2a) at the closing spot mid price on the reporting date and entered in the relevant time band. However, the FSA may require institutions to provide management information on positions in individual currencies in the event of difficulties either in the individual institution or with the currency in question.

¹ The FSA has produced a text-based Distance Learning pack titled "Measuring banks' liquidity: Form LR". It is designed to help users understand the FSA's liquidity reporting guidance using Form LR. It is principally targeted at those responsible for overseeing liquidity reporting to the FSA and managers in treasury functions; but it could also be of benefit to a wider audience. It is suitable for a range of banks carrying out a wide range of activities.

The material comes in two packs - the Resource Pack and a Learning Pack, one providing a source of information and the other exercises to test understanding. A set of both packs costs £95. Special offers are available if you want more copies of the Learning Pack to go with one Resource Pack.

For more information or to order a copy, please contact the Industry Training Helpline on 020 7676 0752

Cashflow vs maturity analysis approach

- 7 The policy aim is to ensure that institutions hold sufficient liquid assets to meet their obligations as they fall due and the FSA agrees mismatch guidelines to help secure the policy objective.
- 8 The form is there to monitor institutions' compliance with their guidelines.
- 9 It does this in two ways: firstly, by including a maturity analysis of known and/or potential cashflows out to six months and secondly, by a maturity analysis of assets and liabilities from 6 months to 5 years. Non-marketable assets, and liabilities with a maturity of more than five years or which have no maturity, are not covered. During the transitional period, institutions should only provide an analysis of cashflows out to 1 month; the period beyond 1 month may be reported as a maturity analysis of assets and liabilities. Institutions may decide how and when they effect the transition to reporting cashflows out to six months but the transition should be completed by the fourth quarter 2001. Marketable assets with a maturity greater than 1 month should generally be shown separately and not included in the cashflow ladder (but see paragraph 44 below).
- 10 Institutions should report both inflows and outflows on the same basis. Therefore, if an institution reports inflows on the cashflow basis out to three months it should also report outflows on the cashflow basis out to three months. **The split between the cashflow basis of reporting and the maturity analysis should occur at the same timeband throughout the return.**
- 11 Items reported on a cashflow basis should include both interest and principal amounts, together with any other income relating to them.
- 12 Items reported on a maturity basis should be reported at their value on the institution's books. However, any cashflows arising from these items (eg interest payments) within the cashflow reporting period should be included in the relevant cashflow periods.
- 13 Thus cashflows (eg interest payments on a loan) arising from items (however reported) should be entered in the relevant cashflow timebands (ie those which the institution reports) when they fall due.
- 14 Part 2 of this return is divided into sections asking for details of 'Retail' and 'Wholesale' inflows and outflows. The exact division between the two sections is a matter for individual institutions to decide and include within their liquidity policy statement.
- 15 Where the amounts of cashflows are not material in relation to the total cashflows, the institution may agree with their supervisor that they need not be reported.. The institution should agree in advance with their supervisor which flows are not considered 'material' for the purposes of liquidity reporting. Any such arrangements should be included within the institution's liquidity policy statement, particularly for the purposes of reports commissioned under Section 39 of the Banking Act 1987 or Section 166 of the Financial Services and Markets Act 2000.

² In general, any change in Form LR reporting dates as a result of the Bank of England changing the institution's reporting frequency of the Form BT will take effect within the subsequent quarter.

“Contractual” vs “Behavioural” approach to liquidity position measurement: Parts 2 and 3 of the return

- 16 For supervisory monitoring, the FSA will normally wish to assess an institution’s liquidity position on a “worst-case” basis. Therefore, in Part 2 of this return (Contractual basis), cash inflows should be assumed to occur at their latest contractual maturity, while cash outflows should be assumed to occur at their earliest contractual maturity.
- 17 The contractual maturities pertaining to some assets and liabilities do not bear close relation to their actual behavioural characteristics. Examples might be overdrafts and credit card receivables. For this reason, for some limited categories of inflow and outflow, it is considered appropriate for institutions to report data on one of two bases. The basis of reporting should be agreed in advance with the FSA. First, the “contractual” basis, under which it will generally be assumed that items behave in accordance with their contractual terms; second, with certain “behavioural” assumptions factored into the calculations. In certain circumstances, the FSA may require an institution to report behavioural adjustments, particularly in respect of overdrafts (see items B1C and items B2A-B5A).
- 18 In instances where institutions apply for behavioural treatments, the FSA will expect such applications to be properly supported by empirical data running over an appropriate period of time.

Arrears and overdue

- 19 Where assets or other items giving rise to cashflows are non-performing, poorly performing or there is reasonable doubt about the certainty of receipt of inflows of funds pertaining to them, cashflows arising from them should not be included as receivable in the timeband columns. Rather the items should be reported in the ‘overdue’ column.
- 20 Non-performing or poorly performing assets are described as assets where on any reporting date, the asset or part of it, has passed the due date for repayment by fourteen days or more (or, in the case of lending under unconditional ECGD bank guarantee, ie Buyer Credit and the Supplier Credit Financing Facility, by thirty days or more). Assets, where the institution does not consider there is reasonable doubt over the certainty of receipt of inflows, but which have passed the due date by fourteen days or less (or less than thirty days for lending under unconditional ECGD bank guarantee, ie Buyer Credit and the Supplier Credit Financing Facility), should be entered as ‘next day’.
- 21 Unless the whole of the loan or asset has been formally declared to be in default within the terms of the contract, only that part of a loan/interest or other asset actually overdue should be reported in the ‘overdue’ column on a contractual basis. If the whole of the loan or asset has been formally declared to be in default within the terms of the contract, the institution should exclude any unmatured instalments of a loan which is partially in arrears. The institution should also report the amount of their debt portfolio which is in arrears in item D2B of the memo items to Part 2.
- 22 Where an asset or cashflow previously reported according to the treatment in paragraphs 20 and 21 is contractually rescheduled according to a written agreement, institutions should cease to report these items as ‘overdue’ and report them according to the new agreed dates for repayment.

- 23 However, certain institutions work on a recency basis, ie the customer is not deemed to be in arrears if repayments are still being met, even if one or more payments have been missed. In this case, they may report the debt accordingly on the maturity ladder, ie reporting the number of payments at their prescribed intervals with an extension on the maturity of the loan to account for the missed payments. Such treatment should however be regarded as an exception and institutions should contact their supervisor before adopting this method of reporting, which should be shown in the behavioural adjustments section of the Form (Part 3).

Provisions

- 24 Items should be reported net of specific provisions. General provisions should not be recorded on this return.

Residual Maturity

- 25 Unless otherwise stated in the reporting instructions, all references to maturity for the purpose of this return refer to residual maturity.
- 26 Cash inflow and outflow items and assets and liabilities should be classified according to their remaining maturity. Cashflows such as receipts of interest on performing loans or payments of interest on deposits should be recorded in the timeband in which they will occur.
- 27 Deposits placed with the reporting institution should - as appropriate - be reported either as outflows occurring on the earliest possible repayment date, or as liabilities maturing at the earliest possible repayment date. In this context, the earliest repayment date means the first rollover date or the shortest period of notice required to withdraw the funds or to exercise a break clause, where applicable.
- 28 Loans made by the reporting institution should - as appropriate - be entered as inflows occurring on the latest possible repayment date or as liabilities maturing at the latest possible repayment date. Purely technical break facilities should be disregarded for fixed term loans. Where the institution has loans outstanding at the reporting date under revolving credit lines and has not received notification that they will be redrawn on maturity, the intermediate date should be taken as the maturity date.
- 29 Where an institution holds a security where the issuer has the option to repay over a range of dates, the last repayment date should be taken as the date of repayment, unless notice has been given of redemption at an earlier date. Where the institution has issued such a security the first repayment date should be taken as the date of repayment, unless notice has been given of redemption at a later date.
- 30 The treatment of spot foreign exchange deals will depend upon whether the institution reports on a trade or settlement date basis. Those reporting on a trade date basis should only include the effect of any transactions which take place on the reporting date, whereas those reporting according to the settlement date may need to report deals from previous days which have yet to settle. This should not affect an institution's decision about the basis on which it should report the Form LR. As long as the Form LR is reported consistently on one basis across the form and between quarters, it will not have any impact on an institution's compliance with its mismatch guidelines.

- 31 Where an institution has entered into a forward deal where it is fully committed (eg a loan/deposit with a start date of two days forward and spot foreign exchange trade) and the cashflows will take place within the sight to 8-day time band, it should be reported on the return as such. However, where the institution intends to enter into an agreement in two days time but has not yet committed itself, this should not be reported as this return is intended to be a snapshot at the end of the quarter.
- 32 The timeband 'next day' comprises cashflows or asset items due, available or maturing on the next business day after the reporting date.
- 33 Cashflows arising or assets/liabilities maturing on a non-business day should be reported as taking place on the following business day.
- 34 Funds callable at one day's notice should be entered as two-day maturity unless notice has been received or given on the reporting date.
- 35 Funds callable at seven days' notice should be entered in the '8 days and under (excluding next day)' maturity band, even if not called.
- 36 Where the period to remaining maturity is to be entered in months, it should be calculated on a calendar month basis starting from the reporting date.
- 37 The following example sets out in which timeband cashflows and assets/liabilities due, available and maturing on the reported dates stated will be reported. All dates are inclusive.

Reporting date	28/29 February	31 May	31 August	30 November
'Demand (inc. next day)' covers:	1 March/next business day	1 June/next business day	1 September/next business day	1 December/next business day
'8 days and under' covers:	Up to 8 March*	Up to 8 June*	Up to 8 September*	Up to 8 December*
'over 8 days – 1 month' covers:	9 - 31 March	9 – 30 June	9 - 30 September	9 - 31 December
'over 1 month – 3 months' covers:	1 April - 31 May	1 July – 31 August	1 October - 30 November	1 January - 28/29 February
'over 3 months - 6 months' covers:	1 June - 31 August	1 September - 30 November	1 December - 28/29 February	1 March - 31 May
'over 6 months - 1 year' covers:	1 September - 28/29 February	1 December - 31 May	1 March - 31 August	1 June - 30 November

* but excluding next day

Netting of debts and claims

- 38 All claims and liabilities should be reported gross. Reporting institutions should not net (or offset) claims on counterparties or groups of counterparties against debts owed to those counterparties or groups of counterparties, even where a legal right of set off exists. Where the maturity of the claims and debts falls within the same timeband, the claims and debts will automatically offset each other on the return in the calculation of the mismatch.
- 39 Institutions should report long positions in marketable assets on Part 1 of this return. Long positions in 'non-marketable' items should be entered in Part 2 of the form as inflows. Short positions should be reported on Part 2 of the return. Short positions arising from either forward sales/purchases or repos have their own designated lines on Part 2, items C2G and C3C. An outflow relating to these types of short position should be reported in the timeband corresponding to the maturity of the contract. In the case of short positions arising from anything other than forward sales/purchases or repos, eg short-selling a bond, the outflow should be reported in Part 2 in the line corresponding to the expected counterparty eg C2D (interbank), C2E (corporate) or C2F (government). If the counterparty is not known, the outflow should be reported by default in C2D (interbank). These types of short positions should be reported as outflows in the demand timeband. In the case of marketable assets, institutions should enter the marked-to-market value of the asset as an outflow in the demand timeband. Non-marketable assets should be reported in the demand timebands at their redemption value or, where this is unavailable or inappropriate (eg in the case of equities), the book value should be reported.
- 40 For example, assume two months before the reporting date, an institution made a loan to a customer of £1mn for 6 months and that customer placed funds with the institution of £500,000 for three months. Assuming that the institution reports on a cashflow basis out to 6 months, it should record an inflow of £1mn in the 'Over 3 months - 6 months' column under the appropriate category and an outflow of £500,000 in the 'Over 8 days - 1 month' column under the appropriate category. In addition, any interim cashflows such as interest payments and receipts should be recorded in the appropriate timebands. During the transition period however, the institution may only report on a cashflow basis out to one month. In this case, the Form will show an asset of £1mn maturing in the 'Over 3 months - 6 months' column and an outflow of £500,000 in the 'Over 8 days - 1 month' column. Only the outflow would include any interim cashflows in the appropriate timebands.

Marketable securities

- 41 In reporting liquidity positions, institutions should normally apply "worst case" assumptions about the timing of inflows and outflows of funds. However, some categories of asset are clearly marketable and could be readily converted into cash where necessary. These assets are reported in Part 1 of the Form, Marketable Assets. Institutions should enter the full value of the marketable asset concerned in columns 1 and 2 according to the currency of denomination. The following two columns then set out the discount which will need to be applied to the full value of the asset. Discounts are applied to reflect that an institution may realise less than the market price quoted for an asset where the institution is seeking to realise assets quickly because of liquidity problems pertaining either to itself, or to general market conditions, or both. The institution should then allocate the discounted value of the assets to either of columns 3 or 4.

- 42 The timeband into which a marketable asset may be brought is determined by the length of the settlement period for the instrument in question. This reflects the length of time it would take for an institution to receive the proceeds of any sale. For example, equities quoted in the FTSE 100 index may be reported as funds receivable in the sight - eight days category because settlement for equities sold today occurs in less than eight days. Where the settlement period for items is more than eight days, or where there are other factors which mean that funds would not be received within the sight to eight days category were the asset sold or repo'd today, then the funds should be recorded as receivable in the over eight days to one month column of Part 1. Where settlement or other delays mean that funds would not be received within one month, then the items should be recorded in Part 2 of this return.
- 43 Marketable assets maturing at exactly one month should be reported in Part 1 of the return. Institutions however, may include the full value of the asset in the one month timeband and not to discount at all during the life of the asset
- 44 Where assets have a residual maturity of less than one month, the FSA recognises that it is not relevant to automatically apply a discount to such assets. In general, these assets should be entered as cashflows in the relevant timeband in Part 2 of the form (not Part 1) and no discount will be applied. The FSA acknowledges, however, that certain assets may be marketable right up to the day before they mature, and the agreement of the FSA should be sought before such assets are included in Part 1.
- 45 Assets which do not meet the criteria in paragraph 46 below, or which cannot be fitted into the tables below, are non-marketable assets for the purposes of this return and should be reported in Part 2 of the form according to their residual maturity. This covers:
- (a) Non-investment grade debt instruments (as rated by a recognised credit agency) issued by a Zone B issuer;
 - (b) Non-investment grade debt instruments (as rated by a recognised credit agency) issued by a non-government Zone A issuer;
 - (c) Commercial paper and certificates of deposit that do not meet the definition of marketable assets as set out in paragraph 46 below and Chapter LM (Mismatch liquidity), Section 5.1.3, of the FSA Policy Guide/IPRU (BANK).
- 46 Marketable assets need to fulfil all the following criteria:
- (a) prices are regularly quoted for the item by a range of counterparties;
 - (b) the item is regularly traded;
 - (c) the item may be sold (or repo'd) either on an exchange or in a deep and liquid market, for payment in cash; and
 - (d) settlement is according to a prescribed timetable rather than a negotiated timetable.
- 47 To avoid double counting, cashflows (of principal or interest) arising from holdings of marketable assets should not be included in Part 2 of this return.

- 48 Where Brady bonds have been issued by Zone A governments, these securities should be reported as zone A government debt under items A2A/A2B/A2C rather than as Brady bonds in item A4A.
- 49 The value included at demand-eight days or demand-one month will normally be a discount to the marked-to-market value of the asset (taken from the bid price) at the reporting date. The range of discounts is set out below.

(i) Zone A items issued in zone A currencies

Asset	Discount factor
Central government and central government guaranteed marketable securities, including Treasury bills, eligible local authority paper and eligible bank bills with 0 - 12 months residual maturity. Also Brady Bonds issued by Zone A governments of similar maturity.	0% (20% if denominated in a zone B currency)
Other central government, central government guaranteed and local authority marketable debt with over 12 months - 5 years residual maturity or issued at variable rates with over 12 months residual maturity. Also Brady Bonds issued by Zone A governments of similar maturity.	5% (25% if denominated in a zone B currency)
Other central government, central government guaranteed and local authority marketable debt with over five years residual maturity. Also Brady Bonds issued by Zone A governments of similar maturity.	10% (30% if denominated in a zone B currency)
Non-government debt securities which are either issued by a zone A credit institution or an investment firm subject to a CAD equivalent regime or which are classified investment grade by a relevant credit ratings agency (see paragraph 50) and which have 0 - 6 months residual maturity.	5% (25% if denominated in a zone B currency)
Non-government debt securities which are issued by a zone A credit institution or an investment firm subject to a CAD equivalent regime or which are classified investment grade by a relevant credit ratings agency (see paragraph 50) and which have over 6 months - 5 years residual maturity.	10% (30% if denominated in a zone B currency)
Non-government debt securities which are issued by a zone A credit institution or an investment firm subject to a CAD equivalent regime or which are classified investment grade by a relevant credit ratings agency (see paragraph 50) and which have over 5 years residual maturity.	15% (35% if denominated in a zone B currency)

(ii) Zone B items (irrespective of currency)

Asset	Discount factor
Central government and central government guaranteed marketable securities, including Treasury bills, with 0 - 12 months residual maturity which are classified investment grade by a relevant credit ratings agency (see paragraph 50).	20%
Other central government and central government guaranteed marketable debt with over 12 months - 5 years residual maturity, or at variable rates, which is classified investment grade by a relevant credit ratings agency (see paragraph 50).	30%
Other central government and central government guaranteed marketable debt with over five years residual maturity which is classified investment grade by a relevant credit ratings agency (see paragraph 50).	40%
Non-government debt securities which are classified investment grade by a relevant credit ratings agency (see paragraph 50) and which have 0 - 6 months residual maturity.	30%
Non-government debt securities which are classified investment grade by a relevant credit ratings agency (see paragraph 50) and which have over 6 months - 5 years residual maturity.	40%
Non-government debt securities which are classified investment grade by a relevant credit ratings agency (see paragraph 50) and which have over 5 years residual maturity.	50%

(iii) Brady Bonds

Brady Bonds (other than those issued by Zone A governments)	20% (40% if denominated in a zone B currency)
---	---

(iv) Equities

Equities which are listed on a recognised stock index (see paragraph 51).	20% (40% if recognised stock index in a zone B country)
---	---

- 50 The list of relevant credit ratings agencies is given in SGN Appendix H and in Section 9 (Appendix 2) of Chapter TI (Interest rate position risk) of the FSA Policy Guide/IPRU (BANK).
- 51 The list of recognised stock indices is listed in Section 6 of Chapter TE (Equity position risk) of the FSA Policy Guide/IPRU (BANK).

Collateral/assets pledged

- 52 Where an institution has pledged assets as collateral (ie where those assets remain on the institution's balance sheet but have been charged as collateral), it should no longer count them either as being available for sale as discounted marketable assets (in Part 1 of the form), or at their residual maturity in the timebands (in Part 2 of the form) for the period until they are again available for immediate sale. However, where an institution receives coupon or interest payments arising from pledged assets, it may record those cashflows as receivables in the timeband according to their receipt.
- 53 Where an institution has collateral pledged to it, or does not have full legal title to collateral, it should not count the assets that make up the collateral as available for sale as marketable assets. Only where full legal title to the assets received as collateral has passed to the reporting institution, and the assets are available for immediate resale, may that institution treat them as marketable assets.
- 54 Where an institution has received assets as collateral but they are not beneficially owned nor available for sale by the institution immediately (for example, unless there is an event of default by the counterparty), they should not be reported as forming part of the institution's stock of marketable assets.

Public Sector Entities (PSEs)

- 55 See SGN23 for the definition of PSEs.

Off balance sheet cashflows

- 56 For forward sales and purchases, when the institution sells forward an asset on Part 1 of the return, that particular asset may continue to be reported in Part 1 of the form until the date of the forward sale, when the asset leaves the institution's ownership. The inflow of the cash and the outflow of the asset should still be reported in Part 2 of the return at the 'residual maturity' of the deal. This treatment is the same as for repos where the asset ceases to appear on Part 1 from the start of the repo (paragraphs 63-67 below).
- 57 Swaps, FRAs and futures should be reported according to the cashflows they entail. Fixed legs of swaps should be recorded as the amount of the known cashflow; floating legs of swaps, FRAs and futures will be recorded according to the cashflow implied by their market value at the reporting date.
- 58 Option inflows and outflows are reported as memo items in items D1A and D1B in Part 2 of the return. Institutions may use one of two methods (see the instructions for items D1A and D1B). Whichever method is adopted, it should be specified in the institution's liquidity policy statement. Margin payments on exchange traded options should be reported according to the treatment outlined in paragraph 61; amounts relating to the principal on exchange traded options should be reported in the same way as other option inflows and outflows.

- 59 Warrants should be reported according to the treatment for options outlined in the previous paragraph.
- 60 Convertible debt securities should be treated as equities where the convertible debt security is trading at a premium of less than 10%, where the premium is defined as the current mark-to-market value of the convertible debt security less the mark-to-market value of the underlying equity, expressed as a percentage of the mark-to-market value of the underlying equity. Convertible debt securities other than those defined above may be treated as equity or debt securities.

Margin

- 61 Since variation margin payments on exchange traded futures take place every day, no amount should be recorded on the form for these payments. Held options should be reported in the memo items for options (items D1A and D1B). For other futures, institutions should enter the mark-to-market value of the future in the appropriate band. Where there is no exchange of principal, the institution should only report the flows in the timebands which it reports on a cashflow basis. However, should the institution hold an additional amount at the clearing house to cover variation margin, this should be entered as a demand asset on Part 2 of the form under 'Other inflows'. The amount of initial margin held by the institution at a clearing house should be entered in the 'Corporate' item B2D in the relevant timeband according to the residual maturity of the longest delivery date on the account.
- 62 For deposits with brokers, where the broker is acting as an intermediary, the same treatment should be applied to the deposits as that applied to variation and initial margin posted with clearing houses. Where institutions cannot distinguish between variation and initial margin, the amount should be entered at the furthest maturity of all contracts on the exchange.

Repos and reverse repos

- 63 The treatment of repos, reverse repos, stock lending and stock borrowing is essentially analogous to that of forward sales and purchases and is described in Appendix 1 to these instructions. Stock lending and borrowing is treated as being analogous to repo and reverse repo where ownership of the items borrowed and loaned is transferred under the transaction; the item borrowed is then available for sale immediately by the borrowing institution. The following treatment should therefore be applied:
- (a) The borrowed item should be reported in Part 1 of the form; the loaned item should cease to be reported in Part 1 of the form.
 - (b) Report the discounted value of the loaned item as an inflow; report the discounted value of the borrowed item as an outflow in the 'Repo/Reverse Repo' line at the maturity of the transaction where both are marketable assets.
 - (c) Should either asset be classed as 'non-marketable', the relevant adjustments should be made to the non-marketable assets line in Part 2 of the form.
- 64 It has been assumed throughout this definition that the cash leg of the transaction is effected through Nostro accounts.

- 65 Throughout this section of the General Notes, the term 'discounted value of the security' will refer to the value of the security once the supervisory discount has been applied to the market value of the asset.
- 66 During the lifetime of a repo, the discounted value of the asset should be reported in item B2F according to the timeband corresponding to the maturity of the repo. Assets repo'd out will re-appear in Part 1 of the form once the asset has been received back by the reporting institution. Reappearance in Part 1 therefore occurs at the settlement date of the asset, which may not necessarily be the next working day.
- 67 For reverse repos, the discounted value of the asset received should only be reported in Part 1 from the first working day after the start of the reversed repo. The asset should be removed from the Form LR on the day of the maturity of the reverse repo not the first working day after the maturity of the reverse repo.

Repo against DBV

- 68 Where an institution has undertaken an (overnight) repo/stock lending in return for unknown collateral, it should report as though non-government debt of over 5 years residual maturity has been received. Only where the quality of the collateral received is constrained and the institution can evidence the constraint should a more favourable treatment be adopted.

Swaps and FRAs

- 69 Institutions should report all projected flows associated with a swap (including any bullet payments) during the periods where they report on a cashflow basis. Interest amounts on swaps should only be reported in the cashflow section.
- 70 With currency swaps, where an exchange of principal is effected at the start or maturity of the swap, the two amounts should be treated as a forward foreign exchange contract and reported in both the cashflow and maturity analysis sections of the form, in either item B3B or item C3B.
- 71 For interest rate swaps, eg a 5-year fixed rate against a 3 month LIBOR swap, institutions should report the known amount of the fixed leg of the cashflow out to the last cashflow timeband (initially this will be the 'Over 8 days to 1 month' period, but by the fourth quarter of 2001, this will be the 'Over 3 months to 6 months' timeband). The floating leg should be reported out to the same timeband according to the cashflow implied by yields prevailing at the reporting date (or alternatively a forward LIBOR rate). Both legs should be reported in items B3A or C3A.
- 72 For fixed legs, the known amount of the fixed leg should be entered. For floating legs, the amount of the cashflow to be received should be derived from the swap's present value at yields prevailing at the reporting date and entered as an inflow in the relevant timeband. Where the floating leg has been agreed in advance for a specified period, institutions should report the cashflow according to this rate.
- 73 Cashflows arising from FRAs should only be reported in the cashflow section, NOT in the maturity analysis section. The present marked-to-market value of the FRA, or the settlement amount post fixing, should be recorded in the time period based on the actual settlement date of the FRA, ie when the institution makes a payment or receives funds.

REPORTING INSTRUCTIONS

A Reporting in euros

Only institutions which the FSA has agreed should report in euros (see SGN2a) should tick this box.

Part 1: Marketable Assets

General Notes

This section is used for reporting holdings of marketable assets which are in the institution's ownership and available for sale immediately at the reporting date.

Assets should be reported at their mark-to-market value (bid price) at the reporting date. Where the institution's system does not operate on this basis, they may follow their own valuation practice, eg mid market or bid/offer prices. Institutions should always report the dirty price ie including accrued interest.

Assets pledged as collateral, or assets not otherwise available for immediate resale, should not be reported in Part 1 as marketable assets. Where an institution has pledged assets as collateral in a transaction and they are no longer available for sale by the institution, they should cease to be reported in the marketable assets section (Part 1) of this form for the period until they are again available immediately for sale. Interest received on these pledged assets, however, may be reported in Parts 2 and 3 of the Form LR as receivable by the reporting institution in the appropriate line as cash inflows in the period in which they occur.

For the treatment of repo/reverse repo and stock borrowing/lending, see the General Notes (paragraphs 63 to 68) to this form.

Where assets, which would otherwise be eligible to be included in Part 1 of this form, mature within one month, they should generally be reported in Part 2 of this form under 'Non marketable capital items and debt instruments maturing within 1 month' (item B2A) as an inflow/asset in the timeband corresponding to the residual maturity of the asset. Items should then be reported at full marked-to-market value, with no discount applied. The FSA recognises, however, that certain assets might be marketable up to the day they mature. It may agree with institutions that it is appropriate for them to include identifiable assets maturing within one month on Part 1 until maturity.

Discount factors

To reflect the risk of price variations, a range of discount factors is applied to the marked-to-market values of assets brought forward in maturity into Part 1 of this form. The range of discount factors is listed in the General Notes (paragraph 49).

Definitions

A1A Cash held

This comprises holdings of notes and coin.

A2A-A2F DEBT INSTRUMENTS ISSUED IN ZONE A COUNTRIES³

A2A Central government/central government guaranteed, including Treasury bills, eligible Local Authority paper and eligible bank bills with a residual maturity of up to 1 year

Include:

- Short term central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by either HM Government/another UK issuer or by another Zone A Central Government/ another Zone A issuer;
- Treasury bills;
- Bank of England euro bills;
- Eligible local authority paper, defined as UK local authority bills which are eligible for rediscount at the Bank of England, if they have an original term to maturity of not more than (6 months) 187 days and meet certain requirements concerning publication and notice set out in the Bank of England's notice of 8 June 1983.
- UK bank bills which are eligible for rediscount at the Bank of England if they are sterling bills, irrespective of issuer, which are both payable in the United Kingdom and have been accepted by eligible banks (see SGN Appendix G). Also include any holdings of non-UK bills which are eligible for discount at the central bank in the country of issue, as part of its open market operations.
- Brady bonds issued by Zone A governments.

Both fixed and variable rate securities should be reported. Only record those securities currently in the reporting institution's ownership (including where these are held in a clearing system such as Euroclear).

A2B/A2C Central government/central government guaranteed and Local Authority marketable debt between 1 year and under 5 years / of 5 years and over

Include central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by HM Government / another UK issuer or by another Zone A Central Government / another Zone A issuer, as well as Brady bonds issued by a Zone A government. Only record those securities currently in the reporting institution's ownership (including where these are held in a clearing system such as Euroclear).

A2D/A2E/A2F Non-government of up to 6 months / between 6 months and 5 years / over 5 years

Non-government debt securities which are classified as 'qualifying' by the FSA in its implementation of the Capital Adequacy Directive (see Chapter TI (Interest rate position risk), Section 5.2, of the FSA Policy Guide/IPRU (BANK)). Hence, debt instruments should be treated as qualifying if any of the following conditions apply:

- (a) They are securities issued by, or fully collateralised by claims on, a multilateral development bank listed in the Solvency Ratio Directive (see Chapter BC (Credit risk in the banking book), Section 3.2, of the FSA Policy Guide/IPRU (BANK)). The European Commission may amend this list periodically;

³ Zone A and Zone B countries are listed in SGN Appendix C.

- (b) They are issued, guaranteed, endorsed, or accepted, by a credit institution incorporated in a Zone A country;
- (c) They are issued, or guaranteed, by an investment firm that is subject to the Capital Adequacy Directive, or a regime that is as stringent (for a list of such regimes see Chapter CS (Consolidated supervision), Section 10.3, of the FSA Policy Guide/IPRU (BANK));
- (d) They are issued by, or guaranteed by, Zone A PSEs;
- (e) They are issued by, or guaranteed by, a company whose equity is eligible for 4% equity specific risk weighting (see Chapter TE (Equity position risk), Section 6.1, of the FSA Policy Guide/IPRU (BANK)).

Only those securities in the reporting institution's ownership, which the institution may freely dispose of at any time with no restrictions (including where these are held in a clearing system such as Euroclear), should be recorded. Those assets pledged to another institution or otherwise encumbered should not be included.

A3A-A5A DEBT INSTRUMENTS ISSUED BY ENTITIES IN ZONE B COUNTRIES

A3A Central government/central government guaranteed of up to 1 year

Short term central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by a Zone B Central Government/ another Zone B issuer. Also include Treasury bills, eligible local authority paper and eligible bank bills. Only those securities currently in the reporting institution's ownership (including those which are held in a clearing system such as Euroclear) should be recorded. Securities should only be included in this section if they are classified investment grade by a recognised credit ratings agency (see SGN Appendix H), or if they are eligible for discount at the central bank in the country of issue.

A3B/A3C Central government/Central government guaranteed of between 1 year and under 5 years / over 5 years

Central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by a Zone B Central Government/ another Zone B issuer. Include only those securities issued by, or fully guaranteed by, Zone B central governments and central banks with a residual maturity of over 1 year. Only those securities currently in the reporting institution's ownership (including those held in a clearing system such as Euroclear) should be recorded. Securities should only be included in this section if they are classified investment grade by a recognised credit ratings agency (see General Notes, paragraph 50).

A3D/A3E/A3F Eligible non-government of up to 6 months / between 6 months and 5 years / over 5 years

Non-government debt securities issued, guaranteed, endorsed or accepted by an entity in a Zone B country and are investment grade. Also include those securities issued, or guaranteed by, an investment firm that is subject to the Capital Adequacy Directive or a regime that is as stringent (for a list of such regimes, see Chapter CS (Consolidated supervision), Section 10.3, of the FSA Policy Guide/IPRU (BANK)). Only those securities in the reporting institution's ownership should be recorded (including where these are held in a clearing system such as Euroclear).

A4A Brady bonds

Brady bonds currently in the reporting institution's ownership (including those held in a clearing system such as Euroclear). Do not include Brady bonds issued by Zone A governments here. These should be discounted and reported as Zone A government debt in lines A2A, A2B and A2C.

A5A Highly liquid equities and equity indices

Equities that are eligible for a specific risk weight of 4% or less under the FSA's Implementation of the Amending Capital Adequacy Directive (CAD2) and the amendment to the Basle Accord for Market Risks and which are currently in the reporting institution's possession.

Part 2: Contractual Basis: Residual Maturity

Definitions

B-B5A INFLOWS

Where items fall within a timeband which is reported on a cashflow basis, institutions should include any interest payments or other cashflows associated with the inflow or outflow. Where the item falls within the maturity analysis of assets and liabilities, the institution should only include any of the associated interest or other payments/receipts that fall due within the cashflow reporting period.

Thus, where cashflows eg interest payments take place during the cashflow timebands, they should be reported on the return regardless of the residual maturity of the instrument. Hence, if an institution has a personal loan with a residual maturity of 1 year and is reporting on a cashflow basis out to six months, it should report, in item B1B, those cashflows arising during the first six months. After that only repayments of principle should be reported.

Where an institution has been provided with a committed facility and has notified the provider of a specific draw down date, the amount of the facility which will be drawn down on that date should be included in section B2. Any part of the committed facilities for which notification of draw down has not been given should be reported in item D1C.

B Cashflow or maturity basis

Institutions should enter a tick where a particular timeband has been reported according to the cashflow basis. Where a timeband has been reported as a maturity analysis of assets, institutions should leave the box for that time period blank.

B1A-B1F RETAIL

B1A Mortgages

Any repayments of loans to individuals secured by mortgage on residential properties (both freehold and leasehold) which are or will be occupied by the borrower, or which are rented. Report mortgage loans to housing associations registered with the Housing Corporation, Scottish Homes and Tai Cymru (Housing for Wales) on housing association residential property which is rented.

B1B Personal loans

Repayments of any personal loans granted by the reporting institution to retail customers.

B1C Overdrafts

Repayments of any overdrafts granted, including any interest, where appropriate.

Note that the FSA may require institutions to complete Part 3 of the Form LR (ie apply a behavioural adjustment) for retail overdrafts.

Wholesale overdrafts should not be included here but should be reported in line B2H.

B1D Credit card inflows

Report the minimum repayment required by the institution of debt arising from credit cards issued by the reporting institution. Subsequent repayments should be reported according to the minimum percentage repayment required.

B1E Repayment of advances

Any other repayments of loans associated with retail banking business that have not already been included in the above.

B1F Other retail inflows

Any other retail associated inflows that have not already been included in the above, such as fees and commissions.

B2A-B5A WHOLESALE

Behavioural adjustments to these items should be reported in Part 3 of the Form.

B2A Non-marketable securities and debt instruments, and marketable assets maturing within 1 month

Include here any securities which the reporting institution holds or will receive, but which it cannot classify as marketable. An institution should report non-marketable assets according to the redemption value of the asset or alternatively, where the redemption value is unavailable or not appropriate (eg in the case of equities), the book value. This reflects the potential inflow of cash when the asset matures. Marketable assets maturing within one month reported at their full marked-to-market value, ie undiscounted, should also be reported here. The reporting institution may however agree with the FSA that they should be included in Part 1.

Refer to the 'Marketable securities' section of the General Notes (paragraph 45) for further guidance on what should be reported in this line.

B2B Intragroup/Connected

Report any inflows from counterparties connected to the reporting institution. Where the institution is reporting on a solo consolidated basis, inflows from entities within the solo-consolidated group should not be reported. Entries should be made in this item rather than any other item in the Wholesale section if any intragroup/connected counterparties are involved.

B2C Interbank (excluding any intragroup)

Report inflows arising from placements with other institutions, including any funds held in NOSTRO balances. Also include the entire inflows from those entities that would attract a 20% counterparty weighting as outlined in SGN15. Exclude from this line inflows from other bank entities within the group, which should go in item B2B (ie intragroup/connected). Include that element of committed facilities provided to the institution where notification of draw down date has been given.

B2D Corporate (non-interbank and intragroup)

Report inflows from non-bank, non-connected corporate counterparties. Initial margins held at clearing houses should be entered here according to their residual maturity. Repayments from leases should also be recorded in this line.

B2E Government/Public Sector

Report inflows from central governments, PSEs, local authorities and central banks. Also include funds received from the European Commission, the European Economic Community (EEC), the European Coal and Steel Community (ECSC) and Euratom. For guidance on what constitutes public sector, see SGN23.

B2F Repos/Reverse Repos

This item should include any transactions relating to repos and reverse repos. Institutions should also enter any transactions relating to stock borrowing and lending. Refer to the 'Repo/Reverse repo' section of the General Notes (paragraphs 63-68) for further guidance on what should be reported in this item.

B2G Trade related letters of credit

Report here any inflows arising from trade related letters of credit.

B2H Overdrafts

Report here any wholesale overdrafts, irrespective of the counterparty. Any behavioural adjustments to this item should be effected through Part 3 of the Form, item E4H.

B3A Swaps and FRAs

For interest rate and currency swaps, enter the receipts of fixed and floating legs in the cashflow section.

For FRAs, enter the marked-to-market receipt in the relevant time period. The amount of receipts should be derived from the contract's present value at yields prevailing at the reporting date.

Refer to the 'Swaps and FRAs' section of the General Notes (paragraphs 69-73) for further guidance on what should be reported in this item.

B3B Forward foreign exchange

Enter any cashflows relating to forward purchases of foreign currency, where an exchange of principal is effected at the start or maturity of the swap. The amount received should be entered in the appropriate maturity band.

B3C Forward sales and purchases

The cash leg of any forward sales should be treated as an inflow in the timeband corresponding to the date of the forward sale. For forward purchases, where the asset purchased is a marketable asset, the institution should report the sterling (or euro) equivalent discounted value of the security purchased at the maturity of the contract. Where the asset purchased is non-marketable, the institution should enter the sterling (or euro) equivalent discounted value of the security at the maturity of the asset.

B3D Other off balance sheet

Include here any other off balance sheet items not included elsewhere, according to their cashflows. For example, the inflow (£100,000) of a three month OTC interest rate future with one month to maturity and a marked-to-market value of £100,000 should be reported in the “over 8 days to 1 month” timeband.

Institutions should exclude any cash inflows associated with options and enter these in item D1A.

B4A Fees and other income

Report here fees, commissions or other income receivable by the institution relating to their wholesale business, according to their known date of receipt. Where the date of receipt is unknown, do not report these flows.

B4B Other inflows

Report here any other inflows, which have not been included elsewhere, according to the timing of their cashflows. Also report any inflows from settlement accounts, using the trade date plus the settlement period to determine the appropriate timeband. Where the inflow is later than this date, the amount should be entered as ‘overdue’.

B5A Total inflows

Report here the sum of items B1A to B4B for each column as appropriate.

C-C5A OUTFLOWS

Where an institution has made a firm commitment to participate in a syndicated loan arrangement, then it should record an outflow of the amount paid in the relevant box in the outflows section of Part 2. Where for example an institution pays by debiting the NOSTRO balance, it would enter an outflow in item C2D. Should the institution have already bought their share of the syndicated loan on the reporting date, the effect will be a reduction in the NOSTRO balance and an increase reflected in the line corresponding to the particular asset purchased.

Where the institution is the lead manager, it can be in one of three positions. First, it can act as the agent – however, this role will not lead to any inflows or outflows since it merely involves setting up a group of institutions to buy parts of the issue. Second, it can be an agent and take a share of the issue. In this case, the institution should report the cashflows arising from the latter role. Third, it can also underwrite the issue in conjunction with the previous two options. In this case, it should record the full amount of the issue in item D1D as an undrawn committed facility.

C Cashflow or maturity basis

Institutions should enter a tick where a particular timeband has been reported according to the cashflow basis. Where a timeband has been reported as a maturity analysis of liabilities, institutions should leave the box for that time period blank.

C1A-C1C RETAIL

C1A Time deposits

Include any deposits taken which have a residual maturity of more than overnight or which require prior notice to be given by the customer before withdrawal of funds. Also include deposits which include an agreement within the contract not to withdraw before a certain date. Where an institution has a material number of deposits where the depositor incurs an interest penalty in lieu of notice, it should agree with its supervisor whether it should report these deposits on a behavioural basis. Deposits should be entered in the timeband corresponding to the minimum amount of notice of withdrawal required. Saving deposits, deposit accounts and deposit receipts should also be entered here.

C1B No notice/ current accounts

Include here any amounts in accounts which are not subject to a minimum notice period ie funds which are available on demand. Also include deposits received with a residual maturity of no longer than overnight. Report any balances, whether interest bearing or not, where the entire balance is accessible without penalty either on demand or by close of business on the day following that on which the deposit was made.

C1C Additional advances committed

Report here any undrawn commitments to lend made by the reporting institution where the draw down date is known. The full amount of the commitment for the draw down date should be entered in the appropriate maturity band. Where the institution has made a commitment to lend, where the date of draw down is uncertain or not known, these should be reported in item D1D.

Where notification of draw down (of facilities that can be drawn down on demand) has been received, enter the flows in the 'Demand' timeband.

Also enter on this line any facilities that may be drawn down on demand where no notification of draw down has been received. These facilities should be entered in the '8 days and under' timeband.

Do not include undrawn facilities where no draw down date(s) have been notified or agreed (these should be included in item D1D of the memo items pertaining to commitments below).

C2A-C5A WHOLESALE

C2A Non-marketable securities & debt instruments and marketable assets maturing within 1 month

Include here at residual maturity outflows pertaining to maturing securities or debt instruments, which the institution cannot classify as marketable. Marketable assets maturing within one month at their full marked-to-market value, ie undiscounted should also be reported here.

Refer to the 'Marketable securities' section of the General Notes (paragraphs 45) for further guidance on what should be reported in this item.

C2B Additional advances committed

Enter here commitments to lend, or to take up, bills, certificates of deposit, investments etc, where there has been an agreed date(s) for the draw down of the facility. The full amount of the commitment should be entered. Also include any other contingent liabilities which it is known will actually be called on a specific date (eg performance bonds and guarantees due to be invoked), as well as money market placements and forward deposits.

Where notification of draw down (of facilities that can be drawn down on demand) has been received, enter the flows in the 'Demand' timeband.

Also enter on this line any facilities that may be drawn down on demand where no notification of draw down has been received. These facilities should be entered in the '8 days and under' timeband.

Do not include undrawn facilities where no draw down date(s) have been notified or agreed (these should be included in item D1D of the memo items pertaining to commitments below).

C2C Intragroup/Connected

Report any outflows of funds to counterparties connected⁴ to the reporting institution. Where the institution is reporting on a solo consolidated basis, outflows to entities within the solo-consolidated group should not be reported. Entries should be made in this item rather than any other item in the Wholesale section if any intragroup/connected counterparties are involved.

C2D Interbank (excluding any intragroup)

Report outflows arising from placements with or from, or repayments of loans to or from, other banks. Also include the entire outflows to those entities that would attract a 20% counterparty weighting as outlined in SGN15. Exclude from this item loans to, or placements with, or deposits/placements from, other bank entities within the group (these should be reported under "intragroup/connected", item C2C).

⁴ 'Connected' is as defined in the Supervisory Guidance Notes (SGN13).

C2E Corporate (non-interbank and intragroup)

Report outflows to non-bank, non-connected, corporate counterparties.

C2F Government / Public Sector

Report funds lent to central governments, PSEs, local authorities and central banks. Also include funds lent to the European Commission, the European Union (EU), the European Coal and Steel Community (ECSC) and Euratom. Where an institution is required to place funds on deposit with central banks and monetary authorities, these should be entered as an outflow in the relevant time band.

For guidance on what constitutes public sector, see SGN23.

C2G Repo/reverse repos

Record in this item any outflows related to repos or reverse repos. Also include any outflows relating to stock borrowing and lending. Refer to the 'Repos and Reverse Repos' section of the General Notes (paragraphs 63-68) for further guidance on what should be reported here.

C2H Trade related Letters of Credit

Report here any outflows arising from trade related letters of credit.

C3A Swaps and FRAs

For interest rate and currency swaps, enter payments of fixed and floating legs in the cashflow section.

For FRAs, enter the marked-to-market payment in the relevant time period. The amount paid should be derived from the contract's present value at yields prevailing at the reporting date.

Refer to the 'Swaps and FRAs' section of the General Notes (paragraphs 69-73) for further guidance on what should be reported in this item.

C3B Forward foreign exchange

Enter any cashflows relating to forward sales of foreign currency, where an exchange of principal is effected at the start or maturity of the swap. The amount paid should be entered in the appropriate maturity band.

C3C Forward sales and purchases

For forward sales, the sterling (or euro) equivalent discounted value of the security sold should be recorded as an outflow. The cash leg of any forward purchases should be treated as an outflow in the timeband corresponding to the date of the forward purchase.

C3D Other off balance sheet

Report here any outflows relating to off balance sheet items that have not been reported elsewhere on the Form LR. Institutions should exclude any cash outflows associated with options and enter these in item D1B.

C4A Dividends, tax, other costs and outflows

Report any outflows relating to payments of dividends and tax, or any other outflows that have not previously been reported elsewhere. Also report any outflows relating to settlement accounts, using the trade date plus the settlement period to determine the appropriate timeband.

C5A Total outflows

Report here the sum of items C1A to C4A for each column as appropriate.

D1A-D2B MEMO ITEMS

Options

There are two ways in which options can be reported in items D1A and D1B. Institutions should be consistent and use the same method for both inflows and outflows. Institutions should also inform the FSA of the method adopted, and record this in their liquidity policy statement.

Method 1

Report the inflows and outflows of cash arising from the exercise of the options. It is assumed for reporting purposes that all options are exercised. Any movement of the underlying financial instrument to which the option relates should be ignored.

The 'options inflows' item D1A should contain

- Purchased puts for equity or commodity transactions (if the option is exercised, the institution sells the asset and receives cash);
- Written calls for equity or commodity transactions (if the counterparty exercises its right to buy, the institution sells the asset in question and receives cash);
- All inflows relating to the exercise of interest rate options held/purchased by the institution, whether call options or put options (written interest rate options are not included here but in item D1B).

The 'options outflows' box (D1B) should contain

- Written puts for equity and commodity transactions (if the counterparty exercises this option, the institution purchases the asset and pays out cash);
- Purchased calls for equity or commodity transactions (if this type of option is exercised by the reporting institution, it purchases an asset and pays out cash).
- All outflows relating to the exercise of interest rate options written by your bank, whether call options or put options.

Method 2

Rather than reporting potential inflows of cash if all the options are exercised (ie method 1), this method of reporting is on the basis of marked-to-market value. Purchased options giving rise to either nothing or inflows are therefore treated as assets. Written options giving rise to either nothing or outflows are seen as liabilities.

The 'options inflows' item D1A should contain

- The marked-to-market value of all purchased options (puts or calls) multiplied by the number of options, irrespective of whether these are in or out of the money (the marked-to-market value should be reported on the reporting date).

The 'options outflows' item D1B should contain

- The marked-to-market value of all sold/written options (puts and calls) multiplied by the number of options, irrespective of whether these are in or out of the money (the marked-to-market value should be used on the reporting date).

D1C Undrawn committed facilities granted to the bank

Report any facilities which have been committed to the institution and which, at the reporting date, remain undrawn. Also include any flows arising from standby letters of credit and guarantees. Where a date for draw down has been agreed, the amount should be entered in the appropriate line in the inflows section of Part 2 according to the source of the facility and entered in the corresponding timeband.

D1D Undrawn committed facilities granted by the bank

Report any facilities which the institution has committed to provide (including by way of repos) and which, at the reporting date, remain undrawn. Include only those facilities where a date for draw down has not been agreed. Where a date for draw down has been agreed or where a facility may be drawn down on demand, the amount should be entered in item C1C or C2B of Part 2 (depending on whether they are retail or wholesale facilities). Do not include repo liabilities here, refer to the General Notes (paragraphs 63-68) for guidance as to how these should be reported.

D1E Commitments under credit card and other revolving credit type facilities

Report any commitments which the institution has entered into under credit cards which have not been drawn down at the reporting date (ie available credit to cardholders).

D1F Total deposits

Report the total deposits outstanding as at the reporting date, excluding any liabilities under repo/reverse repo agreements. This figure should be used as the denominator for the mismatch and in the Deposit Concentration section (Part 4) of this form. Include:

- (a) All bank notes issued by the reporting institution;
- (b) No notice/current accounts;
- (c) All time deposits;
- (d) All certificates of deposit issued by the reporting institution, whether at fixed or floating interest rates which are still outstanding;
- (e) Negotiable deposits taken on terms in all respects identical to those on which a certificate of deposit would have been issued, but for which it has been mutually convenient not to have issued a certificate;
- (f) All other issues of commercial paper and medium term notes, bonds, FRNs and other instruments, with the exception of subordinated loan capital of over two years' original maturity;
- (g) Working capital provided by non-resident offices of the reporting institution.

Exclude any certificates of deposit which the reporting institution holds which it itself has issued.

D2A Undrawn treasury concessions granted by the bank

Where an institution has taken on a treasury role on behalf of its group, it may have agreed with the FSA a "group treasury concession" for large exposures purposes (see Chapter LE (Large exposures) of the FSA Policy Guide/IPRU (BANK). The institution should report here the amount of that treasury concession.

D2B Amount of total cash inflows in arrears

Where payments on debt are contractually in arrears, the amount of the debt in arrears should be reported in this item. Only that part of the debt, along with any related interest which is in arrears, should be entered here. That part of the loan which is still due and therefore not yet in arrears should be entered in the inflows section of Part 2 in the maturity ladder in the relevant time band, provided that there is not reasonable doubt over the receipt of those inflows. Where reasonable doubt exists, the institution should report these flows in the 'overdue' timeband in the main body of the form; they should not be entered here until the due date for payment has passed.

Part 3: Behavioural basis

Institutions should complete specific items in this section in appropriate cases only. Such cases should be agreed in advance with the FSA.

E1A-E5D/F1A-F6D INFLOWS / OUTFLOWS

Institutions should report in this section cashflows after adjustment for the behavioural patterns they expect to occur. Where a reporting institution considers an adjustment is appropriate, it should approach its supervisor who will consider proposed adjustments on an individual institution basis. Institutions should be able to provide empirical evidence to support the adjustments they propose. No institution should make behavioural adjustments without the prior written agreement of the FSA.

Where behavioural adjustments are agreed, the reporting institution should report, in the relevant line of Part 3, all the data reported in the equivalent line in Part 2 but adjusted as agreed between the reporting institution and the FSA.

For example, if an institution has one class of no notice accounts which sum to £50mn, and another class of no notice accounts which sum to £30mn, a figure of £80mn will be shown in the appropriate line in Part 2 as a 'demand' outflow. However, the deposits in the first class of account are relatively 'sticky' and a behavioural adjustment is agreed to reflect this. For the purposes of this example, the reporting institution may treat 50% of these outflows as occurring in the 'eight days and under (excl. next day)' timeband. In Part 3, this reporting institution will therefore report a demand outflow of £55mn and an 'eight days and under (excl. next day)' outflow of £25mn. Part 2 will, of course, continue to show a demand outflow of £80mn.

Part 4: Calculation of mismatches and exceptions reporting

Calculation of mismatches

Institutions should monitor compliance with their liquidity mismatch guidelines each business day and should report in this section the mismatch on the reporting date, using the data from the previous parts of the return. Where component boxes of this section relate back to an item in the previous three parts of the return, this is clearly shown in the list of validations. The components then sum to form the mismatches for each period.

All mismatch percentages (lines G5A and G8C and also columns 2 and 3 of the Exceptions) should be reported to two decimal places. For example, where an institution had a mismatch of -5%, it should be reported as -5.00 on the form. There is no limit to the size of the field.

The figures that are entered in items G6D, G7C and G7E should be shown to two decimal places. Thus, if it had been agreed that 15% of undrawn commitments to lend should be included in the 'demand' column, 15.00 should be entered in item G7C.

In order for the forms to be processed, mismatch calculations should be completed on both the contractual basis and the behaviourally adjusted basis, even if the final figures (in G5A and G8C) will be the same. Institutions should only enter figures in line G6D if figures have previously been agreed with the supervisors: if no figures have been agreed, line G6C should be blank. If no behavioural adjustments have been agreed for lines G7C or G7E, institutions should enter the figure 15.00 in these boxes (assuming they have figures in items D1D or D1E respectively, otherwise the items should remain blank). This will enable them to include the default adjustment of 15% to lines D1D or D1E, mirroring that part of the mismatch calculation on the contractual basis.

Exceptions reporting

Institutions are expected to stay within their liquidity mismatch guidelines. Where an institution exceeds its guideline during the reporting period, it should contact the supervisor to inform them of any exception as soon as it occurs. Such breaches should also be reported on this return in the 'Exceptions to guidelines' section.

Dates should be reported in 'ddmm' format, so for example, 18 June would be shown as 1806. Percentages should be reported to two decimal places, so that -5% would be reported as -5.00. Where an institution has an exception to their guideline which lasts longer than one day, it should report each consecutive day's exception separately on the form, ie an exception running from 18 until 20 June would be reported as 18, 19 and 20 June, not 18 and 20 June.

Part 5: Deposit concentration

EEA banks, as defined in the Handbook Glossary of Definitions, are not required to complete any part of Part 5 of this form.

Part A Large Deposits

List all deposits which, at the reporting date, exceed 2% of total deposit liabilities (reported in item D1F). For this part of the form, 'deposits' includes any interbank loans received by the reporting institution. Exclude liabilities under sale and repurchase agreements.

Where a particular deposit, which exceeded the 2% limit during the reporting period, has been withdrawn by the reporting date, the institution need not report this deposit. If, however, the deposit remains (although for a lower amount), the institution should report the deposit on this part of the form.

Where the same depositor/lender has made more than one deposit/loan, or where depositors/lenders are closely related, the deposits/loans should be aggregated for the purpose of this return. (Where an individual deposit comprises 25% or more of the aggregate for a counterparty and has a different maturity or currency from the remainder, it should be reported separately and bracketed.)

When the reporting institution acts as agent in its receipt of funds and these funds are never reported on the institution's balance sheet, they should be excluded from this return.

Where fiduciary/agency funds are received from another institution, reporting institutions should consider deposit size in relation both to the depositing institution and (where possible) to the originator of the deposits. Where this leads to double counting - ie a deposit is included both under the originator's name and under the name of an institution handling fiduciary/agency funds - reporting institutions should indicate this by showing which part of the originator's deposit is already recorded and under what name.

Part B Client Money and Mandated Accounts Held

List the total amounts of client money and mandated accounts held.

REPOS

MARKETABLE ASSETS

	<u>Marketable asset leg (lent out)</u>	<u>Cash Leg (Received)</u>
IF MARKETABLE ASSET > 1 MONTH RESIDUAL MATURITY		
Start	<p>Cease to be reported as owned by institution.</p> <p>Cease to be reported in Part 1 as marketable asset.</p>	<p>Report according to use of funds subsequent to repo.</p> <p><i>Timeband – according to date of contract re the subsequent use, not the date of the repo.</i></p>

IF A MARKETABLE ASSET < 1 MONTH RESIDUAL MATURITY		
Start	<p>Cease to be reported as owned by institution.</p> <p>Cease to be reported in Part 2, item B2A (full marked-to-market value), or in Part 1 if agreed by the FSA.</p>	<p>Report according to use of funds subsequent to repo.</p> <p><i>Timeband – according to date of contract re the subsequent use, not the date of the repo.</i></p>
During life of repo	<p>Report full marked-to-market value of asset in Part 2, item B2F (Repos/reverse repos) to reflect future inflow.</p> <p><i>Timeband – corresponding to residual maturity of asset.</i></p>	<p>Report full value of the repo liability or the cash leg (future outflow of funds include interest) in Part 2, item C2G (Repos/reverse repos).</p> <p><i>Timeband – maturity of repo.</i></p>
Maturity of repo	<p>Day after maturity or more precisely at settlement date of the asset</p> <p>Report marked-to-market value of asset at residual maturity in Part 2, item C2A (Non-marketable securities and debt instruments and marketable assets maturing within one month) to reflect future outflow</p> <p><i>Timeband - corresponding to residual maturity of asset (if in Part 2).</i></p>	<p>Day of maturity of the repo</p> <p>Reduce Nostro balance</p> <p>Report in Part 2, item B2C (cash returned including interest).</p>

REPOS

NON-MARKETABLE ASSETS

	<u>Non-Marketable asset leg (lent out)</u>	<u>Cash Leg (Received)</u>
Start	<p>Cease to be reported as owned by institution.</p> <p>Cease to be reported in Part 2, item B2A (redemption* value).</p>	<p>Report according to use of funds subsequent to repo.</p> <p><i>Timeband – according to date of contract re the subsequent use, not the date of the repo.</i></p>
During the life of repo	<p>Report redemption* value of asset in Part 2, item B2F (Repos/reverse repos).</p> <p><i>Timeband – corresponding to residual maturity of asset.</i></p>	<p>Report full value of repo liability or cash leg (future outflow of funds include interest) in Part 2, item C2G (Repos/reverse repos).</p> <p><i>Timeband – maturity of repo.</i></p>
Maturity of repo	<p>Day after maturity or more precisely at settlement date of the asset</p> <p>Report redemption* value of asset at residual maturity in Part 2, item B2A (Non-marketable securities & debt instruments and marketable assets maturing within one month).</p> <p><i>Timeband - corresponding to residual maturity of asset.</i></p>	<p>Day of maturity of repo</p> <p>Reduce Nostro balance</p> <p>Report in Part 2, item B2C (cash returned including interest).</p>

Undated Repo: Maturity of repo is minimum notice period required under terms of contract.

*** Where redemption value of the asset is unavailable or not appropriate (eg in the case of equities), report the book value.**

REVERSE REPOS

MARKETABLE ASSETS

	Marketable asset leg (Borrowed)	Cash leg (paid)
<div style="border: 1px solid black; padding: 5px; display: inline-block;">IF MARKETABLE ASSET > 1 MONTH RESIDUAL MATURITY</div>		
Start	<p>Report discounted marked-to-market value of asset received for period of reverse repo in Part 1.</p>	<p>Reflected by decrease in Nostro in Part 2, item B2C</p>
During the life of reverse repo	<p>Report discounted marked-to-market value of asset (to reflect future outflow of marketable asset) in Part 2, item C2G (Repos/reverse repos).</p> <p><i>Timeband - day of maturity of</i></p>	<p>Report full value of funds to be received include interest in Part 2, item B2F (Repo/Reverse repo) to reflect future inflow.</p>

	<i>reverse repo.</i>	<i>Timeband – maturity of reverse repo</i>
Maturity of reverse repo	Day of maturity of reverse repo Cease to report discounted marked-to-market value of asset received under reverse repo in Part 1.	Day of maturity of reverse repo Increase in Nostro balance Report in Part 2, item B2C (cash received including interest).
IF MARKETABLE ASSET < 1 MONTH RESIDUAL MATURITY		
Start	Report marked-to-market value of marketable asset received for period of reverse repo in Part 2, item B2A(Non-marketable securities and debt instruments & marketable assets maturing within one month). <i>Timeband - residual maturity of assets received (if in Part 2).</i>	Reflected by decrease in Nostro Report in Part 2, item B2C.
During the life of reverse repo	Report full marked-to-market value of asset (to reflect future outflow of marketable asset) in Part 2, item C2G (Repos/reverse repos). <i>Timeband - maturity of reverse repo.</i>	Report full value of funds to be received including interest in Part 2, item B2F (Repos/reverse repos). <i>Timeband – maturity of reverse repo.</i>
Maturity of reverse repo	Day of maturity of reverse repo Cease to report mart-to-market value of asset received under reverse repo in Part 1 or Part 2.	Day of maturity of reverse repo Increase in Nostro balance Report in Part 2, item B2C (cash received including interest).

REVERSE REPO

NON-MARKETABLE ASSETS

	Non-Marketable asset leg (Borrowed)	Cash Leg (Paid)
Start	Report redemption* value of non-marketable asset received for period of reverse repo in Part 2: 'Non-marketable securities and debt instruments & marketable assets maturing within one month'. <i>Timeband - at residual maturity of assets received.</i>	Reflected by decrease in Nostro Report in Part 2, item B2C.
During life of reverse repo	Report full redemption* value of asset (to reflect outflow of non-marketable asset) in Part 2, item C2G (Repo/Reverse repo). <i>Timeband – maturity of reverse repo.</i>	Report full value of funds to be received including interest in Part 2, item B2F (Repos/reverse repos). <i>Timeband - maturity of repo.</i>
Maturity of reverse repo	Day of maturity of reverse repo Cease to report redemption* value of asset received under reverse repo in Part 2.	Day of maturity of reverse repo Increase in Nostro balance Report in Part 2, item B2C (cash received including interest).

Undated reverse repo: Assume institution has security indefinitely and repo does not as such have a maturity. Return to show decrease in Nostro balance in item B2B and an increase in stock of marketable (non-marketable) assets. Nothing further need be reported until the maturity of the reverse repo is known.

* Where redemption value of the asset is unavailable or not appropriate (eg in the case of equities), report the book value.

FORM LR - LIQUIDITY RETURN

GENERAL

70	G6B02	= the components of G1B02 substituting, as agreed with supervisors, the individual items within E1A02—E1F02, E2A02—E2B02, E4A02—E4H02 and E5A02—E5D02 for the corresponding items in B1A02—B1F02, B4A02—B4B02, B2A02—B2G02, and B3A02—B3D02 respectively, for those lines where the figures in Part 3 Column 9 are greater than zero ¹ (from August 2000)
71	G6B03	= G6B02 + (the components of B5A03 substituting, as agreed with supervisors, the individual items within E1A03—E1F03, E2A03—E2B03, E4A03—E4H03 and E5A03—E5D03 for the corresponding items in B1A03—B1F03, B4A03—B4B03, B2A03—B2G03, and B3A03—B3D03 respectively, for those lines where the figures in Part 3 Column 9 are greater than zero) (from August 2000)
72	G6B04	= G6B03 + (the components of B5A04 substituting, as agreed with supervisors, the individual items within E1A04—E1F04, E2A04—E2B04, E4A04—E4H04 and E5A04—E5D04 for the corresponding items in B1A04—B1F04, B4A04—B4B04, B2A04—B2G04, and B3A04—B3D04 respectively, for those lines where the figures in Part 3 Column 9 are greater than zero) (from August 2000)

¹ Expanding this to explain the logic (which also applies to validations 71-75 in Part 4), the figures are an adjustment of the contractual basis figures, hence G1B02 as the starting point in this validation. (The individual item making up G1B02 (validation 1 on LR/VAL 11) is in turn the sum of various items (validation 2 on LR/VAL 2).) Setting out the validation in detail gives:

G6B02 = G1B02 - B1A02 + if(E1A09 > 0, then E1A02, else B1A02)

- B1B02 + if(E1B09 > 0, then E1B02, else B1B02)
- B1C02 + if(E1C09 > 0, then E1C02, else B1C02)
- B1D02 + if(E1D09 > 0, then E1D02, else B1D02)
- B1E02 + if(E1E09 > 0, then E1E02, else B1E02)
- B1F02 + if(E1F09 > 0, then E1F02, else B1F02)
- B2A02 + if(E4A09 > 0, then E4A02, else B2A02)

M1 REPORTING INSTRUCTIONS

This form should be completed by institutions which report either on a solo or a consolidated basis and:

- i) have agreed a "Trading Book concession" with the FSA, in which case Section 1 should be completed; or
- ii) have "qualifying holdings"¹ in non-financial companies, in which case Section 2 should be completed.

For convenience, these instructions refer to the FSA Banking Supervisory Policy Guide as 'FSA Policy Guide', and the Interim Prudential Sourcebook for Banks as 'IPRU (BANK)'.

Trading Book concessions

Banks which hold the capital instruments of other banks and financial institutions² should deduct these unless they are covered by a Trading book concession. They should also deduct holdings of their own group capital instruments. The following items may give rise to a deduction but (i) to (iii) and (vi) are capable of being covered by a Trading Book concession:

- (i) all long, physical positions in instruments which are included in the capital of the issuing credit or financial institution (including such instruments sold under sale and repurchase or similar agreements, instruments carrying third party guarantees (including central government guarantees), depository receipts, and net commitments³ to underwrite new issues of such instruments (from working day zero));
- (ii) all indirect holdings of credit or financial institution's capital taken via instruments issued by their holding companies on behalf of such institutions. Also indirect holdings taken via instruments issued by vehicles whose business is exclusively or mainly to hold or repackage credit and/or financial institutions' capital instruments, unless the instruments are fully protected from any risk on the underlying capital instruments (the reporting institution should agree such cases with the FSA);
- (iii) equity holdings in investment trusts, and holdings of units in unit trusts, mutual funds or other investment vehicle established exclusively or mainly to hold credit or financial institutions' capital instruments;

¹ As defined in The Banking Consolidation Directive (2000/12/EC).

² This should be taken to mean instruments which are included in the supervisory capital of the issuing credit or financial institution by its supervisory body. The term financial institution for the purposes of this notice should be defined as a directly-supervised financial institution or a financial holding company above a supervised financial institution whose exclusive or main business is to carry out (or is connected with) one or more of the activities listed in points 2-12 in Annex I to The Banking Consolidation Directive (2000/12/EC); see Section 10, Chapter CA (Definition of capital) of the FSA Policy Guide /IPRU (BANK). Parent companies which are primarily engaged in commercial activities but which have a supervised financial subsidiary do not fall within the definition of a financial institution.

³ The scaling factors set out in Chapter TU (Underwriting in the Capital Adequacy Framework) of the FSA Policy Guide/IPRU (BANK) may be applied before deduction but only with the FSA's prior written agreement.

- (iv) guarantees of other credit and financial institutions' capital instruments given by the reporting institution;
- (v) guarantees given by the reporting institution which are included in the supervisory capital of another credit or financial institution; and
- (vi) any other holdings of instruments of a capital nature relating to credit or financial institutions.

The policy on deductions is set out in Section 10, Chapter CA (Definition of capital) in the FSA Policy Guide/IPRU (BANK). Where reporting institutions are unsure whether a deduction should be made from capital they should refer to their supervisory analyst.

Qualifying holdings

The Banking Consolidation Directive (2000/12/EC) requires deductions from capital in respect of material holdings in certain companies which exceed a given threshold. A reporting institution's holding constitutes a 'qualifying holding' if it is:

a direct or indirect holding in an undertaking which represents 10% or more of the capital or of the voting rights or which makes it possible to exercise a significant influence over the management of the undertaking in which the holding subsists.

Deductions are not necessary when shares are not financial fixed assets, the shares are held in the normal course of underwriting or if the shares are held in the bank's name on behalf of others. In addition, the FSA may agree that non-deduction is appropriate where shares are held temporarily during a financial reconstruction or rescue operation.

The policy on qualifying holdings is outlined in Chapter CA (Definition of capital), Section 10, of the FSA Policy Guide/IPRU (BANK).

SECTION 1: Holdings in credit and financial institutions' capital instruments

10 Record whether the reporting institution has agreed with the FSA that a Trading Book concession should apply.

20 Record the amount of the Trading Book concession. This will normally be set as a percentage of the previous period's capital base.

30 Record whether a concession to hold own group paper has been agreed with the FSA.

40 Record the amount of the own group paper concession. This concession will normally be a sub component of 20.

50-70 Total amount of credit and financial institutions' capital instruments held

50 Total amount held

Include the total value of the reporting institution's holdings of capital instruments (whether or not they fall within the reporting institution's Trading Book concession and whether or not issued by own institution or another). Institutions whether reporting on a solo or consolidated basis should exclude investments in respect of unconsolidated subsidiaries and associates which are subject to deduction elsewhere. Holdings will generally be recorded at book value but scaling factors may be applied to underwriting positions (see below). This treatment should be agreed with the FSA before being adopted. No allowance should be made for any amortisation applied by issuers of bank or financial institution capital in meeting their own supervisory requirements.

The sum of items 60 and 70 should equal item 50.

60 Banking Book

Include all holdings of credit and financial institutions' capital instruments and capital related guarantees in the Banking Book (whether relating to own institution or others).

70 Trading Book

Include all capital items held in the Trading Book relating to banks and financial institutions. The figures cited here may differ from those recorded under item A170 of the BSD3 since amounts recorded under the latter item will be at book value and will not include holdings of own institution Tier 1.

The sum of items 70.1, 70.2, 70.3 and 70.4 should equal item 70.

70.1 Other institutions' paper eligible for a Trading Book concession

Include all holdings of capital instruments relating to other credit and financial institutions which are not part of own group. Include net underwriting commitments; where the FSA has agreed to the scaling factors set out in Chapter TU (Underwriting in the capital adequacy framework) of the FSA Policy Guide/IPRU (BANK), the discounted value of any commitment should be applied. At a consolidated level, where own group equity is held solely as a result of a designated equity index arbitrage trading, it may be classified as equivalent to paper belonging to other institutions; other holdings of own group paper should not be reported here but in 70.2, 70.3 or 70.4 as appropriate. This treatment should be agreed with the FSA before being adopted.

70.2 Holdings eligible for own group concession

For solo reporting institutions with an own group concession, include any paper issued by sister or parent undertakings within own group. This treatment should be agreed with the FSA before being adopted. Do not report here holdings of own institution paper and holdings of capital instruments issued by subsidiaries or associate companies in which a participating interest is held.

All own group paper held at a consolidated level should be deducted and should be reported under 70.3 or 70.4 as appropriate.

70.3 Paper not eligible for Trading Book concession (and deductible from Tiers 1 + 2)

At a solo level, include all holdings of own institution Tier 2 paper, capital instruments issued by subsidiaries and associate companies in own consolidated group in which a participating interest is held. Include any other instruments which are not eligible for a Trading Book concession.

At a consolidated level, include all holdings of consolidated group paper contributing to Tier 2 capital. Include any other instruments which are ineligible for a concession. Own group equity held solely as a result of designated equity index arbitrage trading at a consolidated level may be classified as paper belonging to other institutions (item 70.1). This treatment should be agreed with the FSA before being adopted. Holdings of own group paper taken via subsidiaries consolidated via the aggregation plus methodology should be included here.

70.4 Holdings of own Tier 1 instruments (and deductible from Tier 1)

At a solo level, include all holdings of own institution Tier 1 instruments.

At a consolidated level, include all holdings of instruments which contribute to consolidated Tier 1 capital. Where a bank or consolidated group holds capital instruments which are included in its Tier 1 capital, the value of these should be deducted from Tier 1 directly. Holdings taken through equity index arbitrage may be treated as equivalent to other banks' paper (and included under item 70.1). This treatment should be agreed with the FSA before being adopted.

80 Holdings in excess of 10% of other credit and financial institutions' capital

List all credit and financial institutions in which the reporting institution has direct or indirect holdings which amount to more than 10% of the acquired institutions' capital; this calculation may be based on information contained in public financial statements. Identify both the total value of the holdings and the amount by which they exceed 10% of the other credit or financial institutions' capital. Where banks have more than 10 such holdings, they may aggregate the smallest holdings (by value) and record the total under 80.10.

90-130 Total amounts to be deducted from Tier 1 and Tier 2 capital or non-deductible

90 Banking Book (on-balance sheet deductions)

Report the total amount of Banking Book holdings of capital instruments to be deducted from Tier 1 and Tier 2 capital at the reporting date. Banking Book deductions from Tiers 1 and 2 will normally equal item 60 less any guarantees of other banks' or financial institutions' capital instruments or the provision of any guarantees which are included as part of the supervisory capital of another bank or financial institution, which are reported at item 100 below. [It is assumed that any purchases of own Tier 1 instruments not held for trading purposes would be cancelled; such instruments should not in any case be included here but should be deducted from Tier 1 capital on the form BSD3.] This figure should be reported on line A171 of BSD3.

100 Banking book (off-balance sheet - deductions)

Report guarantees of other banks' or financial institutions' capital instruments or the provision of any guarantees which are included as part of the supervisory capital of another bank or financial institution. Guarantees should not be held in the Trading Book. The amount reported here should be included in line A340.6 of the form BSD3.

The total of items 90, 100 and 120 will equal item 60.

110 Trading Book (deductions)

Report the total amount of Trading Book holdings deducted from Tier 1 and Tier 2 capital at the reporting date. Banks should follow methodology (a) or (b) below depending on whether they have any holdings listed under item 80 above in the Trading Book. This figure should be recorded on line A171 of the form BSD3.

a) For institutions with no holdings listed under item 80 (holdings in excess of 10%):

First, determine the positive excesses, if any, of (i) items 70.1 and 70.2 combined over the Trading Book concession and (ii) item 70.2 over any Trading Book concession for own group paper. Take the larger of these excesses and add to item 70.3 (items not eligible for Trading Book concession) to give the overall amount to be deducted from Tiers 1 and 2. Holdings of own Tier 1 instruments should be deducted directly from Tier 1 and not from Tiers 1 and 2 combined.

b) For institutions with holdings listed under item 80 (holdings in excess of 10%):

All amounts in excess of 10% of the other credit and financial institutions' capital should be deducted. Where banks have such holdings in the Trading Book, adjustments may be made to the calculation of excesses over total and own paper Trading Book concessions under (a) above to avoid double deductions.

120 Banking Book (non deductible)

Capital items held in the Banking Book should be deducted other than in exceptional circumstances, such as when they are held temporarily for the purposes of a financial assistance operation. Such cases should be agreed with the FSA in advance. In such cases, the figure may be reported on line A172 of the form BSD3.

130 Trading Book (non deductible)

Include amounts under items 70.1 and 70.2 which fall within a Trading Book concession and which are not deductible by reason of being an excess included under item 80 above. Amounts recorded under both items 70.1 and 70.2 count towards the overall Trading Book concession. This amount should be reported on line A172 of the form BSD3.

140 Five largest holdings in credit and financial institutions, at reporting date

Include the five largest holdings (taking direct and indirect together) in credit and financial institutions, ranked by the value of holdings. Include holdings taken in the Banking and Trading Books. Include the name of the credit and financial institution and the book value of the reporting institution's holding. Banks may agree a de minimis reporting level with their line supervisor.

SECTION 2: Qualifying holdings in non-financial companies

150 Total amount of qualifying holdings

Include here the book value of all qualifying holdings in non-financial companies. Holdings in unconsolidated subsidiaries and associates in which there is a participating interest (under the Companies Act 1985), for which deductions are made elsewhere, need not be reported here. Institutions reporting on a consolidated basis should include holdings taken anywhere in the consolidated group, including holdings taken in subsidiaries consolidated using the aggregation-plus method. This sum should be reported on item A180 of the form BSD3 under Banking Book deductions.

160 Total amount of qualifying holdings in excess of 15% of capital

Sum the amounts by which any of the qualifying holdings reported in item 150 individually exceeds 15% of the reporting institution's Tier 1 and Tier 2 capital for the previous reporting period (adjusted for deductions for holdings of other credit and financial institutions' capital instruments).

170 Total amount of qualifying holdings in excess of 60% of capital

Include here the amount by which the aggregate of qualifying holdings reported in item 150 exceed 60% of the reporting institution's Tier 1 and Tier 2 capital for the previous reporting period (adjusted for deductions for holdings of other credit and financial institutions' capital instruments).

180 Total deduction to be made from capital

Include here the larger of items 160 and 170 above. This amount should be reported as deductible under item A180.4 of the form BSD3. Any qualifying holding which is not deducted should be recorded as a risk weighted amount under item A180 of the form BSD3.

Sterling stock liquidity return (Form SLR1)

Only those banks which have been specifically requested by the Financial Services Authority (FSA) to complete this form, in place of the Form LR, should do so.

This return is used to calculate the level of sterling stock liquidity which the reporting institution should hold against its estimated outflow of funds arising from liabilities to wholesale and retail customers. This level should be maintained at all times. Unless otherwise agreed, the return should be completed on a consolidated basis. Where a bank wishes to report on a different basis this should be agreed in advance with the FSA.

These reporting instructions should be read in conjunction with the Supervisory Guidance Notes (SGN).

SLR1 item

1.0 **Sterling stock**

1.1 **Cash**

Include all sterling notes including Bank of England notes and also notes issued by the Scottish and Northern Irish banks. Include cash which the reporting institution has paid into another UK bank, EEA bank or UK branch of a bank established outside the EEA (as defined in the Handbook Glossary of Definitions), or the Banking Department of the Bank of England, which has not yet been credited to the reporting institution's account in the books of the other bank.

Holdings of gold sovereigns should be excluded.

1.2 **Operational balances with the Bank of England**

Enter balances with the Head Office of the Bank of England, except special deposits and cash ratio deposits, which should be excluded.

Amounts receivable under finance leases from the Bank of England should be excluded (in contrast to statistical reporting to the Bank of England).

1.3 **UK Treasury Bills**

Enter holdings of UK Treasury bills issued by H M Government. UK Treasury bills denominated in euros and Bills for which the Bank of England is obligor may also be included.

1.4 **Gilts**

Enter all holdings of sterling and foreign currency denominated stock issued by H M Government and the Irish land purchase stocks. Other British Government-guaranteed stocks should be excluded from this return.

1.5 **UK Bank bills eligible for rediscount at the Bank of England**

These comprise holdings of sterling bills irrespective of issuer which are both payable in the United Kingdom and have been accepted by eligible banks. A list of eligible banks is contained in SGN Appendix G.

1.6 **UK local authority bills eligible for rediscount at the Bank of England**

Local authorities are defined in SGN Appendix F.

1.8 **Other**

Institutions may, with the prior agreement of the FSA, include any of the following

- sterling international bonds issued by EEA governments and certain international financial institutions, where they have been issued directly into the Euroclear and Cedel settlement systems;
- sterling bonds ('bulldogs') of the same issuers, where they have been issued into (and are now held by) the CREST settlement system; and
- Euro denominated bonds of the same issuers where they are eligible for use in ESCB monetary policy operations.

You will find more detailed lists of all three categories of assets on the Bank of England's website under OMO on the "Eligible Securities" page (www.bankofengland.co.uk/markets/money/eligiblesecurities.htm).

The FSA will automatically extend the list of assets that it considers appropriate for banks to count as 'sterling liquid assets' in line with the Bank of England's programme of extending its list of 'eligible securities', as described in its notice of 15 October 1998. The Bank will maintain updated lists of the relevant assets on its website.

The international financial institutions whose issues may be included are:

- African Development Bank
- Asian Development Bank
- Council of Europe Social Development Fund
- European Atomic Energy Community
- European Bank for Reconstruction and Development
- European Community
- European Coal and Steel Community
- European Investment Bank
- Inter-American Development Bank
- International Bank for Reconstruction and Development/World Bank
- International Finance Corporation
- Nordic Investment Bank

2.1 **Wholesale sterling net outflow limit over five working days**

Enter the institution's internal limit for the wholesale sterling net outflow over five working days. The limit should be agreed with the FSA. This should be the limit shown in the institution's most recent liquidity policy statement submitted to the FSA unless it has been agreed with the FSA that a different limit is appropriate. This limit should not be changed without the prior agreement of the FSA.

2.2 **Sterling Stock Floor over five working days**

Enter the floor for the sterling stock over five working days, as agreed with the FSA. Unless otherwise agreed, the floor should normally be the figure entered in item 2.1 multiplied by 0.5, rounded down to an integer where appropriate. The floor should not be changed without the prior agreement of the FSA.

3.0 **Wholesale sterling net outflow over five working days**

Include all deposits from banks and building societies taken via the institution's Treasury Division.

Include all other deposits of £1mn or more taken on wholesale market terms. For this purpose, wholesale deposits shall be defined as deposits closely related to money market operations which are made as a result of customers being offered a specific rate for a particular deposit for a particular period. This shall be taken to include interest-bearing funds deposited either at branches or direct with, for example, the bank's Treasury Division, on the strength of an interest rate quoted on enquiry on each occasion that a deposit is made.

Include sterling certificates of deposit maturing within five working days.

In normal circumstances, item 3 should not exceed item 2.1. Exceptions should be notified to the normal supervisory contact at the FSA unless the institution has enough surplus stock liquidity, over and above that needed to meet the LQR (item 6.0 below), to cover the excess. Where this is the case, the exception should not be reported to the FSA.

Any cases of doubt should be referred to the normal supervisory contact at the FSA.

4.1 Sterling certificates of deposit held - total

Exclude sterling certificates of deposit maturing within five working days which have been included in item 3.0 above.

If a reporting institution holds certificates of deposit which it has itself issued, these should be excluded from item 4.1.

Include negotiable deposits made on terms identical to those on which a certificate of deposit would have been issued, but for which it is mutually convenient not to issue a certificate.

4.3 Total discounted certificates of deposit

The figure should be rounded down, where appropriate, to an integer.

4.4 Allowable certificates of deposit

This figure should be calculated using the figure reported in 4.3 (after any rounding down). The limit, expressed as 50% of item 3.0, should also be rounded down if appropriate.

5.1 Sterling retail deposits falling due in next five working days

Include all retail deposits with a residual contractual maturity of five working days or less as at the reporting date. Deposits subject to a penalty on withdrawal should only be included if the residual contractual maturity is five working days or less.

For this purpose, retail deposits shall be defined as deposits which arise from customer acceptance of an advertised rate (including nil) for a particular product. This shall be taken to include deposits taken in a bank's branch network on the grounds of an existing or new customer relationship where the rates of interest are not directly linked to interbank rates, and are advertised or displayed at the branch counter or are part of standard tariff terms so that depositors can establish, without further enquiry, the rate applicable to each type of deposit.

Any cases of doubt should be referred to the normal supervisory contact at the FSA.

5.3 Sterling retail deposits to be covered

The figure should be rounded up, where appropriate, to an integer (being prudent).

6.0

Sterling liquidity ratio (LQR)

The sterling liquidity ratio should be 100% or more unless it is appropriate for the institution to maintain a lower ratio (such cases should be agreed with the FSA). The figure should be calculated to two decimal places (rounding .005 and above up, and below .005 down). The calculated figure should then be multiplied by 100 and reported on line 6.0 as integers.

Repo activity

Where gilts or other assets qualifying for inclusion in the sterling liquidity stock have been acquired as a result of entering into a repo or reverse repo transaction, they can be included in a bank's liquidity stock for the duration that they are held; conversely, the asset sold should be excluded until it is repurchased.

Breaches

Any breaches of the stock liquidity ratio should be reported immediately to the normal supervisory contact at the FSA.

Supervisory Guidance Notes (SGN)

1 The following guidance notes and the reporting instructions apply specifically to the supervisory returns contained in this folder (Annex 2 of *SUP*). They do not relate to the completion of the forms contained in the Bank of England's Banking Statistics Definitions folder. There are some common areas, nevertheless, where the definitions in the Bank's statistical folder apply equally to items reported in the supervisory returns. Thus, where no specific guidance is contained within these notes and definitions, reporting institutions should be guided by the Bank of England's Banking Statistics Definitions.

In these Guidance Notes, the term 'bank' is generally used to cover those institutions defined as a UK bank, an EEA bank or a bank established outside the EEA in the Handbook Glossary of Definitions, unless specified otherwise. In the case of the capital adequacy (BSD3), liquidity (LR) and large exposures (LE2) returns, it also covers building societies as defined in the Handbook Glossary of Definitions.

2 In general, supervisory returns should include all of the assets, liabilities and off-balance sheet items of the reporting institution (for Coverage see notes 3 & 4 below) and not only those related to its UK offices.

For convenience, these guidance notes refer to the FSA Banking Supervisory Policy Guide as 'FSA Policy Guide', and the Interim Prudential Sourcebook for Banks as 'IPRU (BANK)'.

2 a Whilst there are substantial advantages in preserving sterling as the sole reporting unit (particularly because of the complexity of the supervisory data), the FSA will observe similar standards to and practices of the Bank of England after the introduction of the single currency in January 1999. Institutions should note that the FSA and the Bank of England would expect the currency of reporting to be consistent between supervisory and statistical returns. Any institution with a strong business case for switching to reporting in euros should write to the Financial Risk Analysis and Monitoring Unit at the FSA.

Coverage

3 The reporting dates for the various supervisory returns are set out on the front of the individual forms and are summarised below. The reporting schedule for January 2001 to December 2001 is contained in Appendix I.

Frequency	Report	Reporting dates	Basis of reporting
Monthly	SLR1	Second Wednesday	Consolidated (unless agreed otherwise), UK banks
Quarterly	BSD3, M1	End calendar quarters, or at dates coinciding with the financial year end	Unconsolidated or solo consolidated, UK banks

	LE2	End calendar quarters, or at dates coinciding with the financial year end	Unconsolidated or solo consolidated and consolidated, UK banks
	LR	End February, May, August and November for Form BT monthly reporter, or end calendar quarters for Form BT quarterly reporter	Unconsolidated including any overseas branches or solo-consolidated if capital and large exposures are reported on a solo-consolidated basis (UK banks), or business conducted by EEA banks and banks established outside the EEA
Half yearly	BSD3, M1	End June and December, or at dates coinciding with the financial year end	Consolidated, UK banks
	B7	End June and December, or at dates coinciding with accounting periods	UK branches of banks incorporated outside the EEA ¹ (banks established outside the EEA)

- 4 For certain returns, different reporting dates may be agreed with the FSA for those institutions with a financial year which does not coincide with an end calendar quarter date. The companies to be included in any solo consolidation or consolidation should be those agreed between the reporting institution and the FSA in accordance with Chapter CS (Consolidated supervision) of the FSA Policy Guide/IPRU (BANK).

Valuation

- 5 Outstanding liabilities and holdings of assets should normally be reported at the value outstanding in the reporting institution's books (ie book value), in accordance with the reporting institution's usual accounting practices. Where the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) are met, certain assets and liabilities may be netted for the purpose of calculating risk-weighted assets. However, reporting institutions should report in accordance with their statutory accounting practices - see example below. For positions held in the Trading Book, the reporting institution should report on a mark-to-market basis. Reporting institutions wishing to report on a different basis should agree this with the FSA. For valuation of interest and exchange rate contracts, see the Form BSD3 definitions for items A472 and A474.

¹ The EEA comprises the European Union and Norway, Iceland and Liechtenstein.

Netting Example

Consider assets of 100 and liabilities capable of being netted against those assets of 30. The terms of the relevant FSA Policy Guide/IPRU (BANK) have been met:

- (i) If the reporting institution's statutory accounts record this situation as 70 of assets and no liabilities, then Section A of the Form BSD3 should show the same;
- (ii) If the reporting institution's statutory accounts record this situation as 100 of assets and 30 of liabilities, then the Form BSD3 reporting should be: 70 of assets at the counterparty risk weight, 30 of assets at 0% risk weight and 30 of liabilities. This is in order to preserve the correspondence between statutory balance sheet footings and the unweighted BSD3 footings. The adjustment should be recorded in columns 1, 2 and 5 of Appendix A-III of the Form BSD3.

Specific provisions

- 6 All loans, advances, bills and securities (and also off-balance sheet items) reported on the capital adequacy returns should be included net of any specific or earmarked general provisions made. Off-balance sheet items should also be reported net of specific provisions, although the amount of such provisions should be included in item A750 on Form BSD3. For large exposures purposes, the exposures should be reported gross of provisions for bad and doubtful debts.

Accruals

- 7 In general, returns should be completed on an accruals rather than a cash basis. On the Form BSD3, such accruals should be shown, where possible, against the relevant category of counterparty for assets or under item A260 for accruals not specifically identified; accruals on liabilities should be included under item A760.2.

Maturity of assets and off-balance sheet items

- 8 Certain on- and off-balance sheet items should be reported according to their maturity. Liabilities and assets should be classified according to their remaining maturity ie on the basis of a residual maturity of one year or less or more than one year, and not according to their original maturity. Reporting institutions with non-resident offices may discuss the implications of this with the FSA if the reporting of exactly one year maturities are treated differently in the countries in which they are operating. Off-balance sheet commitments, on the other hand, should be reported according to their original maturity.

Exposures

9

An exposure is the Amount at Risk arising from the aggregate of the reporting bank's business, whether conducted on or off-balance sheet², as follows:

(1) Claims on a counterparty including actual claims, and potential claims which would arise from the drawing down in full of undrawn advised facilities (whether revocable or irrevocable, conditional or unconditional) which the bank has committed itself to provide, and claims which the bank has committed itself to purchase or underwrite. Typically these will be in the form of:

- (a) all loans and advances (including overdrafts) however denominated;
- (b) nostro accounts
- (c) the net book value of finance leases, less deferred tax provided;
- (d) discounted bills held;
- (e) bonds, acceptances, promissory notes, loan stocks and other paper held;
- (f) margin held with investment exchanges, their clearing houses or other counterparties;
- (g) OTC futures (including forwards), options, swaps and similar contracts on interest rates, foreign currencies, equities, securities, commodities etc. (Note: foreign exchange related contracts should only be included if their original maturity was over 14 days.)
- (h) claims arising in the course of settlement of a securities or other transactions;
- (i) claims arising in the case of forward sales and purchases of instruments in both the Trading and Banking Books that either settle on a date beyond the market norm for that instrument or where the payment due is deferred until some future date;

² NOTE : Exposures entered into by a bank as a trustee are excluded from the scope of the large exposures return.

- (j) any commitment with a certain or uncertain drawdown entered into by the reporting bank. This should include amounts outstanding under:
- sale and repurchase agreements;
 - forward asset purchase agreements;
 - buy back agreements;
 - forward forward deposits placed;
 - the unpaid part of partly-paid shares.
- (k) any other claims arising from similar transactions entered into by the reporting bank.

The following should be excluded:

- (i) claims and other assets which have been deducted from the reporting bank's capital base in order to determine the capital base for the purpose of calculating capital ratios and reporting large exposures. Such deductions are listed in Section 10 of Chapter CA (Definition of capital) of the FSA Policy Guide/IPRU (BANK);
- (ii) claims on group companies which are consolidated for the purpose of the reporting bank's solo reporting within the terms of the FSA Policy Guide/IPRU (BANK) on consolidated supervision (Chapter CS (Consolidated supervision), Section 9.2). The reporting institution should agree such cases with the FSA;
- (iii) claims arising in the course of settlement of a foreign exchange transaction on a counterparty where the reporting institution has settled its side of the transaction but has not received the countervalue, for a period of up to 2 working days after payment was made. After this period such claims should be reported as an exposure;
- (iv) in the case where an asset is traded, claims on the counterparty to the transaction which occur whilst the transaction is in the course of settlement where neither the reporting bank nor the counterparty have settled their side of the transaction, for a period of five working days after settlement was due. (*Amounts which have not been settled within 5 working days after the due date should, however, be reported as an exposure.*)
- (v) counterparty risk on futures and options should not be reported where the contracts concerned are traded on exchanges subject to daily margining requirements. However, issuer risk on any underlying bonds/equities should be reported since the value of these contracts is dependent on the issuer's financial soundness. Where contracts relate to a broadly based cash settled index, no issuer risk need be reported.

(2) Contingent liabilities arising in the normal course of business and those contingent liabilities which would arise from the drawing down in full of undrawn advised facilities³ (whether revocable or irrevocable, conditional or unconditional) which the bank has committed itself to provide. This would include:

- (a) direct credit substitutes (including guarantees, standby letters of credit serving as financial guarantees, bills accepted by the reporting institution but not held by it, 'per aval' endorsements and other endorsements with equivalent effect);
- (b) claims sold with recourse, where the credit risk remains with the reporting bank;
- (c) transaction related contingents not having the character of direct credit substitutes (including tender and performance bonds, bid bonds, warranties, standby letters of credit related to particular transactions, retention money guarantees, import and export excise duty bonds, VAT bonds);
- (d) undrawn documentary letters of credit issued or confirmed; and
- (e) those arising from similar transactions entered into by the reporting bank.

The following should be excluded:

- (i) indemnities in respect of lost share certificates and import/export carnets;
- (ii) bill endorsements on bills already endorsed by another bank; and
- (iii) where the reporting bank acts as a lessor, mortgagee, or owner of goods under a hire-purchase agreement, those contingent liabilities which may result from injuries, damage or loss suffered by third parties and caused by the goods.

³ NOTE: For these purposes, facilities include overdraft, standby, revolving underwriting, and multiple option facilities and similar facilities provided by the reporting bank. It may be the practice for a bank or banking group to advise sub-limits within an overall facility limit for different types of business or to be advised by different branches or subsidiaries of the bank. These sub-limits may total more than the overall facility limit. In such cases, the exposure should be taken as the overall facility limit rather than the aggregate of the sub-limits.

(3) **Assets, and assets which the bank has committed itself to purchase or underwrite, whose value depends wholly or mainly on a counterparty performing his obligations, or whose value otherwise depends on that counterparty's financial soundness but which do not represent a claim on the counterparty. This would include:**

- (a) equities, equity warrants and options which do not represent a claim on the issuer but whose value depends, inter alia, on the issuer's financial soundness.

10 For the purposes of determining **large exposures**, separate exposures granted to the same counterparty should be aggregated. Exposures to a number of individual counterparties should be aggregated and considered as a single exposure where those counterparties are financially connected with one another so that the financial soundness of one of them may affect the other or others. Exposures to a number of public sector bodies or local authorities should be reported as separate exposures. Exposures to individual counterparties within a group should be separately identified within their respective aggregates on the Form LE2. In the case of the B7, institutions should send these details directly to their supervisor and not include the breakdown on the Form itself.

Counterparties

11 A counterparty is a borrower from or customer of the reporting bank, or some other party to which the reporting bank is directly or indirectly exposed. In general, the identification of counterparties follows similar practice to that used in the Bank of England's statistical returns, and a copy of their guidance is reproduced in Appendix A. Exposures to the following categories of counterparties should be reported separately in both capital adequacy and large exposures returns:

An individual non-bank counterparty

An individual non-bank counterparty comprises natural and legal persons and includes individual trusts, corporations, unincorporated businesses (whether as sole traders or partnerships) and non-profit making bodies. This category *excludes* governments, and *includes* local authorities and public sector bodies.

Closely related counterparties

12 A group of closely related counterparties exists where:-

- (a) unless it can be shown otherwise, two or more individual counterparties constitute a single risk because one of them has, directly, or indirectly, control over the other or others; or
- (b) individual counterparties are connected in such a way that the financial soundness of any of them may affect the financial soundness of the other or others or the same factors may affect the financial soundness of both or all of them.

In such cases the exposure to these individual counterparties should be aggregated and considered as a single exposure to a group of closely related counterparties.

It is not possible to give a comprehensive list of the different types of relationship between individual counterparties which it might be reasonable to consider as giving rise to common risk and therefore which constitutes for these purposes a group of closely related counterparties. The following list is therefore indicative and not comprehensive:-

- Group undertakings as defined in the Companies Act;
- Companies whose ultimate owner (whether in whole or in significant part) is the same individual or individuals and which do not have a formal group structure;
- Companies having common directors or management; and
- Counterparties linked by cross guarantees.

Where there is doubt in a particular case as to whether a number of individual persons constitute a group of closely related counterparties or, notwithstanding that a relationship as identified above exists, it is considered that the counterparties do not share a 'common risk', the circumstances should be discussed with the FSA to determine how the exposure(s) should be reported. Exposures to a number of public sector bodies, or local authorities are considered not to constitute a single exposure to "a group of closely related non-bank counterparties".

An undertaking (as defined in Financial Reporting Standard 2, Paragraph 14) is the parent undertaking of another undertaking (a subsidiary undertaking) if any of the following (from section 259, Companies Act 1985) apply.

- (a) It holds a majority of the voting rights in the undertaking.
- (b) It is a member of the undertaking and has the right to appoint or remove directors holding a majority of the voting rights at meetings of the board on all, or substantially all, matters.
- (c) It has the right to exercise a dominant influence over the undertaking:
 - (i) by virtue of provisions contained in the undertaking's memorandum or articles; or
 - (ii) by virtue of a control contract. The control contract must be in writing and be of a kind authorised by the memorandum or articles of the controlled undertaking. It must also be permitted by the law under which that undertaking is established.

- (d) It is a member of the undertaking and controls alone, pursuant to an agreement with other shareholders or members, a majority of the voting rights in the undertaking.
- (e) It has a participating interest in the undertaking and:
 - (i) it actually exercises a dominant influence over the undertaking; or
 - (ii) it and the undertaking are managed on a unified basis.
- (f) A parent undertaking is also treated as the parent undertaking of the subsidiary undertakings of its subsidiary undertakings.

Connected counterparties

13 Parties connected to the reporting institution comprise:-

- (i) other group companies⁴, excluding those companies which are included in the consolidation on a particular return;
- (ii) associated companies as defined in the Statement of Standard Accounting Practice 1 (SSAP1);
- (iii) directors, controllers and their associates as defined in Sections 417, 178/180, and 422 of the Financial Services and Markets Act 2000 respectively (or Section 105 of the Banking Act 1987 as amended by The Banking Co-ordination (Second Council Directive) Regulations 1992): loans to employees of a reporting institution's parent undertaking should also be included;
- (iv) non-group companies with which directors and controllers are associated.

A pension fund or other trust fund of the group should not necessarily be classified as connected. However, it should be treated as a connected counterparty if a director/controller of the reporting institution is both a director of the fund and is involved in decision-making on whether or not an exposure to that fund should be undertaken. Funds managed within the banking group need not be treated as connected, and similarly for funds managed third party groups. However, the onus remains on banks which undertake such exposures to examine closely each case on its own merits. Notwithstanding the FSA's acceptance that such funds may, provided banks can satisfy themselves that they meet the criteria, be treated as unconnected/unrelated, there remains some aggregated risk.

Include as a director/controller any employee of the reporting institution who is appointed by the reporting institution to be a director of another company.

⁴ The definition of group companies used for supervisory reporting is that set out for "group undertakings" in section 262 of the Companies Act 1985 as amended by the Companies Act 1989, together with any associated companies that are consolidated with the institution for reporting purposes, or that would be consolidated but for the fact that they are supervised by another UK supervisory authority. (For definitions of parent and subsidiary undertakings refer to section 258 of the Companies Act 1985 as amended by the Companies Act 1989.)

14 Any employee of the reporting institution should be treated as being associated with another company, whether the company is registered or domiciled in the UK or not, if he/she holds the office of director (or alternate director) with that company in his/her own right, or as a result of:

- (i) a loan granted by the reporting institution to the company;
- (ii) a financial interest taken by the reporting institution in the company;
- (iii) by virtue of a professional interest unconnected with the reporting institution;
- (iv) if he/she and/or his/her associates, as defined above, together hold 10% or more of the equity share capital of that company.

In the case of consortium banks with no definable parent, the reporting of connected exposures should be discussed with the FSA.

Reporting institutions should ensure that reporting is consistent between the capital adequacy and large exposures reports.

Analysis of Categories

15 For each category of on- and off-balance sheet item there is a breakdown of the total into different weighting bands, ie 0%, 10%, 20%, 50% or 100%, depending on the risk weight attributed to the counterparties. The following summary list identifies the counterparty weights. It is not a full list of all on- and off-balance sheet items, eg cash is not shown here (see Definitions for Form BSD3 Section A for a full list of items and for more detail generally);

- 0%** (i)* Claims on, other than holdings of bills or securities issued by, Zone A central governments and central banks;
- (ii)* Claims on, other than holdings of bills or securities issued by, Zone B central governments and central banks denominated in local currency and funded by liabilities in the same currency.

- 10%** (i)* Holdings of Treasury bills and fixed interest securities (including index-linked securities) issued by Zone A central governments and central banks with a residual maturity of 1 year or less, and floating rate Zone A central government and central bank securities of any maturity;
- (ii)* Holdings of Zone B central government and central bank securities with a residual maturity of 1 year or less denominated in local currency and funded by liabilities in the same currency.

- 20%**
- (i)* Holdings of Zone A central government and central bank fixed interest securities (including index-linked securities) of a residual maturity of over 1 year;
 - (ii)* Holdings of Zone B central government and central bank securities of a residual maturity over 1 year denominated in local currency and funded by liabilities in the same currency;
 - (iii) Claims on multilateral development banks;
 - (iv) Claims on banks incorporated in Zone A countries;
 - (v) Claims on banks incorporated in Zone B countries with a residual maturity of 1 year or less;
 - (vi) Claims on Zone A public sector entities (PSEs);
 - (vii) Claims on investment firms subject to the CAD or incorporated in a non EU/EEA State but subject to an equivalent regime. See Chapter CS (Consolidated supervision), Section 10, of the FSA Policy Guide/IPRU (BANK) for more detail on which entities are subject to an equivalent regime;
 - (viii) Claims on recognised clearing houses and exchanges, to include initial cash margins and surplus variation margins. See Chapter BC (Credit risk in the banking book), Section 5, of the FSA Policy Guide/IPRU (BANK) for more detail on which clearing houses and exchanges are recognised.
- 50%**
- (i)** Certain loans to Housing Associations meeting the criteria set out in the reporting instructions for item A90 on the Form BSD3;
 - (ii)** Mortgage loans to individuals meeting the criteria set out for item A90 on the Form BSD3;
 - (iii)** Loans to special purpose mortgage finance vehicles meeting the criteria set out for item A150 on the Form BSD3;
 - (iv)** Mortgage sub-participations, where the risk to the sub-participating bank is fully and specifically secured against residential mortgage loans which would themselves qualify for the 50% weight;
 - (v)** Mortgage backed securities meeting the criteria set out for item A150 on the Form BSD3.
- 100%**
- (i) Claims on the non-bank private sector;
 - (ii) Claims on banks incorporated in Zone B countries with a residual maturity over 1 year;
 - (iii) Claims on Zone B central governments and central banks (unless denominated in the national currency and funded by liabilities in the same currency);
 - (iv) Claims on commercial entities owned by the public sector;
 - (v) Claims on Zone B public sector entities.

Note.

Items marked with * - All claims on Zone A central governments and central banks, and all claims on Zone B central governments and central banks denominated in local currency and funded by liabilities in the same currency are weighted at 0% for counterparty risk in the Trading Book; accordingly, these items are not applicable to Section B of the Form BSD3.

Items marked with ** - these are not Trading Book items for counterparty risks, and are therefore not applicable to Section B of the Form BSD3.

Some on and off-balance sheet assets should be deducted from total capital (total of tier 1 and tier 2) rather than receive a risk weight:

- (i) Investments in unconsolidated subsidiaries and associates;
- (ii) Connected lending of a capital nature;
- (iii) Holdings of all capital instruments issued by any financial institution, investment firm or other bank in which the reporting institution owns more than 10% of the equity capital of the financial institution or bank (other than investments already deducted in (i) above);
- (iv) All other holdings of other banks' capital instruments including those held in the trading portfolio, except those held under primary and secondary market makers' concessions;
- (v) Any holdings of bank or investment firm capital instruments held under a market making concession which exceed 10% of the Total (gross) capital of the reporting institution;
- (vi) Guarantees of a capital nature given on behalf of connected companies;
- (vii) Other off-balance sheet items of a capital nature, eg a forward asset purchase of a bank capital instrument.

16 For each category of assets and off-balance sheet position, reporting institutions should separately identify their Banking Book and Trading Book positions. Banks which are exempt from the Capital Adequacy Directive and which do not fill in Section B of Form BSD3 should ignore the Trading Book column and report all their assets and positions within the Banking Book. Banks which fill in Section B of Form BSD3 will have agreed a Trading Book policy statement with the FSA. Assets and positions should be split between the Banking and Trading Books in accordance with that statement. The risk weighted amount in Section A of Form BSD3 is calculated by multiplying the Banking Book figure by the risk weight. The Trading Book figure is provided for information only and is not used in any calculation.

17 Where the reporting institution would face substantial difficulty in providing a breakdown by counterparty type which outweighs the benefit received from a weighting lower than 100%, the relevant assets may be entered in the 'unanalysed' boxes at the foot of each of the main categories on the Form BSD3 eg where a major institution has a category of assets or non-resident branch(es) which represents an insignificant part of the institution's overall assets. Such treatment should be discussed with the FSA before being adopted.

Investment trusts/Unit trusts/Mutual funds

- 18 Equity holdings in investment trusts and holdings of “units” in unit trusts or mutual funds should normally attract the highest risk weighting of 100%. However, when the assets held by the investment institution are legally restricted to assets of a lower weight (eg by articles of association or loan documentation) then a holding should be weighted at that lower weight. If a range of lower weighted assets are included in a fund or trust a holding should be weighted at the highest of these weights. Holdings in entities established to hold capital instruments issued by banks should normally be deducted from capital.

Zone A/Zone B countries

- 19 A list is provided in Appendix C.

Central governments

Comprises all departments, establishments and bodies of a central government located in its domestic territory performing government functions and the embassies, consulate and military establishments of the government located elsewhere.

Banks and recognised investment firms

- 20 The term “bank” as used in the capital adequacy and large exposures returns refers to those institutions that are regarded as banks in the countries in which they are incorporated, and supervised by the appropriate banking supervisory or monetary authority as banks. In general, banks will engage in the business of banking and accept deposits in the regular course of business. For large exposures purposes, central banks, multilateral development banks and the Bank for International Settlements (BIS) should be excluded. **Note** that the definition of UK banks in the Form SLR1 is restricted to banks in the United Kingdom, together with the Banking Department of the Bank of England.

For banks incorporated in countries that are members of the European Economic Area (EEA), classify as banks those credit institutions authorised in accordance with the Banking Consolidation Directive (2000/12/EC) . A list of such institutions is published in the EC Official Journal from time to time.

All banks incorporated in the Channel Islands, Gibraltar, Bermuda and Isle of Man are regarded as Zone A banks.

In the USA, banks are referred to as depository institutions which include branches of federally-insured banks and depository institutions chartered and headquartered in the 50 states of the United States, the District of Columbia, Puerto Rico, and US territories and possessions. The definition encompasses banks, mutual or stock savings banks, savings (or building) and loans associations (S&Ls), co-operative banks and credit unions; it excludes bank holding companies (other than those which are themselves banks).

Recognised investment firms include all investment firms incorporated within the European Union/European Economic Area, as defined by the Investment Services Directive (ISD). Note that not all securities firms incorporated in these countries are investment firms within the terms of the ISD. For instance, in the United Kingdom there are some companies (such as commodity trading companies) which, although required to be authorised under the Financial Services Act 1986 / Financial Services and Markets Act 2000, are not investment firms within the terms of the ISD.

Investment firms incorporated outside the EEA may be classified as a recognised investment firm, if they are subject to a regulatory regime deemed to be broadly equivalent to the Capital Adequacy Directive. Chapter CS (Consolidated supervision), Section 10, Appendix D of the FSA Policy Guide/IPRU (BANK) lists which countries currently fall into this category. Banks should be aware that many investment firms are part of complex groups containing both regulated and unregulated entities. Only the relevant regulated entity should be reported as an investment firm.

Central banks

- 21 With the exception of several Eastern European foreign trade banks (FTBs), the list of central banks (central monetary institutions) are the same as used by the Bank of England for statistical purposes. The list is set out in Appendix D to these notes.

Multilateral Development Banks (MDBs)

A list is set out in Appendix E.

Financial Institutions

- 22 The definition of financial institution used the capital adequacy returns is the same as that which applies in the Banking Consolidation Directive (formerly the Second Banking Co-ordination Directive). A financial institution is an undertaking, other than a bank or recognised investment firm (as defined in SGN20), the principal activity of which is to acquire holdings or to carry on one of the activities listed below.

- (i) Lending including inter alia
 - consumer credit
 - mortgage credit
 - factoring, with or without recourse
 - financing of commercial transactions (including forfeiting)
- (ii) Financial leasing
- (iii) Money transmission services

- (iv) Issuing and administering means of payment (eg credit cards, travellers' cheques and bankers' drafts)
- (v) Guarantees and commitments
- (vi) Trading for own account or for the account of customers in:
 - (a) money market instruments (cheques, bills, CDs etc.)
 - (b) foreign exchange
 - (c) financial futures and options
 - (d) exchange and interest rate instruments
 - (e) transferable securities
- (vii) Participation in securities issues and provision of services related to such issues
- (viii) Advice to undertakings on capital structure, industrial strategy and related questions and advice and services relating to mergers and the purchase of undertakings
- (ix) Money broking
- (x) Portfolio management and advice
- (xi) Safekeeping and administration of securities

Public Sector Entities (PSEs)

23

General

Principally regional governments and local authorities, but bodies which carry out non-commercial functions on behalf of and are responsible to regional governments or local authorities similar to those shown in the UK lists below may also be classified as PSEs. Also includes bodies owned by the central or regional government or local authorities which perform regulatory or other non-commercial functions. Commercial entities or companies (other than banks) owned by the public sector, including public utilities, should be classified as "other" and carry a weighting of 100%.

UK

An illustrative list of UK PSEs is included in Appendix F.

G10 and EU countries - Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Japan, Luxembourg, Netherlands, Portugal, Spain, Sweden, Switzerland, United States.

Principally regional governments and local authorities. The reporting institution may include those bodies regarded locally as PSEs where the relevant banking supervisor has published either a list or general guidance.

Other countries

The general definition above should be applied. The state governments in the Channel Islands, the Isle of Man Government, the government of Gibraltar, and the government of Bermuda are PSEs. Where doubt exists as to the appropriate classification of an organisation reference should be made to the FSA.

Collateral

24

Where claims on a counterparty are collateralised by cash (see SGN25) or by securities or bills issued by Zone A central governments, Zone A central banks or multilateral development banks (see Appendix E), a lower risk weight may apply. The risk weight category under which the claim should be reported is determined by the nature of the collateral, as follows:

- 0% Cash (see SGN25).
- 10% Zone A central government and central bank treasury bills and fixed interest securities (including index-linked securities) of a residual maturity of 1 year or less, or similar floating rate securities of any maturity.
- 20% (i) Zone A central government and central bank fixed interest securities (including index-linked securities) of a residual maturity of over 1 year;
(ii) Multilateral development banks' securities.

If the value of the collateral covers less than the book value of the asset, that part of the asset which is fully covered may receive the appropriate lower weight. Securities used as collateral should be marked to market. If the reporting institution proposes to adopt a different treatment, this should first be agreed with the FSA. No other forms of collateral should be taken as justifying a reduced risk weighting.

For collateralised off-balance sheet exposures (other than contracts reported in Appendices A-I, A-II, B-I, B-II, or B-III of the Form BSD3) the value of the collateral should be set against the nominal value of the exposure before calculating the credit equivalent amount. An exposure should only be regarded as fully covered if the collateral is at least equal to 100% of the nominal value of the exposure (not of any smaller credit equivalent amount). For example where cash collateral covers 75% of a nominal exposure, the collateral should first be applied to the nominal principal, which would leave an uncovered exposure of 25%. The appropriate credit conversion factor should then be applied to this uncovered portion in order to realise the amount that should be weighted. Thus, to continue the example, if the exposure had been in respect of a direct credit substitute (CCF of 100%) the weighted amount would equate to 25% of the nominal principal; but if the exposure had been in respect of a transaction related contingent (CCF of 50%) the weighted amount would equate to 12.5% of the nominal principal. Recall that the full nominal value of collateralised off-balance sheet exposures should be reported in the appropriate risk weighting bands, ie the 100% is split in order to reflect either the collateral or the counterparty as appropriate.

For interest and exchange rate contracts however the value of collateral should be compared to the credit equivalent amount. Where collateral fully covers this amount the risk weighting may be reduced accordingly. Where collateral covers only part of the credit equivalent amount the part that is fully covered may receive the appropriate reduced weight. The part that is not fully covered should receive the unreduced weight.

Where lower risk weights have been applied to reflect collateral, enter the relevant amounts in Form BSD3 Appendix A-III and/or B-IX as appropriate (Exposures Collateralised/Guaranteed/Netted). Collateral on large exposures should also be reported on Form LE2.

Cash Collateral

25

Where exposures which do not meet the criteria for set-off (see SGN24) are collateralised by cash, ie balances held with the reporting institution denominated in sterling, foreign currency or gold, or CDs issued by the reporting institution and lodged with it, such exposures should be reported under the relevant item in the 0% band. For these purposes an exposure should be treated as being collateralised by cash only if the cash is held by the reporting institution for the account of the depositor/customer on express terms such that:

- i) the cash may not be withdrawn for the duration of the exposure; and
- ii) the reporting institution may apply the cash to discharge the exposure if and to the extent that it is not discharged by the borrower/customer in accordance with the terms of the loan etc agreement with the borrower/customer.

In the case of an exposure partially collateralised by cash only that part of the exposure which is fully collateralised should be reported in the 0% weight band.

The adjustments made by the reporting institution to the Capital Adequacy Returns in respect of exposures collateralised by cash should be shown in Appendices A-III and B-IX of Form BSD3.

An exposure should be reported as being collateralised by cash where:

- i) The reporting institution has an opinion from its legal advisers to the effect that the set-off arrangements, charges, or other equivalent security interests referred to below are legally well founded in **all** relevant jurisdictions, and would be enforceable in the default, liquidation or bankruptcy of the customer or depositor, or in the liquidation or bankruptcy of the institution itself.
- ii) In the case of the reporting institution's *unconsolidated* return, the cash is held with the reporting institution. In the case of a reporting institution's *consolidated* return, the cash is held with the company which has the exposure.
- iii) Where the cash is held at a UK office of a UK incorporated lending institution, the lending institution has a legally enforceable right of set-off over the cash. Where the cash is held at a non-resident branch of the lending institution, or where the lending institution is incorporated outside the UK, it has a first charge over cash held with itself where this is enforceable in the local legal jurisdiction or other equivalent security interest or a legally enforceable right of set-off over the cash.

- iv) Where the reporting institution meets the criteria set out in Chapter CS (Consolidated supervision), Section 3.1.1, Paragraph 2(b), of the FSA Policy Guide/IPRU (BANK), (i) to (iii) above apply. However cash may be held with another bank which is consolidated with the reporting institution for the purpose of calculating the institution's consolidated capital ratio. In this case the lending institution should have a first charge over the cash held with the other bank or other equivalent security interest. Where an exposure is reported by the lending bank as collateralised by cash under this provision, the cash is not available to the other bank as collateral for reporting purposes, and should not be subject to set-off in the other bank's books.

Where the reporting institution is a member of a syndicate and cash has been deposited with, and is held by, the agent itself for the benefit of the syndicate, the claims (or portion of the claims) of members of the syndicate which are cash collateralised may attract the weight appropriate for claims on the agent. If the agent is a bank its own claims which are cash collateralised may receive a 0% weight.

Netting

26

On-balance sheet

Debit balances on accounts with the reporting bank may be offset against credit balances on other accounts with that bank where all the following criteria have been met:

- a) a legal right of set-off exists, and the reporting institution has obtained an opinion from its legal advisers to the effect that its right to apply set-off is legally well-founded in all relevant jurisdictions and would be enforceable in the default, liquidation or bankruptcy of the customer(s) or in the liquidation or bankruptcy of the institution itself. For a group facility, the arrangement is supported by a full cross guarantee structure;
- b) the debit and credit balances relate to the same customer, or to customers in the same company group, eg a parent company and its subsidiary. For all customers, the netted accounts should be managed and controlled on a net basis and, in the case of a group facility, the facility should be advised in the form of a net amount.

The reporting institution's application of these principles should remain consistent.

Where this SGN or SGN25 require a legal opinion to be sought, the FSA expects such opinions to be provided by an independent, external source of advice of appropriate professional standing. In seeking these opinions, the reporting institution should bear in mind that in certain jurisdictions assets may be seized to satisfy local creditors. In those cases involving cross-jurisdictional transactions, the FSA will usually ask for a side-letter from the institution's advisers confirming that the set-off arrangements have a well-founded legal basis in all relevant jurisdictions. In certain cases, the FSA may ask for a copy of the legal opinion.

Reporting of net balances should follow the reporting institution's statutory accounting practice (see SGN5).

Credit balances which cannot be off-set against debit balances may be eligible for inclusion as cash collateral (see SGN24 and SGN25).

Note: Back-to-backs allowed to be netted out on returns made to the Bank of England for statistical purposes should not be netted out in calculating the size of an exposure for LE2 purposes (see Definitions for Form LE2 for more guidance generally).

Off-balance sheet

Pending further consideration, net amounts due in respect of eg foreign exchange transactions may be reported only if the net amount derived is pursuant to the application of a bilateral agreement (between two counterparties) based upon netting by novation. Netting by novation is where obligations between counterparties to deliver given amounts on a given date are automatically amalgamated with all other obligations to deliver the same currency on the same value date and netted. Such netting should have the effect of legally discharging performance of the original obligation and substituting the single net amount as the sole remaining obligation between the parties for the relevant value date.

In addition, certain contracts reported in Appendices A-I and B-II of Form BSD3 may be reported on a net basis when the legal and systems criteria of Section 5, Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) have been met. For each counterparty, the net replacement cost to be reported is obtained by taking the sum of the replacement costs of all nettable contracts with a positive mark-to-market value offset by all nettable contracts with a negative mark-to-market value. The replacement costs of contracts which are not nettable should continue to be reported gross.

Where the terms of the Collateral and netting chapter have been met, report net the potential future credit exposure through the formula outlined in section 8 thereof.

The net replacement cost of a portfolio of nettable contracts with a Zone B bank should be distributed across 20% and 50% counterparty risk weightings pro rata to the distribution of the notional principal amounts between ≤ 1 year and >1 year.

Example

Net replacement cost of portfolio = 100mn

Notional Principal Amount of ≤ 1 year contracts = 12bn

Notional Principal Amount of >1 year contracts = 3bn

Net replacement cost reported at 20% counterparty riskweight
= 80mn ($12/15 \times 100$ mn)

Net replacement cost reported at 50% counterparty riskweight
= 20mn ($3/15 \times 100$ mn)

Long and short positions in Investments

27

In certain circumstances, long positions in securities may be offset against short positions for the purposes of calculating the weighted amount in the Banking Book (Section A) on Form BSD3¹. The gross amounts should be recorded under items A120-A190 (long positions) and under item A710 (short positions) on that form. Additionally, short positions in central government and central bank securities should be reported under item A320 and will attract a risk weight.

The conditions to be satisfied for netting of long and short positions are:

(a) *Central governments and central banks*

Netting of long and short positions should only be carried out where the following criteria are all met:

- (i) the long and short positions are in securities issued by the same central government or bank;
- (ii) the long and short positions are in securities denominated in the same currency;
- (iii) the long and short positions are in fixed rate securities within the same maturity time band, ie one year or less (10% risk weight) or over one year (20% risk weight). Similarly, index-linked securities should only be offset against each other if they are within the same maturity time band. Floating rate securities of any maturity may offset against each other but no netting of floating rate securities against fixed rate or index-linked securities should be carried out.

Both the gross and net long positions in central government and central bank securities should be reported under item A120 on Form BSD3, with the net long positions attracting the relevant risk weights. Gross short positions should be reported under item A710.1 with the net short positions being reported under item A320 on that form.

¹ The requirements of SGN25 refer to the Banking Book only: positions in instruments in the Trading Book are reported on a net basis in Section B of Form BSD3.

A simplified reporting example is set out below (the netting criteria are met for securities A and B but not C):

	Long position	Short position	Net
UK government security A	100	-	100
UK government security B	-	(50)	(50)
US government security C	5	(25)	(20)
	<hr/> 105	<hr/> (75)	

Gross long position (item 120) = 105 ie sum of individual long positions
Gross short position (item 710) = (75) ie sum of individual short positions
Net long position (item 120) = [100+(50)] = 50 ie sum of net positions after netting gross positions permitted by (i) to (iii) above (in this case the netting of positions in A and B)
Net short position (item 320) = (20) ie sum of net short positions after netting of gross positions as permitted by (i) to (iii) above (in this case none)

(b) *Other securities*

Report gross positions, net only of short positions in the same security issue. Warrants and convertibles should not be offset against the underlying equity into which they may convert.

Guarantees

28

(a) Guarantees received

Claims that have been explicitly, irrevocably and unconditionally guaranteed by those counterparties listed below may be weighted according to the risk weight of the guarantor where the effect is to reduce the weighting; such guarantees should be legally enforceable. Where a claim is partially guaranteed, only that part of the claim which is fully guaranteed should be weighted according to the risk weight of the guarantor. Only direct guarantees of a bank's claims should be treated in this way. Guarantees of a counterparty's assets, or general guarantees of its financial position, are considered insufficient in themselves to merit a reduced risk weighting.

The notes in this section apply to the instruments serving as guarantees and insurance/indemnities discussed below as well as to guarantees.

Instruments serving as guarantees

Apart from traditional bank guarantees, certain other financial instruments (eg a letter of credit (or standby letter of credit), a purchased put option that may be exercised at any time, and a risk participation) may be regarded as guarantees as long as they provide the same comfort as a guarantee, ie they provide an explicit, irrevocable and unconditional obligation to pay a third party beneficiary when a customer fails to repay an outstanding loan or to meet a financial obligation (including contingent obligations).

Insurance/indemnities

Where a claim is covered for all risks by an insurance policy, or where an indemnity is explicit, irrevocable and unconditional, reduced weighting may also be appropriate; such claims should be discussed on a case by case basis with the FSA.

Guarantees received from subsidiaries

In reporting capital adequacy on a solo or unconsolidated basis, reporting institutions may accept a guarantee from a subsidiary as reducing the risk weight of an asset, but only when the following conditions are met:

- (i) the guarantee is direct, unconditional and irrevocable;
- (ii) the reporting institution is adequately capitalised on a consolidated basis;
- (iii) the guarantee is not being given to circumvent regulatory rules;
- (iv) the guarantee should have sound commercial rationale and should be made on proper commercial terms.

Risk weighting

On and off-balance sheet items subject to guarantees should still be reported in the same counterparty category, rather than that of the guarantor, but shown in the weighting band relative to the guarantor. For example, a loan to a non-bank customer which is guaranteed by a Zone A incorporated bank should be reported in item A100.3 instead of A100.4, and not in item A70 on the Form BSD3. The relevant risk weights are as follows:

- 0% (i) Zone A central governments and central banks (other than securities guaranteed);
- (ii) Zone B central governments and central banks (other than securities guaranteed), where the claim being guaranteed is denominated in the local currency of the guarantor and borrower and funded in that currency.

- 10% (i) Fixed rate securities, guaranteed by Zone A central governments and central banks, which have a residual maturity of 1 year or less;
- (ii) Floating rate securities of any maturity guaranteed by Zone A central governments and central banks;
- (iii) Any securities, guaranteed by Zone B central governments and central banks, which have a residual maturity of 1 year or less and are denominated in the local currency of the guarantor and issuer and funded in that currency.
- 20% (i) Fixed rate securities, guaranteed by Zone A central governments and central banks, which have a residual maturity of over 1 year;
- (ii) Any securities, guaranteed by Zone B central governments and central banks, which have a residual maturity of over 1 year and are denominated in the local currency of the guarantor and issuer and funded in that currency;
- (iii) Multilateral development banks;
- (iv) Banks incorporated in Zone A countries;
- (v) Banks incorporated in Zone B countries, where the claim being guaranteed has a residual maturity of 1 year or less;
- (vi) Zone A public sector entities.

Holdings of bank capital instruments which carry a central government or central bank guarantee should be deducted from capital in accordance with the definition of item A170 on the Form BSD3 except where a Trading Book concession applies when they should be weighted at 100%.

Guarantees of swaps etc.

Guarantees of swaps etc will be acceptable for reducing the risk weighting of an item where they meet the above criteria, where the reporting institution receiving the guarantee calculates daily the mark-to-market valuation of the asset being guaranteed (using the institution's own mark-to-market methodology) and where the guarantee is valued at the current mark-to-market value of the contract plus "add-ons". (See also the reporting instructions for items A472/A474 on Form BSD3.)

Guarantees of a capital nature

See the reporting instructions for item A340 on the Form BSD3 for details.

Where lower risk weights have been applied, enter the relevant amounts in Form BSD3 Section A or Section B as appropriate (Exposures Collateralised/Guaranteed/Netted).

(b) Guarantees given

Joint and several guarantees given by the reporting institution

Where the reporting institution has guaranteed an exposure jointly and severally with other institutions, its share of the guarantee (as explicitly defined or otherwise equal to the total value of the guarantee divided by the number of guarantors) should be reported as an exposure on the counterparty and the balance of the guarantee as an exposure on the other guarantors.

Sale and Repurchase Agreements ("Repos")

29

This note refers to the treatment for capital adequacy purposes of repos and reverse repos in the Banking Book only. It is expected that most banks with a Trading Book will treat repos and reverse repos as being part of the Trading Book, in which case the capital requirement arising from these deals should be reported in Section B of Form BSD3. The instructions to that form outline how such deals should be reported when they fall in the Trading Book.

Repos

Reporting institutions that have sold loans or other assets to other institutions for a finite period with a commitment to repurchase should continue to report the loan or asset on the balance sheet. Where this is not the reporting institution's normal accounting practice, the loan or asset should be reported under item A370 in the off-balance sheet section of the Form BSD3.

Reverse repos

Reporting institutions which have purchased such loans or assets (ie purchase and resale agreements or reverse repos) should for the duration of the agreement report the transaction as an unsecured loan adopting the normal weight for the counterparty unless the assets are eligible for a reduced weight (eg Zone A government securities) in which case they should be reported as collateralised loans (see SGN24).

Netting of counterparty risk arising from reverse repos

Where a repo contract in the Banking Book involves the sale of a security, the transaction should be recorded as ongoing issuer risk in respect of the security sold. No counterparty risk should be recorded, which means netting of counterparty risk on a portfolio of repos is not a relevant consideration.

Note that counterparty risk can only arise when a reverse repo is undertaken and the collateral reversed in is ineligible collateral (see SGN24 for a definition of eligible collateral). Such reverse repos should be reported as if an unsecured cash loan had been made to the counterparty to the reverse repo. As long as the terms of Chapter NE (Collateral and netting), Section 8, of the FSA Policy Guide/IPRU (BANK) have been met, such counterparty risk should be reported under items A50-A100 on the Form BSD3, net of obligations to the same counterparty arising only from:

- (i) other reverse repo business with the same counterparty, where eligible collateral has been taken, and only to the extent that the value of the eligible collateral taken is in excess of the cash paid away. If the asset reversed in is reported on the balance sheet, the adjustment should be recorded under item A720. If the asset reversed in is not reported on the balance sheet, the adjustment should be made under items A50-A100 to reflect the reduced risk weight, eg transfer the netted amount from item A100.4 (100% weight) to item A100.1 (0% weight).
- (ii) on repos with the same counterparty and similarly only to the extent that the cash reversed in exceeds the value of the securities repoed. The adjustment should be recorded under item A690.

Note that reporting institutions wishing to net counterparty risk arising from repo business in the Banking Book should first contact their line supervisors who will wish to determine whether their systems are adequate for them to report on this basis.

Stock lending/borrowing as principal

30

When a reporting institution has entered into a stock lending agreement as principal, the stock lent should continue to be reported as an asset on its balance sheet. No exposure in respect of the counterparty in the transaction should be reported.

When an institution has entered into a stock borrowing transaction as principal, the reporting treatment will depend upon the type of collateral given.

If the collateral given is cash, the exposure should be treated as a collateralised loan to the counterparty. If the securities borrowed by the reporting institution qualify as eligible collateral, then a lower risk weighting may be applied accordingly. If the securities borrowed by the reporting institution do not qualify as eligible collateral, then the exposure should be reported as an unsecured loan to the counterparty.

If the collateral given is not cash, then the reporting institution should continue to report the collateral given on its own balance sheet. No exposure to the counterparty should be reported.

Netting of counterparty risk

Where a stocklending/borrowing agreement meets the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK), there will be scope for netting of counterparty risk arising from borrowing of stock which does not qualify as eligible collateral in the same way as for reverse repos (see SGN29). Exposures to be reported on such a net basis should be reported as if they were reverse repos.

“Disguised” credit exposure in interest and exchange rate contracts

31 The arrangement of certain contracts may include an element of "disguised" credit exposure. In general, the FSA would consider a disguised credit exposure to be present where the contract either starts with a significantly positive mark-to-market value or, on an assumption of unchanged interest and exchange rates, is designed at some time in its life to have a significantly positive mark-to-market value. (Institutions should discuss with the FSA what constitutes such a mark-to-market value.)

The reporting institution should contact the FSA to agree on suitable reporting where it has such contracts. In general, the disguised credit exposure should be reported separately from the swap in a manner fixed at the outset of the contract. For example on the Form BSD3:

- (a) the up-front payment on a swap at off-market rates should be reported as a loan in items A50-A110, and amortised over the life of the swap;
- (b) a staggered exchange of principal, where the reporting institution has paid away its side and has not received the counterparty's side, should be reported as a loan in items A50-A110.

Where the disguised credit exposure is reported separately as in the above examples, the mark-to-market value of the swap as reported in Appendix A-I of the Form BSD3 should exclude the disguised credit exposure reported as above.

Where a reporting institution has a contract that gives rise to a "disguised" credit exposure on itself for its counterparty (eg receiving interest quarterly and paying interest annually), the reporting institution should report the contract as normal.

Participations/Syndicates

32 Where the reporting institution transfers a loan by *novation*, *assignment* or through a *sub-participation*, the part of the loan transferred should not be reported on the supervisory returns, subject to the satisfaction of the conditions specified in Chapter SE (Securitisation and asset transfers), Section 5, of the FSA Policy Guide/IPRU (BANK). In a *sub-participation*, where the reporting institution acts as a manager or co-manager, deposits received from the other participating institutions (representing their shares of the amounts to be lent) should not be included under deposits, nor should their shares of the loan be included in assets.

Where the reporting institution buys all or part of a loan from another institution, it should report its holding as an advance to the borrower and not as lending to the institution from which it has purchased the loan.

If the reporting institution has transferred undrawn commitments to lend (or part of them), the commitment (or part) should not be reported when the transfer is either by *novation* or by an *assignment* accompanied by a formal acknowledgement from the borrower. A transfer by means of *silent assignment* or *sub-participation* should be reported as a commitment in the off-balance section of the return, with the counterparty risk assigned to the buyer of the commitment. The buyer of a commitment (or part) should report in the off-balance section under the relevant counterparty weight of the borrower, irrespective of the method of transfer used.

Transfers of General Market Risk

- 33 When general market risk is transferred between the Banking and Trading Books without reference to individual instruments, this will not be reflected in Section A of the Form BSD3. As no underlying instruments are transferred, such transfers should only be reported in items B200 and B240 of Section B of the Form BSD3 (and their underlying Appendices).

Counterparty Exposure On OTC Derivative Contracts - Replacement Cost Method

- 34 The credit equivalent amount is the sum of the replacement cost (obtained by marking to market) of all its contracts with a positive value and the potential future credit exposure which reflects the residual maturity of the contract, calculated as a percentage of the notional principal amount of each contract (according to the residual maturity of each contract as set out in the matrix below). The weighted amount is the product of the credit equivalent amount and the risk weight.

Mark-to-market amount

Reporting institutions should mark-to-market in a prudent and consistent manner; only contracts with a positive mark-to-market value should be reported under this heading (however, institutions should record a potential future credit exposure in respect of all OTC derivative contracts that might in the future have a positive mark-to-market value).

In general, no readily observable market prices will be available for these instruments. Reporting institutions should develop their own methodology for calculating market values, details of which should be made available to the FSA. The FSA will monitor the approaches adopted by institutions and will be concerned that such approaches should be broadly comparable across all institutions in line with best market and supervisory practice. The following general guidelines should be observed:

For swaps, forward rate agreements and products with similar characteristics, outright forward foreign exchange contracts and futures (if appropriate), the mark-to-market approach should be based on an estimation of the net present value of the future cash flows of the contract, using interest rates based on current market rates and relevant to periods in which the cash-flows will arise (commonly for example, the rates from a derived yield curve for zero-coupon government bonds).

For options purchased, the mark-to-market approach should be based on a valuation of the option reflecting, inter alia, the amount by which the option is "in the money" (ie the amount, if any, by which the rate at which the option can be exercised is more favourable than the current market rate when applied to the notional principal underlying the option), the time to expiry of the option, the volatility of the underlying exchange or interest rate, and (for currency options) the interest rate differential between the currencies. Typically such valuations will be based on a mathematically complex formula, and will value the option at an amount above its "in the money" value

Reporting institutions whose involvement in options is limited and who have not developed suitable methodology may value options at their "in the money" value. Reporting institutions should obtain the FSA's agreement before reporting on this basis.

Potential Future Credit Exposure

To calculate the potential future credit exposure (add on) for each contract, the notional principal amount should be multiplied by the following factors. No potential future exposure should be calculated for single currency interest rate basis swaps: the credit exposure on these contracts should be evaluated solely on the basis of the replacement cost.

Type of contract	Residual Maturity		
	≤ 1 Year	>1 Year and ≤ 5 Years	> 5 Years
Interest Rate (except basis swaps)	0.0%	0.5%	1.5%
Foreign Exchange (including Gold)	1.0%	5.0%	7.5%
Equities	6.0%	8.0%	10.0%
Precious Metals (except Gold)	7.0%	7.0%	8.0%
Commodities	10.0%	12.0%	15.0%

Notional principal amounts by maturity

For exchange rate contracts, the notional principal should be taken as the amount of principal underlying the contract, as regards the currency being received by the reporting institution, translated into sterling at the spot exchange rate on the reporting date.

For an amortising swap, ie one based on a steadily declining notional principal, the notional principal should be taken as that which is outstanding at the reporting date.

For a swap based on a fluctuating level of principal, the notional principal should be taken as the maximum notional principal outstanding over the remaining life of the swap.

For amortising interest rate swaps with cash-flow mismatches in payments, the notional principal may differ between the two sides of the swap - the higher of the two should be used.

For swaps involving physical commodities, and other contracts with multiple exchanges of principal, the notional principal should relate to the total volume over the whole contract (not simply the volume per settlement period), eg for a two-year oil swap involving one million barrels with quarterly settlement, the exposure should be reported as covering the full period of the contract (not just one quarter at a time) and the notional principal would be eight million barrels (not just one million), converted to sterling at the spot rate on the day of the report. (The reported principal in this example would decline as each quarterly settlement is made.)

For options, the notional principal should be taken as the underlying principal of the option, using, for currency options, the received currency at the spot rate on the reporting date.

Remaining maturity

The remaining maturity of a swap should be taken as the time until final expiry of the swap, except for swaps with interim mark-to-market settlements, where the remaining maturity should be set equal to the time until the next reset date. An interim mark-to-market settlement occurs where the contract is structured to settle an outstanding exposure following specified payment dates and where the terms are reset such that the mark-to-market value of the contract is zero on these specified dates.

For FRAs and similar products, the remaining maturity should be taken as the time from the reporting date until the end of the period to which the interest rate underlying the contract relates, eg for an FRA with three months until settlement based on a one year rate, the remaining maturity would be 15 months. Where settlement of an FRA takes place at the start of the period to which the interest rate underlying the contract relates, no account should be taken of the FRA following such settlement, ie the FRA should no longer be reported; where settlement takes place at the end of this period, the FRA should continue to be reported until settlement takes place given that, even after the settlement amount is fixed, the contract will continue to have a mark-to-market value which will be subject to fluctuation.

For interest rate options, the remaining maturity should be taken as the time from the reporting date until the end of the period to which the interest rate underlying the option relates, ie in a similar way to FRAs.

Net reporting of Replacement Cost (see also SGN26)

35

Where the terms of Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) have been met then, on a bilateral basis (ie for each counterparty), the net replacement cost of nettable contracts may be reported ie nettable contracts with a positive mark-to-market value may be offset by the sum of nettable contracts with a negative mark-to-market value.

For interest rate, foreign exchange, commodities, precious metals and equities contracts only, the replacement cost (positive mark-to-markets) arising from options purchased may be offset by the liabilities (negative mark-to-markets only) arising from options written with the same counterparty.

Net Reporting of Potential Future Credit Exposure

Where the terms of the Chapter NE (Collateral and netting) of the FSA Policy Guide/IPRU (BANK) have been met, report net the potential future credit exposure through the formula outlined in section 8 thereof.

Forward FX Contracts undertaken through Multilateral Netting Schemes

The credit equivalent amount for a reporting institution using a multilateral netting scheme should also be reported as follows:

Current exposure: the replacement cost is the sum of the primary loss allocations to each of the other participants in the scheme;

Potential future credit exposure: the add-ons should be calculated by taking a percentage of the notional principal amount of each underlying contract in exactly the same way as if the contracts had been undertaken directly with the other participants.

NOTE: the counterparty risk weight applicable to the current exposure is 20%. As to potential future credit exposure, 20% should apply in the case of participants which are Zone A banks or investment firms subject to CAD equivalent regimes and ≤ 1 year contracts with Zone B banks, and 50% should apply otherwise.

Interest and Foreign Exchange Rate Related Contracts - Original Exposure Method

36

Credit equivalent

With effect from SRN/1999/2, this method should only be adopted by EEA banks and banks established outside the EEA. To obtain the credit equivalent amount using the original exposure method, the notional principal amount should be multiplied by the following conversion factors to obtain the future credit exposure:

Original Maturity	Interest Rate Contracts	Exchange Rate Contracts
One year or less	0.5%	2.0%
Over one year and up to and including two years	1.0%	5.0%
For each additional year	1.0%	3.0%

Contact with the FSA

37

In the event of any difficulties in completing any of the returns, please telephone your FSA supervisor for guidance.

Appendix A

Extract from the Bank of England's Banking Statistics Definitions folder, Classification of Accounts Guide Part II (February 2001)

"II RESIDENCE

II.1 Introduction

For the purpose of all returns, ***the United Kingdom (UK) comprises the mainland of Great Britain and Northern Ireland.*** The Channel Islands and the Isle of Man (referred to elsewhere in the definitions as the UK offshore islands) will *not* form part of the UK for statistical purposes; this is in line with international standards¹ which are reflected in the new and revised returns for implementation from end-September 1997.

In many returns it is necessary to classify assets and liabilities as relating to UK residents, and to non-residents (previously termed "overseas residents"). A small number of returns additionally break down those relating to non-residents by country of residence. This classification depends on the residence of the person or body who is the immediate debtor or creditor [as normal, in determining the immediate debtor or creditor, transactions made through agencies and agents should be treated as though made directly with the principal (but payment of agency fees should be treated as a transaction with the agent)].

For the purpose of all returns Sections 2 to 5 below determine whether a person or body is a "UK resident" or a "non-resident". They also determine the country of residence of a non-resident. See Part I section 3 (in this *guide*) for some useful practical hints [especially sub-item I.3(d)]. Additional guidance is given in section 6 (below) for securities, bills, notes, ECGD lending and acceptances.

II.2 Individuals

(a) **UK residents** comprise :

- (i) Individuals permanently resident in the UK;
- (ii) All temporary residents from a country outside the UK who have stayed, or who intend to stay, in the UK for a year or more - except members of the armed forces and career and established government officials of a country outside the UK who are serving in military bases, embassies, etc in the UK, together with their dependants;
- (iii) Individuals normally resident in the UK who are temporarily overseas for less than a year; or
- (iv) Members of the UK armed forces and career and established officials of HM Government serving in military bases, embassies, etc. overseas, together with their dependants.

¹ European System of Accounts 1995 (EC Regulation); System of National Accounts (United Nations Statistical Commission. Feb. 1993)

Appendix A (continued)

- (b) **Non-residents** comprise all those individuals who are not UK residents, namely :
- (i) Individuals permanently resident in a country outside the UK (**including** the Channel Islands and the Isle of Man);
 - (ii) All temporary residents from the UK who have stayed, or who intend to stay, in a country outside the UK for a year or more - except members of the UK armed forces and career and established officials of HM Government serving in military bases, embassies, etc overseas, together with their dependants;
 - (iii) Individuals normally resident in a country outside the UK who are temporarily resident in the UK for less than a year; or
 - (iv) Members of the armed forces and career and established government officials of a country outside the UK who are serving in military bases, embassies, etc. in the UK, together with their dependants.

The country of residence of a non-resident is determined for each of the previously mentioned four categories according to the relevant country outside the UK. Thus for example :

- (i) An individual permanently resident in Switzerland is a Swiss resident.
- (ii) An individual normally resident in the UK visiting Brazil for two years is a Brazilian resident (but a UK diplomat in Brazil is a UK resident).
- (iii) An individual normally resident in the United States but visiting London for six months is a US resident.
- (iv) A US air-force officer serving in the UK is a US resident, and a Spanish diplomat serving in London is a Spanish resident.

Note that residence status is not necessarily the same as nationality [e.g. a Frenchman staying in London for two years is a UK resident].

Also note that, while career and established government officials (and their dependants) serving abroad are residents of the country whose government they serve, the same does not apply to locally recruited staff of embassies etc. Thus, for example, a typist or interpreter permanently resident in the UK or staying in the UK for a year or more and recruited by the Spanish embassy in London remains a UK resident.

II.3 Businesses

- (a) **UK residents** comprise all enterprises which produce goods or provide services in the United Kingdom, namely :
- (i) UK-owned businesses' branches and subsidiaries located and operating in the UK;
 - (ii) Overseas-owned businesses' branches and subsidiaries located and operating in the UK.;
 - (iii) A head office located in the UK from which an enterprise operating internationally (e.g. an air or shipping line) is administered.

Appendix A (continued)

- (b) **Non-residents** comprise all enterprises which produce goods or provide services outside the United Kingdom, namely :
- (i) UK-owned businesses' branches and subsidiaries located and operating in a country outside the UK;
 - (ii) Foreign-owned businesses' branches and subsidiaries located and operating in a country outside the UK;
 - (iii) A head office located in a country outside the UK from which an enterprise operating internationally is administered.

The country of residence of a non-resident business is determined for each category above according to the relevant country outside the UK. Thus for example :

- (i) the French branch of a UK company is a French resident;
- (ii) the French branch of a German company is a French resident;
- (iii) the New York head office of an international airline is a US resident.

Note that :

- UK branches of non-resident banks which are listed under the Banking Act are UK residents.
- Non-resident offices of reporting institutions, as defined in III.12(a) of the Classification of Accounts guide accompanying the new Banking Statistics Definitions ("yellow") folder, are non-residents.
- UK representative offices of non-resident banks, being only agencies of their parent banks, are non-residents.
- It is the country of location and operation which determines the country of residence, not the country of ultimate ownership. Thus foreign branches of a company will have a different country of residence from the company itself.
- An enterprise which merely has a "brass-plate" presence in a country is not a resident of that country, and the residence of each branch or subsidiary of that company will depend on its country of location and operation.

II.4 Governments, CMI's and International Organisations

HM Government and other UK public authorities, including HM Government diplomatic, military and other offices in other countries, are UK residents. Foreign central, state and local governments, including their diplomatic, military and other offices in the UK and elsewhere, are residents of the country which they serve.

Central monetary institutions are residents of the country they serve. Complete lists by country are given in Part III Section 12(b), grouped by area. Note that the Kuwait Investment Office in London is regarded as a resident of Kuwait and the Bank for International Settlements as a resident of Switzerland, and both are regarded as non-resident central monetary institutions.

Appendix A (continued)

International organisations, including their branches or representatives in the United Kingdom, are non-residents. They should be classified as "International Organisations" in returns where country breakdowns are required (such returns always have this category shown clearly as a separate item). Employees of international organisations who intend to be based in the UK for over one year are residents of the UK, although the organisations themselves are non-residents. The main international organisations are listed in Part III section 12. Note that certain international organisations, such as the European Investment Bank (EIB) and the International Bank for Reconstruction and Development (IBRD) are banking organisations - see Part III section 12(c) in particular.

II.5 Other

UK-based charities and other private non-profit-making bodies

Such bodies based in the United Kingdom are UK residents. Accounts for public subscription in the name of UK charities should be classified as accounts for UK residents, but a UK charity's account specifically for the running of an operation overseas (for example a hospital or school abroad) should be classified as an account for a resident of the country in which the operation is located.

Great Peter Nominees Ltd

Funds placed with reporting institutions by Great Peter Nominees Ltd should be regarded as liabilities to non-residents, and classified as "unallocated by country" in returns where country breakdowns are required (such returns always have this category shown clearly as a separate item).

Estates and Settlements

Executors or administrators of the estate of a deceased person who at the time of death was a resident of another country, and agents acting on inter-vivos settlements where the settlor is a resident of another country, should be regarded as residents of that other country.

II.6 Securities, bills, notes, ECGD lending, and acceptances

When it is necessary to define a company security as issued either by a UK resident or a non-resident, this should be done on the basis of the location of the registered office of the issuing enterprise. Note, however, that the location of the registered office is synonymous with residence provided that the enterprise is operating in the country concerned on a permanent basis (ie for a period of over one year) and engages in economic activity (in this context the issuing of securities) which is subject to the fiscal and regulatory framework applicable in that country. For a security issued by a government or public corporation, the allocation is based on the residence of the issuing body. The question of whether the security is denominated in sterling or any other currency is not relevant to this allocation.

A security which is in "secondary" form, eg in the form of an allotment letter or of American, European, Global or Bearer Depository Receipts, should be attributed to the country of residence of the issuer of the underlying security. The same principle of "looking through" should apply to "repackaged" securities (ie securities issued by a body, for example a bank, a securities house, or a purpose-formed body, in respect of other, underlying securities held by that body), provided that a purchaser of the "repackaged" securities has a right to transfer to the underlying securities. If the purchaser does not have such a right, reporting institutions should not look through to the underlying securities.

Appendix A (continued)

A stripped security (strip) which remains the direct obligation of the original issuer should be attributed to the residency of the issuer of the original security. A strip which has been created and issued by an entity in its own name should be attributed to the residency of the issuer of the strip.

Bills should be classified according to the country of residence of the drawer, and notes according to that of the issuer; lending under ECGD guarantee should be allocated to the overseas country in which the debtor is resident; and bills accepted by the reporting institution itself reported as acceptances to the country of residence of the enterprise or body on whose behalf the acceptance credit facility has been opened.”

Appendix B

Discount houses

With effect from 23 December 1998, Discount houses are no longer applicable.

Appendix C

Zone A/Zone B countries

The term "Zone A" covers full members of the OECD and those countries which have concluded special lending arrangements with the IMF associated with the IMF's General Arrangements to Borrow, provided they have not rescheduled their external sovereign debt to official or commercial bank creditors in the previous five years. At present, these countries comprise:

Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Japan, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Saudi Arabia, Spain, South Korea, Sweden, Switzerland, Turkey, United Kingdom and United States.

The Channel Islands, Gibraltar, Bermuda and Isle of Man should also be regarded as being within Zone A. The reporting institution should discuss with the FSA the appropriate treatment of particular dependencies of Zone A countries.

Zone B comprises all countries not in Zone A.

For the purpose of determining whether a bank is in Zone A or B, the place of incorporation is the relevant factor to be considered rather than the location of the branch. For example, a loan made to a branch located in a Zone A country of a Zone B incorporated bank should be classified as a loan to Zone B bank.

Appendix D

Central banks (central monetary institutions)

The list of central banks set out below is similar to the list used to complete the Bank of England's statistical returns, except for the exclusion of the following Eastern European foreign trade banks (FTBs):

Bulgaria	Bulgarian Foreign Trade Bank
Poland	Bank Handlowy w Warszawie (non-UK offices only)

Reporting institutions may however classify FTBs as Zone B banks if they so wish, and should notify the FSA if they do so.

European Union

Austria	Oesterreichische Nationalbank
Belgium	Banque Nationale de Belgique, SA
Denmark and Greenland	Danmarks Nationalbank
Finland	Suomen Pankki - Finlands Bank
France	Banque de France
Germany	Deutsche Bundesbank European Central Bank
Greece	Bank of Greece
Ireland	Central Bank of Ireland
Italy	Banca d'Italia Ufficio Italiano dei Cambi
Luxembourg	Institut Monétaire Luxembourgeois
Netherlands	De Nederlandsche Bank NV
Portugal	Banco de Portugal
Spain	Banco de España
Sweden	Sveriges Riksbank

Other Western Europe

Bosnia and Herzegovina	National Bank of Bosnia and Herzegovina
Croatia	National Bank of Croatia
Cyprus	Central Bank of Cyprus
Gibraltar	The Commissioner of Currency
Guernsey	The Treasurer, States of Guernsey / Guernsey Financial Services Commission
Jersey	The Treasurer, States of Jersey / States of Jersey Financial Services Department
Isle of Man	The Treasurer, Isle of Man Government / Isle of Man Financial Supervision Commission
Macedonia	National Bank of Macedonia
Malta	Central Bank of Malta
Norway	Norges Bank
Slovenia	Banka Slovenije

Central Banks - Other Western Europe (continued)

Switzerland and Liechtenstein	Schweizerische Nationalbank Bank for International Settlements
Turkey	Banque Centrale de la République de Turquie SA
Yugoslavia, (former Kosovo, Montenegro, Serbia, Vojvodina)	National Bank of Yugoslavia (Narodna Bank Jugoslavije)

Other OECD countries

Australia	Reserve Bank of Australia
Canada	Bank of Canada
Czech Republic	Czech National Bank (Ceská Národní Banka)
Hungary	National Bank of Hungary (Magyar Nemzeti Bank)
Iceland	Central Bank of Iceland (Sedlabanki Islands)
Japan	The Bank of Japan
Korea (South)	The Bank of Korea
Mexico	Banco de México SA
Poland	National Bank of Poland (Narodowy Bank Polski)

Western Samoa	Central Bank of Western Samoa
Yemen, The Republic of	Central Bank of Yemen

Central Banks (continued)

Countries : Notes regarding geographical coverage

For the purposes of the supervisory returns, the following apply :-

Country	Also includes
Australia	Ashmore and Cartier Islands, Australian Antarctic Territory, Christmas Island, Cocos (Keeling) Islands, Coral Sea Islands, Heard and McDonald Islands, Norfolk Island
British Indian Ocean Territory	Chagos Archipelago
Comoros	Mayotte
Falkland Islands	South Georgia, South Sandwich Group
French Polynesia	Society Archipelago, Marquesas Islands, Austral Islands, Tuamotu Archipelago
Indonesia	East (formerly Portuguese) Timor
Italy	San Marino (but not Vatican City State)
Kiribati	Gilbert Islands, Line Islands (except Jarvis, Palmyra and Kingman Reef), Ocean Island, Phoenix Islands
New Zealand	Cook Islands, Niue, Ross Dependency, Tokelau
Norway	Bouvet Island, Dronning Maud Land, Jan Mayen, Peter I Island, Svalbard
Panama	Panama Canal Zone
Portugal	The Azores, Madeira
St Helena	Ascension, Tristan da Cunha
Spain	Balearic Islands, Canary Islands, Spanish North Africa
United Arab Emirates	Abu Dhabi, Dubai, Sharjah, Ajman, Umm Al Qaiwain, Ras al-Khaimah, Fujairah
United States	American Samoa, Guam, Midway Islands, Puerto Rico, Wake Islands
US Trust Territories in the Pacific	Howland & Baker, Johnston Atoll, Jarvis Island, Kingman Reef, Marianas, Marshall Islands, Micronesia (Carolines), Palau, Palmyra

Appendix E

Multilateral Development banks

Only the following institutions are classified as MDBs for supervisory purposes:

International Bank for Reconstruction and Development (IBRD): "World Bank"

International Finance Corporation (IFC)

Inter-American Development Bank (IABD)

Asian Development Bank (AsDB)

African Development Bank (ADB)

European Investment Bank (EIB)

European Investment Fund (EIF)

Caribbean Development Bank (CDB)

Nordic Investment Bank (NIB)

European Bank for Reconstruction and Development (EBRD)

Council of Europe Social Development Fund

Inter-American Investment Corporation (IAIC)

Appendix F

The following lists show examples of UK public bodies which are classified as PSEs for the purposes of this return and also public bodies which are not classified as PSEs. These lists are illustrative and are not intended to be comprehensive. If doubt exists as to the appropriate classification of an organisation reference should be made to the FSA.

(i) *UK public bodies eligible for classification as PSEs*

(a) *Local Authorities*

Include London borough councils, county and district councils in Northern Ireland, parish, town and new Unitary authorities in England, and Wales, and district, island and regional councils in Scotland, together with those attached statutory departments (eg gas departments in Northern Ireland, water service departments). Also those bodies formed on 1 April 1986 to take over the assets and functions of the former metropolitan councils and the GLC, eg residuary bodies, joint police authorities, joint police and fire boards.

The following local bodies are also included in this category:

- Central Scotland Water Development Board
- Fire services
- Forth Road Bridge Joint Board
- Humber Bridge Board
- Magistrates' Courts
- Police Forces (including Metropolitan Police)
- Passenger Transport Authorities/Executives
- Probation Service in England and Wales
- Scottish River Purification Boards
- Tay Road Bridge Joint Board

(b) *Non-commercial public corporations*

The Audit Commission	Northern Ireland Housing Executive
Black Country Development Corporation	Oil and Pipelines Agency
Bristol Development Corporation	Royal Mint
Cardiff Bay Development Corporation	Scottish Enterprise
Central Manchester Development Corporation	Scottish Homes
Central Office of Information	Sheffield Development Corporation
Covent Garden Market Authority	Teeside Development Corporation
Development Board for Rural Wales	Telford Development Corporation
Driving Standards Agency	Trafford Park Development Corporation
English Industrial Estates Corporation	Tyne and Wear Development Corporation
Highlands and Islands Enterprise	United Kingdom Atomic Energy Authority
Land Authority for Wales	Urban Development Corporations
Leeds Development Corporation	Welsh Development Agency
Letchworth Garden City Corporation	Welsh Fourth Channel Authority
New Towns Commission (and new town development corporations)	

The following UK public bodies are NOT classified as PSEs

Air Travel Trust	Housing Action Trusts
British Broadcasting Corporation	Local Authority Airports
British Nuclear Fuels plc	Local Authority Bus Companies
British Railways Board	London Regional Transport
Buying Agency	Meteorological Office
Civil Aviation Authority	NHS Trusts
Commonwealth Development Corporation	North of Scotland Water Authority
Crown Estate Commissioners	Patent office
Defence Research Agency	Pilotage Commission
East of Scotland Water Authority	Post Office Corporation, include Post Office Counters Ltd
Fire Services Colleges	Remploy Ltd
Forest Enterprise	Trust Ports in Northern Ireland
HM Land Registry	United Kingdom Nirex Ltd
Horseshoe Totalisator Board	West of Scotland Water Authority

Appendix G

Eligible banks (banks whose acceptances are eligible for discount at the Bank of England)

This list (21 May 2001) is issued by the Bank of England.

“An institution’s appearance on the list should not be misconstrued as evidence that it is qualitatively different in terms of financial soundness, standards of conduct or otherwise, from institutions which are not included on the list. The inclusion of an institution on this list does not mean that the Bank of England in any way guarantees its obligations.

ABN AMRO Bank NV	Robert Fleming & Co Ltd
Allied Irish Banks plc	Fortis Bank S.A./N.V.
The Asahi Bank, Ltd	The Fuji Bank, Ltd
Australia & New Zealand Banking Group Ltd	Halifax plc
Banca di Roma SpA	HSBC Bank plc
Banca Nazionale del Lavoro SpA	The Industrial Bank of Japan, Ltd
Banco Bilbao Vizcaya Argentaria SA	ING Bank NV
Banco Santander Central Hispano SA	IntesaBci SpA (Banca Intesa Banca Commerciale Italiana SpA)
Bank Austria AG	KBC Bank NV
Bank Brussels Lambert	Lloyds TSB Bank plc
Bank of America, NA	Lloyds TSB Scotland plc
The Bank of Ireland	Mellon Bank, NA
Bank of Montreal	Merita Bank plc
The Bank of Nova Scotia	The Mitsubishi Trust and Banking Corporation
Bank One, NA	Natexis Banques Populaires
Bank of Scotland	National Australia Bank Ltd
The Bank of Tokyo - Mitsubishi, Ltd	National Westminster Bank plc
Barclays Bank plc	Northern Bank Ltd
Bayerische Hypo-und Vereinsbank AG	Rabobank International (Coöperatieve Centrale Raiffeisen-Boerenleenbank BA)
Bayerische Landesbank Girozentrale	N M Rothschild & Sons Ltd

Mikuno & Co

For United States issuers

Duff & Phelps, Inc

Appendix I

REPORTING SCHEDULE FOR SUPERVISORY RETURNS 2001

1. This schedule covers the period from **January 2001 to December 2001**. Not all the forms listed may be required from every reporting institution. The most common exceptions are covered in the footnotes. Individual reporting institutions which have been requested specifically by the FSA not to complete certain forms, or complete them less frequently or at different days from those shown below, should continue to follow their special arrangements.
2. The submission of these forms is covered by the rules and guidance set out in *SUP 16.7.7R – SUP 16.7.15R*. Failure to submit a report in accordance with the rules in *SUP Chapter 16* may lead to the imposition of a financial penalty and other disciplinary actions (see ENF 13.5) once the Financial Services and Markets Act 2001 comes into force.
3. **Institutions should note that the due dates set out below are based on the Bank Holidays applicable in England. The due dates should be adjusted to take account of local Bank Holidays (but not Public Holidays) and any waivers or concessions agreed with the FSA.** Reporting institutions should telephone their regular supervisor in the FSA in advance of any difficulty they may have in meeting a deadline.
4. Banks with any questions on this reporting schedule may also ring Financial Risk Analysis and Monitoring Unit, FSA on 020 7676 0660.

For footnotes, see over.

1. Form SLR1 should also be completed for any exception during the month. These exception reports should be submitted directly to your supervisor (and not the Bank of England).
2. Until notified by the FSA, these returns should be sent direct to your supervisor.
3. Forms BSD3 and M1 apply only to UK banks. They may be submitted alternatively on a different quarterly cycle to coincide with a reporting institution's accounting year end. Institutions wishing to report at dates which coincide with the financial year end should agree this with the FSA. For institutions reporting on an unconsolidated / solo consolidated basis, these forms must be completed within 10 business days of the reporting date (12 business days if reported electronically). Institutions reporting on a consolidated basis are required to submit Forms BSD3 and M1 at the reporting group's accounting year-end and half year -end. The consolidated forms must be returned within 20 business days of the reporting date (22 business days for electronic reporters).
4. Form M1 applies only to market makers holding loan capital issued by banks and non-resident banks. These reporting institutions are required to submit Form M1 in conjunction with Form BSD3.
5. Form B7 applies only to UK branches of banks established outside the EEA. Banks may complete Form B7 at dates coinciding with their accounting year-end: this should be agreed with the FSA.
6. Form LE2 applies only to UK banks. Those banks which complete Form LE2 on an unconsolidated basis should report at dates which coincide with Form BSD3. The form must be completed within 10 business days of the reporting date on an unconsolidated / solo consolidated basis, or 20 business days when completed on a consolidated basis.
7. Banks (other than those which report to the Bank of England on Form BT quarterly), should complete the Form LR as at end February, May, August and November. For those banks reporting to the Bank of England on Form BT quarterly, Form LR should be completed at end March, June, September and December.
8. These returns should be sent direct to your supervisor unless the FSA has requested otherwise..
9. Forms BSD3 and M1 apply only to UK banks. They may be submitted alternatively on a different quarterly cycle to coincide with a reporting institution's accounting year end. Institutions wishing to report at dates which coincide with the financial year end should agree this with the FSA. For institutions reporting on an unconsolidated / solo consolidated basis, these forms must be completed within 10 business days of the reporting date (12 business days if reported electronically). Institutions reporting on a consolidated basis are required to submit Forms BSD3 and M1 at the reporting group's accounting year-end and half year -end. The consolidated forms must be returned within 20 business days of the reporting date (22 business days for electronic reporters).
10. Form M1 applies only to UK banks which have been granted a trading book concession, or have qualifying holdings in non-financial companies. These reporting institutions are required to submit Form M1 in conjunction with Form BSD3.

Appendix J

GUIDELINES FOR COMPLETING FORMS FOR SCANNING

For hand-written returns only:-

- 1 Write **neatly**.
- 2 Do **not join** numbers together.

For hand-written, typed or computer produced paper returns:-

- 3 Figures should be **fully** inside the databoxes and not touching the surrounding edges of the databox.
- 4 Commas and dots should **not** be used to indicate thousands and millions but you may leave spaces if you find it helpful e.g. 1293 or 1 293 are acceptable; 1,293 or 1.293 are not.
- 5 Boxes that are nil returns should be left **blank**. Do **not** write "NIL", "ZERO", "N/A" or other text in databoxes. Similarly do **not** put dashes, 0, strike through or shade sections of the return that are not relevant for your institution.
- 6 Where appropriate, tick boxes should contain a tick. If it is not technically possible to reproduce a tick, any mark in these boxes will be read as a tick.
- 7 Negative entries should be indicated by a **minus sign** preceding the figure. Brackets should **not** be used.
- 8 Computer produced paper returns should be printed using a HP III printer driver. Most laser printers are able to emulate a HP III driver.
- 9 Ensure the print quality is good, ie no smudging, fading, etc.
- 10 You should send all the sheets not just the ones that have data on.
- 11 Returns should be printed in the correct order with **single-sided** pages (not back-to-back) and should have no **missing** or **additional** pages. It is **not** necessary to use coloured paper for returns printed on coloured paper by the Bank of England. Pre-printed forms issued by the Bank of England should **not** be copied onto single sheets of paper before submission.
- 12 Returns consisting of pre-printed Bank of England pages combined with pages from the Excel 97 spreadsheet or with Software House output cannot be accepted for processing. Returns should consist entirely of one (accepted) version of the form.
- 13 Banks choosing to use Excel 97 versions of the returns should **not** amend the forms of the returns in any way. Do not attempt to convert the spreadsheet to Microsoft Excel 5 or any other spreadsheet type.
- 14 Do not staple covering letters to the returns.
- 15 Do not hole-punch the returns.
- 16 **Faxes** of most returns will be accepted but these should be **correctly aligned** on the paper. However, the Bank of England request that, owing to their size, reporting institutions do not submit the Forms B1, C1, DQ or any of the "C" Forms by fax. Banks are strongly encouraged to send paper returns of these forms to reach the Bank in advance of the deadlines, but the Bank understands that on occasion the use of fax is the only means of avoiding returns arriving late. In this case, the Bank asks reporting institutions to telephone and inform it of the problems. The original version of the return should **not** be sent to the Bank of England (unless specifically requested) providing an authorised official signed the faxed version.

- 17 Any forms submitted with text (ie B7, BSD3) should have all text items completed in CAPITAL LETTERS and should be computer generated or typed.

If you wish to check that the output produced from spreadsheets is suitable for scanning, the Bank of England will be happy to test the output for you. Please send your test output to Julie Bigwood at the address shown on the front of the form.

DECLARATION AND RDE NOTIFICATION SHEET

Please complete this sheet for each return and fax to the FSA: 020 7676 3905

Name of Society / Subsidiary:

Section A: Data Transmission

The following return has been successfully transmitted:

1. First transmission
2. Re-transmission #
3. Return Type (i.e. MFS1, TABA, QFS1 etc)
4. Period ending (e.g. Aug-2001)

If a re-transmission, please give brief details below of the changes made, including the specific tables amended:

Section B: Declaration Statement **

I confirm that the information in this form is accurate, has been prepared in accordance with the underlying Guidance Notes, and is complete to the best of my knowledge and belief.

Return completed by:

Name:
Position Held:
Tel No:
Signed: Date:.....

Note: ** Knowingly or recklessly giving the FSA information which is false or misleading in a material particular may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). [SUP 15.6.1R and SUP 15.6.3R require an authorised person to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided.] [SUP 16.3.11R requires an authorised person to submit reports containing all the information required]. [APER 4.4.6E provides that, where an approved person is responsible for reporting matters to the FSA, failure to inform the FSA of materially significant information of which he is aware is a breach of Statement of Principle 4.] [Contravention of these requirements may lead to disciplinary sanctions or other enforcement action by the FSA.] It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. [If there is any doubt about the relevance of information, it should be included.]

Notes on completion:

- Updated assessments of "Expected Outturn for CFY/E" and "Likely Outturn" for NFY/E should be prepared each quarter.
- For details of items please refer to Guidance Notes
- If you have any queries please telephone 020-7676-0630 or 0690
- See Introduction, paragraph 8(iv) of Guidance Notes for treatment of negative values
- Enter amounts throughout in £ thousands
- All references to Q4 in this statement are to final quarter of the society's financial year
- Dates entered in column headings of tables should be month number and calendar year eg 12/98
- Internal cross checks are indicated in brackets (=B5), or in footnotes but see also section X of Guidance Notes
- The statement must be completed quarterly and submitted by close on the 18th business day after the society's financial quarter end, to :

- Notes:
- please submit sets B to G and A separately, with each accompanied by a copy of the front sheet of the return;
 - dates also apply in respect of MFS2 returns to be completed for subsidiary undertakings.

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

1. Introduction

This section covers a number of points that have relevance across the return generally:

- 2) Building Societies Act 1986
- 3) Accounting conventions
- 4) Accuracy
- 5) Society, connected undertakings and group figures
- 6) Sector analysis
- 7) Specific items:
 - (i) position to be reported gross
 - (ii) accrued interest
 - (iii) foreign currencies
 - (iv) use of brackets (..) around figures
 - (v) cross checks within the return
- 8) Building society mergers

2. Building Societies Act 1986

Any reference to "the 1986 Act" is a reference to this legislation (as subsequently amended).

3. Accounting conventions

Unless advice is given to the contrary in these Guidance Notes, the return should be compiled using standard accounting practice and in accordance with accounts regulations made under the 1986 Act.

The return has been designed with the aim of harmonising line items wherever possible with those required under accounts regulations, and as used in societies' published and internal accounts. In many instances line items reflect the basis adopted in the 1998 accounts regulations.

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

4. Accuracy

It is expected that entries on the return will be actual values or in some cases close approximations established or drawn from the society's systems and prepared on the basis of being the best information in the time available for their compilation.

5. Society, Connected Undertakings and Group figures

Societies may hold investments in different types of undertakings.

The 1986 Act defines certain undertakings in which a society may have an interest as "connected undertakings", that is "subsidiary undertakings" and "associated undertakings". In addition to these however a society may also have "other participating interests" or hold "other equity shares" (that is non participating interests). These terms are amplified below:

Subsidiary undertakings: As defined in Companies Act 1985, section 258, which essentially means undertakings over which the society exercises control or dominant influence.

Participating interests: An interest held by a society in the shares of another undertaking which it holds on a long term basis for the purpose of securing a contribution to its activities by the exercise of control or influence arising from or related to that interest. A holding of 20 per cent or more of the shares of an undertaking is presumed to be a participating interest unless the contrary has been agreed with the Financial Services Authority. (Full definition is that given in Companies Act 1985, section 260).

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

For the purposes of group figures the category "**participating interests**" subdivides into:

Associated undertakings: A participating interest in which the society exercises a significant influence over the operating and financial policy. (Full definition given in Companies Act 1985, schedule 4A paragraph 20).

Other participating interests: A participating interest that does not fall to be included within the definition of an associated undertaking.

Other equity shares: These essentially refer to non-participating interests in other undertakings. They include any other investments which do not fall to be included within any definition above, such as trade investments (eg BACS, APACS etc) or other forms of equity holdings (eg XYZ plc).

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

5. Society, Connected Undertakings and Group figures (continued)

The accounting treatment of these investments is best summarised. Reference to the table below should help societies to determine an acceptable and reasonable approach:

BALANCE SHEET		Society	Group
(a)	Subsidiary undertakings	Investment at cost less any permanent diminution in value	Full consolidation line by line.
(b)	Participating interests in:		
(b).1	Associated undertakings	Investment at cost less any permanent diminution in value.	Cost of investment and share of post acquisition retained reserves.
(b).2	Other participating interests	Investment at cost less any permanent diminution in value.	Investment at cost less any permanent diminution in value.
(c)	Other equity investments	Investment at cost less any permanent diminution in value.	Investment at cost less any permanent diminution in value.

Note: only one of (b)1 or (b)2 applies for each column.

INCOME AND EXPENDITURE ACCOUNT		Society	Group
(a)	Subsidiary undertakings	Dividend receivable	Full consolidation line by line.
(b)	Participating interests in:		
(b)1	Associated undertakings	Dividend receivable	Share of profits or losses.
(b)2	Other participating interests	Dividend receivable	Dividend receivable.
(c)	Other equity investments	Dividend receivable	Dividend receivable.

Note: only one of (b)1 or (b)2 applies for each column.

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

The return is designed to collect balance sheet and transaction data for the society and where applicable "core" connected undertakings, together with a limited amount of information on the building society group. Coverage is as described below:

5(i) Society and Group

One return must be completed by each society with

Section A covering society/subsidiary undertakings/group.

Section B-G covering society only.

5(ii) "Core" subsidiary undertakings

A separate return (MFS2), comprising sections B to G inclusive, must also be completed for each "**subsidiary undertaking**" doing "core" business. For the purpose of this return **an undertaking** is doing "core" business if it is one doing any of the following mainstream or **core** activities:

- Deposit taking
- Lending secured on residential property or other land
- Unsecured lending

NB See notes on table A for fuller details.

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

In the summary balance sheet (Section A) the column entries in respect of core and non-core "**subsidiary undertakings**" refer only to those required to be consolidated in Group Accounts under the Accounts Regulations. The summary balance sheet figures will exclude figures in respect of **associated undertakings** (even though separate monthly returns may also be submitted in respect of such bodies) except that entries will be needed in the consolidation adjustments to ensure the final column includes the associated undertaking, or other participating interests adjustments (see Introduction/4) included in the Group figures.

5(iii) **Companies not covered by the monthly financial statement**

The Financial Services Authority may from time to time also request information on either a **subsidiary or an associated undertaking** not covered by the monthly return (i.e. those not referred to above). These will be requested on an individual society basis.

6. **Sector analysis**

NB: Transactions with Offshore deposit takers (i.e. in Channel Islands and Isle of Man) are now classified as transactions with the non-resident sector.

The classification of balance sheet items by institutional sector essentially follows the current international guidelines embodied in the European System of Accounts 1995. On this return it identifies:

- (a) UK public sector
- (b) UK banking sector
- (c) UK building society sector
- (d) Other UK sector (UK non-bank, non-building society private sector).

NB: For national accounts purposes building society connected undertakings or other interests may fall into the Other UK Sector (eg doing secured/unsecured lending in the UK); the Banking Sector (eg doing deposit taking in the UK) or the non-resident sector (eg doing deposit taking outside the UK).

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

- (e) Non-resident sector.

Further details are given in (i) to (vi) below:

6(i) United Kingdom ("UK")

For the purposes of this return it comprises Great Britain and Northern Ireland; **but not (as previously)** the Channel Islands and the Isle of Man.

6(ii) UK public sector

Comprises central government, public corporations and local authorities. See detailed definition in Appendix II, sections 5-7.

6(iii) UK banking sector

It includes the following:

- (a) UK offices of banks (Appendix II, section 2);
- (b) the Bank of England (unless where separately identified on return).

Do not include building society subsidiary undertakings, or subsidiaries of UK banks unless they are UK banks in their own right.

Also exclude the following, which should be classified as "Other UK sector" (other financial corporations):

- (a) bank holding companies (see Appendix II, Section 3(9)(c));
- (b) gold dealers which are not banks;
- (c) certain institutions which are not banks whose main function is to extend credit abroad (see Appendix II, section 3(9)(a)).

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

Care must be taken to distinguish between UK offices of banks which should be classified as UK banking sector, and their branches, subsidiaries and associates overseas, which should be classified within the non-resident sector.

6(iv) UK building society sector

Comprises building societies only. Branches of building societies located in the Channel Islands, the Isle of Man or elsewhere outside of the UK etc should be excluded.

6(v) Other UK Sector (UK non-bank non-building society private sector)

Comprises all other UK residents. UK residents comprise both individuals and businesses. Individuals are UK residents if permanently resident in the UK (even if temporarily resident overseas for less than a year), or if temporarily resident in the UK for more than a year, or if members of the UK armed forces or officials of HM Government serving overseas.

Businesses resident in the UK comprise enterprises which produce goods and services in the UK, including overseas enterprises' branches and subsidiaries located and operating in the UK. See Appendix I for a detailed definition of residence.

6(vi) Non-resident sector

Comprises all individuals and businesses not treated as resident in the UK. See Appendix I for a detailed definition of residence.

7 Specific items

7(i) Positions to be reported gross

In general, liabilities and assets should be shown gross, and not netted off. Thus an account which moves from credit to debit will move from one side of the balance sheet to the other.

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

A notable exception to this however concerns the reporting of loan assets (eg in tables A, B and F) which are subject to "linked presentation" under FRS5. Such assets should be shown in the balance sheet net of linked funding and also on this basis in table F(1). But in the special analysis in section F9 (table F(2)) they should be shown on a gross basis.

7(ii) Accrued interest

Accrued interest is identified explicitly in the balance sheet under specific sub-heads. Analysis elsewhere on the return may require either the inclusion or exclusion of accrued interest, but this is indicated on the face of the return as appropriate.

7(iii) Foreign currencies

Any liabilities (including borrowing whose proceeds are swapped into sterling) or assets that are denominated in currencies other than sterling should be shown separately in the columns provided in the balance sheet sections of the return. Amounts in foreign currencies should be translated into their equivalent sterling value at the closing middle market spot rate on the reporting date, or where appropriate, at the rates of exchange fixed under the terms of any relevant currency hedging transaction, and that value entered in the column headed 'euro' or 'other currencies' as appropriate. Thus all entries in the form represent sterling amounts. Societies should apply the same accounting treatment as for the published accounts having regard to SSAP 20.

7(iv) Use of brackets (..) around figures

All amounts should be shown without brackets unless:

- (a) the amount is of the opposite sign to that expected
- (b) the entry could either be positive or negative: in which case the sub heading should indicate which of "other debit/credit" is to be shown in brackets.

BUILDING SOCIETY: MONTHLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

In either balance sheet or transactions analyses where an item is routinely to be deducted (eg provisions in balance sheet, or "withdrawals" in table C) the amount should **not** be shown in brackets. The **exception** would be if the value was itself of the opposite sign (ie negative) and required to be added not deducted in which case brackets would be necessary.

7(v) **Cross checks within the return**

The return features a number of cross references or cross checks where an item should agree with another item elsewhere in the return, or should agree mathematically with some stated relationship between two or more other items. These are conveniently summarised in Section X of the guidance notes.

8 **Building society mergers**

Where a merger of societies takes place, then **in the month during which the merger occurs:-**

- i. the transferring society should complete a return detailing its transactions in the period to the date of the merger and its closing balances;
- ii. the accepting society should complete a normal monthly return which reflects both its transactions before the merger and the transactions and balances of the combined society post merger. The share, deposit and debt securities and loan asset balances acquired from the transferring society should be included in the "Other debits/(credits) and transfers (net)" column in tables C, D and F respectively. Loan commitments taken over from the merged society should be included in the column headed "Commitments made since end of previous month".

NB **Specific** guidance covering both the contents and submission of returns is routinely provided to the societies involved at the time of a merger.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION A: SUMMARY BALANCE SHEET

1 Balance sheet items

Balance sheet items are as defined in Section B which provides notes on specific line items.

2 Society/Subsidiary undertakings/Group

The columnar analysis should be prepared as follows:

Column 1: Society

Figures should agree with those prepared for the society in the more detailed balance sheet in Section B of the return.

Columns 2-5: "Core" subsidiary undertakings

Refers to those undertakings which are a) doing business closely related to the mainstream business of the society, and which are b) required to be consolidated within Group Accounts under the Accounts Regs. Mainstream or "core" business is taken as deposit taking, secured lending and unsecured lending. Figures supplied should be in respect of the reporting month and not for any earlier time period. If 'actuals' are not readily available then estimates should be used. Details of individual columns follow:

Column 2: Deposit takers

Undertakings doing deposit taking, the main examples of which are currently UK registered companies operating offshore in the Channel Islands or Isle of Man; companies established in the Channel Islands or Isle of Man; or other undertakings established in other countries primarily to take deposits. It would also include a UK deposit taker (in which case such an undertaking would be a bank).

Column 3: Secured lenders

Mortgage companies, primarily set up to do secured lending, whether registered in UK or in other countries, and whether lending in UK or elsewhere.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION A: SUMMARY BALANCE SHEET (continued)

- Column 4: Unsecured lenders
- Undertakings primarily doing any form of unsecured lending, eg personal loans, credit card etc. Applies to any country.
- Column 5: Other "core" subsidiary undertakings
- Other subsidiary undertakings doing "core" business:
- (a) at present there are no such examples, but it would include any undertaking that was doing both deposit taking **and** secured lending, as opposed to primarily doing one or the other;
 - (b) if there are cases in the future, then societies will be advised as to their treatment in the return.
- Column 6: Other subsidiary undertakings
- Covers all non-core subsidiary undertakings but only those requiring to be consolidated within Group Accounts under the Accounts Regs.
- Because of the need to compile timely figures it will be acceptable for societies where such information for the reporting month is not readily available, to either use estimates or, to use figures on a lagged basis providing they do not refer to a period more than 3 months earlier than the reporting month.
- Column 7: Consolidation adjustments
- Adjustments to eliminate intra group balances in order that the group be presented as a single entity.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION A: SUMMARY BALANCE SHEET (continued)

Column 8: Group

The total for the Group prepared on a consolidated basis in line with standard accounting practice.

NB: In relation to columns 2-6 it should be noted that where an overseas undertaking is involved the classification of its particular assets and liabilities may not exactly match the society's balance sheet headings. In these circumstances the society should follow the same classification conventions as used in the preparation of published group accounts.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Liabilities

B1-B2.10 Shares/Deposits

Should the balance on a **current account** become overdrawn the debit balance should be treated as an "Other Loan to Customers".

B1 - B4. Interest accrued

This should be shown gross.

B1. SHARES

This covers shares as referred to in Section 8 of the 1986 Act.

It should include:

- (a) shares from individuals
- (b) shares from any others entitled to hold such accounts under the 1986 Act, ie shares held by corporate bodies on the day before a society's "effective date"
- (c) shares placed with any branch of the society (in the UK or overseas)
- (d) interest credited to accounts
- (e) investment receipts temporarily posted to mortgage accounts in a combined investment/mortgage transaction

but should exclude:

- (f) mortgage payments temporarily posted to investment accounts in a combined investment/mortgage transaction (eg one banker's order)

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Liabilities (continued)

B2. DEPOSIT AND DEBT SECURITIES

This is a breakdown of liabilities in respect of deposits accepted by the society (including the issue of debt securities), subject to the limitations in Section 8 of the 1986 Act.

B2.0 Deposit from individuals

Individuals means a natural person.

B2.4 Building Societies

In the case of a return completed for a subsidiary undertaking, all loans from the parent should go here.

B2.5 UK Banking Sector

i. Bank of England

Deposits includes funds received arising from repo-transactions with the Bank itself.

ii. Other Banks

Includes deposits from banks in the UK [including any building society subsidiary undertaking **taking deposits in the UK** which is a UK bank] but excludes bank borrowing which should be included under B2.11. In addition to ordinary deposits, it also includes any funds arising from repo-transactions with banks in the UK.

B2.11-13 Borrowing from banks

Includes syndicated and other borrowing from banks. If the exact split of syndicated borrowing between the UK banking sector and non-resident sector is not known, then an estimate should be made. If that is not possible then the loan should be shown according to the sector of the lead manager. (Syndicated borrowing other than from banks should be shown under 'Other deposits' in B2.1-2.10.) Overdrafts and any other form of borrowing from UK banks not shown elsewhere, should be included here.

BUILDING SOCIETY: MONTHLY STATEMENT**SECTION B: BALANCE SHEET: Liabilities (continued)****B2.14-18 Debt Securities**

Deep discounted bonds should be included at issue/purchase price with the "discount" accruing in interest accrued at item B2.19.

B3 CAPITAL

B3.1 Reserves should include general and any 'special' reserves but not revaluation reserves (which should be included at B3.3).

B3.2 Subscribed capital includes permanent interest bearing shares (PIBS), and any other subscribed capital which may be approved in the future.

B3.4 Subordinated debt (qualifying). Subordinated debt **not** qualifying as capital should be included under an appropriate heading in section B2. Includes both term and undated subordinated debt.

B3.5 Other capital - covers capital not described above, and in particular new forms of capital that may be approved in the future but which do not qualify for inclusion in any of items B3.2 or B3.4. In the case of a **return completed for a subsidiary undertaking** all capital provided by the parent society should go here.

B4. OTHER LIABILITIES includes:

B4.4 Long term insurance liabilities is the total amount due to policyholders. This entry will only be relevant on MFS2, and then only in rare circumstances where an undertaking is carrying on life insurance business and is also doing "core" business. It will however be relevant for the corresponding item in table A where a society has a life insurance subsidiary.

B4.5 Other includes trade creditors and deferred income; provisions for liabilities and charges.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Liabilities (continued)

B5. TOTAL LIABILITIES

For each of the columns "sterling", "euro", "other currencies" and "total", the amount at 'Total liabilities' should agree with each of the total of all solid boxed entries;

Memo items LIABILITIES

B/ML1 TRANSIT AND SUSPENSE ITEMS (Liabilities)

These items represent amounts not included in Total Liabilities. They:

Include all such items which are essentially en route between customers of banks and building societies; but

Exclude items which are essentially the society's **own** funds, such as trade creditors: these should be included under "Other Liabilities".

and are analysed separately between items in suspense, and credit items in transmission as described below:

B/ML1a Items in suspense

This comprises all credit balances not in customers' names, but relating to customers' funds (as opposed to the society's internal funds)

Include, for example,

- a. Valuation fees where the society passes on the fee to the property valuer
- b. Special accounts where the society is acting as a collecting agent (eg for charities)
- c. Accounts holding funds awaiting transfer to customers (but not accounts relating to interest accruing, or interest suspense accounts)
- d. Customers' funds awaiting investment which have been transferred to an account not in the name of the customer

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Liabilities (continued)

- e. Funds placed on account to meet travellers' cheques issued by the society but not yet presented
- f. Returnable application monies for capital issues
- g. Funds transferred from customers' accounts to an account not in the name of the customer to meet acceptances, confirmed credits, etc

But exclude any amounts payable in respect of transactions not due until a future settlement date which arise if the society reports investments on a contract date basis.

If any credit balances relating to customers' funds of a suspense nature have already been included in total liabilities, do **NOT** include these in this item as no liabilities should be counted again here.

B/ML1b Credit items in the course of transmission

This comprises transit liabilities which are essentially en route between customers of banks and building societies eg standing orders and credit transfers debited to customers' accounts, and other items for which the corresponding payment has not yet been made by the society to a UK bank or another building society. Exclude items where the corresponding payment is to a non-resident bank.

Include all credits in course of transmission, including those to the society's own UK branches, whether passing through the credit clearing system or not. Also include unpresented cheques, bankers' payments etc. drawn on the society's sight or correspondent accounts with UK banks but not yet debited by the bank and which do not yet appear on the bank statement.

In the memorandum item, report 100% of the sterling credit items in course of transmission. In the calculation of eligible liabilities in table B(7) however, only 60% of this figure is used.

NB: Transit and Suspense items are not a component of total liabilities. They are essentially a negative item within "bank deposits" on the asset side (see B6.3 below).

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Assets

B6. LIQUID ASSETS

General Liquid assets in this section of the return are those assets shown as liquid assets under the Accounts Regulations and in a society's published and other accounts. Liquid assets in the balance sheet (and in table A) are not the same as prudential liquidity, which is analysed in table E.

Stock Lending No adjustment should be made to the amount or categorisation of liquid assets shown in the balance sheet to take account of any stock lending carried out as provided for in the Financial Services Authority's Prudential Guidance on Liquidity. [Chapter 5 of Volume 1 of the Interim Prudential Source Book ("IPSB") for Building Societies]. In subsequent pages of these guidance notes, prudential guidance in the IPSB for Building Societies will be referred to as P/G.

Gilt Repo The Prudential Guidance on Liquidity refers to gilt-repo activity, and provides details of reporting implications in an Annex. That part referring to the balance sheet is reproduced below, but includes amplification of the line items relevant to the coding of liquid asset deposits in a reverse repo.

Repo	Reverse Repo												
<p>Balance Sheet</p> <p>a. The security which is the subject of the repo remains on balance sheet</p> <p>b. Proceeds received as a result of the repo are treated as deposit funding, and classified according to the type of counterparty providing the funding</p> <p>c. The corresponding asset for this new funding will depend on its disposition at the reporting date. Whilst at the time of receipt it will no doubt constitute part of the society's liquid assets, at the time of reporting it may either still form part of liquid assets (classified according to its use) or may by then have been advanced as a loan asset etc</p> <p>d. The net effect of the repo is that liabilities and assets are increased by the amount of funding received as a result of the repo.</p> <p>NB: In the case of complex, multi-step transactions:</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p><i>Whether conducting a repo or a reverse repo, societies should take particular care not to "double count" either the stock or the cash as liquidity. This is especially relevant to more complex situations where, for example, gilts reversed in are subsequently repoed out or sold, taking into account any timing mismatches that occur.</i></p> </div>	<p>a. Funds paid to the counterparty as part of a reverse repo (in return for securities) remain on balance sheet, and should be recorded as a liquid asset deposit (classified according to the type of counterparty). This is, in MFS1:</p> <table style="margin-left: 40px;"> <tr><td>B6:2</td><td>Central Bank counterparty</td></tr> <tr><td>B6:3</td><td>Bank counterparty</td></tr> <tr><td>B6:8</td><td>Local authority counterparty</td></tr> <tr><td>B6.12a</td><td>Building societies</td></tr> <tr><td>B6.12b</td><td>Other UK counterparty</td></tr> <tr><td>B6.12c</td><td>Other non-resident counterparty</td></tr> </table> <p>b. but securities received (collateral) should not be shown in the balance sheet.</p> <p>c. The net effect of the reverse repo is that assets and liabilities do not materially change.</p> <p>d. Subsequently, if these securities received under the reverse repo are used in a new repo transaction, then the new funds are treated as in steps (b) and (c) under the Repo column.</p>	B6:2	Central Bank counterparty	B6:3	Bank counterparty	B6:8	Local authority counterparty	B6.12a	Building societies	B6.12b	Other UK counterparty	B6.12c	Other non-resident counterparty
B6:2	Central Bank counterparty												
B6:3	Bank counterparty												
B6:8	Local authority counterparty												
B6.12a	Building societies												
B6.12b	Other UK counterparty												
B6.12c	Other non-resident counterparty												

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Assets (continued)

The type of assets available to societies for the management of liquidity is outlined in the above mentioned P/G. Connected undertakings may hold other types of asset as "liquidity" depending on the powers available to them, in which case such assets should either be classified to the relevant generic category or "other liquid assets" as appropriate.

B6.1 **Cash (notes and coins)** should include UK coin, and bank notes issued by the Bank of England, the Scottish and Northern Irish note issuing banks and Channel Island authorities under "sterling" column. Notes and coin of other countries outside of the UK should be disclosed in the appropriate column. Unbanked cheques should not be included. If it is not possible to distinguish between cash and unbanked cheques then the split should be estimated.

B6.2 **Deposits with central banks** refers to the Bank of England in the UK and equivalent institutions in other countries.

B6.3 **Bank Deposits**

should include:

(a) current and deposit accounts with UK banking sector institutions (excluding Bank of England) and banks resident overseas (and which are not part of UK banking sector). Balances should be balances with banks as shown by the society's records (eg "cashbook"), and should be equivalent to taking the bank statement balance as the starting point, **less:**

(i) cheques drawn by the Society on a bank but not yet presented to the bank by the payee and any other similar liability transit and suspense items (see memo item after B5 above); **plus**

(ii) cheques drawn in favour of the Society but not yet presented to the bank. This amount should be shown in the memorandum item: 'Transit & Suspense items' (Assets).

but should exclude:

(b) bank overdrafts which should be shown as a liability under item 'Borrowing from banks', not included as a negative figure in this section except where there is a legal right of set off by the bank against debit balances held on other bank accounts.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Assets (continued)

- B6.5** **Other money market instruments** covers those other than CDs. Commercial paper is the only example at present but there may be others at some future date.
- B6.6** **Bonds, notes and other capital instruments** includes fixed rate bonds, floating and variable rate bonds, medium term notes and euro-notes.
- B6.7** **Bills** include bills accepted by any eligible bank, and Treasury bills.
- B6.8a)** **Local Authority temporary debt** should include all loans to local authorities, holdings of local authority securities, bills and other paper, and deposits with local authorities, with an original maturity [NB not current maturity] of less than 12 months including longer term loans and mortgages repayable at the lender's option within one year.
- B6.8b)** **Local Authority long-term debt - listed securities** covers those issued by local authorities with an original maturity over 12 months.
- B6.8c)** **Local Authority long-term debt - other** includes all other lending to local authorities, including deposits, not included above.
- B6.11** **Sovereign securities:** covers securities which are issued by or guaranteed/backed by UK or overseas governments. They are analysed as follows:
- (a) **Sovereign debt** which is debt securities issued by UK or overseas governments:
- a1) **UK government:** covers gilts. UK government ECU issues would go under Euro column.
- a2) **Overseas governments** cover those debt securities issued by overseas governments.

BUILDING SOCIETY: MONTHLY STATEMENT**SECTION B: BALANCE SHEET: Assets (continued)**

- (b) **Sovereign backed or supported by** covers those securities not issued by a government but which are either guaranteed by a government or where the issuer is either backed by a government or whose capital has been subscribed by a government:
- b1) **UK government** backed or supported, includes securities guaranteed by UK government (eg those issued by nationalised industries), or securities issued by any body whose capital is subscribed by UK government only (eg GEFCO [Government Export Finance Company])
- b2) **Overseas government** backed or supported, includes securities guaranteed by other governments, and securities issued by intergovernmental investment and development institutions whose capital is subscribed by one or more overseas governments. These latter institutions are often referred to as supra national bodies and agencies. Examples would include:

Backed or supported by a single overseas government:

- France: EDF (Electricite de France), SNCF
- Italy: Feroovie dello Stato (State Railway)

Backed or supported by more than one overseas government

- African or Asian or Caribbean Development Banks;
- Council of Europe Resettlement Fund
- European Atomic Energy Community
- European Bank for Reconstruction and Development
- European Coal and Steel Community
- European Company for the Financing of Railway Rolling Stock
- European Economic Community
- European Investment Bank
- European Telecommunications Satellite Organisation
- Inter-American Development Bank
- International Bank for Reconstruction and Development (the World Bank)
- International Finance Corporation
- International Monetary Fund
- Nordic Investment Bank

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Assets (continued)

B6.12 Other liquid assets: includes those with

- (a) **Building society sector:** deposits placed with other societies, and any other liquid asset with the building society sector not shown in B6.1-11; or where the return is completed for a subsidiary undertaking it is the amount placed with the parent or other building society.
- (b) **Other UK sector** including any liquid asset not included above, eg National Savings Bank deposits and instruments; deposits with gilt-edged market makers; deposits with Stock Exchange money brokers.
- (c) **Non-resident sector**, that is any overseas institutions not included in any other category of liquid assets.

B7 LOANS AND INVESTMENTS

Loans fully secured on residential property (FSRP) and other loans fully secured on land (FSOL) are as defined in the 1986 Act.

Reclassification of old Class 2 loans

NB: The following two paragraphs cover the situation when loans were reclassified onto the new basis under the amended 1986 Act when a society reached its "effective date" for adoption of new powers under the 1986 Act.

However, it should be noted that due to a drafting error in the 1997 Act not all old Class 2 loans secured on residential property will, after a society's "effective date", count as FSRP (ie they will not be within the new 75% lending nature limit). This applies in particular to **existing loans secured on residential property: to housing associations**, to individuals on **second mortgages** (other than where the first mortgage is also to the society) and to any such **loans to companies**.

This anomaly only applies to existing loans as at the date on which a society adopts the new memorandum and rules under the 1997 Act. Such loans made on or after that date will count as FSRP (and be within the 75% lending nature limit).

BUILDING SOCIETY: MONTHLY STATEMENT**SECTION B: BALANCE SHEET: Assets (continued)**

All balances entered should only bring into account interest which is due at the reporting date: interest in respect of the remainder of the society's financial year should be excluded since it is not due at the reporting date. Provisions for bad and doubtful debts should not be deducted from individual line items B7.1-7.4 and each of these asset line items should be shown 'gross'. The amount of provisions should be shown separately (B7.6). Balances will however take account of any amounts written off loan assets as shown in the transaction table in Section F.

B7.1&2 Loans FSRP and Other Loans FSOL are the aggregate amounts of mortgage debts outstanding in respect of advances on these categories of loans. Include mortgage receipts temporarily posted to investment accounts, but exclude investment receipts temporarily posted to mortgage accounts.

B7.3(a) **Other Loans to Customers: Individuals** includes bridging loans, personal loans, credit cards, overdrafts, and also some secured loans.

B7.3(b) **Other Loans to Customers: Other** includes all other loan assets not included above, including loans to connected undertakings (except where they fall to be treated as "investments" in B7.4).

B7.4 **Investments** are the aggregate amount outstanding in respect of:

- i. Shares (ie share capital) in connected undertakings
- ii. Certain loans of a longer term nature (and typically where a repayment schedule is not expected) to connected undertakings; and
- iii. Other equity Shares.

See Introduction, section 5, first paragraph for details of connected undertakings

B7.5 **TOTAL Loans and Investments (Gross)** is a subtotal of all items in B7.1 to B7.4.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Assets (continued)

B7.6 **Provisions:** cover general and specific and refers to amounts prepared on a basis consistent with the same items presented in the published accounts. The amount shown should be updated throughout the year whenever updates are made to provisions charged in the Income and Expenditure Account.

B7.7 **TOTAL Loans and Investments (Net)** is B7.5 net of provisions in B7.6.

B7.8 Is an **analysis by sector** of all loan assets before deducting provisions, that is of the total in B7.5 (to which the sum of component sector lines should agree). Sector definitions are referred to at section 6 of the Introduction to these notes.

B8 **FIXED ASSETS**

Comprises all fixed assets including residential properties held for rental purposes.

B9. **LONG TERM INSURANCE FUNDS**

Means assets of long term insurers which represent funds arising from the carrying on of long term insurance business. See also note against B4.4 for application to MFS2 and table A.

B10. **OTHER ASSETS** includes

- (a) trade debtors
- (b) any other item for which payment is due to the society but has not yet been received
- (c) all other assets not shown elsewhere.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Assets (continued)

B 11. TOTAL ASSETS

For each of the columns "sterling", "euro", "other currencies", and "total", the amount at 'Total Assets' should agree with each of:

- (a) the total of all solid boxed entries; and similarly
- (b) the dotted box against B6.14 together with solid boxed entries against subsequent items.

Memo item ASSETS

B/MA1 TRANSIT AND SUSPENSE (Assets)

This is subdivided into items in suspense, and debit items in the course of transmission.

B/MA1a Items in suspense

This includes any items which are debit balances not in customers' names but relating to customers' funds, eg debit balances awaiting transfer to customers' accounts rather than the society's own internal funds, and funds of the society lodged with applications for new issues, even if the funds are returnable and any amounts receivable in respect of transactions not due until a future settlement date which arise if the society reports investments on a contract date basis.

B/MA1b Debit items in course of transmission

This comprises cheques, etc, drawn in favour of the society and drawn on, and in course of collection on, UK banks (including the Bank of England) and other building societies, and debit items in transit between UK offices of the society.

Include cheques that have been credited to customers' accounts but are held overnight before being presented or paid into the society's account with a UK bank.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Assets (continued)

Items sent by post for collection from a UK bank or other building society should be regarded as in course of collection until it is reckoned that they have been received by the addressee.

Excludes cheques, etc, which have been passed to UK banks or other building societies for collection and credited to the society's account irrespective of whether this account is the society's sight account, or a settlement or clearing (ie correspondent) account in the books of the UK banks or other building societies. These should be included in item B6.3a.

In this item, report 100% of debit items in course of transmission. The calculation of eligible liabilities in table B(7) will however use only 60% of this.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION B: BALANCE SHEET: Eligible Liabilities

(There are no items B12-B19 in the return)

B20 ELIGIBLE LIABILITIES

This information forms the basis on which the Bank of England will monitor a society's eligible liabilities and issue call notices concerning the amount of **cash ratio deposits** to be placed with the Bank.

This section of the return is designed to capture all of the component items that go to make up eligible liabilities, including relevant offsets and other deductions.

Apart two items (B20.12 and B20.13 which are covered below), all other items in table B(7) are directly extractable from specific line items in tables B(1) to B(6), and relevant cross references are given which define the amounts to be included in the various B20 items.

B20.12 Over 2 year sterling share and deposit liabilities (optional)

This is an optional item that you may choose not to complete. It should comprise sterling shares and deposit liabilities that were included in B20.1 where the shares and deposits cannot be withdrawn under any circumstances within two years of being placed, except when specified exceptional events occur, such as the death of a personal depositor. For example, a deposit placed for three years but which can be withdrawn at anytime either with a notification period or loss of interest (or both) should **not** be included in this item. Also exclude from this category any deposits from UK banks or non-resident offices of the society (see B20.13 below for definition).

BUILDING SOCIETY: MONTHLY STATEMENT**SECTION B: BALANCE SHEET: Eligible Liabilities** (continued)**B20.13 Non-resident offices adjustment (optional)**

This is an optional item that you may choose not to complete. Its aim is to allow any **gross** sterling deposit liabilities from non-resident offices of the society (which were included in B20.1) to be scored **net**. However a net asset position cannot be treated as an offset in the calculation. Enter any funds lent to non-resident offices of the society up to a value equal to, or less than, the deposit liabilities received from the non-resident offices of the society. Non-resident **includes** the Channel Islands and Isle of Man. Non-resident offices of the society are:

- a. a non-resident branch of the society
- b. a wholly-owned non-resident banking subsidiary undertaking of the society

B20.14 Total eligible liabilities

Total eligible liabilities comprise B20.5 less B20.11, B20.12 (if completed) and B20.13 (if completed).

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION C: FUNDING: SHARES

C1. SHARES

This provides a breakdown of the change in the balance sheet item between this return and the previous return in respect of **shares from individuals and others**. Accrued interest is excluded. The columns are as follows:

Receipts

should include

- (a) interest paid to investors by warrant and re-invested by them at a later stage.
- (b) investment receipts temporarily posted to mortgage accounts which are combined investment/mortgage transactions.

but should exclude

- (c) transfers between accounts.
- (d) mortgage payments temporarily posted to investment accounts which are combined investment/ mortgage transactions (eg one banker's order).
- (e) interest credited either to an account or transferred to an alternative account (warrant transfers).

Withdrawals

should include:

- (a) transfers to mortgage accounts.
- (b) withdrawals which incorporate in part or in whole previously credited interest and bonuses.
- (c) withdrawals of credit balances on current accounts. (Should the current account become overdrawn the debit balance should be treated as an "other loan to customers: individuals".)

but should exclude

- (d) transfers between accounts.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION C: FUNDING: SHARES (continued)

- (e) interest and bonuses paid out.

Interest Paid

should include:

- (a) interest or bonuses paid out on account closure.
- (b) interest paid out monthly, quarterly, half yearly or annually.

but should exclude:

- (c) any interest already counted as 'interest credited' in this or previous returns.

Interest paid has two components:

- (d) the total amount of interest paid shown on a gross basis
- (e) the amount of tax deducted, so that (d) minus (e) is the actual amount paid out

Interest Credited

should include:

- (a) interest capitalised at normal due dates.
- (b) interest credited to alternative accounts (warrant transfers)

but should exclude:

- (c) all interest provisions eg SAYE and regular savings bonuses until added to accounts.

Interest credited has two components:

- (d) the total amount of interest credited shown on a gross basis

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION C: FUNDING: SHARES (continued)

- (e) the amount of tax deducted, so that (d) minus (e) is the actual amount credited to account balances.

Other (debits)/credits and transfers (net)

should include share balances acquired on acceptance of a transfer of engagements.

C2. ANALYSIS BY ACCOUNT TYPE (original maturity)

Investments are classified according to the original notice period and all the investments in a particular account are classified together ie all the investments in a 90 day account are classified in the 3 months notice/penalty category, even if investments above a certain level in an individual account are withdrawable on demand and without penalty.

The basis of the "CAR" interest rate is described in Section G (at 3(b)).

Where the society credits interest to an account other than that on which such interest is earned, the amount should be shown under "interest credited" on the account type on which it is earned, and the transfer to another account should be recorded under "other (debits)/credits and transfers (net)".

C2.1 Instant Access (0-7 days) includes

Ordinary Share accounts: those share accounts with no special terms relating to receipts or withdrawals.

Cheque/Transactions accounts: those share accounts which include, as an integral part of the account, the means to make payments to third parties. Any accounts specifically established for use with ATMs should also be included here.

NB: excludes those cheque/transaction accounts which are designated as deposits (and not shares).

BUILDING SOCIETY: MONTHLY STATEMENT**SECTION C: FUNDING: SHARES (continued)**

Seven day and instant access/no penalty accounts: those accounts offering a higher rate of interest than ordinary shares and include accounts from which investments can be withdrawn at seven days' notice or less or from which immediate withdrawals can be made with seven days interest penalty or less. See below for treatment of investments above a certain level in certain longer notice accounts which are withdrawable on demand without penalty.

C2.2-4 Notice accounts includes

One month's notice/penalty accounts include all accounts from which investments can be withdrawn at one month's (or 28 days') notice or from which immediate withdrawals can be made with one month's (or 28 days') penalty. Include also any accounts requiring a notice period of 8 to 45 days inclusive.

Two/Three months' notice/penalty accounts refers to accounts which require more than one month's notice of withdrawal or impose penalties of more than one month's interest on an immediate withdrawal but which are not term accounts. Two and three months' (60 and 90 day) notice/ penalty accounts fall into this category. Because of varying notice periods required the '2 month' and '3 month' categories are defined in days as well.

C2.5-9 Term accounts includes

Term accounts with withdrawal facility: those accounts which require investment for a fixed term (offering variable or fixed rate of interest), and which also permit withdrawals at, for example, three months' notice, on terms set out in the investment prospectus.

Terms accounts without withdrawal facility: those accounts which also require an initial investment period, during which no withdrawals can be made (except in the case of death).

C2.10-11 Contractual includes:

Tessa: Tax-exempt Special Savings Accounts

Other: includes regular savings such as SAYE

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION C: FUNDING: SHARES (continued)

NB: Individual Savings Accounts (ISAs) are not necessarily contractual and should be allocated to the lines most appropriate to the nature of the share account making up that part of the ISA.

C2.12 **Other:** any account not shown above

C3 **SHARES ANALYSIS**

Breaks down the balances shown in the final column of item C1 into shares held by individuals and shares held by others.

C3.1 **Shares held by individuals**

Individuals means a natural person.

C4 **LARGE SHARE AND DEPOSIT HOLDINGS**

C4.1 **Single holdings in excess of 0.25% of SDL (excluding accrued interest)**

This item, exceptionally, relates to both shares and deposits. It refers to the aggregate balances on both share and deposit holdings (where a single holding in respect of an individual is the totality of accounts held by that individual), excluding accrued interest, which are each in excess of 0.25% of total shares, deposits and debt securities (SDL), where total SDL is the sum of balance sheet items as below:

- (i) share liabilities excluding interest accrued (B1.1 + B1.2)
- (ii) deposits and debt securities less interest accrued (B2.20 - B2.19 - B2.0(c))

This item relates to "large share and deposit holdings" as referred to in the Prudential Guidance on Financial Risk Management. [Chapter 4 of Volume 1 of the Interim Prudential Source Book ("IPSB") for Building Societies.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION D: DEPOSITS AND DEBT SECURITIES

D1. TOTAL DEPOSITS AND DEBT SECURITIES

Analyses the transactions between opening month and closing month balances but excluding accrued interest for 'Deposits from individuals' and 'Other deposits and debt securities'.

D2. COMMITTED FACILITIES

The sources of such facilities, divided between "banks" and "other sources", are individually considered in terms of:

(i) maximum drawn down at any time during month

Requires each end of day total drawn down balance position (ie the sum of positions on each line of committed facilities, eg from banks in the case of D2.1) to be established and the maximum of these daily amounts to be entered.

The maximum drawn down from "all sources" will not necessarily be the sum of the two component boxes in this column unless the maximum drawn down position in the month occurred on the same day for both D2.1 and D2.2.

(ii) Position at end of month

Analyses balances drawn and undrawn at the end of the month. The horizontal sum of balances drawn plus balances undrawn will be the total amount of committed facilities by source.

BUILDING SOCIETY: MONTHLY STATEMENT**SECTION E: LIQUID ASSETS****E1. REALISABLE WITHIN**

This analyses the realisability of liquid assets (**NB now including accrued interest**) held at the end of the month into three time bands; those realisable up to and including 8 days, those up to and including three months, and those over three months. "Realisable" means the ability to translate the liquid asset into money (ie cash or in current account).

The columnar analysis categorises "realisable" in terms of balances outstanding at the end of the month according to the following breakdown:

(i) Balances at the end of the month: as per balance sheet

Show amounts in this column on the same basis as included in the balance sheet, but in table E include accrued interest along with each line item (in the balance sheet it appears as a separate amount).

(ii) Intermediate workings

The next 3 columns are designed to show the necessary intermediate steps before the amount of prudential liquidity can be derived in column 5. They implement the deductions and adjustments referred to in Chapter 5 of Volume 1 of the Interim Prudential Source Book ("IPSB") for Building Societies.

Ineligible amounts (which only applies to the final rows) means the amount, if applicable, that represents liquid assets in the balance sheet which does not qualify as prudential liquidity (taking into account transitional provisions referred to in the P/G). When this is subtracted from column 1, giving the amount qualifying for prudential liquidity purposes, the result is shown in column 5.

Market value only applies to gilts, and means the market value at the month end, but before any discounting is applied.

Discounted value means the result of applying the following discount factors to the market values in the previous column according to **residual** maturity.

BUILDING SOCIETY: MONTHLY STATEMENT**SECTION E: LIQUID ASSETS (continued)**

residual maturity	discount factor	multiplier
less than 1 year:	zero	1
1 to 5 years:	5%	0.95
over 5 years:	10%	0.90

The discounted value is the market value times the "multiplier" shown above.

(iii) Amount of prudential liquidity

For gilts, this is the total of discounted market values shown in the previous column.

For other line items, it is the value in column 1 less ineligible amounts shown in column 2.

E1.1 Realisable within "Up to 8 days"

Only include within this line item the following:

- (i) cash; current account balances; Treasury, Local Authority and eligible bank bills;
- (ii) deposits with local authorities, banks and building societies with not more than 8 days notice or within 8 days of maturity;
- (iii) all gilt-edged securities; CDs (banks and building societies) with 3 months or less to maturity; and commercial paper with a residual maturity up to 1 month.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION E: LIQUID ASSETS (continued)

E2. AMOUNTS OF PRUDENTIAL LIQUIDITY AT ANY TIME DURING THE MONTH

This shows the minimum balance of total prudential liquidity (including accrued interest) held at any time during the month, and also the maximum total of building society holdings counting as prudential liquidity. "Any time" means based on end day positions. The percentage of total SDL should be based on estimated SDL on the relevant day, and where SDL is defined as:

- a. share liabilities including accrued interest (B1.4)
- b. deposits and debt securities including accrued interest (B2.20)

E3. BUILDING SOCIETY HOLDINGS

This shows a society's liquid asset holdings with all other societies in total. **The amount reported here should also include any undrawn committed facilities provided to societies. [NB: This disclosure is different to the basis used for reporting in line item E2.2 above which should reflect the maximum amount drawn].**

This covers securities and other money market instruments issued by, and deposits placed with any other building society.

"Securities and other money market instruments" refers to all holdings of building society paper and follows the terminology used in the P/G on Liquidity.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION F: LOAN AND INVESTMENTS

F1-4 LENDING: Categories

For each category of loan assets, details are requested under various transaction columns that explain the transition from last month's balances to this month's balances.

F1-2 LOANS FSRP AND LOANS FSOL

Both categories of lending are split between individuals, housing associations, and other. "Individuals" comprise individuals, households and private trusts. "Other" includes loans to companies, unincorporated businesses, and non-profit-making bodies (except housing associations, which are included under "housing associations"), provided they are fully secured on residential property or on other land respectively.

F3 OTHER LOANS TO CUSTOMERS: INDIVIDUALS are split between bridging loans, personal loans, credit cards, overdrafts and other.

F4 OTHER LOANS TO CUSTOMERS: OTHER comprises loans not shown above and includes loan to businesses not FSRP or FSOL.

F5 INVESTMENTS is split between shares in, and certain loans to connected undertakings, (See G/N on item B7.4(ii)) and any other holdings of equities.

F1-5 LENDING: Transactions (columns)

Advances in month

should include:

- (a) instalments released in the month for instalment advances.
- (b) re-advances, ie where previous charge cancelled.
- (c) further advances.
- (d) mortgages transferred from one borrower to another [there should be a corresponding entry under "Repayment of principal" and "Repayment of interest" as appropriate]

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION F: LOANS AND INVESTMENTS (continued)

- (e) the deduction from advances made of advance cheques cancelled.

but should exclude:

- (f) amount of any loan books acquired in the month [now reported in "other debits/credits etc"]
- (g) retentions imposed, which should be included as they are released.
- (h) sundry debits, ie any items not approved and not included in commitments eg insurance debits, fines, insurance guarantees (unless part of loan), valuation fees etc.

Interest earned in month

Is that amount of interest due to the society for the current month as determined by

- (a) applying the rate(s) of interest prevailing (i.e. charged) during the month to mortgage balances at the end of the previous month (subject to any adjustments in respect of redemptions and new loans in the month) and multiplying by the appropriate fraction to convert the per annum rate(s) of interest to daily rate(s) and then multiplying by the number of days for which the rate(s) applied in the month, or
- (b) such other methods as are normally used by the society, for example the "Rule of 78" or "sum of the digits" method sometimes used for unsecured personal loans.

Repayment of Principal

should include:

- (a) repayment of principal including capital repayments, redemptions and the principal element of the normal monthly payment.
- (b) mortgage receipts temporarily posted to investment accounts.
- (c) transfers from investment accounts to mortgage accounts.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION F: LOANS AND INVESTMENTS (continued)

but should exclude

- d) amount of any loan book sold during the month [now reported in "other debits/credits etc"]
- (e) sundry credits to accounts, such as insurance premiums, fines, fees, etc.
- (f) advance cheques cancelled.
- (g) investment receipts temporarily posted to mortgage accounts.

Repayment of Interest

It is recognised that societies may need to estimate the amount of interest repaid where amounts repaid include both interest and principal, and/or where the amount of interest repayable is not the same as the amount charged (eg annual review or deferred interest schemes, or where a loan is not being fully serviced).

Amounts written off

Is the amount written off mortgage balances in the month (and off provisions charged to the income and expenditure account) and is to be on a basis consistent with amounts shown in the society's published accounts as "written off" within the analysis of changes in loss provision usually appearing as Notes to the Accounts.

The amount written off may arise for example from:

- sale of a property in possession; or
- a decision to write down the mortgage debt on a loan still on the books. This may arise where the society has taken the view that it is certain that a loss will arise and that it is prudent to write down the mortgage debt rather than carry the full debt and an offsetting provision. Examples might include certain fraud cases, or where arrangements have been reached with the borrower to reduce the mortgage debt repayable.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION F: LOANS AND INVESTMENTS (continued)

Other debits/(credits) and transfers (net) includes:

- a. Such items as insurance premium receipts, valuation fees, and fines etc.;
- b. Mortgage balances acquired following a transfer of engagements;
- c. Loan books acquired from other lenders in the month;
- d. Loan books sold to other lenders in the month;
- e. Loan books securitised during the month;
- f. Transfers (net) should include loans which are reclassified under section 6B(7) of the 1986 Act (for example, where there has been a change in the use of the land on which the loan is secured to/from residential).

Societies are asked to take care in reporting transactions given the potential for distortion arising from the netting effect of compensating transactions (eg a loan book acquisition and a securitisation of similar values taking place in the same month).

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION F: LOANS AND INVESTMENTS (continued)

F6 LOANS: ANALYSIS OF REPAYMENT OF PRINCIPAL

It is recognised that where amounts repaid cover both principal and interest, that societies' analysis of repayment of principal may involve some degree of estimation.

"On redemption" includes amounts repaid on either premature or final redemptions. It should include payments made where the mortgage is essentially redeemed but where a nominal residual balance is retained on the account in order for the society to maintain safe keeping of the deeds (eg Deedcare schemes).

"Other repayment" includes all other irregular or lump sum payments, that is amounts in excess of regular repayment such as those on conventional mortgages (where regular or occasional overpayment may be made) and also those on flexible mortgages (when the repayment is in excess of the monthly amount due under normal commercial terms).

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION F: LOANS AND INVESTMENTS (continued)

F7 LOAN COMMITMENTS (columns)

Commitments made since end of previous month

should include:

- (a) the aggregate of agreed advances (whether or not the mortgage offer has been accepted by the prospective borrower), including amounts recommended for retention, all instalment elements, and further advances.

but should exclude:

- (b) commitments from previous months that have been cancelled in the current month.
- (c) retentions imposed and subsequently not released.
- (d) instalment commitments that have not been taken up.
- (e) advance cancellations that are not re-issued.
- (f) sundry debits, eg insurance guarantee premiums (unless additional to the loan), insurance of contents etc.

Cancellations in month

Includes (b), (c), (d) and (e) above.

F8 NUMBERS OF MORTGAGES OUTSTANDING

Gives the number of mortgages included in the balance sheet amounts for FSRP and FSOL loan assets. (Where multiple accounts exists on a single security these should be amalgamated).

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION F: LOANS AND INVESTMENTS (continued)

F9 LOAN BOOK ACQUISITIONS/SALES AND LOANS SECURITISED

The "**transactions in the month**" columns are analyses of amounts already included within the "other debits/(credits) and transfers (net)" column of table F(1).

(NB for books acquired and books sold, this represents a change in treatment from the previous MFS1 reporting which required them to be shown in gross advances and repayments of principal respectively):

- (i) "**books acquired**" represents balances on any relevant loan books acquired during the month from other lenders.
- (ii) "**Books sold**" represents balances on any relevant loan book (ie parcel of loans) sold during the month to another lender.
- (iii) "**loans securitised**" represents balances on any loans that the society (or subsidiary undertaking in the case of MFS2 reporting) has "securitised" in the month, where "securitised" has the same meaning as described in the Prudential Guidance on Securitisation [Chapter 10 of Volume 1 of the Interim Prudential Source Book ("IPSB") for Building Societies]. It includes balances on loans subject to securitisation transactions qualifying either for "linked presentation" or "derecognition" methods of accounting.

The final column "**balance at end month on loan assets subject to non-recourse funding**" represents all such loan assets (and not just the amount treated as transactions in the month), and requires the "gross amount" of such loan assets to be reported against relevant line item categories. The "gross amount" is the amount of any such loan that, under the "linked presentation" method of accounting, would be shown in a society's published or other balance sheet (but not Financial Services Authority returns) as X in the example below:

gross loan asset	=	X
less non-recourse funding	=	Y
net loan asset	=	X-Y

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION F: LOANS AND INVESTMENTS (continued)

In the Financial Services Authority's returns, it is only the net loan asset that is normally reported (eg in tables A, B, and in F(1)), but in the analysis here at F9, it is instead the gross loan asset at the end of the reporting month. Once securitised, it is recognised that end month gross balances will not necessarily remain constant (due either to borrower repayments, the possibility of any further advances, or other arrangement for "topping up" a pool of securitised loans etc).

- F9.1** **Loans fully secured on residential property** is split between loans to individuals; housing associations and other and is a sub-analysis corresponding to line items F1.1 to F1.3 respectively in table F(1).
- F9.2** **Other loans fully secured on land** is a sub-analysis the total of loans to individuals, housing associations and other loan and corresponds to line item F2.4 in table F(1).
- F9.3** **Other loans to customers** is split between individuals and others and is a sub-analysis corresponding to line items F3.6 and F4.3 respectively in table F(1).

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION G: INTEREST RATES (Gross rates)

Basis

Interest rates in this table are **nominal rates**, and should ignore the effect of any interest rate swaps or other hedging contracts that might exist.

This provides an analysis of basic and weighted average interest rates for shares, deposits and debt securities, capital instruments, liquidity and loan assets. "Interest rates at end of month" (columns 4, 5, 6 and 7 of table G) means rates applying at least throughout the last day of the month, so societies should not use rates which only come into operation at the beginning of the next month. Points to note on specific columns are:

(1) **Balances at end month**

Include accrued interest (even though it is excluded when computing the weighted average rate)

The "of which" analysis is designed to obtain information on balances subject to fixed rates of interest and balances subject to variable rates of interest. (The two amounts should add to the balance in column 1). For these purposes:

"fixed" means the rate of interest is fixed for a stated period. For shares or deposits and debt securities also include any products with a "floored rate" (ie subject to a guaranteed minimum rate). For loans also include any products with a "capped rate" (ie subject to a guaranteed maximum rate) and any products that are "collared loans" (ie subject to a minimum and a maximum rate)

"variable" includes all other interest rate bases (ie other than those defined above as "fixed") applying to particular products, including those at one of the society's administered funding or lending rates; those linked to Libor, (or other market rate); those linked to an index (eg FTSE) etc. However if any such funding products are subject to a "floored rate" or any such loan products are subject to a "capped rate", then treat as "fixed".

(2) **Basic rate**

For loans fully secured on residential property to individuals, it is the society's basic rate applying to the majority (by value) of existing accounts in this category.

BUILDING SOCIETY: MONTHLY STATEMENT

SECTION G: INTEREST RATES (Gross rates)

(3) **Weighted average rates**

(a) Interest rates reported in Table G provide a broad indication of **market rates** as well as being a simple and necessarily crude measure of nominal interest rate margins. **They should ignore the effect of any interest rate swap or hedging.** For each line item the weighted average rate should be derived as follows:

- (i) identify the various nominal/quoted interest rates (including any bonus element that the society is liable to pay) that apply to elements of this line item; then
- (ii) for each separate nominal/quoted rate, multiply that rate by the amount of end month balances (excluding accrued interest) for which that rate applies; and
- (iii) add up the results of (ii) for all the different rates for this line item; and
- (iv) divide the total calculated in (iii) by the end month balance in column 1 less accrued interest (against the line item concerned).

NB: In the "of which" analysis that requires separate reporting of weighted "fixed" and "variable" rates, a cross check for each row is that the weighted average nominal rate on all balances is equal to the weighted average of the reported fixed and variable rates in the subsequent two columns. Details of "fixed" and "variable" are given in 1) above.

BUILDING SOCIETY: MONTHLY STATEMENT**SECTION G: INTEREST RATES (gross rates) (continued)****(b) Table C: For section C2 only**

CAR or compounded annual rate basis for shares only, as set out in Section C2 of the return.

The formula for the CAR is:

$$\text{CAR} = 100 \times \left\{ \frac{[(1 + \text{nominal rate}]^N - 1}{100 \times N} \right\}$$

where N is the number of compounding periods per annum (ie 2 if half yearly, 12 if monthly).

G1 SHARES

The rates shown in table G are all based on gross nominal rates including any bonus element which the society may be liable to pay and not the CAR (compounded annual rate) which is only required for section C2 of table C.

G2 DEPOSITS AND DEBT SECURITIES

Covers all deposits accepted by the society and debt securities issued (except qualifying subordinated debt which is covered under capital instruments).

G3 CAPITAL INSTRUMENTS

Refers to forms of capital that incur a liability to pay interest (eg PIBS and subordinated debt), and therefore excludes general reserves and revaluation reserves.

G4 LIQUIDITY

The nominal or flat yield should be used for interest rates on liquid assets.

G5 LOAN ASSETS

The interest rate to be used is the rate charged to the loan account, and in certain circumstances will differ from the interest rate "payable" by a borrower. These circumstances include deferred interest loans, interest roll up loans, and annual review schemes.

Advances in month refers to the same amount as covered under "advances in month" in the Loans and Investments table in Section F

APPENDICES TO NOTES ON FORM MFS1.

Classification of residence and institutional sectors

These appendices supplement the guidance notes to the MFS1 return [as well as the MFS1 Supplement and the QFS2 returns] by providing the detailed information needed to sectorise items on these returns.

All queries on **building societies, building society subsidiary undertakings and other connected undertakings of building societies** should be addressed to the Financial Risk Analysis and Monitoring Group, Financial Services Authority (telephone 020-7676-0630/0690).

Queries on these appendices, or suggestions for their clarification or improvement, should be addressed to the Monetary Statistics Division of the Bank of England (telephone 020-7601-3742); Threadneedle Street, London EC2R 8AH.

BUILDING SOCIETY : MONTHLY SUPPLEMENTARY STATEMENT

MFS1 SUPPLEMENT

GUIDANCE NOTES

Sections

Introduction:	General notes on return
Sections B8-10:	Sectoral Analysis: Balance Sheet - Liabilities/Assets
Section B11:	Balance Sheet: Repo & Stocklending Analysis
Appendix A:	Sector mapping document

Submission of returns

This statement must be submitted by close on the 7th business day after the month end. It should only be completed by those societies required to complete the MFS1 return to the faster timetable.

BUILDING SOCIETY : MONTHLY SUPPLEMENTARY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

1. Introduction

Following enactment of EU legislation, the UK, in concert with all other EU member states, have adopted the new scheme of sector classification as defined in the European System of National and Regional Accounts (abbreviated to "ESA 95"). The analyses set out in Forms B8-10 arise from these requirements.

2. Sector classification

The MFS1 guidance notes [Introduction 5 and 7] provide general information about the main institutional sectors. The supplementary return Forms B8-10 seeks a more detailed analysis of one of these sectors, namely, the "Other UK sector" (UK non-bank non-building society private sector). To enhance understanding of these analyses and to ensure consistency with corresponding data items in the QFS2 statement a 'sector mapping document' is attached as Appendix A.

Societies should refer to Appendix II to the main MFS1 Guidance Notes which gives fuller details of the sectoral classifications.

3. Accuracy

As the main purpose of the figures is to provide broadly accurate aggregates for the total of all societies, estimates of less precision than the data entered on the MFS1 return will be acceptable in compiling the component sectoral details required on the MFS1 Supplementary return.

However, societies are asked to advise the Financial Services Authority (the Financial Risk Analysis and Monitoring Unit) of any subsequently discovered errors resulting in changes of over £25 million.

BUILDING SOCIETY : MONTHLY SUPPLEMENTARY STATEMENT

SECTIONS B8-B10 : SECTORAL ANALYSIS: BALANCE SHEET - LIABILITIES/ASSETS

B25.1-B27.5 SECTOR INSTITUTIONS

The UK Sector is analysed here under five components as follows:

a. MFI's other than banks and building societies

this category comprises money market mutual funds only.

b. Financial corporations other than MFI's

this category comprises insurance companies, pension funds, financial auxiliaries and other institutions. Societies' subsidiary undertakings which fall within the 'other UK sector (eg a subsidiary undertaking doing lending within the UK) should be included here being part of the "other institutions" category.

c. Non-financial corporations

this effectively refers to industrial and commercial companies, that is, mainly ordinary plc's.

d. Households and Individual trusts

this category includes individuals and individual trusts as well as unincorporated businesses other than **unlimited liability partnerships**. It should be noted that unlimited liability partnerships are now part of the corporate sector (financial or non-financial).

e. Non-profit institutions serving households includes organisations such as the AA; non-profit making schools etc.

BUILDING SOCIETY : MONTHLY SUPPLEMENTARY STATEMENT

B28-30 REPO & STOCKLENDING ANALYSIS

Guidance on the completion of the Repo & Stocklending analysis (Form B.11) is provided in section B/6 of the MFS1 guidance notes.

QFS1: INTRODUCTION/1

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

1. Introduction

This section covers a number of points that have relevance across the return generally:

- 2) Building Societies Act 1986
- 3) Accounting conventions
- 4) Accuracy
- 5) Society, connected undertakings and group figures
- 6) Time horizons
- 7) Outturn information
- 8) Specific items:
 - (i) positions to be reported gross
 - (ii) accrued interest
 - (iii) foreign currencies
 - (iv) use of brackets (..) around figures
- 9) Building society mergers
- 10) Overseas subsidiary undertakings
- 11) Subsidiary undertakings: year ends

2. Building Societies Act 1986

Any reference to "the 1986 Act" is a reference to this legislation (as subsequently amended).

3. Accounting conventions

Unless advice is given to the contrary in these Guidance Notes, the return should be compiled using standard accounting practice and in accordance with accounts regulations made under the 1986 Act.

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

3. Accounting conventions (continued)

The return has been designed with the aim of harmonising line items wherever possible with those required under accounting regulations, and as used in societies' published and internal accounts. In many instances line items reflect the basis adopted in the 1998 accounting regulations.

4. Accuracy

It is expected that entries on the return will be actual values or in some cases close approximations established or drawn from the society's systems and prepared on the basis of being the best information in the time available for their compilation.

5. Society, Connected Undertakings and Group figures

Societies may hold investments in different types of undertakings.

The 1986 Act defines certain undertakings in which a society may have an interest as "connected undertakings", that is "subsidiary undertakings" and "associated undertakings". In addition to these however a society may also have "other participating interests" or hold "other equity shares" (that is non participating interests). These terms are amplified below:

Subsidiary undertakings: As defined in Companies Act 1985, section 258, which essentially means undertakings over which the society exercises control or dominant influence.

Participating interests: An interest held by a society in the shares of another undertaking which it holds on a long term basis for the purpose of securing a contribution to its activities by the exercise of control or influence arising from or related to that interest. A holding of 20 per cent or more of the shares of an undertaking is presumed to be a participating interest unless the contrary has been agreed with the Financial Services Authority. (Full definition is that given in Companies Act 1985, section 260).

QFS1: INTRODUCTION/3

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

5. Society, Connected Undertakings and Group figures (continued)

For the purposes of group figures the category "**participating interests**" subdivides into:

Associated undertakings: A participating interest in which the society exercises a significant influence over the operating and financial policy. (Full definition given in Companies Act 1985, schedule 4A paragraph 20).

Other participating interests: A participating interest that does not fall to be included within the definition of an associated undertaking.

Other equity shares: These essentially refer to non-participating interests in other undertakings. They include any other investments which do not fall to be included within any definition above, such as trade investments (e.g. BACS, APACS etc) or other forms of equity holdings (e.g. XYZ plc).

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

5. Society, Connected Undertakings and Group figures (continued)

The accounting treatment of these investments is best summarised. Reference to the table below should help societies to determine an acceptable and reasonable approach:

BALANCE SHEET		Society	Group
(a)	Subsidiary undertakings	Investment at cost less any permanent diminution in value	Full consolidation line by line.
(b)	Participating interests in:		
(b).1	Associated undertakings	Investment at cost less any permanent diminution in value.	Cost of investment and share of post acquisition retained reserves.
(b).2	Other participating interests	Investment at cost less any permanent diminution in value.	Investment at cost less any permanent diminution in value.
(c)	Other equity investments	Investment at cost less any permanent diminution in value.	Investment at cost less any permanent diminution in value.

Note: only one of (b)1 or (b)2 applies for each column.

INCOME AND EXPENDITURE ACCOUNT		Society	Group
(a)	Subsidiary undertakings	Dividend receivable	Full consolidation line by line.
(b)	Participating interests in:		
(b)1	Associated undertakings	Dividend receivable	Share of profits or losses.
(b)2	Other participating interests	Dividend receivable	Dividend receivable.
(c)	Other equity investments	Dividend receivable	Dividend receivable.

Note: only one of (b)1 or (b)2 applies for each column.

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

5(i) Society, subsidiary undertakings and Group (consolidated)

The quarterly return is designed to collect information in respect of the society itself, of the society's subsidiary undertakings and for the group (on a consolidated basis).

5(ii) Subsidiary undertakings

Columns headed "subsidiary undertakings" means the total in respect of all such bodies which are required to be fully consolidated in group accounts (e.g. published accounts)

5(iii) Group (consolidated)

Columns headed "Group (consolidated)" should be compiled on a basis equivalent to that used in preparing published Group figures. The figures under "Group" will not necessarily be the total of those under "society" and "subsidiary undertaking" because of consolidation adjustments.

6. Time horizons

The return seeks information in respect of 3 different time horizons as follows:

6(i) Latest quarter (LQE/YTD)

Where stock figures are required (e.g. balance sheet, capital position etc) the information is as at the "latest quarter end", abbreviated to **LQE**.

Where flow figures are required these are either for **3 months only** (i.e. the latest quarter) as in for example lending figures in table G and H, or **cumulative in the "year to date"**, abbreviated to **YTD** (e.g. income and expenditure table B etc), covering the period from the start of the society's financial year to the end of the reporting quarter.

For the society's financial year the four quarters are numbered Q1, Q2, Q3 and Q4. These will only coincide with calendar year quarters if the society's financial year end is 31 December, which means that Q4 is always for the end of the society's financial year.

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

6(ii) Current financial year (CFYE/CFY)

When the return is being completed at end Q1, Q2 or Q3, then current financial year is that same year. However at Q4, the "current financial year" refers to the year covering the 12 months immediately following Q4.

Where stock information is required at the current financial year end this is abbreviated to **CFYE**.

Where flow figures are required, covering the whole current financial year, this is abbreviated to **CFY**.

6(iii) Next Financial Year (NFYE/NFY)

This is always the 12 month period immediately following "current financial year" (defined above).

Abbreviations used in column headings for "next financial year" are NYFE (stocks), and NFY (flows).

7 Outturn information (Actual/Expected/Likely)

Information required in respect of the three different time horizons (described in 6) above) has the following meanings associated with "outturn":

7(i) Actual means as derived from the society's information system(s) within the time period allowed for its compilation and timely submission to the Financial Services Authority. It does not mean audited (Interim profits in table D is the one exception). In many cases the information will be substantially the same but there may be certain items that are not so readily available in which case close approximations should be provided, being prepared on the basis of being the best information in the time available for their compilation.

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

7(ii) **Expected** means the outturn figures that the society considers are the best estimate (at the time of their compilation) of how the full year will turn out. **It is anticipated that a society will be updating its view each quarter of how it sees the full year position**, and that whereas the basis of that estimate the first time it is compiled for CFY/CFYE (i.e. Q4) may well be a current "budget" figure, subsequent quarterly updates of the full year position will be revised estimates based on business experience in the year to date and an updated assessment of business expected to be undertaken in the remainder of the current year.

7(iii) **Likely** means the aim here is to get a reasonable assessment of the outturn for the next financial year (NFY). This assessment will first of all be given in the return at Q4, at which time the end of the NFY is 8 quarters away. At this stage a "reasonable assessment" of outturn may well be planning figures in the society's corporate plan or more recently decided budget figures. The source of figures for later **quarterly assessments of NFY** will depend on the society's arrangements for revising budgets, preparing projections/forecasts etc for future time periods, but the aim is to make use of the most recently compiled set of figures which provides a reasonable assessment of the likely outturn for NFY. The term "likely" is used since it will be a less firm basis than "expected" (for CFY) because of the longer time horizon involved.

8 **Specific items**

8(i) **Positions to be reported gross**

In general, liabilities and assets should be shown gross, and not netted off. Thus an account which moves from credit to debit will move from one side of the balance sheet to the other.

A notable exception to this however concerns the reporting of loan assets which are subject to "linked presentation" under FRS5. Such assets should be shown in the balance sheet net of linked funding and also on this basis in other tables where balances are reported on the same basis (e.g. F, G, H, I as relevant).

QFS1: INTRODUCTION/8

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

8(ii) **Accrued interest**

Accrued interest is identified explicitly in the monthly return MFS1, in the balance sheet under specific sub-heads. Analysis elsewhere on that return may require either the inclusion or exclusion of accrued interest, but this is indicated on the face of that return as appropriate. Where an item in the MFS1 (excluding accrued interest) is also analysed in QFS1 the same approach is used, for example in table M.

8(iii) **Foreign currencies**

Amounts in foreign currencies should be translated into their equivalent sterling value at the closing middle market spot rate on the reporting date, or where appropriate, at the rates of exchange fixed under the terms of any relevant currency hedging transaction, and that value used in the return. Thus all entries in the form represent sterling amounts. Societies should apply the same accounting treatment as for the published accounts having regard to SSAP 20.

8(iv) **Use of brackets (..) around figures**

All amounts should be shown without brackets, that is shown as a positive amount, unless:

- a) the amount is of the opposite sign to that expected
- b) the entry could either be positive or negative: in which case the sub-heading should indicate which of the alternatives e.g. "profit/(loss)" is to be shown in brackets.

In any table where an item is routinely to be deducted (e.g. provisions in balance sheet and income and expenditure) the amount should **not** be shown in brackets.

The **exception** would be if the value was of the opposite sign (i.e. negative) and required to be added not deducted, in which case brackets would be necessary. "Deducting" items are summarised in Section Y of these Notes.

QFS1: INTRODUCTION/9

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

9 **Building society mergers**

When a merger of societies takes place, the quarterly return should be completed as follows:

transferring society: should always complete a "closing" return up to the date of the merger, with flow/transaction figures for the "latest quarter" covering the relevant period to the date of transfer, and balances as at the date of transfer;

accepting society: in completing its first quarterly return after the merger should include flow/transaction figures of the transferring society only from the date of merger. This return will of course show the balance sheet amounts in respect of the combined society.

10 **Overseas subsidiary undertakings**

Should be treated as they would for the purposes of the society's published accounts (e.g. attributing such overseas assets and liabilities to the relevant balance sheet items used in the Accounts Regs.)

11 **Subsidiary undertakings: non-coterminous financial year ends**

The basis of figures included in the return for subsidiary undertakings with the same financial year end as that for the society should be for the same 3 month periods as for those of the society.

However where a subsidiary undertaking's financial year end is non-coterminous with that of the society, the basis of the subsidiary's figures should be as follows:

- a) data should relate to the same 3 months period as that applicable for the society; or
- b) where a) would not match a quarter financial year of the subsidiary (e.g. where society's financial year end is say 31 January but subsidiary's is 31 December) and to extract data to match the society's 3 month period would be difficult, then data for the subsidiary may be based on its own quarterly period ending within - but not prior to - the society's 3 month period. This would result in the subsidiaries figures "lagging" by no more than 2 months in relation to those of the society.

QFS1: INTRODUCTION/10

BUILDING SOCIETY: QUARTERLY STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

Whereas the Accounts Regulations permit a lag of up to 3 months in annual data, the more frequently collected quarterly data needs to be more time-relevant and, where possible, societies should provide information on subsidiaries for the society's actual quarter rather than lagged by up to 2 months.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION A: BALANCE SHEET

1. This is a summarised analysis of those balance sheet items given in the Monthly Statement (MFS1) with information being separately required for society, subsidiary undertakings and group (consolidated).
2. For definitions/notes on balance sheet items please refer to Notes for Guidance on MFS1.
3. Figures for "Society" and "Group (consolidated)" at LQE should be prepared on a basis consistent with that used for corresponding entries in the society's MFS1 return (Table A) for the month coincident with the quarter end. Because of the later preparation of the QFS1 it is possible that some societies will have firmer, more up to date figures, than those used in the MFS1. Accordingly the QFS1 should be compiled using these more accurate figures where these are available.

Statutory Percentages (Nature Limits)

The purpose of lines items A14 and A15 is to report the actual value at the quarter end (and the expected value for the current financial year end) of the statutorily defined percentages related to the funding and lending nature limits.

A14 **Value of funding percentage:** as defined in section 7(1), (2) and (3) of the 1986 Act this will give the percentage of total funding (i.e. all shares plus deposits & debt securities) accounted for by those elements of funding which are restricted (i.e. all funding apart from shares held by individuals). In the terminology of the 1986 Act the amount to be calculated is

$$\frac{X - Y}{X} * 100$$

where: Y is Shares held by individuals, and X is all shares plus all deposits & debts securities. As in the 1986 Act, Y should be the value on that day or on the immediately preceding quarter day, whichever is the greater. Both X and Y should be inclusive of accrued interest.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION A: BALANCE SHEET

A15 **Value of lending percentage:** as defined in section 6(1), (2) and (3) of the 1986 Act, this will give the percentage of "business assets" (see X below) accounted for by those "business assets" other than loans fully secured on residential property. In the terminology of the 1986 Act the amount to be calculated is

$$\frac{X - Y}{X} * 100$$

where: Y is loans fully secured on residential property, and X is defined as (total assets **less** fixed assets, liquid assets and long term insurance funds, **adding** back provisions for bad and doubtful debts). Both X and Y are inclusive of accrued interest.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION B: INCOME AND EXPENDITURE ACCOUNT

Items should be compiled on the same basis as specified in the Accounts Regulations [1998]. See also Guidance Notes on AFS1 (Table B).

B6.2 Administrative Expenses: Other (inc. appointed agents)

"**Appointed agents**" refers to those properly appointed by the society to act as its agent mainly for the purpose of obtaining retail funding or making loans.

The amount is the cost to the society of commissions (e.g. on shares or deposits from individuals) and any other payments made by the society to its appointed agents.

This amount is included within the **other expenses** sub-head of **Administrative Expenses** in published accounts under the Account Regulations and is shown similarly on the return.

B9 Fixed asset write offs

Includes amounts written off fixed asset investments (i.e. transferable securities held as financial fixed assets, participating interests and shares in subsidiary undertakings).

B10 Other (please specify in a note)

Includes exceptional items (unless already included within any other earlier item).

B15 Extraordinary profit/(loss) after tax

This is to be shown after deducting any relevant amount of extraordinary profit/(loss) attributable to minority interests.

B17-19 Reconciliation of net Profit/(Loss) with changes in reserves

The purpose of these items is to show the analysis of changes in reserves during the relevant period, and the reconciliation is

B19 must equal (B16 + B17 + B18)

"Reserves" has the same meaning as in the Accounts Regs and hence excludes revaluation reserves.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION B: INCOME AND EXPENDITURE ACCOUNT

B18 Adjustments to reserves in period

Refers to non income and expenditure account effects on reserves, that is for example on mergers etc.

In the case of columns for subsidiary undertakings, also use B18 to include dividends payable.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION C: INCOME AND EXPENDITURE ACCOUNT - Further Analysis

C1 Other income and charges

Line items C1.1 d) and C1.2 to C1.6 correspond with the same headings in the Accounts Regulations.

C1.1 Fees and Commission receivable

Is further analysed into "Life insurance & pensions", "general insurance" and "other".

C1.3 Net profit/(loss) on financial operations

The Accounts Regulations define this category as including:

- (i) net profit or loss on transactions in securities which are not held as financial fixed assets (see Note below), that is on such liquid assets held as a trading book, together with amounts written off or written back arising from valuation differences between book value and market value;
- (ii) net profit or loss on financial instruments (hedging instruments) except in so far as that income or charge is treatable as interest and included in interest receivable/payable (e.g. as may be the case for interest rate swaps).

Note: "**Financial fixed assets**" means securities held as fixed assets; participating interests and shareholdings in subsidiary undertakings should always be regarded as financial fixed assets.

"**Fixed assets**" means assets of a society which are intended for use on a continuing basis in the society's activities, and "**current assets**" means assets not intended for such use.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION C: INCOME AND EXPENDITURE ACCOUNT - Further Analysis

C2 Impact of loan book acquisition and loan incentives/discounts

This table analyses the impact on the Income & Expenditure account, and on the Balance Sheet, of the **gross** amounts (shown under "deductions from Own Funds") as follows:

- (i) **premia** (i.e. the difference between the total cost of the acquisition and the book amount, in the books of the vendor, of the assets acquired) and/or other acquisition and set up costs paid on the acquisition of mortgage or other loan assets;
- ii. amounts paid, by way of an up-front **incentive** to take out or retain a loan, which are being amortised over a number of accounting periods; and
- iii. amounts relating to the amortisation of **discounts** offered on loans (i.e. balances created as a result of spreading interest receivable on a loan across a number of accounting periods).

C2.1/2 A distinction is drawn between two situations: where expenditure on any of the above is deferred (analysed in C2.1) and where expenditure is not deferred (shown in C2.2).

C2.2 In the case of **loan incentives where expenditure is not deferred**, the amounts shown here should include the cost of cash backs and of meeting any costs which in normal circumstances would be paid by the borrower e.g. legal costs, valuation or other costs.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION D: CAPITAL AVAILABLE : Own Funds

Introduction

This section and section F are based predominantly on the Prudential Guidance on Solvency (referred to below as P/G) and to a limited extent on the Prudential Guidance on Issued Capital (referred to below as such) contained in Volume 1 of the Interim Prudential Source Book ("IPSB") for Building Societies which together implement those parts of the Banking Consolidation Directive (2000/12/EC) which replaced the former EC Directives on a Solvency Ratio for Credit Institutions and on the Own Funds of Credit Institutions. These guidance notes should be read in conjunction with the Prudential Guidance.

However there are two specific concepts in the P/G that call for further advice. These are "**Solo consolidation**" (where a society's figures should in certain circumstances be aggregated with those for specific subsidiaries before reporting in "society" columns) and "**Exclusion from consolidation**" (where figures for certain undertakings such as a life insurance subsidiary should be excluded in the reporting of "Group" columns). A technical note on how they impact on tables D and F is included at section F/3.

D1-4 Capital available (own funds)

Sets out the individual components of capital permitted under the Banking Consolidation Directive (each of which should correspond by amount with the same headings in the balance sheet, except D2.1 - see below) and the separate deductions that should be made to arrive at qualifying capital. (See also relevant Annex of P/G).

TIER I CAPITAL

D1.1 Reserves at start of year

Reserves exclude revaluation reserves which are to be shown at D2.1

NB: In the case of a merger, reserves acquired on merger should be added in to opening reserves, and B17 should be similarly adjusted.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION D: CAPITAL AVAILABLE : Own Funds

D1.2 Interim profits (since start of year)

Interim profits refers to the cumulative amount covering either the financial year to end of latest quarter, or covering the whole of the current or next financial year.

In the case of interim profits covering the period from the start of the CFY to the end of the latest quarter (columns 1 and 4) such profits may only be shown if they have been verified by the society's external auditors. See also relevant Annex of P/G.

D1.3 Overall losses in period

This refers to any overall current year loss, which must be deducted. Only one of D1.2 or D1.3 will apply, but while there is an option to include interim profits (assumed positive) it is mandatory under the Banking Consolidation Directive to deduct interim losses (i.e. where the society or group is showing an overall loss).

D1.4 Intangible fixed assets

Should be deducted. It includes, for example, goodwill to the extent that it is already included in the balance sheet (and hence already included in reserves). See also fuller details for this item in the Accounts Regs.

D1.5/6 Subscribed capital - deferred shares

Covers deferred shares permitted as additional capital resources (at present, **Permanent Interest Bearing Shares - PIBS**, and existing **deferred shares** issued prior to 1 June 1991).

D1.7 Minority interests (allowable)

The Banking Consolidation Directive provides for the inclusion, subject to certain conditions, of **minority** interests in the calculation of the **consolidated** own funds of a society and its subsidiaries. (See section on Minority Interests in P/G for those which can be treated as Tier I)

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION D: CAPITAL AVAILABLE : Own Funds

TIER II CAPITAL

D2.1 Revaluation reserves (net)

Means revaluation reserves net of any foreseeable tax charge. Revaluation reserves should be included on the basis set out in the P/G.

D2.2 General provisions for bad debt

General provisions should be included on the basis set out in the relevant Annex of the P/G.

D2.3 Undated subordinated debt

As referred to in Issued Capital P/G.

D2.4 Term subordinated debt

As referred to in Issued Capital P/G.

D2.5 Other tier II

Any tier II capital resource that may be permitted in the future and which does not fall to be included under any of the above sub heads.

Also include here under "**group**" columns only, the amount of any allowable minority interests that count as Tier II.

D2.7 Amounts in excess of Tier II limits

These amounts not qualifying as capital are calculated in respect of two limitations on the extent to which certain items can be taken into account:

- (i) The total of all Tier II capital resources taken into account must not exceed the total of Tier I constituents (i.e. reserves, interim profits, PIBS and other deferred shares), less intangible fixed assets; and

QFS1: SECTION D/4

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION D: CAPITAL AVAILABLE : Own Funds

- (ii) Term subordinated debt may not count to an amount in excess of 50% of the (total of Tier I constituents [i.e. reserves, interim profits, PIBS and other deferred shares], less intangible fixed assets).

D3 Deductions from Tier I and Tier II

D3.1 Deductions not shown elsewhere

Deduct all holdings of capital instruments of other credit or financial institutions, CFIs. (See Annex of P/G for fuller definitions). This means holdings of share capital in a society's connected undertakings. For society columns it is any such holdings in CFIs; for Group columns only include holdings in such bodies that are not consolidated in Group figures.

Also include deductions (described in P/G) in respect of the following: life and general insurance companies, mortgage indemnity insurance captives, securitisations, etc.

D3.2 Capital deficits in subsidiary undertakings

By **Capital deficit** is meant the excess (if any) of a subsidiary undertaking's liabilities over its assets, that is the net amount of capital (made up of retained profits and issues of capital) is negative. However, if the society has already excluded (that is made a provision for) the amount of any such capital deficit in a subsidiary undertaking (or undertakings) from the society's own reserves then it is not necessary to also include such an amount at line D3.2.

For these purposes capital deficits in subsidiary undertakings should represent the aggregate of all such capital deficits, but should not be offset by any capital surpluses in other subsidiary undertakings.

The amount of the capital deficit of any subsidiary undertaking with such a deficit should be deducted (for society only calculations); and

The proportion attributable to outside minority interests in the capital deficit of any subsidiary undertaking with such a deficit should be deducted (for consolidated calculations).

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION F: CAPITAL: Solvency Ratio

This sets out the components required for calculation of the solvency ratio in accordance with the EC Banking Consolidation Directive. Details of individual components are given in the Prudential Guidance on Solvency (referred to below as the P/G).

However there are two specific concepts in the P/G that call for further guidance. These are "**Solo consolidation**" (where a society's figures should in certain circumstances be aggregated with those for specific subsidiaries before reporting in "society" columns) and "**Exclusion from consolidation**" (where figures for certain undertakings such as a life insurance subsidiary should be excluded in the reporting of "Group" columns). A technical note on how they impact on tables D and F is included at section F/3.

On balance sheet items

Details of risk asset weights are given in an Annex of the P/G.

All loan asset balances in table F should be shown net of specific provisions (see below).

F2

Loan assets are sub-divided into three distinct categories:

- i. Loans fully secured on residential property (FSRP), with amounts shown separately for weights of 50% (e.g. to individuals on owner-occupied property, loans to individuals on buy to let mortgages, to housing associations), and 100% (e.g. loans to corporates)
- ii. Other loans fully secured on land (FSOL) with amounts again shown separately for weights of 50% (e.g. pre-existing loans to housing associations), 100% (e.g. to corporates and others where not on residential property)
- iii. Other loans to customers covering consumer credit to individuals and other loans (not secured on land) to businesses etc.

NB : Line items F2.2 and F2.3 of the QFS1 return (i.e. loans weighted at 60% and 75% respectively) should be left blank as they no longer apply.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION F: CAPITAL: Solvency Ratio

Off balance sheet items

The treatment of off balance sheet items is described in the P/G.

The treatment of **mortgage commitments** as falling within either F6.4 (medium risk) or F6.6 (low risk) depends on the conditions of mortgage offer letters. Offers (deemed to be commitments) are classified under the 50% medium risk category providing that the letters make no statement to the effect that the offer can be unconditionally withdrawn by the society without notice. Otherwise offers attract a low risk weighting of zero percent.

Columns Asset amount and Weighted amounts

Columns headed "**asset amount**" should show the nominal asset figures (including accrued interest). For "on balance sheet" items totals of relevant categories (e.g. liquid assets) should agree with amounts shown in the balance sheet table A (except in the case of loan assets, where balances should be shown after the deduction of specific provisions), unless of course "solo consolidation" or "exclusion from consolidation" applies to table F. For "off balance sheet" items the nominal asset amount is the amount of principal involved (which in the case of F6.3 to F6.6 is the amount prior to the application of any credit conversion factor).

Columns headed "**weighted amounts**" should show figures arrived at after completing the relevant stages described in, and shown in the examples in, the P/G.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION F: SOLO CONSOLIDATION & EXCLUSION FROM CONSOLIDATION

Solo Consolidation

Only tables D and F of QFS1 are affected by solo consolidation.

Table D The **society** columns (1 to 3) should be compiled as follows:

- (i) for each line item in turn, the amount entered in D1.1 to D4 on the return should be the sum of:
 - a. the "society only" figure for that line item, plus
 - b. a percentage of the individual subsidiary undertaking figure for that line item,
 - c. minus, the amount of any of the subsidiary undertaking's own funds included in (b) which represents an investment by the society (being the consolidation adjustment)
- (ii) the percentage in (i)(b) will either be 100%, or such lower amount that results after applying the deduction specified by the society's Supervisor when agreement is given for the subsidiary to be solo-consolidated.

Table F The **society** columns (1 to 4) should be compiled as follows:

- (i) for each line item in turn, the amount entered in F1.1 to F6.7 should be the net result of a), b) and c):
 - a. the "society only" figure for that line item, plus,
 - b. the full amount (i.e. without deduction) in respect of that subsidiary undertaking,
 - c. minus the amount of any of the society's or subsidiary undertaking's assets that represent investment in or loans to the other party.
- (ii) the solvency ratio then follows, using the solo-consolidated figures in tables D and F.

BUILDING SOCIETY: QUARTERLY STATEMENT**SECTION F: CAPITAL: Solvency Ratio****Exclusion from Consolidation**

Only tables D and F of QFS1 are affected by the exclusion from consolidation of a life or general insurance company (or other undertaking agreed with the Financial Services Authority).

Details of the adjustments for "**society**", and "**group**" columns are:

Society Columns

Table F (i) in **table F**, deduct from the "asset amount" column the carrying value of the society's investment (see note (a)) in the undertaking being excluded from the consolidation. This deduction will apply to other assets (F4.3). The "weighted amount" columns will need to be calculated after the deduction has been made from column 1 (and from equivalent "asset amount" figures used in the derivation of "weighted amounts" for CFYE and NFYE columns); and

Table D (ii) in **table D**, deduct from the society's own funds the same amount deducted from table F (as described above). This amount should be included in line D3.1 Deductions not shown elsewhere.

Note (a) In the case of an intermediate holding company, it is the holding company's investment in

Group (Consolidated) Columns

Table F (i) in **table F**, the starting point is notional group (consolidated) figures which include the undertaking to be excluded from the consolidation. The effects of "exclusion from consolidation" in respect of the particular undertaking concerned are then achieved by:

a. for each line item in turn (F1.1 to F6.7), deducting from the "asset amount" and "weighted amount" columns the relevant amounts attributable to the undertaking being excluded.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION F: CAPITAL: Solvency Ratio

Group (Consolidated) Columns (continued)

Table D (ii) in **table D**, the starting point is notional group (consolidated) figures which include the undertaking to be excluded from the consolidation. From these figures:

- a. for each line item in turn (D1.1 to D4) deduct the relevant amounts attributable to the undertaking being excluded, except where any such amount relates to an investment by the parent society (that is capital other than reserves, since this will already have been eliminated in compiling notional group consolidated figures),
- b. deduct from group reserves (at D1.1) the amount of any embedded value included in respect of a life company.

NB: the above treatment for **group columns** in tables D and F is **not** the same as compiling group (consolidated) figures for the society and all consolidatable undertakings other than the undertaking being excluded from the consolidation (which would give a different treatment in respect of the society's investment in, and loans to, the undertaking being excluded from the consolidation).

BUILDING SOCIETY: QUARTERLY STATEMENT**SECTION G: LOANS FSRP TO INDIVIDUALS****Introduction**

Loans and advances to customers are analysed as follows in tables G to K:

Lending category	Table in QFS1
Loans fully secured on residential property (FSRP):	
To individuals	G(1), G(2), I, J, K(1), K(2)
To housing associations	
To others	
Other loans fully secured on land (FSOL):	
To individuals	Loans in these 5 lines have been combined together as "Loans: other FSRP + other FSOL" in tables H, I, J, K(1), K(2)
To housing associations	
To others	
Other loans to customers:	
To individuals	J, K(1), K(2)
To others	

The focus on "Loans FSRP to individuals", as opposed to the wider category of "All loans FSRP" (which includes to housing associations and corporates etc) is deliberate. The nature of the market, the lending products and volumes involved, and the risk profile of "loans FSRP to individuals" are considered to be sufficiently distinct as to merit separate analysis. This category is the dominant element of total lending, in the same way that class 1 loans were dominant among commercial assets under classifications used prior to late 1998, and also happens to cover broadly the same range of loans as old class 1 (the category is marginally wider).

Gross advances in quarter

Covers actual advances made in the quarter. For these purposes separate advances (e.g. stage payments) on the same mortgage should count as a single advance for the "number" column.

NB: "gross advances" should be compiled on the same basis as for the MFS1/2, and accordingly exclude any mortgage book acquisitions in the quarter.

G1 **Type** [NB: "By Type" analysis no longer required –Paragraphs G.1.1 to G1.4 deleted]

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION G: LOANS FSRP TO INDIVIDUALS

G2 Purpose

This analysis is to identify the principal purpose of the loan, which should be available from the application form. A loan should therefore only be classified to one category of G2.1 - 2.6. A stage advance should be classified for the same purpose as the main advance.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION G: LOANS FSRP TO INDIVIDUALS

G2.1/2 House purchase

Loans where the borrower is purchasing a house (or flat etc). Include stage payments on such transactions here and not in "further advances". A distinction is drawn between loans for house purchase where the purpose is for owner occupation, or for buying with a view to letting ("buy to let").

G2.3 Further advance

A further loan (either as a normal further advance, or as a second charge loan where the society has the first charge) to an existing borrower of the society, secured on the same property.

(The underlying purpose of the further advance is not relevant and could include e.g. purchasing freehold interest in a currently owned leasehold property, buying a second property on the security of the first, or as a consumer loan fully secured on residential property.)

G2.4/5 Remortgage

Loans where the borrower is not moving house but is refinancing an existing loan, either one already with the society or one from another lender. The whole amount of the new advance should be classified as 'remortgage' even if it is larger than the existing loan.

G2.6 Other

Would include for example where a borrower is not moving house but takes a loan on the security of his previously unmortgaged property.

G3 By Income Multiple and LTV

The amount to be included in the table is the **gross advance**, but its allocation to a specific cell is determined according to income multiple and LTV which are both defined using the size of **the loan (as defined below)**.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION G: LOANS FSRP TO INDIVIDUALS

G3 By Income Multiple and LTV (continued)

Income multiple based on single or joint incomes

The loan should first of all be categorised to "single" or "joint" income basis, and the income multiple calculated as described below:

- (i) **single income basis.** This means only one person's income was taken into account when making the lending assessment/decision.

The income multiple here is the total loan amount divided by the borrower's total income (total of the borrower's main income and any other reckonable income e.g. overtime etc, to the extent that the society takes such additional income into account in whole or in part).

- (ii) **joint income basis.** This means that two persons' incomes were used in the lending assessment/decision.

The income multiple here is the total loan amount divided by the aggregate income of the two borrowers.

G3.4 In the following cases, irrespective of whether it is a single or joint application, the advance should be allocated to the highest single income multiple (i.e. line G3.4: income multiples of 3.5 or more):

- (i) where income is not known, or
- (ii) where the loan application fails the "status confirmed" test (see P/G on Solvency) **and** there is no documentary evidence of income.

For the purpose of income multiples, the multiple is of loan to income where loan is as defined below.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION G: LOANS FSRP TO INDIVIDUALS

G3 By Income Multiple and LTV (continued)

Loan to valuation ratio LTV

Should be based on the following:

- (i) **Loan** is defined for:
 - (a) **new borrowers** - as the amount of actual advance or, in the case of instalments/stage payments/retentions, is the amount of committed advance (including any committed drawing facilities)
 - (b) **existing borrowers** - as the total amount of debt outstanding including the further advance plus any committed drawing facilities at the time of the further advance;

and will include MIG, building and other insurance premiums and other sundry items if these are included in the amount advanced.

- (ii) **Valuation** is to be taken as the most recent valuation of the property which is subject to the mortgage. (The existence of additional collateral on any other property should be ignored when calculating LTV.) In the case of staged construction or self-build schemes, valuation means "expected final value of the property" at the time the society is committed to making the loan (i.e. takes the lending decision).

G4 Insured exposure above 75% LTV

Is an analysis of amount shown in G3.11 columns 2-4 and 6-8.

G4.1 Amount of advances representing the excess above 75% valuation

Advances refers to those included in the same column of line item G3.11.

The amount of the advance required is the total for each such loan of:

amount of advance - 75% valuation

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION G: LOANS FSRP TO INDIVIDUALS

G4.2 Amount of this excess covered by insurance

Is that part of the amount in G4.1 which is covered by insurance taken out by the society (i.e. mortgage indemnity cover) either with its own insurance captive or a third party insurer.

In respect of an individual loan, the amount shown under G4.2 will be less than or equal to (but not greater than) the amount of the excess above 75% valuation included under G4.1.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION H: LOANS: OTHER FSRP + OTHER FSOL

Introduction

This table covers all loans fully secured on land apart from those loans included in table G (i.e. loans FSRP to individuals). See also the introduction to table G.

H1 Type of Property

This analysis is to identify the type of property on which the advance is secured.

When classifying a loan, other than to a housing association, to one of the other **types of property** a practical and commonsense approach should be adopted where the characteristics of the property appear to give rise to a choice of property type. This will usually involve a situation where the property is being used for more than one purpose, for example multiple storeys given over to say a mix of business/living accommodation/or business/living accommodation/residential letting.

The loan should be classified according to the majority or main use and if it is not obvious then consider floor area or if this does not help (for example equal amounts given over to different uses) then allocate on main source of income from the property.

"Development" means the loan is for building new or refurbishing existing property whether for ultimate sale or rental.

"Investment" means the loan is on property which is to be let.

H1.1 "Housing association" covers those registered and unregistered.

H1.2-4 "Residential" excludes all loans to housing associations, and means where the property is, or will be used for, wholly or mainly residential purposes. It includes houses, flats and sheltered accommodation.

H1.5-7 "Commercial" includes industrial and covers all property not allocated to one of the above categories, including retail shop, office, professional business use (e.g. accountants/lawyers), or manufacturing or other industrial premises.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION H: LOANS: OTHER FSRP + OTHER FSOL

Balance outstanding at LQE (columns 3 and 6)

It is recognised that societies may need to use some degree of estimation in compiling the analysis of balance outstanding.

H2 By size and LTV

Each advance in the quarter should be classified by size and loan to valuation ratio (LTV) as follows:

(i) **Size** is to be taken as the total balance outstanding on the loan at the end of the quarter together with any unused drawing facilities and the total of any instalments/stage payments/retentions which the society is committed to making based on the most recent valuation. In this way successive stage payments/instalments arising out of the same lending commitment decision will be classified to the same cell in the table.

(ii) **Valuation** is the most recent valuation of the property/security used when assessing the amount of the society's commitment.

If a later stage payment is conditional on a revised valuation then the amount of the stage payment on that later return will probably be allocated to a cell with a higher size category and possibly, but not necessarily, to a higher LTV category since the total commitment will have increased, and possibly the valuation also.

(iii) the amount of advance included in a cell will be the actual amount advanced in the quarter, and when more than one advance on a loan takes place in the quarter they should be amalgamated.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION I: ALL LOANS FULLY SECURED ON LAND - Further Analysis

This table covers all loans FSRP and other loans FSOL, but with the analysis divided into two sub sections: I1 Loans FSRP to individuals only, and I2 Other FSRP loans and other FSOL.

Lending in quarter [columns 1-3, and 5-7]

The three types of information are as follows:

- (i) **gross advances** refers to advances on the same basis as reported in the relevant parts of table G(1) or H as applicable (although clearly totals will not agree).
- (ii) **"other advances"** refers to advances which have not been reported in gross advances but where, during the quarter, an existing loan has:
 - a. switched from being on a variable rate interest rate basis to either a fixed or capped rate basis [I1.1, 1.2 and I2.1, 2.2]
 - b. changed from being on one fixed or capped rate basis to a new fixed or capped rate [I1.1, 1.2 and I2.1, 2.2]
 - c. switched from being at the standard variable rate of interest to a discounted rate basis [I1.5 and I2.5]
 - d. changed from being on one discounted rate to a new discounted rate, irrespective of whether the new rate is lower or higher than the previous discounted rate [I1.5 and I2.5].
- (iii) **total "advances"** is the sum of (i) and (ii) above.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION I: ALL LOANS FULLY SECURED ON LAND - Further Analysis

Fixed and capped lending

11.1/2.1 **Fixed rate loans** refers to loans where the interest rate is fixed for a stated period. It also includes "collared" loans (where the loan is subject to a minimum **and** maximum rate). Exclude however annual review or stabilised payment loans (since the purpose is merely to smooth cash flow on variable rate loans).

11.2/2.2 **Capped rate loans** refers to loans, other than fixed rate, where there is an upper limit on the interest rate payable but where the rate may vary below that limit.

11.4/2.4 **Weighted average residual maturity to end of fixed/capped period** is described in steps (a) to (c) below, and

where: **residual maturity** on a loan is the period from the quarter end to the end of the fixed/capped period, expressed in years to a minimum of 2 decimal places (e.g. a residual fixed rate period of 2 years 7 months is 2.58 years etc).

(a) *for each fixed/capped loan (included in the box above this line on the return), multiply size of loan (£) by residual maturity (years).*

(b) *add up the result in (a) for all fixed/capped loans in the box concerned.*

(c) *divide the sum in (b) by the total of fixed/capped loans (£) in the box concerned.*

11.5/2.5 **Discounted variable rate loans**

Refers to variable rate loans where the rate is at a discount to the society's standard variable rate (the "basic rate" on loans FSRP to individuals defined in MFS1 table G). This also includes:

(i) loans to long-standing borrowers as part of a loyalty scheme which gives discounts off the society's standard variable rate.

(ii) loans as in (i) but where the discount is applied retrospectively. E.g. once a year eligible borrowers may receive a discount, of say ½%, in the form of an interest credit depending on a satisfactory payment record in the previous 12 months. Since not all eligible borrowers

BUILDING SOCIETY: QUARTERLY STATEMENT**SECTION I: ALL LOANS FULLY SECURED ON LAND - Further Analysis**

will necessarily qualify for this type of discount, the £ amounts reported should be calculated after applying the estimated percentage who are likely to qualify to the total £ amounts of eligible loans. If this percentage is not known, or cannot readily be estimated then assume 100%.

- (iii) any staff loans that are at a discount to the society's standard variable rate.

I1.6-8 & I2.6-8 The **three weighted average quantities**, which all make use of the residual maturity of the discounted loan, are described at (i) to (iii) below, and

where: **residual maturity** on a loan is the period from the quarter end to the end of the discount period, expressed in years to a minimum of 2 decimal places (e.g. a residual discount period of 3 years 5 months is 3.42 years).

The **discount period** on loans to long-standing borrowers as part of a loyalty scheme should be taken as the shorter of:

- a. 5 years from the quarter end (this is intended as a proxy for the expected residual maturity of such a loan, recognising that since few loans survive the full term (e.g. 10, 15, 20 or 25 years) it would be inappropriate to take the remaining period of the notional term as the length of the discount period); or
- b. the period from the quarter end to any such later date as to which the borrower has formally been advised (either at the time of becoming eligible for the discount or subsequently) that the loyalty discount will cease.

NB: In cases where it is the society's practice to review periodically (annually or otherwise) the continued existence of a loyalty scheme, this should not be taken to imply that the discount period is at most the period between periodic reviews. Many societies regard the

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION I: ALL LOANS FULLY SECURED ON LAND - Further Analysis

loyalty scheme as being a long term commitment even if it is reviewed periodically. It is felt therefore that it is more realistic to use 5 years (as in a)), rather than say 1 year (period between annual reviews) as the discount period. However, if the review triggers cessation of the scheme then clearly b) above would apply.

The **discount period on staff loans** should be calculated in the same way as above.

and: **percentage discount** is the difference between the society's standard variable rate of interest (see above) and the rate of interest payable on the discounted loan at the reporting date e.g. if standard variable rate is 8.7% and the discounted rate is 6.2%, the percentage discount is 2.5%.

II.6/2.6 (i) **weighted average: residual maturity**

- (a) *for each discounted loan (included in the box above this line on the return), **multiply** size of loan (£) **by** residual maturity (years)*
- (b) *add up the result in (a) for all discounted loans in the box concerned*
- (c) *divide the sum in (b) by the total of discounted loans (£) in the box concerned*

II.7/2.7 (ii) **weighted average: cumulative discount**

- (a) *for each discounted loan (shown in the box above this line on the return) **multiply** size of loan (£) **by** percentage discount (%) **by** residual maturity (years)*
- (b) *add up the result in (a) for all discounted loans in the box concerned*
- (c) *divide the sum in (b) by the total of all discounted loans (£) in the box concerned.*

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION I: ALL LOANS FULLY SECURED ON LAND - Further Analysis

11.8/2.8 (iii) **weighted average: nominal discount per annum**

- (a) for each discounted loan (shown in the box above this line on the return) **multiply** size of loan (£) **by** percentage discount (%) **by** residual maturity (years) [**NB:** this is the same as (ii)(a)].
- (b) add up the result in (a) for all discounted loans in the box concerned
- (c) for each discounted loan (included in the box above this line on the return), **multiply** size of loan (£) **by** residual maturity (years) [**NB:** this is the same as in (i)(a)]
- (d) add up the result in (c) for all discounted loans in the box concerned
- (e) divide the sum in (b) by the sum in (d).

Example To illustrate the calculations involved in the three weighted averages a **worked example** follows:

Discounted loans: worked example of weighted rates (for 3 loans)					
Loan Size £000	Discount period	Percentage discount	Products as used in the calculation for:		
			Residual maturity (£ x yrs)	Cumulative/Nominal discount (£ x % x yrs)	
5	4 yrs	2%	20	40	
10	2 yrs	3%	20	60	
15	1 yr	5%	15	75	
30 (= 'A')			55 (= 'B')	175 (= 'C')	
Weighted averages (using totals A, B and C are):					
Residual maturity		=	B/A	=	55/30 = 1.83 years
Cumulative discount		=	C/A	=	175/30 = 5.83%
Nominal discount p.a.		=	C/B	=	175/55 = 3.18%

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION J: LENDING- Capitalisations and Sales

Number of loans/Number of (arrears) cases

In cases where there is more than one loan secured on a single property, these should be amalgamated where possible in reporting details of loans at the end of the period in J1, and details of arrears cases in J2 and J3.

Balance outstanding

In J1.2 this means the same basis as presented in the balance sheet.

However, in J2.3 and J3.2 it is as defined in section K/1 paragraph 1.1 (including in the case of J3 the costs of sale where these have been debited to the borrower's account).

J2 Capitalisation of arrears cases in period

Details should be given in respect of those cases which, having previously been in arrears, have now been capitalised (or treated as if capitalised), have satisfied certain performance criteria for six months, and have been **removed** during the latest quarter from the arrears figures which now appear in table K. See paragraph 3 of section K of the guidance notes.

J3 Properties sold in period

Include in J3.1 and J3.2 **all** properties sold in the quarter irrespective of whether losses have occurred.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION K: LENDING - ARREARS ANALYSIS

NB: Guidance notes for table K(1) also apply to similar items on table K(2).

K1 & K2 Arrears categorisation by type of loan

For these sections, the analysis of lending is divided into two main types:

- (i) loans fully secured on residential property to individuals;
- (ii) all other loans fully secured on land (that is, other loans fully secured on residential property, and other loans fully secured on land).

The analysis is based on expressing the amount of arrears on each loan as a percentage of the balance outstanding on the loan, allocating cases to relevant arrears bands, providing details of cases moving up into more serious arrears bands in the quarter, and giving information on loan performance during the quarter. (In cases where there is more than one loan secured on a single property, these should be amalgamated, where possible, in reporting details of arrears cases). Definitions of terms used are given below:

K1.5 & K2.5 **In possession:** include here cases where the property is taken in possession (through any method e.g. voluntary surrender, court order etc); and particularly for development loans also include cases where the appointment of a receiver and/or a manager has been made, or where the security is being enforced in other ways (which may or may not also involve the existence of arrears e.g. building finance case with interest roll up, no arrears, but a current valuation is less than the outstanding debt).

1. Balance outstanding (columns 3 and 6)

1.1 This is the amount of total debt at the reporting date and comprises the total amount outstanding (after deducting any write offs but without deduction for any provisions) in respect of:

- (i) the principal of the advance (including any further advances made)
- (ii) interest accrued on the advance (but only up to the reporting date), including any interest suspended

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION K: LENDING - ARREARS ANALYSIS

- (iii) any other sum which the borrower is obliged to pay the society and which is due from the borrower e.g. fees, fines, administration charges, penalty interest and insurance premiums

and is intended to be consistent with the basis used for presentation of balances outstanding shown in the balance sheet section of the return, with the addition for table K of any interest suspended not included in the balance sheet.

2. Amount of arrears (columns 2 and 4)

2.1 Arrears will arise through the borrower failing to service any element of his debt obligation to the society, including capital, interest, or fees, fines, administrative charges, penalty interest and insurance premiums.

2.2 At the reporting date, the **amount of arrears** is the difference between

- (i) the accumulated total amounts of (monthly or other periodic) payments due to be received from the borrower; and
- (ii) the accumulated total amount of payments actually made by the borrower.

2.3 Only amounts which are contractually due at the reporting date should be included in 2.2(i) above, that is include accrued interest only up to the reporting date but not beyond, and for example only include a proportion of any annual insurance premium if the society permits such amounts to be paid in periodic instalments.

2.4 In the case of **annual review schemes** the 'payment due to be received' under 2.2(i) is that calculated under the scheme. This may well differ from the amount charged to the account but should not of itself give rise to any arrears providing the borrower is making the level of payments advised by the society. The same principles apply to deferred interest products - if the borrower is making the payments that are required under the loan arrangements then he is not in arrears, even though the debt outstanding is increasing.

BUILDING SOCIETY: QUARTERLY STATEMENT**SECTION K: LENDING - ARREARS ANALYSIS**

- 2.5** Where a society makes a **temporary "concession"** to a borrower (i.e., an agreement with the borrower whereby monthly payments are either suspended or less than they would be on a fully commercial basis) for a period, the amounts included in 2.2(i) are those contractually due (and at commercial rates of interest) and hence the borrower will continue to be in arrears and the level of arrears will in fact continue to increase until such time as he is able fully to service the debt outstanding.
- 2.6** Where the terms of the loan do not require payment of interest (or capital) until a stated date or until redemption or until certain conditions are triggered, as for example in the case of certain building finance loans, then the loan is not in arrears until such time as contractual repayments are overdue. There may be circumstances however where, even though the loan is not in arrears, it falls to be reported under K1.5 or K2.5. (See notes on K1.5/K2.5 at beginning of Section K).
- 2.7** The reporting treatment of cases where arrears have been capitalised is dealt with in section 3 below.
- 2.8** Where a "capitalisation" case that has at one time been correctly removed as fully performing (see section 3) but at some later time defaults, then this should be treated as a new default and the amount of arrears taken as that arising from this new default. That is, the previously capitalised arrears should not be reinstated as current arrears.

3. Capitalisation of arrears and reporting criteria

- 3.1** By "**capitalisation**" is meant a formal arrangement agreed with the borrower to add all or part of a borrower's arrears to the amount of outstanding principal (i.e. advance of principal including further advances less capital repayments received during the period of the loan) and then treating that amount of overall debt as the enlarged principal. This enlarged principal is then used as the basis for calculating future monthly payments over the remaining term of the loan. Where less than the full amount of arrears is capitalised (or indeed where none of the arrears is capitalised) then, providing there are arrangements made for the borrower to repay the non-capitalised arrears over a shorter period ranging for example from 3 to 18 months, this type of arrangement should also be regarded as an equivalent of "capitalisation".

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION K: LENDING - ARREARS ANALYSIS

- 3.2 The decision to "capitalise" (or treat as if capitalised) is a business decision between the society and the borrower. However for the purposes of consistency in reporting arrears cases in table K (and reporting capitalisations in table J) the following **reporting criteria** should be used where a society has capitalised the loan (or treated as if capitalised) and reset the monthly payment:
- (i) such an arrears case should continue to be included in table K until the loan has been "**fully performing**" (see (ii) below) for a period of six consecutive months (any temporary increase in arrears during this qualifying period has the effect of requiring six consecutive months of fully performing **after** such an event). Until that time it should be included in table K, and be allocated to the arrears band applicable at each reporting date as if "capitalisation" had not taken place;
 - (ii) for these purposes a loan is considered to be "fully performing" only where the borrower has been meeting all obligations on the loan with regard to repayments of principal, interest (at a normal mortgage rate on the full balance outstanding, including as appropriate any relevant past arrears), any payment towards clearing past arrears as agreed with the society and any penalty payments due levied in respect of previous missed repayments. That is, amounts may be either added to the principal of the loan or otherwise repaid over a shorter period than the residual term of the mortgage, as agreed between society and borrower. But then this revised payment schedule must be fully maintained for a six month period before the arrears can qualify to be treated as capitalised for reporting purposes and hence removed from the arrears cases in table K
 - (iii) arrears cases qualifying as "fully performing" in (ii) **should then be omitted from table K**, and should then be reported in table J (at section J2) for the same reporting period during which the removal occurs.
 - (iv) as regards capitalisation in relation to unsecured lending to individuals (consumer lending recorded in K3.1), with the possible exception of personal loans, it is not expected that the concept of capitalisation will generally be applicable.

BUILDING SOCIETY: QUARTERLY STATEMENT**SECTION K: LENDING - ARREARS ANALYSIS****4. Cases entering higher (i.e. more serious) arrears band in quarter (columns 1 to 3)**

Refers to those cases now included in a particular arrears banding which were classified in a **less severe (i.e. lower numerical) band** at the end of the previous quarter but which have deteriorated sufficiently during the quarter to move to a more severe arrears band. For example against K1.1 entries under this heading will show cases now "2.5 < 5%" (i.e. 2.5 or less than 5%) in arrears that were previously excluded from the arrears table being less than 2.5% in arrears, and K1.5 (and K2.5) will show details of those cases taken into possession during the quarter. Cases which have improved during the quarter by now being classified to a less severe arrears band should not be included in these 3 columns.

5. Performance of current arrears cases (column 7)**5.1** This analyses all those arrears cases included in columns 4 to 6 and gives a measure of performance covering all of the loans in a particular arrears band at the end of the quarter. The measure which compares "actual" with "expected" payments is required to be calculated for a single time period: the last 3 months. For this time period, the performance measure should be calculated as a percentage as follows:

$$\frac{\text{total of "payments received" from borrowers}}{\text{total of "payments due" from borrowers}} \times 100$$

where "payments due" means amounts due under normal commercial terms (and not the lesser amounts which may have been agreed as part of any temporary arrangement) fully to service the loans: that is the balances outstanding including those elements referred to in 1.1 above such as insurance, fees and fines etc. (If for some reason this is not readily available then a suitable approximation can be derived for each relevant month by applying one twelfth of the annual interest rate to the appropriate balance outstanding), and

where "payments received" should be limited to regular repayment of interest, capital and other sundry charges to the loan account, and should exclude abnormal repayments (e.g. sale proceeds of property in possession, and large lump sum repayment of part or all of the outstanding balance). The reasoning behind this is that excess payments on one or more arrears cases would

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION K: LENDING - ARREARS ANALYSIS

otherwise have the effect of compensating for underpayment on other arrears cases and, as a result, give an overstated performance measure.

5.2 The amount to be entered on the return is a percentage to 2 decimal places and omitting the % sign.

5.3 In calculating the performance measure on possession cases (K1.5 and K2.5), the following points are relevant:

- (i) "payments received": in many cases these may well be nil, but not always since the property in possession may be let out and a rental income received. In each case the payment received should be included for the purposes of calculating the performance measure;
- (ii) "payments due": in recognition of the fact that amounts of interest will still be charged to the borrowers account, then the "payments due" should be calculated as three months interest at normal commercial rates of interest;
- (iii) however, in K1.5 and K2.5, it is likely that the performance measure will in most instances be zero;
- (iv) the relevance of the above however, is that "payments due" on possession cases need to be computed in order to feed into the overall performance measure at K1.6 and K2.6.

5.4 The overall measures of performance at K1.6 includes possessions, and is the ratio of:

- (i) "payments received" on all cases in K1.1 to K1.5
- (ii) "payments due" on all cases in K1.1 to K1.5

NB The same approach applies to K2.6

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION K: LENDING - ARREARS ANALYSIS

K3.1 Other loans to customers: loans to individuals

Covers a subset of those loans included within QFS1 line item A9.4 (but analysed fully within MFS1 line items F3.1 -3.6) i.e. bridging loans, personal loans, credit cards, overdrafts and any other such lending to individuals.

These loans to individuals differ significantly in nature from mortgage loans, particularly as regards interest rates, repayment periods and the extent to which the advance is fixed (e.g. bridging and personal loans) or elastic (e.g. credit cards and overdrafts). As a consequence, the trigger points for reporting arrears cases are not defined in the same way as for mortgage loans.

For the purposes of this arrears analysis, the criteria for inclusion as an arrears case at the end of the quarter are as follows:

(i) Personal loans

These should be included where the amount of unpaid repayments (that are actually due by the reporting date) is greater than or equal to 3 times the current monthly contractual repayment expected;

In the case of "negative equity" loans (i.e. that part of a loan on land that is not fully secured, and which is therefore treated as a personal unsecured loan), arrears reporting here should be based on the same 2.5% criterion as used for loans fully secured on residential property.

(ii) Bridging loans

Those subject to scheduled repayments during the period of the loan should be treated as for personal loans.

Those not subject to scheduled repayments, that is those where interest is added to the account and repaid only when the loan is redeemed, will in general not give rise to an "arrears situation". However there may be circumstances when, even though scheduled repayments are not required, the loan is in default of the terms of the loan agreement. For example, it may have been a condition of the loan that the accumulated debt would

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION K: LENDING - ARREARS ANALYSIS

(ii) **Bridging loans (continued)**

not exceed a specified limit or that the loan would be redeemed within a stated period. In these circumstances the amount of debt in excess of such a pre-set limit should be treated as **arrears** (or the whole amount if no limit has been pre-set).

If for any reason, the property on which the loan is secured is taken into possession then the loan should be included in columns 4 and 6 (even if there are deemed to be no "arrears").

(iii) **Overdrafts**

Authorised overdrafts will normally have an overdraft limit pre-set by the society and communicated to the customer. Those accounts where the borrower has exceeded an overdraft limit should be treated as being in arrears, with the amount of arrears being the excess over the pre-set overdraft limit.

Unauthorised overdrafts are those which arise on accounts that, at the time, had no agreed pre-set overdraft limit (e.g. on certain cheque or current accounts), of which the customer had been made aware. In such cases the amount of arrears will be the total amount of the overdraft. Where societies operate a policy of allowing an account (on which there is no authorised overdraft) to become overdrawn up to an administrative limit before refusing to accept cheques, standing orders, direct debits etc, but without advising this limit to the customer, this administrative limit should be disregarded for arrears reporting purposes, and the total amount of the overdraft reported as arrears. If, subsequently, arrangements are made with the borrower for an authorised overdraft then the account should be treated as for authorised overdrafts above;

(iv) **Credit cards/budget plans/revolving credit agreements**

The lender will normally establish a pre-set credit limit for each borrower.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION K: LENDING - ARREARS ANALYSIS

(iv) **Credit cards/budget plans/revolving credit agreements**
(continued)

Loans where the debt (i.e. balance outstanding) exceeds the pre-set credit limit should be treated as an arrears case, with the amount of arrears being the excess of the balance outstanding over the credit limit.

Where a loan is operating within a credit limit, the criterion for being treated as an arrears case is whether the minimum monthly contractual repayments are being made. If the borrower fails for three months to meet in full the minimum monthly contractual repayment then the loan should be shown as being in arrears, with the amount of arrears taken as the latest calculated minimum contractual repayment (which should include previous under payments).

(v) **"Contractual repayments"/"pre-set limits"**

For the purposes of (i) to (iv) above, these terms are subject to the following points:

Contractual repayments: is a reference to an amount determined on a normal commercial basis fully to service the balance outstanding, and not to any lesser amount which may be the subject of agreed arrangements with the borrower.

Pre-set limit: is the credit limit in operation on the account at the end of the quarter, and is to be used in establishing the amount, if any, of arrears at the reporting date.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION K: LENDING - ARREARS ANALYSIS

K3.2 Other loans to customers: loans to others

This type of lending is likely to be predominantly to business customers. In a number of instances, such lending may have similar characteristics to loans to individuals in K3.1 and accordingly the same criteria can be used in assessing whether a particular loan is in arrears and if so by an amount that qualifies for being included in K3.2.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION L: EXPOSURE ANALYSIS: Large exposures - Group

The notes below should be read in conjunction with the Prudential Guidance on Large Exposures contained in Chapter 7 of Volume 1 of the Interim Prudential Sourcebook for building societies.

Because of the need for numerous references to "subsidiary undertaking" in this section, for convenience the term has been abbreviated to "subsidiary" throughout.

1. **Basis for reporting Large Exposures on Table L**

- | | |
|------------------------------|---|
| Supervised Group | (i) The reference in the table heading to Group refers to the Supervised Group . This term is defined in the P/G as meaning the society and those subsidiaries subject to consolidated supervision (i.e. those subsidiaries included in the Group (consolidated) solvency ratio calculation - see also Solvency P/G). In cases where a society has no subsidiaries, the Supervised Group is then the society. |
| Own Funds | (ii) The measure of own funds to be used in large exposure calculations is the Group (consolidated) amount of Capital Available at the quarter end as reported in table D, line item D4, column 4 (taking account of any exclusions from consolidation that may be required, as referred to in the Solvency P/G). |
| Types of counterparty | (iii) The Supervised Group may have exposures to two types of counterparty : those external to the Group, and those intra-Group, that is: <ul style="list-style-type: none"> a. exposure to an external counterparty (or group of connected counterparties) which is not connected with the society or any member of the supervised group. <p style="margin-left: 40px;">In this case the exposure of the supervised group means the aggregate of all individual exposures of the society and any of its subsidiaries in the supervised group to that counterparty (or group of connected counterparties).</p> b. intra-group exposure to connected undertakings, which should be monitored as two separate categories as set out below. |

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION L: EXPOSURE ANALYSIS: Large exposures - Group

Type of Counterparty (continued)	(iii) b. intra-group exposures (continued)
	<p>b.(1) exposures of the society itself to an individual subsidiary or sub group of subsidiaries (that is where a subsidiary has subsidiaries of its own) in the Supervised Group.</p> <p>For reporting purposes the exposure to each single subsidiary (or sub group of subsidiaries) should be assessed in isolation and tested against the reporting criteria for large exposures (below). A large exposure (before exemptions) to a subsidiary which is subject to agreed solo-consolidation should also be reported (with the effect of the exemption resulting in a zero entry in the total exposure column).</p> <p>Additionally, societies are asked to provide one extra line of information, being the sub-total of all "small" exposures to individual subsidiaries in the supervised group. Where the society has no large exposures to any subsidiary in the supervised group then this extra information will be the total of exposures to every subsidiary in the supervised group, otherwise it will be the total of non-large exposures. The counterparty column should be completed with the name "Small Exposures to Subsidiaries".</p>
	<p>b.(2) exposures of the supervised group to counterparties connected with the society but outside of the supervised group.</p> <p>Counterparties here includes any subsidiary not included in the supervised group (e.g. a Life Company) and any other relevant undertakings that are connected with the society.</p> <p>Exposures of the society itself and those of individual subsidiaries in the supervised group to all such counterparties should be aggregated and the aggregate exposure tested for being a reportable large exposure.</p>
Multi-Exposure	(iv) An exposure to a counterparty (or group of connected counterparties) is the aggregate of all individual exposures to that counterparty (and adding together different categories of exposure to the same counterparty e.g. loan asset, liquid asset, connected undertakings and other investments, and off-balance sheet).

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION L: EXPOSURE ANALYSIS: Large exposures - Group

Reportable Large Exposures (v) The P/G requires **all exposures** (described above) **which are "large"** (see (vi)) **exposures to be reported on table L irrespective of whether the exposure is eligible for full or partial exemption**, and to give **two measures of the exposure**. These two measures are:

- a. **Actual exposure** which is the amount of the exposure before the application of any full or partial exemptions (details of the full or partial exemptions are to be found in the P/G.
- b. **Total exposure** which is the amount of exposure net of any full or partial exemptions.

Details of "**actual exposure**" and "**total exposure**" for different categories of exposure are given further on in these guidance notes at section 3(e) and (f).

Defining Reportable (vi) In considering whether an exposure is a **reportable large exposure** the test is whether the **actual exposure** amount is 10% or more of **own funds** (as defined in (ii) above).

Taking account of exemptions (vii) For each **reportable large exposure** (i.e. based on actual exposure as above) the return also asks for certain other information in order to establish the net effect of any full or partial exemption. This is established by means of information on:

- a. the amount of **total exposure**, which is the amount after taking account of any full or partial exemption; and
- b. whether the **total exposure** is a **qualifying** large exposure, that is the amount of **total exposure** is 10% or more of own funds. **Qualifying** is used in the sense that, after taking account of exemptions, the **total exposure** amount counts towards the 300% or 800% limit. Where this is the case this should be indicated by "Q" as part of the "Class" column (under Exposure Type), otherwise where it is not a qualifying large exposure then this should be indicated by "E". (See section 3(c) for further detail).

BUILDING SOCIETY: QUARTERLY STATEMENT**SECTION L: EXPOSURE ANALYSIS: Large exposures - Group****2. Categories of Large Exposure**

This "large exposures" analysis covers loan asset and liquid asset exposures together with exposures to connected undertakings and other investments and off balance sheet exposures, as follows:

- (i) **loan assets:** list the 10 largest exposures (irrespective of size in relation to own funds) **and** if applicable any others where the "**actual exposure**" amounts to 10% or more of own funds. For these purposes, exposures to connected undertakings are treated as a separate category (see (iii) below) including any which may be secured on land.
- (ii) **liquid assets:** list (after (i)) all exposures where the "**actual exposure**" amounts to 10% or more of own funds.
- (iii) **connected undertakings and other investments:** list (after (ii)) all exposures of the society to its **individual** subsidiaries in the supervised group, and the **aggregate** exposure of the supervised group to subsidiaries or other connected undertakings outside of the supervised group (but which are connected with the society), being investments in or loans to such bodies including any which are fully secured on land. Then list, if applicable, any such aggregate exposure of the supervised group to investments in other undertakings. In each case only list where the "**actual exposure**" amounts to 10% or more of own funds. Finally, include the **additional** line on "small exposures" described in (1)b.(1) above.
- (iv) **off balance sheet:** list (after (iii)) all exposures where the "**actual exposure**" amounts to 10% or more of own funds.

NB: Where a reportable large exposure to a counterparty is made up of **different categories of exposure** (i.e. combinations of two or more of loan assets, liquid assets, connected undertakings and other investments, and off-balance sheet) **the separate amounts falling into each of the four categories should be listed separately on the return** as individual line items within the appropriate set (i.e. loan asset set, liquid asset set etc). This same approach should be followed for both **actual exposure** and **total exposure**. As regards the use of "Q" or "E" in the "Class" column (see section 3(c)), then the same letter should appear on each of the individual line items making up the exposure to this counterparty, and should be determined on the basis of the aggregate total exposure amount. The most likely combination of different categories of exposure is liquid asset and off-balance sheet (e.g. hedging contracts) for example to banks.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION L: EXPOSURE ANALYSIS: Large exposures - Group

3. (a) Lender code

This is to identify the "lender" (i.e. the party with the exposure) by distinguishing loans made (or other exposures incurred) by the society itself from those made by subsidiaries of the society.

Code

Society only	SOC
Subsidiary only	Abbreviated name or initials, sufficient to identify company
Subsidiaries	SUBX
Society plus subsidiary(ies)	GRP

3. (b) Name of counterparty or connected group

This is to identify the name of an individual counterparty to the exposure (i.e. the borrower), or, where the counterparty is a group of connected counterparties (see P/G), the name of the principal counterparty or other name used to identify the whole group of connected counterparties. In the case of a housing association its registration status should be included in brackets as (R)/(UR) to indicate whether registered with the Housing Corporation (or Tai Cymru/Scottish Homes) or unregistered.

3. (c) Exposure type - class

This consists of two single characters separated by a hyphen to indicate:

- firstly the "class" of exposure as detailed below -

For **loan assets** (excluding exposures to connected undertakings) the "class" is F (fully secured on land), or U (unsecured on land)

For **liquid assets** the class is "L";

For **connected undertakings and other investments** the class is "C";

For **off balance sheet** items the class is "X".

- and second, whether the exposure (as measured by the value recorded under the "**Total Exposure**" column) is 10% or more of own funds and therefore **qualifies** (designated by the character "Q") for aggregation against the 300% or 800% limit, or is less than 10% of own funds and therefore should be **excluded** (designated by the character "E") from that aggregation.
- example entries are:

F - Q for a loan fully secured on land with "**total exposure**" 10% or more of own funds.

C - E For an exposure to a connected undertaking with "**total exposure**" less than 10% of own funds.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION L: EXPOSURE ANALYSIS: Large exposures - Group

3. (d) Exposure type - code

A two character code, identifying security or counterparty type which should be allocated on the basis of the type of the main or majority of balances when exposure is to a connected group. The code is as follows:

(i) for **loan asset** exposures they are as follows:

Exposure Type "Class"	Code	Type of security/loan or other exposure
F	RL	Loans FSRP to individuals only Other FSRP and other FSOL loans:
F	HA	Housing Association
F	RD	Residential - Development
F	RI	Residential - Investment
F	RO	Residential - Other
F	CD	Commercial - Development
F	CI	Commercial - Investment
F	CO	Commercial - Other
U	LI	Other loans to individuals
U	LB	Other loans to businesses etc.

(ii) for **liquid asset** exposures they are as follows:

Exposure Type "Class"	Code	Type of counterparty
L	BA	Bank
L	BS	Building society
L	GV	Government (UK or overseas)
L	LA	Local authority
L	OC	Other counterparty

(iii) for exposures to **connected undertakings and other investments** they are as follows:

Exposure Type "Class"	Code	Type of counterparty
C	SU	Subsidiary within Supervised Group
C	OC	Other connected undertaking
C	OI	Other investment

(iv) for **off balance sheet** exposures they are as follows:

Exposure Type "Class "	Code	Type of exposure
X	IR	Interest rate contract
X	FX	Foreign exchange contract
X	FR	other: Full risk*
X	MR	Medium risk*
X	ML	Medium/Low risk*
X	LR	Low risk and other*

* terms as used in Solvency P/G

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION L: EXPOSURE ANALYSIS: Large Exposures - Group

3. (e) **Actual Exposure**

See tabular information below for details. **NB** the "actual exposure" includes future commitments.

Total exposure

This is the "**actual exposure**" after the application of any percentage weights to give effect to relevant exemptions. Percentage weights are as in the P/G (with fully exempt exposures having a 0% weighting), and all references to asset **maturities** are to **residual** maturities. See tabular information below.

3. (f) **Actual & Total Exposure by Category of Exposure:**

Category of Exposure	Actual Exposure	Total Exposure
Loan Assets:	Balance outstanding (as included in the balance sheet) on the account(s) of the counterparty or group of connected counterparties at the end of the reporting period, plus future commitments	Amount as in previous column.
Liquid Assets	Balance outstanding (as above) but excluding accrued interest.	The amount that results from the application of relevant percentage weights to the previous column.
Connected undertakings and other investments	Balance outstanding (as above) plus future commitments	The amount that results from the application of relevant percentage weights to the previous column.
Off Balance Sheet:		
(i) Interest rate and	Current replacement cost of all contracts with positive values(* ₁), plus potential future credit exposure. (The sum of amounts calculated in steps (a) and (b) of section 1C5.1 of Annex 1C of Solvency P/G)	Same as previous column.
(ii) Foreign exchange contracts		
(iii) Full risk	Nominal Value (* ₂)	Same as previous column.
(iv) Medium risk	Nominal Value (* ₂ and g)	Same as previous column.
(v) Medium/Low risk	Nominal Value (* ₂ and g)	Same as previous column.
(vi) Low risk	Nominal Value (* ₂ and g)	Same as previous column.

*₁ That is where the replacement "cost" would represent a payment by the society, as opposed to a payment by the counterparty (because interest rates had moved in the society's favour).

*₂ In terms of Annex 1C of the P/G, this value is the amount without application of the credit conversion factor.

3. (g) **Future commitments**

This represents the amount of a commitment to a counterparty or a group of connected counterparties, to advance further sums, as at the end of the reporting period.

Include contingent liabilities if they are loan asset related.

If a development property is taken in possession, it includes the future cost of build-out of the development.

In respect of the medium, medium/low and low risk off-balance sheet categories in (f), the value of any commitments to a counterparty that have already been reported with balances outstanding (under loan assets or connected undertaking or other investment exposures) should be omitted from medium, medium/low or low risk categories to avoid double counting.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION L: EXPOSURE ANALYSIS: Large Exposures - Group

3. (h) **Security value**

For loan assets this is to be the 'most recent valuation' of tangible security held in respect of the relevant current exposure. Estimates of future value should not be used. The 'most recent valuation' is a reference to the most recent written report on the value of the property.

For liquid assets it is market value (or book value if not marketable).

For **connected undertakings and other investments**, and **off balance sheet exposures** this column will not normally be applicable.

3. (i) **Year of valuation**

This represents the year in which the security was last valued.

For **connected undertakings and other investments**, and **off balance sheet exposures** this column will not normally be applicable.

3. (j) **Specific provisions**

This is to be the amount of any specific provision which has been included in the income and expenditure account in respect of the relevant lending or investment.

For **liquid assets, connected undertakings and other investments**, and **off balance sheet exposures** this column will not normally be applicable.

3. (k) **Amount of arrears**

This is the total amount of any accumulated arrears on the particular exposure.

For **liquid assets, connected undertakings and other investments**, and **off balance sheet exposures** this column will not normally be applicable.

4. **OTHERS POINTS ON P/G**

(i) References to **compliance** with various large exposure limits (e.g. 20% of own funds) should be interpreted as references to the **total exposure** measure (i.e. after taking account of any full or partial exemptions).

(ii) References in paragraphs 7.6 and 7.8 of the P/G to

(a) "**exempt**" exposures means exposures which, after taking into account full or partial exemptions, are below the relevant reporting percentage (e.g. if less than or equal to 20% it is not required to be **pre-reported**);

(b) the need for **pre-reporting** should therefore be based on the **total exposure** measure as a percentage of own funds.

(iii) All references to **maturities** in the text and paragraph 7.8 of the P/G are to **residual** maturities.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION M: MATURITY ANALYSIS (Residual maturity)

This table analyses the maturity profile of a society's shares and deposits & debt securities, liquid assets and committed facilities. The analyses are of balance sheet amounts excluding accrued interest.

The amounts repayable within the particular bandings should represent the residual maturity rather than that based on the original or contractual maturity date. [The time bandings are exactly as set out at the head of the table, where a "month" means the normal 30 days, and not as used in MFS1 Table C, Section C2 which only applies for items in C2]

M1/2 Shares and Deposits & debt securities: residual maturity

The amount repayable by time band for an item should be the earlier of

- (i) the residual period up to original maturity date; or
- (ii) where repayment is available before that time without penalty, as for example:
 - a) by giving a period of notice, in which case residual maturity is the remaining time before any such notice comes into effect (all investors accounts of a given type/product which has a 'notice' option will not necessarily have the same residual maturity - different accounts will have different periods of residual notice to penalty free access); or
 - b) in certain accounts where an investor can have instant access without penalty to amounts in excess of a certain amount (e.g. amounts in excess of £10,000), then the total amounts "accessible" above the various minima should be treated as repayable in the "up to 8 days" band.

Residual maturity for FRNs and similar instruments, should generally be treated in the same way.

However if there is an option for early repayment the treatment depends on whether the society has the choice in exercising that option or whether it could be obliged to repay at a third party's option:

- (a) if it is at the society's option then classify by full residual maturity (i.e. period to original maturity)
- (b) if the obligation is on the society then the earliest repayment date, that would apply in normal circumstances, determines the residual maturity period.

BUILDING SOCIETY: QUARTERLY STATEMENT**SECTION M: MATURITY ANALYSIS (Residual maturity)****M3 Liquid assets: residual maturity**

The same approach should be adopted as in M1 & 2, except for the treatment of the society's option/obligation where the rules are reversed.

In classifying the various liquid assets shown in the (corresponding) monthly MFS1 return, the following scheme should be used:

QFS1 item		MFS1 items to be included	
M3.1	Cash	B6.1	Cash
M3.2	Bank deposits	B6.2 (a+b) B6.3 (a+b)	Central banks Banks
M3.3	CDs	B6.4 (a to c)	CDs
M3.4	Other money market instruments (OMMIs)	B6.5 (a to d) B6.7 (a to b)	OMMIs Bills
M3.5	Marketable securities	B6.6 (a1 to b3) B6.10 (a1 to b4) B6.11 (a1 to b2)	Bonds, notes & OCIs Mortgage backed securities Sovereign securities
M3.6	Other	B6.8 (a to c) B6.9 B6.12 (a to c)	Local authority Certs of tax deposit Other liquid assets

M4 Committed facilities available

These represent formal and confirmed standby facilities including overdraft facilities. Only **undrawn** amounts of such facilities should be included.

BUILDING SOCIETY: QUARTERLY STATEMENT**SECTION N: ORGANISATION**

Requests details of number of staff and offices.

Staff numbers refers to actual (or expected) numbers in post or otherwise engaged by the society (including temporary and contract staff, staff on paid maternity or sick leave; and unfilled vacancies which the society actually plans to fill) at the relevant period end. Numbers should be stated in terms of full-time equivalents, counting part time staff as half. Where staff are employed by the society but in fact work for a subsidiary undertakings then numbers should be allocated to "subsidiary undertakings" columns but only where the costs of such staff are charged to the subsidiary.

- N1** **Total staff (full time equivalent)** covers all staff employed at the period end, counting part time staff as half a staff unit.
- N1.1** **Staff at branch offices** covers all staff (on a full time equivalent basis) at branches which provide deposit taking and/or lending services to members. Include any such office located within a head office: for very small societies this may be the only branch. Staff that are not located at branch offices should be excluded from the branch count (i.e. do not include staff at local or regional administration centres in the branch count).
- N1.2** **Staff at estate agency offices** covers all staff (on a full time equivalent basis) employed at estate agency offices included under N3.
- N2** **Branch offices staffed by employees** covers those described in N1.1 (and therefore includes any such branch at head office offering deposit taking/and or lending services to members). A zero entry is therefore not applicable.
- N3** **Estate agency offices** distinguishes between those existing within a society branch office and those independently sited.
- N5** **Members and creditors: numbers**
- N5.1** **Shareholding members:** the number of share investors (not the number of accounts). Societies are expected to use best endeavours to eliminate duplication from the count of investing shareholders. Joint holdings should be counted as one "shareholder".

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION N: ORGANISATION

N5.2 **Borrowing members:** the number of borrowers (not the same as the total number of mortgages) with joint borrowers being counted as one. A borrower with more than one mortgage should only be counted as one borrower. Societies should use best endeavours to eliminate duplication (where a borrower has both a solo loan and another loan jointly with a second person then societies may compile figures on the basis that there are two borrowers: the individual and the joint borrower).

In the case of subsidiary undertakings, "borrowers" is as above, although the concept of membership does not apply.

N5.3 **Creditors for deposits:** the same principles as for N5.1 should be applied to the range of deposit accounts.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION P: INVESTMENTS: By type of activity

- a) This table is an analysis of the society's **investments** (as shown in the balance sheet under this same title) by different types of business activity, plus in column 2 the amount of other loans (not treated as investments in the balance sheet, but as other loans to customers) made to the various types of undertakings.
- b) The analysis by line item is divided between activities undertaken by subsidiary undertakings and participating interests (lines P1 to P9) and those related to other investments (i.e. trade investments such as LINK, BACS etc, and other equity shares) shown at line P10.
- c) When a society has more than one body undertaking a particular business activity (e.g. 3 estate agency companies) then figures should be aggregated for all such companies and shown on a single line in the table.

In the case of a connected body undertaking more than one type of activity then it should be classified on the basis of the main type of activity.

- d) Profit figures for subsidiary undertakings should be included on the basis of the amount attributable to the society: this is less than the amount shown in table B which includes amounts attributable to minority interests. The reconciliation is covered in P12.
- e) **Staff employed (FTE)** refers to staff employed at the respective period ends. "FTE" is full time equivalent, counting part time staff as half a staff unit.

P8 **Society support operations** is intended to cover companies set up to deal with particular aspects of running the society's core business. Examples are computer services company, property company (holding HQ and/or branches), mortgage administration of loans on society's balance sheet, etc.

Reconciliation of sub-totals

P11 The total of "**investments in**" in column 1 should agree with the amount shown in the balance sheet against "Investments" at A9.5 (col 1). The total of "**loans to**" in column 1 will be part of the amount shown in the balance sheet against "Other loans to customers" at A9.4.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION P: INVESTMENTS: By type of activity

P11 The total income in the final two columns for "All investments" made up of (i) Income from participating interests (which includes associated undertakings) and (ii) income from trade and other investments and totalled in P11, should agree with income from investments in table B as follows:

- Income attributable to the society, totalled at P11, should agree with B4 (Column 1).
- Income attributable to the Group, totalled at P11, should agree with B4 (Column 7) and will be the share of profits after tax in associated undertakings together with dividend receivable from other participating interests and other investments.

Please also see Introduction/3 which provides a useful summary of the accounting treatment in the Income & Expenditure Account of the various types of connected undertakings and other investments.

P12 The total profits of all subsidiary undertakings included in the sub-total at P12.1 (which only represents the amounts attributable to the society) together with P12.2 (the amounts attributable to minority interests) should agree with the equivalent total under "Subsidiary undertakings" in table B at B11.

P13 Is the total of figures for subsidiary undertakings (shown in P1 to P9) which have not been included in consolidated figures in table B, i.e. those entries marked "NC" in column 3 of table P.

BUILDING SOCIETY: QUARTERLY STATEMENT

SECTION Y: CHECKLIST OF LINE ITEMS ROUTINELY TO BE DEDUCTED

The purpose of this section is to indicate those line items in the various tables which will be "deducting" items when arriving at sub-totals or totals. These should be shown without sign and should **not** be shown in brackets unless the conditions in paragraph 8(iv) of the Introduction to these Notes require.

Table	Line items
A	A9.6
B	B2 B6.1 & 6.2 B7 B8 B9 B12 B14
C	C1.2 C1.5 C2.1c C2.2a
D	D1.3 D1.4 D2.6 D3.1 D3.2

GUIDANCE NOTES

Sections

Introduction: **General Notes on the return**

Section A: **Sectorisation of selected liabilities**

Section B: **Sectorisation of loans and investments**

Section C: **Residual maturity analysis of gilts**

Section D: **Derivative contracts**

Submission of return: **By close on the 11th business day after each of the calendar quarters (i.e. ending March, June, September, December).**

BUILDING SOCIETY: QUARTERLY STATEMENT QFS2 ("Society only" return)

INTRODUCTION: GENERAL NOTES ON THE RETURN

1. Introduction

The QFS2 return is only required to be completed by the larger societies (i.e. those societies completing the monthly MFS1 return to the faster timetable). The reporting quarters are **calendar** quarters, that is end March/June/September/December.

The main purpose of QFS2 is to collect the detailed sectoral analysis needed for the monetary and financial accounts statistics. The starting point for this is the increased sectoral analysis on the monthly statement MFS1 (including the MFS1 supplementary statement [Forms B8-10]), which is supplemented quarterly by the more detailed sectoral analysis of particular balance sheet items collected on QFS2 (whose structure is harmonised with that used in the MFS1 return).

2. Unit of measurement

Amounts should be entered to the nearest £ million (i.e. not thousands as on the MFS1 return), omitting £000,000s. In all cases on the return, totals should equal the sum of component items (with any adjustment due to rounding being made on the largest component item).

3. Cross validation to return MFS1

A number of sub totals on QFS2 are direct equivalents of line items on return MFS1, and the amounts entered on QFS2 should agree with the corresponding item on MFS1 (subject to rounding to the nearest £ million). For this reason the return has MFS1 cross references to facilitate comparison with corresponding items in the monthly return.

BUILDING SOCIETY: QUARTERLY STATEMENT QFS2

INTRODUCTION: GENERAL NOTES ON THE RETURN (continued)

4. Accuracy

As the main purpose of the figures is to provide broadly accurate aggregates for the total of all societies, estimates of less precision than the data entered on the monthly MFS1 return will be acceptable in compiling the component sectoral details required on QFS2.

However, societies are asked to advise the Financial Services Authority (the Financial, Risk Analysis and Monitoring Group) of any subsequently discovered errors resulting in changes of over £25 million.

5. Society/Connected Undertakings

The return should be compiled on a society only basis. Separate returns are not required to be completed in respect of subsidiary or other undertakings.

6. Sectoral classification

Societies should refer to the Guidance Notes on the monthly MFS1 (for the main sector definitions), Appendix II of those notes, together with the sector mapping document appended to the MFS1 Supplementary Statement guidance notes.

BUILDING SOCIETY: QUARTERLY STATEMENT QFS2

SECTION A: SECTORISATION OF SELECTED LIABILITIES

A1 OTHER UK SECTOR (UK NON-BANK NON-BUILDING SOCIETY PRIVATE SECTOR)

This analyses two funding items as follows:

- (i) **Share liabilities** reflects the entry reported at B1.1 on the MFS1 and this is analysed by the relevant component sector.

- (ii) **Deposits** is the sum of three line items on MFS1 (namely B2.0(a), B2.1 and B2.3).

BUILDING SOCIETY: QUARTERLY STATEMENT QFS2**SECTION B: SECTORISATION OF LOANS AND INVESTMENTS (Gross)**

This table analyses loan assets on a gross basis (i.e. without deduction of provisions) for two specific sectors: the "other UK Sector" (UK non-bank non-building society private sector) and the "non-resident sector". This is a further analysis of two of the loan asset sector figures in B7.8 of the MFS1 return (with which relevant totals should agree).

B1-6 COLUMNAR ANALYSIS

Loans fully secured on residential property and loans fully secured on land (balances) are as defined in the 1986 Act and the MFS1 Guidance Notes.

Investments and Other Loans to Customers are analysed as follows:

- i. **Investments (Equities).** These refer to investments in connected undertakings (share or other capital in the society's undertakings, being part of MFS1 line item B7.4) together with any other 'securities'. For the purposes of this return, securities are taken as investments in related companies, and other marketable or potentially marketable instruments (with an original maturity of one year or more) e.g. mortgage backed or other securities.
- ii. **All other loan and investments.** These include certain loans of a longer term nature (and typically where a repayment schedule is not expected) to connected undertakings (being part of MFS1 line item B7.4) and other loans provided to subsidiary undertakings (being part of MFS1 line item B7.3(b)).

NB: Subsidiary undertakings primarily set up to do secured lending in the UK fall to be disclosed at line B1.1(e).

B2 NON-RESIDENT SECTOR

B2.1 Direct investment comprises investment (including retained earnings) by the society in the fixed assets (such as premises and equipment) of its overseas branches and in the share capital, loan capital and other capital funds of its subsidiary undertakings. Also include any working capital in the form of equipment provided free of charge to branches and subsidiary undertakings overseas. [This analysis is used in balance of payments statistics].

BUILDING SOCIETY: QUARTERLY STATEMENT QFS2**SECTION C: UK GOVERNMENT STERLING SECURITIES****C1-3 BY RESIDUAL MATURITY**

Analyses residual maturity of gilts by index linked and other, showing opening and closing balances along with transactions and valuation changes in the quarter. The analysis is 'sterling' only, being an analysis of the amount shown in the sterling column against item B6.11 a1) of the MFS1 return.

A note on securities subject to a stock lending agreement

The treatment in table C should be as follows:

- (i) **balances:** include securities lent (or pledged), but exclude securities or other instruments held as collateral under a stock lending agreement.
- (ii) **transactions:** exclude transactions in which securities are lent (or pledged) under a stock lending agreement. The receipt of securities or other instruments as collateral under a stock lending agreement should also be excluded.

C1-3 TRANSACTIONS (Columns)

Points on individual columns are:

- (i) **Balance at end previous quarter** should agree with the figure provided on MFS1 for the corresponding month. Here book value means the basis on which the society records gilts in its accounts.
- (ii) **Purchases in quarter** is the value of all such acquisitions in the period
- (iii) **Realisations in quarter** is the amount received from sale or redemption of gilts in the period.
- (iv) **Other debit/credit net** will include for example:
 - depreciation (or amortisation of premium)/appreciation (or amortisation of discount)
 - net surplus/deficit on realisation

BUILDING SOCIETY: QUARTERLY STATEMENT QFS2

SECTION C: UK GOVERNMENT STERLING SECURITIES

- amounts in respect of holdings which have passed from one maturity band to another in the quarter
- any other adjustment to the previous quarter's book value.

(v) **Balances at end quarter** is given on two bases:

- (a) **Book value** - which should reconcile with the previous columns
- (b) **Market value** - which provides a bench-mark for compilation of sector balance sheets.

BUILDING SOCIETY: QUARTERLY STATEMENT QFS2**SECTION D: DERIVATIVE CONTRACTS**

This return records building societies' asset and liability positions in derivatives as at the end of the period and transactions in derivatives over the period. These data will contribute to the UK National Accounts and Balance of Payments.

D.1 TOTAL NOTIONAL DERIVATIVE CONTRACTS

Derivative contracts are to be categorised here under 3 market risk categories: **interest rate, foreign exchange and other (e.g. equity)**. In practice, derivatives may involve more than one category. In such cases the contract should be reported in only one category to avoid double counting, with the allocation being based on the underlying risk component which primarily determines the price of the contract.

The entry to be shown in each line item is the gross amount of the principal involved.

D.2 TOTAL MARKET VALUE OF DERIVATIVE CONTRACTS

Societies should include all contracts at their market or fair value, where the fair value is the amount at which the contract could be exchanged in an arms length transaction between informed and willing parties. Contracts with a positive marked-to-market value should be recorded as an asset: contracts with a negative marked-to-market value should be recorded as a liability.

D.3 NET TRANSACTIONS IN DERIVATIVE CONTRACTS

This includes all transactions in derivatives by the society. All derivative contracts should be recorded on a cash basis with the values reflecting market settlement values rather than daily unrealised revaluation amounts (of accruals). **Where cash is received a negative transaction should be recorded and where a payment is made a positive transaction should be recorded.** If delivery of the underlying asset occurs (e.g. with some option contracts) then only the difference between the market price and the contract paid should be reported as a transaction. Similarly, the exchange of principal (e.g. in cross currency SWAPS) should also be excluded.

D.4 TRANSACTIONS WITH NON-RESIDENT COUNTERPARTIES

This is an "of which" of the data included in D.3 above. Societies should separately identify net receipts associated with interest rate swaps, FRA's and other products where the counterparty is a non-resident.

GUIDANCE NOTES

Sections

Introduction:	General notes on the return
Section A:	Balance Sheet
Section B:	Income and Expenditure
Section C:	Miscellaneous
Section F:	Diversification
Section G:	Selected Business Volumes
Section X:	Summary of cross checks
Section Y:	Summary of deducting items

Submission of AFS1: **must** be within 2 months of financial year end.

BUILDING SOCIETY: ANNUAL STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

1. Introduction

This section covers a number of points that have relevance across the return generally:

- 2) Building Societies Act 1986
- 3) Accounting conventions
- 4) Accuracy
- 5) Society, connected undertakings and group figures
- 6) Time horizons
- 7) Outturn information
- 8) Specific items:
 - (i) positions to be reported gross
 - (ii) foreign currencies
 - (iii) use of brackets (..) around figures
- 9) Building society mergers

2. Building Societies Act 1986

Any reference to "the 1986 Act" is a reference to this legislation (as subsequently amended).

BUILDING SOCIETY: ANNUAL STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

3. Accounting conventions

Unless advice is given to the contrary in these Guidance Notes, the return should be compiled using standard accounting practice and in accordance with accounts regulations made under the 1986 Act.

The return has been designed with the aim of harmonising line items wherever possible with those required under accounts regulations, and as used in societies' published and internal accounts. In most instances line items reflect the basis adopted in the 1998 accounting regulations. Given the existence of detailed "definitions" in the Accounts Regs (in the form of particular treatments to be adopted in compiling balance sheet and income and expenditure accounts) and also guidance in the BSA's Annual Accounts Manual, sections A and B of these Guidance Notes deal only with a limited number of line items where additional notes are thought likely to be needed.

4. Accuracy

It is expected that entries on the return will be actual values. Although the return is not required to be formally audited, figures which are common to (i.e. the line item is the same and the definition is the same as) those in the Published Accounts (mainly in Sections A and B) should agree with those figures.

5. Society, Connected Undertakings and Group figures

Societies may hold investments in different types of undertakings.

The 1986 Act defines certain undertakings in which a society may have an interest as "connected undertakings", that is "subsidiary undertakings" and "associated undertakings". In addition to these however a society may also have "other participating interests" or hold "other equity shares" (that is non participating interests). These terms are amplified below:

Subsidiary undertakings: As defined in Companies Act 1985, section 258, which essentially means undertakings over which the society exercises control or dominant influence.

BUILDING SOCIETY: ANNUAL STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

5. Society, Connected Undertakings and Group figures (continued)

Participating interests: An interest held by a society in the shares of another undertaking which it holds on a long term basis for the purpose of securing a contribution to its activities by the exercise of control or influence arising from or related to that interest. A holding of 20 per cent or more of the shares of an undertaking is presumed to be a participating interest unless the contrary has been agreed with the Financial Services Authority. (Full definition is that given in Companies Act 1985, section 260).

For the purposes of group figures the category "**participating interests**" subdivides into:

Associated undertakings: A participating interest in which the society exercises a significant influence over the operating and financial policy. (Full definition given in Companies Act 1985, schedule 4A paragraph 20).

Other participating interests: A participating interest that does not fall to be included within the definition of an associated undertaking.

In tables A and B of the return there is however no separate line for "participating interests", and any entry appropriate to this category should be included in the line for "other participating interests".

Other equity shares: These essentially refer to non-participating interests in other undertakings. They include any other investments which do not fall to be included within any definition above, such as trade investments (e.g. BACS, APACS etc) or other forms of equity holdings (e.g. XYZ plc).

BUILDING SOCIETY: ANNUAL STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

5. Society, Connected Undertakings and Group figures (continued)

The accounting treatment of these investments is best summarised. Reference to the table below should help societies to determine an acceptable and reasonable approach:

BALANCE SHEET		Society	Group
(a)	Subsidiary undertakings	Investment at cost less any permanent diminution in value	Full consolidation line by line.
(b)	Participating interests in:		
(b).1	Associated undertakings	Investment at cost less any permanent diminution in value.	Cost of investment and share of post acquisition retained reserves.
(b).2	Other participating interests	Investment at cost less any permanent diminution in value.	Investment at cost less any permanent diminution in value.
(c)	Other equity investments	Investment at cost less any permanent diminution in value.	Investment at cost less any permanent diminution in value.

Note: only one of (b)1 or (b)2 applies for each column.

INCOME AND EXPENDITURE ACCOUNT		Society	Group
(a)	Subsidiary undertakings	Dividend receivable	Full consolidation line by line.
(b)	Participating interests in:		
(b)1	Associated undertakings	Dividend receivable	Share of profits or losses.
(b)2	Other participating interests	Dividend receivable	Dividend receivable
(c)	Other equity investments	Dividend receivable	Dividend receivable.

Note: only one of (b)1 or (b)2 applies for each column.

BUILDING SOCIETY: ANNUAL STATEMENT

INTRODUCTION: GENERAL NOTES ON THE RETURN

5(i) Society, subsidiary undertakings and Group (consolidated)

The annual return is designed to collect information in respect of the society itself, of the society's subsidiary undertakings and for the group (on a consolidated basis).

5(ii) Subsidiary undertakings

Columns headed "subsidiary undertakings" means the total in respect of all such bodies which are required to be fully consolidated in group accounts (e.g. published accounts)

5(iii) Group (consolidated)

Columns headed "Group (consolidated)" should be compiled on a basis equivalent to that used in preparing published Group figures.

6. Time horizons

The return seeks information in respect of 2 different time horizons as follows:

6(i) Society

For the society and subsidiary undertakings with the same year end as the society this will be the latest financial year.

6(ii) Subsidiary undertaking

If the financial year of a subsidiary undertaking included in the consolidation differs from that of the society, the "group" column shall be made up -

- (a) from the accounts of the subsidiary undertaking for its financial year last ending before the end of the society's financial year, provided that year ended no more than three months before that of the society, or
- (b) from interim accounts prepared by the subsidiary undertaking as at the end of the parent society's financial year.

BUILDING SOCIETY: ANNUAL STATEMENT**INTRODUCTION: GENERAL NOTES ON THE RETURN****7. Information contained in the AFS1: Basis**

Information should, where relevant, agree with the audited information contained in the society's Published Accounts. Where figures have no audited equivalent they should wherever possible be on an 'actual' basis and taken from the society's information system(s).

Although the AFS1 covers the same accounting period as the society's Q4 QFS1 return, it is not expected that the information in these two returns will necessarily be exactly the same for those items which are common (e.g. balance sheet and income and expenditure). However if, on examination, the Financial Services Authority considers that sufficiently material differences are apparent in key items (particularly in table B) then it may ask for revisions to relevant parts of the Q4 QFS1 return. Previous experience suggests that only a small number of societies are likely to be affected.

8. Specific items**8(i) Positions to be reported Gross**

In general, Accounts Regulations indicate that amounts in respect of items representing assets or income may not be set off against amounts in respect of items representing liabilities or expenditure, subject to certain exceptions relating to financial operations and to provisions and amounts written off which are dealt with in paragraphs B5, B9 and B10 of these Guidance Notes.

A notable exception to this however concerns the reporting of loan assets which are subject to "linked presentation" under FRS5. Such assets should be shown in the balance sheet net of linked funding and also on this basis in other tables where balances are reported on the same basis (e.g. G).

8(ii) Foreign currencies

Amounts in foreign currencies should be translated into their equivalent sterling value at the closing middle market spot rate on the reporting date, or where appropriate, at the rates of exchange fixed under the terms of any relevant currency hedging transaction, and that value entered in the return. Thus all entries in the form represent sterling amounts. Societies should apply the same accounting treatment as for the published accounts having regard to SSAP 20.

BUILDING SOCIETY: ANNUAL STATEMENT**INTRODUCTION: GENERAL NOTES ON THE RETURN****8(iii) Use of brackets (..) around figures**

All amounts should be shown without brackets, that is shown as a positive amount, unless:

- a) the amount is of the opposite sign to that expected
- b) the entry could either be positive or negative: in which case the sub-heading should indicate which of the alternatives e.g. "profit/(loss)" is to be shown in brackets.

In any table where an item is routinely to be deducted (e.g. provisions in balance sheet and income and expenditure) the amount should **not** be shown in brackets.

The **exception** would be if the value was of the opposite sign (i.e. negative) and required to be added not deducted, in which case brackets would be necessary. "Deducting" items are summarised in Section Y of these Notes.

9. Building society mergers

When a merger of societies takes place, the AFS1 should be completed as follows:

transferring society: should always complete a "closing" return up to the date of the merger, with flow/transaction figures for the period since the previous year end date and balances as at the date of transfer.

accepting society: in completing its first AFS1 after the merger should include flow/transaction figures of the transferring society only from the date of merger. This return will of course show the balance sheet amounts in respect of the combined society.

BUILDING SOCIETY: ANNUAL STATEMENT

SECTION A: BALANCE SHEET: LIABILITIES

A2 Deposits and debt securities

Although this is not a specific sub-head in the Accounts Regs, it is used for convenience to bring together three sources of funding other than "shares".

A2.1 Amounts owed to credit institutions

Credit institution means an undertaking whose principal business is carrying on regulated activity of accepting deposits within the meaning of the Financial Services and Markets 2000 (Regulated Activities) Order 2001 or any successor regulations made under section 22 of the Act.. It includes banks **and** building societies.

A3 Other liabilities: Long term insurance

Societies are asked to show the amount of long term life insurance liabilities (if applicable) as part of other liabilities at A3.3.

A7 Subscribed capital

This will include deferred shares issued on formation, permanent interest bearing shares ("PIBS") and any other forms of subscribed capital that may be permitted in future.

A13 Commitments

This will include every irrevocable commitment which would give rise to a credit risk to the society or the society and its subsidiary undertakings.

A13.2 It excludes ordinary mortgage commitments. However include any retentions on a secured loan and any stage payments (e.g. on a housing development or similar loan) which the society is contractually obliged to advance at the balance sheet date.

BUILDING SOCIETY: ANNUAL STATEMENT

SECTION A: BALANCE SHEET: ASSETS

A21.3 Liquid assets: loans and advances to credit institutions

Credit institutions - see A2.1 above - include banks **and** building societies.

A25 Investments

Analyses holdings of shares in and certain types of loans (notably those of a longer term nature, typically where a repayment schedule is not expected. NB Loans with a repayment schedule are expected to be included within A24.2) to various connected undertakings. Such undertakings are defined in section 5 of the Introduction to these Notes.

Equity shares in A25.1 excludes investments in any subsidiary undertaking or other participating interests (shown in A25.2 to A25.5) and relates to holdings in bodies unconnected with the society or group (e.g. holding of shares in XYZ plc).

A25.4/5 Associated undertakings and other participating interests are also defined in Section 5 of the Introduction. As indicated in the table in that section, entries in respect of a society's or subsidiary undertakings' holdings in "participating interests" should be entered against "other participating interests".

A28 Other assets: Long term insurance funds

This refers to assets of long term insurers which represent funds arising from the carrying on of long term insurance business.

BUILDING SOCIETY: ANNUAL STATEMENT

SECTION A: BALANCE SHEET: PROVISIONS ANALYSIS

A41-A66 The analysis of provisions balances refers to those amounts deducted in arriving at the amounts shown in the balance sheet (in contrast to monthly and quarterly returns where all loan asset balances are shown "gross" i.e. without deduction of provisions which are shown separately).

BUILDING SOCIETY: ANNUAL STATEMENT**SECTION B: INCOME AND EXPENDITURE****B4 Income from investments**

Please refer to the definition of connected undertakings and other investments in section 5 to the Introduction to these Notes.

B5 Other income and charges

Although no longer a sub-head in the Accounts Regs, it has been retained since all the component items remain.

B5(c) Net profit/(loss) on financial operations includes:

- (i) net profit or loss on transactions in securities which are not held as financial fixed assets (see Note below), that is on such liquid assets held as a trading book, together with amounts written off or written back arising from valuation differences between book value and market value;
- (ii) net profit or loss on financial instruments (hedging instruments) except in so far as that income or charge is treatable as interest and included in interest receivable/payable (e.g. as may be the case for interest rate swaps)

Note: "financial fixed assets" means securities held as fixed assets; participating interests and shareholdings in subsidiary undertakings should always be regarded as financial fixed assets.

"fixed assets" means assets of a society which are intended for use on a continuing basis in the society's activities, and **current assets**" means assets not intended for such use.

B8 Provision for bad and doubtful debts will comprise charges for amounts written off (i.e. where not previously provided for in prior year accounts) and for additional provisions made in respect of loan asset items A22, A23 and A24 in the balance sheet. Also include **adjustments to provisions for bad and doubtful debts** e.g. arising from recoveries against previous write-offs.

BUILDING SOCIETY: ANNUAL STATEMENT

SECTION B: INCOME AND EXPENDITURE

B9 **Provisions for contingent liabilities and commitments** will comprise charges for provisions (net of any credits from the reduction of provisions previously made) for contingent liabilities and commitments of a type which would, if not provided for, be shown under items A12 or A13 in the balance sheet.

B10 **Amounts written off fixed asset investments**

This will comprise amounts written off (net of amounts written back following earlier write-offs) in respect of transferable securities held as financial fixed assets, participating interests, and shares in subsidiary undertakings which are included in Asset items A21.2 to A21.4, and A25.

BUILDING SOCIETY: ANNUAL STATEMENT

SECTION C: MISCELLANEOUS

Introduction

For details of items required on this part of the AFS1, please refer to relevant guidance notes on QFS1:

Section A: for values of statutory percentages

Section C: for information on loan book acquisitions and mortgage discounts/incentives

BUILDING SOCIETY: ANNUAL STATEMENT**SECTION F: DIVERSIFICATION**

- (i) The purpose of this section is to seek information on the extent to which societies have made use of the wider powers available to them under the 1986 Act, both following the 1988 review and now the 1997 Act. Although the structure and format of this section remains as it was when first introduced by the Building Societies Commission in 1992, there are good reasons for so doing. First, it still represents a comprehensive checklist of possible areas of diversification. Second, although in theory the 1997 Act opened up a wider range of possibilities, it is far from clear at this stage what other "services" would need to be added to this section. In due course it may be necessary to supplement the range of services listed, but for the immediate future the current listing is felt to be adequate.
- (ii) The various activities are divided between those which are "**directly provided**" and those which the society or group is "**arranging**". These terms can be defined as follows:
- (a) **Arranging** means that the society or a connected undertaking is acting as an agent for a third party;
- (b) **Directly provided** means provided by the society itself or by a connected undertaking. See also (iii) below.
- (iii) For the purposes of this table the term "**undertaken**" in the column sub-heading means undertaken as at year end. A service undertaken during the year but which is formally no longer arranged or provided at the year end (that is, has formally ceased) is not required to be reported as "undertaken". However, for the purposes of table G please include details of transactions (i.e. flows) during the relevant period for any service no longer **provided** at the year end (at which point of course, if the service is no longer provided, then an entry in table G will not be relevant for any stock or year end position / balance related to that service).

BUILDING SOCIETY: ANNUAL STATEMENT**SECTION G: SELECTED BUSINESS VOLUMES****Introduction**

This section covers selected areas of activity and generally asks for two volumes, numbers and amounts. It is intended to supplement information provided elsewhere in the return. In a number of instances it is asking for volumes of activities indicated in Section F. In all cases it refers to services **directly provided** rather than **arranged** [see Section F/1 of these Notes for definitions].

G1 Money Transmission**G1(a) Current Accounts**

The term is not defined in the 1986 Act as amended, and there is no direct definition in case law or in statute. However, it would appear that because the function of a current account is to facilitate day to day payments, the two essential characteristics are -

- (i) that balances must be repayable on demand, and
- (ii) that the customer has the right to draw personal cheques on the account.

Although certain other features may be common in current accounts (such as overdraft and other money transmission facilities), these would not seem to be essential characteristics.

G1(b) Guarantee Cards

This covers cards which guarantee cheques up to a stated value e.g. of £50 or £100 etc.

Where a card is 'multi purpose' that is it can be used, e.g., as a cheque guarantee card [G1(b)], and a debit card [G1(c)], it should be included separately under each applicable category in the numbers column.

BUILDING SOCIETY: ANNUAL STATEMENT

SECTION G: SELECTED BUSINESS VOLUMES

G1(d) ATMs

These are the **numbers of machines** operated from premises of the society, e.g. Head Office, branch offices, or companies within the group or at the society's agencies, or remote locations where no branch exists (e.g. petrol station, shopping centre etc) but which are owned (or rented) by the society and at which cash withdrawal cards issued by the society can be used.

G2 Lending**G2.1 and G2.2 Advances**

- (i) For definitions please refer to section F/1 and F/2 of the MFS1 Guidance Notes.
- (ii) Advances which include provisions for stage payments should count as **one** in the numbers column, that is the stage payments do not count as separate advances. Further advances however should be counted in addition to the original advance.

G3 Housing Activity

This section provides a breakdown of residential housing activity, between property development, properties for rental and properties involving shared ownership.

G3.1 Development properties

This analyses development activity in the construction of residential properties.

G3.2 and G3.3 Rented housing and shared ownership schemes

This is an analysis of residential properties distinguishing between those let solely as rented housing and those held as part of shared ownership schemes. Neither should include any development activities which should be dealt with in Section G3.1.

BUILDING SOCIETY: ANNUAL STATEMENT

SECTION G: SELECTED BUSINESS VOLUMES

G4 Estate Agency (Number of properties)

G4(b) Sales in period

This should include only those sales which have reached the stage of completion.

Properties which have been removed by the vendor unsold should not be included in 'sales'.

G5 Administration/Registration of share issues/transfers

G5(a) Transfers registered

- (i) Count as **one** transfer registering the transfer of a parcel of shares (arising through sales or purchases) or handling the issue of new share certificates or other new issue documentation.
- (ii) The **amount** to be entered is the nominal value of the shares subject to transfer/new issues.

G6 Investment Services

G6(a) Stockbroking: Clients and value of transactions in year

- (i) numbers of clients should not be adjusted to relate to shares transacted, i.e. where two separate parcels of shares are bought or sold for the same client this should count as **one**.
- (ii) Transactions. The amount is as defined in sub-paragraph G5(a)(ii) above.

G6(b) & (c) Numbers of clients as in sub paragraph G6(a)(i) above.

BUILDING SOCIETY: ANNUAL STATEMENT

SECTION G: SELECTED BUSINESS VOLUMES

G8 Trusteeship (Assets)

The value should be the amount of assets held at the year end on behalf of Charitable Trusts (a), or Trusts for Individuals (b).

G9 Executorship

G9(b) Wills/estates for which appointments held as executor/administrator at year end

This should be the totality of all appointments held regardless of whether any action has been, or is currently being, taken by the executor or administrator.

G10 Organisation

Please refer to section N of Guidance Notes for QFS1 return for definitions of line items used here.

BUILDING SOCIETY: ANNUAL STATEMENT**SECTION Y: SUMMARY OF DEDUCTING ITEMS**

Paragraph 8(iii) of the Introduction to these Guidance Notes makes reference to the treatment of items which are to be routinely 'deducted' in arriving at sub-totals or totals.

The items listed are those which are deducting items and which should **not** be shown in brackets unless the conditions in paragraph 8(iii) are met:

Table A(4) Column 2 (write offs) for every item A41.1 to A65.

Table B(1)	B2 (f)	all columns.
	B5 (b), (e)	all columns.
	B6(e)	all columns.

Table B(2) B7, B8, B9, B10 all columns.

B12, B14, B17, B19, B21, B22	all columns.

FINANCIAL SERVICES AUTHORITY

BUILDING SOCIETY: MONTHLY GAP RETURN

Guidance on Completion of Interest Rate Risk Gap Analysis

BUILDING SOCIETY: MONTHLY GAP RETURN

Introduction to gap analysis

1. Gap analysis is undertaken by examining details of interest sensitive assets and liabilities to establish when they will next reprice (i.e. be subject to a change in interest rate), and then tabulating those which reprice within set time periods (known as 'time buckets', within which all items repricing are grouped together). Interest rate sensitive items are those assets and liabilities that are subject to contractual change in interest rates, or which mature (fall due for repayment) during the period of the return. (Note that the contractual date for repricing purposes is not necessarily the maturity date of the asset/liability. For example, a 3 year loan could be repriced every six months at a spread above 6 month LIBOR. If it was rolled over a month ago then it will reprice in 5 months', not in 3 years', time.)
2. When fixed rate liabilities in an individual time bucket exceed fixed rate assets in the same bucket, a 'negative gap' exists for that period - implying that a rise in interest rates for that period should produce an increase in net interest income, and a fall in rates should give rise to a fall in net interest income. Conversely, when fixed rate assets exceed fixed rate liabilities in the same time bucket, a 'positive gap' exists and net interest income should fall if interest rates increase and rise if rates reduce.
3. The interest rate risk gap analysis incorporates three inter-linked limit structures:
 - (1) individual limits for each time bucket;
 - (2) cumulative limits for each successive time bucket; and
 - (3) sensitivity limits for the maximum change in economic value and interest income arising from a 3% parallel shift in interest rates.
4. All limits are sign insensitive - i.e., a £10m gap limit applies to both positive and negative gaps. Individual and cumulative gap limits need not be reported for periods up to one year ahead.

BUILDING SOCIETY: MONTHLY GAP RETURN

Setting Gap Limits

5. There are (at least) three possible approaches to the setting of cumulative limits, any of which will be acceptable:

- (1) totals of gaps from overnight forward, but with no limit on positions for less than one year out (i.e. count all positions into the total, but only monitor the total for buckets 1 year +);
- (2) ignore all gaps for periods up to one year out, then start accumulating gap positions, and setting limits, from one year forward; and
- (3) accumulate gap positions in reverse from the most distant period (but not including “no fixed repricing date” items) back towards today, setting limits accordingly.

6. In the first two cases, cumulative limits will become progressively larger as the period becomes more distant, until an overall limit is reached (the cumulative limit, to have any effect, needs to be set at less than the sum of individual gap limits). In the third case, limits will become progressively smaller as the period becomes more distant (i.e. because gaps accumulate in reverse, the limits increase towards the present). The advantage of the reverse cumulative limit structure is that it restricts the total extent of positions taken within and beyond each successive time bucket - where risks to economic value increase - whereas standard cumulative limits govern positions taken up to, and including, each time bucket. The reverse cumulative position can also be used to calculate net interest sensitivity by period.

7. All societies except those on the administered approach to financial risk management (see chapter 4 of the IPSB for building societies) must complete the Interest Rate Risk Gap Analysis.

BUILDING SOCIETY: MONTHLY GAP RETURN

8. A sample return was sent to societies in June 1996 as Annex 1 to the Building Societies Commission DCE letter (number DCE1996/9). For the reasons outlined in this guidance, this format is not mandatory and societies may use an alternative form of report. Accordingly, the sample format is not replicated here.

9. Societies should complete a gap report for each currency (including sterling) converted into its base currency (sterling) in which it has an exposure (hedged or not) on a group basis. The balance sheet categories in the sample return reflect those used in the MFS1 return. It is not expected that the MFS1 return and gap return figures will necessarily agree because of timing differences and the different bases of their preparation.

10. Suggested time buckets are:

Overnight (for variable items), O/N+ to 3 months, 3 to 6 months, 6 to 12 months, 1 to 2 years, etc to 9 to 10 years, 10 years + and “no specific repricing date”.

11. Variable rate items, for which there is no lead time between a change in market rates and a corresponding change in the contracted interest rate (i.e. effectively overnight) should be placed in the “overnight” time bucket. Conventionally, first year time buckets are of shorter duration than later time buckets. However, the precise choice of time buckets is a matter for each society.

12. On and off balance sheet items should be allocated to the various time buckets in accordance with their repricing date.

13. Care should be taken in allocating off balance sheet items. Societies need to consider the essential interest-bearing characteristics of these instruments. For example:

- 1 **Swaps:** if a fixed rate mortgage of 3 years maturity is swapped to a 6 month LIBOR rate then the impact on the gap analysis should be shown by placing the notional swapped amount into the 3 year liability time bucket and the same amount in the 6 month asset time bucket.

BUILDING SOCIETY: MONTHLY GAP RETURN

2. **FRAs:** if a deposit is due to reprice in 3 months' time for 3 months and the society wishes to hedge its exposure, then it might do so by buying an FRA where in 3 months' time it receives an amount of interest covering the further 3 month period (i.e. it will buy a 3v6 FRA). This should be shown as a 6 month liability and a 3 month asset in the gap analysis, reflecting the fact that effectively (a) the society has locked in now (at time zero) to paying a fixed rate in 3 months' time covering a 3 month period (hence in total 6 months), and (b) the society has an exposure now for 3 months to the rate at which the receiving leg of the FRA will settle. In 3 months' time, on settlement, the FRA will disappear from the analysis as proceeds, or preferably payments, will have been settled and the derivative interest rate exposure extinguished.

14. Any individual time bucket mismatches exceeding board-approved limits should be highlighted and the society should send, with the return, an explanation of the limit breach and its plan to rectify the situation.

15. Societies should apply cumulative limits to ensure that blocks of time buckets are monitored.

16. Societies should include (where material) a proportion of contracted balance sheet **commitments** (e.g. commitments for mortgage advance or future payments on SAYE/Sharesave accounts) and the corresponding funding requirement. It is considered that the interest rate risks of commitments are too significant to justify their exclusion from the return, even though this results in a return which shows a hybrid, as opposed to a purely static or dynamic, position. The proportion of commitments included in the gap analysis could be justified (for example) by reference to the society's average rate of conversion of commitments into advances. These items should be treated as "forward start" items, with the exposure starting on the estimated completion dates. The overriding criterion for the return is that it looks at a traded basis rather than a settled basis, recognising that the risk occurs at the point of commitment rather than when settlement occurs. If societies wish to isolate commitments for separate analysis, they can show them on a separate row(s) on the return.

BUILDING SOCIETY: MONTHLY GAP RETURN

17. The return also show the impact of three different “parallel across the yield curve” interest rate changes on net interest income. A “parallel across the yield curve” change assumes that a 0.5% rate change causes 6 month and 5 year rates to change by 0.5%. This assumes that short and long positions across different time buckets can be regarded as offsetting positions, i.e. hedging each other. In reality, of course, changes are not parallel and 6 month rates will change by a different amount to 5 year rates. However, the simplification is a fair starting point. If they wish, societies may provide an additional analysis justifying a different yield curve change to their usual supervisory contact at the FSA.

18. An indication of the sensitivity of the society to interest rate changes can be obtained by determining the effect on aggregate net interest income of a range of interest rate changes (+1%, +2%, +3%, -1%, -2%, -3%). The aggregate net interest income for this purpose will comprise the implicit cashflow (discounted to reflect the “time value of money”, i.e. more distant flows have less “value” than near flows) arising from an interest rate change for each time bucket and summed for all time buckets. The choice of discount factor will be at the discretion of the society and represents its estimated cost of money, which can be taken to be its weighted average cost of funds. Societies need to take into account the merits of achieving increased accuracy in calculating the discount rate for each time bucket given the other approximations already built in to the return. For example, time buckets over 1 year in the future are of 1 year duration and could conceal significant intra time bucket mismatches, yet these are netted and given a simple average time weighting (e.g. a 1 to 2 year time bucket mismatch is assumed to exist for 1½ years).

19. Only where there are no options in the balance sheet will the aggregate net interest income for an increase in interest rates equate (though be opposite in direction) to that for a fall in interest rates. Where options are in place, not only will be direction of interest rate changes become relevant but also will the size of the change. For example, take the case of minimum guaranteed savings accounts which become fixed rate accounts if interest rates fall: far more accounts will become fixed rate if rates fall by 1.5% rather than by 0.5%. The society’s systems will need to cater for these effects.

BUILDING SOCIETY: MONTHLY GAP RETURN

20. Non interest rate sensitive items (e.g. fixed assets, reserves or interest accruals) should be placed in the most distant time bucket. This should not be included in the sensitivity calculations but remains on the gap report for the sake of balance sheet completeness. The FSA recognises that there are several schools of thought over where to allocate reserves in a gap analysis and will consider other board-approved scenarios which are consistently applied and rationalised.

21. Where societies fully hedge or match customer products, in theory, there is no gap created. However, in practice, permanent one-for-one matching is not always possible. There may be lead times during which the asset/liability and the related hedge/match are out of step. For example, this may occur when swapping fixed rate mortgages: the mortgages can complete over a period of time, whilst the swap is typically effected in full at a particular point in time. A perfect match or hedge may be disrupted by the early repayment of a fixed rate mortgage or early withdrawal of a fixed rate savings product on the death of an investor. A gap analysis serves as a useful tool to monitor the extent of this mismatch and can act as a trigger for remedial action.

Section 4: Investment management firms: requirements applying to the completion of annual, quarterly and monthly financial returns

1 Table

(see SUP 16.7.38R)

1.1.1	<ol style="list-style-type: none"> (1) Financial Returns must be in agreement with the underlying accounting records. (2) Accounting policies must be consistent with those adopted in the Annual Accounts and must be consistently applied. (3) Information required in the Annual, Quarterly and Monthly Financial Returns must be prepared in accordance with generally accepted accounting practice. (4) Investments (other than investments in <i>subsidiary</i> and related <i>companies</i>) must be included in the balance sheet at cost or market value (or the <i>directors'</i> estimate of them). (5) The Financial Returns of an individual (or individuals in partnership or association) must deal only with his <i>regulated activities</i> (or, in the case of individuals in <i>partnership</i> or association, the business of the <i>partnership</i> or association). (6) The Financial Return of a <i>firm</i> must not give a misleading impression of the <i>firm</i>.
1.1.2	A Financial Return is likely to give a misleading impression if a <i>firm</i> wrongly omits or includes a material item, or presents a material item in the wrong way.

Guidance notes to persistency report

Please provide (either below or on a separate sheet of paper):

- details of any alternative approaches used to calculate figures if this is permitted by the rules in SUP 16.8;
- a note of any types of policy for which no figures have been submitted (including any types to be reported on in Forms 1R(2) and 1R(3));
- a brief explanation of the effects of inaccuracies on the figures for previous years which have already been supplied; and
- confirmation that regular premium life policies have only been treated as in force if a premium has been received on or after the relevant policy anniversary.

Expressions which are defined in the Handbook Glossary, or in SUP 16.8, have the same meanings in this form.

Signature and declaration

Knowingly or recklessly giving the FSA information which is false or misleading in a material particular may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). SUP 15.6.1R and SUP 15.6.4R require an *authorised person* to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided. SUP 16.3.11R requires an *authorised person* to submit reports containing all the information required. APER 4.4.6E provides that, where an *approved person* is responsible for reporting matters to the FSA, failure to inform the FSA of materially significant information of which he is aware is a breach of *Statement of Principle 4*. Contravention of these requirements may lead to disciplinary sanctions or other enforcement action by the FSA. It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. If there is any doubt about the relevance of information, it should be included.

I confirm that the information in this form is accurate and complete to the best of my knowledge and belief and that I have read the Guidance Notes to this form.

Signature and declaration

Knowingly or recklessly giving the FSA information which is false or misleading in a material particular may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). SUP 15.6.1R and SUP 15.6.4R require an *authorised person* to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided. SUP 16.3.11R requires an *authorised person* to submit reports containing all the information required. APER 4.4.6E provides that, where an *approved person* is responsible for reporting matters to the FSA, failure to inform the FSA of materially significant information of which he is aware is a breach of *Statement of Principle 4*. Contravention of these requirements may lead to disciplinary sanctions or other enforcement action by the FSA. It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. If there is any doubt about the relevance of information, it should be included.

I confirm that the information in this form is accurate and complete to the best of my knowledge and belief and that I have read the Guidance Notes to this form.

Form submitted by (BLOCK CAPITALS):

The following person should be able to assist the FSA with any queries that may arise:

This section must be completed by all Category A2, B2, A3 and B3 firms

1.01 Have you received any written complaints in respect of your regulated activities?

YES NO

If YES, please summarise

1.02 During the period has more than 20% of new business commission been generated from one company?

YES NO

If YES, please identify the company or companies concerned and give an explanation

1.03 During the period did you receive 20% or more of your commission income from one company in respect of single premium bonds or-unit trusts or investment trusts (including those within ISA[®])?

YES NO

If YES, please identify the company or companies concerned and give an explanation

1.04 During the period have you been asked to pay or have you repaid indemnity commissions?

YES NO

Does this repayment represent more than 5% of your commission income received on indemnity terms?

YES NO

1.05 During the period have you advised any of your clients to discontinue regular premiums on any life policy or pension contract and substituted any similar contract?

YES NO

If YES, please give details

1.06 Are there any outstanding legal proceedings against you or any approved persons of yours or of your appointed representatives?

YES NO

If YES, please provide details, including all parties involved; amount(s) involved; reason for the proceedings; (if you expect to settle the dispute) the likely date of settlement; and the date the proceedings (if not settled) are expected to be heard

1.07 Have all terminated contracts of registered individuals or appointed representatives been notified to FSA?

YES NO

If NO, please explain

1.08 Have all notifiable matters relating to changes of control, partners, directors, auditors and accounting reference date been notified to FSA?

YES NO

If NO, please explain

1.09 Have you complied with the rules relating to complaints procedures as set out in DISP Chapter 1?

YES NO

If NO, please explain

1.10 a Does any life office or collective investment operator own more than 5% of your share capital?

YES NO

If YES, please give details

b Has any life office or collective investment operator provided unsecured loans or any other benefit to you?

YES NO

If YES, please give details

These questions must be answered by Category A3 and B3 firms ONLY

- 2.01** Have you received, during the period, any cash or cheques made out to you, in error, which should have been made out to a third party?

YES

NO

If YES, please give details of the action you have taken in each case

- 2.02** Have you held any certificates relating to the clients' investments for more than four weeks?

YES

NO

If YES, please explain

- 2.03 a** What was your turnover (commission, fees, interest etc) from business activities?

£

- b** Did this exceed expenditure (excluding expenditure on purchase of fixed assets) — i.e. has a profit resulted for the period under review?

YES

NO

If NO, please forward an explanation supported by your most recent Profit and Loss Account and Balance Sheet

- 2.04** What proportion of that income is generated by non-regulated activities?

%

Please provide details

2.05 a Have you maintained accounting and other records in accordance with IPRU(INV) 13.1.11R? YES NO

If NO, please provide explanations

b Have you maintained records which are sufficient to enable the FSA to verify the calculations you have prepared to support your Financial Declaration? YES NO

If NO, please explain

2.06 **In the case of incorporated businesses only**, have the most recent statutory accounts which are due been prepared and submitted in accordance with the Companies Acts timetable? YES NO

If NO, please explain

2.07 **In the case of incorporated businesses only**, did the audit opinion given in respect of the most recent set of statutory accounts contain any qualification? YES NO

If YES, please explain

2.08 Has the firm undertaken any transaction in respect of the following investments?:

a equities/gilts YES NO

b BES/PETs YES NO

c other notifiable transactions YES NO

You need not answer these questions if you have enclosed accounts in the format specified by the FSA in the Guidance Notes

1 a What was the total turnover from the business activities of the firm during the period? £

b Have there been any significant changes in the composition of turnover compared with the previous period? YES NO

If YES, please explain

c What proportion of the turnover was generated by business which the FSA does not regulate? %

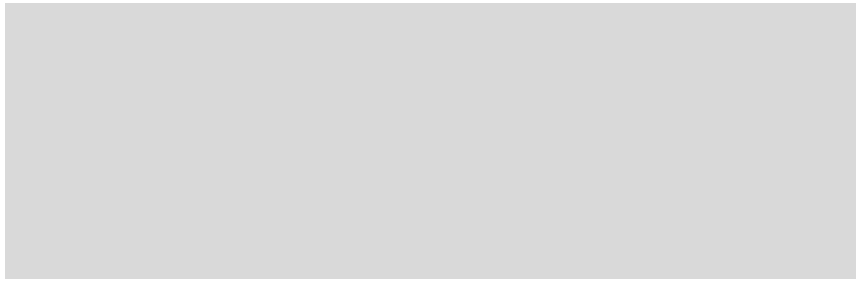

Please provide details

2 Has there been any material change in the firm's financial position during the period? YES NO

If YES, please give details

3 Please provide the following details:

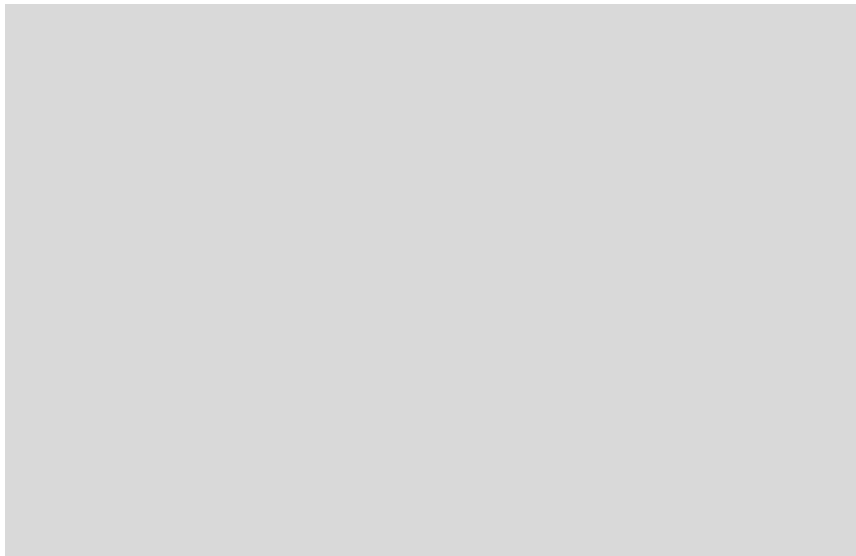

a The firm's bank position at the accounting reference date

b Any major fixed asset additions or disposals during the period

c The major creditors at the accounting reference date, together with payment terms

These questions must be answered by all firms

- 4 Does the firm have, and has it had **at all times** during the period, own funds of at least £10,000 as required by IPRU(INV) 13.10.1R?

YES NO

If NO, please explain

- 5 Is the firm able, and has it been able **at all times** during the period, to meet its liabilities as they fall due, as required by IPRU(INV)13.1.2(2)?

YES NO

If NO, please explain

- 6 a Has the firm maintained accounting and other records in accordance with IPRU(INV)13.1.11R and SYSC 3.2.20R?

YES NO

If NO, please explain

- b Has the firm maintained records to enable the FSA to verify the calculations prepared to support the financial declarations made in response to questions 4 and 5 above?

YES NO

If NO, please explain

- 7 Has more than 20 per cent of new business commission been generated from any one product provider during the period?

YES NO

If YES, please identify the company or companies concerned together with the percentage and give an explanation

8 Has the firm been asked to repay or has it repaid indemnity commission during the period?

YES NO

If YES, do these requests for repayment represent more than 5 per cent of the firm's commission income received on indemnity terms during the period?

YES NO

If YES, please provide an explanation and details of the proportion of commission income received on indemnity terms which the repayments represent and whether these amounts have been repaid.

9 a How many complaints has the firm received during the period?

b Has the firm complied with the requirements relating to complaints procedures as set out in DISP Chapter 1?

YES NO

If NO, please explain

10 Are there outstanding, or have there been at any time during the period, any legal proceedings against the firm, its principals or any of its appointed representatives? YES NO

If YES, please give details

11 Has the firm received, during the period, any cash or cheques made out to it, which should have been made out to a third party? YES NO

If YES, please give details of the action taken in each case

12 Has the firm held any client title documents or other assets belonging to clients (other than client money) for more than four weeks? YES NO

If YES, please explain

13 a Have the firm's investment business activities during the period been such that it has engaged in business outside its permission? YES NO

If YES, please explain

13 b Does the firm have any close links with other persons which have not previously been notified to the FSA?

YES

NO

If YES, please provide details

14 Has the firm complied with the requirements relating to training and competence as set out in the Training and Competence Sourcebook?

YES

NO

If NO, please provide details

This question must be answered by incorporated businesses only

- 15 a Have the most recent statutory accounts been prepared and submitted to the Registrar of Companies in accordance with the Companies Act timetable?

YES NO

If NO, please explain

- b Did the audit opinion given in respect of the most recent set of statutory accounts contain any qualification or include any reference to a fundamental uncertainty?

YES NO

If YES, please provide a copy of these accounts and the audit report.

- c Is the firm a holding company or is any of its qualifying holders a company?

YES NO

If YES, please submit with this questionnaire, in accordance with SUP 16.7.49R, a copy of the latest available audited, consolidated annual financial statements for the group and an organisation chart, tracing the route to the ultimate qualifying holder or holders.

If the required documents are not being submitted, please explain

- d Has the firm received an auditor's report to management during the period?

YES NO

If YES, has the firm promptly informed the FSA of anything in that report, which relates to the firm, and of which the FSA would reasonably expect prompt notice (see SUP 15.3.8G(2))?

YES NO

If NO, please explain

These questions must be answered by unincorporated businesses only

16 a If the firm is a **sole trader**

(i) Does the total of your personal and business assets exceed the total of your personal and business liabilities?

YES NO

(ii) Will you be able to meet those liabilities as they fall due?

YES NO

If the answer to either question is NO, please explain

b If the firm is a **partnership**

(i) Do the personal assets of each individual partner exceed his or her personal liabilities?

YES NO

(ii) Will they be able to meet those liabilities as they fall due?

YES NO

If the answer to either question is NO, please explain

c In confirming the statement of solvency in question 16(a) or 16(b), has the firm applied the accounting principles set out in SUP 16 Ann7R (Section 5, Table 1R) (excluding paragraph 2) and included as a liability a provision for taxation on the whole of its profits up to the date when the last balance sheet was prepared?

YES NO

If NO, please explain

17

If the firm is a **sole trader**, has it reviewed its arrangements, and the arrangements of its appointed representatives, as required by SYSC 3.2.19G, to ensure that they remain effective to safeguard the interests of customers in the event of the absence, illness, disability or death of any essential member of its staff?

YES

NO

If YES, please provide details of any change in the arrangements or confirm that no changes are required

If NO, please explain

RESTRICTIONS ON FINANCIAL RESOURCES

Guidance: Where you have been required to make deductions to your own funds level as a result of the restrictions detailed in IPRU(INV) Table 13.3.2(2), the amounts that were deducted can be used in Financial Resources Test 2, but subject to separate restrictions which also take into account the level of short-term subordinated loans and preference shares. This form is required to establish whether any deductions are required to the amounts entered in Form 13F

Statement of solvency

I certify that, to the best of my knowledge and belief, the total of my personal and business assets exceeds the total of my personal and business liabilities and that I am able to meet those liabilities as they fall due.

Confirmation

I confirm that, in making this statement of solvency, I have applied the Accounting Principles set out in SUP16 Ann 7R (Section 5, Table 1R) of the Rules (excluding paragraph 2(a)) and included as a liability a provision for taxation on the whole of my profits up to the date of the accompanying balance sheet.

Signature and declaration

Knowingly or recklessly giving the FSA information which is false or misleading in a material particular may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body.

I confirm that the information in this statement is accurate and complete to the best of my knowledge and belief.

Section 5: Personal investment firms: requirements applying to the completion of reports

1 Table

		(See SUP 16.7.51R)
1.	(1)	Each report must provide the required information:
	(a)	fully and accurately;
	(b)	where applicable, in accordance with the accounting principles set out in Table 1 of this annex.
	(2)	A <i>firm</i> must prepare its reports as at its annual <i>accounting reference date</i> and at the applicable intervals between those dates which are specified in SUP 16.7.45R, SUP 16.7.47R and SUP 16.7.49R.
	(3)	A <i>firm</i> must submit reports to the FSA by the dates for submission to the FSA stipulated in SUP 16.7.45R, SUP 16.7.47R and SUP 16.7.49R.
	(4)	Financial statements and any questionnaire, which a <i>firm</i> is required to complete, must be approved and signed as set out in Table 2R.
	(5)	For Form CAD 13 (a copy of which is to be found at the end of Schedule 13A in section 3 of SUP16 Ann 7R), the <i>firm</i> must use figures which are taken from its most recently audited accounts, unless they relate to a material change of a kind specified in that form.
	(6)	A report on holdings of second-hand <i>life policies</i> must contain the following information:
	(a)	the value at the reporting date of each <i>policy</i> held for resale or <i>investment</i> , calculated in accordance with IPRU(INV) 13.12.3R and discounted where appropriate in accordance with IPRU(INV) 13.12.3R;
	(b)	the length of time for which it has been held; and
	(c)	the date to which the <i>surrender value</i> calculated in IPRU(INV) 13.12.3R is or was valid.

2 Table

Table 1R – Accounting Principles

(1) Except as in (2) and (12) below, amounts to be included for all items shown in the *firm's* balance sheet and profit and loss account must be determined in accordance with:

(a) the accounting principles and rules contained in the Companies Acts;

(b) generally accepted accounting standards; and

(c) the provisions of (3) to (11) below

(2) (a) If the *firm* is a *sole trader*, the items to be included in a financial statement must only be those which relate to the *sole trader's* business as a *firm*.

(b) If the *firm* is a *body corporate* with one or more *subsidiaries*, its financial statements must be unconsolidated.

(3) (a) All amounts must be shown in pounds sterling.

(b) A *firm* must translate assets and liabilities denominated in other currencies into pounds sterling using the closing mid-market rate of exchange (or, where appropriate, the rates of exchange fixed under the terms of related or matching forward contracts).

(4) All balances with *counterparties* which are due to be settled against delivery of documents of title must be reflected at their gross amounts unless the parties to the transactions have expressly agreed in writing that they are to be settled on a net basis.

(5) The items in the balance sheet and profit and loss account must be shown in the order and under the headings and sub-headings given in Forms 13A and 13B respectively (but may be shown in more detail than those forms require).

(6) The balance sheet or profit and loss account may include as a separately identified sum any asset or liability, or income or expenditure, not otherwise covered by one of the items listed in Forms 13A and 13B.

(7) A heading or sub-heading corresponding to an item listed in Form 13A or 13B need not be included if there is no amount to be shown for that item in respect of the period to which the balance sheet or profit and loss account relates or in respect of the preceding period.

(8) In the annual statements, in respect of every item in the balance sheet or profit and loss account the corresponding amount for the financial year immediately preceding must also be shown.

(9) No netting is allowed (that is amounts in respect of items representing assets or income may not be offset against amounts in respect of items representing liabilities or expenditure, as the case may be, or vice versa).

Table 1R – Accounting Principles

(10) Balances on *client bank accounts* and related client accounts must not form part of the *firm's* own balance sheet, but must be shown in the notes to the financial statements. If the *firm* has *permission* to perform discretionary portfolio management it must disclose in the notes to the financial statements the value of clients' assets of which the *firm* is discretionary portfolio manager and which are in the *firm's* possession or held to its order

(11) The Notes to the balance sheet and profit and loss account must include the following information where applicable:

(a) A statement of accounting policies

This must include details of the accounting policies which have been adopted in respect of the items which are material to the balance sheet and profit and loss account. However, where the *firm* has revenue from *commissions* on transactions in *life policies* or *pension contracts* there must be an accounting policy note on the recognition of this income, and in particular in respect of any indemnity *commission* income (see (c) below).

There should also be a statement that the balance sheet and profit and loss account have been prepared in accordance with the Companies Acts and with the standards specified in (1)(b) above

(b) Detailed analyses of items in the balance sheet or profit and loss account

The notes are expected to include, where appropriate, analysed information on items in the balance sheet or profit and loss account.

(c) Indemnity *commission* income. A *firm* must disclose fully:

- (i) its accounting policy in respect of indemnity *commission*;**
- (ii) the actual provision made in the financial statements;**
- (iii) the value of *commission* which has been repaid to *suppliers* during the period covered by the financial statements;**
- (iv) the number of *policies* subject to clawback of *commission* which have lapsed during the accounting period.**

(d) Contingent liabilities

A *firm* must disclose fully every contingent liability which exists at the balance sheet date, in particular:

Table 1R – Accounting Principles

- (i) an indication of the amount of the potential liability involved;
- (ii) an indication of the likelihood that the potential liability will crystallise;
- (iii) full details of the background to the contingency.

If no contingent liabilities exist at the balance sheet date there should be a note to this effect.

(12) If it appears to the *firm* that there are special reasons for departing from any of the principles and rules in this table in preparing its financial statements in respect of any financial year, it may do so, but the *firm* must include in a note to the financial statements particulars of the departure, reasons for it and its effect.

3 Table**TABLE 2R****APPROVAL AND SIGNATURE OF REPORTS**

	<i>Sole trader</i>	<i>Partnership</i>	<i>Company</i>
The <i>firm's</i> financial statements must contain a statement setting out:	whether his total assets exceed his total liabilities (whether or not the assets and liabilities arose in the course of <i>regulated activities</i>)	that the financial statements were approved at a meeting of the <i>partners</i>	that the financial statements were approved at a meeting of the <i>directors</i>
The <i>firm's</i> financial statements and any questionnaire must be signed by:	the proprietor	at least two <i>partners</i>	at least two <i>directors</i> *

*Note: If there is only one *director*, then that *director* and the company secretary must sign.

GUIDANCE NOTES on completion of the pro forma Consolidated financial resources return for personal investment firms

INTRODUCTION

Excessive risks or financial deficiencies in other parts of a group may damage the financial viability of a Category A firm. IPRU(INV)13.7 in the FSA Handbook enables the FSA to gather information so that it can watch for such weaknesses in a group and, if necessary, call for protective or remedial action.

IPRU(INV)13.7.1R states that you must comply with IPRU(INV)13.7 if you are a member of a group.

IPRU(INV)13.7.2R states that where IPRU(INV)13.7 applies, you must provide to the FSA information about yourself and other members of your group relevant to the formation of a complete picture of the group, its structure and organisation and risks to which the firm may be subject as a member of that group.

IPRU(INV) 13.7.2AR states that a Category A firm must ensure that it and other members of its group apply the provisions of chapter 13 of IPRU(INV) on a consolidated basis unless:

- (1) the group is subject to the consolidated supervision requirements imposed by the FSA rules in another chapter or sourcebook; or
- (2) the FSA is not the consolidating supervisor for the firm's group.

IPRU(INV)13.7.2BR states that where a Category A firm is exposed to undue risk in consequence its membership of a group, it must provide against, reduce or eliminate that risk.

To enable the FSA to obtain a complete picture of financial position of the group of which the firm is a member, in accordance with IPRU(INV)13.7.2R, you are required to complete the consolidated financial resources return.

In accordance with IPRU(INV)13.7.2BR, the FSA will require the firm to take steps to eliminate a consolidated deficiency shown by the return.

The guidance for completion of each page of the consolidated financial resources return are given below.
