

READER'S GUIDE INSTRUMENT 2001

- A. The Financial Services Authority issues the guidance in the Annex to this instrument in the exercise of the power conferred by section 157(1) of the Financial Services and Markets Act 2000 (Guidance).
- B. This instrument shall come into force immediately.
- C. This instrument may be cited as the Reader's Guide Instrument 2001.
- D. Part 1 of the Annex to this instrument may be cited as the Reader's Guide. Part 2 of the Annex to this instrument may be cited as the Reader's Guide Summary.

By order of the Board
21 June 2001

ANNEX

PART 1

READER'S GUIDE

WHAT IS THIS GUIDE?

1. This guide is an introduction to the FSA's Handbook of rules and guidance. It describes the contents of the Handbook; where to find them; and how to make use of them.
2. The guide covers:
 - (1) structure (paragraphs 3 to 17);
 - (2) status of provisions (paragraphs 18 to 31);
 - (3) contents pages (paragraph 32);
 - (4) numbering :
 - pages (paragraphs 33 to 37);
 - contents (paragraphs 38 to 42);
 - (5) cross-references (paragraphs 43 to 45);
 - (6) defined terms (paragraph 46);
 - (7) schedules (paragraphs 47 to 59);
 - (8) glossary of definitions (paragraphs 60 to 64); and
 - (9) index (paragraphs 65 to 68).

STRUCTURE

3. The Handbook is available on the Internet, on CD-ROM and on paper. Its structure and contents, which are the same in each medium, are set out in the table at the end of this guide.
4. Section 153 of the Act requires the FSA to exercise its rule-making powers in writing. The Act describes the document by which the rules are made as a 'rule-making instrument' and imposes a number of requirements, including a requirement to publish it. The FSA will publish all instruments by which provisions in the Handbook are made or amended in full on its website. These fulfil the statutory and other legal requirements for publication, and will be the definitive source for determining what the text was at any particular time for legal purposes (see section 154 of the Act (Verification of rules)).
5. The Handbook as published on CD-ROM and on paper will provide a continuously updated consolidation of the contents of the instruments by which the provisions in the Handbook are made.
6. The Handbook consists of sourcebooks (providing sources of the FSA's requirements and guidance) and manuals (containing processes to be followed). The sourcebooks and manuals are arranged in groups according to their subject matter.
7. Each sourcebook or manual has a reference code of two or more letters. This is usually a contraction or abbreviation of its title, for use in cross-references in the text and in the index. A list of these codes is to be found in the table at the end of this guide.

Prudential sourcebooks

8. To allow more time to achieve satisfactory modernisation and harmonisation, the final, integrated, Prudential sourcebook has been deferred. Meanwhile, the Handbook contains five Interim Prudential sourcebooks:

- | | |
|-------------------------------|------------|
| (1) for banks | IPRU(BANK) |
| (2) for building societies | IPRU(BSOC) |
| (3) for friendly societies | IPRU(FSOC) |
| (4) for insurers | IPRU(INS) |
| (5) for investment businesses | IPRU(INV) |

The prudential categories, which normally determine which of these versions applies to a firm, are explained in Appendix 1 to the Supervision manual (SUP App 1). Each of these sourcebooks continues the existing prudential regime, with changes mainly where the Financial Services and Markets Act 2000 (the Act), and other statutory and international developments, have made a change desirable or essential.

9. Until the integrated Prudential sourcebook comes into force, the prudential provisions for Lloyd's are included in the Lloyd's sourcebook.

Contents of sourcebooks and manuals

10. Each sourcebook or manual has with or in it:

- (1) this guide, or a summary of it;
- (2) a contents page;
- (3) a schedule of transitional provisions (if any); and
- (4) the main text, with any annexes and appendices to it.

In addition:

- (5) schedules of supplementary information (see paragraphs 47 to 59); and
- (6) a glossary of defined terms used, with their definitions (see paragraphs 60 to 64);

are provided (on the Internet, on disk and in hard copy with each module or group of modules as appropriate). An index is also planned.

11. Each sourcebook or manual is divided into chapters. A chapter is divided into sections, and each section is divided into paragraphs.

12. Each paragraph has a regulatory status, indicated by:

- (1) an icon containing a letter ('R' for rule, and so on; see paragraphs 18 to 31); and
- (2) the typeface:
 - (a) Sabon bold 12 point for rules (**R**);
 - (b) Sabon 11 point for directions (**D**);
 - (c) Officina Sans 12 point for Statements of Principle for approved persons (**P**);
 - (d) Officina Sans 11 point for conclusive descriptions of behaviour (**C**);
 - (e) Sabon 12 point for evidential provisions (**E**); and
 - (f) Sabon 10 point for guidance (**G**).

13. Beneath the icon appear:

- (1) the date on which the paragraph came into force; and
- (2) the number of the Handbook release in which the paragraph first appeared in its current form.

14. Each sourcebook or manual, or each chapter or section in it, begins with an application provision. This explains to what types of firm or other person, or to persons carrying on what types of business, the sourcebook or manual, or the chapter or section, applies.

15. After the application provision, each chapter will normally contain a statement of purpose. This explains the objective of the provisions in the chapter: what standards is it intended to uphold? does it reinforce one or more of the Principles for Businesses? does it implement European measures? what result does it aim at? If the subject of the chapter is complicated or detailed, the purpose statement may contain, or be followed by, a table or paragraph mapping the shape and main features of the chapter. Where it may help the reader's understanding, a section too may open with a purpose paragraph.
16. A chapter may have one or more annexes, containing material that supplements the contents of the chapter, but would interrupt the flow of the text if it were included in the chapter itself. The contents of an annex are normally all of one status, shown by an icon, containing the status letter, at the top of the page.
17. A sourcebook or manual may have one or more appendices. These normally relate to the whole sourcebook or manual, or to more than one chapter in it. The contents of an appendix may, like the main text, be of more than one status. This is shown in the same way, by icons.

STATUS OF PROVISIONS

18. The Handbook contains the following types of provision, whose status is indicated by icons containing the letters below. The precise legal status of any particular provision depends upon the terms of the Act and the particular power exercised to create that provision. Schedule 4 lists the powers used to make the various parts of the Handbook (see paragraphs 49 and 56). So what follows is only an introduction.

R

19. The letter R is used to indicate general rules made under section 138 of the Act and specialised rules made under sections 140 to 147 and other powers. (It is not used for evidential provisions (see E, paragraphs 24 to 27).) The legal effect of a rule varies, depending on the power under which it is made, and on the language used in the rule – is it mandatory language or not? Most of the rules in the Handbook create binding obligations on firms (that is, authorised persons). If a firm contravenes such a rule, it may be subject to enforcement action (see ENF) and, in certain circumstances, to an action for damages (see Schedule 5, paragraph 57).
20. The FSA Principles for Businesses are rules. (For the Statements of Principle for approved persons, see P, paragraph 22.)

D

21. The letter D is used to indicate directions and requirements given under various powers conferred by the Act – for example, directions under section 51(3) of the Act about the form and content of applications for Part IV permission. Directions and requirements are binding upon the persons or categories of person to whom they are addressed.

P

22. The letter P is used to indicate the Statements of Principle for approved persons made under section 64 of the Act. The Statements of Principle are binding on approved persons.

C

23. The letter C is used for paragraphs made under section 119(2)(b) of the Act which specify descriptions of behaviour that, in the opinion of the FSA, do not amount to market abuse. These descriptions are conclusive because such behaviour is to be taken, for the purposes of the Act, as not amounting to market abuse (section 122(1)).

E

24. The letter E is used to identify evidential provisions with the characteristics specified in section 149 of the Act. An evidential provision is a rule, but it is not binding in its own right. It always relates to some other binding rule. When it says so, compliance with an evidential provision may be relied on as 'tending to establish compliance' with the rule to which it relates. And when it says so, contravention of an evidential provision may be relied on as 'tending to establish contravention' of the rule to which it relates. An evidential provision of this kind will always say one of these things, and it may say both. Such evidential provisions are thus indicative in nature: they create rebuttable presumptions of compliance with or contravention of the binding rules to which they refer.
25. E is also used for the paragraphs that make up the Code of Practice for Approved Persons (APER 3) made under section 64 of the Act. That code may be relied on so far as it tends to establish whether or not the conduct of an approved person complies with the Statements of Principle for approved persons.
26. E is also used for certain paragraphs in the Code of Market Conduct (MAR 1) made under section 119 of the Act. These paragraphs specify:
 - (1) descriptions of behaviour that, in the opinion of the FSA, amount to market abuse; and
 - (2) factors that, in the opinion of the FSA, are to be taken into account in determining whether or not behaviour amounts to market abuse.
27. These paragraphs of the Code of Market Conduct may be relied on so far as they indicate whether or not particular behaviour should be taken to amount to market abuse (section 122(2) of the Act).

G

28. The letter G is used to indicate guidance given under section 157. The guidance in the Handbook relates to the operation of the Act, the rules in the Handbook and other matters. Guidance may be used to explain the implications of other provisions, to indicate possible means of compliance, to recommend a particular course of action or arrangement, and for other purposes. Whatever guidance is used for, it is not binding on those to whom the Act and rules apply, nor does it have 'evidential' effect. It need not be followed in order to achieve compliance with the relevant rule or other requirement. So a firm cannot incur disciplinary liability merely because it has not followed guidance. Nor is there any presumption that departing from guidance is indicative of a breach of the relevant rule.
29. Guidance is generally designed to throw light on a particular aspect of regulatory requirements, not to be an exhaustive description of firms' obligations. If a person acts in accordance with guidance in the circumstances contemplated by that guidance, then the FSA will proceed on the footing that the person has complied with the aspects of the rule or other requirement to which the guidance relates.
30. Rights conferred on third parties (such as a firm's clients) cannot be affected by guidance given by the FSA. Guidance on rules, the Act or other legislation represents the FSA's view, and does not bind the courts, for example in relation to an action for damages brought by a private person for breach of a rule (see section 150 of the Act (Actions for damages)), or in relation to the enforceability of a contract where there has been a breach of the general prohibition on carrying on a regulated activity in the United Kingdom without authorisation (see sections 26 and 27 of the Act (Enforceability of agreements)). A person may need to seek his own legal advice.
31. G is also used for the FSA's statement of the procedure for giving statutory notices under section 395 of the Act (see DEC), for the various statements of policy regarding use of the FSA's enforcement powers (see ENF), and to indicate the arrangements made by the FSA under paragraph 7 of Schedule 1 to the Act for the investigation of complaints arising in connection with its exercise or non-exercise of its non-legislative functions (see COAF).

CONTENTS PAGES

32. The contents page of each sourcebook or manual lists the chapters, sections, annexes, appendices and schedules in it (without page numbers). To find a section on a particular topic, or any other item, use the electronic links.

NUMBERING: PAGES

33. Page numbers are not important in the Handbook. In the paper version, page numbering starts again at the beginning of each chapter. But each page of a chapter shows:

- (1) the reference code for the sourcebook or manual;
- (2) the number and title of the chapter; and
- (3) the number and title of the section of the chapter.

For example, the first page of Chapter 3 of the Supervision manual shows at the top, on the left 'SUP 3: Auditors' and on the right 'Section 1: Application'. In addition, each page of a chapter shows, at the foot of the page, the number of the last paragraph on the page.

34. Each page of an annex shows, at the top of the page, the reference code, number and title of the chapter to which the annex relates, and the number and status of the annex.
35. Each page of an appendix shows, at the top of the page, the reference code of the sourcebook or manual to which the appendix relates, and the number and title of the appendix.
36. Each page of the Handbook also shows, at the foot of the page, the number, month and year of the release with which the page was published (for example, 'FSA Handbook: Release 03: October 2001').
37. Both the electronic and the paper editions of the Handbook represent the text of the Handbook current at the date of the last release, including all amendments to that date.

NUMBERING: CONTENTS

38. The main text of the Handbook is numbered as follows:

- | | | |
|-------------------|----------|--------------------------|
| (1) chapter | 1 | (2, 3 etc) |
| (2) section | 1.1 | (1.2, 1.3 etc) |
| (3) paragraph | 1.1.1 | (1.1.2, 1.1.3 etc) |
| (4) sub-paragraph | 1.1.1(1) | (1.1.1(2), 1.1.1(3) etc) |

39. Sub-sub-paragraphs are shown by (a), (b), (c) and so on, and sub-sub-sub-paragraphs by (i), (ii), (iii) and so on. For example, the third paragraph of the second section of the first chapter in the Conduct of Business sourcebook, if it were a rule, would be COB 1.2.3R. A sub-sub-paragraph of that paragraph would be COB 1.2.3R(1)(a).
40. When changes are made in the text, if it becomes necessary to add new material between two pieces of existing text, the Handbook numbering will change in the same way as in a statute. For example, if a new paragraph has to be inserted between two existing paragraphs numbered COB 1.2.3R and COB 1.2.4R, the new paragraph will be given the number of the paragraph before it plus the letter A, so that it becomes COB 1.2.3AR.
41. A table in the text is numbered as if it were a paragraph.
42. An illustration in the text, such as a flow-chart, is numbered with the number of the chapter and section in which it appears, followed by the number of the illustration itself. For example, the third illustration in the second section of the first chapter of the Supervision manual would be numbered SUP Fig 1.2.3. If the illustration were in an appendix, it would be numbered according to the number of illustrations in the appendix.

For example, the third illustration in the second appendix to the Enforcement manual would be ENF App 2 Fig 3.

CROSS-REFERENCES

43. In cross-references, and generally, the reference code letters of the sourcebook or manual are given in front of the number, and, if the cross-reference is to a paragraph (or a table or an annex), the letter indicating its status is added at the end. So the first chapter in the Conduct of Business sourcebook is referred to as COB 1; its first section as COB 1.1; and its first paragraph (which is a paragraph of guidance) as COB 1.1.1G.
44. A cross-reference to the annex to COB 1 appears as COB 1 Ann 1G. A cross-reference to an appendix appears, for example, as SUP App 1, and to the first paragraph in that appendix as SUP App 1.1.1G.
45. The index, when referring to an item in a chapter or an appendix, will show the number and regulatory status of the relevant paragraph. When referring to an item in an annex, however, or in a table or illustration, the index will show only the number and status of the annex, table or illustration (not the number of a paragraph within it).

DEFINED TERMS

46. Defined terms used in the text are shown in *italic type*. Where a word or phrase is in italics, its definition can be found in the glossary of defined terms near the end of the sourcebook or manual, or in the consolidated glossary. Where a word or phrase which is shown in italics in one part of the text appears without italics in another part, it is meant to be given, where unitalicised, its ordinary natural meaning. Paragraphs 60 to 64 give more information about the Glossary.

SCHEDULES

47. Each sourcebook or manual contains:
 - (1) a schedule of transitional provisions, immediately after the Contents page;
 - (2) schedules, after the text, of any:
 - (a) record keeping requirements (Schedule 1);
 - (b) notification requirements (Schedule 2);
 - (c) fees and other required payments (Schedule 3);
 - (d) statutory powers exercised by the FSA in making the Handbook (Schedule 4);
 - (e) rights of action for damages (Schedule 5); and
 - (f) rules that can be waived (Schedule 6).
48. Schedules 1 to 3 briefly summarise the contents of the relevant provisions in the sourcebook or manual and cross-refer to them.
49. Schedules 4, 5 and 6 specify the powers the FSA has exercised in making each rule-making instrument (see paragraph 4), summarise the rights of action for damages which attach to many rules, and state which rules can be waived, and under which section of the Act.
50. Where comprehensive schedules may be useful, consolidated versions, drawing together the contents of the schedules from each sourcebook and manual, will be provided.
51. A single consolidated schedule (Schedule 7) provides a check-list of releases for the Handbook as a whole.

Transitional provisions

52. The schedule of Transitional provisions:
- (1) sets out the transitional provisions for the sourcebook or manual (if any);
 - (2) specifies the parts of the sourcebook or manual to which each transitional provision relates, and when those parts commenced; and
 - (3) gives the dates on which each transitional provision:
 - (a) came into force; and
 - (b) expires.

Record keeping requirements

53. Schedule 1 provides a list of the detailed record keeping requirements in the sourcebook or manual and where they are to be found.

Notification requirements

54. Schedule 2 provides a list of the detailed notification requirements in the sourcebook or manual and where they are to be found.

Fees and other required payments

55. Schedule 3 provides a list of any fees and other payments for which a firm may be liable under the sourcebook or manual and where details of them are to be found.

Powers exercised in making the Handbook

56. Schedule 4 specifies the powers given by the Act which the FSA has exercised in making the provisions in the sourcebook or manual.

Rights of action for damages

57. Schedule 5:
- (1) gives guidance (where relevant) on the availability of rights of action to private persons under section 150 of the Act: that rights of action are available on contravention of a rule by an authorised person only; and how 'private person' is defined; and
 - (2) lists the rules in the sourcebook or manual:
 - (a) to which rights of action apply under section 150(1) of the Act;
 - (b) to which rights of action do not apply, in accordance with section 150(2);
 - (c) to which rights of action apply at the suit, not only of a private person, but of a person who is not a private person, in accordance with section 150(3), with a statement to whom the rights have been extended;
 - (d) to which rights of action do not apply because they are not binding on authorised persons, or because they are listing rules or financial resources rules, in accordance with section 150(4).

Rules that can be waived

58. Schedule 6 specifies the rules in the sourcebook or manual (if any) which the FSA has power to waive or modify, and the section of the Act which gives the FSA that power in respect of the rules in question.

Consolidated schedule of releases

59. The purpose of Schedule 7 is to help firms keep track of amendments made to the Handbook since it was first published. It lists by serial number each release issued, its date of publication and its contents. The full text of each release is on the FSA's website at www.fsa.gov.uk.

GLOSSARY OF DEFINITIONS

60. In addition to the links between defined terms and definitions in the electronic versions of the Handbook, each sourcebook or manual has a glossary of definitions. This lists the defined terms used in the sourcebook or manual and gives their meaning. It also contains guidance reminding the reader of the main General provisions for interpreting the Handbook (GEN 2).
61. The provisions in GEN 2:
 - (1) require a purposive interpretation of the rules (GEN 2.2.1R);
 - (2) state the effect of the status letter E (GEN 2.2.3R);
 - (3) state how defined expressions are used (GEN 2.2.7R);
 - (4) confirm that the Interpretation Act 1978 applies throughout the Handbook (GEN 2.2.11R), and explain particular effects of that application (GEN 2.2.12G);
 - (5) state the effect of a cross-reference to Handbook text which has been amended (GEN 2.2.13R); and
 - (6) give the meaning of 'in writing' in the Handbook (GEN 2.2.14R).
62. The introduction to the Glossary summarises the main practical effects of GEN 2. For example, it reminds the reader that an expression with a defined meaning is shown in the Handbook in italics (and not by capital letters); and that the singular includes the plural.
63. A consolidated glossary, drawing together all the defined terms used in the Handbook, will also be found in the Handbook.
64. The Glossary of definitions, including its introduction, is intended to help readers to interpret the Handbook. But readers cannot rely on the Handbook in isolation. If they need to know exactly what is said by and under the Act, they will need to consult the Act itself, and the statutory instruments made under it.

INDEX

65. In addition to the links in the electronic versions of the Handbook, it is planned that each sourcebook or manual will contain an index. The index will warn that it is to help readers, and should not be relied on as comprehensive. It will aim to list alphabetically any significant mention of each of the main subjects of the text and to show where it is to be found.
66. The Handbook system for numbering pages, for numbering the text and for cross-referring is described in paragraphs 33 to 45.
67. Because of this system, references in the index will not be to the page number but to the reference code, number and status of the paragraph (or annex) in question. For example, a reference in the index to the first paragraph in the second section of Chapter 1 of the General provisions (which has the status of guidance) would appear as 'GEN 1.2.1G'.

68. A consolidated index will draw together the contents of the index to each sourcebook and manual.

ANNEX

PART 2

Reader's Short Guide

What is the Reader's Guide?

An introduction to the FSA's Handbook of rules and guidance: where to find the contents, and how to use them.

There is a table of Handbook contents with this short version of the Guide.

How is the Handbook published?

The Handbook is on the Internet, CD-ROM and paper, but is the same in each medium. Its modules are arranged in groups by subject matter.

The rule-making instruments, published on the FSA's website, are the definitive source of Handbook text for legal purposes. The text on the CD-ROM, on paper and on the Internet is a continuously updated consolidation of the contents of those instruments.

How is the Handbook published?

Each module:

- has a reference code of two or more letters (see the Handbook contents list);
- has with or in it:
 - (1) the Reader's Guide, or this short version of it;
 - (2) a contents page;
 - (3) a schedule of transitional provisions (if any);
 - (4) the main text, with any annexes and appendices to it;
 - (5) schedules of supplementary information:
 - a schedule of transitional provisions, immediately after the Contents page;
 - schedules, after the text, of any:
 - (a) record keeping requirements (Schedule 1);
 - (b) notification or reporting requirements (Schedule 2);
 - (c) fees and other required payments (Schedule 3);
 - (d) statutory powers exercised by the FSA in making the Handbook (Schedule 4);
 - (e) rights of action for damages (Schedule 5); and
 - (f) rules that can be waived (Schedule 6); and
 - (6) a glossary of definitions, reminding the reader of the main General provisions for interpreting the Handbook (GEN 2) and listing the defined terms used in the module with their meanings;
- is divided into chapters (sub-divided into sections and paragraphs);
- begins (or each chapter or section in it begins) by saying to whom, or to what kind of business, it applies, normally followed by a statement of its purpose.

What is the status of Handbook material?

Each paragraph of the main text of a module has a regulatory status, indicated by:

- (1) an icon containing a letter (such as **R** for rule); and
- (2) the font and type size.

Under the icon are:

- (1) the date the paragraph came into force; and
- (2) the number of the Handbook release in which the paragraph first appeared in its current form.

A module may have one or more appendices, which normally relate to the whole module or to more than one chapter in it. The contents of an appendix may, like the main text, be of more than one status. This is shown in the same way, by icons.

A chapter may have one or more annexes of supplementary material. This is normally all of one status, shown by an icon, containing the status letter, at the top of the page.

The Handbook contains six types of provision. The icon showing the status of each contains one of the following letters:

R	=	rule (The Principles for Businesses are rules.)
D	=	direction
P	=	Statement of Principle for approved persons
C	=	conclusive description of behaviour which does not amount to market abuse
E	=	evidential provision
G	=	guidance

The full Reader's Guide contains a description of each type of status.

How is the Handbook numbered?

Page numbers are not important in the Handbook. But:

- each page of a chapter shows:
 - (1) the reference code for the sourcebook or manual;
 - (2) the number and title of the chapter;
 - (3) the number and title of the section of the chapter;
 - (4) the number, month and year of the release with which the page was published; and
 - (5) the number of the last paragraph on the page;

(so the first page of Chapter 3 of the Supervision manual shows at the top, on the left 'SUP 3: Auditors' and on the right 'Section 1: Application', and at the bottom, for example, on the left 'FSA Handbook: Release 03: October 2001' and on the right '3.1.6')

- each page of an annex shows the reference code, number and title of the chapter to which the annex relates, and the number and status of the annex;
- each page of an appendix shows the reference code of the module to which the appendix relates, and the number and title of the appendix.

The main text of the Handbook is numbered as follows:

chapter	1	(2, 3 etc)
section	1.1	(1.2, 1.3 etc)
paragraph	1.1.1	(1.1.2, 1.1.3 etc)
sub-paragraph	1.1.1(1)	(1.1.1(2), 1.1.1(3) etc)

sub-sub-paragraphs are shown by (a), (b), (c) and so on, and sub-sub-sub-paragraphs by (i), (ii), (iii) and so on;

(for example, the third paragraph of the second section of the first chapter in the Conduct of Business sourcebook, if it were a rule, would be COB 1.2.3R; a sub-sub-paragraph of that paragraph would be COB 1.2.3R(1)(a)).

A table in the text is numbered as if it were a paragraph.

An illustration in the text, such as a flow-chart, is numbered with the number of the chapter and section in which it appears, followed by the number of the illustration itself.

In cross-references, the reference code letters of the module (see the table of Handbook contents) appear in front of the number. In a cross-reference to a paragraph (or a table or an annex), the letter indicating its status is added at the end. So:

- the first chapter in the Conduct of Business sourcebook is COB 1;
- its first section is COB 1.1;
- its first paragraph (if guidance) is COB 1.1.1G;
- its first annex is COB 1 Ann 1G;
- its first appendix would be COB App 1, and the first paragraph in it would be COB App 1.1.1.

How does the Handbook show defined terms?

Defined terms are shown in italic type. Their definitions are in the glossary of defined terms near the end of the module, or in the consolidated glossary of the Handbook.

Where a word or phrase which is shown in italics in one part of the text appears without italics in another part, it is meant to be given, where unitalicised, its ordinary natural meaning.

What consolidated schedules are there in the Handbook?

Where likely to be useful, there are consolidated schedules drawing together the contents of the schedules from each module.

There is also a consolidated schedule of Handbook releases (Schedule 7) to act as a check-list.

Contents of the Handbook

	Sourcebook or manual	Reference Code
High Level Standards	Principles for Businesses	PRIN

PRINCIPLES FOR BUSINESSES INSTRUMENT 2001

- A. The Financial Services Authority makes the rules and gives the guidance in the Annex to this instrument ("PRIN") in the exercise of the powers listed in Schedule 4 to PRIN (Powers exercised).
- B. This instrument shall come into force at the beginning of the day on which section 19 (The general prohibition) of the Financial Services and Markets Act 2000 (the "Act") comes into force.
- C. The provisions of the Act relevant to making rules and listed in Schedule 4 to PRIN (Powers exercised) are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- D. This instrument may be cited as the Principles for Businesses Instrument 2001.
- E. The Annex to this instrument (including its Schedules) may be cited as the Principles for Businesses (or PRIN).

Transitional provisions

G

- 1 There are no transitional provisions in PRIN. However:
 - (1) GEN contains some technical transitional provisions that apply throughout the Handbook and which are designed to ensure a smooth transition to commencement;
 - (2) COB contains transitional provisions that apply throughout the Handbook relating to the treatment of clients classified by ex-SRO firms and ex-section 43 firms before commencement.

Chapter 1

Introduction

1.1 Application and purpose

Application

- 1.1.1** G_{/1} The *Principles* (see ■ PRIN 2) apply in whole or in part to every *firm*. The application of the *Principles* is modified for *incoming EEA firms*, *incoming Treaty firms* and *UCITS qualifiers*. ■ PRIN 3 (Rules about application) specifies to whom, to what and where the *Principles* apply.

Purpose

- 1.1.2** G_{/1} The *Principles* are a general statement of the fundamental obligations of *firms* under the *regulatory system*. They derive their authority from the FSA's rule-making powers as set out in the *Act* and reflect the *regulatory objectives*.

Accepting deposits, general insurance business and certain long-term insurance business

- 1.1.3** G_{/1} The *Principles* apply with respect to *regulated activities* generally, but, in applying the *Principles* with respect to *accepting deposits*, *general insurance business* and *long-term insurance business* involving *pure protection contracts* or reinsurance contracts, the FSA will proceed only in a *prudential context*. That is to say, in this context, the FSA would not expect to exercise the powers brought into play by a contravention of a *Principle* unless the contravention amounted to a serious or persistent violation which had implications for confidence in the *financial system*, or for the fitness and propriety of the *firm* or for the adequacy of the *firm's* financial resources.

Link to fit and proper standard in the threshold conditions

- 1.1.4** G_{/1} In substance, the *Principles* express the main dimensions of the "fit and proper" standard set for *firms* in *threshold condition 5* (Suitability), although they do not derive their authority from that standard or exhaust its implications. Being ready, willing and organised to abide by the *Principles* is therefore a critical factor in applications for *Part IV permission*, and breaching the *Principles* may call into question whether a *firm* with *Part IV permission* is still fit and proper.

Taking group activities into account

- 1.1.5** G_{/1} *Principles* 3 (Management and control), 4 (Financial prudence) and (in so far as it relates to disclosing to the FSA) 11 (Relations with regulators) take into account the activities of members of a *firm's group*. This does not mean that, for example, inadequacy of a *group* member's risk management systems or resources will automatically lead to a *firm* contravening *Principle* 3 or 4. Rather, the potential impact of a *group* member's activities (and, for example, risk management systems operating on a *group* basis) will be relevant in determining the adequacy of the *firm's* risk management systems or resources respectively.

Standards in markets outside the United Kingdom

- 1.1.6** G_{/1} As set out in ■ PRIN 3.3 (Where?), *Principles* 1 (Integrity), 2 (Skill, care and diligence) and 3 (Management and control) apply to world-wide activities in a *prudential context*. *Principle* 5 (Market conduct) applies to world-wide activities which might have a negative effect on confidence in the *financial system* operating in the *United Kingdom*. In considering whether to take regulatory action under these *Principles* in relation to activities carried on outside the *United Kingdom*, the FSA will take into account the standards expected in the market in which the *firm* is operating. *Principle* 11 (Relations with regulators) applies to world-wide activities; in considering whether to take regulatory action under *Principle* 11 in relation to cooperation with an overseas regulator, the FSA will have regard to the extent of, and limits to, the duties owed by the *firm* to that regulator. (*Principle* 4 (Financial prudence) also applies to world-wide activities.)

Consequences of breaching the Principles

- 1.1.7** G_{/1} Breaching a *Principle* makes a *firm* liable to disciplinary sanctions. In determining whether a *Principle* has been breached it is necessary to look to the standard of conduct required by the *Principle* in question. Under each of the *Principles* the onus will be on the FSA to show that a *firm* has been at fault in some way. What constitutes "fault" varies between different *Principles*. Under *Principle* 1 (Integrity), for example, the FSA would need to demonstrate a lack of integrity in the conduct of a *firm's* business. Under *Principle* 2 (Skill, care and diligence) a *firm* would be in breach if it was shown to have failed to act with due skill, care and diligence in the conduct of its business. Similarly, under *Principle* 3 (Management and control) a *firm* would not be in breach simply because it failed to control or prevent unforeseeable risks; but a breach would occur if the *firm* had failed to take reasonable care to organise and control its affairs responsibly or effectively.
- 1.1.8** G_{/1} The *Principles* are also relevant to the FSA's powers of information-gathering, to vary a *firm's Part IV permission*, and of investigation and intervention, and provide a basis on which the FSA may apply to a court for an *injunction* or restitution order or require a *firm* to make restitution. However, the *Principles* do not give rise to actions for damages by a *private person* (see ■ PRIN 3.4.4 R).
- 1.1.9** G_{/1} Some of the other *rules* and *guidance* in the *Handbook* deal with the bearing of the *Principles* upon particular circumstances. However, since the *Principles* are also designed as a general statement of regulatory requirements applicable in new or unforeseen situations, and in situations in which there is no need for *guidance*, the FSA's other *rules* and *guidance* should not be viewed as exhausting the implications of the *Principles* themselves.

1.2 Clients and the Principles

Characteristics of the client

- 1.2.1** **G**_{/1} *Principles 6 (Customers' interests), 7 (Communications with clients), 8 (Conflicts of interest), 9 (Customers: relationships of trust) and 10 (Clients' assets) impose requirements on firms expressly in relation to their clients or customers. These requirements depend, in part, on the characteristics of the client or customer concerned. This is because what is "due regard" (in Principles 6 and 7), "fairly" (in Principles 6 and 8), "clear, fair and not misleading" (in Principle 7), "reasonable care" (in Principle 9) or "adequate" (in Principle 10) will, of course, depend on those characteristics. For example, the information needs of a general insurance broker will be different from those of a retail general insurance policyholder.*

Approach to client classification

- 1.2.2** **G**_{/1} *Principles 6, 8 and 9 and parts of Principle 7, as qualified by ■ PRIN 3.4.1 R, apply only in relation to customers (that is, clients which are not market counterparties). The approach that a firm needs to take regarding classification of clients into customers and market counterparties will depend on whether the firm is carrying on designated investment business or other activities, as described in ■ PRIN 1.2.3 G and ■ PRIN 1.2.4 G.*

Classification: designated investment business

- 1.2.3** **G**_{/1} ■ COB 4.1.4 R (Requirement to classify) requires a firm to classify a client before conducting designated investment business with or for him, and that classification will be applicable for the purposes of Principles 6, 7, 8 and 9.

Classification: other activities

- 1.2.4** **G**_{/1} In relation to the carrying on of activities other than designated investment business, for example general insurance business or accepting deposits, only ■ COB 4.1.12 R and ■ COB 4.1.13 G (Large intermediate customer classified as a market counterparty) and ■ COB 4.1.14 R (Client classified as a private customer) in ■ COB 4.1 (Client classification) apply (see ■ PRIN 3.4.2 R).

- 1.2.5** **G**_{/1} A firm is therefore not required to classify its clients (because ■ COB 4.1.4 R does not apply) and may choose to comply with Principles 6, 7, 8 and 9 as if all its clients were customers. Alternatively, it may choose to distinguish between market

counterparties and *customers* in complying with those *Principles*. But, in that case, the *firm* would need to classify any *client* treated as a *market counterparty*. In doing this, the requirements in SYSC will apply, including the requirement to establish appropriate systems and controls ■ SYSC 3.1.1 R) and the requirement to make and retain adequate records ■ SYSC 3.2.20 R). In classifying its *market counterparties*, it would be open to such a *firm*, although not obligatory, to permit *intermediate customers* to opt up to *market counterparty* status in accordance with ■ COB 4.1.12 R. It would also have to treat a *market counterparty* as a *customer* if the *firm* had chosen to treat the *client* as a *private customer* in the circumstances set out in ■ COB 4.1.14 R.

1.2.6

G

/1

If the *person* with or for whom the *firm* is carrying on an activity is acting through an agent, the ability of the *firm* to treat the agent as its *client* under ■ COB 4.1.5 R (Agent as client) will not be available. For example, if a general *insurer* is effecting a *general insurance contract* through a general insurance broker who is acting as agent for a disclosed *policyholder*, the *policyholder* will be a *client* of the *firm* and the *firm* must comply with the *Principles* accordingly.

Chapter 2

The Principles

2.1 The Principles

2.1.1

R

Table The Principles

/1

1 Integrity	A <i>firm</i> must conduct its business with integrity.
2 Skill, care and diligence	A <i>firm</i> must conduct its business with due skill, care and diligence.
3 Management and control	A <i>firm</i> must take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems.
4 Financial prudence	A <i>firm</i> must maintain adequate financial resources.
5 Market conduct	A <i>firm</i> must observe proper standards of market conduct.
6 Customers' interests	A <i>firm</i> must pay due regard to the interests of its <i>customers</i> and treat them fairly.
7 Communications with clients	A <i>firm</i> must pay due regard to the information needs of its <i>clients</i> , and communicate information to them in a way which is clear, fair and not misleading.
8 Conflicts of interest	A <i>firm</i> must manage conflicts of interest fairly, both between itself and its <i>customers</i> and between a <i>customer</i> and another <i>client</i> .
9 Customers: relationships of trust	A <i>firm</i> must take reasonable care to ensure the suitability of its advice and discretionary decisions for any <i>customer</i> who is entitled to rely upon its judgment.

<p>10 Clients' assets</p>	<p><i>A firm must arrange adequate protection for clients' assets when it is responsible for them.</i></p>
<p>11 Relations with regulators</p>	<p><i>A firm must deal with its regulators in an open and cooperative way, and must disclose to the FSA appropriately anything relating to the firm of which the FSA would reasonably expect notice.</i></p>

Chapter 3

Rules about application

3.1 Who?

- 3.1.1** **R** *PRIN* applies to every *firm*, except that:
- /1
- (1) for an *incoming EEA firm* or an *incoming Treaty firm*, the *Principles* apply only in so far as responsibility for the matter in question is not reserved by a European Community instrument to the *firm's Home State regulator*;
 - (2) for an *incoming EEA firm* which is a *BCD credit institution* without a *top-up permission*, *Principle 4* applies only in relation to the liquidity of a *branch* established in the *United Kingdom*;
 - (3) for an *incoming EEA firm* which has *permission* only for *cross border services* and which does not carry on *regulated activities* in the *United Kingdom*, the *Principles* do not apply;
 - (4) for a *UCITS qualifier*, only *Principles 1, 2, 3, 7 and 9* apply, and only with respect to the activities in **PRIN 3.2.2 R**(Communication and approval of financial promotions).
- 3.1.2** **G** **SYSC App 1** contains *guidance* on the reservation of responsibility to a *Home State regulator* referred to in **PRIN 3.1.1 R (1)**.
- /1
- 3.1.3** **G** **PRIN 3.1.1 R (2)** reflects article 27 of the *Banking Consolidation Directive* which provides that the *Host State regulator* retains responsibility in cooperation with the *Home State regulator* for the supervision of the liquidity of a *branch* of a *BCD credit institution*.
- /1
- 3.1.4** **G** **PRIN 3.1.1 R (3)** puts *incoming EEA firms* on an equal footing with *unauthorised overseas persons* who utilise the overseas persons exclusions in article 72 of the *Regulated Activities Order*.
- /1
- 3.1.5** **G** **PRIN 3.1.1 R (4)** reflects section 266 of the *Act* (Disapplication of rules).
- /1

3.2 What?

3.2.1

R

PRIN applies with respect to the carrying on of:

/1

- (1) *regulated activities*;
- (2) activities that constitute *dealing in investments as principal*, disregarding the exclusion in article 15 of the *Regulated Activities Order* (Absence of holding out etc); and
- (3) *ancillary activities* in relation to *designated investment business*.

3.2.2

R

PRIN also applies with respect to the *communication* and *approval* of *financial promotions* which:

/1

- (1) if *communicated* by an *unauthorised person* without *approval* would contravene section 21(1) of the *Act* (Restrictions on financial promotion); and
- (2) may be *communicated* by a *firm* without contravening section 238(1) of the *Act* (Restrictions on promotion of collective investment schemes).

3.2.3

R

Principles 3, 4 and (in so far as it relates to disclosing to the *FSA*) 11 (and this chapter) also:

/1

- (1) apply with respect to the carrying on of *unregulated activities* (for *Principle* 3 this is only in a *prudential context*); and
- (2) take into account any activity of other members of a *group* of which the *firm* is a member.

3.3 Where?

3.3.1

R

Table Territorial application of the Principles

/1

Principle	Territorial application
<i>Principles 1, 2 and 3</i>	<p>in a <i>prudential context</i>, apply with respect to activities wherever they are carried on;</p> <p>otherwise, apply with respect to activities carried on from an establishment maintained by the <i>firm</i> (or its <i>appointed representative</i>) in the <i>United Kingdom</i> unless another applicable <i>rule</i> which is relevant to the activity has a wider territorial scope, in which case the <i>Principle</i> applies with that wider scope in relation to the activity described in that <i>rule</i>.</p>
<i>Principle 4</i>	applies with respect to activities wherever they are carried on.
<i>Principle 5</i>	<p>if the activities have, or might reasonably be regarded as likely to have, a negative effect on confidence in the <i>financial system</i> operating in the <i>United Kingdom</i>, applies with respect to activities wherever they are carried on;</p> <p>otherwise, applies with respect to activities carried on from an establishment maintained by the <i>firm</i> (or its <i>appointed representative</i>) in the <i>United Kingdom</i>.</p>
<i>Principles 6, 7, 8, 9 and 10</i>	apply with respect to activities carried on from an establishment maintained by the <i>firm</i> (or its <i>appointed representative</i>) in the <i>United Kingdom</i> unless another applicable <i>rule</i> which is relevant to the activity has a wider territorial scope, in which case the <i>Principle</i> applies with that wider scope in relation to the activity described in that <i>rule</i> .
<i>Principle 11</i>	applies with respect to activities wherever they are carried on.

3.4 General

Clients and the Principles

3.4.1 **R**_{/1} Although *Principle 7* refers to *clients*, the only requirement of *Principle 7* relating to *market counterparties* is that a *firm* must communicate information to *market counterparties* in a way that is not misleading.

3.4.2 **R**_{/1} For the purposes of *PRIN*, the following provisions of **■ COB 4.1** (Client classification) also apply to a *firm* intending to carry on, or carrying on, activities other than *designated investment business*:

- (1) **■ COB 4.1.12 R** and **■ COB 4.1.13 G** (Large intermediate customer classified as a market counterparty); and
- (2) **■ COB 4.1.14 R** (Client classified as a private customer).

3.4.3 **G**_{/1} The whole of **■ COB 4.1** (Client classification) applies to a *firm* intending to conduct, or conducting, *designated investment business* and *ancillary activities* relating to *designated investment business*. Any *client* classifications established in relation to such business will be applicable for the purposes of *Principles 6, 7, 8* and *9*.

Actions for damages

3.4.4 **R**_{/1} A contravention of the *rules* in *PRIN* does not give rise to a right of action by a *private person* under section 150 of the *Act* (and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action).

Reference to "regulators" in Principle 11

3.4.5 **R**_{/1} Where *Principle 11* refers to regulators, this means, in addition to the *FSA*, other regulators with recognised jurisdiction in relation to *regulated activities*, whether in the *United Kingdom* or abroad.

Handbook Modules

Schedule1 Record Keeping Requirements

G

- 1 There are no record keeping requirements in PRIN.

Handbook Modules

Schedule2 Notification requirements

G

- 1 The aim of the guidance in the following table is to give the reader a quick over-all view of the relevant requirements for notification and reporting.
- 2 It is not a complete statement of those requirements and should not be relied on as if it were.
- 3 **Table**

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
Principle 11 (PRIN 2.1.1R)	Anything relating to the firm of which the FSA would reasonably expect notice	Appropriate disclosure	Anything relating to the firm of which the FSA would reasonably expect notice	Appropriate

Handbook Modules

Schedule3 Fees and other required payments

G

- 1 There are no requirements for fees or other payments in PRIN.

Handbook Modules

Schedule4 Powers Exercised

G

- 1 The following powers and related provision in the Act have been exercised by the FSA to make the rules in PRIN:
 - (1) Section 138 (General rule -making power)
 - (2) Section 145 (Financial promotion rules)
 - (3) Section 146 (Money laundering rules)
 - (4) Section 150(2) (Actions for damages)
 - (5) Section 156 (General Supplementary powers).

- 2 The following power in the Act has been exercised by the FSA to give the guidance in PRIN:
 - Section 157(1) (Guidance).

Handbook Modules

Schedule5 Rights of action for damages

G

- 1 The table below sets out the rules in PRIN contravention of which by an authorised person may be actionable under section 150 of the Act (Actions for damages) by a person who suffers loss as a result of the contravention.
- 2 If a “Yes” appears in the column headed “For private person?”, the rule may be actionable by a “private person” under section 150 (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001 No 2256)). A “Yes” in the column headed “Removed” indicates that the FSA has removed the right of action under section 150(2) of the Act. If so, a reference to the rule in which it is removed is also given.
- 3 The column headed “For other person?” indicates whether the rule may be actionable by a person other than a private person (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of person by whom the rule may be actionable is given.

4 Table

Chapter/ Appendix	Section/ Annex	Paragraph	Right of Action		
			For private person?	Removed?	For other person?
All rules in <i>PRIN</i>			No	Yes PRIN 3.4.4R	No

Handbook Modules

Schedule6 Rules that can be waived

G

- 1 The rules in PRIN can be waived by the FSA under section 148 of the ACT (Modification or waiver of rules).

**SENIOR MANAGEMENT ARRANGEMENTS,
SYSTEMS AND CONTROLS INSTRUMENT 2001**

- A. The Financial Services Authority makes the rules and gives the guidance in the Annex to this instrument ("SYSC") in the exercise of the powers listed in Schedule 4 to SYSC (Powers exercised).
- B. This instrument shall come into force at the beginning of the day on which section 19 (The general prohibition) of the Financial Services and Markets Act 2000 (the "Act") comes into force.
- C. The provisions of the Act relevant to making rules and listed in Schedule 4 to SYSC (Powers exercised) are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- D. This instrument may be cited as the Senior Management Arrangements, Systems and Controls Instrument 2001.
- E. The Annex to this instrument (including its Schedules) may be cited as Senior Management Arrangements, Systems and Controls (or SYSC).

By order of the Board
21 June 2001

Handbook Modules

Transitional provisions

G

- 1 There are no transitional provisions in SYSC. However, GEN contains some technical transitional provisions that apply throughout the Handbook and which are designed to ensure a smooth transition at commencement.

Chapter 1

Application and purpose

1.1 Application

Who?

1.1.1

R

/1

SYSC applies to every *firm* except that:

- (1) for an *incoming EEA firm* or an *incoming Treaty firm*:
 - (a) ■ SYSC 2.1.1 R and ■ SYSC 2.1.2 G do not apply;
 - (b) ■ SYSC 2.1.3 R to ■ SYSC 2.2.3 G apply, but only in relation to allocation of the function in ■ SYSC 2.1.3 R (2) and only in so far as responsibility for the matter in question is not reserved by a European Community instrument to the *firm's Home State regulator*; and
 - (c) ■ SYSC 3 applies, but only in so far as responsibility for the matter in question is not reserved by a European Community instrument to the *firm's Home State regulator*;
- (2) for an *incoming EEA firm* which has *permission only for cross border services* and which does not carry on *regulated activities* in the *United Kingdom*, SYSC does not apply;
- (3) ■ SYSC 2 does not apply to a *sole trader* as long as he does not employ any *person* who is required to be approved under section 59 of the *Act* (Approval for particular arrangements); and
- (4) for a *UCITS qualifier*:
 - (a) ■ SYSC 2.1.1 R and ■ SYSC 2.1.2 G do not apply;
 - (b) ■ SYSC 2.1.3 R to ■ SYSC 2.2.3 G apply, but only in relation to allocation of the function in ■ SYSC 2.1.3 R (2) and only with respect to the activities in ■ SYSC 1.1.4 R;
 - (c) ■ SYSC 3 applies, but only with respect to the activities in ■ SYSC 1.1.4 R.

1.1.2

G

/1

- (1) Question 12 in ■ SYSC 2.1.6 G and ■ SYSC App 1 contain guidance on ■ SYSC 1.1.1R (1)(b) and (c).

- (2) ■ SYSC 1.1.7 R and ■ SYSC 1.1.10 R (Where?) further restrict the territorial application of SYSC for an *incoming EEA firm*, *incoming Treaty firm* or *UCITS qualifier*.
- (3) ■ SYSC 1.1.1R (4) puts *incoming EEA firm* on an equal footing with *unauthorised overseas persons* who utilise the overseas persons exclusions in article 72 of the *Regulated Activities Order*.

What?

1.1.3

R

SYSC applies with respect to the carrying on of:

/1

- (1) *regulated activities*;
- (2) activities that constitute *dealing in investments as principal*, disregarding the exclusion in article 15 of the *Regulated Activities Order* (Absence of holding out etc); and
- (3) *ancillary activities* in relation to *designated investment business*.

1.1.4

R

SYSC also applies with respect to the *communication* and *approval* of *financial promotions* which:

/1

- (1) if *communicated* by an *unauthorised person* without *approval* would contravene section 21(1) of the *Act* (Restrictions on financial promotion); and
- (2) may be *communicated* by a *firm* without contravening section 238(1) of the *Act* (Restrictions on promotion of collective investment schemes).

1.1.5

R

■ SYSC 3 also:

/1

- (1) applies with respect to the carrying on of *unregulated activities* in a *prudential context*; and
- (2) takes into account any activity of other members of a *group* of which the *firm* is a member.

1.1.6

G

■ SYSC 1.1.5 R (2) does not mean that inadequacy of a *group* member's systems and controls will automatically lead to a *firm* contravening, for example, ■ SYSC 3.1.1 R. Rather, the potential impact of a *group* member's activities, including its systems and controls, and any systems and controls that operate on a *group* basis, will be relevant in determining the appropriateness of the *firm's* own systems and controls.

/1

Where?

1.1.7

R

SYSC applies with respect to activities carried on from an establishment maintained by the *firm* (or its *appointed representative*) in the *United Kingdom* unless another applicable *rule*

/1

which is relevant to the activity has a wider territorial scope, in which case SYSC applies with that wider scope in relation to the activity described in that *rule*.

1.1.8

G
/1

An example of the type of *rule* referred to in ■ SYSC 1.1.7 R with a different territorial scope is the *rules* in ■ COB 9.1 (Custody). ■ COB 9.1 applies, for certain *UK firms*, to activities carried on from *branches* in other *EEA States* as well as *UK establishments* ■ COB 1.4.3 R (c) (General application – where?). Therefore, SYSC applies to the *custody* activities described in ■ COB 9.1 carried on from such a *branch* by such a *UK firm*. The *UK firm* must, for example, take reasonable care to establish systems and controls under ■ SYSC 3.1.1 R as are appropriate to those activities carried on from its *EEA branches* as well as from its *UK establishments*.

1.1.9

R
/1

SYSC also applies in a *prudential context* to a *UK domestic firm* with respect to activities wherever they are carried on.

1.1.10

R
/1

■ SYSC 3 also applies in a *prudential context* to an *overseas firm* (other than an *incoming EEA firm*, *incoming Treaty firm* or *UCITS qualifier*) with respect to activities wherever they are carried on.

1.1.11

G
/1

- (1) In considering whether to take regulatory action under SYSC in relation to activities carried on outside the *United Kingdom*, the *FSA* will take into account the standards expected in the market in which the *firm* is operating.
- (2) Most of the *rules* in ■ SYSC 3 are linked to other requirements and standards under the *regulatory system* which have their own territorial limitations so that those *SYSC rules* are similarly limited in scope.

Actions for damages

1.1.12

R
/1

A contravention of the *rules* in SYSC does not give rise to a right of action by a *private person* under section 150 of the *Act* (and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action).

1.2 Purpose

1.2.1

G

^{/1}

The purposes of SYSC are:

- (1) to encourage *firms' directors* and *senior managers* to take appropriate practical responsibility for their *firms'* arrangements on matters likely to be of interest to the *FSA* because they impinge on the *FSA's* functions under the *Act*;
- (2) to increase certainty by amplifying *Principle 3*, under which a *firm* must “take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems”; and
- (3) to encourage *firms* to vest responsibility for effective and responsible organisation in specific *directors* and *senior managers*.

1.2.2

G

^{/1}

The main matters, referred to in ■ SYSC 1.2.1 G (1), which are likely to be of interest to the *FSA* are those which relate to confidence in the *financial system*; to the fair treatment of *firms' customers*; to the protection of *consumers*; and to the use of the *financial system* in connection with *financial crime*. The *FSA* is not primarily concerned with risks which threaten only the owners of a financial business except in so far as these risks may have an impact on those matters.

Chapter 2

2

Senior management arrangements

2.1 Apportionment of Responsibilities

2.1.1 **R** ^{/1} A *firm* must take reasonable care to maintain a clear and appropriate apportionment of significant responsibilities among its *directors* and *senior managers* in such a way that:

- (1) it is clear who has which of those responsibilities; and
- (2) the business and affairs of the *firm* can be adequately monitored and controlled by the *directors*, relevant *senior managers* and *governing body* of the *firm*.

2.1.2 **G** ^{/1} The role undertaken by a *non-executive director* will vary from one *firm* to another. For example, the role of a *non-executive director* in a *friendly society* may be more extensive than in other *firms*. Where a *non-executive director* is an *approved person*, for example where the *firm* is a *body corporate*, his responsibility and therefore liability will be limited by the role that he undertakes. Provided that he has personally taken due care in his role, a *non-executive director* would not be held disciplinarily liable either for the failings of the *firm* or for those of individuals within the *firm*. The *non-executive director function*, for the purposes of the *approved persons* regime, is described in ■ SUP 10.

2.1.3 **R** ^{/1} A *firm* must appropriately allocate to one or more individuals, in accordance with ■ SYSC 2.1.4 R, the functions of:

- (1) dealing with the apportionment of responsibilities under ■ SYSC 2.1.1 R; and
- (2) overseeing the establishment and maintenance of systems and controls under ■ SYSC 3.1.1 R.

2.1.4 **R** ^{/1} Table Allocation of functions
This table belongs to ■ SYSC 2.1.3 R

1: Firm type	2: Allocation of both functions must be to the following individual, if any (see Note):	3: Allocation to one or more individuals selected from this column is compulsory if there is no allocation to an individual in column 2, but is otherwise optional and additional:
<p>(1) <i>A firm which is a body corporate and is a member of a group, other than a firm in row (2)</i></p> <p>(2) <i>An incoming EEA firm or incoming Treaty firm (note: only the function in SYSC 2.1.3R(2) must be allocated)</i></p> <p>(3) <i>Any other firm</i></p>	<p>(1) <i>the firm's chief executive (and all of them jointly, if more than one); or</i></p> <p>(2) <i>a director or senior manager responsible for the overall management of:</i></p> <p>(a) <i>the group; or</i></p> <p>(b) <i>a group division within which some or all of the firm's regulated activities fall</i></p> <p>(not applicable)</p> <p><i>the firm's chief executive (and all of them jointly, if more than one)</i></p>	<p><i>the firm's and its group's:</i></p> <p>(1) <i>directors; and</i></p> <p>(2) <i>senior managers</i></p> <p><i>the firm's and its group's:</i></p> <p>(1) <i>directors; and</i></p> <p>(2) <i>senior managers</i></p> <p><i>the firm's and its group's:</i></p> <p>(1) <i>directors; and</i></p> <p>(2) <i>senior managers</i></p>
<p>Note: Column 2 does not require the involvement of the <i>chief executive</i> or other executive <i>director</i> or <i>senior manager</i> in an aspect of corporate governance if that would be contrary to generally accepted principles of good corporate governance.</p>		

2.1.5

G
/1

SYSC 2.1.3R and 2.1.4R give a *firm* some flexibility in the individuals to whom the functions may be allocated. It will be common for both the functions to be allocated solely to the *firm's chief executive*. ■ SYSC 2.1.6 G contains further *guidance* on the requirements of ■ SYSC 2.1.3 R and 2.1.4R in a question and answer form.

2.1.6

G
/1

Table Frequently asked questions about allocation of functions in ■ SYSC 2.1.3 R
This table belongs to ■ SYSC 2.1.5 G

	Question	Answer
1	Does an individual to whom a function is allocated under SYSC 2.1.3R need to be an <i>approved person</i> ?	<p>An individual to whom a function is allocated under SYSC 2.1.3R will be performing the <i>apportionment and oversight function</i> (CF 8, see SUP 10.7.1R) and an application must be made to the FSA for approval of the individual before the function is performed under section 59 of the Act (Approval for particular arrangements).</p> <p>There are exceptions from this in SUP 10.1 (Approved persons – Application). In particular, an <i>incoming EEA firm</i> is referred to the <i>EEA investment business oversight function</i> (CF 9, see SUP 10.7.6R).</p>
2	If the allocation is to more than one individual, can they perform the functions, or aspects of the functions, separately?	<p>If the functions are allocated to joint <i>chief executives</i> under SYSC 2.1.4R, column 2, they are expected to act jointly.</p> <p>If the functions are allocated to an individual under SYSC 2.1.4R, column 2, in addition to individuals under SYSC 2.1.4R, column 3, the former may normally be expected to perform a leading role in relation to the functions that reflects his position.</p> <p>Otherwise, yes.</p>
3	What is meant by “appropriately allocate” in this context?	<p>The allocation of functions should be compatible with delivering compliance with <i>Principle 3</i>, SYSC 2.1.1R and SYSC 3.1.1R. The FSA considers that allocation to one or two individuals is likely to be appropriate for most <i>firms</i>.</p>
4	If a committee of management governs a <i>firm</i> or <i>group</i> , can the functions be allocated to every member of that committee?	<p>Yes, as long as the allocation remains appropriate (see Question 3).</p> <p>If the <i>firm</i> also has an individual as <i>chief executive</i>, then the functions must be allocated to that individual as well under SYSC 2.1.4R, column 2 (see Question 7).</p>
5	Does the definition of <i>chief executive</i> include the possessor of equivalent responsibilities with another title, such as a managing <i>director</i> or managing <i>partner</i> ?	<p>Yes.</p>

	Question	Answer
6	Is it possible for a <i>firm</i> to have more than one individual as its <i>chief executive</i> ?	Although unusual, some <i>firms</i> may wish the responsibility of a <i>chief executive</i> to be held jointly by more than one individual. In that case, each of them will be a <i>chief executive</i> and the functions must be allocated to all of them under SYSC 2.1.4R, column 2 (see also Questions 2 and 7).
7	If a <i>firm</i> has an individual as <i>chief executive</i> , must the functions be allocated to that individual?	<p>Normally, yes, under SYSC 2.1.4R, column 2.</p> <p>But if the <i>firm</i> is a <i>body corporate</i> and a member of a <i>group</i>, the functions may, instead of to the <i>firm's chief executive</i>, be allocated to a <i>director</i> or <i>senior manager</i> from the <i>group</i> responsible for the overall management of the <i>group</i> or of a relevant <i>group</i> division, so long as this is appropriate (see Question 3). Such individuals will nevertheless require approval by the <i>FSA</i> (see Question 1).</p> <p>If the <i>firm</i> chooses to allocate the functions to a <i>director</i> or <i>senior manager</i> responsible for the overall management of a relevant <i>group</i> division, the <i>FSA</i> would expect that individual to be of a seniority equivalent to or greater than a <i>chief executive</i> of the <i>firm</i> for the allocation to be appropriate.</p>
8	If a <i>firm</i> has a <i>chief executive</i> , can the functions be allocated to other individuals in addition to the <i>chief executive</i> ?	<p>See also Question 14.</p> <p>Yes. SYSC 2.1.4R, column 3, permits a <i>firm</i> to allocate the functions, additionally, to the <i>firm's</i> (or where applicable the <i>group's</i>) <i>directors</i> and <i>senior managers</i> as long as this is appropriate (see Question 3).</p>

	Question	Answer
9	What if a <i>firm</i> does not have a <i>chief executive</i> ?	<p>Normally, the functions must be allocated to one or more individuals selected from the <i>firm's</i> (or where applicable the <i>group's</i>) <i>directors</i> and <i>senior managers</i> under SYSC 2.1.4R, column 3.</p> <p>But if the <i>firm</i>:</p> <p>(1) is a <i>body corporate</i> and a <i>member</i> of a <i>group</i>; and</p> <p>(2) the <i>group</i> has a <i>director</i> or <i>senior manager</i> responsible for the overall management of the <i>group</i> or of a relevant <i>group</i> division;</p> <p>then the functions must be allocated to that individual (together, optionally, with individuals from column 3 if appropriate) under SYSC 2.1.4R, column 2.</p>
10	What do you mean by “ <i>group</i> division within which some or all of the <i>firm's</i> regulated activities fall”?	<p>A “division” in this context should be interpreted by reference to geographical operations, product lines or any other method by which the <i>group's</i> business is divided.</p> <p>If the <i>firm's</i> regulated activities fall within more than one division and the <i>firm</i> does not wish to allocate the functions to its <i>chief executive</i>, the allocation must, under SYSC 2.1.4R, be to:</p> <p>(1) a <i>director</i> or <i>senior manager</i> responsible for the overall management of the <i>group</i>; or</p> <p>(2) a <i>director</i> or <i>senior manager</i> responsible for the overall management of one of those divisions;</p> <p>together, optionally, with individuals from column 3 if appropriate. (See also Questions 7 and 9.)</p>

	Question	Answer
11	<p>How does the requirement to allocate the functions in SYSC 2.1.3R apply to an <i>overseas firm</i> which is not an <i>incoming EEA firm</i>, <i>incoming Treaty firm</i> or <i>UCITS qualifier</i>?</p>	<p>The <i>firm</i> must appropriately allocate those functions to one or more individuals, in accordance with SYSC 2.1.4R, but:</p> <p>(1) The responsibilities that must be apportioned and the systems and controls that must be overseen are those relating to activities carried on from a <i>UK</i> establishment with certain exceptions (see SYSC 1.1.7R). Note that SYSC 1.1.10R does not extend the territorial scope of SYSC 2 for an <i>overseas firm</i>.</p> <p>(2) The <i>chief executive</i> of an <i>overseas firm</i> is the <i>person</i> responsible for the conduct of the <i>firm's</i> business within the <i>United Kingdom</i> (see the definition of "<i>chief executive</i>"). This might, for example, be the manager of the <i>firm's</i> <i>UK</i> establishment, or it might be the <i>chief executive</i> of the <i>firm</i> as a whole, if he has that responsibility.</p> <p>The <i>apportionment and oversight function</i> applies to such a <i>firm</i>, unless it falls within a particular exception from the <i>approved persons</i> regime (see Question 1).</p>

	Question	Answer
12	How does the requirement to allocate the functions in SYSC 2.1.3R apply to an <i>incoming EEA firm</i> or <i>incoming Treaty firm</i> ?	<p>SYSC 1.1.1R(2) and SYSC 1.1.7R restrict the application of SYSC 2.1.3R for such a <i>firm</i>. Accordingly:</p> <p>(1) Such a <i>firm</i> is not required to allocate the function of dealing with apportionment in SYSC 2.1.3R(1).</p> <p>(2) Such a <i>firm</i> is required to allocate the function of oversight in SYSC 2.1.3R(2). However, the systems and controls that must be overseen are those relating to matters which the <i>FSA</i>, as <i>Host State regulator</i>, is entitled to regulate (there is <i>guidance</i> on this in SYSC App 1). Those are primarily, but not exclusively, the systems and controls relating to the conduct of the <i>firm's</i> activities carried on from its <i>UK branch</i>.</p> <p>(3) Such a <i>firm</i> need not allocate the function of oversight to its <i>chief executive</i>; it must allocate it to one or more <i>directors</i> and <i>senior managers</i> of the <i>firm</i> or the <i>firm's group</i> under SYSC 2.1.4R, row (2).</p> <p>(4) An <i>incoming EEA firm</i> which has <i>provision only</i> for <i>cross border services</i> is not required to allocate either function if it does not carry on <i>regulated activities</i> in the <i>United Kingdom</i>; for example if they fall within the overseas persons exclusions in article 72 of the <i>Regulated Activities Order</i>.</p> <p>See also Question 1.</p>

	Question	Answer
13	What about a <i>firm</i> that is a <i>partnership</i> or a <i>limited liability partnership</i> ?	The <i>FSA</i> envisages that most if not all <i>partners</i> or members will be either <i>directors</i> or <i>senior managers</i> , but this will depend on the constitution of the <i>partnership</i> (particularly in the case of a <i>limited partnership</i>) or <i>limited liability partnership</i> . A <i>partnership</i> or <i>limited liability partnership</i> may also have a <i>chief executive</i> (see Question 5). A <i>limited liability partnership</i> is a <i>body corporate</i> and, if a member of a <i>group</i> , will fall within SYSC 2.1.4R, row (1) or (2).
14	What if generally accepted principles of good corporate governance recommend that the <i>chief executive</i> should not be involved in an aspect of corporate governance?	The Note to SYSC 2.1.4R provides that the <i>chief executive</i> or other <i>executive director</i> or <i>senior manager</i> need not be involved in such circumstances. For example, the Combined Code developed by the Committee on Corporate Governance recommends that the board of a listed company should establish an audit committee of non-executive directors to be responsible for oversight of the audit. That aspect of the oversight function may therefore be allocated to the members of such a committee without involving the <i>chief executive</i> . Such individuals may require approval by the <i>FSA</i> in relation to that function (see Question 1).

2.2 Recording the apportionment

- 2.2.1** **R**_{/1} (1) A *firm* must make a record of the arrangements it has made to satisfy ■ SYSC 2.1.1 R (apportionment) and ■ SYSC 2.1.3 R (allocation) and take reasonable care to keep this up to date.
- (2) This record must be retained for six years from the date on which it was superseded by a more up-to-date record.
- 2.2.2** **G**_{/1} (1) A *firm* will be able to comply with ■ SYSC 2.2.1 R by means of records which it keeps for its own purposes provided these records satisfy the requirements of ■ SYSC 2.2.1 R and provided the *firm* takes reasonable care to keep them up to date. Appropriate records might, for this purpose, include organisational charts and diagrams, project management *documents*, job descriptions, committee constitutions and terms of reference provided they show a clear description of the *firm's* major functions.
- (2) *Firms* should record any material change to the arrangements described in ■ SYSC 2.2.1 R as soon as reasonably practicable after that change has been made.
- 2.2.3** **G**_{/1} Where responsibilities have been allocated to more than one individual, the *firm's* record should show clearly how those responsibilities are shared or divided between the individuals concerned.

Chapter 3

Systems and Controls

3.1 Systems and Controls

- 3.1.1** **R** ^{/1} A *firm* must take reasonable care to establish and maintain such systems and controls as are appropriate to its business.
- 3.1.2** **G** ^{/1}
- (1) The nature and extent of the systems and controls which a *firm* will need to maintain under **■ SYSC 3.1.1 R** will depend upon a variety of factors including:
 - (a) the nature, scale and complexity of its business;
 - (b) the diversity of its operations, including geographical diversity;
 - (c) the volume and size of its transactions; and
 - (d) the degree of risk associated with each area of its operation.
 - (2) To enable it to comply with its obligation to maintain appropriate systems and controls, a *firm* should carry out a regular review of them.
 - (3) The areas typically covered by the systems and controls referred to in **■ SYSC 3.1.1 R** are those identified in **■ SYSC 3.2**. Detailed requirements regarding systems and controls relevant to particular business areas or particular types of *firm* are covered elsewhere in the *Handbook*.
- 3.1.3** **G** ^{/1} Where the Combined Code developed by the Committee on Corporate Governance is relevant to a *firm*, the *FSA*, in considering whether the *firm's* obligations under **■ SYSC 3.1.1 R** have been met, will give it due credit for following corresponding provisions in the Code and related guidance.
- 3.1.4** **G** ^{/1} A *firm* has specific responsibilities regarding its *appointed representatives* (see **■ SUP 12**).
- 3.1.5** **G** ^{/1} **■ SYSC 2.1.3 R (2)** prescribes how a *firm* must allocate the function of overseeing the establishment and maintenance of systems and controls described in **■ SYSC 3.1.1 R**.

3.2 Areas covered by systems and controls

Introduction

- 3.2.1** G_{/1} This section covers some of the main issues which a *firm* is expected to consider in establishing and maintaining the systems and controls appropriate to its business, as required by ■ SYSC 3.1.1 R.

Organisation

- 3.2.2** G_{/1} A *firm's* reporting lines should be clear and appropriate having regard to the nature, scale and complexity of its business. These reporting lines, together with clear management responsibilities, should be communicated as appropriate within the *firm*.
- 3.2.3** G_{/1}
- (1) A *firm's governing body* is likely to delegate many functions and tasks for the purpose of carrying out its business. When functions or tasks are delegated, either to *employees* or to *appointed representatives*, appropriate safeguards should be put in place.
 - (2) When there is delegation, a *firm* should assess whether the recipient is suitable to carry out the delegated function or task, taking into account the degree of responsibility involved.
 - (3) The extent and limits of any delegation should be made clear to those concerned.
 - (4) There should be arrangements to supervise delegation, and to monitor the discharge of delegates' functions or tasks.
 - (5) If cause for concern arises through supervision and monitoring or otherwise, there should be appropriate follow-up action at an appropriate level of seniority within the *firm*.
- 3.2.4** G_{/1}
- (1) The *guidance* relevant to delegation within the *firm* is also relevant to external delegation ("outsourcing"). A *firm* cannot contract out its regulatory obligations. So, for example, under *Principle 3* a *firm* should take reasonable care to supervise the discharge of outsourced functions by its contractor.
 - (2) A *firm* should take steps to obtain sufficient information from its contractor to enable it to assess the impact of outsourcing on its systems and controls.
- 3.2.5** G_{/1} Where it is made possible and appropriate by the nature, scale and complexity of its business, a *firm* should segregate the duties of individuals and departments in

such a way as to reduce opportunities for *financial crime* or contravention of requirements and standards under the *regulatory system*. For example, the duties of front-office and back-office staff should be segregated so as to prevent a single individual initiating, processing and controlling transactions.

Compliance

- 3.2.6** **R**_{/1} A *firm* must take reasonable care to establish and maintain effective systems and controls for compliance with applicable requirements and standards under the *regulatory system* and for countering the risk that the *firm* might be used to further *financial crime*.
- 3.2.7** **G**_{/1}
- (1) Depending on the nature, scale and complexity of its business, it may be appropriate for a *firm* to have a separate compliance function. The organisation and responsibilities of a compliance function should be documented. A compliance function should be staffed by an appropriate number of competent staff who are sufficiently independent to perform their duties objectively. It should be adequately resourced and should have unrestricted access to the *firm's* relevant records as well as ultimate recourse to its *governing body*.
 - (2) The *regulatory objectives* are defined in section 2 of the *Act* and include “the reduction of *financial crime*”. This objective is more fully described in section 6 of the *Act*. This describes “*financial crime*” as including “any offence involving (a) fraud or dishonesty, (b) misconduct in, or misuse of information relating to, a financial market, or (c) handling the proceeds of crime”.
 - (3) The FSA’s detailed requirements for systems and controls with respect to *money laundering* are set out in the *Money Laundering* sourcebook (*ML*).
- 3.2.8** **R**_{/1}
- (1) A *firm* which carries on *designated investment business* must allocate to a *director* or *senior manager* the function of:
 - (a) having responsibility for oversight of the *firm's* compliance; and
 - (b) reporting to the *governing body* in respect of that responsibility.
 - (2) In ■ SYSC 3.2.8 R (1) “compliance” means compliance with the *rules* in:
 - (a) *COB* (Conduct of Business); and
 - (b) *CIS* (Collective Investment Schemes).
- 3.2.9** **G**_{/1}
- (1) ■ SUP 10.7.8 R uses ■ SYSC 3.2.8 R to describe the *controlled function*, known as the *compliance oversight function*, of acting in the capacity of a *director* or *senior manager* to whom this function is allocated.
 - (2) The *rules* referred to in ■ SYSC 3.2.8 R (2) are the minimum area of focus for the *firm's compliance oversight function*. A *firm* is free to give additional responsibilities to a person performing this function if it wishes.

Risk assessment

3.2.10

G
/1

- (1) Depending on the nature, scale and complexity of its business, it may be appropriate for a *firm* to have a separate risk assessment function responsible for assessing the risks that the *firm* faces and advising the *governing body* and *senior managers* on them.
- (2) The organisation and responsibilities of a risk assessment function should be documented. The function should be adequately resourced and staffed by an appropriate number of competent staff who are sufficiently independent to perform their duties objectively.

Management information

3.2.11

G
/1

- (1) A *firm's* arrangements should be such as to furnish its *governing body* with the information it needs to play its part in identifying, measuring, managing and controlling risks of regulatory concern. Three factors will be the relevance, reliability and timeliness of that information.
- (2) Risks of regulatory concern are those risks which relate to the fair treatment of the *firm's customers*, to the protection of *consumers*, to confidence in the *financial system*, and to the use of that system in connection with *financial crime*.

3.2.12

G
/1

It is the responsibility of the *firm* to decide what information is required, when, and for whom, so that it can organise and control its activities and can comply with its regulatory obligations. The detail and extent of information required will depend on the nature, scale and complexity of the business.

Employees and agents

3.2.13

G
/1

A *firm's* systems and controls should enable it to satisfy itself of the suitability of anyone who acts for it.

3.2.14

G
/1

- (1) ■ SYSC 3.2.13 G includes assessing an individual's honesty, and competence. This assessment should normally be made at the point of recruitment. An individual's honesty need not normally be revisited unless something happens to make a fresh look appropriate.
- (2) Any assessment of an individual's suitability should take into account the level of responsibility that the individual will assume within the *firm*. The nature of this assessment will generally differ depending upon whether it takes place at the start of the individual's recruitment, at the end of the probationary period (if there is one) or subsequently.
- (3) The FSA's detailed requirements on *firms* with respect to the competence of individuals are in the Training and Competence sourcebook (TC).
- (4) The requirements on *firms* with respect to *approved persons* are in Part V of the *Act* (Performance of regulated activities) and ■ SUP 10.

Audit committee

- 3.2.15** **G**_{/1} Depending on the nature, scale and complexity of its business, it may be appropriate for a *firm* to form an audit committee. An audit committee could typically examine management's process for ensuring the appropriateness and effectiveness of systems and controls, examine the arrangements made by management to ensure compliance with requirements and standards under the *regulatory system*, oversee the functioning of the internal audit function (if applicable) and provide an interface between management and the external auditors. It should have an appropriate number of *non-executive directors* and it should have formal terms of reference.

Internal audit

- 3.2.16** **G**_{/1} Depending on the nature, scale and complexity of its business, it may be appropriate for a *firm* to delegate much of the task of monitoring the appropriateness and effectiveness of its systems and controls to an internal audit function. An internal audit function should have clear responsibilities and reporting lines to an audit committee or appropriate *senior manager*, be adequately resourced and staffed by competent individuals, be independent of the day-to-day activities of the *firm* and have appropriate access to a *firm's* records.

Business strategy

- 3.2.17** **G**_{/1} A *firm* should plan its business appropriately so that it is able to identify, measure, manage and control risks of regulatory concern (see ■ SYSC 3.2.11 G (2)). In some *firms*, depending on the nature, scale and complexity of their business, it may be appropriate to have business plans or strategy plans documented and updated on a regular basis to take account of changes in the business environment.

Remuneration policies

- 3.2.18** **G**_{/1} It is possible that *firms'* remuneration policies will from time to time lead to tensions between the ability of the *firm* to meet the requirements and standards under the *regulatory system* and the personal advantage of those who act for it. Where tensions exist, these should be appropriately managed.

Business continuity

- 3.2.19** **G**_{/1} A *firm* should have in place appropriate arrangements, having regard to the nature, scale and complexity of its business, to ensure that it can continue to function and meet its regulatory obligations in the event of an unforeseen interruption. These arrangements should be regularly updated and tested to ensure their effectiveness.

Records

- 3.2.20** **R**_{/1} (1) A *firm* must take reasonable care to make and retain adequate records of matters and dealings (including accounting records)

which are the subject of requirements and standards under the *regulatory system*.

- (2) Subject to (3) and to any other record-keeping *rule* in the *Handbook*, the records required by (1) or by such other *rule* must be capable of being reproduced in the English language on paper.
- (3) If a *firm's* records relate to business carried on from an establishment in a country or territory outside the *United Kingdom*, an official language of that country or territory may be used instead of the English language as required by (2).

3.2.21

G
/1

A *firm* should have appropriate systems and controls in place to fulfil the *firm's* regulatory and statutory obligations with respect to adequacy, access, periods of retention and security of records. The general principle is that records should be retained for as long as is relevant for the purposes for which they are made.

3.2.22

G
/1

Detailed record-keeping requirements for different types of *firm* are to be found elsewhere in the *Handbook*. Schedule 1 to the *Handbook* is a consolidated schedule of these requirements.

Appendix 1

1.1 Matters reserved to a Home State regulator (see SYSC 1.1.1 R (1)(b) and SYSC 1.1.1 R (1)(c))

1.1.1 G _{/1} The application of SYSC 2.1.3R to SYSC 2.2.3G and SYSC 3 to an *incoming EEA firm* or *incoming Treaty firm* depends on whether responsibility for the matter in question is reserved to the *firm's Home State regulator*. This appendix contains *guidance* designed to assist such *firms* in understanding the application of those provisions. This appendix is not concerned with the FSA's rights to take enforcement action against an *incoming EEA firm* or an *incoming Treaty firm*, which are covered in the Enforcement manual (ENF), or with the position of a *firm* with a *top-up permission*.

1.1.2 G _{/1} The *Single Market Directives* and the *Treaty* (as interpreted by the European Court of Justice) adopt broadly similar approaches to reserving responsibility to the *Home State regulator*. To summarise, the FSA, as *Host State regulator*, is entitled to impose requirements with respect to activities carried on within the *United Kingdom* if these can be justified in the interests of the "general good" and are imposed in a non-discriminatory way. This general proposition is subject to the following in relation to activities passported under the *Single Market Directives*:

- (1) the *Single Market Directives* expressly reserve responsibility for the prudential supervision of an *ISD investment firm*, *BCD credit institution* or passporting *insurance undertaking* to the *firm's Home State regulator*; accordingly, the FSA, as *Host State regulator*, is entitled to regulate only the conduct of the *firm's* business within the *United Kingdom*;
- (2) article 11 of the *ISD* sets out various rules of conduct which the FSA, as *Host State regulator*, is required to impose on an *ISD investment firm* (including a *BCD credit institution* which is an *ISD investment firm*) in relation to *core investment services* (and, where appropriate, to *non-core investment services*) provided within the *United Kingdom*;
- (3) for a *BCD credit institution*, the FSA, as *Host State regulator*, is jointly responsible with the *Home State regulator* under article 27 of the *Banking Consolidation Directive* for supervision of the liquidity of a *branch* in the *United Kingdom*;
- (4) for an *ISD investment firm* (including a *BCD credit institution* which is an *ISD investment firm*), the protection of clients' money and clients' assets is reserved to the *Home State regulator* under the *ISD*; and
- (5) responsibility for participation in compensation schemes for *BCD credit institutions* and *ISD investment firms* is reserved in most cases to the *Home*

State regulator under the *Deposit Guarantee Directive* and the *Investor Compensation Directive*.

- 1.1.3** G_{/1} It is necessary to refer to the case law of the European Court of Justice to interpret the concept of the “general good”. To summarise, to satisfy the general good test, *Host State* rules must come within a field which has not been harmonised at a Community level, satisfy the general requirements that they pursue an objective of the general good, be non-discriminatory, be objectively necessary, be proportionate to the objective pursued and not already be safeguarded by rules to which the *firm* is subject in its *Home State*.
- 1.1.4** G_{/1} The *FSA* considers that it is entitled, in the interests of the general good, to impose the requirements in SYSC 2.1.3R to SYSC 2.2.3G (in relation to the allocation of the function in SYSC 2.1.3R(2)) and SYSC 3 on an *incoming EEA firm* and an *incoming Treaty firm*; but only in so far as they relate to those categories of matter responsibility for which is not reserved to the *firm's Home State regulator*.
- 1.1.5** G_{/1} Should the *FSA* become aware of anything relating to an *incoming EEA firm* or *incoming Treaty firm* (whether or not relevant to a matter for which responsibility is reserved to the *Home State regulator*), the *FSA* may disclose it to the *Home State regulator* in accordance with any applicable directive and the applicable restrictions in Part XXIII of the *Act* (Public Record, Disclosure of Information and Co-operation).
- 1.1.6** G_{/1} This appendix represents the *FSA's* views, but a *firm* is also advised to consult the relevant European Community instrument and, where necessary, seek legal advice. The views of the European Commission in the banking and insurance sectors are contained in two Commission Interpretative Communications (Nos. 97/C209/04 and C(1999)5046).
- 1.1.7** G_{/1} *AUTH 5 Ann 1G* summarises the application of the *Handbook* to an *incoming EEA firm*. That annex indicates in broad terms, and in relation to such *firms*, those categories of matter which are reserved to a *Home State regulator* and those which the *FSA*, as *Host State regulator*, is entitled to regulate when carried on within the *United Kingdom*.
- 1.1.8** G_{/1} Examples of how the *FSA* considers that SYSC 3 will apply in practice to an *incoming EEA firm* (see SYSC App 1.1.4G) are as follows:
- (1) The interim Prudential sourcebook (insurers) (*IPRU (INS)*) does not apply to an *insurer* which is an *incoming EEA firm*. Similarly, SYSC 3 does not require such a *firm*:
 - (a) to establish systems and controls in relation to financial resources (SYSC 3.1.1R); or
 - (b) to establish systems and controls for compliance with that Interim Prudential sourcebook (SYSC 3.2.6R); or
 - (c) to make and retain records in relation to financial resources (SYSC 3.2.20R).
 - (2) The Conduct of Business sourcebook applies to an *incoming EEA firm*, except that COB 9 (Client asset rules) does not apply with respect to *passported activities*. Similarly, SYSC 3 does require such a *firm*:
 - (a) to establish systems and controls in relation to those aspects of the conduct of its business covered by applicable sections of COB (SYSC 3.1.1R);

1.1.9

G

/1

See also Question 12 in SYSC 2.1.6G for guidance on the application of SYSC 2.1.3R(2).

- (b) to establish systems and controls for compliance with the applicable sections of *COB* (SYSC 3.2.6R); and
- (c) to make and retain records in relation to those aspects of the conduct of its business (SYSC 3.2.20R).

Handbook Modules

Schedule1 Record keeping requirements

G

- 1 The aim of the guidance in the following table is to give the reader a quick over-all view of the relevant record keeping requirements.
- 2 It is not a complete statement of those requirements and should not be relied on as if it were.
- 3 Table

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
SYSC 2.2.1R	Arrangements made to satisfy SYSC 2.1.1R (apportionment) and SYSC 2.1.3R (allocation)	Those arrangements	On making the arrangements and when they are updated	Six years from the date on which the record is superseded by a more up-to-date record
SYSC 3.2.20R	Matters and dealings (including accounting records) which are the subject of requirements and standards under the <i>regulatory system</i>	Adequate	Adequate time	Adequate

Handbook Modules

Schedule2 Notification requirements

G

- 1 There are no notification or reporting requirements in SYSC.

Handbook Modules

Schedule3 Fees and other required payments

G

- 1 There are no requirement for fees or other payments in SYSC.

Handbook Modules

Schedule4 Powers exercised

G

- 1 The following powers and related provisions in the Act have been exercised by the FSA to make rules in SYSC:
 - (1) Section 138 (General rule-making power)
 - (2) Section 145 (Financial promotion rules)
 - (3) Section 146 (Money laundering rules)
 - (4) Section 150(2) (Actions for damages)
 - (5) Section 156 (General supplementary powers).
- 2 The following power in the Act has been exercised by the FSA to give the guidance in SYSC.
 - Section 157(1) (Guidance).

Handbook Modules

Schedule5 Rights of action for damages

G

- 1 The table below sets out the rules in SYSC contravention of which by an authorised person may be actionable under section 150 of the Act (Actions for damages) by a person who suffers loss as a result of the contravention.
- 2 If a “Yes” appears in the column headed “For private person?”, the rule may be actionable by a “private person” under section 150 (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001 No 2256)). A “Yes” in the column headed “Removed” indicates that the FSA has removed the right of action under section 150(2) of the Act. If so, a reference to the rule in which it is removed is also given.
- 3 The column headed “For other person?” indicates whether the rule may be actionable by a person other than a private person (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of person by whom the rule may be actionable is given.
- 4

Table	Actions for damages

THRESHOLD CONDITIONS INSTRUMENT 2001

- A. The Financial Services Authority gives the guidance in the Annex to this instrument (COND) in the exercise of the power listed in Schedule 4 to COND (Powers exercised).
- B. This instrument shall come into force at the beginning of the first day on which section 40 of the Financial Services and Markets Act 2000 (Application for permission) comes into force for any purpose.
- C. This instrument may be cited as the Threshold Conditions Instrument 2001.
- D. The Annex to this instrument may be cited as the Threshold Conditions (or COND).

By order of the Board
21 June 2001

Handbook Modules

Transitional Provisions

1 G Table

There are no transitional provisions in *COND*. However, *GEN* contains some technical transitional provisions that apply throughout the *Handbook* and which are designed to ensure a smooth transition at *commencement*.

Chapter 1.

Introduction

1.1 Application

Who?

1.1.1

G
/1

COND applies to every *firm*, except that:

- (1) for an *incoming EEA firm* or an *incoming Treaty firm* only *threshold conditions* 1, 3, 4 and 5 apply and only in so far as relevant to:
 - (a) an application for a *top-up permission* under Part IV of the *Act* (that is, *permission* to carry on *regulated activities* in addition to those permitted through the *incoming firm's authorisation* under Schedule 3 (EEA Passport Rights) or 4 (Treaty Rights) to the *Act*); and
 - (b) the exercise of the *FSA's own-initiative power* under section 45 of the *Act* (Variation etc on the *FSA's own initiative*) in relation to the *top-up permission*.
- (2) COND also applies to an applicant for *Part IV permission*.

1.1.2

G
/1

In COND, '*firm*' includes an applicant for *Part IV permission* unless the context otherwise requires.

What?

1.1.3

G
/1

COND applies in relation to all of the *regulated activities* for which a *firm* has, or will have, *permission*, except as stated in COND 1.1.1G(1).

Where?

1.1.4

G
/1

COND applies in relation to all of the *regulated activities* wherever they are carried on, except as stated in COND 1.1.1G(1).

1.2 Purpose

1.2.1

G

^{/1}

COND gives *guidance* on the *threshold conditions* set out in Schedule 6 to the *Act* (Threshold conditions). The *threshold conditions* represent the minimum conditions which a *firm* is required to satisfy, and continue to satisfy, in order to be given and to retain *Part IV permission*.

Applications for Part IV permission or variation of Part IV permission

1.2.2

G

^{/1}

- (1) Under section 41(2) of the *Act* (The threshold conditions), in giving or varying a *Part IV permission* or imposing or varying any *requirement*, the *FSA* must ensure that the *firm* concerned will satisfy, and continue to satisfy, the *threshold conditions* in relation to all of the *regulated activities* for which it has or will have *permission*.
- (2) If, however, the applicant for *permission* is an *incoming firm* seeking *top-up permission*, or variation of *top-up permission*, under Part IV of the *Act* (Permission to carry on regulated activities), then under paragraphs 6 and 7 of Schedule 6 to the *Act*, the *FSA* will have regard only to satisfaction of *threshold conditions* 1, 3, 4 and 5, as relevant to the *regulated activities* for which the applicant has, or will have, *Part IV permission*.

Exercise of the FSA's own-initiative power

1.2.3

G

^{/1}

- (1) If, among other things, a *firm* is failing to satisfy any of the *threshold conditions*, or is likely to fail to do so, section 45 of the *Act* (Variation etc. on the *FSA's* own initiative) states that the *FSA* may exercise its *own-initiative power*. Use of the *FSA's* *own-initiative power* is explained in *SUP 7* (Individual requirements), *ENF 3* (Variation of Part IV permission on the *FSA's* own initiative) and *ENF 5* (Cancellation of Part IV permission on the *FSA's* own initiative and withdrawal of authorisation).
- (2) If, when exercising its *own-initiative power* under section 45(1) of the *Act*, the *FSA* varies a *firm's* *permission*, or imposes or varies a *requirement*, then, under section 41(1) of the *Act*, the *FSA* must ensure that the *firm* concerned will satisfy, and continue to satisfy, the *threshold conditions* in relation to all of the *regulated activities* for which it has or will have *permission*. However, section 41(2) of the *Act* states that the duty imposed by section 41(1) of the *Act* does not prevent the *FSA* taking such steps as it considers necessary in relation to a particular *firm* in order to secure its *regulatory objective of consumer protection*.
- (3) The *FSA* can also exercise its *own-initiative power* under section 45 of the *Act* in relation to the *top-up permission* of an *incoming firm*. But this is only on

the grounds that the *incoming firm* is failing, or likely to fail, to satisfy *threshold conditions* 1, 3, 4 or 5 in relation to that *permission*.

Approval of acquisitions or increases of control

1.2.4

G
/1

(1) Under section 186(3) of the *Act* (Objection to acquisition of control), in deciding whether the approval requirements for a proposed acquisition or increase of *control* are satisfied, the *FSA* must have regard, in relation to the *control* that the acquirer:

- (a) has over the *firm*; or
- (b) will have over the *firm* if the proposal which has been notified to the *FSA* is carried out;

to its general duty to ensure that the *firm* will continue to satisfy the *threshold conditions*.

(2) The *FSA* must also have regard to the *threshold conditions* in imposing any conditions on its approval of an acquisition or increase of *control* (section 185(2) of the *Act* (Conditions attached to approval)). See *SUP* 11.7.3G (Acquisition or increase of control: procedures).

1.3 General

An overview of the *threshold conditions* is given in COND 1 Ann 1G.

- 1.3.1** **G**_{/1} The *guidance* in COND 2 explains each *threshold condition* in Part I of Schedule 6 (threshold conditions) to the *Act* and how the *FSA* will interpret it in practice. An overview of the *threshold conditions* is given in COND 1 Ann 1G. This *guidance* is not, however, exhaustive and is written in very general terms. A *firm* will need to have regard to the obligation placed upon the *FSA* under section 41 (the *threshold conditions*) of the *Act*; that is, the *FSA* must ensure that the *firm* will satisfy, and continue to satisfy, the *threshold conditions* in relation to each *regulated activity* for which it has, or will have, *permission*.
- 1.3.2** **G**_{/1} (1) The *FSA* will consider whether a *firm* satisfies, and will continue to satisfy, the *threshold conditions* in the context of the size, nature, scale and complexity of the business which the *firm* carries on or will carry on if the relevant application is granted.
- (2) In relation to *threshold conditions* 4 and 5, the *FSA* will consider whether a *firm* is ready, willing and organised to comply, on a continuing basis, with the requirements and standards under the *regulatory system* which apply to the *firm*, or will apply to the *firm*, if it is granted *Part IV permission*, or a variation of its *permission*. These matters will also be considered if the *FSA* is exercising its *own-initiative power* (see COND 1.2.3G). Guidance to *firms* on the implications of this is given under each of those *threshold conditions*.
- 1.3.3** **G**_{/1} Although the *FSA* may consider that a matter is relevant to its assessment of a *firm*, the fact that a matter is disclosed to the *FSA*, for example in an application, does not necessarily mean that the *firm* will fail to satisfy the *threshold conditions*. The *FSA* will consider each matter in relation to the *regulated activities* for which the *firm* has, or will have, *permission*, having regard to the *regulatory objectives* set out in section 2 of the *Act* (The *FSA*'s general duties). A *firm* should disclose each relevant matter but, if it is appropriate to do so, it is encouraged to discuss it with the *FSA*. This will enable the *FSA* to consider fully how material or significant the matter is and how it affects the ability of the *firm* to satisfy, and continue to satisfy, the *threshold conditions* (see also COND 2.3.5G, COND 2.4.4G(3) and COND 2.5.4G(3)).

Statutory quotations

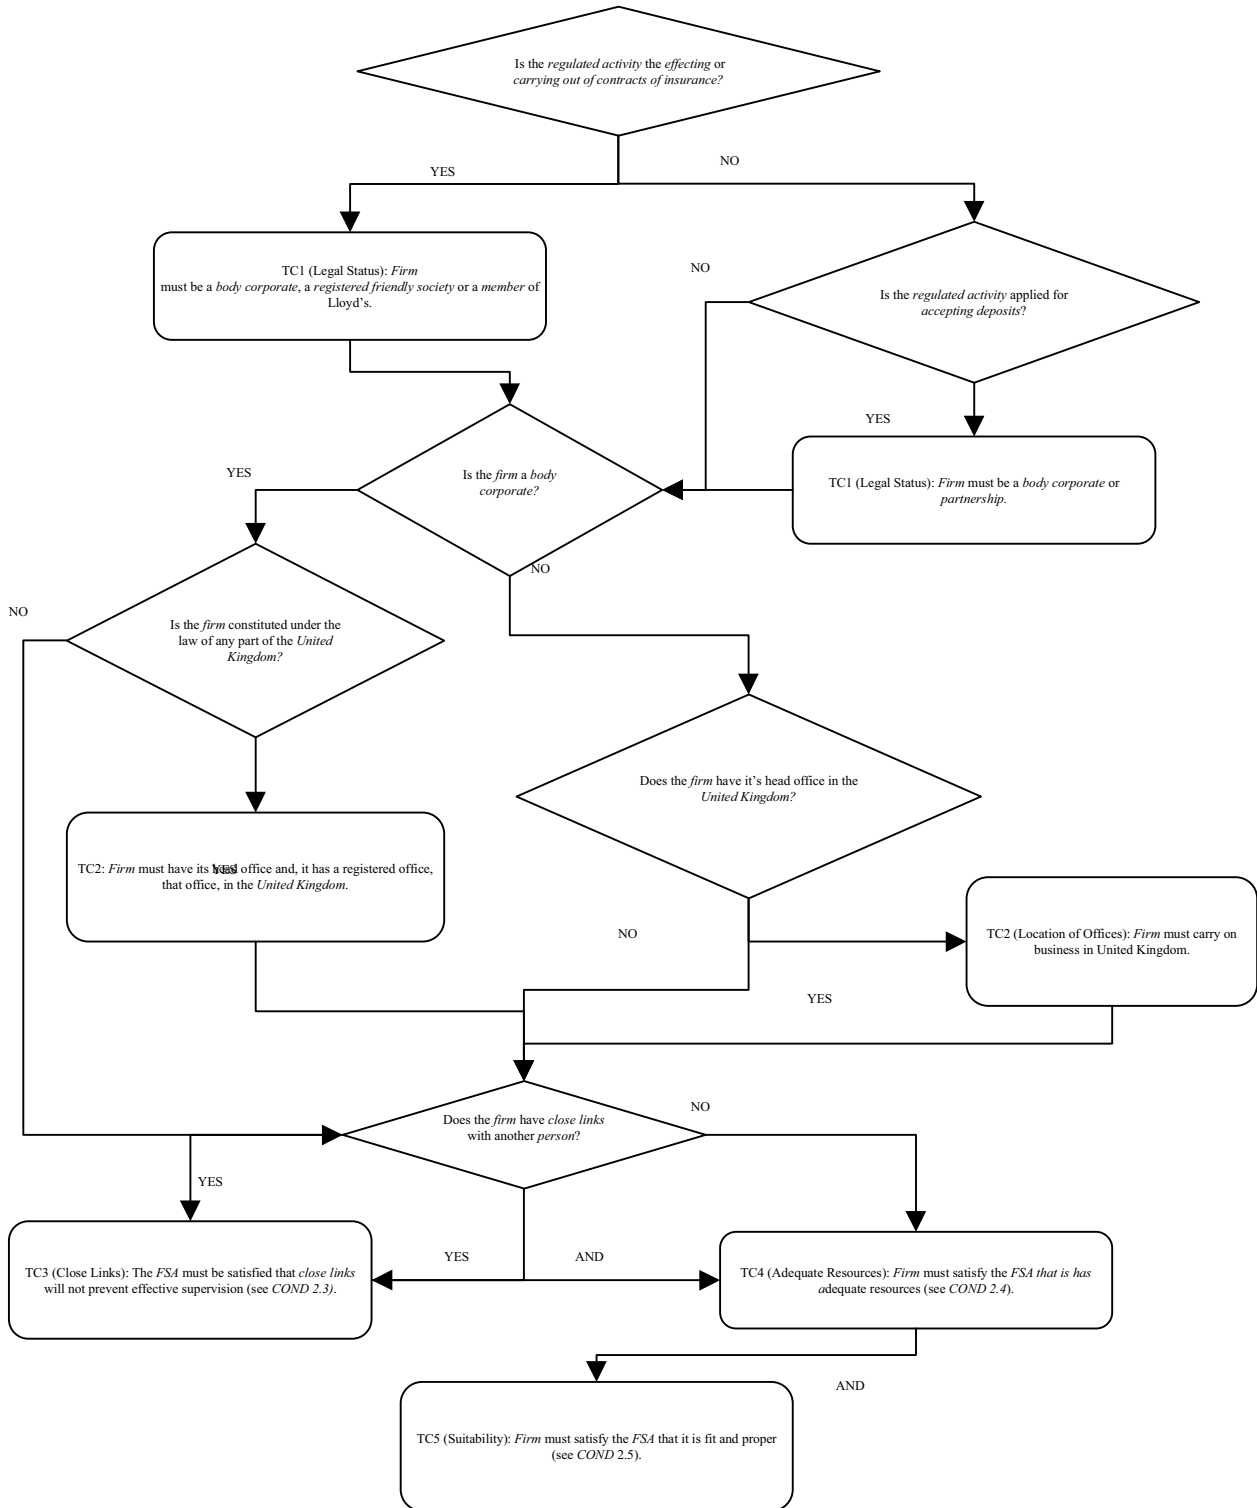

- 1.3.4** **G**_{/1} (1) For ease of reference, the *threshold conditions* in Schedule 6 to the *Act* have been quoted in full in COND 2.

- (2) As these provisions impose obligations, they are printed in bold type. The use of bold type is not intended to indicate that these quotations are *rules* made by the *FSA*.
- (3) Where words have been substituted for the text of these provisions the substitutions are enclosed in square brackets ([]). However, none of the changes made by the *FSA* in these quotations for the purpose of the text in *COND* can supersede or alter the meaning of the statutory provision concerned.

Introduction

G

Overview of the threshold conditions (COND 1.3.1G)

Chapter 2.

2.

The threshold conditions

2.1 Threshold condition 1: Legal status

2.1.1 Table Paragraph 1, Schedule 6 to the Act.

/1

- (1) If the regulated activity concerned is the effecting or carrying out of contracts of insurance the authorised person must be a body corporate, a registered friendly society or a member of Lloyd's.**
- (2) If the person concerned appears to the [FSA] to be seeking to carry on, or to be carrying on, a regulated activity constituting accepting deposits, it must be—**
- (a) a body corporate; or**
 - (b) a partnership.**

2.1.2

G
/1

Section 40(1) of the *Act* (Application for permission) allows an application to be made to the *FSA* for *Part IV permission* by an individual, a *body corporate*, a *partnership* or an unincorporated association. However, in the case of the *regulated activities of accepting deposits* and *effecting or carrying out contracts of insurance*, article 1 of the *Banking Consolidation Directive* and article 8(1) of the *First Non-Life Directive* and of the *First Life Directive* place further limits on the legal forms a *firm* may take. The *Act* implements the provisions of the directives and extends some of these limits to *firms* that are outside the scope of the directives.

2.2 Threshold condition 2: Location of offices

2.2.1

Table Paragraph 2, Schedule 6 to the Act.

/1

- (1) If the person concerned is a body corporate constituted under the law of any part of the United Kingdom –**
- (a) its head office, and**
 - (b) if it has a registered office, that office, must be in the United Kingdom.**
- (2) If the person concerned has its head office in the United Kingdom but is not a body corporate, it must carry on business in the United Kingdom.**

2.2.2

G

/1

Threshold condition 2 (Location of offices), implements the requirements of article 6 of the *Post BCCI Directive*, although the *Act* extends this condition to *firms* which are outside the scope of the *Single Market Directives* and the *UCITS Directive*.

2.2.3

G

/1

Neither the *Post BCCI Directive* nor the *Act* define what is meant by a *firm's* 'head office'. This is not necessarily the *firm's* place of incorporation or the place where its business is wholly or mainly carried on. Although the *FSA* will judge each application on a case-by-case basis, the key issue in identifying the head office of a *firm* is the location of its central management and control, that is, the location of:

- (1) the *directors* and other senior management, who make decisions relating to the *firm's* central direction, and the material management decisions of the *firm* on a day-to-day basis; and
- (2) the central administrative functions of the *firm* (for example, central compliance, internal audit).

2.3 Threshold condition 3: Close links

2.3.1 Table Paragraph 3, Schedule 6 to the Act.

/1

- (1) If the person concerned ("A") has close links with another person ("CL"), the [FSA] must be satisfied–**
- (a) that those links are not likely to prevent the [FSA's] effective supervision of A; and**
 - (b) if it appears to the [FSA] that CL is subject to the laws, regulations or administrative provisions of a territory which is not an EEA State ("the foreign provisions"), that neither the foreign provisions, nor any deficiency in their enforcement, would prevent the [FSA's] effective supervision of A.**
- (2) A has close links with CL if:**
- (a) CL is a parent undertaking of A;**
 - (b) CL is a subsidiary undertaking of A;**
 - (c) CL is a parent undertaking of a subsidiary undertaking of A;**
 - (d) CL is a subsidiary undertaking of a parent undertaking of A;**
 - (e) CL owns or controls 20% or more of the voting rights or capital of A; or**
 - (f) A owns or controls 20% or more of the voting rights or capital of CL.**
- (3) "Subsidiary undertaking" includes all the instances mentioned in Article 1(1) and (2) of the Seventh Company Law Directive in which an entity may be a subsidiary of an undertaking.**

2.3.2

G
/1

Threshold condition 3 (Close links) implements requirements of the Post BCCI Directive, but the Act extends this condition to firms from outside the EEA and other firms which are outside the scope of the Single Market Directives and the UCITS Directive.

2.3.3

G
/1

In assessing this *threshold condition*, factors which the FSA will take into consideration include, among other things, whether:

- (1) it is likely that the FSA will receive adequate information from the *firm*, and those *persons* with whom the *firm* has *close links*, to enable it to determine whether the *firm* is complying with the requirements and standards under the *regulatory system* and to identify and assess the impact on the *regulatory objectives* in section 2 of the *Act* (The FSA's general duties); this will include consideration of whether the *firm* is ready, willing and organised to comply with *Principle 11* (Relations with regulators and the *rules* in *SUP* on the provision of information to the FSA;
- (2) The structure and geographical spread of the *firm*, the *group* to which it belongs and other *persons* with whom the *firm* has *close links*, might hinder the provision of adequate and reliable flows of information to the FSA; factors which may hinder these flows include the fact there may be branches or connected *companies* in territories which supervise *companies* to a different standard or territories with laws which restrict the free flow of information, although the FSA will consider the totality of information available from all sources;

- (3) the *firm* and the *group* to which it belongs are, or will be, subject to supervision on a consolidated basis (consolidated supervision) (for example, if a financial resources requirement is determined for the *group* as a whole); and
- (4) it is possible to assess with confidence the overall financial position of the *group* at any particular time; factors which may make this difficult include lack of audited consolidated accounts for a *group*, if companies in the same *group* as the *firm* have different financial years and accounting dates and if they do not share common auditors.

2.3.4

G

/1

When assessing whether the *firm* will satisfy and continue to satisfy this *threshold condition*, the *FSA* will have regard to all relevant matters, whether arising in the *United Kingdom* or elsewhere.

2.3.5

G

/1

The *FSA* will take into account relevant matters only in so far as they are significant (see *COND* 1.3.3G). In determining the weight to be given to any relevant matter, the *FSA* will consider its significance in the context of its ability to supervise the *firm* adequately, having regard to the *regulatory objectives* in section 2 of the *Act*. In this context, a series of matters may be significant when taken together, even though each of them in isolation might not give serious cause for concern

Meaning of "parent undertaking" and "subsidiary undertaking"

2.3.6

G

/1

- (1) Section 420(1) of the *Act* (Parent and subsidiary undertaking) states that, except in relation to an *incorporated friendly society*, 'parent undertaking' and 'subsidiary undertaking' have the same meaning as in Part VII of the Companies Act 1985 or Part VIII of the Companies (Northern Ireland) Order 1986. These are the cases referred to in *COND* 2.3.7G(1)(a) to (f).
- (2) Section 420(2) of the *Act* supplements these definitions in two ways; these are the cases referred to in *COND* 2.3.7G(1)(g) and (h).
- (3) Paragraph 3(3) of Schedule 6 to the *Act* extends the meaning of 'subsidiary undertaking' for the purposes of *threshold condition* 3 (Close links) to all the cases in articles 1(1) and (2) of the *Seventh Company Law Directive* in which one *undertaking* may be a *subsidiary* of another *undertaking* (see *COND* 2.3.11G).

2.3.7

G

/1

- (1) For the purposes of *threshold condition* 3 (Close links) and except in relation to an *incorporated friendly society*, an undertaking is a *parent undertaking* of another *undertaking* (a *subsidiary undertaking*) if any of the following apply to it:
 - (a) it holds a majority of the voting rights in the *subsidiary undertaking*; or
 - (b) it is a member of the *subsidiary undertaking* and has the right to appoint or remove a majority of its board of *directors*; or
 - (c) it has the right to exercise a dominant influence over the *subsidiary undertaking* through:
 - (i) provisions contained in the *subsidiary undertaking's* memorandum or articles; or
 - (ii) a control contract; or

- (d) it is a member of the *subsidiary undertaking* and controls alone, under an agreement with other shareholders or members, a majority of the voting rights in the *subsidiary undertaking*; or
- (e) it has a participating interest (as defined in section 260 of the Companies Act 1985 (Participating interests)) in the *subsidiary undertaking* and:
 - (i) actually exercises a dominant influence over it; or
 - (ii) it and the *subsidiary undertaking* are managed on a unified basis; or
- (f) it is a *parent undertaking* of a *parent undertaking* of the *subsidiary undertaking*; or
- (g) it is an individual and would be a *parent undertaking* if it were an *undertaking*; or
- (h) it is incorporated in or formed under the law of another *EEA State* and is a *parent undertaking* within the meaning of any rule of law in that State for purposes connected with implementation of the *Seventh Company Law Directive*.

(2) A flowchart of COND 2.3.7G(1) is set out in COND 2 Ann 1G.

2.3.8

G
/1

- (1) In relation to COND 2.3.7G(1)(b) and (d), an *undertaking* is treated as a member of another *undertaking* if any of its *subsidiary undertakings* is a member of that *undertaking*, or if any shares in that other *undertaking* are held by a *person* acting on behalf of the *undertaking* or any of its *subsidiary undertakings*.
- (2) In relation to COND 2.3.7G(1)(e), a 'participating interest' means an interest held by an *undertaking* in the shares of another *undertaking* which it holds on a long term basis, for the purpose of securing a contribution to its activities by the exercise of control or influence arising from or related to that interest. A holding of 20% or more of the shares of an *undertaking* is presumed to be a participating interest unless the contrary is shown. Examples of interests of a temporary nature which do not constitute participating interests for the purpose of this control relationship include market-makers' holdings in a trading book.
- (3) Section 260(4) of the Companies Act 1985 states that an interest held on behalf of an *undertaking* is treated as held by it. Thus, if the chain of ownership includes a trust, the *FSA* will treat the trustees as legal owners when determining whether it considers there to be a *close link*. The beneficiaries or settlors of a trust (or both) may also come within the scope of these provisions, depending on the terms of the trust. However, the *FSA* will consider each case on its merits.

2.3.9

G
/1

The provisions of Schedule 10A to the Companies Act 1985 (Parent and subsidiary undertakings supplementary provisions) explain and supplement the provisions of section 258 in Part VII of the Companies Act 1985 (outlined in COND 2.3.7G(1)(a) to (f)).

2.3.10

G
/1

Section 420(3) of the *Act* (Parent and subsidiary undertaking) (supplemented by paragraph 3(3) of Schedule 6 to the *Act*) states that an *incorporated friendly society* is a *parent undertaking* of another *body corporate* (a *subsidiary undertaking*) if it has the following relationship to it:

- (1) it holds a majority of the voting rights in the *subsidiary undertaking*; or
- (2) it is a member of the *subsidiary undertaking* and has the right to appoint or remove a majority of the *subsidiary undertaking's* board of *directors*; or
- (3) it is a member of the *subsidiary undertaking* and controls alone, under an agreement with other shareholders or members, a majority of the voting rights in it.

2.3.11**G**
/1

For the purposes of this *threshold condition 3* (Close links), an *undertaking* is a *subsidiary undertaking* of another *undertaking* if:

- (1) the other undertaking (its parent) is a member of the *undertaking*;
- (2) a majority of the *undertaking's* board of *directors* who have held office during the financial year and during the preceding financial year have been appointed solely as a result of the exercise of the parent's voting rights; and
- (3) no one else is the *parent undertaking* of the *undertaking* under *COND 2.3.7G(1)(a) to (c)* or *COND 2.3.10G(1) or (2)*.

2.3.12**G**
/1

The *guidance* in *COND 2.3* is not comprehensive and is not a substitute for consulting the relevant legislation, for example the Companies Act 1985, the Companies (Northern Ireland) Order 1986, the Friendly Societies Act 1992 and the *Seventh Company Law Directive*, or obtaining appropriate professional advice.

2.4 Threshold condition 4: Adequate resources

2.4.1 Table Paragraph 4, Schedule 6 to the Act

/1

- (1) The resources of the person concerned must, in the opinion of the [FSA], be adequate in relation to the regulated activities that he seeks to carry on, or carries on.**
- (2) In reaching that opinion, the [FSA] may–**
- (a) **take into account the person's membership of a group and any effect which that membership may have; and**
- (b) **have regard to–**
- (i) **the provision he makes and, if he is a member of a group, which other members of the group make in respect of liabilities (including contingent and future liabilities); and**
- (ii) **the means by which he manages and, if he is a member of a group, which other members of the group manage the incidence of risk in connection with his business.**

2.4.2

G
/1

- (1) *Threshold condition 4* (Adequate resources), requires the *FSA* to ensure that a *firm* has adequate resources in relation to the specific *regulated activity* or *regulated activities* which it seeks to carry on, or carries on.
- (2) In this context, the *FSA* will interpret the term 'adequate' as meaning sufficient in terms of quantity, quality and availability, and 'resources' as including all financial resources, non-financial resources and means of managing its resources; for example, capital, provisions against liabilities, holdings of or access to cash and other liquid assets, human resources and effective means by which to manage risks.
- (3) High level systems and control requirements are in *SYSC*. Detailed financial resources and systems requirements are in the relevant section of *IPRU*, including specific provisions for particular types of *regulated activity*. The *FSA* will consider whether the *firm* is ready, willing and organised to comply with these requirements when assessing if it has adequate resources for the purposes of this *threshold condition*.

2.4.3

G
/1

- (1) When assessing this *threshold condition*, the *FSA* may have regard to any *person* appearing to it to be, or likely to be, in a relevant relationship with the *firm*, in accordance with section 49 of the *Act* (Persons connected with an applicant); for example, a *firm's* *controllers*, its *directors* or *partners*, other *persons* with *close links* to the *firm* (see *COND 2.3*), and other *persons* that exert influence on the *firm* which might pose a risk to the *firm's* satisfaction of the *threshold conditions* and would, therefore, be in a relevant relationship with the *firm*.
- (2) In particular, although it is the *firm* that is being assessed, the *FSA* may take into consideration the impact of other members of the *firm's* *group* on the adequacy of its resources. For example, the *FSA* may assess the consolidated

2.4.4

G

/1

- solvency of the *group*. The *FSA*'s approach to the consolidated supervision of a *firm* and its *group* is in the relevant part of *IPRU*.
- (1) When assessing whether a *firm* will satisfy and continue to satisfy *threshold condition 4*, the *FSA* will have regard to all relevant matters, whether arising in the *United Kingdom* or elsewhere.
 - (2) Relevant matters may include but are not limited to:
 - (a) whether there are any indications that the *firm* may have difficulties if the application is granted (see *COND 2.4.6G*), at the time of the grant or in the future, in complying with any of the *FSA*'s prudential *rules* (see the relevant part of *IPRU*);
 - (b) whether there are any indications that the *firm* will not be able to meet its debts as they fall due;
 - (c) whether there are any implications for the adequacy of the *firm*'s resources arising from the history of the *firm*; for example, whether the *firm* has:
 - (i) been adjudged bankrupt; or
 - (ii) entered into liquidation; or
 - (iii) been the subject of a receiving or administration order; or
 - (iv) had a bankruptcy or winding-up petition served on it; or
 - (v) had its estate sequestrated; or
 - (vi) entered into a deed of arrangement or an individual voluntary agreement (or in Scotland, a trust deed) or other composition in favour of its creditors, or is doing so; or
 - (vii) within the last ten years, failed to satisfy a judgment debt under a court order, whether in the *United Kingdom* or elsewhere;
 - (d) whether the *firm* has taken reasonable steps to identify and measure any risks of regulatory concern that it may encounter in conducting its business (see *COND 2.4.6G*) and has installed appropriate systems and controls and appointed appropriate human resources to measure them prudently at all times; see *SYSC 3.1* (Systems and Controls) and *SYSC 3.2* (Areas covered by systems and controls); and
 - (e) whether the *firm* has conducted enquiries into the financial services sector in which it intends to conduct business (see *COND 2.4.6G*) that are sufficient to satisfy itself that:
 - (i) it has access to adequate capital, by reference to the *FSA*'s prudential requirements, to support the business including any losses which may be expected during its start-up period; and
 - (ii) *Client money, deposits, custody assets* and *policyholders'* rights will not be placed at risk if the business fails.
 - (3) In the context of *threshold condition 4* (Adequate resources), the *FSA* will only take into account relevant matters which are material (see *COND 1.3.3G*). The *FSA* will consider the materiality of each relevant matter in relation to the

regulated activities for which the *firm* has, or will have, *permission*, having regard to the *regulatory objectives* in section 2 of the *Act* (The FSA's general duties). It should be noted that a series of matters may be significant when taken together, even if each of them in isolation might not be significant.

- (4) In making its assessment, the *FSA* will consider the individual circumstances of each *firm* on a case-by-case basis.

2.4.5

G
/1

In complying with SYSC 3.1.1R (Systems and controls), a *firm* should plan its business appropriately so that it is able to identify, measure and manage the likely risks of regulatory concern it will face (SYSC 3.2.17G (Business strategy)).

2.4.6

G
/1

- (1) Any newly-formed *firm* can be susceptible to early difficulties. These difficulties could arise from a lack of relevant expertise and judgment, or from ill-constructed and insufficiently tested business strategies. A *firm* may also be susceptible to difficulties where it substantially changes its business activities.
- (2) As a result, the *FSA* would expect a *firm* which is applying for *Part IV permission*, or a substantial variation of that *permission*, to take adequate steps to satisfy itself and, if relevant, the *FSA* that:
- (a) it has a well constructed business plan or strategy plan for its product or service which demonstrates that it is ready, willing and organised to comply with the relevant requirements in *IPRU* and SYSC that apply to the *regulated activity* it is seeking to carry on;
 - (b) its business plan or strategy plan has been sufficiently tested; and
 - (c) the financial and other resources of the *firm* are commensurate with the likely risks it will face.
- (3) The *FSA* would expect the level of detail in a *firm's* business plan or strategy plan in (2) to be appropriate to the complexity of the *firm's* proposed *regulated activities* and *unregulated activities* and the risks of regulatory concern it is likely to face (see SYSC 3.2.11G (Management information)). General *guidance* on the contents of a business plan is given in the business plan section of the application pack for *Part IV permission*. A *firm* requiring specific *guidance* on the contents and level of detail of its business plan should contact the Corporate Authorisation department (see *AUTH 3: Applications for Part IV permission*), or, if relevant, its usual supervisory contact at the *FSA*, or seek professional assistance.

2.5 Threshold condition 5: Suitability

2.5.1

Table Paragraph 5, Schedule 6 to the Act

/1

The person concerned must satisfy the [FSA] that he is a fit and proper person having regard to all the circumstances, including–

- (a) his connection with any person;**
- (b) the nature of any regulated activity that he carries on or seeks to carry on; and**
- (c) the need to ensure that his affairs are conducted soundly and prudently.**

2.5.2

G

/1

- (1) *Threshold condition 5* (Suitability), requires the *firm* to satisfy the *FSA* that it is 'fit and proper' to have *Part IV permission* having regard to all the circumstances, including its connections with other *persons*, the range and nature of its proposed (or current) *regulated activities* and the overall need to be satisfied that its affairs are and will be conducted soundly and prudently (see also *PRIN* and *SYSC*).
- (2) The *FSA* will also take into consideration anything that could influence a *firm's* continuing ability to satisfy this *threshold condition*. Examples include the *firm's* position within a *UK* or international *group*, information provided by *overseas regulators* about the *firm*, and the *firm's* plans to seek to vary its *Part IV permission* to carry on additional *regulated activities* once it has been granted that *permission* by the *FSA*.

2.5.3

G

/1

- (1) The emphasis of this *threshold condition* is on the suitability of the *firm* itself. The suitability of each *person* who performs a *controlled function* will be assessed by the *FSA* under the *approved persons* regime (see *AUTH 6* (Approved persons), *SUP 10* (Approved persons) and *FIT*). In certain circumstances, however, the *FSA* may consider that the *firm* is not suitable because of doubts over the individual or collective suitability of *persons* connected with the *firm*.
- (2) When assessing this *threshold condition* in relation to a *firm*, the *FSA* may have regard to any *person* appearing to it to be, or likely to be, in a relevant relationship with the *firm*, as permitted by section 49 of the *Act* (Persons connected with an applicant) (see *COND 2.4.3G*).

2.5.4

G

/1

- (1) When determining whether the *firm* will satisfy and continue to satisfy *threshold condition 5*, the *FSA* will have regard to all relevant matters, whether arising in the *United Kingdom* or elsewhere.
- (2) Relevant matters include, but are not limited to, whether a *firm*:
 - (a) conducts, or will conduct, its business with integrity and in compliance with proper standards;
 - (b) has, or will have, a competent and prudent management; and

(c) can demonstrate that it conducts, or will conduct, its affairs with the exercise of due skill, care and diligence.

(3) The FSA will take into account relevant matters only to the extent that they are significant (see COND 1.3.3G). In determining whether relevant matters are significant to the *firm*, the FSA will consider significance in the context of the suitability of the *firm*, having regard to the *regulatory objectives* in section 2 of the *Act* (The FSA's general duties) a series of matters may be significant when taken together, even if each of them in isolation may not be significant.

(4) In making its assessment, the FSA will, therefore, consider the individual circumstances of each *firm* on a case-by-case basis.

2.5.5

G
/1

Where a *firm* is applying for *Part IV permission* or a substantial variation of that *permission*, the guidance in COND 2.4.6G is relevant. For the purpose of *threshold condition 5*, however, the FSA would expect the *firm's* business plan or strategy plan to take into account the interests of *consumers* and demonstrate that it is ready, willing and organised to comply with the relevant requirements in the *Handbook* that apply to the *regulated activity* it is seeking to carry on.

Conducting business with integrity and in compliance with proper standards

2.5.6

G
/1

In determining whether a *firm* will satisfy, and continue to satisfy, *threshold condition 5* in respect of conducting its business with integrity and in compliance with proper standards, the relevant matters, as referred to in COND 2.5.4G(2), may include but are not limited to whether:

- (1) the *firm* has been open and co-operative in all its dealings with the FSA and any other regulatory body (see *Principle 11* (Relations with regulators)) and is ready, willing and organised to comply with the requirements and standards under the *regulatory system* and other legal, regulatory and professional obligations; the relevant requirements and standards will depend on the circumstances of each case, including the *regulated activities* which the *firm* has *permission*, or is seeking *permission*, to carry on;
- (2) the *firm* has been convicted, or is connected with a *person* who has been convicted, of any unspent *offence* involving fraud, corruption, perjury, theft, false accounting or other dishonesty, *money laundering*, *market abuse* or *insider dealing*, *offences* under legislation relating to insurance, banking or other financial services, companies, insolvency, consumer credit or consumer protection or any significant tax offence; where relevant, any spent convictions excepted for this purpose under the Rehabilitation of Offenders Act 1974 will be taken into consideration;
- (3) the *firm* has been the subject of, or connected to the subject of, any existing or previous investigation or enforcement proceedings by the FSA, the *Society of Lloyd's* or by other regulatory authorities (including the FSA's predecessors), *clearing houses* or *exchanges*, *professional bodies* or government bodies or agencies; the FSA will, however, take both the nature of the *firm's* involvement in, and the outcome of, any investigation or enforcement proceedings into account in determining whether it is a relevant matter;
- (4) the *firm* has contravened, or is connected with a *person* who has contravened, any provisions of the *Act* or any preceding financial services legislation, the *regulatory system* or the rules, regulations, statements of principles or codes of practice (for example the *Society of Lloyd's* Codes) of other regulatory

authorities (including the *FSA's* predecessors), *clearing houses* or *exchanges*, *professional bodies*, or government bodies or agencies or relevant industry standards (such as the Non-Investment Products Code); the *FSA* will, however, take into account both the status of codes of practice or relevant industry standards and the nature of the contravention (for example, whether a *firm* has flouted or ignored a particular code);

- (5) the *firm*, or a *person* connected with the *firm*, has been refused registration, authorisation, membership or licence to carry out a trade, business or profession or has had that registration, authorisation, membership or licence revoked, withdrawn or terminated, or has been expelled by a regulatory or government body; whether the *FSA* considers such a refusal relevant will depend on the circumstances;
- (6) the *firm* has taken reasonable care to establish and maintain effective systems and controls for compliance with applicable requirements and standards under the regulatory system that apply to the *firm* and the *regulated activities* for which it has, or will have, *permission* (see *SYSC 3.2.6R* to *SYSC 3.2.8R* (Compliance));
- (7) the *firm* has put in place procedures which are reasonably designed to:
 - (a) ensure that it has made its *employees* aware of, and compliant with, those requirements and standards under the *regulatory system* that apply to the *firm* and the *regulated activities* for which it has, or will have *permission*;
 - (b) ensure that its *approved persons* (whether or not employed by the *firm*) are aware of those requirements and standards under the *regulatory system* applicable to them;
 - (c) determine that its *employees* are acting in a way compatible with the *firm* adhering to those requirements and standards; and
 - (d) determine that its *approved persons* are adhering to those requirements and standards;
- (8) the *firm* or a *person* connected with the *firm* has been dismissed from employment or a position of trust, fiduciary relationship or similar or has ever been asked to resign from employment in such a position; whether the *FSA* considers a resignation to be relevant will depend on the circumstances, for example if a *firm* is asked to resign in circumstance that cast doubt over its honesty or integrity; and
- (9) the *firm* or a *person* connected with the *firm* has ever been disqualified from acting as a *director*.

Competent and prudent management and exercise of due skill, care and diligence

In determining whether a *firm* will satisfy and continue to satisfy *threshold condition 5* in respect of having competent and prudent management and exercising due skill, care and diligence, relevant matters, as referred to in *COND 2.5.4G(2)*, may include, but are not limited to whether:

- (1) the *governing body* of the *firm* is made up of individuals with an appropriate range of skills and experience to understand, operate and manage the *firm's regulated activities*;
- (2) if appropriate, the *governing body* of the *firm* includes non-executive representation, at a level which is appropriate for the control of the *regulated activities* proposed, for example, as members of an audit committee (see SYSC 3.2.15G (Audit Committee));
- (3) the *governing body* of the *firm* is organised in a way that enables it to address and control the *regulated activities* of the *firm*, including those carried on by *managers* to whom particular functions have been delegated (see SYSC 2.1 (Apportionment of responsibilities) and SYSC 3.2 (Areas covered by systems and controls));
- (4) those *persons* who perform *controlled functions* under certain *arrangements* entered into by the *firm* or its contractors (including *appointed representatives*) act with due skill, care and diligence in carrying out their *controlled function* (see APER 4.2 (Statement of Principle 2) or managing the business for which they are responsible (see APER 4.7 (Statement of Principle 7));
- (5) the *firm* has made arrangements to put in place an adequate system of internal control to comply with the requirements and standards under the *regulatory system* (see SYSC 3.1 (Systems and Controls));
- (6) the *firm* has approached the control of financial and other risk in a prudent manner (for example, by not assuming risks without taking due account of the possible consequences) and has taken reasonable care to ensure that robust information and reporting systems have been developed, tested and properly installed (see SYSC 3.2.10 (Risk assessment));
- (7) the *firm*, or a *person* connected with the *firm*, has been a *director*, *partner* or otherwise concerned in the management of a *company*, *partnership* or other organisation or business that has gone into insolvency, liquidation or administration while having been connected with that organisation or within one year of such a connection;
- (8) the *firm* has developed human resources policies and procedures that are reasonably designed to ensure that it employs only individuals who are honest and committed to high standards of integrity in the conduct of their activities (see, for example, SYSC 3.2.13G (Employees and agents));
- (9) the *firm* has conducted enquiries (for example, through market research or the previous activities of the *firm*) that are sufficient to give it reasonable assurance that it will not be posing unacceptable risks to *consumers* or the *financial system*;
- (10) the *firm* has in place the appropriate *money laundering* prevention systems and training, including identification, record-keeping and internal reporting procedures (see *ML*); and
- (11) where appropriate, the *firm* has appointed auditors and actuaries, who have sufficient experience in the areas of business to be conducted (see SUP 3.4 (Auditors' qualifications) and SUP 4.3.8G to SUP 4.3.13G (Appointed actuary's qualifications)).

2.6 Additional conditions

2.6.1

Table Paragraph 8, Schedule 6 to the Act.

/1

- (1) If this paragraph applies to the person concerned, he must, for the purposes of such provisions of this Act as may be specified, satisfy specified additional conditions.**
- (2) This paragraph applies to a person who:**
- (a) has his head office outside the EEA; and**
 - (b) appears to the [FSA] to be seeking to carry on a regulated activity relating to insurance business.**

2.6.2

G

/1

The application of the *threshold conditions* to *Swiss general insurers* will be the subject of an Order to be made by the Treasury, to recognise the rights of *Swiss general insurance companies* under the *Swiss Treaty Agreement*. This Order will also impose certain additional conditions, required under *the Insurance Directives*, on non-*EEA insurers*. Additional *guidance* will be included in *COND 2* when these orders are made.

Transitional Provisions

G

- 1 There are no transitional provisions in APER. However, GEN contains some technical transitional provisions that apply throughout the Handbook and which are designed to ensure a smooth transition at commencement.

Chapter 1

Application and purpose

1.1 Application

1.1.1

G

/1

APER applies to *approved persons*.

1.2 Purpose

- 1.2.1** G_{/1} The *Statements of Principle* contained in ■ APER 2 are issued under section 64(1) of the *Act* (Conduct: statements and codes).
- 1.2.2** G_{/1} Section 64(2) of the *Act* states that if the *FSA* issues *Statements of Principle* it must also issue a code of practice for the purpose of helping to determine whether or not a *person's* conduct complies with the *Statements of Principle*. The *Code of Practice for Approved Persons* in ■ APER 3 and ■ APER 4 fulfils this requirement.
- 1.2.3** G_{/1} The *Code of Practice for Approved Persons* sets out descriptions of conduct which, in the opinion of the *FSA*, do not comply with a *Statement of Principle* and, in the case of *Statement of Principle* 3, conduct which tends to show compliance within that statement. The *Code of Practice for Approved Persons* also sets out, in certain cases, factors which, in the opinion of the *FSA*, are to be taken into account in determining whether or not an *approved person's* conduct complies with a *Statement of Principle*. The *guidance* set out in ■ APER 3 and ■ APER 4 does not form part of the *Code of Practice for Approved Persons*.
- 1.2.4** G_{/1} Section 64(11) of the *Act* states that the power to *issue Statements of Principle* and codes of practice includes power to make different provisions in relation to *persons*, cases or circumstances of different descriptions. *Statements of Principle* 1, 2, 3 and 4 apply to all *approved persons*, and *Statements of Principle* 5, 6 and 7 apply to those approved to perform *significant influence functions*.
- 1.2.5** G_{/1} As set out in ■ SUP 10.3.1 R (Arrangements and regulated activities), a function is a *controlled function* only to the extent that it is performed under an *arrangement* entered into by:
- (1) a *firm*; or
 - (2) a contractor of the *firm*;
- in relation to the carrying on by the *firm* of a *regulated activity*.
- 1.2.6** G_{/1} The *Statements of Principle* apply only to the performance of a *controlled function* (that is, to the activities carried on under the *arrangement* described in the *firm's* application for approval).
- 1.2.7** G_{/1} The *FSA* recognises that an *approved person* may be performing functions which are unrelated to *regulated activities* or are otherwise outside the description of a *controlled function*. The fact that a *person* may be approved for one purpose does not have the effect of bringing all his functions within the *controlled function*, nor of making those functions subject to the *Statements of Principle*.
- 1.2.8** G_{/1} The territorial scope of the *approved persons* regime is set out in ■ SUP 10.1 (Application).

1.2.9

G
/1

The *Statements of Principle* apply only to the extent that a *person* is performing a *controlled function* for which approval has been sought and granted.

Chapter 2

2

The Statements of Principle for Approved Persons

2.1 The Statement of Principle

2.1.1 **G** /1 ■ APER 2.1.2 P sets out the *Statements of Principle* issued by the FSA to which ■ APER 1.2.1 G refers and to which the provisions of the *Code of Practice for Approved Persons* and *guidance* in ■ APER 3 and ■ APER 4 apply.

2.1.2 **G** /1 Table Statements of Principle issued under section 64 of the Act

Statement of Principle 1

An approved person must act with integrity in carrying out his controlled function.

Statement of Principle 2

An approved person must act with due skill, care and diligence in carrying out his controlled function.

Statement of Principle 3

An approved person must observe proper standards of market conduct in carrying out his controlled function.

Statement of Principle 4

An approved person must deal with the FSA and with other regulators in an open and cooperative way and must disclose appropriately any information of which the FSA would reasonably expect notice.

Statement of Principle 5

An approved person performing a significant influence function must take reasonable steps to ensure that the business of the firm for which he is responsible in his controlled function is organised so that it can be controlled effectively.

Statement of Principle 6

An *approved person* performing a *significant influence function* must exercise due skill, care and diligence in managing the business of the *firm* for which he is responsible in his *controlled function*.

Statement of Principle 7

An *approved person* performing a *significant influence function* must take reasonable steps to ensure that the business of the *firm* for which he is responsible in his *controlled function* complies with the relevant requirements and standards of the *regulatory system*.

Chapter 3

Code of Practice for Approved Persons: general

3.1 Introduction

- 3.1.1** G_{/1} This *Code of Practice for Approved Persons* is issued under section 64 of the *Act* (Conduct: statements and codes) for the purpose of helping to determine whether or not an *approved person's* conduct complies with a *Statement of Principle*. The code sets out descriptions of conduct which, in the *FSA's* opinion, do not comply with the relevant *Statements of Principle*. The code also sets out certain factors which, in the opinion of the *FSA*, are to be taken into account in determining whether an *approved person's* conduct complies with a particular *Statement of Principle*. The description of conduct, the factors and related provisions are identified in the text by the letter 'E' as explained in paragraph 25 of the Readers Guide.
- 3.1.2** G_{/1} The *Code of Practice for Approved Persons* in issue at the time when any particular conduct takes place may be relied on so far as it tends to establish whether or not that conduct complies with a *Statement of Principle*.
- 3.1.3** G_{/1} The significance of conduct identified in the *Code of Practice for Approved Persons* as tending to establish compliance with or a breach of a *Statement of Principle* will be assessed only after all the circumstances of a particular case have been considered. Account will be taken of the context in which a course of conduct was undertaken, including the precise circumstances of the individual case, the characteristics of the particular *controlled function* and the behaviour to be expected in that function.
- 3.1.4** G_{/1}
- (1) An *approved person* will only be in breach of a *Statement of Principle* where he is personally culpable. Personal culpability arises where an *approved person's* conduct was deliberate or where the *approved person's* standard of conduct was below that which would be reasonable in all the circumstances (see ■ ENF 11.5.3 G (Action against approved persons)).
 - (2) For the avoidance of doubt, the *Statements of Principle* do not extend the duties of *approved persons* beyond those which the *firm* owes in its dealings with *customers* or others.
- 3.1.5** G_{/1} In particular, in determining whether or not an *approved person's* conduct complies with a *Statement of Principle*, the *FSA* will take into account the extent to which an *approved person* has acted in a way that is stated to be in breach of a *Statement of Principle*.
- 3.1.6** G_{/1} The *Code of Practice for Approved Persons* (and in particular the specific examples of behaviour which may be in breach of a generic description of conduct in the code) is not exhaustive of the kind of conduct that may contravene the *Statements of Principle*. The purpose of the code is to help determine whether or not a *person's* conduct complies with a *Statement of Principle*. The code may be supplemented from time to time. The *FSA* will amend the code if there is a risk that unacceptable practice may become prevalent, so as to make clear what conduct

falls below the standards expected of *approved persons* by the *Statements of Principle*.

3.1.7

G
/1

Statements of Principle 1 to 4 apply to all *approved persons*. In the *Statements of Principle* and in the *Code of Practice for Approved Persons*, a reference to "his *controlled function*" is a reference to the *controlled function* to which the approval relates. A *person* performing a *significant influence function* is also subject to the additional requirements set out in *Statements of Principle* 5 to 7 in performing that *controlled function*. Those responsible under ■ SYSC 2.1.3 R (Apportionment of responsibilities) for the *firm's* apportionment obligation will be specifically subject to *Statement of Principle* 5 (and see in particular ■ APER 4.5.6 E). In addition, it will be the responsibility of any such *approved person* to oversee that the *firm* has appropriate systems and controls under *Statement of Principle* 7 (and see in particular ■ APER 4.7.3 E).

3.1.8

G
/1

In applying *Statements of Principle* 5 to 7, the nature, scale and complexity of the business under management and the role and responsibility of the individual performing a *significant influence function* within the *firm* will be relevant in assessing whether an *approved person's* conduct was reasonable. For example, the smaller and less complex the business, the less detailed and extensive the systems of control need to be. The *FSA* will be of the opinion that an individual performing a *significant influence function* may have breached *Statements of Principle* 5 to 7 only if his conduct was below the standard which would be reasonable in all the circumstances. (See also ■ APER 3.3.1 E (3) to (5))

3.1.9

G
/1

UK domestic firms listed on the London Stock Exchange are subject to the Combined Code developed by the Committee on Corporate Governance, whose *internal control* provisions are amplified in the Guidance for Directors issued by the Institute of Chartered Accountants in England and Wales. *FSA-regulated firms* in this category will thus be subject to that code as well as to the requirements and standards of the *regulatory system*. In forming an opinion whether *approved persons* have complied with its requirements, the *FSA* will give due credit for their following corresponding provisions in the Combined Code and related *guidance*.

3.2 Factors relating to all Statements of Principle

3.2.1

In determining whether or not the particular conduct of an *approved person* within his *controlled function* complies with the *Statements of Principle*, the following are factors which, in the opinion of the *FSA*, are to be taken into account:

- (1) whether that conduct relates to activities that are subject to other provisions of the *Handbook*;
- (2) whether that conduct is consistent with the requirements and standards of the *regulatory system* relevant to his *firm*.

3.3 Factors relating to Statements of Principle 5 to 7

3.3.1

In determining whether or not the conduct of an *approved person* performing a *significant influence function* complies with *Statements of Principle 5 to 7*, the following are factors which, in the opinion of the *FSA*, are to be taken into account:

- (1) whether he exercised reasonable care when considering the information available to him;
- (2) whether he reached a reasonable conclusion which he acted on;
- (3) the nature, scale and complexity of the *firm's* business;
- (4) his role and responsibility as an *approved person* performing a *significant influence function*;
- (5) the knowledge he had, or should have had, of regulatory concerns, if any, arising in the business under his control.

Chapter 4

Code of Practice for Approved Persons: specific

4.1 Statement of Principle 1

- 4.1.1**  The *Statement of Principle 1* (see ■ APER 2.1.2 P) is in the following terms: "An *approved person* must act with integrity in carrying out his *controlled function*."
- 4.1.2**  In the opinion of the FSA, conduct of the type described in ■ APER 4.1.3 E, ■ APER 4.1.5 E, ■ APER 4.1.6 E, ■ APER APER 4.1.8 E, ■ APER 4.1.10 E, ■ APER 4.1.12 E or ■ APER 4.1.13 E does not comply with *Statement of Principle 1* ■ APER 2.1.2 P).
- 4.1.3**  Deliberately misleading (or attempting to mislead) by act or omission:
- (1) a *client*; or
 - (2) his *firm* (or its auditors or *appointed actuary*); or
 - (3) the FSA;
- falls within ■ APER 4.1.2 E.
- 4.1.4**  Behaviour of the type referred to in ■ APER 4.1.3 E includes, but is not limited to, deliberately:
- (1) falsifying *documents*;
 - (2) misleading a *client* about the risks of an *investment*;
 - (3) misleading a *client* about the charges or surrender penalties of *investment* products;
 - (4) misleading a *client* about the likely performance of *investment* products by providing inappropriate *projections* of future *investment* returns;
 - (5) misleading a *client* by informing him that products require only a single payment when that is not the case;
 - (6) mismarking the value of *investments* or trading positions;
 - (7) procuring the unjustified alteration of prices on illiquid or *off-exchange* contracts, or both;
 - (8) misleading others within the *firm* about the credit-worthiness of a borrower;

- (9) providing false or inaccurate documentation or information, including details of training, qualifications, past employment record or experience;
- (10) providing false or inaccurate information to the *firm* (or to the *firm's* auditors or *appointed actuary*);
- (11) providing false or inaccurate information to the *FSA*;
- (12) destroying, or causing the destruction of, *documents* (including false documentation), or tapes or their contents, relevant to misleading (or attempting to mislead) a *client*, his *firm*, or the *FSA*;
- (13) failing to disclose dealings where disclosure is required by the *firm's* personal account *dealing rules*;
- (14) misleading others in the *firm* about the nature of risks being accepted.

4.1.5  /1 Deliberately recommending an *investment* to a *customer*, or carrying out a discretionary *transaction* for a *customer* where the *approved person* knows that he is unable to justify its suitability for that *customer*, falls within  APER 4.1.2 E.

4.1.6  /1 Deliberately failing to inform, without reasonable cause:

- (1) a *customer*; or
- (2) his *firm* (or its auditors or *appointed actuary*); or
- (3) the *FSA*;

of the fact that their understanding of a material issue is incorrect, despite being aware of their misunderstanding, falls within  APER 4.1.2 E.

4.1.7  /1 Behaviour of the type referred to in  APER 4.1.6 E includes, but is not limited to, deliberately:

- (1) failing to disclose the existence of falsified *documents*;
- (2) failing to rectify mismarked positions immediately.

4.1.8  /1 Deliberately preparing inaccurate or inappropriate records or returns in connection with a *controlled function*, falls within  APER 4.1.2 E.

4.1.9  /1 Behaviour of the type referred to in  APER 4.1.8 E includes, but is not limited to, deliberately:

- (1) preparing performance reports for transmission to *customers* which are inaccurate or inappropriate (for example, by relying on past performance without appropriate warnings);
- (2) preparing inaccurate training records or inaccurate details of qualifications, past employment record or experience;
- (3) preparing inaccurate trading confirmations, contract notes or other records of *transactions* or holdings of *securities* for a *customer*, whether or not the *customer* is aware of these inaccuracies or has requested such records.

4.1.10  /1 Deliberately misusing the assets or confidential information of a *client* or of his *firm* falls within ■ APER 4.1.2 E.

4.1.11  /1 Behaviour of the type referred to in ■ APER 4.1.10 E includes, but is not limited to, deliberately:

- (1) front running *client* orders;
- (2) carrying out unjustified trading on *client* accounts to generate a benefit (whether direct or indirect) to the *approved person* (that is, churning);
- (3) misappropriating a *client's* assets, including wrongly transferring to personal accounts cash or *securities* belonging to *clients*;
- (4) wrongly using one *client's* funds to settle margin calls or to cover trading losses on another *client's* account or on *firm* accounts;
- (5) using a *client's* funds for purposes other than those for which they were provided;
- (6) retaining a *client's* funds wrongly;
- (7) pledging the assets of a *client* as security or margin in circumstances where the *firm* is not permitted to do so.

4.1.12  /1 Deliberately designing *transactions* so as to disguise breaches of requirements and standards of the *regulatory system* falls within ■ APER 4.1.2 E.

4.1.13  /1 Deliberately failing to disclose the existence of a conflict of interest in connection with dealings with a *client* falls within ■ APER 4.1.2 E.

4.2 Statement of Principle 2

- 4.2.1**  The *Statement of Principle 2* (see ■ APER 2.1.2 P) is in the following terms: "An *approved person* must act with due skill, care and diligence in carrying out his *controlled function*."
- 4.2.2**  In the opinion of the *FSA*, conduct of the type described in ■ APER 4.2.3 E, ■ APER 4.2.5 E, ■ APER 4.2.6 E, ■ APER 4.2.8 E, ■ APER 4.2.10 E, ■ APER 4.2.11 E or ■ APER 4.2.13 E does not comply with *Statement of Principle 2* ■ APER 2.1.2 P).
- 4.2.3**  Failing to inform:
- (1) a *customer*; or
 - (2) his *firm* (or its auditors or *appointed actuary*);
- of material information in circumstances where he was aware, or ought to have been aware, of such information, and of the fact that he should provide it, falls within ■ APER 4.2.2 E.
- 4.2.4**  Behaviour of the type referred to in ■ APER 4.2.3 E includes, but is not limited to:
- (1) failing to explain the risks of an *investment* to a *customer*;
 - (2) failing to disclose to a *customer* details of the charges or surrender penalties of *investment* products;
 - (3) mismarking trading positions;
 - (4) providing inaccurate or inadequate information to a *firm*, its auditors or *appointed actuary*;
 - (5) failing to disclose dealings where disclosure is required by the *firm's* personal account *dealing rules*.
- 4.2.5**  Recommending an *investment* to a *customer*, or carrying out a discretionary *transaction* for a *customer*, where he does not have reasonable grounds to believe that it is suitable for that *customer*, falls within ■ APER 4.2.2 E.

- 4.2.6  /1 Undertaking, recommending or providing advice on *transactions* without a reasonable understanding of the risk exposure of the *transaction* to a *customer* falls within ■ APER 4.2.2 E.
- 4.2.7  /1 *Behaviour* of the type referred to in ■ APER 4.2.6 E includes, but is not limited to, recommending *transactions* in *investments* to a *customer* without a reasonable understanding of the liability (either potential or actual) of that *transaction*.
- 4.2.8  /1 Undertaking *transactions* without a reasonable understanding of the risk exposure of the *transaction* to the *firm* falls within ■ APER 4.2.2 E.
- 4.2.9  /1 *Behaviour* of the type referred to in ■ APER 4.2.8 E includes, but is not limited to, trading on the *firm's* own account without a reasonable understanding of the liability (either potential or actual) of the *transaction*.
- 4.2.10  /1 Failing without good reason to disclose the existence of a conflict of interest in connection with dealings with a *client* falls within ■ APER 4.2.2 E.
- 4.2.11  /1 Failing to provide adequate control over a *client's* assets falls within ■ APER 4.2.2 E.
- 4.2.12  /1 *Behaviour* of the type referred to in ■ APER 4.2.11 E includes, but is not limited to:
- (1) failing to segregate a *client's* assets;
 - (2) failing to process a *client's* payments in a timely manner.
- 4.2.13  /1 Continuing to perform a *controlled function* despite having failed to meet the standards of knowledge and skill set out in the Training and Competence sourcebook (TC) for that *controlled function* falls within ■ APER 4.2.2 E.

4.3 Statement of Principle 3

- 4.3.1  ^{/1} The *Statement of Principle 3* (see ■ APER 2.1.2 P) is in the following terms: "An *approved person* must observe proper standards of market conduct in carrying out his *controlled function*."
- 4.3.2  ^{/1} In many cases the required standard will be set out in ■ MAR 3 (Inter-Professional Conduct) and the *Code of Market Conduct* ■ MAR 1). Market codes and exchange rules will also be relevant.
- 4.3.3  ^{/1} A factor to be taken into account in determining whether or not an *approved person's* conduct complies with this *Statement of Principle* ■ APER 2.1.2 P) is whether he, or his *firm*, has complied with ■ MAR 3 (Inter-Professional Conduct) or the *Code of Market Conduct* ■ MAR 1) or relevant market codes and exchange rules.
- 4.3.4  ^{/1} Compliance with the code or *rules* described in ■ APER 4.3.3 E will tend to show compliance with this *Statement of Principle* ■ APER 2.1.2 P).

4.4 Statement of Principle 4

- 4.4.1**  The *Statement of Principle 4* (see **■** APER 2.1.2 P) is in the following terms: "An *approved person* must deal with the *FSA* and with other regulators in an open and cooperative way and must disclose appropriately any information of which the *FSA* would reasonably expect notice."
- 4.4.2**  For the purpose of this *Statement of Principle* **■** APER 2.1.2 P), regulators in addition to the *FSA* are those which have recognised jurisdiction in relation to *regulated activities* and a power to call for information from the *approved person* in connection with his *controlled function* or (in the case of an individual performing a *significant influence function*) in connection with the business for which he is responsible. This may include an exchange or an *overseas regulator*.
- 4.4.3**  In the opinion of the *FSA*, conduct of the type described in **■** APER 4.4.4 E, **■** APER 4.4.7 E, or **■** APER 4.4.9 E does not comply with *Statement of Principle 4* **■** APER 2.1.2 P).
- 4.4.4**  Failing to report promptly in accordance with his *firm's* internal procedures (or if none exist direct to the *FSA*), information which it would be reasonable to assume would be of material significance to the *FSA*, whether in response to questions or otherwise, falls within **■** APER 4.4.3 E.
- 4.4.5**  There is no duty on an *approved person* to report such information directly to the *FSA* unless he is one of the *approved persons* responsible within the *firm* for reporting matters to the *FSA*. However, if an *approved person* takes steps to influence the decision so as not to report to the *FSA* or acts in a way that is intended to obstruct the reporting of the information to the *FSA*, then the *FSA* will, in respect of that information, view him as being one of those within the *firm* who has taken on responsibility for deciding whether to report that matter to the *FSA*.
- 4.4.6**  In determining whether or not an *approved person's* conduct under **■** APER 4.4.4 E complies with *Statement of Principle 4*, the following are factors which, in the opinion of the *FSA*, are to be taken into account:
- (1) the likely significance to the *FSA* of the information which it was reasonable for the individual to assume;
 - (2) whether the information related to the individual himself or to his *firm*;
 - (3) whether any decision not to report the matter internally was taken after reasonable enquiry and analysis of the situation.

- 4.4.7  /1 Where the *approved person* is, or is one of the *approved persons* who is, responsible within the *firm* for reporting matters to the *FSA*, failing promptly to inform the *FSA* of information of which he is aware and which it would be reasonable to assume would be of material significance to the *FSA*, whether in response to questions or otherwise, falls within ■ APER 4.4.3 E.
- 4.4.8  /1 In determining whether or not an *approved person's* conduct under ■ APER 4.4.7 E complies with *Statement of Principle 4* ■ APER 2.1.2 P), the following are factors which, in the opinion of the *FSA*, are to be taken into account:
- (1) the likely significance of the information to the *FSA* which it was reasonable for the *approved person* to assume;
 - (2) whether any decision not to inform the *FSA* was taken after reasonable enquiry and analysis of the situation.
- 4.4.9  /1 Failing without good reason to:
- (1) inform a regulator of information of which the *approved person* was aware in response to questions from that regulator;
 - (2) attend an interview or answer questions put by a regulator, despite a request or demand having been made;
 - (3) supply a regulator with appropriate *documents* or information when requested or required to do so and within the time limits attaching to that request or requirement;
- falls within ■ APER 4.4.3 E.

4.5 Statement of Principle 5

- 4.5.1**  The *Statement of Principle 5* (see ■ APER 2.1.2 P) is in the following terms: "An *approved person* performing a *significant influence function* must take reasonable steps to ensure that the business of the *firm* for which he is responsible in his *controlled function* is organised so that it can be controlled effectively."
- 4.5.2**  In the opinion of the FSA, conduct of the type described in ■ APER 4.5.3 E, ■ APER 4.5.4 E, ■ APER 4.5.6 E or ■ APER 4.5.8 E does not comply with *Statement of Principle 5* ■ APER 2.1.2 P).
- 4.5.3**  Failing to take reasonable steps to apportion responsibilities for all areas of the business under the *approved person's* control falls within ■ APER 4.5.2 E (see ■ APER 4.5.11 G).
- 4.5.4**  Failing to take reasonable steps to apportion responsibilities clearly amongst those to whom responsibilities have been delegated falls within ■ APER 4.5.2 E (see ■ APER 4.5.11 G).
- 4.5.5**  Behaviour of the type referred to in ■ APER 4.5.4 E includes, but is not limited to:
- (1) implementing confusing or uncertain reporting lines (see ■ APER 4.5.12 G);
 - (2) implementing confusing or uncertain authorisation levels (see ■ APER 4.5.13 G);
 - (3) implementing confusing or uncertain job descriptions and responsibilities (see ■ APER 4.5.13 G).
- 4.5.6**  In the case of an *approved person* who is responsible under ■ SYSC 2.1.3 R (1) for dealing with the apportionment of responsibilities under ■ SYSC 2.1.1 R, failing to take reasonable care to maintain a clear and appropriate apportionment of significant responsibilities among the *firm's directors* and *senior managers* falls within ■ APER 4.5.2 E.
- 4.5.7**  Behaviour of the type referred to in ■ APER 4.5.6 E includes, but is not limited to:
- (1) failing to review regularly the significant responsibilities which the *firm* is required to apportion under ■ APER 2.1.1 R;

(2) failing to act where that review shows that those significant responsibilities have not been clearly apportioned.

4.5.8  /1 Failing to take reasonable steps to ensure that suitable individuals are responsible for those aspects of the business under the control of the individual performing a *significant influence function* falls within ■ APER 4.5.2 E (see ■ APER 4.5.14 G).

4.5.9  /1 Behaviour of the type referred to in ■ APER 4.5.8 E includes, but is not limited to:

(1) failing to review the competence, knowledge, skills and performance of staff to assess their suitability to fulfil their duties, despite evidence that their performance is unacceptable (see ■ APER 4.5.14 G);

(2) giving undue weight to financial performance when considering the suitability or continuing suitability of an individual for a particular role (see ■ APER 4.5.14 G);

(3) allowing managerial vacancies which put at risk compliance with the requirements and standards of the *regulatory system* to remain, without arranging suitable cover for the responsibilities (see ■ APER 4.5.15 G).

4.5.10  /1 Strategy and plans will often dictate the risk which the business is prepared to take on and high level controls will dictate how the business is to be run. If the strategy of the business is to enter high-risk areas, then the degree of control and strength of monitoring reasonably required within the business will be high. In organising the business for which he is responsible, the *approved person* performing a *significant influence function* should bear this in mind.

Apportionment of responsibilities

4.5.11  /1 In order to comply with the obligations of *Statement of Principle 5* (having regard to ■ APER 4.5.3 E and ■ APER 4.5.4 E), the *approved person* performing a *significant influence function* may find it helpful to review whether each area of the business for which he is responsible has been clearly assigned to a particular individual or individuals.

Reporting lines

4.5.12  /1 The organisation of the business and the responsibilities of those within it should be clearly defined (see ■ APER 4.5.5 E (1)). Reporting lines should be clear to staff. Where staff have dual reporting lines there is a greater need to ensure that the responsibility and accountability of each individual line manager is clearly set out and understood.

Authorisation levels and job descriptions

4.5.13 G_{/1} Where members of staff have particular levels of authorisation (see ■ APER 4.5.5 E (2) and ■ APER 4.5.5 E (3)), these should be clearly set out and communicated to staff. It may be appropriate for each member of staff to have a job description of which he is aware.

Suitability of individuals

4.5.14 G_{/1} If an individual’s performance is unsatisfactory, then the appropriate *approved person* (if any) performing a *significant influence function* should review carefully whether to allow that individual to continue in position. In particular, if he is aware of concerns relating to the compliance with requirements and standards of the *regulatory system* (or internal controls) of the individual concerned, or of staff reporting to that individual, the *approved person* performing a *significant influence function* should take care not to give undue weight to the financial performance of the individual or group concerned when considering whether any action should be taken. An adequate investigation of the concerns should be undertaken (including, where appropriate, adherence to internal controls). The *approved person* performing a *significant influence function* should satisfy himself, on reasonable grounds, that the investigation is appropriate, the results are accurate and that the concerns do not pose an unacceptable risk to compliance with the requirements and standards of the *regulatory system* (see in particular *Statement of Principle 6* and ■ APER 4.5.8 E and ■ APER 4.5.9 E (1) and ■ APER 4.5.9E (2)).

Temporary vacancies

4.5.15 G_{/1} In organising the business, the *approved person* performing a *significant influence function* should pay attention to any temporary vacancies which exist (see ■ APER 4.5.9 E (3)). He should take reasonable steps to ensure that suitable cover for responsibilities is arranged. This could include taking on temporary staff or external consultants. The *approved person* performing a *significant influence function* should assess the risk that is posed to compliance with the requirements and standards of the *regulatory system* as a result of the vacancy, and the higher the risk the greater the steps he should take to fill the vacancy. It may be appropriate to limit or suspend the activity if appropriate cover for responsibilities cannot be arranged. To the extent that those vacancies are in respect of one of the *customer functions*, they may only be filled by *persons* approved for that function.

4.6 Statement of Principle 6

- 4.6.1**  The *Statement of Principle 6* (see [■ APER 2.1.2 P](#)) is in the following terms: "An *approved person* performing a *significant influence function* must exercise due skill, care and diligence in managing the business of the *firm* for which he is responsible in his *controlled function*."
- 4.6.2**  In the opinion of the *FSA*, conduct of the type described in [■ APER 4.6.3 E](#), [■ APER 4.6.5 E](#), [■ APER 4.6.6 E](#) or [■ APER 4.6.8 E](#) does not comply with *Statement of Principle 6* [■ APER 2.1.2 P](#)).
- 4.6.3**  Failing to take reasonable steps adequately to inform himself about the affairs of the business for which he is responsible falls within [■ APER 4.6.2 E](#).
- 4.6.4**  Behaviour of the type referred to in [■ APER 4.6.3 E](#) includes, but is not limited to:
- (1) permitting *transactions* without a sufficient understanding of the risks involved;
 - (2) permitting expansion of the business without reasonably assessing the potential risks of that expansion;
 - (3) inadequately monitoring highly profitable *transactions* or business practices or unusual *transactions* or business practices;
 - (4) accepting implausible or unsatisfactory explanations from subordinates without testing the veracity of those explanations;
 - (5) failing to obtain independent, expert opinion where appropriate; (see [■ APER 4.6.12 G](#)).
- 4.6.5**  Delegating the authority for dealing with an issue or a part of the business to an individual or individuals (whether in-house or outside contractors) without reasonable grounds for believing that the delegate had the necessary capacity, competence, knowledge, seniority or skill to deal with the issue or to take authority for dealing with part of the business, falls within [■ APER 4.6.2 E](#) (see [■ APER 4.6.13 G](#)).
- 4.6.6**  Failing to take reasonable steps to maintain an appropriate level of understanding about an issue or part of the business that he has

- delegated to an individual or individuals (whether in-house or outside contractors) falls within ■ APER 4.6.2 E (see ■ APER 4.6.14 G).
- 4.6.7**  /1 Behaviour of the type referred to in ■ APER 4.6.6 E includes but is not limited to:
- (1) disregarding an issue or part of the business once it has been delegated;
 - (2) failing to require adequate reports once the resolution of an issue or management of part of the business has been delegated;
 - (3) accepting implausible or unsatisfactory explanations from delegates without testing their veracity.
- 4.6.8**  /1 Failing to supervise and monitor adequately the individual or individuals (whether in-house or outside contractors) to whom responsibility for dealing with an issue or authority for dealing with a part of the business has been delegated falls within ■ APER 4.6.2 E.
- 4.6.9**  /1 Behaviour of the type referred to in ■ APER 4.6.8 E includes, but is not limited to:
- (1) failing to take personal action where progress is unreasonably slow, or where implausible or unsatisfactory explanations are provided;
 - (2) failing to review the performance of an outside contractor in connection with the delegated issue or business.
- 4.6.10**  /1 In determining whether or not the conduct of an *approved person* performing a *significant influence function* under ■ APER 4.6.5 E, ■ APER 4.6.6 E and ■ APER 4.6.8 E complies with *Statement of Principle 6* (see ■ APER 2.1.2 P), the following are factors which, in the opinion of the FSA, are to be taken into account:
- (1) the competence, knowledge or seniority of the delegate; and
 - (2) the past performance and record of the delegate.
- 4.6.11**  /1 An *approved person* performing a *significant influence function* will not always manage the business on a day-to-day basis himself. The extent to which he does so will depend on a number of factors, including the nature, scale and complexity of the business and his position within it. The larger and more complex the business, the greater the need for clear and effective delegation and reporting lines. The FSA will look to the *approved person* performing a *significant influence function* to take reasonable steps to ensure that systems are in place which result in issues being addressed at the appropriate level. When issues come to his attention, he should deal with them in an appropriate way.

Knowledge about the business

4.6.12

G
/1

- (1) It is important for the *approved person* performing a *significant influence function* to understand the business for which he is responsible ■ APER 4.6.4 E). An *approved person* performing a *significant influence function* is unlikely to be an expert in all aspects of a complex financial services business. However, he should understand and inform himself about the business sufficiently to understand the risks of its trading, credit or other business activities.
- (2) It is important for an *approved person* performing a *significant influence function* to understand the risks of expanding the business into new areas and, before approving the expansion, he should investigate and satisfy himself, on reasonable grounds, about the risks, if any, to the business.
- (3) Where unusually profitable business is undertaken, or where the profits are particularly volatile or the business involves funding requirements on the *firm* beyond those reasonably anticipated, he should require explanations from those who report to him. Where those explanations are implausible or unsatisfactory, he should take steps to test the veracity of those explanations.
- (4) Where the *approved person* performing a *significant influence function* is not an expert in a business area, he should consider whether he or those with whom he works have the necessary expertise to provide him with an adequate explanation of issues within that business area. If not he should seek an independent opinion from elsewhere within or outside the *firm*.

Delegation

4.6.13

G
/1

- (1) An *approved person* performing a *significant influence function* may delegate the investigation, resolution or management of an issue or authority for dealing with a part of the business to individuals who report to him or to others.
- (2) The *approved person* performing a *significant influence function* should have reasonable grounds for believing that the delegate has the competence, knowledge, skill and time to deal with the issue. For instance, if the compliance department only has sufficient resources to deal with day-to-day issues, it would be unreasonable to delegate to it the resolution of a complex or unusual issue without ensuring it had sufficient capacity to deal with the matter adequately.
- (3) If an issue raises questions of law or interpretation, the *approved person* performing a *significant influence function* may need to take legal advice. If appropriate legal expertise is not available in-house, he may need to consider appointing an appropriate external adviser.
- (4) The FSA recognises that the *approved person* performing a *significant influence function* will have to exercise his own judgment in deciding how issues are dealt with, and that in some cases that judgment will, with the benefit of hindsight, be shown to have been wrong. He will not be in breach of *Statement of Principle 6* unless he fails to exercise due and reasonable consideration before he delegates the resolution of an issue or authority for dealing with a part of the business and fails to reach a reasonable conclusion. If he is in doubt about how to deal with an issue or the seriousness of a particular compliance problem, then, although he cannot delegate to the FSA the responsibility for dealing with the problem or issue, he can speak to the FSA to discuss his approach (see ■ APER 4.6.5 E).

Continuing responsibilities where an issue has been delegated

4.6.14

G

/1

Although an *approved person* performing a *significant influence function* may delegate the resolution of an issue, or authority for dealing with a part of the business, he cannot delegate responsibility for it. It is his responsibility to ensure that he receives reports on progress and questions those reports where appropriate. For instance, if progress appears to be slow or if the issue is not being resolved satisfactorily, then the *approved person* performing a *significant influence function* may need to challenge the explanations he receives and take action himself to resolve the problem. This may include increasing the resource applied to it, reassigning the resolution internally or obtaining external advice or assistance. Where an issue raises significant concerns, an *approved person* performing a *significant influence function* should act clearly and decisively. If appropriate, this may be by suspending members of staff or relieving them of all or part of their responsibilities (see ■ APER 4.6.6 E).

4.7 Statement of Principle 7

- 4.7.1  /1 The *Statement of Principle 7* (see ■ [APER 2.1.2 P](#)) is in the following terms: "An *approved person* performing a *significant influence function* must take reasonable steps to ensure that the business of the *firm* for which he is responsible in his *controlled function* complies with the relevant requirements and standards of the *regulatory system*."
- 4.7.2  /1 In the opinion of the *FSA*, conduct of the type described in ■ [APER 4.7.3 E](#), ■ [APER 4.7.4 E](#), ■ [APER 4.7.5 E](#), ■ [APER 4.7.7 E](#), ■ [APER 4.7.9 E](#) or ■ [APER 4.7.10 E](#) does not comply with *Statement of Principle 7* ■ [APER 2.1.2 P](#)).
- 4.7.3  /1 Failing to take reasonable steps to implement (either personally or through a compliance department or other departments) adequate and appropriate systems of control to comply with the relevant requirements and standards of the *regulatory system* in respect of its *regulated activities* falls within ■ [APER 4.7.2 E](#). In the case of an *approved person* who is responsible, under ■ [SYSC 2.1.3 R \(2\)](#), with overseeing the *firm's* obligation under [SYSC 3.1.1R](#), failing to take reasonable care to oversee the establishment and maintenance of appropriate systems and controls falls within ■ [APER 4.7.2 E](#).
- 4.7.4  /1 Failing to take reasonable steps to monitor (either personally or through a compliance department or other departments) compliance with the relevant requirements and standards of the *regulatory system* in respect of its *regulated activities* falls within ■ [APER 4.7.2 E](#) (see ■ [APER 4.7.12 G](#)).
- 4.7.5  /1 Failing to take reasonable steps adequately to inform himself about the reason why significant breaches (whether suspected or actual) of the relevant requirements and standards of the *regulatory system* in respect of its *regulated activities* may have arisen (taking account of the systems and procedures in place) falls within ■ [APER 4.7.2 E](#).
- 4.7.6  /1 Behaviour of the type referred to in ■ [APER 4.7.5 E](#) includes, but is not limited to, failing to investigate what systems or procedures may have failed including, where appropriate, failing to obtain expert opinion on the adequacy of the systems and procedures.
- 4.7.7  /1 Failing to take reasonable steps to ensure that procedures and systems of control are reviewed and, if appropriate, improved, following the identification of significant breaches (whether suspected or actual) of the relevant requirements and standards of the *regulatory system*

relating to its *regulated activities*, falls within ■ APER 4.7.2 E (see ■ APER 4.7.13 G).

4.7.8  Behaviour of the type referred to in ■ APER 4.7.7 E includes, but is not limited to:

- (1) unreasonably failing to implement recommendations for improvements in systems and procedures;
- (2) unreasonably failing to implement recommendations for improvements to systems and procedures in a timely manner.

4.7.9  In the case of the *Money Laundering Reporting Officer*, failing to discharge the responsibilities imposed on him in accordance with chapter 8 of the *Money Laundering* sourcebook (*ML*) falls within ■ APER 4.7.2 E.

4.7.10  In the case of an *approved person* performing a *significant influence function* responsible for compliance under ■ APER 3.2.8 R, failing to take reasonable steps to ensure that appropriate compliance systems and procedures are in place falls within ■ APER 4.7.2 E (see ■ APER 4.7.14 G).

4.7.11  The *FSA* expects an *approved person* performing a *significant influence function* to take reasonable steps both to ensure his *firm's* compliance with the relevant requirements and standards of the *regulatory system* and to ensure that all staff are aware of the need for compliance.

Systems of control

4.7.12  An *approved person* performing a *significant influence function* need not himself put in place the systems of control in his business ■ APER 4.7.4 E). Whether he does this depends on his role and responsibilities. He should, however, take reasonable steps to ensure that the business for which he is responsible has operating procedures and systems which include well-defined steps for complying with the detail of relevant requirements and standards of the *regulatory system* and for ensuring that the business is run prudently. The nature and extent of the systems of control that are required will depend upon the relevant requirements and standards of the *regulatory system*, and the nature, scale and complexity of the business (see ■ APER 3.3.2 E).

Possible breaches of regulatory requirements

4.7.13  Where the *approved person* performing a *significant influence function* becomes aware of actual or suspected problems that involve possible breaches of relevant requirements and standards of the *regulatory system* falling within his area of responsibility, then he should take reasonable steps to ensure that they are dealt with in a timely and appropriate manner ■ APER 4.7.7 E). This may involve an adequate investigation to find out what systems or procedures may have failed and why. He may need to obtain expert opinion on the adequacy and efficacy of the systems and procedures.

Review and improvement of systems and procedures

4.7.14

G
/1

Where independent reviews of systems and procedures have been undertaken and result in recommendations for improvement, the *approved person* performing a *significant influence function* should ensure that, unless there are good reasons not to, any reasonable recommendations are implemented in a timely manner ■ APER 4.7.10 E). What is reasonable will depend on the nature of the inadequacy and the cost of the improvement. It will be reasonable for the *approved person* performing a *significant influence function* to carry out a cost benefit analysis when assessing whether the recommendations are reasonable.

Handbook Modules

Schedule1 Record keeping requirements

G

- 1 There are no record keeping requirements in APER.

Handbook Modules

Schedule2 Notification requirements

G

- 1 The aim of the guidance in the following table is to give the reader a quick over-all view of the relevant requirements for notification and reporting.
- 2 It is not a complete statement of those requirements and should not be relied on as if it were.
- 3

Table	Notification requirements
-------	---------------------------

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
<i>Statement of Principle 4 (APER 2.1.2P)</i>	Any information of which the <i>FSA</i> would reasonably expect notice	Appropriate disclosure	Any information of which the <i>FSA</i> would reasonably expect notice	Appropriate

Handbook Modules

Schedule3 Fees and other required payments

G

- 1 There are no requirements for fees or other payments in APER.

THE FIT AND PROPER TEST FOR APPROVED PERSONS INSTRUMENT 2001

- A. The Financial Services Authority gives the guidance in the Annex to this instrument (“FIT”) in the exercise of the power listed in Schedule 4 to FIT (Powers exercised).
- B. This instrument shall come into force at the beginning of the first day on which section 40 of the Financial Services and Markets Act 2000 (Application for permission) comes into force for any purpose.
- C. This instrument may be cited as the Fit and Proper Test for Approved Persons Instrument 2001.
- D. The Annex to this instrument (including its Schedules) may be cited as the Fit and Proper Test for Approved Persons (or FIT).

By order of the Board

Handbook Modules

Transitional provisions

G

- 1 There are no transitional provisions in FIT. However, GEN contains some technical transitional provisions that apply throughout the Handbook and which are designed to ensure a smooth transition at commencement.

Chapter 1

General

1.1 Application and purpose

1.1.1

G

^{/1}

FIT applies to:

- (1) a *firm*;
- (2) an applicant for *Part IV permission*;
- (3) and *EEA firm*, a *Treaty firm* or a *UCITS qualifier* that wishes to establish a *branch* into the *United Kingdom* using *EEA rights*, *Treaty rights* or *UCITS directive rights* (see ■ SUP 10.1.12 G and ■ SUP 10.1.13 R), or apply for a *top-up permission* (see ■ SUP 10.1.14 R);
- (4) an *approved person*; and
- (5) a *candidate*.

1.1.2

G

^{/1}

The purpose of *FIT* is to set out and describe the criteria that the *FSA* will consider when assessing the fitness and propriety of a *candidate* for a *controlled function* (see generally ■ SUP 10 on *approved persons*). The criteria are also relevant in assessing the continuing fitness and propriety of *approved persons*. The criteria that the *FSA* will consider in relation to an *authorised person* are described in *COND*.

1.2 Introduction

- 1.2.1** G_{/1} Under section 61(1) of the *Act* (Determination of applications), the *FSA* may grant an application for approval made under section 60 (Applications for approval) only if it is satisfied that the *candidate* is fit and proper to perform the *controlled function* to which the application relates.
- 1.2.2** G_{/1} The method of applying for *approved person* status is set out in ■ AUTH 6 and ■ SUP 10.
- 1.2.3** G_{/1} Under section 63(1) of the *Act* (Withdrawal of approval), the *FSA* may withdraw its approval if it considers that the *person* in respect of whom the approval was given is not fit and proper to perform the *controlled function* to which the approval relates.
- 1.2.4** G_{/1} The *Act* does not prescribe the matters which the *FSA* should take into account when determining fitness and propriety. However, section 61(2) states that the *FSA* may have regard (among other things) to whether the *candidate* or *approved person* is competent to carry out a *controlled function*.

1.3 Assessing fitness and propriety

- 1.3.1**  The *FSA* will have regard to a number of factors when assessing the fitness and propriety of a *person* to perform a particular *controlled function*. The most important considerations will be the *person's*:
- (1) honesty, integrity and reputation;
 - (2) competence and capability; and
 - (3) financial soundness.
- 1.3.2**  In assessing fitness and propriety, the *FSA* will also take account of the activities of the *firm* for which the *controlled function* is or is to be performed, the *permission* held by that *firm* and the markets within which it operates.
- 1.3.3**  The criteria listed in **■ FIT 2.1** to **■ FIT 2.3** are *guidance* and will be applied in general terms when the *FSA* is determining a *person's* fitness and propriety. It would be impossible to produce a definitive list of all the matters which would be relevant to a particular determination.
- 1.3.4**  If a matter comes to the *FSA's* attention which suggests that the *person* might not be fit and proper, the *FSA* will take into account how relevant and how important it is.
- 1.3.5**  During the application process, the *FSA* may discuss the assessment of the *candidate's* fitness and propriety informally with the *firm* making the application and may retain any notes of those discussions.

Chapter 2

Main assessment criteria

2.1 Honesty, integrity and reputation

- 2.1.1** G_{/1} In determining a *person's* honesty, integrity and reputation, the *FSA* will have regard to matters including, but not limited to, those set out in ■ FIT 2.1.3 G which may have arisen either in the *United Kingdom* or elsewhere. The *FSA* should be informed of these matters (see ■ SUP 10.13.16 R), but will consider the circumstances only where relevant to the requirements and standards of the *regulatory system*.
- 2.1.2** G_{/1} In considering the matters in ■ FIT 2.1.1 G, the *FSA* will look at whether the *person's* reputation might have an adverse impact upon the *firm* for which the *controlled function* is or is to be performed and at the *person's* responsibilities.
- 2.1.3** G_{/1} The matters referred to in ■ FIT 2.1.1 G to which the *FSA* will have regard include, but are not limited to:
- (1) whether the *person* has been convicted of any criminal offence; this may include, where relevant, any spent convictions under the Rehabilitation of Offenders Act 1974; particular consideration will be given to offences of dishonesty, fraud, financial crime or other offences under legislation relating to banking and financial services, companies, insurance and consumer protection;
 - (2) whether the *person* has been the subject of any adverse finding or any settlement in civil proceedings, particularly in connection with investment or other financial business, misconduct, fraud or the formation or management of a *body corporate*;
 - (3) whether the *person* has been the subject of, or interviewed in the course of, any existing or previous investigation or disciplinary proceedings, by the *FSA*, by other regulatory authorities (including a *previous regulator*), *clearing houses* and exchanges, professional bodies, or government bodies or agencies;
 - (4) whether the *person* is or has been the subject of any proceedings of a disciplinary or criminal nature, or has been notified of any potential proceedings or of any investigation which might lead to those proceedings;
 - (5) whether the *person* has contravened any of the requirements and standards of the *regulatory system* or the equivalent standards or requirements of other regulatory authorities (including a *previous regulator*), *clearing houses* and exchanges, professional bodies, or government bodies or agencies;
 - (6) whether the *person* has been the subject of any justified complaint relating to *regulated activities*;
 - (7) whether the *person* has been involved with a *company*, *partnership* or other organisation that has been refused registration, authorisation, membership or a licence to carry out a trade, business or profession, or has had that registration,

authorisation, membership or licence revoked, withdrawn or terminated, or has been expelled by a regulatory or government body;

- (8) whether, as a result of the removal of the relevant licence, registration or other authority, the *person* has been refused the right to carry on a trade, business or profession requiring a licence, registration or other authority;
- (9) whether the *person* has been a *director*, *partner*, or concerned in the management, of a business that has gone into insolvency, liquidation or administration while the *person* has been connected with that organisation or within one year of that connection;
- (10) whether the *person*, or any business with which the *person* has been involved, has been investigated, disciplined, censured or suspended or criticised by a regulatory or professional body, a court or Tribunal, whether publicly or privately;
- (11) whether the *person* has been dismissed, or asked to resign and resigned, from employment or from a position of trust, fiduciary appointment or similar;
- (12) whether the *person* has ever been disqualified from acting as a *director* or disqualified from acting in any managerial capacity;
- (13) whether, in the past, the *person* has been candid and truthful in all his dealings with any *regulatory body* and whether the *person* demonstrates a readiness and willingness to comply with the requirements and standards of the *regulatory system* and with other legal, regulatory and professional requirements and standards.

2.2 Competence and capability

2.2.1

G
/1

In determining a *person's* competence and capability, the *FSA* will have regard to matters including but not limited to:

- (1) whether the *person* satisfies the relevant requirements of the *FSA's* Training and Competence sourcebook (*TC*) in relation to the *controlled function* the *person* performs or is intended to perform;
- (2) whether the *person* has demonstrated by experience and training that the *person* is able, or will be able if approved, to perform the *controlled function*.

2.2.2

G
/1

A *person* may have been convicted of, or dismissed or suspended from employment for, drug or alcohol abuses or other abusive acts. This will be considered only in relation to a *person's* continuing ability to perform the particular *controlled function* for which the *person* is or is to be employed.

2.3 Financial soundness

2.3.1

G

/1

In determining a *person's* financial soundness, the *FSA* will have regard to any factors including, but not limited to:

- (1) whether the *person* has been the subject of any judgment debt or award, in the *United Kingdom* or elsewhere, that remains outstanding or was not satisfied within a reasonable period;
- (2) whether, in the *United Kingdom* or elsewhere, the *person* has made any arrangements with his creditors, filed for bankruptcy, been adjudged bankrupt, had assets sequestrated, or been involved in proceedings relating to any of these.

2.3.2

G

/1

The *FSA* will not normally require the *candidate* to supply a statement of assets or liabilities. The fact that a *person* may be of limited financial means will not, in itself, affect his suitability to perform a *controlled function*.

GENERAL PROVISIONS AND GLOSSARY INSTRUMENT 2001

- A. The Financial Services Authority makes the provisions in Annex A ("GEN"), other than GEN 2.1.8R, and Annex B (the "Glossary") to this instrument in the exercise of the powers listed in Schedule 4 to GEN (Powers exercised).
- B. This instrument shall come into force immediately, except for GEN 2.1.8R which shall come into force as and when made and brought into force by Financial Ombudsman Service Ltd.
- C. The provisions relevant to making rules and listed in Schedule 4 to GEN (Powers exercised) are specified for the purpose of section 153(2) of the Financial Services and Markets Act 2000 (Rule-making instruments).
- D. This instrument may be cited as the General Provisions and Glossary Instrument 2001.
- E. Annex A to this instrument may be cited as the General provisions (or GEN).
- F. Annex B to this instrument may be cited as the Glossary.

Handbook Modules

Transitional provisions

G

1 Table Transitional Provisions applying across the Handbook

(1) The purpose of these transitional provisions is to assist a smooth transition at *commencement*. They comprise various technical provisions that will apply across the whole *Handbook* and achieve results that most people would probably expect to apply in any event.

(2) These transitional provisions consist of general transitional provisions, which apply at a high level of generality, and more specific transitional provisions in relation to record keeping and *notification rules*.

(3) The more specific transitional provisions relating to record keeping and *notification rules* override the general transitional provisions. Both the general and the more specific transitional provisions do not apply if the context requires otherwise and are subject to any more specific transitional provision elsewhere in the *Handbook* relating to the matter. For example, *COB* contains transitional provisions relating to various matters which are limited in duration and which override these transitional provisions in relation to those matters.

(4) Definitions for these transitional provisions, additional to those in the *Glossary*, are provided at paragraph 17 of the table.

2 Table

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1	Every <i>rule</i> in the <i>Handbook</i> , unless the context otherwise requires and subject to any more specific transitional provision relating to the matter	R	<p><u>Acts under pre-commencement provisions</u></p> <p>Anything done, or having effect as done, under or for the purposes of any pre-commencement provision has effect as if done under or for the purposes of any substantially similar provision in the <i>Handbook</i>.</p>	From commencement of the relevant <i>rule</i> in the <i>Handbook</i>	See schedule of Transitional provisions of the relevant <i>rule</i>
2	Paragraph 1	G	For example, a <i>firm</i> may rely on action to establish the best price, taken shortly before <i>commencement</i> for the purposes of an applicable SRO best execution rule, for the purposes of compliance with COB 7.5.5R(1) (Providing best execution), even if the transaction is <i>executed after commencement</i> .	As paragraph 1	As paragraph 1
3	As paragraph 1	R	<p><u>Achieving compliance before commencement</u></p> <p>Anything done before <i>commencement</i> for the purposes of a provision in the <i>Handbook</i> has effect as if done under that provision.</p>	As paragraph 1	As paragraph 1
4	Paragraph 3	G	For example, a <i>firm</i> may allocate responsibility for apportionment and oversight for the purposes of SYSC 2.1.3R (Apportionment of responsibilities) before <i>commencement</i> , so as to be in compliance at <i>commencement</i> .	As paragraph 1	As paragraph 1

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
5	As paragraph 1	R	<p><u>Series of events</u></p> <p>If the application of any provision in the <i>Handbook</i> is dependent on the occurrence of a series of events, some of which occur before, and some of which occur after, <i>commencement</i>, the provision applies with respect to the events that occur after <i>commencement</i>.</p>	As paragraph 1	As paragraph 1
6	Paragraph 5	G	<p>For example, a <i>firm</i> which executes an aggregated order shortly before <i>commencement</i> must comply with COB 7.7.9R (Requirement for fair allocation) if the allocation occurs after <i>commencement</i>. Transitional provisions in COB may permit the <i>firm</i> to comply with the rules of its <i>previous regulator</i> if it wishes, as an alternative to COB 7.7.9R.</p>	As paragraph 1	As paragraph 1
7	As paragraph 1	R	<p><u>Deemed references to pre-commencement provisions</u></p> <p>Any reference (express or implied) in a provision in the <i>Handbook</i> to a provision of or made under the <i>Act</i> is to be read (so far as the context permits and according to the context) as being or including, in relation to times, circumstances and purposes before <i>commencement</i>, a reference to any substantially similar pre-commencement provision applicable to the <i>firm</i>.</p>	As paragraph 1	As paragraph 1

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
8	Paragraph 7	G	<p>For example, <i>SUP</i> 11.6.4R(1) requires certain <i>firms</i> to notify the <i>FSA</i> when a change in <i>control</i>, previously notified under <i>SUP</i> 11.4.2R, has taken place. Such a <i>firm</i> must notify a change in <i>control</i> that takes place after <i>commencement</i>, even if previously notified under a pre-commencement provision rather than under <i>SUP</i> 11.4.2R (and <i>SUP</i> 11.6.4R(1) is to be read as referring to that pre-commencement provision).</p> <p>Another example is <i>SUP</i> 3.10.6R, which requires an auditor's report on client assets to be provided not more than 53 weeks after the period covered by the previous report on such matters. For the first report after <i>commencement</i>, the period runs from that covered by the report under any substantially similar pre-commencement provision (because of an implied reference to that provision).</p>	As paragraph 1	As paragraph 1

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
9	As paragraph 1	R	<p><u>Time starting before commencement</u></p> <p>If, at <i>commencement</i>, time has begun to run for any purpose under any pre-commencement provision applicable to a <i>firm</i>, then:</p> <p>(1) time will be regarded as having started to run, for the purposes of any substantially similar provision in the <i>Handbook</i>, when it started to run for that other purpose; and</p> <p>(2) the <i>firm</i> will be relieved of its obligation to comply with the relevant pre-commencement provision if and to the extent that it complies with the substantially similar provision as extended by this transitional provision.</p>	As paragraph 1	As paragraph 1
10	Paragraph 9	G	<p>For example, a <i>UK bank</i> was required to submit Form LE2 within 10 business days after its quarter end by the <i>FSA's</i> Guide to Banking Supervisory Policy. If the quarter end fell five days before <i>commencement</i>, the <i>UK bank</i> must still submit the report within 10 <i>business days</i>, but in accordance with <i>SUP</i> 16.7.8R (Financial reports: banks).</p>	As paragraph 1	As paragraph 1

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
11	Every <i>rule</i> in the <i>Handbook</i> requiring a record to be made or retained (see schedule 1), unless the context otherwise requires and subject to any more specific transitional provision relating to the matter	R	<p><u>Record keeping</u></p> <p>A firm will not contravene a rule in the Handbook requiring a record to be made or retained to the extent that the firm:</p> <p>(1) made a record of the matter before commencement in accordance with the rule or with a substantially similar pre-commencement provision applicable to the firm; and</p> <p>(2) retains that record as if the rule was in force when the record was made.</p>	From commencement of the relevant <i>rule</i> in the <i>Handbook</i>	See schedule of Transitional provisions of the relevant <i>rule</i>
12	Paragraph 11	G	This transitional provision makes specific provision, in relation to record keeping, for the matters covered by paragraphs 1 and 3. It is included for clarity and overrides those general transitional provisions.	As paragraph 11	As paragraph 11
13	As paragraph 11	R	A firm must retain a record in accordance with a rule in the Handbook requiring a record of that sort to be retained, if the firm was required to make and retain that record before commencement under a substantially similar pre-commencement provision applicable to the firm.	As paragraph 11	As paragraph 11

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
14	Paragraph 13	G	This transitional provision makes specific provision, in relation to records, for the matters covered by paragraphs 7 and 9. It is included for clarity and overrides those general transitional provisions.	As paragraph 11	As paragraph 11
15	Every <i>notification rule</i> in the <i>Handbook</i> (see schedule 2), unless the context otherwise requires and subject to any more specific transitional provision relating to the matter	R	<p><u>Notification</u></p> <p><i>A firm (or its auditor, appointed actuary or appropriate actuary) will not contravene a notification rule in the Handbook to the extent that notice of the relevant matter was given to the firm's previous regulator before commencement in accordance with:</i></p> <p>(1) the notification rule; or</p> <p>(2) a substantially similar pre-commencement provision applicable to the firm.</p>	From commencement of the relevant rule in the <i>Handbook</i>	See schedule of Transitional provisions of the relevant rule
16	Paragraph 15	G	This transitional provision makes specific provision, in relation to notifications, for the matters covered by paragraphs 1 and 3. It is included for clarity and overrides those general transitional provisions.	As paragraph 15	As paragraph 15

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
17	Paragraphs 1 to 16	R	<p><u>Definitions</u></p> <p>In these transitional provisions:</p> <p>(1) "pre-commencement provision" means a provision repealed or revoked by or under the <i>Act</i> or a rule or guidance of the <i>firm's previous regulator</i>, including (where the context permits) any relevant provision which it replaced before <i>commencement</i>;</p> <p>(2) "substantially similar" means substantially similar in purpose and effect; and</p> <p>(3) a reference to a "provision" in the <i>Handbook</i> means every type of provision, including <i>rules, guidance, provisions in codes</i>, and so on.</p>	As paragraph 1	As paragraph 1
18	Paragraphs 19 to 22	G	<p><u>Application for provisions which are not rules</u></p> <p>The purpose of paragraphs 19 to 22 is to ensure that the transitional provisions in paragraphs 1 to 10 apply throughout the <i>Handbook</i>.</p>	As paragraphs 19 to 22	As paragraphs 19 to 22

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
19	<i>Statements of Principle</i> unless the context otherwise requires and subject to any more specific transitional provision relating to the matter	P	The provisions in paragraphs 1 to 10 apply to every <i>approved person</i> as if the rules in those paragraphs were part of the <i>Statements of Principle</i>.	From commencement of the relevant <i>Statement of Principle</i>	See schedule of Transitional provisions for <i>APER</i>
20	<i>Code of Practice for Approved Persons and Code of Market Conduct</i> unless the context otherwise requires and subject to any more specific transitional provision relating to the matter	E	The provisions paragraphs 1 to 10 apply to every <i>approved person</i> and every person to whom the <i>Code of Market Conduct</i> applies as if the rules in those paragraphs were part of the <i>Code of Practice for Approved Persons</i> and the <i>Code of Market Conduct</i> respectively.	From commencement of the relevant provision of the Code	See schedule of Transitional provisions for <i>APER</i> and <i>MAR</i>

Chapter 1

Provisions which apply to all authorised persons

1.1 Application

1.1.1

R

/1

- (1) This chapter applies to every *firm*.
- (2) For a *UCITS qualifier*, this chapter applies only with respect to the *communication* and *approval* of *financial promotions* to which **■ COB 3** (Financial promotion) applies and to the maintenance of facilities to which **■ CIS 17.5** (Facilities in the United Kingdom) applies.

1.1.2

G

/1

- GEN 1.1.1 R (2) reflects section 266 of the *Act* (Disapplication of rules).

1.2 Referring to approval by the FSA

- 1.2.1** **G**_{/1} The purpose of **■ GEN 1.2.2 R** is to prevent *clients* being misled about the extent to which the *FSA* has approved a *firm's* affairs.
- 1.2.2** **R**_{/1}
- (1) Unless required to do so under the *regulatory system*, a *firm* must ensure that neither it nor anyone acting on its behalf claims, in a public statement or to a client, expressly or by implication, that its affairs, or any aspect of them, have the approval of the *FSA*.
 - (2) Paragraph (1) does not apply to statements that explain, in a way that is fair, clear and not misleading, that:
 - (a) the *firm* is an *authorised person*;
 - (b) the *firm* has *permission* to carry on a specific activity;
 - (c) an *authorisation order* has been made in relation to an *AUT* or *ICVC*;
 - (d) a *recognised scheme* has that status;
 - (e) the *firm's approved persons* have been approved by the *FSA* for the purposes of section 59 of the *Act* (Approval for particular arrangements);
 - (f) the *firm* has been given express written approval by the *FSA* in respect of a specific aspect of the *firm's* affairs.
 - (3) Paragraph (1) applies with respect to the carrying on of both *regulated activities* and *unregulated activities*.
- 1.2.3** **G**_{/1} **■ GEN 1.2.1 R (2)(f)** is confined to written approval because of the need for clarity as to the scope of any approval given by the *FSA*.

1.3 Emergency

1.3.1 **G**_{/1} The *FSA* recognises that there may be occasions when, because of a particular emergency, a *firm* may be unable to comply with a particular *rule*. The purpose of **■ GEN 1.3.2 R** is to provide appropriate relief from the consequences of contravention of a *rule* in those circumstances.

1.3.2 **R**_{/1} (1) If any emergency arises which:

- (a) could not have been avoided by the *firm* taking all reasonable steps;
- (b) makes it impracticable for a *firm* to comply with a particular *rule*; and
- (c) is outside the control of the *firm*, its *associates* and agents (and of its and their *employees*);

the *firm* will not be in contravention of that *rule* to the extent that, in consequence of the emergency, compliance with that *rule* is impracticable.

(2) Paragraph (1) applies only for so long as:

- (a) the consequences of the emergency continue; and
- (b) the *firm* can demonstrate that it is taking all practicable steps to deal with those consequences, to comply with the *rule*, and to mitigate losses and potential losses to its *clients*.

(3) A *firm* must notify the *FSA* as soon as practicable of the emergency and of the steps it is taking and proposes to take to deal with the consequences of the emergency.

1.3.3 **G**_{/1} A *firm* should continue to keep the *FSA* informed of the steps it is taking under **■ GEN 1.3.2 R** (3), in order to comply with its obligations under *Principle 11* (Relations with regulators).

1.3.4 **G**_{/1} In the context of **■ GEN 1.3.2 R**, an action is not practicable if it involves a *firm* going to unreasonable lengths.

1.3.5 **G**_{/1} **■ GEN 1.3.2 R** operates on the *FSA's rules*. It does not affect the *FSA's* powers to take action against a *firm* in an emergency, based on contravention of other requirements and standards under the *regulatory system*. For example, the *FSA* may exercise its *own-initiative power* in appropriate cases to vary a *firm's Part IV*

permission based on a failure or potential failure to satisfy the *threshold conditions* (see ■ SUP 7 (Applying the FSA's requirements to individual firms) and ■ ENF 4 (Variation of Part IV permission on the FSA's own initiative)).

Chapter 2

2

Interpreting the Handbook

2.1 Application and purpose

Application

- 2.1.1** **G**_{/1} The purpose of ■ GEN 2.1.2 R, ■ GEN 2.1.3 P, ■ GEN 2.1.4 E, ■ GEN 2.1.5 D and ■ GEN 2.1.6 G is to ensure that ■ GEN 2 applies throughout the *Handbook*.
- 2.1.2** **R**_{/1} This chapter applies to every *person* to whom any *rule* in the *Handbook* applies.
- 2.1.3** **P**_{/1} This chapter applies to every *approved person* as if the *rules* in this chapter were part of the *Statements of Principle*.
- 2.1.4** **E**_{/1} This chapter applies to every *approved person* and every *person* to whom the *Code of Market Conduct* applies as if the *rules* in this chapter were part of the *Code of Practice for Approved Persons* and the *Code of Market Conduct* respectively.
- 2.1.5** **D**_{/1} This chapter applies to every *person* to whom a direction or requirement in the *Handbook* (that is, a provision with the status letter “D” in the margin or heading) applies as if the *rules* in this chapter were part of that direction or requirement.
- 2.1.6** **G**_{/1} This chapter is also relevant to every *person* to whom any other *guidance* (or other provision with the status letter “G” in the *margin* or heading) in the *Handbook* is relevant as if the *rules* in this chapter were part of that *guidance* (or other provision).
- 2.1.7** **R**_{/1} Where this chapter refers to a “provision” in the *Handbook*, this means every type of provision, including *rules*, *guidance*, provisions in codes, and so on.
- 2.1.8** **R**_{/1} This chapter applies to all rules made by *FOS Ltd*.
- 2.1.9** **G**_{/1} The effect of ■ GEN 2.1.8 R is that this chapter applies with respect to those provisions in ■ DISP 2 (Jurisdiction of the Financial Ombudsman Service), ■ DISP 3 (Complaint handling procedures of the Financial Ombudsman Service), ■ DISP 4 (Standard terms) and ■ DISP 5 (Financial Ombudsman Service Funding Rules) made by *FOS Ltd*.

Purpose

2.1.10

G
/1

The purpose of ■ GEN 2 is to facilitate interpretation of the *Handbook*, in conjunction with the Reader’s Guide.

2.2 Interpreting the Handbook

Purposive interpretation

2.2.1 **R** Every provision in the *Handbook* must be interpreted in the light of its purpose.

/1

2.2.2 **G** The purpose of any provision in the *Handbook* is to be gathered first and foremost from the text of the provision in question and its context among other relevant provisions. The *guidance* given on the purpose of a provision is intended as an explanation to assist readers of the *Handbook*. As such, *guidance* may assist the reader in assessing the purpose of the provision, but it should not be taken as a complete or definitive explanation of a provision's purpose.

/1

Evidential provisions

2.2.3 **R** Any *rule* in the *Handbook* which has the status letter "E" in the margin or heading:

/1

- (1) is to be taken also to provide that contravention of the *rule* does not give rise to any of the consequences provided for by provisions of the *Act* other than section 149 (Evidential provisions); and
- (2) incorporates the status letter "E" in the margin or heading as part of the *rule*.

2.2.4 **G** (1) The *rules* to which section 149 of the *Act* applies ("*evidential provisions*") are identified in the *Handbook* by the status letter "E" in the *margin* or heading.

/1

- (2) Other provisions in the *Handbook*, although also identified by the status letter "E" in the margin or heading, are actually not *rules* but provisions in codes and ■ GEN 2.2.3 R does not apply to them. These code provisions are ■ GEN 2.1.4 E, and those provisions in the *Code of Practice for Approved Persons* ■ APER 3 and ■ APER 4) and the *Code of Market Conduct* ■ MAR 1) with the status letter "E".

2.2.5 **G** Paragraphs 18 to 31 of the Reader's Guide contain an explanation of the significance of the status letters R, D, P, C, E and G, and include further information on *evidential provisions*.

/1

Use of defined expressions

- 2.2.6** **G** Expressions with defined meanings appear in italics in the *Handbook*.
- 2.2.7** **R** ^{/1} **In the *Handbook* (except *IPRU*):**
- (1) **an expression in italics which is defined in the *Glossary* has the meaning given there; and**
- (2) **an expression in italics which relates to an expression defined in the *Glossary* must be interpreted accordingly.**
- 2.2.8** **G** ^{/1} Examples of related expressions are:
- (1) “*advice on investments*” and “*advise on investments*”, which should be interpreted by reference to “*advising on investments*”;
- (2) “*closely linked*”, which should be interpreted by reference to “*close links*”;
- (3) “*controls*” and “*controlled*”, which should be interpreted by reference to “*control*”; and
- (4) “*effect*”, as for example in “*effect a life policy*”, which should be interpreted by reference to “*effecting contracts of insurance*”.
- 2.2.9** **G** ^{/1} Unless the context otherwise requires, where italics have not been used, an expression bears its natural meaning (subject to the Interpretation Act 1978; see ■ GEN 2.2.11 R to ■ GEN 2.2.12 G).
- 2.2.10** **G** ^{/1} The Interim Prudential sourcebooks (*IPRU*) have individual arrangements for defined terms and each contains *rules* or *guidance* on its own arrangements. In respect of those sourcebooks, reliance should not be placed on the definitions which appear in the *Glossary* unless otherwise indicated.

Application of the Interpretation Act 1978

- 2.2.11** **R** ^{/1} **The Interpretation Act 1978 applies to the *Handbook*.**
- 2.2.12** **G** ^{/1} The application of the Interpretation Act 1978 to the *Handbook* has the effect, in particular, that:
- (1) expressions in the *Handbook* used in the *Act* have the meanings which they bear in the *Act*, unless the contrary intention appears;
- (2) where reference is made in the *Handbook* to an enactment, it is a reference to that enactment as amended, and includes a reference to that provision as extended or applied by or under any other enactment, unless the contrary intention appears; and
- (3) unless the contrary intention appears:
- (a) words in the *Handbook* importing the masculine gender include the feminine and words importing the feminine gender include the masculine;

- (b) words in the *Handbook* in the singular include the plural and words in the plural include the singular.

Cross-references in the Handbook

- 2.2.13 **R** A reference in the *Handbook* to another provision in the *Handbook* is a reference to that provision as amended from time to time.
/1

References to writing

- 2.2.14 **R** If a provision in the *Handbook* refers to a communication, notice, agreement or other *document* “in writing” then, unless the contrary intention appears, it means in legible form and capable of being reproduced on paper, irrespective of the medium used. Expressions related to writing must be interpreted accordingly.
/1

- 2.2.15 **G** ■ GEN 2.2.14 R means that, for example, electronic media may be used to make communications which are required by a provision of the *Handbook* to be “in writing”, unless a contrary intention appears, or the use of electronic media would contravene some other requirement such as the requirement to treat *customers* fairly under *Principle 6*. COB 1.8 (Application to electronic media) contains further *guidance* in respect of electronic communication with or for *customers*. ■ GEN 2.2.14 R does not, however, affect any other legal requirement which may apply in relation to the form or manner of executing a *document* or agreement.
/1

- 2.2.16 **G** “*Document*” is a defined term in the *Glossary*, the definition of which includes information recorded in any form, including electronic form.
/1

Activities covered by general rules

- 2.2.17 **R** A general rule (that is a rule made under section 138 of the Act (General rule-making power)) is to be interpreted as:
/1
- (1) applying to a *firm* with respect to the carrying on of all *regulated activities*, except to the extent that a contrary intention appears; and
 - (2) not applying to a *firm* with respect to the carrying on of *unregulated activities*, unless and then only to the extent that a contrary intention appears.

Continuity of authorised partnerships and unincorporated associations

- 2.2.18 **R** (1) If a *firm*, which is a *partnership* or unincorporated association, is dissolved, any *firm* which succeeds to the business of the dissolved *firm* is to be regarded as the same *firm* for the purposes of the *Handbook*.
/1

- (2) For the purposes of (1), a *firm* is to be regarded as succeeding to the business of another *firm* only if:
- (a) the *members* of the resulting *firm* are substantially the same as those of the former *firm*; and
 - (b) succession is to the whole or substantially the whole of the business of the former *firm*.
- (3) In (1), "*partnership*" does not include a *partnership* which is constituted under the law of any place outside the *United Kingdom* and is a *body corporate*.

2.2.19

G

/1

In principle, it is possible to view a change of *partners* in a *partnership*, or a change in the membership of the unincorporated association, as the formation of a new *partnership* or association. ■ GEN 2.2.18 R reflects section 32 of the *Act* (Partnerships and unincorporated associations), which provides for the continuing *authorisation of partnerships* and unincorporated associations following a change in *partners* or members. ■ GEN 2.2.18 R ensures a similar effect in relation to the status of the *partnership* or unincorporated associations as a "*firm*" or "*authorised person*" for the purposes of the *Handbook*. This continuity does not apply if a *limited liability partnership* succeeds to the business of a dissolved *partnership*; *authorisation of the limited liability partnership* would need to be applied for.

Definition of *designated investment exchange*

2.2.20

G

/1

In the *Glossary*, the definition of *designated investment exchange* lists certain investment exchanges. Further information on *designated investment exchanges*, including *guidance* on the addition of an investment exchange to the list, is set out in ■ GEN 2 Ann 1 G.

Designated investment exchanges

G

- 1 Table Further information on designated investment exchanges appears on the next page.

Introduction

1. A *designated investment exchange* is an exchange appearing in the list of such exchanges in the *Glossary*.

Benefits of designation

2. Under certain *rules*, *firms* may treat transactions effected on a *designated investment exchange* in the same way as transactions on *RIEs* (for example, see *COB 5 Ann 1 E*, *COB 9.1.35 R* and *COB 7.11*).

Criteria for inclusion in the list of designated investment exchanges

3. Before adding an investment exchange to the list of *designated investment exchanges* in the *Handbook*, the *FSA* will comply with all the requirements imposed by the *Act* in relation to the exercise of its rule-making powers. This will include consulting on the proposed amendment to the list.
4. In considering compatibility of the proposed addition with the *regulatory objectives*, the *FSA* will determine whether the investment exchange provides an appropriate degree of protection for *consumers* having regard in particular to:
 - (1) the relevant law and practice, including the regulatory framework in which the investment exchange operates, in the country or territory in which the investment exchange's head office is situated and any other relevant country or territory; and
 - (2) the rules and practices of the investment exchange.
5. Only investment exchanges which do not carry on a *regulated activity* in the *United Kingdom* and are not *regulated markets* may be added to the list. This is because an investment exchange carrying on a *regulated activity* in the *United Kingdom* will need to apply for recognition as an *RIE*, or *authorisation*, and because a *regulated market* is usually treated in the same way as an *RIE* in the *rules*.

Applications to be added to the list of designated investment exchanges

6. An application to be added to the list should be in writing and delivered to the *FSA* by:
 - (1) post to:
The Financial Services Authority
25 The North Colonnade
Canary Wharf
London
E14 5HS; or
 - (2) leaving the application at that address.
7. In support of the application, an investment exchange should provide information on the questions set out in the table below.

2 Table Designated investment exchange questionnaire

Designated investment exchange questionnaire	
1	In what way are members subject to formal supervision by the exchange or another supervisory or regulatory body? Describe how capital resources of members are monitored on an ongoing basis and how this is related to business done.
2	What powers does the exchange or any other supervisory or regulatory body have to intervene in a member's business in the event of misconduct, financial difficulties or otherwise?
3	What are the clearing arrangements of the exchange? How does the exchange ensure performance of a contract between its members? If relevant, what type of contract guarantee is available?
4	How is price information in respect of contracts effected on the exchange disseminated to investors, particularly those investors in the <i>United Kingdom</i>?
5	What are the exchange's arrangements for reporting and recording of transactions effected on the exchange? Please describe.
6	Does the exchange, or any other supervisory or regulatory body, require members to segregate the money and assets of the member's <i>clients</i> from the money and assets of the member? If so, please describe in outline how this operates. If not, are investors protected in any other way in the event of the insolvency of a member or the exchange?
7	Does the exchange have procedures for the investigation of complaints? Please describe what they are.
8	Does the exchange classify the different contracts traded on it in terms of liquidity? Is it possible to identify certain contracts which are more liquid than others and in which a ready market might be considered to exist?

Handbook Modules

Schedule1 Record keeping requirements

G

- 1 There are no record keeping requirements in GEN.

Handbook Modules

Schedule2 Notification requirements

G

- 1 The aim of the guidance in the following table is to give the reader a quick over-all view of the relevant requirements for notification and reporting.
- 2 It is not a complete statement of those requirements and should not be relied on as if it were.
- 3

Table	Notifications requirements
-------	----------------------------

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
GEN 1.3.2R	An emergency which makes it impracticable for a <i>firm</i> to comply with a particular <i>rule</i> .	Notification of the emergency and of the steps the <i>firm</i> is taking and proposes to take to deal with its consequences	An emergency which makes it impracticable for a <i>firm</i> to comply with a particular <i>rule</i> .	Notification as soon as practicable

Handbook Modules

Schedule3 Fees and other required payments

G

- 1 There are no requirements for fees or other payments in GEN. GEN 3 (FSA fees: general provisions contains general provisions relating to the payment of fees.

Handbook Modules

Schedule4 Powers exercised

G

- 1 The following powers and related provisions in or under the Act have been exercised by the FSA to make rules in GEN:
 - (1) Section 59 (Approval for particular arrangements)
 - (2) Section 118(8) (Market abuse)
 - (3) Section 136(2) (Funding of the legal assistance scheme)
 - (4) Section 138 (General rule-making power)
 - (5) Section 139 (Miscellaneous ancillary matters)
 - (6) Section 140 (Restrictions on managers of authorised unit trust schemes)
 - (7) Section 141 (Insurance business rules)
 - (8) Section 142(2) (Insurance business: regulations supplementing Authority's rules)
 - (9) Section 143 (Endorsements of codes etc)
 - (10) Section 144 (Price stabilising rules)
 - (11) Section 145 (Financial promotion rules)
 - (12) Section 146 (Money laundering rules)
 - (13) Section 147 (Control of information rules)
 - (14) Section 149 (Evidential provisions)
 - (15) Section 150(2) (Actions for damages)
 - (16) Section 156 (General supplementary powers)
 - (17) Section 213 (The compensation scheme)
 - (18) Section 214 (General)
 - (19) Section 215 (Rights of the scheme in relevant person's insolvency)
 - (20) Section 216 (Continuity of long-term insurance policies)
 - (21) Section 217 (Insurers in financial difficulties)

-
- (22) Section 218(2)(b) (Annual report)
 - (23) Section 223(1) (Management expenses)
 - (24) Section 226 (Compulsory jurisdiction)
 - (25) Section 229 (Awards)
 - (26) Section 234 (Industry funding)
 - (27) Section 238(5) (Restrictions on promotion)
 - (28) Section 239 (Single property schemes)
 - (29) Section 247 (Trust scheme rules)
 - (30) Section 248 (Scheme particulars rules)
 - (31) Section 278 (Rules as to scheme particulars)
 - (32) Section 283(1) (Facilities and information in the United Kingdom)
 - (33) Section 293 (Notification requirements)
 - (34) Section 295(3) (Notification: overseas investment exchanges and overseas clearing houses)
 - (35) Section 322 (Rules applicable to former underwriting members)
 - (36) Section 332(1) (Rules in relation to persons to whom the general prohibition does not apply)
 - (37) Section 340 (Appointment)
 - (38) Paragraph 17 of Schedule 1 (The Financial Services Authority: Fees)
 - (39) Paragraph 19 of Schedule 3 (EEA Passport Rights: Establishment)
 - (40) Paragraph 20 of Schedule 3 (EEA Passport Rights: Services)
 - (41) Paragraph 7(3) of Schedule 17 (The Ombudsman Scheme: Annual reports)
 - (42) Paragraph 13 of Schedule 17 (Authority's procedural rules)
 - (43) Regulation 6(1) of the OEIC Regulations (FSA rules).
- 2 The following powers and related provisions in the Act have been exercised by the FSA to issue the parts of the codes in GEN:
- (1) Section 64(2) (Conduct: statements and codes)
 - (2) Section 119 (The Code)
 - (3) Section 120 (Provisions included in the Authority's code by reference to the City Code).
- 3 The following powers in the Act have been exercised by the FSA to issue the parts of the statements in GEN:

-
- (1) Section 64(1) (Conduct: statements and codes)
 - (2) Section 69 (Statement of policy)
 - (3) Section 124 (Statement of policy)
 - (4) Section 169(9) (Investigations etc in support of overseas regulator)
 - (5) Section 210 (Statements of policy)
 - (6) Section 395(5) (The Authority's procedures).
- 4 The following powers and related provisions in or under the Act have been exercised by the FSA in GEN to direct, require or specify:
- (1) Section 51 (Applications under this Part)
 - (2) Section 60 (Applications for approval)
 - (3) Section 148(3) (Modification or waiver of rules)
 - (4) Section 182 (Notification)
 - (5) Section 242 (Applications for authorisation of unit trust schemes)
 - (6) Section 250(4) and (5) (Modification or waiver of rules)
 - (7) Section 270(6)(b) (Schemes authorised in designated countries or territories)
 - (8) Section 274 (Application for recognition of individual schemes)
 - (9) Section 287 (Application by an investment exchange)
 - (10) Section 288 (Application by a clearing house)
 - (11) Section 294(2) (Modification or waiver of rules)
 - (12) Section 316 (Direction by Authority)
 - (13) Section 317 (The core provisions)
 - (14) Section 318 (Exercise of powers through Council)
 - (15) Regulation 7(3) and (4) of the OEIC Regulations (Modification or waiver of FSA rules)
 - (16) Regulation 12 of the OEIC Regulations (Authorisation).
- 5 The following power in the Act has been exercised by the FSA to make the part of the complaints scheme in GEN:
- Paragraph 7 of Schedule 1 (Arrangements for the investigation of complaints).
- 6 The following power in the Act has been exercised by the FSA to give the other guidance in GEN:
- Section 157(1) (Guidance).

7 In this Schedule, references to GEN include the Glossary.

Handbook Modules

Schedule5 Rights of action for damages

G

- 1 The table below sets out the rules in GEN contravention of which by an authorised person may be actionable under section 150 of the Act (Actions for damages) by a person who suffers loss as a result of the contravention.
- 2 If a “Yes” appears in the column headed “For private person?”, the rule may be actionable by a “private person” under section 150 (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001 No 2256)). A “Yes” in the column headed “Removed” indicates that the FSA has removed the right of action under section 150(2) of the Act. If so, a reference to the rule in which it is removed is also given.
- 3 The column headed “For other person?” indicates whether the rule may be actionable by a person other than a private person (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of person by whom the rule may be actionable is given.
- 4

Table	Actions for damages: General provisions
-------	---

Chapter/ Appendix	Section/ Annex	Paragraph	Right of action under section 150		
			For private person?	Removed?	For other person?
All rules in <i>GEN</i> with the status letter “E”			No	No	No
<i>GEN</i> 2.1.8 R			No	No	No
All other rules in <i>GEN</i>			Yes	No	No

Handbook Modules

Schedule6 Rules that can be waived

G

- 1 GEN 1.2.2R (Referring to approval by the FSA) can be waived by the FSA under section 148 of the Act (Modification or waiver of rules).
- 2 GEN 2.1.8R is made by FOS Ltd and not by the FSA and cannot be waived by the FSA.
- 3 Every other rule in GEN can be waived by the FSA if, and to the extent that, the rules elsewhere in the Handbook which it modifies or to which it otherwise relates can be waived by the FSA.

ANNEX

PART 2

Glossary

G. Guidance on the Glossary

1. The *rules* and *guidance* for interpreting the *Handbook* are to be found in *GEN 2* (Interpreting the Handbook).
2. The *guidance* in the following paragraphs reminds the reader of some practical points for interpreting *Handbook* text.
3. Each sourcebook or manual has a reference code of two or more letters, usually a contraction or abbreviation of its title (for example, *GEN* stands for the General provisions and *COB* for the Conduct of Business sourcebook). The meaning of each of these codes is given in the *Glossary*.
4. Expressions used in the *Handbook* which are defined in the *Glossary* appear in the text in italic type (*GEN 2.2.7R(1)* (Use of defined expressions)). An expression which is not shown in the text in italics has its natural meaning unless the context otherwise requires (*GEN 2.2.9G*).
5. An expression which appears in the text in italics, but is not itself defined in the *Glossary*, should be read in the same sense as the expression to which it relates (for example, "*advice on investments*" and "*advise on investments*" are related to "*advising on investments*", so the reader should refer to the definition of "*advising on investments*" for their meaning). (*GEN 2.2.7R(2)* and *GEN 2.2.8G*).
6. The words "in writing", unless the contrary intention appears, mean in legible form and capable of reproduction on paper; they include electronic communication (*GEN 2.2.14R* (References to writing)).
7. The Interpretation Act 1978 applies to the *Handbook*, so (unless the contrary intention appears):
 - (1) the singular includes the plural, and the plural the singular (*GEN 2.2.12G(3)*);
 - (2) the masculine includes the feminine (*GEN 2.2.12G(3)*);
 - (3) a reference to a statutory provision is a reference to it as amended from time to time (*GEN 2.2.12G(2)*); under *GEN 2.2.13R* (Cross-references in the Handbook) the same applies to a provision in the *Handbook*.
8. Many of the defined expressions in the *Glossary* are used or defined in the *Act* or in a statutory instrument made under it. In these cases, the *Glossary* refers to the statutory provision which is the source of the *Handbook* definition. Where there is a short statutory definition, the *Glossary* sets out the definition in full. Where the statutory definition is long, the *Glossary* gives a summary of it, and states that it is a summary.

Defined expression	Definition
<i>50% controller</i>	a <i>controller</i> in whose case the relevant percentage of shares or <i>voting power</i> is 50% or more.
<i>accepted channel for dissemination of information</i>	(in relation to any <i>prescribed market</i>) an approved channel of communication by which information concerning <i>investments</i> traded on the market is formally disseminated to other market users on a structured and equitable basis.

(2) (in relation to the exercise of an <i>EEA right</i>) a competent authority for the purposes of the relevant <i>Single Market Directive</i> .
<i>complaint</i>	(in <i>COAF</i>) any expression of dissatisfaction about the manner in which the <i>FSA</i> has carried out its statutory functions other than its legislative functions.
<i>Complaints Commissioner</i>	the <i>person</i> appointed by the <i>FSA</i> under <i>COAF</i> 1.3.1G (The Complaints Commissioner) to carry out the functions conferred on him under the <i>complaints scheme</i> .
<i>complaints investigator</i>	(1) (in relation to a <i>UK RIE</i>) the independent <i>person</i> appointed under arrangements referred to in paragraph 9(3) of the Schedule to the <i>Recognition Requirements Regulations</i> to investigate a complaint and to report on the result of his investigation to that <i>RIE</i> and to the complainant. <ul style="list-style-type: none"> (2) (in relation to a <i>UK RCH</i>) the independent <i>person</i> appointed

under arrangements referred to in paragraph 23(3) of the Schedule to the *Recognition Requirements Regulations* to investigate a complaint and to report on the result of his investigation to that *RCH* and to the complainant.

- complaints scheme* the arrangements made by the *FSA* under paragraphs 7 and 8 of Schedule 1 to the *Act* (The Financial Services Authority) for the investigation of *complaints* against the *FSA* arising in connection with the exercise of, or failure to exercise, any of its functions (other than its legislative functions) under the *Act*.
- compliance oversight function* *controlled function* CF10 in the *table of controlled functions*, described more fully in *SUP* 10.7.8R.
- Compulsory Jurisdiction* the jurisdiction of the *Financial Ombudsman Service* to which *firms* are compulsorily subject.
- COND* the part of the *Handbook* in High Level Standards which has the title Threshold Conditions.
- connected company* (in *LLD*) (in relation to a *body corporate*):
- (a) that *body corporate's holding company*;
 - (b) a *subsidiary* of that *body corporate*;
 - (c) a *subsidiary* of the *holding company* of that *body corporate*.
- connected person*
- (1) (in relation to the *FSA's* consideration of an application for, or of whether to vary or cancel, a *Part IV permission*) (in accordance with section 49(1) of the *Act* (Persons connected with an applicant)) any *person* appearing to the *FSA* to be, or likely to be, in a relationship with the applicant or *person* given *permission*, which is relevant.
 - (2) (in relation to the *FSA's* power to gather information under section 165 of the *Act* (Authority's power to require information)) (in accordance with section 165(11) of the *Act*) a *person* who has, or has at any relevant time had, the following relationship with an *authorised person* ("A"):
 - (a) he is a member of A's *group*;
 - (b) he is a *controller* of A;
 - (c) he is a member of a *partnership* of which A is a member;
 - (d) he is or has been an employee of A;
 - (e) if A is a *body corporate*, he is or has been an *officer*, or *manager* or agent of A or of a *parent undertaking* of A;
 - (f) if A is a *partnership*, he is or has been a member, *manager* or agent of A;
 - (g) if A is an unincorporated association of *persons* which is neither a *partnership* nor an unincorporated *friendly society*, he is or has been an *officer*, *manager*, or agent of A;

- (h) if A is a *friendly society*, he is or has been an officer or manager of A ("officer" and "manager" having the same meaning as in section 119(1) of the Friendly Societies Act 1992);
 - (i) if A is a *building society*, he is or has been an officer of A ("officer" having the same meaning as in section 119(1) of the Building Societies Act 1986);
 - (j) if A is an individual, he is or has been an agent of A.
- (3) (in relation to the FSA's powers of investigation under sections 171 and 172 of the *Act* (Powers of persons appointed under section 167; Additional power of persons appointed as a result of section 168(1) or (4))) (in accordance with section 171(4) of the *Act*) a *person* who has, or has at any relevant time had, the following relationship with a *person* under investigation ("P"):
- (a) he has the relationship specified in any of paragraphs (2) (a), (b) or (d) to (j) to P (where references in those paragraphs to A are taken to be references to P);
 - (b) it is a *partnership* of which P is a member;
 - (c) he is the partner, *manager*, employee, agent, *appointed representative*, banker, auditor, actuary or solicitor of:
 - (i) P; or
 - (ii) a *parent undertaking* of P; or
 - (iii) a *subsidiary undertaking* of P; or
 - (iv) a *subsidiary undertaking* of a *parent undertaking* of P; or
 - (v) a *parent undertaking* of a *subsidiary undertaking* of P.

consent notice a notice given by the *FSA* to a *Host State regulator* under paragraph 19(4) (Establishment) of Part III of Schedule 3 to the *Act* (Exercise of Passport Rights by UK firms).

constable a police officer in the *United Kingdom* or a *person* commissioned by the Commissioners of Customs and Excise.

consumer (1) (in relation to the *FSA's* power to make general *rules* (section 138 of the *Act* (General rule-making power))) the approval requirements for *controllers* (section 186 of the *Act* (Objection to acquisition of control)), the publication of notices (section 391 of the *Act* (Publication)) and the exercise of *Treaty rights* (Schedule 4 to the *Act* (Treaty rights))) (as defined in section 138(7) of the *Act* (General rule-making power)) a *person*:

- (a) who uses, has used, or is or may be contemplating using, any of the services provided by:
 - (i) an *authorised person* in carrying on *regulated*

activities; or

- (ii) a *person* acting as an *appointed representative*; or
- (b) who has rights or interests which are derived from, or are otherwise attributable to the use of, any such services by another *person*; or
- (c) who has rights or interests which may be adversely affected by the use of any such services by a *person* acting on his behalf or in a fiduciary capacity in relation to him; or
- (d) (in relation to the *FSA's* power to make general *rules*) a *person* within the extended definition of consumer in article 3 of the Financial Services and Markets Act 2000 (Consequential and Transitional Provisions) (Miscellaneous) Order 2001 (SI 2001/1821) (Application of definition of "consumer" to users of regulated services before commencement);

for the purposes of this definition:

- (A) if an *authorised person* is carrying on a *regulated activity* in his capacity as a trustee, the *persons* who are, have been or may be beneficiaries of the trust are to be treated as *persons* who use, have used or are or may be contemplating using services provided by the *authorised person* in his carrying on of that activity;
- (B) a *person* who deals with an *authorised person* in the course of the *authorised person's* carrying on of a *regulated activity* is to be treated as using services provided by the *authorised person* in carrying on those activities.
- (2) (in relation to the protection of consumers objective (section 5 of the *Act* (The protection of consumers)) and independent inquiries (section 14 of the *Act* (Cases in which the Treasury may arrange independent inquiries))) (as defined in sections 5(3) and 14(5) of the *Act*) a *person*:
 - (a) within (1); or
 - (b) who, in relation to *regulated activities* carried on otherwise than by an *authorised person*, would be a consumer within (1) if the activities were carried on by an *authorised person*.
- (3) (in relation to the establishment and maintenance of the *Consumer Panel* (section 10 of the *Act* (The Consumer Panel))) (as defined in section 10(7) of the *Act*) a *person* within (2) other than an *authorised person*.

consumer credit prohibition

(as defined in section 203(3) of the *Act* (Power to prohibit the carrying on of Consumer Credit Act business)) a prohibition on carrying on, or purporting to carry on, in the *United Kingdom* any Consumer Credit Act business which consists of or includes carrying on one or more

	<i>listed activities or investment services.</i>
<i>Consumer Panel</i>	the panel of <i>persons</i> which section 10 of the <i>Act</i> (The Consumer Panel) requires the <i>FSA</i> to establish and maintain, as part of its arrangements for consultation under section 8, to represent the interests of <i>consumers</i> .
<i>contingent liability investment</i>	a <i>derivative</i> under the terms of which the <i>client</i> will or may be liable to make further payments (other than <i>charges</i> , and whether or not secured by <i>margin</i>) when the transaction falls to be completed or upon the earlier <i>closing out</i> of his position.
<i>contract for differences</i>	the <i>investment</i> , specified in article 85 of the <i>Regulated Activities Order</i> (Contracts for differences etc), which is rights under: <ul style="list-style-type: none"> (a) a contract for differences; or (b) any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss by reference to fluctuations in: <ul style="list-style-type: none"> (i) the value or price of property of any description; or (ii) an index or other factor designated for that purpose in the contract.
<i>contract of insurance</i>	(1) (in relation to a <i>specified investment</i>) the <i>investment</i> , specified in article 75 of the <i>Regulated Activities Order</i> (Contracts of insurance), which is rights under a contract of insurance in (2). (2) (in relation to a contract) (in accordance with article 3(1) of the <i>Regulated Activities Order</i> (Interpretation)) any contract of insurance which is a <i>long-term insurance contract</i> or a <i>general insurance contract</i> , including: <ul style="list-style-type: none"> (a) fidelity bonds, performance bonds, administration bonds, bail bonds, customs bonds or similar contracts of guarantee, where these are: <ul style="list-style-type: none"> (i) effected or carried out by a <i>person</i> not carrying on a banking business; (ii) not effected merely incidentally to some other business carried on by the <i>person</i> effecting them; and (iii) effected in return for the payment of one or more premiums; (b) <i>tontines</i>; (c) <i>capital redemption</i> contracts or <i>pension fund management</i> contracts, where these are effected or carried out by a <i>person</i> who: <ul style="list-style-type: none"> (i) does not carry on a banking business; and (ii) otherwise carries on the <i>regulated activity</i> of <i>effecting</i> or <i>carrying out contracts of insurance</i>; (d) contracts to pay annuities on human life;

- (e) contracts of a kind referred to in article 1(2)(e) of the *First Life Directive* (Collective insurance etc); and
- (f) contracts of a kind referred to in article 1(3) of the *First Life Directive* (Social insurance);

in this definition, "annuities on human life" does not include superannuation allowances and annuities payable out of any fund applicable solely to the relief and maintenance of *persons* engaged, or who have been engaged, in any particular profession, trade or employment, or of the dependants of such *persons*.

<i>contractually based investment</i>	(in accordance with article 3(1) of the <i>Regulated Activities Order</i> (Interpretation)): <ul style="list-style-type: none"> (a) a <i>life policy</i>; (b) an <i>option, future or contract for differences</i>; (c) <i>rights to or interests in an investment</i> falling within (a) or (b).
<i>contribution group</i>	one of the groups listed in <i>COMP 13.6.7R</i> which are groups of <i>participant firms</i> which share the costs of funding compensation from <i>claims</i> arising from <i>firms in default</i> which carry on similar business.
<i>control</i>	(in relation to the acquisition, increase or reduction of control of a <i>firm</i>) the relationship between a <i>person</i> and the <i>firm</i> or other <i>undertaking</i> of which the <i>person</i> is a <i>controller</i> .
<i>controlled activity</i>	an activity specified in Part I of Schedule 1 to the <i>Financial Promotion Order</i> (Controlled activities).
<i>controlled agreement</i>	(as defined in section 30 of the <i>Act</i> (Enforceability of agreements resulting from unlawful communications)) an agreement the making or performance of which by either party constitutes a <i>controlled activity</i> .
<i>controlled function</i>	a function, relating to the carrying on of a <i>regulated activity</i> by a <i>firm</i> , which is specified, under section 59 of the <i>Act</i> (Approval for particular arrangements), in the <i>table of controlled functions</i> .
<i>controlled investment</i>	(in accordance with section 21(10) of the <i>Act</i> (Restrictions on financial promotion) and article 4 of the <i>Financial Promotion Order</i> (Definitions of controlled activities and controlled investments)) an <i>investment</i> specified in Part II of Schedule 1 to the <i>Financial Promotion Order</i> (Controlled investments).
<i>controller</i>	(in accordance with section 422 of the <i>Act</i> (Controller)) (in relation to a <i>firm</i> or other <i>undertaking</i> ("A")) a <i>person</i> who falls within any of the following cases; the cases are where the person: <ul style="list-style-type: none"> (a) holds 10% or more of the shares in A; or (b) is able to exercise significant influence over the management of A through his shareholding in A; or (c) holds 10% or more of the shares in a <i>parent undertaking</i> ("P") of A; or (d) is able to exercise significant influence over the management of P

through his shareholding in P; or

- (e) is entitled to exercise, or control the exercise of, 10% or more of the *voting power* in A; or
- (f) is able to exercise significant influence over the management of A through his *voting power* in A; or
- (g) is entitled to exercise, or control the exercise of, 10% or more of the *voting power* in P; or
- (h) is able to exercise significant influence over the management of P through his *voting power* in P;

in this definition:

- (i) "the person" means:
 - (A) the *person*; or
 - (B) any of the *person's* associates; or
 - (C) the *person* and any of his associates;
- (ii) "associate", in relation to a *person* ("H") holding shares in an *undertaking* ("C") or entitled to exercise or control the exercise of *voting power* in relation to another *undertaking* ("D"), means:
 - (A) the spouse of H;
 - (B) a child or stepchild of H (if under 18);
 - (C) the trustee of any settlement under which H has a life interest in possession (or in Scotland a life interest);
 - (D) an *undertaking* of which H is a director;
 - (E) a *person* who is an employee or partner of H;
 - (F) if H is an *undertaking*:
 - (I) a director of H;
 - (II) a *subsidiary undertaking* of H;
 - (III) a director or employee of such a *subsidiary undertaking*; and
 - (G) if H has with any other *person* an agreement or arrangement with respect to the acquisition, holding or disposal of shares or other interests in C or D or under which they undertake to act together in exercising their *voting power* in relation to C or D, that other *person*;
- (iii) "settlement" includes any disposition or arrangement under which property is held on trust (or subject to a comparable obligation);
- (iv) "shares" means:
 - (A) in relation to an *undertaking* with a share capital,

allotted shares;

(B) in relation to an *undertaking* with capital but no share capital, rights to share in the capital of the *undertaking*;

(C) in relation to an *undertaking* without capital, interests:

(I) conferring any right to share in the profits, or liability to contribute to the losses, of the *undertaking*; or

(II) giving rise to any obligation to contribute to the debts or expenses of the *undertaking* in the event of a winding up.

(see also *50% controller*.)

core investment service a service listed in section A of the Annex to the *ISD*, the text of which is set out in Schedule 2 to the *Regulated Activities Order* (Annex to the Investment Services Directive).

core provision (in *LLD*) (as defined in section 316(3) of the *Act* (Direction by Authority)) a provision of the *Act* mentioned in section 317 of the *Act* (The core provisions) which applies to the carrying on of an insurance market activity by a *member*, or the *members* of the *Society* taken together, if the *FSA* so directs.

corporate finance adviser function *controlled function* CF23 in the *table of controlled functions*, described more fully in *SUP* 10.10.13R.

corporate finance advisory firm a *firm* whose *permission* includes a *requirement* that the *firm* must not conduct *designated investment business* other than *corporate finance business*.

corporate finance business (a) *designated investment business* carried on by a *firm* with or for:

- (i) any *issuer*, holder or owner of *designated investments*, if that business relates to the *offer*, issue, underwriting, repurchase, exchange or redemption of, or the variation of the terms of, those *investments*, or any related matter;
- (ii) any *market counterparty* or *intermediate customer*, or other *body corporate*, *partnership* or supranational organisation, if that business relates to the manner in which, or the terms on which, or the *persons* by whom, any business, activities or undertakings relating to it, or any *associate*, are to be financed, structured, managed, controlled, regulated or reported upon;
- (iii) any *person* in connection with:
 - (A) a proposed or actual *takeover or related operation* by or on behalf of that *person*, or involving *investments* issued by that *person* (being a *body corporate*), its *holding company*, *subsidiary* or *associate*; or

- (B) a merger, de-merger, reorganisation or reconstruction involving any *investments* issued by that *person* (being a *body corporate*), its *holding company*, *subsidiary* or *associate*;
- (iv) any shareholder or prospective shareholder of a *body corporate* established or to be established for the purpose of effecting a *takeover or related operation*, where that business is in connection with that *takeover or related operation*;
- (v) any *person* who, acting as a *principal* for his own account:
 - (A) is involved in negotiations or decisions relating to the commercial, financial or strategic intentions or requirements of a business or prospective business; or
 - (B) (provided he is acting otherwise than solely in his capacity as an investor) assists the interests of another *person* with or for whom the *firm*, or another *authorised person* or *overseas person*, is undertaking business as specified in (a)(i), (ii), (iii) or (iv), by himself undertaking all or part of any transactions involved in such business;
- (vi) any *person* undertaking business with or for a *person* as specified in (a)(i), (ii), (iii), (iv) or (v) in respect of activities described in those sub-paragraphs;
- (b) *designated investment business* carried on by a *firm* as a *principal* for its own account where such business:
 - (i) is in the course of, or arises out of, activities undertaken in accordance with (a); and
 - (ii) does not involve transactions with or for, or *advice on investments* to, any other *person* who is a *private customer* in respect of such business;
- (c) *designated investment business* carried on by a *firm* as *principal* for its own account if such business:
 - (i) is in the course of, or arises out of:
 - (A) the *offer*, issue, underwriting, repurchase, exchange or redemption of, or the variation of the terms of, *shares*, share warrants, *debentures* or debenture warrants issued by the *firm*, or any related matter; or
 - (B) a proposed or actual *takeover or related operation* by or on behalf of the *firm*, or involving *shares*, share warrants, *debentures* or debenture warrants issued by the *firm*; or
 - (C) a merger, de-merger, reorganisation or reconstruction

involving any *shares*, share warrants, *debentures* or debenture warrants issued by the *firm*; and

- (ii) does not involve *advice on investments* to any *person* who is a *private customer*;

in this definition, “share warrants” and “debenture warrants” mean any *warrants* which relate to *shares* in the *firm* concerned or, as the case may be, *debentures* issued by the *firm*.

corporate finance contact

(when a *firm* carries on *designated investment business* with or for a *person* in the course of or as a result of either carrying on *corporate finance business* with or for a *client*, or carrying on *corporate finance business* for the *firm's* own account) that *person* in connection with that *designated investment business* if:

- (a) the *firm* does not behave in a way towards that *person* which might reasonably be expected to lead that *person* to believe that he is being treated as a *client*; and
- (b) the *firm* clearly indicates to that *person* that it:
 - (i) is not acting for him; and
 - (ii) will not be responsible to him for providing protections afforded to *clients* of the *firm* or be advising him on the relevant transaction.

Council

(in *LLD*) the Council constituted by section 3 of Lloyd's Act 1982.

counterparty

(in *LLD*) (in relation to the *Society*, a *syndicate* or *member*):

- (a) any individual; or
- (b) any unincorporated body of *persons*; or
- (c) any *company* which is not a member of a *group*; or
- (d) any *group* of *companies*, excluding any *companies* within the *group* which are *subsidiary undertakings* of the *Society*, a *syndicate* or *member*; or
- (e) any government of a State or any public bodies, local authorities or nationalised industries of a State;

in which the *Society*, a *syndicate* or *member* has made *investments* or against which it has rights under a contract entered into by the *Society*, *syndicate* or *member*.

covered

(in *LLD*) (in relation to a contract) not requiring a significant provision to be made in respect of it.

CRED

the Credit unions sourcebook.

credit

- (1) (except in relation to a *class* of *contract of insurance*) any kind of loan, deferment of repayment of any loan or of interest on any loan, guarantee or indemnity, and any other kind of accommodation or facility in the nature of credit.
- (2) (in relation to a *class* of *contract of insurance*) the *class* of

contract of insurance, specified in paragraph 14 of Part I of Schedule 1 to the *Regulated Activities Order* (Contracts of general insurance), against risks of loss to the *persons* insured arising from the insolvency of debtors of theirs or from the failure (otherwise than through insolvency) of debtors of theirs to pay their debts when due.

<i>credit institution</i>	(as defined in article 1(1) of the <i>BCD</i>) an undertaking whose business is to receive deposits or other repayable funds from the public and to grant credits for its own account. (see also <i>BCD credit institution</i> .)

<i>Lloyd's policy</i>	a <i>contract of insurance</i> written at Lloyd's.
<i>Lloyd's Return</i>	the financial report that the <i>Society</i> is required to submit to the <i>FSA</i> under <i>LLD</i> 15.2.1R.

<i>local</i>	<p>a <i>firm</i> which is a member of a <i>futures</i> and <i>options</i> exchange and whose <i>permission</i> includes a <i>requirement</i> that:</p> <p>(a) the <i>firm</i> will not conduct <i>designated investment business</i> other than:</p> <p style="margin-left: 2em;">(i) <i>dealing</i> for its own account on that <i>futures</i> or <i>options</i> exchange; or</p> <p style="margin-left: 2em;">(ii) <i>dealing</i> for the accounts of other members of the same <i>futures</i> and <i>options</i> exchange; or</p> <p style="margin-left: 2em;">(iii) making a price to other members of the same <i>futures</i> and <i>options</i> exchange; and</p> <p>(b) the performance of the <i>firm's</i> contracts must be guaranteed by and must be the responsibility of one or more of the clearing members of the same <i>futures</i> and <i>options</i> exchange.</p>
<i>long-term insurance business</i>	the business of <i>effecting</i> or <i>carrying out long-term insurance contracts</i> .
<i>long-term insurance business assets</i>	<p>assets of a <i>member</i> that are:</p> <p>(a) in a <i>premium trust fund</i> for <i>long-term insurance business</i>; or</p> <p>(b) <i>funds at Lloyd's</i> that are, for the time being, identified as available to meet <i>long-term insurance business liabilities</i> of the <i>member</i>.</p>
<i>long-term insurance business liabilities</i>	liabilities of a <i>member</i> that are attributable to his <i>long-term insurance business</i> .
<i>long-term insurance business syndicate</i>	a <i>syndicate</i> in which <i>members</i> carry on <i>long-term insurance business</i> .
<i>long-term insurance contract</i>	<p>(in accordance with article 3(1) of the <i>Regulated Activities Order</i> (Interpretation: general)) any <i>contract of insurance</i> within Part II of Schedule 1 to the <i>Regulated Activities Order</i> (Contracts of long-term insurance), namely:</p> <p>(a) <i>life and annuity</i> (paragraph I);</p> <p>(b) <i>marriage and birth</i> (paragraph II);</p> <p>(c) <i>linked long-term</i> (paragraph III);</p> <p>(d) <i>permanent health</i> (paragraph IV);</p> <p>(e) <i>tontines</i> (paragraph V);</p> <p>(f) <i>capital redemption</i> (paragraph VI);</p> <p>(g) <i>pension fund management</i> (paragraph VII);</p> <p>(g) <i>collective insurance</i> etc (paragraph VIII);</p> <p>(h) <i>social insurance</i> (paragraph IX).</p>
<i>long-term insurer</i>	an <i>insurer</i> with <i>permission</i> to <i>effect</i> or <i>carry out long-term insurance</i>

	<i>contracts.</i>
<i>lower required amount</i>	the lower required amount as defined in <i>LLD</i> 11.2.13R or <i>LLD</i> 11.2.14R.
<i>making arrangements with a view to transactions in investments</i>	<p>the <i>regulated activity</i>, specified in article 25(2) of the <i>Regulated Activities Order</i> (Arranging deals in investments), which is in summary: making arrangements with a view to a <i>person</i> who participates in the arrangements <i>buying, selling</i>, subscribing for or underwriting any of the following <i>investments</i> (whether as <i>principal</i> or agent):</p> <ul style="list-style-type: none"> (a) a <i>designated investment</i>; (b) the <i>underwriting capacity of a Lloyd's syndicate</i>; (c) <i>membership of a Lloyd's syndicate</i>; (d) <i>rights to or interests in investments</i> in (b) or (c).
<i>management accounts</i>	(in relation to a <i>UK recognised body</i>) accounts showing the actual and budgeted income and expenditure of that body over any period.
<i>manager</i>	<ul style="list-style-type: none"> (1) (in relation to an <i>AUT</i>) the <i>firm</i> which is the manager of the <i>AUT</i> in accordance with the <i>trust deed</i>. (2) (as defined in section 423(1) and (2) of the <i>Act</i> (Manager)) (except in relation to a <i>unit trust scheme</i> or a <i>registered friendly society</i>): <ul style="list-style-type: none"> (a) an employee who: <ul style="list-style-type: none"> (i) under the immediate authority of his employer, is responsible, either alone or jointly with one or more other individuals, for the conduct of his employer's business; or (ii) under the immediate authority of his employer or of a <i>person</i> who is a manager in accordance with (i) exercises managerial functions or is responsible for maintaining accounts or other records of his employer; (b) if the employer is not an individual, references in (a) to the authority of the employer are references to the authority: <ul style="list-style-type: none"> (i) in the case of a <i>body corporate</i>, of the directors; (ii) in the case of a <i>partnership</i>, of the partners; and (iii) in the case of an unincorporated association, of its officers or the members of its governing body. (3) (as defined in section 423(3) of the <i>Act</i> (Manager)) (in relation to a <i>body corporate</i>): <ul style="list-style-type: none"> (a) a <i>person</i> (other than an employee of the body) who is appointed by the body to manage any part of its business, including an employee of the <i>body corporate</i> (other than

	<p>the <i>chief executive</i>) who under the immediate authority of a director or <i>chief executive</i> of the <i>body corporate</i> exercises managerial functions or is responsible for maintaining accounts or other records of the <i>body corporate</i>;</p> <p>(b) for the purposes of (a) and in relation to a <i>body corporate</i> whose principal place of business is within the <i>United Kingdom</i>, the <i>chief executive</i> includes only a <i>person</i> who is an employee of the <i>body corporate</i> in accordance with section 417(1) of the <i>Act</i> (Definitions).</p>
<i>managing agent</i>	<p>(as defined in article 3(1) of the <i>Regulated Activities Order</i>) a <i>person</i> who is permitted by the <i>Council</i> in the conduct of his business as an <i>underwriting agent</i> to perform for a <i>member</i> one or more of the following functions:</p> <p>(a) underwriting <i>contracts of insurance</i> at Lloyd's;</p> <p>(b) reinsuring such contracts in whole or in part;</p> <p>(c) paying claims on such contracts.</p>
<i>managing investments</i>	<p>the <i>regulated activity</i>, specified in article 37 of the <i>Regulated Activities Order</i> (Managing investments), which is in summary: managing assets belonging to another <i>person</i> in circumstances which involve the exercise of discretion, if:</p> <p>(a) the assets consist of or include any <i>designated investment</i>; or</p> <p>(b) the arrangements for their management are such that the assets may consist of or include such <i>investments</i>, and either the assets have at any time since 29 April 1988 done so, or the arrangements have at any time (whether before or after that date) been held out as arrangements under which the assets would do so.</p>
<i>managing the underwriting capacity of a Lloyd's syndicate as a managing agent at Lloyd's</i>	<p>the <i>regulated activity</i>, specified in article 57 of the <i>Regulated Activities Order</i> (Managing the underwriting capacity of a Lloyd's syndicate), of managing the <i>underwriting capacity of a Lloyd's syndicate</i> as a <i>managing agent</i> at Lloyd's.</p>
<i>mandate rules</i>	COB 9.2.
<i>MAR</i>	the Market conduct sourcebook.
<i>margin</i>	<p>(in <i>CIS</i>) cash or other property paid, transferred or deposited under the terms of a <i>derivative</i>; for these purposes cash or property will be treated as having been paid, transferred or deposited if it must be paid, transferred or deposited in order to comply with a requirement imposed by the market on which the contract is made or traded.</p>
<i>margin of solvency</i>	<p>the excess of the value of an <i>insurer's</i> assets over the amount of its liabilities, that value and amount being determined in accordance with <i>IPRU(INS)</i> and <i>IPRU(FSOC)</i>.</p>

- margin* (in *CIS*) any contract in *derivatives*.
- margin* (1) (except in *COB 9.3*) a transaction *executed* by a *firm* with or for a *client* relating to a *future*, *option* or *contract for differences* (or any right to or any interest in such an *investment*) under the terms of which the *client* will or may be liable to provide cash or *collateral* to secure performance of obligations which he may have to perform when the transaction falls to be completed or upon the earlier *closing out* of his position.
- (2) (in *COB 9.3*):
- (a) a transaction within (1); or
- (b) an *option* purchased by a *client*, the terms of which provide that the maximum liability of the *client* in respect of the transaction will be limited to the amount payable as premium.
- mark-up or mark-down* (when a *firm* receives a *customer order* and takes a *principal* position in the relevant *investment* in order to fulfil that *customer order*) any difference between:
- (a) the price at which the *firm* takes a *principal* position in the relevant *investment*; and
- (b) the *price* at which the *firm* *executes* the transaction with its *customer*.
- market abuse* (in accordance with section 118 of the *Act* (Market abuse)) *behaviour* (whether by one *person* alone or by two or more *persons* jointly or in concert):
- (a) which occurs in relation to *qualifying investments* traded on a market to which section 118 of the *Act* applies (see *MAR 1* (Code of market conduct));
- (b) which satisfies any one or more of the conditions set out below: and
- (c) which is likely to be regarded by a *regular user* of that market who is aware of the *behaviour* as a failure on the part of the *person* or *persons* concerned to observe the standard of *behaviour* reasonably expected of a *person* in his or their position in relation to the *market*;
- the conditions are that:
- (i) the *behaviour* is based on information which is not generally available to those using the market but which, if available to a *regular user* of the market, would or would be likely to be regarded by him as relevant when deciding the terms on which transactions in *investments* of the kind in question should be effected;
- (ii) the *behaviour* is likely to give a *regular user* of the market a false or misleading impression as to the supply of, or demand for, or as to the price or value of, *investments* of the kind in question;

- (iii) a *regular user* of the market would, or would be likely to, regard the *behaviour* as *behaviour* which would, or would be likely to, distort the market in *investments* of the kind in question.
- market abuse regime* the regime established under the provisions of Part VIII of the *Act* (Penalties for market abuse).
- market contract* a market contract as described in section 155 of the Companies Act 1989 or article 80 of the Companies (No2) (Northern Ireland) Order 1990 which is in summary:
- (a) a contract entered into by a *member* or *designated non-member* of an *RIE* which is either:
- (i) a contract made on the exchange or an exchange to whose undertaking the exchange has succeeded; or
- (ii) a contract in the making of which the *member* or *designated on-member* was subject to the rules of the exchange or of an exchange to whose undertaking the exchange has succeeded;
- (b) a contract entered into by an *RIE* or *RCH* with one of its *members* for the purpose of enabling the rights and liabilities of that *member* under transactions in *investments* to be settled.
- market counterparty* (1) (except in *COB 3*) a *client* who is:
- (a) a properly constituted government (including a quasi-governmental body or a government agency) of any country or territory;
- (b) a central bank or other national monetary authority of any country or territory;
- (c) a supranational whose members are either countries or central banks or national monetary authorities;
- (d) a State investment body, or a body charged with, or intervening in, the management of the public debt;
- (e) another *firm*, or an *overseas financial services institution*, except in relation to *designated investment business*, and related *ancillary activities*, conducted with or for that *firm* or institution, when that *firm* or institution is an *intermediate customer* in accordance with *COB 4.1.7R* (Classification of another firm or an overseas financial services institution);
- (f) any *associate* of a *firm* (except an *OPS firm*), or of an *overseas financial services institution*, if the *firm* or institution consents;
- (g) a *client* when he is classified as a *market counterparty* in accordance with *COB 4.1.12R* (Large intermediate customer classified as a market counterparty);
- but excluding:

	(A) a <i>collective investment scheme</i> ; and
	(B) (except for the purposes of <i>DISP</i>) a <i>client</i> , who would otherwise be a <i>market counterparty</i> , when he is classified as a <i>private customer</i> in accordance with <i>COB 4.1.14R</i> (Client classified as private customer).
	(2) (in <i>COB 3</i>) a <i>person</i> in (1) and a <i>person</i> who would be such a <i>person</i> if he were a <i>client</i> .
<i>market maker</i>	(in relation to an <i>investment</i>) a <i>person</i> who (otherwise than in his capacity as the <i>operator</i> of a <i>regulated collective investment scheme</i>) holds himself out as able and willing to enter into transactions of sale and purchase in <i>investments</i> of that description at prices determined by him generally and continuously rather than in respect of each particular transaction.
<i>market value</i>	the market value as determined in accordance with <i>United Kingdom</i> generally accepted accounting practice.
<i>marketable investment</i>	<p>(a) an <i>investment</i> which is traded on or under the rules of an exchange;</p> <p>(b) a debt instrument which may be transferred without the consent of the <i>issuer</i> or any other <i>person</i> (including a collateralised mortgage obligation);</p> <p>(c) a <i>commodity</i>;</p> <p>(d) a <i>warrant</i>, <i>option</i>, <i>future</i> or other instrument which entitles the holder to subscribe for or acquire:</p> <p style="padding-left: 2em;">(i) an <i>investment</i> or <i>commodity</i> in (a) to (c); or</p> <p style="padding-left: 2em;">(ii) any currency; or</p> <p style="padding-left: 2em;">(iii) any combination of (i) and (ii);</p> <p>(e) a <i>contract for differences</i> (including interest rate and currency swaps) relating to fluctuations in:</p> <p style="padding-left: 2em;">(i) the value or price of an <i>investment</i> or <i>commodity</i> in (a) to (d); or</p> <p style="padding-left: 2em;">(ii) any currency; or</p> <p style="padding-left: 2em;">(iii) the rate of interest in any currency or any index of such rates; or</p> <p style="padding-left: 2em;">(iv) the level of any index which is derived from the prices of an <i>investment</i> or <i>commodity</i> in (a) to (c); or</p> <p style="padding-left: 2em;">(v) any combination of (i) to (iv);</p> <p>(f) <i>warrants</i>, <i>options</i>, <i>futures</i> or other instruments entitling the holder to obtain the rights of those contracts in (d) or (e);</p> <p>(g) a <i>unit</i> in a <i>regulated collective investment scheme</i>.</p>
<i>marketing</i>	(in <i>CIS</i>) (in relation to marketing <i>units</i> in a <i>regulated collective investment scheme</i> in a particular country or territory):

	<ul style="list-style-type: none"> (a) <i>communicating</i> to a <i>person</i> in that country or territory an invitation or inducement to become, or offer to become, a <i>holder</i> in that <i>authorised fund</i>; (b) <i>giving advice on investments</i> to, or <i>arranging (bringing about) a deal in an investment</i> for a <i>person</i> in that country or territory to become a <i>holder</i> in that <i>authorised fund</i>.
<i>marketing group</i>	<p>a group of <i>persons</i> who:</p> <ul style="list-style-type: none"> (a) are allied together (either formally or informally) for purposes of marketing <i>packaged products</i> of the marketing group; and (b) each of which, if it holds itself out in the <i>United Kingdom</i> as marketing <i>packaged products</i> to <i>private customers</i>, does so only as an <i>investment manager</i> or in relation to <i>packaged products</i> of the marketing group.
<i>marketing group associate</i>	a <i>firm</i> other than a <i>product provider</i> which is a member of a <i>marketing group</i> .
<i>marriage and birth</i>	(in relation to a <i>class of contract of insurance</i>) the <i>class of contract of insurance</i> , specified in paragraph II of Part II of Schedule 1 to the <i>Regulated Activities Order</i> (Contracts of long-term insurance), to provide a sum on marriage or on the birth of a child, being contracts expressed to be in effect for a period of more than one year.
<i>material interest</i>	<p>(in <i>COB</i>) (in relation to a transaction) any interest of a material nature, other than:</p> <ul style="list-style-type: none"> (a) disclosable <i>commission</i> on the transaction; (b) goods or services which can reasonably be expected to assist in carrying on <i>designated investment business</i> with or for <i>clients</i> and which are provided or to be provided under a <i>soft commission agreement</i>.
<i>material outsourcing</i>	<i>outsourcing</i> services of such importance that weakness, or failure, of the services would cast serious doubt upon the <i>firm's</i> continuing satisfaction of the <i>threshold conditions</i> or compliance with the <i>Principles</i> .
<i>mathematical reserves</i>	(in <i>LLD</i>) the provision made for a <i>member</i> to cover liabilities (excluding liabilities which have fallen due and liabilities arising from deposit back arrangements) arising under or in connection with <i>long-term insurance contracts</i> .
<i>maxi-ISA</i>	<p>an <i>ISA</i> which includes a <i>stocks and shares component</i> and may also include other <i>qualifying investments</i> such as:</p> <ul style="list-style-type: none"> (a) a <i>cash component</i>; (b) an <i>insurance component</i>; <p>as prescribed in paragraphs 7, 8 and 9 respectively of the <i>ISA Regulations</i>.</p>
<i>media firm</i>	a <i>firm</i> whose only <i>permitted activities</i> are <i>advising on investments</i> and <i>agreeing to carry on that regulated activity</i> , and whose <i>Part IV</i>

	<p><i>permission</i> includes <i>requirements</i> to the effect that the <i>firm</i> must advise:</p> <ul style="list-style-type: none"> (a) only through the media; and (b) without conveying the impression that the advice is particularly suitable for any <i>person</i>, except when it is given in response to a specific request for advice from that <i>person</i>; <p>in this definition, "media" means:</p> <ul style="list-style-type: none"> (i) newspapers, journals, magazines or other periodical publications; (ii) services comprising regularly updated news or information; (iii) services consisting of the broadcast or transmission of television or radio programmes.
<i>member</i>	<ul style="list-style-type: none"> (1) (except in <i>PROF</i>, <i>ENF</i> 18 and <i>REC</i>) a <i>person</i> admitted to membership of the <i>Society</i> or any <i>person</i> by law entitled or bound to administer his affairs. (2) (in <i>PROF</i> and <i>ENF</i> 18) (as defined in section 325(2) of the <i>Act</i> (Authority's general duty)) (in relation to a profession) a <i>person</i> who is entitled to practise that profession and, in practising it, is subject to the rules of the relevant <i>designated professional body</i>, whether or not he is a member of that body. (3) (in <i>REC</i>) (in relation to a <i>recognised body</i>) a <i>person</i> who is entitled, under an arrangement or agreement between him and that body, to use that body's <i>facilities</i>.
<i>member's margin</i>	the amount determined in accordance with <i>LLD</i> 11.3.1R (General insurance business) or <i>LLD</i> 11.3.4R (Long-term insurance business).
<i>members' adviser</i>	a <i>firm</i> whose <i>permission</i> includes <i>advising on syndicate participation at Lloyd's</i> , but which is not an <i>underwriting agent</i> .
<i>members' agent</i>	an <i>underwriting agent</i> who carries on the <i>regulated activity</i> of <i>advising on syndicate participation at Lloyd's</i> .
<i>membership of a Lloyd's syndicate</i>	the <i>investment</i> , specified in article 86(2) of the <i>Regulated Activities Order</i> , which is a <i>person's</i> membership (or prospective membership) of a Lloyd's <i>syndicate</i> .
<i>mini-ISA</i>	<p>an <i>ISA</i> which contains only one of the following <i>qualifying investments</i>:</p> <ul style="list-style-type: none"> (a) a <i>stocks and shares component</i>; (b) a <i>cash component</i>; (c) an <i>insurance component</i>; <p>as prescribed in paragraph 7, 8 or 9 respectively of the <i>ISA Regulations</i>.</p>
<i>minimum guarantee fund</i>	(in <i>LLD</i>) a minimum guarantee fund as defined in <i>IPRU(INS)</i> 2.9.

<i>minimum levy</i>	(in <i>DISP</i>) the fixed minimum <i>general levy</i> payable by a <i>firm</i> .
<i>miscellaneous financial loss</i>	<p>(in relation to a <i>class of contract of insurance</i>) the <i>class of contract of insurance</i>, specified in paragraph 16 of Part I of Schedule 1 to the <i>Regulated Activities Order</i> (General contracts of insurance), against any of the following risks:</p> <ul style="list-style-type: none"> (a) risks of loss to the <i>persons</i> insured attributable to interruptions of the carrying on of business carried on by them or to reduction of the scope of business so carried on; (b) risks of loss to the <i>persons</i> insured attributable to their incurring unforeseen expense (other than loss such as is covered by contracts within paragraph 18 of Part I of Schedule 1 to the <i>Regulated Activities Order</i> (Assistance)); (c) risks which do not fall within paragraphs (a) or (b) and which are not of such a kind that <i>contracts of insurance</i> against them fall within any other provision of Schedule 1 to the <i>Regulated Activities Order</i>.
<i>misleading statements and practices offence</i>	<p>any of the offences described in section 397 of the <i>Act</i> (Misleading statements and practices), which are in summary:</p> <ul style="list-style-type: none"> (a) the offence of: <ul style="list-style-type: none"> (i) making a statement, promise or forecast, which the <i>person</i> making the statement, promise or forecast knows to be misleading, false or deceptive in a material particular; or (ii) dishonestly concealing any material facts whether in connection with a statement, promise or forecast made by the <i>person</i> concealing the facts or otherwise; or (iii) recklessly making (dishonestly or otherwise) a statement, promise or forecast which is misleading, false or deceptive in a material particular; <p>where the <i>person</i> makes the statement, promise or forecast or conceals the facts for the purpose of inducing, or is reckless as to whether it may induce, another <i>person</i> (whether or not that <i>person</i> is the same <i>person</i> to whom the statement, promise or forecast is made):</p> <ul style="list-style-type: none"> (A) to enter or offer to enter into, or to refrain from entering or offering to enter into, a relevant agreement; or (B) to exercise, or refrain from exercising, any rights conferred by a relevant investment; (b) the offence of doing any act or engaging in any course of conduct which creates a false or misleading impression as to the market in or the price or value of any relevant investments where the act was done or the course of conduct engaged in for the purpose of creating that impression and of thereby inducing another <i>person</i> to acquire, dispose of, subscribe for or underwrite those

investments or to refrain from doing so, or to exercise, or refrain from exercising, any rights conferred by those investments;

in this definition:

"relevant agreement" means an agreement:

- (I) the entering into or performance of which by either party constitutes an activity of a kind specified in an order made by the Treasury or one which falls within a specified class of activity; and
- (II) which relates to a relevant investment;

"relevant investment" means an investment of a kind specified in an order made by the Treasury or one which falls within a class of investment prescribed in regulations made by the Treasury.

<i>mixed remittance</i>	a remittance that is part <i>client money</i> and part other <i>money</i> .
<i>ML</i>	the Money Laundering sourcebook.
<i>MLRO</i>	<i>money laundering reporting officer</i> .

	(b) (in relation to a <i>collective investment scheme</i> that is not an <i>authorised fund</i>) any part of that <i>scheme</i> that is equivalent to a <i>sub-fund</i> of an <i>umbrella scheme</i> .
<i>subsidiary</i>	(as defined in section 736 of the Companies Act 1985 ("Subsidiary", "holding company" and "wholly-owned subsidiary")) (in relation to another <i>body corporate</i> ("H")) a <i>body corporate</i> of which H is a <i>holding company</i> .
<i>subsidiary undertaking</i>	(1) (except for the purposes of determining whether a <i>person</i> has <i>close links</i> with another <i>person</i>) an <i>undertaking</i> of which another <i>undertaking</i> is its <i>parent undertaking</i> .
	(2) (for the purposes of determining whether a <i>person</i> has <i>close links</i> with another <i>person</i>) (in accordance with section 343(8) of the <i>Act</i> (Information given by auditor or actuary to the FSA) and paragraph 3(3) of Schedule 6 to the <i>Act</i> (Threshold conditions)):
	(a) an <i>undertaking</i> in (1);
	(b) an <i>undertaking</i> ("S") if:
	(i) another <i>undertaking</i> (its parent) is a member of S;
	(ii) a majority of S's board of directors who have held office during the financial year and during the preceding financial year have been appointed solely as a result of the exercise of the parent's voting rights; and
	(iii) no one else is the parent undertaking of S under any of (a) (i) to (iii) or b(i) or (ii) in the definition of

parent undertaking.

- suitability letter* a letter that must be provided to a *customer* under COB 5.3.14R (Requirement for a suitability letter) and that contains the information required by COB 5.3.16R.
- SUP* the Supervision manual.
- supervisory notice* (as defined in section 395(13) of the *Act* (The Authority's procedures)) a notice given by the *FSA* in accordance with section 53(4), (7) or (8)(b); 78(2) or (5); 197(3), (6) or (7)(b); 259(3), (8) or (9)(b); 268(3), (7)(a) or (9)(a) (as a result of subsection (8)(b)); 282(3), (6) or (7)(b); or 321(2) or (5).
- supplementary levy* (in *DISP*) a levy, additional to the *general levy*, for the purposes of recovering the *establishment costs*.
- suretyship* (in relation to a *class of contract of insurance*) the *class of contract of insurance*, specified in paragraph 15 of Part I of Schedule 1 to the *Regulated Activities Order* (Contracts of general insurance), namely:
- (a) a *contract of insurance* against the risks of loss to the *person* insured arising from their having to perform contracts of guarantee entered into by them;
 - (b) fidelity bonds, performance bonds, administration bonds, bail bonds or customs bonds or similar contracts of guarantee where these are:
 - (i) effected or carried out by a *person* not carrying on a banking business;
 - (ii) not effected merely incidentally to some other business carried on by the *person* effecting them; and
 - (iii) effected in return for the payment of one or more premiums.
- surrender value*
- (a) where the contract is a contract of life assurance or a contract for an annuity, the amount (including a nil amount) payable by the *firm* or other body issuing the contract on surrender of the *policy*;
 - (b) where the contract is a *pension contract*, the amount payable on the transfer of the investor's accrued rights under that contract to another *pension contract*;
 - (c) where the contract is a *Holloway sickness policy*, the amount payable by the *firm* on surrender on or before the *projection date* for the *policy*;
 - (d) where the contract is for any other matter, the amount payable by the *firm* on the surrender of the *policy*.
- Swiss general insurance company* a company:
- (a) whose head office is in Switzerland;
 - (b) which has permission in Switzerland (not restricted to reinsurance business) to carry on *general insurance business*; and

	(c) which proposes to establish a <i>branch</i> or agency in the <i>United Kingdom</i> to carry out <i>insurance business</i> which is confined to the classes referred to in article 2 of the <i>Swiss Treaty Agreement</i> and not subject to any of the exceptions referred to in article 3 of the <i>Swiss Treaty Agreement</i> .
<i>Swiss Treaty Agreement</i>	the agreement of 10 October 1989 between the European Economic Community and the Swiss Confederation on direct insurance other than life insurance, approved on behalf of the European Economic Community by the Council Decision of 20 June 1999 (No 91/390/EEC).
<i>syndicate</i>	one or more <i>persons</i> , to whom a particular syndicate number has been assigned by or under the authority of the <i>Council</i> , <i>carrying out</i> or <i>effecting contracts of insurance</i> written at Lloyd's.
<i>syndicate actuary</i>	an <i>actuary</i> appointed to a <i>syndicate</i> as required by LLD 10.9.4R(1).
<i>syndicate year</i>	a year of account of a <i>syndicate</i> .
<i>synthetic cash</i>	a position in a <i>derivative</i> that offsets an exposure in property to the point where that exposure has effectively been neutralised, and the effect of the combined holding of both property and the position in the <i>derivative</i> is the same as if the <i>authorised fund</i> had received or stood to receive the value of the property in cash.
<i>synthetic future</i>	(a) a synthetic bought future, that is, a bought call <i>option</i> coupled with a written put <i>option</i> ; or (b) a synthetic sold future, that is, a bought put <i>option</i> coupled with a written call <i>option</i> ; provided that in either case the two <i>options</i> : (i) are bought and written, whether simultaneously or not, on a single <i>eligible derivatives</i> market; (ii) relate to the same underlying <i>security</i> or other asset; (iii) give the purchasers of the <i>options</i> the same rights of exercise (whether at the same price or not); and (iv) will expire together, if not exercised.
<i>SYSC</i>	the part of the <i>Handbook</i> in High Level Standards which has the title Senior Management Arrangements, Systems and Controls.
<i>systems and controls function</i>	any of <i>controlled functions</i> 13 to 15 in the <i>table of controlled functions</i> .
<i>table of controlled functions</i>	the table of controlled functions in SUP 10.4.5R.
<i>takeover bid</i>	an offer, as the term is used in the <i>Takeover Code</i> , or any other similar conduct governed by that code.
<i>Takeover Code</i>	the City Code on Takeovers and Mergers issued by the <i>Takeover Panel</i> .

<i>takeover or related operation</i>	<ul style="list-style-type: none"> (a) any transaction falling within paragraph 4(b) (Companies and Transactions to which the Code applies) of the introduction to the <i>Takeover Code</i>; (b) any transaction subject to the <i>SARs</i>; (c) any transaction which would have fallen within (a) were it not for the fact that the company which is the subject of the transaction does not satisfy the tests set out in paragraph 4(a) (Companies and Transactions to which the Code applies) of the introduction to the <i>Takeover Code</i> and, for this purpose, an offer for non-voting, non-equity share capital is to be regarded as falling within the <i>Takeover Code</i> even if not required by rule 15 of that Code; (d) any transaction which would have been subject to the <i>SARs</i> but where the shares the subject of the transaction are in a company which does not satisfy the test of residency set out in the second and third paragraphs of Section 2 (Scope) of the Introduction to the <i>SARs</i>; (e) any offer, transaction or arrangement relating to the purchase of <i>securities</i> with a view to establishing or increasing a strategic holding of a <i>person</i>, or of a <i>person</i> together with his <i>associates</i>, in the <i>securities</i> concerned; (f) any transaction or arrangement entered into in contemplation or furtherance of any offer, transaction or arrangement falling within (a) to (e); and (g) any transaction or arrangement entered into by way of defence or protection against any offer, transaction or arrangement falling within (a) to (f) which has taken place or which is contemplated.
<i>Takeover Panel</i>	the Panel on Takeovers and Mergers.
<i>takeover promotion</i>	a <i>financial promotion</i> which is subject to the <i>Takeover Code</i> or has been exempted from complying with the <i>Takeover Code</i> by the rules of that Code or by a ruling of the <i>Takeover Panel</i> .
<i>tax exempt policy</i>	any contract of assurance, offered or issued by a <i>friendly society</i> , which is tax exempt life or endowment business as defined in section 466 (2) of the Income and Corporation Taxes Act 1988.
<i>TC</i>	the Training and Competence sourcebook.
<i>technical provision</i>	(in <i>LLD</i>) a technical provision as defined in the <i>insurance accounts rules</i> .
<i>terms of business</i>	a written statement, supplied to a <i>client</i> , of the terms on which a <i>firm</i> will conduct <i>designated investment business</i> with or for the <i>client</i> .
<i>Third Life Directive</i>	the Council Directive of 10 November 1992 on the coordination of laws, etc, and amending Directives 79/267/EEC and 90/619/EEC (No 92/96/EEC).
<i>Third Non-Life Directive</i>	the Council Directive of 18 June 1992 on the coordination of laws, etc, and amending Directives 73/239/EEC and 88/357/EEC (No

	92/49/EEC).
<i>threshold condition</i>	(in relation to a <i>regulated activity</i>) any of the conditions set out in or under Schedule 6 to the <i>Act</i> (Threshold conditions) (see <i>COND</i>).
<i>tontines</i>	(in relation to a <i>class of contract of insurance</i>) tontines as specified in paragraph V of Part II of Schedule 1 to the <i>Regulated Activities Order</i> (Contracts of long-term insurance).
<i>top-up cover</i>	cover provided by the <i>compensation scheme</i> for <i>claims</i> against an <i>incoming EEA firm</i> (which is a <i>BCD credit institution</i> or an <i>ISD investment firm</i>): <ul style="list-style-type: none"> (a) in relation to <i>protected deposits</i>; or (b) in relation to <i>protected investment business</i>; or (c) in relation to both <i>protected deposits</i> and <i>protected investment business</i>; and which is in addition to the cover provided by the <i>firm's Home State</i> compensation scheme.
<i>top-up permission</i>	a <i>Part IV permission</i> given to an <i>incoming EEA firm</i> , an <i>incoming Treaty firm</i> or a <i>UCITS qualifier</i> .
<i>traded life policy</i>	a <i>life policy</i> which is to be or has been assigned for value by the <i>policyholder</i> to another <i>person</i> .
<i>transaction</i>	(in <i>ML</i>) any transaction, including the giving of advice and any other business or service undertaken in the course of carrying on a <i>regulated activity</i> .
<i>transaction report</i>	a report of a <i>reportable transaction</i> which meets the requirements of <i>SUP 17.6.2R</i> (Transaction report: Content).
<i>transaction-specific advice</i>	<i>advice on investments</i> : <ul style="list-style-type: none"> (a) given in connection with dealing or arranging activities carried on by the <i>firm</i> that fall within <i>MAR 3.1.2(2)R</i>(a), (b) or (c); or (b) with a view to carrying on any such activities; with or for the <i>market counterparty</i> to whom the advice is given.
<i>transfer value analysis</i>	an analysis performed to make a comparison between the benefits which are likely (on reasonable assumptions) to be paid under an <i>occupational pension scheme</i> and the benefits afforded by a <i>personal pension contract</i> or a <i>pension buy-out contract</i> .
<i>transferable security</i>	(in <i>CIS</i>) a <i>security</i> that is not an <i>investment</i> excluded by <i>CIS 5.2.9R</i> (Transferable securities).
<i>transitional complaints scheme</i>	the arrangements made by the <i>FSA</i> for the investigation of complaints against the <i>FSA</i> and each of <i>PIA</i> , <i>IMRO</i> and <i>SFA</i> arising in connection with the carrying out of their functions under the Financial Services Act 1986 and the Banking Act 1987.
<i>Treaty</i>	the Treaty establishing the European Community.

<i>Treaty activity</i>	(as defined in section 417(1) of the <i>Act</i> (Definitions)) an activity carried on under a <i>permission</i> obtained in accordance with Schedule 4 to the <i>Act</i> (Treaty Rights).
<i>Treaty firm</i>	(as defined in paragraph 1 of Schedule 4 to the <i>Act</i> (Treaty Rights)) a <i>person</i> : <ul style="list-style-type: none"> (a) whose head office is situated in an <i>EEA State</i> (its "<i>Home State</i>") other than the <i>United Kingdom</i>; and (b) which is recognised under the law of that State as its national.
<i>Treaty right</i>	the entitlement of a <i>Treaty firm</i> to qualify for <i>authorisation</i> under Schedule 4 to the <i>Act</i> (Treaty Rights).
<i>Tribunal</i>	the <i>Financial Services and Markets Tribunal</i> .
<i>trust deed</i>	(in <i>CIS</i>) the deed referred to in <i>CIS</i> 2.2.5R (The trust deed for AUTs), together with any deed expressed to be supplemental to it, made between the <i>manager</i> and the <i>trustee</i> (or, in the case of a <i>recognised scheme</i> that is a <i>unit trust scheme</i> , the <i>instrument constituting the scheme</i> as amended from time to time).
<i>trust scheme rules</i>	<i>rules</i> in <i>CIS</i> made by the <i>FSA</i> under section 247(1) of the <i>Act</i> (Trust scheme rules) in relation to: <ul style="list-style-type: none"> (a) the constitution, management and operation of <i>AUTs</i>; (b) the powers, duties, rights and liabilities of the <i>manager</i> and <i>trustee</i> of any such <i>scheme</i>; (c) the rights and duties of the <i>participants</i> in any such <i>scheme</i>; and (d) the winding up of any such <i>scheme</i>.
<i>trustee</i>	(in accordance with section 237(2) of the <i>Act</i> (Other definitions)) (in relation to a <i>unit trust scheme</i>) the <i>person</i> holding the property in question on trust for the <i>participants</i> .
<i>trustee firm</i>	a <i>firm</i> which is not an <i>OPS firm</i> and which is acting as a: <ul style="list-style-type: none"> (a) trustee; or (b) personal representative.
<i>UCITS Directive</i>	the Council Directive of 20 December 1985 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) (No 85/611/EEC).
<i>UCITS qualifier</i>	a <i>firm</i> which: <ul style="list-style-type: none"> (a) for the time being is an <i>operator</i>, <i>trustee</i> or <i>depository</i> of a <i>scheme</i> which is a <i>recognised scheme</i> under section 264 of the <i>Act</i>; and (b) is an <i>authorised person</i> as a result of paragraph 1(1) of Schedule 5 to the <i>Act</i> (Persons Concerned in Collective Investment Schemes); <p>a reference to a <i>firm</i> as a <i>UCITS qualifier</i> applies in relation to the</p>

	carrying on by the <i>firm</i> of activities for which it has <i>permission</i> in that capacity.
<i>UCITS scheme</i>	an <i>authorised fund</i> which complies with the conditions necessary for it to enjoy the rights conferred by the <i>UCITS Directive</i> .
<i>UK</i>	<i>United Kingdom</i> .
<i>UK bank</i>	a <i>bank</i> which is a <i>body corporate</i> or <i>partnership</i> formed under the law of any part of the <i>United Kingdom</i> .
<i>UK domestic firm</i>	a <i>firm</i> that has its registered office (or, if it has no registered office, its head office) in the <i>United Kingdom</i> .
<i>UK firm</i>	(as defined in paragraph 10 of Schedule 3 to the <i>Act</i> (EEA Passport Rights)) a <i>person</i> whose head office is in the <i>United Kingdom</i> and who has an <i>EEA right</i> to carry on activity in an <i>EEA State</i> other than the <i>United Kingdom</i> .
<i>UK RCH</i>	an <i>RCH</i> that is not an <i>ROCH</i> .
<i>UK recognised body</i>	a <i>UK RIE</i> or <i>UK RCH</i> .
<i>UK RIE</i>	an <i>RIE</i> that is not an <i>ROIE</i> .
<i>UKLA</i>	(1) (except in relation to a part of the <i>Handbook</i>) the <i>FSA</i> acting in its capacity as the <i>competent authority</i> for the purposes of Part VI of the <i>Act</i> (Official Listing). (2) (in relation to a part of the <i>Handbook</i>) the United Kingdom Listing Authority sourcebook.
<i>ultimate parent undertaking</i>	(in relation to an <i>insurer</i>) a <i>parent undertaking</i> of the <i>insurer</i> that is not itself the <i>subsidiary undertaking</i> of another <i>undertaking</i> .
<i>umbrella</i>	(in <i>CIS</i>) a <i>collective investment scheme</i> under which the contributions of the <i>participants</i> in the <i>scheme</i> and the profits or income out of which payments are to be made to them are pooled separately in relation to separate parts of the <i>scheme property</i> .
<i>umbrella scheme</i>	(in <i>CIS</i>) an <i>authorised fund</i> that is an <i>umbrella</i> .
<i>unauthorised person</i>	a <i>person</i> who is not an <i>authorised person</i> .
<i>undertaking</i>	(as defined in section 259 of the Companies Act 1985 (Meaning of "undertaking" and related expressions)): (a) a <i>body corporate</i> or <i>partnership</i> ; or (b) an unincorporated association carrying on a trade or business, with or without a view to profit.

COB TR 1 Transitional Rules for pre-N2 and ex-Section 43 firms

1 Table

1.0		Application
1.1		These transitional provisions apply to: <ul style="list-style-type: none"> (a) <i>pre-N2 firms</i>; and (b) <i>ex-section 43 firms</i>.
2.0		Purpose
2.1	G	<p>The <i>FSA</i> is aware that the introduction of <i>COB</i> will impose an additional compliance burden on <i>firms</i>, even when there is an underlying continuity of policy. The <i>FSA</i> wishes to lighten that burden in a manner consistent with its regulatory objectives and the principles of good regulation under the <i>Act</i>. The following <i>rules</i> provide transitional relief which takes three distinct forms:</p> <ul style="list-style-type: none"> (a) extra time provisions (ETPs) which, in practice, give firms additional time after <i>commencement</i>, until 30 June 2002 (note that for <i>ex-section 43 firms</i>, the relief lasts until the expiry of 12 months following <i>commencement</i>), to complete their preparations for the impact of certain provisions in <i>COB</i>; (b) technical timing provisions (TTPs) which give relief from certain provisions in <i>COB</i> that require firms to fulfil obligations to customers at periodic intervals. TTPs postpone the impact of these provisions in <i>COB</i> in relation to periods that span N2; and (c) timeless (saving) provisions (TSPs) which give <i>firms</i> relief for an indefinite period after N2 from certain provisions in <i>COB</i> relating mainly to terms of business and client agreements <i>COB</i> 4.2 and from provisions in the <i>Handbook</i> generally (including <i>COB</i>) relating to client classification. TSPs allow <i>firms</i> to continue to use, or rely upon, documentation or compliance work that was undertaken in accordance with <i>previous regulator</i> rules in relation to existing <i>clients</i> at N2.
2.2	G	If a firm's permitted <i>regulated activities</i> are subject to one or more of the transitional provisions in <i>COB</i> , and were carried on before <i>commencement</i> , those <i>regulated activities</i> should be interpreted, where appropriate, as if they were authorised investment business before <i>commencement</i> .
2.3	G	<i>GEN</i> contains some technical transitional provisions that apply throughout the <i>Handbook</i> and which are designed to ensure a smooth transition at <i>commencement</i> . These include transitional provisions relevant to record keeping and notification rules.
2.4	G	For the avoidance of doubt, <i>TTPs 1, 2 and 3</i> at <i>COB</i> Table TR 2.1 to 2.4 override paragraph 9 (Time starting before commencement) of the technical timing provisions in <i>GEN</i> .
2.5	G	<i>SUP</i> contains transitional provisions, which carry forward written concessions relating to pre- <i>commencement</i> provisions.
3.0		Continuity of contracts

3.1	G	The <i>FSA</i> is sometimes asked whether a <i>firm</i> should re-negotiate contracts to replace references to its authorisation status or regulatory provisions made under predecessor legislation with references to its status or regulatory provisions made under the <i>Act</i> . Clearly, whether a <i>firm</i> should renegotiate its contracts is a matter for the <i>firm</i> , which needs to be considered in the light of the effect of the contractual provision as a whole. As a general rule, unless the <i>FSA</i> has made particular requirements relating to such matters, the <i>FSA</i> would not expect to see this done for regulatory reasons. <i>Firms</i> may wish to consider whether they need appropriate professional advice.
3.2	G	Clearly, the interpretation of contractual provisions is a matter for the courts. However, where a <i>firm</i> continues, as a result of the grandfathering process, to enjoy <i>permission</i> which provides it with authority under the <i>Act</i> to carry on <i>regulated activities</i> substantially similar to the investment business it could carry on under its authorisation under predecessor legislation, the <i>FSA</i> would be surprised if a court were to conclude that updating a contractual provision was necessary to enable it to give effect to the intentions of the parties to the contract.
4.0 Definitions		
4.1	R	<p>In these transitional provisions the following words are to have the meaning given to them below:</p> <p>”<i>corresponding rule</i>” means a <i>rule</i> of the <i>previous regulator</i> of a <i>firm</i> that is substantially similar in purpose and effect to the relevant provision in <i>COB</i>.</p> <p>”<i>section 43 business</i>” means activities in respect of which the <i>firm</i> would have been an exempted person under Section 43 of the Financial Services Act 1986.</p> <p>”<i>pre-N2 firm</i>” means:</p> <p>(a) a <i>firm</i> which immediately before <i>commencement</i> was authorised under the Financial Services Act 1986 to carry on investment business in the <i>United Kingdom</i> by virtue of its membership of:</p> <p>(i) <i>IMRO</i>;</p> <p>(ii) <i>PIA</i>; or</p> <p>(iii) <i>SFA</i>;</p> <p>(b) a <i>firm</i> which immediately before <i>commencement</i> held an authorisation granted directly by the <i>FSA</i> under the Financial Services Act 1986 to carry on investment business in the <i>United Kingdom</i> immediately before <i>commencement</i>; or</p> <p>(c) an <i>employee</i> of such a <i>firm</i> in (a) or (b), including any of its <i>appointed representatives</i> (as defined under section 44 of the Financial Services Act 1986);</p> <p>but does not include:</p> <p>(d) an <i>ex-RPB firm</i>; or</p> <p>(e) an <i>ex-section 43 firm</i> in relation to its section 43 business.</p> <p>”<i>transitional period</i>” means the period starting on <i>commencement</i> and finishing on midnight on 30 June 2002.</p>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.0	Extra time provisions				
1.1	ETP1	R	<p>Transitional Relief</p> <p>A pre-N2 firm will not contravene any of the provisions labelled ETP1 in Table COB TR 2 to the extent that, on or after commencement, it is able to demonstrate that it has complied with the corresponding rule of its previous regulator or, where applicable, the relevant former statutory requirement, subject to any modification, wherever appropriate, to take account of the passing of the Act.</p>	<i>commencement to 30 June 2002</i>	<i>commencement</i>
1.2	<p><i>ETPs 1 to 8</i></p> <p><i>TTPs 1 to 3</i></p> <p><i>TSPs 1 to 7</i></p>	G	<p>It is for a <i>pre-N2 firm</i> to satisfy itself that it has complied with the <i>corresponding rule</i> of its <i>previous regulator</i> or, where applicable, the relevant former statutory requirement. In order to benefit from the relief, a <i>firm</i> must ensure that the rule of its <i>previous regulator</i> which it proposes to comply with is substantially similar to the provision in <i>COB</i> to which it relates.</p> <p>For the assistance of <i>firms</i>, the <i>FSA</i> has compiled tables of derivations indicating the rules of a <i>firm's previous regulator</i> that correspond to the provision in <i>COB</i> being transitioned. <i>Firms</i> may wish to refer to these tables but in doing so should understand that they are not intended to be exhaustive and are produced merely as a guide.</p>	<p><i>commencement to 30 June 2002 for ETPs and TTPs;</i></p> <p><i>indefinitely for TSPs</i></p>	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.3	<p><i>ETPs 1 to 8</i></p> <p><i>TTPs 1 to 3</i></p> <p><i>TSPs 1 to 7</i></p>	G	<p><i>Firms</i> are advised that should they wish to take advantage of the transitional provisions set out in this section, the onus is on the <i>firm</i> to be able to demonstrate that in any given case it has in fact complied with the <i>corresponding rules</i> of its <i>previous regulator</i> or, as the case may be, the former statutory requirement.</p> <p><i>Firms</i> will have noted from the wording of COB TR11.1R that they should treat the <i>corresponding rules</i> of their <i>previous regulator</i> as modified to the extent necessary to ensure that the provision can operate effectively notwithstanding the enactment of the <i>Act</i>. <i>Firms</i> will need to adopt a common sense approach in interpreting the <i>corresponding rules</i> of their <i>previous regulator</i> and modify them accordingly. For example, references in such rules to a <i>firm's previous regulator</i> should be read as if they referred to the <i>FSA</i>. Other modifications may not be as straightforward, such as where the concept of an indirect <i>customer</i> is not carried forward under the new legislation. In cases of difficulty, <i>firms</i> are encouraged to approach the <i>FSA</i> for its views.</p>	<p><i>commencement</i> to 30 June 2002 for ETPs and TTPs;</p> <p>indefinitely for TSPs</p>	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.4	ETP2	R	<p><u>Financial Promotion</u></p> <p><i>A pre-N2 firm will not contravene any of the provisions labelled ETP2 in Table COB TR 2 to the extent that, on or after commencement, it communicates a non-real time financial promotion which, as to its content, complies with the corresponding rules of its previous regulator and which, for that purpose, had been approved by the firm as complying with them before commencement.</i></p>	<i>commencement to 30 June 2002</i>	<i>commencement</i>
1.5	ETP2	G	<p>(1) <i>Firms are reminded that under article 74 of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2001 a financial promotion which has been approved before commencement in accordance with pre-commencement provisions or the financial promotion rules may be communicated by an unauthorised person for one month from commencement.</i></p> <p>(2) <i>Firms should take reasonable steps to avoid communicating a non-real time financial promotion which, through the passage of time, has become misleading. In such circumstances the promotion is unlikely to be in compliance with the rules of its previous regulator.</i></p>	<i>commencement to 30 June 2002</i>	<i>commencement</i>
1.6	ETP3	R	<p><u>Client Classification</u></p> <p>(1) <i>This rule applies only in relation to a client of a pre-N2 firm which the firm had classified as an expert private customer before commencement.</i></p>	<i>commencement to 30 June 2002</i>	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.7	ETP3	G	<p>(2) A <i>pre-N2 firm</i> will not contravene any of the provisions labelled <i>ETP3</i> in Table <i>COB TR 2</i> to the extent that, on or after <i>commencement</i>, it complies with (3).</p> <p>(3) For the purpose of <i>COB 4.1</i>, a <i>pre-N2 firm</i> which before <i>commencement</i> has classified a <i>client</i> as an expert private customer in accordance with the <i>corresponding rules</i> of its <i>previous regulator</i>, must treat that <i>client</i> as:</p> <p style="padding-left: 40px;">(a) a <i>private customer</i>; or</p> <p style="padding-left: 40px;">(b) an <i>intermediate customer</i>;</p> <p>from <i>commencement</i> until the date of expiry of the <i>transitional period</i>, by which time it must classify the <i>client</i> in accordance with <i>COB 4.1</i>.</p>	<i>commencement</i> to 30 June 2002	<i>commencement</i>
1.8	ETP4	R	<p>(1) An <i>ex-section 43 firm</i> will not contravene any of the provisions labelled <i>ETP4</i> in Table <i>COB TR 2</i> in relation to its <i>section 43 business</i> to the extent that, on or after <i>commencement</i>, it complies with (2).</p>	<i>commencement</i> to <i>commencement</i> plus 12 months	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.9	ETP4	G	<p>(2) For the purposes of COB 4.1, an <i>ex-section 43 firm</i> may treat its <i>client</i> (other than another firm) who was a <i>client</i> of the firm before commencement as a market counterparty in relation to its section 43 business until the date of expiry of the transitional period, by which date it must classify the client in accordance with COB 4.1.</p> <p>An <i>ex-section 43 firm</i> that wishes to take advantage of the transitional relief provided by COB TR1 1.8(1) and (2) should continue to maintain the standard of care set out in paragraphs 31 to 37 of the London Code of Conduct (version June 1999) in relation to each of their clients. For these <i>clients</i>, the FSA will maintain the arbitration procedures set out in paragraph 120 of the London Code of Conduct for disputes arising during the <i>transitional period</i>.</p>	commencement to commencement plus 12 months	commencement
1.10	ETP 5	R	<p>Client Assets</p> <p>For the purposes of any of the provisions labelled ETP5 in Table COB TR 2, the following will apply from commencement until the date of expiry of the transitional period:</p> <p>(a) any reference in COB 9 to an approved bank must be treated as if it were a reference to an institution which satisfied the definition of “approved bank” under the corresponding rules of a firm’s previous regulator; and</p>	commencement to 30 June 2002	commencement

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.11	ETP6	R	<p>(b) any reference in <i>COB 9</i> to a <i>custodian</i> must be treated as if it were a reference to an institution which satisfied the definition of “custodian” under the <i>corresponding rules</i> of a firm’s <i>previous regulator</i>.</p> <p><u>Client money</u></p> <p>A <i>pre-N2 firm</i> need not comply with any of the provisions labelled <i>ETP6</i> in Table <i>COB TR 2</i> until the date of expiry of the <i>transitional period</i>.</p>	commencement to 30 June 2002	commencement
1.12	ETP7	R	<p><u>Client money</u></p> <p>An <i>ex-section 43 firm</i> need not comply with the provisions labelled <i>ETP7</i> in Table <i>COB TR 2</i> in relation to its section 43 business until the expiry of a period of 12 months following <i>commencement</i>, provided it continues to comply with the requirements of the Grey Paper (version June 1999), as published by the <i>FSA</i>, relating to the segregation of money and other assets belonging to counterparties.</p>	commencement to commencement plus 12 months	commencement
1.13	ETP8	R	<p><u>Information about the firm</u></p> <p>(1) Subject to (2), a <i>pre-N2 firm</i> or an <i>ex-section 43 firm</i> will not contravene any of the provisions labelled <i>ETP8</i> in Table <i>COB TR 2</i> in relation to any written material it has produced before <i>commencement</i> to the extent that, on or after <i>commencement</i>, it is able to demonstrate that it has provided information about itself, in any such material, in accordance with the <i>corresponding rule</i> of its <i>previous regulator</i>.</p>	<p>(<i>pre-N2 firms</i>): commencement to 30 June 2002</p> <p>(<i>ex-section 43 firms</i>): commencement to commencement plus 12 months</p>	commencement

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.14	<i>ETP8</i>	G	<p>(2) (1) does not apply to a <i>firm</i>'s appointed representative as defined under section 44(2) of the Financial Services Act 1986.</p> <p>The purpose of <i>COB TR2</i> 1.13R is to ensure that the <i>firm</i> does not incur unnecessary costs by having to withdraw or destroy written material produced before <i>commencement</i>. For the avoidance of doubt, where a <i>firm</i> prints a document on or after <i>commencement</i>, from a precedent held in electronic form, <i>ETP8</i> will apply.</p>	<p><i>(pre-N2 firms): commencement to 30 June 2002</i></p> <p><i>(ex-section 43 firms): commencement to commencement plus 12 months</i></p>	<i>commencement</i>
2.0					
2.1	<i>TTP1</i>	R	<p><u>Periodic disclosure of soft commission</u></p> <p>A <i>pre-N2 firm</i> will not contravene any of the provisions labelled <i>TTP1</i> in Table <i>COB TR 2</i> to the extent that it is able to demonstrate that, on or after <i>commencement</i>, it has made periodic disclosure required by <i>COB 2.2.18R</i> (Periodic disclosure), in relation to the period in which <i>commencement</i> falls, in accordance with the <i>corresponding rule</i> of its <i>previous regulator</i>.</p>	<i>commencement to expiry of the relevant period</i>	<i>commencement</i>
2.2	<i>TTP2</i>	R	<p><u>With-profits guides</u></p> <p>A <i>pre-N2 firm</i> will not contravene any of the provisions labelled <i>TTP2</i> in Table <i>COB TR 2</i> to the extent that it is able to demonstrate that, on or after <i>commencement</i>, it has produced, and made available, the with-profits guide required by <i>COB 6.9.4R</i> for the financial year in which <i>commencement</i> falls, in accordance with the <i>corresponding rule</i> of its <i>previous regulator</i>.</p>	<i>commencement to expiry of the relevant period</i>	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
2.3	TTP3	R	<p>Periodic statements</p> <p>A <i>pre-N2 firm</i> will not contravene any of the provisions labelled TTP3 in Table <i>COB TR 2</i> to the extent that it is able to demonstrate that, on or after <i>commencement</i>, it has provided its <i>customers</i> with a <i>periodic statement</i> required by <i>COB 8.2.4R</i> (Requirement for a periodic statement) for the period in which <i>commencement</i> falls, in accordance with the <i>corresponding rules</i> of its <i>previous regulator</i>.</p>	<i>commencement</i> to expiry of the relevant period	<i>commencement</i>
2.4	<i>TTP1, TTP2 and TTP3</i>	G	<p><i>Firms</i> should note that the technical timing provisions set out at <i>COB TR1 2.1</i> to <i>2.3R</i> operate on a one-off basis. Any future disclosure, with-profits guide or periodic statement relating to a period after the initial period in which <i>commencement</i> falls, will have to be made in accordance with the full requirements of the relevant provision in <i>COB</i> subject, wherever applicable, to the availability of other transitional relief.</p>	<i>commencement</i> to expiry of the relevant period	<i>commencement</i>
3.0	Timeless (saving) provisions				
3.1	TSP1	R	<p><u>Confirmation of compliance and approval</u></p> <p>A <i>pre-N2 firm</i> will not contravene any of the provisions labelled TSP1 in Table <i>COB TR 2</i> to the extent that it is able to demonstrate that, on or after <i>commencement</i>, it has carried out the confirmation exercise referred to in <i>COB 3.6.1R</i> (Confirmation of compliance), for an <i>investment advertisement</i> issued or approved before <i>commencement</i>, in accordance with the <i>corresponding rule</i> of its <i>previous regulator</i>.</p>	indefinitely	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3.2	TSP2	R	<p><u>Terms of business and client agreements</u></p> <p>(1) Subject to (2) and (3), a <i>pre-N2 firm</i> will not contravene any of the provisions in Table COB TR 2 labelled TSP2 to the extent that, on or after <i>commencement</i>, it is able to demonstrate that it has continued to use, or rely upon, <i>terms of business</i> (including a <i>client agreement</i>) given to, or made with, a <i>client</i> before the end of the <i>transitional period</i> in accordance with the <i>corresponding rule</i> of its <i>previous regulator</i>.</p> <p>(2) If the basis on which a <i>pre-N2 firm</i> conducts, or proposes to conduct, its <i>designated investment business</i> for a <i>client</i> changes after <i>commencement</i> in a way not contemplated by the original <i>terms of business</i> and where the original <i>terms of business</i> allow the <i>firm</i> to amend its terms without the <i>customer's</i> consent, the <i>firm</i> must provide the <i>client</i> with amended <i>terms of business</i> in accordance with COB 4.2.13R (Amendment of terms of business).</p>	indefinitely	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3.3	TSP2	G	<p>(3) A pre-N2 firm must take reasonable steps to ensure that a private customer to whom it has provided terms of business (including a client agreement) before commencement is notified in writing of the matters set out in COB 4.2.15E (2), (21) and (22) as soon as practicable after commencement.</p> <p>(1) <i>Firms</i> should note that COB 4.2 also benefits from an ETP1 as set out in COB TR1 1.1R. The purpose of this is to allow firms additional time, after commencement, to amend their terms of business for new clients taken on after N2.</p> <p>(2) Where a pre-N2 firm has started, but has not concluded, negotiating terms of business with a client before commencement, it may rely on COB TR 3.2(1)R even if the terms of business are not agreed until after commencement.</p> <p>(3) COB TR2 3.2(2)R does not require the firm to provide a client with amended terms of business where the change in the terms was contemplated in the original terms of business.</p> <p>(4) Further to Principle 7 (Communications with clients) of the FSA's Principles for Business, a firm should not refuse a customer's reasonable request for new terms of business to reflect the new regime applicable under the Act.</p>	indefinitely	commencement

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3.4	TSP3	R	<p><u>Know your customer and suitability</u></p> <p>(1) Subject to (2), a <i>pre-N2 firm</i> will not contravene any of the provisions labelled TSP3 in Table COB TR 2 to the extent that it is able to demonstrate that, on or after <i>commencement</i>, it has continued to use, or rely upon, a record of a <i>private customer's</i> personal and financial circumstances made in accordance with the <i>corresponding rules</i> of its <i>previous regulator</i>, and in doing so has had regard to the guidance set out in COB 5.2.6G.</p> <p>(2) The relief in (1) will apply only so long as there is no relevant change in the <i>customer's</i> personal and financial circumstances.</p>	indefinitely	<i>commencement</i>
3.5	TSP4	R	<p><u>Suitability and customers' understanding of risk</u></p> <p>A <i>pre-N2 firm</i> will not contravene any of the provisions labelled TSP4 in Table COB TR 2 to the extent that it is able to demonstrate that, on or after <i>commencement</i>, it uses, or relies upon, a <i>suitability letter</i> or, as the case may be, a risk warning or disclosure, given to a <i>customer</i> in accordance with the <i>corresponding rule</i> of its <i>previous regulator</i>, in relation to a transaction or <i>series of transactions executed or arranged</i> before the expiry of the <i>transitional period</i>.</p>	indefinitely	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3.6	<i>TSP4</i>	G	<i>Firms</i> should note that the requirements in <i>COB 5.2</i> and <i>COB 5.3</i> relating to the production of <i>suitability letters</i> and risk warnings also benefit from an <i>ETP1</i> provision.	indefinitely	<i>commencement</i>
3.7	<i>TSP5</i>	R	<p><u>Scheme documents for an unregulated collective investment scheme</u></p> <p><i>A pre-N2 firm that is an operator will not contravene any of the provisions labelled TSP5 in Table COB TR 2 to the extent that it is able to demonstrate that, on or after commencement, it has continued to use, or rely upon, a scheme document provided to a participant before the expiry of the transitional period, in accordance with the corresponding rule of its previous regulator.</i></p>	indefinitely	<i>commencement</i>
3.8	<i>TSP6</i>	R	<p><u>Notice and consents</u></p> <p><i>A pre-N2 firm will not contravene any of the provisions labelled TSP6 in Table COB TR 2 to the extent that it is able to demonstrate that, on or after commencement, it has continued to use or rely upon a valid notice given to, or valid notice or consent obtained from, a client or counterparty in accordance with the corresponding rule of its previous regulator or, where applicable, the relevant former statutory instrument, in relation to an investment agreement concluded before the expiry of the transitional period.</i></p>	indefinitely	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3.9	TSP7	R	<u>Cancellation</u> The Financial Services (Cancellation) Rules 1994 and the Financial Services (Non-Life Cancellation) Rules 1997 continue to apply in respect of investment agreements, as defined in section 44 (9) of the Financial Services Act 1986, entered into before commencement.	indefinitely	<i>commencement</i>
3.10	TSP7	G	COB 6.7 (Cancellation and withdrawal) applies in the case of an investment agreement entered into before commencement but which, on or after that date, is subsequently varied.	indefinitely	<i>commencement</i>

3 Table COB TR 2: Rules benefiting from transitional relief (pre-N2 and ex-section 43 firms)

This Table belongs to ■ COB TR 1.1 to ■ COB TR 3.10

1.1	Rules in the Handbook unless the contrary intention appears	R	<u>Client Classification</u> (1) This paragraph applies only to a <i>pre-N2 firm</i> and in relation to any person who became a <i>client of the firm</i> before commencement (in this rule referred to as an "existing client").	indefinitely	varies depending on the rule concerned

(1)	(2) Material to which the transitional provision applies: All rules in the Handbook	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
			<p>(2) If a <i>firm</i> before <i>commencement</i> classified an existing <i>client</i>, other than another <i>firm</i>, as a <i>market counterparty</i> in accordance with the rules of its <i>previous regulator</i>, it will not contravene a <i>rule</i> in the <i>Handbook</i> by treating the <i>client</i> as a <i>market counterparty</i>, unless (3) applies.</p> <p>(3) If the <i>client</i> in (2) has been classified as a <i>market counterparty</i> only in relation to a particular transaction or type of transaction, the <i>firm</i> must from <i>commencement</i> classify that <i>client</i> in accordance with <i>COB 4.1</i>.</p> <p>(4) If a <i>firm</i> before <i>commencement</i> classified an existing <i>client</i>, other than another <i>firm</i> or a <i>client</i> within <i>COB TR1 1.6</i>, as a non-private customer in accordance with the rules of its <i>previous regulator</i>, it will not contravene a <i>rule</i> in the <i>Handbook</i> by treating that <i>client</i> as an <i>intermediate customer</i>.</p>		

(1)	(2) Material to which the transitional provision applies: All rules in the Handbook	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
			<p>(5) The <i>firm</i> may, notwithstanding (4), classify the <i>client</i> in (4) as a <i>market counterparty</i> provided the <i>firm</i> complies with COB 4.1.12R(2) (Large intermediate customer classified as a market counterparty).</p> <p>(6) If a <i>firm</i> before commencement classified an existing client, other than another <i>firm</i>, as a <i>private customer</i> in accordance with the rules of its <i>previous regulator</i>, it will not contravene a rule in the Handbook by treating that <i>client</i> as a <i>private customer</i>.</p> <p>(7) The <i>firm</i> may, notwithstanding (6), classify the <i>client</i> in (6) as an <i>intermediate customer</i> provided the <i>firm</i> complies with COB 4.1.9R (Expert private customer classified as an intermediate customer).</p>		

(1)	(2) Material to which the transitional provision applies: All rules in the Handbook	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.2	Rules in the Handbook unless the contrary intention appears	G	<p>(8) If a firm before commencement classified an existing client, other than another firm, as an ordinary business investor in accordance with the rules of its previous regulator, it will not contravene a rule in the Handbook by treating that client as an intermediate customer.</p> <p>Firms should note that COB TR 3 1.1R does not require them to take positive steps to re-classify clients falling within the scope of the rule at N2 for the purposes of compliance with COB 4.1.4R (Requirement to classify). COB TR 3 1.1R has the effect of automatically re-classifying these clients except as otherwise stated.</p>	indefinitely	varies depending on the rule concerned
1.3	Rules in the Handbook unless the contrary indication appears	G	<p>There are no transitional rules regarding classification by a firm ("F") of a client who is a firm or overseas financial services institution ("C1"). In such cases the effect of COB 4.1.7R is that C1 will be a market counterparty of F, unless COB 4.1.7R(2), (3), (4) or (5) apply. If C1 wishes to be classified as an intermediate customer for inter-professional business from commencement, the requirement for agreement under COB 4.1.7R(2)(c) could, for example, be satisfied if:</p>	indefinitely	varies depending on the rule concerned

(1)	(2) Material to which the transitional provision applies: All rules in the Handbook	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.4	<i>Rules in the Handbook unless the contrary intention appears.</i>	G	<p>(a) C1 notifies F in writing that it wishes to be classified as an <i>intermediate customer</i> for that purpose and that F's agreement will be implied if F continues to do business with C1 after <i>commencement</i>; and</p> <p>(b) F has not notified C1 in writing that it does not agree to that classification.</p> <p>For the assistance of <i>firms</i>, the FSA has prepared a <i>client</i> classification mapping table, which explains the link between pre-N2 <i>client</i> categories and the <i>client</i> classification in COB. This is to be found in Annex E of the Policy Statement on Transitional Arrangements for the Conduct of Business Sourcebook issued in July 2001.</p>		
1.5	<i>Rules in the Handbook unless the contrary intention appears.</i>	F	<p>If a <i>firm</i> treats a <i>client</i> as a <i>private customer</i>, or as an <i>intermediate customer</i>, or as a <i>market counterparty</i> in accordance with COB TR1 1.6 or COB TR1 1.8, it will not contravene a <i>rule</i> in the <i>Handbook</i> by doing so.</p>		

Handbook Modules

COB TR4 Transitional Rules for ex-RPB firms

1 Table

1.0	Application
1.1	R This section applies to <i>firms</i> who are <i>ex-RPB firms</i> .
2.0	Purpose
2.1	G The <i>FSA</i> is aware that the introduction of <i>COB</i> will impose an additional compliance burden on <i>firms</i> , even where there is an underlying continuity of policy. The <i>FSA</i> wishes to lighten that burden in a manner consistent with its statutory objectives and the principles of good regulation under <i>the Act</i> . Transitional measures are being produced for parts of <i>COB</i> which take three distinct forms. First, <i>firms</i> are in practical terms being given additional time after the <i>commencement day</i> , until 30 November 2002, to complete their preparations for the impact of certain <i>COB</i> rules. Secondly, relief is being given in relation to certain rules that require <i>firms</i> to fulfil obligations to <i>customers</i> at periodic intervals, so as to postpone the impact of the <i>COB</i> provisions in relation to periods that span N2. Thirdly, <i>firms</i> are being given relief for an indefinite period after N2 for certain <i>COB</i> provisions so as to allow <i>firms</i> to continue to use, or rely upon, documentation or compliance work undertaken in accordance with rules of their <i>previous regulator</i> in relation to existing <i>customers</i> at N2.
2.2	G If a <i>firm's</i> permitted <i>regulated activities</i> are subject to one or more of the transitional provisions in <i>COB</i> , and were carried on before <i>commencement</i> , those <i>regulated activities</i> should be interpreted, where appropriate, as if they were authorised investment business before <i>commencement</i> .
2.3	G <i>GEN</i> contains some technical transitional provisions that apply throughout the Handbook and which are designed to ensure a smooth transition at <i>commencement</i> . These include transitional provisions relevant to record keeping and notification rules.
2.4	G For the avoidance of doubt, <i>TTP1</i> at COB TABLE TR4 2.1 overrides paragraph 9 (Time starting before <i>commencement</i>) of the technical timing provisions in <i>GEN</i> .
3.0	Continuity of contracts
3.1	G The <i>FSA</i> is sometimes asked whether a <i>firm</i> should renegotiate contracts to replace references to its authorisation status under predecessor legislation with reference to its status under the <i>Act</i> . Clearly, whether a <i>firm</i> should renegotiate its contracts is a matter for the <i>firm</i> which needs to be considered in the light of the effect of the contractual provision as a whole. As a general rule, however, the <i>FSA</i> would not expect to see this done for regulatory reasons.

3.2	G	Clearly, the interpretation of contractual provisions is a matter for the courts. However, where a <i>firm</i> continues, as a result of the grandfathering process, to enjoy <i>permission</i> which provides it with authority under the <i>Act</i> to carry on <i>regulated activities</i> substantially similar to the investment business it could carry on under its authorisation under predecessor legislation, the <i>FSA</i> does not view it as necessary to update the contractual provisions.
4.0	Definitions	
4.1	R	In these transitional provisions the following words are to have the meaning given to them below: "corresponding rule" means a rule of the previous regulator of a firm that is substantially similar in purpose and effect to the relevant provision in COB. "ex-RPB firm" means a firm which immediately before commencement was authorised under the Financial Services Act 1986 to carry on investment business in the United Kingdom by virtue of a certificate from a recognised professional body under section 16 of the 1986 Act.

2 Table COB Table TR4: COB Transitional Provisions (for ex-RPB firms)

(1)	(2)	(3)	(4)	(5)	(6)
	Material to which the transitional provision applies: The COB provisions in Table COB TR 5 with the label indicated		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
1.0	Extra time provisions				
1.1	ETP1	R	<p><u>Transitional Relief</u></p> <p>An <i>ex-RPB firm</i> will not contravene any of the provisions labelled ETP1 in Table COB TR to the extent that, on or after <i>commencement</i>, it is able to demonstrate that it has complied with the <i>corresponding rule</i> of its <i>previous regulator</i> or, where applicable, the relevant former statutory requirement, subject to any modification, wherever appropriate, to take account of the passing of the <i>Act</i>.</p>	<i>commencement to 30 November 2002</i>	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 5 with the label indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.2	<p><i>ETPs 1 to 3 (inclusive)</i></p> <p><i>TTP 1</i></p> <p><i>TSPs 1 to 4 (inclusive)</i></p>	G	<p>It is for an <i>ex-RPB firm</i> to satisfy itself that it has complied with the corresponding rule of its <i>previous regulator</i> or, where applicable, relevant former statutory requirement. In order to benefit from the relief, a <i>firm</i> must ensure that the rule of its <i>previous regulator</i> which it proposes to comply with is substantially similar to the COB provision to which it relates. For the assistance of <i>firms</i> the <i>FSA</i> has compiled tables of derivations indicating the rules of a <i>firm's previous regulator</i> that correspond to the <i>COB</i> provisions being transitioned. <i>Firms</i> may wish to refer to these tables but in doing so should understand that they are not intended as exhaustive and are produced merely by way of a guide. <i>Firms</i> are advised that should they wish to take advantage of the transitional measures set out in this section, the onus is on them to be able to demonstrate that in any given case they have in fact complied with the corresponding rules of their <i>previous regulators</i> or, as the case may be, former statutory requirement.</p>	<p><i>commencement to 30 November 2002 (for ETPs and TTPs)</i></p> <p>Indefinitely (for TSPs)</p>	<p><i>commencement</i></p>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 5 with the label indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.3	<p><i>ETPs 1 to 3 (inclusive)</i></p> <p><i>TTP 1</i></p> <p><i>TSPs 1 to 4 (inclusive)</i></p>	G	<p><i>Firms will have noted from the wording of COB TR 1.1 R that they should treat the corresponding rules of their previous regulator as modified to the extent necessary to ensure that the provision can operate effectively notwithstanding the enactment of the Act. Firms will need to adopt a common sense approach in interpreting the corresponding rules of their previous regulator and should modify them accordingly. For example, references in such rules to a firm's previous regulator should be read as if they referred to the FSA. Other modifications may not be as straightforward. In cases of difficulty, firms are encouraged to approach the FSA for its views.</i></p>	<p><i>commencement to 30 November 2002 (for ETPs and TTPs)</i></p> <p><i>Indefinitely (for TSPs)</i></p>	<i>commencement</i>
1.4	ETP2	R	<p><u>Financial Promotion</u></p> <p>(1) An ex-RPB firm will not contravene any of the provisions labelled ETP2 in Table COB TR2 to the extent that, on or after commencement, it communicates a financial promotion which, as to its content, complies with the corresponding rules of its previous regulator and which, for that purpose, had been approved by the firm as complying with them before commencement.</p>	<i>commencement to 30 November 2002</i>	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 5 with the label indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.5	ETP2	G	<p>(2) For the purposes of (1), a <i>financial promotion</i> will be treated as <i>approved by an ex-RPB firm</i> for the purposes of section 21 of the <i>Act</i> if, as to its content, it complies with the <i>corresponding rules of the firm's previous regulator</i> and, for that purpose, was <i>approved by the firm</i> as so complying with them before <i>commencement</i>.</p> <p><i>Firms</i> should take reasonable steps to avoid communicating a non-real time <i>financial promotion</i> which, through the passage of time, has become misleading. In such circumstances the promotion is unlikely to be in compliance with the rules of its <i>previous regulator</i>.</p>	<i>commencement to 30 November 2002</i>	<i>commencement</i>
1.6	ETP3	R	<p><u>Information about the firm</u></p> <p>(1) Subject to (2), an ex-RPB firm will not contravene any of the provisions labelled ETP3 in Table COB TR 4 in relation to any written material it has produced before <i>commencement</i> to the extent that, on or after <i>commencement</i>, it is able to demonstrate that it has provided information about itself, in any such material, in accordance with the <i>corresponding rule of its previous regulator</i>.</p> <p>(2) (1) does not apply to a firm's appointed representative as defined under section 44(2) of the Financial Services Act 1986.</p>	<i>commencement to 30 November 2002</i>	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 5 with the label indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.7	<i>ETP3</i>	G	The purpose of COB TR 1.6 R is to ensure that the <i>firm</i> does not incur unnecessary costs by having to withdraw or destroy written material produced before <i>commencement</i> . For the avoidance of doubt, where a <i>firm</i> prints a document on or after <i>commencement</i> from a precedent held in electronic form, ETP3 will apply.	<i>commencement to 30 November 2002</i>	
2.0	Technical timing provisions				
2.1	<i>TTP1</i>	R	<u>Periodic statements</u> An <i>ex-RPB</i> firm will not contravene any of the provisions labelled TTP1 in Table COB TR 4 to the extent that, on or after <i>commencement</i>, it is able to demonstrate that it has provided its <i>customers</i> with a periodic statement required by COB 8.2.4 R for the period in which <i>commencement</i> falls, in accordance with the corresponding rules of its previous regulator.	<i>commencement to 30 November 2002</i>	<i>commencement</i>
2.2	<i>TTP1</i>	G	<i>Firms</i> should note that the technical timing provisions set out at COB TR 2.1R operate on a one-off basis. Any future periodic statement relating to a period after the initial period in which <i>commencement</i> falls will have to be made in accordance with the full requirements of the relevant provision in COB.	<i>commencement to 30 November 2002</i>	<i>commencement</i>
3.0	Timeless (saving) provisions				

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 5 with the label indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3.1	TSP1	R	<p><u>Confirmation of compliance and approval</u></p> <p>An <i>ex-RPB firm</i> will not contravene any of the provisions labelled TSP1 in Table COB TR 4 to the extent that it is able to demonstrate that, on or after <i>commencement</i>, it has carried out the confirmation exercise referred to in COB 3.6.2 R (2), for an <i>investment advertisement</i> issued or approved before <i>commencement</i>, in accordance with the corresponding rule of its previous regulator.</p>	Indefinitely	<i>commencement</i>
3.2	TSP2	R	<p><u>Terms of business and customer agreements</u></p> <p>(1) Subject to (2) and (3), an <i>ex-RPB firm</i> will not contravene any of the provisions in Table COB TR 4 labelled TSP2 to the extent that, on or after <i>commencement</i>, it is able to demonstrate that it has continued to use, or rely upon, <i>terms of business</i> (including a client agreement) given to, or made with, a client in accordance with the corresponding rule of its previous regulator.</p> <p>(2) If the basis on which an <i>ex-RPB firm</i> conducts or proposes to conduct its <i>designated investment business</i> for a client changes after the <i>commencement day</i>, it must provide the <i>client</i> with amended <i>terms of business</i> in accordance with COB 4.2.13R.</p>	Indefinitely	<i>commencement</i>

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 5 with the label indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3.3	TSP2	G	<p>(3) An <i>ex-RPB firm</i> must take reasonable steps to ensure that a <i>private customer</i> to whom it has provided <i>terms of business</i> (including a <i>client agreement</i>) before commencement is notified in writing of the matters set out in COB 4.2.15E (21) and (22) as soon as practicable after commencement.</p> <p>(1) <i>Firms</i> should note that COB 4.2 also benefits from an <i>ETP1</i> extra-time provision as set out in COB TR 3.1R. The purpose of this is to allow firms additional time, after commencement, to amend their <i>terms of business</i> for new <i>clients</i> taken on after N2.</p> <p>(2) Where an <i>ex-RPB firm</i> has started, but not concluded, negotiating <i>terms of business</i> with a <i>client</i> before commencement, it may rely on COB TR 3.2(1) R even if the <i>terms of business</i> are not agreed until after commencement.</p> <p>(3) COB TR 3.2(2) R does not require the <i>firm</i> to provide a <i>client</i> with amended <i>terms of business</i> where the change in the terms was contemplated in the original <i>terms of business</i>.</p>	Indefinitely	commencement
3.4	TSP3	R	<u>Know your customer and suitability</u>	Indefinitely	commencement

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 5 with the label indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3.5	<i>TSP4</i>	R	<p>(1) Subject to (2), an <i>ex-RPB firm</i> will not contravene any of the provisions labelled TSP3 in Table <i>COB TR2</i> to the extent that it is able to demonstrate that, on or after <i>commencement</i>, it has continued to use, or rely upon, a record of a <i>private customer's</i> personal and financial circumstances made in accordance with the <i>corresponding rules</i> of its <i>previous regulator</i>, and in doing so has had regard to the guidance set out in <i>COB 5.2.6 G</i>.</p> <p>(2) The relief in (1) will only apply so long as there is no relevant change in the <i>customer's</i> personal and financial circumstances.</p> <p><u>Suitability and customers' understanding of risk</u></p> <p>An <i>ex-RPB firm</i> will not contravene any of the provisions labelled TSP4 in Table <i>COB TR2</i> to the extent that, on or after <i>commencement</i>, it uses, or relies upon, a suitability letter or, as the case may be, a risk warning or disclosure, given to a <i>customer</i> in accordance with the corresponding rule of its <i>previous regulator</i>, in relation to a transaction or <i>series of transactions executed or arranged prior to commencement</i>.</p>	Indefinitely	<i>commencement</i>
3.6	<i>TSP4</i>	G	<p><i>Firms</i> should note that the requirements in COB 5.2 and COB 5.3 relating to the production of suitability letters and risk warning also benefit from an <i>ETP1</i> provision.</p>	Indefinitely	<i>commencement</i>

Chapter 1

Application and general provisions

1.1 Application and Purpose

Application

1.1.1

G
/1

COB applies to every *firm* (except an *ICVC*) as specified in the remainder of this chapter.

Purpose

1.1.2

G
/1

The purpose of this chapter is to set out to whom, for what activities, and within what territorial limits the *rules*, *evidential provisions* and *guidance* in COB apply.

1.2 General application: who?

1.2.1

R

COB applies to every *firm*, except that:

/1

- (1) ■ **COB 9** (Client assets) does not apply to an *incoming EEA firm* with respect to its *passport activities*;
- (2) for a *UCITS qualifier* and a *service company*, only ■ **COB 3** (Financial promotion), and any provision of *COB* incorporated into ■ **COB 3** by reference, applies;
- (3) *COB* does not apply to an *ICVC*; and
- (4) *COB* does not apply to an *authorised professional firm* with respect to its *non-mainstream regulated activities* except for:
 - (a) ■ **COB 2.1** (Clear, fair and not misleading communication);
 - (b) ■ **COB 3** (Financial promotion); and
 - (c) the following provisions of ■ **COB 4.2** (Terms of business and client agreements with customers); ■ **COB 4.2.1** to ■ **COB 4.2.6**, ■ **COB 4.2.9** to ■ **COB 4.2.11** and ■ **COB 4.2.15(26)**.

1.2.2

G

A *UCITS qualifier* should be aware of the requirements of ■ **CIS 17.4** (Facilities in the United Kingdom).

/1

1.2.3

G

■ **COB 6.7** (Cancellation and withdrawal) confers rights on *customers* to rescind agreements with, or withdraw offers from, *firms* within a specified period.

/1

1.2.4

G

■ **COB 3** (Financial promotion) is available for nationals of *EEA States* (other than the *United Kingdom*) wishing to take advantage of article 36 of the *Financial Promotion Order*.

/1

1.2.5

G

Authorised professional firms should be aware of the following:

/1

- (1) *PROF 5.2* (Nature of non-mainstream regulated activities);
- (2) ■ **COB 3.1.5** (Authorised professional firms) and the exemption in article 55 of the *Financial Promotion Order* (Communications by members of professions) which applies in relation to *financial promotions* of *authorised professional firms* under ■ **COB 3.5.5(2)** (Exemptions); and
- (3) ■ **COB 4.2.3** which contains *guidance* for *authorised professional firms* on the provision of *terms of business*.

1.3 General application: what?

1.3.1

R

COB applies to *firms* with respect to the carrying on of:

/1

- (1) all *regulated activities* except to the extent that a provision of *COB* provides for a narrower application; and
- (2) *unregulated activities* to the extent specified in any provision of *COB*.

1.3.2

G

- (1) The approach in *COB* is to ensure that each *rule*, or, as appropriate, the *rules* in a section or part of a section, are applied to *firms* in respect of particular *regulated activities* or *unregulated activities* or, in the case of **■ COB 3** (Financial promotion), in relation to particular kinds of promotion.
- (2) Most of *COB* applies in relation to *regulated activities*, conducted by *firms*, which fall within the definition of *designated investment business*. In relation to *deposits*, *pure protection contracts* and *general insurance contracts*, *COB* has only limited application.
- (3) The scope of the *regulated activities* to which *COB* applies is determined by the description of the activity as it is set out in the *Regulated Activities Order*. Accordingly, a *firm* will not generally be subject to *COB* in relation to any aspect of its business activities which fall within an exclusion found in the *Regulated Activities Order*. The definition of *designated investment business* includes, however, activities within the exclusion from *dealing in investments as principal* in article 15 of the *Regulated Activities Order* (Absence of holding out etc).
- (4) *COB* has limited application to Lloyd's related activities as set out in Chapter XIII of Part II of the *Regulated Activities Order*. *Firms* are reminded of the provisions of **■ COB 12** (Lloyd's).
- (5) **■ COB 3** (Financial promotion) applies to a *firm* which *communicates* or *approves a financial promotion*, but see (6);
- (6) *Firms* are reminded that **■ COB 3** (Financial promotion) has limited application to a *firm* carrying on a *takeover or related operation*. (See **■ COB 3.2.4** and **■ COB 3.2.5(7)**)

Application for private customers, intermediate customers and market counterparties

1.3.3

G
/1

- (1) In *COB*, the term *customer* refers to *private customers* and *intermediate customers*, but not *market counterparties*. Where relevant, each of the provisions of *COB* makes clear whether it applies to activities carried on with or for *private customers*, *intermediate customers* or both.
- (2) ■ **COB 9 (Client assets)** also applies directly in respect of activities conducted with or for *market counterparties* as well as with or for *customers*. The term *client* is used in that chapter to refer both to *market counterparties* and to *customers*.

Inter-professional business

1.3.4

R
/1

Only the following provisions of *COB* apply with respect to the carrying on of *inter-professional business*:

- (1) **this chapter;**
- (2) ■ **COB 2.4 (Chinese walls);**
- (3) ■ **COB 4.1 (Client classification);**
- (4) ■ **COB 7.13 (Personal account dealing).**

1.3.5

G
/1

Firms are reminded that the definition of *inter-professional business* does not include:

- (1) the *approval* of a *financial promotion* - ■ **COB 3 (Financial promotion)** has a limited application in this context (see ■ **COB 3.2.4** and ■ **COB 3.2.5 (1)**);
- (2) *safekeeping and administration of assets* and *agreeing to carry on that activity* - ■ **COB 9 (Client assets)** will apply in this context (and will apply to the holding of *money* for *clients* in connection with *inter-professional business*);
- (3) offering, giving, soliciting or accepting inducements for the purpose of or in connection with activities falling within the scope of *COB* ■ **COB 2.2 (Inducements and soft commission)** will apply in this context.

1.4 General application: where?

- 1.4.1 **R** /1 The territorial scope of the application of *COB* to *firms* is set out in **■ COB 1.4.3** except for the application of **■ COB 3** (Financial promotion), which is set out in **■ COB 3.3** (Application: where?).
- 1.4.2 **G** /1 **■ COB 3.3** (Territorial scope) contains *rules* about the territorial scope of **■ COB 3** (Financial promotion).
- 1.4.3 **R** /1 Table This table sets out the application of *COB* with reference to the location of the carrying on of an activity by a firm. This table belongs to **■ COB 1.4.1**.

	Activity	Application of COB
(a)	An activity carried on from an establishment maintained by the <i>firm</i> (or by its <i>appointed representative</i>) in the <i>United Kingdom</i>	<i>COB</i> applies in full
(b)	An activity carried on: <ul style="list-style-type: none"> • otherwise than in (a); and • with or for a <i>client</i> in the <i>United Kingdom</i> 	Where, if the office from which the activity is carried on were a separate <i>person</i> , the activity: <ul style="list-style-type: none"> • would fall within the <i>overseas persons</i> exclusions in article 72 of the <i>Regulated Activities Order</i>; or • would not be regarded as carried on in the <i>United Kingdom</i>; then only the following apply: <ul style="list-style-type: none"> • <i>COB 5.5.7R</i> and <i>COB 5.5.8R</i> (Overseas business);

	Activity	Application of COB
(c)	An activity carried on by a <i>UK firm</i> from a <i>branch</i> in another <i>EEA State</i> under an <i>EEA right</i>	<ul style="list-style-type: none"> • <i>COB 6.5, COB 6.7 and COB 6.8 (Content of key features, Cancellation and withdrawal, Insurance contracts – life and general) but only in relation to long term insurance business carried on with a customer habitually resident in the United Kingdom</i> <p>Otherwise, <i>COB</i> applies in full</p> <p>Only the following apply:</p> <ul style="list-style-type: none"> • for an <i>ISD investment firm (including a credit institution which is an ISD investment firm), COB 9 (Client assets); and</i> • if relevant, the provisions in (b)
(d)	An activity carried on otherwise than in (a), (b) or (c)	<p>Only the following apply;</p> <ul style="list-style-type: none"> • <i>COB 5.5.7 and COB 5.5.8 (Overseas business);</i> • <i>COB 6.5, COB 6.7 and COB 6.8 (Content of key features, Cancellation and withdrawal, Insurance contracts – life and general) but only in relation to long term insurance business carried on with a customer habitually resident in the United Kingdom</i>

1.5 Application to Occupational pension scheme firms (□OPS firms')

1.5.1

R

/1

In the case of *OPS activity* undertaken by an *OPS firm*, *COB* applies with the following general modifications:

- (1) references to *customer* are to the *OPS* or *welfare trust*, whichever fits the case, in respect of which the *OPS firm* is acting or intends to act, and with or for the benefit of which the relevant activity is to be carried on; and
- (2) where an *OPS firm* is required by any *rule* in *COB* to provide information to, or obtain consent from, a *customer*, that *firm* must ensure that the information is provided to, or consent obtained from, each of the trustees of the *OPS* or *welfare trust* in respect of which that *firm* is acting, unless the context requires otherwise.

1.6 Application to stock lending activity, corporate finance business and oil market participants

Stock lending activity

1.6.1 **R** In respect of any *stock lending activity* undertaken with or for a
/1 *customer* by a *firm*, only those provisions of COB in ■ COB 1.6.2 apply.

1.6.2 **R** Table Stock lending activity.
/1 This table belongs to ■ COB 1.6.1

COB	Subject
Chapter 1	Application and general provisions
2.1	Clear, fair and not misleading communication
2.2	Inducements and soft commission
2.3	Reliance on others
2.4	Chinese walls
2.5	Exclusion of liability
4.1	Client classification
4.2	Terms of business and client agreements with customers
5.3	Suitability
5.4	Customers' understanding of risk
5.5	Information about the firm
5.7	Disclosure of charges, remuneration and commission
7.1	Conflict of interest and material interest

5.4	Customers' understanding of risk
7.1	Conflict of interest and material interest
7.12	Customer order and execution records
7.13	Personal account dealing
Chapter 9	Client assets

1.6.5 **G** *Firms* should, when relevant, make reference to ■ MAR 4 (Endorsement of the
/1 Takeover Code). The effect of this endorsement in ■ MAR 4, is that, should a *firm* to whom the endorsement applies fail to comply with the City Code on Takeovers and Mergers ('*Takeover Code*'), the Rules Governing Substantial Acquisition of Shares ('*SARs*') or rulings or requirements made by the *Takeover Panel*, the *Takeover Panel* can request the *FSA* to take enforcement action against that *firm*.

Oil market participants

1.6.6 **R** In respect of *oil market activity* undertaken by an *oil market*
/1 *participant*, only those provisions of COB in ■ COB 1.6.7 apply.

1.6.7 **R** Table Oil market participants

7.1	Conflict of interest and material interest
7.3	Dealing ahead
8.1	Confirmation of transactions
Chapter 9	Client assets

1.7 Appointed representatives

1.7.1

G
/1

- (1) Although COB does not apply directly to a *firm's appointed representatives*, a *firm* will always be responsible for the acts and omissions of its *appointed representatives* in carrying on business for which the *firm* has accepted responsibility (section 39(3) of the *Act*). In determining whether a *firm* has complied with any provision of COB, anything done or omitted by a *firm's appointed representative* (when acting as such) will be treated as having been done or omitted by the *firm* (section 39(4) of the *Act*).
- (2) *Firms* should also refer to ■ SUP 12 (Appointed representatives), which sets out requirements which apply to *firms* using *appointed representatives*.

1.8 Application to electronic media

1.8.1

G
/1

■ GEN 2.2.14 (References to writing) has the effect that electronic media may be used to make communications that are required by the *Handbook* to be 'in writing' unless a contrary intention appears.

Additional guidance in respect of electronic communication with or for customers

1.8.2

G
/1

For any electronic communication with a *customer*, a *firm* should:

- (1) have in place appropriate arrangements, including contingency plans, to ensure the secure transmission and receipt of the communication; it should also be able to verify the authenticity and integrity of the communication; the arrangements should be proportionate and take into account the different levels of risk in a *firm's* business;
- (2) be able to demonstrate that the *customer* wishes to communicate using this form of media; and
- (3) if entering into an agreement, make it clear to the *customer* that a contractual relationship is created that has legal consequences.

1.8.3

G
/1

Firms should note that ■ GEN 2.2.14 does not affect any other legal requirement that may apply in relation to the form or manner of executing a *document* or agreement.

Chapter 2

2

Rules which apply to all
firms conducting
designated investment
business

2.1 Clear, fair and not misleading communication

Application

- 2.1.1** **R**_{/1} (1) This section applies to a *firm* when it communicates information to a *customer* in the course of, or in connection with, its *designated investment business*.
- (2) This section does not apply to a *firm* when it communicates a *financial promotion* in circumstances in which **■ COB 3** (Financial promotion) applies to the *firm*.

Purpose

- 2.1.2** **G**_{/1} The purpose of this section is to restate, in slightly amended form, and as a separate *rule*, the part of *Principle 7* (Communications with clients) that relates to communication of information. This enables a *customer*, who is a *private person*, to bring an action for damages under section 150 of the *Act* to recover loss resulting from a *firm* communicating information, in the course of *designated investment business*, in a way that is not clear or fair, or is misleading.

Clear, fair and not misleading communication

- 2.1.3** **R**_{/1} When a *firm* communicates information to a *customer*, the *firm* must take reasonable steps to communicate in a way which is clear, fair and not misleading.
- 2.1.4** **G**_{/1} When considering the requirements of **■ COB 2.1.3**, a *firm* should have regard to the *customer's* knowledge of the *designated investment business* to which the information relates.
- 2.1.5** **G**_{/1} **■ COB 2.1** embraces all communications with *customers*, for example: *client agreements*, *periodic statements*, financial reports, telephone calls and any correspondence which is not a *financial promotion* to which **■ COB 3** (Financial promotion) applies. *Firms* should note the requirements of **■ COB 3.8.4** relating to *non-real time financial promotions* and **■ COB 3.8.22** relating to *real time financial promotions*.

2.2 Inducements and soft commission

Application

- 2.2.1 **R** This section applies to a *firm* that conducts *designated investment business* with or for a *customer*.
/1

Purpose

- 2.2.2 **G** *Principles* 1 and 6 require a *firm* to conduct its business with integrity, to pay due regard to the interests of its *customers* and to treat them fairly. The purpose of this section is to ensure that a *firm* does not conduct business under arrangements that might give rise to a conflict with its duty to *customers*.
/1

Prohibition of inducements

- 2.2.3 **R** A *firm* must take reasonable steps to ensure that it, and any *person* acting on its behalf, does not:
/1

- (1) offer, give, solicit or accept an inducement; or
- (2) direct or refer any actual or potential item of *designated investment business* to another *person* on its own initiative or on the instructions of an *associate*;

if it is likely to conflict to a material extent with any duty that the *firm* owes to its *customers* in connection with *designated investment business* or any duty which such a recipient *firm* owes to its *customers*.

- 2.2.4 **G** The purpose of ■ COB 2.2.3(2) is to prevent the requirement in ■ COB 2.2.3(1) being circumvented by an inducement being given or received by an unregulated *associate*. A *firm* may be able to demonstrate that it could not reasonably have knowledge of an *associate* giving or receiving an inducement. It should not, however, direct business to another *person* on the instruction of an *associate* if this is likely to conflict with the interests of its *customers*.
/1

Restriction in connection with the sale of packaged products

2.2.5

- (1) A *firm* should not enter into any of the following arrangements with an *independent intermediary* in relation to the sale of a *packaged product* if any *commission* is required to be disclosed to a *customer* under ■ COB 6.2 (Provision of key features):
- (a) volume overrides, if *commission* paid in respect of several transactions is more than a simple multiple of the *commission* payable in respect of one transaction of the same kind;
 - (b) an arrangement to pay *commission* that is increased in excess of the amount disclosed to the *customer*, unless the increase is attributable to an increase in the *premiums* or contributions payable by that *customer*;
 - (c) an agreement to indemnify the payment of *commission* on terms that would or might confer an additional financial benefit on the recipient in the event of the *commission* becoming repayable;
 - (d) an arrangement to pay *commission* other than to the *firm* responsible for the sale, unless:
 - (i) the *firm* responsible for the sale has passed on its right to receive the *commission* to the recipient; or
 - (ii) another *firm* has given *advice on investments* to the same *customer* after the sale; or
 - (iii) the *firm* is a *provider firm*, the recipient is an *independent intermediary* and the *commission* is paid following the sale of a *packaged product* by the *provider firm* in response to a *direct offer financial promotion* communicated by that *firm* to a *customer* of the *independent intermediary*.
- (2) Contravention of (1) may be relied upon as tending to establish contravention of ■ COB 2.2.3.

Packaged products – guidance on indirect benefits

2.2.6

- (1) The FSA will not regard a *firm* as being in contravention of ■ COB 2.2.3 if it gives or receives any of the following indirect benefits, providing they do not conflict with the duties that the recipient owes to his *customer*:
- (a) gifts, hospitality and promotional competition prizes of a reasonable value;
 - (b) business leads channelled toward a particular *independent intermediary* provided that the *independent intermediary* is an *associate* and complies with the requirements of ■ COB 5.3.9 (Requirement for suitability: independent intermediary);

- (c) assistance in conducting the Review of past business in pension transfers and opt-outs.
- (2) A *product provider* may assist an *independent intermediary* to promote its *packaged products* so that the quality of their service to *customers* is enhanced. Such assistance should not be of a kind or value that is likely to impair an *independent intermediary's* ability to act independently, and to give advice on, and recommend, *packaged products* available from the market as a whole. The *independent intermediary* should be mindful of the requirements of ■ COB 5.3.9 (Requirement for suitability: independent intermediary).
- (3) In relation to the sale of *packaged products*, ■ COB 2.2.7 indicates the kind of benefits which, in the FSA's view, a *firm* can give and receive without contravening ■ COB 2.2.3.

2.2.7

G

Table Reasonable indirect benefits – joint marketing exercises
This Table belongs to ■ COB 2.2.6.

/1

Reasonable indirect benefits	
Joint marketing exercises	
1	A <i>provider firm</i> may provide generic product literature (that is, letterheading, leaflets, forms and envelopes) that is suitable for use and distribution by or on behalf of an <i>independent intermediary</i> if: <ul style="list-style-type: none"> (a) the literature does not feature the <i>independent intermediary's</i> name or features it less prominently than that of the <i>provider firm</i> and is not used to promote the <i>independent intermediary's broker fund</i> service; and (b) the total costs (for example, packaging, posting, mailing lists) of distributing such literature to its <i>customers</i> is borne by the <i>independent intermediary</i>.
2	A <i>provider firm</i> may supply an <i>independent intermediary</i> with 'freepost' envelopes, for forwarding such items as completed applications, medical reports or copy <i>client agreements</i> , when these are made generally available to all <i>independent intermediaries</i> from whom the <i>firm</i> obtains business.
3	A <i>provider firm</i> may supply product specific literature (for example, <i>key features</i> , minimum information, <i>direct offer financial promotions</i>) to an <i>independent intermediary</i> if: <ul style="list-style-type: none"> (a) the literature is not designed to be used to promote the <i>independent intermediary's broker fund</i> service; or (b) the literature does not contain the name of any <i>independent intermediary</i>; or (c) the name of the <i>independent intermediary</i> is only overprinted on the literature and the <i>provider firm's</i> name appears on the literature more prominently than that of the <i>independent intermediary</i>.
4	A <i>provider firm</i> may supply draft articles, news items and <i>financial promotions</i> for publication in an <i>independent intermediary's</i> magazine, only if in each case any costs paid by the <i>provider firm</i> for placing the articles and <i>financial promotions</i> are not more than market rate, and exclude distribution costs. Seminars and conferences
5	A <i>provider firm</i> may take part in a seminar organised by an <i>independent intermediary</i> or a third party and may pay toward the cost of the seminar, if: <ul style="list-style-type: none"> (a) its participation is for a genuine business purpose; (b) the contribution is reasonable and proportionate; and (c) in the case of a seminar organised by a third party, the seminar is open to participation by <i>independent intermediaries</i> generally.

Reasonable indirect benefits	
Joint marketing exercises	
	Technical services and information technology
6	A <i>provider firm</i> may supply a ‘freephone’ link to which it is connected only if it is available to <i>independent intermediaries</i> generally.
7	A <i>provider firm</i> may supply an <i>independent intermediary</i> with any of the following: <ul style="list-style-type: none"> (a) quotations and <i>projections</i> relating to its <i>packaged products</i> and, in relation to specific <i>investment</i> transactions (or for the purpose of any scheme for review of past business), advice on the completion of forms or other <i>documents</i>; (b) access to data processing facilities, or access to data, that is related to the <i>provider firm’s</i> business; (c) access to third party electronic dealing or quotation systems that are related to the <i>provider firm’s</i> business; and (d) software that gives information about the <i>provider firm’s packaged products</i> or which is appropriate to its business (for example, for use in a scheme for review of past business or for producing <i>projections</i> or technical product information).
8	A <i>provider firm</i> may supply a <i>broker fund adviser</i> (and its <i>customer</i>) with a <i>periodic statement</i> relating to the relevant <i>broker fund</i> if the <i>broker fund adviser</i> is unable to supply the <i>periodic statement</i> .
9	A <i>provider firm</i> may supply an <i>independent intermediary</i> with information about sources of mortgage finance.
10	A <i>provider firm</i> may supply an <i>independent intermediary</i> with generic technical information in writing, not necessarily related to the <i>provider firm’s</i> business, when this information: <ul style="list-style-type: none"> (a) is made available generally to <i>independent intermediaries</i>; or (b) <ul style="list-style-type: none"> (i) is of a specialist nature and is made available to a particular class of <i>independent intermediary</i> (that is, one that promotes itself as an expert in the same specialist area); and (ii) states clearly and prominently that it is produced by the <i>provider firm</i>.
	Training
11	A <i>provider firm</i> may provide an <i>independent intermediary</i> with training facilities of any kind (for example, lectures, venue, written material and software) only if these are made available generally to all <i>independent intermediaries</i> .
	Travel and accommodation expenses
12	A <i>provider firm</i> may reimburse an individual <i>independent intermediary’s</i> reasonable travel and accommodation expenses when the <i>independent intermediary</i> : <ul style="list-style-type: none"> (a) participates in market research conducted by or for the <i>provider firm</i>; (b) attends an annual national event of a <i>UK</i> trade association, hosted or co-hosted by the <i>provider firm</i>; (c) participates in the <i>provider firm’s</i> training facilities (see 11); (d) visits the <i>provider firm’s UK</i> office in order to: <ul style="list-style-type: none"> (i) receive information about the <i>provider firm’s</i> administrative systems; or (ii) attend a meeting with the <i>provider firm</i> and an existing or prospective <i>customer</i> of the <i>independent intermediary</i>.

Requirements when using a soft commission agreement

2.2.8

R

/1

A *firm* must not deal in investments as agent for a customer, either directly or indirectly, through any broker, under a soft commission agreement, unless:

- (1) the agreement is a written agreement for the supply of goods or services described in ■ COB 2.2.12 which do not take the form of, or include, cash or any other direct financial benefit;
- (2) the broker has agreed to provide best execution to the *firm*;
- (3) the *firm* has taken reasonable steps to ensure that the terms of business and methods by which services will be supplied by the broker do not involve any potential for comparative price disadvantage to the *customer*;
- (4) for transactions in which the broker acts as *principal*, the *firm* has taken reasonable steps to ensure that *commission* paid under the agreement will be sufficient to cover the value of the goods or services to be received and the costs of execution; and
- (5) the *firm* makes adequate prior and periodic disclosure to the *customer* in accordance with ■ COB 2.2.16 and ■ COB 2.2.18.

2.2.9

G

/1

When the soft commission broker is part of an 'integrated house', a *firm* may be able to meet the requirements of ■ COB 2.2.8(4) if it is able to monitor the individual transaction prices obtained by the broker, and has taken reasonable steps to ensure that the broker has complied with its best execution obligation. Alternatively, a *firm* should select a soft commission broker who is able to demonstrate independence of action in the market place. This is unlikely to be fulfilled when that broker deals exclusively with one *market maker*.

2.2.10

G

/1

When a broker is only partly remunerated by *commission*, in complying with ■ COB 2.2.8(4) a *firm* should take reasonable steps to ensure that the *commission* element that should be disclosed constitutes the greater part of that broker's remuneration. A broker *firm* should also set its multiple at a level which it can demonstrate would generate sufficient *commission* income from softing transactions to cover the costs of the goods and services provided, and the costs of dealing and settling the associated transactions, together with the specialised softing administration. When considering whether the *commission* is sufficient to cover the costs of the services provided, the broker *firm* may have regard to the aggregate number of bargains transacted rather than each individual transaction.

2.2.11

G

/1

Although 'commission recapture' and 'directed commission' arrangements are not covered by ■ COB 2.2.8, a *firm* should have regard to the prohibition on inducements in ■ COB 2.2.3.

Allowable benefits provided under a soft commission agreement

2.2.12

R

/1

A *firm* may accept goods or services supplied under a soft *commission agreement*, and these goods or services will not constitute an inducement for the purposes of ■ COB 2.2.3, provided that they are

directly relevant to, and are used to assist in, the provision to the *firm's customers* of:

- (1) investment management services;
- (2) advice on dealing in, or on the value of, any *designated investment*;
- (3) *custody* services relating to *designated investments* belonging to, or managed for, *customers*; or
- (4) services relating to the valuation or performance measurement of portfolios.

2.2.13

G
/1

Examples of particular goods and services that could be provided under a *soft commission agreement* include, to the extent they would assist in the provision of the services specified in ■ COB 2.2.12:

- (1) research, analysis and advisory services, including those on economic factors and trends;
- (2) market price services;
- (3) electronic trade confirmation systems;
- (4) third party electronic dealing or quotation systems;
- (5) computer hardware associated with specialised computer software or research services;
- (6) dedicated telephone lines;
- (7) seminar fees (if the subject matter is relevant to the provision of the services set out in ■ COB 2.2.12); and
- (8) publications (if the subject matter is relevant to the provision of the services set out in ■ COB 2.2.12).

2.2.14

G
/1

Examples of goods and services that the *FSA* does not regard as relevant to the provision of the services specified in ■ COB 2.2.12 include:

- (1) travel, accommodation or entertainment costs, whether or not related to the conduct of *designated investment business*;
- (2) any seminar fees not falling within ■ COB 2.2.13(7);
- (3) any subscription for publications not falling within ■ COB 2.2.13(8)
- (4) office administrative computer software, for example, word processing or accounting programmes;
- (5) computer hardware not associated with specialist computer software;
- (6) membership fees to professional associations;
- (7) purchase or rental of standard office equipment or ancillary facilities;

- (8) *employees' salaries*; and
- (9) *direct money payments*.

2.2.15

G
/1

In complying with ■ COB 2.2.8 when a *firm* is able to and does reclaim or offset all or part of the VAT payable on benefits received, the *firm* should ensure that its soft commission account with the broker is charged only with the net amount at the *firm's* effective rate. Disclosure of the value of benefits received, in accordance with ■ COB 2.2.18, should be expressed net of VAT reclaimed, when appropriate.

Prior disclosure

2.2.16

R
/1

If a *firm* has information from which it knows, or reasonably ought to know, that another member of its *group* has a *soft commission agreement* with another *person* under which it or that other party *deals* or intends to *deal* for *customers* of the *firm*, the *firm* must, before entering into an *agreement* authorising it to *deal* for a *customer*, either directly or indirectly with or through the agency of the other *person*, inform the *customer* in writing of:

- (1) the existence of the *soft commission agreement*; and
- (2) the *firm's* or, when relevant, its *group's* policy relating to *soft commission agreements*.

2.2.17

G
/1

When making the disclosures required by ■ COB 2.2.16, a *firm* should note that:

- (1) it is acceptable to make a general disclosure that *soft commission agreements* are, or may be, in place;
- (2) the requirements apply equally when *deals* are placed directly, and not solely on an agency basis, with a third party (for example, a unit trust manager in the same *group*), that itself is a party to the *soft commission agreement*; and
- (3) the policy statement should explain generally why the *firm* or a member of its *group* might find it necessary or desirable to pay *soft commission*, bearing in mind the practices in the markets in which it does business on behalf of its *customers*.

Periodic disclosure

2.2.18

R
/1

If a *firm* has information from which it knows, or reasonably ought to know, that another *member* of its *group* has a *soft commission agreement* with another *person* under which it or that other party *deals* or intends to *deal* for a *customer* of the *firm*, the *firm* must:

- (1) provide each relevant *customer* at least once a year, unless ■ COB 2.2.19 applies, with the following information covering the period since the *firm* last reported to that *customer* or, if no previous report has been made, since the *firm* first dealt for him:

- (a) the percentage paid under *soft commission agreements* of the total *commission* paid by or at the direction of:
 - (i) the *firm*; and
 - (ii) any other member of the *firm's group* which is a party to those agreements;
 - (b) the value (on a cost price basis) of goods or services received by the *firm* under *soft commission agreements*, expressed as a percentage of the total *commission* paid by or at the direction of:
 - (i) the *firm*; or
 - (ii) other members of the *firm's group*;
 - (c) a summary of the goods or services received by the *firm*;
 - (d) a list of the brokers which are parties to the *soft commission agreements*; and
 - (e) the total *commission* paid from the portfolio of that *customer*;
- (2) at least once a year explain to each relevant *customer*, unless ■ COB 2.2.19 applies, the policy of the *firm* relating to *soft commission agreements* for the period up to the submission of the next policy statement (which must not exceed one year) or state that its policy has not changed (this may be included in any periodic report provided under (1), or in a separate document);
- (3) give to a *customer* to whom it is relevant an explanation promptly after any material change in the *firm's* policy relating to *soft commission agreements*, and, if it is the case, confirm to each relevant *customer* that the goods and services received by the *firm* are expected to assist only in the conduct of *designated investment business* with or for other *customers*.

Exceptions

2.2.19

R
/1

A *firm* need not make the periodic disclosures required by ■ COB 2.2.18(1) or (2) if:

- (1) the *customer* is habitually resident overseas and has requested the *firm* not to do so; or
- (2) a *firm* has information from which it is reasonable to conclude that the *customer* does not wish to receive this information.

Record keeping

2.2.20

R

/1

- (1) A *firm* must make records of the reports sent to its *customers* as required by ■ COB 2.2.18 and retain those records for at least three years from the date on which the *soft commission agreement* to which they relate is terminated.
- (2) A *firm* must make a record of each payment of disclosable *commission*, and must retain that record for a period of at least six years from the date of payment.
- (3) A *firm* must make a record of each benefit given to an *independent intermediary*, and must keep that record for at least six years from the date on which it was given.

2.3 Reliance on others

Application

- 2.3.1 **R** /1 This section applies to a *firm* when it is conducting *designated investment business* or activities in connection with *designated investment business*.

Purpose

- 2.3.2 **G** /1 *Principle 2* requires a *firm* to conduct its business with due skill, care and diligence. This section indicates the extent to which *firms* can meet this requirement by relying on others.

Reliance on others

- 2.3.3 **R** /1 A *firm* will be taken to be in compliance with any *rule* in *COB* that requires a *firm* to obtain information to the extent that the *firm* can show that it was reasonable for the *firm* to rely on information provided to it in writing by another *person*.

- 2.3.4 **E** /1
- (1) In relying on **■** COB 2.3.3, a *firm* should take reasonable steps to establish that the other *person* providing written information is:
 - (a) not connected with the *firm*; and
 - (b) competent to provide the information.
 - (2) Compliance with (1) may be relied on as tending to establish compliance with **■** COB 2.3.3.
 - (3) Contravention of (1) may be relied on as tending to establish contravention of **■** COB 2.3.3.

- 2.3.5 **G** /1 A *firm* may generally rely on any information provided to the *firm* in writing by:
- (1) an unconnected *authorised person*; or
 - (2) a *professional firm*;

2.3.6

R

/1

unless the *firm* is aware, or ought reasonably to be aware, of any fact, or facts, that would give reasonable grounds to question the accuracy of any such information.

- (1) Any information which a *rule* in *COB* requires to be sent to a *customer* may be sent to another *person* on the instruction of the *customer*, so long as the recipient is not connected with the *firm*.
- (2) There is no need for a *firm* to send information to a *customer* where it has taken reasonable steps to establish that this has been or will be supplied by another *person*.

2.4 Chinese walls

Application

- 2.4.1 **R** This section applies to a *firm* that conducts *designated investment business*.
/1

Purpose

- 2.4.2 **G** *Principle 8* (Conflicts of interest) requires a *firm* to manage a conflict of interest fairly, both between itself and its *customers* and between a *customer* and another *client*. One of the methods by which a *firm* may manage conflicts of interest is to establish and maintain internal arrangements restricting the movement of information within the *firm* – *Chinese walls*. The purpose of this section is to set out the circumstances when the *FSA* would consider it appropriate for a *firm* to withhold or not to use information that it would otherwise have to disclose to, or use for the benefit of a *client*.

- 2.4.3 **G** The purpose of **■** COB 2.4.4(1) is also to exercise the *FSA*'s power under section 147 of the *Act* to make control of information rules (see **■** COB 2.4.5 for an explanation of the effect of this).
/1

Control of information

- 2.4.4 **R** (1) When a *firm* establishes and maintains a *Chinese wall* (that is, an arrangement that requires information held by a *person* in the course of carrying on one part of its business to be withheld from, or not to be used for, *persons* with or for whom it acts in the course of carrying on another part of its business), it may:
/1
- (a) withhold or not use the information held; and
 - (b) for that purpose, permit *persons* employed in the first part of its business to withhold the information held from those employed in that other part of the business;

but only to the extent that the business of one of those parts involves the carrying on of *designated investment business*.

- (2) Information may also be withheld or not used by a *firm* when this is required by an established arrangement maintained between different parts of the business (of any kind) in the same *group*. This provision does not affect any requirement to transmit or use information that may arise apart from the *rules* in *COB*.
- (3) For the purpose of this rule, 'maintains' includes taking reasonable steps to ensure that the arrangements remain effective and are adequately monitored, and must be interpreted accordingly.
- (4) For the purposes of section 118(8) of the *Act*, behaviour conforming with ■ COB 2.4.4(1) does not amount to market abuse.

Effect of acting in conformity with ■ COB 2.4.4

2.4.5

G

Section 147 of the *Act* enables the *FSA* to make *rules* ("control of information rules") about the disclosure and use of information held by a *firm*. ■ COB 2.4.4(1) is the only control of information rule made by the *FSA*. This means that:

- (1) acting or engaging in conduct in conformity with ■ COB 2.4.4(1) provides a defence against proceedings brought under section 397(2) or (3) of the *Act* (Misleading statements and practices) – see sections 397(4) and (5)(c);
- (2) behaviour conforming with ■ COB 2.4.4(1) does not amount to *market abuse* – see ■ COB 2.4.4(4); and
- (3) acting in conformity with ■ COB 2.4.4(1) provides a defence for a *firm* against *FSA* enforcement action, or an action for damages under section 150 of the *Act*, based on a breach of a relevant requirement to disclose or use information (this is likely to be relevant only for requirements in *PRIN*, *COB* and ■ *MAR* 3 (Inter-professional conduct)). Acting in conformity with ■ COB 2.4.4(2) has a similar effect but only in relation to such a requirement in *COB*.

Attribution of knowledge

2.4.6

R

When any of the *COB rules* apply to a *firm* that acts with knowledge, the *firm* will not be taken to act with knowledge for the purposes of that *rule* if none of the relevant individuals involved on behalf of the *firm* acts with that knowledge as a result of arrangements established under ■ COB 2.4.4.

2.4.7

G

When a *firm* manages a conflict of interest using the arrangements in ■ COB 2.4.4 which take the form of a *Chinese wall*, individuals on the "other side of the wall" will not be regarded as being in possession of knowledge denied to them as a result of the *Chinese wall*.

2.5 Exclusion of liability

Application

- 2.5.1 **R**
/1 This section applies to a *firm* that makes any written or oral communication to a *customer* in the course of, or in connection with, its *designated investment business*.

Purpose

- 2.5.2 **G**
/1 *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. A *firm* may not exclude the duties it owes or the liabilities it has to a *customer* under the *Act* or the *regulatory system*. It may exclude other duties and liabilities only if it is reasonable for it to do so.

Limits on the exclusion of liability

- 2.5.3 **R**
/1 A *firm* must not, in any written or oral communication, seek to exclude or restrict, or to rely on any exclusion or restriction of, any duty or liability it may have to a *customer* under the *regulatory system*.
- 2.5.4 **R**
/1 A *firm* must not in any written or oral communication to a *private customer* seek to exclude or restrict, or to rely on any exclusion or restriction of, any duty or liability not referred to in ■ COB 2.5.3 unless it is reasonable for it to do so.

Chapter 3

Financial promotion

3.1 Application: who?

Firms

- 3.1.1** **R** _{/1} This chapter applies to every *firm* (other than an *ICVC*) which *communicates or approves a financial promotion*.
- 3.1.2** **G** _{/1} This chapter applies generally to *firms* in relation to all *financial promotions*. This wide application is however cut back by **■ COB 3.2** (Application: what?) and **■ COB 3.3** (Application: where?) which limit the application of this chapter for:
- (1) *financial promotions* for *deposits, general insurance contracts, pure protection contracts* and reinsurance contracts;
 - (2) *financial promotions* which fall within the scope of the exemptions in the *Financial Promotion Order* or the additional exemptions set out in **■ COB 3.2.5**; and
 - (3) *financial promotions* to *persons* outside the *United Kingdom*.

Appointed representatives

- 3.1.3** **G** _{/1} Under section 39(3) of the *Act*, a *firm* is responsible for *financial promotions communicated* by its *appointed representatives* when acting as such (see **■ COB 1.7** (Approved representatives)).

Nationals of other EEA States

- 3.1.4** **G** _{/1} A national of an *EEA State* (other than the *United Kingdom*) wishing to take advantage of the exemption in article 36 of the *Financial Promotion Order* in relation to any *controlled activity* lawfully carried on by him in that State, should act in conformity with the *rules* in this chapter.
- 3.1.5** **R** _{/1} (1) **■ COB 3** does not apply to an *authorised professional firm* in relation to the *communication of a financial promotion* if the following conditions are satisfied:
- (a) the *firm's* main business must be the practice of its profession (see *IPRU(INV) 2.1.1R(3)*);

- (b) the *financial promotion* must be made for the purposes of and incidental to the promotion or provision by the *firm* of:
 - (i) its professional services; or
 - (ii) its *non-mainstream regulated activities* (see *PROF 5.2*);
and
 - (c) the *financial promotion* must not be *communicated* on behalf of another *person* who would not be able lawfully to *communicate* the *financial promotion* if he were acting in the course of business.
- (2) In (1)(b)(i), "professional services" means services:
- (a) which do not constitute a *regulated activity*; and
 - (b) the provision of which is supervised and regulated by a *designated professional body*.

3.1.6

G
/1

Authorised professional firms are reminded that in circumstances in which ■ COB 3 does not apply to the *firm* ■ COB 2.1 (Clear, fair and not misleading communication) may apply.

3.2 Application: what?

What do "communicate", "approve" and "financial promotion" mean?

3.2.1

G
/1

- (1) The *rules* in this chapter adopt various concepts from the restriction on *financial promotion* by *unauthorised persons* in section 21(1) of the *Act* (Restrictions on financial promotion). *Guidance* on that restriction is contained in ■ AUTH App [] and that *guidance* will be relevant to interpreting these *rules*. In particular, *guidance* on the meaning of:
 - (a) "communicate" is in ■ AUTH App [] (Communicate);
 - (b) "invitation or inducement" and "engage in investment activity" (two elements which, with "communicate", make up the definition of "financial promotion") is in ■ AUTH App [] (Invitation and inducement) and ■ AUTH App [] (Engage in investment activity).
- (2) *Guidance* on the "approval" of a *financial promotion* is in ■ COB 3.12.1 (Approval of financial promotions).

Media of communication

3.2.2

G
/1

- (1) There is no restriction on the media of communication to which this chapter applies. It applies to a *financial promotion communicated* by any means, including by way of printed advertising, radio and television broadcast, a personal visit, a telephone call, an e-mail, the internet and electronic media such as digital and other forms of interactive television and media. Both solicited and unsolicited communications are covered.
- (2) *Financial promotions* may be *communicated* for example, by means of:
 - (a) product brochures;
 - (b) general advertising in magazines, newspapers, radio and television programmes and websites;
 - (c) mailshots (whether distributed by post, facsimile, e-mail or other media);
 - (d) telemarketing activities, such as telephone calls made by call centres;
 - (e) written correspondence, telephone calls and face to face discussions including by *advisers*;

- (f) sales aids which themselves constitute a *financial promotion*;
- (g) presentations to groups of individuals;
- (h) tip-sheets; and
- (i) other publications, which may contain non-*personal recommendations* as to the acquisition, retention or disposal of *investments* of any description.

Financial promotions for deposits and contracts of insurance which are not life policies

3.2.3

R

/1

To the extent that a *financial promotion* relates to one or more of the following:

- (1) a *deposit*; or
- (2) a *general insurance contract*, *pure protection contract*, or *reinsurance contract*.

only ■ COB 3.1 to ■ COB 3.5 and ■ COB 3.8.4 to ■ COB 3.8.6 and ■ COB 3.14 apply, unless the *financial promotion* relates to a *cash deposit ISA* in which case ■ COB 3.9.6(1) and ■ COB 3.9.8 also apply.

Exemptions

3.2.4

R

/1

This chapter does not apply to a *firm* in relation to a *financial promotion* of a kind listed in ■ COB 3.2.5, except that:

- (1) if the *financial promotion* relates to an *unregulated collective investment scheme*, ■ COB 3.11 (Unregulated collective investment schemes) applies;
- (2) if the *firm approves* the *financial promotion*, the following apply:
 - (a) ■ COB 3.1 to ■ COB 3.5 (Application, General and Purpose).
 - (b) ■ COB 3.8.4(1) (Non-real time financial promotions: fair, clear and not misleading);
 - (c) ■ COB 3.12.1 to ■ COB 3.12.5 (Approval of financial promotions; No approval of real time financial promotions; Approval of financial promotions when not all the rules apply); and
- (3) if the *firm*:
 - (a) *approves a specific non-real time financial promotion* relating to an *investment* or service of an *overseas person*; and

3.2.5

R
/1

Table Exemptions
This table belongs to ■ COB 3.2.4

Exemptions

This chapter does not apply to the following:

- (1) **a financial promotion to a market counterparty or an intermediate customer, that is a financial promotion which:**
 - (a) **is made only to recipients who the firm has taken reasonable steps to establish are market counterparties or intermediate customers; or**
 - (b) **may reasonably be regarded as directed only at recipients who are market counterparties or intermediate customers;**

when a person is classified as an *intermediate customer* under **COB 4.1.9R (Expert private customer classified as intermediate customer)**, this exemption applies only for a *financial promotion* that relates to the *designated investments* or *designated investment business* for which he has been so classified;
- (2) **a financial promotion which can lawfully be communicated by an unauthorised communicator without approval;**
- (3) **a financial promotion communicated from outside the United Kingdom which would be exempt under articles 30, 31, 32 or 33 of the Financial Promotion Order (Overseas communicators) if the office from which the financial promotion is communicated were a separate unauthorised person (but see COB 5.5.7R (Overseas business for UK private customers));**
- (4) **a “one off” non-real time financial promotion or a “one off” solicited real time financial promotion; if the conditions set out in (a) to (c) are satisfied, a financial promotion is to be regarded as “one off”; if not, the fact that any one or more of these conditions is met is to be taken into account in determining if a financial promotion is “one off”, but a financial promotion may be regarded as “one off” even if none of the conditions are met; the conditions are that:**
 - (a) **the financial promotion is communicated only to one recipient or only to one group of recipients in the expectation that they would engage in any investment activity jointly;**
 - (b) **the identity of the product or service to which the financial promotion relates has been determined having regard to the particular circumstances of the recipient;**
 - (c) **the financial promotion is not part of an organised marketing campaign;**

Exemptions	
(5)	a <i>financial promotion</i> which contains only one or more of the following: <ul style="list-style-type: none"> (a) the name of the <i>firm</i>; (b) the name of an <i>investment</i>; (c) a contact point (address (including an e-mail address), telephone or facsimile number); (d) a logo; (e) a brief, factual description of the <i>firm's</i> activities; (f) a brief, factual description of the <i>firm's</i> fees; (g) a brief, factual description of the <i>firm's</i> investment products; (h) the price or yields of <i>investments</i> and the <i>charges</i>;
(6)	a personal quotation or illustration form;
(7)	a <i>financial promotion</i> in connection with a <i>takeover or related operation</i> which is subject to the <i>Takeover Code</i> (or exempted from complying with the <i>Takeover Code</i> by the rules of that Code or by a ruling of the <i>Takeover Panel</i>) or to the requirements relating to <i>takeovers or related operations</i> in another <i>EEA State</i> .

Combination of exemptions

- 3.2.6 **R** /1 A *firm* may rely on more than one exemption (and also on ■ COB 3.3.1 (Territorial limitation)) in relation to the same *financial promotion*.

Guidance on the exemptions

- 3.2.7 **G** /1
- (1) Under ■ COB 3.2.5(1) a *financial promotion* which is *communicated* only to *market counterparties* or *intermediate customers* is exempt. See ■ COB 3.5.6 and ■ COB 3.5.7 which amplify this exemption. A *firm* will need to take particular note of the conditions in ■ COB 3.5.7 when designing *financial promotions* for trade publications which may be available also to *private customers*.
 - (2) A table summarising some of the main exemptions contained in the *Financial Promotion Order*, and therefore relevant to ■ COB 3.2.5(2), is in ■ COB 3 Ann 1. *Guidance* on certain exemptions is contained in ■ AUTH App [].
 - (3) In ■ COB 3.2.5:
 - (a) Item (4) reflects the exemption in article 28 of the *Financial Promotion Order* (One off non-real time communications and solicited real time communications), but goes further, exempting such *financial promotions* which relate to *deposits* and all *contracts of insurance*. It exempts, amongst other things, correspondence which is written specifically for a recipient, whether hard copy or e-mail. A *firm* should note, however, that such correspondence will, if *personal recommendations* are made, be

subject to other obligations such as know your customer and suitability requirements ■ COB 5.2 and ■ COB 5.3). It does not exempt *financial promotions communicated* in the form of mass mailshots, which may appear to be items of personalised correspondence but which in fact comprise the same or virtually the same material sent to a number of recipients, without tailoring the material to the circumstances of each recipient. Such mailshots must meet the requirements of this chapter.

- (b) Items (5)(e), (f) and (g) exempt a *financial promotion* made by a *firm* which refers only to its activities in general terms in image advertising. Acceptable examples include 'life and pensions' and 'life assurance and pensions business'. In addition a *firm* may include its name, address and telephone number in accordance with items 5(a) and (c).
- (c) Item (5)(h) exempts *financial promotions* which merely comprise lists of prices published in newspapers, or through the internet, or other electronic media. In addition a *firm* may include its name, address and telephone number in accordance with items (5)(a) and (c).
- (4) A company's annual report and accounts issued in accordance with a requirement of the Companies Act 1985 (or corresponding Northern Ireland or EEA provisions) are exempt under item (2) and article 59 of the *Financial Promotion Order*. But this exemption does not extend to the report and accounts of ICVCs, other types of OEIC, and *unit trust schemes*.
- (5) A *financial promotion* included in a newspaper, magazine or periodical which is printed and published overseas, but which may be brought into the *United Kingdom* and made available to *persons* in the *United Kingdom*, will be exempt provided that the *financial promotion* is not *communicated* to *persons* inside the *United Kingdom* (see ■ COB 3.3).
- (6) This chapter does not apply in relation to a *financial promotion* the *communication* of which by a *firm* would contravene section 238(1) of the *Act* (Restrictions on promotion of unregulated collective investment schemes) (see ■ COB 3.11.4).

Other Handbook rules relevant to financial promotions

3.2.8

G

/1

- (1) Firms are reminded that *financial promotions* (including those which are exempt) may be subject to more general *rules* including *Principle 7* (Communications with clients), ■ SYSC 3 (Systems and controls) and ■ COB 2.1.3 (Clear, fair and not misleading communication).
- (2) *Firms* are reminded that if in the course of making a *financial promotion* of any kind an *adviser* (independent or tied) gives specific *advice on investments* to a *private customer* about the suitability of a product for that individual, the *adviser* in giving the advice is subject to the *rules*, as appropriate, on advising and selling in ■ COB 5.
- (3) *Firms* are reminded that this chapter does not apply with respect to the carrying on of *inter-professional business*. This means that a *financial promotion communicated* to a *market counterparty* in connection with certain types of *regulated activities* is exempt from this chapter; instead, ■ MAR 3 (Inter-professional conduct) may be relevant. But that exemption does not apply in relation to the *approval* of a *financial promotion* in the course of *inter-professional business*.

3.3 Application: where?

Territorial scope

3.3.1

R

/1

This chapter applies to a *firm* only in relation to:

- (1) the *communication* of a *financial promotion* to a *person* inside the *United Kingdom*; or
- (2) the *communication* of an *unsolicited real time financial promotion* to a *person* outside the *United Kingdom*, unless:
 - (a) it is made from a place outside the *United Kingdom*; and
 - (b) it is made for the purposes of a business which is carried on outside the *United Kingdom* and which is not carried on in the *United Kingdom*; and
- (3) the approval of a *non-real time financial promotion* for *communication* to a *person* inside the *United Kingdom*;

subject to ■ COB 3.3.3.

3.3.2

G

/1

- (1) The application under ■ COB 3.3.1 is relevant both when a firm *communicates* a *financial promotion* itself and when a firm *approves* a *non-real time financial promotion* for *communication* by others. But see also ■ COB 3.3.3(2) regarding *approvals*.
- (2) The exemptions in ■ COB 3.2.5 (Application: what?; Exemptions) also incorporate some territorial elements. In particular, the exemption for *financial promotions* originating outside the *United Kingdom* (section 21(3) of the *Act* (Restrictions on financial promotion)) (see ■ COB 3.2.5(2)) and the exemptions for overseas communicators (see ■ COB 3.2.5(3)).

Exceptions to territorial scope

3.3.3

R

/1

The following parts of this chapter apply without any territorial limitation:

- (1) ■ COB 3.11 (Unregulated collective investment schemes);

- (2) if a *firm approves a financial promotion*:
- (a) ■ COB 3.1 to ■ COB 3.5 (Application, General and Purpose);
 - (b) ■ COB 3.8.4(1) (Non-real time financial promotions: clear, fair and not misleading);
 - (c) ■ COB 3.12.1 to ■ COB 3.12.5 (Approval of financial promotions; No approval of real time financial promotions; Approval of financial promotions when not all the rules apply).

3.3.4

G

/1

There is no need for a *financial promotion* which is indicated in ■ COB 3.3.3 to be outside the territorial scope of the application of this chapter to be *approved* before being *communicated* by an *unauthorised person* (because the restriction in section 21 of the *Act* (Restrictions on financial promotion) does not apply). If a *firm* nevertheless *approves* such a *financial promotion*, it must comply with the *rules* indicated in ■ COB 3.3.3(2). However, a *firm* must not *approve a real time financial promotion* (see ■ COB 3.12.2).

Meaning of "communicated to a person inside or outside the United Kingdom"

3.3.5

R

/1

For the purposes of this chapter:

- (1) a *financial promotion* is *communicated* to a *person* outside the *United Kingdom* if it is:
 - (a) made to a *person* who receives it outside the *United Kingdom*; or
 - (b) directed only at *persons* outside the *United Kingdom*; and
- (2) a *financial promotion* is *communicated* to a *person* inside the *United Kingdom* if it is *communicated* to a *person* other than as described in (1);

and see ■ COB 3.5.6 and ■ COB 3.3.6 which amplify this *rule*.

Meaning of "directed only at persons outside the United Kingdom"

3.3.6

R

/1

- (1) If the conditions set out in 4(a), (b), (c) and (d) are met, a *financial promotion* directed from a place inside the *United Kingdom* will be regarded as directed only at *persons* outside the *United Kingdom*.
- (2) If the conditions set out in 4(c) and (d) are met a *financial promotion* directed from a place outside the *United Kingdom* will be regarded as directed only at *persons* outside the *United Kingdom*.

- (3) In any other case where one or more of the conditions in 4(a) to (e) is met, that fact will be taken into account in determining whether a *financial promotion* is directed only at *persons* outside the *United Kingdom* (but a *financial promotion* may still be regarded as directed only at *persons* outside the *United Kingdom* even if none of these conditions is met).
- (4) The conditions are that:
- (a) the *financial promotion* is accompanied by an indication that it is directed only at *persons* outside the *United Kingdom*;
 - (b) the *financial promotion* is accompanied by an indication that it must not be acted upon by *persons* in the *United Kingdom*;
 - (c) the *financial promotion* is not referred to in, or directly accessible from, any other *financial promotion* which is made to a *person* or directed at *persons* in the *United Kingdom* by or on behalf of the same *person*;
 - (d) there are in place proper systems and procedures to prevent recipients in the *United Kingdom* (other than those to whom the *financial promotion* might otherwise lawfully have been made) *engaging in the investment activity* to which the *financial promotion* relates with the *person* directing the *financial promotion*, a *close relative* of his or a member of the same *group*;
 - (e) the *financial promotion* is included in:
 - (i) a website, newspaper, journal, magazine or periodical publication which is principally accessed in or intended for a market outside the *United Kingdom*;
 - (ii) a radio or television broadcast or teletext service transmitted principally for reception outside the *United Kingdom*.

3.4 Purpose

3.4.1

G

/1

- (1) Section 21(1) of the *Act* (Restrictions on financial promotion) imposes a restriction on the *communication of financial promotions* by *unauthorised persons*. A *person* must not, in the course of business, *communicate* an invitation or inducement to *engage in investment activity* (a *financial promotion*) unless:
 - (a) he is an *authorised person*; or
 - (b) the content of the *financial promotion* is *approved* by an *authorised person*.
- (2) However, the *Financial Promotion Order* exempts from the restriction created by section 21(1) of the *Act* certain types of *financial promotion*.
- (3) Sections 238 and 240 of the *Act* (Restrictions on promotion/approval) impose restrictions on the *communication* and *approval* by *firms* of *financial promotions* relating to *unregulated collective investment schemes*. See further ■ COB 3.11.

3.4.2

G

/1

- (1) The purpose of this chapter is to provide *rules* and *guidance* for a *firm* which wishes to *communicate* or *approve* a *financial promotion*. ■ COB 3.5.2 provides a guide to the topics covered in this chapter.
- (2) This chapter amplifies, for activities within its scope:
 - (a) *Principle 6* (Customers' interests) which requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly; and
 - (b) *Principle 7* (Communications with clients) which requires a *firm* to pay due regard to the information needs of its *clients*, and *communicate* information to them in a way which is clear, fair and not misleading.

3.5 General

Topics covered in this chapter

- 3.5.1** G_{/1} This chapter includes some provisions which are applicable to all types of *financial promotion* and others which apply only to specific types. ■ COB 3.5.2 has been provided to help locate the areas of particular relevance to types of *financial promotion*.
- 3.5.2** G_{/1} Table Areas of particular relevance to types of financial promotion. This table belongs to ■ COB 3.5.1

Areas of particular relevance to types of financial promotion

(1)	Provisions applying to all <i>financial promotions</i>	Application – who?	COB 3.1
		Application – what?	COB 3.2
		Application – where?	COB 3.3
		Purpose	COB 3.4
		General	COB 3.5
(2)	Provisions applying only to <i>non-real time financial promotions</i>	Confirmation of compliance	COB 3.6
		Records	COB 3.7
		Form and content of financial promotions: non-real time financial promotions	COB 3.8.2R to COB 3.8.7G
		Form and content of financial promotions: specific non-real time financial promotions	COB 3.8.8R to COB 3.8.20G
(3)	Provisions applying only to <i>real time financial promotions</i>	Form and content of financial promotions: real time financial promotions	COB 3.8.21G to COB 3.8.25G
		Unsolicited real time financial promotions	COB 3.10
(4)	Provisions applying only to certain types of <i>financial promotions</i>	Direct offer financial promotions	COB 3.9
		Unregulated collective investment schemes	COB 3.11

Areas of particular relevance to types of financial promotion

	Communication and approval of financial promotions for an overseas or unauthorised person	COB 3.12
	Additional requirements for financial promotions for an overseas long-term insurer	COB 3.13
	The internet and other electronic media	COB 3.14

Other regulations and guidelines

3.5.3

G
/1

A *firm communicating a financial promotion* may also be subject to other regulations and guidelines, outside the remit of the FSA, such as:

- (1) the codes issued from time to time by the Advertising Standards Authority, the Independent Television Commission and the Radio Authority;
- (2) regulations from any *overseas regulator* (where relevant) if the *firm* intends to market from the *United Kingdom* into any other country;
- (3) the *POS Regulations*; and
- (4) the Telecommunications (Data Protection and Privacy) Regulations 1999 (SI 1999/2093).

"Real time" and "non-real time" financial promotions

3.5.4

G
/1

This chapter draws a distinction between a *real time* and a *non-real time financial promotion*. Guidance on the meaning of those expressions, which are based on article 7 of the *Financial Promotion Order*, is contained in ■ AUTH App [] (Types of communication).

3.5.5

R
/1

- (1) A "*real time financial promotion*" is a *financial promotion* which is *communicated* in the course of a personal visit, telephone conversation or other interactive dialogue.
- (2) A "*non-real time financial promotion*" is a *financial promotion* that is not a *real time financial promotion*. It includes a *financial promotion* made by letter, e-mail or contained in a newspaper, journal, magazine, other periodical publication, website, television or radio programme, or teletext service.
- (3) The following are to be regarded as indications that a *financial promotion* is a *non-real time financial promotion*:
 - (a) the *financial promotion* is *communicated* to more than one *person* in identical terms (save for details of the recipient's identity);

- (b) the *financial promotion is communicated* by way of a system which in the normal course constitutes or creates a record of the communication which is available to the recipient to refer to at a later time;
- (c) the *financial promotion is communicated* by way of a system which in the normal course does not enable or require the recipient to respond immediately to it.

Meaning of “made”, “directed at” and “recipient” in this chapter

3.5.6

R

/1

(In accordance with article 6 of the *Financial Promotion Order* (Interpretation: communications)) any reference in this chapter to:

- (1) a communication being made to another *person* is a reference to a communication being addressed, whether verbally or in legible form, to a particular *person* or *persons* (for example, where it is contained in a telephone call or letter);
- (2) a communication being directed at *persons* is a reference to a communication being addressed to *persons* generally (for example where it is contained in a television broadcast or website);
- (3) a “recipient” of a communication is the *person* to whom the communication is made or, in the case of a *non-real time communication* which is directed at *persons* generally, any *person* who reads or hears the communication.

When is a financial promotion “directed only at” certain persons?

3.5.7

R

/1

- (1) This *rule* applies for the purposes of determining whether a communication is directed:
 - (a) only at *market counterparties* or *intermediate customers* under ■ COB 3.2.5(1); or
 - (b) in a way that complies with paragraph 2(b) in ■ COB 3 Ann 5.
- (2) If all the conditions set out in (4) are met, a communication is to be regarded as directed as in (1).
- (3) In any other case in which one or more of those conditions are met, that fact is to be taken into account in determining whether the communication is directed as in (1) (but a communication may still be regarded as so directed even if none of the conditions in (4) are met).
- (4) The conditions are that:

- (a) the communication includes an indication of the description of *persons* to whom it is directed and an indication of the fact that the *investment* or service to which it relates is available only to such *persons*;
- (b) the communication includes an indication that *persons* of any other description should not rely upon it;
- (c) there are in place proper systems and procedures to prevent recipients other than *persons* to whom it is directed *engaging in the investment activity*, or participating in the *collective investment scheme*, to which the communication relates with the *person* directing the communication, a *close relative* of his or a member of the same *group*.

3.6 Confirmation of compliance

Confirmation of compliance

- 3.6.1** **R**_{/1} (1) Before a *firm communicates* or *approves a non-real time financial promotion*, it must confirm that the *financial promotion* complies with the *rules* in this chapter.
- (2) A *firm* must arrange for the confirmation exercise in (1) to be carried out by an individual or individuals with appropriate expertise.
- 3.6.2** **G**_{/1} (1) In **■** COB 3.6.1(2) ‘appropriate expertise’ will vary depending on the complexity of the *financial promotion* and the *investment* or service to which it relates. The individuals engaged by a *firm* to confirm the compliance of its *financial promotions* with this chapter may themselves have different levels of expertise and therefore a different level of authority for confirmation depending on the type of *financial promotion* and the *investment* or service involved.
- (2) A *firm* may arrange for a third party with appropriate expertise to carry out the confirmation exercise on the *firm’s* behalf, but the responsibility for the *financial promotion* remains with the *firm*.

Withdrawing confirmation

- 3.6.3** **R**_{/1} If, at any time after it has completed a confirmation exercise in **■** COB 3.6.1(1), a *firm* becomes aware that a *financial promotion* no longer complies with the *rules* in this chapter, it must ensure that the *financial promotion* is withdrawn as soon as is reasonably practicable by:
- (1) ceasing to *communicate* it;
- (2) withdrawing its approval (if applicable); and
- (3) notifying any *person* that the firm knows to be relying on its approval (if applicable) or confirmation (under **■** COB 3.6.5).
- 3.6.4** **G**_{/1} (1) **■** COB 3.6.3 is of particular importance to a *financial promotion*, such as a product brochure, that a *firm* uses over a period of time. It has little application to a *financial promotion* which is of its nature ephemeral, for

example a mobile phone text message. Further, a *financial promotion* which clearly speaks as at a particular date will not cease to comply with the *rules* in this chapter merely because the passage of time has rendered it out-of-date; an example would be a dated analyst's report.

- (2) For compliance with ■ COB 3.6.3, the FSA will expect a *firm* to monitor its relevant *financial promotions* as part of the *firm's* routine compliance monitoring procedures. A *firm* may find it helpful to designate a relevant *financial promotion* with a 'review date', a date at which the *financial promotion* should be checked once more against the *rules* of this chapter. If it is found no longer to meet these requirements it should be withdrawn as soon as is reasonably practicable.
- (3) If at any time a *firm* becomes aware that *private customers* may have been misled by a *financial promotion* it should consider whether *private customers* who have responded to the *financial promotion* should be contacted with a view to explaining the position and offering any appropriate form of redress to those who have suffered financial loss.

Communicating a financial promotion where another firm has confirmed compliance

3.6.5

R

/1

A *firm* will not contravene any of the *rules* in this chapter in circumstances where it (*firm* "A") *communicates a non-real time financial promotion* which has been produced by another *person* provided that:

- (1) A takes reasonable care to establish that another *firm* (*firm* "B") has already confirmed the compliance of the *financial promotion* in accordance with ■ COB 3.6.1;
- (2) A takes reasonable care to establish that A communicates the *financial promotion* only to recipients of the type for whom it was intended at the time B carried out the confirmation exercise; and
- (3) so far as A is, or ought reasonably to be, aware:
 - (a) the *financial promotion* has not ceased to be clear, fair and not misleading since that time; and
 - (b) B has not withdrawn the *financial promotion*.

3.7 Records

Requirement to make and retain records

- 3.7.1** **R**
/1
- (1) A *firm* must make an adequate record of each *non-real time financial promotion* which it has confirmed as complying with the *rules* in this chapter.
- (2) A record in (1) must be retained for the following periods:
- (a) indefinitely in the case of a *financial promotion* relating to a *pension transfer, pension opt-out* or *FSAVC*;
 - (b) six years in the case of a *financial promotion* relating to a *life policy, pension contract* or *stakeholder pension scheme*;
 - (c) three years in any other case.

Content of records

- 3.7.2** **G**
/1
- In deciding what is an adequate record under **COB 3.7.1**, a *firm* should consider including, or providing reference to, where appropriate matters such as:

- (1) the name of the individual or individuals who confirmed that the *financial promotion* complied with the *rules* in this chapter;
- (2) the date of confirmation and (where appropriate) *approval*;
- (3) details of the medium for which the *financial promotion* was authorised;
- (4) the evidence supporting any material factual statement about an investment matter in the *financial promotion*.

- 3.7.3** **G**
/1
- (1) A *firm* should also retain a copy of the *financial promotion* as finally published or, if this is not practicable, monitor the published version to verify that it is in substantially the same format as the version which the *firm* confirmed complied with the *rules* in this chapter.

- (2) Records which should be retained include:
- (a) any written *financial promotion* used by a *financial adviser* or *representative*;

- (b) any written material which is used in an organised marketing campaign (including, for example, written mailshots whether sent by e-mail, post, facsimile or other media).
- (3) see ■ COB 3.14.6 for guidance on recording an electronic financial promotion containing market information which is updated continuously.

Form of records

3.7.4

R

A record in ■ COB 3.7.1 may be in any form, provided that it is readily accessible for inspection by the FSA.

/1

3.7.5

G

A *firm* may arrange for records to be kept in such form as it chooses, such as hard copy, disk or tape. If the *financial promotion* is not in a written form, the record should represent the actual *financial promotion* as accurately as possible. A record would be "readily accessible" if it were available for inspection within 48 hours of the request being made. ■ SYSC 3.2.20(2) (Records to be capable of reproduction on paper) does not apply to records of *non-real time financial promotions*.

/1

3.8 Form and content of financial promotions

Application

3.8.1

R

/1

This section applies as follows:

- (1) ■ COB 3.8.2 to ■ COB 3.8.20 apply to a *firm* which *communicates* or *approves a non-real time financial promotion*;
- (2) ■ COB 3.8.21 to ■ COB 3.8.25 apply to a *firm* which *communicates a real time financial promotion*.

Non-real time financial promotions: name and contact point

3.8.2

R

/1

A *non-real time financial promotion* must contain the name of the *firm* and either an address of the *firm* or a contact point from which an address is available.

3.8.3

G

/1

- (1) For the purposes of ■ COB 3.8.2, the name may be a trading name or shortened version of the legal name of the *firm* (although other legislation, for example, the Companies Act 1985, may require a *firm* to include information not required by this *rule*).
- (2) The type of contact point envisaged for a *firm* by ■ COB 3.8.2 is: an e-mail address, or telephone or facsimile number, where a *person* can contact the *firm* for its address.
- (3) Except for a *direct offer financial promotion* (see ■ COB 3.9.6) a *firm* is not required in a *financial promotion* which it *communicates* or *approves* to name the FSA as its regulator. However, to comply with ■ COB 3.8.4, if the *firm* chooses to name the FSA as its regulator and the *financial promotion* refers to matters not regulated by the FSA, it should also make clear that those matters are not regulated by the FSA.

Non-real time financial promotions: clear, fair and not misleading; comparisons

3.8.4

R

/1

- (1) A *firm* must be able to show that it has taken reasonable steps to ensure that a *non real-time financial promotion* is clear, fair and not misleading.

- (2) *A non-real time financial promotion* which includes a comparison or contrast must:
- (a) compare *investments* or services meeting the same needs or which are intended for the same purpose;
 - (b) objectively compare one or more material, relevant, verifiable and representative features of those *investments* or services, which may include price;
 - (c) not create confusion in the market place between the *firm* itself (or the *person* whose *financial promotion* it *approves*) and a competitor or between the *firm's* trademarks, trade names, other distinguishing marks, *investments* or services (or those of the *person* whose *financial promotion* it *approves*) and those of a competitor;
 - (d) not discredit or denigrate the trademarks, trade names, other distinguishing marks, *investments*, services, activities or circumstances of a competitor;
 - (e) not take unfair advantage of the reputation of a trademark, trade name or other distinguishing marks of a competitor;
 - (f) not present *investments* or services as imitations or replicas of *investments* or services bearing a protected trademark or trade name; and
 - (g) indicate in a clear and unequivocal way in any comparison referring to a special offer the date on which the offer ends or, where appropriate, that the special offer is subject to the availability of the *investments* and services, and, where the special *offer* has not yet begun, the date of the start of the period during which the special price or other specific conditions shall apply.

3.8.5

/1

- (1) *A firm* should take reasonable steps to ensure that, for a *non-real time financial promotion*:
- (a) its promotional purpose is not in any way disguised or misrepresented;
 - (b) any statement of fact, promise or prediction is clear, fair and not misleading and discloses any relevant assumptions;
 - (c) any statement of opinion is honestly held and, unless consent is impracticable, given with the consent of the *person* concerned;
 - (d) the facts on which any comparison or contrast is made are verified, or, alternatively, that relevant assumptions are disclosed and that the comparison or contrast is presented in a

- fair and balanced way, which is not misleading and includes all factors which are relevant to the comparison or contrast.
- (e) it does not contain any false indications, in particular as to:
 - (i) the *firm's* independence;
 - (ii) the *firm's* resources and scale of activities; or
 - (iii) the scarcity of any *investment* or service;
 - (f) the design, content or format does not disguise, obscure or diminish the significance of any statement, warning or other matter which the *financial promotion* is required by this chapter to contain;
 - (g) it does not include any reference to approval by the *FSA* or any government body, unless such approval has been obtained in writing from the *FSA* or that body (see also ■ GEN 1.2 (Referring to approval by the *FSA*));
 - (h) it does not omit any matters the omission of which causes the *financial promotion* not to be clear, fair and not misleading; and
 - (i) the accuracy of all material statements of fact in it can be substantiated.
- (2) (a) Compliance with ■ COB 3.8.5 (1) may be relied on as tending to show compliance with ■ COB 3.8.4(1).
 - (b) Contravention of ■ COB 3.8.5(1) may be relied on as tending to show contravention of ■ COB 3.8.4(1).

Non-real time financial promotions: guidance for deposits, general insurance and pure protection policies

3.8.6

G
/1

When designing *non-real time financial promotions* relating to *deposits*, *general insurance contracts* or *pure protection contracts* with a view to complying with the general requirements of ■ COB 3.8.4, *firms* may find it helpful to take account of:

- (1) (for *deposits*) the British Bankers' Association/Building Societies Association Code of Conduct for the Advertising of Interest Bearing Accounts;
- (2) (for *general insurance contracts*) the General Insurance Standards Council Code;
- (3) (for *pure protection contracts*) the ABI Life Insurance (Non-Investment Business) Selling Code of Practice.

Non-real time financial promotions: guidance on fair, clear and not misleading

3.8.7

G
/1

- (1) It cannot be assumed that recipients necessarily have an understanding of the *investment* or service being promoted. If a *non-real time financial promotion* is specially designed for a targeted collection of recipients who are reasonably believed to have particular knowledge of the *investment* or service being promoted, this fact should be made clear.
- (2) Except in relation to *life policies* providing guaranteed benefits, or *deposits*, the description of an *investment* as ‘guaranteed’ should be used only if there is a legally enforceable arrangement with a third party to meet a claim in full. In such cases sufficient details about the guarantor and the guarantee should be provided before a *person* enters into a transaction relating to the *investment* to enable him to make a fair assessment of the value of the guarantee. A guarantee to the *directors* of a company that issues an *EIS share* is not a guarantee to a *person* invested in the relevant *Enterprise Investment Scheme*.
- (3) The use of any of the following may mean that a *non-real time financial promotion* does not meet the general requirement of ■ COB 3.8.4(1) of being clear, fair and not misleading:
 - (a) a statement such as ‘no initial charges’ or ‘no entry or redemption charges’ where the *bid price* is not the same as the *offer price* (for example there is a spread), unless the statement is suitably qualified with information about the additional costs of investment;
 - (b) the phrase ‘frozen pensions’, which implies that the pension fund will not remain invested and the pension benefits may not be subject to the possibility of an upward revaluation and will not be upgraded in circumstances where this is not the case (the phrase ‘preserved pensions’ is recommended as an alternative);
 - (c) a statement of the amount of authorised share capital of a *company* without the amount of the issued share capital;
 - (d) a statement of the amount of a *company’s* total assets without the amount of its liabilities, or the amount of a *company’s* total costs, or income or turnover, without making clear the period to which the statement relates;
 - (e) an implication that the assets of a whole *group* can be drawn on by a *subsidiary* when this is not the case;
 - (f) a comparison of the performance or the likely performance of an investment in *units* in a *regulated collective investment scheme* with an investment in *units* an *unregulated collective investment scheme*.
- (4) In relation to quotations of opinion:
 - (a) where only part of an opinion is quoted, it should nevertheless be a fair representation;
 - (b) any connection between the holder of the opinion and the *firm* should be made clear.
- (5) *Firms* should note that the “return” on an *investment* is the gain or profit; it does not include the original capital invested.

Specific non-real time financial promotions: general requirements

3.8.8

R

/1

A specific non-real time financial promotion must;

- (1) include a fair and adequate description of:
 - (a) the nature of the *investment* or service;
 - (b) the commitment required;
 - (c) the risks involved; and
- (2) if it relates to an *investment* or service of a *person* other than the *firm*, contain the name of that *person*, in addition to the name and address or contact point of the *firm* (see ■ COB 3.8.2).

3.8.9

G

/1

- (1) A *specific non-real time financial promotion* should give a fair and balanced indication of the requirements in ■ COB 3.8.8(1)(a) to (c), to meet ■ COB 3.8.4(1).
- (2) The details of the commitment which is required by ■ COB 3.8.8(1)(b) will depend on the nature of the *investment* being promoted. This could be, for example, the minimum amount which can be invested, minimum or maximum period of *investment* or, where it is the case, the fact that it could be some time before a *person* may see a return on his *investment*.
- (3) In giving a fair and adequate explanation of the *investment* or service being promoted *firms* should avoid:
 - (a) accentuating the potential benefits of an *investment* without also giving a fair indication of the risks;
 - (b) failing to describe any benefits under a *life policy* which are not fixed;
 - (c) drawing attention to favourable tax treatment without stating that this might not continue in the future.
- (4) *Guidance* on the application of ■ COB 3.8.4 to the internet and other electronic media is provided in ■ COB 3.14.
- (5) To assist *firms'* compliance with ■ COB 3.8.4(1) in relation to a *specific non-real time financial promotion* further *guidance* on potential problem areas is given in ■ COB 3 Ann 4.

Specific non-real time financial promotions: non-packaged products

3.8.10

R

/1

A specific non-real time financial promotion relating to a designated investment other than a packaged product must, when it is the case, and if it is known, disclose if the firm or its associate:

- (1) has or may have a position or holding in the *investment* concerned or in a related *investment*; or

- (2) has or may have a *material interest* in any *investment* concerned, and the nature and extent of that interest; or
- (3) is or may be the only *market maker* where the *financial promotion* is for a *security* (excluding *units* in a *collective investment scheme*); or
- (4) is or may be providing, or has or may have provided within the previous 12 months, significant advice or investment services in relation to the *investment* concerned or a related *investment*.

Specific non-real time financial promotions: past performance

3.8.11

R

/1

A *specific non-real time financial promotion* which gives information about the past performance of *specified investments* or of a *firm* must include:

- (1) suitable text:
 - (a) that is specifically designed as suitable for the type of *financial promotion* being promoted and its target audience; and
 - (b) which draws attention to the fact that past performance will not necessarily be repeated; and
- (2) information relating to a relevant and sufficient period of past performance to provide a fair and balanced indication of the performance.

3.8.12

G

/1

- (1) The purpose of ■ COB 3.8.11 is to:
 - (a) prevent an *investment* being promoted in such a way as to induce a *person* to believe that any previous periods of favourable performance will necessarily be repeated in the future; and
 - (b) to encourage *firms* to draft warnings which are tailored to fit the design of the *financial promotion* and the audience to which they are primarily directed. Therefore, for example, text used in a warning included in a specialist magazine may not be useful in a *financial promotion* in the popular press.
- (2) Any of the following may mean that a *specific non-real time financial promotion* does not meet the requirement of ■ COB 3.8.4(1) of being clear, fair and not misleading:
 - (a) an unfair comparison with the performance of another type of *investment*;
 - (b) the selection of an inappropriate or irrelevant investment period;
 - (c) the selection of an unreasonably short time period;
 - (d) the selection of inconsistent time periods for a range of funds;

- (e) a comparison with *deposits* without an indication in clear terms, and with equal prominence, that the *investment* does not include the security of capital which is afforded under a *deposit* with a *bank* or *building society*.
- (3) *Firms* need to take special care when presenting euro-based information as new factors should be taken into account in the calculation and/or comparison of the performance of some products. There may be some techniques of presenting past performance data which can no longer be used because when euro conversion is factored into the calculation it produces a misleading result. *Guidance* cannot deal with all the circumstances in which performance data are used, and it is therefore important for *firms* to look at the end result and the context in which the information is presented to ensure it does not breach ■ COB 3.8.4(1) (clear, fair and not misleading).
- (4) Information on the past performance of a conventional with-profits contract may be relevant to a unitised contract to give potential *policyholders* access to information relating to the performance of a contract within the with-profit fund of a *product provider*. Any differences between the two systems and any factors which reduce the relevance of the past performance of the conventional contract, including differences in bonus policy and the level of charges and expenses, should be clearly explained.

3.8.13

R

/1

A specific non-real time financial promotion, which refers to past performance of a packaged product, must include information about the performance of the packaged product which covers the previous five years (or the whole period if the packaged product has been offered for less than this), ending with the date on which the firm confirms compliance with the rules in this chapter under ■ COB 3.6.1 (or as near as is reasonably practicable).

3.8.14

G

/1

- (1) The information required by ■ COB 3.8.13 should be given on:
 - (a) an offer to bid basis (which should be stated) where there is an actual return or comparison of performance with other *investments*; or
 - (b) an offer to offer, or offer to bid basis (which should be stated) where there is a comparison of performance with an index or with movements in the price of *units*; or
 - (c) a single pricing basis with allowance for charges.
- (2) Where the pricing policy of the *investment* has changed, the prices used to comply with ■ COB 3.8.13 should include such adjustments as are necessary to remove any distortions resulting from the pricing method.
- (3) Where the performance relates to a different *investment* vehicle, any material differences should be stated in the *financial promotion*.

3.8.15

R

/1

Information about past performance in a specific non-real time financial promotion must not be presented in such a manner as to suggest that it constitutes a projection illustrating the possible future value of an investment contract or fund.

3.8.16

G

/1

In determining whether ■ COB 3.8.15 has been satisfied, the *FSA* will take into account:

- (1) the way in which the information about past performance has been presented;
- (2) how it is positioned in the *financial promotion*;
- (3) the wording which accompanies it.

Paragraph headings, or the positioning of information about past performance and current yields next to each other, can sometimes contribute to an overall impression that past performance and future prospects are linked.

Specific non-real time financial promotions: projections for life policies or schemes

- 3.8.17 **R** ^{/1} *A specific non-real time financial promotion relating to a life policy, or a scheme, and which includes a projection must comply with the detailed projection rules in ■ COB 6.6.*

Specific non-real time financial promotions: projections for EIS shares

- 3.8.18 **R** ^{/1} *A specific non-real time financial promotion must not contain a projection of the possible investment return on a direct or indirect investment in EIS shares.*

Specific non-real time financial promotions: provider firms

- 3.8.19 **R** ^{/1} *A provider firm must ensure that it does not communicate or approve a specific non-real time financial promotion relating to a packaged product unless it discloses in the financial promotion that the firm is only able to give advice on investments to private customers about the packaged products of the firm or of its marketing group and (if it is the case) about adopted packaged products.*

- 3.8.20 **G** ^{/1} *Firms are reminded that ■ COB 3.8.19 does not apply to image advertising (see ■ COB 3.2.5(5) (Exemptions) and ■ COB 3.2.7(3)(b) (Guidance on the exemptions)).*

Real time financial promotions

- 3.8.21 **G** ^{/1} *A firm should note that ■ COB 3.10.3 prevents a firm from communicating an unsolicited real time financial promotion other than an exempt financial promotion (which is outside the scope of this chapter) or where one of ■ COB 3.10.3(1) or (2) applies. Many solicited real time financial promotions will be exempt financial promotions (and, therefore, outside the scope of this chapter). Accordingly, ■ COB 3.8.22 applies only to solicited real time financial promotions which are not exempt financial promotions and to unsolicited real time financial promotions within ■ COB 3.10.3(1) or (2).*

3.8.22

R

/1

A *firm* must take reasonable steps to ensure that an individual who makes a *real time financial promotion* on the *firm's* behalf:

- (1) does so in a way which is clear, fair and not misleading;
- (2) does not make any untrue claims;
- (3) makes clear the purpose (or purposes) of the *financial promotion* at the initial point of communication, and identifies himself and the *firm* which he represents;
- (4) if the time and method of communication were not previously agreed by the recipient:
 - (a) checks that the recipient wishes him to proceed;
 - (b) terminates the communication if the recipient does not wish him to proceed (but may ask for another appointment);
 - (c) recognises and respects, promptly, the right of the recipient to:
 - (i) end the communication at any time;
 - (ii) refuse any request for another appointment;
- (5) gives any recipient with whom he arranges an appointment a contact point;
- (6) does not communicate with a *person*:
 - (a) at an unsocial hour, unless the *person* has previously agreed to such a communication;
 - (b) on an unlisted telephone number, unless the *person* has previously agreed to such calls on that number;
- (7) if applicable, acts in conformity with the *rules* in ■ COB 5.1 concerning polarisation and status disclosure.

3.8.23

G

/1

In ■ COB 3.8.22(6)(a) an unsocial hour usually means on a Sunday or before 9am or after 9pm on any other *day*. It could also mean other *days* of the week or other times if the *firm* knows that a particular recipient would not wish to be called on that *day* or at that time for reasons of, for example, religious faith or night shift working.

3.8.24

G

/1

The requirements of ■ COB 3.8.22:

- (1) apply in respect of all individuals who initiate the communication, including *advisers*, call centre operators and *introducers*;
- (2) apply to all forms of *real time financial promotion*, including face to face and telephone *financial promotion*;

3.8.25

G

/1

(3) but do not prevent, for example, a telephone call centre which has received a call from a *person* at an hour generally regarded as unsocial, either responding to that call or asking during the call if the *person* would like details of other investment products.

■ SYSC 3.2.20 (Records) requires a *firm* to take reasonable care to make and retain certain records. For a telemarketing campaign to which ■ COB 3.8.22 applies, those records should include copies of any scripts used.

3.9 Direct offer financial promotions

Application

3.9.1 **R** This section applies to a *firm* which *communicates* or *approves* a *direct offer financial promotion*.
/1

3.9.2 **G** (1) This section includes provisions which apply to all *direct offer financial promotions* and other provisions which apply only to certain kinds of *direct offer financial promotions*. ■ COB 3.9.3 is intended to help *firms* locate the paragraphs which are relevant to them.
/1

(2) ■ COB 3.8.2 to ■ COB 3.8.20 also apply to *direct offer financial promotions*.

(3) Material communicated as one package, such as by direct mail, may be regarded as one *financial promotion* for the purposes of this section.

3.9.3 **G** Table Location of the provisions applicable to direct offer financial promotions
/1 This table belongs to ■ COB 3.9.2

(1)	Exemptions for deposits, general insurance contracts, pure protection contracts and reinsurance contracts	COB 3.9.4G
(2)	Prohibited types of direct offer financial promotions	COB 3.9.5R
(3)	Direct offer financial promotions: general requirements	COB 3.9.6R to COB 3.9.7R
(4)	Cash deposit ISAs	COB 3.9.8R
(5)	Electronic media	COB 3.9.9G
(6)	Packaged products	COB 3.9.10R to COB 3.9.11G
(7)	Execution-only dealing service	COB 3.9.12R to COB 3.9.13G
(8)	Potential problem areas	COB 3.9.14 G
(9)	Information to be contained in direct offer financial promotions regarding:	COB 3.9.14G
	(a) investments which can fluctuate in value	COB 3.9.15R
	(b) life policies	COB 3.9.18R

(c)	taxation	COB 3.9.19R to COB 3.9.20R
(d)	cancellation rights	COB 3.9.21R to COB 3.9.22G
(e)	charges for regulated collective investment schemes	COB 3.9.23R
(f)	penny shares	COB 3.9.24R
(g)	branded funds	COB 3.9.25R
(h)	Enterprise Investment Schemes	COB 3.9.26R to COB 3.9.28R
(i)	income withdrawals	COB 3.9.29R

Exemptions

3.9.4

G

Firms are reminded that under ■ COB 3.2.3:

- (1) ■ COB 3.9 does not apply to a *direct offer financial promotion* relating to:
 - (a) a *deposit* (except a *cash deposit ISA*); or
 - (b) a *general insurance contract*, *pure protection contract*, or *reinsurance contract*; and
- (2) a *direct offer financial promotion* relating to a *cash deposit ISA* must comply with ■ COB 3.9.6(1) and ■ COB 3.9.8.

Prohibited types of direct offer financial promotion

3.9.5

R

(1) A *direct offer financial promotion* must not relate to a *broker fund*.

- (2) A *direct offer financial promotion* must not relate to:
 - (a) an *unregulated collective investment scheme*;
 - (b) a *derivative*; or
 - (c) a *warrant*;

unless the *firm* itself has adequate evidence to suggest that the *investment* may be suitable for the *person* to whom the promotion is *communicated*.

Direct offer financial promotions: general requirements

- 3.9.6 **R** /1
- (1) A *direct offer financial promotion* must contain sufficient information to enable a *person* to make an informed assessment of the *investment* or service to which it relates.
 - (2) In particular, a *direct offer financial promotion* must contain the information set out in ■ COB 3.9.7.

- 3.9.7 **R** /1
- Table Direct offer financial promotions: particular information required
This table belongs to ■ COB 3.9.6(2)

Direct offer financial promotions: particular information required

- (1) A prominent statement that the *firm* which has *communicated* or *approved* the *financial promotion* is regulated or authorised by the *FSA*.
- (2) A prominent statement that, if a *person* has any doubt about the suitability of the agreement which is the subject of the *financial promotion*, he should contact the *firm* for advice (or an independent financial adviser if the *firm* does not offer advice).
- (3) The full name and address of the *person* who is offering the *investment* or service being promoted (and, if different, the full name and address of the *firm communicating*, or *approving*, the *financial promotion*).
- (4) If the *financial promotion* is *communicated* by a *firm* whose *permission* includes a *requirement* that it must not hold *client money*, the name of the *person* to whom payment (if any) should be made.
- (5) Details of the basis or amount of any *charges* and expenses which the *private customer* will or may bear.
- (6) Details of the basis or amount of any *commission* or remuneration which might be payable by the *firm* to another *person*.

Cash deposit ISAs

- 3.9.8 **R** /1
- (1) A *direct offer financial promotion* relating to a *cash deposit ISA* must contain the information required by ■ COB 6.5.42.
 - (2) Paragraph (1) does not apply to a *bank* or *building society* which subscribes to, and includes in the *direct offer financial promotion* the information relating to a *cash deposit ISA* that is suggested in the January 2001 edition of, the Banking Code issued by the British Bankers' Association, the Building Societies Association and the Association for Payment Clearing Services.

Electronic media

- 3.9.9 **G**_{/1} *Guidance*, including information on *direct offer financial promotions* on the internet and other electronic media, is provided in ■ COB 3.14.

Packaged products

- 3.9.10 **R**_{/1} A *direct offer financial promotion* relating to a *packaged product* must contain the information required by ■ COB 6.5 (Contents of key features).

- 3.9.11 **G**_{/1} The information should follow, where possible, the same *order* as *key features*. But adjustments may be made to the order, where this would assist design and understanding of the material.

Execution-only dealing services

- 3.9.12 **R**_{/1} A *direct offer financial promotion* relating to an execution-only dealing service must in particular, if it is the case, contain a clear statement that:
- (1) the *firm's* procedures are such that there may be a delay in the execution of a *customer order*, including the reason for and the normal maximum extent of any such delay;
 - (2) *customer orders* may on occasion be aggregated (in which case the statement must comply with ■ COB 7.7.4).

- 3.9.13 **G**_{/1} The purpose of ■ COB 3.9.12 (1) is to ensure that explanations are given when *firms'* procedures might, for example, involve dealing every hour or at certain times of the *day*. Details of external factors over which the *firm* has no control are not required.

Potential problem areas for direct offer financial promotions.

- 3.9.14 **G**_{/1} To assist *firms'* compliance with ■ COB 3.8.4(1) in relation to a *direct offer financial promotion*, further *guidance* on potential problem areas is given in ■ COB 3 Ann 4.

Investments which can fluctuate in value

- 3.9.15 **R**_{/1} (1) A *direct offer financial promotion* relating to an *investment* which can fluctuate in value, or which offers income distributions which may fluctuate, must make this clear in terms which are likely to be understood by the kind of recipient to whom the *financial promotion* is *communicated*.

- (2) **The explanation given in conformity with (1) must be set out with due prominence and in a print size no smaller than that used in the main text of the *financial promotion*.**

3.9.16

G
/1

The FSA will expect the explanation required by ■ COB 3.9.15 to be contained within the main body of the *financial promotion*, and not in small print at the very end. *Firms* which choose to include it in a separate ‘stand-alone’ statement should satisfy themselves on reasonable grounds that this is likely to offer the best prospect of it being seen and read and should record such reasons for the purposes of ■ COB 3.7 (Records).

3.9.17

G
/1

Examples of explanations which could meet ■ COB 3.9.15 are:

- (1) ‘You are not certain to make a profit; you may lose money/make a loss’;
- (2) ‘You may not get back the full amount of your investment’;
- (3) (for investment income): ‘The income is not fixed - it can go up or down’;
- (4) (for contingent liabilities): ‘You could lose all the money you invested and you may have to pay more later’;
- (5) (for *higher volatility funds*): ‘This investment may be subject to sudden and large falls in value, you could get back nothing at all’;
- (6) (for property funds):
 - (a) ‘This fund invests in property and land. This can be difficult to sell - so you may not be able to sell/cash in this investment when you want to. We may have to delay acting on your instructions to sell your investment’;
 - (b) ‘The value of property is generally a matter of a valuer’s opinion rather than fact’;
- (7) (for an *Enterprise Investment Scheme*):
 - (a) ‘It may be difficult to sell your investment, or to get accurate information about how much it is worth or how risky it is’;
 - (b) ‘These are unquoted securities which may have more risks than quoted securities or shares’;
 - (c) ‘Investments in unquoted securities may be difficult to sell. Market makers may not be prepared to deal in them. This scheme may invest in private companies and restrictions may apply to the transfer of these private company securities’;
 - (d) ‘Proper information for working out the current value of investments may not be available’;
- (8) (for *property enterprise trusts* and *Enterprise Zone Property Unit Trusts*):
 - (a) ‘The value of the property in these schemes can go down as well as up. The initial price of Enterprise Zone property may be distorted as a result of the tax allowances and other benefits available - it may often be necessary to pay a higher price for this property compared with other property’;
 - (b) ‘There is no established market in this investment’;

- (c) 'This investment is designed to be held for a very long time (normally 25 years). You may have difficulty selling it. You should not invest in this if you may need to sell early';
- (d) 'Do not invest in this investment unless you have carefully thought about whether you can afford it and whether it is right for you';
- (9) (for *non-readily realisable investments*): 'You may have difficulty selling this investment at a reasonable price and, in some circumstances, it may be difficult to sell it at any price. Do not invest in this unless you have carefully thought about whether you can afford it and whether it is right for you';
- (10) (for *front end loaded* contracts): 'We take most of our charges in the early years of this investment. This means that if you withdraw during this time you may lose money/get back less than you invested';
- (11) (for with-profit *life policies*): 'The value of this policy depends on how much profit we make and how we may decide to distribute this profit';
- (12) (for *penny shares*): 'There is an extra risk of losing money when shares are bought in some smaller companies including penny shares. There is a big difference between the buying price and the selling price of these shares. If they have to be sold immediately, you may get back much less than you paid for them. The price may change quickly and it may go down as well as up';
- (13) (for foreign currency denominated *investments*): 'Changes in the rates of exchange between currencies may cause your investment/the income to go down or up';
- (14) (for *investments* where the market is restricted): 'There is only one market maker', and/or 'the only market maker is the communicator of the financial promotion or an associate of the issuer'.

Life policies

3.9.18 **R** *A direct offer financial promotion which relates to a life policy must state:*
/1

- (1) which benefits (if any) are fixed amounts, and what those amounts are; and
- (2) which benefits are not fixed amounts.

Taxation

3.9.19 **R** *A direct offer financial promotion must include a summary of the taxation of any investment to which it relates and the taxation consequences for investors generally.*
/1

3.9.20 **R** *A firm must include in a direct offer financial promotion:*
/1

- (1) a warning that taxation levels, bases and (if relevant) reliefs can change;
- (2) the assumed rate of taxation;
- (3) (where taxation reliefs are mentioned) statements:
 - (a) distinguishing between reliefs which apply directly to investors and anyone else;
 - (b) that the reliefs are the ones which currently apply; and
 - (c) that the value depends upon the circumstances of the investor; and
- (4) where the words ‘free from tax liability’, or similar are used and it is the case, a statement making clear that this describes the benefits when paid to the investor, and a statement with equal prominence that the income is payable out of a fund which has already paid income tax, corporation tax or capital gains tax (whichever applies).

Cancellation rights

3.9.21

R
/1

- (1) A *direct offer financial promotion* which relates to an *investment* which is subject to cancellation or withdrawal rights must describe those rights and explain:
 - (a) the length of the cancellation or withdrawal period, and when it will begin;
 - (b) whether cancellation or withdrawal is a legal right or voluntarily conferred;
 - (c) (if it is the case) that there might be a *shortfall*, or, if applicable, a significant *shortfall*, on cancellation.
- (2) A *direct offer financial promotion* which relates to an *EIS* or *non-packaged product*, *ISA* or *PEP* for which no right to withdraw is given under case 8 of column 2, ■ COB 6.7.17, must include the statement required by that provision.

3.9.22

G
/1

The description ‘significant *shortfall*’ is appropriate for *higher volatility funds* where a large proportion of the *investment* may be lost during the cancellation period.

Charges for regulated collective investment schemes

- 3.9.23 **R** /1 *A direct offer financial promotion relating to a regulated collective investment scheme must give an adequate explanation of the charging structure and make clear:*
- (1) whether all or part of the *scheme* expenses will be taken out of capital or income; and
 - (2) the likely long-term effect on capital or income.

Penny shares

- 3.9.24 **R** /1 *If an indication of the price of a particular penny share is included in a direct offer financial promotion, the bid-offer spread must also be included (based on the best price available in the relevant market at the time for transactions of the largest bid or offer price of that share).*

Branded funds

- 3.9.25 **R** /1 *A direct offer financial promotion relating to a branded fund must include a statement that the firm responsible for the promotion does not manage the investments in the branded fund, together with the name and address of the manager.*

Enterprise Investment Schemes

- 3.9.26 **R** /1 *A direct offer financial promotion relating to an Enterprise Investment Scheme must contain:*
- (1) the information specified in **■ COB 3 Ann 2**;
 - (2) (a) either a copy of the prospectus; or
(b) if no prospectus is required by the *POS Regulations*, the information specified in **■ COB 3.9.27** relating to each *company* in which the *Enterprise Investment Scheme* manager has a material interest and intends to acquire interests on behalf of the scheme;
 - (3) a prominent statement that applications may only be made and accepted subject to the terms and conditions of the *Enterprise Investment Scheme* particulars and prospectus (if applicable); and
 - (4) a prominent explanation of any right to withdraw (under **■ COB 6.7**) or, where it is the case, that such rights will not apply.

- 3.9.27** G_{/1} To meet the requirements of ■ COB 3.9.26, an *Enterprise Investment Scheme* should include the following information about the company issuing the *EIS shares*:
- (1) assets and liabilities;
 - (2) financial position;
 - (3) profits and losses;
 - (4) prospects; and
 - (5) rights attaching to the *EIS shares*.

- 3.9.28** R_{/1} In addition to the requirements of ■ COB 3.9.26, a *direct offer financial promotion* relating to a private offer of *EIS shares* must include the information specified in ■ COB 3 Ann 3.

Income withdrawal

- 3.9.29** R_{/1} A *direct offer financial promotion* relating to, or offering a facility for, *income withdrawals* must include the following explanations:
- (1) taking withdrawals may erode the capital value of the fund, especially if investment returns are poor and a high level of income is taken; this could result in a lower income when the annuity is eventually purchased;
 - (2) the investment returns may be less than those shown in the illustrations;
 - (3) annuity rates may be at a worse level when annuity purchase eventually takes place; and
 - (4) if the maximum withdrawals permitted by Inland Revenue regulations are to be taken, high *income withdrawals* may not be sustainable during the deferral period.

3.10 Unsolicited real time financial promotions

Meaning of "solicited" and "unsolicited" real time financial promotion

3.10.1

R

/1

- (1) *An unsolicited real time financial promotion is a real time financial promotion which is not a solicited real time financial promotion.*
- (2) *A solicited real time financial promotion is a real time financial promotion which is solicited, that is, it is made in the course of a personal visit, telephone call or other interactive dialogue if that call, visit or dialogue:*
 - (a) *was initiated by the recipient of the financial promotion; or*
 - (b) *takes place in response to an express request from the recipient of the financial promotion;*

and it is clear from all the circumstances when the call, visit or dialogue is initiated or requested that during the course of the visit, call or dialogue financial promotions would be made concerning the kind of controlled activities or controlled investment to which the financial promotion relates.
- (3) *In (2), a person is not to be treated as expressly requesting a call, visit or dialogue:*
 - (a) *because he omits to indicate that he does not wish to receive any or any further visits or calls or to engage in any or any further dialogue;*
 - (b) *because he agrees to standard terms that state that such visits, calls or dialogues will take place unless he has signified clearly that, in addition to agreeing to the terms, he is willing for them to take place.*
- (4) *If a real time communication is solicited by a person ("R") it is treated as also having been solicited by any other person to whom it is made at the same time as R if that other person is a close relative of R or is expected to engage in any investment activity jointly with R.*

3.10.2

G
/1

■ COB 3.10.1 is based on article 8 of the *Financial Promotion Order*. Guidance on whether a *real time financial promotion* is solicited is contained in ■ AUTH App [] (Types of communication).

Restriction of unsolicited real time financial promotions

3.10.3

R
/1

A firm must not make an *unsolicited real time financial promotion* unless:

- (1) the recipient has an established existing customer relationship with the *firm* and the relationship is such that the recipient envisages receiving *unsolicited real time financial promotions*; or
- (2) the *financial promotion* relates to a generally marketable *packaged product* which is not:
 - (a) a *higher volatility fund*; or
 - (b) a *life policy* with a link (including a potential link) to a *higher volatility fund*.

3.10.4

G
/1

Firms are reminded of the exemptions in ■ COB 3.2.5; ■ COB 3.10.3 does not prohibit an exempt *unsolicited real time financial promotion*.

3.11 Unregulated collective investment schemes

Introduction

3.11.1

G

/1

- (1) Under section 238(1) of the *Act* (Restrictions on promotion), an *authorised person* must not *communicate* an invitation or inducement to participate in an *unregulated collective investment scheme* ("the scheme promotion restriction").
- (2) However, the Financial Services and Markets Act 2000 (Promotion of Collective Investment Schemes) (Exemptions) Order 2001 (SI 2001/1060) exempts from the scheme promotion restriction certain types of communications relating to *unregulated collective investment schemes*.
- (3) In addition, section 238(5) of the *Act* gives the *FSA* power to make *rules* exempting from the scheme promotion restriction certain promotions relating to *unregulated collective investment schemes*, provided that they are not made to the general public. The purpose of **■ COB 3.11.2** is to make appropriate use of the power which the *FSA* has under section 238(5) of the *Act*.
- (4) Under section 240 of the *Act* (Restriction on approval of promotion), an *authorised person* cannot *approve*, for the purposes of section 21, the content of a communication relating to an *unregulated collective investment scheme* if he would not have been able, under section 238(1), to *communicate* it himself.

Exemptions from the scheme promotion restriction

3.11.2

R

/1

A firm may communicate an invitation or inducement to participate in an unregulated collective investment scheme if the communication falls within **■ COB 3 Ann 5.**

3.11.3

G

/1

- (1) A *firm* may *communicate* an invitation or inducement to participate in an *unregulated collective investment scheme* only if either:
 - (a) the communication falls within **■ COB 3 Ann 5**; or
 - (b) the communication is exempt from the scheme promotion restriction under the Financial Services and Market Act 2000 (Promotion of Collective Investment Schemes) (Exemptions) Order 2001.
- (2) *Firms* are reminded that if an invitation or inducement is within **■ COB 3 Ann 5**, then all relevant *rules* in this chapter apply, including in particular **■ COB 3.9.5(2)(a)** (which prohibits the *communication* or *approval of direct offer*

financial promotions relating to *unregulated collective investment schemes* except in specified circumstances).

Limited disapplication of this chapter

3.11.4 **R** This chapter applies only in relation to invitations or inducements
/1 that may be *communicated* by a *firm* without contravening section 238(1) of the *Act*.

3.11.5 **G** The purpose of ■ COB 3.11.4 is to give effect to the limitation of the *FSA's*
/1 rule-making power in section 145(3)(b) of the *Act* (Financial promotion rules).

3.12 Communication and approval of financial promotions for an overseas person or an unauthorised person

Approval of financial promotions

3.12.1

G

/1

- (1) Section 21(1) of the *Act* (Restrictions on financial promotion) prohibits an *unauthorised person* from *communicating* a *financial promotion*, in the course of business, unless an exemption applies or the *financial promotion* is *approved* by a *firm*. (An overview of the main exemptions in the *Financial Promotion Order* is in ■ COB 3 Ann 1.)
- (2) Most of the *rules* in this chapter apply when a *firm approves* a *financial promotion* in the same way as when a *firm communicates* a *financial promotion* itself. A *firm* therefore has a similar responsibility for a *financial promotion* that it *approves* as for one that it *communicates*. For example, a *firm* which *approves* a *non-real time financial promotion* must:
 - (a) if ■ COB 3.6.1 applies, confirm that the *financial promotion* complies with the *rules* in this chapter; and
 - (b) if ■ COB 3.8.4(1) applies, be able to show that it has taken reasonable steps to ensure that the *financial promotion* is clear, fair and not misleading.
- (3) A *firm* may also wish to *approve* a *financial promotion* that it *communicates* itself. This would ensure that an *unauthorised person* who then also *communicates* the *financial promotion* to another *person* will not contravene the restriction on *financial promotion* in section 21(1) of the *Act* (Restrictions on financial promotion).
- (4) A *firm* which *approves* a *financial promotion* that is exempt under ■ COB 3.2.5 (Exemptions) or ■ COB 3.3.1 (Application; where?) must still comply with certain *rules* in this chapter (see ■ COB 3.2.4(2) and (3) and ■ COB 3.3.3(2)).

No approval of real time financial promotions

3.12.2

R

/1

A firm must not approve a real time financial promotion.

Approval of financial promotions when not all the rules apply

3.12.3 **R** ^{/1} If a *firm approves a financial promotion* in circumstances in which one or more of the *rules* in this chapter, or the prohibition in section 240(1) of the *Act* (Restriction on approval), are expressly disapplied, the *approval* must be given on terms that it is limited to those circumstances.

3.12.4 **G** ^{/1} For example, if a *firm approves a financial promotion* relating to an *unregulated collective investment scheme* under one or more of the exemptions in the table in ■ COB 3 Ann 5, the *approval* must be limited to *communication* of the *financial promotion* to the relevant class of *person* in the left hand column of the table. Similarly, if a *firm approves a financial promotion* for *communication to market counterparties* and *intermediate customers* (see ■ COB 3.2.5(1)), the *approval* must be limited to *communication* to such *persons*.

3.12.5 **G** ^{/1} If an *approval* is limited in accordance with ■ COB 3.12.3, and an *unauthorised person communicates* the *financial promotion* to *persons* not covered by the *approval*, the *unauthorised person* may commit an *offence* under section 21(1) of the *Act* (Restrictions on financial promotion). A *firm* giving a limited *approval* may wish to advise the *unauthorised person* accordingly.

Specific non-real time financial promotions for overseas persons

3.12.6 **R** ^{/1} A *firm* must not *communicate* or *approve* a *specific non-real time financial promotion* which relates to an *investment* or service of an *overseas person*, unless:

- (1) the *financial promotion* makes clear which *firm* has *approved* or *communicated* it and, where relevant, explains:
 - (a) that the *rules* made under the *Act* for the protection of *private customers* do not apply;
 - (b) the extent and level to which the *compensation scheme* will be available, or if the scheme will not be available, a statement to that effect; and
 - (c) if the communicator wishes, the protection or compensation available under another system of regulation; and
- (2) the *firm* has no reason to doubt that the *overseas person* will deal with *private customers* in the *United Kingdom* in an honest and reliable way.

3.12.7 **G** ^{/1} In considering which points are relevant for the purposes of ■ COB 3.12.6(1), the activities, and the associated products or services of the *overseas person* will need to be separately considered.

3.13 Additional requirements for financial promotions for an overseas long-term insurer

3.13.1

R

/1

- (1) *A firm must not communicate or approve a financial promotion to enter into a life policy with a person who is not:*
- (a) *an authorised person; or*
 - (b) *an exempt person who is exempt in relation to effecting or carrying out contracts of insurance of the class to which the financial promotion relates; or*
 - (c) *a company which has its head office in an EEA State other than the United Kingdom and which is entitled under the law of that State to carry on there insurance business of the class to which the financial promotion relates; or*
 - (d) *a company which has a branch or agency in an EEA State other than the United Kingdom and is entitled under the law of that State to carry on there insurance business of the class to which the financial promotion relates; or*
 - (e) *a company authorised to carry on insurance business of the class to which the financial promotion relates in any country or territory which is listed in (2).*
- (2) *The countries or territories referred to in (1)(e) are:*
- (a) *the Bailiwick of Guernsey;*
 - (b) *the Isle of Man;*
 - (c) *the Commonwealth of Pennsylvania;*
 - (d) *the State of Iowa; and*
 - (e) *the Bailiwick of Jersey.*
- (3) *For the purposes of (1), Gibraltar shall be regarded as if it were an EEA State.*

- 3.13.2 **R** ^{/1} A *financial promotion* for an *overseas long-term insurer*, which has no establishment in the *United Kingdom*, must include:
- (1) the full name of the *overseas long-term insurer*, the country where it is registered, and, if different, the country where its head office is situated;
 - (2) a prominent statement that ‘holders of policies issued by the company will not be protected by the Financial Services Compensation Scheme if the company becomes unable to meet its liabilities to them’; and,
 - (3) where any trustee, *investment manager* or *United Kingdom* agent of the *overseas long-term insurer* is named which is not independent of the *overseas long-term insurer*, a prominent statement of that fact.

- 3.13.3 **R** ^{/1} A *financial promotion* for an *overseas long-term insurer* which is authorised to carry on *long-term insurance business* in any country or territory listed in ■ COB 3.13.1(2) must also include:
- (1) the full name of any trustee of property of any description which is retained by the *overseas long-term insurer* in respect of the promoted contracts;
 - (2) an indication whether the investment of such property (or any part of it) is managed by the *overseas long-term insurer* or by another *person* and the full name of any *investment manager*;
 - (3) the registered office of any such trustee and of any *investment manager* and of his principal office (if different); and
 - (4) where any *person* in the *United Kingdom* takes, or may take, any steps on behalf of the *overseas long-term insurer* to enter into a promoted contract, the following details about that *person*:
 - (a) the full name of the *overseas long-term insurer*;
 - (b) the registered or head office in the *United Kingdom*; and,
 - (c) if there is more than one such *person*, the principal or main *person* in the *United Kingdom*.

- 3.13.4 **R** ^{/1} If a *financial promotion* relates to a *life policy* with an *overseas long-term insurer* but does not name the *overseas long-term insurer* by giving its full name or its business name:
- (1) it must include the following prominent statement: “This financial promotion relates to an insurance company which does not, and is not authorised to, carry on in any part of the United Kingdom the class of insurance business to which this promotion relates. This means that the management and solvency of the company are not

supervised by the Financial Services Authority. Holders of policies issued by the company will not be protected by the Financial Services Compensation Scheme if the company should become unable to meet its liabilities to them”; and

(2) if it also refers to other *investments* it must make this clear.

3.13.5

G

For the purposes of ■ COB 3.13.2(2) and (3) and ■ COB 3.13.4(1) a prominent statement is one that is:

/1

- (1) made immediately after the full name;
- (2) alongside the full name; or
- (3) where the name is stated more than once, the most prominent or the first if equally prominent.

3.14 The internet and other electronic media

- 3.14.1** G_{/1} This section contains *guidance* on the use of the internet and other electronic media to *communicate financial promotions*. *Firms* are also referred to the *guidance* in ■ COB 1.8.

Approach and general guidance

- 3.14.2** G_{/1} Any material which meets the definition of a *financial promotion*, including any video or moving image material incorporated in any website containing a *financial promotion*, should comply with the *rules* in this chapter. See ■ AUTH App [] for further guidance on *financial promotions* on the internet, including the treatment of hyperlinks and banners.

- 3.14.3** G_{/1} As indicated in ■ COB 3.5.4 for the purposes of the *financial promotion rules*, there are two types of approach to *financial promotions* communicated via the internet and other electronic media:

- (1) *real time financial promotions* where the communication is in the form, for example, of a telephone conversation or other form of interactive dialogue; and
- (2) *non-real time financial promotions*, where the recipient may, for example, choose from reading a description of an *investment* or service, through to the completion of a contract via a *direct offer financial promotion* in a similar way to browsing through a leaflet rack. The *rules* in this chapter relating to hard copy *financial promotions* such as advertisements in magazines or newspapers apply equally to such promotions.

E-mails, material displayed on a website and sound and television broadcasts are *non-real time financial promotions* (see ■ COB 3.5.5).

- 3.14.4** G_{/1}
- (1) Before using the internet, digital or any other form of interactive television or other electronic media to promote its services a *firm* should refer to legislation such as the Data Protection Act 1998 and the Computer Misuse Act 1990, as well as to this chapter.
 - (2) When designing websites and other electronic media, *firms* should be aware of the difficulties that can arise when reproducing certain colours and printing certain types of text. These difficulties could cause problems with the presentation and retrieval of required information. Any *financial promotion* communicated by the internet, digital or other forms of interactive television is subject to the requirements set out in ■ COB 3.6 to ■ COB 3.9 as applicable.

Specific guidance

3.14.5

G

/1

- (1) *Key features* and written contractual terms
 - (a) To meet the requirements of ■ COB 3.9.10, a *firm* should make it clear that the information is available to a recipient of the *direct offer financial promotion*, and easily obtainable, before any application is made.
 - (b) It is important that recipients should have the opportunity to view the full text of the relevant *key features*, terms and conditions, customer agreement and any other applicable risk information required by the *rules*.
 - (c) This can be achieved through the use of a hypertext link, as long as it is not hidden away in the body of the text where a recipient could miss it when browsing through the pages.
 - (d) Local printing of information by the user should be allowed, where feasible. *Firms* should endeavour to provide hard copy on request.
- (2) Application forms
 - (a) It is not necessary for access to an application form to be denied until the recipient has read *key features* and other contractual terms, but *firms* should ensure that on the application form, or in the preceding text, they draw attention to the existence of this material and the importance of reading it, as relevant business will be conducted on the basis of the *key features* and written contractual terms.
 - (b) A *financial promotion* may be a *direct offer financial promotion* even if the *firm* is unable to provide a copy of the application form electronically.
- (3) Exemptions

■ COB 3.2.4 (Application: what?: Exemptions) and ■ COB 3.3.1 (Territorial scope) contain exemptions from this chapter which depend on a particular *financial promotion* being made or directed only at certain *persons*. ■ COB 3.5.6 sets out the meaning of "made" and "directed at" in this context. ■ COB 3.5.7 and ■ COB 3.3.6 (respectively) set out various conditions relevant for determining whether a *financial promotion* will be regarded as directed only at such *persons*.
- (4) *Unregulated collective investment schemes*

A *firm* which *communicates* an invitation or inducement to participate in an *unregulated collective investment scheme* by means of a website it may take advantage of the exemptions in ■ COB 3 Ann 5. But if it does so, it must in accordance with that annex design the website to reduce, as far as possible, the risk of participation by *persons* to whom the invitation or inducement may not be promoted (as described in ■ COB 3.11). ■ COB 3.5.7 sets out various conditions relevant for determining whether that test is satisfied.
- (5) The *FSA* website

The *FSA's* website <http://www.fsa.gov.uk> contains a wide range of information including pages of specific relevance to *customers*. *Firms* may, if they wish, include a reference or hyperlink to the *FSA's* site; this will not however, replace any requirements of the *financial promotion rules*.

(6) Record-keeping: continuously updated market information

- COB 3.7.1 requires a *firm* to make and retain an adequate record of a *non-real time financial promotion*. If the *non-real time financial promotion* includes market information that is updated continuously in line with the relevant market, the record will be adequate without recording that information. But see ■ COB 7.12.9 and ■ COB 7.12.10 (Orders received over the Internet) regarding giving a *customer* access to such information in conjunction with the ability to place a *customer order* by relying on such information.

An overview of some of the main exemptions contained in the Financial Promotion Order (G)

1 Table

This annex belongs to COB 3.2.7G(2) and summarises some of the main exemptions in the *Financial Promotion Order*. It is not an exhaustive list, and does not seek to replace the Order itself. The first column contains the article number, and the name of the exemption as set out in the *Financial Promotion Order*, the second column indicates to which type of *financial promotions* the exemption applies (unsolicited real time, solicited real time or non-real time), the third column indicates to which *controlled activities* and *controlled investments* the exemption applies and the final column gives a brief summary of the principal conditions required by the exemption. In all cases, *firms* wishing to use an exemption should consult the Order and in particular take note of the conditions which apply. References to articles are to articles of the *Financial Promotion Order* and to paragraphs are to paragraphs of schedule 1 to the *Financial Promotion Order*.

2 Table

Article no. and name of exemption	Type of promotion: Unsolicited real time, solicited real time, non-real time	Controlled activity/ controlled investment	Other conditions
17 Generic promotions	All	All	Does not identify (directly or indirectly) a <i>person</i> who provides the <i>controlled investment</i> to which the <i>financial promotion</i> relates; and does not identify directly or indirectly any <i>person</i> as a <i>person</i> who carries on a <i>controlled activity</i> in relation to that <i>controlled investment</i> .
18 Mere conduits	All	All	Made by a <i>person</i> who acts as a mere conduit for it.
19 Investment professionals	All	All	Made only to recipients whom the <i>person</i> making the <i>communication</i> believes on reasonable grounds to be <i>investment professionals</i> ; or may reasonably be regarded as directed only at such recipients.
22 Deposits: non-real time communications	<i>Non-real time</i>	Accepting deposits within paragraph 1	Accompanied by information specified in article 22(2).

Article no. and name of exemption	Type of promotion:	Controlled activity/ controlled investment	Other conditions
	Unsolicited real time, solicited real time, non-real time		
23 Deposits: real time communications	<i>Real time</i>	Accepting deposits within paragraph 1	None.
24 Relevant insurance activity: non-real time communications	<i>Non-real time</i>	Effecting and carrying out contracts of insurance within paragraph 2 in relation to <i>contracts of insurance other than life policies</i>	Accompanied by information specified in article 24(2).
26 Relevant insurance activity: real time communications	<i>Real time</i>	Effecting and carrying out contracts of insurance within paragraph 2 in relation to <i>contracts of insurance other than life policies</i>	None.
28 One off non-real time communications and solicited real time communications	<i>Solicited real time</i> <i>Non-real time</i>	Note 1	One off communication.
38 Persons in business of placing promotional material	All	Note 1	Made to a <i>person</i> whose business it is to place, or arrange for the placing of, promotional material provided that it is <i>communicated</i> so that he can place or arrange for placing it.

Article no. and name of exemption	Type of promotion: Unsolicited real time, solicited real time, non-real time	Controlled activity/ controlled investment	Other conditions
40 Participants in certain recognised collective investment schemes	<i>Solicited real time</i> <i>Non-real time</i>	Note 1	Made by a <i>person</i> who is the operator of a scheme recognised under section 270 or 272 of the <i>Act</i> ; and to <i>persons</i> in the <i>United Kingdom</i> who are <i>participants</i> in any such recognised scheme operated by the <i>person</i> making the <i>communication</i> ; and which relates only to such recognised schemes as are operated by that <i>person</i> or to <i>units</i> in such schemes.
48 Certified high net worth individuals	<i>Solicited real time</i> <i>Non-real time</i>	Note 2	(1) Made to a certified high net worth individual (as defined by article 48(2)); and (2) does not invite or induce the recipient to engage in investment activity with the person who signed the certificate of high net worth; and (3) accompanied by an indication of the matters specified by article 48(4).
49 High-net worth companies, unincorporated associations etc	All	Note 1	Either: (1) made only to recipients whom the <i>person</i> making the <i>financial promotion</i> believes on reasonable grounds to be <i>persons</i> to whom the conditions set out in the article apply; or (2) may reasonably be regarded as directed only at such <i>persons</i> .
50 Sophisticated investors	All	Note 1	(1) Made to a certified sophisticated investor (as defined by article 50(1)); (2) does not invite or induce the recipient to engage in investment activity with the <i>person</i> who has signed the certificate; (3) relates only to a description of <i>investment</i> in respect of which that investor is certified; and

Article no. and name of exemption	Type of promotion: Unsolicited real time, solicited real time, non-real time	Controlled activity/ controlled investment	Other conditions
51 Associations of high net worth or sophisticated investors	<i>Solicited real time</i> <i>Non-real time</i>	Note 1	(4) accompanied by an indication of the matters specified by article 50 (3). (1) Made to an association, the membership of which the <i>person</i> making the <i>financial promotion</i> believes on reasonable grounds comprises wholly or predominantly <i>persons</i> who are certified high net worth individuals within article 48, high net worth persons within article 49(2)(a) to (d) and certified sophisticated investors within article 50; and (2) relates only to an <i>investment</i> under the terms of which a <i>person</i> cannot incur a liability or obligation to pay or contribute more than he commits by way of <i>investment</i> .
59 Annual accounts and directors' report	All	Note 3	Made by a <i>body corporate</i> (other than an <i>open-ended investment company</i>) which consists of, or is accompanied by, the whole or any part of the annual accounts, or is accompanied by the <i>directors'</i> report, and complies with the requirements specified by article (59).
62 Sale of body corporate	All	Note 1	(1) Made by a <i>company</i> , a <i>partnership</i> , a single individual or a group of connected individuals; (2) relates to a transaction to acquire or dispose of shares in a <i>company</i> (other than an <i>open-ended investment company</i>) or is entered into for the purposes of such an acquisition or disposal, and (3) either certain conditions are satisfied or the object of the transaction may reasonably be regarded as being the acquisition of day to day control of the affairs of the <i>company</i> .

Article no. and name of exemption	Type of promotion: Unsolicited real time, solicited real time, non-real time	Controlled activity/ controlled investment	Other conditions
67 Promotions required or permitted by market rules	<i>Solicited real time</i> <i>Non-real time</i>	Note 4	<i>Financial promotion</i> is required or permitted to be <i>communicated</i> by the rules of the relevant market, a body which regulates the market, or a body which regulates offers or issues of <i>investments</i> to be traded on such a market.
70 Promotions in connection with listing applications	<i>Solicited real time</i> <i>Non-real time</i>	Note 1	<i>Financial promotion</i> to which <i>listing rules</i> apply.
71–73 Promotions included in listing particulars and prospectuses	<i>Non-real time</i>	Note 1	These articles contain details of exemptions relating to <i>financial promotions</i> included in listing particulars and prospectuses for public offers of listed securities and <i>financial promotions</i> relating to prospectuses for public offers of unlisted securities.

3 Table Notes to ■ COB 3 Ann 1 table 2.

Notes to Annex 1G

Note 1:

References in these notes to paragraphs are to paragraphs of schedule 1 to the *Financial Promotion Order*. The *controlled investments* italicised in these notes are defined in the same way in both the *Financial Promotion Order* and the *Regulated Activities Order*.

- (1) effecting and carrying out contracts of insurance within paragraph 2 in relation to *life policies*;
- (2) dealing in securities and contractually based investments within paragraph 3;
- (3) arranging deals in investments within paragraph 4;
- (4) managing investments within paragraph 5;
- (5) safeguarding and administering investments within paragraph 6;
- (6) advising on investments within paragraph 7;
- (7) advising on syndicate participation at Lloyds within paragraph 8;
- (8) providing funeral plan contracts within paragraph 9;
- (9) agreeing to carry on any of (2) to (8) within paragraph 11

Note 2:

The *controlled activities* specified in Note 1 carried on in relation to one or more of:

- (1) *shares* (paragraph 14) being stock or shares in an unlisted company;

Note 2:

- (2) *debentures* (paragraph 15) acknowledging the indebtedness of an unlisted company;
- (3) *warrants* (paragraph 17) and *certificates representing certain securities* paragraph 18) conferring entitlements or rights with respect to (1) or (2);
- (4) *units* (paragraph 19) in a *collective investment scheme* which invests wholly or predominantly in (1) or (2);
- (5) *options* (paragraph 21) to acquire or dispose of (1), (2) or (3);
- (6) *futures* (paragraph 22) which are a rights under a control for the sale of (1), (2) or (3);
- (7) *contracts for differences* (paragraph 23) which relate to or to fluctuations in the value or price of (1), (2) or (3)

provided that in each case the investor cannot under the terms of the investment incur a liability or obligation to pay or contribute more than he commits by way of investment.

Note 3:

The *controlled activities* specified in Note 1 carried on in relation to one or more of:

- (1) *shares* (paragraph 14)
- (2) *debentures* (paragraph 15)
- (3) *warrants* (paragraph 17) and *certificates representing certain securities* (paragraph 18) so far as relating to (1) or (2)

Note 4:

The *controlled activities* specified in Note 1 carried on in relation to one or more of:

- (1) *shares* (paragraph 14)
- (2) *debentures* (paragraph 15)
- (3) *government and public securities* (paragraph 16)
- (4) *warrants* (paragraph 17)
- (5) *certificates representing certain securities* (paragraph 18)

in each case which is permitted to be traded or dealt in on a relevant market (as defined in article 67(2)).

Contents of Enterprise Investment Scheme particulars (R)

1 This annex forms part of ■ COB 3.9.26R(1).

2 Table

The following statements, to be included with particular prominence:

- (1) that applications may only be made and accepted subject to the terms and conditions of the *EIS particulars*;
- (2) that the applicant is advised not to subscribe to the *Enterprise Investment Scheme* unless he has taken appropriate independent advice;
- (3) the name and business address of:
 - (a) every *person* acting in a professional capacity in relation to the *Enterprise Investment Scheme*;
 - (b) every *person* likely to take part in any decision or recommendation relating to investment of monies subscribed to the *Enterprise Investment Scheme*;
- (4) any arrangements under which any preferential treatment will or may be given in relation to subscription to the *Enterprise Investment Scheme* to particular *persons* or classes of *person* subscribing to the *Enterprise Investment Scheme*;
- (5) the circumstances in which *persons* or particular classes of *person* are excluded from participation in the *Enterprise Investment Scheme* or in any particular investment of *Enterprise Investment Scheme* monies;
- (6) the manner in which shares in companies in which *Enterprise Investment Scheme* monies are to be invested are to be held on behalf of participants in the *Enterprise Investment Scheme* and the manner in which, according to their *Enterprise Investment Scheme* subscriptions, interests in such shares are to be allocated to each participant;
- (7) any arrangements for registering shares in the names of participants in the *Enterprise Investment Scheme* at or after the end of the period during which shares must be held in order to obtain tax relief;
- (8) the circumstances in which a *person's* participation in the *Enterprise Investment Scheme* may be terminated;
- (9) any arrangements for dealing with *Enterprise Investment Scheme* monies which become available as a result of a sale of *Enterprise Investment Scheme* investments by the *EIS manager*;
- (10) whether the *EIS manager* remains free to subscribe for shares, or to hold options to do so, in companies in which the *Enterprise Investment Scheme* funds are invested and, if so, an indication of the price or the formula by which a price is determined at which it may subscribe and the maximum proportion of the ordinary share capital of those companies for which it may subscribe or which may be the subject of options in its favour, or both;

The following statements, to be included with particular prominence:

- (11) whether the *EIS manager* proposes to establish another *Enterprise Investment Scheme* and, if so, whether or not arrangements exist to ensure that the *EIS manager* does not discriminate between one *Enterprise Investment Scheme* and another and, if so, what they are;
- (12) a summary of the fiscal provisions concerning the *Enterprise Investment Scheme*;
- (13) either a description of the arrangements which exist for:
- (a) securing that any *person* who knowingly has a material interest in any decision or recommendation concerning the investment of *Enterprise Investment Scheme* subscriptions which are not subject to independent approval is excluded from participation in the making of that decision or recommendation; and
 - (b) for securing independent approval of decisions and recommendations concerning the investment of *Enterprise Investment Scheme* subscriptions which may be made by *persons* who have a material interest in them;
- or a statement that no such arrangements exist;
- (14) where the arrangements described in (13) above do not cover any of the following interests:
- (a) an interest of the *EIS manager* or of its *associates* arising by way of remuneration in connection with the management or operation of the *Enterprise Investment Scheme* or any other *Enterprise Investment Scheme*;
 - (b) an interest arising from investment of subscriptions of the *Enterprise Investment Scheme* or of any other *Enterprise Investment Scheme* managed by the *EIS manager* or its *associates*;
 - (c) an interest of a *bank* resulting from a loan made by such an institution;
 - (d) an interest arising from the formation by the *EIS manager*, or its *associates*, of a company with a view to an interest in that company being acquired on behalf of an *Enterprise Investment Scheme*, of which it, or its *associates*, is the *scheme manager*;
- a statement that investment may be made despite the existence of such an interest;
- (15) particulars of any material interest or duty of the *EIS manager* which would conflict with the interests of participants in the *Enterprise Investment Scheme* or its duty to those participants;
- (16) any arrangements to enable participants in the *Enterprise Investment Scheme* to notify the *EIS manager* of companies with which they are connected within the meaning of Sections 291, 291A and 291B of the Income and Corporation Taxes Act 1988;
- (17) the investment policies and objectives of the *Enterprise Investment Scheme*;
- (18) the periodic reports made available to participants and how frequently those reports will be made in accordance with the *Enterprise Investment Scheme*.

Additional contents of Enterprise Investment Scheme particulars (Private Offer of Enterprise Investment Scheme Shares) (R)

1 This annex forms part of ■ COB 3.9.28.

2 Table

The following statements are to be included with particular prominence:

- (1) “The [firm][scheme manager][and its directors] [has][have] taken all reasonable care to ensure that all the facts stated in this document are true and accurate in all material respects and that there are no other material facts, or opinions, which have been omitted, which would make any part of this promotion misleading. The [firm][scheme manager][and its directors] accept[s] responsibility accordingly”;
- (2) The name and business address of:
 - (a) the *EIS manager*;
 - (b) the promoter of the *Enterprise Investment Scheme* (if any);
- (3) the opening and closing dates for receipt of *Enterprise Investment Scheme* subscriptions;
- (4) the maximum and minimum sizes, if any for; permitted individual subscriptions to the scheme;
- (5) the arrangements:
 - (a) for the holding of *Enterprise Investment Scheme* subscriptions pending investment;
 - (b) for the return of subscriptions should the *Enterprise Investment Scheme* be over-subscribed or the monies not be accepted for other reasons;
 - (c) for the return of *Enterprise Investment Scheme* subscriptions remaining uninvested at the time when the final investment of the *Enterprise Investment Scheme* has been made or the final date for investment has passed;
- (6) any arrangements for the payment of dividends, if any, to participants in the *Enterprise Investment Scheme*;

Guidance on potential problem areas for financial promotions which identify and promote specific investments and for direct offer financial promotion (G)

1 This annex forms part of ■ COB 3.8.9(5) and ■ COB 3.9.14.

2 Table Contents.

A	AVC Schemes (including FSAVCs)
B	PEP or ISA transfers
C	Corporate bond funds or similar contracts
D	'Guaranteed' products
E	With profit bonds
F	Pensions – phased retirement
G	'High Income' products
H	'Stock market bonds'
I	'Hybrid bonds'
J	Personal pensions and stakeholder pension schemes

3 Table A.

Additional Voluntary Contribution Schemes (including Free Standing Additional Voluntary Contributions)

A financial promotion for an AVC scheme or FSAVC contract should contain a prominent warning that as an alternative:

- (1) (for FSAVC promotions) an AVC exists, and that details can be obtained from the scheme administrator;
- (2) (for AVC promotions) FSAVC contracts are available.

4 Table B.

PEP or ISA transfers

A financial promotion for a PEP or ISA transfer should include details of the likely advantages and disadvantages of transferring an existing PEP or ISA holding, including:

- (1) exit charges and any other costs associated with the transfer;
- (2) initial set up charges;
- (3) transaction details (ie are holdings liquidated or transferred intact, as permitted by the terms and conditions);
- (4) the possibility (and likely effects) of shortfall, following cancellation;
- (5) potential for loss of income or growth, following a rise in the markets, whilst the PEP or ISA transfer remains pending.

5 Table C.

Bond Funds

A firm constructing a financial promotion for corporate bond funds or similar contracts should take account of the following:

(1) Clear description of the risk

Yields offered by bonds often reflect in part the risk rating of the issuer. Investment in such bonds brings an increased risk of default on repayment and this in turn translates into a risk that the capital value of the fund will be affected. Financial promotions for funds which invest in riskier bonds should clearly explain this point to recipients. The prominence and wording of the explanation should reflect both the risk profile of the portfolio held by the fund, and the prominence given to information about the yield on the fund.

(2) Quoting out of date yields

Financial promotions often feature prominently the yield on the fund. In some cases the actual yield being paid at the time the promotion is communicated is materially different to the yield quoted. Owing to lead times, inaccuracies can occur if the market is moving rapidly, but yields several weeks or months out of date are misleading. The promotion should quote the date at which the rate applied. It is unwise for items with a long shelf life to prominently feature a rate which may become invalid.

(3) Funds not fully invested

Yield figures should reflect the overall position of the fund allowing for any monies held in cash. Yields quoted on the assumption that the fund is 100% invested in bonds where a proportion is invested in cash would be misleading.

(4) Running and redemption yields

Whilst the running yield indicates the expected level of current income for investors, managers should take the redemption yield into account when considering how to portray the prospects for future investors. They should also take into account, and explain, any material difference between the two.

(5) Describing the yield and growth prospects

Where it is the case, the fact that both the yield and the capital value of the fund can fluctuate should be disclosed. Firms need to be careful when describing the future yield or growth prospects of a fund. The prominence and tone given to descriptions of future prospects should reflect a reasonable assessment of the fund taking into account eg the redemption yield, whether charges are taken from capital, and the general economic climate.

6 Table D.

Guaranteed products

1. Equal prominence to guaranteed and not guaranteed benefits
 - (a) Firms should give equal prominence to the description of benefits which are guaranteed and of benefits which are not.
 - (b) If the word 'guaranteed' is highlighted, or otherwise emphasised, equal highlighting, or emphasis should be given to the fact that any elements which are 'not guaranteed' are not guaranteed.
 - (c) If the reference to guaranteed income is highlighted in, for example, a 'back to back' scheme combining an annuity which is guaranteed with a five year policy or ISA, the proceeds of which are not guaranteed, the fact that the benefits under the life assurance policy or ISA are not guaranteed must be stated with equal prominence.

2. Past performance

The FTSE index began in 1984 and reference is often made to its performance. Examples of 'back testing' are often given to show that the index has not fallen in any five year period since 1984. The experience may not, however, be representative of current conditions and if so the results are capable of being misunderstood. Including earlier experience may result in a more balanced presentation of risk.

3. Averaging

Contracts are normally based on the assumption that the index being used will rise. The use of the average level of the index will reduce the investment potential of the contract. Where the averaging periods cover more than the last six months of the contract term, it should not be implied that averaging is to protect against falls at the end of the term. It should be made clear that investors benefit only from some of the performance of the index and that one effect of averaging is likely to be to constrain the final level of the index used to calculate benefits.

4. Maximum benefits

These should not be promoted as a particular feature if the economic circumstances required to meet those benefits require investment conditions more favourable than those which would need to prevail to achieve the higher of the growth assumptions specified by the FSA.

7 Table E.

With-profits bonds

1. Particular areas of concern about financial promotion of with profit bonds are:
 - (a) failure to make it clear that a whole life with profits bond is unsuitable as a short term investment;
 - (b) unclear statements as to what factors will determine the cash-in value of the bond;
 - (c) reservation of the right to adjust the value of the contract by means such as Market Value Adjustment Factors without adequately explaining the significance or likelihood of such a procedure;

With-profits bonds

- (d) use of a rate of bonus in a way that implies such a rate will apply;
 - (e) quotation of values based on existing bonus rates to lead recipients to anticipate receiving such amounts;
 - (f) reference to building society accounts in comparison with the bond without adequately explaining the differences between the two types of investment.
2. Quoting a high initial bonus rate may suggest that it is achievable for all investors, whereas for example, the rate may only be available to investors who make a sizeable investment or who make their investment considerably earlier than the closing date. In addition, initial bonus rates are frequently subject to limiting factors, such as:
- (a) establishment charges;
 - (b) monthly policy charges;
 - (c) fund management or investment charges;
 - (d) early surrender penalties or discontinuance charges;
 - (e) market adjustment factors.
- Therefore where applicable firms should not include terms such as ‘guaranteed’, ‘return’ and ‘fixed for the first year’ without making it clear that the bonus rate may not be achievable.

8 Table F.

Pensions – phased retirement

1. Some promotions for phased retirement pensions tend to emphasise the various advantages but do not give adequate risk warnings, some of the important assumptions, or detail potential disadvantages. The following failures are typical:
- (a) not including risk warnings in respect of performance and value of underlying units.
 - (b) not indicating that future annuity rates are not guaranteed and may be higher or lower.
 - (c) not disclosing any information about additional charges linked to the plan.
 - (d) not making any reference to protected rights being deferred to age 65 or 60 (in illustrations of pensions commencing earlier).
 - (e) not indicating how a surviving spouse is provided for.
2. Four particular areas that need to be made clear are:
- (a) Mortality
Compared with a conventional annuity, phased retirement normally provides higher residual sums on death. For survivors to age 75, this can result in a strain, as annuities will not have been purchased at an earlier age. This risk should be made clear.
If a spouse’s pension is to be provided, it needs to be made clear whether each annuity is bought on a joint life basis and whether the annuity is bought on death or at age 75.
If protected rights pensions at age 65 or 60 are to be provided, it needs to be made clear how these are to be provided.
 - (b) Investment

Pensions – phased retirement

The future investment returns on the residual funds and the future immediate annuity rates are unknown. The risk of this to the investor needs to be made clear.

Care needs to be taken to ensure that the impression is not given that postponing the purchase of an annuity will automatically be to the investor's advantage.

(c) Tax

Most of the financial advantage in phased retirement derives from utilising tax free cash sums to provide part of the investors pension payment. Therefore the investor does not have the benefit of the tax free cash sum at retirement, which can be a disadvantage. Any comparison with a conventional annuity should allow for the use of a purchased life annuity purchased with the tax free cash, or include a statement that the effect of the option to use the tax free cash to secure a purchased life annuity has been ignored.

Because the pension will usually constitute most of a investor's income, it will generally be correct to assume basic rate tax. Where the level of income makes it appropriate, higher rate tax may be allowed for; this can be done assuming an average tax rate or taking account of specific tax bands. If tax thresholds are assumed to increase, the rate must be consistent with the investment return assumed and the rate of increase in the target pension.

(d) Expenses

The costs in operating phased retirement are usually higher than for conventional annuities. These costs need to be disclosed, especially as they are relevant to any comparison with a conventional annuity. Particular reference should be made to the level of initial charge and annual management charge on unit-linked funds.

9 Table G.

High income products

1. **Income Term**
If the word 'income' is used, it will be difficult for the promotion to avoid being misleading unless it:
 - (a) is used to indicate payments comprised solely of interest or dividend earnings; or
 - (b) is clearly defined at an early point in the promotion as having a different meaning, and in particular specifies the risk to capital necessary to achieve the payment.
2. **Problem of disclosure of risks**
If the rate of income available is at some capital risk or at the expense of growth, or the income or a portion of it comprises a return of capital, these facts should be clearly explained.
3. **Guaranteed income but not capital**
 - (a) A clear statement should be made where:
 - (i) the relevant benefits are not guaranteed; or
 - (ii) no benefits are guaranteed.
 - (b) If direct or indirect comparison is made with a building society or with other forms of deposit, there should be a prominent statement that the investment does not include the security of capital which is afforded under a deposit with a bank or building society.

High income products

- (c) If any guarantee is given, the guarantor should be named.
 - (d) An equivalent annualised rate of return (for example 8.16% relating to a cash return payable of 8% per annum half yearly) may be quoted if the cash rate is quoted more prominently than the equivalent annualised rate and the nature of the equivalent annualised rate is described.
 - (e) An equivalent gross return (allowing for notional income tax) may be quoted provided that it is:
 - (i) less prominent than the actual cash return; and
 - (ii) stated that tax is not recoverable by investors.
4. High income bonds, high income unit trusts and similar types of collective investment schemes
- (a) Some unit trusts achieve a high income by the use of derivatives such as put and call options. Firms should provide a statement to the effect that the high income is achieved at the expense of most of the potential capital gain.
 - (b) If it is claimed that the downside potential is less than that of a conventional unit trust, it should be made clear with equal prominence that if the fund goes down its potential recovery will be less than that of a conventional unit trust.
 - (c) Where an income figure is shown a clear statement should be made that the income is not guaranteed.

10 Table H.

Stock market bonds

Stock market bonds are those investments which offer returns linked to the price of an index such as the FTSE 100.

(1) Minimum amount payable at the end of the term

The word 'guarantee' is usually used to describe the minimum amount payable at the end of the term. This guarantee is usually provided at some cost to the investor and promotions therefore need to make clear what that cost is and whether it is levied:

- (a) from the start, for example by means of an additional initial charge; or
- (b) only if the guarantee is invoked, for example by reference to an index or other indicator which includes capital growth but excludes investment income.

(2) Potential for Growth

(a) Expressions like 'stock market growth' or 'the growth of the FTSE 100 Index' are frequently used and are potentially misleading if the product will not be investing in all the stocks which make up the index.

(b) Promotion of a product which is linked to growth in the FTSE 100 index should make clear that it does not include an allowance for any return or re-investment of dividend income.

(c) Promotions should therefore make it clear that references to 'stock market growth' exclude any form of income payment.

(3) Amount Invested

Some promotions quote returns in excess of the percentage increase in the FTSE 100 index, without mentioning that 100% of capital is not invested at outset.

(4) Gross returns and tax on underlying fund

Stock market bonds

Promotions showing guaranteed returns against the FTSE 100 index expressed in 'gross' terms are potentially misleading where the underlying funds of the firm concerned are taxable and the returns quoted are therefore unavailable to the investor because he will receive the benefits after tax has been deducted and which he cannot reclaim.

(5) Taxation of investor

The tax treatment in the hands of the investor should be made clear, in particular, whether the return will be treated as income or as capital gains where the investor may be entitled to a tax free exemption limit with the added benefit of indexation.

(6) Early Encashment

(a) The terms for early encashment need to be fully explained.

(b) Despite the minimum amount at the end of the specified term, an appropriate risk warning should be included where the value of the investment can fall if an investor wishes to encash the contract before the end of the term.

11 Table I.

Hybrid bonds

A hybrid bond refers to those life policy investments which combine one investment designed to provide income with another designed to return all or part of the capital. Potential problems with the promotion of 'hybrid bonds' are listed below. These should all be clearly explained, where applicable, in a direct offer financial promotion:

- (1) although the word 'income' is used to describe the regular payments generated from part of the investment, only part of each payment derives from interest earned on that money. The balance consists of a return of the capital itself;
- (2) although payments may be promised at a pre-defined level for a set period, there should be no implication that the original capital is guaranteed to be returned;
- (3) part of the investment is often invested in vehicles which offer opportunities for rapid growth, with risks of loss;
- (4) whilst the larger tranche is typically invested in a unit linked bond, the income producing tranche is given the greater prominence resulting in an unbalanced picture of the investment and the risks.

12 Table J.

Personal pensions and stakeholder pension schemes

Firms promoting personal pension schemes through direct offer financial promotions are reminded of the provisions of *COB 5.3*.

Permitted promotion of unregulated collective investment schemes (R)

1 Table

- 1 This annex forms part of *COB* 3.11.2.
- 2 Where the left hand column in the table refers to promotion to a category of *person*, this means that the invitation or inducement:
 - (a) is made only to recipients who the *firm* has taken reasonable steps to establish are *persons* in that category; or
 - (b) is directed at recipients in a way that may reasonably be regarded as designed to reduce, so far as possible, the risk of participation in the *collective investment scheme* by *persons* who are not in that category;
 and see *COB* 3.5.6 and *COB* 3.5.7 which amplify this paragraph.
- 3 A *firm* may rely on more than one exemption in relation to the same invitation or inducement.

2 Table Permitted promotion of unregulated collective investment schemes

Promotion to:	Promotion of an unregulated collective investment scheme which is:
<p>Category 1 person:</p> <p>(1) a <i>person</i> who is already a <i>participant</i> in an <i>unregulated collective investment scheme</i>;</p> <p>(2) a <i>person</i> who has been, in the last 30 months, a <i>participant</i> in an <i>unregulated collective investment scheme</i>.</p>	<p>A. that <i>collective investment scheme</i>; or</p> <p>B. any other <i>collective investment scheme</i> whose underlying property and risk profile are both ‘substantially similar’ (see Note 1) to those of that <i>collective investment scheme</i>; or</p> <p>C. a <i>collective investment scheme</i> which is intended to absorb or take over the assets of that <i>collective investment scheme</i>; or</p> <p>D. a <i>collective investment scheme</i>, units in which are being offered by its operator as an alternative to cash on the liquidation of that <i>collective investment scheme</i>.</p> <p>Any <i>collective investment scheme</i></p>
<p>Category 2 person:</p> <p>(1) a <i>person</i></p> <p>(a) for whom the <i>firm</i> has taken reasonable steps to ensure that <i>investment</i> in the <i>collective investment scheme</i> is suitable; and</p>	

Promotion to:	Promotion of an unregulated collective investment scheme which is:
<p>(b) who is an ‘established’ or ‘newly accepted’ <i>customer</i> of the <i>firm</i> or of a person in the same <i>group</i> as the <i>firm</i> (see Notes 2 & 3).</p> <p>Category 3 person: a person who is <i>eligible</i> to participate in a <i>scheme</i> constituted under:</p> <ol style="list-style-type: none"> (1) the Church Funds Investment Measure 1958; (2) section 24 of the Charities Act 1993; or (3) section 25 of the Charities Act (Northern Ireland) 1964. <p>Category 4 person:</p> <p>An eligible employee, that is, a <i>person</i> who is:</p> <ol style="list-style-type: none"> (1) an officer, (2) an <i>employee</i>, (3) a former officer or <i>employee</i>, or (4) a member of the immediate family of any of (1)–(3) of an employer which is (or is in the same <i>group</i> as) the <i>firm</i>, or which has accepted responsibility for the activities of the <i>firm</i> in carrying out the <i>designated investment business</i> in question. 	<p>Any such <i>collective investment scheme</i></p> <p>1. A <i>collective investment scheme</i> the instrument constituting which:</p> <p>A. restricts the property of the <i>scheme</i>, apart from cash and <i>near cash</i>, to</p> <ol style="list-style-type: none"> (1) (where the employer is a <i>company</i>) <i>shares in</i> and <i>debentures of company</i> or any other connected <i>company</i> (see Note 4) (2) (in any case), any property, provided that the <i>scheme</i> takes the form of: <ol style="list-style-type: none"> (i) a <i>limited partnership</i>, under the terms of which the employer (or connected <i>company</i>) will be the unlimited <i>partner</i> and the eligible employees will be some or all of the <i>limited partners</i>; or (ii) a trust which the <i>firm</i> reasonably believes not to contain any risk that any eligible employee may be liable to make any further payments (other than <i>charges</i>) for <i>investment transactions</i> earlier entered into, which the eligible employee was not aware of at the time he entered into them; and <p>B. (in a case falling within A(1) above) restricts participation in the <i>scheme</i> to eligible employees, the employer and any connected <i>company</i>.</p>

Promotion to:	Promotion of an unregulated collective investment scheme which is:
<p>Category 5 person A person admitted to membership of the Society of Lloyd's or any person by law entitled or bound to administer his affairs.</p> <p>Category 6 person An exempt person (other than a person exempted only by section 39 of the Act (Exemption of appointed representatives)) if the financial promotion relates to a regulated activity in respect of which the person is exempt from the general prohibition.</p> <p>Category 7 person A market counterparty or an intermediate customer.</p>	<p>2. Any collective investment scheme provided that the participation of eligible employees is to facilitate their co-investment:</p> <p>(i) with one or more <i>companies</i> in the same <i>group</i> as their employer (which may include the employer) and/or</p> <p>(ii) with one or more <i>clients</i> of such a <i>company</i>.</p> <p>irrespective of whether the eligible employees co-invest through a <i>company</i> or a <i>collective investment scheme</i> falling within A(2)(ii) above or a trust under which they or a <i>member</i> of their immediate family is a potential beneficiary.</p> <p>A scheme in the form of a limited partnership which is established for the sole purpose of underwriting insurance business at Lloyd's.</p> <p>Any collective investment scheme</p> <p>Any collective investment scheme</p>

3 Table Notes to the table

Notes to the table

Note 1.

The property of a *collective investment scheme* is 'substantially similar' to that of another *collective investment scheme* if in both cases the objective is to invest in the same one of the following sectors:

- (a) *on-exchange derivatives* or *warrants*;
- (b) *on-exchange* (or quoted) *securities*;
- (c) the property market (whether in *securities* of property companies or in property itself);

Notes to the table

- (d) collectable items of a particular description (such as works of art, antique vehicles, etc);
- (e) artistic productions (such as films, television, opera, theatre or music);
- (f) unlisted *investments* (including unlisted *debt securities*).

The risk profile of a *scheme* will be substantially similar to that of another *scheme* only if there is such similarity in relation to both liquidity and volatility.

Note 2.

A person is an 'established *customer*' of another *person* if he has been and remains an actual *customer* of that *person* in relation to *designated investment business* done with or through that other *person*.

Note 3.

A *person* is a 'newly accepted' *customer* of a *firm* if:

a written agreement relating to *designated investment business* exists between the *customer* and the *firm* (or, if the *customer* is normally resident outside the *United Kingdom*, an oral or written agreement); and

that agreement has been obtained without any contravention of section 238 or 240 of the *Act*, or of any *rule* in *COB* applying to the *firm* or (as far as the *firm* is reasonably aware) any other *authorised person*.

Note 4.

A *company* is 'connected' with another *company* if:

- (a) They are in the same *group*; or
- (b) one *company* is entitled either alone or with another *company* in the same *group*, to exercise or control the exercise of a majority of the voting rights attributable to the share capital, which are exercisable in all circumstances at any general meeting of the other *company* or of its *holding company*.

Chapter 4

Accepting customers

4.1 Client classification

Application

- 4.1.1** **R**_{/1} (1) This section applies to a *firm* intending to conduct, or conducting, *designated investment business*, or *ancillary activities* relating to *designated investment business*.
- (2) For the purposes of *COB* only, the following provisions in **■ COB 4.1** also apply to a *firm* intending to carry on, or carrying on, any other *regulated activity*:
- (a) **■ COB 4.1.12** and **■ COB 4.1.13** (Large intermediate customer classified as a market counterparty); and
- (b) **■ COB 4.1.14** (Client classified as a private customer).

- 4.1.2** **G**_{/1} The *communication* or *approval* of a *financial promotion* relating to *designated investment business*, or a *designated investment*, is an *ancillary activity* relating to *designated investment business* to which this section applies under **■ COB 4.1.1(1)**.

Purpose

- 4.1.3** **G**_{/1} (1) This section requires a *firm* to classify the *persons* with or for whom it intends to carry on *designated investment business*, to achieve appropriate application of the *rules* in *COB* and **■ MAR 3** (Inter-professional conduct). Its purpose is to ensure that *clients* are appropriately categorised so that regulatory protections are focused on those classes of *client* that need them most, while allowing an appropriately ‘light-touch’ approach for *inter-professional business*.
- (2) Some of the *rules* in *COB* relating to activities other than *designated investment business* are disapplied if the activity is carried on with or for a *market counterparty* rather than a *customer*, for example rules in **■ COB 6.8** (Insurance contracts: life and general). For *guidance* on how a *firm* carrying on these other activities may approach *client* classification, see **■ PRIN 1.2.4** (Classification: other activities).

Requirement to classify

4.1.4

R

/1

- (1) Before conducting *designated investment business* with or for any *client*, a *firm* must take reasonable steps to establish whether that *client* is a *private customer*, *intermediate customer* or *market counterparty*.
- (2) For the purposes of the *rules* in *COB*, a *firm* must ensure that it treats its *client* in accordance with the classification established under (1), or, where relevant, ■ COB 4.1.7, ■ COB 4.1.9, ■ COB 4.1.12, ■ COB 4.1.14 or ■ COB 4.1.15.

Agent as client

4.1.5

R

/1

- (1) If a *firm* ("F") is aware that a *person* ("C1") with or for whom it is conducting *designated investment business*, or related *ancillary activities*, is acting as agent for another *person* ("C2") in relation to that business, C1, and not C2, is the *client* of F in respect of that business, if:
 - (a) C1 is another *firm* or an *overseas financial services institution*; or
 - (b) C1 is any other *person*, provided that avoidance of duties which F would otherwise owe to C2 is not the main purpose of the arrangements between the parties.
- (2) Paragraph (1) does not apply if F has agreed with C1 in writing to treat C2 as its *client*.
- (3) If paragraph (1) does not apply, because of the proviso in (1)(b) or an agreement under (2), C2, and not C1, is the *client* of F in respect of that business.

4.1.6

G

/1

Firms are reminded that ■ COB 4.1.5:

- (1) does not relieve them of any obligation under the *Money Laundering* sourcebook relating to C2 (there is a different definition of "*client*" in that sourcebook);
- (2) is not relevant to the question of who is the *firm's* counterparty for the purposes of the Interim Prudential sourcebook; and
- (3) does not relieve them of any obligation the *firm* may owe to C2 under the general law relating to principals and agents; if a *firm* is in any doubt about such obligations, it is advised to take appropriate legal advice.

Classification of another firm or an overseas financial services institution

4.1.7

R

/1

- (1) When a *firm* ("F") conducts *designated investment business*, or related *ancillary activities*, with or for:
 - (a) another *firm*; or
 - (b) an *overseas financial services institution*;

("C1"), C1 is a *market counterparty* of F, unless (2), (3), (4) or (5) applies.
- (2) C1 is an *intermediate customer* of F when the activity carried on by F would be *inter-professional business* (if C1 were a *market counterparty*), and:
 - (a) C1 is acting for an underlying *customer* ("C2");
 - (b) C1 has decided that, for the interests of C2 to be properly protected under the applicable *rules* in COB, C1 should benefit from the protections available to *intermediate customers*; and
 - (c) F and C1 have agreed that F should classify C1 as an *intermediate customer* when C1 is acting for C2.
- (3) C1 is an *intermediate customer* of F when the activity carried on would not be *inter-professional business* (if C1 were a *market counterparty*) and:
 - (a) C1 has not indicated that it is acting on its own behalf in relation to that activity; or
 - (b) C1 is a *long-term insurer* acting on behalf of its life fund.
- (4) If C1 is a *regulated collective investment scheme*, C1 is a *private customer* of F.
- (5) If C1 is an *unregulated collective investment scheme*, C1 is an *intermediate customer* of F.

4.1.8

G

/1

- (1) Any agreement under ■ COB 4.1.7(2)(c) may be in relation to a particular underlying *customer* of C1's or in relation to all cases in which C1 acts on behalf of its *customers*.
- (2) When deciding whether it should be classified as an *intermediate customer* under ■ COB 4.1.7(2)(b), C1 should have regard to the fact that it will be responsible to C2 for delivering applicable protections under COB (or, if C1 is an *overseas financial services institution*, under any relevant overseas provisions). C1 should also remember that F is entitled to refuse to agree to classify C1 as an *intermediate customer*; and, in such a case, it may be appropriate for C1 to obtain services from a different *firm*.

- (3) C1 is an *intermediate customer* under ■ COB 4.1.7(2) or (3), but remains a *market counterparty* for other purposes. For example, for *designated investment business* which is not *inter-professional business*, C1 is a *market counterparty* for transactions for C1's own account.
- (4) In relation to activities other than *designated investment business*, and related *ancillary activities*, C1 is a *market counterparty* in accordance with the definition of "*market counterparty*".
- (5) When C1 is a *market counterparty*, then only limited parts of COB will apply to F's business with C1. The *Principles* (other than 6, 8 and 9 and most of 7) will also apply, as will ■ MAR 3 (Inter-professional conduct) for *inter-professional business*. See ■ MAR 3 Ann 1 for further *guidance* on the application of the *Principles*, COB and ■ MAR 3 for *inter-professional business*.

Expert private customer classified as an intermediate customer

4.1.9

R

/1

- (1) A *firm* may classify a *client* who would otherwise be a *private customer* as an *intermediate customer* if:
 - (a) the *firm* has taken reasonable care to determine that the *client* has sufficient experience and understanding to be classified as an *intermediate customer*; and
 - (b) the *firm*:
 - (i) has given a written warning to the *client* of the protections under the *regulatory system* that he will lose;
 - (ii) has given the *client* sufficient time to consider the implications of being classified as an *intermediate customer*; and
 - (iii) has obtained the *client's* written consent, or is otherwise able to demonstrate that informed consent has been given.
- (2) For the purposes of (1), a *client's* consent to being classified as an *intermediate customer* may be limited to one or more types of:
 - (a) *designated investment*; or
 - (b) *designated investment business*.

4.1.10

G

/1

- (1) To take reasonable care to determine that a *client* has sufficient experience and understanding to be classified as an *intermediate customer* for the purposes of ■ COB 4.1.9(1)(a), the *firm* should have regard to:
 - (a) the *client's* knowledge and understanding of the relevant *designated investments* and markets, and of the risks involved;
 - (b) the length of time the *client* has been active in these markets, the frequency of dealings and the extent to which he has relied on the *advice on investments* of the *firm*;

4.1.11

/1

- (c) the size and nature of transactions that have been undertaken for the *client* in these markets;
 - (d) the *client's* financial standing, which may include an assessment of his net worth or of the value of his portfolio.
- (2) It is likely that a *firm* will need to have regard to more than one of these criteria, or to other criteria, before it can be satisfied that a *client*, who would otherwise be a *private customer*, is eligible to be classified as an *intermediate customer*.
- (1) In the written warning required by ■ COB 4.1.9(1)(b)(i), a *firm* should:
- (a) advise the *client* that he will lose the protection afforded by the following *rules* in *COB* applicable exclusively to *private customers*:
 - (i) ■ COB 3.9 (Direct offer financial promotions), ■ COB 3.12.1 (Communication and approval of financial promotions of an overseas or unauthorised person) and ■ COB 3.13 (Additional requirements for financial promotions for an overseas long-term insurer);
 - (ii) ■ COB 5.4 (Customers' understanding of risk);
 - (iii) ■ COB 5.7 (Disclosure of charges, remuneration and commission);
 - (iv) ■ COB 6.1: (Packaged product and ISA disclosure);
 - (v) ■ COB 7.9 (Lending to private customers);
 - (vi) ■ COB 7.10 (Margin requirements);
 - (vii) ■ COB 7.11 (Non-exchange traded securities);
 - (b) explain any consequences to the *client* in respect of the following *rules* in *COB* which are limited or modified in their application to *intermediate customers*:
 - (i) ■ COB 3 (Financial promotion);
 - (ii) ■ COB 5.1 (Polarisation and status disclosure);
 - (iii) ■ COB 8.1 (Confirmation of transactions);
 - (iv) ■ COB 8.2 (Periodic statements);
 - (c) explain possible consequences to the *client* in respect of the following *rules* in *COB* which are capable of modification in their application to *intermediate customers*:
 - (i) ■ COB 7.5 (Best execution);

- (ii) ■ COB 9.1 (Custody);
 - (iii) ■ COB 9.3 (Client money);
 - (d) warn the *client* that he will also lose the right of access to the *Financial Ombudsman Service*; and
 - (e) warn the *client* that the *firm* may have regard to his expertise when complying with requirements under the *regulatory system* that communications must be clear, fair and not misleading.
- (2) Contravention of any part of ■ COB 4.1.11(1) may be relied upon as tending to establish contravention of ■ COB 4.1.9(1)(b)(i).

Large intermediate customer classified as a market counterparty

4.1.12

R

A *firm* may classify a *client* (other than another *firm* or an *overseas financial services institution*) who would otherwise be an *intermediate customer* as a *market counterparty* if:

- (1) the *client* at the time he is classified is one of the following:
 - (a) a *body corporate* (including a *limited liability partnership*) which has (or any of whose *holding companies* or *subsidiaries* has) called up share capital of at least £10 million (or its equivalent in any other currency at the relevant time);
 - (b) a *body corporate* that meets (or any of whose *holding companies* or *subsidiaries* meets) two of the following tests:
 - (i) a balance sheet total of 12.5 million euros (or its equivalent in any other currency at the relevant time);
 - (ii) a net turnover of 25 million euros (or its equivalent in any other currency at the relevant time);
 - (iii) an average number of employees during the year of 250;
 - (c) a local authority or public authority;
 - (d) a *partnership* or unincorporated association which has net assets of at least £10 million (or its equivalent in any other currency at the relevant time) (and calculated, in the case of a limited *partnership*, without deducting loans owing to any of the *partners*);
 - (e) a trustee of a trust (other than an *occupational pension scheme*, *SSAS* or *stakeholder pension scheme*) with assets of at least £10 million (or its equivalent in any other currency), calculated by aggregating the value of the cash and *designated*

- investments* forming part of the trust's assets, but before deducting its liabilities;
- (f) a trustee of an *occupational pension scheme*, *SSAS* or *stakeholder pension scheme* where the trust has (or has had at any time during the previous two years):
- (i) at least 50 members; and
 - (ii) assets under management of not less than £10 million (or its equivalent in any other currency at the relevant time); and
- (2) the *firm* has, before commencing business with the *client* on a *market counterparty* basis:
- (a) advised the *client* in writing that he is being classified as a *market counterparty*;
 - (b) given a written warning to the *client* that he will lose protections under the *regulatory system*;
 - (c) for a *client* falling under (1)(a) or (b):
 - (i) taken reasonable steps to ensure that the written notices required by (2)(a) and (b) have been delivered to a *person* authorised to take such a decision for the *client*; and
 - (ii) not been notified by the *client* that the *client* objects to being classified as a *market counterparty*;
 - (d) for a *client* falling under (1)(c), (d), (e) or (f):
 - (i) taken reasonable steps to ensure that the written notices required by 2(a) and (b) have been delivered to a *person* authorised to take such a decision for the *client*; and
 - (ii) obtained the *client's* written consent or is otherwise able to demonstrate that consent has been given.

4.1.13

G

/1

In the written warning required by ■ COB 4.1.12(2)(b), a *firm* should advise a *client* who is classified as a *market counterparty* in accordance with ■ COB 4.1.12 that he will lose all protections applicable to *customers* afforded by the *rules* in COB (other than those in ■ COB 9 (Client assets)) and *Principle 6* (Customers' interests), *Principle 8* (Conflicts of interest) and *Principle 9* (Customers: relationships of trust) and most of *Principle 7* (Communications with clients). (The *firm* should also advise the *client* that, in respect of *inter-professional business* conducted between *market counterparties*, ■ MAR 3 (Inter-professional conduct) applies.)

Client classified as a private customer

4.1.14

R

/1

- (1) A *firm* may classify as a *private customer* any *client* (other than a *firm* or an *overseas financial services institution*) who would otherwise be a *market counterparty* or an *intermediate customer*, and must notify any such *client* accordingly.
- (2) A notice under (1) must advise the *client* that he may not necessarily have rights under the *Financial Ombudsman Service* or the *compensation scheme* as a result of such classification.

Review of classification

4.1.15

R

/1

- (1) If a *firm* classifies:
 - (a) a *client* as an *intermediate customer* under ■ COB 4.1.9 (Expert private customer classified as an intermediate customer); or
 - (b) a *client* as a *market counterparty* under ■ COB 4.1.12 (Large intermediate customer classified as a market counterparty);

it must review that classification at least annually to ensure that it remains appropriate to the *designated investment business* which the *firm* carries on with or for that *client*, unless (2) applies.
- (2) If a *firm* has not conducted *designated investment business* with or for a *client* during the previous 12 month period, the *firm* may defer the review referred to in (1) until the *firm* next conducts *designated investment business* with or for the *client*.

Record keeping

4.1.16

R

/1

- (1) A *firm* must make a record of the classification established for each *client* under ■ COB 4.1.4(1), or, where relevant, under ■ COB 4.1.7, ■ COB 4.1.9, ■ COB 4.1.12, ■ COB 4.1.14 or ■ COB 4.1.15, including sufficient information to support that classification.
- (2) A *firm* must retain the record referred to in (1) for a minimum period after the date on which the *firm* ceases to carry on business with or for that *client*, as follows:
 - (a) indefinitely, if relevant to a *pension transfer*, *pension opt-out* or *FSAVC*;
 - (b) for a period of at least six years, if relevant to a *life policy* or *pension contract*;
 - (c) for a period of at least three years in any other case.

4.2 Terms of business and client agreements with customers

Application

- 4.2.1** **R**_{/1} This section applies to a *firm* intending to conduct or conducting *designated investment business* with or for a specific *customer*, unless the *designated investment business* relates to the type of transaction or *firm* in column A of **COB 4.2.9** and is limited to the type of business specified in the same row in column B.
- 4.2.2** **G**_{/1} This section does not apply to transactions relating to a *cash deposit ISA* held on deposit with a *deposit-taking firm*, since it is not a *designated investment*.
- 4.2.3** **G**_{/1} If an *authorised professional firm* conducts *non-mainstream regulated activity* for a *customer* (whether with or without any other *regulated activity* for the *customer*) then, subject to **COB 4.2.8**, the effect of **COB 1.2.1(4)** is that:
- (1) *terms of business* must be provided; but
 - (2) with respect to the *non-mainstream regulated activity*, the *terms of business* should satisfy **COB 4.2** if it contains the effect of the disclosure in **COB 4.2.15(26)**.

Purpose

- 4.2.4** **G**_{/1} *Principle 7* (Communications with clients) requires a *firm* to pay due regard to the information needs of its *customers*. A *customer* needs to know on what basis a *firm* intends to do business with him. *Terms of business* or a *client agreement* set out the basis on which a *firm* conducts any *designated investment business* with or for the *customer*.

Requirement to provide terms of business to a customer

- 4.2.5** **R**_{/1} (1) A *firm* must provide a *customer* with its *terms of business*, setting out the basis on which *designated investment business* is to be conducted with or for the *customer* within the period specified in (2) or (3).

- (2) A *firm* must, before conducting any *designated investment business* with or for a specific *private customer*, provide him with its *terms of business*, unless the *customer* has made an oral offer to enter into an *investment agreement* relating to an *ISA*, or a *stakeholder pension scheme*, that relates to a *designated investment*, in which case the *terms of business* must be provided to him within five *business days* of the offer.
- (3) If the *customer* is an *intermediate customer*, the *firm* must provide its *terms of business* within a reasonable period of the *firm* beginning to conduct *designated investment business* with or for the *customer*.

4.2.6

G

/1

■ COB 4.2.5(2) does not require a *firm* to provide information that, by its nature, is unavailable at the time the *terms of business* are issued. For example, a *firm* will not necessarily know a *private customer's* investment objectives before providing *terms of business*, since it may not be possible to determine the *private customer's* requirements without undertaking know-your-customer checks, as required by ■ COB 5.2. In these circumstances, the *firm* should notify the *private customer* of any relevant information set out in ■ COB 4.2.15 and ■ COB 4.2.16 as soon as practicable after it becomes available.

Requirement to enter into a client agreement with a private customer

4.2.7

R

/1

- (1) If a *firm* intends to conduct any of the following *designated investment business* with or for a *private customer*:
 - (a) *managing investments* on a discretionary basis;
 - (b) *designated investment business* relating to a *contingent liability investment*;
 - (c) *stock lending activity*; or
 - (d) *designated investment business* involving underwriting (except in respect of a *life policy*);

its *terms of business* for the *customer* must, unless (2) applies, take the form of a *client agreement*, and the *firm* must not enter into this *client agreement* unless it has taken reasonable care to ensure that the *private customer* has had a proper opportunity to consider the terms.

- (2) A *firm* need not enter into a *client agreement* with a *private customer* if the *private customer* is habitually resident outside the *United Kingdom* and the *firm* has taken reasonable steps to establish that the *private customer* does not wish to enter into a *client agreement*.

4.2.8

G

/1

Firms are reminded that, as well as complying with the requirements of ■ COB 4.2.5 and ■ COB 4.2.7, they may also need to comply with the additional requirements relating to disclosure and *client agreements* set out in ■ COB 9 (Client assets).

4.2.9

R

/1

Table Designated investment business to which the terms of business and client agreement requirements in this section do not apply.

This table belongs to ■ COB 4.2.1

	Column A	Column B
(1)	<i>Execution-only transactions</i>	Bringing about any <i>execution-only transaction</i> (except a transaction in a <i>contingent liability investment</i> with or for a <i>private customer</i>).
(2)	<i>Direct offer financial promotion</i>	When a <i>customer</i> enters into a transaction as a result of a <i>direct offer financial promotion</i>.
(3)	Advising during preparation of <i>terms of business</i>	Providing <i>advice on investments</i> or information solely for the purpose of preparing <i>terms of business</i> or with a view to providing <i>terms of business</i> or entering into a <i>client agreement</i>.
(4)	<i>Life insurer</i>	Effecting a <i>life policy</i> issued or to be issued by it as <i>principal</i>.
(5)	<i>Operator of a collective investment scheme</i>	Any designated investment business conducted as part of <i>scheme management activity</i>.
(6)	<i>Operator of a collective investment scheme</i>	Any service provided to the <i>trustee</i> or <i>depository</i> of the <i>scheme</i> which is not part of the <i>operator's scheme management activity</i>.
(7)	<i>Operator of a collective investment scheme</i>	The sale or purchase as <i>principal</i> of <i>units</i> in a <i>scheme</i>.
(8)	<i>Trustee or depository</i>	Acting as a <i>trustee</i> of a <i>unit trust</i> or <i>depository</i> of an <i>ICVC</i>.
(9)	<i>Operator of investment trust savings scheme</i>	Bring about a transaction in the <i>shares</i> of any <i>investment trust</i> that is the subject of the <i>scheme</i>.
(10)	<i>Operator of investment trust savings scheme</i>	Any designated investment business conducted as part of its activities as such.
(11)	<i>Supplier of a published recommendation</i>	The supply of a <i>published recommendation</i>.

	Column A	Column B
(12)	<i>Designated investment business performed after termination of terms of business</i>	<i>Designated investment business performed under terms of business that have terminated, but only for the purposes of fulfilling any obligations still outstanding under the terms of business.</i>
(13)	<i>OPS firms who are trustees of an OPS</i>	<i>Any designated investment business carried on by an OPS firm as part of its OPS activity in relation to an occupational pension scheme of which it is the trustee.</i>

Adequate detail

- 4.2.10** **R** ^{/1} A firm must ensure that its *terms of business* (including a *client agreement with a customer*) set out in adequate detail the basis on which *designated investment business* is to be conducted.
- 4.2.11** **E** ^{/1}
- (1) A firm should, in order to provide adequate detail, include in its *terms of business* provided to a *customer*:
 - (a) a provision about each item set out in **■ COB 4.2.15** and **■ COB 4.2.16**, except those the *customer* has requested not to be included; and
 - (b) any further or alternative provisions that the *customer* has asked for and on his own initiative agreed with the *firm*;

to the extent that each such provision is relevant in the circumstances and that it is practicable to provide it.
 - (2) Compliance with (1) may be relied on as tending to establish compliance with **■ COB 4.2.10**.
 - (3) Contravention of (1) may be relied on as tending to establish contravention of **■ COB 4.2.10**.
- 4.2.12** **R** ^{/1} A firm's *terms of business* provided to a *customer* may comprise more than one document, provided that it is clear that collectively they constitute the *terms of business*, and provided the use of several documents does not materially diminish the significance of any information the *firm* is required to give the *customer*, or the ease with which this can be understood.

Amendment of terms of business

4.2.13 **R** /1 If the *terms of business* provided to a *customer* allow a *firm* to amend its terms without the *customer's* consent, the *firm* must give at least ten *business days'* notice to a *customer* before conducting *designated investment business* with or for that *customer* on any amended terms, unless it is impracticable in the circumstances to do so.

4.2.14 **R** /1

(1) A *firm* must make a record of each *terms of business* it provides to a *customer*, and any amendment to them, as soon as the *terms of business* come into force.

(2) A *firm* must retain each record referred to in (1):

- (a) indefinitely, where the *terms of business* relate to a *pension transfer, pension opt-out* or *FSAVC*;
- (b) for six years, where the *terms of business* relate to a *life policy, pension contract* or *stakeholder pension scheme*; and
- (c) for three years in any other case.

(3) For the purposes of (2), the appropriate time period runs in each case from the date on which the *customer* ceases to be a *customer* of the *firm*.

4.2.15 **E** /1 Table Content of terms of business provided to a customer: general requirements
This table belongs to ■ COB 4.2.11.

General requirements	
A <i>firm's terms of business</i> (including a <i>client agreement</i>) provided to a <i>customer</i> should, where relevant, include some provision about:	
(1)	Commencement of the <i>terms of business</i> When and how the <i>terms of business</i> are to come into force.
(2)	Regulator The fact that the <i>firm</i> is regulated or authorised by the <i>FSA</i> .
(3)	Investment objectives The customer's investment objectives.
(4)	Restrictions
(a)	any restrictions on:
(i)	the types of <i>designated investment</i> in which the <i>customer</i> wishes to invest; and
(ii)	the markets on which the <i>customer</i> wishes transactions to be <i>executed</i> ; or
(b)	that there are no such restrictions.

General requirements	
(5)	<p>Services</p> <p>The services the <i>firm</i> will provide.</p>
(6)	<p>Payments for services</p> <p>Details of any payment for services payable by the <i>customer</i> to the <i>firm</i>, including where appropriate:</p> <ul style="list-style-type: none"> (a) the basis of calculation; (b) how it is to be paid and collected; (c) how frequently it is to be paid; <p>whether or not any other payment is receivable by the <i>firm</i> (or to its knowledge by any of its <i>associates</i>) in connection with any transaction <i>executed</i> by the <i>firm</i>, with or for the <i>customer</i>, in addition to or in lieu of any <i>fees</i>.</p>
(7)	<p>Disclosure of polarisation status</p> <p>Where the <i>firm</i> is to transact business in <i>packaged products</i> with <i>private customers</i>, a statement, in accordance with COB 5.1.17R (Disclosure of polarisation status generally) whether <i>advice on investments</i> about <i>packaged products</i> will be:</p> <ul style="list-style-type: none"> (a) independent; or (b) restricted to the <i>packaged products</i> of one <i>product provider</i> or <i>marketing group</i>; or (c) restricted to the <i>packaged products</i> of one <i>product provider</i> or <i>marketing group</i> but inclusive of <i>adopted packaged products</i>; or (d) given for the purposes of managing a portfolio with discretion.
(8)	<p><i>Investment manager</i></p> <p>If the <i>firm</i> is to act as an <i>investment manager</i>:</p> <ul style="list-style-type: none"> (a) the arrangements for giving instructions to the firm and acknowledging those instructions; (b) the initial value of the managed portfolio; (c) the initial composition of the managed portfolio; and (d) the period of account for which statements of the portfolio are to be provided in accordance with COB 8.2.4R (Requirement for a periodic statement) (where <i>periodic statements</i> are required).
(9)	<p>Accounting</p> <p>The arrangements for accounting to the <i>customer</i> for any transaction <i>executed</i> on his behalf.</p>

General requirements	
(10)	<p>Right to withdraw</p> <p>In the case of a non-packaged product ISA or PEP, an explanation of any right to withdraw (see COB 6.7 (Cancellation and withdrawal)) or, if it is the case, a statement that such rights will not apply.</p>
(11)	<p>Unsolicited real time financial promotions</p> <p>In the case of a private customer, the circumstances, if any, in which the firm or its representatives or employees may communicate an unsolicited real time financial promotion to the private customer.</p>
(12)	<p>Acting as a principal</p> <p>That the firm may act as principal in a transaction with the customer, if this is the case.</p>
(13)	<p>Conflict of interest and material interest</p> <p>When a material interest or conflict of interest may or does arise, the manner in which the firm will ensure fair treatment of the customer as required by COB 7.1.3R (Fair treatment).</p>
(14)	<p>Broker fund adviser</p> <p>If the firm acts as a broker fund adviser for a private customer, a statement explaining the nature of the firm's dual role as adviser to the customer and adviser to the life office or operator in question.</p>
(15)	<p>Use of soft commission agreements</p> <p>If the firm is to be authorised under the terms of business to undertake transactions with or through the agency of another person with whom the firm has a soft commission agreement, the prior disclosure required by COB 2.2.16R (Prior disclosure).</p>
(16)	<p>Customer's understanding of risk</p> <p>When a firm chooses to fulfil any of its obligations under COB 5.4.3R (Requirement for risk warnings) in the terms of business in relation to any of the following:</p> <ul style="list-style-type: none"> (a) warrants or derivatives; (b) non-readily realisable investments; (c) penny shares; (d) securities which may be subject to stabilisation; (e) stock lending activity; <p>the relevant risk warning.</p>
(17)	<p>Unregulated collective investment scheme</p> <p>That the services to be provided by the firm will or may include advice on investments relating to, or executing transactions in units in unregulated collective investment schemes, if this is the case.</p>

General requirements	
(18)	<p>Underwriting</p> <p>That the <i>firm</i> may enter into transactions for the <i>customer</i>, either generally or subject to specified limitations, when the <i>customer</i> will incur obligations as an underwriter or sub-underwriter, if this is the case.</p>
(19)	<p>Stock lending</p> <p>In the case of a <i>private customer</i>, that the <i>firm</i> may undertake <i>stock lending activity</i> with or for the <i>private customer</i> (if this is the case), specifying the assets to be lent, the type and value of <i>relevant collateral</i> from the borrower and the method and amount of payment due to the <i>private customer</i> in respect of the lending.</p>
(20)	<p>Right to realise a <i>private customer</i>'s assets</p> <p>The information required by COB 7.8.3R (Contractual rights to realise a private customer's assets), if applicable.</p>
(21)	<p>Complaints procedure</p> <p>How to complain to the <i>firm</i>, and a statement, if relevant, that the <i>customer</i> may subsequently complain directly to the <i>Financial Ombudsman Service</i>.</p>
(22)	<p>Compensation</p> <p>If applicable, an explanation of the compensation arrangements available to <i>customers</i> under the <i>Compensation Scheme</i> if the <i>firm</i> is unable to meet any of its liabilities, or the availability of an explanation describing those arrangements.</p>
(23)	<p>Termination method</p> <p>How the <i>terms of business</i> may be terminated, including a statement:</p> <ul style="list-style-type: none"> (a) that termination will be without prejudice to the completion of transactions already initiated, if this is the case; (b) that the <i>customer</i> may terminate the <i>terms of business</i> by written notice to the <i>firm</i> and when this may take effect; (c) that if the <i>firm</i> has the right to terminate the <i>terms of business</i>, it may do so by notice given to the <i>customer</i>, and specifying the minimum notice period, if any; and (d) of any agreed time after which, or any agreed event upon which, the <i>terms of business</i> will terminate.
(24)	<p>Termination consequences</p> <p>The way in which transactions in progress are to be dealt with upon termination.</p>
(25)	<p>Contracting out of best execution</p> <p>When the obligation to provide best execution can be and is to be waived, a statement:</p> <ul style="list-style-type: none"> (a) that the <i>firm</i> does not owe a duty of best execution; or

General requirements	
(b)	the circumstances in which it does not owe such a duty.
(26)	<p><i>Authorised professional firms</i></p> <p>If the <i>firm</i> is an <i>authorised professional firm</i> and may conduct a <i>non-mainstream regulated activity</i> with or for the <i>customer</i> (whether with or without any other <i>regulated activity</i> for the same <i>customer</i>), an explanation, with respect to that activity, of:</p> <p>(a) how to complain to the <i>firm</i>, where the <i>customer</i> may subsequently complain and the mechanisms that operate in respect of such a subsequent complaint; and</p> <p>(b) what, if any, compensation arrangements are available to the <i>customer</i> if the <i>firm</i> is unable to meet any of its liabilities, or the availability of an explanation describing those arrangements.</p>

4.2.16

Table Content of terms of business provided to a customer: managing investments on a discretionary basis
This table belongs to ■ COB 4.2.11.

Managing investments on a discretionary basis	
Additional contents in respect of discretionary management	
In respect of discretionary management, <i>terms of business</i> (including a <i>client agreement</i>) provided to a <i>customer</i> should, in addition, include some provision about each of:	
(1)	<p>Extent of discretion</p> <p>(a) the extent of the discretion to be exercised by the <i>firm</i>, including any restrictions on:</p> <p>(i) the value of any one <i>investment</i>; and</p> <p>(ii) the proportion of the portfolio which any one <i>investment</i> or any particular kind of <i>investment</i> may constitute; or</p> <p>(b) that there are no such restrictions.</p>
(2)	<p><i>Periodic statements</i></p> <p>(a) The frequency of any <i>periodic statements</i>, except when a <i>periodic statement</i> is not required by COB 8.2.7R (Promptness, suitable intervals and adequate information); and</p> <p>(b) whether those statements will include some measure of performance, and if so, what the basis of that measurement will be.</p>
(3)	<p>Valuation</p> <p>The basis on which assets comprised in the portfolio are to be valued.</p>

Managing investments on a discretionary basis	
(4)	<p>Borrowings</p> <p>That the <i>firm</i> may commit the <i>customer</i> to supplement the funds in the portfolio, including borrowing on his behalf, if this is the case, and, if it may:</p> <ul style="list-style-type: none">(a) the circumstances in which the <i>firm</i> may do so;(b) whether there are any limits on the extent to which the <i>firm</i> may do so and, if so, what those limits are; and(c) any circumstances in which such limits may be exceeded.
(5)	<p>Underwriting commitments</p> <p>If it is the case, that the <i>firm</i> may commit the <i>customer</i> to any obligation to underwrite or sub-underwrite any issue or offer for sale of <i>securities</i>, and:</p> <ul style="list-style-type: none">(a) whether there are any restrictions on the categories of <i>securities</i> which may be underwritten and, if so, what these restrictions are; and(b) whether there are any financial limits on the extent of the underwriting and, if so, what these limits are.

Chapter 5

Advising and selling

5.1 Polarisation and Status Disclosure

Application

- 5.1.1 **R** This section applies to a *firm* which gives *advice on investments* to a *private customer on packaged products* (including *adopted packaged products*), and to a *firm* which is a member of a *marketing group*.

Purpose

- 5.1.2 **G** This section gives support to *Principle 6* (Customers' interests) and *Principle 7* (Communications with clients) which require *firms* to have due regard to the information needs of their *customers* and treat them fairly. When *advice on investments* which are *packaged products* is given it is important that a *private customer* is always clear whether a *firm*, its *advisers* or *representatives*, will act solely in his interests or whether the range of advice offered by the *firm* will be constrained by the nature and number of the *firm's* commercial relationships. Accordingly, the *rules* and *guidance* in **■ COB 5.1** give effect to the regulatory policy of polarisation which, in relation only to advice on *packaged products* requires a *firm* to act either independently for the *private customer*, or to act on a tied basis where advice is restricted to its own products, those of its *marketing group* and *adopted packaged products*. Polarisation does not extend to an *execution-only transaction* or to a *financial promotion* of a *packaged product* which does not contain any *advice on investments*.
- 5.1.3 **G** As well as giving effect to the policy of polarisation, the *rules* and *guidance* in this section require *firms* to take reasonable steps to disclose their polarised status to *private customers* in a clear and timely way.

Adoption of packaged products

- 5.1.4 **R** (1) If a decision is made by a *provider firm* to provide *advice on investments* in accordance with this section, to a *private customer* on a *stakeholder pension scheme* produced by a *person* ("the producer") other than the *firm* (or, where applicable, outside the *marketing group* of the *firm*), then that *stakeholder pension scheme* becomes an *adopted packaged product* of the *firm* (and, where relevant, of all the members of its *marketing group*).

- (2) If a decision under (1) is to be made in respect of the members of a *marketing group*, the *product provider* in the group adopting the product must ensure that the decision is made by a *firm* which is a member of the group and which is selected for that purpose by the *product provider*.
- (3) The *product provider* or, where (2) applies, the selected *firm* must:
- (a) make a record of each decision made under (1), and
 - (b) retain that record throughout the period during which the decision remains in effect, and for a period of six years thereafter.
- (4) If the *product provider's* selection at (2) is changed, then (3)(b) shall have effect in relation to the new *firm* selected as if it had made all the decisions itself.

5.1.5

G
/1

A decision to adopt a *packaged product* may relate to a *stakeholder pension scheme* produced by a *person* who is not an *authorised person* if the conditions in ■ COB 3.13.1 (overseas insurance business) are, where applicable, satisfied.

5.1.6

G
/1

When *advice on investments* is given by a *provider firm* or its *appointed representative* on an *adopted packaged product*, the *provider firm* is responsible for the advice given. By contrast, the producer is responsible for the relevant terms and conditions of the *adopted packaged product*. It is, however, acceptable for the *provider firm* and the producer to set up arrangements, for example a one-stop shop for customer information and customer complaints handling, under a service level agreement, provided that this still secures for the customers an equivalent standard of service and, if appropriate, redress. Any such arrangements should be made clear to the customer at the advisory stage.

Tied advice by provider firms

5.1.7

R
/1

- (1) A *provider firm* must, subject to (2), take reasonable steps to ensure that neither it nor any of its *employees* or *representatives* gives *advice on investments* to a *private customer* about the purchase of a *packaged product* unless the product is:
- (a) issued by the *firm* itself or by another member of its *marketing group*; or
 - (b) an *adopted packaged product*.
- (2) The restriction in (1) does not apply to a *provider firm* when it acts as an *investment manager* but only when it manages *designated investments* on a discretionary basis.

5.1.8

R
/1

A *provider firm* must take reasonable steps to ensure that each of its *appointed representatives* complies with the requirements in ■ COB 5.1.7 – ■ COB 5.1.15.

- 5.1.9** G_{/1} ■ COB 5.1.7(1) does not inhibit the sale by a *provider firm* where the sale does not involve the provision of *advice on investments* to a *private customer*. A *provider firm* may act as an intermediary for a transaction in a *packaged product* where that transaction is an *execution-only transaction*.
- 5.1.10** G_{/1} ■ COB 5.1.7(1) applies to *advice on investments* given to *private customers* about the components of an *ISA* which are *packaged products*.
- 5.1.11** R_{/1} A *provider firm* must take reasonable steps to ensure that neither it nor any of its *employees, representatives* or *introducers* says or does, or omits to say or do, anything which might lead a *private customer* reasonably to believe that it is in a position to *advise on investments* or procure *advice on investments* which are *packaged products* other than those of its *marketing group* or its *adopted packaged products*.
- 5.1.12** R_{/1}
- (1) A *provider firm* must, subject to (2), take reasonable steps to ensure that its *representatives* are able to sell with advice each type of *packaged product* that it issues itself, or is issued by a member of its *marketing group*, or is an *adopted packaged product*.
 - (2) A *provider firm* may restrict the type of *packaged product* it authorises a particular *representative* to sell, if:
 - (a) that *representative* is not sufficiently competent to sell certain types of product; and
 - (b) it requires that *representative* to identify instances when another *packaged product* of its own, or of the *marketing group*, or an *adopted packaged product* outside his own restricted range ought to be recommended. The representative must then refer the *private customer* to another *representative* within the *marketing group* who is authorised and competent to sell that product.
- 5.1.13** R_{/1} A *provider firm* must take reasonable steps to ensure that its *representatives*:
- (1) are not likely to be influenced by the structure of their *remuneration* to give unsuitable *advice on investments* to a *private customer*; and
 - (2) do not refer *private customers* to an *independent intermediary* in circumstances which would amount to the provision of an inducement under ■ COB 2.2.3 (Prohibition of inducements).
- 5.1.14** R_{/1} A *firm* which is a *provider firm* must, if it gives *advice on investments* to a *private customer* about an *adopted packaged product*, ensure that it does so only in accordance with arrangements under which the *firm* discloses any charges imposed by the *firm* in excess of those charged by the producer of the *adopted packaged product*.

- 5.1.15 **R** /1 A *firm* giving *advice on investments to private customers* about *adopted packaged products* must ensure that its *private customers* are informed on a timely basis of the arrangements set out in **COB 5.1.14** orally on first contact and subsequently in the *terms of business*.

Independent advice

- 5.1.16 **R** /1
- (1) An *independent intermediary* must act in the best interests of its *private customers* when it gives *advice on investments* which are *packaged products*.
 - (2) An *independent intermediary* must not enter into commercial arrangements with other *persons* which might be likely adversely to affect its ability to provide *advice on packaged products* on an independent basis.
 - (3) An *independent intermediary* must take reasonable steps to ensure that its *appointed representatives* comply with the requirements of (1) and (2).

Disclosure of polarisation status generally

- 5.1.17 **R** /1 A *firm* must ensure that *private customers* are informed on a timely basis whether any *advice on investments* which the *firm* may give on *packaged products* will be:
- (1) independent; or
 - (2) restricted to the *packaged products* of one *product provider* or *marketing group*; or
 - (3) restricted to the *packaged products* of one *product provider* or *marketing group* and the *packaged products* outside the *firm's marketing group* that have been adopted; or
 - (4) given for the purposes of managing a portfolio with discretion.

- 5.1.18 **R** /1 Where a *firm* which is a *provider firm* decides to give *advice on investments* about an *adopted packaged product*, it must take reasonable steps to ensure that any communication with a *private customer*, whether written or oral makes clear that *advice on investments* can be given about *adopted packaged products*.

Disclosure on first contact with a private customer: provider firms

- 5.1.19 **R** /1 A *provider firm* must take reasonable steps to ensure that each of its *introducers* and *representatives*, when first making contact with a

private customer, (including a private customer of its appointed representatives):

- (1) states the name of the *firm* and identifies himself as an *introducer* or *representative* of the *provider firm* or of its *marketing group*; and either
 - (a) makes it clear that the *firm* provides *advice on investments* only about the *packaged products* of the *provider firm* or of its *marketing group*; or
 - (b) makes it clear that the *firm* provides *advice on investments* only about the *packaged products* of the *provider firm* or of its *marketing group* and on its *adopted packaged products*.

Disclosure on first contact with a private customer: independent intermediaries

5.1.20

R

/1

An *independent intermediary* must take reasonable steps to ensure that its *financial advisers* (including those of its *appointed representatives*), when first making contact with a *private customer*:

- (1) state the name of the *firm*; and
- (2) make it clear that the *firm* provides *independent advice*.

Disclosure on first contact by electronic means generally

5.1.21

G

/1

When the first contact with a *private customer* is carried out by electronic means, the *firm* should ensure that a message specifying the *firm's* polarisation status is prominently displayed at the outset of any presentation or series of screens.

5.1.22

G

/1

The message in ■ COB 5.1.21 should be clearly visible and not hidden in some way, for example within other text, by having print size too small to be easily legible or by including it in an area which can be bypassed without giving the *private customer* an opportunity to read it in full.

Disclosure in specific non-real time financial promotions: provider firms

5.1.23

G

/1

Provider firms are reminded that ■ COB 3.8.19 (specific non-real time financial promotions: provider firms) requires a *provider firm* to disclose its polarisation status in any *specific non-real time financial promotion* relating to a *packaged product* that it *communicates* or *approves*.

5.2 Know your customer

Application

- 5.2.1 **R** This section applies to a *firm* that:
/1
- (1) gives a *personal recommendation* concerning a *designated investment* to a *private customer*; or
 - (2) acts as an *investment manager* for a *private customer*; or
 - (3) arranges a *pension opt-out* or *pension transfer* from an *occupational pension scheme* for a *private customer*.
- 5.2.2 **G** A *firm* that arranges an *execution-only transaction* for a *private customer* is not generally required to obtain any personal or financial information about that *customer*, except when the *Money Laundering* sourcebook applies.
/1
- 5.2.3 **G** When a *firm* provides limited *advice on investments* to a *private customer*, the *firm* should not treat any resulting transaction as an execution-only one.
/1

Purpose

- 5.2.4 **G** *Principle 9* (Customers: relationships of trust) requires a *firm* to take reasonable care to ensure the suitability of its advice and discretionary decisions. To comply with this, a *firm* should obtain sufficient information about its *private customer* to enable it to meet its responsibility to give suitable advice. A *firm* acting as a discretionary *investment manager* for a *private customer* should also ensure that before acting in the exercise of discretion it has sufficient information about its *private customer* to enable it to act in a way which is suitable for that *private customer*.
/1

Requirement to know your customer

- 5.2.5 **R** Before a *firm* gives a *personal recommendation* concerning a *designated investment* to a *private customer*, or acts as an *investment manager* for a *private customer*, it must take reasonable steps to ensure that it is in possession of sufficient personal and financial
/1

information about that *customer* relevant to the services that the *firm* has agreed to provide.

5.2.6 **G**_{/1} A *firm* that advises a *private customer*, or exercises discretion for a *private customer*, on a continuing basis should keep its information about that *customer* under regular review. A *firm* that acts for a *private customer* on an occasional basis should undertake such a review whenever that *customer* seeks *advice*.

5.2.7 **G**_{/1} If a *private customer* declines to provide relevant personal and financial information, a *firm* should not proceed to provide the services described in ■ COB 5.2.5 without promptly advising that *customer* that the lack of such information may affect adversely the quality of the services which it can provide. The *firm* should consider sending written confirmation of that advice.

5.2.8 **G**_{/1} The information to be obtained and enquiries made to satisfy ■ COB 5.2.5 may vary significantly depending on the type of *customer* concerned. ■ COB 5.2.11 provides some *guidance* on the process of collecting personal and financial information.

Record keeping: personal and financial circumstances

5.2.9 **R**_{/1} A *firm* must make and retain a record of a *private customer's* personal and financial circumstances that it has obtained in satisfying ■ COB 5.2.5. The record must be retained for a minimum period after the information is obtained, as follows:

- (1) indefinitely for a record relating to a *pension transfer, pension opt-out or free-standing additional voluntary contribution (FSAVC)*;
- (2) six years for a record relating to a *life policy or pension contract*;
- (3) three years in any other case.

Record keeping: execution-only pension opt-outs and pension transfers

5.2.10 **R**_{/1} When a *firm* arranges a *pension opt-out* or *pension transfer* from an OPS for a *private customer* as an *execution-only transaction*, the *firm* must make and retain a clear record to evidence that no *advice on investments* was supplied to the *private customer*.

5.2.11 **G**_{/1} Table Guidance on the collection of information about a private customer. This table belongs to ■ COB 5.2.8.

Guidance on the collection of personal and financial information about a private customer

- 1 *COB 5.2.5R* does not prescribe the method of obtaining sufficient personal and financial information about a *private customer*. A *firm* may design and use a process suitable for the market in which it transacts business. This process is often described as "fact-finding" and the *document* which records the information is often known as the "fact-find".
- (a) Information collected from a *private customer* should, at a minimum provide an analysis of a *customer's* personal and financial circumstances leading to a clear identification of his needs and priorities so that, combined with attitude to risk, a suitable *investment* can be recommended.
 - (b) A *customer* information record can be electronic or paper based and it should be readily available and accessible at all times.
 - (c) There is no *requirement* under the *regulatory system* to obtain the *private customer's* consent in writing to a *customer* information record. When a *customer* is to give consent in writing to an information record, the request for consent should include a prominent warning advising the *customer* to read the information record in full before giving consent.
 - (d) *Firms* may send a *customer* a copy of the information record as proof of compliance with *COB 5.3.14R* (Suitability letter). Further *guidance* on the contents of *suitability letters* is contained in *COB 5.3.29G*.

Affordability

- 2 In assessing whether a *private customer* can afford an *investment*, due regard should be given to that *customer's* current level of income and expenditure, and any likely *future* changes to his income and expenditure.

Friendly society life policies

- 3 When recommending a *friendly society life policy*, the *premium* of which does not exceed £50 a year or, if the *premiums* are payable weekly, £1 a week, the *firm* should:
- (a) obtain details of the *private customer's* (and his dependants') net income and expenditure; and
 - (b) keep a record of the reasons why the recommended transaction is considered to be suitable for that individual *customer*.

5.3 Suitability

Application

5.3.1

R

/1

This section applies to a *firm* when it:

- (1) makes a *personal recommendation* concerning a *designated investment* to a *private customer*; or
- (2) acts as an *investment manager* for a *private customer*; or
- (3) manages the assets of an *occupational pension scheme* (OPS) or a *stakeholder pension scheme*; or
- (4) promotes a *personal pension scheme* by means of a *direct offer financial promotion* to a group of *employees*.

5.3.2

G

/1

This section does not apply to a *firm* in respect of a *direct offer financial promotion*, except in respect of a promotion of a *personal pension scheme* under ■ COB 5.3.28.

5.3.3

G

/1

Firms are reminded of the requirements of ■ COB 3.9.7(Direct offer financial promotions: general requirements) a *direct offer financial promotion* must make it clear that, if a *private customer* is in any doubt about the suitability of the agreement which is the subject of the promotion, he should contact the *firm*, or an *independent intermediary* if the *firm* does not offer *advice*.

Purpose

5.3.4

G

/1

Principle 9 (Customers: relationships of trust) requires a *firm* to take reasonable care to ensure the suitability of its advice and discretionary decisions. The purpose of this section is to amplify this requirement. The nature of the steps *firms* need to take will vary greatly, depending on the needs and priorities of the *private customer*, the type of *investment* or service being offered, and the nature of the relationship between the *firm* and the *private customer* and, in particular, whether the *firm* is giving a *personal recommendation* or acting as a discretionary *investment manager*.

Requirement for suitability generally

5.3.5

R

/1

(1) A *firm* must take reasonable steps to ensure that it does not in the course of *designated investment business*:

- (a) make any *personal recommendation* to a *private customer* to buy or sell a *designated investment*; or
- (b) effect a discretionary transaction for a *private customer* (except as in (3));

unless the recommendation or transaction is suitable for the *private customer* having regard to the facts disclosed by him and other relevant facts about the *private customer* of which the *firm* is, or reasonably should be, aware.

(2) A *firm* which acts as an *investment manager* for a *private customer* must take reasonable steps to ensure that the *private customer's* portfolio or account remains suitable, having regard to the facts disclosed by the *private customer* and other relevant facts about the *private customer* of which the *firm* is or reasonably should be aware.

(3) Where, with the agreement of the *private customer*, a *firm* has pooled his funds with those of others with a view to taking common discretionary management decisions, the *firm* must take reasonable steps to ensure that a discretionary transaction is suitable for the fund, having regard to the stated *investment objectives* of the fund.

Requirements for suitability: provider firms

5.3.6

R

/1

If a *provider firm* makes a *personal recommendation* to a *private customer* to buy a *packaged product*, it must, unless **■ COB 5.3.8(1)** applies, take reasonable steps to ensure that:

- (1) the recommended *packaged product* is the most suitable (taking account of **■ COB 5.3.8(2)**) of those available from the *marketing group* and the *adopted packaged products* that the *firm* is able to sell; and
- (2) no recommendation is made if there is no suitable *packaged product* available from within the *marketing group* and the *adopted packaged products* that the *firm* is able to sell.

5.3.7

R

/1

For the purposes of **■ COB 5.3.6(1)**, a *packaged product* will not be more suitable than another only because it is available at a more favourable price through an alternative distribution channel, or on special terms offered by the *provider firm*, and its availability is restricted.

- 5.3.8** G_{/1} (1) In satisfying ■ COB 5.3.6, a *provider firm* may refer a *private customer* to an *independent intermediary* provided it does so in accordance with ■ COB 2.2 (Inducements and soft commission).
- (2) ■ COB 5.3.6 does not apply to a *provider firm* when it is acting as an *investment manager* but only when it manages designated investments on a discretionary basis.

Requirement for suitability: independent intermediary

- 5.3.9** R_{/1} An *independent intermediary* must not make a *personal recommendation* to a *private customer* to buy:
- (1) a *packaged product* if it ought reasonably to be aware of a generally available *packaged product* which would be more appropriate to the needs and circumstances of the *private customer*; or
- (2) a *packaged product* issued or operated by an *associate* if it ought reasonably to be aware of another generally available *packaged product* which could satisfy the needs and circumstances of the *private customer* as well as the connected *packaged product* (but see ■ COB 5.3.11).

- 5.3.10** R_{/1} ■ COB 5.3.9(2) does not apply to a *firm* acting as an *investment manager*.

- 5.3.11** G_{/1} In complying with the requirements of ■ COB 5.3.9, an *independent intermediary* should have an adequate knowledge of and have regard to the *packaged products* available from the market as a whole.

Requirement for suitability: manager of OPS and stakeholder pension scheme

- 5.3.12** R_{/1} A *firm* that manages the assets of an *occupational pension scheme* or *stakeholder pension scheme* must take reasonable steps to ensure the suitability of specific transactions and of the investment portfolio under management with regard to the *investment* objectives specified in the portfolio mandate.

Requirements for suitability: other specific requirements

- 5.3.13** G_{/1} (1) ■ COB 5.3.20 contains specific *rules* applicable to the suitability of *broker funds*.
- (2) ■ COB 5.3.21 - ■ COB 5.3.27 contain specific *rules* applicable to the suitability of *pension transfers* and *pension opt-outs*.

- (3) ■ COB 5.3.28 contains specific *rules* applicable to the promotion of *personal pension schemes*, including *group personal pension schemes* by means of *direct offer financial promotions*.
- (4) ■ COB 5.3.29 contains *guidance* which is relevant for assessing the suitability of:
 - (a) *pension transfers* and *pension opt-outs*;
 - (b) *personal pension schemes* and *free-standing additional voluntary contributions* (FSAVCs) compared to *stakeholder pension schemes*;
 - (c) hybrid products;
 - (d) *industrial assurance policies*;
 - (e) *income withdrawals*;
 - (f) *ISA* or *PEP transfers*; and
 - (g) contracting out of SERPS.

Requirement for a suitability letter

5.3.14

R

If, following a *personal recommendation* by the *firm*, a *private customer*:

/1

- (1) buys, sells, surrenders, converts, cancels, or suspends *premiums* for or contributions to, a *life policy* or a *stakeholder pension scheme*; or
- (2) elects to make *income withdrawals*; or
- (3) acquires a holding in, or sells all or part of a holding in, a *scheme*; or
- (4) enters into a *pension transfer* or *pension opt-out* from an OPS;

the *firm* must provide the *customer* with a *suitability letter*, within the time period stipulated by ■ COB 5.3.18, unless one of the exceptions in ■ COB 5.3.19 applies.

5.3.15

G

A *suitability letter* is not required in respect of a personal recommendation made by a *firm* to buy or sell *shares* or *units* in a *regulated collective investment scheme* when the *firm* is acting as an *investment manager* for a *private customer* (see ■ COB 5.3.19(1)).

/1

5.3.16

R

The *suitability letter* in ■ COB 5.3.14 must:

/1

- (1) explain why the *firm* has concluded that the transaction is suitable for the *customer*, having regard to his personal and financial circumstances;

- (2) contain a summary of the main consequences and any possible disadvantages of the transaction;
- (3) (a) in the case of a *personal pension scheme* which is not a *stakeholder pension scheme*, explain the reasons why the *firm* considers the *personal pension scheme* to be at least as suitable as a *stakeholder pension scheme*;
- (b) in the case of an FSAVC
 - (i) if the *customer* has the alternative of a *stakeholder pension scheme*, explain the reasons why the *firm* considers the recommended contract to be at least as suitable as a *stakeholder pension scheme* or as any *additional voluntary contribution* (AVC) or the facility to make additional contributions to the *occupational pension scheme* which may be available; or
 - (ii) if the *customer* does not have the alternative of a *stakeholder pension scheme*, explain the reasons why the *firm* considers the recommended contract to be at least as suitable as any AVC or the facility to make additional contributions to the *occupational pension scheme* which may be available; and
- (4) identify the individual who is authorised by the *firm* to advise on the type of product that has been recommended.

5.3.17

G

■ COB 5.3.30 provides *guidance* on the contents of *suitability letters*.

5.3.18

R

The *firm* must provide the letter required by ■ COB 5.3.14 to the *customer*:

- (1) in the case of a *life policy* or *stakeholder pension scheme*, where the *cancellation rules* require notification of the right to cancel, no later than the issue of the post-sale notice of the *customer's* right to cancel; or
- (2) in any other case, when or as soon as possible after the transaction is effected.

Exceptions from requirement to provide a suitability letter

5.3.19

R

■ COB 5.3.14 does not apply:

- (1) if the *firm* is acting as an *investment manager* for a *private customer* and makes a *personal recommendation* relating to a *regulated collective investment scheme*;

- (2) if the *customer* is habitually resident in another *EEA State* at the time of acknowledging consent to the proposal form to which the *personal recommendation* relates;
- (3) if the *customer* is habitually resident outside the *EEA* and the *customer* is not present in the *United Kingdom* at the time of acknowledging consent to the proposal form to which the *personal recommendation* relates;
- (4) to any *personal recommendation* for a *life policy* sold by a *friendly society* with a *premium* not exceeding £50 a year or, if payable weekly, £1 a week;
- (5) to any *personal recommendation* to increase a regular *premium* to an existing contract; and
- (6) to any *personal recommendation* to invest additional single *premiums* or single contributions to an existing *packaged product* to which a single *premium* or single contribution has previously been paid.

Suitability of broker funds

5.3.20

R

A *firm* acting as a *broker fund adviser* for a *private customer* must:

/1

- (1) take account of the characteristics of the *broker fund*, including the charging arrangements, in total, when assessing the suitability of the arrangements;
- (2) review on a regular basis the *customer's* current *investment* objectives and strategies relative to those at the time of any previous periodic report to the *customer* in accordance with **COB 8.2.4** (Requirement for a periodic statement);
- (3) follow up the review with a recommendation in writing to the *customer*, to be provided at least annually, either to continue with the *investment* or to withdraw, and in either case to supply reasons for the recommendation;
- (4) provide the *customer* with an alternative recommendation if the *broker fund arrangement* is no longer suitable; and
- (5) ensure that any significant change in the *investment* strategy of the fund, where known to the *firm*, is notified to the *customer* in advance together with confirmation why the fund continues to be suitable for the *customer's* circumstances or an alternative recommendation.

Suitability of pension transfers and opt-outs

5.3.21 **R** /1 If a *personal recommendation* about a *pension transfer* or *pension opt-out* is to be made on a *firm's* behalf by an individual who is not one of its *pension transfer specialists*, the *firm* must have established procedures for checking:

- (1) the individual's compliance with the *firm's* procedures;
- (2) the correctness of the application of the *transfer value analysis* system, where applicable; and
- (3) the merits of the proposed transaction and the suitability of the recommendation;

and any such recommendation must be assessed by one of the *firm's* designated *pension transfer specialists* to ensure the procedures have been followed.

5.3.22 **R** /1 (1) A *firm* must ensure that a *transfer value analysis* is carried out in accordance with ■ COB 6.6.87 – ■ COB 6.6.93 (Projections) before it makes any recommendation to a *customer* to transfer out of a *defined benefits pension scheme*.

(2) A copy of the analysis must be delivered with the *key features document* or otherwise provided to the *customer* before he gives consent to the application to transfer.

(3) The *firm* must take reasonable steps to ensure the *customer* understands the analysis, drawing attention to factors which do and do not support the recommendation to transfer.

5.3.23 **R** /1 A *firm* must provide a *projection* of the possible *future* benefits of the proposed *individual pension contract* before it makes any *personal recommendation* to a *customer* to opt out of, or transfer from, an *occupational pension scheme*.

(1) The format and nature of the benefits given in the *projection* must, so far as possible, be the same as those which apply under the *occupational pension scheme* of which the *customer* is, or is *eligible* to become, a member.

(2) If it is not possible for the benefits shown in the *projection* to replicate those of the *occupational pension scheme*, an explanation must be given.

(3) If the *customer* has expressed an interest in changing the structure of his eventual benefits, an additional *projection* may also be prepared on that basis.

5.3.24 **R** /1 A *suitability letter* relating to a *personal recommendation* to opt out of or transfer from an *occupational pension scheme* must include:

5.3.25

R

^{/1}

- (1) a summary of the disadvantages as well as the advantages of opting out or transferring; and
- (2) in the case of a *pension opt out*, a financial analysis explaining the decision to opt-out.

If, contrary to the *advice* of the *firm*, a *private customer* instructs the *firm* to arrange a *pension opt-out* or *pension transfer*, the *firm* must:

- (1) make and retain a clear record of the *firm's advice* that the *private customer* should not proceed with the *pension opt-out* or *pension transfer* and the *private customer's* instructions to proceed with the transaction; and
- (2) provide a further confirmation and explanation, in writing, to the *private customer* that the *firm's advice* is that the *private customer* should not proceed with the *pension opt-out* or *pension transfer*.

5.3.26

R

^{/1}

- (1) Every six months, a *firm* must notify the *FSA*, in writing, of the number of opt out and transfer transactions within **■ COB 5.3.25** which it has handled during the previous six months; and it must also supply, at quarterly intervals, the following details in respect of the preceding quarter:
 - (a) the number of execution-only *pension opt-outs* or *pension transfers* arranged if they exceed 1% of all the *firm's pension opt-outs* or *pension transfers* arranged during that quarter;
 - (b) the number of *pension opt-outs* and *pension transfers* arranged against the *firm's advice* if they exceed 1% of all the opt outs and transfers arranged by the *firm* during that quarter; and
 - (c) the number of *pension opt outs* and *pension transfers* arranged on a correspondence-only basis if they exceed 1% of all the the opt outs and transfers arranged by the *firm* during that quarter.
- (2) A *firm* must retain records of the notifications required by (1) indefinitely.

5.3.27

R

^{/1}

A *firm* must keep separate records for each *private customer* of every *pension transfer*, *pension opt-out* or *free-standing additional voluntary contribution* (FSAVC) which it has arranged, whether advised or not, and retain these records indefinitely.

Suitability of personal pension schemes: promotions to employees

5.3.28 **R** /1 When a *firm* promotes a *personal pension scheme*, including a *group personal pension scheme*, by means of a *direct offer financial promotion* to a group of *employees*, the *firm* must be satisfied on reasonable grounds that the *pension scheme* is likely to be at least as suitable for the majority of the *employees* as a *stakeholder pension scheme*, and must record why it thinks the promotion is justified.

5.3.29 **G** /1 Table Guidance on matters which should be taken into account when assessing the suitability of various personal recommendations. This table belongs to ■ COB 5.3.13(4).

Suitability guidance	
A	Pension Transfers and Pension Opt-outs
1	When advising a <i>customer</i> who is, or is eligible to be, an active member of a <i>defined benefit occupational pension scheme</i> whether he should opt out or transfer, a <i>firm</i> should: <ul style="list-style-type: none"> (a) start by assuming it will not be suitable; and (b) only then consider it to be suitable if it can clearly demonstrate on the evidence available at the time that it is in the <i>customer's</i> best interests.
2	When the <i>firm</i> is recommending a <i>customer</i> to transfer or opt out of any other type of <i>occupational pension scheme</i> , the <i>suitability letter</i> should include: <ul style="list-style-type: none"> (a) a clear explanation why transferring or opting out is more suitable than remaining in the <i>occupational pension scheme</i>; (b) a request for the <i>customer</i> to contact the <i>firm</i> immediately should clarification or further information be needed or if the letter does not match the <i>customer's</i> understanding of why the transfer or opt-out has been recommended; (c) a statement to the effect that the <i>firm</i> has relied on information supplied by the <i>customer</i> and the <i>occupational pension scheme</i>; (d) particularly with <i>pension opt-outs</i>, an arithmetical analysis setting out the financial implications of leaving the <i>scheme</i>;
	Pension Opt-outs only
3.	When advising on a <i>pension opt-out</i> from an <i>occupational pension scheme</i> , a <i>firm</i> should: <ul style="list-style-type: none"> (a) identify all the rights and benefits available to the <i>customer</i> under the <i>occupational pension scheme</i> and carefully consider the effect of replacing them with the very different benefits of a personal pension; the following factors should be taken into account relating to the <i>occupational pension scheme</i>: <ul style="list-style-type: none"> (i) spouse's, dependants' and children's pensions; (ii) early retirement provision, including retirement in ill-health; (iii) revaluation rates both in deferment and payment, and whether they are guaranteed or discretionary (and if discretionary, whether likely to continue); (iv) ancillary benefits (for example, tax-free cash or lump-sum death benefits);

Suitability guidance	
	<ul style="list-style-type: none"> (v) transfer club arrangements, where applicable; (vi) the <i>customer's</i> contribution and the employer's contribution; (vii) benefits on leaving service; (viii) whether or not eligibility for other benefits, such as <i>permanent health</i> insurance, is dependent on being a member of the <i>occupational pension scheme</i>; (ix) the financial security of the <i>occupational pension scheme</i>, by reference (for example) to the last actuarial statement or the most recent <i>trustees'</i> report and accounts; and
	<p>(b) take into account the following additional factors:</p> <ul style="list-style-type: none"> (i) whether or not the employer would contribute to the <i>personal pension scheme</i>; (ii) the charging structure of the personal pension and its impact on transfer values in the early years; (iii) subjective factors relating to the <i>customer's</i> personal circumstances such as: <ul style="list-style-type: none"> – future career plans and earning prospects (including any reasonable likelihood of career progression making better occupational terms available) and intended retirement date; – attitude towards earnings-related compared with <i>money-purchase benefits</i>; – attitude to financial risk and security; – a possible wish to make pension arrangements separate from employment (for example, because the <i>customer</i> is on a short-term non-renewable employment contract or does not expect to stay in his current employment for more than a short period); – any value the <i>customer</i> attaches to personal control; – the <i>customer's</i> cash needs;
	<p>(c) if the <i>customer</i> is about to change, or has just changed, employment, consider the <i>issues</i> in (ii) and (iii) in relation to any <i>scheme</i> of the new employer for which the <i>customer</i> is eligible now, or will become eligible in the near future;</p>
	<p>(d) if the <i>customer</i> is an active or prospective <i>member</i> of a <i>money-purchase occupational scheme</i>, follow 1– 3 to the extent that the factors listed are relevant to such <i>schemes</i> taking particular account of differences in costs and <i>charges</i>.</p>
	<p>Pension Transfers only</p>
4.	<p>(a) Advising a <i>customer</i> on the suitability of transferring deferred benefits from a <i>defined benefit occupational pension scheme</i> requires detailed consideration of the ceding <i>scheme</i> compared to the <i>individual pension contract</i> to which the transfer would take place. A process will be needed which should include procedures:</p> <ul style="list-style-type: none"> (i) for gathering ceding <i>scheme</i> information as detailed in (b);

Suitability guidance	
	<ul style="list-style-type: none"> (ii) to assess the <i>customer's</i> attitude to risk and <i>security</i>; this is relevant not merely to the choice of contract or fund, but also (and more fundamentally) to the initial choice between an <i>occupational pension scheme</i> and an <i>individual pension contract</i>; (iii) to ascertain the <i>customer's</i> career aspirations and desired retirement age and to consider what a realistic retirement age would be, having regard to the size of the transfer value and the extent to which it can be converted into a stream of income before State pension age; (iv) to ascertain whether the <i>customer's</i> new employer (if any) has arrangements to accept transferred benefits, as if so a further analysis may be necessary; (v) enabling the <i>adviser</i> to look at other pension options, if available; (vi) for carrying out a transfer value analysis; (vii) for enabling the <i>customer</i> to receive sufficient, clear information to make an informed <i>investment</i> decision (see (iii)).
(b)	<p>The following information as a minimum will be needed from the ceding <i>scheme</i> in respect of the <i>customer</i>:</p> <ul style="list-style-type: none"> (i) spouse's, dependants' and children's pensions; (ii) early retirement provision, including retirement in ill-health; (iii) transfer value quotation detailing: <ul style="list-style-type: none"> – guarantee period; – pre- and post- April 1988 Guaranteed Minimum Pension and Excesses; – revaluation rates in deferment and payment and whether they are guaranteed or discretionary and if discretionary whether they are likely to continue and how far they are reflected in the transfer value; – tax-free cash arrangements; (iv) lump-sum death benefits; (v) transfer club arrangements, if applicable; (vi) relevant earnings; (vii) period of service; (viii) <i>scheme</i> details (for example benefits, bridging pensions, guarantee periods, position pre- and post- normal retirement date, history of discretionary increases); (ix) whether members' benefits have been equalised for service from 17 May 1990; (x) ill-health benefits; (xi) a consideration of the <i>scheme's</i> financial position and whether the transfer value has been reduced because the <i>scheme</i> is underfunded.
(c)	<p>Relevant items of information about the <i>customer</i> include:</p>

Suitability guidance	
	<ul style="list-style-type: none"> (i) the different risks of <i>personal pension schemes</i> and <i>defined benefit pension schemes</i>; (ii) the impact of fluctuations in annuity rates on the size of the eventual pension; (iii) the impact of <i>protected rights</i> on the planned retirement date; (iv) any changes to the tax-free lump-sum; (v) any reduction in immediate death benefits; (vi) the transfer value analysis including an indication of the rate of growth needed to ensure the investor is no worse off as a result of any transfer; (vii) the position and interests of the <i>customer's</i> spouse and dependants.
	<p>(d) (a) – (c) also apply to prospective <i>money-purchase benefits</i> transfers where appropriate; and additional information concerning the <i>customer</i> should be considered, including:</p> <ul style="list-style-type: none"> (i) the possibility of incurring early transfer penalties and new front-end <i>charges</i>; (ii) how the transfer affects the <i>investment</i> risk; (iii) how the effects of <i>charges</i> and expenses differ between the <i>schemes</i>; (iv) changes to the tax-free cash; (v) any reduction in immediate death benefits.
B.	Personal Pension Schemes and FSAVCs compared to Stakeholder Pension Schemes
1.	A particular feature of the <i>personal pension scheme</i> market is that a potential investor in a <i>personal pension scheme</i> will always have the option of a <i>stakeholder pension scheme</i> and may find that equally suitable for his or her needs.
2.	Both <i>independent intermediaries</i> and <i>representatives</i> will need to undertake the comparison between <i>personal pension schemes</i> and <i>stakeholder pension schemes</i> and, as required by COB 5.3.16R(3), explain in the <i>suitability letter</i> why, if they have recommended a <i>personal pension scheme</i> , it is considered to be at least as suitable.
3.	There are some circumstances where a potential investor in an FSAVC will have the option of a <i>stakeholder pension scheme</i> , in addition to the option of an in-house AVC.
4.	Both <i>independent intermediaries</i> and <i>representatives</i> will need to undertake a comparison between the three options and explain in the <i>suitability letter</i> why, if they have recommended an FSAVC, it is considered to be at least as suitable as a <i>stakeholder pension scheme</i> or the in-house AVC.
5.	If a <i>representative</i> without access to a <i>stakeholder pension scheme</i> makes a comparison with a <i>stakeholder pension scheme</i> , the comparison may be with a <i>stakeholder pension scheme</i> on the minimum product standards unless the <i>representative</i> is or ought to be aware that the <i>customer</i> has access to a <i>stakeholder pension scheme</i> on more advantageous terms.

Suitability guidance	
6.	The <i>guidance</i> in this section of the table applies equally to recommendations for individual and group personal pensions, even though the latter may, in accordance with Regulation 22 of the Stakeholder Pension Scheme Regulations 2000 (SI 2000 No 1403), exempt an employer from having to designate a <i>stakeholder pension scheme</i> for his <i>employees</i> .
7.	<i>Firms</i> are reminded that <i>key features documents</i> for <i>personal pension schemes</i> should signpost the availability of <i>stakeholder pension schemes</i> , as set out in COB 6.5.21G(5).
8.	<i>Firms</i> promoting a <i>personal pension scheme</i> (including a <i>group personal pension scheme</i>) to the <i>employees</i> of a particular employer through <i>direct offer financial promotions</i> are reminded of the provisions of COB 5.3.28R. Accordingly, <i>firms</i> should take reasonable care to ensure that the <i>personal pension scheme</i> is likely to be at least as suitable as a <i>stakeholder pension scheme</i> for the majority of <i>employees</i> to whom the <i>personal pension scheme</i> is being promoted, and that this is adequately evidenced.
C.	Hybrid Products
1.	A ‘hybrid product’ is a product which results from combining a package of products to create one recommended solution. An example is a ‘back to back’ contract which takes a lump sum <i>investment</i> and splits it into two amounts; one part is used to provide income through the purchase of a temporary annuity and the other part is invested in a <i>unit trust</i> or life insurance bond so that by the end of the annuity term the growth may produce the return of the original lump sum invested.
2.	The requirements for suitability and best <i>investment advice</i> apply to all elements of a hybrid product: <ul style="list-style-type: none"> (a) <i>independent intermediaries</i> need to scrutinise ready-made packages from a single <i>product provider</i> to make sure that each element is competitive and that a better solution is not available by combining elements from different providers; (b) simplicity or administrative convenience is not sufficient reason for using one provider for all elements.
D.	Industrial Assurance Policies If an <i>industrial assurance policy</i> is recommended to a <i>customer</i> and a comparable <i>policy</i> (which is not an <i>industrial assurance policy</i>) is available which is at least as suitable, the <i>suitability letter</i> should explain clearly the reasons why the <i>industrial assurance policy</i> is being recommended.
E.	Income Withdrawals When a <i>firm</i> is advising a <i>customer</i> about personal pension fund withdrawals: <ul style="list-style-type: none"> (a) the <i>customer’s</i> personal and financial circumstances should be considered carefully, in particular: <ul style="list-style-type: none"> (i) the <i>customer’s</i> <i>investment</i> objectives, need for tax-free cash and state of health; (ii) current and future income requirements, existing pension assets and the relative importance of the plan, given the <i>customer’s</i> financial circumstances;

Suitability guidance	
	<ul style="list-style-type: none"> (iii) the <i>customer's</i> attitude to risk, ensuring that any discrepancy between his attitude to risk relating to pension fund withdrawals and that in relation to other <i>investments</i> is clearly explained;
	<p>(b) the <i>suitability letter</i> should explain:</p> <ul style="list-style-type: none"> (i) the purpose of the contract for the <i>customer</i>; (ii) the relative importance of the contract, given the <i>customer's</i> financial circumstances; (iii) the <i>customer's</i> attitude to risk; and (iv) the risk factors involved in entering into a pension fund withdrawal, which are: <ul style="list-style-type: none"> – taking withdrawals may erode the capital value of the fund, especially if <i>investment</i> returns are poor and a high level of income is taken; this could result in a lower income when the annuity is eventually purchased; – the <i>investment</i> returns may be less than those shown in the illustrations; – annuity rates may be at a worse level when annuity purchase takes place; – when maximum withdrawals are to be taken, high <i>income withdrawals</i> may not be sustainable during the deferral period.
F.	<p>ISA or PEP Transfers</p> <p>When a <i>firm</i> is advising a <i>customer</i> on whether to transfer existing <i>ISA</i> or <i>PEP</i> holdings, <i>COB</i> 5.2 (Know your <i>customer</i>) and <i>COB</i> 5.3 (Suitability) apply. All the advantages and disadvantages of transferring should be considered. In particular the following information (which is not exhaustive) should be considered and provided to the <i>customer</i>, usually as part of the <i>suitability letter</i>, before the transfer takes place:</p> <ul style="list-style-type: none"> (a) <i>exit charges</i> and any other costs associated with the transfer; (b) initial start-up <i>charges</i>; (c) transaction details (that is, whether holdings are liquidated or transferred intact, as permitted by the terms and conditions); (d) possibility (and likely effects) of <i>shortfall</i>, following cancellation; (e) potential for loss of income or growth, following a rise in markets, while the <i>ISA</i> transfer or <i>PEP transfer</i> remains pending.
G.	<p>Contracting out of SERPS</p> <p>When a <i>firm</i> is advising a <i>customer</i> on whether to contract out of SERPS in favour of an <i>appropriate personal pension</i> or contracted-out <i>money-purchase scheme</i> ('<i>COMP</i>'): </p> <ul style="list-style-type: none"> (a) <i>advisers</i> should give careful consideration to: <ul style="list-style-type: none"> (i) the range of pivotal ages outside which it will generally be in the best interests of <i>customers</i> to remain in SERPS; (ii) the level of earnings below which it may not be in a new <i>customer's</i> interests to contract out; (iii) the minimum length of time for which a <i>customer</i> may benefit from being contracted out;

Suitability guidance	
(b)	factors to be taken into account when making this assessment include:
(i)	<i>customer's</i> age and sex;
(ii)	State pension age for females (where different from males);
(iii)	<i>customer's</i> level and stability of earnings and tax position;
(iv)	<i>customer's</i> career prospects (including the likely period for remaining contracted-out);
(v)	<i>customer's</i> existing pension provision or opportunity to participate in an <i>occupational pension scheme</i> ;
(vi)	potential loss of rights compared to SERPS benefits;
(vii)	terms of the <i>personal pension scheme</i> or contracted out <i>money-purchase scheme</i> with particular reference to the level of <i>charges</i> ;
(viii)	<i>customer's</i> attitude to risk.
(c)	The <i>suitability letter</i> should clearly explain any risks in contracting out.

5.3.30

G
/1

Table Guidance on the contents of suitability letters.
This table belongs to ■ COB 5.3.17.

Guidance on the contents of suitability letters	
	Introduction
1.	<i>COB 5.3.14R</i> requires a written explanation of a recommendation relating to a product to be provided to a <i>private customer</i> . This is commonly referred to as 'the <i>suitability letter</i> ' although it does not need to take the form of a letter, for example it might form part of:
(a)	a financial report to the <i>customer</i> (provided that it is prominent); or
(b)	a fact find <i>document</i> (a copy of the whole fact find or just the recommendation section could be given to the <i>customer</i>); if a copy of the fact find or the recommendation section is sent, the copy should be of sufficient quality to be clearly legible.
2.	A <i>suitability letter</i> , to be successful, should explain simply and clearly why the recommendation is viewed as suitable having regard to the <i>customer's</i> :
(a)	personal and financial circumstances;
(b)	needs and priorities identified through the fact finding process;
(c)	attitude to risk in the area of need to which the recommendation relates.
	When a <i>suitability letter</i> is needed
3.	<i>COB 5.3.14R</i> sets out the occasions when a <i>suitability letter</i> is required. <i>COB 5.3.19R</i> sets out the exceptions to this <i>rule</i> . A letter is required in all cases where <i>pension transfers</i> or <i>pension opt-outs</i> are recommended.
	Style and presentation
4.	The style and presentation of a <i>suitability letter</i> is left for <i>firms</i> to decide so that they can design a document which works best for the market in which they transact business. A <i>suitability letter</i> is more likely to be effective if it demonstrates these features:

Guidance on the contents of suitability letters

- (a) personalisation – the more personalised the *suitability letter*, the more effective it is likely to be;
 - (b) simplicity and plain English – when technical terms need to be incorporated, they should be explained if the *customer* is unlikely to understand their meaning;
 - (c) concise and clear messages – lengthy explanations in extensive letters are likely to reduce the effectiveness of the letter with the *customer* disinclined to read it properly.
5. Ideally each *suitability letter* will be different, reflecting the approach of the *adviser*, the *customer's* profile, subjects discussed and the considerations on which the *advice* was based. Some *firms* may wish to introduce a degree of standardisation to *suitability letter* production to aid quality control. When using a standardised approach the *firm* should take the following into account:
- (a) standard paragraphs are best limited to the description of the most common needs and the products which will satisfy those needs;
 - (b) the *firm* should clearly link the *customer's* own needs, priorities and attitude to risk to the product recommended rather than just setting out stock motives that may apply to all *customers*;
 - (c) tick box, pre-printed forms should rarely be used, and when they are it should only be in the simplest and most straightforward *advice* situations.
- Content
6. A *firm* should take the following into account when constructing a *suitability letter*:
- (a) the letter should explain why the *customer's* needs, priorities, attitude to risk and financial situation all combine to make the recommended product suitable for the *customer*. It should not merely state what product is being recommended with no link to the *customer's* personal circumstances;
 - (b) other needs discussed during the factfind process which the *customer* does not wish to consider do not need to be included in the *suitability letter* (although they should be recorded in the factfind); they should be included if they assist in demonstrating why the product recommended is considered suitable;
 - (c) alternative products which were recommended but rejected by the *customer* should be mentioned;
 - (d) only the available options under a contract which have been recommended, whether accepted or rejected, need be mentioned in the letter;
 - (e) *independent intermediaries* should include (the list is not exhaustive) why a particular *product provider* has been recommended; reasons may include product features not available elsewhere, price, service levels, performance track record, *investment* prospects, medical evidence terms, reputation and financial strength.

Signing

Guidance on the contents of suitability letters

7. Each *suitability letter* should be signed by a *person* authorised by the *firm* to advise on the type of product which is being recommended. Ideally this will be the *adviser* who gave the particular *advice* but, if not, both the signatory and the *adviser* should accept responsibility for the letter and the recommendation.

Timing of suitability letters

8. *Suitability letters* should be issued to *customers* at the time that the recommendation is made or as soon as possible afterwards, to allow as much time as possible for the *customer* to consider the recommendation before any cancellation period ends. In any event the letter should be issued no later than the issue of the cancellation notice or, in situations where no cancellation notice will be issued, for example in the case of personal pension *income withdrawals*, before the *transaction* is put into effect.

5.4 Customers' understanding of risk

Application

- 5.4.1 **R** This section applies to a *firm* that conducts *designated investment business* with or for a *private customer*.
/1

Purpose

- 5.4.2 **G** *Principle 7* (Communications with clients) requires a *firm* to pay due regard to the information needs of its *clients* and communicate information to them in a way that is clear, fair and not misleading. *Principle 9* (Customers: relationships of trust) requires a *firm* to take reasonable care to ensure the suitability of its advice and discretionary decisions. The purpose of this section is to ensure that a *firm* takes reasonable steps to ensure that a *private customer* understands the nature of the risks inherent in certain transactions.
/1

Requirement for risk warnings

- 5.4.3 **R** A *firm* must not:
/1
- (1) make a *personal recommendation* of a transaction; or
 - (2) act a discretionary *investment manager*; or
 - (3) *arrange (bring about) a deal in a warrant or derivative*; or
 - (4) engage in *stock lending activity*;

with, to or for a *private customer* unless it has taken reasonable steps to ensure that the *private customer* understands the nature of the risks involved.

- 5.4.4 **E** The reasonable steps in ■ COB 5.4.3 should include the steps set out in ■ COB 5.4.6 to ■ COB 5.4.10 in relation to transactions in the following types of *investment* or activity:
/1

- (1) *warrants and derivatives*;

- (2) *non-readily realisable investments*;
- (3) *penny shares*;
- (4) *securities* subject to stabilisation;
- (5) *stock lending activity*.

5.4.5

/1

Contravention of ■ COB 5.4.4 may be relied on as tending to establish contravention of ■ COB 5.4.3.

Risk warnings in respect of warrants and derivatives

5.4.6

/1

- (1) In relation to a transaction in a *warrant* or *derivative*, the *firm* should:
 - (a) provide the *private customer* with the notice in ■ COB 5 Ann 1; and
 - (b) require the *private customer* to acknowledge receipt of the notice and confirm acceptance of its contents, in writing.
- (2) A *firm* need not undertake steps ■ COB 5.4.6(1)(a) and (b) in respect of a *private customer* who is ordinarily resident outside the *United Kingdom*, if it has taken reasonable steps to determine that the *private customer* does not wish to receive the notice.
- (3) The notice in ■ COB 5 Ann 1 (Warrants and derivatives risk warning notice) need not be sent in relation to the realisation of a *warrant* that is already held by the *private customer*, or of a *warrant* attached to another *designated investment*.

Risk warnings in respect of non readily realisable investments

5.4.7

/1

In relation to a transaction in a *designated investment* that is not a *readily realisable investment*, a *firm* should:

- (1) warn the *private customer* that there is a restricted market for such *designated investments*, and that it may therefore be difficult to *deal* in the *designated investment* or to obtain reliable information about its value; and
- (2) disclose any position knowingly held by the *firm* or any of its *associates* in the *designated investment* or in a *related designated investment*.

Risk warnings in respect of penny shares

5.4.8

In respect of *penny shares*, a *firm* should provide the risk warnings required by ■ COB 3.9.17(12) (Investments that can fluctuate in value).

Risk warnings in respect of securities that may be subject to stabilisation

5.4.9

In respect of *securities* that may be subject to stabilisation, a *firm* should send to the *private customer* the notice in ■ COB 5 Ann 2 (Dealing in securities which may be subject to stabilisation) unless it has taken reasonable steps to establish that the *customer* requires an oral explanation only.

Stock lending activity

5.4.10

A *firm* should not engage in *stock lending activity* with or for a *private customer* unless it has notified him:

- (1) that this may affect his tax position and that he should consult a tax adviser before proceeding; and
- (2) of the consequences of the *stock lending activity*, including what impact it may have on the rights of the holder of the *designated investments* concerned.

5.5 Information about the firm

Application

- 5.5.1 **R** /1 (1) This section applies to a *firm* that conducts *designated investment business* with or for a *private customer*.
- (2) This section does not apply when a *firm communicates* or *approves a financial promotion*.

Purpose

- 5.5.2 **G** /1 *Principle 7* (Communications with clients) requires a *firm* to pay due regard to the information needs of its *clients* and communicate information to them in a way that is clear, fair and not misleading. ■ COB 5.5 aims to ensure that a *firm* provides its *private customers* with adequate information about the *firm*.

Information required to be disclosed

- 5.5.3 **R** /1 When it conducts *designated investment business*, a *firm* must take reasonable steps to ensure that a *private customer* is given adequate information about:
- (1) the identity and business address of the *firm* and any relevant agent of the *firm*;
 - (2) the identity and status, or relationship with the *firm*, of *employees* and other agents with whom the *customer* may have contact; and
 - (3) the fact that the *firm* is regulated or authorised by the *FSA*;
- unless the *private customer* has been given the information on a previous occasion and that information is still up to date.
- 5.5.4 **A** /1 (1) For the purposes of ■ COB 5.5.3, the reasonable steps should include the relevant measures detailed in ■ COB 5.5.5.
- (2) Compliance with (1) may be relied as tending to establish compliance with ■ COB 5.5.3.

5.5.5

(3) Contravention of (1) may be relied as tending to establish contravention of ■ COB 5.5.3.

Table Table of information to be disclosed in written communications.
This table belongs to ■ COB 5.5.4

Written communications	
1.	<p>Any written communication, including stationery, business cards or other business documentation published by the <i>firm</i>, or used by its <i>employees</i>, agents, <i>representatives</i>, <i>financial advisers</i> or <i>introducers</i>, should include:</p> <ul style="list-style-type: none"> (a) the name, business address and telephone number of the <i>firm</i> or of the branch or office of the <i>firm</i> from which the communication originates; (b) the name of the <i>firm's marketing group</i> (if any); (c) the name and status or relationship with the <i>firm</i>, of the individual from whom the communication originates; (d) a statement that the <i>firm</i> is regulated by or authorised by the Financial Services Authority; (e) in the case of a <i>provider firm</i>: <ul style="list-style-type: none"> (i) a statement that the individual using the communication is the <i>representative</i> of, or represents only, the <i>firm</i> or its <i>marketing group</i>; and (ii) a brief description, except in the case of business cards, of the <i>packaged products</i> and services provided by the <i>firm</i> or by members of its <i>marketing group</i> including any <i>adopted packaged products</i> which the <i>firm</i> or any member of the <i>marketing group</i> has adopted; (f) if the communication is by or relates to an <i>introducer</i>, a statement of the <i>introducer's</i> capacity
2.	<p>In the case of a <i>provider firm</i>, when the <i>firm's representative</i> first meets a <i>private customer</i>, the <i>customer</i> should be given the following particulars in writing, which may be in the form of a business card, either before progressing beyond the social preliminaries or as soon as reasonably practicable after a telephone conversation has ended:</p> <ul style="list-style-type: none"> (a) the name, address and telephone number of the <i>representative</i>; (b) the name, business address and telephone number of the <i>firm's</i> branch or office to which the <i>representative</i> reports; (c) the name of the <i>firm's marketing group</i> (if any);

Written communications	
(d)	a statement that the <i>firm</i> is regulated by or authorised by the Financial Services Authority; and
(e)	where relevant a statement that the <i>appointed representative</i> or <i>marketing group associate</i> represents only the specified <i>firm</i> or <i>marketing group</i> together (except in the case of a business card) with a brief description of the <i>packaged products</i> and services provided by that <i>firm</i> or <i>marketing group</i> , indicating which of those he is appointed to sell.

5.5.6

G

/1

A *firm* which gives *advice on investments* to a *private customer* about *packaged products* is reminded of the additional disclosure requirements in ■ COB 5.1 (Polarisation and status disclosure).

Overseas business for UK private customers

5.5.7

R

/1

- (1) A *firm* must not conduct *designated investment business*:
 - (a) from an office of its own (or of any *appointed representative*) outside the *United Kingdom*;
 - (b) with or for a *private customer* who is in the *United Kingdom*;

unless it has, where relevant, made a disclosure in accordance with (2) to the *private customer*.
- (2) The required disclosure in (1) means a written statement making it clear that in some or all respects the *regulatory system* applying, including any compensation arrangements, will be different from that of the *United Kingdom*. The statement may also indicate the protections or compensation available under another system of regulation.
- (3) A *firm* must not make an introduction or make arrangements or give *advice on investments* with a view to another *person* conducting *designated investment business*;
 - (a) from an office outside the *United Kingdom*;
 - (b) with or for a *private customer* (or a person who, if a *client*, would be a *private customer*), who is in the *United Kingdom*;

unless the *firm* has, where relevant, made a disclosure in accordance with (2) and there are no reasonable grounds for the *firm* to doubt that the *private customer* will be dealt with in an honest and reliable way.

Business conducted from an overseas place of business with overseas customers

5.5.8

R
/1

- (1) If, in any communication made to a *private customer* outside the *United Kingdom* in connection with *designated investment business* conducted from its (or its *appointed representative's*) office outside the *United Kingdom*, a *firm* indicates that it is an *authorised person*, it must also, where relevant, and with equal prominence, make the disclosure in ■ COB 5.5.7(2).
- (2) A *firm* need not include the disclosure in (1) if it has already made the disclosure in writing to the *private customer* to whom the communication is made.

5.6 Excessive charges

Application

- 5.6.1 **R**
/1 This section applies to a *firm* that makes a *charge* to a *private customer* in the course of, or in connection with its *designated investment business*.

Purpose

- 5.6.2 **G**
/1 *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. The purpose of this section is to ensure that the *charges* a *firm* makes to its *private customer* are not excessive. The obligation to disclose to a *private customer* the *charges* that a *firm* intends to make are set out in ■ COB 5.7 (Disclosure of charges, remuneration and commission).

Charges to a private customer

- 5.6.3 **R**
/1 A *firm* must ensure that its *charges* to a *private customer* made in connection with the conduct of *designated investment business* are not excessive.
- 5.6.4 **G**
/1 When determining whether a *charge* is excessive, a *firm* should consider:
- (1) the amount of its *charges* for the services or product in question compared with *charges* for similar services or products in the market;
 - (2) the degree to which the *charges* are an abuse of the trust that the *customer* has placed in the *firm*; and
 - (3) the nature and extent of the disclosure of the *charges* to the *private customer*.

Charges in respect of designated investments that are not readily realisable

- 5.6.5 **R**
/1 When a *firm's* *charges* for advising on or managing a *private customer's* assets are dependent on the value of *designated investments* that are not *readily realisable investments*, the valuation of those *designated investments* must be based upon the price likely

to be agreed between a willing buyer and a willing seller dealing at arm's length who are both in possession of all freely available information concerning those investments.

5.6.6

G

/1

In appropriate cases it may be necessary for the basis of a valuation referred to in ■ COB 5.6.5 to be confirmed or approved by an independent expert.

5.7 Disclosure of charges, remuneration and commission

Application

- 5.7.1 **R** This section applies to a *firm* that conducts *designated investment business* with or for a *private customer*.
/1

Purpose

- 5.7.2 **G** *Principle 7* (Communications with clients) requires a *firm* to pay due regard to the needs of its *clients* and communicate information to them in a way that is clear, fair and not misleading. The purpose of this section is to ensure that a *private customer* is made aware of the costs to him, directly or indirectly, of financial services, so that he is better able to make informed choices.
/1

Disclosure of charges

- 5.7.3 **R** Before a *firm* conducts *designated investment business* with or for a *private customer*, the *firm* must disclose in writing to that *private customer* the basis or amount of its *charges* for conducting that business and the nature or amount of any other income receivable by it or, to its knowledge, by its *associate* and attributable to that business.
/1
- 5.7.4 **G** A *firm* may make the disclosures required by **■ COB 5.7.3** in its *terms of business*, in a *client agreement*, or in a separate written statement. Disclosure should include any product-related *charges* that are deducted from the *private customer's* investment. If the product is a *packaged product*, product-related *charges* and expenses will be disclosed in the *key features* document or in the minimum information that the *firm* is required to provide to the *private customer* in accordance with **■ COB 6.2** (Provision of key features) and **■ COB 6.4** (Product disclosure: special situations). When a *firm* is a *broker fund adviser*, disclosure should include any *fees* payable to the *firm* or its *associate* in connection with that activity by a *provider firm*.
/1

Disclosure of remuneration and commission for packaged products

5.7.5

R

/1

(1) Before effecting a transaction in a *life policy* with or for a *private customer*, and subsequently on request of the *private customer*, a *firm* must disclose to that *private customer*, in cash terms:

- (a) any *remuneration* payable by it or its *associates* to its *employees* or agents; and
- (b) any *remuneration* or *commission* receivable by it, in connection with the transaction;

unless ■ COB 5.7.9 or ■ COB 5.7.10 apply.

(2) Before effecting a transaction in any other *packaged product* with or for a *private customer*, or subsequently on request of the *private customer*, an *independent intermediary* or *product provider* must disclose to that *private customer*, in cash terms:

- (a) any *remuneration* payable by it or its *associates* to its *employees* or agents; and
- (b) any *remuneration* or *commission* receivable by it, in connection with the transaction;

unless ■ COB 5.7.9 or ■ COB 5.7.10 apply.

5.7.6

R

/1

In determining the amount to be disclosed as *remuneration* in accordance with ■ COB 5.7.5, a *firm* must put a proper value on the cash payments, benefits and services provided to its *employees* and agents in connection with the transaction.

5.7.7

G

/1

For an *adopted packaged product*, ■ COB 5.7.6 includes all cash payments, benefits and services provided by the provider of the *adopted packaged product*.

5.7.8

E

/1

(1) When determining the value of cash payments, benefits and services under ■ COB 5.7.6, a *provider firm* should follow the provisions of ■ COB 5.7.16.

(2) Compliance with ■ COB 5.7.8(1) may be relied on as tending to establish compliance with ■ COB 5.7.6.

(3) Contravention of ■ COB 5.7.8(1) may be relied on as tending to establish contravention of ■ COB 5.7.6.

Exceptions to the disclosure for packaged products

5.7.9

R

/1

■ COB 5.7.5 does not apply if:

- (1) the *firm* is acting as an *investment manager*; or

- (2) the transaction is effected for a *private customer* who is habitually resident overseas; or
- (3) the *packaged product* is a *life policy* and the *private customer* is not present in the *United Kingdom* at the time the application is made.

5.7.10 **R** _{/1} The requirement in **■ COB 5.7.5** to disclose to a *private customer* the amount or value, in cash terms, of *remuneration* or *commission* does not apply if the *firm* provides the *private customer* with example *key features*, in accordance with **■ COB 6.2.7** (Life policies) and **■ COB 6.2.22** (Schemes), provided that the *firm* discloses to the *private customer* the actual amount or value of *remuneration* or *commission* within five *business days* of effecting the transaction.

Guidance on disclosure requirements for packaged products

5.7.11 **G** _{/1} The disclosures required by **■ COB 5.7.5** should be made in a manner that is clear, fair and not misleading, as required by **■ COB 2.1.3** (Clear, fair and not misleading communication), and that indicates the timing of any payment. For example, when a *firm* exchanges its right to future *commission* payments for a lump sum, whether by way of a loan or other commercial arrangement, it should disclose the amount of *commission* receivable by it that has been exchanged for the lump sum.

5.7.12 **G** _{/1} If the precise rate of *remuneration* or value of *commission* is not known in advance, the *firm* should estimate the rate likely to apply to the *employee* or agent in question.

5.7.13 **G** _{/1} The disclosures required by **■ COB 5.7.5** should normally be made in writing. For example, if a specific *key features* document or *projection* is provided to a *private customer*, the required disclosures should either be contained in the *projection* or the *key features* document, or be given to the *private customer* in a separate written statement at the time these *documents* are given to the *private customer*. When a *private customer* does not make a written application to enter into a transaction contemplated by **■ COB 5.7.5**, for example, when the transaction is a telephone *deal* for *units* in a *regulated collective investment scheme*, the *firm* may disclose the amount or value of *remuneration* or *commission* orally. In these circumstances, the *firm* should give written confirmation as soon as possible after the date of the transaction, and in any event within five *business days*. In preparing its written disclosure statement, a *firm* may wish to follow the *guidance* on content and wording set out in **■ COB 5.7.17**.

5.7.14 **G** _{/1} The collection of *premiums* payable under a *life policy* by *introducers* acting as the appointed collecting agents of a *product provider* will not be treated by the *FSA* as a transaction for the purposes of **■ COB 5.7.5**.

5.7.15 **R** _{/1} If the terms of a *packaged product* are varied in circumstances that require the issue of a cancellation notice, a *firm* must disclose to a *private customer* in writing any consequent increase in *remuneration* or *commission* receivable by it in relation to that transaction.

5.7.16 **A** _{/1} Table Calculating remuneration.
This table forms part of **■ COB 5.7.8**.

Calculating remuneration

COB 5.7.8E applies only to a *firm* which is a *provider firm*. This table sets out the basis on which the *firm* should determine the value of cash payments, benefits and services to be disclosed as *remuneration* under *COB 5.7.5R*. Benefits and services, as set out in parts B and C below, need be included only where their value is such that they could not be provided to an *independent intermediary* as an indirect benefit under *COB 2.2.6G* (Packaged products – guidance on indirect benefits) and *COB 2.2.7G* (Reasonable indirect benefits – joint marketing exercises).

Part A: Cash payments

1. These cover all payments by a *firm* to a *representative* in relation to a transaction in a *packaged product*, including:
 - (a) payments to any *employee* or *representative* of the *firm* in respect of the transaction (for example, a manager's override), including any payments from the *firm* to *introducers*;
 - (b) bonus payments made for the achievement of certain sales targets;
 - (c) that element of any payment made in relation to other business which may be considered to result directly or indirectly from the transaction; for example, any extra element of *remuneration* payable on the sale of a mortgage which is to be repaid through an *investment* in a *packaged product*;
 - (d) payments resulting directly from business written in previous years (for example, renewal *remuneration*), which are conditional on the completion of minimum amounts of new business;
 - (e) payments made by an *associate* of the *firm* to an *associate* of the *representative*;
 - (f) salaries and other payments which do not relate directly to any one transaction, provided they are treated similarly to 'benefits' and 'services' (see paragraph 11).
2. In determining the amounts to be included in the calculation, a *firm* should have regard to the following:
 - (a) When the precise rate of *remuneration* is not known in advance (for example, if retrospective volume overrides apply), the *firm* should estimate the rate likely to apply to the *representative* in question. This could, for example, be based on an average rate applicable to particular groupings of *representatives* or on a best estimate for each *representative*. It should never be below any minimum rate applicable to that *representative* or sale.
 - (b) When payments are credited to an 'account' from which periodic withdrawals may be made, the amount included should be that credited to the account whether or not the recipient intends to withdraw it immediately. If a *representative* is able to 'overdraw' an account, all amounts to be credited in respect of a transaction, up to any 'borrowing limit', should be included as if they were credited at the time the transaction was effected.

Calculating remuneration	
(c)	When a payment is made before the <i>firm</i> receives the <i>premium</i> or the investment monies to which it relates (for example, indemnity <i>remuneration</i>), it should be included as being received at the time of payment. If the <i>adviser</i> or the <i>provider firm</i> wishes to explain this arrangement to the <i>customer</i> , he is free to do so, provided this does not detract from the required disclosure.
(d)	When the <i>firm</i> arranges for a lump sum to be paid to a <i>representative</i> through a third party, in exchange for the income stream to which the <i>representative</i> is entitled (for example, a factoring arrangement), the lump sum should be included as if it were a payment from the <i>firm</i> .
(e)	When a <i>firm</i> provides, or arranges for a third party to provide, a loan to a <i>representative</i> , on the security of, or in the expectation of, future payments from the <i>firm</i> , the amounts to be included are the payments to the <i>representative</i> on which the provision of the loan is based, as if they were received at the time the transaction was effected, irrespective of their actual timing.
(f)	When an agent is employed and remunerated by the <i>firm's appointed representative</i> , the payments to be included should be those made by the <i>firm</i> to the <i>appointed representative</i> , not those made by the <i>appointed representative</i> to its own <i>employee</i> .
Part B: Benefits	
3.	These include the cost to the <i>firm</i> of all non-monetary benefits provided by it to a <i>representative</i> . These benefits include any item that could be considered as a benefit or expense under the Income and Corporation Taxes Act 1988 (ICTA). A benefit should be included whether or not the <i>representative</i> is liable to income tax on it and whether it is chargeable to tax.
4.	The type of benefits covered by paragraph 3 include the use of a car, attendance at conferences, subsidised loans, contributions to <i>pension schemes</i> , national insurance contributions, the value of any voucher outside the ICTA definition of benefit or expense, and the value of <i>share options</i> (taking into account any discount on issue and assuming that the <i>shares</i> in question grow at a reasonable rate in line with other <i>investments</i>).
Part C: Services	

Calculating remuneration

5. These include benefits which could not be provided to an *independent intermediary* as an indirect benefit (under *COB 2.2.3R* (Prohibition of inducements) and *COB 2.2.6G* (Packaged products – guidance on indirect benefits)), and which the *intermediary* would therefore have to fund out of its disclosable *commission*. It is not necessary for a *firm* actually to provide services to an *independent intermediary* for it to be able to apply this criterion in relation to its *employees* or agents.
6. The following services should be included:
 - (a) office accommodation and equipment, including telephone, photocopying and fax;
 - (b) loans where a commercial rate of interest is not charged, including *remuneration* advances overdue for repayment;
 - (c) general stationery and mailing or distribution costs;
 - (d) computer hardware and software (except software which specifically relates to the *firm's packaged products*, such as software used in supporting the pensions review process or for producing illustrations, *projections* and product information);
 - (e) clerical and administrative support (except support given in relation to the pensions review process);
 - (f) business insurance cover, including professional indemnity and fidelity guarantee;
 - (g) recruitment;
 - (h) compliance monitoring;
 - (i) *customer* services;
 - (j) business planning services;
 - (k) line management.
7. To put a value on these services, the following costs should be included:
 - (a) all overheads attributable to a particular cost item (for example, the cost of a compliance official);
 - (b) salary costs pro rata where individuals are only engaged part-time on relevant business;
 - (c) rent and associated premises costs at an appropriately reduced rate where the premises are also used for other business activities;
 - (d) only that proportion of the cost of lead generation promotions attributable to the generation of relevant business (but including the placing of any *financial promotion*, and its mailing or provision of access to third party *customers*);
 - (e) only the marginal additional compliance costs of ensuring that *representatives* and their support and training material comply with relevant *rules*;

Calculating remuneration	
	<ul style="list-style-type: none"> (f) the commercial value of a service which is the use of an asset owned by the <i>firm</i> (for example in the case of a property, its full market rent); (g) in respect of <i>appointed representatives</i>, the costs of any promotion in a newspaper or elsewhere and the provision of <i>representative</i>–specific literature in connection with a <i>direct offer financial promotion</i>; (h) in respect of <i>marketing group associates</i> and connected <i>appointed representatives</i>, where the name of the company is included in the <i>direct offer financial promotion</i>, the costs of any promotion in a newspaper or elsewhere and the provision of <i>representative</i>–specific literature in connection with a <i>direct offer financial promotion</i>.
8.	<p>The following costs should be excluded:</p> <ul style="list-style-type: none"> (a) any contributions made by a <i>representative</i> out of his own resources; (b) the cost of corporate awareness advertising; (c) training costs; (d) underwriting, policy administration and claims handling costs; (e) costs of developing and maintaining computer systems for the provision of <i>projections</i> of benefits, <i>customer</i>–specific <i>key features</i> documents or other product information; (f) costs of compensating <i>customers</i>; (g) the costs of head office and branch level management and support, other than payments to <i>managers</i> falling under Part 1, for <i>representatives</i>, where these services could also be provided to an <i>independent intermediary</i>, for example, broker branches and ‘inspectors’; (h) ‘collecting remuneration’ payable in respect of <i>industrial assurance policies</i> or by <i>friendly societies</i>, provided that the amounts excluded do not exceed the genuine costs of <i>premium</i> collection; comparison with the <i>remuneration</i> payable to collectors who are not <i>representatives</i> or with the renewal <i>remuneration</i> payable on ordinary branch business may provide a guide. <p>Part D: Calculation methodology actuarial advice</p>
9.	<p>A <i>long–term insurer</i> or <i>friendly society</i> should take the advice of its <i>appointed actuary</i> (or if does not have one, an <i>actuary</i>) in determining the costs of benefits and services to be included and their apportionment over individual <i>packaged product</i> transactions. Where the <i>firm</i> does not follow its <i>actuary</i>’s advice, it should notify the <i>FSA</i>, giving the reasons for that decision and the alternative assumptions it plans to use.</p> <p>Remuneration scale</p>

Calculating remuneration	
10.	When an identical <i>remuneration</i> scale applies to all <i>representatives</i> (although they might earn differing percentages of it), the same average amount of <i>remuneration</i> (and the value of other benefits and services) in respect of identical transactions may be disclosed, regardless of the percentage of the scale paid to each individual <i>representative</i> . Averaging may be used for <i>representatives</i> on the same scale and <i>employees of marketing group associates</i> , but not <i>appointed representatives</i> . Salary and other non–volume or sales related payments
11.	When a <i>representative</i> receives a salary, or other payment unrelated to volume or <i>sales</i> : (a) this should be amalgamated with the cost of benefits and services; and (b) the total costs should be apportioned over individual transactions in a way that reflects the value of the contract to the <i>firm</i> or to the <i>firm’s marketing group</i> .
Payments to associates	
12.	Where a <i>firm</i> pays <i>remuneration</i> to a <i>marketing group associate</i> , or an <i>appointed representative</i> which is an <i>associate</i> of the <i>firm</i> , it should ensure that the calculation of the sum to be disclosed is the higher of: (a) all payments, benefits and services provided to its <i>representatives</i> , from whatever source, plus an additional allowance for profit of 15% – unless the <i>firm</i> can demonstrate that another figure (higher or lower) is more appropriate; and (b) the <i>remuneration</i> actually paid by the <i>firm</i> , plus the value of services provided.

5.7.17

G

Table Remuneration and commission disclosure statements: content and wording.
This table forms part of ■ COB 5.7.13.

Remuneration and commission disclosure statements: content and wording	
A <i>firm</i> may wish to follow the <i>guidance</i> on content and wording in this table when drawing up its written statement of <i>remuneration</i> or <i>commission</i> under COB 5.7.5R.	
Degree of accuracy	
1.	To help the <i>customer</i> understand, the <i>firm</i> may round large amounts of <i>commission</i> or <i>remuneration</i> to three significant figures (that is, where the leading three figures are sufficient to convey the magnitude of the result, for example £122 instead of £122.35). Sample wordings
2.	Examples of appropriate <i>remuneration</i> or <i>commission</i> disclosure wordings, for:

Remuneration and commission disclosure statements: content and wording	
(a)	<i>independent intermediaries</i> and other intermediaries (in a <i>direct offer financial promotion</i> or post-sale information): "For arranging this policy/contract XYZ Ltd will pay commission to IFA Ltd £..."
(b)	<i>representatives</i> employed by an <i>appointed representative</i> : "For arranging this policy/contract XYZ Ltd will pay <i>remuneration</i> and provide services to AR Ltd worth £..."
(c)	<i>representatives</i> employed by an <i>appointed representative</i> (at the point of sale or in a <i>direct offer financial promotion</i>): "For arranging this policy/contract AR Ltd expects to receive <i>remuneration</i> and services from XYZ Ltd worth £..."
(d)	<i>representatives</i> employed directly by the <i>firm</i> (including self-employed sole trader <i>appointed representatives</i>):
(i)	"for arranging this policy/contract I expect to receive <i>remuneration</i> and services from XYZ Ltd worth £...";
(ii)	an acceptable post sale alternative might be: "For arranging this policy XYZ Ltd has provided <i>remuneration</i> and services to your adviser worth £...";
	this type of approach would be suitable either to a salaried or commissioned <i>representative</i> .
3.	The description of the monetary amount (just shown as '£...') in the examples in paragraph 2 will vary according to the incidence and basis of <i>remuneration</i> or <i>commission</i> . Examples of some common cases are:
(a)	indemnified payments (on a monthly payment contract): "£X immediately and £Y each month from the Nth month to the end of the term"
(b)	level basis (on an annual payment whole life contract): "£X each year"; but in the case of a sale by any <i>representative</i> , the provision of benefits and services would probably require instead a statement in the form: "£X immediately and £Y each year thereafter".
(c)	fund related basis:
(i)	using the same rate of growth and the same periods as those in the <i>key features</i> , the example will normally show the <i>commission</i> or <i>remuneration</i> in the first year in which it is paid and the tenth year; or
(ii)	for an <i>investment</i> of £P, "For arranging this <i>policy</i> , XYZ Ltd will pay commission to IFA Ltd of £X, and half a percent of the fund value each year. For example, if your fund was worth £P, we would pay £X per year: if it was worth £2xP, we would pay £Z per year. Commission is paid every six months".
(d)	increasing payment basis: "£X immediately and a variable amount in each year thereafter, being, for example, £Y in the second year and increasing to £Z by the final year".

5.8 Customers introduced to clearing firms by introducing brokers and overseas introducing brokers

Application

- 5.8.1 **G**_{/1} This section should be considered by a *firm* that, in the course of carrying on *designated investment business*, acts as a *clearing firm* to which an *introducing broker* or an *overseas introducing broker* introduces a transaction for its *customer*.

Purpose

- 5.8.2 **G**_{/1} *Principle 1* (Integrity) requires a *firm* to *conduct* its business with integrity and *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. This section supports and clarifies these requirements in respect of the relationship that exists between a *clearing firm* and a *customer* for whom the *clearing firm* executes and clears business, when the business has been introduced by a third party.

Clearing firms and introducing brokers and overseas introducing brokers

- 5.8.3 **G**_{/1} A *clearing firm* to which an *overseas introducing broker* has introduced a transaction on behalf of its *customer* should ensure that the *customer* is aware of the nature of the services that the *clearing firm* will be providing to that *customer* and that only these services, but not those of the *overseas introducing broker*, will be regulated under the *Act*.
- 5.8.4 **G**_{/1} As a matter of good practice, and preferably before accepting orders, a *clearing firm* should enter into a written contract with the *introducing broker* or *overseas introducing broker* specifying that the *clearing firm* will be responsible for all dealing and settlement obligations to the *customer*. The contract should also specify that the *introducing broker* or *overseas introducing broker* will act as agent for the *customer* in introducing transactions and will be responsible for advising the *customer* or managing his assets (or both).
- 5.8.5 **G**_{/1} A *clearing firm* should, by appropriate disclosures, ensure that the *customer* is aware of the nature of the services to be provided to him by the *clearing firm*.
- 5.8.6 **G**_{/1} When a *clearing firm* knows or suspects that the activities of an *introducing broker* or an *overseas introducing broker* are or may be damaging to its *customers*, it should take reasonable steps to address the situation and, as far as possible, to protect its *customers'* interests.

5.8.7

G
/1

When a *clearing firm* operates an omnibus account for an *overseas introducing broker* (that is, an account operated in the name of the *overseas introducing broker* for more than one underlying *client*) a *clearing firm* should:

- (1) establish that the *overseas introducing broker* is authorised in his own country;
- (2) where there is no formal regulatory regime in the *overseas introducing broker's* own country, take reasonable steps to establish that the *overseas introducing broker* is legally empowered to undertake the proposed business to be transacted; and
- (3) have regard to the requirements of *UK law* on *money laundering* and *financial crime*.

5.9 Information about stakeholder pension schemes

Application

- 5.9.1 **R** /1 This section applies to a *firm* that provides information about *stakeholder pension schemes* at a meeting arranged for a group of *employees*.

Requirement

- 5.9.2 **R** /1 When a *firm* provides information about *stakeholder pension schemes* to a group of five or more *employees* at a meeting which has been sponsored by one or more employers, that information must be given by an *adviser* appointed by the *firm* to give *advice* to *private customers* on *packaged products*.

Exception

- 5.9.3 **R** /1 ■ COB 5.9.2 does not apply to a *firm* that provides information about *stakeholder pension schemes* to a group of four or less *employees* at a meeting.

Warrants and derivatives risk warning notice (E)

1 Table This table belongs to ■ COB 5.4.6.

This notice is provided to you, as a private customer, in compliance with the rules of the Financial Services Authority (FSA). Private customers are afforded greater protections under these rules than other customers are and you should ensure that your firm tells you what this will mean to you. This notice cannot disclose all the risks and other significant aspects of warrants* and/or derivative* products such as futures*, options*, and contracts for differences* (* delete as appropriate). You should not deal in these products unless you understand their nature and the extent of your exposure to risk. You should also be satisfied that the product is suitable for you in the light of your circumstances and financial position. Certain strategies, such as a 'spread' position or a 'straddle', may be as risky as a simple 'long' or 'short' position.

Although warrants and/or derivative instruments can be utilised for the management of investment risk, some of these products are unsuitable for many investors. Different instruments involve different levels of exposure to risk and in deciding whether to trade in such instruments you should be aware of the following points. (Include or delete as appropriate).

1. Warrants

A warrant is a time-limited right to subscribe for shares, debentures, loan stock or government securities and is exercisable against the original issuer of the underlying securities. A relatively small movement in the price of the underlying security results in a disproportionately large movement, unfavourable or favourable, in the price of the warrant. The prices of warrants can therefore be volatile.

It is essential for anyone who is considering purchasing warrants to understand that the right to subscribe which a warrant confers is invariably limited in time with the consequence that if the investor fails to exercise this right within the predetermined time-scale then the investment becomes worthless.

You should not buy a warrant unless you are prepared to sustain a total loss of the money you have invested plus any commission or other transaction charges.

Some other instruments are also called warrants but are actually options (for example, a right to acquire securities which is exercisable against someone other than the original issuer of the securities, often called a 'covered warrant').

2. Off-exchange warrant transactions

Transactions in off-exchange warrants may involve greater risk than dealing in exchange traded warrants because there is no exchange market through which to liquidate your position, or to assess the value of the warrant or the exposure to risk. Bid and offer prices need not be quoted, and even where they are, they will be established by dealers in these instruments and consequently it may be difficult to establish what is a fair price.

Your firm must make it clear to you if you are entering into an off-exchange transaction and advise you of any risks involved.

3. Futures

Transactions in futures involve the obligation to make, or to take, delivery of the underlying asset of the contract at a future date, or in some cases to settle the position with cash. They carry a high degree of risk. The 'gearing' or 'leverage' often obtainable in futures trading means that a small deposit or down payment can lead to large losses as well as gains. It also means that a relatively small movement can lead to a proportionately much larger movement in the value of your investment, and this can work against you as well as for you. Futures transactions have a contingent liability, and you should be aware of the implications of this, in particular the margining requirements, which are set out in paragraph 8.

4. Options

There are many different types of options with different characteristics subject to the following conditions.

Buying options:

Buying options involves less risk than selling options because, if the price of the underlying asset moves against you, you can simply allow the option to lapse. The maximum loss is limited to the premium, plus any commission or other transaction charges. However, if you buy a call option on a futures contract and you later exercise the option, you will acquire the future. This will expose you to the risks described under 'futures' and 'contingent liability investment transactions'.

Writing options:

If you write an option, the risk involved is considerably greater than buying options. You may be liable for margin to maintain your position and a loss may be sustained well in excess of the premium received. By writing an option, you accept a legal obligation to purchase or sell the underlying asset if the option is exercised against you, however far the market price has moved away from the exercise price. If you already own the underlying asset which you have contracted to sell (when the options will be known as 'covered call options') the risk is reduced. If you do not own the underlying asset ('uncovered call options') the risk can be unlimited. Only experienced persons should contemplate writing uncovered options, and then only after securing full details of the applicable conditions and potential risk exposure.

Traditional options:

Certain London Stock Exchange member firms under special exchange rules write a particular type of option called a 'traditional option'. These may involve greater risk than other options. Two-way prices are not usually quoted and there is no exchange market on which to close out an open position or to effect an equal and opposite transaction to reverse an open position. It may be difficult to assess its value or for the seller of such an option to manage his exposure to risk.

Certain options markets operate on a margined basis, under which buyers do not pay the full premium on their option at the time they purchase it. In this situation you may subsequently be called upon to pay margin on the option up to the level of your premium. If you fail to do so as required, your position may be closed or liquidated in the same way as a futures position.

5. Contracts for differences

Futures and options contracts can also be referred to as contracts for differences. These can be options and futures on the FTSE 100 index or any other index, as well as currency and interest rate swaps. However, unlike other futures and options, these contracts can only be settled in cash. Investing in a contract for differences carries the same risks as investing in a future or an option and you should be aware of these as set out in paragraphs 3 and 4 respectively. Transactions in contracts for differences may also have a contingent liability and you should be aware of the implications of this as set out in paragraph 8.

6. Off-exchange transactions in derivatives

It may not always be apparent whether or not a particular derivative is arranged on exchange or in an off-exchange derivative transaction. Your firm must make it clear to you if you are entering into an off-exchange derivative transaction.

While some off-exchange markets are highly liquid, transactions in off-exchange or 'non transferable' derivatives may involve greater risk than investing in on-exchange derivatives because there is no exchange market on which to close out an open position. It may be impossible to liquidate an existing position, to assess the value of the position arising from an off-exchange transaction or to assess the exposure to risk. Bid prices and offer prices need not be quoted, and, even where they are, they will be established by dealers in these instruments and consequently it may be difficult to establish what is a fair price.

7. Foreign markets

Foreign markets will involve different risks from the UK markets. In some cases the risks will be greater. On request, your firm must provide an explanation of the relevant risks and protections (if any) which will operate in any foreign markets, including the extent to which it will accept liability for any default of a foreign firm through whom it deals. The potential for profit or loss from transactions on foreign markets or in foreign denominated contracts will be affected by fluctuations in foreign exchange rates.

8. Contingent liability investment transactions

Contingent liability investment transactions, which are margined, require you to make a series of payments against the purchase price, instead of paying the whole purchase price immediately.

If you trade in futures contracts for differences or sell options, you may sustain a total loss of the margin you deposit with your firm to establish or maintain a position. If the market moves against you, you may be called upon to pay substantial additional margin at short notice to maintain the position. If you fail to do so within the time required, your position may be liquidated at a loss and you will be responsible for the resulting deficit. Even if a transaction is not margined, it may still carry an obligation to make further payments in certain circumstances over and above any amount paid when you entered the contract.

Save as specifically provided by the FSA, your firm may only carry out margined or contingent liability transactions with or for you if they are traded on or under the rules of a recognised or designated investment exchange. Contingent liability investment transactions which are not so traded may expose you to substantially greater risks.

9. Limited liability transactions

Before entering into a limited liability transaction, you should obtain from your firm or the firm with whom you are dealing a formal written statement confirming that the extent of your loss liability on each transaction will be limited to an amount agreed by you before you enter into the transaction.

The amount you can lose in limited liability transactions will be less than in other margined transactions, which have no predetermined loss limit. Nevertheless, even though the extent of loss will be subject to the agreed limit, you may sustain the loss in a relatively short time. Your loss may be limited, but the risk of sustaining a total loss to the amount agreed is substantial.

10. Collateral

If you deposit collateral as security with your firm, the way in which it will be treated will vary according to the type of transaction and where it is traded. There could be significant differences in the treatment of your collateral, depending on whether you are trading on a recognised or designated investment exchange, with the rules of that exchange (and the associated clearing house) applying, or trading off-exchange. Deposited collateral may lose its identity as your property once dealings on your behalf are undertaken. Even if your dealings should ultimately prove profitable, you may not get back the same assets which you deposited, and may have to accept payment in cash. You should ascertain from your firm how your collateral will be dealt with.

11. Commissions

Before you begin to trade, you should obtain details of all commissions and other charges for which you will be liable. If any charges are not expressed in money terms (but, for example, as a percentage of contract value), you should obtain a clear and written explanation, including appropriate examples, to establish what such charges are likely to mean in specific money terms. In the case of futures, when commission is charged as a percentage, it will normally be as a percentage of the total contract value, and not simply as a percentage of your initial payment.

12. Suspensions of trading

Under certain trading conditions it may be difficult or impossible to liquidate a position. This may occur, for example, at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange trading is suspended or restricted. Placing a stop-loss order will not necessarily limit your losses to the intended amounts, because market conditions may make it impossible to execute such an order at the stipulated price.

13. Clearing house protections

On many exchanges, the performance of a transaction by your firm (or third party with whom he is dealing on your behalf) is 'guaranteed' by the exchange or clearing house. However, this guarantee is unlikely in most circumstances to cover you, the customer, and may not protect you if your firm or another party defaults on its obligations to you. On request, your firm must explain any protection provided to you under the clearing guarantee applicable to any on-exchange derivatives in which you are dealing. There is no clearing house for traditional options, nor normally for off-exchange instruments which are not traded under the rules of a recognised or designated investment exchange.

14. Insolvency

Your firm's insolvency or default, or that of any other brokers involved with your transaction, may lead to positions being liquidated or closed out without your consent. In certain circumstances, you may not get back the actual assets which you lodged as collateral and you may have to accept any available payments in cash. On request, your firm must provide an explanation of the extent to which it will accept liability for any insolvency of, or default by, other firms involved with your transactions.

[name of firm]

[on duplicate for signature by private customer]

I/We have read and understood the risk warning set out above.

Date

[Signature of the customer]

[Signature of joint account holder]

Note to firms

Paragraphs 1–10 may be deleted when they relate to particular kinds of business which will not be carried out with or for the customer.

Paragraphs 11–14 are mandatory and may not be deleted.

This notice may be incorporated as part of a two-way customer agreement, but the customer must sign separately that he has read and understood the risk warnings.

Dealing in securities which may be subject to stabilisation (E)

1 Table This table belongs to ■ COB 5.4.9.

This statement complies with the rules of the Financial Services Authority (FSA)

[Name of Firm] or its representatives may, from time to time, recommend transactions in securities to you, or carry out such transactions on your behalf, where the price may have been influenced by measures taken to stabilise it.

You should read the explanation below carefully. This is designed to help you judge whether you wish your funds to be invested at all in such securities and, if you do, whether you wish:

- (1) to be consulted before [Name of Firm] carries out any such transaction on your behalf; or
- (2) to authorise [Name of Firm] to carry out any such transaction on your behalf without first having to consult you.

What is stabilisation?

Stabilisation enables the market price of a security to be maintained artificially during the period when a new issue of securities is sold to the public. Stabilisation may affect not only the price of the new issue but also the price of other securities relating to it.

The FSA allows stabilisation in order to help counter the fact that, when a new issue comes onto the market for the first time, the price can sometimes drop for a time before buyers are found.

Stabilisation is being carried out by a 'stabilisation manager' (normally the firm chiefly responsible for bringing a new issue to market). As long as the stabilising manager follows a strict set of rules, he is entitled to buy back securities that were previously sold to investors or allotted to institutions which have decided not to keep them. The effect of this may be to keep the price at a higher level than it would otherwise be during the period of stabilisation.

The Stabilisation Rules:

- (1) limit the period when a stabilising manager may stabilise a new issue;
 - (2) fix the price at which he may stabilise (in the case of shares and warrants but not bonds); and
 - (3) require him to disclose that he may be stabilising but not that he is actually doing so.
- The fact that a new issue or a related security is being stabilised should not be taken as any indication of the level of interest from investors, nor of the price at which they are prepared to buy the securities.

Chapter 6

Product disclosure and the customer's right to cancel or withdraw

6.1 Packaged product and ISA disclosure

Application

6.1.1

R

/1

■ COB 6.1 to ■ COB 6.5 apply to a *firm*:

- (1) which sells, *personally recommends* or *arranges (brings about)* for the sale of a *packaged product* to a *private customer* or to the trustees of an *occupational pension scheme* or to the trustee or operator of a *stakeholder pension scheme*; or
- (2) which manages, sells or *personally recommends* a *cash deposit ISA* for or to a *private customer*; or
- (3) which effects, *personally recommends* or arranges for a variation of a *life policy* for or to a *private customer*; or
- (4) which effects, *personally recommends* or arranges *income withdrawals* for or to a *private customer*.

6.1.2

G

/1

- (1) ■ COB 6.2.21 (Exceptions from the requirement to provide key features for life policies) and ■ COB 6.2.24 (Exceptions from the requirement to provide key features for schemes) contain exemptions from the requirement to produce *key features* in relation to *life policies* and *schemes*.
- (2) ■ COB 6.4.3 to ■ COB 6.4.5 and ■ COB 6.4.19 to ■ COB 6.4.20 set out how the *rules* apply where *packaged products* are sold to the trustees of certain *occupational pension schemes* or to the trustees or operators of *stakeholder pension schemes*.

Purpose

6.1.3

G

/1

■ COB 6.1 to ■ COB 6.5 amplify *Principle 7* (Communications with clients), which requires a *firm* to pay due regard to the information needs of its *customers*. In the case of *packaged products* there is a special need to ensure that *private customers* are supplied with information which will highlight particular *packaged product* features. This also needs to be achieved in a way which will optimise the *private customer's* ability to make a comparative analysis of different *packaged products*. These *rules* also address a similar information need in relation to *cash deposit ISAs*.

Requirement to produce key features

6.1.4

R

/1

- (1) A *product provider* or *stakeholder pension scheme* operator must, for each *packaged product* which it offers produce *key features* which, as to design and content, comply with the requirements of ■ COB 6.1, ■ COB 6.2 and ■ COB 6.5.
- (2) A *firm* to which ■ COB 6.4.13(1) applies must, for each *cash deposit ISA* it offers, produce the information document required by ■ COB 6.5.42 instead of *key features*. That information document must comply with ■ COB 6.1, ■ COB 6.2 and ■ COB 6.5 as to design and content.
- (3) A *firm* must produce *key features* in printed hard copy format and may in addition produce *key features* in an electronic format, unless the *firm* intends to conduct the activities in ■ COB 6.1.1 solely through electronic media, in which case there is no requirement for a printed hard copy.

Quality and production of key features

6.1.5

R

/1

A *firm* must ensure that any *key features* or information document it produces is in writing, whether in printed hard copy or in electronic format, and:

- (1) is produced and presented to at least the same quality and standard as the associated sales or marketing material being used by the *firm* to promote the *packaged product* or *cash deposit ISA* to *customers*; and
- (2) is separate from any other material given to the *customer*, unless it is produced for *collective investment schemes* or *stakeholder pension schemes*; in that case it may be included as part of another item of sales or marketing material, but only if the *key features* or information document appears with due prominence.

6.1.6

G

/1

Separate in ■ COB 6.1.5(2) means stand-alone for these purposes. Where *key features* are produced in hard copy printed format, *firms* should, in complying with ■ COB 6.1.5, have particular regard to the quality of paper, the type size and the use of colour printing. Where an electronic format is used, the *firm* should pay regard to the design and appearance of the *key features* screens, as compared to other screens being used to promote the product. Where *key features* are permitted to be included within another item, the need for due prominence is unlikely to be satisfied if they are hidden away at the end, or are produced in such small type that their impact on the reader is likely to be materially less than other parts of the document or series of screens.

6.2 Provision of key features

Application

- 6.2.1 **R** ■ COB 6.2 applies to a *firm* in accordance with ■ COB 6.1.1.
/1

General

- 6.2.2 **R** The *key features* which the rules in ■ COB 6.2 and ■ COB 6.4 require a *firm* to provide to a *private customer* must be provided by the *firm* in writing.
/1
- 6.2.3 **G** For detailed guidance on electronic provision please refer to ■ COB 1.8 and ■ COB 3.14.
/1
- 6.2.4 **G** *Firms* are reminded that any *key features* or other information required by ■ COB 6.4 - ■ COB 6.5 is a form of *financial promotion* and therefore the *financial promotion rules* contained in ■ COB 3 apply (subject to the application provisions in ■ COB 3.1 to ■ COB 3.3). The same is true for a document relating to a *cash deposit ISA* produced by a *bank* or *building society* under the Banking Code in place of that required under ■ COB 6.5.42 (see ■ COB 6.4.13(2)).
/1
- 6.2.5 **G** ■ COB 3.7 requires a *firm* to keep records of *non-real time financial promotions* to *private customers* for certain periods of time. These periods are: indefinitely for a record relevant to a *pension transfer* or *pension opt out*; six years for a record relevant to a *life policy*, *pension contract* or *stakeholder pension scheme*; and three years in any other case.
/1

Life policies

- 6.2.6 **G** ■ COB 6.2.7 - ■ COB 6.2.18 are disapplied by ■ COB 6.2.21 in relation to certain *customers* resident outside the *United Kingdom*.
/1
- 6.2.7 **R** When a *firm* sells, *personally recommends* or arranges the sale of a *life policy* to a *private customer*, the *firm* must provide the *private customer* with appropriate *key features* before the *private customer* completes an application for the *policy*, unless ■ COB 6.2.9(2) applies.
/1
- 6.2.8 **G** Where a *private customer* has responded to a *direct offer financial promotion*, the mailing package or *financial promotion* will have included example-based *key*
/1

features – there is no requirement to provide a further set of *key features* to such a *private customer* in respect of the same transaction.

6.2.9

R
/1

- (1) ■ COB 6.2.7 does not apply to a *product provider* when its *life policy* is sold on the *personal recommendation* of, or arranged to be sold by, an *independent intermediary* or *marketing group associate*.
- (2) ■ COB 6.2.7 does not apply to a *firm* where the *private customer* is to acquire a *life policy* without making a written application, but the *firm* must instead ensure that it gives an adequate oral explanation of the main features of the *policy*, and must give or send the *private customer* appropriate *key features* within five *business days* of the date on which the sale, recommendation or arrangement was made.

6.2.10

G
/1

In most cases, *life policies* will be sold through written applications or proposal forms. ■ COB 6.2.9(2) in particular allows personal pensions to be effected or varied quickly at the end of the tax year, when speed might be essential and the transaction is effected by telephone. A 'written' application includes an application by electronic means.

6.2.11

G
/1

An adequate oral explanation of the information required by ■ COB 6.2.9(2) should include the following:

- (1) the *policy* type, brand name and issuing *company*;
- (2) the *policy* aims, the *private customer's* commitment and the risk factors;
- (3) a summary of the reasons for any recommendation;
- (4) where it is the case, the fact that *commission* or *remuneration* will be paid to the *adviser* or *representative*; and
- (5) that *key features* will be sent within five *business days*.

Life policies: pre-completion variations

6.2.12

R
/1

Where *key features* have already been provided by a *firm* to a *private customer* and the terms for the proposed *life policy* are subsequently altered before the *private customer* completes an application form, the *firm* must ensure that the *private customer* is provided with revised *key features*, unless the alteration is one or more of the following:

- (1) the amount of the *premium* is changed;
- (2) the amount of any *commission* or *remuneration* payable is reduced;
- (3) a rider benefit is added, removed or amended.

6.2.13 G /1 ■ COB 6.2.12 is intended to allow simple changes to be made before a *private customer* commits himself without further *packaged product* disclosure information being provided. Changes in the amount of *premium* alone, of whatever size, will not require revised *key features* if the underlying purpose of the proposed contract is unchanged. So, for example, an increase in the proposed regular *premium* for a *personal pension policy*, will not require revised *key features*; nor will a change in *premium* and sum assured under a mortgage *policy* if the loan has to be increased before the house sale is finalised. However, changes to the type of *packaged product* or the underlying purpose would require revised *key features* – examples being a change from regular to single *premiums* under a *personal pension policy*, or a change from maximum life cover to balanced or standard protection under a flexible whole-life *policy*, with or without a change in *premium*. Revised *key features* would be required where the rate or basis of *commission* or *remuneration* was increased, but not where the amount increased simply because of a change in *premium*.

6.2.14 R /1 Where *key features* have already been provided to a *private customer* by a *firm*, and the terms of the proposed *life policy* are materially altered after the *private customer* completes an application form, the *firm* must ensure that the *private customer* is provided with written details of the change as soon as practicable and offered revised *key features*.

6.2.15 G /1 What constitutes a ‘material change’ requires consideration of the facts in the circumstances of each case. Changes which lead to an increase in the proposed *premium* of 25 per cent or less can be regarded as not material and can be ignored, so long as the underlying *policy* terms and conditions are the same. Other changes to the terms of the proposed contract, such as an increase in the rate or basis of *commission*, a different charges structure or an extension of the *policy* term should be regarded as material.

Variations to existing life policies

6.2.16 R /1 When a policyholder applies to vary a *life policy* issued on or after 1 January 1995 (or is recommended to do so) and the variation of the *policy* gives rise to a right to cancel under ■ COB 6.7.7, a document containing at least the information required by ■ COB 6.5.15 – ■ COB 6.5.19, ■ COB 6.5.23 – ■ COB 6.5.25, ■ COB 6.5.27 - ■ COB 6.5.28 and ■ COB 6.5.38 must be provided to the policyholder by the *firm* personally recommending, arranging or effecting the variation before it is put into effect, unless ■ COB 6.2.19 applies.

6.2.17 G /1 *Key features* were introduced for new *policies* sold from 1 January 1995. *Firms* can meet the requirements of ■ COB 6.2.16 by providing a complete set of new *key features* to the policyholder. If a full *key features* is not provided, then as a minimum the information to be supplied must include the details required by ■ COB 6.5.15 – ■ COB 6.5.19 (An Example), ■ COB 6.5.23 – ■ COB 6.5.25 (Tables), ■ COB 6.5.19 – ■ COB 6.5.28 (Deductions Summary) and ■ COB 6.5.38 (*Commission/Remuneration*). The illustrative figures in the *key features* could relate to just the increase in *premiums* and benefits, or could illustrate a ‘before and after’ situation.

6.2.18 R /1 When a policyholder applies to vary a *policy* issued before 1 January 1995 (or is *personally recommended* to do so) and the variation of

the *policy* gives rise to a right to cancel under ■ COB 6.7.7, information must be given to the policyholder by the *firm* that is *personally recommending*, arranging or effecting the variation before it is put into effect, unless ■ COB 6.2.19 applies. The *firm* must believe on reasonable grounds that the information given is sufficient to enable the policyholder to understand the consequences of the variation.

6.2.19

R
/1

- (1) ■ COB 6.2.16 and ■ COB 6.2.18 do not apply to a *product provider* when the variation to its *life policy* is effected on the *personal recommendation* of or arranged by an *independent intermediary* or *marketing group associate*.
- (2) ■ COB 6.2.16 and ■ COB 6.2.18 do not apply to a *firm* where the *private customer* is to vary a *life policy* without making a written application, but the *firm* must instead ensure that it gives an adequate oral explanation of the variation, and must give or send the *private customer* the information required by whichever of ■ COB 6.2.16 or ■ COB 6.2.18 is applicable within five *business days* of the variation being effected.

6.2.20

G
/1

The *guidance* in ■ COB 6.2.10 and ■ COB 6.2.11 is also relevant to top-ups to existing *policies* when speed might be essential and the transaction is effected by telephone.

Exception from the requirement to provide key features for life policies

6.2.21

R
/1

- There is no requirement for *key features* to be provided for a new *life policy* or a variation to an existing *policy* if, at the time that the *private customer* signs the application; he is *habitually resident*:
- (1) in an *EEA State* other than the *United Kingdom*; or
 - (2) outside the *EEA* and he is not present in the *United Kingdom*.

Schemes

6.2.22

R
/1

- When a *firm* sells, *personally recommends* or arranges for the sale of a *scheme* to a *private customer*:
- (1) the *firm* must, unless ■ COB 6.2.24 or ■ COB 6.2.25 applies, provide the *private customer* with *key features* for the *scheme* before he completes an application for the *scheme holding*; or
 - (2) the *firm* may delay the provision of *key features* where a *private customer* is to acquire the *scheme* without making a written application, provided that it gives an adequate oral explanation of the main features of the *scheme holding* to the *private customer* and the *key features* are sent to him within five *business days* of

6.2.23

G

/1

the date on which the sale, recommendation or arrangement was made.

- (1) ■ COB 6.2.22 applies not just to new purchases but also to any recommendation or application to transfer the value of a particular fund holding within a *scheme* to a different fund within the same *scheme*.
- (2) Where a *private customer* has responded to a *direct offer financial promotion*, the mailing package or *direct offer financial promotion* should have included example-based *key features* – there is no requirement to provide a further set of *key features* to such a *private customer* in respect of the same transaction.
- (3) An adequate oral explanation of the information required by ■ COB 6.2.22 should include the following:
 - (a) the name of the *scheme*;
 - (b) the *scheme*'s aims, the amount to be invested and the risk factors;
 - (c) the charges that the *customer* will or may bear and their effect on his *investment*;
 - (d) a summary of the reasons for any recommendation;
 - (e) where it is the case, that *commission* or *remuneration* will be paid to the *adviser* or *representative*; and
 - (f) that *key features* will be sent within five *business days*.

Exceptions from the requirement to provide key features for schemes

6.2.24

R

/1

A *firm* need not provide *key features* to a *private customer* in respect of a *scheme* if:

- (1) it is a *UK firm* and the obligation arises from business carried on in another *EEA State* under an *EEA right*; or
- (2) at the time he signs the application, the *private customer* is habitually resident outside the *EEA* and is not present in the *United Kingdom*; or
- (3) the *scheme holding* is purchased by a *private customer* on an execution-only basis; or
- (4) the *scheme holding* is purchased on behalf of a *private customer* by an *investment manager* exercising discretion; or
- (5) the sale of the *scheme holding* is arranged or recommended by an *investment manager* who is not exercising discretion and the *private customer* has agreed, either in relation to that specific holding or generally, that *key features* need not be provided; or

- (6) a *private customer* is making a purchase of a *scheme holding* in a fund in which he already has a *scheme holding*:
 - (a) where the terms and conditions, including all charges, are the same as applied at the time of the previous purchase of a *scheme holding* in that fund; and
 - (b) *key features* outlining those terms and conditions were issued to the *private customer* in respect of that previous purchase; or
- (7) a *private customer* is transferring from *accumulation units* to *income units* of the same *scheme* (or vice versa) and has already been supplied with *key features* for that *scheme*.

6.2.25

R

/1

- COB 6.2.22 does not apply to a *product provider* when the *scheme holding* is sold on the *personal recommendation* of, or arranged to be sold by, an *independent intermediary* or *marketing group associate*.

6.3 Post-sale confirmation: life policies

Application

- 6.3.1** **R** ^{/1} ■ COB 6.3 applies to a *firm* in accordance with ■ COB 6.1.1.
- 6.3.2** **G** ^{/1} The requirement on *long-term insurers* to issue post-sale confirmation applies only to *life policies* which are *packaged products*. ■ COB 6.3 does not require a *long-term insurer* to issue post-sale confirmation in respect of *schemes*, *pure protection contracts* or *stakeholder pension schemes*.
- 6.3.3** **R** ^{/1} When a *private customer* buys a *life policy* which is a *packaged product* or varies such an existing *life policy*, and the variation gives rise to a right to cancel under ■ COB 6.7.7, the *long-term insurer* must send to, or in the case of an *industrial assurance policy* must either give or send to, the *private customer* the information required in ■ COB 6.5.46, unless ■ COB 6.3.6 applies.
- 6.3.4** **G** ^{/1} Post-sale confirmation can be provided in printed hard copy and sent through the post direct to the *private customer*. For *industrial assurance policies*, the post-sale confirmation may be delivered by the *firm's representative* rather than sent by *post*. When a *private customer* has approached the *firm* or has responded by submitting his application through an electronic medium (such as e-mail or through the Internet), the post-sale confirmation may be provided by the same means. But electronic methods should only be used where the *private customer* expects to communicate in this way (see ■ COB 1.8 (Application to electronic media)).
- 6.3.5** **R** ^{/1} The post-sale confirmation required by ■ COB 6.3.3 must be sent or given to the *private customer* no later than the issue of any *post-sale notice* under the *cancellation rules* or, if no such notice is required, as soon as reasonably practicable after the contract is effected.

Exceptions to post-sale confirmation

- 6.3.6** **R** ^{/1} A *long-term insurer* need not send or give the post-sale confirmation required by ■ COB 6.3.3 when:
- (1) the *long-term insurer* has taken reasonable steps to determine that the *life policy* or variation is purchased or effected on behalf of a *private customer* by an *investment manager* exercising discretion; or

- (2) the *life policy* is purchased by the trustees of an *occupational pension scheme*; or
- (3) the *life policy* is purchased by the trustees or manager of a *stakeholder pension scheme*; or
- (4) a *life policy* issued before 1 January 1995 is being varied; or
- (5) at the time the *private customer* signs the application for the new *life policy* or variation, he is *habitually resident*:
 - (a) in an *EEA State* other than the *United Kingdom*; or
 - (b) outside the *EEA* and he is not present in the *United Kingdom*.

6.4 Product disclosure: special situations

Application

6.4.1 **R** ^{/1} ■ COB 6.4 applies to a *firm* in accordance with ■ COB 6.1.1, in respect of *occupational pension schemes*, self invested personal pensions, *income withdrawals*, *cash deposit ISAs*, *traded life policies* and *stakeholder pension schemes*.

6.4.2 **G** ^{/1} *Firms* are reminded that, under ■ COB 6.2.2, the *key features* required to be provided to a *private customer* under ■ COB 6.4 must be provided by the *firm* in writing. See also ■ COB 6.2.3 - ■ COB 6.2.5.

Occupational pension schemes

6.4.3 **G** ^{/1} ■ COB 6.1 and ■ COB 6.2 apply to a *firm* in respect of the purchase of *packaged products*, whether *life policies* or *schemes*, by the trustees of *money-purchase occupational schemes*. There is no requirement for a *firm* to provide *key features* for *packaged products* sold to trustees of *defined benefit pension schemes*.

6.4.4 **R** ^{/1}

- (1) When a *firm* sells, *personally recommends* or arranges the sale of a new group or master *life policy*, the first in a series of individual *life policies* or the first *units* in a particular *scheme* to or for the trustees of a *money-purchase occupational scheme*, it must provide the trustees with *key features*, in accordance with ■ COB 6.2.7 to ■ COB 6.2.25.
- (2) In ■ COB 6.2 to ■ COB 6.5, for the purposes of (1), the *firm* must treat the trustees as *private customers*.
- (3) In addition to the information to be provided to trustees under ■ COB 6.4.4(1), the *firm* must ensure that *key features* are made available to the trustees to distribute to all scheme members at the outset of the scheme and for subsequent new members.
- (4) The requirement in ■ COB 6.4.4(3) applies to main scheme benefits and to *additional voluntary contributions* where members' benefits are linked to earmarked segments of *life policies* or *schemes*. It does not apply where trustees make pooled investments and make their own arrangements for allocation of

investment returns to determine members' benefits, whether attached to *defined benefit pension schemes* or *money purchase occupational schemes*.

6.4.5

G
/1

- (1) The illustrative figures within the *key features* provided under ■ COB 6.4.4(1) can be on an example basis, using a range of representative actual or hypothetical scheme members (covering, for example, different ages, sexes and salaries), so that the trustees can assess the effectiveness of the investment for their pension scheme members.
- (2) The definition of *money-purchase occupational scheme* includes executive pension plans (established for directors, executives and senior employees), *small self-administered schemes* that provide *money-purchase benefits* and *additional voluntary contribution* schemes.
- (3) *Group personal pension schemes* are not *occupational pension schemes* and ■ COB 6.4.4 does not apply to them. *Firms* should therefore provide each *person* who is offered membership of a *group personal pension scheme* with *key features* in accordance with ■ COB 6.1 and ■ COB 6.2. This does not preclude generic *key features* being sent out as part of a *financial promotion*, provided that a post-sale confirmation is issued in accordance with ■ COB 6.3.3.
- (4) The objective of ■ COB 6.4.4(3) is to ensure that prospective scheme members have access to information about the *occupational pension scheme* that could enable comparison with alternative personal *investments*. *Firms* may decide for themselves the format (but not content) of this information. For example, individual sets of *key features* can be supplied or a schedule of details which the trustees or their advisers can assimilate into other pension scheme communications.

Self-invested personal pension schemes

6.4.6

R
/1

- (1) **A firm which sells, personally recommends or arranges the sale of a packaged product to or for a member, prospective member or trustees of a self-invested personal pension scheme, must provide key features to that member or trustees, in accordance with ■ COB 6.2.7 to ■ COB 6.2.25.**
- (2) **In ■ COB 6.2 to ■ COB 6.5, for the purposes of (1), members, prospective members and trustees must be treated by the firm as private customers.**

6.4.7

G
/1

Investments within a self-invested *personal pension scheme* (a "SIPP") are effected by the trustees on behalf of scheme members. *Key features* should be given to the trustees and to members of SIPPs when *packaged products* (whether *life policies* or *schemes*) are recommended by a *firm* to scheme members or effected by SIPP trustees. Cancellation notices should also be copied to SIPP members in these circumstances, in accordance with ■ COB 6.7.31.

Income withdrawals

6.4.8 **R** ^{/1} When a *firm personally recommends*, arranges or effects *income withdrawals* to or for a *private customer*, the *firm* must provide *key features* to the *customer* before he signs any form of application or authority electing to make those withdrawals, whether that election is made with *advice on investments* or on an execution-only basis, unless ■ COB 6.4.10 to ■ COB 6.4.12 apply.

6.4.9 **R** ^{/1} In relation to an election to make *income withdrawals*, the requirement for the provision of *key features* in:

- (1) ■ COB 6.2.7 also applies when an existing *life policy* is to be endorsed;
- (2) ■ COB 6.2.22 also applies when an existing *scheme holding* is to be used.

6.4.10 **R** ^{/1} In relation to an election to make *income withdrawals*, the requirements of ■ COB 6.4.11 and ■ COB 6.4.12 override the relevant requirement in ■ COB 6.2, where there is conflict.

6.4.11 **R** ^{/1} When a *private customer* makes a series of elections within a period of 12 months to make *income withdrawals*, the *firm* that is *personally recommending*, arranging or effecting the elections may provide one combined set of *key features* for those elections, or may provide separate sets of *key features* for elections which relate to *life policies* and *schemes*.

6.4.12 **R** ^{/1} At intervals no longer than 12 months from the date of an election by a *private customer* to make *income withdrawals*, the relevant *product provider* must:

- (1) provide the *private customer* with such information required by ■ COB 6.6.13 as will enable the *private customer* to review the election; and
- (2) inform the *private customer* how to obtain *advice on investments* in respect of his *income withdrawals*, and that it would be in his best interests to do so.

Cash deposit ISAs

6.4.13 **R** ^{/1} (1) A *firm* that manages, *personally recommends* or sells a *cash deposit ISA* must ensure, in relation to that *cash deposit ISA*, that the *private customer* is provided with the information specified in ■ COB 6.5.42 instead of *key features* before the transaction is entered into.

- (2) Paragraph (1) does not apply to a *firm* if it is a *bank* or *building society* which subscribes to the Banking Code issued by the British Bankers' Association, the Building Societies Association and the Association for Payment Clearing Services.

Traded life policies

- 6.4.14 **R** /1 When a *firm* personally recommends that a *private customer* should purchase a *traded life policy*, it need not provide *key features*, if it instead supplies the information outlined in ■ COB 6.5.44 in writing to the *private customer* before he is asked to complete any form of application or authority giving effect to the purchase of the *traded life policy*.

Stakeholder pension schemes

- 6.4.15 **R** /1 When a *firm* sells, manages, personally recommends or arranges the sale of a *stakeholder pension scheme* to or for a *private customer*, the *firm* must, subject to ■ COB 6.4.18, provide the *private customer* with *key features* before the *private customer* completes an application for the *stakeholder pension scheme*.
- 6.4.16 **R** /1 When a *firm* proposes to deal with a *private customer* on the telephone for the purposes of providing information through a decision tree about *stakeholder pension schemes*, the *firm* may do so only if it has adequate evidence to show that the *private customer* has access to a copy of a decision tree (as specified in ■ COB 6.5.8) during the conversation.
- 6.4.17 **G** /1 ■ COB 6.4.16 is intended to ensure that, where a *firm* takes a *private customer* through the decision tree process by telephone, it takes reasonable care to ensure that the *private customer* has a decision tree in front of him. For example, on first contact *firms* could enquire whether the *private customer* has a decision tree, and if not, send one to him before taking him through the decision tree process during a follow-up telephone call.
- 6.4.18 **R** /1 ■ COB 6.4.15 does not apply to a *stakeholder pension scheme* operator when its *stakeholder pension scheme* is sold on the *personal recommendation* of, or arranged to be sold by, another *firm*.
- 6.4.19 **R** /1 (1) When a *firm* sells, personally recommends or arranges the sale of a new group or master *life policy*, the first in a series of individual *life policies* or the first *units* in a particular *scheme* to the trustees or the operator of a *stakeholder pension scheme*, it must provide the trustees or operator with *key features*, in accordance with ■ COB 6.2.7 to ■ COB 6.2.25.
- (2) In ■ COB 6.2 to ■ COB 6.5, for the purposes of (1), the *firm* must treat trustees and managers as *private customers*.

- 6.4.20** **G**_{/1} The illustrative figures within the *key features* provided under ■ COB 6.4.19 can be on an example basis, using a range of representative actual or hypothetical *scheme* members (covering, for example, different ages, sexes and salaries), so that the *trustees* or operator can assess the effectiveness of the *investment* for *scheme* members.
- 6.4.21** **R**_{/1} When a *firm* provides a *private customer* with information through a decision tree concerning membership of a *stakeholder pension scheme*, but does not give *advice on investments* or make a *personal recommendation*, the *firm* must provide the *private customer* with a written notice in accordance with ■ COB 6.4.22 and ■ COB 6.4.23.
- 6.4.22** **R**_{/1} A written notice required by ■ COB 6.4.21 must be provided by the *firm* no later than the issue of the *post-sale notice* of the *private customer's* right to cancel under the *cancellation rules*.
- 6.4.23** **R**_{/1} The notice in ■ COB 6.4.22 must:
- (1) confirm that no *advice on investment* has been given and that the *private customer* has decided that the *stakeholder pension scheme* is appropriate as a result of the answers he has given to the questions posed in the decision tree; and
 - (2) include a copy of the decision tree indicating the answers which the *private customer* has given.
- 6.4.24** **G**_{/1} After giving information through a decision tree in accordance with ■ COB 6.4.16 and before the *customer* completes the application, a *firm* could satisfy ■ COB 6.4.15 by providing an adequate oral explanation (for example over the telephone in the case of a call-centre) about the main features of the *stakeholder pension scheme* (as outlined in ■ COB 6.2.11). Written *key features* must then be given or sent along with the copy decision tree in accordance with ■ COB 6.4.21 - ■ COB 6.4.23 within five *business days*.

6.5 Content of key features and important information: life policies, schemes, ISA cash deposit components and stakeholder pension schemes

Application

- 6.5.1 **R** ■ COB 6.5 applies in accordance with ■ COB 6.1.1.
/1

General

- 6.5.2 **R** A *firm* must ensure, unless ■ COB 6.5.3 applies, that:
/1
- (1) the *key features* it produces for a *packaged product* other than a *stakeholder pension scheme* includes the information required by ■ COB 6.5.11, set out in the order shown divided by appropriate and prominent sub-headings, some of which are prescribed in the *rules*;
 - (2) the information it produces for a *cash deposit ISA* under ■ COB 6.4.13(1) complies with ■ COB 6.5.42;
 - (3) the information document or abbreviated form of *key features* it produces relating to *friendly society tax exempt policies*, *traded life policies*, or *broker funds*, contains the applicable information specified in ■ COB 6.5.43 - ■ COB 6.5.45;
 - (4) the post-sale confirmation document it produces contains the applicable information specified in ■ COB 6.5.46; and
 - (5) the *key features* it produces or issues for a *stakeholder pension scheme*:
 - (a) includes the relevant sub-headings set out at ■ COB 6.5.11, the applicable information specified in ■ COB 6.5.12 – ■ COB 6.5.40 appropriate to those sub-headings; and
 - (b) is, subject to ■ COB 6.5.6, accompanied by or includes the decision trees specified in ■ COB 6.5.8, unless the *stakeholder*

pension scheme is being purchased as a result of a *personal recommendation*.

6.5.3 **R** ^{/1} A *firm* may adapt the prescribed content and format requirements in **■ COB 6.5** only when it can demonstrate that this is necessary to reflect the terms and nature of a particular product.

6.5.4 **G** ^{/1}

(1) Where the *rules* in **■ COB 6.5** do not require the use of prescribed text, *firms* may give the relevant information using their own words and style.

(2) For the purposes of **■ COB 6.5.2(1)**:

(a) a *firm* which offers more than one *scheme* may choose whether to produce separate *key features* for each *scheme* (including a fund or *sub-fund* or *share* class), or to produce a single *key features* to cover a range of funds (provided the differences between those funds are made clear);

(b) where a publication covers more than one *scheme* (for example, in the case of a year book comprising information on all the funds offered by a *unit trust manager*), it might consist of a *key features* section at the beginning giving details common to all the relevant funds (whether *unit trusts*, *ICVCs*, *sub-funds* of an *umbrella scheme* or *share* classes within an *ICVC*), followed by separate pages setting out, for each fund, those items which are specific to it, for example 'Aims', 'Risk Factors' and 'Charges and their Effect'.

Stakeholder pension schemes: decision trees

6.5.5 **G** ^{/1} There is no obligation to supply a decision tree where a *firm* has *personally recommended* a *stakeholder pension scheme* to a *private customer*. *Firms* may wish to supply a copy of any decision tree used as part of the advice process along with the mandatory *suitability letter*.

6.5.6 **R** ^{/1} Where a *firm* knows that a certain decision tree or trees will not be relevant to a *private customer* to whom *key features* are to be given, the *firm* can omit them and include only the relevant decision tree or trees.

6.5.7 **G** ^{/1} There are three versions of the decision trees – for employed persons, the self-employed and those not in employment. The specified introductory text is a required part of each decision tree. *Firms* are permitted to issue one decision tree, consisting of the introductory text and the relevant version of the flowcharts, where the employment status of the *customer* is known. In other circumstances, the introductory text and all three versions of the flowcharts should be included. This *guidance* applies whether decision trees are within the *key features* or are used separately.

6.5.8 **R** ^{/1} Whether a *firm* produces decision trees within or separate from *key features*, unless **■ COB 6.5.9** applies, it must reproduce the text, content and format set out in **■ COB 6 Ann 1**.

6.5.9 **R** ^{/1} The only adaptations a *firm* may make to the decision trees specified in **■ COB 6.5.8** are those suitable to brand the decision tree with the corporate image of the *firm*, to reflect the design of its *stakeholder*

pension scheme promotional material or to reflect the use of interactive delivery.

6.5.10

G
/1

- (1) There is a limited scope within ■ COB 6.5.9 to depart from the prescribed decision tree format and content in order to blend in the trees with other promotional materials such as *key features* or internet *financial promotions*. However, the text and general design should follow the prescribed content and format. *Firms* will be aware that the *FSA* publishes its own version of the decision trees for public use: *firms* may consider them as examples of acceptable design.
- (2) Examples of items and formatting where no adaptations should be made include:
 - (a) the text – both content and order – whether in the introduction, the boxes within the flowcharts or any other sections of the decision trees;
 - (b) the use of boxed items within the introductory text;
 - (c) the use of emphasis (*firms* can choose the method of giving emphasis, such as size, bold or italic text);
 - (d) the vertical flow and pagination of the flowcharts within the decision trees;
 - (e) the boxes within the flowchart pages – these should be rectangular and filled with one consistent colour, except that two tints of the base colour may be used to highlight tick boxes and to differentiate columns of figures;
 - (f) the directional arrows linking the boxes within flowchart pages – these should be of one design and the same colour as fills the flowchart boxes.
- (3) Examples of items where adaptations can be made include:
 - (a) the typeface and font size of the text;
 - (b) the pagination of the introductory text and the use of columns;
 - (c) the edging of boxes (for example, use of shadow or rounded corners);
 - (d) the use of background colours, for example, to match corporate colours or product brochures (see (2)(e));
 - (e) separate colour schemes to differentiate between sets of decision trees, for example between employed and self-employed versions;
 - (f) the use of an extra colour to highlight headings within flowchart pages and to identify separate versions of the decision trees;
 - (g) the size of paper used (A4 is recommended, but other sizes are possible, provided that the flowchart pages are clear and legible);
 - (h) where delivery is through an interactive computer-based system, the wording of the introductory text that explains how to use the decision trees.

Title

6.5.12

R

A *firm* must include this heading: 'key features of the [name of *life policy/scheme/stakeholder pension scheme*]'.
/1

Nature of *life policy* or *scheme* or *stakeholder pension scheme*

6.5.13

R

- (1) A *firm* must describe the nature of the *life policy* or *scheme* or *stakeholder pension scheme* under the following headings: 'its aims', 'your commitment', or, 'your investment' (whichever is more appropriate) and 'risk factors'.
/1
- (2) Under 'risk factors' a *firm* must give a brief description of the factors which may have an adverse effect on performance or are otherwise material to the decision to invest.

6.5.14

G

A *firm* might include information on the following under 'risk factors', when relevant:
/1

- (1) whether the value of the capital and any income from it might fluctuate;
- (2) cancellation issues, including the fact that, if the value of the investment falls before notice of cancellation is given, a full refund of the original investment may not be provided but rather the original amount less the fall in value;
- (3) particular risks, if any, associated with the underlying assets in which the *packaged product* is invested;
- (4) risks associated with the markets in which investments will be made, with particular reference to emerging markets; such risks might include dealing difficulties, settlement and *custody* practices;

- (5) special risks such as capital erosion or constraints on capital growth in the case of funds where charges are deducted from capital, or where buying income or dividend stripping forms part of the investment strategy;
- (6) volatility, in particular with regard to *higher volatility funds* such as *geared futures and options schemes* and *warrant schemes* and the fact that the loss on realisation of the investment could be very high, even equalling the amount originally invested;
- (7) the inclusion of a 'market value adjustment' in respect of with-profits funds, and the risk that, in adverse circumstances, benefits could be reduced;
- (8) potential problems with investment in property in respect of liquidity, and the fact that repurchase or surrender might be delayed during a period when the property is not readily saleable, and that property valuation is a matter of judgement by a valuer;
- (9) in the case of a *broker fund*, whether the *private customer* has the right, or may be required, to transfer out of that fund to any other fund or *scheme* of a *firm*; if so, the name of the fund or *scheme*, the transfer terms and the circumstances in which, and by whom, such a transfer may be required or made;
- (10) the risk that a current favourable situation may not be maintained in future, for example the tax treatment of *ISAs*;
- (11) the fact that if the *private customer* does not maintain contributions he may not meet any target benefit which has been projected and may lose the benefits of any life protection;
- (12) in the case of a new fund, the risk that, if its assumed size is not achieved, the proportion of charges and expenses allocated to the investment may be higher and the value of the investment consequently reduced;
- (13) the fact that there is no guarantee that a *life policy* such as an *endowment assurance* used to repay an interest-only mortgage will produce sufficient funds at the end of the mortgage term and that the amount the investor will have to continue to pay may need to increase to achieve repayment of the loan;
- (14) the fact that with personal pensions there may be penalties if the *private customer* takes the benefits before the stated retirement date;
- (15) in the case of a guaranteed *packaged product*, where it is a possibility, the fact that there may be a capital shortfall at the end of the contract; where there is a fixed regular payment of income, it should be drawn to the attention of the *private customer* that such payments often involve a risk to capital.

An example

6.5.15

R

/1

A *firm* must include a *projection*, illustrating how the principal terms of the proposed transaction apply to the *private customer*:

- (1) where the proposed transaction is for a *life policy*; or
- (2) where the proposed transaction is for a *scheme*:

PAGE
18

- (a) and relates to an election to make *income withdrawals*; or
- (b) where the *private customer's* primary objective is to acquire;
 - (i) a specified sum of money on a specified date; or
 - (ii) a specified sum of money on death; or
 - (iii) an annuity of a specified amount payable as from a specified date.

6.5.16 G _{/1} A *projection* may be included for *schemes* where ■ COB 6.5.15(2) does not require one, at a *firm's* discretion.

6.5.17 G _{/1} Where the proposed transaction is for a *stakeholder pension scheme*, a specimen *projection* will have been included in the decision tree. There is no requirement in these *rules* for a personalised *projection* in the *key features* for a *stakeholder pension scheme*. Where *projections* are given for *stakeholder pension schemes* in other circumstances, for example where a scheme member requests a personalised *projection*, they should follow the standard *projection rules* in ■ COB 6.6.

6.5.18 R _{/1} All *projections* included in *key features*, except a specimen *projection* in a decision tree for a *stakeholder pension scheme*, must be calculated in accordance with ■ COB 6.6 (Projections), using the lower, intermediate and higher rates of return in ■ COB 6.6.50, and followed by the appropriate statements from ■ COB 6.6.15.

6.5.19 R _{/1} (1) A *life policy projection* in *key features* must be specific to the *private customer*, calculated on the basis of the *private customer's* age and sex, the sum assured, the *premium* and other principal factors of the proposed *life policy* unless:

- (a) the *life policy* is a single *premium life policy*; or
- (b) the total *premiums* payable do not exceed £120 a year (or £130 a year if the *premiums* are paid every four weeks); or
- (c) the total *premiums* are less than £1,000; or
- (d) the *key features* are part of a *direct offer financial promotion*.

(2) If (1)(a), (b), (c) or (d) applies and no *customer specific projection* is included, a *projection* must be provided which typically represents the type of business which the *firm* conducts (or proposes to conduct) in relation to the *life policy* in question.

(3) A *scheme projection* in *key features* must be based on either:

- (a) the actual amount which the *private customer* is proposing to invest; or

- (b) an amount which typically represents the type of business which the *firm* conducts (or proposes to conduct) in relation to the *scheme* in question;

unless it is for *income withdrawals*, when it must be on the basis of (a).

Description of the life policy or scheme or stakeholder pension scheme

6.5.20

R

/1

In addition to ■ COB 6.5.13 and ■ COB 6.5.18, a *firm* must set out in the form of questions and answers a description of the principal terms of the *life policy, scheme, or stakeholder pension scheme*, and any other information necessary to enable the *private customer* to make an informed decision.

6.5.21

G

/1

A *firm* should set out the following information:

- (1) for a *life policy* such as an endowment which is being used to repay an interest-only mortgage loan, details of how and when the *private customer* will be notified whether the *life policy* is on target to provide sufficient funds to repay the loan and, if it is not, what options the *private customer* has;
- (2) for a *life policy*, the consequences of making the *life policy* paid up or taking a contribution holiday;
- (3) for an *FSAVC*, a prominent warning that, as an alternative, a scheme *AVC* exists which may offer better terms, details of which can be obtained from the *occupational pension scheme* administrator;
- (4) for a *long-term care insurance* which is based on single *premium* investment bonds -
 - (a) a statement drawing attention to the possible effect on the capital invested where withdrawals are taken to pay for care; this can be communicated by including a standard, non-client-specific, example comparing the effect of *claim* payments on the value of the *life policy*, first assuming no *claims* and then assuming a *claim* beginning at age 80 and lasting for five years; the standard mid rate of return should be used assuming claim payments at the highest benefit level payable under the *life policy*; and
 - (b) information to make the *private customer* aware that he can use *key features* to compare the investment potential of different *product providers' packaged products*, for example *surrender values* at various times and the effect of deductions;
- (5) for a *personal pension scheme*, including a *group personal pension scheme*, a clear and prominent indication of the general availability of *stakeholder pension schemes* and the fact that these might meet the consumer's needs at least as well as the *personal pension scheme* on offer;
- (6) for a *stakeholder pension scheme*, a description of the default investment option offered under regulation 3(5) of the Stakeholder Pension Schemes Regulations 2000.

Tables and deductions summaries for life policies, schemes and stakeholder pension schemes

6.5.22

G
/1

- (1) ■ COB 6.5.23 - ■ COB 6.5.29 set out the Tables, Deductions Summary and method of calculating the 'Effect of deductions to date' for *life policies*.
- (2) ■ COB 6.5.30 - ■ COB 6.5.36 set out the Tables, Deductions Summary and method of calculating 'Effect of deductions to date' for *schemes*.
- (3) ■ COB 6.5.37 outlines a simplified illustration of charges for *stakeholder pension schemes*. There is no requirement for the tables of figures or the reduction in yield summary required for *life policies* or *schemes*.

Tables for life policies

6.5.23

R
/1

For *life policies* which can have a *surrender value*, a *firm* must include the contents of ■ COB 6.5.24 unless ■ COB 6.5.28 applies.

6.5.24

R
/1

Table The early years
This table belongs to ■ COB 6.5.23

The early years

WARNING – if you cash in during the early years you could get back less than you have paid in.

The last two columns assume that investments will grow at [insert the intermediate rate appropriate to the type of *life policy* set out in COB 6.6.50R] a year.

At end of year	Total paid in to date	[Total actual deductions to date]	Effect of deductions to date	What you might get back
	£	£	£	£
1				
2				
3				
4				
5				
The later years				

Notes:

The column headed 'Total actual deductions to date' is optional. If included, it must follow the requirements in COB 6.5.23R – COB 6.5.29R. In the case of a *Holloway sickness policy*, an indication of the total cost of risk benefits expressed as a figure in £s may be given by way of a footnote to the column headed 'Effect of deductions to date'.

6.5.25

R
/1

When completing ■ COB 6.5.24, a *firm* must:

- (1) under 'the early years' include figures for the first five years of the *life policy* or, if the *life policy* has a fixed term of less than five years, as many of them as fall before the maturity date;
- (2) under 'the later years' include figures for the tenth and every subsequent fifth year of the term of the *life policy* (or of the contract period as defined in ■ COB 6.6.25 if that is shorter) and for the final year, except in the following cases:
 - (a) for a whole-life *policy*, figures must be included for every tenth year and:
 - (i) the final year, assuming that the *life policy* will continue (unless and until converted to a fixed term) until the insured life (or the youngest insured life) attains the age of 75 years or to a term of ten years if that is later; or
 - (ii) the year in which the projected fund reaches zero if earlier than (i); the consequences of this must be drawn to the *private customer's* attention;
 - (b) in the case of a single *premium life policy* with no fixed term, a term of ten years should be assumed, but figures for a longer term may be shown in addition;
 - (c) for a ten-year *life policy*, the figures for the final year may be included in the 'early years' table;
 - (d) for a *personal pension policy* with *income withdrawals*, there is an option to quote figures for the sixth year and at three-yearly intervals thereafter; and
 - (e) where there is any significant discontinuity in the trend of surrender or transfer values, figures should be given for all the intervening years.
- (3) in the 'Total paid in to date' column, include cumulative totals of *premiums* paid (making adjustment as necessary to take account of any automatic *premium* changes);
- (4) in the 'Total actual deductions to date' and 'Effect of deductions to date' columns, include the cumulative sum of the charges and expenses (as defined in ■ COB 6.6.23) and the cost of any protection benefits expected to be levied against the *life policy*; they must be calculated in accordance with ■ COB 6.5.29;
- (5) in the 'What you might get back' column, include projections of surrender values for the *life policy*:
 - (a) these must be calculated in accordance with ■ COB 6.6.38 (projections of surrender values) assuming the *premium* and

- any other relevant matters given for the purposes of ■ COB 6.5.13 (Nature of *Policy*) and ■ COB 6.5.15 (An Example);
- (b) the *surrender value* of a *premium* on a particular date must be calculated by assuming that any *premium* payable on that date is payable on the following day; and
 - (c) where any *surrender values* are guaranteed they must be provided with a suitably adjusted heading and introductory text;
- (6) where the *life policy* is a personal pension, replace 'What you might get back' with 'What the transfer value might be' and make suitable amendments to the explanatory text; for a *personal pension policy* with *income withdrawals* it must be replaced with 'Open market value';
 - (7) where the *private customer* is entitled to exercise and has chosen, or expressed the intention, to exercise the right to make partial surrenders, include a column headed 'Withdrawals' or, in the case of a personal pension with *income withdrawals*, 'Total income taken'; the sum of withdrawals must be shown;
 - (8) for a personal pension with *income withdrawals*, include a table headed 'What effect will the deductions have?' instead of 'The early years' and 'The later years'; where there is any charge or penalty in calculating the open market value, all the years to which this applies should be given; and
 - (9) in the case of a long-term care insurance *packaged product* based on a single *premium* investment bond, where the standard ten-year table does not illustrate adequately how the charges taken from a *policy* can increase considerably with age:
 - (a) the table must be extended to show figures at ten-year intervals and the year in which the *private customer* attains 100 years or the year the fund is exhausted if earlier; but
 - (b) the standard ten-year figure must be used for the reduction in yield and the accompanying words amended accordingly.

6.5.26

R

■ COB 6.5.23 - ■ COB 6.5.25 do not apply to a *life policy* which will never have a *surrender value*; the following warning must be given instead of the tables: 'WARNING – this policy has no cash-in value at any time.'

/1

Deductions summary for life policies

6.5.27

R

The following statements must appear beneath the information required by ■ COB 6.5.23, unless ■ COB 6.5.28 applies:

/1

- (1) 'What are the deductions for?'
- (2) 'The deductions include [the cost of life cover, sickness benefits,] [commissions/remuneration,] expenses, charges, any surrender penalties and other adjustments.'
- (3) 'The last line in the table shows that over the full term of the policy the effect of the total deductions could amount to £x.'

and then either:

- (4) 'Putting it another way, leaving out the cost of life cover [and sickness benefits] this would have the same effect as bringing investment growth from x% a year down to y% a year.' or
- (5) 'Putting it another way, if the growth rate were to be x%, which is in no way guaranteed, this would have the effect of reducing it to y% a year.'

6.5.28

R

/1

The information relating to 'Total actual deductions to date' and 'Effect of deductions to date' in ■ COB 6.5.23, and the information relating to reduction in yield required by ■ COB 6.5.27, do not need to be given for the following categories of *life policy*:

- (1) a without-profits *life policy* of which the benefits, except on surrender or variation, are guaranteed benefits;
- (2) a *life policy* for a term not exceeding five years.

Calculation method for 'effect of deductions to date' for life policies

6.5.29

R

/1

In ■ COB 6.5.24 the 'Total actual deductions to date' and the 'Effect of deductions to date' must be calculated for each of the years detailed in ■ COB 6.5.25. These are the amounts of all deductions that are expected to be levied against the assets and *premiums* in respect of charges and expenses (as defined in ■ COB 6.6.23), and surrender penalties, as well as allowance for the cost of risk benefits (defined in ■ COB 6.6.28) to the end of the year. They must be calculated as follows.

- (1) The *premiums* must be accumulated at the intermediate rate prescribed in ■ COB 6.6.49 for the category of *life policy* to which the *key features* relates (the 'prescribed rate'), making no allowance for charges and expenses and other deductions.
- (2) 'Effect of deductions to date' must be derived by subtracting the amount shown in the column 'What you might get back' from *premiums* accumulated in accordance with (1).

- (3) The figures in the column 'Effect of deductions to date' must reflect the charges and expenses accumulated at the prescribed rate. The column headed 'Total actual deductions to date' must show the sum of actual deductions.
- (4) The deductions for each year must be calculated by subtracting from the 'Effect of deductions to date' for that year the 'Effect of deductions to date' for the previous year (if any), increased by the amount of interest for the year calculated at the prescribed rate.
- (5) 'Total actual deductions to date' is the sum of the figures derived in accordance with (4) for the year in question and all previous years; where it is negative, nil must be shown for that year.

Table for schemes

6.5.30

R

For *schemes*, a *firm* must include the contents of ■ COB 6.5.31.

/1

6.5.31

R

Table This table belongs to ■ COB 6.5.30

/1

How will charges and expenses affect my investment?

[Give an indication of the nature and amount or rate of the charges and expenses which the *private customer* will or may bear, including any relevant proportion of *scheme* charges deducted directly from the fund or not directly attributed to the account of the *private customer*. In describing the nature of charges state how the charges will be made, in particular whether they will be taken from capital or income. Include a statement that dealing costs are not included.]

[Give a statement that there is a buying price and a selling price (if that is the case) and that the difference between them is called the 'spread', and an indication of where up-to-date information may be obtained on these prices.]

Their effect on an *investment* of £_____ assuming growth of [insert the intermediate rate appropriate to the type of *scheme* set out in COB 6.6.49R)] a year, is set out below

[Where (except as described in COB 6.5.15R(2)) a *projection* is not a *requirement*, include a statement that the figures are not guaranteed and serve only to demonstrate the effect of charges and expenses on an investment.]

At end of year	Investment to Date	Effect of deductions to date	What you might get back [at the appropriate intermediate rate]
	£	£	£
1			
3			
5			
10			

6.5.32

R

/1

When including the contents of ■ COB 6.5.31, a *firm* must replace the wording in brackets as directed by the instructions in those brackets and:

- (1) when the inclusion of a *scheme projection* within *key features* is compulsory in accordance with ■ COB 6.5.15(2), include figures calculated in accordance with ■ COB 6.6 (*projections*):
 - (a) at the end of years 1, 3, 5 and 10 and (optionally) for years 2 and 4;
 - (b) then for each fifth year following the tenth year which falls within the period of the *projection*; and
 - (c) the final year of the *projection*;
- (2) when a *scheme projection* is not required by ■ COB 6.5.15(2) but is included at a *firm's* discretion, include figures at the end of years 5 and 10 and (optionally) for years 1 and 3 or for years 1 to 4, all calculated in accordance with ■ COB 6.6 (*projections*);
- (3) in the 'Investment to date' column, include:
 - (a) the actual amount which the *private customer* is proposing to invest; or
 - (b) an amount which is representative of the type of business which the *firm* conducts (or proposes to conduct) in relation to the contract in question;

but where, under ■ COB 6.5.15(2), a *projection* is included in the *key features*, the amount shown as the 'Investment' must be the same as the amount used as the basis for the projection;
- (4) in the 'Effect of deductions to date' column, include the cumulative sum of charges and expenses (as defined in ■ COB 6.6.23) for each of the years shown, these figures must be calculated in accordance with ■ COB 6.5.35 - Calculation Method for Effect of charges to date;
- (5) in the 'What you might get back' column, include figures taking account of charges and expenses showing what the value might be if the *scheme* were cashed in;
- (6) where the contract is a personal pension, replace 'What you might get back' with 'What the transfer value might be', and make suitable amendments to the explanatory text; for a *personal pension contract* with *income withdrawals* the replacement must be 'Open market value';
- (7) include extra columns in the Table in the following cases:

- (a) where the *private customer* is entitled to exercise and has chosen, or expressed the intention, to exercise the right to make partial withdrawals, an extra column must be included headed 'Withdrawals' or, in the case of a *personal pension contract* with *income withdrawals*, 'Total Income taken'; 'Withdrawals' must include distributions of income;
- (b) where the investment involves periodic redemptions at pre-determined intervals to make payments to the *private customer*, a column headed 'Redemptions' is needed;
- (c) where the investment distributes income and does not involve the automatic reinvestment of this income, a column headed 'Income' must be included;

in (a), (b) and (c) the arithmetic sum of the withdrawals or redemptions or income payments must be stated, on the assumption that these are made throughout on the same basis as contemplated at the time the *projection* was prepared; the method set out in ■ COB 6.6.36 must be used to calculate distributions of income;

- (8) for a *personal pension contract* with *income withdrawals*, include in a table under the heading 'What effect will deductions have?' figures for every third year or every fifth year; where there is any charge or penalty in calculating the open market value, all the years to which this applies must be given;
- (9) include a statement that allowance for tax relief has been made in the calculation where any tax relief available to the *scheme* has been taken into account in the calculation of charges and expenses.

Deductions summary for schemes

6.5.33

R

The statements in (1) and (2), or in (1) and (3) must appear beneath the information required by ■ COB 6.5.31:

- (1) 'The last line in the table shows that over [n] years the effect of the total charges and expenses could amount to £x';
- (2) 'Putting it another way, if the growth rate were to be (x)%, which is in no way guaranteed, this would have the effect of reducing it to (y)% a year';
- (3) 'Putting it another way, this would have the same effect as bringing investment growth from (x)% a year down to (y)% a year'.

6.5.34

R

/1

- (1) The figure [n] in the prescribed wording in ■ COB 6.5.33 is the number of years in figures given at the bottom of the table, as appropriate for each transaction.
- (2) The 'Investment to date' must be accumulated to the end of [n] years at the relevant rate of return (x)% making full allowance for the charges and expenses (as specified in ■ COB 6.6.23).
- (3) The rate of return (y)% must be found which, if applied (on a compound basis) to the amounts included in the 'Investment to date' column over the [n] years, without making any allowance for the charges and expenses, would produce the same sum as that calculated in (2).

Calculation method for 'effect of charges to date' for schemes

6.5.35

R

/1

For each year, figures must be given for the effect of deductions assuming the fund grows in accordance with a relevant rate of return (as defined in ■ COB 6.6.33). These calculations must reflect all deductions (charges and expenses as defined in ■ COB 6.6.23) expected to be levied against the fund and against the *private customer's* investment. The calculations must be made on the basis of the following principles:

- (1) for each year the 'Investment' must be accumulated, at the relevant rate of return (as specified in ■ COB 6.6.33), to the end of each year, making due allowance for the *charges* and expenses;
- (2) for each year the 'Investment' must be accumulated, at the relevant rate of return, to the end of each year, but making no allowance for the charges and expenses;
- (3) the 'Effect of deductions to date' is the amount calculated in (1) subtracted from the amount calculated in (2);
- (4) a rate of return which is lower than the relevant rate of return must be used where the *firm* expects that rate would imply an overstatement of the investment potential; and
- (5) the calculations specified in (1) and (2) must allow for any partial encashment of *units* or *shares* or distributions of income where under the terms of the *scheme* the *private customer* has exercised, or has expressed the intention of exercising, an option to make such encashments or to receive such income or where such encashments or distributions will automatically apply. The allowance must be assumed in accordance with the estimated rate or amount, unless to do so would be inappropriate for that *scheme*.

6.5.36

G

/1

■ COB 6.5.35(5) applies, for example, to *money market schemes* and bond funds.

Stakeholder pension schemes

6.5.37

R

/1

- (1) The statement in (2) must appear beneath or within the information required by ■ COB 6.5.20.
- (2) "There is an annual *charge* of [y]% of the value of the funds you accumulate. If your fund is valued at £500 throughout the year, this means we deduct [£500 x y/100] that year. If your fund is valued at £7500 throughout the year, we will deduct [£7500 x y/100 that year."

Commission and remuneration for life policies, schemes and stakeholder pension schemes

6.5.38

R

/1

- A *firm* must include under the heading 'How much will the advice cost?' either the statement prescribed in (1) or the details required by (2):
- (1) 'Your adviser will give you details about the cost. The amount will depend on the size of the premium and the length of the policy term. It will be paid for out of the deductions [or charges, if more appropriate]'; or
 - (2) (a) The amount or value in cash terms of the commission or remuneration and an indication of the timing of these payments; and
 - (b) a statement that commission or remuneration is paid for out of the deductions [or charges, if more appropriate] and, if applicable, that the amount will depend on the size of the *premium* or contribution and the length of the life policy, scheme or stakeholder pension scheme term.

6.5.39

G

/1

In ■ COB 6.5.38(2) the name of the *adviser* to whom the *commission* or *remuneration* is to be paid may be given.

Further information for life policies, schemes, insurance or equity ISAs, PEPs and stakeholder pension schemes

6.5.40

R

/1

- A *firm* must include the following information in the *key features*, separately or as part of the information required by ■ COB 6.5.2:
- (1) for *life policies*:
 - (a) a clear indication, in one place, of the nature and amount or rate of any charges or expenses which the *private customer* will or may bear; if charges or expenses are levied in the form of reduced investment, both the method and effect must be clearly explained; in the case of a single *premium* charge for

- mortality or morbidity under *linked benefit policies*, it is sufficient to describe its nature and basis;
- (b) the information that Annex II to the *Third Life Directive* requires to be communicated to policyholders, which is specified in ■ COB 6.5.49; and
 - (c) an explanation how the *private customer* may obtain further information about compensation arrangements and other matters relating to the *life policy*;
- (2) for all *schemes*, an explanation that other information about the *scheme* is available on request and how it may be obtained;
- (3) for *regulated collective investment schemes* and for such *investments* held within a *PEP* or an *ISA*:
- (a) a statement where details of the latest estimated distribution yield and buying and selling prices can be found;
 - (b) in the case of any purchase, how and when the price to be allocated in respect of each payment will be determined;
 - (c) whether certificates will be issued and, if so, when they will be sent;
 - (d) how *units* or *shares* may be redeemed and when payment on *redemption* will be made;
 - (e) the names and addresses of the *scheme manager* or *authorised corporate director*, and the names of the *trustees*, or *depository* (if any);
 - (f) where and how copies of *scheme particulars*, annual and half-yearly reports and accounts and *prospectuses* can be obtained;
 - (g) an explanation of any relevant right to cancel or withdraw, or, where it is the case, that such rights do not apply;
 - (h) how complaints and queries are dealt with and how further details of compensation arrangements (if any) can be obtained;
 - (i) a summary of the *private customer's* potential liability (if any) to income tax and capital gains tax;
 - (j) whether the *private customer* has a choice to reinvest income, where uninvested *money* will be held and whether interest is paid on such *money*;
- (4) for *investment trust savings schemes* and for such *investments* held within a *PEP* or an *ISA*:

- (a) when *shares* will be purchased for the *scheme*, where uninvested *money* will be held and whether interest is paid;
 - (b) where information about the *investment trust share* price, yield, and *premium* and discount information can be obtained;
 - (c) where information about the net asset value and latest dividend can be found;
 - (d) whether the *private customer* has a choice to reinvest income, how it is reinvested, or how it is paid to the *private customer*;
 - (e) details of any nominees with which *shares* are registered;
 - (f) how *shares* can be sold and how the *sale* proceeds are determined;
 - (g) whether applications and payments will be acknowledged and whether contract notes or certificates are issued;
 - (h) whether there will be a statement of account showing details such as number and cost of *shares* and balance of cash;
 - (i) an explanation of any right to withdraw or cancel (as specified in ■ COB 6.7) or, where it is the case, that such rights do not apply;
 - (j) where the *investment trust* report and accounts may be obtained;
 - (k) information about the *manager* and administrator of the *scheme*;
 - (l) the *private customer's* options in the case of items such as rights issues;
 - (m) how to stop investing in or how to leave a *scheme* and the position in respect of the *shares* held;
 - (n) terminations or alterations by the *scheme manager*;
 - (o) taxation details in respect of the *private customer's investment*; and
 - (p) how complaints are dealt with and how further details of compensation arrangements (if any) can be obtained;
- (5) for ISAs with a *life policy* (insurance) or equity (stocks and *shares*) component and PEPs, in addition to (1), (2), (3) or (4):
- (a) a description of the nature of the services which will be provided for the *private customer*;

- (b) for ISAs or ISA components which are stated as satisfying the *CAT standards*:
 - (i) a table comparing the ISA or ISA component with the *CAT standards*;
 - (ii) clarification that satisfying the *CAT standards* does not mean that the *investment* is appropriate for the *private customer* or that there is any guarantee of performance;
 - (c) the fact, if applicable, that an ISA does not meet the *CAT standards* together with any relevant explanation;
 - (d) a statement that the favourable tax treatment of ISAs may not be maintained;
 - (e) how and when statements (if any) will be sent;
 - (f) an explanation how the ISA or plan may be terminated or transferred to another ISA or *PEP manager*; and
 - (g) whether the ISA is a mini-or *maxi-ISA* agreement and an explanation of the differences between the two.
- (6) For *stakeholder pension schemes*, an explanation how complaints are dealt with and how further details of compensation arrangements (if any) can be obtained.

Information requirements for cash deposit ISAs, friendly Society tax-exempt policies, traded life policies and broker funds

6.5.41

G
/1

■ COB 6.5.42 does not apply to a *cash deposit ISA* offered by a *bank* or *building society* which subscribes to the Banking Code (see ■ COB 6.4.13(2)).

6.5.42

R
/1

If ■ COB 6.4.13(1) applies, for a *cash deposit ISA*, the *private customer* must be given the following minimum information (in accordance with ■ COB 6.4.13) in place of *key features*:

- (1) (a) for the *cash deposit ISA* which is stated as satisfying the *CAT standards*, a comparison with the *CAT standards*; or
- (b) if the *cash deposit ISA* is not stated as satisfying the *CAT standards*, a statement making this clear, together with, if desired, any relevant information;
- (2) a statement making it clear whether the ISA is a mini or a *maxi-ISA* agreement and explaining the differences between the two;
- (3) the minimum amount needed to open an account;

- (4) the maximum yearly *deposit*;
- (5) the interest rate earned, and if and how it may vary;
- (6) the calculation of interest;
- (7) how to make withdrawals and any limits;
- (8) details of the arrangements for the application of the right to cancel;
- (9) the arrangements for handling complaints;
- (10) that the favourable tax treatment may not be maintained;
- (11) that compensation may be available from the Financial Services Compensation Scheme;
- (12) where applicable, that the *firm* cannot accept *money* directly and acts only as agent in arranging the *cash deposit ISA*, identifying the *principal* to whom such *monies* should be made payable, and explaining that the *principal* has accepted responsibility for the activities of the *firm* in relation to the *cash deposit ISA*;
- (13) where a *private customer* can obtain further information about *ISAs* and, if applicable, other products within the *firm's* range; and
- (14) a warning that a *mini-* and *maxi-ISA* may not be opened in the same tax year and that, by opening a mini cash *ISA*, the *customer* will be limiting the amount of tax-free savings in equities that he can make, if he does not already have a mini stocks and shares or insurance *ISA* (not applicable for a TESSA-only *ISA*).

Friendly Society tax exempt policies

6.5.43

R

^{/1}

Where a *private customer* buys a *tax-exempt policy* issued by a *friendly society*, or agrees to make additional contributions to such a *policy*, the *firm* may, where there is a right to cancel under ■ COB 6.7 (Cancellation and withdrawal), issue an abbreviated form of *key features* containing only the details of:

- (1) the amount of the contribution;
- (2) the term over which the contribution will be paid;
- (3) material differences between the terms of any increase and those of the existing *policy*; and
- (4) the amount or value in cash terms of the *commission* or *remuneration*.

Traded life policies

- 6.5.44 **R** /1 When *personally recommending* the purchase of a *traded life policy*, a *firm* may provide a *private customer* with the information at ■ COB 6.5.49 in place of *key features* (in accordance with ■ COB 6.4.14).

Broker funds

- 6.5.45 **R** /1 In relation to any fund or *scheme* of which the *firm* is a *broker fund adviser*, at the same time as providing a *private customer* with a *suitability letter* (in accordance with ■ COB 5.3) or before any change in investment objectives or strategies, the *firm* must inform the *private customer* in writing of:
- (1) the investment objectives, and the policies and strategies which are proposed to be followed to achieve those objectives;
 - (2) the relevant published index or other indicator with which comparison of the performance of the fund or *scheme* may fairly be made, which is, in the case of:
 - (a) *life policies* or pension funds:
 - (i) where the *long-term insurer* has its own managed unit-linked life or pension fund, the average performance of that managed fund; or
 - (ii) the average performance of one or more other funds, which are not *broker funds*, into which under the terms of the *policy* the *private customer* may switch, the objectives of which do not conflict with those of the *broker fund*; or
 - (iii) where there is no such fund, the sector average of general managed life or pension funds;
 - (b) *broker unit trusts*, the sector average of *unit trusts* appropriate to the objectives and strategy of the *broker unit trust*;
 - (3) a published index or sector average which the *firm* must identify as appropriate to the investment objectives and strategy of the fund or *scheme* under comparison; and
 - (4) the name of any *person* providing *advice* under the arrangement.

Other information: post-sale confirmation: life policies

- 6.5.46 **R** /1 The post-sale confirmation to be given to *private customers* in accordance with ■ COB 6.3.3 must include:

- (1) the information required by ■ COB 6.5.15 - ■ COB 6.5.19 (an Example), ■ COB 6.5.23 to ■ COB 6.5.28 (Tables and Deductions Summary) and ■ COB 6.5.38 (Commission and Remuneration);
- (2) where the investment has been recommended to a *private customer* by a *representative*, a statement under the heading 'adviser's status' that: 'the person who advised you about this policy represents only [Name of *firm*, or, if appropriate, *marketing group associate*.]'

Third Life Directive annex II: 'information for policyholders'

6.5.47

R

/1

- (1) A *firm* to which ■ COB 6.5.40(1)(b) applies must communicate in writing the information prescribed in ■ COB 6.5.49 to the policyholder, before the *policy* is concluded, in an official language of the *EEA State* of the commitment.
- (2) This information may be in another language if the policyholder so requests, and the law of the *EEA State* so permits or the policyholder is free to choose the law applicable.

6.5.48

G

/1

The headings and other wordings within ■ COB 6.5.49 follow those used in the European Directives.

6.5.49

R

/1

Table Third Life Directive annex II table of 'information for policyholders'
This table belongs to ■ COB 6.5.47

Third Life Directive – 'information for policyholders'

Information about the assurance undertaking

- 1. The name of the *undertaking* and its legal form
- 2. The name of the *EEA State* in which the head office and, where appropriate, the agency or branch concluding the *policy* is situated
- 3. The address of the head office and, where appropriate, of the agency or branch concluding the *policy*

Information about the commitment

- 4. Definition of each benefit and each option
- 5. Term of the *policy*
- 6. Means of terminating the *policy*
- 7. Means of payment of *premiums* and duration of payments
- 8. Means of calculation and distribution of bonuses
- 9. Indication of surrender and paid-up values and the extent to which they are guaranteed

Third Life Directive – 'information for policyholders'

10. Information on the *premiums* for each benefit, both main benefits and supplementary benefits, where appropriate
11. For unit-linked *policies*, definition of the *units* to which the benefits are linked
12. Indication of the nature of the underlying assets for unit-linked *policies*
13. Arrangements for application of the right to cancel
14. General information on the tax arrangements applicable to the type of *policy*
15. The arrangements for handling complaints concerning *policies* by policyholders, lives assured or beneficiaries under *policies*, including, where appropriate, the existence of a complaints body, without prejudice to the right to take legal proceedings.
16. Law applicable to the *policy* where the parties do not have a free choice or, where the parties are free to choose the law applicable, the law the *long-term insurer* proposes to choose.

6.6 Projections

Application

- 6.6.1 **R** /1 ■ COB 6.6 applies to a *firm* in respect of *projections* for *life policies*, *schemes* and *stakeholder pension schemes*.

Purpose

- 6.6.2 **G** /1 ■ COB 6.6 amplifies *Principle 7* (Communications with clients), which requires a *firm* to pay due regard to the information needs of its *clients*, and communicate information to them in a way which is clear, fair and not misleading. A *projection* needs to be carried out on a basis of uniform and consistent rates of investment return so that *firms* do not seek to compete on the basis of wholly speculative forecasts as to the potential value of future benefits. This should ensure that *private customers* purchasing a *life policy*, *scheme* or *stakeholder pension scheme* receive information about possible future returns from their investment in a way which is fair and not misleading.

Content

- 6.6.3 **G** /1 ■ COB 6.6 sets out:
- (1) when these *rules* apply ■ COB 6.6.4 - ■ COB 6.6.7);
 - (2) the information and statements to accompany *projections* ■ COB 6.6.8 - ■ COB 6.6.18);
 - (3) what records must be kept of *projections* issued to *customers* ■ COB 6.6.19);
 - (4) the method of calculating a *projection* ■ COB 6.6.20 - ■ COB 6.6.53);
 - (5) the method of calculating the effect of deductions (the reduction in yield) which must be included within *key features* ■ COB 6.6.54 - ■ COB 6.6.62);
 - (6) the method of calculating charges and expenses relating to *schemes* ■ COB 6.6.63 - ■ COB 6.6.79);
 - (7) assumptions to be used when converting a *retirement fund* into an annuity ■ COB 6.6.80 - ■ COB 6.6.85); and
 - (8) how to produce a *pension transfer* value analysis ■ COB 6.6.86 - ■ COB 6.6.93).

General

- 6.6.4 **R** ^{/1} A *firm* must not provide a *projection* for a *life policy, scheme* or *stakeholder pension scheme* unless the *projection* is calculated and presented in accordance with the *rules* in ■ COB 6.6.

Exceptions

- 6.6.5 **R** ^{/1} The *rules* in ■ COB 6.6 do not apply to a *firm* when it provides a *projection*:
- (1) of the benefits payable under a *defined benefit occupational pension scheme*, unless they are *money-purchase benefits*;
 - (2) issued with a view to determining a maximum contribution allowed by the Inland Revenue, provided the assumptions used in calculating such a contribution are disclosed;
 - (3) if the benefits are fixed and do not depend on an assumption of a future investment return;
 - (4) of a benefit under an existing contract where the date to which the benefit is being projected is not more than six months after the date on which the *projection* is given;
 - (5) contained in a decision tree as specified in ■ COB 6.5.8;
 - (6) of the benefits payable under a *money-purchase occupational scheme* or arrangement if they were calculated and issued in accordance with regulations made under section 113 of the Pensions Schemes Act 1993.

Higher volatility funds

- 6.6.6 **R** ^{/1} A *firm* must not provide a *projection* of possible investment returns or realisable values, or figures or statements which would enable the calculation of such a *projection*, for an investment in a *higher volatility fund*.

Projections issued by independent intermediaries

- 6.6.7 **R** ^{/1} An *independent intermediary* must, in addition to complying with other *rules* in this section, ensure that a *projection* given to a particular *customer* is relevant to that *customer's* circumstances.

Information to accompany projections

6.6.8

R

/1

- (1) A *document* containing a *projection* must include the information detailed in ■ COB 6.5 (*Key Features*) under the headings ‘An Example’, ‘Tables’, ‘Deductions Summary’ and ‘Commission and Remuneration’, unless (2) applies.
- (2) The information under the headings ‘Tables’, ‘Deductions Summary’ and ‘Commission and Remuneration’ need not be included in a *projection* issued in respect of:
 - (a) an existing contract; or
 - (b) a *financial promotion* (other than a *direct offer financial promotion*); or
 - (c) an *execution-only transaction* relating to a *scheme*.
- (3) If the *projection* relates to a contract to which regular *premiums* or contributions can be made, the total amount or number of *premiums* or contributions payable over the *projection* term must be made clear.
- (4) Where a *projection* is given which makes allowance for increases in *premiums* or contributions, the *premium* or contribution in the final year must be shown (or, where the rate of possible future increments is based upon rates of growth in a salary or index, details of that salary or index).

Generic projection

6.6.9

R

/1

- (1) A *firm* may provide a generic *projection* for illustrative purposes based on a single rate of investment return only in the following circumstances:
 - (a) in a *financial promotion* (other than a *direct offer financial promotion*) which comprises a table (or extracts from a table) published by a newspaper, magazine or other periodical publication, or by the *firm* itself, which compares *illustrative projections* from at least five *product providers*; or
 - (b) where the purpose is to indicate the likely cost of a proposed *transaction*; or
 - (c) to provide an estimate of the additional *premium* or contribution required to achieve a specified target.
- (2) A *firm* which provides a generic *projection* must ensure that:
 - (a) it does not relate solely to an existing contract;

- (b) the rate of return used does not exceed the higher *projection* rate for its class of business;
- (c) where the rate used exceeds the middle rate by more than 0.5 percentage point, a statement is included advising why it is believed reasonable to project at such a high rate of return;
- (d) where the charges and expenses (as described in ■ COB 6.6.23) of the *product provider* are available, they are used, or an estimate is given based on the *firm's* knowledge of the charges and expenses applicable to similar contracts;
- (e) it is accompanied by the written statements contained in ■ COB 6.6.17; and
- (f) *key features* are supplied in accordance with ■ COB 6.1 to ■ COB 6.5 (*Key Features*) if a recommendation is subsequently made.

Pension projections

6.6.10

R

/1

For pension targeting, a *firm's* own assumptions as to future rates of return (but not exceeding the higher rate of return as specified in ■ COB 6.6.49), salary increases and inflation must be used to determine the level of contributions. Any allowance for salary increases used in pension targeting must not be less than the rate of return assumed before retirement less 3% per annum.

6.6.11

R

/1

A *projection* for an *appropriate personal pension* must, for the purpose of comparison, include a *projection* which:

- (1) is calculated to the *customer's* State retirement age, using real rates of return of x% and y% ('x' and 'y' are the real rates of return referred to in ■ COB 6.6.52), together with a statement of the benefits which the minimum contributions would secure if the *customer* did not take out an *appropriate personal pension*;
- (2) includes, immediately after the comparison, the statement: 'These figures are only meant to give you a rough idea how the value of the pension you might get compares with the benefit you would be giving up under the State Earnings Related Pension Scheme. The statements made after the main illustration also apply to this comparison.';
- (3) aggregates contributions in respect of the current and the next two tax years;
- (4) is followed by the *appropriate personal pension projection* and a description of any differences in:

- (a) presentation, for example, real or monetary rates of return, joint or single life;
- (b) the dates from which the benefits are assumed to be payable;
- (c) the nature of the benefits, for example, index-linked or limited price indexation ('LPI') increases.

6.6.12

G

/1

■ COB 6.6.11(1) to (3) require that, where the contract is in respect of contracting-out of the State Earnings Related Pension Scheme, there should be a comparison using real rates of return of the benefits being given up and the relevant contract. ■ COB 6.6.11(4) permits additional *projections* provided that the differences are described.

6.6.13

R

/1

A projection for a personal pension or stakeholder pension scheme with income withdrawals:

- (1) **must include:**
 - (a) a statement of the initial amounts of minimum and maximum income as specified in the current tables published by the Government Actuary for *income withdrawals*;
 - (b) a statement of the assumed initial level of income and the assumed basis for future years;
 - (c) a schedule showing under the heading 'WHAT THE BENEFITS MIGHT BE' the amount of income and the fund at each, or every third, anniversary for each of the rates of return specified in ■ COB 6.6.49;
 - (d) a statement of the projected open market values and the amounts of annuity at age 75 or the date at which it is reasonably assumed an annuity will be purchased; and
 - (e) a statement of the amount of annuity that could be secured using an immediate annuity rate available in the market; and
- (2) **must assume that the current rate of gilt-index yield will continue to apply in projecting amounts of minimum and maximum income throughout the term of the *projection*.**

Statements to accompany projections

6.6.14

R

/1

- (1) *A document containing a projection must include the appropriate statements set out in ■ COB 6.6.16 – ■ COB 6.6.18.*
- (2) *A statement may be altered if a firm believes on reasonable grounds that it is not wholly appropriate to the contract in question. But the alteration must not reduce the significance or impact of the statement.*

(3) Any statement required to accompany a *projection* must appear adjacent to the projected values and be in a type size no smaller or less prominent than that used for the projected values.

6.6.15 **R** /1 The statements in ■ COB 6.6.16 must accompany each *projection* for a *life policy* or *scheme* as indicated, except a generic *projection* given in accordance with ■ COB 6.6.9 (see ■ COB 6.6.17), or a *protected rights annuity projection* (see ■ COB 6.6.18).

6.6.16 **R** /1 Table Statements to accompany projections of life policies, schemes or stakeholder pension schemes (excluding generic projections and protected rights annuity projections)
This table belongs to ■ COB 6.6.15

Statements to accompany projections of life policies, schemes or stakeholder pension schemes (excluding generic projections and protected rights annuity projections)

1. These figures are only examples and are not guaranteed – they are not minimum or maximum amounts. What you will get back depends on how your investment grows and on the tax treatment of the investment.

2. [You could get back] [your retirement fund could be] more or less than this.

3. All firms use the same rates of growth for projections but their charges vary. [They also use the same rates to show how funds may be converted into pension income].

4. Do not forget that inflation would reduce what you could buy in the future with the amounts shown.

5. [Your pension income will depend on how your investment grows and on interest rates at the time you retire].

6. These rates of return are not necessarily appropriate [for contracts written in] [for units traded in] [for shares traded in] currencies other than sterling.

7. Benefits may also be affected by fluctuations in exchange rates.
Note:

Statement 5 applies to *pension contracts* only and statements 6 and 7 apply to non–sterling *investments* only.

6.6.17 **R** /1 Table Statements to accompany generic projections
This table belongs to ■ COB 6.6.15

Statements to accompany generic projections

These figures are only illustrative.

An assessment of your needs will be confirmed before a recommendation can be made OR Your needs will be confirmed before a recommendation can be made.

Key features, including a projection which is personal to your circumstances, will be provided if a recommendation for an investment product is made.

6.6.18

R

Table Statements to accompany projections for protected rights contracts
This table belongs to ■ COB 6.6.15

/1

Statements to accompany projections for protected rights contracts

1. These figures are only meant to give you a rough idea of the amount of pension you might get compared with the benefit that you would be giving up under the State Earnings Related Pension scheme.
2. The figures show what might happen if we achieved an investment return of [x%] or [y%] each year on top of the rate of earnings inflation.
3. They are only examples and are not guaranteed – they are not minimum or maximum amounts. What you will get back depends on how your investment grows.
4. You could get back more or less than this.
5. All *firms* use the same rates of growth for projections but their charges vary. They also use the same rates to illustrate how funds may be converted into pension income.
6. Your pension income will depend on how your investment grows and interest rates at the time you retire.

Note:

[x%] and [y%] in statement 2 are the real rates of return used in the *projection* as specified in COB 6.6.51R.

Records

6.6.19

R

A *firm* must ensure that a record of a *projection* provided to a *customer* is made and retained, unless it relates to a proposal which does not proceed. The record must be retained for a minimum period of:

/1

- (1) six years in the case of a record relevant to a *life policy*, *pension contract* or *stakeholder pension scheme*;
- (2) indefinitely in the case of a record relevant to a *pension transfer* or *pension opt-out*;
- (3) three years in any other case.

The calculation of a projection

6.6.20

G

■ COB 6.6.21 - ■ COB 6.6.53 set out:

/1

- (1) definitions of key terms used in the calculation of a *projection* (■ COB 6.6.21);
- (2) the basic approach to be used when calculating a *projection* for *life policies* (■ COB 6.6.34), *Holloway sickness policies* (■ COB 6.6.35), *schemes* (■ COB 6.6.36) and *stakeholder pension schemes* (■ COB 6.6.34);

- (3) Principles which must be taken into account when calculating a *projection* including general Principles which may apply to all *life policies, schemes* and *stakeholder pension schemes* (■ COB 6.6.37 - ■ COB 6.6.38) and specific Principles applicable to certain types of product or features within a product (■ COB 6.6.39 - ■ COB 6.6.46);
- (4) tables containing the rates of return to be used when calculating a *projection* depending on the type of contract being projected (■ COB 6.6.47 – ■ COB 6.6.53).

Key terms used in the calculation of a projection

6.6.21

R

/1

The descriptions of defined terms in ■ COB 6.6.22 to ■ COB 6.6.33 apply to all references to those terms in ■ COB 6.6.34 - ■ COB 6.6.78 which detail the method of calculating *projections* and of calculating charges and expenses and the recommended method of calculating *scheme* expenses.

Adjusted premium

6.6.22

R

/1

- (1) The adjusted *premium* is the *premium* or contribution payable under the contract during the contract period (defined in ■ COB 6.6.25), disregarding any increases that cannot be quantified at the commencement of the contract (but allowing for any increases which are assumed and disclosed in the *key features*).
- (2) When calculating the amount of *premium* or contribution, a *firm* may deduct:
 - (a) the cost of any rider benefits;
 - (b) any part of a *premium* or contribution which is payable in respect of an exceptional mortality risk.

Charges and expenses

6.6.23

R

/1

- (1) For a *scheme* or unit-linked *life policy*, charges and expenses are all explicit charges and expenses the *customer* will or may bear:
 - (a) including:
 - (i) all other deductions and expenses which will or may bear upon the fund (including charges in respect of any *collective investment scheme* or insurance fund in which any funds of the contract in question are invested but excluding dealing costs of the underlying portfolio); and

- (ii) all deductions from the *premium* or contribution payable which do not accrue to the benefit of the *customer* by way of contribution to the value of the benefit;
- (b) having regard to:
 - (i) the principal terms of the contract; and
 - (ii) any tax relief which will be available to the fund or scheme in respect of so much of the fund's or *scheme's* gross expenses as can be properly attributed to the contract.
- (2) For a with-profits contract, or a unit-linked *life policy* where not all charges and expenses are determined in accordance with (1), charges and expenses are such expenses as the *firm* reasonably determines to be appropriate to the contract having regard to:
 - (a) the principal terms of the contract;
 - (b) any tax relief which will be available to the *firm* in respect of so much of the *firm's* gross expenses as can properly be attributed to the contract;
 - (c) any transfers to *shareholders'* funds, or equivalent retentions from established surplus offset by any sustainable rate of transfer of surplus from non-profit business;
 - (d) dealing costs of the underlying portfolio which should be excluded; and
 - (e) any *guidance* published by the Institute of Actuaries or the Faculty of Actuaries (or by both jointly).
- (3) If a contract has explicit charges, it should be assumed that they continue at a rate no less than that at which similar charges are being made at the time when the *projection* or calculation of the effect of the charges is made.

6.6.24

G

^{/1}

For the calculation of the effect of deductions in *projections*, charges are all explicit charges adjusted for tax as in ■ COB 6.6.23(1)(b) and expenses are all other deductions. For *stakeholder pension schemes*, charges are all explicit charges and expenses for the underlying *policy* or contract, including any charges levied by the *manager* or trustees of the *stakeholder pension scheme*.

Contract period

6.6.25

R

^{/1}

The contract period of a *life policy*, *scheme* or *stakeholder pension scheme* is the period beginning with the commencement of the contract and ending as follows:

- (1) for a contract which contains an option under which benefits may be:
 - (a) payable earlier than the date on which they would be payable if the option were not exercised; and
 - (b) the marketing of which seeks to draw to the attention of *customers* the existence of an option or *surrender value*, so that it is reasonable to infer that the *firm* expects some *customers* to purchase the contract with the intention of exercising the option or surrendering the contract in whole or in part;

on the earliest date on which an option may be exercised or the contract may be surrendered (in whole or in part);
- (2) for a contract which is a *whole life assurance* the *premiums* under which are regular *premiums*:
 - (a) the anniversary of the commencement of the contract which first falls after the seventy-fifth birthday of the *person* whose life is assured under the contract, taking, if there are two or more such *persons*:
 - (i) the older or oldest if the benefits under the contract are payable on the death of the first of them to die; and
 - (ii) the younger or youngest in any other case; or
 - (b) the tenth anniversary of the commencement of the contract;

whichever is the later;
- (3) in the case of an *endowment assurance* or a non-pension deferred annuity, the *premiums* under which are regular *premiums*, on the maturity date;
- (4) in the case of an *endowment assurance* or a non-pension deferred annuity under which the only *premium* payable is a single *premium* and the term of which does not exceed ten years, on the maturity date;
- (5) in the case of a *Holloway sickness policy*, on the latest date on which the *sickness* benefit will cease to be payable;
- (6) in the case of a *pension contract* other than an immediate annuity, on the maturity date or, if the contract provides for annuities at various dates, the latest date at which an annuity may be purchased;

- (7) in the case of an immediate annuity, on the date to which the *customer* is expected to live, calculating the expectancy of life for this purpose by reference to an appropriate mortality basis; and
- (8) for the purpose of this section “maturity date” means:
 - (a) in relation to an endowment type assurance, the date specified in the contract as the maturity date;
 - (b) in relation to a *pension contract* or *stakeholder pension scheme*, the vesting date of the annuity payable under the contract or, if no vesting date for the annuity is specified in the contract, the date specified in relation to the annuity as the retirement date by the *firm* in the *projection* in question, being a date not earlier than the earliest date on which the annuity could vest and not later than the latest such date.

6.6.26 **R** In the case of any contract which falls within both ■ COB 6.6.25(1) and one or more of ■ COB 6.6.25(2) - (7), the contract period must be determined by reference to ■ COB 6.6.25(1).
/1

6.6.27 **R** In the case of any contract not falling within ■ COB 6.6.25, then:
/1

- (1) for *schemes*, the contract period will end on the tenth anniversary of the commencement date of the contract; and
- (2) for all other contracts there will be two contract periods, the first ending on the fifth anniversary of the commencement date of the contract, and the second ending on the tenth anniversary of the commencement date.

Cost of risk benefits

6.6.28 **R** Cost of risk benefits means:
/1

- (1) explicit mortality or morbidity charges (at a level no lower than the current level); or
- (2) the implicit cost or effect of mortality or morbidity appropriate to the class of *customers*;

and risk benefits means all forms of mortality and *sickness* benefits under a contract.

Relevant contribution

6.6.29 **R** The relevant contribution is the actual payment or payments to be made by the *customer*, or a sum which reasonably reflects the
/1

amounts which the *customer* is proposing to invest, into a *scheme*, except in the case of a protected rights annuity (see ■ COB 6.6.31).

Relevant premium

- 6.6.30 **R** ^{/1} The relevant *premium* is the actual *premium* payable under a *life policy* less an amount equal to the cost of any rider benefit, except in the case of a protected rights annuity (see ■ COB 6.6.31).

Relevant premium or contribution for protected rights annuities

- 6.6.31 **R** ^{/1} The relevant *premium* or contribution in relation to a protected rights annuity is an amount that may reasonably be estimated to be paid by the Secretary of State or the Department of Social Services for Northern Ireland by way of minimum contributions in respect of the *customer* involved.

- 6.6.32 **G** ^{/1} The relevant *premium* or contribution may include amounts in respect of minimum contributions expected to be paid in future years. This applies if the estimate for those years makes allowance for the most recent assumptions published by the Government Actuary in respect of the future years, and these assumptions and the period of any *projection* are made clear.

Relevant rate of return

- 6.6.33 **R** ^{/1} The relevant rate of return is the intermediate *projection rate* appropriate to the category of business as set out in ■ COB 6.6.50 – ■ COB 6.6.52, or the lower rate if ■ COB 6.6.38(1) (Projections of surrender values and transfer values) applies.

Basic calculation method life policy or stakeholder pension scheme calculation

- 6.6.34 **R** ^{/1}
- (1) A *projection* of any future benefit payable under a *life policy* or *stakeholder pension scheme* must be calculated by reference to the relevant *premium* for the *policy* or *stakeholder pension scheme*.
 - (2) The relevant *premium* must be accumulated to the *projection date* at the rate of return for its class of business as detailed in ■ COB 6.6.50 – ■ COB 6.6.52, subject to charges and expenses (as described in ■ COB 6.6.23) and the cost of risk benefits.
 - (3) An allowance must be made where a *customer* has exercised or has expressed the intention to exercise an option to effect a partial surrender of a *policy*.

- (4) Allowance must not be made for *income withdrawals*, surrenders, lapses or early discontinuance, except as in (3).

Holloway sickness policy calculation

6.6.35

R

/1

For a *Holloway sickness policy* issued by a *friendly society*, a rate of bonus no greater than that last declared by the *friendly society* must be accumulated, with allowance for applicable charges and expenses (as described in ■ COB 6.6.23) at the rates of return set out in ■ COB 6.6.50 until the *projection date*.

Scheme calculation

6.6.36

R

/1

- (1) A *projection* of any future benefit payable under a *scheme* must be calculated by reference to the relevant contribution for the *scheme*.
- (2) The relevant contribution must be accumulated to the *projection date* at the rates of return for the relevant class of business as detailed in ■ COB 6.6.50, subject to charges and expenses (as described in ■ COB 6.6.23).
- (3) An allowance must be made where a *customer* has exercised or expressed the intention to exercise an option under the *scheme* to make withdrawals, either by:
 - (a) encashment of *units*; or
 - (b) distribution of income, which must be calculated using an estimated gross distribution yield, reduced by the rate of tax relevant to the contract; the distribution yield must be rounded to the higher 0.1%.
- (4) No allowance must be made for the distribution of income except as in (3).

General rules applicable to the calculation of projections

6.6.37

R

/1

- (1) A *projection* must be rounded down to not more than three significant figures.
- (2) Where the *projection*, other than a *projection* in real terms of a *pension contract* or *stakeholder pension scheme*, is less than the amount guaranteed under the *life policy* or *scheme*, the *projection* must be increased to that guaranteed amount.

- (3) Where a *customer* is entitled, and has expressed the intention, to increase the *premium* or contribution by an amount linked to future salary or other index increases, the relevant *premium* or contribution may be calculated by making allowance for such increases on the same basis as that used for administration charges in ■ COB 6.6.47.

Projections of surrender values and transfer values

6.6.38

R

/1

A *projection* of a surrender or transfer value:

- (1) must be given using the intermediate rate of return appropriate to its category of business, unless:
 - (a) the *firm* reasonably expects the rate to overstate the potential of the contract, in which case a lower rate of return must be used and disclosed; or
 - (b) the *customer* so requests, in which case a lower rate of return may be used, and the fact that it has been used must be disclosed;
- (2) must make allowance for partial surrenders of a contract where the contract terms permit this and the *customer* has exercised this option or expressed the intention to do so;
- (3) must allow for the *firm's surrender value* basis and reflect the current approach of the *firm* towards applying penalties on surrender, including less than full credit for accrued terminal bonus, specific penalties or exit charges; and
- (4) for a with-profits contract where bonus rates apply, must ensure that the bonus rates supported by the relevant *premium* are assumed to apply throughout the term of the contract.

Rules specific to products or features of products: annuities

6.6.39

R

/1

- (1) Any *projection* of an annuity with one or more years to maturity must show an annuity value based on the higher and lower rates of return as set out in ■ COB 6.6.50 – ■ COB 6.6.52, and make allowance for:
 - (a) mortality and also, in the case of *life policies*, morbidity appropriate to the class of *customers*; and
 - (b) charges and expenses (as described in ■ COB 6.6.23).

6.6.40

R

/1

- (2) Any *projection* of an annuity with less than one year to maturity must be calculated using annuity rates no more favourable than the *firm's* current immediate annuity rates.
- (3) Where a *firm* which does not offer annuities *issues a projection* for a contract the proceeds of which are to be applied to the *purchase* of an annuity, the *firm* must use annuity rates no more favourable than those currently being used in the open market for such a *projection*.

In the case of a contract for an immediate annuity:

- (1) the uniform rate of continuous change in annuity supported by the actual *premium* to be paid must be determined for each rate of return with allowance for:
 - (a) mortality appropriate to the class of *customer*; and
 - (b) charges and expenses (as described in ■ COB 6.6.23) on the assumptions used when calculating the *firm's* own annuity rates;
- (2) the rate of continuous change in annuity calculated must then be:
 - (a) applied to the initial annuity under the contract which is the subject of the *projection*; and
 - (b) assumed to be maintained throughout the term of the contract.

Appropriate personal pensions and protected rights annuities

6.6.41

R

/1

- (1) The *retirement fund* for a *protected rights annuity* under an *appropriate personal pension scheme* or *stakeholder pension scheme* must be calculated by accumulating the relevant contribution less charges and expenses (as described in ■ COB 6.6.23) at the two relevant rates of return for the period.
 - (a) The period is either:
 - (i) where the relevant contribution is a minimum contribution, from the 1st September following the end of the tax year to which the minimum contribution relates up to the maturity date; or
 - (ii) where the relevant contribution is a transfer value, from the commencement of the contract up to the maturity date.
 - (b) The two relevant rates of return are:

- (i) in the case of a *protected rights annuity projection* issued in accordance with ■ COB 6.6.11(1), the real rate of return in ■ COB 6.6.52;
 - (ii) in the case of any other *protected rights annuity projection*, either the real or monetary lower and higher rates of return in ■ COB 6.6.52.
- (2) The annuity must be calculated by reference to the *retirement fund* using the higher and lower rates of return set out in ■ COB 6.6.51, with allowance for the mortality appropriate to the class of *customers*, charges and expenses and the relevant rate of increase in payment.

Pension contracts or stakeholder pension schemes

6.6.42

R
/1

- (1) An additional *projection* may be given for a *pension contract* or *stakeholder pension scheme* where the period to maturity is five years or less. This:
- (a) may be calculated using the intermediate rates of return specified in ■ COB 6.6.51;
 - (b) may use a current annuity rate calculated using a rate of return no higher than the higher rate specified in ■ COB 6.6.51.
- (2) If the *firm* providing the *projection* offers annuities, it must use its own annuity rates.

Single premium contracts

6.6.43

R
/1

- A *projection* relating to a series of single *premiums* (other than a *protected rights annuity*) may be a calculation set out as if those *premiums* were regular *premiums*, provided:
- (1) it is not otherwise given on a misleading basis;
 - (2) the *firm* is bound unconditionally, and by express terms of the contract, to accept all single *premiums* which may be paid by the *customer* under the contract.

With-profits endowment business

6.6.44

R
/1

- For with-profit *endowment assurance* where the amount of any guaranteed benefit payable on death is not calculated by reference to the total value of the *premiums* paid under the contract before that event:

- (1) the cost of risk benefits must allow for the bonus rate or rates supported by the relevant *premium* (given the basic sum assured for such a *policy* with an appropriate office *premium*) calculated for each rate of return; and
- (2) the rate or rates of bonus must then be applied under the *policy* which is the subject of the *projection* and be assumed to be maintained throughout the term of the *policy*.

With-profits whole life assurance business

6.6.45

R

For with-profit *whole life assurance* other than a *policy* the bonuses under which are added to the *surrender value*:

/1

- (1) the cost of risk benefits must allow for the bonus rate or rates supported by the *premium* (given the basic sum assured for such a *policy* with an appropriate office *premium*) calculated for each rate of return; and
- (2) the rate or rates of bonus must then be applied under the *policy* which is the subject of the *projection* and be assumed to be maintained throughout the term of the *policy*.

Contracts with reviewable administration charges

6.6.46

R

In respect of *policies* with reviewable administration charges:

/1

- (1) a *firm* must make allowance for increases in administration charges which are reviewable at the *firm's* discretion, on a basis which:
 - (a) is fair and reasonable; and
 - (b) takes into account the *firm's* pricing *policy* as regards future levels of administration charges;
- (2) increases must be assumed at the rates in ■ COB 6.6.47 for any contracts where:
 - (a) an administration charge is reviewable by the *firm* (whether or not any increases are contractually linked to an external index); or
 - (b) expenses in respect of future renewal or claims costs are expressed as monetary amounts.

6.6.47

R

Table Table of assumed rates of increase for policies with reviewable administration charges
This table belongs to ■ COB 6.6.46

/1

Basis of review	Assumed rate of increase		
	Lower rate of return	Intermediate rate of return	Higher rate of return
Administration charge reviewed in line with price increases	0.5%	2.5%	4.5%
Administration charge reviewed in line with earnings increases	2%	4%	6%

Contracts with rider benefits or extra premiums for underwriting risks

6.6.48

R

/1

In respect of a contract with rider benefits, or where an extra *premium* is being charged for an increased underwriting risk:

- (1) the rider benefit or extra *premium* charged for an impaired life, hazardous pursuit, or on the grounds of occupation, must be taken into account when determining a *projection*;
- (2) if a deduction is made from the actual *premium* for a rider benefit or increased underwriting risk (or both), the sum of the amounts of the relevant *premium* must be quoted with the *projection*; and
- (3) for *policies* with rider benefits, a *firm* may apply the following procedure:
 - (a) if the *policy* is also available without the rider benefit, then the same values must be projected as would be projected for such a *policy* with the *premium* appropriately reduced; and
 - (b) if the contract is available only with one or more rider benefits, the *firm* must deduct a fair estimate of the cost of the extra benefits from the *premium* when determining the *projection*; if a fair estimate cannot be made, a rough estimate (rounded to the next higher 10% of the total *premium* payable by the policyholder) must be deducted.

Rate of return assumptions

6.6.49

R

/1

- (1) The appropriate rates of return for the type of contract being projected, taken from ■ COB 6.6.50 – ■ COB 6.6.52, must be used when calculating a *projection*;
- (2) reduced rates of return must be used if the *firm* expects the rates in the tables to overstate the investment potential of a contract;

- (3) reduced rates of return may be used if requested by a *customer*; and
- (4) whenever reduced rates are used, they must be disclosed in the *document* containing the *projection*.

6.6.50

R
/1

Table Rate of return assumptions for all schemes, ordinary branch non-pensions, industrial branch, friendly Society, immediate annuity and Holloway sickness policies (all monetary rates of return)
This table belongs to ■ COB 6.6.49

Rate of return assumptions for all schemes, ordinary branch non-pensions, industrial branch, friendly Society, immediate annuity and Holloway sickness policies (all monetary rates of return)

	Lower rate	Intermediate rate	Higher rate
(a) Non-tax-exempt business relating to schemes, ordinary branch non-pensions and industrial branch business	4%	6%	8%
(b) Holloway sickness policies	4%	6%	8%
(c) Tax-exempt business held within an ISA or PEP or by a friendly society, relating to schemes, ordinary branch non-pensions and industrial branch business	5%	7%	9%
(d) immediate annuities	5%	7%	9%

Notes:

In relation to schemes: The monetary rates of return above include any distribution of income. The rates of return may be used for contracts for units denominated in currencies other than sterling unless it is expected they will overstate the investment potential of the contract.

6.6.51

R
/1

Table Rate of return assumptions for pension contracts and stakeholder pension schemes excluding contracts for immediate annuities and protected rights annuities issued in accordance with ■ COB 6.6.11(1).
This table belongs to ■ COB 6.6.49

Rate of return assumptions for pension contracts and stakeholder pension schemes excluding contracts for immediate annuities and protected rights annuities issued in accordance with COB 6.6.11R(1)			
	Lower rate	Intermediate rate	Higher rate
(a) in deferment – either monetary or real rates of return may be provided			
Monetary rates of return	5%	7%	9%
Real rates of return	1%	N/A	3%
(b) after vesting – (monetary or real rates as used for period of deferment under a) above)			
Monetary rates of return	4%	6%	8%
For annuities linked to the retail price index	2%	3%	4%
For annuities linked to LPI (limited price indexation)	2%	3.5%	5%

6.6.52

R
/1

Table Rate of return assumptions for protected rights annuity projections given in accordance with ■ COB 6.6.11(1)
This table belongs to ■ COB 6.6.49

Rate of return assumptions for protected rights annuity projections given in accordance with COB 6.6.11R(1)			
	Lower rate	Intermediate rate	Higher rate
(a) In deferment:			
for periods in excess of five years – real rates of return	1%	N/A	3%
for periods of five years or less – monetary rates of return	5%	7%	9%
(b) after vesting: – for annuities linked to the retail prices index	2%	3%	4%

6.6.53

G
/1

The rates of return in ■ COB 6.6.50 – ■ COB 6.6.52 are assumed to compound annually and allow for inflation.

Calculation of the reduction in yield due to the effect of charges and expenses content

6.6.54

R

/1

■ COB 6.6.55 - ■ COB 6.6.62 set out the *rules* to be used when calculating the effect of deductions (the 'reduction in yield') to be provided within *key features* (■ COB 6.5) for all types of *life policies* and *schemes*. ■ COB 6.6.63 - ■ COB 6.6.79 provide *guidance* in assessing the expenses and charges relating to *schemes*.

Basic calculation method of the reduction in yield

6.6.55

R

/1

- (1) A *firm* must accumulate the adjusted *premium* to the end of the contract period at the relevant rate of return, making:
 - (a) full allowance for the charges and expenses (as described in ■ COB 6.6.23); and
 - (b) no allowance for charges and expenses.
- (2) A *firm* must then calculate the rate of return which, if applied (on an annual compound basis) to the adjusted *premium* over the contract period, without making any allowance for the charges and expenses, will produce the same sum as that calculated under (1)(a).
- (3) The reduction in yield is the difference between the relevant rate of return and the rate of return found in (2).

6.6.56

R

/1

- (1) When a *firm* is calculating a *projection*, charges which relate to benefits for any mortality or morbidity risks, or a proportion of them, must be assumed not to be made:
 - (a) providing the assumption does not produce figures for the effect of charges deductions which suggest that the charges under the contract are lower than they actually are; and
 - (b) only in so far as they are attributable solely to benefits for mortality or morbidity risks, a proper apportionment being made of any composite charges.
- (2) When a charge cannot be apportioned, (1) will not apply, but the *firm* may include in the information required to be given within a *projection* a statement to the effect that the reductions have been calculated without disregarding charges relating to benefits for any mortality or morbidity risks.

Alternative calculation method of the reduction in yield for a life policy

6.6.57

R
/1

The following alternative method of calculation of the reduction in yield may be used at a *firm's* discretion for a *life policy*:

- (1) The adjusted *premium* must be accumulated to the end of the contract period at the relevant rate of return, making full allowance for the charges and expenses (as described in ■ COB 6.6.23).
- (2) If the accumulated value will reach zero before the end of the contract period, the accumulation must cease at that stage; subsequent references in this *rule* to the contract period are to be taken where relevant as referring to that shorter calculation period.
- (3) In making this calculation, the total of all charges and expenses not solely attributable to the risk benefits must be assessed separately and accumulated to the end of the contract period at the relevant rate of return.
- (4) The adjusted *premium* must be accumulated to the end of the contract period at the relevant rate of return, making no allowance for charges and expenses.
- (5) The reduction in yield must be calculated in accordance with, ■ COB 6.6.55, but using the shorter calculation period specified in (2), if applicable.

Other provisions

6.6.58

R
/1

In the case of a protected rights annuity, the effect of charges and expenses (as described in ■ COB 6.6.23) may be calculated on the assumption that *premiums* will continue to be paid after the first year.

6.6.59

R
/1

The reduction in yield or the effect of charges and expenses must be expressed to the nearest tenth of 1%.

Unit-linked contracts with more than one fund

6.6.60

R
/1

(1) Where there is more than one fund into which the *premiums* under a unit-linked contract are expected to be paid initially (disregarding any option of the *customer* to require the funds to be changed):

- (a) the effect of charges and expenses must be calculated separately in relation to each such fund;

- (b) unless a representative figure is shown in accordance with (3), each of those reductions in yield must be shown in the information required within *key features*; and
 - (c) a brief explanation of the difference between them may be included.
- (2) If any of the funds referred to in (1) is a unitised with-profits fund, the calculation relating to that fund must be made on the with-profits expenses basis as described in ■ COB 6.6.23(2).
 - (3) If, in the case of any contract, two or more of the calculations of the effect of charges and expenses would produce results which are so similar that one may fairly be regarded as representative of the other or others, only one figure for the effect of charges and expenses need be shown, accompanied by an indication that it is a representative figure.

Regular and single premium contracts

6.6.61

R

In the case of any contract where the *premiums* include both a regular and a single *premium*:

/1

- (1) the reduction in yield should be calculated separately for the regular *premiums* and for the single *premium*; and
- (2) each of those reductions in yield should be shown in the information required in ■ COB 6.5 (Contents of key features) with a brief indication of the difference between them.

Table of specimen values of the reduction in yield

6.6.62

R

Where ■ COB 6.6.60 or ■ COB 6.6.61 applies in relation to the calculation of the reduction in yield, either:

/1

- (1) different tables must be shown with the values calculated separately for each fund or for the regular *premiums* and the single *premiums* (as the case may require); or
- (2) one table may be used, but it must contain those values calculated separately as required by (1), and it must make clear to the *customer* (or any potential *customer* in the case of a *financial promotion*) what the different values refer to.

Charges and expenses disclosure for schemes

- 6.6.63** G_{/1} ■ COB 6.6.65 – ■ COB 6.6.79 set out *rules* and *guidance* on how to calculate charges and expenses (as described in ■ COB 6.6.23) for *schemes*.
- 6.6.64** G_{/1} ■ COB 6.6.65 – ■ COB 6.6.69 provide *rules* and *guidance* for authorised *unit trusts* (and OEICs and *recognised collective investment schemes*) and ■ COB 6.6.70 - ■ COB 6.6.74 *rules* and *guidance* for *investment trust savings schemes*.

Charges and expenses disclosure for authorised unit trusts

- 6.6.65** G_{/1}
- (1) Charges and expenses as described in ■ COB 6.6.23 means ‘all explicit charges and expenses, and includes all other deductions and expenses which will or may bear upon the fund’. The following paragraphs give *guidance* on the assessment and apportionment of expenses.
 - (2) Those expenses that were, or would be, reported in the Annual report and Financial Statement of *authorised unit trust schemes* in accordance with the ‘Statement of Recommended Practice’ (‘SORP’) issued by the *FSA*, will normally provide a suitable starting point for any assessment of the level of charges and expenses. The same principles apply to funds and *schemes* which are not within the scope of the SORP.
 - (3) Where expenses are charged directly against the assets of the fund, it will normally be appropriate to express such expenses as an annual percentage charge against the fund, which is then added to other such charges. An example is a manager’s periodic charge to form an aggregate percentage charge. It is reasonable to round this charge to the nearest 0.05%.
 - (4) Where a *scheme* invests in other *packaged products*, it will be necessary to look through to ensure that all charges and expenses which the *customer* will or may bear are included. Appropriate allowance may be made for any abatement to avoid double charging. If the *product provider* is not required to make expense disclosure in respect of such *packaged products*, the charges and expenses of an equivalent product from another provider should be used. In the case of *investment trusts*, the method in ■ COB 6.6.70(4) should be used.
 - (5) Where the *unit trust* invests in other *unit trusts*, charges and expenses will be based on a reasonable distribution of assets that takes account of the investment philosophy of the *unit trust*.

Representative unit trust

- 6.6.66** G_{/1}
- (1) Where a document refers to investment in a number of trusts, charges and expenses (as described in ■ COB 6.6.23) applicable to the trusts selected by the *customer* should be used. Where this is not practicable, it is permissible to use the charges and expenses of a representative *unit trust*.
 - (2) The representative *unit trust* will normally be the one that is most likely to be selected by the *customers* to whom the material is issued. Where advantage is taken of this option, the *document* should include information which shows the differences if other trusts are selected. The normal presentation will be to show the differences as a reduction of investment return, or as an adjustment to the Table in *key features*. Where the reduction of *investment* return is used,

it will not be necessary to show differences unless the rounded difference is at least 0.1% and the unrounded difference is at least 0.05%.

Types of expenses

6.6.67

G

/1

- (1) The following are those expenses and costs of *investment* that *firms* should take into account when making their calculations. The list is not comprehensive. These are in addition to explicit charges.
- (2) Examples of expenses are:
 - (a) registration fees;
 - (b) *safe custody fees*;
 - (c) *trustees' fees*;
 - (d) handling charges;
 - (e) audit fees;
 - (f) regulatory fees and subscriptions;
 - (g) costs of investment management, but excluding dealing costs of the underlying portfolio, and costs associated with routine management and servicing of existing property investments;
 - (h) bid/offer spread in the pricing of *units*.
- (3) The spread in (h) should be on a basis that fairly represents the expected levy of such spread in the *firm's* experience of normal trading conditions.
- (4) The expenses should include allowance for any value added tax which is not recoverable.

Translation to fund level

6.6.68

G

/1

- (1) The expenses and explicit charges need to be adjusted for any expected variation in costs from the period of the report to the period relevant to the disclosure expenses if such variation is believed to make a material difference.
- (2) The adjusted expenses should be expressed as a proportion of the relevant fund. For established funds, the relevant fund is the average size of the fund for the period of the report.
- (3) Where the use of the figure calculated as in (2) would be misleading, a fair estimate of the size of the relevant fund which is consistent with the adjusted expenses should be used. The same method should be used in the case of new funds. In determining the reasonable levels of expense to be assumed, account should be taken of the expense attributable to the existing fund which most closely corresponds to it, with proper regard to material differences in cost.

Review of expenses

6.6.69

R

/1

The expenses used in calculations must be reviewed whenever material changes in the levels are identified which would mean that the disclosed amounts are misleading. In any event the expenses must be reviewed at least once a year.

Charges and expenses disclosure for investment trust savings schemes charges and expenses

6.6.70

G

/1

- (1) Charges and expenses as described in ■ COB 6.6.23 should be taken to include all explicit charges and, in addition, all other deductions and expenses which are not financed from explicit charges. These include deductions and expenses within the *trust*.
- (2) The method is to identify all expenses that will be borne by the *customer*, and these will include not only the cost of acquiring a holding but also the cost of disposing of the investment.
- (3) Where expenses are charged directly against the assets of the *investment trust*, it will normally be appropriate to express the expenses as an annual percentage charge against the trust, which is then added to such charges, for example, a periodic management fee, to form an aggregate percentage charge. It will be reasonable to round to the nearest 0.05%.
- (4) Where an *investment trust* company (A) invests in another *investment trust* company (B), it will be necessary to look through to ensure that all charges or expenses which the *customer* will or may bear are included. Appropriate allowance may be made for any abatement to avoid double charging. Charges and expenses will be based on a reasonable distribution of assets that takes account of the investment philosophy of the *investment trust* company (A). If the *investment trust* company (B) is not required to make expense disclosure in respect of such assets, the charges and expenses of a similar company should be used.

Representative investment trust company

6.6.71

G

/1

- (1) Where a document refers to investment in a number of *investment trusts*, charges and expenses (as described in ■ COB 6.6.23) applicable to the trusts selected by the *customer* must be used. Where this is not practical, it is permissible to use the charges and expenses of a representative *investment trust* company.
- (2) The representative *investment trust* company will normally be the one that is most likely to be selected by the *customers* to whom the material is issued. Where advantage is taken of this option, the *document* must include information which shows the differences if other *trusts* are selected. The normal presentation will be to show the differences in the other reduction of investment return, or as an adjustment to the Table in *key features*. Where the reduction of investment return is used, it will not be necessary to show differences unless the rounded difference is at least 0.1% and the unrounded difference is at least 0.05%.

Types of expense

6.6.72

G

/1

- (1) Expenses may be incurred either in acquiring or in holding an investment in an *investment trust* company. The list in (2) is not comprehensive and, in respect of other expenses, the list sets out the type of expense that should be included. The report and accounts of the *investment trust* company will normally provide a starting point in assessing the expenses that are charged against the assets of the *investment trust* company. These are in addition to disclosable charges.
- (2) Expenses to be included will be of four main types:
 - (a) deductions levied against the assets of the *investment trust* company;
 - (b) management expenses levied against the assets of the *investment trust* company; these expenses include management fees plus any management costs financed from commission received, directors' fees, pension contributions, non-recurring expenses, all other professional and regulator's fees and subscriptions, rents paid, depreciations, custody fees, audit fees and all other pre-tax expenses (except for interest paid); management expenses include marketing costs, if any;
 - (c) expenses borne by the *customer* in acquiring or disposing of *investment trust* shares; these include adviser's commission (if any), stockbroker dealing commission on purchases and sales, stamp duty and withdrawal charges;
 - (d) investment spread in the pricing of the *investment trust shares*.
- (3) Expenses should include allowance for any value added tax which is not recoverable.
- (4) Expenses in (2)(c) and the spread in (2)(d) should be on bases that fairly represent the expected level of such expenses and spread. Where appropriate, a representative level of expenses and the spread should be used.

Translation to trust level

6.6.73

G

/1

- (1) Having identified all the expenses in ■ COB 6.6.72(2), a *firm* needs to express them as rates of charges and expenses (as described in ■ COB 6.6.23) that can be used in *projections* and *key features*.
- (2) The process is as follows.
 - (a) The expenses in ■ COB 6.6.72(2)(a) and (b) should be expressed as a proportion of the overall fund using net asset value: For established companies, the relevant fund is taken to be based on the average size of the *investment trust* company for the period of assessment.
 - (b) The expenses in ■ COB 6.6.72(2)(c) and (d) will usually be expressed as a proportion of the fund based on *share price* or the amount of the *investment*, as appropriate. Some expenses will be a one-off expense or spread and some will be in the form of an annual charge.
 - (c) The rates of charges and expenses calculated under (a) and (b) should be added together. The fact that the calculation at (a) used net asset value

can be ignored as it is assumed that the level of discount or *premium* remains unaltered.

- (3) The charges and expenses will normally be historic and need to be adjusted for any expected variation in the level of costs from the period used in the assessment to the period relevant to the disclosure of the expenses if such variation is believed to make a material difference.
- (4) Where the use of the figure calculated in (3) would be misleading, a fair estimate of the size of the company which is consistent with the adjusted expenses should be used. The same method should be used in the case of new *investment trusts*. In determining the reasonable levels of expense to be assumed, account may be taken of the expenses attributable to the existing *investment trust* which most closely corresponds to it, but with proper regard to any material differences in cost.
- (5) Set-up costs may be amortised over a limited period not normally exceeding five years.

Review of expenses

6.6.74

R

/1

The expenses used in calculations must be reviewed whenever material changes in the levels are identified which would mean that the disclosed amounts are misleading. In any event the expenses must be reviewed at least once a year.

Example of the calculation of reduction in investment return

6.6.75

G

/1

■ COB 6.6.76 - ■ COB 6.6.78 contain an example which has been prepared to assist understanding of the method of calculating the reduction in investment return. However, the figures should not be regarded as representative or indicative of likely levels of charges and expenses to be expected.

General

6.6.76

G

/1

- (1) The reduction in investment return shows the effect of all charges and expenses to the *customer*.
- (2) The rates of investment return allow for all tax and withholding tax for which the *product provider* is responsible. The current rate of tax may be used to calculate the net distribution of income. Where appropriate, the net distributions are offset from the rate of investment return.
- (3) It is not necessary to allow for daily changes so that monthly steps are acceptable.
- (4) The rates of return are assumed to compound annually. The twelfth root is used to calculate the monthly rate. This is different from the fund management charge, where normally one twelfth of the annual rate is deducted monthly.

- (5) The bid/offer spread should be allowed as an initial charge so that subsequent figures are on the basis of the bid price, except where the context requires allowance to be made for the spread.

The parameters

6.6.77

G
/1

- (1) Contract details: *unit trust* for a term of 10 years with a single *investment* of £6,000 (SP).
- (2) Distributions: at the rate of 2.4% per annum, distributed as 1.2% of the offer value at the end of each half year.
- (3) Charges:
 - (a) initial charge of 3% of *investment* (IC);
 - (b) fund management charge of 1/12 of 1.25% per month (FMC) on distribution *units*;
 - (c) attributable expenses of 1/12 of 0.25% per month (AE);
 - (d) investment spread of 3% (IS) making total bid/offer spread of 6%.
- (4) Calculation:
 - (a) investment of £6,000 (SP) less (IC+IS) giving an initial bid value of £5,640
 - (b) interest of 6% pa or 0.4868% per month less (FMC + AE) = $1.004868 \times (1 - 0.015/12) - 1 = 0.3612\%$ per month
 - (c) the value after 10 years as shown in ■ COB 6.6.79 is £6,720
 - (d) the internal rate of return necessary to generate £6,720 plus distributions over 120 months from an initial investment of £6,000 is 0.3030% per month or 3.7% per annum
 - (e) one method of creating the table is to use 20 periods of six months, each of which end with the payment of a distribution.
 - (f) after 6 months:
 - (i) the bid value of the fund before the distribution is $6000 \times 0.94 \times (1.003612)^6 = £5,763$
 - (ii) the distribution is $0.012 \times 5763/0.94 = £73$
 - (iii) the fund carried forward is $5763 - 73 = £5,690$
 - (iv) after the end of Year 1, that is, after the second 6 months
 - (v) the bid value of the fund before the distribution is $5690 \times (1.003612)^6 = £5,814$
 - (vi) the distribution is $0.012 \times 5814/0.94 = £74$
 - (vii) the fund carried forward is $5814 - 74 = £5,740$

- (viii) this bid value is disclosed as there is no exit penalty as ‘what you might get back’.
- (g) the ‘effect of deductions’ is calculated from the accumulation of the *investment* with no allowance for charges and expenses but with allowance for income:
 - (i) the accumulated fund after 1 year with no allowance for charges is $[6000 \times (1.004868)^6 - 73] \times (1.004868)^6 - 74 = \text{£}6,210$
 - (ii) the ‘effect of deductions’ is this figure less ‘what you might get back’, that is, $\text{£}6,210 - \text{£}5,740 = \text{£}470$
- (h) this process is continued throughout the term of the table; after 10 years, the accumulated investment at 0.4868% per month with no allowance for charges and expenses but with allowance for the same distributions of income is $\text{£}8,621$; ‘What you might get back’ is $\text{£}6,723$ so ‘effect of deductions’ is the difference or $\text{£}1,898$;
- (i) the deduction in *investment* return is determined by calculating the rate of interest which accumulates the *investment* with no allowance for charges and expenses but with allowance for income to $\text{£}6,723$; this is 0.3030% per month (0.4868% per month gives $\text{£}8,621$); the yearly rate is $(1.00303)^{12} - 1$ or 3.7%.

6.6.78

G

In ■ COB 6.6.79 projected amounts are rounded down to three significant figures.

6.6.79

G

Table Specimen table of presentation of the effect of charges and expenses
This table belongs to ■ COB 6.6.75

At end of year	Investment to date £	Income to date £	Effect of deductions to date £	What you might get back £
1	6,000	148	470	5,740
3	6,000	451	715	5,940
5	6,000	766	998	6,150
10	6,000	1,600	1,890	6,720

The last line in the table shows that over 10 years the effect of total charges and expenses could amount to $\text{£}1,890$.

Putting it another way, this would have the same effect as bringing the illustrated investment growth from 6.0% a year down to 3.7% a year.

Assumptions for pension annuities

6.6.80

R

The formulae shown must be used for calculating the factors for converting a *retirement fund* into an annuity. The formulae in ■ COB 6.6.81 assume that the annuity will be payable monthly in advance for a term certain of *n* years (typically five):

- (1) for an RPI-linked and LPI-linked annuity (excluding a *protected rights annuity*): use Factor (1);

- (2) for an annuity which is static or has fixed rates of escalation: use Factor (2);
- (3) for a spouse's reversionary annuity (excluding a protected rights annuity, and whether or not there is overlap with any guaranteed period under the associated single life annuity): use Factor (3);
- (4) for a pre April 1997 *protected rights annuity*: use Factor (4);
- (5) for a post April 1997 protected annuity: use Factor (5).

6.6.81

R

Table Table of formulae for pension annuity factors
This table belongs to ■ Local COBS 6.6.80 and ■ COB 6.6.82

Factor	Formula
(1)	$(1+E)*[\ddot{a}_n^{(12)} + D_{x+n}/D_x * \ddot{a}_{x+n}^{(12)}]$
(2)	$(1+E)*[\ddot{a}_n^{(12)} + D_{x+n}/D_x * \ddot{a}_{x+n}^{(12)}]$
(3)	$(1+E)*[a_{y-x:y}]$
(4)	$(1+E)*[\ddot{a}_f^{(12)} + .045*(a_m - a_{m:f})]$
(5)	$(1+E)*[\ddot{a}_f^{(12)} + 0.50*(a_m - a_{m:f})]$
(6) namely $a_x^{(12)}$	$= a_x + 13/24$
(7) namely $\ddot{a}_{x:t}^{(12)}$	$= 13/24 * \ddot{a}_{x:t} + 11/24 * a_{x:t}$

6.6.82

R

- (1) All factors must be rounded to three decimal places before being applied to the *retirement fund*.
- (2) In the formulae the letters a and D have their normal actuarial notation meanings. In formulae for two lives, x is the member and y is the spouse, and for the *protected rights* formulae, f indicates the use of female mortality and m that for males. In addition, a monthly annuity is either Factor (6) or (7).
- (3) For retirement other than on a birthday, the factors must be obtained by linear interpolation on complete months. Where a member is not able (for practical reasons or otherwise) to determine the exact age at retirement, it must be assumed that the exact age at retirement is then the age at the last birthday.
- (4) Where the *projection* is of an annuity after taking a tax-free lump sum, the table must be used with the *retirement fund* reduced by the projected tax-free lump sum before rounding. Any tax-free lump sum illustrated should be rounded to three significant figures, unless the lump sum is equal to the amount of a loan.
- (5) Where a *retirement fund* includes both *protected rights* and *non-protected rights* benefits, the appropriate factors are to be used for each relevant part of the total fund.
- (6) Where *customers* have post April 1997 *protected rights* funds and are not married at retirement, an illustration of single life pensions

may be provided. The factor must be calculated using the same assumptions as formula (5) in ■ COB 6.6.81 but ignoring the reversionary annuity part of the formula.

6.6.83

R
/1

In the formulae in ■ COB 6.6.81, the allowance for expenses (E) is:

- (1) for index-linked annuities: 3.5%
- (2) for all other annuities: 4%

6.6.84

R
/1

In the formulae in ■ COB 6.6.81, mortality rates must be calculated as follows:

- (1) the mortality table to be used is P80, amounts, with the mortality improvements projected forward to 2010, and with one year deducted from age;
- (2) where there are two lives concerned, for reversionary and for *protected rights annuities*, the husband is normally to be taken as being three years older than his wife; where the *firm* is aware that the wife is more than six years younger than her husband, an exact calculation must be performed using actual ages;
- (3) *protected rights annuities* must be calculated for both sexes on the basis that the member experiences female mortality and the spouse experiences male mortality.

6.6.85

R
/1

In the formulae in ■ COB 6.6.81, the mortality functions must be calculated at a rate of interest J, where:

- (1) $J = (1 + I)/(1 + R) - 1$;
- (2) R is the rate of escalation increase appropriate for the *customer* in formulae (2) and (3) in ■ COB 6.6.80; it is 3% for pre-April 1997 *protected rights* benefits in formula (4), and zero otherwise;
- (3) the rate of return assumptions (1) are as set out in the tables in ■ COB 6.6.50 – ■ COB 6.6.52 with real rates of return being used for formulae (1) and (5) in ■ COB 6.6.81 and monetary rates otherwise; and
- (4) different factors will need to be calculated where a *projection* is being prepared on lower and higher rates of return, and where appropriate also the intermediate rate.

Pension transfer value analysis requirements content

6.6.86

G
/1

■ COB 6.6.87 - ■ COB 6.6.93 outline how a *pension transfer* value analysis should be prepared. A *pension transfer* value analysis should provide a comparison between the potential benefits available to the *customer* from an *occupational pension*

scheme of which he is a member and the potential benefits that would be available to him under a personal pension or buy-out contract.

Basis of a pension transfer value analysis

6.6.87

R

/1

- (1) The basis for the *pension transfer* value analysis must be clear, fair and not misleading.
- (2) The information analysed must include details relevant to the *customer's* circumstances:
 - (a) spouse's, dependants' and children's pensions;
 - (b) early retirement provision, including provision for retirement in ill-health;
 - (c) a transfer value quotation detailing:
 - (i) guarantee period;
 - (ii) pre- and post-April 1988 Guaranteed Minimum Pension and excesses;
 - (iii) revaluation rates both in deferment and payment, and whether they are guaranteed or discretionary;
 - (iv) tax-free cash arrangements;
 - (d) lump sum death benefits;
 - (e) transfer club arrangements, if applicable;
 - (f) relevant earnings;
 - (g) period of service;
 - (h) scheme details (for example, benefits, bridging pensions, guarantee periods, position before and after normal retirement date, history of discretionary increases);
 - (i) whether members' benefits have been equalised for service from 17 May 1990;
 - (j) ill-health benefits.

Required comparisons

6.6.88

R

/1

The analysis must contain the following:

- (1) where the period before benefits are assumed to commence is one year or more:
 - (a) a statement of the rates of return, calculated as in ■ COB 6.6.92(2), which would have to be achieved under the transfer contract in order to provide the same level of benefits as those which would be afforded by the *occupational pension scheme* if the *customer* were to retire at normal retirement date ('the Target Benefits');
 - (b) if in the *firm's* opinion early retirement would be materially more favourable to the *customer* than retirement at normal retirement date, a statement of the rates of return, calculated as in ■ COB 6.6.92(2), which would have to be achieved under the transfer contract in order to provide the same pension as that afforded by the *occupational pension scheme*, assuming early retirement at a date on which the *customer* may be expected, or will have the *option*, to retire;
 - (c) a statement of the value of the benefits payable on the death of the *customer*, under the transfer contract and under the *occupational scheme*, on the assumption that the *customer* were to die on the *day* after the date on which the transfer contract is assumed to have commenced; comparisons assuming other dates of death may be included if they are likely to enhance understanding of the differences between the benefits payable under the transfer contract and the *occupational pension scheme*;
- (2) where the period before benefits are assumed to commence is less than one year:
 - (a) a statement of the annuity payable under the transfer contract and of the comparable Target Benefits;
 - (b) where the normal retirement date under the *occupational pension scheme* is not within a year, a statement of the rates of return, calculated as in ■ COB 6.6.92(2), which would have to be achieved under the transfer contract in order to provide the Target Benefits.

6.6.89

R
/1

- (1) In all cases (except in a case within ■ COB 6.6.88(2) in respect of the annuity) a statement of the assumptions must be provided which complies with the requirements of ■ COB 6.6.90.

Required assumptions

6.6.90

R
/1

- (1) The assumptions in ■ COB 6.6.91 must be made for the purposes of the required calculations, except as envisaged by this *rule*.

- (2) The assumptions may be varied only to incorporate more cautious assumptions.
- (3) If an annuity interest rate different from the *FSA* annuity rate (as described in ■ [COB 6.6.91](#)) is used, it must be the interest rate for annuities in payment provided that it is a multiple of 0.5% per annum and must not exceed the *FSA* annuity rate for zero years to retirement.
- (4) Where the *occupational pension scheme* has a record of discretionary increases in pension, the assumptions must be consistent with the published practice of the trustees, if any, or based on a comparison of the increases granted over the last five years with a published index. It must be assumed that increases will continue, and allowance must be made for continuation by:
 - (a) relying on any statement by the trustees of their practice;
 - (b) comparing recent experience with the increase in the retail *price* index and restricting the future allowance to a maximum of the increase in the retail price index;
 - (c) making a default assumption of limited pension indexation;
 - (d) assessing the likelihood whether such increases will continue to be paid.

Figures may be provided showing the effect of applying a factor representing the likelihood of such continuation.

6.6.91

R

Table Assumptions to be made
This table belongs to ■ [COB 6.6.90](#)

Annuity interest rate (“AIR”)	As published by the FSA from time to time [the FSA annuity rate]
Retail prices index	AIR – 3%
Average earnings index (“AEI”) and section 21 orders	AIR – 1.5%
Pre-retirement limited price indexation revaluation	AIR – 3% (maximum 5%)
Post-retirement limited price indexation increases	AIR – 3% (maximum 5%)
Index-linked pensions	AIR – 3%
Note:	
The interest rate in deferment must not be assumed but calculated as required by <i>COB 6.6.92R</i> .	

Method of calculation

6.6.92

R

/1

- (1) In calculating the Target Benefits for the purposes of the comparisons required by ■ COB 6.6.88, regard must be had to benefits which commence at different times.
 - (a) Where a benefit becomes payable at a different age from the age at which the Guaranteed Minimum Pension becomes payable, the benefit must be valued from its appropriate commencement date.
 - (b) In the case of pensions payable only for a limited period, an allowance must be made.
- (2) The method of calculating the rate to be used for the purpose of the comparisons required by ■ COB 6.6.88 is:
 - (a) make the assumptions required by ■ COB 6.6.91;
 - (b) on those assumptions, calculate the Target Benefits;
 - (c) calculate, in accordance with ■ COB 6.6.34 - ■ COB 6.6.62 which relate to the calculation of *projections*, the interest rate in deferment necessary to attain a transfer value sufficient to provide benefits equal to the Target Benefits.

Required disclosures

6.6.93

R

/1

The analysis must also contain:

- (1) a list of all the main assumptions made for the purposes of the analysis, set out consecutively and with equal prominence;
- (2) a warning as to the differences between the amounts of benefit under the *occupational pension scheme* and the level of benefits under the proposed transfer contract which depends on future investment performance and on interest rates at the time of retirement;
- (3) a description of any differences in the dates on which the pensions become payable, for example in the case of a *protected rights* pension under a *personal pension scheme* which will not become payable until the *customer* attains the State retirement age;
- (4) a warning of any shortfall in the value of the death benefits provided by the transfer contract and, where there is such a *shortfall*, if appropriate, a quotation for provision to make good the shortfall.

6.7 Cancellation and withdrawal

Application

6.7.1

R

■ COB 6.7 applies to:

/1

- (1) a *product provider*;
- (2) an *insurer* which provides *pure protection contracts*;
- (3) an *independent intermediary*, when acting as an *EIS manager*, *ISA manager* or *plan manager*, or when *selling on to a customer units* which the *firm* has bought or redeemed as *principal* for that purpose;
- (4) a *deposit-taking firm*, when acting as *ISA manager* or as the *firm* responsible for holding *deposits* in respect of another *firm's cash deposit ISA*;
- (5) the operator of a *stakeholder pension scheme*.

6.7.2

G

The *firms* in ■ COB 6.7.1 (except those in ■ COB 6.7.1(3)) are *product providers*, *insurers*, *deposit-taking firms* or *stakeholder pension scheme* operators, that is, the *firms* responsible for issuing *life policies*, *selling units*, issuing *long-term insurance contracts*, *accepting deposits* for *ISAs*, or acting as operators of *stakeholder pension schemes*.

/1

6.7.3

G

- (1) ■ COB 6.7 specifies the rights which *customers* have either to cancel agreements into which they have entered, or to withdraw any offer before an agreement has commenced.
- (2) ■ COB 6.7.12 specifies those agreements for a *stakeholder pension scheme* which *customers* have a right to cancel.
- (3) ■ COB 6.7.14(1) specifies those agreements for an *EIS*, *ISA* or *PEP* from which *customers* have a right to withdraw.
- (4) ■ COB 6.7.15 specifies those *long-term insurance contracts* which *customers* have a right to cancel and those which they do not.
- (5) A *firm* has the option to replace a post-sale right to cancel certain *pension annuities* with a pre-sale right to withdraw, referred to as "cancellation substitute" (see ■ COB 6.7.14(2)). This option is also available for money purchase and defined benefits (or final salary) *pension transfers*. If a *firm*

/1

chooses not to offer the cancellation substitute, it has to offer cancellation. The cancellation substitute is available as it is very difficult for post-sale cancellation to work effectively in the case of *pension transfers*, because of the difficulty of putting the *customer* back in his original position.

- (6) ■ COB 6.7.17 specifies those non-life agreements for a *pension contract*, *appropriate personal pension* or *units* in an *AUT* or *ICVC* which *customers* have a right to cancel and those which they do not. It also allows *firms*, for *units* within an *ISA* or *PEP*, to replace cancellation with a pre-sale right to withdraw.
- (7) ■ COB 6.7.20 specifies the cancellation procedure which applies to *cash deposit ISAs*.
- (8) ■ COB 6.7.23 specifies certain variations to existing agreements which *customers* have a right to cancel or right to withdraw.
- (9) ■ COB 6.7.54 to ■ COB 6.7.58 identify *investment agreements* subject to *shortfall* and describe how to calculate *shortfall*.

6.7.4

■ COB 6.7.5 summarises the applicable cancellation and withdrawal rights and the maximum period of reflection. *Firms* should have regard to the detailed *rules* and guidance in all cases, particularly for the detailed exemptions.

6.7.5

Table Cancellable investment agreements.
This table belongs to ■ COB 6.7.4

Cancellable investment agreements			
	Post-sale right to cancel?	Pre-sale right to withdraw?	Maximum period of reflection
A. Agreements where the right arises regardless of whether advice is given.			
<i>appropriate personal pension (APP)</i>	Yes	No	14–30 days ^{2,3}
<i>cash deposit ISA</i>	Yes	No	14 days
<i>life policy</i> (inc. <i>pension policy</i> , <i>pension annuity</i> or within <i>ISA</i>)	Yes ¹	Yes ¹	14 days ^{2,4}
<i>pension contract</i>	Yes ¹	Yes ¹	14 days ^{2,4}
<i>pure protection contract</i>	Yes	No	14 days ²
<i>stakeholder pension scheme (SHP)</i>	Yes	No	14–30 days ^{2,5}
certain variations of existing <i>life policies</i> , <i>pension contracts</i> and <i>SHP</i> 's	Yes ¹	Yes ¹	14–30 days ^{2,6}
B. Agreements where the right arises only if advice is given.			
<i>Units</i> in an <i>AUT</i> or <i>ICVC</i> (within an <i>ISA</i> or <i>PEP</i>)	Yes ⁸	Yes ⁸	14 days for cancellation ² 7 days for withdrawal

Cancellable Investment agreements			
ISA or PEP not mentioned in any row above	No	Yes ⁷	7 days
Units in an AUT or ICVC (outside an ISA or PEP)	Yes	No	14 days ²
EIS	No	Yes ⁷	7 days

Notes:

- For a *pension annuity* or *pension transfer* (and a relevant variation), the *firm* can, in certain circumstances, choose to operate a pre-sale right to withdraw in COB 6.7.19R – known also as the ‘cancellation substitute’ – rather than a post-sale right to cancel (see COB 6.7.14R(2)).
- Assuming the terms of the *firm’s* contract do not give the *customer* a longer period (see COB 6.7.11R).
- 14 days for an APP which is a *pension contract* / 14–30 days for an APP which is a *pension policy*.
- The period is at least 14 days if the cancellation substitute is operated.
- 14–30 days for an SHP which is a *life policy*; 14 days for other SHPs.
- The cancellation period depends on the nature of the existing agreement.
- There is no right to withdraw for a second or subsequent *EIS* or *ISA*, or (for an *EIS* or non-packaged product *ISA* or *PEP*) where the *firm* has previously disclosed to the *customer* that no such rights will apply.
- For *units* in an *AUT* or *ICVC* (within an *ISA* or *PEP*), the *firm* can choose to offer a pre-sale right to withdraw rather than a post-sale right to cancel (see COB 6.7.14R(1)). There is no right to cancel or withdraw for a second or subsequent *ISA*.

Purpose

6.7.6

G

/1

■ COB 6.7 reinforces *Principle 6* (Customers’ interests), which requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. In certain circumstances, *customers* who are entering into an *investment agreement* will be entitled to a period of reflection during which they can decide whether to proceed with their purchase.

Right to cancel

6.7.7

R

/1

A *customer*, who is an individual, has a right to cancel:

- (1) an *investment agreement* specified in column 1 of ■ COB 6.7.15 or ■ COB 6.7.17, unless the right to cancel is disapplied or replaced by anything in column 2 of ■ COB 6.7.15 or ■ COB 6.7.17;
- (2) an *investment agreement* for a *stakeholder pension scheme* for which a right to cancel applies under ■ COB 6.7.12;
- (3) an *investment agreement* for a *cash deposit ISA* in accordance with ■ COB 6.7.20;

(4) a variation of a *life policy*, *pension contract* or *stakeholder pension scheme* for which a right to cancel applies under ■ COB 6.7.23.

6.7.8 **R** /1 The trustees of an *occupational pension scheme* or the trustees and managers of a *stakeholder pension scheme* must be treated so far as necessary as an individual *customer* for the purposes of the *cancellation rules*, and acquire the same right to cancel as an individual *customer*.

6.7.9 **G** /1 (1) ■ COB 6.7.8 applies when trustees purchase *life policies* or *schemes* as *investments* of their *pension schemes*. Individual members of *stakeholder pension schemes* have a right to cancel initial membership of the scheme and, in some circumstances, a subsequent variation of their contributions.

(2) A *product provider* or operator of a *stakeholder pension scheme* (see ■ COB 6.7.2) may be unsure whether any of the situations in column 2 of ■ COB 6.7.17 applies to the agreement in question. In such circumstances the *product provider* or operator of a *stakeholder pension scheme* may find it convenient to contract with an intermediary for the provision of documentary evidence needed to confirm the status of *customers*. However, the responsibility for ensuring compliance with the *cancellation rules* remains with the *product provider* or operator of a *stakeholder pension scheme*.

6.7.10 **R** /1 When a *customer* has a right to cancel under ■ COB 6.7.7(1), (2) or (4), that right must (unless ■ COB 6.7.11 applies) be exercised:

- (1) (in the case of a *life policy*) within the shorter of:
- (a) 30 days; or
 - (b) the period (of 14 days or more) specified by the *firm*;
- from the date when the *customer* received a *post-sale notice* from the *firm*;
- (2) (in any other case) within 14 days from the date when the *customer* received a *post-sale notice* from the *firm*.

6.7.11 **R** /1 Where the terms of the *firm's* contract give the *customer* a longer period to cancel (that is, in excess of the 14 or 30 days specified), the *firm* must disclose in the *post-sale notice* the differences between the *customer's* rights under ■ COB 6.7.10 and the terms of the contract, which operate independently.

Right to cancel a stakeholder pension scheme

6.7.12 **R** /1 (1) A *customer*, who is an individual, and who has entered into an *investment agreement* for a *stakeholder pension scheme* has a right to cancel.

- (2) When the *customer* has entered into an *investment agreement* for a *stakeholder pension scheme* involving recurring contributions to that *stakeholder pension scheme*, only the first contribution will attract a right to cancel provided that:
- (a) the intention or option to make regular contributions has been disclosed in advance of the *customer* entering into the *investment agreement*; and
 - (b) the *customer's* intention to make regular contributions is evidenced.

6.7.13

G
/1

For the purposes of ■ COB 6.7.12(2)(a), disclosure of the option to make regular contributions may, for example, take place in *key features*. For the purposes of ■ COB 6.7.12(2)(b), an individual *customer's* intention to make regular contributions could, for example, be demonstrated by the establishment of a direct debit mandate or instructions to an employer to deduct regular contributions from salary.

Right to withdraw

6.7.14

R
/1

A *customer*, who is an individual, has a right to withdraw an offer to enter into:

- (1) (unless a right to cancel is offered for an *ISA* or *PEP* under ■ COB 6.7.15, ■ COB 6.7.17 or ■ COB 6.7.20 and subject to cases 8 and 9 of column 2 ■ COB 6.7.17) an *EIS*, *ISA* or a *PEP*, following *advice on investments*; the right to withdraw procedures are that the offer made by the *customer* to enter into the agreement cannot be accepted by the *firm* until at least seven days after the offer is made; or
- (2) a *pension annuity* or a *pension transfer* (or a relevant variation), if a right to cancel has been replaced by a right to withdraw under case 4(a) or 7(a) of column 2, ■ COB 6.7.15, case 12 of column 2, ■ COB 6.7.17 or ■ COB 6.7.23(3); the right to withdraw procedures are set out in ■ COB 6.7.19.

6.7.15

Table Cancellable investment agreements – life
This table belongs to ■ COB 6.7.7(1).

Cancellable investment agreements – life	
Investment agreements for a long-term insurance contract for which an individual customer has:	
Column 1	Column 2
<p>a right to cancel under COB 6.7.7R(1) (subject to column 2)</p> <p>A. Life policy (whether or not held within an ISA – see notes 1, 2 and 3 in COB 6.7.16R) (see COB 6.7.23R regarding variation of an existing life policy).</p> <p>B. Appropriate personal pension which is a pension policy.</p> <p>C. Pure protection contract.</p>	<p>no right to cancel where any one or more of the following cases applies</p> <ol style="list-style-type: none"> 1. Pension fund management policy. 2. Life policy that relates to or is associated with securing benefits under a defined benefits pension scheme. 3. Any life policy for a term of six months or less (unless note 3 in COB 6.7.16R applies). 4. Pension policy funded (wholly or in part) from payments derived from: <ol style="list-style-type: none"> (a) a pension transfer, for which the right to cancel is replaced by the right to withdraw (see COB 6.7.14R(2)), using the cancellation substitute in COB 6.7.19R; or (b) compensation or redress paid by a firm following a review undertaken in relation to a complaint. 5. Traded life policy. 6. Life policy effected by the trustees of an occupational pension scheme or the employer, or the manager or trustees of a stakeholder pension scheme that represents a: <ol style="list-style-type: none"> (a) pension buy-out contract; or (b) purchase of a without-profits deferred pension annuity; or

Cancellable investment agreements – life	
Investment agreements for a long-term insurance contract for which an individual customer has:	
Column 1	Column 2
	<p>(c) <i>defined benefits pension scheme</i> or a <i>single premium payment to any occupational pension scheme with a pooled fund</i> (that is, underlying <i>investments</i> are not earmarked for individual scheme members); or</p> <p>(d) purchase made to insure and secure members' pension benefits under a <i>money-purchase occupational scheme</i> or <i>stakeholder pension scheme</i> (unless it is the master, first or only <i>policy</i>).</p> <p>7. <i>Pension annuity</i> that is:</p> <p>(a) due to commence within a year and a day of the contract, for which the right to cancel is replaced by the right to withdraw (see <i>COB 6.7.14R(2)</i>), using the cancellation substitute in <i>COB 6.7.19R</i>; or</p> <p>(b) funded (wholly or in part) from compensation or redress paid by a <i>firm</i> following a review undertaken in relation to a complaint.</p> <p>8. The <i>customer</i>, at the time he signs the application, is <i>habitually resident</i>:</p> <p>(a) in an <i>EEA State</i> other than the <i>United Kingdom</i> (see note 4 in <i>COB 6.7.16R</i>); or</p>

Cancellable investment agreements – life	
Investment agreements for a long-term insurance contract for which an individual customer has:	
Column 1	Column 2
	<p>(b) outside the <i>EEA</i> and is not present in the <i>United Kingdom</i>.</p> <p>9. <i>Pure protection contract</i> effected by the trustees of an <i>occupational pension scheme</i>, an employer or a <i>partnership</i> to secure benefits for employees or the <i>partners in the partnership</i>.</p>

6.7.16

R

Table Notes to cancellable investment agreements - life
This table belongs to ■ COB 6.7.15

/1

Notes to COB 6.7.15R:
<p>1. Recurring single premium life policy: Under certain conditions, only the first <i>premium</i> in what might be a series of <i>premiums</i> (for example, in the case of a <i>mini-ISA insurance component</i>) attracts cancellation rights under <i>COB 6.7.7R(1)</i>. The conditions are:</p> <p>(a) the option to make a series of single <i>premium</i> payments is disclosed at outset (for example, in <i>key features</i>); and</p> <p>(b) the intention is evidenced (for example, by the <i>customer</i> establishing a direct-debit mandate).</p> <p>2. Multiple agreements: Where a <i>customer</i> enters into a set of <i>investment agreements</i> at the same time (for example, the different components held within a <i>maxi-ISA</i> and with the same <i>firm</i> (or another <i>person</i> in the same <i>marketing group</i> as that <i>firm</i>)), and that set is being purchased to fulfil one investment objective of the <i>customer</i>, the <i>firm</i> may treat the multiple agreements as being one agreement for the purposes of <i>COB 6.7</i>. But if it does so, the <i>firm</i> must ensure that the <i>customer</i> retains a right to cancel each <i>investment agreement</i> separately. See also <i>COB 6.7.37R</i> in relation to a <i>maxi-ISA</i>. This note applies also to a group of <i>contracts of insurance</i>, for example, <i>term assurance</i> contracts which have been established as part of a specific marketing arrangement. Such an arrangement may not have an investment objective.</p> <p>3. A purchaser of a single premium pension policy has a right to cancel where the designated retirement date is within six months of the date of the policy, unless the <i>policy</i> falls within case 1, 4 or 7(b) of column 2.</p> <p>4. For a <i>customer habitually resident</i> in an <i>EEA State</i> other than the <i>United Kingdom</i>, <i>firms</i> are reminded that they may need to apply cancellation in accordance with the requirements in that <i>EEA State</i>.</p>

Table Cancellable investment agreements – non-life
This table belongs to ■ COB 6.7.7(1) and ■ COB 6.7.14(1)

/1

Cancellable investment agreements – non-life	
Investment agreements for which an individual customer has:	
Column 1	Column 2
<p>a right to cancel under <i>COB 6.7.7R(1)</i> (subject to column 2).</p> <p>A. <i>Pension contract</i> (see notes 1, 2 and 4 in <i>COB 6.7.18R</i>).</p> <p>B. <i>Appropriate personal pension which is a pension contract</i> (see note 4 in <i>COB 6.7.18R</i>).</p> <p>C. Subscriptions (see notes 1 and 2 in <i>COB 6.7.18R</i>) which can be invested only in <i>units</i> (whether or not held within an <i>ISA</i>, <i>PEP</i> or <i>pension contract</i>) in an <i>AUT</i> or <i>ICVC</i> purchased from the:</p> <p>(a) <i>operator</i>; or</p> <p>(b) <i>its marketing group associate acting as an ISA manager or plan manager</i>.</p>	<p>no right to cancel where any one or more of the following cases applies</p> <ol style="list-style-type: none"> 1. The <i>customer</i> is not a <i>private customer</i>. 2. The agreement is entered into with the <i>firm</i> (and where relevant with any <i>independent intermediary</i>) as an <i>execution-only transaction</i> (unless note 4 in <i>COB 6.7.18R</i> applies). 3. The agreement is entered into through a <i>direct offer financial promotion</i> (unless note 4 in <i>COB 6.7.18R</i> applies). 4. The agreement represents an exchange of <i>units</i> between <i>sub-funds</i>. 5. The agreement represents a <i>defined benefits pension scheme</i>. 6. The agreement is entered into under a <i>customer agreement</i> or during negotiations (which are not <i>ISA</i> or <i>PEP</i> related) intended to lead to a <i>client agreement</i> (unless note 4 in <i>COB 6.7.18R</i> applies). 7. The agreement relates to an <i>ISA</i> or <i>PEP</i> for which the right to cancel is replaced by the right to withdraw (see <i>COB 6.7.14R(1)</i>).

Cancellable investment agreements – non-life	
Investment agreements for which an individual customer has:	
Column 1	Column 2
	<p>8. The agreement relates to an <i>EIS</i> or <i>non-packaged product ISA</i> or <i>PEP</i> and is entered into, following <i>advice on investments</i>, and following an explanation, given to the <i>customer</i> in accordance with <i>COB 3.9.21R(2)</i> (Direct offer financial promotions: Cancellation rights) or <i>COB 4.2.14E(10)</i> (Terms of business and client agreements with customers) in a <i>direct offer financial promotion, terms of business</i>, or given in <i>EIS particulars</i>, that neither of the rights specified in case 7 will apply.</p> <p>9. The agreement entered into is a second or subsequent <i>ISA</i> (or <i>EIS</i>) on substantially the same terms (see note 3 in <i>COB 6.7.18R</i>) as an <i>ISA</i> (or <i>EIS</i>) purchased from the same <i>ISA manager</i> (or <i>EIS manager</i>) in the previous tax year.</p> <p>10. The agreement relates to a change from <i>accumulation units</i> to <i>income units</i> or vice versa, in the same <i>scheme</i>.</p> <p>11. <i>Pension contract</i> funded (wholly or in part) from payments derived from compensation or redress paid by a <i>firm</i> following a review undertaken in relation to a complaint.</p> <p>12. <i>Pension contract</i> funded (wholly or in part) from payments derived from a <i>pension transfer</i> for which a right to cancel is replaced by a right to withdraw) (see <i>COB 6.7.14(2)R</i> using the cancellation substitute in <i>COB 6.7.19R</i>.</p>

Cancellable investment agreements – non-life	
Investment agreements for which an individual customer has:	
Column 1	Column 2
	<p>13.The agreement relates to a <i>recognised collective investment scheme</i> and the agreement is with an <i>operator</i> who is not:</p> <ul style="list-style-type: none"> (a) an <i>authorised person</i>; or (b) carrying on business in the <i>United Kingdom</i>. <p>14.The agreement relates or would relate to exported products, that is to say:</p> <ul style="list-style-type: none"> (a) where the <i>customer</i> is not <i>habitually resident</i> in the <i>United Kingdom</i> at the date of the offer of the agreement; or (b) the <i>firm</i> has reasonable grounds for assuming that no <i>advice on investments</i> about the agreement was provided by anyone carrying on <i>designated investment business</i> in the <i>United Kingdom</i>.

6.7.18

R
/1

Table Notes to cancellable investment agreements - non-life
This table belongs to ■ COB 6.7.17

Notes to COB 6.7.17R:
<p>1. Recurring single payment <i>pension contracts</i> and <i>unit savings plans</i>. Under certain conditions, only the first payment in what might be a series of payments attracts cancellation rights under <i>COB 6.7.7R(1)</i>. The conditions are:</p> <ul style="list-style-type: none"> (a) the intention or option to make a series of single payments is disclosed at outset (for example, in <i>key features</i>); and (b) the intention is evidenced (for example, by the <i>customer</i> establishing a direct debit mandate). <p>2. Multiple agreements. Where a <i>customer</i> enters into a set of investment agreements at the same time (for example, regarding different components held within a <i>maxi-ISA</i>) and with the same <i>firm</i> (or another <i>person</i> in the same <i>marketing group</i> as that <i>firm</i>) and that set is being purchased to fulfil one investment objective of the <i>customer</i>, the <i>firm</i> may treat the agreements as being one agreement for the purposes of <i>COB 6.7</i>. But if it does so, the <i>firm</i> must ensure that the <i>customer</i> has a right to cancel each <i>investment agreement</i> separately (see also <i>COB 6.7.37R</i> in relation to <i>maxi-ISA</i>).</p>

Notes to COB 6.7.17R:

3. For example, *mini-* to *mini-ISA* or *maxi-* to *maxi-ISA* would be regarded in this context as ‘on substantially the same terms’.
4. A *customer* has a right to cancel an *appropriate personal pension* or *pension contract* at the outset and on any subsequent agreement for a variation of a *pension contract* (see COB 6.7.23R regarding variation of an existing contract).

6.7.19

R
/1

Table Cancellation substitute.
This table belongs to ■ COB 6.7.14(2), cases 4(a) and 7(a) of column 2 to ■ COB 6.7.15 and case 12 of column 2 to ■ COB 6.7.17.

Cancellation substitute

The *customer’s* right to cancel under COB 6.7.7R(1) or (4) is replaced by the right to withdraw only if:

1. the *firm* has supplied (or has reasonably relied upon another *firm* to supply) to the *customer*, at least 14 days before the contract is concluded, a written notice (see note 1) which prominently states:
 - (a) that the *customer* has a period of at least 14 days within which to consider his pension options;
 - (b) the dates at which the period begins and ends (which must be, in the case of a *pension transfer*, before the transfer has been irrevocably effected);
 - (c) the pension options available (for example, the *open-market option* in relation to a *pension annuity*);
 - (d) the steps the *customer* must take in order to exercise a particular pension option;
 - (e) that the *customer* is entitled to *key features* and is advised to check with the *firm* if the *key features* have not been received;
 - (f) the cost of any advice given to the *customer* in relation to the transaction; and
2. the *firm* has taken sufficient steps (or has reasonably relied upon the same *firm* as in 1. to take those steps) to ensure that the *customer* has been informed and made fully aware of the potential advantages and disadvantages of proceeding and has had an opportunity to consider all other possible alternatives.

Note:

1. The notice must be issued separately or feature prominently as part of the application form, *suitability letter* or *key features* supplied to the *customer*.

6.7.20

R
/1

Table Cancellation – cash deposit ISA
This table belongs to ■ COB 6.7.7(3)

Cancellation – cash deposit ISA

The *firm* must supply (or may reasonably rely upon another *firm* to supply) to the *customer* before the account is opened, a written notice (see note 1) which prominently states:

- A. that the *customer* has a 14 day period within which to consider whether or not to keep the account open;
- B. the dates at which the 14 day period begins and ends (see note 2);
- C. the options available (see note 3);
- D. how cancellation will operate in circumstances where the account forms part of a *maxi-ISA* which contains other components (see *COB 6.7.37R*);
- E. the steps the *customer* must take to communicate any decision not to proceed with the account (see *COB 6.7.42R* to *6.7.46G*); and
- F. that a *customer* who exercises a right to cancel will not incur any additional charges or be affected by any notice period.

Notes:

- 1. The notice must be issued separately or feature prominently as part of the minimum information or *key features* supplied to the *customer*.
- 2. Unless the *firm* has specified a longer period to the *customer*, the minimum expiry date is the end of the fifteenth day from the date the account was opened.
- 3. A *firm* must either assist the *customer* in switching accounts or re-fund all monies deposited together with interest.

Voluntary provisions

- 6.7.21 **R**
/1 If anything in column 2 of either ■ *COB 6.7.15* or ■ *COB 6.7.17* removes the right to cancel an *investment agreement*, but a *firm* voluntarily gives the *customer* a right to cancel in any event, the *firm* must treat the agreement as if it were cancellable under ■ *COB 6.7.7(1)*.
- 6.7.22 **G**
/1
 - (1) If the *firm* has any doubt whether the *investment agreement* or the circumstances of its purchase bring the case within any part of ■ *COB 6.7.7(1)*, it should treat the agreement as if it were cancellable.
 - (2) A *firm* that sends a *pre-sale notice* or *post-sale notice* where it is not obliged to do so under ■ *COB 6.7.30* will be taken to have voluntarily granted the *customer* a right to cancel (unless, for the purposes of ■ *COB 6.7.17*, there is a relevant *client agreement* between the *firm* and the *customer*).

Variations

- 6.7.23 **R**
/1 (1) After an increase in regular or single *premiums* or payments (including a *pension transfer*) to a *life policy*, *pension contract* or

stakeholder pension scheme, a *customer*, who is an individual, has a right to cancel (see ■ COB 6.7.7(4)) in the following circumstances unless (2) applies:

- (a) any variation, other than a ‘pre-selected option’ (see ■ COB 6.7.26), providing for substantial increases in *premium* or payment where the increase:
 - (i) is being paid by way of varying the existing agreement; or
 - (ii) will result in a new agreement established on the same terms as the original agreement;

and, in each case, represents an increase on the original *premium* or payments (or the previous highest agreed *premium* or payment) of more than 25% (see ■ COB 6.7.25); or

- (b) any variation, other than a ‘pre-selected option’ (see ■ COB 6.7.26), that results in a new agreement which involves fresh contract terms or imposes additional obligations on the *customer* due to a change in the terms of the original agreement;
 - (c) any variation where the increase represents the proceeds of a *pension transfer*.
- (2) Paragraph (1) does not apply if:
- (a) there would have been no right to cancel the original *investment agreement* under ■ COB 6.7.7(1) had that agreement been entered into on the date of the variation; or
 - (b) the variation arises out of the settlement of a claim for damages or compensation connected with a previous *investment agreement*.

- (3) A *firm* may use the cancellation substitute in ■ COB 6.7.19 in relation to a variation of an *investment agreement* in any case where that substitute would have been available to it had the agreement been entered into on the date of the variation.

6.7.24

G
/1

For the avoidance of doubt, a right to cancel in relation to ■ COB 6.7.23(1) applies to the variation and not the original contract.

6.7.25

G
/1

In the case of ■ COB 6.7.23(1)(a) and (b), there is no right to cancel where the variation results in an increase in *premium* or payment of 25% or less. For example, if the first *premium* paid by the *customer* (to the same *policy*) was £1,000, the second was £500, and the third was £900, the *customer* would have no right to cancel in relation to the third *premium*. Although £900 is more than 25% greater than £500, it is still below the original *premium* of £1,000. In this case, therefore, the right to cancel would only arise in circumstances where the *premium* was increased to over £1,250 (this being more than 25% of the original *premium*).

6.7.26 G /1 ■ COB 6.7.23(1)(a) and (b) do not apply where the increase results from a ‘pre-selected option’. Increases of this type (for example, index-linked *premiums* or pension contributions that increase or decrease as salary fluctuates) will have been previously disclosed (for example, in the *key features* or ‘terms and conditions’) and agreed with the *customer* at the outset. Any subsequent increases of 25% or more resulting from a ‘pre-selected option’ will not, therefore, attract fresh disclosure or cancellation rights.

Electronic communication relating to cancellation and withdrawal

6.7.27 G /1 For electronic transactions (for example, facsimile, e-mail or Internet) *firms* are referred to the *guidance* in ■ COB 1.8. The *rules* in ■ COB 6.7 permit the *firm* to issue the *pre-sale* or *post-sale notices* and other communications, and to accept notice from *customers* who are exercising the right to cancel or withdraw, by electronic means. However, a *firm* should be able to demonstrate that the *customer* wishes to communicate electronically.

Time deadlines relating to cancellation and withdrawal

6.7.28 R /1 (1) The deadlines in ■ COB 6.7.10, item 1 of ■ COB 6.7.19, item A and note 2 of ■ COB 6.7.20, ■ COB 6.7.34(2) and ■ COB 6.7.48 are based on calendar days (excluding public holidays) and must be calculated by reference to the day after the date on which the agreement is concluded.

(2) In the event of any contingency beyond the *firm* or *customer’s* control which prevents delivery or service of the cancellation notice, the period in question must be counted as public holidays and therefore will not count for the purposes of the time delay.

6.7.29 G /1 For an example of the operation of ■ COB 6.7.28(1), in the case of the eight-day deadline, the *post-sale notice* for an agreement concluded on Wednesday would need to be sent by the *firm* no later than Thursday of the following week.

Giving the customer notice of the right to cancel

6.7.30 R /1 Where there is a right to cancel, under ■ COB 6.7.7(1), (2) or (4), the *firm* which enters into the agreement with the *customer* (also see ■ COB 6.7.31) must give the *customer*, in writing, clear and prominent notice of this right:

- (1) before the agreement is concluded (a ‘*pre-sale notice*’); and
- (2) after the agreement has been concluded (a ‘*post-sale notice*’).

6.7.31 R /1 When the *customer* is a trustee who is reasonably believed by the *firm* to be expected to act on the instructions of the individual beneficiary or purchaser of the *policy* or contract, the *firm* must send a copy of the *post-sale notice* to:

- (1) the trustee; and
- (2) the beneficiary or purchaser;

and must inform the beneficiary or purchaser of the need to give instructions, within the specified cancellation period, to the trustee where the right to cancel is to be exercised.

Pre-sale notices

6.7.32 **R** ^{/1} A *pre-sale notice* must contain at least a summary of the information required in a *post-sale notice*.

6.7.33 **G** ^{/1} The following is an example of the type of summary statement which *firms* could use: ‘You will be able to cancel your [investment]/[contract] during a two-week period after concluding the agreement and receive a refund [in full / less a deduction for shortfall to reflect any fall in the markets in the interim]. You will be told of this right in more detail (including when it begins and ends, and how to exercise it) in documents that we will send you at the relevant time.’

Post-sale notices: general

6.7.34 **R** ^{/1} A *post-sale notice* must be:

- (1) in writing;
- (2) given to the *customer*:
 - (a) (for any *investment agreement* specified in Part II of **■ COB 6.7.57** to which *shortfall* applies), no later than the end of the eighth day; and
 - (b) (in any other case specified in **■ COB 6.7.7**), no later than the end of the fourteenth day;

after the agreement is concluded;
- (3) sufficiently clear, prominent (see **■ COB 6.7.39**) and informative to enable the *customer* to exercise the right to cancel; and
- (4) accompanied by a slip or form (or an electronic equivalent) to enable the *customer* to exercise a right to cancel.

Post-sale notices: method of sending

6.7.35 **R** ^{/1} A *post-sale notice* must be sent by *post*, or electronically, except in the case of an *industrial assurance policy*, when it may, instead, be given to the *customer* by hand.

Post-sale notices: content

6.7.36

R

A *post-sale notice* must state:

/1

- (1) that there is an agreement between the *customer* and the *firm*;
- (2) that there is a right to cancel the agreement;
- (3) the duration of the right to cancel and the date at which the right begins and ends;
- (4) the steps the *customer* must take to cancel the agreement;
- (5) the consequences of cancelling the agreement, including a prominent statement of any *shortfall* (see ■ COB 6.7.54) which the *customer* will have to bear;
- (6) (as a prominent reminder) that the *customer* is entitled to *key features* and is advised to check with the *firm* if the *key features* have not been received (except in the case of *pure protection contracts*); and
- (7) that the *customer's* right to cancel will remain unaffected if any contingency beyond the *customer's* control arises which makes it impracticable for the *customer* to communicate his wish to cancel (see ■ COB 6.7.28).

Post-sale notices: ISAs

6.7.37

R

In the case of *ISAs*, a *firm* must ensure that the slip or form in ■ COB 6.7.34(4) will enable the *customer* to indicate whether the entire *ISA* agreement is to be cancelled or just a particular component or product.

/1

6.7.38

G

For example, in the case of a *maxi-ISA*, the *customer*:

/1

- (1) has to be able to cancel at the component (or underlying product) level and is not compelled to cancel other components (or products);
- (2) needs to know that the effect of cancelling the last component has the effect of cancelling the entire *ISA* agreement and may also (where it is the case) delay the *customer* from entering into another *ISA* agreement until the next tax year.

Prominence of post-sale notice

6.7.39

R

To comply with ■ COB 6.7.34(3), where the *post-sale notice* forms part of another document or is one of a number of documents sent to the *customer* at the same time, a *firm* must ensure that the presence of the *post-sale notice* is drawn to the *customer's* attention (see ■ COB 6.7.40).

/1

- 6.7.40 **G**
/1 Where the *post-sale notice* forms part of a brochure or is included in a pack of documents, the front of the brochure or pack should prominently feature words such as: ‘IMPORTANT: information about your right to cancel this agreement is enclosed’.

Failure to send post-sale notice

- 6.7.41 **R**
/1 If a *firm* does not send a *post-sale notice* when required by these *rules*, the *customer* can cancel the agreement at any time within two years of the agreement and will not be liable for any *shortfall* (see ■ COB 6.7.56(3)).

Exercising the right to cancel

- 6.7.42 **R**
/1 A *customer* who has a right to cancel under ■ COB 6.7.7 may cancel the agreement by serving notice upon the *firm*.

- 6.7.43 **R**
/1 Notice of cancellation is valid if sent by *post* or in any other manner that the *firm* has told the *customer* is acceptable.

Valid notice of cancellation

- 6.7.44 **R**
/1 (1) A notice of cancellation is valid when it is served on the *firm*, its *appointed representative* or on any agent of the *firm* with authority to accept notice on the *firm’s* behalf or otherwise sent.
- (2) A *firm* must treat any notice of cancellation sent by prepaid *post*, or otherwise sent, and valid in accordance with ■ COB 6.7.43 and ■ COB 6.7.44(1), as being served on the date it was *posted* or sent.

- 6.7.45 **G**
/1 The purpose of ■ COB 6.7.44 is to identify the relevant day for determining whether the right to cancel was exercised within the relevant period in ■ COB 6.7.10.

- 6.7.46 **G**
/1 In the event of any dispute, unless there is clear written evidence to the contrary, the *firm* should treat the date cited by the *customer* as being the date when the notice was *posted* or otherwise sent.

Record keeping

- 6.7.47 **R**
/1 Where notice of cancellation or withdrawal has been served on a *firm* (or its *appointed representative* or agent), the *firm* must make and retain records (which include a copy of any receipt of notice issued to the *customer* and the *customer’s* original notice instructions):

- (1) indefinitely in the case of a record relevant to a *pension transfer*, *pension opt-out* or *FSAVC*;

- (2) for a minimum period of:
- (a) six years in the case of a record relevant to a *life policy*, *pension contract* or *stakeholder pension scheme*; and
 - (b) three years in any other case;

and, in each case, the minimum time period runs from the date when the *firm* first became aware that notice of cancellation had been served.

Cancellation notices served out of time

6.7.48 **R** /1 If a *firm* has sent a *post-sale notice*, it need not (unless ■ COB 6.7.11 applies) accept notice of cancellation if it is served later than the period specified for that agreement in ■ COB 6.7.10.

Death of the life assured: cancellation of a pension annuity

6.7.49 **R** /1 A *firm* need not accept notice of cancellation of a *pension annuity* contract if the life (or any of the lives) assured under it has died before notice is given.

Joint policyholders: effecting cancellation of a life policy

6.7.50 **R** /1 In the case of a *life policy*, cancellation by one of several policyholders is valid if that policyholder has the right to cancel, irrespective of whether the policyholder is exercising that right alone or jointly on behalf of all of the policyholders.

Effects of cancellation

6.7.51 **R** /1 By exercising a right to cancel under ■ COB 6.7.7(1), (2) or (4), the *customer* withdraws from the *investment agreement* and:

- (1) the entire agreement; or
- (2) the particular *ISA* component (see ■ COB 6.7.37); or
- (3) the variation alone (see ■ COB 6.7.23(1));

is rescinded.

6.7.52 **R** /1 When a *customer* exercises a right to cancel under ■ COB 6.7.7(1), (2) or (4), the *firm* must pay to the *customer* (or, in the case of a *pension transfer* or *pension annuity*, for the benefit of the *customer*) any

sums which the *customer* has paid to or for the benefit of the *firm* in connection with the agreement (including sums paid by the *customer* to agents of the *firm*) and the *firm* is entitled to receive:

- (1) any property that became the *customer's* under the agreement; plus
- (2) any sum which the *firm* has paid under the agreement; plus
- (3) (subject to ■ COB 6.7.56) any *shortfall* due under ■ COB 6.7.54.

6.7.53 **R** Any sum payable under ■ COB 6.7.52 is owed as a simple contract debt, and any sums payable in respect of the same cancellation may where relevant be set off against each other.
/1

Shortfall

6.7.54 **R** If a *firm* has sent a *post-sale notice* that satisfies the *rules* in ■ COB 6.7 and the market falls during the cancellation period, subject to ■ COB 6.7.56, the *firm* is entitled under ■ COB 6.7.52(3) to charge the *customer* for the market loss (that is, *shortfall*), calculated in accordance with ■ COB 6.7.58, which the *firm* would incur in cancelling any investment agreement specified in ■ COB 6.7.57.
/1

Shortfall: worked example

6.7.55 **G** ■ COB 6.7.58 illustrates the process that *firms* need to undertake in order to discover the amount (that is, *shortfall*) by which the purchase price paid by the *customer* is greater than the purchase price prevailing when the *firm* becomes aware that the *customer* has cancelled. EXAMPLE: In the case of dual-priced *investments*, the *shortfall* on cancellation is calculated on an offer-to-offer basis; for example, 1,000 *units* are purchased at an offer *price* of 209.1p and the offer *price* is (or, in the case of a *forward price*, is subsequently ascertained to be) 196.2p as at the time when the *firm* became aware that notice of cancellation had been served by the *customer*. The *shortfall* on cancellation, therefore, is $(209.1 - 196.2) = (12.9p \times 1,000) = \text{£}129$.
/1

Exceptions to shortfall

6.7.56 **R** A *firm* will have no right to charge a *customer* for any *shortfall* which results from the *customer* having exercised a right to cancel in any of the following circumstances:
/1

- (1) if the *firm* sends the *pre-sale notice*, or the *post-sale notice*, later than required by the *rules* in ■ COB 6.7 (whether the notice is valid or not);

6.7.57

R

Table Investment agreements which are subject to shortfall.
This table belongs to ■ COB 6.7.54

/1

Investment agreements which are subject to shortfall	
Part I: any investment agreement specified in column 1 of COB 6.7.15R (unless note 1 applies):	
which is:	where the investment agreement is effected as a:
(1) a life policy	(a) single premium life policy; or
(2) a pension policy	(b) single premium pension policy; or
	(c) single premium addition to an existing single or regular premium life policy or pension policy.
Part II: any investment agreement specified in column 1 of COB 6.7.17R (unless note 2 applies):	
which is:	where the investment agreement is effected as:
(1) a pension contract	(a) a single payment arrangement; or
(2) a subscription to invest in an AUT	(b) a single payment addition to an existing single or regular payment pension contract or unit savings plan.
(3) a subscription to invest in an ICVC	
Part III: a single contribution to a stakeholder pension scheme except where the contribution is a recurring contribution or the stakeholder pension scheme has been established at the outset on the basis of regular contributions.	
Notes:	
Shortfall does not apply to any investment agreement which is established at the outset:	
1. on a regular premium basis, or as a recurring single premium life policy or pension policy;	
2. on a regular payment basis, or as a recurring single payment pension contract or unit savings plan.	

6.7.58

R

Table Calculation of shortfall.
This table belongs to ■ COB 6.7.54

/1

Calculation of shortfall

A *firm* must calculate *shortfall* as at the ‘relevant date’ (see note 1) as follows:

- A. take the actual payment made, whether only or first payment (see note 2);
- B. take the equivalent payment that would have been quoted (see notes 3, 4 and 5) to the same *customer* assuming an identical purchase was made at the ‘relevant date’;
- C. add to the figure at B the amount of any income included in the figure at A (but originally excluded from the figure at B for the purposes of distribution to *customers*); and
- D. deduct the figure at B (as amended by C) from the figure at A; if the resultant figure is zero or negative, there is no *shortfall*.

Notes:

1. The ‘relevant date’ is the date when the *firm* first became aware that notice of cancellation had been served upon it.
2. If the agreement is a variation of a previous agreement (see *COB* 6.7.23R), the *firm* must treat the increase in *premium* as the sum in A.
3. If details of the payments necessary to calculate B (for example, *premium* rates, investment prices or yields etc) are not publicly available (see note 6) at the ‘relevant date’, there is no *shortfall*.
4. If the agreement relates to a *life policy* or *pension annuity* on the life of another, the *firm* must treat the first life assured as the *customer* for the comparison in B.
5. Where the change is yield and not *premium* or price, in order to calculate B the *firm* must convert the change in yield (if an enhancement) into a change in *premium* or price.
6. In the case of a *forward price*, the requirement of public availability is satisfied if both the previous and next relevant prices are published in a national *UK* newspaper).

6.8 Insurance contracts: life and general

Application

6.8.1

R

/1

■ COB 6.8 applies to a *firm* which effects or carries out pure protection contracts or general insurance contracts.

Purpose

6.8.2

G

/1

- (1) *Principle 7* (Communications with clients) requires a *firm* to pay due regard to the information needs of its *customers*. This section reinforces *Principle 7* by requiring certain information to be provided to a *customer* before a *pure protection contract* or *general insurance contract* is entered into. Certain information must also be provided on an ongoing basis to a *customer* with a *pure protection contract*.
- (2) This section implements certain requirements of the *Third Life and Non-Life Directives*.
- (3) For *general insurance contracts*, *firms* may find it helpful to take account of the GISC code for private customers. The provisions in this section relating to *general insurance contracts* are not intended to exceed the requirements of that code.

Pure protection contracts: Information to be provided before the contract is made.

6.8.3

R

/1

A *firm* must ensure that, before entering into a *pure protection contract* with a *customer*, it provides the *customer* with the information specified in ■ COB 6.8.5, unless, at the time of application, the *customer* is *habitually resident*:

- (1) in an *EEA State* other than the *United Kingdom*; or
- (2) outside the *EEA* and he is not present in the *United Kingdom*.

6.8.4

R

/1

The information required by ■ COB 6.8.3 must be:

- (1) provided to the *customer* either by the *firm* itself or by an intermediary authorised by the *firm* to act on its behalf; and

(2) in English, unless the *customer* requests it to be, and the *firm* agrees to it being, in another language.

6.8.5

R
/1

Table Provision of information for pure protection contracts
This table belongs to ■ COB 6.8.3

Provision of information for pure protection contracts	
(1)	The name and legal form of the <i>firm</i> ;
(2)	the <i>firm's Home State</i> and, where appropriate, the <i>EEA State</i> of the branch through which the contract is to be entered into;
(3)	the address of the <i>firm's</i> head office (and branch, if appropriate);
(4)	a definition of each benefit and option;
(5)	the term of the contract and the means by which it may be terminated;
(6)	the method of paying <i>premiums</i> and the duration of the payments;
(7)	the method of calculating bonuses and the distribution of bonuses (if relevant);
(8)	an indication of <i>surrender value</i> and paid-up value and the extent to which such values are guaranteed (if relevant);
(9)	an indication of the <i>premium</i> for each benefit, whether a main or supplementary benefit;
(10)	in the case of a unit-linked contract, a definition of the units to which benefits are linked and an indication of the nature of the underlying assets;
(11)	the arrangements with respect to the period within which the <i>customer</i> may cancel the contract, as required by COB 6.7;
(12)	the tax arrangements which apply to the contract;
(13)	the arrangements for handling complaints about the contract, whether by the policyholder or by a life assured or beneficiary under the contract;
(14)	any arrangements for providing compensation should the <i>firm</i> be unable to meet its liabilities under the contract;
(15)	a statement whether the <i>firm</i> or <i>customer</i> is entitled to choose the law applicable to the contract and: <ul style="list-style-type: none"> (a) if so, the law which the <i>firm</i> proposes to choose; or (b) if not, the law which will apply.

Pure protection contracts: Information to be provided during the term of the contract

6.8.6

R
/1

■ COB 6.8.7 and ■ COB 6.8.8 apply to a *long-term insurer* if the policyholder is in the *United Kingdom* at the time of signing the application for the *pure protection contract*.

- 6.8.7 **R** /1 If during the term of a *pure protection contract* entered into on or after 1 July 1994 there is any proposed change in the information provided under ■ COB 6.8.5 items (1) to (10), the *long-term insurer* must inform the policyholder of the effect of the change before the change is made.
- 6.8.8 **R** /1 If a *pure protection contract* entered into on or after 1 July 1994 provides for the payment of bonuses and the amounts of bonus are unspecified, the *long-term insurer* must, at least once a year coincident with or immediately following the first contract anniversary, either:
- (1) notify the policyholder of the amount of any bonus which has become payable under the contract, and which has not previously been notified under this rule; or
 - (2) give the policyholder sufficient information to enable him to determine the amount of any such bonus.
- 6.8.9 **G** /1 The information under ■ COB 6.8.8(2) could include the total value of the benefits (including bonuses) which have accrued under the contract, the rates of bonus which have been declared since the previous notification or provision of information and a note of the benefits to which those new rates should be applied.
- 6.8.10 **G** /1 Although ■ COB 6.8.8 does not apply to a bonus if the amount is specified in the contract, *long-term insurers* are free to provide the information if they wish.
- General insurance contracts: Information required to be provided before the contract is made**
-
- 6.8.11 **G** /1 ■ COB 6.8.12 and ■ COB 6.8.13 cover information to be provided before the sale of a *general insurance contract*. They contain no requirements for information during the term of the contract.
- 6.8.12 **R** /1 Before entering into a *general insurance contract* with a *customer*, covering a risk situated in the *United Kingdom*, a *firm* must, subject to ■ COB 6.8.13 provide the *customer* with:
- (1) details of its complaints procedure;
 - (2) a statement whether the *firm* or *customer* is entitled to choose the law applicable to the contract and, if so, the law which the *firm* proposes to choose.
- 6.8.13 **R** /1 ■ COB 6.8.12 does not apply if the contract has been submitted to the *firm* on behalf of a *customer* by an intermediary and:
- (1) the intermediary is a member of the General Insurance Standards Council; or
 - (2) the *firm* has taken reasonable steps to determine that the intermediary has provided the information required by ■ COB 6.8.12.

- 6.8.14** G_{/1} Situations for information delivery will differ depending on the channels used. For example, leaflets will be sufficient at point of sale. For telephone sales the information may be given orally but then must be followed up in writing within five *business days* (see ■ COB 6.8.15(2)).

Provision of information

- 6.8.15** R_{/1} (1) When a *firm* provides information in accordance with ■ COB 6.8.3, ■ COB 6.8.7, ■ COB 6.8.8 or ■ COB 6.8.12, it must provide the information in writing, unless (2) applies.
- (2) If the contract is being made by telephone, the *firm* may give the information orally to the *customer*. If the *customer* has committed to the contract, a written version of the required information must be sent to the *customer* within five *business days* of the oral explanation.

- 6.8.16** G_{/1} In relation to electronic notification, *firms* are referred to the *guidance* in ■ COB 1.8.

- 6.8.17** R_{/1} Where a *pure protection contract* or *general insurance contract* is effected jointly, the information required by ■ COB 6.8.3, ■ COB 6.8.7, ■ COB 6.8.8, or ■ COB 6.8.12 may be sent to the first named *customer*.

Record keeping

- 6.8.18** R_{/1} A *firm* must make an adequate record of information provided to a *customer* under ■ COB 6.8 and retain that record for a minimum period after the information is provided of:
- (1) six years in the case of a *pure protection contract*; or
- (2) three years in the case of a *general insurance contract*.

6.9 With-profits guides

Application

6.9.1

R

/1

This section applies to a *long-term insurer* which issues with-profits *life policies* and which is:

- (1) a *long-term insurer* other than a *friendly society*; or
- (2) a *directive friendly society* that is carrying on *long-term insurance business* other than just in relation to *industrial assurance policies*; or
- (3) a *friendly society* which issues *Holloway sickness policies* if details of the funds' expenses and asset distribution are not published elsewhere at least annually.

Purpose

6.9.2

G

/1

This section is relevant to a *firm's* obligations under *Principle 7* (Communications with clients) which requires a *firm* to pay due regard to the information needs of its *customers*, and communicate with them in a way which is clear, fair and not misleading. In the case of with-profits *life policies*, it is desirable for *customers* and their advisers to have additional information available to them in order to enable them to understand how the *long-term insurer* is likely to take decisions concerning the distribution of profits and the declaration of bonuses.

With-profits guides

6.9.3

R

/1

A *firm* must produce a with-profits guide in accordance with **■ COB 6.9.4** and make it available in accordance with **■ COB 6.9.5**.

6.9.4

R

/1

A *firm* must:

- (1) not later than six months after its financial year end, produce a separate and self-contained guide for each with-profits fund that it maintains, unless the fund is closed to new policyholders;

- (2) issue a revised guide or a supplement to the guide as soon as reasonably practicable after a change in the circumstances of or affecting the with-profits fund which would cause the guide to become misleading or incomplete;
- (3) ensure that each guide is consistent with the information contained in the annual prudential regulatory returns; and
- (4) ensure that each guide contains the information specified in ■ COB 6.9.6.

6.9.5

R
/1

- (1) If asked to supply a copy of a with-profits guide for a fund that it maintains, a *firm* must do so free of charge.
- (2) The guide supplied in accordance with (1) must be the latest version unless a specific earlier version is requested.

Content of with-profits guides

6.9.6

R
/1

A with-profits guide must contain the headings, tables and information prescribed in ■ COB 6.9.7 and:

- (1) the lettered sections and the tables in those sections must appear in the order set out in ■ COB 6.9.7 but the information required within each lettered section may be provided in a different order;
- (2) the text prescribed by ■ COB 6.9.7 must be used, but:
 - (a) any text in brackets must be replaced by appropriate text applicable to the *firm* and with-profits fund to which the guide relates; and
 - (b) the text must be modified if the *firm* considers it inappropriate to the fund or the aspects of it being explained;
- (3) a *firm* may omit or alter the lettering and numbering of the headings, sections and paragraphs;
- (4) the guidance notes must not be included; and
- (5) in preparing information for inclusion in the with-profits guide, a *firm* must have regard to any relevant guidance published by the Institute of Actuaries or the Faculty of Actuaries (or both jointly).

6.9.7

R
/1

Table Contents of a with-profits guide
This table belongs to ■ COB 6.9.6.

[Name of fund] with-profits guide [date of issue]	
A	<p>Introduction</p> <p>1 All insurance companies, and the larger friendly societies, which market with-profits policies in the United Kingdom, are required to make available a guide containing information about the company or society and its with-profits fund. This is because the benefits under such policies depend in part, and sometimes to a considerable extent, on bonus additions which are made by the company or the society from time to time and which cannot be known in advance. It is therefore important that potential policyholders and their advisers should have access to information about the most important factors influencing such bonuses.</p> <p>2 However, investors are advised that, in comparing a policy marketed by one company or society with other policies, it is unwise to place too much importance on any one factor. An over-all view of all relevant elements will usually give a more realistic comparison: in particular, an examination of the history of a fund over a period of years will usually give a fuller picture than can be obtained from looking at the figures for just one year.</p> <p>3 [The company/society] is satisfied that this guide fairly presents information as at [date] about the company/society¹ and complies with the rules of the Financial Services Authority.</p> <p>4 [If the <i>firm</i> is producing an appendix to the guide referring to an industrial assurance with-profits fund, the <i>firm</i> may include an explanation of the difference between ordinary and <i>industrial assurance business</i>.]</p> <p>Note: 1 – Delete whichever is inapplicable</p>
B	<p>Company information</p> <p>[Under this heading the <i>firm</i> must:</p> <p>a Describe its own constitution and state where it has its registered office;</p> <p>b State whether it is a <i>subsidiary</i> of a <i>United Kingdom</i> company or overseas company and, if so, identify its ultimate <i>holding company</i>;</p> <p>c Describe its principal activities which are relevant to its with-profits business;</p> <p>d in relation to the fund identified at the beginning of the guide, state whether the <i>firm</i> carries on business outside the <i>United Kingdom</i>, and, if so, indicate the importance of that non-<i>United Kingdom</i> business as compared with its total with-profits business.]</p>
C	<p>Factors influencing bonus rates</p>

[Name of fund] with-profits guide [date of issue]

- 1 [Under this heading the *firm* must include an introduction to the following sections of the guide, identifying the main factors which are likely to influence bonus rates of the *firm's* with-profits business including, in particular:
 - a the assets in which the fund is invested;
 - b the effect of inflation;
 - c the effect of taxation;
 - d the effect of surpluses from miscellaneous sources;
 - e the expenses of the fund;
 - f the effect of any liabilities, such as policy guarantees of the fund.]
- 2 [The *firm* must relate the factors to each other, so far as is possible, and should indicate that individual factors will be covered in more detail elsewhere in the guide.]

D Investments

- 1 [Under this heading the *firm* must set out Table 1 which may be modified in accordance with paragraph 3 if the *investments* include a holding in a *collective investment scheme*.]

Table 1 – Investments attributable to with-profits business in the United Kingdom

	[year] %	[year] %	[year] %	[year] %	[year] %
Fixed interest					
Property					
Equity shares					
(i) UK shares ²					
(ii) non-UK shares ³					
(iii) unlisted shares ⁴					
Other investments	100	100	100	100	100

Notes:

- 2 – This entry refers to *shares* which are *UK listed shares*
- 3 – This entry refers to *shares* which are *listed* other than in the *United Kingdom*
- 4 – This entry refers to *shares* which are *not listed*

[Name of fund] with-profits guide [date of issue]	
2	[The information in Table 1 must be based upon the financial information relevant to the fund as at the end of the <i>firm's</i> preceding financial year and for the preceding four years or for so many of those four years as there are figures available, with the most recent on the right. Each entry must be shown as a percentage of the total of the <i>investments</i> in the column in which the entry appears. The <i>firm</i> may show figures for any category of <i>investment</i> referred to in the Table broken down into sub-categories. The assets are to be shown at <i>market value</i> or, if that is not available, the basis of valuation used must be described here.]
3	[The <i>firm</i> may show holdings in <i>collective investment schemes</i> separately from other <i>investments</i> , by including a separate sub-heading for each category of holding in <i>collective investment schemes</i> under a general heading 'Collective investment schemes'. Such holdings must not, in any event, be included under the heading 'Other investments'.]
4	[If 2½% or more of the total of the <i>investments</i> shown in any one column is in one property or in <i>shares</i> in one company, details of that property or shareholding must be given here. This includes holdings in any <i>subsidiary</i> companies of the <i>group</i> to which the <i>firm</i> may belong.]
5	[The <i>firm</i> must describe its investment strategy with respect to its with-profits fund, and explain any significant differences between the figures for one year and those for another. If <i>derivatives</i> have been used, the Table should reflect the economic exposure of the fund.]
6	[In order to explain the relative importance of underlying investment returns, information on rates of return on the assets attributable to with-profits <i>policies</i> may be included, together with an explanation how these have been taken into account in determining bonus policy.]
E	Solvency margins
1	The solvency of companies and societies transacting with-profits business and other long-term business in the United Kingdom is monitored by the FSA. Values for assets and liabilities for the company's/society's total long-term business are shown below. It is the assets in which the funds of the long-term business are invested which are available to meet the liabilities of that business.
2	Because the valuations are not all on the same bases and the liabilities are not all of the same kind, the information in the following table should not be used as a means of direct comparison between companies and societies; these figures are more useful as an indicator of trends in the business.
3	[Under this heading the <i>firm</i> should set out Tables 2A and 2B.]

[Name of fund] with–profits guide [date of issue]					
4	[The information in Table 2A must be based upon the financial information relevant to the fund as at the end of the <i>firm's</i> preceding financial year and for the preceding four years or for so many of those four years as there are figures available, with the most recent on the right in Table 2B.]				
5	[The <i>firm</i> must include a description of the factors influencing the solvency margins, for example the bases of valuations and the effects of the business mix. This description must also explain how those factors affect the margins.]				
	Table 2A – Solvency margins				
			£m		[year] £m
	‘A’ Admissible assets: [shareholders funds] ⁵ unit–linked with–profits remainder				
					[total]
	‘B’ Liabilities: unit–linked with–profits remainder				
					[total]
	‘C’ Required minimum margin ⁶ Excess of ‘A’ over ‘B’ & ‘C’				[difference]
	Table 2B – Solvency margins				
		[year] £m	[year] £m	[year] £m	[year] £m
	‘A’ Admissible assets				
	‘B’ Liabilities				
	Excess of A over B				
	‘C’ Required minimum margin ⁶				
	Excess of A over (B + C)				
	Notes:				
	5 – Delete if inapplicable				
	6 – This item refers to any <i>margin of solvency</i> the <i>firm</i> is required to maintain by law, including any required by any regulatory authority				
F	Bonus and surrender value policy				
	[Under this heading the <i>firm</i> must set out an explanation of:				

[Name of fund] with-profits guide [date of issue]						
a	the basis on which the amount available for distribution to policyholders and shareholders (if any) is to be determined and on the actual level of transfers to shareholders ⁷ ;					
b	the nature of each series of bonuses payable in respect of the with-profits <i>policies</i> currently marketed by the <i>firm</i> (as at the guide date) and the relative importance of each series by including sufficient information to quantify the relative significance of basic benefits, reversionary bonuses and terminal bonuses;					
c	the <i>firm's</i> policy for ensuring fairness of treatment at maturity or earlier surrender, so far as possible, between investors holding <i>policies</i> issued at different times, including the <i>firm's</i> approach to terminal bonuses, stating whether it is subject to frequent change and identifying in particular the factors which might lead to any change in the approach;					
d	the <i>firm's</i> policy concerning the use of the market value adjustment factors whether at maturity or earlier surrender, the description should detail the circumstances in which they have been imposed and indicate when it would be imposed.]					
	Note: 7 – The firms must include here the percentage of declared profits to which with-profits policyholders are entitled under the firm's Articles of Association or other constitution					
G	Expenses					
1	[Under this heading the <i>firm</i> must describe how expenses arise and are charged in relation to with-profits business, and must include an explanation how the level of expenses is affected by the nature of that business and of the assets in which the with-profits fund is invested.]					
2	[Under this heading the <i>firm</i> must set out Table 3 giving the required figures in accordance with paragraph 3.]					
	Table 3					
	Expenses (including commission)⁸ attributable to UK with-profits business					
		[year] £m	[year] £m	[year] £m	[year] £m	[year] £m
	Related to acquisition of business					
	Maintenance					
	Other					
	Total					

[Name of fund] with-profits guide [date of issue]

Note: 8 – Omit references to *commission* if there are no *commission* payments included in the expenses. In calculating what expenses to attribute to with-profits business, the *firm* may use approximations as the *firm* considers appropriate.

3 [The information in Table 3 must be based upon the financial information relevant to the fund as at the end of the *firm*'s preceding financial year and for the preceding four years or for so many of those four years as there are figures available, with the most recent on the right.]

4 [Here the *firm* must outline the method used to attribute expenses to the with-profits business and indicate the effect of changes in growth and composition of any new business.]

H Examples of the effect of expenses implicit in Table 3

1 [The *firm* must here set out Table 4 giving the required figures for the reduction in yield in accordance with paragraphs 2 and 3 below.]

Table 4

Comparative reductions in yields

Year	Endowment assurances		Personal pensions		Single premium with-profits bonds	ISA with-profits bonds
	Term 10 yrs %	Term 25 yrs %	Term 10 yrs %	Term 25 yrs %	Term [] ⁹ yrs %	Term [] ⁹ yrs %
[year] A B						
[year] A B						
[year] A B						
[year] A B						
[year] A B						

Note: 9 – The term to be used is that of the latest bond to be marketed or the terms, if any, when a market value adjustment factor will not be applied, or, if no specific term, 10 years

[Name of fund] with-profits guide [date of issue]	
2	[The information in Table 4 must be based upon the financial information relevant to the fund as at the end of the <i>firm's</i> preceding financial year and for the preceding four years, or for so many of those four years as figures are available, with the most recent at the top.]
3	The reductions in yield shown in this table are consequential on the expenses disclosed in Table 3 above. The figures are given for the last five years ¹⁰ of the fund preceding the date shown at the beginning of this guide. The reductions in yield shown in row A have been calculated taking into account the actual expenses incurred during the year in question ¹¹ , whereas those shown in row B, which are for comparison, are averages of the reduction in yield figures used in <i>key features</i> (relating to contracts of the same class) issued by the [company][society] ¹² during the year in question.
4	The reductions in yield have been calculated on the assumption of a monthly premium of £60.00 ¹³ or a single premium of £10,000 ¹³ . In addition, an allowance for tax has been made in calculating the figures for endowment assurance and with-profits bonds ¹⁴ .
5	[The <i>firm</i> must, in relation to the figures disclosed under this heading:
a	explain any disparity between the two reductions in yield; and
b	describe any allowance for tax which has been made in calculating the reduction in yields.]
6	[The <i>firm</i> may show reductions in yield for other classes of contract in Table 4 if <i>endowment assurances</i> or personal pensions are not representative of the <i>firm's</i> with-profits business, but, if the with-profits business to which the guide refers includes both <i>endowment assurance</i> and personal pensions, reductions in yield for contracts of both those classes must be shown. Figures may be shown only for contracts marketed by the <i>firm</i> during the year in which the guide date falls.]
	Notes:
	10 – In the case of a fund for which there are fewer than five years' figures available, the <i>firm</i> must make appropriate alteration
	11 – The <i>firm</i> must make these calculations in accordance with the <i>projection rules</i> . If there is any discontinuity due to a change in the calculation method, this should be explained in a note to the Table
	12 – Delete whichever is inapplicable

[Name of fund] with–profits guide [date of issue]																											
	<p>13 – If the <i>firm</i> does not write business at this rate, substitute another figure which is not unrepresentative of the <i>firm's</i> with–profits business. In respect of industrial branch endowments, the figure is £4 per week</p> <p>14 – This sentence may be omitted if the fund to which the guide relates is part of the <i>firm's</i> tax–exempt business</p>																										
J	<p>Other factors</p> <p>[Under this heading the <i>firm</i> must describe any other factors not dealt with under any of the preceding headings of the guide which the <i>firm</i> regards as relevant to its with–profits business, commenting on the importance of the different factors.]¹⁵</p> <p>Note: 15 – <i>Firms</i> are to include here a description of the effect of the surpluses from miscellaneous sources or strains from other liabilities on the with–profits business</p>																										
K	<p>Policy proceeds</p> <p>1 [Under this heading the <i>firm</i> must set out the following table, giving the required figures for the contracts in relation to which the reductions in yield were shown under section H, showing, subject to paragraph 5 below, the net return to the <i>policyholder</i> for contracts maturing in the year in which the guide date falls and providing the necessary breakdown.]</p> <p>2 Table 5 shows the rates of investment return per annum implicit in <i>policy</i> proceeds payable at maturity or retirement at age 60 for a male life (based on a monthly <i>premium</i> of £60.00¹³).</p> <p>3 [<i>Firms</i> are encouraged to indicate how the net return to policyholders is split between the return on assets and allocations from miscellaneous sources. It would also be helpful to indicate the likely future potential for allocations from miscellaneous sources.]</p> <p>Table 5 – Examples of results achieved by with–profits policies</p> <table border="1"> <thead> <tr> <th rowspan="2"></th> <th colspan="2">Policy proceeds payable in [year]¹⁶</th> </tr> <tr> <th>Term 10 yrs %</th> <th>Term 25 yrs %</th> </tr> </thead> <tbody> <tr> <td>Endowment assurances¹⁷</td> <td></td> <td></td> </tr> <tr> <td>Net return to policyholder</td> <td></td> <td></td> </tr> <tr> <td>After meeting the following items which are estimated to be:</td> <td></td> <td></td> </tr> <tr> <td>Effect of mortality risks</td> <td></td> <td></td> </tr> <tr> <td>Effect of expenses</td> <td></td> <td></td> </tr> <tr> <td>Personal pensions (at vesting)¹⁷</td> <td></td> <td></td> </tr> <tr> <td>Net return to policyholder</td> <td></td> <td></td> </tr> </tbody> </table>		Policy proceeds payable in [year] ¹⁶		Term 10 yrs %	Term 25 yrs %	Endowment assurances ¹⁷			Net return to policyholder			After meeting the following items which are estimated to be:			Effect of mortality risks			Effect of expenses			Personal pensions (at vesting) ¹⁷			Net return to policyholder

<p>After meeting the following items which are estimated to be:</p> <p>Effect of mortality risks</p> <p>Effect of expenses</p> <p>With-profits bonds¹⁷</p> <p>Net return to policyholder</p> <p>After meeting the following items which are expected to be:</p> <p>Effect of mortality risks</p> <p>Effect of expenses</p> <p>ISA with-profits bonds¹⁷</p> <p>Net return to policyholder</p> <p>After meeting the following items which are expected to be:</p> <p>Effect of mortality risks</p> <p>Effect of expenses</p> <p>Notes:</p> <p>16 – Enter here the financial year to which the figures relate</p> <p>17 – Substitute a different class of contract if necessary</p> <p>18 – The figures should show the return to the <i>customer</i>. The term must be as in table 4, or if no experience for that term, the longest term for which figures are available</p> <p>3 [Under this heading the <i>firm</i> must include a warning that information about past performance is not necessarily a guide to future performance.]</p> <p>4 [Under this heading the <i>firm</i> must explain the relative significance of the figures shown in Table 5 and of the treatment of tax in the investment returns.]</p> <p>5 [In any case where the <i>firm</i> is unable to show a net return in accordance with paragraph 1 above, the <i>firm</i> may instead use current terms and a credited interest rate of the relevant rate of return as specified in <i>COB</i> 6.6.33R (Projections), making such modifications to the table as may be necessary.]</p>	<p>Term [] yrs¹⁸</p> <p>%</p>
<p>L Conclusion</p>	

[Name of fund] with–profits guide [date of issue]	
1	[Under this heading the <i>firm</i> may provide a summary of the guide.]
2	Much of the format and content of this guide are prescribed. However, there are other factors, such as surrender values, underwriting requirements and the quality and standard of service, which are not dealt with in this guide but which you may consider relevant to the selection of a policy or contract. If you would like more information, [company/society] will be pleased to assist.

Decision trees for stakeholder pension schemes: text, content and format (R)

Decision trees for stakeholder pension schemes: text, content and format

STAKEHOLDER PENSION DECISION TREES

You should read these notes before using the decision trees.

Decision trees provide information and help you to answer the question: “Would a stakeholder pension be a good choice for me as part of my financial planning for retirement?”

What is a stakeholder pension?

A stakeholder pension is a *new private pension*, it's *not a State pension*. You can get a stakeholder pension if you are in employment, a fixed-contract worker, self-employed, or even not working but able to afford contributions. You can get one from a bank, building society, insurance company, investment company, or through a financial adviser.

You pay contributions regularly which are invested to build up your own pension fund. You can also pay lump-sum contributions whenever you like.

When you retire, you use your pension fund to buy an “annuity”. The annuity will pay you a regular income during your retirement. That income will depend on the size of your fund and the annuity rates at the time you take your pension.

You can't withdraw any money from your fund before you take your pension. But when you take your pension you can choose to have up to 25% of your fund as a tax-free lump sum.

What's new about stakeholder pensions?

Stakeholder pensions must meet the standards laid down by the government.

The standards include:

■ **Charges**

Providers of stakeholder pensions usually charge for managing your money. There is an upper limit on this charge. The limit is 1% of the value of your fund each year. The charge is taken from your fund. So if your fund is worth £5,000, a 1% charge would be £50.

■ **Flexibility**

You can contribute regularly or occasionally. It is always best to make regular weekly or monthly contributions but you can change the amount. You can pay in as little as £20, and you can stop paying in without having to pay any penalty and restart later.

If you are employed and your employers provide a stakeholder pension, they may, if you wish, deduct your contributions direct from your pay and put them into your pension fund.

You can take your stakeholder pension with you when you change jobs. You can switch to another stakeholder pension at any time if you want to, without having to pay any charges for the transfer.

■ **Information**

Your stakeholder pension provider must give you regular information about your fund. This will include an annual statement to let you know how much you have paid in and how your fund is growing. It may also include a forecast of how much your pension might be.

Will I get any tax relief?

Everybody who contributes to a stakeholder pension will get tax relief on their contributions.

Under present tax arrangements, for each £1 you pay into your stakeholder pension fund, the Inland Revenue will pay an extra 28p into your fund, even if you don't normally pay income tax.

Example

If you pay in £50 a month, income tax relief will increase your contribution to £64.10.

Anyone can contribute up to £3,600 to a stakeholder pension in any tax year, including basic-rate tax relief. What this means is that you could pay in £2,808 and the income tax relief would increase your contribution to £3,600.

If you are employed or self-employed you might be able to contribute more than £3,600 and still get income tax relief, depending on your age and earnings. For example, up to age 35 you can contribute up to 17.5% of your earnings in any tax year. If you are over 35, there is a scale that allows you to contribute higher percentages of your earnings. The Inland Revenue sets the limits on what you can contribute to a pension scheme.

If you pay income tax at the higher rate you will be able to claim back the extra tax from the Inland Revenue at the end of each tax year.

Won't the State pensions be enough for me to retire on?

To answer this question, you need to think about three things:

BASIC STATE RETIREMENT PENSION

If you have a full national insurance contribution record, you are entitled to the full basic State Retirement Pension. You cannot get your basic State Retirement Pension until you reach State pension age (currently 65 for men and 60 for women).

The government reviews the basic State Retirement Pension every year. The rates applying from April 2001 are shown further on in these notes.

ADDITIONAL STATE PENSION (CURRENTLY SERPS)

Only people in employment qualify for the State Earnings Related Pension Scheme (SERPS). The SERPS pension, payable when you reach State pension age, depends on your earnings while you were in employment and the national insurance contributions you paid. SERPS is paid in addition to the basic State Retirement Pension.

The government plans to change SERPS in 2002 and rename it the State Second Pension. This will give more help than SERPS to the lowest earners, particularly those earning less than about £10,000 a year.

Self-employed people do not qualify for the additional State pension (currently SERPS).

GUARANTEED MINIMUM INCOME AND PENSION CREDIT

The current Minimum Income Guarantee (MIG) is a benefit that helps people with low incomes in retirement. MIG is means-tested. If you apply, the Department of Social Security assesses your income and decides whether you get a top-up. If you qualify for a MIG top-up, or have an income just above the MIG level, you may also qualify for other benefits, such as housing benefit.

The government has announced plans to introduce a new Pension Credit from 2003 that includes a guaranteed minimum income.

THE BASIC STATE RETIREMENT PENSION AND MIG RATES GIVEN HERE ARE THOSE ANNOUNCED BY THE GOVERNMENT ON 8 NOVEMBER 2000 AS APPLYING FROM APRIL 2001.

	Weekly	Monthly equivalent
One person	£72.50	£314.17
Man with dependent wife	£115.90	£502.23
Couples who have <i>both</i> paid full national insurance contribution	£72.50 each	£314.17 each
If you get the full MIG top-up, your income would rise to:		
Single person	£92.15	£399.32
Couple	£140.55	£609.05

How do I get more information on my State pensions?

Rates of State pensions and benefits change every year. These notes can only give you basic information about what is available. Other information you can get:

- A forecast of your State pensions by calling the Retirement Pension Forecasting and Advice Unit (RPFA) on 0191 218 7585 between 9am and 5pm. You can complete an application form over the phone or ask for the forecast form BR19 to be sent to you. Or you can write to:

RPFA
Pensions and Overseas Directorate
Tyneview Park
Whitley Road
Newcastle upon Tyne
NE98 1BA

You can also complete and send the form direct on the Internet at the DSS website, www.dss.gov.uk or send it by post in the normal way.

- There are changes to the State pension age which affect women born on or after 6 April 1950. Women born on or after 6 April 1955 will not get a State pension until age 65. For more information on these changes, see the DSS guide *Pensions for women – Your guide* (PM6).
- The DSS produces a series of guides that give basic information on pensions. You can get copies by calling the Pensions Info-Line on 0845 731 3233. The line is open 24 hours and calls are charged at local rate. A textphone service is available on 0845 604 1210. You can also order copies of these information guides on the Internet at www.dss.gov.uk

Do I need to save more for my retirement?

You need to make your own judgment about whether State retirement pensions and any existing private pensions will be enough for you to live on when you retire.

Ask yourself:

- ***Roughly how much will I need to live on when I retire?***
- ***Is the basic State Retirement Pension likely to be enough for me?***
- ***Will I qualify for an additional pension through SERPS and the State Second Pension?***
- ***Have I got any other private pensions, maybe from previous employers' schemes or from personal pension schemes? If so, how much income will they give me?***

Can I afford to contribute regularly to a stakeholder pension?

Before you answer this question, you should ask yourself:

- ***What are my other financial commitments?***
For example, mortgage repayments, rent, life assurance, and credit cards. Make sure you do your sums before using the decision trees.
- ***Would I be prepared, if necessary, to give up anything so that I can pay into a stakeholder pension?***
- ***Should I be thinking of other things first?***
For example, life assurance protection for me and my family, or building up some "rainy-day" cash savings.

Whatever you decide you can afford, think about increasing your contributions, especially when your earnings rise.

I can't afford to contribute much regularly – won't the MIG make my contributions a waste of money?

The government has said that it intends to ensure that all those who have saved already, or who wish to save in the future, can benefit from those savings when they retire.

To achieve this, the government has announced proposals to introduce a new Pension Credit which will overhaul the current MIG arrangements from 2003.

The proposals are designed to alter the present situation where those who have saved to build up a second pension to add to the basic State retirement pension, might be little or no better off than those who haven't saved.

A lot depends on the final rules for Pension Credit and how it works out in practice. Of course, future governments can change State pensions and benefits at any time and it may be unwise to rely on any particular type or level being available when you retire.

I can't afford to contribute much regularly – so what will I get from my stakeholder pension?

Stakeholder pensions allow contributions as low as £20. But, a regular monthly contribution of £20 will not produce a large pension when you retire. And the older you are when you start saving, the less time there will be for your pension fund to grow to something worthwhile. The tables in the decision trees will give you a fair idea of the pension you could get, depending on your age and contributions.

The figures in the tables, however, are only estimates and are not guaranteed. They are also shown before income tax. When you receive your pension during retirement you may be taxed on it.

The figures are calculated on the following basis:

Before you retire

Your monthly contributions increase in line
with inflation.....2.5% a year
Before charges, your fund grows by.....7% a year
Charges deducted from your fund.....1% of fund a year

When you retire

Annuity rates assume that the investment
return after retirement is.....5.5% a year
(After a 4% charge has been deducted from your fund)

Your pension increases by.....2.5% a year

Your spouse will receive half your pension on your death.

What does contracting-out of the additional State pension (currently SERPS) mean for me?

Everyone in employment is automatically included in SERPS unless they decide to leave it. This is called 'contracting-out'. If you contract-out, you give up any SERPS entitlement and build up a replacement for it in your own private pension arrangement instead. The private pension could be an employer's pension scheme or your own stakeholder pension scheme or other personal pension.

Some employers' occupational pension schemes contract-out all scheme members automatically. Other employers' occupational schemes are 'contracted-in' and the scheme pensions are paid on top of any SERPS pensions. If you are in one of these contracted-in schemes, you can still decide to contract-out.

You can also decide to contract-out if you are not a member of an employer's occupational pension scheme. If you contract-out of SERPS this way, the Inland Revenue will pay a rebate on your national insurance contributions into your private pension fund. The rebate is invested along with your own pension contributions and you build up a replacement pension for the SERPS pension given up.

With stakeholder and other personal pension schemes the government sets the rebate. The rebate is set to give a reasonable chance that the replacement pension will be at least as big as if you had remained in SERPS. There's no guarantee that you'll be better off by contracting-out but generally the younger you are and the more you are earning the more you stand to gain if you do contract-out.

Contracting-out is an important decision and you need to consider all the implications. If you want help with your decision, you should consult a financial adviser. You may have to pay for this help. Or you can ask your stakeholder scheme provider for a comparison of the SERPS pension you'll be giving up and the possible replacement pension you might get from a private arrangement.

Deciding to contract-out in one tax year does not commit you to do the same in later years. In fact, it's a good idea to review your decision regularly. You should do this, for example, when the State Second Pension starts in 2002.

What else do I need to check?

IF YOU ARE EMPLOYED

Employers' pension plans are always worth checking first as they usually provide extra benefits, such as added contributions from your employer or free life assurance.

You need to check:

- ***Does your employer provide a pension plan?***
- ***Are you a member of your employer's pension plan?***
- ***If you are not a member, could you join now or later?***

If your employer does not provide a pension plan for you at the moment, they *may* have to arrange for a stakeholder pension to be available to you by **October 2001**.

- *Ask your employer if it is intended to arrange a new pension plan for staff as it might be better than a private pension you arrange yourself.*
- *Employers might agree to pay the stakeholder annual charge or make payments to your fund on top of your own contributions, but they don't have to.*

IF YOU ARE SELF-EMPLOYED

- *Are you contributing to a pension plan?*

If you have no pension to look forward to except the basic State Retirement Pension, you should consider setting up a personal pension, such as a stakeholder pension.

IF YOU HAVE NO FORM OF PAID EMPLOYMENT

- *Can you afford to contribute to a pension plan?*

You can now set up a new stakeholder pension. You can then benefit from tax relief on your contributions, even if you don't normally pay income tax.

EVERYBODY

Check on the pension plans you have contributed to in the past but no longer pay into today. You need to have some idea of the retirement income you might get from an old pension plan.

To check on the value of old pension plans, look at the most recent benefit statements you have been sent. If you cannot find any statements, contact the pension plan provider, for example the insurance company or the employer that offered the pension to you.

Alternatively, the Pension Schemes Registry provides a free tracing service. It can help you identify pension schemes you have belonged to in the past. To contact the Pensions Scheme Registry, phone them on 0191 225 6393 and ask for a tracing request form or write to them at:

Pension Schemes Registry
PO Box 1NN
Newcastle upon Tyne
NE99 1NN

AND FINALLY

You should consider getting advice if you're not sure that saving in a pension plan is right for you, or if you want to look at other ways of saving and investing for the long term.

If you are not sure what's the best thing for you to do, get help. The decision trees suggest some organisations that might be able to help you.

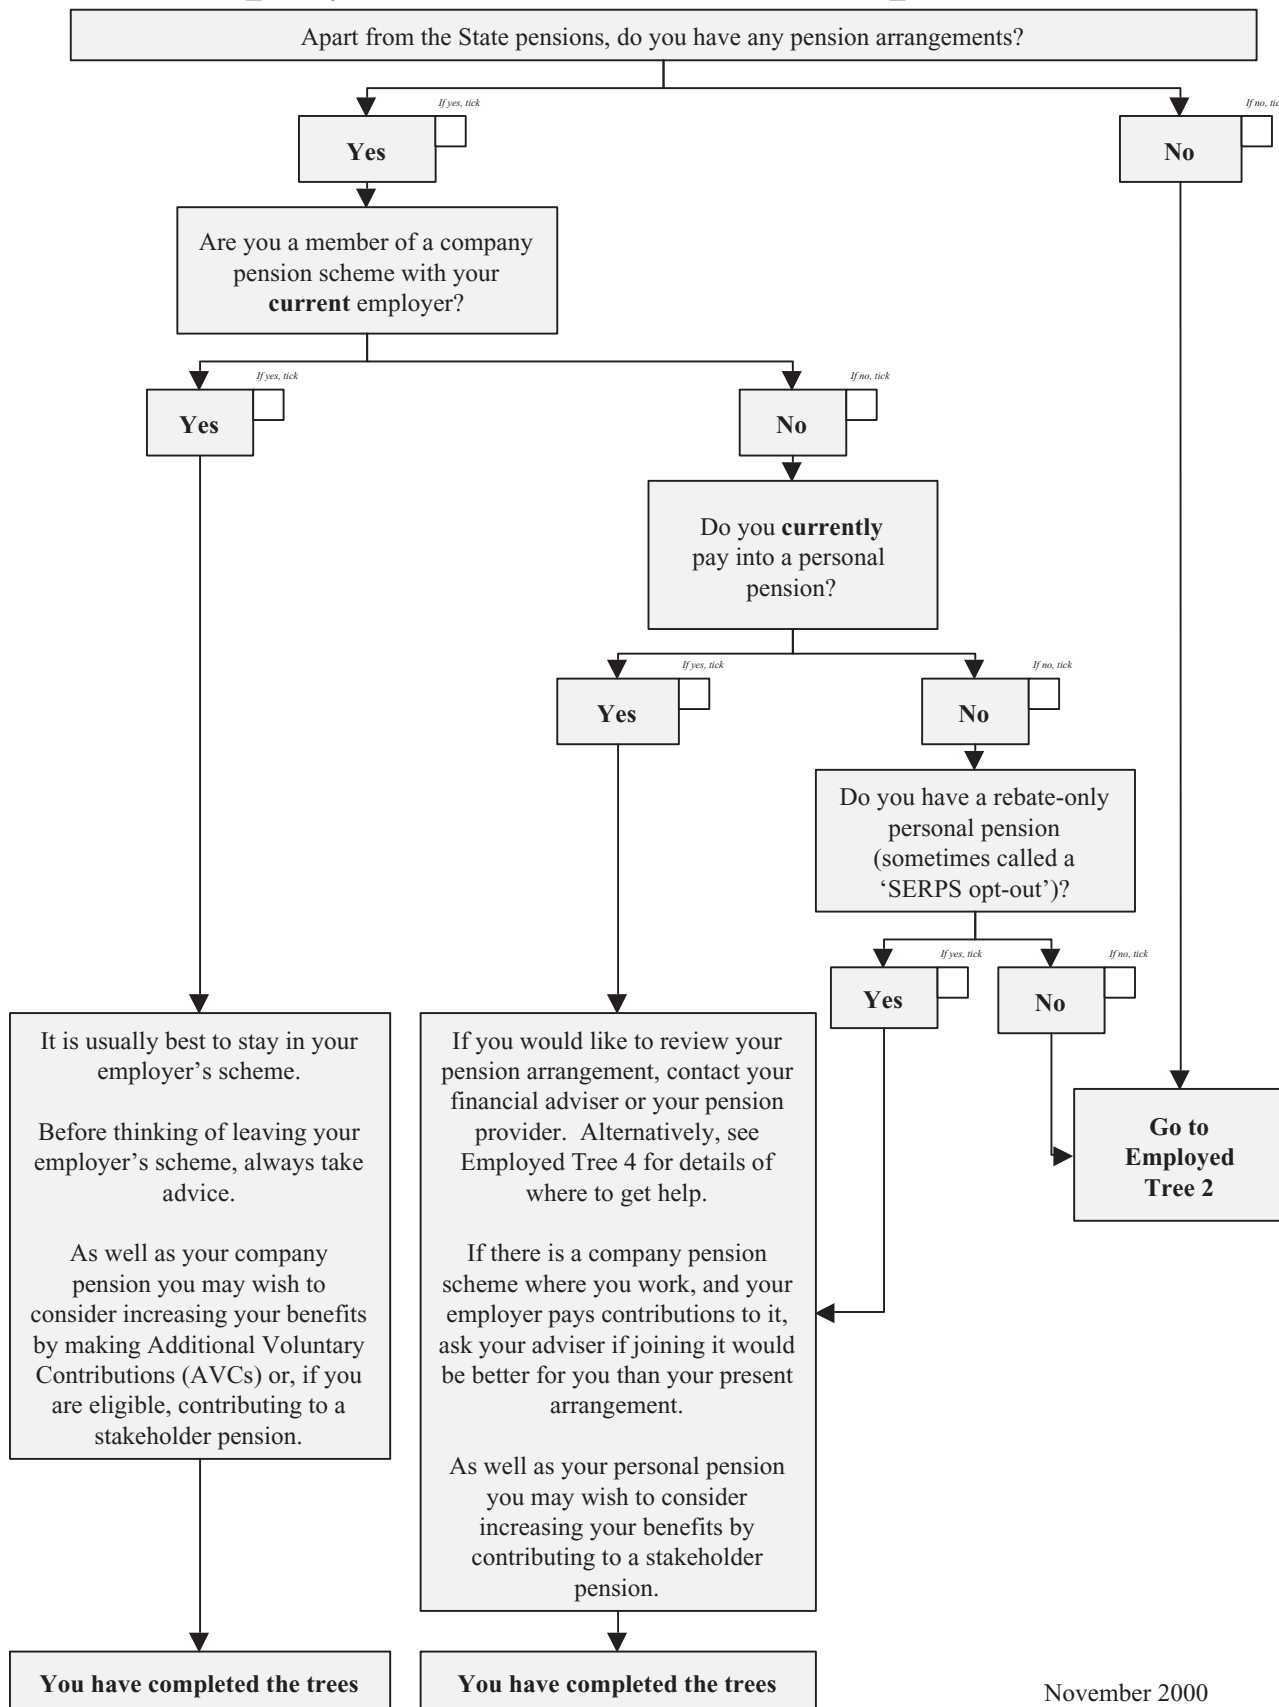

How to use the decision trees

- **These decision trees have been designed to help you decide whether a stakeholder pension would be a good choice for you. Please take the time to read and use them carefully, giving accurate answers to the questions. The decision you take will be your responsibility.**
- **There are three sets of decision trees. Make sure you use the right one. There is a different set of trees for:**
 - **Employed people**
 - **Self-employed people**
 - **People who are not employed**
- **When you are sure you have the right set of trees, start with ‘tree 1’ and work through the questions from the top of the page. Depending on your answers, you may only need to use the first tree or be asked to go to another tree in the set.**
- **Always work from the top of the page and tick the box for each question you answer.**
- **If the tree asks you about your present pension arrangements and you are not sure of the correct answer, find out the right information – don’t guess.**
- **If the tree recommends you take advice, or if you are not sure what is right for you, then you should seek advice. You may have to pay for this advice.**

Some of the information used in these materials comes from sources outside the FSA and PIA. Neither the FSA nor PIA guarantee or warrant the accuracy of the information included in these materials, and does not accept any liability for errors or omissions. Neither the FSA nor PIA shall be liable for any damages arising in contract, tort or otherwise from any action or decision taken as a result of using these materials or any of them.

The decision tree is intended to help you make your own choice about your pension arrangements. It does not give you financial or professional advice and you should not regard it as doing so. You should get help if you require advice.

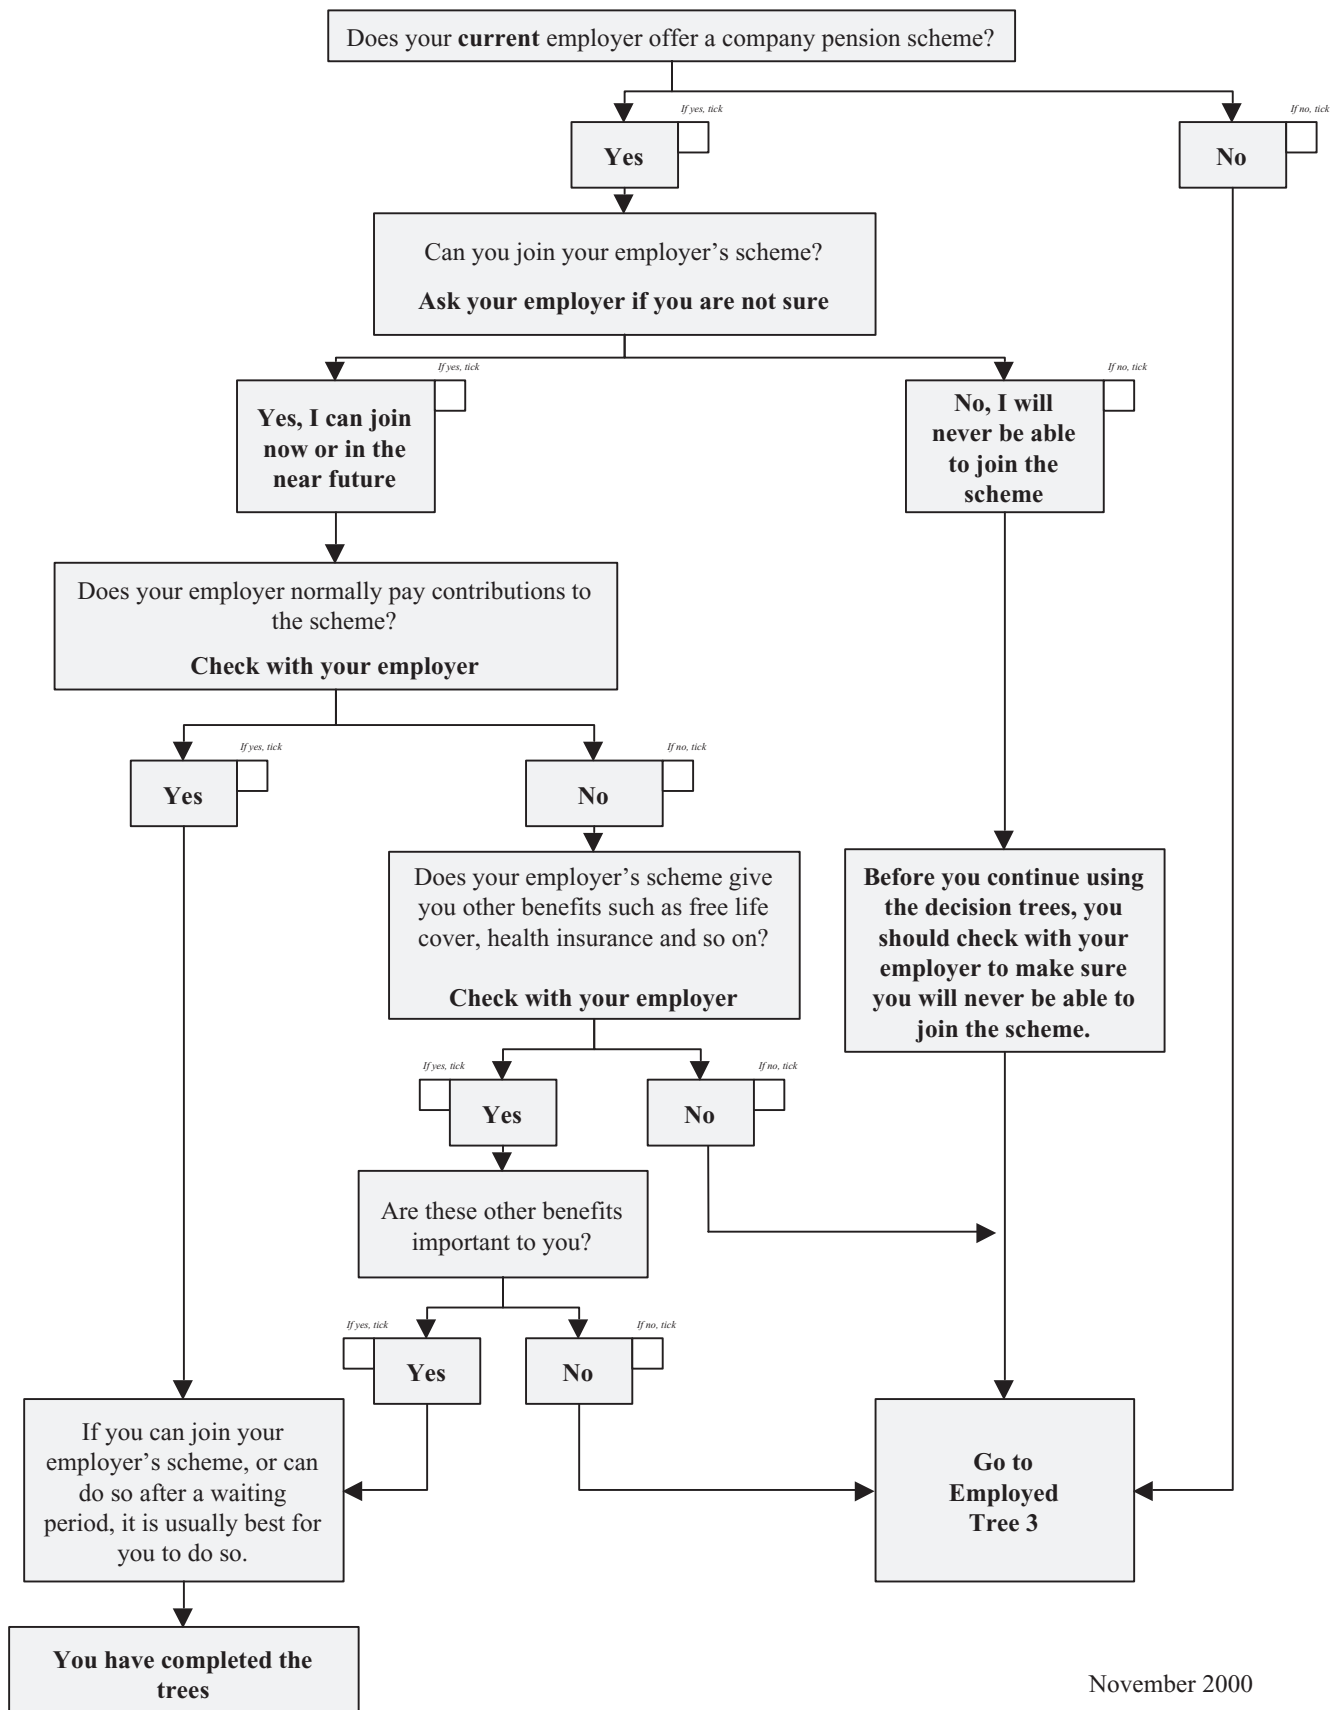

Employed Tree 1 – Current pensions

November 2000

The decision tree is intended to help you make your own choice about your pension arrangements. It does not give you financial or professional advice and you should not regard it as doing so. You should get help if you require advice.

Employed Tree 2 – No current pension

November 2000

The decision tree is intended to help you make your own choice about your pension arrangements. It does not give you financial or professional advice and you should not regard it as doing so. You should get help if you require advice.

Employed Tree 3 – How much should I save towards a pension?

THIS IS AN IMPORTANT DECISION

Most people save every month. It is better if you can keep up your monthly contributions.

The following table shows the **estimated monthly pension**, at today's prices, that you would get for different **regular monthly contributions**. The contribution shown is assumed to **increase each year in line with inflation**. The government will also add tax rebates to increase the actual amounts paid into your stakeholder pension (although all tax breaks are subject to change). The estimated pension figures include this tax rebate. When you retire, your pension will increase in line with inflation.

Remember: these estimates are not guaranteed - you could get more or less than the amounts shown. A stakeholder pension would be on top of any State pensions you are entitled to.

The table gives you an idea of how much you need to pay now - as a regular monthly contribution - to receive the monthly pension you want when you retire. First look down the left-hand column to find the age closest to your age now. Then look across to find the monthly contribution you want to pay and the age at which you want to retire.

Your approximate age now	What you pay per month for the first year (tax rebates will be added to this amount)							
	£20		£50		£100		£200	
	Initial monthly pension if you retire at 65	Initial monthly pension if you retire at 60	Initial monthly pension if you retire at 65	Initial monthly pension if you retire at 60	Initial monthly pension if you retire at 65	Initial monthly pension if you retire at 60	Initial monthly pension if you retire at 65	Initial monthly pension if you retire at 60
20	£154	£108	£386	£272	£772	£544	£1,544	£1,089
25	£124	£86	£310	£215	£620	£431	£1,240	£863
30	£98	£67	£245	£168	£491	£336	£983	£672
35	£76	£50	£191	£127	£382	£254	£765	£509
40	£57	£37	£144	£92	£289	£185	£579	£371
45	£42	£25	£105	£63	£211	£127	£422	£254
50	£28	£15	£72	£38	£144	£77	£289	£155
55	£17	£7	£44	£17	£88	£35	£176	£71
60	£8		£20		£40		£81	

Have you found the level of monthly pension that you need in the table and can you afford the monthly contribution?

If yes, tick

Yes, I've found the pension I need and can afford the monthly contribution

Consider starting a stakeholder pension.
If in doubt seek help from an expert adviser. See Employed Tree 4 for details.

You have completed the trees

If no, tick

No, I can't find the pension I need or I can't afford the contribution

For details of where to get further help,

The decision tree is intended to help you make your own choice about your pension arrangements. It does not give you financial or professional advice and you should not regard it as doing so. You should get help if you require advice.

Employed Tree 4 – Where do I go from here?

DO YOU NEED FURTHER HELP?

You may need to get further help, particularly if you are in one or more of the following situations:

- **You already have a pension arrangement and want to review your situation.**
- **Your personal circumstances do not seem to fit the questions in the decision trees.**
- **You wish to get advice that takes account of all your personal circumstances.**
- **You are not sure how to answer some of the questions in the decision trees.**
- **You are not sure if you are making the right decision.**
- **You feel you cannot afford to save for retirement.**

WHERE TO GET FURTHER HELP

You can get help from a number of sources.

You could contact the Stakeholder Pensions Telephone Helpline provided by the Pensions Advisory Service on 0845 6012923.

You can also visit their website at www.stakeholderhelpline.org.uk

They will be able to give you more information about your options.

This information is free but your call will be charged at local rates.

If you already have a financial adviser, you may want to speak to them about your retirement needs. If you do not have a financial adviser but want to talk to one, the following organisations can help:

Association of Independent Financial Advisers: 020 7628 1287

IFA Promotions: 0117 971 1177 (for a list of three independent financial advisers local to your area)

Life Insurance Association: www.find-an-adviser.co.uk

Society of Financial Advisers: 020 7417 4419

Solicitors for Independent Financial Advice: 01372 721172

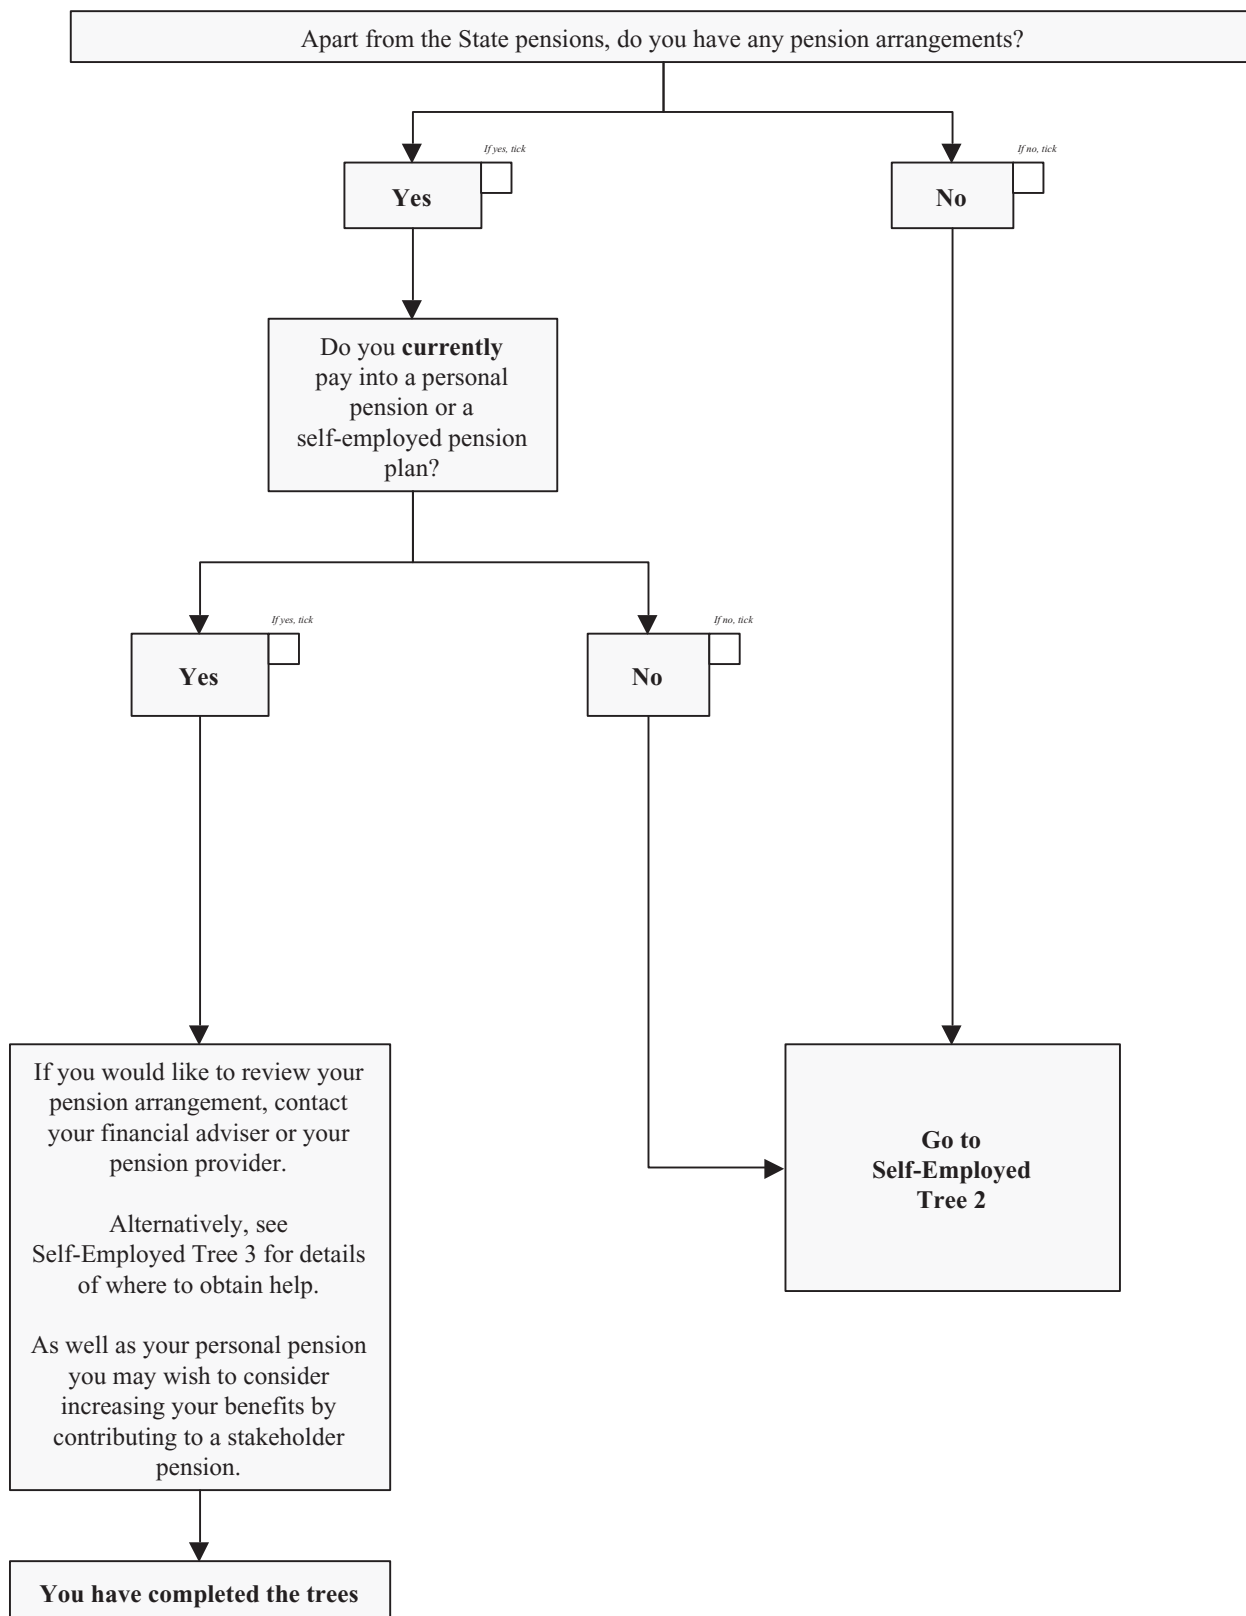

Alternatively, contact the pension provider of your choice.

Please note that advisers may charge for any help or advice they give you.

November 2000

Chapter 7

Dealing and managing

7.1 Conflict of interest and material interest

Application

- 7.1.1 **R** This section applies to a *firm* when it is conducting *designated investment business* with or for a *customer*.
/1

Purpose

- 7.1.2 **G** *Principle 8* (Conflicts of interest) requires a *firm* to manage conflicts of interest fairly. This section aims to ensure that when a *firm* has, or may have, a conflict of interest between itself and its *customer*, or between one *customer* and another *customer*, the *firm* pays due regard to the interests of each *customer* and manages the conflict of interest fairly.
/1

Fair treatment

- 7.1.3 **R** If a *firm* has or may have:
/1
- (1) a *material interest* in a transaction to be entered into with or for a *customer*; or
 - (2) a relationship that gives or may give rise to a conflict of interest in relation to a transaction in (1); or
 - (3) an interest in a transaction that is, or may be, in conflict with the interest of any of the *firm's customers*; or
 - (4) *customers* with conflicting interests in relation to a transaction;
- the *firm* must not knowingly advise, or *deal* in the exercise of discretion, in relation to that transaction unless it takes reasonable steps to ensure fair treatment for the *customer* (see ■ COB 2.4.7 (Attribution of knowledge)).

- 7.1.4 **E** For the purposes of ■ COB 7.1.3, a *firm* may manage a conflict of interest by taking one or more of the following reasonable steps:
/1
- (1) disclosure of an interest to a *customer*;

- (2) relying on a policy of independence;
- (3) establishing internal arrangements (Chinese walls);
- (4) declining to act for a *customer*.

Disclosure of an interest to a *customer*

7.1.5

/1

The following are examples of *material interest* or conflicts of interest that a *firm* should disclose under ■ COB 7.1.4(1):

- (1) *dealing in investments as principal* (unless the *firm* is acting as a *market maker*);
- (2) *dealing in investments as agent* for more than one party;
- (3) a recommendation to buy or sell a *designated investment* in which one of the *firm's customers* has given instructions to buy or sell;
- (4) a recommendation to buy or sell a *designated investment* in which the *firm* has respectively a long or short position;
- (5) acting as a *broker fund adviser*.

7.1.6

/1

In disclosing an interest to a *customer*, a *firm* should:

- (1) disclose to the *customer*, either orally or in writing, any *material interest* or conflict of interest it has, or may have, whether generally or in relation to a specific transaction, before it advises the *customer* about the transaction or before it *deals* on behalf of the *customer* in the exercise of discretion in relation to the transaction; and
- (2) be able to demonstrate that it has taken reasonable steps to ensure that the *customer* does not object to that *material interest* or conflict of interest.

Relying on a policy of independence

7.1.7

/1

When it is not practical for a *firm* to act in accordance with ■ COB 7.1.6, it may demonstrate that it has taken reasonable steps to ensure fair treatment for its *private customers* by relying on a policy of independence. If a *firm* relies on a policy of independence, that policy should:

- (1) require the relevant *employee* to disregard any *material interest* or conflict of interest when advising a *customer* or dealing for a *customer* in the exercise of discretion;
- (2) be recorded in writing by the *firm* and made known to the relevant *employee*;

- (3) be disclosed to a *private customer* stating that the *firm* may have a *material interest* or conflict of interest relating to the transaction or service concerned.

Establishing internal arrangements

- 7.1.8** G_{/1} A *firm* may manage a conflict of interest by establishing and maintaining the arrangements set out in ■ COB 2.4 (Chinese walls).

Declining to act for a customer

- 7.1.9** G_{/1} If a *firm* determines that it is unable to manage a conflict of interest using one of the methods described above, it should decline to act on behalf of the *customer*.

Broker fund advisers

- 7.1.10** R_{/1} In addition to ■ COB 7.1.3, a *broker fund adviser*, acting for a *private customer*, must obtain an acknowledgement from the *private customer* stating that he understands the nature of the *firm's* dual role as adviser to the *private customer* and adviser to the *long-term insurer* or operator of the fund in question.

- 7.1.11** G_{/1} ■ COB 7.1.10 is particularly relevant when any *remuneration* receivable by the *firm* or its *associate*, for acting in that dual capacity, would be greater than it would otherwise be when the *firm* is recommending to the *customer* a *life policy* or *units* in a *regulated collective investment scheme*.

7.2 Churning and switching

Application

- 7.2.1 **R** This section applies to a *firm* that conducts *designated investment business* with or for a *customer*.
/1

Purpose

- 7.2.2 **G** *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. A *firm* should therefore not "churn" a *customer's* account, that is, enter into transactions with unnecessary frequency having regard to the *customer's* agreed investment strategy. A *firm* should also not switch a *private customer* within or between *packaged products* unnecessarily, having regard to what is suitable for that *customer*. *Firms* are reminded that a *customer's* interests are paramount.

Restrictions on dealing and switching

- 7.2.3 **R** A *firm* must not:
/1
- (1) *deal*, or arrange a *deal*, in the exercise of discretion for any *customer*; or
 - (2) make a *personal recommendation* to a *private customer* to *deal*, or arrange a *deal* that gives effect to such a recommendation; or
 - (3) make or arrange a switch within a *packaged product* or between *packaged products*, in the exercise of discretion for a *private customer*; or
 - (4) make a *personal recommendation* to a *private customer* to switch within a *packaged product* or between *packaged products*, or make or arrange a switch that gives effect to such a recommendation;

unless the *firm* has taken reasonable steps to ensure that the *deal* or switch is in the *customer's* best interests, both when viewed in isolation and when viewed in the context of earlier transactions.

7.3 Dealing ahead

Application

- 7.3.1 **R** This section applies to a *firm* when it or any of its *associates* intends to publish a written recommendation, or a piece of research or analysis, to *customers* that relates to a *designated investment*.

/1

Purpose

- 7.3.2 **G** *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. *Principle 8* (Conflicts of interest) requires a *firm* to manage conflicts of interests fairly, both between itself and its *customers* and between a *customer* and another *client*. This section aims to ensure that either a *firm* pays due regard to the interests of its *customers* by postponing an *own account transaction* when the *firm* or its *associate* publishes a written recommendation or, when this is not practicable or desirable generally in the interests of the *firm's customer*, that any dealing does not unfairly disadvantage the *customer*.

/1

Requirement to postpone own account transactions

- 7.3.3 **R** If a *firm* or its *associate* intends to publish a written recommendation, or a piece of research or analysis, to *customers* that relates to a *designated investment*, unless **■ COB 7.3.4** applies, the *firm* must:

/1

- (1) not undertake an *own account transaction* in the *designated investment* concerned or any *related designated investment*; and
- (2) take all reasonable steps to ensure that its *associates* do not undertake any transaction in that *designated investment*, or any *related designated investment*;

until the *customers* for whom the publication was principally intended have had (or are likely to have had) a reasonable opportunity to act upon it.

Exceptions

7.3.4

R

/1

■ COB 7.3.3 does not apply if:

- (1) the publication could not reasonably be expected to affect significantly the price of the *designated investment* concerned or any *related designated investment*; or
- (2) the *firm* is a *market maker* in the *designated investment* concerned or in a *related designated investment* and it undertakes the transaction in good faith and in the normal course of market making; or
- (3) the *firm deals* in order to fulfil an unsolicited *customer order*; or
- (4) the *firm* has taken reasonable steps to ensure that it needs to *deal* to fulfil a *customer order* that is likely to result from the publication, and that doing so will not cause the price of the *designated investment* or *related designated investment* that is the subject of the written recommendation, or piece of research or analysis, to move against a *customer's* interest by a material amount; or
- (5) the *firm* or its *associate* discloses in the publication that the *firm* or its *associate* has undertaken or may undertake an *own account transaction* in the *designated investment* concerned or any *related designated investment*.

7.4 Customer order priority

Application

- 7.4.1 **R** This section applies to a *firm* when *executing customer orders in designated investments*.
/1

Purpose

- 7.4.2 **G** *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and to treat them fairly. *Principle 8* (Conflicts of interest) requires a *firm* to manage conflicts of interest fairly. This section is therefore designed to ensure that a *firm* acts fairly in *executing both own account orders and customer orders* and manages any conflict of interest accordingly.
/1

Dealing fairly and in due turn

- 7.4.3 **R** A *firm* must *execute customer orders and own account orders in designated investments* fairly and in due turn.
/1

- 7.4.4 **G** ■ COB 7.4.3 does not preclude a *firm* from, for example:
/1
- (1) *executing*:
 - (a) a prior *own account order* ahead of a subsequent *current customer order* in the same *designated investment* or a *related designated investment*; or
 - (b) a *current customer order* when the *person* dealing for the *customer* neither knew nor ought reasonably to have known of an earlier *unexecuted current customer order*;
 - (2) postponing *execution* of a *current customer order* when the *firm* has taken reasonable steps to ensure that *execution* of another *customer order* ahead of that *customer order* is likely to improve the terms on which the *current customer order* is *executed* (in which case the *firm* should ensure that the *customer* whose *customer order* is being *executed* ahead of that other *customer order* is also being treated fairly);
 - (3) treating the life fund as if it were a *customer* to the extent that the *firm* is an insurance company dealing for the account of its life fund;

- (4) treating the *investment trust* or *scheme* as if it were a *customer* to the extent that the *firm* is dealing for the account of an *investment trust* or a *collective investment scheme* that is a *body corporate*, which in either case is in the same *group* as the *firm*;
- (5) treating an *employee* (or *close relative*) of the *firm* or of its *associate*, or a trustee acting on his behalf, as if he were a *customer*; or
- (6) treating the *firm's occupational pension scheme* as a *customer* to the extent that the *firm* is dealing for the account of its *occupational pension scheme*.

7.4.5

G

/1

■ MAR 1.4.26(c) (Trading information) clarifies that *behaviour* based solely on information about another *person's* intention to *deal* will not constitute *market abuse*. *Firms* are reminded, however, that it may constitute a breach of ■ COB 7.4.3.

7.5 Best execution

Application

- 7.5.1 **R** This section applies to a *firm* when *executing* a *customer order* in a *designated investment*.
/1

Purpose

- 7.5.2 **G** *Principle 2* (Skill, care and diligence) and *Principle 6* (Customers' interests) require a *firm* to act with due skill, care and diligence and to pay due regard to its *customer's* interests. This section sets standards for *firms* when *executing current customer orders* in *designated investments*, particularly in the *securities* and *derivatives* markets, to obtain for *customers* the best price available to the *firm*, given the kind and size of such transactions.
/1

When best execution is owed

- 7.5.3 **R** A *firm* that *executes* a *customer order* in a *designated investment* must provide best execution, unless **■** COB 7.5.4 applies.
/1

Exceptions

- 7.5.4 **R** **■** COB 7.5.3 does not apply in any of the following circumstances:
/1
- (1) the *customer order* is for:
 - (a) the purchase of a *life policy*; or
 - (b) the purchase of or sale of *units* in a *regulated collective investment scheme* from or to the *operator* of that *scheme*;
 - (2) the *firm* has agreed in writing with an *intermediate customer* that it need not owe a duty of best execution to him, unless that *customer* is:
 - (a) the trustee of an *occupational pension scheme* or an *OPS collective investment scheme*; or

- (b) the trustee of any other trust for whom, and to the extent that, the *firm* acts as a *permitted third party* under ■ COB 11.6 (Delegation to a permitted third party); or
- (3) the *firm* relies on another *person* to whom it passes a *customer order* for *execution* to provide best execution, but only if it has taken reasonable care to ensure that he will do so.

Providing best execution

7.5.5

/1

To provide best execution, a *firm* must:

- (1) take reasonable care to ascertain the price which is the best available for the *customer order* in the relevant market at the time for transactions of the kind and size concerned; and
- (2) *execute* the *customer order* at a price which is no less advantageous to the *customer*, unless the *firm* has taken reasonable steps to ensure that it would be in the *customer's* best interests not to do so.

7.5.6

/1

- (1) In order to take reasonable care under ■ COB 7.5.5(1), a *firm*:
 - (a) should disregard any *charges* and *commission* made by it or its agents that are disclosed to the *customer* under ■ COB 5.7 (Disclosure of charges, remuneration and commission);
 - (b) need not have access to competing exchanges, or to all, or a minimum number of, available price sources; but if a *firm* can access prices displayed by different exchanges and trading platforms and make a direct and immediate comparison, it should *execute* the *customer order* at the best price available to the *firm* on such exchanges or trading platforms, if this is in the best interests of the *customer*;
 - (c) should pass on to the *customer* the price at which it *executes* the transaction to meet the *customer order*;
 - (d) should not take a *mark-up* or *mark-down* from the price at which it *executes* the *customer order*; and
 - (e) that is engaged in programme trading should ensure that it applies the duty of care in ■ COB 7.5.5 to each individual transaction.
- (2) In relation to a *customer order* for euro priced *securities* traded on the London Stock Exchange, if the *firm* has decided to *execute* in sterling, the *firm* should take reasonable care to ascertain the best price available in sterling and to *deal* at a price no less advantageous to the *customer*.

- (3) In relation to a *customer order* for *shares* that are traded on *SETS*, a *firm's* obligations under ■ COB 7.5.5 will be satisfied if, subject to ■ COB 7.5.6(1)(b), a *firm executes* the *customer order* through *SETS*.
- (4) If, in relation to a *customer order* for *securities* that are traded on *SETS*, a *firm* does not *execute* the *customer order* through *SETS*, the *firm* should ensure that:
 - (a) when a *customer order* is for normal settlement and is within the size currently displayed on *SETS*, the price obtained at least matches the best bid or offer price available on *SETS*;
 - (b) when a *customer order* is larger than the total of limit orders displayed on the best bid or offer on *SETS*, but there is sufficient depth overall, the price obtained at least matches the weighted average price of all orders for that *security* displayed on *SETS*;
 - (c) when a *customer order* is larger than the totality of orders currently displayed on the best bid or offer on *SETS*, and *execution* at the weighted average price would be impracticable, it uses due skill and care to ascertain the best available price, having regard to the price of recently *executed* transactions of a similar size, any prices or quotes available to it, and to prevailing market conditions;
 - (d) when there are no current bid or offer prices displayed on *SETS*, it refers to the previous best bid or offer prices, and to the latest published trades in the relevant *security*, and uses due skill and care to determine the best price in the light of the information available; and
 - (e) when a *customer order* is subject to a special condition (for example, non-standard settlement), the price should at least match the price available on *SETS*, and that any *charge* and *commission* in respect of the non-standard element is separately and appropriately disclosed to the *customer*.
- (5) Compliance with (1), (2) and (3) may be relied on as tending to establish compliance with ■ COB 7.5.5(1).
- (6) Contravention of (1) or (2) may be relied on as tending to establish contravention of ■ COB 7.5.5(1).
- (7) Compliance with (3) or (4) may be relied upon as tending to establish compliance with ■ COB 7.5.5(2).
- (8) Contravention of (4) may be relied upon as tending to establish contravention of ■ COB 7.5.5(2).

7.5.7

G

/1

Disclosure of *charges* and *commission* in relation to non-standard settlement under ■ COB 7.5.6(4)(e) may be made on a contract or confirmation note, or in a separate

written statement to the *customer* before the transaction is *executed*. If the issue of a written statement in advance of the transaction is impracticable, the *firm* may make an oral disclosure to the *customer* provided it discloses the *charges* and *commission* promptly in writing after the transaction is *executed*.

7.5.8

G
/1

An example of a circumstance in which a *firm* may, under ■ COB 7.5.5, *execute* a *customer order* at a price which is less advantageous than the best available price is when a *firm* has a continuing relationship with a *customer*, and reasonably expects that it will be able to secure compensating advantages for the *customer* in other transactions that should provide best execution for the *customer* over a period or a *series of transactions*. In such cases, the decision would need to be taken and justified in respect of each separate transaction as it arose.

7.6 Timely execution

Application

- 7.6.1 **R**_{/1} This section applies to a *firm* when it agrees or decides in the exercise of its discretion to *execute a current customer order* in a *designated investment*.

Purpose

- 7.6.2 **G**_{/1} In accordance with *Principle 2* (Skill, care and diligence) and *Principle 6* (Customers' interests), this section requires a *firm* when it agrees or decides in its discretion to *execute a current customer order* to do so with due skill, care and diligence and to act in the best interests of *customers* in selecting the most opportune time to *execute the current customer order*.
- 7.6.3 **G**_{/1} This section applies only to *current customer orders*, as opposed to *customer orders*. A *customer order* that can be *executed* immediately is a *current customer order*. A *customer order* that is to be *executed* on fulfilment of a condition, only becomes a *current customer order* once that condition is satisfied.

Achieving timely execution

- 7.6.4 **R**_{/1} Once a *firm* has agreed or decided in its discretion to *execute a current customer order* in a *designated investment*, it must do so as soon as reasonably practicable unless **■ COB 7.6.5** applies.
- 7.6.5 **R**_{/1} **■ COB 7.6.4** does not apply if a *firm* has taken reasonable steps to ensure that postponing the *execution* of a *current customer order* in a *designated investment* is in the best interests of the *customer*.
- 7.6.6 **G**_{/1} Examples of situations in which a *firm* should take particular care to assess the timing of *execution* of all or part of a *current customer order* include when:
- (1) a *firm* receives a *customer order* outside the normal trading hours of the relevant market or trading platform and intends *executing* that *customer order* on that market or other trading platform;

- (2) a foreseeable improvement in the level of liquidity in the relevant *designated investment* is likely to enhance the terms on which the *firm executes* the *customer order*;
- (3) *executing* the *customer order* as a series of partial *executions* over a period of time is likely to improve the terms on which the *customer order* as a whole is *executed*.

7.6.7

G
/1

A *firm* may have reasonable grounds for postponing *execution* of a *current customer order* in the best interests of the *customer*. Examples of this may include when the *deal* is part of an aggregated transaction (see ■ COB 7.7 (Aggregation and allocation)) for:

- (1) one or more *customers*; or
- (2) for the *firm* and one or more *customers* (including all those who would otherwise have priority over any other *person* for whom the *deal* is done);

and the *firm* has taken reasonable steps to ensure that the *deal* will not operate to the disadvantage of any of the *customers* concerned.

7.6.8

G
/1

■ COB 7.12 (Customer order and execution records) contains the requirements for recording *customer order* and *execution* details.

7.7 Aggregation and allocation

Application

7.7.1 **R** This section applies to a *firm* when it aggregates a *customer order* with an *own account order*, or with an order from a *market counterparty*, or with another *customer order*, while conducting *designated investment business*.

/1

Purpose

7.7.2 **G** *Principle 1* (Integrity) requires a *firm* to conduct its business with integrity while *Principle 6* (Customers' interests) requires that *customers* are treated fairly. When a *firm* aggregates and subsequently *executes* an order for *customer, market counterparty* and *own account transactions* collectively, or any combination of them, it should allocate the *designated investments* concerned fairly to all clients.

/1

Requirement for recorded standards and procedures

7.7.3 **R** When a *firm* aggregates a *customer order* with an *own account order*, or with an order from a *market counterparty*, or with another *customer order*, and subsequently allocates the *designated investments* concerned, it must do so in accordance with a written policy on allocation that is consistently applied and that fulfils the requirements of this section.

/1

Aggregation

7.7.4 **R** A *firm* may not aggregate a *customer order* with an *own account order*, or with an order from a *market counterparty*, or with another *customer order*, unless:

/1

- (1) it is likely that the aggregation will not work to the disadvantage of each of the *customers* concerned; and
- (2) it has disclosed either orally or in writing to each *customer* concerned, either specifically or in the *terms of business*, that the

effect of aggregation may work on some occasions to its disadvantage.

Requirement for timely allocation

7.7.5

R

/1

When a *firm* has aggregated a *customer order* with an *own account order*, or with an order from a *market counterparty*, or with another *customer order*, and part or all of the aggregated order has been filled, it must promptly allocate the *designated investments* concerned.

7.7.6

A

/1

- (1) To allocate promptly, a *firm* that has aggregated an order under ■ COB 7.7.4 should complete the allocation of the *designated investments* concerned within one *business day* of the transaction, subject to (2), (3), (4) and (5).
- (2) The period in (1) is within five *business days* if:
 - (a) only *intermediate customers* are concerned; and
 - (b) each of them has agreed to such an extension.
- (3) The period in (1) is within three *business days* if:
 - (a) the aggregated order relates to one or more *ISAs* or *PEPs*; and
 - (b) the *firm* can show that it is necessary to *execute* those transactions in that way in order to serve its *customer's* best interests.
- (4) All transactions in a *series of transactions*, all of which are *executed* within the one *business day*, may be treated as having been *executed* at the time of the last transaction, so long as a record of the time that each individual transaction was *executed* is made, such as by means of a time stamp.
- (5) If transactions in a *series of transactions* occur over more than one *business day*, then the requirement for timely allocation in ■ COB 7.7.5 (and (1), (2) or (3) as appropriate) will apply separately in relation to each *business day* in which any such transaction is *executed*.
- (6) Compliance with (1) may be relied on as tending to establish compliance with ■ COB 7.7.5.
- (7) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 7.7.5.

7.7.7

G

/1

■ COB 8.1.3 (Requirement to confirm transactions) and ■ COB 8.1.5 (Essential details and prompt despatch) allow for a single confirmation to be sent to each

intermediate customer for a *series of transactions* over a period up to and including five *business days*.

7.7.8

G

/1

If, for any reason, a *firm* is not able to allocate the *designated investments* concerned promptly, the reason for the delay should be fully documented and recorded by the *firm*.

Requirement for fair allocation

7.7.9

R

/1

When a *firm* executes an aggregated order that combines:

- (1) a *customer order* and an *own account order*; or
- (2) a *customer order* and an order from a *market counterparty* (other than an *associate* of the *firm*); or
- (3) a *customer order* and another *customer order*;

in the subsequent allocation it must:

- (4) not give unfair preference to the *firm* or to any of those for whom it dealt; and
- (5) where (1) applies, give priority to satisfying *customer orders*, if the aggregate total of all orders cannot be satisfied, unless it can demonstrate on reasonable grounds that without its own participation it would not have been able to *execute* those orders on such favourable terms, or at all.

7.7.10

R

/1

A *firm* may treat the following as a *customer order*:

- (1) a transaction on the account of the life fund of an insurance company, when the insurance company is in the same *group* as the *firm* (or is the *firm*);
- (2) a transaction for the account of an *investment trust* or a *collective investment scheme* that is a *body corporate* in the same *group* as the *firm*;
- (3) a transaction for the account of an *employee* (or a *close relative*) of the *firm* or of its *associate*, or a trustee acting on his behalf, but only when the transaction is undertaken on a pre-established and recorded basis;
- (4) a transaction for the *firm's occupational pension scheme*.

Re-allocation

7.7.11

R

/1

A *firm* may undertake a revised allocation of an aggregated order if:

- (1) an error is identified in either the intended basis of allocation or the actual allocation, provided that the *firm* makes a record of the reason for the re-allocation and completes it within one *business day* of the error being identified; or
- (2) the order is only partially *executed* resulting in an uneconomic allocation to some *customers*; in such a case the *firm* must take reasonable steps to ensure that a re-allocation is in the best interests of the *customers* for whom it has dealt; and
- (3) the revised allocation is carried out in accordance with ■ COB 7.7.12.

Price of allocation

7.7.12

R
/1

When a *firm* has *executed* an aggregated order or is undertaking a revised allocation as described in ■ COB 7.7.11, then it must allocate that order either at:

- (1) the price paid for each *designated investment* concerned (net of all relevant *fees* and *commissions*); or
- (2) a volume-weighted average of the prices of a *series of transactions*.

7.7.13

G
/1

The method of calculating the volume-weighted average price of two transactions in the same *shares* is illustrated as follows:

Transaction 1 – 100 *shares* at £1.00 each

Transaction 2 – 400 *shares* at £2.00 each

Volume-weighted average price = $[(100 \times 1.00) + (400 \times 2.00)] / 500 = £1.80$

Record keeping requirements

7.7.14

R
/1

- (1) A *firm* must, on *executing* an aggregated transaction that includes one or more *customer* orders, make a record of:
 - (a) the identity of each *client* concerned;
 - (b) whether the transaction is to be transacted in whole or in part for a discretionary managed investment portfolio and, if in part, the relevant proportions.
- (2) If a *firm* aggregates a number of *client* orders that include one or more *customer* orders, the *firm* must make a record of the intended basis of allocation as soon as is practicable.

(3) If a *firm* aggregates an order for one or more *customers* and itself, the *firm* must make a record of the intended basis of allocation before the transaction is *executed*.

7.7.15

G

/1

A *firm* may choose to show the relevant proportions as the number of *shares* (or *units*) for each *client* together with the aggregate number of *shares* (or *units*).

7.7.16

R

/1

When allocating an aggregated transaction that includes the *execution* of one or more *customer* orders, a *firm* must make a record of:

- (1) the date and time of the allocation;
- (2) the relevant *designated investment*;
- (3) the identity of each *customer* and *market counterparty* concerned;
- (4) the amount allocated to each respective *customer*, *market counterparty* and to the *firm*; and
- (5) the agreement with each *intermediate customer* to extend the *allocation period* under ■ COB 7.7.6(2)(b).

7.7.17

R

/1

A *firm* must make a record of the basis of and reason for any re-allocation made in accordance with ■ COB 7.7.11 at the time of the re-allocation.

7.7.18

R

/1

A *firm* must retain the records required by ■ COB 7.7 for a period of at least three years from the date on which the order is allocated or re-allocated.

7.8 Realisation of a private customer's assets

Application

7.8.1 **R** This section applies to a *firm* when it:

^{/1}

- (1) seeks a right; or
- (2) seeks to exercise a right;

to realise a *private customer's* assets in order to discharge an obligation of that *private customer* which arises from *designated investment business* conducted by the *firm*.

Purpose

7.8.2 **G** *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. This section therefore aims to ensure that a *firm*, where relevant, discloses to a *private customer*, in the *terms of business*, that it may exercise remedies involving the realisation of assets.

^{/1}

Contractual rights to realise a private customer's assets

7.8.3 **R** A *firm* must not realise a *private customer's* assets unless it is legally entitled to do so, and it has either:

^{/1}

- (1) set out in the *terms of business* provided to the *private customer* in accordance with **■ COB 4.2.5** (Requirement to provide terms of business to a customer) (or a *client agreement* entered into in accordance with **■ COB 4.2.7** (Requirement to enter into a client agreement with a private customer)):
 - (a) the action it may take to realise any assets of the *private customer*;
 - (b) the circumstances in which it may do so; and
 - (c) each asset (if relevant) or type or class of asset over which it may exercise the right; or

-
- (2) given the *private customer* notice (oral or written) of its intention to exercise its rights at least three *business days* before it does so.

7.9 Lending to private customers

Application

- 7.9.1 **R** ^{/1} This section applies to a *firm* when it lends *money* or grants *credit* to a *private customer* or arranges for any other *person* to do so, in the course of, or in connection with, its *designated investment business*.

Purpose

- 7.9.2 **G** ^{/1} *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. This section seeks to ensure that a *firm* lends money or grants *credit* to a *private customer* only in appropriate circumstances, and only if the *customer* has given prior consent in full knowledge of any resulting interest and *fees*.

Restrictions on lending to private customers

- 7.9.3 **R** ^{/1} A *firm*, subject to the exceptions in **■ COB 7.9.5**, must not lend *money* or grant *credit* to a *private customer* (or arrange for any other person to do so) in the course of, or in connection with, its *designated investment business* unless:
- (1) the *firm* has made and recorded an assessment of the *private customer's* financial standing, based on information disclosed by the *private customer*;
 - (2) the *firm* has taken reasonable steps to ensure that the arrangements for the loan or *credit* and the amount concerned are suitable, based on the information disclosed by the *private customer*, for the type of *investment agreement* proposed or which the *private customer* is likely to enter into; and
 - (3) the *private customer* has given his prior written consent to both the maximum amount of the loan or *credit* and the amount or basis of any interest or *fees* to be levied in connection with the loan or *credit*.

7.9.4 **G**_{/1} When the provisions of the Consumer Credit Act 1974 apply, the *firm* should ensure that it has an appropriate licence under that Act and that it complies with all that Act's requirements (details are available from the Office of Fair Trading).

Exceptions

7.9.5 **R**_{/1} ■ COB 7.9.3 does not apply when:

- (1) a *firm* settles a *securities* transaction of the *private customer* because he has failed to pay or has paid late; or
- (2) a *firm* covers a margin call made on a *private customer* for a period of no longer than five *business days*.

7.9.6 **G**_{/1} A *firm* should consider whether the circumstances mentioned in ■ COB 7.9.5 give rise to any obligations under the *client money rules* to maintain adequate *client money* resources.

Record keeping requirements

7.9.7 **R**_{/1} A *firm* must make a record of the information about the *private customer's* financial standing upon which the assessment required by ■ COB 7.9.3(1) was made, including the date on which the information was last updated or checked, and retain the record for three years from the date on which the *credit* arrangements ceased.

7.10 Margin requirements

Application

- 7.10.1** **R** _{/1} This section applies to a *firm* which *executes* a transaction in a *contingent liability investment* with or for a *private customer*, in the course of, or in connection with, its *designated investment business*.

Purpose

- 7.10.2** **G** _{/1} *Principle 3* (Management and control) requires a *firm* to have adequate risk management systems, while *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. This section aims to ensure that a *firm* does not expose itself to unacceptable levels of *credit* risk while managing its *margin requirements*. It also aims to ensure that a *firm* manages a *private customer's* exposure to contingent liabilities by diligently monitoring the *firm's* relevant provision of *credit*.

Provision of margin by a private customer

- 7.10.3** **R** _{/1} (1) A *firm* must obtain from a *private customer* any margin payable, whether at the outset or subsequently, by or to the *firm*, for a transaction in a *contingent liability investment*.
- (2) The minimum margin to be obtained from a *private customer* in accordance with (1) for an *on-exchange* transaction in a *contingent liability investment* is an amount or value equal to the margin requirements of the relevant exchange or *clearing house*.

- 7.10.4** **G** _{/1} Before conducting a transaction with or for a *private customer*, a *firm* should notify the *customer* of:
- (1) the circumstances in which the *customer* may be required to provide any margin;
 - (2) the form in which the margin may be provided;
 - (3) the steps the *firm* may be required or entitled to take if the *customer* fails to provide the required margin, in accordance with **■ COB 7.10.5**, including:

- (a) the fact that the *customer's* failure to provide margin may lead to the *firm* closing out his position after a time limit specified by the *firm*;
- (b) the circumstances in which the *firm* will have the right or duty to close out the *customer's* position; and
- (4) the circumstances, other than failure to provide the required margin, that may lead to the *firm* closing out the *customer's* position without prior reference to him.

Failure to meet a margin call

7.10.5

R

/1

A *firm* must close out a *private customer's* open position if that *customer* fails to meet a margin call made for that position for five *business days* following the date on which the obligation to meet the call accrues, unless:

- (1) (a) the *firm* has received confirmation from a relevant third party that the *private customer* has given instructions to pay in full; and
- (b) the *firm* has taken reasonable care to establish that the delay in its receipt is owing to circumstances beyond the *private customer's* control; or
- (2) the *firm* makes a loan or grants *credit* to the *private customer* to enable that *customer* to pay the full amount of the margin call in accordance with the requirements of ■ COB 7.9.3 (Restrictions on lending to private customers).

7.10.6

G

/1

In ■ COB 7.10.5(1) (a), a 'relevant' third party includes a party connected with the transaction such as a *clearing firm*.

7.11 Non-exchange traded securities

Application

- 7.11.1 **R** This section applies to a *firm* that conducts *designated investment business* with or for a *private customer* and:
/1
- (1) sells to the *customer* any *security* that is not traded on a *recognised investment exchange*, a *designated investment exchange* or any *regulated market*; and
 - (2) holds itself out as a *market maker* in that *security*.

Purpose

- 7.11.2 **G** This section aims to ensure that a *firm deals* fairly with a *private customer* in
/1 relation to the sale and subsequent purchase of a non-exchange traded *security*.

Requirement for selling non-exchange traded securities to private customers

- 7.11.3 **R** A *firm* must:
/1
- (1) give written notice to a *private customer*, no later than the time of sale, that:
 - (a) a reasonable price for repurchase of the *security* will be available to the *private customer* for a period, specified in that notice, that must not be less than three months from the date the notice is given; and
 - (b) sale by the *private customer* of the *security* after the end of that period may be difficult due to the nature and possible illiquidity of the *security*; and
 - (2) ensure that a reasonable price is available to the *private customer* for the duration of the period specified in the notice.

7.11.4 G_{/1} In establishing a reasonable price a *firm* should consider factors that are of direct relevance to the particular *security*, for example that a company has announced (unanticipated) substantially increased profits.

7.11.5 G_{/1} Factors that the *firm* took into account when the original sale was done should, if these remain unchanged, be taken into account in the same way when the price is established for the purchase of the *security* back from the *private customer*. *Firms* should take care to ensure that fluctuations in price are not solely or mainly justified by reference to an absence of liquidity, unless this reflects factors that are directly relevant to the particular *security*.

7.12 Customer order and execution records

Application

7.12.1

R

/1

This section applies to a *firm* that:

- (1) receives (or, in the exercise of its discretion, decides upon) a *customer order*;
- (2) *executes a customer order*;
- (3) passes a *customer order* to another *person* for *execution*; or
- (4) in addition to (1), (2) or (3), also *executes own account transactions*;

in any *designated investment* other than a *life policy*.

Purpose

7.12.2

G

/1

Principle 3 (Management and control) requires a *firm* to take reasonable care to organise and control its affairs responsibly and effectively. This section aims to ensure that a *firm* makes and retains records of *customer orders* and other transactions in the course of adhering to the *customer order execution* requirements in ■ COB 7.4 (Customer order priority), ■ COB 7.5 (Best execution) and ■ COB 7.6 (Timely execution).

Record keeping requirement

7.12.3

R

/1

A *firm* must ensure by the establishment and maintenance of appropriate procedures that it promptly records adequate information in relation to the events in ■ COB 7.12.1, including any *own account transactions*.

7.12.4

A

/1

- (1) When an event in the left-hand column of ■ COB 7.12.6 occurs, a *firm* should make a record of the matters set out in the right-hand column that relate to that event.

- (2) Compliance with (1) may be relied on as tending to establish compliance with ■ COB 7.12.3.
- (3) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 7.12.3.

7.12.5

/1

In addition to the information referred to in ■ COB 7.12.4, other information that the *firm* considers prudent should be recorded.

7.12.6

/1

Table Minimum contents of customer order and execution records
This table belongs to ■ COB 7.12.3

When:		The firm should record:	
(1)	a <i>customer order</i> arises	(a)	the <i>customer's</i> name or other designation and account number;
		(b)	the date and time of: <ul style="list-style-type: none"> (i) receipt by the <i>firm</i> of the <i>customer order</i>; or (ii) the decision by the <i>firm</i> to <i>deal</i>;
(1)	a <i>customer order</i> arises	(c)	the identity of the <i>employee</i> who received the <i>customer order</i> or made the decision in (b)(i) and (ii);
		(d)	<ul style="list-style-type: none"> (i) the <i>designated investment</i> concerned; and (ii) the number of, or total value of, the <i>designated investment</i> (including any price limit);
(1)	a <i>customer order</i> arises	(e)	whether the <i>customer order</i> is for a purchase or sale; and
		(f)	any other instruction received by the <i>firm</i> from the <i>customer</i> with regard to the <i>execution</i> of the <i>customer order</i> (including the nature of the communication, for example, telephone, fax, letter, email).
(2)	the <i>firm</i> executes a transaction	(a)	the name or other designation and account number of the <i>client</i> (if any) for whom the transaction was <i>executed</i> (unless the transaction was an <i>own account transaction</i>);
		(b)	the name of the counterparty, if known to the <i>firm</i> ;
		(c)	the date and if available, the time of the transaction;
		(d)	the identity of the <i>employee</i> executing the transaction;

When:		The firm should record:	
(3)	the <i>firm</i> passes a <i>customer order</i> to another <i>person</i> for <i>execution</i>	(e)	(i) the <i>designated investment</i> concerned; and (ii) the number of, or total value of, the <i>designated investment</i> ;
		(f)	the price and other significant terms (including exchange rate details if relevant);
		(g)	whether the transaction was a purchase or a sale; and
		(h)	whether the <i>firm</i> was acting as <i>principal</i> as well as on behalf of its <i>customer</i> .
		(a)	the name of the <i>person</i> instructed;
		(b)	the terms of the instruction; and
		(c)	the date and time that the instruction was given.

7.12.7 G_{/1} When a *firm* aggregates and subsequently allocates a *customer order* with an *own account transaction* or with another *customer order*, the time and price required to be recorded by ■ COB 7.12.6(2)(c) and (f) will be determined in accordance with the provisions in ■ COB 7.7.5 (Requirement for timely allocation) and ■ COB 7.7.12 (Price of allocation) respectively.

7.12.8 G_{/1} For the purposes of ■ COB 7.12.3, if information is recorded as soon as practicable following receipt or *execution*, then the *FSA* will regard it as having been recorded promptly. When information required to be recorded is supplied to the *firm* by someone else, it should be recorded upon receipt.

Orders received over the Internet

7.12.9 G_{/1} When a *firm* gives a *customer* access to market information, that is updated continuously in line with the relevant market, in conjunction with the ability to place a *customer order* by relying on such market information, and the *customer order* is *executed* automatically upon receipt, the *firm* should record the price, even if only indicative, which the *customer* relied on when placing the *customer order*, as part of the information required to be recorded in accordance with ■ COB 7.12.3.

7.12.10 G_{/1} When a *firm* provides market information as described in ■ COB 7.12.9, and the *customer order* is submitted over the Internet but is not executed automatically upon receipt, the *firm* should record the price displayed on the screen at the time the *customer order* is placed, as part of the information required to be recorded in accordance with ■ COB 7.12.3.

Period of retention

7.12.11

R

/1

A *firm* must retain the records referred to in ■ COB 7.12.3 for a period of at least three years after the date of the event in the left-hand column of ■ COB 7.12.6.

7.13 Personal account dealing

Application

7.13.1 **R** This section applies to a *firm* that conducts *designated investment business*.
/1

7.13.2 **G** This section has been written in accordance with the FSA's responsibilities under articles 10 and 11 of the *Investment Services Directive*. These rules also form part of the conditions applied to *EEA firms* with a *UK branch* office in the interest of the general good under article 17 of the *Investment Services Directive*.
/1

Purpose

7.13.3 **G** *Principle 3* (Management and control) requires a *firm* to take reasonable care to organise and *control* its affairs responsibly and effectively. *Principle 8* (Conflicts of interest) requires a *firm* to manage conflicts of interest fairly between itself and its *customers*. This section is designed to ensure that a *firm's customers* are not disadvantaged by the personal dealings of the *firm's employees*. *Firms* will, therefore, need to ensure that appropriate controls and monitoring arrangements are implemented and maintained.
/1

Restrictions on personal account dealing

7.13.4 **R** A *firm* must take reasonable steps to ensure that:
/1

- (1) a *personal account transaction* in a *designated investment* undertaken by any of its *employees* does not conflict with the *firm's* duties to its *customers* under the *regulatory system*, unless **COB 7.13.6** applies; and
- (2) when it gives permission to an any of its *employees* to undertake a *personal account transaction*, it receives prompt notification of, or is otherwise able to identify, that transaction.

7.13.5 **G** *Firms* should note that an *employee* is defined in the *Glossary* (for the purposes of this section) as meaning not just an individual who is employed or appointed by a *firm* but also an individual who is:
/1

- (1) an *appointed representative* of a *firm*; or

- (2) employed or appointed by an *appointed representative* of a *firm*, whether under a contract of service or services or otherwise.

So, where a *firm* has one or more *appointed representatives*, ■ COB 7.13.4 will apply to the *firm* in relation to, for example, *employees* of its *appointed representative* in exactly the same way as it would were those individuals employed by the *firm* itself.

Exceptions

7.13.6

■ COB 7.13.4 does not apply to:

/1

- (1) an *employee* who is a *sole trader* whose *regulated activities* consist only of *own account transactions*; or
- (2) an *employee*, if the *firm* has taken reasonable steps to determine that the *employee* will not be involved to any material extent in, or have access to information about, the *firm's designated investment business*.

Reasonable steps

7.13.7

(1) For the purposes of ■ COB 7.13.4, a *firm's* "reasonable steps" should ensure that:

/1

- (a) the restrictions, and the basis, if any, upon which its *employees* may undertake *personal account transactions*, are set out in a written notice drawn explicitly to the attention of each *employee*, and that the contents of such a notice are made a term of his contract of employment or contract for services;
- (b) the written notice in (1)(a) states that, if an *employee* is precluded from entering into a transaction for his own account, he must not (except in the proper course of his employment):
 - (i) procure any other *person* to enter into such a transaction; or
 - (ii) communicate any information or opinion to any other *person* if he knows, or ought to know, that the *person* will, as a result, enter into such a transaction, or counsel or procure some other *person* to do so; and
- (c) procedures are established and maintained by the *firm* that are appropriate to its business, and that are designed with a view to ensuring that:

- (i) each of its *employees* does not undertake a *personal account transaction* in a *designated investment* unless the *firm* has given its permission in writing to that transaction, or to transactions generally in *designated investments* of that kind;
 - (ii) when the *firm* gives such permission, the requirements in ■ COB 7.13.4(1) and (2) are complied with.
- (2) Compliance with (1) may be relied upon as tending to establish compliance with ■ COB 7.13.4.
- (3) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 7.13.4.

7.13.8 G
/1 A *firm* will be able to identify its *employees' personal account transactions* under ■ COB 7.13.4(2) if it designates its *employees' own accounts* in a way that enables them to be distinguished from other *customers' accounts*.

7.13.9 G
/1 When an *employee* undertakes a *personal account transaction* through a *person* other than the *firm* or its *associate*, a copy of the note confirming details of the transaction issued by that *person* will be sufficient notification for the purposes of ■ COB 7.13.4(1).

7.13.10 G
/1 *Firms* should note that for the purposes of ■ COB 7.13.7(1), while they may look to a third party to make the appropriate arrangements to ensure that the "reasonable steps" referred to in that provision are taken, ultimate responsibility for ensuring that such steps are in fact carried out rests with the *firm*. Therefore a *firm*, which has entered into arrangements with its *appointed representative* under which that *appointed representative* agrees to carry out the steps in ■ COB 7.13.7 (1) (a) and (b) in relation to individuals employed by the *appointed representative*, remains responsible should the *appointed representative* fail, for any reason, to carry out the necessary steps. In relation to ■ COB 7.13.7(1) (c) (i) and (ii), it should be noted that all permissions have to be given by the *firm* itself.

Record keeping requirements

- 7.13.11** R
/1 (1) A *firm* must make a record of:
- (a) the restrictions upon personal account dealing and the basis upon which any permission to *deal* is made;
 - (b) each permission given by it under ■ COB 7.13.4(2);
 - (c) each notification made to it under ■ COB 7.13.4(2);
 - (d) in respect of ■ COB 7.13.6(2), the basis upon which the *firm* has determined that an *employee* will not be involved in, or have access to information about, the *firm's designated investment business*; and

retain these records for the minimum period specified in (2), (3) or (4), as the case may be.

- (2) In relation to a record under (1)(a), the period is three years from the date that the restrictions or basis were communicated to the *employee*.
- (3) In relation to each permission and notification in (1)(b) and (c), the period is three years from the date that the permission or notification was made.
- (4) In relation to a record under (1)(d), the period is three years after the date on which the individual ceases to be an *employee*.

7.13.12

G

^{/1}

A *firm's* records under ■ COB 7.13.11(1) should be sufficiently detailed to identify the position in relation to (1)(a) to (d) for each of its *employees*. So where the firm gives permission under (1)(b) to a particular *employee*, as opposed to *employees* generally, an individual record of that permission is required to be made and retained. However, where the *firm's* restrictions on personal account dealing are set out in, for example, a standard booklet which is issued to all its *employees*, it is sufficient for the purposes of (1)(a) for the *firm's* records to show what global restrictions were in place at any given moment in time and it is not necessary for there to be a record of each booklet that was issued to each *employee*.

7.14 Programme trading

Application

- 7.14.1** G_{/1} This section applies to a *firm* when it *executes* a programme trade that includes one or more *designated investments*. The term 'programme trade' is used in this section to describe a single transaction or *series of transactions executed* for the purpose of acquiring or disposing, for a *customer*, of all or part of a portfolio or a large basket of *securities*.

Purpose

- 7.14.2** G_{/1} *Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. This section provides *guidance* on the steps a *firm* should take when *executing* a programme trade, either as *principal* or agent, whenever a *customer* is involved.

Programme trading

- 7.14.3** G_{/1} Before a *firm executes* a programme trade, it should disclose to its *customer* whether it will be acting as a *principal* or agent, unless the *customer* has given prior notification that no such notice is required. A *firm* should not subsequently act in a different capacity from that which is disclosed without the prior consent of the *customer*.
- 7.14.4** G_{/1} A *firm* should ensure that neither it, nor an *associate*, *executes* an *own account transaction* in any *designated investment* included in a programme trade, unless the *firm* has notified the *customer* in advance that it may do this, or can otherwise demonstrate that it has provided fair treatment to the *customer* concerned.
- 7.14.5** G_{/1} **COB 7.5.6(1)(e)** (Providing best execution) provides that a *firm* should ensure that it applies the duty of care in **COB 7.5.5(1)** (Providing best execution) to each individual transaction *executed* as part of a programme trade, subject to the exceptions in **COB 7.5.4** (Exceptions).

7.15 Non-market-price transactions

Application

- 7.15.1 **R** This section applies to a *firm* when it conducts *designated investment business* with or for a *customer*.
/1

Purpose

- 7.15.2 **G** *Principle 1* (Integrity) requires a *firm* to conduct its business with integrity, whilst *Principle 5* (Market conduct) requires a *firm* to observe proper standards of market conduct. In general, *firms* should undertake transactions at the prevailing market price. Failure to do this may result in a *firm* participating, whether deliberately or unknowingly, in the concealment of a profit or loss, or in the perpetration of a fraud. A *firm* should therefore not enter into a *non-market-price transaction* unless it has taken reasonable steps to ensure that the transaction is not illegal or otherwise for an improper purpose.
/1

Non-market-price transactions

- 7.15.3 **R** Subject to **■ COB 7.15.4**, a *firm* must not, as agent or *principal*, enter into a *non-market-price transaction* under which it *deals* in a *designated investment* with or for a *customer*, unless it has taken reasonable steps to ensure that the transaction is not being entered into by the *customer* for an improper purpose.
/1

- 7.15.4 **R** **■ COB 7.15.3** does not apply to a *non-market-price transaction* if it is subject to the rules of a *recognised investment exchange*.
/1

- 7.15.5 **G** For further *guidance*, *firms* are referred to the corresponding provisions on *non-market-price transactions* set out in **■ MAR 3** (Inter-professional conduct), in particular **■ MAR 3.5.7**(Non-market-price transactions). Although these provisions apply to a *firm's* bilateral dealings with a *market counterparty*, they are also relevant to business conducted with or for *customers*.
/1

Chapter 8

Reporting to customers

8.1 Confirmation of transactions

Application

- 8.1.1 **R**_{/1} This section applies to a *firm* when it *executes* a sale or purchase of a *designated investment* with or for a *customer*.

Purpose

- 8.1.2 **G**_{/1} *Principle 7* (Communications with clients) requires a *firm* to pay due regard to the information needs of its *customers*. The provisions in **■ COB 8.1** are designed to ensure that *customers* are promptly advised of the essential details of a transaction. *Firms* are obliged to despatch these details, except in certain circumstances when they are supplied by someone else, or at a later date, or if the *customer* waives the right to receive the information.

Requirement to confirm a transaction

- 8.1.3 **R**_{/1} (1) A *firm* must, subject to **■ COB 8.1.6**, despatch to the *customer* a written confirmation recording the essential details of the transaction, and must do so promptly.
- (2) For the purposes of (1), a *firm* may despatch a confirmation to an agent, other than the *firm* or an *associate* of the *firm*, nominated by the *customer* in writing.
- 8.1.4 **G**_{/1} (1) Regarding the electronic provision of a confirmation, see **■ COB 1.8** (Application to electronic media).
- (2) A *firm* may comply with **■ COB 8.1.3(1)** by posting a confirmation on its website, provided that the confirmation is only accessible to the party that placed the order. If the *firm* does this for a *private customer*, it should regularly review the website to ensure that the *customer* has reviewed his confirmations. If the *private customer* has not accessed his confirmation within five days of it being posted on the website, the *firm* should send the confirmation to him either in hard copy or electronically.

Essential details and prompt despatch

8.1.5

/1

- (1) A *firm* should provide the following essential details of a transaction, to the extent they are relevant:
- (a) the information specified in:
 - (i) ■ COB 8.1.15 for all transactions;
 - (ii) ■ COB 8.1.16 in particular circumstances;
 - (iii) ■ COB 8.1.17 for transactions in *units* in a *regulated collective investment scheme*;
 - (iv) ■ COB 8.1.18 for transactions in *derivatives*;
 - (v) ■ COB 8.1.19 upon the exercise of an *option*; or
 - (b) such information as the *customer* has on his own initiative agreed with the *firm*, or is in accordance with the custom of a non-UK market in which the transaction was arranged; or
 - (c) a copy of a confirmation received by the *firm* from a third party together with any other information provided by the *firm* which, when taken together, satisfies (1)(a).
- (2) To despatch a confirmation promptly, a *firm* should:
- (a) despatch it no later than the *business day* following the *day* the transaction was *executed* (as specified in ■ COB 8.1.12) or within any period specified by the *customer* on his own initiative; or
 - (b) despatch a copy of a confirmation received from a third party together with additional information, if any, to the *customer* as soon as practicable, but in any event no later than the *business day* following receipt; and
 - (c) despatch it at the latest on the *business day* following the *day* the *issue* or *redemption price* was determined, when the *firm* has *issued* or *redeemed units* in a *regulated collective investment scheme*, unless (b) applies.
- (3) Compliance with (1) and (2) may be relied upon as tending to establish compliance with ■ COB 8.1.3.
- (4) Contravention of (1) or (2) may be relied upon as tending to establish contravention of ■ COB 8.1.3.

Exceptions to the requirement to despatch a confirmation

8.1.6

/1

A *firm* need not despatch a confirmation when:

- (1) the *designated investment* is a *life policy* or a *personal pension contract*; or
- (2) an arrangement is in place for the *customer* to make a series of payments for the purchase of *units* in a *regulated collective investment scheme* or of *shares* in an *investment trust* (including one-off payments made in addition to those in the series); or
- (3) the *firm* has been requested by the *customer* in writing not to supply confirmations, either generally or in specified circumstances (but see ■ COB 8.1.7 and ■ COB 8.1.8); or
- (4) the *firm* is acting as an *investment manager*, or as an *ISA manager* or *plan manager*, and:
 - (a) the *designated investment* is not a *contingent liability investment*;
 - (b) the *firm* has taken reasonable steps to determine that the *customer* does not wish to receive confirmations, either generally or in specified circumstances; and
 - (c) the *firm* complies with ■ COB 8.1.7 or ■ COB 8.1.8; or
- (5) it would duplicate a confirmation containing the essential details of the transaction (other than those that are *firm-specific*) which is to be promptly despatched by someone else.

8.1.7

R

/1

A *firm* which is not an *OPS firm* referred to in ■ COB 8.1.8 may rely upon the exceptions in ■ COB 8.1.6(3) or ■ COB 8.1.6(4) only if it provides to the *customer* a *periodic statement* containing the information that would have been contained in a confirmation despatched in accordance with ■ COB 8.1.3 (other than information which has since become irrelevant) relating to the transactions *executed* during the relevant period.

8.1.8

R

/1

An *OPS firm* conducting *OPS activity* for an *OPS trustee* which is an *intermediate customer* of the *OPS firm*, and is habitually resident in the *United Kingdom*, may rely upon the exceptions in ■ COB 8.1.6(3) or ■ COB 8.1.6(4) only if it provides a *periodic statement* containing the information required by ■ COB 8.2.10(3)(c).

8.1.9

G

/1

The request in ■ COB 8.1.6(3) includes a general request as well as a request made on any specific occasion.

8.1.10

G

/1

If the *firm* *executes a series of transactions*, or aggregates orders, it should modify the information to be provided as necessary, to ensure that the confirmation is clear, fair and not misleading, as required by ■ COB 2.1.3.

PAGE
4

When a confirmation may omit certain information

8.1.11

R

If:

/1

- (1) anyone fails to supply information which the *firm* requires for inclusion in a confirmation; or
- (2) the transaction involves a conversion of one currency into another and that conversion has not been made by the *firm*;

the *firm* may omit this information from the confirmation, provided the fact of its omission is stated with an indication that it is to be supplied later (or that it cannot be supplied at all if that is the case). The relevant information must then be supplied to the *customer* promptly after receipt.

When a transaction is treated as executed

8.1.12

R

(1) When a *firm* executes a transaction outside normal market hours, the transaction must be treated as *executed* on the following *business day*.

/1

(2) When a *firm* executes a series of transactions, all the transactions may be treated as *executed* at the time of the last transaction so long as a record of the time that each individual transaction was *executed* is made, for example, by means of a time stamp.

(3) When a *firm* aggregates and then subsequently allocates a *customer order* with an *own account order* or with another *customer order*, the transaction must be treated as *executed* at the time of allocation under ■ COB 7.7.5 (Requirement for timely allocation).

8.1.13

G

Any right of the *customer* to cancel the *designated investment* does not affect the time when the transaction is treated as *executed*.

/1

Record keeping requirements

8.1.14

R

A *firm* must make a copy of the confirmation information despatched to a *customer* under ■ COB 8.1.3 and retain it for three years from the date of despatch.

/1

8.1.15

E

Table Content of a confirmation of transaction – general requirements
This table belongs to ■ COB 8.1.5

/1

Content of a confirmation of transaction – general requirements

1. The *firm's* name and address.
2. That the *firm* is regulated or authorised by the Financial Services Authority.
3. If the *firm* (other than the *operator of a regulated collective investment scheme*) executed the transaction as *principal*, that fact.
4. The *customer's* name or other designation and account number.
5. A description of the *designated investment*, including the amount invested.
6. Whether the transaction is a sale or purchase.
7. The *unit price* at which the transaction was *executed*, and, if the *unit price* is averaged including any price set in accordance with COB 7.7.12R (Price of allocation), a statement of that fact.
8. The date of the transaction.
9. Either:
 - (a) the time of the transaction; or
 - (b) a statement that information about the time of the transaction will be supplied on request.
10. The total consideration payable and the date on which it is due.
11. The *remuneration* of the *firm* (other than the *operator of a regulated collective investment scheme* subject to COB 8.1.17E) and that of any *associate* in connection with the transaction, distinguishing:
 - (a) the amount of any *commission* charged; and
 - (b) the basis on which the *commission* has been determined, unless all *commission* charged to the *customer* has already been disclosed to him; and
 - (c) if the *firm* or an *associate* acted as *principal* in *executing* the transaction, and owes a duty of best execution, the amount of any *mark-up* or *mark-down* (unless the firm is the *operator of a regulated collective investment scheme*, in which case CIS 8.5.6(3)R (Exemptions from liability to account for profits) applies.
12. The amount of any *fees*, taxes or duties, unless included in *remuneration* mentioned in 11.

8.1.16

Table Content of a confirmation of transaction – additional content in particular circumstances
This table belongs to ■ COB 8.1.5

Content of a confirmation of transaction – additional content in particular circumstances

If the transaction involves:	The confirmation should state:
1. a conversion of currency;	the rate of exchange obtained;

PAGE
6

Content of a confirmation of transaction – additional content in particular circumstances		
2.	a <i>firm</i> receiving any payment or reward from another <i>person</i> in connection with the transaction;	unless a prior written statement to this effect has been made to the <i>customer</i> , the amount or basis of any payment or reward or the fact that this will be made available on request;
3.	the <i>firm</i> being remunerated for acting as an agent for the <i>market counterparty</i> to the transaction as well as acting as agent for the <i>customer</i> ;	that fact;
4.	a right to receive interest on an <i>investment</i> (for example, in relation to a <i>government or public security</i>);	(a) if not part of the transaction price, the amount of interest which the purchaser is entitled to receive; and (b) any part of the total consideration which is specifically attributable to the right in (a);
5.	<i>charges</i> shared with another <i>person</i> (except <i>employees</i>);	unless a prior written statement to this effect has been made to the <i>customer</i> , the amount or basis of any shared <i>charges</i> , or the fact that this will be made available on request;
6.	a <i>security</i> which is not a <i>packaged product</i> or a <i>readily realisable security</i> and the <i>firm</i> acted as a <i>principal</i> in <i>executing</i> the transaction with the <i>customer</i> and there is no calculable <i>mark-up or mark-down</i> ;	how the <i>unit price</i> of the transaction was arrived at;
7.	<i>units</i> in an <i>unregulated collective investment scheme</i> of which the <i>firm</i> or one of its <i>associates</i> is the <i>operator</i> ;	the amount or percentage of the <i>operator's</i> initial <i>charges</i> included in the price of those <i>units</i> ;

Content of a confirmation of transaction – additional content in particular circumstances

8.	the <i>firm's</i> or an <i>associate's remuneration</i> being passed on by the <i>firm</i> to a third party as a reward for introducing the business;	the identity of the third party and the amounts passed on or the fact that details of such arrangements will be made available on request;
9.	any dividend or capitalisation or other right which has been declared, but which has not been paid, allotted or otherwise become effective in respect of the <i>investment</i> , and under the terms of the transaction the benefit of which will not pass to the purchaser.	that fact.

8.1.17

Table Content of a confirmation of a transaction – additional content relating to transactions in units in a regulated collective investment scheme
This table belongs to ■ COB 8.1.5

Content of a confirmation of transaction – additional content relating to transactions in units in a regulated collective investment scheme

1.	If the <i>firm</i> is not the <i>operator</i> and the transaction was <i>executed</i> with the <i>customer</i> by the <i>firm</i> as <i>principal</i> , that fact.	
2.	The name of the <i>scheme</i> and the type and number of <i>units</i> involved.	
3.	The amount of:	
	(a)	the <i>operator's</i> initial <i>charges</i> , if any; and
	(b)	any <i>charges</i> (other than the initial <i>charges</i>) made by the <i>firm</i> to the <i>customer</i> in respect of the transaction and, unless such <i>charges</i> to the <i>customer</i> are made on the same basis, the basis on which the amount of the <i>charges</i> was determined.
4.	A statement that the price at which the transaction has been <i>executed</i> is on an <i>historic price</i> or <i>forward price</i> basis, as the case may be.	

8.1.18

Table Content of a confirmation of a transaction – additional content relating to transactions in derivatives
This table belongs to ■ COB 8.1.5

Content of a confirmation of transaction – additional content relating to transactions in derivatives

1.	The maturity, delivery or expiry date of the <i>derivative</i> .
2.	In the case of an <i>option</i> , a reference to the last exercise date, whether it can be exercised before maturity and the strike price.

Content of a confirmation of transaction – additional content relating to transactions in derivatives

- 3. If the transaction involved, or will involve, the purchase of one currency with another, the rate of exchange involved or a statement that the rate will be supplied when the currency has been purchased, including the maturity or expiry date of any currency hedge, unless the currency hedge is separately reportable under *COB* 8.1.3R.
- 4. If the transaction *closes out* an open *futures* position, all essential details required in respect of each contract comprised in the open position and each contract by which it was *closed out* and the profit or loss to the *customer* arising out of *closing out* that position (a difference account).

8.1.19

Table Content of a confirmation of transaction – additional content on exercise of an option
This table belongs to ■ *COB* 8.1.5

Content of a confirmation of transaction – additional content on exercise of an option (exercise confirmations)

- 1. The date of exercise, and either the time of exercise or that the *customer* will be notified of that time on request.
- 2. Whether the exercise creates a sale or purchase in the underlying asset.
- 3. The strike price of the *option* (for a currency *option*, the rate of exchange will be the same as the strike price) and, if applicable, the total consideration from or to the *customer*.

8.2 Periodic statements

Application

8.2.1

R

/1

This section applies to a *firm* when it:

- (1) acts as an *investment manager*, or administers any other account or portfolio which includes *designated investments*, for a *customer*; or
- (2) operates a *customer's* account containing uncovered open positions in a *contingent liability investment*.

8.2.2

G

/1

Examples of uncovered open positions include:

- (1) selling a call *option* on an *investment* not held in the portfolio;
- (2) unsettled sales of call *options* on currency in amounts greater than the portfolio's holding of that currency in cash or in *readily realisable securities* denominated in that currency; and
- (3) transactions having the effect of 'selling' an index to an amount greater than the portfolio's holdings of *designated investments* included in that index.

Purpose

8.2.3

G

/1

Principle 7 (Communications with clients) requires a *firm* to pay due regard to the information needs of its *customers*. A *firm* should therefore supply the *customer* with a regular statement, on a timely basis, providing information on the *customer's investment* portfolio.

Requirement for a periodic statement

8.2.4

R

/1

A *firm* must, promptly and at suitable intervals, provide the *customer* with a written statement containing adequate information on the value and composition of the *customer's* account or portfolio with the *firm*, as at the end of the period covered by the statement, unless **■** COB 8.2.6 applies.

- 8.2.5  For *periodic statements* provided electronically, *firms* are referred to the *guidance* in ■ COB 1.8 (Application to electronic media).

Exceptions from the requirement to provide a periodic statement

- 8.2.6  A *firm* need not:
- (1) provide a *periodic statement*:
 - (a) to a *private customer* habitually resident outside the *United Kingdom*;
 - (b) to an *intermediate customer*, if the *firm* is not an *OPS firm*;
 - (c) to an *intermediate customer* habitually resident outside the *United Kingdom*, if the *firm* is an *OPS firm*;

if the *customer* concerned has so requested or the *firm* has taken reasonable steps to establish that he does not wish to receive it; or

- (2) provide a *periodic statement* if it would duplicate a statement to be provided by someone else.

Promptness, suitable intervals and adequate information

- 8.2.7  (1) In order to comply with ■ COB 8.2.4, a *firm*, other than an *OPS firm* conducting *OPS activity*, should take the steps set out in ■ COB 8.2.10.
- (2) Compliance with (1) may be relied on as tending to establish compliance with ■ COB 8.2.4.
 - (3) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 8.2.4.

OPS firms

- 8.2.8  (1) In order to comply with ■ COB 8.2.4, an *OPS firm* conducting *OPS activity* should:
- (a) comply with ■ COB 8.2.10(1) and (2) and ■ COB 8.2.15 in all circumstances;
 - (b) comply with ■ COB 8.2.10(3)(a) and (b) if the *customer* is a *private customer*; and
 - (c) comply with ■ COB 8.2.10(3)(c) if the *customer* is an *intermediate customer* and the *firm* relies on the exception in ■ COB 8.1.6(3)

or ■ COB 8.1.6(4) from the requirement to provide confirmations.

- (2) Compliance with (1)(a) and, where applicable, (b) and (c) may be relied on as tending to establish compliance with ■ COB 8.2.4.
- (3) Contravention of (1)(a) or, where applicable, (b) or (c) may be relied on as tending to establish contravention of ■ COB 8.2.4.

Record keeping requirements

8.2.9

A *firm* must make a copy of any *periodic statement*, and retain it for three years from the date on which it was provided.

/1

8.2.10

Table Periodic statements – timing and content
This table belongs to ■ COB 8.2.7

/1

Periodic statements: timing and content			
Promptness	(1)	(a)	A <i>periodic statement</i> should be provided to a <i>private customer</i> within 25 <i>business days</i> after the end of the period to which the statement relates.
		(b)	A <i>periodic statement</i> should be provided to a <i>private customer</i> within 10 <i>business days</i> after the end of the period to which the statement relates if, at the end of that period, the portfolio includes any uncovered open positions in <i>contingent liability investments</i> .
		(c)	A <i>firm</i> whose sole <i>permitted activity</i> is <i>venture capital business</i> should (instead of (a) or (b)) provide a <i>periodic statement</i> to a <i>private customer</i> within 50 <i>business days</i> after the end of the period to which the statement relates.
		(d)	Any <i>periodic statement</i> provided to an <i>intermediate customer</i> should be provided within such period as the <i>intermediate customer</i> has on his own initiative agreed with the <i>firm</i> as adequate.
Suitable intervals	(2)		A <i>periodic statement</i> should be provided:
		(a)	six-monthly, to a <i>private customer</i> or an <i>intermediate customer</i> not subject to (2)(d);
		(b)	once in any other period not exceeding 12 months if the <i>private customer</i> has advised the <i>firm</i> in writing that he wishes to receive less frequent <i>periodic statements</i> than required by (a);

Periodic statements: timing and content	
Adequate information	<p>(c) monthly if the <i>customer's</i> portfolio includes an uncovered open position in a <i>contingent liability investment</i>;</p> <p>(d) at such intervals as an <i>intermediate customer</i> has on his own initiative agreed with the <i>firm</i> as adequate.</p> <p>(3) A <i>periodic statement</i> should contain:</p> <p>(a) (i) the information set out in <i>COB</i> 8.2.11E; (ii) if applicable the additional information in <i>COB</i> 8.2.12E, <i>COB</i> 8.2.13E, <i>COB</i> 8.2.14E and <i>COB</i> 8.2.15E; and (iii) if a <i>firm</i> relies upon the exceptions in <i>COB</i> 8.1.6R(3) or (4) to the requirement to provide confirmations, the information that would have been contained in confirmations complying with 8.1.3R; or</p> <p>(b) information that a <i>private customer</i> habitually resident outside the <i>United Kingdom</i>, or an <i>intermediate customer</i>, has on his own initiative agreed with the <i>firm</i> as adequate; or</p> <p>(c) in the case of an <i>OPS firm</i> subject to <i>COB</i> 8.2.8E(3):</p> <p>(i) the information that would have been contained in a confirmation complying with <i>COB</i> 8.1.3R, relating to the following classes of asset:</p> <p>(a) <i>securities</i> which are not <i>readily realisable securities</i>;</p> <p>(b) <i>derivatives</i>;</p> <p>(c) <i>warrants</i>;</p> <p>(d) land and buildings; and</p> <p>(ii) in relation to all other transactions not included in (i), a summary of the information that would have been contained in a confirmation complying with <i>COB</i> 8.1.3R; this summary should contain sufficient information about the relevant transactions to enable an <i>OPS</i> trustee to determine whether it will be necessary to obtain more detailed information about the relevant transactions. For example, the summary might disclose, for each asset class:</p> <p>(a) the number and value of transactions entered into for the portfolio;</p>

Periodic statements: timing and content				
				(b) any material portfolio changes;
				(c) whether a material number of changes were entered into in relation to a single entity and, if so, which ones;
				(d) the information required by item 11 and 12 of <i>COB</i> 8.1.15E.

8.2.11

Table Periodic statements – general information
This table belongs to ■ *COB* 8.2.10

Periodic statements: general information	
1	<p>Contents and value</p> <p>As at the end of the period covered: the number, description and value of each <i>designated investment</i> held; the amount of cash held; and the total value of the portfolio.</p>
2	<p>Basis of valuation</p> <p>A statement of the basis on which the value of each <i>designated investment</i> has been calculated and, if applicable, a statement that the basis for valuing a particular <i>designated investment</i> has changed since the previous <i>periodic statement</i>. If any <i>designated investments</i> are shown in a currency other than the usual one used for valuation of the portfolio, the relevant currency exchange rates must be shown.</p>

8.2.12

Table Periodic statements – additional information required for a discretionary managed portfolio
This table belongs to ■ *COB* 8.2.10

Periodic statements: additional information required for a discretionary managed portfolio*	
* (except OPS firms conducting OPS activity – see 8.2.15E)	
1	<p>Details of any assets loaned or charged</p> <p>A statement of which <i>investments</i> (if any) were at the closing date loaned to any third party and which <i>investments</i> (if any) were at that date charged to secure borrowings made on behalf of the portfolio; and</p> <p>the aggregate of any interest payments made and income received during the account period in respect of loans or borrowings made during that period.</p>
2	<p>Transactions and changes in composition</p> <p>Particulars of each transaction entered into for the portfolio during the period; and</p> <p>the aggregate of <i>money</i> and particulars of all <i>investments</i> transferred into and out of the portfolio during the period; and</p>

Periodic statements: additional information required for a discretionary managed portfolio*	
* (except OPS firms conducting OPS activity – see 8.2.15E)	
	the aggregate of any interest payments (and, in the case of a <i>cash deposit ISA</i> , the interest rates applied during the period of account), together with the dates of their application and dividends or other benefits received by the <i>firm</i> for the portfolio during that period. The particulars required may be disclosed in separate statements (excluding confirmations of transactions) issued to the <i>customer</i> during the period.
3	<i>Charges and remuneration</i> If not previously advised in writing: (a) a statement of the aggregate <i>charges</i> of the <i>firm</i> and its <i>associates</i> ; and (b) a statement of any <i>remuneration</i> received by the <i>firm</i> or its <i>associates</i> or both from a third party in respect of the transactions entered into, or any other services provided, for the portfolio.
4	<i>CAT standards</i> If the <i>periodic statement</i> relates to an <i>ISA</i> intended to be managed in accordance with <i>CAT standards</i> , a statement whether the relevant <i>CAT standards</i> have been adhered to throughout the period of account.

8.2.13

Table Periodic statements – additional information required for a contingent liability investment
This table belongs to ■ COB 8.2.10

Periodic statements: additional information required for a contingent liability investment	
1	<i>Changes in value</i> The aggregate of <i>money</i> transferred into and out of the portfolio during the valuation period.
2	<i>Open positions</i> In relation to each open position in the account at the end of the account period, the unrealised profit or loss to the <i>customer</i> (before deducting or adding any <i>commission</i> which would be payable on closing out).
3	<i>Closed positions</i> In relation to each transaction <i>executed</i> during the account period to <i>close out</i> a <i>customer's</i> position, the resulting profit or loss to the <i>customer</i> after deducting or adding any <i>commission</i> .
Note: Instead of the specific detail required by item 2 and 3, the statement may show the net profit or loss in respect of the <i>customer's</i> overall position in each contract.	
4	<i>Aggregate of contents</i>

Periodic statements: additional information required for a contingent liability investment

	The aggregate of each of the following in, or relating to, the <i>customer's</i> portfolio at the close of business on the valuation date:
	(a) cash;
	(b) <i>collateral</i> value;
	(c) management <i>fees</i> ; and
	(d) <i>commissions</i> attributable to transactions during the period or a statement that this information has been separately disclosed in writing in earlier statements or confirmations to the <i>customer</i> .
5	<i>Option</i> account valuations in respect of each open <i>option</i> contained in the account on the valuation date stating:
	(a) the <i>share, future, index</i> or other <i>investment</i> involved;
	(b) the trade price and date for the opening transaction, unless the valuation statement follows the statement for the period in which the <i>option</i> was opened;
	(c) the market price of the contract; and
	(d) the exercise price of the contract.
	<i>Option</i> account valuations may show an average trade price and market price in respect of an <i>option</i> series if the <i>customer</i> buys a number of contracts within the same series.

8.2.14

Table Periodic statements – additional information required for a broker fund
This table belongs to ■ COB 8.2.10

Periodic statements: additional information required for a broker fund (to the extent that the firm can reasonably be expected to obtain the information)

1	Significant holdings If any asset is worth more than 5% of the value of the fund, it must be described and its percentage in value stated.
2	Unit-linked <i>life policies</i> (except where a <i>firm</i> is managing a <i>broker fund</i> on behalf of a single <i>customer</i>) If the fund consists of unit-linked <i>life policies</i> , a comparison, over the account period and over the whole life of the fund, of the percentage change in the price of the units in the fund: (a) with the prices of units in the managed unit-linked pension fund of the <i>long-term insurer</i> (if the fund is dedicated to <i>pension policies</i>); or (b) with the prices of units in the managed unit-linked life fund of the <i>long-term insurer</i> (in any other case).
3	Price comparison Unless the <i>firm</i> is managing a <i>broker fund</i> on behalf of a single <i>customer</i> , a comparison of the price of units in the fund or <i>scheme</i> with the published index or sector average stated in the product particulars.

Periodic statements: additional information required for a broker fund (to the extent that the firm can reasonably be expected to obtain the information)

4	<p>Investment objectives and strategies</p> <p>The current investment objectives and strategies including an indication as to whether or not either of these have changed since the previous report.</p>
5	<p>Benefits and rewards</p> <p>The cash value of the benefits and rewards which the <i>broker fund adviser</i> and any <i>associate</i> have received directly or indirectly during the reporting period by way of <i>remuneration</i> which may be shown in aggregate or as applicable to each <i>customer</i> or both.</p>

8.2.15

Table Periodic statements – minimum content required where an OPS firm conducts OPS activity
This table belongs to ■ COB 8.2.10

Periodic statements: information required when an OPS firm conducts OPS activity

1	<p>Investment objectives</p> <p>A statement of any investment objectives governing the mandate of the portfolio of the <i>occupational pension scheme</i> as at the closing and starting date.</p>
2	<p>Details of any assets loaned or charged</p> <p>(a) a summary of any <i>investments</i> that were, at the closing date, lent to a third party and any <i>investments</i> that were at that date charged to secure borrowings made on behalf of the portfolio; and</p> <p>(b) the aggregate of any interest payments made and income received during the account period in respect of loans or borrowings made during that period and a comparison with the previous period.</p>
3	<p>Transactions and changes in composition</p> <p>(a) a summary of the transactions entered into for the portfolio during the period and a comparison with the previous period;</p> <p>(b) the aggregate of <i>money</i> and a summary of all <i>investments</i> transferred into and out of the portfolio during the period; and</p> <p>(c) the aggregate of any interest payments, dividends and other benefits received by the <i>firm</i> for the portfolio during that period and a comparison with the previous period.</p>
4	<p><i>Charges and remuneration</i></p> <p>If not previously advised in writing, a statement for the period of account:</p> <p>(a) of the aggregate <i>charges</i> of the <i>firm</i> and its <i>associates</i>; and</p>

Periodic statements: information required when an OPS firm conducts OPS activity	
	(b) of any <i>remuneration</i> received by the <i>firm</i> or its <i>associates</i> or both from a third party in respect of the transactions entered into, or any other services provided, for the portfolio.
5	<p>Movement in value of portfolio</p> <p>A statement of the difference between the value of the portfolio at the closing date of the period of account and its value at the starting date, having regard, during the period of account, to:</p> <p>(a) the aggregate of assets received from the <i>occupational pension scheme</i> and added to the portfolio;</p> <p>(b) the aggregate of the value of assets transferred, or of amounts paid, to the <i>customer</i>;</p> <p>(c) the aggregate income received on behalf of the <i>customer</i> in respect of the portfolio; and</p> <p>(d) the aggregate of realised and unrealised profits or gains and losses attributable to the assets comprised in the portfolio.</p>

8.2.16

G

/1

- (1) The items in ■ COB 8.2.15(2) and (3) should contain sufficient information about the relevant transactions to enable an *OPS* trustee to determine whether it will be necessary to obtain more detailed information about the relevant transactions.
- (2) A *firm* may wish to provide more information than is required by ■ COB 8.2.15(5), by distinguishing capital and income. If the statement includes some measure of performance, the basis of measurement should be stated.

Chapter 9

Client assets

9.1 Custody

Application

- 9.1.1** **R** ^{/1} This section (the *custody rules*) apply to a *firm* when it is *safeguarding and administering investments*, subject to **■ COB 9.1.9**.
- 9.1.2** **G** ^{/1} The *regulated activity of safeguarding and administering investments* covers both the *safeguarding and administration of assets (without arranging)* and *arranging the safeguarding and administration of assets*, when those assets are either *safe custody investments* or *custody assets*. A *safe custody investment* is, in summary, a *designated investment* that a *firm* receives or holds on behalf of a *client*. *Custody assets* include *designated investments*, and any other assets that the *firm* holds or may hold in the same portfolio as a *designated investment* held for or on behalf of the *client*.
- 9.1.3** **R** ^{/1} *Firms* must apply the *custody rules* to those *custody assets* which are not *safe custody investments* in a manner appropriate to the nature and value of those *custody assets*.
- 9.1.4** **G** ^{/1} The term '*client*' refers to a *market counterparty*, *intermediate customer* or *private customer*. However, the term '*customer*' does not include a *market counterparty*.
- 9.1.5** **G** ^{/1} In accordance with article 42 of the *Regulated Activities Order*, a *firm* will not be *arranging safeguarding and administration of assets* if it introduces a *client* to a *firm* whose *permitted activities* include the *safeguarding and administration of investments*, or to an *exempt person* acting as such, with a view to that *person*:
- (1) providing a safe custody service in the *United Kingdom*; or
 - (2) arranging for the provision of a safe custody service in the *United Kingdom* by another *person*; and the other *firm*, *exempt person* or other person who is to provide the safe custody service is not in the same *group* as, or remunerated by, the introducing *firm*.
- 9.1.6** **G** ^{/1} *Firms* are reminded that, under **■ COB 1.2.1(1)**, the *custody rules* do not apply to an *incoming EEA firm* with respect to its *passport activities*. The application of the *custody rules* to the activity of a *firm* is also dependent on the location from which the activity is undertaken (see **■ COB 1.4.3**).
- 9.1.7** **G** ^{/1} The *Home State regulator* of an *incoming EEA firm* has regulatory oversight for that *firm's* custody activities; if an *EEA firm* wishes to comply with the *custody rules* it should apply to its *Home State regulator* for permission to do so.

9.1.8 **G**_{/1} The *FSA* has regulatory oversight for a *UK firm's* custody activities in an *EEA Host State*; if a *firm* wishes to comply with an *EEA Host State's* regime for regulating custody activities it should apply to the *FSA* for a *waiver* from the *custody rules*.

9.1.9 **R**_{/1} The *custody rules* do not apply to:

- (1) a *firm* when it safeguards and administers a *designated investment* on behalf of an *affiliated company*, unless:
 - (a) the *firm* has been notified that the *designated investment* belongs to a *client* of the *affiliated company*; or
 - (b) the *affiliated company* is a *client* dealt with at arm's length;
- (2) a *firm*, when it acts as the *operator* of a *regulated collective investment scheme*, in relation to activities carried on for the purpose of, or in connection with, the operation of the *scheme*;
- (3) a *personal investment firm* when it temporarily holds a *designated investment*, other than in *bearer form*, belonging to a *client*, if the *firm*:
 - (a) keeps it secure, records it as belonging to that *client*, and forwards it to the *client* or in accordance with the *client's* instructions, as soon as practicable after receiving it;
 - (b) retains the *designated investment* for no longer than the *firm* has taken reasonable steps to determine is necessary to check for errors and to receive the final *document* in connection with any series of transactions to which the *documents* relate; and
 - (c) makes a record, which must then be retained for a period of 3 years after the record is made, of all the *designated investments* handled in accordance with (3)(a) and (b) together with the details of the *clients* concerned and of any action the *firm* has taken.

9.1.10 **G**_{/1} Administrative convenience alone should not lead a *personal investment firm* to rely on ■ COB 9.1.9(3). *Personal investment firms* should consider what is in the *client's* interest and not rely on ■ COB 9.1.9(3) as a matter of course.

9.1.11 **R**_{/1} A *firm* must accept the same level of responsibility to its *client* for any *nominee company* controlled by the *firm* in respect of any requirements of the *custody rules*.

General purpose

9.1.12 **G**_{/1} *Principle 10* (Clients' assets) requires a *firm* to arrange adequate protection for *clients'* assets when it is responsible for them. As part of these protections, the *custody rules* require a *firm* to take appropriate steps to protect *safe custody investments* for which it is responsible. The *rules* are designed primarily to restrict the commingling of *client* and *firm's* assets and minimise the risk of the *client's safe*

custody investments being used by the *firm* without the *client's* agreement or contrary to the *client's* wishes, or being treated as the *firm's* assets in the event of its insolvency.

Delivery versus payment transactions

9.1.13 **R** *A designated investment need not be treated as a safe custody investment* in respect of a delivery versus payment transaction through a commercial settlement system if it is intended that the *designated investment* is either to be:

- (1) in respect of a *client's* purchase, due to the *client* within one *business day* following the *client's* fulfilment of a payment obligation; or
- (2) in respect of a *client's* sale, due to the *firm* within one *business day* following the fulfilment of a payment obligation;

unless the delivery or payment by the *firm* does not occur by the close of business on the third *business day* following the date of payment or delivery of the *designated investment* by the *client*.

9.1.14 **R** Until a transaction of the type described in **COB 9.1.13** settles, a *firm* may segregate *money* (in accordance with the *client money rules*) instead of the *client's safe custody investment*.

Modification of scope

9.1.15 **G** It is not necessary to apply the full range of the *custody rules* to all types of *firm*. For example, certain *firms* already have extensive obligations imposed on them under the general law with regard to the correct treatment of *client's safe custody investments*. Likewise the full range of the *rules* is not appropriate for a *firm* that only arranges safe custody services for its *clients*. Consequently, the *rules* provide for appropriate differentiation of scope and application of the *rules*.

Trustees and depositaries

9.1.16 **R** When a *trustee firm* or *depository* acts as a *custodian* for a trust or *collective investment scheme* and

- (1) the trust or *scheme* is established by written instrument; and
- (2) the *trustee firm* or *depository* has taken reasonable steps to determine that the relevant law and provisions of the trust instrument or *scheme* constitution will provide protections at least equivalent to the *custody rules* for the trust property or *scheme* property,

the *trustee firm* or *depository* need comply only with the *custody rules* listed in ■ COB 9.1.18.

9.1.17 **G** /1 The reasonable steps referred in ■ COB 9.1.16(2) could include obtaining an appropriate legal opinion to that effect.

9.1.18 **R** /1 Table This table belongs to ■ COB 9.1.16.

Reference	Rule
<i>COB 9.1.1R to 9.1.12G</i>	Application
<i>COB 9.1.16R to 9.1.20G</i>	Trustees and depositories
<i>COB 9.1.28R to 9.1.32R</i>	Segregation
<i>COB 9.1.35R to 9.1.37G</i>	Registration and recording
<i>COB 9.1.40R(2), 9.1.41G and 9.1.42R</i>	Holding
<i>COB 9.1.74R to 9.1.80R</i>	Stocklending
<i>COB 9.1.85R to 9.1.97R</i>	Reconciliation
<i>COB 9.1.98R and 9.1.99R</i>	Records

9.1.19 **R** /1 When a *trustee firm* or *depository* within COB ■ COB 9.1.16 arranges for or delegates the provision of safe custody services by or to another *person*, the *trustee firm* or *depository* must also comply with ■ COB 9.1.43, ■ COB 9.1.48 (Assessment of a custodian), ■ COB 9.1.54 (Risk disclosure) and ■ COB 9.1.69 (Custodian agreement) in addition to the *custody rules* listed in ■ COB 9.1.18.

9.1.20 **G** /1 A *trustee firm* or *depository* that just arranges safeguarding and administration of assets may also take advantage of the exemption in ■ COB 9.1.21R (Arrangers).

Arrangers

9.1.21 **R** /1 Only the *custody rules* in ■ COB 9.1.22 apply to a *firm* when *arranging safeguarding and administration of assets*.

9.1.22 **R** /1 Table This table belongs to ■ COB 9.1.21.

Reference	Rule
<i>COB 9.1.1R to 9.1.12G</i>	Application
<i>COB 9.1.21R to 9.1.22R</i>	Arrangers
<i>COB 9.1.43R, 9.1.46 to 9.1.47G</i>	Assessment of custodian
<i>COB 9.1.54R to 9.1.56G</i>	Risk disclosures
<i>COB 9.1.98R</i>	Records

Depository receipt business

9.1.23 **G**
/1 For *firms* that issue depository receipts, the underlying *security* is held for the benefit of the depository receipt holder. *Clients* for whom depository receipts are held will be known to the *firm* and will have the necessary agreements in place. However, other *persons* who purchase depository receipts in the secondary market will not be known to the *firm* until after they become *clients*. Consequently, *firms* that issue depository receipts will accordingly not be able to comply with certain *custody rules*.

9.1.24 **R**
/1 *Firms* that hold *securities*, which are represented by depository receipts or *documents* which have the characteristics of depository receipts and these receipts or *documents* entitle the holders to all dividends and other rights given by the underlying *securities* held by the *firm*, need not comply with the *rules* listed in **■ COB 9.1.25** in respect of *clients* who acquire the depository receipts in the secondary market:

9.1.25 **R**
/1 Table This table belongs to **■ COB 9.1.24**.

Reference	Rule
COB 9.1.33R	Segregation
COB 9.1.48R	Assessment of custodian
COB 9.1.49R to 9.1.52R	Client agreement
COB 9.1.54R to 9.1.56G	Risk disclosures
COB 9.1.59R to 9.1.63R	Production and despatch of statements
COB 9.1.64R to 9.1.68R	Content of client statements

9.1.26 **R**
/1 When a *firm* arranges *safeguarding and administration of assets* in respect of depository receipts, it need not comply with **■ COB 9.1.54** (risk disclosures) for that business.

Segregation: purpose

9.1.27 **G**
/1 The *rules* governing the segregation, registration or recording, and holding of a *client's safe custody investments* require a clear distinction to be maintained, to the extent practicable, between *safe custody investments* held for the *clients* and those *designated investments* held for the *firm*.

General

9.1.28 **R**
/1 A *firm* must segregate *safe custody investments* from its own *designated investments* except to the extent required by law or permitted by the *custody rules*.

9.1.29 **G**
/1 A *firm* which is a *trustee* is bound in relation to *safe custody investments* by the terms of its trust and applicable law and **■ COB 9.1.28** does not modify those obligations.

9.1.30 **R** ^{/1} A *firm* must ensure that if a *safe custody investment* is recorded in an account with itself, the title of that account makes it clear that the *safe custody investment* belongs to a *client*, and is segregated from the *firm's designated investments*.

9.1.31 **G** ^{/1} ■ COB 9.1.30 refers to the *firm's* own records.

9.1.32 **R** ^{/1} A *firm* must require that if a *safe custody investment* is recorded in an account with a *custodian*, the *custodian* makes it clear in the title of the account that the *safe custody investment* belongs to one or more *clients* of the *firm*.

Affiliated companies

9.1.33 **R** ^{/1} If a *firm* holds a *designated investment* on behalf of an *affiliated company*, it must not hold that *designated investment* in the same account as a *safe custody investment* (of a *client* who is not an *affiliated company*) unless ■ COB 9.1.9(1) (Application) applies, and consequently, the *firm* is applying the *custody rules* to that *investment*.

Registration and recording: purpose

9.1.34 **G** ^{/1} The registration and recording *rules* are designed to safeguard and secure a *client's* entitlement. The *rules* are not in order of priority and *firms* are expected to register and record the legal title of a *safe custody investment* in such a manner as to provide the *client* with appropriate protection.

9.1.35 **R** ^{/1} To the extent practicable, a *firm* must effect appropriate registration or recording of legal title to a *safe custody investment* in the name of:

- (1) the *client* (or where appropriate, the *trustee firm*), unless the *client* is an *authorised person* acting on behalf of its *client*, in which case it may be registered in the name of the *client* of that *authorised person*;
- (2) a *nominee company* which is controlled by:
 - (a) the *firm*;
 - (b) an *affiliated company*;
 - (c) a *recognised investment exchange* or *designated investment exchange*;
 - (d) a *custodian*;
- (3) a *custodian* if:

- (a) the *safe custody investment* is subject to the law or market practice of a jurisdiction outside the *United Kingdom* and the *firm* has taken reasonable steps to determine that it is in the *client's* best interests to register or record it in that way, or that it is not feasible to do otherwise, because of the nature of the applicable law or market practice; and
 - (b) the *firm* has notified the *client* in writing;
- (4) the *firm* if:
- (a) the *safe custody investment* is subject to the law or market practice of a jurisdiction outside the *United Kingdom* and the *firm* has taken reasonable steps to determine that it is in the *client's* best interests to register or record it in that way, or that it is not feasible to do otherwise, because of the nature of the applicable law or market practice; and
 - (b) the *firm* has notified the *client* in accordance with ■ COB 9.1.57 (Risk disclosures) if a *market counterparty* or an *intermediate customer*, or obtained his prior written consent if a *private customer*; or
- (5) any other *person*, in accordance with the *client's* specific written instruction, provided:
- (a) the *firm* complies with ■ COB 9.1.58 (Risk disclosures); and
 - (b) in the case of a *private customer*, the other *person* is not an *associate* of the *firm*.

9.1.36

G
/1

If the *client* in ■ COB 9.1.35(1) is an *authorised person* and the *safe custody investments* belong to *clients* of that *authorised person*, it is the responsibility of that *authorised person* to ensure that the registering or recording is appropriate for the *client* concerned.

9.1.37

G
/1

A *firm* that applies ■ COB 9.1.35(3) or (4) will be expected to demonstrate that adequate investigations have been made of the market concerned by reference to local sources which may include appropriate legal opinion.

9.1.38

R
/1

A *firm* may register or record legal title to its own *designated investment* in the same name as that in which legal title to a *safe custody investment* is registered or recorded, but only if:

- (1) the *firm's designated investments* are separately identified in the *firm's* records from *safe custody investments*; or
- (2) the *firm* registers or records a *safe custody investment* in accordance with ■ COB 9.1.35(4).

Holding: purpose

- 9.1.39** **G**_{/1} The following *rules* are designed to provide an appropriate level of protection for a *safe custody investment* which the *firm* physically holds. A *firm* should ensure that the arrangements for holding any document of title to a *safe custody investment* are appropriate to the value and risk of loss of the *safe custody investments* concerned, and that there are adequate controls designed to safeguard it from damage, misappropriation or other loss.
- 9.1.40** **R**_{/1} A *firm* must hold any document of title to a *safe custody investment* either in the physical possession of the *firm* or:
- (1) for a *private customer*, with a *custodian* in an account designated for *clients' safe custody investments*;
 - (2) for a *market counterparty* or *intermediate customer*, with one or more of the following:
 - (a) a *custodian* in an account designated for *clients' safe custody investments*;
 - (b) any *person* whom the *firm* has taken reasonable steps to determine is a *person* whose business includes the provision of appropriate safe custody services; or
 - (c) subject to **■ COB 9.1.58** (Risk disclosures) in accordance with the *market counterparty's* or *intermediate customer's* specific written instructions.
- 9.1.41** **G**_{/1} In **■ COB 9.1.40** 'reasonable steps' may include on the basis of an appropriate legal opinion obtained by the *firm* or another *person*.
- 9.1.42** **R**_{/1} A *firm* must ensure that any documents of title to *designated investments in bearer form*, belonging to the *firm* and which it holds in its physical possession, are kept separately from any document of title to a *client's safe custody investment in bearer form*.

Assessment of a custodian

- 9.1.43** **R**_{/1} Before a *firm* holds a *safe custody investment* with a *custodian* or arranges registration of a *safe custody investment* through a *custodian*, it must undertake an appropriate risk assessment of that *custodian*.
- 9.1.44** **R**_{/1} Before a *firm* recommends a *custodian* to a *private customer*, it must undertake an appropriate risk assessment of that *custodian*.
- 9.1.45** **G**_{/1} A *firm* that holds *safe custody investments* with a *custodian* or recommends *custodians* to *private customers*, is expected to establish and maintain a system for assessing the appropriateness of its selection of the *custodian* and to assess the continued appointment of that *custodian* periodically as often as is reasonable in the relevant market. In order to comply with **■ SYSC 3.2.20**(Records), the *firm* is

also expected to make and retain a record of the grounds on which it satisfies itself as to the appropriateness of its selection or, following a periodic assessment, continued appropriateness of the *custodian*.

9.1.46

G
/1

In undertaking an appropriate risk assessment of the *custodian* in accordance with ■ COB 9.1.43 and ■ COB 9.1.44, *firms* might take into account any or all of the following matters:

- (1) the expertise and market reputation of the *custodian*, and, once a *safe custody investment* has been lodged by the *firm* with the *custodian*, the *custodian's* performance of its services to the *firm*;
- (2) the arrangements for holding and safeguarding an *investment*;
- (3) an appropriate legal opinion as to the protection of *custody assets* in the event of the insolvency of the *custodian*;
- (4) current industry standard reports, for example Financial reporting and auditing group (FRAG) 21 report or its equivalent;
- (5) whether the *custodian* is regulated and by whom;
- (6) the capital or financial resources of the *custodian*;
- (7) the credit rating of the *custodian*;
- (8) any other activities undertaken by the *custodian* and, if relevant, any *affiliated company*.

9.1.47

G
/1

In undertaking the risk assessment of a *custodian*, a *firm* should have regard to all relevant circumstances including legal requirements and custodial practices, in the relevant jurisdiction. For example, if the legal requirements of a jurisdiction in which the *firm* proposes to hold a *safe custody investment* with a *custodian*, makes it mandatory to use a particular *custodian* for that purpose, then the *FSA* will regard this fact alone as justifying the use of that *custodian*. If the use of that *custodian* is a matter of custodial practice in that jurisdiction, the *custodian* is likely to be appropriate for that purpose subject to the *firm* checking whether following that practice is appropriate for the *client's* purposes. In both circumstances, the *firm* will still be under a duty to ensure the continued appropriateness of the *custodian*, taking account of the current legal requirements and custodial practice of that jurisdiction.

9.1.48

R
/1

Before a *firm* holds a *custody asset* with a *custodian* which is in the same *group* as the *firm*, it must inform the *client* in writing that it intends to do so.

Client agreement

9.1.49

R
/1

Before a *firm* provides safe custody services to a *client*, unless ■ COB 9.1.52 applies, the *firm* must notify the *client* as to the appropriate terms and conditions which apply to this service, including, where applicable, those covering:

- (1) registration of the *safe custody investments* if these will not be registered in the *client's* name;

- (2) the extent of the *firm's* liability in the event of a default by a *custodian*, except that a *firm* must accept the same level of responsibility to its *client* for any *nominee company* controlled by the *firm* or by its *affiliated company* as for itself and may not disclaim responsibility for losses arising directly from the fraud, wilful default or negligence of the *firm*;
- (3) the circumstances in which the *firm* may realise a *safe custody investment* held as *collateral* to meet the *client's* liabilities (see ■ COB 7.8) (Realisation of a private customer's assets).
- (4) claiming and receiving dividends, interest payments and other entitlements accruing to the *client*;
- (5) dealing with takeovers, other offers or capital reorganisations and exercising voting, conversion and subscription rights;
- (6) arrangements for the distribution of entitlements to *shares* and any other benefits arising from corporate events, where *clients'* balances have been pooled;
- (7) arrangements for the provision of information to the *client* relating to the *safe custody investment* which the *firm*, or its *nominee company*, holds on behalf of the *client*;
- (8) how often a statement of *custody assets* will be sent to the *client* and the basis on which assets shown on the statement are valued;
- (9) fees and costs for safe custody services to the extent that they are not notified to the *client* elsewhere; and
- (10) if the *firm* intends to pool a *safe custody investment* with that of one or more other *clients*, notification of its intention to the *market counterparty* or *intermediate customer* and if the *client* is a *private customer*, an explanation of the effects of pooling to that *private customer*.

9.1.50

G
/1

When explaining the meaning of pooling to a *private customer*, *firms* are expected to advise the *private customer* that:

- (1) individual entitlements may not be identifiable by separate certificates, other physical *documents* or equivalent electronic record; and
- (2) in the event of an unreconcilable shortfall after the *failure* of a *custodian*, *clients* may share in that shortfall in proportion to their original share of the assets in the pool.

9.1.51

R
/1

Unless ■ COB 9.1.52 or ■ COB 9.1.53 applies, the *firm* must obtain the written agreement of a *private customer*, or notify a *market counterparty* or an *intermediate customer*, as to:

- (1) the arrangements for the giving and receiving of instructions by or on behalf of the *client* in respect of the safe custody service which

is to be provided, including, if applicable, the arrangements for the giving of authority by the *client* to another *person* and the extent of that authority and any limitation on it; and

- (2) any lien or security interest taken over a *safe custody investment* by the *firm* or a third party, except in respect of any charges relating to the administration or safekeeping of the *safe custody investments*;

9.1.52 **R** ^{/1} A *firm* need not obtain the written agreement or give notice as required by ■ COB 9.1.51, or give notice to a *client* in accordance with ■ COB 9.1.49, if the *firm* has no intention of providing a safe custody service to the *client* but unintentionally holds a *safe custody investment* for the *client* as a result of circumstances that could not reasonably have been foreseen by the *firm*.

9.1.53 **R** ^{/1} A *firm* need not obtain the written agreement of a *private customer*, or give notice to a *market counterparty* or an *intermediate customer*, as required by ■ COB 9.1.51 if:

- (1) the *client* is ordinarily resident outside the *United Kingdom*;
- (2) the *firm* has taken reasonable steps to determine that the *client* does not wish to execute that agreement; and
- (3) the *firm* makes and retains a record of those steps and their results.

Risk disclosures

9.1.54 **R** ^{/1} Before holding or arranging for another *person* or *firm* to hold a *customer's safe custody investment* overseas, a *firm* must notify the *customer* in writing that there may be different settlement, legal and regulatory requirements in overseas jurisdictions from those applying in the *United Kingdom*, or such jurisdiction as is appropriate in the circumstances, and that there may be different practices for the separate identification of *safe custody investments*.

9.1.55 **G** ^{/1} The term "*customer*" does not include a *market counterparty*.

9.1.56 **G** ^{/1} It is intended that the application of ■ COB 9.1.54 be appropriate to the circumstance, so for example, a European *branch* of a *UK firm* which provides services to *customers* in the country where the *branch* is located may adapt the risk disclosure required by ■ COB 9.1.54 to suit the particular circumstances applicable to that *branch* and *customer*.

9.1.57 **R** ^{/1} Before a *firm* registers or records legal title to a *safe custody investment* in the name of the *firm*, it must notify the *client* if a *market counterparty* or an *intermediate customer*, and obtain his prior written consent if the *client* is a *private customer*, that:

- (1) the *safe custody investment* will or may be registered or recorded in the *firm's* name;
- (2) as a result the *safe custody investment* may not be segregated from the *designated investments* of the *firm*; and
- (3) in the event of the *failure* of the *firm*, the *client's* assets may not be as well protected from claims made on behalf of the general creditors of the *firm*.

9.1.58 **R** /1 If a *client* has instructed the *firm* on the holding, registration or recording of a *safe custody investment* under ■ COB 9.1.35(5) (Registration and recording) or ■ COB 9.1.40(2)(c) (Holding) the *firm* must notify the *client* that the consequences of doing so are at the *client's* own risk, unless the *firm* has agreed otherwise.

Production and despatch of client statements

9.1.59 **R** /1 A *firm* must, as often as necessary or as often as agreed with its *client*, but in any event not less frequently than annually, provide to each *client*, or to a representative nominated by the *client* in writing, a statement prepared in accordance with ■ COB 9.1.64 (Content of client statements) unless:

- (1) the account of a *client* for whom a *custody asset* has been held at any time during the *firm's* financial year has been closed; and
- (2) the *firm* has sent the *client* a closing statement which shows that the *firm* no longer holds any *custody asset* for the *client*.

9.1.60 **R** /1 Statements must be provided in accordance with ■ COB 9.1.59 within 25 *business days* of the date as at which the statement is made.

9.1.61 **R** /1 A *firm* may, with the *client's* prior written agreement, retain statements required to be sent to a *client* who is ordinarily resident outside the *United Kingdom*.

9.1.62 **G** /1 The statements referred to in ■ COB 9.1.61 may be retained either electronically or in hard copy. Wherever possible responsibility within a *firm* for such statements should be given to an *employee* or department not otherwise involved with that *client*.

9.1.63 **R** /1 If a *firm* provides a range of safe custody services for a *private customer* which result in statements being generated from more than one system, it must ensure that all the statements in respect of those services are produced as at the same date and despatched within one week of each other, unless each statement makes clear that it relates to a particular service.

Content of client statements

- 9.1.64** **R** ^{/1} All statements produced by or on behalf of a *firm* in accordance with ■ COB 9.1.59 - ■ COB 9.1.61 and ■ COB 9.1.63, must list all *custody assets* held for the *client* for which the *firm* is accountable and:
- (1) identify any *safe custody investment* registered in the *client's* own name separately from those registered in any other name;
 - (2) identify any *custody assets* which are being used as *collateral* or have been pledged to third parties, separately from any other *custody assets*;
 - (3) show the *market value* of any *collateral* held, as at the date of the statement; and
 - (4) for a *private customer*, base the statement on either trade date or settlement date information for cash balances and *safe custody investments* and notify the basis to the *private customer*.
- 9.1.65** **R** ^{/1} A *firm* may include the information required by ■ COB 9.1.64 in any statement provided by the *firm* to the *client* in accordance with ■ COB 8.2 (Periodic statements), or by other separate *documents*, as long as they are prepared in relation to the same date and delivered to the *client* within a reasonable period of one another.
- 9.1.66** **R** ^{/1} A statement under ■ COB 9.1.64 must include *client money* unless this has been included in a statement separately despatched to the *client* within one month before or after the statement date.
- 9.1.67** **G** ^{/1} ■ COB 9.1.66 refers to the *client money* balance as at the statement date for each *client*.
- 9.1.68** **R** ^{/1} A *safe custody investment* need not be included in a statement if a *client* transaction has been carried out within the previous three months and the *firm* does not intend to offer a safe custody service in relation to the *safe custody investment*.

Custodian agreement

- 9.1.69** **R** ^{/1} Before a *firm* holds a *safe custody investment* for or on behalf of a *client* with a *custodian*, it must agree in writing appropriate terms and conditions with the *custodian*, including, where applicable:
- (1) that the title of the account indicates that any *safe custody investment* credited to it does not belong to the *firm* or to an *affiliated company* that is not being treated as an arm's length *client* in accordance with ■ COB 9.1.9(1)(b) (Application));
 - (2) that the *custodian* will hold or record a *safe custody investment* belonging to the *firm's client* (or where the *firm* is a *trustee firm*,

the trustees), separately from any *designated investment* belonging to the *firm* or to the *custodian*;

- (3) that the *custodian* will deliver to the *firm* a statement as at a date or dates specified by the *firm* which details the description and amounts of all the *safe custody investments* credited to the account;
- (4) that the *custodian* will not claim any lien, right of retention or sale over any *safe custody investment* standing to the credit of any account set up in accordance with (1) except:
 - (a) where the *firm* has notified the *custodian* in writing that the *client* has provided written consent; or
 - (b) in respect of any charges relating to the administration or safekeeping of the *safe custody investment*;
- (5) the arrangements for registration or recording of the *safe custody investment* if this will not be registered in the *client's* name;
- (6) that the *custodian* is not to permit withdrawal of any *safe custody investment* from the account except for delivery to the *firm* or on the *firm's* instructions;
- (7) the procedures and authorities for the passing of instructions to or by the *firm*;
- (8) the claiming and receiving of dividends, interest payments and other entitlements accruing to the *client*; and
- (9) the extent of the *custodian's* liability in the event of the loss of a *safe custody investment* caused by the fraud, wilful default or negligence of the *custodian*, or an agent appointed by him.

9.1.70

G
/1

Firms should seek to ensure that *custodians* deliver the statement referred to in ■ COB 9.1.69(3) to the *firm* within 20 *business days* of the date of the statement.

9.1.71

G
/1

Firms need not include in the custodian agreement, any of the provisions set out in ■ COB 9.1.69 if, for example, the *firm* or *custodian* is unable to comply with the provision on account of legal requirements or custodial practice imposed on or by a securities depository or clearance system.

Use of a safe custody investment: by the firm

9.1.72

R
/1

A *firm* must not use a *safe custody investment* for its own account unless the *client*:

- (1) if a *private customer*, has given prior written consent to the *firm*;
or

- (2) if an *intermediate customer* or *market counterparty*, has been notified by the *firm*.

Use of a safe custody investment: by another client

- 9.1.73** **R** ^{/1} A *firm* must not use, for the account of one *client*, the *safe custody investment* of any other *customer*, unless that other *customer*:
- (1) if a *private customer*, has given prior written consent to the *firm*;
or
- (2) if an *intermediate customer*, has been notified by the *firm*.

Stock lending

- 9.1.74** **R** ^{/1} A *firm* must not undertake or otherwise engage in *stock lending activity* with or for a *customer* unless:
- (1) the *firm* has obtained the consent of the *customer*; and
- (2) the *stock lending activity* is subject to appropriate terms and conditions.
- 9.1.75** **E** ^{/1} (1) In the case of a *private customer*, the appropriate terms and conditions referred to in **■ COB 9.1.74(2)** include those specified in **■ COB 4.2.15(19)** (Content of terms of business provided to a customer: stock lending).
- (2) Compliance with (1) may be relied upon as tending to establish compliance with **■ COB 9.1.74(2)**.
- (3) Contravention of (1) may be relied upon as tending to establish contravention of with **■ COB 9.1.74(2)**.
- 9.1.76** **G** ^{/1} *Firms* are reminded that the term "*customer*" does not include *market counterparty*.
- 9.1.77** **G** ^{/1} To the extent that specific instructions are given by the *customer*, they are an important factor in assessing what terms and conditions are appropriate and should, in the absence of a reason not to do so, normally be followed. The specific requirements of the markets in which the lending takes place are another factor to be considered when assessing what terms and conditions are appropriate.
- 9.1.78** **R** ^{/1} If a *safe custody investment* belonging to a *private customer* is used for *stock lending activity*, the *firm* must ensure that:
- (1) *relevant collateral* is provided by the borrower in favour of the *customer*;

- (2) the current realisable value of the *safe custody investment* and of the *relevant collateral* is monitored daily; and
- (3) the *firm* provides *relevant collateral* to make up the difference where the current realisable value of the collateral falls below that of the *safe custody investment*, unless otherwise agreed in writing by the *customer*.

9.1.79

R

/1

If *safe custody investments* of more than one *customer* are registered or otherwise held together, none of those *safe custody investments* may be used for a *stock lending activity* unless:

- (1) all of those *customers* have consented to their *safe custody investments* being used for that activity; or
- (2) the *firm* has adequate systems and procedures in place to ensure that only *safe custody investments* belonging to *customers* who have given their consent are used for *stock lending activity*.

9.1.80

R

/1

Any cash or *custody assets* held in favour of a *customer* for *stock lending activity* must be held in accordance with the *client money rules* or *custody rules*.

9.1.81

G

/1

The *stock lending* requirements in ■ COB 4.2.15(19) also apply to *safe custody investments* held collectively on behalf of a *firm's customers* in any *custody* or settlement system. If the *custody* or settlement system operates an 'automatic' *stock lending* programme, the *firm* should maintain a separate account or be able to demonstrate that it maintains adequate systems to differentiate between the *safe custody investments* of those *customers* who have not consented to *stock lending activity* through that programme from the *designated investments* of those that have consented.

9.1.82

G

/1

A *firm* is expected to have documentation in place with borrowing *counterparties* which is adequate and appropriate having regard to the *customers* whose *safe custody investments* are being lent. The terms and conditions of lending should be appropriate to the markets in which lending takes place (for example by reference to the Stock lending and Repo Committee's Stock Borrowing and Lending Code of Guidance), and to the other circumstances of the transaction, in particular, the various types of risk involved in the transaction.

9.1.83

G

/1

If a borrower is required to provide collateral (for example, to protect against settlement risk), the *firm* should consider whether it is appropriate to require this collateral be provided in advance of the *stock lending activity*. When making this decision the *firm* should consider all the circumstances of the transaction, including normal practice in the relevant market. The level and type of collateral required should take account of the credit-worthiness of the borrower and the market risks associated with the particular collateral.

9.1.84

G

/1

Firms are reminded that dividends (actual or payments in lieu), *stock lending* fees and other payments received for the benefit of a *customer*, belong to the *customer* and should be held in accordance with the *client money rules* or *custody rules* as appropriate.

Reconciliation: frequency of reconciliation

- 9.1.85** **R**_{/1} A *firm* must, as often as is necessary, but no less than every 25 *business days*, perform a reconciliation of its record of *safe custody investments* for which it is accountable but which it does not physically hold, with statements obtained from *custodians*, and in the case of dematerialised *safe custody investments* not held through a *custodian*, statements obtained from the *person* who maintains the record of legal entitlement.
- 9.1.86** **G**_{/1} Information about *client* holdings obtained from, for example *CREST*, in respect of dematerialised *safe custody investments* may be used to comply with **■ COB 9.1.85**.
- 9.1.87** **R**_{/1} If a *firm* is unable to obtain no less than every 25 *business days*, statements of *clients*' entitlement from *unit trust managers*, *operators* of *ICVCs* or administrators of offshore mutual funds, it need perform a reconciliation of the *client's unit trusts*, *ICVCs* and offshore mutual funds holdings only as often as the statements are received but no less than every 6 months.
- 9.1.88** **G**_{/1} When a *firm* relies on **■ COB 9.1.87** the *FSA* will still expect the *firm* to make reasonable efforts to obtain statements on a monthly basis.
- 9.1.89** **R**_{/1} A *firm* must, as often as is necessary, but no less than every 6 months (or twice in a period of 12 months but at least 5 months apart), carry out:
- (1) a count of all *safe custody investments* it physically holds on behalf of *clients* and reconcile the result of that count with its record of *safe custody investments* that it physically holds on behalf of its *clients*; and
 - (2) a reconciliation between the *firm's* record of *client* holdings, and the *firm's* record of the location of *safe custody investments*.
- 9.1.90** **G**_{/1} Whenever possible, a *firm* should ensure that reconciliations are carried out by a *person* (for example an *employee* of the *firm*) who is independent of the production or maintenance of the records to be reconciled.
- 9.1.91** **R**_{/1} A *firm* must perform the reconciliation in **■ COB 9.1.89** as soon as reasonably practicable after the date to which the reconciliation relates.
- 9.1.92** **G**_{/1} *Firms* will normally be expected to perform the reconciliation in **■ COB 9.1.89** within 25 *business days* of the date to which the statements relate.

Reconciliation methods

- 9.1.93** **R**_{/1} The reconciliation referred to in **■ COB 9.1.89** must cover all *safe custody investments* recorded in the *firm's* books and records and those of any *nominee company* which the *firm* uses for the provision

of safe custody services and is controlled by the *firm* or by an *affiliated company*, and must be performed by:

- (1) the ‘total count method’, which requires that all *safe custody investments* be counted and reconciled as at the same date; or
- (2) an alternative reconciliation method (for example the rolling stock method) provided that:
 - (a) all of a particular *safe custody investment* are counted and reconciled as at the same date;
 - (b) all *safe custody investments* are counted and reconciled during a period of six months; and
 - (c) written confirmation is given to the *FSA* from the *firm’s* auditor that the *firm* has in place systems and controls which enable it to adequately perform the alternative method of reconciliation which the *firm* proposes to use.

Reconciliation discrepancies

9.1.94 **R** A *firm* must promptly correct any discrepancies which are revealed, and make good, or provide the equivalent of, any unreconciled shortfall for which there are reasonable grounds for concluding that the *firm* is responsible.

/1

9.1.95 **G** Items recorded or held within a suspense or error account fall within the scope of discrepancies.

/1

9.1.96 **G** A *firm* may, where justified, conclude that another *person* is responsible for an irreconcilable shortfall despite the existence of a dispute with that other *person* about the unreconciled item. In those circumstances, the *firm* is not required to make good the shortfall but is expected to take reasonable steps to resolve the position with the other *person*.

/1

Notification requirement

9.1.97 **R** A *firm* must inform the *FSA* in writing without delay:

/1

- (1) if it has not complied with, or is unable, in any material respect, to comply with the reconciliation requirements in ■ COB 9.1.85, ■ COB 9.1.87, ■ COB 9.1.89, ■ COB 9.1.91 and ■ COB 9.1.93; or
- (2) if having carried out a reconciliation it is unable, in any material respect, to comply with ■ COB 9.1.94.

Records

9.1.98

R

/1

A *firm* must ensure that proper records of the *custody assets* which it holds or receives, or arranges for another to hold or receive, on behalf of the *client*, are made and retained for a period of 3 years after they are made.

9.1.99

R

/1

A *firm* that uses a *safe custody investment* in *stock lending activity* must ensure that its records identify which *safe custody investments* are available to be lent, and which have been lent.

9.2 Mandates

Application

9.2.1 **R** ^{/1} This section applies to a *firm* in respect of any written authority from a *client* under which the *firm* may control a *client's* assets or liabilities in the course of, or in connection with, the *firm's designated investment business*.

9.2.2 **G** ^{/1} Mandates or similar authorities for the purpose of **■ COB 9.2.1** include a *firm's* authority over a *client's* safe custody account, for example for *stock lending* purposes, a *firm's* authority over a *client's* bank or building society account including direct debits in favour of the *firm*, and a *firm* holding a *client's* credit card details.

9.2.3 **G** ^{/1} *Firms* are reminded that, under **■ COB 1.2.1(1)**, the *mandate rules* do not apply to an *incoming EEA firm* with respect to its *passport activities*. The application of the *mandate rules* is also dependent on the location from which the activity is undertaken (see **■ COB 1.4.3**).

Purpose

9.2.4 **G** ^{/1} The *mandate rules* apply to those *firms* that control, rather than hold, *clients'* assets or are able to create liabilities in the name of a *client*. These *rules* seek to ensure that *firms* establish and maintain records and internal controls to prevent the misuse of the authority granted by the *client*.

General

9.2.5 **R** ^{/1} A *firm* that holds authorities of the sort referred to in **■ COB 9.2.1**, must establish and maintain adequate records and internal controls in respect of its use of the mandates, which must include:

- (1) an up-to-date list of the authorities and any conditions placed by the *client* or the *firm's* management on the use of them;
- (2) a record of all transactions entered into using the authority and internal controls to ensure that they are within the scope of

authority of the *person* and the *firm* entering into the transaction;
and

- (3) the details of the procedures and authorities for the giving and receiving of instructions under the authority; and
- (4) where the *firm* holds a passbook or similar *documents* belonging to the *client*, internal controls, for the safeguarding (including against loss, unauthorised destruction, theft, fraud or misuse) of any passbook or similar *document* belonging to the *client* held by the *firm*.

9.3 Client money

Application

- 9.3.1** **R** _{/1} This section (the *client money rules*) applies to a *firm* that receives or holds *money* from, or on behalf of, a *client* in the course of, or in connection with, its *designated investment business*, except where ■ COB 9.3.2 otherwise provides.
- 9.3.2** **R** _{/1} The *client money rules* do not apply with respect to:
- (1) the *permitted activities* of a *life office* or a *friendly society*; or
 - (2) coins held on behalf of a *client* if the *firm* and the *client* have agreed that the *money* (or *money* of that type) is to be held by the *firm* for the intrinsic value of the metal which constitutes the coin; or
 - (3) *money* held by a *firm* which is an *approved bank*, but only when held in an account with itself, in which case the *firm* must notify the *client* in writing that:
 - (a) *money* held for that *client* in an account with the *approved bank* will be held by the *firm* as banker and not as trustee (or in Scotland as agent); and
 - (b) as a result, the *money* will not be held in accordance with the *client money rules*; or
 - (4) *money* held by *depositories* which are regulated by ■ COB 11.
- 9.3.3** **G** _{/1} *Firms* are reminded that, under ■ COB 1.2.1(1), the *client money rules* do not apply to an *incoming EEA firm* with respect to its *passported activities*. The application of the *client money rules* to the activity of a *firm* is also dependent on the location from which the activity is undertaken (see ■ COB 1.4.3).
- 9.3.4** **G** _{/1} The *custody rules* will apply when a *firm* holds, for example, gold coins on behalf of the *client* in accordance with ■ COB 9.3.2(2) in the same portfolio as *safe custody investments*.
- 9.3.5** **G** _{/1} A *firm* that is an *approved bank*, and relies on the exemption under ■ COB 9.3.2(3), should be able to account to all of its *clients* for amounts held on their behalf at all times. A bank account opened with the *firm* that is in the name of the *client* would

generally be sufficient. When *money* from *clients* deposited with the *firm* is held in a pooled account, this account should be clearly identified as an account for *clients*. The *firm* should also be able to demonstrate that an amount owed to a specific *client* that is held within the pool can be reconciled with a record showing that individual's *client* balance and is, therefore, identifiable at any time. Similarly, where that *money* is reflected only in a *firm's* bank account with other banks (nostro accounts), the *firm* should be able to reconcile amounts owed to that *client* within a reasonable period of time.

- 9.3.6 **G**_{/1} A *firm* that is an *approved bank* is reminded that ■ COB 9.3.2(3) is not an absolute exemption from the *client money rules*.

General purpose

- 9.3.7 **G**_{/1} *Principle 10* (Clients' assets) requires a *firm* to arrange adequate protection for *clients'* assets when the *firm* is responsible for them. An essential part of that protection is the proper accounting and handling of *client money*. The *client money rules* provide requirements for *firms* that receive or hold *client money*, in whatever form.

Money that is not client money: 'opt outs' for any business (including ISD business)

- 9.3.8 **G**_{/1} The 'opt out' provisions provide a *firm* with the option of allowing an *intermediate customer* or *market counterparty* to choose whether their *money* is subject to the *client money rules*.

- 9.3.9 **R**_{/1} Subject to ■ COB 9.3.11, *money* is not *client money* when a *firm* (other than a *sole trader*) holds that *money* on behalf of, or receives it from, a *market counterparty* or an *intermediate customer* and the *firm* has obtained written acknowledgement from the *market counterparty* or *intermediate customer* that:

- (1) the *money* will not be subject to the protections conferred by the *client money rules*;
- (2) as a consequence, this *money* will not be segregated from the *money* of the *firm* in accordance with the *client money rules* and will be used by the *firm* in the course of its own business; and
- (3) the *market counterparty* or *intermediate customer* will rank only as a general creditor of the *firm*.

'Opt-outs' for non-ISD business

- 9.3.10 **G**_{/1} For a *firm* whose business is not governed by the *ISD*, it is possible to 'opt out' on a one-way basis. However, in the case of certain non-*ISD investment firms* that undertake 'ISD type' business from a *branch* in the *United Kingdom*, article 5 of the *ISD* requires the *FSA* not to treat this business any more favourably than

business of an *ISD investment firm*. Therefore all *ISD* and ‘*ISD* type’ business should comply with the *client money rules* or be ‘opted out’ on a two-way basis.

9.3.11

R

/1

Money is not *client money* if a *firm*, in respect of *designated investment business* which is not a *core investment service*, a *non-core investment service* or a *listed activity*:

- (1) holds it on behalf of or receives it from a *market counterparty* who is not an *authorised person* or an *intermediate customer* who is not an *authorised person*; and
- (2) has sent a separate written notice stating the matters set out in ■ COB 9.3.9(1) to (3).

9.3.12

G

/1

When a *firm* undertakes a range of business for a *market counterparty* or *intermediate customer* and has separate agreements for each type of business undertaken, the *firm* may treat *client money* held on behalf of the *client* differently for different types of business; for example, a *firm* may, under ■ COB 9.3.9 or ■ COB 9.3.11, elect to segregate *client money* in connection with *securities* transactions and not segregate (by complying with ■ COB 9.3.9 or ■ COB 9.3.11) *money* in connection with *contingent liability investments* for the same *client*.

9.3.13

R

/1

When a *firm* transfers *client money* to another *person*, the *firm* must not enter into an agreement under ■ COB 9.3.9 or ■ COB 9.3.11 with that other *person* in relation to that *client money* or represent to that other *person* that the *money* is not *client money*.

9.3.14

G

/1

■ COB 9.3.13 prevents a *firm*, when passing *client money* to another *person* under ■ COB 9.3.64 (transfer of assets to a third party), from making use of the ‘opt out’ provisions under ■ COB 9.3.9 or ■ COB 9.3.11.

Money in connection with a “delivery versus payment” transaction

9.3.15

R

/1

Money need not be treated as *client money* in respect of a delivery versus payment transaction through a commercial settlement system if it is intended that either:

- (1) in respect of a *client’s* purchase, *money* from a *client* will be due to the *firm* within one *business day* upon the fulfilment of a delivery obligation; or
- (2) in respect of a *client’s* sale, *money* is due to the *client* within one *business day* following the *client’s* fulfilment of a delivery obligation;

unless the delivery or payment by the *firm* does not occur by the close of business on the third *business day* following the date of payment or delivery of the *investments* by the *client*.

9.3.16

R

/1

Money need not be treated as *client money* in respect of a delivery versus payment transaction, for the purpose of settling a transaction in relation to *units* in a *regulated collective investment scheme*, if:

- (1) the *firm* receives it from a *client* in relation to the *firm's* obligation to issue *units*, in accordance with *CIS*, unless the *price* of those *units* has not been determined by the close of business on the next *business day*:
 - (a) following the date of the receipt of the *money* from the *client*; or
 - (b) if the *money* was received by an *appointed representative* of the *firm*, in accordance with ■ COB 9.3.49, following the date of receipt at the specified business address of the *firm*; or
- (2) the *money* is held in the course of redeeming *units* where the proceeds of that redemption are paid to a *client* within the time specified in *CIS*; when a *firm* draws a cheque or other payable order within these timeframes the provisions of ■ COB 9.3.135 and ■ COB 9.3.136 will not apply.

Affiliated companies

9.3.17

G
/1

Money from an *affiliated company* is not treated as *client money* unless the provisions of ■ COB 9.3.18 apply. This seeks to ensure that *client money* is protected against the potential contagion that may arise on the *failure* of a *firm* which is itself part of a *group* which, if treated as a *client*, would expose the other *clients* of the *firm* to the risks of other parts of the *group*.

9.3.18

R
/1

Money is not *client money* if the *firm* holds it on behalf of, or receives it from, an *affiliated company*, unless:

- (1) the *firm* has been notified by the *affiliated company* that the *money* belongs to a *client* of the *affiliated company*; or
- (2) the *affiliated company* is a *client* dealt with at arm's length; or
- (3) the *affiliated company* is a manager of an *occupational pension scheme* or is an overseas company; and
 - (a) the *money* is given to the *firm* in order to carry on *designated investment business* for or on behalf of the *clients* of the *affiliated company*; and
 - (b) the *firm* has been notified by the *affiliated company* that the *money* is to be treated as *client money*.

Money due and payable to the firm

9.3.19

R
/1

Money is not *client money* when it becomes properly due and payable to the *firm* for its own account.

- 9.3.20  /1
- (1) For *fees* and *commissions* payable by *customers*, 'due and payable' means:
- (a) they have been accurately calculated and are in accordance with a formula or basis previously disclosed to the *client* by the *firm*; or
 - (b) five *business days* have elapsed since a statement showing the amount of those *fees* and *commissions* has been despatched to the *client*, and the *firm* has taken reasonable steps to ensure that the *client* does not question that sum specified; or
 - (c) the precise amount of the *fees* or *commissions* has been agreed by the *client*, or has been determined by a court, arbitrator or arbiter;
- (2) Compliance with (1) may be relied on as tending to establish compliance with ■ COB 9.3.19;
- (3) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 9.3.19.

9.3.21  /1

Money held as *client money* becomes due and payable to the *firm* or for the *firm's* own account, for example, because the *firm* acted as *principal* in the contract or the *firm*, acting as agent, has itself paid for *securities* in advance of receiving the purchase *money* from its *client*. The circumstances in which it is due and payable will depend on the contractual arrangement between the *firm* and the *client* and on the provisions of ■ COB 9.3.20.

9.3.22  /1

When a *firm* has entered into an arrangement under which *commission* is rebated to a *client*, those rebates should be treated as *client money* when the *firm* has performed its obligations in accordance with the relevant contract. The circumstances in which they become due and payable will depend on the contractual arrangements between the *firm* and the *client*.

9.3.23  /1

When a *client's* obligation or liability, that is secured by that *client's* asset, crystallises, and the *firm* realises the asset in accordance with an agreement entered into between the *client* and the *firm*, the part of the proceeds of the asset to cover such liability that is due and payable to the *firm* is not *client money*. However, any proceeds of sale in excess of the amount owed by the *client* to the *firm* should be paid over to the *client* immediately or be held in accordance with the *client money rules*.

9.3.24  /1

When a *firm* realises *client collateral* to meet liabilities of that *client*, it should do so in accordance with the relevant terms and conditions (see ■ COB 9.1.49 to ■ COB 9.1.53), and for a *private customer*, in accordance with ■ COB 7.8.

Solicitors

9.3.25  /1

An *authorised professional firm* regulated by The Law Society (England and Wales), The Law Society of Scotland or The Law Society of Northern Ireland must comply with the rules of its *designated professional body* as specified in ■ COB 9.3.26, in force at

commencement, and if it does so, it will be deemed to comply with ■ COB 9.3.

9.3.26

R

/1

For the purposes of ■ COB 9.3.25 the relevant rules are:

- (1) if regulated by the Law Society (of England and Wales):
 - (a) the Solicitors' Accounts Rules 1998; or
 - (b) where applicable, the Solicitors Overseas Practice Rules 1990;
- (2) if regulated by the Law Society of Scotland, the Solicitors' (Scotland) Accounts Rules 1997 and the Solicitors' (Scotland) Accounts Certificate Rules 1997;
- (3) if regulated by the Law Society of Northern Ireland, the Solicitors' Accounts Regulations 1998.

Trustee firms (other than trustees of unit trust schemes)

9.3.27

R

/1

A *trustee firm* must hold any *client money* separate from its own *money* at all times.

9.3.28

R

/1

Only the *client money rules* listed in ■ COB 9.3.29 apply to a *trustee firm* in respect of *client money* held in the course of that trustee business.

9.3.29

R

/1

Table This table belongs to ■ COB 9.3.28

Reference	Rule
<i>COB 9.3.1R – COB 9.3.7G</i>	Application

Statutory trust

9.3.30

G

/1

Section 139(1) of the *Act* (Miscellaneous ancillary matters) provides that *rules* may make provision which result in *client money* being held by a *firm* on trust (England and Wales and Northern Ireland) or as agent (Scotland only). ■ COB 9.3.31 creates a fiduciary relationship between the *firm* and its *client* under which *client money* is in the legal ownership of the *firm* but remains in the beneficial ownership of the

client. In the event of *failure* of the *firm*, costs relating to the distribution of *client money* may have to be borne by the trust.

Requirement

9.3.31 **R** ^{/1} A *firm* (other than a *firm* acting in accordance with ■ COB 9.3.34) receives and holds *client money* as trustee (or in Scotland as agent) on the following terms:

- (1) for the purposes of and on the terms of the *client money rules* and the *client money distribution rules*;
- (2) subject to (3), for the *clients* for whom that *money* is held, according to their respective interests in it;
- (3) on *failure* of the *firm*, for the payment of the costs properly attributable to the distribution of the *client money* in accordance with (2); and
- (4) after all valid *claims* and costs under (2) and (3) have been met, for the *firm* itself.

9.3.32 **G** ^{/1} A *firm* can hold *client money* in either a *general client bank account* or a *designated client bank account*. A *firm* holds all *client money* in *general client bank accounts* for its *clients* as part of a common pool of *money* so those particular *clients* do not have a claim against a specific sum in a specific account; they only have a claim to the *client money* in general. A *firm* holds *client money* in *designated client bank accounts* for those *clients* that requested their *client money* be part of a specific pool of *money*, so those particular *clients* do have a claim against a specific sum in a specific account; they do not have a claim to the *client money* in general unless a *primary pooling event* occurs. If the *firm* becomes insolvent, and there is (for whatever reason) a *shortfall* in *money* held for a *client* compared with that *client's* entitlements, the available funds will be distributed in accordance with the *client money distribution rules*.

9.3.33 **G** ^{/1} ■ COB 9.3.39 to ■ COB 9.3.41 set out the circumstances in which it is permissible for a *firm* to hold *money*, which would otherwise be *money* belonging to the *firm*, in a *client bank account*.

9.3.34 **R** ^{/1} A *trustee firm*:

- (1) must receive and hold *client money* in accordance with the relevant instrument of trust;
- (2) subject to that, receives and holds *client money* on trust on the terms (or in Scotland on the agency terms) specified in ■ COB 9.3.31.

9.3.35 **G** ^{/1} If a *trustee firm* holds *client money* in accordance with ■ COB 9.3.34(2), the *firm* should follow the provisions in ■ COB 9.3.27 and ■ COB 9.3.28.

Segregation

- 9.3.36** **G**
/1 The purpose of the *client money rules* is to ensure that, unless otherwise permitted, *client money* is kept separate from the *firm's own money*. Segregation, in the event of a *firm's failure*, is important for the effective operation of the statutory trust that is created to protect *client money*. The aim is to clarify the difference between *client money* and general creditors' entitlements in the event of the *failure* of the *firm*.
- 9.3.37** **R**
/1 A *firm* must, except to the extent permitted by the *client money rules*, hold *client money* separate from the *firm's money*.
- 9.3.38** **R**
/1 A *firm* may segregate *client money* in a different currency from that of receipt. If it does so, the *firm* must ensure that the amount held is adjusted each *day* to an amount at least equal to the original currency amount (or the currency in which the *firm* has its liability to its *clients*, if different), translated at the previous day's closing spot exchange rate.
- 9.3.39** **R**
/1 A *firm* must not hold *money* other than *client money* in a *client bank account* unless it is:
- (1) a minimum sum required to open the account, or to keep it open; or
 - (2) *money* temporarily in the account in accordance with ■ COB 9.3.47 (Mixed remittance); or
 - (3) interest credited to the account which exceeds the amount due to *clients* as interest and has not yet been withdrawn by the *firm*.
- 9.3.40** **R**
/1 If it is prudent to do so to ensure that *client money* is protected, a *firm* may pay into a *client bank account* *money* of its own, and that *money* will then become *client money* for the purposes of the *client money rules* and the *client money distribution rules*.
- 9.3.41** **G**
/1 *Firms* are reminded of the requirements of ■ COB 9.3.100 and ■ COB 9.3.101. The *money* paid into the *client bank account* by the *firm*, in accordance with ■ COB 9.3.40, does not lessen the requirement to carry out the daily *client money* calculation.

Payment of client money into a client bank account

- 9.3.42** **R**
/1 A *firm* must segregate *client money* it receives using either:
- (1) the approach detailed in ■ COB 9.3.44 (the 'normal approach'); or
 - (2) the approach detailed in ■ COB 9.3.46 (the 'alternative approach'), subject to:

- (a) written confirmation to the *FSA* from the *firm's* auditor that the *firm* has in place systems and controls which are adequate to enable it to operate the alternative approach effectively; and
- (b) the *firm* appointing a manager responsible for compliance with the *client money rules*.

9.3.43

G

/1

The alternative approach is designed for a *firm* that operates in a multi-product, multi-currency environment for which adopting the normal approach would be unduly burdensome and would not achieve the *client* protection objective. Under the alternative approach, *client money* is received into and paid out of a *firm's* own bank accounts; consequently systems and controls that are capable of monitoring the *client money* flows are required, so that the *firm* can perform the daily *client money* calculation accurately. A *firm* that adopts the alternative approach will segregate *client money* into a *client bank account* on a daily basis, after having performed the *client money* calculation to determine what the *client money* requirement was at the close of the previous *business day*.

9.3.44

R

/1

If a *firm* receives and segregates *client money*, unless it adopts the alternative approach, it must, subject to ■ COB 9.3.15 and ■ COB 9.3.16, ■ COB 9.3.45, ■ COB 9.3.47, ■ COB 9.3.49 and ■ COB 9.3.55 (delivery versus payment) either:

- (1) pay it as soon as possible, and in any event no later than the next *business day* after receipt, into a *client bank account*; or
- (2) pay it out in accordance with ■ COB 9.3.133.

9.3.45

R

/1

If *client money* is received by the *firm* in the form of an automated transfer, the *firm* must take reasonable steps to ensure that:

- (1) the *money* is received directly into a *client bank account*; and
- (2) if *money* is received directly into the *firm's* own account, the *money* is transferred into a *client bank account* no later than the next *business day* after receipt.

9.3.46

R

/1

Under the alternative approach, a *firm* receiving and segregating *client money*:

- (1) is required to pay any *money* to or on behalf of *clients* out of its own account;
- (2) is required to perform the segregation calculation contained in ■ COB 9.3.101, adjust the balance held in its *client bank accounts* and then segregate the *money* in the *client bank account* until the calculation is re-performed on the next *business day*;
- (3) is not required to pay *client money* into a *client bank account* in accordance with any of ■ COB 9.3.44(1), ■ COB 9.3.45, ■ COB 9.3.47, ■ COB 9.3.49(1) and (2), ■ COB 9.3.55(1) and (2)(b) and ■ COB 9.3.58(1);
- (4) may receive all *client money* into its own bank account;

- (5) may choose to operate the alternative approach for some types of business (for example overseas equities transactions) and operate the normal approach for other types of business (for example *contingent liability investments*) if the *firm* can demonstrate that its systems and controls are adequate; and
- (6) may use an historic average to account for uncleared cheques in accordance with ■ COB 9.3.103.

Mixed remittance

9.3.47 **R** If a *firm* receives a *mixed remittance* (that is part *client money* and part other *money*), it must:

/1

- (1) pay the full sum into a *client bank account* in accordance with ■ COB 9.3.44(1); and
- (2) pay the *money* that is not *client money* out of the *client bank account* within one *business day* of the day on which the *firm* would normally expect the remittance to be cleared.

9.3.48 **G** When *money* is due to the *firm* in respect of *fees* and *commissions*, the *firm* should follow the provisions in ■ COB 9.3.20.

/1

Appointed representatives, field representatives and other agents

9.3.49 **R** A *firm* must establish and maintain procedures to ensure that *client money* received by its *appointed representatives*, *field representatives* or other agents is:

/1

- (1) paid into a *client bank account* of the *firm* in accordance with ■ COB 9.3.44(1); or
- (2) forwarded to the *firm*, or in the case of a *field representative* forwarded to a specified business address of the *firm*, so as to ensure that the *money* arrives at the specified business address by the close of the third *business day*.

9.3.50 **G** For the purposes of ■ COB 9.3.49(2), the *client money* received on *business day* one should be forwarded to the *firm* or specified business address of the *firm* no later than the next *business day* after receipt (*business day* two) in order for it to reach that *firm* or specified business address by the close of the third *business day*. Procedures requiring the *client money* to be sent to the *firm* or the specified business address of the *firm* by first class post no later than the next *business day* after receipt would meet the requirements of ■ COB 9.3.49(2).

/1

9.3.51 **R** If *client money* is received in accordance with ■ COB 9.3.49, the *firm* must ensure that its *appointed representative*, *field representative* or other agent keeps *client money* separately identifiable from any other

/1

money (including that of the *firm*) until the *client money* is paid into a *client bank account* or sent to the *firm*.

9.3.52

G

/1

For the purposes of ■ COB 9.3.49 and ■ COB 9.3.51, a *firm* that operates a number of small branches, but handles or accounts for all *client money* centrally, may treat those small branches as *appointed representatives*.

Client entitlements

9.3.53

R

/1

A *firm* must take reasonable steps to ensure that it is notified promptly of any receipt of *client money* in the form of *client entitlements*.

9.3.54

G

/1

The *firm* should receive regular statements from overseas depositaries used by the *firm*. The frequency of such statements will depend on the volume of business. *Client entitlements* are such things as dividends, coupons and other distributions with similar characteristics.

9.3.55

R

/1

When a *firm* receives a *client entitlement* on behalf of a *client*, it must pay any part of it which is *client money*:

- (1) for *client entitlements* received in the *United Kingdom*, into a *client bank account* in accordance with ■ COB 9.3.44(1); or
- (2) for *client entitlements* received outside the *United Kingdom*, into any bank account operated by the *firm*, provided that such *client money* is:
 - (a) paid to, or in accordance with, the instructions of the *client* concerned; or
 - (b) paid into a *client bank account* in accordance with ■ COB 9.3.44(1), as soon as possible but no later than five *business days* after the *firm* is notified of its receipt.

9.3.56

R

/1

A *firm* must take reasonable steps to ensure that a *client entitlement*, which is *client money*, is allocated within a reasonable period of time after notification of receipt.

9.3.57

E

/1

- (1) A *firm* should allocate *client entitlements* due to the individual *clients* within a period of ten *business days*.
- (2) Compliance with (1) may be relied on as tending to establish compliance with ■ COB 9.3.56.
- (3) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 9.3.56.

Money due to a client from a firm

- 9.3.58 **R**_{/1} If a *firm* is liable to pay *money* to a *client*, it must as soon as possible, and no later than one *business day* after the *money* is due and payable:
- (1) pay it into a *client bank account*, in accordance with ■ COB 9.3.44(1); or
 - (2) pay it to, or to the order of, the *client*.

- 9.3.59 **G**_{/1} *Money* may become due to a *client* in respect of an agreement entered into with, or for, that *client*, in the course of the *firm's* business.

Interest

- 9.3.60 **R**_{/1} Unless a *firm* notifies a *private customer* in writing whether or not interest is to be paid on *client money* and, if so, on what terms and at what frequency, it must pay that *private customer* all interest earned on that *client money*. Any interest due to a *client* will be *client money*.

- 9.3.61 **G**_{/1} If no interest is payable to a *private customer*, that fact should be separately identified in an agreement or notification.

- 9.3.62 **G**_{/1} If a *firm* outlines its policy on its payment of interest under ■ COB 9.3.60, it need not necessarily disclose the actual rates prevailing at any particular time; the *firm* should disclose the terms, for example, LIBOR plus or minus 'x' percent.

Transfer of client money to a third party

- 9.3.63 **G**_{/1} ■ COB 9.3.64 sets out the requirements a *firm* must comply with when it transfers *client money* to another *person* without discharging its fiduciary duty owed to that *client*. Such circumstances arise when, for example, a *firm* passes *client money* to an *intermediate broker* for *contingent liability investments* in the form of initial or variation margin on behalf of a *client*. In these circumstances, the *firm* remains responsible for that *client's* equity balance, as defined in ■ COB 9.3.113, held at the *intermediate broker* until the contract is terminated and all of that *client's* positions at that *broker* closed. If a *firm* wishes to discharge itself from its fiduciary duty, it should do so in accordance with ■ COB 9.3.133.

- 9.3.64 **R**_{/1} A *firm* may allow another *person*, such as an exchange, a *clearing house* or an *intermediate broker*, to hold or control *client money*, but only if:
- (1) the *firm* transfers the *client money*:
 - (a) for the purpose of a transaction for a *client* through or with that *person*; or

- (b) to meet a *client's* obligation to provide collateral for a transaction (for example, an *initial margin* requirement for a *contingent liability investment*); and
- (2) in the case of a *private customer*, that *customer* has been notified that the *client money* may be transferred to the other *person*.

9.3.65 G_{/1} In relation to the notification required by ■ COB 9.3.64(2), there is no need for a *firm* to make a separate disclosure in relation to each transfer made.

9.3.66 G_{/1} A *firm* should not hold excess *client money* in its *client transaction accounts* with *intermediate brokers*, *settlement agents* and *OTC counterparties*; it should be held in a *client bank account*.

Client bank accounts

9.3.67 G_{/1} The *FSA* generally requires a *firm* to place *client money* in a *client bank account* with an *approved bank*.

9.3.68 R_{/1} (1) A *firm* must ensure that, subject to ■ COB 9.3.64 and ■ COB 9.3.74, *client money* is held in a *client bank account* at one or more *approved banks*.

(2) If the *firm* is a *trustee firm*, it must:

(a) hold *client money* in a *client bank account* with an *approved bank* at all times; and

(b) maintain separate *client bank accounts* for each trust.

9.3.69 R_{/1} A *firm* may open one or more *client bank accounts* in the form of a *designated client bank account*. Characteristics of these accounts are that:

(1) the account holds *money* of one or more *clients*;

(2) the account includes in its title the word 'designated';

(3) the *clients* whose *money* is in the account have each consented in writing to the use of the bank with which the *client money* is to be held; and

(4) in the event of the *failure* of that bank, the account is not pooled with any other type of account unless a *primary pooling event* occurs.

9.3.70 R_{/1} A *firm* may open one or more *client bank accounts* in the form of a *designated client fund account*. Characteristics of these accounts are that:

(1) the account holds at least part of the *client money* of one or more *clients*, each of whom has consented to that *money* being held in

the same *client bank accounts* at the same banks (the *client money* of such *clients* constituting a designated fund);

- (2) the account includes in its title the words 'designated fund'; and
- (3) in the event of the *failure* of a bank with which part of a designated fund is held, each *designated client fund account* held with the *failed* bank will form a pool with any other *designated client fund account* containing part of that same designated fund unless a *primary pooling event* occurs.

9.3.71 G _{/1} The *client money distribution rules* set out the provisions of a *primary pooling event* on the *failure* of a *firm*.

9.3.72 G _{/1} The effect of ■ COB 9.3.70 is that a *designated client fund account* may be used for a *client* only where that *client* has consented to the use of that account and all other *designated client fund accounts* which may be pooled with it. A *client* who consents to the use of bank A and bank B should have his *money* held in a different *designated client fund account* at bank B from a *client* who has consented to the use of banks B and C.

9.3.73 G _{/1} A *firm* may operate as many *client bank accounts* as it wishes. When, for example, a *firm* has previously operated a dividend claims bank account and a margined transaction bank account under the Financial Services (Client Money) Regulations 1991 and Financial Services (Client Money) (Supplementary) Regulations 1991, these will be *client bank accounts* for the purposes of the *client money rules*.

9.3.74 R _{/1} A *firm* (other than a *trustee firm*) may hold *client money* with a bank that is not an *approved bank* if all of the following conditions are met:

- (1) the *client money* relates to:
 - (a) the settlement of a transaction, or a *series of transactions*; or
 - (b) the distribution of income;

subject to the law or market practice of a jurisdiction outside the *United Kingdom*;
- (2) because of the applicable law or market practice of that overseas jurisdiction, it is not possible to hold the *client money* in a *client bank account* with an *approved bank*;
- (3) the *firm* holds the *money* with such a bank for no longer than is necessary to effect the transaction, or *series of transactions*;
- (4) the *firm* notifies each relevant *market counterparty* and *intermediate customer* and obtains the prior written consent of each relevant *private customer* that:
 - (a) the *client money* will not be held with an *approved bank*;

- (b) in such circumstances, the legal and regulatory regime applying to the bank with which the *client money* is held will be different from that of the *United Kingdom* and, in the event of a *failure* of the bank, the *client money* may be treated differently from the treatment which would apply if the *client money* were held by an *approved bank* in the *United Kingdom*; and
 - (c) if it is the case, the particular bank has not accepted that it has no right of set off or counterclaim against *client money* held, in respect of any sum owed by the *firm* on any other account held at that bank, as required by ■ COB 9.3.82; and
- (5) the *client money* is held in a designated bank account.

A firm's selection of a bank

- 9.3.75** G_{/1} A *firm* owes a duty of care to a *client* when it decides where to place *client money*. The review required by ■ COB 9.3.76 is intended to ensure that the risks inherent in placing *client money* with the banks are minimised or appropriately diversified by requiring a *firm* to consider carefully the bank or banks with which it chooses to place *client money*.
- 9.3.76** R_{/1} Before a *firm* opens a *client bank account* and as often as is appropriate on a continuing basis (no less than once in each financial year), it must take reasonable steps to establish that the bank is appropriate for that purpose.
- 9.3.77** G_{/1} A *firm* should consider diversifying placements of *client money* with more than one bank where the amounts are, for example, of sufficient size to warrant such diversification.
- 9.3.78** G_{/1} When considering where to place *client money* and to determine the frequency of the appropriateness test under ■ COB 9.3.76, a *firm* should consider taking into account, together with any other relevant matters:
- (1) the capital of the bank;
 - (2) the amount of *client money* placed, as a proportion of the bank's capital and *deposits*;
 - (3) the credit rating of the bank (if available); and
 - (4) to the extent that the information is available, the level of risk in the investment and loan activities undertaken by the bank and its *affiliated companies*.
- 9.3.79** G_{/1} A *firm* will be expected to perform due diligence when opening a *client bank account* with a bank that is authorised by an *EEA regulator*. Any continuing assessment of that bank may be restricted to verification that it remains authorised by an *EEA regulator*.

Group banks

- 9.3.80 **R** /1 Subject to ■ COB 9.3.74(2)(b), a *firm* that holds or intends to hold *client money* with a bank which is in the same *group* as the *firm* must:
- (1) undertake a continuous review in relation to that bank which is at least as rigorous as the review of any bank which is not in the same *group*, in order to ensure that the decision to use a *group* bank is appropriate for the *client* or trust;
 - (2) disclose in writing to its *client* at the outset of the *client* relationship or, if later, not less than 20 *business days* before it begins to hold *client money* of that *client* with that bank:
 - (a) that it is holding or intends to hold *client money* with a bank in the same *group*; and
 - (b) the identity of the bank concerned.

- 9.3.81 **R** /1 If a *client* has notified a *firm* in writing that he does not wish his *money* to be held with a bank in the same *group* as the *firm*, the *firm* must either:
- (1) place that *client money* in a *client bank account* with another bank in accordance with ■ COB 9.3.68; or
 - (2) return that *client money* to, or pay it to the order of, the *client*.

Notification and acknowledgement of trust (banks)

- 9.3.82 **R** /1 When a *firm* opens a *client bank account*, the *firm* must give or have given written notice to the bank requesting the bank to acknowledge to it in writing:
- (1) that all *money* standing to the credit of the account is held by the *firm* as trustee (or if relevant, as agent) and that the bank is not entitled to combine the account with any other account or to exercise any right of set-off or counterclaim against *money* in that account in respect of any sum owed to it on any other account of the *firm*; and
 - (2) that the title of the account sufficiently distinguishes that account from any account containing *money* that belongs to the *firm*, and is in the form requested by the *firm*.

- 9.3.83 **R** /1 In the case of a *client bank account* in the *United Kingdom*, if the bank does not provide the acknowledgement referred to in ■ COB 9.3.82 within 20 *business days* after the *firm* dispatched the notice, the *firm* must withdraw all *money* standing to the credit of the account and

deposit it in a client bank account with another bank as soon as possible.

9.3.84 **R** ^{/1} In the case of a *client bank account* outside the *United Kingdom*, if the bank does not provide the acknowledgement referred to in **■ COB 9.3.82** within 20 *business days* after the *firm* dispatched the notice, the *firm* must notify the *client* of this fact as set out in **■ COB 9.3.90(3)**.

9.3.85 **G** ^{/1} *Firms* are reminded of the provisions of **■ COB 9.3.74(4)**, that sets out the notification and consents required when using a bank that is not an *approved bank*.

Notification and acknowledgement of trust (exchange, clearing house, intermediate broker or OTC counterparty)

9.3.86 **R** ^{/1} A *firm* which undertakes any *contingent liability investment* for *clients* through an exchange, *clearing house*, *intermediate broker* or *OTC counterparty* must, before the *client transaction account* is opened with the exchange, *clearing house*, *intermediate broker* or *OTC counterparty*:

- (1) notify the *person* with whom the account is to be opened that the *firm* is under an obligation to keep *client money* separate from the *firm's own money*, placing *client money* in a *client bank account*;
- (2) instruct the *person* with whom the account is to be opened that any *money* paid to it in respect of that transaction is to be credited to the *firm's client transaction account*; and
- (3) require the *person* with whom the account is to be opened to acknowledge in writing that the *firm's client transaction account* is not to be combined with any other account, nor is any right of set-off to be exercised by that *person* against *money* credited to the *client transaction account* in respect of any sum owed to that *person* on any other account.

9.3.87 **R** ^{/1} If the *intermediate broker* or *OTC counterparty* does not provide the acknowledgement required by **■ COB 9.3.86(3)** within 20 *business days* of the dispatch of the notice and instruction, the *firm* must cease using the *client transaction account* with that *broker* or counterparty and arrange as soon as possible for the transfer or liquidation of any open positions and the repayment of any *money*.

9.3.88 **G** ^{/1} If a *firm* knows or reasonably ought to know that an *intermediate broker* or *OTC counterparty* will not provide the acknowledgement required by **■ COB 9.3.86**, the *firm* should not open a *client transaction account* with that *intermediate broker* or *OTC counterparty*.

9.3.89 **R** ^{/1} If the exchange or *clearing house* does not provide the acknowledgement required by **■ COB 9.3.86(3)** within 20 *business days* of the despatch of the notice and instruction, the *firm* must notify the *client* that a particular exchange or *clearing house* has not accepted

that it has no right of set-off or counterclaim against *money* held in a *client transaction account* in respect of any sum owed on any other account of the *firm*, in that particular case or generally in an agreement entered into between the *firm* and its *client*.

Notification to clients: use of an approved bank outside the United Kingdom

9.3.90

R

^{/1}

A *firm* must not hold *client money* in a *client bank account* outside the *United Kingdom*, unless the *firm* has previously disclosed to the *client* in writing:

- (1) that his *money* may be deposited in a *client bank account* outside the *United Kingdom*;
- (2) that in such circumstances, the legal and regulatory regime applying to the *approved bank* will be different from that of the *United Kingdom* and, in the event of a *failure* of the bank, his *money* may be treated in a different manner from that which would apply if the *client money* was held by a bank in the *United Kingdom*; and
- (3) if it is the case, that a particular bank has not accepted that it has no right of set-off or counterclaim against *money* held in a *client bank account* in respect of any sum owed on any other account of the *firm*, notwithstanding the *firm's* request to the bank as required by ■ COB 9.3.82.

9.3.91

G

^{/1}

There is no need for a *firm* to make a separate disclosure under ■ COB 9.3.90(1) and (2) in relation to each jurisdiction.

9.3.92

G

^{/1}

Firms are reminded of the provisions of ■ COB 9.3.74(4), that sets out the notification and consents required when using a bank that is not an *approved bank*.

9.3.93

R

^{/1}

If a *client* has notified a *firm* in writing before entering into a transaction that *client money* is not to be held in a particular jurisdiction, the *firm* must either:

- (1) hold the *client money* in a *client bank account* in a jurisdiction to which the *client* has not objected; or
- (2) return the *client money* to, or to the order of, the *client*.

9.3.94

G

^{/1}

Firms are reminded of the provisions of ■ COB 9.3.74(4), that sets out the notification and consents required when using a bank that is not an *approved bank*.

Notification to clients: use of an intermediate broker, settlement agent or OTC counterparty outside the United Kingdom.

9.3.95

R

/1

A *firm* must not undertake any transaction for a *client* that involves *client money* being passed to an *intermediate broker, settlement agent* or *OTC counterparty* located in a jurisdiction outside the *United Kingdom*, unless the *firm* has previously disclosed in writing to the *client*:

- (1) that his *client money* may be passed to a *person* outside the *United Kingdom*; and
- (2) that, in such circumstances, the legal and regulatory regime applying to the *intermediate broker, settlement agent* or *OTC counterparty* will be different from that of the *United Kingdom* and, in the event of a *failure* of the *intermediate broker, settlement agent* or *OTC counterparty*, this *money* may be treated in a different manner from that which would apply if the *money* was held by an *intermediate broker, settlement agent* or *OTC counterparty* in the *United Kingdom*.

9.3.96

G

/1

There is no need for a *firm* to make a separate disclosure under ■ COB 9.3.95 in relation to each jurisdiction.

9.3.97

R

/1

If a *client* has notified a *firm* before entering into a transaction that he does not wish his *money* to be passed to an *intermediate broker, settlement agent* or *OTC counterparty* located in a particular jurisdiction, the *firm* must either:

- (1) hold the *client money* in a *client bank account* in the *United Kingdom* or a jurisdiction to which the *client* has not objected and pay its own *money* to the *firm's* own account with the broker, agent or counterparty; or
- (2) return the *money* to, or to the order of, the *client*.

Notification to the FSA: failure of a bank, intermediate broker, settlement agent or OTC counterparty

9.3.98

R

/1

On the *failure* of a third party with which *money* is held, a *firm* must notify the *FSA*:

- (1) as soon as it becomes aware of the *failure* of any bank, *intermediate broker, settlement agent, OTC counterparty* or other entity with which it has placed, or to which it has passed, *client money*; and
- (2) as soon as reasonably practical, whether it intends to make good any *shortfall* that has arisen or may arise and of the amounts involved.

Client money calculation

- 9.3.99** G ^{/1} The purpose of the *client money* calculation is:
- (1) for the normal approach, to act as a check that the amount of *client money* that is segregated at banks and third parties is sufficient to meet the *firm's* obligations to its *clients* on a daily basis;
 - (2) for the alternative approach, to calculate the appropriate amount of *client money* to be segregated at banks and third parties which is sufficient to meet a *firm's* obligations to its *clients* on a daily basis.

- 9.3.100** R ^{/1} Each *business day*, a *firm* that adopts the normal approach in accordance with ■ COB 9.3.42 must:
- (1) check whether its *client money* resource, being the aggregate balance on the *firm's client bank accounts*, as at the close of business on the previous *business day*, was at least equal to the *client money* requirement, as defined in ■ COB 9.3.105, as at the close of business on that day; and
 - (2) ensure that:
 - (a) any *shortfall* is paid into a *client bank account* by the close of business on the day the calculation is performed; or
 - (b) any excess is withdrawn within the same time period unless ■ COB 9.3.39 or ■ COB 9.3.40 applies.

- 9.3.101** R ^{/1} Each *business day*, a *firm* that adopts the alternative approach, in accordance with ■ COB 9.3.42, must ensure that its *client money* resource, being the aggregate balance on the *firm's client bank accounts*, as at the close of business on that *business day* is at least equal to the *client money* requirement, as defined in ■ COB 9.3.105, as at the close of business on the previous *business day*.

- 9.3.102** G ^{/1} No excess or *shortfall* should arise when adopting the alternative approach.

- 9.3.103** G ^{/1} If a *firm* is operating under the alternative approach allowed by ■ COB 9.3.42, and draws a cheque on its own bank account, it will be expected to account for those cheques that have not yet cleared under ■ COB 9.3.135 when performing the *client money* calculation in ■ COB 9.3.101. An historic average estimate of uncleared cheques may be used to satisfy this obligation.

- 9.3.104** G ^{/1} For the purposes of ■ COB 9.3.100 and ■ COB 9.3.101, a *firm* should use the values contained in its accounting records, for example its cash book, rather than values contained in statements received from its banks and other third parties.

Client money requirement

- 9.3.105** R ^{/1} Subject to ■ COB 9.3.119, the *client money* requirement is the sum of, for all *clients*:

- (1) the individual *client* balances calculated in accordance with ■ COB 9.3.106, excluding:
 - (a) individual *client* balances which are negative (that is, debtors); and
 - (b) *clients'* equity balances calculated in accordance with ■ COB 9.3.113; and
- (2) the total *contingent liability investment* requirement, which is calculated in accordance with ■ COB 9.3.115.

General transactions

9.3.106 **R** The individual *client* balance for each *client* is calculated in accordance with ■ COB 9.3.107.
/1

9.3.107 **R** Table This table belongs to ■ COB 9.3.106.
/1

Individual client balance calculation		
Free money (no trades) and sale proceeds due to the <i>client</i>:		A
(a)	in respect of <i>principal deals</i> when the <i>client</i> has delivered the <i>designated investments</i>; and	B
(b)	in respect of <i>agency deals</i>, when either:	
(i)	the sale proceeds have been received by the <i>firm</i> and the <i>client</i> has delivered the <i>designated investments</i>; or	C1
(ii)	the <i>firm</i> holds the <i>designated investments</i> for the <i>client</i>; and	C2
the cost of purchases:		
(c)	in respect of <i>principal deals</i>, paid for by the <i>client</i> but the <i>firm</i> has not delivered the <i>designated investments</i> to the <i>client</i>; and	D
(d)	in respect of <i>agency deals</i>, paid for by the <i>client</i> when either:	
(i)	the <i>firm</i> has not remitted the <i>money</i> to, or to the order of, the counterparty; or	E1
(ii)	the <i>designated investments</i> have been received by the <i>firm</i> but have not been delivered to the <i>client</i>;	E2
Less	<i>money</i> owed by the <i>client</i> in respect of unpaid purchases by or for the <i>client</i> if delivery of those <i>designated investments</i> has been made to the <i>client</i>; and	F

Individual client balance calculation

Individual <i>Client Balance</i> 'X' = (A+B+C1+C2+D+E1+E2)–F–G	X

- 9.3.108 **R** In ■ COB 9.3.106 a *firm* must calculate the individual *client* balance using the contract value of any *client* purchases or sales. _{/1}
- 9.3.109 **R** A *firm* may choose to segregate *designated investments* instead of the value identified in ■ COB 9.3.107 (except E1) if it ensures that the *designated investments* are held in such a manner that the *firm* cannot use them for its own purposes. _{/1}
- 9.3.110 **G** Segregation in the context of ■ COB 9.3.109 can take many forms, including the holding of a *safe custody investment* in a nominee name and the safekeeping of certificates evidencing title in a fire resistant safe. It is not the intention that all the *custody rules* should be applied to *designated investments* held in the course of settlement. _{/1}
- 9.3.111 **G** In calculating its individual *client* balances under ■ COB 9.3.106, a *firm* need not include *money* held in accordance with ■ COB 9.3.15 and ■ COB 9.3.16 (delivery versus payment). _{/1}
- 9.3.112 **G** In calculating its individual *client* balances under ■ COB 9.3.106, a *firm*: _{/1}
- (1) should include dividends received and interest earned and allocated;
 - (2) may deduct outstanding *fees*, calls, rights and interest charges and other amounts owed by the *client* in accordance with ■ COB 9.3.20;
 - (3) need not include *client money* which, under ■ COB 9.3.55(2), is not required to be segregated nor include *client money* forwarded to the *firm*, in accordance with ■ COB 9.3.51, but not received;
 - (4) should take into account any *client money* arising from ■ COB 9.3.129; and
 - (5) should include any unallocated *client money*.

Equity balance

- 9.3.113 **R** A *client's* equity balance is the amount which the *firm* would be liable (ignoring for the purposes of this *rule* any non-cash *collateral* held) to pay to a *client* (or the *client* to the *firm*) in respect of his *margined transactions* if each of his open positions was liquidated at the closing or settlement prices published by the relevant exchange or other appropriate pricing source and his account closed. _{/1}
- 9.3.114 **R** A *firm's* equity balance, whether with an exchange, *intermediate broker* or OTC counterparty, means the amount which the *firm* would be liable to pay to the exchange, *intermediate broker* or OTC counterparty (or vice versa) in respect of the *firm's margined* _{/1}

transactions if each of the open positions of the *firm's clients* was liquidated at the closing or settlement prices published by the relevant exchange or other appropriate pricing source and the *firm's* account with the exchange, *intermediate broker* or *OTC* counterparty is closed.

Margined transaction requirement

9.3.115

R

The total margined transaction requirement is:

/1

- (1) the sum of each of the *client's* equity balances, as defined in ■ COB 9.3.113, which are positive;

Less

- (2) the proportion of any individual negative *client* equity balance which is secured by *approved collateral*; and
- (3) the net aggregate of the *firm's* equity balance (negative balances being deducted from positive balances) on transaction accounts for *customers* with exchanges, *clearing houses*, *intermediate brokers* and *OTC* counterparties.

9.3.116

G

To meet a shortfall that has arisen in respect of the requirement in ■ COB 9.3.105(2), a *firm* may utilise its own *approved collateral* provided it is held on terms specifying when it is to be realised for the benefit of *clients*, it is clearly identifiable from the *firm's* own property and the relevant terms are evidenced in writing by the *firm*. In addition, the proceeds of the sale of that *collateral* should be paid into a *client bank account*.

/1

9.3.117

G

If a *firm's* total *margined transaction* requirement is negative, the *firm* should treat it as zero for the purposes of calculating its *client money* requirement in accordance with ■ COB 9.3.105(2).

/1

9.3.118

G

The terms '*client* equity balance' in ■ COB 9.3.113 and '*firm's* equity balance' in ■ COB 9.3.114 refer to cash values and do not include non-cash *collateral* or other *designated investments* held in respect of a *contingent liability investment*.

/1

Reduced client money requirement option

9.3.119

R

- (1) When, in respect of a *client*, there is a positive individual *client* balance and a negative *client* equity balance, a *firm* may offset the credit against the debit and hence have a reduced individual *client* balance in ■ COB 9.3.106 for that *client*.

/1

- (2) When, in respect of a *client*, there is a negative individual *client* balance and a positive *client* equity balance, a *firm* may offset the credit against the debit and hence have a reduced *client* equity balance in ■ COB 9.3.115 for that *client*.

9.3.120 G _{/1} The effect of ■ COB 9.3.119 is to allow a *firm* to offset, on a *client by client* basis, a negative amount with a positive amount arising out of the calculations in ■ COB 9.3.106 and ■ COB 9.3.115, and, by so doing, reduce the amount the *firm* is required to segregate.

Failure to perform calculations

9.3.121 R _{/1} A *firm* must notify the *FSA* immediately if it is unable to, or does not, perform the daily calculation required by ■ COB 9.3.100 or ■ COB 9.3.101.

9.3.122 R _{/1} A *firm* must notify the *FSA* immediately it becomes aware that it may not be able to make good any *shortfall* identified by ■ COB 9.3.100 by the close of business on the day the calculation is performed.

Reconciliation of client money balances: frequency of reconciliation

9.3.123 R _{/1} A *firm* must perform a reconciliation of the *client money* balances which it holds, or for which it is responsible, as frequently as is necessary to ensure the accuracy of its record of *money* so held, and no less than once in every 25 *business days*.

9.3.124 G _{/1} In determining whether the minimum acceptable frequency is sufficient, a *firm* should consider the risks to which the business is exposed, such as the volume of business, and where and with whom the *client money* is held.

9.3.125 R _{/1} A *firm* must complete the reconciliation of *client money* within ten *business days* of the date to which the reconciliation relates.

Reconciliation method

9.3.126 R _{/1} A *firm* must compare:

- (1) the balance on each *client bank account* as recorded by the *firm* with the balance on that account as set out on the statement or other form of confirmation issued by the bank with which those accounts are held; and
- (2) the balance, currency by currency, on each *client transaction account* as recorded by the *firm*, with the balance on that account as set out in the statement or other form of confirmation issued by the *person* with whom the account is held;

and identify any discrepancies between them.

9.3.127 R _{/1} Any *approved collateral* held in accordance with the *client money rules* must be included within this reconciliation.

Reconciliation discrepancies

- 9.3.128 **R** /1 When any discrepancy arises as a result of the reconciliation carried out under ■ COB 9.3.126, the *firm* must identify the reason for the discrepancy and correct it as soon as possible, unless the discrepancy arises solely as a result of timing differences between the accounting systems of the party providing the statement or confirmation and that of the *firm*.
- 9.3.129 **R** /1 While a *firm* is unable to resolve a difference arising from a reconciliation, and one record or a set of records examined by the *firm* during its reconciliation indicates that there is a need to have a greater amount of *client money* or *approved collateral* than is in fact the case, the *firm* must assume, until the matter is finally resolved, that the record or set of records is accurate and pay its own *money* into a relevant account.
- 9.3.130 **G** /1 Items recorded or held within a suspense or error account fall within the scope of discrepancies.
- 9.3.131 **R** /1 A *firm* must notify the *FSA* as soon as possible if it is unable to comply with any of the requirements of ■ COB 9.3.123, ■ COB 9.3.125, ■ COB 9.3.126, ■ COB 9.3.128 and ■ COB 9.3.129.

Discharge of fiduciary duty

- 9.3.132 **G** /1 The purpose of ■ COB 9.3.133 to ■ COB 9.3.136 is to set out those situations in which a *firm* will have fulfilled its contractual and fiduciary obligations in relation to any *client money* held for or on behalf of its *client*, in relation to the *firm's* ability to require repayment of that *money*.
- 9.3.133 **R** /1 *Money ceases to be client money if it is paid:*
- (1) to the *client*, or a duly authorised representative of the *client*; or
 - (2) to a third party on the instruction of the *client*, unless it is transferred to a third party in the course of effecting a transaction, in accordance with ■ COB 9.3.64; or
 - (3) into a bank account of the *client* (not being an account which is also in the name of the *firm*); or
 - (4) to the *firm* itself, when it is due and payable to the *firm* in accordance with ■ COB 9.3.19 to ■ COB 9.3.24; or
 - (5) to the *firm* itself, when it is an excess in the *client bank account* as set out in ■ COB 9.3.100(2)(b).
- 9.3.134 **G** /1 When a *firm* wishes to transfer *client money* balances to a third party in the course of transferring its business to another *firm*, it should do so in compliance with ■ COB 9.3.133.

9.3.135 **R** ^{/1} When a *firm* draws a cheque or other payable order to discharge its fiduciary duty under ■ COB 9.3.133, it must continue to treat the sum concerned as *client money* until the cheque or order is presented and paid by the bank.

9.3.136 **R** ^{/1} For the purposes of ■ COB 9.3.19, if a *firm* makes a payment to, or on the instructions of, a *client*, from an account other than a *client bank account*, until that payment has cleared, no equivalent sum from a *client bank account* for reimbursement will become due and payable to the *firm*.

Allocated but unclaimed client money

9.3.137 **G** ^{/1} The purpose of ■ COB 9.3.138 is to allow a *firm*, in the normal course of its business, to cease to treat as *client money* any balances, allocated to an individual *client*, when those balances remain unclaimed.

9.3.138 **R** ^{/1} A *firm* may cease to treat as *client money* any unclaimed *client money* balance if it can demonstrate that it has taken reasonable steps to trace the *client* concerned and to return the balance.

9.3.139 **E** ^{/1}

- (1) Reasonable steps should include:
 - (a) entering into a written agreement, in which the *client* consents to the *firm* releasing, after the period of time specified in (b), any *client money* balances, for or on behalf of that *client*, from *client bank accounts*;
 - (b) determining that there has been no movement on the *client's* balance for a period of at least six years (notwithstanding any payments or receipts of charges, interest or similar items);
 - (c) writing to the *client* at the last known address informing the *client* of the *firm's* intention of no longer treating that balance as *client money*, giving the *client* 28 days to make a claim;
 - (d) making and retaining records of all balances released from *client bank accounts*; and
 - (e) undertaking to make good any valid claim against any released balances;
- (2) Compliance with (1) may be relied on as tending to establish compliance with ■ COB 9.3.138;
- (3) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 9.3.138.

9.3.140 **G** ^{/1} When a *firm* gives an undertaking in ■ COB 9.3.139(1)(e), it should make arrangements authorised by the *firm's* relevant *controllers* that are legally enforceable by any *person* with a valid claim to such *money*.

Commodity futures Trading Commission Part 30 exemption order

- 9.3.141 **R** ^{/1} A *firm* with a *Part 30 exemption order* must treat as *client money* the *money* of any US resident investor which is held or received in respect of transactions on non-US exchanges.
- 9.3.142 **R** ^{/1} A *firm* with a *Part 30 exemption order* which also operates an LME bond arrangement for the benefit of US-resident investors, must exclude the *client's* equity balances, as defined in ■ COB 9.3.113, for transactions undertaken on the London Metal Exchange on behalf of those US-resident investors from the calculation required by ■ COB 9.3.115.
- 9.3.143 **R** ^{/1} A *firm* must not reduce the amount of, or cancel a letter of credit issued under, an LME bond arrangement where this will cause the *firm* to be in breach of its *Part 30 exemption order*.
- 9.3.144 **R** ^{/1} A *firm* must notify the *FSA* immediately it arranges the *issue* of an individual letter of *credit* under an LME bond arrangement.

Records

- 9.3.145 **R** ^{/1} A *firm* must ensure that proper records, sufficient to show and explain the *firm's* transactions and commitments in respect of its *client money*, are made and retained for a period of three years after they were made.

9.4 Collateral

Application

- 9.4.1** **R** _{/1} This section applies to a *firm* when it receives or holds assets in connection with an arrangement to secure the obligation of a *client* in the course of, or in connection with, its *designated investment business*.
- 9.4.2** **G** _{/1} *Firms* are reminded that, under **■** COB 1.2.1(1), this section does not apply to an *incoming EEA firm* with respect to its *passport activities*. The application of this section is also dependent on the location from which the activity is undertaken (see **■** COB 1.4.3).
- 9.4.3** **R** _{/1} This section does not apply to a *firm* that has only a bare security interest (without rights to hypothecate) in the *client's* asset. In such circumstances, the *firm* must comply with the *custody rules* or *client money rules* as appropriate.
- 9.4.4** **G** _{/1} For the purpose of this section only, a bare security interest in the *client's* asset gives a *firm* the right to realise the assets only on a *client's* default and without the right to use other than in default.

Purpose

- 9.4.5** **G** _{/1} The purpose of this section is to ensure that an appropriate level of protection is provided for those assets over which a *client* gives a *firm* certain rights. The arrangements covered by this section are those under which the *firm* is given a right to use the asset, and the *firm* treats the asset as if legal title and associated rights to that asset had been transferred to the *firm* subject only to an obligation to return equivalent assets to the *client* upon satisfaction of the *client's* obligation to the *firm*. The rights covered in this section do not include those arrangements by which the *firm* has only a bare security interest in the *client's* asset (in which case the *custody rules* or *client money rules* apply).
- 9.4.6** **G** _{/1} Examples of the arrangements covered by this section include the taking of collateral by a *firm*, under the ISDA English Law (transfer of title) and the New York Law Credit Support Annexes (assuming the right to rehypothecate has not been disapplied).
- 9.4.7** **G** _{/1} This section recognises the need to apply a differing level of regulatory protection to the assets which form the basis of the two different types of arrangement described in **■** COB 9.4.5. Under the bare security interest arrangement, the asset

continues to belong to the *client* until the *firm's* right to realise that asset crystallises (that is, on the *client's* default). But under a "right to use arrangement", the *client* has transferred to the *firm* the legal title and associated rights to the asset, so that when the *firm* exercises its right to treat the asset as its own, the asset ceases to belong to the *client* and in effect becomes the *firm's* asset and is no longer in need of the full range of *client* asset protection. The *firm* may exercise its right to treat the asset as its own by, for example, clearly so identifying the asset in its own books and records.

Requirements

- 9.4.8** R _{/1} A *firm* that receives or holds a *client's* assets under an arrangement to which this section applies and which exercises its right to treat the assets as its own must ensure that it maintains adequate records to enable it to meet any future obligations including the return of equivalent assets to the *client*.
- 9.4.9** G _{/1} If the *firm* has the right to use the *client's* asset under a "right to use arrangement" but has not yet exercised its right to treat the asset as its own, the *client money rules* or the *custody rules* will continue to apply as appropriate until such time as the *firm* exercises its right, at which time ■ COB 9.4.8 will apply.
- 9.4.10** G _{/1} When appropriate, *firms* that enter into the arrangements covered in this section with *private customers* will be expected to identify in the statement of *custody assets* sent to the *client* in accordance with ■ COB 9.1.59 (Production and despatch of client statements) details of the assets which form the basis of the arrangements. Where the *firm* utilises global netting arrangements, a statement of the assets held on this basis will suffice.

9.5 Client money distribution

Application

9.5.1 **R** ^{/1} ■ COB 9.5 (the *client money distribution rules*) applies to a *firm* that holds *client money* which is subject to the *client money rules* when a *primary pooling event* or a *secondary pooling event* occurs.

9.5.2 **G** ^{/1} The *client money distribution rules* have force and effect on any *firm* that holds *client money*. Therefore, they will apply to a *UK branch* of a non-EEA *firm*. In this case the *UK branch* of the *firm* may be treated as if the *branch* itself is a free standing entity subject to the *client money distribution rules*.

Purpose

9.5.3 **G** ^{/1} The *client money distribution rules* seek to facilitate the timely return of *client money* to a *client* in the event of the *failure* of a *firm* or third party at which the *firm* holds *client money*.

Failure of the authorised firm: primary pooling event

9.5.4 **G** ^{/1} A *primary pooling event* triggers a notional pooling of all the *client money*, in every type of *client money* account, and the obligation to distribute it.

9.5.5 **R** ^{/1} A *primary pooling event* occurs:

- (1) on the *failure* of the *firm*; or
- (2) on the vesting of assets in a *trustee* in accordance with an 'assets requirement' imposed under section 46(1)(b) of the *Act*; or
- (3) on the coming into force of a *requirement* for all *client money* held by the *firm*; or
- (4) when the *firm* notifies, or is in breach of its duty to notify, the *FSA*, in accordance with ■ COB 9.3.131, that it is unable correctly to identify and allocate in its records all valid claims arising as a result of a *secondary pooling event*.

9.5.6 **R** ^{/1} ■ COB 9.5.5(4) does not apply so long as:

- (1) the *firm* is taking steps, in consultation with the *FSA*, to establish those records; and
- (2) there are reasonable grounds to conclude that the records will be capable of rectification within a reasonable period.

Pooling and distribution

9.5.7

R

If a *primary pooling event* occurs:

^{/1}

- (1) *client money* held in each *client money* account of the *firm* is treated as pooled; and
- (2) the *firm* must distribute that *client money* in accordance with ■ COB 9.3.31, so that each *client* receives a sum which is rateable to the *client money* entitlement calculated in accordance with ■ COB 9.3.119.

9.5.8

G

A *client's main* claim is for the return of *client money* held in a *client bank account*. A *client* may claim for any *shortfall* against *money* held in a *firm's* own account. For that claim, the client will be an unsecured creditor of the *firm*.

^{/1}

Client money received after the failure of the firm

9.5.9

R

Client money received by the *firm* after a *primary pooling event* must not be pooled with *client money* held in any *client money* account operated by the *firm* at the time of the *primary pooling event*. It must be placed in a *client bank account* that has been opened after that event and must be handled in accordance with the *client money rules*, and returned to the relevant *client* without delay, except to the extent that:

^{/1}

- (1) it is *client money* relating to a transaction that has not settled at the time of the *primary pooling event*; or
- (2) it is *client money* relating to a *client*, for whom the *client money* entitlement, calculated in accordance with ■ COB 9.3.119, shows that *money* is due from the *client* to the *firm* at the time of the *primary pooling event*.

9.5.10

G

Client money received after the *primary pooling event* relating to an unsettled transaction should be used to settle that transaction. Examples of such transactions include:

^{/1}

- (1) an equity transaction with a trade date before the date of the *primary pooling event* and a settlement date after the date of the *primary pooling event*; or
- (2) a *contingent liability investment* that is 'open' at the time of the *primary pooling event* and is due to settle after the *primary pooling event*.

- 9.5.11 **R** /1 If a *firm* receives a *mixed remittance* after a *primary pooling event*, it must:
- (1) pay the full sum into the separate *client bank account* opened in accordance with ■ COB 9.5.9; and
 - (2) pay the *money* that is not *client money* out of that *client bank account* into a *firm's* own bank account within one *business day* of the *day* on which the *firm* would normally expect the remittance to be cleared.

- 9.5.12 **G** /1 Whenever possible the *firm* should seek to split a *mixed remittance* before the relevant accounts are credited.

Failure of a bank, intermediate broker, settlement agent or OTC counterparty: secondary pooling events

- 9.5.13 **R** /1 If both a *primary pooling event* and a *secondary pooling event* occur, the provisions of this section relating to a *primary pooling event* apply.

- 9.5.14 **R** /1 A *secondary pooling event* occurs on the *failure* of a third party to which *client money* held by the *firm* has been transferred under ■ COB 9.3.42 or ■ COB 9.3.64.

- 9.5.15 **R** /1 ■ COB 9.5.20 to ■ COB 9.5.32 do not apply if, on the *failure* of the third party, the *firm* repays to its *clients* or pays into a *client bank account*, at an unaffected bank, an amount equal to the amount of *client money* which would have been held if a *shortfall* had not occurred at that third party.

- 9.5.16 **G** /1 When *client money* is transferred to a third party, a *firm* continues to owe a fiduciary duty to the *client*. However, consistent with a fiduciary's responsibility (whether as agent or trustee) for third parties under general law, a *firm* will not be held responsible for a *shortfall* in *client money* caused by a third party *failure* if it has complied with those duties.

- 9.5.17 **G** /1 To comply with its duties the *firm* should show proper care:
- (1) in the selection of a third party; and
 - (2) when monitoring the performance of the third party.

By demonstrating compliance with ■ COB 9.3.76, a *firm* should be able to demonstrate that it has taken reasonable steps to comply with its duties.

Failure of a bank

- 9.5.18 **G** /1 When a bank *fails* and the *firm* decides not to make good the *shortfall* in the amount of *client money* held at that bank, a *secondary pooling event* will occur in accordance with ■ COB 9.5.20. The *firm* would be expected to reflect the *shortfall*

that arises at the *failed* bank in the daily *client money* calculation by reducing the *client money* resource and *client money* requirement accordingly.

9.5.19

G

/1

The *client money distribution rules* seek to ensure that *clients* who have previously specified that they are not willing to accept the risk of the bank that has *failed*, and who therefore requested that their *client money* be placed in a *designated client bank account* at a different bank, should not suffer the loss of the bank that has *failed*.

Failure of a bank: pooling

9.5.20

R

/1

If a *secondary pooling event* occurs as a result of the *failure* of a bank where one or more *general client bank accounts* are held, then:

- (1) in relation to every *general client bank account* of the *firm*, the provisions of ■ COB 9.5.22 and ■ COB 9.5.27 to ■ COB 9.5.29 will apply;
- (2) in relation to every *designated client bank account* held by the *firm* with the *failed* bank, the provisions of ■ COB 9.5.24 and ■ COB 9.5.27 to ■ COB 9.5.29 will apply;
- (3) in relation to each *designated client fund account* held by the *firm* with the *failed* bank, the provisions of ■ COB 9.5.25 and ■ COB 9.5.27 to ■ COB 9.5.29 will apply;
- (4) any *money* held at a bank, other than the bank that has *failed*, in *designated client bank accounts*, is not pooled with any other *client money*; and
- (5) any *money* held in a *designated client fund account*, no part of which is held by the bank that has *failed*, is not pooled with any other *client money*.

9.5.21

R

/1

If a *secondary pooling event* occurs as a result of the *failure* of a bank where one or more *designated client bank accounts* or *designated client fund accounts* are held, then;

- (1) in relation to every *designated client bank account* held by the *firm* with the *failed* bank, the provisions of ■ COB 9.5.24 and ■ COB 9.5.27 to ■ COB 9.5.29 will apply; and
- (2) in relation to each *designated client fund account* held by the *firm* with the *failed* bank, the provisions of ■ COB 9.5.25 and ■ COB 9.5.27 to ■ COB 9.5.29 will apply.

9.5.22

R

/1

Money held in each *general client bank account* and *client transaction account* of the *firm* must be treated as pooled and:

- (1) any *shortfall* in *client money* held, or which should have been held, in *general client bank accounts* and *client transaction accounts*, that has arisen as a result of the *failure* of the bank,

must be borne by all the *clients* whose *client money* is held in either a *general client bank account* or *client transaction account* of the *firm*, rateably in accordance with their entitlements;

- (2) a new *client money* entitlement must be calculated for each *client* by the *firm*, to reflect the requirements in (1), and the *firm's* records must be amended to reflect the reduced *client money* entitlement;
- (3) the *firm* must make and retain a record of each *client's* share of the *client money shortfall* at the *failed* bank until the *client* is repaid; and
- (4) the *firm* must use the new *client* entitlements, calculated in accordance with (2), when performing the daily *client money* calculation in accordance with ■ COB 9.3.99 to ■ COB 9.3.119.

9.5.23

G
/1

The term 'which should have been held' is a reference to the *failed* bank's failure to hold the *client money* at the time of the pooling event.

9.5.24

R
/1

For each *client* with a *designated client bank account* held at the *failed* bank:

- (1) any *shortfall* in *client money* held, or which should have been held, in *designated client bank accounts* that has arisen as a result of the *failure*, must be borne by all the *clients* whose *client money* is held in a *designated client bank account* of the *firm* at the *failed* bank, rateably in accordance with their entitlements;
- (2) a new *client money* entitlement must be calculated for each of the relevant *clients* by the *firm*, and the *firm's* records must be amended to reflect the reduced *client money* entitlement;
- (3) the *firm* must make and retain a record of each *client's* share of the *client money shortfall* at the *failed* bank until the *client* is repaid; and
- (4) the *firm* must use the new *client money* entitlements, calculated in accordance with (2), when performing the daily *client money* calculation, in accordance with ■ COB 9.3.99 to ■ COB 9.3.119.

9.5.25

R
/1

Money held in each *designated client fund account* with the *failed* bank must be treated as pooled with any other *designated client fund accounts* of the *firm* which contain part of the same designated fund and:

- (1) any *shortfall* in *client money* held, or which should have been held, in *designated client fund accounts* that has arisen as a result of the *failure*, must be borne by each of the *clients* whose *client money* is held in that designated fund, rateably in accordance with their entitlements;

- (2) a new *client* entitlement must be calculated for each *client* by the *firm*, in accordance with (1), and the *firm's* records must be amended to reflect the reduced *client money* entitlement;
- (3) the *firm* must make and retain a record of each *client's* share of the *client money shortfall* at the *failed* bank until the *client* is repaid; and
- (4) the *firm* must use the new *client money* entitlements, calculated in accordance with (2), when performing the daily *client money* calculation in accordance with ■ COB 9.3.99 to ■ COB 9.3.119.

9.5.26

R

/1

A *client* whose *money* was held, or which should have been held, in a *designated client bank account* with a bank that has *failed* is not entitled to claim in respect of that *money* against any other *client bank account* or *client transaction account* of the *firm*.

Client money received after the failure of a bank

9.5.27

R

/1

Client money received by the *firm* after the *failure* of a bank, that would otherwise have been paid into a *client bank account* at that bank:

- (1) must not be transferred to the *failed* bank unless specifically instructed by the *client* in order to settle an obligation of that *client* to the *failed* bank; and
- (2) must be, subject to (1), placed in a separate *client bank account* that has been opened after the *secondary pooling event* and either:
 - (a) on the written instruction of the *client*, transferred to a bank other than the one that has *failed*; or
 - (b) returned to the *client* as soon as possible.

9.5.28

R

/1

If a *firm* receives a *mixed remittance* after the *secondary pooling event* which consists of *client money* that would have been paid into a *general client bank account*, a *designated client bank account* or a *designated client fund account* maintained at the bank that has *failed*, it must:

- (1) pay the full sum into a *client bank account* other than one operated at the bank that has *failed*; and
- (2) pay the *money* that is not *client money* out of that *client bank account* within one *business day* of the day on which the *firm* would normally expect the remittance to be cleared.

9.5.29

G

/1

Whenever possible the *firm* should seek to split a *mixed remittance* before the relevant accounts are credited.

**Failure of an intermediate broker, settlement agent or OTC counterparty:
Pooling**

9.5.30 **R** ^{/1} If a *secondary pooling event* occurs as a result of the *failure* of an *intermediate broker, settlement agent* or *OTC counterparty*, then in relation to every *general client bank account* and *client transaction account* of the *firm*, the provisions of **■ COB 9.5.31** and **■ COB 9.5.27** to **■ COB 9.5.29** will apply.

9.5.31 **R** ^{/1} Money held in each *general client bank account* and *client transaction account* of the *firm* must be treated as pooled and:

- (1) any *shortfall* in *client money* held, or which should have been held, in *general client bank accounts* and *client transaction accounts*, that has arisen as a result of the *failure*, must be borne by all the *clients* whose *client money* is held in either a *general client bank account* or a *client transaction account* of the *firm*, rateably in accordance with their entitlements;
- (2) a new *client money* entitlement must be calculated for each *client* by the *firm*, to reflect the requirements of (1), and the *firm's* records must be amended to reflect the reduced *client money* entitlement;
- (3) the *firm* must make and retain a record of each *client's* share of the *client money shortfall* at the *failed intermediate broker, settlement agent* or *OTC counterparty* until the *client* is repaid; and
- (4) the *firm* must use the new *client money* entitlements, calculated in accordance with (2), when performing the daily *client money* calculation, in accordance with **■ COB 9.3.99** to **■ COB 9.3.119**.

**Client money received after the failure of an intermediate broker,
settlement agent or OTC counterparty**

9.5.32 **R** ^{/1} *Client money* received by the *firm* after the *failure* of an *intermediate broker, settlement agent* or *OTC counterparty*, that would otherwise have been paid into a *client transaction account* at that *intermediate broker, settlement agent* or *OTC counterparty*:

- (1) must not be transferred to the *failed* third party unless specifically instructed by the *client* in order to settle an obligation of that *client* to the *failed intermediate broker, settlement agent* or *OTC counterparty*; and
- (2) must be, subject to (1), placed in a separate *client bank account* that has been opened after the *secondary pooling event* and either:

- (a) on the written instruction of the *client*, transferred to a third party other than the one that has *failed*; or
- (b) returned to the *client* as soon as possible.

Notification on the failure of a bank, intermediate broker, settlement agent or OTC counterparty

9.5.33

R

The provisions of ■ COB 9.3.98 apply.

Chapter 10

Operators of collective investment schemes

10.1 Application

- 10.1.1** **R** (1) ■ COB 10 applies to a *firm* which is an *operator* of a *collective investment scheme* in accordance with ■ COB 10.1.2.
/1
- (2) The right hand column of the table in ■ COB 10.1.2 specifies the sections in ■ COB 10 which apply to the *operator* specified in the left hand column of the table.

10.1.2 **R** Table Application
/1 This table belongs to ■ COB 10.1.1

Application	
Type of firm	Section
<i>Operator of a regulated collective investment scheme in so far as the firm is undertaking scheme management activity.</i>	COB 10.1, 10.2 and 10.3
<i>Operator of an unregulated collective investment scheme in so far as the firm is undertaking scheme management activity.</i>	COB 10.1, 10.2, 10.3, 10.4 and 10.5
<i>Operator of an unregulated collective investment scheme.</i>	COB 10.1, 10.6 and 10.7

10.1.3 **G** The term *operator* includes an *authorised corporate director* of an ICVC.
/1

10.1.4 **G** *Operators* are also required to comply with the other relevant provisions of the *Handbook*. For example:
/1

- (1) The Principles for Business (*PRIN*);
- (2) Senior Management Arrangements, Systems and Controls (*SYSC*);
- (3) an *operator* that *communicates* or *approves* a *financial promotion* relating to a *scheme* is also required to comply with ■ COB 3;
- (4) an *operator* that holds *clients' money* otherwise than as *trustee* of an *unregulated collective investment scheme* is also required to comply with ■ COB 9.3;
- (5) an *operator* that is also the *trustee* of an *unregulated collective investment scheme* is also required to comply with ■ COB 11 in relation to its activity as a *trustee firm*;

- (6) an *operator* of an *authorised unit trust scheme* is also required to comply with the Collective Investment Schemes sourcebook (*CIS*);
- (7) an *operator* of an *ICVC* is also required to comply with the Collective Investment Schemes sourcebook (*CIS*); and
- (8) an *operator* is also required to comply with the Money Laundering sourcebook (*ML*).

Purpose

10.1.5

G

^{/1}

The purpose of this chapter is:

- (1) to take into account the existence of other legislation and *rules* that may apply to *operators* (for example, the Collective Investment Schemes sourcebook); to adopt or disapply *rules* from other chapters in *COB*; in this way, conflicts between *rules* and duplication of *rules* are avoided;
- (2) to make a number of general modifications to the operation of the applied *rules* in *COB* in the *operator* context; in general, the ordinary definition of a '*customer*' is modified to mean the '*scheme*'; however, in certain circumstances, such as an obligation to provide certain kinds of information about the *scheme* and its *investments*, the ordinary definition of a '*customer*' is modified to mean a '*participant*' in the *scheme*; and
- (3) to apply a number of *rules* that have been specifically designed to apply to *operators* when undertaking *scheme management activity*.

10.2 Application of general COB rules

Application or modification of general COB rules for operators

- 10.2.1 **R** ^{/1} An *operator* when it is undertaking *scheme management activity*:
- (1) must comply with the *rules* specified in ■ COB 10.2.5 as modified by ■ COB 10.2.3 and in ■ COB 10.2.5;
 - (2) need not comply with any other *rule* in COB; and

- 10.2.2 **G** ^{/1} *Firms* which are operators are reminded that under the *Glossary*:
- (1) every *regulated collective investment scheme* is a *private customer*; and
 - (2) every *unregulated collective investment scheme* is an *intermediate customer*.

General modifications

- 10.2.3 **R** ^{/1} The *rules* specified in ■ COB 10.2.5 apply to an *operator* when it is undertaking *scheme management activity* (unless otherwise expressly provided in this chapter) with the following modifications:
- (1) subject to (3), references to *customer* are to be construed as references to any *scheme* in respect of which the *operator* is acting or intends to act, and with or for the benefit of which the relevant activity is to be carried on;
 - (2) In the case of an *unregulated collective investment scheme*, references to *terms of business* or a *client agreement* are to be construed as references to the scheme documents of an *unregulated collective investment scheme* required by ■ COB 10.6.2; and
 - (3) in the case of an *unregulated collective investment scheme*, when an *operator* is required by the *rules* in COB to provide information to, or obtain consent from, a *customer*, the *operator* must ensure that the information is provided to, or consent obtained from, a *participant* or a potential *participant* in the *scheme* as the case may be.

10.2.4 **G** Terms including the word ‘customer’ such as *customer order* and *current customer order* are to be construed in accordance with ■ COB 10.2.3.
/1

10.2.5 **R** Table Application of conduct of business rules
This table belongs to ■ COB 10.2.1
/1

Application of conduct of business rules		
Chapter, Section or Rule	Description	Modifications
1	Application and general provisions	
2.1	Clear, fair and not misleading communication	
2.2	Inducements and soft commission	In the case of a <i>regulated collective investment scheme</i> , COB 2.2.8R(5) and COB 2.2.16R to 2.2.19R do not apply.
2.3	Reliance on others	
2.4	Chinese Walls	
5.3	Suitability	COB 10.4 applies instead of COB 5.3.
7.1	Conflict of interest and material interest	
7.2	Churning and switching	
7.4	Customer order priority	
7.5	Best execution	In the case of an <i>unregulated collective investment scheme</i> , COB 10.5.3R applies instead of COB 7.5.4R in the circumstances set out in COB 10.5.3R.
7.6	Timely execution	
7.7	Aggregation and allocation	COB 10.3.3E applies instead of COB 7.7.6E. COB 10.3.5R applies instead of COB 7.7.14R.
7.12	Customer order and execution records	
10	Operators of collective investment schemes	

10.3 Modification of the allocation rule

- 10.3.1** **R** ^{/1} ■ COB 10.3 applies to an *operator* only when undertaking *scheme management activity*.
- 10.3.2** **G** ^{/1} ■ COB 10.3.3 replaces ■ COB 7.7.6. ■ COB 10.3.3 modifies the general *rule* on the timing of allocation (ie, ■ COB 7.7.5) to take into account the kind of *scheme* in which no *participant* is a *private customer*.
- 10.3.3** **E** ^{/1}
- (1) To allocate promptly, an *operator* which has aggregated an order under ■ COB 7.7.4 should complete the allocation of the *designated investments* concerned within one *business day* of the transaction, subject to (2), (3) and (4).
 - (2) The period in (1) is within five *business days* if:
 - (a) the *scheme* is one in which no *participant* is a *private customer*; or
 - (b) the *scheme* is an *unregulated collective investment scheme* and no current *participant* in the *scheme* was a *private customer* on joining the *scheme* as a *participant*.
 - (3) For the purposes of ■ COB 10.3.3, all transactions in a *series of transactions* all of which are *executed* within one *business day*, may be treated as having been *executed* at the time of the last transaction, so long as a record of the time that each individual transaction was *executed* is made, such as by means of a time stamp.
 - (4) If transactions in a *series of transactions* occur over more than one *business day*, then the requirement in ■ COB 7.7.5 (and (1) or (2) as appropriate) will apply separately in relation to each *business day* in which any transaction is *executed*.
 - (5) Compliance with (1) may be relied on as tending to establish compliance with ■ COB 7.7.5.
 - (6) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 7.7.5.
- 10.3.4** **G** ^{/1} ■ COB 10.3.5 replaces ■ COB 7.7.14. ■ COB 10.3.5 modifies the general *rule* on the record keeping of aggregated transactions (that is, ■ COB 7.7.14) to take into account the fact that an *operator* may act on a proportional basis or otherwise and

10.3.5

R
/1

may also act for all *schemes* under its management or for some of the *schemes* under its management.

- (1) **An operator must, on executing an aggregated transaction on behalf of a number of schemes under its management, make a record of:**
 - (a) the identity of the *schemes* concerned; and
 - (b) whether the transaction was *executed* proportionally for these *schemes* under its management generally or that a stated proportion was *executed* for some *schemes* under its management.
- (2) **If an operator aggregates a number of customer orders on behalf of a number of schemes under its management, the operator must make a record of the intended basis of allocation as soon as is practicable.**
- (3) **If an operator aggregates an order for one or more schemes under its management and itself, the operator must make a record of the intended basis of allocation before the transaction is executed.**

10.4 Suitability of the portfolio of an unregulated collective investment scheme

10.4.1 **R** ^{/1} ■ COB 10.4 applies to an *operator* of an *unregulated collective investment scheme* only when undertaking *scheme management activity*.

10.4.2 **G** ^{/1} ■ COB 10.4 adapts ■ COB 5.3 (Suitability) for an *operator* of an *unregulated collective investment scheme*. It requires the *operator* to ensure that its management of the portfolio of the *scheme* is suitable taking into account its investment management objectives. The Collective Investment Schemes sourcebook deals separately with the basis upon which an *operator* of a *regulated collective investment scheme* manages its portfolio.

10.4.3 **R** ^{/1} An *operator* of an *unregulated collective investment scheme* when it is undertaking *scheme management activity* must take reasonable steps to ensure that:

- (1) each transaction undertaken with or for an *unregulated collective investment scheme* under its management; and
- (2) the portfolio for an *unregulated collective investment scheme* under its management;

is suitable for the *scheme*.

10.4.4 **G** ^{/1} For the purposes of ■ COB 10.4.3, an *operator* of an *unregulated collective investment scheme* should have regard to the stated investment objectives of the *scheme*.

10.5 Modification of the best execution rule

- 10.5.1** **R** _{/1} ■ COB 10.5 applies to an *operator* of an *unregulated collective investment scheme* only when undertaking *scheme management activity*.
- 10.5.2** **G** _{/1} ■ COB 10.5.3 modifies the effect of ■ COB 7.5.4. ■ COB 10.5.3 modifies the general *rule* (that is, ■ COB 7.5.4) on the exceptions to the best execution *rule* (that is, ■ COB 7.5.3) to take into account the existence of *unregulated collective investment schemes* in which no *participant* is a *private customer*.
- 10.5.3** **R** _{/1} ■ COB 7.5.3 does not apply:
- (1) in any of the circumstances specified in ■ COB 7.5.4; or
 - (2) in relation to an *unregulated collective investment scheme* whose scheme documents include a statement that best execution does not apply in relation to the *scheme* and in which:
 - (a) no *participant* is a *private customer*; or
 - (b) no current *participant* in the *scheme* was a *private customer* on joining the *scheme* as a *participant*.

10.6 Scheme documents for an unregulated collective investment scheme

10.6.1

G
/1

■ COB 10.6.2 fulfils the purpose of the *terms of business* (including the *client agreement*) requirements (see ■ COB 4.2) in the context of an *unregulated collective investment scheme* by application of content requirements in scheme documents. In this way, the scheme documents record the basis on which the *operator* provides investment management services to a *participant* in the *scheme*. The Collective Investment Schemes sourcebook deals separately with the basis upon which an *operator* of a *regulated collective investment scheme* provides investment management services to a *participant* of the *scheme*.

Provision of scheme documents to private customers

10.6.2

R
/1

An *operator* of an *unregulated collective investment scheme* must not accept a *private customer* as a *participant* in the *scheme* unless it has taken reasonable steps to offer and, if requested, provide to the potential *participant* scheme documents which adequately describe how the operation of the *scheme* is governed.

Format and content of scheme documents

10.6.3

G
/1

An *operator's* scheme documents may consist of any number of *documents* provided that it is clear that collectively they constitute the scheme documents and provided the use of several *documents* in no way diminishes the significance of any of the statements which are required to be given to the potential *participant*.

10.6.4

G
/1

■ COB 10.6.4 is intended to ensure that the scheme documents of an *unregulated collective investment scheme* (if they exist) make it clear that if a *participant* is reclassified as a *private customer*, this reclassification will not affect certain *scheme management activities* of the *operator* of the *scheme*. In particular, despite such a reclassification, the *operator* will not be required to comply with ■ COB 7.5.3 (that is, the *best execution rule*) and the requirement in ■ COB 10.3.3(1) to complete the allocation of an aggregated transaction order within one *business day* of the transaction. It should be noted that ■ COB 10.6.5 does not require that scheme documents must be produced for an *unregulated collective investment scheme*.

10.6.5

R
/1

Where the *scheme* is an *unregulated collective investment scheme* where no current *participant* in the *scheme* was a *private customer* on joining the *scheme* as a *participant*, the scheme documents must include a statement that:

- (1) explains that if a *participant* is reclassified as a *private customer* subsequent to joining the *scheme* as a *participant*, then the *operator* may continue to treat all *participants* in the *scheme* as though they were not *private customers*; and
- (2) explains that, in respect of an order aggregated under ■ COB 7.7.4, the *operator* may allocate the *designated investments* concerned within five *business days* of the transaction;
- (3) explains that if a *participant* is reclassified as a *private customer* subsequent to joining the *scheme* as a *participant*, then ■ COB 10.5.3 will continue to apply to that *scheme*; and
- (4) explains that, in the event of a reclassification described in (3), the *operator* will not be required to provide best execution under ■ COB 7.5.3 in relation to the *scheme*.

10.6.6

/1

It should be noted that the *operator* will still have to comply with other COB provisions as a result of the reclassification of a *participant* as a *private customer*: for example, the requirement under ■ COB 10.7.2 to provide *periodic statements* to *participants* who are *private customers* in an *unregulated collective investment scheme*.

Adequate Information

10.6.7

/1

- (1) In order to provide adequate information in scheme documents under ■ COB 10.6.2, an *operator* should include in the scheme documents required by ■ COB 10.6.2 a provision about each of the items of relevant information set out in ■ COB 10.6.8.
- (2) Compliance with (1) may be relied on as tending to establish compliance with ■ COB 10.6.2.
- (3) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 10.6.2.

10.6.8

/1

Table Content of scheme documents
This table belongs to ■ COB 10.6.7

Content of scheme documents

The scheme documents should include provision about:

- (1) Regulator
the fact that the *operator* is regulated by or authorised by the *FSA*;
- (2) Services
the nature of the services that the *operator* will provide in relation to the *scheme*;
- (3) Payments for services

Content of scheme documents	
	<p>details of any payment for services payable by the <i>scheme</i> or from the property of the <i>scheme</i> or <i>participants</i> in the <i>scheme</i> to the <i>operator</i>, including where appropriate:</p> <ul style="list-style-type: none"> (a) the basis of calculation; (b) how it is to be paid and collected; (c) how frequently it is to be paid; and (d) whether or not any other payment is receivable by the <i>operator</i> (or to its knowledge by any of its <i>associates</i>) in connection with any transactions effected by the <i>operator</i> with or for the <i>scheme</i>, in addition to or in lieu of any fees;
(4)	<p>Commencement</p> <p>when and how the <i>operator</i> is appointed;</p>

	<ul style="list-style-type: none"> (i) hold <i>money</i> on behalf of the <i>scheme</i> or be the <i>custodian</i> of <i>investments</i> or other property of the <i>scheme</i>; or (ii) arrange for some other <i>person</i> to act in either capacity and, if so, whether that <i>person</i> is an <i>associate</i> of the <i>operator</i> identifying that <i>person</i> and describing the nature of any association; and
(b)	<p>in either case:</p> <ul style="list-style-type: none"> (i) how any <i>money</i> is to be deposited; (ii) the arrangements for recording and separately identifying registrable <i>investments</i> of the <i>scheme</i> and, where the registered holder is the <i>operator's</i> own nominee, that the <i>operator</i> will be responsible for the acts and omissions of that <i>person</i>; (iii) the extent to which the <i>operator</i> accepts liability for any loss of the <i>investments</i> of the <i>scheme</i>; (iv) the extent to which the <i>operator</i> or any other <i>person</i> mentioned in (11)(a)(ii), may hold a lien or security interest over <i>investments</i> of the <i>scheme</i>; (v) where <i>investments</i> of the <i>scheme</i> will be registered collectively in the same name, a statement that the entitlements of the <i>scheme</i> may not be identifiable by separate certificates or other physical documents of title, and that, should the <i>operator</i> default, any shortfall in <i>investments</i> of the <i>scheme</i> registered in that name may be shared proportionately among all <i>schemes</i> and any other <i>customers</i> of the <i>operator</i> whose <i>investments</i> are so registered; (vi) whether or not <i>investments</i> or other property of the <i>scheme</i> can be lent to, or deposited by way of collateral with, a third party and whether or not <i>money</i> can be borrowed on the behalf of the <i>scheme</i> against the security of those <i>investments</i> or property and, if so, the terms upon which they may be lent or deposited; (vii) the arrangements for accounting to the <i>scheme</i> for <i>investments</i> of the <i>scheme</i>; for income received (including any interest on <i>money</i> and any income earned by lending <i>investments</i> or other property) of the <i>scheme</i>; and for rights conferred in respect of <i>investments</i> or other property of the <i>scheme</i>; (viii) the arrangements for determining the exercise of any voting rights conferred by <i>investments</i> of the <i>scheme</i>; and

Content of scheme documents	
	(ix) where <i>investments</i> of the <i>scheme</i> may be held by an eligible <i>custodian</i> outside the <i>United Kingdom</i> , a general statement that different settlement, legal and regulatory requirements, and different practices relating to the segregation of those <i>investments</i> , may apply;
(12)	<p>Clients' money outside the United Kingdom</p> <p>if it is the case, that the <i>operator</i> may hold the <i>money</i> of the <i>scheme</i> in a <i>client bank account</i> outside the <i>United Kingdom</i>;</p>
(13)	<p>Exchange rates</p> <p>if a liability of the <i>scheme</i> in one currency is to be matched by an asset in a different currency, or if the services to be provided to the <i>operator</i> for the <i>scheme</i> may relate to an <i>investment</i> denominated in a currency other than the currency in which the <i>investments</i> of the <i>scheme</i> are valued, a warning that a movement of exchange rates may have a separate effect, unfavourable or favourable, on the gain or loss otherwise made on the <i>investments</i> of the <i>scheme</i>;</p>
(14)	<p>Stabilised investments</p> <p>if it is the case, that the <i>operator</i> is to have the right under the <i>scheme documents</i> to effect transactions in <i>investments</i> the prices of which may be the subject of stabilisation;</p>
(15)	<p>Conflict of interest and material interest</p> <p>if it is the case, that the <i>operator</i> is to have the right under the agreement or <i>instrument constituting the scheme</i> to effect transactions on behalf of the <i>scheme</i> in which the <i>operator</i> has directly or indirectly a material interest (except for an interest arising solely from the participation of the <i>operator</i> as agent for the <i>scheme</i>), or a relationship of any description with another party which may involve a conflict with the <i>operator's</i> duty to the <i>scheme</i>, together with a disclosure of the nature of the interest or relationship;</p>
(16)	<p>Use of soft commission agreements</p> <p>if the <i>operator</i> is to be authorised under the agreement or <i>instrument constituting the scheme</i> to effect transactions with or through the agency of another <i>person</i> with whom the <i>operator</i> has a <i>soft commission agreement</i>, the prior disclosure required by <i>COB 2.2.16R</i>;</p>
(17)	<p>Acting as principal</p> <p>if it is the case, that the <i>operator</i> may act as <i>principal</i> in a transaction with the <i>scheme</i>;</p>
(18)	<p>Stock lending</p> <p>if it is the case, that the <i>operator</i> may undertake <i>stock lending activity</i> with or for the <i>scheme</i> specifying the type of assets of the <i>scheme</i> to be lent, the type and value of <i>relevant collateral</i> from the borrower and the method and amount of payment due to the <i>scheme</i> in respect of the lending;</p>

Content of scheme documents	
(19)	<p>Transactions involving contingent liability investments</p> <ul style="list-style-type: none"> (a) if it is the case, that the agreement or <i>instrument constituting the scheme</i> allows the <i>operator</i> to effect transactions involving <i>contingent liability investments</i> for the account of the portfolio of the <i>scheme</i>; (b) if applicable, whether there are any limits on the amount to be committed by way of margin and, if so, what those limits are; and (c) if applicable, that the <i>operator</i> has the authority to effect transactions involving <i>contingent liability investments</i> otherwise than under the rules of a <i>recognised investment exchange</i> or <i>designated investment exchange</i> and in a contract traded thereon;
(20)	<p>Periodic statements</p> <ul style="list-style-type: none"> (a) the frequency of any <i>periodic statement</i> (this should not be less than once every 12 months under <i>COB 10.7.3E</i>) except where a <i>periodic statement</i> is not required by <i>COB 10.7.5R</i> (Exceptions from the requirement to provide a periodic statement); and (b) whether those statements will include some measure of performance, and, if so, what the basis of that measurement will be;
(21)	<p>Valuation</p> <p>the bases on which assets comprised in the portfolio of the <i>scheme</i> are to be valued;</p>
(22)	<p>Borrowings</p> <p>if it is the case, that the <i>operator</i> may supplement the funds in the portfolio of the <i>scheme</i> and, if it may do so:</p> <ul style="list-style-type: none"> (a) the circumstances in which the <i>operator</i> may do so; (b) whether there are any limits on the extent to which the <i>operator</i> may do so and, if so, what those limits are; and (c) any circumstances in which such limits may be exceeded;
(23)	<p>Underwriting commitments</p> <p>if it is the case, that the <i>operator</i> may for the account of the portfolio of the <i>scheme</i> underwrite or sub-underwrite any issue or offer for sale of <i>securities</i>, and:</p> <ul style="list-style-type: none"> (a) whether there are any restrictions on the categories of <i>securities</i> which may be underwritten and, if so, what these restrictions are; and (b) whether there are any financial limits on the extent of the underwriting and, if so, what these limits are;
(24)	<p>Investments in other collective investment schemes</p>

Content of scheme documents	
	whether or not the portfolio may contain <i>units</i> in a <i>collective investment scheme</i> either operated or advised by the <i>operator</i> or by an <i>associate</i> of the <i>operator</i> or in a <i>collective investment scheme</i> which is not a <i>regulated collective investment scheme</i> ;
(25)	Investments in securities underwritten by the operator whether or not the portfolio may contain <i>securities</i> of which any issue or offer for sale was underwritten, managed or arranged by the <i>operator</i> or by an <i>associate</i> of the <i>operator</i> during the preceding 12 months.

10.7 Periodic statements for an unregulated collective investment scheme

10.7.1 **G**_{/1} ■ COB 10.7 applies in the case of an *operator* of an *unregulated collective investment scheme*. ■ COB 10.7 modifies the general section on *periodic statements* (that is, ■ COB 8.2) to take into account the operation of an *unregulated collective investment scheme*. In this way, an *operator* should send to a *participant* of the *scheme*, on a timely basis, a regular statement providing a valuation of the portfolio of the *scheme* and other details.

The requirement to prepare and issue periodic statements

10.7.2 **R**_{/1} An *operator* of an *unregulated collective investment scheme* must, subject to ■ COB 10.7.5, provide to *participants* in the *scheme*, promptly and at suitable intervals, a written statement which contains adequate information on the value and composition of the portfolio of the *scheme* at the beginning and end of the period of the statement.

Promptness, suitable intervals and adequate information

10.7.3 **E**_{/1}

- (1) An *operator* should act in accordance with the provisions in the right hand column of ■ COB 10.7.7 to fulfil the requirement of ■ COB 10.7.2 indicated in the left hand column against these provisions.
- (2) Compliance with (1) may be relied on as tending to establish compliance with ■ COB 10.7.2.
- (3) Contravention of (1) may be relied on as tending to establish contravention of ■ COB 10.7.2.

10.7.4 **G**_{/1} Regarding the electronic provision of a *periodic statement*, see ■ COB 1.8.

Exceptions from the requirement to provide a periodic statement

10.7.5 **R**_{/1} An *operator* of an *unregulated collective investment scheme* need not provide a *periodic statement*:

- (1) (a) to a *participant* in the *scheme* who is a *private customer* ordinarily resident outside the *United Kingdom*; or

- (b) to a *participant* in the *scheme* who is an *intermediate customer*;
- (1) if the *participant* has so requested or the *operator* has taken reasonable steps to establish that the *participant* does not wish to receive it; or
- (2) if it would duplicate a statement to be provided by someone else.

Record keeping requirements

10.7.6

/1

An *operator* of an *unregulated collective investment scheme* must make a copy of any *periodic statement* it has provided in accordance with ■ COB 10.7.2 to *participants* in the *scheme*. The record must be retained for a minimum period of three years.

10.7.7

/1

Table Periodic statements
This table belongs to ■ COB 10.7.3

Periodic statements			
Promptness	(1)	(a)	A <i>periodic statement</i> should be provided within 25 <i>business days</i> after the end of the period to which the statement relates.
		(b)	In the case of: <ul style="list-style-type: none"> (i) a <i>scheme</i> the portfolio of which is comprised exclusively of investment in equity that is not traded or listed on an exchange; or (ii) a <i>scheme</i> which is a <i>property enterprise trust</i>; or (iii) a <i>scheme</i> the portfolio of which is comprised exclusively of investment in equity that is not traded or listed on an exchange and assets which are land and buildings; the <i>operator</i> should provide a <i>periodic statement</i> within 50 <i>business days</i> after the end of the period to which the statement relates.
Suitable intervals	(2)		A <i>periodic statement</i> should be provided at least: <ul style="list-style-type: none"> (a) six-monthly; or (b) once in any other period, not exceeding 12 months, which has been mutually agreed between the <i>operator</i> and the <i>participant</i> in the <i>scheme</i>.
Adequate information	(3)		A <i>periodic statement</i> should contain:

Periodic statements			
	(a)	(i)	the information set out in <i>COB</i> 10.7.9E; and
		(ii)	where the portfolio of the <i>scheme</i> includes uncovered open positions in <i>contingent liability investments</i> , the additional information in <i>COB</i> 10.7.10E; or
	(b)		such information as a <i>participant</i> who is a <i>private customer</i> ordinarily resident outside the <i>United Kingdom</i> , or an <i>intermediate customer</i> , has on his own initiative agreed with the <i>operator</i> as adequate.

10.7.8

Examples of uncovered open positions include:

/1

- (1) selling a call *option* on an *investment* not held in the portfolio;
- (2) unsettled sales of call *options* on currency in amounts greater than the portfolio's holding of that currency in cash or in *readily realisable investments* denominated in that currency; and
- (3) transactions having the effect of 'selling' an index to an amount greater than the portfolio's holdings of *investments* included in that index.

10.7.9

Table General contents of a periodic statement
This table belongs to ■ *COB* 10.7.7

/1

General contents of a periodic statement	
1	<p>Contents and value</p> <p>(a) As at the beginning of the account period, the total value of the portfolio of the <i>scheme</i>, being either:</p> <p>(i) the value of the assets comprised in the portfolio on the date as at which the statement provided for the immediately preceding period of account is made up; or</p> <p>(ii) in the case of the first <i>periodic statement</i>, the value of the assets comprised in the portfolio on the date on which the <i>operator</i> assumed responsibility for the management of the portfolio.</p> <p>(b) As at the end of the account period:</p> <p>(i) the number, description and value of each <i>investment</i> held on behalf of the <i>scheme</i>;</p> <p>(ii) the amount of cash held on behalf of the <i>scheme</i>; and</p> <p>(iii) the total value of the portfolio of the <i>scheme</i>.</p>
2	Basis of valuation

General contents of a periodic statement

A statement of the basis on which the value of each *investment* has been calculated and, if applicable, a statement that the basis for valuing a particular *investment* has changed since the previous *periodic statement*. Where any *investments* are shown in a currency other than the usual one used for valuation of the portfolio of the *scheme*, the relevant currency exchange rates must be shown.

3 Details of any assets loaned or charged

- (a) A summary of those *investments* (if any) which were, at the closing date, loaned to any third party and those *investments* (if any) that were at that date charged to secure borrowings made on behalf of the portfolio of the *scheme*; and
- (b) the aggregate of any interest payments made and income received during the account period in respect of loans or borrowings made during the period.

4 Transactions and changes in composition

Except in the case of a portfolio which aims to track the performance of an external index:

- (a) a statement that summarises the transactions entered into for the portfolio of the *scheme* during the period; and
- (b) the aggregate of *money* and a summary of all *investments* transferred into and out of the portfolio of the *scheme* during the period; and
- (c) the aggregate of any interest payments, dividends and other benefits received by the *operator* for the portfolio of the *scheme* during that period.

5 Charges and remuneration

If not previously advised in writing, a statement for the account period:

- (a) of the aggregate *charges* of the *operator* and its *associates*; and
- (b) of any *remuneration* received by the *operator* or its *associates* or both from a third party in respect of the transactions entered into, or any other services provided, for the portfolio of the *scheme*.

6 Movement in value of portfolio

A statement of the difference between the value of the portfolio at the closing date and its value at the starting date of the account period, having regard at least, during the account period, to the following:

- (a) the aggregate of assets received from *participants* of the *scheme* and added to the portfolio of the *scheme*;
- (b) the aggregate of the value of assets transferred, or of amounts paid, to the *scheme*;
- (c) the aggregate income received on behalf of the *scheme* in respect of the portfolio; and

General contents of a periodic statement	
(d)	the aggregate of realised and unrealised profits or gains and losses attributable to the assets comprised in the portfolio of the <i>scheme</i> .
Notes:	
For the purposes of Item 1, where the <i>scheme</i> is a <i>property enterprise trust</i> , it will be sufficient for the <i>periodic statement</i> to disclose the number of properties held in successive valuation bands where this is appropriate to the size and composition of the <i>scheme</i> , rather than the value of each asset in the portfolio. The valuation bands of over £10m, £5–£10m, £2.5–£5m, £1–£2.5m and under £1m would be appropriate, unless an <i>operator</i> could show that different bands were justifiable in the circumstances.	
The statement to be provided under Item 6 is not intended to be an indicator of the performance of the portfolio of the <i>scheme</i> .	
An <i>operator</i> may wish to distinguish capital and income, and thereby provide more information than referred to in this table. If the statement includes some measure of performance, the basis of measurement should be stated.	

10.7.10

Table Contents of a periodic statement in respect of contingent liability investments
This table belongs to ■ COB 10.7.7

Contents of a periodic statement in respect of contingent liability investments	
1	<p>Changes in value</p> <p>The aggregate of <i>money</i> transferred into and out of the portfolio of the <i>scheme</i> during the account period.</p>
2	<p>Open positions</p> <p>In relation to each open position in the portfolio of the <i>scheme</i> at the end of the account period, the unrealised profit or loss to the portfolio of the <i>scheme</i> (before deducting or adding any <i>commission</i> which would be payable on closing out).</p>
3	<p>Closed positions</p> <p>In relation to each transaction effected during the account period to close out a position of the <i>scheme</i>, the resulting profit or loss to the portfolio of the <i>scheme</i> after deducting or adding any <i>commission</i>.</p> <p>(Instead of the specific detail required by Items 2 or 3, the statement may show the net profit or loss in respect of the overall position of the <i>scheme</i> in each contract)</p>
4	<p>Aggregate of contents</p> <p>The aggregate of each of the following in, or relating to, the portfolio of the <i>scheme</i> at the close of business on the valuation date:</p> <ul style="list-style-type: none"> (a) cash; (b) <i>collateral</i> value; (c) management fees; and

Contents of a periodic statement in respect of contingent liability investments

- (d) *commissions* attributable to transactions during the period or a statement that this information has been separately disclosed in writing on earlier statements or confirmations to the *participant*.

5 Option account valuations

In respect of each open *option* comprising the portfolio of the *scheme* on the valuation date:

- (a) the *share, future, index* or other *investment* or asset involved;
- (b) (unless the valuation statement follows the statement for the period in which the *option* was opened) the trade price and date for the opening transaction;
- (c) the market price of the contract; and
- (d) the exercise price of the contract.

Options account valuations may show an average trade price and market price in respect of an *option* series where a number of contracts within the same series have been purchased on behalf of the *scheme*.

Chapter 11

Trustee and depositary activities

11.1 Application

- 11.1.1** **R** ^{/1} This chapter applies to *depositaries* and *trustee firms* when acting as such.
- 11.1.2** **G** ^{/1} The definition of *depositary* includes *trustees* of authorised and unauthorised *unit trust schemes* as well as *depositaries* of ICVCs. The definition of *trustee firm* includes any *firm* carrying on activity as a trustee but not an *OPS firm*. There is overlap between these definitions. A *trustee* of an *authorised unit trust scheme* is both a *trustee firm* and a *depositary*.
- 11.1.3** **G** ^{/1} The definition of *trustee firm* includes a *firm* acting as personal representative.
- 11.1.4** **G** ^{/1} *Firms* are reminded that *trustee firm* may include individuals who require *authorisation* and who are within the definition of *trustee firm*. It also includes *partnerships* where the *partnership* requires *authorisation*.
- 11.1.5** **G** ^{/1} Article 66 of the *Regulated Activities Order* provides exclusions for some trustees, nominees and personal representatives from certain *regulated activities*. This chapter does not apply to a *trustee firm* in respect of an activity which is excluded from being a *regulated activity* carried on by the *trustee firm* under any paragraph in article 66.
- 11.1.6** **G** ^{/1} In COB only the *rules* in ■ COB 1, ■ COB 11 and the *rules* applied by this chapter apply to a *trustee firm* or *depositary*.
- 11.1.7** **G** ^{/1} This chapter does not apply with respect to any *regulated activities* carried on by a *trustee* with a trust beneficiary where the *trustee firm* is not acting as trustee. Such activities would be subject to the *rules* in COB applied otherwise than through this chapter.
- 11.1.8** **G** ^{/1} In respect of *trustee firms*, the *rules*:
- (1) apply in addition to any duties or powers imposed or conferred upon a trustee by the general law;
 - (2) do not qualify or restrict the duties or powers that the general law imposes or confers upon a trustee; *trustee firms* will be under a duty to observe the provisions of their trust instrument; if its provisions conflict with any applicable *rule*, trustees will need to take advice in resolving the conflict.
- 11.1.9** **G** ^{/1} A *depositary* of a *regulated collective investment scheme* is also required to comply with the Collective Investment Schemes sourcebook (CIS).
- 11.1.10** **G** ^{/1} A *depositary* of an ICVC is also required to comply with the OEIC Regulations.

11.1.11

G
/1

All *depositories* and *trustee firms* are also required to comply in particular with the Principles for Businesses (*PRIN*), Senior Management Arrangements, Systems and Controls (*SYSC*) and the Money Laundering sourcebook (*ML*).

Purpose

11.1.12

G
/1

The purpose of this chapter is to select *rules* to apply to the activities of *trustee firms* and *depositories*. *COB* is modified by this chapter for that purpose. The *rules* in this chapter:

- (1) redefine ‘*customer*’ so that it applies meaningfully in the *trustee firm/depository* context. A *trustee firm*, for example, may be both the *customer* and the *firm*. A requirement to make a disclosure to a *customer* may therefore not be clear when applied to a *trustee firm* – the requirement may be taken to apply to the trustees as a body, or to the trust beneficiaries. In the context of *collective investment schemes* disclosure may appropriately be effected through reports and documentation sent to the *participants*;
- (2) recognise that some *trustee firms* may not be experts in investment; in consequence they should be allowed to delegate regulatory responsibility for compliance with *COB* to other suitable *firms*.
- (3) apply appropriate *rules* to different types of trustee; for example the *rules* in ■ *COB* 11.5.3 are not applied to personal representatives because this would amongst other things require such a *firm* to send out *periodic statements*.
- (4) apply *rules* specifically devised for *trustee firms* or *depositories*; for example, ■ *COB* 11.8 (Proper advice) applies only to *trustee firms*.

11.2 Relationship with the scheme

11.2.1

G

^{/1}

Firms which are *depositories* are reminded that, under the *Glossary*:

- (1) every *regulated collective investment scheme* is a *private customer*; and
- (2) every *unregulated collective investment scheme* is an *intermediate customer*.

11.2.2

R

^{/1}

Where a *trustee firm* is required by any applicable *rule* in *COB* to provide information to, or obtain consent from, a *customer*, the *trustee firm* must ensure the information is provided to, or consent obtained from all the trustees, or as many trustees as are required by the trust instrument.

11.3 Polarisation

11.3.1

R

^{/1}

A *trustee firm* must not arrange the purchase, or recommend the purchase of a *packaged product* unless the *trustee firm* has taken reasonable steps to ensure that that *packaged product* will secure the investment objectives of the trust of which it is trustee at least as well as any other generally available *packaged product* of which it is or reasonably should be aware.

11.4 Depositaries

- 11.4.1 **R** ^{/1} A *depositary* when acting as such:
 - (1) must comply with the *rules* in *COB* specified in ■ *COB* 11.4.3, as modified;
 - (2) need not comply with any other *rule* in *COB*.

- 11.4.2 **G** ^{/1} ■ *COB* 11.4.1 applies to a *trustee firm* which is also a *depositary*. If a *trustee firm* is not a *depositary* then ■ *COB* 11.5 applies instead.

- 11.4.3 **R** ^{/1} Table Rules applicable to depositaries
This table belongs to ■ *COB* 11.4.1.

Chapter	Description	Modifications
1	Application and general provisions	'Customer' means 'trustee' or 'trust' as appropriate. <i>COB</i> 1.5 and <i>COB</i> 1.6 do not apply.
2.1 to 2.4	Rules which apply to all firms	<i>COB</i> 2.2.8R – <i>COB</i> 2.2.20R do not apply. For the <i>depositary</i> of a <i>unit trust scheme</i> , 'customer' means 'trustee' or 'trust' as appropriate. For the <i>depositary</i> of an <i>ICVC</i> , 'customer' means the <i>ICVC</i> . For the <i>depositary</i> of any other <i>collective investment scheme</i> , 'customer' means the <i>scheme</i> .
2.5	Exclusion of liability	For the <i>depositary</i> of a <i>unit trust scheme</i> , 'customer' and 'private customer' mean 'trustee' or 'trust' as appropriate. For the <i>depositary</i> of an <i>ICVC</i> , 'customer' means the <i>ICVC</i> . For the <i>depositary</i> of any other <i>collective investment scheme</i> , 'customer' means the <i>scheme</i> .
3	Financial promotion	

Chapter	Description	Modifications
5.5	Information about the firm	'Customer' and 'private customer' mean 'trustee' or the operator of the collective investment scheme as appropriate.
7.1	Conflict of interest and material interest	'Customer' and 'private customer' mean 'trustee' or 'trust' as appropriate.
7.13	Personal account dealing	'Client' and 'customer' mean 'collective investment scheme'.
9	Client assets	COB 9.3 and COB 9.5 do not apply. Except for COB 9.2, 'client' means 'trustee', 'trust' or 'collective investment scheme' as appropriate. In COB 9.2, 'client' means 'trustee', 'collective investment scheme' or 'collective investment scheme instrument' as appropriate.
10	Operators of collective investment schemes	The chapter does not apply to a depositary of an ICVC. It applies to the trustee of a unit trust scheme only where there is no separate operator, or where and to the extent that the separate operator does not take all day-to-day investment decisions in relation to the scheme.
11	Trustee and depositary activities	

11.5 Trustee firms which are not depositaries

11.5.1

R

/1

The only *rules* in COB which apply to a *trustee firm* which is not a *depositary* and when acting as such are as follows:

(1) where the *firm* is:

- (a) a bare *trustee* (or, in Scotland, a nominee) holding *investments* for another *person* and acting on that *person's* instructions;
- (b) a personal representative;
- (c) a trustee acting as trustee of an issue of *debentures* or *government and public securities*:
 - (i) where the issue is made by a *company listed* on a *recognised investment exchange* or on a *designated investment exchange* (or by a wholly-owned *subsidiary* of such a *company*); or
 - (ii) where the issue is made by a government, local authority or public authority; or
 - (iii) where the aggregate amounts issued (under the trust deed or any deed supplemental to it and ignoring any amounts redeemed, repurchased or converted) exceed the sum of £10,000,000, or its equivalent in a foreign currency;

the *rules* in ■ COB 11.5.2, as modified

(2) where the *firm* does not fall within (1), the *rules* in ■ COB 11.5.3 as modified.

11.5.2

R

/1

Table Rules applicable to trustee firms which are not depositaries and to which ■ COB 11.5.1(1) applies
This table belongs to ■ COB 11.5.1(1).

Chapter	Description	Modifications
1	Application and general provisions	'Customer' means 'trustee' or 'trust' as appropriate. COB 1.5 and 1.6 do not apply.
2.1	Clear, fair and not misleading communication	'Customer' means 'trustee'
2.2	Inducements and soft commission	'Customer' means 'trustee' or 'trust' as appropriate.
2.3	Reliance on others	'Customer' means 'trustee'.
2.4	Chinese walls	'Customer' and 'client' mean 'trustee' or 'trust' as appropriate.
2.5	Exclusion of liability	'Customer' and 'private customer' mean 'trustee', as appropriate.
3	Financial promotion	
4.1	Client classification	'Client' and 'customer' mean 'trustee' or 'trust' as appropriate.
5.5	Information about the firm	'Customer' and 'private customer' means 'trustee' or 'trust' as appropriate.
7.1	Conflict of interest and material interest	'Customer' means 'trustee' or 'trust' as appropriate.
7.2	Churning and switching	'Customer' means 'trustee' or 'trust' as appropriate.
9.2	Mandates	'Client' means 'trustee', 'trust' or 'trust instrument' as appropriate.
11	Trustee and depositary activities	

11.5.3

R
/1

Table Rules applicable to trustee firms which are not depositaries and to which ■ COB 11.5.1(2) applies
This table belongs to ■ COB 11.5.1(2).

Chapter	Description	Modifications
1	Application and general provisions	'Customer' means 'trustee' or 'trust' as appropriate. COB 1.5 and 1.6 do not apply.
2.1	Clear, fair and not misleading communication	'Customer' means 'trustee'

Chapter	Description	Modifications
2.2	Inducements and soft commission	'Customer' means 'trustee' or 'trust' as appropriate.
2.3	Reliance on others	'Customer' means 'trustee'.
2.4	Chinese walls	'Customer' and 'client' mean 'trustee' or 'trust' as appropriate.
2.5	Exclusion of liability	'Customer' and 'private customer' mean 'trustee', as appropriate.
3	Financial promotion	
4.1	Client classification	'Client' and 'customer' mean 'trustee' or 'trust' as appropriate.
5.2	Know your customer	'Customer' and 'private customer' mean trustee or trust as appropriate.
5.3	Suitability	'Customer' and 'private customer' mean 'trustee' or 'trust' as appropriate. <i>COB 5.3.14 – 5.3.19 do not apply to a trustee firm. However a trustee firm must keep appropriate records to show compliance with COB 5.3.</i>
5.4	Customers' understanding of risk	'Customer' and 'private customer' mean 'trustee'.
5.5	Information about the firm	'Customer' and 'private customer' means 'trustee' or 'beneficiary' as appropriate.
7.1	Conflict of interest and material interest	'Customer' and 'Private customer' mean 'trustee', or 'trust' as appropriate.
7.2	Churning and switching	'Customer' means 'trustee' or 'trust' as appropriate.
7.3	Dealing ahead	'Customer' means 'trustee' or 'trust' as appropriate.
7.4	Customer order priority	'Customer' means 'trust'.
7.5	Best execution	'Customer' means 'trustee' or 'trust' as appropriate.
7.6	Timely execution	'Customer' means 'trust'.
7.7	Aggregation and allocation	'Customer' means 'customer' or 'trust' as appropriate.

Chapter	Description	Modifications
7.9	Lending to private customers	'Private customer' means 'beneficiary'.
7.10	Margin requirements	'Customer' and 'private customer' mean 'trustee' or 'trust' as appropriate.
7.12	Customer order and execution records	'Customer' means 'trustee' or 'trust' as appropriate.
7.13	Personal account dealing	'Client' means 'trust'.
7.14	Programme trading	'Customer' means 'trustee' or 'trust' as appropriate.
7.15	Non market price transactions	'Customer' means 'trustee' or 'trust' as appropriate.
8.1	Confirmation of transactions	'Customer' means 'trustee' or 'trust' as appropriate.
8.2	Periodic statements	'Customer' means 'trustee', or 'trust' as appropriate.
9	Client assets	'Client' means 'trustee', 'trust' or 'trust instrument' as appropriate.
11	Trustee and depositary activities	

11.6 Delegation to a permitted third party.

- 11.6.1** **R**
/1 *A trustee firm may not appoint a permitted third party ('PTP') under this rule unless:*

 - (1) *the trustee firm could not reasonably be expected to discharge the responsibility itself.*
 - (2) *the delegation is made in writing which:*
 - (a) *describes in adequate detail the regulated activities to be carried on by the PTP; and*
 - (b) *states that the arrangement is to be regarded as a 'PTP arrangement' for the purposes of this rule;*
 - (3) *the PTP undertakes in writing to the trustee firm to comply with all rules relevant to the regulated activity in question; and*
 - (4) *the PTP is an appropriate person to perform the regulated activity.*
- 11.6.2** **G**
/1 For the purposes of ■ COB 11.6.1(1) *a trustee firm may reasonably be expected to accept responsibility for the PTP's compliance where the trustee firm undertakes substantial trustee business. The PTP rules are intended to be of assistance to smaller trustee firms who are inexperienced in regulated business.*
- 11.6.3** **G**
/1 For the purposes of ■ COB 11.6.1(4), where the PTP has appropriate *permission* enabling him to carry on the *regulated activity* in question, that fact may be taken to indicate that the PTP is an appropriate *person* to perform the *regulated activity*.
- 11.6.4** **R**
/1 When a *trustee firm* has appointed a PTP under ■ COB 11.6.1, the *trustee firm* will not be responsible for compliance by the PTP with any *rules* relating to any *regulated activity* which the PTP carries on for the *trustee firm*.
- 11.6.5** **G**
/1 The effect of ■ COB 11.6.4 is that the *trustee firm* is not liable for the acts or defaults of the PTP in respect of the *regulated activities* concerned.
- 11.6.6** **R**
/1 The *trustee firm* must notify the *FSA* within *14 days* of it delegating any *regulated activity* to a PTP and the notification must include the identity of the PTP.
- 11.6.7** **G**
/1 *Trustee firms* are reminded that '*permitted third party*' is defined as being either: (a) an *authorised person*; (b) an *exempt person* for whom an *authorised person* is

accepting responsibility; or (c) a *person* lawfully carrying on a *regulated activity* in another *EEA State*.

11.6.8

G
/1

Trustee firms may delegate to *persons* other than *permitted third parties* under general principles of law and subject to the *FSA's rules*.

11.6.9

G
/1

The *rules* permitting use of a PTP do not absolve the *trustee firm* from the need to comply with any restrictions on delegation or the manner of delegation derived from trust law or from the trust instrument. The *rules* do not affect the *trustee firm's* position under the general law, including the law of agency.

11.7 Record Keeping

11.7.1

R

/1

(1) A *firm* must make a record of any written delegation to a PTP under ■ COB 11.6.1(1) and of the PTP's undertaking under ■ COB 11.6.1(2) and of any variation of those *documents*.

(2) A record in (1) must be retained for a period ending three years after the date on which the PTP's appointment ceases.

11.7.2

G

/1

■ COB 11.7.1 obliges a *trustee firm* to keep records of any variations in the terms of the agreement occurring during the period of the PTP's appointment for three years from the date at which the appointment ends.

11.8 Proper advice

- 11.8.1 **R** ^{/1} *A trustee firm must obtain and consider proper advice whenever it intends to exercise its power of investment, except where there are reasonable grounds for not doing so.*
- 11.8.2 **G** ^{/1} Proper advice is advice from a *person* who is able to give it competently.
- 11.8.3 **G** ^{/1} There is no need to obtain proper advice where there are reasonable grounds not to do so, for example if the *trustee firm* is itself appropriately qualified to make the particular investment decision concerned or if the investment decision could be reasonably considered not to merit obtaining proper advice.
- 11.8.4 **G** ^{/1} ■ COB 11.8 amplifies the requirements of section 6(2) of the Trustee Investments Act 1961 (or section 5 of the Trustee Act 2000 from the date on which that Act enters into force) and trustees' duties at common law.
- 11.8.5 **R** ^{/1} *A trustee firm must follow the proper advice received unless it is reasonable not to do so.*
- 11.8.6 **G** ^{/1} *A trustee firm which finds it necessary to seek proper advice would normally be expected to follow the advice received. However, there may be reasonable grounds to disregard the advice. For example, a trustee firm may be unable to follow proper advice because of restrictions arising from the trust instrument.*
- 11.8.7 **R** ^{/1} *The trustee firm must make records to show compliance with ■ COB 11.8.5 and retain them for three years from the date on which the proper advice is received.*

Chapter 12

Lloyd's

12.1 Application

- 12.1.1** **R** This chapter applies to a *firm* when it carries on any of the following activities:
/1
- (1) *advising on syndicate participation at Lloyd's or agreeing to carry on that regulated activity;*
 - (2) *managing the underwriting capacity of a Lloyd's syndicate as a managing agent at Lloyd's or agreeing to carry on that regulated activity;*
 - (3) *carrying on designated investment business in relation to funds at Lloyd's;*
 - (4) *communicating or approving a financial promotion in relation to:*
 - (a) *the underwriting capacity of a Lloyd's syndicate; or*
 - (b) *membership of a Lloyd's syndicate; or*
 - (c) *effecting or carrying out contracts of insurance written at Lloyd's; or*
 - (d) *any of the activities specified in (1) or (3).*
- 12.1.2** **G** *Underwriting agents* should be aware that the *Society's* regulatory requirements remain applicable to them even if these requirements cover similar matters to the applicable COB provisions.
/1
- 12.1.3** **G** This chapter does not affect the application of COB to a *firm* when carrying on activities other than those specified in ■ COB 12.1.1.
/1
- 12.1.4** **G** The *Society* is itself also required to comply with the requirements of LLD which contains *rules* and *guidance* in respect of areas where COB provisions also have relevance. In particular ■ LLD 4.2.1 places a requirement on the *Society* to make appropriate *byelaws* governing conduct in the *capacity transfer market*. LLD also imposes at ■ LLD 9.2.3 a requirement on the *Society* to comply with the standards of due care and diligence set out in ■ COB 9 in relation to the *custody* of assets that constitute *members' funds*.
/1

Purpose

12.1.5 **G** _{/1} The purpose of this chapter is to protect the interests of *members* or potential *members* and *policyholders* or potential *policyholders*.

12.1.6 **G** _{/1} This chapter provides *rules* that apply to *firms* when carrying on the activities in ■ COB 12.1.1. *Rules* from other chapters are modified for this purpose. These *COB* provisions will apply to the activities of *members' agents*, *members' advisers*, the *Society*, *managing agents* (in some circumstances) and to any other *authorised person* undertaking any of the activities specified in ■ COB 12.1.1.

Rules of general application

- 12.1.7** **R** _{/1}
- (1) When a *firm* is carrying on any of the activities specified in ■ COB 12.1.1(1) and (3), *COB* applies in full, except to the extent disapplied under ■ COB 12.1.14.
 - (2) *COB* does not apply to a *firm* when carrying on the activity specified in ■ COB 12.1.1(2), except as specified in ■ COB 12.1.15.
 - (3) ■ COB 3 applies to a *firm* when carrying on the activity specified in ■ COB 12.1.1(4).

12.1.8 **G** _{/1} *Firms* subject to the *financial promotion rules* under ■ COB 12 are also reminded that *syndicate* business plans may be used in ways that bring them within the definition of a *financial promotion*. In such cases the *financial promotion rules* will apply, in particular ■ COB 3.6 (Confirmation of compliance), ■ COB 3.7 (Records) and ■ COB 3.8 (Form and content of financial promotions).

12.1.9 **G** _{/1} A *firm* which provides advice to a *person* on a transaction in the *capacity transfer market* will be carrying on the activity specified in ■ COB 12.1.1(1) and will be subject to *COB*, as specified in ■ COB 12.1.7(1) in respect of that activity.

12.1.10 **G** _{/1} *COB* does not apply to a *firm* when carrying on the *regulated activity* of *arranging (bringing about) deals in investments* that relate to the *underwriting capacity* of a *Lloyd's syndicate* or *membership of a Lloyd's syndicate*.

12.1.11 **R** _{/1} A *firm* carrying on the activity specified at ■ COB 12.1.1(1) must, in addition to meeting the requirements of ■ COB 5, take reasonable steps to ensure that it does not advise a potential *member* who is a *private customer* to become a *member* of a *syndicate* unless membership of the *Society* itself is suitable for the *private customer* having regard to the facts disclosed by him and other relevant facts about the *private customer* of which the *firm* is or reasonably should be aware.

Definitions and modifications

12.1.12 **R** _{/1} When a *firm* is carrying on activities to which this chapter applies, any reference in *COB* to the term:

- (1) *"designated investment"* is to be taken to include the following *specified investments*:
 - (a) *the underwriting capacity of a Lloyd's syndicate*;
 - (b) *membership of a Lloyd's syndicate*; and
 - (c) *rights to or interests in the specified investments* in (a) or (b);
- (2) *"designated investment business"* is to be taken to include the following *regulated activities*:
 - (a) *advising on syndicate participation at Lloyd's*;
 - (b) *managing the underwriting capacity of a Lloyd's syndicate as a managing agent at Lloyd's*; and
 - (c) *agreeing to carry on the regulated activities* in (a) or (b).

12.1.13 **R** When a *firm* is carrying on activities to which this chapter applies, any reference in *COB* to the term *customer* is to be taken to refer to a *member* or potential *member* except in the case of ■ *COB* 6.7 to ■ *COB* 6.8 where it refers to a *policyholder* or potential *policyholder*.
/1

12.1.14 **R** Table This table disapplies parts of *COB* to a firm when carrying on the activities to which ■ *COB* 12.1.7(1) relates.
/1

Chapter	Description	Disapplication
4.2	Terms of business and client agreements with customers	<i>COB</i> 4.2.11E and <i>COB</i> 4.2.12R are disapplied.
6	Product disclosure and the customer's right to cancel or withdraw	<i>COB</i> 6 is disapplied.
8.2	Periodic statements	<i>COB</i> 8.2 is disapplied to a <i>firm</i> <i>advising on syndicate participation at Lloyd's</i> . <i>COB</i> 8.2.7E is disapplied to the <i>Society</i> .
9	Client assets	<i>COB</i> 9 is disapplied to the <i>Society</i> .
11	Trustee and depositary activities	<i>COB</i> 11 is disapplied.

12.1.15 **R** Table This table applies *COB* to firms when carrying on the activity to which ■ *COB* 12.1.7(2) relates.
/1

Chapter	Description	Application
1	Application and general provisions	Applied
2	Rules which apply to all firms conducting designated investment business	Applied
4.1	Client classification	Applied
6.7	Cancellation and withdrawal	Applied
6.8	Insurance contracts – life and general	Applied

12.1.16 G_{/1} The tables at ■ COB 12.1.17 to ■ COB 12.1.21 are provided to help *firms* when carrying on those activities to which this chapter applies locate those *COB rules* that are particularly relevant to their activities. *Firms* should be aware that these tables may not include all *rules* which apply to an individual *firm* as these will vary depending on the *firm's* particular circumstances and that there may be other *COB rules* that apply.

12.1.17 G_{/1} Table Location of rules of general application to firms when carrying on activities to which this chapter applies. This table forms part of ■ COB 12.1.16.

Handbook Modules

Schedule1 Record keeping requirements

G

- 1 The aim of the guidance in the following table is to give the reader a quick overall view of the relevant record keeping requirements.
- 2 It is not a complete statement of those requirements and should not be relied on as if it were.
- 3 **Table**

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
COB 2.2.20R(1)	Periodic reports	Details of soft commission agreements	Date of periodic statement	3 years (from termination of relevant soft commission agreement)
COB 2.2.20R(2)	Disclosable commission	Each payment	Date of payment	6 years
COB 2.2.20R(3)	Indirect benefits given to an independent intermediary	Each benefit	Date from which benefit was conferred	6 years
COB 3.7.1R	Non-real time financial promotion – each: Pension transfer Pension opt-out FSAVC	Name of individual who confirmed compliance or approved the financial promotion. See COB 3.7.2(1) to (4) for other contents	Date of confirmation or approval	Indefinitely
COB 3.7.1R	Non-real time financial promotion – each: Life policy Pension contract Stakeholder pension scheme	Name of individual who confirmed compliance or approved the financial promotion. See COB 3.7.2(1) to (4) for other contents	Date of confirmation or approval	6 years

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
COB 3.7.1R	Non-real time financial promotion – any other case	Name of individual who confirmed compliance or approved the financial promotion. See COB 3.7.2(1) to (4) for other contents	Date of confirmation or approval	3 years
COB 4.1.16R	Classification of each client – if relevant to: Pension transfers Pension opt-outs FSAVCs	Sufficient information to support classification	When the client relationship begins or upon re-classification, to include annual review where necessary	Indefinitely
COB 4.1.16R	Classification of each client – if relevant to: Life policies Pension contracts	Sufficient information to support classification	When the client relationship begins or upon re-classification, to include annual review where necessary	6 years (from end of client relationship)
COB 4.1.16R	Classification of each client – any other case	Sufficient information to support classification	When the client relationship begins or upon re-classification, to include annual review where necessary	3 years (from end of client relationship)
COB 4.2.14R	Terms of business for: Pension transfer Pension opt-out FSAVC	Each term of business provided and any amendments	As soon as in force	Indefinitely
COB 4.2.14R	Terms of business for: Life policy Pension contract Stakeholder pension scheme	Each term of business provided and any amendments	As soon as in force	6 years (from the date on which the customer ceases to be a customer)
COB 4.2.14R	Terms of business: any other case	Each term of business provided and any amendments	As soon as in force	3 years (from the date on which the customer ceases to be a customer)

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
COB 5.1.4R(3)	Adoption of a packaged product	Decision to adopt	On making the decision to adopt	Throughout the period the adoption remains in effect and for 6 years thereafter
COB 5.2.9R	Private customer's details for a pension transfer, pension opt-out, FSAVC	Personal and financial circumstances	On giving advice	Indefinitely
COB 5.2.9R	Private customer's details for a life policy, pension contract	Personal and financial circumstances	On giving advice	6 years
COB 5.2.9R	Private customers details for any other case	Personal and financial circumstances	On giving advice	3 years
COB 5.2.10R	Private customer: Opt out or transfer from an OPS on an execution only basis	Execution only transaction, no investment advice given	Upon execution	
COB 5.3.25R	Private customer instructs a pension opt-out or transfer contrary to advice of firm	Firm's advice to customer and customer instructions to firm to proceed	Upon execution	Indefinitely
COB 5.3.26R(2)	Statistics of pension opt-out or transfer transactions involving private customers	Details of the notification required by COB 5.3.26R(1)	On making the notification	Indefinitely
COB 5.3.27R	Statistics of pension opt-out, pension transfer or FSAVC transactions involving private customers	Separate records per customer	On arranging the transaction	Indefinitely
COB 6.6.19R	Projections relating to a life policy, pension contract or stakeholder pension scheme	A projection provided to a customer	As soon as proposal proceeds	6 years
COB 6.6.19R	Projections relating to a pension transfer or pension opt-out	A projection provided to a customer	As soon as proposal proceeds	Indefinitely

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
COB 6.6.19R	Projections relating to any other case	A projection provided to a customer	As soon as proposal proceeds	3 years
COB 6.7.47R	Cancellation or withdrawal: Pension transfer, opt-out or FSAVC	To include a copy of any receipt of notice issued to the customer and the customer's original notice instructions	Upon notice of cancellation or withdrawal being served to firm, its appointed representative or agent	Indefinitely
COB 6.7.47R	Cancellation or withdrawal: Life policy, pension contract or stakeholder pension scheme	To include a copy of any receipt of notice issued to the customer and the customer's original notice instructions	Upon notice of cancellation or withdrawal being served to firm, its appointed representative or agent	6 years (from the date when the firm became aware that notice of cancellation had been served)
COB 6.7.47R	Cancellation or withdrawal: Any other case	To include a copy of any receipt of notice issued to the customer and the customer's original notice instructions	Upon notice of cancellation or withdrawal being served to firm, its appointed representative or agent	3 years (from the date when the firm became aware that notice of cancellation had been served)
COB 6.8.18R(1)	Firm effecting or carrying out pure protection contracts	Adequate details of information provided	After information provided	6 years
COB 6.8.18R(2)	Firm effecting or carrying out general insurance contracts	Adequate details of information provided	After information provided	3 years
COB 7.7.6E(4)	Allocation of aggregated transactions in a series of transactions all executed within one business day	The time each transaction is made	On executing an aggregated transaction	
COB 7.7.14R(1)	An aggregated transaction that includes a customer order	Identity of each customer; whether transaction is in whole or in part for discretionary managed investment portfolio and any relevant proportions	On executing an aggregated transaction	3 years

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
COB 7.7.14R(2)	Firm aggregating a number of client orders that include a customer order	Intended basis of allocation	As soon as is practicable	3 years
COB 7.7.14R(3)	Aggregation of one or more customer orders and an own account order	Intended basis of allocation	Before the transaction is executed	3 years
COB 7.7.16R	Allocation of an aggregated transaction that includes the execution of a customer order	Date + time of allocation; relevant designated investment; identity of each customer and market counterparty and the amount allocated to each customer and market counterparty; agreement to extend allocation period for intermediate customers under COB 7.7.6E(2)(b)	Date on which the order is allocated	3 years
COB 7.7.17R	Re-allocation	Basis and reason for any re-allocation	At the time of the re-allocation	3 years
COB 7.9.7R	Lending to private customers	Assessment of a private customer's financial standing and the date when the information was last updated/checked	Upon assessment	3 years (from the date on which the credit arrangement ceased)

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
COB 7.12.3R and COB 7.12.6E(1)	Customer orders	Customer's name (or other designation)/ account number; date and time of receipt or decision by the firm to deal; who received the order or made the decision to deal; the designated investment; the number of/total value of the designated investment inc any price limit; whether sale or purchase; any other instructions received; and the nature of the communication of the customer order	When the order arises	3 years (after the date of completion of the transaction)
COB 7.12.3R and COB 7.12.6E(2)	Execution of a transaction by a firm	Name/other designation of client (if any); name of counterparty (if known); date and time of execution; who executed the transaction; the designated investment; number of/ total value of the designated investment; price and other significant terms; whether sale or purchase; whether the firm was acting as principal	When the firm executes a transaction	3 years (after the date of completion of the transaction)
COB 7.12.3R and COB 7.12.6E(3)	The firm instructs another person to deal	Name of the person instructed; terms of instruction and date and time of instruction	When the firm instructs another person to deal	3 years (after the date of completion of the transaction)

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
COB 7.13.11R(1)(a)	Personal account dealing	The restrictions upon pa dealing and the basis upon which any permission to deal is made	Whenever the restrictions are placed and from the date of consent	3 years (from the date that the restrictions or basis were communicated to the employee)
COB 7.13.11R(1)(b)	Personal account dealing	Each permission to deal given by the firm	From the date of consent	3 years (from the date that the permission was given)
COB 7.13.11R(1)(c)	Personal account dealing	Each notification of the transaction made by the employee to the firm	From the date of notification	3 years (from the date that the notification was made)
COB 7.13.11R(1)(d)	Personal account dealing	The basis upon which the firm has determined that an employee will not be involved in, or have access to information about, the firm's designated investment business	On determining the basis	3 years (from the date on which the individual ceases to be an employee)
COB 8.1.14R	Confirmation of transaction	Information provided	On dispatch of confirmation	3 years
COB 8.2.9R	Periodic statements	Copy of any periodic statement	On date on which it is provided	3 years
COB 9.1.9R	A personal investment firm that temporarily holds a client's designated investments	Client details and any action taken by firm		3 years (from the making of the record)
COB 9.1.53R(3)	Safe custody: arrangements for clients ordinarily resident outside the United Kingdom	The steps taken and result under COB 9.1.53R(2)	On determination that client does not wish to execute agreement	

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
COB 9.1.98R	Client custody assets held or received by or on behalf of a client or which the firm has arranged for another to hold or receive	Full details	On receipt	3 years
COB 9.1.99R	Safe custody investments used for stock lending activities	The identity of safe custody investments available to be lent, and those which have been lent	On receipt	3 years
COB 9.2.5R	Adequate records and internal controls in respect of the firm's use of mandates (see COB 9.2.5R(1) to (4))	Up to date list of firm's authorities, all transactions entered into, important client documents held by firm	Maintain current full details	
COB 9.3.145R	Client money	Sufficient records to show and explain firm's transactions and commitments	Maintain current full details	3 years (after records made)
COB 9.5.24R(3)	Client money shortfall	Each client's entitlement to client money shortfall at the failed bank	Maintain up to date records	Until client repaid
COB 9.5.25R(3)	Client money shortfall	Each client's entitlement to client money shortfall at the failed bank	Maintain up to date records	Until client repaid
COB 9.5.31R(3)	Client money shortfall	Each client's entitlement to client money shortfall at the failed intermediate broker, settlement agent or OTC counterparty	Maintain up to date records	Until client repaid
COB 10.3.3E(3)	Allocation of aggregated transactions in a series of transactions all executed within one business day	The time each transaction is made	On executing an aggregated transaction	

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
COB 10.3.5R(1)	Aggregated transaction on behalf of a number of schemes	Identity of schemes concerned, whether transaction was effected proportionally or if a stated proportion was effected for some schemes under its management	On executing an aggregated transaction	
COB 10.3.5R(2)	Aggregated customer orders on behalf of a number of schemes	The intended basis of allocation	As soon as is practicable	
COB 10.3.5R(3)	Aggregated orders of schemes under its management and own account orders	The intended basis of allocation	Before the transaction is executed	
COB 10.7.6R	Periodic statements in relation to unregulated collective investment scheme	Operator to retain copy of any periodic statement it has provided to participants in the scheme	On providing the periodic statement	3 years
COB 11.7.1R	PTP appointment	Details of the written delegation to a PTP, PTP's undertaking under COB 11.6.1R(3) and of any variation in the documentation	On the PTP's appointment	3 years (from date of end of the PTP's appointment)
COB 11.8.7R	Trustee firm following (or rejecting) proper advice in relation to exercise of power of investment	Evidence of compliance with COB 11.8.5R	Date on which proper advice is received	3 years

Handbook Modules

Schedule2 Notification requirements

G

1 Table

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
COB 5.3.26R	opt-out and transfer transactions involving private customers	in writing – number of opt-outs and transfer transactions the firm has handled in previous 6 monthly period	6 monthly intervals	as soon as reasonably practicable
COB 5.3.26R	execution only opt-outs and transfer transactions	in writing – number of transactions arranged if they exceed 1% of all the firm's opt-outs or transfers arranged during that quarter	3 month intervals	as soon as reasonably practicable
COB 5.3.26R	opt-outs and transfer transactions	in writing – number of transactions arranged against the firm's advice if they exceed 1% of all the firm's opt-outs or transfers arranged during that quarter	3 month intervals	as soon as reasonably practicable

Handbook Modules

Schedule3 Fees and other required payments

G

- 1 There are no requirements for fees or other payments in COB.

Handbook Modules

Schedule4 Powers exercised

G

- 1 The following powers in the Act have been exercised by the FSA to make the rules in COB:
- 2 Section 118(8) (Market abuse)
- 3 Section 138 (General rule-making power)
- 4 Section 139(1) and (4) (Miscellaneous ancillary matters)
- 5 Section 145 (Financial promotion rules)
- 6 Section 147 (Control of information rules)
- 7 Section 149 (Evidential provisions)
- 8 Section 156 (General supplementary powers)
- 9 Section 238(5) (Restrictions on promotion)
- 10 Section 247 (Trust scheme rules)
- 11 Regulation 6(1) of The Open-Ended Investment Companies Regulations 2001
- 12 The following powers in the Act have been exercised by the FSA to give the guidance in COB:
- 13 Section 157(1) (Guidance)

Handbook Modules

Schedule5 Rights of actions for damages

G

- 1 The table below sets out the rules in COB contravention of which by an authorised person may be actionable under section 150 of the Act (Actions for damages) by a person who suffers loss as a result of the contravention.
- 2 If a “Yes” appears in the column headed “For private person?”, the rule may be actionable by a “private person” under section 150 (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001 No 2256)). A “Yes” in the column headed “Removed” indicates that the FSA has removed the right of action under section 150(2) of the Act. If so, a reference to the rule in which it is removed is also given.
- 3 The column headed “For other person?” indicates whether the rule may be actionable by a person other than a private person (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of person by whom the rule may be actionable is given.

4 Table

Chapter/ Appendix	Section/ Annex	Paragraph	Right of action under section 150			
			For private		For other person?	
			person?	Removed?		
		All rules in COB with the status letter “E”	No	No	No	
		Any rule in COB which prohibits an <i>authorised person</i> from seeking to make provision excluding or restricting any duty or liability	Yes	No	Yes	Any other <i>person</i>
		Any rule in COB which is directed at ensuring that transactions in <i>designated investments</i> are not effected with the benefit of unpublished information that, if made public, would be likely to affect the price of that <i>designated investment</i>	Yes	No	Yes	Any other <i>person</i>
		All other rules in COB	Yes	No	No	

Handbook Modules

Schedule6 Rules that can be waived

G

- 1 The rules in COB can be waived by the FSA under sections 148 or 250 of the Act (Modification or waiver of rules) or regulation 7 of the OEIC Regulations (Modification or waiver of FSA rules), except for the following rules:
 - (a) the rules in COB 1 (Application and general provisions) to the extent that those rules apply or modify other rules in COB which may not be waived;
 - (b) the rules in COB 2.1 (Clear, fair and not misleading communication) to the extent that those rules apply or modify other rules in COB which may not be waived;
 - (c) COB 2.4.4R(1) and 2.4.4R(3) (Chinese walls);
 - (d) COB 3.11.2R (Unregulated Collective Investment Schemes);
 - (e) the rules in COB 6.7 (Cancellation and withdrawal) (other than COB 6.7.11R, COB 6.7.21R);
 - (f) COB 9.3.1-2, 9.3.31, 9.3.34 and 9.3.59 (Client money) and COB 9.5 (Client money distribution);
 - (g) the rules in COB 10 (Operators of collective investment schemes) to the extent that those rules apply or modify other rules in COB which may not be waived;
 - (h) the rules in COB 11 (Trustee and depositary activities) to the extent that those rules apply or modify other rules in COB which may not be waived;
 - (i) the rules in COB 12 (Lloyd's) to the extent that those rules apply or modify other rules in COB which may not be waived.

MARKET CONDUCT SOURCEBOOK INSTRUMENT 2001

- A The Financial Services Authority makes the provisions in the Annex to this instrument (“MAR”) in the exercise of the powers listed in Schedule 4 to MAR (Powers exercised).
- B This instrument shall come into force as follows:
- (1) MAR 1 (Code of Market Conduct): at the beginning of the day on which section 123 (Power to impose penalty in cases of market abuse) of the Financial Services and Markets Act 2000 (the “Act”) comes into force;
 - (2) MAR 2 (Price stabilising rules) and MAR 3 (Inter-professional conduct): at the beginning of the day on which section 19 of the Act (The general prohibition) comes into force;
 - (3) paragraphs A to E on this page: immediately.
- C The provisions of the Act relevant to making rules and listed in Schedule 4 to MAR (Powers exercised) are specified for the purpose of section 153(2) of the Act (Rule-making instruments).
- D This instrument may be cited as the Market Conduct Sourcebook Instrument 2001.
- E The Annex to this instrument (including its Schedules) may be cited as the Market conduct sourcebook (or MAR).

By Order of the Board

Transitional Provisions

1 Table

G GEN contains some technical transitional provisions that apply throughout the *Handbook* and which are designed to ensure a smooth transition at *commencement*. These include transitional provisions relevant to record keeping and *notification rules*.

1) Transitional Provisions for The Code of Market Conduct – (MAR 1)

There are no transitional provisions for *MAR 1* (The Code of Market Conduct).

2) Transitional Provisions for Price stabilising rules (MAR 2)

SUP contains transitional provisions which carry forward into *MAR 2* (Price stabilising rules) written concessions relating to pre-commencement provisions.

2 Table

1	MAR 2	R	<p>Part 10 of the Financial Services (Conduct of Business) Rules 1990 applies in relation to an <i>offer for cash</i>, instead of MAR 2, if:</p> <p>(1) a <i>public announcement of the offer</i> which stated the <i>offer price</i> has been made before <i>commencement</i>; or</p> <p>(2) the <i>introductory period</i> for the <i>offer</i> started not more than 60 days before <i>commencement</i> and the <i>firm</i> or other <i>person</i> so chooses and makes a written record of that choice before <i>commencement</i>.</p> <p>A record in (2) must be retained for 3 years from the end of the <i>stabilising period</i> for the <i>offer</i>.</p> <p>This transitional provision applies to an offer as defined in the 1990 Rules, and has effect as a <i>price stabilising rule</i>.</p>	<p><i>Commence-</i> <i>ment</i> until the end of the <i>stabilis-</i> <i>ing period</i> for the offer</p>	<p><i>Commence-</i> <i>ment</i></p>
---	-------	---	---	---	---

Chapter 1.

The Code of Market Conduct

1.1 Application

APPLICATION: WHO?

- 1.1.1** G_{/1} The *Code of Market Conduct* ("the Code") is made under section 119 of the *Act* which requires the *FSA* to produce a code giving guidance on what does and does not amount to *market abuse*. This Code is relevant to all *persons* seeking guidance as to whether or not *behaviour* amounts to *market abuse*.

APPLICATION: WHAT?

- 1.1.2** G_{/1} Part VIII of the *Act* (Penalties for market abuse) contains provisions relating to *market abuse* which are described in this Code as the *market abuse regime*.
- 1.1.3** G_{/1} The three tests in the *Act* which must be satisfied in order to establish that *behaviour* (see *MAR* 1.3), whether by one *person* alone or by two or more *persons* jointly or in concert, amounts to *market abuse* are as follows:
- (1) the *behaviour* must occur in relation to a *qualifying investment* traded on a *prescribed market* (see *MAR* 1.11);
 - (2) the *behaviour* must satisfy one or more of the three conditions identified in section 118(2) of the *Act* (Market abuse), the text of which is set out below:
 - (a) "the behaviour is based on information which is not generally available to those using the market but which, if available to a regular user of the market, would or would be likely to be regarded by him as relevant when deciding the terms on which transactions in *investments* of the kind in question should be effected" (section 118(2)(a) of the *Act*) (see *MAR* 1.4);
 - (b) "the behaviour is likely to give a regular user of the market a false or misleading impression as to the supply of, or demand for, or as to the price or value of, investments of the kind in question" (section 118(2)(b) of the *Act*) (see *MAR* 1.5);
 - (c) "a regular user of the market would, or would be likely to, regard the behaviour as behaviour which would, or would be likely to, distort the market in investments of the kind in question" (section 118(2)(c) of the *Act*) (see *MAR* 1.6); and
 - (3) the *behaviour* must be likely to be regarded by a *regular user* of the market as a failure on the part of the *person* concerned to observe the standard of *behaviour* reasonably expected of a *person* in the position of the *person* in question (see *MAR* 1.2).

1.1.4 G_{/1} Under section 123(1) of the *Act*, the FSA has the power either to impose a penalty, or to make a statement to the effect that a *person* has engaged in *market abuse*, if the FSA is satisfied that a *person* ("A"):

- (1) has engaged in *market abuse*; or
- (2) by taking or refraining from taking any action has *required or encouraged* another *person* to engage in *behaviour* which, if engaged in by A, would amount to *market abuse*.

1.1.5 G_{/1} In accordance with section 123(2) of the *Act*, the FSA cannot impose a penalty if there are reasonable grounds for it to be satisfied that a *person*:

- (1) believed on reasonable grounds that his *behaviour* did not amount to *market abuse*; or
- (2) had taken all reasonable precautions and exercised all due diligence to avoid engaging in *market abuse*.

1.1.6 G_{/1} In accordance with section 123(2) of the *Act*, the FSA cannot impose a penalty if there are reasonable grounds for it to be satisfied that a *person*:

- (1) believed on reasonable grounds that his *behaviour* had not *required or encouraged* another *person* to engage in *behaviour* which, if engaged in by the first *person*, would have amounted to *market abuse*; or
- (2) had taken all reasonable precautions and exercised all due diligence to avoid *requiring or encouraging* another *person* to engage in *behaviour*, which, if engaged in by the first *person*, would have amounted to *market abuse* (see ENF 14.5).

APPLICATION: WHERE?

1.1.7 G_{/1} Under section 118(5) of the *Act*, *behaviour* will fall within the scope of the *market abuse regime* if it occurs in relation to *qualifying investments* which are traded on a *prescribed market* which is located in the *United Kingdom* or which is accessible electronically in the *United Kingdom*. (See MAR 1.11 for more detail on *qualifying investments* traded on a *prescribed market*.)

PURPOSE AND EFFECT

1.1.8 G_{/1} The Code gives *guidance* for the purpose of determining whether or not *behaviour* amounts to *market abuse*, in accordance with section 119 of the *Act*.

1.1.9 G_{/1} The Code does not have the effect of modifying or extending any disclosure obligations, including under the *Listing Rules*, the *Takeover Code* and SARs or which apply in relation to any *prescribed market*.

1.1.10 G_{/1} The Code also describes *behaviour* that, in the opinion of the FSA, does not amount to *market abuse*. Section 122(1) of the *Act* (Effect of the code) provides that such *behaviour* is to be taken conclusively, for the purposes of the *Act*, as not amounting to *market abuse*. The relevant sections of the Code are identified by the letter "C" and they are referred to in the Code as "safe harbours". (See MAR

1.

1.4.20C, MAR 1.4.21C, MAR 1.4.24C, MAR 1.4.26C, MAR 1.4.28C, MAR 1.5.24C, MAR 1.5.25C, MAR 1.5.27C, MAR 1.5.28C and MAR 1.6.19C.)

- 1.1.11** G_{/1} In accordance with section 122(2) of the *Act*, some of the provisions of the Code identified by the letter “E” may be relied upon so far as they describe *behaviour* which, in the opinion of the *FSA*, amounts to *market abuse*. In addition, in accordance with section 119(2)(c) of the *Act*, other provisions in the Code identified by the letter “E” describe factors that, in the opinion of the *FSA*, are to be taken into account in determining whether or not *behaviour* amounts to *market abuse*.
- 1.1.12** G_{/1} Explanatory *guidance* is provided in relation to some provisions of the *Act* and this Code. This *guidance* is indicated by the letter “G”. It does not form part of the Code, but it is *guidance* made under the *FSA*’s general power to give *guidance* as set out in section 157 of the *Act* (Guidance).
- 1.1.13** G_{/1} The Code is not an exhaustive list of all types of *behaviour* which may, or may not, amount to *market abuse*, nor of all the factors to be taken into account in determining whether *behaviour* amounts to *market abuse*. The *FSA* may, subject to appropriate consultation, alter or replace the Code at any time.
- 1.1.14** G_{/1} The *Act* provides certain statutory exceptions in relation to the *market abuse regime* (see MAR 1.7).

1.2 The regular user test

- 1.2.1**  ^{/1} A *regular user* is defined in Section 118(10) of the *Act* as 'in relation to a particular market, a reasonable person who regularly deals on that market in investments of the kind in question.' *Behaviour* will amount to *market abuse* only where it would be likely to be regarded by a *regular user* as a failure on the part of the *person* or *persons* concerned to observe the standard of *behaviour* reasonably expected of a *person* in his or their position in relation to the market.
- 1.2.2**  ^{/1} In determining whether *behaviour* amounts to *market abuse*, it is necessary to consider objectively whether a hypothetical reasonable *person*, familiar with the market in question, would regard the *behaviour* as acceptable in the light of all the relevant circumstances.
- 1.2.3**  ^{/1} In determining whether *behaviour* falls below the standards expected, the *regular user* is likely to consider all the circumstances of the *behaviour*, including:
- (1) the characteristics of the market in question, the *investments* traded on that market, and the users of the market;
 - (2) the rules and regulations of the market in question and any applicable laws. For example, it is likely that it will be relevant to consider the extent to which the *behaviour* is in compliance with the rules of the particular market and if the *person* is based overseas it may be relevant to consider the extent to which the *behaviour* is in compliance with the standards prevailing in that overseas jurisdiction;
 - (3) prevailing market mechanisms, practices and codes of conduct applicable to the market in question;
 - (4) the position of the *person* in question and the standards reasonably to be expected of that *person* at the time of the *behaviour* in the light of that *person's* experience, level of skill and standard of knowledge. For example, the standards which it would be reasonable to expect of a retail investor are likely to differ from those to be expected of an industry professional; and

1.

(5) the need for market users to conduct their affairs in a manner that does not compromise the fair and efficient operation of the market as a whole or unfairly damage the interests of investors.

- 1.2.4**  _{/1} The *regular user* is likely to consider it relevant, although not determinative, that the *behaviour* conforms with standards that are generally accepted by users of the market. Detailed guidance is given at MAR 1.4 – MAR 1.6 as to the different types of *behaviour* that would not be regarded as acceptable.
- 1.2.5**  _{/1} The statutory definition of market abuse does not require the *person* engaging in the *behaviour* to have intended to abuse the market. Accordingly it is not essential for such an intention or purpose to be present in order for *behaviour* to fall below the objective standards expected. However, in some circumstances the determination of whether *behaviour* falls short of those standards will depend on the purpose of the *person* in question (for example, MAR 1.6.4E). In those circumstances, the *regular user* is likely to consider the purpose of the *person* in question in addition to the other relevant considerations listed at MAR 1.2.3E. This need not be the sole purpose but should be an *actuating purpose*.
- 1.2.6**  _{/1} A mistake is unlikely to fall below the objective standards expected where the *person* in question has taken reasonable care to prevent and detect the occurrence of such mistakes.
- 1.2.7**  _{/1} The objective standard of *behaviour* expected by the *regular user* is likely to vary to some degree across markets according to the characteristics of the market in question and the *investments* concerned. For example, the disclosure standards currently expected in equities markets differ from those expected in *commodities* markets. Consequently, different standards currently apply to the use of non-public information in different markets. Further, the standard expected of a *person* will vary with the experience, level of skill and standard of knowledge that the *regular user* is likely to expect from a *person* in that position. For example, when assessing the standards to be expected of public sector bodies, it is likely that it will be relevant to take into account their statutory and other official functions.
- 1.2.8**  _{/1} It may often be appropriate to take into account the extent to which the *behaviour* is in compliance with other applicable rules including the rules of a *prescribed market*, the *Takeover Code* or *FSA rules*. Compliance with such rules may not be sufficient for the *behaviour* not to amount to *market abuse*, since those rules may not be specifically directed at the types of *behaviour* prohibited by the *Act* or because compliance with those rules is only one consideration among others. Greater weight is likely to be given to compliance with a rule that expressly requires or permits particular *behaviour*. However, this will not in itself be determinative. Similarly, failure to comply with a rule will not of itself create a presumption that there has been *market abuse*. If the *prescribed market* or the *Takeover Panel* has granted a dispensation from, or given guidance in advance on, its rules, this is likely also to be a relevant factor in considering whether the *behaviour* amounts to *market abuse*. As mentioned at ENF 14.9.3G the *FSA* will attach considerable weight to the views of the *Takeover Panel* in interpreting and applying the *Takeover Code* and the *SARs*.
- 1.2.9**  _{/1} Where a *person's behaviour* occurs on an overseas market, but has an impact on a *prescribed market*, the *regular user* is likely to consider that it will be relevant to

- have regard to the local rules, practices and conventions prevailing in the relevant market, and whether or not the *person* is in the *United Kingdom*. However, compliance with such rules will not of itself be determinative.
- 1.2.10** G_{/1} As stated in *MAR 1.2.4E*, it is likely to be relevant to consider whether to take into account the extent to which the *behaviour* conforms with standards that are generally accepted by users of the market, but again this will not in itself be determinative. Such standards will be acceptable where they promote the fair and efficient operation of the market as a whole and do not unfairly damage the interests of investors. In circumstances where there is a range of practices which are generally accepted by users of the market, each practice is to be judged objectively on its own merits.
- 1.2.11** G_{/1} The *FSA* does not anticipate that divergences between standards that are generally accepted by users of the market and the standards expected by the *regular user* will be frequent. In future, the *FSA* may identify a practice which is accepted in the market, but which, in the *FSA*'s opinion, is likely to fall short of the standards expected by the *regular user*. In such cases the *FSA* will consider whether to signal its views on the practice in the form of *guidance* (making use of its power to do so under section 157 of the *Act*), or through some other statement, or by revising the Code, or to take enforcement action. The *FSA* recognises that the former approach will often be more appropriate, and where this is the case the *FSA* will work with relevant market participants and regulatory bodies (including the *RIEs*) to address the causes of concern. However, for those occasions where the appropriate response will be to take enforcement action, the *FSA*'s enforcement policies in relation to *market abuse* as set out at *ENF 14* will be relevant.
- 1.2.12** G_{/1} The *FSA* is satisfied that the *RIE* rulebooks do not permit or require *behaviour* which amounts to *market abuse*.
- 1.2.13** G_{/1} The Code is not exhaustive in its descriptions of *behaviour* that does or does not amount to *market abuse*. In circumstances where a *person* is proposing to undertake an innovative transaction, he should consider it in the light of the guidance provided in sections *MAR 1.4 - MAR 1.6*. It is also open to a *person* to consider seeking *guidance* from the *FSA* in respect of the proposed *behaviour*. Similarly, members of an *RIE* may wish to seek guidance from the relevant exchange on the consistency of the *behaviour* with exchange rules.

1.

1.3 Behaviour

1.3.1

/1

The types of *behaviour* which come within the scope of the *market abuse regime* include, but are not limited to, the following:

- (1) *dealing in qualifying investments*;
- (2) *dealing in commodities or investments* which are the subject matter of, or whose price or value is determined by reference to, a *qualifying investment* (in this case, the *commodity* will be a “*relevant product*” in relation to the *qualifying investment*);
- (3) *arranging deals* in respect of *qualifying investments*;
- (4) causing or procuring or *advising* others to *deal in qualifying investments*;
- (5) making statements or representations or otherwise disseminating information which is likely to be regarded by the *regular user* as relevant to determining the terms on which transactions in *qualifying investments* should be effected;
- (6) providing corporate finance advice and conducting corporate finance activities in *qualifying investments*; and
- (7) managing investments which are *qualifying investments* belonging to another.

1.3.2

/1

Behaviour includes both action and inaction. For example, inaction may amount to *market abuse* in circumstances where a *person* is under a legal or regulatory obligation to make a particular disclosure and fails to do so.

1.4 Misuse of information

- 1.4.1**  Statements in this section to the effect that *behaviour* “amounts to *market abuse*” assume that the test in MAR 1.1.3G(1) has also been met.
/1
- 1.4.2**  Section 118(2)(a) of the *Act* defines *behaviour* based on misuse of information as:
/1
”behaviour which is based on information which is not generally available to those using the market but which, if available to a regular user of the market, would or would be likely to be regarded by him as relevant when deciding the terms on which transactions in investments of the kind in question should be effected”.
- 1.4.3**  In all *prescribed markets*, market users rely on the timely dissemination of such *relevant information* as they may reasonably expect to receive. Those who possess *relevant information* ahead of general dissemination should, therefore, refrain from basing their *behaviour* on that information and from *requiring or encouraging* others to engage in *behaviour* until it is disseminated, save in the circumstances set out in MAR 1.4.20C - MAR 1.4.28C. Otherwise, the confidence of market users in the ability of the market to ensure access to such information will be undermined. The extent to which market users may reasonably expect to have access to information differs between different markets. This is explained further below at MAR 1.4.12E to MAR 1.4.16G.

BEHAVIOUR WHICH AMOUNTS TO MARKET ABUSE

- 1.4.4**  *Behaviour* will amount to *market abuse* (unless MAR 1.4.20C - MAR 1.4.28C apply) in that it will be a misuse of information where a *person deals or arranges deals* in any *qualifying investment* or *relevant product* where all four of the following circumstances are present:
/1
- (1) the *dealing* or *arranging* is based on information. The *person* must be in possession of information and the information must have a material influence on the decision to engage in the *dealing* or *arranging*. The information must be one of the reasons for the *dealing* or *arranging*, but need not be the only reason;

1.

- (2) the information must be information which is not generally available. Criteria for determining whether information is generally available are set out in MAR 1.4.5E;
- (3) the information must be likely to be regarded by a *regular user* as relevant when deciding the terms on which transactions in the *investments* of the kind in question should be effected. Such information is referred to in this Code as “*relevant information*”. Factors which are to be taken into account when determining whether information is *relevant information* are set out in MAR 1.4.9E to MAR 1.4.11E;
- (4) the information must relate to matters which the *regular user* would reasonably expect to be disclosed to users of the particular *prescribed market*. As explained further below at MAR 1.4.12E and MAR 1.4.13E, this includes both matters which give rise to such an expectation of disclosure or are likely to do so either at the time in question, or in the future.

(A) INFORMATION WHICH IS GENERALLY AVAILABLE (MAR 1.4.4E(2))

1.4.5

/1

Information is treated as generally available if it can be obtained by research or analysis conducted by or on behalf of users of a market (section 118(7) of the *Act*). In addition, information is to be regarded as generally available where one (or more) of the following is satisfied:

- (1) the information has been disclosed to a *prescribed market* through an *accepted channel for dissemination of information* or otherwise under the rules of that market;
- (2) the information is contained in records which are open to inspection by the public;
- (3) the information has otherwise been made public, including through the Internet, or some other publication, or is derived from information which has been made public;
- (4) the information can be obtained by observation.

1.4.6

/1

People are free to use information that they have obtained through research, analysis or other legitimate means. Legitimate means include the observation of a public event. Observation of a public event includes any information which is discussed in a public area or can be observed by the public without infringing rights of privacy, property or confidentiality. Such information will be considered generally available. The fact that in practice other users of the market cannot obtain the information because of limitations in their resources, expertise or competence does not mean that the information cannot legitimately be obtained.

1.4.7  /1 Examples of information which might be obtainable through legitimate research include:

- (1) information which is available only overseas and has not been published, or otherwise been made available to the public, in the *United Kingdom*; and
- (2) information which is only available on payment of a fee.

1.4.8  /1 For example, if a train passes a burning factory and a passenger calls his broker using his mobile telephone to *sell shares* in the factory's owner, that passenger will be acting on information which is generally available, since it is information which has been obtained by legitimate means through observation of a public event.

(B) RELEVANT INFORMATION (MAR 1.4.4E(3))

1.4.9  /1 Whether, in a particular case, a particular piece of information would, or would be likely to, be regarded as *relevant information* by the *regular user* will depend on the circumstances of the case. In making such a determination, the *regular user* is likely to consider the extent to which:

- (1) the information is specific and precise;
- (2) the information is material;
- (3) the information is current;
- (4) the information is reliable, including how near the *person* providing the information is, or appears to be, to the original source of that information and the reliability of that source;
- (5) there is other material information which is already generally available to inform users of the market; and
- (6) the information differs from information which is generally available and can therefore be said to be new or fresh information.

1.4.10  /1 In the case of information relating to possible future developments (which do not currently give rise to an expectation of disclosure (MAR 1.4.4E(4)), the following additional factors are to be taken into account when determining the relevance of that information (see example in MAR 1.4.18E):

- (1) whether the information provides, with reasonable certainty, grounds to conclude that the possible future developments will, in fact, occur; and
- (2) the significance those developments would assume for market users given their occurrence.

1.4.11  /1 Examples of *relevant information* include the following:

1.

- (1) where the *qualifying investment* in question is issued by a *company*, or is a *derivative* relating to a *qualifying investment* issued by a *company*, information concerning the business affairs or prospects of the *company* or a related *company*;
- (2) where the *qualifying investment* is a *derivative* relating to a *commodity*, information or events affecting the deliverable supply of the *commodity*, such as, for example, information as to the business operations of major suppliers; and
- (3) information as to official statistics, and fiscal and monetary policy announcements before they are announced.

(C) INFORMATION WHICH A REGULAR USER WOULD REASONABLY EXPECT TO BE DISCLOSED TO OTHER USERS OF THE MARKET (MAR 1.4.4E(4))

1.4.12

/1

Information will only fall within MAR 1.4.4E(4) if it is either:

- (1) information which has to be disclosed in accordance with any legal or regulatory requirement (referred to as “*disclosable information*”); or
- (2) information which is routinely the subject of a public announcement although not subject to any formal disclosure requirement (referred to as “*announceable information*”).

1.4.13

/1

In the case of information relating to possible future developments (MAR 1.4.4E(4) and MAR 1.4.10E), which may lead to a disclosure or an announcement being made, the following additional factor is to be taken into account when determining whether the information is to be treated as *disclosable information* or as *announceable information*, namely whether the information provides, with reasonable certainty, grounds to conclude that the possible future developments will, in fact, occur and accordingly that a disclosure or announcement will, in fact, be made (see example in MAR 1.4.18E).

1.4.14

/1

Examples of *disclosable information* include:

- (1) information which is required to be disseminated under the *Takeover Code* or *SARs* on, or in relation to, *qualifying investments* traded on a *prescribed market*;
- (2) information relating to *officially listed securities* which is required to be disclosed under the *Listing Rules*;
- (3) information which is required to be disclosed to a *prescribed market* under the rules of an *RIE*.

1.4.15

/1

Examples of *announceable information* include:

- (1) information which is to be the subject of official announcement by governments, central monetary or fiscal authorities or *regulatory body* (financial or otherwise, including exchanges);
- (2) changes to published credit ratings of *companies* whose *securities* are *qualifying investments* or *relevant products*; and
- (3) changes to the constituents of a *securities* index, where the *securities* are *qualifying investments* or *relevant products*.

1.4.16

/1

Examples of information that would not be *announceable information* include surveys or research based on information generally available, for example, CBI surveys and MORI opinion polls.

(D) EXAMPLES

1.4.17

/1

An example of *behaviour* which falls within MAR 1.4.4E occurs where a *person deals*, on a *prescribed market*, in the equities of XYZ plc, a *commodity* producer, based on information concerning that *company* which is not generally available, which is *relevant information* and which is *disclosable* or *announceable information* in relation to the equity market. If the information is also *relevant information* in relation to a *commodity futures* contract traded on a *prescribed market*, *dealing* in that *futures* contract based on the information will amount to *market abuse* only if the information is also *disclosable* or *announceable* in relation to the *commodity futures* market. More generally, where information is required to be disclosed to market A, *dealing or arranging deals* in *qualifying investments* traded on A, or in other related products, based on the information will amount to *market abuse* where this occurs prior to the disclosure being made. Where market A is an equity market, related products will include *derivatives* and other *investments* related to the equity in relation to which the disclosure is to be made. Where the information is also relevant to market B, *dealing or arranging deals* in relation to *qualifying investments* traded on market B, or in other related products, based on the information will only amount to *market abuse* where disclosure obligations exist in relation to market B.

1.4.18

/1

An example of information which falls within MAR 1.4.4E(4) arises in connection with the obligation of an *officially listed company* to announce any major new developments in its sphere of activity which may lead to substantial movement in the price of its *listed securities*. This could include, for example, entering into a significant contract with a major supplier. In that case, the obligation arises at the time of entering into the contract and disclosure is required to be made without delay. This falls within the category of information set out in MAR 1.4.4E(3) and MAR 1.4.4E(4). However, subject to meeting the tests in MAR 1.4.12E, the information will fall within MAR 1.4.4E(3) and MAR 1.4.4E(4) at an earlier stage: namely at the time

1.

at which there are grounds to conclude, with reasonable certainty, that the contract will be entered into and that disclosure of the contract will have to be made. Any *dealing* based on that information in the *securities* (or *investments* related to the *securities*) at that earlier stage would amount to *market abuse*.

SAFE HARBOURS

- 1.4.19  /1 MAR 1.4.20C, MAR 1.4.21C, MAR 1.4.24C, MAR 1.4.26C and MAR 1.4.28C each set out descriptions of *behaviour* that does not amount to *market abuse* in that the *behaviour* does not constitute a misuse of information (see MAR 1.4.4E).

(A) DEALING OR ARRANGING REQUIRED FOR OTHER REASONS

- 1.4.20  /1 *Dealing or arranging deals* will not amount to a misuse of information if the *dealing or arranging* was required in order to comply with a legal (including contractual) or regulatory obligation in circumstances where the obligation existed before the *relevant information* was in the *person's* possession.

(B) DEALING OR ARRANGING NOT BASED ON INFORMATION

- 1.4.21  /1 *Dealing or arranging deals* will not amount to a misuse of information if the *person's* possession of *relevant information* that is not generally available did not influence the decision to engage in the *dealing or arranging* in question.
- 1.4.22  /1 It will be presumed for the purposes of MAR 1.4.21C that the *person's* possession of the information in question did not influence his decision to *deal or arrange deals* if:
- (1) the *person* had taken a firm decision to *deal or arrange deals* before the *relevant information* was in the *person's* possession; and
 - (2) the terms on which the *person* had proposed to enter into the transaction(s) did not alter after the receipt of the information.
- 1.4.23  /1 Where a *person* is an *organisation* and where one or more individuals within the *organisation* are in possession of *relevant information*, it will be presumed for the purposes of MAR 1.4.21C that such possession had no influence on the *person's* decision to *deal or arrange deals* if none of the individuals in possession of the information:

- (1) had any involvement in the decision to engage in the *dealing* or *arranging*; or
- (2) behaved in such a way as to influence, directly or indirectly, the decision to engage in the *dealing* or *arranging*; or
- (3) had any contact with those who were involved in the decision to engage in the *dealing* or *arranging* whereby the information could have been transmitted.

1.4.24 P ^{/1} *Relevant information* does not influence the decision to *deal* or *arrange deals* if:

- (1) the information in question was held behind an effective *Chinese wall* and the individual or individuals who *dealt* or *arranged deals* or were on the other side of the *Chinese wall* (see further *COB 2.4*); or
- (2) arrangements equivalent to effective *Chinese walls* had been established and maintained in respect of the information, and the individuals who *dealt* or *arranged deals* did not, therefore, have access to the *relevant information*.

1.4.25 G ^{/1} See also *MAR 1.7.3E(2)* which discusses a further safe harbour in relation to *Chinese walls*.

(C) TRADING INFORMATION

1.4.26 P ^{/1} *Dealing* or *arranging deals* will not amount to a misuse of information solely because it is based on information as to that *person's* intention, or any other *person's* intention, to *deal* or *arrange deals* in relation to any *qualifying investment*, or information concerning transactions that have taken place. However, this safe harbour does not include *dealing* or *arranging deals*:

- (1) based on information as to a possible *takeover bid*;
- (2) based on information relating to new *offers, issues, placements* or other primary market activity.

1.4.27 G ^{/1} While *dealing* or *arranging deals* which is based on trading information will not constitute *market abuse*, it may constitute a breach of *COB 7.4.3R* (*Dealing fairly and in due turn*) or *rules* in *COB 7.13* (*Personal account dealing*) applicable to *firms*. Specifically, *MAR 1.4.26C* does not legitimise the front running of customer orders.

(D) FACILITATION OF TAKEOVER BIDS AND OTHER MARKET OPERATIONS

1.4.28 P ^{/1} *Dealing* or *arranging deals* will not amount to a misuse of information if it is engaged in by a *person* (or someone acting for him) or by another person acting in concert with him in circumstances where:

1.

- (1) the *dealing* or *arranging deals* was:
 - (a) in connection with the acquisition or disposal of an *equity* or *non-equity stake* in a *company*;
 - (b) engaged in for the sole purpose (see *MAR 1.4.30E*) of making the acquisition or disposal; or
 - (c) where engaged in by a concert party of a person making or potentially making an acquisition or disposal for the sole benefit of that person; and
- (2) the information in question consists of one or more of the following matters:
 - (a) that *investments* of a particular kind have been or are to be acquired or disposed of, or that their acquisition or disposal is under consideration or the subject of negotiation;
 - (b) that *investments* of a particular kind have not been or are not to be acquired or disposed of;
 - (c) the number of *investments* acquired or disposed of, or to be acquired or disposed of, or whose acquisition or disposal is under consideration or the subject of negotiation;
 - (d) the price (or range of prices) at which *investments* have been, or are to be, acquired or disposed of, or the price (or range of prices) at which the *investments* whose acquisition or disposal is under consideration, or the subject of negotiation, may be acquired or disposed of;
 - (e) the identity of the *persons* involved, or likely to be involved, in any capacity in an acquisition or disposal;
 - (f) in the case of a takeover bid any information legitimately obtained by the bidder in relation to the target company.

1.4.29

¹

For example, in the context of a takeover bid the following instances of *dealing* or *arranging deals* will fall within *MAR 1.4.28C*.

- (1) seeking from holders of *securities* irrevocable undertakings or expressions of support to accept an *offer* to acquire those *securities* (or not to accept such an *offer*);
- (2) making arrangements in connection with an issue of *securities* where those *securities* are to be offered as consideration for the takeover *offer* or to be issued in order to fund the takeover *offer*, including making arrangements for the underwriting or placing of those *securities* and any associated hedging arrangements by underwriters or placees;

- (3) making arrangements to offer cash as consideration for the takeover *offer* as an alternative to *securities* consideration.

1.4.30

/1

A *person* should not be prevented from acquiring an *equity* or non-*equity stake* in a *company* with a view to pursuing a *takeover bid* or engaging in other forms of market operations simply because he knew that he would be making a bid, and the knowledge amounted to *relevant information*. For example, a bidder (including a potential bidder), and those who act for him and his associates, may *deal* in the target *company's shares* for the purpose of building a stake in the target *company* or take other steps in connection with a proposed takeover, such as seeking irrevocable undertakings from shareholders or making arrangements for an issue of consideration *shares*. However, this does not mean that a bidder may undertake any other type of transaction in the target *company's shares*, or in other *investments* (for example, *contracts for differences* or *securities* of other *companies*) in relation to which the information is *relevant information*. For example, a bidder will be engaging in *market abuse* if he enters into transactions in *qualifying investments* that provide merely an economic exposure to movements in the price of the target *company's shares*. Similarly, those who act for the bidder will engage in *market abuse* if they *deal* for their own benefit in *qualifying investments* or *relevant products* in respect of which information concerning the proposed bid is *relevant information*. (See MAR 1.8.3G, MAR 1.8.7G(2) and MAR 1.8.8G.)

1.5 False or misleading impressions

INTRODUCTION

1.5.1  Statements in this section to the effect that *behaviour* “amounts to *market abuse*” assume that the test in MAR 1.1.3G(1) has also been met.

1.5.2  Section 118(2)(b) of the *Act* defines *behaviour* giving rise to a false or misleading impression as follows:

“behaviour [which] is likely to give a regular user of the market a false or misleading impression as to the supply of, or demand for, or as to the price or value of, investments of the kind in question”.

1.5.3  *Prescribed markets* provide a mechanism by which the price or value of *investments* may be determined according to the market forces of supply and demand. When market users trade on *prescribed markets* they expect the price or value of *investments* and volumes of trading to reflect the proper operation of market forces rather than the outcome of improper conduct by other market users. Improper conduct which gives market users a false or misleading impression results in market users no longer being able to rely on the prices formed in markets or volumes of trading as a basis for their *investment* decisions. This will undermine confidence in the integrity of the *prescribed market* and overall market activity may decrease and transaction costs may rise, or both, to the detriment of market users, including investors.

ELEMENTS OF THE TEST

1.5.4  In order to fall within the false or misleading impressions test:

- (1) the *behaviour* must be likely to give the *regular user* a false or misleading impression. *Behaviour* will amount to *market abuse* if the *behaviour* engaged in is likely to give rise to, or to give an impression of, a price or value or volume of trading which is materially false or misleading; and

- (2) in order to be likely, there must be a real and not fanciful likelihood that the *behaviour* will have such an effect, although the effect need not be more likely than not. The *behaviour* may, or may be likely to, give rise to more than one effect, including the effect in question.

GENERAL FACTORS

1.5.5

Factors that are to be taken into account in determining whether or not *behaviour* is likely to give the *regular user* a false or misleading impression as to the supply of, or the demand for, or the price or value of a *qualifying investment* or *relevant product* include:

- (1) the experience and knowledge of the users of the market in question;
- (2) the structure of the market, including its reporting, notification and transparency requirements;
- (3) the legal and regulatory requirements of the market concerned and accepted market practices;
- (4) the identity and position of the *person* responsible for the *behaviour* which has been observed (if known); and
- (5) the extent and nature of the visibility or disclosure of the *person's* activity.

RELATIONSHIP WITH DISTORTION

1.5.6

In some circumstances, *behaviour* which falls within these descriptions (see MAR 1.5.7E) may also fall within the descriptions of *behaviour* giving rise to a market distortion (see MAR 1.6).

BEHAVIOUR WHICH AMOUNTS TO MARKET ABUSE

1.5.7

MAR 1.5.8E, MAR 1.5.15E, MAR 1.5.18E and MAR 1.5. 21E each set out descriptions of *behaviour* that amount to *market abuse* in that the *behaviour* gives rise, or is likely to give rise, to a false or misleading impression.

(A) ARTIFICIAL TRANSACTIONS

1.5.8

Behaviour will constitute *market abuse* where:

1.

- (1) a *person* enters into a transaction or series of transactions in a *qualifying investment* or *relevant product*; and
- (2) the principal effect of the transaction or transactions will be, or will be likely to be, to inflate, maintain or depress the apparent supply of, or the apparent demand for, or the apparent price or value of a *qualifying investment* or *relevant product* so that a false or misleading impression is likely to be given to the *regular user*; and
- (3) the *person* knows, or could reasonably be expected to know, that the *principal* effect of the transaction or transactions on the market will be, or will be likely to be, as set out at MAR 1.5.8E(2);

unless the *regular user* would regard:

- (4) the principal rationale for the transaction in question as a legitimate commercial rationale; and
- (5) the way in which the transaction is to be *executed* as proper.

1.5.9

/1

A transaction which creates a false or misleading impression will not normally be considered to have a legitimate commercial rationale where the purpose behind the transaction was to induce others to trade in, or to position or move the price of, a *qualifying investment* or *relevant product*. This need not be the sole purpose for entering into the transaction or transactions, but must be an *actuating purpose*. Equally, transactions will not automatically be considered to have a legitimate commercial rationale simply because the purpose behind the transaction was to make a profit or avoid a loss (whether directly or indirectly).

1.5.10

/1

A transaction will be executed in a proper way where it is executed in a way which takes into account the need for the market as a whole to operate fairly and efficiently. The way in which a transaction was executed would be unlikely to be regarded as proper by the *regular user* where a transaction was executed in a particular way with the purpose of creating a false or misleading impression. In most cases the rules of *prescribed markets* include a requirement that transactions be executed in a proper way (for example, rules on reporting and executing *cross-transactions*). Transactions would not necessarily be considered to have been executed in an improper way simply because the way in which they were executed did not disclose the firm's intentions or positions to the market.

1.5.11

/1

The following factors are to be taken into account when determining whether a *person's behaviour* amounts to *market abuse* as described in MAR 1.5.8E, although the presence of one or more of these factors does not automatically mean the *behaviour* in question amounts to *market abuse*:

- (1) whether the transaction causes or contributes to an increase (or decrease) in the supply of, or the demand for, or the price or value of a *qualifying investment* or *relevant product* and the *person* has an interest in the level of the supply of, or the demand for, or the price or value of the *qualifying investment* or *relevant product*;
- (2) whether the transaction involves the placing of *buy* and *sell* orders at prices higher or lower than the market price, or the placing of *buy* and *sell* orders which increase the volume of trading;
- (3) whether the transaction coincides with a time at or around which the supply of, or the demand for, or the price or value of a *qualifying investment* or *relevant product* is relevant (whether for the market as a whole or the *person* in question) to the calculation of reference prices, settlement prices, and valuations (for example, close of trading, end of quarter);
- (4) whether those involved in the transaction are connected parties;
- (5) whether the transaction causes the market price of the *investment* in question to increase or decrease, following which the market price immediately returns to its previous level;
- (6) whether a *person* places a bid (or offer) which is higher (or lower) than the previous bid (or offer) only to remove the bid (or offer) from the market before it is executed.

1.5.12

/1

A further factor to be taken into account in determining whether the *behaviour* amounts to *market abuse* as described in MAR 1.5.8E is the extent to which the transaction generally either opens a new position, so creating an exposure to market risk, or closes out a position and so removes market risk. This factor, if present, will tend to suggest that the transaction is likely to have a legitimate commercial rationale and the *behaviour* does not amount to *market abuse* as described in MAR 1.5.8E, subject to the way in which the transaction is executed. Examples of transactions which typically have a legitimate commercial rationale are given at MAR 1.5.24C.

1.5.13

/1

A *person* has an interest in a *qualifying investment* or *relevant product* where that *person*:

- (1) may directly (including by holding a short position) or indirectly benefit from alterations in its market price; or
- (2) may be rewarded by, or is otherwise in collusion with or connected with, *persons* who may benefit from alterations in the market price of the *qualifying investment*.

1.5.14

/1

Examples of *behaviour* which might give rise to a false or misleading impression and in respect of which the principal rationale may not be a legitimate commercial rationale include:

1.

- (1) arrangements for the sale or purchase of a *qualifying investment* or *relevant product* (other than on *repo* or on *stock lending* or borrowing terms) whereby there is no change in beneficial interests or market risk, or the transfer of beneficial interest or market risk is only between *persons* who are acting in concert or collusion;
- (2) a transaction or series of transactions that are designed to conceal the ownership of a *qualifying investment* or *relevant product*, so that disclosure requirements are circumvented by the holding of the *qualifying investment* in the name of a colluding party, such that disclosures are misleading in respect of the true underlying holding of the *security*. These transactions are often structured so that market risk remains with the seller. This does not include nominee holdings;
- (3) a fictitious transaction.

(B) DISSEMINATING INFORMATION

1.5.15

Behaviour will constitute *market abuse* where:

- (1) a *person* disseminates information which is, or if true would be, *relevant information*;
- (2) the *person* knows, or could reasonably be expected to know, that the information disseminated is false or misleading; and
- (3) the *person* disseminates the information in order to create a false or misleading impression (this need not be the sole purpose for disseminating the information, but must be an *actuating purpose*).

1.5.16

A factor to be taken into account in determining the purpose of the *person* in question is whether that *person* has an interest in a *qualifying investment* or *relevant product* (see MAR 1.5.13E) to which the information is relevant. This factor, if present, will tend to suggest that the *person* had disseminated the information in order to create a false or misleading impression. That said, the absence of any such interest does not conclusively demonstrate that the *behaviour* does not amount to *market abuse*.

EXAMPLES

1.5.17

The following is an example of disseminating false or misleading information. A *person* posts information on an Internet bulletin board or chat room which contains false or misleading statements about the takeover of a *company* whose *shares* are *qualifying investments*. The *person* knows that the information is false or

PAGE
22

misleading and he has posted the information in order to create a false or misleading impression.

(C) DISSEMINATION OF INFORMATION THROUGH AN ACCEPTED CHANNEL

1.5.18

Behaviour will constitute *market abuse* where:

- (1) a *person* responsible for the submission of the information to an *accepted channel for the dissemination of information* submits information which is, or if true would be, *relevant information* which is likely to give the *regular user* a false or misleading impression as to the supply of, or the demand for, or the price or value of a *qualifying investment* or *relevant product*; and
- (2) the *person* who submits the information has not taken reasonable care to ensure it is not false or misleading.

1.5.19

There are a number of channels through which information relating to *qualifying investments* which are traded on *prescribed markets* is formally disseminated to other market users. Some information is required to be disseminated through one of these channels, for example, under the rules of the *prescribed market* or the *Listing Rules*. *RIEs* also use these channels to disseminate information about trades which have been *executed* on their markets.

1.5.20

The *FSA* recognises the importance of information disseminated through *accepted channels for the dissemination of information*. Users of such information should be able to rely on the accuracy and integrity of information carried through these channels. It is, therefore, appropriate that those who disseminate information through them, for example, the *company* itself, its *financial advisers* or its public relations advisers, take reasonable care to ensure the information is not inaccurate or misleading. Where they do not, and the information is likely to give rise to a false or misleading impression, they will be regarded as engaging in *behaviour* which amounts to *market abuse*.

(D) COURSE OF CONDUCT

1.5.21

Behaviour will constitute *market abuse* where:

- (1) a *person* engages in a course of conduct, the principal effect of which will be, or is likely to be, to give a false or misleading impression to the *regular user* as to the supply of, or the demand for, or the price or value of a *qualifying investment* or *relevant product*; and
- (2) the *person* knows, or could reasonably be expected to know, that the principal effect of the conduct on the market will be, or is likely to be as set out in MAR 1.5.21E(1);

1.

unless the *regular user* would regard:

- (3) the principal rationale for the conduct in question as a legitimate commercial rationale (see MAR 1.5.9E) and
- (4) the way in which the conduct is engaged in as proper (see MAR 1.5.10E)

EXAMPLES

1.5.22

/1

The exact nature of conduct that might give a false or misleading impression will vary according to the characteristics of the market. The following are examples of *behaviour* which might give a false or misleading impression to the *regular user*:

- (1) the movement of physical *commodity* stocks, which might create a misleading impression as to the supply of, or demand for, or price or value of, a *commodity* or the deliverable into a *commodity futures* contract; and
- (2) the movement of an empty cargo ship, which might create a false or misleading impression as to the supply of, or the demand for, or the price or value of a *commodity* or the deliverable into a *commodity futures* contract.

SAFE HARBOURS

1.5.23

/1

MAR 1.5.24C, MAR 1.5.25C, MAR 1.5.27C and MAR 1.5.28C each set out descriptions of *behaviour* that does not amount to *market abuse* in that the *behaviour* does not give rise to a false or misleading impression (see MAR 1.5.4E).

(A) PERMITTED TRANSACTIONS

1.5.24

/1

The following examples of *behaviour* will not give rise to a false or misleading impression even though the conditions described in MAR 1.5.8E(1), MAR 1.5.8E(2) and MAR 1.5.8E(3) are satisfied, provided that the conditions in MAR 1.5.8E(4) and MAR 1.5.8E(5) are also satisfied:

- (1) transactions which effect the taking of a position, or the unwinding of a position taken, so as to take legitimate advantage of:
 - (a) differences in the taxation of income or capital returns generated by *investments* or *commodities* (whether such differences arise solely because of the identity of the *person* entitled to receive such income or capital or otherwise); or

- (b) differences in the prices of *investments* or *commodities* as traded in different locations; or
- (2) transactions which effect the lending or borrowing of *qualifying investments* or *commodities* so as to meet an underlying commercial demand for the *investment* or *commodity*.

(B) REQUIRED REPORTING OR DISCLOSURE OF TRANSACTIONS

1.5.25

P

/1

Making a report or disclosure will not, of itself, give rise to a false or misleading impression if:

- (1) the report or disclosure was made in accordance with the way specified by any applicable legal or regulatory requirement; and
- (2) the report or disclosure was expressly required or expressly permitted by the *rules* or the rules of a *prescribed market* or the rules of the *Takeover Code* or *SARs* or by any other applicable statute or regulation or the rules of any competent statutory, governmental or regulatory authority.

1.5.26

G

/1

Examples of disclosure that is expressly required or expressly permitted include *rule 9.10(j)* of the *Listing Rules*, which permits a *company* to delay certain announcements at its discretion, and section 198 of the Companies Act 1985 which requires disclosure of certain interests in *shares*. See also *MAR 1.7.7C* concerning rules of the *Takeover Code* which relate, among other things, to the timing of announcements and *MAR 1.7.3E(3) - 1.7.3E(4)* concerning the *Listing Rules*.

(C) CHINESE WALLS

1.5.27

P

/1

Where a *person* is an *organisation*, that *person* may be aware of information that is not known to all of the individuals within the *organisation*. If an individual within the *organisation* disseminates information which he would know, or could reasonably be expected to know, is false or misleading if he was aware of information held by other individuals within the *organisation*, then that *person* will be taken not to know, or to be reasonably expected to know, that the information disseminated was false or misleading if:

- (1) the other information in question is held behind an effective *Chinese wall* or is restricted using other similarly effective arrangements; and
- (2) there was nothing which was known, or ought reasonably to have been known, to the individual who disseminated the information which should have led him to conclude it was false or misleading.

1.5.28

P

/1

For the purposes of *MAR 1.5.27C*, the fact that the *person* did not know, or could not be reasonably expected to know, that the information was false or misleading can be demonstrated by showing that the

1.

requirements identified in *MAR 1.4.22E* have been satisfied. Where it can be demonstrated that the individual disseminating the information did not know, or could not be reasonably expected to know, that the information was false or misleading, *behaviour* will not fall within the description of *market abuse* set out in *MAR 1.5.15E*.

1.5.29

The circumstances described in *MAR 1.4.23E(1)* to *MAR 1.4.23E(3)* are capable of giving rise to a presumption that the other information in question is held behind an effective *Chinese wall* or is restricted using other similarly effective arrangements.

1.6 Distortion

INTRODUCTION

- 1.6.1**  ^{/1} Statements in this section to the effect that *behaviour* “amounts to *market abuse*” assume that the test in MAR 1.1.3G(1) has also been met.
- 1.6.2**  ^{/1} Section 118(2)(c) of the *Act* defines *behaviour* amounting to distortion as follows:
“a regular user of the market would, or would be likely to, regard the behaviour as behaviour which would, or would be likely to, distort the market in investments of the kind in question.”
- 1.6.3**  ^{/1} The matters in MAR 1.5.3E apply with equal force in connection with *behaviour* which gives rise to market distortion. A *person* may not engage in *behaviour* that interferes with the proper operation of market forces and so with the interplay of proper supply and demand and so has a distorting effect. Distortion undermines confidence in the *prescribed markets* and damages efficiency to the detriment of market users, including investors.

ELEMENTS OF THE TEST

- 1.6.4**  ^{/1} In order to fall within the distortion test:
- (1) the *behaviour* must be such that a *regular user* would, or would be likely to, regard it as *behaviour* which would, or would be likely to, distort the market in the *investment* in question. *Behaviour* will amount to *market abuse* if the *behaviour* engaged in interferes with the proper operation of market forces with the purpose of positioning prices at a distorted level. This need not be the sole purpose of entering into the transaction or transactions, but must be an *actuating purpose*; and
 - (2) in order to be likely, there must be a real and not fanciful likelihood that the *behaviour* will have such an effect, although the effect need not be more likely than not. The *behaviour* may, or may be likely to, give rise to more than one effect, including the effect in question.

1.6.5  /1 It is unlikely that the *behaviour* of market users when trading at times and in sizes most beneficial to them (whether for the purpose of long term *investment* objectives, risk management or short term speculation) and seeking the maximum profit from their *dealings* will of itself amount to distortion. Such *behaviour*, generally speaking, improves the liquidity and efficiency of markets.

1.6.6  /1 It is unlikely that prices in the market which are trading outside their normal range will necessarily be indicative that someone has engaged in *behaviour* with the purpose of positioning prices at a distorted level. High or low prices relative to a trading range can be the result of the proper interplay of supply and demand.

RELATIONSHIP WITH FALSE OR MISLEADING IMPRESSIONS

1.6.7  /1 In some circumstances, *behaviour* which falls within these descriptions (see MAR 1.6.8E) may also fall within the scope of the prohibition against *behaviour* giving rise to a false or misleading impression (see MAR 1.5).

BEHAVIOUR WHICH AMOUNTS TO MARKET ABUSE

1.6.8  /1 MAR 1.6.9E and MAR 1.6.13E each set out descriptions of *behaviour* that amount to *market abuse* in that the *behaviour* gives rise to market distortion.

(A) PRICE POSITIONING

1.6.9  /1 *Behaviour* will constitute *market abuse* where a *person* enters into a transaction, or a series of transactions, with the purpose of positioning the price of a *qualifying investment* or *relevant product* at a distorted level (the purpose need not be the sole purpose for entering into the transaction or transactions, but must be an *actuating purpose*).

1.6.10  /1 It follows that *behaviour* which incorporates a purpose of positioning the price at a distorted level cannot have a legitimate commercial rationale. The Code does not restrict market users trading significant volumes where there is a legitimate purpose for the transaction (for example, index tracking which can involve trading significant volumes on the close) and where the transaction is *executed* in a proper way, that is, a way which takes into account the need for the market as a whole to operate fairly and efficiently. In most cases the rules of *prescribed markets* include a requirement that transactions be *executed* in a proper way (for example, rules on reporting and *executing cross-trades*). Such *behaviour* is unlikely to distort the

market in the *investments* in question, even if it causes the market to move. But trading significant volumes with the purpose of controlling the price of a *qualifying investment* or a *relevant product* and positioning it at a distorted level will amount to *market abuse*.

1.6.11

/1

The following factors will be taken into account when determining whether a *person* has positioned the price of a *qualifying investment* or *relevant product* at a distorted level, although the presence of one or more of these factors does not automatically mean the market has been distorted:

- (1) the extent to which the timing of the *person's* transaction or transactions coincided with a time at or around which the price of the *qualifying investment* or *relevant product* was relevant (whether for the market as a whole and or the *person* in question) to the calculation of reference prices, settlement prices, and valuations (for example, close of trading, end of quarter);
- (2) the extent to which the *person* had a direct or indirect interest in the price or value of the *qualifying investment* or *relevant product*;
- (3) the volume or size of the *person's* transaction or transactions in relation to reasonable expectations of the depth and liquidity of the market at the time in question;
- (4) the extent to which price, rate or *option* volatility movements, and the volatility of these factors for the *investment* in question occur which are outside their normal intra-day, daily, weekly or monthly range;
- (5) the extent to which the *person's* transaction or transactions caused the market price of the *investment* to increase or decrease, following which the market price returned immediately to its previous level; and
- (6) whether a *person* has successively and consistently increased or decreased his bid, offer or the price he has paid for a *qualifying investment* or *relevant product*.

EXAMPLES

1.6.12

/1

The following are examples of price positioning at a distorted level:

- (1) a trader simultaneously *buys* and *sells* the same *investment* (that is, trades with himself) to give the appearance of a legitimate transfer of title or risk (or both) at a price outside the normal trading range for the *investment*. The price of the *investment* is relevant to the calculation of the settlement value of an *option*. He does this while holding a position in the *option*. His purpose

1.

is to position the price of the *investment* at a distorted level, making him a profit or avoiding a loss;

- (2) a trader *buys* a large volume of *commodity futures* (whose price will be relevant to the calculation of the settlement value of a *derivatives* position he holds) just before the close of trading. His purpose is to position the price of the *commodity futures* at a distorted level so as to make a profit from his *derivatives* position;
- (3) a trader holds a short position that will show a profit if a particular *investment*, which is currently a component of an index, falls out of that index. The question of whether the *investment* will fall out of the index depends on the closing price of the *investment*. He places a large *sell* order in this *investment* just before the close of trading. His purpose is to position the price of the *investment* at a distorted level so that the *investment* will drop out of the index so as to make a profit; and
- (4) a fund manager's quarterly performance will improve if the valuation of his portfolio at the end of the quarter in question is higher rather than lower. He places a large order to *buy* relatively illiquid *shares*, which are also components of his portfolio, to be executed at or just before the close. His purpose is to position the price of the *shares* at a distorted level.

(B) ABUSIVE SQUEEZES

1.6.13

/1

Behaviour will constitute *market abuse* where a *person* engages in an abusive squeeze. That is, where a *person* with:

- (1) a significant influence over the supply of, or demand for, or delivery mechanisms for a *qualifying investment* or *relevant product*; and
- (2) a position (directly or indirectly) in an *investment* under which quantities of the *qualifying investment* or *relevant product* in question are deliverable;

engages in *behaviour* with the purpose of positioning at a distorted level the price at which others have to deliver, take delivery or defer delivery to satisfy their obligations (the purpose need not be the sole purpose of entering into the transaction or transactions, but must be an *actuating purpose*).

1.6.14

/1

Squeezes occur relatively frequently when the proper interaction of supply and demand leads to market tightness, but this is not of itself abusive. In addition, having a significant influence over the supply of, or demand for, or delivery mechanisms for an *investment*, for example, through ownership, borrowing or reserving the *investment* in question, is not of itself abusive.

PAGE
30

- 1.6.15**  /1 An abusive squeeze occurs where a *person* has satisfied the conditions in MAR 1.6.13E, which include positioning the price at a level materially different than the price that would have been determined by the interaction of proper supply and demand at which others have to deliver, take delivery or defer delivery to satisfy their obligations. Abusive squeezes damage liquidity and confidence in *prescribed markets* on a multilateral, not just a bilateral, basis and damage confidence in the delivery mechanisms of *prescribed markets*.
- 1.6.16**  /1 The following factors will be taken into account when determining whether a *person* has engaged in an abusive squeeze. These factors do not impose new obligations on market users. For example, they do not impose an obligation to lend to others where one does not already exist, although *behaviour* is less likely to amount to an abusive squeeze if a *person* is willing to lend the *investment* in question. The factors are as follows:
- (1) the extent to which a *person* is willing to relax his control or other influence in order to help maintain an orderly market, and the price at which he is willing to do so;
 - (2) the extent to which the *person's* activity causes, or risks causing, settlement default by other market users on a multilateral basis and not just a bilateral basis. The more widespread the risk of multilateral settlement default, the more likely that the market has been distorted;
 - (3) the extent to which prices under the delivery mechanisms of the market diverge from the prices for delivery of the *investment* or its equivalent outside those mechanisms. The greater the divergence beyond that to be reasonably expected, the more likely that the market has been distorted; and
 - (4) the extent to which the spot or immediate market compared to the forward market is unusually expensive or inexpensive or the extent to which borrowing rates are unusually expensive or inexpensive.
- 1.6.17**  /1 The effects of an abusive squeeze are likely to be influenced by the extent to which other market users have failed to protect their own interests or fulfil their obligations in a manner consistent with the standards of *behaviour* to be expected of them in that market. The *regular user* is likely to expect other market users to settle their obligations and not to put themselves in a position where, to do so, they have to rely on holders of long positions lending when they may not be inclined to do so and may be under no obligation to do so. For example, where a long position holder has accumulated his position in an open and transparent manner, the *regular user* is likely to expect the short position holders to be aware of the situation and to protect themselves accordingly.

EXAMPLES

1.6.18

/1

The following is an example of an abusive squeeze. A trader with a long position in bond *futures buys* or borrows a large amount of the cheapest to deliver bonds and either refuses to re-lend these bonds or will only lend them to parties he believes will not re-lend to the market. His purpose is to position the price at which those with short positions have to deliver to satisfy their obligations at a materially higher level, making him a profit.

(C) SAFE HARBOURS

1.6.19

/1

Behaviour which complies with the London Metal Exchange's document "Market Aberrations: The Way Forward" published in October 1998, which governs the *behaviour* expected of long position holders, will not amount to *market abuse* in that the *behaviour* will not amount to distortion (see MAR 1.6.4E).

1.7 Statutory Exceptions

1.7.1  /1 The *Act* provides statutory exceptions for two types of *behaviour* in relation to the *market abuse regime*. The first relates to *behaviour* which is described in this Code as not amounting to *market abuse* (see MAR 1.1.10G). The second relates to *behaviour* which conforms with an *FSA rule* where that *rule* includes a provision to the effect that *behaviour* conforming with that *rule* does not amount to *market abuse* (section 118(8) of the *Act*). In the Code, specific instances of both these exceptions are referred to as ‘safe harbours’. In addition, the *Act* states that information which can be obtained by research or analysis is to be regarded as generally available (section 118(7) of the *Act*) (see MAR 1.4.5E).

1.7.2  /1 *Behaviour* will be regarded as conforming with an *FSA rule* only if it is required or expressly permitted by that *rule*. In order to fall within this safe harbour, there must be a specific *rule* that either requires or expressly permits a *person* to engage in the *behaviour* in question.

FSA RULES

1.7.3  /1 The *FSA rules* which contain a provision to the effect that *behaviour* conforming with that *rule* does not amount to *market abuse* (section 118(8) of the *Act*) are:

- (1) the *price stabilising rules*; (MAR 2; see MAR 2.1.1R(2));
- (2) a *rule* relating to *Chinese walls* (COB 2.4.4R(1)); see COB 2.4.4R(4) and see also MAR 1.4.21C and MAR 1.5.27C;
- (3) those parts of the *Listing Rules* which relate to the timing, dissemination or availability, content and standard of care applicable to a disclosure, announcement, communication or release of information. These are specified in MAR 1 Annex 1G;
- (4) *rule* 15.1(b) of the *Listing Rules* (in relation to *share* buy-backs).

TAKEOVER CODE AND SARs

- 1.7.4  /1 The FSA exercises in MAR 1.7.7C - MAR 1.7.8C, with the approval of the Treasury, the powers conferred by section 120 of the *Act* (Provisions included in the Authority's code by reference to the City Code), save that any reference made to the SARs is made under section 119 of the *Act* and therefore does not require the approval of the Treasury.
- 1.7.5  /1 These safe harbours apply in relation to *behaviour* likely to give rise to a false or misleading impression as described in MAR 1.5, and *behaviour* which would, or would be likely to, give rise to distortion as described in MAR 1.6, but not in relation to *behaviour* based on the misuse of information as described in MAR 1.4.
- 1.7.6  /1 The FSA is satisfied that the remainder of the *Takeover Code* and SARs do not permit or require *behaviour* which amounts to *market abuse*. Much of the *Takeover Code* and the SARs is not directed specifically at the types of *behaviour* prohibited by the *Act*; for example, many provisions are directed at ensuring that an *offer* or stakebuilding is conducted within an orderly framework or that shareholders in a *company* are treated similarly. Other provisions, such as the rules dealing with the specific content of *offeree* and *offeror* documents, are encompassed within the general content standard in Rule 23 of the *Takeover Code* and have not, therefore, been given a specific safe harbour.
- 1.7.7  /1 *Behaviour* conforming with any of the rules of the *Takeover Code* or SARs in relation to the timing, dissemination or availability, content and standard of care applicable to a disclosure, announcement, communication or release of information, and which rules are specified in MAR 1 Annex 2G, does not of itself amount to *market abuse* in that the *behaviour* does not give rise to a false or misleading impression (MAR 1.5.4E) or distortion (MAR 1.6.4E) in so far as the *behaviour* is expressly required or expressly permitted by the rule in question, but this is subject to MAR 1.7.10E.
- 1.7.8  /1 *Behaviour* conforming with Rule 4.2 of the *Takeover Code* (in relation to restrictions on *dealings* by *offeror* and concert parties) does not of itself amount to *market abuse* in that the *behaviour* does not give rise to a false or misleading impression (MAR 1.5.4E) or distortion (MAR 1.6.4E) in so far as the *behaviour* is expressly required or expressly permitted by that rule, but this is subject to MAR 1.7.10E.
- 1.7.9  /1 An example of how MAR 1.7.7C is intended to work may assist. If the rule in question in the *Takeover Code* is about timing of an announcement, then the protection of MAR 1.7.7C is conferred on the *behaviour* in so far as timing is relevant. However, the method of dissemination, the content and the standard of care will not be protected unless they are respectively in compliance with relevant provisions of the *Takeover Code* or SARs relating to dissemination, content and standard of care.

- 1.7.10**  /1 MAR 1.7.7C and MAR 1.7.8C do not apply in any case where the *behaviour* which conforms with the particular rule of the *Takeover Code* is nonetheless in breach of any General Principle set out at Section B of the *Takeover Code* which is relevant to that rule.
- 1.7.11**  /1 In applying MAR 1.7.7C, the notes for the time being associated with the rules identified in the *Takeover Code* are treated as part of the relevant rule.
- 1.7.12**  /1 Certain provisions of the *Takeover Code* and of the SARs restrict the commercial freedom of a *person* by, for example, restricting the speed at which *shares* can be acquired. However, *behaviour* in compliance with such provisions will not be regarded as giving a false or misleading impression, as such restrictions will be taken into account in assessing whether *behaviour* falls below the standard reasonably to be expected.
- 1.7.13**  /1 In cases where none of the safe harbours in MAR 1.7.7C to MAR 1.7.8C apply, the *regular user* may not necessarily consider that complying with applicable requirements of the *Takeover Code* or the SARs will be sufficient in and of itself to demonstrate that *behaviour* does not amount to *market abuse*. An example may help to explain this. If, for example, a *person* were to comply with Rule 1 of the SARs in building a stake, but his decision to build the stake was based on *relevant information* and none of the safe harbours in MAR 1.4 applied, that *person's behaviour* would be likely to amount to *market abuse*. Nevertheless, the question whether a *person* has complied with relevant provisions of the *Takeover Code* and SARs which do not give a safe harbour may be relevant to a *regular user's* assessment of whether or not that *person's behaviour* has fallen below reasonably expected standards.

1.8 Requiring or encouraging

- 1.8.1** **G**_{/1} Section 123(1)(b) of the *Act* (Power to impose penalties) gives the *FSA* the power to impose a penalty on a *person*, “A”, if it is satisfied that A, “by taking or refraining from taking any action has required or encouraged another person or persons to engage in behaviour which, if engaged in by A, would amount to market abuse”.
- 1.8.2** **G**_{/1} For the purposes of section 123(1)(b), it must be shown:
- (1) that the *behaviour* would have amounted to *market abuse* if carried out by the *person* who *requires or encourages* (to which hypothetical situation the principles set out in this Code will be applied); and
 - (2) that the *person*, by action or inaction, *required or encouraged* another to engage in the *behaviour* in question.
- It is not necessary to show that the *person* who *requires or encourages* has benefited from the action of the *person* who is *required or encouraged*.
- 1.8.3** **G**_{/1} There are many ways in which a *person*, A, may, by taking or refraining from taking any action, *require or encourage* another *person*, B, to engage in *behaviour* which, if engaged in by A, would amount to *market abuse*. Some examples of *behaviour* that might fall within the scope of 123(1)(b) are as follows:
- (1) where a *director* of a *company*, while in possession of information which is both *relevant information* and disclosable *information* (other than trading information) and which is not generally available to market users, instructs an *employee* of that *company* to *deal in qualifying investments* or *relevant products* in respect of which the information is *relevant* and *disclosable information*;
 - (2) where A recommends or advises B to engage in *behaviour* which, if engaged in by A, would amount to *market abuse*.
- 1.8.4** **G**_{/1} Whether a *person’s* taking or refraining from taking action might be regarded as *requiring or encouraging* others will depend on circumstances such as acceptable market practices, the experience, level of skill and standard of knowledge of the *person* concerned, and the control or influence the *person* has in relation to the *person* who engages in the *behaviour* in question.
- 1.8.5** **G**_{/1} However, early or selective disclosure of information which a *regular user* would expect market users to have will generally be presumed to constitute *requiring or encouraging* unless there is a legitimate purpose for making the disclosure, for example, as permitted or required by the rules of a *prescribed market*, the *rules* of the *FSA*, or the rules of the *Takeover Code*. Any such disclosure should be accompanied by a statement at or before the time the information is passed that the information is given in confidence and that the recipient should not base any

behaviour in relation to the *qualifying investment* or *relevant product* which would amount to *market abuse* on the information until after the information is made generally available. Such a statement may be incorporated in the express or implied terms of any contract governing the relationship between the *persons* making and receiving the disclosure. Some examples of disclosure for a legitimate purpose are set out in MAR 1.8.6G.

1.8.6

G
/1

The FSA will not regard a *person* as *requiring or encouraging* others to *deal* if he passes information which is *relevant information* and not generally available to:

- (1) his *employees* (or, where appropriate, his fellow *employees* or *employees* of a group or associated *company*) for the purpose of enabling them to perform their functions in circumstances where the possession of the information in question is necessary for the proper performance of those functions; or
- (2) his professional advisers, and or the professional advisers of any *persons* involved or who may be involved in any transaction or *takeover bid* with or involving him, for the purpose of obtaining advice; or
- (3) any *person* with whom he is negotiating, or intends to negotiate, any commercial, financial or *investment* transaction (including prospective underwriters or placees of *securities*) for the purpose of facilitating the proposed transaction; or
- (4) any *person* from whom he is seeking or intends to seek an irrevocable commitment or expression of support in relation to an *offer* which is subject to the *Takeover Code*, for the purpose of obtaining that commitment or expression of support; or
- (5) representatives of his *employees* or trade unions acting on their behalf in fulfilment of a legal obligation; or
- (6) any government department, the Bank of England, the Competition Commission, the *Takeover Panel* or any other statutory or *regulatory body* or authority for the purposes of fulfilling a legal or regulatory obligation or otherwise in connection with the performance of the functions of the body to which the information has been passed.

1.8.7

G
/1

In the context of a *takeover bid* (see MAR 1.4.28C - MAR 1.4.30E), a *person*, A, will not be regarded as having *required or encouraged* another *person*, B, to engage in *behaviour* amounting to *market abuse* in circumstances where:

- (1) A is an adviser to B, and B is considering the acquisition or disposal of an *equity* or *non-equity stake*; and
- (2) A advises B to acquire or dispose of an *equity* or *non-equity stake* in the target *company* for the purposes and in the manner specified in MAR 1.4.28C.

1.8.8

G
/1

Where the originator of the transaction appears to have engaged in *market abuse* and, in the course of doing so, has acted through an intermediary, the intermediary's *behaviour* will not amount to either *requiring or encouraging* or *market abuse* unless the intermediary knew or ought reasonably to have known that the originator was engaging in *market abuse*.

1.8.9

G
/1

There are circumstances where the FSA will regard a *person* as *requiring or encouraging*: for example, where a *person* who has relevant and *disclosable information* about a *company* which is not yet generally available to other market

1.

1.8.10

G
/1

users, advises or encourages another to acquire *shares* in that *company*, unless *guidance* suggests that this is acceptable (see for example, MAR 1.8.7G).

A *director* of a *company* or relevant employee (as defined in the *Model Code*) will not be regarded as having *required or encouraged* another *person* to engage in *behaviour* amounting to *market abuse* where the *director* or relevant employee acts in compliance with the requirements in paragraphs 11 and 12 (Dealings by connected parties and investment managers) of the *Model Code*.

1.9 Relationship with criminal law and other regulatory requirements

- 1.9.1** G_{/1} Nothing in the Code makes lawful or permits any activity that contravenes the criminal law or applicable legal or regulatory requirements. In particular, nothing in this Code modifies or affects any other obligations of *persons* who are bound by the *rules*, the rules of a *prescribed market* or other relevant rules, regulations or codes of conduct or good practice. The FSA's policy on individual *guidance* in Chapter 9 of the Supervision manual (*SUP 9*) is relevant to a person seeking *guidance* on the Code.
- 1.9.2** G_{/1} *Persons* will, therefore, need to ensure that, even if their *behaviour* does not amount to *market abuse*, it does not breach:
- (1) any applicable criminal law, for example the *insider dealing* provisions of the Criminal Justice Act 1993 or the provisions relating to misleading statements and practices in section 397 of the *Act*; or
 - (2) any applicable *rules*, for example *Principle 5* of the *Principles for Businesses (PRIN)*, the *Conduct of Business sourcebook (COB)*, and the *Statements of Principle and Code of Practice for Approved Persons (APER)*; or
 - (3) any other legal or regulatory requirements to which they are subject, including the rules and regulations of *RIEs*, the provisions of the *Takeover Code* and the *SARs*, the *Companies Acts*, overseas rules and regulatory requirements.
- 1.9.3** G_{/1} *Principle 5* requires a *firm* to observe proper standards of market conduct. *APER 4.3.1P* requires *approved persons* to observe proper standards of market conduct in carrying out their *controlled function*. There is, therefore, some degree of overlap between *Principle 5* and the *market abuse regime*, and between *APER 4.3.1P* and the *market abuse regime*. However, there are some important differences:
- (1) *Principle 5* and *APER 4.3.1P* apply only to *authorised persons* and to *approved persons*, respectively, whereas the *market abuse regime* applies to all *persons*.
 - (2) the *market abuse regime* applies only to *behaviour* which occurs in relation to *qualifying investments* traded on a *prescribed market*. *Principle 5* applies, in respect of *authorised persons*, in relation to activities wherever conducted, if the activities have or might have a negative effect on confidence in the financial system, and otherwise broadly in relation to activities carried on in the *United Kingdom*. *APER 4.3.1P* applies to the activities of *approved persons* in carrying out their *controlled function* wherever they occur.
 - (3) *Principle 5* and *APER 4.3.1P* are broader in scope than the *market abuse regime*. *Principle 5* and *APER 4.3.1P* are directed generally at all *behaviour* which may fall short of proper standards of market conduct. Accordingly, *behaviour* may fall short of proper standards of market conduct, and therefore

1.

breach *Principle 5* and *APER 4.3.1P*, even though such *behaviour* does not constitute *market abuse*.

1.10 Statement of policy on penalties

1.10.1

G
/1

Section 124 of the *Act* requires the *FSA* to publish a statement of its policy with respect to the imposition and amount of penalties in cases of *market abuse* under section 123 of the *Act*. This statement must include an indication of the circumstances in which the *FSA* is to be expected to regard a *person* as having a reasonable belief that his *behaviour* did not amount to *market abuse* or having taken reasonable precautions and exercised due diligence to avoid engaging in *market abuse*. This statement is contained in *ENF* 14.

1.11 The scope of the market abuse regime

PRESCRIBED MARKETS AND QUALIFYING INVESTMENTS

1.11.1 G_{/1} Section 118(1) of the *Act* defines *market abuse* as *behaviour* which amongst other things:

“occurs in relation to qualifying investments traded on a market to which this section applies”

1.11.2 G_{/1} Section 118(3) allows the Treasury to prescribe markets and *qualifying investments*. This is the purpose of the Financial Services and Markets Act 2000 (Prescribed markets and Qualifying investments) Order 2001. This Order, when read in conjunction with the *Act*, makes certain kinds of *investment* “traded on” *prescribed markets qualifying investments*. Treasury has prescribed all markets established under the rules of a *UK RIE* as markets to which section 118 applies. The following is a list of *UK RIEs* as at 31 May 2001:

COREDEAL Limited

The International Petroleum Exchange of London Limited

Jiway Limited

LIFFE Administration and Management

The London Metal Exchange Limited

London Stock Exchange plc

OM London Exchange Limited

virt-x plc

1.11.3 G_{/1} In the majority of cases, there will be no dispute that an *investment* is “traded on” a *prescribed market*. However, in a small number of cases, for example, where an *investment* has traded in the past but not recently, and where an *investment* has not yet started trading, the answer may be less obvious. To avoid any doubt, the following *investments* would be “traded on” a *prescribed market*:

- (1) *investments* which have not yet traded subject to the rules of a *prescribed market* from the point they start trading subject to the rules of a *prescribed market* (including the first trade);
- (2) *investments* which are currently trading subject to the rules of a *prescribed market*; and

(3) *investments* which have traded in the past and can still be traded subject to the rules of a *prescribed market*.

1.11.4

G
/1

The fact that *behaviour* has occurred in relation to an *investment* “traded on” a *prescribed market* is a necessary condition for *market abuse* to have occurred but it is not a sufficient condition. In addition, the *behaviour* must, among other things, satisfy one or more of the three conditions identified in section 118(2). It is difficult to see how these tests could be satisfied where there is no ongoing market on the *prescribed market* in the *qualifying investment*. If there is no ongoing market for a *qualifying investment* on a *prescribed market*, market participants are unlikely to rely on the *prescribed market* for price discovery or price formation. Equally, any trading in such a *qualifying investment* that is not associated with the *prescribed market* is unlikely to damage confidence in the *prescribed market*. The question of whether there is an ongoing market will depend on a number of factors, including how recently and in what volumes the *qualifying investment* has traded. The importance of these factors is likely to vary from market to market.

1.11.5

G
/1

An example shows how this *guidance* might be applied. An *investment* has not traded for a long time or only in insignificant volumes but it can still be traded subject to the rules of a *prescribed market*. The *investment* will be “traded on” a *prescribed market* for the purposes of the regime (MAR 1.11.3G). There will probably be no ongoing market in this *investment* since it has not traded for a long time or only in insignificant volumes. For that reason, *behaviour* in this *investment* is unlikely to amount to *market abuse* (MAR 1.11.4G).

BEHAVIOUR OCCURRING IN RELATION TO QUALIFYING INVESTMENTS

1.11.6

E
/1

Section 118(1)(a) of the *Act* requires that, in order to amount to *market abuse*, *behaviour* must occur in relation to *qualifying investments* traded on a market to which the section applies. According to section 118(6) of the *Act*:

”the behaviour which is to be regarded as occurring in relation to qualifying investments includes behaviour which:

(a) occurs in relation to anything which is the subject matter, or whose price or value is expressed by reference to the price or value, of those qualifying investments; or

(b) occurs in relation to investments (whether qualifying or not) whose subject matter is those qualifying investments.”

1.11.7

E
/1

The definition of *behaviour* in relation to a *qualifying investment* in section 118(6) is not exhaustive. However, there must be a clear relationship between the *behaviour* and a *qualifying investment* for the *behaviour* to be regarded as occurring in relation to a *qualifying investment*. Further, where *behaviour* is engaged in for the purpose of abuse in relation to a *qualifying investment*, it may be regarded as having occurred in relation to a *qualifying investment* even though the *behaviour* is not in a *qualifying investment* or *relevant product* (see MAR 1.11.8E).

- 1.11.8**  /1 The statutory definition of *behaviour* which occurs in relation to *qualifying investments* set out at MAR 1.11.6E includes *behaviour* in relation to other *investments* which are not themselves *qualifying investments*, since such *behaviour* can have a damaging effect on confidence in *prescribed markets* and *qualifying investments*. These related *investments* are referred to in this Code as *relevant products*.
- 1.11.9**  /1 *Behaviour* in the following *relevant products* is caught by section 118(6) of the Act:
- (1) anything that is the subject matter of a *qualifying investment*;
 - (2) anything whose price is expressed by reference to the price of a *qualifying investment*;
 - (3) anything whose price is expressed by reference to the value of a *qualifying investment*;
 - (4) anything whose value is expressed by reference to the price of a *qualifying investment*;
 - (5) anything whose value is expressed by reference to the value of a *qualifying investment*;
 - (6) *investments* (whether *qualifying* or not) whose subject matter is a *qualifying investment*.
- 1.11.10**  /1 Something will be the subject matter of an *investment* or a *qualifying investment* where there is a clear (for example, contractual, documented) relationship between the two: for example, the subject matter specified in the contract specification of an exchange-traded *investment*. Contract specifications for exchange-traded *investments* which are physically settled will specify the deliverable product under the contract. Contract specifications for exchange-traded instruments which are cash-settled will specify the subject matter of the contract by reference to which the settlement price is to be calculated. In relation to *OTC investments*, the subject matter of the *investment* will be specified in the accompanying contractual documentation. The following are examples of the application of the element of subject matter:
- (1) the subject matter of the gilt *futures* contract traded on LIFFE (which is a *qualifying investment*) is those gilts which are deliverable under the terms of the contract (which are *investments*). The gilts are therefore *relevant products*;
 - (2) the subject matter of the FTSE Eurotop 100 index *option* traded on LIFFE (which is a *qualifying investment*) is all the individual *shares* which constitute the index (which are *investments*). The *shares* are all therefore *relevant products*;

- (3) the subject matter of an *OTC option* on a basket of *UK shares* (which is an *investment*) traded on a *prescribed market* is *qualifying investments* and the *OTC option* is therefore a *relevant product*.

1.11.11

/1

The following are examples of the price and or value relationship between a *qualifying investment* and a *relevant product*:

- (1) the value of a *spread bet* in relation to a basket of *UK shares* traded on a *prescribed market* is expressed by reference to the price of the *shares* (which are *qualifying investments*) and the *spread bet* is therefore a *relevant product*;
- (2) the price of an *OTC contract* in relation to Brent crude is expressed by reference to the price of the Brent crude *futures contract* traded on the IPE (which is a *qualifying investment*) and the *OTC contract* is therefore a *relevant product*;
- (3) the value of a total return swap in relation to a *UK share* traded on a *prescribed market* is expressed by reference to the value (that is the price and any dividend) of the *share* (which is a *qualifying investment*) and the total return swap is therefore a *relevant product*.

Chapter 2

2

Price Stabilising Rules

2.1 Application

APPLICATION: WHO?

2.1.1

R

/1

- (1) This chapter applies to every *firm*.
- (2) For the purposes of section 118(8) of the *Act*, *behaviour* (whether by a *firm* or not) conforming with the *price stabilising rules* does not amount to *market abuse*.

2.1.2

G

/1

- (1) This chapter is available to any *person*, whether that *person* is a *firm* or not, who wishes to show:
 - (a) that he acted in conformity with the *price stabilising rules* for the purposes of paragraph 5(1) of Schedule 1 to the Criminal Justice Act 1993 (Insider dealing); or
 - (b) that he acted or engaged in conduct in conformity with the *price stabilising rules* for the purposes of section 397(4) or (5)(b) of the *Act* (Misleading statements and practices); or
 - (c) that his *behaviour* conforms with *rules* in accordance with section 118(8) of the *Act* (Market abuse).
- (2) Any *person* concerned with an *offer for cash of securities* might wish to rely on this chapter; there are no legal restrictions on the appointment of *stabilising managers* to whom this chapter may apply. However, the main focus of the chapter is on lead managers when they are contemplating or carrying out an *offer for cash of securities*. Agents appointed by lead managers, on the basis contemplated by this chapter, may also find the chapter especially relevant.

APPLICATION: WHAT?

2.1.3

R

/1

- This chapter applies to an *offer for cash*, that is, an *offer of securities*:
- (1) where the *securities* are *investments* falling within paragraphs 76, 77, 78, 79 or 80 of the *Regulated Activities Order*;
 - (2) where the *offer for cash* is to be, is, or has been, made at a specified price payable in sterling or another currency;
 - (3) where those *securities*:

- (a) have been *admitted to trading* (or are the subject of an application for *admission to trading*) on an exchange or other institution included in MAR 2.1.5R; or
 - (b) are, or may be, traded under the rules of the International Securities Markets Association;
- (4) where the total cost of the *securities* subject to the *offer* at the *offer price* is at least £15,000,000 (or its equivalent in another currency); and
- (5) where the *offer* is public in character and is to be, is, or has been subject of a public announcement.

2.1.4

G
/1

The effect of MAR 2.1.3R is to include both initial public offers and public offers of additional *securities* to rank alongside *securities* already in issue. An offer is likely to be regarded as public in character where it is made in a prospectus. Other offers that may be regarded as public are offers to a section of the public, placements that are not essentially private and distributions. But the use of the word "offer" and the fact that there has to be a *public announcement* of the *offer* shows that a sale, for example by means of a block trade, of *securities* already in issue is not included.

2.1.5

R
/1

Table Exchanges (see MAR 2.1.3R(3))

Application: securities admitted to trading or to be admitted to trading on the following exchanges are within the scope of the price stabilising rules (see MAR 2.1.3R(3)).

A recognised investment exchange

A recognised overseas investment exchange

A regulated market

Other specific exchanges as listed in MAR 2 Ann 1R

APPLICATION: WHERE?

2.1.6

R
/1

This chapter:

- (1) so far as it provides a defence for any *person*, has the same territorial application as the provision which is alleged to have been contravened; and
- (2) in its application to a *firm* for purposes other than those falling within (1), applies to the *firm's* business carried on from an establishment in the *United Kingdom*.

2.1.7

G
/1

There are specific provisions in MAR 2.8 about action for stabilising purposes in conformity with provisions made by certain overseas authorities. Accordingly action by *persons* not present in the *United Kingdom*, but where the action may have an effect in the *United Kingdom*, may have to be assessed in terms of the general provisions in this chapter, or the specific provisions in MAR 2.8.

- 2.1.8** **G**_{/1} The defences to legal or regulatory procedures referred to in *MAR 2.1.6R (1)* and listed at *MAR 2.1.2G (1)* are conferred by *rules* made under section 144 of the *Act* (price stabilising rules); this means that *MAR 2.6* (Management of stabilisation) and *MAR 2.7* (Recording of action taken), which are made under section 138 of the *Act*, and apply only to *authorised persons*, are not relevant for the purposes of such a defence.
- 2.1.9** **R**_{/1} A contravention of the *price stabilising rules* in *MAR 2* does not give rise to a right of action by a *private person* under section 150 of the *Act* (and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action).

2.2 Purpose

2.2.1

G

/1

The purpose of this chapter is to provide *rules* permitting, but also regulating, price support for *offers* of equities and bonds, including new issues such as initial public offers and *offers of securities* of the type and class already traded in the market. It prescribes the circumstances in which the *stabilising manager* and others acting for him are permitted to support the prices of the *relevant securities* offered for a limited period after the *offer*. This is to maintain an orderly initial market in the *securities* offered, and potentially therefore to facilitate new *offers* and reduce the costs to enterprises involved in the making of new *offers* of their *securities*. The *stabilising manager* and his agents are allowed to exert upward pressure on the price in the cash market, by all means permitted by the *price stabilising rules*, including by the purchase of *relevant securities* previously sold short. Under the *rules* in this chapter, there can be only one *stabilising manager* in respect of any particular *offer*.

GENERAL EFFECT OF THE RULES

2.2.2

G

/1

The general effect of this chapter is to enable the *stabilising manager* of an *offer of securities* to enter into the market personally, or through specially appointed agents, to buy or agree to buy *securities* in order to support (though not to suppress) the market price of the *relevant securities* being *offered*. He will, however, be free to do this only if:

- (1) the *stabilising period* is still running;
- (2) he has taken the necessary preliminary steps envisaged by MAR 2.3 and, if applicable, MAR 2.7 (relating to warning the market of the possibility of *stabilising action*, and records of action taken);
- (3) the price is not already false at the start of the *stabilising period* under MAR 2.3.8R; and
- (4) the limits set by MAR 2.5 as to the maximum price at which *stabilising action* may be taken are not exceeded.

2.2.3

R

/1

During the *stabilising period* the *stabilising manager* may do any or all of the following:

- (1) purchase, or agree to purchase, any of the *relevant securities* (or *associated securities*) with a view to supporting the market price of the *relevant securities*; and
- (2) offer or attempt to do anything in (1) with a view to supporting the market price of the *relevant securities*.

2.2.4

R

/1

But the *stabilising manager* will not be able to rely on the *price stabilising rules* if, at the time of the relevant act or omission, he knew or should reasonably have known that:

- (1) the market had not been properly informed in accordance with *MAR 2.3.2R(1)* and (2); or
- (2) proper records are obliged to be but have not been or are not being kept in accordance with *MAR 2.3.2R(3)*; or
- (3) the price of any *associated securities* or of the *relevant securities* was already false at the time when the *offer price* was determined in the circumstances described at *MAR 2.3.8R*.

2.3 Preparation before and restrictions upon stabilising action

2.3.1

G

^{/1}

Before *stabilising action* is taken, the *stabilising manager* is required (under MAR 2.3.2R) to take, or check that others have taken, proper steps to inform the market (and, so far as relevant, the issuer) that *stabilising action* may be taken and (under MAR 2.3.8R) to verify that the price of any *relevant securities* or *associated securities* is not already false. He must also:

- (1) be satisfied (under MAR 2.3.2R) that proper systems have been set up (where required) for the central recording of any *stabilising action*; and
- (2) (under MAR 2.3.9R) not stabilise shares and certificates associated to bonds, loans, debentures, etc, if one is to be convertible into the other but the terms of conversion have not yet been announced.

2.3.2

R

^{/1}

The *stabilising manager* may not take any *stabilising action* in any *relevant securities* or *associated securities* in accordance with this chapter unless he has taken all reasonable steps to satisfy himself that:

- (1) from the beginning of the *introductory period* (or where relevant the period mentioned in MAR 2.3.5E(3)(b)) adequate disclosure is made, in relevant communications issued by or on behalf of the issuer or the *stabilising manager*, of the fact that *stabilising action* may take place in relation to the *offer*;
- (2) any requirement of the relevant exchange (see MAR 2.5.6R note (2)) or other institution on which the *relevant securities* or *associated securities* are or will be traded (see MAR 2.1.3R(3)) to inform it that *stabilising action* in those *securities* may take place during the *stabilising period* has been complied with;
- (3) the *stabilising manager* has established the register required by MAR 2.7.2R(1) (if that paragraph is binding upon him) for recording each *stabilising action* effected by him in the *relevant securities* or *associated securities* and the matters required to be recorded by MAR 2.7.2R(2) in relation to it; and
- (4) where the *offer* relates to an issue of *relevant securities* the issuer has been informed of the existence of the FSA informational guidance (MAR 2 Ann 2G), either in relation to the *offer* in question or to a previous one.

2.3.3

- (1) A *stabilising manager* who is required to comply with MAR 2.3.2R(1) should ensure that the communications there referred to, if they fall within items 1 to 5 of MAR 2.3.4E, contain the words suggested in, or otherwise fairly comply with, any relevant note to that table.
- (2) Compliance with (1) may be relied on as tending to establish compliance with MAR 2.3.2R(1).

2.3.4

Table Communication referring to the offer (see MAR 2.3.2R(1))

Item	Communication	Relevant Notes (See MAR 2.3.5E)
1	Any screen-based statement	1, 2, 3, 5 and 6
2	Press announcement (or other <i>public announcement</i>)	2, 3, 5 and 6
3	Invitation telex (or similar)	2, 5 and 6
4	Preliminary offering circular (or draft prospectus)	4, 5 and 6
5	Final offering circular (or prospectus)	4, 5 and 6

2.3.5

Table Notes to MAR 2.3.4E

(1) Item 1 extends to any statement made by the *stabilising manager* or issuer on screen facilities (whether provided by the *stabilising manager* or not) conveying prices for a purchase or sale of *securities*.

(2) For items 1, 2 and 3, adequate disclosure is given if the communication contains some indication of the fact that the *offer* may be stabilised in accordance with the *price stabilising rules*. The term "stabilisation / FSA" is sufficient for this purpose. During the *introductory period* a reference to the future prospectus or to the prospectus can be used instead if preferred.

(3) Items 1 and 2 apply from the beginning of the shorter of two periods, that is:

(a) the *introductory period*; or

(b) the period beginning 45 days before the day proposed for the issue of the *relevant securities* and ending with the start of the *stabilising period*.

(4) For Items 4 and 5 adequate disclosure is given if the communication contains wording substantially similar to the following:

"In connection with this [issue] [*offer*], [name of *stabilising manager*] [or any *person* acting for him] may over-allot or effect transactions with a view to supporting the market price of [description of *relevant securities* and any *associated securities*] at a level higher than that which might otherwise prevail for a limited period after the issue date. However, there may be no obligation on [name of *stabilising manager*] [or any agent of his] to do this. Such stabilising, if commenced, may be discontinued at any time, and must be brought to an end after a limited period."

(5) Where any communication referred to in items 1 to 5 is not to be issued to or directed at *persons* in the *United Kingdom*, the notice required by those items may be adapted or omitted.

(6) Where any communication referred to in items 1 to 5 is to be issued to or directed at *persons* in the *United Kingdom* and *persons* elsewhere, the notice required by those items may be adapted or omitted so as not to require the *stabilising manager* or any agent of his to commit any breach of any legal rule or requirement in respect of any communication issued to or directed at *persons* outside the *United Kingdom*.

2.3.6

R

/1

The requirement in MAR 2.3.2R (1) to make adequate disclosure in communications does not apply to any communication which is not mentioned in table MAR 2.3.4E.

2.3.7

G

/1

An FSA consumer factsheet has been prepared which explains to potential investors the significance of the fact that stabilisation may take place in the *relevant securities* offered. The factsheet is available on the FSA's website and may in addition be obtained from the FSA by post, free of charge. The *stabilising manager* acting for the issuer should consider drawing attention to the availability of this factsheet in prospectuses which are aimed at *private customers*.

2.3.8

R

/1

- (1) The *stabilising manager* may not take *stabilising action* in any case where:
- (a) there are in existence *associated securities*;
 - (b) at the time when the *offer price* of the *relevant securities* was determined, the market price of the *associated securities* was falsely higher than the true market price; and
 - (c) the *stabilising manager* knew or ought reasonably to have known that the falsity in the market price was attributable in whole or in part to any act or course of conduct on the part of any *person* which was in breach of section 397(2) or (3) of the *Act*.
- (2) The *stabilising manager* may not take *stabilising action* in any case where:
- (a) at the time when the *offer price* of the *relevant securities* was determined, the market price of the *relevant securities* or of rights to them, whether in informal trading or otherwise, was falsely higher than the price which would otherwise have prevailed; and
 - (b) the *stabilising manager* knew or ought reasonably to have known that the falsity in the market price was attributable in whole or in part to any act or course of conduct on the part of any *person* which was in breach of section 397(2) or (3) of the *Act*.

2.3.9

R

/1

The *stabilising manager* may not take *stabilising action* in any case where:

- (1) the *relevant securities* fall within article 77 (instruments creating or acknowledging indebtedness), 78 (Government and public securities) or 79 (instruments giving entitlements to investments) of the *Regulated Activities Order*;
- (2) there are, in relation to those *relevant securities*, *associated securities* falling within article 76 (shares, etc) or 80 (certificates representing certain securities) of the *Regulated Activities Order*, into which those *relevant securities* can be converted or to the purchase of which those *relevant securities* give rights; and
- (3) the terms of the conversion, purchase or subscription have not yet been publicly announced.

2.3.10

G

/1

The general purpose of MAR 2.3.9R is to place a restriction on stabilising bonds convertible into equities, and warrants for equities, in cases where the terms of the conversion or right to purchase have not yet been settled. Prime examples would be a convertible loan stock of a public limited company, but MAR 2.3.9R also

covers similar cases such as government debt instruments which are convertible into shares, for example a privatisation in the *United Kingdom* or overseas.

2.3.11

R

/1

The *stabilising manager* may not take *stabilising action* in any case where:

- (1) he or an *associate* of his has, in connection with the *offer*, an *option* or other right to purchase *relevant securities* from the issuer; and
- (2) that *option* or right may be exercised or relied on after the start of the *introductory period* and during or after the remainder of the *stabilising period*;

unless the existence and principal terms of the *option* or right have been disclosed in the relevant prospectus or offering document or in a *public announcement*.

2.4 Ancillary permitted stabilising action

- 2.4.1** **G** ^{/1} MAR 2.4.2R and 2.4.3R enable the *stabilising manager* to over-allot or go short of *securities*, so as to facilitate his subsequent purchase of them by *stabilising action*; and he may buy or sell on the market in order to close out or liquidate positions established by *stabilising action* or by going short.

PERMITTED ANCILLARY ACTION

- 2.4.2** **R** ^{/1} The *stabilising manager* may, subject to MAR 2.4.3R:
- (1) with a view to supporting the price of the *relevant securities* by action under MAR 2.2.3R:
 - (a) make allotments of a greater number of the *relevant securities* than will be offered; or
 - (b) sell or agree to sell *relevant securities* or *associated securities* so as to establish a short position in them; or
 - (c) achieve a result equivalent to that in (b) by use of *derivatives*; or
 - (2) buy or subscribe for or agree to buy or subscribe for *relevant securities* or *associated securities* in order to close out or liquidate any position established under (1); or
 - (3) sell or agree to sell *relevant securities* or *associated securities* in order to close out or liquidate any position that has been established by *stabilising action*; or
 - (4) achieve a result equivalent to that in (3) by use of *derivatives*; or
 - (5) offer or attempt to do anything permitted by (1)(b) or (c), (2), (3) or (4).

- 2.4.3** **R** ^{/1} MAR 2.4.2R applies only if the *stabilising manager* has reasonable grounds for believing, and does believe, that the requirements in MAR 2.3 have been complied with.

PRICE LIMITS

- 2.4.4 **R**_{/1} *Ancillary action* under MAR 2.4.2R(2) may be taken without regard to the limits on pricing in MAR 2.5.
- 2.4.5 **G**_{/1} Long or short positions can be established either in the cash market or by the use of *derivatives*. The extent to which *derivatives* may be used in *stabilising action* or in *ancillary action* is strictly limited. MAR 2 contemplates the use of *derivatives* only on the “selling” side, that is as permitted *ancillary action*, under MAR 2.4.2R(1)(c) and (4). This is because of the need for market transparency in any purchase transactions and because of the requirements which are applicable to *firms* in MAR 2.7.2R for a single record of *stabilising action* taken.
- 2.4.6 **G**_{/1} MAR 2.4.2R(2) extends to the purchase from the issuer during the *stabilising period*, or shortly after, by exercise of an *option* or other right, of further *securities* not previously allotted.

2.5 Pricing

LIMIT ON PRICING: GENERAL

- 2.5.1** **G**_{/1} The principal purpose of this section is to put an upper limit on the price at which certain *securities* may be stabilised.
- 2.5.2** **G**_{/1} The price limits are broadly similar whether the *stabilising action* is concerned with *relevant securities* or *associated securities* (including call options). However, the price limits do not extend to *debt securities* in the form of bonds, etc., and pricing for them is subject instead to the requirements in MAR 2.2.3R that the *stabilising action* is taken to support the market price.
- 2.5.3** **G**_{/1} The initial *stabilising price* (Price X) cannot exceed the *offer price* (or starting price) (Price Y), and subsequent *stabilising action* must equally be at or below the level of Price X. If there are no sales and purchases which are independent of the *stabilising manager* on both sides on the relevant exchange above Price X, the *stabilising manager* can operate at a price or at prices below Price X, moving up or down in that area as he wishes. But if an independent buyer and seller do a deal on the relevant exchange, at a price (Price Z) between Price X and Price Y, then the *stabilising manager* has a new maximum price (Price Z) instead of Price X.

MAXIMUM PRICES

- 2.5.4** **R**_{/1} (1) No bid may be made or transaction effected in the case of action described in MAR 2.2.3R at a price higher than any relevant price indicated in accordance with MAR 2.5.5R (including any relevant note in MAR 2.5.6R).
- (2) The prohibition in (1) does not apply to *stabilising action* related to *investments* falling within Articles 77 or 78 of the *Regulated Activities Order* (bonds, etc), nor within Article 80 (certificates, etc) that confer rights in respect of any of those *investments*.
- 2.5.5** **R**_{/1} Table Limits on pricing (see MAR 2.5.4R(1))

Time of Action	Column A	Column B	Column C
	<i>Relevant securities (including associated securities which are in all respects uniform with them)</i>	<i>Associated securities (other than associated call options) excluding those in column A</i>	<i>Associated call options</i>
(1) Initial stabilising action	The offer price	The market bid price of the associated securities at the beginning of the stabilising period	The market price of an option at the beginning of the stabilising period
(2) Later, but where there has been a deal at a price above the stabilising price on the relevant exchange	The offer price, or the price at which that deal was done, whichever is the lower	The market bid price in B(1), or the price at which that deal in the associated securities was done, whichever is the lower	The market price in C(1), or the price at which that deal in an option was done, whichever is the lower
(3) Later, but where there has been no deal in (2)	The offer price, or the initial stabilising price, whichever is the lower	The market bid price in B(1), or the initial stabilising price for the associated securities, whichever is the lower	The market price in C(1), or the initial stabilising price of the option, whichever is the lower

2.5.6

R

Table

Pricing Notes (see MAR 2.5.5R)

/1

- (1) Deals done. For the purposes of *MAR 2.5.5R(2)*, a deal done by or on the instructions of the *stabilising manager* does not count.
- (2) Relevant Exchange. For the purposes of *MAR 2.3.2R(2)*, *MAR 2.5.5R(2)* and *MAR 2.5.6R* the relevant exchange means the investment exchange which the *stabilising manager* reasonably believes to be the principal investment exchange on which those *securities*, or as the case may be *options*, are dealt in at the time of the transaction.
- (3) Convertible bonds, etc. For the purposes of *MAR 2.5.5R* and *MAR 2.5.6R* any investment falling within Article 76 and also within Article 77 or 79 of the *Regulated Activities Order* shall be treated as if it fell only within Article 76.
- (4) References in column B of *MAR 2.5.5R* to *associated securities* do not include call *options*.
- (5) Currency fluctuations. Where the price of any *relevant securities* or associated securities on the relevant exchange is in a currency other than the currency of the price of the *securities* to be stabilised, stabilising bids may be made or transactions effected at a price that reflects any change in the relevant rate of exchange; but this does not permit *stabilising action*, in column A of *MAR 2.5.5R*, at a price above the equivalent, in the other currency, of the *offer price* in the currency on the relevant exchange.
- (6) New *securities*: Where there is no market bid price for any *associated securities* (including *associated call options*) at the beginning of the *stabilising period* because those *securities* or *options* are not in existence or capable of being traded at that time, *MAR 2.5.5R* shall be read as if references to the market bid price of the *associated securities* or *options* at the beginning of the *stabilising period* were a reference to the first market bid price of the *associated securities* or *options* during the *stabilising period* of which the *stabilising manager* is, or reasonably should be, aware.

2.6 Management of stabilisation

- 2.6.1** **G**^{/1} The purpose of this section and of section 2.7 is to provide an orderly structure for the management of *stabilising action* even where it is to be carried out on a devolved basis, whether in the *United Kingdom* or elsewhere. The central management has to be in the hands of one *stabilising manager*. If authorised in the *United Kingdom*, the *stabilising manager* has to set up, operate and be legally responsible for a single stabilisation register (MAR 2.7.2R) which must be kept in the *United Kingdom* or be capable of being inspected by the relevant regulators. These sections accordingly build on the base requirement for *authorised persons* at MAR 2.3.2R(3).
- 2.6.2** **R**^{/1} (1) This section, and section MAR 2.7, apply only where the *stabilising manager* is a *firm* or is employed by a *firm*.
- (2) Where the *stabilising manager* is employed by a *firm*, this section and MAR 2.7 shall have effect as if the obligations imposed on the *stabilising manager* were imposed on the *firm*.
- 2.6.3** **R**^{/1} No bid may be made or transaction effected in the course of stabilising action unless the stabilising manager:
- (1) has established the relevant register in compliance with MAR 2.7.2R; and
- (2) is in compliance with the registration requirements in MAR 2.7.2R in respect of all earlier transactions effected in the course of *stabilising action* in connection with the *offer* in question.
- 2.6.4** **R**^{/1} No bid may be made or transaction effected in the course of *stabilising action* except by:
- (1) the *stabilising manager* himself; or
- (2) a *person* appointed by the *stabilising manager* to act as his agent on terms which:
- (a) make the agent responsible to the *stabilising manager*; and
- (b) make the *stabilising manager* as responsible to others for the acts or omissions of the agent as if they had been done or omitted by the *stabilising manager*.

2.6.5

R

/1

- (1) The *stabilising manager* may not during the *stabilising period* enter into a transaction as principal in *relevant securities* or *associated securities* with any agent of his appointed under MAR 2.6.4R.
- (2) Paragraph (1) does not apply if, at the time of the transaction, neither the *stabilising manager* nor the agent knew or could reasonably have been expected to know the identity of his counterparty.

2.7 Recording of action taken

2.7.1

G

For the application of this section see MAR 2.6.2R.

2.7.2

R

- (1) The *stabilising manager* must establish and keep a register in respect of each *offer of securities* covered by this chapter.
- (2) He must ensure that it contains, either in real time or updated overnight (from *business day* to *business day*):
- (a) the names of all agents appointed under MAR 2.6.4R, and details of the terms of the appointment of each;
 - (b) the general parameters (including the initial *stabilising price*) laid down by the *stabilising manager* for his agents and the date and time of their communication, variation or revocation;
 - (c) each transaction effected in the course of *stabilising action* including:
 - (i) the type of *security*;
 - (ii) the unit price;
 - (iii) the size;
 - (iv) the date and time; and
 - (v) details of the counterparty;
 - (d) details of the allotment of *relevant securities* (allottee and amount allotted); and
 - (e) details (so far as known to the *stabilising manager*) of any deal which “counts” as a deal at a price above the then *stabilising price* for the purposes of MAR 2.5.5R(2) (pricing after independent deals).
- (3) The register must be kept in the *United Kingdom*, or else be capable of being brought to, or reconstituted in, the *United Kingdom* within 48 hours of a request for access from anyone entitled to inspect it.

2.7.3

R
/1

- (4) If the *register* is not kept in English, it must be capable of being converted into English within the 48 hour period mentioned in (3).
- (1) During the three months from the end of the *stabilising period*, the *stabilising manager* must permit the issuer of the *securities*, on any *business day*, to inspect that part of the register which is kept under MAR 2.7.2R (2) (c) (i) to (iv).
- (2) The obligation in (1) arises only if the *offer* related to an issue of *relevant securities*.

2.7.4

R
/1

The register must be retained for a period of at least three years from the date of the end of the *stabilising period*.

2.8 Overseas Stabilisation

2.8.1

G

/1

Under sections 144(3) and (6) of the *Act*, the *FSA* may make *rules* which confer a “safe harbour” in respect of one type of market manipulation (section 397(3)) on *persons* who act in conformity with specified provisions of foreign laws. Under that power, the *FSA* “specifies” certain legislative provisions having effect in the United States of America and in Japan. It should be noted that conformity with these provisions may assist in proceedings under section 397(3) but not in proceedings under section 397(2) nor in proceedings under Part V of the Criminal Justice Act 1993 (insider dealing). This is because of the wording of section 144(3).

2.8.2

R

/1

(1) A person who, in any place outside the *United Kingdom*, acts or engages in conduct:

- (a) for the purposes of stabilising the price of *investments*; and
- (b) in conformity with the provisions specified in (2) or, as the case may be, in (3); and
- (c) in relation to an offer which is governed by the law of a country (or a state or territory in a country) so specified;

is to be treated for the purposes of section 397(5) of the *Act* (misleading statements and practices) as acting or engaging in conduct for that purpose and in conformity with the *price stabilising rules*.

(2) In relation to the United States of America, the specified provisions are:

Regulation M made by the *Securities and Exchange Commission* (17 CFR 242, # 100-105).

(3) In relation to Japan, the specified provisions are:

- (a) The Securities and Exchange Law of Japan, (Law No 25, April 13 1948), Article 159, paragraphs 3 and 4;
- (b) Cabinet Orders for the Enforcement of the Securities and Exchange Law of Japan (Cabinet Order 321, September 30, 1965), Articles 20 to 26;

- (c) Ministerial Ordinance concerning the Registration of Stabilisation Trading (Ordinance of the Ministry of Finance No 43, June 14, 1971);
 - (d) Ministerial Ordinance concerning rules and otherwise governing the soundness of securities companies (Ordinance of the Ministry of Finance, No 60, November 5, 1965), Article 2.
- (4) A *person* who is treated under (1) as acting or engaging in conduct in conformity with the *price stabilising rules* is also to be treated to an equivalent extent as so acting or engaging for the purposes of MAR 2.1.1R (2) above, and of Part XIV (Disciplinary measures) and Part XXV (Injunctions and Restitution) of the *Act*.
- (5) The provisions in (2) and (3) are specified as they have effect from time to time, so long as this paragraph has effect.

2.8.3

G

/1

- (1) The effect of MAR 2.8.2R (4) is to confer a defence in the following classes of cases:
- (a) proceedings under Part VIII of the *Act* in cases of *market abuse*;
 - (b) disciplinary proceedings under Part XIV of the *Act* in cases of a breach of other *price stabilising rules*;
 - (c) proceedings under Part XXV of the *Act* (Injunctions and Restitution) in relation to *market abuse* or a breach of other *price stabilising rules*.
- (2) The *FSA* and, if necessary, the *Financial Services and Markets Tribunal* and the court will need, in such cases, to consider whether, and if so how, the overseas stabilising rule has been complied with or broken in relation to conduct of the kind which otherwise would be proscribed under section 397(3) of the *Act*.

2.8.4

G

/1

The provisions in this section are separate and distinct from other provisions in these *rules* which may be relevant to overseas stabilisation whether by *persons* who are authorised in the *United Kingdom* or by other *persons*. In particular, MAR 2.6.4R enables overseas agents appointed by a *UK* authorised *stabilising manager* to obtain the benefit of the *price stabilising rules*.

MAR 2 Ann 2G

1 Table Information for issuers on stabilisation (see MAR 2.3.2R (4))

1.	Introduction
1.1	This guidance has been produced by the FSA to help issuers identify the information they might seek when engaging underwriters and <i>stabilising managers</i> to manage their new offers for them. <i>Stabilising managers</i> are encouraged by the <i>price stabilising rules</i> to alert issuers to the existence of this guidance.
2	When stabilisation can be used
2.1	It is a common market practice in the <i>United Kingdom</i> for <i>stabilising managers</i> of both debt and equity issues to reserve the right to stabilise offers by including in the offer documentation wording which gives notice that the issue may be stabilised. <i>FSA rules</i> allow the <i>stabilising manager</i> /underwriter to stabilise a new offer, which means that it may purchase securities to support the price: <ol style="list-style-type: none"> 1 where the <i>offer</i> is for cash; 2 where the <i>offer</i> is public and is subject to the rules of an exchange specified under the <i>price stabilising rules</i>; and 3 only for a limited period, (the <i>stabilising period</i>).
3	Common market practice when undertaking stabilisation
3.1	<i>Stabilising action</i> involves supporting the price of <i>securities</i> made in public offers. The <i>stabilising manager</i> undertakes this action by purchasing or agreeing to purchase the relevant <i>securities</i> . Supporting a price may potentially lead to distortions of price signals. For the <i>stabilising manager</i> to obtain the ‘safe harbour’ (effectively a defence against a charge of market manipulation, insider dealing or <i>market abuse</i>) provided by the <i>price stabilising rules</i> , a number of disclosures must be made to the market (see 5 below).

3.2	<p>It is common practice for the <i>stabilising manager</i> to over-allot a new <i>offer</i> as an <i>ancillary action</i> to stabilisation. This leaves the <i>stabilising manager</i> with a net short position in the <i>securities</i>, having pre-sold more than 100% of the issue. When the <i>offer</i> begins to trade in the after-market, if the price does not go above the <i>offer price</i>, the <i>stabilising manager</i> can make purchases of <i>securities</i> in order to close out this short position. The purchases that the <i>stabilising manager</i> makes to close out the position will be part of the <i>price stabilising activity</i>. It is common for the <i>stabilising manager</i> to take out an over-allotment (or Green Shoe) option, so that further <i>securities</i> can be obtained from the issuer at the <i>offer price</i>. Thus, if the price has risen, the <i>stabilising manager</i> can still close out the short position.</p>
4	Use of the Green Shoe unconnected with stabilisation
4.1	<p>It is possible for the <i>stabilising manager</i> to obtain a Green Shoe option that is not intended for the purpose of filling any short position arising from over-allotment. The reason for the option should be explicitly disclosed to the issuer. The issuer may wish to ensure that it understands why the <i>stabilising manager</i> wants a Green Shoe option, and may wish to secure that its agreement specifies the circumstances in which it can be exercised</p>
5	FSA rules and disclosure
5.1	<p>The <i>price stabilising rules</i> require the <i>stabilising manager</i> to make certain disclosures:</p>
1	to the market, providing notification that <i>stabilising action</i> may be taken; and
2	in the prospectus, or offering circular, concerning the existence of an over-allotment or Green shoe option, and the terms on which it has been agreed.
5.2	<p>In addition, where the stabilising manager is an authorised person in the <i>United Kingdom</i>, MAR 2.7.3R gives the issuer certain rights to inspect parts of the register of <i>stabilising action</i> which such a <i>stabilising manager</i> must maintain.</p>
6	Information that issuers may wish to request from the stabilising manager

6.1	<p>When negotiating the terms of agreement for the <i>offer</i>, the parties will no doubt wish to consider how the <i>offer</i> will be managed and what information the issuer might wish to seek from the <i>stabilising manager</i>. In considering what information might be requested, the issuer may wish to arrange for the following:</p>
	<ol style="list-style-type: none"> <li data-bbox="363 510 1256 611">1 information on how the issue is proceeding during the <i>stabilising period</i> (nature of demand, types of investors, etc.); and <li data-bbox="363 611 1256 801">2 information on the level of <i>stabilising activity</i> which is being undertaken (though it may not be desirable, for reasons of confidentiality, for this to be disclosed in any detail until the <i>stabilising period</i> has ended).
6.2	<p>The issuer may also request information on the reasons for the exercise of the right to additional allotment by the <i>stabilising manager</i>. In particular, the issuer may wish to know how far the additional allotment is attributable to:</p> <ol style="list-style-type: none"> <li data-bbox="363 992 1256 1093">1 a need to deliver <i>relevant securities</i> to <i>persons</i> who are unconnected with the <i>stabilising manager</i>; and <li data-bbox="363 1093 1256 1182">2 a need to make good any failures to deliver by other counterparties. <p>The issuer may also wish to consider whether the additional allotment might have led to a profit for the <i>stabilising manager</i>.</p>
6.3	<p>The <i>stabilising manager</i> is not under any obligation to identify the names of individual clients to the issuer.</p>

Chapter 3.

Inter-Professional Conduct

3.

3.1 Application

APPLICATION: WHO?

3.1.1 **R** This chapter applies to every *firm* except:

/1

- (1) a *service company*;
- (2) a *non-directive friendly society*;
- (3) a *non-directive insurer*;
- (4) a *UCITS qualifier*.

APPLICATION: WHAT?

3.1.2 **R** This chapter applies to a *firm*:

/1

- (1) when it carries on:
 - (a) *regulated activities*; or
 - (b) related *ancillary activities*;
- (2) to the extent that the *regulated activity* the *firm* is carrying on is:
 - (a) *dealing in investments as principal*; or
 - (b) *dealing in investments as agent*; or
 - (c) acting as an *arranger*; or
 - (d) *giving transaction-specific advice*;
- (3) but only if the activity referred to in (1) and (2) is in or is in respect of an *inter-professional investment* and is undertaken with or for a *market counterparty*.

3.1.3 **R** This chapter does not apply to the carrying on of the following activities:

/1

- (1) the *approval* by a *firm* of a *financial promotion*; or
- (2) activities carried on between *operators*, or between *operators* and *depositories*, of the same *collective investment scheme* (when acting in that capacity); or
- (3) *corporate finance business*; or
- (4) *Safeguarding* and *administering investments* and agreeing to carry on that *regulated activity*.

APPLICATION: WHERE?

3.1.4

R

^{/1}

This chapter applies only with respect to a *firm's* activities carried on from an establishment maintained by the *firm* in the *United Kingdom*.

3.2 Purpose

3.2.1

G
/1

The main objective of this chapter (*MAR 3*) is the maintenance of confidence in the *financial system*, although it is also relevant to the *FSA's* other *regulatory objectives* under the *Act*. However, many of its provisions relate to the conduct of bilateral dealings and it seeks to secure good market practice by *firms* undertaking *inter-professional business* in three ways:

- (1) by increasing certainty by explaining how the *Principles* apply to *inter-professional business*, whilst acknowledging that what is required to meet the proper standards of conduct for a *firm* may differ depending on whether or not the *firm* is *dealing* with a *market counterparty* (see *PRIN 1.2.1G* (Characteristics of the client));
- (2) by setting out *rules* for *inter-professional business* in cases when it is not appropriate to rely on the *Principles* alone; and
- (3) by setting out the *FSA's* understanding of certain market practices and conventions; drawing this information together in this way will assist certainty, reduce the scope for disputes and make it easier to resolve disputes that do arise.

3.3 Contents and status of this chapter

3.3.1

G

MAR 3 Ann 1G provides *guidance* on the scope of this chapter.

3.3.2

G

^{/1}

MAR 3 is not the only chapter of the *Handbook* that applies to *firms* doing *inter-professional business*. *Firms* should always consider what other parts of the *Handbook* may apply to them. A table listing the applicable *Principles* is set out in MAR 3 Ann 2G. The table also sets out the key provisions of *COB* that may also apply to *firms* doing *inter-professional business*, but it should not be read as an exhaustive list. *Firms* should also consider the other provisions of the *Handbook*, especially but not exclusively *ML* and *IPRU*.

3.3.3

G

^{/1}

MAR 3 Ann 3G is a statement of what the *FSA* understands to be generally regarded as good *market* practice and conventions in certain areas. It is not *guidance* on *rules*.

3.4 Standards expected of firms when undertaking inter-professional business

3.4.1 **G** This section 3.4 provides *guidance* on the interpretation of the *Principles* and in particular *Principle 1* (Integrity), *Principle 2* (Skill, care and diligence), *Principle 5* (Market conduct) and *Principle 7* (Communications with clients.)
/1

3.4.2 **G** The *Principles*, as they apply to *inter-professional business*, will be interpreted on the basis that *market counterparties* do not need or expect the level of protection provided to *private customers* or *intermediate customers*. In many respects, inter-professional dealings are mutually self-disciplining. *Market counterparties* have commercial sanctions available if they consider the conduct of someone they conduct business with is unacceptable, and are responsible for their own decisions. These factors are relevant also to the *FSA*'s interpretation of the provisions of this chapter.

SUITABILITY AND ADVICE

3.4.3 **G** The *Principles* do not require a *firm* to assess the suitability of a particular transaction for its *client* once it has established that it is dealing with a *market counterparty*. For example, the *firm* is not obliged to ensure that the *market counterparty* understands the risks involved; nor is it under any duty to provide best *execution* or other *dealing* protections (but see *MAR 3.4.5G* to *MAR 3.4.9G*).
/1

3.4.4 **G** Similarly, a *firm* is not obliged to give advice to a *market counterparty*. The mere passing of information does not mean the *firm* has assumed responsibility for giving advice. Although *Principle 7* (Communications with clients) requires a *firm* to pay due regard to the information needs of its "*clients*", the only requirement of *Principle 7* relating to *market counterparties* is that a *firm* must communicate information to *market counterparties* in a way that is not misleading. (See *PRIN 3.4.1R*.)
/1

COMMUNICATION OF INFORMATION

3.4.5 **G** *Principle 7* (Communications with clients) requires that a *firm's* communications with a *market counterparty* should not be misleading. Otherwise, for the reasons explained in *MAR 3.4.4G*, *Principle 7* does not apply to a *firm's* communications with *market counterparties*.
/1

3.4.6 **G** If a *firm* volunteers information to a *market counterparty*, but no formal advisory arrangement is agreed, the *firm* need not advise a *market counterparty* about the reliability, relevance or importance of that information. Silence on the part of a *firm* does not result in a breach of *Principle 7*, unless, in the circumstances, it results in a *communication* made by a *firm* being misleading.
/1

- 3.4.7** G_{/1} (1) It is for a *firm* to decide whether it wishes to provide information to a *market counterparty*. If it does so the *firm* is not obliged to keep the *market counterparty* informed of any changes to the information, unless the *firm* has agreed to do so.
- (2) Because the duties owed by a *firm* to a *market counterparty* are limited, it will frequently be the case that there will be no clash between the duties owed by the *firm* to the *market counterparty* and the *firm's* interests. There will in those cases be no requirement on the *firm* to disclose its interests.
- (3) When a *firm* does owe a duty to a *market counterparty* that arises under the general law of contract (see as an example MAR 3.4.8G) it should manage any conflict of interest. This can be achieved by the operation of internal *Chinese Walls* (in accordance with (Chinese Walls) COB 2.4). Otherwise, before it transacts, the *firm* should disclose the nature and extent of any material conflict to the *market counterparty*.
- (4) This paragraph, MAR 3.4.7G, is *guidance* on *Principle 1* (Integrity) and *Principle 5* (Market conduct).

- 3.4.8** G_{/1} The following are examples of where there may be responsibilities that potentially give rise to a duty to disclose material conflicts of interest to the *market counterparty*:
- (1) the *firm* is acting as agent for the *market counterparty*;
- (2) the *firm* has agreed to advise the *market counterparty*;
- (3) the *firm* otherwise owes fiduciary duties to the *market counterparty*.

- 3.4.9** G_{/1} Thus, a *firm* acting as an *arranger* for a *market counterparty*, when the *firm* is an *affiliated company* of the other *principal*, should disclose that relationship to the *market counterparty*.

CLARITY OF ROLE

- 3.4.10** G_{/1} A *firm* should take reasonable steps to ensure that it is clear to the *market counterparty* whether it is acting on its own account, as agent, or as *arranger* before it enters into a transaction. If a *firm* is acting as a *wholesale market broker*, it should indicate what type of *broker* it is, for example *name-passing broker* or *matched principal broker*. This paragraph, MAR 3.4.10G, is *guidance* on *Principle 7* (Communications with clients).

- 3.4.11** G_{/1} If a *firm* has agreed with a *market counterparty* to act in one capacity in a transaction, it should not then act in any other capacity in that *transaction* without the consent of that *market counterparty*. For example, if a *firm* bids to transact on an agency basis, it should not, without consent, execute any part of the trade against its own book.

- 3.4.12** G_{/1} It is not consistent with acting solely as an *arranger* (or *name-passing broker*) to take positions, even fleetingly, or act on a *matched principal basis* in the course of that transaction.

MARKETING INCENTIVES, INDUCEMENTS AND PAYMENTS IN KIND

- 3.4.13** G_{/1} MAR 3.4.14G and MAR 3.4.16G provide *guidance* on the interpretation of the *Principles* and in particular *Principle 1* (Integrity), *Principle 3* (Management and control) and *Principle 5* (Market conduct) as they apply to marketing incentives, inducements and payments in kind.
- 3.4.14** G_{/1} A *firm* should take reasonable steps to ensure that it, or any person acting on its behalf, does not offer, give, solicit or accept an inducement if it is likely to conflict to a material extent with any duty which a recipient *firm* owes to another person. Inducement can include entertainment and soft commissions.
- 3.4.15** G_{/1} If a *firm* gives an inducement and the recipient, although a *market counterparty*, is acting on behalf of *customers*, the *firm* may be subject to the provisions of COB 2.2 (Inducements and soft commission).
- 3.4.16** G_{/1} A *firm* should make and implement appropriate systems, controls and policies consistent with MAR 3.4.14G.

3.5 Transactions at Non-Market Prices

INTRODUCTION

- 3.5.1** **G**_{/1} A *firm* should not enter into a transaction which it knows to be improper, or which it ought reasonably to have realised is improper, whether on its own account or for a third party. *Firms* often do not have the information to be able to assess the reasons why a *market counterparty* is entering into a transaction, but from past experience, a good indication that the purpose may be improper is if the transaction is undertaken at a price other than at the prevailing market price. Failure to use prevailing rates or prices may result in a firm participating, whether deliberately or unknowingly, in the concealment of a profit or loss, or in the perpetration of a fraud. There may, however, be legitimate reasons for entering into transactions at non-market prices, and MAR 3.5.4R requires that a *firm* take reasonable steps to check this.
- 3.5.2** **G**_{/1} *Firms* acting as *arrangers* (or *name-passing brokers*) have a more limited role in the transaction and MAR 3.5.4R and MAR 3.5.7E do not apply to them. Under *Principle 1* (Integrity) and *Principle 5* (Market conduct), a *firm* acting as *arranger* (or *name-passing broker*) should not conclude the arrangement if there is information from which it ought reasonably to conclude that the transaction is improper, whether or not it is at a non-market price. Notwithstanding their limited role, *firms* acting as *arrangers* (or *name-passing brokers*) as well as other *firms* should also comply with obligations upon them arising from ML.
- 3.5.3** **G**_{/1} The *requirements* upon *firms* when conducting *designated investment business* with or for a *customer* are set out in COB 7.15 (Non-market-price transactions).

NON-MARKET-PRICE TRANSACTIONS

- 3.5.4** **R**_{/1} Except where MAR 3.5.6R applies, a *firm* must not enter into, as agent or principal, a *non-market-price transaction* under which it *deals* in an *inter-professional investment* unless it has taken reasonable steps to ascertain that the transaction is not being entered into by the *market counterparty* for an improper purpose (see also MAR 3.5.7E).
- 3.5.5** **R**_{/1} A *firm* must make and retain, for a period of three years, a record of the steps it has taken under MAR 3.5.4R, in relation to each *transaction*.

3.5.6 **R** /1 MAR 3.5.4R does not apply to a *non-market-price transaction* if it is subject to the rules of an *RIE*.

- 3.5.7 **E** /1
- (1) To take reasonable steps as required by MAR 3.5.4R a *firm* should:
- (a) have in place procedures to enable it to identify *non-market-price transactions* (for *guidance* on this, see MAR 3.5.8G to MAR 3.5.12G);
 - (b) have in place, and *approved* by an individual holding a senior position with the *firm*, a policy and procedure for the review (to take place before the *firm* commits itself to that transaction) of the *non-market-price transaction*:
 - (i) by an individual holding a senior position with the *firm*; or
 - (ii) in accordance with (2);and should follow that *policy* and procedure (for *guidance* on this, see MAR 3.5.17G to MAR 3.5.21G);
 - (c) ensure the review considers the reasons for the *transaction* (for *guidance* on this, see MAR 3.5.13G to MAR 3.5.16G); and
 - (d) check whether it has been put on notice that the *transaction* is for an improper purpose.
- (2) A *firm* may have the review in (1)(b) carried out by an individual working for the *firm* who does not hold a senior position in the *firm* if:
- (a) the policy and procedures established under (1) cover such reviews;
 - (b) that policy sets out the categories of transaction that may be reviewed in this way;
 - (c) the transaction falls into one of those categories;
 - (d) the *firm* can demonstrate that these categories of transactions are routinely entered into by *firms* and are so defined that there is a high probability that transactions coming within them will be for proper purposes;
 - (e) the factors defining those categories do not in substance involve any judgment of whether any purpose is improper;
 - (f) the policy provides for matters to be referred to a senior level in appropriate circumstances;

- (g) those approving the policy are satisfied that all those who are eligible under the policy to participate in the review have the appropriate level of skills;
 - (h) the policy has due regard to segregation of responsibilities; and
 - (i) the *firm* keeps under review whether the categories of transaction established under (2) do have the result described in (2)(d).
- (3) Compliance with (1) and, to the degree relevant, (2) may be relied on as tending to show compliance with *MAR* 3.5.4R.
 - (4) Contravention of (1) or, to the degree relevant, (2) may be relied on as tending to show contravention of *MAR* 3.5.4R.

WHETHER A TRANSACTION IS TO BE CONSIDERED A NON-MARKET-PRICE TRANSACTION

3.5.8

G

A *non-market-price* transaction is a transaction where:

^{/1}

- (1) the dealing rate or price paid by the *firm* or its *client* differs from the prevailing market rate or price to a material extent; or
- (2) the *firm* or its *client* otherwise gives materially more or less in value than it receives in return.

3.5.9

G

Certain types of transactions or structured transactions are undertaken at non-market rates or prices, but are not necessarily considered to be *non-market-price transactions*. Examples are:

^{/1}

- (1) a transaction with more than one component, where the individual components are entered into at non-market rates or prices, so long as the sum of the whole transaction produces an overall market rate or price, for example:
 - (a) asset swaps, where the underlying asset is sometimes sold at a non-market price; the fixed cash flows from the asset are then passed back to the seller, also at a non-market rate; where neither the asset trade nor the swap is at a market rate, the overall transaction can be considered to be at the market price where the combination of the two components delivers this result; and
 - (b) other types of swaps, where one or both legs is not on the forward curve (showing implied forward rates or prices), for example when up-front or final payments are involved;
- (2) the purchase and sale of out of the money *options*. The fact that the strike price is away from the market price is not in itself sufficient to give rise to a *non-market-price transaction*; other factors, such as the level of premium, must also be considered;
- (3) in tax-based transactions, a tax gain or liability should be taken into account in order to determine whether it is a *non-market-price transaction*.

3.5.10 G_{/1} Certain circumstances may result in a transaction being undertaken at a price other than the market price, for example:

- (1) the transaction is not for a marketable amount; or
- (2) an order has been carried out over a period of time; or
- (3) a transaction is executed outside normal market hours; or
- (4) a transaction is executed in illiquid markets; or
- (5) a transaction has a non-standard settlement period;

and these circumstances may be relevant in assessing whether the transaction constitutes a *non-market-price transaction*.

3.5.11 G_{/1} The question of whether a transaction is a *non-market-price transaction* is to be judged as at the time it is effected and not with hindsight.

3.5.12 G_{/1} The variation or rolling over of an existing transaction should be regarded as a new transaction for the purposes of MAR 3.5.4.

WHETHER A TRANSACTION IS TO BE CONSIDERED TO BE FOR IMPROPER PURPOSES

3.5.13 G_{/1} Examples of improper purposes for transactions (see MAR 3.5.4R) include:

- (1) the perpetration of a fraud;
- (2) the disguising or concealment of the nature of a transaction or of profits, losses or cashflows;
- (3) transactions which amount to *market abuse*;
- (4) vulnerable transactions under the Insolvency Act 1986; and
- (5) "window dressing", in particular around the year end, to disguise the true financial position of the *person* concerned.

3.5.14 G_{/1} A transaction may be for one or more of the purposes stated in MAR 3.5.13G yet still not be a *non-market-price transaction*. MAR 3.5 should not be taken as qualifying in any way obligations on *firms*, however these arise, regarding these transactions.

3.5.15 G_{/1} When a *non-market price transaction* has more than one component, the assessment of whether or not the transaction is improper should be made by reference to the transaction as a whole. Although the judgment is formed with reference to the whole transaction, a *firm* may conclude that the rationale for one component would cause it to be in breach of MAR 3.5.4R.

3.5.16 G_{/1} A transfer between a *firm* and its nominee or an intra-group transfer for risk management purposes may not be at a market price, but will often be for proper purposes. Where that is so, the *firm* may take part in it. However a *firm* should establish, and act in accordance with, a policy dealing with these transfers, and other intra-group *non-market-price transactions*, and be able to demonstrate that it has considered the consequences of participating in them.

PROCEDURES TO BE TAKEN BY A FIRM

- 3.5.17** G_{/1} The procedures a *firm* has in place to identify *non-market-price transactions* should be appropriate for the types of transaction in question, bearing in mind MAR 3.5.8G to MAR 3.5.12G.
- 3.5.18** G_{/1} When a *firm* proposes to enter into a *non-market-price transaction*, the personnel considering the transaction should:
- (1) consider the justification and rationale of the other parties to the proposed transaction and whether the decision to enter into it was taken by the parties concerned at a senior level, and not by an individual trader or treasurer; and
 - (2) (if the transaction is approved) be satisfied that all the material terms of the *non-market-price transaction* (so far as they affect the *firm*) have been agreed before the transaction is entered into and that they are promptly recorded in accordance with MAR 3.5.7E; material terms are likely to include the amounts each counterparty is to pay and receive and whether any amounts are to be netted against or offset against any amounts due and owing under a separate transaction.
- 3.5.19** G_{/1} The degree of seniority referred to in MAR 3.5.7E(1)(b) may depend on the nature of the transaction.
- 3.5.20** G_{/1} A *firm* operating an electronic matching system should consider implementing appropriate systems to identify potential *non-market-price transactions*. In these circumstances, it may be appropriate for such identification, and appropriate resulting action, to occur after the transaction has taken place.
- 3.5.21** G_{/1} A *firm* may take reasonable steps to ascertain its *market counterparty's* rationale for entering into the transaction, as set out in MAR 3.5.18G, but still be unable to find this out. It is up to the *firm*, having regard to the circumstances, to decide whether it is appropriate to enter into the transaction. One relevant circumstance is whether or not the *market counterparty* is another *firm*, in which case the *firm* is entitled to assume that the other *firm* is acting properly, in the absence of any further information to the contrary.

3.6 Taping

- 3.6.1** G_{/1} (1) This section MAR 3.6 provides *guidance* on the interpretation of the *Principles*, and in particular *Principle 3* (Management and control), as they apply to the capture of certain transactional information and other matters. MAR 3.6 applies only to *inter-professional business* and there are other requirements in the *Handbook* which relate to record-keeping requirements.
- (2) MAR 3.6 also provides additional *guidance* on the record-keeping requirements of SYSC 3.2.20R (Records).
- 3.6.2** G_{/1} MAR 3.6 does not apply:
- (1) to a *firm* acting in the course of carrying on the *regulated activity* of *establishing, operating or winding up a collective investment scheme*; or
- (2) to an *insurer*; or
- (3) in respect of a transaction if the *firm* is subject to record-keeping requirements in *COB* for that transaction.
- 3.6.3** G_{/1} A *firm* should implement appropriate systems and controls with a view to ensuring that the material terms of all transactions to which it is a party, and other material information about such transactions, are promptly and accurately recorded in its books or records. The manner in which this information may be recorded include:
- (1) voice recordings of transactions;
- (2) voice recordings of oral confirmations;
- (3) written trading logs or blotters; and
- (4) automated electronic records.
- 3.6.4** G_{/1} A *firm* acting as an *arranger* (or *name-passing broker*) need record only those terms that are necessary for the *transaction* to be identified in its records or that are otherwise relevant to its role as *arranger* (or *name passing broker*). For example, it would not normally know the payment and settlement instructions.
- 3.6.5** G_{/1} A *firm* should be able to access all records as promptly as necessary. Records should be kept in comprehensible form or should be capable of being promptly so reproduced. The *firm* should make and implement appropriate procedures to avoid unauthorised alteration of its records.
- 3.6.6** G_{/1} If the records identified in MAR 3.6.3G are substituted by written or electronic confirmations produced in accordance with SYSC 3.2.20R (Records), then that confirmation may be an adequate record of the transaction.

- 3.6.7** G_{/1} If a transaction is agreed or arranged through an electronic trading, matching and order-routing system, then the records provided by that system may be an adequate record of the transaction.
- 3.6.8** G_{/1} A *firm* should keep under review whether, and to what extent, to make and retain voice recordings of its front and back office telephone lines used for negotiating, agreeing, arranging and confirming transactions and for the passing of payment instructions. (See also *MAR* 3.6.10G.)
- 3.6.9** G_{/1} If a *firm* undertakes oral confirmations of the transactions it executes or *brings about*, voice recordings of these conversations can constitute an adequate record of that confirmation.
- 3.6.10** G_{/1} In undertaking a review under *MAR* 3.6.8G, it is likely to be a relevant factor that voice recordings:
- (1) provide an immediate record of all transactions and therefore may assist firms in resolving any disputes;
 - (2) may assist a *firm* to identify whether any personnel of the *firm* or of its *market counterparty* are involved in inappropriate behaviour; *market counterparties* may take comfort in knowing that their transactions are immediately recorded and that this provides evidence that can be relied upon; and
 - (3) can provide evidence of the rationale for a particular trading strategy or other aspects of *inter-professional business* and thereby provide protection to the *firm*.
- 3.6.11** G_{/1} A *firm* should make and implement policies on the length of time it keeps tapes. The *FSA* does not expect tapes to be kept for the full period required by the general record-keeping requirement, except where a *firm* relies upon voice recordings to comply with record-keeping requirements, in which case it should retain those recordings in accordance with the relevant requirements. One factor in setting that policy may be the use of tapes to assist the *firm* in resolving any disputes with *market counterparties*.

3.7 Firms acting as Wholesale market brokers and those undertaking transactions through them; provisions concerning brokers and arrangers generally

3.7.1 **G** /1 MAR 3.7 provides *guidance* on the interpretation of the *Principles*, and in particular *Principle 5 (Market conduct)*, as they apply to certain responsibilities of *firms* acting as *wholesale market brokers* and of *persons* undertaking transactions through them. In particular, it covers the passing of names and differences.

3.7.2 **G** /1 The use of various terms for brokers and arrangers are based on the understanding that *name-passing brokers* are, in simple terms, what *arrangers* are called in certain wholesale markets. As such, the terms are virtually interchangeable and in MAR both terms have generally been used for the avoidance of doubt. Similarly, *name-passing brokers* and “matched principal brokers” are both subsets of *wholesale market brokers*. The use of the latter term is intended to reduce confusion.

PASSING OF NAMES

3.7.3 **G** /1 A *firm* acting as a *name-passing broker* should not prematurely divulge the names of the prospective counterparties to each other, for example before both sides display a serious intention to transact. However, as soon as the material terms of a transaction have been agreed, a *firm* acting as a *name-passing broker* should aim to achieve a mutual and immediate exchange of names. When a *market counterparty* name is unacceptable to another, it is quite proper for a *firm* acting as a *name-passing broker* not to divulge by whom the name was refused.

SETTLEMENT OF DIFFERENCES

3.7.4 **R** /1 MAR 3.7.5R to MAR 3.7.8G apply:

- (1) to a *firm* when it acts as a *name-passing broker*; and
- (2) to a *firm* whether acting as *principal* or agent, when its transaction is *brought about* by a *firm* acting as a *name-passing broker*.

3.7.5 **R** /1 (1) If a *firm* acting as a *name-passing broker* compensates a *market counterparty* for a difference, that difference must be settled in *money* (which for these purposes includes payment by discounting, reducing or rebating commission).

(2) A “difference” means (in MAR 3.7.5R to MAR 3.7.8G) any difference between a rate or price quoted by a *firm* acting as a *name-passing broker* and the rate or price at which the transaction is ultimately concluded.

3.7.6 **G**_{/1} When arranging a transaction, a *name-passing broker* is trying to achieve a mutual and immediate exchange of names, based on firm quotation of prices. Inevitably, for non-electronic *arrangers*, there will be occasions when the transaction is not completed at the original price (for instance because a firm price has been hit by another counterparty). The *name-passing broker* is said to have missed the original price when a *market counterparty* accepts a firm quote at that price, but the *name-passing broker* is unable to arrange for the deal to be completed at that price.

3.7.7 **G**_{/1} A *firm* acting as a *name-passing broker* should not ordinarily accept liability for differences and should provide its services on the basis that it does not do so. (This is because accepting liability for differences amounts to taking a position legally and economically, and the *name-passing broker* would not be following MAR 3.4.12G.) A *firm* doing business with a *name-passing broker* should not, in the ordinary course, ask the latter for compensation for differences. However, once a difference has arisen, a *firm* acting as a *name-passing broker* may offer to compensate its *market counterparty* for some or all of the difference to preserve the relationship with the *market counterparty* concerned or for other legitimate commercial reasons. That compensation should be in accordance with MAR 3.7.5R.

3.7.8 **G**_{/1} When a price has been missed, a *firm* acting as principal or agent should generally complete the transaction at the next available price through the *name-passing broker* that has missed the original price. To do otherwise can be prejudicial to the smooth operation of the markets. If the *firm* does not proceed with the transaction, it should first consider whether withdrawing would be likely to affect the market concerned, and should immediately communicate its decision to the *name-passing broker*. The *firm* should not decline to enter into the transaction at the new price if it would breach a reasonable expectation on the part of the *name-passing broker* that it would not do this.

GENERAL PROVISIONS ON WHOLESALE MARKET BROKERS AND ARRANGERS

3.7.9 **G**_{/1} Any payment for broking or arranging services rendered by a *firm*, other than on a matched principal basis, should be in *money* (which for these purposes includes payment by discounting, reducing or rebating commission) unless otherwise agreed in writing between the parties.

3.7.10 **G**_{/1} A *firm* acting as a *wholesale market broker* or *arranger* should not unfairly favour one *market counterparty* client over another. Treatment that would otherwise have been unfair is not unfair if the *market counterparty* concerned has expressly consented to it. The “client” of a *wholesale market broker* or *arranger* means (in MAR 3.7.10G and MAR 3.7.11G) a *person* for whom it is providing its services as *wholesale market broker* or *arranger*.

3.7.11 **G**_{/1} A *firm* should not place an order with a *firm* acting as a *wholesale market broker* or *arranger* if the main purpose is to ascertain either the identity of any client of that *firm*, or information about transactions into which that *client* may be interested in entering. For example, a *firm* that wishes to purchase 1000 bonds should not have a *firm* arrange for the purchase of 100, in order to discover the identity of a *person* willing to sell those bonds, and then transact with that other *person* direct for the other 900.

3.8 Codes of Practice

3.8.1

G
/1

The FSA does not endorse individual codes of practice applying to *inter-professional business* (except for the *Takeover Code*) that are in place in some markets. It will, however, take into account the differing standards and practices operating in markets when interpreting the *Principles* as they apply to *inter-professional business*. Further, non-compliance with those codes, or of the Non-Investment Products Code in respect of certain non-authorisable activities, may raise issues such as the integrity or competence of a *firm* which are relevant to the *threshold conditions* (see COND 2.5.6G(4)).

MAR 3 Ann 1G

1 Table Guidance on scope of the code (see MAR 3.3.1G)

1	<p>This chapter, <i>MAR 3</i>, applies to <i>firms</i> in their dealings with <i>market counterparties</i>, as set out in <i>MAR 3.1.2R</i>. When <i>market counterparties</i> have opted to be treated as <i>intermediate customers</i> under <i>COB 4.1.7R</i> (Classification of another firm or an overseas financial services institution), this chapter does not apply. The requirements on <i>firms</i> in such circumstances are those set out in <i>COB</i>. <i>MAR 3</i> does, however, apply to <i>firms</i> in their dealings with <i>intermediate customers</i> who have opted to be treated as <i>market counterparties</i> under <i>COB 4.1.12R</i> (Large intermediate customer described as a market counterparty).</p>
2	<p>This chapter sets out the <i>requirements</i> upon <i>firms</i> in their dealings with <i>market counterparties</i>. The way a <i>firm</i> is assessed under <i>COB 4.1</i> (Client classification) has no bearing on its obligations to assess its own <i>clients</i>.</p>
3	<p>The list of activities in <i>MAR 3.1.2R</i> (Application: What?) is not based on types of <i>permission</i>. It is based on the activities of <i>dealing</i>, <i>arranging</i> and <i>advice on investments</i>. This means, for example, that a <i>firm</i> may be subject to <i>MAR 3</i> if it purchases securities in the course of:</p> <ol style="list-style-type: none"> (1) operating a <i>collective investment scheme</i>; or (2) acting as a life insurance company; or (3) acting as agent for a <i>customer</i>; <p>in making that purchase. This is notwithstanding that the operation of a <i>collective investment scheme</i>, acting as a life insurance company and acting as agent for a customer for a <i>private customer</i> are not activities that are covered by this chapter in their own right.</p>
4	<p><i>MAR 3</i> does not affect the application provisions of the <i>Principles</i> (see <i>PRIN 3</i> (Rules about application)). The purpose of the application provisions of <i>MAR 3</i>, as they apply to the <i>guidance</i> on the <i>Principles</i>, is to explain in what situations <i>MAR 3</i> may be used as <i>guidance</i> for interpreting the <i>Principles</i>. If <i>MAR 3</i> is silent about how the <i>Principles</i> apply to a particular situation, the <i>Principles</i> still apply.</p>
5	<p><i>MAR 3</i> is intended to cover the whole range of <i>inter-professional business</i>. It is not, in general, specifically tailored for particular types of business, nor is it a comprehensive statement of how the <i>Principles</i> apply to <i>inter-professional business</i> in all situations. The <i>guidance</i> on the <i>Principles</i> in <i>MAR 3</i> should be read in the light of other <i>requirements</i> that may be applicable in a particular case. For example, this <i>guidance</i> applies to <i>on-exchange</i> business, and does not take into account specific <i>rules</i> of exchanges.</p>
6	<p>The application provisions in <i>MAR 3.1.2R</i> (Application: What?) mean that <i>corporate finance business</i> will normally be outside the scope of this chapter. However, <i>firms</i> should note that some activities, such as <i>dealing</i>, carried out in connection with <i>corporate finance business</i>, may be subject to this chapter.</p>
7	<p>This chapter does not apply to the <i>approval</i> by <i>firms</i> of a <i>financial promotion</i> (see <i>MAR 3.1.3R</i>); <i>rules</i> and <i>guidance</i> relating to <i>financial promotions</i> are in <i>COB 3</i>. Most <i>financial promotions</i> by <i>unauthorised persons</i> to <i>market counterparty</i> are exempt under the <i>Financial Promotion Order</i>, (for example, article 19 (investment professionals)) so <i>approval</i> should not be required. In addition, the application of <i>COB 3</i> to approval of a <i>financial promotion</i> for communication to a <i>market counterparty</i> is limited (see <i>COB 3.2.4R</i> (2) and <i>COB 3.2.5R</i>(1) (Exemptions)).</p>

- 8 The same transaction may give rise to obligations under this chapter and another sourcebook, such as *COB*. For example, if a *firm* purchases an *inter-professional investment* from a *market counterparty* on behalf of a *customer*, this chapter applies to the relationship between the *firm* and the *market counterparty*. *COB* governs the relationship between the *firm* and the *customer*.
- 9 In some cases, a deal carried out abroad by the firm's overseas branch or by another member of the firm's group may be subject to this chapter if the final booking is to the firm's balance sheet in the United Kingdom. In all cases, the question is whether the activity involves a firm carrying on inter-professional business from an establishment maintained by the firm in the United Kingdom. For the purposes of this discussion, booking does not include doing a deal with a counterparty and transferring it to the United Kingdom balance sheet by an intra-group back-to-back transaction. It is about putting the transaction with the market counterparty directly onto the UK balance sheet.
- (1) In some cases, the transaction involves the *firm* and an overseas affiliate. The overseas affiliate negotiates and arranges the *deal* with the *market counterparty* abroad. However, the actual contract is between the *firm* in the *United Kingdom* and the *market counterparty*. It is likely that this chapter will apply to the *firm*. This is because the firm's entry into the contract amounts to dealing and that dealing is done from an establishment maintained by the *firm* in the *United Kingdom*.
- (2) If the booking is merely an internal accounting exercise, and the transaction has no other *United Kingdom* connection, it is likely that this chapter will not apply. For example, the transaction may be negotiated and *executed* by an overseas branch of the *firm* but booked to the *firm's United Kingdom* balance sheet. If the booking to the *United Kingdom* balance sheet is the only involvement of the *firm* in the *United Kingdom*, it is likely that this chapter will not apply to the *firm*. This is because, even though the *firm* is party to the contract and is carrying out a *dealing* transaction, all the *dealing* activity takes place at the foreign branch. A mere bookkeeping entry in the *United Kingdom*, not involving the counterparty in any way, does not mean that the dealing activity is carried on from an establishment maintained by the firm in the *United Kingdom*. It is carried on from the overseas branch.
- 10 The territorial application of this chapter does not modify those of any other part of the *Handbook*. In particular, *firms* should note the application of *Principle 5* (Market conduct), which applies to activities which have, or might reasonably be regarded as likely to have, a negative effect on confidence in the *financial system*, wherever they are carried on (see *PRIN* 3.3.1R).
- 11 Nothing in this chapter:
- (1) modifies any duty owed by a *firm* to a *private customer* or *intermediate customer* under the provisions of any other part of the *Handbook*; or
- (2) relieves a *firm* of any other obligation to which it may be subject under the general law; or
- (3) should be read as qualifying or modifying the *Code of Market Conduct*, the *Code of Practice for Approved Persons* or the *Statement of Principle*.

MAR 3 Ann 2G

This table lists the Principles that apply to firms carrying on inter-professional business, and also sets out some of the key provisions of COB that apply.

1 Table Other relevant Handbook provisions (see MAR 3.3.2G)

Rule	Description
Principle 1	A <i>firm</i> must conduct its business with integrity.
Principle 2	A <i>firm</i> must conduct its business with due skill, care and diligence.
Principle 3	A <i>firm</i> must take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems.
Principle 4	A <i>firm</i> must maintain adequate financial resources.
Principle 5	A <i>firm</i> must observe proper standards of market conduct.
Principle 7	A <i>firm</i> must <i>communicate</i> information [to its <i>clients</i>] in a way which is not misleading.
Principle 10	A <i>firm</i> must arrange adequate protection for <i>clients'</i> assets when it is responsible for them.
Principle 11	A <i>firm</i> must deal with its regulators in an open and cooperative way, and must disclose to the <i>FSA</i> appropriately anything relating to the <i>firm</i> of which the <i>FSA</i> would reasonably expect notice.
COB 3	Financial promotion (relating to the approval of a financial promotion, see paragraph 7 in <i>MAR 3 Ann 1G</i>)
COB 2.4	Chinese Walls
COB 4.1	Client classification
COB 7.13	Personal Account Dealing
COB 9	Client assets

MAR 3 Ann 3G

1 Table General information on good market practice (see MAR 3.3.3G)

	INTRODUCTION
1	This annex, <i>MAR 3 Ann 3G</i> , is a statement of what the <i>FSA</i> understands to be generally regarded as good market practice and conventions in certain areas. It is not <i>guidance on rules</i> and is issued under section 157(1)(d) of the <i>Act</i> . This annex applies to all kinds of <i>inter-professional business</i> . It will be evident that much of the content is equally applicable to <i>market counterparties</i> as well as <i>firms</i> .
	CONFIDENTIALITY
2	When information is received from a <i>market counterparty</i> under conditions of confidentiality, that confidentiality is likely to be enforceable by the owner of that information. Confidentiality should be respected, subject to regulatory and legal requirements.
3	<i>Firms</i> are reminded that the use of loudspeakers in broking and dealing rooms in close proximity to other lines of communication could result in breaches of confidentiality.
	NEGOTIATION OF TRANSACTIONS
4	It is good practice for a <i>firm</i> to agree expressly all the economic terms of a transaction before it commits itself to the transaction. A <i>firm</i> should negotiate the remaining terms in good faith and try to agree them as soon as possible.
5	It is good practice for a <i>firm</i> to regard itself as bound to transact once the rate or <i>price</i> and any other key commercial terms have been agreed (whether orally or in written form), unless the parties explicitly and unambiguously agree to the contrary.
6	Generally, a <i>firm</i> that regularly uses the services of a <i>firm</i> acting as a <i>name-passing broker</i> should indicate to it the <i>market counterparties</i> with which, and the <i>investments</i> in which, it is not prepared to transact. That indication should not be in a form which would damage or lower the standing or reputation of the <i>market counterparty</i> in the estimation of reasonable <i>market counterparties</i> if they knew of it. A <i>firm</i> which is given an indication should treat it as confidential.
	FIRMNESS OF QUOTATION
7	It is good practice for a <i>firm</i> to follow market conventions regarding quotation, unless it has specifically agreed otherwise with its <i>market counterparty</i> in advance. It should be clear to a <i>market counterparty</i> ;
	(1) whether the quote is firm or not;
	(2) whether the quote is subject to any conditions, and, if it is, what they are;
	(3) for how long the quote remains firm (in fast moving markets, when practicable); and
	(4) whether the quote is firm only for the normal marketable amount (if appropriate, otherwise the <i>firm</i> should state the size of the quote).
8	Express clarification of these matters is not necessary to the extent that the <i>firm</i> quotes in accordance with the relevant market convention or exchange rules (if applicable).

- 9 When a *firm* quotes to a *market counterparty* a firm rate or price (whether through an arranger, or *name-passing broker*, or directly), it is not good practice for the *firm* then to withdraw that quote or, if that quote is accepted during the period for which the quote remains firm, to decline to deal at that rate or price. A *firm* may decline to deal with a *market counterparty* in these circumstances if it was unaware of its identity when the *firm* gave the quote and the name turns out to be unacceptable, for example, on the grounds of credit risk.
- LIMIT ORDERS
- 10 Before a *firm* accepts any limit order from a *market counterparty*, it is good practice to have made and implemented appropriate:
- (1) policies on these orders and in particular the circumstances in which and the terms on which it will accept these orders; and
 - (2) systems and controls for carrying them out.
- 11 A limit order means a stop loss order and any other instruction from a *market counterparty* to execute transactions if rates or prices reach specified levels. These orders may be time limited or may be for an indefinite period.
- OUT OF HOURS/OFFICE DEALING
- 12 It is good practice for *firms* to issue guidelines to their staff on transactions entered into after normal hours or from outside premises, either by mobile phone or any other equipment. The guidelines should cover:
- (1) the type of transactions which may be undertaken in this way;
 - (2) where and with whom these transactions may be executed;
 - (3) permitted limits;
 - (4) how and when these transactions should be booked into and recorded on the front and back office systems; and
 - (5) how and when these transactions are to be confirmed.
- 13 When answering machines are used for instant reporting and recording of all off-premises transactions, they should be installed and located in such a way that reported transactions cannot subsequently be erased without senior management approval.
- 14 The use of mobile phones for business purposes from within the dealing room, except in an emergency, is considered bad practice.
- SETTLEMENT ERRORS
- 15 If a *firm* becomes aware of a settlement error that benefits it at the cost of a *market counterparty*, it is good practice to inform the *market counterparty* promptly and reverse the error.
- 16 If a *firm*, acting as a *broker*, becomes aware that it is holding assets on behalf of a *market counterparty* because of a settlement error which adversely affects that *market counterparty*, it is good practice to inform the *market counterparty* promptly and try to rectify the situation.
- CONFIRMATIONS
- 17 Confirmations provide a useful safeguard against dealing errors and can be a valuable element in the control of the *firm's inter-professional business* and exposures. It is good practice for a *firm* to make available to, or provide to, the *market counterparty* written confirmation of the material terms of a transaction between them, as soon as possible after the transaction has been agreed or executed.
- 18 It is acceptable market practice for the *firm* to agree with its *market counterparty* that only one party need send a confirmation. If a *firm* undertakes this practice to a material extent, it is advisable to identify the legal and other risks involved and address them in the *firm's* risk control policies.

- 19 If there is a standard form of confirmation that applies to a transaction a *firm* enters into, it is good practice to ensure that that form is used, unless there is good reason not to. One example of when there is an applicable standard form confirmation is when the parties enter into the transaction under the terms of a master agreement that provides for an applicable form of confirmation. Another is when it is customary in the market concerned to use a particular form of confirmation for transactions of that kind.
- 20 In general, it is not good practice for confirmations to be issued by or sent to the individual dealer responsible for the transaction. It is good practice to ensure that the dealer concerned is not responsible for checking confirmations unless there are exceptional circumstances. If the dealer is given that responsibility, it is good practice to subject the process to independent monitoring.
- 21 In general, it is good practice for a *firm* which *arranges* a transaction to try to ensure that the parties agree who is to issue a confirmation.
- 22 Some transactions are matched through an electronic matching system that does not provide for the issue of confirmations, but instead makes and retains records of transactions itself. In these cases, it may be appropriate for a *firm* neither to receive nor issue confirmations, provided the system allows for the back offices of users to verify the details of transactions entered into on the system.
- 23 The statements of good practice in paragraphs 17 to 22 do not apply to on-exchange business.

STANDARD SETTLEMENT INSTRUCTIONS

- 24 It is good practice for a *firm* to make and implement appropriate policies on the use of standard settlement instructions (SSIs) to reduce the incidence and size of differences arising from a mistaken settlement of funds. These are especially appropriate when the *firm* has a relationship with a *market counterparty* which suggests there will be regular payment of significant amounts.
- 25 It is good practice to establish SSIs in a secure and verifiable format. A *firm* acting as an *arranger* (or *name-passing broker*) has no responsibility for ensuring that its *market counterparties* have SSIs in place.

MASTER AGREEMENTS

- 26 *Firms* are encouraged to negotiate and execute master agreements. These govern the relationship between the parties and how such a relationship and all transactions under it shall be terminated in the event of one party's default upon a transaction. It is recognised that executed documentation can be and should be used as an efficient risk management tool. *Firms* should consider the benefits of valid close out netting provisions (see *IPRU*).
- 27 If it is the policy of a *firm* to use master agreements, it is good practice to make and implement policies for what transactions should be subject to the terms of which master agreement and have systems and controls for ensuring compliance with that policy. If a *firm* has a policy that transactions should be entered into with a *market counterparty* only after a master agreement has been implemented, it is advisable to have procedures to ensure that any exceptions are agreed at an appropriate level.

COMMISSION/BROKERAGE

- 28 It is good practice for *firms* acting as principals to pay due brokerage bills promptly. Overdue payments can seriously disadvantage *wholesale market brokers*, since overdue payments result, in their treatment by the *FSA* for regulatory purposes, as an increase in their cost of capital.

DISPUTES

- 29 In the event of a dispute between a *firm* and a *market counterparty*, it is preferable for the parties to seek to resolve the issues themselves. If they cannot reach agreement, they should consider the advantages of using established arbitration or mediation services.

Handbook Modules

Transitional Provisions

1 Table

G *GEN* contains some technical transitional provisions that apply throughout the *Handbook* and which are designed to ensure a smooth transition at *commencement*. These include transitional provisions relevant to record keeping and *notification rules*.

1) Transitional Provisions for The Code of Market Conduct – (MAR 1)

There are no transitional provisions for *MAR 1* (The Code of Market Conduct).

2) Transitional Provisions for Price stabilising rules (MAR 2)

SUP contains transitional provisions which carry forward into *MAR 2* (Price stabilising rules) written concessions relating to pre-commencement provisions.

2 Table

(1)	(2)	(3)	(4)	(5)	(6)
	Material provision to which transitional provision applies		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force

1	MAR 2	R	<p>Part 10 of the Financial Services (Conduct of Business) Rules 1990 applies in relation to an <i>offer for cash</i>, instead of MAR 2, if:</p> <p>(1) a <i>public announcement of the offer</i> which stated the <i>offer price</i> has been made before <i>commencement</i>; or</p> <p>(2) the <i>introductory period</i> for the <i>offer</i> started not more than 60 days before <i>commencement</i> and the <i>firm</i> or other <i>person</i> so chooses and makes a written record of that choice before <i>commencement</i>.</p> <p>A record in (2) must be retained for 3 years from the end of the <i>stabilising period</i> for the <i>offer</i>.</p> <p>This transitional provision applies to an offer as defined in the 1990 Rules, and has effect as a <i>price stabilising rule</i>.</p>	<p><i>Commence-</i> <i>ment</i> until the end of the <i>stabilis-</i> <i>ing period</i> for the offer</p>	<p><i>Commence-</i> <i>ment</i></p>

Table

Handbook reference	Subject of record	Contents of record	When record must be made	Retention period
MAR 2.7R	Price stabilising action	Full details as noted in MAR 2.7.2R	On initiation of stabilising action	3 years
MAR 3.5.4	Non Market Price Transactions	Details of steps taken in consideration of NMPTs	On considering the transaction	3 years

Handbook Modules

Schedule2 Notification requirements

G

There are no notification requirements in MAR.

Handbook Modules

Schedule3 Fees and other required payments

G

There are no requirements for fees or other payments in MAR.

Handbook Modules

Schedule4 Powers Exercised

1 G
 Table

The following powers in the *Act* have been exercised by the *FSA* to make the *rules* in *MAR*:

- Section 118(8) (Market abuse)
- Section 138 (General rule-making power)
- Section 144 (Price stabilising rules)
- Section 145 (Financial promotion rules)
- Section 149 (Evidential provisions)
- Section 150(2) (actions for damages)
- Section 156 (General supplementary powers)

The following powers in the *Act* have been exercised by the *FSA* to give the *guidance* in *MAR* (including the *guidance* comprising of the *Code of market conduct*):

- Section 119 (The Code)
- Section 120 (Provisions included in the Authority's code by reference to the City Code)
- Section 157(1) (Guidance)

Handbook Modules

Schedule5 Rights of action for damages

G

1 Table

1. The table below sets out the *rules* in *MAR* contravention of which by an *authorised person* may be actionable under section 150 of the *Act* (Actions for damages) by a *person* who suffers loss as a result of the contravention.
2. If a "yes" appears in the column headed "For private person?", the *rule* may be actionable by a "*private person*" under section 150 unless a "yes" appears in the column headed "Removed". A "yes" in the column headed "Removed" indicates that the *FSA* has removed the right of action under section 150(2) of the *Act*. If so, a reference to the *rule* in which it is removed is also given.
3. In accordance with the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001/2256), a "*private person*" is:
 - i. any individual, except when acting in the course of carrying on a *regulated activity*; and
 - ii. any *person* who is not an individual, except when acting in the course of carrying on business of any kind;
 but does not include a government, a local authority or an international organisation.
4. The column headed "For other person?" indicates whether the rule is actionable by a *person* other than a *private person*, in accordance with those Regulations. If so, an indication of the type of *person* by whom the *rule* is actionable is given.

2 Table

Interim Prudential Sourcebook for Banks Instrument 2001

1. The Financial Services Authority makes this instrument on 21 June 2001.

New rules and guidance

2. The Financial Services Authority makes the rules (other than IPRU (BANK) 3.3.15R in chapter GN) and gives the guidance (other than section 7.3 of chapter LM) in Annex A (The Sourcebook) to this instrument.
3. Sections 138, 149 and 156 of the Financial Services and Markets Act 2000 (the "Act") are specified for the purpose of section 153(2) of the Act.

Continued rule

4. The Financial Services Authority designates paragraph 4(4) of Schedule 3 to the Banking Act 1987 (1987 c22), as amended, (the "continued rule") for the purposes of article 4(1) of the Financial Services and Markets Act 2000 (Repeals, Transitional Provisions and Savings) (Rules) Order 2001 (the "Order").
5. The continued rule is to be treated as having effect under section 138 of the Act (General rule making power).
6. The continued rule:
 - (i) is modified so as to be to be interpreted in accordance with, and applies subject to, the general provisions contained in the General Provisions Instrument 2001; and
 - (ii) is modified in accordance with Annex B (Modification of continued rule) to this instrument; and
 - (iii) applies to a bank, except that in the case of an EEA bank with a UK branch paragraph (1) of the continued rule applies only in relation to that branch.
7. In paragraph 6(iii) above, "bank", "EEA bank", "UK" and "branch" have the meanings given in IPRU (BANK) 3.5.1R in chapter GN in Annex A (The Sourcebook) to this instrument.
8. The continued rule (incorporating the modifications made pursuant to paragraph 6(i) and (ii) above) is set out in Annex A (The Sourcebook) to this instrument at IPRU (BANK) 3.3.15R in chapter GN.

Guidance on continued rule

9. The Financial Services Authority gives the guidance (the "guidance on the continued rule") in section 7.3 (Committed facilities) of chapter LM in Annex A (The Sourcebook) to this instrument under section 157 of the Act and article 11 of the Order.

10. The guidance on the continued rule reproduces, with necessary modifications, section 7.3 (Committed facilities) of chapter LM in Volume II of the Guide to Banking Supervisory Policy issued by the Financial Services Authority on 30 September 2000.

Further provisions

11. This instrument shall come into force at the beginning of the day on which section 19 of the Act (the general prohibition) comes into force.
12. This instrument may be cited as the Interim Prudential Sourcebook for Banks Instrument 2001.
13. The provisions in Annex A to this instrument may be cited as the Interim Prudential Sourcebook for Banks.

By order of the Board
21 June 2001

Annex A
The Sourcebook

IPRU (BANK) attached

Annex B

Modification of continued rule

(1) The continued rule (paragraph 4(4) of Schedule 3 to the Banking Act 1987, as amended) is modified as follows:

- (a) Renumber the paragraph as "3.3.15R (1)".
- (b) Delete the words before "maintain" and substitute "*A bank, except an EEA bank which does not have a UK branch, must*".
- (c) Delete the words after "liquidity," and before "fall due" and substitute "taking into account the nature and scale of its business so that it is able to meet its obligations as they".
- (d) Delete the words after "fall due" to the end of the sentence.
- (e) After the end of the paragraph, add:

"(2) In the case of an *EEA bank* with a *UK branch*, (1) applies only in relation to that *branch*."

Annex C

Statement of purpose and compatibility applying to continued rule (IPRU (BANK) 3.3.15R)

Purpose

The purpose of IPRU (BANK) 3.3.15R is to require a firm to maintain a minimum amount of liquidity so that it is able to meet its obligations as they fall due. The FSA believes that making 3.3.15R and requiring firms to comply with it will contribute to meeting the FSA's regulatory objectives of market confidence and the protection of consumers. (Although this rule is not intended to contribute to the regulatory objectives of public awareness and the reduction of financial crime, the FSA believes it is compatible with these two objectives)

Compatibility of continued rule with the FSA's general duties under section 2 of the Act

The FSA believes that making 3.3.15R and so requiring firms to comply with it is compatible with the regulatory objectives of market confidence and the protection of consumers for the following reasons:

Market confidence

3.3.15R aims to ensure that firms maintain adequate liquidity in order to help mitigate the risk that they may be unable to meet their liabilities as they fall due. Compliance with this rule will consequently reduce the risk that the financial system operates in ways which would damage market confidence.

Consumer protection

3.3.15R aims to ensure that firms maintain adequate liquidity in order to help mitigate the risk that they may be unable to meet their liabilities as they fall due. Compliance with this rule will consequently reduce the risk that firms may be unable to meet their commitments to consumers (including depositors) as they fall due.

Principles of good regulation

The FSA's reasons for believing that making 3.3.15R is compatible with its general duty to have regard to the principles in section 2(3) of the Act are set out below.

The need to use its resources in the most efficient and economic way

The FSA believes that the most efficient and economic way to set standards regarding liquidity is to maintain the existing standard for liquidity for firms contained in Schedule 3 of the Banking Act 1987. Continuing existing prudential standards is the approach adopted for the IPRU (BANK) as a whole which preserves continuity for firms pending the introduction of an Integrated Prudential Sourcebook in the medium term.

The responsibilities of those who manage the affairs of authorised persons

3.3.15R is framed in such a way as to leave it to a firm's senior management how best to meet the required standard.

The principle that a burden or restriction should be proportionate to the benefits, considered in general terms, which are expected to result from the imposition of that burden or restriction

Given that 3.3.15R maintains an existing standard, the FSA does not believe that any cost benefit issues will arise for a firm in maintaining that standard.

The desirability of facilitating innovation in connection with regulated activities

The FSA does not believe that 3.3.15R will restrict the scope of firms' management to develop their regulated activities in an innovative manner.

The international character of financial services and markets and the desirability of maintaining the competitive position of the United Kingdom

Given that 3.3.15R maintains an existing standard, the FSA does not believe that it will have any impact on the competitive position of the United Kingdom.

The need to minimise the adverse effects on competition that may arise from anything done in the discharge of the FSA's general functions

Given that 3.3.15R maintains an existing standard, the FSA does not believe that it will have an adverse affect on competition.

The desirability of facilitating competition between those who are subject to any form of regulation by the FSA

Given that 3.3.15R maintains an existing standard, the FSA does not believe that it will have any impact on competition between those who are subject to any form of regulation by the FSA.

Compatibility with the duty of the FSA to act in a way which the FSA considers most appropriate for the purpose of meeting its regulatory objectives

The FSA believes that making 3.3.15R is the most appropriate way to meet its objectives because it reflects the importance of firms maintaining adequate liquidity so as to reduce the probability of prudential failure. Also, it gives firms some flexibility over how they choose to meet the standard and therefore gives them a wider choice of risk mitigation techniques.

**THE INTERIM PRUDENTIAL SOURCEBOOK FOR BUILDING SOCIETIES
INSTRUMENT 2001**

Preface

1. The Financial Services Authority makes the rules and gives the guidance in this instrument on 21 June 2001.
2. Sections 138, 149 and 156 of the Financial Services and Markets Act 2000 (the “Act”) are specified for the purpose of section 153(2).
3. This instrument shall come into force at the beginning of the day on which section 19 of the Act (the general prohibition) comes into force.
4. This instrument is to be interpreted in accordance with, and applies subject to, the General Provisions contained in the General Provisions Instrument 2001.
5. This instrument may be cited as the Interim Prudential Sourcebook for Building Societies Instrument 2001.
6. This instrument, excluding the provisions in this preface, may be cited as the Interim Prudential Sourcebook for Building Societies , or IPRU (BSOC).

Interim Prudential Sourcebook for Building Societies

X. Introductory Chapter

X.1 Introduction

X.1.1 G The rules in this sourcebook are made under section 138 of the Financial Services and Markets Act 2000 (“the Act”) and that section and sections 149 and 156 are specified for the purposes of section 153. The guidance in volume 2 of this sourcebook is given under section 157(1)(b) of the Act.

X.2 Application

X.2.1 R **The Interim Prudential Sourcebook for building societies applies to all firms with permission from the Financial Services Authority to accept deposits which are also building societies as defined in the Building Societies Act 1986 and, in this sourcebook, “society” and “societies” are construed accordingly.**

X.3 Content of this sourcebook

X.3.1 G This sourcebook is divided into two volumes. Volume 1 contains eleven prudential chapters which set out the Financial Services Authority’s prudential standards for societies. Three of the prudential chapters incorporate material drawn from the Interim Prudential Sourcebook for banks and guidance on the presentational style of the bank material can be found in section 4 of chapter GN of that sourcebook. Volume 2 contains five chapters of constitutional guidance: the Financial Services Authority (the “FSA”) inherits from the Building Societies Commission (“the Commission”) a range of functions under the Building Societies Act 1986 (“the 1986 Act”) related to the constitutional aspects of building societies and these chapters give guidance on how the FSA will exercise certain of these functions. The constitutional chapters replace Guidance Notes previously issued by the Commission.

X.4 The Purpose of the Interim Prudential Sourcebook for Building Societies

X.4.1 G The Interim Prudential Sourcebook for building societies sets out the FSA's detailed prudential standards and related notification requirements applying to societies authorised under the Act and covers the constitutional matters referred to above. Other prudential standards applying to societies are set out in the Act and elsewhere in the Handbook: see, for example, the Threshold Conditions (COND), the Principles for Businesses (PRIN) and Senior Management Arrangements, Systems and Controls (SYSC). Other notification requirements are set out in chapter 15 of the Supervision Manual (SUP).

X.4.2 G This sourcebook, together with the separate prudential sourcebook applying to banks, also implements EC directives setting out prudential standards as they apply to credit institutions.

X.4.3 G This sourcebook applies to societies on an interim basis pending the preparation and implementation of a single Prudential Sourcebook applying to all firms regulated by the FSA – termed the Integrated Prudential Sourcebook. In developing the interim sourcebook, the FSA has drawn on the standards which formerly applied to societies authorised under the 1986 Act set out in the Statement of Principles and Prudential Notes issued by the Commission. These standards took the form of the Commission's interpretation of the criteria of prudent management in section 45 of the 1986 Act (which are repealed under the Act). The FSA has expressed some of the content of the former criteria of prudent management as rules in this Interim Prudential Sourcebook, but the majority of the previous material has now been recast as guidance under the Act. A significant amount of material previously published by the Commission has not been carried forward into the Interim Prudential Sourcebook, particularly descriptive, historical and explanatory material. This has been removed because the FSA considers that it is not appropriate material for prudential rules and guidance under the Act, not because the material is in any way incorrect or irrelevant to societies' business. The rules and evidential provisions are distributed throughout the prudential chapters of this sourcebook: rules can be found in paragraphs X.2.1, X.8.2, 1.2.1, 1.2.2, 4.2.1, 4.2.5, 4.2.6, 5.2.1, 5.2.7, 5.2.9, 6.2.1, 6.2.2, 6.2.3, 7.6.2, 7.6.3, 7.7.1,

7.7.3, 8.2.1, 9.2.1, 9.2.7 and 9.2.8. Evidential provisions can be found in paragraphs 5.2.4, 9.2.3 and 9.2.5.

X.4.4 G The approach outlined in X.4.3 has been adopted, after consultation, as appropriate for material drawn from the previous standards of the Commission that will apply on an interim basis only. It is the FSA's intention in developing its final prudential standards (in the Integrated Prudential Sourcebook) to make further use of its rule-making powers to express its detailed prudential standards.

X.4.5 G This sourcebook also sets out both rules and guidance on the information related to prudential standards which societies should notify to the FSA. The FSA needs to be provided with certain information by societies if it is to monitor compliance with its requirements. The rules and guidance in this sourcebook supplement, for societies, the FSA's general notification requirements set out in the Supervision Manual (see SUP 15). In addition to the rules, the following paragraphs contain guidance on matters about which the FSA expects to be notified: 1.5.2, 1.6.4(1), 1.11.1, 1A4.2, 2.9.1, 4.5.8, 7.6.4 and 7.6.5.

X.4.6 G In addition to the rules and guidance applying to societies under the Act, directors and certain staff of all firms are subject to obligations referred to as the Statements of Principle for Approved Persons. The FSA has issued a Code of Practice to help determine whether an Approved Person's conduct has complied with a Statement of Principle. The Statements and the Code of Practice are set out in APER. A society's failure to meet the prudential standards set out in this sourcebook may also be relevant to the FSA's assessment of whether a particular Approved Person has complied with a Statement of Principle.

X.5 Principal Purpose of a building society and funding and lending limits

X.5.1 G Building societies are bound by sections of the 1986 Act which place limitations on certain aspects of their business (particularly sections 5, 6 and 7). The following paragraphs provide guidance on compliance with those sections and the FSA's

powers in relation thereto, replacing guidance previously included in the Commission's Statement of Principles.

X.5.2 G A building society may only be, and continue to be, incorporated under the 1986 Act if its principal office is in the United Kingdom and if it complies with the purpose or principal purpose (section 5(1) of the 1986 Act) of all building societies, namely:

“... that of making loans which are secured on residential property and are funded substantially by its members ...”

This criterion lies at the heart of what it is to be a building society and sets down its defining characteristics. A failure, or projected failure, to comply with the criterion may therefore cast doubt on the society's longer-term commitment to remain as a building society.

X.5.3 G The lending (section 6) and funding (section 7) limits, commonly known as the “nature limits”, are quantitative criteria which help to determine an individual society's compliance with the purpose or principal purpose.

X.5.4 G Compliance with the statutory purpose is not, however, limited to compliance with limits on the composition of the society's assets and liabilities. Societies are involved in activities or provide services which do not of themselves create significant balance sheet assets or liabilities. Such business may still have an impact on a society's compliance with the statutory purpose because of the actual or projected proportion of the society's business made up of those activities.

X.5.5 G In assessing whether a society is complying with the statutory purpose, the FSA will adopt a broadly-based judgement taking all relevant factors, both quantitative and qualitative, into account. As part of that overall assessment, there are two main quantitative indicators. First, the actual and projected proportion of the society's gross income that is, or is intended to be, derived from activities or services that have little or no connection with the making of loans secured on residential property (income from car insurance would, for example be considered unconnected business but income from mortgage and property related insurance and valuation services would, for example, be considered connected with core

lending business). Second, it would take into account the actual and projected proportion of the society's resources (for example, financial assets, capital, senior management and staff) that are, or are intended to be, applied to those other activities or services.

X.5.6 G The FSA expects societies to draw up their corporate and other business plans so as to provide reasonable assurance that they will comply with the statutory purpose and the nature limits. The FSA inherits the Commission's enforcement powers (in sections 36, 36A and 37 of the 1986 Act) in relation to breach of statutory purpose or nature limits.

X.6 The continuing 1986 Act

X.6.1 G Before N2, the main piece of legislation governing building societies and their activities has been the Building Societies Act 1986, as amended, in particular by the Building Societies Act 1997. The 1986 Act fulfilled a number of roles. It established the Commission as the prudential supervisor for societies and gave the Commission certain prudential powers of control, but it also, for example, set out the principal features of a building society and made provision for societies' internal constitutional arrangements and procedures for mergers and transfers of business. Although nearly all of those sections of the 1986 Act which related to prudential supervision have been repealed by or under the Act, a substantial part of the 1986 Act remains in force. For example, all references to the Commission have been removed and any remaining powers of control pass to the FSA (the Commission's powers to make secondary legislation under the remainder of the 1986 Act pass to the Treasury). The constitutional parts of the 1986 Act, however, remain, e.g. principal purpose and nature limits, the obligation to prepare annual accounts, provisions on societies' rules and general governance, membership, meeting and voting arrangements and procedures for mergers and transfers.

X.7 Frequently Used terms

X.7.1 G The following terms are used frequently in the sourcebook and have the meaning described here:

PN	a Prudential Note issued by the Building Societies Commission
section 9A	section 9A of the Building Societies Act 1986, as amended
the Accounts Regulations	the Building Societies (Accounts & Related Provisions) Regulations 1998 (SI 1998/504) as amended
the Act	the Financial Services and Markets Act 2000
the BCD	Directive 2000/12/EC of 20 March 2000 relating to the taking up and pursuit of the business of credit institutions (the “Banking Consolidation Directive”). This directive consolidated most of the EC directives relating to credit institutions into one text. The directives so consolidated include the Own Funds Directive (89/299/EEC), the Solvency Ratio Directive (89/647/EEC), the Large Exposures Directive (92/121/EEC), the 1 st and 2 nd Banking Co-ordination Directives (respectively 77/780/EEC and 89/646/EEC) and the 2 nd Consolidated Supervision Directive (92/30/EEC).
the central office	the department of the FSA carrying out the registration functions transferred from the central office of the Registry of Friendly Societies
the Commission	the Building Societies Commission
the FSA	the Financial Services Authority
the 1986 Act	the Building Societies Act 1986, as amended in particular by the Building Societies Act 1997 and by and under the Financial Services and Markets Act 2000
the 1997 Act	the Building Societies Act 1997

X.8 Schedule of Transitional Provisions

X.8.1 G A number of rules in this Sourcebook require societies to provide copies of policy statements covering various aspects of their business and their corporate plan to the

FSA. These rules replace similar prudential requirements previously imposed by the Commission.

X.8.2 R A society which, before the date of the coming into force of this rule, had provided to the Commission a copy of its current policy statement on each of financial risk management, liquidity, and lending and a copy of its current corporate plan is taken to be in compliance, at that date, with any obligation to submit to the FSA such document contained in, respectively, rules 4.2.5, 5.2.7, 6.2.2, and 9.27.

X.8.3 G X.4.5 refers to particular paragraphs in this Sourcebook which contain guidance on matters about which the FSA expects to be notified or in respect of which it expects to receive certain documents. These matters were previously required to be communicated to the Commission and in some cases (where the communication related to a past event, a proposed change in a society's approach or a situation which is ongoing) notification or documents may already have been given to the Commission before the date on which the guidance set out in this Sourcebook comes into effect. The relevant guidance for these purposes is set out in paragraphs 1.5.2, 1.6.4(1), 1.11.1, 1A.4.2, 2.9.1, 4.5.8, 7.6.4 and 7.6.5. Any society which, before that date, had notified the Commission, or provided documents to the Commission, about a matter referred to in any of those paragraphs, in compliance with the Commission's guidance, is taken to be in compliance, at that date, with the relevant paragraph in this Sourcebook in so far as it relates to the matter in respect of which notification or documents had been received by the Commission.

X 8.4 G In addition , GEN contains some technical transitional provisions that apply throughout the Handbook and which are designed to ensure a smooth transition at commencement (that is ,when section 19 of the Act (the general prohibition) comes in to force) . The Supervision manual (SUP) contains transitional provisions which carry forward written concessions relating to pre-commencement provisions.

Interim Prudential Sourcebook for Building Societies

1 Solvency

1.1 Introduction

1.1.1 G This chapter replaces PN 1998/1 issued by the Commission. It includes rules and guidance for societies on the Threshold Condition in Schedule 6 paragraph 4(1) of the Act (the resources of a firm must, in the opinion of the FSA, be adequate in relation to the regulated activities it seeks to carry on) – see also COND 2.4 - and on Principle 4 ("a firm must maintain adequate financial resources"). It describes the purpose of capital in a deposit-taking institution and the particular risks faced by building societies. It describes how societies should calculate their solvency ratio for capital adequacy purposes, what funds are eligible for inclusion in own funds and the FSA's methodology for setting Threshold Ratios. It should be read in conjunction with Chapter 2.

1.1.2 G This chapter further explains that the FSA will set each society a Threshold Ratio based on the FSA's assessment of a society's risk profile. Societies are expected to meet their Threshold Ratio at all times on both a consolidated and society only basis. The setting of a Threshold Ratio by the FSA does not absolve the society's board from maintaining such higher capital ratio as it considers prudent for the maintenance and management of the society's business and its future plans.

1.1.3 G Finally this chapter explains how the capital adequacy requirement should be calculated and sets out the FSA's methodology for setting threshold ratios.

1.2 Rules

1.2.1 R A society must maintain adequate capital resources commensurate with the nature and scale of its business and the risks inherent in its business. Where a society has subsidiary undertakings it must also maintain capital resources commensurate with the scale and nature of the activities of the whole group.

1.2.2 R A society must maintain own funds of at least £1m.

1.3 The Purpose of Capital

1.3.1 G The capital of a body corporate is the amount by which the value of its assets exceed its non-capital liabilities. A deposit taking institution needs sufficient capital:

- (1) to maintain itself as a viable going concern, able to overcome either expected or unexpected difficulties (including both squeezes on margins and losses on assets), to exploit opportunities and to sustain its infrastructure;
- (2) to secure, in conjunction with liquidity, its ability to repay deposits (and in a building society, shares) whenever that may be required; and
- (3) to maintain public confidence that the institution will be able to repay such deposits (and shares) in full.

1.4 EU Directives

1.4.1 G The EU has harmonised capital adequacy requirements for credit institutions in the EU by the following principal directives:

- (1) Council Directive of 17 April 1989 on the Own Funds of Credit Institutions (89/299/EEC);
- (2) Council Directive of 18 December 1989 on a Solvency Ratio for Credit Institutions (89/647/EEC).

1.4.2 G In March 2000, these directives, along with the Large Exposures Directive, the 1st and 2nd Banking Co-ordination Directives and the 2nd Consolidated Supervision Directive, were consolidated into a single Directive, known as the Banking Consolidation Directive (2000/12/EC). Elsewhere in this sourcebook, references will be to the consolidated directive (“BCD”).

1.4.3 G A further directive, 93/6/EEC on the capital adequacy of investment firms and credit institutions (the "CAD", not included in the BCD), sets out the capital requirements for credit institutions which have trading books and foreign exchange exposures. Building societies which are on the "Trading Book" approach to Treasury management may engage in those activities (see section 1.18).

1.4.4 G The BCD requires national authorities to ensure that all credit institutions maintain sufficient capital resources in relation to their business to ensure a minimum solvency ratio of 8%. The BCD specifies the types of capital resources whose inclusion is permitted in the calculation of the solvency ratio: those resources are known, collectively, as "own funds". It also sets out the calculation of the solvency ratio as follows:

$$\text{solvency ratio} = \frac{100 \times \Sigma \text{ own funds}}{\Sigma(\text{risk weighted assets} + \text{off balance sheet items})} \geq 8\%$$

i.e. the solvency ratio equals own funds divided by the sum of risk weighted assets and off balance sheet items, expressed as a percentage and should be 8% or more.

1.4.5 G The BCD specifies the minimum risk weights which should be applied to assets in the balance sheet and the "credit conversion factors" to be applied to off balance sheet items, in order to calculate the denominator of the solvency ratio.

1.5 Threshold Ratios

1.5.1 G Each society has been informed of the Threshold Ratio it is expected to maintain. This has been set by the FSA taking account of the nature and inherent risks of that society's business in areas which are not covered or not sufficiently covered by application of risk weighting. The Threshold Ratio should be maintained on both a society only basis and on a group basis reflecting the fact that the subsidiaries are separate legal entities and that the society cannot rely on having access to their capital at all times. In certain circumstances solo consolidation may be agreed; this is further explained in section 1.11. Paragraph 1.5.3 explains the FSA's approach to setting threshold ratios for societies. In every case the FSA

has provided against a society inadvertently breaching the EC 8% minimum. The setting of a Threshold Ratio by the FSA does not absolve boards of societies from the responsibility of maintaining such higher ratios as they consider appropriate for their business and future plans.

1.5.2 G There is no prescribed amount by which the FSA expects a society's capital to exceed that required to meet the threshold but it is the responsibility of the society to plan so it has sufficient capital at all times to avoid breaching its Threshold Ratio. The Board should therefore set and monitor a capital margin above both the society only and the group threshold ratios which management will be expected to observe at all times; societies' systems should be able to demonstrate that this is the case. The FSA should be advised of the margin set and any changes thereto. Subject to the foregoing, the FSA does not object to societies reducing solvency ratios, for example, by repaying excess capital to their members, but it will want to be satisfied that any such reduction is planned and capable of being reversed without undue adverse affect should changes in the economic position of the society or in its risk profile so dictate. Any society that falls below its margin and/or is in danger of breaching its Threshold Ratio should advise the FSA immediately, stating how it proposes to remedy the situation. The projected solvency ratio should feature in all operational and strategic plans and any proposal for a new business venture should take into account any impact on the society's solvency ratio.

1.5.3 G A society's threshold ratio reflects the FSA's assessment of the society's risk profile. The seven factors which go into establishing the threshold ratio are board, management, systems, asset quality (insofar as not adequately covered by minimum risk weights and including MIG arrangements), treasury management (including hedging, funding and liquidity), planning (including the planning and control of new initiatives) and operating performance (including consistency in financial results and vulnerability to external shocks, for example, through geographic concentration). A blank appraisal form currently used to assess societies' risk profile can be found in Annex 1J.

1.5.4 G There are a number of points which have an important bearing on the appraisal process:

- (1) the seven broad factors, and the various criteria underlying those factors, do not carry equal weight amongst themselves or uniformly across societies. The system recognises that some factors and criteria are more important to some societies than others, consequently the threshold ratio is not based on an arithmetical average of criteria and factors but these are weighted by the FSA to the extent appropriate to each society;
- (2) the assessment system recognises that there are other criteria, which may be relevant only to particular societies, and these are also taken into account where they exist;
- (3) whilst some criteria focus on societies' competence in a particular area, others evaluate the risk of particular activities which are not reflected in the asset weighting formula but which exist even in the most competently managed operation;
- (4) societies are assessed in the context of both their past performance and of their current and planned business activities. The process recognises that some societies' business requires less sophisticated systems and less board and managerial expertise than others;
- (5) where societies merge, the merged institution will be the subject of a full new appraisal. The FSA recognises that the threshold ratio which is set on the basis of this appraisal might affect the merger terms and the FSA will be prepared to give an advance indicative ratio, if so requested by the societies involved.

1.5.5 G In setting the ratios the FSA has been careful to review each society's ratio against those of the rest of the building society sector to ensure that societies' ratios are consistent with one another. Both societies and the economic environment in which they operate are constantly evolving and the FSA reviews societies' ratios both individually and across the sector on a regular basis, but it is the FSA's expectation that threshold ratios will be reasonably stable with infrequent changes.

1.6 Own Funds

1.6.1 G The BCD specifies which capital resources can count towards own funds and the extent to which they may do so. Its purpose is to ensure that credit institutions operating under supervisory regimes in different EU member states do not count towards own funds any items not falling within the BCD's list nor include any items to a greater extent than the BCD permits. But not all the items contained in the list are relevant to societies: moreover the BCD gives national authorities discretion whether or not to allow the use of the various constituents of capital listed.

1.6.2 G For building societies, own funds comprise reserves, all other capital resources listed in Annex 1A and minority interests in accordance with section 1.7.

1.6.3 G The BCD distinguishes between those components of own funds, such as reserves and PIBS, which may be included without limit and those to which a limit applies (see also chapter 2). These two categories closely correspond to the categories of core, or Tier 1 capital and supplementary, or Tier 2 capital used in the Basel Accord, and the same terminology is therefore used for convenience in this chapter although it does not feature in the BCD itself.

1.6.4 G Whenever a calculation of own funds is to be made other than at the balance sheet date, the amount of reserves included should be after deduction of any overall losses in the current year:

- (1) where a society does not seek to take credit in its solvency ratio calculation for profits earned in the current year, but simply reports on the basis of its previous year-end reserves, then as a minimum the society should have passed a board resolution, after the close of the second financial quarter, to the effect that the directors have satisfied themselves that no reduction in reserves has been sustained during the first six months of the financial year and a copy of this resolution should be forwarded to the FSA. Should the FSA be concerned about a society's ability to meet its capital requirements the society may be required to

obtain a certificate or opinion from its external auditors that no reduction in reserves has been sustained;

- (2) interim current year profits may be included with reserves, i.e. in Tier 1, but only if they have been verified by the society's external auditors and a report from the auditors that the interim profits have been verified should be provided.

Where a society includes general provisions in its solvency ratio calculation other than at balance sheet date then as a minimum it should have passed a board resolution, after the close of the second financial quarter, to the effect that the directors have satisfied themselves that the general provisions meet the requirements set out in Annex 1A3.1.

1.6.5 G What constitutes verification by external auditors is summarised in Annex 1E. Societies may include interim profits on a quarterly basis, but are not required to do so: some societies whose capital is plentiful may prefer to choose the simpler minimum procedure outlined in paragraph 1.6.4(1). Moreover, the FSA recognises that it will not be practicable for societies or their auditors to complete the verification procedures prior to the deadline for submission of the quarterly returns. For the first, second and third financial quarters societies may include interim profits in their returns, if they so wish, on the understanding that the society will submit the required reports and, where necessary, board resolutions within two months of the quarter end. For the fourth quarter the FSA will rely on the forthcoming audited accounts and accordingly the full year's profits should be included in own funds under Tier 1. The figure shown for reserves in the return for the first quarter should agree with that shown in the annual accounts.

1.7 Minority Interests

1.7.1 G The BCD provides for the inclusion of minority interests when they are credit (negative) items in the capital of a subsidiary undertaking in the calculation of consolidated own funds of a society and these subsidiaries. The FSA believes that building societies should not regard minority shareholdings as having all the properties of their own capital because minority interests cannot absorb the losses of the building society or any other

member of its group and they would not necessarily be available to the building society if the society or subsidiary undertaking were to be wound up.

1.7.2 G Accordingly, minority interests should only be included for the purpose of calculating consolidated own funds, and then only if:

- (1) the total amount of minority interests aggregated with Tier 1 or Tier 2 capital does not exceed 10% of the society's own funds in that category;
- (2) it is clear that the society has effective practical control over the subsidiary undertaking and can pass a special resolution;
- (3) the society owns at least 75% of the equity capital of the subsidiary undertaking.

In determining which elements of minority interests should be integrated into Tier 1 own funds societies should have regard to the characteristics of the subsidiary undertaking's capital. Only those items which are analogous to a society's Tier 1 own funds should be included in Tier 1. The remainder should be assigned to the appropriate category of Tier 2 funds. In this section, references to subsidiaries are to entities which are subsidiaries of the society.

1.8 Deductions

1.8.1 G Societies should make certain deductions from own funds and observe certain restrictions on the inclusion of Tier 2 items. The deductions comprise:

- (1) intangible fixed assets, including goodwill;
- (2) all holdings of capital instruments of other credit or financial institutions (see Annex 1D for definitions);

- (3) all holdings of capital instruments of regulated broker-dealers (subject to CAD or an analogous regime);
- (4) (a) the amount of the capital deficit of any subsidiary undertaking which has such a deficit (only required for society only calculations). The entire deficit should be excluded even if the subsidiary is only partially owned;
- (b) the proportion attributable to outside minority interests in the capital deficit of any subsidiary undertaking which has such a deficit (required for consolidated calculations).

1.8.2 G Societies may be expected to make a deduction from own funds to reflect the existence of a contingent liability which, if called, would create an asset that societies would be required to deduct from own funds.

N B: See section 1.13 for deductions in respect of insurance companies, section 1.14 for MIG captives, section 1.16 for holdings in other institutions, and for possible deductions arising out of securitisation, section 1.15.

1.9 Limits on Tier 2 Capital

1.9.1 G The maximum amount of term subordinated debt which should be counted as own funds within Tier 2 is 50% of Tier 1 capital after deduction of intangible fixed assets. Total Tier 2 capital should not exceed 100% of Tier 1 capital after deduction of intangible fixed assets. Funds eligible for inclusion in Tier 2 capital are defined in Annex 1A.

1.10 Solvency Ratio

1.10.1 G The solvency ratio of any society is determined by the formula set out in paragraph 1.4.4. Societies should calculate their own ratios using the definition of own funds contained in this Chapter and in Annex 1A and the risk weights and credit conversion factors in

Annexes 1B and 1C. The relevant risk weight (a percentage) is applied to the balance sheet value of an asset, or in the case of off balance sheet items, to the nominal value multiplied by the appropriate credit conversion factor. Asset values and values attributed to off balance sheet items should also be determined on a basis consistent with the Accounts Regulations and should be net of any specific provisions. Where a society has subsidiary undertakings, the solvency ratio should be calculated on a consolidated basis. Consolidation should be on the same basis as applies to the society's statutory accounts (i.e. the Accounts Regulations). Where subsidiary undertakings, either singly or in aggregate, have either:

- (1) total gross assets equal to or greater than 1% of the society's assets; or
- (2) income which is equal to or greater than 1% of the society's total income; or
- (3) profits or losses which are equal to or greater than 1% of the society's profits;

the society should also calculate its solvency ratio on a society only basis and both calculations should meet the society's solvency ratio threshold (see Annex 1H for definitions of terms used in (1), (2) and (3)). Societies should report their solvency ratios quarterly in the QFS1 return.

1.10.2 G The percentage weights given in the BCD are minima: the directive explicitly recognises that national authorities may set higher weightings as they see fit. The FSA has decided to do so for securities issued by Zone A or Zone B countries. These are weighted at 10% or 20%, according to residual maturity, as a proxy for interest-rate risk, rather than at 0% as the BCD permits.

1.10.3 G The FSA uses the "mark-to-market" approach for the measurement of off balance sheet risks associated with interest-rate and foreign exchange contracts, and societies are expected to report on this basis. Treatment of off-balance sheet items is shown in Annex 1C.

1.11 Solo Consolidation

1.11.1 G The FSA recognises that for structural reasons societies have historically conducted certain core business through subsidiaries which they might otherwise have preferred to conduct themselves. In such cases the FSA may agree or expect societies to consolidate such subsidiary undertakings when calculating their society only solvency ratio. However, in so doing the FSA may expect the society to deduct a percentage of the subsidiary undertaking's capital from the society's own funds when making the society only solvency ratio calculation. This deduction will reflect the FSA's view of any enhanced risk in opting to conduct the business through a subsidiary rather than the society itself. At the minimum there is a risk that the environment which made the subsidiary route profitable may change leaving the society with a cost to unwind the structure. The FSA will discuss with societies where solo consolidation is considered appropriate or necessary, but see section 1.12. Where solo consolidation occurs societies should confirm annually in writing to the FSA that the solo consolidated subsidiaries continue to meet the criteria under which solo consolidation is agreed and that there has been no change in the type of business conducted by the subsidiary undertaking. Confirmation should be received within two months of the society's year end.

1.12 Mortgage Subsidiaries

1.12.1 G The principle of solo consolidation can be applied not only to capital adequacy but also to large exposures (see Chapter 7 Large Exposures) and although these are two distinct issues the grounds for confusion are much reduced if it is possible and prudent to adopt a common approach in respect of specific subsidiaries or categories of subsidiaries. Provided they comply with certain criteria, mortgage subsidiaries are a suitable category for solo consolidation in respect of both large exposures and capital adequacy. To enable the FSA to make valid comparisons across the building society sector it is important that all mortgage subsidiaries which meet the criteria are treated in a similar manner; however, under the BCD the FSA is required to give its approval to applications from each society individually. All societies which have mortgage subsidiaries which:

- (1) are under the effective day to day control of the society's executives;

- (2) are wholly owned by the society;
- (3) are not subject to the capital requirements of another regulator;
- (4) have no restrictions on winding up and upstreaming capital at any time;

and either:

- (5) have no third party creditors at all (this is not intended to include small administrative creditors such as the electricity bill); or
- (6) are constituted so that the society can substitute itself for the mortgage subsidiary and perform its obligations to third party creditors;

should apply to the FSA to solo consolidate these subsidiaries confirming that they meet the above mentioned criteria.

1.13 Exclusions from Consolidation

1.13.1 G Subject to a limited degree of discretion allowed to the supervisory authorities, the BCD requires building societies to consolidate subsidiary undertakings which are financial or credit institutions (defined in Annex 1D) for the purposes of calculating their solvency ratio. However unless:

- (1) the inclusion of a particular non financial institution or non-credit institution subsidiary undertaking would result in a higher solvency ratio than if it were to be excluded; or
- (2) the FSA specifically requires the subsidiary undertaking to be excluded;

societies should include all their subsidiary undertakings when calculating their solvency ratio. Exclusion is likely where the FSA believes that a subsidiary's inclusion in the

consolidation would be misleading or inappropriate. Life insurance and general insurance companies fall into this category and societies should calculate their solvency ratio after reversing the impact of the investment in, or consolidation of, these subsidiary undertakings. In the society only ratio calculation, the carrying value of the investment should be removed from the weighted asset total, and an equal deduction made from the society's own funds. In the consolidated ratio calculation, the weighted assets of the insurance subsidiary should be removed from the consolidated weighted assets, and the reserves of the subsidiary consolidated into group own funds should be reversed out, including any benefit of the embedded value taken through the group's reserves. The only profits of the subsidiary that may count as group own funds are those that have been distributed to the parent society i.e. as dividends.

1.14 Mortgage Indemnity Insurance Captives

1.14.1 G Societies which own a MIG Captive should include the captive when calculating their consolidated solvency ratio (for rules and guidance on mortgage indemnity insurance, see chapter 8). For the society only solvency ratio the FSA has adopted a composite treatment which recognises both that the capital invested in the captive bears a heavier risk of loss than the generality of investments in subsidiaries, and that the captive bears only the society's own lending risk, albeit in concentrated form, and is not using its capital to "gear up" and assume new external liabilities. Out of the total capital committed to the captive, whether fully paid or not, 25% (or, if greater, the actual capital requirement imposed by the local insurance supervisor) should be deducted from the society's own funds, in the society only calculation. The remainder should be risk-weighted at 100% as if an ordinary investment in a subsidiary.

1.15 Securitisation

1.15.1 G In considering how to treat societies' securitisation transactions, the three key points are:

- (1) whether, and to what extent, to include securitised assets, which have been financed on a limited recourse basis, in the calculation of the society's (or society group's) solvency ratio (subject to their relevant risk weightings);
- (2) whether, and to what extent, to require the deduction from societies' own funds of quasi-capital exposures to securitisation transactions; and
- (3) how to reflect the largely unquantifiable risks that are left with a society after securitisation.

1.15.2 G In order to achieve consistency and simplicity, the FSA deals with these as follows:

- (1) securitisation transactions by, or involving, building societies will be analysed in the same way as similar transactions by, or involving, banks. The FSA will apply the principles and guidance contained in chapter SE of the IPSB for banks, which is set out, with additional guidance for building societies, as chapter 10 of this sourcebook. This will determine whether securitised assets are to be risk weighted and included in the solvency ratio calculation, and whether (and to what extent) quasi-capital exposures, such as first loss provisions or holdings of deeply subordinated notes, are to be deducted from own funds.
- (2) all other risks arising from securitisation will, collectively, be considered in the context of the process of appraisal that leads to the setting or reviewing of an individual society's threshold solvency ratio. Depending on the scale and nature of a society's securitisation activity, this could lead, other things being equal, to an increase in that threshold ratio.

1.15.3 G Some of the risks that securitisation leaves with a society are inherent in most, if not all, existing securitisation structures and are thus unavoidable. Particular examples are the risk from servicing and liability under warranties. But in other respects, particularly in relation to "moral hazard", there is much greater scope for conscious acceptance or avoidance of risk through the selection and adaptation of particular structures.

1.15.4 G While a society may endeavour to avoid the accumulation of such risks, to the extent that risk is accepted and/or is unavoidable, an assessment of the various residual risks will be made by the FSA as part of the appraisal for setting or reviewing the society's threshold solvency ratio. This assessment will reflect the scale and nature of a society's current and planned securitisation programme. It will also cover how the society has addressed the residual risks in the structure(s) it proposes to use. Where, for example, securitisation activity is small-scale relative to the society's asset base, a "clean break" with borrowers has been achieved, the society has good errors and omissions insurance to cover servicing risk, and substantial audit of the pool of assets to be transferred has been carried out, the effect on the solvency threshold ratio is likely to be minimal and there may indeed be no actual change. While recognising that assessment through the solvency threshold appraisal process is less transparent for societies, the FSA considers that much is gained by simplicity and the avoidance of a proliferation of risk weightings or other formulae intended to capture individual, largely unquantifiable, risks.

1.16 Deductions in Respect of Holdings in Other Institutions

1.16.1 G Articles 51.1 and 51.2 of the BCD prohibit a credit institution from having a "qualifying holding" in excess of 15% of its own funds in an undertaking or 60% in several undertakings which are neither credit institutions, financial institutions, nor undertakings which carry on "ancillary banking services".

1.16.2 G A qualifying holding is defined as "a direct or indirect holding in an undertaking which represents 10% or more of the capital or of the voting rights, or which makes it possible to exercise a significant influence over the management of the undertaking in which the holding subsists".

1.16.3 G The Directive gives member states the option not to apply the restrictions to life and general insurance companies and not to apply them in other cases provided they require a deduction from the credit institution's own funds of 100% of the amount in excess of the 15% or 60% limits.

1.16.4 G The FSA has decided not to apply the limits to participation in insurance companies but see section 1.13 for capital treatment in respect of holdings in insurance companies. The FSA has also decided not to apply the limits in other cases but to recommend a 100% deduction from own funds of the amount of the holding in excess of 15%.

1.17 Capital Cost and Pricing

1.17.1 G When acquiring assets societies should consider what effect the profit or cost derived from those assets will have on their solvency ratios. The higher the weighting which an asset carries the greater the capital cost and societies will need to decide whether they can, or should, pass on such cost or accept a lower rate of return.

1.18. Capital Adequacy Directive (CAD)

1.18.1 G Societies on the "Trading" approach to financial risk management (described in chapter 4, Financial Risk Management), under which they can trade securities and maintain unhedged foreign exchange positions within defined limits, should calculate the capital requirements for their trading book and foreign exchange positions separately in accordance with the FSA's guidance to banks (as set out in the IPSB for banks). In moving to the "Trading" approach societies will need to satisfy the FSA that they have the systems to calculate and report their capital position in accordance with the FSA's guidance.

CALCULATION OF "OWN FUNDS"

G

1A.1 Tier 1 Capital

1A.1.1 Reserves as disclosed in the latest year end balance sheet;

plus

cumulative interim profits for the year to date which have been verified by the society's external auditors (see Annex 1E); or

less

cumulative losses (if any) for the year to date.

1A.1.2 Deferred shares which meet the requirements of chapter 2, currently PIBS, and deferred shares which were issued prior to the Building Societies (Deferred Shares) Order 1991 (SI 1991/701) and which met the statutory requirements then in force.

1A.1.3 Tier 1 minority interests in a subsidiary undertaking which meets the requirements of section 1.7.

1A.1.4 Deduct intangible assets from the sum of 1A.1.1, 1A.1.2 and 1A.1.3 to calculate Tier 1 capital.

1A.2 Tier 2 Capital

1A.2.1 Term subordinated debt and undated subordinated debt, which meet the requirements of chapter 2; together with general provisions for bad debt and revaluation reserves.

1A.2.2 Tier 2 minority interests in a subsidiary undertaking which meets the requirements of section 1.7.

1A.3 General Provisions for Bad Debt

1A.3.1 General provisions should be made to cover possible losses, existing at the balance sheet or other reporting date, which have not been specifically identified. As such, they are freely available to the society to be utilised against any actual losses subsequently identified or arising and so conform with Article 35.1(a) of the BCD. But the BCD does not permit the inclusion in "own funds" of a provision which covers identified deterioration in particular assets, whether individual or group. Thus societies should not include the latter type of provision in own funds. Societies may only include general provisions in their solvency ratio calculation to an amount less than or equal to that shown in the society's last audited accounts or the amount provided when interim profits were last verified by the external auditors.

1A.4 Revaluation Reserves

1A.4.1 Societies may include revaluation reserves arising out of the differences between book values and the current market value of property fixed assets but only if:

- (1) the society applies the revaluation method to all of its property fixed assets, or all of its property fixed assets in a designated class and not selectively;
- (2) the values result from regular professional valuations of each property. If not annually, there should be:
 - (a) a rolling programme such that no professional valuation of a property is more than five years old;
 - (b) in the intervening year(s) in which a property is not professionally valued, an interpolation of value by the Board

which takes into account any decline in property values disclosed by valuations of other properties in that year;

- (c) where a society owns less than five properties, none of which are valued during the financial year, the valuation should be determined by the Board on the basis of their knowledge of appropriate property values in the area.

1A.4.2 If a society divides its fixed property assets into classes for the purposes of the valuation then it should advise the FSA of the basis of the division and the valuation policy in respect of each class.

1A.4.3 Any increase in revaluation reserve should be supported by a professional valuation.

1A.4.4 For the purposes of this calculation the revaluation reserve will be the amount standing to the credit of any revaluation reserve in the balance sheet or the amount of any such reserve in the accounting records of the society, for the time being, whichever is the lesser amount.

1A.5 Limits on capital

1A.5.5 Term Subordinated Debt which meets the guidance in chapter 2 may not exceed 50% of Tier 1 constituents minus intangible assets.

1A.5.6 Tier 2 capital resources in aggregate may not be included to an extent greater than 100% of Tier 1 constituents minus intangible assets.

1A.5.7 The total amount of minority interests which may be aggregated with Tier 1 or Tier 2 capital may not exceed 10% of the society's own funds in that category.

1A.6 Own funds

1A.6.1 Gross own funds comprise Tier 1 capital plus Tier 2 capital. From this should be deducted:

- (1) all holdings of capital instruments of other credit or financial institutions, or in regulated broker-dealers (subject to CAD or an analogous regime);
- (2) the amount of capital deficit of any subsidiary undertaking which has such a deficit (for society only calculations);
- (3) the proportion attributable to outside minority interests in the capital deficit of any subsidiary undertaking which has such a deficit (for consolidated calculations);
- (4) any deductions in respect of insurance companies (section 1.13), MIG Captives (section 1.14), holdings in other undertakings (section 1.16) and securitisation (paragraph 1.15.2);

to arrive at "own funds".

1A.6.2 Article 34.2(3) of the BCD allows "funds for general banking risks" to be counted as Tier 1 capital. Such funds are not general provisions for bad debt but are akin to banks' "hidden reserves" and are therefore not applicable to building societies.

RISK ASSET WEIGHTS**G****1B.1 General**

1B.1.1 Risk weights should be applied net of any specific provision. Items subject to deduction from Own Funds should be zero weighted. Assets held by a subsidiary undertaking are weighted on the same basis as if held by the parent society.

1B.2 Assets to be weighted at 0%

1B.2.1 The following assets should be weighted at 0%:

- (1) Bank notes or coinage of any territory or country;
- (2) Deposits with:
 - (a) any Zone A Central Bank (see Annex 1G for Zone A countries);
 - (b) the National Savings Bank;
 - (c) any Zone B Central Bank denominated in local currency and funded by liabilities in the same currency (see Annex 1G for Zone B countries);
- (3) Certificates of Tax Deposit issued by the Treasury;
- (4) National Savings Bonds;
- (5) Loans granted at the society's administered rate and supported by the explicit guarantee of a Zone A central government or central bank.

1B.3 Assets to be weighted at 10%

1B.3.1 The following assets should be weighted at 10%:

- (1) Deposits with any gilt edged market maker or participant in the UK gilt market supervised by a regulatory authority in the EEA provided they are collateralised by assets which, if held directly, would have a weighting of not more than 20%.
- (2) Stock lending rights arising from the lending of securities issued in the UK by HM Government.
- (3) Fixed-rate securities with a residual maturity of one year or less or floating rate securities:
 - (a) issued or guaranteed by a Zone A Central government (including Ginnie Maes);
 - (b) issued or guaranteed by a Zone B Central government denominated in the local currency and funded by liabilities in the same currency;
 - (c) issued or guaranteed by the European Atomic Energy Community, European Coal and Steel Community or European Economic Community.
- (4) Loans either with a maturity of one year or less and granted on a fixed rate basis, or with any maturity and granted at a rate which is periodically reset at least annually against a market rate, and in either case supported by the explicit guarantee of a Zone A central government or central bank.

1B.4 Assets to be weighted at 20%

1B.4.1 The following assets should be weighted at 20%:

- (1) Fixed rate securities, with a residual maturity over 1 year:
 - (a) issued or guaranteed by a Zone A Central government (including Ginnie Maes); or
 - (b) issued or guaranteed by the European Atomic Energy Community, European Coal and Steel Community or European Economic Community.
- (2) Deposits with or securities issued, guaranteed, or (in the case of bills of exchange) accepted by, any Zone A credit institution (see Annex 1G).
- (3) Deposits with, or securities issued, or (in the case of bills of exchange) accepted by any Zone B credit institution (see Annex 1G), with a maturity of one year or less.
- (4) Securities issued by, or loans to, any relevant authority (see Annex 1F for definition) or loans to the Department of Finance and Personnel (Northern Ireland).
- (5) Securities issued by, or loans to, Fannie Maes and Freddie Macs.
- (6) Securities issued or guaranteed by multilateral development banks (International Bank for Reconstruction and Development, International Finance Corporation, Inter-American Development Bank, Asian Development Bank, African Development Bank, Caribbean Development Bank, European Investment Bank, European Bank for Reconstruction and Development, Nordic Investment Bank, Council of Europe Resettlement Fund, European Investment Fund and Inter-American Investment Corporation).

- (7) Cash items in the process of collection.
- (8) Loans with a maturity greater than one year that are either granted on a fixed rate basis, or at a market rate which is periodically reset less frequently than annually and, in either case, supported by the explicit guarantee of a Zone A central government or central bank.
- (9) Loans supported by an unconditional guarantee issued by a Zone A credit institution.
- (10) Loans, with a maturity of one year or less, supported by an unconditional guarantee issued by a Zone B credit institution.
- (11) Loans supported by the unconditional guarantee of a relevant authority (see Annex 1F).

1B.5 Assets to be weighted at 50%

1B.5.1 The following assets should be weighted at 50%:

- (1) Mortgage-backed securities (MBS) issued by special purpose mortgage finance vehicles where the following conditions are met:
 - (a) they are fully secured at all times on a pool of first mortgages on residential property, no part of which is used for non residential purposes, or on loans to Registered Social Landlords which are registered with the Housing Corporation or Scottish Homes or the National Assembly of Wales or the Northern Ireland Department of Social Development, fully secured by a mortgage on a residential property that is:
 - (i) already let, or

- (ii) under development and will be let on condition that the development attracts Social Housing Grant (SHG) and/or other public subsidy on equivalent terms and the loans are fully secured by a charge (but not necessarily a first priority charge) on a residential property owned by Registered Social Landlords which is rented;
- (b) the notes embody an express promise to repay the noteholder;
- (c) the issue documentation contains provisions which would ultimately enable noteholders to initiate legal proceedings directly against the issuer of the MBS. As an example such provisions would allow noteholders to proceed against the issuer where the trustee, having become bound to take steps and/or to proceed against the issuer, fails to do so within a reasonable time and such failure is continuing;
- (d) the documentation contains provisions which would ultimately enable noteholders to acquire the legal title to the security (i.e. the mortgagee's interest in it) and to realise the security in the event of a default by the mortgagor;
- (e) the mortgage loans should not be in default at the time at which they are transferred to the vehicle;
- (f) the vehicle's activities are restricted by its articles of association to mortgage business. The vehicle may also hold assets qualifying for a risk weighting of less than 50%;
- (g) the notes do not absorb more than their pro rata share of losses in the event of arrears or default (see chapter 10 for treatment of junior or B notes).

- (2) Loans to individuals fully and completely secured by a first priority charge on residential property that is (or is to be) occupied by the borrower or is rented.

- (3) Loans to Registered Social Landlords, registered with the Housing Corporation, or Scottish Homes or the National Assembly of Wales or the Northern Ireland Department of Social Development, fully secured by a mortgage on residential property that is:
 - (a) already let; or

 - (b) under development and will be let, on condition that the development attracts Social Housing Grant (SHG) and/or other public subsidy on equivalent terms, of an amount equal to, or greater than, 50% of the approved total scheme cost, the security for which is subordinated to the loan, where the funding body has legally committed itself to the full payment of the subsidy.

- (4) Loans to public universities, fully secured by a mortgage on a residential property that is:
 - (a) already let; or

 - (b) under development and will be let, on condition that the lender is in possession of a certificate, issued by a quantity surveyor or architect appointed by the society, showing that work to the value of 20% of the projected finished end value of the project (excluding cost of land) has been completed, prior to any draw down under the loan; and

 - (c) can readily be sold or let on the non student market.

N.B. For the purposes of paragraphs 1B.5.1(3) and (4), once a property has been let it is not necessary to increase the weighting to 100% during a subsequent temporary void.

1B.6 Assets to be weighted at 100%

1B.6.1 All other assets should be weighted at 100% including:

- (1) Deposits with, or securities issued or (in the case of bills of exchange) accepted by any Zone B credit institution authorised by the competent authorities of a member state of the European Community, with a maturity greater than one year.
- (2) Commercial Paper issued or guaranteed by companies of the types to which Directive 78/660/EEC on the annual accounts of certain types of company (as amended by subsequent acts of accession) applies (that is, public or private companies limited by shares or by guarantee).
- (3) Securities issued by the European Telecommunications Satellite Organisation, International Monetary Fund, and European Company for the Financing of Railway Rolling Stock.
- (4) Other mortgages and MBS.
- (5) Unsecured loans and leasing receivables
- (6) Development and residential property:
 - land acquired
 - development projects
 - rented housing
 - equity interest in shared ownership schemes

- (7) Investments in connected undertakings which are not subsidiary undertakings (except where treated as a deduction from own funds or netted on consolidation)
- (8) Premises, plant, equipment and other fixed assets
- (9) Prepayments, accrued income, sundry debtors etc (except where the asset represents a claim on a counterparty which normally attracts a weighting below 100%, e.g. UK central government (0%), local authorities or credit institutions (20%), in which case it should be weighted accordingly).

1B.7 Repos and Reverse Repos

1B.7.1 Gilt edged securities subject to a repo transaction should be treated as remaining on the balance sheet of the seller throughout the repo period. The weightings for UK Government securities at 10% or 20% (according to residual maturity) apply. A reverse repo should be treated as a collateralised loan and should be weighted on the basis of the collateral (i.e. the gilt) securing the loan at 10% or 20% according to residual maturity for the duration of the transaction.

1B.8 Gilt Strips

1B.8.1 The weighting for gilt strips does not differ from that of traditional holdings in gilt-edged securities (10% or 20% according to residual maturity), but societies should bear in mind that considerable activity in the more sophisticated repos and strips markets will be taken into account and weighed against the expertise available when assessing their threshold solvency ratio.

1B.9 Stock Lending

1B.9.1 Securities held in a liquid asset portfolio and loaned to the market will already be weighted for capital adequacy purposes in accordance with this Annex. A possible additional risk posed by the lending of the security will depend upon whether the

transaction is collateralised. The lending of gilt edged securities, for example, should not attract any additional weighting for counterparty risk because it is fully collateralised under the terms of a stock lending agreement.

1B.9.2 However, stock lending which is not fully collateralised, such as that conducted through the Cedel and Euroclear stock lending programmes, needs to take account of the counterparty risk. As Cedel and Euroclear are both Zone A banks, an additional capital weighting of 20% should be applied.

TREATMENT OF OFF-BALANCE SHEET ITEMS

G

1C Classification of Off-Balance Sheet Items (other than items related to interest rates and foreign exchange)

Degree of Risk	Credit Conversion Factor
1C.1 Full Risk <ul style="list-style-type: none"> - Guarantees having the character of credit substitutes, - Acceptances, - Endorsements on bills not bearing the name of another credit institution, - Transactions with recourse, - Irrevocable standby letters of credit having the character of credit substitutes, - Asset sale and repurchase agreements (repos), - Assets purchased under outright forward purchase agreements, - Forward forward deposits, - The unpaid portion of partly-paid shares and securities. 	100%
1C.2 Medium Risk <ul style="list-style-type: none"> - Documentary credits issued and confirmed (see also medium/low risk), 	50%

- Warranties and indemnities (including tender, performance, customs and tax bonds) and guarantees not having the character of credit substitutes,
- Irrevocable standby letters of credit not having the character of credit substitutes,
- Undrawn credit facilities (agreements to lend, purchase securities, provide guarantees or acceptance facilities) with an original maturity of more than one year,
- Note issuance facilities (NIFs) and revolving underwriting facilities (RUFs).

1C.3 Medium/low Risk 20%

- Documentary credits in which underlying shipment acts as collateral and other self-liquidating transactions.

1C.4 Low Risk 0%

- Undrawn credit facilities (agreements to lend, purchase securities, provide guarantees or acceptance facilities) with an original maturity of up to and including one year, or which may be cancelled unconditionally at anytime without notice (including facilities related to cheque guarantee cards, automated teller machine cards, credit cards and mortgage offer letters which are expressly stated to be subject to immediate cancellation).

Each item described in 1C.1 to 1C.4 should be multiplied by the appropriate credit conversion factor and then weighted by the risk weight applicable to the category of the counterparty for an on-balance sheet transaction.

The portion of unpaid capital subscribed to the European Investment Fund should be weighted at 20%.

1C.5 The treatment of off-balance sheet items using the "mark to market" approach.

Societies may, of course, only enter into such contracts permitted by the 1986 Act, guidance in respect of which can be found in chapter 4.

1C.5.1 Method

1C.5.2 Step (a): by attaching current market values to contracts (mark to market) the current replacement cost of all contracts with positive values is obtained. (Societies should consult their external auditors if they require guidance on how to ascertain market values).

1C.5.3 Step (b): to obtain a figure for potential future credit exposure, the notional principal amounts or values underlying a society's aggregate book are multiplied by the following percentages:

Residual maturity	Interest rate contracts	Contracts concerning foreign exchange rates and gold	Contracts concerning equities	Contracts concerning precious metals except gold	Contracts concerning commodities other than precious metals
One year or less	0.0%	1%	6%	7%	10%
Over one year, less than five years	0.5%	5%	8%	7%	12%
Over five years	1.5%	7.5%	10%	8%	15%

1C.5.4 Contracts which do not fall within one of the five categories indicated in this table shall be treated as contracts concerning commodities other than precious metals.

1C.5.5 For contracts with multiple exchanges of principal, the percentages have to be multiplied by the number of remaining payments still to be made according to the contract.

1C.5.6 For contracts that are structured to settle outstanding exposure following specified payment dates and where the terms are reset such that the market value of the contract is zero on these dates, the residual maturity would be equal to the time until the next reset date. In the case of interest-rate contracts that meet these criteria and have a remaining maturity of over one year, the percentage shall be no lower than 0.5%.

1C.5.7 In the case of single-currency "floating/floating interest rate swaps" only the current replacement cost will be calculated (i.e. no future credit exposure).

1C.5.8 Step (c): the sum of current replacement cost and potential future credit exposure for each contract is multiplied by the risk weighting allocated to the relevant counterparties for on-balance sheet transactions, (except that the 100% weightings shall be replaced by 50% weightings) to give the risk-weighted amount relating to that contract which is to be included in the solvency ratio calculation.

1C.5.9 Societies should ensure that the notional amount to be taken into account is an appropriate yardstick for the risk inherent in the contract. Where, for instance, the contract provides for a multiplication of cashflows, the notional amount should be adjusted in order to take into account the effects of the multiplication on the risk structures of that contract.

1C.5.10 Interest-rate and foreign-exchange contracts traded on recognised exchanges where they are subject to daily margin requirements and foreign exchange contracts with an original maturity of 14 calendar days or less are excluded.

1C.6 Netting

1C.6.1 Societies may treat as reducing risk and therefore as permitting weighting on a net, rather than gross basis:

- (1) bilateral contracts for novation between the society and its counterparty under which mutual claims and obligations are automatically amalgamated in such a way that this novation fixes one single net amount each time novation applies and thus creates a legally binding, single new contract extinguishing former contracts (in the case of foreign exchange transactions a separate single net amount should be fixed for each currency and value date);
- (2) other bilateral netting agreements between the society and its counterparty;

but only under the following conditions;

- (a) the society should have a contractual netting agreement with its counterparty which creates a single legal obligation, covering all included transactions, such that, in the event of a counterparty's failure to perform owing to default, bankruptcy, liquidation or any other similar circumstance, the society would have a claim to receive or an obligation to pay only the net sum of the positive and negative mark-to-market values of included individual transactions;
- (b) the society should have made available to the FSA written and reasoned legal opinions to the effect that, in the event of a legal challenge, the relevant courts and administrative authorities would, in the cases described under (a), find that the society's claims and obligations would be limited to the net sum, as described in (a), under;
 - the law of the jurisdiction in which the counterparty is incorporated and, if a foreign branch of an undertaking is

involved, also under the law of the jurisdiction in which the branch is located;

- the law that governs the individual transactions included;
 - the law that governs any contract or agreement necessary to effect the contractual netting.
- (c) the society should have provided assurances to the FSA that it has set in place procedures for ensuring that the legal validity of its contractual netting is kept under review in the light of possible changes in the relevant laws;
- (d) the society should have provided assurances to the FSA that it has adequate systems to monitor netting. Any society not on the comprehensive or trading approach should produce confirmation from its external auditors that its systems are adequate.

1C.6.2 No contract containing a provision which permits a non-defaulting counterparty to make limited payments only, or no payments at all to the defaulter, even if the defaulter is a net creditor (a 'walkaway' clause) should be recognised as risk reducing.

1C.6.3 The FSA will recognise as risk-reducing contractual-netting agreements covering foreign-exchange contracts with an original maturity of 14 calendar days or less, written options (where these are permitted by section 9A) or similar off-balance-sheet items to which this Annex does not apply because they bear only a negligible or no credit risk. If, depending on the positive or negative market value of these contracts, their inclusion in another netting agreement can result in an increase or decrease of the capital requirements, societies should use a consistent treatment.

1C.6.4 No contractual netting will be recognised as reducing risk until the FSA has confirmed that conditions (b), (c) and (d) above have been met and that it is satisfied that contractual netting is legally valid under the law of each of the relevant jurisdictions.

1C.6.5 Effects of Netting

(1) Contracts for novation

- (a) The single net amounts fixed by contracts for novation, rather than the gross amounts involved, may be weighted. Thus in:

Step (a) the current replacement cost, and in

Step (b) the notional principal amounts or underlying values

may be obtained taking account of the contract for novation.

(2) Other Netting Agreements

- (a) In step (a) the current replacement cost for the contracts included in a netting agreement may be obtained by taking account of the actual hypothetical net replacement cost which results from the agreement; in the case where netting leads to a net obligation for the credit institution calculating the net replacement cost, the current replacement cost is calculated as “0”;

In step (b) the figure for potential future credit exposure for all contracts included in a netting agreement may be reduced according to the following equation:

$$PCE_{\text{red}} = 0.4 * PCE_{\text{gross}} + 0.6 * NGR * PCE_{\text{gross}}$$

Where:

PCE_{red} = the reduced figure for potential future credit exposure for all contracts with a given counterparty included in a legally valid bilateral netting agreement,

PCE_{gross} = the sum of the figures for potential future credit exposure for all contracts with a given counterparty which are included in a legally valid bilateral netting agreement and are calculated by

multiplying their notional principal amounts by the percentages set out in the table in 1C.5.3,

NGR = “net-to-gross ratio”: this should be done as a separate calculation: the quotient of the net replacement cost for all contracts included in a legally valid bilateral netting agreement with a given counterparty (numerator) and the gross replacement cost for all contracts included in a legally valid bilateral netting agreement with that counterparty (denominator).

For the calculation of the potential future credit exposure according to the above formula perfectly matching contracts included in the netting agreement may be taken into account as a single contract with a notional principal equivalent to the net receipts. Perfectly matching contracts are forward foreign exchange contracts or similar contracts in which notional principal is equivalent to cash flows if the cash flows fall due on the same value date and fully or partly in the same currency.

1C.7 Types of Off-Balance Sheet Items to which the treatment in section 1C.5 above is to be applied.

1C.7.1 Interest-rate contracts

- Single-currency interest-rate swaps;
- Basis swaps;
- Forward-rate agreements;
- Interest-rate futures;
- Interest-rate options purchased;
- Other contracts of a similar nature.*

1C.7.2 Foreign-exchange contracts and contracts concerning gold

- Cross-currency interest-rate swaps;

- Forward foreign-exchange contracts;
- Currency futures;
- Currency options purchased;
- Other contracts of a similar nature*
- Contracts concerning gold of a similar nature to the above items*

Contracts of a nature similar to those in points above other than those marked
* concerning other reference items or indices concerning:

- equities,
- precious metals except gold,
- commodities other than precious metals,
- other contracts of a similar nature.

1C.7.3 Where off balance sheet items carry explicit guarantees, they shall be weighted, to the extent of the guarantee as if they had been incurred on behalf of the guarantor rather than the counterparty. Where off balance sheet items are secured by collateral listed in Annex 1B.2.1(1), 1B.3.1(2) or 1B.4.1(3), they shall be weighted, to the extent of the collateral at the weight appropriate to the collateral by which they are secured.

1C.7.4 Societies may apply a 50% weighting to off balance sheet items which are sureties or guarantees having the character of credit substitutes and which are fully guaranteed by mortgages which would themselves attract a 50% weighting provided the guarantor has direct right to such collateral.

**HOLDINGS OF CAPITAL INSTRUMENTS OF OTHER CREDIT AND
FINANCIAL INSTITUTIONS TO BE EXCLUDED FROM "OWN
FUNDS" CALCULATIONS
G**

1D.1 Definitions

1D.1.1 Capital Instruments Includes without limitation any constituent of own funds (as set out in Article 34 of the BCD) or the equivalent in a financial institution

1D.1.2 Credit Institution An undertaking whose business is to receive deposits or other repayable funds from the public and to grant credits for its own account

1D.1.3 Financial Institution An undertaking other than a credit institution the principal activity of which is to acquire holdings or to carry on one or more of the following activities:

- (1) lending
- (2) financial leasing
- (3) money transmission services
- (4) issuing and administering means of payment (e.g. credit cards, travellers cheques and bankers drafts)
- (5) guarantees and commitments

- (6) trading for own account or for account of customers in
 - (a) money market instruments (cheques, bills, CDs etc)
 - (b) foreign exchange
 - (c) financial futures and options
 - (d) exchange and interest rate instruments
 - (e) transferable securities
- (7) participation in securities issues and the provision of services related to such issues
- (8) advice to undertakings on capital structure, industrial strategy and related questions and advice and services relating to mergers and the purchase of undertakings
- (9) money broking
- (10) portfolio management and advice
- (11) safekeeping and administration of securities

INTERIM PROFITS: VERIFICATION PROCEDURES

G

1E.1 Verification of Interim Profits by External Auditors

1E.1.1 The FSA interprets "verified" to mean obtaining a reasonable degree of comfort on the accuracy of the reported interim results. For this purpose, the analytical review procedures commonly used by auditors in the normal course of their work can be helpful and a combination of some of them will provide adequate assurance that reported interim profits are of sufficient quality for inclusion in the capital base, provided that the society has complied in all material respects with the valuation principles of the Accounts Regulations.

1E.1.2 The particular procedures which the FSA considers appropriate for this purpose are listed below. A full scope audit is not required, but in situations where the scope of work carried out differs materially from that set out in this chapter, the FSA will expect to be informed by the auditor in his report.

1E.1.3 Verification by auditors should in normal circumstances entail at least the following:

- (1) satisfying themselves that the figures forming the basis of the interim profits have been properly extracted from the underlying accounting records and that the reliability of any major change to the systems, upon which the accounting records are dependent, has been considered;
- (2) reviewing the accounting policies used in calculating the interim profits so as to obtain comfort that they are consistent with those normally adopted by the society in drawing up its annual financial statements and are in accordance with the principles set out in the Accounts Regulations;

- (3) performing analytical procedures on the result to date, including comparisons of actual performance to date with budget and with the results of prior period(s);
- (4) discussing with management the overall performance and financial position of the society;
- (5) obtaining adequate comfort that the implications of current and prospective litigation, all known claims and commitments, and changes in business activities been properly taken into account in arriving at the interim profits;
- (6) following up problem areas of which the auditors are already aware in the course of auditing the society's financial statements;
- (7) enquiring into the adequacy of provisions for bad and doubtful debt.

1E.1.4 The external auditors should submit an opinion to the society on whether the interim results are fairly stated. The text of the report is set out below:

"Dear Sirs

In accordance with your letter of instruction dated [] we have reviewed [name of society's] current year interim profits for the period [] as reported on Form QFS1, a copy of which is attached for identification. Our review, which did not constitute an audit, has been carried out having regard to the FSA's Interim Prudential Sourcebook for building societies Chapter 1.

On the basis of the results of our review, nothing came to our attention to indicate that:

- (1) the interim profits as reported on QFS1 have not been calculated on the basis of the accounting policies adopted by the society in preparing its latest statutory accounts for the year to [];
- (2) those accounting policies differ in any material respects from those required by the Accounts Regulations [except for];
- (3) the interim profits amounting to £[] as so reported are not fairly stated."

DEFINITION OF RELEVANT AUTHORITY

G

1F.1 "Relevant authority" means any of the following:

- (1) a local authority;
- (2) any authority all the members of which are appointed or elected by one or more local authorities;
- (3) any authority the majority of the members of which are appointed or elected by one or more local authorities in the United Kingdom, being an authority which by virtue of any enactment has power to issue a precept to a local authority in England and Wales, or a requisition to a local authority in Scotland, or to the expenses of which, by virtue of any enactment, a local authority in the United Kingdom is or can be required to contribute;
- (4) the Receiver for a combined police authority (within the meaning of the Police Act 1964);
- (5) a Passenger Transport Executive within the meaning of section 9(1) of the Transport Act 1968;
- (6) a residuary body within the meaning of section 105(1) of the Local Government Act 1985.

DEFINITIONS OF ZONE A AND ZONE B COUNTRIES

G

1G.1 ZONE A:

1G.1.1 Member States of the European Community and all other countries which are full members of the Organisation for Economic Co-operation and Development (OECD) and those countries which have concluded special lending arrangements with the International Monetary Fund (IMF) associated with the Fund's General Arrangements to Borrow (GAB). Any country which reschedules its external sovereign debt is however, precluded from Zone A for a period of 5 years. Zone A countries currently comprise Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany (including pre-unification claims on East Germany), Greece, Hungary, Iceland, Ireland, Italy, Japan, South Korea, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Saudi Arabia, Spain, Sweden, Switzerland, Turkey, United Kingdom and USA.

Note: The Channel Islands, Gibraltar, Bermuda and the Isle of Man should be regarded as Zone A countries for the purposes of calculating a society's solvency ratio.

1G.2 ZONE B:

1G.2.1 All other countries.

Note: A United Kingdom branch of a credit institution which has its head office in a Zone B country is regarded as a Zone B institution even though its United Kingdom branch is authorised by the FSA.

SOCIETY ONLY SOLVENCY RATIO CALCULATIONS DEFINITIONS

G

- 1H.1 "Gross assets" - being the sum of ASSETS according to Balance Sheet Format 2 in Schedule 4 of the Companies Act 1985 (or any alternative accounting regulations under which a subsidiary undertaking may be required to prepare its financial statements), which is equivalent to the total of ASSETS according to the Format of Society Balance Sheet under Schedule 2 Part I of the Accounts Regulations.
- 1H.2 "Income" - being the sum of turnover, other operating income, income from shares in group undertakings income from participating interests, income from other fixed asset investments and other interest receivable and similar income according to Profit and Loss Account Format 1 in Schedule 4 of the Companies Act 1985 (or any alternative accounting regulations under which a subsidiary undertaking may be required to prepare its financial statements), which is equivalent to the sum of interest receivable, income from investments, fees and commissions receivable, net profit on financial operations and other operating income according to the Format of Society Income and Expenditure Account under Schedule 1 Part I of the Accounts Regulations.
- 1H.3 "Profit" or "Loss" - being the profit or loss for the financial year according to Profit and Loss Account Formats 1 and 2 in Schedule 4 of the Companies Act 1985 (or any alternative accounting regulations under which a subsidiary undertaking may be required to prepare its financial statements), which is equivalent to profit or loss for the financial year according to the Format of Society Income and Expenditure Account under Schedule 1 Part I of the Accounts Regulations.

A. BOARD COMPETENCE	COMMENTS	GRADE
1. Range of Skills		
2. Range of ages and succession planning		
3. Effectiveness of Chairman		
4. Effectiveness of Non Executives		
5. Summary		

B. MANAGEMENT COMPETENCE	COMMENTS	GRADE
1. Range and depth of skills		
2. Succession planning, reliance on key person		
3. Effectiveness of Chief Executive		
4. Existence of "four eyes" management responsibility		
5. Management and corporate culture, dominance of Chief Executive		
6. Delegation and Control, quality of 2nd Tier Management		
7. Quality of communications with FSA staff and responsiveness to FSA concerns		
8. Summary		

C. SYSTEMS	COMMENTS	GRADE
1. Adequacy of business control systems and their documentation, Delegation of authority, Risk Management, Operational Controls.		
2. Quality of Policy documents: Liquidity, Treasury, Funding, Lending, etc.		
3. Independence, quality and effectiveness of internal and external audit and compliance function.		
4. Adequacy of IT systems, existence of a tested contingency plan		
(i) Ability to maintain and amend software		
(ii) Ability to absorb future upgrades and development costs		
(iii) Computer literacy of Board, Senior Management, and Internal Audit		
5. Quality of management information		
6. Summary		

D. ASSET QUALITY	COMMENTS	GRADE
1. Philosophic approach to risk/ reward in lending		
2. Controls on lending and arrears management and approach to provisioning		
3. Actual levels of mortgage arrears		
4. Extent of large exposures		
5. Mortgage Indemnity cover		
6. Summary		

E. TREASURY	COMMENTS	GRADE
1. Volatility of retail funds/reliance on special products, exposure to large shareholdings.		
2. Level of wholesale funding relative to industry, reliance on short-term deposits		
3. Approach to hedging and level of position risk accepted		
4. Adequacy of Treasury management skills, inc. information output and internal skills		
5. "Quality" of liquidity/observance of minimum 7 day and adjusted net liquidity limits, availability of undrawn committed facilities.		
6. Adequate Senior Management oversight of Treasury		
7. Summary		

F. PLANNING/DIVERSIFICATION	COMMENTS	GRADE
1. Quality of corporate planning		
2. Quality of planning, execution and control of new initiatives (including proper consultation with FSA)		
3. Approach and extent of diversification, impact of diversification mix on overall business.		
4. Level of commitment of management resource to new ventures or subsidiary operations		
5. Availability at NXD level, of specialist expertise to query/challenge management plans/proposals for subsidiaries or new ventures		
6. Significant commitment to new ventures - not easily reversed if unsuccessful		
7. Potential for risks incurred by, or systems failures within subsidiaries (or other diversifications) to cause financial or reputational problems for the parent society.		
8. Reliability of forecasting		
9. Summary		

G. OPERATIONAL RISK PROFILE	COMMENTS	GRADE
1. Geographic concentration		
2. Vulnerability on account of small size		
3. Stability of profit track record		
4. Ability to cover management expenses, in the face of narrowing interest margins, loss of fee income or reduction of profit from other causes.		
5. Adequacy and quality of capital, reliance on Tier 2 and 3, cost of servicing capital, headroom for future issues, timing of repayment or amortisation of Tier 2 and Tier 3 Capital and impact on business.		
6. Risk from service activities not covered in asset risk weighting		
7. Summary

Interim Prudential Sourcebook for Building Societies

2 Issued Capital

2.1 Introduction

2.1.1 G This chapter replaces PN 1998/2 issued by the Commission. It contains guidance for societies on issued capital to amplify the Threshold Condition set out in Schedule 6, paragraph 4(1) of the Act (the resources of a firm must, in the opinion of the FSA, be adequate in relation to the regulated activities it seeks to carry on) – see also COND 2.4 - and Principle 4 (“a firm must maintain adequate financial resources”). It should be read in conjunction with Chapter 1.

2.1.2 G This chapter is relevant only to those societies that have issued, or propose to issue, capital instruments to supplement their reserves. It explains the terms and conditions on which capital should be issued if it is to count as own funds. It advises prior consultation with the FSA before issuing capital and describes the documentation which societies should submit to the FSA before including the issue as own funds. Capital which was issued prior to N2, and which does not conform with the guidance in this chapter, will continue to count as own funds provided that at the time it was issued it complied with the statutory instruments or Prudential Note in force at that time.

2.2 Types of Issued Capital

2.2.1 G The FSA will recognise PIBS, Undated Subordinated Debt, and Term Subordinated Debt as own funds qualifying for inclusion in the calculation for capital adequacy, provided they conform with the guidance in this chapter.

2.2.2 G The FSA will not recognise as own funds any capital where the issue terms include clauses which would inhibit mergers or transfers in circumstances where the FSA gives a direction under section 42 B (1), (3), or (4) of the 1986 Act.

2.2.3 G The BCD distinguishes between several classes of capital and sets limits on the proportion of the lower classes of capital which may be held in relation to the highest class (the classes are referred to as Tier 1, Tier 2, and Upper Tier 2 capital). Provided they conform to the guidance in this chapter, PIBS count as Tier 1, Undated Subordinated Debt counts as Upper Tier 2 and Term Subordinated Debt counts as Tier 2.

2.3 Rules of the Society

2.3.1 G The rules of the society should, in the event of conflict, take precedence over any separate terms in respect of issued capital. Provisions in such terms of issue purporting to override the society's rules are inconsistent with this, as are provisions purporting to restrict the society's freedom to amend its rules. Societies should also note that for issued capital to count as own funds there should be no provision in the issuing society's rules permitting the write down of shares, other than deferred shares as defined in the Building Societies (Deferred Shares) Order 1991 (SI 1991/701).

2.4 Interest Terms

2.4.1 G The terms of the capital issue may provide for variation of either the rate of interest, or the interest margin over a bench mark market rate during the life of the instrument. But the extent of such variation should be such that it will not create a presumption, at the time of issue, that the society will in practice elect (with the agreement of the FSA) to repay the debt where the terms of issue give the society that option. Accordingly no term should provide for variation in either the interest rate or the margin which is:

- (1) greater than 0.5% p.a. in the first ten years of the issue; or
- (2) greater than 1% p.a. over the whole life of the issue;

whether in a single step, or a series of steps. Any new bench mark should be of a broadly similar type to the previous one and no change in bench mark should take place within five

years of the previous one. Capital may be issued on the basis that the interest rate is capped and/or floored at a specified rate.

2.4.2 G These limits are not intended to set a "market norm" for such variation as that is for societies to negotiate. They can be seen as the maximum level of increase that can be provided for without creating expectations, through the exercise of a repayment option, that the capital will be repaid before maturity or, in the case of permanent instruments, repaid at a certain date.

2.5 Amount Eligible as Own Funds

2.5.1 G Only fully paid up funds, together with premia if any, should be counted as own funds, although deductions for reasonable fees or commission incurred in arranging the issue may be disregarded for this purpose.

2.6 Permanent Interest Bearing Shares

2.6.1 G PIBS are a sub-set of deferred shares which comply both with the Building Societies (Deferred Shares) Order 1991 (SI 1991/701) and the BCD. PIBS are usually listed on the Stock Exchange. To be eligible for inclusion in the calculation for capital adequacy, the PIBS issue should meet the conditions in paragraphs 2.6.2 to 2.6.9.

Permanence

2.6.2 G PIBS are perpetual instruments. Repayment may normally only occur on the winding up of a society, and no other events of default entitling the holders of PIBS to repayment are possible. However, PIBS may be issued on terms which permit the issuing society, in accordance with a board resolution, to repay PIBS but only subject to the prior consent of the FSA (SI 1991/701 Article 3 and Schedule). The decision to repay PIBS should be genuinely at the instance of the society's board. Such consent would only be given if the FSA were satisfied that the remaining capital would be adequate for the society's present and foreseeable future needs. It is unlikely to be given within five years of the issue date.

Subordination

2.6.3 G On winding up PIBS should rank after all types of ordinary (i.e. non-deferred) shares and all other liabilities including subordinated debt.

Waiver of Interest - Non-cumulative

2.6.4 G In order for PIBS to be effective as a protection against running losses, the issue terms should provide that interest payments due on PIBS at a particular date may be reduced or cancelled by the board of the issuing society if the society is, or after the payment would be, in breach of capital adequacy requirements. The issue terms should also provide that no interest is payable on PIBS if the society has cancelled, or failed to pay, interest or dividend upon other shares of any class (other than deferred shares) or deposits with the society. Interest on PIBS so cancelled is non-cumulative. A term of issue may allow a society to issue further PIBS as fully paid by application of reserves to the extent that interest is foregone.

Conversions/Takeovers/Mergers

2.6.5 G The issue terms should provide that, if a society transfers its business to a commercial company, the PIBS will be transformed into undated subordinated debt of the successor company, ranking behind any undated subordinated debt previously issued by the society. The issue terms should provide that the issue should continue to rank as PIBS in the successor society after an amalgamation or transfer of engagements.

Notice to Subscribers

2.6.6 G At the time of issue the attention of subscribers should be drawn to the deferred nature of PIBS and to their exclusion from the deposit sub-scheme of the Financial Services Compensation Scheme and this information should also be shown prominently on any documents of title (SI 1991/701 Article 3 (2)).

Limits

2.6.7 G Not only does the issuing of PIBS directly reduce the endowment effect of reserves but, by increasing the potential to issue Tier 2 capital, it provides scope for reducing the endowment effect still further. The FSA would not expect a society to issue PIBS in excess of 50% of its reserves.

Secondary Market: Stockbrokers

2.6.8 G A stockbroking subsidiary of a society may accept orders for the purchase and sale of the society's PIBS but, to ensure that the society's capital in the form of PIBS is not reduced except with FSA consent, neither the society nor any subsidiary undertaking may trade, buying and reselling on its own account, as opposed to executing client orders.

Retail Issues

2.6.9 G Societies issuing PIBS as retail instruments directly to the public will be expected to take the utmost care that retail investors are made fully aware of the risks of investing in PIBS as opposed to investing in societies' normal investment share accounts. Issues of PIBS, whether retail or not, should be restricted to minimum denominations of not less than £1000.

2.7 Undated Subordinated Debt

2.7.1 G To be eligible for inclusion in the calculation for capital adequacy, any issue of Undated Subordinated Debt should meet the conditions in paragraphs 2.7.2 to 2.7.7.

Permanence

2.7.2 G Undated Subordinated Debt should be permanent. Repayment may normally only occur on the winding up of a society and no other events of default entitling the holders of such debt to repayment are possible. However, undated debt may be issued on terms which permit

the society, in accordance with a board resolution, to repay undated debt, subject to the prior consent of the FSA. The decision to repay the debt should be genuinely at the instance of the society's board. Such consent would only be given if the FSA were satisfied that the remaining capital would be adequate for the society's present, and future foreseeable needs. It is unlikely to be given within the first five years of issue.

Subordination

2.7.3 G In the event of winding up, Undated Subordinated Debt should, together with deferred shares, rank so as to support the solvency of the society. That is to say, the terms of the issue should provide that the claims of a holder of Undated Subordinated Debt, in the winding up of the borrower, shall be limited to such amount as would have been payable if, immediately prior to the commencement of a winding up, the holder held deferred shares of equivalent value instead of subordinated debt. Upon winding up, the holders of Undated Subordinated Debt should rank after all creditors and holders of non-deferred shares, including creditors in respect of term subordinated debt but their claims should, nevertheless, rank ahead of any existing PIBS or other deferred shares in issue by that society.

Interest Deferral

2.7.4 G Interest payments on Undated Subordinated Debt should rank after those on all other deposits, including other types of Subordinated Debt, and all non-deferred shares. The terms of issue should prohibit the payment, or crediting, of interest on Undated Subordinated Debt unless all amounts payable on non-deferred shares, or deposits with the society, in respect of any earlier or concurrent period, have been paid.

2.7.5 G The interest payment due on Undated Subordinated Debt at a particular date may be deferred by the board if, after the payment, the society would otherwise be in breach of capital adequacy requirements. However, such interest need only be deferred, not cancelled, i.e. it may be cumulative. Societies may make a scrip issue of Undated Subordinated Debt in satisfaction of the interest payments.

2.7.6 G The terms of issue should allow for the extreme situation by prohibiting the society from paying interest on Undated Subordinated Debt if the society is insolvent, or would be insolvent, after making the payment.

Conversions/Takeovers/ Mergers

2.7.7 G The issue terms should provide that the loss absorption characteristics of Undated Subordinated Debt will continue as a feature of the corresponding liability of the successor company in the case of transfer of business to a company or the successor society in the case of a merger. In order to preserve, as far as possible, the relative rankings of PIBS-holders and holders of Undated Subordinated Debt through the conversion process, issues of PIBS should become a form of Undated Subordinated Debt on conversion, ranking behind any Undated Subordinated Debt previously issued by the society. This avoids the situation in which, upon conversion, PIBS could have become, say, 10 year term subordinated debt of the successor company and be repaid ahead of undated subordinated debt already in issue by the society. This stipulation was first introduced on 15 April 1994 and may not feature in earlier issues of PIBS.

2.8 Term Subordinated debt

2.8.1 G To be eligible for inclusion in the calculation for capital adequacy, any issue of Term Subordinated Debt should meet the conditions in paragraphs 2.8.2 to 2.8.11.

Subordination

2.8.2 G On winding up, Term Subordinated Debt should rank after all types of ordinary (i.e. non-deferred) shares, and interest due thereon, and other liabilities excluding PIBS and Undated Subordinated Debt.

Maturity

2.8.3 G The original maturity should be not less than five years and one day. Where the debt is drawn down in tranches the minimum term should be calculated from the date of the last draw down.

Amount Eligible as Own Funds

2.8.4 G With a discounted issue it is the amount actually received, not the amount due to be repaid at the end of the term, which counts as own funds.

2.8.5 G Subordinated loan capital in its final four years to maturity should not count in full as part of own funds but should be amortised on a straight line basis by 20% p.a. The debt should be included in the capital base according to the following schedule:

Years to maturity	Amount included in own funds
More than 4	100%
Less than and including 4 but more than 3	80%
Less than and including 3 but more than 2	60%
Less than and including 2 but more than 1	40%
Less than and including 1	20%

2.8.6 G If repayment is by instalments then either:

- (1) the debt is divided into its constituent instalments and during the five years preceding the repayment of any instalment of debt, its contribution to own funds is written down on a straight line basis; or
- (2) where the debt repayment schedule is of equal annual, semi annual, or quarterly instalments over the last three to five years of the debt term, the amounts which may be counted as own funds during the last five years of its term are calculated

by multiplying the principal debt outstanding by the residual term outstanding, and dividing the result by five.

Early Repayment

2.8.7 G There should be no provision allowing early repayment of the debt other than in the event of approval being granted by the FSA. Only a society or its successor may request this approval for repayment.

2.8.8 G Early repayment should not be capable of being triggered by performance conditions, cross-default clauses, negative pledges, or by mergers, or transfers - in circumstances where the FSA gives a direction under section 42 B (1), (3) or (4) of the 1986 Act.

2.8.9 G However, the loan terms may require the borrower to consult the lender(s) and/or trustee about partial transfers of engagements, or transfer of business where the lender(s) or trustee is not satisfied that the successor company will keep its authorisation under the Act.

2.8.10 G The terms may also provide for certain events of default which would allow the lender or his trustee to require early repayment of the loan but only in a winding up/dissolution of a society or in a winding up of its successor. The permitted events of default should be restricted to:

- (1) the commencement of the winding up of the society or its successor;
- (2) the commencement of the dissolution of a society where it is dissolved otherwise than by virtue of any one or more of sections 93(5), 94(10) or 97(9) and 97(10) of the 1986 Act;
- (3) the cancellation of a society's registration under the 1986 Act otherwise than under section 103 (1)(a) of the 1986 Act.

2.8.11 G The FSA would consider any request for early repayment in the light of the projected capital position of the society if repayment were allowed. Approval would only be given where the FSA was satisfied that the society's capital would remain adequate after repayment for the society's existing and proposed business.

2.9 Notification to the FSA

2.9.1 G It is the responsibility of the society's board to satisfy itself that the terms of issue (which include the relevant sections of the society's rules) meet the guidance in this chapter and the 1986 Act: this would normally be on the basis of specialist legal advice. Before including any issued capital in a society's calculation of its solvency ratio for capital adequacy purposes the FSA expects to receive from the society:

- (1) evidence, usually in the form of a certified board minute, that the board has considered the specialist legal advice provided to the society, and that the board is satisfied that the society has the power to make the issue and that the issue will meet the guidance in this chapter;
- (2) a copy of the legal opinion provided to the society which should cover at least the following points:
 - (a) that the society has the power to make the issue (having made the necessary amendments to rules, etc.);
 - (b) that any terms not contained within the society's rules are consistent with the rules;
 - (c) that the terms of the issue (including the terms within the society's rules) comply with the guidance set out in this chapter.

Interim Prudential Sourcebook for Building Societies

3 Boards and Management

3.1 Introduction

3.1.1 G This chapter replaces PN 1998/3 (Boards and Management) and PN 1992/2 (New Business Developments and New Initiatives) published by the Commission. It provides additional guidance for building societies supplemental to other FSA rules and guidance in this area, especially the FSA Statements of Principle for Approved Persons and the Code of Practice (see APER) and the rules and guidance on senior management arrangements (see SYSC).

3.1.2 G It also provides additional guidance on the provisions of Part VII (Management of Building Societies) of the 1986 Act.

3.1.3 G Building societies have a particular constitutional form not shared by the generality of deposit-taking firms regulated by the FSA. They are mutual institutions run for the benefit of their members (i.e. their borrowers and savers). This mutual structure means that a society cannot be owned or controlled by an outside institution or major shareholders. Society boards and management have a special responsibility to protect the interests of their customers through the highest standards of corporate governance.

3.2 Corporate Governance

3.2.1 G As for all firms, the FSA regards the board and senior management as the focus for the accountability of the society for the conduct of its business. Accordingly, the FSA will take into account its assessment of the standards of governance, and board and management competence (relative to the nature, scale and complexity of the society's business), in setting the society's threshold solvency ratio.

3.2.2 G Although societies are not publicly quoted, they should have regard to the Combined Code, developed by the Committee on Corporate Governance for listed companies, when establishing and reviewing their own corporate governance arrangements. A sample Code of Governance is attached as Annex 3A, which is a version of the Combined

Code, adapted for the particular circumstances of building societies. Societies are encouraged to adopt this code to apply principles of good governance practice within their business.

3.3 Fit and Proper

3.3.1 G As set out in SUP, all directors of building societies, including non-executives, will be Approved Persons and thus are expected to meet the “fit and proper” criteria and comply with the Principles for Approved Persons and the Code of Practice.

3.3.2 G Under section 60 of the 1986 Act, directors of building societies are elected by the members, and subsection (4) makes clear that, subject to certain conditions, any natural person is eligible to be elected a director. (Subsection (4A) however provides that a person subject to a prohibition order under section 56(2) of the Act is not eligible.) Members have the right under a society’s rules to nominate candidates and the FSA has no power to intervene in elections for board directors. Where members nominate a candidate, in the FSA’s view it is not open to the board to refuse to accept a candidate’s nomination on the grounds that, in the board’s view, he (or she) is not fit and proper (except, of course, in the limited circumstances of a prohibition order being in force in relation to that person). However, the board should, prior to the election, take such steps as are practicably open to it to establish whether there are any matters concerning the candidate’s fitness and propriety of which the members should be aware in advance of the election. If there are such matters, the board should bring them to the attention of the members. The FSA will not vet candidates for election.

3.3.3 G On election, all directors, whether recommended by the board or nominated by members, have the same status. The FSA would, in the exercise of its responsibilities under the Act concerning the regulation of Approved Persons, apply the requirements for approval equally to all directors upon election (i.e. before the elected individuals can take up controlled functions).

3.4 Other requirements and guidance

3.4.1 G Part VII of the 1986 Act contains requirements relating to the management of building societies. This section contains further guidance on this Part of the 1986 Act and

sets out some factors the FSA will take into account in assessing the adequacy of a society's board and management arrangements for the purposes of setting its threshold solvency ratio.

3.4.2 G Section 58(2) of the 1986 Act requires each building society to have a chairman and this person plays a key role in the strategic direction of the society. The chairman should not have any executive post in the society. This assists in the separation of strategic direction from the day to day running of the business and helps the chairman take an independent view of management performance. It also protects against undue concentration of power.

3.4.3 G Given the mutual status of building societies, a clear majority of directors on a society's board should be non-executive. The appropriate ratio of non-executives to executives will vary with the scale, nature and complexity of the society's business. The board should have an appropriate range of skills and experience to control and direct the society's activities effectively. The composition of the board should be reviewed at regular intervals.

3.4.4 G It will rarely be appropriate or desirable for a chief executive or other executive director to remain as a non-executive board member after his or her retirement.

3.4.5 G The composition of a board should change progressively over time in a planned manner. As societies increasingly innovate in their mainstream business and use wider powers, so they should recognise the need to enhance their overall board and management resources and expertise accordingly. Non-executive directors should not be given the expectation that they will remain on the board, automatically standing for re-election every 3 years, until the retirement age in the society's rules. They should serve for fixed terms, both initially and for any subsequent term.

3.4.6 G Each society is required by section 59(1) of the 1986 Act to have a chief executive. The chief executive plays a key role in the running of the society and has specific responsibilities in SYSC. He or she should be a member of the board.

3.4.7 G Smaller societies may not need as many executives on the board as larger societies, but every society should have at least one executive director on the board.

3.4.8 G Where executives are appointed under formal service contracts, the board should consider carefully the terms of such contracts. It should have regard not only to the need to

attract or retain executives but also to the need to preserve the board's freedom, considering the potential associated costs, to make a change if circumstances so require. A board should consider in particular the period of notice the society must give and the potential liability to the society if it wishes to terminate the contract otherwise than on grounds of misconduct. The objective should be for notice or contract periods to be one year or less.

3.4.9 G Societies are required under the Accounts Regulations to give particulars of the service contracts of directors and chief executives in their annual Report and Accounts. Where there are no such service contracts in existence, societies should say so.

3.4.10 G Each society is required by section 59(2) of the 1986 Act to have a secretary. The secretary plays a key role within the society, with the responsibility of a company secretary to ensure that board procedures are followed and regularly reviewed and to provide guidance on the board's responsibilities and how they should be discharged.

3.4.11 G In assessing the adequacy of society's corporate governance arrangements, the FSA will consider whether the society has established committees of the board appropriate to the scale and nature of its business. Such committees should include at least an audit committee (see Chapter 9 Systems) and may also include an asset and liability committee (ALCO) and a remuneration committee.

3.4.12 G Paragraphs 15.3.7 to 15.3.10 of SUP give guidance on how the FSA will assess compliance with Principle 11 ("A firm must deal with its regulators in an open and co-operative way, and must disclose to the FSA appropriately anything relating to the firm of which the FSA would reasonably expect notice"). They indicate that firms should notify the FSA of any "proposed restructuring, reorganisation or business expansion which could have a significant impact on the firm's risk profile or resources". A society entering a new area of activity should ensure that it has appropriate board and management skills properly to manage and control that activity. It is for boards to satisfy themselves on the commercial aspects of any such new venture and to be satisfied that such a venture will not put the society at undue risk, that capital remains adequate and that adequate systems of control have been established.

3.5 Dealings with Directors

3.5.1 G Dealings with directors (and other officers) of societies are subject to restrictions contained in Part VII of the 1986 Act. These include limitations on specified financial transactions, requirements for directors to disclose their interests in any existing or proposed contracts, and the requirement for permitted dealings to be reported. The requirements are concerned with issues of particular sensitivity to a society and its members. In view of this, and the risk of damage to a society's reputation, the board should satisfy itself that there are written procedures and controls in place to ensure compliance with statutory requirements for dealings with directors.

Loans to Directors

3.5.2 G Section 65 of the 1986 Act places restrictions on the loans societies can make to directors or connected persons (as defined in the 1986 Act). Given this, it would be inappropriate for a society simply to follow its usual loan procedures when a loan application is made by a director or a person connected with a director. The responsibility for approving such loans should not rest with staff members, even if the loan could otherwise be decided within staff mandates. A board should ensure that the society has written procedures for dealing with loan applications from directors or persons connected with them and that all directors are familiar with such procedures. They should include consideration by the board or a board committee before approval and should require a review of the proposed terms of a loan, including legal advice, if necessary, to ensure that the loan is allowed by the 1986 Act. Such transactions should take place at arm's length. There should be written procedures to identify applications for director-connected loans.

3.6 Reporting Requirements

3.6.1 G The Accounts Regulations set out specific legal and regulatory requirements about the form and content of the annual report and accounts, summary financial statements, etc., that societies and their directors must produce. A board should present to the members an assessment of the society's position which is balanced (that is, setbacks should be reported as well as successes) and understandable.

3.6.2 G A key principle behind the requirements in the Accounts Regulations is that the members of a society should be given additional disclosure in the annual report and accounts about the interests in the society of directors, the chief executive (on the matter of service contracts) and other officers (on the matter of options to subscribe for share or debentures). The reporting requirements in the Accounts Regulations accordingly include individual directors' remuneration, particulars of service contracts for the directors and chief executive, additional retirement benefits to current and past directors and interests in shares or debentures of connected undertakings. In the interests of transparency, societies should say in their annual report whether they adhere to the sample code of governance in Annex 3A and, if not, in what respects.

Sample Code of Governance

3A.1 G This sample Code of Governance is an adapted version of the Combined Code, which is considered suitable for building societies.

The board

3A.2 G The board should have procedures to ensure that due consideration is given before the appointment of any director or manager to whether the candidate is fit and proper.

3A.3 G The chairman of a building society should not have any executive post in the society.

3A.4 G All directors should bring an independent judgement to bear on issues of strategy, performance, resources (including key appointments) and standards of conduct.

3A.5 G A board should review its composition at appropriate intervals or when considering a major new activity.

3A.6 G A clear majority of directors on a society board should be non-executive.

3A.7 G A society should have at least one executive director on the board.

3A.8 G A non-executive director should serve for specified initial and subsequent terms (if any). Towards the end of each term the board should review whether to recommend re-election.

3A.9 G The chief executive should be a member of the board.

Executive Directors and Other Executives

3A.10 G The terms of an executive's service contract should reflect a reasonable balance between attracting or retaining executives of the requisite calibre and preserving the board's freedom to make a change. The objective should be for notice or contract periods to be one year or less.

Board Procedures

3A.11 G A board should establish a remuneration committee, consisting only of non-executive directors, to develop a general policy, and to make recommendations, on the pay of executive directors.

3A.12 G A board should establish an audit committee of non-executive directors consisting of at least three members.

3A.13 G It is a board's responsibility to ensure that an objective and professional relationship is maintained with the external auditors.

3A.14 G A board should ensure that the society has specific written procedures for the consideration of loan applications by directors or persons connected with them and that all directors are familiar with these procedures.

3A.15 G If a director or any person connected with a director participates in an existing share option scheme, that director should not be allowed to vote on, or to use any discussion to promote, any transaction (such as sale of a subsidiary undertaking) under which that director or connected person would benefit financially.

3A.16 G A board should have a procedure that enables individual directors to obtain independent professional advice at the society's expense for the furtherance of their duties.

3A.17 G Each director should have access to the advice and services of the secretary and any separately appointed compliance officer(s).

Reporting

3A.18 G A board should present a balanced and understandable assessment of the society's position to the members.

3A.19 G Directors should explain their responsibility for preparing the accounts next to a statement by the external auditors about their reporting responsibilities.

3A.20 G Directors should (if it be the case) report that the society is a going concern, with supporting assumptions or qualifications as necessary.

4A.	Supervisory Approach Categories	21

4.1 Introduction

4.1.1 G This chapter replaces PN 1998/4, issued by the Commission, and contains rules and guidance for societies on financial risk management, a key part of compliance with Principle 3 (“a firm must take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems”).

4.1.2 G This chapter describes the key financial risks to which societies are exposed, explains the statutory restrictions on funding, market making, trading and use of derivative instruments, sets out the framework within which the FSA will supervise the treasury activities of societies, including details of the five “approach” categories (Administered, Matched, Extended, Comprehensive and Trading) applied, and emphasises the respective responsibilities of boards and management for monitoring and controlling financial risks. (Unless otherwise explicitly stated, references in this chapter to “societies” are to society groups, consolidated to include all subsidiary undertakings.)

4.2. Rules

4.2.1 R A society must have an adequate system for managing and containing financial risks to the net worth of its business, and risks to its net income, whether arising from fluctuations in interest or exchange rates or from other factors.

4.2.2 G Societies should have systems and procedures for identifying, monitoring and controlling all material maturity mismatch, interest rate, foreign exchange and similar (e.g. index related) risks, and for reporting exposures to senior management and the board on a regular, and timely, basis. Societies should also have interest margin management systems in place to estimate the expected profitability of new mortgage and savings products, and to project forward the cumulative effect of mortgage incentives and loyalty schemes.

4.2.3 G Societies should have credit limits in place for all counterparties both for placing liquidity and for transacting derivative contracts (further guidance also in Chapter 5 (Liquidity)).

4.2.4 G Societies’ boards should ensure that there are adequate internal controls in place covering

all treasury activities, including appropriate segregation of duties between initiation of a transaction and confirmation/settlement/ accounting for it, such controls to be the subject of regular review by internal auditors with the requisite skills and experience.

4.2.5 R A society must maintain, and submit to the FSA, a board-approved policy statement on financial risk management.

4.2.6 R A society making any significant change to its policy statement on financial risk management must provide the FSA with a copy of the amended statement as soon as possible after it has been adopted.

4.2.7 G Boards have ultimate responsibility for understanding and controlling the degree of risk, by type, which is being taken by their societies. They should approve the general business strategies, including the treasury section of the society's corporate plan, and the risk management policies that control the extent of risk which is taken, and should give clear guidance on the level of risk considered to be acceptable – such strategies and guidance to be reviewed regularly by the board.

4.2.8 G The policy statement establishes guidelines for the society's senior managers on the control of financial risks, including: operational risk; structural risk; funding risk; and counterparty credit (including settlement) risk. Such documents should be consistent with the type of business undertaken by the society and compliant with sections 7 and 9A of the 1986 Act.

4.2.9 G Policy statements should set out the strategic framework for treasury operations, recording the rationale for that framework i.e. why and how treasury activities are expected to support the society's core business, and the "approach" category being followed, derived, where possible, from the results of a financial risk audit. They should clearly state the conditions under which authority is delegated to a board sub-committee, or to management. The documents should establish the operating limits and high level controls that will maintain exposures within levels consistent with the policy, and the procedures/controls on the introduction of new products or activities. Copies of the policy statements should be made available to, and read by, all personnel involved in treasury operations.

4.3 Financial risks

Funding risks

4.3.1 G Building societies' current core business, financing long-term residential mortgages with short-term personal savings, necessarily involves a high degree of maturity transformation, and this constitutes the major financial risk that all societies need to manage.

4.3.2 G Wholesale deposit funding, available from a range of sources, provides a useful supplement to the stocks, and inflows, of personal savings. Wholesale markets typically provide funding at longer and/or more definite maturity, often at advantageous rates, but may concentrate the refinancing risks societies face.

4.3.3 G The particular constitution of building societies means that the scale of deposit funding has a significant impact on the position of investor members. The public perceives building society share accounts to be as secure as (or even more secure than) bank deposits. However, unlike depositors with banks, share account investors are contributories, not creditors, so they rank after deposit funders, including suppliers of wholesale funding. A society which gears itself up significantly with wholesale funds thereby dilutes the security of its share account investors, whilst at the same time increasing its refinancing and liquidity risks.

4.3.4 G Guidance on the management of short-term cashflow mismatches, and the liquidity requirements which flow from such positions, is given in Chapter 5 (Liquidity). Risks arising from the interest basis/structure or currency of the funding are covered later in this chapter.

Structural risks

4.3.5 G Most societies are susceptible to interest rate exposure arising not only as a result of changes (or potential changes) in the general level of interest rates or the relationship between short term and long term rates, but also from divergence of rates for different balance sheet elements ("basis" risk), for example, the risk that it may not be possible to increase administered mortgage rates in line with increases in money market (LIBOR) rates, resulting in a margin squeeze where

funding is LIBOR-based. In this chapter, risks which arise from the different interest rate or currency characteristics of assets and liabilities, and from transactions based on other financial reference rates or indices, are referred to as “structural” risks.

Operational risks

4.3.6 G The extension of building society activities into new forms of funding, liquidity and off balance sheet instruments has dramatically increased the operational risks involved. The documentation, accounting treatment and settlement procedures for such instruments can be highly complex, with significant costs and penalties arising from operational mistakes. Societies involved in these areas of activity need rigorous management procedures and control systems to ensure that robust legal documentation is used, that compliance with market practice is achieved, and that deal recording and settlement systems are effective (with appropriate contingency arrangements in place).

Key risk categories

4.3.7 G The key financial risks which, in order to comply with Rule 4.2.1, societies should manage and control are:

- (1) Maturity mismatch, including the risks:
 - (a) that the society may be unable to refinance term wholesale borrowings on a rollover date due to general market conditions (which may or may not be related to the position of the society itself);
 - (b) associated with the bunching of roll-over dates for wholesale funding or maturities of term retail funding;
 - (c) from concentration on a limited number of funding providers, giving rise to increased dependence particularly on roll-over days; and
 - (d) arising from the prepayment (early redemption) profile of mortgages, and

those inherent in the early withdrawal characteristics of retail savings products (i.e. behavioural v. contractual maturity risks);

(2) Interest rate risk to a society's earnings (most significantly, to its interest margin) and to its economic value (the present value of future cashflows) arising from:

- (a) repricing mismatches, e.g. where, in a rising interest rate environment, liabilities reprice earlier than the assets which they are funding, or, in a falling rate environment, assets reprice earlier than the liabilities funding them (in both cases leaving the society with a reduction in future income); repricing risk is inherent in fixed rate instruments, the market value of which will change with interest rate movements (e.g. Gilts), and unhedged fixed rate retail products (e.g. unhedged fixed rate mortgages funded by variable rate liabilities would yield less margin should the cost of the liabilities increase due to changes in market rates);
- (b) yield curve risk, where unanticipated changes to the shape or slope of the yield curve will cause assets and liabilities to reprice relative to each other - possibly exposing positions which were hedged against a parallel shift in rates only;
- (c) interest basis mismatches, arising from the imperfect correlation of rates on instruments with similar repricing characteristics, e.g. between LIBOR rates and mortgage rates (both of which are variable but are subject to different market forces), or between LIBOR and reference Gilt rates, or between 3 and 12 month LIBOR rates etc. Risk can also arise where the underlying market rate is the same for matching assets and liabilities, but the margin paid relative to the offer rate diverges from the margin received relative to the bid rate;
- (d) balance sheet composition, where an increase in the proportion of assets and liabilities repricing at fixed or variable wholesale market rates implies a

reduced administered rate element in the balance sheet - which will nevertheless have to bear (at least in the short term) the full brunt of any rate changes required in order for a society to widen its margins, if necessary for business or profitability reasons (e.g. in the event of a significant credit deterioration leading to rising provision levels);

- (e) optionality (i.e. explicit/contracted option contracts, such as “caps”, “collars” and “floors”, which confer the right, but not the obligation, to fix an interest rate for an agreed amount and for an agreed period. and embedded/implied options included within products, such as early withdrawal or redemption entitlements), magnifying the effect of other interest rate risks: in particular, societies may be subject to implied optionality in respect of retail savings rates (for which a minimum rate payable - a “floor” - above 0% may need to be assumed), and from prepayment of mortgages/pre-withdrawal of deposits (where the customer may effectively have an “option” which may not be adequately “hedged” by way of early redemption charges); and
 - (f) product pricing, arising particularly where products are not immediately profitable and where longer term payback is dependent upon the achievement of specific cost and/or pricing assumptions.
- (3) Currency risk, arising from the effects of changing exchange rates on unmatched assets and liabilities denominated in different currencies; and
 - (4) Index related risk, arising from the effects of movements in an index of financial assets (e.g. the FTSE 100), or similar reference rate, on unmatched assets or liabilities paying or receiving a return based on that index/rate.

4.3.8 G Societies’ financial risk management policies should also cover:

- (1) Settlement risk: the risk of losses arising from failure to settle transactions accurately, or on a timely basis;

- (2) Counterparty risk: associated with settlement risk, where a counterparty cannot or will not complete a transaction;
- (3) Investment risk: associated with the financial consequences of capital projects including diversification investments; and
- (4) Operational risk: including failure of internal controls or procedures, and the risk arising from errors in legal documentation.

4.4 Statutory restrictions

Funding limit

4.4.1 G Section 7 of the 1986 Act provides that at least 50% of the funds (excluding those qualifying as own funds) of a building society (or, if appropriate, of the society's group) must be raised in the form of shares held by individual members of the society (excluding share accounts held by individuals as bare trustees for corporate bodies).

Structural risk management restrictions

4.4.2 G Section 9A prohibits a society or its subsidiary undertakings (subject to certain defined exemptions) from:

- (1) acting as a market maker in securities, commodities, or currencies;
- (2) trading in commodities or currencies; or
- (3) entering into any transactions involving derivative investments.

4.4.3 G Section 9A contains definitions of the above terms, and societies are directed particularly to section 9A(9) for the purposes of compliance monitoring.

4.4.4 G Section 9A also includes a “purpose” test for entering into derivatives contracts and a “safe harbour” clause for society counterparties stating that any transaction in contravention of the section 9A prohibitions is not, however, thereby invalid and may be enforced against the society.

4.4.5 G The exemptions in section 9A fall into two broad categories:

- (1) those which allow a society or subsidiary undertaking to provide certain retail services to its customers, including:
 - (a) acting as market maker in currency or securities transactions of less than £100,000;
 - (b) trading in currencies (but not commodities) up to a value of £100,000 per transaction;
 - (c) entering into “contracts for differences” in respect of customers who wish to hedge exposures arising from their own loans or deposits with, the society group; or
 - (d) acting as market maker or entering into “derivative investments” in its capacity as manager of a collective investment scheme; and
- (2) those which allow a society or subsidiary undertaking to use “derivative investments” in order to limit the extent to which it, or a connected undertaking, will be affected by changes in interest rates, exchange rates, any index of retail prices, any index of residential property prices, any index of the prices of securities, or the creditworthiness of any borrower(s).

4.4.6 G The Treasury may, by negative resolution order, amend the £100,000 transaction limit and may add factors to, or remove factors from, the list in 4.4.5(2) above. The Treasury may, by affirmative resolution order, make more significant amendments to section 9A.

4.4.7 G Boards should have procedures and controls to ensure that use of section 9A exemptions by their society (and subsidiary undertakings, if any) is within the law. The exemptions permitting transactions of up to £100,000 (as market-maker in currency or securities transactions, or trading currencies) may not be abused by artificially breaking up larger transactions into a number of smaller amounts falling within the £100,000 ceiling (section 9A(8) is the relevant anti-avoidance provision). Compliance with the 1986 Act may be assisted by specifying the purposes and circumstances in which hedging transactions may be undertaken, or derivatives used, both in the financial risk management policy documents and in the internal arrangements for delegation, identifying the specific authority in section 9A. Whatever the hedging policies adopted, and however the control and authorisation arrangements are organised, it is important that they should be accurately and fully documented.

4.5 Supervisory approach

Funding limits

4.5.1 G Whilst the section 7 funding limit is expressed as a minimum of 50% share account funding, societies should, for prudential monitoring purposes, draw up a funding policy which incorporates an internal policy limit based on a maximum level of deposit liabilities (i.e. an inversion of the “nature limit”). In order to avoid any possibility of an inadvertent breach of the 1986 Act, it is expected that such internal limits will be set at levels below the 50% statutory maximum.

4.5.2 G In setting funding limits, the board should consider wholesale and other deposit funding requirements over the period of their society’s current corporate plan, and avoid setting limits at levels where usage is either unplanned or highly unlikely. Where societies have significant levels of offshore deposit funding or commercial deposit funding, boards should set policy sub-limits for these sources (e.g., a society might set an overall deposit liabilities limit of 30%, with sub-limits of 25% for wholesale funding and 10% for offshore funding - the total of the sub-limits exceeding the overall limit only on the basis that both could not be used to their full extent simultaneously).

Supervisory standards for treasury activities

4.5.3 G Under section 5 of the 1986 Act, a society's principal purpose is residential mortgage lending, financed by members' savings, not undertaking, and trading in, financial risk for profit. Societies should therefore adopt a risk-averse approach to maturity mismatch and to structural risk management. A degree of maturity mismatch and structural risk is inherent in normal building society operations, but boards should set risk limits which either:

- (1) ensure that, as far as possible, such exposures are minimised; or
- (2) where interest rate positions are to be taken, restrict potential reductions in income or economic value, estimated under robust stress testing scenarios, to levels which would not compromise the current or future viability of their societies.

4.5.4 G Societies should aim to eliminate, as far as is practicable, all exposures to risk arising from movements in currency exchange rates.

4.5.5 G To comply with rule 4.2.1, a society's system for financial risk management must be **adequate**. The policy statement required under rule 4.2.5 must be appropriate for the society's business needs and the complexity of its existing and proposed treasury activities. The FSA has devised five models, described as supervisory approaches, of increasing sophistication, to assist societies to comply with these rules. The approaches are described as "administered", "matched", "extended", "comprehensive" and "trading". A society that conducts its treasury activities in accordance with the most suitable (for it) of these five models, can readily demonstrate that it complies with rules 4.2.1 and 4.2.5. But these models are neither mandatory nor exhaustive. Guidance on the characteristics of each approach is set out in Annex 4A.

Supervisory discussions on change of approach

4.5.6 G The FSA anticipates that societies will wish to develop further their treasury expertise, and that a change of "approach" may be necessary. In this respect, the "approach" categories should be seen, not as discrete compartments, but rather as stages in the continuous evolution of financial

risk management, with a change of “approach” marking a milestone in that progress. Societies should develop their financial risk management and systems to the level appropriate to support the scale and nature of their business and the FSA will be encouraging societies to enhance their treasury capabilities where this is considered to be necessary.

4.5.7 G Whilst the “approach” benchmarks have no legal significance, the process of moving between approaches provides a useful opportunity for the FSA to review a society's progress, and to satisfy itself that policies, limits and systems are appropriate for the treasury activities planned, and that therefore compliance with rule 4.2.1 is adequately established.

4.5.8 G Any society which wishes to move between approaches should contact the FSA at an early stage. The FSA will wish to be satisfied that the society has the requisite expertise, management information systems, accounting systems and controls before any significant change in the society's treasury activities is implemented.

4.6 Management responsibilities

4.6.1 G Senior management of a society are responsible for:

- (1) ensuring that board policies for managing treasury risk are implemented through the operation of effective:
 - (a) control procedures;
 - (b) risk measurement systems; and
 - (c) risk reporting systems; and
- (2) maintaining clear lines of authority and responsibility for controlling treasury risk, including:
 - (a) recruitment of sufficient personnel (including ensuring adequate cover for sickness and holidays) with appropriate specialist skills and expertise to control and monitor structural risk;

- (b) setting and monitoring appropriate control limits within the board policy levels delegated; and
- (c) maintaining effective internal controls through daily monitoring of treasury activities, and appropriate segregation of duties.

4.7 Risk management systems

4.7.1 G In order to demonstrate compliance with rule 4.2.1, a society should have in place information systems that are capable of:

- (1) measuring the level of maturity mismatch and structural risk inherent in its balance sheet;
- (2) assessing the potential impact of interest rate (and, if applicable, currency exchange rate) changes on its earnings and its economic value;
- (3) reporting accurately, and promptly, on risk positions - to management, to the board and, if requested, to the FSA;
- (4) recording accurately, and on a timely basis, all new transactions and/or cashflows which will affect calculations of structural risk exposures;
- (5) managing the settlement timetable and processes for individual treasury instruments; and
- (6) monitoring credit risk and settlement risk positions incurred with individual and groups of counterparties.

4.7.2 G The scale and scope of the risk measurement system employed should reflect the sophistication of a society's treasury operations, those societies wishing to adopt the

“Comprehensive” or “Trading” approaches requiring more complex techniques to capture different facets of risk.

Control limits

4.7.3 G Control limits confine structural risk positions within levels considered by board and management to be prudent, given the size, complexity and capital needs of the society’s business. Where applicable, limits should also be applied to individual instrument types, asset/liability portfolios, and to separate business activities or subsidiaries. The size of the limits set will be a factor in the FSA’s assessment of the overall risk profile of the society, and thus in the threshold solvency ratio which is set for it.

4.7.4 G The structure of limits should enable the board and management to monitor actual levels of sensitivity, under different pre-defined market index, interest rate and exchange rate scenarios, against the policy specified maxima, to ensure that corrective action can be taken if required.

4.7.5 G The number and type of limits which should be applied will depend upon the relative sophistication of a society’s treasury operations, and further guidance on the FSA’s expectations for each policy approach is set out in Annex 4A.

4.7.6 G Where limits are set as part of the overall board policy, these should be treated as absolute, and therefore no excesses should be tolerated. Any limit exceptions should be reported immediately to executive managers, and the policy should make clear what action is expected of management in such circumstances (including arrangements for informing the board and the FSA of the breach). Limits set by management should similarly be subject to clear guidelines covering the circumstances and periods for which breaches may be permitted (if at all) and the arrangements for notification of exceptions.

Stress testing

4.7.7 G The risk measurement systems put in place should evaluate the impact, on income or economic value as appropriate, of abnormal market conditions. The amount and type of such stress

testing required will depend upon the sophistication of treasury operations undertaken, and the level of risk taken, but where required should be regular and systematic. Boards and management should, periodically, review the extent of such stress testing to ensure that any “worst case” scenarios remain valid. Contingency plans should be in place to deal with the consequences should such scenarios become reality.

Board information reporting

4.7.8 G The FSA attaches considerable importance to the quality, timeliness, and frequency of the management information which the board uses to inform itself of the society's risk positions and to satisfy itself that treasury activities are being undertaken in accordance with its policies and guidelines. Information obtained by the board should not be confined to the current position, but should include regular and systematic stress testing, as described above, which should be taken into account when policies and limits are established or reviewed.

4.8 Counterparty risk

4.8.1 G Counterparty limits should cover:

- (1) full risk exposures (e.g. deposits or marketable instruments);
- (2) market risk exposures (e.g. mark to market positive value of swaps, plus appropriate addition for potential future exposure increases arising from changes in market rates);
and
- (3) settlement risk exposures (e.g. currency deals where amounts are paid out before funds are received).

4.8.2 G Boards should determine the extent to which authority to set counterparty limits is delegated to management, but delegation to a single individual should not be permitted. Personnel with dealing mandates should not be given authority to set new or increased counterparty limits. No dealings should take place with counterparties which do not have a pre-approved limit.

4.8.3 G Limits should be established on the basis of a robust methodology, which should be fully documented and reviewed regularly. For societies with more active treasury operations, a separate credit risk committee with responsibility for preparing a credit policy statement and counterparty list may be appropriate - less active societies may incorporate a section on credit risk within their liquidity policy statements, with appropriate cross-references to other policy and procedures statements. In all cases, the counterparty list and individual limits should be subject to formal credit review at least annually, with interim arrangements in place to add, amend or remove limits as appropriate.

4.8.4 G Where reliance is placed on sources of information or opinion external to both the society and the counterparty (e.g. rating agencies), the nature of the source, and arrangements for ensuring that the information relied upon is kept up to date, should be made explicit in the credit risk policy document and in procedures manuals. Where ratings are reduced (or put on “watch” with “negative implications”), or where a society becomes aware of information on a counterparty which might affect its perceived creditworthiness, it should have systems for reviewing individual counterparty limits and, possibly, suspending/removing individual names from authorised lists in an expeditious manner. Arrangements for obtaining published information on counterparties should also be included in procedures manuals.

4.8.5 G Exposures to counterparties should be monitored on a consolidated basis, aggregating exposures of the society and any subsidiaries (where applicable), and setting total exposure limits for groups of connected counterparties (e.g. a commercial bank and its merchant bank subsidiary). Similarly, country, sector and market concentrations should be monitored continuously against agreed limits.

Large shareholdings and deposits

4.8.6 G Undue dependence on individual funding sources that account for a large proportion of a society’s overall liabilities will involve risk of liquidity problems should those funds be withdrawn or not be available for roll-over. These potential problems apply whether the funds in question are raised from the retail or the wholesale markets.

4.8.7 G A small society is relatively more exposed to this type of risk, and should consider the implications of concentration on individual shareholders or depositors when assessing its liquidity levels and need for committed facilities. In the management of large retail investment accounts, a society should normally avoid:

- (1) obtaining funding from a single shareholder or depositor which exceeds 1% of shares, deposits and loans; and
- (2) allowing the aggregate total of funding, from those single shareholders or depositors which individually represent more than one-quarter of 1% of shares, deposits and loans, to exceed 5% of shares, deposits and loans.

Committed facilities

4.8.8 G A society with high levels of maturing funding, or vulnerability to withdrawal of individual deposits, should consider arranging committed facilities (or to maintain higher than average levels of liquidity). In arranging committed facilities, a society should consider:

- (1) the credit standing and capacity of the provider of the facility;
- (2) the documented basis of the commitment (i.e. is it an unconditional commitment or a “best endeavours” arrangement); and
- (3) the cost/fee structure compared to alternatives.

In extreme cases, there remains a risk that a provider may renege on a contractual commitment to provide funding, or purport to rely on widely drawn “events of default” or “material adverse change” clauses, and face the legal consequences (if any) rather than lend money to a society in difficulties. Societies should not, therefore, become over reliant on committed facilities to plug short term cashflow difficulties.

4.9 Operational risk

General

4.9.1 G Treasury is an area which is particularly vulnerable to losses arising out of errors, fraud, or wilful override of controls in order to “trade out” of loss making positions.

Segregation of duties

4.9.2 G Societies should ensure that, for all transactions undertaken, separate individuals are responsible for agreeing the deal, for preparing settlement instructions and for authorising payments. Societies should aim to ensure that there is complete segregation of duties between:

- (1) dealers,
- (2) those responsible for confirming the deals with counterparties and making and receiving the payments resulting from the deals, and
- (3) those reconciling bank statements.

4.9.3 G In more active treasuries duties should be split between a “front office” (dealing and deal support), a “middle office” (risk management) - essential only for those societies with more complex treasury operations - and a “back office” (confirmation, and settlement), with accounting and payment functions carried out either by the back office, or by a separate finance department. Physical segregation of the dealers from the settlement staff, to ensure that the former have no access to post or fax facilities used for confirmations, should be in place where accommodation and numbers of staff permit.

Reporting lines

4.9.4 G Where treasury activity and personnel numbers are high enough to allow the creation of separate “front” and “back offices”, the reporting line for the latter should be independent of the

former, so as to ensure that no conflicts of interest arise at the next level of management.

4.9.5 G A society adopting the “Comprehensive” or “Trading” approach should ensure that its “middle office” risk management function has clearly defined duties, and reports structural risk exposures directly to senior management and the board. The risk function should be independent of the profit centres of the society.

Remuneration policy

4.9.6 G Whilst it is clearly important that societies should offer salary levels sufficient to attract treasury personnel with the required qualifications and experience, remuneration policies should not encourage individual risk taking at the society’s expense. In particular, bonus schemes for treasury staff should not be based on numbers of transactions or gross income targets.

IT security

4.9.7 G Reliance on computerised dealing, information, treasury management and risk assessment systems renders societies particularly vulnerable to software or hardware failure. In accordance with Chapter 9 (Systems), boards of societies should:

- (1) have in place tested contingency plans for business recovery in the event of unforeseen disaster;
- (2) ensure that treasury IT systems access, both physical and logical, is subject to robust security;
- (3) exercise strong control over the development and modification of treasury IT systems; and
- (4) involve internal audit in reviewing the development or modification of treasury IT systems.

4.10 Independent review and controls

Internal audit

4.10.1 G Each board should ensure that its society's internal audit department has the skills and resources available to undertake an audit of the treasury function. Internal audit should evaluate, on a continuing basis, the adequacy and integrity of the society's controls over maturity mismatch, over the level of structural risk taken and should assess the effectiveness of treasury management procedures.

4.10.2 G Societies with complex treasuries or lacking internal auditors with treasury expertise may outsource treasury audit to an audit firm with the appropriate expertise and experience. The work of outsourced internal audit should be fully integrated into the society's overall audit procedures and plans, with appropriate reporting lines into the audit committee. However, in order to avoid conflicts of interest, internal audit should not be contracted out to the society's own external auditors – even if the function were to be performed by a completely different branch of the audit firm (see also chapter 11 on Outsourcing).

External audit

4.10.3 G The FSA may commission reports on treasury systems from external auditors under section 166 of the Act or from other appropriate skilled persons, whenever a society seeks to broaden the scope of its treasury operations. Societies which move to the “Comprehensive” or “Trading” approaches should carry out a post-implementation review in conjunction with their external auditors or other professional advisers. The FSA may, from time to time, commission an external review of a society's treasury, procedures and controls, in order to satisfy the FSA that these remain adequate and appropriate.

4A.1 Supervisory approach categories

4A.1.1 G This Annex provides guidance on the five models, or supervisory approaches, to financial risk management described in paragraph 4.5.5G. Where societies have subsidiary treasury operations, it is expected that these will fall into the same approach category as that of the parent society. An outline description of each approach is set out below, and a table at the end of this Annex summarises the key features.

4A.2 “Administered” approach

4A.2.1 G Societies in this category are expected to have balance sheets where loan assets and funding liabilities are entirely in Sterling and predominantly (>95%) subject to administered rates. In general, it is anticipated that the “Administered” approach will:

- (1) tend to suit small or very small societies;
- (2) where balance sheet management is typically undertaken by the Chief Executive in conjunction with the board - existence of a specific finance function (and Finance Director) being unlikely.

4A.2.2 G Societies adopting this approach:

- (1) should not offer fixed rate products (defined as repricing more than one year and one day later than the current date) on either side on the balance sheet;
- (2) should have policies limiting the levels of deposit funding to less than 10% of share and deposit liabilities unless a higher limit of up to 35% has been discussed with the FSA to accommodate those societies who take significant commercial deposits but funding from the wholesale markets will be limited to 10% of share and deposit

liabilities;

- (3) will hold a simple range of liquid assets (whether counting as prudential liquidity or not), with marketable fixed rate instruments held only provided that these have a residual maturity of 5 years or less; and
- (4) should place no fixed rate time deposits having a maturity greater than 1 year.

4A.2.3 G Societies adopting the “Administered” approach do not need specific risk management reporting, but the market value of fixed rate investments with maturities of more than one year, as compared to their purchase price, will be monitored by the monthly monitoring returns.

4A.3 “Matched” approach

4A.3.1 G Societies adopting this approach should have balance sheets where assets and liabilities are entirely in Sterling and use hedging contracts (or internal matching of assets and liabilities with similar interest rate and maturity features) to neutralise the risk arising from loans or funding other than at administered rates, on a tranche by tranche, product by product basis. Characteristic of small to medium sized societies, with limited treasury skills or resources, typically the Chief Executive of such societies will be supported by a Finance Director or Finance Manager, and report direct to the board on treasury matters (or through a board sub-committee).

4A.3.2 G Societies adopting this approach should:

- (1) have in place policy statements covering the intention to offer fixed rate (i.e. >1 year to repricing date) products on one or both sides of the balance sheet;
- (2) set limits (as a % of total assets) for fixed rate loan assets and share or deposit liabilities, and for holdings of fixed rate liquid assets (whether counting as prudential liquidity or not);
- (3) set an overall limit for hedging transactions (nominal value of transactions %SDL);

and

- (4) have in place policies limiting the levels of deposit funding to less than 25% of share and deposit liabilities unless a higher limit of up to 35% has been discussed with the FSA to accommodate those societies who take significant commercial deposits but funding from the wholesale markets will be limited to 25% of share and deposit liabilities.

4A.3.3 G The policies of such societies can allow use of standard hedging products for transactions permitted by section 9A, e.g.:

- (1) swaps (including FTSE index swaps);
- (2) Forward Rate Agreements; and
- (3) plain vanilla over the counter (“OTC”) options such as swaptions, caps, collars and floors (options purchased only);

for the purpose only of matching individual products and within the exemptions permitted by section 9A - structural hedging of the whole balance sheet should not be permitted.

4A.3.4 G Risk management for such societies will be achieved internally through:

- (1) matching reports (detailing individual products and the hedging instruments associated with them); and
- (2) gap analysis - for gapping purposes, reserves will need to be treated as having no fixed repricing date, and gap limits should be set at the minimum level required to give flexibility in timing the hedges for individual mortgage and investment products, with some allowance for residual risks (those too small to be economic to hedge) and for holdings of fixed rate liquid assets. Basis risk should be minimised by setting cautious limits for fixed rate and market rate assets and liabilities.

4A.3.5 G Gap monitoring reports should be updated and considered by the board at least monthly. By implication, societies adopting this approach should not be taking an interest rate view for the purposes of determining a hedging strategy.

4A.4 “Extended” approach

4A.4.1 G The principal difference between the “Matched” and the “Extended” approaches lies in the capability to measure and hedge structural risk across the whole balance sheet, including reserves, rather than just hedging individual transactions. The approach will thus allow a society to allocate reserves to specific repricing bands representing a considered view of the characteristics of such reserves and/or the assets deemed to “represent” such reserves, or to manage interest rate gaps as part of a strategy for hedging the endowment effect of interest free reserves against adverse interest rate movements. Risk analysis should also enable it to position its balance sheet to take advantage of a particular interest view. Societies adopting this approach will have the capability to fund in currency and to hold a limited range of currency liquid assets (see Chapter 5, Liquidity), subject to aiming for elimination of all currency exchange mismatch, within an expected maximum limit of 2% of own funds.

4A.4.2 G As a result, a society adopting the “Extended” approach will:

- (1) adopt policies and systems to enable it to undertake the hedging of individual transactions within the context of an overall strategy for structural hedging, based on detailed analysis of its balance sheet; and
- (2) use the output of such analysis to enable it to position its balance sheet to take advantage of a particular interest view.

4A.4.3 G Management of interest risk for such societies will typically be controlled by the board acting through an Assets and Liabilities Committee (ALCO) or equivalent sub-committee, which will normally be responsible for agreeing any interest rate view. Reporting to the ALCO, there will typically be a Treasurer running a small treasury department with appropriate segregation between

dealing and settlement activities.

4A.4.4 G Hedging instruments available to be authorised by the board will be the same as for the “Matched” approach, with the addition of (as far as permitted by section 9A):

- (1) exchange traded futures/options and FTSE (or similar) OTC swaps/options (options to be purchased only); and
- (2) foreign exchange swaps and forward contracts, used to hedge currency funding.

4A.4.5 G Risk management systems should be based on:

- (1) full balance sheet gap analysis;
- (2) possibly supplemented by static simulation.

4A.4.6 G Gap limits could allow leeway for risk positions - to be controlled by sensitivity limits covering potential changes in both earnings and economic value.

4A.4.7 G Basis risk should be controlled through limits on the minimum levels of administered rate assets and liabilities, and limits on the extent of mismatch between LIBOR-based and administered rate balances.

4A.4.8 G Positions should be monitored internally by way of frequent updates (monthly minimum).

4A.5 “Comprehensive” approach

4A.5.1 G The principal differences between the “Extended” and the “Comprehensive” approaches lie in:

- (1) the depth and quality of the risk management systems put in place to monitor and control structural risk;

- (2) the frequency of analysis undertaken; and
- (3) the currencies in which treasury operations would be undertaken.

4A.5.2 G Like the “Extended” approach societies, “Comprehensive” approach societies will manage risk using a board/ALCO/Treasurer reporting structure, but the latter will typically subdivide the treasury department further with a separate “middle office” risk management function, segregated from “front office” (dealing) and “back office” (settlement/accounting).

4A.5.3 G Hedging instruments available for use under agreed board policy will include those for the “Extended” approach plus (as far as permitted by section 9A):

- (1) currency options.

4A.5.4 G Risk analysis should extend beyond static gap/static sensitivity analysis to:

- (1) dynamic simulation (projecting forward balance sheet elements and simulating the impact of different interest rate scenarios);
- (2) possibly duration (modified or dollar, reflecting the change in percentage or money value of positions for a given change in interest rates) for individual portfolio elements, or present value of a basis point move (PVBP) calculations, to highlight sensitivity to non-parallel shifts in the yield curve; and
- (3) possibly value at risk (VaR), using correlation/historic simulation and/or Monte Carlo simulation;

the impact on both earnings and economic value being assessed internally on a very regular basis.

4A.5.5 G Risk positions could reflect an interest view, subject to sensitivity limits set by board/ALCO and incorporating basis risk assessment/control. Foreign exchange mismatch (i.e.

exchange rate exposure) is expected to be limited to less than 2% own funds (within Capital Adequacy Directive de minimis levels).

4A.6 “Trading” approach

4A.6.1 G A category for those societies which wish to take advantage of the ability to trade in securities. Essentially, such societies will adopt the “Comprehensive” approach for the purpose of managing interest risk arising in their “banking books”, but with additional policies, financial instruments, systems and expertise for managing the market risks inherent in running separate “trading books”. Currency positions exceeding 2% of own funds are permitted, but are expected to be subject to overall board limits.

4A.6.2 G Such a society should control the additional market risks through a Market Risk Committee of the board and risk management systems should include complex portfolio management, option pricing and VaR models.

4A.6.3 G Societies adopting this approach will be subject to the Capital Adequacy Directive in respect of their trading books – see Chapter 1 (Solvency).

POLICY APPROACH	RISK MANAGEMENT	RISK ANALYSIS	HEDGING INSTRUMENTS	FUNDING	PRUDENTIAL & OTHER LIQUIDITY	LOAN ASSETS
ADMINISTERED	CE (+FD) & board Dealing/settlement segregation (minimum 2 persons)	None (But, if fixed rate liquid assets held, then mark to market value and sensitivity analysis required)	None	Sterling only Deposit Liabilities < 35%SDL No fixed rate (> 1 Year) provided that funds received from the wholesale market do not exceed 10% SDL	Sterling only No non-marketable > 1 Yr. No marketable > 5 Yrs	No fixed rate (1 Yr. +)
MATCHED	CE/FD (or FM), (ALCO) & board Dealing/settlement segregation (minimum 2 persons)	Matching report & Monthly (minimum) Gap analysis (Reserves NFR) - No structural hedging No Interest View Minimal limits (to cover residual balances + pipeline products only)	Interest rate & FTSE index Swaps/FRAs/ Caps/Collars/ Floors (purchase only)	Sterling only Deposit Liabilities <35%SDL provided that funds received from the wholesale market do not exceed 25% SDL	Sterling only	Limit on fixed rate (1 Yr. +)
EXTENDED	(CE)/FD/Treasurer + ALCO & board Treasury segregation (front office/back office)	Monthly (minimum) Static Gap (& Static Simulation) - Reserves hedged Interest view Sensitivity limits (earnings, economic value & basis risk)) No FX mismatch	Interest Rate & FTSE index Swaps/FRAs/ Caps/Collars/ Floors/Futures/FTSE Options (purchase only) FX Swaps/Forward Contracts Retail derivatives & FX contracts permitted.	Sterling + Currency Minimum level of administered rate liabilities	Sterling + Currency (limited range of currency instruments)	Minimum Level Of administered Rate Assets
COMPREHENSIVE	FD/Treasurer/Risk Manager + ALCO & board Treasury segregation (front office/middle office/back office)	Very frequent Gap (Reserves Hedged)+ Duration/ Simulation/ (VaR.) Sensitivity limits (earnings & economic value) Basis risk limits FX mismatch <2% Own Funds	Interest Rate & FTSE index Swaps/FRAs/ Caps/Collars/ Floors/Futures/FTSE Options Exotic Options FX Swaps/Forward Contracts/ Options Retail derivatives & FX contracts permitted. Interim Prudential Sourcebook for Building Societies

5 Liquidity

5.1 Introduction

5.1.1 G This chapter replaces PN 1998/5 issued by the Commission and contains rules and guidance for societies on the management of liquidity. It contains guidance for societies on what is meant by “adequate resources” in the Threshold Condition set out in paragraph 4(1) of Schedule 6 to the Act – see also COND 2.4 - and in Principle 4, in respect of liquidity. The chapter explains the FSA’s approach to liquidity for building societies and provides guidance on factors the FSA will take into account in assessing whether a society meets the rules set out in section 5.2.

5.2 Rules

5.2.1 R A society must maintain adequate liquid resources, including prudential liquidity, appropriate to the scale and nature of its business to enable it to meet its obligations as they fall due.

5.2.2 G “Adequate liquid resources” means of such amount and composition as will at all times enable the society to meet its obligations as they fall due.

5.2.3 G “Prudential liquidity” has the meaning set out in paragraph 5.3.4. A list of assets suitable for inclusion in prudential liquidity is set out in Annex 5A.

- 5.2.4 E**
- (1) A society should keep at least 3.5%SDL in 8 day liquidity.**
 - (2) Contravention of 5.2.4(1) may be relied upon as tending to establish contravention of 5.2.1.**

5.2.5 G “SDL” is defined in paragraph 5.3.2.

5.2.6 G A list of assets acceptable as 8 day liquidity is set out in paragraph 5.4.3.

5.2.7 R A society must maintain, and submit to the FSA, a board-approved policy statement on liquidity.

5.2.8 G Guidance on the content of a liquidity policy statement is set out in paragraphs 5.6.2 to 5.6.4 and in Annex 5B.

5.2.9 R A society making any significant change to its policy statement on liquidity must provide the FSA with a copy of the amended policy statement as soon as possible after it has been adopted.

5.3 The Prudential Regime for Liquidity

5.3.1 G A building society specialises in long-term mortgage lending which is financed mainly by liabilities which are contractually short-term. This feature of societies' business creates maturity mismatches which can give rise to cash flow imbalances. To ensure that it can meet its obligations as they fall due, a society should therefore keep an appropriate amount and mix of liquidity to meet any sudden adverse cash flow; the level of liquidity held should be sufficient to maintain public confidence that the society can meet its commitments.

5.3.2 G The amount of liquid assets held by a society should be expressed as a percentage of its share and deposit liabilities (SDL). For the purposes of this chapter, SDL is defined as the total of share and deposit liabilities, excluding amounts that qualify as own funds but including accrued interest not yet payable. Societies should show the board-approved range for liquidity expressed as a percentage of SDL in their liquidity policy statement.

5.3.3 G Funds borrowed from the wholesale money markets have a specified maturity date on which they have to be repaid or rolled over and thus carry the risk that they will be unable to be refinanced on that maturity date on terms acceptable to the society. Societies should take this risk into account in planning the maturity profile of their prudential liquidity. The same

consideration applies to large positions in retail funds where, for example, fixed-rate bonds or Tessa accounts are due to mature. Societies should not run large exposed funding positions without having sufficient liquidity to re-finance part or all of the position on maturity. An effective maturity diary should be established for both funding and prudential liquidity.

5.3.4 G Liquid assets should be genuinely liquid i.e. they should be capable of being realised at very short notice. Only instruments or assets that are marketable (i.e. realisable in a secondary market) or have three months or less to run to maturity should (subject to the guidance in Annex 5A and in paragraph 5.5.2) be included in the calculation of liquidity for prudential purposes. Societies may hold other assets, but as an investment rather than liquidity (although such assets might still fall within the “liquid assets” heading in the annual accounts, which has no restriction on maturity). The treatment in the annual accounts determines whether an asset is a liquid asset for the purposes of calculating the society’s position in relation to the statutory limit in section 6 of the 1986 Act (the “lending limit”).

5.3.5 G Committed standby facilities form an important element of societies’ funding strategy and can be used to boost liquidity when needed. Societies should ensure that the lines are truly committed and that a diary is kept noting when the lines expire, allowing the facilities to be renewed on a timely basis. Societies not using committed standby facilities should increase their level of liquidity to compensate.

5.4 Short-term Liquidity

5.4.1 G The FSA operates a short-term liquidity regime for building societies from sight to 8 calendar days forward.

5.4.2 G An asset maturing on a non-business day should be regarded as maturing on the succeeding business day.

5.4.3 G The following liquid assets may be counted as short-term liquidity:

- (1) cash, current account balances, Treasury, Local Authority and eligible bank bills;

- (2) deposits with relevant authorities (as defined in Annex 1F), banks and building societies with not more than 8 days' notice, or within 8 days of maturity;
- (3) all gilt-edged securities, subject to discounting according to maturity (see paragraph 5.4.4);
- (4) CDs (banks and building societies) with 3 months or less to maturity, commercial paper with residual maturity up to 1 month.

5.4.4 G All gilt-edged securities can be included within 8 day liquidity, but discounted back to sight according to maturity. Such discounting should help to offset the greater price volatility which can affect gilts at the longer end of the maturity range. The discount factors which should be applied to market value of holdings of gilt-edged securities are as follows:

maturities	maturities	maturities
less than 1 year	1 to 5 years	over 5 years
Zero	5%	10%

5.4.5 G Societies on the “Administered” approach (as described in chapter 4 on Financial Risk Management) should not hold marketable fixed-rate instruments, including gilts, unless their residual maturity is 5 years or less. Where such societies have historic holdings of such investments, they may continue to be counted as prudential liquidity subject to the discount factor for gilt-edged securities.

5.4.6 G Societies with extensive treasury operations and large holdings of gilts will typically mark-to-market their gilt book daily. Societies with less sophisticated treasury operations which hold gilts as liquidity should mark-to-market their holdings at least once a week and more often during times of market volatility. Where such holdings are held as 8 day liquidity, market valuations should be taken daily to obtain an accurate value for purposes of discounting and to establish the amount of prudential liquidity at any given time.

5.4.7 G Societies should not include excessive amounts of inter-society holdings in their 8 day liquidity calculation. Societies should include sub-limits for the 8 day liquidity band within their overall sector limits in the liquidity policy statement.

5.5 Supervisory Approach to Liquidity

5.5.1 G Societies should adopt a risk-averse approach to the management of liquid assets. Societies should ensure that treasury systems and controls are adequate for the scale of activity undertaken and that treasury personnel have appropriate expertise and competence, including dealing, settlement and accounting skills. Chapter 4 suggests that dealings in certain categories of liquid assets should be confined to societies on an advanced approach to financial risk management.

5.5.2 G Annex 5A sets out the range of assets considered appropriate for societies to hold as prudential liquidity although each society should satisfy itself that any particular kind of asset is suitable to its needs. If a society wishes to hold an asset as prudential liquidity that is not listed in Annex 5A, it should consider the following factors:

- (1) the suitability of the asset for the structure of the society's balance sheet, taking into account, inter alia, interest rate risk and any currency risk;
- (2) the marketability of the asset i.e. the "depth" of its liquidity;
- (3) credit risk and market risk (price volatility);
- (4) the adequacy of the society's expertise and systems in the treasury area.

5.6 Board and Management Responsibilities

5.6.1 G Chapter 4 on Financial Risk Management refers to the potential risks to societies of treasury activities. In particular, the size and complexity of some transactions can make them vulnerable to losses and fraud, and the impact of losses on individual transactions in the treasury

area can be significant and immediate. Boards have ultimate responsibility for deciding the degree of risk taken by their societies, including all categories of liquid assets and risks arising from the management of liquidity.

5.6.2 G Rule 5.2.7 requires each society to have a liquidity policy statement. This should be approved by the society's board and be consistent with the society's strategic plan and its financial risk management policy statement.

5.6.3 G Policy statements should set out the board's objectives for liquidity, the limits within which liquidity should be maintained, the range of instruments in which liquidity can be invested and conditions under which authority is exercised. The document should establish the framework for operating limits and high level controls, and should set out the board's policy on credit assessment, ratings and exposure limits. Guidance on the content of liquidity policy statements is set out in Annex 5B.

5.6.4 G A liquidity policy statement should be a working document and personnel in the treasury and settlement areas should be familiar with its contents, as should members of ALCO or Finance Committee. When aspects of the policy or limits become out of date, the policy document should be amended and the revised copy must be sent to the FSA (see rule 5.2.9).

5.6.5 G Boards should establish the objectives for liquidity including meeting obligations as they fall due (including any unexpected adverse cash flow), smoothing out the effect of maturity mismatches and the maintenance of public confidence. The need to earn a return may also be recognised as an objective, although this should be secondary to the security of the assets.

5.6.6 G Boards should decide the principles of remuneration for treasury dealing staff. Large bonuses linked to dealing-related profit targets should be discouraged as they can lead to unacceptable risk-taking on the part of those involved at the expense of the society.

5.6.7 G Management should regularly review the liquid asset portfolio. Some categories of asset are more complex than others and their characteristics (which can involve how the assets are held as well as the assets themselves, for example, securities subject to repo/reverse repo transactions) need to be fully assessed in any review of the portfolio.

5.6.8 G Board policies should be implemented through the operation of effective procedures and controls, risk measurement and reporting systems; senior management should maintain clear lines of authority and responsibility; sufficient personnel with specialist skills - in the settlements as well as in the dealing area - should be recruited; senior managers should have sufficient understanding of treasury operations to be able to carry out their responsibilities without relying exclusively on advice from the treasury team; and delegation of authority should be fully documented in procedures manuals and closely monitored.

5.7 Society-only Approach to Liquidity

5.7.1 G Societies need not calculate liquidity on a group basis for prudential purposes. Each subsidiary undertaking will have its own liquidity requirements reflecting the particular nature of its business and it will not normally be appropriate to combine these with the parent society or with each other. Liquidity held offshore, for example, may be managed with a degree of autonomy and subject to the rules of another regulator. In either case, this can lead to a loss of control and there may be circumstances where liquid assets are not immediately callable overnight. Liquid assets which are held offshore or in a subsidiary undertaking (or both) should be excluded from a society's calculation of its prudential liquidity.

5.8 Outsourcing of Liquidity Management and Brokers' Advice

5.8.1 G In considering whether to outsource a proportion of their liquidity to a fund manager, societies should take into account the guidance on outsourcing in chapter 11 and the following:

- (1) any agreement should be fully supported by legal documentation and societies should take legal advice on the terms and conditions;
- (2) the security of the assets should be no weaker when held to the order of a third party (the fund manager) than when held to the direct order of the society;

- (3) societies should ensure that the safety of the assets is the responsibility of the fund manager while they are under management, including while securities are out for settlement;
- (4) the assets under management should at all times be held in a separate client inventory identifying the society - there should be no credit exposure risk;
- (5) the fund manager should be given the terms and conditions under which it can act; this should include, inter alia, a copy of the society's liquidity policy statement;
- (6) the society should remain in control over policy decisions and be able to monitor the performance of the fund manager against independent benchmarks;
- (7) periodic meetings should be held between the society's senior management and senior management of the fund managers to discuss performance;
- (8) the board of the society should satisfy itself about procedures and controls, including internal audit, to obtain the level of comfort it needs over the operation.

5.8.2 G Most societies take advice from brokers regarding investment of their liquidity. Some, however, enter into a more formal arrangement where securities are delivered to and from the broker and a customer agreement between the broker and the society is completed. If so, societies should differentiate between advice and discretionary fund management. If the society has entered into an agreement involving the provision of advice, it should ensure that no transaction is undertaken without its prior consent. As with discretionary fund management, societies should make certain that all transactions are within the terms of its liquidity policy statement.

Prudential Liquidity

5A.1 G The following list of assets is available to societies for the management of prudential liquidity, according to the society's approach to financial risk management, as set out in chapter 4.

	Administered	Matched	Extended	Comprehensive	Trading
1.1 Bank notes or coinage of any country or territory.	✓	✓	✓	✓	✓
1.2 Deposits with:					
(1) the central bank of any member country of the EEA and of Canada, Japan, Switzerland and the USA (sterling only);	✓	✓	✓	✓	✓
(2) National Savings Bank;	✓	✓	✓	✓	✓
(3) any credit institution authorised by the competent authorities of any member country of the EEA and Switzerland (sterling only);	✓	✓	✓	✓	✓
(4) wholly owned subsidiaries of UK banks and building societies in the Channel Islands and the Isle of Man;	✓	✓	✓	✓	✓
(5) any gilt-edged market maker or participant in the UK gilt market supervised by a regulatory authority in the EEA.	✓	✓	✓	✓	✓

<p>1.3 Loans to:</p> <p>(1) the Department of Finance and Personnel (Northern Ireland);</p> <p>(2) any relevant authority ("relevant authority" is defined in Annex 1F).</p>	✓	✓	✓	✓	✓
<p>1.4 UK Government money market instruments (e.g., Treasury bills) and securities (gilts)</p> <p>(1) up to 5 years residual maturity;</p> <p>(2) over 5 years residual maturity</p>	✓	✓	✓	✓	✓
<p>1.5 Securities issued or fully guaranteed by the government of any other member country of the EEA and of Australia, Canada, Japan, New Zealand, Switzerland and the USA (sterling securities only).</p> <p>(1) either floating rate (of any maturity) or fixed-rate up to 5 years;</p> <p>(2) fixed-rate over 5 years.</p>	✓	✓	✓	✓	✓
<p>1.6 Securities issued, guaranteed or, in the case of bills of exchange, accepted by any credit institution authorised by the competent authorities of any member country of the EEA and Switzerland (sterling securities only).</p> <p>(1) either floating rate (of any maturity) or fixed-rate up to 5 years;</p>	✓	✓	✓	✓	✓

(2) fixed-rate over 5 years.	✘	✓	✓	✓	✓
1.7 Securities issued by any relevant authority (as in 1.3(2)).					
(1) either floating rate (of any maturity) or fixed-rate up to 5 years;	✓	✓	✓	✓	✓
(2) fixed-rate over 5 years.	✘	✓	✓	✓	✓
1.8 National Savings Bonds.	✓	✓	✓	✓	✓
1.9 Foreign currency deposits with:					
(1) the central bank of any member country of the EEA and of Canada, Japan, Switzerland and the USA;	✘	✘	✓	✓	✓
(2) any credit institution authorised by the competent authorities of any member country of the EEA and Switzerland.	✘	✘	✓	✓	✓
1.10 Foreign currency securities issued or fully guaranteed by the government of any member country of the EEA and of Australia, Canada, Japan, New Zealand, Switzerland and the USA (this category does not apply to mortgage backed securities).	✘	✘	✓	✓	✓
1.11 Foreign currency securities issued, guaranteed or, in the case of bills of exchange, accepted by any credit institution authorised by the competent authorities of any member country of the EEA and Switzerland.	✘	✘	✓	✓	✓
1.12 Securities issued by international organisations the capital of which is subscribed in whole or in part by any member state of the EEA (known as “supranationals”).					

(a) securities in sterling	✓	✓	✓	✓	✓
(b) securities in foreign currencies	✗	✗	✓	✓	✓
1.13 Securities in the form of commercial paper (which should be redeemed before the first anniversary of the date of issue) issued or guaranteed by:					
(1) public companies whose registered office is domiciled in the EEA;	✗	✗	✗	✓	✓
(2) by public companies incorporated in Canada, Japan, Switzerland and the USA	✗	✗	✗	✓	✓
1.14 Mortgage backed securities.	✗	✗	✓ ¹	✓	✓
1.15 Stocklending rights arising from the lending of securities issued in the UK by HM Government.	✗	✓	✓	✓	✓
1.16 Gilt repo	✗	✓	✓	✓	✓
1.17 Repo in non-gilt-edged securities.	✗	✗	✗	✓	✓
1.18 Stocklending rights arising from the lending of securities under the rules of any depository or clearing agent.	✗	✗	✗	✓	✓

Note 1: Foreign currency deposits and foreign currency securities:

Societies should aim to hedge or match their foreign currency exposures. Any residual currency position should not exceed 2% of own funds, unless the society is on the Trading approach.

Note 2: Equities, or equity related stocks are excluded as prudential liquidity.

Note 3: Any guarantee should be unconditional in respect of the payment of both principal and of interest on all securities.

Note 4: Non-marketable assets (i.e., items 1.2, 1.3 and 1.9) are restricted to those with three months or less to residual maturity.

¹ STERLING ONLY

Policy Statement on Liquidity

5B.1 Overview

5B.1.1 G This Annex provides guidance on the issues which should be addressed in a liquidity policy statement. The list of issues is not exhaustive and not all points will be relevant to all societies.

5B.2 Policy Statement Contents

5B.2.1 G The introduction section should include:

- (1) Background to the society's approach to liquidity management;
- (2) Ratification process for obtaining board approval, including amendments to the policy statement as well as complete revisions;
- (3) Arrangements for, and frequency of, review (which should be conducted at least on an annual basis).

5B.2.2 G The objectives section should set out the Board's objectives for liquidity (see section 5.6.5 of this chapter).

5B.2.3 G The operational characteristics section should set out the society's business and operational characteristics, which impact on the amount and composition of liquidity, and the intended range for liquidity and liquidity net of mortgage commitments as a percentage of SDL.

5B.2.4 G The risk management section should include:

- (1) Exposure policies, including controls and limits as appropriate, for countries, sectors (with sub-limits for 8 day liquidity) and counterparties, including exposure to brokers;
- (2) The policy adopted for credit ratings, stating the minimum quality acceptable and procedures for ensuring credit ratings are up to date;
- (3) Policy of assessment to be adopted towards sectors that are non-rated, e.g., local authorities;
- (4) Operational and settlement risk, including: framework of board authorisation, delegations and operating limits (including, inter alia, dealer limits, transaction and day limits); deal authorisation, confirmation checking, segregation of duties;
- (5) Limits for pre-approved free of payment (FOP) exposures (NB: all FOP exposures should be pre-approved);
- (6) Procedures and criteria for exceptional overrides in relation to dealing, operational rules, limits and authorisation;
- (7) Policy for liquidity management information and reporting to the board.

5B.2.5 G The maturity structure section should include the policy for maturity mismatch and a “maturity ladder” covering prudential liquidity. This should give a clear view of the maturity pattern of the liquidity portfolio to be followed, showing the maximum proportions of liquidity to be included within each time band.

5B.2.6 G The categories of assets and activities section should set out the society’s policy for the following:

- (1) inter-society holdings;
- (2) repo/reverse repo (both gilt-edged stock and non-gilt-edged securities);

- (3) stocklending;
- (4) mortgage backed securities (including, where applicable, US MBS);
- (5) foreign currency securities and the handling of foreign currency exposures;
- (6) commercial paper.

5B.2.7 G The society's policy for membership and use of any clearing system or depository should be set out clearly, including a section dealing with authorisation and operational controls.

5B.2.8 G Liquidity implications and the role of standby facilities should be included in the policy statement.

5B.2.9 G The role of external professional advisers should be clearly stated, where applicable.

Inter-society Holdings

5C.1 G Societies may hold other societies' liabilities as prudential liquidity. Such holdings may include deposits and holdings of all forms of securities and money market instruments issued by other societies, including commercial paper, but should exclude Permanent Interest Bearing Shares and other forms of issued capital.

5C.2 G A society's aggregate holding of other societies' liabilities should not exceed 5% SDL or £5m whichever is the higher, including liquid assets which, although not counting as prudential liquidity (i.e., deposits with longer than 3 months to run to maturity) are held as other investments and fall within the "liquid assets" heading in the annual accounts. This measure is to be continuous.

5C.3 G The FSA expects societies to invest no more than 20% of their prudential liquidity (up to a limit of 5% SDL or £5m whichever is the higher) in aggregate holdings of other societies' liabilities.

5C.4 G Committed facility agreements with other societies should be reported to the FSA in the MFS1 return (table D2). Only the amount drawn down (lent) will constitute a liquid asset and should be taken into account when calculating the aggregate holding of other societies' liabilities.

Interim Prudential Sourcebook for Building Societies

6 Lending

6.1 Introduction

6.1.1 G This chapter replaces PN 1998/6 Lending issued by the Commission.

6.1.2 G Building societies remain subject to the statutory nature limit for lending in the 1986 Act. A minimum of 75% of group business assets must be made up of loans fully secured on residential property (calculated by reference to sections 6, 6A and 6B of the 1986 Act). Each society should ensure that its lending policy and associated business control systems will deliver continuing compliance with this nature limit on the basis of proper, consistent classification of the loan assets of the society and its group. Further guidance on the application of this nature limit is given in section 6.6.

Scope of the Chapter

6.1.3 G The FSA's Principle 3 requires a firm to organise and control its affairs responsibly and effectively, with adequate risk management systems. Principle 2 requires a firm to conduct its business with due skill, care and diligence. Experience shows that one of the most common causes for the failure of deposit-taking institutions is a deficiency in systems for controlling lending and credit risk. Accordingly, the principal theme of this chapter is the need for adequate and appropriate systems for controlling and managing risks arising from lending. The chapter also establishes a framework within which the FSA will judge the risk profile of individual societies' lending, in particular for the purpose of setting and reviewing each society's threshold solvency ratio, and for assessing whether the society complies with Principles 2 and 3.

6.1.4 G This chapter also sets out the FSA's views on good practice in a range of areas related to societies' lending, which are drawn from the experience with societies' activities of its

predecessor, the Commission, over a number of business cycles. Nothing in this chapter absolves the board of each society from its responsibility for developing and maintaining prudent controls over lending risk arising from its business activities and future business plans.

6.2 Rules

6.2.1 R A society must have adequate systems for managing and controlling risk arising from lending, including systems for assessing both the adequacy of security for loans and the ability and willingness of borrowers to repay their loans.

6.2.2 R A society must maintain, and submit to the FSA, a board-approved policy statement on lending, which must include plans for the management of arrears, and the procedures for making specific and general provisions against impaired loans.

6.2.3 R A society making any significant change to its policy statement on lending must provide the FSA with a copy of the amended policy statement as soon as possible after it has been adopted.

6.2.4 G Each society's lending policy should be reviewed, by or on behalf of the board, not less than once a year.

6.2.5 G Chapter 1 on Solvency explains, inter alia, the need for adequate capital to support risks that arise from societies' lending activities. That chapter states that the setting of a threshold ratio by the FSA does not absolve society boards from the responsibility to maintain such higher solvency ratio as they consider appropriate for their business and future plans. Societies should hold sufficient capital to support the risks in their lending book and those arising from new lending initiatives. The FSA will take this into account in assessing compliance with Principle 4.

6.3 Principles of Lending

6.3.1 G The basic principles of good lending practice that the FSA will take into account in assessing compliance with the rules in section 6.2 are as follows:-

- (1) lending activities should be within the capabilities, experience and expertise of a society's management and its board;
- (2) risk should be controlled at inception by sound underwriting procedures, exercised by individuals and/or a credit committee skilled in the type of lending mandated to them, or by fully tested credit scoring systems;
- (3) the pricing of loans should take account of the perceived risks;
- (4) adequate controls should be in place to avoid imprudent concentrations of risk in special products, non-traditional areas of lending and higher risk categories in traditional areas of lending;
- (5) adequate procedures should be in place for monitoring the performance of lending related to source, type, and period of origination, and for ensuring that lending experience feeds into the formulation of policy for new lending;
- (6) the frequency and quality of management and board information should be sufficient to monitor and control lending activities effectively;
- (7) commercial loans should be regularly reviewed;
- (8) systems should be in place for early and effective management of arrears cases and for managing the disposal of properties in possession;

- (9) prudent provisioning methodologies should be used and actual provisions regularly reviewed in the light of experience;
- (10) budgetary procedures should be in place to assess and control the effect on current and future profitability of lending at fixed or capped rates, at a fixed margin over a market reference rate and of price incentivised lending;
- (11) systems should be in place to combat mortgage or other loan fraud;
- (12) for subscribing societies, systems should be in place to ensure compliance with the CML Mortgage Code;
- (13) where external advice is required, professional firms of solicitors, accountants, valuers and other types of adviser should have experience in the type of transaction for which they have been instructed.

6.4 Lending Policy Statements

6.4.1 G Rule 6.2.2 requires each society to have a statement of lending policy. Each society's board should determine, subject to the nature limit, the make up of its lending and its appetite for risk and should establish procedures for containing risk within this agreed policy. This section provides guidance on the content of lending policy statements and suggests factors that boards should consider when drawing up such statements.

6.4.2 G The statement should reflect the society's "philosophical" approach to lending, including the degree of risk the society is prepared to take to achieve a desired level of return, as well as more detailed aspects of controlling new lending risk and residual risk in a lending book. The statement should act as guidance to executives in designing new products as well as to staff involved in the underwriting process.

6.4.3 G The following paragraphs set out the broad areas societies should cover in their lending policy statement. Lending markets and the economic circumstances of borrowers, both personal and commercial, are subject to change and new lending risks may arise in the future. So, boards and management should review lending policy not less than once a year to take account of changing circumstances.

6.4.4 G A policy statement can usefully be structured in four parts: overview, organisation, risk management, and individual lending categories. The overview section could set the broad outline of the society's lending strategy, the degree of risk considered acceptable and the arrangements for its regular review. The organisation section could cover how lending is to be managed within the society, setting out which individuals or departments are responsible for which areas of lending or arrears management. The risk management section could describe how lending risk is controlled and monitored (including the use of exposure limits), how experience is to be fed back into policy and emphasise the importance of the borrower's covenant as the primary source of repayment (rather than the value of the security).

6.4.5 G The individual lending categories section could distinguish owner occupied residential lending, other lending secured on property and unsecured lending to individuals, each of which requires a different approach to product design and underwriting (see following table).

6.4.6 G Policies developed at the centre should be implemented properly and consistently across the organisation. The lending policy should be clearly explained to branch staff, including the society's attitude to risk. Ongoing adherence to the policy should be controlled by the lending function and reviewed by internal audit.

6.5 Risk Features of Mortgage Lending

6.5.1 G The Commission's prudential guidance drew attention to the intrinsic "double security" in normal mortgage lending, i.e. the mortgage on a property, which has been professionally valued and the personal covenant of a borrower, whose ability to repay has been assessed carefully. Both elements should be given appropriate weight. This basic principle of mortgage lending is explicitly incorporated into the rule in paragraph 6.2.1. This neither stipulates how the valuation or assessment should be carried out, nor that they should be done in all cases, but the society's policy and procedures should be clearly documented. The extent to which such valuations and assessments for lending are not carried out will be a factor considered by the FSA when assessing a society's threshold solvency ratio.

Covenant of Borrower

6.5.2 G Reliance on gross income multiples alone to measure a personal borrower's ability to repay provides only a limited indication of affordability and therefore of the strength of the borrower's covenant. Extending the assessment to a borrower's net income after fixed commitments will give a more reliable guide to the size of mortgage he or she can realistically service. When assessing affordability, the borrower's vulnerability to an increase in interest rates should also be taken into account.

6.5.3 G Assessing ability to repay is more difficult for personal borrowers who are self-employed, and more complex for commercial borrowers, both of which require skills in analysing financial accounts.

Valuation of Security

6.5.4 G Valuers should have sufficient experience and expertise and should be free from conflicts of interest.

Managing Aggregate Lending Risk

6.5.5 G Societies should be aware of the risk profile of their overall mortgage stock and of their new lending and should consider lessons arising from experience with their non-performing loans and adjust lending policy accordingly. These lessons should also inform general provisioning policies.

6.5.6 G Societies adopting a strategy for growth should have rigorous controls on quality of lending and should take care not to set up unbalanced incentive structures for staff which reward new business volumes without also recognising responsibility for maintaining quality standards. Societies should maintain strict and documented controls over discretionary overrides to lending criteria and scorecard decisions and should monitor the extent to which overrides occur in practice.

6.5.7 G Each society should determine how it controls lending risks and document this clearly in its lending policy statement. The FSA strongly recommends quantitative exposure limits as a way of achieving this. Outlined below are types of lending and aspects of lending risk where exposure limits can be set:

- (1) Non-traditional lending: for example, secured lending to housing associations, lending on private rented properties or personal unsecured lending;
- (2) Lending at higher LTV ratios or higher income multiples (i.e. lower affordability): societies should set an exposure limit for residential mortgage lending at 90%+ LTV;
- (3) New or innovative products and incentivised loans;
- (4) Fixed rate and other non-administered rate products including foreign currency mortgages;
- (5) Large exposures: (see also Chapter 7 on Large Exposures);
- (6) Remortgage business;

- (7) Origination source;
- (8) Geographical spread (larger societies) and out of area lending (regional and local societies);
- (9) Business sector for commercial lending.

6.5.8 G If societies do not use exposure limits for controlling their mix of lending, they should have an alternative method, as effective as exposure limits, for controlling the risks in their lending books. Exposure limits should act as early triggers and should be set for lending periods (e.g. an annual limit) as well as for the lending book as a whole.

Management information

6.5.9 G Societies should produce adequate and focused management information to monitor the performance of new lending and of the whole lending book against the risk parameters set down in the society's lending policy.

Lending to staff or directors

6.5.10 G Societies should have a board-approved policy on staff lending, setting out whether or not the same criteria (e.g. on income or LTV), are used for staff as for other customers, how ability to repay is assessed, what concessionary terms are available and how staff in arrears will be treated. Staff lending on concessionary terms not available to ordinary borrowers should also be the subject of a separate periodic report to the board. Societies must meet the requirements of sections 65 and 68 of the 1986 Act regarding loans to directors and persons connected with directors.

6.6 Lending Nature Limit

6.6.1 G Societies remain subject to the lending nature limit i.e. at least 75% of business assets must be in the form of loans fully secured on residential property. "Business assets" is a convenient, but non-statutory, collective term for a society's total assets (or total group

assets, where appropriate) plus any provision for bad or doubtful debts, less liquid assets, fixed assets, and any long-term insurance funds (see section 6 of the 1986 Act). “Residential property” is defined in section 5(10) of the 1986 Act as “land at least 40 per cent of which is normally used as, or in connection with, one or more dwellings, or has been, is being, or is to be developed or adapted for such use”.

6.6.2 G The Building Societies (Prescribed Equitable Interests) Order 1997 (SI 1997/2693) enables loans secured by any of three kinds of equitable security interests in property to qualify as fully secured on residential property if eligible in all other respects, and therefore count towards the lending nature limit. Loans fully secured on residential property in the European Economic Area (including here, the Channel Islands, the Isle of Man and Gibraltar) qualify for inclusion in the lending nature limit (section 6A(1)(c) of the 1986 Act).

6.7 Non-traditional Lending

6.7.1 G Societies entering into new areas of lending, including lending to business (whether secured on residential property or not) and unsecured personal lending, should:

- (1) enter the new area in a carefully controlled way so that experience can be gained without incurring an unacceptable level of risk during the learning period;
- (2) have the necessary range of skills at management and board levels adequately to assess, manage and monitor the risks that arise;
- (3) have clearly defined and documented systems of control established before entering the new area, including the establishment of new organisational structures, such as a credit committee, where appropriate;
- (4) ensure that they obtain an adequate return on the new business, taking account of the risks;

- (5) employ appropriate professional advisers in the development of the activity, including legal advice on any new loan structures, documentation or security types, and specialist valuers.

Syndicated Lending

6.7.2 G Societies may undertake syndicated lending, secured or unsecured, with one or more other co-participant(s) and whether, if the lending is secured, the security is held jointly or through a trustee. Syndicated loan assets can count towards the lending nature limit as provided in section 6(13) of the 1986 Act.

6.7.3 G Lending policy statements should address the additional risk aspects of syndication, including:

- (1) Limits: societies should set transactional limits for syndicated loans (e.g., size of participation and underwriting commitment) and an overall limit on the total of syndicated loan assets;
- (2) Loan and borrower types;
- (3) Systems and procedures: including experienced staff and access to appropriate professional advice;
- (4) Specialist Documentation;
- (5) Pricing;
- (6) Other parties: societies should consider which other institutions (or category of institutions) are considered as arranger/agent/trustee in a syndicated loan.

6.7.4 G Syndicated lending for market/consortium type credits is a complex activity, requiring special expertise on the part of the lender. The amounts involved may be large compared to normal lending, and the margins can be small for prime borrowers or where there is competition between lenders to acquire the business. There can be significant benefits for

lenders, but the associated risks also need to be considered. Societies should weigh these risks and rewards before deciding whether to put in place the personnel and systems to enable them to participate in the market.

6.8 Arrears Management

6.8.1 G Rule 6.2.2 requires that each society include an arrears management plan within its lending policy statement. Success in managing arrears is based on early contact with borrowers in difficulty and good management information.

6.8.2 G Management information for reporting arrears should be comprehensive so that senior management and the board can monitor trends in arrears cases as they flow through the various bands of severity. A society's arrears position should be reviewed at senior level not less than monthly. The analysis of arrears for traditional mortgage lending should also track the performance of groups of loans which have characteristics in common, such as analysis by product, by cohort of lending, by geographical region, by LTV band, by size of loan, by income criteria, and by source (introducer, branch, mandate holder). Societies with significant exposures to commercial lending should produce a similar analysis by features such as business sector.

6.8.3 G Regular arrears analysis allows societies to identify the characteristics of lending most likely to lead to arrears and societies should regularly review their lending policy statements (and, if applicable, credit scoring systems) to ensure that exposure to those types of loan identified by the arrears analysis as "riskier" is adequately controlled. If the analysis reveals that, for example, loans in the 95%+ LTV band consistently generate arrears significantly worse than average, steps should be taken to minimise the risks from those loans, including the possibility, if arrears are extreme, of ceasing to undertake such business completely.

Interim Prudential Sourcebook for Building Societies

7 Large Exposures

7.1 Introduction

7.1.1 G This chapter replaces PN 1998/7 issued by the Commission. It implements the large exposures provisions of the BCD for building societies. It also sets out rules and guidance on monitoring, controlling and reporting of large exposures by societies to the FSA.

7.2 Scope of this Chapter
