- 9.10 G The date referred to in *GENPRU* TP 9.8G and *GENPRU* TP 9.9G is:
- (1) (if *GENPRU* TP 9.9G(1) applies) 1 January 2007; and
- (2) (if *GENPRU* TP 9.9G(2) applies) the date on which *GENPRU* TP 9.7G - *GENPRU* TP 9.10G first apply to the *firm*.
- 9.11 G The following illustrates how *GENPRU* TP 9.8G - *GENPRU* TP 9.10G work. This example relates to a *bank* to which *GENPRU* TP 9.7G - *GENPRU* TP 9.10G apply from 1 January 2007. The example is as follows (all figures in £millions):
- (1) as at 31 December 2006:
- (a) the *bank* has risk-weighted assets of £1250;
- (b) its Pillar 1 capital resources requirement was £100 (8% of £1250);
- (c) its individual capital ratio was 10%; and
- (d) its capital resources requirement expressed as an absolute amount and including the individual capital ratio is £125;
- (2) on 1 January 2007 its *capital resources requirement* is £80;
- (3) the result is that the new individual capital ratio is 156.25% (£125m/£80m); and
- (4) its capital resources requirement expressed as an absolute amount and including the individual capital ratio remains at £125 despite the fall in the Pillar 1 charge.
- 9.12 G Continuing the example, say that the *bank's capital resources requirement* falls to £70 on 31 July 2007. Its capital resources requirement, expressed as an amount and including the individual capital ratio, now falls to £109.375.

Adjustments

- 9.13 G No adjustment should be made to take into account differences between the calculation of capital resources under *IPRU* and of *capital resources*.

Consolidation

- 9.14 G This section also applies to threshold ratios and individual capital ratios that apply on a consolidated basis.

10 Assets of former underwriting members

Application

10.1 R *GENPRU* TP 10 applies to the *Society*.

Duration

10.2 R *GENPRU* TP 10 applies until the *Society* is no longer required to identify or value assets of *individual members* that became *former underwriting members* before 1 January 2003.

Valuation and identification of assets

10.3 R For the purposes of *GENPRU* 1 and 2, the *Society* must identify and value the assets of *individual members* that became *former underwriting members* before 1 January 2003 in accordance with the requirements for the identification and valuation of assets contained in the "Conditions and Requirements Relating to Solvency and Reporting" which were approved by the *FSA*, exercising the powers of HM Treasury under section 83 of the Insurance Companies Act 1982, and which were applicable immediately before *commencement*.

11 PRU waivers

Application

- 11.1 R *GENPRU* TP 11 applies to an *insurer* to whom a *GENPRU rule* listed in the Table in *GENPRU* TP 12 applies.

Version of PRU to be used

- 11.2 R A reference in *GENPRU* TP 11 to *PRU* is to the version in force on 30 December 2006.

Duration of transitional

- 11.3 R *GENPRU* TP 11 applies until the relevant *GENPRU rule* is revoked.

Continuing effect of waivers

- 11.4 R A *rule* in *GENPRU* listed in the Table at *GENPRU* TP 12 is disapplied, or is modified in its application, to a *firm*:

- (1) in order to produce the same effect, including any conditions, as a *waiver* had on the corresponding *rule* in *PRU*;
- (2) for the same period as the *waiver* would have lasted, if shorter than the period in *GENPRU* TP 11.3R;

provided the conditions set out in *GENPRU* TP 11.5R are satisfied.

- 11.5 R The conditions referred to in *GENPRU* TP 11.4R are:

- (1) the *rule* is shown in the Table at *GENPRU* TP 12 as corresponding with the *rule* in *PRU* in relation to which the *waiver* was granted to the *firm*;
- (2) the *waiver* was current as respects the *firm* immediately before 31 December 2006; and
- (3) there is no specific transitional *rule* relating to the *waiver*.

- 11.6 R *GENPRU* TP 11.4 does not have effect if, and to the extent that, it would be inconsistent with any community obligation of the *United Kingdom*.

- 11.7 R A *firm* which has the benefit of a *waiver* to which *GENPRU* TP 11.4R applies must:

- (1) notify the *FSA* immediately if it becomes aware of any matter which is material to the relevance or appropriateness of the *waiver*;
- (2) maintain a written record of the *rule* in *GENPRU* to which it considers the *waiver* applies; and

- (3) make the record available to the *FSA* on request.

13 EEA pure reinsurers

Application

13.1 R *GENPRU* TP 13 applies to a *pure reinsurer*:

- (1) whose head office is in an *EEA State* other than the *United Kingdom*; and
- (2) which is not an *incoming Treaty firm*.

Duration of transitional

13.2 R *GENPRU* TP 13 has effect in relation to a *firm* until 10 December 2008 or, if earlier, the date on which it becomes:

- (1) an *incoming EEA firm* by reason of having exercised its right to carry on the *regulated activity* of *effecting or carrying out contracts of insurance* in the *United Kingdom* in accordance with Schedule 3 to the *Act* (EEA Passport Rights); or
- (2) an *incoming Treaty firm* by reason of having exercised its right to carry on the *regulated activity* of *effecting or carrying out contracts of insurance* in the *United Kingdom* in accordance with Schedule 4 to the *Act* (Treaty Rights).

Capital resources and discounting of technical provisions

13.3 R *GENPRU* 2.2.107R does not apply to a *firm*.

14 Continued use of IPRU expenditure requirements by BIPRU investment firms

Application

14.1 R This section applies to a *BIPRU investment firm*.

Transitional rule

14.2 R If a *firm*:

(1) is subject to the *fixed overheads requirement*; and

(2) was on 31 December 2006 subject to one of the expenditure based requirements under *IPRU* listed in the table in *GENPRU* TP 14.3R;

the *firm* may treat that expenditure based requirement as being its *fixed overheads requirement*.

14.3 R Table: Continuing IPRU expenditure requirements
This table belongs to *GENPRU* TP 14.2R

<i>IPRU</i> expenditure requirement	Remarks
Expenditure based requirement under Chapter 5 of <i>IPRU(INV)</i>	If the <i>firm</i> is subject to an expenditure based requirement of 6/52 of its annual audited expenditure, the <i>firm</i> must, for the purposes of this section, use the requirement of one quarter of its annual audited expenditure under <i>rule</i> 5.2.3(4)(c)(i)
The capital requirement of 13/52 of annual audited expenditure under <i>rule</i> 7.2.3R(1) of Chapter 7 of <i>IPRU(INV)</i>	
The expenditure requirement under <i>rule</i> 10-73(1)(b) of Chapter 10 of <i>IPRU(INV)</i>	

<i>IPRU</i> expenditure requirement	Remarks
Financial Resources Test 2 for Category A firms under section 13.5 of Chapter 13 of <i>IPRU(INV)</i> (Expenditure-based requirement)	A <i>firm</i> must, for the purposes of this section, calculate its requirement as 13/52 of its relevant annual expenditure even if the fraction that applies to it under Chapter 13 would otherwise be 4/52 or 8/52.
Note (1): A reference to annual expenditure covers expenditure based on a forecast, pro-rated expenditure based on a period shorter than twelve months or any other expenditure figures for which the <i>IPRU rules</i> in this table provide.	
Note (2): Any <i>waiver</i> that a <i>firm</i> has in relation to the <i>rules</i> in <i>IPRU</i> in this table has effect for the purposes of this section. Any condition, limitation or requirement to which such a <i>waiver</i> is subject also continues to apply.	

Duration

- 14.4 R A *firm* must stop applying this section at the date when, under the *IPRU* expenditure requirements that apply to it as described in *GENPRU* TP 14.3R, it would have had to start using figures for the period following the one on which the expenditure requirements to which it was subject on 31 December 2006 were based.
- 14.5 G Say for example that a *firm's accounting reference date* is 31 December. As at 31 December 2006 the *firm's IPRU* expenditure requirement was based on its annual accounts for the year ended 31 December 2005. Its annual accounts for the year ending 31 December 2006 are completed on 15 March 2007. From 1 January 2007 to 14 March 2007 the *firm* may treat its *IPRU* expenditure requirements as being its *fixed overheads requirement*. On 15 March 2007 the *firm* should switch to calculating its *fixed overheads requirement* under *GENPRU* 2.1 (Calculation of capital resources requirement).

Capital resources

- 14.6 G The expenditure requirement under *IPRU* is measured against the *firm's capital resources* as calculated under *GENPRU* 2.2 (Capital resources) and not capital resources calculated under *IPRU*.

General prudential sourcebook (*GENPRU*)

Schedule 1

Record keeping requirements

G

1 The aim of the *guidance* in the following table is to give the reader a quick overall view of the relevant record keeping requirements.

2 It is not a complete statement of those requirements and should not be relied on as if it were.

3 Table

Handbook reference	Subject of Record	Contents of record	When record must be made	Retention Period
<i>GENPRU</i> 1.2.60R – <i>GENPRU</i> 1.2.61R	<i>Firm's</i> assessment of its financial resources	(1) The major sources of risk the <i>firm</i> has identified (2) How the <i>firm</i> intends to deal with those risks (3) Details of the stress and scenario analyses carried out and the resulting financial resources estimated to be required	Not specified	At least three years
<i>GENPRU</i> 1.3.22R	Valuation models for marking to model	Secure copy of <i>firm's</i> own valuation model	When model is in use	Not specified

General prudential sourcebook (*GENPRU*)

Schedule 2

Notification and reporting requirements

G

1 The aim of the *guidance* in the following table is to give the reader a quick overall view of the relevant notification requirements.

2 It is not a complete statement of those requirements and should not be relied on as if it were.

3 Table

Handbook reference	Matter to be notified	Contents of notification	Trigger events	Time allowed
<i>GENPRU</i> 1.5.19R	Intention to change maximum amount of <i>callable contribution</i>	Fact of intention and details of the change	Intention to change the maximum amount	Adequate advance notice, normally not less than 6 months
<i>GENPRU</i> 2.1.11R	Breach or expected breach of <i>GENPRU</i> 2.1.13R or <i>main BIPRU firm Pillar 1 rules</i>	Fact of breach or expectation of breach	Breach or expectation of breach	Immediately
<i>GENPRU</i> 2.2.19R	Intention to deduct <i>illiquid assets</i> rather than <i>material holdings</i>	Fact of intention	Intention to start or stop using method in column 2	One month prior to change of method
<i>GENPRU</i> 2.2.74R	Intention to redeem <i>tier one instrument</i> included in <i>tier one capital resources</i>	Fact of intention	Intention to redeem	At least one month prior to intended redemption
<i>GENPRU</i> 2.2.135R	Intention to include an unusual transaction in capital under <i>GENPRU</i> 2.2.124R	Fact of intention	Intention to include in capital	At least one month prior to inclusion of that capital in <i>capital resources</i>
<i>GENPRU</i>	Proposal to amend a	Details of the	Proposal to	One month

Handbook reference	Matter to be notified	Contents of notification	Trigger events	Time allowed
2.2.171R	tier two instrument	proposed amendment	amend	before amendment is due to take effect
<i>GENPRU</i> 2.2.174R	Intention to repay (other than on contractual repayment date) <i>tier two instrument</i>	Fact of intention and details of how the <i>firm</i> will meet <i>capital resources requirement</i> after such repayment	Intention to repay	Six months or one month prior to repayment
<i>GENPRU</i> 2.2.243R	Intention to pay interest or principal on subordinated debt included in <i>tier three capital resources</i> if the <i>firm's capital resources</i> are less than 120% of its <i>capital resources requirement</i>	Fact of intention	Intention to pay	One month prior to any payment of interest or principal
<i>GENPRU</i> 2.2.245R	Intention to repay (other than on contractual repayment date) <i>tier three capital resources</i>	Fact of intention and details of how the <i>firm</i> will meet its <i>capital resources requirement</i> after such repayment	Intention to repay	One month prior to repayment

General prudential sourcebook (*GENPRU*)

Schedule 3

Fees and other requirement payments

G

There are no requirements for fees or other payments in *GENPRU*.

General prudential sourcebook (*GENPRU*)

Schedule 4

Powers exercised

G

1 The following powers and related provisions in the *Act* have been exercised by the *FSA* to make the rules in *GENPRU*:

- (1) section 138 (General rule-making power);
- (2) section 149 (Evidential provisions);
- (3) section 150(2) (Actions for damages);
- (4) section 156 (General supplementary powers); and
- (5) section 316(1) (Direction by Authority).

2 The following power in the *Act* has been exercised by the *FSA* to give *guidance* in *GENPRU*:

- (1) section 157(1) (Guidance).

General prudential sourcebook (*GENPRU*)

Schedule 5

Rights of action for damages

G

1. The table below sets out the rules in *GENPRU* contravention of which by an *authorised person* may be actionable under section 150 of the *Act* (Actions for damages) by a person who suffers loss as a result of the contravention.

2. If a "Yes" appears in the column headed "For private person", the rule may be actionable by a private person under section 150 (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001/2256)). A "Yes" in the column headed "Removed" indicates that the *FSA* has removed the right of action under section 150(2) of the *Act*. If so, a reference to the rule in which it is removed is also given.

3. The column headed "For other person" indicates whether the rule may be actionable by a person other than a private person (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of person by whom the rule may be actionable is given.

Chapter/ Appendix	Section/ Annex	Right of action under section 150		
		For private person	Removed	For other person
All rules in <i>GENPRU</i>		No	Yes – <i>GENPRU</i> 1.4.1R	No

General prudential sourcebook (*GENPRU*)

Schedule 6

Rules that can be waived

G

The rules in *GENPRU* may be waived by the *FSA* under section 148 of the *Act* (Modification or waiver of rules). However, if the *rules* incorporate requirements laid down in European directives, it will not be possible for the *FSA* to grant a *waiver* that would be incompatible with the *United Kingdom's* responsibilities under those directives. It therefore follows that if a *rule* in *GENPRU* contains provisions which derive partly from a directive, and partly not, the *FSA* will be able to consider a *waiver* of the latter requirements only, unless the directive provisions are optional rather than mandatory.

**THE PRUDENTIAL SOURCEBOOK FOR BANKS, BUILDING SOCIETIES AND
INVESTMENT FIRMS (TRANSITIONAL PROVISIONS AND SCHEDULES)
INSTRUMENT 2006**

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
 - (2) section 149 (Evidential provisions);
 - (3) section 150(2) (Actions for damages);
 - (4) section 156 (General supplementary powers); and
 - (5) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

Commencement

- C. This instrument comes into force as follows:
- (1) The following provisions of the Prudential sourcebook for Banks, Building Societies and Investment Firms (BIPRU) come into force on 1 November 2007:
 - (a) BIPRU TP 15 (Commodities firm transitionals: Exemption from capital requirements); and
 - (b) BIPRU TP 16 (Commodities firm transitionals: large exposures).
 - (2) The remainder of this instrument comes into force on 1 January 2007.

Amendments to the Handbook

- D. The Financial Services Authority creates a new chapter TP (Transitional provisions) and Schedules to BIPRU in accordance with Annex A to this instrument.

Citation

- E. This instrument may be cited as the Prudential sourcebook for Banks, Building Societies and Investment Firms (Transitional Provisions and Schedules) Instrument 2006.

By order of the Board

23 November 2006

Annex A

Chapter TP of BIPRU and BIPRU Schedules

In this Annex all the text is new and is not underlined.

- TP Transitional provisions
- TP 1 Applicable chapter of IPRU and other general provisions
- Application
- 1.1 R *BIPRU* TP 1 applies to:
- (1) a *BIPRU firm*; and
 - (2) any *firm* to which *BIPRU* 8 (Group risk – consolidation) applies.
- Version of IPRU to be used
- 1.2 R Any reference in *BIPRU* TP to *IPRU* is to the version in force on 31 December 2006.
- Categorisation of *BIPRU* investment firms
- 1.3 R For the purposes of *BIPRU* TP the definitions of *securities and futures firm*, *investment management firm* and *personal investment firm* are amended as follows:
- (1) if a *firm* fell into one of those categories on 31 December 2006 it remains in that category unless changed under (2);
 - (2) if a *firm* has got a *permission* that includes a *requirement* that it comply with the provisions of *BIPRU* TP applicable to one of those categories, that *firm* falls into that category; and
 - (3) a *BIPRU investment firm* that is not an *investment management firm*, *UCITS investment firm* or a *personal investment firm* is a *securities and futures firm*.
- Applicable part of IPRU on a solo basis
- 1.4 R
- (1) This *rule* identifies which part of *IPRU* applies where *BIPRU* TP applies *IPRU* to a *firm* on a solo basis.
 - (2) *IPRU(BANK)* applies to a *bank*.
 - (3) *IPRU(BSOC)* applies to a *building society*.
 - (4) *IPRU(INV)* applies to a *BIPRU investment firm* as follows:
 - (a) Chapter 5 applies to an *investment management firm*;
 - (b) Chapter 7 applies to a *UCITS investment firm*;
 - (c) Chapter 10 applies to a *securities and futures firm*; and

(d) Chapter 13 applies to a *personal investment firm*.

General provisions about consolidation

- 1.5 R Each provision of *BIPRU* TP that applies on a solo basis also applies for the purposes of *BIPRU* 8 (Group risk – consolidation). This is subject to the provisions of *BIPRU* TP concerned.
- 1.6 G Many sections of *BIPRU* TP deal specifically with when and how they apply on a consolidated basis. However *BIPRU* TP will still apply for consolidation purposes even where this is not the case. *BIPRU* TP 1.5R does not apply to *BIPRU* TP 2.1 (Solo consolidation) as solo consolidation is a concept that only applies to solo requirements.

Classification of groups for certain consolidation rules

- 1.7 R (1) This *rule* sets out how to classify a *UK consolidation group* or *non-EEA sub-group* ("group") to which consolidated requirements are applied under certain parts of *BIPRU* TP.
- (2) If the answer to the question at stage 1 of the decision tree in *BIPRU* 8 Annex 5R (Decision tree for identifying the consolidated capital resources requirement of a UK consolidation group or a non-EEA sub-group) with respect to the group is Yes and there is a *building society* in the group, the group is referred to in *BIPRU* TP as a building society group.
- (3) If a *non-EEA sub-group* is part of a *UK consolidation group* that is a building society group then the *non-EEA sub-group* is also a building society group. However a *firm* may use (2) for the purposes of calculating the consolidated capital resources of the *non-EEA sub-group* where capital resources are calculated under *IPRU*.
- (4) If the answer to the question at stage 1 of the decision tree in *BIPRU* 8 Annex 2R with respect to the group is Yes and the group is not a building society group, the group is referred to in *BIPRU* TP as a banking group.
- (5) In any other case the group is referred to in *BIPRU* TP as an investment services group.

- TP 2 Capital floors for a firm using the IRB or AMA approaches
- Application
- 2.1 R Subject to *BIPRU* TP 2.2R, this section applies to a *BIPRU* firm that applies the *IRB approach* or the *advanced measurement approach*.
- 2.2 R *BIPRU* TP 2.30R to *BIPRU* TP 2.34G apply to any firm to which *BIPRU* 8 (Group risk – consolidation) applies and which applies the *IRB approach* or the *advanced measurement approach* on a consolidated basis.
- Purpose
- 2.3 G This section implements Articles 152(1) – (7) of the *Banking Consolidation Directive* and Article 43 of the *Capital Adequacy Directive*.
- 2.4 G The purpose of this section is to limit the amount of capital reduction arising from the implementation of the *Banking Consolidation Directive* and the *Capital Adequacy Directive* compared with the requirements arising from the previous versions of those Directives. As such it is effectively a comparison of the capital resource requirements arising from *BIPRU* with those arising from the appropriate *IPRU* sourcebook that would have applied as at 31 December 2006. However the effect of changes to the market risk requirements is removed by requiring *BIPRU* 7 (Market risk) to be used for both sides of the comparison.
- How to apply the capital floors
- 2.5 G This section does not require a firm to continue to have capital resources equal to a fixed percentage of the capital requirement that applied to it as at 31 December 2006. Instead a firm should apply the requirements in this section to its business as it changes over time. So for example if a firm is calculating its capital requirements as at 31 December 2008 it will have two calculations. The first is carried out under *BIPRU* and *GENPRU*. The second is carried out under *IPRU* and this section. Both sets of requirements are applied to the firm's figures as at 31 December 2008.
- 2.6 G The Directive provisions on which this section is based are written as a floor on a firm's capital resources requirement. This section however is written as a second capital resources requirement that sits beside the general capital resources requirements of *BIPRU* and *GENPRU*. The reason for this is that a firm should meet the general capital resources requirements of *BIPRU* and *GENPRU* using *capital resources* calculated under *GENPRU* 2.2 (Capital resources). On the other hand a firm should meet the capital resources requirements of this section (which are based on *IPRU*) using the relevant *IPRU* definition. In practice the two sets of definitions of capital resources are similar apart from the provisions about *expected loss*. Therefore as shown by the example in *BIPRU* TP 2.12G and *BIPRU* TP 2.13G, in practice a firm is subject to a single capital resources requirement.

- 2.7 G *BIPRU* TP 9 explains how the general principle in this section is applied to a *personal investment firm*.
- Capital floors: solo
- 2.8 R A *firm* calculating *risk weighted exposure amounts* in accordance with the *IRB approach* must during the first, second and third twelve-month periods after 31 December 2006 provide capital resources that equal or exceed the following amounts:
- (1) for the first twelve-month period, 95%;
 - (2) for the second twelve-month period, 90%; and
 - (3) for the third twelve-month period, 80%;
- of the solo capital resources requirement that applies to the *firm* under whichever part of *IPRU* applies under *BIPRU* TP 1.4R.
- 2.9 R A *firm* using the *advanced measurement approach* must, during the second and third twelve-month periods after 31 December 2006, provide capital resources which are at all times more than or equal to the amounts indicated in *BIPRU* TP 2.8R(2) and *BIPRU* TP 2.8R(3).
- Capital resources: solo
- 2.10 R A *firm* must calculate its capital resources in accordance with whichever part of *IPRU* applies under *BIPRU* TP 1.4R.
- 2.11 R Compliance with the requirements of this section must be on the basis of amounts of capital resources fully adjusted to reflect differences in the calculation of capital resources under *IPRU* and the calculation of *capital resources* under *GENPRU* and *BIPRU* deriving from the separate treatments of *expected loss* and *unexpected loss* under the *IRB approach*.
- Explanation of the calculation
- 2.12 G The following provides an illustrative example of the application of this section to a *bank* in a period in which *BIPRU* TP 2.8R(1) applies (i.e. the 95% requirement). Say that under *IPRU*(*BANK*) the *firm's* capital resources requirement would be £8.00mn and this would be met in part by general/collective provisions of £0.5mn. This establishes the capital resources requirement under this section at 95% times (£8.0mn less £0.5mn), which equals £7.125mn.

- 2.13 G Say that in the absence of this section, the Pillar 1 capital resources requirement of the *firm* in *BIPRU* TP 2.12G would be £6.4m, and the sum of value adjustments and provisions are £0.25mn less than *expected losses*. For the purposes of the *expected loss* calculation, if the result is negative (i.e. value adjustments and provisions are less than *expected losses*) that amount is deducted from *capital resources* (which is equivalent to an increase in the *capital resources requirement*). If the result is positive it is added to *capital resources* (which is equivalent to a decrease in the *capital resources requirement*). In this example the result is negative. As the sum of these two amounts (£6.65mn) is still less than the *IPRU* capital resources requirement of £7.125mn, the effect of this section is that the *firm* is subject to the (higher) *IPRU* requirement. If the sum of the *BIPRU* requirements had been greater than £7.125mn, then the *firm* would not have been subject to the capital resources requirement in this section.

Adjustments to the calculation of capital resources

- 2.14 R A *firm* may treat any *capital instrument* that complies with the requirements of *GENPRU* 2.2 (Capital resources) as complying with the corresponding requirements of *IPRU*.
- 2.15 G An example of *BIPRU* TP 2.14R is that a *firm* may treat subordinated debt with a term of five years or over that qualifies as *lower tier two capital* for the purposes of *GENPRU* as complying with the corresponding provisions for five year subordinated debt under *IPRU*.

Market risk

- 2.16 R A *firm* must substitute the requirements in *BIPRU* for the calculation of the *market risk capital requirement* (excluding those provisions to the extent that they would involve using the *IRB approach*) for the corresponding provisions of *IPRU*.
- 2.17 G *BIPRU* TP 4 to *BIPRU* TP 9 (Pre CRD capital requirements applying on a solo basis during 2007) explain which parts of *IPRU* correspond to the *market risk capital requirement*.

CAD 1 model and VaR model

- 2.18 R If a *firm* has a *CAD 1 permission* or a *VaR model permission* it must also use it for the purposes of the capital floor calculations in this section.
- 2.19 G In applying *BIPRU* TP 2.18R, a *firm* should not adjust the *CAD 1 permission approach* or *VaR model approach* (including the scope of the *CAD 1 permission* or *VaR model permission*) so that it is consistent with Directive 93/6 (the Capital Adequacy Directive) as it stood on 31 December 2006.

Individual capital guidance

- 2.20 R The *IPRU* capital resources requirement does not include any individual capital ratio notified to a *bank* under Chapter CO of *IPRU(BANK)* or any similar notification by the *FSA* to any other *firm*.
- 2.21 G Any further capital resource requirements that a *firm* is required to meet under *GENPRU* 1.2 (Adequacy of financial resources) (i.e. Pillar 2) should not be taken into account.
- How to apply IPRU
- 2.22 R If the part of *IPRU* that applies to a *firm* applies different calculations to different types of *firm* the *firm* must use the calculations that it would have to use under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007).
- 2.23 R If the part of *IPRU* that applies to a *firm* gives the *firm* a choice between methods of calculating capital resources or capital resources requirements it must exercise that choice consistently with the corresponding choices it makes in calculating *capital resources* or *capital resources requirement* under *GENPRU* and *BIPRU*.
- 2.24 G *BIPRU* TP 4 to *BIPRU* TP 9 (Pre CRD capital requirements applying on a solo basis during 2007) explain how concepts in *IPRU* and *GENPRU* map onto the ones in *IPRU*. This will enable a *firm* to decide which calculations it should use for the purposes of *BIPRU* TP 2.22R and *BIPRU* TP 2.23R.
- 2.25 G An example of the effect of *BIPRU* TP 2.22R and *BIPRU* TP 2.23R is that a *securities and futures firm* that calculates its *capital resources* under *GENPRU* 2 Ann 4R (Capital resources table for a *BIPRU* investment firm deducting material holdings) should calculate its capital resources under *IPRU* using table 10-62(2)A of chapter 10 of *IPRU(INV)*.
- 2.26 R For the purpose of calculating the part of the *IPRU* capital resources requirement that corresponds to the *concentration risk capital component* a *firm* may identify the *trading book exposures* on which that requirement is based using *BIPRU* 10 (Concentration risk requirements) except to the extent that *BIPRU* 10 involves the *IRB approach*.
- 2.27 G The *concentration risk capital component* is the capital requirement for a *firm* that chooses to have *trading book exposures* that exceed the concentration risk limits for the *non-trading book*. In most cases *IPRU* has a similar capital requirement. The purpose of *BIPRU* TP 2.26R is to allow a *firm* to calculate the amount of the excess *trading book exposures* for which it calculates the additional capital charge using *BIPRU* 10 (Concentration risk requirements) in order to avoid having to apply the *IPRU* large exposure requirements for this purpose only.
- 2.28 R The calculations under this section do not take into account the *base capital resources requirement* or the part of the *IPRU* solo capital resources requirement that corresponds to the *base capital resources requirement*.

Solo consolidation

- 2.29 R If a *firm* has a *solo consolidation waiver* it also applies for the purpose of this section in place of any corresponding provision of *IPRU*.

Capital floors: consolidation

- 2.30 R If a *firm* calculates *risk weighted exposure amounts* on a consolidated basis in accordance with the *IRB approach* or uses the *advanced measurement approach* on a consolidated basis, *BIPRU* TP 2.8R to *BIPRU* TP 2.27G apply on a consolidated basis in accordance with *BIPRU* TP 2.30R to *BIPRU* TP 2.31R.
- 2.31 R A *firm* must calculate the consolidation requirements under *BIPRU* TP 2.30R for the group in question (the group in question is specified in *BIPRU* TP 2.32R) in accordance with the following:
- (1) if the group is a banking group as defined in *BIPRU* TP 1.7R (Classification of groups for certain consolidation rules), the consolidation provisions of *IPRU(BANK)* apply;
 - (2) if the group is a building society group as defined in *BIPRU* TP 1.7R, the consolidation provisions of *IPRU(BSOC)* apply; and
 - (3) if the group is an investment firm group as defined in *BIPRU* TP 1.7R, chapter 14 of *IPRU(INV)* applies.
- 2.32 R The scope of the consolidation under *BIPRU* TP 2.30R and any exemption from consolidation is determined in accordance with *BIPRU* 8 (Group risk – consolidation) rather than *IPRU*. In particular, the following adjustments apply:
- (1) if a *firm* is a member of a *UK consolidation group* and applies the *IRB approach* or the *AMA* with respect to that *UK consolidation group*, *BIPRU* TP 2.30R applies with respect to that *UK consolidation group*; and
 - (2) if a *firm* is a member of a *non-EEA sub-group* and applies the *IRB approach* or the *AMA* with respect to that *non-EEA sub-group*, *BIPRU* TP 2.30R applies with respect to that *non-EEA sub-group*.
- 2.33 G If for example the consolidation *rules* that apply for the purposes of this section are those in chapter 14 of *IPRU(INV)* (Consolidated supervision of *investment firms*) then *IPRU(INV)* 14.1 (Application) and 14.2 (Scope of consolidation) do not apply. *BIPRU* 8.2 (Scope and basic consolidation requirements for UK consolidation groups), *BIPRU* 8.3 (Scope and basic consolidation requirements for non-EEA sub-groups), *BIPRU* 8.4 (CAD Article 22 groups and investment firm consolidation waiver) and *BIPRU* 8.5 (Basis of consolidation) apply instead.

Capital floors: waiver from consolidation

- 2.34 G If a *firm* has an *investment firm consolidation waiver* and it is applying the *IRB approach* or the *AMA*, the *waiver* will explain how the *investment firm consolidation waiver* applies for the purpose of this section.

- TP 3 Pre CRD capital requirements applying on a solo basis during 2007
- Application
- 3.1 R This section applies to a *BIPRU firm*.
- Purpose
- 3.2 G This section (together with *BIPRU TP 4 - BIPRU TP 10*) implements Articles 152(8) – (14) of the *Banking Consolidation Directive* and Article 50(1) of the *Capital Adequacy Directive*.
- Duration of transitional
- 3.3 R This section applies until 1 January 2008.
- Continued use of IPRU
- 3.4 R Unless a *firm* notifies the *FSA* to the contrary, a *firm* must use on a solo basis the credit risk *rules* in whichever part of *IPRU* applies to it under *BIPRU TP 1.4* rather than the ones in *BIPRU*.
- 3.5 R *BIPRU TP 3.8R* sets out, for all types of *firm*, which parts of *GENPRU* and *BIPRU* do and do not apply when *BIPRU TP 3.4R* applies.
- 3.6 G *BIPRU TP 4 - BIPRU TP 9* set out, for each category of *BIPRU firm*, which sections of the part of *IPRU* that applies to it do and do not apply during 2007 as follows:
- (1) *BIPRU TP 4* applies to a *bank*;
- (2) *BIPRU TP 5* applies to a *building society*;
- (3) *BIPRU TP 6* applies to an *investment management firm*;
- (4) *BIPRU TP 7* applies to a *UCITS investment firm*;
- (5) *BIPRU TP 8* applies to a *securities and futures firm*; and
- (6) *BIPRU TP 9* applies to a *personal investment firm*.
- 3.7 G *BIPRU TP 10* explains how this section is applied on a consolidated basis.
- Disapplication of GENPRU and BIPRU
- 3.8 R Table: Parts of *GENPRU* and *BIPRU* that apply in 2007
This table belongs to *BIPRU TP 3.5R*

GENPRU and BIPRU provisions		A Y denotes that the provision does apply An N denotes that it does not apply
GENPRU TP (Transitional provisions)		Y
GENPRU 1.1 (Application and scope)		Y
GENPRU 1.2 (Adequacy of financial resources)	The <i>overall financial adequacy rule</i>	Y
	GENPRU 1.2 so far as it applies to liquidity risk	Y
	The rest of GENPRU 1.2 for purposes other than liquidity risk	N
GENPRU 1.3 (Valuation)		Y
GENPRU 1.4 (Actions for damages)		Y
GENPRU 1.5 (Application of GENPRU 1 to Lloyd's)		Not applicable as does not apply to <i>BIPRU firms</i>
GENPRU 2.1 (Calculation of capital resources requirements)		Y
GENPRU 2.2 (Capital resources)		Y
GENPRU 2.3 (Application of GENPRU 2 to Lloyd's)		Not applicable as does not apply to <i>BIPRU firms</i>
GENPRU 3.1 (Cross sector groups)		Y
GENPRU 3.2 (Third-country groups)		Y
BIPRU TP (Transitional provisions)		Y
BIPRU 1.1 (Application and scope)		Y

GENPRU and BIPRU provisions		A Y denotes that the provision does apply An N denotes that it does not apply
<i>BIPRU</i> 1.2 (Definition of the trading book)		Y
<i>BIPRU</i> 1.3 (Application for advanced approaches)		Y
<i>BIPRU</i> 1.4 (Actions for damages)		Y
<i>BIPRU</i> 2.1 (Solo consolidation)		Y
<i>BIPRU</i> 2.2 (Adequacy of financial resources)		N
<i>BIPRU</i> 2.3 (Interest rate risk in the non-trading book);		N
<i>BIPRU</i> 3 (Standardised approach to credit risk)		N
<i>BIPRU</i> 4 (The IRB approach)		N
<i>BIPRU</i> 5 (Credit risk mitigation)		N
<i>BIPRU</i> 6 (Operational risk)		N
<i>BIPRU</i> 7 (Market risk)	<i>BIPRU</i> 7.2.43R to <i>BIPRU</i> 7.2.49R (Interest rate specific risk calculation)	N (<i>BIPRU</i> TP 4 - <i>BIPRU</i> TP 9 set out what applies in place of these <i>rules</i>)
	<i>BIPRU</i> 7.11.18R to <i>BIPRU</i> 7.11.58R (Special treatment of credit default swaps)	N
	Rest of <i>BIPRU</i> 7	Y
<i>BIPRU</i> 8 (Group risk – consolidation)		Y
<i>BIPRU</i> 9 (Securitisation)		N
<i>BIPRU</i> 10 (Concentration risk)	<i>BIPRU</i> 10.5.2R to <i>BIPRU</i> 10.5.5R (Capital resources)	Y

GENPRU and BIPRU provisions		A Y denotes that the provision does apply An N denotes that it does not apply
	<i>BIPRU</i> 10.5.14R (Notification of trading book excesses)	Y Only applies if <i>BIPRU</i> TP 4 to <i>BIPRU</i> TP 10 allow excess exposures in the trading book.
	The rest of <i>BIPRU</i> 10	N
<i>BIPRU</i> 11 (Disclosure)		N
<i>BIPRU</i> 12		Chapter does not yet exist
<i>BIPRU</i> 13 (Financial derivatives, SFTs and long settlement transactions)		N
<i>BIPRU</i> 14 (Capital requirements for settlement and counterparty risk)		N
This table is subject to the adjustments set out in <i>BIPRU</i> TP 3.15R to <i>BIPRU</i> TP 3.21R when a firm also uses the <i>IRB</i> approach.		

Application of BIPRU concentration risk rules for underwriting

- 3.9 G Even though *BIPRU* 10 (Concentration risk) does not apply, the provisions in *BIPRU* 7.8 (Securities underwriting) about the calculation of the *net underwriting exposures* still apply.

How to interpret cross-references

- 3.10 R If a provision in *BIPRU* or *GENPRU* that applies under this section refers to a provision of *BIPRU* or *GENPRU* that does not apply that reference must be read as referring to the *IPRU* provision that applies instead under this section (if any). If a provision in *IPRU* that applies under this section refers to a provision of *IPRU* that does not apply that reference must be read as referring to the corresponding provision in *BIPRU* or *GENPRU* that applies under this section.
- 3.11 G *BIPRU* TP 4 - *BIPRU* TP 9 set out, for each category of *BIPRU* firm, some of the main examples of the sort of cross-references referred to in *BIPRU* TP 3.10R.
- 3.12 G *GENPRU* 2.2.187R and *GENPRU* 2.2.188R (Upper tier two capital: General/collective provisions) still applies to a firm that uses *BIPRU* TP 3.4R. The reference to the sum of *risk-weighted* assets under the *standardised approach* for credit risk should be read as being to the sum of risk-weighted assets under the provisions of *IPRU* that apply under this section.

Combination of IPRU with the standardised approach to credit risk

- 3.13 R A firm may not combine the *standardised approach* to credit risk with the use of *IPRU* under *BIPRU* TP 3.4R.

Effect of switching off GENPRU 1.2

- 3.14 G If *GENPRU* 1.2 (Adequacy of financial resources) does not apply to a firm, stress and scenario testing obligations in other parts of the *Handbook* still apply. In particular these include stress and scenario tests required under the *IRB approach* (see in particular *BIPRU* 4.3.39R to *BIPRU* 4.3.42G (Stress tests used in assessment of capital adequacy) and *BIPRU* 2.2.41R to *BIPRU* 2.2.45G), under the *VaR model approach* and under *BIPRU* 10.6.22R to *BIPRU* 10.6.27G (Stress testing of credit risk concentrations).

Continued use of IPRU combined with the IRB approach

- 3.15 R *BIPRU* TP 3.16R to *BIPRU* TP 3.21R only apply to a firm that is applying the *IRB approach* as well as using *IPRU*.
- 3.16 R If a firm's *IRB permission* allows it to do this, a firm may combine the *IRB approach* with the use of *IPRU* under *BIPRU* TP 3.4R.

- 3.17 G If an *exposure* comes within the scope of a *firm's IRB permission* the *firm* should use the *IRB approach* to calculate the *credit risk capital component* and the *counterparty risk capital component* with respect to that *exposure* in accordance with *BIPRU* rather than *IPRU*. In particular *BIPRU 4* (The *IRB approach*), *BIPRU 5* (Credit risk mitigation), *BIPRU 9* (Securitisation), *BIPRU 13* (Financial derivatives, SFTs and long settlement transactions) and *BIPRU 14* (Capital requirements for settlement and counterparty risk) apply.
- 3.18 R If a *firm* combines the *IRB approach* with the use of *IPRU* under *BIPRU TP 3.14R*, the disapplication of *BIPRU 10* (Concentration risk) still applies. However in the case of *exposures* to which the *firm* applies the *IRB approach*:
- (1) *BIPRU 10.6.14R* to *BIPRU 10.6.26* (Exemptions for firms using the financial collateral comprehensive approach, Exemptions for firms using own estimates of LGDs and conversion factors under the *IRB approach* and Stress testing of credit risk concentrations) apply;
 - (2) a *firm* may not recognise *credit risk mitigation* if it does not comply with *BIPRU 5* and *BIPRU 4.10* (Credit risk mitigation) to the extent they apply to *BIPRU 10*; and
 - (3) *BIPRU 5* and *BIPRU 4.10* apply for the purpose of calculating the amount of *credit risk mitigation* to the extent that they apply to *BIPRU 10*.
- 3.19 R *BIPRU 11* (Disclosure) applies to *exposures* to which the *firm* applies the *IRB approach*. The rest of *BIPRU 11* also applies except to the extent that it relates to parts of *BIPRU* and *GENPRU* that do not apply under this section.
- 3.20 R *BIPRU 7.11.18R* to *BIPRU 7.11.58R* (Special treatment of credit default swaps) apply to *exposures* subject to the *IRB approach*.
- Reduced operational risk capital requirement
- 3.21 R Where *BIPRU TP 3.4R* applies, the *operational risk capital requirement* is reduced by the percentage representing the ratio of the value of the *firm's exposures* for which capital requirements are calculated in accordance with *BIPRU TP 3.4R* to the total value of its *exposures*.

- TP 4 Pre CRD capital requirements applying on a solo basis during 2007: Banks Application
- 4.1 R *BIPRU* TP 4 applies to a *BIPRU firm* that is:
- (1) a *bank*; and
 - (2) applying *BIPRU* TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007).
- Purpose of this section
- 4.2 G *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a *firm* may apply the credit risk requirements of *IPRU* instead of the ones in *BIPRU*. For a *bank* this involves applying the credit risk requirements in *IPRU(BANK)*. This section explains how this is done. In particular *BIPRU* TP 4 explains:
- (1) which parts of *IPRU(BANK)* should be treated as credit risk requirements for this purpose;
 - (2) what parts of *IPRU(BANK)* apply during 2007 and what changes are made to *IPRU(BANK)* for that purpose; and
 - (3) what changes are made to *GENPRU* and *BIPRU* to reflect the fact that *IPRU(BANK)* applies in place of parts of *GENRU* and *BIPRU*.
- Duration of transitional
- 4.3 R This section applies until 1 January 2008.
- Drafting approach in this section
- 4.4 G The purpose of *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of *BIPRU* and *GENPRU* should be in force from 1 January 2007. However a *firm* should be able to calculate the capital requirements for credit risk under *IPRU* and use the large exposures requirements in *IPRU*. This means that a *bank* should slot the credit risk requirements of *IPRU(BANK)* into the general requirements of *GENPRU* and *BIPRU*.
- 4.5 G The capital calculation for credit risk under *BIPRU* is made up of three elements, which are set out in *GENPRU* 2.1.51R (Calculation of the credit risk capital requirement). These are the *credit risk capital component*, the *counterparty risk capital component* and the *concentration risk capital component*. So the approach in *BIPRU* TP 4.4G involves finding equivalents for these three elements in *IPRU(BANK)*.

- 4.6 G *BIPRU* TP 3.8R (Parts of *GENPRU* and *BIPRU* that apply in 2007) provides that *GENPRU* 2.2 (Capital resources) applies during 2007. So a *bank* using *BIPRU* TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007) should calculate its *capital resources* under *GENPRU* 2.2, instead of calculating its capital under *IPRU(BANK)*.

Parts of *IPRU(BANK)* that apply in 2007: Chapter GN

- 4.7 R The parts of Chapter GN of *IPRU(BANK)* that do and do not apply during the period that *BIPRU* TP 3.4R applies are as set out in *BIPRU* TP 4.8R.
- 4.8 R Table: Parts of Chapter GN of *IPRU(BANK)* that apply in 2007
This table belongs to *BIPRU* TP 4.7R

Provisions of Chapter GN of <i>IPRU(BANK)</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
GN 3.3.19R to GN 3.3.20G (requirement to have adequate systems and controls for monitoring, controlling and calculating LE)	Y	
GN 3.3.21R to GN 3.3.22G (requirement to notify FSA if breach or propose to breach the 25% limit)	Y	Solo consolidation is dealt with by <i>BIPRU</i> 2.1 (Solo consolidation)
GN 3.4.1R to GN 3.4.2G (requirement to have written policy statement for LE)	Y	
GN 3.4.5R to GN 3.4.6G (requirement to have written provisioning policy statement)	Y	The reference to <i>rule</i> 3.3.17 is replaced by a reference to the requirements in <i>GENPRU</i> 1.3.4R (General requirements: Accounting principles to be applied)

Provisions of Chapter GN of <i>IPRU(BANK)</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
GN 3.4.9E to GN 3.4.12R (Policy statement procedures)	Y	Applies in relation to large exposures and provisioning policy statements
GN 3.5.1R (Definitions)	Y	Applies for the purpose of the provisions that continue in force under this table
GN 3.6.1 R (Transitional rule for policy statements)	Y	Applies in relation to large exposures and provisioning policy statements
The parts of Chapter GN that remain in force even if the <i>bank</i> is not applying <i>BIPRU</i> TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007)	Y	See in particular <i>rules</i> 3.4.3 and 3.4.9 (Liquidity policy statement)
Rest of Chapter GN	N	
A <i>bank</i> must calculate its capital for the purposes of the <i>rules</i> in this table about large exposures in accordance with <i>BIPRU</i> 10.5.2R to <i>BIPRU</i> 10.5.5R (Capital resources for concentration risk purposes).		

Parts of *IPRU(BANK)* that apply in 2007

- 4.9 G The parts of *IPRU(BANK)* that do and do not apply during the period that *BIPRU* TP 3.4R applies are as set out in *BIPRU* TP 4.11G. This section does not explain what parts of *IPRU(BANK)* do and do not apply to an overseas *bank* as this section only applies to a *bank* that is a *BIPRU firm*.
- 4.10 G The table in *BIPRU* TP 4.11G assumes that the *firm* is not applying the *IRB approach*. *BIPRU* TP 4.40G to *BIPRU* TP 4.43G deal with a *firm* that does apply the *IRB approach*.

4.11 G Table: Parts of IPRU(BANK) that apply in 2007
This table belongs to *BIPRU* TP 4.9G

Provisions of <i>IPRU(BANK)</i>	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
GN (General)	See the table in <i>BIPRU</i> TP 4.8R		
CO (Capital Adequacy Overview)	Sections 1-3	Y	
	Section 4	N	
CB (Trading Book/Banking Book Division)	N		
CA (Definition of Capital)	N		
BC (Credit Risk in the Banking Book)	Y		
BO (Proxies for Market Risk in Banking Book)	Y		
FX (Foreign Exchange Risk)	N		
CM (Commodities Risk)	N		
DU (Common Treatments for Counterparty Risk)	Y		
TI (Interest Rate Position Risk)	N		
TE (Equity Position Risk)	N		
TC (Counterparty Risk in the Trading Book)	Y		
TL (Incremental Capital for Large Exposures)	Y		
TU (Underwriting in Capital Adequacy Framework)	N		

Provisions of <i>IPRU(BANK)</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
TS (CAD 1 Models)	N	
TV (The Use of Internal Models)	N	
LE (Large Exposures)	Y	
CD (Credit Derivatives)	Y	<p>(1) Applies for the purpose of credit risk (the calculation of the <i>credit risk capital requirement</i>)</p> <p>(2) Applies for the purpose of large exposures to the extent set out in the chapter.</p> <p>(3) Does not apply for the purpose <i>position risk</i> (calculation of the <i>market risk capital requirement</i>).</p>
SE (Securitisation and Asset Transfers)	Y	See <i>BIPRU TP 4.17G</i> to <i>BIPRU TP 4.19G</i>
LM (Mismatch Liquidity)	Y	Subject to the other provisions of this section, applies in the same way as it does for a <i>bank</i> that does not use <i>BIPRU TP 3.4R</i> (Pre CRD capital requirements applying on a solo basis during 2007).

Provisions of <i>IPRU(BANK)</i>	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
LS (Sterling Stock Liquidity)	Y		Subject to the other provisions of this section, applies in the same way as it does for a <i>bank</i> that does not use <i>BIPRU</i> TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007).
AR (Accounting and Other Records and Internal Control Systems)	N		
ST (Foreign Exchange -Risk-Based Supervision)	N		
FR (Fraud)	N		
CL (Comfort letters)	N		
VA (Valuation)	Section 4	Y	(1) Applies for the purpose of credit risk (the calculation of the <i>credit risk capital requirement</i>) (2) Applies for the purpose of large exposures to the extent set out in the chapter.
	Rest	N	

Provisions of <i>IPRU(BANK)</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
NE (Collateral and Netting)	Y	(1) Applies for the purpose of credit risk (the calculation of the <i>credit risk capital requirement</i>) (2) Applies for the purpose of large exposures to the extent set out in the chapter.
CS (Consolidated Supervision)	Paragraph 2b) of Section 3	Y (1) Applies to the extent it provides for zero risk weighting for intra-group exposures on a solo basis. (2) Applies for the purpose of the exemption for certain intra-group exposures for large exposure purposes on a solo basis (see paragraph 7 of section 9.2.2 of chapter LE of <i>IPRU(BANK)</i>). (3) Otherwise does not apply.

Provisions of <i>IPRU(BANK)</i>	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
	Appendices C and D (equivalent third country prudential regimes)	Y	Only has effect to extent that these apply on a solo basis for the purposes of the parts of <i>IPRU(BANK)</i> that apply under this table. In particular applies for the purposes of <i>IPRU(BANK)</i> BC Section 3 paragraph 6 (f) a) regarding equivalent CAD regimes.
	Rest	N	
OS (Outsourcing)	N		
PN (Provisioning Policy Statement)	Y		

General material about the parts of *IPRU(BANK)* that apply in 2007

- 4.12 G Many of the chapters of *IPRU(BANK)* that apply under the table in *BIPRU* TP 4.11G (particularly the application sections) deal with the application of the material on a consolidated basis. However this does not apply for the purpose of this section as consolidation is dealt with under *BIPRU* TP 10 (Pre CRD capital requirements applying on a consolidated basis during 2007). Likewise those provisions also deal with solo consolidation but this material does not apply either as the provisions about solo consolidation in *IPRU(BANK)* do not apply for the purpose of this section. Nevertheless it is possible to combine the use of this section with solo consolidation under *BIPRU* 2.1 (Solo consolidation).

Status of material on credit risk charges

- 4.13 G The credit risk provisions of *IPRU(BANK)* are mostly *guidance* on rule 3.3.13 of Chapter GN of *IPRU(BANK)*. That *rule* does not apply in 2007. When the credit risk provisions of *IPRU(BANK)* are applied under this section they are *guidance* on the *overall financial adequacy rule*. In turn the *overall financial adequacy rule* is the *rule* on which the calculation of the capital requirements for credit risk under *GENPRU* and *BIPRU* is based for a *bank* under this section.

How to calculate credit risk charges

- 4.14 G A *bank* should calculate the *BIPRU* credit risk charge for *non-trading book* items, called the *credit risk capital component*, by adding together the following:
- (1) the capital charge calculated under Chapter BC (taking into account the revised risk weights in Chapter BO);
 - (2) the capital charge for OTC derivatives in the banking book under section 3 of Chapter DU
 - (3) the capital charge for free deliveries for banking book items in section 4 of Chapter DU; and
- 4.15 G A *bank* should calculate the *BIPRU* credit risk charge for *trading book* items, called the *counterparty risk capital component*, by adding together the following:
- (1) the capital charge calculated under Chapter TU;
 - (2) the capital charge for OTC derivatives in the trading book under section 3 of Chapter DU;
 - (3) the capital charge for unsettled transactions and free deliveries for trading book items in section 4 of Chapter DU; and
 - (4) the capital charge for unsettled transactions in the banking book calculated under Chapter TU (the calculation of the *counterparty risk capital component* includes a capital charge for unsettled transactions in the *non-trading book* as an exception to the principle that the *counterparty risk capital component* relates to the *trading book*).
- 4.16 G *BIPRU* TP 4.28G deals with how to calculate the *concentration risk capital component*.

Adjustments to securitisation requirements

- 4.17 G Under Chapter SE a *bank* should deduct certain credit enhancements from capital. A *bank* should deduct these credit enhancements at stage M of the calculation in the *capital resources table* (Deductions from the totals of tier one and two).
- 4.18 G Paragraph 6 of section 10.4 of Chapter SE of *IPRU(BANK)* says that if a *bank* does not meet the policy on liquidity facilities provided by sponsors or repackagers it should fully consolidate the scheme. This does not apply under this section. Instead a *bank* should treat the scheme assets as being on its balance sheet.
- 4.19 G The definition of investment grade for the purposes of Chapter SE (see in particular sections 3.2.2, 9.3 and 11.1) remains based on Chapter TI of *IPRU(BANK)*.

Adjustments to counterparty credit risk: General

- 4.20 G Broadly speaking the Directive transitional provisions that allow pre-2007 credit risk rules to be used in 2007 cover all credit risk rules. However the transitional provisions for *trading book* credit risk (Annex II of the *Capital Adequacy Directive*, which is implemented in *BIPRU 14* (Capital requirements for settlement and counterparty risk)) is not quite as straightforward as that. In some cases pre-2007 requirements can be used. In others they cannot. One of the purposes of *BIPRU TP 4.21G* to *BIPRU TP 4.25G* is to reflect those cases in which the Directive requires the new requirements to apply from 1 January 2007.

Adjustments to counterparty credit risk: Free deliveries

- 4.21 G A *bank* should include *foreign currency* and *commodity* transactions in the calculations under *IPRU(BANK)* Chapter DU section 4.2 (Free deliveries).
- 4.22 G A *bank* should apply the capital treatment in the table in *BIPRU 14.4.3R* and *BIPRU 14.4.4R* (Capital treatment for free deliveries). But when the capital treatment in that table is that the *firm* must treat the transaction as an *exposure*, the *bank* should apply the treatment in *IPRU(BANK)* Chapter BC for *non-trading book exposures* or TC for *trading book exposures* rather than *BIPRU 14* (Capital requirements for settlement and counterparty risk).

Adjustments to counterparty credit risk: Derivative transactions

- 4.23 G A *bank* should treat a credit derivative in the *trading book* as a derivative to which section 3 of *IPRU(BANK)* Chapter TC (OTC derivatives) applies. However the capital treatment for credit derivatives as set out in *BIPRU 14.2.5R* - *BIPRU 14.2.8R* (Capital treatment for credit derivatives) does not apply; a *bank* should continue to use the treatment in *IPRU(BANK)* as adjusted by this section.

Adjustments to counterparty credit risk: Unsettled transactions

- 4.24 G The alternative treatment set out in *IPRU(BANK)* DU 4.1.3 does not apply.
- 4.25 G A *bank* should include *foreign exchange* and *commodity* transactions in the calculations under *IPRU(BANK)* Chapter DU section 4.1 (Unsettled transactions).
- OTC derivatives
- 4.26 G The treatment in section 3 of Chapter DU applies to the derivatives mentioned there whether or not they are off-balance sheet.
- How to use the *IPRU(BANK)* large exposure rules
- 4.27 G *IPRU(BANK)* Chapter LE (Large exposures) applies in place of *BIPRU* 10 (Concentration risk).
- 4.28 G A *bank* should calculate the *concentration risk capital component* as being equal to the capital charge under *IPRU(BANK)* Chapter TL.
- 4.29 G *BIPRU* 10.5.2R to *BIPRU* 10.5.5R (Capital resources for concentration risk purposes) apply in place of the corresponding provisions of *IPRU(BANK)*. The provisions in *IPRU(BANK)* about the calculation of the large exposures capital base (LECB) do not apply.
- 4.30 G Generally a *bank* should use the specific risk weights that apply under *BIPRU* 7 (Market risk) for the purposes of the incremental capital calculation under section 2.2 of Chapter TL and the net trading book position under paragraph 2(b) of section 7 of Chapter LE. However *BIPRU* TP 4.33G also applies for these purposes.
- 4.31 G References in paragraph 4(d) of section 9.2.1 and paragraph 7 of section 9.2.2 of Chapter LE to the requirements in Chapter CS about zero-risk weighting intra-group exposures still apply.
- 4.32 G When Chapter LE of *IPRU(BANK)* is applied under this section it is *guidance* on the *overall financial adequacy rule* as well as on the relevant provisions of Chapter GN of *IPRU(BANK)*.
- Interest rate PRR
- 4.33 G A *bank* should use *IPRU(BANK)* as it applies under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) and *BIPRU* TP 4 to calculate the *specific risk* portion of the *interest rate PRR* under *BIPRU* 7.2 (Interest rate PRR) to the extent that the relevant *rules* in *BIPRU* 7.2 require the use of the *standardised approach* to credit risk.

- 4.34 G The reason for *BIPRU* TP 4.33G is that the calculation of the *specific risk* portion of the *interest rate PRR* under *BIPRU* 7 (Market risk) involves the use of the *standardised approach* to credit risk. The *specific risk rules* therefore need to be adjusted for a *firm* that is not using the *standardised approach* to credit risk in 2007 so as to apply the pre-2007 method of calculating *specific risk*.

Valuation

- 4.35 G *BIPRU* TP 3.8R (Parts of *GENPRU* and *BIPRU* that apply in 2007) says that *GENPRU* 1.3 (Valuation) applies during 2007, so the values of assets and off balance sheet items used in the calculation of credit risk charges should be in accordance with *GENPRU* 1.3.

Definitions

- 4.36 G Any reference to a *qualifying debt security* or *qualifying equity* in a part of *BIPRU* that applies during 2007 should be interpreted in accordance with *IPRU(BANK)*. However *BIPRU* 7.2.50R (Must not apply *qualifying debt security* treatment to risky assets) also applies.

- 4.37 G The reason for *BIPRU* TP 4.36G is that the *BIPRU* definitions rely in part on the *standardised approach* to credit risk. The definitions therefore need to be adjusted for a *bank* that is not using the *standardised approach* to credit risk in 2007.

Mapping *GENPRU* and *BIPRU* concepts onto *IPRU*

- 4.38 G Some of the parts of *IPRU(BANK)* that apply in 2007 refer to parts of *IPRU* that do not apply. *BIPRU* TP 3.10R explains that where this happens a *firm* should interpret that cross-reference in accordance with the provision in *BIPRU* or *GENPRU* that corresponds to the *IPRU* provision that does not apply in 2007. A *firm* should refer to *IPRU* in the case of cross-references in *GENPRU* and *BIPRU* to provisions in *GENPRU* and *BIPRU* that do not apply in 2007. *BIPRU* TP 4.39G sets out how certain concepts in *IPRU(BANK)* correspond to ones in *GENPRU* and *BIPRU*. The purpose of the table is to help *firms* to interpret such cross-references.

- 4.39 G Table: Mapping *GENPRU* and *BIPRU* concepts onto ones in *IPRU(BANK)*
This table belongs to *BIPRU* TP 4.38G

<i>GENPRU</i> and <i>BIPRU</i>	<i>IPRU(BANK)</i>
<i>BIPRU</i> 1.2	Chapter CB
<i>GENPRU</i> 2.2	Chapter CA
<i>BIPRU</i> 7.2	Chapter TI

<i>GENPRU and BIPRU</i>	<i>IPRU(BANK)</i>
<i>BIPRU 7.3</i>	Chapter TE
<i>BIPRU 7.8</i>	Chapter TU
<i>BIPRU 7.4</i>	Chapter CM

<i>BIPRU 7.10</i>	Chapter TV
<i>BIPRU 8</i>	Chapter CS
<i>GENPRU 1.3</i>	Chapter VA
<i>Market risk capital component (excluding charges arising from FX and commodity banking book business) and the counterparty risk capital component, excluding unsettled transactions arising from the banking book.</i>	Trading book capital requirements
<i>Non-trading book</i>	Banking book
<i>Trading book</i>	Trading book
<i>Capital resources calculated under BIPRU 10.5.2R to BIPRU 10.5.5R</i>	Large exposures capital base (LECB)
<i>Concentration risk capital component or the capital resources used to meet it</i>	Incremental capital under Chapter TL
<i>Financial derivative instruments and trading book credit derivatives</i>	OTC derivatives
<i>the overall financial adequacy rule</i>	<i>Rule GN 3.3.13R (Adequate capital)</i>
<i>individual capital guidance</i>	Individual capital ratio
<i>Bank that calculates its capital requirements under BIPRU 1.2.17R (Firm with small trading book using non-trading book treatments for certain trading book items)</i>	<i>Bank to which the Capital Adequacy Directive does not apply</i>
<i>trading book concentration risk excess</i>	Exposures over the 25% in the trading book under Chapter TL

Firms using the IRB approach during 2007: General

- 4.40 G *BIPRU* TP 4.41G to *BIPRU* TP 4.43G only apply to a *firm* that is applying the *IRB approach* under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using *IPRU*.
- 4.41 G The effect of *BIPRU* TP 3.17G (Pre CRD capital requirements applying on a solo basis during 2007 for *firms* also using the *IRB approach*) is that neither credit risk or counterparty risk requirements of *IPRU(BANK)* apply to an *exposure* to which the *firm* applies the *IRB approach*. The *IRB approach* requirements in *BIPRU* apply instead. The main requirements are listed in *BIPRU* TP 3.17G.
- 4.42 G A *firm* should apply *BIPRU* 7.2.45R - *BIPRU* 7.2.47R (Using internal ratings to calculate *specific risk* and treatment of *securitisations*) to calculate the *specific risk* portion of the *interest rate PRR* to the extent that the obligor or *exposure* in question comes within the scope of its *IRB permission*.
- 4.43 G The definitions of *qualifying debt security* and *qualifying equity* in the *Glossary* apply if the security or obligor in question comes within the scope of a *firm's IRB permission*.

- TP 5 Pre CRD capital requirements applying on a solo basis during 2007:
Building societies
- Application
- 5.1 R This section applies to a *building society* that is applying *BIPRU* TP 3.4R (Use of *IPRU* on a solo basis during 2007).
- Purpose of this chapter
- 5.2 G *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a *firm* may apply the credit risk requirements of *IPRU* instead of the ones in *BIPRU*. For a *building society* this involves applying the credit risk requirements in *IPRU(BSOC)*. This section explains how this is done. In particular this section explains what parts of *IPRU(BSOC)* apply during 2007 and what changes are made to *IPRU(BSOC)* for that purpose.
- Duration of transitional
- 5.3 R This section applies until 1 January 2008.
- Drafting approach in this chapter
- 5.4 G The purpose of *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of *BIPRU* and *GENPRU* should be in force from 1 January 2007. However a *firm* should be able to calculate the capital requirement for credit risk under *IPRU* and use the large exposures requirements in *IPRU*. This means that a *building society* should slot the credit risk requirements of *IPRU(BSOC)* into the general requirements of *GENPRU* and *BIPRU*.
- 5.5 G The capital calculation for credit risk under *BIPRU* is made up of three elements, which are set out in *GENPRU* 2.1.51R (Calculation of the credit risk capital requirement). These are the *credit risk capital component*, the *counterparty risk capital component* and the *concentration risk capital component*. So the approach in *BIPRU* TP 5.4G involves determining which of these three elements apply, and then finding their equivalents (if any) in *IPRU(BSOC)*.
- 5.6 G The general approach to calculating the capital requirements for credit risk in *GENPRU* and *BIPRU* is to calculate the overall *credit risk capital requirement* (which is the sum of the three components listed in *BIPRU* TP 5.5G) – a monetary amount - and to compare it with *capital resources*, also a monetary amount.

- 5.7 G The general approach in *IPRU(BSOC)* is different. A *building society* calculates the total of its own funds (after making the relevant deductions) and the total of its risk weighted assets and off balance sheet items (in the latter case, after applying credit conversion factors). The own funds total is divided by the risk weighted assets total and the quotient expressed as a percentage: this is the pre-CRD solvency ratio.
- 5.8 G To enable a *building society* to use *BIPRU* TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007), the calculation method set out in *IPRU(BSOC)*, which is designed to produce the solvency ratio, needs adjustment so that it produces the *credit risk capital component* instead.
- 5.9 G *BIPRU* TP 3.8R (Parts of *GENPRU* and *BIPRU* that apply in 2007) provides that *GENPRU* 2.2 (Capital resources) applies during 2007. So a *building society* using *BIPRU* TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007) will calculate its *capital resources* under *GENPRU* 2.2, instead of calculating its own funds under *IPRU(BSOC)*.
- Rules in *IPRU(BSOC)* that apply in 2007
- 5.10 R The *rules* in Chapter 7 of Volume 1 of *IPRU(BSOC)* (Large Exposures) apply during the period that *BIPRU* TP 3.4R applies. None of the other *rules* in *IPRU(BSOC)* apply except the *rules* in chapters 4 and 5 which apply to *building societies* generally whether or not they apply the treatment in this section.
- Parts of Volume 1 of *IPRU(BSOC)* that apply in 2007
- 5.11 G The parts of Volume 1 of *IPRU(BSOC)* that do and do not apply during the period that *BIPRU* TP 3.4R applies are set out in *BIPRU* TP 5.13G.
- 5.12 G The table in *BIPRU* TP 5.13G assumes that the *firm* is not applying the *IRB approach*. *BIPRU* TP 5.36R to *BIPRU* TP 5.38R deal with a *firm* that does apply the *IRB approach*.

5.13 G Table: Parts of Volume 1 of IPRU(BSOC) that apply in 2007
This table belongs to *BIPRU* TP 5.11G

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Chapter X (Introduction)	<i>Rule</i> X.2.1 (Application)	N <i>BIPRU</i> TP 5.1R applies in its place for the purposes of <i>BIPRU</i> TP 5. However see <i>BIPRU</i> TP 5.15G.
	Definition of the BCD in X.7.1G	Y
	Other definitions in X.7	Y Apply to the extent used in the parts of <i>IPRU(BSOC)</i> that have effect under this section.
	The rest of chapter X	N
Chapter 1 (Solvency)		
Section 1.1 (Introduction)	N	
Section 1.2 (Solvency rules)	N	
Section 1.3 (Purpose of Capital)	N	
Section 1.4 (EU Directives)	N	
Section 1.5 (Threshold Ratios)	Y	See <i>BIPRU</i> TP 5.25G to <i>BIPRU</i> TP 5.26G
Section 1.6 (Own Funds)	N	
Section 1.7 (Minority Interests)	N	

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Section 1.8 (Deductions)	N	
Section 1.9 (Limits on Tier 2 capital)	N	
Section 1.10 (Solvency Ratio)	Y	(1) Applies on a solo basis except to the extent <i>BIPRU</i> 2.1 (Solo consolidation) applies. (2) Application on a consolidated basis is covered by <i>BIPRU</i> TP 10 (Pre CRD capital requirements applying on a consolidated basis during 2007). (3) Requirement that the solvency ratio should be calculated on a consolidated basis where a <i>building society</i> has <i>subsidiary undertakings</i> does not otherwise apply. (4) See <i>BIPRU</i> TP 5.20G to <i>BIPRU</i> TP 5.24G.
Section 1.11 (Solo consolidation)	N	
Section 1.12 (Mortgage Subsidiaries)	N	
Section 1.13 (Exclusions from consolidation)	N	
Section 1.14 (Mortgage Indemnity Captives)	N	

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Section 1.15 (Securitisation)	Y	See <i>BIPRU</i> TP 5.33G to <i>BIPRU</i> TP5.35G
Section 1.16 (Deductions of holdings)	N	
Section 1.17 (capital cost and pricing)	N	
Section 1.18 (CAD)	Y	Only applies to the extent that the relevant provisions of <i>IPRU(BANK)</i> apply to a <i>building society</i> under <i>BIPRU</i> TP 3. See <i>BIPRU</i> TP 5.16R to <i>BIPRU</i> TP 5.19G.
Section 1.19 (Credit derivatives)	Y	
Annex 1A (Calculation of Own Funds)	N	
Annex 1B (Risk Asset Weights)	Y	See <i>BIPRU</i> TP 5.32G
Annex 1C (Off Balance Sheet Items)	Y	The treatment of items under section 1C.5 (The treatment of off-balance sheet items using the "mark to market" approach) applies to the types of item listed in section 1C.7 whether they are on or off balance sheet.
Annex 1D (Deductions from own funds)	N	

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Annex 1E (Verification of Interim Profits)	N	
Annex 1F (Definition of Relevant Authority)	N	
Annex 1G (Definition of Zones A and B)	Y	
Annex 1H – Society Only Definitions	Y	
Annex 1J – Threshold Appraisal Sheet	Y	
Other chapters		
Chapter 2 (Issued Capital)	N	
Chapter 3 (Boards and Management)	N	
Chapter 4 (Financial Risk Management)	Annex 4B (Credit derivatives)	Y The provisions in <i>BIPRU</i> TP 4 (Pre CRD capital requirements applying on a solo basis during 2007: Banks) about Chapter CD of <i>IPRU(BANK)</i> (Credit derivatives) apply.

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
	The rest of Chapter 4	Y Subject to the other provisions of this section, applies in the same way as it does for a <i>building society</i> that does not use <i>BIPRU</i> TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007). See <i>BIPRU</i> TP 5.15G.
Chapter 5 (Liquidity) (including Annexes 5A to 5C)	Y	Subject to the other provisions of this section, applies in the same way as it does for a <i>building society</i> that does not use <i>BIPRU</i> TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007). See <i>BIPRU</i> TP 5.15G
Chapter 6 (Lending)	N	

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Chapter 7 (Large Exposures)	Y	<p>(1) Applies on a solo basis except to the extent <i>BIPRU</i> 2.1 (Solo consolidation) applies.</p> <p>(2) Application on a consolidated basis is covered by <i>BIPRU</i> TP 10 (Pre CRD capital requirements applying on a consolidated basis during 2007).</p> <p>(3) Requirement that large exposures of a <i>building society</i> with <i>subsidiary undertakings</i> should, in general, be monitored on a fully consolidated basis does not otherwise apply.</p> <p>(4) <i>IPRU(BSOC)</i> 7.7 (Systems) applies.</p> <p>(5) See <i>BIPRU</i> TP 5.27R to <i>BIPRU</i> TP 5.30G.</p>
Chapter 8 (Mortgage Indemnity Insurance)	N	
Chapter 9 (Systems)	N	

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Chapter 10 (Securitisation)	Y	The provisions in <i>BIPRU</i> TP 4 (Pre CRD capital requirements applying on a solo basis during 2007: Banks) about Chapter SE of <i>IPRU(BANK)</i> (Securitisation) apply. See <i>BIPRU</i> TP 5.33G to <i>BIPRU</i> TP 5.35G
Chapter 11 (Outsourcing)	N	

Volume 2 of *IPRU(BSOC)*

- 5.14 G Volume 2 of *IPRU(BSOC)* does not apply to a *building society* that applies *BIPRU* TP 3.4R (Use of *IPRU* on a solo basis during 2007). It has been replaced by the Building Societies Regulatory Guide, which applies to all *building societies*, not just ones that apply *BIPRU* TP 3.4R.

Chapters 4 and 5 of Volume 1 of *IPRU(BSOC)*

- 5.15 G (1) Chapters 4 and 5 of Volume 1 of *IPRU(BSOC)* apply to all *building societies*, not just ones that apply *BIPRU* TP 3.4R (Use of *IPRU* on a solo basis during 2007). The version that applies to a *building society* that applies *BIPRU* TP 3.4R is the one in force at the relevant time, not the version in force on 31 December 2006. However there are some exceptions to this, as explained in (2) and (3).
- (2) As *BIPRU* 2.3 (Interest rate risk in the non-trading book) does not apply to a *firm* applying *BIPRU* TP 3.4R, references in Chapter 4 to *BIPRU* 2.3 should be disregarded (see in particular paragraphs 4.1.3G, 4.7.1G and 4.7.7G of chapter 4 of Volume 1 of *IPRU(BSOC)*).
- (3) As shown in the table in *BIPRU* TP 5.12G, Annex 4B (Credit derivatives) applies to a *building society* that applies *BIPRU* TP 3.4R.

- (4) *Rule X.2.1* of Chapter X of Volume 1 of *IPRU(BSOC)* (Application) applies to all *building societies*, not just ones that apply *BIPRU TP 3.4R*. However *BIPRU TP 5.1R* is the relevant application *rule* for the purpose of *BIPRU TP 5*.

The trading book

- 5.16 R *BIPRU TP 4* (Pre CRD capital requirements applying on a solo basis during 2007: Banks) applies for the purpose of calculating the *counterparty credit risk component* and the *market risk capital requirement*.
- 5.17 G The reason for *BIPRU TP 5.16R* is explained in *BIPRU TP 5.18G* to *BIPRU TP 5.19G*.
- 5.18 G (1) Only exceptionally will a *building society* have a *trading book*. If a *building society* does not have a *trading book*, the calculations that a *building society* should carry out under *BIPRU TP 3* (Use of *IPRU* on a solo basis during 2007) and this section are simplified as described in this paragraph.
- (2) A *building society* does not have to calculate a *counterparty risk capital component* (the capital charge for counterparty risk in the *trading book*) or a *concentration risk capital component* (the capital charge for exceeding concentration risk limits in the *trading book*).
- (3) *BIPRU 7* (Market risk) does not apply for the most part. This is because most of it only applies to the *trading book*.
- (4) *BIPRU 7.5* (Foreign currency PRR) will apply if a *building society* has *foreign currency* exposure even if the *building society* does not have a *trading book*.
- (5) *BIPRU 7.6* (Option PRR) will apply if a *building society* has *foreign currency option positions*.
- (6) *BIPRU 7.4* (Commodity PRR) and *BIPRU 7.6* (Option PRR) apply to a *firm's commodity positions* in its *non-trading book* as well as its *trading book*. However a *building society* will not generally have *commodity positions*.
- 5.19 G Paragraph 1.18.1G of Volume 1 of *IPRU(BSOC)* (CAD) says that a *building society* on the "Trading" approach to financial risk management (described in chapter 4 of Volume 1 of *IPRU(BSOC)* (Financial Risk Management)), under which it can trade securities and maintain unhedged foreign exchange positions within defined limits, should calculate the capital requirements for its trading book and foreign exchange positions separately in accordance with *IPRU(BANK)*. Therefore if a *building society* does have a *trading book* and applies *BIPRU TP 3.4R* (Use of *IPRU* on a solo basis during 2007):

- (1) it should calculate its credit risk charge for items in the *trading book* using *IPRU(BANK)* as adjusted under *BIPRU TP 4* (Pre CRD capital requirements applying on a solo basis during 2007: Banks);
- (2) it should calculate its capital requirements for *foreign currency positions* under *BIPRU 7* (Market risk), particularly *BIPRU 7.5* (Foreign currency PRR) as adjusted under *BIPRU TP 4*;
- (3) it should calculate its capital requirements for other market risks under *BIPRU 7* as adjusted under *BIPRU TP 4*; and
- (4) even if a *building society* does have a *trading book* it still does not have to calculate a *concentration risk capital component* as *IPRU(BSOC)* does not allow a *building society* to exceed the limits in Chapter 7 of *IPRU(BSOC)* (Large exposures).

How to calculate a credit risk capital component under IPRU

- 5.20 G A *building society* should calculate its *credit risk capital component* (under paragraph 1.10 of Volume 1 of chapter 1 of *IPRU(BSOC)* (Solvency)) by taking the total of its risk weighted assets and off balance sheet items (using the risk weights in Annex 1B and the credit conversion factors in Annex 1C) and multiplying this by 8%.
- 5.21 G *BIPRU TP 5.18G* to *BIPRU TP 5.19G* explain why the *counterparty risk capital component* and the *concentration risk capital component* (which together with the *credit risk capital component* make up the *credit risk capital requirement*) are unlikely to apply to a *building society*.
- 5.22 G *BIPRU TP 3.8R* (Parts of *GENPRU* and *BIPRU* that apply in 2007) says that *GENPRU 1.3* (Valuation) applies during 2007, so the values of assets and off balance sheet items used in the calculation under *BIPRU TP 5.20G* should be in accordance with *GENPRU 1.3*.
- 5.23 G In the light of *BIPRU TP 5.9G*, *BIPRU TP 5.20G* and *BIPRU TP 5.22G*, the first two sentences and the fourth sentence of paragraph 1.10 of Volume 1 of *IPRU(BSOC)* should be disregarded. The remainder of paragraph 1.10 gives useful detail on the credit risk calculations.
- 5.24 G The solvency ratio provisions of *IPRU(BSOC)* are mostly *guidance on rules 1.2.1* and *1.2.2* of Chapter 1 of Volume 1 of *IPRU(BSOC)*. These *rules* do not apply in 2007. When the solvency ratio provisions of Volume 1 of *IPRU(BSOC)* are applied under this section they are *guidance on the overall financial adequacy rule*. In turn the *overall financial adequacy rule* is the *rule* on which the calculation of the capital requirements for credit risk under *GENPRU* and *BIPRU* is based for a *building society* under this section.

How to maintain the threshold ratio

- 5.25 G A *building society* should maintain the amount of *capital resources* (calculated under *GENPRU* 2.2 (Capital resources)) that corresponds to the result of multiplying the total of its risk weighted assets and off balance sheet items (as calculated for the purposes of *BIPRU* TP 5.20G) by its threshold ratio. Further transitional provisions about the threshold ratio can be found in *GENPRU* TP 9 (Individual capital guidance for *BIPRU* firms).
- 5.26 G Complying with *BIPRU* TP 5.25G is treated as satisfying the expectation set out in section 1.5 of chapter 1 of Volume 1 of *IPRU(BSOC)* (Solvency) that a *building society* will maintain the threshold ratio. Maintaining the threshold ratio is in turn treated as satisfying the *overall Pillar 2 rule* so far as that *rule* requires a *firm* to maintain adequate capital resources.

Large exposures

- 5.27 G Chapter 7 of Volume 1 of *IPRU(BSOC)* (Large exposures) applies in place of *BIPRU* 10 (Concentration risk).
- 5.28 G *BIPRU* 10.5.2R to *BIPRU* 10.5.3R and *BIPRU* 10.5.5R (Capital resources for concentration risk) apply for the purpose in *BIPRU* TP 5.27R. Although the table in *BIPRU* TP 3.8R (Parts of *GENPRU* and *BIPRU* that apply in 2007) says that *BIPRU* 10.5.14R (Notification of trading book excesses) also applies, this is irrelevant to a *building society* as it relates to the regime for excess *exposures* in the *trading book*, which does not apply to a *building society*.
- 5.29 G The effect of *BIPRU* TP 5.28R is that a *building society* should treat all references to own funds in chapter 7 of Volume 1 of *IPRU(BSOC)* (Large exposures) as references to *capital resources* under *BIPRU* 10.5.2R to *BIPRU* 10.5.3R and *BIPRU* 10.5.5R (Capital resources for concentration risk). The last sentence of paragraph 7.3.1 of Volume 1 of *IPRU(BSOC)* should be disregarded.
- 5.30 G Chapter 7 of *IPRU(BSOC)* is mostly *guidance* on *rules* 1.2.1 and 1.2.2 of Chapter 1 of Volume 1 of *IPRU(BSOC)*. These *rules* do not apply in 2007. When the large exposures provisions of Volume 1 of *IPRU(BSOC)* are applied under this section they are *guidance* on the *overall financial adequacy rule*.

Operational risk

- 5.31 G *BIPRU* TP 3.21R provides that the *operational risk capital requirement* is reduced where a *firm* uses *BIPRU* TP 3.4R (Capital floors for a firm using the IRB or AMA approaches). A *building society* (unless, exceptionally, it has a *trading book*) will apply *BIPRU* 3.4R to all its *exposures*. So the effect of *BIPRU* TP 3.21R in those cases will be to reduce the *operational risk capital requirement* to zero while *BIPRU* TP 3.4 applies.

Miscellaneous modifications of *IPRU(BSOC)*

- 5.32 G When using Annex 1B of Chapter 1 of Volume 1 of *IPRU(BSOC)* (Risk Asset Weights) for the purposes of *BIPRU* TP 5.20G, the definition of "relevant authority" will be found in Annex 5A of Chapter 5 of Volume 1 of *IPRU(BSOC)* (Prudential Liquidity) instead.
- 5.33 G *BIPRU* TP 5.12R says that chapter 10 of Volume 1 of *IPRU(BSOC)* (Securitisation) applies. Under that chapter a *firm* should deduct certain credit enhancements from capital. A *building society* should deduct these credit enhancements at stage M of the calculation in the *capital resources table* (Deductions from the totals of tier one and two).
- 5.34 G Paragraph 6 of section 10.4 of Chapter SE of *IPRU(BANK)*, which is applied to a *building society* by chapter 10 of Volume 1 of *IPRU(BSOC)* (Securitisation), says that if a *firm* does not meet the policy on liquidity facilities provided by sponsors or repackers it should fully consolidate the scheme. This does not apply under this section. Instead a *building society* should treat the scheme assets as being on its balance sheet.
- 5.35 G The definition of investment grade for the purposes of Chapter SE (see in particular sections 3.2.2, 9.3 and 11.1) remains based on Chapter TI of *IPRU(BANK)*.
- Firms using the IRB approach during 2007: General
- 5.36 R *BIPRU* TP 5.37G to *BIPRU* TP 5.38R only apply to a *firm* that is applying the *IRB approach* under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using *IPRU*.
- 5.37 G The effect of *BIPRU* TP 3.17G (Pre CRD capital requirements applying on a solo basis during 2007 for *firms* also using the *IRB approach*) is that Section 1.10 of Volume 1 of *IPRU(BSOC)* (Solvency Ratio) does not apply to an *exposure* to which the *firm* applies the *IRB approach*. The *IRB approach* requirements in *BIPRU* apply instead. The main requirements are listed in *BIPRU* TP 3.17G.
- 5.38 R A *building society* that has a *trading book* must apply the parts of *BIPRU* TP 4 (Pre CRD capital requirements applying on a solo basis during 2007: Banks) that deal with capital charges for items in the *trading book* for a *bank* that applies the *IRB approach* under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using *IPRU*.

- TP 6 Pre CRD capital requirements applying on a solo basis during 2007:
Investment management firms
- Application
- 6.1 R This section applies to a *BIPRU firm* that:
- (1) is an *investment management firm*; and
 - (2) is applying *BIPRU* TP 3.4R (Use of IPRU on a solo basis during 2007).
- Purpose of this section
- 6.2 G *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a *firm* may apply the credit risk requirements of *IPRU* instead of the ones in *BIPRU*. For an *investment management firm* this involves applying the credit risk requirements in chapter 5 of *IPRU(INV)*. This section explains how this is done. In particular this section explains:
- (1) which parts of chapter 5 should be treated as credit risk requirements for this purpose;
 - (2) what parts of chapter 5 apply during 2007 and what changes are made to chapter 5 for that purpose; and
 - (3) what changes are made to *GENPRU* and *BIPRU* to reflect the fact that chapter 5 applies in place of parts of *GENPRU* and *BIPRU*.
- Duration of transitional
- 6.3 R This section applies until 1 January 2008.
- Drafting approach in this section
- 6.4 G The purpose of *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of *BIPRU* and *GENPRU* should be in force from 1 January 2007. However a *firm* should be able to calculate the capital requirements for credit risk under *IPRU* and use the large exposures requirements in *IPRU*. This means that an *investment management firm* should slot the credit risk requirements of chapter 5 of *IPRU(INV)* into the general requirements of *GENPRU* and *BIPRU*.
- 6.5 G The capital calculation for credit risk under *BIPRU* is made up of three elements, which are set out in *GENPRU* 2.1.51R (Calculation of the credit risk capital requirement). These are the *credit risk capital component*, the *counterparty risk capital component* and the *concentration risk capital component*. So the approach in *BIPRU* TP 6.4G involves finding equivalents for these three elements in chapter 5 where this is possible.

- 6.6 G Under *GENPRU* and *BIPRU* a *firm* calculating its capital resources may usually choose between deducting *illiquid assets* and *material holdings*. Only if it has a *waiver* from consolidated supervision need it deduct both. However under chapter 5, both illiquid assets and material holdings in credit and financial institutions are deducted.
- 6.7 G The chapter 5 *rules* can still be made to work if a *firm* is allowed to choose between deducting *illiquid assets* and *material holdings* as any *exposure* that is not deducted is covered by the chapter 5 other assets requirement.
- 6.8 G (1) To make the *GENPRU* and *BIPRU* requirements compatible with chapter 5 for the purpose of *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007), this section takes the approach in this paragraph.
- (2) The *illiquid assets* and *material holdings* provisions of *GENPRU* 2.2 (Capital resources) apply.
- (3) The chapter 5 counterparty risk requirement and the other assets requirement are used to calculate the *BIPRU* credit risk charge for *non-trading book* items (called the *credit risk capital component*) and the *BIPRU* credit risk charge for *trading book* items (called the *counterparty risk capital component*).
- (4) *BIPRU* 10 (Concentration risk) allows a *firm* to exceed the large exposure limits in the *trading book*. A *firm* that takes up that option is subject to an additional capital requirement, called the *concentration risk capital component*. Chapter 5 does not give a *firm* that option. Therefore the *concentration risk capital component* does not apply to a *firm* under this section.

Parts of chapter 5 of *IPRU(INV)* that apply in 2007

- 6.9 R The parts of chapter 5 of *IPRU(INV)* that do and do not apply during the period that *BIPRU* TP 3.4R applies are set out in *BIPRU* TP 6.11R.
- 6.10 G The table in *BIPRU* TP 6.11R assumes that the *firm* is not applying the *IRB approach*. *BIPRU* TP 6.31R to *BIPRU* TP 6.34R deal with a *firm* that does apply the *IRB approach*.

6.11 R Table: Parts of chapter 5 of IPRU(INV) that apply in 2007
This table belongs to *BIPRU* TP 6.9R

Chapter 5 rule	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
5.1.1(1)(a) and (b) (Application)	N		<i>BIPRU</i> TP 6.1R applies instead
Table 5.1.1(1)(a) (What parts of chapter 5 apply to what <i>firm</i>)	N		<i>BIPRU</i> TP 6.1R applies instead
5.1.1(1)(c) (Interpretation)	Y		See <i>BIPRU</i> TP 6.26R to <i>BIPRU</i> TP 6.28G
5.2.1 (General requirement)	N		
5.2.2 (Financial resources)	N		<i>GENPRU</i> 2.2 (Capital resources) applies instead
5.2.3(1) (Determination of requirement)	N		
5.2.3(2) (Exceptions from the liquid capital requirement)	N		
5.2.3(3) (Own funds requirement)	N		
5.2.3(4) (Liquid capital requirement)	N

Categorisation

- 6.12 R Each *firm* is an ISD firm for the purposes of chapter 5 of *IPRU(INV)* as applied by *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) and this section.

How to use the chapter 5 Counterparty Risk Requirement and the Other Assets Requirement

- 6.13 R A *firm* must calculate the sum of the *credit risk capital component* and the *counterparty risk capital component* as being equal to the sum of the counterparty risk requirement under chapter 5 of *IPRU(INV)* and of the other assets requirement under chapter 5 of *IPRU(INV)*.

- 6.14 R If it is necessary to distinguish between the *credit risk capital component* and the *counterparty risk capital component* a *firm* must allocate:
- (1) any amount calculated for an *exposure* in the *non-trading book* to the *credit risk capital component*; and
 - (2) any amount calculated for an *exposure* in the *trading book* to the *counterparty risk capital component*;

- 6.15 G A *firm* may still apply the netting provisions for OTC derivatives in chapter 5 even though the OTC derivative calculation is split between the *credit risk capital component* and the *counterparty risk capital component* under *BIPRU* TP 6.14R. The net amount should be allocated to the *credit risk capital component* if the gross value of the *non-trading book* derivatives is bigger and to the *counterparty risk capital component* if the gross value of the *trading book* derivatives is bigger.

Adjustments to the Counterparty Risk Requirement calculations: General

- 6.16 G Broadly speaking the Directive transitional provisions that allow pre-2007 credit risk rules to be used in 2007 cover all credit risk rules. However the transitional provisions for *trading book* credit risk (Annex II of the *Capital Adequacy Directive*, which is implemented in *BIPRU* 14 (Capital requirements for settlement and counterparty risk)) is not quite as straightforward as that. In some cases pre-2007 requirements can be used. In others they cannot. The purpose of *BIPRU* TP 6.17R to *BIPRU* TP 6.19G is to reflect those cases in which the Directive requires the new requirements to apply from 1 January 2007.

Adjustments to the Counterparty Risk Requirement calculations: Free deliveries

- 6.17 R
- (1) The calculation of the part of the counterparty risk requirement set out in section 3 of Table 5.2.3(5)(c) of chapter 5 of *IPRU(INV)* (Free deliveries) is amended in accordance with this *rule* for the purposes of *trading book* calculations.
 - (2) A *firm* must include *foreign currency* and *commodity* transactions.
 - (3) The capital treatment in the table in *BIPRU* 14.4.3R (Capital treatment for free deliveries) applies. But when the capital treatment in that table is that the *firm* must treat the transaction as an *exposure*, the *firm* must apply the treatment in chapter 5 of *IPRU(INV)* rather than *BIPRU* 14 (Capital requirements for settlement and counterparty risk).

Adjustments to the Counterparty Risk Adjustments calculations: Credit derivative transactions

- 6.18 R A *firm* must treat a credit derivative in the *trading book* as a derivative to which section 6 of Table 5.2.3(5)(c) of chapter 5 of *IPRU(INV)* (OTC derivatives) and table 5.2.3(5)(c)(iii) (OTC derivatives calculation of credit equivalent amount) apply.
- 6.19 G The capital treatment for credit derivatives set out in *BIPRU* 14.2.5R - *BIPRU* 14.2.8R (Capital treatment for credit derivatives) does not apply.

Adjustments to the Other Assets Requirement calculations

- 6.20 R A *firm* must include the items listed in section 4 of Chapter BC of *IPRU(BANK)* that are in the *firm's non-trading book* as off-balance sheet items in table 5.2.3(5)(e) (Other assets requirement) whether they are on or off balance sheet. A *firm* must include a credit derivative as a full risk item.

How to use the chapter 5 large exposure rules

- 6.21 R Section 5.2.7 of chapter 5 of *IPRU(INV)* (Large exposures) applies in place of *BIPRU* 10 (Concentration risk).
- 6.22 R *BIPRU* 10.5.2R to *BIPRU* 10.5.5R (Capital resources for concentration risk purposes) apply in place of the definition of own funds that applies under section 5.2.7 of chapter 5 of *IPRU(INV)*.

Specific risk calculations

- 6.23 R A *firm* must calculate the *specific risk* portion of the *interest rate PRR* in accordance with *BIPRU* TP 8.28R (Pre CRD interest rate *PRR* for *securities and futures firms*).
- 6.24 R Any reference to a *qualifying debt security* in a part of *BIPRU* that applies during 2007 must be interpreted in accordance with the meaning it has when used in section A of Table 5.2.3(5)(b) of chapter 5 of *IPRU(INV)* (Position risk requirement for qualifying debt securities). However *BIPRU* 7.2.50R (Must not apply *qualifying debt security* treatment to risky assets) also applies. Any reference to a *qualifying equity* in a part of *BIPRU* that applies during 2007 must be interpreted in accordance with the definition in the Glossary to chapter 10 of *IPRU(INV)*.
- 6.25 G The reason for *BIPRU* TP 6.23R and *BIPRU* TP 6.24R is that the calculation of the *specific risk* portion of the *interest rate PRR* under *BIPRU* 7 (Market risk) involves the use of the *standardised approach* to credit risk. The *specific risk rules* therefore need to be adjusted for a *firm* that is not using the *standardised approach* to credit risk in 2007 so as to apply the pre-2007 method of calculating *specific risk*. However chapter 5 does not use the concept of *specific risk*. The nearest equivalent is in chapter 10 of *IPRU(INV)* (*Securities and futures firms*). The definition of *qualifying equity* also depends in part on the *standardised approach* to credit risk.

Definitions

- 6.26 R The definition of trading book is replaced with the definition in the *Glossary*.
- 6.27 R A *firm* may treat a reference in the Glossary to Chapter 5 of *IPRU(INV)* to a financial supervision regime at least equivalent to the Second Consolidated Supervision Directive and the Capital Adequacy Directive (No. 93/6/EEC) as including one to a regime equivalent to the *Banking Consolidation Directive* and Directive 2006/49 (the new version of the Capital Adequacy Directive).
- 6.28 G *GENPRU* 1.3 (Valuation) applies. The definition of exposure in the Glossary to chapter 5 should be read accordingly.

Mapping GENPRU and BIPRU concepts onto IPRU

- 6.29 G Some of the parts of chapter 5 of *IPRU(INV)* that apply in 2007 refer to parts of chapter 5 that do not apply. *BIPRU* TP 3.10R explains that where this happens a *firm* should interpret that cross-reference in accordance with the provision in *BIPRU* or *GENPRU* that corresponds to the chapter 5 provision that does not apply in 2007. A *firm* should refer to *IPRU* in the case of cross-references in *GENPRU* and *BIPRU* to provisions in *GENPRU* and *BIPRU* that do not apply in 2007. *BIPRU* TP 6.30G sets out how certain concepts in chapter 5 of *IPRU(INV)* correspond to ones in *GENPRU* and *BIPRU*. The purpose of the table is to help *firms* to interpret such cross-references.
- 6.30 G Table: Mapping GENPRU and BIPRU concepts onto ones in chapter 5 of *IPRU(INV)*
This table belongs to *BIPRU* TP 6.29G

<i>GENPRU</i> and <i>BIPRU</i>	Chapter 5 of <i>IPRU(INV)</i>
<i>Illiquid asset</i>	Illiquid asset
<i>Material holding</i>	Material holdings in credit and financial institutions (item 8 in Table 5.2.2(1) (Calculation of own funds and liquid capital))
Unsettled transaction under <i>BIPRU</i> 14.3	Delivery of cash against documents and settlements outstanding for 30 days or more (part of counterparty risk requirement)
<i>Free deliveries</i> under <i>BIPRU</i> 14.4	Free deliveries (part of counterparty risk requirement)

<i>GENPRU and BIPRU</i>	Chapter 5 of <i>IPRU(INV)</i>
See <i>BIPRU</i> TP 6.8G	Counterparty risk requirement
See <i>BIPRU</i> TP 6.8G	Other assets requirement
<i>Market risk capital requirement</i>	The position risk requirement and the foreign exchange requirement
<i>Trading book concentration risk excess</i>	This concept does not apply in Chapter 5
<i>Risk weight</i>	Risk weights in Table 5.2.3(5)(c)(ii) (Counterparty risk requirement). In general where Table 5.2.3(5)(e) (Other assets requirement) applies a risk factor of 8% that is equivalent to applying a <i>risk weight</i> of 100%. Applying the 1.6% adjustment under that table is equivalent to applying a 20% <i>risk weight</i> under <i>BIPRU</i> together with the standard 8% <i>BIPRU</i> credit risk charge. The "NIL" adjustment under that table is equivalent to applying a 0% <i>risk weight</i> .

Firms using the IRB approach during 2007: General

- 6.31 R *BIPRU* TP 6.31R to *BIPRU* TP 6.34R only apply to a *firm* that is applying the *IRB approach* under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using *IPRU*.
- 6.32 G The effect of *BIPRU* TP 3.17G (Pre CRD capital requirements applying on a solo basis during 2007 for *firms* also using the *IRB approach*) is that the counterparty risk requirement and the other assets requirement do not apply to an *exposure* to which the *firm* applies the *IRB approach*. The *IRB approach* requirements in *BIPRU* apply instead. The main requirements are listed in *BIPRU* TP 3.17G.
- 6.33 R A *firm* must apply *BIPRU* 7.2.45R - *BIPRU* 7.2.47R (Using internal ratings to calculate *specific risk* and treatment of *securitisations*) to calculate the *specific risk* portion of the *interest rate PRR* to the extent that the obligor or *exposure* in question comes within the scope of its *IRB permission*.
- 6.34 R The definition of *qualifying debt security* and *qualifying equity* in the *Glossary* apply if the security or obligor in question comes within the scope of a *firm's IRB permission*.

- TP 7 Pre CRD capital requirements applying on a solo basis during 2007: UCITS investment firms
- Application
- 7.1 R This section applies to a *BIPRU firm* that:
- (1) is a *UCITS investment firm*; and
- (2) is applying *BIPRU TP 3.4R* (Use of IPRU on a solo basis during 2007).
- Purpose of this section
- 7.2 G *BIPRU TP 3* (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a *firm* may apply the credit risk requirements of *IPRU* instead of the ones in *BIPRU*. For a *UCITS investment firm* this involves applying the credit risk requirements in chapter 7 of *IPRU(INV)*. This section explains how this is done.
- Duration of transitional
- 7.3 R This section applies until 1 January 2008.
- Drafting approach
- 7.4 G Chapter 7 of *IPRU(INV)* does not contain any credit risk *rules*. Instead it cross refers to the ones in chapter 5 (Interim prudential requirements for former IMRO firms). Therefore this section applies *BIPRU TP 6* (Pre CRD capital requirements applying on a solo basis during 2007: Investment management firms).
- Parts of chapter 7 of *IPRU(INV)* that apply in 2007
- 7.5 R The parts of chapter 7 of *IPRU(INV)* that do and do not apply during the period that *BIPRU TP 3.4R* applies are set out in *BIPRU TP 7.7R*.
- 7.6 G The table in *BIPRU TP 7.7R* assumes that the *firm* is not applying the *IRB approach*. *BIPRU TP 6.31R* to *BIPRU TP 6.34R* (which are applied to a *UCITS investment firm* by *BIPRU TP 7.8R*) deal with a *firm* that does apply the *IRB approach*.

7.7

R Table: Parts of chapter 7 of IPRU(INV) that apply in 2007
This table belongs to *BIPRU* TP 7.5R

Chapter 7 rule	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
7.1.1 (Application)	N	<i>BIPRU</i> TP 7.1R applies instead
7.1.2 and 7.1.3 (<i>Guidance</i> on types of <i>UCITS</i> management companies etc)	Y	
7.2.1 (General rule about financial resources and financial resources requirements)	N	
7.2.2 (Financial resources requirement)	N	
7.2.3 (Liquid capital resource requirement)	13/52 annual audited fixed expenditure requirement	N
	Provision of paragraph (2) that says that requirements apply in respect of <i>designated investment business</i> other than when undertaking <i>scheme management activity</i>	Y
	Position risk requirement	N
	Counterparty risk requirement	Y
	Foreign exchange requirement	N

Chapter 7 rule	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
	Other assets requirement	Y	
7.2.4 to 7.2.5 (Calculation of annual expenditure)	N		
7.3 (Method of calculation of financial resources)	N		<i>GENPRU 2.2</i> (Capital resources) applies instead
7.4.1 (Application of <i>rules</i> in chapter 5 of <i>IPRU(INV)</i> about qualifying subordinated loans etc)	N		The record keeping <i>rules</i> referred to in <i>rule 7.4.1(1)(c)</i> are applied under <i>BIPRU TP 23</i> (Record keeping transitionals)
7.4.2 (Application of <i>rules</i> in chapter 5 of <i>IPRU(INV)</i> about large exposures)	Y		
7.5 (Financial notification)	N		
7.6 (Records)	N		Applied under <i>BIPRU TP 23</i> (Record keeping transitionals)

Application of BIPRU TP 6

- 7.8 R *BIPRU TP 6* (Pre CRD capital requirements applying on a solo basis during 2007: Investment management firms) applies for the purposes of this section.

- TP 8 Pre CRD capital requirements applying on a solo basis during 2007:
Securities and futures firms
- Application
- 8.1 R This section applies to a *BIPRU firm* that is:
- (1) a *securities and futures firm*; and
 - (2) is applying *BIPRU TP 3.4R* (Pre CRD capital requirements applying on a solo basis during 2007).
- Purpose of this section
- 8.2 G *BIPRU TP 3* (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a *firm* may apply the credit risk requirements of *IPRU* instead of the ones in *BIPRU*. For a *securities and futures firm* this involves applying the credit risk requirements in chapter 10 of *IPRU(INV)*. *BIPRU TP 8* explains how this is done. In particular this section explains:
- (1) which parts of chapter 10 should be treated as credit risk requirements for this purpose;
 - (2) what parts of chapter 10 apply during 2007 and what changes are made to chapter 10 for that purpose; and
 - (3) what changes are made to *GENPRU* and *BIPRU* to reflect the fact that chapter 10 applies in place of parts of *GENPRU* and *BIPRU*.
- Duration of transitional
- 8.3 R *BIPRU TP 8* applies until 1 January 2008.
- Drafting approach in this section
- 8.4 G The purpose of *BIPRU TP 3* (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of *BIPRU* and *GENPRU* should be in force from 1 January 2007. However a *firm* should be able to calculate the capital requirements for credit risk under *IPRU* and use the large exposures requirements in *IPRU*. This means that a *securities and futures firm* should slot the credit risk requirements of chapter 10 of *IPRU(INV)* into the general requirements of *GENPRU* and *BIPRU*. A *firm* that applies *BIPRU TP 3.4R* should not use chapter 3 as the source of its pre-2007 credit risk requirements even if it was subject to chapter 3 before becoming a *BIPRU investment firm*.

- 8.5 G The capital calculation for credit risk under *BIPRU* is made up of three elements, which are set out in *GENPRU* 2.1.51R (Calculation of the credit risk capital requirement). These are the *credit risk capital component*, the *counterparty risk capital component* and the *concentration risk capital component*. So the approach in *BIPRU* TP 8.4G involves finding equivalents for these three elements in chapter 10 where possible.
- 8.6 G Under *GENPRU* and *BIPRU* a *firm* calculating its capital resources may usually choose between deducting *illiquid assets* and *material holdings*. Only if it has a *waiver* from consolidated supervision need it deduct both. This broadly corresponds to the approach in calculating financial resources under Tables 10-62(2)A to 10-62(2)C.
- 8.7 G The financial resources requirements calculations under chapter 10 depend in part on which of the financial resources calculations in Tables 10-62(2)A to 10-62(2)C a *firm* uses. Where this is the case the *firm* should use the requirements calculation associated with the version of the tables in 10-62(2) that corresponds to the *capital resources* calculation the *firm* uses under *GENPRU* 2.2 (Capital resources). *BIPRU* TP 8.33G explains how the *capital resources* calculations in *GENPRU* 2.2 map onto Tables 10-62(2)A to 10-62(2)C.
- 8.8 G
- (1) To make the *GENPRU* and *BIPRU* requirements compatible with chapter 10 for the purpose of *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007), this section takes the approach in this paragraph.
 - (2) The *illiquid assets* and *material holdings* provisions of *GENPRU* 2.2 (Capital resources) apply.
 - (3) The 8% illiquid asset adjustment under *IPRU(INV)* 10-65 applies to a *firm* calculating its financial resources under Table 10-62(2)A. It is equivalent to a capital charge for credit risk under *BIPRU*. Therefore a *firm* using the *capital resources* calculation in *GENPRU* that corresponds to Table 10-62(2)A (*GENPRU* 2 Ann 4R (Capital resources table for a *BIPRU investment firm* deducting *material holdings*)) should continue to apply that adjustment. It should be included as part of the *non-trading book* credit risk charge in *BIPRU*, which is called the *credit risk capital component*.
 - (4) A 100% illiquid asset adjustment under *IPRU(INV)* 10-65 is equivalent to a deduction of *illiquid assets* under *GENPRU* 2.2 (Capital resources). Therefore a *firm* should not use this adjustment. This is because, as explained in (2), the *illiquid assets* provisions in *GENPRU* 2.2 apply. Any item that would have been caught by *IPRU(INV)* 10-65 but is not caught by the *illiquid asset* deduction under *GENPRU* 2.2 should be dealt with under *IPRU(INV)* 10-66.

- (5) The *IPRU(INV)* 10-66 liquidity adjustment covers any asset that has not been subject to a liquidity adjustment for illiquid assets under *IPRU(INV)* 10-65. Therefore (subject to (3)) a *firm* should calculate the *credit risk capital component* (the *non-trading book* credit charge in *BIPRU*) by applying *IPRU(INV)* 10-66 to any asset not deducted as an *illiquid asset* under *GENPRU* 2.2 (Capital resources).
- (6) The chapter 10 counterparty risk requirement is used to calculate the *BIPRU* credit risk charge for *trading book* items, called the *counterparty risk capital component*.
- (7) The chapter 10 LER calculation is used to calculate the *concentration risk capital component*.

Parts of chapter 10 of *IPRU(INV)* that apply in 2007

- 8.9 R The parts of chapter 10 of *IPRU(INV)* that do and do not apply during the period that *BIPRU* TP 3.4R applies are as set out in *BIPRU* TP 8.11R.
- 8.10 G The table in *BIPRU* TP 8.11R assumes that the *firm* is not applying the *IRB approach*. *BIPRU* TP 8.35R to *BIPRU* TP 8.38R deal with a *firm* that does apply the *IRB approach*.
- 8.11 R Table: Parts of chapter 10 of *IPRU(INV)* that apply in 2007
This table belongs to *BIPRU* TP 8.9R

Chapter 10 rule	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
10-A (Application of Chapter 10 Glossary)	Y	See <i>BIPRU</i> TP 8.32R
10-B (Application)	N	<i>BIPRU</i> TP 8.1R applies instead
10.10 to 10.12 (Record keeping and Reconciliations)	N	Applied in part under <i>BIPRU</i> TP 23 (Record keeping transitionals)
10-32 (Defaulting repo counterparty and LE Notification Requirements)	N	
10-41 (Repo and Valuation)	N	

Chapter 10 <i>rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
10-60 to 10-63 (Initial Capital and Financial Resources)	N		
10-64 to 10-68 (Liquidity Adjustments, Charged Assets and Contingent Liabilities)	10-64(2) (Intangible assets)	N	<i>GENPRU</i> 2.2 (Capital resources) applies instead
	10-65(12) (Material holdings)	N	<i>GENPRU</i> 2.2 applies instead
	The rest	Y	See <i>BIPRU</i> TP 8.13R to <i>BIPRU</i> TP 8.19G. The requirement in 10-64(1)(c) for an illiquid asset adjustment for commodities to be calculated under appendix 6 (the <i>PRR</i> charge for <i>commodities</i>) does not apply
10-69 (Deficiencies in subsidiaries)	N		
10-70 (Calculation of financial resources requirement)	N		
10-71 (Primary requirement)	N		
10-72 (Base requirement)	N		
10-73 (Expenditure requirement)	N		
10-74 (Secondary requirement)	Y		<i>BIPRU</i> TP 3.10R and the table in <i>BIPRU</i> TP 8.34G explain how the terms used in <i>rule</i> 10-74 are to be interpreted

Chapter 10 <i>rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
10-80 to 10-120 (PRR)	N		But see <i>BIPRU</i> TP 8.29R to <i>BIPRU</i> TP 8.31G
10-170 to 10-176 (CRR)	10-170(3) and (9) (Valuation) and 10-173(8) (Daily valuation)	N	
	The rest	Y	See <i>BIPRU</i> TP 8.20R to <i>BIPRU</i> TP 8.25R
10-190 to 10-196 (Large exposures)	10-190(1) (Application)	N	<i>BIPRU</i> TP 10 (Pre CRD capital requirements applying on a consolidated basis during 2007) deals with consolidation
	The rest	Y	See <i>BIPRU</i> TP 8.26R to <i>BIPRU</i> TP 8.28R
10-200 to 10-204 (Consolidated supervision)	N		
10-300 (ACMPs)	Y		Applies to the extent relevant to the parts of chapter 10 that apply under <i>BIPRU</i> TP 8
Appendix 1 (Glossary of Terms for <i>IPRU(INV)</i> 10)	Y		See <i>BIPRU</i> TP 8.32R
Appendices 4 to 11 (PRR)	Appendix 4 43R to 47R (Specific risk portion of the interest rate PRR)	Y	

Chapter 10 <i>rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
	The rest of Appendices 4 to 11	N	
Appendix 20 (Guidance notes on reconciliation of firm's balances with a counterparty which is a member of an exchange (rule 10-11(4)))	N		
Appendix 21 (Note on the valuation of positions)	N		
Appendix 43 (Guidance note on the financial resources and accounting treatment of soft commission agreements (rule 10-73 and 10-175))	Y		Applies so far as relevant to CRR
Appendix 47 (Counterparty weights to be applied in calculating liquidity adjustment and CRR (rules 10-64 to 10-68, and 10-172 to 10-176))	Y		
Appendix 48 (Securities and Futures firms: Guidance notes on the secondary requirement)	Y		
Appendix 55 (Guidance notes on the application of adequate collateral or acceptable collateral to reduce counterparty exposures)	Y		

Chapter 10 <i>rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Appendix 56 (Guide to Adequate Credit Management Policy (ACMP) (rules 10-172 to 10-175, 10-300 and "ACMP"))	Y	See remarks for 10-300
Appendix 57 (List of exchanges and clearing houses recognised for the purposes of IPRU(INV))	Y	
Appendix 58 (Verification of interim profits by external auditors)	N	
Appendix 59 (List of regulators for the purposes of the definition of recognised third country investment firms)	Y	
Appendix 62 (Netting)	Y	
Appendix 63 (Guidance on Credit derivatives)	Y	(1) Applies so far as relevant to CRR. (2) Applies so far as relevant to liquidity adjustments. (3) Does not apply so far as relevant to the PRR. (4) If the <i>firm</i> is the protection seller in relation to a credit derivative in the <i>non-trading book</i> it must apply the treatment in <i>IPRU(BANK)</i> .

Categorisation

- 8.12 R Each *firm* is a Category A firm for the purposes of chapter 10 of *IPRU(INV)* as applied by *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) and this section.

How to use the chapter 10 liquidity adjustment rules

- 8.13 R A *firm* must calculate the *credit risk capital component* by adding together the deductions under the liquidity adjustment *rules* that apply under *BIPRU* TP 8.11R.
- 8.14 R The 100% liquidity adjustment in *IPRU(INV)* 10-65 (Liquidity adjustment on illiquid assets) does not apply.
- 8.15 G The reason for *BIPRU* TP 8.14R is explained in *BIPRU* TP 8.8G.
- 8.16 R *IPRU(INV)* 10-65 (Illiquid assets) only applies to a *firm* calculating *capital resources* under *GENPRU* 2 Annex 4R (Capital resources table for a *BIPRU* investment firm deducting material holdings).
- 8.17 G The reason for *BIPRU* TP 8.16R is explained in *BIPRU* TP 8.8G.
- 8.18 R A *firm* must calculate the credit risk charge for *commodities* in the *non-trading book* as a liquidity adjustment under *IPRU(INV)* 10-64(1)(c) in accordance with the *CRR rules* in Chapter 10. A *firm* must include that amount in the calculation of the *credit risk capital component*.
- 8.19 G A *firm* may still apply the *CRR* netting provisions for *commodities* in chapter 10 even though the calculation is split between the *credit risk capital component* and the *counterparty risk capital component* under *BIPRU* TP 8.18R and *BIPRU* TP 8.20R. The net amount should be allocated to the *credit risk capital component* if the gross value of the *non-trading book commodities* is bigger and to the *counterparty risk capital component* if the gross value of the *trading book commodities* is bigger.

How to use the chapter 10 CRR rules

- 8.20 R Subject to *BIPRU* TP 8.18R, a *firm* must calculate the *counterparty risk capital component* as being equal to the capital charge under the *CRR rules* that apply under *BIPRU* TP 8.11R.

Adjustments to the CRR calculations: General

- 8.21 G Broadly speaking the Directive transitional provisions that allow pre-2007 credit risk rules to be used in 2007 cover all credit risk rules. However the transitional provisions for *trading book* credit risk (Annex II of the *Capital Adequacy Directive*, which is implemented in *BIPRU* 14 (Capital requirements for settlement and counterparty risk)) is not quite as straightforward as that. In some cases pre-2007 requirements can be used. In others they cannot. The purpose of *BIPRU* TP 8.22R to *BIPRU* TP 8.25R is to reflect those cases in which the Directive requires the new requirements to apply from 1 January 2007.

Adjustments to the CRR calculations: Free deliveries

- 8.22 R (1) The calculations under *rule* 10-172 of *IPRU(INV)* (Free deliveries) are amended in accordance with this *rule*.
- (2) A *firm* must include *foreign currency* transactions.
- (3) The capital treatment in the table in *BIPRU* 14.4.3R (Capital treatment for free deliveries) applies. But when the capital treatment in that table is that the *firm* must treat the transaction as an *exposure*, the *firm* must apply the treatment in *rule* 10-172 rather than *BIPRU* 14 (Capital requirements for settlement and counterparty risk).

Adjustments to the CRR calculations: Derivative transactions

- 8.23 R A *firm* must treat a credit derivative in the *trading book* as a derivative to which *rule* 10-174 of *IPRU(INV)* (Derivative transactions) applies.
- 8.24 G The capital treatment for credit derivatives set out in *BIPRU* 14.2.5R - *BIPRU* 14.2.8R (Capital treatment for credit derivatives) does not apply.

Adjustments to the CRR calculations: Cash against documents

- 8.25 R A *firm* must include *foreign currency* transactions in the calculations under 10-171 of chapter 10 of *IPRU(INV)* (Cash against documents transactions).

How to use the chapter 10 large exposure rules

- 8.26 R 10-190 to 10-196 of chapter 10 of *IPRU(INV)* (Large exposures requirement) apply in place of *BIPRU* 10 (Concentration risk).
- 8.27 R A *firm* must calculate the *concentration risk capital component* as being equal to the capital charge under the LER *rules* that apply under *BIPRU* TP 8.11R.
- 8.28 R *BIPRU* 10.5.2R to *BIPRU* 10.5.5R (Capital resources for concentration risk purposes) apply in place of the corresponding provisions of chapter 10.

Specific risk calculations

- 8.29 R A *firm* must use chapter 10 of *IPRU(INV)* as it applies under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) and this section to calculate the *specific risk* portion of the *interest rate PRR* under *BIPRU* 7.2 (Interest rate PRR) to the extent that the relevant *rules* in *BIPRU* 7.2 require the use of the *standardised approach* to credit risk.
- 8.30 R Any reference to a *qualifying debt security* or *qualifying equity* in a part of *BIPRU* that applies during 2007 must be interpreted in accordance with the definition in the Glossary to chapter 10 of *IPRU(INV)*. However *BIPRU* 7.2.50R (Must not apply *qualifying debt security* treatment to risky assets) also applies.
- 8.31 G The effect of *BIPRU* TP 8.29R and *BIPRU* TP 8.30R is that a *firm* should apply *rules* 43R to 47R of Appendix 4 of Chapter 10 of *IPRU(INV)* (Specific risk portion of interest rate PRR) instead of *BIPRU* 7.2.43R to *BIPRU* 7.2.49R (Specific risk portion of interest rate PRR). The reason for this is that the calculation of the *specific risk* portion of the *interest rate PRR* under *BIPRU* 7 (Market risk) involves the use of the *standardised approach* to credit risk. The *specific risk rules* therefore need to be adjusted for a *firm* that is not using the *standardised approach* to credit risk in 2007 so as to apply the pre-2007 method of calculating *specific risk*. The definition of *qualifying equity* also depends in part on the *standardised approach* to credit risk.

Definitions

- 8.32 R The definitions of trading book, non-trading book, commodity, financial institution, illiquid asset and material holding in the Glossary to chapter 10 of *IPRU(INV)* are replaced by the corresponding definitions in the *Glossary*.

Mapping GENPRU and BIPRU concepts onto IPRU

- 8.33 G Some of the parts of chapter 10 of *IPRU(INV)* that apply in 2007 refer to parts of *IPRU* that do not apply. *BIPRU* TP 3.10R explains that where this happens a *firm* should interpret that cross-reference in accordance with the provision in *BIPRU* or *GENPRU* that corresponds to the *IPRU* provision that does not apply in 2007. A *firm* should refer to *IPRU* in the case of cross-references in *GENPRU* and *BIPRU* to provisions in *GENPRU* and *BIPRU* that do not apply in 2007. *BIPRU* TP 8.34G sets out how certain concepts in chapter 10 of *IPRU(INV)* correspond to ones in *GENPRU* and *BIPRU*. The purpose of the table is to help *firms* to interpret such cross-references.
- 8.34 G Table: Mapping GENPRU and BIPRU concepts onto ones in chapter 10 of *IPRU(INV)*
This table belongs to *BIPRU* TP 8.33G

<i>GENPRU</i> and <i>BIPRU</i>	Chapter 10 of <i>IPRU(INV)</i>
Calculations of <i>counterparty risk capital component</i> and calculations under <i>BIPRU</i> 14 (Capital requirements for settlement and counterparty risk)	Calculation of CRR
<i>Illiquid asset</i>	Illiquid asset
Deduction from <i>capital resources</i> as an <i>illiquid asset</i>	100% liquidity adjustment
Calculation of the <i>credit risk capital component</i>	8% liquidity adjustment
<i>Concentration risk capital component</i>	LER
Unsettled transaction under <i>BIPRU</i> 14.3	Cash against documents (<i>IPRU(INV)</i> 10-171)
<i>Free deliveries</i> under <i>BIPRU</i> 14.4	Free deliveries (<i>IPRU(INV)</i> 10-172)
Calculation of <i>PRR</i> or of the <i>market risk capital requirement</i>	Calculation of <i>PRR</i> and the foreign exchange requirement
<i>Capital resources</i> calculations under <i>GENPRU</i> 2 Ann 4R	Financial resources calculation under table 10-62(2)A
<i>Capital resources</i> calculations under <i>GENPRU</i> 2 Ann 6R	Financial resources calculation under table 10-62(2)B
<i>Capital resources</i> calculations under <i>GENPRU</i> 2 Ann 5R respectively	Financial resources calculation under table 10-62(2)C
<i>Investment firm consolidation waiver</i>	Exemption from consolidated supervision
<i>Commodity extended maturity ladder approach</i>	Modified maturity ladder approach (relevant to the CRR calculation – see 10-174)
The table in <i>BIPRU</i> 7.8.28R (Net underwriting position reduction factors)	Table 27R of Appendix 7 (Net underwriting position reduction factors)
Consolidated supervision in accordance with <i>rules</i> 10-200 to 10-203 (see for example the reference in <i>rule</i> 10-192(1)(g))	Consolidated supervision under <i>BIPRU</i> 8 (Group risk – consolidation)

<i>GENPRU and BIPRU</i>	Chapter 10 of <i>IPRU(INV)</i>
<i>Initial capital</i>	Initial capital
<i>Tier one capital resources plus tier two capital resources after deductions (stage N of the capital resources table)</i>	Own funds
<i>Capital resources</i>	Financial resources (as referred to for example in <i>rule 10-74</i>)
Externally verified interim net profits and losses and partners' capital as referred to in <i>GENPRU 2.2.102R</i>	Interim profit and loss account (as referred to in <i>rule 10-74</i>)
<i>trading book concentration risk excess</i>	Excess D under <i>rule 10-194(3)</i>
<i>Risk weight</i>	Counterparty weight.

Firms using the IRB approach during 2007: General

- 8.35 R *BIPRU* TP 8.36G to *BIPRU* TP 8.38R only apply to a *firm* that is applying the *IRB approach* under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using *IPRU*.
- 8.36 G The effect of *BIPRU* TP 3.17G (Pre CRD capital requirements applying on a solo basis during 2007 for *firms* also using the *IRB approach*) is that neither the illiquid asset adjustment nor the CRR requirements of chapter 10 apply to an *exposure* to which the *firm* applies the *IRB approach*. The *IRB approach* requirements in *BIPRU* apply instead. The main requirements are listed in *BIPRU* TP 3.17G.
- 8.37 R A *firm* must apply *BIPRU* 7.2.45R - *BIPRU* 7.2.47R (Using internal ratings to calculate *specific risk* and treatment of *securitisations*) to calculate the *specific risk* portion of the *interest rate PRR* to the extent that the obligor or *exposure* in question comes within the scope of its *IRB permission*.
- 8.38 R The definitions of *qualifying debt security* and *qualifying equity* in the *Glossary* apply if the security or obligor in question comes within the scope of a *firm's IRB permission*.

- TP 9 Pre CRD capital requirements applying on a solo basis during 2007 and capital floors: Personal investment firms
- Application
- 9.1 R This section (except *BIPRU* TP 9.45R) applies to a *BIPRU* firm that:
- (1) is a *personal investment firm*; and
 - (2) is applying *BIPRU* TP 3.4R (Use of IPRU on a solo basis during 2007).
- 9.2 G *BIPRU* TP 9.45R applies to a *BIPRU* firm that:
- (1) is a *personal investment firm*; and
 - (2) applies *BIPRU* TP 2 (Capital floors for a firm using the IRB or AMA approaches).
- Purpose of this section
- 9.3 G *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a *firm* may apply the credit risk requirements of *IPRU* instead of the ones in *BIPRU*. For a *personal investment firm* this involves applying the credit risk requirements in chapter 13 of *IPRU(INV)*. This section explains how this is done. In particular this section explains:
- (1) which parts of chapter 13 should be treated as credit risk requirements for this purpose;
 - (2) what parts of chapter 13 apply during 2007 and what changes are made to chapter 13 for that purpose; and
 - (3) what changes are made to *GENPRU* and *BIPRU* to reflect the fact that chapter 13 applies in place of parts of *GENPRU* and *BIPRU*.
- 9.4 G This section also explains how the obligation in *BIPRU* TP 2 (Capital floors for a firm using the IRB or AMA approaches) is applied to a *personal investment firm*.
- Duration of transitional
- 9.5 R This section applies until 1 January 2008.
- Drafting approach in this section

- 9.6 G The purpose of *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of *BIPRU* and *GENPRU* should be in force from 1 January 2007. However a *firm* should be able to calculate the capital requirements for credit risk under *IPRU* and use the large exposures requirements in *IPRU*. This means that a *firm* should slot the credit risk requirements of chapter 13 of *IPRU(INV)* into the general requirements of *GENPRU* and *BIPRU*.
- 9.7 G The capital calculation for credit risk under *BIPRU* is made up of three elements, which are set out in *GENPRU* 2.1.51R (Calculation of the credit risk capital requirement). These are the *credit risk capital component*, the *counterparty risk capital component* and the *concentration risk capital component*. So the approach in *BIPRU* TP 9.6G involves finding equivalents for these three elements in chapter 13 where possible.
- 9.8 G The general approach to calculating the capital requirements for credit risk in *GENPRU* and *BIPRU* is to calculate the overall *credit risk capital requirement* (which is the sum of the three components listed in *BIPRU* TP 9.7G) – a monetary amount - and to compare it with *capital resources*, also a monetary amount. A *firm* calculating its *capital resources* may usually choose between deducting *illiquid assets* and *material holdings*. Only if it has a *waiver* from consolidated supervision need it deduct both.
- 9.9 G The drafting approach of chapter 13 to calculating the capital requirement for credit risk is different from the one in *GENPRU* and *BIPRU*. A *firm* calculates financial resources by adjusting the assets in the balance sheet, taking into account liabilities. Financial resources are then used to test compliance with an own funds test, an expenditure based requirement test and a net asset test. The equivalent of a credit risk charge in Chapter 13 is the deduction of an asset as an Illiquid Adjustment or the deduction of a portion of an asset calculated using the Counterparty Risk Adjustment. Both illiquid assets and material holdings in *credit institutions*, *investment firms* and *insurers* are deducted under Chapter 13.
- 9.10 G To make the *GENPRU* and *BIPRU* requirements compatible with chapter 13 for the purpose of *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007), this section takes the approach in *BIPRU* TP 9.11G to *BIPRU* TP 9.18G.
- 9.11 G The *illiquid assets* and *material holdings* provisions of *GENPRU* 2.2 (Capital resources) apply.
- 9.12 G The chapter 13 Illiquid Adjustment and the chapter 13 Counterparty Risk Adjustment are used to calculate the *BIPRU* credit risk charge for *non-trading book* items (called the *credit risk capital component*) and the *BIPRU* credit risk charge for *trading book* items (called the *counterparty risk capital component*).

- 9.13 G When this section requires a *firm* to apply an Illiquid Adjustment to an asset a *firm* should apply a credit risk charge to that asset equal to the amount of the Illiquid Adjustment under Chapter 13 and include that charge in the calculation of the total credit risk charge. The amount of that credit risk charge will generally be equal to the amount of that asset. This is equivalent to a deduction from capital. A *firm* should not apply an Illiquid Adjustment to the extent that the asset has already been included as an *illiquid asset* or *material holding* and deducted from *capital resources* under *GENPRU 2.2*.
- 9.14 G The Chapter 13 Position Risk Adjustment no longer applies. If a *firm* has a *trading book*, an item in the *trading book* that would have received a Position Risk Adjustment is subject to a capital charge under *BIPRU 7* (Market risk). An item in a *firm's non-trading book* that would have received a Position Risk Adjustment is subject under this section to an Illiquid Adjustment. A *firm* should approach its usual supervisory contact at the *FSA* if it believes that this treatment is disproportionate.
- 9.15 G When this section requires a *firm* to apply a Counterparty Risk Adjustment to an asset a *firm* should apply a credit risk charge to that asset equal to the amount of the Counterparty Risk Adjustment under Chapter 13 and include that charge in the calculation of the total credit risk charge. The amount of that credit risk charge will generally be equal to the amount of that asset multiplied by the percentage in Table 13.5.4B or 13.5.4C. A *firm* should not apply a Counterparty Risk Adjustment to the extent that the asset has already been included as an *illiquid asset* or *material holding* and deducted from *capital resources* under *GENPRU 2.2*.
- 9.16 G All *non-trading book* items are excluded under *IPRU(INV) 13.8*. This exclusion is incorporated in the calculations under this section as a credit risk charge of 100%. *IPRU(INV) 13.8* does not apply if the *firm* does not have a *trading book*.
- 9.17 G The calculation of the capital requirements for credit risk in *GENPRU* and *BIPRU* is based on applying a capital charge to the *firm's* assets. The credit risk charge in *GENPRU* and *BIPRU* in broad terms reflects the risk to a *firm* that it will suffer loss because its counterparties do not pay what they owe to the *firm*. Thus generally it is not necessary to continue the requirement in Table 13.5.4 to deduct liabilities. However it is still necessary to include other liabilities deducted as part of the calculation of financial resources under Chapter 13 if they are of the type listed in section 4 of Chapter BC of *IPRU(BANK)*. This is because the Directive provisions that allow pre-2007 credit risk requirements to be used during 2007 require a capital charge for this type of item. In practice it is unlikely that these items will be relevant to a *personal investment firm* except for guarantees.
- 9.18 G The chapter 13 Large exposure Adjustment is used to calculate the *concentration risk capital component*. This is only relevant to a *firm* with a *trading book*.

Parts of chapter 13 of IPRU(INV) that apply in 2007

- 9.19 R The parts of chapter 13 of *IPRU(INV)* that do and do not apply during the period that *BIPRU* TP 3.4R applies are set out in *BIPRU* TP 9.21R.
- 9.20 G The table in *BIPRU* TP 9.21R assumes that the *firm* is not applying the *IRB* approach. *BIPRU* TP 9.41R to *BIPRU* TP 9.44R deal with a *firm* that does apply the *IRB* approach.
- 9.21 R Table: Parts of chapter 13 of IPRU(INV) that apply in 2007
This table belongs to *BIPRU* TP 9.19R

Chapter 13 rule	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
13.1 (Application)	N	<i>BIPRU</i> TP 9.1R and <i>BIPRU</i> TP 9.2R apply instead
13.1.2 (General requirements)	N	
13.1.3 to 13.1.6 (Professional Indemnity insurance)	N	
13.1.7 to 13.1.9 (Notification)	N	
13.1.10 to 13.1.17 (Record keeping)	N	Applied in part under <i>BIPRU</i> TP 23 (Record keeping transitionals)
13.2 (Financial Resources Tests)	N	
13.3 (Financial Resources Test 1 – Own funds)	N	
13.4 (Financial resources Test 1A – Adjusted net current assets)	N	

Chapter 13 <i>rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
13.5.1R to 13.5.3AG (Expenditure-based Requirement)	N		
13.5.4 (Calculation of financial resources to meet Tests 1, 1A or 2)	Y		Only applies for the purpose of deciding whether Table 13.5.4(1) or Table 13.5.4(2) applies
13.5.4A (Obligation to identify trading book items and special adjustments)	Y		Does not apply to special adjustments that do not apply under this section
Part I of Tables 13.5.4(1) and (2) (Net assets requirement for firms in Category A): (Assets calculation)	Illiquid Adjustment	Y	See <i>BIPRU</i> TP 9.23R to <i>BIPRU</i> TP 9.26G
	Counterparty Risk Adjustment	Y	See <i>BIPRU</i> TP 9.23R to <i>BIPRU</i> TP 9.31G
	Position Risk Adjustment	N	If an <i>exposure</i> in the <i>non-trading book</i> would have been subject to a Position Risk Adjustment a <i>firm</i> must apply an Illiquid Adjustment to it.
	Large exposure Adjustment	Y	See <i>BIPRU</i> TP 9.34R

Chapter 13 <i>rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Part II of Tables 13.5.4(1) and (2) (Net assets requirement for firms in Category A): (Liabilities calculation)	Counterparty Risk Adjustments	Y See <i>BIPRU</i> TP 9.23R to <i>BIPRU</i> TP 9.31G
	Liabilities if they are listed in section 4 of Chapter BC of <i>IPRU(BANK)</i> and are in the <i>firm's non-trading book</i>	Y (1) This applies whether they are on or off balance sheet. (2) A <i>firm</i> must include liabilities under a credit derivative. (3) See <i>BIPRU</i> TP 9.23R
	Position Risk Adjustment	N If an <i>exposure</i> in the <i>non-trading book</i> would have been subject to a Position Risk Adjustment a <i>firm</i> must apply an Illiquid Adjustment to it.
	The rest	N
Table 13.5.4A (Position risk)	N	
Table 13.5.4B (Unsettled securities transactions)	N	See <i>BIPRU</i> TP 9.28R
Table 13.5.4C (Counterparty risk)	Y	See <i>BIPRU</i> TP 9.23R to <i>BIPRU</i> TP 9.31G
Table 13.5.4D (Over the counter derivatives)	Y	See <i>BIPRU</i> TP 9.26G and <i>BIPRU</i> TP 9.30R to <i>BIPRU</i> TP 9.31G
Table 13.5.4E (Foreign exchange risk)	N	

Chapter 13 <i>rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
13.5.5 to 13.5.5C (Subordinated debt)	N	
13.6 (Large exposures)	Y	See <i>BIPRU</i> TP 9.32R to <i>BIPRU</i> TP 9.34R
13.7 (Consolidated Supervision of Group Companies)	N	
13.8 (Trading book)	Table 13.8(1) (Definition of trading book)	N
	The rest	Y See <i>BIPRU</i> TP 9.23R and <i>BIPRU</i> TP 9.38R
13.9 to 13.9.12 (Financial resources tests for Category B firms)	N	
Glossary for chapter 13	Y	See <i>BIPRU</i> TP 9.38R

Categorisation

- 9.22 R Each *firm* is a Category A firm for the purposes of chapter 13 of *IPRU(INV)* as applied by *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) and this section.

How to use the chapter 13 Illiquid Adjustment and the Counterparty Risk Adjustment

- 9.23 R A *firm* must calculate the sum of the *credit risk capital component* and the *counterparty risk capital component* as being equal to the sum of the following:

- (1) the amount of the Illiquid Adjustments under chapter 13 of *IPRU(INV)* so far as they are in force under *BIPRU* TP 9.21R;

- (2) the amount of any *non-trading book* assets that would be excluded under *rule* 13.8.2 of chapter 13 of *IPRU(INV)* (exclusion of *non-trading book* items from financial resources calculations);
 - (3) the amount in relation to unsettled securities transactions (Cash against documents) specified in *BIPRU* TP 9.28R;
 - (4) the amount in relation to unsettled securities transactions (Free deliveries) specified in *BIPRU* TP 9.29R;
 - (5) the amount of the Counterparty Risk Adjustments under whichever is applicable of point 22 of Part II of Table 13.5.4(1) and point 22 of Part II of Table 13.5.4(2) of chapter 13 of *IPRU(INV)* (Liabilities adjustments relating to OTC derivatives for calculating financial resources);
 - (6) the amount of the other Counterparty Risk Adjustments under whichever is applicable of Part I of Table 13.5.4(1) and Part I of Table 13.5.4(2) of chapter 13 of *IPRU(INV)* (Assets adjustments for calculating financial resources); and
 - (7) the amount of any other liabilities under whichever is applicable of Part II of Table 13.5.4(1) and Part II of Table 13.5.4(2) of chapter 13 of *IPRU(INV)* but only to the extent provided by *BIPRU* TP 9.21R.
- 9.24 R A *firm* must not apply a credit risk charge to an *exposure* under *BIPRU* TP 9.23R to the extent that it has already been deducted as an *illiquid asset* or a *material holding* under *GENPRU* 2.2 (Capital resources).
- 9.25 R If it is necessary to distinguish between the *credit risk capital component* and the *counterparty risk capital component* a *firm* must allocate:
- (1) any amount calculated for an *exposure* in the *non-trading book* to the *credit risk capital component*; and
 - (2) any amount calculated for an *exposure* in the *trading book* to the *counterparty risk capital component*.
- 9.26 G A *firm* may still apply the netting provisions for OTC derivatives in chapter 13 even though the OTC derivative calculation is split between the *credit risk capital component* and the *counterparty risk capital component* under *BIPRU* TP 9.25R. The net amount should be allocated to the *credit risk capital component* if the gross value of the *non-trading book* derivatives is bigger and to the *counterparty risk capital component* if the gross value of the *trading book* derivatives is bigger.

Adjustments to the Counterparty Risk Adjustments calculations: General

- 9.27 G Broadly speaking the Directive transitional provisions that allow pre-2007 credit risk rules to be used in 2007 cover all credit risk rules. However the transitional provisions for *trading book* credit risk (Annex II of the *Capital Adequacy Directive*, which is implemented in *BIPRU* 14 (Capital requirements for settlement and counterparty risk)) is not quite as straightforward as that. In some cases pre-2007 requirements can be used. In others they cannot. The purpose of *BIPRU* TP 9.28R to *BIPRU* TP 9.31G is to reflect those cases in which the Directive requires the new requirements to apply from 1 January 2007.

Adjustments to the Counterparty Risk Adjustments calculations: Unsettled Securities Transactions

- 9.28 R (1) The calculation of the credit risk charge for unsettled securities transactions is based on the Counterparty Risk Adjustment for such transactions adjusted in accordance with this *rule*.
- (2) Subject to the rest of this *rule*, the amount of the credit risk charge is equal to the Counterparty Risk Adjustment under paragraphs (a) and (b) in the unsettled securities transactions sections of Table 13.5.4(1) or (2).
- (3) The credit risk charge applies where the *firm* is exposed to loss if the counterparty does not perform.
- (4) A *firm* must calculate the Counterparty Risk Adjustment for an unsettled securities transaction in the *trading book* under *BIPRU* 14.3 (Unsettled transactions) rather than under chapter 13 of *IPRU(INV)*.

Adjustments to the Counterparty Risk Adjustments calculations: Free deliveries

- 9.29 R (1) The calculation of the credit risk charge for a free delivery is based on the Counterparty Risk Adjustment for such transactions adjusted in accordance with this *rule*.
- (2) Subject to the rest of this *rule*, the amount of the credit risk charge is equal to the Counterparty Risk Adjustment under paragraphs (a) and (b) in the free delivery sections of Table 13.5.4(1) or (2).
- (3) A *firm* must include *foreign currency* and *commodity* for the purpose of *trading book* calculations.
- (4) The capital treatment in the table in *BIPRU* 14.4.3R (Capital treatment for free deliveries) applies for the purpose of *trading book* calculations. But when the capital treatment in that table is that the *firm* must treat the transaction as an *exposure*, the *firm* must calculate a credit risk charge equal to the amount in (2).

Adjustments to the Counterparty Risk Adjustments calculations: Derivative transactions

9.30 R A *firm* must treat a credit derivative in the *trading book* as a derivative to which paragraph 22 of Part II of Table 13.5.4(1), paragraph 22 of Part II of Table 13.5.4(2) and table 13.5.4D of chapter 13 of *IPRU(INV)* (Over the counter derivatives) apply.

9.31 G The capital treatment for a credit derivative set out in *BIPRU* 14.2.5R - *BIPRU* 14.2.8R (Capital treatment for credit derivatives) does not apply.

How to use the chapter 13 large exposure rules

9.32 R Section 13.6 of chapter 13 of *IPRU(INV)* (Large exposures) applies in place of *BIPRU* 10 (Concentration risk).

9.33 R The following adjustments are made to section 13.6 of chapter 13 of *IPRU(INV)* (Large exposures):

- (1) *BIPRU* 10.5.2R to *BIPRU* 10.5.5R (Capital resources for concentration risk purposes) apply in place of the definition of own funds that applies under section 13.6 of chapter 13 of *IPRU(INV)*;
- (2) *rule* 13.6.2B (Excess over EBR should not be excluded) does not apply; and
- (3) *BIPRU* 10.5.14R (Notification) applies instead of the notification requirement in 13.6.

9.34 R A *firm* must calculate its *concentration risk capital component* as being equal to the sum of the Large exposure Adjustments under whichever is applicable of Part I of Table 13.5.4(1) and Part I of Table 13.5.4(2) of chapter 13 of *IPRU(INV)* (Assets adjustments for calculating financial resources).

Specific risk calculations

9.35 R A *firm* must calculate the *specific risk* portion of the *interest rate PRR* in accordance with *BIPRU* TP 8.29R (Pre CRD interest rate *PRR* for *securities and futures firms*).

9.36 R Any reference to a *qualifying debt security* in a part of *BIPRU* that applies during 2007 must be interpreted in accordance with the definition in the Glossary to chapter 13 of *IPRU(INV)*. However *BIPRU* 7.2.50R (Must not apply *qualifying debt security* treatment to risky assets) also applies. Any reference to a *qualifying equity* in a part of *BIPRU* that applies during 2007 must be interpreted in accordance with the definition in the Glossary to chapter 10 of *IPRU(INV)*.

9.37 R The reason for *BIPRU* TP 9.35R and *BIPRU* TP 9.36R is that the calculation of the *specific risk* portion of the *interest rate PRR* under *BIPRU* 7 (Market risk) involves the use of the *standardised approach* to credit risk. The *specific risk rules* therefore need to be adjusted for a *firm* that is not using the *standardised approach* to credit risk in 2007 so as to apply the pre-2007 method of calculating *specific risk*. However chapter 13 does not distinguish between *specific risk* and *general market risk*. The nearest equivalent is in chapter 10 of *IPRU(INV)* (*Securities and futures firms*). The definition of *qualifying equity* also depends in part on the *standardised approach* to credit risk.

Definitions

9.38 R The definition of trading book is replaced with the definition in the *Glossary*. Section 13.8 of chapter 13 of *IPRU(INV)* (Trading book) and the definition in the *Glossary* to chapter 13 are amended accordingly.

Mapping GENPRU and BIPRU concepts onto IPRU

9.39 G Some of the parts of chapter 13 of *IPRU(INV)* that apply in 2007 refer to parts of chapter 13 that do not apply. *BIPRU* TP 3.10R explains that where this happens a *firm* should interpret that cross-reference in accordance with the provision in *BIPRU* or *GENPRU* that corresponds to the chapter 13 provision that does not apply in 2007. A *firm* should refer to *IPRU* in the case of cross-references in *GENPRU* and *BIPRU* to provisions in *GENPRU* and *BIPRU* that do not apply in 2007. *BIPRU* TP 9.40G sets out how certain concepts in chapter 13 of *IPRU(INV)* correspond to ones in *GENPRU* and *BIPRU*. The purpose of the table is to help *firms* to interpret such cross-references.

9.40 G Table: Mapping GENPRU and BIPRU concepts onto ones in chapter 13 of *IPRU(INV)*
This table belongs to *BIPRU* TP 9.39G

<i>GENPRU</i> and <i>BIPRU</i>	Chapter 13 of <i>IPRU(INV)</i>
See <i>BIPRU</i> TP 9.10G to <i>BIPRU</i> TP 9.17G	Illiquid Adjustment
See <i>BIPRU</i> TP 9.10G to <i>BIPRU</i> TP 9.17G	Counterparty Risk Adjustment
See <i>BIPRU</i> TP 9. 18G	Large exposure Adjustment
<i>Material holding</i>	The nearest equivalent is point 13 of Part I of Table 13.5.4(1) and (2) (All other assets)

<i>GENPRU</i> and <i>BIPRU</i>	Chapter 13 of <i>IPRU(INV)</i>
Unsettled transaction under <i>BIPRU</i> 14.3	Cash against documents
<i>Free deliveries</i> under <i>BIPRU</i> 14.4	Free deliveries
<i>Market risk capital requirement</i>	The Position Risk Adjustment and the Foreign Exchange Risk Adjustment
<i>Trading book concentration risk excess</i>	Excess X in Table 13.6.2(2)
A <i>firm</i> should use the <i>specific risk</i> portion of the relevant <i>PRR charge</i> under <i>BIPRU</i> 7 (Market risk) (subject to the other provisions of this section about specific risk) where Chapter 13 as applied by this section requires the <i>firm</i> to apply position risk discounts.	Position risk discounts (particularly relevant for the purposes of Table 13.6.2(2))
<i>Risk weight</i>	Where Chapter 13 requires an asset to be deducted from capital that is equivalent to applying a <i>risk weight</i> of 1250%. Applying the 1.6% adjustment under Table 13.5.4C is equivalent to applying a 20% <i>risk weight</i> under <i>BIPRU</i> together with the standard 8% <i>BIPRU</i> credit risk charge. The "NIL" adjustment under that table is equivalent to applying a 0% <i>risk weight</i> .

Firms using the IRB approach during 2007: General

- 9.41 R *BIPRU* TP 9.42G to *BIPRU* TP 9.44R only apply to a *firm* that is applying the *IRB approach* under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using *IPRU*.

- 9.42 G The effect of *BIPRU* TP 3.17G (Pre CRD capital requirements applying on a solo basis during 2007 for *firms* also using the *IRB approach*) is that the Counterparty Risk Adjustments do not apply to an *exposure* to which the *firm* applies the *IRB approach*. The *IRB approach* requirements in *BIPRU* apply instead. The main requirements are listed in *BIPRU* TP 3.17G. The same applies to the Illiquid Adjustments although *illiquid assets* or *material holdings* will still have to be deducted under *GENPRU* 2.2 (Capital resources).
- 9.43 R A *firm* must apply *BIPRU* 7.2.45R - *BIPRU* 7.2.47R (Using internal ratings to calculate *specific risk* and treatment of *securitisations*) to calculate the *specific risk* portion of the *interest rate PRR* to the extent that the obligor or *exposure* in question comes within the scope of its *IRB permission*.
- 9.44 R The definition of *qualifying debt security* and *qualifying equity* in the *Glossary* apply if the security or obligor in question comes within the scope of a *firm's IRB permission*.

Calculation of capital floors under *BIPRU* TP 2

- 9.45 R (1) This paragraph sets out how the obligation in *BIPRU* TP 2 (Capital floors for a firm using the *IRB* or *AMA* approaches) is applied to a *personal investment firm*.
- (2) A *firm* must apply Financial Resources Test 2 (Expenditure-based Requirement) for the periods specified in *BIPRU* TP 2 by multiplying the Expenditure-based Requirement by the percentage figure in *BIPRU* TP 2.8R or *BIPRU* TP 2.9R.
- (3) *BIPRU* TP 2 does not apply to Financial Resources Test 1 (Own funds) or Financial Resources Test 1A (Adjusted net current assets).

- TP 10 Pre CRD capital requirements applying on a consolidated basis during 2007
Application
- 10.1 R This section applies to a *firm* to which *BIPRU* 8 (Consolidation) applies.
Purpose
- 10.2 G This section sets out how *BIPRU* TP 3 - *BIPRU* TP 9 (Use of *IPRU* during 2007) are applied on a consolidated basis.
Duration of transitional
- 10.3 R *BIPRU* TP 10 applies until 1 January 2008.
Main rule
- 10.4 R A *firm* may apply *BIPRU* TP 3 to *BIPRU* TP 9 (Use of *IPRU* during 2007 on a solo basis) on a consolidated basis. Applying them on a consolidated basis means that *BIPRU* 8 (Group risk - Consolidation) is modified by applying the relevant parts of *BIPRU* TP 3 to *BIPRU* TP 9 (as defined in *BIPRU* TP 10.5R) in place of the corresponding *BIPRU* credit risk and other rules.
- 10.5 R (1) This rule sets out what the relevant parts of *BIPRU* TP 3 to *BIPRU* TP 9 (Use of *IPRU* during 2007 on a solo basis) are for the purposes of *BIPRU* TP 10.4R. The answer depends on the kind of *UK consolidation group* or *non-EEA sub-group* ("group") to which consolidated requirements are being applied.
- (2) If the group is a building society group as defined in *BIPRU* TP 1.7R, the relevant parts of *BIPRU* TP 3 to *BIPRU* TP 9 are those applicable to a *building society*.
- (3) If the group is a banking group as defined in *BIPRU* TP 1.7R, the relevant parts of *BIPRU* TP 3 to *BIPRU* TP 9 are those applicable to a *bank*.
- (4) If the group is an investment services group as defined in *BIPRU* TP 1.7R, the relevant parts of *BIPRU* TP 3 to *BIPRU* TP 9 are those applicable to the main *BIPRU investment firm* in that group. For these purposes the main *BIPRU investment firm* is identified in the same way as the "main *firm*" is identified under rule 14.4.2R(1) of chapter 14 *IPRU(INV)*.

- 10.6 G The application of *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) on a consolidated basis is not done by applying the relevant consolidation provisions in *IPRU*. *BIPRU* 8 (Group risk - Consolidation) still applies, as modified by this section. *BIPRU* TP 10.7G to *BIPRU* TP 10.12G summarise how *BIPRU* TP 3 works on a consolidated basis under this section assuming that the *firm* does not use the *IRB approach*.
- 10.7 G The consolidated credit risk charge (called the *consolidated credit risk requirement*) is normally calculated under *BIPRU* 8 by applying the solo *BIPRU* credit risk charges on a consolidated basis. Under this section the *IPRU* credit risk charges are applied instead, as modified by *BIPRU* TP 3 to *BIPRU* TP 9 (Use of *IPRU* during 2007 on a solo basis).
- 10.8 G Under this section the applicable *IPRU* large exposure requirements, as modified by *BIPRU* TP 3 to *BIPRU* TP 9, apply instead of the ones in *BIPRU* 10 (Concentration risk requirements). *BIPRU* TP 10.15R disapplies most of *BIPRU* 8.9 (Consolidated concentration risk requirements).
- 10.9 G A *firm* should calculate the *consolidated credit risk requirement* so far as it relates to the *concentration risk capital component* using the relevant *IPRU rules*. In particular a *firm* should not use the capital requirements of a regulator other than the *FSA* for this purpose.
- 10.10 G A *firm* should still base its capital resources calculation for consolidation purposes on *BIPRU* 8.6 (Consolidated capital resources) rather than using the *IPRU* capital resources calculations. In turn, *BIPRU* 8.6 is based on *GENPRU* 2.2 (Capital resources). This applies for consolidated concentration risk purposes as well.
- 10.11 G *BIPRU* 8.4 (CAD Article 22 groups and investment firm consolidation waiver) still applies.
- 10.12 G The calculation of consolidated capital requirements under *BIPRU* 8.7 (Consolidated capital resources requirements) depends in part on whether the group contains *banks*, *BIPRU limited activity firms* or *BIPRU limited license firms*. This continues to apply for the purpose of this section in addition to *BIPRU* TP 10.5R. So for instance, if a group contains only *BIPRU limited license firms* the consolidated capital requirements for the group are based on the capital requirements for *BIPRU limited license firms*. However in addition if, for example, the main *firm* (as defined in *BIPRU* TP 10.5R) is a *personal investment firm* the requirements for *BIPRU limited license firms* are modified in accordance with *BIPRU* TP 9 (Pre CRD capital requirements applying on a solo basis during 2007 and capital floors: Personal investment firms). The calculation of notional capital resources requirements under *BIPRU* 8.4.13R (Capital adequacy obligations relating to a CAD Article 22 group: Capital resources requirement) works in a similar way.

Consolidated capital resources requirement: Use of home state requirements for EEA firms

- 10.13 R A *firm* may, for the purposes of *BIPRU* TP 10.4R, use the solo financial resources requirement to which an *EEA firm* is subject in accordance with *BIPRU* 8.7.34R (Use of the solo requirements of another EEA competent authority) or the consolidated financial resources requirements of an *EEA competent authority* under *BIPRU* 8.7.37R (Use of the consolidated requirements of another EEA competent authority). However those requirements must be ones that apply under the *CRD implementation measures* for Articles 152(8) – (14) of the *Banking Consolidation Directive* and Article 50(1) of the *Capital Adequacy Directive* for the relevant *EEA State* (Pre CRD capital requirements applying during 2007).

Consolidated capital resources requirement: Use of home state requirements for third country undertakings

- 10.14 R (1) A *firm* may, for the purposes of *BIPRU* TP 10.4R, use the solo financial resources requirement of a *third country competent authority* in accordance with *BIPRU* 8.7.35R (Use of the solo requirements of a regulator outside the EEA) or the consolidated financial resources requirements of a *third country competent authority* under *BIPRU* 8.7.38R (Use of the consolidated requirements of a regulator outside the EEA) in accordance with the adjustments in this *rule*.
- (2) The list in *BIPRU* 8 Ann 6R (List of equivalent third country regulators) does not apply and instead:
- (a) if the *UK consolidation group* or *non-EEA sub-group* is a banking group or building society group as defined in *BIPRU* TP 1.7R (Classification of groups for certain consolidation rules), the list in Appendix D of chapter CS of *IPRU(BANK)* applies; and
 - (b) if the *UK consolidation group* or *non-EEA sub-group* is an investment firm group as defined in *BIPRU* TP 1.7R, the list in Appendix 57 of chapter 10 of *IPRU(INV)* applies.
- (3) The *firm* must apply the version of those requirements in force on 31 December 2006 or any later version that remains consistent with *EEA prudential sectoral legislation* for the *banking sector* or *investment services sector* in the form it was in on 31 December 2006.
- (4) The requirement in *BIPRU* 8.7.35R(2) and the last sentence of *BIPRU* 8.7.38R(2) (Requirement for calculation not to produce a lower figure than the *FSA's rules*) still applies.

Consolidated large exposures

- 10.15 R *A firm must apply the concentration risk requirements under BIPRU TP 3 to BIPRU TP 9 (Use of IPRU during 2007 on a solo basis) applicable to its UK consolidation group or non-EEA sub-group under BIPRU TP 10.4R as if it were a single undertaking. BIPRU 8.9.2R (Definition of consolidated capital resources for concentration risk purposes) applies for the purpose of this rule. BIPRU 8.9 (Consolidated concentration risk requirements) does not otherwise apply.*

- TP 11 IRB transitionals
- Application
- 11.1 R *BIPRU* TP 11 applies to a *BIPRU* firm that uses the *IRB* approach.
- Purpose
- 11.2 G *BIPRU* TP 11 implements Articles 154(2), (3) and (5) of the *Banking Consolidation Directive* and (in part) Article 17 of the *Capital Adequacy Directive*.
- Use requirement
- 11.3 R In accordance with Article 154(2) of the *Banking Consolidation Directive*, for a firm applying for the use of the *IRB* approach before 2010, the three years' use requirement prescribed in *BIPRU* 4.2.11R (Requirements concerning the experience requirement) is reduced to a period of one year until 31 December 2009.
- 11.4 R In accordance with Article 154(3) of the *Banking Consolidation Directive*, for a firm applying for the use of own estimates of *LGDs* and/or *conversion factors*, the three year use requirement prescribed in *BIPRU* 4.2.13R (Requirements concerning the experience requirement) is reduced to two years until 31 December 2008.
- 11.5 G The transitional period in *BIPRU* TP 11.3R rather than that in *BIPRU* TP 11.4R applies to *retail exposures*.
- Residential properties
- 11.6 R In accordance with Article 154(5) of the *Banking Consolidation Directive*, until 31 December 2010, the *exposure*-weighted average *LGD* for all *retail exposures* secured by residential properties and not benefiting from guarantees from central governments must not be lower than 10%.
- Expected loss
- 11.7 R *BIPRU* TP 11.3R to *BIPRU* TP 11.6R also apply for the purpose of *BIPRU* 14.2.18R and *BIPRU* 14.2.19R (Treatment of expected loss amounts under the *IRB* approach) and *GENPRU* 2.2.193R (Upper tier two capital: Surplus provisions).

- TP 12 Operational risk transitionals: small trading book
- Application
- 12.1 R Subject to *BIPRU* TP 12.2R, *BIPRU* TP 12 applies to a *BIPRU investment firm* that satisfies the following conditions:
- (1) it is a *full scope BIPRU investment firm*;
 - (2) it does not fall within the definition of *limited licence firm* or *limited activity firm* in *BIPRU* 1.1.11R to *BIPRU* 1.1.12R (Definitions of *limited licence firm* or *limited activity firm*);
 - (3) its total *trading book positions* never exceed 50 million Euro;
 - (4) the average number of its relevant employees during the financial year does not exceed 100; and
 - (5) the *firm* has a *waiver* that modifies *BIPRU* 6 (Operational risk) so as to require the *firm* to calculate its *ORCR* in accordance with *BIPRU* TP 12.
- 12.2 R *BIPRU* TP 12.12R to *BIPRU* TP 12.14G apply to any *firm* to which *BIPRU* 8 (Group risk – consolidation) applies.
- Purpose
- 12.3 G *BIPRU* TP 12 implements Article 46 of the *Capital Adequacy Directive*.
- Duration of transitional
- 12.4 R *BIPRU* TP 12 applies until 31 December 2011.
- Calculation of number of employees
- 12.5 R In calculating the average number of its relevant employees a *firm* must:
- (1) include all its *directors*, officers having executive responsibilities and *senior managers*;
 - (2) include all staff whose responsibilities include front office responsibilities in relation to activities that give rise to *positions* in the *trading book*;
 - (3) include all staff whose responsibilities include back office, compliance or risk management responsibilities in relation to activities that give rise to *positions* in the *trading book*;

- (4) include contractors of or *persons* seconded to the *firm* or carrying out functions for the *firm* who would be relevant employees if they were employed by the *firm*; and
- (5) take into account the methodology for calculating an average number of employees referred to in section 247(6) of the Companies Act 1985.

12.6 R A *firm* must have a written policy for identifying *persons* who are relevant employees for the purpose of *BIPRU* TP 12.5R.

Purpose of *BIPRU* TP 12.1R(2)

12.7 G The purpose of *BIPRU* TP 12.1R(2) is to exclude a *firm* that falls into the definition of *full scope BIPRU investment firm* because it has obtained a *waiver* or has a *Part IV permission* that enables it to calculate an *ORCR* instead of the *fixed overheads requirement* (see *BIPRU* 6.1.2G).

Reduction of the *ORCR*

12.8 R The *ORCR* of a *firm* to which this *rule* applies is the lower of:

- (1) the *ORCR* that would have applied but for this *rule*; and
- (2) 12/88 of the higher of the following:
 - (a) the sum of *credit risk capital requirement* and the *market risk capital requirement*; and
 - (b) the *fixed overheads requirement*, notwithstanding that the *fixed overheads requirement* does not apply.

12.9 R The fraction 12/88 in *BIPRU* TP 12.8R(2) increases in accordance with the table in *BIPRU* TP 12.10R.

12.10 R Table: Increase in 12/88 fraction
This table belongs to *BIPRU* TP 12.9R

Date on which increase takes effect	Fraction
1 January 2008	27/88
1 January 2009	42/88
1 January 2010	57/88
1 January 2011	72/88

Minimum capital requirement

- 12.11 R (1) A *firm* must have capital resources at least equal to the capital resources requirement that applies to it under whichever part of *IPRU* applies to the *firm* under *BIPRU* TP 1.4R.
- (2) A *firm* must calculate its capital resources for the purposes of this *rule* in accordance with the same part of *IPRU*.
- (3) The following provisions of *BIPRU* TP 2 (Capital floors for a firm using the IRB or AMA approaches) apply for the purposes of this *rule*:
- (a) *BIPRU* TP 2.14R to *BIPRU* TP 2.15G (Adjustments to the calculation of capital resources);
 - (b) *BIPRU* TP 2.18R to *BIPRU* TP 2.19G (CAD 1 model and VaR model);
 - (c) *BIPRU* TP 2.20R to *BIPRU* TP 2.21G (Individual capital guidance);
 - (d) *BIPRU* TP 2.22R to *BIPRU* TP 2.27G (How to apply *IPRU* for the purposes of the capital floor calculations); and
 - (e) *BIPRU* TP 2.29R (Solo consolidation and the capital floor calculations).

Consolidation

- 12.12 R A *firm* may only calculate the *consolidated operational risk requirement* with respect to its *UK consolidation group* or *non-EEA sub-group* in accordance with *BIPRU* TP 12 if the group in question satisfies the following conditions:
- (1) there is no *credit institution* in the group;
 - (2) the *consolidated capital resources requirement* of the group is calculated in accordance with stage 2 in *BIPRU* 8 Annex 5R (Consolidation requirements for a group containing a *CAD full scope firm*);
 - (3) the group meets the conditions in *BIPRU* TP 12.1R(3) and (4) applied on a consolidated basis; and
 - (4) the *firm* has a *waiver* that modifies *BIPRU* 8 (Group risk – consolidation) so as to require the *firm* to calculate its *consolidated operational risk requirement* in accordance with *BIPRU* TP 12.

Minimum consolidated capital requirement

- 12.13 R If a *firm* applies *BIPRU* TP 12.12R to its *UK consolidation group* or *non-EEA sub-group* it must apply *BIPRU* TP 12.11R to that group in accordance with *BIPRU* TP 2.31R to *BIPRU* TP 2.33G (Consolidated capital floors for a *firm* using the *IRB approach* or *AMA approach*).

Changes in a firm's business

- 12.14 G The *Capital Adequacy Directive* says that a *competent authority* may agree to reduce the capital floor implemented by *BIPRU* TP 12.11R and *BIPRU* TP 12.13R if such a reduction is prudentially justified by a reduction in the size of the *firm's* business. Those *rules* implement that option by requiring a *firm* to apply the *IPRU* requirements to its business as it changes over time.

- TP 13 Other operational risk transitionals
- Application
- 13.1 R *BIPRU* TP 13 applies to a *BIPRU* firm.
- Purpose
- 13.2 G *BIPRU* TP 13.3R implements Articles 155 of the *Banking Consolidation Directive* and Article 44 of the *Capital Adequacy Directive*.
- Relevant indicator
- 13.3 R Until 31 December 2012, a percentage of 15% applies to the business line "Trading and Sales" of a *firm* whose relevant indicator (as referred to in *BIPRU* 6.4.6R) for the business line "Trading and Sales" represents at least 50% of the total of the relevant indicators for all of the *firm's* business lines in accordance with *BIPRU* 6.4.6R to *BIPRU* 6.4.16R (Calculating the *ORCR* under the *standardised approach to operational risk*).
- Reduced operational risk charge in 2007
- 13.4 G *BIPRU* TP 3.21R (Reduced *ORCR* for a *firm* applying pre-CRD capital requirements in 2007) also contains a transitional rule about *operational risk*.
- Systems and controls in 2007
- 13.5 R A reference in *BIPRU* 6 (Operational risk) to *SYSC* 4 to 10 (referred to in this *rule* as the "common platform requirements") or a part of those requirements must be read as being to the corresponding provisions of *SYSC* 3. This *rule* ceases to have effect on 1 November 2007 or on any earlier date on which the *firm* elects to comply with the common platform requirements in accordance with *SYSC*.

TP 14 Market risk: VaR models

Application

14.1 R *BIPRU* TP 14 applies to a *BIPRU* firm that:

- (1) has had a *VaR model permission* since 1 January 2007; and
- (2) on 31 December 2006 calculated its capital requirements under *IPRU* using the *VaR model approach* (as then in force) under a *waiver* or (in the case of a firm to which *IPRU(BANK)* or *IPRU(BSOC)* applied) written *guidance* (a "written concession").

Purpose

14.2 G *BIPRU* TP 14 implements Article 47 of the *Capital Adequacy Directive*.

Duration of transitional

14.3 R *BIPRU* TP 14 applies until 31 December 2009 or any earlier date specified in the firm's *VaR model permission*.

Specific risk calculations for VaR models

14.4 R A firm may treat:

- (1) the *VaR specific risk minimum requirements* and the provisions about backtesting in relation to *specific risk* as being replaced by the provisions of the written concession referred to in *BIPRU* TP 14.1 relating to *specific risk*; and
- (2) the *incremental default risk charge* as being replaced by the provisions of that written concession relating to the calculation of capital requirements for *specific risk*.

- TP 15 Commodities firm transitionals: Exemption from capital requirements
- Application
- 15.1 R Subject to *BIPRU* TP 15.2R, *BIPRU* TP 15 applies to a *BIPRU investment firm*:
- (1) whose main business consists exclusively of the provision of investment services or investment activities in relation to the financial instruments set out in points 5, 6, 7, 9 and 10 of Section C of Annex I to the *MIFID*; and
- (2) to whom the *ISD* would not have applied if it had remained in force in the form it was in on 31 December 2006.
- 15.2 R *BIPRU* TP 15.13R to *BIPRU* TP 15.14G apply to any *firm* to which *BIPRU* 8 (Group risk – consolidation) applies.
- Purpose
- 15.3 G *BIPRU* TP 15 implements Article 48(1) of the *Capital Adequacy Directive*.
- Duration of exemption
- 15.4 R *BIPRU* TP 15 applies until 31 December 2010.
- 15.5 G If there are any modifications pursuant to paragraphs 2 and 3 of Article 48 of the *Capital Adequacy Directive* (European Commission review of prudential regime for exempt commodity firms), the *FSA* will revoke *BIPRU* TP 15 if the date of coming into force of the implementing measures in relation to those changes is before the date in *BIPRU* TP 15.4R.
- Exemption
- 15.6 R The provisions of *GENPRU* and *BIPRU* on capital requirements and *GENPRU* 1.2 (Adequacy of financial resources) do not apply to a *firm* to which *BIPRU* TP 15 applies. However *BIPRU* 10 (Concentration risk) continues to apply, including the *CNCOM*.
- 15.7 G If a *firm* meets the conditions in *BIPRU* TP 16 (Commodities firm transitionals: large exposures) it will be exempt from *BIPRU* 10 as well.
- 15.8 G An *exempt BIPRU commodities firm* (which is the name in the *Glossary* given to a *firm* with the benefit of the exemption in *BIPRU* TP 15.6R) may be subject to the requirements of Chapter 3 of *IPRU(INV)*. Details of which *exempt BIPRU commodities firm* are subject to those requirements can be found in Chapter 3 of *IPRU(INV)*.

15.9 G The table in *BIPRU* TP 15.10G provides an indication of which parts of *GENPRU* and *BIPRU* generally apply to an *exempt BIPRU commodities firm* and which parts in general do not apply. If a section is shown as not in general applying the table also identifies any significant aspects of that section that do apply.

15.10 G Table: Parts of *GENPRU* and *BIPRU* that apply to exempt *BIPRU* commodities firms
This table belongs to *BIPRU* TP 15.9G

<i>GENPRU</i> and <i>BIPRU</i> provisions	A Y denotes that the provision generally does apply An N denotes that generally it does not apply	Remarks
<i>GENPRU</i> TP (Transitional provisions)	Y	
<i>GENPRU</i> 1.1 (Application and scope)	Y	
<i>GENPRU</i> 1.2 (Adequacy of financial resources)	N	
<i>GENPRU</i> 1.3 (Valuation)	Y	
<i>GENPRU</i> 1.4 (Actions for damages)	Y	
<i>GENPRU</i> 1.5 (Application of <i>GENPRU</i> 1 to Lloyd's)	Not applicable as does not apply to <i>BIPRU firms</i>	
<i>GENPRU</i> 2.1 (Calculation of capital resources requirements)	N	

<i>GENPRU</i> and <i>BIPRU</i> provisions	A Y denotes that the provision generally does apply An N denotes that generally it does not apply	Remarks
<i>GENPRU</i> 2.2 (Capital resources)	Y	This applies for the purposes of <i>BIPRU</i> 10. If <i>BIPRU</i> 10 does not apply this does not apply either.
<i>GENPRU</i> 2.3 (Application of <i>GENPRU</i> 2 to Lloyd's)	Not applicable as does not apply to <i>BIPRU firms</i>	
<i>GENPRU</i> 3.1 (Cross sector groups)	Y	Only applies if the <i>firm</i> is a member of a <i>financial conglomerate</i>
<i>GENPRU</i> 3.2 (Third-country groups)	Y	Provisions about <i>financial conglomerate</i> only apply if the <i>firm</i> is a member of a <i>financial conglomerate</i> See remarks on <i>BIPRU</i> 8 for provisions about a <i>third country banking and investment group</i>
<i>BIPRU</i> TP (Transitional provisions)	Y	
<i>BIPRU</i> 1.1 (Application and scope)	Y	
<i>BIPRU</i> 1.2 (Definition of the trading book)	Y	
<i>BIPRU</i> 1.3 (Application for advanced approaches)	N	Provisions about <i>BIPRU</i> 2.1 and <i>BIPRU</i> 8 apply to the extent those parts of <i>BIPRU</i> apply. Otherwise does not apply.

<i>GENPRU</i> and <i>BIPRU</i> provisions	A Y denotes that the provision generally does apply An N denotes that generally it does not apply	Remarks
<i>BIPRU</i> 1.4 (Actions for damages)	Y	
<i>BIPRU</i> 2.1 (Solo consolidation)	Y	Applies for the purposes of <i>BIPRU</i> 10.
<i>BIPRU</i> 2.2 (Adequacy of financial resources)	N	
<i>BIPRU</i> 2.3 (Interest rate risk in the non-trading book)	N	
<i>BIPRU</i> 3 (Standardised approach to credit risk)	N	
<i>BIPRU</i> 4 (The IRB approach)	N	
<i>BIPRU</i> 5 (Credit risk mitigation)	N	
<i>BIPRU</i> 6 (Operational risk)	N	
<i>BIPRU</i> 7 (Market risk)	N	<i>BIPRU</i> 7.8.38R and <i>BIPRU</i> 7.3.39G (Risk management systems and controls) apply in theory although it is unlikely that a <i>firm</i> will be able to carry out these activities without losing the exemption in <i>BIPRU</i> TP 15.
<i>BIPRU</i> 8 (Group risk – consolidation)	Y	See <i>BIPRU</i> TP 15.13R to <i>BIPRU</i> TP 15.14G

<i>GENPRU</i> and <i>BIPRU</i> provisions	A Y denotes that the provision generally does apply An N denotes that generally it does not apply	Remarks
<i>BIPRU</i> 9 (Securitisation)	N	<i>BIPRU</i> 9.1.6R to <i>BIPRU</i> 9.1.8G (Risk systems) apply
<i>BIPRU</i> 10 (Concentration risk)	Y	If <i>firm</i> also qualifies for exemption under <i>BIPRU</i> TP 16 (Commodities firm transitionals: large exposures) <i>BIPRU</i> 10 does not apply except as described in <i>BIPRU</i> TP 16.7G
<i>BIPRU</i> 11 (Disclosure)	Y	
<i>BIPRU</i> 12	Chapter does not yet exist	
<i>BIPRU</i> 13 (Financial derivatives, SFTs and long settlement transactions)	N	
<i>BIPRU</i> 14 (Capital requirements for settlement and counterparty risk)	N	

15.11 G *SYSC* applies to an *exempt BIPRU commodities firm*.

Definitions

15.12 R The terms financial instrument, investment services and investment activities have the same meaning as they do in the *MIFID*.

Consolidation

- 15.13 R *BIPRU* TP 15 does not apply for the purposes of *BIPRU* 8 with respect to a firm's UK consolidation group or, as the case may be, non-EEA sub-group unless the following conditions are satisfied:
- (1) there is no *credit institution* in that group;
 - (2) each *investment firm* in the group meets the conditions in *BIPRU* TP 15.1R(1);
 - (3) each *investment firm* whose head office is in an *EEA State* satisfies the conditions in *BIPRU* TP 15.1R(2); and
 - (4) any *investment firm* whose head office is outside the *EEA* would have fallen into *BIPRU* TP 15.1R(2) if:
 - (a) its head office had been in an *EEA State*; and
 - (b) it had carried on all its business in the *EEA* and had obtained whatever authorisations for doing so were required under the *ISD* in the form that Directive was in on 31 December 2006.
- 15.14 G If an *exempt BIPRU commodities firm* is a member of a group that meets the conditions in *BIPRU* TP 15.13R, *BIPRU* 8 will not apply to the group. Chapter 14 of IPRU(INV) (Consolidation) applies instead.

- TP 16 Commodities firm transitionals: large exposures
- Application
- 16.1 R Subject to *BIPRU* TP 16.2R, *BIPRU* TP 16 applies to a *BIPRU investment firm* that satisfies the following conditions:
- (1) it satisfies the requirements in *BIPRU* TP 15.1R and it remains eligible to apply the treatment in *BIPRU* TP 15 (Commodities firm transitionals: Exemption from capital requirements);
 - (2) the *firm* provides investment services or investment activities related to the financial instruments listed in points 5, 6, 7, 9 and 10 of Section C of Annex I of the *MIFID*;
 - (3) the *firm* does not provide such investment services or undertake such investment activities for, or on behalf of, retail clients;
 - (4) breaches of the limits referred to in *BIPRU* TP 16.6R arise in connection with *exposures* resulting from contracts that are financial instruments as listed in (2) and relate to commodities or underlyings within the meaning of point 10 of Section C of Annex I of the *MIFID* and are calculated in accordance with *BIPRU* 13 (Financial derivatives, SFTs and long settlement transactions) or in connection with *exposures* resulting from contracts concerning the delivery of *commodities* or emission allowances; and
 - (5) it satisfies the requirements in *BIPRU* TP 16.8R.
- 16.2 R *BIPRU* TP 16.11R applies to any *firm* to which *BIPRU* 8 (Group risk – consolidation) applies.
- Purpose
- 16.3 G *BIPRU* TP 16 implements Article 45 of the *Capital Adequacy Directive*. The condition in *BIPRU* TP 16.1R(1) is in addition to the Directive conditions.
- Duration of transitional
- 16.4 R The treatment in *BIPRU* TP 16 is available until 31 December 2010.
- 16.5 G If there are any modifications consequent on the treatment of *large exposures*, pursuant to Article 119 of the *Banking Consolidation Directive*, the *FSA* will revoke *BIPRU* TP 16 if the date of coming into force of the implementing measures in relation to those changes is before the date in *BIPRU* TP 16.4R. If the *FSA* revokes *BIPRU* TP 15 it will also revoke *BIPRU* TP 16 at the same time.

Exemption

- 16.6 R (1) A *firm* may exceed the limits concerning *large exposures* in *BIPRU* 10.5.6R (25% limit), *BIPRU* 10.5.8R (800% limit), *BIPRU* 10.5.12R (500% limit) and *BIPRU* 10.5.13R (600% limit).
- (2) The *CNCOM* does not apply.
- 16.7 G Broadly speaking the effect of *BIPRU* TP 16.6R is that *BIPRU* 10 (Concentration risk) does not apply to a *firm* that meets the conditions in *BIPRU* TP 16.1R. However *BIPRU* 10.12 (Systems and controls and general) continues to apply.

Documented strategy

- 16.8 R A *firm* must have a documented strategy for managing and, in particular, for controlling and limiting risks arising from the concentration of *exposures*. The *firm* must notify the *FSA* of this strategy and all material changes to this strategy without delay. The *firm* must make appropriate arrangements to ensure a continuous monitoring of the creditworthiness of borrowers, according to their impact on concentration risk. These arrangements must enable the *firm* to react adequately and sufficiently promptly to any deterioration in that creditworthiness.
- 16.9 R Where a *firm* exceeds the internal limits set according to the strategy referred to in *BIPRU* TP 16.8R, it must notify the *FSA* without delay of the size and nature of the excess and of the *counterparty*.

Definitions

- 16.10 R The terms financial instrument, investment services and investment activities have the same meaning as they do in the *MIFID*.

Consolidation

- 16.11 R *BIPRU* TP 16 does not apply for the purposes of *BIPRU* 8 (Group risk – consolidation) with respect to a *firm's UK consolidation group* or, as the case may be, *non-EEA sub-group* unless the following conditions are satisfied:
- (1) the group satisfies the requirements in *BIPRU* TP 15.13 (Application of *BIPRU* TP 15 on a consolidated basis) and the *firm* remains eligible to apply the treatment in *BIPRU* TP 15.13 with respect to that *UK consolidation group* or, as the case may be, *non-EEA sub-group*;
 - (2) there is no *credit institution* in that group;
 - (3) each *investment firm* in the group meets the conditions in *BIPRU* TP 16.1R(2) and (3); and

- (4) the group meets the conditions in *BIPRU* TP 16.1R(4) to (5) applied on a consolidated basis.

- 17 Large exposures: Exemptions for intra-group exposures for banks and investment firms
- Application
- 17.1 R This section applies to a *BIPRU firm* other than a *building society*.
- Purpose
- 17.2 G This section deals with the exemption or partial exemption of intra-group *exposures* from large exposure limits. It exempts some intra-group *exposures*. It allows a *firm* to use certain of the intra-group exemptions in *IPRU* for others. In some cases those *IPRU* exemptions apply in a modified form.
- 17.3 G This section only applies to *exposures to concentration risk group counterparties*. This term broadly covers group members if they and the *firm* are subject to consolidated supervision by the *FSA*, another *EEA competent authority* or certain non-*EEA* regulators. The full definition can be found in the *Glossary*.
- Duration of transitional
- 17.4 R This section applies until 31 December 2009.
- General rule
- 17.5 R A *firm* may, to the extent permitted by this section, treat an *exposure* to a *concentration risk group counterparty* as exempt or partially exempt for the purposes of *BIPRU 10* (Concentration risk) or, if the *firm* applies *BIPRU TP 3* (Pre CRD capital requirements applying on a solo basis during 2007), the relevant part of *IPRU*.
- Effect of this section on intra-group concentration risk exemptions in *BIPRU 10*
- 17.6 R If a *firm* applies this section, *BIPRU 10.8* to *BIPRU 10.10* (Integrated groups) do not apply.
- 17.7 G The effect of *BIPRU TP 17.6R* is that a *firm* should not apply *BIPRU 10.8* to *BIPRU 10.10* (Integrated groups) to some *exposures to concentration risk group counterparties* and this section to others. The purpose of *BIPRU TP 17.6R* is that a *firm* should choose between treating intra-group *exposures* under the *BIPRU 10* integrated group regime and treating them under the *IPRU rules* but that it should not mix the two approaches.

- 17.8 G If a *firm* applies this section, *BIPRU* 10.7 (Treasury concession and intra-group securities financing transactions) continues to apply. However *BIPRU* 10.7 will not apply if the *firm* applies *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007).

Treatment of intra-group exposures

- 17.9 R If a *firm* applies this section it must allocate each *exposure* to its *concentration risk group counterparties* to one of the categories in the table in *BIPRU* TP 17.10R and apply the applicable treatment in that table to it.

- 17.10 R Table: Treatment for types of group counterparty
This table belongs to *BIPRU* TP 17.9R

Type of counterparty	Treatment
(1) <i>Exposure</i> to an <i>undertaking</i> that is a member of the <i>firm's UK integrated group</i>	Exempt
(2) <i>Exposure</i> to a domestic <i>concentration risk group counterparty</i> that is not a member of its <i>UK integrated group</i>	Not exempt or partially exempt unless an exemption outside this section is available
(3) An <i>exposure</i> to a foreign <i>concentration risk group counterparty</i>	Apply the treatment in the applicable part of the table in <i>BIPRU</i> TP 17.11R. If it does not qualify as exempt or partially exempt under that table then it is not exempt or partially exempt unless an exemption outside this section is available
A domestic <i>concentration risk group counterparty</i> means a <i>concentration risk group counterparty</i> that meets the condition in <i>BIPRU</i> 10.8.4R(4) (Establishment in the <i>United Kingdom</i>)	
A foreign <i>concentration risk group counterparty</i> means a <i>concentration risk group counterparty</i> that does not meet the condition in <i>BIPRU</i> 10.8.4R(4)	

17.11 R Table: Treatment of exposures to non-UK undertakings
This table belongs to *BIPRU* TP 17.10R

Category of <i>firm</i>	Treatment	Adjustments
<i>Bank</i>	Apply the treatment in <i>BIPRU</i> TP 17.15R	
<i>Investment management firm</i>	Treat <i>exposure</i> as exempt if it falls within paragraph (g) or (h) of the definition of exempt exposure in the Glossary to chapter 5 of <i>IPRU(INV)</i> Treat <i>exposure</i> as partially exempt if it falls within paragraph (c) of the definition of partially exempt exposure in the Glossary to chapter 5 of <i>IPRU(INV)</i>	Paragraph (g) of the definition of exempt exposure is adjusted by replacing the reference to the Second Consolidated Supervision Directive and Directive 93/6 (the old version of the <i>Capital Adequacy Directive</i>) with a reference to the <i>Banking Consolidation Directive</i> and the <i>Capital Adequacy Directive</i> .
<i>UCITS investment firm</i>	Same as for <i>investment management firm</i>	
<i>Securities and futures firm</i>	Treat <i>exposure</i> as exempt if it falls within <i>rules</i> 10-192(1)(g) or 10-192(1)(n) of chapter 10 of <i>IPRU(INV)</i> Treat <i>exposure</i> as partially exempt if it falls within <i>rule</i> 10-192(2)(c) of chapter 10 of <i>IPRU(INV)</i>	<i>Rule</i> 10-192(1)(g) of chapter 10 of <i>IPRU(INV)</i> is adjusted by replacing the reference to <i>rules</i> 10-200 to 10-203 of chapter 10 of <i>IPRU(INV)</i> with a reference to <i>BIPRU</i> 8 and the consolidation provisions of <i>BIPRU</i> TP.

Category of <i>firm</i>	Treatment	Adjustments
<i>Personal investment firm</i>	Treat <i>exposure</i> as exempt if it falls within item 11 in Table 13.6.2(1) of Chapter 13 of <i>IPRU(INV)</i> Treat <i>exposure</i> as exempt or partially exempt if it falls within item 15 in Table 13.6.2(1) of Chapter 13 of <i>IPRU(INV)</i>	
Note: A <i>firm</i> must apply any exemption or partial exemption in <i>IPRU</i> in accordance with the applicable <i>IPRU rule</i> .		

- 17.12 G The effect of *BIPRU* TP 17.9R to *BIPRU* TP 17.11R is that a *firm* may only apply the *IPRU* and other treatments in the table in *BIPRU* TP 17.11R to non-UK undertakings. An *exposure* to a UK undertaking is exempt if it is a member of the *firm's* UK integrated group. If the UK undertaking is not a member of the *firm's* UK integrated group no exemption is available even if an exemption would have been available under *IPRU*.
- 17.13 G If an *exposure* to a concentration risk group counterparty is not exempt or partially exempt under the table in *BIPRU* TP 17.10R or *BIPRU* TP 17.11R the exemptions in *BIPRU* 10.5 (Excess exposures in the trading book), *BIPRU* 10.6 (General exemptions) and *BIPRU* 10.7 (Treasury concession and intra-group securities financing transactions) may be available. *BIPRU* 10.8 to *BIPRU* 10.10 (Integrated groups) do not apply. However none of the exemptions in *BIPRU* 10 will apply if the *firm* applies *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007).
- 17.14 G *BIPRU* TP 1.3R explains whether a *BIPRU investment firm* is a securities and futures firm, an investment management firm or a personal investment firm.
- Exemption for banks
- 17.15 R An *exposure* of a bank coming within column 1 of row (3) of the table in *BIPRU* TP 17.10R is exempt if:
- (1) both the counterparty and the bank are in the same integrated banking group as defined in *BIPRU* TP 17.16R;
 - (2) both the counterparty and the bank are included within the scope of consolidation on a full basis with respect to the same UK consolidation group;
 - (3) the counterparty is not a member of that UK consolidation group in which no more than a participation is held;

- (4) *BIPRU* 8.2.1R (Main consolidation rule for UK consolidation groups) applies to the *firm* with respect to that *UK consolidation group*; and
- (5) *capital resources* are freely transferable between the *counterparty* and the *UK bank* referred to in *BIPRU* TP 17.16R(1).
- 17.16 R An integrated banking group means, in relation to a *firm*, a group of *undertakings* (the "potential integrated banking group") that satisfy the following conditions:
- (1) the potential integrated banking group is managed as an integrated banking business by a *UK bank*; and
- (2) the *UK bank* in (1) is the principal *bank* in the potential integrated banking group.
- 17.17 G An *undertaking* is included within the scope of consolidation of a group on a full basis as referred to in *BIPRU* TP 17.15R(2) if it is at the head of the group or if its assets and liabilities are taken into account in full as referred to in *BIPRU* 8.5.4R (Basis of inclusion of undertakings in consolidation).
- Notification
- 17.18 R A *firm* may not apply this section unless it has given one *Month's* prior notice to the *FSA* that it intends do so. That notice must specify which category of *firm* listed in the table in *BIPRU* TP 17.11R it belongs to.
- 17.19 R A *firm* need only give the *FSA* the notice required in *BIPRU* TP 17.18R once rather than with respect to each *exposure*.
- 17.20 R A *firm* may stop applying this section if it has given one *Month's* prior notice to the *FSA* that it intends to do so.
- 17.21 R If a *firm* stops applying this section it may start to apply it again if it notifies the *FSA* under *BIPRU* TP 17.18R that it intends to do so.
- 17.22 R A *firm* must notify the *FSA* if it becomes aware that any *exposure* that it has treated as exempt or partially exempt under this section has ceased to meet the conditions for that treatment.
- Combination of this section with *BIPRU* TP 3
- 17.23 R A *firm* may apply this section even if it also applies *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007). However such a *firm* may not apply the treatments in the table in *BIPRU* TP 17.11R but must instead apply the corresponding provisions in the part of *IPRU* that it is applying under *BIPRU* TP 3.

- 17.24 G The part of *IPRU(BANK)* that corresponds to *BIPRU* TP 17.15R is paragraph 2b) of part 3.1.1 of section 3 of Chapter CS as applied by Chapter LE for large exposures purposes.
- 17.25 G The reason for *BIPRU* TP 17.23R is that *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) already allows a *firm* to use the *IPRU* exemptions and partial exemptions listed in the table in *BIPRU* TP 17.11R so it is not necessary to give the *firm* an additional right to apply those treatments under this section.
- 17.26 G In general this section does not give any exemption that is not available under *IPRU*. However the exemption in row (1) of the table in *BIPRU* TP 17.10R (*exposures* within the *UK integrated group*) is not in *IPRU* although in practice a *firm* may find that the *IPRU* exemptions will cover most or all the things covered by the exemption in the table in *BIPRU* TP 17.10R.
- 17.27 G If row (2) of the table in *BIPRU* TP 17.10R (certain *exposures* to *UK counterparties*) treats an *exposure* as non-exempt a *firm* that applies *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) may still treat it as exempt if the relevant provisions of *IPRU* allow this.

Consolidation

- 17.28 G The application of this section on a consolidated basis is dealt with in *BIPRU* TP 19 (Large exposures: Exemptions for intra-group exposures on a consolidated basis).

- 18 Large exposures: Exemptions for intra-group exposures for building societies
- Application
- 18.1 R This section applies to a *building society*.
- 18.2 R This section does not apply to a *building society* that applies *BIPRU TP 3* (Pre CRD capital requirements applying on a solo basis during 2007).
- 18.3 G The reason for *BIPRU TP 18.2R* is that *BIPRU TP 18* reproduces (with amendments) part of the large exposures requirements of Volume 1 of *IPRU(BSOC)*. If a *firm* applies *BIPRU TP 3* (Pre CRD capital requirements applying on a solo basis during 2007) all the large exposure requirements of *IPRU(BSOC)* will apply. There is therefore no need to apply *BIPRU TP 18* in these circumstances.
- Purpose
- 18.4 G This section reproduces, with amendments, paragraphs 7.5.1 to 7.5.3 of Chapter 7 of volume 1 of *IPRU(BSOC)*. However it does not carry forward the 300% limit in paragraph 7.4.2(2) of that volume.
- Duration of transitional
- 18.5 R This section applies until 31 December 2009.
- General rule
- 18.6 R *BIPRU 10.5.6R* (25% exposure limit) does not apply to an *exposure* of a *building society* to a *subsidiary undertaking* of the *building society*. Instead the *building society* must ensure that:
- (1) the total amount of its *exposures* to any single *subsidiary undertaking* within the *building society's UK consolidation group* or to any sub-group of such *subsidiary undertakings* does not exceed 20% of its *capital resources*; and
 - (2) the total amount of its *exposures* to its *subsidiary undertakings* that are not within the *building society's UK consolidation group* does not exceed 20% of its *capital resources*.
- 18.7 G Exposures to *subsidiary undertakings* still count towards the overall limit of 800% of *capital resources* as set out in *BIPRU 10.5.8R* unless otherwise exempted.
- Effect of *BIPRU TP 18* on concentration risk exemptions in *BIPRU 10*

- 18.8 R *A building society* must choose between applying this section to all its *exposures* to its *subsidiary undertakings* or to none of them.
- 18.9 R If a *building society* applies this section, *BIPRU* 10.8 to *BIPRU* 10.10 (Integrated groups) do not apply.
- 18.10 G If a *firm* applies this section, *BIPRU* 10.7 (Treasury concession and intra-group securities financing transactions) continues to apply.
- Notification
- 18.11 R *BIPRU* TP 17.18R to *BIPRU* TP 17.22R (Notification) apply to this section as they do to *BIPRU* TP 17 (Large exposures: Exemptions for intra-group exposures for banks and investment firms).
- Consolidation
- 18.12 G The application of this section on a consolidated basis is dealt with in *BIPRU* TP 19 (Large exposures: Exemptions for intra-group exposures on a consolidated basis).

- 19 Large exposures: Exemptions for intra-group exposures on a consolidated basis
- Application
- 19.1 R This section applies to any *firm* to which *BIPRU* 8 (Group risk – consolidation) applies.
- Purpose
- 19.2 G The purpose of this section is to deal with how *BIPRU* TP 17 (Large exposures: Exemptions for intra-group exposures for banks and investment firms) and *BIPRU* TP 18 (Large exposures: Exemptions for intra-group exposures for building societies) are applied on a consolidated basis.
- Duration of transitional
- 19.3 R This section applies until 31 December 2009.
- General rule
- 19.4 R A *firm* may apply *BIPRU* TP 17 (Large exposures: Exemptions for intra-group exposures for banks and investment firms) and *BIPRU* TP 18 (Large exposures: Exemptions for intra-group exposures for building societies) on a consolidated basis with respect to a *UK consolidation group* or *non-EEA sub-group* for the purposes of *BIPRU* 8.9 (Consolidated concentration risk requirements). If a *firm* applies *BIPRU* TP 17 or *BIPRU* TP 18 on a consolidated basis, it must do so in the way set out in this section.
- Effect of this section on exemptions for intra-group exposures under *BIPRU* 8.9
- 19.5 R If a *firm* applies this section, *BIPRU* 8.9.8R to *BIPRU* 8.9.26R (Application of integrated groups policy on a consolidated basis) do not apply and a *firm* may not otherwise apply *BIPRU* 10.8 to *BIPRU* 10.10 (Integrated groups) on a consolidated basis.
- 19.6 G The purpose of *BIPRU* TP 19.5R is that a *firm* should choose between applying the *BIPRU* 8.9 integrated group regime to intra-group *exposures* or applying the regime in this section but that it should not mix the two approaches.

Parts of BIPRU TP 17 and BIPRU TP 18 that apply on a consolidated basis

- 19.7 R The table in *BIPRU* TP 19.8R sets out what parts of *BIPRU* TP 17 (Large exposures: Exemptions for intra-group exposures for banks and investment firms) and *BIPRU* TP 18 (Large exposures: Exemptions for intra-group exposures for building societies) are applied on a consolidated basis under *BIPRU* TP 19.4R. The answer depends on which of the categories in the first column of that table the *UK consolidation group* or *non-EEA sub-group* in question falls into.
- 19.8 R Table: Parts of *BIPRU* TP 17 and *BIPRU* TP 18 that apply on a consolidated basis
This table belongs to *BIPRU* TP 19.7R

Category of group	Applicable parts of <i>BIPRU</i> TP 17 and <i>BIPRU</i> TP 18	Remarks
Building society group	<i>BIPRU</i> TP 18 (Large exposures: Exemptions for intra-group exposures for building societies)	
Banking group	The provisions in <i>BIPRU</i> TP 17 (Large exposures: Exemptions for intra-group exposures for banks and investment firms) that apply to a <i>bank</i>	If the group is a <i>non-EEA sub-group</i> , the exemption in <i>BIPRU</i> TP 17.15R (Integrated banking groups) applies. If the group is a <i>UK consolidation group</i> , the exemption in <i>BIPRU</i> TP 17.15R does not apply.
Investment services group	The provisions in <i>BIPRU</i> TP 17 (Large exposures: Exemptions for intra-group exposures for banks and investment firms) that apply to the main <i>BIPRU investment firm</i>	Main <i>BIPRU investment firm</i> has the same meaning as it does in <i>BIPRU</i> TP 10.5R (Pre CRD capital requirements applying on a consolidated basis during 2007)
Note: The classes of group in the first column are defined in <i>BIPRU</i> TP 1.7R (Classification of groups for certain consolidation rules)		

19.9 G The reason that *BIPRU* TP 17.15R (Integrated banking groups) does not apply to a *UK consolidation group* is that *BIPRU* TP 17.15R requires the *firm* and the *counterparty* to be in the same *UK consolidation group*. The application of *BIPRU* TP 17.15R on a consolidated basis to a *UK consolidation group* would involve applying *BIPRU* TP 17.15R to *exposures* of members of the *UK consolidation group* to *counterparties* outside the *UK consolidation group*. Therefore the exemption in *BIPRU* TP 17.15R cannot apply to a *UK consolidation group*.

How this section applies to banking and investment services groups

- 19.10 R (1) If a *firm* applies *BIPRU* TP 17 (Large exposures: Exemptions for intra-group exposures for banks and investment firms) under this section it must do so in accordance with the principles in this *rule*.
- (2) A *firm* may only apply *BIPRU* TP 17 to *exposures* between members of its *UK consolidation group* or *non-EEA sub-group* and its *consolidation concentration risk group counterparties*.
- (3) A *firm* must treat each category of *exposure* in the first column of the table in *BIPRU* TP 19.11R in accordance with the corresponding treatment in the second column.

19.11 R Table: Treatment for types of group counterparty
This table belongs to *BIPRU* TP 19.10R

Type of <i>exposure</i>	Treatment
(A) <i>Exposures</i> meeting the following conditions: (a) the member of the group that has the <i>exposure</i> is a domestic <i>undertaking</i> and (b) the <i>exposure</i> is to a <i>consolidation concentration risk group counterparty</i> that qualifies for inclusion in the group's <i>consolidation UK integrated group</i>	Exempt
(B) The <i>exposure</i> is to a <i>consolidation concentration risk group counterparty</i> that meets the following conditions: (a) the <i>counterparty</i> is a domestic <i>undertaking</i> and (b) the <i>counterparty</i> does not meet the other conditions for inclusion in the group's <i>consolidation UK integrated group</i>	Not exempt or partially exempt unless an exemption outside this section is available

Type of <i>exposure</i>	Treatment
<p>(C) <i>Exposures</i> meeting either of the following conditions:</p> <p>(a) the <i>exposure</i> meets both the following conditions: (i) the member of the group that has the <i>exposure</i> is foreign and (ii) the <i>consolidation concentration risk group counterparty</i> qualifies for inclusion in the group's <i>consolidation UK integrated group</i>; or</p> <p>(b) the <i>exposure</i> is to a foreign <i>consolidation concentration risk group counterparty</i></p>	<p>Exempt if would be exempt under <i>BIPRU</i> 17.11R (Treatment of non-UK intra-group <i>exposures</i>)</p> <p>Partially exempt if would be partially exempt under <i>BIPRU</i> 17.11R</p> <p>Not exempt or partially exempt if would not qualify as exempt or partially exempt under <i>BIPRU</i> TP 17.11R unless an exemption outside this section is available</p>
<p>"Group" means the <i>UK consolidation group</i> or <i>non-EEA sub-group</i> in question</p>	
<p>An <i>undertaking</i> is a domestic <i>undertaking</i> if it meets the condition in <i>BIPRU</i> 10.8.4R(4) (Establishment in the <i>United Kingdom</i>)</p>	
<p>An <i>undertaking</i> is foreign if it does not meet the condition in <i>BIPRU</i> 10.8.4R(4)</p>	

- 19.12 G This section as it applies to banking groups and investment services groups (as defined in *BIPRU* TP 1.7R (Classification of groups for certain consolidation rules)) feeds back into the calculations in *BIPRU* 8.9 (Consolidated concentration risk requirements). So if an intra-group *exposure* is exempt under this section it is exempt for the purposes of *BIPRU* 8.9. Likewise, if an intra-group *exposure* is partially exempt under this section it is partially exempt for the purposes of *BIPRU* 8.9.
- 19.13 G (1) This paragraph describes the effect of *BIPRU* TP 19.11R
- (2) An *exposure* between a *UK* member of the group and a *UK counterparty* that meets the consolidated integrated group conditions in *BIPRU* 8.9.9R (Definition of *consolidation UK integrated group*) is exempt. Therefore this exemption is only available if both the group member and the counterparty are *UK undertakings*.
- (3) A *firm* may apply the *IPRU* treatments in the table in *BIPRU* TP 17.11R (Treatment of exposures to non-UK undertakings) to an *exposure* between an overseas member of the group and a *UK counterparty* that meets the consolidated integrated group conditions in *BIPRU* 8.9.9R.

- (4) A *firm* may also apply the *IPRU* and other treatments in the table in *BIPRU* TP 17.11R if the *counterparty* is foreign.
- (5) *Exposures* to *UK undertakings* that do not meet the consolidated integrated group conditions in *BIPRU* 8.9.9R are not exempt. Nor do they benefit from the exemptions and partial exemptions under *BIPRU* TP 17.11R.
- (6) The treatment in this paragraph only relates to *counterparties* who fall within the definition of *consolidation concentration risk group counterparty*.
- (7) In this paragraph "group" means the *UK consolidation group* or *non-EEA sub-group* in question.

- 19.14 G (1) A *consolidation concentration risk group counterparty* is defined in *BIPRU* 8.9.11R. It is the equivalent of a *concentration risk group counterparty* for the purposes of consolidation. Basically it means a *counterparty* that is not a member of the *UK consolidation group* or *non-EEA sub-group* but is a *parent undertaking* of a member of the *UK consolidation group* or *non-EEA sub-group* or a *subsidiary undertaking* of such a *parent undertaking*. It also includes a *subsidiary undertaking* of a member of the *UK consolidation group* or *non-EEA sub-group* that is not itself a member of the *UK consolidation group* or *non-EEA sub-group*.
- (2) The group and the *counterparty* should both be subject to consolidated supervision as part of a wider group by the *FSA*, another *EEA competent authority* or a *third country competent authority* that carries out consolidated supervision to equivalent standards. If this is not the case the *counterparty* is not a *consolidation concentration risk group counterparty*. *Exposures* to such a *counterparty* fall outside this section.
- (3) In this paragraph "group" means the *UK consolidation group* or *non-EEA sub-group*.

Integrated banking groups

- 19.15 G If *BIPRU* TP 17.15R (Integrated banking groups) applies on a consolidated basis, a *firm* may treat an *exposure* between a member of the *non-EEA sub-group* and a non-*UK counterparty* as exempt if the *counterparty* and the *non-EEA sub-group* are part of the same *UK consolidation group* and also part of the same integrated banking group. If the *counterparty* is set up in the *UK* the *exposure* will be exempt if it meets the conditions for inclusion in the group's *consolidation UK integrated group*, whether or not it meets the conditions in *BIPRU* TP 17.15R. If the *counterparty* is set up in the *UK* and does not meet the conditions for inclusion in the group's *consolidation UK integrated group*, there is no exemption, whether or not it meets the conditions in *BIPRU* TP 17.15R.

Building society groups

- 19.16 G If *BIPRU* TP 18 (Large exposures: Exemptions for intra-group exposures for building societies) applies on a consolidated basis to a *non-EEA sub-group* under this section there are two limits. Firstly the total amount of the *exposures* of the *non-EEA sub-group* to any single *subsidiary undertaking* in the *UK consolidation group* of which the *non-EEA sub-group* forms part or any sub-group of such *subsidiary undertakings* should not exceed 20% of the consolidated capital resources of the *non-EEA sub-group*. Secondly the total amount of the *exposures* of members of the *non-EEA sub-group* to *subsidiary undertakings* of the parent *building society* who are not part of the *UK consolidation group* should not exceed 20% of the consolidated capital resources of the *non-EEA sub-group*.
- 19.17 G If *BIPRU* TP 18 (Large exposures: Exemptions for intra-group exposures for building societies) applies on a consolidated basis to a *UK consolidation group* under this section the total amount of the *exposures* of the *UK consolidation group* to *subsidiary undertakings* of the parent *building society* who are not part of the *UK consolidation group* should not exceed 20% of the consolidated capital resources of the *UK consolidation group*. *Exposures* within the *UK consolidation group* are eliminated on consolidation in the usual way.
- 19.18 G The consolidated 25% exposure limit in *BIPRU* 8.9 (Consolidated concentration risk requirements) does not apply to *subsidiary undertakings* of the parent *building society* where the treatment described in *BIPRU* TP 19.16G or *BIPRU* TP 19.17G applies.

Notification

- 19.19 R *BIPRU* TP 17.18R to *BIPRU* TP 17.22R (Notification) apply to this section as they do to *BIPRU* TP 17. The notice referred to in *BIPRU* TP 17.18R must state what kind of group listed in *BIPRU* TP 1.7R (Classification of groups for certain consolidation rules) the *firm* belongs to rather than what category the *firm* falls into.

- TP 20 Standardised credit risk transitionals
- Application
- 20.1 R This section applies to a *BIPRU firm*.
- Days past due
- 20.2 R (1) This *rule* applies to an *exposure* in another *EEA State* of a type to which a *CRD implementation measure* in that *EEA State* for the first paragraph of Article 154(1) of the *Banking Consolidation Directive* (Transitional rule for days past due for claims on *PSEs* and *corporates* and *retail exposures*) applies.
- (2) If the number of days past due set under that *CRD implementation measure* is greater than the number in *BIPRU 3.4.96R* (Treatment of items past due for more than 90 days) that higher number applies.
- 20.3 R *BIPRU TP 20.2R* applies until 31 December 2011 or any earlier date on which the relevant *CRD implementation measure* ceases to apply.
- 20.4 G *BIPRU TP 20.2R* implements (in part) Article 154(1) of the *Banking Consolidation Directive*.
- Central government exposures
- 20.5 R Until 31 December 2012, a 0% *risk weight* applies to *exposures* to the central government of the *United Kingdom* and of the Bank of England denominated and funded in the currency of another *EEA State*.
- 20.6 R If the *CRD implementation measures* of another *EEA State* apply a 0% *risk weight* to *exposures* to its central government or *central bank* denominated and funded in the domestic currency of another *EEA State* a *firm* must *risk weight* such *exposures* in the same manner.
- 20.7 R *BIPRU TP 20.6R* applies until 31 December 2012 or any earlier date on which the relevant *CRD implementation measure* ceases to apply.
- 20.8 G *BIPRU TP 20.5R* to *BIPRU TP 20.7R* implements (in part) Article 153 of the *Banking Consolidation Directive*.

21 Close substitutes for commodities

Application

21.1 R This section applies to a *BIPRU firm* that on 31 December 2006 was applying the approach referred to in the first column of the table in *BIPRU TP 21.3R* with respect to particular grades or brands of the same *commodity*-class.

Commodities: close substitutes

21.2 R A notice given under the *IPRU* provision in the second column of the table in *BIPRU TP 21.3R* is treated as having been given under *BIPRU 7.4.23R* (Notice to the *FSA* about treatment of different grades or brands of the same *commodity*) for the purposes of *BIPRU 7.4.22R* (Treatment of different grades or brands of the same *commodity*) with respect to the *commodity* grades or brands referred to in *BIPRU TP 21.1R*.

21.3 R Table: Commodity treatments under *IPRU*
This table belongs to *BIPRU TP 21.2R*

<i>IPRU</i> provisions setting out <i>commodity</i> approach	<i>IPRU</i> provisions under which notice given
Paragraph 22(2) of appendix 6 of chapter 10 of <i>IPRU(INV)</i>	Paragraph 23 of appendix 6 of chapter 10 of <i>IPRU(INV)</i>
Paragraph 22(2) of chapter CM of <i>IPRU(BANK)</i>	Paragraph 23 of chapter CM of <i>IPRU(BANK)</i>

Explanation

21.3 G *BIPRU 7.4.22R(1)(b)* says that a *firm* should treat *positions* in different grades or brands of the same *commodity*-class as different *commodities* unless they are close substitutes and have price movements which have exhibited a stable correlation coefficient of at least 0.9 over the last 12 months. *BIPRU 7.4.23R* says that a *firm* should notify the *FSA* in writing at least 20 *business days* prior to the date the *firm* starts relying on this treatment. The purpose of this section is to allow a notice given under the corresponding provisions of chapter 10 of *IPRU(INV)* or *IPRU(BANK)* to continue to have effect without the *firm* having to serve a new notice under *BIPRU 7.4.23R*.

22 Solo consolidation

Application

22.1 R This section applies to a *BIPRU firm* that:

- (1) is a *bank* or *building society*; and
- (2) on 31 December 2006, was, in accordance with the provision of *IPRU* referred to in *BIPRU* TP 22.2R and in accordance with a concession (as defined in *BIPRU* TP 22.8R), solo-consolidating a *subsidiary undertaking*.

22.2 R The provisions of *IPRU* referred to in *BIPRU* TP 22.1R are:

- (1) (in the case of a *bank*) section 9 of chapter CS of *IPRU(BANK)*; and
- (2) (in the case of a *building society*) section 1.11 of chapter 1 of volume 1 of *IPRU(BSOC)*.

Deemed solo consolidation waiver

22.3 R A concession referred to in *BIPRU* TP 22.1R is treated as a *solo consolidation waiver* with respect to the *subsidiary undertaking* to which it relates if the *firm* notifies the *FSA* that the *firm* wishes to apply the treatment in *BIPRU* 2.1 (Solo consolidation) to that *subsidiary undertaking*.

Notice to the FSA

22.4 R The following requirements apply to a notice under *BIPRU* TP 22.3R:

- (1) the *firm* must give the *FSA* the notice on or after 1 June 2006 and on or before 29 December 2006;
- (2) the notice must contain details of the concession concerned;
- (3) the notice must give the name of the *subsidiary undertaking* concerned and say where it is incorporated and has its head office; and
- (4) the notice must say whether that *subsidiary undertaking* is a *body corporate* and state the legal form of that *subsidiary undertaking*.

Limitations

- 22.5 R Any condition, limitation or requirement to which a concession referred to in *BIPRU* TP 22.1R is subject continues to apply to the extent that it is compatible with *BIPRU*. In particular, if the concession was only for the purpose of large exposures it only has effect for the purposes of *BIPRU* 10 (Concentration risk) and if it was only for the purposes of capital adequacy it only has effect for the purposes of *GENPRU* 2.1.13R (Obligation to hold capital resources equal to or greater than the capital resources requirement) or *GENPRU* 2.1.60R (Calculation of base capital resources requirement for banks authorised before 1993).

Obligation to meet other qualifying conditions

- 22.6 R A *firm* with a deemed *solo consolidation waiver* under *BIPRU* TP 22.3R may not apply the treatment in *BIPRU* 2.1 (Solo consolidation) to the *subsidiary undertaking* concerned unless the conditions in *BIPRU* 2.1.12R and *BIPRU* 2.1.13R (Solo consolidation – Minimum standards) are met with respect to that *subsidiary undertaking*.

Notification of relevance etc of concession

- 22.7 R A *firm* which has the benefit of a concession that has effect under *BIPRU* TP 22.3R must notify the *FSA* immediately if it becomes aware of any matter which is material to the relevance or appropriateness of the concession.

Meaning of concession

- 22.8 R A concession means for the purposes of *BIPRU* TP 22:
- (1) a consent or approval by the *FSA* under the provisions of *IPRU(BANK)* or *IPRU(BSOC)* referred to in *BIPRU* TP 22.2R; and
 - (2) a concession also means for the purposes of *BIPRU* TP 22 a written concession as defined in *SUP* TP 1.4 (Grandfathering of concessions granted by the *FSA*'s predecessor regulators: rules in the Handbook) or *SUP* TP 1.2.6A (Grandfathering of concessions granted by the *FSA*'s predecessor regulators: guidance in the Handbook) that had effect for the purposes of the provisions of *IPRU(BANK)* or *IPRU(BSOC)* referred to in *BIPRU* TP 22.2R.
- 22.9 G *BIPRU* TP 22.8R(2) provides a mechanism for keeping in effect solo consolidation concessions granted by the Bank of England and the Building Societies Commission.

23 Record keeping transitionals

Application

23.1 R This section applies to a *BIPRU investment firm*.

Duration of transitional

23.2 R This section applies until 1 November 2007.

Continuing record keeping requirements

23.3 R A *firm* in the first column of the table in *BIPRU* TP 23.4R must comply with the *rules* in *IPRU(INV)* specified in the second column adjusted in accordance with *BIPRU* TP 23.5R.

23.4 R Table: List of IPRU reporting rules
This table belongs to *BIPRU* TP 23.3R

Type of <i>firm</i>	<i>IPRU(INV)</i> rules
<i>Investment management firm</i>	Rule 5.3.1 of chapter 5
<i>UCITS investment firm</i>	Rules 7.4.1(c) and 7.6.2 of chapter 7
<i>Securities and futures firm</i>	Rules 10-10, 10-11 and 10-12 of chapter 10
<i>Personal investment firm</i>	Rules 13..1.10 to 13.1.17 of chapter 13

Adjustments

23.5 R The adjustments referred to in *BIPRU* TP 23.3R are as follows:

- (1) a reference to a *firm's* financial resources requirements must be read as a reference to its obligations under *GENPRU* 2.1 (Calculation of capital resources requirement) and any capital resources requirement under *BIPRU* TP;
- (2) the terms *trading book* and *non-trading book* have the meanings in the *Glossary*; and
- (3) a reference to requirements in *IPRU(INV)* must be read as a reference to the requirements of *GENPRU* and *BIPRU* applicable to the *firm* concerned.

- 24 Mid market valuations
- Application
- 24.1 R This section applies to a *BIPRU firm*.
- Duration of transitional
- 24.2 R This section applies until 1 January 2008.
- Transitional rule
- 24.3 R When marking to market (see *GENPRU* 1.3.14R to *GENPRU* 1.3.16R (General requirements: Marking to market)) for the purposes of valuing a *trading book* item for the purpose of *BIPRU* 14 (Capital requirements for settlement and counterparty risk), a *firm* may choose between using the mid market value and the more prudent side of bid/offer whether or not the *firm* is a significant market maker in the item concerned. A *firm* must be consistent in the basis it chooses.

- 25 Exclusions from consolidation
- Application
- 25.1 R This section applies to a *firm* to which *BIPRU* 8 (Group risk – consolidation) applies.
- Duration of transitional
- 25.2 R This section applies until 1 January 2008. However *BIPRU* TP 25.8R continues in force until it is revoked.
- Transitional rule
- 25.3 R A *firm* may exclude a member of its *UK consolidation group* or *non-EEA sub-group* that would otherwise have been included under *BIPRU* 8.5 (Basis of consolidation) if, as at 31 December 2006, that member was excluded from the *firm's UK consolidation group* in accordance with any of the following:
- (1) bullet points one or three of paragraph 6 of section 4 of Chapter CS of *IPRU(BANK)* (exclusion from consolidation where inclusion would be inappropriate or misleading or where there are legal impediments to the transfer of information); or
 - (2) section 1.13 of Chapter 1 of Volume 1 of *IPRU(BSOC)* (exclusion of subsidiary undertakings where inclusion in the consolidation would be misleading or inappropriate); or
 - (3) *IPRU(INV)* 14.2.5R(2) (exclusion from consolidation where inclusion would be inappropriate or misleading); or
 - (4) any *waiver* from the consolidation provisions of Chapter 14 of *IPRU(INV)* or (in the case of *IPRU(BSOC)*) a written consent or approval by the *FSA* on the ground set out in indent one of Article 52(3) of the Directive 2000/12 (the previous version of the *Banking Consolidation Directive*) (exclusion from consolidation where there are legal impediments to the transfer of information).
- 25.4 R A *firm* may only apply *BIPRU* TP 25.3R to a member of its *UK consolidation group* or *non-EEA sub-group* if the *firm* or another member of its *UK consolidation group* notifies the *FSA* in writing that it intends to apply that *rule* to that member and the notice complies with the following requirements:
- (1) the *FSA* was notified on or after 1 November 2006 and on or before 29 December 2006;

- (2) the notice must give the name of the member concerned and say where it is incorporated and has its head office; and
- (3) the notice must say whether that member is a *body corporate* and state the legal form of that member.

Limitations

- 25.5 R Any condition, limitation or requirement to which the treatment in *BIPRU* TP 25.3R is subject continues to apply to the extent that it is compatible with *BIPRU*.

Obligation to meet other qualifying conditions

- 25.6 R A *firm* may only apply the treatment in *BIPRU* TP 25.3R if the conditions in whichever is applicable of Article 73(1)(a) (exclusion from consolidation where there are legal impediments to transfer of information) or Article 73(1)(c) (exclusion from consolidation where inclusion would be inappropriate or misleading) of the *Banking Consolidation Directive* continue to be satisfied.

Notification of relevance etc of concession

- 25.7 R A *firm* must notify the *FSA* immediately if it becomes aware of any matter which is material to the relevance or appropriateness of the continuance of the treatment in *BIPRU* TP 25.3R.

Small balance sheet size exclusion

- 25.8 R If a *firm* excluded a member of its *UK consolidation group* or *non-EEA subgroup* from the *firm's UK consolidation group* in accordance with:
- (1) bullet point two of paragraph 6 of section 4 of Chapter CS of *IPRU(BANK)* (exclusion from consolidation where combined balance sheet is below certain thresholds);
 - (2) *IPRU(INV)* 14.2.5R(1) (exclusion from consolidation where combined balance sheet is below certain thresholds); or
 - (3) a written consent or approval by the *FSA* under *IPRU(BSOC)* on the ground set out in indent two of Article 52(3) of the Directive 2000/12 (the previous version of the *Banking Consolidation Directive*) (exclusion from consolidation where combined balance sheet is below certain thresholds);

the *firm* need not notify the *FSA* under *BIPRU* 8.5.9R (exclusion from consolidation where combined balance sheet is below certain thresholds) as long as it has notified the *FSA* of its intention to take advantage of this *rule* and that notice complies with *BIPRU* TP 25.4R.

Prudential sourcebook for banks, building societies and investment firms (*BIPRU*)

Schedule 1

Record keeping requirements

G

1 The aim of the *guidance* in the following table is to give the reader a quick overall view of the relevant record keeping requirements.

2 It is not a complete statement of those requirements and should not be relied on as if it were.

3 Table

Handbook reference	Subject of Record	Contents of Record	When record must be made	Retention Period
<i>BIPRU 2.2.5G</i>	<i>Firm's ICAAP</i>	<p>(1) The results of the <i>ICAAP</i></p> <p>(2) An explanation of the processes used</p> <p>(3) How the process is used internally and for what purpose</p> <p>(4) Internal governance</p> <p>(5) The main sources of risk to which the <i>firm</i> is exposed</p> <p>(6) How the <i>firm</i> is managing each of those risks</p>	Annually	Not specified

Handbook reference	Subject of Record	Contents of Record	When record must be made	Retention Period
		<p>(7) Details of stress and scenario testing that has been conducted</p> <p>(8) The rationale behind the chosen scenarios</p> <p>(9) The results of those scenario tests</p>

<i>BIPRU</i> 10.11.1R (1) and (4)	Intention to use the concession in <i>BIPRU</i> 10.7.1R, or <i>BIPRU</i> 10.7.4R or the <i>UK integrated groups</i> concession in <i>BIPRU</i> 10.8	Fact of intention	Intention to use <i>BIPRU</i> 10.7.1 R, or <i>BIPRU</i> 10.7.4, or <i>BIPRU</i> 10.8	One month prior to using the concessions in <i>BIPRU</i> 10.7.1 R or <i>BIPRU</i> 10.8 and <i>BIPRU</i> 10.8
<i>BIPRU</i> 10.11.1 (3)	Intention to stop applying <i>BIPRU</i> 10.7 or <i>BIPRU</i> 10.8	Fact of intention	Intention to stop using <i>BIPRU</i> 10.7.1 R, or <i>BIPRU</i> 10.7.4, or <i>BIPRU</i> 10.8	One month prior to using the concessions in <i>BIPRU</i> 10.7.1 R or <i>BIPRU</i> 10.7.4R or <i>BIPRU</i> 10.8
<i>BIPRU</i> 10.11.2R	<i>Exposure</i> being treated under <i>BIPRU</i> 10.7.1R or <i>BIPRU</i> 10.7.4R or <i>BIPRU</i> 10.8 or <i>BIPRU</i> 10.9 ceases	Fact or expectation of any exposure to which it has applied the	Awareness of situation	Not specified

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
	to meet the conditions for application of the relevant treatment	treatment ceases to meet the conditions for application of the relevant treatment		
<i>BIPRU</i> 10.12.6R	Artificial transfer, transaction or arrangement.	Fact of entry into a transfer, transaction or arrangement of the type mentioned in <i>BIPRU</i> 10.12.5R	Entry into an artificial transfer, transaction or arrangement	Not specified
<i>BIPRU</i> 13.2.2R	Counterparty risk <i>exposure</i> of non-standard type	Fact of <i>exposure</i> , <i>counterparty</i> involved, nature of the <i>exposure</i> and capital treatment adopted	Entry into non-standard <i>exposure</i>	Immediately
<i>BIPRU</i> 13.6.20R	Cessation to comply with requirements set out in <i>BIPRU</i> 13.6 for <i>CCR internal model method permission</i>	Plan for timely return to compliance or demonstration that the effect of non-compliance is immaterial	Ceasing to comply with requirements	Immediately

Prudential sourcebook for banks, building societies and investment firms (*BIPRU*)

Schedule 3

Fees and other requirement payments

G

There are no requirements for fees or other payments in *BIPRU*.

Prudential sourcebook for banks, building societies and investment firms (*BIPRU*)

Schedule 4

Powers exercised

G

1 The following powers and related provisions in the *Act* have been exercised by the *FSA* to make the rules in *BIPRU*:

- (1) section 138 (General rule-making power);
- (2) section 148(3) (modification or waiver of rules);
- (3) section 149 (Evidential provisions);
- (4) section 150(2) (Actions for damages); and
- (5) section 156 (General supplementary powers).

2 The following power in the *Act* has been exercised by the *FSA* to give *guidance* in *BIPRU*:

- (1) section 157(1) (Guidance).

Prudential sourcebook for banks, building societies and investment firms (*BIPRU*)

Schedule 5

Rights of action for damages

1. The table below sets out the rules in *BIPRU* contravention of which by an *authorised person* may be actionable under section 150 of the *Act* (Actions for damages) by a person who suffers loss as a result of the contravention.

2. If a "Yes" appears in the column headed "For private person", the rule may be actionable by a private person under section 150 (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001/2256)). A "Yes" in the column headed "Removed" indicates that the *FSA* has removed the right of action under section 150(2) of the *Act*. If so, a reference to the rule in which it is removed is also given.

3. The column headed "For other person" indicates whether the rule may be actionable by a person other than a private person (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of person by whom the rule may be actionable is given.

Chapter/ Appendix	Section/ Annex	Right of action under section 150		
		For private person	Removed	For other person
<i>All rules in BIPRU</i>		No	Yes – <i>BIPRU</i> 1.4.1R	No

Prudential sourcebook for banks, building societies and investment firms (*BIPRU*)

Schedule 6

Rules than can be waived

The rules in *BIPRU* may be waived by the *FSA* under section 148 of the *Act* (Modification or waiver of rules). However, if the *rules* incorporate requirements laid down in European directives, it will not be possible for the *FSA* to grant a *waiver* that would be incompatible with the *United Kingdom's* responsibilities under those directives. It therefore follows that if a *rule* in *BIPRU* contains provisions which derive partly from a directive, and partly not, the *FSA* will be able to consider a *waiver* of the latter requirements only, unless the directive provisions are optional rather than mandatory.

THE CRD (CONSEQUENTIAL AMENDMENTS) INSTRUMENT 2006

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
 - (2) section 141 (Insurance business rules);
 - (3) section 149 (Evidential provisions);
 - (4) section 150(2) (Actions for damages);
 - (5) section 156 (General supplementary powers);
 - (6) section 157(1) (Guidance);
 - (7) section 316(1) (Direction by Authority);
 - (8) section 340 (Appointment).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

Commencement

- C. This instrument comes into force as follows:
- (1) The following provisions come into force on 1 January 2007, except that the words “including the services and activities provided for in Section A and B of Annex I of the MIFID when referring to the financial instruments provided for in Section C of Annex I of that Directive” in the amendment to the definition of financial institution in Annex A do not take effect until 1 November 2007:

Annex A	Parts 1B, 2B and 3B
Annex D	Part 2
Annex E	Whole
Annex F	Whole
Annex H	Whole
Annex I	Part 2
Annex J	Part 2
Annex L	Parts 2 and 4
Annex O	Whole
Annex P	Part 2
Annex Q	Whole
Annex S	Whole
Annex T	Part 2

- (2) The remainder of this instrument comes into force on 31 December 2006.

Amendments to the handbook

- D. (1) The provisions of the Lloyd's sourcebook ("LLD") listed in column (1) of the Table in Annex R to this instrument are:
- (a) redesignated to form part of the Handbook of rules and guidance in accordance with the corresponding entry in column (2) of the Table in Annex R; and
 - (b) restated and amended so that they read as set out in this instrument, in the Annex specified in column (3) of Table 1 in Annex R.
- (2) Other provisions of LLD are deleted in accordance with paragraph 2 of Annex R.
- E. The modules of the Handbook listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2).

By order of the Board
23 November 2006

Annex A
Amendments to the Glossary

In this Annex, underlining indicates new text and striking through indicates deleted text.

Where entirely new definitions are inserted, or where definitions are deleted, these are not shown underlined or struck through.

Part 1A (New definitions taking effect on 31 December 2006)

Insert the following definitions in the appropriate alphabetical position in the Glossary:

<i>GENPRU</i>	the General Prudential sourcebook
<i>INSPRU</i>	the Prudential sourcebook for Insurers
<i>individual capital guidance</i>	<i>guidance</i> given to a <i>firm</i> about the amount and quality of capital resources that the <i>FSA</i> thinks the <i>firm</i> should hold under the <i>overall financial adequacy rule</i> as it applies on a solo level or a consolidated level.

Part 1B (New definitions taking effect on 1 January 2007)

Insert the following definitions in the appropriate alphabetical position in the Glossary:

ABCP internal assessment approach the method for calculating the *risk weighted exposure amount* for a *securitisation position* in relation to an *asset backed commercial paper programme* as set out in *BIPRU 9.12.20R*.

ABCP programme (for the purposes of *BIPRU 9 (Securitisation)*) an *asset backed commercial paper programme*.

advanced measurement approach one of the following:

- (a) the adjusted method of calculating the *operational risk capital requirement* set out in *BIPRU 6.5 (Operational risk: advanced measurement approaches)*;
- (b) (where the approach in (a) is being applied on a consolidated basis) the method in (a) as applied on a consolidated basis in accordance with *BIPRU 8 (Group risk - consolidation)*; or
- (c) when the reference is to the rules of or administered by a *regulatory body* other than the *FSA*, whatever corresponds to the approach in (a) or (b), as the case may be, under those rules.

advanced IRB approach one of the following:

- (a) (in relation to the *sovereign, institutional and corporate IRB exposure class*) the approach under the *IRB approach* under which a *firm* supplies its own estimates of *LGD* and *conversion factors*;
- (b) (where the approach in (a) is being applied on a consolidated basis) the method in (a) as applied on a consolidated basis in accordance with *BIPRU 8 (Group risk - consolidation)*; or
- (c) when the reference is to the rules of or administered by a *regulatory body* other than the *FSA*, whatever corresponds to the approach in (a) or (b), as the case may be, under those rules.

advanced prudential calculation approach one of the following:

- (a) the *IRB approach*; or
- (b) the *advanced measurement approach*; or

- (c) the *VaR model approach*; or
- (d) the *CAD 1 model approach*; or
- (e) the *master netting agreement internal models approach*; or
- (f) the *CCR internal model method*;

including, in each case, whatever corresponds to that approach under the rules of or administered by a *regulatory body* other than the *FSA*.

advanced prudential calculation approach permission

one of the following:

- (a) an *IRB permission*; or
- (b) an *AMA permission*; or
- (c) a *VaR model permission*; or
- (d) a *CAD 1 model waiver*; or
- (e) a *master netting agreement internal models approach permission*; or
- (f) a *CCR internal model method permission*.

alternative standardised approach

one of the following:

- (a) a version of the *standardised approach to operational risk* under which a *firm* uses different indicators for certain business lines as referred to in *BIPRU 6.4.19R* (The alternative standardised approach);
- (b) (where the approach in (a) is being applied on a consolidated basis) the method in (a) as applied on a consolidated basis in accordance with *BIPRU 8* (Group risk - consolidation); or
- (c) when the reference is to the rules of or administered by a *regulatory body* other than the *FSA*, whatever corresponds to the approach in (a) or (b), as the case may be, under those rules.

AMA

the *advanced measurement approach*.

AMA permission

an *Article 129 implementing measure*, a *requirement* or a *waiver* that requires a *BIPRU firm* or an *institution* to use the *advanced measurement approach to operational risk* on a solo basis or, if the context requires, a consolidated basis.

<i>appropriate PRA</i>	<p>(1) (in relation to a <i>position</i> treated under <i>BIPRU</i> 7.6 (Option PRR)) the percentage figure applicable to that <i>position</i> under the table in <i>BIPRU</i> 7.6.8R (Appropriate PRR);</p> <p>(2) (for any other purpose and in relation to a <i>position</i>) the <i>PRA</i> applicable to that <i>position</i> under <i>BIPRU</i> 7 (Market risk).</p>
<i>Article 129 implementing measure</i>	<p>any:</p> <p>(a) measure taken by the <i>FSA</i> under regulations 7-9 of the <i>Capital Requirements Regulations 2006</i>; or</p> <p>(b) corresponding measure taken by another <i>competent authority</i> to apply an <i>Article 129 permission</i> as referred to in the last paragraph of Article 129(2) of the <i>Banking Consolidation Directive</i>.</p>
<i>Article 129 permission</i>	a permission of the type referred to in Article 129(2) of the <i>Banking Consolidation Directive</i> (permission to apply the <i>IRB approach</i> , the <i>AMA approach</i> or the <i>CCR internal model method</i> on a consolidated basis) or Article 37(2) of the <i>Capital Adequacy Directive</i> (permission to apply the <i>VaR model approach</i> on a consolidated basis) excluding an <i>Article 129 implementing measure</i> .
<i>Article 129 procedure</i>	the procedure described in Article 129(2) of the <i>Banking Consolidation Directive</i> (permission to apply the <i>IRB approach</i> , the <i>AMA approach</i> or the <i>CCR internal model method</i> on a consolidated basis) or that applies under Article 37(2) of the <i>Capital Adequacy Directive</i> (permission to apply the <i>VaR model approach</i> on a consolidated basis) for the purpose of applying for and granting or refusing an <i>Article 129 permission</i> or the procedure for varying or revoking an <i>Article 129 permission</i> in accordance with the <i>Banking Consolidation Directive</i> or the <i>Capital Adequacy Directive</i> .
<i>Article 134 relationship</i>	<p>(in accordance with Article 134 of the <i>Banking Consolidation Directive</i>) a relationship of one of the following kinds:</p> <p>(a) where a <i>person</i> exercises a significant influence over one or more <i>persons</i>, but without holding a <i>participation</i> or other capital ties in these <i>persons</i> and without being a <i>parent undertaking</i> of these <i>persons</i>; or</p> <p>(b) where two or more <i>persons</i> are placed under single management other than pursuant to a contract or clauses of their memoranda or articles of association.</p>
<i>asset backed commercial paper programme</i>	(for the purposes of <i>BIPRU</i> 9 (Securitisation) and in accordance with Part 1 of Annex IX of the <i>Banking Consolidation Directive</i> (Securitisation definitions)) a programme of <i>securitisations</i> (within the meaning of paragraph (2) of the definition of securitisation) the securities issued by which predominantly take the form of commercial paper with an original maturity of one year or less.

<i>at the money</i>	(for the purposes of <i>BIPRU 7</i> (Market risk) and in relation to an <i>option</i> or <i>warrant</i>) the strike price of that <i>option</i> or <i>warrant</i> being equal to the current market value of the underlying instrument.
<i>backtesting exception</i>	(in <i>BIPRU 7.10</i> (Use of a value at risk model)) an exception (excluding a <i>specific risk backtesting exception</i>) arising out of backtesting a <i>VaR model</i> as more fully defined in <i>BIPRU 7.10.103R</i> .
<i>banking and investment services conglomerate</i>	a <i>financial conglomerate</i> that is identified in paragraph 4.3 of <i>GENPRU 3 Ann 1R</i> (Types of financial conglomerate) as a <i>banking and investment services conglomerate</i>
<i>banking and investment services sector</i>	(in relation to a <i>financial sector</i> in a <i>consolidation group</i> or a <i>financial conglomerate</i> and in accordance with <i>GENPRU 3.1</i> (Cross sector groups)), the <i>investment services sector</i> and the <i>banking sector</i> taken together
<i>basic indicator approach</i>	the approach to calculating the <i>ORCR</i> set out in <i>BIPRU 6.3</i> (Operational risk: Basic indicator approach)
<i>BIPRU</i>	the Prudential sourcebook for Banks, Building Societies and Investment Firms.
<i>BIPRU 50K firm</i>	has the meaning in <i>BIPRU 1.1.20R</i> (Types of investment firm: <i>BIPRU 50K firm</i>) which in summary is a <i>BIPRU investment firm</i> that satisfies the following conditions: <ul style="list-style-type: none"> (a) it satisfies the conditions in <i>BIPRU 1.1.19R(1)</i> (does not <i>deal on own account</i> or underwrite issues of <i>financial instruments</i> on a firm commitment basis) and <i>BIPRU 1.1.19R(3)</i> (offers one or more of certain specified services); (b) it does not hold clients' money or securities in relation to <i>investment services</i> it provides and it is not authorised to do so; and (c) it is not a <i>UCITS investment firm</i>.
<i>BIPRU 125K firm</i>	has the meaning in <i>BIPRU 1.1.19R</i> (Types of investment firm: <i>BIPRU 125K firm</i>) which in summary is a <i>BIPRU investment firm</i> that satisfies the following conditions: <ul style="list-style-type: none"> (1) it does not <i>deal on own account</i> or underwrite issues of <i>financial instruments</i> on a firm commitment basis; (2) it holds clients' money or securities in relation to <i>investment services</i> it provides or is authorised to do so; (3) it offers one or more of certain specified services; and (4) it is not a <i>UCITS investment firm</i>.

<i>BIPRU 730K firm</i>	has the meaning in <i>BIPRU</i> 1.1.21R (Types of investment firm: <i>BIPRU</i> 730K firm) which in summary is a <i>BIPRU investment firm</i> that is not a <i>UCITS investment firm</i> , a <i>BIPRU 50K firm</i> or a <i>BIPRU 125K firm</i> .
<i>BIPRU firm</i>	<p>has the meaning set out <i>BIPRU</i> 1.1.6 (The definition of a <i>BIPRU firm</i>), which is in summary a <i>firm</i> that is:</p> <ul style="list-style-type: none"> (a) a <i>building society</i>; or (b) a <i>bank</i>; or (c) a <i>full scope BIPRU investment firm</i>; or (d) a <i>BIPRU limited licence firm</i>; or (e) a <i>BIPRU limited activity firm</i>; <p>but excluding <i>firms</i> of the type listed in <i>BIPRU</i> 1.1.7R (Exclusion of certain types of <i>firm</i> from the definition of <i>BIPRU firm</i>).</p>
<i>BIPRU investment firm</i>	<p>has the meaning set out <i>BIPRU</i> 1.1.8R (Definition of a <i>BIPRU investment firm</i>), which is in summary one of the following types of <i>BIPRU firm</i>:</p> <ul style="list-style-type: none"> (a) a <i>full scope BIPRU investment firm</i>; or (b) a <i>BIPRU limited licence firm</i>; or (c) a <i>BIPRU limited activity firm</i>; <p>including a <i>UCITS investment firm</i> that is not excluded under <i>BIPRU</i> 1.1.7R (Exclusion of certain types of <i>firm</i> from the definition of <i>BIPRU firm</i>).</p>
<i>BIPRU limited activity firm</i>	<p>has the meaning in <i>BIPRU</i> 1.1.17R (Types of <i>BIPRU investment firm</i>), which is in summary a <i>limited activity firm</i> that meets the following conditions:</p> <ul style="list-style-type: none"> (a) it is a <i>firm</i>; and (b) its head office is in the <i>United Kingdom</i> and it is not otherwise excluded from the definition of <i>BIPRU firm</i> under <i>BIPRU</i> 1.1.7R (Exclusion of certain types of <i>firm</i> from the definition of <i>BIPRU firm</i>).
<i>BIPRU limited licence firm</i>	<p>has the meaning in <i>BIPRU</i> 1.1.17R (Types of <i>BIPRU investment firm</i>), which is in summary a <i>limited licence firm</i> that meets the following conditions:</p> <ul style="list-style-type: none"> (a) it is a <i>firm</i>; and

	(b) its head office is in the <i>United Kingdom</i> and it is not otherwise excluded from the definition of <i>BIPRU firm</i> under <i>BIPRU 1.1.7R</i> (Exclusion of certain types of <i>firm</i> from the definition of <i>BIPRU firm</i>).
<i>CAD 1 model</i>	a risk management model of the type described in <i>BIPRU 7.9</i> (Use of a CAD 1 model).
<i>CAD 1 model approach</i>	one of the following: <ul style="list-style-type: none"> (a) the approach to calculating part of the <i>market risk capital requirement</i> set out in <i>BIPRU 7.9</i> (Use of a CAD 1 model); (b) (where the approach in (a) is being applied on a consolidated basis) the method in (a) as applied on a consolidated basis in accordance with <i>BIPRU 8</i> (Group risk - consolidation); or (c) when the reference is to the rules of or administered by a <i>regulatory body</i> other than the <i>FSA</i>, whatever corresponds to the approach in (a) or (b), as the case may be, under those rules.
<i>CAD 1 model waiver</i>	a <i>waiver</i> that requires a <i>firm</i> to use the <i>CAD 1 model approach</i> on a solo basis or, if the context requires, a consolidated basis.
<i>CAD Article 22 group</i>	a <i>UK consolidation group</i> or <i>non-EEA sub-group</i> that meets the conditions in <i>BIPRU 8.4.9R</i> (Definition of a CAD Article 22 group).
<i>CAD full scope firm</i>	has the meaning set out <i>BIPRU 1.1.13R</i> (Types of investment firm: CAD full scope firm), which in summary is a <i>CAD investment firm</i> that is not a <i>limited activity firm</i> or a <i>limited licence firm</i> .
<i>CAD investment firm</i>	has the meaning set out <i>BIPRU 1.1.14R</i> (Types of investment firm: CAD investment firm), which in summary is an <i>investment firm</i> that is subject to the requirements imposed by the <i>ISD</i> (or which would be subject to that Directive if its head office were in an <i>EEA State</i>) but excluding a <i>bank</i> , a <i>building society</i> , an <i>ELMI</i> , a <i>credit institution</i> , a <i>local</i> and an <i>exempt CAD firm</i> .
<i>capital instrument</i>	(in <i>GENPRU</i> and <i>BIPRU</i> and in relation to an <i>undertaking</i>) any <i>security</i> issued by or loan made to that <i>undertaking</i> or any other investment in, or external contribution to the capital of, that <i>undertaking</i> .
<i>capital market-driven transaction</i>	(in accordance with point 2 of Part 1 of Annex VIII of the <i>Banking Consolidation Directive</i> (Eligible forms of credit risk mitigation)) any transaction giving rise to an <i>exposure</i> secured by collateral which includes a provision conferring upon the <i>person</i> with the <i>exposure</i> the right to receive margin frequently.
<i>capital resources gearing rules</i>	(1) (in relation to an <i>insurer</i>) <i>GENPRU 2.2.29R</i> , <i>GENPRU 2.2.30R</i> and <i>GENPRU 2.2.32R</i> to <i>GENPRU 2.2.41R</i> .

	(2) (in relation to an <i>bank</i> or <i>building society</i>) <i>GENPRU 2.2.29R, GENPRU 2.2.30R, GENPRU 2.2.46R and GENPRU 2.2.49R.</i>
	(3) (in relation to an <i>BIPRU investment firm</i>) <i>GENPRU 2.2.30R, GENPRU 2.2.46R and GENPRU 2.2.49R to GENPRU 2.2.50R.</i>
<i>capital resources table</i>	(in relation to an <i>insurer</i> or <i>BIPRU firm</i>) the table specified in <i>GENPRU 2.2.19R</i> (Applicable capital resources calculation) which in summary is as follows: <ul style="list-style-type: none"> (1) (in the case of an <i>insurer</i>) <i>GENPRU 2 Annex 1R;</i> (2) (in the case of a <i>bank</i>) <i>GENPRU 2 Annex 2R;</i> (3) (in the case of a <i>building society</i>) <i>GENPRU 2 Annex 3R;</i> and (4) (in relation to a <i>BIPRU investment firm</i>) whichever of the tables in <i>GENPRU 2 Annex 4R, GENPRU 2 Annex 5R or GENPRU 2 Annex 6R</i> applies to the <i>firm</i> under <i>GENPRU 2.2.19R.</i>
<i>cash assimilated instrument</i>	(in accordance with Article 4(35) of the <i>Banking Consolidation Directive</i> (Definitions)) a certificate of deposit or other similar instrument issued by a <i>lending firm.</i>
<i>CCR</i>	<i>counterparty credit risk</i>
<i>CCR internal model method</i>	one of the following: <ul style="list-style-type: none"> (a) the method of calculating the amount of an <i>exposure</i> set out in <i>BIPRU 13.6</i> (CCR internal model method); (b) (where the approach in (a) is being applied on a consolidated basis) the method in (a) as applied on a consolidated basis in accordance with <i>BIPRU 8</i> (Group risk - consolidation); or (c) when the reference is to the rules of or administered by a <i>regulatory body</i> other than the <i>FSA</i>, whatever corresponds to the approach in (a) or (b), as the case may be, under those rules.
<i>CCR internal model method permission</i>	an <i>Article 129 implementing measure, Article 129 permission, a requirement</i> or a <i>waiver</i> that requires a <i>BIPRU firm</i> or an <i>institution</i> to use the <i>CCR internal model method.</i>
<i>CCR mark to market method</i>	the method of calculating the amount of an <i>exposure</i> set out in <i>BIPRU 13.4</i> (CCR mark to market method).
<i>CCR standardised method</i>	the method of calculating the amount of an <i>exposure</i> set out in <i>BIPRU 13.5</i> (CCR standardised method).

<i>central bank</i>	(in accordance with Article 4(23) of the <i>Banking Consolidation Directive</i> (Definitions) and for the purposes of <i>GENPRU</i> and <i>BIPRU</i>) includes the European Central Bank unless otherwise indicated.
<i>central counterparty</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) an entity that legally interposes itself between counterparties to contracts traded within one or more financial markets, becoming the buyer to every seller and the seller to every buyer.
<i>CFD</i>	<i>contract for differences</i> .
<i>CIU</i>	collective investment undertaking.
<i>CIU look through method</i>	one of the <i>standard CIU look through method</i> or the <i>modified CIU look through method</i> .
<i>CIU PRR</i>	the <i>collective investment undertaking PRR</i> .
<i>clean hypothetical profit and loss figure</i>	(in <i>BIPRU</i> 7.10 (Use of a value at risk model) and in relation to a <i>business day</i>) the <i>clean profit and loss figure</i> that would have occurred for that <i>business day</i> if the portfolio on which the <i>VaR number</i> for that <i>business day</i> is based remained unchanged, as more fully defined in <i>BIPRU</i> 7.10.111R (Backtesting: Hypothetical profit and loss).
<i>clean profit and loss figure</i>	(in <i>BIPRU</i> 7.10 (Use of a value at risk model) and in relation to a <i>business day</i>) a <i>firm's</i> actual profit or loss for that day in respect of the trading activities within the scope of the <i>firm's VaR model permission</i> , adjusted by stripping out specified items, as more fully defined in <i>BIPRU</i> 7.10.100R (Backtesting: Calculating the clean profit and loss).
<i>clean-up call option</i>	(for the purposes of <i>BIPRU</i> 9 (Securitisation), in relation to a <i>securitisation</i> (within the meaning of paragraph (2) of the definition of securitisation) and in accordance with Part 1 of Annex IX of the <i>Banking Consolidation Directive</i> (Securitisation definitions)) a contractual option for the <i>originator</i> to repurchase or extinguish the <i>securitisation positions</i> before all of the underlying <i>exposures</i> have been repaid, when the amount of outstanding <i>exposures</i> falls below a specified level.
<i>closely related</i>	(in <i>GENPRU</i> and <i>BIPRU</i>) describes a relationship between two or more <i>persons</i> under which one or more of the following applies: <ul style="list-style-type: none"> (a) the insolvency or default of one of them is likely to be associated with the insolvency or default of the others;

- (b) it would be prudent when assessing the financial condition or creditworthiness of one to consider that of the others; or
- (c) there is, or there is likely to be, a close relationship between the financial performance of those *persons*.

<i>CNCOM</i>	the <i>concentration risk capital component</i> .
<i>collective investment undertaking PRR</i>	the part of the <i>market risk capital requirement</i> calculated in accordance with <i>BIPRU 7.7.5R</i> (Calculation of the collective investment undertaking PRR).
<i>commodity extended maturity ladder approach</i>	the method of calculating the <i>commodity PRR</i> in <i>BIPRU 7.4.32R</i> (Extended maturity ladder approach).
<i>commodity maturity ladder approach</i>	the method of calculating the <i>commodity PRR</i> in <i>BIPRU 7.4.25R</i> (Maturity ladder approach).
<i>commodity PRR</i>	the part of the <i>market risk capital requirement</i> calculated in accordance with <i>BIPRU 7.4</i> (Commodity PRR) or, in relation to a particular <i>position</i> , the portion of the overall <i>commodity PRR</i> attributable to that <i>position</i> .
<i>commodity simplified approach</i>	the method of calculating the <i>commodity PRR</i> in <i>BIPRU 7.4.24R</i> (Simplified approach).
<i>concentration risk group counterparty</i>	(in accordance with Article 113(2) of the <i>Banking Consolidation Directive</i> (Limits on <i>large exposures</i>) and in relation to a <i>person</i>) a <i>parent undertaking</i> of the <i>person</i> , a <i>subsidiary undertaking</i> of the <i>person</i> or a <i>subsidiary undertaking</i> of the <i>person's parent undertaking</i> , provided that (in each case) both the counterparty and the <i>person</i> satisfy the condition in <i>BIPRU 3.2.27R</i> (Requirement to be subject to the same consolidation for the purposes of applying a zero <i>risk weight</i> to intra-group <i>exposures</i>).
<i>concentration risk capital component</i>	the part of the <i>credit risk capital requirement</i> calculated in accordance with <i>BIPRU 10.5.20R</i> (How to calculate the concentration risk capital component).
<i>connected counterparty</i>	(for the purpose of <i>BIPRU 10</i> (Concentration risk requirements) and in relation to a <i>firm</i>) has the meaning set out in <i>BIPRU 10.3.8R</i> (Connected counterparties), which is in summary a <i>person</i> to whom the <i>firm</i> has an <i>exposure</i> and who fulfils at least one of the conditions set out in <i>BIPRU 10.3.8R</i> .
<i>connected lending of a capital nature</i>	(in accordance with <i>GENPRU 2.2.222R</i> (Deductions from tiers one and two: Connected lending of a capital nature)) all lending within <i>GENPRU 2.2.227R</i> or <i>GENPRU 2.2.229R</i> and guarantees within <i>GENPRU 2.2.231R</i> or <i>GENPRU 2.2.233R</i> .

<i>consolidated capital resources</i>	(in relation to a <i>UK consolidation group</i> or a <i>non-EEA sub-group</i> and in <i>GENPRU</i> and <i>BIPRU</i>) that group's capital resources calculated in accordance with <i>BIPRU</i> 8.6 (Consolidated capital resources).
<i>consolidated capital resources requirement</i>	(in relation to a <i>UK consolidation group</i> or a <i>non-EEA sub-group</i> and in <i>GENPRU</i> and <i>BIPRU</i>) an amount of <i>consolidated capital resources</i> that that group must hold in accordance with <i>BIPRU</i> 8.7 (Consolidated capital resources requirement).
<i>consolidated credit risk requirement</i>	(in relation to a <i>UK consolidation group</i> or a <i>non-EEA sub-group</i> and in <i>GENPRU</i> and <i>BIPRU</i>) has the meaning in <i>BIPRU</i> 8.7 (Consolidated capital resources requirements) which is in summary the part of that group's <i>consolidated capital resources requirement</i> relating to credit risk calculated in accordance with <i>BIPRU</i> 8.7.11R (Calculation of the consolidated requirement components) and as adjusted under <i>BIPRU</i> 8.7.
<i>consolidated fixed overheads requirement</i>	(in relation to a <i>UK consolidation group</i> or a <i>non-EEA sub-group</i> and in <i>GENPRU</i> and <i>BIPRU</i>) has the meaning in <i>BIPRU</i> 8.7 (Consolidated capital resources requirements) which is in summary the part of that group's <i>consolidated capital resources requirement</i> relating to the fixed overheads requirement (as referred to Article 21 of the <i>Capital Adequacy Directive</i> and the definition of <i>fixed overheads requirement</i>) calculated in accordance with <i>BIPRU</i> 8.7.11R (Calculation of the consolidated requirement components) and as adjusted under <i>BIPRU</i> 8.7.
<i>consolidated indirectly issued capital</i>	has the meaning in <i>BIPRU</i> 8.6.12R (Indirectly issued capital and group capital resources), which is in summary any <i>capital instrument</i> issued by a member of a <i>UK consolidation group</i> or <i>non-EEA sub-group</i> where the conditions in <i>BIPRU</i> 8.6.12R are met.
<i>consolidated market risk requirement</i>	(in relation to a <i>UK consolidation group</i> or a <i>non-EEA sub-group</i> and in <i>GENPRU</i> and <i>BIPRU</i>) has the meaning in <i>BIPRU</i> 8.7 (Consolidated capital resources requirement) which is in summary the part of that group's <i>consolidated capital resources requirement</i> relating to <i>market risk</i> calculated in accordance with <i>BIPRU</i> 8.7.11R (Calculation of the consolidated requirement components) and as adjusted under <i>BIPRU</i> 8.7.
<i>consolidated operational risk requirement</i>	(in relation to a <i>UK consolidation group</i> or a <i>non-EEA sub-group</i> and in <i>GENPRU</i> and <i>BIPRU</i>) has the meaning in <i>BIPRU</i> 8.7 (Consolidated capital resources requirements) which is in summary the part of that group's <i>consolidated capital resources requirement</i> relating to <i>operational risk</i> calculated in accordance with <i>BIPRU</i> 8.7.11R (Calculation of the consolidated requirement components) and as adjusted under <i>BIPRU</i> 8.7.
<i>consolidated requirement component</i>	has the meaning in <i>BIPRU</i> 8.7.11R (Calculation of the consolidated requirement components), which in summary is one of the following:

	<ul style="list-style-type: none"> (a) the <i>consolidated credit risk requirement</i>; or (b) the <i>consolidated fixed overheads requirement</i>; or (c) the <i>consolidated market risk requirement</i>; or (d) the <i>consolidated operational risk requirement</i>.
<i>consolidation concentration risk group counterparty</i>	has the meaning in <i>BIPRU</i> 8.9.11R (UK integrated groups: Definition of consolidation concentration risk group counterparty).
<i>consolidation UK integrated group</i>	(with respect to a <i>UK consolidation group</i> or <i>non-EEA sub-group</i>) all <i>undertakings</i> falling into <i>BIPRU</i> 8.9.9R (UK integrated groups: Definition of consolidation UK integrated group) with respect to that <i>UK consolidation group</i> or <i>non-EEA sub-group</i> .
<i>consolidation wider integrated group</i>	(with respect to a <i>UK consolidation group</i> or <i>non-EEA sub-group</i>) all <i>undertakings</i> falling into <i>BIPRU</i> 8.9.19R (Wider integrated groups: Definition of wider integrated group) with respect to that <i>UK consolidation group</i> or <i>non-EEA sub-group</i> .
<i>contractual cross product netting agreement</i>	(for the purpose of <i>BIPRU</i> 13.7 (Contractual netting)) has the meaning set out in <i>BIPRU</i> 13.7.2R, which is in summary a written bilateral agreement between a <i>firm</i> and a counterparty which creates a single legal obligation covering all included bilateral master agreements and transactions belonging to different product categories.
<i>conversion factor</i>	(in accordance with Article 4(28) of the <i>Banking Consolidation Directive</i> (Definitions)) the ratio of the currently undrawn amount of a commitment that will be drawn and outstanding at default to the currently undrawn amount of the commitment; the extent of the commitment is determined by the advised limit, unless the unadvised limit is higher.
<i>convertible</i>	(for the purposes of <i>BIPRU</i>) a <i>security</i> which gives the investor the right to convert the <i>security</i> into a <i>share</i> at an agreed price or on an agreed basis.
<i>corporate</i>	(in relation to the <i>IRB approach</i> or the <i>standardised approach</i> to credit risk) a <i>person</i> an <i>exposure</i> to whom is a <i>corporate exposure</i> .
<i>corporate exposure</i>	<ul style="list-style-type: none"> (1) (in relation to the <i>IRB approach</i>) an <i>exposure</i> falling into <i>BIPRU</i> 4.3.2R(3) (IRB exposure classes). (2) (in relation to the <i>standardised approach</i> to credit risk) an <i>exposure</i> falling into <i>BIPRU</i> 3.2.9R(7) (Standardised approach to credit risk exposure classes).
<i>core market participant</i>	an entity of a type listed in <i>BIPRU</i> 5.4.64R (The financial collateral comprehensive method: Conditions for applying a 0% volatility adjustment).

<i>counterparty credit risk</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions)) the risk that the counterparty to a transaction could default before the final settlement of the transaction's cash flows.
<i>counterparty exposure</i>	(for the purposes of <i>BIPRU</i> 10 (Concentration risk requirements)) has the meaning in <i>BIPRU</i> 10.4.19R and <i>BIPRU</i> 10.4.20R (Definition of counterparty exposures).
<i>counterparty risk capital component</i>	the part of the <i>credit risk capital requirement</i> calculated in accordance with <i>BIPRU</i> 14.2.1R (Calculation of the counterparty risk capital component).
<i>covered bond</i>	<p>(1) (in accordance with Article 22(4) of the <i>UCITS Directive</i> and except for the purposes of the <i>IRB approach</i> or the <i>standardised approach</i> to credit risk) a bond that is issued by a <i>credit institution</i> which has its registered office in an <i>EEA State</i> and is subject by law to special public supervision designed to protect bondholders and in particular protection under which sums deriving from the issue of the bond must be invested in conformity with the law in assets which, during the whole period of validity of the bond, are capable of covering claims attaching to the bond and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest.</p> <p>(2) (in accordance with point 68 of Part 1 of Annex VI of the <i>Banking Consolidation Directive</i> (Exposures in the form of covered bonds) and for the purposes of the <i>IRB approach</i> or the <i>standardised approach</i> to credit risk) a covered bond as defined in (1) collateralised in accordance with <i>BIPRU</i> 3.4.107R (Exposures in the form of covered bonds).</p>
<i>CRD financial instrument</i>	has the meaning set out in <i>BIPRU</i> 1.2.7R to <i>BIPRU</i> 1.2.8R (CRD financial instruments), which is in summary any contract that gives rise to both a financial asset of one party and a financial liability or equity instrument of another party.
<i>CRD implementation measure</i>	(in relation to an <i>person</i> , a provision of the <i>Banking Consolidation Directive</i> or the <i>Capital Adequacy Directive</i> and an <i>EEA State</i> other than the <i>United Kingdom</i>) a measure implementing that provision of that Directive for that type of <i>person</i> in that <i>EEA State</i> .
<i>credit default swap PRR method</i>	the <i>ordinary credit default swap PRR method</i> or the <i>securitisation credit default swap PRR method</i> .

<i>credit enhancement</i>	(in accordance with Article 4(43) of the <i>Banking Consolidation Directive</i> (Definitions)) a contractual arrangement whereby the credit quality of a <i>position</i> in a <i>securitisation</i> (within the meaning of paragraph (2) of the definition of <i>securitisation</i>) is improved in relation to what it would have been if the enhancement had not been provided, including the enhancement provided by more junior <i>tranches</i> in the <i>securitisation</i> and other types of credit protection.
<i>credit quality assessment scale</i>	<p>the credit quality assessment scale:</p> <ol style="list-style-type: none"> (1) onto which the credit assessments of an export credit agency are mapped under the table in <i>BIPRU</i> 3.4.9R (Exposure for which a credit assessment by an export credit agency is recognised); or (2) published by the <i>FSA</i> in accordance with the <i>Capital Requirements Regulations 2006</i> which determines: <ol style="list-style-type: none"> (a) (in relation to a <i>eligible ECAI</i> whose recognition is for <i>risk weighting</i> purposes other than those in (2)(b)) with which of the <i>credit quality steps</i> set out in <i>BIPRU</i> 3.4 (Risk weights under the standardised approach to credit risk) the relevant credit assessments of a <i>recognised ECAI</i> are to be associated; or (b) (in relation to a <i>eligible ECAI</i> whose recognition is for <i>securitisation risk-weighting</i> purposes) with which of the <i>credit quality steps</i> set out in <i>BIPRU</i> 9 (Securitisation) the relevant credit assessments of the <i>recognised ECAI</i> are to be associated.
<i>credit quality step</i>	a credit quality step in a <i>credit quality assessment scale</i> as set out in <i>BIPRU</i> 3.4 (Risk weights under the standardised approach to credit risk) and <i>BIPRU</i> 9 (Securitisation).
<i>credit risk capital component</i>	the part of the <i>credit risk capital requirement</i> calculated in accordance with <i>BIPRU</i> 3.1.5R (Calculation of the credit risk capital component).
<i>credit risk capital requirement</i>	the part of the <i>capital resources requirement</i> of a <i>BIPRU firm</i> in respect of credit risk, calculated in accordance with <i>GENPRU</i> 2.1.51R (Calculation of the credit risk capital requirement).
<i>credit risk mitigation</i>	(in accordance with Article 4(30) of the <i>Banking Consolidation Directive</i> (Definitions)) a technique used by an <i>undertaking</i> to reduce the credit risk associated with an <i>exposure</i> or <i>exposures</i> which the <i>undertaking</i> continues to hold.
<i>credit valuation adjustment</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions)) an adjustment to the mid-market valuation of the portfolio of transactions with a counterparty; and so that this adjustment:

	(a)	reflects the market value of the credit risk due to any failure to perform on contractual agreements with a counterparty; and
	(b)	may reflect the market value of the credit risk of the counterparty or the market value of the credit risk of both the <i>firm</i> and the counterparty.
<i>CRM eligibility conditions</i>	(1)	(in relation to the <i>standardised approach</i> to credit risk), <i>BIPRU 5.3.1R-BIPRU 5.3.2R, BIPRU 5.4.1R-BIPRU 5.4.8R, BIPRU 5.5.1R, BIPRU 5.5.4R, BIPRU 5.5.8R, BIPRU 5.6.1R</i> and <i>BIPRU 5.7.1R-BIPRU 5.7.4R</i> ; or
	(2)	(in relation to the <i>IRB approach</i>), the provisions in (1) and <i>BIPRU 4.4.83R, BIPRU 4.10.R-BIPRU 4.10.7R, BIPRU 4.10.9R, BIPRU 4.10.10R-BIPRU 4.10.12R, BIPRU 4.10.14R, BIPRU 4.10.16R, BIPRU 4.10.19R, and BIPRU 4.10.38R-BIPRU 4.10.39R.</i>
<i>CRM minimum requirements</i>	(1)	in relation to the <i>standardised approach</i> to credit risk); <i>BIPRU 5.2.9R-BIPRU 5.2.10R, BIPRU 5.3.3R, BIPRU 5.4.9R-BIPRU 5.4.13R, BIPRU 5.5.2R, BIPRU 5.5.5R-BIPRU 5.5.6R, BIPRU 5.6.2R-BIPRU 5.6.3R, BIPRU 5.7.6R-BIPRU 5.7.14R</i> ; or
	(2)	(in relation to the <i>IRB approach</i>), the provisions in (1) and <i>BIPRU 4.4.85R, BIPRU 4.10.13R, BIPRU 4.10.15R, and BIPRU 4.10.18R-BIPRU 4.10.19R.</i>
<i>cross product netting</i>		(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU 13</i> (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the inclusion of transactions of different product categories within the same <i>netting set</i> pursuant to the <i>rules</i> about cross-product netting set out in <i>BIPRU 13</i> .
<i>current exposure</i>		(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU 13</i> (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the larger of zero, or the market value of a transaction or portfolio of transactions within a <i>netting set</i> with a counterparty that would be lost upon the default of the counterparty, assuming no recovery on the value of those transactions in bankruptcy.
<i>current market value</i>		(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU 13.5</i> (CCR standardised method)) the net market value of the portfolio of transactions within the <i>netting set</i> with the counterparty; both positive and negative market values are used in computing <i>current market value</i> .

<i>deal on own account</i>	(for the purposes of <i>GENPRU</i> and <i>BIPRU</i>) has the meaning in <i>BIPRU</i> 1.1.23R (Meaning of dealing on own account) which is in summary the service referred to in paragraph 2 of Schedule A to the Annex to the <i>ISD</i> , subject to the adjustments in <i>BIPRU</i> 1.1.23R(2) and (3) (Implementation of Article 5(2) of the <i>Capital Adequacy Directive</i>).
<i>default</i>	(in relation to the <i>IRB approach</i>) has the meaning in <i>BIPRU</i> 4.3 (The IRB approach: Provisions common to different exposure classes).
<i>designated committee</i>	<p>(in relation to a <i>firm</i>) a management body of the <i>firm</i> with delegated authority from the <i>firm's governing body</i> for approving either:</p> <ul style="list-style-type: none"> (a) (in relation to a <i>firm</i> that uses the <i>IRB approach</i>) all material aspects of the <i>firm's rating systems</i> and material changes to the <i>firm's rating systems</i>; or (b) (in relation to a <i>firm</i> that uses the <i>advanced measurement approach</i>) all material aspects of the <i>advanced measurement approach</i> as carried out by the <i>firm</i> and material changes to the <i>firm's advanced measurement approach</i>; and (c) a policy statement defining the <i>firm's</i> overall approach to material aspects of rating and estimation processes for all <i>rating systems</i> including non-material <i>rating systems</i> in relation to the <i>IRB approach</i>, or its overall approach to the <i>advanced measurement approach</i>, as relevant; <p>at least one of whose members is a member of the <i>firm's governing body</i>.</p>
<i>designated clearing house</i>	<p>one of the following <i>clearing houses</i>:</p> <ul style="list-style-type: none"> (a) ASX Settlement and Transfer Corporation Pty Ltd (ASTC); (b) Austrian Kontroll Bank (OKB); (c) Board of Trade Clearing Corporation; (d) Cassa di Compensazione e Garanzia S.p.A (CCG); (e) Commodity Clearing Corporation; (f) Emerging Markets Clearing Corporation; (g) FUTOP Clearing Centre (FUTOP Clearing Centralen A/S); (h) Hong Kong Futures Exchange Clearing Corporation Ltd; (i) Hong Kong Securities Clearing Company Ltd; (j) Kansas City Board of Trade Clearing Corporation;

- (k) Norwegian Futures & Options Clearing House (Norsk Opsjonsentral A.S. (NOS));
- (l) N.V. Nederlandse Liquidatiekas (NLKKAS);
- (m) OM Stockholm Exchange;
- (n) Options Clearing Corporation;
- (o) Options Clearing House Pty Ltd (OCH);
- (p) Sydney Futures Exchange Clearing House (SFECH Ltd); and
- (q) TNS Clearing Pty Ltd (TNSC).

dilution risk (in accordance with Article 4(24) of the *Banking Consolidation Directive* (Definitions)) the risk that an amount receivable is reduced through cash or non-cash credits to the obligor.

distribution of exposures (in accordance with Part 1 of Annex III of the *Banking Consolidation Directive* (Definitions) and for the purpose of *BIPRU* 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the forecast of the probability distribution of market values that is generated by setting forecast instances of negative net market values equal to zero.

distribution of market values (in accordance with Part 1 of Annex III of the *Banking Consolidation Directive* (Definitions) and for the purpose of *BIPRU* 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the forecast of the probability distribution of net market values of transactions within a *netting set* for some future date (the forecasting horizon), given the realised market value of those transactions up to the present time.

diverse block (for the purposes of *BIPRU* 8 (Group risk – consolidation) and *BIPRU* 10 (Concentration risk requirements)):

- (a) (in relation to a *firm* with a *wider integrated group permission* that applies on a solo basis) has the meaning in *BIPRU* 10.9.6R (Definition of diverse block) which is in summary all *undertakings* in the *wider integrated group* designated as a single *diverse block* by the applicable *wider integrated group permission*;

- (b) (in relation to a *firm* with a *wider integrated group permission* that applies on a consolidated basis) has the meaning in *BIPRU* 8.9.22R (Wider integrated groups: Definition of diverse block) which is in summary a group of *exposures* that satisfy specified eligibility conditions and that are to *undertakings* that are designated by the *wider integrated group permission* as being associated with the same *diverse block*.

<i>early amortisation provision</i>	(in accordance with Article 100 of the <i>Banking Consolidation Directive</i> (Securitisation of revolving exposures) and in relation to a <i>securitisation</i> within the meaning of paragraph (2) of the definition of securitisation) a contractual clause which requires, on the occurrence of defined events, investors' positions to be redeemed prior to the originally stated maturity of the securities issued.
<i>ECAI</i>	an external credit assessment institution.
<i>EE</i>	<i>expected exposure</i> .
<i>EEA parent financial holding company</i>	(in accordance with Article 4(17) of the <i>Banking Consolidation Directive</i> (Definitions) and Article 3 of the <i>Capital Adequacy Directive</i> (Definitions)) a <i>parent financial holding company in a Member State</i> which is not a <i>subsidiary undertaking</i> of an <i>institution</i> authorised in any <i>EEA State</i> or of another <i>financial holding company</i> set up in any <i>EEA State</i> .
<i>EEA parent institution</i>	(in accordance with Article 4(16) of the <i>Banking Consolidation Directive</i> and Article 2 of the <i>Capital Adequacy Directive</i> (Definitions)) a <i>parent institution in a Member State</i> which is not a <i>subsidiary undertaking</i> of another <i>institution</i> authorised in any <i>EEA State</i> , or of a <i>financial holding company</i> set up in any <i>EEA State</i> .
<i>effective EE</i>	<i>effective expected exposure</i> .
<i>effective EPE</i>	<i>effective expected positive exposure</i> .
<i>effective expected exposure</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions) and as at a specific date) the maximum <i>expected exposure</i> that occurs at that date or any prior date; alternatively, it may be defined for a specific date as the greater of the <i>expected exposure</i> at that date, or the <i>effective exposure</i> at the previous date.

<i>effective expected positive exposure</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions)) the weighted average over time of <i>effective expected exposure</i> over the first year, or, if all the contracts within the <i>netting set</i> mature before one year, over the time period of the longest maturity contract in the <i>netting set</i> , where the weights are the proportion that an individual <i>expected exposure</i> represents of the entire time interval.
<i>effective maturity</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions), for the purpose of the <i>CCR internal model method</i> and with respect to a <i>netting set</i> with maturity greater than one year) the ratio of the sum of <i>expected exposure</i> over the life of the transactions in the <i>netting set</i> discounted at the risk-free rate of return divided by the sum of <i>expected exposure</i> over one year in a <i>netting set</i> discounted at the risk-free rate; this effective maturity may be adjusted to reflect <i>rollover risk</i> by replacing <i>expected exposure</i> with <i>effective expected exposure</i> for forecasting horizons under one year.
<i>EL</i>	<i>expected loss</i> .
<i>eligible ECAI</i>	an <i>ECAI</i> : <ul style="list-style-type: none"> (a) (for <i>exposure risk weighting</i> purposes other than those in (b)) recognised by the <i>FSA</i> under regulation 22 of the <i>Capital Requirements Regulations 2006</i> (Recognition for exposure risk-weighting purposes); or (b) (for <i>securitisation risk weighting</i> purposes) recognised by the <i>FSA</i> under regulation 23 of the <i>Capital Requirements Regulations 2006</i> (Recognition for securitisation risk-weighting purposes).
<i>eligible partnership capital</i>	(in relation to a <i>BIPRU firm</i>) has the meaning in <i>GENPRU 2.2.93R</i> .
<i>EPE</i>	<i>expected positive exposure</i> .
<i>equity</i>	(for the purposes of <i>BIPRU 7</i>) a <i>share</i> .
<i>equity exposure</i>	(in relation to the <i>IRB approach</i>) an <i>exposure</i> falling into the <i>IRB exposure class</i> referred to in <i>BIPRU 4.3.2R(5)</i> (equity exposures).
<i>equity PRR</i>	the part of the <i>market risk capital requirement</i> calculated in accordance with <i>BIPRU 7.3</i> (Equity PRR and basic interest rate PRR for equity derivatives) but so that: <ul style="list-style-type: none"> (a) the <i>equity PRR</i> excludes the part of the <i>market risk capital requirement</i> calculated under <i>BIPRU 7.3.45R</i> (Basic interest rate PRR for equity derivatives); and (b) in relation to a particular <i>position</i>, it means the portion of the overall <i>equity PRR</i> attributable to that <i>position</i>.

<i>excess spread</i>	(for the purposes of <i>BIPRU</i> 9 (Securitisation), in relation to a <i>securitisation</i> (within the meaning of paragraph (2) of the definition of securitisation) and in accordance with Part 1 of Annex IX of the <i>Banking Consolidation Directive</i> (Securitisation definitions)) finance charge collections and other fee income received in respect of the <i>securitised exposures</i> net of costs and expenses.
<i>excess trading book position</i>	has the meaning in <i>GENPRU</i> 2.2.264R (Deductions from total capital: Excess trading book position).
<i>exempt BIPRU commodities firm</i>	a <i>BIPRU firm</i> to which the exemption in <i>BIPRU</i> TP 15.6R (Exemption for a <i>BIPRU firm</i> whose main business relates to <i>commodities</i>) applies.
<i>expected exposure</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the average of the distribution of <i>exposures</i> at any particular future date before the longest maturity transaction in the <i>netting set</i> matures.
<i>expected loss</i>	(in accordance with Article 4(29) of the <i>Banking Consolidation Directive</i> (Definitions) and for the purposes of the <i>IRB approach</i> and the <i>standardised approach</i> to credit risk) the ratio of the amount expected to be lost on an <i>exposure</i> from a potential <i>default</i> of a counterparty or dilution over a one year period to the amount outstanding at <i>default</i> .
<i>expected positive exposure</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the weighted average over time of <i>expected exposures</i> where the weights are the proportion that an individual <i>expected exposure</i> represents of the entire time interval; when calculating the minimum capital requirement, the average is taken over the first year or, if all the contracts within the <i>netting set</i> mature before one year, over the time period of the longest-maturity contract in the <i>netting set</i> .
<i>facility grade</i>	(in relation to the <i>advanced IRB approach</i> and the <i>sovereign, institutional and corporate IRB exposure class</i> and in accordance with <i>BIPRU</i> 4.4.49R) a risk category within a <i>rating system's</i> facility scale to which <i>exposures</i> are assigned on the basis of a specified and distinct set of rating criteria from which own estimates of <i>LGDs</i> are derived.
<i>financial collateral comprehensive method</i>	the method for calculating the effects of <i>credit risk mitigation</i> described in those parts of <i>BIPRU</i> 5.4 (Financial collateral) that are expressed to apply to that method.

<i>financial collateral simple method</i>	the method for calculating the effects of <i>credit risk mitigation</i> described in those parts of <i>BIPRU 5.4</i> (Financial collateral) that are expressed to apply to that method.
<i>financial derivative instrument</i>	has the meaning in <i>BIPRU 13.3.3R</i> (Definition of a financial derivative instrument); the definition is adjusted for the purposes of the definition of <i>counterparty risk capital component</i> in accordance with <i>BIPRU 14.2.3R</i> (Credit derivatives).
<i>fixed overheads requirement</i>	the part of the <i>capital resources requirement</i> calculated in accordance with <i>GENPRU 2.1.53R</i> (Calculation of the fixed overheads requirement).
<i>foreign currency PRR</i>	the part of the <i>market risk capital requirement</i> calculated in accordance with <i>BIPRU 7.5</i> (Foreign currency PRR) or, in relation to a particular <i>position</i> , the portion of the overall <i>foreign currency PRR</i> attributable to that <i>position</i> .
<i>forward</i>	a contract to buy or sell where the date for settlement has been agreed as a particular date in the future but excluding a <i>future</i> .
<i>forward rate agreement</i>	an agreement under which one party agrees to pay another an amount of interest based on an agreed interest rate for a specified period from a specified settlement date applied to an agreed principal amount but under which no commitment is made by either party to lend or borrow the principal amount.
<i>foundation IRB approach</i>	one of the following: <ul style="list-style-type: none"> (a) (in relation to the <i>sovereign, institutional and corporate IRB exposure class</i>) the approach under the <i>IRB approach</i>, described in <i>BIPRU 4.4</i> (The IRB approach: Exposures to corporates, institutions and sovereigns) under which a <i>firm</i> uses the values for <i>LGD</i> and <i>conversion factors</i> set out in <i>BIPRU 4.4</i> rather than supplying its own estimates; (b) (where the approach in (a) is being applied on a consolidated basis) the method in (a) as applied on a consolidated basis in accordance with <i>BIPRU 8</i> (Group risk - consolidation); or (c) when the reference is to the rules of or administered by a <i>regulatory body</i> other than the <i>FSA</i>, whatever corresponds to the approach in (a) or (b), as the case may be, under those rules.
<i>FRA</i>	<i>forward rate agreement</i> .
<i>free delivery</i>	a transaction of the type set out in <i>BIPRU 14.4.2R</i> (Requirement to hold capital resources with respect to free deliveries) which, in summary, is a transaction under which a <i>person</i> :

	<ul style="list-style-type: none"> (a) has paid for <i>securities, foreign currencies</i> or <i>commodities</i> before receiving them or it has delivered <i>securities, foreign currencies</i> or <i>commodities</i> before receiving payment for them; and (b) in the case of cross-border transactions, one day or more has elapsed since it made that payment or delivery.
<i>full scope BIPRU investment firm</i>	<p>has the meaning in <i>BIPRU</i> 1.1.17R (Types of BIPRU investment firm) which is in summary a <i>CAD full scope firm</i> that satisfies the following conditions:</p> <ul style="list-style-type: none"> (a) it is a <i>firm</i>; and (b) its head office is in the <i>United Kingdom</i> and it is not otherwise excluded from the definition of <i>BIPRU firm</i> under <i>BIPRU</i> 1.1.7R (Exclusion of certain types of <i>firm</i> from the definition of <i>BIPRU firm</i>).
<i>funded credit protection</i>	<p>(in accordance with Article 4(31) of the <i>Banking Consolidation Directive</i> (Definitions)) a technique of <i>credit risk mitigation</i> where the reduction of the credit risk on the <i>exposure</i> of an <i>undertaking</i> derives from the right of the <i>undertaking</i>, in the event of the default of the counterparty or on the occurrence of other specified credit events relating to the counterparty, to liquidate, or to obtain transfer or appropriation of, or to retain certain assets or amounts, or to reduce the amount of the <i>exposure</i> to, or to replace it with, the amount of the difference between the amount of the <i>exposure</i> and the amount of a claim on the <i>undertaking</i>.</p>
<i>general market risk</i>	<p>(in accordance with paragraph 12 of Annex I of the <i>Capital Adequacy Directive</i>) the risk of a price change in an <i>investment</i>:</p> <ul style="list-style-type: none"> (a) (in relation to items that may or must be treated under <i>BIPRU</i> 7.2 (Interest Rate PRR)) owing to a change in the level of interest rates; or (b) (in relation to items that may or must be treated under <i>BIPRU</i> 7.3 (Equity PRR and basic interest rate PRR for equity derivatives) except insofar as <i>BIPRU</i> 7.3 relates to the calculation of the <i>interest rate PRR</i>) owing to a broad equity-market movement unrelated to any specific attributes of individual <i>securities</i>.
<i>general market risk PRA</i>	<p>a <i>PRA</i> with respect to <i>general market risk</i>.</p>
<i>general stress and scenario testing rule</i>	<p><i>GENPRU</i> 1.2.42R (Stress and scenario tests).</p>

<i>general wrong-way risk</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU 13</i> (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the risk that arises when the probability of default of counterparties is positively correlated with general market risk factors.
<i>GENPRU</i>	the General Prudential sourcebook.
<i>group of connected clients</i>	(in accordance with Article 4(45) of the <i>Banking Consolidation Directive</i> (Definitions)) one of the following: <ul style="list-style-type: none"> (a) two or more <i>persons</i> who, unless it is shown otherwise, constitute a single risk because one of them is the <i>parent undertaking</i>, direct or indirect, of the other or others; or (b) two or more <i>persons</i> between whom there is no relationship as set out in (a) but who are to be regarded as constituting a single risk because they are so interconnected that, if one of them were to experience financial problems, the other or all of the others would be likely to encounter repayment difficulties.
<i>hedging set</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU 13</i> (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) a group of <i>risk positions</i> from the transactions within a single <i>netting set</i> for which only their balance is relevant for determining the <i>exposure</i> value under the <i>CCR standardised method</i> .
<i>higher stage of capital</i>	(with respect to a particular item of capital in the <i>capital resources table</i>) a stage in the <i>capital resources table</i> above that in which that item of capital appears.
<i>ICAAP</i>	the <i>internal capital adequacy assessment process</i> .
<i>ICAAP rules</i>	the <i>rules</i> in <i>GENPRU 1.2.30R</i> to <i>GENPRU 1.2.39R</i> (Systems, strategies, processes and reviews), <i>GENPRU 1.2.42R</i> (Main Requirements: Stress and scenario tests) and <i>GENPRU 1.2.60R</i> to <i>GENPRU 1.2.61R</i> (Documentation of risk assessments) as they apply on a solo level and on a consolidated level.
<i>ICG</i>	<i>individual capital guidance</i> .
<i>illiquid asset</i>	has the meaning in <i>GENPRU 2.2.260R</i> (Deductions from total capital: Illiquid assets).

<i>incremental default risk charge</i>	(in <i>BIPRU</i> 7.10 (Use of a value at risk model)) has the meaning in <i>BIPRU</i> 7.10.116R (Capital calculations for <i>VaR models</i>), which is in summary, in relation to a <i>business day</i> , the incremental default risk charge required under the provisions in <i>BIPRU</i> 7.10 about <i>specific risk</i> , in respect of the previous <i>business day</i> 's close-of-business <i>positions</i> with respect to which those provisions apply.
<i>individual counterparty CNCOM</i>	has the meaning in <i>BIPRU</i> 10.5.20R (How to calculate the concentration risk capital component), which is in summary the sum of a <i>firm's individual CNCOMs</i> with respect to a <i>counterparty</i> or <i>group of connected clients</i> or to its <i>connected counterparties</i> .
<i>individual CNCOM</i>	the amount calculated with respect to an individual <i>exposure</i> under <i>BIPRU</i> 10.5.20R (How to calculate the concentration risk capital component).
<i>initial commitment</i>	(for the purposes of <i>BIPRU</i> and in relation to <i>underwriting</i>) the date specified in <i>BIPRU</i> 7.8.13R (Time of initial commitment).
<i>institution</i>	(in accordance with Article 3(1)(c) of the <i>Capital Adequacy Directive</i> and Article 4(6) of the <i>Banking Consolidation Directive</i> (Definitions) and for the purposes of <i>GENPRU</i> and <i>BIPRU</i>) a <i>credit institution</i> or a <i>CAD investment firm</i> , whether or not it is incorporated in, or has its head office in, an <i>EEA State</i> .
<i>internal capital adequacy assessment process</i>	a <i>firm's</i> assessment of the adequacy of its capital and financial resources, as required by the <i>ICAAP rules</i> .
<i>international organisation</i>	(for the purposes of <i>GENPRU</i> and <i>BIPRU</i>) an organisation referred to in <i>BIPRU</i> 3.4.30R (Exposures to international organisations).
<i>interest rate duration method</i>	the method of calculating the part of the <i>interest rate PRR</i> that relates to <i>general market risk</i> set out in <i>BIPRU</i> 7.2.63R (General market risk calculation: Duration method).
<i>interest rate maturity method</i>	the method of calculating the part of the <i>interest rate PRR</i> that relates to <i>general market risk</i> set out in <i>BIPRU</i> 7.2.59R (General market risk calculation: The maturity method).
<i>interest rate PRR</i>	the part of the <i>market risk capital requirement</i> calculated in accordance with <i>BIPRU</i> 7.2 (Interest rate PRR) or <i>BIPRU</i> 7.3.45R (Basic interest rate PRR for equity derivatives) or, in relation to a particular <i>position</i> , the portion of the overall <i>interest rate PRR</i> attributable to that <i>position</i> .
<i>interest rate simplified maturity method</i>	the method of calculating the part of the <i>interest rate PRR</i> that relates to <i>general market risk</i> set out in <i>BIPRU</i> 7.2.56R (General market risk calculation: Simplified maturity method).
<i>in the money percentage</i>	(for the purposes of <i>BIPRU</i> 7 (Market risk) and in relation to an <i>option</i> or <i>warrant</i>) the percentage calculated under <i>BIPRU</i> 7.6.6R (The in the money percentage).

<i>investment firm consolidation waiver</i>	a <i>waiver</i> (described in <i>BIPRU</i> 8.4 (CAD Article 22 groups and investment firm consolidation waiver)) that disapplies certain requirements so far as they apply on a consolidated basis with respect to a <i>CAD Article 22 group</i> .
<i>IRB approach</i>	one of the following: <ul style="list-style-type: none"> (a) the adjusted method of calculating the <i>credit risk capital component</i> set out in <i>BIPRU</i> 4 (IRB approach) and <i>BIPRU</i> 9.12 (Calculation of risk weighted exposure amounts under the internal ratings based approach), including that approach as applied under <i>BIPRU</i> 14 (Capital requirements for settlement and counterparty risk); (b) (where the approach in (a) is being applied on a consolidated basis) the method in (a) as applied on a consolidated basis in accordance with <i>BIPRU</i> 8 (Group risk - consolidation); or (c) when the reference is to the rules of or administered by a <i>regulatory body</i> other than the <i>FSA</i>, whatever corresponds to the approach in (a) or (b), as the case may be, under those rules.
<i>IRB exposure class</i>	(in relation to the <i>IRB approach</i>) one of the classes of <i>exposure</i> set out in <i>BIPRU</i> 4.3.2R (exposure classes).
<i>IRB permission</i>	an <i>Article 129 implementing measure</i> , a <i>requirement</i> or a <i>waiver</i> that requires a <i>BIPRU firm</i> or an <i>institution</i> to use the <i>IRB approach</i> .
<i>issuer exposure</i>	(for the purposes of <i>BIPRU</i> 10 (Concentration risk requirements)) has the meaning in <i>BIPRU</i> 10.4.5R (Definition of issuer exposures).
K_{IRB}	(for the purposes of <i>BIPRU</i> 9 (Securitisation), in relation to a <i>securitisation</i> (within the meaning of paragraph (2) of the definition of securitisation) and in accordance with Part 1 of Annex IX of the <i>Banking Consolidation Directive</i> (Securitisation definitions)) 8% of the <i>risk weighted exposure amounts</i> that would be calculated under the <i>IRB approach</i> in respect of the <i>securitised exposures</i> , had they not been <i>securitised</i> , plus the amount of <i>expected losses</i> associated with those <i>exposures</i> calculated under the <i>IRB approach</i> .
<i>large exposure</i>	has the meaning set out in <i>BIPRU</i> 10.5.1R, which in summary is the <i>total exposure</i> of a <i>firm</i> to a <i>counterparty</i> , <i>connected counterparties</i> or a <i>group of connected clients</i> , whether in the <i>firm's non-trading book</i> or <i>trading book</i> or both, which in aggregate equals or exceeds 10% of the <i>firm's capital resources</i> .
<i>lending firm</i>	(in accordance with Article 90 of the <i>Banking Consolidation Directive</i> (Credit risk mitigation) and for the purposes of <i>rules</i> about <i>credit risk mitigation</i>) a <i>firm</i> that has an <i>exposure</i> , whether or not deriving from a loan.
<i>LGD</i>	<i>loss given default</i> .

<i>limited activity firm</i>	has the meaning set out <i>BIPRU 1.1.11R</i> (Types of investment firm: Limited activity firms).
<i>limited licence firm</i>	has the meaning set out <i>BIPRU 1.1.12R</i> (Types of investment firm: Limited licence firms).
<i>liquidity facility</i>	(for the purposes of <i>BIPRU 9</i> (Securitisation), in relation to a <i>securitisation</i> (within the meaning of paragraph (2) of the definition of securitisation) and in accordance with Part 1 of Annex IX of the <i>Banking Consolidation Directive</i> (Securitisation definitions)) the <i>securitisation position</i> arising from a contractual agreement to provide funding to ensure timeliness of cash-flows to investors.
<i>long settlement transaction</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions)) a transaction where a counterparty undertakes to deliver a security, a <i>commodity</i> , or a <i>foreign currency</i> amount against cash, other <i>CRD financial instruments</i> , or <i>commodities</i> , or vice versa, at a settlement or delivery date that is contractually specified as more than the lower of the market standard for this particular transaction and five <i>business days</i> after the date on which the <i>person</i> enters into the transaction.
<i>loss</i>	(in accordance with Article 4(26) of the <i>Banking Consolidation Directive</i> (Definitions) and for the purposes of the <i>IRB approach</i> , the <i>standardised approach</i> to credit risk and <i>BIPRU 5</i> (Credit risk mitigation)) economic loss, including material discount effects, and material direct and indirect costs associated with collecting on the instrument.
<i>loss given default</i>	(in accordance with Article 4(27) of the <i>Banking Consolidation Directive</i> (Definitions) and in relation to the <i>IRB approach</i>) the ratio of the <i>loss</i> on an <i>exposure</i> due to the <i>default</i> of a counterparty to the amount outstanding at <i>default</i> .
<i>lower stage of capital</i>	(with respect to a particular item of capital in the <i>capital resources table</i>) a stage in the <i>capital resources table</i> below that in which that item of capital appears.
<i>lower tier three capital</i>	an item of capital that is specified in stage P of the <i>capital resources table</i> (Lower tier three).
<i>lower tier three capital resources</i>	the sum calculated at stage P of the <i>capital resources table</i> (Lower tier three).
<i>main BIPRU firm Pillar 1 rules</i>	<i>GENPRU 2.1.40R</i> (Variable capital requirement for <i>BIPRU firms</i>), <i>GENPRU 2.1.41R</i> (Base capital resources requirement for <i>BIPRU firms</i>), <i>GENPRU 2.1.48R</i> (Table: Base capital resources requirement for a <i>BIPRU firm</i>) and, where applicable, <i>GENPRU 2.1.60R</i> (Calculation of base capital resources requirement for banks authorised before 1993).

<i>margin agreement</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) a contractual agreement or provisions to an agreement under which one counterparty must supply collateral to a second counterparty when an <i>exposure</i> of that second counterparty to the first counterparty exceeds a specified level.
<i>margin lending transaction</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) transactions in which a <i>person</i> extends credit in connection with the purchase, sale, carrying or trading of securities; the definition does not include other loans that happen to be secured by securities collateral.
<i>margin period of risk</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the time period from the last exchange of collateral covering a <i>netting set</i> of transactions with a defaulting counterpart until that counterpart is closed out and the resulting market risk is re-hedged.
<i>margin threshold</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the largest amount of an <i>exposure</i> that remains outstanding until one party has the right to call for collateral.
<i>market risk capital requirement</i>	the part of the <i>capital resources requirement</i> of a <i>BIPRU</i> firm in respect of <i>market risk</i> , calculated in accordance with <i>GENPRU</i> 2.1.52R (Calculation of the market risk capital requirement).
<i>master netting agreement internal models approach</i>	one of the following: <ul style="list-style-type: none"> (a) the method of calculating the effect of <i>credit risk mitigation</i> described in <i>BIPRU</i> 5.6.16R to <i>BIPRU</i> 5.6.28G; (b) (where the approach in (a) is being applied on a consolidated basis) the method in (a) as applied on a consolidated basis in accordance with <i>BIPRU</i> 8 (Group risk - consolidation); or (c) when the reference is to the rules of or administered by a <i>regulatory body</i> other than the <i>FSA</i>, whatever corresponds to the approach in (a) or (b), as the case may be, under those rules.

<i>master netting agreement internal models approach permission</i>	a <i>requirement</i> or a <i>waiver</i> that requires a <i>firm</i> to use the <i>master netting agreement internal models approach</i> on a solo basis or, if the context requires, a consolidated basis.
<i>matched principal exemption conditions</i>	the conditions set out in <i>BIPRU 1.1.23R(2)</i> (Meaning of dealing on own account).
<i>material insurance holding</i>	has the meaning in <i>GENPRU 2.2.212R</i> (Material holdings).
<i>minimum IRB standards</i>	(in relation to the <i>IRB approach</i>) <i>BIPRU 4.3.9R, BIPRU 4.3.11R-BIPRU 4.3.29R, BIPRU 4.3.33R-BIPRU 4.3.40R, BIPRU 4.3.43R-BIPRU 4.3.44R, BIPRU 4.3.46R-BIPRU 4.3.48R, BIPRU 4.3.50R-BIPRU 4.3.51R, BIPRU 4.3.54R, BIPRU 4.3.56R-BIPRU 4.3.57R, BIPRU 4.3.63R, BIPRU 4.3.70R-BIPRU 4.3.71R, BIPRU 4.3.73R-BIPRU 4.3.74R, BIPRU 4.3.83R-BIPRU 4.3.85R, BIPRU 4.3.88R, BIPRU 4.3.90R-BIPRU 4.3.92R, BIPRU 4.3.94R, BIPRU 4.3.99R, BIPRU 4.3.103R, BIPRU 4.3.116R-BIPRU 4.3.123R, BIPRU 4.3.125R-BIPRU 4.3.131R, BIPRU 4.4.6R-BIPRU 4.4.9R, BIPRU 4.4.11R-BIPRU 4.4.13R, BIPRU 4.4.15R-BIPRU 4.4.18R, BIPRU 4.4.21R-BIPRU 4.4.22R, BIPRU 4.4.24R-BIPRU 4.4.25R, BIPRU 4.4.27R-BIPRU 4.4.28R, BIPRU 4.4.30R-BIPRU 4.4.31R, BIPRU 4.4.48R-BIPRU 4.4.51R, BIPRU 4.4.53R, BIPRU 4.4.54R, BIPRU 4.5.5R, BIPRU 4.6.6R-BIPRU 4.6.9R, BIPRU 4.6.11R-BIPRU 4.6.12R, BIPRU 4.6.14R, BIPRU 4.6.18R, BIPRU 4.6.20R-BIPRU 4.6.21R, BIPRU 4.6.24R-BIPRU 4.6.34R, BIPRU 4.6.37R-BIPRU 4.6.39R, BIPRU 4.7.19R, BIPRU 4.7.27R-BIPRU 4.7.35R, BIPRU 4.8.5R-BIPRU 4.8.9R, BIPRU 4.8.11R-BIPRU 4.8.15R, BIPRU 4.10.40R-BIPRU 4.10.48R.</i>
<i>minimum multiplication factor</i>	(in <i>BIPRU 7.10</i> (Use of a value at risk model)) has the meaning in <i>BIPRU 7.10.119R</i> (Capital calculations: Multiplication factors), which is in summary the number three or any higher amount the <i>VaR model permission</i> defines it as.
<i>MIPRU</i>	the Prudential sourcebook for Mortgage and Home Finance Firms, and Insurance Intermediaries
<i>model PRR</i>	the part of the <i>market risk capital requirement</i> calculated under a <i>VaR model permission</i> as more fully defined in <i>BIPRU 7.10</i> (Use of a Value at Risk Model).
<i>modified CIU look through method</i>	the method for calculating <i>PRR</i> for a <i>CIU</i> set out in <i>BIPRU 7.7.4R, BIPRU 7.7.7R to BIPRU 7.7.8R</i> and <i>BIPRU 7.7.11R to BIPRU 7.7.12R</i>
<i>multiplication factor</i>	(in <i>BIPRU 7.10</i> (Use of a value at risk model)) a multiplication factor applied to a <i>VaR measure</i> for the purpose of calculating the <i>model PRR</i> made up of the <i>minimum multiplication factor</i> as increased by the <i>plus factor</i> , all as more fully defined in <i>BIPRU 7.10.118R</i> (Capital calculations: Multiplication factors).

<i>netting set</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) a group of transactions with a single counterparty that are subject to a legally enforceable bilateral netting arrangement and for which netting is recognised under <i>BIPRU</i> 13.7 (Contractual netting), <i>BIPRU</i> 5 (Credit risk mitigation) and, if applicable, <i>BIPRU</i> 4.10 (The IRB approach: Credit risk mitigation); each transaction that is not subject to a legally enforceable bilateral netting arrangement, which is recognised under <i>BIPRU</i> 13.7 must be interpreted as its own <i>netting set</i> for the purpose of <i>BIPRU</i> 13.
<i>net underwriting exposure</i>	has the meaning in <i>BIPRU</i> 7.8.34R (Large exposure risk from underwriting securities: Calculating the net underwriting exposure) which is in summary the amount calculated by applying the reduction factors in the table in <i>BIPRU</i> 7.8.35R to the <i>net underwriting position</i> .
<i>net underwriting position</i>	the net underwriting position calculated under <i>BIPRU</i> 7.8.17R (Calculating the net underwriting position).
<i>nominated ECAI</i>	<p>(a) (in the case of an eligible ECAI within paragraph (a) of the definition of that term (Recognition for exposure risk-weighting purposes)) an <i>eligible ECAI</i> nominated by a <i>firm</i> in accordance with <i>BIPRU</i> 3.6 (Use of rating agencies' credit assessments for the determination of risk weights under the standardised approach to credit risk) for the purpose of calculating its <i>risk-weighted exposure amounts</i> under the <i>standardised approach</i> to credit risk except under (b);</p> <p>(b) (in the case of an eligible ECAI within paragraph (b) of the definition of that term (Recognition <i>securitisation risk-weighting</i> purposes)) an <i>eligible ECAI</i> nominated by a <i>firm</i> in accordance with <i>BIPRU</i> 9.8 (Use of ECAI credit assessments for the determination of applicable risk weights) for the purpose of calculating its <i>securitisation risk-weighted exposure amounts</i>.</p>
<i>non credit-obligation asset</i>	(in relation to the <i>IRB approach</i>) an <i>exposure</i> in the form of a non credit-obligation asset or falling under <i>BIPRU</i> 4.9.5R (Non credit-obligation assets).
<i>non-EAA sub-group</i>	a group of <i>undertakings</i> identified as a <i>non-EEA sub-group</i> in <i>BIPRU</i> 8.3.1R (Main consolidation rule for non-EEA sub-groups); however where the provision in question refers to a <i>non-EAA sub-group</i> in another <i>EEA State</i> it means a group of <i>undertakings</i> identified in Article 73(2) of the <i>Banking Consolidation Directive</i> (Non-EAA sub-groups) required to be supervised on a consolidated basis under Article 73(2) of the <i>Banking Consolidation Directive</i> by a <i>competent authority</i> in that <i>EEA State</i> .

<i>non-trading book</i>	<i>positions, exposures</i> , assets and liabilities that are not in the <i>trading book</i> .
<i>obligor grade</i>	(in relation to the <i>IRB approach</i> and the <i>sovereign, institutional and corporate IRB exposure class</i> and in accordance with <i>BIPRU 4.4.8R</i>) a risk category within a <i>rating system's</i> obligor rating scale, to which obligors are assigned on the basis of a specified and distinct set of rating criteria, from which estimates of <i>PD</i> are derived.
<i>one-day VaR measure</i>	(in <i>BIPRU 7.10</i> (Use of a value at risk model)) has the meaning in <i>BIPRU 7.10.98R</i> (Backtesting: One day VaR measure), which is in summary and in relation to a particular <i>business day</i> , the <i>VaR number</i> for that <i>business day</i> calibrated to a one <i>business day</i> holding period and a 99% one-tailed confidence level.
<i>one-sided credit valuation adjustment</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions)) a <i>credit valuation adjustment</i> that reflects the market value of the credit risk of the counterparty to a <i>firm</i> , but does not reflect the market value of the credit risk of the <i>firm</i> to the counterparty.
<i>open currency position</i>	the amount calculated under <i>BIPRU 7.5.19R</i> (Open currency position) as part of the calculation of the <i>foreign currency PRR</i> .
<i>operational risk</i>	(in accordance with Article 4(22) of the <i>Banking Consolidation Directive</i>) the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events, including legal risk.
<i>operational risk capital requirement</i>	the part of the <i>capital resources requirement</i> of a <i>BIPRU firm</i> falling within <i>BIPRU 6.1.1R</i> in respect of <i>operational risk</i> , calculated in accordance with <i>BIPRU 6.2</i> .
<i>option hedging method</i>	the method of calculating the <i>option PRR</i> in <i>BIPRU 7.6.24R</i> (The hedging method).
<i>option PRR</i>	the part of the <i>market risk capital requirement</i> calculated in accordance with <i>BIPRU 7.6</i> (Option PRR) or, in relation to a particular <i>position</i> , the portion of the overall <i>option PRR</i> attributable to that <i>position</i> .
<i>option standard method</i>	the method of calculating the <i>option PRR</i> in <i>BIPRU 7.6.20R</i> to <i>BIPRU 7.6.22R</i> (The standard method).
<i>ordinary credit default swap PRR method</i>	the method for calculating the <i>specific risk</i> portion of the <i>interest rate PRR</i> for credit default swaps that are not <i>securitisation positions</i> set out in <i>BIPRU 7.11.24R</i> to <i>BIPRU 7.11.37R</i> .
<i>originator</i>	(in accordance with Article 4(41) of the <i>Banking Consolidation Directive</i> (Definitions) and in relation to a <i>securitisation</i> within the meaning of paragraph (2) of the definition of <i>securitisation</i>) either of the following:

- (a) an entity which, either itself or through related entities, directly or indirectly, was involved in the original agreement which created the obligations or potential obligations of the debtor or potential debtor giving rise to the *exposures* being *securitised*; or
- (b) an entity which purchases a third party's *exposures* onto its balance sheet and then *securitises* them.

<i>ORCR</i>	the <i>operational risk capital requirement</i> .
<i>out of the money</i>	(for the purposes of <i>BIPRU 7</i> (Market risk) and in relation to an <i>option</i> or <i>warrant</i>) that <i>option</i> or <i>warrant</i> being neither <i>at the money</i> nor <i>in the money</i> .
<i>overall financial adequacy rule</i>	<i>GENPRU 1.2.26R</i> (Requirement for certain <i>firms</i> to have adequate financial resources).
<i>overall Pillar 2 rule</i>	<i>GENPRU 1.2.30R</i> (Systems, strategies, processes and reviews for certain <i>firms</i>).
<i>own estimates of volatility adjustments approach</i>	the approach to calculating volatility adjustments under the <i>financial collateral comprehensive method</i> under which the <i>firm</i> uses its own estimates of such adjustments, as more fully described in <i>BIPRU 5.4</i> (Financial collateral) and including that approach as applied to master netting agreements as described in <i>BIPRU 5.6</i> (Master netting agreements).
<i>parent financial holding company in a Member State</i>	(in accordance with Article 4(15) of the <i>Banking Consolidation Directive</i> (Definitions) and Article 3 of the <i>Capital Adequacy Directive</i> (Definitions)) a <i>financial holding company</i> which is not itself a <i>subsidiary undertaking</i> of an <i>institution</i> authorised in the same <i>EEA State</i> , or of a <i>financial holding company</i> set up in the same <i>EEA State</i> .
<i>parent institution in a Member State</i>	(in accordance with Article 4(14) of the <i>Banking Consolidation Directive</i> and Article 2 of the <i>Capital Adequacy Directive</i> (Definitions)) an <i>institution</i> which has an <i>institution</i> or a <i>financial institution</i> as a <i>subsidiary undertaking</i> or which holds a <i>participation</i> in such an institution, and which is not itself a <i>subsidiary undertaking</i> of another <i>institution</i> authorised in the same <i>EEA State</i> , or of a <i>financial holding company</i> set up in the same <i>EEA State</i> .
<i>payment leg</i>	(for the purposes of the <i>CCR standardised method</i> and as more fully defined in <i>BIPRU 13.5.2R</i> (Derivation of risk position: payment legs) the contractually agreed gross payments under a <i>financial derivative instrument</i> , including the notional amount of the transaction.
<i>PD/LGD approach</i>	the method for treating <i>equity exposures</i> under the <i>IRB approach</i> set out in <i>BIPRU 4.7.14R-BIPRU 4.7.22R</i> .

<i>peak exposure</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) a high percentile of the distribution of <i>exposures</i> at any particular future date before the maturity date of the longest transaction in the <i>netting set</i> .
<i>permanent interest bearing shares</i>	any shares of a class defined as deferred shares for the purposes of section 119 of the Building Societies Act 1986 which are issued as permanent interest-bearing shares and on terms which qualify them as own funds for the purposes of the <i>Banking Consolidation Directive</i> .
<i>physical commodities</i>	a physical holding of a <i>commodity</i> , or documents evidencing title to a <i>commodity</i> .
<i>PIBS</i>	<i>permanent interest-bearing shares</i> .
<i>plus factor</i>	(in <i>BIPRU</i> 7.10 (Use of a value at risk model)) an increase to the <i>minimum multiplication factor</i> based on <i>backtesting exceptions</i> as more fully defined in <i>BIPRU</i> 7.10.124R (Capital calculations: Multiplication factors).
<i>position</i>	(in accordance <i>BIPRU</i> 1.2.4 (Definition of the trading book: Positions)) includes proprietary positions and positions arising from client servicing and market making.
<i>position risk requirement</i>	a capital requirement applied to a <i>position</i> treated under <i>BIPRU</i> 7 (Market risk) as part of the calculation of the <i>market risk capital requirement</i> or, if the relevant provision of the <i>Handbook</i> distinguishes between <i>general market risk</i> and <i>specific risk</i> , the portion of that capital requirement with respect to whichever of <i>general market risk</i> or <i>specific risk</i> is specified by that provision.
<i>PRA</i>	a percentage applied to a <i>position</i> as part of the process of calculating the <i>PRR</i> in relation to that <i>position</i> as set out in the tables in <i>BIPRU</i> 7.2.44R (Specific risk PRAs), <i>BIPRU</i> 7.2.57R (General market risk PRAs), <i>BIPRU</i> 7.3.30R (Simplified equity method PRAs), <i>BIPRU</i> 7.3.34R (PRAs for specific risk under the standard equity method) and <i>BIPRU</i> 7.6.8R (The appropriate PRA) and also as set out in <i>BIPRU</i> 7.2.46R to <i>BIPRU</i> 7.2.47R.
<i>probability of default</i>	(in accordance with Article 4(25) of the <i>Banking Consolidation Directive</i> (Definitions)) the probability of default of a counterparty over a one year period; for the purposes of the <i>IRB approach</i> , default has the meaning in the definition of <i>default</i> .
<i>protection buyer</i>	(in relation to a credit derivative and in accordance with paragraph 8 of Annex I of the <i>Capital Adequacy Directive</i> (Calculating capital requirements for position risk)) the <i>person</i> who transfers credit risk.

<i>protection seller</i>	(in relation to a credit derivative and in accordance with paragraph 8 of Annex I of the <i>Capital Adequacy Directive</i> (Calculating capital requirements for position risk)) the <i>person</i> who assumes the credit risk.
<i>PRR</i>	<i>position risk requirement</i> .
<i>PRR charge</i>	one of the following: <ul style="list-style-type: none"> (a) the <i>interest rate PRR</i>; (b) the <i>equity PRR</i>; (c) the <i>commodity PRR</i>; (d) the <i>foreign currency PRR</i>; (e) the <i>option PRR</i>; (f) the <i>collective investment undertaking PRR</i>; and (g) (if the context requires) the <i>model PRR</i>.
<i>PRR item</i>	a <i>commodity</i> or a <i>CRD financial instrument</i> .
<i>PRR identical product netting rules</i>	the following: <ul style="list-style-type: none"> (a) <i>BIPRU 7.2.37R</i> (Deriving the net position in each debt security: Netting positions in the same debt security); (b) <i>BIPRU 7.2.40R</i> (Deriving the net position in each debt security: Netting zero-specific-risk securities with different maturities); (c) <i>BIPRU 7.3.23R</i> (Deriving the net position in each equity); (d) <i>BIPRU 7.4.20R</i> and <i>BIPRU 7.4.22R</i> (Calculating the PRR for each commodity: General); (e) <i>BIPRU 7.5.19R(1)</i> (Open currency position); and (f) the obligation under <i>BIPRU 7.5.20R</i> (Net gold position) to calculate a separate <i>foreign exchange PRR</i> charge for gold).
<i>PSE</i>	a <i>public sector entity</i> .
<i>public sector entity</i>	(in accordance with Article 4(18) of the <i>Banking Consolidation Directive</i> (Definitions)) any of the following: <ul style="list-style-type: none"> (a) non-commercial administrative bodies responsible to central governments, regional governments or local authorities; or (b) authorities that exercise the same responsibilities as regional and local authorities; or

	(c) non commercial <i>undertakings</i> owned by central governments that have explicit guarantee arrangements; or
	(d) self administered bodies governed by law that are under public supervision.
<i>qualifying equity</i>	a <i>share</i> that satisfies the conditions in <i>BIPRU</i> 7.3.35R (Definition of a qualifying equity).
<i>qualifying equity index</i>	an <i>equity</i> index falling into in <i>BIPRU</i> 7.3.38R (Definition of a qualifying equity index).
<i>qualifying holding</i>	has the meaning in <i>GENPRU</i> 2.2.203R (Qualifying holdings), which is in summary a direct or indirect holding of a <i>bank</i> or <i>building society</i> in a non-financial <i>undertaking</i> which represents 10% or more of the capital or of the voting rights or which makes it possible to exercise a significant influence over the management of that <i>undertaking</i> .
<i>qualifying revolving retail exposure</i>	(in relation to the <i>IRB approach</i>) <i>retail exposures</i> falling into <i>BIPRU</i> 4.6.44R(2) (Qualifying revolving retail exposures).
<i>rated position</i>	(for the purposes of <i>BIPRU</i> 9 (Securitisation), in accordance with Part 1 of Annex IX of the <i>Banking Consolidation Directive</i> (Securitisation definitions) and in relation to a <i>securitisation position</i>) describes a <i>securitisation position</i> which has an eligible credit assessment by an <i>eligible ECAI</i> .
<i>ratings based method</i>	(for the purposes of <i>BIPRU</i> 9 (Securitisation) and in accordance with Part 1 of Annex IX of the <i>Banking Consolidation Directive</i> (Securitisation definitions)) the method of calculating <i>risk weighted exposure amounts</i> for <i>securitisation positions</i> set out in <i>BIPRU</i> 9.12.10R- <i>BIPRU</i> 9.12.19R and <i>BIPRU</i> 9.14.2R.
<i>rating system</i>	(in relation to the <i>IRB approach</i> and in accordance with <i>BIPRU</i> 4.3.25R) comprises all of the methods, processes, controls, data collection and IT systems that support the assessment of credit risk, the assignment of <i>exposures</i> to grades or pools (rating), and the quantification of <i>default</i> and <i>loss</i> estimates for a certain type of <i>exposure</i> .
<i>reciprocal cross-holding</i>	has the meaning in <i>GENPRU</i> 2.2.219R (Deductions from tiers one and two: Reciprocal cross holdings) which is in summary a holding of a <i>firm</i> of <i>shares</i> , any other interest in the capital, and subordinated debt, whether in the <i>trading book</i> or <i>non-trading book</i> , in: <ul style="list-style-type: none"> (a) a <i>credit institution</i>; or (b) a <i>financial institution</i>; that satisfies the conditions in <i>GENPRU</i> 2.2.219R.
<i>recognised third country credit institution</i>	a <i>full BCD credit institution</i> that satisfies the following conditions:

- (a) its head office is outside the *EEA*;
- (b) it is authorised by a *third country competent authority* in the state or territory in which the *credit institution's* head office is located;
- (c) that *third country competent authority* is named in Part 1 of *BIPRU* 8 Annex 6R (Non –*EEA* banking regulators' requirements deemed *CRD* -equivalent for individual risks); and
- (d) there is a tick against that *third country competent authority* in each of the columns headed "Market risk", "Credit risk" and "Operational Risk" in the table referred to in (c).

reduced net underwriting position

the *net underwriting position* as adjusted under *BIPRU* 7.8.27R (Calculating the reduced net underwriting position).

regulatory high risk category

(for the purposes of the *standardised approach* to credit risk) an item that falls into *BIPRU* 3.4.104R (Items belonging to regulatory high risk categories under the standardised approach to credit risk).

repurchase agreement

see *repurchase transaction*.

repurchase transaction

(in accordance with Article 3(1)(m) of the *Capital Adequacy Directive* and Article 4(33) of the *Banking Consolidation Directive* (Definitions)) any agreement in which an *undertaking* or its counterparty transfers securities or *commodities* or guaranteed rights relating to title to securities or *commodities* where that guarantee is issued by a *designated investment exchange* or *recognised investment exchange* which holds the rights to the securities or *commodities* and the agreement does not allow an *undertaking* to transfer or pledge a particular security or *commodity* to more than one counterparty at one time, subject to a commitment to repurchase them or substituted securities or *commodities* of the same description at a specified price on a future date specified, or to be specified, by the transferor, being a *repurchase agreement* for the *undertaking* selling the securities or *commodities* and a *reverse repurchase agreement* for the *undertaking* buying them.

resecuritisation

(in accordance with point 49 of Part 4 of Annex IX of the *Banking Consolidation Directive* (Ratings based method)) *securitisation* of *securitisation exposures* (*securitisation* having the meaning in paragraph (2) of the definition of *securitisation* for these purposes).

residual block

- (1) (for the purposes of *BIPRU* 10 (Concentration risk requirements)):

	(a)	(subject to (b)) has the meaning in <i>BIPRU</i> 10.8.12R (Definition of residual block) which is in summary, in relation to a <i>firm</i> and its <i>UK integrated group</i> , a <i>concentration risk group counterparty</i> of the <i>firm</i> which is not a member of the <i>firm's UK integrated group</i> ;
	(b)	(if a <i>firm</i> has a <i>wider integrated group permission</i>) has the meaning in <i>BIPRU</i> 10.9.7R (Definition of residual block) which is in summary, in relation to a <i>firm</i> and its <i>wider integrated group</i> , a <i>concentration risk group counterparty</i> of the <i>firm</i> which is not a member of the <i>firm's UK integrated group</i> or <i>wider integrated group</i> .
	(2)	(for the purposes of <i>BIPRU</i> 8 (Group risk – consolidation)) has the meaning in <i>BIPRU</i> 8.9.24R (Wider integrated groups: Definition of residual block) which is in summary all <i>exposures</i> to <i>group concentration risk group counterparties</i> falling into <i>BIPRU</i> 8.9.20R(2) not included in a <i>diverse block</i> .
<i>retail exposure</i>	(1)	(in relation to the <i>IRB approach</i> and with respect to an <i>exposure</i>) an <i>exposure</i> falling into the <i>IRB exposure class</i> listed in <i>BIPRU</i> 4.3.2R(4) (Retail exposures).
	(2)	(in relation to the <i>standardised approach</i> to credit risk and with respect to an <i>exposure</i>) an <i>exposure</i> falling into the <i>standardised credit risk exposure class</i> listed in <i>BIPRU</i> 3.2.9R(8) (Retail exposures).
<i>retail SME</i>	(1)	(in relation to the <i>IRB approach</i>) a small or medium sized entity, an <i>exposure</i> to which may be treated as a <i>retail exposure</i> under <i>BIPRU</i> 4.6.2R (Definition of retail exposures).
	(2)	(in relation to the <i>standardised approach</i> to credit risk) a small or medium sized entity, an <i>exposure</i> to which may be treated as a <i>retail exposure</i> under <i>BIPRU</i> 3.2.10R (Definition of retail exposures).
<i>retail SME exposure</i>		(in relation to the <i>IRB approach</i> or the <i>standardised approach</i> to credit risk) an <i>exposure</i> to a <i>retail SME</i> .
<i>reverse repurchase agreement</i>		see <i>repurchase transaction</i> .
<i>revolving exposure</i>		(for the purpose of <i>BIPRU</i> 9.13 (Securitisations of revolving exposures with early amortisation provisions) and in accordance with Article 100 of the Banking Consolidation Directive (Securitisations of revolving exposures)) an <i>exposure</i> whereby customers' outstanding balances are permitted to fluctuate based on their decisions to borrow and repay, up to an agreed limit.

<i>risk capital requirement</i>	<p>(1) (in relation to the <i>FSA's rules</i>) one of the following:</p> <ul style="list-style-type: none"> (a) the <i>credit risk capital requirement</i>; (b) the <i>fixed overheads requirement</i>; (c) the <i>market risk capital requirement</i>; or (d) the <i>operational risk capital requirement</i>; or <p>(2) (in relation to the rules of another <i>regulatory body</i>) whatever corresponds to the items in (1) under the rules of that <i>regulatory body</i>.</p>
<i>risk position</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) a risk number that is assigned to a transaction under the <i>CCR standardised method</i> following a predetermined algorithm.
<i>risk weight</i>	(in relation to an <i>exposure</i>) a degree of risk expressed as a percentage assigned to that <i>exposure</i> in accordance with whichever is applicable of the <i>standardised approach</i> to credit risk and the <i>IRB approach</i> , including (in relation to a <i>securitisation position</i>) under <i>BIPRU</i> 9 (Securitisation).
<i>risk weighted exposure amount</i>	(in relation to an <i>exposure</i>) the value of an <i>exposure</i> for the purposes of the calculation of the <i>credit risk capital component</i> after application of a <i>risk weight</i> .
<i>rollover risk</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU</i> 13 (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the amount by which <i>expected positive exposure</i> is understated when future transactions with a counterparty are expected to be conducted on an ongoing basis; the additional <i>exposure</i> generated by those future transactions is not included in calculation of <i>expected positive exposure</i> .
<i>same stage of capital</i>	(with respect to a particular item of capital in the <i>capital resources table</i>) the stage in the <i>capital resources table</i> in which that item of capital appears.
<i>secured lending transaction</i>	(in accordance with point 2 of Part 1 of Annex VIII of the <i>Banking Consolidation Directive</i> (Eligibility of credit risk mitigation)) any transaction giving rise to an <i>exposure</i> secured by collateral which does not include a provision conferring upon the <i>person</i> with the <i>exposure</i> the right to receive margin frequently.

<i>securities financing transaction</i>	<p>any of the following:</p> <p>(a) a <i>repurchase transaction</i>; or</p> <p>(b) a <i>securities or commodities lending or borrowing transaction</i>; or</p> <p>(c) a <i>margin lending transaction</i>.</p>
<i>securities or commodities borrowing</i>	see <i>securities or commodities lending or borrowing transaction</i> .
<i>securities or commodities lending</i>	see <i>securities or commodities lending or borrowing transaction</i> .
<i>securities or commodities lending or borrowing transaction</i>	(in accordance with Article 4(34) of the <i>Banking Consolidation Directive</i> and Article 3(1)(n) of the <i>Capital Adequacy Directive</i> (Definitions)) any transaction in which an <i>undertaking</i> or its counterparty transfers securities or <i>commodities</i> against appropriate collateral subject to a commitment that the borrower will return equivalent securities or <i>commodities</i> at some future date or when requested to do so by the transferor, that transaction being <i>securities or commodities lending</i> for the <i>undertaking</i> transferring the securities or <i>commodities</i> and being <i>securities or commodities borrowing</i> for the <i>undertaking</i> to which they are transferred.
<i>securities PRR</i>	<p>the <i>interest rate PRR</i>, the <i>equity PRR</i>, the <i>option PRR</i> (but only in relation to <i>positions</i> which under <i>BIPRU 7.6.5R</i> (Table: Appropriate calculation for an option or warrant) may be subject to one of the other <i>PRR</i> charges listed in this definition or which would be subject to such a <i>PRR</i> charge if <i>BIPRU 7.6.5R</i> did not require an <i>option PRR</i> to be calculated), the <i>CIU PRR</i> and the <i>PRR</i> calculated under <i>BIPRU 7.11</i> (Credit derivatives in the trading book) and so that:</p> <p>(a) the <i>securities PRR</i> includes any <i>PRR charge</i> calculated under a <i>CAD 1 permission</i>; and</p> <p>(b) the <i>securities PRR</i> does not include any <i>PRR charge</i> calculated under a <i>VaR model permission</i> unless the provision in question provides otherwise.</p>
<i>securitisation credit default swap PRR method</i>	the method for calculating the <i>specific risk</i> portion of the <i>interest rate PRR</i> for credit default swaps that are <i>securitisation positions</i> set out in <i>BIPRU 7.11.39R</i> to <i>BIPRU 7.11.53R</i> .
<i>securitisation position</i>	(in accordance with Article 4(40) (Definitions) and Article 96 (Securitisation) of the <i>Banking Consolidation Directive</i>) an <i>exposure</i> to a <i>securitisation</i> within the meaning of paragraph (2) of the definition of <i>securitisation</i> ; and so that:

- (a) where there is an *exposure* to different *tranches* in a *securitisation*, the *exposure* to each *tranche* must be considered as a separate *securitisation position*;
- (b) the providers of credit protection to *securitisation positions* must be considered to hold positions in the *securitisation*; and
- (c) *securitisation positions* include *exposures* to a *securitisation* arising from interest rate or currency derivative contracts.

securitisation special purpose entity

(in accordance with Article 4(44) of the *Banking Consolidation Directive* (Definitions)) a corporation, trust or other entity, other than a *credit institution*, organised for carrying on a *securitisation* or *securitisations* (within the meaning of paragraph (2) of the definition of *securitisation*), the activities of which are limited to those appropriate to accomplishing that objective, the structure of which is intended to isolate the obligations of the *SSPE* from those of the *originator*, and the holders of the beneficial interests in which have the right to pledge or exchange those interests without restriction.

securitised exposure

an *exposure* in the pool of *exposures* that has been securitised, either via a *traditional securitisation* or a *synthetic securitisation*. The cash-flows generated by the securitised exposures are used to make payments to the *securitisation positions*.

senior management

(in *BIPRU* 7.10 (Use of a value at risk model) and in relation to a *firm*) the *firm's governing body* and those of the *firm's senior managers* and other senior management who have responsibilities relating to the measurement and control of the risks which the *firm's VaR model* is designed to measure or whose responsibilities require them to take into account those risks.

SFT

securities financing transaction.

simple capital issuer

a *BIPRU firm* that meets the following conditions:

- (a) it does not raise capital through a special purpose vehicle;
- (b) it only includes non-convertible and non-exchangeable *capital instruments* in its *capital resources*;
- (c) (if it includes *capital instruments* in its *capital resources* on which *coupons* are payable) such *coupons* are not subject to a *step-up*;
- (d) it only includes *capital instruments* in its *tier one capital resources* consisting of ordinary *shares*, *PIBS*, perpetual non-cumulative preference *shares* or partnership or *limited liability partnership* capital accounts;
- (e) it only includes non-redeemable *capital instruments* in its *tier one capital resources*; and

	(f) (if it includes <i>capital instruments</i> in its <i>tier one capital resources</i> on which <i>coupons</i> are payable) such <i>coupons</i> are non-cumulative, non-mandatory and in cash.
<i>simplified equity method</i>	the method of calculating the <i>equity PRR</i> set out in <i>BIPRU 7.3.29R</i> (Simplified equity method).
<i>solo consolidation waiver</i>	a <i>waiver</i> of the type described in <i>BIPRU 2.1</i> (Solo consolidation).
<i>sovereign, institutional and corporate IRB exposure class</i>	(in relation to the <i>IRB approach</i>) an <i>exposure</i> falling into the <i>IRB exposure classes</i> referred to in <i>BIPRU 4.3.2R(1)-(3)</i> (Sovereigns, institutions and corporates).
<i>specialised lending exposure</i>	(in relation to the <i>IRB approach</i>) an <i>exposure</i> falling into <i>BIPRU 4.5.3R</i> (Definition of specialised lending).
<i>specific risk PRA</i>	a <i>PRA</i> for <i>specific risk</i> including any such <i>PRA</i> as applied under <i>BIPRU 7.6.8R</i> (Table: Appropriate PRA).
<i>specific risk backtesting exception</i>	(in <i>BIPRU 7.10</i> (Use of a value at risk model) and in relation to a <i>firm</i>) an exception arising out of backtesting a <i>VaR model</i> with respect to <i>specific risk</i> as more fully defined in that <i>firm's VaR model permission</i> .
<i>specific wrong-way risk</i>	(in accordance with Part 1 of Annex III of the <i>Banking Consolidation Directive</i> (Definitions) and for the purpose of <i>BIPRU 13</i> (The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions)) the risk that arises when the exposure to a particular counterparty is positively correlated with the <i>probability of default</i> of the counterparty due to the nature of the transactions with the counterparty; a <i>firm</i> is exposed to <i>specific wrong-way risk</i> if the future exposure to a specific counterparty is expected to be high when the counterparty's <i>probability of default</i> is also high.
<i>SPV</i>	(1) (in <i>GENPRU 2.2</i> (Capital resources)) has the meaning in <i>GENPRU 2.2.126R</i> (Other tier one capital: innovative tier one capital: indirectly issued tier one capital). (2) (in <i>BIPRU 8</i> (Group risk - consolidation)) has the meaning in <i>BIPRU 8.6.15R</i> (Indirectly issued capital and group capital resources).
<i>SREP</i>	the <i>supervisory review and evaluation process</i> .
<i>SSPE</i>	a <i>securitisation special purpose entity</i> .
<i>standard CIU look through method</i>	the method for calculating the <i>PRR</i> for a <i>position</i> in a <i>CIU</i> set out in <i>BIPRU 7.7.4R</i> and <i>BIPRU 7.7.7R</i> to <i>BIPRU 7.7.10R</i> .
<i>standard equity method</i>	the method of calculating the <i>equity PRR</i> set out in <i>BIPRU 7.3.32R</i> (Standard equity method).
<i>standardised approach</i>	one of the following:

- (a) (where expressed to relate to credit risk) the method for calculating capital requirements for credit risk in *BIPRU 3* (Credit risk) and *BIPRU 9.2.1R(1)* and *BIPRU 9.11* (Standardised approach);
- (b) (where expressed to relate to *operational risk*) the method for calculating capital requirements for *operational risk* in *BIPRU 6.3* (Standardised approach);
- (c) (where not expressed to relate to any risk and used in *BIPRU 3*, *BIPRU 4* (IRB approach), *BIPRU 5* (Credit risk mitigation), *BIPRU 9* (Securitisation) or *BIPRU 10* (Concentration risk requirements)) it has the meaning in (a);
- (d) (where not expressed to relate to any risk and used in *BIPRU 6* (Operational risk)) it has the meaning in (b);
- (e) (where the one of the approaches in (a) to (d) is being applied on a consolidated basis) that approach as applied on a consolidated basis in accordance with *BIPRU 8* (Group risk - consolidation); or
- (f) when the reference is to the rules of or administered by a *regulatory body* other than the *FSA*, whatever corresponds to the approach in (a) to (e), as the case may be, under those rules.

standardised credit risk exposure class

(in relation to the *standardised approach* to credit risk) one of the classes of *exposure* set out in *BIPRU 3.2.9R* (Exposure classes).

standard market risk PRR rules

the *rules* relating to the calculation of the *market risk capital requirement* excluding the *VaR model approach* and any *rules* modified so as to provide for the *CAD 1 model approach*.

stock financing

a transaction where a *physical commodity* is sold forward and the cost of funding is locked in until the date of the forward sale.

supervisory formula method

(for the purposes of *BIPRU 9* (Securitisation), in relation to a *securitisation* within the meaning of paragraph (2) of the definition of securitisation and in accordance with Part 1 of Annex IX of the *Banking Consolidation Directive* (Securitisation definitions)) the method of calculating *risk weighted exposure amounts* for *securitisation positions* set out in *BIPRU 9.12.21R-BIPRU 9.12.23R* and *BIPRU 9.14.3R*.

supervisory review and evaluation process

the *FSA's* assessment of the adequacy of certain *firms'* capital, as more fully described in *BIPRU 2.2.9G* and *INSRU 7.1.8G*.

<i>supervisory volatility adjustments approach</i>	the approach to calculating volatility adjustments under the <i>financial collateral comprehensive method</i> under which the <i>firm</i> uses the adjustments specified in <i>BIPRU 5.4</i> (Financial collateral) rather than in its own estimates, as more fully described in <i>BIPRU 5.4</i> and including that approach as applied to master netting agreements as described in <i>BIPRU 5.6</i> (Master netting agreements).
<i>swap</i>	a transaction in which two counterparties agree to exchange streams of payments over time according to a predetermined basis or a <i>contract for differences</i> .
<i>synthetic securitisation</i>	(in accordance with Article 4(38) of the <i>Banking Consolidation Directive</i> (Definitions)) a <i>securitisation</i> (within the meaning of paragraph (2) of the definition of securitisation) where the <i>tranching</i> is achieved by the use of credit derivatives or guarantees, and the pool of <i>exposures</i> is not removed from the balance sheet of the <i>originator</i> .
<i>third country banking or investment services undertaking</i>	(in <i>BIPRU</i>) an <i>institution</i> , a <i>financial institution</i> or an <i>asset management company</i> in a <i>non-EEA state</i> .
<i>third country BIPRU firm</i>	an <i>overseas firm</i> that: <ul style="list-style-type: none"> (a) is not an <i>EEA firm</i>; (b) has its head office outside the <i>EEA</i>; and (c) would be a <i>BIPRU firm</i> if it had been a <i>UK domestic firm</i>, it had carried on all its business in the <i>United Kingdom</i> and had obtained whatever authorisations for doing so are required under the <i>Act</i>.
<i>third country competent authority</i>	a <i>regulatory body</i> of a state or territory that is not an <i>EEA State</i> .
<i>tier three capital</i>	an item of capital that is <i>upper tier three capital</i> or <i>lower tier three capital</i> .
<i>tier three capital resources</i>	the sum calculated at stage Q of the <i>capital resources table</i> (Total tier three capital).
<i>tier three instrument</i>	an item of capital that falls into <i>GENPRU 2.2.242R</i> (Tier three capital: upper tier three capital resources) and is eligible to form part of a <i>firm's upper tier three capital resources</i> .
<i>total exposure</i>	(in relation to a <i>counterparty</i> or <i>group of connected clients</i> and a <i>person</i> or in relation to a <i>person</i> and its <i>connected counterparties</i>) all that <i>person's exposures</i> to that <i>counterparty</i> or <i>group of connected clients</i> or to that <i>person's connected counterparties</i> or the total amount of those <i>exposures</i> .
<i>trading book concentration risk excess</i>	has the meaning in <i>BIPRU 10.5.20R</i> (How to calculate the concentration risk capital component).

<i>trading book policy statement</i>	has the meaning in <i>BIPRU</i> 1.2.29R (Trading book policy statements) which is in summary a single document of a <i>person</i> recording the policies and procedures referred to in <i>BIPRU</i> 1.2.26R and <i>BIPRU</i> 1.2.27R.
<i>trading book systems and controls rules</i>	<i>GENPRU</i> 1.3.13R(2) to (3) (General requirements: Methods of valuation and systems and controls), <i>GENPRU</i> 1.3.14R to <i>GENPRU</i> 1.3.16R (Marking to market), <i>GENPRU</i> 1.3.17R to <i>GENPRU</i> 1.3.25R (Marking to model), <i>GENPRU</i> 1.3.26R to <i>GENPRU</i> 1.3.28R (Independent price verification), <i>GENPRU</i> 1.3.30R to <i>GENPRU</i> 1.3.33R (Valuation adjustments or reserves), <i>GENPRU</i> 2.2.86R (Core tier one capital: profit and loss account and other reserves: Losses arising from valuation adjustments) and <i>GENPRU</i> 2.2.248R to <i>GENPRU</i> 2.2.249R (Tier three capital: lower tier three capital resources).
<i>traditional securitisation</i>	<p>(in accordance with Article 4(37) of the <i>Banking Consolidation Directive</i> (Definitions)) a <i>securitisation</i> (within the meaning of paragraph (2) of the definition of securitisation) involving the economic transfer of the <i>exposures</i> being <i>securitised</i> to a <i>securitisation special purpose entity</i> which issues securities; and so that:</p> <ul style="list-style-type: none"> (a) this must be accomplished by the transfer of ownership of the <i>securitised exposures</i> from the <i>originator</i> or through sub-participation; and (b) the securities issued do not represent payment obligations of the <i>originator</i>.
<i>tranche</i>	(in accordance with Article 4(39) of the <i>Banking Consolidation Directive</i> (Definitions) and in relation to a <i>securitisation</i> within the meaning of paragraph (2) of the definition of securitisation) a contractually established segment of the credit risk associated with an <i>exposure</i> or number of <i>exposures</i> , where a position in the segment entails a risk of credit loss greater than or less than a position of the same amount in each other such segment, without taking account of credit protection provided by third parties directly to the holders of positions in the segment or in other segments.
<i>UK consolidation group</i>	<p>a group that is identified as a <i>UK consolidation group</i> in accordance with the decision tree in <i>BIPRU</i> 8 Annex 1R (Decision tree identifying a UK consolidation group); the members of that group are:</p> <ul style="list-style-type: none"> (a) where either Test 1A or Test 1B in <i>BIPRU</i> 8 Ann 1R apply, the members of the <i>consolidation group</i> made up of the <i>sub-group</i> of the <i>parent institution in a Member State</i> identified in <i>BIPRU</i> 8 Ann 1R together with any other <i>person</i> who is a member of that <i>consolidation group</i> because of a <i>consolidation Article 12(1) relationship</i> or an <i>Article 134 relationship</i>; or

- (b) where either Test 1C or Test 1D in *BIPRU 8 Ann 1R* apply, the members of the *consolidation group* made up of the *sub-group* of the *parent financial holding company in a Member State* identified in *BIPRU 8 Ann 1R* together with any other *person* who is a member of that *consolidation group* because of a *consolidation Article 12(1) relationship* or an *Article 134 relationship*;

in each case only *persons* included under *BIPRU 8.5* (Basis of consolidation) are included in the *UK consolidation group*.

UK integrated group

(in relation to a *firm*) all *undertakings* which, in relation to the *firm*, satisfy the conditions set out in *BIPRU 10.8.4R* (Definition of UK integrated group).

UK parent financial holding company in a Member State

a *parent financial holding company in a Member State* where the *EEA State* in question is the *United Kingdom*.

underwrite

(for the purposes of *BIPRU 7* (Market risk)) to undertake a firm commitment to buy a specified quantity of new *securities* on a given date and at a given price if no other has purchased or acquired them; and so that:

- (a) new is defined in *BIPRU 7.8.12R* (New securities);
- (b) a *firm* still underwrites *securities* at a time before the exact quantity of *securities* being underwritten or their price has been determined if it is committed at that time to underwrite them when the quantity and price is fixed;
- (c) (in the case of provisions of the *Handbook* that distinguish between *underwriting* and *sub-underwriting*) *underwriting* does not include *sub-underwriting*; and
- (d) (in any other case) *underwriting* includes *sub-underwriting*.

unfunded credit protection

(in accordance with Article 4(32) of the *Banking Consolidation Directive* (Definitions)) a technique of *credit risk mitigation* where the reduction of the credit risk on the *exposure* of an *undertaking* derives from the undertaking of a third party to pay an amount in the event of the default of the borrower or on the occurrence of other specified events.

unrated position

(for the purposes of *BIPRU 9* (Securitisation), in accordance with Part 1 of Annex IX of the *Banking Consolidation Directive* (Securitisation definitions) and in relation to a *securitisation position*) describes a *securitisation position* which does not have an eligible credit assessment by an *eligible ECAI*.

upper tier three capital

an item of capital that is specified in stage O of the *capital resources table* (Upper tier three).

<i>upper tier three capital resources</i>	the sum calculated at stage O of the <i>capital resources table</i> (Upper tier three).
<i>upper tier three instrument</i>	an item of capital that meets the conditions in <i>GENPRU 2.2.242R</i> (Tier three capital: upper tier three capital resources) and is eligible to form part of a <i>firm's upper tier three capital resources</i> .
<i>value at risk</i>	(in relation to risk modelling or estimation) the measure of risk described in <i>BIPRU 7.10.146R</i> (Requirement to use value at risk methodology).
<i>VaR</i>	<i>value at risk</i> .
<i>VaR measure</i>	an estimate by a <i>VaR model</i> of the worst expected loss on a portfolio resulting from market movements over a period of time with a given confidence level.
<i>VaR model</i>	a value at risk model as described in <i>BIPRU 7.10</i> (Use of a Value at Risk Model).
<i>VaR model approach</i>	one of the following: <ul style="list-style-type: none"> (a) the approach to calculating part of the <i>market risk capital requirement</i> set out in <i>BIPRU 7.10</i> (Use of a value at risk model); (b) (where the approach in (a) is being applied on a consolidated basis) the method in (a) as applied on a consolidated basis in accordance with <i>BIPRU 8</i> (Group risk - consolidation); or (c) when the reference is to the rules of or administered by a <i>regulatory body</i> other than the <i>FSA</i>, whatever corresponds to the approach in (a) or (b), as the case may be, under those rules.
<i>VaR model permission</i>	an <i>Article 129 implementing measure</i> , a <i>requirement</i> or a <i>waiver</i> that requires a <i>BIPRU firm</i> or an <i>institution</i> to use the <i>VaR model approach</i> on a solo basis or, if the context requires, a consolidated basis.
<i>VaR number</i>	has the meaning in <i>BIPRU 7.10.115R</i> (Capital calculations: General) which in summary is (in relation to a <i>business day</i> and a <i>VaR model</i>) the <i>VaR measure</i> , in respect of the previous <i>business day's</i> close-of-business <i>positions</i> in products coming within the scope of the <i>VaR model permission</i> , calculated by the <i>VaR model</i> and in accordance with <i>BIPRU 7.10</i> (Use of a Value at Risk Model) and any methodology set out in the <i>VaR model permission</i> .
<i>VaR specific risk minimum requirements</i>	<i>BIPRU 7.10.46R</i> to <i>BIPRU 7.10.52R</i> (Model standards: Risk factors: Specific risk) and <i>BIPRU 7.10.107R</i> (Backtesting: Specific risk backtesting).

<i>wider integrated group</i>	(in relation to a <i>firm</i>) has the meaning in <i>BIPRU</i> 10.9.5R (Definition of wider integrated group), which is in summary each <i>concentration risk group counterparty</i> of the <i>firm</i> that is not a member of the <i>firm's UK integrated group</i> but satisfies all the conditions for membership of the <i>firm's UK integrated group</i> except for <i>BIPRU</i> 10.8.4R(4) (Establishment in the <i>United Kingdom</i>).
<i>wider integrated group waiver</i>	a <i>waiver</i> that has the result of requiring a <i>firm</i> to apply <i>BIPRU</i> 10.9 (Wider Integrated Group) or, if the context requires, <i>BIPRU</i> 8.9.16R to <i>BIPRU</i> 8.9.24R (Wider integrated groups for consolidation purposes) and the other <i>rules</i> in <i>BIPRU</i> 8.9 (Consolidated concentration risk requirements) that relate to those <i>rules</i> .
<i>working day 0</i>	has the meaning in <i>BIPRU</i> 7.8.23R (Working day 0), which is in summary (in relation to an <i>underwriter</i>) the <i>business day</i> on which a <i>firm</i> that is <i>underwriting</i> or <i>sub-underwriting</i> becomes unconditionally committed to accepting a known quantity of <i>securities</i> at a specified price.
<i>zero-specific-risk security</i>	a notional debt <i>security</i> used, for the purpose of calculating <i>PRR</i> , to represent the interest rate <i>general market risk</i> arising from certain <i>derivative</i> and forward transactions as specified in <i>BIPRU</i> 7.2 (Interest rate <i>PRR</i>).

Part 2A (Revised definitions taking effect on 31 December 2006)

Amend the following definitions in the Glossary as shown:

<i>actuarial health insurance</i>	(in PRU) (in the context of the <i>rules in PRU 7.2 INSPRU 1.1</i> concerning the calculation of the <i>general insurance capital requirement</i>), health insurance which meets all the conditions set out in PRU 7.2.72R <u>INSPRU 1.1.72R</u> .
<i>actuarial valuation date</i>	(in PRU) the date as at which the <i>mathematical reserves</i> are calculated.
<i>admissible asset</i>	<ol style="list-style-type: none">(1) (in LLD for the purpose of the <i>rules in GENPRU and INSPRU as they apply to members of the Society of Lloyd's, the Society and managing agents</i>) an asset that falls into one or more categories in <u>GENPRU 2 Ann 74R</u> as modified by LLD 19.3.19R <u>GENPRU 2.3.34R</u>.(2) otherwise:<ol style="list-style-type: none">(a) (in relation to an <i>insurer</i> which is not a <i>pure reinsurer</i>) an asset that falls into one or more categories in <u>GENPRU 2 Ann 74R</u>; or(b) ...
<i>ancillary risk</i>	in relation to an <i>insurer</i> with <i>permission</i> under the <i>Act</i> to insure a principal risk belonging to one <i>class</i> (as defined for the purposes of <i>AUTH, PRU, LLD INSPRU</i> and <i>SUP</i>) of <i>general insurance business</i>) a risk included in another such class which is:...
<i>annualised net written premiums</i>	(for the purposes of PRU 7.5 <u>INSPRU 1.4</u>) in relation to a financial year, ...
<i>approved derivative</i>	... <ol style="list-style-type: none">(2) (in <u>INSPRU</u>) a <i>derivative</i> in respect of which the conditions in PRU 4.3.5 R <u>INSPRU 3.2.5R</u> are met.
<i>approved quasi-derivative</i>	a <i>quasi-derivative</i> in respect of which the conditions in PRU 4.3.5 R <u>INSPRU 3.2.5R</u> are met.
<i>Approved security</i>	<ol style="list-style-type: none">(1) ...(2) (in LLD and <u>INSPRU</u>) any of the following: ...
<i>approved stock lending</i>	a <i>stock lending</i> transaction in respect of which the conditions in PRU 4.3.36 R <u>INSPRU 3.2.36R</u> have been met.

<i>transaction</i>	
<i>assessable mutual</i>	(for the purposes of PRU 7.5 <u>INSPRU 1.4</u>) ...
<i>asset management company</i>	(for the purpose of ELM and PRU and in accordance with Article 2(5) of the <i>Financial Groups Directive</i> (Definitions)) ...
<i>asset-related capital requirement</i>	... as set out in PRU 3.3 <u>INSPRU 2.2</u> .
<i>balancing amount</i>	(in LLD) in respect of a <i>syndicate</i> , ...
<i>Broker</i>	(in <i>MAR</i> and <u>INSPRU</u>) any person when dealing as agent.
<i>brought forward amount</i>	an amount, as defined in PRU 7.2.51R <u>INSPRU 1.1.51R</u> , ...
<i>Byelaw</i>	(in LLD) any Byelaw, direction, regulation or other instrument...
<i>callable contribution</i>	(in LLD) amounts that <i>members</i> are liable to pay ...
<i>central assets</i>	(in LLD) the <i>Society's</i> own assets ...
<i>Central Fund</i>	(in LLD) the Central Fund ...
<i>claim</i>	(1) ... (2) (in <i>COB</i> , <i>ICOB</i> , <u>INSPRU</u> , LLD , <i>SUP</i> and <i>TC</i>) a claim under a <i>contract of insurance</i> .
<i>claims amount</i>	an amount, as defined in PRU 7.2.47R <u>INSPRU 1.1.47R</u> , ...
<i>class</i>	(1) (in <i>AUTH</i> , PRU , LLD <u>GENPRU</u> , <u>INSPRU</u> and <i>SUP</i>) (in relation to a <i>contract of insurance</i>) any class ...
<i>closed</i>	(in LLD) (in relation to a <i>syndicate year</i>) closed by ...
<i>collateral</i>	... (3) (in <u>INSPRU</u>) ...
<i>commitment</i>	a commitment represented by <i>insurance business</i> of any of the <i>classes</i> (as defined for the purposes of <i>AUTH</i> , PRU , LLD <u>INSPRU</u> and <i>SUP</i>) of <i>long-term insurance business</i> .
<i>contingency funding plan</i>	a plan ... prepared under PRU 5.1.86E <u>SYSC 11.1.24E</u> .
<i>core provision</i>	(in LLD) (as defined in section 316(3) of the <i>Act</i> (Direction by Authority)) a provision ...
<i>counterparty</i>	(1) (in LLD) (in relation to the <i>Society</i> , a <i>syndicate</i> or <i>member</i>): (a) any individual; or

- (b) any unincorporated body of *persons*; or
- (c) any company which is not a member of a *group*; or
- (d) any *group* of companies, excluding any companies within the *group* which are *subsidiary undertakings* of the ~~Society~~, a *syndicate* or *member*; or
- (e) any government of a State or any public bodies, local authorities or nationalised industries of a State;

in which the ~~Society~~, a *syndicate* or *member* has made investments or against which it has rights under a contract entered into by the ~~Society~~, *syndicate* or *member*.

(2) ~~(in PRU~~ for the purposes of the *rules* relating to *insurers* in GENPRU and INSPRU) (in relation to an *insurer*, the Society, a syndicate or member ('A')):

- (a) any one individual; or
- (b) any one unincorporated body of *persons*; or
- (c) any company which is not a member of a *group*; or
- (d) any *group* of companies excluding:
 - (i) (for the purposes of ~~PRU 3.2~~ INSPRU 2.1) any companies within the *group* which are *subsidiary undertakings* of the ~~insurer A~~ and which fall within ~~PRU 1.3.31R~~ GENPRU 1.3.43R; and
 - (ii) (for all other purposes) any companies within the *group* which are *subsidiary undertakings* of the ~~insurer A~~; or
- (e) any government of a State together with all the public bodies, local authorities or nationalised industries of that State,

in which the ~~insurer A~~, or any of its *subsidiary undertakings*, has made investments or against whom, or in respect of whom, it, or any of its *subsidiary undertakings*, has rights or obligations under a contract entered into by the ~~insurer A~~ or any of its *subsidiary undertakings*.

credit equalisation provision

the provision required to be established by ~~PRU 7.5.43R~~ INSPRU 1.4.43R.

<i>Disciplinary Tribunal</i>	(in LLD) a Tribunal appointed ...
<i>discounting</i>	(in PRU) discounting or deductions ...
<i>EEA MCR</i>	the <i>MCR</i> ... in accordance with PRU 7.6.46R <u>INSPRU 1.5.46R</u> .
<i>enhanced capital requirement</i>	(1) (in relation to a <i>firm</i> carrying on <i>general insurance business</i>) the amount calculated in accordance with PRU 2.3.11R <u>INSPRU 7.1.11R</u> . (2) (in relation to a <i>firm</i> carrying on <i>long-term insurance business</i>) the amount of <i>capital resources</i> that a <i>firm</i> must hold as set out in PRU 2.1.34R <u>GENPRU 2.1.38R</u> .
<i>equalisation provision</i>	a provision required to be established under the <i>rules</i> in <u>INSPRU 7.5 1.4</u> .
<i>equity market adjustment ratio</i>	(1) (in relation to the <i>resilience capital requirement</i>) has the meaning set out in PRU 4.2.19R <u>INSPRU 3.1.19R</u> . (2) (in relation to the <i>market risk</i> scenario for the <i>risk capital margin</i> of a <i>with-profits fund</i>) has the meaning set out in PRU 7.4.71 R <u>INSPRU 1.3.71R</u> .
<i>financial year</i>	(1) ... (2) (in LLD) a calendar year (3) (in <u>GENPRU</u> and <u>INSPRU</u>) the period at the end of which the balance of the accounts of the <i>insurer</i> is struck...
<i>financial year in question</i>	(for the purposes of PRU 7.2 <u>INSPRU 1.1</u> and of the definition of <i>non-directive insurer</i>)...
<i>former member</i>	(in LLD) a <i>person</i> who has ceased to be a <i>member</i> , ...
<i>general insurance capital requirement</i>	The highest of the <i>premiums amount</i> , <i>claims amount</i> and <i>brought forward amount</i> as set out in PRU 7.2 <u>INSPRU 1.1</u> .
<i>gross adjusted claims amount</i>	(for the purposes of PRU 7.2 <u>INSPRU 1.1</u>) an amount, as defined in PRU 7.2.60R <u>INSPRU 1.1.60R</u> to PRU 7.2.65G <u>INSPRU 1.1.65G</u> , used in calculating the <i>claims amount</i> .
<i>gross adjusted premiums amount</i>	(for the purposes of PRU 7.2 <u>INSPRU 1.1</u>) an amount as defined in PRU 7.2.56R <u>INSPRU 1.1.56R</u> to PRU 7.2.59G <u>INSPRU 1.1.59G</u> , used in calculating the <i>premiums amount</i> .
<i>group capital resources</i>	in relation to an <i>undertaking</i> in PRU 8.3.17R <u>INSPRU 6.1.17R</u> , that <i>undertaking's</i> group capital resources as calculated in accordance with PRU 8.3.36R <u>INSPRU 6.1.36R</u> .
<i>group capital resources requirement</i>	in relation to an <i>undertaking</i> in PRU 8.3.17R <u>INSPRU 6.1.17R</u> , that <i>undertaking's</i> group capital resources requirement as calculated in

accordance with ~~PRU 8.3.33R~~INSPRU 6.1.33R.

guarantee fund

(1)

(a) ...

(b) where the *firm* is required to calculate a *UK MCR* or an *EEA MCR* under ~~PRU 7.2~~ INSPRU 1.1, for the purposes of that section...

(2)

(a) ...

(b) where the *firm* is required to calculate a *UK MCR* or an *EEA MCR* under ~~PRU 7.6~~ INSPRU 1.5, for the purposes of that section...

and the reference to the *base capital resources requirement* is replaced by the amount which is one half of the *base capital resources requirement* applicable to the *firm* set out in ~~PRU 2.1.26R~~GENPRU 2.1.29R.

IBNR

(in relation to *claims* (as defined for the purposes of INSPRU, ~~LLD~~, *SUP* and *TC*)) *claims* that have been incurred but not reported...

implicit items

(in relation to *long-term insurance business*) economic reserves arising in respect of future profits, *zillmerising* or hidden reserves as more fully described in GENPRU 2 Annex 2 Ann 8G.

individual capital resources requirement

has the meaning in ~~PRU 8.3.34R~~INSPRU 6.1.34R.

individual member

(~~in LLD~~) a *member*, ...

insurance business grouping

a grouping comprising descriptions of *general insurance business* determined in accordance with ~~PRU 7.5.12R~~INSPRU 1.4.12R.

insurance death risk capital component

one of the components of the *long-term insurance capital requirement* as set out in ~~PRU 7.2.81R~~INSPRU 1.1.81R to ~~PRU 7.2.83R~~INSPRU 1.1.83R.

insurance expense risk capital component

one of the components of the *long-term insurance capital requirement* as set out in ~~PRU 7.2.88R~~INSPRU 1.1.88R.

insurance health risk capital component

one of the components of the *long-term insurance capital requirement* as set out in ~~PRU 7.2.85R~~INSPRU 1.1.85R to ~~PRU 7.2.86R~~INSPRU 1.1.86R.

insurance market risk capital component

one of the components of the *long-term insurance capital requirement* as set out in ~~PRU 7.2.89R~~INSPRU 1.1.89R.

insurance related

a component of the calculation of the *ECR* for a *firm* carrying on

<i>capital requirement</i>	<i>general insurance business</i> as set out in PRU 7.2.76R <u>INSPRU 1.1.76R</u> to PRU 7.2.79R <u>INSPRU 1.1.79R</u> .
<i>listed</i>	(1) (except in <i>LR</i> , <i>ENF</i> 21 and <u>INSPRU</u>) included in an <i>official list</i> . (2) (in <u>INSPRU</u>) ...
<i>Lloyd's member's contribution</i>	(in LLD) assets:...
<i>Lloyd's Return</i>	the financial report that the <i>Society</i> is required to submit to the <i>FSA</i> under LLD 15.2.1R <u>IPRU(INS) 9.48(1)</u> .
<i>Lloyd's trust deed</i>	(in LLD) a trust deed ...
<i>Lloyd's trust fund</i>	(in LLD) a fund held on the terms of ...
<i>long-term insurance asset</i>	has the meaning set out in PRU 7.6.21R <u>INSPRU 1.5.21R</u> .
<i>long-term insurance capital requirement</i>	... the <i>firm</i> must hold calculated in accordance with PRU 2.1.32R <u>GENPRU 2.1.36R</u> .
<i>long-term insurance fund</i>	has the meaning set out in PRU 7.6.22R <u>INSPRU 1.5.22R</u> .
<i>management expenses</i>	(1) (except in <u>INSPRU</u>)... (2) (in <u>INSPRU</u>) ...
<i>minimum capital requirement</i>	an amount of capital resources that a <i>firm</i> must hold as set out in PRU 2.1.21R <u>GENPRU 2.1.24R</u> and PRU 2.1.22R <u>GENPRU 2.1.25R</u> .
<i>minimum guarantee fund</i>	(in LLD) ...
<i>non-credit equalisation provision</i>	the provision required to be established under PRU 7.5.17R <u>INSPRU 1.4.17R</u> .
<i>parent undertaking</i>	... (a) ... (i) (vii) (except in <i>REC</i> and LLD or for the purposes of the <u>rules in GENPRU and INSPRU as they apply to members of the Society of Lloyd's or to the Society or managing agents in respect of members</u>) he is an

individual and would be a *parent undertaking* if he were an *undertaking*; or

- (viii) (except in REC and ~~LLD~~ or for the purposes of rules in GENPRU and INSPRU as they apply to members of the Society of Lloyd's or to the Society or managing agents in respect of members) it is incorporated in or formed under the law of another *EEA State* and is a parent undertaking within the meaning of any rule of law in that State for purposes connected with the implementation of the Seventh Company Law Directive;

...

<i>premiums amount</i>	(for the purposes of PRU 7.2 <u>INSPRU 1.1</u>), an amount, as defined in PRU 7.2.45R <u>INSPRU 1.1.45R</u> ...
<i>real estate market adjustment ratio</i>	has the meaning set out, in relation to the <i>resilience capital requirement</i> , in PRU 4.2.21R <u>INSPRU 3.1.21R</u> .
<i>realistic basis life firm</i>	a <i>firm</i> to which PRU 2.1.15R <u>GENPRU 2.1.18R</u> applies (and which is therefore required to calculate a <i>with-profits insurance capital component</i> in accordance with PRU 7.4 <u>INSPRU 1.3</u>).
<i>realistic current liabilities</i>	(in relation to a <i>with-profits fund</i>) the realistic current liabilities of the <i>with-profits fund</i> calculated in accordance with PRU 7.4.190R <u>INSPRU 1.3.190R</u> .
<i>realistic excess capital</i>	(in relation to a <i>with-profits fund</i>) the excess, if any, of the <i>realistic value of assets</i> for the <i>with-profits fund</i> over the sum of the <i>realistic value of liabilities</i> and the <i>risk capital margin</i> for that fund, calculated in accordance with PRU 7.4.32R <u>INSPRU 1.3.32R</u> .
<i>realistic value of assets</i>	(in relation to a <i>with-profits fund</i>) has the meaning set out in PRU 7.4.33R <u>INSPRU 1.3.33R</u> .
<i>receivable</i>	(in LLD) (in relation to a <i>member</i> , a period and a <i>premium</i>) ...
<i>regulated market</i>	(1) ... (2) (in <u>INSPRU</u>) ...
<i>regulatory current liabilities</i>	(in relation to a <i>with-profits fund</i>) the regulatory current liabilities of the <i>with-profits fund</i> calculated in accordance with PRU 7.4.30R <u>INSPRU 1.3.30R</u> .
<i>regulatory excess capital</i>	(in relation to a <i>with-profits fund</i>) has the meaning set out in PRU 7.4.32R <u>INSPRU 1.3.32R</u> .
<i>regulatory surplus value</i>	has the meaning set out in PRU 1.3.36R <u>GENPRU 1.3.48R</u> .
<i>regulatory value of</i>	(in relation to a <i>with-profits fund</i>) has the meaning set out in PRU

<i>assets</i>	7.4.24R <u>INSPRU 1.3.24R</u> .
<i>regulatory value of liabilities</i>	(in relation to a <i>with-profits fund</i>) has the meaning set out in PRU 7.4.29R <u>INSPRU 1.3.29R</u> .
<i>relevant capital sum</i>	for the purposes of PRU 7.3.43R <u>INSPRU 1.3.43R</u> , ...
<i>resilience capital requirement</i>	the capital component for <i>long-term insurance business</i> calculated in accordance with the rules in PRU 4.2.9G <u>INSPRU 3.1.9G</u> to PRU 4.2.26R <u>INSPRU 3.1.26R</u> .
<i>risk capital margin</i>	the risk capital margin for a <i>with-profits fund</i> calculated in accordance with the rules in PRU 7.4.43R <u>INSPRU 1.3.43R</u> to PRU 7.4.103G <u>INSPRU 1.3.103G</u> .
<i>secured debt</i>	(in PRU) a debt fully secured on:...
<i>Society GICR</i>	(in LLD) the <i>general insurance capital requirement</i> calculated by the <i>Society</i> as if it were an <i>insurer</i> under LLD 19.2.13R <u>GENPRU 2.3.13R</u> .
<i>syndicate assets</i>	(in LLD) assets managed by or at the direction of ...
<i>syndicate ICA</i>	(in LLD) the capital assessment performed by a <i>managing agent</i> under PRU 1.2.26R <u>the overall Pillar 2 rule</u> , LLD 18.2.1R(1) <u>GENPRU 1.5.1R(1)</u> , PRU 2.3 <u>INSPRU 7.1</u> and LLD 19.4.1R(1) <u>INSPRU 1.1.57R(1)</u> in respect of each <i>syndicate</i> managed by it.
<i>technical provision</i>	(in PRU) a technical provision established: <ul style="list-style-type: none"> (a) for <i>general insurance business</i>, in accordance with PRU 7.2.12R <u>INSPRU 1.1.12R</u>; and (b) for <i>long-term insurance business</i>, in accordance with PRU 7.2.16R <u>INSPRU 1.1.16R</u>.
<i>total group tier one capital</i>	the sum calculated at stage A of the calculation in PRU 8.3.43R <u>INSPRU 6.1.43R</u> .
<i>total group tier two capital</i>	the sum calculated at stage B of the calculation in PRU 8.3.43R <u>INSPRU 6.1.43R</u> .
<i>UK MCR</i>	the <i>MCR</i> calculated in accordance with PRU 7.6.44R <u>INSPRU 1.5.44R</u> ...
<i>unpaid initial fund</i>	part of the <i>initial fund</i> of a <i>mutual</i> which the <i>mutual</i> is prevented from including in its <i>tier one capital resources</i> as <i>permanent share capital</i> by reason of PRU 2.2.29R <u>GENPRU 2.2.64R</u> because it is not fully paid.
<i>with-profits benefits reserves</i>	(in relation to a <i>with-profits fund</i>) the with-profits benefits reserve for the <i>with-profits fund</i> calculated in accordance with the rules in PRU 7.4.116R <u>INSPRU 1.3.116R</u> to PRU 7.4.135G <u>INSPRU</u>

1.3.135G.

with-profits fund

(1) ...

(2) for the purposes of INSPRU, a long-term insurance fund...

*with-profits insurance
capital component*

the capital component for *with-profits insurance business* of a *realistic basis life firm* calculated in accordance with ~~PRU 7.4~~ INSPRU 1.3.

Part 2B (Revised definitions taking effect on 1 January 2007)

Amend the following definitions in the Glossary as shown:

- ancillary insurance services undertaking* (1) (in relation to any *undertaking* in a *consolidation group*, *sub-group* or other group of *persons*) an *undertaking* complying with the following conditions:
- (a) its principal activity consists of:
 - (i) owning or managing property; or
 - (ii) managing data-processing services; or
 - (iii) any other similar activity;
 - (b) the activity in (a) is ancillary to the principal activity of one or more *insurance undertakings*; and
 - (c) those *insurance undertakings* are also members of that *consolidation group*, *sub-group* or other group of *persons*; ~~and~~
 - (d) ~~(for the purpose of PRU 8.4 (Cross sector groups), PRU 8.5 (Third country groups), PRU 8 Ann 1R (Capital adequacy calculations for financial conglomerates) and PRU 8 Ann 2R (Prudential rules for third country groups) it is not an *ancillary banking services undertaking*.~~
- ancillary services undertaking* (1) ~~an *ancillary insurance services undertaking*, an *ancillary banking services undertaking* or an *ancillary investment services undertaking*~~ (in accordance with Article 4(21) of the *Banking Consolidation Directive* (Definitions) and subject to (2)) and in relation to an *undertaking* in a *consolidation group*, *sub-group* or another group of *persons*) an *undertaking* complying with the following conditions:
- (a) its principal activity consists of:
 - (i) owning or managing property; or
 - (ii) managing data-processing services; or
 - (iii) any other similar activity;
 - (b) the activity in (a) is ancillary to the principal activity of one or more *credit institutions* or *investment firms*; and

(c) those credit institutions or investment firms are also members of that consolidation group, subgroup or group.

(2) (for the purpose of GENPRU 1.3 (Valuation) and INSPRU 6.1 (Group Risk: Insurance Groups) an undertaking in (1) and an ancillary insurance services undertaking.

applicable sectoral consolidation rules

(in respect of a *financial sector* and in accordance with paragraph 6.940 of GENPRU 38 Ann 1R (Applicable sectoral consolidation rules)) the *FSA's sectoral rules* about capital adequacy and solvency on a consolidated basis applicable to that *financial sector* under the table in paragraph 6.1044 of GENPRU 38 Ann 1R.

applicable sectoral rules

(in respect of a *financial sector*) *applicable sectoral consolidation rules* for that *financial sector* and the *FSA's sectoral rules* about capital adequacy and solvency for: ~~applicable to that *financial sector* under the table in paragraph 6.28 of GENPRU 38 Ann 1R;~~

(a) the banking and investment services sector as set out in paragraph 6.2 of GENPRU 3 Ann 1R; or

(b) insurance undertakings;

which of those sets of *rules* apply for the purpose of a particular calculation depends on the nature of that calculation.

asset management company

~~(in accordance with Article 2(5) of the *Financial Groups Directive (Definitions)*)~~ a management company within the meaning of Article 1a(2) of the *UCITS Directive*, as well as an *undertaking* the registered office of which is outside the *EEA* and which would require authorisation in accordance with Article 5(1) of the *UCITS Directive* if it had its registered office within the *EEA*.

bank

(a) a *firm* with a *Part IV permission* which includes *accepting deposits*, and:

(i) which is a *credit institution*; or

(ii) whose *Part IV permission* includes a *requirement* that it comply with ~~*IPRU(BANK)*~~ the rules in *GENPRU* and *BIPRU* relating to banks;

but which is not a *building society*, a *friendly society* or a *credit union*;

(b) ...

<i>banking and investment group</i>	<p>a group of <i>persons</i> (at least one of which is an <i>EEA regulated entity</i> that is a <i>credit institution</i> or an <i>investment firm</i>) who:</p> <ul style="list-style-type: none"> (a) form a group in respect of which the consolidated capital adequacy requirements for the <i>banking sector</i> or the <i>investment services sector</i> under: <ul style="list-style-type: none"> (i) the <i>FSA's sectoral rules</i>; or (ii) the <i>sectoral rules</i> of another <i>competent authority</i>; apply; or (b) would form such a group if the scope of those <i>sectoral rules</i> were amended as described in paragraph 3.1 of <u>GENPRU 38</u> Ann 2R (removing restrictions relating to place of incorporation or head office of members of those <i>financial sectors</i>).
<i>Banking Consolidation Directive</i>	<p>the Council Directive of the <u>European Parliament and the Council of 14 June 2006</u> 20 March 2006 relating to the taking up and pursuit of the business of credit institutions (No 2000/12/2006/48/EC).</p>
<i>banking sector</i>	<p>a sector composed of one or more of the following entities:</p> <ul style="list-style-type: none"> (a) a <i>credit institution</i>; (b) a <i>financial institution</i>; and (c) an <i>ancillary banking services undertaking</i> that is <u>not an ancillary insurance services undertaking</u>.
<i>base capital resources requirement</i>	<p>an amount of <i>capital resources</i> that a firm an <i>insurer</i> must hold as set out in <u>GENPRU 2.1.2630R</u> (Table: Base capital resources requirement for an insurer) or a <i>BIPRU firm</i> must hold under <u>GENPRU 2.1.41R</u> (Base capital resources requirement for a <i>BIPRU firm</i>) and <u>GENPRU 2.1.48R</u> (Table: Base capital resources requirement for a <i>BIPRU firm</i>) or, as the case may be, <u>GENPRU 2.1.60R</u> (Calculation of the base capital resources requirement for banks authorised before 1993).</p>
<i>base currency</i>	<ul style="list-style-type: none"> (1) (in <i>COLL</i> and <i>CIS</i>) the currency specified: <ul style="list-style-type: none"> (a) ... (b) ... (2) (in <i>ELM</i>, <i>GENPRU</i> and <i>BIPRU</i>) (in relation to an <i>ELMI firm</i>) the currency in which that <i>ELMI's firm's</i> books of account are drawn up.

BCD credit institution a *credit institution* that has its registered office (or, if it has no registered office, its head office) in an *EEA State*, excluding an institution to which the *BCD* does not apply under article 2(3) of the *BCD* (see also *full BCD credit institution*).

Capital Adequacy Directive the ~~Council~~ Directive of the European Parliament and the Council of ~~15 March 1993~~ 14 June 2006 on capital adequacy of investment firms and credit institutions (No ~~93/6/EEC~~ 2006/49/EC).

capital resources

- (1) in relation to a *BIPRU firm* or an *insurer*, the *firm's* capital resources as calculated in accordance with the *capital resources table*, ~~PRU 2.2.12R~~ including, in relation to a *BIPRU firm*, as that calculation is adjusted under *BIPRU* 10.5 for the purposes of *BIPRU* 10 (Concentration risk requirements); or
- (2) (in relation to an *institution* that is an *EEA firm* and not a *BIPRU firm* and which is required to meet the capital resources requirements of the *CRD implementation measures* for its *EEA State* on an individual basis) capital resources calculated under those *CRD implementation measures*; or
- (3) (for the purposes of *GENPRU* and *BIPRU*, in relation to an *undertaking* not falling within (1) or (2) and subject to (4)), capital resources calculated in accordance with (1) on the assumption that:
 - (a) it is a *BIPRU firm* with a *Part IV permission*; and
 - (b) it carries on all its business in the *United Kingdom* and has obtained whatever *permissions* for doing so are required under the *Act*; or
- (4) (for the purposes of *GENPRU* and *BIPRU* and in relation to any *undertaking* not falling within (1) or (2) for which the methodology in (3) does not give an answer whose *capital resources* a *BIPRU firm* (the "relevant firm") is required to calculate under a *Handbook rule*) capital resources calculated under (1) on the assumption that it is a *BIPRU firm* of the same category as the relevant firm.

capital resources requirement an amount of capital resources that:

- (1) a *BIPRU firm* must hold as set out in the *main BIPRU firm Pillar 1 rules*; or
- (2) an *insurer* must hold as set out in ~~*PRU* 2.1.14R to *PRU* 2.1.20R~~ *GENPRU* 2.1.17R to *GENPRU* 2.1.23R.

<i>commodity</i>	<p>(1) <u>(except for the purpose of calculating <i>position risk requirements</i>) a physical asset (other than a financial instrument or cash) which is capable of delivery.</u></p> <p>(2) <u>(for the purpose of calculating <i>position risk requirements</i>) any of the following (but excluding gold):</u></p> <p style="margin-left: 2em;">(a) <u>a commodity within the meaning of paragraph (1); and</u></p> <p style="margin-left: 2em;">(b) <u>any:</u></p> <p style="margin-left: 4em;">(i) <u>physical or energy product; or</u></p> <p style="margin-left: 4em;">(ii) <u>of the items referred to in paragraph 10 of Section C of Annex I of the <i>MIFID</i> as an underlying with respect to the <i>derivatives</i> mentioned in that paragraph;</u></p> <p style="margin-left: 4em;"><u>which is, or can be, traded on a secondary market.</u></p>
<i>competent authority</i>	<p>(1) ...</p> <p>...</p> <p>(3) <u>(in relation to a group, and for the purposes of <i>PRU 8-1SYSC 12</i> (Group risk systems and controls requirement), <i>GENPRU 8.4</i> (Cross sector groups), <i>PRU 8.5</i> (Third country groups), <i>PRU 8 Ann 1R</i> (Capital adequacy calculations for financial conglomerates) and <i>PRU 8 Ann 2R</i>, <i>BIPRU</i> and <i>INSPRU</i>, any national authority ...</u></p>
<i>conglomerate capital resources</i>	<p>(in relation to a <i>financial conglomerate</i> with respect to which <i>GENPRU 3.1.298.4.29R</i> (Application of methods 1, 2 or 3 from Annex I of the <i>Financial Groups Directive</i>) applies) capital resources as defined in whichever of paragraphs 1.1, 2.1 or 3.1 of <i>GENPRU 3</i> Ann 1R (Capital adequacy calculations for financial conglomerates) applies with respect to that <i>financial conglomerate</i>.</p>
<i>conglomerate capital resources requirement</i>	<p>(in relation to a <i>financial conglomerate</i> with respect to which <i>GENPRU 3.1.298.4.29R</i> (Application of methods 1, 2 or 3 from Annex I of the <i>Financial Groups Directive</i>) applies) the capital resources requirement defined in whichever of paragraphs 1.3, 2.4 or 3.3 of <i>GENPRU 3</i> Ann 1R (Capital adequacy calculations for financial conglomerates) applies with respect to that <i>financial conglomerate</i>.</p>
<i>consolidation group</i>	<p>the following:</p> <p style="margin-left: 2em;">(a) <u>a <i>conventional group</i>; or</u></p>

- (b) *undertakings* linked by a *consolidation Article 12(1) relationship* or (for the purposes of *BIPRU*) an *Article 134 relationship*.

If a *parent undertaking* or *subsidiary undertaking* in a *conventional group* (the first person) has a *consolidation Article 12(1) relationship* or (for the purposes of *BIPRU*) an *Article 134 relationship* with another *person* (the second person), the second person (and any *subsidiary undertaking* of the second person) is also a member of the same *consolidation group*.

conventional group

~~for the purposes of PRU 8 (Group Risk))~~ a group of *undertakings* that consists of a *parent undertaking* and the rest of its *sub-group*.

core tier one capital

an item of capital that is stated in stage A of the *capital resources table* ~~table in PRU 2.2.14R~~ (*Core tier one capital*) to be core tier one capital.

counterparty

- (1) (in *UPRU*) ...;
- (2) (for the purposes of the *rules* relating to *insurers* in *GENPRU* and *BIPRU* ...
- (3) (for the purposes of the *rules* relating to *BIPRU firms* in *GENPRU* and *BIPRU* and in relation to an *exposure* of a *person* ('A')) the *counterparty* with respect to that *exposure* or, if the context requires, another *person* in respect of whom, under that *exposure*, A is exposed to credit risk or the risk of loss if that *person* fails to meet its obligations, such as the issuer of the underlying security in relation to a *derivative* held by A.

credit institution

~~(as defined in accordance with articles 14(1) and 107 of the BCD);~~

- (1) an *undertaking* whose business is to receive deposits or other repayable funds from the public and to grant credits for its own account; or
- (2) an electronic money institution within the meaning of the *E-Money Directive*;

but so that:

- (3) ~~(except for the purposes of *GENPRU*, *ELM* and *BIPRU*) excluding~~ an institution within (2) that does not have the right to benefit from the mutual recognition arrangements under *BCD* is excluded; and
- (4) for the purposes of *BIPRU* 10 (Concentration risk requirements) it means:

- (a) a credit institution as defined by (1) to (2) that has been authorised in an EEA State; or
- (b) any private or public undertaking which meets the definition in (1) – (2) and which has been authorised in a non-EEA state.

(see also *BCD credit institution, full credit institution, full BCD credit institution and Zone A credit institution.*)

EEA banking and investment group

...

- (c) it is otherwise required by *EEA prudential sectoral legislation* for the *banking sector* or the *investment services sector* (except Article 56a 143 of the *Banking Consolidation Directive* (Third-country parent undertakings)) to be subject to consolidated supervision by a *competent authority*.

EEA firm

...

- (b) a *credit institution* (as defined in article 14(1) of the *Banking Consolidation Directive*) which is authorised (within the meaning of article 4(2)) by its *Home State regulator*;
- (c) a *financial institution* (as defined in article 14(5) of the *Banking Consolidation Directive*) which is a subsidiary of the kind mentioned in article 19 24 and which fulfils the conditions in articles 18 23 and 1924;

...

exempt CAD firm

- (1) ~~(in accordance with Article 2(2) of the *Capital Adequacy Directive* (Definitions)) a firm that satisfies the following conditions: (except in SYSC) has the meaning set out BIPRU 1.1.16R (Types of investment firm: exempt CAD firm) which is in summary an *investment firm* that satisfies certain specified conditions.~~
- (2) (in SYSC) a firm in (1) whose head office (or, if it has a registered office, that office) is in the United Kingdom.
 - (a) ~~it is an *ISD investment firm*;~~
 - (b) ~~it is not an *insurer*, a *bank*, a *building society* or an *ELMI*;~~

- (e) ~~its *permission* is subject to a *limitation* or *requirement* preventing it from holding *client money* or *clients' assets* and for that reason it may not at any time place itself in debit with its *clients*; and~~
- (d) ~~the only *core investment service* for which it has *permission* is receiving and transmitting on behalf of investors orders in relation to one or more of the instruments listed in Section B of the Annex to the *ISD*.~~

exposure

- (1) (in relation to a *firm* but subject to (2) and (3)) the maximum loss which the *firm* might suffer if:
 - (a) a counterparty or a group of connected counterparties fail to meet their obligations; or
 - (b) it realises assets or off-balance sheet positions.
- (2) (in accordance with Article 77 of the *Banking Consolidation Directive* and for the purposes of the calculation of the *credit risk capital component* and the *counterparty risk capital component* (including *BIPRU 3* (Standardised credit risk), *BIPRU 4* (The IRB approach), *BIPRU 5* (Credit risk mitigation) and *BIPRU 9* (Securitisation)) an asset or off-balance sheet item.
- (3) (for the purposes of *BIPRU 10* (Concentration risk requirements)) has the meaning in *BIPRU 10.2* (Identification of exposures).

financial conglomerate definition decision tree

the decision tree in *GENPRU 38* Ann 4R.

financial institution

- (1) (in accordance with paragraph 5(c) of Schedule 3 to the *Act* (EEA Passport Rights: EEA firm) and article 14(5) of the *Banking Consolidation Directive* (Definitions), but not for the purposes of *ELM*, *GENPRU*, *BIPRU* and *INSPRU 8* (Group risk)), an undertaking, other than a *credit institution*, the principal activity of which is to acquire holdings or to carry on one or more of the listed activities listed in points 2 to 12 of Annex I to the *BCD*, which is a subsidiary of the kind mentioned in article 19 24 of the *BCD* and which fulfils the conditions in that articles 18 and 19 of the *BCD*.
- (2) for the purposes of *ELM*, *GENPRU*, *BIPRU* and *INSPRU 8* (Group risk) and in accordance with Articles 1(3) (Scope) and 14(5) (Definitions) and 2(2) (Scope) of the *Banking Consolidation Directive*) the following:

- (a) an *undertaking*, other than a *credit institution*, the principal activity of which is to acquire holdings or to carry on one or more of the *listed activities* listed in points 2 to 12 of Annex I to the *Banking Consolidation Directive* including the services and activities provided for in Sections A and B of Annex I of the MIFID when referring to the financial instruments provided for in Section C of Annex I of that Directive;
- (b) (for the purposes of consolidated requirements) those institutions permanently excluded by Article paragraph 2(3) of the Banking Consolidation Directive (Scope), with the exception of the central banks ~~central banks~~ of ~~Member EEA States~~, but so that, so far as this paragraph (b) applies for the purposes of *ELM*, it ~~only applies for the purposes of chapter 7 (Consolidated financial supervision) of ELM~~; and
- (c) ...
- financial instrument* (1) (other than for the purposes of BIPRU and GENPRU) as defined in Article 5 of the Prescribed Markets and Qualifying Investments Order and Article 1(3) of the Market Abuse Directive, and which consequently carries the same meaning in the Buy-back and Stabilisation Regulation);
- (a) ...
- ...
- (2) (for the purposes of BIPRU and GENPRU) an instrument listed in Section B of the Annex to the ISD.
- financial sector* (1) ~~one of the banking sector, the insurance sector or the investment services sector. (subject to (2))~~ one of the banking sector, the insurance sector or the investment services sector.
- (2) (for the purposes of the definition of financial conglomerate and for any other provision of GENPRU 3 that treats the banking sector and the investment services sector as one) one of the banking and investment services sector or the insurance sector.
- foreign currency* (in *ELM*, *GENPRU* and *BIPRU*) (in relation to an *ELMI firm*) any currency other than the *base currency*.

*FSA regulated EEA
financial conglomerate*

a *financial conglomerate* (other than a *third-country financial conglomerate*) that satisfies one of the following conditions:

- (a) ~~GENPRU 3.1.268-4.26R~~ or ~~GENPRU 3.1.298-4.29R~~ (Capital adequacy calculations for *financial conglomerates*) applies with respect to it; or
- (b) a *firm* that is a member of that *financial conglomerate* is subject to obligations imposed through its *Part IV permission* to ensure that that *financial conglomerate* meets levels of capital adequacy based or stated to be based on Annex I of the *Financial Groups Directive*.

group

- (1) (except in relation to an *ICVC* and except for the purposes of ~~PRU 8.1-SYSC 12~~ (Group risk systems and controls requirement) ...

...

- (3) (for the purposes of ~~PRU 8.1-SYSC 12~~ (Group risk systems and controls requirement) ...

immediate group

...

- (2) (in *ELM 7* and *BIPRU* and in relation to *any person*) has the same meaning as in paragraph (1), with the omission of (1)(e).

initial capital

- (1) (in *ELM*) ...

- (2) (in *UPRU*) ...

- ~~(2) (for the purposes of the definition of matched principal dealer, in accordance with Article 2(24) of the Capital Adequacy Directive (Definitions) and with respect to a firm) capital that is recognised for the purpose of the rules about capital adequacy to which that firm is subject but excluding, in accordance with items (1) and (2) of Article 34(2) of the Banking Consolidation Directive (General principles), anything that does not fall within the following classes of capital:~~

- ~~(a) capital within the meaning of Article 22 of the Bank Accounts Directive (Liabilities: Item 9-Subscribed capital), insofar as it has been paid up, plus share premium accounts but excluding cumulative preferential shares; or~~

(b) reserves within the meaning of Article 23 of the Bank Accounts Directive (Liabilities: Item 11—Reserves) and profits and losses brought forward as a result of the application of the final profit or loss. Interim profits can only be included before a formal decision has been taken only if these profits have been verified by persons responsible for the auditing of the accounts and if the amount thereof has been evaluated in accordance with the principles set out in the Bank Accounts Directive and is net of any foreseeable charge or dividend.

(3) (in the case of a BIPRU firm) capital resources included in stage A (Core tier one capital) of the capital resources table plus capital resources included in stage B of the capital resources table (Perpetual non-cumulative preference shares);

(4) (in the case of an institution that is an EEA firm) capital resources calculated in accordance with the CRD implementation measures of its Home State for Article 4 of the Capital Adequacy Directive (Definition of initial capital) or Article 9 of the Banking Consolidation Directive (Initial capital requirements); and

(5) (for the purposes of the definition of dealing on own account and in the case of an undertaking not falling within (3) or (4)) capital resources calculated in accordance with (3) and paragraphs (3) and (4) of the definition of capital resources.

In the case of a firm subject to the rules in chapter 10 of IPRU(INV), initial capital means initial capital as defined in the Glossary to that chapter.

innovative tier one capital an item of capital that is stated in ~~stage C of the table in GENPRU 2.2.14R~~ (Capital resources) to be innovative tier one capital.

innovative tier one capital resources the amount of *capital resources* at stage C of the *capital resources table* ~~table in PRU 2.2.14R~~ (Innovative tier one capital).

innovative tier one instrument a *potential tier one instrument* that is stated in ~~GENPRU 2.2.52R to PRU 2.2.69R~~ (Capital resources) to be an innovative instrument.

<i>insurance conglomerate</i>	<p>a <i>financial conglomerate</i> identified as an insurance conglomerate in the decision tree in paragraph 4.5 of PRU 8 Ann 1R (Decision tree for types of <i>financial conglomerate</i> and definition of <i>most important financial sector</i>) <u>a <i>financial conglomerate</i> that is identified in paragraph 4.3 of GENPRU 3 Ann 1R (Types of financial conglomerate) as an insurance conglomerate.</u></p>
<i>insurance holding company</i>	<p>(1)</p> <p>(2) For the purposes of:</p> <p style="padding-left: 40px;">(a) the definition of the <i>insurance sector</i>; and</p> <p style="padding-left: 40px;">(b) <u>ELM</u>; <u>and</u></p> <p style="padding-left: 40px;">(c) <u>the definition of <i>material insurance holding</i></u>;</p> <p style="padding-left: 80px;">paragraph (1)(b) of this definition does not apply.</p>
<i>insurance sector</i>	<p>a sector composed of one or more of the following entities:</p> <p style="padding-left: 40px;">(a) an <i>insurance undertaking</i>;</p> <p style="padding-left: 40px;">(b) an <i>insurance holding company</i>; and</p> <p style="padding-left: 40px;">(c) (in the circumstances described in <u>GENPRU 3.1.398-4.39R</u> (The financial sectors: Asset management companies)) an <i>asset management company</i>.</p>
<i>in the money</i>	<p>(1) (in <i>LR</i>) (in relation to securitised derivatives):</p> <p style="padding-left: 40px;">(a) ...</p> <p style="padding-left: 40px;">(b) ...</p> <p>(2) <u>(for the purposes of BIPRU 7 (Market risk) and in relation to an <i>option</i> or <i>warrant</i> the strike price of that <i>option</i> or <i>warrant</i> being less than the current market value of the underlying instrument (in the case of a call <i>option</i> or <i>warrant</i>) or vice versa (for a put <i>option</i>).</u></p>
<i>investment management firm</i>	<p>(1) <u>(except in SUP 16 and subject to BIPRU TP 1.3R (Revised definition of investment management firm for certain transitional purposes)), a <i>firm</i> whose <i>permitted activities</i> include <i>designated investment business</i>, which is not an <i>authorised professional firm</i>, <i>bank</i>, <u>BIPRU investment firm</u>, <i>ELMI</i>, <i>building society</i>, <i>credit union</i>, ...</u></p>

(2) (in SUP 16) as in (1) but excluding the words 'BIPRU investment firm'.

investment services sector a sector composed of one or more of the following entities:

- (a) an *investment firm*;
- (b) a *financial institution*; and
- (c) (in the circumstances described in GENPRU 3.1.398-4.39R (The financial sectors: Asset management companies)) an *asset management company*.

local (1) (except in BIPRU 1.1 (Application and purpose)) a firm which is a member of a futures and options exchange and whose permission includes a requirement that:

- (a) the *firm* will not conduct *designated investment business* other than:
 - (i) *dealing* for its own account on that *futures* or *options* exchange; or
 - (ii) *dealing* for the accounts of other members of the same *futures* and *options* exchange; or
 - (iii) making a price to other members of the same *futures* and *options* exchange; and
- (b) the performance of the *firm's* contracts must be guaranteed by and must be the responsibility of one or more of the clearing members of the same *futures* and *options* exchange.

(2) (in BIPRU 1.1 (Application and purpose) and in accordance with article 3(1)(p) of the *Capital Adequacy Directive* (Definitions)) an *undertaking* dealing for its own account on markets in financial-futures or options or other derivatives and on cash markets for the sole purpose of hedging *positions* on derivatives markets or which deals for the accounts of other members of those markets and which are guaranteed by clearing members of the same markets, where responsibility for ensuring the performance of contracts entered into by such an *undertaking* is assumed by clearing members of the same markets; for these purposes a clearing member means a member of the exchange or the clearing house which has a direct contractual relationship with the central counterparty (market guarantor).

lower tier two capital (1) (in *ELM*) ...

	(2) (in <i>BIPRU</i> , <i>GENPRU</i> and <i>INSPRU</i>) an item of capital that is specified in stage H of the <i>capital resources table</i> in PRU 2.2.14R (Lower tier two capital).
<i>lower tier two capital resources</i>	the sum calculated at stage H of the calculation in the <i>capital resources table</i> PRU 2.2.14R (Lower tier two capital).
<i>lower tier two instrument</i>	an item of capital that meets the conditions in GENPRU 2.2.10894R (Lower tier two capital) and is eligible to form part of a <i>firm's lower tier two capital resources</i> .
<i>material holdings</i>	(1) (in for the purposes of <i>ELM</i>) the a holdings and or positions set out in ELM <i>ELM</i> 2.4.17R (Material holdings). (2) (for the purposes of <i>GENPRU</i> and <i>BIPRU</i>) has the meaning in <i>GENPRU</i> 2.2.209R (Deductions from tiers one and two: Material holdings).
<i>mixed-activity holding company</i>	one of the following: (a) (in accordance with Article 4(22) 4(20) of the <i>Banking Consolidation Directive</i> (Definitions)) a <i>parent undertaking</i> , other than a <i>financial holding company</i> , a <i>credit institution</i> or a <i>mixed financial holding company</i> , the <i>subsidiary undertakings</i> of which include at least one <i>credit institution</i> ; or (b) (in accordance with Articles 7(3) 2(2) and 37(1) of the <i>Capital Adequacy Directive</i> (Supervision on a consolidated basis) and in relation to a <i>banking</i> and <i>investment group</i> without any <i>credit institutions</i> in it) a <i>parent undertaking</i> , other than a <i>financial holding company</i> , an <i>investment firm</i> or a <i>mixed financial holding company</i> , the <i>subsidiary undertakings</i> of which include at least one <i>investment firm</i> .
<i>mixed financial holding company</i>	(in accordance with Article 2(15) of the <i>Financial Groups Directive</i> (Definitions)) a <i>parent undertaking</i> , other than a <i>regulated entity</i> , which <u>meets the following conditions:</u> (a) <u>it, together with its <i>subsidiary undertakings</i>, at least one of which is an <i>EEA regulated entity</i>, and other entities, constitutes a <i>financial conglomerate</i>;</u> (b) <u>it has been notified by its <i>coordinator</i> that its group is a <i>financial conglomerate</i> in accordance with Article 4(2) of the <i>Financial Groups Directive</i>; and</u>

- (c) it has not been notified that its *coordinator* and other *relevant competent authorities* have agreed not to treat the group as a *financial conglomerate* in accordance with Article 3(3) of the *Financial Groups Directive*.

most important financial sector

(in relation to a *financial sector* in a *consolidation group* or a *financial conglomerate* and in accordance with GENPRU 3.18.4 (Cross sector groups)) the *financial sector* with the largest average referred to in the box titled Threshold Test 2 in the *financial conglomerate definition decision tree* (10% ratio of balance sheet size and solvency requirements) and so that ~~(a)~~ the *investment services sector* and the *banking sector* are treated as one for the purposes of the definition of *financial conglomerate* and for any other purpose that GENPRU 3.1 (Cross sector groups) says they are. ~~set out in PRU 8.4.7R (Definition of financial conglomerate: The financial sectors: General); and~~

- (b) ~~the definition is altered as set out in paragraph 4.4 and the decision tree in paragraph 4.5 of PRU 8 Ann 1R (Types of financial conglomerate and definition of most important financial sector) for the purposes set out in paragraph 4.4 of PRU 8 Ann 1R.~~

multilateral development bank

- (1) any of the following:

- (i) African Development Bank; ~~(AfDB)~~
- (ii) Asian Development Bank; ~~(ASB)~~
- (iii) Caribbean Development Bank; ~~(CDB)~~
- (iv) Council of Europe Development Bank;
- (v) European Bank for Reconstruction & Development; ~~(EBRD)~~
- (vi) European Investment Bank; ~~(EIB)~~
- (vii) European Investment Fund; ~~(EIF)~~
- (viii) Inter-American Development Bank; ~~(IADB)~~
- ~~Inter-American Investment Corporation (IAIC)~~
- (ix) International Bank for Reconstruction & Development ~~(IBRD)~~;
- (x) ~~including~~ International Financial Corporation; ~~(IFC)~~

(xi) Multilateral Investment Guarantee Agency; ~~(MIGA)~~ and

(xii) Nordic Investment Bank; ~~(NIB)~~

(2) for the purposes of the *standardised approach* to credit risk the following are considered to be a multilateral development bank:

(i) the Inter-American Investment Corporation;

(ii) the Black Sea Trade and Development Bank; and

(iii) the Central American Bank for Economic Integration

oil market participant

a *firm*:

(a) ...

(b) which is not an *authorised professional firm, bank, BIPRU investment firm, building society,* ...

option

the *investment*, specified in article 83 of the *Regulated Activities Order* (Options), which is an option to acquire or dispose of:

(a) ...

(b) ...

(c) ...

(d) an option to acquire or dispose of an option specified in (a), (b) or (c);

but so that for the purposes of calculating capital requirements for BIPRU firms and BIPRU 10 (Concentration risk requirements) it also includes any of the items listed in the table in BIPRU 7.6.18R (Option PRR: methods for different types of option) and any cash settled option.

overall financial sector

a sector composed of one or more the following types of entities:

(a) members of each of the *financial sectors*; and

(b) (except where GENPRU 3.18.4 (Cross sector groups) or GENPRU 38 Ann 1R (Capital adequacy calculations for financial conglomerates) provide otherwise) a *mixed financial holding company*.

- own funds* (1) own funds as described in articles ~~34~~56 to ~~39~~67 of the *Banking Consolidation Directive*.
- ...
- ownership share* (~~in ELM~~) in accordance with the definition of a "share" in section 422(6) of the *Act* (Controller):
- parent undertaking* ...
- (a) (in relation to whether an *undertaking*, other than an *incorporated friendly society*, is a *parent undertaking* and except for the purposes of ~~PRU 8.4 (Cross sector groups), PRU 8.5 (Third country groups), PRU 8 Ann 1R (Capital adequacy calculations for financial conglomerates) and PRU 8 Ann 2R (Prudential rules for third country groups described in (c))~~ an *undertaking* which has the following relationship to another *undertaking* ("S")):
- (i) ...
- (b) (in relation to whether an *incorporated friendly society* is a parent undertaking and except for the purposes of ~~PRU 8.4 (Cross sector groups), PRU 8.5 (Third country groups), PRU 8 Ann 1R (Capital adequacy calculations for financial conglomerates) and PRU 8 Ann 2R (Prudential rules for third country groups described in (c))~~ an *incorporated friendly society* which has the following relationship to a *body corporate* ("S")):
- (i) ...
- (c) (for the purposes of BIPRU, GENPRU and INSPRU as they apply on a consolidated basis, for the purposes of BIPRU 10 (Concentration risk requirements) and for the purposes of SYSC 12 (Group risk systems and controls requirement) ~~PRU 8.4 (Cross sector groups), PRU 8.5 (Third country groups), PRU 8 Ann 1R (Capital adequacy calculations for financial conglomerates) and PRU 8 Ann 2R (Prudential rules for third country groups)~~ and in relation to whether an *undertaking* is a parent undertaking) an *undertaking* which has the following relationship to another *undertaking* ("S")):
- (i) a relationship described in (a) other than (a)(vii); or

- (ii) it effectively exercises a dominant influence over S₂;

and so that ~~(e)(ii) applies also~~ (a)(v) does not apply for the purpose of BIPRU as it applies on a consolidated basis (including BIPRU 8 (Group risk - consolidation)) or BIPRU 10 -PRU 8.4 (Group risk systems and controls requirement).

participation

(for the purposes of *ELM*, *UPRU* and ~~*GENPRU-PRU 8 (Group risk)*~~ and for the purposes of *BIPRU* and *INSPRU* as they apply on a consolidated basis):

(a) ...

PD

- (1) (except in *GENPRU* and *BIPRU*) Prospectus Directive.
- (2) (in *GENPRU* and *BIPRU*) probability of default.

permanent share capital

an item of capital that is stated in *GENPRU 2.2.836R (Core tier one capital: permanent share capital)* to be permanent share capital.

personal investment firm

- (1) (except in *SUP 16* and subject to *BIPRU TP 1.3R (Revised definition of personal investment firm for certain transitional purposes)*) a firm whose permitted activities include designated investment business, which is not an authorised professional firm, bank, *BIPRU investment firm*, *ELMI*, building society, credit union, ...
- (2) (in *SUP 16*) as in (1) but excluding the words '*BIPRU investment firm*'.

potential tier one instrument

an item of capital that falls into *GENPRU 2.2.2762R (Tier one capital: General)*.

qualifying debt security

- (1) (for the purposes of ~~*ELM*~~ in *ELM*) a security falling into *ELM 3.3.9R (Liquid assets)*.
- (2) (for the purposes of *BIPRU*) a debt security that satisfies the conditions in *BIPRU 7.2.49R (Definition of a qualifying debt security)*.

recognised third country investment firm

~~(in *ELM*)~~ an *CAD investment firm* that satisfies the following conditions:

- (a) is subject to the prudential rules of one of the regulatory bodies in Appendix C in section 10 of chapter CS of *IPRU(BANK)*; and its head office is outside the *EEA*;

- (b) has its registered office (or, if it has no registered office, its head office) in the state in which that regulatory body is established; it is authorised by a *third country competent authority* in the state or territory in which the *CAD investment firm's* head office is located;
- (c) that *third country competent authority* is named in Part 2 of *BIPRU 8 Annex 6R (Non –EEA investment firm regulators' requirements deemed CRD- equivalent for individual risks)*; and
- (d) that *investment firm* is subject to and complies with prudential rules of or administered by that *third country competent authority* that are at least as stringent as those laid down in the *EEA prudential sectoral legislation for the investment services sector*.

regulated entity

one of the following:

- (a) a *credit institution*; or
- (b) a *regulated insurance entity*; or
- (c) an *investment firm*;

whether or not it is incorporated in, or has its head office in, an *EEA State*.

An *asset management company* is treated as a regulated entity for the purposes described in *GENPRU 3.1.128-4.39R* (The financial sectors: asset management companies).

sectoral rules

(in relation to a *financial sector*) rules and requirements relating to the prudential supervision of *regulated entities* applicable to *regulated entities* in that *financial sector* as follows:

- (a) (for the purposes of *GENPRU 3.1.128-4.12R* (Definition of financial conglomerate: Solvency requirement)) *EEA prudential sectoral legislation* for that *financial sector* together with as appropriate the rules and requirements in (c); or
- (b) (for the purpose of calculating *solo capital resources* and a *solo capital resources requirement*):

- (i) (to the extent provided for in paragraphs 6.5 to 6.6 of *GENPRU 3* of *PRU 8* Ann 1R) rules and requirements that are referred to in ~~those paragraphs~~ paragraph 6.6 of *PRU 8* Ann 1R (Solo capital resources requirement: Non-EEA firms subject to equivalent regimes); and
- (ii) the rules and requirements in (c); or
- (c) (for all other purposes) rules and requirements: of the *FSA*;
 - (i) ~~of the *FSA*~~; or
 - (ii) ~~of or administered by another competent authority~~;

and so that:

- (d) (in relation to prudential rules about consolidated supervision for any *financial sector*) those requirements include ones relating to the form and extent of consolidation;
- (e) (in relation to any *financial sector*) those requirements include ones relating to the eligibility of different types of capital;
- (f) (in relation to any *financial sector*) those requirements include both ones applying on a solo basis and ones applying on a consolidated basis;
- (g) (in relation to the *insurance sector*) references in this definition to consolidated supervision are to supplementary supervision, similar expressions being interpreted accordingly; and
- (h) references to the *FSA's sectoral rules* are to *sectoral rules* in the form of *rules*;

~~;~~ and

- (i) ~~(for the purpose of calculating solo capital resources and a solo capital resources requirement) the following undertakings are not subject to sectoral rules for the purposes of paragraphs 6.2, 6.3, 6.5 or 6.6 of *PRU 8* Ann 1R as the case may be and instead fall under paragraph 6.7 of *PRU 8* Ann 1R (Solo capital resources requirement: other members)~~;

- (i) ~~a *regulated entity* that is incorporated in, and has its head office in, one of the states or territories referred to in paragraph 6.5 of Part 6 of PRU 8 Ann 1R (Solo capital resources requirement: non-EEA firms subject to equivalent regimes), a *UK domestic firm* or an *EEA regulated entity* if it has an exemption from the *sectoral rules* referred to in paragraphs 6.2, 6.3 or 6.6 of PRU 8 Ann 1R as the case may be; and~~
- (ii) ~~a *regulated entity* that is incorporated in, and has its head office in, one of the states or territories referred to in paragraph 6.5 of Part 6 of PRU 8 Ann 1R if it is not subject to requirements that are equivalent to *EEA prudential sectoral legislation* applicable to its *financial sector*.~~

securities and futures firm (1) ~~(except in SUP 16 and subject to BIPRU TP 1.3R (Revised definition of securities and futures firm for certain transitional purposes)) a *firm* whose *permitted activities* include *designated investment business*, which is not an *authorised professional firm*, *bank*, *BIPRU investment firm*, *ELMI*, *building society*, *credit union*,
....~~

(2) ~~(in SUP 16) as in (1) but excluding the words '*BIPRU investment firm*'.~~

securitisation (1) ~~(subject to (2)) a process by which assets are sold to a bankruptcy-remote *special purpose vehicle* in return for immediate cash payment and that vehicle raises the immediate cash payment through the issue of debt securities in the form of tradable notes or commercial paper.~~

(2) ~~(in accordance with Article 4(36) of the *Banking Consolidation Directive* (Definitions) and in *BIPRU*) a transaction or scheme whereby the credit risk associated with an *exposure* or pool of *exposures* is *tranch*ed having the following characteristics:~~

- (a) ~~payments in the transaction or scheme are dependent upon the performance of the *exposure* or pool of *exposures*; and~~

- (b) the subordination of *tranches* determines the distribution of *losses* during the ongoing life of the transaction or scheme.

smallest financial sector

(in relation to a *financial sector* in a *consolidation group* or a *financial conglomerate* and in accordance with GENPRU 3.18.4 (Cross sector groups)) the *financial sector* with the smallest average referred to in the box titled Threshold Test 2 in the *financial conglomerate definition decision tree* (10% ratio of balance sheet size and solvency requirements), the *banking sector* and *investment services sector* being treated as one *financial sector* in the circumstances set out in GENPRU 3.18.4.

solo capital resources

- (1) (for the purposes of GENPRU 3 and INSPRU 6 ~~PRU 8~~ (Group risk) and in relation to a member of a *financial conglomerate* in the overall *financial sector*) capital resources that are or would be eligible as capital under the *sectoral rules* that apply for the purpose of calculating its *solo capital resources requirement*. Paragraph 6.89 of GENPRU 3 Ann 1R (Solo capital resources requirement: the insurance sector) applies for the purpose of this definition in the same way as it does for the definition of *solo capital resources requirement*.
- (2) for the purpose of BIPRU 10 (Concentration risk requirements) the definition in (1) is adjusted in accordance with BIPRU 10.8.13R (Calculation of capital resources for a UK integrated group) so that it means *capital resources* calculated in accordance with the *rules* applicable to the category of BIPRU firm identified by applying the procedure in BIPRU 8.6.6R to BIPRU 8.6.9R (Consolidated capital resources).

solo capital resources requirement

(for the purpose of PRU 8 (Group risk)) a capital resources requirement calculated on a solo basis as defined in paragraphs 6.2-6.9 of PRU 8 Ann 1R (Solo capital resources requirement: the insurance sector).

- (1) (for the purpose of GENPRU 3) a capital resources requirement calculated on a solo basis as defined in paragraph 6.2 to 6.7 of GENPRU 3 Ann 1R.
- (2) (for the purposes of INSPRU 6) a capital resources requirement calculated on a solo basis as defined in paragraph 6.2 to 6.7 of GENPRU 3 Ann 1R as it would apply if references to *financial conglomerate* in those paragraphs were replaced with references to *insurance group*.

- (3) (for the purposes of GENPRU 2.2.214R (Deductions from tiers one and two: Material holdings)) a capital resources requirement calculated on a solo basis as defined in paragraph 6.2 to 6.7 of GENPRU 3 Ann 1R as those paragraphs apply to the insurance sector.
- solvency deficit* (in GENPRU 38 Ann 1R (Capital adequacy calculations with respect to financial conglomerates) and in respect of a member of the overall financial sector) the amount (if any) by which its solo capital resources fall short of its solo capital resources requirement.
- specific risk* (1) (in SYSC) unique risk that is due to the individual nature of an asset and can potentially be diversified.
- (2) (in GENPRU and BIPRU and in accordance with paragraph 12 of Annex I of the Capital Adequacy Directive) the risk of a price change in an investment due to factors related to its issuer or, in the case of a derivative, the issuer of the underlying investment.
- sponsor* (1) (in LR) a person approved, under section 88 of the Act by the FSA, as a sponsor.
- (2) (in BIPRU), in accordance with Article 4(42) of the Banking Consolidation Directive (Definitions) and in relation to a securitisation within the meaning of paragraph (2) of the definition of securitisation) an undertaking other than an originator that establishes and manages an asset backed commercial paper programme or other securitisation scheme that purchases exposures from third party entities.
- step-up* (in relation to any item of capital) any change in the coupon rate on that item that results in an increase in the amount payable at any time, including a change already provided in the original terms governing those payments. A step-up:
- (1) (in relation to a tier one instrument) has the meaning set out in PRU 2.2.74R; and
- (2) (in relation to a tier two instrument) has the meaning set out in PRU 2.2.118R.
- (a) includes (in the case of a fixed rate) an increase in that coupon rate;
- (b) includes (in the case of a floating rate calculated by adding a fixed amount to a fluctuating amount) an increase in that fixed amount;

	(c) <u>includes (in the case of a floating rate) a change in the benchmark by reference to which the fluctuating element of the <i>coupon</i> is calculated that results in an increase in the absolute amount of the <i>coupon</i>; and</u>
	(d) <u>does not include (in the case of a floating rate) an increase in the absolute amount of the <i>coupon</i> caused by fluctuations in the fluctuating figure by reference to which the absolute amount of the <i>coupon</i> floats.</u>
<i>tier one capital</i>	(a) (in <i>ELM</i>) ... (b) (in <i>PRU BIPRU</i> , <i>GENPRU</i> and <i>INSPRU</i>) an item of capital that is specified in stages A (<u>Core tier one capital</u>), B (<u>Perpetual non-cumulative preference shares</u>) or C (<u>Innovative tier one capital</u>) of the <u>capital resources table</u> table in <i>PRU 2.2.14R</i> .
<i>tier one capital resources</i>	the sum calculated at stage F of the calculation in <u>the capital resources table</u> <i>PRU 2.2.14R</i> (Total tier one capital after deductions).
<i>tier one instrument</i>	an item of capital that falls into <i>GENPRU 2.2.2762R</i> (<u>Tier one capital: General</u>) and is eligible to form part of a <i>firm's tier one capital resources</i> .
<i>tier two capital</i>	(a) (in <i>ELM</i>) ... (b) (in <i>PRU BIPRU</i> , <i>GENPRU</i> and <i>INSPRU</i>) an item of capital that is specified in stages G (<u>Upper tier two capital</u>) or H (<u>Lower tier two capital</u>) of the <u>capital resources table</u> table in <i>PRU 2.2.14R</i> .
<i>tier two capital resources</i>	the sum calculated at stage I (<u>Total tier two capital</u>) of the calculation in <u>the capital resources table</u> <i>PRU 2.2.14R</i> .
<i>tier two instrument</i>	an item of capital <u>capital instrument</u> that meets the conditions in <i>GENPRU 2.2.10459R</i> (<u>General conditions for eligibility as tier two capital instruments</u>) or <i>GENPRU 2.2.10877R</i> (<u>Upper tier two capital: General</u>) and is eligible to form part of a <i>firm's tier two capital resources</i> .
<i>trading book</i>	(1) (in <i>UPRU</i>)

	(2)	<u>(in BIPRU and GENPRU and in relation to a BIPRU firm) has the meaning in BIPRU 1.2 (Definition of the trading book) which is in summary, all that firm's positions in CRD financial instruments and commodities held either with trading intent or in order to hedge other elements of the trading book, and which are either free of any restrictive covenants on their tradability or able to be hedged.</u>
	(3)	<u>(in BIPRU and GENPRU and in relation to a person other than a BIPRU firm) has the meaning in (2) with references to a firm replaced by ones to a person.</u>
<i>upper tier two capital</i>	(1)	(in ELM) ...
	(2)	<u>(in PRU BIPRU, GENPRU and INSPRU) an item of capital that is specified in stage G of the capital resources table (Upper tier two capital) table in PRU 2.2.14R.</u>

Annex B

Amendments to Threshold Conditions

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend COND 2.4 as follows:

2.4 Threshold condition 4: Adequate resources

...

2.4.2 G (1) ...

(2) ...

(3) High level systems and control requirements are in SYSC. Detailed financial resources and systems requirements are in the relevant section of ~~IPRU or PRU~~ the Prudential Standards part of the Handbook, including specific provisions for particular types of *regulated activity*. ...

2.4.3 G (1) ...

(2) In particular, although it is the *firm* that is being assessed, the *FSA* may take into consideration the impact of other members of the *firm's group* on the adequacy of its resources. For example, the *FSA* may assess the consolidated solvency of the *group*. The *FSA's* approach to the consolidated supervision of a *firm* and its *group* is in the relevant part of ~~IPRU or PRU~~ the Prudential Standards part of the Handbook.

2.4.4 G (1) ...

(2) Relevant matters may include but are not limited to:

(a) whether there are any indications that the *firm* may have difficulties if the application is granted (see COND 2.4.6 G), at the time of the grant or in the future, in complying with any of the *FSA's* prudential *rules* (see the relevant part of ~~IPRU or PRU~~ the Prudential Standards part of the Handbook);

...

...

...

- 2.4.6 G (1) ...
- (2) As a result, the *FSA* would expect a *firm* which is applying for *Part IV permission*, or a substantial variation of that *permission*, to take adequate steps to satisfy itself and, if relevant, the *FSA* that:
- (a) it has a well constructed business plan or strategy plan for its product or service which demonstrates that it is ready, willing and organised to comply with the relevant requirements in ~~*IPRU, PRU*~~ the Prudential Standards part of the *Handbook* and *SYSC* that apply to the *regulated activity* it is seeking to carry on; ...
- ...
- ...
- ...

Annex C

Amendments to the Senior Management Arrangements, Systems and Controls

In this Annex, underlining indicates new text and striking through indicates deleted text.

...

App 1.1.8 G Examples of how the *FSA* considers that SYSC 3 will apply in practice to an *incoming EEA firm* (see SYSC 1.1.4 R) are as follows:

(1) The ~~Integrated Prudential Sourcebook (*PRU*)~~ Prudential Standards part of the *Handbook* (with the exception of ~~PRU 7.6.33~~ *INS* PRU 1.5.33 R on the payment of financial penalties) and the Interim Prudential sourcebook (insurers) (*IPRU (INS)*) (~~with the exception of rules 3.6 and 3.7~~) do not apply to an *insurer* which is an *incoming EEA firm*. Similarly, SYSC 3 does not require such a *firm*:

(a) ...

(b) to establish systems and controls for compliance with that ~~Interim Prudential sourcebook or *PRU*~~ Prudential Standards part of the *Handbook* (SYSC 3.2.6 R); or

(c) ...

...

...

Annex D

Amendments to the Integrated Prudential sourcebook

In this Annex, new text is not underlined and deleted text is not shown struck-through.

Chapter GN, Section 2

2. THE PRUDENTIAL SOURCEBOOK FOR BANKS: APPLICATION AND PURPOSE

Application

1. From December 2004 the Financial Services Authority (the FSA) has begun the phased implementation for *banks* of its Integrated Prudential Sourcebook (*PRU*). This will eventually replace the set of sectoral prudential sourcebooks applied on an interim basis, including this one applying to *banks* (*IPRU (BANK)*).

With the implementation of the recast Capital Adequacy Directive and the Banking

Consolidation Directive in the UK from January 2007, the Integrated Prudential Sourcebook (PRU) and the Interim Prudential sourcebook for banks (IPRU (BANK)) have, so far as banks are concerned, been substantially substituted by the General Prudential Sourcebook (GENPRU), parts of the Senior Management Arrangements, Systems and Controls sourcebook (SYSC) and the Prudential Sourcebook for Banks, Building Societies and Investment Firms (BIPRU). The only remaining prudential standards in IPRU (BANK) are those that relate to liquidity. Over the transition period until all the provisions of IPRU (BANK) have been revoked, the FSA's detailed prudential standards (and some related notification requirements) applying to banks authorised under the Act are set out in a combination of PRU, GENPRU, BIPRU, SYSC and IPRU (BANK). Where a chapter of IPRU (BANK) has been substantively affected by the implementation of PRU, the introductory section of that chapter has been amended to indicate in broad terms how the chapter's provisions relate to those in PRU. Banks are responsible for ensuring that they meet all the prudential standards applying to them in both PRU, GENPRU, BIPRU, SYSC and IPRU (BANK) during the transitional period.

2. ~~IPRU (BANK) sets out material relevant to all banks (see definition in section 3.5 of Chapter GN). However, most of the material applies only to UK banks. The only parts of IPRU (BANK) which apply applies to EEA banks and overseas banks are the rules and guidance on liquidity (Rule 3.3.15 and in Chapter LM) and fraud (Chapter FR). The rules and guidance in Chapter LS apply only to UK banks.~~

3.5 R Definitions

Amend the following definition in the table in *IPRU (BANK) 3.5.1R* as shown:

bank ~~(1) a firm with a Part IV permission which includes accepting deposits, and:~~
~~(a) which is a credit institution; or~~
~~(b) whose Part IV permission includes a requirement that it comply with IPRU (BANK); but which is not a building society, friendly society or credit union; and~~
~~(2) an EEA bank.~~

See definition in the Glossary.

credit ~~An undertaking whose business is to receive deposits or other repayable funds~~

institution ~~from the public and to grant credits for its own account or an electronic money institution within the meaning of article 1(3)(a) of Directive 2000/46/EC (the E-Money Directive) that has the right to benefit from the mutual recognition arrangements under Directive 2000/12/EC (the Banking Consolidation Directive).~~

See definition in the Glossary.

Chapter LM: Mismatch Liquidity

Chapter LM, Section 1: Introduction

1.1 Legal resources

1 (a) ...
(b) ...

See ch
GN
s. 3

(c) The rules requiring a bank to maintain adequate liquidity appropriate to the nature and scale of its business, and to set out its policy on liquidity risk management in a written statement.

See ch
GN
s. 3

~~(e) All UK banks authorised for the purposes of the Act are required to meet these requirements except EEA banks. An EEA bank or overseas bank with a branch in the UK is also subject to rule 3.3.15 which requires its UK those requirements in relation to that branch to maintain adequate liquidity.~~

2 As part of the ~~phased~~ implementation of the ~~Integrated Prudential Sourcebook (PRU)~~ recast Capital Adequacy Directive and the Banking Consolidation Directive in the UK from January 2007, provisions in ~~PRU 1.2 and PRU 5.1~~ relating to a firm's systems and controls for liquidity risk have been introduced, ~~superseding and leading to the revocation or amendment of~~ material formerly in this chapter in SYSC 11 and provisions concerning stress testing and scenario analysis have been introduced in GENPRU 1.2.30R. The relevant rules implement part of Article 22 and Annex V of the Banking Consolidation Directive. This chapter and chapter LS sets out the FSA's framework for monitoring the liquidity of banks authorised for the purposes of the Act to determine whether the above requirements are met.

...

1.2 Application

4 This chapter applies to banks in the manner set out in 1.1. In respect of EEA banks that have a branch in the UK but do not have a UK deposit-taking permission, only Sections 1, 2, 3, 4.2, 9.1 and 10 of the chapter apply. In respect of all EEA banks and overseas banks with a branch in the UK, the chapter (or applicable sections of it) only applies in relation to the liquidity of those branches and not the bank as a whole.

(a) For UK-incorporated banks, the present reporting form (LR), is completed on a solo basis. Where a bank already reports for capital and large exposure

purposes on a solo-consolidated basis with the agreement of the supervisor, the Form LR should be submitted on a solo-consolidated basis rather than a solo basis.

- (i) Definitions of solo supervision and solo-consolidated supervision can be found elsewhere in the IPRU (BANK) Handbook.

...

Chapter LM, Section 3: Main Features Of The Liquidity Policy

This section summarises the main features of the liquidity policy. It does not cover every feature and should be read in conjunction with the sections that follow, and other parts of the Handbook referred to below. Certain of the provisions referred to implement Article 22 and Annex V of the Banking Consolidation Directive.

3.1 Main prudential policies applying to banks

See ~~GN~~
s3 GENPRU

1 A bank must maintain adequate liquidity at all times.

1.2

See s10

2 A bank must formulate a statement of its liquidity management policy. It should agree with the FSA standards for adherence to this policy, i.e. mismatch guidelines and the procedures for the notification of breaches of those guidelines. (The rule requiring a liquidity policy statement is GN 3.4.3R. SYSC 11 requires a bank to have policies for liquidity risk management.)

See s9

3 A bank should have adequate systems for monitoring liquidity on a daily basis. (See SYSC 11).

3A A bank should carry out stress testing and scenario analysis in relation to liquidity risk. (See GENPRU 1.2.26R and associated guidance, and SYSC 11).

3B A bank should have a contingency funding plan. (see SYSC 11)

...

Chapter LM, Section 4: The framework for measuring liquidity

...

4.2 'Global concession' policy

6. The FSA ~~is required to~~ supervises the liquidity of all banks operating in the United Kingdom except in the case of EEA banks and overseas banks it is only required to supervise the liquidity of their UK branches.

...

Chapter LM, Section 6: Stock of marketable assets

...

6.3 Inclusion of marketable assets in the maturity ladder

6.3.1 General

...

7 ...

See ch
BC s3

(d) ~~The definition of Zone A/Zone B countries given in the chapter on credit risk in the banking book~~ The meaning of Zone A country is as defined in the glossary of defined terms used in the Handbook.

"Zone B" comprises all countries not in Zone A countries.

6.3.2 The standard "matrix" approach

8 The discount factors applied to different types of marketable assets in the FSA's mismatch calculations are given in the table below:

...

Other securities denominated in freely tradable currencies (usually Zone A)

Non-governmental debt securities ~~which are classified as~~ 5%
qualifying by the FSA in its implementation of the CAD falling within the definition of qualifying debt security, and which have six or fewer months to residual maturity.

Non-governmental debt securities ~~which are classified as~~ 10%
qualifying by the FSA in its implementation of the CAD falling within the definition of qualifying debt security, and which have five or fewer years residual maturity.

Non-governmental debt securities ~~which are classified as~~ 15%
qualifying by the FSA in its implementation of the CAD falling within the definition of qualifying debt security, and which have more than five years residual maturity.

Equities which (in the FSA's implementation of the CAD) qualify 20%
for a specific risk weight no higher than 42%

...

(a) ...

See ch
BC s3

(b) Qualifying debt security means qualifying for inclusion in the capital adequacy calculation at specific risk weightings is defined in the glossary of defined terms used in the Handbook.

(c) ~~The definition of Zone A/Zone B countries is given in the chapter on credit risk in the banking book~~ 6.3.1.7(d) above.

...

See ch
BC s3

(g) Zone B equities, which (in the FSA's implementation of the CAD) qualify for a specific risk weight (no higher than 42%) can be considered to be marketable and are discounted at 40%.

...

Chapter LM, Section 8: Factors considered in setting mismatch guidelines

...

8.3 Home country lending

4 A branch which lends a considerable proportion of its own balance sheet back to its home country risks becoming illiquid if, for any reason, the home country is unable to meet its debt service obligations. Partly for this reason the FSA assesses whether to place limits on home country lending for branches.

See
chLE 9

(a) ~~For details on home country exposure limits see the chapter on large exposures~~

Chapter LM, Section 9: Monitoring liquidity

...

9.1.2 Systems for monitoring liquidity

2 In order to be considered to be conducting its business in a prudent manner a bank must maintain adequate systems. A bank should therefore have in place systems which enable it to monitor its liquidity profile on a frequent and timely basis.

See
SYSC 11

(a) What in detail will be considered adequate systems depend on the nature of business conducted by the bank. But every bank should have systems in place that enables it to calculate its liquidity position on a daily basis.

Chapter LM, Section 10: Policy statements

...

4 The policy statement should consider the management of liquidity in both normal and abnormal circumstances. In particular, it should include details of the bank's contingency funding plan maintained as required by ~~PRU 5.1.86E~~ SYSC 11.1.24E.

...

Chapter LS: Sterling stock liquidity

Chapter LS, Section 1: Introduction

1.1 Legal resources

1. ...
(a) ...
(b) ...
(c) ...

See ch
GN(3)

All UK banks authorised for the purposes of the Act are required to meet these requirements ~~except EEA banks~~. An EEA bank or overseas bank with a branch in

the UK is also subject to ~~rule 3.3.15 which requires its UK~~ those requirements in relation to that branch to maintain adequate liquidity.

- 2 As part of the ~~phased implementation of the Integrated Prudential Sourcebook (PRU) recast Capital Adequacy Directive and the Banking Consolidation Directive in the UK from January 2007, provisions in PRU 1.2 and PRU 5.1 relating to a firm's systems and controls for liquidity risk have been introduced, superseding and leading to the revocation or amendment of~~ material formerly in this chapter in SYSC 11 and provisions concerning stress testing and scenario analysis are introduced in GENPRU 1.2.30R. The relevant rules implement part of Article 22 and Annex V of the Banking Consolidation Directive. ANNEX

4A. Supervisory Approach Categories 21

4B. ~~Credit Derivatives~~ 29

4.1 Introduction

4.1.1 G This chapter ~~replaces PN 1998/4, issued by the Commission, and contains rules and guidance for societies on financial risk management, a key part of compliance with Principle 3 ("a firm must take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems which supplements the high level requirements in the Senior Management Arrangements, Systems and Controls sourcebook (SYSC)).~~

4.1.1A G As part of the implementation of the Capital Adequacy Directive (CAD), the Banking Consolidation Directive (BCD) and the Markets in Financial Instruments Directive (MiFID), provisions relating to a firm's organisational and risk systems and controls have been introduced in SYSC 4, SYSC 5, SYSC 6 and SYSC 7. Whilst some of the material in SYSC applies to all societies, some applies only to societies that are subject to MiFID. The guidance in this chapter generally explains the application of the high level requirements in SYSC 4, SYSC 5, SYSC 6 and SYSC 7 (even if there may not be a specific cross reference) in the context of financial risk management.

...

4.1.3 G Rules and guidance on interest rate risk in the banking book are contained in chapter 2.3 of the Prudential sourcebook for Banks, Building Societies and Investment Firms (BIPRU). Under these requirements a society should evaluate the effect of a standard interest rate shock specified by the FSA in that chapter. The result should be taken account of in the ICAAP (as defined in the Handbook Glossary).

4.1.4 G Societies with a trading book will also be subject to a market risk capital requirement calculated in accordance with BIPRU 7. This is unlikely to be applicable to any societies apart from those on the "Trading" approach – see 4A.6 below. A society with foreign currency exposures will however be subject to the foreign exchange capital requirements in BIPRU 7 whether or not it has a trading book.

4.2 RulesGeneral

4.2.1 RG In meeting the requirements of SYSC 4.1.1R and SYSC 7.1.2R in the context of financial risk management, Aa society mustshould have an adequate system for managing and containing financial risks to the net worth of its business, and risks to its net income, whether arising from fluctuations in interest or exchange rates or from other factors.

4.2.2 G The arrangements, processes and mechanisms required in SYSC 7.1.3R Societies should haveinclude systems and procedures for identifying, monitoring and controlling all material maturity mismatch, interest rate, foreign exchange and similar (e.g. index related) risks, and for reporting exposures to senior management and the board of the society on a regular, and timely, basis. Societies should also have interest margin management systems in place to estimate the expected profitability of new mortgage and savings products, and to project forward the cumulative effect of mortgage incentives and loyalty schemes.

4.2.3 G Societies should have credit limits in place for all counterparties both for placing liquidity and for transacting derivative contracts (further guidance also in Chapter 5 (Liquidity)) and in ~~PRU 5.4~~the General Prudential sourcebook (GENPRU) 1.2 and SYSC 11 – stress testing and scenario analysis, and contingency funding plans).

4.2.4 G [Deleted]

4.2.5 RG A society must maintain, and submit to the FSA, In meeting the requirements in SYSC 7.1.4R in the context of financial risk management, the board of a society should approve and periodically review a board-approved policy statement on financial risk management.

4.2.6 R [Deleted]

4.2.7 G [Deleted]

...

4.3 Financial risks

...

Key risk categories

4.3.7 G The key financial risks which, ~~in order to comply with Rule~~ as envisaged in 4.2.1G, societies should manage and control, are:

(1) ...

...

4.3.8 G Societies' financial risk management policies should also cover:

(1) ...

...

(3) [Deleted]

- (4) Operational risk in treasury and related activities: including failure of internal controls or procedures, and the risk arising from errors in legal documentation.
- (5) [Deleted]

...

4.5 Supervisory approach

...

4.5.5 G ~~To comply with rule~~ As explained in 4.2.1G, a society's system for financial risk management ~~must~~ should be adequate. The policy statement ~~required~~ envisaged under rule in 4.2.5G ~~must~~ should be appropriate for the society's business needs and the complexity of its existing and proposed treasury activities. The FSA has devised five models, described as supervisory approaches, of increasing sophistication, to assist societies ~~to comply with these rules~~. The approaches are described as "administered", "matched", "extended", "comprehensive" and "trading". A society that conducts its treasury activities in accordance with the most suitable (for it) of these five models, can readily demonstrate that it complies with ~~rule~~ the SYSC requirements referred to in 4.2.1G and 4.2.5G in the context of financial risk management. But these models are neither mandatory nor exhaustive. Guidance on the characteristics of each approach is set out in Annex 4A.

...

4.5.7 G Whilst the "approach" benchmarks have no legal significance, the process of moving between approaches provides a useful opportunity for the FSA to review a society's progress, and to satisfy itself that policies, limits and systems are appropriate for the treasury activities planned, ~~and that therefore compliance with rule 4.2.1 is adequately established~~.

...

4.6 Management responsibilities

4.6.1 G [Deleted]

4.7 Risk management systems

4.7.1 G ~~In order to demonstrate compliance with rule 4.2.1~~ The guidance in this section amplifies SYSC 7.1.2R and SYSC 7.1.3R specifically in the context of treasury management. a society should have in place information systems that are capable of:

- (1) ...
- (2) assessing the potential impact of interest rate (and if applicable, currency exchange rate) changes on its earnings and economic value (including the effect of any standard interest rate shock as specified by the FSA in BIPRU 2.3);
- (3) reporting accurately, and promptly, on risk positions – to management, to the board and, if requested, to the FSA - including generating the information necessary to carry out its ICAAP and reporting the results of stress testing for interest rate risk in the banking book;

...

...

Control limits

4.7.3 G Control limits confine structural risk positions within levels considered by board and management to be prudent, given the size, complexity and capital needs of the society's business. Where applicable, limits should also be applied to individual instrument types, asset/liability portfolios, and to separate business activities or subsidiaries. ~~The size of the limits set will be a factor in the FSA's assessment of the overall risk profile of the society, and thus in the threshold solvency ratio which is set for it.~~

...

Stress testing

4.7.7 G The risk measurement systems put in place should evaluate the impact, on income or economic value as appropriate, of abnormal market conditions. The amount and type of such stress testing required will depend upon the sophistication of treasury operations undertaken, and the level of risk taken, but where required should be regular and systematic. Boards and management should, periodically, review the extent of such stress testing to ensure that any "worst case" scenarios remain valid. Contingency plans should be in place to deal with the consequences should such scenarios become reality. Rules and guidance on stress testing, ~~and scenario analysis and contingency funding plans specifically for liquidity risk~~ are in PRUGENPRU 1.2 and PRU 5.4~~BIPRU 2.2~~. Material on this subject specifically relating to liquidity risk, including liquidity contingency plans, is in SYSC 11. Requirements for stress testing for interest rate risk in the banking book are set out in BIPRU 2.3

Board information reporting

4.7.8 G The FSA attaches considerable importance to the quality, timeliness, and frequency of the management information which the board uses ~~to inform itself of the society's risk positions and to satisfy itself that treasury activities are being undertaken in accordance with its policies and guidelines. Information obtained by the board should not be confined to the current position, but~~ should include regular and systematic stress testing, as described above, which should be taken into account when policies and limits are established or reviewed.

4.8 Counterparty Risk

...

4.8.5A G The guidance in this section complements the high level rules and guidance on credit and counterparty risk in SYSC 7.1.9R to SYSC 7.1.11R.

...

Committed facilities

4.8.8 G A society with high levels of maturing funding, or vulnerability to withdrawal of individual deposits, should consider arranging committed facilities (or ~~to~~ maintain higher than average levels of liquidity). In arranging committed facilities, a society should consider:

(1) ...

...

...

4.9 Operational risk

General

4.9.1 G [Deleted]

Segregation of duties

4.9.2 G [Deleted]

4.9.3 G [Deleted]

Reporting lines

4.9.4 G [Deleted]

4.9.5 G [Deleted]

Remuneration policy

4.9.6 G [Deleted]

IT Security

4.9.7 G Reliance on computerised dealing, information, treasury management and risk assessment systems renders societies particularly vulnerable to software or hardware failure. ~~In accordance with Chapter 9 systems, b~~Boards of societies should:

(1) [Deleted]

(2) ...

...

4.10 Independent review and controls

Internal audit

4.10.1 G The guidance in this section amplifies SYSC 6.2.1R in the context of treasury management. Each board should ensure that its society's internal audit department (if it has one) has the skills and resources available to undertake an audit of the treasury function. Internal audit should evaluate, on a continuing basis, the adequacy and integrity of the society's controls over maturity mismatch, over the level of structural risk taken and should assess the effectiveness of treasury management procedures.

4.10.2 G Societies with complex treasuries or lacking internal auditors with treasury expertise may outsource treasury audit to an audit firm with the appropriate expertise and experience. The work of outsourced internal audit should be fully integrated into the

society's overall audit procedures and plans, with appropriate reporting lines into the audit committee. However, in order to avoid conflicts of interest, internal audit should not be contracted out to the society's own external auditors – even if the function were to be performed by a completely different branch of the audit firm (~~see also Chapter 11 on Outsourcing~~).

External audit

4.10.3 G [Deleted]

Chapter 4, Annex 4A

...

4A.2 "Administered" approach

...

4A.2.2 G Societies adopting this approach:

(1) should not offer fixed rate products (defined as repricing more than one year and one day later than the current date) on either side ~~on~~ of the balance sheet;

(2) ...

...

...

4A.5 "Comprehensive" approach

...

4A.5.5 G Risk positions could reflect an interest view, subject to sensitivity limits set by board/ALCO and incorporating basic risk assessment/control. Foreign exchange mismatch (i.e. exchange rate exposure) is expected to be limited to less than 2% of own funds (~~within Capital Adequacy Directive de minimis levels~~).

4A.6 "Trading" approach

...

ANNEX 4B [Deleted]

Chapter 5 LIQUIDITY

Contents

Section

Page

...

...

5.1 Introduction

5.1.1 G This chapter now sets out the FSA's quantitative regime for building societies' prudential liquidity, and further guidance specific to building societies on the management of their liquidity in accordance with the five approaches to financial risk management set out in Chapter 4. This chapter complements ~~PRU 5.1 (which contains rules and guidance for a wider range of firms on systems and controls appropriate for liquidity risk)~~. Only certain provisions of PRU 5.1 apply to building societies, by virtue of PRU 5.1.3R and PRU 5.1.4R. Similarly it also complements PRU GENPRU 1.2 and BIPRU 2.2 (which contain rules and guidance for systems and controls relating to adequacy of financial resources generally) and SYSC 11 (which sets out the high level requirements for liquidity that apply to deposit takers and own account dealers, as well as insurers). The chapter outlines the factors the FSA will take into account in assessing whether a society meets the rules set out in ~~section 5.2 and PRU GENPRU 1.2 and the guidance in PRU 5.1~~SYSC 11 so far as liquidity risk is concerned. A list of types of asset suitable for inclusion in prudential liquidity for societies on each of the approaches to financial risk management is set out in Annex 5A. "Prudential liquidity" has the meaning set out in paragraph 5.3.4G.

5.1.1A G As part of the implementation of the Capital Adequacy Directive (CAD), the Banking Consolidation Directive (BCD) and the Markets in Financial Instruments Directive (MiFID), provisions relating to a firm's organisational and risk systems and controls have been introduced in SYSC 4, SYSC 5, SYSC 6 and SYSC 7. Whilst some of the material in SYSC applies to all societies, some applies only to societies that are subject to MiFID. The guidance in this chapter generally explains the application of the high level requirements in SYSC 4, SYSC 5, SYSC 6 and SYSC 7 (even if there is no specific cross reference) in the context of managing liquidity.

5.1.2 G Some material on liquidity systems and controls, previously in this chapter and superseded by ~~PRU 5.1~~SYSC 11, has been deleted, but the original numbering has been retained: where an entire section has been deleted this is noted alongside the original section number. The new material in ~~PRU 5.1~~SYSC 11 covers requirements for stress testing and scenario analysis, as well as contingency funding plans and their documentation.

5.2 Rules

5.2.4 E (1) ...

(2) Contravention of 5.2.4(1) may be relied upon as tending to establish contravention of ~~PRU 1.2.22R~~GENPRU 1.2.26R.

...

5.2.8 G Guidance on the content of a liquidity policy statement is set out in 5.6.2 to 5.6.4 and in Annex 5B. ~~Societies will also find guidance on the requirements (set out at PRU 1.2.26R, PRU 1.2.27R, PRU 1.2.31R, PRU 1.2.33R, PRU 1.2.35R, PRU 1.2.37R and PRU 1.2.38R) for stress testing and scenario analysis at PRU 5.1.58 to PRU 5.1.62. Further guidance on the requirements (set out at PRU 1.2.22R, PRU 1.2.35R and PRU 1.2.37R) on contingency funding plans and documentation is provided at PRU 5.1.8G — PRU 5.1.9G).~~ Societies may, for convenience, wish to combine their liquidity policy statement with their documentation meeting these general requirements with their liquidity policy statement for

contingency funding plans and documentation referred to in paragraph 5.1.1 and the other material in GENPRU, BIPRU and SYSC referred to in section 5.1. However if they do so, but societies need to be clear on how any combined document meets the separate requirements.

...

5.4 Short-term Liquidity

...

5.4.3 G The following liquid assets may be counted as short-term liquidity:

- (1) cash, current account balances, and Treasury, Local Authority and eligible bank bills;
- (2) deposits with relevant authorities (as defined in Annex ~~4E5A~~), banks and building societies with not more than 8 days' notice, or within 8 days of maturity;

...

...

5.5.1 Supervisory Approach to Liquidity

5.5.1 G Societies should adopt a risk-averse approach to the management of liquid assets. Societies should ensure that treasury systems and controls are adequate for the scale of activity undertaken and that treasury personnel have appropriate expertise and competence, including dealing, settlement and accounting skills. Chapter 4 suggests that dealings in certain categories of liquid assets should be confined to societies on an advanced approach to financial risk management.

...

5.6 Board and Management Responsibilities

...

5.6.2 G Rule 5.2.7 requires each society to have a liquidity policy statement. This should be approved by the society's board and be consistent with the society's strategic plan and its financial risk management policy statement. Societies should also have regard to the rules and guidance in PRUGENPRU 1.2, SYSC 4, SYSC 5, SYSC 7 and PRU 5.1 SYSC 11, ~~set out in more detail at PRU 5.2.8G.~~

...

5.6.4 G A liquidity policy statement should be a working document and personnel in the treasury and settlement areas should be familiar with its contents, as should members of ALCO or Finance Committee. When aspects of the policy or limits become out of date, the policy document should be amended ~~and the revised copy must be sent to the FSA (see rule 5.2.9).~~

5.6.5 G Boards should establish the objectives for liquidity including meeting obligations as they fall due (including any unexpected adverse cash flow), smoothing out the effect of maturity mismatches and the maintenance of public confidence. The need to earn a return may also be recognised as an objective, although this should be secondary to the security of the assets. Societies should also have regard to the rules and guidance in ~~PRUGENPRU 1.2~~ and ~~PRU 5.1 SYSC 11~~, set out in more detail at ~~PRU 5.2.8G~~.

Amendments to the Interim Prudential sourcebook for Insurers

Amend IPRU(INS) Chapter 1 as follows. Underlining indicates new text and striking through indicates deleted text.

Chapter 1

APPLICATION RULE

Application

Insurers

- 1.1 ...
- The Society of Lloyd's
- 1.2 No provisions of *IPRU(INS)* apply to the *Society of Lloyd's* of Lloyd's, or ~~members~~ members of the *Society of Lloyd's* of Lloyd's except rules 9.37 and 9.38, and Part VII of Chapter 9.

Insert the following text in Volume 1, Chapter 9 as a new Part VII (Lloyd's of London). The text is redesignated and restated text. Amendments to the redesignated text are not shown:

Part VII

LLOYD'S OF LONDON

Application

- 9.47 PART VII of *IPRU(INS)* chapter 9 applies to the *Society* and to *managing agents*.

Requirement to report to the FSA

- 9.48 (1) The *Society* must report to the *FSA* within 6 months of the end of each *financial year* on its financial situation and solvency and on the whole of the *insurance business* carried on by *members*.
- (2) The report in *IPRU(INS)* 9.48 (1) must be prepared in accordance with GENPRU 1.3.4 R and this chapter.
- (3) The report in *IPRU(INS)* 9.48 (1) must include:

- (a) the *Lloyd's Return* which comprises a completed set of the forms set out in *IPRU(INS)* Appendix 9.11, together with any statements, notes, reports or certificates required by this chapter; and
 - (b) a copy of the *syndicate* accounts for each *syndicate* that is required by *byelaw* to prepare accounts for the *financial year*.
- (4) With the exception of the statements required to be annexed to the *Lloyd's Return* by *IPRU(INS)* 9.49 (6), the *Lloyd's Return* must be examined and reported on by the auditors appointed to audit the affairs of the *Society*.
 - (5) The *Society* must provide a printed copy of the *Lloyd's Return* to the *FSA*, with Form 9 signed by three signatories who are senior officers of the *Society* each duly authorised by the *Council* to sign the *Lloyd's Return* on behalf of the *Society*.
 - (6) If the *FSA* notifies the *Society* that any part of the *Lloyd's Return* is not in conformity with this chapter, the *Society* must promptly make any appropriate corrections or adjustments and if necessary re-submit the *Lloyd's Return* (or relevant part of it).

Content and form of the Lloyd's Return

- 9.49 (1) In preparing the *Lloyd's Return*, the *Society* must:
- (a) complete the forms in *IPRU(INS)* Appendix 9.11, following the requirements of and making the disclosures required under Appendices 9.1, 9.2, 9.3 and 9.4 of *IPRU(INS)* as if in the documents referred to in those Appendices references to an *insurer* were references to the *Society* and *members*, and adapting the requirements in those Appendices where necessary;
 - (b) complete the forms in *IPRU(INS)* Appendix 9.11 using standard accounting *classes* as set out in *IPRU(INS)* Appendix 9.16 where the forms require reporting by accounting class;
 - (c) report treaty reinsurance general business falling in accounting *classes* 9 to 10 as set out in *IPRU(INS)* Appendix 9.16 in Forms 28 and 29 in *IPRU (INS)* Appendix 9.11 by reference to the categories in the underlying accounting classes; and
 - (d) complete forms 13, 14, 40-60 in *IPRU(INS)* Appendix 9.11 for each *long-term insurance business syndicate*.
- (2) (a) Where a reinsurance contract in *IPRU(INS)* 9.49 (1)(c) covers more than one underlying accounting class as set out in *IPRU(INS)* Appendix 9.16 it must be apportioned between accounting classes in the way that best reflects its underlying composition.
 - (b) However, where the apportionment in (a) cannot be made with reasonable accuracy or without disproportionate effort, then the contract must be allocated to the accounting class as set out in *IPRU*

- (INS) Appendix 9.16 that most closely reflects its underlying composition.
- (c) Whether apportioned under (a) or allocated under (b), a consistent approach must be taken to reporting:
 - (i) the progress of a treaty in subsequent years; and
 - (ii) substantially similar *insurance business* in subsequent years.
 - (d) Where a different policy is subsequently followed a suitable explanatory note must be provided.
- (3) If, during the financial year in question, the *Society* has agreed to, or carried out, a material connected party transaction, it must provide a brief description of that transaction by way of a supplementary note to the *Lloyd's Return*.
- (4) The description to be provided under *IPRU(INS) 9.49 (3)* must state:
- (a) the names of the transacting parties;
 - (b) a description of the connection between the parties;
 - (c) a description of the transaction;
 - (d) the amounts involved;
 - (e) any other elements of the transaction needed for an understanding of its effect or potential effect upon the financial position of the *Society*; and
 - (f) amounts written off in the period in respect of debts due to or from transacting parties which are connected parties.
- (5) Transactions with the same connected party may be disclosed on an aggregated basis unless separate disclosure is needed for a proper understanding of the effect of the transactions upon the financial position of the *Society*.
- (6) The *Society* must annex to the *Lloyd's Return* a copy of each statement completed by a *managing agent* under *IPRU(INS) 9.60 (7)*.
- (7) For the purposes of the *Lloyd's Return* and *IPRU(INS) 9.49 (6)*, the *Society* must, for each statement annexed, identify the *syndicate* to which the *contract of insurance* or 'financing arrangement' relates.

Risk groups for general insurance business

- 9.50 (1) The *Society* must for the purposes of reporting under this chapter:
- (a) classify the direct and facultative *general insurance business* of *members* according to appropriate risk groups; and

- (b) where the risks are material, complete a separate Form 34 in *IPRU(INS)* Appendix 9.11 for each group.
- (2) The *Society* must not include:
- (a) policies falling within *classes* 14, 15, 16, 17 or 18 within the same risk group as policies falling within any other *class*, except that policies falling within *class* 14 may be included in the same risk group as policies falling within *class* 15; or
 - (b) policies in respect of private motor car risks, within the same risk group as policies in respect of other risks falling within accounting class 2 as set out in *IPRU(INS)* Appendix 9.16; or
 - (c) policies in respect of comprehensive private motor car risks, within the same risk group as policies in respect of non-comprehensive private motor car risks; or
 - (d) policies transferred to *members* by way of a transfer under section 111 of the Act (Sanction of the court for business transfer schemes), within the same risk group as other policies.
- (3) The *Society* must give the *FSA* notice of proposed changes to the definition or classification of the risk groups in *IPRU(INS)* 9.50 (1), sufficient to allow the *FSA* properly to assess the implications of the proposals.

Major treaty reinsurers

- 9.51 (1) The *Society* must, in connection with the *general insurance business* carried on by *members*, include in the *Lloyd's Return* a statement of major treaty reinsurers.
- (2) A major treaty reinsurer is any insurance company to which in the *financial year* in question or any of the five preceding *financial years*:
- (a) in the case of proportional reinsurance, 2% or more of the gross premiums receivable in respect of *general insurance business* of the *members* in aggregate has been ceded; or
 - (b) in the case of non-proportional reinsurance, 5% or more of the gross premiums receivable in respect of *general insurance business* has been ceded.
- (3) The statement required under *IPRU(INS)* 9.51 (1) must include:
- (a) the full name of each major treaty reinsurer;
 - (b) the amount of the reinsurance premiums payable in the *financial year* to each such reinsurer;
 - (c) whether and if so how the reinsurer was connected to any *member* or any *managing agent*;

- (d) the amount of any debt of each such reinsurer included at line 75 of Form 13 in *IPRU(INS)* Appendix 9.11;
- (e) the amount of any deposit received from each such reinsurer under reinsurance treaties included at line 31 of Form 15 in *IPRU(INS)* Appendix 9.11; and
- (f) the reinsurers' share of *technical provisions* shown on Form 13 in *IPRU(INS)* Appendix 9.11 except that in respect of claims incurred but not reported, such recoveries need only be included to the extent that they are in respect of specific occurrences for which provisions have been allocated;

or, as the case may be, a statement that having aggregated the reinsurance ceded by *members* no reinsurer is a major treaty reinsurer.

- (4) The requirements of *IPRU(INS)* 9.51 (1), *IPRU(INS)* 9.52 (1) and *IPRU(INS)* 9.53 (1) may be satisfied by giving a fair view and making use of an appropriate degree of approximation. The *Society* may employ any reasonable methods to establish the information required.

Major facultative reinsurers

- 9.52 (1) The *Society* must, in connection with the *general insurance business* carried on by *members*, include in the *Lloyd's Return* a statement of major facultative reinsurers.
- (2) A major facultative reinsurer is an insurance company to which or with respect to which:
 - (a) 0.5% or more of the gross premiums *receivable* in respect of *general insurance business* of the *members* in aggregate has been ceded; or
 - (b) the addition of the amounts in items (d) and (e) of *IPRU(INS)* 9.51 (3) produces an amount exceeding 1% of the aggregate gross assets of *members*.
- (3) The statement required under *IPRU(INS)* 9.52 (1) must include the matters listed in *IPRU(INS)* 9.51 (3), with appropriate amendments.

Major reinsurance cedants

- 9.53 (1) The *Society* must, in connection with the *general insurance business* carried on by *members*, include in the *Lloyd's Return* a statement of major reinsurance cedants.
- (2) A major reinsurance cedant is an insurance company which in the *financial year* in question or any of the three preceding *financial years*:
 - (a) cedes an amount which exceeds 5% of the gross premiums *receivable* by *members* in respect of *general insurance business* accepted under reinsurance treaties; and

- (b) cedes an amount which exceeds 2% of the gross premiums *receivable* by *members* in respect of *general insurance business*.
- (3) The statement required under *IPRU(INS) 9.53 (1)* must include the matters listed in *IPRU(INS) 9.51 (3)*, with appropriate amendments.

Derivative contracts

- 9.54 (1) The *Society* must annex a statement to the *Lloyd's Return* comprising a brief description of:
- (a) any *byelaws* and guidelines issued by the *Society* governing the use of *derivative* contracts;
 - (b) any provision in those guidelines governing the use of contracts under which *members* have a right or obligation to acquire or dispose of assets which was not, at the time when the contract was entered into, reasonably likely to be exercised and the circumstances in which, pursuant to that provision, such contracts may be used;
 - (c) the extent to which *members* were during the *financial year* a party to any contracts of the kind described in (b);
 - (d) the extent to which any of the amounts recorded in Form 13 would be changed if assets which *members* had a right or obligation to acquire or dispose of under *derivative* contracts outstanding at the end of the *financial year* (being, in the case of *options*, only those *options* which it would have been prudent to assume would be exercised) had been acquired or disposed of;
 - (e) the difference between (d) and the amount which would result under (d) if such *options* had been exercised and this were reflected in Form 13 to the maximum extent;
 - (f) how different the information provided pursuant to (d) and (e) would have been if, instead of applying to contracts outstanding at the end of the *financial year*, (d) and (e) had applied to *derivative* contracts outstanding at such other time during the *financial year* as would have changed the amounts in Form 13 to the maximum extent;
 - (g) the maximum loss which would be incurred by *members* on the failure by any one other person to fulfil its obligations under *derivative* contracts outstanding at the end of the *financial year*, both under existing market conditions and in the event of other foreseeable market conditions, together with an assessment of whether such maximum loss would have been materially different at any other time during the *financial year*;
 - (h) the circumstances surrounding the use of any *derivative* contract held at any time during the *financial year* which did not fulfil the criteria in *INSPRU 4.2.5 R*; and

- (i) the total value of any fixed consideration received by *members* (whether in cash or otherwise) during the *financial year* in return for granting rights under *derivative* contracts and a summary of contracts under which such rights have been granted.
- (2) For the purposes of *IPRU(INS) 9.54 (1)*, if *members* are a party to:
- (a) a *contract for differences*; or
 - (b) any other contract which is to be, or may be, settled in cash they must be treated as having a right or obligation to acquire or dispose of the assets underlying the contract.

General insurance business ceded

- 9.55 (1) The *Society* must annex to the *Lloyd's Return* a statement:
- (a) of each major treaty reinsurer and major facultative reinsurer; and
 - (b) for each of the realistic disaster scenarios set by the *Society* when fulfilling its obligations under *INSPRU* and *GENPRU* to monitor aggregation of risk within the Lloyd's market of the contribution it is assumed each such reinsurer would provide in the event of that disaster occurring.

The Society

- 9.56 (1) The *Society* must annex to the *Lloyd's Return* a statement naming each individual who has served:
- (a) on the *Council*;
 - (b) as Chairman of the *Council*; and
 - (c) as Chief Executive Officer of the *Society*;

at any time during the *financial year*, including in each case the dates of commencement or end of service (as the case may be) of any individual who has not served for the entire year.

Capacity controlled

- 9.57 (1) The *Society* must annex to the *Lloyd's Return* a statement identifying any *members*, *members' agents* or *managing agents* that control a significant share of the underwriting capacity of the *Society*.
- (2) To control a significant share means:
- (a) in relation to a *managing agent*, managing, directing through one or more Members' Agent Pooling Arrangements or owning, whether directly or in conjunction with *connected persons*, capacity which in aggregate is greater than 5% of the total underwriting capacity of the *Society*;

- (b) in relation to a *members' agent*, directing through one or more Members' Agent Pooling Arrangements or owing, whether directly or in conjunction with *connected persons*, underwriting capacity which in aggregate is greater than 2.5% of the total underwriting capacity of the *Society*; and
- (c) in relation to a member, owning, whether directly or in conjunction with *connected persons*, underwriting capacity which, in aggregate, is greater than 2.5% of the total underwriting capacity of the *Society*.

Certificates and audit report

9.58 (1) Certificates

The *Society* must annex to the *Lloyd's Return*:

- (a) a certificate from the *Council*, including the statements required by *IPRU (INS)* Appendix 9.12;
- (b) a statement from the *Lloyd's actuary*, including the statements required by *IPRU (INS)* Appendix 9.13;
- (c) a certificate from the *syndicate actuary* of each *syndicate* which carries on *long-term insurance business*, including the statements required by *IPRU (INS)* Appendix 9.14, and;
- (d) an abstract from the *syndicate actuary* of each *syndicate* which carries on *long-term insurance business* of the *actuary's* report made under *SUP* 4.6.14G.

(2) Audit report

The *Society* must ensure that the *Lloyd's Return* and every document annexed to or provided with it has been examined by the *Society's* auditors and must provide with the *Lloyd's Return* an audit certificate in respect of that examination.

- (3) The certificate in *IPRU(INS)* 9.58 (2) must be in the form set out in *IPRU(INS)* Appendix 9.15.

Public disclosure

9.59 (1) The *Society* must provide within a period not exceeding 30 days:

- (a) on demand to any *member* or policyholder a copy of the *Lloyd's Return* and the *global account* most recently submitted to the *FSA*; and
- (b) if specifically requested by a *member* or policyholder, a copy of any *syndicate* account submitted to the *FSA*.

Syndicate-level reporting

- 9.60 (1) Each *managing agent* must:
- (a) prepare a return for each *financial year* in respect of the *insurance business* carried on through each *syndicate* managed by it; and
 - (b) provide the return in (a) to the *Society* as soon as practicable after the end of the financial year but in any event in time to enable the *Society* to report to the *FSA* in accordance with *IPRU(INS)* 9.48 (1).
- (2) The *Society* must:
- (a) issue instructions to *managing agents* setting out the form and content of the return under *IPRU(INS)* 9.60 (1); and
 - (b) issue the instructions in (a) as soon as practicable but in any event in time to enable *managing agents* to comply with *IPRU(INS)* 9.60 (1).
- (3) A *managing agent* must annex to each return which it prepares under *IPRU(INS)* 9.60 (1), a certificate signed by the persons referred to in *IPRU(INS)* 9.60 (4), including the statements required by *IPRU(INS)* Appendix 9.17.
- (4) The certificate in *IPRU(INS)* 9.60 (3) must be signed by:
- (a) where there are more than two *directors* of the *managing agent*, at least two of those *directors* and, where there are not more than two *directors*, all the *directors*; and
 - (b) a *chief executive*, if any, of the *managing agent* or (if there is no *chief executive*) the secretary.
- (5) A *managing agent* must ensure for each *syndicate* managed by it that the return required under *IPRU(INS)* 9.60 (1) is examined and reported on by the *syndicate* auditor.
- (6) A *managing agent* must annex to each return required under *IPRU(INS)* 9.60 (1) an audit certificate provided by the *syndicate* auditor including the statements required by *IPRU(INS)* Appendix 9.18.
- (7) A *managing agent* must annex to each return which it prepares under *IPRU(INS)* 9.60 (1) a statement of the information required by *IPRU(INS)* rule 9.32A, as if in that *rule* references to:
- (a) ‘*insurer*’ were to the *members* carrying on *insurance business* through the relevant *syndicate*;
 - (b) the ‘*return*’ were to the return required to be prepared by it in respect of the business carried on through the relevant *syndicate* under *IPRU(INS)* 9.60 (1)
 - (c) the ‘*insurer’s* balance sheet’ were to the *syndicate* balance sheet;

- (d) the ‘*insurer’s capital resources*’ were to the *capital resources* managed by or at the direction of the *managing agent* in respect of the *insurance business* carried on through the relevant *syndicate*; and
- (e) the ‘*insurer’s total technical provisions*’ were to the *technical provisions* in respect of the *insurance business* carried on through the relevant *syndicate*.

The Central Fund

- 9.61 (1) The *Society* must give the *FSA* a report on the *Central Fund* as at the end of each calendar quarter.
- (2) The report referred to in *IPRU(INS) 9.61 (1)* must reach the *FSA* within two weeks of the end of each calendar quarter and must include information on:
- (a) the net market value of the *Central Fund*;
 - (b) payments made from the *Central Fund* in that quarter;
 - (c) the types of investment in which the *Central Fund* is held;
 - (d) the commencement or cessation of, or any changes in the terms of, any insurance policy taken out to protect the *Central Fund*; and
 - (e) any claim made, or circumstances notified that are likely to lead to a claim, under any insurance policy taken out to protect the *Central Fund*.

Information about the capacity transfer market

- 9.62 (1) The *Society* must give the *FSA* a report as at the end of each calendar quarter in which any capacity is transferred.
- (2) The report referred to in *INSPRU 8.4.3 R* must reach the *FSA* within one month of the end of the relevant calendar quarter and must include information on:
- (a) the total capacity in *syndicates* transferred during the quarter, analysed by *syndicate* and method of transfer;
 - (b) the number, and nature, of all investigations by the *Society* into conduct in the *capacity transfer market* undertaken or continued during the quarter; and
 - (c) the number, and nature, of all complaints received during the quarter about the operation of the *capacity transfer market*.

Guidance

- 9.63 (1) *IPRU(INS)* Chapter 9 Part VII requires the *Society* to report on the *insurance business* carried on by *members* and on the assets and liabilities of *members* and the *Society*, and requires reports from the *Society* on the *Central Fund* and the *capacity transfer market*. It also requires *managing agents* to report on the *insurance business* carried on through each *syndicate* they manage. Reporting at syndicate level is required to enable the *Society* to prepare the *Lloyd's Return*. The statements required to be annexed to the return by *IPRU(INS)* 9.60 (7) should not be included in the audit under *IPRU(INS)* 9.49 (6).
- (2) The *Lloyd's Return* is made annually and contains the statement required from the *Society* that *capital resources* at least equal to the *capital resources requirements* for *general insurance business* and *long-term insurance business* under *GENPRU 2* have been maintained at all times throughout the *financial year*.
- (3) For *general insurance business*, the *capital resources requirement* for the *Society* is the higher of the aggregate of the *members' capital resources requirements* for *general insurance business*, calculated in accordance with *GENPRU 2.3.5 R*, and the *Society GICR*. For *long-term business*, the *capital resources requirement* for the *Society* is the aggregate of the *members' capital resources requirements*, calculated in accordance with *GENPRU 2.3.7 R*. The *Society* is required to ensure that each *member's capital resources requirement* is covered by that *member's capital resources*, or, where there is a shortfall in the *member's capital resources*, by the *Society's own capital resources*. For *general insurance business*, the *Society* must ensure that the *Society GICR* is covered by the aggregate *capital resources* supporting the *insurance business* of all the *members*.
- (4) Where appropriate, the *Society* is also required to modify prudential reporting to make it more like that of an *insurer*. This is to aid comparisons between *Lloyd's* and *insurers*.
- 9.64 The *Society* should make the report referred to in *IPRU(INS)* 9.48 (1), including amendments and corrections, and amalgamated *syndicate* accounts available at its head office for inspection by policyholders and potential policyholders and *members*.
- 9.65 (1) In assessing what are appropriate risk groups for reporting purposes the *Society* should ensure where possible that:
- (a) each risk group should include only risks from within a single accounting class and in relation to a single country;
 - (b) policies are not included in the same risk group where, having regard to the patterns of risk, *claims* incurrence and settlement patterns, it is necessary to group them separately for the purposes of applying statistical methods in calculating the provision for *claims* outstanding in accordance with generally accepted accounting practice; and
 - (c) claims-made policies are not included in the same risk group as policies which are not claims-made policies, except:

- (i) where this is not possible without disproportionate expense; and
 - (ii) where the policies within the risk group do not exhibit materially different characteristics.
 - (2) Subject to *IPRU(INS) 9.50 (2)(a)* and *IPRU(INS) 9.50 (2)(b)* and *IPRU(INS) 9.65 (1)(c)*, the *Society* may in respect of any accounting class include all *insurance business* carried on by *members* in any country in any *financial year* as a single risk group.
 - (3) Notwithstanding the provisions of *IPRU(INS) 9.50 (2)(a)* and *IPRU(INS) 9.50 (2)(b)* and *IPRU(INS) 9.65 (1)(c)*, the *Society* may classify all *insurance business* carried on by *members* in any country in respect of any accounting class in any financial year as a single risk group, as long as gross premiums written for that year in respect of that *insurance business* are less than 5% of the world-wide gross premiums written for all accounting *classes* for that year.
 - (4) The requirements to report a separate risk group in *IPRU(INS) 9.50 (2)(a)* do not apply where, in the case of any *financial year*, the gross premiums receivable for that year in respect of that risk group would be less than £1million.
- 9.66 The *Society* should be treated as if it were a major treaty reinsurer when *inter-syndicate reinsurance* in aggregate exceeds the amounts set out in *IPRU(INS) 9.51 (2)*
- 9.67 The *Society* should be treated as if it were a major facultative reinsurer when *inter-syndicate reinsurance* in aggregate exceeds the amounts set out in *IPRU(INS) 9.52 (2)*.
- 9.68 The *Society* should be treated as if it were a major reinsurance cedant when *inter-syndicate cessions* in aggregate exceed the amounts set out in *IPRU(INS) 9.53 (2)*.
- 9.69 In relation to required disclosures of *derivative* contracts in *IPRU(INS) 9.54 (1)*, references to a *derivative* contract and related expressions should be taken to include:
- (1) any *derivative* contract entered into by a *managing agent* on behalf of a *member* as part of that *member's insurance business*; and
 - (2) any *derivative* contract entered into by the *Society*.
- 9.70 Contracts that are *quasi-derivative contracts* should be treated as *derivative* contracts.
- 9.71 The requirements of *IPRU(INS) 9.55(1)* may be satisfied by giving a fair view and may make use of an appropriate degree of approximation. The *Society* may employ any reasonable methods to establish the information required. The *Society* may also include such explanation as it considers to be necessary to allow a reasonable interpretation to be put on this statement.

- 9.72 (1) Because of the significance of the *Central Fund* in the protection of policyholders, the *Society* should notify the *FSA* under *IPRU(INS)* 9.61 (2)(e) of all matters relevant to any actual or potential claim. These include but are not limited to the facts on which that claim is based, the circumstances under which those facts arose and any relevant response to the claim from any *insurer* or reinsurer concerned.
- (2) The report referred to in *IPRU(INS)* 9.61 (1) must be submitted in writing in accordance with *SUP* 16.3.7 to *SUP* 16.3.10 (see *SUP* 16.3.6).

Appendix 9.11

Reporting forms

1. This appendix consists only of one or more forms or templates. Forms and templates are to be found through the 'Forms' link under Useful Links section at www.fsahandbook.info or on the Handbook CD-ROM.

Appendix 9.12 (rule IPRU (INS) 9.58 (1)(a))

Certificate by the Council

1	Subject to 5, the certificate required by <i>IPRU (INS) 9.58 (1)</i> must state:	
	(a)	in relation to Forms 9 to 17, 20 to 42, the supplementary notes to the forms and the statements required under <i>IPRU (INS) 9.51 (1)</i> , <i>IPRU (INS) 9.52 (1)</i> and <i>IPRU (INS) 9.53 (1)</i> , <i>IPRU (INS) 9.54 (1)</i> , <i>IPRU (INS) 9.57 (1)</i> , that:
	(i)	the <i>Lloyd's Return</i> has been prepared in accordance with <i>IPRU (INS) Chapter 9 Part VII</i> , <i>INSPRU</i> and <i>GENPRU</i> ;
	(ii)	proper accounting records have been maintained and adequate information has been obtained by the <i>Society</i> ; and
	(iii)	an appropriate system of control has been established and maintained by the <i>Society</i> over its transactions and records;
	(b)	that, as applicable, the assets held by <i>members</i> throughout the <i>financial year</i> in question enabled the <i>Society</i> to comply with <i>INSPRU 1.1.30R</i> (Localisation (UK firms only)) and <i>INSPRU 1.1.34R</i> (Matching of assets and liabilities); and
	(c)	in relation to the statement required by <i>IPRU (INS) 9.58 (1)(b)</i> to be made by the <i>Lloyd's actuary</i> , that:
	(i)	for the purpose of preparing the statement, proper accounts and records have been maintained; and
	(ii)	the information given has been ascertained in conformity with <i>IPRU (INS) 9.58 (1)</i> .
2	Subject to 5, the certificate required by <i>IPRU (INS) 9.58 (1) (a)</i> must state that <i>capital resources</i> at least equal to the <i>capital resources requirements</i> under <i>GENPRU 2</i> , have been maintained at all times during the <i>financial year</i> in question.	
3	Subject to 5, the certificate required by <i>IPRU (INS) 9.58 (1)(a)</i> must also state in relation to the <i>long-term insurance business</i> carried on by <i>members</i> :	
	(a)	that the requirements of <i>INSPRU 1.5.18R</i> to <i>INSPRU 1.5.33R</i> have been fully complied with and in particular that, subject to the provisions of <i>INSPRU 1.5.27R</i> assets attributable to <i>long-term insurance business</i> , the income arising, the proceeds of any realisation of such assets and any other income or proceeds allocated to the <i>long-term insurance fund</i> or <i>funds</i> have not been applied otherwise than for the purpose of the <i>long-term insurance business</i> ;
	(b)	that all guarantees given by a <i>member</i> of the performance by a related <i>insurer</i> which would fall to be met by any <i>long-term insurance fund</i> have been disclosed in the <i>Lloyd's Return</i> , and that the fund or funds on which each of those guarantees would fall has been identified in it;

	(c)	that the return in respect of <i>long-term insurance business</i> is not distorted by agreements between the <i>members</i> concerned or by any arrangements which could affect the apportionment of expenses and income; and
4	Subject to 5, where the <i>Council</i> is satisfied that:	
	(a)	the systems of control established and maintained by <i>managing agents</i> complied, at the end of the <i>financial year</i> in question, with any relevant guidance and it is reasonable to believe that those systems continued so to comply and will continue to so comply; or
	(b)	the <i>Lloyd's Return</i> has been prepared in accordance with any relevant guidance; this must be so stated, by listing that guidance, in the certificate required by <i>IPRU (INS) 9.58 (1)(a)</i> .
5	Where, in the opinion of those signing the certificate, the circumstances are such that any of the statements required by 1 to 4 cannot truthfully be made, the relevant statements must be omitted.	
6	Where, by virtue of 5, any statements have been omitted from the certificate this fact must be stated in a note.	

Appendix 9.13 (rule IPRU (INS) 9.58 (1)(b))

Statement by the Lloyd's actuary

1	The statement required by <i>IPRU (INS) 9.58 (1)(b)</i> must be prepared and signed by the <i>Lloyd's actuary</i> , and must:		
	(a)	state whether, for every <i>syndicate year</i> in which members carry on <i>general insurance business</i> either:	
		(i)	the <i>syndicate actuary</i> has provided an unqualified opinion, which:
			(1) is in a form conforming to guidance from the <i>actuarial bodies</i> ; and
			(2) confirms that the <i>technical provisions</i> set by the <i>managing agent</i> are at least equal to the <i>syndicate actuary's</i> best estimate; or
		(ii)	the <i>Lloyd's actuary</i> has set the <i>technical provisions</i> (both gross and net of reinsurance recoveries); and
	(b)	describe any source of uncertainty in the liabilities covered by the <i>technical provisions</i> , which in his opinion is material to the <i>Society</i> as a whole:	
		(i)	which any <i>syndicate actuary</i> mentions in his opinion; or
		(ii)	which affects any <i>syndicate year</i> for which the <i>Lloyd's actuary</i> has set the <i>technical provisions</i> .
2	If the <i>Lloyd's actuary</i> has set the <i>technical provisions</i> for any <i>syndicate year</i> , the statement must include an opinion covering those <i>technical provisions</i> , which:		
	(a)	confirms that they are at least equal to his best estimate; and	
	(b)	is in a form conforming to guidance for <i>syndicate actuaries</i> from the <i>actuarial bodies</i> , modified to show:	
		(i)	that he is retained by the <i>Society</i> and not the <i>managing agent</i> ;
		(ii)	that he, and not the <i>managing agent</i> , set the <i>technical provisions</i> ; and
		(iii)	separately, the <i>technical provisions</i> of each <i>syndicate year</i> covered.
3	If the <i>Lloyd's actuary</i> considers it necessary, such qualification, amplification or explanation as may be appropriate must be added to the statement.		

Appendix 9.14 (rule IPRU (INS) 9.58 (1))

Certificate by syndicate actuary

1	The certificate required by <i>IPRU (INS) 9.58 (1)(c)</i> to be signed by the <i>syndicate actuary</i> appointed to a <i>syndicate</i> in which <i>members</i> carry on <i>long-term insurance business</i> must state:	
	(a)	whether in his opinion, proper records have been kept by the <i>managing agent</i> adequate for the purpose of the valuation of the liabilities of the <i>syndicate</i> ;
	(b)	whether the sum of the <i>mathematical reserves</i> and the deposits received from reinsurers as shown in Form 14 constitute proper provision at the end of the <i>financial year</i> for the <i>long-term insurance liabilities</i> where these liabilities:
	(i)	include any increase in liabilities arising from a distribution of surplus as a result of an investigation as at the end of the <i>financial year</i> into the financial condition of the <i>long-term insurance business</i> ; and
	(ii)	include all liabilities arising from <i>deposit back arrangements</i> ;
		but exclude liabilities which had fallen due before the end of the <i>financial year</i> , other than those arising from deposit back arrangements;
	(c)	whether the liabilities have been valued in accordance with <i>INSPRU</i> and <i>GENPRU</i> in the context of assets valued in accordance with <i>GENPRU</i> , as shown in Form 14;
	(d)	by way of a list, the professional guidance that has been complied with;
	(e)	whether in his opinion, premiums for contracts entered into during the <i>financial year</i> and the income earned on them are sufficient on reasonable actuarial assumptions, taking into account other financial resources of the <i>members</i> and the <i>Society</i> that are available for the purpose, to enable the <i>members</i> to meet their commitments and, in particular, to establish adequate <i>mathematical reserves</i> ; and
	(f)	whether the amounts in Form 60 are accurate.
2	If the <i>syndicate actuary</i> considers it necessary, such qualification, amplification or explanation as may be appropriate must be added to the certificate.	

Appendix 9.15 (rule IPRU (INS) 9.58 (3))

Auditors' report

1	The certificate required by <i>IPRU (INS) 9.58 (2)</i> must, in addition to any statement required by section 237(2) and (3) of the Companies Act, state:	
	(a)	that in the auditors' opinion, Forms 9 to 17, 20 to 42, the supplementary notes to the forms and the statements required under <i>IPRU (INS) 9.51 (1)</i> , <i>IPRU (INS) 9.52 (1)</i> , <i>IPRU (INS) 9.53 (1)</i> and <i>IPRU (INS) 9.54 (1)</i> have been properly prepared in accordance with <i>IPRU (INS) Chapter 9 Part VI</i> , <i>INSPRU</i> and <i>GENPRU</i> ;
	(b)	that according to the information and explanations that the auditors have received:
	(i)	in their opinion, the certificate required to be signed in accordance with <i>IPRU (INS) 9.58 (1)(a)</i> , otherwise than in relation to statements to which paragraph 1(c) of this table relates, has been properly prepared in accordance with <i>IPRU (INS) Chapter 9 Part VII</i> , <i>INSPRU</i> and <i>GENPRU</i> ; and
	(ii)	subject to paragraph 1(c), it was or was not unreasonable for the persons giving the certificate to have made the statements in it (other than statements to which paragraph 1(c) relates); and
	(c)	the extent to which, in giving their opinion, the auditors have relied:
	(i)	in respect of financial information supplied to the <i>Society</i> by <i>managing agents</i> on behalf of <i>syndicates</i> , on work carried out by <i>syndicate auditors</i> ; and
	(ii)	in respect of <i>long-term insurance business</i> carried on by <i>members</i> , on the certificates of the <i>syndicate actuaries</i> given in accordance with the requirements of <i>IPRU (INS) Chapter 9 Part VII</i> , <i>INSPRU</i> and <i>GENPRU</i> with respect to the amounts in Form 60.
2	The audit opinion required by 1(b)(i) does not extend to cover the statements required under:	
	(a)	<i>IPRU (INS) 9.55 (1)</i> and ; and <i>IPRU (INS) 9.57 (1)</i>
	(b)	<i>IPRU (INS) Appendix 9.12 1(d)</i> , but only in so far as it relates to relevant guidance which either states that compliance with the guidance need not be audited or which relates to controls with respect to money laundering.
3	To the extent that the information and explanations they have received do not allow the auditors to express an opinion on whether it was or was not unreasonable for the <i>Council</i> to have made the statement required by <i>IPRU (INS) Appendix 9.12 1(a)(iii)</i> the auditors must add to their report such qualification, amplification or explanation as may be appropriate.	

- | | |
|---|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4 | Where the auditors refer in their report or in any note attached to their report to any uncertainty, the report must state whether, in the auditors' opinion, that uncertainty is material to determining whether the <i>Society</i> is able to meet the solvency requirements of <i>IPRU (INS)</i> Chapter 9 Part VII, <i>INSPRU</i> and <i>GENPRU</i> . |
|---|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Appendix 9.16 (rule IPRU (INS) 9.49 (1)(b))

Accounting classes

1	For the purposes of <i>IPRU (INS)</i> Chapter 9 Part VII, the accounting classes for <i>general insurance business</i> are those set out in the following table:
---	------------------------------------------------------------------------------------------------------------------------------------------------------------------

Accounting class	Description	Corresponding classes of <i>general insurance business</i>
1	Accident and health	1 (other than 1(p) and 2
2	Motor	1(p), 3 and 10
3	Aviation	1(p), 5 and 11
4	Marine	1(p), 6 and 2
5	Transport	7
6	Property	4, 8, and 9
7	Third-party liability	13
8	Miscellaneous and pecuniary loss	14, 15, 16, 17 and 18
9	Non-proportional treaty	
10	Proportional treaty	
11	Marine, aviation and transport treaty	

Appendix 9.17 (rule IPRU (INS) 9.60 (3))

1	The certificate in <i>IPRU(INS) 9.60 (3)</i> must state that:	
	(a)	the return has been properly prepared in accordance with the instructions referred to in <i>IPRU(INS) 9.60 (2)</i> ;
	(b)	proper accounting records have been maintained and adequate information has been obtained by the <i>managing agent</i> ;
	(c)	an appropriate system of control has been established and maintained by the <i>managing agent</i> over the <i>syndicate's</i> transactions and records;
	(d)	in relation to the statement by the <i>syndicate actuary</i> of a <i>syndicate</i> carrying on <i>long-term insurance business</i> required by <i>IPRU(INS) 9.58 (1)(c)</i> :
		(i) proper accounts and records have been maintained for the purpose of preparing the statement; and
		(ii) the information given has been ascertained in conformity with <i>IPRU(INS) Appendix 9.14</i> .

Appendix 9.18 (rule IPRU (INS) 9.60 (7))

1	The certificate in <i>IPRU(INS) 9.60 (7)</i> must state:	
	(a)	that in the auditors' opinion, the return has been properly prepared in accordance with the instructions referred to in <i>IPRU(INS) 9.60 (2)</i> ;
	(b)	that according to the information and explanations that the auditors have received:
	(i)	in their opinion, the certificate required to be signed in accordance with <i>IPRU(INS) 9.60 (3)</i> (other than statements to which paragraph 1(c) relates) has been properly prepared in accordance with the instructions; and
	(ii)	it was or was not unreasonable for the <i>persons</i> giving the certificate to have made the statements in it (other than statements to which paragraph 1(c) relates);
	(c)	the extent to which, in giving their opinion, the auditors have relied, in respect of <i>long-term insurance business</i> , on the work of the <i>syndicate actuary</i> .
2	The audit opinion required by paragraph 1 does not extend to cover information on major treaty reinsurers or major facultative reinsurers.	
3	To the extent that the information and explanations they have received do not allow the auditors to express an opinion as to whether it was or was not unreasonable for the persons giving the certificate required to be signed in accordance with <i>IPRU(INS) 9.60 (3)</i> to have made the statements therein, the auditors must add to their report such qualification, amplification or explanation as may be appropriate.

1 Chapter 1: Application and General Provisions

1.1 Purpose

1.1.1 G ~~Before 1 January 2007, the Interim Prudential Sourcebook for Investment Businesses (*IPRU (INV)*) sets out the detailed financial resources and prudential standards which the *FSA* applies to certain *firms* on an interim basis pending the introduction of a single prudential sourcebook applying to all *firms* regulated by the *FSA* – (the Integrated Prudential Sourcebook) was the part of the *Handbook* that dealt with capital requirements for *investment firms* subject to the position risk requirements of the previous version of the *Capital Adequacy Directive*. Now however, *investment firms* which are subject to the risk-based capital requirements of the *Capital Adequacy Directive* are subject to the General Prudential sourcebook (*GENPRU*) and the Prudential sourcebook for Banks, Building Societies and Investment Firms (*BIPRU*). However the *FSA* has not yet removed the parts of *IPRU (INV)* that deal with requirements for *firms* subject to risk-based capital requirements of the previous version of the *Capital Adequacy Directive*. Consequently, many provisions of *IPRU (INV)* will not apply to any *firm*. The *FSA* intends to remove these provisions in due course.~~

...

1.1.3A G This sourcebook does not apply to *BIPRU investment firms* except as provided in chapter TP of *BIPRU* applying parts of *IPRU (INV)* to certain *BIPRU investment firms* on a transitional basis.

...

1.1.6 G The *Supervision manual* sets out provisions relating to the periodic reporting and notification of financial information to the *FSA* or to the auditing of accounts. However, this sourcebook contains a few additional notification requirements (*notification rules*) arising out of EU Directives.

1.2 APPLICATION

1.2.1 ...

1.2.2 R (1) *IPRU (INV)* applies to:

(a) ...

...

(g) the *Society of Lloyd's* (in relation to *underwriting agents*); and

(h) ~~a UCITS management company; and~~

(i) ...

(2) *IPRU (INV)* does not apply to:

- (a) a *lead regulated firm*; ~~or~~
- (b) a *media firm*; or
- (c) a *BIPRU investment firm*.

(3) ...

1.2.3 G For the avoidance of doubt, *IPRU (INV)* does not apply to any of the following:

- (a) ...
- ...
- (g) a *UCITS qualifier*; or
- (h) a *UCITS management company*.

...

APPENDIX 1 (INTERPRETATION)

GLOSSARY OF TERMS FOR CHAPTER 5 (FORMER IMRO FIRMS)

Amend the following definitions in Appendix 1 as shown:

- category b body* means:
- (a) ...
 - ...
 - (e) an *investment firm* or *credit institution* authorised in any other country, which applies a financial supervision regime at least equivalent to the ~~Capital Adequacy Directive (No. 93/6/EEC)~~ Capital Adequacy Directive.
- exempt exposure* means:
- (a) ...
 - ...
 - (g) to a *connected company* provided that the *group* is supervised on a consolidated basis in accordance with the ~~Second Consolidated Supervision Directive~~ Banking Consolidation Directive and the consolidation requirements of the ~~Capital Adequacy Directive (No. 93/6/EEC)~~ Capital

Adequacy Directive; or

- financial resources requirement* (a) ~~(in relation to a UCITS management company)~~ has the meaning given in rule 7.2.1R(2) and (3);
- (b) ~~(in relation to a firm other than one in (a))~~ has the meaning given in rule 5.2.3(1)(a) to (c) (Determination of requirement).
- liquid capital* (a) ~~(in relation to a UCITS management company)~~ means capital calculated in accordance with Table 7.3.1R composed of the specified items set out in that Table;
- (b) ~~(in relation to a firm other than one in (a))~~ has the meaning given in rule 5.2.2(1) (Calculation of own funds and liquid capital).
- otc derivative* means interest rate and foreign exchange contracts covered by Annex III to the previous version of the Banking Consolidation Directive (i.e. Directive (2000/12/EC)) and off balance sheet contracts based on equities which are not traded on a *recognised* or *designated investment exchange* or other exchange where they are subject to daily margin requirements, excluding any foreign exchange contract with an original maturity of 14 calendar days or less.
- own funds* (a) ~~(in relation to a UCITS management company)~~ has the meaning given in Table 7.3.1R composed of the specified items set out in that Table;
- (b) ~~(in relation to a firm other than one in (a))~~ has the meaning given in rule 5.2.2(1) (Calculation of own funds and liquid capital).
- recognised third country investment firm* means an *investment firm* which is authorised in a country other than a *member state* and which is subject to and complies with prudential rules equivalent to the requirements of the ~~Capital Adequacy Directive (No. 93/6/EEC)~~ Capital Adequacy Directive.

10 Chapter 10: Financial resources for Securities and Futures Firms which are Investment Firms

...

10-32(6) R A *firm* which is subject to the waiver from consolidated supervision in accordance with rule ~~10-204~~14.1.4 R is exempt from (5) above.

...

10-60 FIRMS TO WHICH RULES 10-61 TO ~~10-204~~10-196 APPLY

Category A, B and C firms

10-60(1) R Rules 10-61 to ~~10-204~~10-196 apply to a *category A, B or C firm*

...

10-61(7) R A *firm* must deduct the full value of its *material holdings in credit or financial institutions*, in accordance with Table 10-61(1)B, unless:

- (a) the *firm* has been granted a waiver from rules ~~10-200 to 10-203~~ IPRU(INV) 14, in which case it must:
 - (i) deduct in full from *original own funds* those *material holdings in credit or financial institutions* which would have been included in the scope of consolidation in accordance with rule ~~10-200(3)~~14.2.1R if the waiver had not been granted; and

...

...

10-62(2) R A *firm* must calculate its *financial resources* in accordance with Table 10-62(2)(2)A below, unless:

(a) it has been granted a waiver from rules ~~10-200 to 10-203~~ IPRU(INV) 14, in which case it must calculate *financial*

resources in accordance with Table 10-62(2)B; or

...

...

10-63 (12) R

...

G

...

G

In respect of (b) above, a *firm* which has been granted a waiver from ~~rules 10-200 to 10-203~~ IPRU(INV) 14 may use the items of capital listed in "E" in Table 10-62(2)B to cover the items in line "F" before it uses *original own funds* to cover the items in line "F".

G

...

...

10-65 (12) R

The liquidity adjustment for a *material holding* in either a *credit* or *financial institution* is:

(a)

...

(b)

for a *firm* which has been granted a waiver from ~~rules 10-200 to 10-203~~ IPRU(INV) 14: 100%, unless it is:

(i)

a *material holding* in a *credit* or *financial institution* which would have been included in the scope of consolidation in accordance with rule ~~10-200(3)~~ 14.2.1 R if the waiver had not been granted, in which case it must be deducted in full from *original own funds*; or

...

...

10-190 (1) R

A *firm* must comply with rules 10-190 to 10-195 on both a solo and consolidated basis, except that a *firm* with a waiver from consolidated supervision in accordance with rule ~~10-204~~ 14.1.4 R or which is exempt under rule ~~10-200(2)~~ 14.1.2 R, must comply with rules 10-190 to 10-195 on a solo basis only and also with rule 10-196.

...

10-192 (1) R

A *firm* may exclude the following from its *LER* calculation and the limits set out in rule 10-193:

(a)

...

...

- (g) if the *firm* first notifies the *FSA* in writing, *exposures* to the *firm's parent, subsidiaries* and other *subsidiaries of its parent*, provided that these entities are subject to consolidated supervision in accordance with ~~rules 10-200 to 10-203~~IPRU (INV) 14;

...

- 10-196 R A *firm* which is exempt from consolidated supervision in accordance with rule ~~10-204~~14.1.4 R must either:
- (a) have in place an *ACMP* which enables the *firm* to monitor its *exposures* on a groups wide basis; or
- (b) report to the *FSA* all group *large exposures* at the end of each quarter.

Chapter 10, Appendix 4: Interest rate PRR

...

DEFINITION OF A QUALIFYING DEBT SECURITY

46 R A debt *security* is a *qualifying debt security* if:

(1) ...

...

(4) it is a mortgage backed *security* relating to residential real estate of the type referred to in BIPRU 3.4.94R(1)(d)(i) which meets the ~~criteria in 7e of section 3.2.5 of chapter BC of IPRU (BANK)~~requirements about legal certainty referred to in BIPRU 3.4.62R.

...

...

Chapter 10, Appendix 10: Use of CAD 1 Model

...

5. G ~~As explained in SUP 8.3.1G, waivers permitting the use of models in the calculation of PRR will not be granted if that would be contrary to the CAD, and any waiver which is granted will only be granted on terms that are compatible with the CAD. The FSA considers it unlikely that it will deviate from this even where the firm making the waiver application is not subject to CAD. Accordingly, It is generally the case that only waivers permitting the use of models that the FSA is likely to grant are CAD1 and VaR models in accordance with the policy in this appendix.~~

...

Chapter 10, Appendix 11: Use of Value at Risk Model

...

2. G The models described in this appendix are described as VaR models in order to distinguish them from the kinds of model originally contemplated by the ~~Capital Adequacy Directive (CAD) previous version of the Capital Adequacy Directive (i.e. Directive 93/6/EEC).~~ (These are covered in Appendix 10 and referred to as "CAD 1 models"). A VaR model is a risk management model which uses a statistical measure to predict profit and loss movement ranges with a confidence interval. ~~The standards described in this appendix, and which will be applied by the~~

~~FSA, are based on and implement Annex VIII of the CAD.~~

...

12. G ~~As explained in SUP 8.3.1G, waivers permitting the use of models in the calculation of PRR will not be granted if that would be contrary to the CAD, and any waiver which is granted will only be granted on terms that are compatible with the CAD. The FSA considers it unlikely that it will deviate from this approach even where the firm making the waiver application is not subject to CAD. Accordingly, It is generally the case that the only waivers permitting the use of models that the FSA is likely to grant are CAD1 and VaR models in accordance with the policy in this appendix.~~

...

REGULATORY CAPITAL TREATMENT

~~... Furthermore, the FSA is constrained by the requirements of the Capital Adequacy Directive, and the associated pieces of legislation; it is possible that what seems a common sense approach could be illegal.~~

...

Offset for capital adequacy purposes

The ~~Capital Adequacy Directive allows the competent authorities to~~FSA recognises certain offsets for general market risk, but requires that the specific risk charge is applied to gross positions.

...

Risk assessment models

~~In the light of the forthcoming CADII package of directives, f~~Firms may also wish to consider whether to approach the FSA for permission to use an appropriate risk assessment model as the basis for calculating regulatory capital requirements.

...

Netting

A firm may net long and short positions in the same equity, debt and derivative instruments (under ~~Chapter 10 rule 10-8323R of appendix 5~~ for equities based instruments and ~~rule 10-10237R of appendix 4~~ for interest rate based products) before the specific risk charge is applied to the resultant net long or short position. Instruments are considered to be the same where the issuer is the same, they have equivalent ranking in liquidation, and the currency, coupon and maturity are the same. These netting criteria are taken from Annex 1 (Position Risk) of the ~~Capital Adequacy Directive ("CAD 1")~~previous version of the *Capital Adequacy*

Directive (Directive 93/6/EEC).

14 Chapter 14: Consolidated supervision for investment business

14.1 Application

14.1.1 R Subject to rule 14.1.2, *consolidated supervision* and this chapter apply to a *firm* which is a member of a group if it is:

- (1) ~~a securities and futures firm, subject to the financial rules in Chapter 3, which is a broad scope firm but not a venture capital firm~~ it is:

- (a) a securities and futures firm, subject to the financial rules in Chapter 3, which is a broad scope firm but not a venture capital firm;
 - (b) a securities and futures firm, subject to the financial rules in Chapter 10, unless the firm is a category D firm; or
 - (c) a category A personal investment firm, subject to the financial rules in Chapter 13; and
- (2) ~~it is not a BIPRU firm. an investment management firm, which is a CAD investment firm subject to the financial rules in Chapter 5;~~
 - (3) ~~a UCITS investment firm, subject to the financial rules in chapter 7;~~
 - (4) ~~a securities and futures firm, subject to the financial rules in Chapter 10, unless the firm is a category D firm; or~~
 - (5) ~~a category A personal investment firm, subject to the financial rules in Chapter 13.~~

Cases where consolidated supervision under this chapter will not apply

- 14.1.2 R A firm is not subject to consolidated supervision under the rules in this Chapter where any of the following conditions are fulfilled:
- (1) the firm is included in the supervision on a consolidated basis of the group of which it is a member by a competent authority other than the FSA;
 - (2) the firm is a member of a UK consolidation group already included in the supervision on a consolidated basis of the group of which it is a member by the FSA under IPRU(BANK) or IPRU(BSOC) BIPRU 8.
- 14.1.3 G
- (1) ~~The rules in this chapter apply even if the firm is subject to the rules in PRU 8.4 (the financial conglomerates rules) or PRU 8.3 (the insurance group rules), if the firm is part of an investment sub-group. Financial conglomerates are subject to the Financial Groups Directive (2002/87/EC). Insurance groups are subject to the Insurance Groups Directive (98/78/EC). Neither directive allows a waiver of consolidation of a Capital Adequacy Directive group. So if there is an investment sub-group within an insurance group, the rules in this chapter apply, regardless of the application of a group capital assessment to the wider group. [Deleted]~~
 - (2) ~~Where firms authorised in two or more member states have as their parent the same financial holding company, supervision on a consolidated basis will be exercised by the competent authority of the firms authorised in the member state in which the financial holding company was set up. If no firm has been authorised in the Member State in which the financial holding company was set up, the competent authorities of the Member States concerned will seek to reach agreement as to who amongst them will exercise supervision~~

~~on a consolidated basis. In the absence of such an agreement, supervision on a consolidated basis will be exercised by the competent authority that granted authorisation to the firms with the greatest balance sheet total (measured on the basis of total assets). If that figure is the same for more than two authorised firms, supervision on a consolidated basis will be exercised by the competent authority which first gave the authorisation.~~[Deleted]

- (3) Where there is more than one authorised *firm* in the group, subject to the rules of this chapter, one consolidated supervision return may be submitted on behalf of all the *firms* in the group in accordance with SUP 16.3.25G.

Exemption from consolidated supervision

14.1.4 R A *firm* need not meet the requirements in rules 14.3.1 and 14.3.2 if:

- (1) ...
- (2) ...
- (3) each member of the group which is a *CAD investment firm*:
 - (a) ~~deducts any material holdings in credit and financial institutions from its financial resources;~~
 - (b) ~~complies with its solo applicable financial resources requirement and the large exposures requirements; and~~
 - (c) ~~has systems and controls to monitor and control the sources of capital and funding of all other financial institutions within the group;~~[Deleted]
- (4) ...
- (5) ...
- (6) ...
- (7) ...

...

14.1.6 G (1) The Capital Adequacy Directive (articles 7(4) to 7(6)) provides that a *competent authority* such as the *FSA* may waive *consolidated supervision* provided certain conditions are met. The conditions in *rule* 14.1.4 are mainly derived from the Capital Adequacy Directive.[Deleted]

- (2) ...

...

...

14.2 Scope of consolidation

...

- 14.2.4 G (1) *A firm's parent is a financial holding company if it is either a financial institution or a securities and futures firm that is subject to the financial rules in Chapter 3 and that is a broad scope firm (but not a venture capital firm) and if its subsidiary undertakings carry out mainly listed activities, activities of a credit institution or activities undertaken by a Chapter 3 broad scope firm. For this purpose the FSA interprets the phrases 'mainly' or 'main business' to mean where the balance of business is over 40% of the relevant group or sub-group's balance sheet (measured on the basis of total assets) or profit and loss statement (measured on the basis of gross income). In addition, if the firm's parent has significant holdings in insurance undertakings or reinsurance undertakings, it is a mixed financial holding company, and the firm is subject to the rules in GENPRU 3.1 PRU 8.4 instead of the rules in this chapter. This is because a parent cannot be a financial holding company and a mixed financial holding company at the same time. GENPRU 3.1 PRU 8.4 sets out what constitutes significant insurance holdings (broadly more than 10% of the financial sector activities of the group). A firm's parent is a financial holding company and not regarded as a mixed financial holding company unless:*
- (a) the parent has been notified by its coordinator that the group it heads is a financial conglomerate (in accordance with Article 4(2) of the Financial Groups Directive); and
 - (b) it has not been notified that the coordinator and the relevant competent authorities have agreed not to treat the group as a financial conglomerate in accordance with Article 3(3) of the Financial Groups Directive.
- (2) *A firm with an ultimate non-EEA parent may also be subject to the provisions in GENPRU 3.2 PRU 8.5.*

...

14.4 Group financial resources

...

- 14.4.2 R (1) *If more than one firm in the group is subject to the rules of this chapter, group financial resources are defined according to the relevant rules applicable to the main firm in the group to which this chapter applies, with Tier 1 minority interests being allowed as Group Tier 1 capital and Tier 2 minority interests being allowed as Group Tier 2 capital.*
- (2) ...
- 14.4.3 R *Financial resources will be defined based upon the main firm in the group to*

which this chapter applies as follows:

- (1) ...
- (2) ~~if an *investment management firm*, Table 5.2.2(1)R but excluding any illiquid assets or qualifying property adjustments required by that Table;~~
- (3) ~~if a *UCITS investment firm*, Table 7.3.1R but excluding any illiquid assets or qualifying property adjustments required by that Table;~~
- (4) ...
- (5) ...

...

14.5 Group financial resources requirement

...

14.5.2 R Financial resources requirements for individual entities in the group are:

- (1) for *firms* regulated by the *FSA*, their regulatory capital requirement under *FSA* rules;
- (2) for entities regulated by an *EEA regulator* ~~or one of the regulators listed in IPRU(INV) 10 App 59 or IPRU(BANK) CS Appendix D~~ and which is subject to the local regulatory capital requirement of that regulator, that local regulatory capital requirement; ~~and~~
- (2A) for entities that are *recognised third country credit institutions* or *recognised third country investment firms* and which is subject to the local regulatory capital requirement of that regulator, that local regulatory capital requirement;
- (2B) for entities not in (2A) that are regulated by a *third country competent authority* named in the table in *BIPRU 8 Annex 3R* and which is subject to the local regulatory capital requirement of that regulator, that local regulatory capital requirement; and
- (3) for other entities in the group, a notional financial resources requirement calculated as if the entity were regulated by the *FSA*.

...

14.5.4 G A *firm* may apply for a *waiver* of rule 14.5.1R, to permit a line-by-line approach to determine its *group financial resources requirement*. ~~Any *waiver* application should demonstrate (where relevant) that the constraints for intra-group offsets under the Capital Adequacy Directive (article 7) are met.~~ A *firm* should also demonstrate that calculating its requirement in this way does not result in a distortion of the *group financial resources requirement*.

...

APPENDIX 14(1) (INTERPRETATION)

Amend the following definitions as shown:

<i>CAD Article 53 exempting criteria</i>	the following criteria in respect of the <i>firm's</i> dealing positions: - such positions arise only as a result of the <i>firm's</i> failure to match investors orders precisely; - the total market value of all such positions is subject to a ceiling of 15% of the <i>firm's</i> initial capital; and - such positions are incidental and provisional in nature and strictly limited to the time required to carry out the transaction in question.
<i>CAD investment firm</i>	a <i>firm</i> subject to the requirements of the <i>Capital Adequacy Directive (CAD) (93/6/EEC)</i> excluding a person to whom the <i>CAD</i> does not apply under Article 3.1(b)2.2 of that Directive.
<i>financial holding company</i>	an <i>undertaking</i> that satisfies the following conditions: (a) ... (b) ... one of which at least is a <i>credit institution</i> , a <i>firm</i> falling within <i>IPRU(INV) rule 14.1.1(1)</i> or an <i>investment firm</i> ; and (c) it is not a <i>mixed financial holding company</i> within the meaning of PRU 8.4
<i>parent</i>	any parent <i>undertaking</i> as defined in section 258 of the Companies Act 1985 or paragraph 14 of Financial Reporting Standard No 2 and any <i>undertaking</i> which effectively exercises a dominant influence over another <i>undertaking</i> .

Delete the following definition from Appendix 14(1); the text is not shown struck through:

Annex I

Amendments to the Insurance: Conduct of Business sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

Part 1: consequential amendments taking effect 31 December 2006

Amend ICOB 1 Ann 2G as follows:

Summary of Handbook provisions for insurance intermediaries

...

	Module	Application
...
Business Standards	<p style="text-align: center;">...</p> <p style="text-align: center;">Prudential sourcebook</p> <p style="text-align: center;"><u>GENPRU</u></p> <p style="text-align: center;">...</p> <p style="text-align: center;">PRU<u>INSPRU</u></p>	<p style="text-align: center;">...</p> <p style="text-align: center;"><u>Applies in respect of (1) where the insurance intermediary is also an insurer</u></p> <p style="text-align: center;">Applies in respect of (1) where the insurance intermediary is also an insurer</p>
...

...

Part 2: consequential amendments taking effect 1 January 2007

Amend ICOB 1 Ann 2G as follows:

Summary of Handbook provisions for insurance intermediaries

...

	Module	Application
...
Business Standards	Interim Prudential sourcebooks	

	<i>IPRU(INV)</i>	Applies in respect of (1) where the <i>insurance intermediary</i> is also an <i>investment firm</i> (<u>other than a <i>BIPRU investment firm</i></u>)

	Prudential sourcebook	
	<i>GENPRU</i>	Applies in respect of (1) where the <i>insurance intermediary</i> is also a <u><i>BIPRU firm</i></u> or an insurer .
	<u><i>BIPRU</i></u>	<u>Applies in respect of (1) where the <i>insurance intermediary</i> is also a <i>BIPRU firm</i>.</u>
	PRU 9.1 – PRU 9.3 <u><i>MIPRU 1 – MIPRU 4</i></u>	Applies in respect of (1).
	<i>INSPRU</i>	...
	PRU 9.4 <u><i>MIPRU 5</i></u>	Applies in respect of (1) where the <i>insurance intermediary</i> is also an <i>insurer</i> or a <i>mortgage lender</i> .
...

Annex J

Amendments to the Mortgages: Conduct of Business sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

Part 1: consequential amendments taking effect 31 December 2006

Summary of the application of the Handbook to firms carrying on regulated mortgage activities and firms that communicate or approve qualifying credit promotions

Table: This table belongs to MCOB 1.4.1G

Module	Application
...	...
Business Standards	Interim Prudential sourcebooks,
	...
	<u>GENPRU</u>
	<u>Applies to every mortgage administrator, mortgage adviser, mortgage arranger and mortgage lender where they are also insurers;</u>
	<u>INSPRU</u>
	<u>Applies to every mortgage administrator, mortgage adviser, mortgage arranger and mortgage lender where they are also insurers.</u>
	...

...

Part 2: consequential amendments taking effect 1 January 2006

Amend MCOB 1 Annex 4G as follows:

Summary of the application of the Handbook to firms carrying on regulated mortgage activities and firms that communicate or approve qualifying credit promotions

Table: This table belongs to MCOB 1.4.1G

Module	Application
...	...
Business Standards	Interim Prudential sourcebooks,
...	...
...	<p>IPRU(INV) Applies to every <i>mortgage administrator, mortgage adviser, mortgage arranger and mortgage lender</i> where they are also <i>investment firms (other than <u>BIPRU investment firms</u>)</i>;</p>
...	<p><i>GENPRU</i> Applies to every <i>mortgage administrator, mortgage adviser, mortgage arranger and mortgage lender</i> where they are also <i><u>BIPRU firms or insurers</u></i>;</p>
...	<p><u><i>BIPRU</i></u> Applies to every <i>mortgage administrator, mortgage adviser, mortgage arranger and mortgage lender</i> where they are also <i><u>BIPRU firms</u></i>;</p>
...	<p><i>INSPRU</i> Applies to every <i>mortgage administrator, mortgage adviser, mortgage arranger and mortgage lender</i> where they are also <i>insurers</i>.</p>
...	...

...

Annex K

Amendments to the Market Conduct sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend MAR 3.3.3G as follows:

- 3.3.2 G MAR 3 is not the only chapter of the *Handbook* that applies to *firms* doing *inter-professional business*. *Firms* should always consider what other parts of the *Handbook* may apply to them. A table listing the applicable *Principles* is set out in MAR 3 Annex 2. The table also sets out the key provisions of *COB* and *CASS* that may also apply to *firms* doing *inter-professional business*, but it should not be read as an exhaustive list. *Firms* should also consider the other provisions of the *Handbook*, especially but not exclusively ~~*IPRU* and *PRU*~~ the Prudential Standards part of the *Handbook*.

Annex L

Amendments to the Supervision manual

For the convenience of readers this Annex is in four parts.

Part 1: amendments relating to the Society of Lloyd's

Amend SUP 15.1.1R as follows. New text is underlined and deleted text is shown struck-through:

Who?

15.1.1 R This chapter applies to every *firm* except that:

- (1) only *SUP 15.10* applies to an *ICVC* or a *UCITS qualifier*; ~~and~~
- (2) *SUP 15.3.22D to SUP 15.3.25D* apply only to the *Society*.

Insert the following text after SUP 15.3.21R. The text is redesignated and restated and amendments to the text are not shown:

Lloyd's of London

15.3.22 D *SUP 15.3.23D to SUP 15.3.25D* are given in relation to the exercise of the powers of the *Society* and of the *Council* generally, with a view to achieving the objective of enabling the *FSA* to:

- (1) comply with its general duty under section 314 of the *Act* (Authority's general duty);
- (2) determine whether *underwriting agents*, or *approved persons* acting for them or on their behalf, are complying with the requirements imposed on them by or under the *Act*;
- (3) enforce the provisions of the *Act*, or requirements made under the *Act*, by enabling the *FSA* to consider, where appropriate, whether it should use its powers, for example, to:
 - (a) vary or cancel the *permission* of an *underwriting agent*, under section 45 of the *Act* (Variation etc on the Authority's own initiative);
 - (b) withdraw approval from an *approved person* acting for or on behalf of an *underwriting agent*, under section 63 of the *Act* (Withdrawal of approval) (see *ENF 7*);
 - (c) prohibit an individual acting for or on behalf of an

underwriting agent from involvement in *regulated activities*, under section 56 of the *Act* (Prohibition orders) (see *ENF 8*);

- (d) require an *underwriting agent* to make restitution, under section 384 of the *Act* (Power of Authority to require restitution) (see *ENF 9*);
- (e) discipline an *underwriting agent*, or an *approved person* acting for it or on its behalf, for a breach of a requirement made under the *Act*, including the *Principles*, *Statements of Principle* and *rules* (see *ENF 11*, *ENF 12* and *ENF 13*);
- (f) apply to court for an *injunction*, restitution order or *insolvency order* (see *ENF 6*, *ENF 9* and *ENF 10*); and
- (g) prosecute any criminal offence that the *FSA* has power to prosecute under the *Act* (see *ENF 15*).

15.3.23 D The *Society* must immediately inform the *FSA* in writing if it becomes aware that any matter likely to be of material concern to the *FSA* may have arisen in relation to:

- (1) the *regulated activities* for which the *Society* has *permission*; or
- (2) *underwriting agents*; or
- (3) *approved persons* or individuals acting for or on behalf of *underwriting agents*.

15.3.24 D The *Society* must inform the *FSA* if it commences investigations or disciplinary proceedings relating to apparent breaches:

- (1) of the *Act* or requirements made under the *Act*, including the *threshold conditions* or the *Principles* or other *rules*, by an *underwriting agent*; or
- (2) of the *Statements of Principle* by an individual or other *person* who carries out *controlled functions* for or on behalf of an *underwriting agent*.

15.3.25 D The *Society* must inform the *FSA* if it commences investigations or disciplinary proceedings which do not fall within the scope of *SUP 15.3.24D* but which:

- (1) involve an *underwriting agent*, or an *approved person* who carries out *controlled functions* for it or on its behalf; or
- (2) may indicate that an individual acting for or on behalf of an *underwriting agent* may not be a fit and proper *person* to perform functions in relation to *regulated activities*.

Insert a new section SUP App 2.16 (Regulatory intervention points for Lloyd's) as follows. The text is redesignated and restated and amendments to the text are not shown:

App 2.16 Regulatory intervention points for Lloyd's
Application

App 2.16.1 R The *rules and guidance* in SUP App 2 apply to the *Society*:

- (1) with the modifications set out in SUP App 2.16.2R to SUP App 2.16.5G; but
- (2) except SUP App 2.8.1G to SUP App 2.8.5G, SUP App 2.9.1R, SUP App 2.10.1R, SUP App 2.12.1R(2)(a), SUP App 2.12.2G and SUP App 2.12.7R.

Interpretation

App 2.16.2 R For the purpose of SUP App 2.16 and the application of SUP App 2 to the *Society*:

- (1) "capital resources", as the context requires:
 - (a) in relation to the *Society's* own capital resources, means its own *capital resources* calculated in accordance with the *capital resources table*;
 - (b) in relation to a *member's* capital resources, means the *member's capital resources* calculated in accordance with GENPRU 2.3.22R;
 - (c) in relation to the aggregate *capital resources* of the *Society* and the *members* supporting the *insurance business* of the *members*, means the aggregate of the *capital resources* in (1)(a) and (b) but excluding the *Society's callable contributions*;
- (2) "guarantee fund":
 - (a) in relation to the *general insurance business* carried on by *members*, means the amount of capital resources required in order to comply with GENPRU 2.2.26R, GENPRU 2.3.17R and GENPRU 2.3.26R; and the "member's share of the guarantee fund" for *general insurance business* means the result of the calculation set out in GENPRU 2.3.27R;
 - (b) in relation to the *long-term insurance business* carried on by *members*, means the amount of capital resources required in order to comply with GENPRU 2.2.25R and GENPRU 2.3.17R; and the "member's share of the guarantee fund" for *long-term insurance business* means the result of the calculation set out in GENPRU 2.3.25R;

- (3) "required margin of solvency":
- (a) in relation to the *general insurance business* carried on by *members*, means the higher of the *Society GICR* and the *general insurance capital requirement* for the *members* in aggregate; and
 - (b) in relation to the *long-term insurance business* carried on by *members*, means the *long-term insurance capital requirement* for the *members* in aggregate.

Capital resources below guarantee fund

- App 2.16.3 R For the purposes of *SUP App 2.4.1R* and *SUP App 2.4.2G*, *capital resources* will have fallen below the guarantee fund if the *Society's* own capital resources are such that they are no longer sufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's* capital resources fall short of the *member's* share of the guarantee fund.

Capital resources below required margin of solvency

- App 2.16.4 R For the purposes of *SUP App 2.5.1R* to *SUP App 2.5.3G*, capital resources will be such that they no longer equal or exceed the required solvency margin if the *Society's* own capital resources are insufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's* capital resources fall short of the *member's* share of the required solvency margin.

Capital resources below capital resources requirement

- App 2.16.5 R For the purposes of *SUP App 2.6.1G*, capital resources will have fallen below the *capital resources requirement* if the *Society's* own capital resources are insufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's* capital resources fall short of the *member's* share of the *capital resources requirement* for the *members* in aggregate.

Capital resources below the level of individual capital guidance

- App 2.16.6 G For the purposes of *SUP App 2.7.1G* to *SUP App 2.7.5G*, capital resources will have fallen below the level of *individual capital guidance* if the *Society's* own capital resources have fallen below the level advised in *individual capital guidance* given to the *Society* in respect of those capital resources.

Amend SUP Schedule 2 (Notification Requirements) by inserting the following new text at the appropriate place in the table. New text is underlined.

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
<u>SUP 15.3.23D</u>	<u>Any matter likely to be of material concern in relation to the FSA which may have arisen in relation to:</u> <u>(1) the regulated activities for which the Society has permission; or</u> <u>(2) underwriting agents; or</u> <u>(3) approved persons or individuals acting for or on behalf of underwriting agents..</u>	<u>Details of the matters arisen.</u>	<u>The Society becomes aware</u>	<u>Immediately</u>
<u>SUP 15.3</u>	<u>Commencement, continuation and cessation of relevant investigations and disciplinary proceedings</u>	<u>Commencement, continuation and cessation of relevant investigations and disciplinary proceedings listed in SUP 15.3.24D and 15.3.25D</u>	<u>Commencement of proceedings</u>	<u>Not specified</u>

Part 2: amendments relating to implementation of Article 35(5) of the Directive of the European Parliament and of the Council of 14 June 2006 on the capital adequacy of investment firms and credit institutions (No 2006/49/EC)

Insert the following new rule SUP 15.8.9R. The text is all new and is not underlined:

15.8.9	R	A <i>BIPRU firm</i> must report to the <i>FSA</i> immediately any case in which its counterparty in a <i>repurchase agreement</i> or <i>reverse repurchase agreement</i> or <i>securities or commodities lending or borrowing transaction</i> defaults on its obligations.
--------	---	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Amend SUP Schedule 2 (Notification Requirements) by inserting the following new text at the appropriate place in the table. New text is underlined.

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
<u>SUP 15.8.9R</u>	<u>Default by counterparty on its obligations in a transaction of a type specified in SUP 15.8.9R.</u>	<u>The fact of the default.</u>	<u>Default by counterparty on its obligations in a repurchase agreement or reverse repurchase agreement or securities or commodities lending or borrowing transaction.</u>	<u>Immediately</u>

Part 3: consequential amendments taking effect on 31 December 2006

In this Part, underlining indicates new text and striking through indicates deleted text.

Amend SUP 3.1 as follows:

...

3.1.9 G Material elsewhere in the Handbook

A firm which is a bank, building society, friendly society or other insurer, investment management firm, personal investment firm, securities and futures firm, the Society of Lloyd's or a Lloyd's managing agent in respect of each syndicate managed by it, should see the ~~Interim Prudential sourcebooks~~ Standards part of the Handbook for further provisions on auditors as set out in SUP 3.1.10 G. For the categorisations employed in SUP 3.1.2 R and SUP 3.1.10 G see SUP App 1.

3.1.10 G Other relevant sections of the Handbook (see SUP 3.1.9 G)

<i>Bank</i>	<i>IPRU(BANK)</i>
<i>Building society</i>	<i>IPRU(BSOC)</i>
<i>Friendly society</i>	<i>IPRU(FSOC)</i>
<i>Insurer (other than a friendly society)</i>	<i>IPRU(INS)</i>
<i>Investment management firm, personal investment firm, securities and futures firm, UCITS management company</i>	<i>IPRU(INV)</i>
<i>Society of Lloyd's</i>	<i>LLD</i>
<i>Bank</i>	<i>IPRU(BANK)</i>
<i>Building society</i>	<i>IPRU(BSOC)</i>
<i>Friendly society</i>	<i>IPRU(FSOC)</i>
<i>Insurer (other than a friendly society)</i>	<i>IPRU(INS)</i>
<i>Investment management firm, personal investment firm, securities and futures firm</i>	<i>IPRU(INV)</i>
<i>Society of Lloyd's and Lloyd's managing agents</i>	<i>LLD <u>IPRU(INS)</u></i>

...

Amend SUP 8.2 as follows:

...

8.2.7	G	Rules that can be waived (see SUP 8.2.6 G)	
		Rules	... Chapters of the Handbook where such rules appear (Note 1)
		...	
		Insurance business rules	... <u>PRUINSPRU</u>
		...	

...

Amend SUP 9.3 as follows:

...

9.3.2	G	...	
		(1)	...
		...	
		(5)	in relation to the maintenance of adequate financial resources, the <i>FSA</i> may give a <i>firm</i> individual <i>guidance</i> on the amount or type of financial resources the <i>FSA</i> considers appropriate, for example on individual capital ratios for <i>banks</i> and <i>building societies</i> ; further <i>guidance</i> on how and when the <i>FSA</i> may give individual <i>guidance</i> on financial resources is contained in the Interim Prudential sourcebooks and in <u>PRU</u> the Prudential Standards part of the <i>Handbook</i> :
		(a)	...
		...	
		(d)	for an insurer: PRU 2.3.13 and PRU 2.3.24 <u>INSPRU 7</u>

...

Amend SUP 13A Ann 1G as follows:

13A	Annex 1G	Application of the Handbook to Incoming EEA Firms	
	(1) ...	(2) ...	(3) ...
	...		
	<u>PRU</u>
	<u>INSPRU</u>	Otherwise, PRU <u>INSPRU</u> does not apply unless the <i>firm</i> is an <i>insurer</i> to	

which ~~PRU 7.6.33~~INSPRU 1.5.33R applies.

...

Amend SUP App 1.3.1G as follows:

App 1.3.1	G	Table Prudential categories and sub-categories used in the Interim Prudential sourcebooks and the Supervision manual		
		Prudential categories (Note 1)	Applicable prudential requirements (Note 2)	Prudential sub-categories
	
		<i>Insurer*</i>	<i>IPRU(INS)</i> or <i>IPRU(FSOC)</i> <u>and</u> <u><i>INSPRU</i></u>	...
	
		<i>Society of Lloyd's*</i>	LLD <u><i>INSPRU</i></u> and <u><i>IPRU(INS)</i></u>	

Note 2 = Only the requirements in the ~~Interim~~ Prudential sourcebooks, ~~LLD~~, and CRED are listed in the column. Requirements in other parts of the *Handbook* will also apply.

Amend SUP App 2.1 to 2.14 as follows:

2 Insurers: Regulatory intervention points

2.1 Application

2.1.1 R ~~This appendix applies~~ SUP App 2.1 to 2.15 apply to an *insurer* unless it is:

- (1) a *Swiss general insurer*; or
- (2) an *EEA-deposit insurer*; or
- (3) an *incoming EEA firm*; or
- (4) an *incoming Treaty firm*.

2.1.2 G ~~This appendix applies~~ SUP App 2.1 to 2.15 apply to every *friendly society* as a *friendly society* is an *insurer*.

2.1.3 R SUP App 2.16 applies to the *Society*.

2.2 Interpretation

2.2.1 R For the purpose of *SUP* App 2.1 to 2.14:

(1) “capital resources”:

(a) ...;

(b) in relation to a *participating insurance undertaking*, means P+T, where P and T have the meanings given by ~~PRU 8.3.45R(3)(a)~~ INSPRU 6.1.45R(3)(a) and (e) respectively, as calculated in accordance with ~~PRU 8.3.43R~~ INSPRU 6.1.43R; and

(c) in relation to any other *firm*, means the *firm’s capital resources* as calculated in accordance with GENPRU 2.2.12R;

(2) “guarantee fund”:

(a) ...;

(b) in relation to a *participating insurance undertaking*, means the amount of capital resources which that *firm* must hold to comply with ~~PRU 8.3.45R(2)~~ INSPRU 6.1.45R(2);

(c) in relation to a *firm* which is not covered by (a) or (b), carrying on *general insurance business*, means the amount of capital resources which that *firm* must hold to comply with ~~PRU 2.2.18R~~ GENPRU 2.2.34R; and

(d) in relation to a *firm* which is not covered by (a) or (b), carrying on *long-term insurance business*, means the amount of capital resources which that *firm* must hold to comply with ~~PRU 2.2.17R~~ GENPRU 2.2.33R;

(3) ...

(4) “required margin of solvency”:

(a) ...;

(b) in relation to a *participating insurance undertaking*, means R-S-U, where R, S and U have the meanings given by ~~PRU 8.3.45R~~ INSPRU 6.1.45R (3)(c), (d) and (f) respectively;

...

2.2.2 G The calculation of each of the *base capital resources requirement*, the *long-term insurance capital requirement* and the *general insurance capital requirement* is set out in GENPRU 2.1. The calculation of each of the “guarantee fund” and “required margin of solvency” for *non-directive friendly societies* is set out in chapter 4 of *IPRU(FSOC)*.

2.3 Purpose

- 2.3.1 G ...
- 2.3.2 G The *rules* in ~~this appendix~~ SUP App 2.1 to 2.14 require a *firm* to submit reports and information to the *FSA* when:
- ...
- 2.3.3 G The *FSA* may also ask a *firm* to submit reports and information to it when the *firm's* capital resources fall below the level advised in ~~individual capital~~ individual capital guidance given to the *firm*.
- ...
- 2.3.7 G *Principle 4* of the *FSA's* Principles for Businesses provides that *firms* should hold adequate financial resources, while ~~PRU 1.2.22R~~ GENPRU 1.2.26R requires a *firm* to maintain overall financial resources which are adequate to ensure that there is no significant risk that it cannot meet its liabilities as they fall due. In considering these requirements, a *firm* may decide to maintain capital resources above the level advised in ~~individual capital~~ individual capital guidance given by the *FSA*, or, if no ~~individual capital~~ individual capital guidance has been given, above its *capital resources requirement*. The amount of any such additional capital resources held is at the discretion of the *firm*. However, the extent to which a *firm* matches these additional capital resources to the volatility of its capital base, in conjunction with the strength of its systems and controls environment, is likely to affect the frequency with which it is subject to intervention under this appendix.
- ...
- 2.5 Capital resources below required margin of solvency
- 2.5.1 R Unless *SUP App 2.5.3R* applies:
- (1) if a *firm's* capital resources are such that they no longer equal or exceed its required margin of solvency; or
 - (2) if a *firm* no longer complies with ~~PRU 2.2.16R~~ GENPRU 2.2.32R and ~~PRU 2.2.24R~~ GENPRU 2.2.28R, or ~~PRU 8.3.45R~~ INSPRU 6.1.45R(1)(a) and ~~PRU 8.3.45R~~ INSPRU 6.1.45R(1)(b), as applicable;
- it must, within 28 days of becoming aware of this event, submit to the *FSA* a plan for the restoration of a sound financial position, including:
- (3) a *scheme of operations*; and
 - (4) an explanation of how, if at all, and by when:
 - (a) it expects its capital resources to be restored to the required margin of solvency; or
 - (b) as the case may be, it expects to comply with ~~PRU 2.2.16R~~ GENPRU 2.2.32R and ~~PRU 2.2.24R~~ GENPRU 2.2.28R, or *PRU*

~~8.3.45R INSPRU 6.1.45R(1)(a)~~ and ~~PRU 8.3.45R INSPRU 6.1.45R(1)(b)~~, as applicable.

2.5.2 G

2.5.3 R If a *firm*:

- (1) falls into *SUP* App 2.5.1R(1) or (2); and
- (2) it has previously submitted either a run-off plan in accordance with *SUP* App 2.8.1R or a *scheme of operations* in accordance with *SUP* App 2.5.1R;

it must, within 28 days of becoming aware that it falls into *SUP* App 2.5.1R(1) or (2):

- (3) notify the *FSA*; and
- (4) submit a plan for restoration which:
 - (a) explains why the *firm's* capital resources have fallen below its required margin of solvency or, as the case may be, it no longer complies with ~~PRU 2.2.16R GENPRU 2.2.32R~~ or ~~PRU 2.2.24R GENPRU 2.2.28R~~, or ~~PRU 8.3.45R INSPRU 6.1.45R(1)(a)~~ and ~~PRU 8.3.45R INSPRU 6.1.45R(1)(b)~~, as applicable; and
 - (b) demonstrates how, if at all, and by when, the *firm* will restore it or, as the case may be, resume compliance with ~~PRU 2.2.16R GENPRU 2.2.32R~~ and ~~PRU 2.2.24R GENPRU 2.2.28R~~, or ~~PRU 8.3.45R INSPRU 6.1.45R(1)(a)~~ and ~~PRU 8.3.45R INSPRU 6.1.45R(1)(b)~~, as applicable.

2.6 Capital resources below capital resources requirement

...

2.7 Capital resources below the level of individual capital guidance

2.7.1 G Unless any of *SUP* App 2.4.1R, 2.5.1R, 2.5.3R or 2.6.1R applies, if a *firm's* circumstances change, such that its capital resources have fallen, or are expected to fall, below the level advised in ~~individual capital~~ *individual capital guidance* given to the *firm* by the *FSA*, then, consistent with *PRIN* 2.1.1R *Principle 11* (Relations with regulators), a *firm* should inform the *FSA* of this fact as soon as practicable, explaining why capital resources have fallen, or are expected to fall, below the level advised in ~~individual capital~~ *individual capital guidance*, and:

- (1) what action the *firm* intends to take to increase its capital resources; or
- (2) what modification the *firm* considers should be made to the ~~individual capital~~ *individual capital guidance* which it has been given.

- 2.7.2 G ...
- 2.7.3 G In relation to a *firm* carrying on *with-profits insurance business*, if it intends either (a) to remedy a fall in the level of capital resources advised in its ~~individual capital~~ *individual capital guidance*, or (b) to prevent a fall in the level advised in that *guidance*, for example, in either case, by taking management action to de-risk a *with-profits fund* or by reducing non-contractual benefits for *policyholders*, it should explain to the *FSA* how such proposed actions are consistent with the *firm's* obligations under *PRIN 2.1 Principle 6* (Customers' interests).
- 2.7.4 G If a *firm's* capital resources fall below the level advised in ~~individual capital~~ *individual capital guidance* given to the *firm* and, at the same time, any one or more of *SUP App 2.4.1R*, *2.5.1R*, *2.5.3R* or *2.6.1R* applies, the *firm* should first comply with those *rules*. Those *rules* are concerned with circumstances where capital resources are likely to have fallen to levels much lower than the level advised in ~~individual capital~~ *individual capital guidance* and are, in some cases, requirements imposed by the *Insurance Directives*.
- 2.7.5 G If a *firm* has not accepted ~~individual capital~~ *individual capital guidance* given by the *FSA* it should, nevertheless, inform the *FSA* as soon as practicable if its capital resources have fallen below the level suggested by that ~~individual capital~~ *individual capital guidance*. In such circumstances, the *FSA* may ask the *firm* for further explanation as to why it does not consider the ~~individual capital~~ *individual capital guidance* to be appropriate. The *FSA* may also consider using its powers under section 45 of the *Act* to, on its own initiative, vary a *firm's Part IV permission*, so as to require it to hold such capital as the *FSA* considers is necessary for the *firm* to comply with ~~PRU 1.2.22R~~ GENPRU 1.2.26R.

...

2.12 Content of a scheme of operations

...

- 2.12.5 G In relation to *firms* covered by ~~this appendix~~ *SUP App 2.1 to 2.14*, *IPRU(FSOC) 4.1* sets out the *rules* relating to capital resources for *non-directive friendly societies* and *GENPRU 2.1, 2.2* and ~~8.3~~ *INSPRU 6.1* set out the *rules* relating to capital resources for every other *firm* ...
- 2.12.6 G To reflect its obligations under ~~PRU 2.1.10R~~ GENPRU 2.1.14R or *IPRU(FSOC) 4.1(2)* (as applicable), in order to comply with *SUP App 2.12.1R*, a *firm* which carries on both long-term insurance business and general insurance business should submit separate information for each type of insurance business.

...

Amend SUP Sch 4 (Powers exercised) as follows:

The following powers and related provisions in the *Act* have been exercised by the *FSA* to make the *rules* in *SUP*:

(1) ...

...

(14) ...

(14A) Section 318(1) (Exercise of powers through Council)

(15) ...

...

Part 4: consequential amendments taking effect on 1 January 2007

In this Part, underlining indicates new text and striking through indicates deleted text.

Amend SUP 3.1 as follows:

3.1.2	R	Table Applicable sections (see SUP 3.1.1R)			
		(1)	Category of firm	(2) Sections applicable to the firm	(3) Sections applicable to its auditor
		(1)
	
		(7B)	<i>UCITS management company <u>firm</u></i>	<i>SUP 3.1 – 3.7</i>	<i>SUP 3.1, SUP 3.2, SUP 3.8 – SUP 3.10</i>
		(7C)	<i><u>BIPRU investment firm</u></i>	<i><u>SUP 3.1 – 3.7</u></i>	<i><u>SUP 3.1, SUP 3.2, SUP 3.8 – SUP 3.10</u></i>
	
3.1.9	G	Material elsewhere in the Handbook			
		<p><i>A firm which is a bank, building society, friendly society or other insurer, investment management firm, personal investment firm, or a securities and futures firm, the Society of Lloyd's or a Lloyd's managing agent in respect of each syndicate managed by it, should see the Prudential Standards part of the Handbook for further provisions on auditors as set out in SUP 3.1.10 G. For the categorisations employed in SUP 3.1.2 R and SUP 3.1.10 G see SUP App 1.</i></p>			
3.1.10	G	Other relevant sections of the Handbook (see SUP 3.1.9 G)			
			<i>Bank</i>		<i>IPRU(BANK)</i>
			<i>Building society</i>		<i>IPRU(BSOC)</i>
			...		
			<i><u>Investment management firm, personal investment firm, securities and futures firm (other than BIPRU investment firms)</u></i>		<i>IPRU(INV)</i>

Amend SUP 3.10 as follows:

3.10.5 R Table Client assets report

Whether in the auditor's opinion

- (1) ...
 - (2) ...
 - (3) in the case of *investment management firm, personal investment firm, a UCITS ~~management company~~ firm, or securities and futures firm or BIPRU investment firm*, when a *subsidiary* of the *firm* is a *nominee company* in whose name *custody assets* of the *firm* are registered, that *nominee company* has maintained throughout the year systems for the custody, identification and control of *custody assets* which:
 - (a) ...
 - (b) ...
- ...

Amend SUP 8.2 as follows:

...

8.2.7 G Rules that can be waived (see SUP 8.2.6 G)

Rules	...	Chapters of the Handbook where such rules appear (Note 1)
...		
Continued rules	...	IPRU(Bank) 3.3.15R (in chapter GN) <i>IPRU(INV)</i> (the continued provisions) <i>SUP</i> (parts of <i>SUP</i> 16 Ann 10)
...		

...

Amend SUP 9.3 as follows:

9.3.2 G ...

- (1) ...
- ...
- (5) in relation to the maintenance of adequate financial resources, the *FSA* may give a *firm* *individual guidance* on the amount or type of financial resources the *FSA* considers appropriate, for example ~~on individual capital ratios~~ *individual capital guidance* for ~~banks~~ *BIPRU*

firms and building societiesinsurers; further *guidance* on how and when the *FSA* may give ~~individual~~individual capital *guidance* on financial resources is contained in the Prudential Standards part of the *Handbook*:

- (a) for a ~~bank~~BIPRU firm: ~~IPRU(BANK) CO4~~ GENPRU 1.2 and BIPRU 2.2;
- (b) for an ~~building society~~: ~~IPRU(BSOC) 1.5 and IPRU(BSOC) Ann 1J~~ insurer: GENPRU 1.2 and INSPRU 7.1;

...

...

Amend SUP 10.12 as follows:

- 10.12.3 G In accordance with section 60 of the *Act* (Applications for approval), applications must be submitted by, or on behalf of, the *firm* itself, not by the *candidate*. Usually this will be the *firm* that is employing the *candidate* to perform the *controlled function*. Where a *firm* has outsourced the performance of a *controlled function*, the details of the outsourcing determine where responsibility lies and whom the *FSA* anticipates will submit *approved persons* forms. SUP 10.12.4 G describes some common situations. The *firm* which is outsourcing is referred to as "A" and the *person* to whom the performance of the function has been outsourced, or which makes the *arrangement* for the function to be performed, is referred to as "B". In each situation, A must take reasonable care to ensure that, in accordance with section 59(2) of the *Act*, no *person* performs a *controlled function* under an *arrangement* entered into by its contractor in relation to the carrying on by A of a *regulated activity*, without approval from the *FSA*. See also SYSC 3.2.4 G and if applicable ~~IPRU (BANK) OS, IPRU (BSOC) OS,~~ and for *insurers* SYSC 13.9.

Amend SUP 13A Ann 1G as follows:

13A	Annex 1G	Application of the Handbook to Incoming EEA Firms
	(1) ...	(2) ...
		(3) ...
	...	
	<i>GEN</i>	...
	<u><i>GENPRU</i></u>	<u><i>GENPRU</i> applies only to the <i>firm's branch in the United Kingdom in relation to liquidity risk only (GENPRU 1.2.3R and GENPRU 1.2.21G).</i></u>
	<u><i>BIPRU</i></u>	<u><i>BIPRU</i> does not apply as <i>EEA firms</i> are subject to the prudential</u>
		<u><i>Does not apply if the <i>firm</i> has permission only for cross border services and does not carry on regulated activities in the United Kingdom.</i></u>
		<u><i>Does not apply if the <i>firm</i> has permission only for cross</i></u>

	<u>standards of their home state regulator (BIPRU 1.1.7R and BIPRU 1.1.9G).</u>	<u>border services and does not carry on regulated activities in the United Kingdom.</u>
<u>PRU</u> <u>MIPRU</u>	<u>MIPRU 1 (Application and general provisions) does not apply unless the firm has a top-up permission.</u>	As column (2)
	PRU 9.1 <u>MIPRU 2 (Responsibility for insurance mediation activity) does not apply unless the firm has a top-up permission.</u>	
	PRU 9.2 <u>MIPRU 3 (Requirement to hold professional indemnity insurance) requirements for insurance and mortgage mediation activity and mortgage lending and administration) does not apply unless the firm has a top-up permission.</u>	
	PRU 9.3 <u>MIPRU 4 (Requirement to hold capital resources) for insurance and mortgage mediation activity and mortgage lending and administration) does not apply unless the firm has a top-up permission.</u>	
	See PRU 9.3.2G <u>MIPRU 4.1.2G</u> for more detailed <i>guidance</i> .	
	PRU 9.4 <u>MIPRU 5 (Insurance undertakings and mortgage lenders using insurance or mortgage mediation services) does not apply unless the firm has a top-up permission.</u>	
<u>INSPRU</u>	...	
<u>IPRU (BANK)</u>	Only the following apply, and only if the firm is a <i>credit institution</i> other than an electronic money institution within the meaning of article 1(3)(a) of the <i>E-Money Directive</i> that has the right to benefit from the mutual recognition arrangements under the <i>Banking Consolidation Directive</i> (IPRU(BANK) 3.2.1R): (1) IPRU(BANK) 3.3.15R, <u>IPRU(BANK) 3.3.16G</u> and <u>IPRU(BANK) 3.5.1R</u> ; and (2) chapter CO (which provides an overview of the underlying policy)	...

~~and the more detailed guidance in chapters CB, CA, BC, BO, FX, CM, DU, TI, TE, TC, TL, TU, TS and TV IPRU(BANK) chapters LM and LS.~~

...

IPRU (INV) *IPRU(INV)* does not apply unless the ...
firm:
(1) has a *top-up permission*;
(2) is an *authorised professional firm, investment management firm, members' adviser, personal investment firm, securities and futures firm, service company or underwriting agent*; and
(3) is not a *lead regulated firm*, ~~or a~~ *media firm or a BIPRU investment firm*.
(*IPRU(INV)* 1.1.1R and 1.2R)

Amend SUP 15.3 as follows:

...

- 15.3.8 G (1) Compliance with *Principle 11* includes, but is not limited to, giving the *FSA* notice of:
- (a) ...
- ...
- (e) entering into, or significantly changing, a *material outsourcing* arrangement (a *bank* ~~should also see~~ *IPRU(BANK) OS 4.2*, and a *building society* should also see *IPRU(BSOC) 11 OS 4.2 SYSC 8*, and an *in surer* should also see *SYSC 13.9* for further details); or

Amend SUP 15.4.1R(1)(c) as follows:

- 15.4.1 R (1) An *overseas firm*, which is not an *incoming firm*, must notify the *FSA* within 30 *business days* of any *person* taking up or ceasing to hold the following positions:
- (a) ...
- ...
- (c) for a *bank* or an *ELMI*: the two or more *persons* who effectively direct its business in accordance with ~~*IPRU(BANK) GN 3.3.1R*~~ *SYSC 4.2.2R* and *ELM 5.3.1*,

respectively;

Amend SUP 16 Annex 2G as follows:

LIQUIDITY RETURN (Form LR)

...

General Notes¹

...

Marketable Securities

...

50 ~~The list of A relevant credit ratings agencyies is given in SGN Appendix H and in Section 9 (Appendix 2) of Chapter TI (Interest rate position risk) of the FSA Policy Guide/IPRU (BANK)~~ means an *eligible ECAI*.

(a) An *eligible ECAI* is defined in the glossary of defined terms used in the Handbook.

51 ~~The list of A recognised stock indicesindex is listed in Section 6 of Chapter TE (Equity position risk) of the FSA Policy Guide/IPRU (BANK)~~ means a *qualifying equity index*.

(a) A *qualifying equity index* is defined in the glossary of defined terms used in the Handbook

A3A-A5A DEBT INSTRUMENTS ISSUED BY ENTITIES IN ZONE B COUNTRIES

A3A Central government/central government guaranteed of up to 1 year

Short term central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by a Zone B Central Government/another Zone B issuer. Also include Treasury bills, eligible local authority paper and eligible bank bills. Only those securities currently in the reporting institution's ownership (including those which are held in a clearing system such as Euroclear) should be recorded. Securities should only be included in this section if they are classified investment grade by a recognised credit ratings agency an eligible ECAI (see SGN Appendix H General Notes, paragraph 50).

A3B-A3C DEBT INSTRUMENTS ISSUED BY ENTITIES IN ZONE B COUNTRIES

A3A/A3C Central government/central government guaranteed of between 1 year and under 5 years / over 5 years

Central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by a Zone B Central Government/another Zone B issuer. Include only those securities issued by, or fully guaranteed by, Zone B central governments and central banks with a residual maturity of over 1 year. Only those securities currently in the reporting institution's ownership (including those which are held in a clearing system such as Euroclear) should be recorded. Securities should only be included in this section if they are classified investment grade by a ~~recognised credit ratings agency~~ an eligible ECAI (see General Notes, paragraph 50).

A3D/A3E/A3F Eligible non-government of up to 6 months / between 6 months and 5 years/over 5 years

Non-government debt securities issued, guaranteed, endorsed or accepted by an entity in a Zone B country and are investment grade. Also include those securities issued, or guaranteed by, an investment firm that is subject to the Capital Adequacy Directive or a ~~regime that is as stringent (for a list of such regimes, see Chapter CS (Consolidated Supervision) Section 10.3 of the FSA Policy Guide/IPRU (BANK))~~ recognised third country investment firm. Only those securities currently in the reporting institution's ownership should be recorded (including where these are held in a clearing system such as Euroclear).

(a) A recognised third country investment firm is defined in the glossary of defined terms used in the Handbook

...

A5A Highly liquid equities and equities indices

Equities that are eligible for a specific risk weight of 42% or less under the FSA's implementation of the ~~Amending~~ Capital Adequacy Directive (~~CAD 2~~) and the amendment to the Basel Accord for Market Risks and which are currently in the reporting institution's possession.

...

D1A – D2B MEMO ITEMS

...

D2A Undrawn treasury concessions granted by the bank

Where an institution has taken on a treasury role on behalf of its group, ~~it may have agreed with the FSA a~~ the institution must notify the FSA of its intention to use the "group treasury concession" for large exposure purposes (see Chapter LE (Large exposures) of the FSA Policy Guide/IPRU (BANK) BIPRU 10). ~~The institution should report here the amount of that treasury concession.~~

Amend SUP 18.1.2G as follows:

- 18.1.2 G *Guidance on building society transfers and mergers is given in IPRU(BSOC) the Building Societies Regulatory Guide.*

Amend SUP App 1 as follows:

- App 1.2.2 G ~~The *FSA* is developing its approach to prudential standards and some provisions in the Supervision manual in a two-stage approach. Initially the *FSA* is including in the *Handbook* interim material as set out in the five Interim Prudential sourcebooks and the Supervision manual, for example SUP 16 (Reporting requirements). The *FSA* is developing material which will provide an integrated approach to the setting of prudential standards. Each of the Interim Prudential sourcebooks is based on the prudential regime that existed before *commencement*, changed, mainly where the *Act*, and other statutory and international developments, have made a change desirable or essential. The Lloyd's sourcebook shows less continuity with the prudential regime previously applied to the *Society of Lloyd's*, as it introduces requirements similar to those already applied to *insurers*. Most grandfathered *firms* have a prudential category and sub-category equivalent to that which they had before *commencement*.~~

Prudential requirements for *firms* are set out in the Prudential Standards part of the *Handbook* according to their prudential category. Certain reporting requirements and other prudential material are contained in the Supervision manual, for example SUP 16 (Reporting requirements).

...

- App 1.3.1 G Table Prudential categories and sub-categories used in the ~~Interim~~ Prudential sourcebooks and the Supervision manual

Prudential categories (Note 1)	Applicable prudential requirements (Note 2)	Prudential sub-categories
...		
<i>Bank*</i>	<u>GENPRU, BIPRU and IPRU(BANK)</u>	<i>EEA bank Overseas bank UK bank</i>
<u><i>BIPRU investment firm</i></u>	<u>GENPRU and BIPRU</u>	<u><i>Full scope BIPRU investment firm</i></u> <u><i>BIPRU limited licence firm</i></u> <u><i>BIPRU limited activity firm</i></u>
<i>Building society*</i>	<u>GENPRU, BIPRU and IPRU(BSOC)</u>	
...

<i>Incoming EEA firm</i>	None (unless another prudential category applies) <u>GENPRU, BIPRU, INSPRU and IPRU(BANK)</u>	<u>EEA bank</u>
...		
<i>UCITS management company firm</i>	IPRU(INV) 1, 5 and 7 <u>UPRU</u>	<i>UCITS firm</i> <i>UCITS investment firm</i>
<i>UCITS investment firm</i>	<u>GENPRU and BIPRU</u>	
...

App 1.4.1 G Many, but not all of the categories are used only in the ~~Interim Prudential sourcebooks~~ the Prudential Standards part of the *Handbook* and the Supervision manual. The prudential category of a *firm* will normally determine:

- (1) which ~~Interim Prudential sourcebook~~ module of the Prudential Standards part of the *Handbook* is applicable to the *firm*;

...

App 1.4.3 G If a *firm* is part of a *group*, each *authorised* member of the *group* will have its own prudential category. *Firms* should refer to the provisions of the relevant ~~Interim Prudential sourcebooks~~ module of the Prudential Standards part of the *Handbook* to determine whether and, if so, how consolidated supervision applies.

Amend SUP TP 1.3.6 as follows:

TP 1.3 Transitional provisions relating to written concessions

...

6. These transitional provisions do not apply to *rules* which are continued by designation of pre-commencement provisions rather than made as new *rules*. Written concessions of such *rules* are carried forward, to similar effect, as *waivers* (given under section 148 of the *Act*) by article 8 of The Financial Services and Markets Act 2000 (Transitional Provision and Savings) (Rules) Order 2001 (SI 2001/1534). The relevant *rules* are:

- (1) ~~in IPRU(BANK), 3.3.15R in chapter GN; and~~ [deleted]
- (2) in *IPRU(INV)*, those identified as designated *rules* in the schedule to *IPRU(INV)* entitled "Powers exercised".

...

Amend SUP Sch 2 Notification requirements as follows:

Sch 2.2	G	Handbook reference	...	Contents of notification	Trigger event
		...			
		SUP 15.4.1R	...	<p>Any <i>person</i> taking up or ceasing to hold the following positions:</p> <p>(a) ...</p> <p>...</p> <p>(c) for a <i>bank</i>: the two or more <i>persons</i> who effectively direct its business in accordance with IPRU(BANK) GN 3.3.1R<u>SYSC 4.2.2R</u></p>	
		...			

Annex M

Amendments to the Dispute Resolution: Complaints manual

Part 1: amendments relating to the redesignation of LLD 7

Amend DISP 1.7.12G as follows. Deleted text is shown struck-through:

- 1.7.12 G Complaints from *members* of the *Society* of Lloyd's regarding the activities of *members' advisers*, which cannot be resolved by the *members' adviser*, cannot be referred to the *Financial Ombudsman Service*. (~~See *LLD* (the *Lloyd's sourcebook*), for further information concerning complaints by *members* of the *Society* of Lloyd's.)~~)

Insert the following text after DISP 1.7.12G. The text is redesignated and restated text. Amendments to the redesignated text are not shown.

- 1.7.13 G The *Financial Ombudsman Service* is not be able to deal with the complaints listed in *DISP* 1.7.14R and separate *rules* and *guidance* are therefore required.
- 1.7.14 R The *Society* must establish and maintain appropriate and effective arrangements for handling any complaint from a *member* or a *former member* about:
- (1) *regulated activities* carried on by the *Society*;
 - (2) the *Society's regulatory functions* carried on by the *Society*, the *Council* or those to whom the *Council* delegates authority to carry out such functions;
 - (3) advice given by an *underwriting agent* to a *person* to become, continue or cease to be, a member of a particular *syndicate*; and
 - (4) the management by a *managing agent* of the underwriting capacity of a *syndicate* on which the complainant participates or has participated.
- 1.7.15 R The *Society* must maintain by *byelaw* one or more appropriate effective schemes for the resolution of disputes between an *individual member* or a *former member* who was an *individual member* and:
- (1) his *underwriting agent*; or
 - (2) the *Society*.
- 1.7.16 R For the purposes of *DISP* 1.7.14R "*individual member*" includes a *member* which is a *limited liability partnership* or a *body corporate* whose members consist only of, or of the nominees for, a single natural person or a group of connected persons.
- 1.7.17 G The schemes to which *DISP* 1.7.14R currently refers are the *Lloyd's*

Arbitration Scheme and the *Lloyd's Members' Ombudsman* respectively, but the *Society* may maintain other independent dispute resolution schemes in addition to, or instead of, either of these schemes.

- 1.7.18 G The schemes referred to in *DISP* 1.7.14R should be operationally independent of the *Society*.
- 1.7.19 G An *individual member* or *former member* who was an *individual member* should not have access to the schemes referred to in *DISP* 1.7.14R unless the complaints arrangements maintained by the *Society* have failed to resolve the complaint to his satisfaction within eight weeks of receiving it.
- 1.7.20 G The *Society* should give the *FSA* adequate notice of all proposed changes to the *byelaws* relating to the schemes referred to in *DISP* 1.7.14R.
- 1.7.21 G When considering what is required to ensure the operational independence of the schemes referred to in *DISP* 1.7.14R, or proposed changes in such schemes, the *Society* should take account of similar arrangements operated by the *Financial Ombudsman Service*.
- 1.7.22 R A contravention of *DISP* 1.7.14R or *DISP* 1.7.15R does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.

Amend *DISP* Schedule 5.2G as follows. New text is underlined:

Chapter/Appendix	Section/Annex	Paragraph	Right of Action under s150		
			For private person?	Removed?	For other person?
1 Complaints handling arrangements for <i>firms</i>	<u>All rules apart from <i>DISP</i> 1.7.14R and <i>DISP</i> 1.7.15R</u>	-	Yes	-	-
<u>1</u>	<u>7</u>	<u>14 and 15</u>	<u>No</u>	<u>Yes- <i>DISP</i> 1.7.22R</u>	<u>No</u>
2 Jurisdiction rules	-	-	Yes	-	-
3 Complaints handling procedures of the <i>Financial Ombudsman Service</i>	-	-	Yes	-	-

Chapter/Appendix	Section/Annex	Paragraph	Right of Action under s150		
			For private person?	Removed?	For other person?
4 The <i>standard terms</i>	-	-	N/A	-	-
5 Funding	-	-	Yes	-	-

Part 2: amendments relating to the redesignation of LLD 6

Amend DISP 2.1.4G as follows. New text is underlined and deleted text is shown struck-through:

- 2.1.4 G References in this chapter to "*firms*" are to be construed, where relevant, as including:
- (1) in accordance with the *Ombudsman Transitional Order*, *unauthorised persons* subject to the *Compulsory Jurisdiction* in relation to *relevant complaints*; and
 - (2) as a result of section 226 of the *Act*, *unauthorised persons* who were formerly *firms* in respect of complaints about acts or omissions which occurred at the time when they were *authorised*, provided that the *Compulsory Jurisdiction* rules were in force in relation to the activity in question; and
 - (3) members of the Society of Lloyd's (see DISP 2.5.3G).

Amend DISP 2.5 as follows. New text is underlined and deleted text is shown struck-through:

- 2.5 Which firms are subject to the jurisdiction of the Financial Ombudsman Service?

Firms and VJ participants

- 2.5.1 G ...

- 2.5.1 G ...

Members of the Society of Lloyd's

- 2.5.3 G ~~Members of the Society of Lloyd's are treated as firms for the purposes of the Compulsory Jurisdiction (including the rules in DISP 1 relating to firms' complaints procedures) and are subject to DISP 1 as a result of the insurance market direction given in LLD 6.2.1 D, under section 316 of the Act (Direction by Authority). However, as set out in DISP 1.7, members will individually comply with DISP 1 if and only if all complaints by~~

~~policyholders against *members* are dealt with under the internal procedures established by the *Society* of Lloyd's for handling those complaints, provided that these procedures themselves comply with *DISP* 1. Accordingly, certain of the obligations under *DISP* 1, for example, the obligation to report on complaints received, must be complied with by the *Society* on behalf of *members*.~~

The *insurance market direction* given in *DISP* 2.5.5D is given under section 316(1) of the *Act* (Direction by Authority) and applies to *members* of the *Society* of Lloyd's.

- 2.5.4 D (1) With effect from *commencement*, Part XVI of the *Act* (The Ombudsman Scheme), and in particular section 226 (Compulsory jurisdiction), applies to the carrying on of insurance business by *members*.
(2) For the purposes of (1) 'insurance business' means the *regulated activities of effecting or carrying out contracts of insurance* written at Lloyd's.

Amend *DISP* 3.1.5G as follows. New text is underlined and deleted text is shown struck-through:

- 3.1.5 G References in this chapter to "*firms*" are to be construed, where relevant, as including:
- (1) in accordance with the *Ombudsman Transitional Order*, *unauthorised persons* subject to the *Compulsory Jurisdiction* in relation to *relevant complaints*; and
 - (2) as a result of section 226 of the *Act*, *unauthorised persons* who were formerly *firms* in respect of complaints about acts or omissions which occurred at the time when they were *authorised*, provided that the *Compulsory Jurisdiction* rules were in force in relation to the activity in question; and
 - (3) *members of the Society* of Lloyd's (see *DISP* 2.5.3G).

Amend *DISP* Sch 4 (Powers exercised) as follows:

- 1 The following powers and related provisions in the *Act* and in the *Ombudsman Transitional Order* have been exercised by the *FSA* to make the *rules* in *DISP*:
- (1) ...
- ...
- (4A) ...

(4B) Section 316(1) (Direction by Authority)

(5) ...

...

Annex N

Amendments to the Compensation manual

Amend COMP 1.5.1G as follows. Deleted text is shown struck-through and new text is underlined:

- 1.5 Application to Lloyd's
- 1.5.1 G The *FSA* has exercised its power under section 316 of the *Act* (Direction by Authority) to direct in ~~*LLD-8A (Compensation Arrangements for policyholders)*~~ *COMP 1.5.5D* that certain *core provisions* in the *Act* should apply to *members* of the *Society* of Lloyd's (an "*insurance market direction*"). The effect of the direction is that the *FSA* may, in relation to *members*, and in respect of *insurance market activities* carried on by them, exercise any of the statutory powers conferred by the provisions which are applied by the direction. Those include the powers in Part X to make general *rules* and give *guidance* and also the powers in Part XV to make *rules* for the establishment and operation of a compensation scheme. Accordingly this sourcebook makes provision for the payment of compensation by the *FSCS* in certain cases arising from *insurance business* carried on by *members*, and for raising levies on the *Society*.

...

Insert the following text after COMP 1.5.3G. The text is redesignated and restated text. Amendments to the redesignated text are not shown.

- Compensation arrangements for policyholders
- 1.5.4 G The *insurance market direction* in *COMP 1.5.5D* is intended to protect the interests of *policyholders* and potential *policyholders* by:
- (1) providing for the application of the *compensation scheme* in respect of *contracts of insurance* issued by *members*; and
 - (2) providing for the application of such other provisions of the *Act* as will enable the application of the *compensation scheme* to be effective in relation to *insurance market activities* carried on by *members*.
- 1.5.5 D With effect from 15 October 2003 the following *core provisions* of the *Act* apply to the carrying on of *insurance market activities* by *members*:
- (1) Part X (Rules and guidance) for the purpose of applying the *rules* in *COMP* and relevant interpretative provisions; and
 - (2) Part XV (Financial Services Compensation Scheme).
- 1.5.6 G Section 317(2) of the *Act* (The core provisions) provides that references in

an applied *core provision* to an *authorised person* are to be read as references to a *person* in the class to which the *insurance market direction* applies. In particular, with effect from 15 October 2003, references to a *relevant person* in Part XV of the *Act* include a person who was a *member* at the time the act or omission giving rise to the claim against him took place.

Compensation arrangements for individual members

- 1.5.7 G The *compensation scheme* will not compensate *members* or *former members* if *firms* are unable to satisfy claims made in connection with *regulated activities* relating to their participation in Lloyd's *syndicates*. Separate *rules* and *guidance* are therefore needed.
- 1.5.8 R The *Society* must maintain *byelaws* establishing appropriate and effective arrangements to compensate *individual members* and *former members* who were *individual members* if *underwriting agents* are unable, or likely to be unable, to satisfy claims by those *members* relating to *regulated activities* carried on in connection with their participation in Lloyd's *syndicates*.
- 1.5.9 R For the purposes of COMP 1.5.8R "*individual member*" includes a *member* which is a *limited liability partnership* or a *body corporate* whose members consist only of, or of the nominees for, a single natural person or a group of connected persons.
- 1.5.10 G The arrangements referred to in COMP 1.5.8R:
- (1) will not compensate losses arising only as a result of underwriting or investment risk to which *individual members* or *former members* who were *individual members* are or were exposed by their participation in Lloyd's *syndicates*;
 - (2) may be restricted to compensation for losses arising out of fraud, dishonesty or failure to account; and
 - (3) should cover all *regulated activities* carried on by *underwriting agents* relating to Lloyd's *syndicate* capacity and *syndicate* membership.
- 1.5.11 G The arrangements referred to in COMP 1.5.8R should have a governance structure that is operationally independent from the *Society*, but which is nevertheless accountable to the *Society* for the proper administration of the compensation arrangements.
- 1.5.12 R A contravention of COMP 1.5.8R does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and that *rule* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.

Amend COMP Sch 4 (Powers exercised) as follows:

The following powers and related provisions in the *Act* and the Financial Services and Markets Act 2000 (Transitional Provisions, Repeals and Savings) (Financial Services Compensation Scheme) Order 2001 ("the *compensation transitionals order*") have been exercised by the *FSA* to make the rules in

COMP:

- (1) ...
- ...
- (9) ...
- (9A) Section 316(1) (Direction by Authority)
- (10) ...
- ...

Amend COMP Schedule 5.2G as follows. New text is underlined:

Chapter/Appendix		Section/Annex	Paragraph	For private person?	Removed	For other person?
<u>COMP 1</u>		<u>5</u>	<u>8</u>	<u>No</u>	<u>Yes</u> – <u>COMP 1.5.11R</u>	<u>No</u>
COMP 13	Funding (all rules)			Yes	No	No
COMP 14.4.6R				Yes	No	No

1.2 Contents and purpose

...

1.2.3 G *ELM* implements the parts of the *E-Money Directive* and (for *ELMIs*) the *Banking Consolidation Directive* dealing with these topics. As from 1 January 2007 the version of the *Banking Consolidation Directive* in force when the *E-Money Directive* came into force (Directive 2000/12/EC) was replaced by the current version. The *FSA's* policy in implementing the parts of the *Banking Consolidation Directive* that apply to *ELMIs* is generally that the current version of the *Banking Consolidation Directive* applies except that generally:

- (1) *ELM* does not implement provisions of the current version of the *Banking Consolidation Directive* that have no counterpart in the previous version; and
- (2) where the *E-Money Directive* applied a part of the previous version of the *Banking Consolidation Directive* that does not have a direct counterpart in the current version, *ELM* continues to implement the

previous version.

...

1.5.2 G Application of other parts of the Handbook to *ELMIs*

Block	Module	Application
High level standards	... Senior management arrangements, systems and controls (<i>SYSC</i>)	... <u><i>SYSC 1 (Application and purpose), SYSC 2 (Senior management arrangements), SYSC 3 (Systems and controls), SYSC 12.1 (Group risk systems and control requirement) and SYSC 18 (Guidance on Public Interest Disclosure Act: Whistleblowing)</i></u> applies to every <i>ELMI</i> .

...

...

...

2.4 Calculation of initial capital and own funds

...

2.4.13 R Subordinated debt capital does not form part of a *firm's upper tier two capital* unless the following requirements are met (in addition to those in *ELM 2.4.11 R*):

(1) ...

...

(4) the subordinated debt capital complies with the conditions in article 3563(2)(d) of the *Banking Consolidation Directive*;

...

- ...
- 2.4.16 G *ELM 2.4.13 R (4) refers to article 3563(2)(d) of the Banking Consolidation Directive. This article says that the documents governing the issue of the [subordinated debt capital] must provide for debt and unpaid interest to be such as to absorb losses, whilst leaving the [firm] in a position to continue trading. Compliance with the other conditions of ELM 2.4.11 R and ELM 2.4.13 R will usually ensure that a firm complies with article 3563(2)(d). ...*
- 2.4.17 R Material holdings
- (1) ...
- ...
- (6) An item falls into this paragraph if it is a subordinated debt or other item of capital that:
- (a) ...
- (b) (in the case of a *relevant financial services company* or *financial institution*) falls into Article 3563 or Article 3664(3) of the *Banking Consolidation Directive*.
- ...
- 2.4.20 R Adjustments to own funds
- In accordance with article 34(4)61 of the *Banking Consolidation Directive*, *tier one capital* and revaluation reserves must not be included within a *firm's own funds* to the extent that those items do not represent capital that is available to the *firm* for unrestricted and immediate use to cover risks and losses as soon as these occur, whether because of taxation charges, any future foreseeable taxation charges or for any other reason.
- ...
- 2.4.22 R Exclusion from own funds
- In accordance with article 64(4) of the *Banking Consolidation Directive*, the fair value reserves related to gains or losses on cash flow hedges of *financial instruments* measured at amortised cost or any gains or losses on their liabilities valued at fair value that are due to changes in the *firm's* own credit standing must not be included within a *firm's* own funds.
- 2.4.23 G *ELM 2.4.22R* reflects article 64(4) of the *Banking Consolidation Directive*.
- ...
- 3.5 Large exposure risk
- ...
- 3.5.17 R A *firm* may not recognise the benefits of collateral under *ELM 3.5.14R*

unless:

- (1) ...
- (2) the *securities* are listed on a *recognised investment exchange* or *designated investment exchange*; ~~and~~
- (3) ...
 - (a) ...
 - (b) ...
 - (c) the percentage figure is 150% rather than 200% in the case of *debentures* or *government and public securities* issued by regional or local authorities of an *EEA State* or by a *multilateral development bank*; and
- (4) the securities issued by any credit institution do not form part of its regulatory capital resources.

...

3.5.20 G [Deleted]

...

5.1 Application

...

5.1.2 R ELM 5.4A applies with respect to the carrying on of:

- (1) regulated activities; and
- (2) ancillary activities in relation to regulated activities.

5.1.3 R ELM 5.4A also:

- (1) applies with respect to the carrying on of unregulated activities in a prudential context; and
- (2) takes into account any activity of other members of a group of which the firm is a member.

5.2 Purpose

...

5.2.6 G This chapter implements article 7 of the *E-money Directive* and (for *ELMIs*) articles ~~6~~11(1) and 22 of the *Banking Consolidation Directive*.

5.3 Business to be directed by at least two individuals

...

5.3.2 G *ELM 5.3.1 R*, sometimes known as the 'four eyes requirement', provides that at least two individuals must effectively direct the business of a *firm*. Compliance with the *rule* would help to establish a *firm's* compliance with *Principle 3* ('Management and control') and its continued meeting of the *threshold condition 5* ('Suitability'). It also reflects the requirement in Article 61(1) of the *Banking Consolidation Directive*.

...

5.4A Organisation and internal control mechanisms

5.4A.1 R A *firm* must have robust governance arrangements, which include a clear organisational structure with well defined, transparent and consistent lines of responsibility, effective processes to identify, manage, monitor and report the risks it is or might be exposed to, and adequate internal control mechanisms, including sound administrative and accounting procedures.

5.4A.2 R The arrangements, processes and mechanisms referred to in *ELM 5.4A.1R* must be comprehensive and proportionate to the nature, scale and complexity of the *firm's* activities.

5.4A.3 G *ELM 5.4A.1R* and *ELM 5.4A.2R* reflect article 22 of the *Banking Consolidation Directive*.

...

6.2 Purpose

...

6.2.3 G This chapter implements article 3 of the *E-Money Directive* and article 33a of the previous version of the *Banking Consolidation Directive (Directive 2000/12/EC)*.

...

6.5 Methods of redemption

...

6.5.4 G *ELM 6.5.1 R* reflects article 3(1) of the *E-Money Directive* and article 33a of the previous version of the *Banking Consolidation Directive (Directive 2000/12/EC)*. Neither *ELM 6.5.1 R* nor *ELM 6.5.2 R* takes precedence over the other. A *firm* must therefore organise its affairs so that it can comply with both *rules*.

...

7.3 Consolidated capital adequacy

7.3.1 R If:

(1) ...

(2) another member of that *group* (firm B) is a *firm* that is subject to

BIPRU 8 ~~an FSA consolidation rule;~~

- (3) ...
- (4) firm A is included in the scope of the consolidation under BIPRU 8 ~~the FSA consolidation rule~~ as it applies to firm B;

firm A must comply with BIPRU 8 as it applies to firm B except that the rules in BIPRU 8 relating to non-EEA sub-group do not apply, ~~at all times, maintain capital resources (calculated in accordance with the relevant rules) at a level that ensures that, taking into account (in the manner and to the extent provided for in those rules) the capital resources of other members of the group, firm B complies with the FSA consolidation rules applicable to it. If there is more than one firm in the group that fits the description of firm B, the obligation of this rule applies in relation to all of them.~~

7.3.2 R If:

- (1) ELM 7.3.1R does not apply to a firm;
- (2) the firm is a member of an EEA consolidated group ~~or UK consolidated group~~;
- (3) there is a full credit institution or an investment firm in that EEA consolidated group ~~or UK consolidated group~~; and
- (4) the undertaking in (3) is in the firm's immediate group; and
- (5) that EEA consolidated group is not subject to supervision on a consolidated basis by a competent authority of another EEA State under the Banking Consolidation Directive, the E-Money Directive or the Capital Adequacy Directive;

the firm must comply with BIPRU 8 with respect to that EEA consolidated group as follows:

~~at all times, maintain capital resources (calculated in accordance with the relevant rule) at a level that ensures that, taking into account (in the manner and to the extent provided for in that rule) the capital resources of other members of the firm's group, the firm would comply with BIPRU 8 as it the bank consolidation rules if it applied to the firm.~~

- (6) BIPRU 8 applies as it does to a bank in a UK consolidation group; and
- (7) the rules in BIPRU 8 relating to non-EEA sub-group do not apply.

7.3.2A R If:

- (1) ELM 7.3.1R and ELM 7.3.2R do not apply to a firm;
- (2) the firm is a member of an UK consolidated group;
- (3) there is a full credit institution or an investment firm in that UK

consolidated group; and

(4) the undertaking in (3) is in the firm's immediate group;

the firm must, at all times, maintain capital resources (calculated in accordance with the relevant rule) at a level that ensures that, taking into account (in the manner and to the extent provided for in that rule) the capital resources of other members of the firm's group, the firm would comply with BIPRU 8 as it applies when there is a bank in the UK consolidation group if it applied to the firm. For the purposes of ELM 7.3.3R, the rules in BIPRU 8 apply to the UK consolidated group in the same way as they apply to a UK consolidation group under BIPRU 8. The rules in BIPRU 8 relating to non-EEA sub-group do not apply.

7.3.3 R If:

(1) ELM 7.3.1R, ELM 7.3.2R and ELM 7.3.2AR do not apply to a firm;

(2) ...

7.3.4 R If:

(1) ELM 7.3.1R, ELM 7.3.2R, ELM 7.3.2AR and ELM 7.3.3 do not apply to a firm; and

(2)

7.5 Calculation of capital adequacy on a consolidated basis

EEA group risk own funds

7.5.1 R

(3) the adjustments provided for in article ~~6537~~ of the *Banking Consolidation Directive* apply (if required by the *Banking Consolidation Directive*), in accordance with (1);

...

7.7 Waiver

7.7.1 G Article ~~7352(3)~~ of the *Banking Consolidation Directive* says that competent authorities responsible for the exercising supervision on a consolidated basis may decide that a *credit institution, financial institution or ancillary services undertaking auxiliary banking services undertaking* which is a subsidiary or in which a *participation* is held need not be included in the consolidation in certain cases. ...

(1) ~~where if the undertaking concerned that should be included~~ is situated in a third country where there are legal impediments to the transfer of the necessary information;

(2) if, in the opinion of the competent authorities responsible for exercising supervision on a consolidated basis, the consolidation of the financial situation of the *undertaking concerned that should be*

~~included~~ would be inappropriate or misleading as far as the objectives of the supervision of *credit institutions* are concerned.

...

7.8 Summary of consolidation rules

...

7.8.3 G ~~ELM 7.3.1R says that if the *firm* is part of a *group* that is subject to consolidated supervision under *IPRU(BANK)*, *IPRU(BSOC)* or *IPRU(INV)*, consolidated supervision of the *firm* will also be carried out under those rules.~~

Broadly speaking, *ELM 7.3.1R* to *ELM 7.3.2AR* apply the consolidation rules in *BIPRU 8* to an *ELMI*.

7.8.4 G ~~*ELM 7.3.12R* says, broadly, that if *ELM 7.3.1R* does not apply but the *firm* is part of a *group* with a *full credit institutions* or *investment firm* as a member the *banking consolidation rule* applies. This means that the *firm* will be subject to the consolidation requirements for *banks*. These can be found in chapter CS of *IPRU(BANK)* (consolidated supervision).~~

If an *ELMI* is a member of a *group* that has another member in it subject to *BIPRU 8*, then *ELM 7.3.1R* applies *BIPRU 8* to the *ELMI* in the same way as it applies to the other *firm*.

7.8.5 G ~~Generally, the guidance in *IPRU(BANK)* says if a *firm* is part of a *group* subject to lead supervision under the EU banking or investment services Directives by a competent authority in another *EEA State*, consolidates supervision in accordance with *BIPRU 8* the detailed quantitative guidance in *IPRU(BANK)* does not apply at the level of the *EEA group*. Instead it applies at the level of the *UK sub-group*.~~

ELM 7.3.2R and *ELM 7.3.2AR* say that where *ELM 7.3.1R* does not apply, *BIPRU 8* applies to the *ELMI* if there is a *full credit institution* or *investment firm* in the *group*. If the *ELMI* is part of an *EEA consolidated group* of which the *FSA* is the lead regulator, *BIPRU 8* applies to that *EEA consolidated group*. If the *ELMI* is not part of such a *group* or another *EEA competent authority* is lead regulator for the *EEA consolidated group*, then *BIPRU 8* applies to the *UK consolidated group* of the *ELMI*.

...

7.8.10 G ~~If a *firm* is part of a *financial conglomerate*, the provisions of *GENPRU 3.1 PRU 8.4* apply. If a *firm* is part of a *third-country group*, the provisions of *GENPRU 3.2 PRU 8.5* apply.~~

Annex R

Amendments to the Lloyd's Sourcebook

1. The provisions of the Lloyd's sourcebook referred to in column (1) of the Table in this Annex R are redesignated as set out in column (2) of that Table, in accordance with paragraph D of this instrument.
2. So far as not redesignated by the following instruments, the whole of the Lloyd's sourcebook is deleted:
 - (a) the General Prudential Sourcebook Instrument 2006 (Annex A);
 - (b) the Prudential Sourcebook for Insurers Instrument 2006 (Annex A);
 - (c) the CRD (Consequential Amendments) Instrument 2006 (Annex R).

Annex S

Amendments to the Listing Rules

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend LR App 1.1 as follows:

App 1.1 Relevant definitions

...

- bank* (a) a *firm* with a *Part IV permission* which includes *accepting deposits*, and:
- (i) which is a *credit institution*; or
 - (ii) whose *Part IV permission* includes a *requirement* that it comply with ~~IPRU(BANK)~~the rules in GENPRU and BIPRU relating to banks;

but which is not a *building society*, a *friendly society* or a *credit union*;

- (b) ...

Annex T

Amendments to the Handbook consequential on the redesignation of PRU

1. The references in the provisions of the *Handbook* specified in column (2) of Tables 1 and 2 in this Annex T to the provisions in column (3) of those Tables are replaced with references to the corresponding provisions in column (4) of those Tables.
2. A reference in the *Handbook* (other than those mentioned specifically elsewhere in this CRD (Consequential Amendments) Instrument 2006) to a provision in column (1) of the Table in Annex A to the General Prudential Sourcebook Instrument 2006 is replaced with a reference to the corresponding provision in column (2) of that Table.
3. A reference in the *Handbook* (other than those mentioned specifically elsewhere in this instrument) to a provision in column (2) of the Table in Annex A (Creation of INSPRU) to the Prudential Sourcebook for Insurers Instrument 2006 is replaced with a reference to the corresponding provision in column (1) of that Table.

Part 1: Amendments taking effect on 31 December 2006

**INTERIM PRUDENTIAL SOURCEBOOK FOR BUILDING SOCIETIES
(LIMITS ON AGGREGATE HOLDINGS OF OTHER SOCIETIES' LIABILITIES)
INSTRUMENT 2006**

Powers exercised

- A. The Financial Service Authority makes this instrument in the exercise of its power in section 157(1) (Guidance) of the Financial Services and Markets Act 2000 (“the Act”).

Commencement

- B. This instrument comes into force on 1 January 2007.

Amendments to the Handbook

- C. The Interim Prudential sourcebook for Building Societies (IPRU (BSOC)) is amended in accordance with the Annex to this instrument.

Citation

- D. This instrument may be cited as the Interim Prudential Sourcebook for Building Societies (Limits on Aggregate Holdings of Other Societies' Liabilities) Instrument 2006.

Annex

Amendments to the Interim Prudential sourcebook for Building Societies (IPRU (BSOC))

In this Annex, underlining indicates new text and striking through indicates deleted text.

ANNEX 5C

Inter-society Holdings

...

- 5C.2 G A society's aggregate holding of other societies' liabilities should not exceed ~~5%~~ 7.5% SDL or £5m whichever is the higher. The total should also include undrawn as well as drawn amounts under committed facilities provided to other societies. This measure is to be continuous.
- 5C.3 G The FSA expects societies to invest no more than ~~20%~~ 30% of their prudential liquidity or £5m, whichever is the higher (up to a limit of ~~5%~~ 7.5% SDL or £5m whichever is the higher) in aggregate holdings of other societies' liabilities.

...

LIMITED LIABILITY PARTNERSHIPS INSTRUMENT 2006

Powers exercised

- A. The Financial Service Authority makes this instrument in the exercise of the powers and related provisions in or under:
- (1) the following sections of the Financial Services and Markets Act 2000 (“the Act”):
 - (a) section 138 (General rule-making power);
 - (b) section 156 (General supplementary powers); and
 - (c) section 157(1) (Guidance); and
 - (2) Regulations 6 and 12 of the Open-Ended Investment Company Regulations 2001 (SI 2001/1228).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

Commencement

- C. This instrument comes into force on 6 April 2007.

Amendments to the Handbook

- D. The modules of the FSA’s Handbook of rules and guidance listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2).

(1)	(2)
Glossary of definitions	Annex A
Interim Prudential sourcebook for Investment Businesses (IPRU(INV))	Annex B
Prudential sourcebook for UCITS Firms (UPRU)	Annex C
Supervision manual (SUP)	Annex D

Citation

Insert a new Annex A into the Interim Prudential sourcebook for Investment Businesses, as follows. The contents of this annex are not underlined.

Annex A: LIMITED LIABILITY PARTNERSHIPS: ELIGIBLE MEMBERS' CAPITAL

1 Introduction

Application

- 1.1 R This annex applies to any *firm* :
- (1) that is a *limited liability partnership*; and
 - (2) that is a kind of *firm* to whom the provisions of this sourcebook apply, or which is a *UCITS firm*.
- 1.2 R In this annex, an expression in italics has the meaning given in the *Handbook Glossary*.
- 1.3 G (1) *Firms* are reminded that a *limited liability partnership* incorporated under the Limited Liability Partnership Act 2000 is a *body corporate* with legal personality separate to that of its members and is not therefore a form of *partnership* for the purposes of this sourcebook.
- (2) A *limited liability partnership* is not a separate prudential categorisation under this sourcebook but a kind of *firm* for whom the appropriate provisions of this sourcebook are modified to the extent indicated in this annex.

Purpose

- 1.4 G The purpose of this annex is to amplify *Principle 8* (Financial resources) which requires a *firm* to maintain adequate financial resources to meet its investment business commitments and to withstand the risks to which its business is subject. This annex imposes various conditions that must be satisfied for members' capital to count as "Tier 1" or equivalent grade capital in meeting the *limited liability partnership's* financial resources requirement. These conditions are made up of conditions specific to *limited liability partnerships* and general conditions based for the most

part on those set out in article 57 of the *Banking Consolidation Directive*. This assists in the achievement of the *regulatory objectives* of consumer protection and market confidence.

- 1.5 G The following *rules* allow inclusion of members' capital within a *firm's* capital if it meets the conditions in this annex:

Chapter	<i>IPRU(INV) rule</i>	How <i>eligible LLP members' capital</i> should be treated for the purposes of the <i>IPRU(INV) rule</i>
3	Table 3-61	<i>Eligible LLP members' capital</i> may be counted as Tier 1 capital under item "A" within Table 3-61.
5	Table 5.2.2 (1): Item (1A)	<i>Eligible LLP members' capital</i> may be counted as Tier 1 capital within Category A of Table 5.2.2(1).
10	Table 10-61(1)A Table 10-61(1)B Table 10-62(2)A Table 10-62(2)B Table 10-62(2)C	<i>Eligible LLP members' capital</i> may be counted as initial capital within the relevant table.
13	Table 13.3.2(1) Table 13.10(2)	<i>Eligible LLP members' capital</i> may be counted as <i>own funds</i> relating to companies in Table 13.3.2(1) and Table 13.10(2).

2. **CONDITIONS FOR USE OF MEMBERS' CAPITAL**

Members' capital of a limited liability partnership

- 2.1 R In this sourcebook, members' capital of a *limited liability partnership* may be included within a *firm's* resources if it complies with:
- (1) the specific conditions; and
 - (2) the general conditions.

Specific conditions for eligibility

- 2.2 R The specific conditions are that:
- (1) members' capital is made up of the members' capital account;
and

- (2) the members' capital account is an account:
 - (a) into which capital contributed by the members is paid; and
 - (b) from which under the terms of the *limited liability partnership* agreement an amount representing capital may be withdrawn by a member only if:
 - (i) he ceases to be a member and an equal amount is transferred to another such account by his former fellow members or any person replacing him as a member; or
 - (ii) the *limited liability partnership* is otherwise dissolved or wound up and either the *firm* has ceased to be authorised or no longer has a *Part IV permission*.

General conditions for eligibility

- 2.3 R The general conditions in respect of the members' capital are that:
- (1) it is fully paid and the proceeds are immediately and fully available to the *firm*;
 - (2) it is not capable of being redeemed at all (otherwise than in the circumstances set out in the specific conditions) or can only be redeemed on a winding up of the *firm*;
 - (3) any *coupon* is non-cumulative;
 - (4) it is able to absorb losses to allow the *firm* to continue trading;
 - (5) the amount of the item included is net of any foreseeable tax charge;
 - (6) it is available to the *firm* for unrestricted and immediate use to cover risks and losses as soon as they occur;
 - (7) it ranks for repayment on a winding up of the *firm* no higher than a *share* of a company incorporated under the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 (whether or not it is such a *share*); and
 - (8) the *firm* is under no obligation to pay a *coupon* on it at any time.

Surplus eligible LLP members' capital

- 2.4 G If a *firm* has surplus *eligible LLP members' capital* that it wishes to repay in circumstances otherwise than those in the specific conditions, it may apply to the *FSA* for a *waiver* to allow it to do so. If a *firm* applies for such a *waiver* the information that the *firm* supplies to support the application might include:
- (1) a demonstration that the *firm* would have sufficient financial resources to meet its financial resources requirement immediately after the repayment; and
 - (2) a two to three year capital plan demonstrating that the *firm* would be able to meet the requirements in (1) and (2) at all times without needing further capital injections.

Limited liability partnership excess drawings

- 2.5 R A *firm* which is a *limited liability partnership* must in calculating its tier one capital in accordance with the requirements of any chapter of this sourcebook deduct the amount by which the aggregate of the amounts withdrawn by its members exceeds the profits of that *firm* ("*excess LLP members' drawings*"). Amounts of *eligible LLP members' capital* repaid in accordance with the specific conditions are not to be included in this calculation.

NOTES FOR COMPLETION OF THE MORTGAGE LENDING & ADMINISTRATION RETURN (‘MLAR’)

...

INTRODUCTION: GENERAL NOTES ON THE RETURN

1. Introduction

...

- ...
- Regulated mortgage contracts and the wider mortgage market
- Home Reversion plans and Home Purchase plans
- Accounting conventions
- ...

2. Overview of reporting requirements

The data requirements for *firms* carrying on the *regulated activities* of ~~mortgage lending~~ home finance providing activity and ~~mortgage administration~~ administering a home finance transaction consist of quarterly ...

- a firm carrying on both ~~mortgage-lending~~ home finance providing activity and ~~mortgage administration~~ administering a home finance transaction will need to complete the whole of the *MLAR*;
- a firm carrying on ~~mortgage-lending~~ home finance providing activity but not also ~~mortgage administration~~ administering a home finance transaction will need to complete the whole of the *MLAR* except sections G and H;
- a firm carrying on ~~mortgage administration~~ administering a home finance transaction, but not also ~~mortgage-lending~~ home finance providing activity, will need to complete sections A, B, C, G, H and J of the *MLAR*.

...

Firm	Sections of the <i>MLAR</i> not required
Mortgage lender <u>Home finance provider/administrator</u> with no other activities (a)	...
Mortgage lender <u>Home finance provider/administrator</u> that is also subject to the <i>RMAR</i> (a)	...
...	...

...

3. Purpose of reporting requirements

The reasons why the *FSA* requires this data from ~~mortgage lenders~~ home finance providers and *administrators* are as follows:

- ...
- to help assess the risks in the ~~mortgage~~ home finance market as a whole to inform, for example...

The *MLAR* requires ~~mortgage lenders~~ home finance providers and *administrators* to submit four types of data:

- financial data to assist in the prudential supervision of ~~mortgage lenders~~ home finance providers and *administrators*. ...
- quarterly reporting of quantitative and qualitative data by all ~~mortgage lenders~~ home finance providers and *administrators* to enable monitoring of compliance with the requirements of *MCOB*;
- quarterly provision of qualitative ~~mortgage~~ home finance information by all ~~mortgage lenders~~ home finance providers and *administrators* to enable the *FSA* to understand developments in the ~~mortgage~~ home finance markets as a whole, ...

...

Tables A to C: provide the framework for the FSA's financial monitoring and prudential supervision of ~~mortgage lenders~~ home finance providers and administrators;

Tables D to F: provide the framework for the provision of qualitative ~~mortgage~~ home finance information by ~~mortgage lenders~~ home finance providers;

Table G, H: provides the framework for the FSA's monitoring of ~~mortgage administration activities~~ administering a home finance transaction activity.

Table J provides information on fee tariff measures for ~~mortgage lenders~~ home finance providers and administrators.

4. Regulated mortgage contracts and the wider mortgage market

...

(a) ...

(b) ...

The definition of a *regulated mortgage contract* ... by all monies charges.

4 a. Home reversion and home purchase plans

Definitions

(1) Home reversion plan

This is defined in the *Handbook* as follows:

(in accordance with article 63B(3) of the *Regulated Activities Order*) an arrangement comprised in one or more instruments or agreements which meets the following conditions at the time it is entered into:

(a) the arrangement is one under which a *person* (the *reversion provider*) buys all or part of a *qualifying interest in land* from an individual or trustees (the *reversion occupier*);

(b) the *reversion occupier* (if he is an individual) or an individual who is a beneficiary of the trust (if the *reversion occupier* is a trustee), or a related person, is entitled under the arrangement to occupy at least 40% of the land in question as or in connection with a dwelling and intends to do so; and

(c) the arrangement specifies that the entitlement to occupy will end on the occurrence of one or more of:

(i) a *person* in (b) becoming a resident of a care home;

(ii) a *person* in (b) dying; or

(iii) the end of a specified period of at least twenty years

from the date the *reversion occupier* entered into the arrangement;

in this definition "related person" means:

(A) that *person's* spouse or civil partner;

(B) a *person* (whether or not of the opposite sex) whose relationship with that *person* has the characteristics of the relationship between husband and wife; or

(C) that *person's* parent, brother, sister, child, grandparent or grandchild.

(2) Home purchase plan

This is defined in the *Handbook* as follows:

(in accordance with article 63F(3) of the *Regulated Activities Order*) an arrangement comprised in one or more instruments or agreements which meets the following conditions at the time it is entered into:

(a) the arrangement is one under which a *person* (the 'home purchase provider') buys a *qualifying interest in land* or an undivided share of a *qualifying interest in land*;

(b) where an undivided share of a *qualifying interest in land* is bought, the interest is held on trust for the home purchase provider and the individual or trustees mentioned in (c) as beneficial tenants in common;

(c) the arrangement provides for the obligation of an individual or trustees (the *home purchaser*) to buy the interest bought by the home purchase provider during the course of or at the end of a specified period;

(d) the *home purchaser* (if he is an individual) or an individual who is a beneficiary of the trust (if the *home purchaser* is a trustee), or a related person, is entitled under the arrangement to occupy at least 40% of the land in question as or in connection with a dwelling during that period and intends to do so;

in this definition "related person" means:

(A) that *person's* spouse or civil partner;

(B) a *person* (whether or not of the opposite sex) whose relationship with that *person* has the characteristics of the relationship between husband and wife; or

(C) that *person's* parent, brother, sister, child, grandparent or grandchild.

Guidance to Homer Reversion (HR) and Home Purchase Plan (HPP) firms on the completion of the MLAR

This section covers the **interim reporting** of HR and HPP products pending the outcome of the FSA's wholesale review of the MLAR under the FSA's agenda of Better Regulation.

It is recognised that HR and HPP products are not loans as such, being effectively sale and lease products. However, in order to use the MLAR as a vehicle for capturing some data on these products, they are to be treated for MLAR purposes as if they were loan products. This means that:

- (i) For a firm which is a **provider** of HR and/or HPP products:
- HR and HPP products are to be included in the balance sheet within A1.6 “Loans to Customers”. This may differ from the reporting of such products in a firm’s published accounts.
 - Within section A3, which contains a further breakdown of “Loans to Customers”, HR and HPP products are to be reported within the single category A3.5 “Other loans”.
 - As a consequence, FSA will be able to capture the key balances outstanding on these products (including any which may have been securitised) during the interim period.
- (ii) For a firm which is undertaking **administration** of HR and/or HPP products (and where that firm did not also act as provider of those products):
- HR and HPP products being administered for third parties are to be reported in section G
 - Within G1 and G2 they are to be reported within the “Other firms” category. They should however be shown under “regulated loans” solely for the purposes of recording their administration in the MLAR.
 - In section G2.2, when entering the “name of firm” in column 2, add “HR” and/or “HPP” in brackets after the name, as appropriate.
 - However, for this interim period of reporting, FSA does not propose to seek information about any arrears on HR and/or HPP products and hence such information should be excluded from section H.

...

REPORTING FIELDS

...

2 SPECIFIC REPORTING FIELDS

...

(d) Other home finance transactions

(i) Home Reversion Plans

The following data reporting fields must be completed, where applicable:

<u>Data reporting field</u>	<u>Illustrative code (where applicable)</u>	<u>Notes</u>
<u>Date reversion plan commenced</u>	<u>DD/MM/YYYY</u>	
<u>Reversion Characteristics</u>	<u>F = Full reversion</u> <u>FI = Full reversion linked to an investment with a view to providing income</u> <u>P = Partial reversion</u> <u>PI = Partial</u>	<u>Only 1 code can be entered</u>

	<u>reversion linked to an investment with a view to providing income</u> <u>O = Other</u>	
<u>Property postcode</u>	<u>e.g. XY45 6XX</u>	
<u>Reversion Sum</u>	<u>Numeric £</u>	<u>Amount of reversion lump sum or sum used to provide income</u>
<u>Full market value of property</u>	<u>Numeric £</u>	<u>The actual market value of the property or portion of property that is intended for reversion</u>
<u>Discounted value of reverted property</u>	<u>Numeric £</u>	<u>The actual discounted value of the property or portion of property on which the reversion plan is based</u>
<u>Date of birth of main XXX</u>	<u>DD/MM/YYYY</u>	<u>Report the age of the main plan holder only</u>
<u>Purpose of reversion</u>	<u>H = Extra money for home improvements</u> <u>D = Extra money for debt consolidation</u> <u>M = Extra money for home improvements and debt consolidation</u> <u>O = Other</u>	<u>Only 1 code can be entered</u>

(ii) Home Purchase Plans

The following data reporting fields must be completed, where applicable:

<u>Data reporting field</u>	<u>Illustrative code (where applicable)</u>	<u>Notes</u>
<u>Date HPP account opened</u>	<u>DD/MM/YYYY</u>	
<u>Type of rental rate</u>	<u>V = Variable</u> <u>F = Fixed</u> <u>O = Other</u>	<u>Only 1 code can be entered</u>
<u>HPP Characteristics</u>	<u>I = Ijara</u> <u>D = Diminishing Musharaka</u> <u>O=Other</u>	
<u>Type of home buyer</u>	<u>F = First time buyer</u> <u>H = Home mover</u>	<u>Only 1 code can be entered</u>

	<u>R = Re-finance</u> <u>C = Council/Registered social landlord exercising their right to buy</u> <u>O = Other</u> <u>N = Not known</u>	
<u>Term of HPP</u>	<u>Numeric</u>	<u>Number in whole years</u>
<u>Amount granted to home buyer</u>	<u>Numeric £</u>	<u>The sum of money advanced to the consumer in respect of their house purchase</u>
<u>Value of property</u>	<u>Numeric £</u>	<u>The value should be based on:</u> <ul style="list-style-type: none"> <u>• The surveyors valuation (or from a valuation index)</u> <u>• From the customers estimated value as captured on the application form.</u>
<u>Income basis</u>	<u>S = Single income</u> <u>J = Joint income</u>	<u>Use code to indicate whether the income assessment has been made on a single or joint basis.</u>
<u>Date of birth of main home buyer</u>	<u>DD/MM/YYYY</u>	<u>Report the age of the main home buyer only</u>
<u>Main home buyer employment status</u>	<u>F = Full time employed</u> <u>S = Self employed</u> <u>R = Retired</u> <u>O = Other</u>	<u>Applies to main home buyer only</u> <u>Only 1 code can be entered.</u>
<u>Total gross income</u>	<u>Numeric £</u>	<u>The total gross income of all home buyers whose income was used in the credit assessment (see guidance notes for further explanation)</u>
<u>Income verification</u>	<u>Y = Income evidenced</u> <u>N = Income not evidenced</u>	<u>Applies to plans based on one or more persons' incomes (see guidance notes relating to where income is not evidenced)</u>
<u>County court judgements (CCJs) Value</u>	<u>Numeric £</u>	<u>Applies where home buyer/s has had one or more CCJs within the last 3 years- either satisfied or unsatisfied- with a total value greater than £500.</u>
<u>Impaired credit history of main home buyer</u>	<u>A = Arrears</u> <u>V = IVA</u> <u>B = Bankruptcy</u>	<u>Use codes to indicate applicable credit history</u> <u>A = applies to previous home finance transactions where the home buyer/s has had arrears within the last 2 years where the cumulative amount overdue</u>

		<p>at any point reached three or more monthly payments or</p> <p><u>V = applies where the home buyer/s have been subject to an individual voluntary arrangement at anytime within the last 3 years</u></p> <p><u>B = applies where the home buyer/s have been subject to a bankruptcy order at any time within the last 3 years.</u></p>
--	--	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

3 OPTIONAL REPORTING FIELDS

1. ...
2. The following data items ... who currently support the ~~SML (Survey of Mortgage Lenders)~~ RMS (Regulated Mortgage Survey) and other *home finance providers.*

Data reporting field	Code (where applicable)	Notes
...
<u>Is payment protection insurance (PPI) being taken out with the home purchase plan?</u>	<u>Y=Yes</u> <u>N=No</u>	<p><u>PPI can be any of the following:</u></p> <ul style="list-style-type: none"> - <u>full accident, sickness and unemployment insurance; or</u> - <u>accident and sickness only; or</u> - <u>unemployment only.</u> <p><u>Report 'Yes' even where the policy was sold or provided free and irrespective of whether the premiums are collected by the lender or the insurer.</u></p>

CREDIT UNIONS SOURCEBOOK (AMENDMENT NO 7) INSTRUMENT 2006

Powers exercised

- A. The Financial Service Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
 - (2) section 156 (General supplementary powers); and
 - (3) section 157(1) (Guidance).

Commencement

- B. This instrument comes into force on 1 January 2007.

Amendments to the Handbook

- C. The Supervision manual (SUP) is amended in accordance with Annex A to this instrument.
- D. The Credit Unions sourcebook (CRED) is amended in accordance with Annex B to this instrument.

Citation

- E. This instrument may be cited as the Credit Unions Sourcebook (Amendment No 7) Instrument 2006.

By order of the Board
23 November 2006

Amendments to the Supervision manual (SUP)

In this Annex, underlining indicates new text and striking through indicates deleted text.

Notes on completing the quarterly and annual returns for Credit Unions

FSA Handbook Reference: SUP 16 Ann 15(1)G

...

Large exposures

page 4 of CQ

...

For example, ~~CRED 10.4.1R~~ defines a large *exposure* is defined as any individual net liability which is at least ~~£5,000~~ £7,500 and at least 10% of the value of the *credit union's* capital.

8A Largest net exposure To work out your *credit union's* largest net *exposure*, you will need to determine:

1. The net exposure on each loan and find the largest figure. The formula for this is:
(loan balance + interest owing)- share balance
2. what is the total capital of your *credit union*? This is defined at **5E**.

...

However, we further know from the above that only net liabilities over ~~£5,000~~ £7,500 are subject to the large *exposures* rule. Below we see all net *exposures* over 10% of total capital and those that do and do not qualify:

Example:

Member number	Share balance	Loan balance + interest owing	Net Liabilities	Is it a large exposure?
150	£3,125	£12,500	£9,375	YES
152	£1,750	£7,000 <u>£10,000</u>	£5,250 <u>£8,250</u>	YES
103	£3,115	£9,002 <u>£12,002</u>	£5,887 <u>£8,887</u>	YES
462	£2,500	£6,700	£4,200	No
204	£2,138	£7,911 <u>£10,911</u>	£5,773 <u>£8,773</u>	YES
109	£4,000	£8,500	£4,500	No

...

8C Aggregate total of large net exposures

...

Taking the example at **8A** above, this figure will be ~~£26,285~~ **£35,285** (see below).

Member number	Share balance	Loan balance + interest owing	Net Liabilities
150	£3,125	£12,500	£9,375

152	£1,750	£7,000 <u>£10,000</u>	£5,250 <u>£8,250</u>
103	£3,115	£9,002 <u>£12,002</u>	£5,887 <u>£8,887</u>
204	£2,138	£7,911 <u>£10,911</u>	£5,773 <u>£8,773</u>
Totals	£10,128	£36,413 <u>£45,413</u>	£26,285 <u>£35,285</u>

8D As % of capital

CRED states that the aggregate total of large net *exposures* must not exceed 500% of the total capital of the *credit union* (~~*CRED* 10.4.2R~~), and must not exceed 300% of the total capital without prior notifying the *FSA* (~~*CRED* 10.4.3R~~). To see if the example satisfies the rules please use the following calculation:

...

So:

$$\frac{\frac{\del{£26,285} \quad \del{£35,285}}{\del{£40,000}}}{\del{£40,000}} \times \frac{100}{1} = \del{65.71\%} \quad \del{88.21\%}$$

Notes on completing the annual return (CY) for Credit Unions

FSA Handbook Reference: SUP 16 Ann 15(2)G

30E Liquidity ratio

...

Large exposures

Whilst these figures relate to the financial year end, your *credit union* will need to look at large *exposure* requirements when issuing loans. For example, *CRED 10.4.1R* defines a large *exposure* is defined as any individual net liability which is at least ~~£5000~~ £7,500 and at least 10% of the value of the *credit union's* capital.

31A Largest net exposure

To work out your *credit union's* largest net *exposure*, you will need to determine:

1. The net exposure on each loan and find the largest figure. The formula for this is:
(loan balance + interest owing)- share balance
2. what is the total capital of your *credit union*? This is defined at **2S**.

...

However, we further know from the above that only net liabilities over ~~£5,000~~ £7,500 are subject to the large *exposures* rule. Below we see all net *exposures* over 10% of total capital and those that do and do not qualify:

Member number	Share balance	Loan balance + interest owing	Net Liabilities	Is it a large exposure?
150	£3,125	£12,500	£9,375	YES
152	£1,750	£7,000 £10,000	£5,250 £8,250	YES
103	£3,115	£9,002 £12,002	£5,887 £8,887	YES
462	£2,500	£6,700	£4,200	No
204	£2,138	£7,911 £10,911	£5,773 £8,773	YES
109	£4,000	£8,500	£4,500	No

...

31C Aggregate total of large net exposures

...

Taking the example at **31A** above, this figure will be ~~£26,285~~ **£35,285** (see below).

Member number	Share balance	Loan balance + interest owing	Net Liabilities
150	£3,125	£12,500	£9,375
152	£1,750	£7,000 £10,000	£5,250 £8,250
103	£3,115	£9,002 £12,002	£5,887 £8,887
204	£2,138	£7,911 £10,911	£5,773 £8,773
Totals	£10,128	£36,413 £45,413	£26,285 £35,285

31D As % of capital

CRED states that the aggregate total of large net *exposures* must not exceed 500% of the total capital of the *credit union*

~~(CRED 10.4.2R)~~, and must not exceed 300% of the total capital without prior notifying the FSA ~~(CRED 10.4.3R)~~. To see if the example satisfies the rules please use the following calculation:

...

So:

$$\frac{\begin{array}{l} \cancel{£26,285} \quad \underline{£35,285} \\ \hline \end{array}}{£40,000} \times \frac{100}{1} = \cancel{65.71\%} \quad \underline{88.21\%}$$

Annex B

Amendments to the Credit Unions sourcebook (CRED)

In this Annex, underlining indicates new text and striking through indicates deleted text.

...

...

1.1.3 G Every *credit union* is either a *version 1 credit union* or a *version 2 credit union*. The difference is that a *version 1 credit union* is subject to a *requirement* that it must not lend more than ~~£10,000~~ £15,000 in excess of a member's shareholding. *CRED* 14.5 (Application to vary or cancel *permission*) chapter describes how a *credit union* can switch between the two versions.

...

...

7A.2.7 R A *version 1 credit union* must not:

- (1) pay different dividends on different accounts; ~~and~~ unless:
 - (a) at the time of the payment of any dividends it has a capital to total assets ratio of at least 5%; and
 - (b) the payment of any of those dividends does not reduce the capital to total assets ratio to below 5%; or
- (2) pay dividends out of interim profits more than once a year.

...

...

10.4.1 R For the purposes of this section, a large *exposure* is defined as an individual net liability to the *credit union* which meets both of the following criteria:

- (1) it is at least ~~£5000~~ £7,500;
- (2) it is at least 10% of the value of the *credit union's* total capital.

...

BUILDING SOCIETIES REGULATORY GUIDE INSTRUMENT 2006

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of its powers under section 157(1) (Guidance) of the Financial Services and Markets Act 2000 (“the Act”).

Commencement

- B. This instrument comes into force on 1 January 2007.

General guidance on building society regulatory issues

- C. General guidance on the Building Societies Act 1986, and on constitutional and other provisions relating to building societies, is made in the form of the Annex to this instrument. This guidance does not form part of the handbook.

Citation

- D. This instrument may be cited as the Building Societies Regulatory Guide Instrument 2006.

Annex

Building Societies Regulatory Guide (BSOG)

The following is new text and is not underlined. It is general guidance which is closely based on the text which previously appeared in IPRU (B/SOC) Volume 1 (chapter X, chapters 1 to 3 and chapters 6 to 11) and IPRU (B/SOC) Volume 2.

CONTENTS

- 1 Introduction
 - 1.1 Application, purpose and definitions
 - 1.2 Principal purpose of a building society and funding and lending limits
 - 1.3 Constitutional matters
 - 1.4 Accounting records and reporting requirements
 - 1.5 Electronic communications

 - 1A Applications for the right to obtain access to the registers of members of building societies
 - 1A.1 Introduction
 - 1A.2 Registers of members
 - 1A.3 Statutory Framework
 - 1A.4 Making an application
 - 1A.5 Considering an application
 - 1A.6 Oral hearings
 - 1A.7 Deciding an application

1 Introduction to the building societies regulatory guide

1.1 Application, purpose and definitions

Application

1.1.1 G This Guide applies to building societies.

Purpose

1.1.2 G This Guide provides guidance on the Building Societies Act 1986 and on various constitutional and other provisions relating to building societies. It is not comprehensive and should not be treated as such.

Frequently used terms

1.1.3 G The following terms are used in this Guide and have the meaning described here:

"the 1986 Act"	the Building Societies Act 1986 [Note: As amended by or under the Building Societies Act 1997 and the Financial Services and Markets Act 2000. The 1986 Act has also been amended by other legislation.]
"the 1997 Act"	the Building Societies Act 1997
"the Accounts Regulations"	the Building Societies (Accounts & Related Provisions) Regulations 1998 (SI 1998/504)
"the Act"	the Financial Services and Markets Act 2000
"AGM"	Annual General Meeting
"amalgamation agreement"	a formal agreement between societies on the terms of their amalgamation
"approved person"	a person approved by the Authority under section 59 of the Act (Approval for particular arrangements) to perform a controlled function
"the Authority"	the Financial Services Authority
"the Banking Consolidation Directive"	the Council Directive of 20 March 2000 relating to the taking up and pursuit of the business of credit institutions (No 2000/12/EC)
"the Banking Regulator"	the Authority or other competent authority in another EEA state, as the case may be

[**Note:** The functions of the Bank of England under the Banking Act 1987, which was repealed by the Act, were transferred to the Authority by the Bank of England Act 1998. Similarly, the

functions of the Commission, and of the Central Office of the Registry of Friendly Societies were transferred to the Authority by and under the Act.]

"the BCD"	the Banking Consolidation Directive
"the board"	the board of directors of a building society
"borrower" or "borrowing member"	a person who is indebted to a society in respect of a loan fully, or where the Rules so provide, substantially secured on land
"the BSA"	the Building Societies Association
"the Combined Code"	the Combined Code on Corporate Governance, developed by the Corporate Governance Committee of the Financial Reporting Council
"the Commission"	the Building Societies Commission [Note: The functions of the Bank of England under the Banking Act 1987, which was repealed by the Act, were transferred to the Authority by the Bank of England Act 1998. Similarly, the functions of the Commission, and of the Central Office of the Registry of Friendly Societies were transferred to the Authority by and under the Act.]
"the Confirmation Criteria"	means in relation to mergers- the three criteria specified in section 95(4) of the 1986 Act which the Authority has to consider when deciding whether to confirm a merger of the business of one society with the business of another society; and means in relation to transfers- the four criteria specified in section 98(3) of the 1986 Act which the Authority has to consider when deciding whether to confirm a transfer of the business of a society to a commercial company
"controlled function"	a function, relating to the carrying on of a regulated activity by a firm, which is specified, under section 59 of the Act (Approval for particular arrangements), in the table of controlled functions shown in the Supervision manual of the Authority's Handbook (see SUP 10.4.5R)
"conversion"	the transfer of business of a society to a specially formed company
"credit institution"	an undertaking whose business is to receive deposits or other repayable funds from the public and to grant credits for its own account; or an electronic money institution within the meaning of article 1(3)(a) of the E-Money Directive (Directive 2000/46/EC) which has the right to benefit from the mutual recognition arrangements under the BCD
"the Electronic Communications Order"	the Building Societies Act 1986 (Electronic Communications)

Order 2003 (SI 2003/404)

"existing company"	A company which is a company within the meaning of the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 and is a public company limited by shares, or is incorporated in an EEA State other than the United Kingdom and has power to offers its shares and debentures to the public, and which is carrying on business as a going concern on the date of the Transfer Agreement
"Fees Rules"	the Rules made by the Authority from time to time under paragraph 17 of Schedule 1 to the Financial Services and Markets Act 2000 prescribing the fees to be paid in connection with the discharge of its functions under the 1986 Act
"First, Second, Third Criterion"	See "Confirmation Criteria", and relating respectively, in relation to mergers, to the criteria specified in subsections (a), (b) and (c) of section 95(4) of the 1986 Act
"First, Second, Third, Fourth Criterion"	See "Confirmation Criteria", and relating respectively, in relation to transfers, to the criteria specified in subsections (a), (b), (c) and (d) of section 98(3) of the 1986 Act
"the IAS Regulation"	the Regulation of the European Parliament and of the Council of 19 th July 2002 on the application of international accounting standards (1606/2002/EC)
"Instrument of Transfer"	The Instrument of Transfer of Engagements required by section 94(6) of the 1986 Act
"listed"	included in an official list
"member"	a shareholding or borrowing member of a society
"Memorandum"	the Memorandum of a building society required by paragraph 2 of Schedule 2 to the 1986 Act
"merger"	an amalgamation or transfer of engagements
"Merger Document"	the document or booklet containing the Schedule 16 Statement
"Merger Notification Statement"	a statement sent to members in the circumstances described in chapter 2 of this Guide
"Merger Resolutions"	the shareholding members' resolution and borrowing members' resolution required to approve a merger where no direction under section 42(B)(3) has been given
"official list"	(a) the list maintained by the Authority in accordance with section 74(1) of the Financial Services and Markets Act 2000 (The official list) for the purposes of Part V of the Act (Official Listing); (b) any corresponding list maintained by a competent authority for

	listing in another EEA State.
"OFT"	Office of Fair Trading
"PIBS"	Permanent interest-bearing shares, a type of deferred share
"proxy voting form"	an instrument appointing a proxy to attend a meeting of a society and vote on the member's behalf
"Qualifying Day"	the day specified in the Transfer Agreement as the qualifying day for the purposes of section 100 of the 1986 Act
"rationale"	the explanation of the reasons for a proposed merger provided to the members of a society by its board of directors
"the registration team"	the team at the Authority which carries out the registration functions under the 1986 Act
"the Rules"	the Rules of a building society
"Schedule 16 Statement" or "the Statement"	the statutory statement required by Schedule 16 to the 1986 Act to be sent to every member entitled to notice of a meeting of the society
"SGM"	Special General Meeting
"shareholder" or "shareholding member"	a person holding a share in a society (by investing in one or more share accounts or holding PIBS or other deferred shares)
"society"	a building society
"specially formed company"	a company formed by a society (and by no other than its nominees) for the purpose of assuming and conducting the society's business in its place, which is a company within the meaning of the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 and is a public company limited by shares, or is incorporated in an EEA State other than the United Kingdom and has power to offer its shares or debentures to the public
"Statutory Cash Bonus"	the bonus required by section 100(2)(b) and (4) of the 1986 Act to be paid to every shareholder of the society who held shares on the Qualifying Day and was not eligible to vote on the requisite shareholding members' resolution
"successor" or "successor company"	A company, whether an existing company or a specially formed company, to which the business of a society is proposed to be transferred
"successor society"	a society accepting a transfer of engagements or the new society in the case of an amalgamation
"takeover"	the transfer of business of a society to an existing company

"the Three Criteria"	the criteria prescribed by section 95(4) of the 1986 Act which the Authority has to consider when deciding whether to confirm a merger
	[Note: The Three Criteria are varied in certain circumstances – see section 6 of chapter 2 of this Guide.]
"transfer"	a conversion or takeover or both, as the context requires
"Transfer Agreement"	the agreement required by section 97(4)(b) of the 1986 Act between a society and its successor company on the terms of the transfer
"Transfer Document"	the document or booklet containing, inter alia, either the Transfer Statement or the Transfer Summary
"Transfer Regulations"	the Building Societies (Transfer of Business) Regulations 1998 (SI 1998/212)
"Transfer Resolutions"	the shareholding members' resolution and borrowing members' resolution required to approve a transfer where no direction under section 42B(4) of the 1986 Act has been given
"transferee society"	a society accepting a transfer of engagements from another society
"transferor society"	a society transferring its engagements to another society
"Transfer Statement"	the statement required by Schedule 17 to the 1986 Act to be sent in or with the notice of the meeting at which the Transfer Resolutions are to be considered or, if a Transfer Summary is sent, made available to every member entitled to notice of a meeting of the society
"Transfer Summary"	The summary of the Transfer Statement which may, in accordance with Schedule 17 to the 1986 Act, be sent, instead of the Transfer Statement, in or with the notice of the meeting at which the Transfer Resolutions are to be considered, to every member entitled to receive that notice
"Trustee Account Holder"	a person who is a shareholding or borrowing member of a society, by virtue of being the sole or representative joint holder of an account which he holds in trust for another person or persons any one or more of whom cannot reasonably practicably act in relation to that account themselves by reason of ill-health or old age or any physical or mental incapacity or disability, as provided by section 102D of the 1986 Act, whether or not the account holder is a shareholding or borrowing member in respect of any other accounts
"vesting date"	the date on which all the property, rights and liabilities of the society making the transfer, except any shares in the successor company, are transferred to the successor company

- 1.2 Principal purpose of a building society and funding and lending limits
- 1.2.1 G A building society can only be or remain established under the 1986 Act if its purpose, or principal purpose, is making loans which are secured on residential property and funded substantially by the society's members (the 'principal purpose test') (section 5 of the 1986 Act).
- 1.2.2 G If an established building society no longer meets the principal purpose test, the Authority may:
- (1) direct it to submit a restructuring plan designed to ensure that the society will meet the principal purpose test by a certain date and that it will continue to meet that test in the future (section 36 of the 1986 Act);
 - (2) direct it to submit to its members for their approval at a meeting the requisite resolutions for a transfer of the society's business to a company (section 36 of the 1986 Act); or
 - (3) petition the High Court for the society's winding-up (section 37 of the 1986 Act).
- 1.2.3 G Building societies are subject to lending and funding limits, which help to determine their compliance with the principal purpose test (sections 6 and 7 of the 1986 Act).
- 1.2.4 G When the Authority assesses a building society's compliance with the principal purpose test, it takes into account:
- (1) whether the society is meeting, and is expected to continue to meet, its lending and funding limits (sections 6 and 7 of the 1986 Act);
 - (2) the actual and projected proportion of the society's gross income that is, or is expected to be, derived from activities that are related to the making of loans secured on residential property. (Income from the society's property related insurance and valuation services might be regarded as related to the making of loans secured on residential property, but income from the society's motor insurance business (if any) would not); and
 - (3) all other relevant quantitative and qualitative factors.
- 1.2.5 G The Authority expects societies to draw up their corporate and other business plans so as to provide reasonable assurance that they will comply with the principal purpose test and their other obligations under the 1986 Act.
- 1.2.6 G In particular, societies should ensure that any programme of securitisation does not threaten compliance either with the principal purpose, or with the lending or funding nature limits. Sections 6(3) and 7(3) of the 1986 Act respectively make clear that only items included in total assets or total liabilities in a society's accounts count towards the nature limits. The adoption of International Accounting Standards by some societies changed the accounting treatment of securitised assets for those societies from 1 January 2005. The Building Societies Act 1986 (Modification of the Lending Limit

and Funding Limit Calculations) Order 2004 (S.I. 2004/3200) amended the 1986 Act so that securitised assets and related liabilities may continue to be excluded from nature limit calculations, regardless of how they are included in the accounts of a society. Therefore societies which use International Accounting Standards to prepare their accounts will not be disadvantaged in relation to the nature limits.

1.3 Constitutional matters

Constitutional form

- 1.3.1. G Building societies have a particular constitutional form: they are mutuals run for the benefit of their members (i.e. their borrowers and savers). A society cannot therefore be owned or controlled by an outside institution or major shareholder. Society boards and management have a special responsibility to protect the interests of their members through the highest standards of corporate governance.
- 1.3.2 G Although societies are not publicly quoted, they should have regard to the Combined Code when they establish and review their corporate governance arrangements.

Fit and proper test for directors

- 1.3.3 G A building society's directors are elected by its members. Subject to certain exceptions, any natural person may be elected as a building society director (section 60 of the 1986 Act). Members have the right to nominate any candidate for election. Unless that person is subject to an Authority prohibition order, the board cannot refuse to accept a candidate's nomination because the board does not regard that person as fit and proper. Prior to the election, the board should take reasonable steps to establish whether there are any facts or matters concerning the candidate's fitness and propriety which the members should be aware of. If there are, the board should bring them to the members' attention before the election takes place. The Authority will not vet candidates for election.
- 1.3.4 G A person elected as an executive or non-executive director of a building society must not exercise a controlled function unless the Authority gives its approval (sections 59 and 60 of the Act). The Authority will not approve a director unless it is satisfied that he meets, and will continue to meet, the Fit and Proper Test for Approved Persons (see the Fit and Proper Test for Approved Persons sourcebook in the Authority's Handbook (*FIT*)). An approved person must also comply with the requirements of the Statement of Principle and Code of Practice for Approved Persons sourcebook in the Authority's Handbook (*APER*).

Other requirements and guidance

- 1.3.5 G Part VII of the 1986 Act contains requirements relating to the management of building societies.
- 1.3.6 G Every building society must have at least two directors and one of the directors must be appointed chairman (section 58 of the 1986 Act). The chairman should not hold an executive position in the society. This helps to separate strategic direction from the day to day management of the business and helps the chairman to take an independent view of management issues. It also protects against undue concentration of power.

- 1.3.7 G Every building society must have a chief executive (section 59(1) of the 1986 Act). The chief executive should be a member of the board.
- 1.3.8 G A small building society may not need as many executive directors as a large building society, but every society should have at least one.
- 1.3.9 G Given the mutual status of building societies, a clear majority of directors on a society's board should be non-executive. Non-executive directors should not be given the expectation that they will remain on the board until retirement. They should serve for a fixed term, both initially and for any subsequent term. The appropriate ratio of non-executives to executives will vary with the scale, nature and complexity of the society's business.
- 1.3.10 G It will rarely be appropriate or desirable for a chief executive or other executive director to remain as a non-executive board member after his or her retirement.
- 1.3.11 G The board should have an appropriate range of skills and experience to control and direct the society's activities effectively. The composition of the board should be reviewed at regular intervals to ensure that its management and other resources are at least adequate for the society's current business and the business it proposes to undertake.
- 1.3.12 G When a director is to be appointed under a formal service contract, the board should consider carefully the terms of the contract it offers. When it does so, it should take into account (for example) the need to attract and retain directors with appropriate experience, knowledge and skill; the need to preserve the board's freedom of action; the potential cost of the contract proposed; the period of notice the society will have to give, and the potential liability it will incur, if it terminates the contract other than for misconduct. The objective should be for notice or contract periods of one year or less.
- 1.3.13 G The Accounts Regulations require a building society to give particulars of its directors' and chief executive's service contracts in its annual Report and Accounts. If there are no service contracts, the building society should say so.
- 1.3.14 G Every building society must have a secretary (section 59(2) of the 1986 Act). The secretary should ensure that board procedures are followed and regularly reviewed. He should also provide guidance on the board's responsibilities and how they should be discharged.

Dealings with directors

- 1.3.15 G Part VII of the 1986 Act places restrictions on certain types of dealing between a building society and its directors. For example:
- (1) it requires a director, who is interested in a contract with the society, to declare that interest to the board (section 63 of the 1986 Act); and
 - (2) it prohibits a building society from entering into an arrangement, by which a director will acquire a non-cash asset of more than a certain value from the society, unless the society has approved the arrangement by resolution at a general meeting.

A building society should maintain written procedures and controls which ensure compliance with these restrictions.

Loans to directors

- 1.3.16 G The 1986 Act also restricts a building society's ability to make loans to a director or a person connected with a director (section 65 of the 1986 Act). In the circumstances, it would be inappropriate for a building society to follow its usual loan procedures when a director or connected person makes a loan application. The responsibility for approving such loans should not rest with staff members, even if the loan falls within a normal staff mandate. A building society should have written procedures for dealing with loan applications from directors or persons connected with them and every director should be familiar with them. Those procedures should include consideration by the board, or a board committee, before any loan application is approved. That review should have regard, for example, to the terms of the proposed loan and whether it is permitted by the 1986 Act.

1.4 Accounting records and reporting requirements

Accounting records and systems

1.4.1 G Every building society is required (by section 71 of the 1986 Act) to keep accounting records which:

- (1) explain its transactions;
- (2) disclose, with reasonable accuracy and promptness, the state of its business at any time; and
- (3) enable the directors and the society to properly discharge their respective duties under the 1986 Act and article 4 of the IAS Regulations (if applicable).

1.4.2 G The accounting records should contain:

- (1) day to day entries of all sums received and paid by the society;
- (2) day to day entries of every transaction which will, or may reasonably be expected to, give rise to assets or liabilities of the society; and
- (3) a record of the society's assets and liabilities and, in particular, the assets and liabilities of any class specifically regulated under section 6 (the lending limit) and section 7 (the funding limit) of the 1986 Act.

Reporting requirements

1.4.3 G The Accounts Regulations set out specific legal and regulatory requirements about the form and content of the financial statements which a building society and its directors must produce. A building society should ensure that the documents it presents to its members are understandable and balanced so that they report the society's setbacks as well as its successes.

1.4.4 G The Accounts Regulations and the 1986 Act require a building society to disclose to its members, by its annual report and accounts:

- (1) the interests of the society's directors;
- (2) the interests of its chief executive (on the matter of service contracts) and other officers (on the matter of options to subscribe for shares or debentures);
- (3) individual directors' remuneration;
- (4) particulars of service contracts for the directors and chief executive;
- (5) current and past directors' additional retirement benefits; and
- (6) directors' interests in the shares or debentures of a connected undertaking.

In the interests of transparency, a building society should also explain whether it adheres to some or all of the Combined Code and, if so, in what respects.

1.5 Electronic communications

- 1.5.1 G The Electronic Communications Order allows a building society to communicate electronically with its members on constitutional matters, including those referred to in later chapters of this Guide, if certain conditions are met. The Order covers communications about the business to be transacted at annual general meetings. It also covers communications on occasional matters, such as special meetings, mergers and transfers of business. In all cases the consent of the member or other person to the means of communication must be obtained.
- 1.5.2 G The Electronic Communications Order does not amend the 1986 Act requirement to submit certain returns to be placed on its public file. Nor does it affect the supervisory financial returns required to be submitted by the rules in the Authority's Supervision manual.
- 1.5.3 G This Guide reflects law and practice as at 23rd November 2006 and does not take into account subsequent developments.

CHAPTER 1A

Applications for the right to obtain access to the registers of members of building societies

1A.1	Introduction	
1A.1.1	G	This chapter gives guidance to building societies, and to those members of building societies considering making an application to the Authority about the exercise of the right to obtain access to the registers of members of building societies. This right is governed by the provisions of paragraph 15 of Schedule 2 to the 1986 Act. Societies should be aware, however, that the Electronic Communications Order 2003 modifies various provisions of the 1986 Act to enable the use of electronic communications between societies, their members and other persons, subject to their consent. In particular, the Order provides for the inclusion of a member's electronic address in the register of members in addition to a postal address. The remaining text of this chapter has not been amended to take account of the Order, but the Authority will in general be prepared to use electronic communication if requested by the society or the applicant and some procedures may have to be adapted accordingly.
1A.1.2	G	This guidance is not a definitive interpretation of the 1986 Act. That is a matter for the courts.
1A.2	Registers of members	
1A.2.1	G	Each society is under a statutory obligation to maintain a register of its members (although the form in which it is maintained is at the discretion of the society). The register must show each member's name and address and whether that person is a shareholding member or a borrowing member. The register must be kept at the society's principal office or such other place or places as the society's directors think fit.
1A.2.2	G	Companies are under a statutory obligation to make their share registers available for inspection by the general public. There is no equivalent obligation on building societies with respect to the registers of their members. A society is not required to allow access to its register other than in the circumstances provided for in paragraph 15 of Schedule 2 to the 1986 Act. Except to the limited extent that access is permitted under that paragraph, a society's register of members is confidential (and subject to data protection legislation).
1A.2.3	G	There are two principal reasons for the confidentiality of the registers of members of building societies. First, it is to protect the privacy of members, whether individually or generally, so the fact that a person is either a shareholder in or a borrower from a particular society (or both) is not subject to indiscriminate disclosure. Second, it is to protect the commercial interests of societies given that it could be to their competitive disadvantage if the identities of their shareholding and borrowing members, who are their customers, were readily available to competitor organisations (the identity

		of whose customers is not so available).
1A.2.4	G	However, building societies are mutual associations of members. As such, it is in principle reasonable for members to be able to pursue a direct interest in the business and management of “their” society and to get in touch with each other on matters of mutual concern.
1A.2.5	G	Within the framework set out in paragraph 15 of Schedule 2 to the 1986 Act, it is the responsibility of the Authority to balance the rights of individual members generally to privacy, and of societies to commercial confidentiality, with the reasonable right of particular individual members to get in touch with each other on matters relating to the affairs of their society. The confidentiality of the information held on the register can be set aside only where the applicant can make out the case within the exceptional circumstances described in paragraph 15 of Schedule 2. In the opinion of the Authority, the exception is to be considered as much a privilege as a right.
1A.3		Statutory framework
1A.3.1	G	Paragraph 15 of Schedule 2 to the 1986 Act governs when and how access to the register of members of a building society may be obtained. Subject to the exception provided for in paragraph 15(1) of Schedule 2, access may only be granted on a direction by the Authority. Paragraph 15(2) of Schedule 2 provides that a member may, if qualified to do so, make a written application to the Authority to exercise the right to obtain members’ names and addresses from the register of the society of which he or she is also a member, for the purposes of communicating with those other members of the society on a subject relating to its affairs. The text of the relevant legislation is at Annex 1.
1A.3.2	G	Paragraph 15(1) of Schedule 2 provides for an exception to the requirement to make an application to the Authority. Where the Authority has cancelled a society’s permission to accept deposits and the society has not had its permission reinstated by the Authority, a member of that society has the right to obtain the names and addresses of its members from the register without application to the Authority. In this case, the applicant is not required to have been a member for any specified period but the minimum shareholding or minimum mortgage debt requirements described in paragraph <i>BSOG</i> 1A.3.3 may still apply.
1A.3.3	G	A member is qualified for the purposes of obtaining access under paragraph 15(1) or (2) of Schedule 2 if, under the rules of the society, he or she may join in a members’ requisition for a special meeting or in nominating a person for election as a director. This means that the applicant must be an investing or borrowing member of the society. If the society’s rules prescribe a minimum investment or mortgage debt the member must hold shares or have a mortgage debt of at least that amount. The minimum cannot exceed £100 in either case (which figure the Treasury may change by Order). In cases covered by paragraph 15(2) of Schedule 2, the society may also require the applicant to have been a member for such period as may be specified in its rules. In most cases this is two years (the maximum

		permitted by the 1986 Act).
1A.3.4	G	<p>An application under paragraph 15(2) of Schedule 2 is subject to the payment of a reasonable fee, currently £25, to the Authority. Where an application is made, the Authority may direct the society to give the member access to the register provided the Authority is satisfied that:</p> <p>(1) the applicant requires the right for the purposes of communicating with members of the society “on a subject relating to its affairs”; and</p> <p>(2) the applicant has not, since making the application, voluntarily ceased to be a member of the society.</p>
1A.3.5	G	The Authority must also have regard to “the interests of the members as a whole” and “to all the other circumstances”.
1A.3.6	G	If access is granted it may only be used to obtain the names and addresses of members for the purposes of communicating with them on a subject relating to its affairs (see also paragraphs <i>BSOG</i> 1A.5.10 to <i>BSOG</i> 1A.5.12).
1A.3.7	G	Before giving a direction, the Authority is required to give particulars of the application to the building society concerned and to give it the opportunity to make representations. If either the applicant or the society so requests, the Authority must give both the opportunity of being heard by it.
1A.3.8	G	A direction given by the Authority may be subject to such limitation or conditions as the Authority may think fit.
1A.3.9	G	If the Authority directs that the applicant shall have the right to obtain access to the register, the applicant may apply in writing to the society, describing the subject on which it is proposed to communicate with other members of the society. The society is required to give the applicant all necessary information as to where the register is kept and reasonable facilities (including office accommodation) for inspecting it and taking copies of any names and addresses.
1A.3.10	G	The applicant only has the right to take names and addresses from the register. A society may make the information from the register available to an applicant in such a way that only those names and addresses are disclosed.
1A.3.11	G	Information obtained by the applicant from the register of the society concerned and relating to a member of that society may not be disclosed to any other persons without the consent of that member whose name and address has been taken from the register. Nor may it be disclosed for purposes not connected with the purposes given at the time the Authority made its direction. Contravention of these requirements is a criminal offence.
1A.3.12	G	Paragraph 6 of Schedule 14 to the 1986 Act provides that any dispute as to the rights of a member under paragraph 15 of Schedule 2 shall be referred to the Authority and treated as a reference to arbitration; and its award shall

		have the same effect as that of an arbitrator in a reference under paragraph 4(1) of Schedule 14.
1A.4	Making an application	
1A.4.1	G	Applications should be made to the Authority in writing in the form of Annex 2 to this chapter.
1A.4.2	G	Each application must be accompanied by the prescribed fee, which is currently £25 (cheques should be made payable to the Financial Services Authority). This fee is not refundable in any circumstances.
1A.4.3	G	Should an applicant wish to obtain access to the registers of more than one society (the applicant must, of course, be a qualified member of each of them), there must be a separate application, for each of which a separate fee must be paid.
1A.4.4	G	The Authority will acknowledge all applications within 5 working days of receipt.
1A.4.5	G	To assist the Authority in its consideration of an application, and the society in making any representations on it, the application should set out clearly and concisely the issues about which the applicant wishes to communicate with other members and the purposes in doing so. In addition to this statement, the Authority requires at the time of the initial application a draft of the communication that would be sent should the Authority direct the society to give the applicant access to the register.
1A.4.6	G	Without prejudice to its consideration of an application in any particular case, applicants should note the following general guidelines when preparing an application:
		(1) the Authority will expect the member making the application to have read carefully the relevant provisions of the 1986 Act and this chapter;
		(2) it is important to be specific about the purpose of the application, how it relates to the affairs of the society and why and how access to the register of members is necessary to achieve the applicant's objective;
		(3) an applicant should think carefully about the purpose and content of the proposed communication before making the application so as to minimise the need for substantive changes to it at a later date;
		(4) an application may be supported by such information or documents as the applicant may wish, but these will be considered to form part of the application, will be seen by the society and be open to comment by it;
		(5) where an applicant submits two or more applications (together or in quick succession) it should be made clear as to why access to the

		register of members of each of the societies is necessary and how the purpose of each application relates to the affairs of that society;
	(6)	should an applicant be successful he or she will incur expenditure in taking names and addresses from the register and then producing and mailing the communication and the applicant should take this into account before submitting an application.
1A.5	Considering an application	
1A.5.1	G	The Authority will consider, first, whether the application contains all the relevant information. It may ask the applicant to provide further information or clarify what has already been given.
1A.5.2	G	If, in the opinion of the Authority, the application is defamatory, frivolous or vexatious, the Authority may decide that it would be inappropriate to consider it further. The applicant will be informed of such decision as soon as practicable. In such cases the Authority may give the applicant an opportunity (normally only once) to revise the application to take the Authority's opinion into account. If a revised application is received by the Authority within 10 working days of the Authority's notice that the previous application was unacceptable (or such other period as the Authority may, in the circumstances, consider reasonable), a further fee will not be payable.
1A.5.3	G	If the Authority is satisfied that the application provides all the relevant information and is, on the basis of that information, a valid application for the purposes of paragraph 15 of Schedule 2, the Authority will send the application, together with any supporting information or documents provided by the applicant, to the society. The society will be asked to confirm that the applicant was qualified to make the application at the time it was made and, if so, invited to make written representations on it to the Authority. The Authority will also ask the society whether it wishes to make oral representations at a hearing held by the Authority. The Authority will normally expect a society to submit its representations, or to confirm that none are to be made, within 15 working days of receipt of the copy of the application.
1A.5.4	G	Once the Authority has received the society's written representations, together with any supporting information or documents, a copy will be sent to the applicant with an invitation to make written comments on them to the Authority. The Authority will also ask whether the applicant wishes to make oral representations, irrespective of whether the society has indicated that it would wish to do so. The Authority will normally expect an applicant to provide written comments or to confirm that none are to be made within 15 working days of receipt of the invitation.
1A.5.5	G	Once the Authority has received the applicant's written comments, a copy of them will be sent to the society. This will normally be for information only. However, in any case where, in the opinion of the Authority, the applicant has introduced new matters which can properly be dealt with as part of the existing application, the society will be given the opportunity to make further representations. If the applicant has introduced new matters

		which, in the opinion of the Authority, cannot properly be dealt with as part of the existing application, the Authority may ask the applicant to make a new application or it may disregard the new matters for the purposes of the application under consideration. In the latter case the Authority will inform the applicant accordingly.
1A.5.6	G	The Authority may seek further information or other documents from either the applicant or the society at any time.
1A.5.7	G	Paragraph 15(2) of Schedule 2 sets out the criteria to which the Authority should have regard in considering an application:
		(1) the purpose of the proposed communication must be on “a subject relating to its (the society’s) affairs”;
		(2) the Authority should have “regard to the interests of the members as a whole”;
		(3) the Authority should have “regard ... to all the other circumstances”.
1A.5.8	G	Paragraph 15(3) of Schedule 2 provides that the Authority may give a direction “subject to such limitations or conditions as the Authority may think fit”.
1A.5.9	G	The Authority will consider each application on its merits. The purpose of the guidance in paragraphs <i>BSOG</i> 1A.5.10 to <i>BSOG</i> 1A.5.20 is to give a broad indication of the Authority’s approach and the criteria to which it will have regard.
A Subject Relating to its (the Society's) Affairs		
1A.5.10	G	The 1986 Act does not define “affairs”. As a general proposition, the Authority considers that “affairs” will primarily relate to matters connected with the society’s finances, its business activities and the manner in which it carries on those activities, and not just to the applicant’s personal affairs. Bearing in mind the considerations discussed in paragraph <i>BSOG</i> 1A.2.3, the matters about which the member wishes to communicate with other members, will, in the opinion of the Authority, normally need to be of a substantial nature and must relate to the particular society concerned. The Authority will expect the applicant to demonstrate not only why he or she is personally concerned about, or affected by, these matters (rather than simply being concerned or affected in some more general way) but also why it is necessary that this concern is communicated direct to other members.
1A.5.11	G	Paragraph 15 of Schedule 2 requires each application to be considered separately by the Authority so that it cannot consider applications with the same, or similar purpose, or related to the same, or similar issue, as if they were a “class application”. So, for example, an application from a member wishing to obtain the required support of other members to stand for election to the board of directors of a society will be considered individually and on its merits, notwithstanding any previous decision the Authority may have taken on an application with the same, or similar, purpose.

1A.5.12	G	The Authority will wish to be satisfied that the wording of the communication is consistent with the stated purpose of the application. It may invite the society to comment on the communication but the society cannot itself stipulate what its terms should be.
The Interests of the Members as a Whole		
1A.5.13	G	The Authority will balance the wider interests of the membership as a whole with those of any one individual member or group of members. The Authority will require the applicant to demonstrate that the communication raises matters which are likely to be of interest to the society's members generally or at least a substantial section of them. The Authority will take into consideration any evidence of support from other members of the society, should the applicant claim that this has already been given.
1A.5.14	G	Whilst the right to make an application is open to all qualified members of the society, the Authority is of the opinion that, as a general proposition, access to the register is not an appropriate vehicle for the pursuit of a private grievance between a member and the society or the pursuit of a more general campaign affecting the building societies sector as a whole. The Act provides for a reference to the Financial Services Ombudsman for the investigation of a customer complaint and the 1986 Act provides for a reference to the High Court (in Scotland, the Court of Session) for the resolution of a membership dispute.
1A.5.15	G	The 1986 Act does not require that a person who is given access to the register must write to all the members. To do so would mean that the right of access was of little practical value. In the opinion of the Authority, it is acceptable for the applicant to write, for example, to a random selection of members or to those living in a particular geographical area. However, the Authority may require the communication to indicate whether or not it has been sent to all the members or only a proportion of them (and, if so, on what basis that proportion was selected).
All the Other Circumstances		
1A.5.16	G	The circumstances that may be appropriate for the Authority to take into account can only be identified in the particular case at the particular time. As a general proposition, the Authority will take into account any relevant information in respect of the applicant's relationship with the society. This could include, for example, previous applications for access to the register. The Authority will also take into account whether the applicant has raised the issue about which he or she is concerned at the society's annual general meeting or whether he or she would be able to do so at a future meeting. The Authority will at the same time take into account any evidence that the society has attempted to frustrate the member's legitimate right to speak on the issue at the annual general meeting or seems likely to do so on a future occasion.
1A.5.17	G	The Authority will also take into account the likely effect on building societies generally should the applicant be given access to the register of

		members of a particular society and write to the other members as proposed. It will consider whether, should it direct that an applicant be given access to the register of one society, this could have any adverse impact on other societies, for example, a possible risk to confidence. The Authority will also expect the applicant to explain why it is not possible to obtain support in some other way and so why it is necessary to have the privilege of accessing the register of members. The Authority will expect an applicant to show an awareness of these wider considerations and will wish to be assured that they will be appropriately reflected in both the tone and the content of the communication.
1A.5.18	G	An applicant will be expected to disclose to the Authority whether he or she is acting in a purely personal capacity or on behalf of, or in concert with, any other person or institution, or whether he or she has an interest in the society beyond the fact of being a member of it. Where the applicant has not made such a disclosure, but the Authority has reason to believe that he or she may be acting for or in concert with another party, the Authority will make enquiries to establish the facts and will invite the applicant to comment on its findings. Each application to inspect the register of members is considered on its merits. Where an application is made by a member whom the Authority considers to be in effect acting on behalf of a third party commercial institution, it will in particular have regard to:
		(1) the nature of the member's own interest in the application and the third party institution's objectives;
		(2) the interest of members as a whole in preserving privacy and the society's right to commercial confidentiality in its membership list;
		(3) any interaction between the application and the detailed and mandatory procedures under the 1986 Act governing mergers of building societies or as the case may be transfers of business to commercial companies; and
		(4) other means open to the member and the third party institution to communicate with members on the relevant subject.
		The interests of the members as a whole should not be confused with the personal interests of one or more individual members.
Such Limitations or Conditions as the Authority may think fit		
1A.5.19	G	The 1986 Act imposes a specific restriction on any person who has taken information from the register of members. That is, the information may not be further disclosed (by that person or anyone to whom the information has been disclosed in accordance with the direction given by the Authority) except with the consent of the member to which it relates or for the purposes for which the 1986 Act provides. This is an essential safeguard against the abuse of the privilege of being given access to the register of members and contravention of the restriction is a criminal offence.

1A.5.20	G	The Authority will consider what limitations or conditions it should properly attach to a direction in each particular case. However, and without prejudice to the exercise of its discretion, the Authority will normally consider limitations or conditions in the following areas:
		(1) whether the information taken from the register may be further disclosed and, if so, those to whom it may be disclosed and, in particular, if the Authority decides to direct access to the register of members in the circumstances outlined in paragraph <i>BSOG</i> 1A.5.18G, it will impose such conditions as may be necessary to ensure that the third party institution does not directly or indirectly gain access to the information in the register or use the proposed communication by the applicant with other members to damage the society;
		(2) that the communication must be in writing and addressed separately to each of the members to whom it is sent;
		(3) that the material terms of the communication sent must be those seen by the Authority at the time it reached its decision on the application;
		(4) that the communication is accurate, is not offensive, is not misleading (including any inference that the communication is being made by, or on behalf of, the society), is not likely to bring about a loss of confidence in the society (or in societies generally) or otherwise harm its current or future business;
		(5) that the communication must be sent within a specified time;
		(6) that the applicant is given a specified period during which the relevant information is to be made available.
1A.6		Oral hearings
1A.6.1	G	Should either the society or the applicant ask for an opportunity of being heard by the Authority, then it will invite both parties to attend a hearing. If neither party so requests, the Authority will normally decide the application on the basis of the written evidence available to it, including the application, the society's comments (paragraph <i>BSOG</i> 1A.5.3) and the applicant's written comments (paragraphs <i>BSOG</i> 1A.5.4 and <i>BSOG</i> 1A.5.5) together with the results of any enquiries the Authority itself may have made.
1A.6.2	G	If there is an oral hearing this will normally be taken by one or more persons authorised by the Authority to act on its behalf.
1A.6.3	G	The Authority will normally give the applicant and the society not less than 10 working days formal notice that there will be a hearing, including the place and time at which it will be held.
1A.6.4	G	The hearing will normally be held in public. However, if either the applicant or the society requests that the hearing be held in private, the

		person(s) taking the hearing will listen to arguments from both parties before deciding whether to admit the public (which may include representatives of the media).
1A.6.5	G	Whilst the proceedings will be comparatively informal, the applicant and the society may, if they wish, be legally represented. In any such case, the Authority must be notified at least 5 working days in advance of the hearing so that it may inform the other party. The applicant and the society may also be assisted by such other persons as the Authority considers reasonable in the circumstances.
1A.6.6	G	The person(s) taking the hearing will introduce the proceedings and deal with any preliminary matters. The applicant and the society will then each be invited to present their cases, in that order. Each will have the opportunity to comment on the case presented by the other. The person(s) taking the hearing may ask such questions as they consider necessary, particularly to establish or elucidate matters of fact, but will not respond to questions from either of the parties. This procedure may be varied according to the circumstances of the particular case.
1A.7	Deciding an Application	
1A.7.1	G	The person taking the hearing will not normally announce a decision at the hearing or give any indication as to the Authority's likely decision.
1A.7.2	G	The Authority's decision with reasons will always be given in writing. The Authority will normally expect to issue its decision within 15 working days of a hearing. A copy will be sent to the applicant and to the society.
1A.7.3	G	The Authority will make its decision public. It would also normally expect to make copies of its written decision with reasons available to those interested to see it. It may decide not to do so, however, where it considers that publication could be prejudicial to the interests of shareholders or depositors in or with the society. The Authority will, if either applicant or society objects to the publication of its written decision, give both parties the opportunity to make representations to it.

Annex 1

Extract from the 1986 Act

Schedule 2, paragraph 15

“Right of members to obtain particulars from the register

15.

(1) At any time when a building society -

- (a) has had its permission under Part IV of the Financial Services and Markets Act 2000 to accept deposits cancelled; and
- (b) has not subsequently been given such permission,

a member of the society shall, subject to sub-paragraph (1A) below, have the right to obtain, from the register kept under paragraph 13 above, the names and addressees of members of the society, for the purpose of communicating with them on a subject relating to the affairs of the society.

(1A) Sub-paragraph (1) above shall not apply unless the member in question:

- (a) is qualified under the rules of the society to join in a members' requisition for a special meeting, or to join in nominating a person for election as a director; or
- (b) would be so qualified if any requirements as to length of time a person must have been a shareholding or borrowing member were omitted.

(2) If, at any time not falling within sub-paragraph (1) above, a member of a building society who is qualified under the rules of the society to join in a members' requisition for a special meeting, or to join in nominating a person for election as a director, makes a written application to the Authority for the right to obtain names and addresses from the register, the Authority:

- (a) if satisfied that the applicant:

- (i) requires that right for the purpose of communicating with members of the society on a subject relating to its affairs; and
 - (ii) has not, since making the application, voluntarily ceased to be a member of the society; and
- (b) having regard to the interests of the members as a whole and to all the other circumstances;

May direct that the applicant shall have the right to obtain from the register the names and addresses of the members for the purpose of communicating with them on that subject.

- (2A) The Authority may charge a reasonable fee for considering an application under sub-paragraph (2) above.
- (3) Any direction under sub-paragraph (2) above may be given subject to such limitations or conditions as the Authority may think fit.
- (4) Before giving a direction under sub-paragraph (2) above, the Authority shall give particulars of the application to the building society and shall afford the society an opportunity of making representations with respect to the application; and the Authority shall, if the applicant or the society so requests, afford to the applicant and to the society an opportunity of being heard by it.
- (5) A member entitled under this paragraph to obtain the names of members of a building society may apply in writing to the society, describing in the application the subject on which he proposes to communicate with other members of the society; and the society shall give him all necessary information as to the place or places where the register, or part of it, is kept, and reasonable facilities for inspecting the register and taking a copy of any names and addresses in the register.
- (6) A building society shall not be obliged to disclose to a member making an application under this paragraph any particulars contained in the register other than the names of the members and their addresses, and may construct the register in such a way that it is possible to disclose the names and addresses to inspection without disclosing any such other particulars.
- (7) No information obtained under sub-paragraph (1) or (2) above or this sub-paragraph and relating to a member of the society may be disclosed except:
 - (a) with the consent of that member; or
 - (b) in the case of information obtained under sub-paragraph (1) or (2) above, for purposes connected with the purpose mentioned in that paragraph.

- (8) Any person who discloses information in contravention of subparagraph (7) above shall be liable:
- (a) on conviction on indictment, to imprisonment for a term not exceeding two years or to a fine or both; and
 - (b) on summary conviction, to a fine not exceeding the statutory maximum.”

Annex 2

**APPLICATION FOR THE RIGHT TO OBTAIN ACCESS
TO THE REGISTER OF MEMBERS OF A BUILDING SOCIETY**

This form is to be completed by a member of a building society who wishes to be given access to the register of members of the building society of which he or she is a member in accordance with paragraph 15 of Schedule 2 to the Building Societies Act 1986 (as amended by and under the Financial Services and Markets Act 2000) and who is qualified under that paragraph to make such an application. Before completing this form you are advised to read the guidance published by the Financial Services Authority. Copies of this form may be downloaded from the FSA's Handbook webpage on Regulatory Guides <http://fsahandbook.info/FSA/html/handbook/D44>.

On completion this form should be sent to the Financial Services Authority, 25 The North Colonnade, Canary Wharf, London E14 5HS.

1. Name of the society of which you are a qualified member to whose register of members you wish to be given access:

2. Name and address of applicant:

Name

Address

Telephone

3. Share account details

Account name (s)

Account number (s)

4. Mortgage account details

Account name (s)

Account number (s)

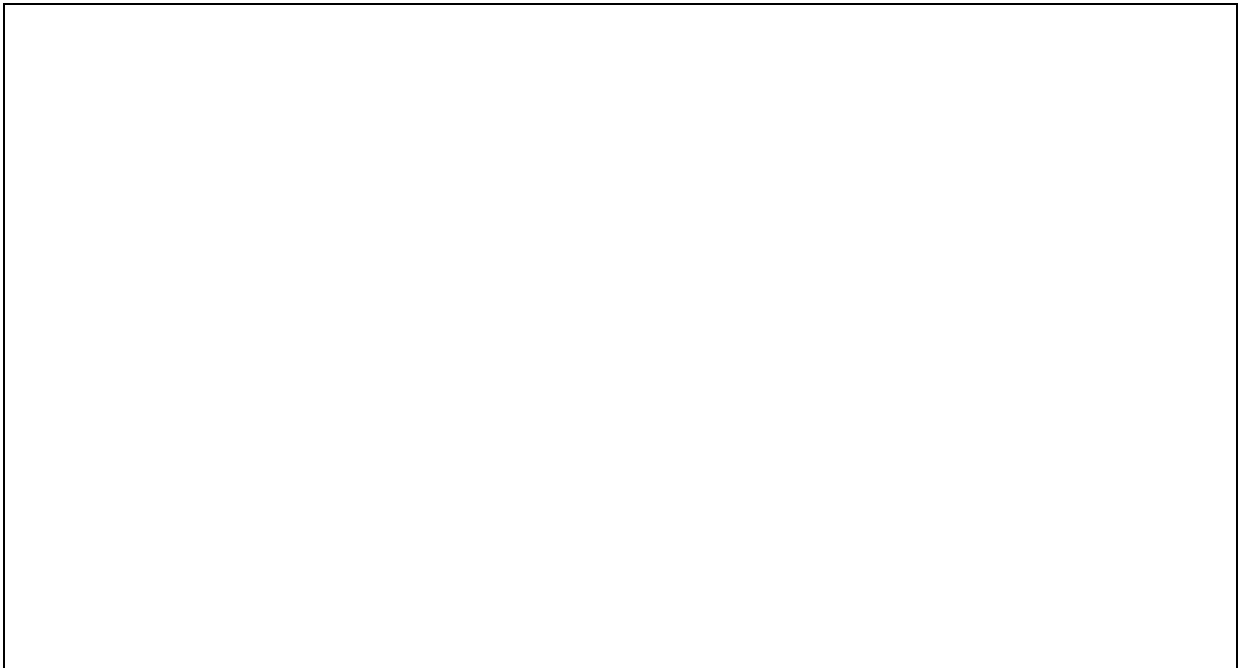

NOTE

If the name and/or the address in which you hold either or both of the above accounts are different from the name and address given for the purposes of this application, please specify that in which it/they are held.

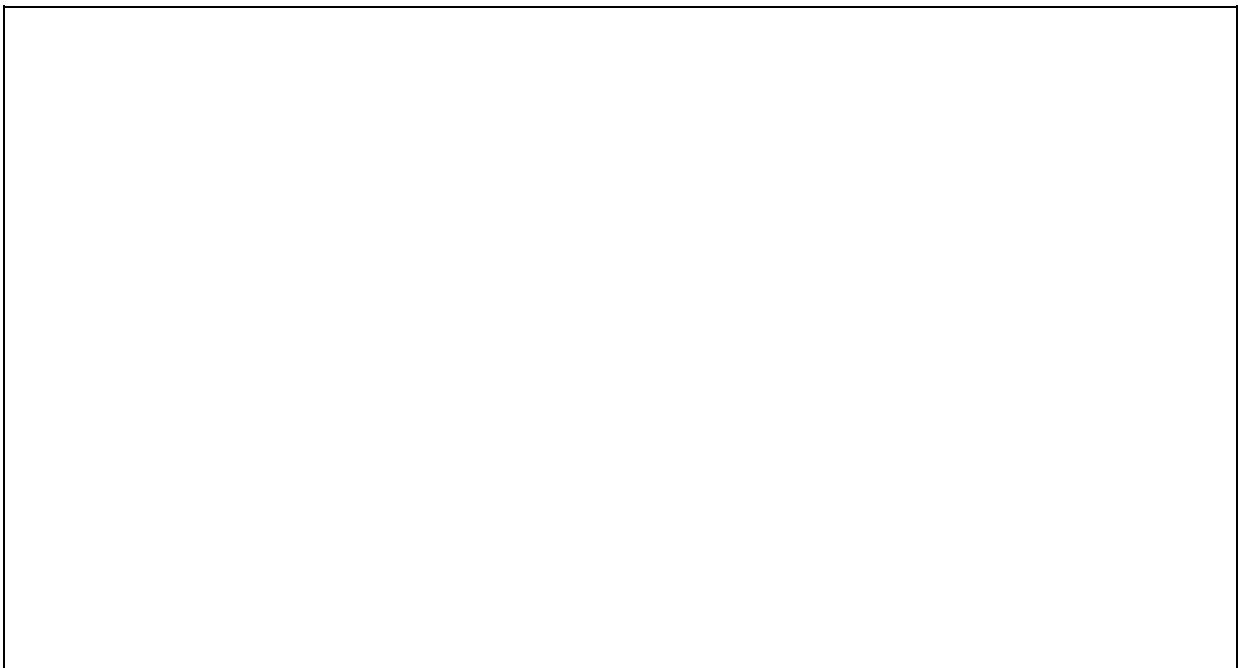

Name

Address

5. Please specify the subject on which you wish to communicate with other members of the society and the points you would wish to make in your communication. Please also enclose a draft of your proposed communication.

6. If there is any other information or documents, in addition to your draft communication, you would wish to form part of your application, please specify.

DECLARATION

7. I declare that I am qualified under the rules of the society named above to make this application.

8. I understand that this application form, and any information or documents enclosed with it, may be sent to the society, which may make representations about it to the FSA.

9. I have read and understand the statutory restrictions which will restrict me from disclosing any information I take from the register if I am given access to it.

10. I enclose payment of £25 in respect of this application. I understand that this fee is not refundable.

Signed

Date

CHAPTER 2	
Merger procedures	
2.1	Introduction
	Purpose of the chapter
2.1.1	<p>G This chapter ultimately derives from the Merger Procedures Guidance Note issued by the Commission in May 1999. It gives guidance on the requirements of the 1986 Act, as amended by and under the Act, under which certain functions of the Commission were transferred to the Authority. This chapter is not intended to be exhaustive and is not a substitute for looking at the 1986 Act and the Mergers Regulations 1987 (SI 1987/2005) as amended by the Mergers (Amendment) Regulations 1995 (SI 1995/1874), the Merger Notification Statement Regulations 1999 (SI 1999/1215), where applicable, and a society's own Rules. Nor is it a substitute for the society seeking its own legal advice. It gives a description of the relevant provisions of the 1986 Act, of the information which must be made available to the Authority and to societies' members, together with an outline of the procedures to be followed at general meetings, and the voting majorities required to pass the Merger Resolutions which the members are to be asked to approve. This chapter describes the role of the Authority in approving the statements to members under Schedule 16 to the 1986 Act, in its prudential supervision of mergers, and in confirmation hearings. It also gives a broad indication of the way in which the Authority may be expected to exercise its discretionary powers. Except as described in section 6, to which section 7 of this chapter also applies, this chapter is concerned only with voluntary mergers under Sections 93 and 94 of the 1986 Act.</p>
2.1.2	<p>G It is for the boards of societies to assess the case for a merger, and they must explain and recommend their decision to their members. However the Authority's staff are available to give advice on the procedures to be followed and the information required to ensure that the members can reach fully informed decisions. Societies are strongly recommended to consult the Authority early on in the formative stages of merger discussions. Such consultation will, of course, be treated in the strictest confidence. It will also be helpful to have regard to the indicative timetable set out in paragraph <i>BSOG 2.8.3</i>.</p>
2.1.3	<p>G Societies should consult their own legal advisers about the application of the provisions of the 1986 Act, and the general law, to the particular features of a proposed merger.</p>
2.1.4	<p>G This chapter considers each stage of the merger procedure in chronological order. The remainder of this section gives a synopsis of the relevant requirements of the 1986 Act, which are then discussed in more detail in subsequent sections:</p>
	<p>(1) Section 2.2 - Preliminary Matters, considers the rationale for a merger and its terms and the handling of public announcements, and</p>

			gives guidance on certain prudential issues.
		(2)	Section 2.3 - Information Provided to Members, discusses the form and content of the statutory Schedule 16 Statement and the accompanying rationale and statements by the board of the society, and describes the form of application to be made to the Authority for approval of the Statement.
		(3)	Section 2.4 - General Meetings and Resolutions, discusses the resolutions and majorities required to pass them, the notice of meeting, the register of members and members' entitlement to vote, the arrangements for general meetings and the scrutineers' report. It also describes the Authority's discretionary powers.
		(4)	Section 2.5 - Confirmation, describes the form of application to the Authority for confirmation of a merger, and the procedures which the Authority expects to follow in considering and hearing written and oral representations and in reaching its decision.
		(5)	Section 2.6 - Transfer of Engagements under Direction, describes the modified procedure to be followed when a society has been directed by the Authority to transfer its engagements to another society and/or to proceed by board resolution.
		(6)	Section 2.7 - Registration and Dissolution, briefly discusses the process of registration of amalgamations or transfers of engagements and dissolution of the amalgamated or transferor societies.
		(7)	Section 2.8 - Timetable, reviews the expected timetable, including statutory notice periods, which may be expected to apply to a merger from start to finish.
Statutory requirements			
2.1.5	G	The statutory provisions concerning mergers are in Sections 93 to 96 of, and Schedule 16 to, the 1986 Act, where three types of transaction are provided for:	
		(1)	Amalgamation, where two or more societies unite to form a new "successor" society;
		(2)	Transfer of engagements, where a society (the transferor) transfers its membership and the whole of its undertaking to another (the transferee), which then continues as before; and
		(3)	Partial transfer of engagements, where a society transfers only a part of its membership and business to another society (for example, some outlying branches).
		The procedures for all three are much the same, and the differences are explained in the relevant sections of this chapter. The Authority's practice as described in this chapter is derived exclusively from previous experience	

		of transfers of engagements because, so far, there have been no amalgamations nor partial transfers under the 1986 Act. However, it is not expected that the Authority's handling of amalgamation procedures would be significantly different from what is described here.
2.1.6	G	The purposes of the provisions of the 1986 Act are to ensure that the members are given all the material information they need about the terms of the merger which they are asked to approve and a proper opportunity to cast their votes. Subsequently, they are to be given the opportunity to make representations about that process before the merger is confirmed.
2.1.7	G	The 1986 Act makes no provision for a merger to be initiated by any other means than a proposal by a board put to the society's members. It requires that each member who is entitled to receive notice of the general meeting at which the Merger Resolutions are to be moved must also receive a copy of the Schedule 16 Statement. A merger must be approved by a shareholding members' resolution and a borrowing members' resolution. There is an additional voting requirement for the approval of a partial transfer of engagements.
2.1.8	G	If the terms of a merger include provision for the payment of compensation to directors or other officers for loss of office or of income, then the proposed payments must be approved by a separate special resolution. A further special resolution may also be required if there is to be a distribution to members which exceeds the limits described in paragraph <i>BSOG 2.4.4</i> .
2.1.9	G	Sections 93 to 96 of the 1986 Act specify certain procedures for the consideration of representations by interested parties concerning confirmation, and the criteria which the Authority must consider before deciding whether or not to confirm a merger. The Authority may not consider matters concerning the merits of merger proposals or the fairness of the terms which the members have approved by passing the Merger Resolutions.
2.1.10	G	The statutory requirements of the 1986 Act are explained and discussed in more detail in subsequent sections of this chapter. In addition, societies and their advisers must have regard to the legislation mentioned below.
Enterprise Act 2000		
2.1.11	G	Societies should inform the Office of Fair Trading of a proposed amalgamation or transfer of engagements where the UK turnover associated with the enterprise which is being acquired exceeds £70 million or the enterprises which cease to be distinct supply or acquire goods or services of any description and, as a result of the merger, together supply or acquire at least 25 per cent of all those particular goods or services of that kind supplied in the UK or in a substantial part of it.
		The OFT has a function to obtain and review information relating to merger situations, and a duty to refer to the Competition Commission for further investigation any relevant merger situations where it believes that it is or may be the case that the merger may or may be expected to result in a

		<p>substantial lessening of competition.</p> <p>It is essential that any submission to the OFT is undertaken at the earliest possible opportunity since, should the OFT decide to refer a merger to the Competition Commission that would be a “material fact” to be disclosed in the Schedule 16 Statement, unless it is impracticable to put the matter to members until the Competition Commission has reported.</p>
Transfer of Undertakings (Protection of Employment) Regulations 2006 (SI 2006/246)		
2.1.12	G	<p>These Regulations have the effect that the employees of a transferor society automatically become the employees of the transferee society following the merger. They require, in particular, information to be given in certain cases to employees’ representatives, long enough before the merger takes place, to enable consultations to be held between the society and those representatives. Failure to inform or consult in this way is a ground for reference of the matter to an employment tribunal and there are other significant provisions. Societies are advised to consult "A Guide to the 2006 TUPE Regulations for Employees, Employers and Representatives" which explains the Regulations and which is available from the TUPE section of the Department of Trade and Industry Employment Matters webpage, under the heading "Trade Unions and collective rights" – see www.dti.gov.uk/employment/.</p>
Taxes Acts		
2.1.13	G	Societies should take advice on the timing and amount of tax liabilities.
Electronic Communications Order 2003		
2.1.14	G	<p>Societies should be aware that this Order modifies various relevant provisions of the 1986 Act. This enables the use of electronic communications between societies, their members and other persons on matters relating to a proposed merger, such as the Schedule 16 statement and the voting arrangements. The Order requires that societies must obtain consent before using electronic means of communication. The remaining text of this chapter has not been amended to take account of the Order. A society proposing to use electronic communications in relation to a merger will need to take its own legal advice as to how the procedures described in this chapter will have to be adapted. In that event the Authority will also adapt its own procedures appropriately.</p>

2.2	Preliminary matters	
	Rationale for a merger	
2.2.1	G	It is a matter for the board to decide whether to recommend a merger to its members. The overriding duty of the board is to reach a view having regard to what is in the best interests of the society, and its members as a whole, both present and future, borrowing members and shareholding members. The board may also reasonably consider the interests of customers who are not members, of the staff, suppliers of goods and services, and of the wider community.
2.2.2	G	A well planned and well matched merger can benefit both the shareholding and borrowing members and the staffs of both societies by producing a combined society with the financial strength and management expertise and experience needed to compete successfully in the market place. It must be recognised, however, that in many instances it will take time for economies of scale to be achieved and a careful assessment of projected costs is essential to a realistic view of whether such economies are likely to be achievable. On the other hand, a merger between two weak and over-extended societies may produce an even weaker one. It is better to negotiate a merger from a reasonably secure position than to be obliged to seek a merger when the society has become too weak to carry on as an independent entity.
2.2.3	G	This chapter cannot deal exhaustively with all the factors to be taken into account by a board when deciding whether to recommend a merger to its members. Moreover, there will be factors peculiar to particular cases. However, the following paragraphs draw attention to those matters which the Authority expects boards to consider in all cases.
2.2.4	G	Consideration of a merger can normally be expected to emerge from the board's regular consideration of the strategic options available to the society. That is not to say that merger as a transferor society should always figure as an option in every society's corporate plan. On the other hand, every board should be alive to business trends which point to, or which, if not altered, will point to, the need to consider options for merger. In short, a merger should be foreseen and planned. Alternatively, of course, a board which wishes its society to remain independent must have a clear strategic view of how that can be achieved in a variety of realistic planning scenarios. Whether or not a board is considering a merger, it should as a matter of prudence, know how it would respond to a proposal or counterproposal to merge or to transfer its business to a commercial company.
2.2.5	G	If a board foresees the possibility of a merger, then it should plan for that eventuality. Societies which see themselves as transferees will need to consider the desired characteristics of potential partners, including, for example, geographical presence, mortgage book quality, and product market share. Societies contemplating the transfer of their engagements will need to consider whether the interests of their members would best be served by a local or regional alliance or access to a national network of branches and

		services. The board may also reasonably consider the interests of customers who are not members, of the staff, suppliers of goods and services, and of the wider community. It is also reasonable, particularly for local and regional societies, to consider the implications for the local economy, where, for example, a regional or head office may eventually be closed to achieve economies of scale.
2.2.6	G	The range of issues which both boards have to consider will vary from case to case and is for the board to decide. At one end of the scale there will be the case where a small society merges with a large one and, at the other end, where two or more societies of broadly comparable size join to form one significantly larger. Whatever the proposal under consideration the board will necessarily have regard to this primary duty to reach a view on what is in the best interests of the society, and its members as a whole. It will also be conscious of the need to give an account of the board's rationale in recommending the merger to members, in particular if a statutory merger statement is included in the Merger Document (see paragraph <i>BSOG</i> 2.3.23).
Terms of a merger		
2.2.7	G	The terms negotiated between the parties in a merger will be set out in a formal agreement. In the case of a transfer of engagements, Section 94(6) of the 1986 Act requires the "extent of the transfer", and in practice the other agreed terms, to be recorded in an Instrument of Transfer. For an amalgamation, Section 93(2) of the 1986 Act requires the parties to agree on a Memorandum and Rules for the successor society, and each to approve the terms of the amalgamation by Merger Resolutions, so that there must be agreement on the terms. The Authority will expect the Instrument of Transfer or amalgamation agreement to be signed before the Authority approves the Schedule 16 statement, although it will be conditional on, among other things, approval by members and confirmation by the Authority. In both cases the boards of the societies will have approved the Instrument or agreement and the Schedule 16 statement and, in the case of an amalgamation, the Memorandum and Rules of the successor society. Before such approval by the boards, drafts of the proposed Memorandum and Rules should have been cleared with the registration team. The Rules of transferee societies should provide that members of transferor societies are not disenfranchised for any period after the merger is effected (see paragraph <i>BSOG</i> 2.3.16 and rule 4(9) of the BSA Model Rules 5th edition).
2.2.8	G	Although vesting of the "property, rights and liabilities" of the transferor society in the transferee society on completion of a transfer of engagements is a statutory process by virtue of Section 94(8) of the 1986 Act, the Instrument of Transfer performs an important function. Not only is it required by the 1986 Act, but it is required to identify the extent of the transfer (Section 94(6)), since a transfer can be of all or part of the engagements of the transferor society. Thus, on a transfer of all the engagements of a society, the Instrument of Transfer should include a specific statement that all are included. If the transfer is of part only, then the instrument should specify precisely what is being transferred. As

		explained, an amalgamation agreement is required in practice for all amalgamations, but again the actual process of transferring the assets of the societies to, and vesting them in, the new society is by operation of the 1986 Act. Section 93(4) of the 1986 Act, which does this, does not allow for exceptions to the vesting since the nature of an amalgamation is that all the assets of all the societies are vested in the successor society.
2.2.9	G	The Instrument of Transfer, or amalgamation agreement, will also allow matters of detail to be recorded. So it will contain, for example, provision for:
		(1) any changes to the terms and conditions of PIBS and share and deposit accounts, including the integration of the product lines of the transferor society(ies) into those of the transferee or successor society;
		(2) any changes to the terms and conditions of mortgage accounts and other loans;
		(3) any bonus to be paid to members;
		(4) the terms and conditions on which staff will be employed or made redundant;
		(5) pension scheme arrangements;
		(6) integration of operations;
		(7) the terms and conditions on which directors and other officers are to continue in office or cease to hold office, including the posts they will hold and any extra-contractual compensation to be paid for loss of office or reduction in emoluments;
		(8) the specified target date for completion of the merger, bearing in mind that the actual date is a product of the 1986 Act (Sections 93(3)(b) & (4) and 94(8)), and for action if that date is not achieved;
		(9) any conditions precedent, such as members' votes and the Authority's confirmation, and for the circumstances in which the Instrument or amalgamation agreement might be terminated.
Bonus Payments to Members		
2.2.10	G	Whether any bonus is to be paid to members and, if so, its amount and distribution, are matters to be agreed by the boards of the societies concerned and to be approved by their members, subject to the discretion described in paragraphs <i>BSOG</i> 4.41 and <i>BSOG</i> 4.42. However, the Authority will wish to be satisfied that the combined society will maintain a prudent level of capital resources after the bonus is paid. A bonus may, for example, be paid to the members of a transferor society with a higher capital ratio than the transferee society so as to equalise the reserves which both bring to the combined society. If it is thought desirable also to pay a bonus

		to the members of the transferee society, then the reserves of the combined society may be “equalised” at a level below the capital ratio of the transferee society, but only if it is prudent to do so. The statutory requirements for approval of bonus payments are described in paragraph <i>BSOG 2.4.4</i> .
2.2.11	G	A bonus is a distribution of the funds of either or both societies, and may be paid by a number of methods, or some combination of them, including, for example: a flat rate lump sum; a sum calculated as a percentage of balances; or an increase or (for mortgage accounts) a decrease in the interest rates paid or charged for a limited period. Maintenance of interest rate differentials existing before the date of completion of the merger between those offered by (say) the transferor society and the transferee society would not normally be characterised as a bonus. However, each society, and the Authority, will wish to be satisfied that any differential is consistent with its established pricing policy and is not the result of a change adopted, for example, when the society decided to seek a merger. Each case where interest rate differentials are to be maintained, for whatever period, will need to be considered to determine whether or not it constitutes a bonus, and societies may wish to take professional advice on the matter.
Compensation to Directors and Other Officers		
2.2.12	G	<p>Any compensation proposed to be paid to directors or other officers must be disclosed in the Schedule 16 Statement and approved by a separate special resolution of the members (see paragraphs <i>BSOG 2.3.11</i> and <i>BSOG 2.4.3</i>). “Compensation” is not defined in the 1986 Act, except to the extent that section 96(8) says that it includes benefits in kind. In the Authority’s opinion, compensation does not include statutory redundancy payments, damages for breach of contract or other payments, for example, falling due under the terms of a pre-existing contract of employment, or a pre-existing arrangement giving rise to a reasonable expectation. However, it does include any proposed ex-gratia payments in money or money’s worth. Societies should consider very carefully the extent to which any proposed payment may exceed the amount provided for by statute or contract. In view of the requirement in Section 96(3) of the 1986 Act that unauthorised payments must be repaid by the recipient, societies are advised to take legal advice on any payments which are not specifically authorised by the terms of a resolution passed by the members in accordance with Section 96(1) of the 1986 Act. All proposed payments requiring approval by such special resolution should be disclosed in the Schedule 16 Statement under the power in paragraph 1(4)(f) of that Schedule. In addition, the Schedule 16 Statement should disclose any other payments to directors or other officers arising directly from the merger. So that members are aware of the direct interest of the directors or other officers in a merger, societies should consider whether the amount, as distinct from the fact, of statutory or contractual payments should be disclosed where these arise directly from the merger.</p> <p>More generally, societies need to consider whether any facts relevant to any director or other officer, or to any person(s) connected with them, should be disclosed where these are material to the interests of the members who are</p>

		to be asked to vote on the proposed merger. In determining the amount of compensation which might be justified, the board must strike a balance between fairness to the individuals who will suffer a loss of income and the interests of the members, bearing in mind that the compensation will be at a cost either to any bonus to the members or to the reserves to be transferred to the combined society.
Public announcement		
2.2.13	G	Boards of both societies may wish to announce a merger proposal as soon as agreement in principle has been reached between them and, in particular, to inform their members and staff of the proposed terms. However, boards will often wish to delay an announcement for as long as possible, perhaps for prudential or commercial reasons, or because they first wish to settle all the details of the proposed terms. Societies with listed PIBS will need to have regard to the Authority's requirement concerning early disclosure of information affecting the price of securities. Subject to this, there is no objection to delay, in principle, and there may be good reasons for it. Unfortunately, experience shows that every day's delay after agreement in principle has been reached carries an increasing risk of premature leak. Indeed, the very reasons for delay may make the merger a subject for intense speculation and increase the risks of a leak. In these circumstances then, boards must have contingency plans to make an early announcement to deal with any potentially damaging rumours and to avoid members being misled or left in a state of uncertainty.
2.2.14	G	The announcement, particularly information provided directly to members and staff, should make it clear that the merger proposal is subject to approval by the members and completion of the statutory procedures. Boards should be careful to avoid giving even the impression that the outcome is a foregone conclusion, and should indicate any matters of substance on which the proposed terms of the merger remain to be settled. Briefing of staff who will be responsible for responding to enquiries from members and the press should be considered carefully and prepared in advance of the announcement to avoid any risk of members being unintentionally misled.
2.2.15	G	The Authority is not required to approve the content or wording of announcements or preliminary information sent to members. However, it will be happy to comment on drafts shown to it at an early stage, and may be able to help societies to avoid unintentionally misleading statements.
Prudential issues		
2.2.16	G	Before a firm proposal is agreed, the participating societies should consult with the Authority's staff to discover whether there is any prudential objection to the proposal. The Authority will need to be satisfied that the combined society will be managed prudently from the date of completion of the merger and comply with the Principles for Businesses and with all the relevant rules made by the Authority. The Authority will also wish to know that post-merger arrangements and agreements provide for the proper integration or rationalisation of the operations of the combined society, and

		of its connected undertakings, joint ventures or arrangements with third parties (for example, for the provision of unsecured loans, insurance and investment services) and that any commercial conflicts of interest have been resolved.
2.2.17	G	In all cases, prudential information should be provided, but the amount of information will depend upon the circumstances of each case. For example, if a merger involves societies of much the same total asset size, or where the merger will result in a significant increase in the transferee society's assets, or involves a change of strategy, new kinds of business or carrying on business in a new geographical area, the Authority will expect substantial prudential information and societies should also expect this to form the basis of more detailed discussions with the Authority's staff. On the other hand, in a merger where a small society is transferring its engagements to a very much larger one, the prudential information to be provided is likely to be that much less. In all cases the Authority will ask for the prudential information at an early stage so that there is adequate time for discussion before it is asked formally to approve the Schedule 16 Statement.
2.2.18	G	Boards should note, however, that while the Authority will expect the kinds of information described here, it is for the boards themselves to exercise due diligence and to be satisfied that the merger and its terms are prudent and in the interests of their members.
2.2.19	G	As is noted, the Authority's need for prudential information can be expected generally to relate to prudential issues, but societies may find it helpful to note the following paragraphs which describe some of the particular issues which the Authority will expect to be addressed.
Direction and management		
2.2.20	G	Current and future board composition and succession plans for, say, the three years immediately following the merger.
2.2.21	G	Current and future senior management and structure, indicating spans of responsibility (which may most easily be presented in chart form) and any areas where there may be a need for additional expertise or experience to be acquired by the combined society with plans and timescale for acquiring such expertise.
Accounting and control systems		
2.2.22	G	Generally, outline plans and timetables for the integration of accounting, control and inspection systems, including the linking or harmonisation of computer systems. This may usefully be divided between initial or short term arrangements and foreseen longer term developments. More particularly, the information should include arrangements to ensure continuity and the integration of:
		(1) accounting records;
		(2) systems of internal control, including management information

			systems and IT systems; and
		(3)	systems of inspection (internal audit)
		For all significant mergers the Authority will wish to receive, prior to the effective date of the merger, a letter from the transferee society's external auditors stating whether, in their opinion, the accounting records and systems of control and of inspection established for the merged society will be effective from the effective date.	
Business plan			
2.2.23	G	The rationale for the merger will need to be explained and justified in full, including existing and potential future business and marketing opportunities, the benefits of geographical concentration or diversification of business, economies of scale (particularly administrative), and future funding and lending strategies. Proposals for rationalisation or integration of administrative offices and branches will need to be set out in full, including the implications of the proposed merger for the terms and conditions of staff employment and their future job prospects with the combined society.	
Financial prospects			
2.2.24	G	Information on the financial prospects for the combined society will need to include:	
		(1)	estimates, broken down to an appropriate level of detail, of short term additional costs and long term savings (if any) anticipated from the merger; and
		(2)	revenue account, balance sheet and solvency ratio projections for the first three to five years of operation.
		This information must be supported by statements of the assumptions on which it has been based. In addition, the effect of changes on those assumptions should be illustrated, from a best case to a worst case scenario.	
Connected undertakings and agencies			
2.2.25	G	The integration and future operation, management and control of connected undertakings, together with arrangements with other parties for the continuing provision of services under agency agreements, should be described in full.	

2.3	Information Provided To Members	
	Statutory requirements	
2.3.1	G	Part I of Schedule 16 to the 1986 Act requires a building society which desires to merge with another society to send to every member entitled to notice of a meeting of the society a statement concerning the matters specified in the Schedule. The statement is to be included in or with the notice of the meeting at which the Merger Resolutions are to be moved. No statement shall be sent unless its contents, so far as they concern the specified matters, have been approved by the Authority. Where the transferee society has obtained the consent of the Authority to proceed by board resolution then it is exempt from this requirement (see paragraphs <i>BSOG 2.4.41</i> and <i>BSOG 2.4.42</i>).
2.3.2	G	Meeting arrangements and resolutions are discussed in section 4.
The Schedule 16 Statement		
2.3.3	G	The Schedule 16 Statement must set out the present financial positions of each of the merging societies, the terms of the merger agreed between them and summarise the main provisions of the Instrument of Transfer. It must also include any other matter which the Authority may require. In the case of an amalgamation, the Statement must additionally include the proposed Memorandum and Rules of the successor society which are to be approved by the special resolution required to approve the merger (Section 93(2) of the 1986 Act), as well as the terms of the amalgamation agreement between the societies.
2.3.4	G	The Schedule 16 Statement does not have to be a discrete document. In fact it will usually be convenient to include it in a comprehensive Merger Document also containing the board's rationale for recommending the merger, the notice of the meeting at which the Merger Resolutions are to be moved, an explanation of the merger procedure (including details of the confirmation stage - see section 5) and a description of the requirements of the society's Rules concerning entitlement to vote. However, the Schedule 16 Statement within the Merger Document should be clearly identified as such (either by printing it on a different colour of paper or by some other means). An example of a pro forma Merger Document is given in Annex 1.
2.3.5	G	The required contents of the Schedule 16 Statement are discussed in detail in the following paragraphs.
The financial position		
2.3.6	G	Paragraph 1(4)(a) of Schedule 16 to the 1986 Act requires the Statement to contain information concerning the financial position of each of the societies participating in the merger. The members should be given sufficient information to enable them to gain an accurate understanding of the key financial features of their businesses. The information will include

		a balance sheet, recent results and certain financial ratios; for this purpose it is necessarily rather more detailed than is required for the annual Summary Financial Statement. In addition, further information will be required concerning accounting policies and other matters, as set out in paragraph <i>BSOG 2.3.10</i> .
2.3.7	G	The information should comprise consolidated accounts of each society and its connected undertakings prepared at a common balance sheet date which should be no more than 6 months before the date on which the Statement is approved by the Authority, or the date on which the Statement is to be sent to the members if that is expected to be significantly later. Information regarding results should relate to the relevant period ending on the chosen balance sheet date. The figures may be derived from audited or unaudited accounts. In either case, the source must be stated. If unaudited figures are used, the Authority will require a “letter of comfort” from the relevant society’s external auditors confirming that, in their opinion:
		(1) the figures have been correctly abstracted from the society’s records;
		(2) the financial information is not misleading in the context in which it appears; and
		(3) in reviewing the data relating to the Statement, nothing has come to their attention which would cast doubt on the directors’ statement (see paragraph <i>BSOG 2.3.8</i>) that there has been no material change affecting the information given.
2.3.8	G	Since the financial information will necessarily relate to a period ending somewhat before the date of approval of the Schedule 16 Statement, the board is required to state whether or not there have been any material changes to the financial position in the interim. If the effect of a change cannot be quantified, it must be described so that the members at least know that it has been identified and is relevant to their consideration of the proposed merger. Failure to disclose such changes will be relevant to the Authority’s subsequent consideration of the society’s application for confirmation of the merger (see paragraphs <i>BSOG 2.5.4</i> , <i>BSOG 2.5.12</i> and <i>BSOG 2.5.13</i>).
2.3.9	G	Differences in accounting policies could result in some loss of comparability between the financial information given for each society. Some adjustments to the figures may, therefore, be necessary to give the members a proper understanding of the societies’ relative financial positions. Any adjustments made should be explained by way of a note. If there are no significant differences in accounting policies, then that should be stated for the avoidance of doubt.
2.3.10	G	Notes to the financial position should also provide information on the following matters:
		(1) the book amounts and market values of listed securities held as liquid assets;

		(2)	the book amounts and current market values of land and buildings; with an indication of the basis on which current market value has been determined;
		(3)	any significant differences in policy or practice with regard to the depreciation and estimated asset lives of tangible fixed assets;
		(4)	pension arrangements of each society including, for funded schemes, details of latest actuarial valuations;
		(5)	summary information on the business of connected undertakings;
		(6)	an estimate of the costs and benefits of the proposed merger.
Interests of Directors and Other Officers			
2.3.11	G	Subparagraphs 1(4)(b) and (c) of Schedule 16 to the 1986 Act require the Statement to disclose any interests of the directors in the merger and any compensation to be paid to them or other officers. This information must be comprehensive and clear. It should include the following:	
		(1)	the interests of the directors in the merger, including appointment of existing directors to the main board or local board of the combined society, or to any other position with that society, together with any significant resultant change in present or expected future levels of fees or other emoluments and benefits in kind;
		(2)	any compensation payable to directors or other officers for loss of office or reduction in emoluments, and the basis on which it is calculated; if a global sum is proposed to be given to a group of persons, the intended manner of apportionment should be stated (see paragraph <i>BSOG 2.2.12</i>);
		(3)	any payments to be made to directors or other officers arising from the merger, whether provided for in contracts of employment or under covenant or some arrangement giving rise to a reasonable expectation;
		(4)	any proposed benefits to directors or other officers by way of fees for professional services, stating the nature of the services to be provided and the anticipated annual fee income; and
		(5)	any other benefits to directors or other officers, or to any persons connected with them, arising from, or as a consequence of, the merger.
2.3.12	G	If the directors or other officers have no material interest, either by way of change in remuneration, as widely defined above, or by payment of compensation for loss of office or in any other form, for example, a pension, this should be stated explicitly, for the avoidance of doubt.	

	Bonus Payments to Members	
2.3.13	G	Paragraph 1(4)(d) of Schedule 16 to the 1986 Act requires the Statement to specify the bonus, if any, to be paid to members in consideration of the merger. The Authority's views on what may, or may not, be regarded as bonus are given in paragraph <i>BSOG</i> 2.2.11, and the statutory requirements for approval of bonus payments are described in paragraph <i>BSOG</i> 2.4.4.
2.3.14	G	The method of calculation of a bonus should be explained in the Schedule 16 Statement; for example, x% of the lower of the share account balances held at the end of the last financial year and those balances held on the effective date of merger (giving precise dates and times for calculating the balances), and the estimated maximum total amount payable to members. The effect on the reserves of the combined society should be shown by stating the estimated gross and net costs of the bonus and the resulting reduction in the reserve/asset ratio (see also <i>BSOG</i> Annex 1, items A.3 and B.6). The ratio of gross capital to shares and borrowing of the combined society, after allowing for the net cost of the bonus to be paid to members, should be estimated to be x%, and on the same basis of calculation, but not accounting for the bonus payment, the ratio should be estimated to be y%.
	Other Matters	
2.3.15	G	As is noted in paragraph <i>BSOG</i> 2.2.9, the Instrument of Transfer (or amalgamation agreement) will normally make provision for a number of matters in addition to those concerning the interests of directors and other officers and any bonus to be paid to the members. Such matters must be explained in the Schedule 16 Statement, together with any other matters of which the Authority may require particulars to be given (see paragraph 1(4)(f) of Schedule 16 to the 1986 Act). They are discussed in the following paragraphs.
2.3.16	G	Post-merger membership rights should be secured by the adoption of BSA Model Rule 4(9) (Fifth Edition, November 1997) or a similar Rule to the same effect. The purpose of the Rule is to ensure that members of a transferor society are not disenfranchised. It provides that they are deemed to have been members of the transferee society from the date when they became members of the transferor society. Societies' Rules, in conformity with the 1986 Act, must provide, inter alia, that a member is entitled to vote on a resolution of the society if he was a member at the end of the last financial year before the voting date and on the voting date. If, for example, a transferee society has a financial year ending on 31 December, its AGM in the following April and the effective date for a merger is in March, then the deemed membership Rule will enfranchise those who were members of the transferor society on or before 31 December. The existence, or absence, of this Rule must be recorded in the Schedule 16 Statement in any case where it is likely to have any significant effect on members' rights.
2.3.17	G	Proposed changes to the terms and conditions of share and deposit accounts must be fully and clearly explained in the Schedule 16 Statement. In a transfer of engagements, shares and deposits held with the transferor society

		will become held with the transferee society. Such accounts will either be transferred into the nearest equivalent account of the transferee society, become new products of the transferee society, or continue on existing terms but be closed to new investors. It is most helpful to tabulate the proposed integration of accounts in a schedule listing the accounts of the transferor society opposite the accounts of the transferee society to which they are to be transferred, together with the interest rates payable, or proposed to be paid, on each account. A similar presentation will be required to show the proposed integration of accounts in an amalgamation. In preparing this the provisions of Section 8 of the 1986 Act should be borne in mind.
2.3.18	G	Proposed changes to the terms and conditions of mortgage accounts must be explained (see paragraph 1(4)(e) of Schedule 16 to the 1986 Act). Alternatively, if no changes are proposed to be made, the Schedule 16 Statement must include an assurance to that effect, for the avoidance of doubt.
2.3.19	G	Terms and conditions of employment of staff, including any special bonus or other benefits in connection with the merger, as provided by the Instrument of Transfer (or amalgamation agreement), must be set out. In addition, the Authority will require the Schedule 16 Statement to include an explanation of the Board's intentions with regard to the closure or integration of head office departments and branches, any reductions in the number of staff employed and redundancies, insofar as these matters are not provided for in the Instrument of Transfer (or amalgamation agreement).
2.3.20	G	Future pension arrangements for staff, directors and other officers, as provided by the Instrument of Transfer (or amalgamation agreement), are to be set out.
2.3.21	G	Finally, the conditional and termination clauses of the Instrument of Transfer (or amalgamation agreement) should be summarised.
		Board Rationale and Statements
2.3.22	G	A board putting a merger proposal to its members has, in addition to its statutory duty to provide a Schedule 16 Statement, a fiduciary duty to provide its members with essential factual information and a fair assessment of the issues so that they can take informed decisions on whether to approve the board's proposals. The Authority, therefore, expects that the Merger Document (see paragraph <i>BSOG</i> 2.3.4) will include an explanation by or on behalf of the board of the reasons for the merger and the choice of merger partner. This rationale should give a fair assessment of the advantages and disadvantages of the merger and should be entirely consistent with the facts set out in the Schedule 16 Statement. In addition to explaining the rationale and its consequences for the members, it should explain the effect on the staff's terms and conditions of employment and expectations for future employment prospects. The planned timescale for integration of the businesses should also be explained.

2.3.23	G	<p>The 1986 Act requires that members must be notified of written non-confidential proposals to their society either to merge with another society or to be taken over by a commercial company. Part II of Schedule 16 to the 1986 Act imposes a duty to send a merger statement to members, advising them of a proposal to merge, and Part IA of Schedule 17 to the 1986 Act imposes a like duty to send a transfer proposal notification, advising them of a proposed takeover. If a proposal of either kind has been received, then notification of the prescribed particulars must be sent to every member entitled to notice of a meeting, either separately or together with every notice of the society's annual general meeting, and (where such notification has not already been given) must be included with every notice of the special meeting at which Merger Resolutions are to be moved.</p>
2.3.24	G	<p>Where notification of takeover or other merger proposals accompanies the notice of a meeting to consider Merger Resolutions, then</p>
		<p>(1) any merger statement must give notice of the fact that a written merger proposal has been received unless notice has already been given to members, or it was received 42 or less days before the meeting, with details of the identity of the proposer, with or without particulars regarding the proposal. If the proposer requests in writing that the proposal be treated as confidential, disclosure is not required. The merger which the members are being asked to vote upon need not be the subject of a merger statement.</p>
		<p>(2) any transfer proposal notification must give notice of the fact that a written proposal has been received with details of the identity of the proposer, with or without particulars regarding the proposal. If the proposer requests in writing that the proposal be treated as confidential, disclosure is not required.</p>
		<p>An invitation to discuss a possible proposal probably would not constitute a proposal within either Schedule. Provision of merger or transfer proposal statements is a statutory requirement. Provided they accompany the notice of meeting, they may be included in a Schedule 16 Statement, or alternatively may more conveniently be included as one or more discrete paragraphs within the board's rationale explaining its choice of merger partner.</p>
2.3.25	G	<p>The rationale itself is not a statutory requirement, and is not subject to approval by the Authority. However, the Authority will take account of the information it provides when considering whether to confirm the merger (see section <i>BSOG 2.5</i>, particularly paragraphs <i>BSOG 2.5.9</i> and <i>BSOG 2.5.12</i>). Societies will, therefore, find it helpful to consult the Authority's staff about the drafting and content of the rationale.</p>
2.3.26	G	<p>The whole Merger Document should be covered by a responsibility statement by the directors of each society. This may be given along the following lines:</p> <p>“The directors of Building Society and the directors of Building Society accept responsibility for the information relating to their respective</p>

		societies which is contained in this document. To the best of the knowledge and belief of the directors (who have taken all reasonable care to ensure that such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information”.
2.3.27	G	The Authority will require the Schedule 16 Statement to include a statement as to whether or not the merger will conflict with any contractual obligations, including agency agreements, of either society or their connected undertakings.
Application and the Authority’s Approval		
2.3.28	G	A society’s formal application to the Authority for approval of a Schedule 16 Statement is likely to be the culmination of many weeks of discussion with the Authority’s staff who will have reviewed and commented upon a draft or successive drafts of the Statement, having had regard also to drafts of the Instrument of Transfer (or amalgamation agreement) and the prudential information described in section 2.2 Societies should also have cleared any proposed Rule changes or, in the case of an amalgamation, the proposed Memorandum and Rules of the successor society, with the registration team. The probable sequence of events is described more fully in section 2.8. The case where the Authority has consented to a transferee society proceeding by board resolution, and thereby exempting it from the requirement to put Merger Resolutions, and sending a Schedule 16 Statement, to its members, is described in paragraphs <i>BSOG 2.4.41</i> and <i>BSOG 2.4.42</i> .
2.3.29	G	Schedule 16 Statements must be prepared to the same standards as apply to financial statements and directors’ reports. An application to the Authority for approval of a Schedule 16 Statement must be made in writing and should include a declaration made on behalf of the board, that the Statement is complete and includes all material information of which, in the opinion of the directors, the members should be aware. That declaration should say whether or not there have been any other merger or takeover proposals (confidential or otherwise see paragraph <i>BSOG 2.3.23</i>) and confirm that the information about them is correct. The application should be accompanied by the following documents:
		(1) an authenticated copy of the executed amalgamation agreement or Instrument of Transfer, as the case may be;
		(2) two authenticated copies of the final draft of the Merger Document (or documents) in printer’s proof form, including the Schedule 16 Statement, the board rationale, the notice of the general meeting and Merger Resolutions (including, in the case of an amalgamation, the proposed Memorandum and Rules of the successor society), any merger or transfer proposal statements as mentioned in paragraphs <i>BSOG 2.3.23</i> and <i>BSOG 2.3.24</i> , and the directors’ responsibility statements;

		(3)	any other documents, such as a covering letter for the Merger Document(s) and proxy voting forms;
		(4)	an assurance from the chairman of each society that the Schedule 16 Statement is complete, accompanied by a compliance schedule listing the requirements of the 1986 Act and of this chapter for a Schedule 16 Statement and indicating where in the statement of that society that requirement has been met and confirmation that all the interests of the directors and officers are included in it;
		(5)	an assurance by, or on behalf, of the board that the society's systems for verification of membership records are capable of providing the information required to fulfil the relevant requirements of the 1986 Act and the Rules (see paragraph <i>BSOG 2.4.15</i>);
		(6)	a letter of comfort from the society's external auditors as specified in paragraph <i>BSOG 2.3.7</i> ;
		(7)	the appropriate fee as specified in the current Fees Rules;
		(8)	confirmation that the final draft as submitted for approval does not differ from that previously seen by the Authority or, where it does, indicating each change that has been made.
2.3.30	G	The Authority's approval of the Schedule 16 Statement will be confirmed by returning to the society one authenticated copy of the Statement with the Authority's certificate of approval signed by an authorised signatory for the Authority. There is no statutory requirement for copies of Schedule 16 Statements to be placed on the public files of societies but, because the documents are in the public domain, it is the Authority's practice to pass copies to the registration team for filing. Were a public announcement about the merger not to be made until after the Authority had approved the Schedule 16 Statement, the Authority would not pass a copy of the Statement to the registration team until after the announcement. The supporting documents listed above will not be passed to the registration team.	
2.4	General Meetings and Resolutions		
2.4.1	G	This section describes the requirements of the 1986 Act concerning members' entitlement to vote, the register of members and the sending of notices of meetings. It also discusses general meeting arrangements, the resolutions and majorities required and the counting of votes. Finally, it gives guidance on the discretion which the Authority may exercise in these matters. The directors of each society must satisfy themselves that they observe the general law on meetings, the relevant provisions of the 1986 Act and their own Rules.	
Resolutions and Voting Majorities			
2.4.2	G	The 1986 Act provides that a merger must be approved by the requisite	

		Merger Resolutions (Sections 93(2)(c) and 94(2) and (5)(a)) as follows:
	(1)	a shareholding members' resolution (see definition in paragraph 27A of Schedule 2 to the 1986 Act) passed on a poll by a majority of at least 75% of shareholders qualified to vote and voting; and
	(2)	a borrowing members' resolution passed on a poll by a simple majority of borrowing members qualified to vote and voting (see definition in paragraph 29(1) of Schedule 2 to the 1986 Act);
		provided that, in each case, notice has been duly given that the resolution is to be moved as a shareholding members' resolution or a borrowing members' resolution, as the case may be. A member may vote either in person at the meeting or by appointing a proxy (paragraphs 27A(b) and 29(1) of Schedule 2 to the 1986 Act do not provide that the voting on these may be conducted by postal ballot).
		[Note: In the case of a partial transfer of engagements, in addition to the approval of the members as a whole by passage of the shareholding members' resolution and borrowing members' resolution described above, the society must obtain the approval of an "affected shareholders' resolution", which must be passed by the majority of the affected shareholders eligible to vote; that is, those shareholders in respect of whose shares it is proposed that the engagements should be transferred (Section 94(3) and (4)) of the 1986 Act. But note that the resolution must be passed by a majority of the affected members eligible to vote, not just a simple majority of those who actually do vote.]
2.4.3	G	Section 96(1) of the 1986 Act provides that, where a society wishes to pay compensation to directors or other officers for loss of office or diminution of emoluments, such compensation must be approved by a special resolution of the society's members (see also paragraph <i>BSOG</i> 2.2.12), separate from the Merger Resolutions. The special resolution must be passed by a majority of at least 75% of those qualified to vote and voting. The Treasury has not made regulations under Section 96(2) of the 1986 Act to set limits below which compensation may be paid without the authority of a special resolution. Therefore, in every case where compensation is proposed, the members must vote on the proposal as a separate issue from whether they approve the merger itself. "Other officers" include, in addition to the Chief Executive and Secretary, any persons who exercise managerial functions under the immediate authority of a director or the Chief Executive of a society (Section 119 of the 1986 Act defines "manager" and "officer").
2.4.4	G	The members' approval of bonus payments is required as part of the Merger Resolutions (see Section 96(4) to (6) of the 1986 Act) and see paragraph <i>BSOG</i> 2.2.11 for the Authority's view of what may constitute a bonus). If the total gross cost of the proposed bonus(es) (i.e. without any adjustment for prospective corporation tax recovery) is within the prescribed limit, then approval for it need only be included in each of the Merger Resolutions of the society whose funds are to be distributed. If it exceeds that limit then it must be included in each of the Merger Resolutions of each participating

		society. The prescribed limit was changed by the Building Societies (Mergers) (Amendment) Regulations SI 1995/1874 amending SI 1987/2005 and now is:
	(1)	in either a full transfer of engagements or an amalgamation, 5% of the total assets, as stated in the Schedule 16 Statement, of the society to whose members the bonus is to be paid;
	(2)	in a partial transfer of engagements, 5% of the share liabilities, as given in the Schedule 16 Statement, to be transferred;
	(3)	or a sum equal to the society's reserves after deducting its fixed assets (apportioned pro rata in respect of 4.4(2)), whichever is the less. The Regulations should be consulted for the full detail of the calculations.
Entitlement to Vote		
2.4.5	G	Paragraph 5 of Schedule 2 to the 1986 Act provides that no person may be a member of a building society unless he or she is a shareholding member or a borrowing member. A shareholding member is a person who holds a share in the society (that is, an investment in a share account or PIBS). A borrowing member is a person who is indebted to the society in respect of a loan fully secured on land. However, the Rules may provide that borrowing membership is conferred by a loan substantially secured on land, or shall cease if the loan is foreclosed or the land is taken into possession by the society. A minor (that is a person under 18 years of age) may be a member, but may not vote on any resolution.
2.4.6	G	The mandatory provisions of Schedule 2 to the 1986 Act concerning a member's entitlement to vote on a resolution, which must be reflected in societies' Rules, are that the member must be a member on the voting date, must have been a member at the end of the last financial year before the voting date (paragraph 23(1) of Schedule 2) and must have attained the age of 18 years (paragraphs 5(3) and 34(2) of Schedule 2) on or before the date of the meeting. So far as borrowing members are concerned, the member is not entitled to vote in that capacity if his indebtedness to the society at any relevant date is less than £100 (paragraphs 29(2) and 36 of Schedule 2).
2.4.7	G	However, Schedule 2 specifies the following further provisions, some, none or all of which may be included in a society's Rules with respect to the entitlement of shareholding members to vote on any resolution; a person must (see Schedule 2 paragraphs 23(3) to (5) and 36):
	(1)	have a qualifying shareholding (which must not be set higher than £100), in one or more share accounts or PIBS, on the "qualifying shareholding date";
	(2)	hold shares on the voting date; and
	(3)	have held shares continuously between those two dates.

2.4.8	G	<p>The “qualifying shareholding date” is either the last day of the financial year preceding the voting date or, if the voting date falls during that part of a financial year which follows the conclusion of the society’s Annual General Meeting commenced in that year, the first day of the period beginning 56 days before the date of the meeting. Therefore, if a society’s Rules, following the BSA Model Rules (Fifth Edition), include the provisions concerning shareholding and continuity of membership described in paragraph <i>BSOG</i> 2.4.7, and if the voting date is later than the AGM in that year, a person to be entitled to vote on a shareholding members’ resolution must:</p>	
		(1)	have been a shareholding member on the last day of the previous financial year;
		(2)	have held shares to the value of at least £100 on the day 56 days before the date of the meeting;
		(3)	have held shares continuously from the 56th day through to the voting date; and
		(4)	hold shares on the voting date.
		<p>But note that there is no requirement for continuity of shareholding between 2.4.8(1) and (2). (In contrast, in the case of an ordinary or special resolution, membership at 2.4.8(1) may be satisfied by either borrowing or shareholding membership provided the shareholding member satisfies the other conditions of 2.4.8(2) to (4) in order to vote in his or her capacity as a shareholder.) Note also that a person cannot meet a requirement for “holding shares” on a given date, or during a given period, by relying on his holding of a share account with an overdrawn balance; and a person cannot meet a requirement for being a “member” on a given date (for example, at 2.4.8(a)) by relying on his holding of such a share account.</p>	
2.4.9	G	<p>The mandatory provisions of Schedule 2 to the 1986 Act concerning entitlement to vote on a borrowing members’ resolution are, as noted above, that the member must have been, and be, indebted to the society for at least £100 (whether on one or more accounts) at the end of the last financial year before the voting date, and on the voting date, in respect of an advance fully secured (or, if the Rules permit, substantially secured) on land (paragraphs 5(2), 23(1), 29(2) and 36 of Schedule 2) and have attained the age of 18 years by the date of the meeting (paragraphs 5(3) and 34(2) of Schedule 2). But note that there is no dispensation in the 1986 Act for the Rules to reduce the qualifying amount below £100, nor to provide for a continuity of membership qualification.</p>	
2.4.10	G	<p>Schedule 2 makes provision in respect of joint shareholders (paragraph 7) and joint borrowers (paragraph 8). The only person entitled to exercise the right to vote on behalf of the joint shareholders or joint borrowers is the one who is named first in the records of the society, described respectively as the “representative joint (share)holder” or the “representative joint borrower”.</p>	

2.4.11	G	<p>A member may vote once only on any resolution, irrespective of the number of accounts he or she may hold. The amount of the balance(s) held on an account(s) is not material, except to qualify to vote (see paragraphs <i>BSOG</i> 2.4.7 and <i>BSOG</i> 2.4.8). Thus, a member with several share accounts and/or several mortgage accounts, whether as sole and/or representative joint shareholder or representative joint borrower, may vote once only on any resolution. When the membership votes as a whole on an ordinary or a special resolution, each member may vote only once, whether he or she is a shareholding or a borrowing member or both. Where shareholding members and borrowing members vote separately, as on the Merger Resolutions, members entitled to vote may vote only once, if a shareholding member, on the shareholding members' resolution and once, if a borrowing member, on the borrowing members' resolution. A person entitled to vote both as a shareholding member and as a borrowing member may, of course, vote once on each resolution.</p>
2.4.12	G	<p>The "voting date" is defined by paragraph 23(6) of Schedule 2 as, for this purpose, either:</p>
		<p>(1) for members who appoint a proxy, the last date specified by the society for the receipt of proxy voting forms, which may not be more than 7 days before the date of the meeting (paragraph 24(6) of Schedule 2). A proxy vote remains valid if the member ceases to be a member after the proxy voting date but before the date of the meeting (paragraph 24(2) of Schedule 2); or</p>
		<p>(2) for all other members, the date of the meeting.</p>
2.4.13	G	<p>The guidance given in the foregoing paragraphs of this section is intended to give a general description of the provisions of the 1986 Act and of the Rules suggested by the BSA Model Rules. Societies should satisfy themselves that they observe the specific provisions of the 1986 Act and of their own Rules.</p>
Register of Members		
2.4.14	G	<p>Every society is required to maintain a register of the names and addresses of its members and whether each member is a shareholding member or a borrowing member or both (paragraph 13 of Schedule 2 to the 1986 Act). The register should, so far as possible, be "de-duplicated"; that is, multiple account holders should be identified and their names recorded once only in the register. A society's systems must also be capable of recognising those members who are eligible to vote by, for example, aggregating share account balances of multiple account holders to check that they have the requisite qualifying shareholding, by checking members' continuity of shareholding (if and where applicable), and by identifying minors including (separately) those who will shortly attain their majority (see paragraphs <i>BSOG</i> 2.4.6 and <i>BSOG</i> 2.4.9). Other situations requiring careful consideration are, for example, in relation to powers of attorney, personal representatives, and death of the representative joint holder or borrower. This information is required to ensure that the notice of the meeting is sent</p>

		to all the members entitled to receive it and so that the scrutineers have adequate systems to validate the votes cast on the Merger Resolutions (see also paragraph <i>BSOG</i> 2.4.20).
2.4.15	G	It will be necessary for the directors of a society contemplating a merger to satisfy themselves, in consultation with their external auditors, that the society's systems are capable of delivering the information described above. The Authority will require an assurance on this point when the society applies for approval of the Schedule 16 Statement (see paragraph <i>BSOG</i> 2.3.29(5)). One of the criteria which the Authority has to consider at the confirmation stage is whether some relevant requirement of the 1986 Act or the Rules was not fulfilled (see paragraphs <i>BSOG</i> 2.5.15 to <i>BSOG</i> 2.5.19).
2.4.16	G	The problem of avoiding duplication in the register of members is significant for most societies of any size. It has been aggravated by the proliferation of types of account over the last decade or so. Societies generally now seek to establish, when new accounts are opened, whether or not the applicant is an existing member and, if so, which accounts are relevant to voting and other membership rights. The task of identifying multiple account holders is complicated by confidentiality requirements. For example, if two accounts are held by a Mr A Smith and a Dr A Smith, both at the same address, the society cannot know (in the absence of other information such as date of birth) whether the two accounts belong to the same person, one opened before and one after he qualified, or by the doctor and his son. A letter of enquiry to one asking about both accounts would risk breaching customer confidentiality. If it is the same person, there is a risk that he will be given the opportunity to vote twice or, if neither account holds more than £100 but they aggregate above that qualifying amount, be denied a vote to which he is entitled.
2.4.17	G	Where a society identifies a number of accounts which appear to be held by a single member, but it cannot be sure, then it must send separate meeting notices in respect of each account. However, its systems should identify the possible multiple holding so that, if more than one vote is received in respect of that group of accounts, the scrutineers are alerted to the possibility, and can check the proxy forms for evidence of invalid duplicate votes. The voter's declaration suggested by the BSA, in conformity with paragraph 34 of Schedule 2 to the 1986 Act, provides some protection against votes being cast by minors, and attempts the same for duplicate votes (see Enclosure 2 to BSA Circular 5177). It is, however, the duty of each society to make sure that its register of members is reliable.
General Meeting Arrangements		
2.4.18	G	Paragraphs <i>BSOG</i> 2.4.19 to <i>BSOG</i> 2.4.34 consider the requirements for sending notices of meetings and Schedule 16 Statements to members, and the conduct of meetings at which Merger Resolutions are to be moved. It is for societies to satisfy themselves that they comply with the relevant requirements of the 1986 Act, their Rules and the general law on meetings.
Notice of Meeting		

2.4.19	G	<p>The statutory requirements concerning notices are in paragraph 22 of Schedule 2 to the 1986 Act. Notice of the meeting must be given to each shareholding and borrowing member of the society who would be eligible to vote at the meeting if the meeting were held on the date of the notice (a single date for all notices irrespective of when they are despatched). In addition, notice must also be given to any person who will attain the age of 18 years after the date of the notice but on or before the date of the meeting, and to every person who becomes a shareholding or borrowing member of the society after the date of the notice but before the final date for receipt of proxy voting forms, and who would, in either case, be eligible to vote at the meeting if he remained a member until then. (In practice, this may mean sending out a notice to every such person, even if they will, in fact, not be entitled to vote). The Schedule 16 Statement must be sent in or with the notices (paragraph 1(2) of Schedule 16 to the 1986 Act). Accidental omission to give notice of a meeting to any person entitled to receive it does not invalidate the proceedings at the meeting. However, “accidental omission” does not include a systemic failure to send notices (e.g. omitting to send notices to new members, or omission of a group or class of members from the mailing list arising from a fault in a computer programme), nor all cases of error by management - see also paragraph <i>BSOG</i> 2.4.39.</p>
2.4.20	G	<p>The 1986 Act also provides, in paragraph 21 of Schedule 2, for the length of notice to be given to members. The period of notice given must be not less than 21 days or such longer period as the society’s Rules prescribe. The precise procedures for sending notices, the way in which the days are to be counted, and presumed receipt of notices duly sent, will normally be set out in the Rules. Particular points to note are:</p>
		<p>(1) the 21 days’ notice expires with the closing date for the receipt of proxy voting forms, not the date of the meeting;</p>
		<p>(2) if reliance is to be placed on a provision in the Rules that notices can be deemed to be served 24 hours after posting, then first class post or equivalent means of delivery should be used, but it is advisable to allow a margin of at least an extra day or two, or more if second class post is used;</p>
		<p>(3) if a society contracts with a commercial mailing firm, it must ensure that the firm is comprehensively instructed about the society’s despatch and delivery requirements, and the society should carry out spot checks to satisfy itself that its instructions are being properly carried out. A failure by the contractor may invalidate the meeting, even if the society itself has used its best endeavours to police the operation.</p>
2.4.21	G	<p>The Schedule 16 Statement is required, by paragraph 1(2) of that Schedule, to be sent “in or with” the notice of the meeting to every member entitled to that notice. As is suggested in paragraph <i>BSOG</i> 2.3.4, it may be expedient to include both in a comprehensive Merger Document.</p>
2.4.22	G	<p>Notices and Statements need not be sent to any member in whose case the</p>

		society has reason to believe that communications sent to him at his registered address are unlikely to be received by him (paragraph 14 of Schedule 2 to the 1986 Act). However, a society is required instead to place notices of the meeting prominently in every branch office, or to place advertisements in newspapers circulating in the areas in which the society's members live. Such notices or advertisements must be placed at least 21 days before the date of the meeting, and must state where members can obtain copies of the Schedule 16 Statement, the Merger Resolutions and proxy voting forms (Schedule 2, paragraph 35(4)).
2.4.23	G	It should be noted, however, that a member's "registered address" may not be the address shown in the society's register of members but a different address to which the member has requested that communications from the society be sent (Schedule 2, paragraph 13(4)).
Conduct of the Meeting		
2.4.24	G	The meeting should be held at a time and place considered by the board to be most convenient for the generality of the society's members. This may well not be the same as the traditional time and place for the annual general meeting. In deciding on this, the board should take account of the geographical location of their members. For example, for a society with a majority of its members living in a compact geographical region there must be a strong presumption in favour of an evening meeting. Consideration should be given to the possibility of a larger attendance than usual at a meeting to consider a merger.
2.4.25	G	Subject to the society's Rules, its chairman will normally chair the meeting. His function as chairman of the meeting is to ensure that all views are presented and properly discussed. He is unlikely to be able to fulfil that role if he acts also as chief advocate of a merger which is controversial among members. In such cases it might be appropriate to give to another director the initial task of explaining the merger and of responding to questions from members.
2.4.26	G	Merger Resolutions or the other resolutions mentioned in paragraphs <i>BSOG</i> 2.4.1 to <i>BSOG</i> 2.4.3, cannot be amended at the meeting except in a way which does not change their substance at all. This is because an amendment to such a resolution has to be subject to the same procedure and period of notice to members as the resolution itself. If a board decides, after due notice of such a resolution has been sent to the members, that the resolution should be amended, then it will be necessary to submit the amended resolution, with due notice, to a general meeting at a later date, unless of course there is still time to fulfil the notice requirements.
Conduct of the Voting		
2.4.27	G	The conduct of the voting must not only be fair but also be seen to be fair, otherwise the result may be called into question. So it is highly desirable that the votes are counted by independent scrutineers. The board may ask the scrutineers, in advance of the meeting, for a running tally of the number of votes being cast if it thinks it might properly encourage more members to

		<p>vote if the response is low. However, to ask the scrutineers how the votes are being cast, before the time comes at the meeting to instruct proxies, carries the risk of accusations, however unfounded they may be, and possible challenge at the confirmation stage, that the board suppressed proxy votes against the resolutions, or unduly influenced members to vote in favour. A board which asks the scrutineers for a running tally of votes, and which circulates its members with further exhortations to vote, must be prepared to argue its case in the face of such accusations at the confirmation hearing. Any circular to members sent after the Merger Document must, therefore, be very carefully considered.</p>
2.4.28	G	<p>Experience has demonstrated the need for societies to take the greatest care to ensure that they comply strictly with the statutory procedural requirements and their own Rules on meetings and resolutions. The chairman of the meeting should ensure that he or she is well briefed and aware of the Rules and the general law relating to procedural resolutions, such as resolutions to adjourn the meeting. The Authority will require a confirmatory report from the scrutineers on the validity of the voting procedures when the society applies for confirmation (see paragraph <i>BSOG</i> 2.4.38).</p>
2.4.29	G	<p>The procedures for the conduct of proxy voting will normally be provided for in the society's Rules, in conformity with paragraphs 24 and 34 of Schedule 2 to the 1986 Act which requires that every proxy form sent by a society to its members must enable the member to direct the proxy how to vote (Schedule 2 paragraph 24(4A)). To minimise the risk of the society's proxy voting procedures being misunderstood, the Authority recommends that the proxy form should include:</p>
		<p>(1) adequate space to insert the name of a proxy other than the chairman of the meeting, and a statement (which must also appear in the notice of the meeting) that the proxy appointed need not be a member of the society (a reminder that the voting member's own name should not be inserted might avoid a common problem);</p>
		<p>(2) provision to instruct the proxy to vote either in favour of the resolution, or against it;</p>
		<p>(3) an explicit statement that if the member does not instruct the proxy to vote for or against the resolution, then the proxy will cast the vote, or abstain, as he or she thinks fit;</p>
		<p>(4) the declaration in accordance with paragraph 34 of Schedule 2;</p>
		<p>(5) full recital of the text of the shareholding members' resolution or borrowing members' resolution or, if this is not practicable (e.g. because of space restrictions), a clear indication that the full text may be found in the notice of the meeting;</p>
		<p>(6) instructions as to the return of the completed proxy forms, including the last date for receipt by the society or by the scrutineers. A pre-addressed and pre-paid envelope or other sealed means of return</p>

		should be provided.
2.4.30	G	The 1986 Act does not require societies to send proxy voting forms to members with notices of meetings (except where directors are to be elected). However, the Authority believes that, on a matter as important as a merger, societies would be well advised to send a proxy voting form to members with the notice of meeting. This will avoid any suggestion that members were discouraged from voting, that obstacles were put in their way, or that the society wished (for whatever reason) to be able to identify those who had requested proxy voting forms. If a society decides, nevertheless, not to send proxy forms to members entitled to vote, then it should make clear to the members that proxy voting forms can be obtained on demand from its branches and/or by application to a central point.
2.4.31	G	The arrangements for the collection of the proxy forms should be such as to secure confidentiality and to avoid the risk of loss, whether accidental or deliberate. The procedures may provide for return of proxy forms to the scrutineers either directly (if permitted by the society's Rules) or to the society's offices. Where proxy forms are returned to the society's offices, the Authority recommends that the procedures should incorporate the following features:
		(1) the proxy form should be enveloped or otherwise sealed so that the members' voting instructions are concealed;
		(2) the envelope provided should be clearly marked so that the society can readily identify and separate it from other mail without the envelope being opened;
		(3) staff responsible for receiving and sorting mail should be given specific instructions about the handling of proxy forms and the overriding importance of security;
		(4) secure storage of proxy forms should be provided up to the point at which they are handed over to the scrutineers;
		(5) equivalent handling and security procedures should be applied to proxy forms handed in at branches.
2.4.32	G	The Authority suggests that proxy voting forms for shareholders and borrowers should be easily distinguishable, perhaps by colour coding, both as an aid to members who may be entitled to vote in each capacity, and as an aid to the scrutineers counting the votes.
2.4.33	G	Members may, after submitting a proxy vote, choose to attend the meeting and vote in person. There must, therefore, be satisfactory systems in place at the meeting to identify and cancel any proxy votes they may have returned.
Ballots		
2.4.34	G	Paragraph 33 and 33A of Schedule 2 to the 1986 Act specifically exclude

		shareholding members' resolutions and borrowing members' resolutions from its permission for the Rules to provide for voting by postal or electronic ballot. This is reinforced in the definition of these resolutions in paragraphs 27A and 29 of Schedule 2. Although other resolutions associated with the merger process might be capable of being approved by ballot, in practice voting on all resolutions related to the merger will be by members voting in person or by proxy at a general meeting.
Scrutineers' Report		
2.4.35	G	The scrutineers are responsible for checking the validity of votes cast in person and by proxy. Given the need to ensure that the vote represents the views of the members, the scrutineers should be independent of the society and should not have a direct interest in the result of the voting. It will usually be appropriate to appoint the society's auditors, and it is desirable that they should be appointed not just for the arithmetical count of votes but also to supervise the voting process as a whole so that they are in a position to confirm, after the vote, that all the requirements of the 1986 Act and the society's Rules have been complied with. This would include:
		(1) determining and validating member mailing lists for notices of meetings and Schedule 16 Statements;
		(2) despatch procedures;
		(3) timing of notices and despatch of documents;
		(4) form and content of proxy voting forms;
		(5) receipt and custody of completed proxy voting forms;
		(6) validation of completed proxy voting forms to establish that members are qualified to vote and that forms are properly completed;
		(7) identification and validation of members attending and voting at the general meeting;
		(8) voting procedures at the meeting including casting of proxy votes, count of votes cast in person and aggregation of proxy and personal votes.
2.4.36	G	To fulfil the duties outlined above, it is suggested that the scrutineers would need to:
		(1) examine the systems and procedures to be employed by the society, before they are implemented, to ensure that they are satisfactory;
		(2) carry out such checks and tests as they consider necessary during the operation of the procedures as will enable them to be satisfied that the specified procedures are being carried out in practice;

		(3)	provide that where validation functions are carried out by the society's staff this is done under the direction and supervision of the scrutineers;
		(4)	direct and supervise the count of the votes cast both by proxy and personally at the meeting.
2.4.37	G	Validation checks during the counting of votes may be expected to include the following:	
		(1)	only proxy forms which comply with the 1986 Act and the society's Rules have been used;
		(2)	the member is eligible to vote under the 1986 Act and under the society's Rules (a proxy vote may still be valid even though the member ceases to be a member after the closing date for receipt of proxies - see paragraph <i>BSOG</i> 2.4.12 (2));
		(3)	only one proxy form per member eligible to vote is included in the count (separate forms may be sent to and returned by a person eligible to vote on both a shareholding members' resolution and a borrowing members' resolution);
		(4)	minors are excluded or that there is an explicit confirmation by each member voting by proxy that he is aged 18 or over;
		(5)	the proxy form is completed and signed and is otherwise valid (where a proxy voting form lacks a signature but is otherwise valid, it is usual, if time permits, for the scrutineers to return the form to the member for signature and return in a pre-paid envelope).
2.4.38	G	The scrutineers' initial report will be made to the society at the meeting (which may be adjourned for this purpose). The Authority will require, in support of a society's application for confirmation under Sections 93(2)(d), 94(7)(a) and 95(3), a report from the scrutineers on the result of the vote (distinguishing between votes cast in person and by proxy), the total number of members eligible to vote (and the proportion of that number that the votes cast represent), and also confirmation that, in the opinion of the scrutineers the arrangements for the conduct of voting were such as to ensure that:	
		(1)	notices of the meeting and Schedule 16 Statements were sent to all those entitled to receive them, in accordance with the 1986 Act and the Rules of the society having regard, among other things, to the matters referred to in this chapter;
		(2)	the periods of notice given complied with the requirements of the 1986 Act and of the society's Rules, taking into consideration established conventions for the counting of days;
		(3)	there were satisfactory procedures to ensure confidentiality of proxy

		voting forms and to minimise the risk of loss or unauthorised access;
	(4)	there were satisfactory procedures to ensure that the count of votes cast personally at the meeting included only votes cast by members eligible to vote and who had not mandated, or had withdrawn, a proxy vote.
2.4.39	G	In relation to the notice of the meeting, the scrutineers' report may properly have regard to the provision of paragraph 22(3) of Schedule 2 to the 1986 Act that "accidental omission to give notice of a meeting to, or non-receipt of notice of a meeting by, any person entitled to receive notice of the meeting shall not invalidate the proceedings at that meeting". It should be noted, however, that there is authority to the effect that "accidental" and "non-receipt" would not cover all cases of "error" on the part of the society, for example an erroneous decision of management not to send notices to particular persons or groups of persons.
2.4.40	G	The Authority would find it helpful if the scrutineers' report would also comment upon any procedural difficulties encountered and give an analysis of the reasons why votes were found to be invalid, if the numbers of invalid votes appear to be significant (see also paragraph <i>BSOG</i> 2.5.14).
The Authority's Discretion		
2.4.41	G	The Authority has power under Section 94(5)(b) of the 1986 Act to exempt the transferee society in a transfer of engagements from the duty to call a meeting and put a Schedule 16 Statement and Merger Resolutions to its members, but to proceed instead by board resolution (see paragraph 1(1) of Schedule 16 to the 1986 Act). Before it exercises this discretion the Authority will wish to review the prudential information described in section 2.2 and, in particular, will wish to be satisfied that the merger will not affect the interests of the members of the transferee society to any significant extent. In assessing this last point, the Authority will consider, in particular, the reduction, if any, in the capital ratios of the merged society immediately following the merger and any plans to eliminate, or mitigate, this reduction; and any plans to remove products and services, close branches or change interest rates as a result of the merger. The Authority will also wish to know whether the merger will mean a change of policy by the society, for example by a significant move into a new geographical area or into a new business activity. Unless it is persuaded otherwise in the circumstances of any particular case, the Authority will not normally grant this exemption unless the total assets of the transferee society are substantially larger than the total assets of the transferor society, and a total asset ratio of 5:1 will be used by the Authority as a broad first measure of relative significance. The general presumption will be that a society, being a mutual institution, should consult its members over an issue as important as a merger unless there are compelling arguments to the contrary.
2.4.42	G	However, if the transferor society proposes to pay bonuses in excess of the prescribed limit (see paragraph <i>BSOG</i> 2.4.4) then, notwithstanding that the Authority has granted an exemption, the transferee society must seek the approval of its members of a resolution on the terms of the merger (Section

		96(4)(b) of the 1986 Act). Similarly, if the transferee society has to change its Rules to avoid disenfranchising members of the transferor society (see paragraph <i>BSOG</i> 2.3.16) it must do so by special resolution. It would be wrong to invite the members to approve a Rule change which was a consequence of a merger without inviting them to approve the merger itself.
2.5	Confirmation	
2.5.1	G	No merger can take effect until it has been confirmed by the Authority. This section describes the form of application and public notice required and explains the Authority's view of how the statutory Confirmation Criteria should be interpreted. Finally, it gives guidance on the procedure customarily followed by the Authority when considering confirmation applications and hearing representations. Section 93(2)(d) of the 1986 Act, on amalgamations, and Section 94(7)(a), on transfers of engagements, together with paragraph 7 of Schedule 16, provide that when the necessary Merger Resolutions have been passed the societies concerned must apply to the Authority for confirmation of the merger in such manner as the Authority may direct. The societies are also required, by paragraph 8 of Schedule 16, to publish notices of their applications in one or more of the London, Edinburgh and Belfast Gazettes as the Authority directs, and if it so directs, in one or more newspapers. The choice of official Gazettes and national or local newspapers will, of course, have regard to the area in which the societies' members live.
2.5.2	G	The parties in an amalgamation should make a joint application for confirmation to the Authority, while the parties to a transfer of engagements should make separate applications for confirmation of the transfer. These applications should specify the date on which the merger is intended to take effect and should be accompanied by two authenticated copies of the Instrument of Transfer, or the amalgamation agreement, and of the Merger Document or separate Schedule 16 Statement. In addition, in the case of an amalgamation, three signed copies of the Memorandum and Rules of the successor to the amalgamating societies should be sent to the registration team. The scrutineers' report described in paragraphs <i>BSOG</i> 2.4.38 to <i>BSOG</i> 2.4.40, and a certified copy of the minutes of the general meeting at which the Merger Resolutions were moved, must be enclosed with each application.
2.5.3	G	A pro forma public notice of application, and pro forma letters of application are set out in Annex 2.
The Confirmation Criteria : Statutory Provisions		
2.5.4	G	Section 95(3) and (4) of the 1986 Act provides that the Authority must confirm an amalgamation or transfer of engagements unless it considers that any one or more of the following Three Criteria apply:
		(1) some information material to the members' decision about the merger was not made available to all the members eligible to vote; or

		(2)	the vote on any resolution approving the merger does not represent the views of the members eligible to vote; or
		(3)	some relevant requirement of the 1986 Act or of the Rules of any of the societies was not fulfilled.
			Section 95(5) then provides that the Authority shall not be precluded from confirming a merger by virtue only of the non-fulfilment of some relevant requirement of the 1986 Act or the Rules (the Third Criterion in 2.5.4(3)) if it appears to the Authority that the failure could not have been material to the members' decision about the merger, and the Authority gives a direction under that sub-section that the failure is to be disregarded.
2.5.5	G		Where the Authority would be precluded from confirming a merger by reason of any of the defects specified in the Three Criteria, Section 95(6) provides that it may direct a society to remedy the defects. A direction under that sub-section may require a society to call a further meeting; for example, to vote again in the light of a revised Schedule 16 Statement containing material information previously omitted, or after correction of defects in the systems for sending notices of meeting and Statements and validation of votes. If the Authority is then satisfied, having considered evidence furnished by the society, that the defects have been substantially remedied, it must confirm the merger. If not, then confirmation must be refused.
Scope of the Authority's powers			
2.5.6	G		The Authority's powers in connection with applications for confirmation of a merger are confined to considerations of whether, in the light of the facts, any of the Three Criteria apply. It is not for the Authority to consider, or make judgements about, the merits of a proposed merger or the fairness of its terms; these matters are first for the board of a society, and then for its members to decide. Once the members have approved the merger and its terms, the Authority has no powers to require a society to make any changes to those terms. The Authority's discretionary powers are similarly confined to the matters described in paragraphs <i>BSOG 2.5.4</i> and <i>BSOG 2.5.5</i> .
2.5.7	G		The Authority has no general power to determine disputes between a society and its members. Disputes concerning the services provided by societies in the ordinary course of their business are generally a matter, in the first instance, for a society's internal complaints procedure. They may also fall within the jurisdiction of the Financial Services Ombudsman. Disputes between a building society and a member of the society, in his capacity as a member, in respect of any rights or obligations arising from the Rules of the society or the provisions of the 1986 Act, fall within the jurisdiction of the High Court or, in Scotland, the Court of Session (Section 85 of and Schedule 14 to the 1986 Act). However, the Authority does have power, on the written application of an eligible member, to direct that the member has the right to obtain names and addresses from the society's register of members. Before it gives such a direction, the Authority is required to be satisfied that the member requires that right for the purpose of

		communicating with members of the society on a subject relating to its affairs, and must have regard to the interests of the members as a whole and to all the other circumstances (Schedule 2, paragraph 15). A fee is payable by the applicant. Chapter 1A on applications for access to the register of members explains who is eligible to apply.
Purpose of Confirmation		
2.5.8	G	The purpose of the confirmation process is to enable:
		(1) interested parties to make representations with regard to the Three Criteria;
		(2) the society to respond to those representations;
		(3) the Authority to make such enquiry as it considers necessary to reach informed conclusions on the Three Criteria.
2.5.9	G	The Authority, in reaching its view on each of the Three Criteria, has to assess not only the points made to it in representations, and the society's responses, but also to make such further enquiries as it considers necessary. In deciding how far it should pursue such enquiries, the Authority has to have regard to the role and effect of confirmation, and to the mischief which it is intended to prevent. The Authority considers that one role of confirmation is to provide a protection to members against the provision to them by the society of information which is inadequate, obscure or misleading, and against voting irregularities: in other words to ensure that the vote represents the informed decision of the members. The Authority would hope that this safeguard would work in the majority of cases by raising relevant issues early - by causing the board of a society to take care not to put confirmation at risk on this account - rather than by the Authority finding that it needed to withhold confirmation at the last stage. In considering the First Criterion, the Authority will have regard to the totality of the information provided to the members by the board of a society and not exclusively to the Schedule 16 Statement.
2.5.10	G	The task of the Authority is accordingly:
		(1) to reach a considered view on each of the Three Criteria;
		(2) if that view is that none applies, to confirm;
		(3) if either of the First Two Criteria apply to direct the appropriate remedial action, or to refuse confirmation;
		(4) if the Third Criterion applies, to consider whether it is appropriate to direct that any failure be disregarded: if not, to direct the appropriate remedial action or to refuse confirmation.
		In considering the Three Criteria, the Authority may well have to look again at the Schedule 16 Statement, or at issues which were considered in connection with approving that Statement. In doing so, it has a duty to

		consider information and arguments put to it by representers and by the society, which of their nature were not available earlier, as well as those arising from its own further consideration of the criteria. The Authority would clearly only change the view reached at the time of approval of the Schedule 16 Statement if there were good reasons to do so. But it is under a duty to examine the Statement and connected issues at the time of confirmation in the light of any new information and arguments which become available. Accordingly, the Authority cannot be bound at the confirmation stage to the view that was taken at the earlier stage as to whether further factual information should be included in the Schedule 16 Statement or as to the accuracy of its contents.
2.5.11	G	The task of considering each of the Three Criteria is still necessary even if there are no representations. Without such enquiry and consideration the confirmation process would not properly be carried out. The Authority's view of how the Three Criteria should be interpreted and applied is given in the following paragraphs.
The First Criterion		
2.5.12	G	This criterion requires the Authority to consider whether some material information was not made available to the members. The Authority's own view, in which it concurs with the view developed by the Commission in its confirmation decisions, can be summed up as follows:
		(1) the words "made available to all the members eligible to vote" mean that the criterion is mainly, if not exclusively, directed to the information provided by a society to the generality of its members;
		(2) the extent of "information not made available" can reasonably be assessed by considering how far the totality of information made available falls short of what might be expected to be put to its members by a financial institution of standing and repute seeking to put sufficient information and a fair and balanced assessment of it, and the board's conclusions, to the members to enable them to take an informed decision;
		(3) the words "material to the members' decision" require the Authority then to focus on whether it is within the bounds of reasonable possibility that the members' decision would have been different, had any deficiency in information been made good, i.e. whether it could have changed the decisions on voting of sufficient members to lead to a different conclusion. If it is within the bounds of reasonable possibility that the deficiency might have changed the outcome, it is not for the Authority to determine whether it would actually have done so - it should put the decision back to the members. This test requires the Authority to take account both of the size of the vote and of the size of the majority within it;
		(4) the relevance of a particular piece of information to an investor and to a borrower may well be different. Accordingly, it is necessary to consider materiality separately in relation to the shareholding

			members' resolution and the borrowing members' resolution.
2.5.13	G	The Authority's approach to determining whether this criterion is met will accordingly be:	
		(1)	to review the material put to members, in the light of the members' representations made and the society's responses, but also taking points of its own accord;
		(2)	to consider, on the basis of that review, what information relevant to the decision of shareholders, or of borrowers, or both, might reasonably have been expected to be put to members by the board of a society of repute considering its fiduciary duty, and the extent to which (if at all) the information actually put falls short of that;
		(3)	to consider separately in relation to the shareholding members' resolution and in relation to the borrowing members' resolution, whether any deficiency so identified was sufficient to amount to "information material to the members' decision".
The Second Criterion			
2.5.14	G	This criterion requires the Authority to consider whether the votes on the Merger Resolutions do not represent the views of the members. The main mischief to which it appears to be directed is a merger approved by a small and unrepresentative vote. However, a very low turnout, of itself, does not necessarily mean that the criterion applies. It has to be considered in the context of the other criteria, and of any other factors which may have affected the turnout: for example, whether all the members entitled to vote were fully and clearly informed of the terms of the merger proposal and its consequences; whether the members were afforded adequate facilities and opportunity to cast their votes; and the scrutineers' report on the conduct and counting of votes, including the number of, and reasons for, invalid proxy votes.	
The Third Criterion			
2.5.15	G	This criterion requires the Authority to consider whether the relevant requirements of the 1986 Act and the Rules have been fulfilled. The phrase "some relevant requirement of this Act or the rules of the society" appears explicitly three times in Section 95 of the 1986 Act:	
		(1)	sub-section (4)(c) in the specification of this criterion;
		(2)	sub-section (5) which gives the Authority power to disregard certain non-fulfilments;
		(3)	sub-section (10) which provides that a failure to meet such a relevant requirement shall not invalidate a transfer of engagements, although such failure by a society without a reasonable excuse is a criminal offence.

		The interpretation of the phrase is also directly relevant to sub-section (6) - the power of the Authority to give the society a direction to remedy defects specified in paragraphs (a) to (c) of sub-section (4).
2.5.16	G	<p>Sub-section (11) defines “relevant requirement”:</p> <p>“In this section “relevant requirement”, with reference to this Act or the rules of a society, means a requirement of section 93 or 94 or this section or of Schedule 16 to this Act or of any rules prescribing the procedure to be followed by the society in approving or effecting an amalgamation or transfer of engagements”.</p> <p>The Authority considers that this sub-section should be read naturally. The words “prescribing the procedure to be followed by the society in approving or effecting” a merger apply only to the Rules, in order to specify which of the Rules of the society are “relevant requirements”. They do not apply as a matter of normal construction of the sentence to the “applicable provisions of this Act”: nor is it necessary that they should do so, since those provisions are specified in the sub-section.</p>
2.5.17	G	<p>The Authority recognises that the interpretation of “relevant requirement of the Act”, which it considers stems from the natural construction of Section 95(11) of the 1986 Act and which is necessary to give effect to Parliament’s intentions for Section 95(6) and (10), does not quite fit Section 95(5). The test which the Authority has to apply in the case of sub-section (5) to a non-fulfilment of a relevant requirement of the 1986 Act is:</p> <p>“if it appears to the Authority that it could not have been material to the members’ decision about the amalgamation or transfer”.</p> <p>That test clearly is designed to relate to a failure to meet a procedural requirement or to some other failure which might have an effect on the voting.</p>
2.5.18	G	The wording of Section 95 of the 1986 Act is such that no construction of the phrase is entirely free from difficulty. The Authority’s view is that the wording, and the intentions of Parliament, are best met by following the natural construction of sub-section (11), as a result applying a wide interpretation in sub-sections (4), (6) and (10), but only considering that it is open to the Authority to make a direction under sub-section (5) in relation to non-fulfilment of a procedural requirement or other failure to which the test in that sub-section is apposite.
2.5.19	G	The Authority considers that the relevant requirements of the Rules are those which prescribe the procedure to be followed that is, in particular, the Rules concerning membership, special meetings, notice of meetings, procedure at meetings, entitlement of members to vote on resolutions, appointment of proxies and joint shareholders and borrowers.
Procedure		
2.5.20	G	The procedure to be followed in the confirmation process is prescribed by Part III, paragraphs 7 to 9, of Schedule 16 to the 1986 Act. Any interested

		party has the right to make written representations, and/or to give notice of intention to make oral representations to the Authority with respect to a society's application for confirmation. Written representations are to be copied to the participating societies, which are to be afforded the opportunity to comment on them in writing or orally at the hearing of their applications. (The Authority will in general be prepared to use electronic rather than paper-based communication if requested by the society or a prospective representer and some of the following procedures may have to be adapted accordingly.)
Representations		
2.5.21	G	Persons making representations should state why they claim to be interested parties, for example their category of membership of the society, and the ground or grounds for their representations by reference to the Three Criteria discussed above. Written representations, or notice of a person's intention to make oral representations, or both, must be in writing. They must reach the Authority at the address, and by the date, given in the Merger Document issued to members and subsequently published by notice in the official Gazettes and newspapers as required by the 1986 Act. Persons who make written representations and who subsequently decide also to make oral representations must, nevertheless, give notice of that intention in writing to the Authority by the same date. Representations received out of time will not be considered unless, exceptionally and at the sole discretion of the Authority, they appear to the Authority to raise matters of substance relevant to the Three Criteria which are not already under consideration.
2.5.22	G	Representations or notices to the Authority will fall into one of the following three categories:
		(1) written representations only;
		(2) written representations with notice of intention to make oral representations; or
		(3) notice of intention to make oral representations only.
2.5.23	G	The Authority will acknowledge the receipt of each representation or notice and will send a copy of annex 4 of this chapter, on merger confirmation procedures, to each representer. It will send copies of all written representations to the societies concerned and will afford them an opportunity to comment on them.
2.5.24	G	Copies of the society's comments on representations in category 2.5.22(2) will be sent to those who made the representations so that they may concentrate their oral representations on the points which they consider to remain at issue. Persons making written representations who wish to see the society's response must, therefore, give notice of intention to make oral representations. The Authority will consider the written representations in category 2.5.22(1) and the societies' responses to them in advance of the date set for hearing oral representations. The society may, exceptionally, apply to put to the Authority in confidence documents which the society

		considers to be commercially sensitive: the Authority will decide on the merits of each case whether, and on what terms, to accept them as being confidential. Persons in category 2.5.22(3) will be asked to inform the Authority, in advance of the hearing, of the subject and general grounds of the representations they intend to make and their responses will be copied to the society.
2.5.25	G	Interested parties may join together in making collective representations and they may also appoint a person, either one of their number or another, to represent them at the hearing. They should notify the Authority in advance if this is what they intend to do.
Conduct of the hearing		
2.5.26	G	The Authority may appoint one or more persons to hear and decide applications on its behalf. In the absence of notices of intention to make oral representations the Authority would expect to decide the applications having regard to the written representations, the societies' responses and other information available to it, without the need for an oral hearing.
2.5.27	G	The Authority will notify the societies and those making oral representations of the time and place of the hearing. If there are a significant number of persons wishing to make oral representations, then the hearing may extend beyond one day and may be adjourned from time to time and from place to place. The Authority will try to advise participants of the day when they may expect to make their representations and when the societies' representatives may be expected to respond.
2.5.28	G	The Authority expects that hearings will be in public. Members of the general public and the press will be asked to wait outside at the outset of the hearing. The participants will then be asked if any of them has good reason to object to the admission of the general public and the press (such as, for example, the need to refer to personal financial affairs). The Authority may decide that parts of the hearing shall be in private if that appears to it to be desirable. If there are no reasonable objections, the general public and the press will then be admitted, within the limits of the space available.
2.5.29	G	The procedure will be informal. While all participants will be invited to speak concisely and to avoid repetition the Authority will be considerate towards those who are not professionally represented. The individual or panel taking the hearing on behalf of the Authority may question the participants as the hearing proceeds. The sequence of events will be broadly as follows:
		(1) any preliminary matters (such as the admission of the public or other procedural questions) will be dealt with;
		(2) the person(s) appointed to hear the applications will introduce the proceedings;
		(3) the representatives of the societies will be invited to present their applications for confirmation, including a description of the events at

			the meetings at which the Merger Resolutions were put to the members, the statement of the voting on the resolutions, as well as any other matters which they wish to introduce at that stage;
		(4)	the other participants will be invited to make their representations; where appropriate the Authority would expect to call them in a list marshalled, so far as possible, by subject matter;
		(5)	the representatives of the societies (or of the relevant society) will be invited to reply to, or comment on, the points made by the other participants; and
		(6)	the other participants will be invited to comment on the societies' replies in so far as those replies raise new issues.
2.5.30	G	The above procedure may be varied according to the circumstances at the hearing, and is intended only as a guide to the probable order of events. The hearing may be adjourned if the Authority considers that is necessary to enable facts to be checked or additional information to be obtained.	
The Authority's decision			
2.5.31	G	The Authority will not normally give an oral decision at the end of the hearing and may be expected to reserve its decision to be issued later in writing, setting out its reasons. Copies of the written decision will be sent to the participants and, on request, to any other person. The decision may also be published, and the Authority usually asks the registration team to place copies on the public files of the participating societies.	

2.6	Transfer Of Engagements Under Direction	
2.6.1	G	<p>This section describes the Authority’s powers to direct a society to transfer all its engagements to one or more other societies and/or to proceed by board resolution, and the modified merger procedure consequently prescribed by the 1986 Act. Section 42B of the 1986 Act provides that, if the Authority considers it expedient to do so to protect the investments of shareholders or depositors, it may direct a society, among other things, to transfer all its engagements to one or more other societies within a specified period (subsection (1)(a)). In such a case, or where the Authority would have directed a transfer of engagements, but for the fact that negotiations were already under way, the Authority may also direct that the approval of the transfer of engagements by the transferor society may be by board resolution rather than by Merger Resolution. In these circumstances, because neither a Schedule 16 Statement nor Merger Resolutions are required, the 1986 Act requires the society instead to send to every member entitled to notice of a meeting a Merger Notification Statement before it applies for confirmation of the transfer of engagements, (paragraphs 3 and 4 of Schedule 8A to the 1986 Act). Finally, in these circumstances, the First and Second Criteria concerning information made available to, and the views of, the members (see section 2.5) are replaced by a single criterion: “the members or a proportion of them would be unreasonably prejudiced by the transfer;” (paragraph 5 of Schedule 8A to the 1986 Act).</p>
2.6.2	G	<p>Where a society is proceeding under a Section 42B(3) direction by board resolution, the Schedule 16 Statement is replaced by a Merger Notification Statement and a general meeting of the society is not required. The contents of the Merger Notification Statement are prescribed by The Building Societies (Merger Notification Statement) Regulations 1999 (SI 1999/1215).</p>
2.6.3	G	<p>The Merger Notification Statement must have been approved by the Authority before it is sent to the members, and must be sent within the specified time limit. Applications for approval should, in general, follow the procedure described in paragraph <i>BSOG 2.3.28</i>, and the final draft of the Merger Notification Statement should be accompanied by the relevant documents listed in paragraph <i>BSOG 2.3.29</i>, but as appropriate to the particular case and the less extensive information the statement is required to contain. The statement must include particulars of any compensation payable to directors or other officers of the transferor society to which the Authority has given its consent under paragraph 2(1) of Schedule 8A to the 1986 Act.</p>
2.6.4	G	<p>Section 2.4 (General Meetings and Resolutions) does not apply, except that the directors will need to be satisfied that the society’s register of members is correct to enable the society to send Merger Notification Statements to those entitled to receive them.</p>
2.6.5	G	<p>When the board has resolved to transfer the society’s engagements and Merger Notification Statements have been sent to its members, the society</p>

		<p>may apply to the Authority for confirmation of the transfer of engagements, but using an adaptation agreed with the Authority of the pro forma in Annex 2A. The procedure described in section 2.5 is to be followed, including the publication of notices in the official Gazettes and newspapers and the form of application. However, the lapse of time between each stage of the procedure may be modified according to the particular circumstances of a case, and having regard to the need to protect the investments of shareholders or depositors. While a scrutineer's report will not be required, the Authority will require a report from the society's external auditors on the adequacy of the society's systems to fulfil the requirements of the 1986 Act and the Rules with regard to the sending of Merger Notification Statements. This is, of course, relevant to the Authority's consideration of the Third Criterion.</p>
2.6.6	G	<p>As is noted in paragraph <i>BSOG</i> 2.6.1, the First and Second Criteria are replaced, in those circumstances, by a single criterion as to whether the members or a proportion of them "would be unreasonably prejudiced by the transfer". Whether this special criterion applies will be a matter of judgement for the Authority to make in the light of any representations made to it and its own enquiries in respect of the particular case. It follows also that, in considering the Third Criterion, the Authority will take account of the modified procedure.</p>
2.7	Registration And Dissolution	
2.7.1	G	<p>When the Authority has confirmed a merger (whether voluntary or under direction) it will notify the registration team and the societies concerned.</p>
2.7.2	G	<p>In the case of an amalgamation, the registration team is required to be satisfied as regards the proposed Rules, Memorandum and name of the successor society. The amalgamating societies are, therefore, advised to clear drafts of the proposed Rules and Memorandum with the registration team at an early stage (see paragraph <i>BSOG</i> 2.3.28). When they apply to the Authority for confirmation under Section 93(2) of the 1986 Act, the amalgamating societies must also send three signed copies of the Rules and Memorandum to the registration team (Section 93(2)(d)). If the registration team is satisfied on these matters it will, upon confirmation, register the successor society and issue to it a certificate of incorporation specifying the date (the specified date) from which the incorporation takes effect, and will return to it one copy each of the Rules and Memorandum together with a certificate of registration. Copies are placed on the public file of the successor society.</p>
2.7.3	G	<p>On the specified date of the amalgamation, all the property, rights and liabilities of the amalgamating societies are transferred to the successor society, the successor is given such permission under Part IV of the Act as the Authority considers appropriate, and the amalgamated societies are dissolved and their registrations cancelled (Section 93, sub-sections (4), (5) and (6) and Section 103(1) of the 1986 Act). In deciding on the appropriate terms of the permission for the successor society, the Authority will have regard to the terms of the permissions of the amalgamating societies, including any limitations or requirements. It will also have regard to the</p>

		business plan for the successor society.
2.7.4	G	In the case of a transfer of engagements, the registration team will register a copy of the Instrument of Transfer and issue a registration certificate to the transferee society. A copy of the Instrument of Transfer and the registration certificate are placed on the public file of the transferee society. On the date specified in the registration certificate, the property, rights and liabilities of the transferor society are transferred to the transferee society, by virtue of Section 94(8) of the 1986 Act, the transferor society's authorisation is revoked by the Authority, and the society itself is dissolved (Section 94(10)). The transferor society's registration is subsequently cancelled by the registration team under Section 103(1).
2.8	Timetable	
2.8.1	G	The time taken to complete a merger will vary from case to case. As a general rule of thumb, it is unlikely that a merger can proceed from board decision through approval of the Schedule 16 Statement, general meeting and confirmation hearing, to the effective date, in less than 6 months. It is essential to the good and orderly management of a merger that the societies concerned meet with the Authority's staff as soon as their boards have resolved to seek a merger, and agree upon a provisional timetable. This can then be fixed by the time the Schedule 16 Statement is approved. The members can then be notified, as they must be, of the date provisionally set for the confirmation hearing and of the proposed date of completion of the merger in the Merger Document.
2.8.2	G	The likely sequence of events is as follows:

Stage 1	Informal consultations with the Authority's supervisory staff on both substance and timing of the proposed merger.
Stage 2	<p>Submission to the Authority of:</p> <p>(a) prudential information: this should be available to the Authority for discussion with the society well before the Schedule 16 Statement is submitted for approval;</p> <p>(b) written details of the proposed terms of the merger: it will be helpful for both the societies and the Authority to be clear about these matters as soon as possible after Stage 1 and well before Stage 3 is reached.</p> <p>Submission to the registration team, in the case of an amalgamation, of preliminary draft Rules and Memorandum, noting any unresolved issues.</p>
Stage 3	<p>Submission to the Authority and, in respect of (b) below, to the Registration team in draft of the following:</p> <p>(a) the Instrument of Transfer or amalgamation agreement embodying the merger terms provisionally agreed by the respective boards of</p>

	<p>directors;</p> <p>(b) in the case of an amalgamation, the proposed Rules and Memorandum of the successor society;</p> <p>(c) the Merger Document, including the Schedule 16 Statement, unless consent to proceed by way of board resolution is being sought in respect of the transferee society, together with the explanations of change, comparability and commitments referred to in paragraphs <i>BSOG 2.3.8</i> to <i>BSOG 2.3.10</i> and <i>BSOG 2.3.27</i>;</p> <p>(d) notice of the meeting at which the Merger Resolutions are to be moved, which may form part of (c) above;</p> <p>(e) the proxy voting forms to be used.</p> <p>After examination of these drafts, the Authority or, as the case may be, registration team staff will return them with any comments and, if necessary, will discuss them with the societies and their advisers. Any clearance by the Authority at this stage is provisional, and the Authority may seek further modification of the documents in the light of later information. Similarly, any clearance given by the registration team is subject to review of the proofs submitted at stage 4.</p> <p>If the transferee society is applying for consent to proceed by way of board resolution, formal application to do so (with supporting justification) should be made to the Authority at this stage.</p>
Stage 4	Submission of printers' proofs of the above draft documents.
Stage 5	<p>Informal clearance of near-final proofs (particularly of the Schedule 16 Statement(s)) by the Authority.</p> <p>Informal clearance of proof copies of Rules and Memorandum by the registration team, in the case of an amalgamation.</p>
Stage 6	<p>Formal submission of the Schedule 16 Statement(s) for approval by the Authority. The covering letter should include a declaration on behalf of the board of the society either:</p> <p>(a) that there has been no material change in the financial position of the society since the date of the information provided in the Schedule 16 Statement; or</p> <p>(b) that there has been such a change and that it is fairly reflected in the wording of the statement.</p> <p>This submission should be accompanied by:</p> <p>(c) a certified copy of the Instrument of Transfer or amalgamation agreement as executed;</p> <p>(d) two copies of the final printers' proof of the Schedule 16 Statement signed by the secretaries of each society;</p> <p>(e) a final printers' proof of the complete Merger Document to be sent</p>

	<p>to members, together with any covering letter and other documents to be sent with it, including proxy voting forms;</p> <p>(f) an assurance from the chairman of each society that the Schedule 16 Statement is complete and that all material interests of directors and officers are disclosed in it;</p> <p>(g) an assurance by or on behalf of the board on systems.</p> <p>(h) letter of comfort from the society's external auditors when required (see paragraph <i>BSOG 2.3.7</i>);</p> <p>(i) confirmation that drafts submitted for approval are identical to those seen at stage 5;</p> <p>(j) the fee payable by each society to the Authority.</p>
<p>NB Schedule 16 Statements should not be printed for distribution to members until after Stage 7.</p>	
Stage 7	<p>Approval by the Authority of the Schedule 16 Statement, or the Authority's consent to proceed by board resolution. Approval or consent will be given by letter and one proof copy of the Schedule 16 Statement, with the certificate of approval signed on behalf of the Authority, will be returned to the society.</p>
Stage 8	<p>Printing and circulation of documents to members in time to be received by them at least 21 days before the voting date for the meeting at which the Merger Resolutions are to be moved (see paragraphs <i>BSOG 2.4.12</i>, <i>BSOG 2.4.19</i> and <i>BSOG 2.4.20</i>).</p>
Stage 9	<p>The meetings at which the Merger Resolutions are moved.</p>
Stage 10	<p>If the Merger Resolutions have been passed, application to the Authority for confirmation and publication of notices of that application in the London and Edinburgh or Belfast Gazettes, and in other newspapers (as the Authority directs). The application must notify the Authority of the specified effective date for the merger, and be accompanied by two authenticated copies of the Instrument of Transfer or amalgamation agreement. In addition, in an amalgamation, four signed copies of the Memorandum and Rules of the successor society should be sent to the registration team. The societies must report to the Authority on the outcome of their meetings.</p>
Stage 11	<p>Notification by the Authority of the time and place of the confirmation hearing, if it is necessary to hold an oral hearing. The societies should allow sufficient time before the proposed effective date for the Authority to consider and write its decision, and in case it proves necessary to adjourn the hearing.</p>
Stage 12	<p>Confirmation hearing and decision by the Authority whether to confirm the merger.</p>

Stage 13	Registration by the registration team to give effect to the amalgamation or transfer of engagements.
----------	------------------------------------------------------------------------------------------------------

2.8.3	G	The following table indicates the likely minimum time to be taken by the main stages outlined above:
-------	---	------------------------------------------------------------------------------------------------------

Pre Day 1	Board Resolution to Merge Initial discussions with Authority re timetable and prudential information Submission of terms and initial prudential information to Authority Submission of draft Rules and Memorandum to registration team (amalgamations)
Day 1	First draft of Schedule 16 Statement and chairman's letter and notice of meetings, draft Rules and Memorandum (amalgamations) (Stage 3)
Day 28	Authority gives informal approval to Schedule 16 Statement, Instrument of Transfer signed (Stage 5)
Day 35	Formal Schedule 16 approval by the Authority (Stage 7)
Day 35-43	Printing, enveloping and mailing of Schedule 16 Statement and notice of meetings (Stage 8)
Day 65 - 70	Last date for receipt of proxy votes (depending on Act and Rules)
Day 72	SGM (Stage 9)
Day 75	Application to Authority for confirmation (Stage 10) Rules and Memorandum to registration team (amalgamations)
Day 93	Closing date for receipt of representations
Day 114	Confirmation hearing (Stage 12)
Day 142	Authority's Decision on Confirmation (Stage 12)
Day 160	Effective Date

2.8.4	G	Notes:
		(1) Within the above timetable prudential information to be submitted.
		(2) A significant amount of financial information needs to be assessed by the Authority prior to approval of Schedule 16 Statement.

		(3)	Prior to approval of Schedule 16 Statement a plan/timetable for integration of systems to be drawn up. Auditors sign off required prior to effective date.
--	--	-----	------------------------------------------------------------------------------------------------------------------------------------------------------------

Annex 1
PRO FORMA MERGER DOCUMENT

1. Title Page

Including suggestion to consult professional advisers and reference to meeting notice and voting procedures.

2. Directors' Responsibility Statement

See paragraph *BSOG 2.3.26*.

3. Board Rationale

Including statutory merger statement, if required (see paragraphs *BSOG 2.3.23* and *BSOG 2.3.24*).

4. The Merger Process

Description and explanation of:

- (a) the general meeting and Merger Resolutions;
- (b) the confirmation process, including the right of interested parties to make representations to the Authority, the dates provisionally set for receipt of written representations and notice of intention to make oral representations, and for the confirmation hearing, and the confirmation criteria specified in Section 95 of the 1986 Act;
- (c) the planned effective date of the merger.

5. The Instrument of Transfer of Engagements or Amalgamation Agreement

The address of the principal office of the society where the Instrument of Transfer or amalgamation agreement will be available for inspection, and whether copies of the Instrument or agreement will also be available at branch offices, with a cross-reference to Section B of the Schedule 16 Statement.

6. The Schedule 16 Statement

Statement Required by Schedule 16 to the Building Societies Act 1986

Proposed Transfer of Engagements of [ABC] Building Society to [DEF] Building Society

or

Proposed Amalgamation of [ABC] Building Society and [DEF] Building Society to form [GHI] Building Society

Section A: Financial Position of Each Society

1. *Balance Sheets*

Summarised balance sheets derived from the audited [unaudited] [consolidated] accounts of [ABC] [society] [Group] for the financial year ended (date) [as at (date)] and from the audited [unaudited] [consolidated] accounts of [DEF] [society][Group] for the financial year ended (date) [as at (date)] are set out below:

	Notes	ABC [Group] £m	DEF [Group] £m
<i>Assets</i>			
Liquid assets	4(b)	•	•
Mortgages	4(e)	•	•
Other loans	4(e)	•	•
Fixed and other assets	4(c),(d)	•	•
		<hr/>	<hr/>
		•	•
<i>Liabilities</i>			
Shares		•	•
Borrowings		•	•
Other liabilities		•	•
Subordinated liabilities		•	•
Subscribed capital		•	•
Reserves		•	•
Other capital		•	•
- revaluation reserve		•	•
[- other]		•	•
		<hr/>	<hr/>
		•	•

2. *Results*

Particulars derived from the audited [unaudited] [consolidated] accounts of [ABC] [Group] for the period ended (date) and from the audited [unaudited] [consolidated] accounts of [DEF] [Group] for the period ended (date):

	ABC [Group] £m	DEF [Group] £m
Net interest receivable	•	•
Other income and charges	•	•
Administrative expenses	•	•
Provisions	•	•
	<hr/>	<hr/>
Profit/loss for the period before taxation	•	•
Taxation	•	•
Minority interests	•	•
	<hr/>	<hr/>
Profit/loss for the period	•	•

3. *Key Financial Ratios*

	ABC [Group] %	DEF [Group] %
As a percentage of shares and borrowings:		
Gross capital	•	•
Liquid assets	•	•
As a percentage of mean total assets:		
Profit after taxation for the period	•	•
Management expenses for the period	•	•

The above percentages have been calculated from the balance sheets summarised above.

Gross capital comprises reserves and other capital, plus subscribed capital and subordinated liabilities, and amounts to £..... million for [ABC] and £..... million for [DEF].

Shares and borrowings, adjusted to exclude interest accrued but not yet credited to accounts, amount to £..... million for [ABC] and £.... million for [DEF].

Average total assets is calculated as the mean of the total assets at the beginning and end of the period and amounts to £..... million for [ABC] and £..... million for [DEF].

The estimated gross and net costs of the bonus to be paid to members are £....

The ratio of gross capital to shares and borrowing of the combined society, after allowing for the net cost of the bonus to be paid to members, is estimated to be%. On the same basis of calculation, but not accounting for the bonus payment, this ratio is estimated to be%.

4. *Notes to the Financial Position*

(a) Accounting policies

[Identify any significant differences between the accounting policies adopted by the two societies, and quantify the impact of a change in policy to achieve consistency. If there are no such differences then this should be stated].

(b) Liquid assets include listed securities as follows:

	ABC [Group] £m	DEF [Group] £m
Amount included in the balance sheet	• _____	• _____
Market value	• _____	• _____

(c) Fixed and other assets

	ABC [Group] £m	DEF [Group] £m
--	-------------------------------	-------------------------------

Tangible fixed assets	•	•
[Intangible fixed assets]	•	•
Other assets	•	•
	<hr/>	<hr/>
	•	•
	<hr/>	<hr/>

[Describe the nature of any intangible fixed assets and the method of amortisation thereof, if any]

(d) Tangible fixed assets

	ABC [Group] £m	DEF [Group] £m
Net book amount of land and buildings		
Freehold	•	•
Long leasehold	•	•
Short leasehold	•	•
	<hr/>	<hr/>
	•	•
Other tangible fixed assets	•	•
	<hr/>	<hr/>
	•	•
	<hr/>	<hr/>

[For each society's land and buildings give the difference between the net book amount and estimated current market value, or a director's opinion that there is no material difference between the two. Indicate the basis on which current market value has been determined, the effective date of the valuation and the name(s) of the valuer(s)]

[Identify significant differences in depreciation policy or estimated asset lives, quantifying the impact of any change to a common basis]

(e) Provisions for losses on mortgages and other loans

	ABC [Group] £m	DEF [Group] £m
Specific provisions	•	•

General provisions	• _____	• _____
Total amount offset against mortgages and other loans	• _____	• _____

(f) Pensions

[Describe the pension schemes of each society and the extent to which funded schemes are, on the basis of the latest actuarial valuations, in surplus or deficit. Give date of most recent actuarial valuation.]

(g) Summary information on the businesses of [connected undertakings]

The financial information given above includes the assets and liabilities and results of the Society and the following subsidiary undertakings and associated undertakings.

ABC [Group]

Subsidiary undertakings [names]	Principal activity
Other associated undertakings [names]	

DEF [Group]

Subsidiary undertakings [names]
Other associated undertakings [names]

(h) Post balance sheet events
[see paragraph 3.8]

5. *Costs and benefits of the merger*

[Give a factual assessment of the quantifiable and unquantifiable actual and expected costs and benefits, including integration, rationalisation and future business plans]

Section B: Instrument of Transfer of Engagements or Amalgamation Agreement

The paragraphs below prefaced by “Note” do not appear in [nor are they a paraphrase of the text in] the Instrument of Transfer or amalgamation agreement and are intended for the additional information of members.

The Instrument of Transfer or amalgamation agreement provides, inter alia, for the following matters.

1. *Name of Society*

The name of the combined society will be Building Society.

2. *Transfer of Assets and Liabilities*

On the Effective Date (see item 10) the property, rights and liabilities of [ABC] Building Society will be transferred to and vest in [DEF] Building Society (the combined society). [In an amalgamation, the assets and liabilities of both societies are vested in the new successor society.]

3. *Membership Rights*

[Give the provisions of the Instrument of Transfer or amalgamation agreement concerning deemed membership. See paragraph *BSOG 2.3.16*]

4. *Share Accounts and Deposit Accounts*

On the Effective Date, share and deposit account balances of [ABC] Building Society will become share and deposit account balances with [DEF] Building Society on the following terms:

[Give the provisions of the Instrument of Transfer or amalgamation agreement and refer to the Investment Schedules in Section C]

Note: interest rates which are variable are subject to change either before or after the Effective Date of the merger.

[Provisions concerning PIBS]

5. *Mortgage Accounts*

On the Effective Date, the indebtedness of any person to [ABC] Building Society for a loan made by it [fully] secured on residential property will become indebtedness to [DEF] Building Society to the same extent and such indebtedness will be subject to the same terms and conditions as presently apply except that the Rules of [DEF] Building Society rather than the Rules of [ABC] Building Society shall apply.

[Alternatively, give the provisions of the Instrument of Transfer or amalgamation agreement concerning any change in terms and conditions]

Note: [give any further explanation necessary to a clear statement of any changes, including those effected by the transferee society's Rules]

6. *Bonus to Members*

[Give the provisions of the Instrument of Transfer or amalgamation agreement and the estimated net cost of the bonus. See paragraphs *BSOG 2.3.13* and *BSOG 2.3.14*]

7. *Directors and Other Officers*

[Give the provisions of the Instrument of Transfer or amalgamation agreement]

Note: [Describe any changes in fees and contracts of employment or bonus schemes, or whether there will be no change]

Note: [Describe any compensation to be authorised by separate special resolution, or state that no such compensation is to be paid. State whether any person is not to take up employment with the combined society and that any payments to be made under their contracts of employment do not fall to be approved by special resolution. See paragraphs *BSOG 2.3.11* and *BSOG 2.3.12*]

8. *Employees*

[Give the provisions of the Instrument of Transfer or amalgamation agreement]

Note: [State, unless the Instrument or agreement so provides, whether there are to be any changes to terms and conditions of employment, and what they are, and explain how any staff reductions are to be achieved and the planned timescale.]

9. *Pension Arrangements*

[Give the provisions of the Instrument of Transfer or amalgamation agreement]

10. *Conditions and Termination Provisions*

[Give details of the provisions of the Instrument of Transfer or amalgamation agreement which (a) impose conditions on the completion of the transfer of engagements, such as approval by the members and confirmation by the Authority, and (b) provide for the termination of the agreement if one or more of the conditions is not met or in any other circumstances.]

11. *Rules and Memorandum*

[Explain any proposed Rule changes and, in the case of an amalgamation, any differences in the proposed Rules and Memorandum compared with the existing societies.]

Section C: The Investment Schedules

[These are the schedules referred to in Section B.4 and in paragraph *BSOG 2.3.17*]

Section D: Information for Holders of PIBS

[If either society has issued Permanent Interest Bearing Shares]

Section E: Other Matters

1. Save for [the following and] the matters referred to in Section B.7 no director or other officer of [ABC] Building Society or [DEF] Building Society will

receive any benefits in connection with the merger or will have any material interest in the merger.

[Describe any other interests of directors or other officers and persons (including companies) connected with them by way of, for example, fees for professional services, or supply of goods and services]

2. The directors of [ABC] Building Society and the directors of [DEF] Building Society confirm that the transfer of engagements [amalgamation] will not conflict with any contractual commitments of their Society or its connected undertakings.
3. The directors of [ABC] Building Society and the directors of [DEF] Building Society confirm that there has been no material change in the financial position of their Society or its connected undertakings since [date], the date to which the information in Section A relates [other than the post balance sheet event(s) described in Section A 4(h)].

Annex 2

PRO FORMA NOTICE OF, AND APPLICATIONS FOR, CONFIRMATION

- A. Notice of Application**
- B. Application - amalgamation**
- C. Application – transferor society**
- D. Application – transferee society**

Annex 2A

Publication of Notice of application to the Authority for confirmation of an amalgamation or transfer of engagements in the London, Edinburgh, or Belfast Gazettes and in any newspapers as may be directed by the Authority.

BUILDING SOCIETIES ACT 1986

Notice under paragraph 8 of Schedule 16 to the said Act.

Notice is hereby given that Building Society, Register No.....B, whose principal office is at, desires to amalgamate with*/transfer its engagements to*/accept a transfer of the engagements of* Building Society, Register No.....B, and that both societies have jointly*/each society has* applied to the Financial Services Authority to confirm the amalgamation*/transfer*.

Any interested party may make written representations to the Authority and/or give notice of intention to make oral representations to the Authority with respect to the application. Written representations and notices of intention to make oral representations should be received by the Authority at 25 The North Colonnade, Canary Wharf, London E14 5HS by 20 If notice is given of oral representations these will be heard by the Authority on20, at a time and place to be determined by the Authority.

***delete as applicable**

Annex 2B

Form of application to the Authority for confirmation of an amalgamation

To the Financial Services Authority

BUILDING SOCIETIES ACT 1986

APPLICATION UNDER SECTION 93(2)(d) OF THE ACT FOR CONFIRMATION OF AN AMALGAMATION

..... **BUILDING SOCIETY, REGISTER NO.....B, AND**

.....**BUILDING SOCIETY, REGISTER NO.....B**

The above-named societies desire to amalgamate on[insert effective date] and apply to the Authority to confirm the amalgamation.

In making this application the societies declare that:

1. At a meeting of..... Building Society held on 20..., and at a meeting of Building Society held on20..., the following resolutions were passed:

A shareholding members' resolution, as required by section 93(2)(c)(i) of the Act, that the societies do amalgamate in accordance with the terms of an amalgamation agreement, two copies of which, signed by the Secretary of each society for identification, are enclosed with this application.

A borrowing members' resolution, as required by section 93(2)(c)(ii) of the Act, that the societies do amalgamate in accordance with the terms of the above-mentioned agreement.

2. A statement, in accordance with Schedule 16 to the Act, approved by the Authority, so far as it concerned matters specified in that Schedule, was sent to each member of Building Society and of Building Society who was entitled to receive it.
3. Three copies of the Memorandum and Rules of the successor society have been sent to the registration team.

(Seals of the societies making the application)

Annex 4

Merger Confirmation Procedures

4.1	Introduction	
4.1.1	G	This annex is for the guidance of those making written representations to the Authority and/or those participating in oral confirmation hearings. It sets out the procedures which the Authority will normally follow.
4.1.2	G	The 1986 Act provides that when the necessary merger resolutions have been passed the societies must obtain confirmation by the Authority of the merger in accordance with Section 93(2) (amalgamations) or Section 94(7) (transfers of engagements) of the 1986 Act. If the Authority confirms the merger it will issue a registration certificate.
4.1.3	G	References to the relevant provisions of the 1986 Act are given in parenthesis in this annex. The term “merger” means either an amalgamation or a transfer of engagements as provided by sections 93 and 94 of the 1986 Act.
4.2	The role of confirmation	
4.2.1	G	The role of the confirmation procedures is limited. Section 95(3) and (4) of the 1986 Act provide that the Authority must confirm a transfer unless it considers that:
	(1)	some information material to the members’ decision about the merger was not made available to all the members eligible to vote; or,
	(2)	the vote on any resolution approving the merger does not represent the views of the members eligible to vote; or,
	(3)	some relevant requirement of the 1986 Act or the rules of any of the societies was not fulfilled.
4.2.2	G	These are the only grounds on which the Authority may refuse confirmation, or direct the society to remedy any defects. It is not the Authority’s function to make any judgement about the merits of the proposals which the members have approved.
4.2.3	G	If the Authority finds that there are defects, it may direct the society to take steps to remedy them. These include the calling of further meetings. If it is then satisfied that the defects have been substantially remedied, it must confirm the merger; if not, it must refuse confirmation (Section 95(6) of the 1986 Act).
4.2.4	G	The Authority may direct that non-fulfilment of some relevant requirement of the 1986 Act or of the rules of the society is to be disregarded, if it appears to the Authority that the failure could not have been material to the

		members' decision (Section 95(5)). "Relevant requirement" in this context means a requirement of section 93, 94 or 95 of or Schedule 16 to the 1986 Act or of any rules prescribing the procedure to be followed by the society in approving or effecting the merger (Section 95(11) of the 1986 Act).
4.2.5	G	The 1986 Act provides that any accidental failure to send the notice of meeting and merger statement to any person entitled to receive them does not invalidate the proceedings at the general meeting (paragraph 22(3) of Schedule 2 to the 1986 Act).
4.3	Representations to the Authority	
4.3.1	G	Any interested party has the right to make representations to the Authority with respect to the societies' applications for confirmation. They should state clearly why the person making the representations claims to be an interested party e.g. membership of the society and the matters to which the representations are directed.
4.3.2	G	Written representations, or notice of a person's intention to make oral representations, or both, must be in writing. They must reach the Authority at 25 The North Colonnade, Canary Wharf, London E14 5HS by the date quoted in the merger documentation issued to members and published in the official Gazettes and (usually) some newspapers. Persons who make written representations, but subsequently decide also to make oral representations must, nevertheless, give notice of that intention, in writing, to the Authority by the same date (paragraphs 8 and 9 of Schedule 16 to the 1986 Act). The Authority will in general be prepared to use electronic rather than paper-based communication for notices and written representations if requested by the society or a prospective representer. A specific electronic address will be provided for that purpose, and some of the relevant procedures may have to be adapted accordingly.
4.3.3	G	Representations or notices to the Authority will fall into one of the following three categories:
	(1)	Written representations only.
	(2)	Written representations with notice of intention to make oral representations.
	(3)	Notice of intention to make oral representations only.
4.3.4	G	The Authority will send copies of all written representations to the society, and will afford it an opportunity to comment on them (paragraph 9 of Schedule 16 to the 1986 Act).
4.3.5	G	Copies of the society's comments on representations in category 4.3.3(2) will be sent to those who made the representations so that they may concentrate their representations at oral hearings on the points which they consider to remain at issue. Persons making written representations who wish to see the society's comments must, therefore, also give notice of intention to make oral representations. Any documents referred to in the

		society's comments will be made available by the society for inspection at a specified place which will be notified to those making oral representations. (The society may, exceptionally, apply to put to the Authority in confidence documents which the society considers to be commercially sensitive: the Authority will decide on hearing argument whether, and on what terms, to accept them as confidential). Persons in category 4.3.3(3) will be asked to inform the Authority, in advance of the hearing, of the subject and general grounds of the representations they intend to make. The Authority will pass this information to the society.
4.3.6	G	Interested parties may join together in making collective representations and they may also appoint a person, either one of their number or another, to represent them at the hearing. They should notify the Authority in advance if this is what they intend to do.
4.4	Purpose of the hearing	
4.4.1	G	The purpose of the hearing is to enable interested parties to make representations, and to enable the Authority to make such enquiry as it considers necessary, both of the society and of those making representations, in order to reach an informed view on those aspects of the decision on confirmation to which the representations are directed. The Authority will examine all the representations, whether written or oral, in relation to the three statutory criteria described in paragraph <i>BSOG</i> 4.2.1. In the light of that examination, and consideration of all the representations and the society's response, the Authority will decide whether to confirm, or direct the society to correct any defects, or to refuse to confirm the merger. It is for the Authority to decide whether the matters discussed in representations are relevant to the statutory criteria.
4.5	Persons hearing the applications	
4.5.1	G	The hearing will be taken by a person or persons appointed by the Authority to hear and decide the applications on its behalf, and they will be assisted by staff of the Authority.
4.6	Time and place	
4.6.1	G	Hearings will normally start at about mid-morning on the day quoted in the merger documentation sent to members, and at a place which will be notified to the participants. If there are a significant number of persons wishing to make oral representations, then the hearing may extend beyond one day and may be adjourned from time to time and from place to place.
4.7	Procedure at the hearing	
4.7.1	G	The Authority expects that oral hearings will be in public. Members of the general public and the Press will be asked to wait outside at the outset of the hearing. The participants will then be asked if any of them has good reason to object to the admission of the general public (including the Press). The Press and the general public will then be admitted, within the limits of the space available, unless an objection by a participant is upheld by the

		Authority. However, the Authority may decide that parts of the hearing shall be in private if that appears to it to be desirable (for example, if representers feel it necessary to disclose their personal affairs).
4.7.2	G	The procedure will be informal. While all participants will be expected to speak concisely and to avoid repetition, the Authority will be considerate towards those who are not professionally represented. The persons appointed to hear the applications may question the participants as the hearing proceeds. The sequence of events will be broadly as follows:-
		(1) Any preliminary matters (such as the admission of the public or other procedural questions) will be dealt with.
		(2) The person chairing the hearing on behalf of the Authority will introduce the proceedings.
		(3) The representatives of the Societies will be invited to speak to their applications, including a description of the events at the meetings at which the merger resolutions were put to the members, a statement of the voting on the resolutions, and any other matters which they wish to introduce at that stage.
		(4) The other participants will be invited to speak to their representations. Where appropriate the Authority would expect to call them in a list marshalled, so far as possible, by subject matter.
		(5) The representatives of the society will be invited to reply to, or comment on, the points made by the other participants.
		(6) The other participants will be invited to comment on the society's replies.
4.7.3	G	The above procedure may be varied according to the circumstances at the hearing, and is intended only as a guide to the probable order of events. The hearing may be adjourned if the Authority considers that necessary to enable facts to be checked or additional information to be obtained.
4.8	The Authority's decision	
4.8.1	G	The Authority will not normally give an oral decision at the end of the hearing. The Authority will subsequently issue a written decision, setting out its reasons. A copy of the written decision will be sent to each of the participants in the hearing and to those who made written representations and, on request, to any other person. The decision may also be published.

CHAPTER 3
Transfer procedures

3.1	Introduction	
	The Purpose of this Chapter	
3.1.1	G	This chapter ultimately derives from the Transfer Procedures Guidance Note published by the Commission in April 1998. It gives guidance on the requirements of the 1986 Act relevant to, and on the procedures to be followed by, a building society proposing to transfer its business to a company having permission under the Act to carry on those regulated activities which it will undertake as a result of the transfer. It is not intended to be exhaustive, and is not a substitute for looking at the 1986 Act and the Transfer Regulations, on which a society should seek its own legal advice. It describes the relevant provisions of the 1986 Act, and the information which must be made available to the Authority and to the society's members, and outlines the procedures to be followed at general meetings, including the voting majorities required to pass the Transfer Resolutions. The chapter also describes the role of the Authority in approving the Transfer Statement which must be sent to the members and in the confirmation procedure, together with its ongoing prudential supervision during the transfer process. The Transfer Summary, which a society may send to its members instead of the Transfer Statement, is also discussed. Except as described in section 3.7, to which section 3.8 also applies, this section is concerned only with voluntary transfers under Section 97 of the 1986 Act.
3.1.2	G	It is for the directors of a society to assess the case for transfer, and they must explain and recommend their decision to the members. However, the Authority's staff are willing to discuss with a society the procedures to be followed and the information required to ensure that the members can reach fully informed decisions. Societies are strongly recommended to consult the Authority early on in the formative stages of transfer proposals. Such consultation will, of course, be treated in the strictest confidence. It will be helpful, also, to have regard to the indicative timetable set out in section 3.9.
3.1.3	G	Societies should consult their own legal advisers about the application of the provisions of the 1986 Act, and the general law, to the particular features of a proposed transfer.
3.1.4	G	This chapter considers each stage of the transfer procedure in chronological order. The remainder of this section gives a synopsis of the relevant requirements of the 1986 Act, which are then discussed in more detail in subsequent sections, as follows:
	(1)	Section 3.2, Preliminary Matters, considers the rationale for a transfer and the handling of public announcements, and gives guidance on certain prudential issues.
	(2)	Section 3.3, Terms of a Transfer, considers the mandatory provisions

			of Section 100 of the 1986 Act concerning the successor company's obligation to treat former shareholders of the society as depositors with it, and the Statutory Cash Bonus. It also considers the mandatory provisions of Sections 102B to D of the 1986 Act, concerning distributions to members who are Trustee Account Holders, the statutory restrictions on distributions to members in Section 100, and the permissive provisions of Sections 100 and 102A. The protective provisions for specially formed successor companies are also discussed.
		(3)	Section 3.4, Information Provided to Members, discusses the form and content of the statutory Transfer Statement and the Transfer Summary, and the accompanying rationale and other statements by the board, and describes the form of application to be made to the Authority for approval of the Transfer Statement.
		(4)	Section 3.5, General Meetings and Resolutions, discusses the register of members and members' entitlement to vote, the arrangements for general meetings, the conduct of voting on the Transfer Resolutions and the scrutineers' report.
		(5)	Section 3.6, Confirmation, describes the form of application to the Authority for confirmation of a transfer, and the procedures which the Authority expects to follow in considering and hearing written and oral representations and in reaching its decision.
		(6)	Section 3.7, Transfers Under Direction, describes the modified procedure to be followed when a society has been directed by the Authority to transfer its business to a company and to proceed by board resolution.
		(7)	Section 3.8, Notification and Dissolution, briefly discusses the process of notification of the vesting date and dissolution of the society.
		(8)	Section 3.9, Timetable, reviews the several stages of a transfer from start to finish.
Statutory Requirements			
3.1.5	G		The provisions of the 1986 Act concerning transfers are in Sections 97 to 102D of, and paragraph 30 of Schedule 2 and Schedule 17 to the 1986 Act, where two types of transfer of business are provided for:
		(1)	to a specially formed company, known as conversion; or
		(2)	to an existing company, known as a takeover.
			The procedures are the same in each case, except that the specification of the turnout required to pass the shareholding members' resolution to approve a takeover is, in effect, higher than is required to approve a conversion. The 1986 Act also provides that a specially formed company shall have qualified protection from takeover for up to five years after the vesting date.

		[Note: A takeover may take the form of a transfer of the business of a society to a subsidiary of the society which is an existing company carrying on business as a going concern, as in the case of Halifax plc (formerly Halifax Syndicated Loans Limited.)]
3.1.6	G	One of the principal purposes of these provisions of the 1986 Act is to ensure that the members are given all the material information they need about the terms of the transfer which they are asked to approve, and proper opportunity to cast their votes. Subsequently, they are given the opportunity to make representations about that process before the transfer is confirmed. The 1986 Act also prescribes certain mandatory terms, and places restrictions on certain permitted terms, of a transfer.
3.1.7	G	The 1986 Act makes no provision for a transfer to be initiated by any means other than a recommendation of an agreed proposal put by the board of a society to its members (see paragraph 11.10 of the Commission's Decision to confirm the transfer of Halifax Building Society to Halifax plc, which related to alternative distribution schemes) and the Transfer Regulations require the board of a society to give particulars, in the Transfer Statement, of the options for the future conduct of the society's business which it considered before deciding to recommend the transfer to the members and of the reasons why it recommends the proposed terms. Each member who is entitled to receive notice of the general meeting at which the Transfer Resolutions are to be moved must also receive (or have made readily available to him if the Transfer Summary is provided) a copy of a statutory Transfer Statement. A transfer must be approved by a shareholding members' resolution and a borrowing members' resolution. The majorities required to pass these resolutions are described in section 3.5.
3.1.8	G	If the terms of a transfer include provision for the payment of compensation to directors or other officers for loss of office or of income attributable to the transfer, then the proposed payments must be authorised by a separate special resolution. If the terms include provision for any director or other officer to receive increased emoluments in consequence of the transfer, then an ordinary resolution approving that provision must be put before a meeting of the society.
3.1.9	G	The 1986 Act specifies certain procedures for the consideration of representations by interested parties concerning confirmation, and the criteria which the Authority must consider before deciding whether or not to confirm a transfer. The matters which the Authority may consider do not include the merits of the transfer proposals, nor the fairness of the terms, which the members will have approved by passing the Transfer Resolutions.
3.1.10	G	The statutory requirements of the 1986 Act are explained and discussed in more detail in subsequent sections of this chapter. However, as is stated in paragraph <i>BSOG</i> 3.1.1, this chapter is not exhaustive and is not a substitute for considering, and taking professional advice on, the primary documents, which include:

the Building Societies Act 1986, as amended by or under other legislation, including:

the Building Societies (Joint Account Holders) Act 1995

the Building Societies (Distributions) Act 1997

the Building Societies Act 1997 and

the Financial Services and Markets Act 2000 (in particular by the

Financial Services and Markets Act 2000 (Mutual Societies) Order 2001)

and the Financial Services and Markets Act 2000 (Consequential Amendments and Repeals) Order 2001

the Building Societies (Transfer of Business) Regulations 1998

(SI 1998/212)

Judgments of the High Court in:

Birmingham Midshires Building Society (18 March 1999)

Bradford & Bingley Building Society (28 September 2000)

Electronic Communications Order 2003

3.1.11

G

Societies should be aware that this Order modifies various relevant provisions of the 1986 Act. This enables the use of electronic communications between societies, their members and other persons on matters relating to a proposed transfer of business, such as the transfer statement and voting arrangements. The Order requires that societies must obtain consent before using electronic means of communication. The remaining text of this chapter has not been amended to take account of the Order. A society proposing to use electronic communications in relation to a transfer of business will need to take its own legal advice as to how the procedures described in this chapter will have to be adapted. In that event the Authority will also adapt its own procedures appropriately.

3.2	Preliminary Matters	
	Rationale for a Transfer	
3.2.1	G	It is a matter for the board of a society to decide whether to recommend a transfer to its members. The overriding duty of the board is to reach a view having regard to what is in the best interests of the society in the short and long term, including the interests of the members as a whole, both present and future, as members of a building society, both borrowing members and shareholding members. The board of a society may also reasonably consider the interests of customers who are not members, of the staff, of suppliers of goods and services, and of the wider community.
3.2.2	G	The decision of the board to recommend a transfer must be based on a proper evaluation of the issues in relation to a strategic assessment of how the society can best serve its members. One element of that assessment will be the forward business plan of the successor company (including, in the case of a takeover, how the successor company plans to integrate the business of the society) which will be relevant to:
	(1)	the presentation of the case to the members; and
	(2)	the submission to the Banking Regulator for permission to carry on the regulated activities which it will undertake as a result of the transfer.
		Copies of the plan should be provided to the Authority and to the Banking Regulator (if the latter is a different authority in another member state).
3.2.3	G	Neither conversion nor takeover are likely to figure routinely as options in societies' corporate plans. However, a board may develop the society's business in ways which point to the need to consider the transfer option: in which case, a transfer should be foreseen and emerge from the board's strategic plans. If a board is considering the options of conversion or merger with another society, it should, as a matter of prudence, consider how it would respond to a counter proposal and develop appropriate contingency plans.
3.2.4	G	When a board is seriously considering conversion or a takeover, the range of issues which it will need to assess will vary from case to case and is for the board to decide. However, the board will necessarily have regard to its primary duty to reach a view on what is in the best interest of the members, as members of a building society, and not only their short-term interests. It will also be conscious of the requirement to give, in the Transfer Statement, a factual account of the options which it considered and of the reasons why it decided to recommend to the members the terms of any proposed transfer and of the qualifying conditions for any distribution of funds or shares in the successor company in consideration of the transfer.
Public Announcement		
3.2.5	G	A board will usually wish to announce its proposals as soon as possible after it

		<p>has decided to recommend a transfer to the society's members. In particular, the board will no doubt wish to inform the members and staff of the proposed terms so that they do not then operate their accounts, or otherwise act, in ignorance of proposals which would have affected their behaviour. The board will also wish to avoid misleading potential investors and borrowers; and societies with listed PIBS must have regard to the Authority's requirements concerning early disclosure of any information which might affect the price of securities. However, a board may not feel able to make an immediate announcement, perhaps for prudential or commercial reasons, or because it first wishes to settle all the details of the proposed terms. In these circumstances, the board must have contingency plans to make an early announcement to deal with any potentially damaging rumours and to avoid members being misled or left in a state of uncertainty. In considering the timing and terms of an announcement, the board will wish to minimise the risk of destabilising flows of funds.</p>
3.2.6	G	<p>The announcement, particularly information provided directly to members and staff, should make it clear that the proposal is subject to approval by the members and completion of the statutory procedures. It should also be made clear, in the case of a takeover, and if such is the case, that the proposal is subject to completion of due diligence investigations by the acquirer and, in either a conversion or takeover when shares in the successor company are to be issued, that the proposal is subject to the shares being listed on the London Stock Exchange or elsewhere. Boards should be careful to avoid appearing to assume that the outcome is a foregone conclusion, and should identify any matters of substance on which the proposed terms of the transfer remain to be settled. Briefing of staff who will be responsible for responding to enquiries from members and the Press should be considered carefully and prepared in advance of the announcement to avoid any risk of members being unintentionally misled. A free phone helpline may be desirable for members' enquiries about whether they qualify for any distribution under the proposed transfer scheme, but again the staff must be well briefed. It is essential that the announcement, and subsequent information given to members before they are sent the statutory Transfer Statement, or Summary, and in any briefing of the Press, is entirely consistent with what will appear in that Statement. In particular, members should be advised to await the Transfer Summary, and especially the Transfer Statement which will contain full details of the proposals and the information relevant to their decision on how they wish to vote.</p>
3.2.7	G	<p>The Authority is not required to approve the content or wording of announcements or preliminary information sent to members. However, it will be happy to comment on drafts shown to it at an early stage, and may be able to help societies to avoid unintentionally misleading statements.</p>
3.2.8	G	<p>The board should consult the Authority and, if a different body, the Banking Regulator at an early stage in its consideration of transfer proposals, and certainly no later than its decision in principle to seek a transfer. The complexities of the statutory provisions are such that it is necessary to have the proposed transfer terms specified very closely indeed before it is possible for the Authority to take a view on whether the proposals are fully in conformity</p>

		with the 1986 Act. The Banking Regulator will not be in a position, at this early stage, to give positive assurances as to the permission to be given to the successor company. However, a prudent board will seek the views of the Authority, and also, if different, of the Banking Regulator, before it decides to announce its transfer proposals to the members. This preliminary discussion with the Authority will necessarily cover the proposed structure of the successor company or group and a written specification of the transfer terms, particularly the scheme for distribution of any consideration to be offered to the members for the loss of their membership rights in the society, which members and other persons are to benefit, and the criteria for qualification.
3.2.9	G	Should there be a difference of view between the Authority and the society as to whether a scheme, or a particular feature of it, is in conformity with the 1986 Act, it may prove desirable to apply to the High Court for a declaration. It will then be necessary for any preliminary announcement of the board's proposals to make the position clear, and for it to allow sufficient time in its proposed timetable for the application to be heard, and for any appeal.
Prudential Issues		
3.2.10	G	In addition to information about the proposed transfer scheme, the Authority will expect the board to provide it with information about its plans for ensuring the prudent management of the society through to the proposed vesting date. That information will be consistent with what the board itself will require, bearing in mind that it is for the board to exercise due diligence and to be satisfied that the society's business continues to be directed and managed prudently. The information required is:
		(1) the names and responsibilities of senior managers assigned to manage the transfer process;
		(2) an assessment of the systems requirements of the transfer process, together with the specification of work to be done by consultants (e.g. the external auditors/scrutineers) and their report(s);
		(3) contingency plans, with sensitivity and risk assessments, for managing funding and liquidity during the transitional period;
		(4) copies of the business plans of the successor company as submitted in connection with its permission to carry on the regulated activities which it will undertake as a result of the transfer.
3.2.11	G	The Authority will also wish to have a letter from or on behalf of the society's board, which consents to the Authority discussing the society's affairs with the Banking Regulator (if a different body) and the competent authority for listing in the U.K. (if a different body from the Authority and an issue of shares in the successor company is intended to be made in connection with the transfer).
3.2.12	G	A transfer is exceptionally time-consuming for senior management. The Authority will wish to be satisfied that the society has sufficient management resources to cover both the transfer and its day-to-day business within its proposed transfer timetable. It will usually be necessary for the society

		severely to limit new business developments and initiatives during the transitional period. It should also be noted that the requirements for information to be provided to members mean that full disclosure will be required in the Transfer Statement of any negotiations in progress on acquisition or other links during the transfer process. The Banking Regulator must be kept fully informed of any such plans because any changes to the society's business, structure, controls etc. may well be relevant to the terms of its successor company's permission.
3.2.13	G	The Authority will appoint a project team, responsible for operational management of the Authority's functions in relation to the transfer process. The expectation would be that the team will include the Manager responsible for the society's supervision and one of the Authority's legal advisers. Names and contact numbers will be provided to the society. The Authority would strongly advise a society similarly to appoint a project team, headed by a senior manager responsible to the board for management of the whole process and with authority to control the drafting and verification of the Transfer Document, other briefing and information to members, and responses to representations at the confirmation stage. Strong central control under the direction of the board is, in the Authority's view, essential for effective management of a transfer.
3.2.14	G	The society will be expected to provide the Authority with a systems report from its auditors together with an action plan to remedy any shortcomings. The Banking Regulator, if a different body, may have similar requirements. This report is only part of the full information package which the Banking Regulator will (or is likely to) require in connection with the successor company's permission to carry on the regulated activities which it will undertake as a result of the transfer and which will be needed so that the Authority can be satisfied in relation to its requirements up to the vesting date.
3.2.15	G	The society will need to develop plans to deal with a number of possible contingencies; for example, receipt of a counter-offer (whether private or public) during the transfer process, changes in market conditions or financial results which materially affect the information given in the Transfer Statement, failure to obtain the members' approval, delay of the planned vesting date and of any flotation, and greater exposure to liquidity risk during the transitional period. The Transfer Agreement should include provision for its termination if, for any reason, flotation does not take place within a specified period after confirmation, and for the board to decide not to proceed if market conditions or other developments mean that it would not be reasonable to do so having regard to the basis on which it secured the approval of the members. The Authority will wish to see the society's contingency plans.
3.2.16	G	Before it approves the Transfer Statement, the Authority will wish to be satisfied that the successor company is expected to have permission to carry on such regulated activities as will enable it to undertake the business it will have as result of the transfer. It will also ask the Banking Regulator, if different, to confirm that the information given in the draft Transfer Statement appears to be consistent with, and has no material omission of, information available to the Banking Regulator.

3.3	Terms of a Transfer	
3.3.1	G	<p>This section discusses the provisions of the 1986 Act which prescribe the terms of a transfer which must be included in the Transfer Agreement and the restrictions on terms which may be included. It also discusses the formation of, and protective provisions for, specially formed companies and the status of existing companies. Section 97(4) of the 1986 Act provides that in order to transfer its business to a company, inter alia, a society must agree conditionally with its successor in a Transfer Agreement on the terms of the transfer which, in so far as they are “regulated terms” (as defined in Section 97(12)), comply with Sections 99 and 100 of the 1986 Act and with the Transfer Regulations. In the case of a specially formed company, a society must also secure that the articles of association of the successor company have the requisite protective provisions prescribed by Section 101(2) of the 1986 Act.</p>
The Qualifying Day		
3.3.2	G	<p>The choice of Qualifying Day is important because it is a determining factor in deciding which members must have conferred upon them a right to the Statutory Cash Bonus provided by Section 100 of the 1986 Act. It may also be relevant in deciding which members may receive certain rights under a proposed distribution of funds or of shares in the successor company. The Commission’s view was that there can be only one Qualifying Day for these purposes, which must be clearly distinguished from any other “reference dates” which may be chosen by a society for the purposes of its transfer scheme. Subsection (13) of Section 100 defines the Qualifying Day as the day specified in the Transfer Agreement as the qualifying day for the purposes of that subsection. This does not appear to restrict the society’s choice of qualifying day. A number of arguments for such a restriction have been advanced, including that the use of the past tense “which expired with the qualifying day” in subsection (9), read in the context of Section 100 as a whole, indicates that the Qualifying Day must pre-date the Transfer Agreement. The Authority has not been required to express a view on the matter (and see paragraphs 4.20 and 17.4 of the Commission’s Decision to confirm the transfer of the business of Cheltenham & Gloucester Building Society to a subsidiary of Lloyds Bank plc).</p>
3.3.3	G	<p>For completeness, it should be noted that the Authority takes the view that the conditional Transfer Agreement must have been signed by the society and its successor company and commenced (albeit conditionally) before the Authority can approve the Transfer Statement. This is because the Authority must be satisfied, before it approves the Transfer Statement, that the Statement correctly describes the proposed terms of the transfer as provided by the Transfer Agreement, and the Agreement cannot properly be said to exist until it has been signed by the parties concerned. The Transfer Agreement, as is made clear by its definition in Section 97(12) of the 1986 Act, is necessarily conditional, inter alia, on the society’s members’ approval of the Transfer Resolutions under Section 97(4)(c), and confirmation of the transfer by the Authority (which includes confirmation by the Banking Regulator that it expects to authorise the successor company) under Section 98(2) of the 1986</p>

		Act.
Share Accounts		
3.3.4	G	Section 100(2)(a) and (3) of the 1986 Act provide that the terms of a transfer must require the successor company to assume as from the vesting date a liability in respect of a deposit to every member of the society equal to the value of the shares held by such member immediately before the vesting date. In other words, amounts held in share accounts on the eve of the vesting date must become identical amounts held in deposit accounts from the start of the vesting date.
Statutory Cash Bonus		
3.3.5	G	Section 100(2)(b) and (4) of the 1986 Act provide that the terms of a transfer must confer a right to a distribution of funds by way of bonus, whether paid by the society or its successor company, on every member of the society who held shares in the society on the Qualifying Day but was not eligible to vote on the shareholding members' resolution. Where the account is in joint names, see also paragraph <i>BSOG</i> 3.3.12, Schedule 2 to the 1986 Act and the Rules of a society prescribe who is eligible to vote (see section 5). Broadly speaking, members who are not entitled to vote on the resolution are those who are under 18 years of age on the date of the meeting or, if the Rules so provide, those who had less than the qualifying shareholding (usually £100) on the qualifying shareholding date or who ceased to hold shares in the period between the qualifying shareholding date and the voting date. However, the High Court declared in <i>Abbey National Building Society v The Building Societies Commission</i> that, in order to qualify for the Statutory Cash Bonus, in addition to having held shares in the society on the Qualifying Day, a member also must have held shares continuously between the Qualifying Day and the vesting date. In coming to this judgement, the Vice Chancellor found the sequence of tenses used in subsection (4) of Section 100 of the 1986 Act to be illuminating: "It says that a member is ... a qualifying member if he held ... shares in the society on the qualifying day and was not ... eligible to vote ... The subsection is therefore looking at somebody who at a particular point of time is a member and who had certain qualifications in the past... the relevant date for establishing membership is the vesting day ... it is implicit in subsection (4) that the person ... must have been a member on the qualifying day and have remained a member thereafter continuously through until the vesting day". In settling the terms of the declaration, the Vice Chancellor confirmed that when referring to the member remaining a member between the two dates, he intended to mean as a member holding shares.
3.3.6	G	The bonus is to be calculated as that proportion which the society's reserves bear to its total liability to its members in respect of shares, as shown in the latest balance sheet of the society, applied to the value of the shares held by the member on the Qualifying Day. If a Transfer Statement is approved and sent to the members just before, or shortly after, the end of the financial year of the society, it will be important to note that the Annual Report and Accounts for the year will have been published by the vesting date, when qualifying membership has to be established and the bonus is due to be paid. In those

		circumstances, “the latest balance sheet of the society” will be that published in the most recent Annual Accounts. The same considerations may apply when a society publishes half-yearly results.
3.3.7	G	The Authority may direct, however, where it confirms a transfer of a society’s business to an existing company (i.e. only in a takeover), that no Statutory Cash Bonus is paid or that a lesser amount is paid than that referred to in paragraph <i>BSOG</i> 3.3.6, having regard to what is equitable between the members.
Distributions to Members		
3.3.8	G	Section 100(1) of the 1986 Act provides that: “Subject to subsections (2) to (10), the terms of a transfer of business by a building society to the company which is to be its successor may include provision for part of the funds of the society or its successor to be distributed among, or other rights in relation to shares in the successor conferred on, members of the society, in consideration of the transfer”.
3.3.9	G	In respect of rights to shares, Section 100(8) of the 1986 Act provides that: “Where, in connection with any transfer, rights are to be conferred on members of the society to acquire shares in priority to other subscribers, the right shall be restricted to those of its members who held shares in the society throughout the period of two years which expired with the qualifying day; and it is unlawful for any right in relation to shares to be conferred in contravention of this subsection”; and, in respect of a distribution of funds, Section 100(9) of the 1986 Act provides that: “Where the successor is an existing company, any distribution of funds to members of the society, except for the distribution required by subsection (2)(b), shall only be made to those members who held shares in the society throughout the period of two years which expired with the qualifying day; and it is unlawful for any distribution to be made in contravention of the provisions of this subsection”; while, in respect of a transfer to a specially formed company, Section 100(10) of the 1986 Act provides: “The following restrictions apply to any distribution of funds, or any conferring of rights in relation to shares, in connection with the transfer of its business from the society to its successor where the successor is a company specially formed by the society, that is to say-
		(a) no distribution shall be made except that required by subsection (2)(b); and
		(b) where negotiable instruments acknowledging rights to shares are issued by the successor within the period of two years beginning with the

		vesting date, no such instruments shall be issued to former members of the society unless they are also issued, and on the same terms, to all other members of the company;
		and it is unlawful for any distribution of funds to be made in contravention of the provisions of this subsection”.
3.3.10	G	The meanings of subsections (1), (8), (9) and (10) of Section 100 of the 1986 Act have been considered by the High Court in four cases: Cheltenham & Gloucester Building Society v The Building Societies Commission, in relation to distributions of funds, and Abbey National Building Society v The Building Societies Commission, The Building Societies Commission v Halifax Building Society and Leeds Permanent Building Society and R v The Building Societies Commission, ex parte Whitmey in relation to share distributions. These judgments related to specific proposals and may not necessarily be directly relevant in all respects to transfer schemes proposed by other societies in the future. A society must obtain its own advice when formulating proposals for a cash or share distribution scheme.
3.3.11	G	As is explained in paragraph <i>BSOG</i> 3.2.8, the Authority will have to see a fully specified description of the distribution scheme before it can form its own view of whether it is in conformity with the 1986 Act. The Authority would find it helpful if the society enclosed copies of the legal advice it has received when submitting a scheme for consideration.
Joint Share Account Holders		
3.3.12	G	Paragraph 7 of Schedule 2 to the 1986 Act deals with joint shareholders and defines the “representative joint holder” as “that one of the joint holders who is named first in the records of the society.” Paragraphs 7(5) and (5A) of that Schedule provide that, for the purposes of Sections 87 and 93 to 102 of the 1986 Act, the shares shall be treated as held by the representative joint holder alone and, accordingly, joint holders, other than the representative joint holder, shall not be regarded as members of the society by reason only of being a joint holder of those shares. The effect of this provision (but subject to the provisions of Section 102A) is that if, for example, the representative joint holder dies, or the order of names on the account is changed in the two years preceding the Qualifying Day, any rights to a distribution under a transfer scheme, which are conferred on those who have held shares for two years up to the Qualifying Day, cannot devolve upon any other joint account holder, unless that holder is in his or her own right, by virtue of another account holding, a two-year shareholding member.
3.3.13	G	Section 102A, however, provides that, in certain circumstances, second named joint holders, who have themselves held shares in the society continuously during the two year qualifying period, whether as sole or joint holders of shares, may qualify for a right which otherwise could only have gone to a first named holder. Cases which would be covered by the provisions of Section 102A include: the death of the first named holder, including where, for example, a third named joint account holder would move up the scale if both the previous first named and second named holders were killed in the same car accident; the creation of a joint account, for example, on marriage; the division

		of a joint account on divorce or separation, or for any other reason, where the previous first named holder has ceased to hold shares in the society; and when there has been a change in the order of names within an account.
3.3.14	G	Points to note are that Section 102A applies only to joint share account holders (joint borrowers are not affected) and is only relevant where the application of the two year qualifying period prescribed by Section 100 is relevant to a proposed distribution of funds or conferring of rights to shares. The provisions of Section 102A are permissive, not mandatory (see paragraphs 13.2 to 13.5 of the Commission’s Confirmation Decision on the application by National & Provincial Building Society) and are not “relevant requirements” of the 1986 Act (see paragraph <i>BSOG</i> 3.6.17). It is for the society’s board when proposing a transfer scheme to decide whether to incorporate in its distribution scheme none, some, or all of the cases where Section 102A allows membership of a joint account, other than as the first named holder, to count towards the two year qualifying period. Finally, these provisions do not affect the position of the personal representatives or beneficiaries of deceased sole holders of share accounts. Societies should obtain their own advice on all these matters when considering how they wish to construct the terms of a proposed distribution scheme.
Trustee Account Holders		
3.3.15	G	A member who holds funds in a share account, or holds a mortgage account, on trust for another person is not a Trustee Account Holder unless the following conditions are satisfied. Sections 102B to D of the 1986 Act require that, if the terms of a transfer include distributions of funds or of rights to shares to members of the society, then each Trustee Account Holder shall be treated by the society and its successor as not being disentitled from receiving, in addition to any distribution to which he or she may be entitled in any other capacity, a separate distribution in respect of each account which he or she holds in trust for certain categories of beneficiaries (provided that, as holder of that account, he or she meets the conditions for receipt of a distribution under the scheme). An account may be either a share account or a mortgage account of which the Trustee Account Holder may be the sole or representative joint holder. A member may receive only one distribution for each account he or she holds as a Trustee Account Holder (irrespective of the number of account holders or beneficiaries of that account) and a member who holds only one account may receive only one distribution in respect of that account whether as a member or, if he or she so decides, as a Trustee Account Holder. If a person is a qualifying beneficiary of more than one account held by a Trustee Account Holder (referred to in Section 102D(5) as “duplicate accounts”), then only a single distribution is required to be paid in respect of the duplicate accounts whether or not there are other qualifying beneficiaries of those accounts. A change in the identity of the Trustee Account Holder during any qualifying period for a distribution does not affect the entitlement to a distribution in respect of the account. The categories of qualifying beneficiaries of such accounts are persons who cannot reasonably practicably act in relation to the accounts themselves by reason of ill-health or old age or any physical or mental incapacity or

		disability.
3.3.16	G	A society will need to take its own legal advice as to the interpretation of these Sections and whether and, if so, what advice it should give to its members to help them decide whether they are Trustee Account Holders. The Authority will wish to see that advice to help it reach a view on whether the society's proposals appear to it to be lawful, while recognising that only the courts can interpret the law. With that important proviso in mind, the Authority has taken the view that a scheme may provide that a member is a Trustee Account Holder if the funds (or debt) in the relevant account are held either wholly or partly for one or more qualifying beneficiaries. PIBS do not appear to be share "accounts" as described by Sections 102B to D so that a person could not be a Trustee Account Holder in respect of a holding of PIBS.
3.3.17	G	A society is not required to notify its members of these provisions. However, unless it does so, it will not gain the protection of Section 102B(4) which provides that a Trustee Account Holder will not be entitled to a distribution in that capacity if the society has notified him that he must make a statutory declaration and the Trustee Account Holder has not made such a declaration before the date specified in the society's notice to him. Moreover, the Transfer Regulations require that the Transfer Statement must contain a forecast of the amount and proportion of the total consideration which is expected to be distributed to Trustee Account Holders (see paragraph <i>BSOG</i> 3.4.2(3)).
3.3.18	G	It appears to the Authority that it will be desirable for the final date for receipt of statutory declarations from Trustee Account Holders to be shortly before the vesting date so that declarations may take account of any changes in the identity of the account holder or the status of the beneficiary or beneficiaries. Trustee Account Holders must also be able to make an informed judgement as to whether the terms of the distribution scheme are such that making a statutory declaration will be in the best interests of the beneficiary or beneficiaries of an account; they cannot do this until the full terms of the proposed scheme have been published in the Transfer Statement and made available for inspection in the Transfer Agreement. The Authority expects, therefore, that societies will issue notices under section 102B to Trustee Account Holders not later than despatch of notices of the SGM at which the Transfer Resolutions are to be considered, and that the specified date for returning statutory declarations by Trustee Account Holders will be on, or shortly before, the vesting date or, in any event, not less than 1 month after the despatch of the notices. No regulations have been made by the Treasury under Section 102D(11). However, to meet the requirement that the Transfer Statement must contain a forecast of distributions to Trustee Account Holders, and so that it can determine the qualifying conditions for, and estimate the value of distributions to members generally, and individually, particularly if the scheme includes a variable element, the Authority expects that a society will need to write to all its members at least 2 months before the Transfer Statement is expected to be issued advising them of the procedures for dealing with distributions to Trustee Account Holders, perhaps also with the notices envisaged by

		Section 102B(4), and asking them, if appropriate, to register their interest in making statutory declarations as Trustee Account Holders.
The Successor Company		
3.3.19	G	In a conversion, the successor company must be specially formed by the society (and by no others than its nominees) wholly or partly for the purpose of assuming and conducting the society's business in its place and must be a company within the meaning of the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 which is a public company limited by shares (Section 97(12) of the 1986 Act) or a body corporate incorporated in another EEA State with power to offer its shares or debentures to the public (Section 97(13)). Section 98(3) of the 1986 Act provides that the Authority shall not confirm the transfer if there is a substantial risk that the successor will not have such permission under the Act as will enable it to carry on the business which it will have as a result of the transfer. The society must secure that the successor company is formed having articles of association with the "requisite protective provisions" (Section 97(4)(a) of the 1986 Act).
3.3.20	G	The terms of the transfer must include provision to secure that the society ceases to hold any shares in the specially formed successor company by the date on which the society is to dissolve (Section 100(11) of the 1986 Act). The provisions of the 1986 Act concerning the dissolution of the society and the disposal of any shares in its successor are discussed in section 3.8.
3.3.21	G	The "requisite protective provisions" are the provisions of Section 101 of the 1986 Act which require the successor company to ensure that it does not allow one person, or two or more persons acting in concert, to hold more than 15% of the shares of the company during the period from the company's incorporation until 5 years after the vesting date. The purpose of this provision is, clearly, to protect the newly converted bank from takeover. The provisions will cease to apply if the Authority so directs, or if the successor company acquires another financial institution, as defined in Section 101(6), or if the shareholders resolve to that effect by a majority representing at least 75% of the nominal value of shares giving voting rights.
3.3.22	G	For a takeover, an existing company, which is to assume and conduct the society's business in its place, is defined in Section 97(12) and (13) of the 1986 Act as a company within the meaning of the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 which is a public company limited by shares, or a body corporate incorporated in another EEA State with power to offer shares or debentures to the public, "carrying on business as a going concern on the date of the transfer agreement". Section 98(3) provides that the Authority shall not confirm the transfer if there is a substantial risk that the successor will not have such permission under the Act as will enable it to carry on the business which it will have a result of the transfer. The effect of these provisions is that the business of a society may be transferred to a body corporate incorporated in another EEA State which, at the date of the Transfer Agreement, is a going concern and which is acceptable as a deposit taker to the appropriate regulatory authority. To be a going concern, the company must actively be carrying on a business before it can enter into an agreement to

		acquire the business of a society. Conversely, it would not seem possible to use a company which carries on no substantive business, other than employing its capital, simply as a vehicle for taking over a society.
3.3.23	G	The successor company does not need to have the required permission under the Act at the time of the takeover offer or the Transfer Agreement; but it must be carrying on business as a going concern. However, the subsequent obtaining of the necessary permission is a key criterion. An offer will not be credible unless the company has first obtained an indication from the Authority or other EEA competent authority that it is prepared to authorise, or to continue the authorisation of, the successor company, upon transfer on terms which will enable it to carry on the business it will have following the transfer. As a practical matter, the authorities would find it difficult to authorise an institution whose business from the time of authorisation was not predominantly banking or deposit taking and would require to be satisfied that the parent company (if any) as controller was fit and proper.
Compensation For Loss of Office and Increased Emoluments		
3.3.24	G	Any compensation for loss of office or diminution of emoluments attributable to the transfer which is proposed to be paid to directors and other officers must be approved by a separate special resolution, in addition to the Transfer Resolutions required to approve the terms of transfer as a whole (Section 99 of the 1986 Act). Loss of office includes loss of office in any other body held by virtue of the director's or other officer's position in the society. "Compensation" is not defined in the 1986 Act, except to the extent that Section 99(6) says that it includes benefits in kind. In the Authority's opinion, compensation does not include statutory redundancy payments, damages for breach of contract, or other payments, for example, falling due under the terms of a pre-existing contract of employment, or a pre-existing arrangement giving rise to a reasonable expectation. However, it does include any proposed ex-gratia payments or other provision of benefits in money or money's worth. Societies should consider very carefully the extent to which any proposed payment may exceed the amount provided for by statute or contract. In view of the requirement in Section 99(4) that unauthorised payments must be repaid by the recipient, societies are advised to take legal advice on any payments which are not specifically authorised by the terms of a special resolution passed by the members in accordance with Section 99(2)(a). The Treasury has not made any regulations under Section 99(2)(b) and (3).
3.3.25	G	All proposed payments requiring approval by special resolution must be disclosed in the Transfer Statement. In addition, the Authority will require disclosure in the Transfer Statement of any other payments to directors or other officers arising directly from the transfer. So that members are aware of the direct interest of the directors or other officers in a transfer, societies should consider whether the amount, as distinct from the fact, of any statutory or contractual payments should be disclosed where these arise directly from the transfer. More generally, societies need to consider whether any facts relevant to any director or other officer, or to any person(s) connected with any director, should be disclosed where these are material to the decision of the members who are to be asked to vote on the proposed transfer.

3.3.26	G	<p>Increased emoluments are defined by Section 99A of the 1986 Act as an increase in consequence of the transfer, and included in the terms of the transfer, for any director or other officer, whether by way of increased remuneration or the grant of share options or otherwise. The Authority is of the view that this formulation would include the receipt of distributions of funds or of rights to shares in consideration of the transfer which are made to directors or other officers in their capacity as employees or pensioners of the society or any of its subsidiaries. However, this is a matter which can only be conclusively determined by the courts.</p>
3.3.27	G	<p>Any such increase in emoluments is required by Section 99A(2) of the 1986 Act to be put before a meeting of the society in an ordinary resolution approving such provision. However, although such an ordinary resolution must be put to a meeting, it is not required to be passed in order to authorise such increases which will be authorised by the general approval of the transfer and its terms provided by the passage of the Transfer Resolutions. Neither is it required that the ordinary resolution be put before the meeting which is to consider the Transfer Resolutions. However, as is explained below, any proposed increase in emoluments will have to be explained in the Transfer Statement, and the Authority will have to be satisfied that the requisite ordinary resolution was put before a meeting of the society when it considers a society's application for confirmation of a transfer.</p>

3.4	Information provided to Members	
Statutory Requirements		
3.4.1	G	<p>Section 98(1) of and Part I of Schedule 17 to the 1986 Act require a building society which desires to transfer its business to a company to send a statement relating to the proposed transfer to every member entitled to notice of a meeting of the society. This may be either a Transfer Statement or a Transfer Summary, and is to be included in or with the notice of the meeting at which the Transfer Resolutions are to be moved. If a Transfer Summary is sent, then the society must also make the Transfer Statement available forthwith, free of charge, to every member who asks for it. The Treasury has power to make regulations for the purpose of specifying the matters of which Transfer Statements and Transfer Summaries are to give particulars. No Transfer Statement shall be sent or made available unless its contents, so far as they concern the matters so specified, and any other matters which the Authority may require in the case of a particular transfer, have been approved by the Authority. The Transfer Summary, however, is not required to be approved by the Authority.</p>
The Transfer Statement		
3.4.2	G	<p>The Transfer Statement has to contain the particulars of the “prescribed matters” which are set out in Schedule 1 to the Transfer Regulations. It must also include particulars of any other matters which the Authority may require (paragraph 3(1)(b) of Schedule 17 to the 1986 Act). Note that Regulation 3(2) of the Transfer Regulations provides that if a particular matter is not ascertainable at the time, a forecast may be given; for example, of the percentage amount of the Statutory Cash Bonus, or of the division of any distribution of shares or cash among different classes of recipient (see subparagraph (c)). The principal matters which a Transfer Statement must contain can be summarised as follows:</p>
		<p>(1) a factual statement of the strategic options considered by the board and the reasons why it decided to recommend the particular proposals being put to the members. In the case of a takeover, the board must also provide a valuation of the business compared with the consideration which is proposed to be paid by the successor company, and state whether it considers the offer price to be fair and reasonable;</p>
		<p>(2) disclosure of the names of any building societies or companies from which written proposals for merger or takeover were received within the preceding 12 months as required by Regulation 3 of the Transfer Regulations. The fact of the proposal, the name of the proposer and the terms of the proposal must be disclosed, unless the proposer has requested either that the whole matter, or just the terms of the proposal, be treated as confidential. An invitation to discuss a possible merger or takeover would probably not constitute a “proposal”. A society should consider carefully, and take advice on, whether any approach it has received does qualify as a disclosable</p>

			proposal. If no proposals have been received that fact could be stated in the Transfer Statement, for the avoidance of doubt;
		(3)	details of any share and/or cash distribution scheme, as provided by the Transfer Agreement, and showing separately the estimated amount of the benefits (if any) to be conferred on members, Trustee Account Holders, and on others such as employees and pensioners of the society, and giving information about the value of any shares including, if unquoted ordinary shares, an illustrative estimate of the market price of the shares if they had been issued at some specified date within the previous 6 months;
		(4)	the consequences of the transfer for members of the society, including a clear explanation of the potential effects on interest rates and containing, in particular, a factual statement of changes in the factors relevant to the determination of interest rates on retail deposits and loans by the successor company compared with the society (having regard to the need for the company to pay dividends to its shareholders), and including any change in the terms on which deposits are to be held and any changes in the applicable terms of the statutory protection scheme and complaints handling arrangements;
		(5)	the consequences of the transfer for employees of the society, including any changes in the branch structure or economies in head office departments;
		(6)	the financial interests of the directors and other officers arising from, or as a consequence of, the transfer. If directors or other officers have no financial interests in the transfer, either by way of increased emoluments, compensation or other benefits, this should be stated explicitly, for the avoidance of doubt;
		(7)	the main features of the published consolidated annual accounts of the society group for the last 3 financial years and its current financial position, including the amount of the society's reserves, at a date not more than 6 months prior to the date of the Transfer Statement;
		(8)	in the case of a takeover, the main features of the published annual accounts of the successor company group for the last 3 financial years, its current financial position at a date not more than 6 months prior to the date of the Transfer Statement, and key business indicators of the society group and the successor company group for each of the past 3 financial years. If the successor company is a significant subsidiary within a group, the Authority may require corresponding information about the company alone to be given;
		(9)	the future financial prospects of the successor company;
		(10)	the intended range and relative importance of the activities of the successor company and any change proposed following the transfer;

		(11)	in the case of a takeover, the structure and activities of any group to which the successor company belongs;
		(12)	a summary of the provisions of the Transfer Agreement concerning the conditions precedent to its completion and providing for its termination;
		(13)	a statement as to whether the transfer will conflict with any contractual obligations of the society (which would include agency agreements);
		(14)	the total estimated costs and expenses of the transfer, together with (if applicable) the estimated amount of, and the terms on which, fees and disbursements will be paid to advisers, such as merchant bankers, relating to the valuation of the business;
		(15)	responsibility statements by the directors of the society and the successor company, and opinions of the external auditors and any other experts, such as merchant bank advisers;
		(16)	if a Transfer Summary is issued, a statement that the full Transfer Statement will be provided free and on request and how it can be obtained.

The Transfer Summary

3.4.3	G	A Transfer Summary may be sent, instead of the Transfer Statement, in or with the notice of the meeting at which the Transfer Resolutions are to be considered, to every member entitled to that notice. As its title indicates, the Transfer Summary must contain information derived from the Transfer Statement, particulars of which are prescribed by Schedule 2 to the Transfer Regulations: principally, that is, the matters described in paragraph <i>BSOG</i> 3.4.2, in summary form, excepting detailed financial information and terms of the Transfer Agreement. The basic qualifying conditions for a distribution of funds or shares might, for example, be summarised in the form of flow charts. More complex information, such as that relating to successors to deceased members, or second named joint account holders, should also be summarised with affected persons being referred to the Transfer Statement and, perhaps, special leaflets on particular terms.
3.4.4	G	Unlike the Transfer Statement, the Transfer Summary does not have to be approved by the Authority. It is to be compiled by, and on the responsibility of, the directors of the society and of the successor company. If a society decides to send a Transfer Summary, rather than the Transfer Statement, with the notice of the meeting, then the Transfer Summary must contain the directors' responsibility statements and state that it has not been approved by the Authority while the full Transfer Statement, which has been so approved, is on request available free of charge, to any member of the society to whom the Transfer Summary was sent, at any branch or office of the society or by post.

The Transfer Document

3.4.5	G	<p>The Transfer Statement or Transfer Summary does not have to be a separate document. In practice it will usually be convenient to include it in a comprehensive Transfer Document which will also contain the notice of the meeting at which the Transfer Resolutions are to be moved, an explanation of the transfer procedure (including details of the confirmation stage - see section 3.6) and a description of the requirements of the society's Rules concerning entitlement to vote. It may also be convenient to include additional material required by the Authority in connection with a flotation. However, the statutory Transfer Statement or Transfer Summary within the Transfer Document should be clearly identified as such (either by printing it on a different colour of paper or by some other means). An illustrative example of the structure of a Transfer Document containing a Transfer Statement is given in Annex 1 to this chapter. A Transfer Document containing a Transfer Summary should take much the same form (in that case, the Transfer Statement made available to the members on request could be a separate document).</p>
3.4.6	G	<p>If shares in the successor company are proposed to be offered to members, either for subscription or free of charge, the society will need to consider whether and, if so, how it should combine the information relevant to the members' decision on the proposed transfer, and that relevant to the share offer, in one document. The two requirements differ, particularly in extent. Combining the Transfer Statement and share prospectus may run the risk of confusing the issues for some members.</p>
3.4.7	G	<p>The Authority and its staff may be willing, but only if time and its resources permit, to comment informally on material additional to the statutory Transfer Statement which the board proposes to put to the members. The Authority considers that, if asked, it can best help the board and the members by making informal comments at the formative stage. However, it will only comment on the clear understanding that the final decision on what information to put to the members outwith the Transfer Statement is for the board to decide. The Authority is conscious that it may have to assess such additional material in the light of representations on the society's application for confirmation of the proposed transfer, and any comments which it does offer are without prejudice to its position in those proceedings.</p>
3.4.8	G	<p>However, the Authority cannot undertake the additional work of reviewing and commenting upon the draft Transfer Summary. As is noted in paragraph <i>BSOG</i> 3.4.4, the board alone is responsible for ensuring that the Summary fairly and accurately summarises the prescribed information in the Transfer Statement, and that it fulfils the requirements of the 1986 Act and the Transfer Regulations. As with the other information provided to the members in addition to the Transfer Statement, the Authority will review the Transfer Summary at the confirmation stage of the transfer procedure.</p>
Board Statements		
3.4.9	G	<p>The Transfer Regulations, deliberately confine the particulars required to be included in the statutory Transfer Statement to information which is factual and which can be verified by a society and its professional advisers, including</p>

		<p>factual statements of the reasons why the board decided to recommend the transfer and its terms (which may include statements of the board’s belief and opinions, clearly identified as such) and the options it considered for the future conduct of the society’s business, all of which can be verified by reference to the board’s minutes and papers. A board may choose to engage in more general advocacy of the merits or fairness of its proposals elsewhere in the documents sent to members, in which case, the Authority may have to have regard to whether such material is consistent with the information given in the statutory Transfer Statement when it comes to consider an application for confirmation.</p>
3.4.10	G	<p>The whole Transfer Document should be covered by responsibility statements by the directors of the society and the successor company. This may be given along the following lines (either a joint statement or separate statements by each board):</p> <p>“The directors of ... Building Society and the directors of ... accept responsibility for the information relating respectively to the society and the company which is contained in this document. To the best of the knowledge and belief of the directors (who have taken all reasonable care to ensure that such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information”.</p>
<p>Application and Authority Approval</p>		
3.4.11	G	<p>It will be helpful to both the society and the Authority for the society to consult the Authority about the outline structure of, and main features to be contained in, the Transfer Document at an early, formative stage. The Authority will also be prepared to consider a full specification of the proposed cash or share distribution scheme. Thereafter, a formal written application for approval of the statutory Transfer Statement must be made to the Authority by, or on behalf of, the board and accompanied by a draft Transfer Statement which should be as complete as is reasonably practicable at that stage, together with the fee prescribed by the current Fees Rules.</p>
3.4.12	G	<p>The Authority will then consider the application and decide whether or not to approve the Transfer Statement. It must satisfy itself that:</p>
		<p>(1) in its opinion, the terms of the transfer scheme described in the Transfer Statement are consistent with the 1986 Act;</p>
		<p>(2) the Transfer Statement contains particulars of the matters required by the Transfer Regulations;</p>
		<p>(3) there is no further material information which it appears to the Authority, on the basis of what it knows at that time, is relevant to the decision of the members and is appropriate to the Transfer Statement (since that Statement carries the explicit approval of the Authority);</p>
		<p>(4) the information in the Transfer Statement is presented clearly, in a balanced way, is consistent with the facts as known to the Authority,</p>

			and is supported by responsibility statements from the directors and by opinions from the society's auditors and advisers.
		For that purpose, the Authority will require supporting documentary information, including, in particular:	
		(5)	the draft Transfer Agreement, which will incorporate a full specification of the transfer distribution scheme (the Transfer Statement by itself being an inadequate basis for considering the legal issues);
		(6)	a description, supported by opinions of the society's auditors and legal advisers, of the terms of the proposed scheme of distributions of funds or shares to members, Trustee Account Holders and others, including the systems and procedures required to make the distributions and copies of the notices and other documents to be used;
		(7)	in the case of a specially formed company, the draft articles of association of the successor company (including the requisite protective provisions);
		(8)	the Rules of the society (6 copies);
		(9)	the full accounts and auditors' reports on which the financial information is based;
		(10)	a checklist of the information required by the Transfer Regulations showing where each item may be found in the draft Transfer Statement.
3.4.13	G	The process of consideration will consist of discussions and correspondence between the Authority and the society, which are likely to lead to the production by the society of one or more redrafts of the Transfer Statement to take account of the Authority's comments, and refinements proposed by the society, to improve the clarity, completeness and drafting of the Statement. Clearly, the time necessary to complete this process will depend upon the quality and completeness of the draft Statement submitted with the first application, the complexity of the proposed terms of the transfer and whether they include any novel features, and whether it proves necessary to apply to the High Court for the determination of any legal issues. The Authority will seek to deal with the process efficiently and expeditiously. However, its speed of response will necessarily be affected by the factors referred to above as well as the commitments and priorities of the Authority's relevant resources. The draft Transfer Statement must also be fully verified, to the satisfaction of the board, which process may be expected to take up to 6 weeks.	
3.4.14	G	The Fees Rules provide that a further fee is payable by the society each time it submits a revised draft Transfer Statement to the Authority for approval. However, the Authority may waive or reduce the additional fee where it is satisfied that the revisions to the original, or previous, draft are not substantial.	
3.4.15	G	When the society has settled on the final draft of a Transfer Statement which the Authority is minded to approve, the society should submit two	

		authenticated copies of the final draft Transfer Statement to the Authority with the following documents:
	(1)	a certified copy of the Transfer Agreement made between the society and the successor company;
	(2)	the Memorandum and articles of association of the successor company;
	(3)	a checklist of the information required to be included in the Transfer Statement pursuant to the Transfer Regulations;
	(4)	certified copy of an opinion from the society's auditors pursuant to paragraph 17 of Part I of Schedule 1 to the Transfer Regulations;
	(5)	certified copies of any other experts' reports or opinions which appear or are referred to in the Transfer Statement;
	(6)	certified copy of an opinion from the successor company's auditors pursuant to paragraph 17 of Part I of Schedule 1 to the Transfer Regulations;
	(7)	statutory accounts of the society and its connected undertakings for the previous 3 financial years, together with a reconciliation between those accounts and the figures appearing in the Transfer Statement;
	(8)	in the case of an existing company, consolidated statutory accounts of the company/group for the previous 3 financial years, together with a reconciliation between those accounts and the figures appearing in the Transfer Statement;
	(9)	certified copy of a letter of consent from the society's auditors relating to the issue of the Transfer Statement;
	(10)	in the case of an existing company, certified copy of a letter of consent from the successor company's auditors relating to the issue of the Transfer Statement;
	(11)	certified copy of a letter of consent from the Banking Regulator relating to the issue of the Transfer Statement with the inclusion of a statement as to the willingness of the Banking Regulator to authorise or, as the case may be, to continue to authorise the successor company on terms which will enable it to carry on the business it will have as a result of the transfer;
	(12)	certified copies of letters of consent from any other experts relating to the issue of the Transfer Statement with the inclusion of any reports or opinions referred to in paragraph <i>BSOG</i> 3.4.15(5);
	(13)	certified copies of responsibility letters signed by the directors of the society (see paragraph <i>BSOG</i> 3.4.10);
	(14)	certified copies of responsibility letters signed by the directors of the

			successor company (see paragraph <i>BSOG</i> 3.4.10);
		(15)	certified copies of the minutes of the boards of the society and the successor company approving the Transfer Statement, the Transfer Agreement and related documents and approving the release of the responsibility letters mentioned in <i>BSOG</i> 3.4.15(13) and <i>BSOG</i> 3.4.15 (14) (respectively) to the Authority;
		(16)	an assurance from the directors of the society concerning the society's register of members and its systems (see paragraph <i>BSOG</i> 3.5.15);
		(17)	a declaration by the directors of the society, and a similar declaration (as appropriate) by the directors of the successor company, along the following lines:
			“We confirm that the statutory Transfer Statement was approved at a meeting of the Board of Directors of the Society held on (.....). The Directors of the Society agreed that copies of the responsibility letter could be made available to the Financial Services Authority in connection with this application. We also confirm that apart from the inclusion of [.....] no other changes have been made to the statutory Transfer Statement from the Pre-Approval proof dated (.....) handed to you on (.....) and that no changes have been made to the Transfer Agreement from the draft dated (.....) and handed to you on (.....).”
			“We hereby request pursuant to our application dated (.....), that the Financial Services Authority approves, in accordance with paragraph 4(3) of Schedule 17 to the 1986 Act, the contents of the statutory Transfer Statement so far as they concern the prescribed matters (as defined in paragraph 1 of that Schedule) and any matter of which particulars are required to be given under paragraph 3(1)(b) of that Schedule.”
3.4.16	G		The Authority's statement of approval of the Transfer Statement will be given as is set out in Annex 1.
3.4.17	G		The Authority's approval of the Transfer Statement will be confirmed by returning to the society one authenticated copy of the Transfer Statement with the Authority's certificate of approval signed by an authorised signatory for the Authority. The society will be asked to give 50 copies of the printed Transfer Document and Transfer Summary, if any, to the Authority when they are available. There is no statutory requirement for copies of the Transfer Statement and Transfer Summary to be placed on the public file of a society but, because they are both public documents, the Authority will arrange for copies of the Transfer Document and Transfer Statement, if printed separately, to be placed on the public file. If a public announcement of the transfer proposal is not to be made until after the Authority has approved the Transfer Statement, or until the Transfer Document is sent to the society's members, the Document and Statement will not be placed on the public file until after the announcement. None of the other documents referred to in paragraph <i>BSOG</i> 3.4.15 above will be placed on the public file.

3.4.18	G	The number of copies of the Transfer Statement to be printed will, of course, depend upon whether a society intends to distribute a Transfer Summary to its members with the notice of the general meeting. In that case, the society must make its own judgement about the number of copies of the full Transfer Statement to be printed, bearing in mind the requirements of paragraph 4(2) of Schedule 17 that sufficient copies must be available at every office or branch of the society and for despatch by mail.
A Note on Style		
3.4.19	G	A Transfer Document is bound to be lengthy and somewhat complex. It has to contain a lot of information, but its complexity will depend to a large extent on the terms of the transfer, particularly the transfer distribution scheme, proposed by the board. Bearing in mind that the purpose of the Transfer Statement is to provide information to the generality of members, it should be written in a clear and concise style and, so far as possible, in plain English. The Authority will be concerned that, because the statutory Transfer Statement is largely concerned with matters of fact, those matters are presented clearly and unambiguously. To the extent that it is necessary to include statements of the opinion or belief of the board, those statements should be clearly identified as such in the Transfer Statement. The board's views on the fairness and merits of the proposed transfer and its terms will form a separate part of the Transfer Document, as discussed in paragraph <i>BSOG</i> 3.4.9. Annex 1 suggests a structure for the Transfer Document which is designed to present its readers with a clear and logical sequence of topics. The Authority suggests that one of the main tasks of the society's project manager (see paragraph <i>BSOG</i> 3.2.13) should be to ensure that the Transfer Document is drafted in a clear and concise style. This will be a great help in achieving the Authority's approval of the Transfer Statement, and the board's verification of the whole Transfer Document, without undue difficulty and within a reasonable timescale.

3.5	General Meetings and Resolutions	
Resolutions and Voting Majorities		
3.5.1	G	This section describes the requirements of the 1986 Act concerning members' entitlement to vote, the register of members and the sending of notices of meetings. It also discusses general meeting arrangements, the resolutions and majorities required and the counting of votes. The directors of a society must satisfy themselves that they observe the general law on meetings, the relevant provisions of the 1986 Act and the society's own Rules. The 1986 Act provides that a transfer must be approved by the requisite Transfer Resolutions in accordance with paragraph 30 of Schedule 2 (Section 97(4)(c)) as follows:
		(1) a borrowing members' resolution passed on a poll by a simple majority of borrowing members qualified to vote and voting (see paragraph 29(1) of Schedule 2 for the definition of a borrowing members' resolution); and
		(2) a shareholding members' resolution (see definition in paragraph 27A of Schedule 2) passed on a poll by a majority of at least 75% of shareholders qualified to vote and voting, and on which:
		(a) in the case of a conversion, not less than 50% of shareholders qualified to vote on a shareholding members' resolution voted; or
		(b) in the case of a takeover, not less than 50% of shareholders qualified to vote on a shareholding members' resolution (or shareholders so eligible who held not less than 90% of the total share balances held on the voting date by all shareholders qualified to vote) voted in favour;
		provided that, in each case, notice has been duly given that the resolution is to be moved as a shareholding members' resolution or a borrowing members' resolution, as the case may be, and, in the case of the shareholding members' resolution, that the resolution will not be effective unless it satisfies the requirements specified in 3.5.1 (2) A member may vote either in person at the meeting or by appointing a proxy, and paragraphs 33(1) and 33A of Schedule 2 provides that the voting on Transfer Resolutions may not be conducted by postal ballot or by electronic ballot.
3.5.2	G	Section 99(2) of the 1986 Act provides (see paragraph <i>BSOG</i> 3.3.24) that, where a society proposes to pay compensation to directors or other officers for loss of office or diminution of emoluments, attributable to the transfer, such compensation must be approved by a special resolution of the society's members; that is, a resolution passed by a majority of at least 75% of members (both shareholding and borrowing members together) qualified to vote and voting (paragraph 27 of Schedule 2 to the 1986 Act). This resolution is separate from the Transfer Resolutions required to approve the other terms of transfer. The Treasury has not made regulations under Section 99(3) of the

		1986 Act to set limits below which compensation may be paid without the authority of a special resolution. Therefore, in every case where compensation is proposed, the members must vote on the proposal as a separate issue from whether they approve the proposed transfer itself. “Other officers” include, in addition to the Chief Executive and Secretary, any persons who exercise managerial functions under the immediate authority of a director or the Chief Executive of a society (see “manager” and “officer” in Section 119 of the 1986 Act).
3.5.3	G	As is described in paragraphs <i>BSOG</i> 3.3.26 and <i>BSOG</i> 3.3.27, if the terms of a transfer include provision for increased emoluments of directors or other officers in consequence of the transfer, an ordinary resolution approving any such provision must be put before a meeting of the society. An ordinary resolution is passed by a simple majority of members (both shareholding and borrowing members voting together) qualified to vote and voting. However, it is not required that the resolution must be put to the same meeting as the Transfer Resolutions, neither is approval of the ordinary resolution required to authorise such increased emoluments which, as terms of the transfer, are authorised by the passage of the Transfer Resolutions. The purpose of Section 99A of the 1986 Act is to give the members an opportunity to express their views on these matters separately from their decision on whether or not to approve the transfer and its terms.
Notice of the Meeting		
3.5.4	G	Paragraph 22 of Schedule 2 to the 1986 Act requires that notice of a meeting shall be given to every member of a society who would be eligible to vote at the meeting. The notice is also to be given to every member who will attain the age of 18 years on or before the date of the meeting, and to every person who becomes a shareholding or borrowing member of the society after the date of the notice but before the date specified by the society as the final date for the receipt of proxy voting forms. Note also that the Transfer Statement or the Transfer Summary, as the case may be, must also be sent to every member entitled to notice of the meeting (paragraphs 2 and 4(1) of Schedule 17 to the 1986 Act).
Entitlement to Vote		
3.5.5	G	Paragraph 5 of Schedule 2 to the 1986 Act provides that no person may be a member of a building society unless he or she is a shareholding member or a borrowing member. A shareholding member is a person who holds a share in the society (that is, an investment in a share account or PIBS). A borrowing member is a person who is indebted to the society in respect of a loan fully secured on land. However, the Rules may provide that borrowing membership is conferred by a loan substantially secured on land, or shall cease if the loan is foreclosed or the land is taken into possession by the society. A minor (that is a person under 18 years of age) may be a member, but may not vote on any resolution.
3.5.6	G	The mandatory provisions of Schedule 2 to the 1986 Act concerning a member’s entitlement to vote on a resolution, which must be reflected in societies’ Rules, are that the member must be a member on the voting date,

		must have been a member at the end of the last financial year before the voting date (paragraph 23(1) of Schedule 2) and must have attained the age of 18 years (paragraphs 5(3) and 34(2) of Schedule 2) on or before the date of the meeting. So far as borrowing members are concerned, the member is not entitled to vote in that capacity if his indebtedness to the society at any relevant time is less than £100 (paragraphs 29(2) and 36 of Schedule 2).
3.5.7	G	However, Schedule 2 specifies the following further provisions, some, none or all of which may be included in a society's Rules with respect to the entitlement of shareholding members to vote on any resolution; a person must (see Schedule 2 paragraphs 23(3) to (5) and 36):
		(1) have a qualifying shareholding (which must not be set higher than £100), in one or more share accounts or PIBS, on the "qualifying shareholding date";
		(2) hold shares on the voting date; and
		(3) have held shares continuously between those two dates.
3.5.8	G	The "qualifying shareholding date" is either: the last day of the financial year preceding the voting date; or, if the voting date falls during that part of a financial year which follows the conclusion of the society's AGM commenced in that year, the first day of the period beginning 56 days before the date of the meeting. Therefore, if a society's Rules, following the BSA Model Rules (Fifth Edition), include the provisions concerning shareholding and continuity of membership, described in paragraph <i>BSOG</i> 3.5.7, and if the voting date is later than the AGM in that year, a person to be entitled to vote on a shareholding members' resolution must:
		(1) have been a shareholding member on the last day of the previous financial year;
		(2) have held shares to the value of at least £100 on the day 56 days before the date of the meeting;
		(3) have held shares continuously from the 56 th day through to the voting date; and
		(4) hold shares on the voting date.
		But note that there is no requirement for continuity of shareholding between 3.5.8(1) and (2) (In contrast, in the case of an ordinary or special resolution, membership at 3.5.8(1) may be satisfied by either borrowing or shareholding membership provided the shareholding member satisfies the other conditions of (2) to (4) in order to vote in his or her capacity as a shareholder.) Note also that a person cannot meet a requirement for "holding shares" on a given date, or during a given period, by relying on his holding of a share account with an overdrawn balance; and a person cannot meet a requirement for being a "member" on a given date (for example, at 3.5.8(1)) by relying on his holding of such a share account.

3.5.9	G	<p>The mandatory provisions of Schedule 2 concerning entitlement to vote on a borrowing members’ resolution are, as noted above, that the member must have been, and be, indebted to the society for at least £100 (whether on one or more accounts) at the end of the last financial year before the voting date, and on the voting date, in respect of an advance fully secured (or, if the Rules permit, substantially secured) on land (paragraphs 5(2), 23(1), 29(2) and 36 of Schedule 2) and have attained the age of 18 years by the date of the meeting (paragraphs 5(3) and 34(2) of Schedule 2). But note that there is no dispensation in the 1986 Act for the Rules to reduce the qualifying amount below £100, nor to provide for a continuity of membership qualification.</p>
3.5.10	G	<p>Schedule 2 makes provision in respect of joint shareholders (paragraph 7) and joint borrowers (paragraph 8). The only person entitled to exercise the right to vote on behalf of the joint shareholders or joint borrowers is the one who is named first in the records of the society, described respectively as the “representative joint holder” or the “representative joint borrower”.</p>
3.5.11	G	<p>A member may vote once only on any resolution, irrespective of the number of accounts he or she may hold. The amount of the balance(s) held on account(s) is not material, except to qualify to vote - see paragraphs <i>BSOG</i> 3.5.6 to <i>BSOG</i> 3.5.8. Thus, a member with several share accounts and/or several mortgage accounts, whether as sole and/or representative joint holder, may vote once only on any resolution. When the membership votes as a whole on an ordinary or a special resolution, each member may vote only once, whether he or she is a shareholding or a borrowing member or both. Where shareholding members and borrowing members vote separately, as on the Transfer Resolutions, members entitled to vote may vote only once, if a shareholding member, on the shareholding members’ resolution and once, if a borrowing member, on the borrowing members’ resolution. A person entitled to vote both as a shareholding member and as a borrowing member may of course, vote once on each resolution.</p>
3.5.12	G	<p>The “voting date” is defined by paragraph 23(6) of Schedule 2 as, for this purpose, either:</p>
		<p>(1) for members who appoint a proxy, the last date specified by the society for the receipt of proxy voting forms, which may not be more than 7 days before the date of the meeting (paragraph 24(6) of Schedule 2). A proxy vote remains valid if the member ceases to be a member after the proxy voting date but before the date of the meeting (paragraph 24(2) of Schedule 2); or</p>
		<p>(2) for all other members, the date of the meeting.</p>
3.5.13	G	<p>The guidance given in the foregoing paragraphs of this section is intended to give a general description of the provisions of the 1986 Act and of the Rules suggested by the BSA Model Rules. Societies are advised to satisfy themselves that they observe the specific provisions of the 1986 Act and of their own Rules.</p>
Register of Members		

3.5.14	G	<p>Every society is required to maintain a register of the names and addresses of its members and whether each member is a shareholding member or a borrowing member or both (Schedule 2, paragraph 13). The register should, so far as possible, be “de-duplicated”; that is, multiple account holders should be identified and their names recorded once only in the register. A society’s systems must also be capable of recognising those members who are eligible to vote by, for example, aggregating share account balances of multiple account holders to check that they have the requisite qualifying shareholding, by checking members’ continuity of shareholding, and by identifying minors (see paragraphs <i>BSOG 3.5.5</i>, <i>BSOG 3.5.6</i> and <i>BSOG 3.5.9</i>). This information is required to ensure that the notice of the meeting is sent to all the members entitled to receive it, and that the scrutineers have adequate systems to validate the votes cast on the Transfer Resolutions.</p>
3.5.15	G	<p>The directors of a society contemplating a transfer must satisfy themselves, in consultation with their external auditors, or other advisers, that the society’s systems are capable of delivering the information described above. The Authority will require an assurance on this point when the society applies for approval of the Transfer Statement. One of the criteria which the Authority has to consider at the confirmation stage is whether some relevant requirement of the 1986 Act or the Rules was not fulfilled (see section 3.6).</p>
3.5.16	G	<p>The problem of avoiding duplication in the register of members is significant for most societies of any size. Societies generally now seek to establish, when new accounts are opened, whether or not the applicant is an existing member and, if so, which accounts are relevant to voting and other membership rights. The task of identifying multiple account holders is complicated by confidentiality requirements. For example, if two accounts are held by a Mr A Smith and a Dr A Smith, both at the same address, the society cannot know (in the absence of other information such as date of birth) whether the two accounts belong to the same person, one opened before and one after he qualified, or by the doctor and his son. A letter of enquiry to one asking about both accounts would risk breaching customer confidentiality. If it is the same person, there is a risk that he will be given the opportunity to vote twice or, if neither account holds more than £100 but they aggregate above that qualifying amount, be denied a vote to which he is entitled. It is good practice for a society, when it has announced its intention to transfer its business, to write to all its members individually setting out the information about them which it holds on its records, inviting them to confirm that the information is correct and to say whether they have received more than one such letter as a shareholder or as a borrower.</p>
3.5.17	G	<p>Where a society identifies a number of accounts which appear to be held by a single member, but it cannot be sure, then it must send separate meeting notices in respect of each account which satisfies the qualifying conditions for entitlement to vote. Where such accounts do not separately entitle the member to vote but would do so if aggregated (by satisfying the £100 minimum shareholding condition) the society may consider it advisable to send separate notices in respect of each account with the warning that, on the information available to it, the society believes that the member is not eligible to vote. However, its systems should identify the possible multiple holding so that, if</p>

		more than one vote is received in respect of that group of accounts, the scrutineers are alerted to the possibility, and can check the proxy forms for evidence of invalid duplicate votes. The voter's declaration suggested by the BSA Model Rules, in conformity with paragraph 34 of Schedule 2 to the 1986 Act, provides some protection against votes being cast by minors, but none against duplicate votes. It is, however, the duty of each society to make sure that its register of members is reliable.
General Meeting Arrangements		
3.5.18	G	Paragraphs <i>BSOG</i> 3.5.19 to <i>BSOG</i> 3.5.25 consider the requirements for sending notices of meetings and Transfer Statements, or Transfer Summaries, to members, and the conduct of meetings at which Transfer Resolutions are to be moved. It is for societies to satisfy themselves that they comply with the relevant requirements of the 1986 Act, their Rules and the general law on meetings.
Notice of Meeting		
3.5.19	G	The statutory requirements concerning notices to members are in paragraph 22 of Schedule 2 to the 1986 Act. Notice of the meeting must be given to each shareholding and borrowing member of the society who would be eligible to vote at the meeting if the meeting were held on the date of the notice (a single date for all notices irrespective of when they are despatched). In addition, notice must also be given to any person who will attain the age of 18 years after the date of the notice but on or before the date of the meeting, and to every person who becomes a shareholding or borrowing member of the society after the date of the notice but before the final date for receipt of proxy voting forms, provided, in each case, that the member will be entitled to vote. Note also that the Transfer Statement or Transfer Summary must be sent in or with the notice to every person entitled to receive it (paragraphs 2 and 4 of Schedule 17 to the 1986 Act). Accidental omission to give notice of a meeting to any person entitled to receive it does not invalidate the proceedings at the meeting. However, "accidental omission" does not include a systemic failure to send notices (e.g. omitting to send notices to new shareholders or borrowers, or omission of a group or class of members from the mailing list arising from a fault in a computer programme), nor all cases of error by management - see also paragraph <i>BSOG</i> 3.5.38.
3.5.20	G	The 1986 Act also provides, in paragraph 21 of Schedule 2, for the length of notice to be given to members. The period of notice given must be not less than 21 days or such longer period as the society's Rules prescribe. The precise procedures for sending notices, the way in which the days are to be counted, and presumed receipt of notices duly sent, will normally be set out in the Rules. Particular points to note are:
		(1) the 21 days' notice expires with the closing date for the receipt of proxy voting forms, not the date of the meeting;
		(2) if reliance is to be placed on a provision in the Rules that notices can be deemed to be served 24 hours after posting, then first class post or equivalent means of delivery should be used. However, it is advisable

		to allow a margin of at least an extra day or two, but more if second class post is used;
		(3) if a society contracts with a commercial mailing firm, it must ensure that the firm is comprehensively instructed about the society's despatch and delivery requirements, and the society should carry out spot checks to satisfy itself that its instructions are being properly carried out. A failure by the contractor may invalidate the meeting, even if the society itself has used its best endeavours to police the operation.
3.5.21	G	The Transfer Statement or Transfer Summary, as the case may be, is required, by paragraph 4(1) of Schedule 17 to the 1986 Act, to be sent "in or with" the notice of the meeting to every member entitled to that notice. As is suggested in section 3.4, it may be expedient to include both in a comprehensive Transfer Document or booklet.
3.5.22	G	Notices and Statements or Summaries need not be sent to any member in whose case the society has reason to believe that communications sent to him at his registered address are unlikely to be received by him (paragraph 14 of Schedule 2 to the 1986 Act). In those circumstances, a society is required to place notices of the meeting prominently in every branch office, or to place advertisements in newspapers circulating in the areas in which the society's members live. Such notices or advertisements must be published at least 21 days before the date of the meeting, and must state where members can obtain copies of the Transfer Summary, the Transfer Statement, the Transfer Resolutions and proxy voting forms (paragraph 35 of Schedule 2 to the 1986 Act).
3.5.23	G	It should be noted, however, that a member's "registered address" may not be the address shown in the society's register of members but a different address to which the member has requested that communications from the society be sent (paragraph 13(4) of Schedule 2 to the 1986 Act).
Conduct of the Meeting		
3.5.24	G	The meeting should be held at a time and place considered by the board to be most convenient for the generality of the society's members. This may not necessarily be the same as the traditional time and place for the AGM. In deciding on this, the board should take account of the geographical location of their members, and the probability that an unusually large number of members may wish to attend a meeting to consider a proposed transfer.
3.5.25	G	Subject to the society's Rules, its chairman will normally chair the meeting. His function as chairman of the meeting is to ensure that all views may be presented and properly discussed. He is unlikely to be able to fulfil that role if he acts also as chief advocate of proposals which are controversial among members. In such cases it might be appropriate to give to another director the tasks of explaining the board's recommendations and of responding to questions from members.
3.5.26	G	A Transfer Resolution cannot be amended at the meeting except in a way which does not change its substance at all. This is because an amendment to

		such a resolution has to be subject to the same procedure and period of notice to members as the resolution itself. If a board decides, after due notice of such a resolution has been sent to the members, that the resolution should be amended, then it will be necessary to submit the amended resolution, with due notice, to a general meeting at a later date, unless of course there is still time to fulfil the notice requirements.
Conduct of the Voting		
3.5.27	G	The conduct of the voting must not only be fair but also be seen to be fair, otherwise the result may be called into question by representers at the confirmation stage. The votes must be counted by independent scrutineers. The board may ask the scrutineers, in advance of the meeting, for a running tally of the number of votes being cast if it thinks it might properly encourage more members to vote if the response is low. However, to ask the scrutineers how the votes are being cast, before the time comes at the meeting to instruct proxies, carries the risk of accusations, however unfounded they may be, and possible challenge at the confirmation stage on the grounds that the board suppressed proxy votes against the Resolutions, or unduly influenced members to vote in favour. A board which asks the scrutineers for a running tally of votes, and which circulates its members with further exhortations to vote, must be prepared to argue its case in the face of such accusations at the confirmation hearing. Any circular to members sent after the Transfer Document was sent to them must, therefore, be very carefully considered.
3.5.28	G	Experience has demonstrated the need for societies to take the greatest care to ensure that they comply strictly with the statutory procedural requirements and their own Rules on meetings and resolutions. The person chairing the meeting should ensure that he or she is well briefed and aware of the Rules and the general law relating to procedural resolutions, such as resolutions to adjourn the meeting. The Authority will require a confirmatory report from the scrutineers on the validity of the voting procedures when the society applies for confirmation (see paragraph <i>BSOG</i> 3.5.34).
3.5.29	G	The procedures for the conduct of proxy voting will normally be provided for in the society's Rules, in conformity with paragraphs 24 and 34 of Schedule 2. The 1986 Act requires that every proxy form sent by a society to its members must enable the member to direct the proxy how to vote (paragraph 24(4A)). In addition, to minimise the risk of the society's proxy voting procedures being misunderstood, the Authority recommends that the design of the proxy form is carefully considered (preferably a self-contained form clearly to be returned intact) and that it should include:
		(1) adequate space to insert the name of a proxy other than the chairman of the meeting, and a statement (which must also appear in the notice of the meeting) that the proxy appointed need not be a member of the society (a reminder that the voting member's own name should not be inserted will also be helpful);
		(2) an explicit statement that if the member does not instruct his proxy to vote for or against the resolution, then the proxy will cast the vote, or

			abstain, as he thinks fit;
		(3)	the declaration, as provided by the Rules, in accordance with paragraph 34 of Schedule 2;
		(4)	full recital of the text of the shareholding members' or borrowing members' resolution(s) or, if this is not practicable (e.g. because of space restrictions), a clear indication that the full text may be found in the notice of the meeting;
		(5)	instructions as to the return of completed proxy forms, including the last effective date for receipt by the society or by the scrutineers. A pre-addressed and pre-paid envelope or other sealed means of return should be provided.
3.5.30	G	The 1986 Act does not require societies to send proxy voting forms to members with notices of meetings. However, the Authority believes that, on a matter as important as a transfer, and bearing in mind the 50% turnout (conversion) and 50% support (takeover) requirements on the shareholding members' resolutions, societies would be well advised to send a proxy voting form to members with the meeting notice. If a society decides, nevertheless, not to send proxy forms to members entitled to vote, then it should make clear to the members that proxy voting forms can be obtained on demand from its branches and/or by application to a central point.	
3.5.31	G	The arrangements for the collection of the proxy forms should be such as to secure confidentiality and to avoid the risk of loss, whether accidental or deliberate. The Rules may provide for return of proxy forms to the scrutineers either directly or to the society's principal office. Where proxy forms are returned to the society's offices, the Authority recommends that the procedures should incorporate the following features:	
		(1)	the proxy form should be enveloped or otherwise sealed so that the members' voting instructions are concealed;
		(2)	the envelope provided should be clearly marked so that the society can readily identify and separate it from other mail without the envelope being opened;
		(3)	staff responsible for receiving and sorting mail should be given specific instructions about the handling of proxy forms and the overriding importance of security;
		(4)	secure storage of proxy forms should be provided up to the point at which they are handed over to the scrutineers;
		(5)	equivalent handling and security procedures should be applied to proxy forms handed in at branches.
3.5.32	G	The Authority suggests that proxy voting forms for shareholders and borrowers should be easily distinguishable, perhaps by colour coding, both as an aid to members who may be entitled to vote in each capacity, and as an aid to the	

		scrutineers counting the votes.	
3.5.33	G	Members may attend the meeting and vote in person. There must, therefore, be satisfactory systems in place in accordance with the Rules to identify and cancel any proxy votes they may previously have returned.	
Scrutineers' Report			
3.5.34	G	The scrutineers are responsible for checking the validity of votes cast in person and by proxy. The scrutineers must be independent of the society and not have a direct interest in the result of the voting. For example, they should not be officers expecting to receive compensation or appointments under the terms of the transfer. It will usually be appropriate to appoint the society's auditors, and it is desirable that they should be appointed not just for the arithmetical count of votes but also to supervise the voting process as a whole so that they are in a position to confirm, after the vote, that all the requirements of the 1986 Act and the society's Rules have been complied with. This would include:	
		(1)	determining and validating member mailing lists for notices of the meeting and Transfer Statements or Transfer Summaries and for Trustee Account Holders (see paragraphs <i>BSOG</i> 3.3.15 and <i>BSOG</i> 3.5.4);
		(2)	despatch procedures;
		(3)	timing of notices and despatch of documents;
		(4)	form and content of proxy voting forms;
		(5)	receipt and custody of completed proxy voting forms;
		(6)	validation of completed proxy voting forms to establish that members are qualified to vote and that forms are properly completed;
		(7)	identification and validation of members attending and voting at the general meeting;
		(8)	voting procedures at the meeting including casting of proxy votes, count of votes cast in person and aggregation of proxy and personal votes cast on the Transfer Resolutions, and on any special resolution required to authorise the payment of compensation to directors or other officers;
		(9)	voting procedures at the meeting, or at another meeting, as the case may be, and the count of votes on any ordinary resolution to approved increased emoluments of directors or other officers (if required).
3.5.35	G	To fulfil the duties outlined above, it is suggested that the scrutineers would need to:	
		(1)	examine the systems and procedures to be employed by the society, before they are implemented, to ensure that they are satisfactory;

		(2)	carry out such checks and tests as they consider necessary during the operation of the procedures as will enable them to be satisfied that the specified procedures are being carried out in practice;
		(3)	provide that where validation functions are carried out by the society's staff this is done under the direction and supervision of the scrutineers;
		(4)	direct and supervise the count of the votes cast both by proxy and personally at the meeting.
3.5.36	G	Validation checks during the counting of votes may be expected to include the following:	
		(1)	only proxy forms which comply with the 1986 Act and the society's Rules have been used;
		(2)	the member is eligible to vote under the 1986 Act and under the society's Rules (NB a proxy vote may still be valid even though the member has ceased to be entitled to attend and vote at the meeting after the closing date for receipt of proxies - see paragraph <i>BSOG</i> 3.5.12 (1));
		(3)	only one proxy form per member eligible to vote is included in the count (separate forms may be sent to and returned by a person eligible to vote on both the shareholding members' resolution and the borrowing members' resolution);
		(4)	minors are excluded and that there is an explicit confirmation by each member voting by proxy that he is aged 18 or over;
		(5)	the proxy form is completed and signed and is otherwise valid (where a proxy form lacks a signature but is otherwise valid, it is usual, if time permits, for the scrutineers to return the form to the member for signature and return in a pre-paid envelope).
3.5.37	G	The scrutineers' initial report will be made to the society at the meeting (which may be adjourned for this purpose). The Authority will require, in support of a society's application for confirmation under Sections 97(4)(d) and 98 of the 1986 Act, a report from the scrutineers on the result of the vote on each Resolution (distinguishing between votes cast in person and by proxy), the total number of members eligible to vote (and the proportion of that number that the votes cast represent), the numbers of invalid votes cast and also confirmation that, in the opinion of the scrutineers, the arrangements for the conduct of the voting were such as to ensure that:	
		(1)	notices of the meeting and Transfer Statements or Transfer Summaries were sent to all those entitled to receive them, in accordance with the 1986 Act and the Rules of the society having regard, inter alia, to the matters referred to in this chapter;
		(2)	the periods of notice given complied with the requirements of the 1986 Act and of the society's Rules, taking into consideration established

			conventions for the counting of days;
		(3)	there were satisfactory procedures to ensure the security of proxy voting forms and to minimise the risk of loss or unauthorised access;
		(4)	there were satisfactory procedures to ensure that the count of votes cast personally at the meeting included only votes cast by members eligible to vote and who had not mandated, or had withdrawn, a proxy vote.
3.5.38	G		In relation to the notice of the meeting, the scrutineers' report may properly have regard to the provision of paragraph 22(3) of Schedule 2 to the 1986 Act that "accidental omission to give notice of a meeting to, or non-receipt of notice of a meeting by, any person entitled to receive notice of the meeting does not invalidate the proceedings at that meeting". It should be noted, however, that there is authority to the effect that "accidental" and "non-receipt" would not cover all cases of "error" on the part of the society, for example an erroneous decision of management not to send notices to particular persons or groups of persons.
3.5.39	G		The Authority would find it helpful if the scrutineers' report would also comment upon any procedural difficulties encountered and, if the numbers of invalid votes appear to be significant, give an analysis of the reasons why votes were found to be invalid (see also section 3.6).

3.6	Confirmation	
3.6.1	G	No transfer can take effect until it has been confirmed by the Authority. This section first describes the form of application and public notice required. It then explains the Authority's view of how the statutory Confirmation Criteria should be interpreted. Finally, it gives guidance on the procedure customarily followed by the Authority when considering confirmation applications and hearing representations. Sections 97(4)(d) and 98(2) of, together with Part II of Schedule 17 to the 1986 Act, provide that when the necessary Transfer Resolutions have been passed the society must apply to the Authority for confirmation of the transfer in such manner as the Authority may direct. The society is also required, by paragraph 7 of Schedule 17, to publish notices of its application in one or more of the London, Edinburgh and Belfast Gazettes as the Authority directs and, if it so directs, in one or more newspapers. The choice of official Gazettes and national or local newspapers will, of course, have regard to the area in which the society's members live.
3.6.2	G	The application should specify the date on which the transfer is intended to take effect and should be accompanied by two authenticated copies of the Transfer Agreement. The scrutineers' report described in section 3.5, and a certified copy of the minutes of the general meeting at which the Transfer Resolutions were moved, together with a transcript of the meeting, must also be enclosed with the application, together with 10 copies each of the Transfer Document and the Transfer Summary (if sent), and copies of all other documents sent to members and any advertising material in connection with the proposed transfer. If a Transfer Summary was sent, the application should also be accompanied by a checklist of the information prescribed by Schedule 2 to the Transfer Regulations showing where each item may be found in the Transfer Summary.
3.6.3	G	A pro forma public notice of application, and pro forma letter of application are at Annex 2. The appropriate fee is payable with the application, and a further fee is payable by the society if there is an oral hearing of the application, as prescribed by the Fees Rules.
The Confirmation Criteria: Statutory Provisions		
3.6.4	G	Section 98(2) and (3) of the 1986 Act provides that the Authority must confirm a proposed transfer unless it considers that any one or more of the following four Confirmation Criteria apply:
		(1) some information material to the members' decision about the transfer was not made available to all the members eligible to vote; or
		(2) the vote on any resolution approving the transfer does not represent the views of the members eligible to vote; or
		(3) there is a substantial risk that the successor will not have –
		(a) such permission under Part IV of the Act or

		(b)	such permission under paragraph 15 of Schedule 3 to the Act (as a result of qualifying for authorisation under paragraph 12 of that Schedule), as will enable it to carry on the business which it will have as a result of the transfer without being taken (by virtue of section 20 of the Act) to have contravened a requirement imposed on it by the Authority under the Act; or
		(4)	some relevant requirement of the 1986 Act or of the Rules of the society was not fulfilled.
		Section 98(4) of the 1986 Act then provides that the Authority shall not be precluded from confirming a transfer of business by virtue only of the non-fulfilment of some relevant requirement of the 1986 Act or the Rules (the Fourth Criterion in 3.6.4(4)) if it appears to the Authority that the failure could not have been material to the members' decision about the transfer, and the Authority gives a direction under that subsection that the failure is to be disregarded. Section 98(7) then provides that a failure to comply with a relevant requirement of the 1986 Act or the Rules shall not invalidate a transfer, once confirmed.	
3.6.5	G	Where the Authority would be precluded from confirming a transfer by reason of any of the defects specified in the Confirmation Criteria, Section 98(5) and (6) of the 1986 Act provides that it may direct a society to remedy the defects. A direction under Section 98(5) may, amongst other things, require a society to:	
		(1)	call a further meeting; for example, to vote again in the light of a revised Transfer Statement containing material information previously omitted or after correction of defects in the systems for sending meeting notices and Transfer Statements or Transfer Summaries and validation of votes;
		(2)	secure the variation of the Transfer Agreement; or
		(3)	secure the alteration of the protective provisions in the articles of association of a specially formed successor company.
		If the Authority is then satisfied, having considered evidence furnished by the society, that the defects have been substantially remedied, it must confirm the transfer. If not, then confirmation must be refused.	
Scope of the Authority's Powers			
3.6.6	G	The Authority's powers in connection with applications for confirmation of a transfer are confined to considerations of whether, in the light of the facts, any of the Confirmation Criteria apply. It is not for the Authority to consider, or make judgements about, the merits of a proposed transfer or the fairness of its terms; these matters are first for the board of a society, and then for its members, to decide. Once the members have approved the transfer and its terms, the Authority has no powers to require a society to make any changes to those terms, although it may direct a society to remedy any failure to comply	

		with a relevant requirement of the 1986 Act as a condition of confirmation.	
3.6.7	G	<p>The Authority has no general power to determine disputes between a society and its members, nor to seek to enforce other legislation or the general law. Disputes concerning services provided by societies in the ordinary course of their business are generally a matter, in the first instance, for a society's internal complaints procedure. They may also fall within the jurisdiction of the Financial Services Ombudsman Scheme. Disputes between a building society and a member of the society, in his or her capacity as a member, in respect of any rights or obligations arising from the Rules of the society or the provisions of the 1986 Act, fall within the jurisdiction of the High Court or, in Scotland, the Court of Session (Section 85 of and Schedule 14 to the 1986 Act).</p> <p>However, the Authority does have power, on the written application of certain members, to direct that the member has the right to obtain names and addresses from the society's register of members. Before it gives such a direction, the Authority is required to be satisfied that the member requires that right for the purpose of communicating with other members of the society on a subject relating to its affairs, and must have regard to the interests of the members as a whole and to all the other circumstances (paragraph 15 of Schedule 2 to the 1986 Act). A fee is payable by the applicant. Chapter 1A of this Guide gives guidance on applications for access to the register of members.</p>	
Purpose of Confirmation			
3.6.8	G	The purpose of the confirmation process is to enable:	
		(1)	interested parties to make representations with regard to the Confirmation Criteria;
		(2)	the society to respond to those representations;
		(3)	the Authority to make such enquiry as it considers necessary to reach informed conclusions on each of the Confirmation Criteria.
3.6.9	G	<p>The Authority, in reaching its view on each of the Confirmation Criteria, has not only to assess the points made to it in representations, and the society's responses, but also to make such further enquiries as it considers necessary. In deciding how far it should pursue such enquiries, the Authority has to have regard to the role and effect of confirmation, and to the mischiefs which it is intended to prevent. The Authority considers that one role of confirmation is to provide a protection to members against the provision to them by the society of information which is inadequate, obscure or misleading, and against voting irregularities: in other words to ensure that the vote represents the informed decision of the members. The Authority would hope that this safeguard would work in the majority of cases by causing the board of a society to take care during the preparation of the Transfer Statement not to put confirmation at risk on this account; otherwise the Authority might find that it had to withhold confirmation at the last stage. In considering the First Criterion, the Authority will have regard to the totality of the information provided to the members by the board of a society, and not exclusively to the Transfer Statement and Transfer Summary.</p>	

3.6.10	G	The task of the Authority is accordingly:	
		(1)	to reach a considered view on each of the Confirmation Criteria;
		(2)	if that view is that none applies, to confirm;
		(3)	if one or more of the First Three Criteria apply, to direct the appropriate remedial action, or to refuse confirmation;
		(4)	if the Fourth Criterion applies, to consider whether it is appropriate to direct that failure be disregarded; if not, to direct the appropriate remedial action or to refuse confirmation.
		<p>In considering the Confirmation Criteria, the Authority may well have to look again at the Transfer Statement, or at issues which were considered in connection with approving that Statement. It may also then have to consider the adequacy of the Transfer Summary. In doing so, it has a duty to consider information and arguments put to it by representers and by the society, which of their nature were not available earlier, as well as those arising from its own consideration of the Criteria. The Authority would clearly only change the view reached at the time of approval of the Transfer Statement if there were good reason to do so. But it is under a duty to examine the Statement and connected issues at the time of confirmation in the light of any new information and arguments which become available. Accordingly, the Authority cannot be bound at the confirmation stage to the view that was taken at the earlier stage as to whether further factual information should be included in the Transfer Statement or as to the accuracy of its contents or the view taken as to the legality of the scheme.</p>	
3.6.11	G	The task of considering each of the Confirmation Criteria would still be necessary even if there were no representations. Without such enquiry and consideration the confirmation process would not properly be carried out. The Authority's view of how the Confirmation Criteria should be interpreted and applied is given in the following paragraphs.	
The First Criterion			
3.6.12	G	This criterion requires the Authority to consider whether some material information was not made available to the members. The Authority's own view, in which it concurs with the view previously adopted by the Commission in its confirmation decisions, can be summarised as follows:	
		(1)	the words "made available to all the members eligible to vote" mean that the criterion is mainly, if not exclusively, directed to the information provided by a society to the generality of its members;
		(2)	the extent of "information ... not made available" can reasonably be assessed by considering how far the totality of information made available falls short of what might be expected to be put to its members by a financial institution of standing and repute seeking to put sufficient information and a fair and balanced assessment of it, and the board's conclusions, to the members to enable them to take an

			informed decision;
		(3)	the words “material to the members’ decision” require the Authority then to focus on whether it is within the bounds of reasonable possibility that the members’ decision would have been different had any deficiency in the information been made good, i.e. whether it could have changed the decisions on voting of sufficient members to lead to a different conclusion. If it is within the bounds of reasonable possibility that the deficiency might have changed the outcome, it is not for the Authority to determine whether it would actually have done so - it should put the decision back to the members. This test requires the Authority to take account both of the size of the vote and of the size of the majority within it;
		(4)	the relevance of a particular piece of information to an investor and to a borrower may well be different. Accordingly, it is necessary to consider materiality separately in relation to the shareholding members’ resolution and the borrowing members’ resolution.
3.6.13	G	The Authority’s approach to determining whether this criterion is met is accordingly:	
		(1)	to review the material put to members, in the light of the representations made and the society’s responses, but also taking points of its own accord;
		(2)	to consider, on the basis of that review, what information relevant to the decision of shareholders, or of borrowers, or both, might reasonably have been expected to be put to members by the board of a society of repute considering its fiduciary duty, and the extent to which (if at all) the information actually put falls short of that;
		(3)	to consider separately in relation to the shareholding members’ resolution and in relation to the borrowing members’ resolution, whether any deficiency so identified was sufficient to amount to “information material to the members’ decision”.
The Second Criterion			
3.6.14	G	This criterion requires the Authority to consider whether the votes on the Transfer Resolutions do not represent the views of the members. The main mischief to which it appears to be directed is a resolution approved by a small and unrepresentative vote.	
The Third Criterion			
3.6.15	G	This criterion is concerned with a matter of fact, to be established by reference to the Banking Regulator if a different body.	
The Fourth Criterion			
3.6.16	G	This criterion requires the Authority to consider whether the relevant	

		requirements of the 1986 Act and the Rules have been fulfilled. The phrase “relevant requirement of this Act or the rules of the society” appears explicitly three times in Section 98 of the 1986 Act:
	(1)	sub-section (3)(d) in the specification of this criterion;
	(2)	sub-section (4) which gives the Authority power to disregard certain non-fulfilments;
	(3)	sub-section (7) which provides that a failure to meet such a relevant requirement shall not invalidate a transfer of business, although such failure by a society without a reasonable excuse is a criminal offence.
		The interpretation of the phrase is also directly relevant to sub-section (5) - the power of the Authority to give the society a direction to remedy defects specified in paragraphs (a) to (d) of sub-section (3).
3.6.17	G	Sub-section (8) defines “relevant requirement”:
		“(8) In this section “relevant requirement”, with reference to this Act or the rules of a society, means a requirement of the applicable provisions of this Act or of any rules prescribing the procedure to be followed by the society in approving the transfer and its terms.”
		Section 97(2) in turn defines “the applicable provisions” other than Section 97 as: “section 98, section 99, section 99A, section 100, section 101, section 102, sections 102B, 102C and 102D, paragraph 30 of Schedule 2 and Schedule 17.”
		It will be noted that Section 102A (joint account holders) of the 1986 Act is not an applicable provision and, thus, not a relevant requirement.
3.6.18	G	The Authority considers that sub-section (8) of Section 98 should be read naturally. The words “prescribing the procedure to be followed by the society in approving the transfer and its terms” apply only to the Rules, in order to specify which of the Rules of the society are “relevant requirements”. They do not apply as a matter of normal construction of the sentence to the “applicable provisions of this Act”; nor is it necessary that they should do so, since those provisions are specified in Section 97(2).
3.6.19	G	In the Authority’s view, the above interpretation of “relevant requirement of the 1986 Act” stems from the natural construction of Sections 98(8) and 97(2) which, in turn, is necessary to give effect to Parliament’s intentions for Section 98(5), (6) and (7). The Authority recognises that this interpretation does not quite fit Section 98(4). The test which the Authority has to apply in the case of sub-section (4) to a non-fulfilment of a relevant requirement of the 1986 Act is: “if it appears to the Authority that it could not have been material to the members’ decision about the transfer”. That test clearly is designed to relate to a failure to meet a procedural

		requirement or to some other failure which might have an effect on the voting.
3.6.20	G	The wording of Section 98 is such that no construction of the phrase is entirely free from difficulty. The Authority's view is that the wording, and the intentions of Parliament, are best met by following the natural construction of sub-section (8), as a result applying a wide interpretation in sub-sections (3), (5) and (7), and implicitly in (6), but only considering that it is open to the Authority to make a direction under sub-section (4) in relation to non-fulfilment of a procedural requirement or other failure to which the test in that sub-section is apposite.
3.6.21	G	The Authority accordingly considers that the relevant requirements are those in:
		(1) sections 97 to 102, and 102B to D of, together with paragraph 30 of Schedule 2 to and Schedule 17 to the 1986 Act;
		(2) the Transfer Regulations; and
		(3) the Rules which prescribe the procedure to be followed; that is, in particular, the Rules concerning: membership; special meetings; notice of meetings; procedure at meetings; entitlement of members to vote on resolutions; appointment of proxies; and joint shareholders and borrowers.
Procedure		
3.6.22	G	The procedure to be followed in confirmation proceedings is prescribed by Part II of Schedule 17 to the 1986 Act. Any interested party has the right to make written and/or oral representations to the Authority with respect to a society's application for confirmation. Written representations are to be copied to the society, which is to be afforded the opportunity to comment on them orally at the hearing of its application or in writing. (The FSA will in general be prepared to use electronic rather than paper-based communication if requested by the society or a prospective representer and some of the following procedures may have to be adapted accordingly.)
Representations		
3.6.23	G	Persons making representations should state why they claim to be interested parties, for example, their category of membership of the society, and the ground or grounds for their representations by reference to the Confirmation Criteria discussed above. Notice of a person's intention to make oral representations must be in writing. Such notices and written representations must reach the Authority at the address, and by the specified date customarily given in the Transfer Document issued to members and subsequently confirmed by notice published in the official Gazettes and newspapers as required by the 1986 Act. Persons who make written representations but subsequently decide also to make oral representations must, nevertheless, give notice of that intention in writing to the Authority by the same date. Representations received out of time will not be considered unless, exceptionally and at the sole discretion of the Authority, they appear to the

		Authority to raise matters of substance relevant to the Confirmation Criteria which are not already under consideration.
3.6.24	G	Representations or notices to the Authority will fall into one of the following three categories:
		(1) written representations only;
		(2) written representations with notice of intention to make oral representations;
		(3) notice of intention to make oral representations only.
3.6.25	G	The Authority will acknowledge the receipt of each representation or notice and will send a copy of the chapter of this Guide on confirmation procedures to each representer. It will send copies of all written representations and notices to the society and will afford it an opportunity to comment on the written representations.
3.6.26	G	The Authority will consider the written representations in category 3.6.24(1) and the society's responses to them in advance of the date set for hearing oral representations. Copies of the society's comments on representations in category 3.6.24(2) will be sent to those who made the representations so that they may concentrate their oral representations on the points which they consider to remain at issue. A person making written representations who also wishes to see the society's response must, therefore, also give notice of intention to make oral representations. The society may, exceptionally, apply to put to the Authority in confidence documents which the society considers to be commercially sensitive: the Authority will decide on the merits of each case whether, and on what terms, to accept them as being confidential. Persons in category 3.6.24(3) will be asked to inform the Authority, in advance of the hearing, of the subject and general grounds of the representations they intend to make, and their responses will be copied to the Society.
3.6.27	G	Interested parties may join together in making collective representations and they may also appoint a person, either one of their number or another, to represent them at the hearing. They should notify the Authority in advance if this is what they intend to do.
Conduct of the hearing		
3.6.28	G	The Authority will usually appoint one or more persons to hear and decide an application on its behalf. In the absence of notices of intention to make oral representations the Authority would expect to decide the application, having regard to the written representations, the society's responses and other information available to it, without the need for a public hearing. If there is a public hearing, an additional fee is payable by the society.
3.6.29	G	The Authority will notify the society and those making oral representations of the time and place of the hearing. If there are a significant number of persons wishing to make oral representations, then the hearing may extend beyond one day and may be adjourned from time to time and from place to place. The

		Authority will try to advise participants of the day when they may expect to make their representations and of when the society's representatives may be expected to respond.
3.6.30	G	The Authority expects that hearings will be in public. Members of the general public and the press will be asked to wait outside at the outset of the hearing. The participants will then be asked if any of them has good reason to object to the admission of the general public and the press (such as, for example, the need to refer to personal financial affairs). The Authority may decide that parts of the hearing shall be in private if that appears to it to be desirable. If there are no reasonable objections, the general public and the press will then be admitted, within the limits of the space available. Only the representatives of the society and those who have given due notice of intention to make oral representations may address the Authority.
3.6.31	G	The procedure will be informal. While all participants will be invited to speak concisely and to avoid repetition, the Authority will be considerate towards those who are not professionally represented. The panel taking the hearing on behalf of the Authority may question the participants as the hearing proceeds. The sequence of events will be broadly as follows:
		(1) any preliminary matters (such as the admission of the public or other procedural questions) will be dealt with;
		(2) the chairman of the Authority panel will introduce the proceedings;
		(3) the representatives of the society will be invited to present the application for confirmation, including a description of the events at the meeting at which the Transfer Resolutions were put to the members, the voting on the Resolutions, and any other matters which they wish to introduce at that stage;
		(4) the other participants will be invited to make their representations; where appropriate the Authority would expect to call them in a list marshalled, so far as possible, by subject matter;
		(5) the representatives of the society will be invited to reply to, or comment on, the points made by the other participants;
		(6) the other participants will be invited to comment on the society's replies insofar as those replies raised new issues.
3.6.32	G	This procedure may be varied according to the circumstances at the hearing, and is intended only as a guide to the probable order of events. The hearing may be adjourned if the Authority considers that necessary to enable facts to be checked or additional information to be obtained.
The Authority's decision		
3.6.33	G	The Authority will not normally give an oral decision at the end of the hearing, but may be expected to reserve its decision to be issued later in writing, setting out its reasons. Copies of the written decision will be sent to the participants,

		and can be purchased by any other person. The Authority will ask the registration team to place a copy on the public file of the society.
--	--	-------------------------------------------------------------------------------------------------------------------------------------------

3.7	Transfers under Direction	
3.7.1	G	<p>This section describes the Authority’s powers to direct a society to transfer its business to a company, and to proceed by board resolution, and the modified transfer procedure consequently prescribed by the 1986 Act. Section 42B of the 1986 Act provides that, if the Authority considers it expedient to do so to protect the investments of shareholders or depositors, it may direct a society, inter alia, to transfer its business to a company within a specified time (subsection (1)(b)). In such a case, or where the Authority would have directed a transfer, but for the fact that negotiations were already under way, the Authority may also direct that the approval of the transfer shall be by board resolution rather than the Transfer Resolutions. In these circumstances, because neither a Transfer Statement nor Transfer Resolutions are required, the 1986 Act requires the society instead to send to every member entitled to notice of a meeting a statement (referred to below as a “transfer notification statement”) before it applies for confirmation of the transfer (paragraphs 9 and 10 of Schedule 8A to the 1986 Act). Finally, in these circumstances, the first two Confirmation Criteria concerning information made available to, and the views of, the members (see section 6) are replaced by a single criterion:</p>
		<p style="text-align: center;">“the members or a proportion of them would be unreasonably prejudiced by the transfer;”</p> <p>(paragraph 11 of Schedule 8A to the 1986 Act).</p>
3.7.2	G	<p>Where a society is proceeding under a Section 42B direction by board resolution, the Transfer Statement is replaced by a transfer notification statement and a general meeting of the society is not required. The contents of the transfer notification statement are prescribed by Schedule 3 to the Transfer Regulations. In brief, the members are to be informed that the statement is issued on the responsibility of the directors of the society and the successor company, and:</p>
		<p>(1) that the board, acting under direction of the Authority, has resolved to transfer the business;</p>
		<p>(2) of the confirmation procedure, including the last date for receipt by the Authority of written representations and notices of intention to make oral representations and the expected date of the hearing of the society’s application;</p>
		<p>(3) of the name, address and nature of the successor company, and the proposed vesting date;</p>
		<p>(4) of the consequences for the members, including the loss of membership rights in the society, any changes in the terms and conditions of share and mortgage accounts, and deposit protection schemes;</p>
		<p>(5) the terms of any distribution of funds or shares in the successor company and of the Statutory Cash Bonus; and</p>

		(6)	of the interests of the directors and other officers of the society in the transfer, including any compensation or increase in emoluments to which the Authority has given its consent under paragraphs 7 and 8 of Schedule 8A to the 1986 Act.
3.7.3	G		The transfer notification statement must have been approved by the Authority before it is sent to the members. Applications for approval should, in general, follow the procedure described in paragraphs <i>BSOG</i> 3.4.11 to <i>BSOG</i> 3.4.17, and the final draft of the statement should be accompanied by the relevant documents listed in paragraph <i>BSOG</i> 3.4.15, but as appropriate to the particular case and the less extensive information the statement is required to contain.
3.7.4	G		Section 3.5 (General Meetings and Resolutions) does not apply, except that the directors will need to be satisfied that the society's register of members is correct to enable the society to send transfer notification statements, and notices under Section 102B (Trustee Account Holders) of the 1986 Act, to those to whom they must be sent if the society is to gain the protection of Section 102B(4).
3.7.5	G		When the board has resolved to transfer the business and transfer notification statements have been sent to its members, the society may apply to the Authority for confirmation of the transfer, but using an adaptation agreed with the Authority of the pro forma in Annex 2B. The procedure described in section 3.6 is to be followed, including the publication of notices in the official Gazettes and newspapers and the form of application. However, the lapse of time between each stage of the procedure may be modified according to the particular circumstances of a case, and having regard to the need to protect the investments of shareholders or depositors. While a scrutineer's report will not be required, the Authority will require a report from the society's external auditors on the adequacy of the society's systems to fulfil the requirements of the 1986 Act and the Rules with regard to the sending of transfer notification statements and notices to Trustee Account Holders. This is, of course, relevant to the Authority's consideration of the Fourth Confirmation Criterion.
3.7.6	G		As is noted in paragraph <i>BSOG</i> 3.7.1, the First and Second Confirmation Criteria are replaced, in those circumstances, by a single criterion as to whether the members or a proportion of them "would be unreasonably prejudiced by the transfer". Whether this special criterion applies will be a matter of judgement for the Authority to make in the light of any representations made to it and its own enquiries in respect of the particular case. In making its judgement, the Authority will also have regard to the view it then takes as to whether it should exercise its discretion under Section 100(7) of the 1986 Act to direct that no Statutory Cash Bonus, or a reduced bonus, is to be paid "having regard to what is equitable between the members of the society". It follows also that, in considering the Fourth Criterion, the Authority will take account of the modified procedure.
3.7.7	G		The Fees Rules provide that fees are to be paid to the Authority:
		(1)	with an application for approval of a transfer notification statement

			under paragraph 9(4) of Schedule 8A to the 1986 Act, and a further fee with any subsequent substantial revision;
		(2)	with an application for confirmation under Section 97(4)(d) of, paragraph 6 of Schedule 17 and Schedule 8A to, the 1986 Act; and a further fee if oral representations are to be heard.

3.8	Notification and Dissolution	
3.8.1	G	When the Authority has confirmed a transfer (whether voluntary or under direction) it will notify the Registration team and the society concerned.
3.8.2	G	Section 97(8) of the 1986 Act requires the society to notify the Authority of the vesting date, and it must do so no later than 7 days before that date, and, unless a notice is given under subsection (10), subsection (9) provides that the society shall be dissolved on that date. Subsection (10) provides that, if necessary for the purpose of facilitating the disposal of its shares in its successor, the society may include, in the notice of the vesting date, notice of a later date for the dissolution of the society, and it is on this later date that the society is dissolved. A society which gives such a notice must cease to transact any business as from the notified vesting date, except such as may be necessary to dispose of its shares in its successor.
3.8.3	G	Section 97(7) of the 1986 Act provides that, where a society continues to hold shares in its successor after the vesting date, the consideration for the disposal of those shares, together with any other property, rights or liabilities of the society acquired or incurred after that date, shall be transferred to and vested in the successor company on the date specified for the society's dissolution. All other property, rights and liabilities of the society are to be transferred to the successor company on the vesting date.
3.8.4	G	The registration team will record the relevant date, or dates, notified to the Authority by the society.
3.8.5	G	The society will be dissolved on the vesting date or on the later date for dissolution referred to in paragraph <i>BSOG</i> 3.8.2, and its registration will subsequently be cancelled by the registration team under the provisions of Section 103(1)(a) of the 1986 Act.

3.9	Timetable	
3.9.1	G	The society will need to draw up a project plan covering the key elements in the transfer process and the relationships between them, and specifying when it wishes to receive the necessary clearances from the Authority. The time needed for the process will depend, among other things, on the length of time it takes to settle the final terms of the distribution scheme, the complexity of those terms and whether the scheme raises new legal issues (perhaps requiring resolution by application to the High Court), and the time needed to verify the register of members and the record of Trustee Account Holders. It will also be affected by the facility with which the society and its advisers can develop satisfactory documents and respond to enquiries and representations. The plan and the timetable will, of course, need to cover all that will be required of the society, and the successor company, in relation to the requirements of the Banking Regulator, and of the Authority concerning the listing of any shares in the successor company.
3.9.2	G	It will be helpful for the society to discuss its plans with the Authority during their formative stages, when the Authority will be prepared to give a view on their feasibility. However, although the Authority may agree that a planned timetable appears to be manageable, it cannot undertake to meet any deadlines set by the society. In particular, the Authority cannot be constrained in the proper performance of its statutory functions by, for example, the society's wish to put the Transfer Resolutions to a SGM on or before the date of the AGM in that year, or the planned flotation date. The Authority will be mindful of the need to ensure that there is adequate time, compatible with its other business and commitments, to:
		(1) consider whether the proposed distribution scheme is in conformity with the 1986 Act;
		(2) consider and approve the Transfer Statement, including time to deal with renewed applications if significant changes have to be made;
		(3) give interested parties an opportunity to make considered representations at the confirmation stage, for the society to respond to those representations, and for the Authority to consider all the evidence and arguments, including making any necessary further enquiries of its own; and
		(4) write a reasoned confirmation decision.
3.9.3	G	The likely sequence of events is as follows:

Stage 1	Informal preliminary discussions with the Authority and, if different, the Banking Regulator on both substance and timing of the proposed transfer.
---------	-----------------------------------------------------------------------------------------------------------------------------------------------------

Stage 2	Public announcement of the transfer proposals. The Authority will be ready to comment on drafts of the announcement and any supporting material, although the terms of the announcement are for the society to decide and the Authority is not required to approve them.
Stage 3	Consultation with the Authority on the outline structure of, and main features to be contained in, the Transfer Statement, and on the full specification of the proposed cash and/or share distribution scheme.
Stage 4	Submission to the Authority of the prudential information described in section 3.2.
Stage 5	Initial application to the Authority, with the appropriate fee, for approval of a full draft of the Transfer Statement, contained within a draft Transfer Document, supported by the material described in paragraph <i>BSOG</i> 3.4.12.
Stage 6	Consideration by the Authority, and discussion with the society and its advisers, of the draft documents, including submission by the society of revised drafts as necessary. At this stage, the Authority's staff will also be ready to comment informally on draft proxy forms and other material proposed to be sent to the members with, or in advance of, the Transfer Document. By this stage also, the society ought to have undertaken any mailing to members which it thinks necessary to verify its register of members (see paragraphs <i>BSOG</i> 3.5.14 to <i>BSOG</i> 3.5.17), and to notify them of the rights of Trustee Account Holders (See paragraph <i>BSOG</i> 3.3.18).
Stage 7	(if necessary) Further application to the Authority, with a further fee, for approval of a significantly revised Transfer Statement (see paragraph <i>BSOG</i> 3.4.14).
Stage 8	Production of printer's proofs of the draft documents. At this stage it will be advisable for the society to determine, perhaps by mailing to a sufficient number of staff, whether the notice and Transfer Document pack (especially if it contains the Transfer Statement) is deliverable through domestic letter boxes.
Stage 9	Informal indication by the Authority that it is satisfied with near-final proofs of the Transfer Statement, and the Transfer Agreement.
Stage 10	Formal submission to the Authority of the final draft of the Transfer Statement, together with the supporting documents described in paragraph <i>BSOG</i> 3.4.15.
Stage 11	Approval by the Authority of the Transfer Statement. One proof copy of the Statement, identified and signed on behalf of the Authority, will be returned to the society.
Stage 12	Printing and distribution of meeting notice and Transfer Document to members of the society in time to be received by them at least 21 days before the last date for receipt of proxy forms for the meeting at which the Transfer Resolutions are to be moved. The Authority would appreciate being provided with a number (to be agreed) of copies of the final printed Transfer Document and any Transfer Summary and of the Transfer Statement if printed separately for distribution on request. Although not required by the 1986 Act, one copy of each will be passed

	to the Registration team to be placed on the public file of the society.
Stage 13	The meeting at which the Transfer Resolutions are moved.
Stage 14	If the Transfer Resolutions are passed, application to the Authority for confirmation and publication of notices of that application in the official Gazettes and newspapers. The application should be accompanied by the requisite fee and the material specified in paragraph <i>BSOG</i> 3.6.2.
Stage 15	Last date for receipt by the Authority of representations with respect to the applications. A minimum of four weeks should be allowed between Stages 14 and 15 and a further four weeks to Stage 16 (with extra time allowed for any public holidays which intervene). Representations will be copied to the society for its comments as and when they are received. The Authority will then require sufficient time before the hearing to consider and assess all the representations and the society's responses, and to make any further enquiries which it may think necessary.
Stage 16	The confirmation hearing.
Stage 17	Notification to the society and representers, and publication, of the Authority's Decision. It is advisable to allow a minimum of four weeks between Stages 16 and 17, again allowing extra time for any public holidays.
Stage 18	Notification by the society to the Authority of the vesting date and, if later, the date of dissolution of the society.
Stage 19	Vesting date and, if later -
Stage 20	Dissolution of the society.

3.9.4	G	When considering the proposed vesting date, the society will no doubt consult its merchant bank advisers as to timing, particularly when shares are to be offered for subscription to raise new capital, having regard to other possible major share offers.
-------	---	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Annex 1
Illustrative structure for a
TRANSFER DOCUMENT
containing a Transfer Statement

Title page:

Should include a recommendation on the following lines:

“When considering what action you should take, you are recommended to obtain advice from your solicitor, accountant, or other professional financial adviser.”

and the directors’ responsibility statement (short form with cross reference to item B9)

PART A

1. Summary of the Transfer procedure and Special General Meeting

The Transfer procedure
Notice of the SGM
Directions to the SGM venue
Guidance on entitlement to vote

2. Background to, and rationale for, the proposals

Merits of the proposed transfer
Conclusions and Recommendations

PART B: THE STATUTORY TRANSFER STATEMENT

Issued in accordance with Section 98 of and Schedule 17 to the Building Societies Act 1986

(**Note:** If a Transfer Summary is issued it must include a statement that this Transfer Statement will be handed or sent to members forthwith free of charge and on request, and where and how it can be obtained.)

3. Review of Options and Value of Consideration

Introduction - to explain that under the proposed terms of the transfer the business of the society will be transferred to an authorised bank and that approval of the terms of the transfer will include, if such is the case, the distribution of part of the consideration for the transfer to non-members. Should also explain that the transfer is subject to approval by the members, authorisation by the Banking Regulator and confirmation by the Authority, and include a brief explanation of the termination provisions of the Transfer Agreement
Factual statement of strategic options considered
Disclosure of any non-confidential proposals received
Reasons for choice and recommendation of proposed transfer

Reasons for choice and recommendation of terms of the proposed distribution scheme

Valuation of the business and methodology (takeover only)

Estimated value of shares in successor

Analysis of distribution of shares and/or cash as between members, Trustee Account Holders and non-members respectively

Statement that approval of the Transfer Resolution includes approval of distributions to non-members

4. Consequences for shareholders, borrowers and employees

The distribution of shares and/or cash in the successor company

The amount of the society's reserves and Statutory Cash Bonus

Any changes in the terms and conditions of share and deposit accounts, mortgages and loans

Changes in the factors relevant to determining retail interest rates (product pricing)

Comparative average interest rates on retail deposits and loans of the society and the successor company over the previous 3 financial years (takeover only)

Loss of membership rights in the society

The statutory deposit protection scheme (summary of any differences)

Arrangements for settlement of disputes

Consequences for staff, including changes in terms of employment

5. Interests of directors and other officers of the society and successor company

Directors and other officers of the society

Directors and other officers of the company

Interests of directors, officers and employees in the share and/or cash distribution and the Statutory Cash Bonus

Any compensation or increased emoluments under Sections 99 and 99A of the 1986 Act

6. The management, activities and operations of the successor company following the transfer

Management

Activities and operations, including a comparison of their range and relative importance with those of the society and any intended change, together with, in the case of a takeover, comparative business indicators of the society and the successor company for each of the previous 3 financial years

Structure and activities of any group to which the company belongs

Ownership of the society's subsidiaries and interests in other associated bodies

Particulars of any person having an interest in 3% or more of the successor company's equity share capital.

Name, head office and principal objects of the company

The protective provisions in the articles of association in accordance with Section 101 of the 1986 Act (conversion only)

The auditors of the society and of the company

7. Financial information

The consolidated financial position of the society and its subsidiaries at the most recent practicable date, and the Society's reserves at that date and the main features of the published annual group accounts for the last 3 years

In the case of a takeover, the consolidated financial position of the successor company/group at the most recent practicable date and the main features of the published annual group accounts for the last 3 years

The share capital of the successor company

Future financial prospects of the successor company

8. General information

Summary of the terms of the Transfer Agreement concerning conditions precedent and termination

Summary of principal rights which will attach to the ordinary shares in the successor company

Costs and expenses of the transfer (including the fee arrangements for merchant bankers)

Whether the transfer will conflict with any contractual arrangements

9. Opinions, reports and consent letters of auditors and other experts

Auditors' opinions

Other experts' opinions

Consent letters

Director's Responsibility Statement

10. Banking Regulator authorisation

11. Statement of statutory approval by the Financial Services Authority

STATEMENT OF STATUTORY APPROVAL BY THE FINANCIAL SERVICES AUTHORITY

Building Societies Act 1986

(c.53)

Approval by the Financial Services Authority of the Transfer Statement of [] Building Society.

The Financial Services Authority (“the Authority”) in exercise of the power conferred on the Authority by paragraph 4(3) of Schedule 17 to the Building Societies Act 1986 (“the 1986 Act”) and considering that the Transfer Statement of [] Building Society (“the Society”) is in conformity with the applicable provisions of the 1986 Act and the Building Societies (Transfer of Business) Regulations 1998 (SI 1998 No. 212) and appears to be factually consistent with the information provided to the Authority by the Society in connection with the Transfer Statement, which information includes the declarations of responsibility by the directors of the Society and of [] -

HEREBY APPROVES the above Transfer Statement so far as its contents concern the matters required to be approved by the said Schedule.

In this approval expressions used in the 1986 Act have the meanings which they bear in the 1986 Act and “the Transfer Statement” means the statement by the Society a draft of which is initialled for the purpose of identification “[]”.

[date]

[Name]

For and on behalf of the Authority

Notes:

This approval does not extend to any matters not forming part of the Transfer Statement as required by the 1986 Act and the Regulations, whether or not such matters are the subject of cross-reference in the statement as so required.

The giving of this approval is without prejudice to any issues which the Authority may have to consider on an application by the Society for confirmation of the transfer pursuant to Section 98 of the 1986 Act.

PART C: ADDITIONAL INFORMATION

- 12. Definitions**
- 13. List of share accounts of the society**
- 14. Documents available for inspection**
- 15. Accountants' report on the successor company**
- 16. Statutory statement for the last financial year**
- 17. Other**

Annex 2
PRO FORMA:

- A. Notice of Application**
- B. Application to the Authority for confirmation**

Annex 2A

Publication of Notice of application to the Authority for confirmation of a transfer in the London, Edinburgh, or Belfast Gazettes and in any newspapers as directed by the Authority.

BUILDING SOCIETIES ACT 1986

Notice under paragraph 7 of Schedule 17 to the 1986 Act

Notice is hereby given that Building Society, Register No.....B, whose principal office is at, desires to transfer its business to, and that the society has applied to the Financial Services Authority to confirm the transfer.

Any interested party may make written representations to the Authority and/or give notice of intention to make oral representations to the Authority with respect to the application. Written representations and notices of intention to make oral representations should be received by the Authority at 25 The North Colonnade, Canary Wharf, London, E14 5HS by 20....Oral representations will be heard by the Authority on20.. at a time and place to be determined by the Authority.

Annex 2B

Form of application to the Authority for confirmation of transfer of business to a company

To the Financial Services Authority

BUILDING SOCIETIES ACT 1986

APPLICATION UNDER SECTIONS 97(4) AND 98(2) OF, AND PART II OF SCHEDULE 17 TO, THE 1986 ACT FOR CONFIRMATION OF A TRANSFER OF BUSINESS TO A COMPANY

..... **BUILDING SOCIETY, REGISTER NO.....B**

The above-named society desires to transfer its business to on20...
[insert vesting date] and applies to the Authority to confirm the transfer.

In making this application the society declares that:

1. At a meeting of Building Society held on20.. the following resolutions were passed:

A shareholding members' resolution, as required by paragraph 30 of Schedule 2 to the 1986 Act, passed in accordance with paragraph [30(2) or 30(3) as the case may be], that Building Society do transfer its business to in accordance with the terms of the transfer agreement, two copies of which, authenticated by the Secretary of the society, are enclosed with this application.

A borrowing members' resolution, as required by paragraph 30 of Schedule 2 to the 1986 Act that Building Society do transfer its business to in accordance with the terms of the above-mentioned transfer agreement.

2. A transfer statement, in accordance with Schedule 17 to the 1986 Act, approved by the Authority, so far as it concerned matters required by that Schedule to be so approved, was [sent] [made available] to each member of Building Society who was entitled to receive it [, and a transfer summary was sent to those members] in accordance with Schedule 17 to the 1986 Act.

(Seal of the Society making the application)

4.1	Introduction	
4.1.1	G	This annex is for the guidance of those making written representations to the Authority and/or those participating in oral confirmation hearings. It sets out the procedures which the Authority intends to follow.
4.1.2	G	The 1986 Act provides that when a society has approved the transfer of its business to a plc by passing the transfer resolutions, it must then obtain confirmation by the Authority of the transfer and its terms (Section 97(4) of the 1986 Act). If the Authority confirms the transfer, then all the property, rights and liabilities of the society, except any shares in its successor company, transfer on the vesting date to the successor company (Section 97(6) of the 1986 Act), which date is specified in or determined by the transfer agreement between the society and the successor company.
4.2	The role of confirmation	
4.2.1	G	The criteria to which the Authority has to have regard are limited. It is not within the Authority's power to make any judgment about the merits or fairness of the proposals which the members have approved.
4.2.2	G	Section 98(2) and (3) of the 1986 Act provide that the Authority must confirm a transfer unless it considers that:
		(1) some information material to the members' decision about the transfer was not made available to all the members eligible to vote; or
		(2) the vote on any resolution approving the transfer does not represent the views of the members eligible to vote; or,
		(3) there is a substantial risk that the successor will not have –
		(a) such permission under Part IV of the Financial Services and Markets Act 2000, or
		(b) such permission under paragraph 15 of Schedule 3 to that Act (as a result of qualifying for authorisation under paragraph 12 of that schedule), as will enable it to carry on the business which it will have as a result of the transfer without being taken (by virtue of section 20 of that Act) to have contravened a requirement imposed on it by the Authority under that Act; or
		(4) some relevant requirement of the 1986 Act or the rules of the society was not fulfilled.
4.2.3	G	These are the only grounds on which the Authority may refuse confirmation, or direct the society to remedy any defects. If the Authority finds that there are defects it may direct the society to take steps to remedy them. If the Authority is then satisfied that the defects have been substantially remedied, it must confirm the transfer; if not, it must refuse confirmation (Section 98(5) and (6))

		of the 1986 Act).
4.2.4	G	In the case of the ground mentioned in paragraph <i>BSOG</i> 4.2.2(4), the Authority may direct that non-fulfillment of some relevant requirement of the 1986 Act or of the rules of the society is to be disregarded, if it appears to the Authority that the failure could not have been material to the members' decision (Section 98(4) of the 1986 Act). "Relevant requirement" in this context means a requirement of the provisions of the 1986 Act applicable to the transfer of a society's business (which are Sections 97 to 102 and 102B to D, paragraph 30 of Schedule 2, Schedule 17 and the Transfer Regulations made under the 1986 Act) and any Rules prescribing the procedure to be followed by the society in approving the transfer and its terms (that is, generally, the rules concerning: membership; special meetings; notice of meetings; procedure at meetings; entitlement of members to vote on resolutions; appointment of proxies; and joint shareholders and borrowers).
4.2.5	G	The 1986 Act provides that any accidental omission to give the notice of the meeting to, or non-receipt of the notice by, a person entitled to receive it does not invalidate the proceedings at the special general meeting (Schedule 2, paragraph 22(3)).
4.3		Purpose of the hearing
4.3.1	G	The purpose of the hearing is to enable interested parties to make representations, and to enable the Authority to make such enquiry as it considers necessary, both of the society and of those making representations, in order to reach an informed view. The Authority will examine all the representations, whether written or oral, in relation to the four statutory criteria described in paragraph <i>BSOG</i> 4.2.2. In the light of that examination, and consideration of all the representations and the society's response, the Authority will make its decision.
4.4		Making representations to the Authority
4.4.1	G	Any interested party has the right to make written and oral representations to the Authority with respect to the society's application for confirmation. Those making written representations and those giving notice of intention to make oral representations should state clearly why they claim to be interested parties (e.g. the category of their membership of the society). Those making written representations should also identify the ground or grounds, in paragraph <i>BSOG</i> 5.2.2, to which their representations are directed and it will be helpful if those giving notice of intention to make oral representations will do likewise.
4.4.2	G	Written representations, or written notice of a person's intention to make oral representations, or both, must be addressed to the Financial Services Authority and must reach the Authority at 25 The North Colonnade, Canary Wharf, London E14 5HS by the date quoted in the transfer documentation issued to members. Unwritten representations and notice (for example by telephone) cannot be accepted. Persons who make written representations but subsequently decide also to make oral representations must, nevertheless, give notice of that intention, in writing, to the Authority at the above address by the same date (paragraph 7 of Schedule 17 to the 1986 Act). The Authority will in

		<p>general be prepared to use electronic rather than paper-based communication for notices and written representations if requested by the society or a prospective representer. A specific electronic address will be provided for that purpose, and some of the relevant procedures may have to be adapted accordingly.</p>
4.4.3	G	<p>Representations or notices to the Authority will fall into one of the following three categories:</p>
		<p>(1) written representations only;</p>
		<p>(2) written representations with notice of intention to make oral representations;</p>
		<p>(3) notice of intention to make oral representations only.</p>
4.4.4	G	<p>The Authority will send copies of all written representations to the society, and will afford it an opportunity to comment on them (paragraph 8 of Schedule 17 to the 1986 Act). The Authority will consider the written representations in categories <i>BSOG</i> 4.4.3(1) and <i>BSOG</i> 4.4.3(2), and the society's responses to them. A synopsis of the representations (probably in the form of a summary of each of the main points made and the numbers of persons making each point) and the society's responses may be made available to those participating in the oral hearing. This is intended to inform those making oral representations of the points already under consideration by the Authority with a view to avoiding unnecessary repetition.</p>
4.4.5	G	<p>Copies of the society's comments on representations in category <i>BSOG</i> 4.4.3(2) will be sent to those who made the representations in time for the oral hearing so that they may concentrate their oral representations on the points which they consider to remain at issue. A person making written representations who wishes to see the society's comments must, therefore, also give notice of intention to make oral representations. Any documents referred to in the society's comments will be made available by the society for inspection at a specified place which will be notified to those making oral representations. (The society may, exceptionally, apply to put to the Authority in confidence documents which the society considers to be commercially sensitive: the Authority will decide on hearing argument whether, and on what terms, to accept them as being confidential). Persons in category 4.4.3(3) will be asked to inform the Authority, in advance of the oral hearing, of the subject and general grounds of the representations they intend to make; the Authority will copy any response to the society.</p>
4.4.6	G	<p>Interested parties may join together in making collective representations and they may also appoint a person, either one of their number or another, to represent them at the oral hearing. They should notify the Authority in advance if this is what they intend to do. The Authority will notify this to the society.</p>
4.5		<p>Panel taking the hearing</p>

4.5.1	G	A Panel will be appointed by the Authority to consider and decide the application on its behalf. The panel will conduct the oral hearing if one is required.
4.6	Time and place	
4.6.1	G	Oral hearings will normally start at about mid-morning on the date quoted in the transfer documentation sent to members and at a place which will be notified to the participants. If there is a significant number of persons wishing to make oral representations, then the hearing may extend beyond one day and may be adjourned from time to time and from place to place. The Authority will try to advise participants of the day when they may expect to make their representations, and of when the society's representatives may be expected to respond.
4.7	Procedure at the hearing	
4.7.1	G	The Authority expects that oral hearings will be held in public. Members of the general public and the press will be asked to wait outside at the commencement of the hearing. The participants will then be asked if any of them has good reason to object to the admission of the general public or the press (such as, for example, the need to refer to personal financial affairs). Unless an objection by a participant is upheld by the Authority, the press and the general public will then be admitted, within the limits of the space available. However, the Authority may decide that parts of the hearing shall be in private if that appears to it to be desirable.
4.7.2	G	The procedure will be informal. All participants will be expected to speak concisely and avoid repetition. The Authority will be considerate towards those who are not professionally represented. Members of the Panel taking the hearing may question the participants. The sequence of events will be broadly as follows:
		(1) any preliminary matters (such as the admission of the public or other procedural questions) will be dealt with;
		(2) the chairman of the Panel will introduce the proceedings;
		(3) the representatives of the society will be invited to speak to the application, including a description of the events at the meeting at which the transfer resolutions were put to the members, a statement of the voting on the resolutions, and any other matters which they wish to introduce at that stage;
		(4) the other participants will be invited to speak to their representations. The Authority expects to call them in a list marshalled, so far as possible, by subject matter;
		(5) the representatives of the society will be invited to reply to, or comment on, the points made by the other participants;

		(6)	the other participants will be invited to comment on the society's replies.
4.7.3	G		This procedure may be varied according to the circumstances at the hearing, and is intended only as a guide to the probable order of events. The hearing may be adjourned if the Authority considers that necessary to enable facts to be checked or additional information to be obtained.
4.8	The Authority's decision		
4.8.1	G		At the end of the oral hearing, the Authority will reserve its decision. A copy of its written decision, including its findings on the points made in representations, will be published and copies will be sent to the society, and to those making written and/or oral representations.

**COMPLAINTS SOURCEBOOK (CONSUMER CREDIT RULES)
INSTRUMENT 2006**

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
 - (2) section 156 (General supplementary powers);
 - (3) section 226 (Compulsory jurisdiction);
 - (4) section 234 (Industry Funding);
 - (5) paragraph 13 of Schedule 17 (The Ombudsman Scheme); and
 - (6) section 157 (Guidance)
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

Commencement

- C. This instrument comes into force on 6 April 2007.

Amendments to the Handbook

- D. The Glossary of definitions is amended in accordance with Annex A to this instrument.
- E. The Dispute Resolution: Complaints sourcebook (DISP) is amended in accordance with Annex B to this instrument.
- F. The Fees manual (FEES) is amended in accordance with Annex C to this instrument.

Citation

- G. This instrument may be cited as the Complaints Sourcebook (Consumer Credit Rules) Instrument 2006.

By order of the Board:

23 November 2006

Annex A

Amendments to the Glossary of definitions

In this Annex, any definition which is not underlined is an existing definition also hereby made for the purpose of the Compulsory Jurisdiction.

consumer credit activity

any one of the following activities carried on by a *licensee* or *firm*:

- (a) providing credit or otherwise being a creditor under a *regulated consumer credit agreement*;
- (b) the bailment or (in Scotland) the hiring of goods or otherwise being an owner under a *regulated consumer hire agreement*;
- (c) credit brokerage in so far as it is the effecting of introductions of:
 - (i) individuals desiring to obtain credit to persons carrying on a consumer credit business; or
 - (ii) individuals desiring to obtain goods on hire to persons carrying on a consumer hire business;
- (d) in so far as they relate to *regulated consumer credit agreements* or *regulated consumer hire agreements*;
 - (i) debt-adjusting;
 - (ii) debt-counselling;
 - (iii) debt-collecting; or
 - (iv) debt administration;
- (e) the provision of credit information services; or
- (f) the operation of a credit reference agency;

where at the time of the act or omission complained of:

- (g) the *licensee* or *firm* was:
 - (i) covered by a standard licence under the Consumer Credit Act 1974 (as amended); or
 - (ii) authorised to carry on an activity by virtue of section 34(A) of that Act; and
- (h) the activity was carried on in the course of a business of a type specified in accordance with section 226A(2)(e) of the *Act*;

and expressions used in the Consumer Credit Act 1974 (as amended) have the same meaning in this definition as they have in that Act.

regulated consumer credit agreement

in accordance with section 8 of the Consumer Credit Act 1974 (as amended) an agreement between an individual "the debtor" and any other person "the creditor" by which the creditor provides the debtor with credit of any amount and which is not an exempt agreement for the purposes of that Act;

and expressions used in that Act have the same meaning in this definition.

regulated consumer hire agreement

in accordance with section 15 of the Consumer Credit Act 1974 (as amended) an agreement made by a person with an individual "the hirer" for the bailment or (in Scotland) the hiring of goods to the hirer, being an agreement which

- (a) is not a hire-purchase agreement, and
- (b) is capable of subsisting for more than three months, and
- (c) is not an exempt agreement;

and expressions used in that Act have the same meaning in this definition.

Annex B

Amendments to the Dispute Resolution: Complaints sourcebook (DISP)

In this Annex, underlining indicates new text and striking through indicates deleted text.

2.4.3 R ...

(2) The following are not *eligible complainants*:

- (a) (in the *Compulsory Jurisdiction*), an individual, business, charity or trustee, who was an *intermediate customer* or *market counterparty* in relation to the *firm* in question at the time of the act or omission, and in respect of the activity, which is the subject of the complaint;
- (b) (in the *Compulsory Jurisdiction*, the *Consumer Credit Jurisdiction* and the *Voluntary Jurisdiction*), a *firm*, *licensee* or *VJ participant* whose complaint relates in any way to an activity which the *firm* itself has *permission* to carry on or which the *licensee* or *VJ participant* itself conducts, and which is subject to the *Compulsory Jurisdiction*, the *Consumer Credit Jurisdiction* or the *Voluntary Jurisdiction* of the *Financial Ombudsman Service*

...

2.4.11 R The relationships with the *firm*, *licensee* or *VJ participant* relevant for *DISP* 2.4.10R(2)(a) are:

- (1) the complainant has given the *firm*, *licensee* or *VJ participant* a guarantee or security for a mortgage ~~or~~ loan, actual or prospective *regulated consumer credit agreement*, or an actual or prospective *regulated consumer hire agreement*, or any linked transaction as defined in the Consumer Credit Act 1974 (as amended); or
- (5) ... ~~or~~ or
- (6) the complainant is a *person* about whom information relevant to his financial standing is or was held by the *firm*, *licensee* or *VJ participant* in operating a credit reference agency, as defined by section 145(8) of the Consumer Credit Act 1974 (as amended); or
- (7) the complainant is a *person* from whom the *firm*, *licensee* or *VJ participant* has sought to recover payment under a *regulated consumer credit agreement* or *regulated consumer hire agreement* in carrying on debt-collecting as defined by section 145(7) of the Consumer Credit Act (1974) (as amended).

...

2.6.1 R The *Ombudsman* can consider a complaint under the *Compulsory Jurisdiction* only if it relates to an act or omission by a *firm* in the carrying on of one or more of the following activities (unless the provision described in *DISP 2.6.3G* applies):

...

(6) consumer credit activities;

...

Sch 4.1 G 3 The following powers and related provisions in the *Act* have been exercised by the *FOS Ltd* to make the rules in *DISP*:

...

(7) Section 226A(7) (Consumer Credit Jurisdiction)

(8) Section 229 (Awards)

(9) Schedule 17 paragraph 16B,D

4.2	G		Table: The powers to make rules relating to the new ombudsman scheme are shared between the <i>FSA</i> and the <i>Financial Ombudsman Service (FOS Ltd)</i> . <i>FOS Ltd's</i> rules are subject to <i>FSA</i> consent or approval. The rules made exclusively by <i>FOS Ltd</i> are:	
			<u>DISP 1</u>	<u>1.1.1 BR</u>
				<u>1.1.1 DR</u>
			DISP 2	2.6.9R
				2.6.11R
				<u>2.6.8 A-BR</u>

Annex C

Amendments to the Fees manual

In this Annex, underlining indicates new text.

**PRUDENTIAL REQUIREMENTS FOR INSURERS (AMENDMENT)
INSTRUMENT 2006**

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
 - (2) section 150(2) (Actions for damages);
 - (3) section 156 (General supplementary powers); and
 - (4) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

Commencement

- C. This instrument comes into force as follows:
- (1) The amendments in Annex A to the Glossary of definitions come into force on 31 December 2006.
 - (2) The remainder of this instrument comes into force on 30 December 2006.

Amendments to the Handbook

- D. The Glossary of definitions is amended in accordance with Annex A to this instrument.

Amendments to FSA Instruments

- E. Annex B (Chapters 1 and 2 of GENPRU) to the General Prudential Sourcebook Instrument 2006 (FSA 2006/40) is amended in accordance with Annex B to this instrument.
- F. Annex B (Text of INSPRU) to the Prudential Sourcebook for Insurers Instrument 2006 (FSA 2006/42) is amended:
- (1) by substituting for INSPRU 7.1 the version of INSPRU 7.1 set out in Annex C to this instrument;
 - (2) by deleting INSPRU 7 Annex 1G; and
 - (3) otherwise in accordance with Annex D to this instrument.

G. The General Prudential Sourcebook (Transitional Provisions and Schedules) Instrument 2006 (FSA 2006/51) is amended as follows:

(1) Paragraph C (Commencement) is amended by substituting for subparagraph (1) the following:

"(1) The following provisions of the General Prudential Sourcebook (GENPRU) come into force on 31 December 2006:

(a) GENPRU TP 1 to GENPRU TP 6, GENPRU TP 10 to GENPRU TP 13 and GENPRU TP 15;

(b) Schedules 1 to 6 to GENPRU."; and

(2) Annex A (Chapter TP of GENPRU and GENPRU Schedules) is amended in accordance with Annex E to this instrument.

H. Annex A (Amendments to the Glossary) to the CRD (Consequential Amendments) Instrument 2006 (FSA 2006/53) is amended in accordance with Annex F to this instrument.

Citation

I. This instrument may be cited as the Prudential Requirements for Insurers (Amendment) Instrument 2006.

By order of the Board
15 December 2006

Annex A

Amendments to the Glossary of definitions

In this Annex, underlining indicates new text and striking through indicates deleted text. Where new definitions are being inserted, the text is not underlined.

Part 1: New definitions

Insert the following new definitions in the appropriate alphabetical position:

<i>ICA</i>	<i>individual capital assessment.</i>
<i>individual capital assessment</i>	(in <i>INSPRU</i> and <i>COB</i> 6.12) an assessment by a <i>firm</i> of the adequacy of its capital resources undertaken as part of an assessment of the adequacy of the <i>firm's</i> overall financial resources carried out in accordance with <i>GENPRU</i> 1.2.

Part 2: Amended definitions

Amend the following definitions as shown:

<i>realistic excess capital</i>	(in relation to a <i>with-profits fund</i>) the excess, if any, of the realistic value of assets for the with profits fund over the sum of the realistic value of liabilities and the risk capital margin for that fund, calculated in accordance with <u>has the meaning set out in PRU 7.4.32R.</u>
---------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Annex B

Amendments to Annex B (Chapters 1 and 2 of GENPRU) to the General Prudential Sourcebook Instrument 2006 (FSA 2006/40)

In this Annex underlining indicates new text and striking through indicates deleted text.

...

- 1.3.41 R (1) For the purposes of *GENPRU* and *INSPRU*, an *insurer* or a *UK ISPV* must apply *GENPRU* 1.3.14R to *GENPRU* 1.3.34R (Marking to market, Marking to model, Independent price verification, Adjustments or reserves) to account for:
- (a) investments that are, or amounts owed arising from the disposal of:
 - ...
 - (iv) *units in UCITS schemes, non-UCITS retail schemes, recognised schemes and any other collective investment scheme falling within paragraph(1)(A)(d)(iv) of GENPRU 2 Ann 7Rthat invests only in *admissible assets (including any derivatives or quasi-derivatives held by the scheme)*; and*
 - (b) ...
- (2) ...

...

- 2.1.18 R The *CRR* for any *insurer* to which this *rule* applies (see *GENPRU* 2.1.19R and *GENPRU* 2.1.20R) is the higher of:
- (1) the *MCR* in *GENPRU* 2.1.~~25~~24AR; and
 - (2) the *ECR* in *GENPRU* 2.1.38R.

...

- 2.1.24 R Subject to *GENPRU* 2.1.26R, for an *insurer* carrying on *general insurance business*, the *MCR* in respect of that business is the higher of...

- 2.1.24A R Subject to *GENPRU* 2.1.26R, for an *insurer* carrying on *long-term*

insurance business to which GENPRU 2.1.18R applies the MCR in respect of that business is the higher of:

(1) the base capital resources requirement for long-term insurance business applicable to that firm; and

(2) the long-term insurance capital requirement.

2.1.25 R Subject to GENPRU 2.1.26R, for an insurer carrying on long-term insurance business, but to which GENPRU 2.1.18R does not apply, the MCR in respect of that business is the higher of:

(1) the base capital resources requirement for long-term insurance business applicable to that firm; and

(2) the sum of:

(a) the long-term insurance capital requirement; and

(b) the resilience capital requirement.

2.1.27 G ... The resilience capital requirement is an FSA requirement for regulatory basis only life firms that is additional to the EC minimum requirement for long-term insurance business.

...

2.1.38 R For an insurer carrying on long-term insurance business the ECR in respect of that business is the sum of:

(1) the long-term insurance capital requirement; and

~~(2) the resilience capital requirement; and~~

~~(3) the with-profits insurance capital component.~~

...

Admissible assets in insurance

- (1) (1A) Investments that are, or amounts owed arising from the disposal of:
- ...
- (d) *units* in:
- (i) *UCITS schemes*;
- (ii) *non-UCITS retail schemes*;
- (iii) *recognised schemes*; and
- (iv) any other collective investment scheme where the insurer's investment in the scheme is sufficiently small to be consistent with a prudent overall investment strategy, having regard to the investment policy of the scheme and the information available to the insurer to enable it to monitor the investment risk being taken by the scheme that invests only in admissible assets (including any derivatives or quasi-derivatives held by the scheme);
- ...
- (2B) Debts and claims
- ...
- (3C) Other assets
- ...
- (e) for *long-term insurance business* only, reversionary interests.
- * ~~A firm~~ An insurer may treat amounts recoverable from an *ISPV* as an *admissible asset* if it obtains a *waiver* under section 148 of the *Act*. The conditions that will need to be met, in addition to the statutory tests under section 148(4) of the *Act*, before the *FSA* will consider granting such a *waiver* are set out in *INSPRU* 1.6.13G to *INSPRU* 1.6.18G.
- (2) Subject to (3), where an asset would, but for this paragraph, be capable of falling into paragraph (1)(A)(d) above and one or more other categories in paragraph (1) above, that

asset is only capable of falling into paragraph (1)(A)(d).

(3) Where an asset would, but for this paragraph, be capable of falling into paragraph (1)(A)(f) above and one or more other categories in paragraph (1) above, that asset is only capable of falling into paragraph (1)(A)(f).

...

Annex C

INSPRU 7.1

The following section is all new text, and is not underlined. This replaces the previous version of INSPRU 7.1

7.1 Individual Capital Assessment (ICA)

Application

7.1.1 R *INSPRU 7.1* applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) a *Swiss general insurer*; or
- (3) an *EEA-deposit insurer*; or
- (4) an *incoming EEA firm*; or
- (5) an *incoming Treaty firm*.

7.1.2 R Subject to *INSPRU 7.1.3R*, *INSPRU 7.1* applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, *INSPRU 8.1.4R*; and
- (2) for the *Society*, *INSPRU 8.1.2R*.

7.1.3 R *Managing agents* must carry out assessments of capital adequacy for each *syndicate* they manage by reference to all *open syndicate years* taken together.

Purpose

7.1.4 G *Principle 4* requires a *firm* to maintain adequate financial resources. *GENPRU 2* deals specifically with the adequacy of the *capital resources* element of a *firm's* financial resources.

7.1.5 G The adequacy of a *firm's capital resources* needs to be assessed both by the *firm* and the *FSA*. In *GENPRU 2.1*, the *FSA* sets minimum *capital resources requirements* for *firms*.

- 7.1.6 G The *FSA* also assesses whether the minimum *capital resources requirements* are appropriate by reviewing:
- (1) a *firm's* own assessment of its capital needs; and
 - (2) the processes and systems by which that assessment is made.
- 7.1.7 G In assessing whether the minimum *capital resources requirements* are appropriate, the *FSA* is principally concerned with capital resources as calculated in accordance with *GENPRU 2.2.17R*. However, in carrying out its own assessment of its capital needs, a *firm* may take into account other capital available to it (see *GENPRU 1.2.30R* and *GENPRU 1.2.36R*), although it should be able to explain and justify its reliance on these other forms of capital.
- 7.1.8 G There are two main aims in this section:
- (1) to enable *firms* to understand the issues which the *FSA* would expect to see assessed and the systems and processes which the *FSA* would expect to see in operation for *ICAs* by *firms* to be regarded as thorough, objective and prudent; and
 - (2) to enable *firms* to understand the *FSA's* approach to assessing whether the minimum *capital resources requirements* of *GENPRU 2.1* are appropriate and what action may be taken if the *FSA* concludes that those requirements are not appropriate to a *firm's* circumstances.

General approach

- 7.1.9 G The *rules* in *GENPRU 1.2* require a *firm* to identify and assess risks to its being able to meet its liabilities as they fall due, to assess how it intends to deal with those risks and to quantify the financial resources it considers necessary to mitigate those risks. To meet these requirements, a *firm* should consider:
- (1) the extent to which capital is an appropriate mitigant for the risks identified; and
 - (2) assess the amount and quality of capital required.
- 7.1.10 G *GENPRU 1.2.42R* requires a *firm* to carry out stress tests and scenario analyses for each of the major sources of risk identified in accordance with *GENPRU 1.2.30R*. A *firm* may also approach the assessment of the adequacy of its capital resources in another way. The method should be

proportionate to the size and nature of its business.

- 7.1.11 G In accordance with *GENPRU* 1.2.60R, these assessments must be documented so that they can be easily reviewed by the *FSA* as part of the *FSA's* assessment of the adequacy of the *firm's capital resources*.
- 7.1.12 G The *FSA* may ask for the results of these assessments to be provided to it together with a description of the processes by which the assessments have been made, the range of results from each stress test or scenario analysis performed and the main assumptions made. The *FSA* may also carry out a more detailed examination of the details of the *firm's* processes and calculations.
- 7.1.13 G Based upon this information and other information available to it, the *FSA* will consider whether the *capital resources requirement* applicable to the *firm* is appropriate. Where relevant, the *firm's ECR* will be a key input to the *FSA's* assessment of the adequacy of the *firm's capital resources*. For *firms* carrying on *general insurance business*, the *ECR* is calculated in accordance with *INSPRU* 1.1.72CR. For *realistic basis life firms*, the *ECR* forms part of the *CRR* and is calculated in accordance with *GENPRU* 2.1.38R.
- 7.1.14 G *Firms* that are required to calculate an *ECR* may wish to note that the *ECR* as calculated is based upon the assumptions that a *firm's* business is well diversified, well managed with assets matching its liabilities and good controls, and stable with no large, unusual, or high risk transactions. *Firms* may find it helpful to assess the extent to which their actual business differs from these assumptions and therefore what adjustments it might be reasonable to make to the *CRR* or *ECR* to arrive at an adequate level of *capital resources*.

Methodology of capital resources assessment

- 7.1.15 R Where a *firm* is carrying out an assessment of the adequacy of its overall financial resources in accordance with *GENPRU* 1.2, the assessment of the adequacy of the *firm's* capital resources must:
- (1) reflect the *firm's* assets, liabilities, intra-group arrangements and future plans;
 - (2) be consistent with the *firm's* management practice, systems and controls;
 - (3) consider all material risks that may have an impact on the *firm's* ability to meet its liabilities to *policyholders*; and

- (4) use a valuation basis that is consistent throughout the assessment.

Representative of the firm's characteristics

- 7.1.16 G The *ICA* should reflect both the *firm's* desire to fulfil its business objectives and its responsibility to meet liabilities to *policyholders*. This means that the *ICA* should demonstrate that the *firm* holds sufficient capital to be able to make planned investments and take on new business (within an appropriate planning horizon). It should also ensure that if the *firm* had to close to new business (if it has not already done so), it would be able to meet its existing commitments. The costs of writing new business, the expenses incurred in servicing all liabilities, including liabilities to non-*policyholders*, and the nature of intra-group arrangements and *reinsurance* arrangements should be considered as part of the assessment as well as the costs that would be incurred in the event of closure to new business.
- 7.1.17 G Where a *firm* has not already closed to new business, the *ICA* should be made on the basis that the *firm* closes to new business after an appropriate period. This period should allow for the time it would take for the *firm* to identify the need for closure and to implement the necessary action.
- 7.1.18 G Where including new business would increase the capital resources by more than any increase in the capital required, or reduce the capital required by more than any reduction in available capital, new business should be excluded. To the extent that including new business increases the required capital, a *firm* should consider whether it is appropriate to include the additional amount within the *ICA*.
- 7.1.19 G Any contract that the *firm* is legally obliged to renew should be considered part of the *firm's* existing liabilities and not treated as new business. Such contractual obligations include multi-year *general insurance contracts* and the exercise of options by long-term *policyholders*.
- 7.1.20 G For a *firm* to discharge its financial obligations to *policyholders*, it will incur certain expenses, including payments to the *firm's* own staff, contributions to any pension scheme and fees to outsourcing suppliers or service companies. All of these expenses, and risks associated with these payments, should be considered when carrying out the *ICA*. When considering the appropriate level of expenses in a projection, the *firm* should consider the acceptability of the service provided to *policyholders* and the resources required by the senior management to manage the *firm*.
- 7.1.21 G Where a *firm's* liabilities include payments which are subordinated to liabilities to *policyholders*, these payments do not need to be included within the *ICA*. However, the *ICA* should include all payments that must be made to avoid putting *policyholders'* interests at risk, including any payment on which a default might trigger the winding up of the *firm*. For example, if the principal of a loan could be recalled on default of a coupon payment, coupon

payments over the lifetime of *policyholder* liabilities should be included in the *ICA*. As a further example, declared dividends should be treated as a liability. However, planned dividends that have not been declared need not be included in the *ICA*.

Intra-group capital considerations

- 7.1.22 G It is common for *firms* whose corporate *group* consists of a number of separate legal entities to have intra-group transactions in place. Capital and risk may originate within the *firm* and be passed to another company or may originate in another company and be passed to the *firm*. The *ICA* should consider the underlying effect of intra-group arrangements.
- 7.1.23 G Risks may exist within the individual legal entity from these intra-group transactions. Intra-group transactions should not be treated differently from external transactions just because they are intra-group. However, some intra-group transactions may carry less credit risk than the equivalent external transactions if the *firm* has access to more information regarding the financial position of an internal *reinsurer*. In assessing intra-group risks, consideration should be given, but should not be limited, to:
- (1) future defaults on intra-group *reinsurance* arrangements: *Firms* should consider, for example, a test akin to the credit risk assessment undertaken on external *reinsurance* assets held or future anticipated recoveries; in other cases it may be more appropriate to perform a more explicit assessment of the *group* counterparty's own capital position, to inform the *firm's* exposure to default;
 - (2) non-recoverability on intra-group loans: Even though these transactions occur within the same *group*, there is a risk that an entity may default on such intra-group payments; and
 - (3) non-payment of future internal dividends or transfers: Many entities or funds within a *group* rely on these payments as a means to maintaining their solvency position. There is a risk that the entity paying the dividend or making the transfer may not be able to do so, and *ICAs* performed for separate regulated legal entities or funds within a *group* should consider these risks as appropriate.
- 7.1.24 G A *firm's* capital should normally be restricted to resources within the *firm*. Where the *firm* is relying on resources outside the direct control of the *firm*, these should only be included to the extent that the *firm* has a right to call on those resources and the provider has the ability to provide those resources without recourse to the assets of the *firm* itself, in the circumstances considered as part of the *ICA*.

Consistency with a firm's practice, systems and controls

- 7.1.25 G The *ICA* should reflect the *firm's* ability to react to events as they occur. When relying on prospective management actions, *firms* should understand the implications of taking such actions, including the financial effect, and taking into consideration any preconditions that might affect the value of management actions as risk mitigants.
- 7.1.26 G The *ICA* should assume that a *firm* will continue to manage its business having regard to the *FSA's* Principles for Businesses. In particular, a *firm* should take into account how the *FSA's* Principles for Businesses may constrain its prospective management actions, for example, *Principle 6* (Treating Customers Fairly).
- 7.1.27 G *Firms* should also consider whether their systems and controls provide sufficient information to permit senior management to identify the crystallisation of risks in a timely manner so as to provide them with the opportunity to respond and allow the *firm* to obtain the full value of the modelled management action. *Firms* should also analyse the wider implications of the management actions, particularly where they represent significant divergence from the business plan and use this information to consider the appropriateness of taking this action.
- 7.1.28 G Where the *ICA* assumes that the *firm* may move capital from one part of its business to another across legal or geographical boundaries, the *firm* should explain the mechanisms that it would apply and satisfy itself that it could achieve the necessary capital movements in times of distress (see *GENPRU* 1.2.51R). The *firm* should also consider any associated costs or restrictions in the amount of capital that would be able to be relocated.

Considering all material risks

- 7.1.29 G The *ICA* should give the required level of confidence that the *firm's* liabilities to *policyholders* will be paid. The *ICA* should consider all material risks which may arise before the *policyholder* liabilities are paid (including those risks set out in *GENPRU* 1.2.30R).
- 7.1.30 G *Firms* should not ignore risks simply because they relate to events that occur with an expected likelihood beyond the confidence level. However, the capital required in the face of these tail events may be reduced for the purpose of carrying out the *ICA*. For example, while an A-rated bond may be assumed not to default within the required confidence level, allowance should be made for the devaluation of that bond through a more likely downgrade or change in credit spreads or other method which reflects that this investment includes a default risk to the *firm*.
- 7.1.31 G Notwithstanding *INSPRU* 7.1.30G, risks which have an immaterial effect on the *firm's* financial position or only occur with an extreme probability may be excluded from the *ICA*.

- 7.1.32 G The number of *claims*, the amount paid and the timing of a *firm's* liabilities may be uncertain. The *ICA* should consider risks which result in a change in the cost of those liabilities.
- 7.1.33 G The assets that a *firm* holds will include assets to back both the liabilities and any capital requirement. These assets carry risk, both in their own right and to the extent that they do not match the liabilities that they are backing. The risk associated with these assets should be considered over the full term for which the *firm* expects to carry the liabilities.
- 7.1.34 G Where the *firm* is relying on systems and controls in order to mitigate risks, the *firm* should consider the risk of those systems and controls failing at the confidence level at which the *ICA* is being carried out.
- 7.1.35 G If a *firm* summarises cash flows over part of the lifetime of the portfolio using a balance sheet but is exposed to risks which emerge after the balance sheet date, then these longer-dated risks may be captured by adjusting the assumptions used in the closing balance sheet.

Valuation basis

- 7.1.36 G The valuation of the assets and of the liabilities should reflect their economic substance. A realistic valuation basis should be used for assets and liabilities taking into account the actual amounts and timings of cash flows under any projections used in the assessment.
- 7.1.37 G In carrying out the *ICA*, wherever possible the value of assets should be marked to market. Where marking to market is not possible, the *ICA* should use a method suitable for assessing the underlying economic benefit of holding each asset.
- 7.1.38 G The methods and assumptions used in valuing the liabilities should contain no explicit margins for risk, nor should the approach be optimistic. The valuation of liabilities should be consistent with the valuation of assets. To the extent the market price includes an implicit allowance for risk, this should be included within the valuation.
- 7.1.39 G The methodology used to place a value on an asset or a liability following a risk event should be consistent with the methodology used prior to the risk event.
- 7.1.40 G Approximate valuation methods may be used by the *firm* for minor lines of business or to capture less material types of risk. However, the *firm* should avoid methods which under-estimate the risk in aggregate.
- 7.1.41 G The *firm* should carry out a broad reconciliation of key parts of any balance

sheet used in the *ICA* with the corresponding entry from audited results.

ICA submitted to FSA: confidence level

- 7.1.42 R Where the *FSA* requests a *firm* to submit to it a written record of the *firm's* assessments of the adequacy of its capital resources carried out in accordance with *INSPRU* 7.1.15R, those assessments must include an assessment comparable to a 99.5% confidence level over a one year timeframe that the value of assets exceeds the value of liabilities, whether or not this is the confidence level otherwise used in the *firm's* own assessments.
- 7.1.43 G In considering the value of liabilities for the purpose of *INSPRU* 7.1.42R, *firms* should have regard to the guidance in *INSPRU* 7.1.21G, *INSPRU* 7.1.26G and *GENPRU* 1.2.27G to *GENPRU* 1.2.29G.
- 7.1.44 G The *FSA* requires *firms* to submit a capital assessment calibrated to a common confidence level, as set out in *INSPRU* 7.1.42R, to enable the *FSA* to assess whether the minimum *capital resources requirements* in *GENPRU* 2.1 are appropriate. This then allows the *FSA* to give a consistent level of *individual capital guidance* across the industry.
- 7.1.45 G If a *firm* selects a longer time horizon than one year it may choose to use a lower confidence level than 99.5%. In such a case, the *firm* should be prepared to justify its choice and explain why this confidence interval is appropriate and how it is comparable to a 99.5% confidence level over a one year timeframe. An assessment based on a longer timeframe should also demonstrate that there are sufficient assets to cover liabilities at all future dates. This may be illustrated by future annual balance sheets.

Measurement

- 7.1.46 G In determining the strength of the *ICA*, a *firm* should consider all risks in aggregate making appropriate allowance for diversification such that the assessment meets the required confidence level overall. The *firm* should be able to describe and explain each of the main diversification benefits allowed for.
- 7.1.47 G For risks that can be observed to crystallise over a short period of the order of a year, the confidence level may be measured with reference to the probability distribution for the impact of the risks over one year. For example, catastrophic events such as hurricanes can be measured in this way by estimating the ultimate capital cost.
- 7.1.48 G For risks that are not observable over a short period (such as long-tailed liability business or annuitant mortality), the confidence level may be measured with reference to the probability distribution for the emergence of

that risk over the lifetime of the liabilities.

Documenting ICAs submitted to the FSA

- 7.1.49 R The written record of a *firm's individual capital assessments* carried out in accordance with *INSPRU 7.1.15R* submitted by the *firm* to the *FSA* must:
- (1) in relation to the assessment comparable to a 99.5% confidence level over a one year timeframe that the value of assets exceeds the value of liabilities, document the reasoning and judgements underlying that assessment and, in particular, justify:
 - (a) the assumptions used;
 - (b) the appropriateness of the methodology used; and
 - (c) the results of the assessment; and
 - (2) identify the major differences between that assessment and any other assessments carried out by the *firm* using a different confidence level.
- 7.1.50 G A *firm's* management should determine their own risk appetite or confidence level and a risk measure that they believe is suitable for the management of the business. The *FSA* expects that the *firm's* capital resources assessment under *GENPRU 1.2* which it uses in the management of its business may well be at a different confidence level than the 99.5% one required by *INSPRU 7.1.42R* for a number of reasons, for example, because its view of capital adequacy is different, or to satisfy the demands of rating agencies, or to meet the proposition to *policyholders* as to the strength of the *firm*. A *firm* will maintain its own written assessment of the adequacy of its financial resources, as required by *GENPRU 1.2*, through the written record requirement of *GENPRU 1.2.60R*.
- 7.1.51 G *INSPRU 7.1.49R(2)* recognises that a *firm* may carry out a number of different assessments of the adequacy of its capital resources, using different confidence levels, in reaching its overall assessment of the adequacy of its financial resources under *GENPRU 1.2*. The purpose of asking the *firm* to identify the major differences between those assessments and the assessment documented under *INSPRU 7.1.49R(1)* is to enable the *FSA* better to understand the *firm's* approach to capital adequacy and risk management in running its business. Understanding the written record made under *GENPRU 1.2.60R* is therefore key to the *FSA's* understanding of the *firm's* risk and capital management processes.
- 7.1.52 G The written record of any other assessment by the *firm* required by *GENPRU 1.2.60R* is not itself part of the submission to the *FSA*, but the

FSA is interested in the connection between that other assessment, as documented in the written record required by *GENPRU* 1.2.60R, and the assessment documented under *INSPRU* 7.1.49R(1) in terms of the *firm's* compliance with *GENPRU* 1.2, and the use of capital measures within the *firm*.

- 7.1.53 G For the purpose of the written record submitted to the *FSA*, the submitted comparison should include:
- (1) A description of any direct difference in the strength of the *firm's* own assessment compared to the assessment submitted to the *FSA*. This is likely to be expressed as a different confidence level to the assessment undertaken to a 99.5% confidence level or the targeting of a defined margin about the 99.5% assessment.
 - (2) A description of any major differences in the definition of the assets or liabilities, the management actions used, the risks considered or the valuation methodology and assumptions included within the assessment.
- 7.1.54 G Some *firms* may not undertake an assessment at a separate confidence level because they consider that a 99.5% confidence level is appropriate to manage their business and meets the requirements of *GENPRU* 1.2. In the case of these *firms*, no analysis of the major differences is required to be submitted.

Justifying assumptions used

- 7.1.55 G *Firms* should provide evidence to support the choice of assumptions used within the *ICA*.
- 7.1.56 G Where the choice of assumptions is supported by data, the *firm* should consider the relevance of that data to the *firm's* current and future circumstances and the robustness of any estimates derived.
- 7.1.57 G Where the choice of assumptions is supported by expert judgement, the *firm* should consider the nature and value of the expertise being used to support this judgement and any biases that may exist. Where possible, the *firm* should use data to test and support these expert judgements.

Approach taken for significant assumptions

- 7.1.58 G *Firms* should be able to demonstrate how they have identified the most financially significant assumptions and calculate the sensitivity of the *ICA* to changes in these assumptions. The choice of assumption may be decided using the results of sensitivity testing.

- 7.1.59 G *Firms* may seek to justify their assumptions by considering the process used to determine those assumptions from relevant data. Alternatively, where historical data is either limited or not considered to be indicative of likely future experience, *firms* may justify their assumptions by reference to the suitability of the calibration for the purpose of the *ICA*. However, relatively more attention should be given to the justification where the choice of assumption has a more significant effect on the *ICA*.
- 7.1.60 G Where there is a concentration of business from a single source (for example, a single sales channel or cedant), consideration should be given to the greater impact of a risk crystallising, compared to that for a well-diversified portfolio.

Justification of prospective management actions

- 7.1.61 G Where projection of the value of assets and liabilities reflects the *firm's* prospective management actions, the *firm* should justify the choice of prospective management actions and the assumptions used.
- 7.1.62 G Where the prospective management action is identical to those used in another regulatory assessment of solvency (e.g. calculation of the *WPICC* for *realistic basis life firms*), no further justification is required.
- 7.1.63 G Where the prospective management action is not similar to those used in another regulatory assessment of solvency, or uses different assumptions, the *firm* should show the financial impact of the management action.

Regular review of assumptions

- 7.1.64 G *Firms* should regularly review key parameters, both to ensure their continued applicability and to reduce uncertainty over the current level of capital required. *Firms* using assumptions that are very different from past experience should present robust arguments in support of the differences.

Methodology

- 7.1.65 G The methodology used within the *ICA* should allow the *firm* to quantify the financial effect of material risks at the required confidence level. The methodology used should also reflect the nature of the *firm's* business and be consistent with the way in which the *firm* identifies and manages risk.
- 7.1.66 G *Firms* should be able to explain their rationale for choosing their approach to risk and assessment of capital required. There are no simple classifications of approach to risk and capital assessment, so the rationale should be considered in the context of a number of defining characteristics in the structure of the capital model.

- 7.1.67 G Generally, larger *firms* would be expected to take a more sophisticated approach to capital modelling than smaller ones.

Stress tests and scenario analyses

- 7.1.68 G A *firm* may choose to carry out the assessment of the adequacy of capital resources through the use of stress testing and scenario analysis (noting that *GENPRU* 1.2.42R requires stress tests and scenario analyses to be undertaken to determine the overall adequacy of a *firm's* financial resources). Where used, such testing should reflect the potential range of outcomes for the risks being quantified, consistent with the prescribed confidence level for the *ICA*.
- 7.1.69 G The overall assessment of capital required may require the aggregation of results from the stress and scenario testing. The *firm* should explain its choice of aggregation approach and its understanding of the implications of combining the individual risks. The *firm* should be satisfied that the resultant capital provides the required degree of confidence, given the variability of the underlying risks and the uncertainty associated with modelling those risks. A useful component of this process is the characterisation and explanation of a range of possible circumstances that could give rise to a loss of this magnitude.

Documenting the results

- 7.1.70 G The conclusion of the *ICA* should consider whether the *firm* has adequate capital to meet its assessment of the required capital. Furthermore, the *firm* should consider any implications for its approach to risk management arising from the work carried out. The *ICA* should be supported by an explanation of the material sources of risk and financial impact of the management actions that the *firm* may take to manage those risks. Where possible, the reasonableness of the results should be supported by considering other evidence of the capital needed.
- 7.1.71 G The objective of capital modelling is to consider all possible outcomes, however unlikely any one outcome might be, and set capital as protection against all but the most extreme losses. It is therefore important to focus not only on the assumptions and methodology used to quantify individual risks, but also on the approach to aggregating the capital required for each risk.
- 7.1.72 G However the risks have been aggregated to give the *firm's* capital requirement, checks should be made as to the reasonableness of the outcome. It should be possible to characterise scenarios, or combinations of loss events, that would result in a loss of similar magnitude to that indicated by the *ICA*. *Firms* should consider a range of scenarios that could give rise to such a loss.

- 7.1.73 G The results of the *ICA* should be supplemented by analysis of the sources of the risks to which the *firm* is exposed, discussion of the events which are most likely to threaten the financial stability of the *firm* and the potential mitigating actions which are available to senior management.

Additional guidance for Lloyd's

- 7.1.74 G Responsibility for:
- (1) managing the risks associated with the *insurance business*; and
 - (2) holding the *capital resources* that support those risks;
- is divided between *managing agents* and the *Society*. To clarify the respective responsibilities of *managing agents* and the *Society* for ensuring the adequacy of financial resources, the *FSA* distinguishes between the *managing agents'* responsibility to carry out capital adequacy assessments of the *capital resources* held at *syndicate* level for each *syndicate* that they manage, and the *Society's* responsibility to carry out an assessment for each *member*.
- 7.1.75 R In carrying out *ICAs* in respect of the *insurance business* carried on through each *syndicate* (the *syndicate ICA*), *managing agents* must consider the risks, controls and the financial resources relevant to each *syndicate*.
- 7.1.76 R When carrying out the *syndicate ICA*, *managing agents* must not take into account risks to which a *member* may be exposed or controls from which a *member* may benefit:
- (1) because that *member* carries on *insurance business* through another *syndicate* or more than one *syndicate year* (whether or not managed by the same *managing agent*); or
 - (2) because that *member's* financial resources include *funds at Lloyd's* or *central assets*.
- 7.1.77 R The *Society* must have regard to *syndicate ICAs* in arriving at its own capital assessment for each *member*.
- 7.1.78 G In assessing the adequacy of the *capital resources* supporting the *insurance business* of each *member*, the *Society* should consider the risks, controls and financial resources relevant to the totality of the *member's insurance business*, including:
- (1) the adequacy of *syndicate ICAs*;

- (2) the *member's* share of *syndicate ICAs*;
- (3) adjustments in respect of risks and controls relating to *funds at Lloyd's, central assets* and the interaction of risks underwritten by the *member* through different *syndicates* and in respect of different *syndicate years*; and
- (4) the ongoing validity of any relevant assumptions it makes.

7.1.79 G In taking account of a *syndicate ICA* under *INSPRU 7.1.77R*:

- (1) if the *Society* considers a *syndicate ICA* to be adequate, it should use the *managing agent's* risk and capital assessments in carrying out its *ICA* in relation to any *member* of that *syndicate*, or it should be able to justify why it will not; and
- (2) if the *Society* considers a *syndicate ICA* to be less than adequate, the *Society* should increase the *syndicate ICA* so that it is adequate for the purpose of carrying out its *ICA* in relation to the *members* of that *syndicate*.

7.1.80 G The assessment of capital adequacy for a *member* will rarely equal the proportionate share of a *syndicate ICA* (or sum of those shares, where the *member* participates on more than one *syndicate*) as attributed to that *member*, because, in determining the capital assessments for each *member*, the *Society* may make adjustments to take account of:

- (1) risks and controls associated with *funds at Lloyd's* and *central assets*, which can increase the assessment for that *member*;
- (2) diversification effects, including as a result of *members'* participations on more than one *syndicate year*, which can reduce the assessment for that *member*; and
- (3) its own assessment of *syndicate* risks, which can be higher than the *managing agent's* and so increase the assessment for that *member*.

7.1.81 G *Capital resources* to meet each *syndicate ICA* could be:

- (1) held within a *syndicate* and managed by the *managing agent*; or
- (2) held and managed by the *Society*; or
- (3) not needed in full, because of effects such as diversification that the *Society* takes into account.

- 7.1.82 G The *balancing amount* is a function of the relationship between the *syndicate ICA* and the amount of assets held within the *syndicate*. As illustrations:
- (1) if the *syndicate* holds no *capital resources* (but its liabilities are fully covered by relevant assets), the *balancing amount* equals the *syndicate ICA* (as there are no *capital resources* at *syndicate* level, all the *capital resources* must be held as *funds at Lloyd's* or *central assets*);
 - (2) if *capital resources* held at *syndicate* level are negative (i.e. if relevant assets do not fully cover liabilities for the *syndicate*), the *balancing amount* should be higher than the *syndicate ICA* by an amount corresponding to the negative *capital resources* held by *managing agents* on behalf of the *syndicate*; and
 - (3) conversely, if a *syndicate* holds positive *capital resources* for the *syndicate*, the *balancing amount* should be lower than the *syndicate ICA* by a corresponding amount.
- 7.1.83 R *Managing agents* must periodically notify the *Society* of the *syndicate ICA* and the *balancing amount* in respect of each *syndicate*.
- 7.1.84 R For the purpose of assessing the adequacy of *capital resources* held as *funds at Lloyd's* and *central assets*, the *Society* must have regard to *balancing amounts* notified to it by *managing agents*.
- 7.1.85 R After notification of a *balancing amount* by a *managing agent*, the *Society* must:
- (1) confirm to the *managing agent* that *capital resources* held as *funds at Lloyd's* and *central assets* are adequate to support the *balancing amount*; or
 - (2) notify the *managing agent* that it cannot give that confirmation.
- 7.1.86 G *Managing agents* should submit *syndicate ICAs* and notify *balancing amounts* to the *Society* as part of the annual capital-setting process at *Lloyd's*. The submission of the *syndicate ICA* and the notification of the *balancing amount* should be made in good time for the *Society* to review them and place appropriate reliance on them when it determines the capital assessments for each *member*.
- 7.1.87 G When communicating the *syndicate ICA* and *balancing amount* for each *syndicate* to the *Society*, *managing agents* should agree with the *Society* an allocation of the *syndicate ICA* between *syndicate years*. The purpose of the allocation is to ensure that there is an appropriate matching of assets to risk

and liabilities and an equitable treatment between the *members* reflecting the provision of capital in each *syndicate year*.

- 7.1.88 G For the purposes of complying with their obligations under *INSPRU*, *managing agents* may assume that any *balancing amount* confirmed by the *Society* under *INSPRU* 7.1.85R is supported by *capital resources* held as *funds at Lloyd's* and *central assets*.
- 7.1.89 R If a *managing agent* has, at any time, a significant doubt about the adequacy of a *syndicate ICA* or *balancing amount* with respect to *syndicate* risks and controls, it must notify the *Society* immediately.
- 7.1.90 R If the *Society* has, at any time, a significant doubt about the adequacy of any *member's capital resources* held by it in support of any *balancing amount*, it must notify the relevant *managing agent* immediately.

FSA assessment process – all firms

- 7.1.91 G In assessing the adequacy of a *firm's capital resources*, the *FSA* draws on more than just a review of the submitted *ICA*. Use is made of wider supervisory knowledge of a *firm* and of wider market developments and practices. When forming a view of any *individual capital guidance* to be given to a *firm*, the review of the *firm's ICA* along with the ARROW risk assessment and any other issues arising from day-to-day supervision will be considered.
- 7.1.92 G The *FSA* will take a risk-based and proportionate approach to the review of a *firm's ICA*, focusing on the *firm's* approach to dealing with the key risks it faces. Any *individual capital guidance* given will reflect the judgements reached through the ARROW review process as well as the review of the *firm's ICA*.
- 7.1.93 G A *firm* should not expect the *FSA* to accept as adequate any particular model that the *firm* develops or that the results from the model are automatically reflected in any *individual capital guidance* given to the *firm* for the purpose of determining adequate *capital resources*. However, the *FSA* will take into account the results of any sound and prudent model when giving *individual capital guidance* or considering applications for a *waiver* under section 148 of the *Act* of the *capital resources requirement* in *GENPRU* 2.1.
- 7.1.94 G Where the *FSA* considers that a *firm* will not comply with *GENPRU* 1.1.26R (adequate financial resources, including *capital resources*) by holding the *capital resources* required by *GENPRU* 2.1, the *FSA* may give the *firm* *individual capital guidance* advising it of the amount and quality of *capital resources* which the *FSA* considers it needs to hold in order to meet that *rule*.

- 7.1.95 G In giving *individual capital guidance*, the FSA seeks a balance between delivering consistent outcomes across the *individual capital guidance* it gives to all *firms* and recognising that such *guidance* should reflect the individual features of the *firm*. Comparison with the assumptions used by other *firms* will be used to trigger further enquiry. Debate will be sought where good arguments are made for a particular result that differs markedly from those of a *firm's* peers. The FSA also takes account of the quality of the wider risk management around the development of the numbers used in the ICA. The aim is to deliver *individual capital guidance* that comes closest to ensuring that there is no significant risk that a *firm* is unable to pay its liabilities as they fall due.
- 7.1.96 G Following an internal validation process, the FSA will write to the Board of the *firm* being assessed providing both quantitative and qualitative feedback on the results of the FSA's assessment. This letter will notify the *firm* of the *individual capital guidance* considered appropriate. The letter will include reasons for any capital add-ons identified, where applicable.
- 7.1.97 G If a *firm* considers that the *individual capital guidance* is inappropriate to its circumstances, then the *firm* should inform the FSA that it does not intend to follow that *guidance*. Informing the FSA of such an intention would be expected if a *firm* is to comply with *Principle 11* (Relations with regulators).
- 7.1.98 G The FSA expects most disagreements about the adequacy of capital will be resolved through further analysis and discussion. The FSA may consider the use of its powers under section 166 of the *Act* (Reports by skilled persons) to assist in such circumstances. If the FSA and the *firm* still do not agree on an adequate level of capital, then the FSA may consider using its powers under section 45 of the *Act* to, on its own initiative, vary a *firm's Part IV permission* so as to require it to hold capital in accordance with the FSA's view of the capital necessary to comply with GENPRU 1.2.26R. SUP 7 provides further information about the FSA's powers under section 45.
- 7.1.99 G Where a *firm* considers that the *capital resources requirements* of GENPRU 2.1 require the holding of more capital than is needed for the *firm* to comply with GENPRU 1.2.26R then the *firm* may apply to the FSA for a *waiver* of the requirements in GENPRU 2.1 under section 148 of the *Act*. In addition to the statutory tests under section 148, in deciding whether to grant a *waiver* and, if granted, its terms, the FSA will consider the thoroughness, objectivity and prudence of a *firm's ICA* and the extent to which the *guidance* in this section has been followed. The FSA will not grant a *waiver* that would cause a breach of the minimum capital requirements under the *Insurance Directives* or *Reinsurance Directive*.

Annex D

Other amendments to Annex B (Text of INSPRU) to the Prudential Sourcebook for Insurers Instrument 2006 (FSA 2006/42)

In this Annex, underlining indicates new text and striking through indicates deleted text. Where a block of new text is inserted, this is indicated and the new text is not underlined.

...

- 1.1.11 G These requirements are dealt with in the part of this section headed "Capital requirements for insurers" (see *INSPRU* 1.1.43G to *INSPRU* 1.1.91R). That part of this section also contains *rules* about the calculation of ~~the insurance-related capital requirement, which forms part~~ of the *enhanced capital requirement* for firms carrying on *general insurance business*, including the calculation of the insurance-related capital requirement. The calculation of the asset-related capital requirement, which also forms part of the calculation of the ECR for firms carrying on general insurance business, is set out in *INSPRU* 2.2.

...

- 1.1.43 G (1) ...
- (2) For non-life firms the *MCR* represents the *minimum capital requirement* (or margin of solvency) prescribed by the *Insurance Directives*. *GENPRU* 2.1.24R provides that, for a firm carrying on *general insurance business*, the *MCR* in respect of that business is the higher of the *base capital resources requirement* for *general insurance business* applicable to that firm and the *general insurance capital requirement*. *GENPRU* 2.1.24AR provides that, for a firm carrying on long-term insurance business which is a realistic basis life firm, the *MCR* in respect of that business is the higher of the base capital resources requirement for long-term insurance business applicable to that firm and the long-term insurance capital requirement. *GENPRU* 2.1.25R provides that, for a firm carrying on *long-term insurance business* which is a *regulatory basis only life firm*, the *MCR* in respect of that business is the higher of the *base capital resources requirement* for *long-term insurance business* applicable to that firm and the sum of the *long-term insurance capital requirement* and the *resilience capital requirement*. As specified in *GENPRU* 2.1.14R, a firm carrying on both *general insurance business* and *long-term insurance business* must apply *GENPRU* 2.1.13R (referred to in paragraph (1) above) separately to

its *general insurance business* and its *long-term insurance business*.

(3) ...

...

1.1.66 R ...

(c) to account for *premiums* and *claims* which arose from *contracts of insurance* that have been transferred to the *firm* from another body as if they were receivable by or payable ~~to~~by the *firm*.

...

1.1.69 G Conversely, *INSPRU* 1.1.66R(2)(c) requires a *firm*, for the purpose of calculating its *GICR*, to account for *contracts of insurance* transferred to it by another body as if it had been responsible for those contracts from inception and not merely from the date of transfer. All amounts of *premiums* and *claims* that arose from those contracts are included even where they arose prior to the date of transfer and were, in fact, receivable by or payable ~~to~~by the other body.

...

Insert after *INSPRU* 1.1.72R the following new text, *INSPRU* 1.1.72AG to *INSPRU* 1.1.72DG, which is not underlined:

Enhanced capital requirement for general insurance business

1.1.72A G This section sets out the requirement for *firms* carrying on *general insurance business*, other than *non-directive insurers*, to calculate their *ECR*. The *ECR* for *firms* carrying on *general insurance business* is an indicative measure of the *capital resources* that a *firm* may need to hold based on risk sensitive calculations applied to its business profile. For *firms* carrying on *general insurance business*, the *FSA* will use the *ECR* as a benchmark for its consideration of the appropriateness of the *firm's* own capital assessment. For *firms* where an *ECR* is not calculated, the *MCR* will provide a benchmark for the *firm's* own capital assessment.

1.1.72B R A *firm* carrying on *general insurance business*, other than a *non-directive insurer*, must calculate the amount of its *ECR*.

1.1.72C R A *firm* to which *INSPRU* 1.1.72BR applies must calculate its *ECR* in respect of its *general insurance business* as the sum of:

(1) the *asset-related capital requirement*; and

(2) the *insurance-related capital requirement*; less

(3) the *firm's equalisation provisions*.

- 1.1.72D G Details of the calculation of the *asset-related capital requirement* are set out in *INSPRU 2.2.10R* to *INSPRU 2.2.16R*. Details of the calculation of the *insurance-related capital requirement* are set out in *INSPRU 1.1.76R* to *INSPRU 1.1.79R*.

Insurance-related capital requirement (~~general insurance business only~~)

- 1.1.73 G ~~*INSPRU 7.1.11R* requires firms carrying on general insurance business, other than a non-directive insurer, to calculate their *ECR* as the sum of the *asset-related capital requirement* and the *insurance-related capital requirement* less the *firm's equalisation provisions*. The *ECR* for firms carrying on general insurance business is an indicative measure of the *capital resources* that a firm may need to hold based on risk sensitive calculations applied to its business profile. For firms carrying on general insurance business, the FSA will use the *ECR* as a benchmark for individual capital guidance for a firm carrying on general insurance business. Details of the calculation of the *asset-related capital requirement* are set out in *INSPRU 2.2*. Details of the calculation of the *insurance-related capital requirement* are set out in *INSPRU 1.1.76R* to *INSPRU 1.1.79R*.~~
[intentionally blank]

...

- 1.1.80 G *GENPRU 2.1.13R* requires an insurer to maintain *capital resources* equal to or in excess of its *capital resources requirement*. *GENPRU 2.1.18R* defines the *capital resources requirement* for a firm to which that rule applies (a *realistic basis life firm*) as the higher of the *MCR* and the *ECR*. For other firms carrying on long-term insurance business (*regulatory basis only life firms*), the *capital resources requirement* is equal to the *MCR*. Except where the *base capital resources requirement* is the higher requirement, the *MCR* in respect of long-term insurance business is the sum of the long-term insurance capital requirement (*LTICR*) and the *resilience capital requirement* or, in the case of a *realistic basis life firm*, the *LTICR* (see *GENPRU 2.1.24AR*, *GENPRU 2.1.25R* and *GENPRU 2.1.26R*). *GENPRU 2.1.36R* defines the *LTICR* as the sum of the *insurance death risk, health risk and life protection reinsurance, expense risk, and market risk capital components* (see *INSPRU 1.1.81R* to *INSPRU 1.1.91R*). Rules and guidance about the *resilience capital requirement* are set out in *INSPRU 3.1.9G* to *INSPRU 3.1.26R*.

...

- 1.2.19 G Further detailed rules and guidance on margins for adverse deviation are included in *INSPRU 1.2.32G* to *INSPRU 1.2.89G*. In particular, the cross-references for the different assumptions used in calculating the *mathematical*

reserves are as follows:

...

(4) persistency (~~INSPRU 1.2.73G to 1.2.76R~~ and *INSPRU 1.2.77G*); and

...

...

1.2.22 R (1) ...

(2) Approximations or generalisations may be made:

(a) in the case of non-attributable expenses, in relation to a group of contracts with the same or similar expense risk characteristics, provided that the *mathematical reserves* in respect of such expenses established by the *firm* in relation to that group of contracts have a minimum value of at least zero; and

(b) in any other case, where they are likely to provide the same, or a higher, result than a determination made in accordance with (1).

(3) ...

(4) For the purpose of (2), non-attributable expenses are expenses which are not directly attributable to a particular *long-term insurance contract*.

1.2.23 G *INSPRU 1.2.22R to INSPRU 1.2.89G set out rules and guidance for the separate prospective valuation of each contract. These may be applied instead to groups of contracts where the conditions set out in INSPRU 1.2.22R(2)(a) or (b) are satisfied. Guidance on non-attributable expenses and the application of INSPRU 1.2.22R(2)(a) is provided in INSPRU 1.2.54AG.*

~~Contracts not to be treated as assets~~Negative mathematical reserves

1.2.24 R (1) ~~A *firm* must not treat a *long-term insurance contract* as an asset.~~

(2) ~~(1) does not apply to a *pure reinsurer* in respect of a *contract of insurance* which does not have a *guaranteed surrender value* and falls within:~~

- (a) ~~its life protection reinsurance business; or~~
 - (b) ~~its permanent health reinsurance business.~~
- (3) ~~Notwithstanding (2), the total *mathematical reserves* established by a *pure reinsurer* must have a minimum value of at least zero.~~

A firm may calculate a negative value for the *mathematical reserves* in respect of a *long-term insurance contract* provided that:

- (1) this is based on assumptions which meet the general requirements for prudent assumptions as set out in *INSPRU* 1.2.10R and *INSPRU* 1.2.13R;
- (2) the contract does not have a *surrender value* which at the *actuarial valuation date* is guaranteed; and
- (3) the total *mathematical reserves* established by the *firm* have a minimum value of at least:
 - (i) where the *firm's long-term insurance contracts* include *linked long-term* contracts, the sum of the *surrender values* of all its *linked long-term* contracts at the *actuarial valuation date*; and
 - (ii) in any other case, zero.

1.2.25 G ~~A separate prospective valuation for each contract may identify contracts for which the value of future cash inflows exceeds that of outflows, that is, the contracts have an asset value, rather than liability value. However, the *Consolidated Life Directive* requires that no contract should be valued at less than its guaranteed *surrender value*. As a result, no contract with a guaranteed *surrender value* to which the *Consolidated Life Directive* applies should be treated as an asset. Although the *Reinsurance Directive* does not require this treatment of contracts with guaranteed *surrender values* to be applied to *pure reinsurers*, the *FSA's* policy is that there should be equal treatment in this respect. *Pure reinsurers* may therefore treat as an asset a contract written as part of carrying on *life protection reinsurance business* or *permanent health reinsurance business* provided that this is based on assumptions which meet the general requirements for prudent assumptions as set out in *INSPRU* 1.2.10R and *INSPRU* 1.2.13R and it is not written on terms that provide for a guaranteed *surrender value*. This does not, however, allow a *pure reinsurer* to establish total *mathematical reserves* which are negative.~~

A separate prospective valuation for each contract may identify contracts for which the value of future cash inflows under and in respect of the contract

exceeds that of outflows. In these circumstances, the firm may calculate the mathematical reserves for that contract as having a negative value and that value is available to off-set mathematical reserves for other contracts which have a positive value when establishing the overall mathematical reserves. However, the Consolidated Life Directive requires that no contract should be valued at less than its guaranteed surrender value (see INSPRU 1.2.62AG). As a result, no contract with a guaranteed surrender value to which the Consolidated Life Directive applies should be valued as if it were an asset. Although the Reinsurance Directive does not require this treatment of contracts with guaranteed surrender values to be applied to pure reinsurers, the FSA's policy is that there should be equal treatment in this respect. INSPRU 1.2.62R makes further provision relating to the mathematical reserves to be established in respect of such contracts. When considering the impact that the amount payable on surrender may have on the valuation of a contract, a firm should have regard to INSPRU 1.2.71R.

Avoidance of future valuation strain

1.2.26 R (1) ...

(2) ...

(3) Subject to (4), (1) may be applied to a group of similar contracts instead of to the individual contracts within that group.

(4) (1) must be applied to a group of contracts in relation to which mathematical reserves in respect of non-attributable expenses are established for that group of contracts in accordance with INSPRU 1.2.22R(2)(a), instead of to the individual contracts within that group.

...

1.2.30 G All cash flows are to be valued using prudent assumptions in accordance with generally accepted actuarial practice. Cash flows may be omitted from the valuation calculations provided the reserves obtained as a result of leaving those cash flows out of the calculation are not less than would have resulted had all cash flows been included (see INSPRU 1.2.22R(2)(b)). ...

...

1.2.39 G The valuation method for future premiums in INSPRU 1.2.38R retains the difference, if any, between the gross premium and the net premium as an implicit margin available to finance future bonuses, expenses and other costs. It thus helps to protect against the risk that adequate resources may not be available in the future to meet those costs. Where expenses are not directly attributable to a particular contract, a firm may establish

mathematical reserves in respect of such expenses in relation to a group of contracts with the same or similar expense risk characteristics in accordance with INSPRU 1.2.22R(2)(a).

...

1.2.54 G ...

1.2.54A G (1) A firm should attribute to an individual contract at least those expenses which are directly attributable to that contract including expenses which vary with the volume of business for that type of contract. Commission payments, charges to a fund on a 'per policy' basis and investment management fees are generally directly attributable. For expenses of the fund which are calculated directly based on actual expenses (and not calculated in accordance with a management services agreement), the attributable expenses will also include those costs which vary with the volume of business for that product, for example, salaries and accommodation costs of staff in a processing centre, printing and postage of communications to policyholders and associated computer services.

(2) Non-attributable expenses may include overheads which are relatively insensitive to the volume of business for the type of contract in question and an apportionment of group overheads. Examples of expenses that firms may consider non-attributable include salaries of head office staff involved in monitoring products and drafting standard communications to policyholders and allocated overheads for centralised functions such as human resources, finance and IT. Where non-attributable expenses arise in relation to a homogeneous risk group of contracts sharing the same or similar expense risk characteristics, a firm may determine the reserve for those expenses at the level of that risk group, provided that the reserve so established has a minimum value of at least zero (see INSPRU 1.2.22R(2)(a)). In identifying its homogeneous risk groups, a firm should consider all risks that impact on the level of expenses borne by contracts including persistency risk and expense inflation risk. For example, business that is subject to bulk lapse risk, such as any large group contract that would give rise to a reduction in surplus on lapse, should be considered as forming a homogeneous risk group of its own. A firm must document and justify its approach to identifying homogeneous risk groups in accordance with the record-keeping requirements of INSPRU 1.2.20R. This approach to reserving for expenses ensures that prudent reserves are established in respect of both directly attributable and non-attributable expenses arising in relation to the firm's long-term insurance business.

1.2.54B G In valuing cash flows in respect of commissions, a firm may wish to take into account any contractual arrangements for the "clawback" or repayment of commissions already paid in the event of voluntary discontinuance of a

contract of insurance. In deciding how to treat such arrangements in determining the mathematical reserves for a contract of insurance, the firm must use assumptions which meet the general requirements for prudent assumptions as set out in INSPRU 1.2.10R and INSPRU 1.2.13R. For example, the firm should establish prudent margins for adverse deviation in respect of the credit risk of the intermediary by whom the commission would be repayable.

...

1.2.56 G The provision for future expenses, whether implicit or explicit, should include a prudent margin for adverse deviation in the level and timing of expenses (see INSPRU 1.2.13R to INSPRU 1.2.19G). The margin should cover the risk of underestimating expenses whether due to, for example, initial under-calculation or subsequent increases in the amount of expenses. In setting the amount of the margin, the *firm* should take into account the extent to which:

- (1) an appropriately validated method based on reliable data is used to allocate expenses ~~by product type, by distribution channel and~~ as between attributable and non-attributable expenses or between acquisition and non-acquisition expenses and by product type, by distribution channel or by homogeneous risk group, as appropriate;

...

...

1.2.62 R ...

1.2.62A G A contract has a guaranteed surrender value where the policy wording states that a surrender value is payable and either provides for a minimum amount payable on surrender or sets out a method for calculating such an amount. For example, where a unit-linked contract provides for a surrender value equal to the value of the units allocated to the contract, the firm must establish mathematical reserves for that contract greater than or equal to the value of the units allocated at the valuation date.

...

1.2.64 G The *firm* should provide for the benefit which the *firm* anticipates the *policyholder* is most likely to choose. ~~Except for the "option" of voluntary discontinuance in the case of regulatory basis only life firms (see INSPRU 1.2.74R),~~ past experience may be used as a guide, but only if this is likely to give a reasonable estimate of future experience. For example, past experience of the take-up of a cash payment option instead of an annuity would not be a reliable guide, if, in the past, market rates exceeded those

guaranteed in the annuity but no longer do so. Similarly, past experience on the take-up of options may not be relevant in the light of the assumptions made in respect of future interest rates and mortality rates in the valuation of the benefits.

...

- 1.2.73 G ~~INSPRU 1.2.76R and INSPRU 1.2.77G apply to the valuation of the with-profits insurance liabilities of realistic basis life firms. INSPRU 1.2.76AR and INSPRU 1.2.77G apply to the valuation of liabilities arising from the life protection reinsurance business and permanent health reinsurance business of pure reinsurers. INSPRU 1.2.74R and INSPRU 1.2.75G apply to the valuation of all other liabilities. [intentionally blank]~~
- 1.2.74 R ~~Except as permitted by INSPRU 1.2.76R and INSPRU 1.2.76AR, a firm must not make any allowance in the calculation of the mathematical reserves for the voluntary discontinuance of any contract of insurance if the amount of the mathematical reserves so determined would, as a result, be reduced. [intentionally blank]~~
- 1.2.75 G ~~The rate of voluntary discontinuance (that is, lapse, surrender or paying up) is often difficult to predict and may be volatile especially in the short term during stressful economic conditions. Depending upon the circumstances and contract terms, voluntary discontinuance may increase or decrease the firm's liability. In effect, INSPRU 1.2.74R requires a firm to assume that there will be no voluntary discontinuance if assuming voluntary discontinuance would reduce the liability. This protects against the risk that arises from volatility in the rate of voluntary discontinuance. In addition, there is the risk of assets not being realisable when needed due to the rates of discontinuance exceeding expected levels. [intentionally blank]~~
- 1.2.76 R ~~A realistic basis life firm may make assumptions about voluntary discontinuance rates in the calculation of the mathematical reserves for its with-profits insurance business provided that those assumptions meet the general requirements for prudent assumptions as set out in INSPRU 1.2.10R and INSPRU 1.2.13R.~~
- 1.2.76A R ~~A pure reinsurer may make assumptions about voluntary discontinuance rates in the calculation of the mathematical reserves in respect of contracts of insurance falling within:~~
- ~~(1) its life protection reinsurance business; or~~
 - ~~(2) its permanent health reinsurance business;~~
- ~~provided that those assumptions meet the general requirements for prudent~~

assumptions as set out in ~~INSPRU 1.2.10R~~ and ~~INSPRU 1.2.13R~~.

...

- 1.3.7 R (1) The *with-profits insurance capital component* for a *firm* is the aggregate of any amounts that:
- (a) result from the calculations specified in (2) and (3); and
 - (b) are greater than zero.
- (2) Subject to (3), in relation to each *with-profits fund* within the *firm*, the *firm* must deduct B from A, where:
- (a) A is the amount of the *regulatory excess capital* for that fund (see *INSPRU 1.3.23R*); and
 - (b) B is the ~~amount~~ sum of:
 - (i) the *realistic excess capital* for that fund (see *INSPRU 1.3.32R*);
 - (ii) the value, in the most adverse scenario required by *INSPRU 1.3.43R(3)*, of future internal transfers from the fund to shareholders or another of the *firm's* funds in respect of the future distribution of surplus between *policyholders* and shareholders; and
 - (iii) an amount not exceeding the value, in the most adverse scenario required by *INSPRU 1.3.43R(3)*, of any other future internal transfers from the fund to a *non-profit fund* in respect of expense-related charges to the extent that the future receipt of the amount transferred is not already taken into account in the calculation of the *firm's capital resources* or in establishing its *technical provisions*.
- (3) Where a capital instrument that can be included in the *firm's capital resources* in accordance with *GENPRU 2.2* has been attributed wholly or partly to a *with-profits fund* and that instrument meets the requirements of *GENPRU 2.2.271R*, the *firm* must add to the amount calculated under (2) for that fund the result, subject to a minimum of zero, of deducting D from C where:
- (a) C is the outstanding face amount of the instrument to the extent attributed to the fund; and
 - (b) D is the realistic value of the instrument to the extent attributed to the fund in the single event that determines the *risk capital margin* under *INSPRU 1.3.43R*.

1.3.7A G Future internal transfers from a *with-profits fund* are included in the *realistic value of liabilities* (see *INSPRU 1.3.105R*, *INSPRU 1.3.119R*, *INSPRU 1.3.128R* and *INSPRU 1.3.165R*). *INSPRU 1.1.27R* ensures that sufficient assets are maintained in a *with-profits fund* to meet those future internal transfers. In calculating the *WPICC*, the economic value to the *firm* of those future transfers in the most adverse scenario required in calculating the *risk capital margin* (see *INSPRU 1.3.43R*) should be recognised. In the case of internal transfers to a *non-profit fund* in respect of expense-related charges, those transfers may only be recognised to the extent that those cash flows have not already been taken into account in calculating the *firm's capital resources* or *technical provisions*. In effect, the future asset of the shareholders or another of the *firm's funds* is available to offset the corresponding liability of the *with-profits fund* and should, therefore, subject to the limitation in *INSPRU 1.3.7R(2)(b)(iii)*, be treated as capital arising from that fund which is available to reduce the amount of the *WPICC*.

...

1.3.23 R A *firm* must calculate the *regulatory excess capital* for each of its *with-profits funds* by deducting B from A, where:

(1) ...

(2) B is the sum of:

(a) the *regulatory value of liabilities* of the fund (*INSPRU 1.3.29R*); and

(b) the *long-term insurance capital requirement* in respect of the fund's *with-profits insurance contracts*; ~~and~~

(c) ~~the *resilience capital requirement* in respect of the fund's *with-profits insurance contracts*.~~

...

1.3.24 R (1) ...

(2) Where *non-profit insurance contracts* are written in a *with-profits fund*, the amount representing those contracts is the sum of:

(a) the *mathematical reserves* in respect of the *non-profit insurance contracts* written in the fund; and

(b) ~~the following amounts, to the extent that each of them is covered by the fund's *long term admissible assets*:~~

(i) an amount in respect of the *non-profit insurance contracts* written in the fund which represents an appropriate allocation of the *firm's long-term insurance capital requirement*, to the extent that it is covered by the fund's long-term admissible assets; and

(ii) ~~an amount in respect of the *non-profit insurance contracts* written in the fund which represents an appropriate allocation of the *firm's resilience capital requirement*.~~

...

1.3.27 G ~~In calculating the amount of a *firm's resilience capital requirement* allocated to the *non-profit insurance contracts* in the *with-profits fund*, the *firm* should calculate the amount of resilience capital that would be required if that business were in a stand-alone company owning the assets allocated. The *resilience capital requirement* for the *with-profits insurance business* should also be calculated as if it were a stand-alone company. An allocation of the *firm's total resilience capital requirement* should then be made in a manner that would produce a result materially consistent with an allocation in proportion to the amounts calculated for each part of the business as stand-alone entities. [intentionally blank]~~

...

1.3.33 R (1) ...
(2) ...
(3) For the purposes of (2):
(a) ...
(b) ...

and D is equal to the sum of:

(v) the *long-term insurance capital requirement* in respect of any *non-profit insurance contracts* written in a *non-profit fund* of B;

(vi) where B is a *regulatory basis only life firm*, the amount of the *resilience capital requirement* in respect of any *non-profit insurance contracts* written in a *non-profit fund* of B;

(vii) any part of the *with-profits insurance capital component* of B, or of B's *long-term insurance capital requirement* or where B is a *regulatory basis only life firm*, *resilience capital requirement* in respect of B's *with-profits insurance contracts*, that is not covered from the assets of the *with-*

profits fund from which it arises after deducting from those assets the amount calculated under (iv); and

(viii) any assets of B that back its regulatory capital requirements and that are valued in (iii) in the calculation of the present value of future profits of *non-profit insurance business* written by B.

(4) ...

...

1.3.38 G In calculating the present value of future profits (or losses) for *non-profit insurance business* required by *INSPRU* 1.3.33R(1)(c), to the extent that the *long-term insurance capital requirement* ~~is and the resilience capital requirement are~~ covered by the *with-profits fund's long-term admissible assets*, a *firm* may take into consideration any release of ~~these items~~ this item as the relevant *policies* go off the books.

...

1.3.39B G In determining current market yields for the purpose of *INSPRU* 1.3.37R(4), a *firm* is required to have regard to IFRS 4 as if it were being applied to determine the value under that standard for the first time, that is, without reference to existing practices. Paragraph 27 of the standard is likely to be of particular relevance. In general, a *firm* should not only include an allowance for future investment margins if its assumptions are limited to no more than a risk-free rate and the discount rate is set consistently until they are earned. In particular, a *firm* should not include an allowance for capital growth in determining current market yields for equities and real estate investments. However, this does not preclude a *firm* from using a replicating portfolio of assets to determine the discount rate for the liability with suitable adjustments for differences in their characteristics (for the example of annuity business, see *INSPRU* 1.3.39G). In setting assumptions for future investment returns, a *firm* should also consider sections BC134 to BC144 of the Basis for Conclusions in IFRS 4.

...

1.3.65 G In relation to the *market risk* scenarios in *INSPRU* 1.3.68R and *INSPRU* 1.3.73R, the effect of *INSPRU* 1.3.52R and *INSPRU* 1.3.58R is that a *firm* may reflect management actions and must make a realistic assessment of *policyholder* actions in projecting the assets and liabilities in its calculation of the *risk capital margin* for a *with-profits fund* within the *firm*. ~~This contrasts with the position for calculating the resilience capital requirement for the *firm* (*INSPRU* 3.1.9 G to *INSPRU* 3.1.26R).~~

...

1.3.108 G ~~*INSPRU 1.3.105R(7) requires firms to provide fully for shareholder transfers. Such transfers do not therefore count as capital in the with profits fund. However, a firm may apply under section 148 of the Act for a waiver from this requirement. In exercising its discretion under section 148 of the Act, the FSA will have regard (among other factors) to whether a firm has put in place undertakings satisfactory to the FSA, including that future transfers will not be paid out of the firm by way of dividend. [intentionally blank]*~~

...

1.4.9 G However, *firms* are permitted to include *equalisation provisions* within their financial resources when demonstrating compliance with non-Directive capital requirements. Hence *equalisation provisions* are deducted from the available *capital resources* of a *firm* for the purpose of meeting its *minimum capital requirement* for *general insurance business*; but, in the calculation of a *firm's enhanced capital requirement* for *general insurance business* under ~~*INSPRU 7.1.11R*~~*1.1.72CR*, its *equalisation provisions* (if any) are added back to its *capital resources*.

...

1.5.44 R For the purposes of *INSPRU 1.5.42R*, a *non-EEA direct insurer* (except a *UK-deposit insurer*) must calculate a *UK MCR*:

- (1) for *long-term insurance business*, in accordance with *GENPRU 2.1.36R*~~*INSPRU 1.1.81R*~~ to ~~*INSPRU 1.1.91R*~~ but only in relation to business carried on by the *firm* in the *United Kingdom*;
- (2) for *general insurance business*, in accordance with *GENPRU 2.1.34R*~~*INSPRU 1.1.45R*~~ to ~~*INSPRU 1.1.72R*~~ but only in relation to business carried on by the *firm* in the *United Kingdom*.

...

1.5.46 R For the purposes of *INSPRU 1.5.42R*, a *UK-deposit insurer* must calculate an *EEA MCR*:

- (1) for *long-term insurance business*, in accordance with *GENPRU 2.1.36R*~~*INSPRU 1.1.81R*~~ to ~~*INSPRU 1.1.91R*~~ but only in relation to business carried on by the *firm* in all *EEA States*, taken together;
- (2) for *general insurance business*, in accordance with *GENPRU 2.1.34R*~~*INSPRU 1.1.45R*~~ to ~~*INSPRU 1.1.72R*~~ but only in relation to

business carried on by the *firm* in all *EEA States*, taken together.

...

2.1.22 R ...

(3) ...

(c) ...

(i) ...

(ii) 1% for that part of the exposure arising from *shares* and other variable yield participations, bonds, *debt securities* and other *money market instruments* and capital market instruments from the same *counterparty* that are not dealt in on a *regulated market*, or ~~any a~~ beneficial interest in a ~~collective investment scheme which is not a UCITS scheme, a non-UCITS retail scheme or a recognised scheme~~ to which *INSPRU 2.1.39R* applies; the limit for that part of the exposure arising from *debt securities* (other than hybrid securities) issued by the same *regulated institution* is increased to 5%;

(iii) ...

...

(e) 10% for the aggregate of all *counterparty* exposures and asset exposures that fall within (c)(ii) above or (j) below, whether or not they arise from *persons* who are closely related, but excluding amounts that are in excess of the limit in (c)(ii) above or, in the case of an asset exposure, (j) below;

...

(h) 10% for the asset exposure (including an exposure arising from a reversionary interest) arising from any one piece of land or building, or a number of pieces of land or buildings close enough to each other to be considered effectively as one investment;

(i) 5% for the asset exposure arising from a beneficial interest in any single non-UCITS retail scheme or recognised scheme which does not fall within the *UCITS Directive*; and

(j) 1% for the asset exposure arising from a beneficial interest in any single collective investment scheme which does not fall

within the UCITS Directive and is not a non-UCITS retail scheme or a recognised scheme.

(4) In (3) a *firm's* business amount means the sum of:

(a) ...

(b) ...

(c) ...

(ii) in the case of a *firm* carrying on *long-term insurance business*, the amount of its *long-term insurance capital requirement* and, where it is a *regulatory basis only life firm*, the amount of its *resilience capital requirement*.

...

...

2.1.39 R For the purposes of *INSPRU 2.1.20R* and *INSPRU 2.1.22R*, ~~a UCITS scheme, a non-UCITS retail scheme, a recognised scheme or any other collective investment scheme that invests only in admissible assets (including any derivatives or quasi-derivatives held by the scheme)~~ is to be treated as closely related to the issuer of the units in that scheme units in a collective investment scheme that does not fall within the UCITS Directive must be treated as a counterparty exposure to the issuer of the units in that scheme if the issuer and those units are to be regarded as constituting a single risk because they are so interconnected that, if the issuer were to experience financial problems, this would be likely to affect the value of the units.

2.1.39A G Where the value of units in a collective investment scheme other than one falling within the UCITS Directive would be likely to be adversely affected by financial problems experienced by the issuer of those units, for the purposes of INSPRU 2.1.20R and INSPRU 2.1.22R, the units must be treated as a counterparty exposure to the issuer, with the result that the exposure is subject to the limit in INSPRU 2.1.22R(3)(c)(ii). In all other cases, the units would fall to be treated as an asset exposure, with the result that they are subject to the relevant limit under INSPRU 2.1.22R(3)(i) or (j).

Meaning of closely related

2.1.40 R For the purposes of *INSPRU 2.1*, a group of *persons* is closely related if it consists solely of two or more ~~natural or legal persons~~ *persons* who, unless it is shown otherwise, constitute a single risk because as between any two of

them one or other of the following relationships apply:

- (1) one of them, directly or indirectly, has control, as defined in *INSPRU* 2.1.41R, over the other or they are both controlled by the same third party; or
- (2) there is no relationship of control as defined in *INSPRU* 2.1.41R but they are to be regarded as constituting a single risk because they are so interconnected that, if one of them were to experience financial problems, the other would be likely to encounter repayment difficulties.

...

3.1.7 G *INSPRU* 3.1 addresses the impact of *market risk* on *insurance business* in the ways set out below:

- (1) Any firm that carries on *long-term insurance business* which is a regulatory basis only life firm must comply with the *resilience capital requirement*. This requires the firm to hold capital to cover *market risk*. The *resilience capital requirement* is dealt with in *INSPRU* 3.1.9G to *INSPRU* 3.1.26R.

...

...

Resilience capital requirement (only applicable to the long-term insurance business of regulatory basis only life firms only)

3.1.9 G The *resilience capital requirement* forms part of the calculation of the *capital resources requirement* for regulatory basis only life firms. *GENPRU* 2.1.23R specifies that the *CRR* for a regulatory basis only life firm is equal to the *MCR* in *GENPRU* 2.1.25R. The *resilience capital requirement* forms part of the *MCR* for a regulatory basis only life firm (see *GENPRU* 2.1.25R(2)(b). ~~all firms carrying on long-term insurance business. GENPRU 2.1.18R to GENPRU 2.1.23R set out the different elements of this calculation. These include the *Minimum Capital Requirement* and the *Enhanced Capital Requirement*. The *resilience capital requirement* forms part of both of these requirements (see *GENPRU* 2.1.25R(2) and *GENPRU* 2.1.38R(2)).~~

3.1.10 R (1) A regulatory basis only life firm ~~that carries on long-term insurance business~~ must calculate a *resilience capital requirement* in accordance with (2) to (5).

...

...

- 3.1.14 G ~~The *resilience capital requirement* requires firms to assume different adverse *market risk* scenarios for equities, real estate and fixed interest securities (see *INSPRU* 3.1.16R and *INSPRU* 3.1.23R) to those required by *INSPRU* 1.3.68R (UK and certain other assets) and *INSPRU* 1.3.73R (non-UK assets) in relation to the calculation of the *risk capital margin* for a *with-profits fund* by a *realistic basis life firm* calculating its *with-profits insurance capital component*. [intentionally blank]~~

...

- 3.1.28 R (1) The rates of interest required by *INSPRU* 1.2.33R to be used by a firm for the calculation of the present value of a *long-term insurance liability* must not exceed 97.5% of the risk-adjusted yield (see *INSPRU* 3.1.30R to *INSPRU* 3.1.48G) that is expected to be achieved on:
- (1a) the assets allocated to cover that liability;
 - (1b) the reinvestment of sums expected to be received from those assets (see *INSPRU* 3.1.45R to *INSPRU* 3.1.48G); and
 - (1c) the investment of future *premium* receipts (see *INSPRU* 3.1.45R to *INSPRU* 3.1.48G).
- (2) (1) does not apply to a *long-term insurance contract* in respect of which the firm has calculated a negative value for the *mathematical reserves* in accordance with *INSPRU* 1.2.24R.

...

- 3.1.29A G ~~*INSPRU* 3.1.28R applies only~~ applies to a *long-term insurance contract* in respect of which a firm has calculated *mathematical reserves* with a positive value that are treated as liabilities. Where a firm treats a *long-term insurance contract* as an asset A firm may, however, also have *long-term insurance contracts* where the value of future cash inflows under and in respect of the contract exceeds that of outflows, allowing the firm to calculate a negative value for the *mathematical reserves* for that contract (see *INSPRU* 1.2.24R).~~;~~
~~in~~ In calculating the present value of future net cash flows under and in respect of the that contract, the firm must include margins for adverse variation in accordance with *INSPRU* 1.2.13R. These margins should include margins for *market risk* and, where relevant, credit risk. For those margins to be sufficiently prudent as required by *INSPRU* 1.2.13R, the rate of interest used may need to be higher than that which would apply under

INSPRU 3.1.28R.

...

- 8.1.7 G ... *INSPRU 7.1* contains *rules* and guidance on the assessment of capital adequacy for *firms* and *INSPRU 7.1.57R*~~7.1.74G~~ to *INSPRU 7.1.70R*~~7.1.90R~~ provide for the application of *INSPRU 7.1* to the *Society* and *managing agents*.

...

INSPRU TP

Transitional provisions

...

6 Admissible assets

Application

- 6.1 R *INSPRU TP 6* applies to an *insurer* which is not a *pure reinsurer*.

Duration of transitional

- 6.2 R *INSPRU TP 6* applies until 30 December 2007.

GENPRU 2 Annex 7R

- 6.3 R (1) In determining whether its assets are *admissible assets*, instead of applying *GENPRU 2 Ann 7R*, a *firm* may elect to treat as an *admissible asset* an asset that would have been an *admissible asset* for the purposes of the *Integrated Prudential Sourcebook (PRU)* as it was in force on 30 December 2006.
- (2) (1) does not apply when determining whether a *derivative* or *quasi-derivative* is an *approved derivative* or *approved quasi-derivative*.
- (3) If a *firm* applies (1) to any of its assets, it must do so for all of its assets except *derivatives* and *quasi-derivatives*.

Annex E

Amendments to Annex A (Chapter TP of GENPRU and GENPRU Schedules) to the General Prudential Sourcebook (Transitional Provisions and Schedules) Instrument 2006 (FSA 2006/51)

In this Annex, underlining indicates new text.

TP Transitional provisions

...

15 Admissible assets

Application

15.1 R GENPRU TP 15 applies to an insurer which is not a pure reinsurer.

Duration of transitional

15.2 R GENPRU TP 15 applies until 30 December 2007.

GENPRU 2 Annex 7R

15.3 R (1) In determining whether its assets are *admissible assets*, instead of applying GENPRU 2 Ann 7R, a firm may elect to treat as an *admissible asset* an asset that would have been an *admissible asset* for the purposes of the Integrated Prudential Sourcebook (PRU) as it was in force on 30 December 2006.

(2) (1) does not apply when determining whether a *derivative* or *quasi-derivative* is an *approved derivative* or *approved quasi-derivative*.

(3) If a firm applies (1) to any of its assets, it must do so for all of its assets except *derivatives* and *quasi-derivatives*.

Annex F

Amendments to Annex A (Amendments to the Glossary) to the CRD (Consequential Amendments) Instrument 2006 (FSA 2006/53)

In this Annex, underlining indicates new text and striking through indicates deleted text. Where different amendments are to be substituted for those currently set out in Annex A, this is indicated below.

...

Part 1B (New definitions taking effect on 1 January 2007)

*supervisory review and
evaluation process*

the FSA's assessment of the adequacy of certain firms' capital, as more fully described in *BIPRU 2.2.9G* and *INSPRU 7.1.8G*7.1.12G.

...

Part 2A (Revised definitions taking effect on 31 December 2006)

...

Substitute for the amendments to the definition of admissible asset the following:

admissible asset

(1) (~~in LLD~~ for the purpose of the rules in GENPRU and INSPRU as they apply to members of the Society of Lloyd's, the Society and managing agents) an asset that, subject to paragraphs (2) and (3) of GENPRU 2 Ann 7R, falls into one or more categories in paragraph (1) of GENPRU 2 Ann 7R as modified by ~~LLD 19.3.19R~~ GENPRU 2.3.34R.

(2) otherwise:

(a) (in relation to an insurer which is not a pure reinsurer) an asset that, subject to paragraphs (2) and (3) of GENPRU 2 Ann 7R, falls into one or more categories in paragraph (1) of GENPRU 2 Ann 7R; or

(b) ...

...

*enhanced capital
requirement*

(1) (in relation to a *firm* carrying on *general insurance business*)
the amount calculated in accordance with *PRU*
~~2.3.11R~~INSPRU 7.1.11R~~INSPRU 1.1.72CR~~.

**INTERIM PRUDENTIAL SOURCEBOOK FOR INSURERS
(AMENDMENT NO 10) INSTRUMENT 2006**

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
 - (2) section 141 (Insurance business rules);
 - (3) section 150(2) (Actions for damages);
 - (4) section 156 (General supplementary powers);
 - (5) section 157(1) (Guidance); and
 - (6) section 340 (Appointment).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

Commencement

- C. This instrument comes into force on 31 December 2006.

Amendments to the Handbook

- D. The Interim Prudential sourcebook for Insurers (IPRU(INS)) is amended in accordance with the Annex to this instrument.

Citation

- E. This instrument may be cited as the Interim Prudential Sourcebook for Insurers (Amendment No 10) Instrument 2006.

By order of the Board
15 December 2006

Annex

Amendments to the Interim Prudential sourcebook for Insurers (IPRU(INS))

In this Annex, underlining indicates new text and striking through indicates deleted text. Where a new section of text is inserted, this is indicated and the new text is not underlined.

FINANCIAL REPORTING

...

Deposit of accounts etc. with the FSA

9.6 (1) ...

- (2) In (1), the reference to the **required copies** is to -
- (a) five printed copies of the document; or
 - (b) one printed copy of the document and one copy of it in an electronic form which may be readily used or translated by the *FSA* sent by email to insurancereturns@fsa.gov.uk. The title of the email must be:

<firm name> FSA returns <dd/mm/yyyy>.

The printed copies must be sent to Insurance Returns, The Financial Services Authority, PO Box 35747, London E14 5WP (and must not be addressed to the *insurer's* normal supervisory contact).

...

- (6) There must be deposited with every revenue ‘account’ and ‘balance sheet’ of an *insurer* any statement or report on the affairs of the *insurer* made or submitted:
- (a) to the *insurer's* shareholders or *policy holders*; or
 - (b) to the *insurer's with-profits policyholders* under *COB* 6.11.8G, *COB* 6.11.9R or *SUP* 4.3.16AR(4),

in respect of the *financial year* to which the ‘account’ and ‘balance sheet’ relate.

The *insurer* may either send a printed copy or an electronic copy of these reports. The requirements in (2) above as to postal address, email address and email title apply.

...

...

Additional information on general insurance business: major facultative reinsurers

- 9.26 (1) ...
- (2) (a) ...
 - (b) in relation to which, in respect of any *reinsurer* (a **major facultative reinsurer**) the aggregate amounts in (1)(d) and (f) ~~(e)~~ exceeds the sum of 4,000 Euro and 1% of the *insurer's* liabilities arising from its *general insurance business*, net of *reinsurance ceded*.

...

PART V

GROUP CAPITAL ADEQUACY

...

9.42

...

- (4) An ~~insurer~~ *insurer* must submit the reports in rule 9.40(1) and in rule 9.40(1A) to the *FSA* no later than 4 months from the end of:
- (a) the *financial year in question*; or
 - (b) the *financial year* of the relevant parent, where the report is provided as at the end of its *financial year* under (1)(a).

The *insurer* must send one printed copy and one electronic copy to the appropriate addresses set out in rule 9.6(2) above. The electronic copy must be sent by email and the title of the email must be:

<firm name> group capital adequacy <dd/mm/yyyy>.

- (5) ...

...

PART VI

ENHANCED CAPITAL REQUIREMENT

9.44 ...

- (3) An *insurer* must deposit a printed copy of the report with the ~~FSA~~ *FSA* within 2 months and 15 days of the *financial year end* ~~end~~ unless, in addition to depositing a printed copy, an *insurer* also deposits an electronic copy, then the period of deposit is within 3 months of the *financial year end* ~~end~~. The copies must be sent to the appropriate addresses set out in rule 9.6(2) above.

...

- (5) The electronic copy deposited under (3) above must be in an electronic form which may be readily used or translated by the *FSA* and must be sent by email to the appropriate address set out in rule 9.6(2) above. The title of the email must be:

<firm name> Form ECR1 <dd/mm/yyyy>

...

9.46 An electronic copy that is not a completed Form ECR1 spreadsheet file template from the *FSA* website that can be accessed by Microsoft Excel is unlikely to be readily used or translated by the *FSA*. ~~Electronic copies may be sent on disk or by e-mail to eersubmissions@fsa.gov.uk.~~

Chapter 12

TRANSITIONAL ARRANGEMENTS

...

Insert after guidance paragraph 12.7 the following transitional rules 12.8, 12.9 and 12.10:

Off-market derivatives in linked funds

- 12.8
- (1) This transitional *rule* has effect from 31 December 2006 to 30 December 2007.
 - (2) For the purpose of the definition of *permitted derivative contract* in *IPRU (INS)* 11.1:
 - (a) *INSPRU* 3.2.5R(3)(b) has effect as if the words "and is capable of valuation" and "to *INSPRU* 3.2.35R" were omitted;
 - (b) *INSPRU* 3.2.34R has effect as if it read "For the purpose of *INSPRU* 3.2.5R(3)(b), a transaction is on approved terms only if the *firm* reasonably believes that it may be readily closed out"; and
 - (c) *INSPRU* 3.2.35R does not apply.

Admissible assets

- 12.9
- (1) This transitional *rule* has effect from 31 December 2006 to 30 December 2007.
 - (2) In determining whether its assets are *admissible assets* for the purpose of any *rule* in *IPRU(INS)*, instead of applying *GENPRU* 2 Ann 7R, an *insurer* may elect to treat as an *admissible asset* an asset that would have been an *admissible asset* for the purposes of the Integrated Prudential Sourcebook (PRU) as it was in force on 30 December 2006.
 - (3) (2) does not apply when determining whether a *derivative* or *quasi-derivative* is an *approved derivative* or *approved quasi-derivative*.
 - (4) If an *insurer* applies (2) to any of its assets, it must do so for all of its assets except *derivatives* and *quasi-derivatives*.

Definitions of *FSA general insurance business reporting categories* 343 (Energy) and 262 (Consequential loss) in *IPRU(INS)* Annex 11.3 Part I

- 12.10
- (1) This transitional *rule* has effect from 31 December 2006 to 30 December 2007.

- (2) Subject to (3), an *insurer* may use a definition of 343 (Energy) that is as stated in *IPRU (INS)* Annex 11.3 Part I but with the words "or against risks of loss to the persons insured attributable to interruptions of business carried on by them" omitted.
- (3) If an *insurer* uses a modified definition of 343 (Energy) under (2), it must use a definition of 262 (Consequential loss) that is as stated in *IPRU (INS)* Annex 11.3 Part I but with the words "or 343 (energy)" omitted.

APPENDIX 3.2 (rule 3.7)

PERMITTED LINKS

PART I

DESCRIPTIONS OF PROPERTY BY WHICH BENEFITS MAY BE DETERMINED

...

5. Units or other beneficial interests in -
- (a) a scheme falling within the *UCITS Directive* or an authorised fund which is a non-UCITS retail scheme; and
 - (b) a *collective investment fund* which satisfies the following conditions -
 - (i) the property of the fund comprises property of any of the descriptions in 1 to 10,
 - (ii) the units are *readily realisable* at a price which represents the net value per unit of the assets and liabilities of the fund, and
 - (iii) the price at which the units may be bought and sold is published regularly.

....

APPENDIX 9.1 (rules 9.12 and 9.13)

**BALANCE SHEET AND PROFIT AND LOSS ACCOUNT
(FORMS 1 TO 3 AND 10 TO 19)**

...

- 7 Firms should not normally restate comparatives unless restatement is necessary in order to allow the appropriate comparison to be made. Where in any Form an amount which is a comparative (i.e. shown in a "previous year" column) ~~shown as brought forward from previous year~~ differs from the corresponding amount shown in a "this financial year" column ~~as carried forward from that year in a return for a previous year~~ and the difference is not due solely to the use of a different rate to express other currencies in sterling, an explanation of the reason for the difference must be given by way of a supplementary note to that form. (For **Forms 1, 2, 3, 10, 11, 12, 13, 14, 15, 16, 17, 18,** and **19** the code for the supplementary note is 0111, 0211, 0311, 1011, 1111, 1211, 1311, 1411, 1511, 16121, 1711, 1811, and 1911 respectively.)

....

Premiums

10. (1) Notwithstanding the requirements of the *insurance accounts rules*, amounts included in **Forms 11** and **12** in respect of -
- (a) *gross written premiums receivable;*
 - (b) *gross earned premiums;*
 - (~~b~~c) *claims paid;*
 - (ed) *claims outstanding; and*
 - (~~d~~e) *reinsurance recoveries,*
- must be determined in accordance with *PRU 7.2.66R* and *PRU 7.2.71R*.

- (2) ...

Counterparty exposure

11. (1) There must be given by way of a supplementary note to **Form 13** (code 1305 for other than *long-term insurance business* and code ~~1314~~ 1319 for *long-term insurance business*) –

...

...

Instructions for completion of Form 1

1. ...
7. The excess (deficiency) of available *capital resources* to cover the *guarantee fund* requirement at line 22 is equal to line 81 on Form 3 less line 21, except for a branch. For a *branch* this is equal to line 13 less line 21 less an adjustment because assets held to cover the *guarantee fund* must be held in the *United Kingdom* (or for *UK-deposit insurers*, in the *EEA States* where the *firm* carries on *insurance business*); the adjustment is the difference between form 13 line 89 for categories -4- 1 and 3 (or 5), except for *branches* carrying on both *long-term insurance business* and *general insurance business* (composite *branches*); composite *branches* will need to state how the difference is allocated between *general insurance business* and *long-term insurance business* in a note to the Form (Note 0102).
8. ...

Instructions for completion of Form 2

1. ...
2. The entry at line 13 must be equal to the *total capital resources* after deductions at line 79, column 2 on Form 3. The entry at line 11 represents items relating to the *long-term insurance fund*, and that at line 12 represents amounts arising outside the *long-term insurance fund*. For a *branch*, line 11 is equal to the sum of any *implicit items* plus form 10 line 11 less the sum of lines 11, 12 and 49 in Form 14: when there are implicit items ~~it would be appropriate for note 0202 (see instruction 26) to include an analysis of line 11~~ must be given in a supplementary note (code 0202); if the *insurer* is not carrying on *general insurance business* through the *branch*, line 12 will be equal to Form 10 line 29.
3. ...

Instructions for completion of Form 10

1. ...
3. ~~Line 63 must be equal to lines 13.92.2 to 13.95.2 less lines 13.92.1 to lines 13.95.1 of the Form for the total other than *long-term insurance business assets* category. [deleted]~~
4. ...
- ...

Instructions for completion of Forms 11 and 12

...

1. For a *composite firm*, Forms 11 and 12 must be completed separately for the total *general insurance business* and for the total *long-term insurance business* which is *class IV₂* supplementary accident and sickness insurance business or *life protection reinsurance business written by a pure reinsurer or a mixed insurer*. For other *firms*, the forms must be completed for the total *general insurance business* or for the total *long-term insurance business* which is *class IV₂* ~~or~~ supplementary accident and sickness insurance business or *life protection reinsurance business written by a pure reinsurer or a mixed insurer*, as appropriate.
2. Notwithstanding instruction 1, if the gross annual office premiums for *class IV* business, *life protection reinsurance business written by a pure reinsurer or a mixed insurer* and supplementary accident and sickness insurance in force on the 'valuation date' do not exceed 1% of the gross annual office *premiums* in force on that date for all *long-term insurance business*, Forms 11 and 12 need not be completed for *long-term insurance business* as long as it can be stated that the entry in line 21 of Form 60 exceeds the amount that would be obtained if Forms 11 and 12 were to be completed for *long-term insurance business*. In this circumstance, the method of estimating the entry in line 21 of Form 60, together with a statement of the gross annual office *premiums* in force at the 'valuation date' in respect of *Class IV* business, *life protection reinsurance business written by a pure reinsurer or a mixed insurer* and supplementary accident and sickness insurance, must be given in a supplementary note (code 6001).

...

Instructions for completion of Form 14

1. The Form must be completed for the total *long-term insurance business liabilities* and margins of the *insurer* or *branch* and for each fund or group of funds for which separate assets are appropriated and each *with-profits fund*. ~~The words "total long-term insurance business assets" or the name of the fund must be shown against the heading "Category of assets". The corresponding code box must be completed with the same entries as were used on the corresponding Form 40.~~

Instructions for completion of Form 15

1. ...

...

8. Lines 81-8485 must be completed in accordance with the *insurance accounts rules* or *international accounting standards* as applicable to the *insurer* for the purpose of its external financial reporting if the *insurer* is required to produce such accounts. Otherwise these lines must be left blank. Details of amounts in line 83 must be disclosed in a supplementary note (code 1507). The previous year figures must be left blank for financial years ending on or before 30 December 2006.
9. The amount at line 48 column 1 is dividends which had been declared but not paid prior to the end of the financial year. Where the previous financial year ends before 31 December 2006 the amount shown in column 2 must be the amount shown in the previous annual return (where a different definition for this item may have been used).

APPENDIX 9.2 (rules 9.14 to 9.22)

**GENERAL INSURANCE BUSINESS:
REVENUE ACCOUNT AND ADDITIONAL INFORMATION
(FORMS 20A and 20 TO 39)**

...

- 2B (1) In the Table in (2) a Form, specified in the first column, is required for a category of business, specified in the second column, if the criteria, specified in the third column, are met for that category of business.
- (2) Table: Criteria (if any) for whether a Form is required for a category of general insurance business. Paragraph 2C belongs to this Table.

Form	Category of business.	Reporting criteria (if any)
F20 to F25 Technical provisions and profit & loss account	<i>Category number 001</i>	Forms always required
	<i>Category numbers 002,003</i>	Either - (a) the <i>insurer's</i> 'gross undiscounted provisions' in the category of business at the end of the <i>financial year</i> exceed zero; or (b) the <i>insurer's gross written premiums</i> in the category of business in the <i>financial year</i> exceed zero.
	<i>Category numbers 110, 120, 160, 180, 220, 260, 270, 280, 330, 340, 350, 400, 500, 600, 700</i>	Either - (a) the <i>insurer's</i> 'gross undiscounted provisions' in the category of business at the end of the <i>financial year</i> exceed: (i) £100m; or (ii) the higher of 5% of the <i>insurer's</i> total 'gross undiscounted provisions' and £1 million or (b) the <i>insurer's gross written premiums</i> in the category of business in the <i>financial year</i> exceed: (i) £100m; or (ii) the higher of 5% of the <i>insurer's</i> total <i>gross written premiums</i> and £1 million.
	<i>Category number 409</i>	Some business in <i>category number 002</i> is not reported on Forms 20 to 25 for <i>category numbers 110 to 400</i> .
	<i>Category number 709</i>	Some business in <i>category number 003</i> is not reported on Forms 20 to 25 for <i>category numbers 500, 600 and 700</i> .

<p>F26 to F29 Results by year of origin for treaties accepted</p>	<p><i>Category numbers 510 to 590 and 610 to 690</i> denominated in any one currency. <i>Category number 700</i></p>	<p>Either -</p> <p>(a) the <i>insurer's</i> 'gross undiscounted provisions' in the category of business at the end of the <i>financial year</i> exceed:</p> <p>(i) £100m; or (ii) the higher of 5% of the <i>insurer's</i> total 'gross undiscounted provisions' and £1 million or</p> <p>(b) the <i>insurer's gross written premiums</i> in the category of business in the <i>financial year</i> exceed:</p> <p>(i) £100m; or (ii) the higher of 5% of the <i>insurer's</i> total <i>gross written premiums</i> and £1 million.</p>
<p>F31, F32, F34 Gross results by year of origin for direct and facultative business</p>	<p><i>Category numbers 330 to 350 <u>331 to 341</u> to <u>350</u></i> denominated in any one currency. <i>Category numbers 110 to 140 <u>111 to 114</u>, <u>121 to 160</u>, <u>181 to 187</u>, <u>221 to 223</u>, <u>261 to 263</u>, <u>271 to 274</u> and <u>281 to 284</u></i> denominated in any one currency carried on in any 'reporting territory' <i>Category number 400</i></p>	<p>Either -</p> <p>(a) the <i>insurer's</i> 'gross undiscounted provisions' in the category of business at the end of the <i>financial year</i> exceed:</p> <p>(i) £100m; or (ii) the higher of 5% of the <i>insurer's</i> total 'gross undiscounted provisions' and £1 million or</p> <p>(b) the <i>insurer's gross written premiums</i> in the category of business in the <i>financial year</i> exceed:</p> <p>(i) £100m; or (ii) the higher of 5% of the <i>insurer's</i> total <i>gross written premiums</i> and £1 million.</p>

2C

For the purpose of column 2 of the Table in Paragraphs 2B and Paragraphs 3(1) and 3(3) -

- (a) a currency in which a *contract of insurance* is denominated is -
 - (i) the currency in which the contract requires settlement of claims or the successor to that currency if it has been superseded, ~~or~~
 - (ii) the currency in which the *insurer* records claim payments under the contract, if the contract permits settlement of claims in more than one currency or if it is the *insurer's* internal practice to convert claim payments to that currency, or;
 - (iii) the currency in which the *insurer* maintains records of the development of *premiums* or *claims* under the contract in order to determine *technical provisions*;
- (b) business denominated in British pound, converted to British pound, or British pound and converted to British pound combined ~~converted sterling~~ is are to be treated as though they ~~it~~ were denominated in a different currencies ~~currency~~ from each other ~~business denominated in sterling~~; and

...

...
3

- (3) Notwithstanding the provisions of 2, all amounts included in -
 - (a) columns 1, 2, 3 and 11 of **Form 23**;
 - (b) columns 1, 2, 3 and 11 of any **Form 26** or **27** for *category number 700*;
 - (c) columns 3 and 10 of any **Form 31** for *category number 400*; and
 - (d) columns 1 and 8 of any **Form 34** for *category number 400*,must be expressed in sterling, and these amounts that are in respect of business denominated in a non-sterling currency must be expressed in sterling as if conversion of every currency had taken place at the closing middle rate on the last day for which the appropriate rate is available in the *financial year in question*.
- (4) ~~{deleted}~~ For the purpose of (3), the currencies 'Converted to British pound' and 'British pound and converted to British pound combined' are not non-sterling currencies.

...

...

7

- (1) The following information must be stated by way of supplementary notes (codes 20Aa to 20Af) to **Form 20A** -
 - (a) (code 20Aa) in respect of each *risk category* (other than *risk categories with category numbers 274, 590 or 690*) to which an *insurer* has allocated *general insurance business* under rule 9.14B -
 - ...
 - (d) (code 20Ad) in respect of each *risk category* (other than *risk categories 510 to 590, 610 to 690 and 700*) for which amounts reported in **Form 20A** contain both *claims-made policies* and policies which are not *claims-made*:
 - ...

...

...

...

8A Where in any Form an amount which is a comparative (i.e. shown in a "previous year" column) or shown brought forward from a previous year differs from the corresponding amount shown in a "this financial year" column or as carried forward from that year, as the case may be, and the difference is not solely to the use of a different rate to express other currencies in sterling, an explanation of the reason for the difference must be given by way of a supplementary note to that Form ~~in accordance with Appendix 9.1 paragraph 7.~~ For **Forms 20, 21, 22, 23, 24, 26, 27, 28, 31, 32, 33, or 34 or 35,** the code for the supplementary note is 2001, 2101, 2201, 2301, 2401, 2601, 2701, 2801, 3101, 3201, ~~3301, or 3401 or 3501~~ respectively.

...

- 16 (1) ...
- (a) ...
 - (b) If the risk category is not 510 to 590, 610 to 690 or 700, and any of the business reported in **Form 20A** under the *risk category* is attributable to overseas business, the countries in which the business in the *risk category* is carried on; and
 - (c) ...
- (2) ...
- (3) In a **Form 31, 32 or 34,** an *insurer* must enter in the space alongside 'reporting territory' -
- (a) 'World wide' if the business on the Form is a subset of *category numbers* 330 or 340 or *category number* 350 or 400; or
 - (b) ...

...

Instructions for completion of Form 20A

...

2. The amount to be shown under provision for gross unearned premium for an *FSA general insurance business reporting category* must equate to F21.19.2 + F25.22.12, as if **Forms 21 or 25** were required for that *FSA general insurance business reporting category*, plus the reinsurers' share of provision for gross unearned premiums for business in the *FSA general insurance business reporting category* accounted for on an underwriting year basis.

...

7. If the entry at Where line 1 column 1 does not equal the amount shown at ~~is different~~ to line 11 column 1 of Form 11, or the entry at line 1 column 4 does not equal the amount shown at line 11 column 1 of Form 15, the ~~insurer~~ *insurer* must provide an explanation for the difference ~~reason~~ in a supplementary note (code 20A1).

...

Instructions for completion of Form 26

...

9. The amounts shown in line 21 must be analysed on continuation sheets by accident year subject to instructions 10, 10A and 10B below.

10. On the continuation sheet, for *category numbers* 590 and 690, the amounts in columns ~~2 and~~ 4 to 10 for accident years ending prior to 31 December 1996 may be shown in the aggregate and columns 1, to 3 and 11 to 13 need not be completed for accident underwriting years ending prior to 31 December 1996.
- 10A. On the continuation sheet, for *category numbers* 610, 620, 650, 660 and 680 the amounts in columns 4 to 10 for accident years ending prior to 23 December 1993 may be shown in the aggregate and columns 1 to 3 and 11 to 13 need not be completed for accident years ending prior to 23 December 1993.
- 10B. On the continuation sheet, for *category numbers* other than those listed in 10 and 10A above, the amounts in columns 4 to 10 for accident years ending prior to 31 December 1983 may be shown in the aggregate and columns 1 to 3 and 11 to 13 need not be completed for accident years ending prior to 31 December 1983.

...
...

Instructions for completion of Form 27

9. The amounts shown in line 21 must be analysed on continuation sheets by accident year subject to instructions 10, 10A and 10B below.
10. On the continuation sheet, for *category numbers* 590 and 690, the amounts in columns ~~2 and~~ 4 to 10 for accident years ending prior to 31 December 1996 may be shown in the aggregate and columns 1, to 3 and 11 to 13 need not be completed for accident underwriting years ending prior to 31 December 1996.
- 10A. On the continuation sheet, for *category numbers* 610, 620, 650, 660 and 680 the amounts in columns 4 to 10 for accident years ending prior to 23 December 1993 may be shown in the aggregate and columns 1 to 3 and 11 to 13 need not be completed for accident years ending prior to 23 December 1993.
- 10B. On the continuation sheet, for *category numbers* other than those listed in 10 and 10A above, the amounts in columns 4 to 10 for accident years ending prior to 31 December 1983 may be shown in the aggregate and columns 1 to 3 and 11 to 13 need not be completed for accident years ending prior to 31 December 1983.

...
...

Instructions for completion of Form 31

7. For *risk categories* 271 to 274 the amounts shown in line 21 must be analysed by accident year on continuation sheets subject to instructions 8 to 9A ~~and 9~~ below.
- 9A. On the continuation sheet, for *category numbers* 271 to 273, the amounts in columns 2 and 4 to 8 for accident years ending prior to 31 December 1976 may be shown in the aggregate and columns 1 and 3 need not be completed for accident years ending prior to 31 December 1976.

...
...

Instructions for completion of Form 34

7. For *risk categories* 271 to 274 the amounts shown in line 21 must be analysed by underwriting year on continuation sheets subject to instructions 8 to 9A ~~and 9~~ below.

8. On the continuation sheet columns 8 and 9 need not be completed in respect of *financial years* underwriting years ended before 23 December 1994.

...

9A. On the continuation sheet, for category numbers 271 to 273, the amounts in columns 2 to 6 for underwriting years ending prior to 31 December 1976 may be shown in the aggregate and column 1 need not be completed for underwriting years ending prior to 31 December 1976.

...

...

Instructions for completion of Form 38

...

8. The entry at line 23 must be the part of the amount that would appear on Form 22 for *combined categories* 180 and 280, at lines 14 and 18 column 4 (whether or not a Form 22 ~~23~~ for *combined categories* 180 or 280 is required) that relates only to *credit insurance business*.

9. The entry at line 24 must be the part of the amount that would appear on Form 22 for *combined categories* 180 and 280, at lines 19 and 29 column 4 (whether or not a Form 22 ~~23~~ for *combined categories* 180 or 280 is required) that relates only to *credit insurance business*.

...

...

APPENDIX 9.3 (rules 9.14 and 9.23)

**LONG-TERM INSURANCE BUSINESS
REVENUE ACCOUNT AND ADDITIONAL INFORMATION
(FORMS 40 TO 60)**

...

3. For the purposes of this Appendix:
- (a) "overseas business" means *long-term insurance business* which is Overseas Life Assurance Business or Overseas PHI and Sickness Business as defined by the Income and Corporation Taxes Act 1988 or business written overseas by an insurer which does not report its Overseas Life Assurance Business separately for taxation purposes;

...

...

Instructions for completion of Form 40

...

4. Any item of income which cannot properly be allocated to lines 11, 12, 13 or 14 must be entered at line 15, and similarly, any item of expenditure which cannot properly be allocated to lines 21, 22, 23 or 24 must be entered at line 25. Particulars of such items must be specified in a supplementary note [Code 4002]. Lines 15 and 25 must be used for transfers of unit management charges into or out of the fund or subfund. Where there are subfunds, inter-subfund other income and other expenditure must be excluded from the total Form 40.

...

12. Transfers of contracts from or to other funds or from another insurer must be included at line 31 or 32, with details specified in a supplementary note [Code 4004]. Where there are subfunds, inter-subfund transfers must be excluded from the total Form 40.

3. 'New' regular premiums and 'new' single premiums are premiums from new *policy holders* and scheme members, and ~~may~~ must also include new increments on existing *policies* accepted by the *insurer*, in the *financial year in question*.

...

Instructions for completion of Form 47

1. Information must be shown separately for each type of *insurance business* in the sequence specified below:

- (a) UK life ('UKL');
- (b) UK pension ('UKP'); and
- (c) overseas ('OS').

Overseas business may, at the discretion of the insurer, be subdivided by state or territory.

2. The information must be shown separately within each type of *insurance business* in the sequence specified below:

- (a) *direct insurance business* ('DB');
- (b) *reinsurance* accepted which is external to the *insurance group* ('RE'); and
- (c) *reinsurance* accepted which is from within the *insurance group* ('RG').

3. ...

571	Trustee investment plan UWP
574	<u>UWP investment only reinsurance</u>
575	Miscellaneous UWP

...

790	Miscellaneous protection rider
794	<u>Property linked investment only reinsurance</u>
795	Miscellaneous property linked
...	

...

For the purposes of allocation to product codes (e.g. code 175), group business is where there is another party in the arrangement, normally an employer. An *insurer* may use an internal definition to allocate between individual and group business for schemes with less than ten members.

Group money purchase pensions product codes (535, 540, 735, 740) cover policies where the insurer holds details at member level. Trustee investment plan product codes (571, 755) cover policies which are not in the name of or earmarked for an individual member. Group managed fund product code (765) covers unit-linked investments for final salary pension schemes.

4. ...
5. ... Details of approximations made in determining columns 3 and 5 must be given in a note (code 4703). For reinsurance accepted columns 3 and 5 are nil.

...

...

Instructions for completion of Form 48

1. ...

Line 19.1 must equal line 19.2.

Line 29.1 must equal line 29.2.

Line 19.1 + 29.1 must equal Form 13.89.1 – 13.58.1 – 13.59.1.

2. *Collective investment schemes* (in line 13.43) and collective investment pools (in line 13.49) must be allocated in column 1 to line 18 or 28. In column 2 they must be allocated according to the underlying assets, but holdings of a type of asset within a collective investment scheme or pool of less than 5% of the assets for that collective investment scheme or pool may be grouped with the main type of underlying asset for that collective investment scheme or pool. An amount of collective investment scheme and collective investment pool assets not exceeding 1% of the total non-linked assets may be reallocated from column 1 to column 2 based on the stated investment objective instead of the actual underlying assets at the valuation date.
3. *Equity Shares* (lines 21, 23, 25 and 27 of Form 13) must be allocated in column 2 to lines 11, 15, 16, 21, 25 or 26 as appropriate if the undertaking is principally a holding company for ~~equity~~ *equity shares* or property. An amount of unlisted equity shares not exceeding 1% of the total non-linked assets may be reallocated from column 1 to column 2 based on the stated investment objective instead of the actual underlying assets at the valuation date.

...

10. ... Where *securities* may be redeemed over a period at the option of the guarantor or the issuer, ~~they must be classified~~ the yield must be determined on the assumption that they will be redeemed at the latest possible date implied by the market valuation. ~~or, if it is assumed that they will be redeemed at any earlier date, a~~ If these securities represent more than 1% of fixed and variable interest assets (Form 49 line 61) a supplementary note (code 4803) must be provided explaining how the assumed redemption date was determined and stating the value of these assets ~~what assumption has been made.~~ ...

...

...

Instructions for completion of Form 49

...

7. Other fixed interest securities held in *collective investment schemes* may be allocated to line 38 provided their value does not exceed 1% of the amount in line 39.

...

Instructions for completion of Form 50

...

5. Separate Forms must be completed for the total business and each subfund.

...

Instructions for completion of Forms 51, 52, 53 and 54

1. ...
2. Information must be shown separately for each type of *insurance business* for each of the following:
 - (a) UK life (~~'UKL'~~);
 - (b) UK pension (~~'UKP'~~); and
 - (c) overseas (~~'OS'~~).

Overseas business may, at the discretion of the insurer, be subdivided by state or territory.

3. The information must be shown separately for each source of business for each type of *insurance business* in the sequence specified below:
 - (a) *gross insurance business* (~~'GR'~~);
 - (b) *reinsurance ceded* which is external to the *insurance group* (~~'RE'~~); and
 - (c) *reinsurance ceded* which is ~~from~~ to another member of within the *insurance group* (~~'RG'~~).

...

6. ... For business without such records, the number of group schemes, divided analysed by the *product code*, must be set out in a supplementary note (codes 5101-5401). ...
7. To avoid double counting, if all the premiums in the plan are invested in the *with-profits fund*, a member of a plan offering a choice of funds may be treated as contributing to column 3 for unitised with-profits business. For *policies* with protection rider benefits, the entry in column 3 must be for the main benefit in the plan. A plan must only contribute once to column 3 in Forms 51-54. The total of *premiums* for the plan shown in Forms 51-54 must equal the total *premiums* for the plan. For plans where the *policyholder* has the option for *premiums* to be invested in both with-profits and internal linked funds, the preferred presentation is as follows. If all the *premiums* are invested in with-profits units and the plan is written in the *with-profits fund* the contribution to column 3 should be shown in Form 52, otherwise the contribution to column 3 should be shown in Form 53. The entry in column 3 is for the investment element of the plan, and the entry in column 3 for protection rider benefits is nil. The annual *premium* in column 5 should be allocated between Form 52 and Form 53 based on the current *premium* allocation percentages. If all the *premiums* are invested in with-profits units and the plan is written in the *with-profits fund* the protection rider benefits should be shown in Form 52, otherwise the protection rider benefits should be shown in Form 53. Where the protection rider benefits are paid for by cancelling units the entry in column 5 for the riders should be shown as nil, and all the *premiums* for the plan should be reported in column 5 under the *product code(s)* for the investment element.
8. ...
9. For *non-linked contracts* the amount of benefit in column 4 is the current death benefit (excluding any interim and terminal bonus) for assurances, the amount payable on claim for stand-alone critical illness, the annual amount of annuity for deferred annuities and annuities in payment and the annual amount of benefit for income protection and waiver of premium. For *linked long-term contracts* including life assurance, column 4 must be the current amount payable on death.
10. For *property linked long-term contracts*, unitised *with-profits policies* and deposit administration contracts, column 6 must be the current value of the units or fund as presented to the *policy holder*. For *index linked contracts* column 6 must be the index linked liability with no allowance for discounting. The amount in column 7 is the amount in column 6 allowing for any discounting in the valuation. The amount in column 9 is the sum of columns 7 and 8.
- ...
14. Reserves for non-attributable expenses must be included with the appropriate additional reserves product code, i.e. they are not allocated back to and included with reserves at product code level.
- ...

Instructions for completion of Form 55

1. Where the net assets held by the *insurer* for all the *internal linked funds* sharing the same underlying assets for pricing purposes exceed the lesser of £100m and 10% of

the total *internal linked funds* (line 59 of Form 45), with the exception of share index tracker funds, any such *internal linked fund* which is in one of the categories listed in 2 must be reported in Form 55. Where a life fund and a pension fund share the same underlying assets, the fund must be reported for the main life series and the main pension series.

...

5. Column 5 is the annual unit management charge shown to 2 decimal places for the largest series, e.g. 0.75 for an annual charge of 0.75%.
6. Columns 6 and 7 are the prices used to value the unit liabilities. Where there has been a transfer of business during the financial year, the price shown in column 6 is from the previous insurer.
7. Column 8 is $100 \times (\text{column 7} - \text{column 6}) / \text{column 6}$ shown to 2 decimal places, e.g. 20.00 for a 20% increase in unit price during the year.

...

Instructions for completion of Form 56

1. ...
3. For each index link, the sub-total of values in column 2 (excluding those held in respect of any *deposit back arrangement*) must match the sum of the appropriate entries in column 7 of Form 54 net of *reinsurance ceded*. These sub-totals are not shown on Form 56.

4. ...

...

Instructions for completion of Form 57

...

5. The product group in column 1 must be a narrative description of the products included in the line sufficient to give a ~~n~~easy-cross reference to Forms 51-54, e.g. 'UK L&GA WP Form 51 assurances'.

...

9. The insurer must include a supplementary note (code 5701) where negative mathematical reserves on one group of products have been used to offset positive mathematical reserves on another group of products, giving details of the amounts and products involved.

...

...			
Surplus including contingency and other reserves held towards the <u>solvency margin capital requirements</u> (deficiency) (15-21)	29		
...

Instructions for completion of Forms 59A and 59B

...

3. The date of the maturity value, open market option or surrender value is ~~the 1st of the month preceding the date that the submission of the return is due~~ two months and one day after the valuation date, for example 1st March for a 31st December valuation.

...

...

ABSTRACT OF VALUATION REPORT

...

Product range

2. Any significant changes in products during the *financial year* (new products, new bonus series, products withdrawn, changes to options or guarantees under existing products), including product brand names and charging methods, but not the amounts of the charges where these form part of the product terms. A statement for each with-profits subfund categorising that subfund into one of the categories (a), (b), (c) or (d) below:
- (a) open to new with-profits business;
 - (b) open only to new non-profit business;
 - (c) open but was not actively marketing in the previous *financial year*; or
 - (d) closed to new business except by increment.

Discretionary charges and benefits

3. (1) For each accumulating with-profits product where the *insurer* has the option to apply a market value reduction (or equivalent), a statement of the period when this has been applied during the year and a summary of the policy years of entry to which it applied.
- (2) Any changes to premiums on reviewable non-linked protection policies, including for each product affected, the range of the changes (x% to y%), the amount of business affected by a change, and the amount of business where a change was permitted but did not occur at this review date. For yearly renewable term assurance a change means a change in the underlying premium rates.
- (3) ...

...

Valuation basis (other than for special reserves)

...

4.

...

- (6) A table of expense bases used, showing the product group, the basis for the *financial year in question*, and the basis for the previous *financial year*. The table must show zillmer adjustments, expense assumptions for prospective methods where no further premiums are payable, expense assumptions for gross premium valuations of with-profits and non-profit premium paying business and expense assumptions for non-unit liability calculations for linked business, identifying monetary amounts and the percentages of premiums.

Per policy amounts are only required for the following classes:

CWP savings endowment (product code 120)

CWP target cash endowment (125)

CWP pensions (155 / 165)

Term assurance (325 / 330)

Critical illness (340/ 345 / 350/ 355)

Income protection (360 / 365)

Income protection claims in payment (385)

Annuity (400)

UWP bond (500)

UWP savings endowment (510)

UWP target cash endowment (515)

UWP regular premium pension (525 / 545)

UWP single premium pension (525 / 545)

UWP group regular premium pension (535)

UWP group single premium pension (535)

UL bond (700)

UL savings endowment (715)

UL target cash endowment (720)

UL regular premium pension (725)

UL single premium pension (725)

UL group regular premium pension (735)

UL group single premium pension (735).

Where different expense bases apply to variants within the classes shown above in the same subfund, the basis shown must be that applicable to the largest category by number of policies. Where the expense basis varies by subfund, the table is required at subfund level. Expense bases are not required for other products. Where the *insurer* has treated some expenses as non-attributable, the amount to be shown in the table is the attributable expenses.

Expenses must be shown before adjustment for tax relief and the assumed rate of tax relief must be stated.

- (7) A ~~The table must showing~~ the unit growth rates for gross and net linked business before management charges and the inflation rates assumed for future expenses and future increases in *policy* charges. ~~For non-unit liability calculations, the expense bases must be shown only for the main products (e.g. life regular premium, life single premium, pensions regular premium, and pensions single premium).~~

(78) ...

(89) ~~Any other material basis assumptions not stated elsewhere (e.g. persistency).~~ A summary of the lapse, surrender and paid-up assumptions using the format of the table below.

<u>Product</u>		<u>Average lapse / surrender / paid-up rate for the policy years</u>			
		<u>1-5</u>	<u>6-10</u>	<u>11-15</u>	<u>16-20</u>
<u>Level term</u>	<u>lapse</u>				
<u>Decreasing term</u>	<u>lapse</u>				
<u>Accelerated critical illness</u>	<u>lapse</u>				
<u>Income protection</u>	<u>lapse</u>				
<u>CWP savings endowment</u>	<u>surrender</u>				
<u>CWP target cash endowment</u>	<u>surrender</u>				
<u>UWP savings endowment</u>	<u>surrender</u>				
<u>UWP target cash endowment</u>	<u>surrender</u>				
<u>UL savings endowment</u>	<u>surrender</u>				
<u>UL target cash endowment</u>	<u>surrender</u>				
<u>UWP bond</u>	<u>surrender</u>				
<u>UWP bond</u>	<u>automatic withdrawals</u>				
<u>UL bond</u>	<u>surrender</u>				
<u>UL bond</u>	<u>automatic withdrawals</u>				
<u>CWP pension regular premium</u>	<u>PUP</u>				
<u>CWP pension regular premium</u>	<u>surrender</u>				
<u>CWP pension single premium</u>	<u>surrender</u>				
<u>UWP indiv pension regular premium</u>	<u>PUP</u>				
<u>UWP indiv pension regular premium</u>	<u>surrender</u>				
<u>UWP indiv pension single premium</u>	<u>surrender</u>				
<u>UL indiv pension regular premium</u>	<u>PUP</u>				
<u>UL indiv pension regular premium</u>	<u>surrender</u>				
<u>UL group pension regular premium</u>	<u>PUP</u>				
<u>UL group pension regular premium</u>	<u>surrender</u>				
<u>UL indiv pension single premium</u>	<u>surrender</u>				

The insurer's lapse, surrender and paid-up rates must be converted into average annual rates over the 5 year period. A simple arithmetic average of the individual annual rates is acceptable. For example, the figure for the period 6-10 means the average of the lapse rates in policy years 6, 7, 8, 9 and 10. For pension business assume age 40 at entry and retirement at age 65, e.g. 16-20 represents surrenders from age 55 to 60. Surrender rates

exclude additional surrenders at the end of the period where surrender penalties no longer apply. These additional surrenders must be disclosed in a separate note. For automatic bond withdrawals enter 'x% of current' where the current amount of withdrawal is used at policy level.

The distinction between individual and group pension business is the same as in Form 47 instruction 3 to allocate between product codes.

Where the *insurer* uses alternative bases for the same product (e.g. a basis which differentiates by source of business or subdivisions of that product), the lapse rates in an individual cell may be calculated from a basis which is used by at least 50% of the business for that product. In other circumstances an estimated weighted average must be calculated. The basis is not required for cells where the assumption will not apply to any business other than increments, or where the business is reported under a miscellaneous product code.

Where the *insurer* uses lapse rates which vary with calendar year, the rates in the table must be the average of the rates which apply to a policy of exact duration 0, 5, 10 or 15 in the five years following the valuation. A note must be provided explaining how lapse rates vary with calendar year.

Where the *insurer* uses lapse rates which vary according to whether the *mathematical reserves* are positive or negative, the table must show both sets of rates. A note must be provided explaining how the *insurer* determines which set of rates is applied.

The lapse basis is not required for products not shown in the table above. Where no allowance is made for lapses in the valuation, this must be stated.

(10) Any other material basis assumptions not stated elsewhere.

(911) How the valuation of liabilities ...

(12) An estimate in £m of the effect on *mathematical reserves* of specified changes in valuation methodology as at the valuation date arising from changes in *INSPRU* valuation rules effective from 31 December 2006. The effect of the changes must be analysed into the categories below.

Allowance for lapses on valuation of protection business

Allowance for negative reserves on valuation of protection business

Allowance for lapses on valuation of unit-linked business

Allowance for attributable expenses on valuation of unit-linked business

For protection business, the changes are assumed to be applied in the order shown, e.g. the effect of negative reserves is after the effect of lapses.

Options and guarantees

Where the basic reserve exceeds the lesser of £10m ~~or~~ and 1% of the total gross *mathematical reserves*, ...

5. (1) ...
- (2) Guaranteed surrender values and guaranteed unit-linked maturity values, including:
- ...

...

Expense reserves

6. (1) The aggregate amount of expense loadings, grossed up for taxation where appropriate, expected to arise during the 12 months from the ‘valuation date’ from implicit and explicit reserves made at the ‘valuation date’ to meet expenses in fulfilling contracts in force at the ‘valuation date’. Where all expenses for the insurer are attributable, the amounts arising from each of the implicit allowances, explicit allowances for investment expenses and explicit allowances for other maintenance expenses. ~~explicit and implicit allowances, the amount of investment expenses and the amount of any other maintenance expenses.~~ Where the insurer has treated some expenses as non-attributable (INSPRU 1.2.54AG), the insurer must complete the table below. The name of each risk group must be sufficient to identify the products in the group. The penultimate line is for products where all expenses are attributable.

<u>Homogeneous risk group</u>	<u>Implicit allowances</u>	<u>Explicit allowances (investment)</u>	<u>Explicit allowances (other)</u>	<u>Non – attributable expenses</u>	<u>Total</u>
<group 1>					
...					
<u>All expenses attributable</u>				n/a	
<u>Total</u>

<u>UWP bond</u>	<u>surrender</u>				
<u>UWP bond</u>	<u>automatic withdrawals</u>				
<u>CWP pension regular premium</u>	<u>PUP</u>				
<u>CWP pension regular premium</u>	<u>surrender</u>				
<u>CWP pension single premium</u>	<u>surrender</u>				
<u>UWP indiv pension regular premium</u>	<u>PUP</u>				
<u>UWP indiv pension regular premium</u>	<u>surrender</u>				
<u>UWP indiv pension single premium</u>	<u>surrender</u>				

The instructions for completing the table are as for Appendix 9.4 paragraph 4(9).

- (7) ...

...

Analysis of change in working capital

13. For each *with-profits fund*, a reconciliation of the significant movements in the working capital of the *with-profits fund* from that shown at line 68 of **Form 19** at the end of the *preceding financial year* and that same entry shown for the

financial year in question. Such movements must at least include investment return, tax, significant costs (of expenses, guarantees or smoothing) and enhancements or charges to retrospective reserve(s) may be grouped by the underlying cause of the movements such as investment market changes and insurance variation. However, the analysis should at least include, where material:

- (a) the investment return on the opening working capital;
- (b) mismatch profits or losses on assets backing the *future policy related liabilities* (may include associated assumption changes);
- (c) assumption changes split by economic, non-economic and *policyholder actions assumptions*;
- (d) other variances split at least as to economic and non-economic variances;
- (e) the impact of new business;
- (f) changes in the other liabilities of lines 47 and 51 of **Form 19**;
- (g) modelling changes and opening adjustments.

Where a closed fund zeroises its working capital (e.g. by assigning any balance to planned enhancements or financial reinsurance), it should analyse the change in working capital prior to such zeroisation showing the opening and closing zeroisation impacts.

Instructions for completion of Form ECR1

...

ECR Calculation – Summary (Sheet 1)

2. The amount shown on the ICG line must be the most recent Individual Capital Guidance (ICG) amount given by the FSA. The ICG will usually be based on a percentage of the ECR gross of Equalisation Provisions. In this case the percentage should be applied to the current ECR gross of Equalisation Provisions to obtain the ICG amount. If no ICG has been given, enter "N/A".
- 2A. If ICG is based on a percentage of the ECR gross of Equalisation Provisions and that percentage is different to the ratio that appears on line 14, an explanation for the difference must be provided in a supplementary note.

Asset-related Capital Requirement Sheet (Sheet 2)

...

7. ...
- 7A. To give effect to *INSPRU 2.2.11R (2)*, the asset related capital charge shown in column 4 is the asset related capital charge factor in column 3 multiplied by the higher of:
 - (a) the sum of columns 1 and 2; and
 - (b) zero.

Insurance-related Capital Requirement - Accident and Underwriting Year Accounted Business (Sheets 3-4)

...

10. ...
- 10A. To give effect to *INSPRU 1.1.77R (2)*, the amount derived in the "Net Written Premium capital charge" column is the net-written premium capital charge factor in column 4 multiplied by the higher of:
 - (a) the net written premium in column 1; and
 - (b) zero.
11. To give effect to *INSPRU 1.1.77 R (2)*, the amount derived in the "Net technical provision capital charge" column is the net technical provision capital charge factor in column 5 multiplied by the higher of:
 - (a) the sum of the net claims outstanding carried forward and the net unearned premium less deferred acquisition costs; and
 - (b) zero.

...

HANDBOOK ADMINISTRATION (NO 4) INSTRUMENT 2006**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the powers and related provisions listed in Schedule 4 to the General Provisions (Powers exercised) of the Handbook.
- B. The rule-making powers referred to above are specified for the purpose of section 153(2) (Rule-making instruments) of the Financial Services and Markets Act 2000.

Commencement

- C. This instrument comes into force as follows:
- (1) the amendments in Annex I come into force on 22 December 2006;
 - (2) Annex B, Parts 1 and 3, come into force on 31 December 2006 and Part 2 comes into force on 1 January 2007;
 - (3) the amendments in Annex D come into force on 31 December 2006;
 - (4) Annex J Part 2A comes into force on 31 December 2006. Parts 1B and 2B and Annex L come into force on 1 January 2007;
 - (5) the amendments in Annexes A, C, E, G, and H come into force on 1 January 2007;
 - (6) the amendments in Annex F come into force on 6 January 2007; and
 - (7) the amendments in Annexes K and L come into force on 6 April 2007.

Amendments to the Handbook

- D. The modules of the FSA Handbook of rules and guidance listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2).

(1)	(2)
Glossary of definitions	Annex A
General Prudential sourcebook (GENPRU)	Annex B
Prudential sourcebook for Banks, Building Societies and Investment Firms (BIPRU)	Annex C
Prudential sourcebook for Insurers (INSPRU)	Annex D
Prudential sourcebook for UCITS Firms (UPRU)	Annex E
Interim Prudential sourcebook for Investment Businesses (IPRU(INV))	Annex F
Collective Investment Schemes sourcebook (CIS)	Annex G
New Collective Investment Schemes sourcebook (COLL)	Annex H

Amendments to FSA Instruments

- E. The General Prudential sourcebook Instrument 2006 (FSA 2006/40) is amended in accordance with Annex I to this instrument.

- F. The CRD (Consequential Amendments) Instrument 2006 (FSA 2006/53) is amended as follows:
- (1) Annex A, Amendments to the Glossary; and
 - (2) Annex L, Amendments to the Supervision manual are amended in accordance with Annex J to this instrument.
- G. Annex G of the Home Reversion and Home Purchase Activities (Consequential Amendments to the Handbook) Instrument 2006 (FSA 2006/37) is amended in accordance with Annex K to this instrument.
- H. Annex A of the Mortgages: Conduct of Business Sourcebook (Home Reversion and Home Purchase Activities) Instrument 2006 (FSA 2006/45) is amended in accordance with Annex L to this instrument.

Citation

- I. This instrument may be cited as the Handbook Administration (No 4) Instrument 2006.

By order of the Board
21 December 2006

Annex A

Amendments to the Glossary of definitions

Insert the following new definitions in the appropriate alphabetical position in the Glossary.

CAD

Capital Adequacy Directive

*Capital Requirements
Regulations 2006*

the Capital Requirements Regulations 2006 (SI 2006/3221).

Annex B

Amendments to the General Prudential sourcebook (GENPRU)

In this Annex, underlining indicates new text and striking through indicates deleted text. The changes detailed in Part 1 and Part 3 to this Annex take effect on 31 December 2006 and those detailed in Part 2 take effect on 1 January 2007.

Part 1

Amend GENPRU TP 8 (Miscellaneous capital resources definitions for BIPRU firms) as follows:

...

Specific issues of TONS and other securities

8.4 R ...

8.5 R The issues of *securities* referred to in *GENPRU* TP 8.4R are as follows:

(1) ...

...

(5) Lloyds TSB ~~\$850m~~ \$1000m 6.90% perpetual capital securities; and

(6) ...

Amend GENPRU 1.2 as follows:

...

1.2.30 R A *firm* must have in place sound, effective and complete processes, strategies and systems:

(1) ...

that enable it to identify and manage the major sources of risks referred to in (1), including the major sources of risk in each of the

(2) following categories ~~where they are relevant to the *firm* given the nature and scale of its business~~ where they are relevant to the *firm* given the nature and scale of its business:

(a) ...

...

1.2.81 G ...

~~1.8.82~~ G ...

1.2.82

1.2.83 G ...

Amend GENPRU 1.3 as follows:

- 1.3.6 G In particular, unless an exception applies, *GENPRU* 1.3.4R should be applied for the purposes of *GENPRU*, *BIPRU* and *INSPRU* to determine how to account for:
- ...
- (4) assets transferred or received under a ~~sale and repurchase~~ sale and repurchase or *stock lending* transaction; and
- (5) ...
- ...
- 1.3.43 R *GENPRU* 1.3.13R and *GENPRU* 1.3.41R do not apply to *shares* in, and ~~debts~~ debts due from a *related undertaking* that is: ...
- ...
- 1.3.44 G The effect of *GENPRU* 1.3.43R is that *shares* in, and ~~debts~~ debts due from, *related undertakings* of the types referred to are not valued on a mark to market basis by *insurers*. As a result, ~~debts~~ debts due from these *undertakings*, and ...
- 1.3.45 R Except where the contrary is expressly stated in *GENPRU*, whenever a ~~rule~~ rule in *GENPRU* or *INSPRU* refers to *shares* held in, and ~~debts~~ debts due from, an *undertaking* referred to in *GENPRU* 1.3.43R(1) or *GENPRU* 1.3.43R(3), a *firm* must value the *shares* held in accordance with *GENPRU* 1.3.47R.
- 1.3.46 R In relation to *shares* in, and ~~debts~~ debts due from, an *undertaking* referred to in *GENPRU* 1.3.43R(1), ...

Part 2

Amend GENPRU 2.2 as follows:

Limits on the use of different kinds of capital: Combined tier two and tier three limits (BIPRU firm only)

- 2.2.49 R For the purpose of meeting the requirements in *GENPRU* 2.2.47R(1) to (3) and subject to *GENPRU* 2.2.50R, a *BIPRU firm* must not include any item in either:
- (1) its *tier two capital resources* falling within *GENPRU* 2.2.47R(6) (excess *tier two capital*) ; or
- (2) its *upper tier three capital resources*;
- to the extent that the sum of (1) and (2) would exceed 250% of the amount resulting from the following calculation:
- (3) calculate the amount at stage F of the calculation in the *capital resources table* (Total tier one capital after deductions); and
- (4) deduct from (3) those parts of the *firm's tier one capital* used to meet the requirements in *GENPRU* 2.2.44R(1) and (2) as established by *GENPRU* 2.2.48R.

...

Example of how the capital resources calculation for BIPRU firms works

- 2.2.51 G *GENPRU 2.2.52G to GENPRU 2.2.59G illustrate how to calculate a BIPRU firm's capital resources and how the capital resources gearing rules work. In this example the BIPRU firm has a combined credit, operational and counterparty risk requirement of £100 (of which £10 is due to counterparty risk) and a market risk requirement of £90, making a total capital requirement of £190. Its capital resources are as set out in the table in GENPRU 2.2.52G.*
- 2.2.55 G *The combined credit, operational and counterparty risk capital requirement is deducted after stage N of the capital resources table and the market risk requirement following stage T of the capital resources table. These calculations are shown in the table in GENPRU 2.2.56G.*
- 2.2.56 G *Table: Example of how capital resources of a BIPRU firm are measured against its capital resources requirement*

This table belongs to *GENPRU 2.2.55G*

Description of the stage of the capital resources calculation	Stage in the <i>capital resources table</i>	Amount (£)
Total <i>tier one capital and tier two capital</i> after deductions	Stage N	140
Credit, <u>operational and counterparty</u> risk requirement		(100)
<i>Tier one capital and tier two capital</i> available to meet market risk requirement		40
<i>Tier three capital</i>	Stage Q	50
Total capital available to meet market risk requirement		90
Market risk requirement		(90)
Market risk requirement met subject to meeting gearing limit set out in <i>GENPRU 2.2.49R</i> – see <i>GENPRU 2.2.57G</i>		

- 2.2.57 G The gearing limit in *GENPRU 2.2.49* (Combined tier two and tier three limits) requires that the *upper tier three capital* used to meet the market risk requirement does not exceed 250% of the relevant tier one capital ~~used to meet market risk~~.
- 2.2.58 G In this example it is assumed that the maximum possible amount of *tier one capital* is carried forward to meet the market risk requirement. There are other options as to the allocation of *tier one capital* and *tier two capital* to the credit, operational and counterparty risk requirement.

In order to calculate the relevant tier one capital for the upper tier three gearing limit in accordance with GENPRU 2.2.49R it is first necessary to allocate tier one capital and tier two capital to the individual credit, operational and counterparty risk requirements. This allocation process underlies the calculation of the overall amount referred to in GENPRU 2.2.48R. The calculation in GENPRU 2.2.49R (3) and (4) then focuses on the tier one element of this earlier calculation.

In this worked example, if it is assumed that the counterparty risk requirement has been met by tier one capital, the relevant tier one capital for gearing is £50. This is because the deductions of £20 and the credit and operational risk requirements of £90 have been met by tier two capital in the first instance. However, the total sum of deductions and credit and operational risk requirements exceed the tier two capital amount of £80 by £30. Hence the £80 of tier one capital has been reduced by £30 to leave £50.

In practical terms, the same result is achieved for the relevant tier one capital for gearing by taking the amount carried forward to meet market risk of £40 and adding back the £10 in respect of the counterparty risk requirement. Again, there are other options as to the allocation to credit, operational and counterparty risk of the constituent elements of Stage N of the capital resources table. Therefore in this example the various tiers of capital resources are applied to meet the market risk requirement

The outcome of these calculations can be summarised as follows:

- (1) The relevant tier one capital ~~used to meet market risk~~ for the gearing calculation is £50~~40~~;
- (2) 250% of the relevant tier one capital ~~used to meet market risk~~ is £12500;
and
- (3) the *upper tier three capital* used to meet market risk is £50.

- 2.2.59 G The 250% gearing limit is met as the limit of £12500 is greater than the *upper tier three capital* of £50 used in this example.

...

Part 3

Amend GENPRU 2.2 as follows:

2.2.64 R The conditions that an item of capital of a *firm* must comply with under *GENPRU* 2.2.62R(3) (2) are as follows: ...

...

Step-ups and redeemable tier one instruments

2.2.76 R In relation to an *innovative tier one instrument* or a *PIBS* which is redeemable and which satisfies ~~any of~~ the following conditions:

(1) it is or may become subject to a *step-up*; ~~or~~ and

(2) a reasonable *person* would think that:

(a) the *firm* is likely to redeem it before the tenth anniversary of its date of issue; or

(b) the *firm* is likely to have an economic incentive to redeem it before the tenth anniversary of its date of issue;

the redemption date in *GENPRU* 2.2.70R(2)(a) is amended by replacing "fifth anniversary" with "tenth anniversary".

...

2.2.229 R A loan is also *connected lending of a capital nature* if:

(1) it funds directly or indirectly a loan to a connected party of the *bank* falling into ~~*GENPRU* 2.2.229R~~ *GENPRU* 2.2.228R or an investment in the capital of a connected party of the *bank*; and

(2) ...

Amend *GENPRU* 2 Annex 7R as follows:

2 Annex 7R Admissible assets in insurance

...

1 Investments that are, or amounts arising from the disposal of:

...

(f) an *approved derivative* or *quasi-derivative* transaction that satisfies the conditions in *INSPRU* 3.2.5R or an *approved stock lending transaction* ~~transaction~~ transaction that satisfies the conditions in *INSPRU* 3.2.36R.

2 Debts and claims:

...

(c) debts owed by *policyholders* and ~~*intermediaries*~~ intermediaries arising out of direct and *reinsurance* operations (except where overdue for more than 3 months and other than *commission* prepaid to agents or ~~*intermediaries*~~ intermediaries);

Annex C

Amendments to the Prudential sourcebook for Banks, Building Societies and Investment Firms (BIPRU)

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend BIPRU TP 10 (Pre CRD capital requirements applying on a consolidated basis during 2007) as follows:

...

- 10.14 R (1) ...
- (2) The list in *BIPRU* 8 Ann 6R (List of equivalent third country regulators) does not apply and instead:
- (a) if the *UK consolidation group* or *non-EEA sub-group* is a banking group or building society group as defined in *BIPRU* TP 1.7R (Classification of groups for certain consolidation rules), the lists in ~~Appendix~~ Appendices C and D of chapter CS of *IPRU(BANK)* ~~applies~~ apply; and
- (b) if the *UK consolidation group* or *non-EEA sub-group* is an investment firm group as defined in *BIPRU* TP 1.7R, the list in ~~Appendix 57~~ 59 of chapter 10 of *IPRU(INV)* applies.
- (3) ...
- ...

Amend BIPRU 1.2 (Definition of the trading book) as follows:

...

- 1.2.22 R ...
- ~~1.1.23~~ R ...
- 1.2.23
- 1.2.24 R

Amend BIPRU 1.3 (Applications for advanced approaches) as follows:

...

- 1.3.2 G (2) A *firm* should apply for a *waiver* if it wants to:
- ...
- (e) apply the treatment in *BIPRU* 10.89 (~~Exemption from limits in *BIPRU* 10.5 for concentration risk counterparty~~ Wider integrated groups waiver).

...

- 1.3.13 D Subject to *BIPRU* 1.3.14D to ~~*BIPRU* 1.3.21D~~ 1.3.20D, if a *firm*...

...

BIPRU Annex 1D

BIPRU Annex 2D

Application form to apply the IRB approach

~~[link to be added]~~ http://www.fsa.gov.uk/pubs/international/app_pack_irb.pdf

BIPRU Annex 3D

Application form to apply the CCR internal model method approach

~~[link to be added]~~ http://www.fsa.gov.uk/pubs/international/app_pack_imm.pdf

Amend BIPRU 2.2.47G as follows:

- 2.2.47 G In considering if there are any systems and control weaknesses and their effect on the adequacy of the *CRR*, a *firm* should be able to demonstrate to the *FSA* that all the issues identified in *SYSC 3.2* (~~Areas covered by systems and controls~~) have been considered and that appropriate plans and procedures exist to deal adequately with adverse scenarios.

Amend BIPRU 2.3.4G as follows:

- 2.3.4 G *BIPRU 2.3* sets out more detail on how the systems and controls requirements in *SYSC 3* (~~Systems and controls~~) and *GENPRU 1.2.30R* (Processes, strategies and systems for risks) and the requirements about stress and scenario testing in *GENPRU 1.2.36R* apply to interest rate risk in the *non-trading book*.

Amend BIPRU 2.3.8G as follows:

- 2.3.8 G A *firm* should, under *BIPRU 2.3.8R(2)* ~~2.3.8R(2)~~ *2.3.7R(2)*, apply a 200 basis point shock ...

Amend BIPRU 3.2.9R as follows:

- 3.2.9 R A *firm* must assign each *exposure* to one of the following *exposure* classes:
...
(7) claims or contingent claims on ~~corporates~~ corporates;
...
(14) short-term claims on *institutions* and ~~corporates~~ corporates;
...

Amend BIPRU 3.4 as follows:

- ...
3.4.82 G (1) ...
(2) ...

~~(2)~~
(3) ...

...
3.4.100 G The application of *BIPRU* 3.4.96R and *BIPRU* 3.4.99R may be illustrated on the basis of a £110,000 loan on a property valued at £100,000, where £80,000 of the loan is secured and £30,000 of the exposure is unsecured and provisions of £20,000 are taken:
(1) Option 1 ...:
...
(c) the *risk weight* to be applied to the unsecured *exposure* of £30,000 is ~~50%~~150%;

Amend *BIPRU* 3.6.1R as follows:

3.6.1 R The use of *ECAI* credit assessments for the calculation of a *firm's risk weighted exposure amounts* must be consistent and in accordance with *BIPRU* 3.56. Credit assessments must not be used selectively.

Amend *BIPRU* 4.2.7 as follows:

4.2.7	G	(1)	This paragraph provides <i>guidance</i> on <i>BIPRU</i> 4.2.2R and in particular <i>BIPRU</i> 4.2.2R(2).
		(2)	The <i>IRB approach</i> as applicable to a <i>firm</i> should be an integral part of its business and risk management processes and procedures to the extent that credit risk is relevant to them. It should also have a substantial influence on its decision-making and actions. In particular, the FSA would expect a firm to have regard to the following areas
		(a)	particular regard should be had to the use of the <i>IRB approach</i> in: (i) credit approval; (ii) individual and portfolio limit setting; (iii) reporting of credit risk information; and (iv) provisioning; and (v) the setting and use of the significant criteria by reference to which other decisions to incur or maintain credit risk are taken or by reference to which credit risk is otherwise assessed;
		(b)	other relevant aspects include assessment of : (v i) assessment of economic capital; (v ii) internal capital allocation so far as related to credit risk; (v iii) risk appetite; (i xv) strategy and acquisitions; (x v) profitability and performance; and (x vi) performance-related remuneration;
			...

Remove underlining and amend *BIPRU* 4.3.97G as follows:

- 4.3.97 G If a firm excludes *defaulted exposures* that have been cured (as referred to in *BIPRU 4.3.71R*) or restructured (as referred to in *BIPRU 4.3.63R(5)*) from estimates of *LGD* in accordance with *BIPRU 4.3.100G*, it may also exclude cures from estimates of *PD* for these ~~exposures~~ exposures.

Amend *BIPRU 4.4.67R(6)* as follows:

- Calculations: maturity
- 4.4.67 R ...
- (6) Notwithstanding (7), a firm that uses a *CCR internal model method* model to calculate a ~~one-sided credit valuation adjustment~~ one-sided credit valuation adjustment (*CVA*) may use the effective credit duration estimated by the model as *M* if permitted to do so by its *CCR internal model method permission*.
- ...

Amend *BIPRU 4.4.85R(1)(b)* as follows:

- 4.4.85 R To be eligible for the treatment set out in *BIPRU 4.4.79R*, credit protection deriving from a guarantee or credit derivative must meet the following conditions:
- (1) the underlying obligation must be to:
- (a) ...
- (b) an *exposure* to a regional government, local authority or *public sector entity* which is not treated as an *exposure* to a central government or a ~~central bank~~ central bank according to *BIPRU 4.4.2R*; or
- ...

Amend *BIPRU 4.10.36R(3)* as follows:

- 4.10.36 R (3) $LG D^* = LG D \times (E^*/E)$ where:
- (a) ...
- (b) *E* is the *exposure* value as calculated under ~~*BIPRU 4.5.X*~~ ~~*[provision implementing paragraph 34 of Part 3 of Annex VIII of the Banking Consolidation Directive]*~~; and
- (c) *E** is as calculated under ~~*BIPRU 5.X-5.4.28R(3)*~~ ~~*[provision implementing paragraph 34 of Part 3 of Annex VIII of the Banking Consolidation Directive]*~~ (Calculation of adjusted values under the financial collateral comprehensive method).

Amend *BIPRU 4.10.41R* as follows:

- 4.10.41 R The requirements in *BIPRU 4.10.40R(2)* and ~~*BIPRU 4.10.42R*~~ ~~*-BIPRU 4.10.48R*~~ do not apply for guarantees provided by *institutions* and central governments and ~~central banks~~ central banks if the firm has received approval under *BIPRU 4.2* to apply the *standardised approach* for *exposures* to such entities. In this case the requirements of *BIPRU 5* (credit risk mitigation) apply.

Amend BIPRU 5.4 as follows:

- ...
- 5.4.39 R (1) ...
(2) ...
(3) For other *capital market-driven transactions*, the liquidation period is 10 business days.
- ...
- 5.4.51 R ... and 10 *business days* for other *capital market-driven transactions*.
- ...
- 5.4.66 R ...

Amend BIPRU 5.6.2R as follows:

- 5.6.2 R For master netting agreements covering *repurchase transactions* and/or *securities or commodities lending or borrowing transactions* and/or other *capital market-driven transactions* to be recognised for the purposes of *BIPRU 5*, they must: ...

Amend BIPRU 5.6 (Master netting agreements) as follows:

- 5.6.16 R ... The internal model used for the *master netting agreement internal models approach* must provide estimates of the potential change in value of the unsecured *exposure* amount ...
- 5.6.17 R A *firm* may also use the internal model used for the *master netting agreement internal models approach* for *margin lending transactions* ...
- ...
- 5.6.19 R ...
(11) The internal model used for the *master netting agreement internal models approach* must meet the requirements set out in *BIPRU 13.6.65R* to *BIPRU 13.6.67R*.
- ...
- 5.6.26 G No changes should be made to the internal model used for the *master netting agreement internal models approach* unless ...

Amend BIPRU 6.2.8G as follows:

- 6.2.8 G A *firm* may apply to the *FSA* for a *waiver* from *BIPRU 6.2.7R* where it can demonstrate good cause for changing to the standardised approach ...

Amend BIPRU 6.3 as follows:

- ...
- 6.3.2 R (1) ...
...
(3) If, for any given observation, the sum of a *firm's* net interest income

and net non-interest income; is negative ...

6.3.3 G If a *firm* has: ...

Amend BIPRU 6.5 as follows:

...
6.5.11 G (1) ...
...
(6) is clearly documented; ...

...
6.5.27 R (1) ...
(2) The insurance policy must have an initial term of no less than one year. ...

Amend BIPRU 8.3 (Scope and basic consolidation requirements for non-EEA sub-groups) as follows:

8.3.7 G A *firm* will not be a member of a *non-EEA sub-group* unless it is also a member of a *UK consolidation group*...

...
8.3.9 G If more than one *BIPRU firm* is a direct or indirect *parent undertaking* in accordance with *BIPRU 8.3.7G(2)(a)* then the *sub-groups* of each of them are all potential *non-EEA sub-groups*...

...
8.3.15 G If more than one *financial holding company* is a direct or indirect *parent undertaking* in accordance with *BIPRU 8.3.12G(2)(a)* then the *sub-groups* of each of them are all potential *non-EEA sub-groups*.

...
8.3.18 G ...
(1) one potential *non-EEA sub-group* is contained within a wider potential *non-EEA sub-group*; and
(2) ...

Amend BIPRU 8.6.10R(3) as follows:

Treatment of minority interests
8.6.10 R (1) ...
...
(3) A *firm* must include the minority interest in the tier of capital in which that *undertaking* would have to include the capital referred to in (2) if it were a *firm* calculating its *capital resources* on a solo basis under whichever method applies to the group under *BIPRU 8.6.6R* to *BIPRU 8.6.98R*.
(4) ...

Amend BIPRU 8.8.7G as follows:

8.8.7 G *BIPRU 8.7.226R* deals with the combination of the *advanced measurement*

approach with other approaches to *operational risk* on a group level.

Amend BIPRU 8 Annex 6R as follows:

Non-EEA regulators' requirements deemed CRD-equivalent for individual risks
Part 1 (Non-EEA banking regulators' requirements deemed CRD-equivalent for individual risks)

Regime regulators	Market risk	Credit risk	Operational risk
...			
<u>Korea</u> ...			
...			
<u>Jersey</u>	<u>Y</u>	<u>Y</u>	<u>Y</u>
<u>Guernsey</u>	<u>N</u>	<u>Y</u>	<u>Y</u>
<u>Isle of Man</u>	<u>N</u>	<u>Y</u>	<u>Y</u>
Note 1: ...			

Part 2 (Non-EEA investment firm regulators' requirements deemed CRD-equivalent for individual risks)

Regime regulators	Market risk	Credit risk	Operational risk
...			
<u>USA</u>			
Securities and Exchange Commission (SEC): Net Capital rule only	Y Note 3	* <u>Y</u>	N
Commodities and Futures Trading Commission	Y	N	N
Note 1: ...			

Amend BIPRU 9.4.1R as follows:

9.4.1 R The *originator* of a *traditional securitisation* may exclude ~~securitised exposures~~ *exposures* from the calculation of *risk weighted exposure amounts* and *expected loss* amounts if significant credit risk associated with the *securitised exposures* has been transferred to third parties and the transfer complies with the conditions in *BIPRU 9.4.2R-BIPRU 9.4.10R*.

Amend BIPRU 9.7.3G as follows:

9.7.3 G The *guidance* in *BIPRU 3.3* (Recognition of ratings agencies) applies for the purposes of *BIPRU 9* as it does to *exposure risk weighting* in *BIPRU 3*, save that the reference in *BIPRU 3.3* to the ~~Regulation 3~~ regulation 22 of the ~~EC/ES/ Capital Requirements Regulations 2006~~ should be read as a reference to ~~Regulation 4~~ regulation 23 of the ~~EC/ES/ Capital Requirements Regulations 2006~~ for the purposes of *BIPRU 9*.

Amend BIPRU 9.9.1R as follows:

9.9.1 R ...

[Note: BCD Article 96(1) (part) and Annex ~~XI~~ IX, Part 4 point 1]

Amend BIPRU 9.12.20R(9) as follows:

The ABCP internal assessment approach

9.12.20 R ...

(9) In developing its internal assessment methodology the *firm* must take into consideration relevant published ratings methodologies of the *eligible ECAIs* that rate the commercial paper of the ~~ABCP programme~~ ABCP programme. This consideration must be documented by the *firm* and updated regularly, as outlined in (15).

...

Amend BIPRU 13.4.2R as follows:

13.4.2 R A *firm* must obtain the current replacement cost of all contracts with positive values by attaching ~~current market values~~ current market values to contracts (marking to market).

Amend BIPRU 13.5 (CCR standardised method) as follows:

...

13.5.12 R For interest rate *risk positions* from money deposits received from the counterparty as collateral, from *payment legs* and from underlying debt instruments, to which according to the table in ~~BIPRU 7.2.XR~~ 7.2.44R a capital charge of 1.60% or less applies, ...

...

13.5.18 R (1) For interest rate *risk positions* from money deposits that are posted with a counterparty as collateral when that counterparty does not have debt obligations of low *specific risk* outstanding and from underlying debt instruments, to which according to the table in ~~BIPRU 7.2.XR~~ 7.2.44R a capital charge of more than 1.60% applies, there is one *hedging set* for each issuer.

(2) ...

...

13.5.22 R This table belongs to BIPRU 13.5.21R

<i>Hedging set</i> categories	CCR Multiplier (CCRM)
(1)
(2)

(3)	Interest Rates for <i>risk positions</i> from a debt instrument or reference debt instrument to which a capital charge of more than 1.60% applies under <i>BIPRU 7.2.XR 7.2.44R</i>
(4)

...
13.5.27 R A *firm* may only recognise collateral for this method if it is collateral that is eligible under *BIPRU 5.X.XR [Annex VIII, Part 1, point 11] 5.4.8R* and *BIPRU 14.2.12R* to *BIPRU 14.2.13R*.

Amend BIPRU 13.6 (CCR internal model method) as follows:

...
13.6.29 R A *firm* must calculate *EE* or *peak exposure* measures based on a ~~distribution of exposures~~ distribution of exposures that accounts for the possible non-normality of the ~~distribution of exposures~~ distribution of exposures.

...
13.6.38 R ...
(2) ...
(~~4~~3) ...

...
13.6.51 R The ~~distribution of exposures~~ distribution of exposures generated by the model used to calculate *effective EPE* must be closely integrated into the day-to-day *CCR* management process of the *firm*. The model's output must accordingly play an essential role in the credit approval, *CCR* management, internal capital allocation, and corporate governance of the *firm*.

13.6.52 R A *firm* must have a track record in the use of models that generate a ~~distribution of exposures~~ distribution of exposures to *CCR*. Thus, the *firm* must be able to demonstrate that it has been using a model to calculate the ~~distribution of exposures~~ distribution of exposures upon which the *EPE* calculation is based that meets, broadly, the minimum requirements set out in *BIPRU 13.6* for at least one year prior to the date of its *CCR internal model method permission*.

13.6.53 R (1) A *firm* must ensure that the model used to generate a ~~distribution of exposures~~ distribution of exposures to *CCR* is part of a *CCR* management framework that includes the identification, measurement, management, approval and internal reporting of *CCR*. This framework must include the measurement of usage of credit lines (aggregating *CCR exposures* with other credit *exposures*) and internal capital allocation.
(2) ...
...
(4) The use test is satisfied if a *firm* uses other *CCR* measures, such as *peak exposure* or *PFE* (see *BIPRU 13.6.47R*), based on the ~~distribution of exposures~~ distribution of exposures generated by the same model to compute *EPE*.

Amend BIPRU 13.8.7R as follows:

- 13.8.7 R Notwithstanding *BIPRU* 13.8.2R, a *firm* must determine the *exposure* value of a credit risk *exposure* outstanding with a *central counterparty* in accordance with ~~*BIPRU* 13.8.10R~~ 13.8.8R, provided that the *central counterparty's counterparty credit risk exposures* with all participants in its arrangements are fully collateralised on a daily basis.

Amend BIPRU 14.1 as follows:

- 14.1.2 G ...
Purpose
~~14.1.2~~ G *BIPRU* 14 implements: ...
14.1.3

Delete BIPRU 14.2.19R as follows:

- 14.2.19 R ~~For the purposes of *BIPRU* 14.2.18R(1), for such a *firm*, the value adjustments referred to in *BIPRU* 14.2.18R(1) must not be included in *capital resources* other than in accordance with *BIPRU* 14.2.18R(1).~~
[deleted]

Amend BIPRU 14.3.4 as follows:

- 14.3.4 R A *firm* must multiply the price difference calculated under *BIPRU* 14.3.23R by the appropriate factor in column A of the Table in *BIPRU* 14.3.4R in order to calculate its capital requirement for the purposes of *BIPRU* 14.3.

Annex D

Amendments to the Prudential sourcebook for Insurers (INSPRU)

In this Annex, underlining indicates new text and striking through indicates deleted text.

In the provisions of INSPRU specified in column (1) of the following Table, replace the reference to the provision in column (2) of the Table with a reference to the corresponding provision in column (3):

(1) Provision	(2) SYSC reference	(3) New reference
INSPRU 5.1.6G	SYSC 3A	SYSC 13
INSPRU 5.1.10G(1)	SYSC 3A.5.1G(3)	SYSC 13.5.1G(3)
INSPRU 5.1.16G	SYSC 3A.5.1G(2)	SYSC 13.5.1G(2)
INSPRU 5.1.22G(1)	SYSC 3A.6	SYSC 13.6
INSPRU 5.1.22G(2)	SYSC 3A.7	SYSC 13.7
INSPRU 5.1.22G(3)	SYSC 3A.9 SYSC 3A.10	SYSC 13.9 SYSC 13.10
INSPRU 7.1.30G	SYSC 3A	SYSC 13

Amend INSPRU 1.3.39BG as follows:

- 1.3.39B G In determining current market yields for the purpose of ~~INSPRU 1.3.3R(4)~~ 1.3.37R(4), a *firm* is required to have regard to IFRS 4 as if it were being applied to determine the value under that standard for the first time, that is, without reference to existing practices. Paragraph 27 of the standard is likely to be of particular relevance. A *firm* should not include an allowance for future investment margins until they are earned. In particular, a *firm* should not include an allowance for capital growth in determining current market yields for equities and real estate investments.

Amend INSPRU 2.1.22R as follows:

- 2.1.22 R ...
(3) ...
(c) for a *counterparty* exposure to a *person*, or the aggregate exposure arising from the *counterparty* exposures to each member of a group of closely related *persons*, who do not fall into the categories of *counterparty* to whom (a) and (b) apply:
(i) ...
(ii) 1% for that part of the exposure arising from *shares* and other variable yield participations, bonds, ~~debt securities~~ securities and other *money market instruments* and capital market instruments from the same *counterparty* that are not dealt in on a *regulated market*, or any beneficial interest in a *collective investment scheme* which is not a *UCITS scheme*, a *non-UCITS retail scheme* or a recognised

scheme; the limit for that part of the exposure arising from *debt securities* (other than hybrid securities) issued by the same *regulated institution* is increased to 5%;

(iii) ...

Annex I

Amendments to Annex A to the General Prudential Sourcebook Instrument 2006 (FSA 2006/40)

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend the table in Annex A to the General Prudential Sourcebook Instrument as follows:

PRU provision: current location	Destination
...	...
8 Annex 1 R	GENPRU & <u>3</u> Annex 1 R
8 Annex 2 R	GENPRU & <u>3</u> Annex 2 R
8 Annex 3 G	GENPRU & <u>3</u> Annex 3 G
8 Annex 4 R	GENPRU & <u>3</u> Annex 4 R

Annex J

Amendments to the CRD (Consequential Amendments) Instrument 2006 (FSA 2006/53)

Annex A Amendments to the Glossary

Part 1B (New definitions taking effect on 1 January 2007)

<i>non-EA<u>EA</u> sub-group</i>	a group of <i>undertakings</i> identified as a <i>non-EEA sub-group</i> in <i>BIPRU 8.3.1R</i> (Main consolidation rule for non-EEA sub-groups); however where the provision in question refers to a <i>non-EA<u>EA</u> sub-group</i> in another <i>EEA State</i> it means a group of <i>undertakings</i> identified in Article 73(2) of the <i>Banking Consolidation Directive</i> (Non-EA <u>EA</u> sub-groups) required to be supervised on a consolidated basis under Article 73(2) of the <i>Banking Consolidation Directive</i> by a <i>competent authority</i> in that <i>EEA State</i> .
----------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Part 2A (Revised definitions taking effect on 31 December 2006)

- guaranteed fund* (1)
- (a) ...
 - (b) where the *firm* is required to calculate a *UK MCR* or an *EEA MCR* under ~~PRU 7.6~~ INSPRU 1.1, for the purposes of that section...
- insurance health risk and life protection reinsurance capital component* one of the components of the *long-term insurance capital requirement* as set out in ~~PRU 7.2.85R~~ INSPRU 1.1.85R to ~~PRU 7.2.86R~~ INSPRU 1.1.86R.

Part 2B (Revised definitions taking effect on 1 January 2007)

- commodity*
- (1) (except for the purpose of calculating *position risk requirements*) a physical asset (other than a financial instrument or cash) which is capable of delivery.
 - (2) (for the purpose of calculating *position risk requirements*) any of the following (but excluding gold):
 - (a) a commodity within the meaning of paragraph (1); and
 - (b) any:
 - (i) physical or energy product; or
 - (ii) of the items referred to in paragraph 10 of Section C of Annex I of the *MIFID* as an underlying with respect to the *derivatives* mentioned in that paragraph;
which is, or can be, traded on a secondary market.
- competent authority*
- (1) ...
 - ...
 - (3) (in relation to a group, and for the purposes of ~~PRU 8.1 SYSC 12~~ (Group risk systems and controls requirement), ~~GENPRU 8.4~~ (Cross sector groups), ~~PRU 8.5~~ (Third country groups), ~~PRU 8 Ann 1R~~ (Capital adequacy calculations for financial conglomerates) and ~~PRU 8 Ann 2R~~ (Prudential rules for third country groups), *BIPRU* and *INSPRU*, any national authority
...
- EEA firm*
- ...
 - (b) a *credit institution* (as defined in article ~~14~~(1) of the *Banking Consolidation Directive*)
 - (c) a financial institution (as defined in article ~~14~~(5) of the *Banking Consolidation Directive*) which is a subsidiary of the kind mentioned in article ~~19~~ 24 and which fulfils the conditions in articles ~~18~~ 23 and ~~19~~24;
- financial instrument*
- (1) (other than for the purposes of *BIPRU* and *GENPRU*) as defined in Article 5 of the *Prescribed Markets and Qualifying Investments Order* and Article 1(3) of the *Market Abuse Directive*, and which consequently carries the same meaning in the *Buy-back and Stabilisation Regulation*):
 - (a) ...

...

- (2) (for the purposes of *BIPRU* and *GENPRU*) an instrument listed in Section B of the Annex to the *ISD*.

Annex L

Amendments to the Supervision manual

Part 4: Consequential amendments taking effect on 1 January 2007

Amend SUP 10.12 as follows:

- 10.12.3 G In accordance with section 60 of the *Act* (Applications for approval), applications must be submitted by, or on behalf of, the *firm* itself, not by the *candidate*. Usually this will be the *firm* that is employing the *candidate* to perform the *controlled function*. Where a *firm* has outsourced the performance of a *controlled function*, the details of the outsourcing determine where responsibility lies and whom the *FSA* anticipates will submit *approved persons* forms. SUP 10.12.4 G describes some common situations. The *firm* which is outsourcing is referred to as "A" and the *person* to whom the performance of the function has been outsourced, or which makes the *arrangement* for the function to be performed, is referred to as "B". In each situation, A must take reasonable care to ensure that, in accordance with section 59(2) of the *Act*, no *person* performs a *controlled function* under an *arrangement* entered into by its contractor in relation to the carrying on by A of a *regulated activity*, without approval from the *FSA*. See also SYSC 3.2.4G and SYSC 8.1.1R and if applicable ~~IPRU (BANK) OS, IPRU (BSOC) OS,~~ and for *insurers* SYSC 13.9.

Amend SUP 15.3 as follows:

...

- 15.3.8 G (1) Compliance with *Principle 11* includes, but is not limited to, giving the *FSA* notice of:
- (a) ...
 - ...
 - (e) entering into, or significantly changing, a *material outsourcing* arrangement (a *bank* ~~should also see IPRU(BANK) OS 4.2, and~~ a *building society* should also see ~~IPRU(BSOC) 11 OS 4.2~~ SYSC 3.2.4G and SYSC 8, and an *insurer* should also see SYSC ~~3A.9~~13.9 for further details); or

...

[1] [Mortgages] [Equity Release Products] [Note 14]

...

Refund of fees [Note 19] [Note 14]

If we charge you a fee, and your [lifetime] [mortgage] [home reversion plan] [equity release product] does not go ahead, you will receive: [Note 20]

...

Note 7A – the 'Compliance with Islamic law' subsection is optional unless the *firm* holds itself, its *regulated mortgage contract* or *home purchase plan* products or services out as compliant with Islamic law in the CIDD. ~~If a *firm* includes Section 1A then it must describe the section on the CIDD as section 2 and renumber subsequent sections accordingly.~~ If the statement does not apply to all of the *firm*'s home finance services then it must amend the statement to make clear to which services it applies.

...

Note 14 – in describing the services and products provided, *firms* must omit the text in brackets that do not apply and ensure that they describe accurately their activities with respect of the services and products that they offer, as follows:

...

(2) Describing the products in Section 2: In the text associated with boxes that are not ticked, a *firm* must delete references to 'home reversions' and 'lifetime mortgages' but leave references to 'equity release products'.

(23) Describing the products in Section 3:

a. If a *firm* advises or gives personalised information on *lifetime mortgages*, it must change "mortgage" to "lifetime mortgage" and use the text in brackets related to *lifetime mortgages*.

...

(34) Describing the provider: If a *firm* advises or gives personalised information on *home purchase plans* or *home reversion plans*, it must change "mortgage" to "product" and "lender" to "company" or "provider", as appropriate.

Note 41 - A *firm* must only include this paragraph if the services to which the CIDD relates include *home purchase activities* and do not include *regulated mortgage activities*. If the *firm* does not carry on *regulated mortgage activities*, it must include the second sentence and delete the third. If the *firm* carries on *regulated mortgage activities* (but the CIDD does not relate to these services) as well as *home purchase activities* it must omit the second sentence and include the third.

Annex L

Amendments to Annex A of the Mortgages: Conduct of Business Sourcebook (Home Reversion and Home Purchase Activities) Instrument 2006 (FSA 2006/45)

In this Annex underlining indicates new text and striking through indicates deleted text.

MCOB 8 Annex 1 Initial disclosure document (“IDD”)

...

2. Whose products do we offer? [Note 3] [Note 7] [Note 8]

...

We [can] [Note 9] only offer [a limited range of] [lifetime mortgages] [home reversion plans] [equity release products] from [a single lender/company] [name of single company]. [Note 11] [Note 11A]

[or]

We only offer our own [lifetime mortgages] [home reversion plans] [equity release products]. [Note 12]

...

...

3. Which service will we provide you with? [Note 3] [Note 7]

We will advise and make a recommendation for you on [lifetime mortgages] [home reversion plans] [equity release products] ~~for you~~ after we have assessed your needs.

...

Note 7 – *firms* must describe their scope of service by selecting and ticking, the box or boxes that describe the products and services that the firm expects to provide to the *customer*. ~~This means a firm will select either one or both boxes within this section.~~ *Firms* must not delete the boxes not selected (but see Note 8A). In the text associated with boxes that are not ticked;

- a. in Section 2 a firm must delete references to 'home reversions' and 'lifetime mortgages' but leave references to 'equity release products', omitting the square brackets. This is so that a *customer* can see other possible options, even if not available from the *firm* issuing the IDD; and
- b. in Section 3, a firm must use the words in square brackets that reflect the products it is offering in Section 2. If the firm advises or gives personalised information on products from both equity release market sectors, it must use the term 'equity release products'.

MCOB 9 Annex 2R

...

<h4>3. What is a home reversion plan?</h4>

...

When does a home reversion plan end?

- This depends on the terms of the plan but will usually include death or where you (or, in the case of a joint plan, the ~~surviving spouse~~ survivor) move out permanently, for example into long-term residential care. The property will be put up for sale by the provider and the value of any part you do not sell to the provider will be paid to you or your estate. See also "Cancelling a home reversion", below.

Moving home

- Not all home reversion plans can be transferred to a new property, if you should want to move home in the future. Section 5 will tell you if this plan cannot be transferred. ...

Amendments to the Interim Prudential sourcebook for Banks (IPRU(BANK))

In this Annex, underlining indicates new text and striking through indicates deleted text.

LM: Section 1

MISMATCH LIQUIDITY INTRODUCTION

1

...

1.2 Application

4

...

1. (a) For UK-incorporated banks, the ~~present~~ reporting form LR (or data item FSA010 after 1 January 2008) is completed on a solo basis. Where a bank already reports for capital and large exposures purposes on a solo-consolidated basis with the agreement of the supervisor, the Form LR or FSA010 as appropriate should be submitted on a solo-consolidated basis rather than a solo basis.
2. (i) ...
3. (b) ... The FSA monitors the liquidity of such branches by requiring them to submit Form LR, or FSA012 (which consists of a simplified cash flow maturity ladder) after 1 January 2008. Such branches may apply for a 'global concession' in accordance with section 4.2.

...

LM: Section 2

2 RATIONALE

...

2.2 How the FSA monitors liquidity

...

7

...

- (a) This is checked during the course of normal supervision through prudential discussions and the Form LR, FSA010 or FSA012 as applicable. These mechanisms are supplemented by review team visits, treasury visits and reports by accountants or other persons with relevant professional skills commissioned under the Act.

8 ...

See ch
LS

- (a) ...
- (b) The FSA does not apply the full maturity mismatch approach to branches of EEA banks that do not have a deposit-taking permission in the UK, but instead monitors their liquidity via the Form LR or FSA012 as appropriate.

LM: Section 3

3 MAIN FEATURES OF THE LIQUIDITY POLICY

...

3.2 A bank's reporting obligations

See s9.2
See
Supervis
ion
Manual,
Chapter
16

5 A bank that has a deposit-taking permission in the UK must report its liquidity position quarterly on the Form LR (FSA010 after 1 January 2008) or more frequently as required by the FSA.

See
Supervis
ion
Manual,
Chapter
16

6 An EEA bank with a branch in the UK that does not have a UK deposit-taking permission must report its liquidity position quarterly on the Form LR (or six-monthly on FSA012 after 1 January 2008), or more frequently as required by the FSA.

LM: Section 4

4 THE FRAMEWORK FOR MEASURING LIQUIDITY

4.2 'Global concession' policy

9 Where a global policy is agreed the FSA does not normally require a bank to complete the Form LR, FSA010 or FSA012 as applicable. However, the FSA will request information on a branch's liquidity position in an appropriate format should the need arise.

LM: Section 5

5 INCLUDING ASSETS AND LIABILITIES IN THE TIME BANDS

...

5.1 Components of the cashflow and maturity analysis ladder

5.1.1 General

1 In the period up to 31 December 2007, the timebands in the maturity ladder are divided into two sections. The time periods out to 6 months are to be reported on the Form LR on a cashflow basis and those over 6 months to 5 years should be reported on the basis of residual maturities of assets and liabilities. From 1 January 2008, only the cashflow basis will be used on FSA010.

...

LM: Section 6

6 STOCK OF MARKETABLE ASSETS

...

6.3 Inclusion of marketable assets in the maturity ladder

...

6.3.3 Procedures for discounting assets

10 In deciding whether a bank should enter assets on Part 1 of the Form LR (or FSA010 after 1 January 2008) the FSA takes account of the following factors;

...

LM: Section 9

9 MONITORING LIQUIDITY

...

9.2 Monitoring performance against guidelines

...

4 A bank is required to report its cashflow and assets and liability maturity profile on a quarterly basis using the LR return (or FSA010 after 1 January 2008).

...

9.3 Breaches of guidelines

6 ... A bank should also report any breaches of its guidelines on the Form LR (or FSA010 after 1 January 2008) retrospectively at the end of the quarter.

...

LM: Section 10

LS: Section 3

3 MAIN FEATURES OF THE POLICY

...

3.2 Reporting by a sterling stock liquidity bank

7 A sterling stock liquidity bank should report its sterling stock liquidity position to the FSA monthly up to end December 2007, and quarterly after 1 January 2008.

(a) Its liquidity position should be reported on the Sterling Liquidity Return ('form SLR1') up to 31 December 2007, and on data item FSA013 after 1 January 2008. Unless otherwise agreed with the FSA in writing, the form SLR1 (or FSA013) should be completed on a consolidated basis.

...

(b) Unless otherwise agreed in writing with the FSA, the form SLR1 should be completed as at the second Wednesday of each month, and FSA013 quarterly at dates based on a firm's accounting reference date.

...

5 **MONITORING LIQUIDITY**

...

5.2 **Monitoring and reporting performance of sterling stock liquidity**

2 A sterling stock liquidity bank should monitor its liquidity position on an inter-day basis. Any breaches of the wholesale sterling net outflow limit, the sterling stock 'floor' or the sterling stock liquidity ratio should be reported immediately to the FSA and a completed, contemporaneous form SLR1 (or a paper version of FSA013 after 1 January 2008) sent to the firm's usual supervisory contact at the FSA detailing the liquidity breach. ...

...

3 A sterling stock liquidity bank should report its liquidity position to the FSA monthly on the form SLR1 up to end December 2007 and, after 1 January 2008, quarterly on FSA013. Unless otherwise agreed in writing with the FSA, the form SLR1 (FSA013 after 1 January 2008) should be completed on a consolidated basis.

(a) Unless otherwise agreed in writing with the FSA, the form SLR1 should be completed as at the second Wednesday of each month, and FSA013 quarterly at dates based on a firm's accounting reference date.

4 The FSA monitors a sterling stock liquidity bank's liquidity profile up to end December 2007 on a monthly basis in line with the submission of the form SLR1; after 1 January 2008, it will monitor the liquidity profile quarterly in line with the submission of FSA013. ...

...

16.1.4 G ...

- (3) Requirements for individual *firms* reflect:
 - (a) the category of *firm*;
 - (b) the nature of business carried on;
 - (c) whether a *firm* has its registered office (or if it does not have a

registered office, its head office) in the *United Kingdom*; ~~and~~

(d) whether a *firm* is an *incoming EEA firm* or *incoming Treaty firm*; ~~and~~

(e) the regulated activities the *firm* undertakes.

...

SUP 16.3 General provisions on reporting

...

16.3.1 G (2) ...

(a) a *firm* of a type listed in SUP 16.1.3R as a *firm* to which section SUP 16.6, ~~or SUP 16.7~~ or SUP 16.12 applies

...

16.3.2 G This chapter has been split into ~~eight~~ the following sections, covering:

...

(7) verification of *standing data* (SUP 16.10); ~~and~~

(8) product sales data reporting (SUP 16.11); ~~and~~

(9) integrated regulatory reporting (SUP 16.12).

...

16.3.4 G The compliance ~~and financial reports~~ sections ~~are~~ is both set out by category of *firm*, with detailed requirements set out in tables giving:

...

...

16.3.25 G ...

Nevertheless, the requirement to provide a report or *data item*, and the responsibility for the report or *data item*, remains with each *firm* in the *group*. However, reporting requirements that apply to a *firm*, by reason of the *firm* being a member of a *financial conglomerate*, are imposed only on one member of the *financial conglomerate* (see, for example, ~~SUP 16.7.82R~~ SUP 16.12.32 R).

...

Part 4

SUP 16.12

After *SUP* 16.11 insert the following new chapter *SUP* 16.12. The inserted text is not underlined.

16.12 Integrated Regulatory Reporting

Application

16.12.1 G The effect of *SUP* 16.1.1R is that this section applies to every *firm* carrying on business set out in column (1) of *SUP* 16.12.4R except:

- (1) a *bank* with *permission* for *cross border services* only;
- (2) an *oil market participant*;
- (3) an *authorised professional firm*, which must comply with *SUP* 16.12.31R; and
- (4) a *financial conglomerate*, which must comply with *SUP* 16.12.32R: *firms* that are members of a *financial conglomerate* will have their own reporting requirements under *SUP* 16.12.32R.

Purpose

- 16.12.2 G
- (1) *Principle 4* requires *firms* to maintain adequate financial resources. The Interim Prudential sourcebooks, *PRU*, *BIPRU* and *GENPRU* set out the *FSA*'s detailed capital adequacy requirements. By submitting regular data, *firms* enable the *FSA* to monitor their compliance with *Principle 4* and their prudential requirements in the *FSA Handbook*.
 - (2) The *data items* submitted help the *FSA* analyse *firms*' financial and other conditions and performance and to understand their business. By means of further collation and review of the data which the *data items* provide, the *FSA* also uses the *data items* to identify developments across the financial services industry and its constituent sectors.
 - (3) The requirements in this section differ according to a *firm*'s *regulated activity group (RAG)*, as different information is required to reflect different types of business. Standard formats are used for reporting, to assist compatibility between *firms* which carry on similar types of business. Timely submission is important to ensure the *FSA* has up-to-date information.

Reporting requirement

16.12.3 R (1) Any *firm* carrying on any of the activities within each of the *RAGs*

set out in column (1) of the table in SUP 16.12.4 R must:

- (a) (i) unless (ii) applies, submit to the *FSA* the duly completed *data items* or other items applicable to the *firm* as set out in the provision referred to in column (2) of that table;
- (ii) to the extent that a *firm* is required to submit completed *data items* in respect of more than one *RAG*, the *firm* must only submit the *data item* of the same name and purpose in respect of the lowest numbered *RAG* applicable to it;
- (iii) (ii) does not apply to any *data items* relating to the *FSA* fees or *FOS* or *FSCS* levy which must be submitted in respect of each *RAG*;
- in the format specified as applicable to the *firm* in the provision referred to in column (2);
- (b) at the frequency and in respect of the periods set out in the provision referred to in column (3); and
- (c) by the due date referred to in the provision referred to in column (4).
- (2) Unless (3) applies, any *data item* in (1) must be submitted by electronic means made available by the *FSA*;
- (3) (2) does not apply to:
- (a) *credit unions* solely in relation to the reporting requirement for *RAG 1* activities, where SUP 16.3.6R to SUP 16.3.10G will apply; and
- (b) *firms* in *RAG 2* in relation to the reporting requirements for *RAG 2* activities.
- (4) A *firm* that is a member of a *financial conglomerate* must also submit financial reports as required by SUP 16.12.32 R

Applicable data items

16.12.5 R The applicable *data items* and forms or reports referred to in *SUP* 16.12.4R are set out according to firm type in the table below:

Description of data item	Prudential category of firm and applicable data items (Note 1)						
	<i>UK bank</i>	<i>Building society</i>	<i>Non-EEA bank</i>	<i>EEA bank that has permission to accept deposits, other than one with permission for cross border services only</i>	<i>EEA bank that does not have permission to accept deposits, other than one with permission for cross border services only</i>	Electronic money institutions	<i>Credit union</i>
Annual accounts	No standard format		No standard format, but in English			No standard format	
Audited accounts of the <i>mixed-activity holding company</i> (note 9)	No standard format						
Solvency statement (note 10)	No standard format						
Balance sheet	FSA001 (note 2)	FSA001 (note 2)				FSA020	CQ; CY
Income statement	FSA002 (note 2)	FSA002 (note 2)	FSA002			FSA021	CQ; CY
Capital adequacy	FSA003 (note 2)	FSA003 (note 2)				FSA022	CQ; CY
Credit risk	FSA004 (note 2)	FSA004 (note 2)					
Market risk	FSA005 (notes 2, 4)	FSA005 (notes 2, 4)				FSA023	
Market risk - supplementary	FSA006 (note 5)						
Operational risk	FSA007 (notes	FSA007 (notes 2,					

	2, 6)	6)					
Large exposures	FSA008 (note 2)	FSA008 (note 2)				FSA024	CQ; CY
UK integrated group large exposures	FSA018 (note 12)	FSA018 (note 12)					
Liquidity (other than stock)	FSA010 (note 3)	FSA011	FSA010	FSA010	FSA012	FSA025	CQ; CY
Liquidity – stock	FSA013 (note 3)						
Forecast data	FSA014 (note 11)	FSA014 (note 11)					
Solo consolidation data	FSA016 (note 7)	FSA016 (note 7)					
Interest rate gap report	FSA017	FSA017					
ELMI questions						FSA026	
Non-EEA sub-group	FSA028 (note 8)					FSA028 (note 8)	
Note 1	When submitting the completed <i>data item</i> required, a <i>firm</i> must use the format of the <i>data item</i> set out in SUP 16 Ann 24R, except for credit union reports that are in SUP 16 Ann 14R. Guidance notes for completion of the data items are contained in SUP 16 Ann 25G (or Ann 15G for credit unions).						
Note 2	Firms that are members of a <i>UK consolidation group</i> subject to the capital resources requirement at stage 1 of BIPRU 8 Annex 5R are also required to submit this <i>data item</i> on a <i>UK consolidation group</i> basis. <i>Firms'</i> attention is drawn to SUP 16.3.25G regarding a single submission for all <i>firms</i> in the <i>group</i> .						
Note 3	A <i>UK bank</i> is not required to submit both FSA010 and FSA013. A <i>UK bank</i> which monitors its liquidity according to the maturity mismatch approach as set out in IPRU(BANK) LM must submit FSA010. A <i>UK bank</i> which monitors its liquidity according to the sterling stock liquidity approach as set out in IPRU(BANK) LS must submit FSA013.						
Note 4	This is only applicable to a <i>firm</i> where, at the annual review of this requirement, following its <i>accounting reference date</i> , (a) for a <i>firm</i> that was reporting this <i>data item</i> or similar in the previous year, one or both of the last two quarterly submissions in the previous year show that the threshold was exceeded; or (b) for a <i>firm</i> that was not reporting this <i>data item</i> or similar in the previous year, both of the last two quarterly submissions in the previous year show that the threshold was exceeded; and in either case the <i>FSA</i> has notified the <i>firm</i> that it is required to submit the data item in accordance with the above. In both cases, the threshold is exceeded if <i>data element</i> 93A in <i>data item</i> FSA003 (or similar) is greater than £50 million, or its currency equivalent at the reporting date.						
Note 5	Only applicable to <i>firms</i> with a CAD2 waiver under GENPRU 2.1.52R.						

Note 6	This is only applicable to a <i>firm</i> that has adopted, in whole or in part, either the Standardised Approach, Alternative Standardised Approach, or Advanced Modelling Approaches under <i>BIPRU 7</i> .
Note 7	Only applicable to a <i>firm</i> that has a waiver under <i>BIPRU 2.1</i> to solo consolidate subsidiaries.
Note 8	This will be applicable to <i>firms</i> that report ‘yes’ in data element 4A in FSA001 on a half-yearly reporting date. <i>Firms’</i> attention is drawn to <i>SUP 16.3.25G</i> regarding a single submission for all <i>firms</i> in the <i>group</i> .
Note 9	Only applicable to a <i>firm</i> whose ultimate <i>parent</i> is a <i>mixed activity holding company</i> .
Note 10	Only applicable to a <i>firm</i> that is a <i>partnership</i> , when the report must be submitted by each <i>partner</i> .
Note 11	Members of a <i>UK consolidation group</i> should only submit this <i>data item</i> at the <i>UK consolidation group</i> level. <i>Firms’</i> attention is drawn to <i>SUP 16.3.25G</i> regarding a single submission for all <i>firms</i> in the <i>group</i> .
Note 12	Members of a <i>UK integrated group</i> should only submit this <i>data item</i> at the <i>UK integrated group</i> level. <i>Firms’</i> attention is drawn to <i>SUP 16.3.25G</i> regarding a single submission for all <i>firms</i> in the <i>group</i> .

16.12.6 R The applicable reporting frequencies for submission of *data items* and periods referred to in *SUP 16.12.5R* are set out in the table below according to firm type. Reporting frequencies are calculated from a *firm's accounting reference date*, unless indicated otherwise.

	Unconsolidated <i>UK banks and building societies</i>	Solo consolidated <i>UK banks and building societies</i>	Report on a <i>UK consolidation group</i> basis by <i>UK banks and building societies</i>	Other members of RAG 1
Annual accounts	Annual			Annual

FSA025			Half yearly
FSA026			Half yearly
FSA028	Half yearly		
Note 1	Monthly submission only applicable if the <i>firm</i> has been notified in writing that it is required to report (when, on an annual review, it has two consecutive quarterly submissions of FSA003 showing <i>data element</i> 93A being greater than £50 million, or its currency equivalent, and also greater than 50% of <i>data element</i> 70A or, during 2007, it has two consecutive quarterly submissions of FSA009 showing <i>data element</i> 27A and <i>data element</i> 33A combined being greater than £50 million, or its currency equivalent, and also greater than 50% of <i>data element</i> 36A.		
Note 2	The annual report required from a <i>credit union</i> by SUP 16.12.5R must be made up for the same period as the audited accounts published by the <i>credit union</i> in accordance with section 3A of the Friendly and Industrial and Provident Societies Act 1968 (see CRED 14 Ann 1). CRED 14.10.10R (2)(a) states that the audited accounts referred to in SUP 16.12.5R are to be made up for the period beginning with the date of the <i>credit union's</i> registration or with the date to which the <i>credit union's</i> last annual accounts were made up, and ending on the <i>credit union's</i> most recent financial year end.		

16.12.7 R The applicable due dates for submission referred to in SUP 16.12.4R are set out in the table below. The due dates are the last day of the periods given in the table below following the relevant reporting frequency period set out in SUP 16.12.6R.

<i>Data item</i>	Monthly submission	Quarterly submission	Half yearly submission	Annual submission

Pillar 2 questionnaire	FSA019 (note 8)	FSA019 (note 8)	FSA019 (note 8)	
Non-EEA sub-group	FSA028 (note 9)	FSA028 (note 9)	FSA028 (note 9)	
Note 1	When submitting the completed <i>data item</i> required, a <i>firm</i> must use the format of the <i>data item</i> set out in SUP 16 Ann 24R. Guidance notes for completion of the data items are contained in SUP 16 Ann 25G.			
Note 2	Firms that are members of a <i>UK consolidation group</i> subject to the capital resources requirement at stages 2, 3 or 4 of BIPRU 8 Annex 5R are also required to submit this report on a <i>UK consolidation group</i> basis.			
Note 3	<p>This is only applicable to a <i>firm</i> where, at the annual review of this requirement, following its <i>accounting reference date</i>,</p> <p>(a) for a <i>firm</i> that was reporting this <i>data item</i> or similar in the previous year, one or both of the last two quarterly submissions in the previous year show that the threshold was exceeded; or</p> <p>(b) for a <i>firm</i> that was not reporting this <i>data item</i> or similar in the previous year, both of the last two quarterly submissions in the previous year show that the threshold was exceeded;</p> <p>and in either case the <i>FSA</i> has notified the <i>firm</i> that it is required to submit the data item in accordance with the above.</p> <p>In both cases, the threshold is exceeded if <i>data element 77A</i> in <i>data item</i> FSA003 (or similar) is greater than £10 million, or its currency equivalent at the reporting date.</p>			
Note 4	<p>This is only applicable to a <i>firm</i> where, at the annual review of this requirement, following its <i>accounting reference date</i>,</p> <p>(a) for a <i>firm</i> that was reporting this <i>data item</i> or similar in the previous year, one or both of the last two quarterly submissions in the previous year show that the threshold was exceeded; or</p> <p>(b) for a <i>firm</i> that was not reporting this <i>data item</i> or similar in the previous year, both of the last two quarterly submissions in the previous year show that the threshold was exceeded;</p> <p>and in either case the <i>FSA</i> has notified the <i>firm</i> that it is required to submit the data item in accordance with the above.</p>			

	In both cases, the threshold is exceeded if <i>data element</i> 93A in <i>data item</i> FSA003 (or similar) is greater than £50 million, or its currency equivalent at the reporting date.
Note 5	Only applicable to <i>firms</i> with a CAD2 waiver under <i>GENPRU</i> 2.1.52R.
Note 6	This will not be applicable to <i>BIPRU limited activity firms</i> or <i>BIPRU limited licence firms</i> unless they have a waiver under <i>BIPRU</i> 6.1.2G.
Note 7	This is only applicable to a <i>firm</i> that has adopted, in whole or in part, either the Standardised Approach, Alternative Standardised Approach, or Advanced Modelling Approaches under <i>BIPRU</i> 7.
Note 8	Only applicable to <i>firms</i> that are: (a) subject to consolidated supervision under <i>BIPRU</i> 8, <u>except</u> those that are either included within the consolidated supervision of a group that includes a UK <i>credit institution</i> , or that have been granted an <i>investment firm consolidation waiver</i> ; (b) subject to consolidated supervision under <i>BIPRU</i> 8 that have been granted an <i>investment firm consolidation waiver</i> ; and (c) not subject to consolidated supervision under <i>BIPRU</i> 8. A <i>firm</i> under (a) should complete the report on the basis of its UK <i>consolidation group</i> . A <i>firm</i> under (b) or (c) should complete the report on the basis of its solo position.
Note 9	This will be applicable to firms that report ‘yes’ in data element 4A in FSA001 on the reporting date. Firms’ attention is drawn to <i>SUP</i> 16.3.25G regarding a single submission for all firms in the group.
Note 10	Only applicable to a <i>firm</i> whose ultimate <i>parent</i> is a <i>mixed activity holding company</i> .
Note 11	Only applicable to a firm that is a <i>sole trader</i> or a <i>partnership</i> , when the report must be submitted by each <i>partner</i> .
Note 12	Members of a UK <i>integrated group</i> should only submit this <i>data item</i> at the UK <i>integrated group</i> level. Firms’ attention is drawn to <i>SUP</i> 16.3.25G regarding a single submission for all <i>firms</i> in the group.

16.12.12 R The applicable reporting frequencies for *data items* referred to in *SUP* 16.12.16 R are set out in the table below according to *firm* type. Reporting frequencies are calculated from a *firm's accounting reference date*, unless indicated otherwise.

Non-EEA sub-group	FSA02 8 (note 9)	FSA02 8 (note 9)	FSA02 8 (note 9)
Note 1:	When submitting the completed <i>data item</i> required, a <i>firm</i> must use the format of the <i>data item</i> set out in SUP 16 Ann 24R. Guidance notes for completion of the data items are contained in SUP 16 Ann 25G.		
Note 2	Firms that are members of a <i>UK consolidation group</i> subject to the capital resources requirement at stages 2, 3 or 4 of BIPRU 8 Annex 5R are also required to submit this report on a <i>UK consolidation group</i> basis.		
Note 3	<p>This is only applicable to a <i>firm</i> where, at the annual review of this requirement, following its <i>accounting reference date</i>,</p> <p>(a) for a <i>firm</i> that was reporting this <i>data item</i> or similar in the previous year, one or both of the last two quarterly submissions in the previous year show that the threshold was exceeded; or</p> <p>(b) for a <i>firm</i> that was not reporting this <i>data item</i> or similar in the previous year, both of the last two quarterly submissions in the previous year show that the threshold was exceeded;</p> <p>and in either case the FSA has notified the <i>firm</i> that it is required to submit the data item in accordance with the above.</p> <p>In both cases, the threshold is exceeded if <i>data element 77A in data item FSA003</i> (or similar) is greater than £10 million, or its currency equivalent at the reporting date.</p>		
Note 4	This is only applicable to a <i>firm</i> where, at the annual review of this requirement, following its <i>accounting reference date</i> ,		

	<p>(a) for a <i>firm</i> that was reporting this <i>data item</i> or similar in the previous year, one or both of the last two submissions in the previous year show that the threshold was exceeded; or</p> <p>(b) for a <i>firm</i> that was not reporting this <i>data item</i> or similar in the previous year, both of the last two submissions in the previous year show that the threshold was exceeded;</p> <p>and in either case the FSA has notified the <i>firm</i> that it is required to submit the data item in accordance with the above.</p> <p>In both cases, the threshold is exceeded if <i>data element 93A</i> in <i>data item FSA003</i> (or similar) is greater than £50 million, or its currency equivalent at the reporting date.</p>
Note 5	Only applicable to <i>firms</i> with a CAD2 waiver under <i>GENPRU 2.1.52R</i> .
Note 6	This will not be applicable to <i>BIPRU limited activity firms</i> or <i>BIPRU limited licence firms</i> unless they have a waiver under <i>BIPRU 6.1.2G</i> .
Note 7	This is only applicable to a <i>firm</i> that has adopted, in whole or in part, either the Standardised Approach, Alternative Standardised Approach, or Advanced Modelling Approaches under <i>BIPRU 7</i> .
Note 8	<p>Only applicable to <i>firms</i> that are:</p> <p>(a) subject to consolidated supervision under <i>BIPRU 8</i>, <u>except</u> those that are either included within the consolidated supervision of a group that includes a UK <i>credit institution</i>, or that have been granted an <i>investment firm consolidation waiver</i>;</p> <p>(b) subject to consolidated supervision under <i>BIPRU 8</i> that have been granted an <i>investment firm consolidation waiver</i>; and</p> <p>(c) not subject to consolidated supervision under <i>BIPRU 8</i>.</p> <p>A <i>firm</i> under (a) should complete the report on the basis of its UK <i>consolidation group</i>. A <i>firm</i> under (b) or (c) should complete the report on the basis of its solo position.</p>
Note 9	This will be applicable to firms that report ‘yes’ in data element 4A in FSA001 on the reporting date. Firms’ attention is drawn to <i>SUP 16.3.25G</i> regarding a single submission for all firms in the group.
Note 10	Only applicable to a <i>firm</i> whose ultimate <i>parent</i> is a <i>mixed activity holding company</i> .
Note 11	Only applicable to a firm that is a <i>sole trader</i> or a <i>partnership</i> , when the report must be submitted by each <i>partner</i> .
Note 12	Members of a UK <i>integrated group</i> should only submit this <i>data item</i> at the UK <i>integrated group</i> level. Firms’ attention is drawn to <i>SUP 16.3.25G</i> regarding a single submission for all <i>firms</i> in the <i>group</i> .

16.12.16 R The applicable reporting frequencies for *data items* referred to in *SUP 16.12.15R* are set out in the table below according to *firm* type. Reporting frequencies are calculated from a *firm's accounting reference date*, unless indicated otherwise.

16.12.31 [to follow]

Financial conglomerates

- 16.12.32 R (1) A *firm* that is a member of a *financial conglomerate* must submit financial reports to the *FSA* in accordance with the table in *SUP* 16.12.33R if:
- (a) it is at the head of an *FSA regulated EEA financial conglomerate*; or
 - (b) its *Part IV permission* contains a relevant *requirement*.
- (2) In (1)(b), a relevant *requirement* is one which:
- (a) applies *SUP* 16.12.33R to the *firm*; or
 - (b) applies *SUP* 16.12.33R to the *firm* unless the *mixed financial holding company* of the *financial conglomerate* to which the *firm* belongs submits the report required under this *rule* (as if the *rule* applied to it).
- 16.12.33 R Financial reports from a member of a financial conglomerate (see *SUP* 16.12.32R)

Content of Report	Form (Note 1)	Frequency	Due Date
Calculation of supplementary capital adequacy requirements in accordance	Note 2	Note 5	Note 5

with one of the four technical calculation methods			
Identification of significant <i>risk concentration</i> levels	Note 3	Yearly	4 months after year end
Identification of significant <i>intra-group transactions</i>	Note 4	Yearly	4 months after year end
Report on compliance with PRU 8.4.35R <i>GENPRU</i> 3.1.[35]R where it applies	Note 6	Note 5	Note 5
Note 1	When giving the report required, a <i>firm</i> must use the form indicated, if any.		
Note 2	<p>If Part 1 of <i>GENPRU</i> 3 Annex 1R (method 1), Part 2 of <i>GENPRU</i> 3 Annex 1R (method 2), or Part 3 of <i>GENPRU</i> 3 Annex 1R (method 3) applies, there is no specific form. Adequate information must be provided, and each <i>financial conglomerate</i> for which the <i>FSA</i> is the <i>co-ordinator</i> must discuss with the <i>FSA</i> how to do this.</p> <p>If Part 4 of <i>GENPRU</i> 3 Annex 1R applies (method 4):</p> <p>(1) a <i>banking / investment conglomerate</i> must use FSA003; and</p> <p>(2) an <i>insurance conglomerate</i> must use:</p> <p>(a) (where <i>SUP</i> 16.12.32(1)(a) applies), Forms 1, 2 and 3 in Appendix 9.1 of <i>IPRU(INS)</i> prepared in accordance with <i>IPRU (INS)</i> 9.35(1); or</p> <p>(b) (in any other case), the Insurance Group Capital Adequacy Reporting Form (Form 95) in Appendix 9.9 of <i>IPRU(INS)</i></p> <p>For the purposes of (b), <i>rules</i> 9.40(1), 9.40(1A), 9.40(3) and 9.40(4) of <i>IPRU(INS)</i> apply as they would if the <i>insurance conglomerate</i> were an <i>insurance group</i>.</p>		
Note 3	<p>Rather than specifying a standard format for each <i>financial conglomerate</i> to use, each <i>financial conglomerate</i> for which the <i>FSA</i> is the <i>co-ordinator</i> must discuss with the <i>FSA</i> the form of the information to be reported. This should mean that usual information management systems of the <i>financial conglomerate</i> can be used to the extent possible to generate and analyse the information required.</p> <p>When reviewing the <i>risk concentration</i> levels, the <i>FSA</i> will in particular monitor the possible risk of contagion in the <i>financial conglomerate</i>, the risk of a conflict of interests, the risk of circumvention of sectoral <i>rules</i>, and the level or volume of risks.</p>		
Note 4	<p>For the purposes of this reporting requirement, an <i>intra-group transaction</i> will be presumed to be significant if its amount exceeds 5% of the total amount of capital adequacy requirements at the level of the <i>financial conglomerate</i>.</p> <p>Rather than specifying a standard format for each <i>financial conglomerate</i> to use, each <i>financial conglomerate</i> for which the <i>FSA</i> is the <i>co-ordinator</i> will need to discuss with the <i>FSA</i> the form of the information to be reported. This should mean that usual information management systems of the <i>financial conglomerate</i> can be used to the extent possible to generate and analyse the information required.</p> <p>When reviewing the <i>intra-group transactions</i>, the <i>FSA</i> will in particular monitor the possible risk of contagion in the <i>financial conglomerate</i>, the risk of a conflict of interests, the risk of circumvention of <i>sectoral rules</i>, and the level or volume of risks.</p>		
Note 5	The frequency and due date will be as follows:		

	<p>(1) <i>banking / investment conglomerate</i>: frequency is half-yearly with due date 45 <i>business days</i> after period end</p> <p>(2) <i>insurance conglomerate</i>: frequency is yearly with due date four months after period end for the capital adequacy return and three months after period end for the report on compliance with <i>GENPRU</i> 3.1.[35]R where it applies.</p>
Note 6	Adequate information must be added as a separate item to the relevant form for sectoral reporting.

Capital adequacy

The firm completing this is subject to the capital rules for (tick one only):

- 1 A UK bank or a building society
- 2 A full scope BIPRU investment firm
- 3 A BIPRU limited activity firm
- 4 A BIPRU limited licence firm, including a UCITS investment firm

- 5 If you are a full scope BIPRU investment firm, do you meet the conditions in BIPRU TP 12.1R?

If you are a BIPRU investment firm, are you a:

- 6 BIPRU 730K firm
- 7 BIPRU 125K firm (excluding UCITS investment firms)
- 8 UCITS investment firm
- 9 BIPRU 50K firm
- 10 Do you have an investment firm consolidation waiver under BIPRU 8.4?
- 11 Have you notified the FSA, at least one month in advance of the date of this report, that you intend to deduct illiquid assets?

- 12 Basis of reporting
 Unconsolidated/Solo-consolidated/Consolidated

If consolidated, please complete data elements 13 and 14, otherwise go straight to data element 15.

- 13 For consolidated reporting, provide
 Group reference Group name

- 14 For consolidated reporting, provide details of all other FSA authorised firms included in this consolidated report.

35	Standard discount factors	%													
36	Bespoke discount factors/forward yield curve														
37	Forward yield curve														
38	Sensitivity to + shift (as derived from above data)														
39	Sensitivity to - shift (as derived from above data)														
40	Alternative estimate of sensitivity to + shift														
41	Alternative estimate of sensitivity to - shift														
42	Sensitivity limits (optional)														

Note An option that is IN the money by the percentage value in data elements 38 or 39 or more should be assigned a maturity (i.e re-pricing) date equal to the expiry date of the contract. This affects data elements 12 and 26 (options).

1 An option that is OUT of the money by the percentage value in data elements 38 or 39 or more should be assigned to the 'overnight to 3 month' maturity band. This affects data elements 12 and 26 (options).

An option within these two bounds should have its re-pricing date determined by simple straight line interpolation - e.g. an option exactly at the money, would be assigned a notional maturity date halfway between overnight and the contract expiry date

FSA019 Pillar 2 information

B
yes/no

1 Does GENPRU 1.2 apply to your firm?

If so, please answer all the following questions:

000s

2 What is the internal capital amount that you consider adequate for the nature, scale and complexity of your firm's activities in line with its Internal Capital Adequacy Assessment Process (ICAAP)?

3 What is the actual amount of internal capital your firm holds at the accounting reference date?

yes/no

4 Have you documented your ICAAP?

dd/mm/yy

5 When did you last review the ICAAP?

yes/no

6 Have your external auditors audited your firm's financial statement in the 12 months?

7 If so, has any audit opinion you received in the last year been qualified in any respect?

%

8 What is the ratio of dealing errors in relation to the total number of transactions your firm has undertaken in the past 12 months?

yes/no

9 Have you considered your firm's risk appetite when developing its ICAAP?

In your ICAAP, have you considered the impact of an economic downturn on:

10 · your firm's financial position?

11 · your business plans?

Is the firm exposed to the risks listed below? And if so, what amount of internal capital have you allocated to each of them?

yes/no

ELMI Questions

- 1 Have the firms own funds been equal to or greater than its own funds requirement throughout the reporting period?
- 2 Have the firm's total own funds been equal to or greater than 5% of its qualifying liquid assets that form part of the e-money float and are in the form of sight deposits held with Zone A credit institutions and qualifying debt securities throughout the r
- 3 Have the firms large exposures been within the large exposures reporting limits throughout the reporting period?
- 4 Has the amount of the firms qualifying liquid assets been no less than the amount of its e-money outstandings throughout the reporting period?
- 5 Has the firm complied with the base capital requirements throughout the reporting period?

A YES	B NO	C explanation if NO

Part 7

SUP 16 Annex 25 G

All of the text in this section is new and is not underlined.

FSA001 – Balance sheet

This data item provides the FSA with a snapshot of the assets and liabilities of a firm, and details of items which although not on the balance sheet, nevertheless will have a potential impact on the financial health of the firm if they were to crystallise.

Valuation

Firms should follow their normal accounting practice wherever possible. As there is no direct linkage with FSA003, there is no need for the data to follow the valuation rules applicable for capital adequacy purposes eg in relation to adjustments to the accounting values set out in *GENPRU* 1.3.36R.

Consolidation

When reporting the balance sheet on a *UK consolidation group* basis, firms should where possible treat the consolidation group as a single entity (ie line-by-line) rather than on an aggregation basis. However, for the liabilities, in the same way as for the *capital resources* calculation figure in FSA003, the consolidation should only treat the group as a single entity (ie line-by-line).

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

Assets

These are broken down between trading book assets, and those that are not trading book assets. Hence the items reported in column B will exclude the items reported in column A. If a firm cannot easily identify trading book assets, all assets should be reported in the non-trading book column.

Firms can determine whether they have trading book or not. However, it is expected that a firm that identifies trading book profits in FSA002, or reports trading book profits in FSA003 (in data element 61A), should be able to identify trading book assets.

However, even if a firm does not identify trading book assets, it does not preclude that firm from having foreign exchange and commodities risk in the *market risk capital requirement* (data element 93A) in FSA003.

1 Is this report on behalf of a UK consolidation group?

See *BIPRU* 8.2. Firms should answer yes or no.

2 If yes, please list the FSA firm reference numbers of the other firms in the UK consolidation group.

Firms should list the FSA reference numbers of all the firms included within the *UK consolidation group* in Column B.

3 If no (to data element 1), is this a solo consolidated report?

See *BIPRU* 2.1. Firms that have a solo consolidation waiver should answer yes here.

4 If no (to data element 1) are you a member of a non-EEA sub-group?

See *BIPRU* 8.2. Firms should answer 'yes' or 'no'. A *BIPRU* firm that is the ultimate parent of a group (as a building society will always be) will always report 'no' here.

Firms that answer 'yes' to 4A will be required to report half yearly on FSA028. The figures reported in FSA028 may not necessarily be the same as those reported on FSA003 because the *non-EEA sub-group* may contain firms that are not included within the solo-consolidation. If the coverage is the same, it is likely that no detailed figures will be required on FSA028.

5 Cash and balances at central banks (excluding client money)

This is money physically held by the firm, and money deposited with central banks. Include any gold coin and bullion held.

Any client money held should be reported in data element 64A.

6 Credit items in the course of collection from banks

This data element is only relevant for *UK banks* and *building societies*.

This includes the total amount of cheques, etc drawn on and in the course of collection on other firms, and debit items in transit between domestic offices of the reporting firm in each country. Report cheques that have been credited to customers' accounts but are held overnight before being presented or paid into the reporting firm's account with another firm.

7 Treasury bills and other eligible bills held

Enter here any holdings of treasury bills or other bills eligible for rediscount at *central banks*.

8 Deposits with, and loans to, credit institutions

For *BIPRU investment firms*, this will include any bank balances. Overdrawn accounts with banks should be reported in data element 23A.

It includes funds lent to or placed with customers/counterparties. This includes holdings of certificates of deposit (other than those issued by the firm) and negotiable deposits made on terms identical to those on which a certificate of deposit would have been issued, but for which it has been mutually convenient not to have issued a certificate (these items should be reported on a contract date basis).

It also includes funds lent to or placed with customers/counterparties including:

- (a) assets leased out under finance lease agreements, but legally owned by the firm;
- (b) loans made under conditional sale agreements and hire purchase contracts;
- (c) acceptances discounted;
- (d) advances purchased by or assigned to the firm under a transferable loan facility, purchase and resale agreements, factoring, or similar arrangement; and

- (e) bills (including eligible bills), promissory notes and other negotiable paper owned (including à forfait paper), which should be reported according to the drawee.

9 Loans and advances to customers

This will mainly be relevant for *UK banks* and *building societies*. It covers all funds lent or placed with all counterparties other than credit institutions.

10 Debt securities

Report here only long positions in debt securities. If there is an overall short position, it should be reported in data element 30A.

11 Equity shares

This comprises long holdings of securities. If there is an overall short position, it should be reported in data element 30A.

12 Investment in group undertakings

This will generally only apply for solo and unconsolidated reporting.

When completing this on a *UK consolidation group* basis, investments in subsidiary and associated companies should only include those companies that are excluded from the consolidation.

13 Reverse repurchase agreements and cash collateral on securities borrowed

Report here any reverse repos or stock borrowing.

14 Derivatives

Report here derivatives balances, on the same basis as they are reported on the face of the firm's balance sheet.

15 Goodwill

Report here the amount of any goodwill.

16 Other intangible assets

Include here intangible assets, other than goodwill. The value here may differ from that reported in FSA003 - see *GENPRU 2.2.155R* and *GENPRU 2.2.156G*.

17 Tangible fixed assets

Includes property, real estate, plant and equipment beneficially owned by the firm.

18 Prepayments and accrued income

Include here any sundry debtors arising in the course of the firm's business, including prepayments and accruals.

19 Other assets

Include any other assets not reported elsewhere on FSA001, items in suspense (in the case of *UK banks* and *building societies*), and any assets in respect of trading settlement accounts.

For *UK consolidation group* reports, any assets consolidated other than on a line-by-line basis may be reported here.

Includes exchange traded margins.

20 Total assets

The sum of the trading book total assets plus the non-trading book total assets will equal the sum of total liabilities and equity of the firm in data element 45A.

Liabilities

21A Own bank notes issued

This is only relevant for those banks that can issue bank notes. It is the figure of bank notes in circulation, ie the firm's issue of bank notes less any own notes held.

22A Items in the course of collection due to other banks

This is only likely to be relevant for *UK banks* and *building societies*.

It should include items in the course of transmission.

23A Deposits from banks and building societies, including overdrafts and loans from them

For *BIPRU investment firms*, this element will contain any borrowings made from banks or building societies. Deposit-taking firms will include here deposits from other credit institutions.

24A Customer accounts

This is unlikely to be relevant for *BIPRU investment firms*.

It comprises deposits from all customers other than credit institutions (that are reported in 23A). These should be broken down into retail (excluding e-money), e-money issued (this should be identified where firms have permission to issue e-money), corporate, intra-group and other in data elements 25A to 29A.

Firms should use their best endeavours to allocate customers, but should follow a consistent approach on each reporting date.

30A Trading liabilities

Include here any short positions in equities or debt securities.

31A Debt securities in issue, excluding covered bonds

This data element is unlikely to be relevant to *BIPRU investment firms*.

Report all certificates of deposit issued by the firm, whether at fixed or floating rates, and still outstanding. Also report negotiable deposits taken on terms in all respects identical to those on which a certificate of deposit would have been issued, but for which it has been mutually convenient not to have issued certificates. If a firm holds certificates of deposits which it has itself issued, these should not be reported.

Also report promissory notes, bills and other negotiable paper issued (including commercial paper) by the reporting institution including bills drawn under an acceptance credit facility provided by another firm.

Include unsubordinated FRNs and other unsubordinated market instruments issued by the firm.

Covered bonds should be excluded and reported in data element 32A.

32A Covered bonds

This data element is unlikely to be relevant to *BIPRU investment firms*.

See the Glossary for a definition of *covered bonds*.

33A Derivatives

Report here any derivative liabilities.

34A Liabilities in respect of sale and repurchase agreements and cash collateral received for securities lent

This entry applies to the cash liability on sale and repurchase and stock lending agreements. Where the firm reports assets reversed in on the balance sheet, the liability under such agreements should be reported here. Stock borrowing that is reported on balance sheet should also be included here.

35A Retirement benefit liabilities

Include liabilities arising in respect of pension scheme deficiencies.

36A Taxation liabilities

Deferred tax assets should be reported as an asset in data element 19A or 19B.

37A Provisions

Report general provisions / collective impairment that are held against possible or latent losses but where the losses have not as yet been identified, in line with the accounting practice adopted by the firm.

38A Subordinated liabilities

Include all subordinated debt issued by the firm. *Building societies* should include *PIBS* here.

39A Accruals and deferred income

Include here accruals and deferred income.

40A Other liabilities

Include net short positions in physical commodities where the FSA has agreed that commodity transactions may be included in the non-trading Book.

UK banks and building societies should include items in suspense here.

Includes exchange traded margins.

41A Subtotal

This is the total of data elements 21A, 22A, 23A and 30A to 40A.

42A Called up share capital, including partnership, LLP and sole trader capital

Exclude holdings by the firm of its own shares (although these holdings should be reported in FSA003) and also excess of drawings over profits for partnerships, LLPs or sole traders (which are also reported in FSA003). *Building societies* should exclude *PIBS*, which should be reported in 38A.

43A Reserves

As firms may use figures compiled on the same basis as audited accounts, the figures presented here may differ from those reported in FSA003. This is because of the different valuation basis used for capital adequacy, as set out in *GENPRU* 1.3.

44A Minority interests

As firms may use figures compiled on the same basis as audited accounts, the figures presented here may differ from those reported in FSA003 as a memorandum item. This is because of the different valuation basis used for capital adequacy, as set out in *GENPRU* 1.3.

45A Total liabilities and shareholders' funds

This will equal the sum of trading book plus non-trading book assets (data elements 20A plus 20B), and also the sum of 41A to 44A.

Memorandum items

46-53 Derivatives

This provides further information on OTC derivatives. Firms should allocate the contracts to the bands as accurately as possible but, if some of the breakdowns are not available, they should report on the basis of the predominant type of derivative.

A – Notional contract amount

Firms should provide this amount, if available, or their best estimate of it from internal sources.

B – Assets

Firm should use the value placed on these contracts in the balance sheet, before accounting netting.

C – Liabilities

Firm should use the value placed on these contracts in the balance sheet, before accounting netting.

53B/53C Total after netting

This is the value of derivatives, for columns B and C, after accounting netting. 53B should equal 14A plus 14B, while 53C should equal 33A.

Other items

54A Direct credit substitutes

This is likely to be relevant only for *UK banks* and *building societies*.

Report here those direct credit substitutes which do not appear on the face of the balance sheet.

Direct credit substitutes relate to the financial requirements of a counterparty, where the risk of loss to the firm on the transaction is equivalent to a direct claim on the counterparty, ie the risk of loss depends on the creditworthiness of the counterparty. Report instruments such as:

- (a) acceptances granted and risk participations in bankers' acceptances. Where a firm's own acceptances have been discounted by that institution the nominal value of the bills held should be deducted from the nominal amount of the bills issued under the facility and a corresponding on-balance sheet entry made;
- (b) guarantees given on behalf of customers to stand behind the current obligations of the customer and to carry out these obligations should the customers fail to do so, eg a loan guarantee;
- (c) guarantees of leasing operations;
- (d) guarantees of a capital nature such as undertakings given to firms authorised under the Financial Services and Markets Act 2000 which are considered as capital;
- (e) letters of credit not eligible for inclusion in 54A;
- (f) standby letters of credit, or other irrevocable obligations, serving as financial guarantees where the firm has an irrevocable obligation to pay a third party beneficiary if the customer fails to repay an outstanding commitment, eg letters of credit supporting the issue of commercial paper, delivery of merchandise, or for stock lending (standby letters of credit which are related to non-financial transactions should be reported in 53A below);
- (g) re-insurance or window letters of credit;
- (h) acceptances drawn under letters of credit, or similar facilities where the acceptor does not have specific title to an identifiable underlying shipment of goods (eg sales of electricity); and
- (i) confirmations of letters of credit.

55A Transaction-related contingents

This is likely to be relevant only for *UK banks* and *building societies*.

Report here those transaction-related contingents which do not appear on the face of the balance sheet.

Transaction-related contingents relate to the on-going trading activities of a counterparty where the risk of loss to the firm depends on the likelihood of a future event which is

independent of the creditworthiness of the counterparty. They are essentially guarantees which support particular non-financial obligations rather than supporting customers' general financial obligations. Report such items as:

- (a) performance bonds, warranties and indemnities (indemnities given for lost share certificates or bills of lading and guarantees of the validity of papers rather than of payment under certain conditions should not be reported);
- (b) bid or tender bonds;
- (c) advance payment guarantees;
- (d) VAT, customs and excise bonds. The amount recorded for such bonds should be the firm's maximum liability (normally twice the monthly amount being guaranteed); and
- (e) standby letters of credit relating to a particular contract or to non-financial transactions (including arrangements backing, inter alia, subcontractors' and suppliers' performance. labour and materials, contracts, and construction bids).

56A Trade-related contingents

This is likely to be relevant only for *UK banks* and *building societies*.

Report here those trade-related contingents which do not appear on the face of the balance sheet.

Report short-term, self liquidating trade-related items such as documentary letters of credit issued by the firm which are, or are to be, collateralised by the underlying shipment, ie where the credit provides for the firm to retain title to the underlying shipment.

Letters of credit issued by the firm without provision for the firm to retain title to the underlying shipment or where the title has passed from the firm should be reported under direct credit substitutes (54A). A memorandum of pledge and a trust receipt are not regarded as giving the firm title, and transactions secured by these should be shown under 54A.

Letters of credit issued on behalf of a counterparty back-to back with letters of credit of which the counterparty is a beneficiary ("back-to-back" letters) should be reported in full.

Letters of credit advised by the firm or for which the firm is acting as reimbursement agent should not be reported.

57A Asset sales with recourse

This is likely to be relevant only for *UK banks* and *building societies*.

Report here those asset sales without recourse which do not appear on the face of the balance sheet.

Report put options written where the holder of the asset is entitled to put the asset back to the firm, eg if the credit quality deteriorates. Also report put options written by the firm attached to marketable instruments or other physical assets.

58A Forward asset purchases

This is likely to be relevant only for *UK banks* and *building societies*.

Report here those forward asset purchases which do not appear on the face of the balance sheet.

Include commitments for loans and other on-balance sheet items with certain drawdown. Exclude foreign currency spot deposits with value dates one or two working days after trade date.

59A Forward forward deposits placed

This is likely to be relevant only for *UK banks* and *building societies*.

Report here those forward forward deposits placed which do not appear on the face of the balance sheet.

This covers agreements between two parties whereby one will pay, and the other receive, an agreed rate of interest on a deposit to be placed by one with the other at some predetermined date in the future. Exclude foreign currency spot deposits with value dates one or two working days after trade date.

60A Uncalled partly-paid shares and securities

Only report if there is a specific date for the call on the unpaid part of the shares and securities held. If there is no specific date, the unpaid part should be treated as a long-term commitment (see 63A).

61A NIFs and RUFs

This is likely to be relevant only for *UK banks* and *building societies*.

Report here those NIFs and RUFs which do not appear on the face of the balance sheet.

Note issuance facilities and revolving underwriting facilities should include the total amounts of the firm's underwriting obligations of any maturity. Where the facility has been drawn down by the borrower and the notes are held by anyone other than the firm, the underwriting obligation should continue to be reported at the full nominal amount.

The firm's own holding of the notes should be reported in data elements 8 and 9 and therefore the nominal amount of the notes held should be deducted from the nominal amount of the facility to be shown here.

62A Endorsements of bills

This is likely to be relevant only for *UK banks* and *building societies*.

Report here those endorsed bills which do not appear on the face of the balance sheet.

Endorsements of bills (including per aval endorsements) should be reported at the full nominal amount, less any amount for bills which the firm now holds but had previously endorsed.

63A Other commitments

This is likely to be relevant only for *UK banks* and *building societies*.

Report here other commitments which do not appear on the face of the balance sheet, and are not reported in items 54A to 62A above.

The firm is regarded by the FSA as having a commitment regardless of whether it is revocable or irrevocable, conditional or unconditional and, in particular whether or not it contains a “material adverse change” clause.

Include unused credit card lines.

Commitments for loans and other on-balance sheet items with certain drawdown should not be reported here but under 58A.

64A Client money held

Provide the total amount of client money held at the reporting date. Firms should be identifying this already to ensure compliance with *CASS*.

65A Number of UK retail customers

This is only applicable to *UK banks* and *building societies*.

This is intended to identify the number of UK retail customers. Firms should use their best estimate for this, which might even be based on the number of accounts. It can even be the firms most reasonable approximation, based on whatever information they can use. We recognise that this may lead to firms duplicating customers who have a number of different products or accounts and thus we are provided with the number of total customers, rather than different customers. We do not expect firms to develop systems to give precise numbers, although obviously we would prefer the figures to be as reliable as possible. (We have considered bandings, but that will not give the degree of precision we require.)

FSA001 – Balance sheet validations

Internal validations

Data elements are referenced by row then column.

Validation number	Data element		
1	20A	=	5A + 6A + 7A + 8A + 9A + 10A + 11A + 12A + 13A + 14A + 15A + 16A + 17A + 18A + 19A
2	20B	=	5B + 6B + 7B + 8B + 9B + 10B + 11B + 12B + 13B + 14B + 15B + 16B + 17B + 18B + 19B
3	24A	=	25A + 26A + 27A + 28A + 29A
4	41A	=	21A + 22A + 23A + 24A + 30A + 31A + 32A + 33A + 34A + 35A + 36A + 37A + 38A + 39A + 40A
5	45A	=	41A + 42A + 43A + 44A
6	45A	=	20A + 20B
7	52A	=	46A + 47A + 48A + 49A + 50A + 51A
8	52B	=	46B + 47B + 48B + 49B + 50B + 51B
9	52C	=	46C + 47C + 48C + 49C + 50C + 51C
10	53B	=	14A + 14B
11	53C	=	33A

External validations

There are no external validations for this data item.

FSA002 – Income statement

This data item provides the FSA with information on the main sources of income and expenditure for a firm. It should be completed on a cumulative basis for the firm's current financial year up to the reporting date.

Valuation

Firms should follow their normal accounting practice wherever possible. In this regard, the figure for profits reported here may differ from the figures reported at the same date in FSA003, primarily because of valuation differences that arise from the application of *GENPRU* 1.3.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Consolidation

Firms reporting on a *UK consolidation group* basis can use the same accounting basis for consolidation as in their accounts, as long as the group on which it is based accords with the *UK consolidation group*. (On FSA003, such firms will, however, have to report their capital resources on a line-by-line basis under *BIPRU* 8, and firms may prefer to do so here too.)

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

Trading book

Data elements in column A relate only the trading book. Firms should identify their trading book profits separately from the non-trading book profits wherever possible. Firms that intend to include 'net interim trading book profit and loss' in data element 61A in FSA003 should complete this column. It is optional for other firms. See *BIPRU* 1.2 for the definition of the trading book..

Column B should contain the total (in this regard, it differs from the layout in FSA001).

1B Financial and operating income

This is the total of financial and operating income, which is broken down in more detail in elements 2B, 7B, 15B and 20B to 24B.

Where firms can allocate financial and operating income to the trading book, this should be reported in 1A. Firms that intend to include 'net interim trading book profit and loss' in element 61A of FSA003 should be able to identify the trading book portion separately here.

2B Interest income

Include both interest actually received and interest receivable which has accrued but has not yet been received. Amounts accrued should be based on the latest date to which these

calculations were made; thus for an institution which accrues profits on a daily basis, accruals should include amounts up to and including the reporting date.

Elements 3B to 6B break this down in more detail, but only 4B and 6B are likely to be relevant for *BIPRU investment firms*.

Firms should use their best endeavours to allocate interest income according to the categories shown, and should adopt a consistent approach on each reporting date.

3B Of which: Retail secured loans

This is unlikely to be relevant for *BIPRU investment firms*.

This part of interest income comprises interest received or receivable from any secured lending to retail customers. Firms may use their best estimate to derive this figure, as long as the approach is applied consistently at each reporting date.

4B Of which: Retail unsecured loans (including bank deposits)

For *BIPRU investment firms*, this will include interest paid by banks or building societies on deposits with them.

For deposit takers, this comprises interest received or receivable from retail customers other than on secured lending or card accounts. It includes overdrafts. Firms may use their best estimate to derive this figure, as long as the approach is applied consistently at each reporting date.

Any interest from credit or charge cards should be included in data element 5B.

5B Of which: Card accounts

This is unlikely to be relevant for *BIPRU investment firms*.

This includes any interest received on charge cards accounts. Firms may use their best estimate to derive this figure, as long as the approach is applied consistently at each reporting date.

6B Of which: Other

This comprises all other interest received and receivable and will include all interest receivable on bonds, floating rate notes (FRNs) and other debt instruments as well as interest receivable on repos / reverse repos.

Receipts from security lending / borrowing should only be included when cash collateral is involved – other income from security lending / borrowing should be classified as fees. Exclude any interest paid relating to interest rate swaps, which should be reported under data element 14B.

It also comprises any interest received not reported in items 3B to 5B.

7B Fee and commission income

This covers all fee and commission income, and is broken down in more detail in elements 8B to 14B below. If a firm cannot allocate the income in a precise manner, it should allocate

the income on a best endeavours basis, which should be consistently applied on each reporting date.

Firms should use their best endeavours to allocate fee and commission income according to the categories shown, and should adopt a consistent approach on each reporting date.

8B Of which: Gross commission and brokerage

Include commission and brokerage earned by the firm, before the deduction of commissions shared or paid to third parties (these commissions paid to others should be reported in 32B). It will include income from the provision of foreign exchange facilities.

9B Of which: Performance fees

This will include incentive fees received by the firm.

10B Of which: Investment management fees

Include all underwriting fees and commissions, and fees and commissions from valuations, management of investments and unit trusts and pension funds.

11B Of which: Investment advisory fees

Include all fees arising from investment advice.

12B Of which: Corporate finance

Include all income earned by the firm from corporate finance business.

13B Of which: UCITS management fees

This covers income earned through the management of UCITS.

14B Of which: Other fee and commission income

Report here any other fee and commission income not reported in data elements 8B to 13B.

15B Trading income (losses)

A net loss should be shown with a minus sign to indicate a negative figure.

This is further broken down in elements 16B to 19B.

Firms should use their best endeavours to allocate trading income (losses) according to the categories shown, and should adopt a consistent approach on each reporting date.

16B of which: Trading investments

This portion of 15B includes all profits or losses (including revaluation profits or losses) on investments held for dealing. This will generally exclude profits or losses arising from the sale of investments in subsidiary or associated companies, trade investments or the amortisation of premiums or discounts on the purchase of fixed maturity investments.

17B of which: Charges on UCITS sales / redemptions

This is that part of 15B (dealing profits/losses) arising from charges made to clients for UCITS sales or redemptions.

18B of which: Foreign exchange

This is unlikely to be relevant for *BIPRU investment firms*.

This part of 15B includes revaluations of foreign exchange positions, but excludes fees and commissions relating to foreign exchange business (which should be included under data element 8B).

19B Other trading income (losses)

Report here any other trading income not reported in data elements 16B to 18B.

20B Gains (losses) arising from non-trading instruments

This element is unlikely to be relevant for *BIPRU investment firms*.

Includes gains (losses) arising from non-trading instruments designated at initial recognition to be measured at fair value through profit and loss (FVTPL), commonly referred to as the 'fair value option'.

21B Realised gains (losses) on financial assets & liabilities (other than HFT and FVTPL)

This element is unlikely to be relevant for *BIPRU investment firms*.

This should include gains (losses) on financial assets and liabilities (other than those held for trading ('HFT') or those measured at fair value through profit and loss ('FVTPL')).

22B Dividend income

This includes dividend income on all equity investments.

23B Other operating income

This is unlikely to be relevant for *BIPRU investment firms*.

It includes property rentals and increases in respect of linked liabilities.

24B Gains (losses) on disposals of HFS non-current assets & discontinued operations

This is unlikely to be relevant for *BIPRU investment firms*.

Includes gains (losses) on non-financial items which are 'held for sale' as defined in IFRS 5.

25B Financial & operating charges

This is the total of the firm's operating charges that are broken down in more detail in elements 26B, 32B and 33B.

Where firms can allocate financial and operating charges to the trading book, this should be reported in 25A.

26B Interest paid

This is broken down in further detail in 27B to 31B. Firms should use their best endeavours to allocate interest paid according to the categories shown, and should adopt a consistent approach on each reporting date.

For *BIPRU investment firms*, this is likely to be limited to interest paid, or overdraft charges paid, to banks (also detailed in 27B) or on intra-group loans (detailed in 30B).

Include both interest actually paid and interest payable which has accrued but has not yet been paid.

27B Of which: Bank and building society deposits

In the case of *BIPRU investment firms*, this will include interest payments to banks for loans or overdrafts.

For deposit takers, this will include all interest paid on balances placed by banks, building societies or other financial institutions.

28B Of which: Retail deposits

This will not be relevant for *BIPRU investment firms*.

Deposit takers will include here all interest paid on balances placed by retail customers.

29B Of which: Corporate deposits

This will not be relevant for *BIPRU investment firms*.

Deposit takers will include here all interest paid on balances placed by non-bank, non-connected corporate customers.

30B Of which: Intra-group deposits

This will only be relevant for *BIPRU investment firms* that have borrowed money from other group companies.

Deposit takers will include all interest paid on balances placed by group companies.

31B Of which: On other deposits

This will not be relevant for *BIPRU investment firms*.

Deposit takers will include all interest paid on all other balances not reported in 27B to 30B.

32B Fees and commissions expenses

Include commissions paid or shared with other firms, plus fees, brokerage and other charges paid in relation to the execution, registration or clearing of transactions.

33B Other operating expenses

Include here other expenses (that are not identified elsewhere) that arise in the course of undertaking the firm's activities. However, costs such as electricity and rent should be reported under 38B (general administrative expenses).

34B Other costs

This is the total of other costs and charges that are detailed in items 35B and 38B to 43B below.

Where firms can allocate other costs to the trading book, this should be reported in 34A.

35B Staff expenses

This is the total of the costs broken down in 36B and 37B.

It should exclude general staff benefits, such as subsidised restaurants, which should be included in general administrative expenses in 38B.

36B Of which: Staff costs (ie non-discretionary)

Include salary costs, employer's national insurance contributions and social security costs, the employer's contribution to any pension scheme, and benefits in kind.

37B Of which: Charges for discretionary staff costs

Include discretionary bonuses and profit/performance share and share option schemes.

38B General administrative expenses

This includes rates, rent, insurance of building, lighting, heating, depreciation and maintenance costs. Also include marketing, communications, professional fees including auditor's remuneration and other general overheads of the business.

39B Depreciation and amortisation

This covers the depreciation of property, plant and equipment and includes amortisation of intangibles.

40B Impairment/provisions

This is the total cost of impairment charges and provisions made.

41B Other charges

This will include operating lease rentals.

42B Share of profit (losses) of associates

Firms reporting on a solo or unconsolidated basis should include the dividends from other group companies only.

43B Exceptional items

Include here any significant items which are separately disclosed in your accounts by virtue of their size or incidence to enable a full understanding of the group's financial performance. Transactions which may give rise to exceptional items may include gains or losses on disposal of investments, subsidiaries and early termination of debt instruments. Details relating to these amounts should be provided in data element 48A.

44B Profit (loss) before tax

This is the total financial and operating income (data element 1) less the financial and operating charges (25), and other costs (34). If the profit attributable to the trading book can be calculated, it should be reported in 44A.

45B Tax charge (income)

This comprises current tax charge (income) and deferred tax charge (income). Include any adjustments recognised in the period for current tax of prior periods. It may also include the amount of deferred tax charge (income) relating to the origination and reversal of temporary differences.

46B Net profit (loss)

This is the total profit (loss) after tax, before accounting for any minority interests (which only get reported on FSA003).

Memorandum items**47B Dividends paid during year**

Only those dividends paid in the period should be reported here.

48A Details of exceptional items

Please provide details of any amounts included in data item 43B.

FSA002 – Income statement validations

Internal validations

Data elements are referenced by row then column.

Validation number	Data element		
1	1B	=	2B + 7B + 15B + 20B + 21B + 22B + 23B + 24B
	1A	≤	1B
2	2B	=	3B + 4B + 5B + 6B
3	7B	=	8B + 9B + 10B + 11B + 12B + 13B + 14B
4	15B	=	16B + 17B + 18B + 19B
5	25B	=	26B + 32B + 33B
6	25A	≤	25B
7	26B	=	27B + 28B + 29B + 30B + 31B
8	34B	=	35B + 38B + 39B + 40B + 41B + 42B + 43B
	34A	≤	34B
9	35B	=	36B + 37B
10	39B	=	40B + 41B
11	44A	=	1A – 25A – 34A
12	44B	=	1B – 25B – 34B
13	46B	=	44B – 45B

External validations

There are no external validations for this data item.

FSA003 – Capital adequacy

This data item provides the FSA with information on the solvency of the firm. The data item is intended to reflect the underlying prudential requirements contained in *GENPRU* and *BIPRU* and allows monitoring against the requirements set out there and also those individual requirements placed on firms. We have provided references to the underlying rules to assist in its completion.

This data item is largely based on CEBS' COREP Table CA¹, but reflects the rules and wording in the Handbook, omits elements which are not in our view relevant in the UK, and combines some other elements. The numbers in parenthesis and italics show the corresponding element(s) in CEBS Table CA and are only provided for information purposes to identify the linkage to the CEBS' data.

The data item is designed to be applicable to all *BIPRU firms*. For that reason, the initial elements identify the capital rules which will apply to certain firms (see *GENPRU* 2.1.40R onwards). Also relevant are the waivers which investment firms may have under *BIPRU* TP 5.1R or *BIPRU* 6.1.2G, so these are also identified. In the text below, we have identified where elements are not applicable to all firms.

Columns A and B

There are two different measures of capital resources. For the purposes of the capital resources requirement under *GENPRU* 2.1.40R onwards and for disclosure purposes under *BIPRU* 11, it is calculated and set out in Column B of this data item. This column excludes stage C in the capital resources calculation set out in *GENPRU* 2 Annexes 2R, 3R, 4R, 5R and 6R. For the purposes of *GENPRU* 2.2.17R, capital resources are set out in Column A. The difference between them is in relation to innovative tier one capital (ie Stage C) which, for the purposes of *GENPRU* 2.1.9R, cannot be included (*GENPRU* 2.2.42R).

Valuation

For the general policy on valuation, please see the rules and guidance set out in *GENPRU* 1.3.

Consolidated reports

For calculating capital resources in elements 15 to 68, the group should be treated as a single entity.

However, for calculating the variable capital requirements in elements 70 to 104, the default method of consolidation is aggregation, adding up the solo numbers of the entities included where deemed equivalent in Annex 6 of *BIPRU* 8. Alternatively, the group can be treated as a single entity, using that method on its own or partially in conjunction with aggregation.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

¹ www.c-eps.org/documents/GL04_CA.xls

1A Is the firm a UK bank or a building society?

This box should be ticked if the report is being completed by a *UK bank* or a *building society*, or a *UK consolidation group* that is subject to the capital rules at Stage 1 of *BIPRU 8 Annex 5R*.

2A Is the firm a full scope BIPRU investment firm?

This box should be ticked if the report is being completed by either a *full scope BIPRU investment firm*, or a *UK consolidation group* that is subject to the capital rules at Stage 2 of *BIPRU 8 Annex 5R*. A *BIPRU limited licence firm* or *BIPRU limited activity firm* that has a waiver under *BIPRU 6.1.2G* or has a variation of *permission* to be treated as a *full scope BIPRU investment firm* should also tick here.

3A Is the firm a BIPRU limited activity firm?

This box should be ticked if the report is being completed by either a *BIPRU limited activity firm*, or a *UK consolidation group* that is subject to the capital rules at Stage 3 of *BIPRU 8 Annex 5R*. A *BIPRU limited activity firm* that has a waiver under *BIPRU 6.1.2G* or has a variation of *permission* to be treated as a *full scope BIPRU investment firm* should tick 2A, unless the waiver or variation had not been granted at the reporting date.

4A Is the firm a BIPRU limited licence firm?

This box should be ticked if the report is being completed by either a *BIPRU limited licence firm*, or a *UK consolidation group* that is subject to the capital rules at Stage 4 of *BIPRU 8 Annex 5R*. *UCITS investment firms* should also tick this box. A *BIPRU limited licence firm* that has a waiver under *BIPRU 6.1.2G* or has a variation of *permission* to be treated as a *full scope BIPRU investment firm* should tick 2A, unless the waiver or variation had not been granted at the reporting date.

5A If you are a full scope BIPRU investment firm, do you meet the conditions in BIPRU TP 12.1R?

This is only relevant for a *full scope BIPRU investment firm*. Only tick this box if you have a waiver under *BIPRU 6* that allows you to calculate your *operational risk capital requirement* in accordance with *BIPRU TP 12*.

6A Are you a BIPRU 730K firm?

This is only relevant if you are a *BIPRU investment firm*. Tick only if you meet the conditions in *BIPRU 1.1.21R*.

7A Are you a BIPRU 125K firm?

This is only relevant if you are a *BIPRU investment firm*. Tick only if you meet the conditions in *BIPRU 1.1.19R*. *UCITS investment firms* should see 8A.

8A Are you a UCITS investment firm?

This box should be ticked if the report is being completed by a *UCITS investment firm*.

9A Are you a BIPRU 50K firm?

This is only relevant if you are a *BIPRU investment firm*. Tick here if you meet the conditions set out in *BIPRU 1.1.20R*.

10A Do you have a waiver from consolidated supervision?

This is only relevant if you are a *BIPRU investment firm*. Tick only if your firm has a waiver from consolidated supervision under *BIPRU 8.4*.

11A Have you notified the FSA, at least one month in advance of the date of this report, that you intend to deduct illiquid assets?

This is only relevant if you are a *BIPRU investment firm*. See *GENPRU 2.2.19R*.

12A Basis of reporting

Firms should enter whether the report is on an unconsolidated basis, solo-consolidated basis, or consolidated basis. If the report is on behalf of a *UK consolidation group* (see *BIPRU 8.4*), firms should also complete 13A, 13B, 14A and 14B.

13A For consolidated reporting, please provide the Group reference number

If 12A is completed as a consolidated report, then please enter the group reference number here.

13B For consolidated reporting, please provide the Group name

If 12A is completed as a consolidated report, then please enter the group name here.

14A For consolidated reporting, please provide the FSA FRNs

List here the FSA firm reference numbers for all FSA authorised firms included within the *UK consolidation group*.

14B For consolidated reporting, please provide the names of the firms included

List here the names (against the FRN) of all FSA authorised firms included within the *UK consolidation group*.

15A Total capital after deductions

Firms should see *GENPRU 2.2.42R* and *GENPRU 2.2.43G* for details of those purposes for which *innovative tier one capital* may be used. In other circumstance, firms should use the *capital resources* figures calculated in column B, which excludes *innovative tier one capital*.

This is equivalent to stage T in:

- *GENPRU 2 Annex 2R*, for a *UK bank*;
- *GENPRU 2 Annex 3R*, for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

This is the capital resources figure that is used under *BIPRU 10.5.4R* for calculating a firm's CNCOM.

[*CEBS' CA 1*]

15B Total capital after deductions

This is equivalent to 15A, but excludes stage C (in *GENPRU 2 Annexes 2R, 3R, 4R, 5R and 6R*). It will only differ from 15A if the firm has issued *innovative tier one capital*.

16A Total tier one capital after deductions

Equivalent to stage F in:

- *GENPRU 2 Annex 2R* for a *UK bank*;

- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

See *GENPRU 2.2.9G* and *GENPRU 2.2.10G*. [CEBS' CA 1.1]

16B Total tier one capital after deductions

This is equivalent to 16A, but reflecting *GENPRU 2.2.42R* and *GENPRU 2.2.43G*. It will only differ from 16A if the firm has issued *innovative tier one capital*.

17A Core tier one capital

This element is equivalent to stage A in

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

[CEBS' CA 1.1.1 less 1.1.1.2]

17B Core tier one capital

This will have the same value as 17A.

18A Permanent share capital

See *GENPRU 2.2.83R*. This excludes preference shares and *PIBS* (see 25A below).

[CEBS' CA 1.1.1.1]

19A Profit and loss account and other reserves

See *GENPRU 2.2.85R* to *GENPRU 2.2.90R*, but excluding interim net losses reported in 20A below.

[CEBS' CA 1.1.2.1]

20A Interim net losses

See *GENPRU 2.2.85R*. *UK banks* and *building societies* should include all losses for the current financial year. In the case of *BIPRU investment firms*, only material interim net losses should be reported.

[CEBS' CA 1.1.2.4]

21A Eligible partnership, LLP or sole trader capital

This includes *eligible partnership capital*, *eligible LLP members' capital* and *sole trader capital*. See *GENPRU 2.2.93R* to *GENPRU 2.2.95R*. Excludes *PIBS* and *innovative tier one instruments*, which are reported in 24A below.

[CEBS' CA 1.1.1.4]

22A Share premium account

See *GENPRU 2.2.101R*.

[*CEBS' CA 1.1.1.3*]

23A Externally verified interim net profits

Only include here those profits which have been externally verified at the reporting date. (Profits for the year which have been externally verified between the reporting date and the submission date should be reported in 124A.) See *GENPRU 2.2.102R* and *GENPRU 2.2.103G*.

[*CEBS' CA 1.1.2.3*]

24A Other tier one capital, subject to limits

[*CEBS' CA 1.1.4*]

24B Other tier one capital, subject to limits

This will have the same value as in 24A. (Although innovative tier one capital is not included for CRR purposes, it is included here and the disallowable portion is reported in 31B.)

25A Perpetual non-cumulative preference shares

This data element (after deduction of data element 30A) is equivalent to Stage B in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

It includes perpetual non-cumulative preference shares (see *GENPRU 2.2.109R*) and *PIBS* (see *GENPRU 2.2.111R*). See also *GENPRU TP 8.2R* to *GENPRU TP 8.6R*.

[*CEBS' CA 1.1.4.1*]

26A Innovative tier one instruments subject to limit

See *GENPRU 2.2.113R* to *GENPRU 2.2.137R*, before the application of *GENPRU 2.2.30R*. Also see *GENPRU TP 8.7R*.

This data element (after deduction of data element 31A) is equivalent to Stage C in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

[*CEBS' CA 1.1.4.2*]

27A Deductions from tier one capital

This data element (excluding 30A and 31A) is equivalent to Stage E in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

27B Deductions from tier one capital

This figure will differ from 27A only if a firm has issued *innovative tier one instruments* in 26A.

28A Investments in own shares

See Stage E in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

[*CEBS' CA 1.1.1.2, but with the opposite sign*]

28B Investments in own shares

This is the same figure as in 28A.

29A Intangible assets

See *GENPRU 2.2.155R*.

[*CEBS' CA 1.1.5.1, but with the opposite sign*]

29B Intangible assets

This is the same figure as in 29A.

30A Excess on limits for non-innovative tier one instruments

The amount reported in 25A which is in excess of the limits set out in *GENPRU 2.2.29R*. See also *GENPRU 2.2.25R*.

[*CEBS' CA 1.1.5.2, but with the opposite sign*]

30B Excess on limits for non-innovative tier one instruments

This is the same figure as in 30A.

31A Excess on limits for innovative tier one instruments

The amount reported in 26A which is in excess of the limits set out in *GENPRU 2.2.30R*. See also *GENPRU 2.2.25R*. As set out in *GENPRU 2.2.25R* to *GENPRU 2.2.27R*, the excess is however available in *upper tier two capital* in 38A.

[*CEBS' CA 1.1.5.3, but with the opposite sign*]

31B Excess on limits for innovative tier one instruments

In line with *GENPRU 2.2.42R*, *innovative tier one capital* cannot be included in *tier one capital resources*. This figure equates to the whole of the firm's *innovative tier one capital* (26A) with the signs reversed. As set out in *GENPRU 2.2.25R* to *GENPRU 2.2.27R*, the capital is however available in *upper tier two capital* in 38B.

It gives effect to Note (3) in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

32A Excess of drawings over profits for partnerships, LLPs and sole traders

See *GENPRU 2.2.100R*.

[*Part of CEBS' CA 1.1.5.4.2, but with the opposite sign*]

32B Excess of drawings over profits for partnerships, LLPs and sole traders

This is the same figure as reported in 32A.

33A Net losses on equities held in the available-for-sale financial assets category

See *GENPRU 2.2.185R (2)*.

33B Net losses on equities held in the available-for-sale financial assets category

This is the same figure as reported in 33A.

34A Material holdings

This is only applicable to a *BIPRU investment firm* with a waiver from consolidated supervision.

See Note (4) to *GENPRU 2 Annex 6R* and also *GENPRU 2.2.208R* to *GENPRU 2.2.215R*.

34B Material holdings

This is the same figure as reported in 34A.

35A Total tier two capital after deductions

This is equivalent to Stage K in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;

- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

See *GENPRU 2.2.11G*.

[*CEBS' CA 1.2*]

35B Total tier two capital after deductions

This is broadly similar to 35A, except that it takes account of *GENPRU 2.2.42R* where a firm has *innovative tier one capital* that cannot be included in tier one.

36A Upper tier two capital, subject to limits

This data element (after deducting 44A and 46A) is equivalent to Stage G in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

[*CEBS' CA 1.2.1*]

36B Upper tier two capital, subject to limits

This data element (after deducting 44B and 46B) is equivalent, after taking account of *GENPRU 2.2.42R* where a firm has *innovative tier one capital*, to Stage G in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

37A Excess on limits for tier one capital transferred to upper tier two capital

See *GENPRU 2.2.25R* to *GENPRU 2.2.27R*. This will not exceed the sum of 30A and 31A.

[*CEBS' CA 1.2.1.1*]

37B Excess on limits for tier one capital transferred to upper tier two capital

As 37A, but includes all *innovative tier one capital* as none of it could be included in *tier one capital resources* as a result of *GENPRU 2.2.42R*. This will not exceed the sum of 30B and 31B.

38A Upper tier two capital instruments, subject to limits

Report here perpetual cumulative preference shares, perpetual subordinated debt and perpetual subordinated securities. See *GENPRU 2.2.159R* to *GENPRU 2.2.193R*. See also *GENPRU TP 8.8R*.

[CEBS' CA 1.2.1.6]

38B Upper tier two capital instruments, subject to limits

This is the same figure as reported in 38A.

39A Revaluation reserve

See *GENPRU 2.2.185R*.

[CEBS' CA 1.2.1.3]

39B Revaluation reserve

This is the same figure as reported in 39A.

40A General/collective provisions

See *GENPRU 2.2.197R* to *GENPRU 2.2.189R*.

[CEBS' CA 1.2.1.5]

40B General/collective provisions

This is the same figure as reported in 40A.

41A Surplus provisions

This includes surplus provisions in accordance with *GENPRU 2.2.190R* to *GENPRU 2.2.193R*.

[CEBS' CA 1.2.1.7]

41B Surplus provisions

This is the same figure as reported in 41A.

42A Lower tier two capital

This is equivalent to Stage H at:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

[CEBS' CA 1.2.2]

42B Lower tier two capital

This figure will differ from 42A if the firm had any *innovative tier one capital* reported in 26A.

43A Lower tier two capital instruments subject to limits

Includes fixed term preference shares, long term subordinated debt (after amortisation) and fixed term subordinated securities.

See *GENPRU 2.2.159R* to *GENPRU 2.2.174R* and *GENPRU 2.2.194R* to *GENPRU 2.2.196R*.

[CEBS' CA 1.2.2.2]

43B Lower tier two capital instruments subject to limits

This is the same figure as reported in 43A.

44A Excess on limits for lower tier two capital

The amount reported in 43A that is in excess of the limits set out in *GENPRU 2.2.46R (2)*.

[CEBS' CA 1.2.2.5, but with the sign reversed]

44B Excess on limits for lower tier two capital

The amount reported in 43B that is in excess of the limits set out in *GENPRU 2.2.46R (2)*. If the firm has not reported *innovative tier one capital instruments* in 26A, this number will be the same as 44A.

45A Deductions from tier two capital

This data element (excluding 46A) is equivalent to Stage J in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

[CEBS' CA 1.2.3, but with the sign reversed]

45B Deductions from tier two capital

If the firm has not reported *innovative tier one instruments* in 26A, this number will be the same as 45A.

Otherwise, this data element (excluding 46B) is equivalent to Stage J (after taking account of Note (3)) in:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

46A Excess on limits for tier two capital

The amounts reported in 36A and 42A in excess of the limits set out *GENPRU 2.2.46R (1)*.

[CEBS' CA 1.2.3.1, but with the sign reversed]

46B Excess on limits for tier two capital

If the firm has not reported *innovative tier one instruments* in 26A, this number will be the same as 46A. Otherwise it is the amounts reported in 36B and 42B in excess of the limits set out *GENPRU 2.2.46R (1)*.

47A Other deductions from tier two capital

Do not report here certain additional deductions made under *GENPRU 2.2.239R* (3) and (4). *BIPRU investment firms* with a waiver from consolidated supervision should see Note (5) of Part 2 of *GENPRU 2 Annex 6R*.

[*CEBS' CA 1.2.3.2, but with the sign reversed*]

47B Other deductions from tier two capital

This is the same figure as reported in 47A.

48A Deductions from total of tiers one and two

This is equivalent to Stage M of:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

[*CEBS' CA 1.3 minus 1.3.10, but with the sign reversed*]

48B Deductions from total of tiers one and two

This is the same figure as reported in 48A.

49A Material holdings

This is not relevant for a *BIPRU investment firm* that deducts *illiquid assets* under *GENPRU 2.2.19R*.

BIPRU investment firms that have a waiver from consolidated supervision should see Note (5) of Part 2 of *GENPRU 2 Annex 6R*, as well as *GENPRU 2.2.208R* to *GENPRU 2.2.215R*.

BIPRU firms other than those already mentioned should see *GENPRU 2.2.208R* to *GENPRU 2.2.215R*.

Firms should also note the transitional arrangements for material insurance holdings in *GENPRU TP 7*.

[*CEBS' CA 1.3.1, 1.3.2, 1.3.4, and 1.3.5, but with the signs reversed*]

50A Expected loss amounts and other negative amounts

See *GENPRU 2.2.236R*.

[*CEBS' CA 1.3.8, but with the sign reversed*]

51A Securitisation positions

See *GENPRU 2.2.237R*.

[*CEBS' CA 1.3.7, but with the sign reversed*]

52A Qualifying holdings

This is only relevant for *UK banks* and *building societies*.

See *GENPRU 2.2.202R* to *GENPRU 2.2.207R*.

[CEBS' CA 1.3.9, but with the sign reversed]

53A Contingent liabilities

This is only relevant for a *BIPRU investment firm* with a waiver from consolidated supervision. These firms should see Note (6) to Part 2 of *GENPRU 2 Annex 6R*.

[Part of CEBS' CA 1.3.11]

54A Reciprocal cross holdings

See *GENPRU 2.2.217R* to *GENPRU 2.2.220R*.

[CEBS' CA 1.3.3, but with the sign reversed]

55A Investments which are not material holdings or qualifying holdings

This is only relevant for *UK banks* and *building societies*.

See Part 2 of Stage M in *GENPRU 2 Annex 2R* for *UK banks*, and *GENPRU 2 Annex 3R* for *building societies*.

56A Connected lending of a capital nature

This is only relevant for *UK banks*.

See *GENPRU 2.2.221R* to *GENPRU 2.2.233R*.

[Part of CEBS' CA 1.3.6, but with the sign reversed]

57A Total tier one capital plus tier two capital after deductions

This is equivalent to Stage N of:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

It is also the capital resources used under *BIPRU 10.5.3R* for the purposes of measuring large exposures.

[CEBS' CA 1.4 plus 1.5 minus 1.3.10]

57B Total tier one capital plus tier two capital after deductions

This may differ from 57A if the firm reported *innovative tier one instruments* in 26A.

This is equivalent to Stage N of:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

Firms should note that if this figure is less than the *base capital resources requirement* (reported in data element 69A), the firm's *capital resources* are less than its *capital resources requirement*. See Note (2) in *GENPRU 2 Annexes 2R, 3R, 4R, 5R and 6R*.

[*CEBS' CA 1.4 plus 1.5 minus 1.3.10*]

58A Total tier three capital

This is equivalent to Stage Q of:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

58B Total tier three capital

This is broadly similar to 58A, except that it takes account of *GENPRU 2.2.42R* where a firm has *innovative tier one capital* that cannot be included in tier one.

59A Excess on limits for tier two capital transferred to tier three capital

See *GENPRU 2.2.25R* to *GENPRU 2.2.27R*. This will be no greater than the sum of 44A and 46A.

59B Excess on limits for tier two capital transferred to tier three capital

See *GENPRU 2.2.25R* to *GENPRU 2.2.27R*. This will be no greater than the sum of 44B and 46B. If the firm has not reported *innovative tier one instruments*, the figure should be the same as 59A.

60A Short term subordinated debt, subject to limits

See *GENPRU 2.2.241R* to *GENPRU 2.2.245R*

[*CEBS' CA 1.6.3*]

60B Short term subordinated debt, subject to limits

This figure will be the same as 60A.

[*CEBS' CA 1.6.3*]

61A Net interim trading book profit and loss

See *GENPRU 2.2.246R* to *GENPRU 2.2.249R*.

[*CEBS' CA 1.6.2*]

61B Net interim trading book profit and loss

This figure will be the same as 61A.

[*CEBS' CA 1.6.2*]

62A Excess on limit for tier three capital

The amount reported in 59A, 60A and 61A in excess of the limits set out in *GENPRU 2.2.49R* to *GENPRU 2.2.50R*.

[CEBS' CA 1.6.5, but with the sign reversed]

62B Excess on limit for tier three capital

The amount reported in 59B, 60B and 61B in excess of the limits set out in *GENPRU 2.2.49R* to *GENPRU 2.2.50R*. It will only differ from 62A if the firm has reported *innovative tier one capital* in 26A.

63A Unused but eligible tier three capital (memo)

See *GENPRU 2.2.47R*.

This is data element 58A less the amount shown in data element 92A. If the result is negative, enter 0. This is the surplus tier three capital which may only be used for the purposes set out in *BIPRU 2.2.47R*.

[CEBS' CA 1.6.7]

63B Unused but eligible tier three capital (memo)

See *GENPRU 2.2.47R*.

This is the sum of data elements 58B less the amount shown in data element 92A. If the result is negative, enter 0. This is the surplus tier three capital which may only be used for the purposes set out in *BIPRU 2.2.47R*.

It may differ from 63A if the firm has reported *innovative tier one capital* in 26A.

64A Total capital before deductions

This is equivalent to Stage R of:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

64B Total capital before deductions

This figure will differ from 64A if the firm had any innovative tier one capital reported in 26A.

65A Deductions from total capital

This is equivalent to Stage S of:

- *GENPRU 2 Annex 2R* for a *building society*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

[CEBS' CA 1.7]

65B Deductions from total capital

This will be the same value as reported in 65A.

66A Excess trading book position

This is only relevant for *UK banks* and *building societies*.

See *GENPRU 2.2.263R* to *GENPRU 2.2.265R*.

67A Illiquid assets

This is only relevant for a *BIPRU investment firm* deducting *illiquid assets* under *GENPRU 2.2.19R*, or a *BIPRU investment firm* with a waiver from consolidated supervision.

See *GENPRU 2.2.259R* to *GENPRU 2.2.260R*.

68A Free deliveries

See *BIPRU 14.4*.

69A Base capital resources requirement

Enter here the firm's *base capital resources requirement*, converted into the currency of reporting. See *GENPRU 2.1.41R* to *GENPRU 2.1.43G*, *GENPRU 2.1.47R* and *GENPRU 2.1.48R*. *UK banks* authorised before 1993 should also see *GENPRU 2.1.60R* to *GENPRU 2.1.62R*.

If the report is for a *UK consolidation group*, this should be zero – see *BIPRU 8.3.6R*.

70A Total variable capital requirement

This is the variable capital requirement of the firm or *UK consolidations group*, as calculated in 71A to 74A below. Each firm (or *UK consolidation group*) will only fill in one variable capital requirement which will have the correct method of calculating the variable capital requirement in accordance with *GENPRU 2.1.45R* and *GENPRU 2.1.46R* and any relevant waivers or treatment identified through the responses to data elements 5A, 10A and 11A above.

[*CEBS' CA 2*]

71A Variable capital requirement for banks and building societies

This is also relevant for a *UK consolidation group* that is subject to the capital requirements at Stage 1 of *BIPRU 8 Annex 5R*. This is the sum of the *credit risk capital requirement*, the *market risk capital requirement*, and the *operational risk capital requirement*.

72A Variable capital requirement for full scope BIPRU investment firms

This is also relevant for a *UK consolidation group* that is subject to the capital requirements at Stage 2 of *BIPRU 8 Annex 5R*. This is the sum of the *credit risk capital requirement*, the *market risk capital requirement*, and the *operational risk capital requirement* less any reduction in the *operational risk capital requirement* under *BIPRU TP 12.1*.

[*Part of CEBS' CA 2a plus 2b plus 2c*]

73A Variable capital requirement for BIPRU limited activity firms

This is also relevant for a *UK consolidation group* that is subject to the capital requirements at Stage 3 of *BIPRU 8 Annex 5R*. This is the sum of the *credit risk capital requirement*, the *market risk capital requirement*, and the *fixed overheads requirement*.

[*Part of CEBS' CA 2a plus 2b plus 2c*]

74A Variable capital requirement for BIPRU limited licence firms

This is also relevant for a *UK consolidation group* that is subject to the capital requirements at Stage 4 of *BIPRU 8 Annex 5R*. This is the sum of the *credit risk capital requirement* and the *market risk capital requirement*, or the *fixed overheads requirement* if that is higher.

[Part of CEBS' CA 2a plus 2b plus 2c]

75A Variable capital requirement for UCITS investment firms

This is the sum of the *credit risk capital requirement* and the *market risk capital requirement*, or the *fixed overheads requirement* if that is higher.

UCITS investment firms should see *GENPRU 2.1.46R*.

[Part of CEBS' CA 2a plus 2b plus 2c]

76A Variable capital requirements to be met from tier one and tier two capital

See *BIPRU 2.2.44R*. This is the sum of the *credit risk capital component* (data element 77A), the *operational risk capital requirement* (data element 85A) and the *counterparty risk capital component* (data element 91A). It also includes that part of 92A that is not met from tier three capital alone (58A).

77A Total credit risk capital component

See *GENPRU 2.1.39R*, as modified if a firm has an IRB permission.

A further breakdown of this figure is provided quarterly in FSA004 for those firms that are required to report that data item.

[CEBS' CA 2.1]

78A Credit risk calculated by aggregation for UK consolidation group reporting

This is only relevant for *UK consolidation groups*, and then only if they calculate their *credit risk capital component* under *BIPRU 8.7.13R (2)*.

79A Credit risk capital requirements under the standardised approach

The *credit risk capital component* calculated under *BIPRU 3*, using the exposure classes set out in *BIPRU 3.2.9*.

This will agree with data element 1A on FSA004.

[CEBS' CA 2.1.1]

80A Credit risk capital requirements under the IRB approach

The *credit risk capital component* under *BIPRU 3* calculated in accordance with a firm's IRB permission to use the IRB approach and *BIPRU 4*.

[CEBS' CA 2.1.2]

81A Under foundation IRB approach

The *credit risk capital component* under *BIPRU 3* calculated in accordance with a firm's IRB permission to use the foundation IRB approach and *BIPRU 4*. This figure covers the following exposures classes:

- central government and central banks (*BIPRU 4.3.2R (1)*)
- institutions (*BIPRU 3.4.2R (2)*); and

- corporates (*BIPRU 3.4.2R (3)*).

This will agree to data element 18A on FSA004.

[*CEBS' CA 2.1.2.1*]

82A Retail IRB

This covers the *credit risk capital component* under *BIPRU 3* calculated in accordance with a firm's IRB permission to use the advanced IRB approach and *BIPRU 4*, and covers the retail exposure class (*BIPRU 3.4.2R (4)*).

This will agree to data element 23A on FSA004.

83A Under advanced IRB approach

The *credit risk capital component* under *BIPRU 3* calculated in accordance with a firm's IRB permission to use the advanced IRB approach and *BIPRU 4*. This figure covers the following exposure classes:

- central governments and central banks (*BIPRU 4.3.2R (1)*);
- institutions (*BIPRU 4.3.2R (2)*); and
- corporates (*BIPRU 4.3.2R (3)*).

This will agree to data element 28A on FSA004.

[*CEBS' CA 2.1.2.2 minus retail*]

84A Other IRB exposure classes

The *credit risk capital component* under *BIPRU 3* calculated in accordance with a firm's IRB permission to use the IRB approach and *BIPRU 4*. This figure covers the following exposure classes:

- equity claims (*BIPRU 4.3.2R (5)*);
- securitisation positions (*BIPRU 4.3.2R (6)*); and
- non credit-obligation assets (*BIPRU 4.3.2R (7)*).

This will agree to data element 33A on FSA004.

[*CEBS' CA 2.1.2.3 plus 2.1.2.4 plus 2.1.2.5*]

85A Total operational risk capital requirement

This is only relevant for *UK banks, building societies* and *full scope BIPRU investment firms*. It is also relevant for any *BIPRU limited activity firm* or *BIPRU limited licence firm* that has a waiver under *BIPRU 6.1.2G* (to apply an *ORCR* rather than a fixed overheads requirement).

See *BIPRU 6*.

A *full scope BIPRU investment firm* that meets the conditions set out in *BIPRU TP 5.1R* should enter here the full *ORCR* that would have applied but for *BIPRU TP 5.7R*. The reduction as a result of that rule should be reported in data element 90A.

A further breakdown of this figure is provided in FSA007 for firms on the standardised approach, alternative standardised approach or the advanced models approach.

[*CEBS' CA 2.4*]

86A Operational risk calculated by aggregation for UK consolidation group reporting

This is only relevant for *UK consolidation groups* completing data element 89A, and then only if they calculate their *operational risk capital requirement* under *BIPRU* 8.7.13R (2).

87A Operational risk basic indicator approach

This is only relevant for those firms completing data element 85A.

See *BIPRU* 6.3.

[*CEBS' CA 2.4.1*]

88A Operational risk standardised/alternative standardised approach

This is only relevant for those firms completing data element 85A.

See *BIPRU* 6.4.

This will agree to data element 15A on FSA007.

[*CEBS' CA 2.4.2*]

89A Operational risk advanced measurement approaches

This is only relevant for those firms completing data element 85A.

See *BIPRU* 6.5.

This will agree to data element 15B on FSA007.

[*CEBS' CA 2.4.3*]

90A Reduction in operational risk capital requirement under *BIPRU* TP 12.1R.

This is only relevant for a *full scope BIPRU investment firm* that satisfies the conditions set out in *BIPRU* TP 12.1R.

Firms should report here the amount by which the *ORCR* reported in data element 85A is reduced as a result of the calculation in *BIPRU* TP 12.1R (thus data element 85A less this data element will give the reduced *ORCR*).

[*CEBS' CA 2.6.2*]

91A Counterparty risk capital component

See *BIPRU* 14.1.3R.

[*CEBS' CA 2.2*]

92A Capital requirements for which tier three capital may be used

See *GENPRU* 2.2.46R.

This comprises the data elements that are relevant for calculating the variable capital requirement for your firm (see *GENPRU* 2.2.47R) from the data elements 93A (*market risk capital requirement*), 103A (*concentration risk capital component*) and 104A (*fixed overheads requirement*).

93A Total market risk capital requirement

See *BIPRU* 7 and also *GENPRU* 2.2.46R.

A further breakdown of this figure (less 94A in the case of *UK consolidation group* reports) is provided in FSA005 for firms that meet the reporting thresholds defined in *SUP* 16.12.5R

(note 4), *SUP* 16.12.11R (note 4), *SUP* 16.12.15R (note 4), *SUP* 16.12.22R (note 4) and *SUP* 16.12.25R (note 4).

[*CEBS' CA* 2.3]

94A Market risk capital requirement calculated by aggregation for UK consolidation group reporting

This is only relevant for *UK consolidation groups*, and then only if they calculate their *market risk capital component* under *BIPRU* 8.7.13R (2).

95A Position, foreign exchange and commodity risks under TSA

See *BIPRU* 7.

[*CEBS' CA* 2.3.1]

96A Interest rate PRR

See *BIPRU* 7.1.7R to *BIPRU* 7.1.13E, *BIPRU* 7.2, *BIPRU* 7.3, *BIPRU* 7.6, *BIPRU* 7.9, *BIPRU* 7.11.12R and *BIPRU* 7.11.35R.

This will agree with data element 18G on FSA005.

97A Equity PRR

See *BIPRU* 7.1.7R to *BIPRU* 7.1.13E, *BIPRU* 7.3.48R and *BIPRU* 7.3.49G, *BIPRU* 7.6, *BIPRU* 7.9, *BIPRU* 7.11.12R and *BIPRU* 7.11.35R.

This will agree with data element 29G on FSA005.

[*CEBS' CA* 2.3.1.2]

98A Commodity PRR

See *BIPRU* 7.1.7R to *BIPRU* 7.1.13E, *BIPRU* 7.4 and *BIPRU* 7.9.

This will agree with data element 40G on FSA005.

[*CEBS' CA* 2.3.1.4]

99A Foreign currency PRR

See *BIPRU* 7.1.7R to *BIPRU* 7.1.13E, *BIPRU* 7.5, *BIPRU* 7.6 and *BIPRU* 7.9.

This will agree with data element 48G on FSA005.

[*CEBS' CA* 2.3.1.3]

100A CIU PRR

See *BIPRU* 7.1.7R to *BIPRU* 7.1.13E, *BIPRU* 7.6, *BIPRU* 7.7 and *BIPRU* 7.9.

This will agree with data element 55G on FSA005.

101A Other PRR

See *BIPRU* 7.1.7R to *BIPRU* 7.1.13E.

This will agree with data element 56G on FSA005.

102A Position, foreign exchange and commodity risks under internal models

See *BIPRU* 7.10.

This will agree with data element 61G on FSA005.

[CEBS' CA 2.3.2]

103A Concentration risk capital component

This is the CNCOM. See *BIPRU* 10.5.14R to *BIPRU* 10.5.21G for details of how this is calculated.

Figures appearing here should also appear on FSA008 under data element 5R for the same quarterly reporting date.

104A Fixed overheads requirement

This should only be completed by *BIPRU limited activity firms* and *BIPRU limited licence firms*. See *GENPRU* 2.1.41R to *GENPRU* 2.1.46G.

[CEBS' CA 2.5]

105A Capital resources requirement arising from capital floors

This is only relevant for a firm that has adopted the *IRB approach*. Firms should enter the capital resources required to equal or exceed the amounts defined in *BIPRU* TP 2 and *BIPRU* TP 2.3R in particular. When reporting, the scaling factors set out in *BIPRU* TP 2.3R should have been applied.

106A Surplus/deficit of own funds

This is 15A less 70A.

This should be a positive figure, showing the amount of excess capital over that required for the variable capital requirement measured at the reporting date, as well as any requirements.

[CEBS' CA 3.2]

106B Surplus/deficit of own funds

This is 15B less 70A.

This should be a positive figure, showing the amount of excess capital over that required for the risks measured at the reporting date, as well as any requirements.

Firms that have adopted the *IRB approach* for credit risk or *advanced measurement approach* for operational risk should also be monitoring data element 105A against 15B.

Firms should note that although this figure may show a surplus, if this figure reported in data element 57B is less than the *base capital resources requirement* (reported in data element 69A), the firm's *capital resources* are less than its *capital resources requirement*. See Note (2) in *GENPRU* 2 Annexes 2R, 3R, 4R, 5R and 6R.

This should be a positive figure and is the calculation required in *GENPRU* 2.1.40R.

107A Overall solvency ratio

This is 15A divided by 70A, multiplied by 100 and represents the firm's overall solvency.

[CEBS' CA 3.2.a]

107B Overall solvency ratio

This is 15B divided by 70A, multiplied by 100 and represents the firm's overall solvency for CRR purposes.

This ratio represents the firm's solvency in relation to its variable capital requirement under *GENPRU* 2.1.9R(1). In most cases, it may be the same as figure as appears in Column A, but

that will not be the case if data element 15 differs between Column A and Column B because of the different treatment of *innovative tier one instruments* (see *GENPRU 2.2.43R*).

108A Individual capital guidance – total capital resources

Enter the amount of total capital resources that the FSA considers the firm should hold in order to meet *GENPRU 1.2.26R* (adequate financial resources). This amount can be calculated from information provided in the most recent letter the firm has received from the *FSA* setting out Individual Capital Guidance (as described in *GENPRU 2.2.12G*). The amount should be calculated as at the same reporting date as all other information included in this data item. Where this data item is being used to report for a *UK consolidation group*, you should enter the total group capital resources indicated in the ICG letter which will typically be based on the group capital resources requirement (data element 15B) – see *BIPRU 2.2.19G*.

For the purposes of giving individual capital guidance, the FSA may distinguish between capital resources which can be used to meet all risks (general purpose capital, ie stage N in *GENPRU 2 Annexes 2R, 3R, 4R, 5R and 6R* as appropriate) and capital resources which can only be used to meet certain risks, for instance trading book risks. Total capital resources after deductions is defined in *GENPRU 2.2.12R* and is stage T in *GENPRU 2 Annexes 2R, 3R, 4R, 5R and 6R* as appropriate. The amount of total capital resources should be shown in data element 15B. See *GENPRU 2.2.16G*.

This data element should be used where an ICG letter provides guidance on the amount of total capital or is silent on the nature of the capital which can be used to meet the obligation in *GENPRU 1.2.26R*.

If no ICG has been set, firms should enter 0 here.

109A Individual capital guidance – general purpose capital

Enter the amount of general purpose capital that the FSA considers the firm should hold in order to meet *GENPRU 1.2.26R* (adequate financial resources). The amount should be calculated on the same basis set out for data element 15B, but refers only to general purpose capital rather than to total capital. If the firm's ICG letter does not provide guidance on the amount of general capital (or limited purpose capital) that the firm should hold or no ICG has been set for the firm, it should enter 0 here.

110A Surplus/(deficit) total capital over ICG

This is the amount in data element 15B (total capital resources) less the amount in data element 108A. However, if no ICG has been set and data element 108A is 0, this should also be 0.

111A Surplus/(deficit) general purpose capital over ICG

This is the amount in data element 57B less the amount in data element 109A. However, if no ICG has been set and data element 109A is 0, this should also be 0.

Memorandum items

112A Value of portfolio under management

This should only be provided by *UCITS investment firms*.

Prudential filters

Information on these data elements is required so that we can monitor their impact (or potential impact) on capital resources.

113A Unrealised gains on available-for-sale-equities

This is the amount of the gain related to available-for-sale equities included within revaluation reserves reported in 39A and 39B. See *GENPRU 2.2.185R(2)(b)*.

114A Unrealised gains (losses) on investment properties

This is the value of gains (losses) arising from revaluation reserves of investment properties that have been included within *capital resources*. See *GENPRU 2.2.185R(3)*.

115A Unrealised gains (losses) on land and buildings

This is the value of gains (losses) arising from revaluation reserves of land and buildings that have been included within *capital resources*. See *GENPRU 2.2.185R(4)*.

116A Unrealised gains (losses) on debt instruments held in the available-for-sale category

This is the unrealised gains (losses) on debt instruments held in the available-for-sale category that are excluded from *capital resources*. See *GENPRU 1.3.36R(2)(b)*.

117A Unrealised gains (losses) on cash flow hedges of financial instruments

This is the fair value reserves related to gains (losses) on cash flow hedges of financial instruments measured at amortised cost that are excluded from *capital resources*. See *GENPRU 1.3.36R(2)(a)*.

118A Unrealised gains (losses) on fair value financial liabilities

This is the value of unrealised gains (losses) on liabilities designated as at fair value that are excluded from *capital resources*. See *GENPRU 1.3.9R(1)*.

119A Defined pension benefit (liability)

This is the value of any *defined benefit asset (defined benefit liability)*, in respect of a *defined benefit occupational pension scheme*, that has been excluded from *capital resources*. See *GENPRU 1.3.9R(2)*.

120A (Deficit reduction amount) if used

This is the value of any *deficit reduction amount* substituted for a *defined benefit liability* in respect of a *defined benefit occupational pension scheme*. See *GENPRU 1.3.9R(2)(b)*.

121A Deferred acquisition costs (deferred income)

This is the value of assets in respect of deferred acquisition costs (DACs) (liabilities in respect of deferred income – DIRs) that have been excluded from *capital resources*. See *GENPRU 1.3.36R(3)*.

Minority interests

These are included indistinguishably within capital resources.

122A Minority interests included within capital resources

Report here the amount of minority interests included indistinguishably in the components of capital resources. See *BIPRU 8.6.8R* to *BIPRU 8.6.16R*.

123A Of which: innovative tier one instruments

Report here the amount of innovative tier one instruments that are included within minority interests (122A) and also within innovative tier one capital in 26A. See *BIPRU* 8.

Profits

Capital resources calculated above should only include in tier one profits that have been externally verified at the reporting date. This section captures information on profits at the reporting date that have subsequently been verified.

124A Profits not externally verified at the reporting date but subsequently have been

Enter here the amount of profits (for the financial year covered by the reporting date) which were not externally verified at the reporting date but which have subsequently been verified. This amount should not be included within 23A. Also, do not include here any amount already reported in 23A.

This data element may be zero if no profits have been verified between the reporting date and the submission date.

125A Total capital after deductions, including externally verified profits

This figure should be a firm's alternative calculation of data element 15B, based on the figure in 124A being included within tier one capital. It will not necessarily be equivalent to 15B plus 124A, because other components of the capital resources calculation may also have been revised following the external verification.

This cell should be zero if data element 124A is zero.

Allocation of deductions between tiers one and two capital

126A Material insurance company holdings excluded from allocation

This is the value of material insurance holdings (included within 49A) that are not allocated to tier one and two capital under *GENPRU* TP 7.

127A Allocated to tier one capital

Firms should allocate the sum of data elements 49A, 50A and 51A less 126A between tier one capital and tier two capital. See *GENPRU* 2.2.239R(3) and *GENPRU* 2.2.239R(4).

128A Allocated to tier two capital

Firms should allocate the sum of data elements 49A, 50A and 51A less 126A between tier one capital and tier two capital. See *GENPRU* 2.2.239R(3) and *GENPRU* 2.2.239R(4).

Firms on IRB/AMA approaches

129A Total capital requirement under pre-CRD rules

This is only relevant for those firms that have adopted the approaches in *BIPRU* 4 (IRB) or *BIPRU* 6.5 (AMA) for the calculation of their capital requirements.

Firms should report the total capital requirement calculated under whichever part of *IPRU* applies under *BIPRU* TP 1.4R.

130A Total credit risk capital component under pre-CRD rules

This is only relevant for those firms that have adopted the approaches under *BIPRU* 4 (IRB) for the calculation of their capital requirements.

Firms should report the credit risk capital component under whichever part of *IPRU* applies under *BIPRU* TP 1.4R.

131A Expected loss amounts – wholesale, retail and purchased receivables

This is only relevant for firms that have adopted the approaches under *BIPRU* 4 (IRB) for the calculation of their capital requirements.

This is the amount for exposures to sovereigns, institutions, corporate IRB, specialised lending and retail, and for purchased receivables, that result from the calculations under *BIPRU* 4.3.6R (1), (2) and (4).

132A Expected loss amounts – equity

This is only relevant for firms that have adopted the approaches under *BIPRU* 4 (IRB) for the calculation of their capital requirements.

This is the amount for exposures to equities that result from the calculations under *BIPRU* 4.3.6R (3).

133A Total value adjustments and provisions eligible for the “EL less provisions” calculation under IRB

This is only relevant for firms that have adopted the approaches under *BIPRU* 4 (IRB) for the calculation of their capital requirements.

This is the sum of value adjustments and provisions related to exposures in *BIPRU* 4.3.6R (1), (2) and (4) which are eligible for the “EL less provisions” calculation in *BIPRU* 4.3.8R.

134A Total deductions from tier 1 and tier 2 capital according to pre-CRD rules

This is only relevant for firms that have adopted the approaches under *BIPRU* 4 (IRB) or *BIPRU* 6.5 (AMA) for the calculation of their capital requirements.

Firms should report here the deductions calculated under whichever part of *IPRU* applies under *BIPRU* TP 1.4R.

FSA003 – Capital adequacy validations

Internal validations

Data elements are referenced by row then column.

Validation number	Data element

FSA004 – Credit risk

This data item provides details of the credit risk capital requirements of firms reported in FSA003.

For *UK consolidation groups*, the figures reported should exclude any credit risk capital requirement that has been calculated using aggregation under *BIPRU* 8.7.13R (2).

This data item uses elements from CEBS' COREP Tables CR SA, CR SEC SA, CR IRB, CR EQU IRB and CR SEC IRB¹, but reflects the Rules and wording in the Handbook, omits elements which are not in our view relevant in the UK, and combines some other elements. The numbers in parenthesis and italics show the corresponding element(s) in CEBS Tables CR SA, CR SEC SA, CR IRB, CR EQU IRB and CR SEC IRB and are only provided for information purposes to identify the linkage to the CEBS' data.

Valuation

Unless indicated otherwise, the valuation of data elements should follow *BIPRU* 1.3.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

Column A

This contains the capital requirement, calculated in accordance with *BIPRU* 3 and *BIPRU* 4, but excluding securitisation positions.

Column B

For firms on the standardised approach, this should be calculated as set out in *BIPRU* 3 and *BIPRU* 5. It equates to the fully adjusted exposures values (E*) after adjustment to off-balance sheet items under *BIPRU* 3.6.1R.

For firms on an IRB approach, this should be calculated in accordance with *BIPRU* 4 and *BIPRU* 5 and is the exposure value before the risk weight is applied.

Breakdown under the standardised approach to credit risk by exposure classes excluding securitisation positions

1A Total capital requirement

This is the same as the capital requirement reported in data element 79A in FSA003.

[*CEBS' CR SA column 22*]

¹ www.c-eps.org/documents/GL04_CR.xls

1B Total exposure value

This is the total exposure value, being the sum of data elements 2B to 17B.

2A Central government or central banks

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (1).

[*CEBS' CR SA column 22*]

2B Central government or central banks

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (1).

[*CEBS' CR SA column 20*]

3A Regional governments or local authorities

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (2).

[*CEBS' CR SA column 22*]

3B Regional governments or local authorities

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (2).

[*CEBS' CR SA column 20*]

4A Administrative bodies and non-commercial undertakings

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (3).

[*CEBS' CR SA column 22*]

4B Administrative bodies and non-commercial undertakings

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (3).

[*CEBS' CR SA column 20*]

5A Multilateral development banks

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (4).

[*CEBS' CR SA column 22*]

5B Multilateral development banks

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (4).

[*CEBS' CR SA column 20*]

6A International organisations

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (5).

[*CEBS' CR SA column 22*]

6B International organisations

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (5).

[CEBS' CR SA column 20]

7A Institutions

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (6).

[CEBS' CR SA column 22]

7B Institutions

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (6).

[CEBS' CR SA column 20]

8A Corporates

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (7).

[CEBS' CR SA column 22]

8B Corporates

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (7).

[CEBS' CR SA column 20]

9A Retail

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (8).

[CEBS' CR SA column 22]

9B Retail

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (8).

[CEBS' CR SA column 20]

10A Secured on real estate property

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (9).

[CEBS' CR SA column 22]

10B Secured on real estate property

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (9).

[CEBS' CR SA column 20]

11A Past due items

This is the capital requirement, calculated in accordance with *BIPRU* 3, relating to the asset class defined in *BIPRU* 3.2.9R (10).

[CEBS' CR SA column 22]

11B Past due items

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (10).

[CEBS' CR SA column 20]

12A Items belonging to regulatory high-risk categories

This is the capital requirement, calculated in accordance with *BIPRU 3*, relating to the asset class defined in *BIPRU 3.2.9R (11)*.

[*CEBS' CR SA column 22*]

12B Items belonging to regulatory high-risk categories

This is the exposure value relating to the asset class defined in *BIPRU 3.2.9R (11)*.

[*CEBS' CR SA column 20*]

13A Covered bonds

This is the capital requirement, calculated in accordance with *BIPRU 3*, relating to the asset class defined in *BIPRU 3.2.9R (12)*.

[*CEBS' CR SA column 22*]

13B Covered bonds

This is the exposure value relating to the asset class defined in *BIPRU 3.2.9R (12)*.

14A Securitisation positions

This is the capital requirement, calculated in accordance with *BIPRU 3*, relating to the asset class defined in *BIPRU 3.2.9R (13)*.

[*CEBS' CR SEC SA column 33*]

14B Securitisation positions

This is the exposure value relating to the asset class defined in *BIPRU 3.2.9R (13)*.

[*CEBS' CR SEC SA column 19*]

15A Short term claims on institutions and corporates

This is the capital requirement, calculated in accordance with *BIPRU 3*, relating to the asset class defined in *BIPRU 3.2.9R (14)*.

[*CEBS' CR SA column 22*]

15B Short term claims on institutions and corporates

This is the exposure value relating to the asset class defined in *BIPRU 3.2.9R (14)*.

[*CEBS' CR SA column 20*]

16A Collective investment undertakings

This is the capital requirement, calculated in accordance with *BIPRU 3*, relating to the asset class defined in *BIPRU 3.2.9R (15)*.

[*CEBS' CR SA column 22*]

16B Collective investment undertakings

This is the exposure value relating to the asset class defined in *BIPRU 3.2.9R (15)*.

[*CEBS' CR SA column 20*]

17A Other items

This is the capital requirement, calculated in accordance with *BIPRU 3*, relating to the asset class defined in *BIPRU 3.2.9R (16)*.

[CEBS' CR SA column 22]

17B Other items

This is the exposure value relating to the asset class defined in *BIPRU* 3.2.9R (16).

Breakdown under the foundation IRB approach to credit risk

18A Total capital requirement

This is the same as the capital requirement reported in data element 81A in FSA003.

[CEBS' CR IRB column 24]

18B Total exposure value

This is the total exposure value, being the sum of 19B to 21B.

19A Central governments and central banks

This is the capital requirement, calculated in accordance with *BIPRU* 4, relating to the asset class defined in *BIPRU* 4.3.2R (1).

[CEBS' CR IRB column 24]

19B Central governments and central banks

This is the exposure value relating to the asset class defined in *BIPRU* 4.3.2R (1).

[CEBS' CR IRB column 11]

20A Institutions

This is the capital requirement, calculated in accordance with *BIPRU* 4, relating to the asset class defined in *BIPRU* 4.3.2R (2).

[CEBS' CR IRB column 24]

20B Institutions

This is the exposure value relating to the asset class defined in *BIPRU* 4.3.2R (2).

[CEBS' CR IRB column 11]

21A Corporates

This is the capital requirement, calculated in accordance with *BIPRU* 4, relating to the asset class defined in *BIPRU* 4.3.2R (3).

[CEBS' CR IRB column 24]

21B Corporates

This is the exposure value relating to the asset class defined in *BIPRU* 4.3.2R (3).

[CEBS' CR IRB column 11]

22A Of which: To companies according to BIPRU 4.4.59R to BIPRU 4.4.60R

This is the capital requirement, calculated in accordance with *BIPRU* 4 using the correlation formula in *BIPRU* 4.4.59R, relating to exposures to the asset class defined in *BIPRU* 4.3.2R (3) that meet the size requirements in *BIPRU* 4.4.59R and *BIPRU* 4.4.60R. It is part of 21A.

[CEBS' CR IRB column 24]

22B Of which: To companies according to BIPRU 4.4.59R to BIPRU 4.4.60R

This is the exposure value relating to exposures to the asset class defined in *BIPRU 4.3.2R (3)* that meet the size requirements in *BIPRU 4.4.59R* and *BIPRU 4.4.60R*. It is part of 21B.

[*CEBS' CR IRB column 11*]

Breakdown of Retail IRB**23A Total capital requirement**

This is the capital requirement, calculated in accordance with *BIPRU 4*, relating to the asset class defined in *BIPRU 4.3.2R (4)*. It is the same as the capital requirement reported in data element 82A in FSA003.

[*CEBS' CR IRB column 24*]

23B Total capital requirement

This is the exposure value relating to the asset class defined in *BIPRU 4.3.2R (4)* and is the sum of 24B to 27B.

[*CEBS' CR IRB column 11*]

24A Retail mortgages

This is the capital requirement, calculated in accordance with *BIPRU 4*, relating to the asset class defined in *BIPRU 4.3.2R (4)* and subject to *BIPRU 4.6.43R*.

[*CEBS' CR IRB column 24*]

24B Retail mortgages

This is the exposure value relating to the asset class defined in *BIPRU 4.3.2R (4)* and subject to *BIPRU 4.6.43R*.

[*CEBS' CR IRB column 11*]

25A Qualifying Revolving Retail Exposures

This is the capital requirement, calculated in accordance with *BIPRU 4*, relating to the asset class defined in *BIPRU 4.3.2R (4)* and subject to *BIPRU 4.6.44R* to *BIPRU 4.6.46R*.

[*CEBS' CR IRB column 24*]

25B Qualifying Revolving Retail Exposures

This is the exposure value relating to the asset class defined in *BIPRU 4.3.2R (4)* and subject to *BIPRU 4.6.44R* to *BIPRU 4.6.46R*.

[*CEBS' CR IRB column 11*]

26A Retail SME

This is the capital requirement, calculated in accordance with *BIPRU 4*, relating to the asset class defined in *BIPRU 4.3.2R (4)* for an exposure to a *Retail SME*.

[*CEBS' CR IRB column 24*]

26B Retail SME

This is the exposure value relating to the asset class defined in *BIPRU 4.3.2R (4)* for an exposure to a *Retail SME*.

[*CEBS' CR IRB column 11*]

27A Other retail

This is the capital requirement, calculated in accordance with *BIPRU* 4, relating to the asset class defined in *BIPRU* 4.3.2R (4) that is not otherwise reported in 24A, 25A or 26A.

[*CEBS' CR IRB column 24*]

27B Other retail

This is the exposure value relating to the asset class defined in *BIPRU* 4.3.2R (4) that is not otherwise reported in 24B, 25B or 26B.

[*CEBS' CR IRB column 11*]

Breakdown under the advanced IRB approach to credit risk

28A Total capital requirement

This is the same as the capital requirement reported in data element 83A in FSA003.

[*CEBS' CR IRB column 24*]

28B Total exposure value

This is the total exposure value, being the sum of 23B to 26B.

29A Central governments and central banks

This is the capital requirement, calculated in accordance with *BIPRU* 4, relating to the asset class defined in *BIPRU* 4.3.2R (1).

[*CEBS' CR IRB column 24*]

29B Central governments and central banks

This is the exposure value relating to the asset class defined in *BIPRU* 4.3.2R (1).

[*CEBS' CR IRB column 11*]

30A Institutions

This is the capital requirement, calculated in accordance with *BIPRU* 4, relating to the asset class defined in *BIPRU* 4.3.2R (2).

[*CEBS' CR IRB column 24*]

30B Institutions

This is the exposure value relating to the asset class defined in *BIPRU* 4.3.2R (2).

[*CEBS' CR IRB column 11*]

31A Corporates

This is the capital requirement, calculated in accordance with *BIPRU* 4, relating to the asset class defined in *BIPRU* 4.3.2R (3).

[*CEBS' CR IRB column 24*]

31B Corporates

This is the exposure value relating to the asset class defined in *BIPRU* 4.3.2R (3).

[*CEBS' CR IRB column 11*]

32A Of which: To companies according to BIPRU 4.4.59R to BIPRU 4.4.60R

This is the capital requirement, calculated in accordance with *BIPRU 4* using the correlation formula in *BIPRU 4.4.59R*, relating to exposures to the asset class defined in *BIPRU 4.3.2R (3)* that meet the size requirements in *BIPRU 4.4.59R* and *BIPRU 4.4.60R*. It is part of 31A.

[*CEBS' CR IRB column 24*]

32B Of which: To companies according to BIPRU 4.4.59R to BIPRU 4.4.60R

This is the exposure value relating to exposures to the asset class defined in *BIPRU 4.3.2R (3)* that meet the size requirements in *BIPRU 4.4.59R* and *BIPRU 4.4.60R*. It is part of 31B.

[*CEBS' CR IRB column 11*]

Other IRB exposure classes

33A Total other exposure classes

This is the same as the capital requirement reported in data element 84A in FSA003. It is the sum of 34A to 36A.

33B Total other exposure classes

This is the total exposure value, being the sum of 34B to 36B.

34A Equity claims

This is the capital requirement, calculated in accordance with *BIPRU 4*, relating to the asset class defined in *BIPRU 4.3.2R (5)*.

[*CEBS' CR EQU IRB column 13*]

34B Equity claims

This is the exposure value relating to the asset class defined in *BIPRU 4.3.2R (5)*.

[*CEBS' CR EQU IRB column 9*]

35A Securitisation positions

This is the capital requirement, calculated in accordance with *BIPRU 4*, relating to the asset class defined in *BIPRU 4.3.2R (6)*.

[*CEBS' CR SEC IRB column 39*]

35B Securitisation positions

This is the exposure value relating to the asset class defined in *BIPRU 4.3.2R (6)*.

[*CEBS' CR SEC IRB column 17*]

36A Non credit-obligation assets

This is the capital requirement, calculated in accordance with *BIPRU 4*, relating to the asset class defined in *BIPRU 4.3.2R (7)*.

[*CEBS' CA 2.1.2.5*]

36B Non credit-obligation assets

This is the exposure value relating to the asset class defined in *BIPRU 4.3.2R (7)*. It is calculated as the figure in 36A divided by 8%.

FSA004– Credit risk validations

Internal validations

Data elements are referenced by row then column.

Validation number	Data element

FSA005 – Market risk

This data item provides the FSA with information on the market risk capital requirement under *GENPRU 2.1.40R*. The data item is intended to reflect the underlying prudential requirements contained in *GENPRU* and *BIPRU* and allows monitoring against the requirements set out there and also those individual requirements placed on firms. We have provided references to the underlying rules to assist in its completion.

For *UK consolidation groups*, the figures reported should exclude any market risk capital requirement that has been calculated using aggregation under *BIPRU 8.7.13R (2)*.

This data item has similarities to CEBS' COREP Tables MKR SA TDI, MKR SA EQU, MKR SA FX, MKR SA COM and MKR IM¹, but reflects the Rules and wording in the Handbook, omits elements which are not in our view relevant in the UK, and combines some other elements. The numbers in parenthesis and italics show the corresponding element(s) in CEBS' Tables and are only provided for information purposes to identify the linkage to the CEBS' data.

Valuation

For the general policy on valuation, please see the rules and guidance set out in *GENPRU 1.3*.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

Interest rate risk

See *BIPRU 7.2*.

1 Valuation of longs

Report the long positions.

[*CEBS' MKR SA TDI, items 1 and 2 combined, column 1*]

2 Valuation of shorts

Report the short positions.

[*CEBS' MKR SA TDI, items 1 and 2 combined, column 2*]

3 PRR

See *BIPRU 7.2.52R*

¹ www.c-ebs.org/documents/GL04_MKR.xls

[CEBS' MKR SA TDI, items 1 and 2 combined, column 9]

4 Specific interest rate risk – 0% risk bucket

Enter the amounts subject to this risk bucket weighting. See BIPRU 7.2.43R to BIPRU 7.2.51G

[CEBS' MKR SA TDI item 3.1, column 8]

5 Specific interest rate risk – 0.25% risk bucket

Enter the amounts subject to this risk bucket weighting. See BIPRU 7.2.43R to BIPRU 7.2.51G.

[CEBS' MKR SA TDI item 3.2a, column 8]

6 Specific interest rate risk – 1.00% risk bucket

Enter the amounts subject to this risk bucket weighting. See BIPRU 7.2.43R to BIPRU 7.2.51G.

[CEBS' MKR SA TDI item 3.2b, column 8]

7 Specific interest rate risk – 1.60% risk bucket

Enter the amounts subject to this risk bucket weighting. See BIPRU 7.2.43R to BIPRU 7.2.51G.

[CEBS' MKR SA TDI item 3.2c, column 8]

8 Specific interest rate risk – 8.00% risk bucket

Enter the amounts subject to this risk bucket weighting. See BIPRU 7.2.43R to BIPRU 7.2.48G.

[CEBS' MKR SA TDI item 3.3, column 8]

9 Specific interest rate risk – 12.00% risk bucket

Enter the amounts subject to this risk bucket weighting. See BIPRU 7.2.43R to BIPRU 7.2.48G.

[CEBS' MKR SA TDI item 3.4, column 8]

10 Specific interest rate PRR

See BIPRU 7.2.43R.

[CEBS' MKR SA TDI items 3.1 to 3.4, column 9]

11 Securitisation exposures/unrated liquidity facilities PRR

See BIPRU 7.2.47R.

[CEBS' MKR SA TDI item 3.5, column 9]

12 Ordinary CDS PRR

See BIPRU 7.11.24R.

[Part of CEBS' MKR SA TDI item 3, columns 6 and 7]

13 Securitisation CDS PRR

See BIPRU 7.11.35R.

[Part of CEBS' MKR SA TDI item 3, columns 6 and 7]

14 Basic interest rate PRR calculation for equity instruments

See *BIPRU 7.3*.

15 Option PRR for interest rate positions

See *BIPRU 7.6*.

[*Part of CEBS' MKR SA TDI item 7 column 9*]

16 CAD1 PRR for interest rate positions

See *BIPRU 7.9*.

[*Part of CEBS' MKR SA TDI item 7 column 9*]

17 Other PRR for interest rate risk

Where a 'prudent' uplift is required under *BIPRU 7.2.46R* or PRR arising from other non-standard transactions as required by *BIPRU 7.1.7R* to *BIPRU 7.1.13E* and that is attributable to interest rate risk

18 Total interest rate PRR

This is the sum of the general interest rate, specific interest rate, basic interest rate, options, CAD1 and other PRRs.

This will have the same value as data element 96A in FSA003.

[*CEBS' MKR SA TDI column 9 total less item 4 column 9*]

Equity risk

See *BIPRU 7.3*.

General equity risk (or simplified)

See *BIPRU 7.3.26G* to *BIPRU 7.3.30R* and *BIPRU 7.3.40R* to *BIPRU 7.3.43G*.

19 Valuation of longs

This is the sum of the notional long positions. See *BIPRU 7.3.9G* to *BIPRU 7.3.25G*.

[*CEBS' MKR SA EQU item 1, column 1*]

20 Valuation of shorts

This is the sum of the notional short positions. See *BIPRU 7.3.9G* to *BIPRU 7.3.25G*.

[*CEBS' MKR SA EQU item 1, column 2*]

21 PRR

This is the PRR under the simplified equity method. See *BIPRU 7.3.29R* to *BIPRU 7.3.30R*.

[*CEBS' MKR SA EQU item 1, column 7*]

Specific equity risk by risk bucket

See *BIPRU 7.3.31R* to *BIPRU 7.3.39R*.

22 Qualifying equities

Enter the valuation of the instruments. See *BIPRU 7.3.35R* to *BIPRU 7.3.37G*.

[*CEBS' MKR SA EQU item 2.1, column 6*]

23 Qualifying equity indices

Enter the valuation of the instruments. See *BIPRU 7.3.38R* to *BIPRU 7.3.39R*.

24 Other equities

Enter the valuation of all other equities, equity indices or equities baskets.

[*CEBS' MKR SA EQU item 2.2, column 6*]

25 PRR for specific equity risk

Enter the total PRR calculated in accordance with *BIPRU 7.3.33R* and *BIPRU 7.3.34R*.

[*CEBS' MKR SA EQU item 2, column 7*]

26 Option PRR for equity positions

See *BIPRU 7.6*.

[*Part of CEBS' MKR SA EQU item 6 column 7*]

27 CAD1 PRR for equity positions

See *BIPRU 7.9*.

[*Part of CEBS' MKR SA EQU item 6 column 7*]

28 Other PRR

This covers, for instance, where a firm nets off positions and is required to cover the risk of the derivative not moving with its constituent equities – see *BIPRU 7.3.48R* and *BIPRU 7.3.49G*.

It also includes PRR arising from other non-standard transactions as required by *BIPRU 7.1.7R* to *BIPRU 7.1.13E* that is attributable to equity risk.

29 Total equity PRR

This is the sum of the general equity, specific equity, option, CAD1 and other PRRs.

This will have the same value as data element 97A in FSA003.

[*CEBS' MKR SA EQU column 7 total less item 3 column 7*]

Commodity risk

See *BIPRU 7.4*.

30 Valuation of longs

Enter the valuation of the derived notional long positions. See *BIPRU 7.4.7G* to *BIPRU 7.4.19G*.

[*CEBS' MKR SA COM items 1-2, column 1*]

31 Valuation of shorts

Enter the valuation of the derived notional short positions. See *BIPRU 7.4.7G* to *BIPRU 7.4.19G*.

[*CEBS' MKR SA COM items 1-2, column 2*]

32 Outright PRR

See *BIPRU 7.4.25R* to *BIPRU 7.4.30G* (for maturity ladder approach) or *BIPRU 7.4.31R* to *BIPRU 7.4.37G* (for extended maturity ladder approach).

[CEBS' MKR SA COM items 1c and 2c, column 8]

33 Spread PRR

See BIPRU 7.4.25R to BIPRU 7.4.30G (for maturity ladder approach) or BIPRU 7.4.31R to BIPRU 7.4.37G (for extended maturity ladder approach).

[CEBS' MKR SA COM items 1a and 2a, column 8]

34 Carry PRR

See BIPRU 7.4.25R to 7.4.30G (for maturity ladder approach) or BIPRU 7.4.31R to BIPRU 7.4.37G (for extended maturity ladder approach).

[CEBS' MKR SA COM items 1b and 2b, column 8]

35 Simplified PRR

See BIPRU 7.4.24R.

[CEBS' MKR SA COM item 3, column 8]

36 Total PRR

This is the sum of the outright, spread and carry PRRs.

[CEBS' MKR SA COM items 1a to 1c plus 2a to 2c plus item 3 column 8]

37 Option PRR for commodity positions

See BIPRU 7.6.

[Part of CEBS' MKR SA COM item 6, column 8]

38 CAD1 PRR for commodity positions

See BIPRU 7.9.

[Part of CEBS' MKR SA COM item 6, column 8]

39 Other PRR

See BIPRU 7.4.38R to BIPRU 7.4.40R. It includes PRR arising from other non-standard transactions as required by BIPRU 7.1.7R to BIPRU 7.1.13E that is attributable to commodity risk.

[Includes CEBS' MKR SA COM item 7, column 8]

40 Total commodity PRR

This is the sum of the Total, Option, CAD1 and Other PRRs.

This will have the same value as data element 98A in FSA003.

[CEBS' MKR SA COM column 8 total]

Foreign currency risk

See BIPRU 7.5.

General foreign currency risk

41 Total net long positions

This is the derived net long positions. See BIPRU 7.5.10G to BIPRU 7.5.19R.

[CEBS' MKR SA FX items 1 to 4, column 1]

42 Total net short positions

This is the derived net short positions. See *BIPRU 7.5.10G* to *BIPRU 7.5.19R*.

[*CEBS' MKR SA FX items 1 to 4, column 2*]

43 Net gold positions

See *BIPRU 7.5.20R*.

[*CEBS' MKR SA FX item 5, column 1 minus 2*]

44 PRR

This is the PRR calculated under *BIPRU 7.5.1R*.

[*CEBS' MKR SA FX items 1 to 5, column 10*]

45 Option PRR for foreign currency

See *BIPRU 7.6*.

[*Part of CEBS' MKR SA FX item 6, column 10*]

46 CAD1 PRR for foreign currency

See *BIPRU 7.9*.

[*Part of CEBS' MKR SA FX item 6, column 10*]

47 Other PRR for foreign currency

PRR arising from other non-standard transactions as required by *BIPRU 7.1.7R* to *BIPRU 7.1.13E* that is attributable to foreign currency risk.

48 Total foreign currency PRR

This is the sum of the general, option, CAD1 and other PRRs.

This will have the same value as data element 99A in FSA003.

[*CEBS' MKR SA FX column 10 total*]

Collective investment undertaking risk

See *BIPRU 7.7*.

General CIU risk

49 Total net long positions

This is the value of the net long positions.

[*CEBS' MKR SA TDI item 4 column 1 plus CEBS' MKR SA EQU item 3 column 1*]

50 Total net short positions

This is the value of the net short positions.

[*CEBS' MKR SA TDI item 4 column 2 plus CEBS' MKR SA EQU item 3 column 2*]

51 PRR

See *BIPRU 7.7.5R*

[*CEBS' MKR SA TDI item 4 column 9 plus CEBS' MKR SA EQU item 3 column 7*]

52 Option PRR for CIU

See *BIPRU 7.6*.

53 CAD1 PRR for CIU

See *BIPRU 7.9*.

54 Other PRR for CIU

PRR arising from other non-standard transactions as required by *BIPRU 7.1.7R* to *BIPRU 7.1.13E* that is attributable to CIU risk.

55 Total CIU PRR

This is the sum of the general, option, CAD1 and other PRRs.

This will have the same value as data element 100A in FSA003.

[*CEBS' MKR SA TDI item 4 column 9 plus CEBS' MKR SA EQU item 3 column 7*]

Other PRR

56 Any other PRR

PRR arising from other non-standard transactions as required by *BIPRU 7.1.7R* to *BIPRU 7.1.13E* and that is not attributable to any of the other categories e.g. PRR arising from non-financial spread betting.

This will have the same value as data element 101A in FSA003.

VAR model risk

See *BIPRU 7.10*.

57 Multiplier

This is the multiplication factor set out in *BIPRU 7.10.118R* to *BIPRU 7.10.126G*.

[*CEBS' MKR IM total positions column 7*]

58 Previous day's VaR PRR

This is the VaR under *BIPRU 7.10.115R*.

[*CEBS' MKR IM total positions column 2*]

59 Average of previous 60 days VaR

This equates to item (3) in *BIPRU 7.10.117G*.

[*CEBS' MKR IM total positions column 1 divided by total positions column 7*]

60 Incremental default risk charge

This is the incremental default risk charge under *BIPRU 7.10.116R*. It also includes the specific risk surcharge under *BIPRU 7.10.127G*.

[*CEBS' MKR IM total positions columns 3 and 4*]

61 VaR model based PRR

See *BIPRU 7.10.113R* to *BIPRU 7.10.117G*.

This will have the same value as data element 102A on FSA003.

[*CEBS' MKR IM total positions column 5*]

62 Grand total PRR

This is the sum of the total interest rate PRR, the total equity PRR, the total foreign currency PRR, the total collective investment undertaking PRR, other PRR and the VaR model based PRR.

This figure will have the same value as data element 93A less 94A on FSA003.

FSA005 – Market risk validations

FSA006 – Market risk supplementary

This data item provides the FSA with VaR backtesting reports. It contains daily outturn data which is only reported to the FSA quarterly in arrears.

This data item has similarities to CEBS' COREP Tables MKR SA TDI, MKR SA EQU and IM Details¹, but reflects the Rules and wording in the Handbook, omits elements which are not in our view relevant in the UK, and combines some other elements. The numbers in parenthesis and italics show the corresponding element(s) in CEBS' Tables and are only provided for information purposes to identify the linkage to the CEBS' data.

Valuation

For the general policy on valuation, please see the rules and guidance set out in *GENPRU* 1.3.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

Daily outturn data

1A Closing P&L data

This is the daily figure calculated under *BIPRU* 7.10.100R.

1B VaR confidence level

The number reported here will remain constant throughout the period, and is determined in accordance with *BIPRU* 7.10.98R.

[*CEBS' MKR IM Details column 5*]

1C Holding period (days)

The number reported here will remain constant throughout the period, and is determined in accordance with *BIPRU* 7.10.98R.

[*CEBS' MKR IM Details column 9*]

1D Business unit code

This will record the codes for the major business units, typically ones the firm uses itself, that has previously been agreed with the FSA. See *BIPRU* 7.10.93G.

1E Currency

This identifies the VaR reporting currency. See *BIPRU* 7.10.113R.

¹ www.c-eps.org/documents/GL04_MKR.xls

1F Value at Risk

This is the *One day VaR measure* calculated in accordance with *BIPRU 7.10.98R*.

[*CEBS' MKR IM Details column 12*]

1G BIPRU 7.10 cleaned P&L

This is the figure calculated in under *BIPRU 7.10.100R*.

[*CEBS' MKR IM Details column 15*]

1H Starting P&L date

This is the date defined under *BIPRU 7.10.100R*.

1J Date on which VaR computed

This is the date when the VaR is computed under *BIPRU 7.10.115R*.

1K Last date VaR historic data updated

This is the last date on which this has been updated under *BIPRU 7.10.34R*.

1L Add-on VaR

This is the figure calculated in accordance with *BIPRU 7.10.113R*.

[*Includes CEBS' MKR IM Details column 11*]

1M BIPRU 7.10 hypothetical P&L

This is the figure calculated in accordance with *BIPRU 7.10.112G*.

[*CEBS' MKR IM Details column 14*]

FSA006 – Market risk supplementary validations

Internal validations

There are no validations for this data item.

FSA007 – Operational risk

This data item provides the FSA with information on the operational risk facing a firm. It is intended to reflect the underlying prudential requirements contained in *BIPRU* and allows monitoring against the requirements set out there. We have provided references to the underlying rules to assist in its completion.

This data item is based on CEBS' COREP Table OPR, OPR Details, and OPR LOSS Details¹, but reflects the Rules and wording in the Handbook, and omits items which are not in our view relevant in the UK. The numbers in parenthesis and italics show the corresponding item(s) in CEBS' Table OPR, OPR Details or OPR LOSS Details and are only provided for information purposes to identify the linkage to the CEBS' data.

Valuation

Unless indicated otherwise, the valuation of data elements should follow *GENPRU* 1.3.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B. Individual rows within an element are identified as 2B.1, 2B.2 etc.

Definitions

1 Approach adopted (Yes/No)

For each column, enter whether your firm has adopted each approach. See *BIPRU* 6.2.

Relevant income indicator – 3 year average

2A Corporate finance

3A Trading and sales

4A Retail brokerage

5A Commercial banking

6A Retail banking

7A Payment and settlement

8A Agency services

9A Asset management

For each of the above business lines, enter the 3 year average, before the percentages are applied. See *BIPRU* 6.4.14R.

¹ www.c-eps.org/documents/GL04_OR.xls

Nominal amount of loans and advances – 3 year average

10A Retail banking

Enter the three year average of the total nominal amount of loans and advances in this business line, before applying the multiplication factors. See *BIPRU 6.4.18R*.

11A Commercial banking

Enter the three year average of the total nominal amount of loans and advances in this business line, before applying the multiplication factors. See *BIPRU 6.4.18R*.

12B Capital requirements before risk transfer mechanisms and expected loss deductions

This is relevant for firms with an AMA permission. See *BIPRU 6.5*.

[*CEBS' OPR, column 9, item 3*]

13B Expected loss captured in business practice to be excluded from capital

This is relevant for firms with an AMA permission. See *BIPRU 6.5.11R*.

[*CEBS' OPR, column 10, item 3*]

14B Capital alleviation due to risk transfer mechanisms to be excluded from capital

This is relevant for firms with an AMA permission. See *BIPRU 6.5.27R* to *BIPRU 6.5.31R*.

[*CEBS' OPR, Column 11, item 3*]

15A Capital required – total – TSA/ASA approach

This is the operational risk capital requirement arising under *BIPRU 6.4*.

It will agree with data element 88A on FSA003.

[*CEBS' OPR, column 7, items 2 and 3*].

15B Capital required – total – AMA approach

This is the operational risk capital requirement arising under *BIPRU 6.5*.

It will agree with data element 89A on FSA003.

[*CEBS' OPR, column 7, items 2 and 3*].

Operational risk losses – firms on AMA approach only

This section seeks information on all additions to the loss events database occurring in the year, even if they relate to events that took place before the start of the period.

16A Gross loss amount for the whole period

Enter the total amount of loss events recorded in the period.

[*CEBS' OPR Details, column 8 total*]

17A Total number of loss events

Enter the total number of loss events recorded in the period.

[*CEBS' OPR Details, column 8 total*]

18 Loss events

In this section, report individual loss events that have occurred during the reporting period which are greater than 1% of the capital resources reported in data element 16A on data item FSA003 at the previous accounting reference date (in 2008 firms should alternatively use the figure reported in data element 25A on FSA009). List each loss event on a separate line.

18A Date event added to loss database

Enter the date on which the event was added to the loss database since the reporting date in ddmmyy format.

18B Date of loss event

Enter the date of the loss event itself in ddmmyy format.

18C Gross loss amount

Enter the gross loss amount (in 000s).

[*OPR LOSS Details, column 2.*]

18D Certainty of loss

This text field should contain your view of the certainty of the loss amount in this column, for example: amount known with certainty, provisioned amount, management estimate, other.

18E Business line

Enter the business line, as set out in *BIPRU* 6.4.14R, in which the loss was incurred.

Please use the following identifiers:

CF = Corporate finance

TS = Trading and sales

RBr = Retail brokerage

CB = Commercial banking

RB = Retail banking

PS = Payment and settlement

AS= Agency services

AM = Asset management

[*CEBS' OPR LOSS Details, columns 9-16*]

18F Event type

Enter the loss event type, as set out in *BIPRU* 6.5.26R.

Please use the following numbers to identify the loss event types:

1 = Internal fraud

2 = External fraud

3 = Employee Practices and Workplace Safety

4 = Clients, Products & Business Practices

5 = Damage to Physical Assets

6 = Business disruption and system failures

7 = Execution, Delivery & Process Management

[*CEBS' OPR LOSS Details, column 17*]

18G Commentary

Enter a brief commentary to identify the event.

FSA007 – Operational risk validations

Internal validations

Data elements are referenced by row then column.

Validation number	Data element		
1	1A		If 1A = Yes, then $(2A+3A+5A+6A+6A+7A+8A+9A+10A+11A)>0$, else $(2A+3A+5A+6A+6A+7A+8A+9A+10A+11A)=0$
2	15A		If 1A = Yes, then $15A>0$, else $15A = 0$
3	1B		If 1B = Yes, then $15B>0$
4	15B	=	$12B-13B-14B$

External validations

Validation number	Data element		
1	15A	=	FSA003.88A
2	15B	=	FSA003.89A

FSA008 – Large exposures

This data item captures information on *large exposures*, connected exposures within that, exposures by integrated groups, *trading book concentration risk excesses*, and also significant transactions with mixed activity holding companies and their subsidiaries.

Unless indicated otherwise, the valuation of items should follow *GENPRU 1.3*.

Valuation

Unless indicated otherwise, the valuation of data elements should follow *GENPRU 1.3*.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B. Individual rows within an element are identified as 2B.1, 2B.2 etc.

General

1A Is this a report for a UK consolidation group under *BIPRU 8 Ann 1R*?

See *BIPRU 8 Ann 1R*. If the answer is ‘no’, the firm can move on to data element 3A. If the answer is ‘yes’, then go to data element 2.

2 FSA Firm Reference Numbers

List the FSA Firm Reference Numbers for all the authorised firms in the *UK consolidation group*. As this report is a joint requirement across all firms that are members of that group, this notifies us of which firms’ requirements are being met by this report. Firms should be listed sequentially in 2A, with the FSA Firm Reference Numbers being entered in 2B.

3A Are you a member of a UK integrated group

This is only relevant for unconsolidated or solo-consolidated reporters.

The answer is either Yes or No.

If the answer to 7A is Yes, one of the members of the *UK integrated group* is also required to submit FSA018 on behalf of all members of the *UK integrated group* for the reporting date.

Part 1 – Large exposures at the reporting date

This section should contain details of all *large exposures* at the reporting date, as defined in *GENPRU 10.5.1R*.

However, where a firm has established a *UK integrated group* (as defined in *BIPRU 10.8*), it should exclude from Part 1 any *large exposures* to members of a wider integrated group (as defined in *BIPRU 10.9*) or to members of each *diverse block* (*BIPRU 10.9*) and the *residual block* (*BIPRU 10.8* and *BIPRU 10.9*) – these exposures will be reported separately on FSA018 by the UK integrated group. They should obviously also be excluded from Part 2 (Connected counterparties) in these circumstances.

Exposures to connected counterparties (other than members of an integrated group) should be reported here in aggregate, with a more detailed breakdown provided in Part 2.

4A Capital resources under *BIPRU 10.5.3R*

This will be the figure calculated by the firm at the reporting date for data element 57A within FSA003 (even if the firm is not required to submit FSA003 at that date, as in the case of a *BIPRU 50K firm* or a *UK consolidation group* that only reports FSA003 half-yearly). For monitoring large exposures during the quarter, firms may either re-calculate their capital resources on a regular basis or use the figure previously reported to the FSA on FSA003. However, at the reporting date, the figure reported should be the firm's latest calculation of capital resources.

This is equivalent to Stage N of:

- *GENPRU 2 Annex 2R* for a *UK bank*;
- *GENPRU 2 Annex 3R* for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

4B Capital resources under *BIPRU 10.5.4R*

This will be the figures reported by the firm at the reporting date for data element 15A in FSA003.

This is equivalent to stage T in:

- *GENPRU 2 Annex 2R*, for a *UK bank*;
- *GENPRU 2 Annex 3R*, for a *building society*;
- *GENPRU 2 Annex 4R* for a *BIPRU investment firm* deducting *material holdings*;
- *GENPRU 2 Annex 5R* for a *BIPRU investment firm* deducting *illiquid assets*; and
- *GENPRU 2 Annex 6R* for a *BIPRU investment firm* with a waiver from consolidated supervision.

5A Exposure number

Please number each *large exposure* consecutively.

5B Counterparty name

List here the names of the *counterparties*, *groups of connected clients*, and *connected counterparties* (as set out in *BIPRU 10.3*) that represent *large exposures* (excluding, as

indicated above, by a member of a *UK integrated group* to members of the diverse blocks and the residual block). Details of individual counterparties comprising the *connected counterparties* will be shown in Part 2, although the aggregate should be shown here. Details of exposures by members of a *UK integrated group* to a members of a *diverse block* within its *wider integrated group* or a member of its *residual block* will be reported in FSA018 and should be excluded from this section.

5C Gross exposure

Report here the gross exposures calculated in accordance with *BIPRU 10.2* and *BIPRU 10.4*.

5D % of capital resources under *BIPRU 10.5.3R*

This is column C as a percentage of data element 5A, and should be 10% or more. It should be entered to two decimal places, omitting the % sign.

5E Exposure after credit risk mitigation

This is the figure reported in column D after *credit risk mitigation*. This figure is subsequently broken down in columns F to M.

5F Amount of the exposure that is exempt

That part of the amount reported in column E that is an exempt under *BIPRU 10.6* and *BIPRU 10.7*.

5G % of capital resources under *BIPRU 10.5.3R*

This is column F as a percentage of data element 4A. It should be entered to two decimal places, omitting the % sign.

5H Amount of the exposure that is not exempt and is in the non-trading book

That part of the exposure reported in column E that is not exempt and is in the non-trading book.

5J % of capital resources under *BIPRU 10.5.3R*

This is column H as a percentage of the capital resources under *BIPRU 10.5.3R*. It should be entered to two decimal places, omitting the % sign.

5K Amount of the exposure that is not exempt and is in the trading book

That part of the exposure reported in column E that is not exempt and is in the trading book.

5L % of capital resources under *BIPRU 10.5.3R*

This is column K as a percentage of the capital resources under *BIPRU 10.5.3R*. It should be entered to two decimal places, omitting the % sign.

5M Aggregate % of capital resources under *BIPRU 10.5.3R*

This is the sum of columns J and L. The total of the column should be monitored against the limit set out in *BIPRU 10.5.6R*. It should be entered to two decimal places, omitting the % sign.

5N Trading book concentration risk excess

This is the *trading book concentration risk excess*, arising under *BIPRU* 10.5.10R, expressed as a percentage of data element 4B. See *BIPRU* 10.5.9R to 10.5.13R for further details. It should be entered to two decimal places, omitting the % sign.

5P Trading book concentration risk excesses that have existed for 10 business days or less

This is the amount of the *trading book concentration risk excesses* that have existed for 10 business days or less, as a percentage of data element 3B. A total is given for this column to monitor it against *BIPRU* 10.5.11R.

5Q Trading book concentration risk excesses that have persisted for more than 10 business days

This is the amount of the *trading book concentration risk excesses* that have persisted for more than 10 business days. A total for this column is given to monitor it against *BIPRU* 10.5.12R.

5R CNCOM

The amount of CNCOM calculated as set out in *BIPRU* 10.5.14R to 10.5.31G. It should agree with the amount reported in data element 103A on FSA003 for the same reporting date, except when the firm is a member of a *UK integrated group* when there may be some additional CNCOM attributable to the firm.

5S Probability of default %

IRB firms should enter the *probability of default* (PD) of the exposure, or that part covered by the IRB approach. This may be reported on whatever basis is easiest for firms ie the average, the mean, or the worst case. However, firms should apply that approach consistently across all exposures, and across reporting dates for this data element.

5T Loss given default %

IRB firms should enter the *loss given default* (LGD) of the exposure, or that part covered by the IRB approach. This may be reported on whatever basis is easiest for firms ie the average, the mean, or the worst case. However, firms should apply that approach consistently across all exposures, and across reporting dates for this data element.

5U Expected loss %

IRB firms should enter the *expected loss* (EL) of the exposure, or that part covered by the IRB approach. This may be reported on whatever basis is easiest for firms ie the average, the mean, or the worst case. However, firms should apply that approach consistently across all exposures, and across reporting dates for this data element.

5V Credit risk capital requirement

This is the credit risk capital requirement for the exposure, calculated in accordance with *BIPRU* 2.1.39R.

6A Confirmation

Firms should confirm that we have been notified of all exposures in accordance with *BIPRU* 10.5.7R.

Part 2 – Details of connected counterparties at the reporting date

Details of connected counterparties

This part sets out details of any *connected counterparties* reported in aggregate in Part 1, but this time showing each counterparty whose individual exposure exceeds 2.5% of the capital resources calculated under *BIPRU* 10.5.3R (data element 4A). As with Part 1, this figure should exclude exposures by a member of a *UK integrated group* to members of a wider integrated group or to members of the diverse blocks and the residual block (which are reported in FSA018).

7A Exposure number

Please number each exposure consecutively. The first exposure will always be the aggregate of those exposures that individually are less than 2.5% of *capital resources* (data element 4A).

7B Individual counterparty names, each individually above 2.5% of capital resources

Report here the individual counterparty names that make up a group of connected counterparties (see *BIPRU* 10.3.9R), where each counterparty's exposure is individually 2.5% or more of *capital resources* (data element 4A). As with Part 1, this figure should exclude exposures by a member of a *UK integrated group* to members of the diverse blocks and the residual block.

Data element 7B.1 (the first line of this data element) will always be the aggregate of those connected exposures that are individually under 2.5% of *capital resources*, where we do not require a further breakdown of individual counterparties.

7C Gross exposure

Report here the gross exposures calculated in accordance with *BIPRU* 10.2.

7D % of capital resources under *BIPRU* 10.5.3R

This is column C as a percentage of data element 4A and should be more than 2.5% (except possible in the case of 7D.1, the first line of the data element). It should be entered to two decimal places, omitting the % sign.

7E Exposure after credit risk mitigation

This is the figure reported in column D after *credit risk mitigation*. This figure is subsequently broken down in columns F to M.

7F Amount of the exposure that is exempt

That part of the amount reported in column E that is an exempt under *BIPRU* 10.6 and *BIPRU* 10.7.

7G % of capital resources under BIPRU 10.5.3R

This is column F as a percentage of data element 4A. It should be entered to two decimal places, omitting the % sign.

7H Amount of the exposure that is not exempt and is in the non-trading book

That part of the exposure reported in column E that is not exempt and is in the non-trading book.

7J % of capital resources under BIPRU 10.5.3R

This is column H as a percentage of data element 4A. It should be entered to two decimal places, omitting the % sign.

7K Amount of the exposure that is not exempt and is in the trading book

That part of the exposure reported in column E that is not exempt and is in the trading book.

7L % of capital resources under BIPRU 10.5.3R

This is column K as a percentage of data element 4A. It should be entered to two decimal places, omitting the % sign.

7M Aggregate % of capital resources under BIPRU 10.5.3R

This is the sum of columns J and L. It should be entered to two decimal places, omitting the % sign.

Part 3 – Trading book concentration risk excesses since the last reporting date

This part provides an analysis of those *trading book concentration risk excesses* that have occurred since the previous reporting date. It should therefore:

- exclude exposures to those counterparties that, at the reporting date, give rise to a *trading book concentration risk excess* (and are shown in Part 1);
- include exposures to counterparties that do not, at the reporting date, give rise to a *trading book concentration risk excess* but are nevertheless shown in Part 1 as there is a *large exposure* at that date; and
- include exposures to counterparties that do not appear in Part 1 (as they did not give rise to a *large exposure* at the reporting date).

If a counterparty gives rise to a *trading book concentration risk excess* on a number of separate occasions during the quarter, it should only be reported once in this Part. The highest gross exposure should be reported. This fulfils the requirements of BIPRU 10.5.13R.

8A Exposure number

Please number each large exposure consecutively.

8B Counterparty names

List here the names of the *counterparties, groups of connected clients, and connected counterparties* (as set out in BIPRU 10.3) that account for *trading book concentration risk*

excesses that have occurred since the previous reporting date but do not exist at the current reporting date.

For those firms that are member so of a *UK integrated group*, they should report those exposures to individual members of the diverse and residual blocks that gave rise to a *trading book concentration risk excess* during the period.

8C Gross exposure

Report here the gross exposures calculated in accordance with *BIPRU 10.2*. This should be the highest value in the period.

8D % of capital resources

This is column C as a percentage of data element 4A and should be more than 25%. It should be entered to two decimal places, omitting the % sign.

8E Exposure after credit risk mitigation techniques

This is the figure reported in column D after *credit risk mitigation*.

8F Non-exempt exposures in the non-trading book

This is the amount of the non-exempt exposures that were in the non-trading book.

8G Non-exempt exposures in the trading book

This is the amount of the non-exempt exposures that were in the trading book.

8H Amount of non-exempted exposures in excess of 25% of capital resources under BIPRU 10.5.4R

This is the amount reported in columns F and G that was in excess of 25% of data element 4B.

8J Is it a member of a diverse block or residual block

This will only be relevant to a firm that answers Yes to data element 3A.

If the firm had a *trading book concentration risk excess* to a member (of the diverse blocks or residual block), it should be marked with an X to show it is a member of one of these blocks.

Part 4 – Significant transactions with the mixed activity holding company and its subsidiaries

This part provides an analysis of significant transactions (other than those resulting in large exposures) with the *mixed activity holding company* and its *subsidiaries*. A transaction is presumed to be significant if its amount exceeds 5% of the total amount of capital resources at the level of the *UK consolidation group* (see *BIPRU 8*).

This section is not completed where the report is for a *UK consolidation group*.

9A Exposure number

Please number each transaction consecutively.

9B Counterparty name

This is the individual counterparty name for each significant transaction (other than one resulting in a *large exposure*).

9C Transaction or exposure value

The amount of each significant transaction (other than one resulting in a *large exposure*) should be entered.

9D % of capital resources

Enter the percentage the figure reported in column C as a percentage of the total amount of *capital resources* at the level of the *UK consolidation group* (see *BIPRU 8*). It will use the figure reported by the *UK consolidation group* at the previous reporting date that coincided with submission of FSA008. So for a *UK consolidation group* that reports to us half yearly on FSA003 on December, the firm should use that figure of *capital resources* for both the March and June submissions.

Each figure should be greater than 5%. It should be entered to two decimal places, omitting the % sign.

FSA010 – Liquidity Mismatch

This data item provides details of the liquidity mismatch positions for banks which are subject to IPRU(BANK) Chapter LM.

Valuation

For the general policy on valuation, please see the rules and guidance set out in GENPRU 1.3.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

Completion and submission to the FSA

Firms may choose whether they report on a trade date or settlement date basis. However, the firm should report consistently on one basis both across the return and between reporting periods.

General

Cash flow approach

- 1 The policy aim is to ensure that firms hold sufficient liquid assets to meet their obligations as they fall due and the FSA agrees mismatch guidelines to help secure the policy objective.
- 2 The data item is there to monitor firms' compliance with their guidelines.
- 3 It does this by including a maturity analysis of known and/or potential cash flows out to six months. Marketable assets with a maturity greater than 1 month should generally be shown separately and not included in the cash flow ladder (but see paragraph 36 below).
- 4 Data elements reported on a cash flow basis should include both interest and principal amounts, together with any other income relating to them.
- 5 Thus cash flows (eg interest payments on a loan) arising from items (however reported) should be entered in the relevant cash flow timebands (ie those which the firm reports) when they fall due.
- 6 Part 2 of this data item is divided into sections asking for details of 'Retail' and 'Wholesale' inflows and outflows. The exact division between the two sections is a matter for individual firms to decide and include within their liquidity policy statement.
- 7 Where the amounts of cash flows are not material in relation to the total cash flows, the firm may agree with their supervisor that they need not be reported. The firm should agree in advance with their supervisor which flows are not considered

‘material’ for the purposes of liquidity reporting. Any such arrangements should be included within the firm’s liquidity policy statement, particularly for the purposes of reports commissioned under Section 166 of the Financial Services and Markets Act 2000.

“Contractual” vs “Behavioural” approach to liquidity position measurement: Parts 2 and 3

- 8 For supervisory monitoring, the FSA will normally wish to assess a firm’s liquidity position on a “worst-case” basis. Therefore, in Part 2 of this return (Contractual basis), cash inflows should be assumed to occur at their latest contractual maturity, while cash outflows should be assumed to occur at their earliest contractual maturity.
- 9 The contractual maturities pertaining to some assets and liabilities do not bear close relation to their actual behavioural characteristics. Examples might be overdrafts and credit card receivables. For this reason, for some limited categories of inflow and outflow, it is considered appropriate for firms to report data on one of two bases. The basis of reporting should be agreed in advance with the FSA. First, the “contractual” basis, under which it will generally be assumed that items behave in accordance with their contractual terms; second, with certain “behavioural” assumptions factored into the calculations. In certain circumstances, the FSA may require a firm to report behavioural adjustments, particularly in respect of overdrafts (see 19A, 19B and 19G and 23A to 36G).
- 10 In instances where firms apply for behavioural treatments, the FSA will expect such applications to be properly supported by empirical data running over an appropriate period of time.

Arrears and overdue

- 11 Where assets or other items giving rise to cash flows are non-performing, poorly performing or there is reasonable doubt about the certainty of receipt of inflows of funds pertaining to them, cash flows arising from them should not be included as receivable in the timeband columns. Rather the items should be reported in the ‘overdue’ column.
- 12 Non-performing or poorly performing assets are described as assets where on any reporting date, the asset or part of it, has passed the due date for repayment by fourteen days or more (or, in the case of lending under unconditional ECGD bank guarantee, ie Buyer Credit and the Supplier Credit Financing Facility, by thirty days or more). Assets, where the firm does not consider there is reasonable doubt over the certainty of receipt of inflows, but which have passed the due date by fourteen days or less (or less than thirty days for lending under unconditional ECGD bank guarantee, ie Buyer Credit and the Supplier Credit Financing Facility), should be entered as ‘next day’.
- 13 Unless the whole of the loan or asset has been formally declared to be in default within the terms of the contract, only that part of a loan/interest or other asset actually overdue should be reported in the ‘overdue’ column on a contractual basis. If the whole of the loan or asset has been formally declared to be in default within the terms of the contract, the firm should exclude any unmatured instalments of a loan which is partially in arrears. The firm should also report the amount of their debt portfolio which is in arrears in data element 62A of the memo items to Part 2.

- 14 Where an asset or cash flow previously reported according to the treatment in paragraphs 12 and 13 is contractually rescheduled according to a written agreement, firms should cease to report these items as 'overdue' and report them according to the new agreed dates for repayment.
- 15 However, certain firms work on a recency basis, ie the customer is not deemed to be in arrears if repayments are still being met, even if one or more payments have been missed. In this case, they may report the debt accordingly on the maturity ladder, ie reporting the number of payments at their prescribed intervals with an extension on the maturity of the loan to account for the missed payments. Such treatment should however be regarded as an exception and firms should contact their supervisor before adopting this method of reporting, which should be shown in the behavioural adjustments section of the data item (Part 3).

Provisions

- 16 Data elements should be reported net of specific/individual provisions. General/collective provisions should not be recorded on this return.

Residual Maturity

- 17 Unless otherwise stated in the reporting instructions, all references to maturity for the purpose of this return refer to residual maturity.
- 18 Cash inflow and outflow items and assets and liabilities should be classified according to their remaining maturity. Cash flows such as receipts of interest on performing loans or payments of interest on deposits should be recorded in the timeband in which they will occur.
- 19 Deposits placed with the firm should - as appropriate - be reported either as outflows occurring on the earliest possible repayment date, or as liabilities maturing at the earliest possible repayment date. In this context, the earliest repayment date means the first rollover date or the shortest period of notice required to withdraw the funds or to exercise a break clause, where applicable.
- 20 Loans made by the firm should - as appropriate - be entered as inflows occurring on the latest possible repayment date or as liabilities maturing at the latest possible repayment date. Purely technical break facilities should be disregarded for fixed term loans. Where the firm has loans outstanding at the reporting date under revolving credit lines and has not received notification that they will be redrawn on maturity, the intermediate date should be taken as the maturity date.
- 21 Where a firm holds a security where the issuer has the option to repay over a range of dates, the last repayment date should be taken as the date of repayment, unless notice has been given of redemption at an earlier date. Where the firm has issued such a security the first repayment date should be taken as the date of repayment, unless notice has been given of redemption at a later date.
- 22 The treatment of spot foreign exchange deals will depend upon whether the firm reports on a trade or settlement date basis. Those reporting on a trade date basis should only include the effect of any transactions which take place on the reporting date, whereas those reporting according to the settlement date may need to report deals from previous days which have yet to settle. This should not affect a firm's decision about the basis on which it should report the data item. As long as the data

element is reported consistently on one basis and between quarters, it will not have any impact on a firm's compliance with its mismatch guidelines.

- 23 Where a firm has entered into a forward deal where it is fully committed (eg a loan/deposit with a start date of two days forward and spot foreign exchange trade) and the cash flows will take place within the sight to 8-day time band, it should be reported on the return as such. However, where the firm intends to enter into an agreement in two days time but has not yet committed itself, this should not be reported as this return is intended to be a snapshot at the end of the quarter.
- 24 The timeband 'next day' comprises cash flows or asset items due, available or maturing on the next business day after the reporting date.
- 25 Cash flows arising or assets/liabilities maturing on a non-business day should be reported as taking place on the following business day.
- 26 Funds callable at one day's notice should be entered as two-day maturity unless notice has been received or given on the reporting date.
- 27 Funds callable at seven days' notice should be entered in the '8 days and under (excluding next day)' maturity band, even if not called.
- 28 Where the period to remaining maturity is to be entered in months, it should be calculated on a calendar month basis starting from the reporting date.
- 29 The following example sets out in which timeband cash flows and assets/liabilities due, available and maturing on the reported dates stated will be reported. All dates are inclusive.

Reporting date	28/29 February	31 May	31 August	30 November
'Demand (inc. next day)' covers:	1 March/next business day	1 June/next business day	1 September/next business day	1 December/next business day
'8 days and under' covers:	Up to 8 March*	Up to 8 June*	Up to 8 September*	Up to 8 December*
'over 8 days – 1 month' covers:	9 - 31 March	9 – 30 June	9 - 30 September	9 - 31 December
'over 1 month – 3 months' covers:	1 April - 31 May	1 July – 31 August	1 October - 30 November	1 January - 28/29 February
'over 3 months - 6 months' covers:	1 June - 31 August	1 September - 30 November	1 December - 28/29 February	1 March - 31 May
'over 6 months - 1 year' covers:	1 September - 28/29 February	1 December - 31 May	1 March - 31 August	1 June - 30 November

* but excluding next day

Netting of debts and claims

- 30 All claims and liabilities should be reported gross. Firms should not net (or offset) claims on counterparties or groups of counterparties against debts owed to those counterparties or groups of counterparties, even where a legal right of set off exists. Where the maturity of the claims and debts falls within the same timeband, the claims and debts will automatically offset each other on the return in the calculation of the mismatch.
- 31 Firms should report long positions in marketable assets on Part 1. Long positions in ‘non-marketable’ items should be entered in Part 2 as inflows. Short positions should be reported on Part 2. Short positions arising from either forward sales/purchases or repos have their own designated lines on Part 2, elements 47B-47G and 51B-51G. An outflow relating to these types of short position should be reported in the timeband corresponding to the maturity of the contract. In the case of short positions arising from anything other than forward sales/purchases or repos, eg short-selling a bond, the outflow should be reported in Part 2 in the line corresponding to the expected counterparty eg 44B-44G (interbank), 45B-45G (corporate) or 46B-46G (government). If the counterparty is not known, the outflow should be reported by default in 44B-44G (interbank). These types of short positions should be reported as outflows in the demand timeband. In the case of marketable assets, firms should enter the marked-to-market value of the asset as an outflow in the demand timeband. Non-marketable assets should be reported in the demand timebands at their redemption value or, where this is unavailable or inappropriate (eg in the case of equities), the book value should be reported.
- 32 For example, assume two months before the reporting date, a firm made a loan to a customer of £1mn for 6 months and that customer placed funds with the firm of £500,000 for three months. The firm should record an inflow of £1mn in the ‘Over 3 months - 6 months’ column under the appropriate category and an outflow of £500,000 in the ‘Over 8 days - 1 month’ column under the appropriate category. In addition, any interim cash flows such as interest payments and receipts should be recorded in the appropriate timebands.

Marketable securities

- 33 In reporting liquidity positions, firms should normally apply “worst case” assumptions about the timing of inflows and outflows of funds. However, some categories of asset are clearly marketable and could be readily converted into cash where necessary. These assets are reported in Part 1, Marketable Assets. Firms should enter the full value of the marketable asset concerned in columns A and B according to the currency of denomination. The following two columns then set out the discount which will need to be applied to the full value of the asset. Discounts are applied to reflect that a firm may realise less than the market price quoted for an asset where the firm is seeking to realise assets quickly because of liquidity problems pertaining either to itself, or to general market conditions, or both. The firm should then allocate the discounted value of the assets to either of columns C or D.
- 34 The timeband into which a marketable asset may be brought is determined by the length of the settlement period for the instrument in question. This reflects the length

of time it would take for a firm to receive the proceeds of any sale. For example, equities quoted in the FTSE 100 index may be reported as funds receivable in the sight - eight days category because settlement for equities sold today occurs in less than eight days. Where the settlement period for items is more than eight days, or where there are other factors which mean that funds would not be received within the sight to eight days category were the asset sold or repo'd today, then the funds should be recorded as receivable in the over eight days to one month column of Part 1. Where settlement or other delays mean that funds would not be received within one month, then the items should be recorded in Part 2 of this return.

- 35 Marketable assets maturing at exactly one month should be reported in Part 1 of the return. Firms however, may include the full value of the asset in the one month timeband and not to discount at all during the life of the asset.
- 36 Where assets have a residual maturity of less than one month, the FSA recognises that it is not relevant to automatically apply a discount to such assets. In general, these assets should be entered as cash flows in the relevant timeband in Part 2 of the form (not Part 1) and no discount will be applied. The FSA acknowledges, however, that certain assets may be marketable right up to the day before they mature, and the agreement of the FSA should be sought before such assets are included in Part 1.
- 37 Assets which do not meet the criteria in paragraph 38 below, or which cannot be fitted into the tables below, are non-marketable assets for the purposes of this return and should be reported in Part 2 of the form according to their residual maturity. This covers:
- (a) Non-investment grade debt instruments (as rated by a recognised credit agency) issued by a Zone B issuer;
 - (b) Non-investment grade debt instruments (as rated by a recognised credit agency) issued by a non-government Zone A issuer;
 - (c) Commercial paper and certificates of deposit that do not meet the definition of marketable assets as set out in paragraph 38 below and Chapter LM (Mismatch liquidity), Section 5.1.3, of IPRU (BANK).
- 38 Marketable assets need to fulfil all the following criteria:
- (a) prices are regularly quoted for the item by a range of counterparties;
 - (b) the item is regularly traded;
 - (c) the item may be sold (or repo'd) either on an exchange or in a deep and liquid market, for payment in cash; and
 - (d) settlement is according to a prescribed timetable rather than a negotiated timetable.
- 39 To avoid double counting, cash flows (of principal or interest) arising from holdings of marketable assets should not be included in Part 2 of this return.
- 40 Where Brady bonds have been issued by Zone A governments, these securities should be reported as zone A government debt under data elements 2A-4B rather than as Brady bonds in elements 14A or 14B.
- 41 The value included at demand-eight days or demand-one month will normally be a discount to the marked-to-market value of the asset (taken from the bid price) at the reporting date. The range of discounts is set out below.

(i) Zone A items issued in zone A currencies

Asset	Discount factor
Central government and central government guaranteed marketable securities, including Treasury bills, eligible local authority paper and eligible bank bills with 0 - 12 months residual maturity. Also Brady Bonds issued by Zone A governments of similar maturity.	0% (20% if denominated in a Zone B currency)
Other central government, central government guaranteed and local authority marketable debt with over 12 months - 5 years residual maturity or issued at variable rates with over 12 months residual maturity. Also Brady Bonds issued by Zone A governments of similar maturity.	5% (25% if denominated in a Zone B currency)
Other central government, central government guaranteed and local authority marketable debt with over five years residual maturity. Also Brady Bonds issued by Zone A governments of similar maturity.	10% (30% if denominated in a Zone B currency)
Non-government debt securities which are either issued by a Zone A credit firm or an investment firm subject to a CAD equivalent regime or which are classified investment grade by a relevant credit ratings agency (see paragraph 42) and which have 0 - 6 months residual maturity.	5% (25% if denominated in a Zone B currency)
Non-government debt securities which are issued by a Zone A credit firm or an investment firm subject to a CAD equivalent regime or which are classified investment grade by a relevant credit ratings agency (see paragraph 42) and which have over 6 months - 5 years residual maturity.	10% (30% if denominated in a Zone B currency)
Non-government debt securities which are issued by a Zone A credit firm or an investment firm subject to a CAD equivalent regime or which are classified investment grade by a relevant credit ratings agency (see paragraph 42) and which have over 5 years residual maturity.	15% (35% if denominated in a Zone B currency)

(ii) Zone B items (irrespective of currency)

Asset	Discount factor
Central government and central government guaranteed marketable securities, including Treasury bills, with 0 - 12 months residual maturity which are classified investment grade by a relevant credit ratings agency (see paragraph 42).	20%
Other central government and central government guaranteed marketable debt with over 12 months - 5 years residual maturity, or at variable rates, which is classified investment grade by a relevant credit ratings agency (see paragraph 42).	30%

Other central government and central government guaranteed marketable debt with over five years residual maturity which is classified investment grade by a relevant credit ratings agency (see paragraph 42).	40%
Non-government debt securities which are classified investment grade by a relevant credit ratings agency (see paragraph 42) and which have 0 - 6 months residual maturity.	30%
Non-government debt securities which are classified investment grade by a relevant credit ratings agency (see paragraph 42) and which have over 6 months - 5 years residual maturity.	40%
Non-government debt securities which are classified investment grade by a relevant credit ratings agency (see paragraph 42) and which have over 5 years residual maturity.	50%

(iii) Brady Bonds

Brady Bonds (other than those issued by Zone A governments)	20% (40% if denominated in a Zone B currency)
-------------------------------------------------------------	-----------------------------------------------

(iv) Equities

Equities which are listed on a recognised stock index (see paragraph 43).	20% (40% if recognised stock index in a Zone B country)
---------------------------------------------------------------------------	---------------------------------------------------------

- 42 A relevant credit ratings agency means an *eligible ECAI*.
- (a) An *eligible ECAI* is defined in the glossary of defined terms used in the Handbook.
- 43 A recognised stock index means a *qualifying equity index*.
- (a) A *qualifying equity index* is defined in the glossary of defined items used in the Handbook.

Collateral/assets pledged

- 44 Where a firm has pledged assets as collateral (ie where those assets remain on the firm's balance sheet but have been charged as collateral), it should no longer count them either as being available for sale as discounted marketable assets (in Part 1 of the form), or at their residual maturity in the timebands (in Part 2 of the form) for the period until they are again available for immediate sale. However, where a firm receives coupon or interest payments arising from pledged assets, it may record those cash flows as receivables in the timeband according to their receipt.
- 45 Where a firm has collateral pledged to it, or does not have full legal title to collateral, it should not count the assets that make up the collateral as available for sale as marketable assets. Only where full legal title to the assets received as collateral has

passed to the firm, and the assets are available for immediate resale, may that firm treat them as marketable assets.

- 46 Where a firm has received assets as collateral but they are not beneficially owned nor available for sale by the firm immediately (for example, unless there is an event of default by the counterparty), they should not be reported as forming part of the firm's stock of marketable assets.

Off balance sheet cash flows

- 47 For forward sales and purchases, when the firm sells forward an asset on Part 1 of the return, that particular asset may continue to be reported in Part 1 of the form until the date of the forward sale, when the asset leaves the firm's ownership. The inflow of the cash and the outflow of the asset should still be reported in Part 2 of the return at the 'residual maturity' of the deal. This treatment is the same as for repos where the asset ceases to appear on Part 1 from the start of the repo (paragraphs 54-58 below).
- 48 Swaps, FRAs and futures should be reported according to the cash flows they entail. Fixed legs of swaps should be recorded as the amount of the known cash flow; floating legs of swaps, FRAs and futures will be recorded according to the cash flow implied by their market value at the reporting date.
- 49 Option inflows and outflows are reported as memo items in data elements 55A and 56A in Part 2 of the return. Firms may use one of two methods (see the instructions for data elements 55A and 56A). Whichever method is adopted, it should be specified in the firm's liquidity policy statement. Margin payments on exchange traded options should be reported according to the treatment outlined in paragraph 52; amounts relating to the principal on exchange traded options should be reported in the same way as other option inflows and outflows.
- 50 Warrants should be reported according to the treatment for options outlined in the previous paragraph.
- 51 Convertible debt securities should be treated as equities where;
- i) the first date at which conversion may take place is less than 3 months ahead, or the next such date (where the first has passed) is less than a year ahead; and
 - ii) the convertible debt security is trading at a premium of less than 10%, where the premium is defined as the current mark-to-market value of the convertible debt security less the mark-to-market value of the underlying equity, expressed as a percentage of the mark-to-market value of the underlying equity.

Convertible debt securities other than those defined above may be treated as equity or debt securities.

Margin

- 52 Since variation margin payments on exchange traded futures take place every day, no amount should be recorded on the form for these payments. Held options should be reported in the memo items for options (data elements 55A and 56A). For other futures, firms should enter the mark-to-market value of the future in the appropriate band. Where there is no exchange of principal, the firm should only report the flows in the timebands which it reports on a cash flow basis. However, should the firm hold an additional amount at the clearing house to cover variation margin, this should be entered as a demand asset on Part 2 of the form under 'Other inflows'. The amount of initial margin held by the firm at a clearing house should be entered in the 'Corporate'

data element 26A-26G in the relevant timeband according to the residual maturity of the longest delivery date on the account.

- 53 For deposits with brokers, where the broker is acting as an intermediary, the same treatment should be applied to the deposits as that applied to variation and initial margin posted with clearing houses. Where firms cannot distinguish between variation and initial margin, the amount should be entered at the furthest maturity of all contracts on the exchange.

Repos and reverse repos

- 54 The treatment of repos, reverse repos, stock lending and stock borrowing is essentially analogous to that of forward sales and purchases and is described in Appendix 1 to these instructions. Stock lending and borrowing is treated as being analogous to repo and reverse repo where ownership of the items borrowed and loaned is transferred under the transaction; the item borrowed is then available for sale immediately by the borrowing firm. The following treatment should therefore be applied:

- (a) The borrowed item should be reported in Part 1 of the form; the loaned item should cease to be reported in Part 1 of the form.
- (b) Report the discounted value of the loaned item as an inflow; report the discounted value of the borrowed item as an outflow in the 'Repo/Reverse Repo' line at the maturity of the transaction where both are marketable assets.
- (c) Should either asset be classed as 'non-marketable', the relevant adjustments should be made to the non-marketable assets line in Part 2 of the form.

- 55 It has been assumed throughout this definition that the cash leg of the transaction is effected through Nostro accounts.

- 56 Throughout this section of the General Notes, the term 'discounted value of the security' will refer to the value of the security once the supervisory discount has been applied to the market value of the asset.

- 57 During the lifetime of a repo, the discounted value of the asset should be reported in data elements 28A-28G according to the timeband corresponding to the maturity of the repo. Assets repo'd out will re-appear in Part 1 of the form once the asset has been received back by the firm. Reappearance in Part 1 therefore occurs at the settlement date of the asset, which may not necessarily be the next working day.

- 58 For reverse repos, the discounted value of the asset received should only be reported in Part 1 from the first working day after the start of the reversed repo. The asset should be removed from the Form LR on the day of the maturity of the reverse repo not the first working day after the maturity of the reverse repo.

Repo against DBV

- 59 Where a firm has undertaken an (overnight) repo/stock lending in return for unknown collateral, it should report as though non-government debt of over 5 years residual maturity has been received. Only where the quality of the collateral received is constrained and the firm can evidence the constraint should a more favourable treatment be adopted.

Swaps and FRAs

- 60 Firms should report all projected flows associated with a swap (including any bullet payments) during the periods where they report on a cash flow basis. Interest amounts on swaps should only be reported in the cash flow section.
- 61 With currency swaps, where an exchange of principal is effected at the start or maturity of the swap, the two amounts should be treated as a forward foreign exchange contract and reported in both the cash flow and maturity analysis sections of the form, in either data elements 32A-32G or data elements 50B-50G.
- 62 For interest rate swaps, eg a 5-year fixed rate against a 3 month LIBOR swap, firms should report the known amount of the fixed leg of the cash flow out to the last cash flow timeband (initially this will be the 'Over 8 days to 1 month' period, but by the fourth quarter of 2001, this will be the 'Over 3 months to 6 months' timeband). The floating leg should be reported out to the same timeband according to the cash flow implied by yields prevailing at the reporting date (or alternatively a forward LIBOR rate). Both legs should be reported in data elements 31A-31G or 49B-49G.
- 63 For fixed legs, the known amount of the fixed leg should be entered. For floating legs, the amount of the cash flow to be received should be derived from the swap's present value at yields prevailing at the reporting date and entered as an inflow in the relevant timeband. Where the floating leg has been agreed in advance for a specified period, firms should report the cashflow according to this rate.
- 64 Cash flows arising from FRAs should be reported in the cash flow section. The present marked-to-market value of the FRA, or the settlement amount post fixing, should be recorded in the time period based on the actual settlement date of the FRA, ie when the firm makes a payment or receives funds.

REPORTING INSTRUCTIONS

Part 1: Marketable Assets

This section is used for reporting holdings of marketable assets which are in the firm's ownership and available for sale immediately at the reporting date.

Assets should be reported at their mark-to-market value (bid price) at the reporting date. Where the firm's system does not operate on this basis, they may follow their own valuation practice, eg mid market or bid/offer prices. Firms should always report the dirty price ie including accrued interest.

Assets pledged as collateral, or assets not otherwise available for immediate resale, should not be reported in Part 1 as marketable assets. Where a firm has pledged assets as collateral in a transaction and they are no longer available for sale by the firm, they should cease to be reported in the marketable assets section (Part 1) of this form for the period until they are again available immediately for sale. Interest received on these pledged assets, however, may be reported in Parts 2 and 3 of the data item as receivable by the firm in the appropriate line as cash inflows in the period in which they occur.

For the treatment of repo/reverse repo and stock borrowing/lending, see the General Notes (paragraphs 54 to 59) to this data item.

Where assets, which would otherwise be eligible to be included in Part 1 of this data item, mature within one month, they should generally be reported in Part 2 under 'Non marketable capital items and debt instruments maturing within 1 month' (23A-23G) as an inflow/asset in the timeband corresponding to the residual maturity of the asset. Items should then be reported at full marked-to-market value, with no discount applied. The FSA recognises, however, that certain assets might be marketable up to the day they mature. It may agree with firms that it is appropriate for them to include identifiable assets maturing within one month on Part 1 until maturity.

Discount factors

To reflect the risk of price variations, a range of discount factors is applied to the marked-to-market values of assets brought forward in maturity into Part 1 of this form. The range of discount factors is listed in the General Notes (paragraph 41).

Definitions

1C Cash held

This comprises holdings of notes and coin.

2A-2D Central government/central government guaranteed, including Treasury bills, eligible Local Authority paper and eligible bank bills with a residual maturity of up to 1 year

Include:

- Short term central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by either HM Government/another UK issuer or by another Zone A Central Government/ another Zone A issuer;
- Treasury bills;
- Bank of England euro bills;

- Brady bonds issued by Zone A governments.

Both fixed and variable rate securities should be reported. Only record those securities currently in the firm's ownership (including where these are held in a clearing system such as Euroclear).

3A-4D Central government/central government guaranteed and Local Authority marketable debt between 1 year and under 5 years / of 5 years and over

Include central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by HM Government / another UK issuer or by another Zone A Central Government / another Zone A issuer, as well as Brady bonds issued by a Zone A government. Only record those securities currently in the firm's ownership (including where these are held in a clearing system such as Euroclear).

5A-7D Non-government of up to 6 months / between 6 months and 5 years / over 5 years

Non-government debt securities covers those falling within the definition of *qualifying debt security*. A *qualifying debt security* is defined in the glossary of defined terms used in the Handbook.

Only those securities in the firm's ownership, which the firm may freely dispose of at any time with no restrictions (including where these are held in a clearing system such as Euroclear), should be recorded. Those assets pledged to another firm or otherwise encumbered should not be included.

8A-8D Central government/central government guaranteed of up to 1 year

Short term central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by a Zone B Central Government/ another Zone B issuer. Also include Treasury bills, eligible local authority paper and eligible bank bills. Only those securities currently in the firm's ownership (including those which are held in a clearing system such as Euroclear) should be recorded. Securities should only be included in this section if they are classified investment grade by an *eligible ECAI* (see paragraph 42 above).

9A-10D Central government/Central government guaranteed of between 1 year and under 5 years / over 5 years

Central government (including central government guaranteed) paper and paper eligible for discount at the Central Bank issued by a Zone B Central Government/ another Zone B issuer. Include only those securities issued by, or fully guaranteed by, Zone B central governments and central banks with a residual maturity of over 1 year. Only those securities currently in the firm's ownership (including those held in a clearing system such as Euroclear) should be recorded. Securities should only be included in this section if they are classified investment grade by an *eligible ECAI* (see paragraph 42 above).

11A-13D Eligible non-government of up to 6 months / between 6 months and 5 years / over 5 years

Non-government debt securities issued, guaranteed, endorsed or accepted by an entity in a Zone B country and are investment grade. Also include those securities issued, or guaranteed by, an investment firm that is subject to the Capital Adequacy Directive or a *recognised third country investment firm*. Only those securities in the firm's ownership should be recorded (including where these are held in a clearing system such as Euroclear).

- (a) *A recognised third country investment firm* is defined in the glossary of defined terms used in the Handbook.

14A-14D Brady bonds

Brady bonds currently in the firm's ownership (including those held in a clearing system such as Euroclear). Do not include Brady bonds issued by Zone A governments here. These should be discounted and reported as Zone A government debt in lines 2A-2D, 3A-3D or 4A-4D.

15A-15D Highly liquid equities and equity indices

Equities that are eligible for a specific risk weight of 2% or less under the FSA's Implementation of the Capital Adequacy Directive and the amendment to the Basel Accord for Market Risks and which are currently in the firm's possession.

Part 2: Contractual Basis: Residual Maturity

INFLOWS

Where items fall within a timeband which is reported on a cash flow basis, firms should include any interest payments or other cash flows associated with the inflow or outflow. Where the item falls within the maturity analysis of assets and liabilities, the firm should only include any of the associated interest or other payments/receipts that fall due within the cash flow reporting period.

Thus, where cash flows eg interest payments take place during the cash flow timebands, they should be reported on the return regardless of the residual maturity of the instrument. Hence, if a firm has granted a personal loan with a residual maturity of 1 year, it should report, in data element 18A-18G, those cash flows arising during the first six months.

Where a firm has been provided with a committed facility and has notified the provider of a specific draw down date, the amount of the facility which will be drawn down on that date should be included in 23A-30G. Any part of the committed facilities for which notification of draw down has not been given should be reported in data element 57A.

17A-17G Mortgages

This covers any repayments of loans to individuals secured by mortgage on residential properties (both freehold and leasehold) which are or will be occupied by the borrower, or which are rented. Report mortgage loans to housing associations registered with the Housing Corporation, Scottish Homes and Tai Cymru (Housing for Wales) on housing association residential property which is rented.

18A-18G Personal loans

This covers repayments of any personal loans granted by the firm to retail customers.

19A, 19B, 19G Overdrafts

Repayments of any overdrafts granted, including any interest, where appropriate.

Note that the FSA may require firms to complete Part 3 of FSA010 (ie apply a behavioural adjustment) for retail overdrafts.

Wholesale overdrafts should not be included here but should be reported in 30A-30G.

20A-20G Credit card inflows

Report the minimum repayment required by the firm of debt arising from credit cards issued by the firm. Subsequent repayments should be reported according to the minimum percentage repayment required.

21A-21G Repayment of advances

Any other repayments of loans associated with retail banking business that have not already been included in the above.

22A-22G Other retail inflows

Any other retail associated inflows that have not already been included in the above, such as fees and commissions.

WHOLESALE

Behavioural adjustments to these items should be reported in Part 3.

23A-23G Non-marketable securities and debt instruments, and marketable assets maturing within 1 month

Include here any securities which the firm holds or will receive, but which it cannot classify as marketable. A firm should report non-marketable assets according to the redemption value of the asset or alternatively, where the redemption value is unavailable or not appropriate (eg in the case of equities), the book value. This reflects the potential inflow of cash when the asset matures. Marketable assets maturing within one month reported at their full marked-to-market value, ie undiscounted, should also be reported here. The firm may however agree with the FSA that they should be included in Part 1.

Refer to the 'Marketable securities' section of the General Notes (paragraphs 33-43) for further guidance on what should be reported in this line.

24A-24G Intragroup/Connected

Report any inflows from counterparties connected to the firm. Where the firm is reporting on a solo consolidated basis, inflows from entities within the solo-consolidated group should not be reported. Entries should be made in this item rather than any other item in the Wholesale section if any intragroup/connected counterparties are involved.

25A-25G Interbank (excluding any intragroup)

Report inflows arising from placements with other firms, including any funds held in NOSTRO balances. Exclude from this line inflows from other bank entities within the group, which should go in 24A-24G (ie intragroup/connected). Include that element of committed facilities provided to the firm where notification of draw down date has been given.

26A-26G Corporate (non-interbank and intragroup)

Report inflows from non-bank, non-connected corporate counterparties. Initial margins held at clearing houses should be entered here according to their residual maturity. Repayments from leases should also be recorded in this line.

27A-27G Government/Public Sector

Report inflows from central governments, PSEs, local authorities and central banks. Also include funds received from the European Commission, the European Economic Community (EEC), the European Coal and Steel Community (ECSC) and Euratom.

28A-28G Repos/Reverse Repos

This item should include any transactions relating to repos and reverse repos. Firms should also enter any transactions relating to stock borrowing and lending. Refer to the 'Repo/Reverse repo' section of the General Notes (paragraphs 63-68) for further guidance on what should be reported in this item.

29A-29G Trade related letters of credit

Report here any inflows arising from trade related letters of credit.

30A, 30B, 30G Overdrafts

Report here any wholesale overdrafts, irrespective of the counterparty. Any behavioural adjustments to this item should be effected through Part 3, data elements 76A-76G.

31A-31G Swaps and FRAs

For interest rate and currency swaps, enter the receipts of fixed and floating legs in the cashflow section.

For FRAs, enter the marked-to-market receipt in the relevant time period. The amount of receipts should be derived from the contract's present value at yields prevailing at the reporting date.

Refer to the 'Swaps and FRAs' section of the General Notes (paragraphs 60-64) for further guidance on what should be reported in this item.

32A-32G Forward foreign exchange

Enter any cashflows relating to forward purchases of foreign currency, where an exchange of principal is effected at the start or maturity of the swap. The amount received should be entered in the appropriate maturity band.

33A-33G Forward sales and purchases

The cash leg of any forward sales should be treated as an inflow in the timeband corresponding to the date of the forward sale. For forward purchases, where the asset purchased is a marketable asset, the firm should report the sterling (or euro) equivalent discounted value of the security purchased at the maturity of the contract. Where the asset purchased is non-marketable, the firm should enter the sterling (or euro) equivalent discounted value of the security at the maturity of the asset.

34A-34G Other off balance sheet

Include here any other off balance sheet items not included elsewhere, according to their cashflows. For example, the inflow (£100,000) of a three month OTC interest rate future with one month to maturity and a marked-to-market value of £100,000 should be reported in the "over 8 days to 1 month" timeband.

Firms should exclude any cash inflows associated with options and enter these in 55A.

35A-35G Fees and other income

Report here fees, commissions or other income receivable by the firm relating to their wholesale business, according to their known date of receipt. Where the date of receipt is unknown, do not report these flows.

36A-36G Other inflows

Report here any other inflows, which have not been included elsewhere, according to the timing of their cashflows. Also report any inflows from settlement accounts, using the trade date plus the settlement period to determine the appropriate timeband. Where the inflow is later than this date, the amount should be entered as 'overdue'.

37A-37G Total inflows

Report here the sum of data elements 17 to 36 for each column as appropriate.

OUTFLOWS

Where a firm has made a commitment to participate in a syndicated loan arrangement, then it should record an outflow of the amount paid in the relevant box in the outflows section of Part 2. Where for example a firm pays by debiting the NOSTRO balance, it would enter an outflow in 44B-44G. Should the firm have already bought their share of the syndicated loan on the reporting date, the effect will be a reduction in the NOSTRO balance and an increase reflected in the line corresponding to the particular asset purchased.

Where the firm is the lead manager, it can be in one of three positions. First, it can act as the agent – however, this role will not lead to any inflows or outflows since it merely involves setting up a group of firms to buy parts of the issue. Second, it can be an agent and take a share of the issue. In this case, the firm should report the cash flows arising from the latter role. Third, it can also underwrite the issue in conjunction with the previous two options. In this case, it should record the full amount of the issue in 58A as an undrawn committed facility.

RETAIL

38B-38G Time deposits

Include any deposits taken which have a residual maturity of more than overnight or which require prior notice to be given by the customer before withdrawal of funds. Also include deposits which include an agreement within the contract not to withdraw before a certain date. Where a firm has a material number of deposits where the depositor incurs an interest penalty in lieu of notice, it should agree with its supervisor whether it should report these deposits on a behavioural basis. Deposits should be entered in the timeband corresponding to the minimum amount of notice of withdrawal required. Saving deposits, deposit accounts and deposit receipts should also be entered here.

39B, 39G No notice/ current accounts

Include here any amounts in accounts which are not subject to a minimum notice period ie funds which are available on demand. Also include deposits received with a residual maturity of no longer than overnight. Report any balances, whether interest bearing or not, where the entire balance is accessible without penalty either on demand or by close of business on the day following that on which the deposit was made.

40B-40G Additional advances committed

Report here any undrawn commitments to lend made by the firm where the draw down date is known. The full amount of the commitment for the draw down date should be entered in the appropriate maturity band. Where the firm has made a commitment to lend, where the date of draw down is uncertain or not known, these should be reported in data element 58A.

Where notification of draw down (of facilities that can be drawn down on demand) has been received, enter the flows in the 'Demand' timeband.

Also enter on this line any facilities that may be drawn down on demand where no notification of draw down has been received. These facilities should be entered in the '8 days and under' timeband.

Do not include undrawn facilities where no draw down date(s) have been notified or agreed (these should be included in data element 58A of the memo items pertaining to commitments below).

WHOLESALE

41B-41G Non-marketable securities & debt instruments and marketable assets maturing within 1 month

Include here at residual maturity outflows pertaining to maturing securities or debt instruments, which the firm cannot classify as marketable. Marketable assets maturing within one month at their full marked-to-market value, ie undiscounted should also be reported here.

Refer to the 'Marketable securities' section of the General Notes (paragraphs 33-43) for further guidance on what should be reported in this item.

42B-42G Additional advances committed

Enter here commitments to lend, or to take up, bills, certificates of deposit, investments etc, where there has been an agreed date(s) for the draw down of the facility. The full amount of the commitment should be entered. Also include any other contingent liabilities which it is known will actually be called on a specific date (eg performance bonds and guarantees due to be invoked), as well as money market placements and forward deposits.

Where notification of draw down (of facilities that can be drawn down on demand) has been received, enter the flows in the 'Demand' timeband.

Also enter on this line any facilities that may be drawn down on demand where no notification of draw down has been received. These facilities should be entered in the '8 days and under' timeband.

Do not include undrawn facilities where no draw down date(s) have been notified or agreed (these should be included in data element 58A of the memo items pertaining to commitments below).

43B-43G Intragroup/Connected

Report any outflows of funds to counterparties connected to the firm. Where the firm is reporting on a solo consolidated basis, outflows to entities within the solo-consolidated group should not be reported. Entries should be made in this item rather than any other item in the Wholesale section if any intragroup/connected counterparties are involved.

44B-44G Interbank (excluding any intragroup)

Report outflows arising from placements with or from, or repayments of loans to or from, other banks. Exclude from this item loans to, or placements with, or deposits/placements from, other bank entities within the group (these should be reported under "intragroup/connected", data element 51B-51G).

45B-45G Corporate (non-interbank and intragroup)

Report outflows to non-bank, non-connected, corporate counterparties.

46B-46G Government / Public Sector

Report funds lent to central governments, PSEs, local authorities and central banks. Also include funds lent to the European Commission, the European Union (EU), the European Coal and Steel Community (ECSC) and Euratom. Where a firm is required to place funds on deposit with central banks and monetary authorities, these should be entered as an outflow in the relevant time band.

47B-47G Repo/reverse repos

Record in this item any outflows related to repos or reverse repos. Also include any outflows relating to stock borrowing and lending. Refer to the 'Repos and Reverse Repos' section of the General Notes (paragraphs 54-59) for further guidance on what should be reported here.

48B-48G Trade related Letters of Credit

Report here any outflows arising from trade related letters of credit.

49B-49G Swaps and FRAs

For interest rate and currency swaps, enter payments of fixed and floating legs in the cashflow section.

For FRAs, enter the marked-to-market payment in the relevant time period. The amount paid should be derived from the contract's present value at yields prevailing at the reporting date.

Refer to the 'Swaps and FRAs' section of the General Notes (paragraphs 60-64) for further guidance on what should be reported in this item.

50B-50G Forward foreign exchange

Enter any cashflows relating to forward sales of foreign currency, where an exchange of principal is effected at the start or maturity of the swap. The amount paid should be entered in the appropriate maturity band.

51B-51G Forward sales and purchases

For forward sales, the sterling (or euro) equivalent discounted value of the security sold should be recorded as an outflow. The cash leg of any forward purchases should be treated as an outflow in the timeband corresponding to the date of the forward purchase.

52B-52G Other off balance sheet

Report here any outflows relating to off balance sheet items that have not been reported elsewhere on the data item. Firms should exclude any cash outflows associated with options and enter these in data element 56A.

53B-53G Dividends, tax, other costs and outflows

Report any outflows relating to payments of dividends and tax, or any other outflows that have not previously been reported elsewhere. Also report any outflows relating to settlement accounts, using the trade date plus the settlement period to determine the appropriate timeband.

54B-54G Total outflows

Report here the sum of data elements 38 to 53 for each column as appropriate.

MEMO ITEMS**55A, 56A Options**

There are two ways in which options can be reported in 55A and 56A. Firms should be consistent and use the same method for both inflows and outflows. Firms should also inform the FSA of the method adopted, and record this in their liquidity policy statement.

Method 1

Report the inflows and outflows of cash arising from the exercise of the options. It is assumed for reporting purposes that all options are exercised. Any movement of the underlying financial instrument to which the option relates should be ignored.

The 'options inflows' element 55A should contain

- Purchased puts for equity or commodity transactions (if the option is exercised, the firm sells the asset and receives cash);
- Written calls for equity or commodity transactions (if the counterparty exercises its right to buy, the firm sells the asset in question and receives cash);
- All inflows relating to the exercise of interest rate options held/purchased by the firm, whether call options or put options (written interest rate options are not included here but in element 56A).

The 'options outflows' element 56A should contain

- Written puts for equity and commodity transactions (if the counterparty exercises this option, the firm purchases the asset and pays out cash);
- Purchased calls for equity or commodity transactions (if this type of option is exercised by the firm, it purchases an asset and pays out cash).
- All outflows relating to the exercise of interest rate options written by your firm, whether call options or put options.

Method 2

Rather than reporting potential inflows of cash if all the options are exercised (ie method 1), this method of reporting is on the basis of marked-to-market value. Purchased options giving rise to either nothing or inflows are therefore treated as assets. Written options giving rise to either nothing or outflows are seen as liabilities.

The 'options inflows' element 55A should contain

- The marked-to-market value of all purchased options (puts or calls) multiplied by the number of options, irrespective of whether these are in or out of the money (the marked-to-market value should be reported on the reporting date).

The 'options outflows' element 56A should contain

- The marked-to-market value of all sold/written options (puts and calls) multiplied by the number of options, irrespective of whether these are in or out of the money (the marked-to-market value should be used on the reporting date).

57A Undrawn committed facilities granted to the bank

Report any facilities which have been committed to the firm and which, at the reporting date, remain undrawn. Also include any flows arising from standby letters of credit and guarantees. Where a date for draw down has been agreed, the amount should be entered in the appropriate line in the inflows section of Part 2 according to the source of the facility and entered in the corresponding timeband.

58A Undrawn committed facilities granted by the bank

Report any facilities which the firm has committed to provide (including by way of repos) and which, at the reporting date, remain undrawn. Include only those facilities where a date

for draw down has not been agreed. Where a date for draw down has been agreed or where a facility may be drawn down on demand, the amount should be entered in 40B-40G or 42B-42G of Part 2 (depending on whether they are retail or wholesale facilities). Do not include repo liabilities here, refer to the General Notes (paragraphs 54-59) for guidance as to how these should be reported.

59A Commitments under credit card and other revolving credit type facilities

Report any commitments which the firm has entered into under credit cards which have not been drawn down at the reporting date (ie available credit to cardholders).

60A Total deposits

Report the total deposits outstanding as at the reporting date, excluding any liabilities under repo/reverse repo agreements. This figure should be used as the denominator for the mismatch and in the Exceptions to guidelines section (Part 4) of this data item. Include:

- (a) All bank notes issued by the firm;
- (b) No notice/current accounts;
- (c) All time deposits;
- (d) All certificates of deposit issued by the firm, whether at fixed or floating interest rates which are still outstanding;
- (e) Negotiable deposits taken on terms in all respects identical to those on which a certificate of deposit would have been issued, but for which it has been mutually convenient not to have issued a certificate;
- (f) All other issues of commercial paper and medium term notes, bonds, FRNs and other instruments, with the exception of subordinated loan capital of over two years' original maturity;

Exclude:

- (a) Any certificates of deposit which the firm holds which it itself has issued;
- (b) Working capital provided by non-resident offices of the firm.

61A Undrawn treasury concessions granted by the bank

Where a firm has taken on a treasury role on behalf of its group, the institution must notify the FSA of its intention to use the "group treasury concession" for large exposures purposes (see *BIPRU* 10).

62A Amount of total cash inflows in arrears

Where payments on debt are contractually in arrears, the amount of the debt in arrears should be reported in this item. Only that part of the debt, along with any related interest which is in arrears, should be entered here. That part of the loan which is still due and therefore not yet in arrears should be entered in the inflows section of Part 2 in the maturity ladder in the relevant time band, provided that there is not reasonable doubt over the receipt of those inflows. Where reasonable doubt exists, the firm should report these flows in the 'overdue' timeband in the main body of the data item; they should not be entered here until the due date for payment has passed.

Part 3: Behavioural basis

Firms should complete specific items in this section in appropriate cases only. Such cases should be agreed in advance with the FSA.

INFLOWS / OUTFLOWS

Firms should report in this section cash flows after adjustment for the behavioural patterns they expect to occur. Where a firm considers an adjustment is appropriate, it should approach its supervisor who will consider proposed adjustments on an individual firm basis. Firms should be able to provide empirical evidence to support the adjustments they propose. No firm should make behavioural adjustments without the prior written agreement of the FSA.

Where behavioural adjustments are agreed, the firm should report, in the relevant line of Part 3, all the data reported in the equivalent line in Part 2 but adjusted as agreed between the firm and the FSA.

For example, if a firm has one class of no notice accounts which sum to £50mn, and another class of no notice accounts which sum to £30mn, a figure of £80mn will be shown in the appropriate line in Part 2 as a 'demand' outflow. However, the deposits in the first class of account are relatively 'sticky' and a behavioural adjustment is agreed to reflect this. For the purposes of this example, the firm may treat 50% of these outflows as occurring in the 'eight days and under (excl. next day)' timeband. In Part 3, this firm will therefore report a demand outflow of £55mn and an 'eight days and under (excl. next day)' outflow of £25mn. Part 2 will, of course, continue to show a demand outflow of £80mn.

Part 4: Calculation of mismatches and exceptions reporting

Calculation of mismatches

Firms should monitor compliance with their liquidity mismatch guidelines each business day and should report in this section the mismatch on the reporting date, using the data from the previous parts of the return. Where component boxes of this section relate back to an element in the previous three parts of the return, this is clearly shown in the list of validations. The components then sum to form the mismatches for each period.

All mismatch percentages (110A-110C and 121A-121C and also 125B and 125C) should be reported to two decimal places. For example, where a firm had a mismatch of -5%, it should be reported as -5.00 on the form. There is no limit to the size of the field.

The figures that are entered in elements 114A-114C, 118A-118C and 120A-120C should be shown to two decimal places. Thus, if it had been agreed that 15% of undrawn commitments to lend should be included in the 'demand' column, 15.00 should be entered in data elements 118A-118C.

In order for the forms to be processed, mismatch calculations should be completed on both the contractual basis and the behaviourally adjusted basis, even if the final figures (in 110A-110C and 124A-124C) will be the same. Firms should only enter figures in 114A-114C if figures have previously been agreed with the supervisors: if no figures have been agreed, line 113A-113C should be blank. If no behavioural adjustments have been agreed for data elements 118A-118C or 120A-120C, firms should enter the figure 15.00 in these boxes (assuming they have figures in elements 58A or 59A respectively, otherwise the items should remain blank). This will enable them to include the default adjustment of 15% to lines 58A or 59A, mirroring that part of the mismatch calculation on the contractual basis.

Exceptions reporting

Firms are expected to stay within their liquidity mismatch guidelines. Where a firm exceeds its guideline during the reporting period, it should contact the supervisor to inform them of any exception as soon as it occurs. Such breaches should also be reported in the 'Exceptions to guidelines' section.

Dates should be reported in 'ddmm' format, so for example, 18 June would be shown as 1806. Percentages should be reported to two decimal places, so that -5% would be reported as -5.00. Where a firm has an exception to their guideline which lasts longer than one day, it should report each consecutive day's exception separately, ie an exception running from 18 until 20 June would be reported as 18, 19 and 20 June, not 18 and 20 June.

REPOS

MARKETABLE ASSETS

	<u>Marketable asset leg (lent out)</u>	<u>Cash Leg (Received)</u>
IF MARKETABLE ASSET > 1 MONTH RESIDUAL MATURITY		
Start	Cease to be reported as owned by firm. Cease to be reported in Part 1 as marketable asset.	Report according to use of funds subsequent to repo. <i>Timeband – according to date of contract re the subsequent use, not the date of the repo.</i>
During life of repo	Report discounted marked-to-market value of asset in Part 2, data element 28A-28G (Repos/reverse repos) to reflect future inflow. <i>Timeband – corresponding to maturity of repo.</i>	Report full value of repo liability (future outflow of funds include interest) in Part 2, data element 47A-47G (Repos/reverse repos). <i>Timeband – maturity of repo.</i>
Maturity of repo	Day after maturity or at settlement date of the asset Report marked-to-market value of asset (& subsequent discounted value Col C & D) in Part 1.	Day of maturity of repo Reduce Nostro balance Report in Part 2, data elements 25A-25G (cash returned including interest).
IF A MARKETABLE ASSET < 1 MONTH RESIDUAL MATURITY		
Start	Cease to be reported as owned by firm. Cease to be reported in Part 2, data element 23A-23G (full marked-to-market value), or in Part 1 if agreed by the FSA.	Report according to use of funds subsequent to repo. <i>Timeband – according to date of contract re the subsequent use, not the date of the repo.</i>
During life of repo	Report full marked-to-market value of asset in Part 2, data element 28A-28G (Repos/reverse repos) to reflect future inflow. <i>Timeband – corresponding to residual maturity of asset.</i>	Report full value of the repo liability or the cash leg (future outflow of funds include interest) in Part 2, data element 47B-47G (Repos/reverse repos). <i>Timeband – maturity of repo.</i>
Maturity of repo	Day after maturity or more precisely at settlement date of the asset Report marked-to-market value of asset at residual maturity in Part 2, data element 41B-41G (Non-marketable securities and debt instruments and marketable assets maturing within one month) to reflect future outflow <i>Timeband - corresponding to residual maturity of asset (if in Part 2).</i>	Day of maturity of the repo Reduce Nostro balance Report in Part 2, data element 25A-25G (cash returned including interest).

REPOS

NON-MARKETABLE ASSETS

	<u>Non-Marketable asset leg (lent out)</u>	<u>Cash Leg (Received)</u>
Start	<p>Cease to be reported as owned by firm.</p> <p>Cease to be reported in Part 2, data elements 23A-23G (redemption* value).</p>	<p>Report according to use of funds subsequent to repo.</p> <p><i>Timeband – according to date of contract re the subsequent use, not the date of the repo.</i></p>
During the life of repo	<p>Report redemption* value of asset in Part 2, data elements 28A-28G (Repos/reverse repos).</p> <p><i>Timeband – corresponding to residual maturity of asset.</i></p>	<p>Report full value of repo liability or cash leg (future outflow of funds include interest) in Part 2, data elements 47B-47G (Repos/reverse repos).</p> <p><i>Timeband – maturity of repo.</i></p>
Maturity of repo	<p>Day after maturity or more precisely at settlement date of the asset</p> <p>Report redemption* value of asset at residual maturity in Part 2, data elements 23A-23G (Non-marketable securities & debt instruments and marketable assets maturing within one month).</p> <p><i>Timeband - corresponding to residual maturity of asset.</i></p>	<p>Day of maturity of repo</p> <p>Reduce Nostro balance</p> <p>Report in Part 2, data elements 25A-25G (cash returned including interest).</p>

Undated Repo: Maturity of repo is minimum notice period required under terms of contract.

*** Where redemption value of the asset is unavailable or not appropriate (eg in the case of equities), report the book value.**

REVERSE REPOS

MARKETABLE ASSETS

	Marketable asset leg (Borrowed)	Cash leg (paid)
IF MARKETABLE ASSET > 1 MONTH RESIDUAL MATURITY		
Start	Report discounted marked-to-market value of asset received for period of reverse repo in Part 1.	Reflected by decrease in Nostro in Part 2, data elements 25A-25G
During the life of reverse repo	Report discounted marked-to-market value of asset (to reflect future outflow of marketable asset) in Part 2, data elements 47B-47G (Repos/reverse repos). <i>Timeband - day of maturity of reverse repo.</i>	Report full value of funds to be received include interest in Part 2, data elements 28A-28G (Repo/Reverse repo) to reflect future inflow. <i>Timeband – maturity of reverse repo</i>
Maturity of reverse repo	Day of maturity of reverse repo Cease to report discounted marked-to-market value of asset received under reverse repo in Part 1.	Day of maturity of reverse repo Increase in Nostro balance Report in Part 2, data elements 25A-25D (cash received including interest).
IF MARKETABLE ASSET < 1 MONTH RESIDUAL MATURITY		
Start	Report marked-to-market value of marketable asset received for period of reverse repo in Part 2, data elements 23A-23G (Non-marketable securities and debt instruments & marketable assets maturing within one month). <i>Timeband - residual maturity of assets received (if in Part 2).</i>	Reflected by decrease in Nostro Report in Part 2, data elements 25A-25G.
During the life of reverse repo	Report full marked-to-market value of asset (to reflect future outflow of marketable asset) in Part 2, data elements 47B-47G (Repos/reverse repos). <i>Timeband - maturity of reverse repo.</i>	Report full value of funds to be received including interest in Part 2, data elements 28A-28G (Repos/reverse repos). <i>Timeband – maturity of reverse repo.</i>

Maturity of reverse repo	Day of maturity of reverse repo Cease to report marked-to-market value of asset received under reverse repo in Part 1 or Part 2.	Day of maturity of reverse repo Increase in Nostro balance Report in Part 2, data elements 25A-25G (cash received including interest).
--------------------------	-------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------

REVERSE REPO

NON-MARKETABLE ASSETS

	Non-Marketable asset leg (Borrowed)	Cash Leg (Paid)
Start	Report redemption* value of non-marketable asset received for period of reverse repo in Part 2: 'Non-marketable securities and debt instruments & marketable assets maturing within one month'. <i>Timeband - at residual maturity of assets received.</i>	Reflected by decrease in Nostro Report in Part 2, data elements 25A-25G.
During life of reverse repo	Report full redemption* value of asset (to reflect outflow of non-marketable asset) in Part 2, data elements 47B-47G (Repo/Reverse repo). <i>Timeband – maturity of reverse repo.</i>	Report full value of funds to be received including interest in Part 2, data elements 28A-28G (Repos/reverse repos). <i>Timeband - maturity of repo.</i>
Maturity of reverse repo	Day of maturity of reverse repo Cease to report redemption* value of asset received under reverse repo in Part 2.	Day of maturity of reverse repo Increase in Nostro balance Report in Part 2, data elements 25A-25G (cash received including interest).

Undated reverse repo: Assume firm has security indefinitely and repo does not as such have a maturity. Return to show decrease in Nostro balance in data elements 25A-25G and an increase in stock of marketable (non-marketable) assets. Nothing further need be reported until the maturity of the reverse repo is known.

* Where redemption value of the asset is unavailable or not appropriate (eg in the case of equities), report the book value.

25	113B	= if (114B <> 0, then (114B * 57A / 100) , else no validation)
26	115B	= 112B + 113B
27	111C	= 16C
28	112C	= 112B + (the components of 37C substituting, as agreed with supervisors, the individual items within 63C-82C for the corresponding items in 17C-36C respectively, for those lines where the figures in Part 3 Column G are greater than zero)
29	113C	= if (114C <> 0, then (114C * 57A / 100), else no validation)
30	115C	= 111C + 112C + 113C
31	111D	= 16C + 16D

¹ Expanding this to explain the logic (which also applies to validations 28, 32, 35, 39 and 43 in Part 4), the figures are an adjustment of the contractual basis figures, hence 102B as the starting point in this validation. (The individual item making up 102B (validation 1 on 'Calculation of Liquidity Mismatches') is in turn the sum of various items (validation 2 on 'Contractual basis – Inflows'.) Setting out the validation in detail gives:

- 112B = 102B – 17B + if(63G > 0, then 63B, else 17B)
- 18B + if(64G > 0, then 64B, else 18B)
 - 19B + if(65G > 0, then 65B, else 19B)
 - 20B + if(66G > 0, then 66B, else 20B)
 - 21B + if(67G > 0, then 67B, else 21B)
 - 22B + if(68G > 0, then 68B, else 22B)
 - 23B + if(69G > 0, then 69B, else 23B)
 - 24B + if(70G > 0, then 70B, else 24B)
 - 25B + if(71G > 0, then 71B, else 25B)
 - 26B + if(72G > 0, then 72B, else 26B)
 - 27B + if(73G > 0, then 73B, else 27B)
 - 28B + if(74G > 0, then 74B, else 28B)
 - 29B + if(75G > 0, then 75B, else 29B)
 - 30B + if(76G > 0, then 76B, else 30B)
 - 31B + if(77G > 0, then 77B, else 31B)
 - 32B + if(78G > 0, then 78B, else 32B)
 - 33B + if(79G > 0, then 79B, else 33B)
 - 34B + if(80G > 0, then 80B, else 34B)
 - 35B + if(81G > 0, then 81B, else 35B)
 - 36B + if(82G > 0, then 82B, else 36B)

32	112D	= 112C + (the components of 37D substituting, as agreed with supervisors, the individual items within 63D-82C for the corresponding items in 17D-36D respectively, for those lines where the figures in Part 3 Column G are greater than zero)
33	113D	= if (114D <> 0, then (114D * 57A / 100), else no validation)
34	115D	= 111D + 112D + 113D
35	116B	= the components of 104B substituting, as agreed with supervisors, the individual items within 84B-99B for the corresponding items in 38B-53B respectively, for those lines where the figures in Part 3 Column G are greater than zero
36	117B	= if (118B <> 0, then (118B * 58A / 100), else no validation)
37	119B	= if (120B <> 0, then (120B * 59A / 100), else no validation)
38	121B	= 116B + 117B + 119B
39	116C	= 116B + (the components of 104C substituting, as agreed with supervisors, the individual items within 84C-99C for the corresponding items in 38C-53C respectively, for those lines where the figures in Part 3 Column G are greater than zero)
40	117C	= if (118C <> 0, then (118C * 58A / 100), else no validation)
41	119C	= if (120C <> 0, then (120C * 59A / 100), else no validation)
42	121C	= 116C + 117C + 119C
43	116D	= 116C + (the components of 104D substituting, as agreed with supervisors, the individual items within 84D-99D for the corresponding items in 38D-53D respectively, for those lines where the figures in Part 3 Column G are greater than zero)
44	117D	= if (118D <> 0, then (118D * 58A / 100), else no validation)

45	119D	= if (120D <> 0, then (120D * 59A / 100), else no validation)
46	121D	= 116D + 117D + 119D
47	122B	= 115B – 121B
48	123B	= 60A
49	124B	= ((122B/123B) x 100) ± 0.01, to 2 decimal places
50	122C	= 115C – 121C
51	123B	= 109B
52	124C	= ((122C/123B) x 100) ± 0.01, to 2 decimal places
53	122D	= 115D – 121D
54	124D	= ((122D/123B) x 100) ± 0.01, to 2 decimal places

FSA011 – Building society liquidity

This data item is used to monitor the liquidity position of *building societies* under *IPRU(BSOC)*.

Valuation

For the general policy on valuation, please see the rules and guidance set out in *GENPRU* 1.3.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

Definitions

Column A Values here should be reported on the same basis as they are reported in the balance sheet (FSA001), except they should include accrued interest for each item. It may include items which are not eligible for inclusion within the prudential liquidity calculation.

Column B These amounts do not qualify as prudential liquidity. See *IPRU(BSOC)* Annex 5 for a list of assets that are ineligible.

Column C These may be the same value as in Column A.

Column D This is the result of applying the discount factors set out in *IPRU(BSOC)* 5.4.4G.

Column E The amount of prudential liquidity.

1-5 Liquid assets realisable in up to 8 days

4 Total gilts

Include all gilt edged securities, according to their residual maturity. This is the sum of rows 1 to 3.

5 Other

Includes cash; current account balances; Treasury, local authority and eligible bank bills; deposits with local authorities, banks and building societies with not more than 8 days notice or within 8 days of maturity; Certificates of Deposit (CDs) issued by credit institutions with 3 months or less to maturity; and commercial paper with a residual maturity up to 1 month.

6 Liquid assets realisable from 9 days to 3 months

This is the portion of those assets defined in *IPRU(BSOC)* Annex 5A that are realisable from 9 days up to 3 months.

7 Liquid assets realisable in 3 months and over

This is the portion of those assets defined in *IPRU(BSOC)* Annex 5A that are realisable in 3 months and over.

8A Book value of total liquid assets

The sum of all liquid assets (data elements 4A to 7A). See *IPRU(BSOC)* Annex 5 for a list of those items that can be regarded as liquid assets.

8B Ineligible liquid assets

The sum of those amounts that are ineligible for inclusion as prudential liquidity (data elements 4B to 7B). See *IPRU(BSOC)* Annex 5 for a list of those items that can be regarded as eligible.

8E Total amount of prudential liquidity

This is the sum of data elements 4E to 7E.

9A SDL at reporting date

This is calculated as the sum of share liabilities including interest accrued, plus deposits and debt securities including interest accrued. See *IPRU(BSOC)* 5.3.2G for a definition of SDL.

10A-10C Minimum total prudential liability in the quarter

This is the minimum amount of total prudential liquidity held, based on end day positions, during the quarter. SDL on the relevant day should be based on the estimated SDL on the relevant day. Dates should be reported in the format 'ddmmyy'.

11A-11C Maximum total prudential liability in the quarter

This is the maximum amount of total prudential liquidity held, based on end day positions, during the quarter. SDL on the relevant day should be based on the estimated SDL on the relevant day. Dates should be reported in the format 'ddmmyy'.

12A Building society holdings at reporting date

This is the total of liquid asset holdings with all other societies in total, and includes any undrawn committed facilities provided to societies. It covers securities and money market instruments issued by and deposits placed with any other building society.

Specialist data

This is the value of funding accounted for by those elements which are restricted (ie funding excluding shares held by individuals).

The purpose of 13A and 14A is to report the actual value of the QE of the statutorily defined percentages relating to the funding and lending nature limits.

13A Business assets not FSRP as % of business assets

This is the value of business assets that are not fully secured on residential property (FSRP) as a % of total business assets. It is monitored under Section 6 of the Building Societies Act 1986.

14A Deposits and loans as % of SDL

These are monitored under Section 7 of the Building Societies Act 1986.

15A Amount of offshore deposits

This is the amount of deposits taken by societies' undertakings doing deposit taking offshore (eg in the Channel Islands or Isle of Man), or other undertakings established in other countries primarily to take deposits.

16A Large shareholdings as % of SDL

This item relates to the aggregate balances on both share and deposit holdings (where a single holding in respect of an individual is the totality of accounts held by that individual), excluding accrued interest, which are each in excess of 0.25% of total SDL.

FSA011 – Building society liquidity validations

Internal validations

Data elements are referenced by row then column.

Validation number	Data element		
1	4A	=	1A + 2A + 3A
2	4C	=	1C + 2C + 3C
3	4D	=	1D + 2D + 3D
4	4E	=	4D
5	5E	=	5A - 5B
6	6E	=	6A - 6B
7	7E	=	7A - 7B
8	8A	=	4A + 5A + 6A + 7A
9	8B	=	5B + 6B + 7B
10	8E	=	4E + 5E + 6E + 7E
11	8E	=	8A - 8B
12	11A	>	10A

FSA012 – Non-deposit taking EEA bank liquidity

This data item is used by the FSA to monitor the liquidity positions of an EEA bank, other than one with permission for cross border services only, that does not have permission to accept deposits.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

1A Total assets of the branch

Report here the total assets of the branch in the UK.

2A Cumulative net inflow (outflow) up to 8 days

This is the inflows you contractually expect to receive within 8 days, less the payments you are contractually bound to make within 8 days of the reporting date.

2B Cumulative net inflow (outflow) up to 1 month

This is the figure reported in data element 2A, onto which has been added the sum of the inflows you contractually expect to receive after 8 days but within 1 month, less the payments you are contractually bound to make after 8 days but within 1 month of the reporting date.

2C Cumulative net inflow (outflow) up to 3 months

This is the figure reported in data element 2B, onto which has been added the sum of the inflows you contractually expect to receive after 1 month but within 3 months, less the payments you are contractually bound to make after 1 month but within 3 months of the reporting date.

2D Cumulative net inflow (outflow) up to 6 months

This is the figure reported in data element 2C, onto which has been added the sum of the inflows you contractually expect to receive after 3 months but within 6 months, less the payments you are contractually bound to make after 3 months but within 6 months of the reporting date

2E Cumulative net inflow (outflow) up to 9 months

This is the figure reported in data element 2D, onto which has been added the sum of the inflows you contractually expect to receive after 6 months but within 9 months, less the payments you are contractually bound to make after 6 months but within 9 months of the reporting date

3A Cumulative net inflow (outflow) up to 8 days as a % of total assets

This is data element 2A as a percentage of data element 1A, reported to two decimal places.

3B Cumulative net inflow (outflow) up to 1 month as a % of total assets

This is data element 2B as a percentage of data element 1A, reported to two decimal places.

FSA012 – Liquidity mismatch (for EEA branches that do not have permission to accept deposits) validations

Validations

Data elements are referenced by row then column.

Validation number	Data element		
1	3A	=	2A/1A
2	3B	=	2B/1A

FSA013 - Stock liquidity

This data item is used to calculate the level of sterling stock liquidity which the firm should hold against its estimated outflow of funds arising from liabilities to wholesale and retail customers. This level should be maintained at all times. Unless otherwise agreed, the data item should be completed on a consolidated basis. Where a firm wishes to report on a different basis, this should be agreed in advance with the FSA.

Valuation

For the general policy on valuation, please see the rules and guidance set out in *GENPRU* 1.3.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2A will be the element numbered 2 in column A.

1A Cash

Include all sterling notes including Bank of England notes and also notes issued by the Scottish and Northern Irish banks. Include cash which the firm has paid into another *UK bank, EEA bank or non-EEA bank*, or the Banking Department of the Bank of England, which has not yet been credited to the reporting institution's account in the books of the other bank.

Holdings of gold sovereigns should be excluded.

2A Operational balances with the Bank of England

Enter balances with the Head Office of the Bank of England, except special deposits and cash ratio deposits, which should be excluded.

Amounts receivable under finance leases from the Bank of England should be excluded (in contrast to statistical reporting to the Bank of England).

3A UK Treasury Bills

Enter holdings of UK Treasury bills issued by H M Government. UK Treasury bills denominated in euros and Bills for which the Bank of England is obligor may also be included.

4A Gilts

Enter all holdings of sterling and foreign currency denominated stock issued by H M Government and the Irish land purchase stocks. Other British Government-guaranteed stocks should be excluded from this data item.

5A Other

Firms may, with the prior agreement of the FSA, include any of the following

- sterling international bonds issued by EEA governments and certain international financial institutions, where they have been issued directly into the Euroclear and Cedel settlement systems;

- sterling bonds ('bulldogs') of the same issuers, where they have been issued into (and are now held by) the CREST settlement system; and
- Euro denominated bonds of the same issuers where they are eligible for use in ESCB monetary policy operations.

You will find more detailed lists of all three categories of assets on the Bank of England's website under OMO on the "Eligible Securities" page (www.bankofengland.co.uk/markets/money/eligiblecurities.htm).

The FSA will automatically extend the list of assets that it considers appropriate for banks to count as 'sterling liquid assets' in line with the Bank of England's programme of extending its list of 'eligible securities', as described in its notice of 15 October 1998. The Bank will maintain updated lists of the relevant assets on its website.

The international financial institutions whose issues may be included are:

African Development Bank
 Asian Development Bank
 Council of Europe Social Development Fund
 European Atomic Energy Community
 European Bank for Reconstruction and Development
 European Community
 European Coal and Steel Community
 European Investment Bank
 Inter-American Development Bank
 International Bank for Reconstruction and Development/World Bank
 International Finance Corporation
 Nordic Investment Bank

6A Total sterling stock

This is the sum of the 1A to 5A.

7A Wholesale sterling net outflow limit over five working days

Enter the institution's internal limit for the wholesale sterling net outflow over five working days. The limit should be agreed with the FSA. This should be the limit shown in the firm's most recent liquidity policy statement submitted to the FSA unless it has been agreed with the FSA that a different limit is appropriate. This limit should not be changed without the prior agreement of the FSA.

8A Sterling Stock Floor over five working days

Enter the floor for the sterling stock over five working days, as agreed with the FSA. Unless otherwise agreed, the floor should normally be the figure entered in data element 9A multiplied by 0.5, rounded down to an integer where appropriate. The floor should not be changed without the prior agreement of the FSA. It should not exceed 6A.

9A Wholesale sterling net outflow over five working days

Include all deposits from banks and building societies taken via the firm's Treasury Division. Include all other deposits of £1mn or more taken on wholesale market terms. For this purpose, wholesale deposits shall be defined as deposits closely related to money market operations which are made as a result of customers being offered a specific rate for a particular deposit for a particular period. This shall be taken to include interest-bearing funds

deposited either at branches or direct with, for example, the firm's Treasury Division, on the strength of an interest rate quoted on enquiry on each occasion that a deposit is made.

Include sterling certificates of deposit maturing within five working days.

In normal circumstances, data element 9A should not exceed data element 7A. Exceptions should be notified to the normal supervisory contact at the FSA unless the institution has enough surplus stock liquidity, over and above that needed to meet the LQR (data element 16A below), to cover the excess. Where this is the case, the exception should not be reported to the FSA.

Any cases of doubt should be referred to the normal supervisory contact at the FSA.

10A Sterling certificates of deposit held - total

Exclude sterling certificates of deposit maturing within five working days which have been included in data element 9A above.

If a firm holds certificates of deposit which it has itself issued, these should be excluded from this data element.

Include negotiable deposits made on terms identical to those on which a certificate of deposit would have been issued, but for which it is mutually convenient not to issue a certificate.

11A Total discounted certificates of deposit

The figure, which is data element 10A multiplied by 0.85, should be rounded down, where appropriate, to an integer.

12A Allowable certificates of deposit

This figure should be calculated using the figure reported in data element 11A (after any rounding down). The limit, expressed as 50% of data element 9A, should also be rounded down if appropriate.

14A Sterling retail deposits falling due in next five working days

Include all retail deposits with a residual contractual maturity of five working days or less as at the reporting date. Deposits subject to a penalty on withdrawal should only be included if the residual contractual maturity is five working days or less.

For this purpose, retail deposits shall be defined as deposits which arise from customer acceptance of an advertised rate (including nil) for a particular product. This shall be taken to include deposits taken in a firm's branch network on the grounds of an existing or new customer relationship where the rates of interest are not directly linked to interbank rates, and are advertised or displayed at the branch counter or are part of standard tariff terms so that depositors can establish, without further enquiry, the rate applicable to each type of deposit.

Any cases of doubt should be referred to the normal supervisory contact at the FSA.

15A Sterling retail deposits to be covered

The figure (data element 15A multiplied by 0.05) should be rounded up, where appropriate, to an integer (being prudent).

16A Sterling liquidity ratio (LQR)

The sterling liquidity ratio should be 100% or more unless it is appropriate for the firm to maintain a lower ratio (such cases should be agreed with the FSA). The figure should be calculated to two decimal places (rounding .005 and above up, and below .005 down). The

calculated figure should then be multiplied by 100 and reported in this data element as integers.

Repo activity

Where gilts or other assets qualifying for inclusion in the sterling liquidity stock have been acquired as a result of entering into a repo or reverse repo transaction, they can be included in a firm's liquidity stock for the duration that they are held; conversely, the asset sold should be excluded until it is repurchased.

Breaches

Any breaches of the stock liquidity ratio should be reported immediately to the normal supervisory contact at the FSA.

FSA013 – Stock liquidity validations

Internal validations

Data elements are referenced by row then column.

Reference number	Data element		
1	6A	=	$1A+2A+3A+4A+5A$
2	8A	\leq	6A
3	11A	=	$10A*0.85$, rounded down to an integer
4	12A	\leq	$9A/2$, rounded down to an integer
5	12A	\leq	11A
6	13A	=	$11A-12A$
7	15A	=	$14A*0.05$
8	16A	=	If $9A > 0$, then $(6A/(9A-12A+15A))$ multiplied by 100 to 2 decimal places, (rounding 5 and over up, and under 5 down), then multiplied by 100, otherwise $(6A/(0-12A+15A))$ multiplied by 100 to 2 decimal places, (rounding 5 and over up, and under 5 down), then multiplied by 100

FSA014 – Forecast data

This data provides details of a firm's financial forecasts for the year following the reporting date, or an updated forecast at the interim stage. If a firm does not re-forecast (or update the forecast) at the interim stage, then the figures will be the same as previously reported.

The data elements 6A, 12A, 13A and 14A should be provided by all firms as a minimum.

The firm should complete the other data elements to the extent it has the data available. Forecasts should be made on a best endeavours basis, aiming where possible to match with specific data elements in other data items that are provided regularly. Firms should aim for consistency in approach when compiling these data.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

1A Net interest income

This item should be equivalent to data elements 2B minus 25B on data item FSA002 (Income statement).

2A Other income

This is equivalent to data elements 1B minus 2B on data item FSA002.

3A Expenditure

This is equivalent to data element 25B minus 26B, plus 34B on data item FSA002.

4A Impairment/provisions

This is equivalent to data element 40B on data item FSA002.

5A Total profit before tax

This is equivalent to data element 44B on data item FSA002.

6A Net profit (loss)

This data element should be completed by all firms.

This is equivalent to data element 46B on FSA002.

7A Cash and balances at central banks

This is equivalent to data element 5A plus 5B on data item FSA001 (Balance sheet).

8 Loans and advances to customers

This is equivalent to data elements 9A plus 9B on data item FSA001.

9 Investments

This is equivalent to data elements 10A plus 10B plus 11A plus 11B plus 13A plus 13B plus 14A plus 14B on data item FSA001.

10A Retail deposits

This is equivalent to data element 25A on data item FSA001.

11A Deposits by banks, including overdrafts

This is equivalent to data element 23A on data item FSA001.

12A Total assets/liabilities

This data element should be completed by all firms.

This is equivalent to data elements 20A plus 20B on data item FSA001.

13A Total capital after deductions

This data element should be completed by all firms.

This is equivalent to data element 15A on data item FSA003 (Capital adequacy).

14A Variable capital requirement at end of period

This data element should be completed by all firms.

This is equivalent to data element 70A on data item FSA003.

FSA014 – Forecast data validations

There are no validations for his data item.

FSA016 – Solo consolidation data

This data item collects information on the subsidiaries included within solo-consolidation. It is designed to provide the FSA with sufficient information to understand the impact and profile of the solo-consolidated subsidiaries on the balance sheet of the firm, while at the same time limiting the information to the most material subsidiaries.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2A will be the element numbered 2 in column A.

1A – Number of subsidiaries included in the solo-consolidation

This is the number of firms that are included within the solo-consolidation and for which waivers have been granted.

2A – Book value of investments included in solo-consolidation – EEA incorporated

This is the book value of EEA- incorporated investments that are included within the firm's solo-consolidated reporting under *BIPRU 2.1*, in the unconsolidated accounts of the firm.

3A – Book value of investments included in solo-consolidation – non-EEA incorporated

This is the book value of non-EEA incorporated investments that are included within the firm's solo-consolidated reporting under *BIPRU 2.1*, in the unconsolidated accounts of the firm.

4A Surplus capital in the parent firm

This figure is the total capital after deductions from the solo-consolidated FSA003 (data element 15A) less the value of the investments reported in data elements 2A and 3A above, to which has been added back the value of any investments by the solo-consolidated subsidiaries in their own non solo-consolidated subsidiaries.

5 Top 5 solo-consolidated subsidiaries ranked by book value of investment

For each of the subsidiaries listed, the following details should be provided:

- 5A the name of the subsidiary;
- 5B the country of incorporation;
- 5C a brief business descriptor from a pre-defined list – funding; lending; investment; other;
- 5D the main underlying assets from a predefined list – commercial property; residential property; fixed assets; plant; investment grade debt securities; investment grade equity; debt securities; equity; other;
- 5E the book value of the subsidiary (included within 2A or 3A above); and
- 5F the capital requirements arising from the assets held by the subsidiary.

6 Top 5 solo-consolidate subsidiaries ranked by aggregate exposure of parent to subsidiary

For each of the subsidiaries listed, the following details should be provided:

- 6A the name of the subsidiary;
- 6B the country of incorporation;
- 6C a brief business descriptor from a pre-defined list – funding; lending; investment; other;
- 6D the main underlying assets from a predefined list – commercial property; residential property; fixed assets; plant; investment grade debt securities; investment grade equity; debt securities; equity; other;
- 6E the aggregate exposure of the parent to the subsidiary, including funding in a capital form;
- 6F the exposure of the parent to the subsidiary at the reporting date with a residual maturity of less than one year; and
- 6G the capital requirements arising from the assets held by the subsidiary.

7 Top 5 solo consolidated subsidiaries ranked by net flow of funds from parent to subsidiary during the period

For each of the subsidiaries listed, the following details should be provided:

- 7A the name of the subsidiary;
- 7B the country of incorporation;
- 7C a brief business descriptor from a pre-defined list – funding; lending; investment; other;
- 7D the main underlying assets from a predefined list – commercial property; residential property; fixed assets; plant; investment grade debt securities; investment grade equity; debt securities; equity; other; and
- 7E the net flow of funds from the parent to the subsidiary, including funding in a capital form.

FSA016 – Solo consolidated data validations

Internal validations

There are no internal validations for this data item.

External validation

There are no external validations for this data item.

FSA017 – Interest rate gap

This data item collects information on the interest rate gap. It is designed to provide the FSA with sufficient information to understand the interest rate sensitivity of a firm's assets and liabilities. Some firms may already have sophisticated models capable of showing the impact of a 2% shift in interest rates and, in such cases, these firms may seek a waiver from reporting this data item.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2A will be the element numbered 2 in column A.

Gap analysis is undertaken by examining details of interest sensitive assets and liabilities to establish when they will next reprice (i.e. be subject to a change in interest rate), and then tabulating those which reprice within set time periods (known as 'time buckets', within which all items repricing are grouped together). Interest rate sensitive items are those assets and liabilities that are subject to contractual change in interest rates, or which mature (fall due for repayment) during the period of the return. (Note that the contractual date for repricing purposes is not necessarily the maturity date of the asset/liability. For example, a 3 year loan could be repriced every six months at a spread above 6 month LIBOR. If it was rolled over a month ago then it will reprice in 5 months', not in 3 years', time.)

Those assets and liabilities lacking definitive repricing intervals (e.g. sight deposits or savings accounts) or actual maturities that could vary from contractual maturities (e.g. mortgages with an option for early repayment) should be assigned to repricing time bands according to the judgement and past experience of the firm.

When fixed rate liabilities in an individual time bucket exceed fixed rate assets in the same bucket, a 'negative gap' exists for that period - implying that a rise in interest rates for that period should produce an increase in net interest income, and a fall in rates should give rise to a fall in net interest income. Conversely, when fixed rate assets exceed fixed rate liabilities in the same time bucket, a 'positive gap' exists and net interest income should fall if interest rates increase and rise if rates reduce.

Variable rate items, for which there is no lead time between a change in market rates and a corresponding change in the contracted interest rate (i.e. effectively overnight) should be placed in the "overnight" time bucket. Conventionally, first year time buckets are of shorter duration than later time buckets. However, the precise choice of time buckets is a matter for each firm.

On and off balance sheet items should be allocated to the various time buckets in accordance with their repricing date. The information in respect of balances to be used in this data item should not be fair-valued but should be based on the contractual position (i.e. between the lender and borrower).

Care should be taken in allocating off balance sheet items. Firms need to consider the essential interest-bearing characteristics of these instruments. For example:

Swaps: if a fixed rate mortgage of 3 years maturity is swapped to a 6 month LIBOR rate then the impact on the gap analysis should be shown by placing the notional swapped amount into the 3 year liability time bucket and the same amount in the 6 month asset time bucket.

FRAs: if a deposit is due to reprice in 3 months' time for 3 months and the firm wishes to hedge its exposure, then it might do so by buying an FRA where in 3 months' time it receives an amount of interest covering the further 3 month period (i.e. it will buy a 3v6 FRA). This should be shown as a 6 month liability and a 3 month asset in the gap analysis, reflecting the fact that effectively (a) the firm has locked in now (at time zero) to paying a fixed rate in 3 months' time covering a 3 month period (hence in total 6 months), and (b) the firm has an exposure now for 3 months to the rate at which the receiving leg of the FRA will settle. In 3 months' time, on settlement, the FRA will disappear from the analysis as proceeds, or preferably payments, will have been settled and the derivative interest rate exposure extinguished.

Non interest rate sensitive items (e.g. fixed assets, reserves or interest accruals) should be placed in the most distant time bucket. This should not be included in the sensitivity calculations but remains on the gap report for the sake of balance sheet completeness. The FSA recognises that there are several schools of thought over where to allocate reserves in a gap analysis and will consider other board-approved scenarios which are consistently applied and rationalised.

Where firms fully hedge or match customer products, in theory, there is no gap created. However, in practice, permanent one-for-one matching is not always possible. There may be lead times during which the asset/liability and the related hedge/match are out of step. For example, this may occur when swapping fixed rate mortgages: the mortgages can complete over a period of time, whilst the swap is typically effected in full at a particular point in time. A perfect match or hedge may be disrupted by the early repayment of a fixed rate mortgage or early withdrawal of a fixed rate savings product on the death of an investor.

The FSA recognises that the contractual repricing relating to certain assets and liabilities do not bear a close relationship to their actual behavioural characteristics. So a firm may report its interest rate gap analysis after taking account of these "behavioural" assumptions; these should be included in the rows for "adjusted for actual expected re-pricing date".

Where balances are committed but not yet drawn down, the amount should be included in the relevant row for "pipeline products".

The information in respect of balances to be reported in column A should not be fair-valued but should report the contractual position.

The data item should be completed for all currencies in aggregate.

FSA017 – Interest rate gap report validations

Internal validations

Data elements are referenced first by row then by column.

FSA018 – UK integrated group large exposures

This data item captures information on *large exposures*, by a *UK integrated group* to the *diverse blocks* and the *residual block*, under *BIPRU 10.8* and *BIPRU 10.9*. A single report is required for all members of the *UK integrated group*, although each individual member of the *UK integrated group* will need to reflect its share of any CNCOM (reported below in column N) in Part 3 of its FSA003. It reflects the exposures at the reporting date.

Unless indicated otherwise, the valuation of items should follow *GENPRU 1.3*.

Valuation

Unless indicated otherwise, the valuation of data elements should follow *GENPRU 1.3*.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B. Individual rows within an element are identified as 2B.1, 2B.2 etc.

General

1 Identify the UK integrated group

[To follow]

2 FSA Firm Reference Numbers

List the FSA Firm Reference Numbers for all the authorised firms in the *UK integrated group*. As this report is a joint requirement across all firms that are members of that group, this notifies us which firms' requirements are being met by this data item. Firms should be listed sequentially in 2A, with the FSA Firm Reference Numbers being entered in 2B.

3A Group capital resources under *BIPRU 10.8.10R*

This is the *capital resources* of the *UK integrated group* calculated in accordance with *BIPRU 10.8.10R*.

4A Exposure number

Please number each exposure consecutively.

4B Counterparty name

List here the *diverse blocks* and *residual block* to which there are exposures at the reporting date.

4C Gross exposure

Report here the gross exposures calculated in accordance with *BIPRU 10.2* and *BIPRU 10.4*.

4D % of capital resources under *BIPRU 10.8.10R*

This is column C as a percentage of data element 3A. It should be entered to two decimal places, omitting the % sign.

4E Exposure after credit risk mitigation

This is the figure reported in column D after *credit risk mitigation*. This figure is subsequently broken down in columns F to M.

4F Amount of the exposure that is exempt

That part of the amount reported in column E that is an exempt under *BIPRU 10.6*.

4G % of capital resources under *BIPRU 10.8.10R*

This is column F as a percentage of data element 3A. It should be entered to two decimal places, omitting the % sign.

4H Amount of the exposure that is not exempt and is in the non-trading book

That part of the exposure reported in column E that is not exempt and is in the non-trading book.

4J % of capital resources under *BIPRU 10.8.10R*

This is column H as a percentage of the capital resources under *BIPRU 10.8.10R*. It should be entered to two decimal places, omitting the % sign.

4K Amount of the exposure that is not exempt and is in the trading book

That part of the exposure reported in column E that is not exempt and is in the trading book.

4L % of capital resources under *BIPRU 10.8.10R*

This is column K as a percentage of the capital resources under *BIPRU 10.8.10R*. It should be entered to two decimal places, omitting the % sign.

4M Aggregate % of capital resources under *BIPRU 10.8.10R*

This is the sum of columns J and L. The total of the column should be monitored against the limit set out in *BIPRU 10.8.7R*. It should be entered to two decimal places, omitting the % sign.

4N CNCOM

This is the amount of CNCOM calculated as set out in *BIPRU 10.10.2R*, before being allocated to individual members of the *UK integrated group* in accordance with *BIPRU 10.10.3R* and *BIPRU 10.10.4R*.

As this will be reported later than each firm's individual FSA008, firms will be expected to have sufficient capital resources at the reporting dates to meet this requirement.

FSA018 – UK integrated group large exposures validations

Internal validations

Data elements are referenced by row then column.

1	2CT	=	$\Sigma 2C$
2	4D	=	$4C/3A$
3	4G	=	$4F/3A$
4	4H	\leq	4E
5	4J	=	$4H/3A$
6	4JT	=	$\Sigma 4J$
7	4K	\leq	4E
8	$4F+4H+4K$	=	4E
9	4L	=	$4K/3A$
10	4LT	=	$\Sigma 4L$
11	4M	=	$(4H+4K)/3A$
12	4NT	=	$\Sigma 4N$
13	4NT	=	2CT

FSA019 – Pillar 2 questionnaire

This data, supplemented by other relevant data, will be used to inform the intensity of our risk assessment of a firm, or its group, under the Supervisory Review and Evaluation Process (SREP). It will allow us to reduce supervisory time by helping us to identify those firms with a risk profile for which we will carry out additional individual or thematic work.

Valuation

For the general policy on valuation, please see the rules and guidance set out in *GENPRU* 1.3.

Currency

You should report in the currency of your annual audited accounts ie in either Sterling, Euro, US dollars, Canadian dollars, Swedish Kroner, Swiss Francs or Yen. Figures should be reported in 000s.

Data elements

These are referred to by row first, then by column, so data element 2B will be the element numbered 2 in column B.

1B Does GENPRU 1.2 apply to your firm?

See *GENPRU* 1.2.1R and *GENPRU* 1.2.44G to *GENPRU* 1.2.59R. The answer is either ‘Yes’ or ‘No’.

Subsequent sections are only completed if the answer to 1B is ‘Yes’.

2B What is the internal capital amount that you consider adequate?

See *GENPRU* 1.2.26R. Enter the figure in 000s.

3B What is the actual amount of internal capital that your firms holds at the accounting reference date?

See *GENPRU* 1.2.26R. Enter the figure in 000s.

4B Have you documented your ICAAP?

See *GENPRU* 1.2.60R. The answer is either ‘Yes’ or ‘No’.

5B When did you last review the ICAAP?

See *GENPRU* 1.2.39R and *GENPRU* 1.2.40G. The answer should be in ‘ddmmyy’ format.

6B Have your external auditors audited your firm’s financial statements in the last 12 months?

The answer is either ‘Yes’ or ‘No’.

7B If so, has any audit opinion you received in the last year been qualified in any respect?

This question should only be answered if the response to data element 6B was 'Yes'. The answer to this question is either 'Yes' or 'No'.

8B What is the ratio of dealing errors in relation to the total number of transactions your firm has undertaken in the last 12 months?

See *GENPRU* 1.2.30R. This figure should be a percentage to one decimal place.

9B Have you considered your firm's risk appetite when developing its ICAAP?

See *GENPRU* 1.2.75G (2). The answer is either 'Yes' or 'No'.

10B and 11B In your ICAAP, have you considered the impact of an economic downturn on your firm's financial capital, and your business plans?

See *GENPRU* 1.2.30R (1) and *GENPRU* 1.2.73R (1). The answer to each question is either 'Yes' or 'No'.

12A to 23A Is your firm exposed to the risks listed

See *GENPRU* 1.2.30R. The answer to each question is either 'Yes' or 'No'.

12B to 23B If so, what is the amount of internal capital you have allocated to each of them?

For each answer in Column A that is 'Yes', enter the amount in column B in 000s.

24B Does your firm have any professional indemnity insurance?

The answer is either 'Yes' or 'No'.

25B If so, what is the limit of the indemnity in the aggregate?

If the answer to data element 24B is 'Yes', enter the amount here in 000s.

26B What is the greatest deductible single claim?

If the answer to data element 24B is 'Yes', enter the amount here in 000s.

27B What is the credit rating of the lead underwriter?

Only answer if you answered 'Yes' to data element 24B. This is a text field to accept any value.

28B In your firm's ICAAP, do you take account of the results of the stress tests set out in BIPRU 4.3.39R and BIPRU 4.3.40R?

See *BIPRU* 4.3.39R and *BIPRU* 4.3.40R. The answer is either 'Yes' or 'No'.

29B Does your firm deduct illiquid assets as set out in GENPRU 2.2.17R to GENPRU 2.2.19R?

See *GENPRU 1.2.30R*, *GENPRU 2.2.17R* to *GENPRU 2.2.19R*, and *GENPRU 2.2.260R* to *GENPRU 2.2.262G*. The answer is either ‘Yes’ or ‘No’.

30B Does your firm have sufficient liquidity to meet your liabilities as they fall due in the circumstances of an orderly wind down?

See *GENPRU 1.2.30R*. The answer is either ‘Yes’ or ‘No’.

31B Report the amount of illiquid assets

See *GENPRU 1.2.30R*, and *GENPRU 2.2.260R* to *GENPRU 2.2.262G*. This number should be entered in integers.

32B Do you use credit risk mitigation techniques?

See *GENPRU 1.2.30R*. The answer is either ‘Yes’ or ‘No’.

33B If so, have you considered in your ICAAP the fact that those techniques may not fully work as anticipated?

This is only relevant if you answered ‘Yes’ to data element 32B. See *GENPRU 1.2.30R*. The answer is either ‘Yes’ or ‘No’.

34B Have you securitised assets in the last 12 months?

See *GENPRU 1.2.30R*. The answer is either ‘Yes’ or ‘No’.

35B Do you use an internal model as described in BIPRU 7.10 to calculate your regulatory market risk?

See *BIPRU 7.10*. The answer is either ‘Yes’ or ‘No’.

36B If so, have you taken the results of the market risk stress tests in your ICAAP into account?

This is only relevant if you answered ‘Yes’ to data element 35B. See *BIPRU 7.10*, *BIPRU 7.10.72R* and *BIPRU 7.10.73G*. The answer is either ‘Yes’ or ‘No’.

37B Report the result of a 200 basis point shock to interest rate on your firm’s economic value

See *BIPRU 2.3.7R (2)*. Enter the figure in 000s.

38B Does the result of the above stress test exceed 20% of your economic value?

See *BIPRU 2.3.7R (3)*. The answer to this is either ‘Yes’ or ‘No’.

39B Would the valuation adjustments required under GENPRU 1.3.35G enable you to sell out of hedge your firm's positions within a short period without incurring material losses under normal market conditions?

See *GENPRU* 1.3.29R to *GENPRU* 1.3.35G. The answer to this is either 'Yes' or 'No'.

Annex D

Amendments to Credit Union sourcebook (CRED)

In this Annex, underlining indicates new text and striking through indicates deleted text.

...

7A.2.4 R For the purposes of *CRED* 7A.2.1R and *CRED* 7A.2.2R, the total shareholdings in a *credit union* at any time must be taken to be the total shareholding as shown in the most recent annual return sent to the FSA under *SUP* 16.7.62R or *SUP* 16.12.5R (see *CRED* 14.7.10G).

...

8.2.1 R ...
(7) ...
(a) the amount standing to the credit of any such reserve in the balance sheet in the most recent annual return to have been sent to the *FSA* under *SUP* 16.7.62R or *SUP* 16.12.5R (see *CRED* 14.10.7G); or

...

...

10.3.4A G For the purpose of calculating the maximum loan in *CRED* 10.3.4R, the *credit union* may use the amount of total shares as shown in the most recent annual return to have been sent to the *FSA* under *SUP* 16.7.62R or *SUP* 16.12.5R (see *CRED* 14.10.7G) if that is the latest reliable figure available.

...

14.10.1 G This section, ~~*SUP* 16.7.1G – *SUP* 16.7.4G~~, and ~~*SUP* 16.7.15AR – *SUP* 16.7.15DR~~ *SUP* 16.12.1R – *SUP* 16.12.4R apply to all *credit unions*.

...

14.10.4D G If a *credit union* fails to submit a complete annual report by the date on which it is due in accordance with the rules under *SUP* ~~16.7~~ 16.12 and any prescribed submission procedures, the credit union must pay an administrative fee of £250 (see *SUP* 16.3.14R). Failure to submit the report in accordance with *SUP* ~~16.7~~ 16.12 may also lead to the imposition of a financial penalty and other disciplinary sanctions (see *ENF* 13.5 and *CRED* 15.5).

...

14.10.5 G ~~*SUP* 16.7.62~~ 16.12.5R states that a *credit union* must submit a quarterly return.

...

14.10.7 G ~~*SUP* 16.7.62~~ 16.12.5R states that a *credit union* must submit an annual return.

...

14.10.10 R ...
(2) ...

- (b) accompany the annual return submitted to the FSA under ~~SUP16.7.62~~ 16.12.5R (see *CRED* 14.10.7G), unless they have been submitted already.

Annex G

Amendments to the Electronic Money sourcebook (ELM)

In this Annex, underlining indicates new text and striking through indicates deleted text.

ELM 8 Small e-money issuers

8.3 Introduction

...

8.3.4 G ...

- (4) ELM 8.7 contains *rules* and *guidance* about the provision of information to the *FSA*, including the *rules* which require a *small e-money issuer* to give periodic reports and change reports to the *FSA* on ~~Form ELM-SI~~ data item FSA027 (which is set out in ELM 8 Annex 2R).

...

8.7 Provision of information

Periodic reports

8.7.1 R A *small e-money issuer* must:

- (1) complete a ~~Form ELM-SI~~ data item FSA027 (see ELM 8 Annex 2R) as at the end of each financial year and half financial year; and
- (2) within 10 *business days* of that date, ~~deliver it to the FSA in the manner indicated in the form~~ submit it to the FSA using the electronic systems designated by the FSA.

Change reports

8.7.2 R If none of the conditions referred to in ELM 8.4 continue to apply to a *small e-money issuer*, it must, within *two business days* of the change occurring:

- (1) complete a ~~Form ELM-SI~~ data item FSA027; and
- (2) ~~deliver it to the FSA in the manner indicated in the form~~ submit a paper version of it, downloaded from www.fsa.gov.uk/pubs/other/elm_8_annex2r.pdf, to the FSA.

8.7.3 R (1) If the total liabilities of a *small e-money issuer* with respect to *issuing e-money* exceed 5 million euro, it must, within *two business days* of the excess occurring:

- (a) complete a ~~Form ELM-SI~~ data item FSA027; and
- (b) ~~deliver it to the FSA in the manner indicated in the form~~ submit a paper version of it, downloaded from www.fsa.gov.uk/pubs/other/elm_8_annex2r.pdf, to the FSA.

...

8.7.5 G ...
FSA027

8.7.5A G ~~Form ELM~~ FSA027 is set out at ELM 8 Annex 2R. FSA027 will, for the purposes of periodic reports under ELM 8.7.1R, be submitted by the

electronic system designated by the FSA. However for change reports under ELM 8.7.2R and ELM 8.7.3R, the report must be submitted in paper to the FSA, and a copy of FSA027 may be downloaded and printed off from www.fsa.gov.uk/pubs/other/elm_8_annex2r.pdf.

...

Schedule 2
Notification requirements

ELM Sch 2.2 G

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
...				
ELM 8.7.1 R	Periodic reports	Form ELM-SI <u>data item</u> <u>FSA027</u>	End of each half financial year	Within ten <u>thirty</u> <i>business days</i> of the end of each half financial year
ELM 8.7.2 R	Change reports	Form ELM-SI <u>data item</u> <u>FSA027</u>	Fact of change	Within two <i>business days</i> of change occurring
ELM 8.7.3 R	Where <i>small e-money issuer's</i> total liabilities exceed 5 million euro	Form ELM-SI <u>data item</u> <u>FSA027</u>	Fact of excess	Within two <i>business days</i> of the fact occurring.

ELM 8 Annex 2R

Insert the following new text, which is not underlined, as *data item* FSA027, before Form ELM-SI.

FSA027
Small e-money issuer

A. Application of conditions

- 1 The first condition applies if:
 - (1) the small e-money issuer does not issue e-money except on terms that the electronic device on which the monetary value is stored is subject to a maximum storage amount of not more than 150 euro; and
 - (2) the small e-money issuer's total liabilities with respect to issuing e-money do not (and will not) usually exceed 5 million euro and do not (or will not) ever exceed 6 million euro.

- 2 The second condition applies if:
 - (1) paragraph 1 of the first condition is met;

A	B
Yes	No

Yes	No

- (2) the small e-money issuer's total liabilities with respect to the issuing of e-money do not (or will not) exceed 10 million euro; and
- (3) e-money issued by the small e-money issuer is accepted as a means of payment by:
 - (a) subsidiaries of the small e-money issuer which perform operational or other ancillary functions related to e-money issued or distributed by that small e-money issuer: or
 - (b) other members of the same group as the small e-money issuer (other than subsidiaries of that small e-money issuer).

3 The third condition applies if:

Yes	No

- (1) paragraph (1) of the first condition and (2) of the second condition are met; and
- (2) e-money issued by the small e-money issuer is accepted as a means of payment, in the course of business, by not more than one hundred persons where:
 - (a) those persons accept such e-money only at locations within the same premises or limited local area; or
 - (b) those persons have a close financial or business relationship with the small e-money issuer such as a common marketing or distribution scheme.

4 Have the relevant provisions referred to in 1 to 3 been met throughout the reporting period?

Yes	No

A

If no, please give details

5

B. E-money outstandings

A

6 Outstandings at the period end

7 Peak e-money outstandings during the period

If the first condition (1) applies, indicate the dates on which the e-money outstandings exceeded 5 or 6 million euro, and the amount of the e-money outstandings on these dates in the table below.

If the second condition (2) or the third condition (3) applies, indicate the dates on which e-money outstandings exceeded 10 million euro, and the amount of e-money outstanding on these dates, in the table below.

Dates on which electronic money outstandings exceeded				Amount of e-money outstandings
5 million euro	6 million euro	10 million euro

**SUPERVISION MANUAL (INSURANCE CONGLOMERATES REPORTING
AMENDMENT) INSTRUMENT 2006**

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
 - (2) section 156 (General supplementary powers); and
 - (3) section 340 (Appointment).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

Commencement

- C. This instrument comes into force on 31 December 2006.

Amendments to the Handbook

- D. The Supervision manual (SUP) is amended in accordance with the Annex to this instrument.

Citation

- E. This instrument may be cited as the Supervision Manual (Insurance Conglomerates Reporting Amendment) Instrument 2006.

By order of the Board
21 December 2006

Annex

Amendments to the Supervision manual

16.7.83	R	Table: Financial reports from a member of a financial conglomerate (see SUP 16.7.82R)	
...			
		<p>...</p> <p>Note 2 = If Part 1 of PRU 8 Annex 1<u>R</u> (method 1), Part 2 of PRU 8 Annex 1<u>R</u> (method 2), or Part 3 of PRU 8 Annex 1<u>R</u> (method 3) applies, there is no specific form. Adequate information must be provided, and each <i>financial conglomerate</i> for which the FSA is the <i>co-ordinator</i> must discuss with the FSA how to do this.</p> <p>If Part 4 of PRU 8 Annex 1<u>R</u> applies (method 4):</p>	
		(1)	...
		(2)	...
		(3)	...
		(4)	<p>an <i>insurance conglomerate</i> must use:</p> <p>(a) <u>(where SUP 16.7.82R(1)(a) applies), Forms 1, 2 and 3 in Appendix 9.1 of IPRU(INS), as appropriate, prepared and audited in accordance with rule 9.35(1) of IPRU(INS); or</u></p> <p>(b) <u>(in any other case), the Parent Undertaking Insurance Group Capital Adequacy Reporting Format example (Form 95) in GN 10.1 Appendix 9.9 of IPRU(INS).</u></p> <p><u>For the purposes of (b) above, rules 9.40(1), 9.40(1A), 9.40(3) and 9.40(4) of IPRU(INS) apply as they would if the insurance conglomerate were an insurance group.</u></p>

COMPENSATION SOURCEBOOK (CONTRIBUTION FOR MESOTHELIOMA CLAIMS) INSTRUMENT 2006

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the powers and related provisions in or under
- (1) article 9A of the Financial Services and Markets Act 2000 (Transitional Provisions, Repeals and Savings) (Financial Services Compensation Scheme) Order 2001; and
 - (2) regulations 3 and 4 of the Compensation Act (2006) (Contribution for Mesothelioma Claims) Regulations 2006.
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

Commencement

- C. This instrument comes into force on 22 December 2006.

Amendments to the Handbook

- D. The Glossary is amended in accordance with Annex A to this instrument.
- E. The Compensation sourcebook (COMP) is amended in accordance with Annex B to this instrument.

Citation

- F. This instrument may be cited as the Compensation Sourcebook (Contribution for Mesothelioma Claims) Instrument 2006.

By order of the Board

21 December 2006

Annex A

Amendments to the Glossary of definitions

Add the following new definitions in the appropriate alphabetical position:

<u>authorised insurance company</u>	<u>(In COMP) (in accordance with the compensation transitionals order) a person who was, at any time before commencement, authorised under section 3 or 4 of the Insurance Companies Act 1982 to carry on insurance business of any class in the United Kingdom.</u>
<u>mesothelioma regulations</u>	<u>The Compensation Act 2006 (Contribution for Mesothelioma Claims) Regulations 2006 (SI 2006/3259).</u>
<u>mesothelioma victim</u>	<u>(in accordance with section 3 (1) of the Compensation Act 2006) a person who has contracted mesothelioma as a result of exposure to asbestos by a responsible person.</u>
<u>responsible person</u>	<u>(1) (except in COMP) ...</u> <u>(2) (in COMP) (in accordance with section 3 (1) of the Compensation Act 2006) a person who has negligently or in breach of statutory duty caused or permitted another person to be exposed to asbestos (including an insurer of such a person).</u>

Annex B

Amendments to the Compensation sourcebook (COMP)

In the following Annex, underlining indicates new text and striking through indicates deleted text.

...

4.2.1 R Unless *COMP* 4.2.3 R applies, an *eligible claimant* is any person who at any material time:

...

(2) did come within *COMP* 4.2.2 R, but satisfied the relevant exception in *COMP* 4.3 or *COMP* 4.4.

...

4.4 Exceptions: Relevant general insurance contracts: mesothelioma claims

Application

4.4.1 R This section applies in respect of any claim for a contribution by a *responsible person* made on or after 25 July 2006 in relation to a *mesothelioma victim's* claim which is determined by agreement in writing, a court or an arbitrator on or after 3 May 2006.

Claims for contribution by responsible persons

4.4.2 R The *rules* in this sourcebook shall have effect as modified to the extent necessary to enable the *FSCS* to receive, assess, determine and make payments in respect of applications for compensation from *responsible persons* in accordance with article 9A of the *compensation transitionals order* and regulation 3 of the *mesothelioma regulations*.

4.4.3 R In particular:

- (1) a *responsible person* is eligible to claim in accordance with the provisions of this section;
- (2) the *FSCS* may pay compensation to a *responsible person* where it is satisfied that an *eligible claimant* has a claim under a *protected contract of insurance* issued by an *insurer in default*, which, but for satisfaction of that claim by the *responsible person*, the *FSCS* would have paid;
- (3) a *responsible person* in (2) may claim compensation only if, having satisfied a claim in relation to a *mesothelioma victim*, he could claim contribution from an *insurer in default*;
- (4) the *FSCS* may pay compensation in respect of any contribution for which an *insurer in default* is liable by agreement in writing, or by a determination of a court or arbitrator; and

(5) in this section, references to an insurer include an authorised insurance company, and references to in default include an article 9 default.

4.4.4 G The provisions in this section establish a scheme for contribution claims by responsible persons. The requirement in COMP 12.2.7R to take into account payments to the claimant do not therefore require the FSCS, in paying compensation in respect of such a claim, to take into account any payments referred to in that rule made by a responsible person in calculating the claimant's overall net claim.

Limits to amounts payable for contribution claims

4.4.5 R The amount payable by the FSCS in respect of a claim in accordance with the provisions of this section may not exceed the amount that it would have paid if the mesothelioma victim (or a responsible person other than an insurer of such a person) to whom the contribution claim relates had made that claim directly against FSCS.

1 Transitional Provisions Table

1	COMP 5	R	<i>Protected claims</i>	Indefinitely	<i>Commencement</i>
			...		
		(2)	A claim must be treated as a claim in relation to a protected contract of insurance under COMP 5.4.5 R if the conditions in article 9A or 10(1)(a)-(d) of the compensation transitionals order are satisfied.		<i>Commencement but on 6 December 2006 for article 9A of the compensation transitionals order</i>
			...		

In *COMP* Schedule 4, Powers Exercised, insert the following new paragraphs in the appropriate numerical positions. The inserted text is not underlined.

- (12A) Article 9A (Contributions in relation to mesothelioma claims) of the *compensation transitionals order*.

- (15) Article 3 (Modification of FSMA 2000 in relation to FSA rules for mesothelioma claims) of the *mesothelioma regulations*.

**TRANSPARENCY OBLIGATIONS DIRECTIVE
(DISCLOSURE AND TRANSPARENCY RULES) INSTRUMENT 2006**

Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 73A (Part 6 rules);
 - (2) section 89A to 89G (Transparency rules);
 - (3) section 101 (Listing rules: general provisions); and
 - (4) section 157(1) (Guidance).

Commencement

- B. Amendments to the Glossary in Annex A and Transitional Provision 6 in Annex C shall come into force on 22 December 2006, otherwise this instrument comes into force on 20 January 2007.

Amendments to the Handbook

- C. The Transparency Obligations Directive (Disclosure and Transparency Rules) Instrument is amended:
- (1) by Annex A, amendments to the Glossary of definitions;
 - (2) Annex B to this instrument amends the Listing Rules sourcebook (LR); and
 - (3) Annex C to this instrument inserts into the Handbook new chapters in the Disclosure Rules and Transparency Rules sourcebook (DTR).

Notes

- D. In Annex C to this instrument, the “notes” (indicated by “**Note:**”) are included in for the convenience of readers but do not form part of the legislative text.

Citation

- E. This instrument may be cited as the Transparency Obligations Directive (Disclosure and Transparency Rules) Instrument 2006.

By order of the Board
21 December 2006

Annex A

Amendments to the Glossary of definitions

In this Annex underlining indicates new text and striking through indicates deleted text.

<i>admission to trading</i>	(in <i>PR</i> and <i>DTR</i>) admission to trading on a regulated market. (Glossary)
<i>controlled undertaking</i>	<u>means any subsidiary undertaking within the meaning of the Act other than section 258(4)(b) of the Companies Act 1985 or section 420(2)(b) of the Act;</u>
<i>debt security</i>	(1) (in <i>DTR 2</i> , <i>DTR 3</i> and <i>LR</i>) debentures, debenture stock, loan stock, bonds, certificates of deposit or any other instrument creating or acknowledging indebtedness. (2) <u>(in <i>DTR 4</i>, <i>DTR 5</i> and <i>DTR 6</i>) (in accordance with article 2.1(b) of the <i>Transparency Directive</i>) bonds or other forms of transferable securitised debts, with the exception of securities which are equivalent to <i>shares</i> in companies or which, if converted or if the rights conferred by them are exercised, give rise to a right to acquire <i>shares</i> or securities equivalent to <i>shares</i>.</u> (23) (except in <i>DTR</i> and <i>LR</i>) any of the following: a <i>debenture</i> ; a <i>government and public security</i> ; or a <i>warrant</i> which confers a right in respect of an <i>investment</i> in (a) or (b).
<i>DTR</i>	the <i>Disclosure Rules and Transparency Rules</i> sourcebook
<i>electronic means</i>	<u>are means of electronic equipment for the processing (including digital compression), storage and transmission of data, employing wires, radio optical technologies, or any other electromagnetic means;</u>
<i>financial instrument</i>	<u>the instruments specified in Section C of Annex 1 of <i>MiFID</i>;</u>
<i>Home Member State</i>	(in <i>DTR PR</i> and <i>LR</i>) Home State
<i>Home State</i>	(1) (in relation to a <i>credit institution</i>) the <i>EEA State</i> in which the <i>credit institution</i> has been authorised in accordance with the <i>Banking Consolidation Directive</i> ... (8) <u>(in <i>LR</i> and <i>PR</i>) (as defined in section 102C of the Act) in relation to an issuer of <i>transferable securities</i>, the <i>EEA State</i> which is the "home Member State" for the purposes of the</u>

prospectus directive (which is to be determined in accordance with Article 2.1(m) of that directive).

(9) (in DTR)

(a) in the case of an issuer of debt securities the denomination per unit of which is less than EUR 1 000 or an issuer of shares;

(i) where the issuer is incorporated in the Community, the Member State in which it has its registered office;

(ii) where the issuer is incorporated in a third country, the Member State in which it is required to file the annual information with the competent authority in accordance with Article 10 of Directive 2003/71/EC.

The definition of 'home' Member State shall be applicable to debt securities in a currency other than Euro, provided that the value of such denomination per unit is, at the date of the issue, less than EUR 1 000, unless it is nearly equivalent to EUR 1 000;

(b) for an issuer not covered by (i), the Member State chosen by the issuer from among the Member State in which the issuer has its registered office and those Member State which have admitted its securities to trading on a regulated market on their territory. The issuer may choose only one Member State as its home Member State. Its choice shall remain valid for at least three years unless its securities are no longer admitted to trading on any regulated market in the Community;

IFRS

International Financial Reporting Standards

International Financial Reporting Standards

international financial accounting standards within the meaning of EC Regulation No 1606/2002 of the European Parliament and of the Council of 19 July 2002 as adopted from time to time by the European Commission in accordance with that Regulation.

issuer

(1) (except in *CIS*, *LR*, *PR* and *DTR*) ...

(2) (in chapters 1, 2 and 3 of *DTR* and *FEES* in relation to *DTR*)
...

(2A) (in chapters 1A, 4, 6 of *DTR*) a legal entity governed by private or public law, including a State, whose securities are admitted to trading on a regulated market, the issuer being, in the case of depository receipts representing securities, the issuer of the securities represented;

(2B) (in chapter 5 of DTR)

(a) a legal entity governed by private or public law, including a State whose shares are admitted to trading on a regulated market, the issuer being in the case of depositary receipts representing securities, the issuer of the shares represented; or

(b) a public company within the meaning of section 1(3) of the Companies Act 1985 and any other body corporate incorporated in and having a principal place of business in Great Britain, whose shares are admitted to trading on a market which (not being a regulated market) is a prescribed market.

(c)

management company

means a company as defined in article 1a(2) of Council Directive 85/611/EEC of 20 December 1985 on the co-ordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS).

market maker

means a person who holds himself out on the financial markets on a continuous basis as being willing to deal on own account by buying and selling financial instruments against his proprietary capital at prices defined by him.

market operator

a person or persons who manages and/or operates the business of a regulated market. The market operator may be the regulated market itself.

parent undertaking

(1) (in accordance with section 420 of the Act
...

(2) a parent undertaking within the meaning of (1) of a controlled undertaking.

regulated information

all information which an issuer, or any other person who has applied for the admission of financial instruments to trading on a regulated market without the issuer's consent, is required to disclose under:

(a) the Transparency Directive;

(b) article 6 of the Market Abuse Directive; or

(c) LR, and DTR.

Regulatory Information Service or RIS

~~A Regulatory Information Service that is approved by the FSA as meeting the Primary Information Provider criteria and that is on the list of Regulatory Information Services maintained by the FSA.~~

either:

- (a) a Regulated Information Service; or
- (b) an incoming information society service that is established in an EEA State other than the United Kingdom and that disseminates regulated information in accordance with the minimum standards set out in [article 12 of the TD implementing Directive].

Regulated Information Service

a Regulated Information Service that is approved by the FSA as meeting the Criteria for Regulated Information Services and that is on the list of Regulated Information Services maintained by the FSA.

regulated market

(in accordance with article 4(1)(14) of MiFID) a multilateral system operated and/or managed by a market operator, which brings together or facilitates the bringing together of multiple third-party buying and selling interests in financial instruments – in the system and in accordance with its non-discretionary rules – in a way that results in a contract, in respect of the financial instruments admitted to trading under its rules and/or systems, and which is authorised and functions regularly and in accordance with the provisions [Title III of MiFID].

share

- (1) (except in CIS, LR and DTR) ...
- (2) (in CIS) ...
- (3) (in DTR and LR, and in FEES where relevant to DTR or LR,) (in accordance with section 744 of the Companies Act 1985) a share in the share capital of a company, and includes:
 - (a) stock (except where a distinction between shares and stock is express or implied); and
 - (b) Preference shares; and
 - (c) in chapters 4, 5 and 6 of DTR a convertible share.

shareholder

- (1) (in relation to an ICVC, and subject to CIS 11.2.2R (Special meaning of shareholder)):
 - (a) (in relation to a share that is represented by a bearer certificate) the person who holds the certificate;
 - (b) (in relation to a share that is not represented by a bearer certificate) the person whose name is entered on the register in relation to that share;
- (2) (in relation to chapters 5 [] of DTR) any natural person or legal entity governed by private or public law, who holds directly or indirectly:

- (a) shares of the issuer in its own name and on its own account;
- (b) shares of the issuer in its own name, but on behalf of another natural person or legal entity;
- (c) depository receipts, in which case the holder of the depository receipt shall be considered as the shareholder of the underlying shares represented by the depository receipts.

third country investment firm

a firm which would be a MiFID investment firm if it had its head office in the EEA;

trading day

a day included in the calendar of trading days published by FSA at www.fsa.gov.uk;

transferable securities

(as defined in section 102A of the Act) anything which is a transferable security for the purposes of ~~the investment services directive~~ MiFID, other than money-market instruments for the purposes of that directive which have a maturity of less than 12 months.

Transparency Directive/TD

the European Parliament and Council Directive on the harmonisation of transparency requirements in relation to information about issuers whose securities are admitted to trading on a regulated market or through a comparable mechanism for the disclosure of information under national requirements of a Member State concerning the dissemination of information (No. 2004/109/EC).

Transparency rules

(in accordance with section 73A(6) of the Act) rules relating to the notification and dissemination of information in respect of issuers of transferable securities and relating to major shareholdings.

TD implementing Directive

Commission Directive implementing Directive 2004/109/EC of the European Parliament and of the Council laying down rules for the harmonisation of transparency requirements in relation to information about issuers whose securities are admitted to trading on a regulated market (No.2006/xx/EC);

Annex B

Amendments to the Listing Rules

In this Annex underlining indicates new text and striking through indicates deleted text. Sections that are deleted in their entirety are marked '[deleted]'.

(1)	(2) <u>Material to which the Transitional provisions applies</u>	(3)	(4) <u>Transitional provision</u>	(5) <u>Transitional Provision: dates in force</u>	(6) <u>Handbook Provision coming into force</u>
1	<u>All of the amendments to LR set out in this Annex</u>	R	<p><u>All of the amendments to LR set out in this Annex shall have effect as follows:</u></p> <p><u>(a) an issuer whose financial year starts on or after 20 January 2007 must comply with these amendments as of 20 January 2007; and</u></p> <p><u>(b) an issuer whose financial year starts before 20 January 2007 must comply with these amendments as of the start of its next financial year.</u></p>	<u>From 20 January 2007</u>	

1.4 Miscellaneous

...

Equivalent information

1.4.4 R ~~An issuer whose securities are listed on an overseas investment exchange operating in a non-EEA state, must notify to a RIS information equivalent to that notified to the market of the non-EEA state if the information may be of importance to evaluate the securities listed by the FSA. [Note: Articles 69 and 82-CARD] [deleted]~~

1.4.5 G ~~The information required under LR 1.4.4R is in addition to information that is required to be disclosed under the disclosure rules. [deleted]~~

...

Electronic Communication

- 1.4.9 R (1) If the *listing rules* require an *issuer* to send documents to its *security*
G holders, the *issuer* may, in accordance with *DTR 6.1.8R*, use
electronic means to send those documents.

~~If the *listing rules* require an *issuer* to send documents to its *security* holders in the *United Kingdom*, the *issuer* is taken to comply with the requirement for any specific holder if:~~

- ~~(1) the *issuer* and the *security* holder have agreed to the use of electronic communication for sending copies of documents to the holder and:~~
- ~~(a) the documents are documents to which the agreement applies; and~~
 - ~~(b) copies of the documents are sent using electronic communication to such address, number or other location as may for the time being be notified by the holder to the *issuer* for that purpose; or~~
- ~~(2) the *issuer* and the *security* holder have agreed to the holder having access to documents on a website (instead of the documents being sent to the holder) and: [deleted]~~
- ~~(a) the documents are documents to which the agreement applies; and~~
 - ~~(b) the holder is notified in a manner for the time being agreed for the purpose between the holder and the *issuer*, of:~~
 - ~~(i) the publication of the documents on a website;~~
 - ~~(ii) the address of that website;~~
 - ~~(iii) the place on that website where the documents may be accessed and how they may be accessed;~~
 - ~~(iv) the period of time for which the documents will be available on the website, which must be for a period of not less than 21 days from the date of notification or, if later, until the conclusion of any general meeting to which the documents relate; and~~

- (e) ~~the documents are published on that website throughout the period referred to in paragraph (b)(iv), provided that, if the documents are published on that website for a part but not all of that period, the documents will be treated as published throughout that period if the failure to publish those documents throughout the period is wholly attributable to circumstances which it would not be reasonable to have expected the issuer to prevent or avoid.~~

1.4.10 R ~~If an issuer makes use of LR 1.4.9R, it must make the documents available during normal business hours to security holders for a period of not less than 21 days from the date of communication or notification or, if later, until the conclusion of any general meeting to which the documents relate, in printed form and free of charge in sufficient numbers to satisfy demand from security holders at: [deleted]~~

(1) ~~the issuer's registered office in the United Kingdom (if any); and~~

(2) ~~the offices of any paying agent of the issuer in the United Kingdom.~~

9.1 Preliminary

...

Application: Preference shares

9.1.2 R A company that has a primary listing of preference shares must comply with:

(1) LR 9.2.1R to LR 9.2.6BR;

(2) LR 9.2.11R to LR 9.2.12G;

(3) LR 9.2.14R to LR 9.2.17G;

(4) LR 9.3.1R to LR 9.3.10G;

(5) LR 9.5.1R to LR 9.5.9R;

- (6) *LR 9.6.1R to LR 9.6.4R*;
- (7) *LR 9.6.6R*;
- (8) *LR 9.6.11R*;
- (9) *LR 9.6.19R to LR 9.6.22G*;
- (10) *LR 9.7A*; and
- (11) *LR 9.8*, but not:
 - (a) *LR 9.8.4R(3)*;
 - (b) ~~*LR 9.8.4R(5) and (6)*~~; [deleted]
 - (c) ~~*LR 9.8.4R(12) and (13)*~~; [deleted]
 - (d) *LR 9.8.6R(6) and (7)*; and
 - (e) *LR 9.8.8R*; and.
- (12) ~~*LR 9.9*~~; [deleted]

9.1.2A G For the purposes of compliance with the *transparency rules*, the *FSA* considers that a *listed company* that issues *preference shares* should comply with *DTR 4 (Periodic financial reporting)*, *DTR 5 (Vote holder and issuer notification rules)* and *DTR 6 (Access to information)* as if it were an issuer of debt securities as defined in the *transparency rules*.

Application: securities convertible into equity shares

- 9.1.3 R *A company that has a primary listing of securities convertible into equity shares must comply with:*
- (1) *LR 9.2.1R to LR 9.2.6BR*;
 - (2) *LR 9.2.11R*;
 - (3) *LR 9.2.13G*;
 - (4) ~~*LR 9.3.1R to LR 9.3.5R*~~; [deleted]
 - (5) *LR 9.5.11R to LR 9.5.12R*;

- (6) *LR 9.5.15R to LR 9.5.16R;*
- (7) *LR 9.6.1R;*
- (8) *LR 9.6.3R;*
- (9) *LR 9.6.4R to LR 9.6.6R;*
- (10) *LR 9.6.19R to LR 9.6.22G; and*
- (11) *LR 9.8 but not:*
 - (a) *LR 9.8.4R(3);*
 - ~~(b) *LR 9.8.4R(5) and (6);*~~
 - ~~(c) *LR 9.8.4R(12) and (13);*~~
 - (d) *LR 9.8.6R(6) and (7); and*
 - (e) *LR 9.8.8R.*

...

9.2 Requirements with continuing application

...

Registrar

- 9.2.4 R ~~*A listed company must appoint a registrar in the United Kingdom unless it provides financial services and itself performs the functions of a registrar in the United Kingdom. [Note: Article 65(2) CARD] [deleted]*~~

Compliance with the disclosure rules and transparency rules

- 9.2.5 G *A listed company, whose securities are admitted to trading on a regulated market in the United Kingdom, should consider its obligations under DTR 2 (Disclosure and control of inside information by issuers).*

- 9.2.6 R *A listed company* that is not already required to comply with *DTR 2* (Disclosure and control of inside information by issuers) (or with corresponding requirements imposed by another *EEA Member State*) must comply with *DTR 2* as if it were an *issuer* for the purposes of the *disclosure rules*.
- 9.2.6A G *A listed company, whose securities are admitted to trading on a regulated market, should consider its obligations under DTR 4 (Periodic financial reporting), DTR 5 (Vote holder and issuer notification rules) and DTR 6 (Access to information).*
- 9.2.6B R *A listed company that is not already required to comply with the transparency rules* (or with corresponding requirements imposed by another *EEA Member State*) must comply with *DTR 4, DTR 5* and *DTR 6* as if it were an *issuer* for the purposes of the *transparency rules*.

...

Amendments to constitution

- 9.2.14 R ~~*A listed company* must lodge two copies of any proposed amendment to its *constitution* with the *FSA* no later than when it sends the notice convening the meeting to decide on the amendment. [Note: Article 66 *CARD*] [deleted]~~

...

9.3 Continuing obligations - holders

Equality of treatment

- 9.3.1 R ~~*A listed company* must ensure equality of treatment for all holders of *listed equity securities* or *listed preference shares* who are in the same position. [Note: Article 65(1) *CARD*] [deleted]~~
- 9.3.2 G ~~*LR 9.3.1R* includes the obligation to post all *circulars* to overseas holders. [deleted]~~

Prescribed information to holders

- 9.3.3 R ~~*A listed company* must ensure that at least in each *EEA State* in which its *equity securities* or *preference shares* are listed all the necessary facilities and information are available to enable holders to exercise their rights. In particular it must: [deleted]~~

- (1) inform holders of meetings which they are entitled to attend;
- (2) enable them to exercise their vote, where applicable; and
- (3) ~~publish notices or distribute circulars giving information on:~~
 - (a) ~~the allocation and payment of dividends and/or interest;~~
 - (b) ~~the issue of new *securities*, including arrangements for the allotment, subscription, conversion or exchange of such *securities*; and~~
 - (c) ~~redemption or repayment of the *securities*. [Note: Article 65(2) *CARD*]~~

Use of airmail and first class mail

9.3.4 R ~~Where available, airmail or an equivalent service that is no slower must be used when sending documents to holders of *listed equity securities* or *listed preference shares in non-EEA States*. [deleted]~~

9.3.5 R ~~Where available, first class mail or an equivalent service that is no slower must be used when sending documents to holders of *listed equity securities* or *listed preference shares in the United Kingdom and other EEA States*. [deleted]~~

...

Communications with holders of bearer shares

9.3.8 R (1) ~~A *listed company* required to communicate with holders of its *listed bearer shares* must publish an advertisement in at least one national newspaper referring to the communication and giving the address or addresses from which copies of the communication can be obtained. [deleted]~~

(2) ~~A *listed company* is not required to comply with paragraph (1) if:~~

(a) ~~the *listed bearer shares* are in global form; and~~

(b) ~~the *listed company* can confirm that notices will be transmitted as soon as possible to all holders.~~

...

9.6 Notifications

Notifications relating to capital

- 9.6.4 R *A listed company must notify a RIS as soon as possible (unless otherwise indicated in this rule) of the following information relating to its capital:*
- (1) any proposed change in its capital structure including the structure of its *listed debt securities*, save that an announcement of a new issue may be delayed while marketing or underwriting is in progress;
 - (2) ~~any change in the rights attaching to any class of its *listed shares* or to any of its *listed equity securities* which are convertible into *equity shares*; [deleted]~~
 - (3) any redemption of *listed shares* including details of the number of *shares* redeemed and the number of *shares* of that class outstanding following the redemption;
 - (4) any extension of time granted for the currency of temporary documents of title; and
 - (5) ~~the effect, if any, of any issue of further *securities* on the terms of exercise of rights under options, warrants and other *securities* convertible into *equity shares*; and [deleted]~~
 - (6) the results of any new issue of *equity securities* or *preference shares* or of a public offering of existing *shares* or other *equity securities*.

- 9.6.5 R ~~*A listed company must notify a RIS as soon as possible of the basis of equity securities offered:* [deleted]~~

- (1) ~~generally to the public for cash; or~~
- (2) ~~by way of an *open offer* to shareholders.~~

...

~~Notification of major interests in shares~~

- 9.6.7 R ~~*A listed company must notify a RIS as soon as possible and in any event by the end of the *business day* following receipt of the information, of any information disclosed to it in accordance with sections 198 to 208 of the Companies Act 1985 (relating to the obligation to disclose certain major interests in the share capital of a company). The notification must also include the following details:* [deleted]~~

- (1) ~~the date on which the information was disclosed to the *company*; and~~
- (2) ~~the date on which the transaction was effected, if known.~~

9.6.8 R ~~A *listed company* must notify a *RIS* as soon as possible and in any event by the end of the *business day* following receipt of the information, of any information obtained by it pursuant to section 212 of the Companies Act 1985 (relating to persons interested in shares) or otherwise, where it is apparent that an interest exists or has been increased or reduced or ceased to exist and should have been disclosed under sections 198 to 208 of the Companies Act 1985 but has not previously been disclosed. [deleted]~~

Note: ~~A *listed company* may use the form entitled Notification of Major Interests in Shares to make the notifications required by *LR 9.6.7R* and *LR 9.6.8R*. The Notification of Major Interests in Shares form can be found on the UKLA section of the *FSA's* website.~~

9.6.9 G ~~The requirement to make a notification under *LR 9.6.7R* and *LR 9.6.8R* will be deemed to be discharged if the relevant interest has been notified to a *RIS* pursuant to the disclosure provisions of the *Takeover Code* or the *SARs*. [deleted]~~

9.6.10 G ~~An *overseas company* with a *primary listing* should notify a *RIS* as soon as possible of information equivalent to that required by *LR 9.6.7R* and *LR 9.6.8R* whenever it becomes aware of such information. [**Note:** Article 68 *CARD*] [deleted]~~

...

LR 9.7 is deleted in its entirety and is replaced with *LR 9.7A*.

9.7A Preliminary statement of annual results, statement of dividends and half-yearly reports

Preliminary statement of annual results

9.7A.1 R If a *listed company* prepares a preliminary statement of annual results:

- (1) the statement must be published as soon as possible after it has been approved by the board;
- (2) the statement must be agreed with the *company's* auditors prior to publication;

- (3) the statement must show the figures in the form of a table, including the items required for a half-yearly report, consistent with the presentation to be adopted in the annual accounts for that financial year;
- (4) the statement must give details of the nature of any likely modification that may be contained in the auditors report required to be included with the annual financial report; and
- (5) the statement must include any significant additional information necessary for the purpose of assessing the results being announced.

Statement of dividends

9.7A.2 R A listed company must notify a RIS as soon as possible after the board has approved any decision to pay or make any dividend or other distribution on listed equity or to withhold any dividend or interest payment on listed securities giving details of:

- (1) the exact net amount payable per share;
- (2) the payment date;
- (3) the record date (where applicable); and
- (4) any foreign income dividend election, together with any income tax treated as paid at the lower rate and not repayable.

Omission of information

9.7A.3 G The FSA may authorise the omission of information required by LR 9.7A.1R or LR 9.7A.2R if it considers that disclosure of such information would be contrary to the public interest or seriously detrimental to the listed company, provided that such omission would not be likely to mislead the public with regard to facts and circumstances, knowledge of which is essential for the assessment of the shares.

9.8 Annual financial report and ~~accounts~~

~~Publication of annual report and accounts~~

- 9.8.1 R (1) ~~A listed company must publish its annual report and accounts as soon as possible after they have been approved. [deleted]~~
- (2) ~~A listed company must approve and publish its annual report and accounts within six months of the end of the financial period to which they relate.~~
- 9.8.2 R ~~The annual report and accounts must: [deleted]~~
- (1) ~~have been prepared in accordance with the listed company's national law and, in all material respects, with national accounting standards or IAS;~~
- (2) ~~have been independently audited and reported on, in accordance with:~~
- (a) ~~the auditing standards applicable in an EEA State; or~~
- (b) ~~an equivalent auditing standard;~~
- (3) ~~be in consolidated form if the company has subsidiary undertakings; and~~
- (4) ~~if they do not give a true and fair view of the state of affairs, profit or loss and cash flows of the group, provide more detailed and additional information. [Note: Article 67 CARD]~~
- 9.8.3 R ~~A listed company must publish both own accounts and consolidated accounts if the own accounts contain additional significant information. [Note: Article 67(2) CARD] [deleted]~~

Information to be included in annual report and accounts

- 9.8.4 R In addition to the requirements set out in DTR 4.1 the annual report and accounts a listed company must include in its annual financial report, where applicable, the following:
- (1) ...
- ...

Additional information

9.8.6 R In the case of a *listed company* incorporated in the *United Kingdom*, the following additional items must be included in its annual financial report ~~and accounts~~:

(1) ...

...

LR 9.9 is deleted in its entirety.

...

LR 9 – Annex 1G

Table: The Model Code

Introduction

This code imposes restrictions on dealing in *securities* of a *listed company* beyond those imposed by law ...

Definitions

(1) In this code the following definitions, in addition to those contained in the *listing rules*, apply unless the context requires otherwise:

(a) "*close period*" means:

(i) the period of 60 days immediately preceding ~~a the~~ preliminary announcement of the *listed company's* annual results...; and

(ii) the period of 60 days immediately preceding the publication of its annual financial report or if shorter the period from the end of the relevant financial year up to and including the time of such publication;

~~(ii) if the *listed company* reports on a half yearly basis, the period of 60 days immediately preceding the publication of the half yearly report, in accordance with LR 9.9.3R or, if shorter the period from the end of the relevant financial period up to and including the time of such publication; ~~or~~ and~~

- (iv) if the *listed company* reports on a quarterly basis (or publishes interim management statements) the period of 30 days immediately preceding the announcement of the quarterly results (or interim management statement) or , if shorter ...

...

14.3 Continuing obligations

...

~~Amendments to constitution~~

- 14.3.5 R ~~An overseas company must lodge two copies of any proposed amendment to its constitution with the FSA by no later than when it sends the notice convening the meeting to decide on the amendment. [Note: Article 66 CARD] [deleted]~~

...

~~Equality of treatment~~

- 14.3.12 R ~~An overseas company must ensure equality of treatment for all holders of its equity securities who are in the same position. [Note: Article 65(1) CARD] [deleted]~~

- 14.3.13 G ~~LR 14.3.12R includes the obligation to post all circulars to overseas holders. [deleted]~~

~~Prescribed information to holders~~

- 14.3.14 R ~~An overseas company must ensure that at least in each EEA state in which its equity securities are listed all the necessary facilities and information are available to enable holders to exercise their rights. In particular it must: [deleted]~~

- ~~(1) inform holders of meetings which they are entitled to attend;~~
- ~~(2) enable them to exercise their vote, where applicable; and~~
- ~~(3) publish notices or distribute circulars giving information on:~~

- (a) ~~the allocation and payment of dividends and/or interest~~
- (b) ~~the issue of new *equity securities*, including arrangements for the allotment, subscription, conversion or exchange of such *securities*; and~~
- (e) ~~redemption or repayment of the *equity securities*. [Note: Article 65(2) CARD]~~

Registrar

14.3.15 R (1) This rule applies to an overseas company for whom the United Kingdom is a host Member State for the purposes of the Transparency Directive.

(2) An overseas company must appoint a registrar in the United Kingdom if:

- (a) there are 200 or more holders resident in the United Kingdom; or
- (b) 10% or more of the *equity securities* are held by persons resident in the United Kingdom.

14.3.15 A G An overseas company for whom the United Kingdom is the home Member State for the purposes of the Transparency Directive should see LR 14.3.22G and LR 14.3.23R.

14.3.16 G ~~An overseas company is not required to comply with LR 14.3.15R if the company provides financial services and itself performs the functions of a registrar in the United Kingdom. [Note: Article 65(2) CARD] [deleted]~~

Notifications relating to capital

14.3.17 R An overseas company must notify a RIS as soon as possible (unless otherwise indicated in this rule) of the following information relating to its capital:

- (1) any proposed change in its capital structure including the structure of its *listed debt securities*, save that an announcement of a new issue may be delayed while marketing or underwriting is in progress;
- (2) ~~any change in the rights attaching to any class of its *listed equity securities* or to any of its *securities* which are convertible into *equity shares*; [deleted]~~

- (3) any redemption of *listed equity securities* including details of the number of *equity securities* redeemed and the number of *equity securities* of that *class* outstanding following the redemption;
- (4) ~~the basis of *equity securities* offered: [deleted]~~
 - (a) ~~generally to the public for cash; or~~
 - (b) ~~by way of an *open offer* to shareholders;~~
- (5) any extension of time granted for the currency of temporary documents of title;
- (6) ~~the effect, if any, of any issue of further *securities* on the terms of exercise of rights under options, warrants and other securities convertible into *equity shares*; and [deleted]~~
- (7) the results of any new issue of *listed equity securities* or of a public offering of existing *shares* or other *equity securities*.

...

Notification of major interests in shares

- 14.3.19 R (1) ~~An *overseas company* that is incorporated in a *non-EEA state* must notify a *RIS* of the information set out in paragraph (2) when it becomes aware that a *person* or entity has acquired or disposed of a number of *shares* in the *overseas company* such that the *person's* or entity's holding of the voting rights of the *company* (determined in accordance with Article 92 *CARD*) reaches, exceeds or falls below 10%, 20%, one third or 50% and two thirds of the total voting rights. [deleted]~~
- (2) ~~The information to be notified to a *RIS* is:~~
- (a) ~~the proportion of voting rights held; and~~
 - (b) ~~the date on which the *company* became aware of the acquisition or disposal. [Note: Article 68(3) *CARD*]~~
- 14.3.20 R ~~The notification required by *LR 14.3.19R* must be made as soon as possible and in any event by 7.30 a.m. on the *business day* following the date on which the *company* becomes aware of the acquisition or disposal. [deleted]~~

- 14.3.21 R ~~An overseas company that is incorporated in an EEA state must notify a RIS as soon as possible and in any event by 7.30 a.m. on the business day following receipt of the information of details of the interests of which the company is aware in the shares of the company as communicated to the company pursuant to the law of its country of incorporation and (if different) the requirements of the competent authority of the EEA state where the company has a listing. [Note: Article 68(3) CARD] [deleted]~~

Compliance with the transparency rules

- 14.3.22 G An overseas company, whose securities are admitted to trading on a regulated market, should consider its obligations under DTR 4 (Periodic financial reporting), DTR 5 (Vote holder and issuer notification rules) and DTR 6 (Access to information).
- 14.3.23 R A listed company that is not already required to comply with the transparency rules (or with corresponding requirements imposed by another EEA Member State) must comply with DTR 4, DTR 5 and DTR 6 as if it were an issuer for the purposes of the transparency rules.

LR 14.4 is deleted in its entirety.

- 17.3 Requirements with continuing application

...

- ~~17.3.3 Equality of treatment [deleted]~~

~~An issuer must ensure equal treatment for all holders of its listed securities of the same class in respect of all rights attaching to such securities. [Note: Article 78(1) CARD]~~

Annual accounts

- 17.3.3A R LR 17.3.4R to LR 17.3.6G apply to an issuer that is not already required to comply with DTR 4.
- 17.3.4 R (1) An issuer must publish its annual report and annual accounts as soon as possible after they have been approved. ~~[Note: Article 80(1) CARD]~~

- (2) An *issuer* must approve and publish its annual report and accounts within six months of the end of the financial period to which they relate.
- (3) The annual report and accounts must:
 - (a) have been prepared in accordance with the issuer's national law and, in all material respects, with national accounting standards or IAS; and
 - (b) have been independently audited and reported on, in accordance with:
 - (i) the auditing standards applicable in an EEA State; or
 - (ii) an equivalent auditing standard.

- 17.3.5 G (1) If an *issuer* prepares both own and consolidated annual accounts it may publish either form provided that the unpublished accounts do not contain any significant additional information. [~~Note: Article 80(2) CARD~~]
- (2) If the annual accounts do not give a true and fair view of the assets and liabilities, financial position and profits or losses of the *issuer* or *group*, additional information must be provided to the satisfaction of the FSA. [~~Note: Article 80(3) CARD~~]
- (3) An *issuer* incorporated or established in a *non-EEA State* which is not required to draw up its accounts so as to give a true and fair view but is required to draw them up to an equivalent standard, may draw up its accounts to this equivalent standard.

- 17.3.6 G An *issuer* that meets the following criteria is not required to comply with LR 17.3.4R:
- (1) ~~the issuer is an issuer of asset backed securities and is not required to comply with any other requirement for the publications of annual report and accounts; or~~ The issuer is an issuer of asset backed securities and would if it were a debt issuer to which DTR 4 applied be relieved of the obligations to draw up and publish annual, half yearly financial reports and interim management statements in accordance with DTR 4.4.2R provided the issuer is not otherwise required to comply with any other requirement for the publication of annual reports and accounts.

- (2) (a) the *issuer*:

- (i) is a wholly owned subsidiary of a *listed company*;
 - (ii) issues *listed securities* that are unconditionally and irrevocably guaranteed by the *issuer's listed holding company* or equivalent arrangements are in place;
 - (iii) is included in the consolidated accounts of its *listed holding company*; and
 - (iv) is not required to comply with any other requirement for the preparation of annual report and accounts; and
- (b) non publication of the *issuer's* accounts would not be likely to mislead the public with regard to facts and circumstances that are essential for assessing the securities.

Paying agent

- 17.3.7 R ~~An issuer must appoint and retain a paying agent in the United Kingdom until the date on which the listed securities are finally redeemed unless the issuer: [deleted]~~
- ~~(1) provides financial services; and~~
 - ~~(2) itself performs the functions of a paying agent in the United Kingdom. [Note: Article 78(2) CARD]~~

Disclosure Rules and Transparency Rules

- 17.3.8 G An issuer, whose securities are admitted to trading on a regulated market in the United Kingdom, should consider its obligations under *DTR 2* (Disclosure and control of inside information by issuers).
- 17.3.9 R An issuer that is not already required to comply with *DTR 2* must comply with *DR 2* as if it were an issuer for the purposes of the disclosure rules.
- 17.3.9A G An issuer, whose securities are admitted to trading on a regulated market, should consider its obligations under *DTR 4* (Periodic financial reporting), *DTR 5* (Vote holder and issuer notification rules) and *DTR 6* (Access to information).
- 17.3.9B R An issuer that is not already required to comply with the transparency rules must comply with *DTR 6.3* as if it were an issuer for the purposes of the transparency rules.

...

Amendments to constitution

17.3.11 R ~~An issuer must submit two copies of any proposed amendment to its constitution that affects the rights of securities holders to the FSA by no later than when it sends the notice convening the meeting to decide on the amendment. [Note: Article 79 CARD]~~

...

17.4 Disclosures [deleted]

17.4.1 R ~~An issuer must notify a RIS as soon as possible of: [deleted]~~

- ~~(1) any new issues and guarantee or security related to such new issues; [Note: Article 81 CARD]~~
- ~~(2) any change of guarantor or security of its listed securities where this information is important for the purposes of assessing the securities in question;~~
- ~~(3) any change in the rights attaching to listed securities (including any change in loan terms or in the rate of interest carried by the listed securities); [Note: Article 81 CARD]~~
- ~~(4) when any document has been submitted to the FSA for publication through the document viewing facility under LR 17.3.1R, unless the full text of the document is provided to a RIS;~~
- ~~(5) any change of paying agent in the United Kingdom; and~~
- ~~(6) the publication of:
 - ~~(a) its annual report and accounts;~~
 - ~~(b) in the case of debt securities guaranteed by another company, the annual report and accounts of the company that is providing the guarantee unless that company is listed or adequate information is otherwise available; and~~
 - ~~(c) in the case of convertible securities which are exchangeable for securities of another company, the annual report and accounts of that other company unless that company is listed or adequate information is otherwise available.~~~~

Disclosure to holders: exercise of rights

- 17.4.2 R ~~An issuer must ensure that at least in each EEA state in which its securities are listed, all the necessary facilities and information are available to enable holders of such securities to exercise their rights. In particular, it must:~~
[deleted]
- ~~(1) inform holders of meetings which they are entitled to attend;~~
 - ~~(2) enable them to exercise their vote, where applicable; and~~
 - ~~(3) publish notices or distribute circulars giving information on:~~
 - ~~(a) the payment of interest in respect of such securities; and~~
 - ~~(b) the exercise of any conversion, exchange, subscription or renunciation rights and repayment of its securities. [Note: Article 78(2) CARD]~~
- 17.4.3 R ~~An issuer of bearer securities must comply with LR 17.4.2R by publishing an advertisement in at least one national newspaper in the United Kingdom.~~
[deleted]
- 17.4.4 G ~~An issuer of bearer securities is not required to comply with LR 17.4.3R if:~~
[deleted]
- ~~(1) the securities are in global form; and~~
 - ~~(2) the issuer can confirm that notices will be transmitted without delay to all holders.~~

Communications with holders

- 17.4.5 R (1) ~~An issuer must notify a RIS of all notices to holders of its listed securities no later than the date the notices are sent to holders.~~
[deleted]
- (2) ~~An issuer must submit to the FSA draft copies of any proposed amendment to its constitution which would affect the rights of holders. [Note: Article 79 CARD]~~

Disclosure: convertible and guaranteed securities

- 17.4.6 R ~~Any changes to conversion rights attaching to convertible securities must be notified to a RIS as soon as possible. [Note: Article 81 CARD] [deleted]~~

17.5 Requirements for states, regional and local authorities and public international bodies

- 17.5.1 R This chapter does not apply to a state, a regional or local authority and a *public international body with listed debt securities* except that such an *issuer* must comply with:
- (1) ~~LR 17.3.2R (Admission to trading);~~
 - (2) ~~LR 17.3.3R (Equality of treatment);~~
 - (3) ~~LR 17.4.1R(3) (Disclosures to be made without delay to an RIS); and~~
 - (4) ~~LR 17.4.2R to LR 17.4.4G (Disclosure to holders—exercise of rights).~~

Compliance with transparency rules

- 17.5.2 R (1) This rule applies to a state, a regional or local authority and a *public international body with listed debt securities* for whom the *United Kingdom* is its home Member State for the purposes of the *Transparency Directive*.
- (2) An issuer referred to in paragraph (1) that is not already required to comply with the *transparency rules* must comply with:
- (a) DTR 5.6.3R (disclosure of changes in rights);
 - (b) DTR 6.1.2R (amendments to constitution);
 - (c) DTR 6.1.3R(2) (equality of treatment);
 - (d) DTR 6.2 (Filing information and use of language); and
 - (e) DTR 6.3 (Dissemination of information).

18.4 Continuing obligations

- 18.4.1 R An issuer of debt securities which the certificates represent must comply with the continuing obligations set out in LR 17.3 (Requirements with continuing application) ~~and LR 17.4 (Disclosures)~~ in addition to the

requirements of this section.

...

- 18.4.3 R *An overseas company that is the issuer of the equity shares which the certificates represent must comply with:*
- (1) the requirements of this section;
 - (2) the continuing obligations set out in *LR 14.3 (Continuing obligations)* and ~~*LR 14.4 (Continuing obligations — financial information)*~~; and
 - (3) *DTR 2 (Disclosure and control of inside information by issuers)*, as if it were an *issuer* for the purposes of the *disclosure rules*.

...

Compliance with Transparency Rules

- 18.4.7 G *An issuer, whose securities are admitted to trading on a regulated market, should consider its obligations under DTR 4 (Periodic financial reporting), DTR 5 (Vote holder and issuer notification rules) and DTR 6 (Access to information).*
- 18.4.9 R *An issuer that is not already required to comply with the transparency rules must comply with DTR 6.3 as if it were an issuer for the purposes of the transparency rules.*

19.4 Continuing obligations

...

~~Equality of treatment~~

- 19.4.4 ~~*An issuer must ensure equal treatment for all holders of listed securitised derivatives of the same series in respect of all rights attaching to such securitised derivatives.* [deleted]~~

~~Annual accounts~~

- 19.4.5 R (1) ~~An issuer must publish its annual accounts as soon as possible after they have been approved. [deleted]~~
- (2) ~~An issuer must approve and publish its annual accounts within six months of the end of the financial period to which they relate.~~
- 19.4.6 R (1) ~~Annual accounts must be drawn up and be independently audited. [deleted]~~
- (2) ~~If an issuer prepares both own and consolidated annual accounts, it may publish either form provided that the unpublished accounts do not contain any significant additional information.~~
- ...
- 19.4.8 R ~~The FSA may dispense with LR 19.4.5R and LR 19.4.6R if: [deleted]~~
- (1) ~~the issue is guaranteed;~~
- (2) ~~the guarantor is a listed company;~~
- (3) ~~the issuer is included in the consolidated accounts of the guarantor;~~
- (4) ~~no other requirement for the preparation of annual reports and accounts exists; and~~
- (5) ~~non-publication of the issuer's accounts would not be likely to mislead the public with regard to facts and circumstances, knowledge of which is essential for the assessment of the securitised derivatives in question.~~

Paying agent

- 19.4.9 R ~~An issuer must maintain a paying agent in the United Kingdom until the maturity date of the securitised derivatives unless the issuer: [deleted]~~
- (1) ~~provides financial services; and~~
- (2) ~~itself performs the function of a paying agent in the United Kingdom.~~
- ...

Disclosure rules and transparency rules

- 19.4.11 R An issuer must comply with DTR 2.1 to DTR 2.7 as if it were an issuer for

the purposes of the *disclosure rules*.

- 19.4.11 A G An issuer, whose securities are admitted to trading on a regulated market, should consider its obligations under DTR 4 (Periodic financial reporting), DTR 5 (Vote holder and issuer notification rules) and DTR 6 (Access to information).
- 19.4.11B R For the purposes of compliance with the transparency rules, the FSA considers that an issuer of securitised derivatives should comply with DTR 4, DTR 5 and DTR 6 as if it were an issuer of debt securities as defined in the transparency rules.
- 19.4.11C G An issuer that is not already required to comply with the transparency rules must comply with DTR 6.3 as if it were an issuer for the purposes of the transparency rules.

19.5 Disclosures

...

Changes to rights

- 19.5.2 R ~~Any change in the rights attaching to listed securitised derivatives must be notified to a RIS as soon as possible. [deleted]~~
- 19.5.3 R ~~An issuer must notify a RIS as soon as possible of: [deleted]~~
- (1) ~~any new issues and guarantee or security related to such new issues; and~~
 - (2) ~~any change of guarantor or security for the securitised derivatives where this information is important for the purposes of assessing the securities in question.~~

Annual accounts

- 19.5.4 R ~~Immediately following the publication of its annual accounts an issuer must notify a RIS of where securitised derivative holders can obtain a copy of the annual accounts free of charge. [deleted]~~
- 19.5.5 R ~~Where an issuer has been granted a dispensation under LR 19.4.8R from publishing annual accounts, it must notify a RIS once the accounts have been published of where securitised derivative holders can obtain a copy of the~~

~~guarantor's accounts free of charge. [deleted]~~

~~Communications with holders~~

- 19.5.6 R ~~All notices to holders must be made either by: [deleted]~~
- ~~(1) publishing an advertisement in at least one national newspaper circulating in the *United Kingdom*;~~
 - ~~(2) despatch of the notice to the holders registered address; or~~
 - ~~(3) sending the notice electronically to the holder's e-mail address.~~

~~...~~

~~Paying agent~~

- 19.5.8 R ~~Any change of paying agent within the *United Kingdom* must be notified to a *RIS* as soon as possible. [deleted]~~

Annex C

Amendments to the Disclosure Rules

In this Annex, underlining indicates new text and striking through indicates deleted text.

Insert the following transitional provision.

Amend Chapter 1 of *DTR* as follows:

1 Introduction

1.1 Application and purpose (*Disclosure rules*) ...

Insert new Chapter 1A as follows (all new text):

1A Introduction (*Transparency rules*)

1A.1 Application and purpose (*Transparency rules*)

1A.1.1 G The application of Chapters 4, 5 and 6 of *DTR* is set out at the beginning of each chapter and, where necessary, section.

1A.1.2 R (1) Neither this chapter nor Chapters 4, 5 or 6 of *DTR* shall apply in relation to an undertaking that falls within paragraph (2) or units of such an undertaking that fall within paragraph (3). [**Note: article 1.2 TD**].

(2) The exemption set out in paragraph (1) applies to an undertaking if it is a unit trust or investment company:

(a) the object of which is the collective investment of capital provided by the public, and which operates on the principle of risk spreading; and

(b) the units of which are, at the request of the holder of such units, repurchased or redeemed, directly or indirectly, out of the assets of that undertaking. [**Note: article 2.1(g) TD**]

(3) Units of an undertaking that falls within paragraph (2) are securities issued by such an undertaking and representing the rights of the participants in such an undertaking. [**Note: article 2.1(h) TD**]

Purpose

1A.1.3 G The purpose of the *transparency rules* is to implement the *Transparency Directive* and to make other rules to ensure there is adequate transparency of and access to information in the UK financial markets.

FSA performing functions as competent authority

- 1A.1.4 G In relation to the *transparency rules*, the *FSA* is exercising its functions as the competent authority under Part VI of the *Act* (see section 72(1) of the *Act*).

Other relevant parts of Handbook

Note: Other parts of the *Handbook* that may also be relevant to *persons* to whom the *transparency rules* apply include *DEC* (the Decision making manual), Chapter 9 of *SUP* (the Supervision manual) and Chapter 21 of *ENF* (the Enforcement manual).

Note: A list of *regulated markets* can be found on the *FSA* website at the following address: http://www.fsa.gov.uk/register-res/html/prof_exchanges_fram.html

1A.2 Modifying rules and consulting the FSA

Modifying or dispensing with rules

- 1A.2.1 R (1) The *FSA* may dispense with, or modify, the *transparency rules* in such cases and by reference to such circumstances as it considers appropriate (subject to the terms of directives and the *Act*).
- (2) A dispensation or modification may be either unconditional or subject to specified conditions.
- (3) If an *issuer*, or other *person* has applied for, or been granted, a dispensation or modification, it must notify the *FSA* immediately it becomes aware of any matter which is material to the relevance or appropriateness of the dispensation or modification.
- (4) The *FSA* may revoke or modify a dispensation or modification.
- 1A.2.2 R (1) An application to the *FSA* to dispense with or modify, a *transparency rule* must be in writing.
- (2) The application must:
- (a) contain a clear explanation of why the dispensation or modification is requested;
 - (b) include details of any special requirements, for example, the date by which the dispensation or modification is required;
 - (c) contain all relevant information that should reasonably be brought to the *FSA*'s attention;
 - (d) contain any statement or information that is required by the *transparency rules* to be included for a specific type of dispensation or modification; and

(e) include copies of all documents relevant to the application.

- 1A.2.3 G An application to dispense with or modify a *transparency rule* should ordinarily be made at least five *business days* before the proposed dispensation or modification is to take effect.

Early consultation with FSA

- 1A.2.4 G An *issuer* or other *person* should consult with the *FSA* at the earliest possible stage if they:
- (1) are in doubt about how the *transparency rules* apply in a particular situation; or
 - (2) consider that it may be necessary for the *FSA* to dispense with or modify a *transparency rule*.

Address for correspondence

Note: The *FSA's* address for correspondence in relation to the *disclosure rules* is:

Company Monitoring Team
Markets Division
The Financial Services Authority
25 The North Colonnade
Canary Wharf
London E14 5HS

Fax: 020 7066 8368

1A.3 FSA may require the publication of information

- 1A.3.1 R (1) The *FSA* may, at any time, require an *issuer* to publish such information in such form and within such time limits as it considers appropriate to protect investors or to ensure the smooth operation of the market.
- (2) If an *issuer* fails to comply with a requirement under paragraph (1) the *FSA* may itself publish the information (after giving the *issuer* an opportunity to make representations as to why it should not be published).

Misleading information not to be published

- 1A.3.2 R An *issuer* must take all reasonable care to ensure that any information it notifies to a *RIS* is not misleading, false or deceptive and does not omit anything likely to affect the import of the information.

Notification when a *RIS* is not open for business

- 1A.3.3 R If an *issuer* is required to notify information to a *RIS* at a time when a *RIS* is not open for business, it must distribute the information as soon as possible

to:

- (1) not less than two national newspapers in the *United Kingdom*;
- (2) two newswire services operating in the *United Kingdom*; and
- (3) a *RIS* for release as soon as it opens.

1A.4 Fees

1A.4.1 R An *issuer* must pay the fees set out in *DTR* App 2R to the *FSA* when they are due.

Insert new Chapter 4 as follows:

DTR 4: PERIODIC FINANCIAL REPORTING

4.1 Annual financial report

Application

4.1.1 R Subject to the exemptions set out in *DTR 4.4 (Exemptions)* this section applies to an *issuer*:

- (1) whose *transferable securities* are *admitted to trading*; and
- (2) whose *Home State* is the *United Kingdom*.

Compliance with the Listing Rules

4.1.2 G An *issuer* that is also admitted to the *official list* should consider its obligations under the *Listing Rules* in addition to the requirements in these *rules*.

Publication of annual financial reports

4.1.3 R An *issuer* must make public its annual financial report at the latest four months after the end of each financial year. [**Note: article 4(1) of the TD**]

4.1.4 R An *issuer* must ensure that its annual financial report remains publicly available for at least five years. [**Note: article 4(1) of the TD**]

Content of annual financial reports

4.1.5 R The annual financial report must include:

- (1) the audited financial statements;
- (2) a management report; and
- (3) responsibility statements.

[Note: article 4(2) of the TD]

Audited financial statements

4.1.6 R (1) If an *issuer* is required to prepare consolidated accounts according to the Seventh Council Directive 83/349/EEC, the audited financial statements must comprise:

- (a) consolidated accounts prepared in accordance with *IFRS*, and
- (b) accounts of the parent *company* prepared in accordance with the national law of the *EEA State* in which the parent *company* is incorporated.

[Note: article 4(3) of the TD]

- (2) If an *issuer* is not required to prepare consolidated accounts, the audited financial statements must comprise accounts prepared in accordance with the national law of the *EEA State* in which the *issuer* is incorporated. **[Note: article 4(3) of the TD]**

Auditing of financial statements

- 4.1.7 R (1) If an *issuer* is required to prepare consolidated accounts, the financial statements must be audited in accordance with Article 37 of the Seventh Council Directive 83/349/EEC.
- (2) If an *issuer* is not required to prepare consolidated accounts the financial statements must be audited in accordance with Articles 51 and 51a of the Fourth Council Directive 78/660/EEC.
- (3) The audit report, signed by the person or persons responsible for auditing the financial statements must be disclosed in full to the public together with the annual financial report.

[Note: article 4(4) of the TD]

Content of management report

- 4.1.8 R The management report must contain:
- (1) a fair review of the *issuer's* business; and
- (2) a description of the principal risks and uncertainties facing the *issuer*.
- 4.1.9 R The review required by *DTR* 4.1.8R must:
- (1) be a balanced and comprehensive analysis of:
- (a) the development and performance of the *issuer's* business during the financial year; and
- (b) the position of the *issuer's* business at the end of that year, consistent with the size and complexity of the business;
- (2) include, to the extent necessary for an understanding of the development, performance or position of the *issuer's* business:
- (a) analysis using financial key performance indicators; and

- (b) where appropriate, analysis using other key performance indicators including information relating to environmental matters and employee matters; and
 - (3) include references to, and additional explanations of, amounts included in the *issuer's* annual financial statements, where appropriate.
- 4.1.10 G In *DTR* 4.1.9R(2), key performance indicators are factors by reference to which the development, performance or position of the *issuer's* business can be measured effectively.
- 4.1.11 R The management report required by *DTR* 4.1.8R must also give an indication of:
- (1) any important events that have occurred since the end of the financial year;
 - (2) the *issuer's* likely future development;
 - (3) activities in the field of research and development;
 - (4) the information concerning acquisitions of own *shares* prescribed by Article 22 (2) of Directive 77/91/EEC;
 - (5) the existence of branches of the *issuer*; and
 - (6) in relation to the *issuer's* use of *financial instruments* and where material for the assessment of its assets, liabilities, financial position and profit or loss:
 - (a) the *issuer's* financial risk management objectives and policies, including its policy for hedging each major type of forecasted transaction for which hedge accounting is used, and
 - (b) the *issuer's* exposure to price risk, credit risk, liquidity risk and cash flow risk.

Responsibility statements

- 4.1.12 R
- (1) Responsibility statements must be made by the *persons* responsible within the *issuer*.
 - (2) The name and function of any *person* who makes a responsibility statement must be clearly indicated in the responsibility statement.
 - (3) For each *person* making a responsibility statement, the statement must set out that to the best of his or her knowledge:

- (a) the financial statements, prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the *issuer* and the undertakings included in the consolidation taken as a whole; and
- (b) the management report includes a fair review of the development and performance of the business and the position of the *issuer* and the undertakings included in the consolidation taken as a whole, together with a description of the principal risks and uncertainties that they face.

[Note: article 4(2)(c) of the TD]

4.1.13 R The *issuer* is responsible for all information drawn up and made public in accordance with this section.

4.2 Half-yearly financial reports

Application

4.2.1 R Subject to the exemptions set out in *DTR* 4.4 (Exemptions) this section applies to an *issuer*:

- (1) whose *shares* or *debt securities* are *admitted to trading*; and
- (2) whose *Home State* is the *United Kingdom*.

Publication of half-yearly financial reports

- 4.2.2 R
- (1) An *issuer* must make public a half-yearly financial report covering the first six months of the financial year.
 - (2) The half-yearly financial report must be made public as soon as possible, but no later than two months, after the end of the period to which the report relates.
 - (3) An *issuer* must ensure that the half-yearly financial report remains available to the public for at least five years.

[Note: article 5(1) of the TD]

Content of half-yearly financial reports

- 4.2.3 R The half-yearly financial report must include:
- (1) a condensed set of financial statements;
 - (2) an interim management report; and
 - (3) responsibility statements.

[Note: article 5(2) of the TD]

Preparation and content of condensed set of financial statements

- 4.2.4 R (1) If an *issuer* is required to prepare consolidated accounts, the condensed set of financial statements must be prepared in accordance with IAS 34. **[Note: article 5(3) of the TD]**
- (2) If an *issuer* is not required to prepare consolidated accounts, the condensed set of financial statements must contain, as a minimum the following:
- (a) a condensed balance sheet;
 - (b) a condensed profit and loss account; and
 - (c) explanatory notes on these accounts.

[Note article 5(3) of the TD]

- 4.2.5 R (1) This *rule* applies to an *issuer* that is not required to prepare consolidated accounts.
- (2) In preparing the condensed balance sheet and the condensed profit and loss account an *issuer* must follow the same principles for recognising and measuring as when preparing annual financial reports. **[Note article 5(3) of the TD]**
- (3) The balance sheet and the profit and loss account must show each of the headings and subtotals included in the most recent annual financial statements of the *issuer*. Additional line items must be included if, as a result of their omission, the half-yearly financial statements would give a misleading view of the assets, liabilities, financial position and profit or loss of the *issuer*. **[Note: article 3(2) of the TD implementing Directive]**
- (4) The half-yearly financial information must include comparative information presented as follows:
- (a) balance sheet as at the end of the first six months of the current financial year and comparative balance sheet as at the end of the immediate preceding financial year; and
 - (b) profit and loss account for the first six months of the current financial year with, from two years after 20 January 2007, comparative information for the comparable period for the preceding financial year.

[Note: article 3(2) of the TD implementing Directive]

- (5) The explanatory notes must include the following:
- (a) sufficient information to ensure the comparability of the condensed half-yearly financial statements with the annual

financial statements; and

- (b) sufficient information and explanations to ensure a user's proper understanding of any material changes in amounts and of any developments in the half-year period concerned, which are reflected in the balance sheet and the profit and loss account.

[Note: article 3(3) of the *TD implementing Directive*]

4.2.6 R The accounting policies and presentation applied to half-yearly figures must be consistent with those applied in the latest published annual accounts except where:

- (1) the accounting policies and presentation are to be changed in the subsequent annual financial statements, in which case the new accounting policies and presentation should be followed and the changes and the reasons for the changes should be disclosed in the half-yearly report; or
- (2) the *FSA* otherwise agrees.

Content of interim management report

4.2.7 R The interim management report must include at least:

- (1) an indication of important events that have occurred during the first six months of the financial year, and their impact on the condensed set of financial statements, and
- (2) a description of the principal risks and uncertainties for the remaining six months of the financial year.

[Note: article 5(4) of the *TD*]

4.2.8 R (1) In addition to the requirement set out in *DTR* 4.2.7R, an *issuer* of *shares* must disclose in the interim management report the following information, as a minimum:

- (a) related parties' transactions that have taken place in the first six months of the current financial year and that have materially affected the financial position or the performance of the enterprise during that period; and
 - (b) any changes in the related parties transactions described in the last annual report that could have a material effect on the financial position or performance of the enterprise in the first six months of the current financial year.
- (2) If an *issuer* of *shares* is not required to prepare consolidated accounts, it must disclose, as a minimum, any transactions which have been entered into with related parties by the *issuer*, including the amount of such transactions, the nature of the related party

relationship and other information about the transactions necessary for an understanding of the financial position of the *issuer*, if such transactions are material and have not been concluded under normal market conditions. **[Note: Article 43(1)(7b) of Directive 78/660/EC]**

- (3) In relation to transactions described in paragraph (2) information about such transactions may be aggregated according to their nature except where separate information is necessary for an understanding of the effects of related party transactions on the financial position of the *issuer*. **[Note: Article 43(1)(7b) of Directive 78/660/EC]**

Auditing of the condensed set of financial statements

- 4.2.9 R (1) If the half-yearly financial report has been audited or reviewed by auditors pursuant to the Auditing Practices Board guidance on Review of Interim Financial Information, the audit report or review report must be reproduced in full.
- (2) If the half-yearly financial report has not been audited or reviewed by auditors pursuant to the Auditing Practices Board guidance on Review of Interim Financial Information, an *issuer* must make a statement to this effect in its report.

[Note: article 5(5) of the TD]

Responsibility statements

- 4.2.10 R (1) Responsibility statements must be made by the *persons* responsible within the *issuer*. **[Note: article 5(2)(c) of the TD]**
- (2) The name and function of any *person* who makes a responsibility statement must be clearly indicated in the responsibility statement. **[Note: article 5(2)(c) of the TD]**
- (3) For each *person* making a responsibility statement, the statement must confirm that to the best of his or her knowledge:
- (a) the condensed set of financial statements, which has been prepared in accordance with the applicable set of accounting standards, gives a true and fair view of the assets, liabilities, financial position and profit or loss of the *issuer*, or the undertakings included in the consolidation as a whole as required by *DTR 4.2.4R*;
 - (b) the interim management report includes a fair review of the information required by *DTR 4.2.7R*; and
 - (c) the interim management report includes a fair review of the information required by *DTR 4.2.8R*, in the case of an *issuer* of *shares*.

[Note: article 5(2)(c) of the TD]

- (4) A *person* making a responsibility statement will satisfy the requirement in (3) (a) above to confirm that the condensed set of financial statements gives a true and fair view of the assets, liabilities, financial position and profit or loss of the *issuer* (or the undertakings included in the consolidation as a whole) by including a statement that the condensed set of financial statements have been prepared in accordance with:
- (a) *IAS* 34; or
 - (b) for *UK issuers* not using *IFRS*, pronouncements on interim reporting issued by the Accounting Standards Board; or
 - (c) for all other *issuers* not using *IFRS*, a national accounting standard relating to interim reporting,

provided always that a *person* making such a statement has reasonable grounds to be satisfied that the condensed set of financial statements prepared in accordance with such a standard is not misleading.

4.2.11 R The *issuer* is responsible for all information drawn up and made public in accordance with this section.

4.3 Interim management statements

Application

4.3.1 R Subject to the exemptions set out in *DTR* 4.4 (Exemptions) this section applies to an *issuer*:

- (1) whose *shares* are *admitted to trading*; and
- (2) whose *Home State* is the *United Kingdom*.

Publication of interim management statements

4.3.2 R An *issuer* must make public a statement by its management during the first six-month period of the financial year and another statement by its management during the second six month period of the financial year.
[Note: article 6(1) of the TD]

4.3.3 R The statement required by *DTR* 4.3.2R must be made in a period between ten weeks after the beginning, and six weeks before, the end of the relevant six-month period. **[Note: article 6(1) of the TD]**

Content of interim management statements

4.3.4 R The interim management statement must contain information that covers the period between the beginning of the relevant six-month period and the date of publication of the statement. **[Note: article 6(1) of the TD]**

- 4.3.5 R The interim management statement must provide:
- (1) an explanation of material events and transactions that have taken place during the relevant period and their impact on the financial position of the *issuer* and its *controlled undertakings*, and
 - (2) a general description of the financial position and performance of the *issuer* and its *controlled undertakings* during the relevant period.

[Note: article 6(1) of the TD]

- 4.3.6 R An *issuer* which publishes quarterly financial reports:
- (1) in accordance with national legislation; or
 - (2) in accordance with the rules of the *regulated market*; or
 - (3) of its own initiative,

will be taken as satisfying the requirement to make public the statements required by *DTR 4.3.2R*. **[Note: article 6(2) of the TD]**

4.4 Exemptions

Public sector issuers

- 4.4.1 R The *rules* on annual financial reports (*DTR 4.1*), half-yearly financial reports (*DTR 4.2*) and interim management statements (*DTR 4.3*) do not apply to a state, a regional or local authority of a state, a public international body of which are least one *EEA State* is a member, the ECB and *EEA States'* national central banks. **[Note: article 8(1)(a) of the TD]**

Debt issuers

- 4.4.2 R The *rules* on annual financial reports (*DTR 4.1*), half-yearly financial reports (*DTR 4.2*) and interim management statements (*DTR 4.3*) do not apply to an *issuer* that issues exclusively *debt securities admitted to trading* the denomination per unit of which is at least 50,000 Euros (or an equivalent amount). **[Note: article 8(1)(b) of the TD]**

- 4.4.3 R The *rules* on half-yearly financial reports (*DTR 4.2*) do not apply to a *credit institution* whose *shares* are not *admitted to trading* and which has, in a continuous or repeated manner, only issued *debt securities* provided that:

- (1) the total nominal amount of all such *debt securities* remains below 100,000,000 Euros; and
- (2) the *credit institution* has not published a prospectus in accordance with the *prospectus directive*.

[Note: article 8(2) of the TD]

- 4.4.4 R The *rules* on half-yearly financial reports do not apply to an *issuer* already existing on 31 December 2003 which exclusively issue *debt securities*

unconditionally and irrevocably guaranteed by the *issuer's Home Member State* or by a regional or local authority of that state, on a *regulated market*.

[Note: article 8(3) of the TD]

Issuers of convertible securities

- 4.4.5 R The *rules* on half-yearly financial reports (*DTR 4.2*) and Interim management statements (*DTR 4.3*) do not apply to an *issuer of transferable securities* convertible into *shares*.

Issuers of preference shares

- 4.4.6 R The *rules* on interim management statements (*DTR 4.3*) do not apply to an *issuer of preference shares*.

Issuers of depository receipts

- 4.4.7 R The *rules* on half-yearly financial reports (*DTR 4.2*) and interim management statements (*DTR 4.3*) do not apply to an *issuer of depository receipts*.

Non-EEA States - Equivalence

- 4.4.8 R An *issuer* whose registered office is in a *non-EEA State* whose relevant laws are considered equivalent by the *FSA* is exempted from the *rules* on annual financial reports (*DTR 4.1*), half-yearly financial reports (*DTR 4.2*) and interim management statements (*DTR 4.3*).
- 4.4.9 G The *FSA* maintains a published list of *non-EEA States* which, for the purpose of article 23.1 of the *TD*, are judged to have laws which lay down requirements equivalent to those imposed upon *issuers* by this chapter. Such *issuers* remain subject to the following requirements of *DTR 6*:
- (1) the filing of information with the *FSA*;
 - (2) the language provisions; and
 - (3) the dissemination of information provisions.

Insert new Chapter 5 as follows:

DTR 5: VOTE HOLDER AND ISSUER NOTIFICATION RULES

5.1 Notification of the acquisition or disposal of major shareholdings

5.1.1 R In this chapter:

- (1) references to "*issuer*", in relation to *shares* admitted to trading on a *regulated market*, are to an *issuer* whose *Home State* is the *United Kingdom*; and
- (2) references to a "*non-UK issuer*" are to an *issuer* whose *shares* are admitted to trading on a *regulated market* and whose *Home State* is the *United Kingdom* other than:
 - (a) a public company within the meaning of section 1(3) of the Companies Act 1985; and
 - (b) a company which is otherwise incorporated in, and whose principal place of business is in, the *UK*.
- (3) references to "*shares*" are to *shares* which are:
 - (a) already issued and carry rights to vote in all circumstances at general meetings of the *issuer* including *shares* (such as preference *shares*) which, following the exercise of an option for their conversion, event of default or otherwise, have become fully enfranchised for voting purposes; and
 - (b) admitted to trading on a *regulated* or *prescribed market*.
- (4) an acquisition or disposal of *shares* is to be regarded as effective when the relevant transaction is executed unless the transaction provides for settlement to be subject to conditions which are beyond the control of the parties in which case the acquisition or disposal is to be regarded as effective on the settlement of the transaction;
- (5) a stock-lending agreement which provides for the outright transfer of securities and which provides the lender with a right to call for re-delivery of the lent stock (or its equivalent) is not (as respects the lender) to be taken as involving a disposal of any *shares* which may be the subject of the stock loan; and
- (6) for the purposes of calculating whether any percentage threshold is reached, exceeded or fallen below and in any resulting notification, the proportion of voting rights held shall if necessary be rounded down to the next whole number.

5.1.2 R Subject to the exemption for certain third country *issuers* (DTR 5.11.6R), a *person* must notify the *issuer* of the percentage of its voting rights if the percentage of voting rights which he holds as *shareholder* or through his

direct or indirect holding of *financial instruments* falling within *DTR*

5.1.3R (or a combination of such holdings):

- (1) reaches, exceeds or falls below 3%, 4%, 5%, 6%, 7%, 8%, 9%, 10% and each 1% threshold thereafter up to 100% (or in the case of a non-*UK issuer* on the basis of thresholds at 5%, 10%, 15%, 20%, 25%, 30%, 50% and 75% as a result of an acquisition or disposal of *shares* or *financial instruments* falling within *DTR* 5.3.1R); or
- (2) reaches, exceeds or falls below an applicable threshold in (1) as a result of events changing the breakdown of voting rights and on the basis of information disclosed by the *issuer* in accordance with *DTR* 5.6.1R;

and in the case of an *issuer* which is not incorporated in an *EEA state* a notification under (2) must be made on the basis of equivalent events and disclosed information. [Note: articles 9(1) and 9(2) of the *TD*]

Certain voting rights to be disregarded

5.1.3 R Voting rights attaching to the following *shares* are to be disregarded for the purposes of determining whether a person has a notification obligation in accordance with the thresholds in *DTR* 5.1.2 R:

- (1) *shares* acquired for the sole purpose of clearing and settlement within a settlement cycle not exceeding the period beginning with the transaction and ending at the close of the third *trading day* following the day of the execution of the transaction (irrespective of whether the transaction is conducted on-exchange);
- (2) *shares* held by a custodian (or nominee) in its custodian (or nominee) capacity (whether operating from an establishment in the *UK* or elsewhere) provided such a *person* can only exercise the voting rights attached to such *shares* under instructions given in writing or by *electronic means*;
- (3) *shares* held by a *market maker* acting in that capacity subject to the percentage of such *shares* not being equal to or in excess of 10% and subject to the *market maker* satisfying the criteria and complying with the conditions and operating requirements set out in *DTR* 5.1.4R;
- (4) *shares* held by a *credit institution* or *investment firm* provided that:
 - (a) the *shares* are held within the *trading book* of the *credit institution* or *investment firm*;
 - (b) the voting rights attached to such *shares* do not exceed 5%; and
 - (c) the *credit institution*, or as the case may be *investment firm*, ensures that the voting rights attached to *shares* in the *trading book* are not exercised or otherwise used to intervene in the

management of the *issuer*.

- (5) *shares* held by a collateral taker under a collateral transaction which involves the outright transfer of *securities* provided the collateral taker does not declare any intention of exercising (and does not exercise) the voting rights attaching to such *shares*.
- (6) *shares* acquired by a borrower under a stock lending agreement provided :
 - (a) such *shares* (or equivalent stock) are on-lent or otherwise disposed of by the borrower by not later than close of business on the next *trading day*; and
 - (b) the borrower does not declare any intention of exercising (and does not exercise) the voting rights attaching to the *shares*.

[Note: articles 9(4), 9(5), 9(6) and 10(c) of the TD]

- 5.1.4 R (1) References to a *market maker* are to a *market maker* which:
- (a) (subject to (3) below) is authorised by its *Home State* under *MiFID*;
 - (b) does not intervene in the management of the *issuer* concerned; and
 - (c) does not exert any influence on the *issuer* to buy such *shares* or back the *share* price. **[Note: articles 9(5) and 9(6) of the TD]**
- (2) A *market maker* relying upon the exemption for *shares* held by it in that capacity must notify the *competent authority* of the *Home Member State* of the *issuer*, at the latest within the time limit provided for by *DTR 5.8.3R*, that it conducts or intends to conduct market making activities on a particular *issuer* (and shall equally make such a notification if it ceases such activity).
- [Note: article 6(1) of the TD implementing Directive]**
- (3) References to a *market maker* also include a *third country investment firm* and a *credit institution* when acting as a *market maker* and which, in relation to that activity, is subject to regulatory supervision under the laws of a *Member State*.

Certain voting rights to be disregarded (except at 5% 10% and higher thresholds)

- 5.1.5 R (1) The following are to be disregarded for the purposes of determining whether a *person* has a notification obligation in accordance with the thresholds in *DTR 5.1.2R* except at the thresholds of 5% and 10% and above:

- (a) voting rights attaching to *shares* forming part of property belonging to another which that *person* lawfully manages under an agreement in, or evidenced in, writing;
 - (b) voting rights attaching to *shares* which may be exercisable by a *person* in his capacity as the operator of:
 - (i) an *authorised unit trust scheme*;
 - (ii) a *recognised scheme*; or
 - (iii) a *UCITS scheme*;
 - (c) voting rights attaching to *shares* which may be exercisable by an *ICVC*;
 - (d) voting rights attaching to *shares* which may be exercised by a category of investment entity which for this purpose is prescribed by the *FSA*.
- (2) For the purposes of *DTR 5.1.5R(1)(a)*, a *person* ("A") may lawfully manage *investments* belonging to another if:
- (a) A can manage those *investments* in accordance with a *Part IV permission*;
 - (b) A is an *EEA* firm other than one mentioned in sub-paragraphs (c) or (e) of paragraph 5 of Schedule 3 to the *Act* and can manage those *investments* in accordance with its *EEA* authorisation;
 - (c) A can, in accordance with section 327 of the *Act*, manage those *investments* without contravening the prohibition contained in section 19 of the *Act*;
 - (d) A can lawfully manage those *investments* in another *EEA State* and would, if he were to manage those *investments* in the *UK*, require a *Part IV permission*; or
 - (e) A is a category of investment manager prescribed for this purpose by the *FSA*.

5.2 Acquisition or disposal of major proportions of voting rights

- 5.2.1 R A *person* is an indirect holder of *shares* for the purpose of the applicable definition of *shareholder* to the extent that he is entitled to acquire, to dispose of, or to exercise voting rights in any of the following cases or a combination of them:

Case	
(a)	voting rights held by a third party with whom that <i>person</i> has concluded an agreement, which obliges them to adopt, by concerted exercise of the voting rights they hold, a lasting common policy towards the management of the <i>issuer</i> in question;
(b)	voting rights held by a third party under an agreement concluded with that <i>person</i> providing for the temporary transfer for consideration of the voting rights in question;
(c)	voting rights attaching to <i>shares</i> which are lodged as collateral with that <i>person</i> provided that <i>person</i> controls the voting rights and declares its intention of exercising them;
(d)	voting rights attaching to <i>shares</i> in which that <i>person</i> has the life interest;
(e)	voting rights which are held, or may be exercised within the meaning of points (a) to (d) or, in cases (f) and (h) by a <i>firm</i> undertaking investment management, or by a <i>management company</i> , by an undertaking controlled by that <i>person</i> ;
(f)	voting rights attaching to <i>shares</i> deposited with that <i>person</i> which the <i>person</i> can exercise at its discretion in the absence of specific instructions from the <i>shareholders</i> ;
(g)	voting rights held by a third party in his own name on behalf of that <i>person</i> ;
(h)	voting rights which that <i>person</i> may exercise as a proxy where that <i>person</i> can exercise the voting rights at his discretion in the absence of specific instructions from the <i>shareholders</i> ;

[Note: article 10 of the TD]

- 5.2.2 G Cases (a) to (h) in DTR 5.2.1R identify situations where a *person* may be able to control the manner in which voting rights are exercised and where, (taking account of any aggregation with other holdings) a notification to the *issuer* may need to be made. In the FSA's view:
- (1) Case (e) produces the result that it is always necessary for the *parent undertaking* of a *controlled undertaking* to aggregate its holding with any holding of the *controlled undertaking* (subject to the exemptions implicit in Case (e) and others in DTR 5.4);
 - (2) Case (f) includes a *person* carrying on investment management and which is also the custodian of *shares* to which voting rights are attached;
 - (3) Case (g) does not result in a unit holder in a *collective investment scheme* or other investment entity being treated as the holder of voting rights in the scheme property (provided always such persons

do not have any entitlement to exercise, or control the exercise of, such voting rights); neither are such persons to be regarded as holding *shares* "indirectly";

- (4) Case (h), although referring to proxies, also describes and applies to a *person* undertaking investment management, and to a *management company*, and which is able effectively to determine the manner in which voting rights attached to *shares* under its control are exercised (for example through instructions given directly or indirectly to a nominee or independent custodian). Case (e) provides for the voting rights which are under the control of such a *person* to be aggregated with those of its *parent undertaking*.

5.2.3 G A *person* falling within Cases (a) to (h) is an indirect holder of *shares* for the purpose of the definition of *shareholder*. These indirect holdings have to be aggregated, but also separately identified in a notification to the *issuer*. Apart from those identified in the Cases (a) to (h), the FSA does not expect any other significant category "indirect shareholder" to be identified. Cases (a) to (h) are also relevant in determining whether a *person* is an indirect holder of qualifying *financial instruments* which result in an entitlement to acquire *shares*.

5.2.4 R *DTR* 5.1.2R and case (c) of *DTR* 5.2.1R do not apply in respect of voting rights attaching to *shares* provided to or by a member of the European System of Central Banks in carrying out their functions as monetary authorities, including *shares* provided to or by any such member under a pledge or repurchase of similar agreement for liquidity granted for monetary policy purposes or within a payments system provided:

- (1) this shall apply only for a short period following the provision of the *shares*; and
- (2) the voting rights attached to the *shares* during this period are not exercised. [**Note: article 11 of the TD**].

5.2.5 R (1) A *person* who is required to make a notification may, without affecting their responsibility, appoint another *person* to make the notification on his behalf.

(2) Where two or more *persons* are required to make a notification such *persons* may, without affecting their responsibility, arrange for a single notification to be made. [**Note: article 8(3) of the TD implementing Directive**].

5.3 Notification of voting rights arising from the holding of certain financial instruments

5.3.1 R A *person* must make a notification in accordance with the applicable thresholds in *DTR* 5.1.2R in respect of any qualifying *financial instruments* which they hold, directly or indirectly, which result in an entitlement to acquire, on such holder's own initiative alone, under a formal agreement, *shares* to which voting rights are attached, already issued, of an *issuer*.

[Note: article 13(1) of the TD].

- 5.3.2 R (1) *Transferable securities and options, futures, swaps, forward rate agreements* and any other *derivative* contracts, as referred to in Section C of Annex 1 of *MiFID*, shall be considered to be qualifying *financial instruments* provided that they result in an entitlement to acquire, on the holder's own initiative alone, under a formal agreement, *shares* to which voting rights are attached, already issued of an *issuer whose shares are* admitted to trading on a *regulated market* or a *UK prescribed market*.
- (2) The *instrument* holder must enjoy, on maturity, either the unconditional right to acquire the underlying *shares* or the discretion as to his right to acquire such *shares* or not.
- (3) A "formal agreement" means an agreement which is binding under applicable law.

[Note: Article 11(1) of the TD implementing Directive]

- 5.3.3 G For the purposes of Directive 2004/109/EC (TD), financial instruments should be taken into account in the context of notifying major holdings, to the extent that such instruments give the holder an unconditional right to acquire the underlying shares or cash on maturity. Consequently, financial instruments should not be considered to include instruments entitling the holder to receive shares depending on the price of the underlying share reaching a certain level at a certain moment in time. Nor should they be considered to cover those instruments that allow the instrument issuer or a third party to give shares or cash to the instrument holder on maturity.

[Note: Recital 13 of the TD implementing Directive]

- 5.3.4 R The holder of qualifying *financial instruments* is required to aggregate and, if necessary, notify all such instruments as relate to the same underlying *issuer*.

[Note: article 11(2) of the TD implementing Directive]

5.4 Aggregation of managed holdings

- 5.4.1 R (1) The *parent undertaking* of a *management company* shall not be required to aggregate its holdings with the holdings managed by the *management company* under the conditions laid down in the *UCITS Directive*, provided such *management company* exercises its voting rights independently from the *parent undertaking*.
- (2) But the requirements for the aggregation of holdings applies if the *parent undertaking*, or another *controlled undertaking* of the *parent undertaking*, has invested in holdings managed by such *management company* and the *management company* has no discretion to exercise the voting rights attached to such holdings and may only exercise such voting rights under direct or indirect instructions from the *parent* or another *controlled undertaking* of the *parent undertaking*.

[Note: articles 12(4) of the TD]

- 5.4.2 R (1) The *parent undertaking* of an *investment firm* authorised under *MiFID* shall not be required to aggregate its holdings with the holdings which such *investment firm* manages on a client-by-client basis within the meaning of Article 4(1), point 9, of *MiFID*, provided that:
- (a) the *investment firm* is authorised to provide such portfolio management;
 - (b) it may only exercise the voting rights attached to such *shares* under instructions given in writing or by *electronic means* or it ensures that individual portfolio management services are conducted independently of any other services under conditions equivalent to those provided for under the *UCITS Directive* by putting into place appropriate mechanisms; and
 - (c) the *investment firm* exercises its voting rights independently from the *parent undertaking*.
- (2) But the requirements for the aggregation of holdings applies if the *parent undertaking*, or another *controlled undertaking* of the *parent undertaking*, has invested in holdings managed by such *investment firm* and the *investment firm* has no discretion to exercise the voting rights attached to such holdings and may only exercise such voting rights under direct or indirect instructions from the parent or another *controlled undertaking* of the *parent undertaking*. **[Note: article 12(5) of the TD]**

- 5.4.3 R For the purposes of the exemption to the aggregation of holdings provided in *DTR 5.4.1R* or *DTR 5.4.2R*, a *parent undertaking* of a *management company* or of an *investment firm* shall comply with the following conditions:
- (1) it must not interfere by giving direct or indirect instructions or in any other way in the exercise of the voting rights held by the *management company* or *investment firm*; and
 - (2) that *management company* or *investment firm* must be free to exercise, independently of the *parent undertaking*, the voting rights attached to the assets it manages.

[Note: article 10(1) of the TD implementing Directive]

- 5.4.4 R A *parent undertaking* which wishes to make use of the exemption in relation to *issuers* subject to this chapter whose *shares* which are admitted to trading on a *regulated market* must without delay, notify the following to the *FSA*:
- (1) a list of the names of those *management companies*, *investment firms* or other entities, indicating the *competent authorities* that supervise them, but with no reference to the *issuers* concerned; and

- (2) a statement that, in the case of each such *management company* or *investment firm*, the *parent undertaking* complies with the conditions laid down *DTR 5.4.3R*.

The *parent undertaking* shall update the list referred to in paragraph (1) on an ongoing basis.

[Note: article 10(2) of the *TD implementing Directive*]

- 5.4.5 R Where the *parent undertaking* intends to benefit from the exemptions only in relation to the *financial instruments* referred to in Article 13 of the *TD*, it shall (in relation to *financial instruments* giving an entitlement to acquire *shares* which are admitted to trading on a *regulated market*) notify to the *FSA* only the list referred to in paragraph (1) of *DTR 5.4.4R*.

[Note: article 10(3) of the *TD implementing Directive*]

- 5.4.6 R A *parent undertaking* of a *management company* or of an *investment firm* must in relation to *issuers* subject to this chapter whose *shares* which are admitted to trading on a *regulated market* be able to demonstrate to the *FSA* on request that:

- (1) the organisational structures of the *parent undertaking* and the *management company* or *investment firm* are such that the voting rights are exercised independently of the *parent undertaking*;
- (2) the persons who decide how the voting rights are exercised act independently;
- (3) if the *parent undertaking* is a client of its *management company* or *investment firm* or has a holding in the assets managed by the *management company* or *investment firm*, there is a clear written mandate for an arms-length customer relationship between the *parent undertaking* and the *management company* or *investment firm*.

The requirement in (1) shall imply as a minimum that the *parent undertaking* and the *management company* or *investment firm* must have established written policies and procedures reasonably designed to prevent the distribution of information between the *parent undertaking* and the *management company* or *investment firm* in relation to the exercise of voting rights.

[Note: article 10(4) of the *TD implementing Directive*]

- 5.4.7 R For the purposes of paragraph (1) of *DTR 5.4.3R* “direct instruction” means any instruction given by the *parent undertaking*, or another *controlled undertaking* of the *parent undertaking*, specifying how the voting rights are to be exercised by the *management company* or *investment firm* in particular cases.
- 5.4.8 R “Indirect instruction” means any general or particular instruction, regardless of the form, given by the *parent undertaking*, or another *controlled*

undertaking of the *parent undertaking*, that limits the discretion of the *management company* or *investment firm* in relation to the exercise of voting rights in order to serve specific business interests of the *parent undertaking* or another *controlled undertaking* of the *parent undertaking*.

[Note: article 10(5) of the TD implementing Directive]

- 5.4.9 R Undertakings whose registered office is in a third country which would have required authorisation in accordance with Article 5 (1) of the *UCITS directive* or with regard to portfolio management under point 4 of section A of Annex 1 to *MiFID* if it had its registered office or, only in the case of an *investment firm*, its head office within the Community, shall be exempted from aggregating holdings with the holdings of its *parent undertaking* under this *rule* provide that they comply with equivalent conditions of independence as *management companies* or *investment firms*.

[Article 23(6) TD]

- 5.4.10 R A third country shall be deemed to set conditions of independence equivalent to those set out in this *rule* where under the law of that country, a *management company* or *investment firm* is required to meet the following conditions:

- (1) the *management company* or *investment firm* must be free in all situations to exercise, independently of its *parent undertaking*, the voting rights attached to the assets it manages;
- (2) the *management company* or *investment firm* must disregard the interests of the *parent undertaking* or of any other *controlled undertaking* of the *parent undertaking* whenever conflicts of interest arise.

- 5.4.11 R A *parent undertaking* of a third country undertaking must comply with the notification requirements in *DTR 5.4.4 (1)R* and *DTR5.4.5R* and in addition:

- (1) must make a statement that in respect of each *management company* or *investment firm* concerned, the *parent undertaking* complies with the conditions of independence set down in *DTR 5.4.10R*; and
- (2) Must be able to demonstrate to the *FSA* on request that the requirements of *DTR5.4.6R* are respected.

[Note: article 23 of the TD implementing Directive]

- 5.5 Acquisition or disposal by issuer of shares

- 5.5.1 R An *issuer* of *shares* must, if it acquires or disposes of its own *shares*, either itself or through a *person* acting in his own name but on the *issuer's* behalf, make public the percentage of voting rights attributable to those *shares* as soon as possible, but not later than four *trading days* following such acquisition or disposal where that percentage reaches, exceeds or falls below the thresholds of 5% or 10% of the voting rights.

- 5.5.2 R The percentage shall be calculated on the basis of the total number of *shares* to which voting rights are attached. [**Note: article 14 of the TD**].
- 5.5.3 G Additional requirements in relation to a *listed company* which purchases its own *equity shares* are contained in LR 12.4.6R.
- 5.6 Disclosures by issuers
- 5.6.1 R An *issuer* must, at the end of each calendar month during which an increase or decrease has occurred, disclose to the public:
- (1) the total number of voting rights and capital in respect of each class of *share* which it issues. [**Note: article 15 of the TD**]; and
 - (2) the total number of voting rights attaching to *shares* of the *issuer* which are held by it in treasury.
- 5.6.2 G The disclosure of the total number of voting rights should be in respect of each class of *share* which is admitted to trading on a *regulated or prescribed market*.
- 5.6.3 R Responsibility for all information drawn up and made public in accordance with DTR 5.6.1R lies with the *issuer*.
- 5.7 Notification of combined holdings
- 5.7.1 R A *person* making a notification in accordance with DTR 5.1.2R must do so by reference to each of the following:
- (1) the aggregate of all voting rights which the *person* holds as *shareholder* and as the direct or indirect holder of *financial instruments*;
 - (2) the aggregate of all voting rights held as direct or indirect *shareholder* (disregarding for this purpose holdings of *financial instruments*); and
 - (3) the aggregate of all direct and indirect holdings of *financial instruments*.
- 5.7.2 G The effect of DTR 5.7.1R is that a *person* may have to make a notification if the overall percentage level of his voting rights remains same but there is notifiable change in the percentage level of one or more of the categories of voting rights held.
- 5.8 Procedures for the notification and disclosure of major holdings
- 5.8.1 R A notification given in accordance with DTR 5.1.2R shall include the following information:
- (1) the resulting situation in terms of voting rights;
 - (2) the chain of *controlled undertakings* through which voting rights are

effectively held, if applicable;

- (3) the date on which the threshold was reached or crossed; and
- (4) the identity of the *shareholder*, even if that *shareholder* is not entitled to exercise voting rights under the conditions laid down in *DTR 5.2.1R* and of the *person* entitled to exercise voting rights on behalf of that *shareholder*.

- 5.8.2 R (1) A notification required of voting rights arising from the holding of *financial instruments* must include the following information:
- (a) the resulting situation in terms of voting rights;
 - (b) if applicable, the chain of *controlled undertakings* through which *financial instruments* are effectively held;
 - (c) the date on which the threshold was reached or crossed;
 - (d) for instruments with an exercise period, an indication of the date or time period where *shares* will or can be acquired, if applicable
 - (e) date of maturity or expiration of the instrument;
 - (f) identity of the holder; and
 - (g) name of the underlying *issuer*.
- (2) The notification must be made to the *issuer* of each of the underlying *shares* to which the *financial instrument* relates and, in the case of *shares* admitted to trading on a *regulated market*, to each *competent authority* of the *Home States* of such *issuers*.
- (3) If a *financial instrument* relates to more than one underlying *share*, a separate notification shall be made to each *issuer* of the underlying *shares*.

[Note: articles 11(3), (4) and (5) of the *TD implementing Directive*]

- 5.8.3 R The notification to the *issuer* shall be effected as soon as possible, but not later than four *trading days* in the case of a *non-UK issuer* and two *trading days* in all other cases, the first of which shall be the day after the date on which the relevant *person*:
- (1) learns of the acquisition or disposal or of the possibility of exercising voting rights, or on which, having regard to the circumstances, should have learned of it, regardless of the date on which the acquisition, disposal or possibility of exercising voting rights takes effect; or
 - (2) is informed about the event mentioned in *DTR 5.1.2R(2)*.

And for the purposes of (1) above a *person* shall, in relation to a transaction to which he is a party or which he has instructed, be deemed to have knowledge of the acquisition, disposal or possibility to exercise voting rights no later than two trading days following the transaction in question and where a transaction is conditional upon the approval by public authorities of the transaction or on a future uncertain event the occurrence of which is outside the control of the parties to the agreement, the parties are deemed to have knowledge of the acquisition, disposal or possibility of exercising voting rights only when the relevant approvals are obtained or when the event happens.

[Note: articles 12(1), and 12(2) of the TD and article 9 of the TD implementing Directive]

- 5.8.4 R
- (1) The notification obligation following transactions of a kind mentioned in *DTR 5.2.1R* are individual obligations incumbent upon each direct *shareholder* or indirect *shareholder* mentioned in *DTR 5.2.1R* or both if the proportion of voting rights held by each party reaches, exceeds or falls below an applicable threshold.
 - (2) In the circumstances in *DTR 5.2.1R* Case (h) if a *shareholder* gives the proxy in relation to one *shareholder* meeting, notification may be made by means of a single notification when the proxy is given provided it is made clear in the notification what the resulting situation in terms of voting rights will be when the proxy may no longer exercise the voting rights discretion;
 - (3) If in the circumstances in *DTR 5.2.1R* Case (h) the proxy holder receives one or several proxies in relation to one *shareholder* meeting, notification may be made by means of a single notification on or after the deadline for receiving proxies provided that it is made clear in the notification what the resulting situation in terms of voting rights will be when the proxy may no longer exercise the voting rights at its discretion;
 - (4) When the duty to make notification lies with more than one *person*, notification may be made by means of a single common notification but this does not release any of those *persons* from their responsibilities in relation to the notification.

[Note: article 8 of the TD implementing Directive]

- 5.8.5 G
- It may be necessary for both the relevant *shareholder* and proxy holder to make a notification. For example, if a direct holder of *shares* has a notifiable holding of voting rights and gives a proxy in respect of those rights (such that the recipient has discretion as to how the votes are cast) then for the purposes of *DTR 5.1.2R* this is a disposal of such rights giving rise to a notification obligation. The proxy holder may also have such an obligation by virtue of his holding under *DTR 5.2.1R*. Separate notifications will not however be necessary provided a single notification (whether made by the direct holder of the *shares* or by the proxy holder) makes clear what the situation will be when the proxy has expired. Where a proxy holder

receives several proxies then one notification may be made in respect of the aggregated voting rights held by the proxy holder on or as soon as is reasonably practicable following the proxy deadline. Unless it discloses what the position will be in respect of each proxy after the proxies have expired, such a notification will not relieve any direct holder of the *shares* of its notification obligation (if there is a notifiable disposal). A proxy which confers only minor and residual discretions (such as to vote on an adjournment) will not result in the proxy holder (or *shareholder*) having a notification obligation.

- 5.8.6 R An undertaking is not required to make a notification if instead it is made by its *parent undertaking* or, where the *parent undertaking* is itself a *controlled undertaking*, by its own *parent undertaking*. [**Note: article 12(3) of the TD**]
- 5.8.7 R Voting rights must be calculated on the basis of all the *shares* to which voting rights are attached even if the exercise of such rights is suspended and shall be given in respect of all *shares* to which voting rights are attached. [**Note: article 9(1) of the TD**]
- 5.8.8 R The number of voting rights to be considered when calculating whether a threshold is reached, exceeded or fallen below is the number of voting rights in existence according to the *issuer's* most recent disclosure made in accordance with *DTR 5.6.1 R* but disregarding voting rights attached to any treasury *shares* held by the *issuer* (in accordance with the *issuer's* most recent disclosure of such holdings). [**Note: article 9(2) of the TD and article 11(3) of the TD implementing Directive**]
- 5.8.9 G The *FSA* maintains and publishes on its website at www.fsa.gov.uk a calendar of *trading days* which applies in the *United Kingdom* for the purposes of this chapter. [**Note: article 7 of the TD implementing Directive**]
- 5.8.10 R A notification in relation to *shares* admitted to trading on a *regulated market*, must be made using the form TR1 available in electronic format at the *FSA's* website at www.fsa.gov.uk.
- 5.8.11 R In determining whether a notification is required a *person's* net (direct or indirect) holding in a *share* (and of relevant *financial instruments*) may be assessed by reference to that *person's* holdings at a point in time up to midnight of the day for which the determination is made (taking account of acquisitions and disposals executed during that day).
- 5.8.12 R (1) An *issuer* not falling within (2) must, in relation to *shares* admitted to trading on a *regulated market*, on receipt of a notification as soon as possible and in any event by not later than the end of the *trading day* following receipt of the notification make public all of the information contained in the notification.
- (2) A non-UK *issuer* and any other *issuers* whose *shares* are admitted to trading on a *prescribed* (but not a *regulated*) *market* must, on receipt

of a notification, as soon as possible and in any event by not later than the end of the third *trading day* following receipt of the notification, make public all of the information contained in the notification.

[Note: article 12(6) of the TD]

- 5.9 Filing of information with competent authority
- 5.9.1 R (1) A *person* making a notification to an *issuer* to which this chapter applies must, if the notification relates to *shares* admitted to trading on a *regulated market*, at the same time file a copy of such notification with the *FSA*.
- (2) The information to be filed with the *FSA* must include a contact address of the *person* making the notification (but such details must be in a separate annex and not included on the form which is sent to the *issuer*). **[Note: article 19(3) of the TD]**.
- 5.10 Use of electronic means for notifications and filing
- 5.10.1 R Information filed with the *FSA* for the purposes of the chapter must be filed using *electronic means*.
- 5.11 Non EEA state issuers
- 5.11.1 R An *issuer* whose registered office is in a *non-EEA State* will be treated as meeting equivalent requirements to those set out in *DTR 5.8.12R (2)* (*issuer* to make public notifications of major shareholdings by close of third day following receipt) provided that the period of time within which the notification of the major holdings is to be effected to the *issuer* and is to be made public by the *issuer* is in total equal to or shorter than seven *trading days*. **[Note: article 19 of the TD implementing Directive]**
- 5.11.2 R An *issuer* whose registered office is in a *non-EEA State* will be treated as meeting equivalent requirements in respect of treasury *shares* to those set out in *DTR 5.5.1R* provided that:
- (1) if the *issuer* is only allowed to hold up a maximum of 5% of its own *shares* to which voting rights are attached, a notification requirement is triggered under the law of the third country whenever this the maximum threshold of 5% of the voting rights is reached or crossed;
- (2) if the *issuer* is allowed to hold up to maximum of between 5% and 10% of its own *shares* to which voting rights are attached, a notification requirement is triggered under the law of the *non-EEA state* whenever this maximum threshold and or the 5% threshold of the voting rights are reached or crossed;
- (3) if the *issuer* is allowed to hold more than 10% of its own *shares* to which voting rights are attached, a notification requirement is triggered under the law of the *non-EEA state* whenever the 5% or 10% thresholds of the voting rights are reached or crossed.

Notification above the 10% threshold is not required for this purpose.

[Note: article 20 of the *TD implementing Directive*]

- 5.11.3 R An *issuer* whose registered office is in a *non-EEA State* will be treated as meeting equivalent requirements to those set out in *DTR 5.6.1R* (Disclosure by *issuers* of total voting rights) provided that the *issuer* is required under the law of the *non-EEA State* to disclose to the public the total number of voting rights and capital within 30 calendar days after an increase or decrease of such total number has occurred. **[Note: article 21 of the *TD implementing Directive*]**
- 5.11.4 R An *issuer* whose registered office is in a *non-EEA State* whose relevant laws are considered equivalent by the *FSA* is exempted from the corresponding obligation in this chapter.
- 5.11.5 G The *FSA* maintains a published list of *non-EEA States* which, for the purpose of article 23.1 of the *TD*, are judged to have laws which lay down requirements equivalent to those imposed upon *issuers* by this chapter. Such *issuers* remain subject to the following requirements of *DTR 6*:
- (1) the filing of information with the *FSA*;
 - (2) the language provisions; and
 - (3) the dissemination of information provisions.
- 5.11.6 R The notification requirements in *DTR 5.1.2R* do not apply to a *person* in respect of the *shares* of an *issuer* which has its registered office in a *non-EEA State* whose laws have been considered equivalent for the purposes of article 23 of the *TD*.

Insert new Chapter 6 as follows:

DTR 6: CONTINUING OBLIGATIONS AND ACCESS TO INFORMATION

6.1 Information requirements for issuers of shares and debt securities

Application

- 6.1.1 R (1) Subject to the exemptions set out in *DTR 6.1.16R – DTR 6.1.19R* this section applies in relation to an *issuer* whose *Home State* is the *United Kingdom*.
- (2) References to *transferable securities, shares* and *debt securities* are to such instruments as are *admitted to trading*.

Amendments to constitution

- 6.1.2 R (1) If an *issuer* of *transferable securities* proposes to amend its *constitution* it must communicate the draft amendment to:
- (a) the *FSA*; and
- (b) the *regulated market* on which its *securities* have been admitted to trading.
- (2) The communication referred to in paragraph (1) must be effected without delay but at the latest on the date of calling the general meeting which is to vote on, or be informed of, the amendment.

[Note: article 19(1) of the TD]

Equality of treatment

- 6.1.3 R (1) An *issuer* of *shares* must ensure equal treatment for all holders of *shares* who are in the same position. **[Note: article 17(1) of the TD]**
- (2) An *issuer* of *debt securities* must ensure that all holders of *debt securities* ranking *pari passu* are given equal treatment in respect of all the rights attaching to those *debt securities*. **[Note: article 18(1) of the TD]**

Exercise of rights by holders

- 6.1.4 R An *issuer* of *shares* or *debt securities* must ensure that all the facilities and information necessary to enable holders of *shares* or *debt securities* to exercise their rights are available in the *Home State* and that the integrity of data is preserved. **[Note: articles 17(2) and 18(2) of the TD]**

Exercise of rights by proxy

- 6.1.5 R (1) *Shareholders* and *debt securities* holders must not be prevented from exercising their rights by proxy, subject to the law of the country in which the *issuer* is incorporated. **[Note: articles 17(2) and 18(2) of**

the TD]

- (2) An issuer of shares or debt securities must make available a proxy form, on paper or, where applicable, by *electronic means* to each person entitled to vote at a meeting of *shareholders* or a meeting of *debt securities* holders. [Note: articles 17(2)(b) and 18(2)(b) of the TD]
- (3) The proxy form must be made available either:
 - (a) together with the notice concerning the meeting; or
 - (b) after the announcement of the meeting.

[Note: articles 17(2)(b) and 18(2)(b) of the TD]

Appointment of a financial agent

- 6.1.6 R An issuer of shares or debt securities must designate, as its agent, a financial institution through which *shareholders* or *debt securities* holders may exercise their financial rights. [Note: articles 17(2)(c) and 18(2)(c) of the TD]

Electronic Communications

- 6.1.7 G An issuer of shares or debt securities may use *electronic means* to convey information to *shareholders* or *debt securities* holders. [Note: articles 17(3) and 18(4) of the TD]
- 6.1.8 R To use *electronic means* to convey information to holders, an issuer must comply with the following:
 - (1) a decision to use *electronic means* to convey information to *shareholders* or *debt securities* holders must be taken in a general meeting;
 - (2) the use of *electronic means* must not depend upon the location of the seat or residence of:
 - (a) the *shareholder*; or
 - (b) persons referred to in rows (a) to (h) of the table set out in DTR 5.2.1R; or
 - (c) the *debt security* holder; or
 - (d) a proxy representing a *debt security* holder;
 - (3) identification arrangements must be put in place so that the *shareholders*, *debt security* holders or other persons entitled to exercise or to direct the exercise of voting rights are effectively informed;

- (4) *shareholders, debt security holders or persons* referred to in rows (a) to (e) of the table set out in *DTR 5.2.1R* who are entitled to acquire, dispose of or exercise voting rights must be:
- (a) contacted in writing to request their consent for the use of *electronic means* for conveying information and if they do not object within a reasonable period of time, their consent can be considered to have been given; and
 - (b) able to request at any time in the future that information be conveyed in writing; and
- (5) any apportionment of the costs entailed in the conveyance of information by *electronic means* must be determined by the *issuer* in compliance with the principle of equal treatment set out in *DTR 6.1.3R*.

But paragraph (4) above does not apply in any case where schedule 5 to the Companies Act 2006 applies.

[Note: articles 17(3) and 18(4) of the TD]

Information about changes in rights attaching to securities

- 6.1.9 R An *issuer* of *shares* must without delay disclose to the public any change in the rights attaching to its various classes of *shares*, including changes in the rights attaching to *derivative securities* issued by the *issuer* giving access to the *shares* of that *issuer*. **[Note: article 16(1) of the TD]**.
- 6.1.10 R An *issuer* of *securities* other than *shares* admitted to trading on a *regulated market* must disclose to the public without delay any changes in the rights of holders of *securities* other than *shares*, including changes in the terms and conditions of such *securities* which could indirectly affect those rights, resulting in particular from a change in loan terms or in interest rates. **[Note article 16(2) of the TD]**.
- 6.1.11 R An *issuer* of *securities* admitted to trading on a *regulated market* (other than an *issuer* which is a public international body of which at least one *EEA State* is a member) must disclose to the public without delay any new loan issues and in particular any guarantee or security in respect of such issues. **[Note: article 16(3) of the TD]**.

Information about meetings, issue of new shares and payment of dividends – share issuers

- 6.1.12 R An *issuer* of *shares* must provide information to holders on:
- (1) the place, time and agenda of meetings;
 - (2) the total number of *shares* and voting rights; and
 - (3) the rights of holders to participate in meetings. **[Note: article**

17(2)(a) of the TD]

- 6.1.13 R An *issuer* of *shares* must publish notices or distribute circulars concerning the allocation and payment of dividends and the issue of new *shares*, including information on any arrangements for allotment, subscription, cancellation or conversion. [Note: article 17(2)(d) of the TD]

Information about meetings, and payment of interest – debt security issuers

- 6.1.14 R An *issuer* of *debt securities* must publish notices or distribute circulars concerning:
- (1) the place, time and agenda of meetings of *debt securities* holders;
 - (2) the payment of interest;
 - (3) the exercise of any conversion, exchange, subscription or cancellation rights and repayment; and
 - (4) the rights of holders to exercise their rights in relation to paragraphs (1) – (3).

[Note: article 18(2)(a) of the TD]

- 6.1.15 R If only holders of *debt securities* whose denomination per unit amounts to at least 50,000 Euros (or an equivalent amount) are to be invited to a meeting, the *issuer* may choose as a venue any *EEA State*, provided that all the facilities and information necessary to enable such holders to exercise their rights are made available in that *EEA State*. [Note: article 18(3) of the TD]

Non-EEA State exemption

- 6.1.16 R An *issuer* whose registered office is in a *non-EEA State* whose relevant laws are considered equivalent by the *FSA* is exempted from *DTR* 6.1.3R to *DTR* 6.1.15R.
- 6.1.17 G The *FSA* maintains a published list of *non-EEA States* which, for the purpose of article 23.1 of the *TD*, are judged to have laws which lay down requirements equivalent to those imposed upon *issuers* by this chapter. Such *issuers* remain subject to the following requirements of *DTR* 6:
- (1) the filing of information with the *FSA*;
 - (2) the language provisions; and
 - (3) the dissemination of information provisions.

Regional and local authority exemption

- 6.1.18 R A regional or local authority with *securities admitted to trading* is not required to comply with the following:
- (1) *DTR* 6.1.4R to *DTR* 6.1.8R; and

- (2) *DTR 6.1.14R to DTR 6.1.15R.*

[Note: article 1(3) of the TD]

Exemption for issuers of convertible securities, preference *shares* and depository receipts

- 6.1.19 R *DTR 6.1.3R to DTR 6.1.8R and DTR 6.1.12R to DTR 6.1.15R do not apply to:*
- (1) *an issuer of transferable securities convertible into shares;*
 - (2) *an issuer of preference shares; and*
 - (3) *an issuer of depository receipts.*

6.2 Filing information and use of language

Application

- 6.2.1 R This section applies to:
- (1) *an issuer:*
 - (a) *whose transferable securities are admitted to trading; and*
 - (b) *whose Home State is the United Kingdom; and*
 - (2) *a person who has requested, without the issuer's consent, the admission of its transferable securities to trading on a regulated market.*

Filing of information with FSA

- 6.2.2 R *An issuer or person that discloses regulated information must, at the same time, file that information with the FSA. [Note: article 19(1) of the TD]*
- 6.2.3 G *An issuer or person that discloses regulated information may comply with DTR 6.2.2R by using a RIS to disseminate the information in accordance with DTR 6.3.*

Language

- 6.2.4 R *If transferable securities are admitted to trading only in the United Kingdom and the United Kingdom is the Home State, regulated information must be disclosed in English. [Note: article 20(1) of the TD]*
- 6.2.5 R *If transferable securities are admitted to trading in more than one EEA State including the United Kingdom and the United Kingdom is the Home State, regulated information must be disclosed:*
- (1) *in English; and*

- (2) either in a language accepted by the competent authorities of each *Host State* or in a language customary in the sphere of international finance, at the choice of the *issuer*.

[Note: article 20(2) of the TD]

- 6.2.6 R (1) If *transferable securities* are admitted to trading in one or more *EEA States* excluding the *United Kingdom* and the *United Kingdom* is the *Home State*, regulated information must be disclosed either:
- (a) in a language accepted by the competent authorities of those *Host States*; or
- (b) in a language customary in the sphere of international finance,
- at the choice of the *issuer*.
- (2) Where the *United Kingdom* is the *Home State*, regulated information must be disclosed either in English or in another language customary in the sphere of international finance, at the choice of the *issuer*.

[Note: article 20(3) of the TD]

- 6.2.7 R If *transferable securities* are admitted to trading without the *issuer's* consent:
- (1) *DTR 6.2.4R* to *DTR 6.2.6R* do not apply to the *issuer*; and
- (2) *DTR 6.2.4R* to *DTR 6.2.6R* apply to the *person* who has requested such admission without the *issuer's* consent.

[Note: article 20(4) of the TD]

- 6.2.8 R If *transferable securities* whose denomination per unit amounts to at least 50,000 Euros (or an equivalent amount) are admitted to trading in the *United Kingdom* or in one or more *EEA States*, regulated information must be disclosed to the public in either a language accepted by the competent authorities of the *Home State* and *Host States* or in a language customary in the sphere of international finance, at the choice of the *issuer* or of the *person* who, without the *issuer's* consent, has requested such admission.

[Note: article 20(6) of the TD]

English language

- 6.2.9 G English is a language accepted by the *FSA* where the *United Kingdom* is a *Home State* or *Host State*.

6.3 Dissemination of information

Application

- 6.3.1 R This section applies to:

- (1) an *issuer*:
 - (a) whose *transferable securities* are admitted to trading; and
 - (b) whose *Home State* is the *United Kingdom*; [**Note: article 21(1) of the TD**]
 - (2) a *person* who has applied, without the *issuer's* consent, for the admission of its *transferable securities* to trading on a *regulated market*; and [**Note: article 21(1) of the TD**]
 - (3) *transferable securities* that are admitted to trading only in the *United Kingdom* which is the *Host State* and not in the *Home State*. [**Note: article 21(3) of the TD**]
- 6.3.2 R An *issuer* or *person* must disclose *regulated information* in the manner set out in *DTR 6.3.3R* to *DTR 6.3.8R*. [**Note: article 21(1) of the TD**]
- 6.3.3 R (1) When disseminating *regulated information* an *issuer* or other *person* must ensure that the minimum standards contained in *DTR 6.3.4R* to *DTR 6.3.8R* are met.
- (2) An *issuer* or *person* must entrust a *RIS* with the disclosure of *regulated information* to the public and must ensure that the *RIS* complies with the minimum standards contained in *DTR 6.3.4R* to *DTR 6.3.8R*.
- [**Note: article 12(1) of the TD implementing Directive**]
- 6.3.4 R *Regulated information* must be disseminated in a manner ensuring that it is capable of being disseminated to as wide a public as possible, and as close to simultaneously as possible in the *Home Member State* and in other *EEA States*. [**Note: article 12(2) of the TD implementing Directive**]
- 6.3.5 R (1) *Regulated information*, other than *regulated information* described in paragraph (2), must be communicated to the media in unedited full text. [**Note: article 12(3) of the TD implementing Directive**]
- (2) (a) An annual financial report that is required by *DTR 4.1* to be made public is not required to be communicated to the media in unedited full text except for the information described in paragraph (b).
- (b) If information is of a type that would be required to be disseminated in a half-yearly financial report then information of such a type that is contained in an annual financial report must be communicated to the media in unedited full text.
- (3) The announcement relating to the publication of the following *regulated information* must include an indication of which website the relevant documents are available:

- (a) an annual financial report that is required by *DTR* 4.1 to be made public;
- (b) a half-yearly financial report that is required by *DTR* 4.2 to be made public; and
- (c) an interim management statement that is required by *DTR* 4.3 to be made public or an equivalent quarterly financial report.

[Note: article 12(3) of the *TD implementing Directive*]

6.3.6 R *Regulated information* must be communicated to the media in a manner which ensures the security of the communication, minimises the risk of data corruption and unauthorised access, and provides certainty as to the source of the *regulated information*. Security of receipt must be ensured by remedying as soon as possible any failure or disruption in the communication of *regulated information*. An *issuer* or *person* is not responsible for systemic errors or shortcomings at the media to which the *regulated information* has been communicated. **[Note: article 12(4) of the *TD implementing Directive*]**

6.3.7 R *Regulated information* must be communicated to a *RIS* in a way which:

- (1) makes clear that the information is *regulated information*;
- (2) identifies clearly:
 - (a) the *issuer* concerned;
 - (b) the subject matter of the *regulated information*; and
 - (c) the time and date of the communication of the *regulated information* by the *issuer* or the *person*.

[Note: article 12(5) of the *TD implementing Directive*]

6.3.8 R Upon request, an *issuer* or other *person* must be able to communicate to the *FSA*, in relation to any disclosure of *regulated information*:

- (1) the name of the *person* who communicated the *regulated information* to the *RIS*;
- (2) the security validation details;
- (3) the time and date on which the *regulated information* was communicated to the *RIS*;
- (4) the medium in which the *regulated information* was communicated; and
- (5) details of any embargo placed by the *issuer* on the *regulated information*, if applicable.

[Note: article 12(5) of the TD implementing Directive]

- 6.3.9 R An *issuer* or *person* must not charge investors any specific cost for providing *regulated information*. **[Note: article 21(1) of the TD]**

Disclosure of information in a non-EEA State

- 6.3.10 R (1) Information that is disclosed in a *non-EEA State* which may be of importance to the public in the *EEA* must be disclosed in accordance with the provisions set out in *DTR* 6.2 and *DTR* 6.3.
- (2) Paragraph (1) applies additionally to information that is not *regulated information*.

[Note: article 23(3) of the TD]

6.4 Choice of Home State and notifications by third country issuers

Application

- 6.4.1 R In respect of *transferable securities* which are admitted to *trading* on a *regulated market*, this section applies to:
- (1) an *issuer* whose *Home State* is the *United Kingdom* in accordance with article 2.1(i)(i) of the *TD*; and
- (2) an *issuer* who chooses the *United Kingdom* as its *Home State* in accordance with article 2.1(i)(ii) of the *TD*.

Choice of Home State

- 6.4.2 R An *issuer* that chooses the *United Kingdom* as its *Home State*, pursuant to article 2.1(i)(ii), must disclose that choice in accordance with *DTR* 6.3. **[Note: article 2 of the TD implementing Directive]**
