Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), this notice advises interested parties that CPB intends to revoke two rulings concerning the classification of Triphenylphosphine under the Harmonized Tariff Schedule of the United States (HTSUS). Similarly, CPB intends to revoke any treatment previously accorded by CPB to substantially identical transactions. Comments are invited on the correctness of the proposed actions.

DATE: Comments must be received on or before May 9, 2008.

SUPPLEMENTARY INFORMATION:

Background

On December 8, 1993, Title VI (CBP Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057) (hereinafter “Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “**informed compliance**” and “**shared responsibility**.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations. Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the trade and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. §1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. 1625(c)(1)), as amended by section 623 of Title VI (Customs Moderniza-

tion) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), this notice advises interested parties that CBP intends to revoke two rulings pertaining to the classification of Triphenylphosphine. Although in this notice CBP is specifically referring to New York Ruling Letter (NY) K82087, dated January 12, 2004, and NY R02861, dated December 9, 2005, this notice covers any rulings on this merchandise which may exist but have not been specifically identified. CBP has undertaken reasonable efforts to search existing data bases for rulings in addition to the one identified. No further rulings have been found. This notice will cover any rulings on this merchandise that may exist but have not been specifically identified. Any party who has received an interpretive ruling or decision (i.e., ruling letter, internal advice memorandum or decision or protest review decision) on the merchandise subject to this notice, should advise CBP during this notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. 1625(c)(2)), as amended by section 623 of Title VI, CBP intends to revoke any treatment previously accorded by CBP to substantially identical transactions. Any person involved in substantially identical transactions should advise CBP during this notice period. An importer's failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice, may raise issues of reasonable care on the part of the importer or his agents for importations of merchandise subsequent to this notice.

In NY K82087 and R02861 (Attachments "A" and "B", respectively), CBP ruled that Triphenylphosphine is classified in subheading 2931.00.90, HTSUS, which provides for: "Other organo-inorganic compounds: Other: Other: Other." The referenced rulings are incorrect because the chemical substance at issue contains three benzene rings and is therefore an aromatic compound provided for in heading 2931.00.60, HTSUS, which provides for: "Other organo-inorganic compounds: Aromatic: Other: Other."

CBP, pursuant to 19 U.S.C. 1625(c)(1), intends to revoke NY K82087 and NY R02861, and any other ruling not specifically identified, to reflect the proper classification of the merchandise pursuant to the analysis set forth in Proposed Headquarters Ruling Letter H007448 and H007661. (see Attachments "C" and "D" to this document). Additionally, pursuant to 19 U.S.C. 1625(c)(2), CBP intends to revoke any treatment previously accorded by CBP to substantially identical transactions. Before taking this action, consideration will be given to any written comments timely received.

RE: Revocation of NY K82087; Triphenylphosphine (CAS 603-35-0) from China

DEAR MR. CHIVINI:

In New York (NY) Ruling letter K82087, dated January 12, 2004, regarding the classification, under the Harmonized Tariff Schedule of the United States (HTSUS), of Triphenylphosphine (CAS 603-35-0) from China, we classified the substance as a non-aromatic compound. The substance is an aromatic compound and for this reason, we propose to revoke NY K82087.

FACTS:

The merchandise consists of Triphenylphosphine a chemical substance assigned CAS 603-35-0. The chemical formula is C¹⁸H¹⁵P. The chemical structure consists of three benzene rings surrounding a phosphorus atom.

ISSUE:

Is Triphenylphosphine classified as an aromatic chemical substance under the HTSUS?

LAW AND ANALYSIS:

Merchandise is classifiable under the HTSUS in accordance with the General Rules of Interpretation (GRIs). GRI 1 provides that classification shall be determined according to the terms of the headings and any relative Section or Chapter Notes. In the event that the goods cannot be classified solely on the basis of GRI 1, HTSUS, and if the headings or notes do not require otherwise, the remaining GRIs 2 through 6 may be applied.

The HTSUS subheadings under consideration are as follows:

2931 Other organo-inorganic compounds:

Aromatic:

Other:

Other:

Other:

2931.00.60 Other.

* * * * *

Other:

2931.00.90 Other.

As an initial matter, the substance, represented by the chemical formula $C^{18}H^{15}P$, is described by Chapter 29 note 1(a) as a separately chemically defined compound. Additional U.S. Note 2(a) to Section VI states, in pertinent part, the following: "For the purposes of the tariff schedule: The term 'aromatic' as applied to any chemical compound refers to such compound containing one or more fused or unfused benzene rings; . . ." According to Hawley's, aromatic compounds are "a major group of unsaturated cyclic hydrocarbons containing one or more rings, typified by benzene, which has a 6-carbon ring containing three double bonds. . . ." Hawley's Condensed Chemical Dictionary, 12th ed., Lewis, Richard J., ed. (Van Nostrand Reinhold Company, 1993).

The three rings in the instant chemical structure meet the definition of benzene rings, as they are six-sided and contain 3 double bonds. Therefore, the compound is aromatic by definition and should be classified as such in subheading 2931.00.60, HTSUS, in accordance with Section VI, Additional U.S. Note 2(a).

HOLDING:

Triphenylphosphine is classified in subheading 2931.00.60, the provision for "Other organo-inorganic compounds: Aromatic; Other: Other: Other: Other." The 2008 general, column one rate of duty is 6.5% ad valorem.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on the World Wide Web at www.usitc.gov.

EFFECT ON OTHER RULINGS:

NY K82087, dated January 12, 2004, is revoked.
