

316GR SKID STEER

316GR

SMALL MACHINE, SIZABLE RESULTS

DEERE

1 be

NDEER

When you need small equipment that can rise high, master heavy loads, and deliver impressive boom- and bucket breakout forces, the John Deere 316GR Skid Steer can be the do-it-all machine that fits the work you do. Its radialboom configuration, amped-up performance, and wide range of options are the result of some of the best ideas we've heard — and put into action — from users just like you. Whether you're buying your first machine or boosting the flexibility of an existing fleet, this reimagined compact is designed to elevate your bottom line.

FEATURES

It's easy to take control

Electrohydraulic (EH) ISO-pattern joystick controls that allow customized machine operations based on operator preference are standard on the 316GR.

Elevated by design

Radial-lift boom provides generous reach at mid-range lift heights and enables the 316GR to excel at digging, grading, and backfilling applications.

Try it on for size

Weighing only 6,180 pounds, this compact is easy to trailer behind a standard pickup truck using the convenient front and rear tie-downs. Heavy-duty tire option slims the 316GR down to a narrow 60-inch width.

Imagine the possibilities

Ample axle torque and optimized boom and bucket breakout forces help carve out clay, push through piles, and heap the load.

Step up the pace

Two-speed transmission option provides faster transport speeds of up to 10 miles per hour, to move around the jobsite quicker and push productivity even further.

Packed for productivity

Low center of gravity, 30-degree bucket rollback, optional ride control, and optional hydraulic self-leveling help keep forks loaded and buckets full. Add capacity with up to two sets of rear counterweights.

Big ideas that deliver

Large cab entryway with swing-out door, generous foot- and legroom, sealing and pressurization to minimize dust and noise, and adjustable highback sculpted seat optimize operator comfort. Overhead panel conveniently puts machine data on the left and control switches on the right. Easyto-read LCD monitor reveals a wealth of vital operating info and advanced diagnostics.

Seeing is believing

Clear sightlines to the cutting edge and bucket corners, above and below the lift arms, and the jobsite ahead and behind instill confidence in close quarters. Optional LED side lighting and rearview camera further enhance visibility.

Tackle the to-do list

Swing-out rear door enables easy, ground-level access to daily service checkpoints and cooling system components. Neat freaks and rental yards can appreciate the convenient cab-footwell access that helps speed cleaning.

Work your connections

Equip your skid steer with your choice of over 100 available John Deere attachments to expand the flexibility of your operation. Increased auxiliary hydraulic flow and power compared to previous models boosts attachment performance. Add a snow blower, snow pusher, or angle broom to make quick work of winter's white stuff.

316GR SKID STEER

SWITCHING ATTACHMENTS ENABLES VERSATILITY IN ANY WEATHER OR SEASON

Safety first

장. 생. 고. 전. <u>외</u>. 전. Standard personal-protection features include in-cabactivated boom lock and triple-interlock system that detects the presence of the operator to help keep harm's way at bay.

Remote diagnostics and support

To maximize uptime and lower costs, JDLink[™] connectivity provides machine location, utilization data, and alerts to help you maximize productivity and efficiency. JDLink also enables John Deere Connected Support[™]. Dealers use Expert Alerts based on data from thousands of connected machines to proactively address conditions that may otherwise likely lead to downtime. Your dealer can also monitor machine health and leverage remote diagnostics and programming capability to further diagnose problems and even update machine software without a timeconsuming trip to the jobsite.*

*Availability varies by region. Options not available in every country.

| With Foundry Bucket | 2157 kg (4,750 lb.) | With Construction Bucket | 1816 kg (4,000 lb.) |

Additional equipment

316GR Engine

- Meets EPA Final Tier 4/EU Stage IV emissions
- Yanmar 4TNV86CHT
- Auto-idle
- Automatic preheat
- Electronic injection system
- ▲ Engine air precleaner kit
- Fuel tank, 71 L (19 gal.)
- John Deere COOL-GARD[™] II Extended-Life Engine Coolant
- John Deere Plus-50[™] II 0W40 initial engine oil fill*
- 4-cylinder 48.5 kW (65 gross hp)/ 45.6 kW
 (61 net hp), 2.1-L (128 cu. in.) displacement
- 5-micron primary fuel filter and water separator
 Cold-weather starting package with 925-CCA

battery

- Cooling System
 Coolant overflow bottle recover
- Coolant overflow bottle recovery tank
 Direct belt-drive cooling fan system
- No-tools-required swing-out oil cooler

Powertrain

- High-strength adjustment-free final-drive chains
- Automatic spring-applied hydraulically released wet-disc park brake
- Transmission, single speed
- ▲ Transmission, 2 speed
- Hydraulic System
- John Deere heat-treated, chrome-plated cylinder rods with replaceable bushings
- ▲ Connect-under-pressure auxiliary couplers
- Quick-check hydraulic fluid-level sight glass
- 1,000-hour, 5-micron hydraulic filter
- Axial-piston hydrostatic pump
 - Electrical
- Automatic engine/hydraulic shutdown protection system
- Auxiliary hydraulics operator-presence system
- Courtesy lighting

Key: ● Standard ▲ Optional or special

316GR Electrical (continued)

- Deluxe instrumentation EMU with: Operatorselectable monitoring – Hour meter, engine rpm, battery voltage, diagnostics, EMU configuration, engine coolant temperature, hydraulic oil temperature / LED warning indicators – Glow plug, seat switch, seat belt, door open, auxiliary hydraulics, park brake engaged, 2-speed engaged, stop, low engine oil pressure, engine coolant over-temperature, battery not charging, air filter restriction, hydraulic filter restriction
- Deluxe LED lighting package with additional side lights (2), front lights (2), and rear light (1)
- Front and rear halogen work lights
- Triple-interlock operator-presence control system
- Backup alarm
- Battery, 750 CCA
 - Horn

Operator's Station Deluxe cab headliner

- Deluxe cab headliner
 Keyless-start sealed-switch module with
- integrated anti-theft system

*500-hour engine oil-change intervals when John Deere Plus-50 II oil and John Deere oil filter are used.

While general information, pictures, and descriptions are provided, some illustrations and text may include product options and accessories NOT AVAILABLE in all regions, and in some countries products and accessories may require modifications or additions to ensure compliance with the local regulations of those countries.

Net engine power is with standard equipment including air cleaner, exhaust system, alternator, and cooling fan, at standard conditions per SAE J1349 and DIN 6270B, using No. 2-D fuel at 35 API gravity. Gross power is without cooling fan. No derating is required up to 3050-m (10,000 ft.) altitude. Specifications and design subject to change without notice. Wherever applicable, specifications are in accordance with SAE standards. Except where otherwise noted, these specifications are based on a unit with standard equipment, full fuel tank, and 79-kg (175-lb.) operator.
