Tractor Loader

JOHN DEERE

INDUSTRIAL-STRENGTH BUSINESS MODEL

For years, the John Deere “skip” loader has been popular on the West Coast. Its go-anywhere grading ability and operating ease have helped make this “secret weapon” one of the worst-kept secrets in the business. With its outstanding versatility and durability, our 210 G-Tier Tractor Loader is more than just a great grading machine. Packed with customer-inspired innovations and purpose built for unique applications, this tenacious taskmaster is designed to fit within your budget and on a wide range of jobsites. Equip yours with a multipurpose bucket or multitude of other attachments to find out why it’s catching on just about everywhere.

FEATURES

Go for it

Mechanical-front-wheel drive (MFWD) and differential lock can be engaged on the go to supply extra traction in poor underfoot conditions or for moving heavy loads. Optional limited-slip front axle delivers 65 percent of available power to the tire with the best traction for true all-wheel-drive pulling power.

Dependable engine technology

You can trust the reliability, performance, and fuel efficiency of the proven Yanmar 3.3L engine. This EPA Interim Tier 4 (IT4)-equivalent diesel complies with Final Tier 4 (FT4) emissions regulations without the need for aftertreatment components, minimizing machine complexity and the number of parts needed to maintain your fleet.

Make the grade

Factory-installed Grade-Control-Ready option enables operators to complete finish grading faster, easier, and with greater accuracy. The package includes the base components needed for using a 2D or 3D grade-technology system to control box-blade lift and tilt cylinders. The machine is then completed with a dealer-supplied technology finishing kit of your choice. For less complex grading, an entry-level grade-indication option provides the operator with machine roll and pitch with ± 0.5 -percent accuracy.

Positioned for productivity

Hitch design makes it easy to position the box blade over the pile, boosting versatility and productivity. Integral three-point hitch accommodates a variety of Category 2 tools such as disks, mowers, blades, and box scrapers.

RUGGED AND RELIABLE

Proven capabilities and value

Enjoy the ride

Optional ride control reduces tire flexing over rough terrain with a loaded bucket, reducing material spillage and improving machine ride to boost operator comfort and efficiency.

Comfortable and in control

Including customer-inspired features such as 70-degree seat rotation and an ergonomic loader grip, the 210 G-Tier operator station sets the standard for ease of control and operation. Equipped with either a standard canopy or an optional four-season air-conditioned/heated cab, comfort and productivity are front and center.

Get a grip

“Palm-on-top” loader-control grip is convenient and easy to use. Optional control of auxiliary proportional roller and momentary mechanical-front-wheel drive (MFWD) is at your fingertips.

Smooth operator

Exclusive PowerShift™ transmission allows smooth no-clutch fingertip shifting and direction changes, for fast work cycles.

Tough enough

Large-diameter hitch and tilt cylinder pins reinforce durability, for long life. Optional transmission guard provides more protection from stones, stumps, and debris, while preventing material accumulation when backing over the pile.

Take a side

Two-position tilt hood enables same-side ground-level access to engine and transmission dipsticks, engine-oil fill, fuel and air filters, and coolant reservoir. Fuel fill is also conveniently close.

Connected machines

John Deere construction equipment comes with in-base connectivity – free from subscriptions or annual renewals. Analyze critical machine data, track utilization, review diagnostic alerts, and more from **the John Deere Operations Center™**. The Operations Center also enables **John Deere Connected Support™**, which uses data from thousands of connected machines to proactively address issues before they arise. With your approval, your dealer can also remotely monitor machine health, diagnose problems, and even update machine software without a trip to the jobsite.*

210 G Engine

- Vertical spin-on engine oil filter
- Vertical spin-on fuel filter with water separator
- Coolant recovery tank
- Serpentine belt with automatic belt tensioner
- Oil-to-water engine oil cooler
- Antifreeze, -37 deg. C (-34 deg. F)
- Dual-element dry-type air cleaner
- Enclosed safety fan guard
- Fold-out, hinged cooling system
- Viscous variable-rate cooling fan
- High ambient temperature engine cooling
- Muffler, under hood with curved-end exhaust stack
- Glow plugs
- ▲ Electric engine coolant heater, 1,000 watts
- Electronic fuel lift pump

Powertrain

- PowerShift™ transmission: Torque converter with twist-grip Transmission Control Lever (TCL) and neutral safety switch interlock (1st through 4th gears)
- Transmission oil cooler
- Vertical spin-on transmission filter
- Differential lock, electric foot actuated
- Power-assisted hydraulic service brakes (conform to ISO 3450): Inboard, wet multi-disc, self-adjusting and self-equalizing

210 G Powertrain (continued)

- Parking/emergency brake with electric switch control (conforms to ISO 3450): Spring applied, hydraulically released wet multi-disc / Independent of service brakes
- Mechanical-front-wheel drive (MFWD), standard differential, sealed axle
- ▲ MFWD, limited slip, sealed axle
- ▲ Transmission guard
- ▲ MFWD driveshaft guard

Category II 3-Point Hitch

- Integral Category II
- 4th-function sectional hydraulic valve, 4th-function auxiliary with capped hoses
- ▲ 5th-function hitch valve with control lever, dual-tilt cylinder

Loader

- Hydraulic self-leveling
- Return-to-dig feature
- Bucket-level indicator
- Loader boom service lock
- ▲ Auxiliary loader hydraulics with single control lever with electrohydraulic auxiliary control (MFWD and clutch disconnect)
- Palm-on-top loader control; single-button clutch disconnect
- ▲ Palm-on-top loader control; 3-function fingertip control (clutch disconnect, MFWD, and proportional auxiliary roller)
- ▲ Ride control

210 G Hydraulic System

- 93-L/m (24.5 gpm) rated flow, loader pump
- 45-L/m (12.0 gpm) rated flow, hitch pump
- Independent hydraulic reservoir
- Independent hydraulic oil cooler
- "O"-ring face-seal connectors
- ▲ Grade-Control Ready
- ▲ Grade indication

Electrical

- 12-volt system
- 130-amp alternator (canopy or cab)
- Single battery with 175-min. reserve capacity and 950 CCA
- ▲ Dual batteries with 350-min. reserve capacity and 1,900 CCA
- Positive terminal battery cover
- Blade-type multi-fused circuits
- By-pass start safety cover on starter
- ▲ Battery disconnect

Lights

- For cab and canopy: Front driving/working halogen (2) / Turn signal/flashing lights (2) / Rear stop and taillights (2) / Rear reflectors (2)
- ▲ Deluxe electrical package for canopy: Front worklights (2), rear worklights (2), 12-volt outlets (2), and battery-disconnect switch
- ▲ Premium LED lighting package for canopy: Front worklights (2), rear worklights (2), side worklights (2), 12-volt outlets (2), and battery-disconnect switch
