

INDUSTRIAL-STRENGTH BUSINESS MODEL

AR

For years, the John Deere "skip" loader has been popular on the West Coast. Its go-anywhere grading ability and operating ease have helped make this "secret weapon" one of the worst-kept secrets in the business. With its outstanding versatility and durability, our 210 P-Tier Tractor Loader is more than just a great grading machine. Packed with customer-inspired innovations and plenty of power, this tenacious taskmaster is purpose built for unique applications and designed to fit on a wide range of jobsites. Equip yours with a multipurpose bucket or multitude of other attachments to find out why it's catching on just about everywhere.

210 P-TIER TRACTOR LOADER

Go for it

Mechanical-front-wheel drive (MFWD) and differential lock can be engaged on the go to supply extra traction in poor underfoot conditions or for moving heavy loads. Optional limited-slip front axle delivers 65 percent of available power to the tire with the best traction for true all-wheel-drive pulling power.

Powerful engine technology

Rugged EPA Final Tier 4 (FT4)/EU Stage IV John Deere PowerTech[™] EWL engine boosts power, torque, and reliability compared to previous models. Simple two-valve cylinderhead, wet-sleeve design with replaceable cylinder liners provides uniform cooling and aids in reducing oil breakdown and ring wear. Filters have been redesigned and relocated for easier servicing over earlier models.

Make the grade

Factory-installed Grade-Control-Ready option enables operators to complete finish grading faster, easier, and with greater accuracy. The package includes the base components needed for using a 2D or 3D grade-technology system to control box-blade lift and tilt cylinders. The machine is then completed with a dealer-supplied technology finishing kit of your choice. For less complex grading, an entry-level grade-indication option provides the operator with machine roll and pitch with ± 0.5 -percent accuracy.

Positioned for productivity

Hitch design makes it easy to position the box blade over the pile, boosting versatility and productivity. Integral three-point hitch and optional power takeoff (PTO) accommodate a variety of Category 2 tools such as disks, mowers, blades, and box scrapers.

Enjoy the ride

Optional ride control reduces tire flexing over rough terrain with a loaded bucket, reducing material spillage and improving machine ride to boost operator comfort and efficiency.

Comfortable and in control

Including customer-inspired features such as 70-degree seat rotation and an ergonomic loader grip, the 210 P-Tier operator station sets the standard for ease of control and operation. Equipped with either a standard canopy or an optional four-season air-conditioned/heated cab, comfort and productivity are front and center.

Get a grip

"Palm-on-top" loader-control grip is convenient and easy to use. Optional control of auxiliary proportional roller and momentary mechanicalfront-wheel drive (MFWD) is at your fingertips.

Power lifter

Updated hydraulic gear pump increases hydraulic flow by 15 percent (from 25 to 28.9 gpm) during loader applications, improving loader cycle times over earlier models.

Tough enough

Large-diameter hitch and tilt cylinder pins reinforce durability, for long life. Optional transmission guard provides more protection from stones, stumps, and debris, while preventing material accumulation when backing over the pile.

Take a side

Two-position tilt hood enables same-side ground-level access to engine and transmission dipsticks, engine-oil fill, fuel and air filters, and coolant reservoir. Fuel fill is also conveniently close.

210 P-TIER TRACTOR LOADER

Connected machines

John Deere construction equipment comes with in-base connectivity — free from subscriptions or annual renewals. Analyze critical machine data, track utilization, review diagnostic alerts, and more from **the John Deere Operations Center**[™]. The Operations Center also enables **John Deere Connected Support**[™], which uses data from thousands of connected machines to proactively address issues before they arise. With your approval, your dealer can also remotely monitor machine health, diagnose problems, and even update machine software without a trip to the jobsite.*

*Availability varies by region and product. Options not available in every country.

210 P-Tier Tractor Loader With Canopy

DI

210 P-Tier Tractor Loader With Cab

Power Takeoff (PTO) Specs and Performance	210 P-TIER
Туре	Dedicated hydrostatic system (pump, motor, and cooling package) suitable for continuous, heavy-duty PTO
	operations
Hydromechanical 540-rpm PTO	41 kW (55 hp)

DI

Additional equipment

210 P Engine

- Vertical spin-on engine oil filter
- Vertical spin-on fuel filter with water separator
- Coolant recovery tank with low-level indicator
- Serpentine belt with automatic belt tensioner
- Oil-to-water engine oil cooler
- Antifreeze, −37 deg. C (−34 deg. F)
- Dual-element dry-type air cleaner
- Enclosed safety fan guard
- Fold-out, hinged cooling system
- Electronically controlled, variable-rate suction-type cooling fan
- High ambient temperature engine cooling
- Muffler, under hood with curved-end exhaust stack
- Self-cleaning exhaust aftertreatment system
- Grid heat
- Eco mode
- ▲ Electric engine coolant heater, 1,000 watts
- Electronic fuel lift pump
 Powertrain
- PowerShift[™] transmission: Torque converter with twist-grip Transmission Control Lever (TCL) and neutral safety switch interlock (1st through 4th gears)
- Transmission oil cooler
- Vertical spin-on transmission filter
- Differential lock, electric foot actuated

Key: ● Standard ▲ Optional or special

210 P Powertrain (continued)

- Power-assisted hydraulic service brakes (conform to ISO 3450): Inboard, wet multi-disc, self-adjusting and selfequalizing
- Parking/emergency brake with electric switch control (conforms to ISO 3450): Spring applied, hydraulically released wet multi-disc / Independent of service brakes
- Mechanical-front-wheel drive (MFWD), standard differential, sealed axle
- ▲ MFWD, limited slip, sealed axle
- ▲ Transmission guard
- MFWD driveshaft guard

Category II 3-Point Hitch Integral Category II

- Ath-function sectional hydraulic valve, 4th-function auxiliary with capped hoses
- ▲ 5th-function hitch valve with control lever, dual-tilt cylinder

Loader

- Hydraulic self-leveling
- Return-to-dig feature
- Bucket-level indicator
- Loader boom service lock
- Auxiliary loader hydraulics with single control lever with electrohydraulic auxiliary control (MFWD and clutch disconnect)
- Palm-on-top loader control; singlebutton clutch disconnect
- Palm-on-top loader control; 3-function fingertip control (clutch disconnect, MFWD, and proportional auxiliary roller)
 Pide control
- ▲ Ride control

See your John Deere dealer for further information.

210 P Hydraulic System

- 109-L/m (28.9 gpm) rated flow, loader pump
- 45-L/m (12.0 gpm) rated flow, hitch pump
- Independent hydraulic reservoir
- Independent hydraulic oil cooler
- "O"-ring face-seal connectors
- Grade-Control Ready
- ▲ Grade indication

Electrical

- 12-volt system
 - 145-amp alternator (canopy or cab)
- Single battery with 175-min. reserve capacity and 950 CCA
- ▲ Dual batteries with 350-min. reserve capacity and 1,900 CCA
- Positive terminal battery cover
- Blade-type multi-fused circuits
- By-pass start safety cover on starter
- ▲ Battery disconnect
- Lights
- For cab and canopy: Front driving/ working halogen (2) / Turn signal/ flashing lights (2) / Rear stop and taillights (2) / Rear reflectors (2)
- Deluxe electrical package for canopy: Front worklights (2), rear worklights (2), 12-volt outlets (2), and batterydisconnect switch
- Premium LED lighting package for canopy: Front worklights (2), rear worklights (2), side worklights (2), 12-volt outlets (2), and battery-disconnect switch

While general information, pictures, and descriptions are provided, some illustrations and text may include product options and accessories NOT AVAILABLE in all regions, and in some countries products and accessories may require modifications or additions to ensure compliance with the local regulations of those countries.

Net engine power is with standard equipment including air cleaner, exhaust system, alternator, and cooling fan at test conditions specified per ISO 9249. Specifications and design subject to change without notice. Wherever applicable, specifications are in accordance with SAE and/or ISO standards. Except where otherwise noted, these specifications are based on a unit with 16.9-24 R4, 8-ply Galaxy rear tires, 12X16.5 12 PR R4, XD2010 front tires, 0.86-m³ (1.12 cu. yd.) loader bucket, full fuel tank, and 75-kg (165 lb.) operator.

Additional equipment (continued)

See your John Deere dealer for further information.

210 P **Operator's Station**

- Canopy: 2-post, ROPS/FOPS (Level 1/ meets ISO 3471/SAE J1040), steel roof
- Cab: ROPS/FOPS (Level 1 / meets ISO 3471/SAE J1040), air conditioning (7.6-kW [26,000 Btu/h] output and CFC-free R-134a refrigerant), headliner, dome light, tinted safety glass, deluxe interior trim, molded floor mats, left cab door, right emergency egress, front windshield wiper, front windshield washer, heater/defroster/pressurizer (11.7-kW [40,000 Btu/h] heater), 12-volt outlets (2), rear working lights (2), and 50-deq. (10 left, 40 right) rotating mechanical-suspension cloth seat
- Electric monitor system with audible and/or visual warning: Service code / Air cleaner restriction / Low alternator voltage / Engine coolant temperature / Engine oil pressure / Hydraulic filter restriction / Park brake on/off / Seat belt / Transmission oil temperature / Hour meter / Engine rpm / System voltage / Job timer / Machine information
- Engine coolant temperature gauge and fuel gauge
- Left front access
- Slip-resistant steps and ergonomically located handholds
- Built-in Operator's Manual storage compartment with manual

Key: ● Standard ▲ Optional or special

210 P **Operator's Station** (continued)

- Interior rearview mirror
- Foot throttle
- Hand throttle
- Horn
- Key start switch with electric fuel shutoff
- Suspension vinyl seat, 50-deg. (10 left, 40 right) rotating with flip-up armrests, backrest angle adjustment, swivel base, and 76-mm (3 in.) retractable seat belt
- Non-suspension vinyl seat, 50-deg. (10 left, 40 right) rotating with flip-up armrests and 76-mm (3 in.) retractable seat belt
- Suspension cloth fabric seat, 50-deq. (10 left, 40 right) rotating with flip-up armrests, backrest angle adjustment, swivel base, and 76-mm (3 in.) retractable seat belt (for use with optional cab)
- Enhanced mechanical suspension seat, 70-deg. (20 left, 50 right) rotating with flip-up armrests and tilt steering Loader Buckets
- Less bucket, with bucket pins
- General-purpose bucket with cutting edge and skid plates
- Heavy-duty bucket
- Multipurpose bucket with cutting edge and skid plates
- Loader coupler

210 P **Box Blade**

- 2134-mm (84 in.) heavy-duty with hydraulically actuated ripper bar and replaceable router bits
- 2235-mm (88 in.) heavy-duty with hydraulically actuated ripper bar and replaceable router bits **Overall Vehicle**
- 1-piece unitized construction mainframe
- Vehicle tie-downs (2 front and 2 rear)
- Vandal protection for instrument panel, access doors, fuel tank, and hydraulic reservoir
- Reverse warning alarm
- Rear-hitch counterweight (318 kg ▲ [700 lb.]⁺ and 680 kg [1,500 lb.])
- Wheel weights
- Hydromechanical power takeoff (PTO), 41 kW (55 hp), 540 rpm
- Drawbar, fixed single position
- Machine security ▲
- Tilt steering
- French language kit
- Spanish language kit
- JDLink[™] wireless communication system (available in specific countries; see your dealer for details)

[†]Compatible with PTO.
