

# ENGLERT®

## COMMERCIAL GUTTERS AND ACCESSORIES

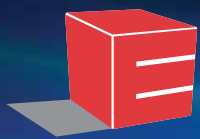

Englert now offers a complete Kynar commercial gutter program to enhance the Englert 7 inch commercial box and "K" style gutter systems. These durably constructed accessories include 3x4 and 4x5 leaders, elbows, and end caps in 26 gauge, 24 gauge and .032 aluminum.

These new gutter accessories are made from and coated with the same premium Kynar materials as Englert's metal roofing coil providing a true match with Englert standing seam metal roofing and wall panel systems.

These vibrant accessories offer the same robust performance and warranty as our roofing products.

Englert's line of 3x4 and 4x5 leaders and elbows along with our end caps are fabricated in plant and are subjected to the same stringent 67 point quality check list that all of our roofing systems must pass insuring maximum quality and performance.

For over 50 years Englert has been satisfying customers by offering the highest quality commercial and residential rain handling products.

The coil used to manufacture Englert commercial gutter products is painted on one of the most sophisticated and modern, state-of-the-art coil coating lines in the country.

All Englert coil and accessories are manufactured from only the highest quality materials and like our commercial and residential metal roofing products Englert commercial Kynar gutter accessories will enhance the beauty of any building or structure.

Englert is known for its quality products and service and our pledge is to supply you and your customers with the materials you need when you need them at a price you and they can afford to pay.

For more information on our full line of commercial Kynar gutter products please contact your local Englert representative or call 800 ENGLERT.
