

EXPRIVIA IN INDIA FOR INTERNATIONAL GROWTH

The ICT Group opens a branch in Pune (India) increasing its presence in the Asian continent, where it has been operating for over ten years.

06th June, 2024. Exprivia S.p.A. – a company listed on the Euronext Milan market of the Italian Stock Exchange [XPR.MI] – opens an office in India, in Pune, in the western state of Maharashtra. The transaction is part of a broader process of global expansion to support the group's customers and strengthen its presence in Asia. Exprivia, in fact, has been active for over ten years in Shanghai with consolidated operations in the country's main industrial districts, including Suzhou, Qingdao, Guangdong region, Beijing and Hong Kong.

The new branch is located in one of the most industrially dense areas of India, confirming Exprivia as one of the main Italian digital partners in the world. The choice is part of the functional and geographical expansion of the offer and of Exprivia's constant desire to improve itself by supporting its customers in their path of international growth, also opening up to new realities present on site.

*"With the opening of the office in India, Exprivia once again confirms itself as one of the main technological partners of Italian companies abroad," said **Domenico Favuzzi, Chairman and CEO of Exprivia S.p.A.** – Thanks to integrated solutions to support the growing need for digital transformation and control of the entire ICT value chain – from infrastructure components to applications and services – Exprivia, with its presence abroad, creates added value for customers and partners. Digital transformation is considered the main opportunity for the development of business models and the growth of Exprivia's client companies, which is therefore a strategic and innovative all-round partner. This is confirmed by the fact that more than a quarter of the Exprivia Group's employees are involved in research and innovation."*

*"Thanks to its integrated portfolio of services, Exprivia is now one of the main European ICT players directly active in Asia, with the support of European managers and local consultants, to guarantee the high standards of delivery," adds **Simone Ciampi, General Manager of Exprivia in Asia.** – On the Asian continent, Exprivia manages over one hundred customers for services ranging from IT infrastructures to software development and management, such as ERP or CRM, from cybersecurity to cloud hosting, as well as maintenance and ordinary support. Among its projects, Exprivia also has the opening of a Global Competence Center to support the entire value chain of the Group and new external partners".*

Exprivia

The Exprivia Group, specialized in Information and Communication Technology, is one of the main players in digital transformation.

Strengthened by a wealth of skills gained in over 30 years of constant presence on the national market and Exprivia employs around 2,400 people in six countries around the world, making use of a team of experts in various areas of technology and digitalization: from Artificial Intelligence to Cybersecurity, from Big Data to Cloud, from IoT to BPO, from Mobile to Networking and Collaboration, overseeing the SAP world entirely.
