1. What is FATCA?

FATCA stands for the Foreign Account Tax Compliance Act. It is a new piece of legislation to help counter tax evasion in the US.

Introduced by the United States Department of Treasury (Treasury) and the US Internal Revenue Service (IRS), the purpose of FATCA is to encourage better tax compliance by preventing US Persons (see glossary) from using Banks and other Financial Organisations to avoid US taxation on their income and assets.

A significant number of countries worldwide are expected to sign Inter-governmental Agreements (IGAs) relating to FATCA compliance with the United States government. These IGAs will result in the FATCA legislation becoming part of these countries' local laws. (Please refer to glossary for IGA definition)

2. What is the impact of FATCA?

On an annual basis, Banks and other Financial Organisations will be required to report information on financial accounts held directly or indirectly by US Persons.

HSBC has made a commitment to being fully FATCA compliant in all countries where we operate. We will therefore be reviewing our existing customer base to confirm the FATCA statuses of our customers and where necessary we may have to contact our customers for further information and documentation.

3. How do I know if I am affected?

FATCA legislation will affect both personal and business customers who are treated as a 'US Person' for US tax purposes. The FATCA legislation will also affect certain types of businesses with US owners.

- A person residing in the US, including US green card holders

HSBC is committed to becoming fully FATCA compliant in all countries where we operate in accordance with the legislative timeline.
