Corrective action

- 3.5.5 R Where an *AIFM* is exposed to a securitisation that does not meet the requirements provided for in ~~the *Securitisation Regulation* *SECN* and, where applicable, the Securitisation Part of the *PRA Rulebook*~~, it must, in the best interests of the investors in the relevant *AIFs*, act and take corrective action, if appropriate.

[~~Note: article~~ Article 17 of *AIFMD*]

- 3.5.6 G ~~Article 41 of the *Securitisation Regulation* replaced the original article 17 of *AIFMD* with an amended provision. *FUND* 3.5.4R and 3.5.5R originally implemented ~~article~~ Article 17 of *AIFMD*, as amended. which is now replaced by provisions set out in *SECN* and the Securitisation Part of the *PRA Rulebook*. The due diligence provisions that *AIFMs* must comply with are set out in *SECN* 4, but transitional provisions may apply depending on when the securitisation was issued (see *FUND* 3.5.8G and *FUND* 3.5.9G).~~
- 3.5.7 G ~~A more general consequence of the replacement of article 17 of *AIFMD* is that from 1 January 2019, Section 5 (Investment in Securitisation Positions) of the *AIFMD level 2 regulation* no longer applies, subject to transitional provisions. Where the transitional provisions are inapplicable, article 5 (Due diligence requirements for institutional investors) of the *Securitisation Regulation* (in combination with *FUND* 3.5.4R and 3.5.5R), completely replaces Section 5 (articles 50 to 56 inclusive) of the *AIFMD level 2 regulation*. [deleted]~~
- 3.5.8 G The ~~relevant~~ transitional provisions that apply in relation to certain securitisations issued ~~during periods before 1 January 2019. They are set out in articles 43(5) and 43(6) of the *Securitisation Regulation* *SECN* 14.2.1R and *SECN* 14.2.2R.~~ Where the transitional provisions apply, they have the effect that article 51 of the *AIFMD level 2 regulation*, concerning requirements for retained interest, and the due-diligence requirements provided for in Section 5 of that regulation, may continue to apply to eligible securitisations, instead of ~~article 5 of the *Securitisation Regulation* *SECN* 4.~~ *SECN* 4.

- 3.5.9      G      The transitional provisions that apply in relation to certain securitisations issued between 1 January 2019 and 31 October 2024 are set out in *SECN* 14.3.1R. Article 5 (Due-diligence requirements for institutional investors) of the *Securisation Regulation* continues to apply to these securitisations in combination with *FUND* 3.5.4R and *FUND* 3.5.5R.

## 1.2 Purpose

- 1.2.1 G The general purpose of this sourcebook is to impose requirements by way of *rules* and directions and give *guidance* in relation to securitisation.
- 1.2.2 G The *Securitisation Regulations 2024* restate some provisions of the *Securitisation Regulation*, in some cases with modifications.
- 1.2.3 G This sourcebook should be read together with the *Securitisation Regulations 2024* and the Securitisation Part of the *PRA Rulebook*.

## 2 Requirements on STS securitisations

### 2.1 Application

- 2.1.1 G The *rules* in this chapter apply to the *person(s)* who notify the *FCA* under *SECN* 2.5. Some of the provisions in this chapter are also directly applicable to any *sponsors, originators, SSPEs or original lenders* where relevant.

### 2.2 STS criteria: Simple, transparent and standardised non-ABCP securitisation

- 2.2.1 R A *securitisation* which is not an *ABCP programme* or an *ABCP transaction* must fulfil the following requirements to be considered an *STS securitisation*:
- (1) those in *SECN* 2.2.2R to *SECN* 2.2.29R; and
  - (2) the *FCA* must have received an *STS notification* in respect of that *securitisation* and the *securitisation* must appear on the list it publishes under regulation 10(2) of the *Securitisation Regulations 2024*; and
  - (3) the *originator* and *sponsor* involved in the *securitisation* must be *established in the United Kingdom*.

#### Simplicity requirements

- 2.2.2 R (1) Any *SSPE* must acquire title to the underlying exposures in a manner enforceable against the seller or any other third party, whether transfer of title is by means of:
- (a) true sale;
  - (b) assignment; or
  - (c) another transfer with the same legal effect as (a) or (b).
- (2) If the seller becomes insolvent, the transfer of the title to the *SSPE*

must not be subject to severe clawback provisions.

- 2.2.3 R For the purposes of *SECN 2.2.2R(2)*, the following are severe clawback provisions:
- (1) those allowing the seller's liquidator to invalidate the sale of the underlying exposures solely because it was concluded within a certain period before the declaration of the seller's insolvency;
  - (2) provisions where the *SSPE* can prevent the invalidation referred to in (1) only if it can prove it was unaware of the seller's insolvency at the time of sale.
- 2.2.4 R For the purposes of *SECN 2.2.2R(1)*, if provisions of national insolvency laws allow a liquidator or court to invalidate the sale of underlying exposures in the following circumstances, such provisions are not severe clawback provisions:
- (1) fraudulent transfers; or
  - (2) unfair prejudice to creditors or transfers intended to improperly favour particular creditors over others.
- 2.2.5 R If the seller is not the *original lender*, the transfer of the underlying exposures to that seller by any of the means in *SECN 2.2.2R(1)* (whether direct or through one or more intermediate steps) must meet the requirements in *SECN 2.2.1* to *SECN 2.2.3*.
- 2.2.6 R If the transfer of the underlying exposures is performed by assignment and perfected after the transaction's closing, the triggers to effect such perfection must be set broadly enough to require perfection in all of the following events:
- (1) severe deterioration in the seller's credit quality standing;
  - (2) the seller's insolvency; and
  - (3) unremedied breaches of the seller's contractual obligations, including the seller's default.
- 2.2.7 R The seller must provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the *securitisation* are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the transfer by the means in *SECN 2.2.2R(1)*.
- 2.2.8 R
- (1) The underlying exposures the seller transfers to the *SSPE* (if an *SSPE* is used) or that are otherwise securitised must meet predetermined, clear and documented eligibility criteria prohibiting active portfolio management of those exposures on a discretionary basis.
  - (2) For the purposes of *SECN 2.2.8R(1)*, substitution of exposures that are in breach of representations and warranties is not considered

active portfolio management.

- (3) Exposures transferred to the *SSPE* (if an *SSPE* is used) or otherwise added to the *securitisation* after the closing of the transaction must meet the eligibility criteria applied to the initial underlying exposures.
- 2.2.9 R (1) The *securitisation* must be backed by a pool of underlying exposures that are homogeneous in terms of asset type, considering the specific characteristics relating to the asset type's cash flows, including their contractual, credit-risk and prepayment characteristics.
- (2) Further details specifying which underlying exposures are homogeneous for the purposes of (1) are set out at *SECN 2.4*.
- (3) The underlying exposures must contain contractually binding and enforceable obligations, with full recourse to debtors and, where applicable, guarantors.
- (4) The underlying exposures must have defined periodic payment streams (the instalments of which may differ in their amounts) relating to rental, principal, or interest payments, or to any other right to receive income from assets supporting such payments. The underlying exposures may also generate proceeds from the sale of any financed or leased assets.
- (5) The underlying exposures must not include any *transferable security*, other than corporate bonds not listed on a *trading venue*.
- 2.2.10 R The underlying exposures must not include any *securitisation position*.
- 2.2.11 R (1) The underlying exposures must be originated:
- (a) in the ordinary course of the *originator's* or *original lender's* business; and
- (b) following underwriting standards at least as rigorous as those the *originator* or *original lender* applied at the time of origination to similar unsecuritised exposures, to the extent there are any.
- (2) The *originator* or the *original lender* (as the case may be) must fully disclose to potential *investors*, without undue delay:
- (a) the underwriting standards pursuant to which the underlying exposures are originated; and
- (b) any material changes from former underwriting standards.
- (3) For *securitisations* with residential loans as underlying exposures, the pool of loans must not include any loan that was marketed and underwritten on the premise that the loan applicant or, where applicable, intermediaries were made aware that the lender might not

verify the information provided.

- (4) The assessment of the borrower's creditworthiness must meet the requirements in:
  - (a) *CONC 5.2A.7R*;
  - (b) *MCOB 11.6.2R(1)(a)*, *MCOB 11.6.2R(1)(b)*, *MCOB 11.6.2R(2)*, *MCOB 11.6.5R(1)*, *MCOB 11.6.60R* and *MCOB 11A.2.1R*; or
  - (c) where applicable, equivalent requirements in a *third country*.
- (5) The *originator* or *original lender* must have expertise in originating exposures of a similar nature to those securitised.

- 2.2.12 R (1) After the underlying exposures have been selected, they must be transferred to the *SSPE* (if an *SSPE* is used) or otherwise securitised without undue delay.
- (2) At the time of selection, the underlying exposures must not include exposures in default within the meaning of Article 178(1) of the *UK CRR* or exposures to a credit-impaired debtor or guarantor who, to the best of the *originator's* or *original lender's* knowledge:
- (a) was, at the time of origination, where applicable:
    - (i) on a public credit registry of persons with adverse credit history; or
    - (ii) if there is no such public credit registry, another credit registry that is available to the *originator* or *original lender*;
  - (b) has a credit assessment or a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than for comparable unsecuritised exposures the *originator* holds, if any;
  - (c) has been declared insolvent;
  - (d) had a court grant its creditors a final non-appealable right of enforcement or material damages as a result of a missed payment within 3 years before the date of origination; or
  - (e) has undergone a debt restructuring process with regard to its *non-performing exposures* within 3 years before the date of transfer of the underlying exposures to the *SSPE* (if an *SSPE* is used) or other means of securitising the underlying exposure.
- (3) If a credit-impaired debtor or guarantor has undergone a debt

restructuring process as described in (2)(e), the underlying exposures may include exposures to that credit-impaired debtor or guarantor if:

- (a) the restructured underlying exposure has not presented new arrears since the date of the restructuring, which must have taken place at least 1 year before the date the underlying exposures were transferred to the *SSPE* (if an *SSPE* is used) or otherwise securitised; and
  - (b) the information the *originator*, *sponsor* and *SSPE* have provided in accordance with *SECN* 6.2.1R(1) and *SECN* 6.2.1R(5)(a) explicitly sets out:
    - (i) the proportion of total underlying exposures, which have been restructured;
    - (ii) the time and details of the restructuring; and
    - (iii) their performance since the date they were restructured.
- 2.2.13 R The debtors must, at the time the exposures are transferred, have made at least one payment, except in the case of revolving *securitisations* backed by exposures payable in a single instalment or with a maturity of less than 1 year (including, without limitation, monthly payments on revolving credits).
- 2.2.14 R (1) A *securitisation* must not be structured so that repayment of *investors* depends predominantly on the sale of the assets securing the underlying exposures.
- (2) Paragraph (1) must not prevent such assets from subsequently being rolled over or refinanced.
- (3) If a *securitisation's* underlying exposures are secured by assets, and the value of those assets is guaranteed or fully mitigated by an obligation on the seller or another third party to repurchase them, that *securitisation* does not contravene the prohibition in (1).

#### Standardisation requirements

- 2.2.15 R The *originator*, *sponsor* or *original lender* must satisfy the risk-retention requirement in accordance with *SECN* 5.
- 2.2.16 R (1) The interest rate and currency risks arising from the *securitisation* must be appropriately mitigated. Any measures taken to that effect must be disclosed.
- (2) The *securitisation* must be structured such that:
- (a) the *SSPE* does not enter into derivative contracts, unless to hedge interest rate or currency risk; and

- (b) the pool of underlying exposures does not include derivatives.
  - (3) Any derivatives into which the *SSPE* does enter in accordance with (2)(a) must be underwritten and documented according to common standards in international finance.
- 2.2.17 R Any referenced interest payments under the *securitisation* assets and liabilities must:
  - (1) be based on generally used market interest rates or generally used sectoral rates reflective of the cost of funds; and
  - (2) not reference complex formulae or derivatives.
- 2.2.18 R If an enforcement or an acceleration notice has been delivered:
  - (1) no cash may be trapped in the *SSPE* above what is needed to ensure the *SSPE's* operational functioning or the orderly repayment of *investors* under the *securitisation's* contractual terms. However, an amount of cash may be so trapped if exceptional circumstances require it to be used (in the *investors' best interests*) to pay expenses to prevent deterioration in the underlying exposures' credit quality;
  - (2) principal receipts from the underlying exposures must be passed to *investors* via sequential amortisation of the *securitisation positions*, as determined by the *securitisation positions' seniority*;
  - (3) repayment of the *securitisation positions* must not be reversed with regard to their seniority; and
  - (4) no provisions may require automatic liquidation of the underlying exposures at market value.
- 2.2.19 R Transactions featuring non-sequential priority of payments must include triggers relating to the performance of the underlying exposures resulting in the priority of payments reverting to sequential payments in order of seniority. Such performance-related triggers must include the deterioration in the credit quality of the underlying exposures below a predetermined threshold.
- 2.2.20 R The transaction documentation must include appropriate *early amortisation provisions* or, in the case of a *revolving securitisation*, triggers for termination of the revolving period, including in the following circumstances:
  - (1) the underlying exposures' credit quality deteriorating to or below a predetermined threshold;
  - (2) an insolvency-related event with regard to the *originator* or the

*servicer* occurring;

- (3) the value of the underlying exposures falling below a predetermined threshold (early amortisation event); and
- (4) failing to generate sufficient new underlying exposures meeting the predetermined credit quality (trigger for termination of the revolving period).

2.2.21 R The transaction documentation must clearly specify:

- (1) the *servicer's*, any trustee's and other ancillary service providers' contractual obligations, duties and responsibilities;
- (2) the processes and responsibilities necessary to ensure that the *servicer's* default or insolvency does not result in servicing terminating, such as a contractual provision enabling the *servicer* to be replaced in such cases; and
- (3) provisions ensuring derivative counterparties, liquidity providers and the account bank are replaced in the case of their default, insolvency and other specified events, where applicable.

2.2.22 R The *servicer* must have:

- (1) expertise in servicing exposures of a similar nature to those securitised; and
- (2) well-documented and adequate policies, procedures and risk-management controls relating to the exposures' servicing.

2.2.23 R (1) The transaction documentation must clearly and consistently set out definitions, remedies and actions relating to:

- (a) delinquency and default of debtors;
- (b) debt restructuring;
- (c) debt forgiveness;
- (d) forbearance;
- (e) payment holidays;
- (f) losses;
- (g) charge offs;
- (h) recoveries; and
- (i) other asset performance remedies.

- (2) The transaction documentation must clearly specify:
    - (a) the priorities of payment and events triggering any change to these; and
    - (b) the obligation to report such events.
  - (3) Any change in the priorities of payments which will materially adversely affect a *securitisation position's* repayment must be reported to *investors* without undue delay.
- 2.2.24 R The transaction documentation must include clear:
- (1) provisions facilitating timely resolution of conflicts between different classes of *investors*;
  - (2) definitions of voting rights;
  - (3) allocation of voting rights to classes of *investor*; and
  - (4) identification of responsibilities of the trustee and other entities with fiduciary duties to *investors*.

#### Transparency requirements

- 2.2.25 R Before pricing or original commitment to invest, the *originator* and the *sponsor* must make available to potential *investors*:
- (1) data covering a period of at least 5 years about static and dynamic historical default and loss performance, such as delinquency and default data, for substantially similar exposures to those being securitised; and
  - (2) the sources of the data in (1) and the reasons those exposures are substantially similar exposures to those being securitised.
- 2.2.26 R (1) An appropriate and independent external party must verify a sample of the underlying exposures before the securities resulting from the *securitisation* are issued.
- (2) That verification must confirm that the data disclosed in respect of the underlying exposures is accurate.
- 2.2.27 R (1) Before pricing or original commitment to invest, the *originator* or the *sponsor* must make available to potential *investors* a liability cashflow model precisely representing the contractual relationship between the underlying exposures and the payments flowing between:
- (a) the *originator*;

- (b) the *sponsor*;
  - (c) the *investors*;
  - (d) other third parties; and
  - (e) the *SSPE*.
- (2) After pricing or original commitment to invest, the *originator* or the *sponsor* must continually make that model available to *investors* and potential *investors* on request.
- 2.2.28 R For a *securitisation* whose underlying exposures are residential loans or auto loans or leases, the *originator* and *sponsor* must publish the available information about the environmental performance of the assets financed by such residential loans or auto loans or leases as part of the information disclosed pursuant to *SECN* 6.2.1R(1).
- 2.2.29 R (1) Before pricing or original commitment to invest, the following information must be made available to potential *investors*:
- (a) that required by *SECN* 6.2.1R(1); and
  - (b) at least in draft or initial form, that required by *SECN* 6.2.1R(2) to *SECN* 6.2.1R(4).
- (2) The final documentation must be made available to *investors* at the latest 15 *days* after closing of the transaction.
- 2.3 STS criteria: Simple, transparent and standardised asset backed commercial paper securitisation**
- 2.3.1 R (1) An *ABCP transaction* must fulfil the following requirements to be considered an *STS securitisation*:
- (a) those in *SECN* 2.3.2R to *SECN* 2.3.22R;
  - (b) the *FCA* must have received an *STS notification* in respect of that *securitisation* and must have included the *securitisation* in the list it publishes under regulation 10(2) of the *Securitisation Regulations 2024*; and
  - (c) the *sponsor* involved in the *ABCP programme* of which that *ABCP transaction* forms part must be *established in the United Kingdom*.
- (2) An *ABCP programme* must fulfil the following requirements to be considered an *STS securitisation*:
- (a) those in *SECN* 2.3.30R to *SECN* 2.3.37R;

- (b) The *FCA* must have received an *STS notification* in respect of that *securitisation* and must have included the *securitisation* in the list it publishes under regulation 10(2) of the *Securitisation Regulations 2024*; and
  - (c) the *sponsor* involved in the *ABCP programme* must be *established in the United Kingdom*.
- (3) For the purposes of *SECN 2.3*, a ‘seller’ means ‘*originator*’ or ‘*original lender*’.

#### Transaction-level requirements

- 2.3.2 R (1) Any *SSPE* must acquire title to the underlying exposures in a manner enforceable against the seller or any other third party, whether transfer of title is by means of:
- (a) true sale;
  - (b) assignment; or
  - (c) another transfer with the same legal effect as (a) or (b).
- (2) The transfer of the title to the *SSPE* must not be subject to severe clawback provisions if the seller becomes insolvent.
- 2.3.3 R (1) For the purposes of *SECN 2.3.2R(2)*, the following are severe clawback provisions:
- (a) those allowing the seller’s liquidator to invalidate the sale of the underlying exposures solely because it was concluded within a certain period before the declaration of the seller’s insolvency;
  - (b) provisions where the *SSPE* can prevent the invalidation referred to in (a) only if it can prove it was not aware of the seller’s insolvency at the time of sale.
- 2.3.4 R For the purposes of *SECN 2.3.2R* if provisions of national insolvency laws allow a liquidator or court to invalidate the sale in the following circumstances, such provisions are not severe clawback provisions:
- (1) fraudulent transfers; or
  - (2) unfair prejudice to creditors or transfers intended to improperly favour particular creditors over others.
- 2.3.5 R If the seller is not the *original lender*, the transfer of the underlying exposures to the seller by any of the means in *SECN 2.3.2R(1)* (whether direct or through one or more intermediate steps) must meet the requirements in *SECN 2.3.2R*, *SECN 2.3.3* and *SECN 2.3.4R*.

- 2.3.6 R If the transfer of the underlying exposures is performed by assignment and perfected after the transaction's closing, the triggers to effect such perfection must be set broadly enough to require perfection in all of the following events:
- (1) severe deterioration in the seller's credit quality standing;
  - (2) the seller's insolvency; and
  - (3) unremedied breaches of the seller's contractual obligations, including the seller's default.
- 2.3.7 R The seller must provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the *securitisation* are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the transfer by the means in *SECN 2.3.2R(1)*.
- 2.3.8 R (1) The underlying exposures the seller transfers to the *SSPE* (if an *SSPE* is used) or that are otherwise securitised must meet predetermined, clear and documented eligibility criteria prohibiting active portfolio management of those exposures on a discretionary basis.
- (2) For the purposes of (1), substitution of exposures that are in breach of representations and warranties is not considered active portfolio management.
- (3) Exposures transferred to the *SSPE* (if an *SSPE* is used) or otherwise added to the *securitisation* after the closing of the transaction must meet the eligibility criteria applied to the initial underlying exposures.
- 2.3.9 R The underlying exposures must not include any *securitisation positions*.
- 2.3.10 R (1) After the underlying exposures have been selected, they must be transferred to the *SSPE* (if an *SSPE* is used) or otherwise securitised without undue delay.
- (2) At the time of selection, the underlying exposures must not include exposures in default within the meaning of Article 178(1) of the *UK CRR* or exposures to a credit-impaired debtor or guarantor who, to the best of the *originator's* or *original lender's* knowledge:
- (a) was, at the time of origination, where applicable:
    - (i) on a public credit registry of persons with adverse credit history; or
    - (ii) if there is no such public credit registry, another credit registry that is available to the *originator* or *original lender*;
  - (b) has a credit assessment or a credit score indicating that the

risk of contractually agreed payments not being made is significantly higher than for comparable unsecured exposures the *originator* holds, if any;

- (c) has been declared insolvent;
  - (d) had a court grant its creditors a final non-appealable right of enforcement or material damages as a result of a missed payment within 3 years before the date of origination; or
  - (e) has undergone a debt restructuring process with regard to its *non-performing exposures* within 3 years before the date of transfer of the underlying exposures to the *SSPE* (if an *SSPE* is used) or other means of securitising the underlying exposure.
- (3) If a credit-impaired debtor or guarantor has undergone a debt restructuring process as described in (2)(e), the underlying exposures may include exposures to that credit-impaired debtor or guarantor if:
- (a) the restructured underlying exposure has not presented new arrears since the date of the restructuring, which must have taken place at least 1 year before the date the underlying exposures were transferred to the *SSPE* (if an *SSPE* is used) or otherwise securitised; and
  - (b) the information the *originator*, *sponsor* and *SSPE* have provided in accordance with *SECN* 6.2.1R(1) and *SECN* 6.2.1R(5)(a) explicitly sets out:
    - (i) the proportion of total underlying exposures, which have been restructured;
    - (ii) the time and details of the restructuring; and
    - (iii) their performance since the date they were restructured.

2.3.11 R The debtors must, at the time the exposures are transferred, have made at least one payment, except in the case of *revolving securitisations* backed by exposures payable in a single instalment or with a maturity of less than 1 year (including, without limitation, monthly payments on revolving credits).

2.3.12 R (1) The *securitisation* must not be structured so that repayment of *securitisation investors* depends predominantly on the sale of the assets securing the underlying exposures.

(2) Paragraph (1) must not prevent such assets from subsequently being rolled over or refinanced.

(3) If a *securitisation's* underlying exposures are secured by assets, and the value of those assets is guaranteed or the risks related to that

value are fully mitigated by an obligation on the seller of those assets, or on another third party, to repurchase them, that *securitisation* does not contravene the prohibition in (1).

- 2.3.13 R (1) The interest rate and currency risks arising from the *securitisation* must be appropriately mitigated. Any measures taken to that effect must be disclosed.
- (2) The *securitisation* must be structured such that:
- (a) the *SSPE* does not enter into derivative contracts, unless to hedge interest rate or currency risk; and
- (b) the pool of underlying exposures does not include derivatives.
- (3) Any derivatives into which the *SSPE* does enter in accordance with (2)(a) must be underwritten and documented according to common standards in international finance.
- 2.3.14 R (1) The transaction documentation must clearly and consistently set out definitions, remedies and actions relating to:
- (a) delinquency and default of debtors;
- (b) debt restructuring;
- (c) debt forgiveness;
- (d) forbearance;
- (e) payment holidays;
- (f) losses;
- (g) charge offs;
- (h) recoveries; and
- (i) other asset performance remedies.
- (2) The transaction documentation must clearly specify:
- (a) the priorities of payment and events triggering any change to these; and
- (b) the obligation to report such events.
- (3) Any change in the priorities of payments which will materially adversely affect a *securitisation position's* repayment must be reported to *investors* without undue delay.
- 2.3.15 R The transaction documentation must include clear:

- (1) provisions facilitating timely resolution of conflicts between different classes of *investors*;
  - (2) definitions of voting rights;
  - (3) allocation of voting rights to classes of *investor*; and
  - (4) identification of responsibilities of the trustee and other entities with fiduciary duties to *investors*.
- 2.3.16 R (1) Before pricing or original commitment to invest, the *originator* and the *sponsor* must make the following data available to potential *investors*:
- (a) except as provided in (2), data covering a period of at least 5 years about static and dynamic historical default and loss performance, such as delinquency and default data, for substantially similar exposures to those being securitised; and
  - (b) the sources of the data in (1)(a) and the reasons those exposures are substantially similar to those being securitised.
- (2) If the data in (1)(a) relates to trade receivables and other short-term receivables, it must cover a period of at least 3 years.
  - (3) If the *sponsor* cannot access such data, it must obtain from the seller access to static or dynamic data about the historical performance of exposures substantially similar to those being securitised (such as delinquency and default data).
- 2.3.17 R (1) *ABCP transactions* must be backed by a pool of underlying exposures that are homogeneous in terms of asset type, considering the specific characteristics relating to the asset type's cash flows, including their contractual, credit-risk and prepayment characteristics.
- (2) The pool of underlying exposures must have a remaining weighted average life of not more than 1 year. The underlying exposures must not have a residual maturity of more than 3 years.
  - (3) By way of derogation from (2), pools of auto loans, auto leases and equipment lease transactions must have a remaining weighted average life of not more than 3.5 years. The underlying exposures must not have a residual maturity of more than 6 years.
  - (4) Further details specifying which underlying exposures are homogeneous for the purposes of (1) are set out at *SECN 2.4*.
  - (5) The underlying exposures must not include loans secured by residential or commercial mortgages.

- (6) The underlying exposures:
- (a) must contain contractually binding and enforceable obligations, with full recourse to debtors;
  - (b) must have defined payment streams relating to rental, principal, interest, or any other right to receive income from assets warranting such payments;
  - (c) may generate proceeds from the sale of any financed or leased assets; and
  - (d) must not include any *transferable security*, other than corporate bonds not listed on a *trading venue*.
- 2.3.18 R (1) Any referenced interest payments under the *ABCP transaction's* assets and liabilities must:
- (a) be based on generally used market interest rates or generally used sectoral rates reflective of the cost of funds; and
  - (b) not reference complex formulae or derivatives.
- (2) Referenced interest payments under the *ABCP transaction's* liabilities may be based on interest rates reflective of an *ABCP programme's* cost of funds.
- 2.3.19 R Following the seller's default or an acceleration event:
- (1) no amount of cash may be trapped in the *SSPE* above what is needed to ensure the *SSPE's* operational functioning or the orderly repayment of *investors* under the *securitisation's* contractual terms. However, an amount of cash may be so trapped if exceptional circumstances require it to be used (in the *investors'* best interests) to pay expenses to prevent deterioration in the underlying exposures' credit quality;
  - (2) principal receipts from the underlying exposures must be passed to *investors* via sequential payment of the *securitisation positions*, as determined by the *securitisation positions'* seniority; and
  - (3) no provisions may require automatic liquidation of the underlying exposures at market value.
- 2.3.20 R (1) The underlying exposures must be originated:
- (a) in the ordinary course of the seller's business; and
  - (b) following underwriting standards at least as rigorous as those the seller applied at the time of origination to similar unsecuritised exposures, to the extent there are any.

- (2) The *originator* or the *original lender* must fully disclose to the *sponsor* and other parties directly exposed to the *ABCP transaction* without undue delay:
    - (a) the underwriting standards pursuant to which the underlying exposures are originated; and
    - (b) any material changes from prior underwriting standards.
  - (3) The seller must have expertise in originating exposures of a similar nature to those securitised.
- 2.3.21 R If an *ABCP transaction* is a *revolving securitisation*, the transaction documentation must include triggers for termination of the revolving period, including in the following circumstances:
- (1) the underlying exposures' credit quality deteriorating to or below a predetermined threshold; and
  - (2) an insolvency-related event with regard to the seller or the *servicer* occurring.
- 2.3.22 R The transaction documentation must clearly specify:
- (1) the *sponsor's*, *servicer's*, any trustee's and ancillary service providers' contractual obligations, duties and responsibilities;
  - (2) the processes and responsibilities necessary to ensure that the *servicer's* default or insolvency does not result in servicing terminating;
  - (3) provisions ensuring derivative counterparties and the account bank are replaced in the case of their default, insolvency, and other specified events, where applicable; and
  - (4) how the *sponsor* meets the requirements of *SECN 2.3.25R*.

#### Requirements on the sponsor of an STS ABCP programme

- 2.3.23 R The *sponsor* of an *ABCP programme* must:
- (1) be a *CRR firm*; and
  - (2) not be an *investment firm*.
- 2.3.24 R The *sponsor* of an *ABCP programme* must:
- (1) be a liquidity facility provider;
  - (2) support all *securitisation positions* on an *ABCP programme* level by covering all liquidity and credit risks and any material dilution risks of the securitised exposures as well as any other transaction and

- programme-level costs if necessary to guarantee to the *investor* the full payment of any amount under the ABCP with such support; and
- (3) disclose to *investors* a description of the support provided at transaction level and of the liquidity facilities provided.
- 2.3.25 R (1) Before a *credit institution* may sponsor an STS ABCP programme, it must demonstrate to the *PRA* that its role under *SECN 2.3.24R* does not pose risks to its solvency and liquidity, even in extremely stressed market conditions.
- (2) The requirement referred to in (1) is fulfilled if the *PRA* has determined, based on the review and evaluation referred to in regulation 34A(2) of the *Capital Requirements Regulations 2013*, that:
- (a) the arrangements, strategies, processes and mechanisms that *credit institution* has implemented; and
- (b) the own funds and liquidity that *credit institution* holds, ensure sound management and coverage of its risks.
- 2.3.26 R The *sponsor* must:
- (1) perform its own due diligence;
- (2) verify compliance with the requirements set out in *SECN 4.2.1R* and *SECN 4.2.2R* or equivalent *PRA rules*; and
- (3) verify the seller has in place servicing capabilities and collection processes meeting the requirements specified in Article 265(2)(h)–(p) of the *UK CRR* or equivalent requirements in a *third country*.
- 2.3.27 R The seller, at the level of a transaction, or the *sponsor*, at the level of the ABCP programme, must satisfy the risk-retention requirement referred to in *SECN 5* or equivalent *PRA rules*.
- 2.3.28 R Before pricing or original commitment to invest, the *sponsor* must make available to potential *investors* pricing on request:

- (2) the information required by *SECN 6.2.1R(2)* to *SECN 6.2.1R(7)* or equivalent *PRA rules*, at least in draft or initial form.
- 2.3.29 R If the *sponsor* does not renew the funding commitment of the liquidity facility before it expires, the liquidity facility must be drawn down and the maturing securities must be repaid.

#### Programme-level requirements

- 2.3.30 R (1) All *ABCP transactions* within an *ABCP programme* must fulfil the requirements of *SECN 2.3.2R* to *SECN 2.3.22R*.
- (2) Notwithstanding (1), a maximum of 5% of the aggregate amount of the exposures underlying the *ABCP transactions* and which are funded by the *ABCP programme* may temporarily not comply with the requirements of *SECN 2.3.10R*, *SECN 2.3.11R* and *SECN 2.3.12R* without affecting the *ABCP programme's* STS status.
- (3) For the purposes of (2), an appropriate and independent external party must regularly verify compliance of a sample of the underlying exposures.
- (4) The *sponsor* of the *ABCP programme* must comply with the requirements under *SECN 2.3.23R* to *SECN 2.3.29R*;
- 2.3.31 R The remaining weighted average life of the underlying exposures of an *ABCP programme* must not be more than 2 years.
- 2.3.32 R The *ABCP programme* must be fully supported by a *sponsor* in accordance with *SECN 2.3.24R*.
- 2.3.33 R The *ABCP programme* must not contain any *res securitisation*. The credit enhancement must not establish a second layer of tranching at the programme level.
- 2.3.34 R The securities an *ABCP programme* issues must not include the following clauses, if they are exercisable at the discretion of the seller, *sponsor* or *SSPE*:
- (1) call options;
- (2) extension clauses; and
- (3) other clauses that affect the final maturity of those securities.
- 2.3.35 R (1) The interest rate and currency risks arising at *ABCP programme* level must be appropriately mitigated. Any measures taken to that effect must be disclosed.
- (2) The *ABCP programme* must be structured such that:
- (a) the *SSPE* must not enter into derivative contracts, unless to hedge interest rate or currency risk; and
- (b) the pool of underlying exposures does not include derivatives.
- (3) Any derivatives into which the *SSPE* does enter in accordance with (2)(a) must be underwritten and documented according to common standards in international finance.

- 2.3.36 R The *ABCP programme*'s documentation must clearly specify:
- (1) the responsibilities of the trustee and other entities with fiduciary duties, if any, to *investors*;
  - (2) the contractual obligations, duties and responsibilities of the *sponsor* (who must have expertise in credit underwriting), any trustee and other ancillary service providers;
  - (3) the processes and responsibilities necessary to ensure that the *servicer*'s default or insolvency does not result in servicing terminating;
  - (4) the provisions ensuring derivative counterparties and the account bank at *ABCP programme* level are replaced in case of their default, insolvency and other specified events, where the liquidity facility does not cover such events;
  - (5) the remedial steps that must be taken on specified events, or on the *sponsor*'s default or insolvency to achieve collateralisation of the funding commitment or replacement of the liquidity facility provider (as appropriate); and
  - (6) that the liquidity facility must be drawn down and the maturing securities repaid if the *sponsor* does not renew the liquidity facility's funding commitment before it expires.
- 2.3.37 R The *servicer* must have:
- (1) expertise in servicing exposures of a similar nature to those securitised; and
  - (2) well-documented and adequate policies, procedures and risk-management controls relating to the exposures' servicing.

## 2.4 STS criteria: Homogeneity of underlying exposures

### Qualifying conditions

- 2.4.1 R (1) For the purposes of *SECN 2.2.9R* and *SECN 2.3.17R*, underlying exposures are homogeneous if:
- (a) they correspond to one of the following asset types:
    - (i) residential loans either secured by one or more mortgages on residential immovable property or fully guaranteed by an eligible protection provider among those under Article 201(1) of the *UK CRR* and qualify for the credit quality step 2 or above under Part Three, Title II, Chapter 2 of the *UK CRR*;

- (ii) commercial loans secured by one or more mortgages on commercial immovable property, including offices or other commercial premises;
  - (iii) credit facilities provided to individuals for personal, family or household consumption purposes and credit facilities provided to enterprises where the *originator* applies the same credit risk assessment approach as for individuals not covered under (i), (ii) and (iv) to (viii);
  - (iv) credit facilities, including loans and leases, provided to any type of enterprise or corporation;
  - (v) auto loans and leases;
  - (vi) credit card receivables;
  - (vii) trade receivables; or
  - (viii) other underlying exposures which, in the opinion of the *originator* or *sponsor*, constitute a distinct asset type based on internal methodologies and parameters;
- (b) they are underwritten according to standards applying similar approaches for assessing associated credit risk;
  - (c) they are serviced according to similar procedures for monitoring, collecting and administering cash receivables of the *originator*, or on the asset side of the *SSPE*; and
  - (d) one or more of the homogeneity factors are applied in accordance with *SECN 2.4.2R*, where applicable.
- (2) For the purposes of (1)(a), if an underlying exposure corresponds to more than one asset type, that exposure must be assigned only to one asset type in that *securitisation*.
  - (3) Any changes to underlying exposures in a pool that is deemed to be homogenous pursuant to *SECN 2.4* will not affect such homogeneity where such changes are for reasons outside the *originator's* or *sponsor's* control.

#### Homogeneity factors

- 2.4.2 R (1) The homogeneity factors for the asset type referred to in *SECN 2.4.1R(1)(a)(i)* are the following:
- (a) ranking of security rights, whereby the pool of underlying exposures comprises only one of the following:
    - (i) loans secured by first ranking security rights on a

- residential immovable property;
  - (ii) loans secured by lower and all prior ranking rights on a residential immovable property; or
  - (iii) loans secured by lower ranking security rights on a residential immovable property;
  - (b) type of residential immovable property, whereby the pool comprises only one of the following types:
    - (i) income-producing properties; or
    - (ii) non-income producing properties;
  - (c) jurisdiction, whereby the pool comprises exposures secured by residential immovable properties located in the same jurisdiction.
- (2) The homogeneity factors for the asset type referred to in *SECN* 2.4.1R(1)(a)(ii) are the following:
- (a) ranking of security rights, whereby the pool comprises only one of the following types of underlying exposures:
    - (i) loans secured by first ranking security rights on a commercial immovable property;
    - (ii) loans secured by lower and all prior ranking rights on a commercial immovable property; or
    - (iii) loans secured by lower ranking security rights on a commercial immovable property;
  - (b) type of immovable commercial property, whereby the pool comprises only one of the following types:
    - (i) office buildings;
    - (ii) retail space;
    - (iii) hospitals;
    - (iv) storage facilities;
    - (v) hotels;
    - (vi) industrial properties; or
    - (vii) other specific type of commercial immovable properties;

- (c) jurisdiction, whereby the pool comprises underlying exposures secured by properties located in the same jurisdiction.
- (3) The homogeneity factors for the asset type referred to in *SECN* 2.4.1R(1)(a)(iv) are the following:
- (a) type of obligor, whereby the pool comprises only one of the following types of obligors:
    - (i) micro, small and medium-sized enterprises; or
    - (ii) other types of enterprises and corporates;
  - (b) jurisdiction, whereby the pool comprises only one of the following types of underlying exposures:
    - (i) exposures secured by immovable property located in the same jurisdiction; or
    - (ii) exposures to obligors with residence in the same jurisdiction.
- (4) The homogeneity factors for the asset type referred to in *SECN* 2.4.1R(1)(a)(v) are the following:
- (a) type of obligor, whereby the pool comprises underlying exposures with only one of the following types of obligors:
    - (i) individuals and enterprises where the *originator* applies the same approach for assessing the credit risk associated with exposures to enterprises as for exposures to individuals;
    - (ii) micro, small and medium-sized enterprises;
    - (iii) other types of enterprises and corporates;
    - (iv) public sector entities; or
    - (v) financial institutions;
  - (b) jurisdiction, whereby the pool comprises underlying exposures to obligors with residence in the same jurisdiction.
- (5) The homogeneity factors for the asset type referred to in *SECN* 2.4.1R(1)(a)(vi) are the following:
- (a) type of obligor, whereby the pool comprises underlying exposures with only one of the following types of obligors:
    - (i) individuals and enterprises where the *originator*

applies the same approach for assessing the credit risk associated with exposures to enterprises as for exposures to individuals;

- (ii) micro, small and medium-sized enterprises;
- (iii) other types of enterprises and corporates;
- (iv) public sector entities; or
- (v) financial institutions;

(b) jurisdiction, whereby the pool comprises underlying exposures to obligors with residence in the same jurisdiction.

(6) The homogeneity factors for the asset type referred to in *SECN* 2.4.1R(1)(a)(viii) are any of the following:

- (a) type of obligor;
- (b) ranking of security rights;
- (c) type of immovable property; or
- (d) jurisdiction.

2.4.3 G Under the requirements of *SECN* 2.4.1R(1)(b) and (c) we would normally expect homogenous residential mortgage portfolios to contain owner-occupier or buy-to-let mortgages but not generally both. However, they may be homogenous where the owner-occupier and buy-to-let mortgages are both underwritten and serviced according to similar standards.

## 2.5 STS notification

2.5.1 R (1) If a *securitisation* which is not an *ABCP programme* or an *ABCP transaction* meets the relevant *STS criteria*, the *originator* and *sponsor* jointly may notify the *FCA* of that fact as described in *SECN* 2.6.

(2) If:

- (a) an *ABCP programme* meets the relevant *STS criteria*; or
- (b) an *ABCP transaction* meets the relevant *STS criteria*,

the *sponsor* may notify the *FCA* of that fact as described in *SECN* 2.6.

(3) A notice given in accordance with (1) or (2) must explain how the relevant *STS criteria* have been complied with.

(4) If the *originator* and *sponsor* involved in a *securitisation* jointly give the *STS notification*, the *STS notification* must designate one of them

to be the first contact point for *investors* and the *FCA*.

- 2.5.2 R (1) The *originator*, *sponsor* or *SSPE* may use the service of a third party registered under regulation 25 of the *Securitisation Regulations 2024* to check whether a *securitisation* complies with the relevant *STS criteria*.
- (2) When using a third party under *SECN 2.5.2R(1)* the *originator*, *sponsor* or *SSPE* must check that such third party is registered under regulation 25 of the *Securitisation Regulations 2024*.
- (3) Using the service of a third party under *SECN 2.5.2R (1)* does not affect the liability of the *originator*, *sponsor* or *SSPE* in respect of their legal obligations under *SECN*.
- (4) If the *originator*, *sponsor* or *SSPE* use the service of a registered third party under (1), the *STS notification* must include a statement that the registered third party has confirmed compliance with the *STS criteria*.
- (5) The *STS notification* must include the registered third party's:
- (a) name; and
  - (b) place of establishment.
- 2.5.3 R If the *originator* or *original lender* is not a *CRR firm* or an *FCA investment firm*, the *STS notification* pursuant to *SECN 2.5.1R(1)* or *SECN 2.5.1R(2)* must be accompanied by:
- (1) confirmation by the *originator* or *original lender* that (other than in respect of trade receivables not originated in the form of a loan):
    - (a) its credit granting is based on sound and well-defined criteria and clearly established processes for approving, amending, renewing and financing credits; and
    - (b) the *originator* or *original lender* has effective systems in place to apply such processes in accordance with *SECN 8* (or equivalent *PRA rules*); and
  - (2) a declaration by the *originator* or *original lender* as to whether credit granting referred to in (1) is subject to supervision.
- 2.5.4 R The *originator* and *sponsor* must immediately notify the *FCA* if a *securitisation* no longer meets the relevant *STS criteria*.
- 2.5.5 G Multiple *STS notifications* may be submitted in respect of the same *securitisation* where:
- (1) the relevant *securitisation* is an *ABCP transaction*, in which case one notification should be submitted in accordance with *SECN 2.5.1(2)*

by each *sponsor* of a relevant *ABCP programme* wishing to treat the *securitisation* as an *STS securitisation*; or

- (2) both a *securitisation* which is not an *ABCP transaction* or an *ABCP programme* and an *ABCP transaction*, in which case one notification may be submitted in accordance with *SECN 2.5.1R(1)* and one notification should be submitted in accordance with *SECN 2.5.1(2)* by each *sponsor* of a relevant *ABCP programme* wishing to treat the *securitisation* as an *STS securitisation*.

## 2.6 Information to be included in the STS notification by the originator or sponsor

- 2.6.1 R (1) The following information must be included in the *STS notification*:
- (a) if the *securitisation* is a non-*ABCP securitisation*, the information specified in *SECN 2 Annex 1R*;
  - (b) if the *securitisation* is an *ABCP transaction*, the information specified in *SECN 2 Annex 2R*;
  - (c) for an *ABCP programme*, the information specified in *SECN 2 Annex 3R*.

### 4 Due diligence requirements

#### 4.1 Application

- 4.1.1 G This chapter applies to:

- (a) where the *originator* or *original lender* is *established in the United Kingdom* and is not a *CRR firm* or *FCA investment firm*, the *originator* or *original lender* grants all the credits giving rise to the underlying exposures (unless they are trade receivables not originated in the form of a loan) on the basis of:
- (i) sound and well-defined criteria; and
- (ii) clearly established processes for approving, amending, renewing and financing those credits,
- and has effective systems in place to apply those criteria and processes, in accordance with *SECN 8.2* (or equivalent *PRA rules*);
- (b) where the *originator* or *original lender* is not *established in the United Kingdom*, the *originator* or *original lender* grants all the credits giving rise to the underlying exposures (unless they are trade receivables not originated in the form of a loan) on the basis of:
- (i) sound and well-defined criteria; and

- 4.2.2 R (1) Prior to holding a *securitisation position*, an *institutional investor*, other than the *originator*, *sponsor* or *original lender*, shall carry out a due diligence assessment, which enables it to assess the risks involved. That assessment shall consider at least all of the following:
- (a) the risk characteristics of the individual *securitisation position* and of the underlying exposures;
  - (b) all of the structural features of the *securitisation position* that can materially impact the performance of the *securitisation position*, including the contractual priorities of payment and priority of payment-related triggers, credit enhancements, liquidity enhancements, market value triggers, and transaction-specific definitions of default;
  - (c) with regard to a *securitisation* included on the list maintained under regulation 10(2) of the *Securitisation Regulations 2024*, compliance with *SECN 2*;

- (d) with regard to a *securitisation* that appears to the *institutional investor* to be an overseas STS securitisation as defined in regulation 12(2) of the *Securitisation Regulations 2024*, whether the *securitisation* falls within a description of *securitisation* specified in regulations made from time to time under regulation 13(1) of the *Securitisation Regulations 2024* in relation to a country or territory designated under such regulations;
  - (e) with regard to a securitisation falling within paragraph (3)(b) and (c) of regulation 12 of the *Securitisation Regulations 2024*, compliance with the requirements referred to in paragraph (3)(a) of that regulation and with Article 27 of the *Securitisation Regulation* as it had effect in relation to the *EU* at the time of the notification mentioned in paragraph (3)(b) of that regulation;
  - (f) in considering the matter referred to in point (c), an *institutional investor* may rely to an appropriate extent on the *STS notification* and on the information disclosed by the *originator, sponsor* and *SSPE* concerning compliance with the *STS criteria*, without solely or mechanically relying on that notification or information; and
  - (g) in considering the matter referred to in point (d), an *institutional investor* may rely to an appropriate extent on the notification referred to in regulation 12(3)(b) of the *Securitisation Regulations 2024* and on the information disclosed by the *originator, sponsor* and *SSPE* to *ESMA* concerning compliance with the requirements referred to in regulation 12(3)(a) of the *Securitisation Regulations 2024*, without solely or mechanically relying on that notification or information.
- (2) Notwithstanding (1)(a) and (b), in the case of a *fully supported ABCP programme, institutional investors* in the commercial paper issued by that *ABCP programme* shall consider the features of the *ABCP programme* and the full liquidity support.
- 4.2.3 R The requirements in *SECN 4.2.1R* and *SECN 4.2.2R* continue to apply where a *third party verifier* has provided services under *SECN 2.5.2R*.

### 4.3 Requirements on sponsors

- 4.3.1 R (1) As regards *fully supported ABCP transactions* the requirement specified in *SECN 4.2.1R(1)(a)* shall apply to the *sponsor* and not to the *institutional investor*.
- (2) In such cases, the *sponsor* must verify that the *originator* or *original lender* which is not a *CRR firm* or an *FCA investment firm* grants all the credits giving rise to the underlying exposures (other than any

underlying exposures that are trade receivables not in the form of a loan) on the basis of:

- (a) sound and well-defined criteria; and
- (b) clearly established processes for their approving, amending, renewing and financing those credits,

and has effective systems in place to apply those criteria and processes, in accordance with *SECN* 8.2 (or equivalent *PRA rules*).

#### **4.4 While holding a securitisation position**

- 4.4.1 R An *institutional investor*, other than the *originator*, *sponsor* or *original lender*, holding a *securitisation position*, shall at least:
- (1) establish appropriate written procedures that are proportionate to the risk profile of the *securitisation position* and, where relevant, to the *institutional investor's* trading and non-trading book in order to monitor, on an ongoing basis, compliance with *SECN* 4.2.1R and *SECN* 4.2.2R and the performance of the *securitisation position* and of the underlying exposures. Where relevant with respect to the *securitisation* and the underlying exposures, those written procedures shall include monitoring of:
    - (a) the exposure type;
    - (b) the percentage of loans more than 30, 60 and 90 *days* past due;
    - (c) default rates;
    - (d) prepayment rates;
    - (e) loans in foreclosure;
    - (f) recovery rates;
    - (g) repurchases;
    - (h) loan modifications;
    - (i) payment holidays;
    - (j) collateral type and occupancy; and
    - (k) frequency distribution of credit scores or other measures of creditworthiness across underlying exposures, industry and geographical diversification, frequency distribution of loan-to-value ratios with bandwidths that facilitate adequate sensitivity analysis;
  - (2) in the case of a *securitisation* other than a *fully supported ABCP*

*programme*, regularly perform stress tests on the cash flows and collateral values supporting the underlying exposures or, in the absence of sufficient data on cash flows and collateral values, stress tests on loss assumptions, having regard to the nature, scale and complexity of the risk of the *securitisation position*;

- (3) in the case of *fully supported ABCP programmes*, regularly perform stress tests on the solvency and liquidity of the *sponsor*;
- (4) ensure internal reporting to its management body so that the management body is aware of the material risks arising from the *securitisation position* and so that those risks are adequately managed;
- (5) be able to demonstrate to the *FCA*, upon request, that it has a comprehensive and thorough understanding of the *securitisation position* and its underlying exposures and that it has implemented written policies and procedures for the risk management of the *securitisation position* and for maintaining records of the verifications and due diligence in accordance with *SECN 4.2.1R* and *SECN 4.3* and of any other relevant information; and
- (6) in the case of exposures to a *fully supported ABCP programme*, be able to demonstrate to the *FCA*, upon request, that it has a comprehensive and thorough understanding of the credit quality of the *sponsor* and of the terms of the liquidity facility provided.

- 4.4.2 R Where the underlying exposures of a *securitisation* are themselves *securitisation positions*, in accordance with *SECN 7* or Article 8 of Chapter 2 of the Securitisation Part of the *PRA Rulebook*, *institutional investors* shall also monitor the exposures underlying those *securitisation positions*.

## 4.5 Institutional investor delegation

- 4.5.1 R Without prejudice to *SECN 4.2* and *SECN 4.4*, where the managing party has been given authority by the *institutional investor* described below to make investment management decisions that might expose it to a *securitisation*, the following paragraphs apply in respect of any exposure to a *securitisation* arising from those decisions. Unless specified below the responsibility for fulfilling the obligations under *SECN 4.2* and *SECN 4.4* shall remain with the *institutional investor*:

- (1) Where an *institutional investor* who is subject to *SECN 4.5.1R* ('the managing party') is instructed under *SECN 4.5.1R* to fulfil any of the obligations of another *institutional investor* who is also subject to *SECN 4.5.1R* and fails to do so, the managing party is responsible for the failure to comply with the relevant obligation and not the *institutional investor* who is exposed to the *securitisation*.
- (2) Where an *institutional investor* who is subject to *SECN 4.5.1R* ('the managing party') is instructed under *SECN 4.5.1R* to fulfil any of

the obligations of another *institutional investor* who is subject to Article 5 of Chapter 2 of the Securitisation Part of the *PRA Rulebook* or to regulation 32A to 32D of the *Securitisation Regulations 2024* and fails to do so, the managing party is responsible for the failure to comply with the relevant obligation.

- (3) Where an *institutional investor* ('the managing party') who is subject to Article 5 of Chapter 2 of the Securitisation Part of the *PRA Rulebook* is instructed under *SECN 4.5.1R* to fulfil any of the obligations of another *institutional investor* who is subject to *SECN 4.5.1R* and fails to do so, the *institutional investor* who is exposed to the *securitisation* is not responsible for the failure to comply.

## 5 Requirements on risk retention

### 5.1 Interpretation and application

#### Application

- 5.1.1 G This chapter applies to *originators*, *sponsors* and *original lenders*, which are not *PRA-authorised persons*, and which are *established in the United Kingdom*.

#### Interpretation

- 5.1.2 R In this chapter, the following definitions apply:
- 5.1.3 R (1) 'contingent form of retention' means retention of a material net economic interest through the use of guarantees, letters of credit and other similar forms of credit support ensuring an immediate enforcement of the retention;
- (2) 'synthetic form of retention' means retention of a material net economic interest through the use of derivative instruments; and
- (3) 'UK Solvency II Firm' has the same definition as in Article 2.1 of Chapter 2, Solvency II Firms: Insurance General Application of the *PRA Rulebook*.

### 5.2 Retention of a material net economic interest

- 5.2.1 R The *originator*, *sponsor* or *original lender* of a *securitisation* shall retain on an ongoing basis a material net economic interest in the *securitisation* of not less than 5%. That interest shall be measured at the origination and shall be determined by the notional value for off-balance-sheet items.
- 5.2.2 R Where the *originator*, *sponsor* or *original lender* have not agreed between them who will retain the material net economic interest, the *originator* shall retain the material net economic interest.
- 5.2.3 R There shall be no multiple applications of the retention requirements for any

given *securitisation*.

- 5.2.4 R The material net economic interest shall not be split amongst different types of retainers and shall not be subject to any credit-risk mitigation or hedging.
- 5.2.5 R For the purposes of *SECN 5*, an entity shall not be considered to be an *originator* where the entity has been established or operates for the sole purpose of securitising exposures.
- 5.2.6 R Subject to *SECN 5.2.7R*, *originators* shall not select assets to be transferred to the *SSPE* with the aim of rendering losses on the assets transferred to the *SSPE*, measured over the life of the transaction, or over a maximum of 4 years where the life of the transaction is longer than 4 years, higher than the losses over the same period on comparable assets held on the balance sheet of the *originator*.
- 5.2.7 R *Originators* may select assets to be transferred to the *SSPE* that ex ante have a higher than average credit risk profile as compared to the comparable assets, if any, that remain on the balance sheet of the *originator* provided that the higher credit risk profile of the assets transferred to the *SSPE* is clearly communicated to the *investors* or potential *investors*.
- 5.2.8 R (1) Only the following shall qualify as a retention of a material net economic interest of not less than 5% within the meaning of *SECN 5.2.1R*:
- (a) the retention of not less than 5% of the nominal value of each of the *tranches* sold or transferred to *investors*;
  - (b) in the case of *revolving securitisations* or *securitisations of revolving exposures*, the retention of the *originator's* interest of not less than 5% of the nominal value of each of the securitised exposures;
  - (c) the retention of randomly selected exposures, equivalent to not less than 5% of the nominal value of the securitised exposures, where such non-securitised exposures would otherwise have been securitised in the *securitisation*, provided that the number of potentially securitised exposures is not less than 100 at origination;
  - (d) the retention of the *first loss tranche* and, where such retention does not amount to 5% of the nominal value of the securitised exposures, if necessary, other *tranches* having the same or a more severe risk profile than those transferred or sold to *investors* and not maturing any earlier than those transferred or sold to *investors*, so that the retention equals in total not less than 5% of the nominal value of the securitised exposures; or
  - (e) the retention of a first loss exposure of not less than 5% of

every securitised exposure in the *securitisation*.

- (2) (a) By way of derogation from (1), in the case of *NPE securitisations*, where a *non-refundable purchase price discount* has been agreed, the retention of a material net economic interest for the purposes of (1) shall not be less than 5% of the sum of the net value of the securitised exposures that qualify as *non-performing exposures* and, if applicable, the nominal value of any performing securitised exposures.
- (b) The net value of a *non-performing exposure* shall be calculated by deducting the *non-refundable purchase price discount* agreed at the level of the individual securitised exposure at the time of origination or, where applicable, a corresponding share of the *non-refundable purchase price discount* agreed at the level of the pool of underlying exposures at the time of origination from the exposure's nominal value or, where applicable, its outstanding value at the time of origination.
- (c) In addition, for the purpose of determining the net value of the securitised *non-performing exposures*, the *non-refundable purchase price discount* may include the difference between the nominal amount of the *tranches* of the *NPE securitisation* underwritten by the *originator* for subsequent sale and the price at which these *tranches* are first sold to unrelated third parties.

5.2.9 R (1) Where:

- (a) a *mixed financial holding company*;
- (b) a *UK parent institution*;
- (c) a *financial holding company* that is *established in the United Kingdom*; or
- (d) a subsidiary of such a company or institution,

as an *originator* or *sponsor*, securitises exposures from one or more *CRR firms*, *FCA investment firms* or other *financial institutions* which are included in the scope of supervision on a consolidated basis, the requirements set out in *SECN 5.2.1R* to *SECN 5.2.5R* may be satisfied based on the consolidated situation of the *mixed financial holding company*, *UK parent institution* or *financial holding company* concerned.

- (2) Subject to the modifications for *FCA investment firms* in (3), (1) applies only if *CRR firms*, *FCA investment firms* or *financial institutions* which created the securitised exposures:

- (a) comply with the requirements in Chapter 4 of the Internal Capital Adequacy Assessment Part of the *PRA Rulebook*; and
  - (b) deliver the information needed to satisfy the requirements in *SECN 4* or equivalent *PRA rules*, in a timely manner, to the *originator* or *sponsor* and, if the *originator* or *sponsor* is a subsidiary, to the *mixed financial holding company*, *UK parent institution* or *financial holding company* which is the parent undertaking of the subsidiary.
- (3) In the case of *FCA investment firms*, compliance with the requirements set out in Article 4.2 of Chapter 4 of the Internal Capital Adequacy Assessment Part of the *PRA Rulebook* are modified in accordance with this subparagraph:
- (a) *FCA investment firms* must have internal methodologies that enable them to assess the credit risk of exposures to individual obligors, securities or *securitisation positions* and credit risk at the portfolio level;
  - (b) the internal methodologies must not rely solely or mechanistically on external credit ratings; and
  - (c) where an *FCA investment firm* determines the amount of own funds that it should hold by reference to a rating by an external credit assessment institution or by reference to the fact that an exposure is unrated, this does not exempt the *FCA investment firm* from additionally considering other relevant information for assessing its allocation of internal capital.
- (4) In *SECN 5.2.9R* ‘subsidiary’ has the meaning given in Article 4(1)(16) of *UK CRR*.

- 5.2.10 R *SECN 5.2.1R* to *SECN 5.2.5R* shall not apply where the securitised exposures are exposures to or exposures fully, unconditionally and irrevocably guaranteed by:
- (1) central governments or central banks;
  - (2) regional governments, local authorities and ‘public sector entities’ within the meaning of Article 4(1)(8) of *UK CRR*;
  - (3) institutions to which a 50% risk weight or less is assigned under Part Three, Title II, Chapter 2 of *UK CRR* and articles 132a to 132c of Chapter 3 of the Standardised Approach and Internal Ratings Based Approach to Credit Risk (CRR) Part of the *PRA Rulebook*;
  - (4) national promotional banks or institutions within the meaning of Article 2(3) of Regulation (EU) 2015/1017 of the European Parliament and of the Council; or

- (5) the multilateral development banks listed in Article 117 of *UK CRR*.
- 5.2.11 R *SECN 5.2.1R to SECN 5.2.5R* shall not apply to transactions based on a clear, transparent and accessible index, where the underlying reference entities are identical to those that make up an index of entities that is widely traded, or are other tradable securities other than *securitisation positions*.
- 5.3 Retainers of material net economic interest**
- 5.3.1 R The requirement that the retained material net economic interest shall not be split among different types of retainers under *SECN 5.2.4R* shall be fulfilled by any of the following:
- (1) the *originator* or *originators*;
  - (2) the *sponsor* or *sponsors*; or
  - (3) the *original lender* or *original lenders*.
- 5.3.2 R Where more than one *originator* is eligible to fulfil the retention requirement each *originator* shall fulfil that requirement on a pro rata basis by reference to the securitised exposures for which it is the *originator*.
- 5.3.3 R Where more than one *original lender* is eligible to fulfil the retention requirement, each *original lender* shall fulfil that requirement on a pro rata basis by reference to the securitised exposures for which it is the *original lender*.
- 5.3.4 R By way of derogation from *SECN 5.3.2R* and *SECN 5.3.3R*, the retention requirement may be fulfilled in full by a single *originator* or *original lender* provided that either of the following conditions is met:
- (1) the *originator* or *original lender* has established and is managing the *ABCP programme* or other *securitisation*; or
  - (2) the *originator* or *original lender* has established the *ABCP programme* or other *securitisation* and has contributed over 50% of the total securitised exposures measured by nominal value at origination.
- 5.3.5 R Where more than one *sponsor* is eligible to fulfil the retention requirement, the retention requirement shall be fulfilled by either:
- (1) the *sponsor* whose economic interest is most appropriately aligned with *investors* as agreed by the multiple *sponsors* on the basis of objective criteria including, but not limited to, the transaction's fee structure, the *sponsor's* involvement in the establishment and management of the *ABCP programme* or other *securitisation* and exposure to credit risk of the *securitisations*; or
  - (2) by each *sponsor* in proportion to the total number of *sponsors*.

- 5.3.6 R The following must be taken into account when assessing whether an entity has been established or operates for the sole purpose of securitising exposures as referred to in *SECN 5.2.5R*:
- (1) the entity has a business strategy and the capacity to meet payment obligations consistent with a broader business model and involving material support from capital, assets, fees or other income available to the entity, relying neither on the exposures being securitised, nor on any interests retained or proposed to be retained in accordance with *SECN 5*, as well as any corresponding income from such exposures and interests; and
  - (2) the members of the management body have the necessary experience to enable the entity to pursue the established business strategy, and the entity has adequate corporate governance arrangements.

#### 5.4 **Fulfilment of the retention requirement through a synthetic form of retention or contingent form of retention**

- 5.4.1 R (1) The fulfilment of the retention requirement in a manner equivalent to one of the options set out in *SECN 5.2.8R* through a synthetic or contingent form of retention shall meet all of the following conditions:
- (a) the amount retained is at least equal to the amount required under the option which the synthetic or contingent form of retention corresponds to; and
  - (b) the retainer has explicitly disclosed in the final offering document, prospectus, transaction summary or overview of the main features of the *securitisation* that it will retain a material net economic interest in the *securitisation* through a synthetic or contingent form of retention on an ongoing basis.
- (2) For the purposes of *SECN 5.4.1R(1)(b)* the retainer shall disclose in the final offering document, prospectus transaction summary or overview of the main features of the *securitisation*, all the details on the applicable synthetic form of retention or contingent form of retention, including, the methodology used in its determination of the material net interest retained and an explanation on which of the options in *SECN 5.2.8R* the retention is equivalent to.
- (3) Where an entity other than a *CRR firm* or a UK Solvency II Firm retains an economic interest through a synthetic form of retention or contingent form of retention, that interest retained on a synthetic or contingent basis must be fully collateralised in cash and held on a segregated basis as *client money* as referred to in *CASS 7.12.1R*.

## 5.5 Retention of not less than 5% of the nominal value of each of the tranches sold or transferred to investors

- 5.5.1 R The retention of not less than 5% of the nominal value of each of the *tranches* sold or transferred to the *investors* referred to in *SECN* 5.2.8R(1)(a) may be complied with through any of the following methods:
- (1) the retention of not less than 5% of the nominal value of each of the securitised exposures, provided that the retained credit risk ranks *pari passu* with or is subordinated to the credit risk securitised in relation to the same exposures;
  - (2) the provision, in the context of an *ABCP programme*, of a liquidity facility, where all the following conditions are met:
    - (a) the liquidity facility covers 100% of the share of the credit risk of the securitised exposures of the relevant *securitisation* transaction that is being funded by the respective *ABCP programme*;
    - (b) the liquidity facility covers the credit risk for as long as the retainer has to retain the material net economic interest by means of such liquidity facility for the relevant *securitisation* transaction;
    - (c) the liquidity facility is provided by the *originator*, *sponsor* or *original lender* in the *securitisation* transaction; and
    - (d) the *investors* becoming exposed to such *securitisations* have been given access to appropriate information with the initial disclosure to enable them to verify that (a), (b) and (c) are complied with; or
  - (3) the retention of an exposure which exposes its holder to the credit risk of each issued *tranche* of a *securitisation* transaction on a pro-rata basis (*vertical tranche*) of not less than 5% of the total nominal value of each of the issued *tranches*.

## 5.6 Retention of the originator's interest in a revolving securitisation of revolving exposures

- 5.6.1 R The retention of the *originator's* interest of not less than 5% of the nominal value of each of the securitised exposures as referred to in *SECN* 5.2.8R(1)(b) shall only be considered fulfilled where the retained credit risk of such exposures ranks *pari passu* with or is subordinated to the credit risk securitised in relation to the same exposures.

## 5.7 Retention of randomly selected exposures equivalent to not less than 5% of the nominal value of the securitised exposures

- 5.7.1 R (1) The pool of at least 100 potentially securitised exposures from

which retained non-securitised and securitised exposures are to be randomly selected, as referred to in *SECN 5.2.8R(1)(c)*, shall be sufficiently diverse to avoid an excessive concentration of the retained interest.

- (2) When selecting the exposures, referred to in *SECN 5.7.1R(1)*, retainers shall take into account quantitative and qualitative factors that are appropriate for the type of securitised exposures to ensure that the distinction between retained non-securitised and securitised exposures is random. For that purpose, and where relevant, retainers shall take into consideration the following factors when selecting exposures:
  - (a) the time of the origination of the loan (vintage);
  - (b) the type of securitised exposures;
  - (c) the geographical location;
  - (d) the origination date;
  - (e) the maturity date;
  - (f) the loan to value ratio;
  - (g) the collateral type;
  - (h) the industry sector;
  - (i) the outstanding loan balance; and
  - (j) any other factor deemed relevant by the retainer.
- (3) Retainers shall not select different individual exposures at different points in time, except where that may be necessary to fulfil the retention requirement in relation to a *securitisation* in which the securitised exposures fluctuate over time, either due to new exposures being added to the *securitisation* or to changes in the level of the individual securitised exposures.
- (4) Where the retainer is the *securitisation's servicer*, the selection conducted in accordance with *SECN 5.7.1R* must not lead to a deterioration in the servicing standards applied by the retainer on the transferred exposures relative to the retained exposures.

## **5.8 Retention of the first loss tranche**

- 5.8.1 R (1) The retention of the *first loss tranche* referred to in *SECN 5.2.8R(1)(d)* may be fulfilled by holding either on-balance sheet or off-balance sheet positions and by either of the following methods:
  - (a) provision of a contingent form of retention or of a liquidity

facility in the context of an *ABCP programme*, which fulfils all of the following criteria:

- (i) the exposure covers at least 5% of the nominal value of the securitised exposures;
  - (ii) the exposure constitutes a first loss position in relation to the *securitisation*;
  - (iii) the exposure covers the credit risk for the entire duration of the retention commitment;
  - (iv) the exposure is provided by the retainer; and
  - (v) the *investors* have been given access within the initial disclosure to all information necessary to verify that (i) to (iv) are complied with; or
- (b) *over collateralisation*, if it operates as a ‘first loss’ position of not less than 5% of the nominal value of the securitised exposures.
- (2) Where the *first loss tranche* exceeds 5% of the nominal value of the securitised exposures, the retainer may choose to retain a pro-rata portion of such *first loss tranche* only, provided that portion is equivalent to at least 5% of the nominal value of the securitised exposures.

## 5.9 Retention of a first loss exposure of not less than 5% of every securitised exposure

- 5.9.1 R (1) The retention of a first loss exposure at the level of every securitised exposure as referred to in *SECN 5.2.8R(1)(e)* shall only be considered to be fulfilled where the retained credit risk is subordinated to the credit risk securitised in relation to the same exposures.
- (2) By way of derogation from (1), the retention of a first lost exposure at the level of every securitised exposure as referred to in *SECN 5.2.8R(1)(e)* may also be fulfilled through the sale by the *originator* or *original lender* of the underlying exposures at a discounted value where each of the following conditions is met:
- (a) the amount of the discount is not less than 5% of the nominal value of each exposure; and
  - (b) the discounted sale amount is refundable to the *originator* or *original lender* only if that discounted sale amount is not absorbed by losses related to the credit risk associated with the securitised exposures.

## 5.10 Application of the retention options on NPE securitisations

- 5.10.1 R (1) In case of *NPE securitisations* as referred to in *SECN 5.2.8(2)*, for the purposes of applying *SECN 5.5.1R(1)* and *SECN 5.6R* to *SECN 5.9R* to the share of *non-performing exposures* in the pool of underlying exposures of a *securitisation*, any reference to the nominal value of the securitised exposures shall be construed as a reference to the net value of the *non-performing exposures*.
- (2) For the purposes of *SECN 5.7*, the net value of the retained *non-performing exposures* shall be calculated using the same amount of the *non-refundable purchase price discount* that would have been applied had the retained *non-performing exposures* been securitised.
- (3) For the purposes of *SECN 5.2.8R(1)(a)*, *SECN 5.6* or *SECN 5.9* the net value of the retained part of the *non-performing exposures* shall be computed using the same percentage of the *non-refundable purchase price discount* that applies to the part that is not retained.
- (4) Where the *non-refundable purchase price discount* as referred to in *SECN 5.2.8(2)(b)* has been agreed at the level of the pool of underlying *non-performing exposures*, the net value of individual securitised *non-performing exposures* included in the pool or sub-pool, as applicable, shall be calculated by applying a corresponding share of the *non-refundable purchase price discount* agreed at pool or sub-pool level to each of the securitised *non-performing exposures* in proportion to their nominal value or, where applicable, their outstanding value at the time of origination.
- (5) Where the *non-refundable purchase price discount* includes the difference between the nominal amount of one *tranche* or several *tranches* of a *NPE securitisation* underwritten by the *originator* for subsequent sale and the price at which that *tranche* or those *tranches* are first sold to unrelated third parties as referred to in *SECN 5.2.8R(2)(c)*, that difference shall be taken into account in the calculation of the net value of individual securitised *non-performing exposures* by applying a corresponding share of the difference to each of the securitised *non-performing exposures* in proportion to their nominal value.

## 5.11 Measurement of the level of retention

- 5.11.1 R (1) When measuring the level of retention of the net economic interest, the following criteria shall be applied:
- (a) the origination shall be considered as the time at which the exposures were first securitised;
- (b) where the calculation of the level of retention is based on nominal values, it shall not take into account the acquisition

price of assets;

- (c) finance charge collections and other fee income in respect of the securitised exposures net of costs ('excess spread') shall not be taken into account when measuring the retainer's net economic interest; and
- (d) the retention option and methodology used to calculate the net economic interest shall not be changed during the life of a *securitisation* transaction, unless exceptional circumstances require a change and that change is not used as a means to reduce the amount of the retained interest.

- (2) The retainer shall not be required to replenish or readjust its retained interest to at least 5% as losses are realised on its retained exposures or allocated to its retained positions.

#### **5.11A Measurement of the material net economic interest to be retained for exposures in the form of drawn and undrawn amounts of credit facilities**

- 5.11A.1 R The calculation of the net economic interest to be retained for credit facilities, including credit cards, shall be based on amounts already drawn, realised or received only and shall be adjusted in accordance with changes to those amounts.

#### **5.12 Prohibition of hedging or selling the retained interest**

- 5.12.1 R (1) The obligation in *SECN* 5.2.1R to retain on an ongoing basis a material net economic interest in the *securitisation* shall be deemed to have been met only where, taking into account the economic substance of the transaction, both of the following conditions are met:
  - (a) the retained material net economic interest is not subject to any credit risk mitigation or hedging of either the retained *securitisation positions* or the retained exposures; and
  - (b) the retainer does not sell, transfer or otherwise surrender all or part of the rights, benefits or obligations arising from the retained net economic interest.
- (2) By way of derogation from *SECN* 5.12.1R(1)(a), the retainer may hedge the net economic interest where the hedge:
  - (a) is not against the credit risk of either the retained *securitisation positions* or the retained exposures; or
  - (b) is undertaken prior to the *securitisation* as a prudent element of credit granting or risk management and does not create a differentiation for the retainer's benefit between the credit risk of the retained *securitisation positions* or exposures and the *securitisation positions* or exposures transferred to

investors.

- (3) The retainer may use retained exposures or *securitisation positions* as collateral for secured funding purposes including, where relevant, funding arrangements that involve a sale, transfer or other surrender of all or part of the rights, benefits or obligations arising from the retained net economic interest, provided that such use as collateral does not transfer the exposure to the credit risk of those retained exposures or *securitisation positions* to a third party.
- (4) *SECN 5.12.1R(1)(b)* shall not apply:
  - (a) in the event of the insolvency of the retainer; or
  - (b) in the case of retention on a consolidated basis, in accordance with *SECN 5.14*.

### **5.13 Transactions for which the retention requirement does not apply as referred to in *SECN 5.2.11R***

- 5.13.1 R Transactions for which the retention requirement does not apply, as referred to in *SECN 5.2.11R*, shall include *securitisation positions* in the correlation trading portfolio, which are either reference instruments satisfying the criterion in Article 338(1)(b) of the *UK CRR* or which are eligible for inclusion in the correlation trading portfolio.

### **5.14 Retention on a consolidated basis**

- 5.14.1 R A *mixed financial holding company*, a *UK parent institution* or *financial holding company established in the United Kingdom* satisfying, in accordance with *SECN 5.2.9R*, the retention requirement on the basis of its consolidated situation shall, in the case the *retainer* is no longer included in the scope of supervision on a consolidated basis, ensure that one or more of the remaining entities included in the scope of supervision on a consolidated basis fulfils the retention requirement.

### **5.15 Arrangements or embedded mechanisms**

- 5.15.1 R Retainers shall not use arrangements or embedded mechanisms in the *securitisation* by virtue of which the retained interest at origination would decline faster than the interest transferred. In the allocation of the cash flows, the retained interest shall not be prioritised to preferentially benefit from being repaid or amortised ahead of the transferred interest. The amortisation of the retained interest via cash flow allocation or through the allocation of losses that, in effect, reduce the level of retention over time, shall be allowed.

### **5.16 Fulfilment of the retention requirements in securitisations of own issued debt instruments**

- 5.16.1 R Where an entity securitises its own issued debt instruments, including *covered bonds*, and the underlying exposures of the *securitisation* comprise

exclusively those own-issued debt instruments, the retention requirement in *SECN 5.2.1R* to *SECN 5.2.5R* shall be considered complied with.

## 5.17 Retention requirement on resecuritisations

- 5.17.1 R (1) Subject to (2), in the context of *resecuritisation* as far as enabled in accordance with *SECN 7.2* and *SECN 7.3*, a retainer must retain the material net economic interest in relation to each of the respective transaction levels.
- (2) The *originator* of a *resecuritisation* is not obliged to retain a material net economic interest at the transaction level of the *resecuritisations* where all of the following conditions are met:
- (a) the *originator* of the *resecuritisation* is also the *originator* and the retainer of the underlying *securitisations*;
  - (b) the *resecuritisation* is backed by a pool of exposures comprising solely exposures or positions which were retained by the *originator* in the underlying *securitisation* in excess of the required minimum net economic interest prior to the date of origination of the *resecuritisation*; and
  - (c) there is no maturity mismatch between the underlying *securitisation positions* or exposures and the *resecuritisation*.
- (3) A *fully supported ABCP programme*, which meets the requirements of *SECN 7.3* is not a *resecuritisation* for the purposes of *SECN 5.17*.
- (4) The retransferring by the *securitisation's originator* of an issued *tranche* into contiguous *tranches* shall not constitute a *resecuritisation*.

## 5.18 Assets transferred to SSPE

- 5.18.1 R (1) For the purposes of *SECN 5.2.6R*, assets held on the balance sheet of the *originator* that according to the documentation of the *securitisation* meet the eligibility criteria shall be deemed to be comparable to the assets to be transferred to the *SSPE* where, at the time of the selection of the assets, both of the following conditions are met:
- (a) the expected performance of both the assets to be further held on the balance sheet and the assets to be transferred is determined by similar factors; and
  - (b) on the basis of indications including past performance and applicable models, it can be reasonably expected that the performance of the assets to be further held on the balance sheet will not be significantly better during the time period referred to in *SECN 5.2.6R* than the performance of the

assets to be transferred.

- (2) An *originator* shall be deemed to have complied with *SECN 5.2.6R* where, after the *securitisation*, there are no exposures left on the *originator's* balance sheet that are comparable to the securitised exposures, other than the exposures which the *originator* is already contractually committed to securitise, and provided that that fact has been clearly communicated to *investors*.

- 5.18.2 G In assessing whether the *originator* has complied with *SECN 5.2.6R*, the *FCA* would expect to take into account the actions the *originator* has taken to comply with that *rule*. In particular, the *FCA* would expect to take account of any internal policies, procedures and controls put in place by the *originator* to prevent the systematic or intentional selection for *securitisation* purposes of assets of a higher average credit risk profile than comparable assets retained on its balance sheet.

## 5.19 Disclosure of the level of the commitment to maintain a net economic interest

- 5.19.1 R (1) The retainer shall disclose to *investors* within the final offering document, prospectus, transaction summary or overview of the main features of the *securitisation* at least the following information regarding the level of its commitment to maintain a net economic interest in the *securitisation*:
- (a) confirmation of the retainer's identity, whether it retains as *originator*, *sponsor* or *original lender* and, where the retainer is the *originator*, how it meets the requirement set out in *SECN 5.2.5R* taking into account the principles set out in *SECN 5.3.6R*;
  - (b) which of the modalities provided for in *SECN 5.2.8R(1)* has been applied to retain a net economic interest; and
  - (c) confirmation of the level of retention at origination and of the commitment to retain on an ongoing basis, which shall relate only to the continuation of fulfilment of the original obligation and shall not require data on the current nominal or market value, or on any impairments or write-downs on the retained interest.
- (2) Where the exemptions referred to in *SECN 5.2.10R* and *SECN 5.2.11R* apply to a *securitisation* transaction, *firms* acting as *originator*, *sponsor* or *original lender* shall disclose within the final offering document, prospectus, transaction summary or overview of the main features of the *securitisation* information on the applicable exemption to *investors*.
- (3) The disclosure referred to in (1) and (2) shall be appropriately documented within the final offering document, prospectus,

transaction summary of overview of the main features of the *securitisation* and made publicly available, except in bilateral or private transactions where private disclosure is considered by the parties to be sufficient. The inclusion of a statement on the retention commitment in the prospectus for the securities issued under the *securitisation programme* is an appropriate means of fulfilling the requirement.

## **6 Transparency requirements for originators, sponsors and SSPEs**

### **6.1 Application**

6.1.1 G This chapter applies to *originators, sponsors* and *SSPEs* which are not *PRA-authorized persons*, and which are *established in the United Kingdom*.

### **6.2 Provision of information to holders of a securitisation position**

6.2.1 R The *originator, sponsor* and *SSPE* of a *securitisation* shall, in accordance with *SECN 6.3, SECN 11* and *SECN 12* make at least the following information available to holders of a *securitisation position*, to the *FCA* and, upon request, to potential *investors*:

- (1) information on the underlying exposures on a quarterly basis, or, in the case of asset backed commercial paper, information on the underlying receivables or credit claims on a monthly basis;
- (2) all underlying documentation essential for the understanding of the transaction, including but not limited to, where applicable, the following documents:
  - (a) the final offering document or the prospectus together with the closing transaction documents, excluding legal opinions;
  - (b) for *traditional securitisation*, the asset sale agreement, assignment, novation or transfer agreement and any relevant declaration of trust;
  - (c) the derivatives and guarantee agreements, as well as any relevant documents on collateralisation arrangements where the exposures being securitised remain exposures of the *originator*;
  - (d) the servicing, back-up servicing, administration and cash management agreements;
  - (e) the trust deed, security deed, agency agreement, account bank agreement, guaranteed investment contract, incorporated terms or master trust framework or master definitions agreement or such legal documentation with equivalent legal value;

- (f) any relevant inter-creditor agreements, derivatives documentation, subordinated loan agreements, start-up loan agreements and liquidity facility agreements; and
  - (g) a detailed description of the priority of payments of the *securitisation*;
- (3) where section 85 of the *Act* (Contravention of prohibition relating to public offer of securities) and *rules* made by the *FCA* for the purposes of Part 6 of the *Act* (Official Listing) do not require a prospectus to be drawn up, a transaction summary or overview of the main features of the *securitisation*, including, where applicable:
- (a) details regarding the structure of the deal, including the structure diagrams containing an overview of the transaction, the cash flows and the ownership structure;
  - (b) details regarding the exposure characteristics, cash flows, loss waterfall, credit enhancement and liquidity support features;
  - (c) details regarding the voting rights of the holders of a *securitisation position* and their relationship to other secured creditors; and
  - (d) a list of all triggers and events referred to in the documents provided in accordance with *SECN* 6.2.1R(2) that could have a material impact on the performance of the *securitisation position*;
- (4) in the case of *STS securitisations*, the *STS notification* referred to in *SECN* 2.5;
- (5) quarterly investor reports, or, in the case of asset backed commercial paper, monthly investor reports, containing at least the following:
- (a) all materially relevant data on the credit quality and performance of underlying exposures;
  - (b) information on events which trigger changes in the priority of payments or the replacements of any counterparties, and, in the case of a *securitisation* which is not an *ABCP transaction* or an *ABCP programme*, data on the cash flows generated by the underlying exposures and by the liabilities of the *securitisation*; and
  - (c) information about the risk retained, including information on which of the modalities provided for in *SECN* 5.6.1R has been applied, in accordance with *SECN* 5, *SECN* 11 and *SECN* 12.

- (6) any inside information relating to the *securitisation* that the *originator*, *sponsor* or *SSPE* is obliged to make public in accordance with Article 17 of the *Market Abuse Regulation*;
  - (7) where *SECN* 6.2.1R(6) does not apply, any significant event, such as:
    - (a) a material breach of the obligations provided for in the documents made available in accordance with *SECN* 6.2.1R(2), including any remedy, waiver or consent subsequently provided in relation to such a breach;
    - (b) a change in the structural features that can materially impact the performance of the *securitisation*;
    - (c) a change in the risk characteristics of the *securitisation* or of the underlying exposures that can materially impact the performance of the *securitisation*;
    - (d) in the case of *STS securitisations*, where the *securitisation* ceases to meet the STS requirements or where the *FCA* or *PRA* have taken remedial or administrative actions; and
    - (e) any material amendment to transaction documents.
- 6.2.2 R (1) The information described in *SECN* 6.2.1R(1) and *SECN* 6.2.1R(5) shall be made available simultaneously each quarter at the latest one *month* after the due date for the payment of interest or, in the case of *ABCP transactions*, at the latest one *month* after the end of the period the report covers.
- (2) The information described in *SECN* 6.2.1R(2), *SECN* 6.2.1R(3) and *SECN* 6.2.1R(4) must be made available before pricing or original commitment to invest in draft or initial form. Final versions of this information must be made available at the latest 15 *days* after closing of the transaction.
- 6.2.3 R In the case of *ABCP*, the information described in *SECN* 6.2.1R(1), *SECN* 6.2.1R(3)(b) and *SECN* 6.2.1R(5)(a) shall be made available in aggregate form to holders of *securitisation positions* and, on request, to potential *investors*. to comply with the law applicable in the *United Kingdom* governing the protection of confidentiality of information and the processing of personal data and with any confidentiality obligation relating to customer, original lender or debtor information.

- 6.2.6 G Nothing in *SECN 6.2.5R* affects the *FCA*'s powers by and under the *Act* relating to the ability to request and process confidential information.

### 6.3 Designation relating to securitisation repository

- 6.3.1 R (1) The *originator*, *sponsor* and *SSPE* of a *securitisation* must designate one of their number to be the entity responsible for fulfilling the information requirements under *SECN 6.2.1R(1)*, *SECN 6.2.1R(2)*, *SECN 6.2.1R(4)*, *SECN 6.2.1R(5)*, *SECN 6.2.1R(6)* and *SECN 6.2.1R(7)*.
- (2) Such designation does not relieve the other parties referred to in *SECN 6.3.1R* of their responsibilities under *SECN 6.2*.
- 6.3.2 R The *reporting entity* shall make the information for a *securitisation* transaction available by means of a *securitisation repository* registered by the *FCA*.
- 6.3.3 R The obligations referred to in *SECN 6.3.2R* and *SECN 6.3.4R* shall not apply to *securitisations* for which section 85 of the *Act* (Contravention of prohibition relating to public offer of securities) and *rules* made by the *FCA* for the purposes of Part 6 of the *Act* do not require a prospectus to be drawn up.
- 6.3.4 R Where no *securitisation repository* is registered in accordance with regulation 14 of the *Securitisation Regulations 2024*, the *reporting entity* must make the information available by means of a website that:
- (1) includes a well-functioning data quality control system;
  - (2) is subject to appropriate governance standards and to maintenance and operation of an adequate organisational structure that ensures the continuity and orderly functioning of the website;
  - (3) is subject to appropriate systems, controls and procedures that identify all relevant sources of operational risk;
  - (4) includes systems that ensure the protection and integrity of the information received and the prompt recording of the information; and
  - (5) makes it possible to keep records of the information for at least 5 years after the maturity date of the *securitisation*.
- 6.3.5 R In relation to *SECN 6.3.2R* and *SECN 6.3.4R*, the *reporting entity* and the *securitisation repository* where the information is made available shall be

indicated in the documentation regarding the *securitisation*.

## 7 Ban on resecuritisation

### 7.1 Application

- 7.1.1 G (1) The *rules* in this chapter apply to *originators, sponsors* and *SSPEs* which are not *PRA-authorised persons*, and which are *established in the United Kingdom*.
- (2) The *rules* in this chapter also apply to *institutional investors* which are not *occupational pension schemes* or *PRA-authorised persons*.

### 7.2 Securitisation positions as underlying exposures

- 7.2.1 R (1) The underlying exposures used in a *securitisation* shall not include *securitisation positions*.
- (2) Paragraph (1) does not apply to:
- (a) any *securitisation* the securities of which were issued before 1 January 2019; or
- (b) any *securitisation* in respect of which the *FCA* has disapplied, modified or dispensed with (1) such that the underlying exposures may include *securitisation positions*.

- 7.2.2 G (1) Where an *originator, sponsor* or *SSPE* has included *securitisation positions* as an underlying exposure in a *securitisation* in accordance with *SECN 7.2.1R(1)* an *institutional investor* may apply to the *FCA* for a waiver of *SECN 7.2.1R(1)* in order to invest in the *resecuritisation*. The *FCA's* applicable waiver powers are set out in *SECN Sch 6*.

### 7.3 Fully supported ABCP programme

- 7.3.1 R A *fully supported ABCP programme* shall not be considered to be a *resecuritisation* for the purposes of *SECN 7*, provided that none of the *ABCP transactions* within that programme is a *resecuritisation* and that the credit enhancement does not establish a second layer of tranching at the programme level.

## 8 Criteria for credit granting

### 8.1 Application

- 8.1.1 G This chapter applies to *originators, sponsors* and *original lenders* which are not *PRA-authorised persons*, and which are *established in the United Kingdom*.

### 8.2 Granting of credit

- 8.2.1 R *Originators, sponsors and original lenders* shall apply to exposures to be securitised (unless they are trade receivables not originated in the form of a loan) the same sound and well-defined criteria for credit granting which they apply to non-securitised exposures. To that end, the same clearly established processes for approving and (where relevant) amending, renewing and refinancing credits shall be applied.
- 8.2.2 R *Originators, sponsors and original lenders* shall have effective systems in place to apply those criteria and processes in order to ensure credit granting is based on a thorough assessment of the obligor's creditworthiness taking appropriate account of factors relevant to verifying the prospect of the obligor meeting the obligor's obligations under the credit agreement.

### 8.3 Verification arrangements

- 8.3.1 R Where the underlying exposures of *securitisations* are residential loans made on or after 20 March 2014, the pool of those loans shall not include any loan that is marketed and underwritten on the premise that the loan applicant or, where applicable, intermediaries were made aware that the information provided by the loan applicant might not be verified by the lender.
- 8.3.2 R Where an *originator* purchases a third party's exposures for its own account and then securitises them, that *originator* shall verify that the entity which was, directly or indirectly, involved in the original agreement which created the obligations or potential obligations to be securitised fulfils the requirements referred to in *SECN* 8.3.1R (or equivalent *PRA rules*).
- 8.3.3 R *SECN* 8.3.2R does not apply if:
- (1) the original agreement, which created the obligations or potential obligations of the debtor or potential debtor, was entered into before 20 March 2014; and
  - (2) the *originator* that purchases a third party's exposures for its own account and then securitises them meets the obligations that *originator* institutions were required to meet under Article 21(2) of Commission Delegated Regulation (EU) No 625/2014 before 1 January 2019.

## 9 Requirements on securitisation repositories

### 9.1 Application

- 9.1.1 G This chapter applies to *securitisation repositories* which are *established in the United Kingdom* except, for the directions set out in *SECN* 9.4.1D to 9.4.3D which applies to applicants for registration as a *securitisation repository* or a *trade repository*.

### 9.2 Registration conditions

- 9.2.1 R A registered *securitisation repository* must comply at all times with the conditions for registration.

### 9.3 Availability of data

- 9.3.1 R Without prejudice to *SECN 6.3*, a *securitisation repository* must collect and maintain details of the *securitisation*. It must provide direct and immediate access free of charge to the following entities to enable them to fulfil their respective responsibilities, mandates and obligations:

- (1) the relevant authorities whose respective supervisory responsibilities and mandates cover transactions, markets, participants and assets which fall within the scope of *SECN*;
- (2) the Bank of England;
- (3) the *FCA*, the *PRA* and the Pensions Regulator; and
- (4) *investors* and potential *investors*.

### 9.4 Format of applications for registration as a securitisation repository or for extension of a registration of a trade repository

- 9.4.1 D Applicants for registration as a *securitisation repository* under regulation 14(1) of the *Securitisation Regulations 2024* must complete the applications set out in *SECN 9 Annex 1D*.
- 9.4.2 D *Trade repositories* applying for an extension of registration under regulation 14(2) of the *Securitisation Regulations 2024* must complete the applications set out in *SECN 9 Annex 2D*.
- 9.4.3 D For the purposes of *SECN 9.4.1D* and *SECN 9.4.2D*, the applications must be submitted:
- (1) in a *durable medium*; and
  - (2) with a unique reference number assigned to each document in the application.

### 9.5 Operational standards for data collection, aggregation, comparison, access and verification of completeness and consistency by securitisation repositories

#### Interpretation

- 9.5.1 R For the purposes of *SECN 9.5*, ‘data cut-off date’ means the reference date of the information reported in accordance with *SECN 11*.

#### End-of-day report

- 9.5.2 R (1) *Securitisation repositories* must produce, on a daily basis, a single aggregate end-of-day report for all *securitisations* reported to them,

excluding any reported *securitisation* that has been rejected in accordance with *SECN* 9.5.4R(7). That report must be based on the most recent reported information and must include at least the following information:

- (a) the unique identifier assigned in accordance with *SECN* 11.12.1R;
- (b) the *International Securities Identification Number (ISIN)* codes of the *tranches*, bonds or subordinated loans of the *securitisation*, where available;
- (c) the sum of the current principal balances of all *tranches*, bonds or subordinated loans of the *securitisation*, in GBP, using the exchange rates published on the website of the Bank of England for the previous *working day*;
- (d) the *securitisation* name;
- (e) whether the *securitisation* is an *ABCP transaction*, an *ABCP programme* or a non-*ABCP securitisation*;
- (f) whether the *securitisation* structure type is type 'M' for a Master Trust as reported in field SESS9 of *SECN* 11 Annex 14R or type 's' for all other *securitisations*;
- (g) whether the *securitisation* risk transfer method is 'T' for a true sale as reported in field IVSS11 of *SECN* 11 Annex 12R, 'S' for a *synthetic securitisation* as reported in field SESV11 of *SECN* 11 Annex 14R, or 'ABCP' for *ABCP transactions* or *ABCP programmes*;
- (h) the name and legal entity identifiers (LEI) of the *originator*, *sponsor* and *SSPE*;
- (i) the most recent interest payment date in ISO 8601 date format;
- (j) the timestamp, in ISO 8601 date and time (UTC) format, to the nearest second, of the most recent data submission received by the *securitisation repository* or, where there are multiple data submissions referenced against the same data cut-off date, the timestamps, in ISO 8601 date and time (UTC) format, of the earliest and most recent data submissions with the same data cut-off date;
- (k) the data cut-off date, in ISO 8601 date format, of the most recent data submission received by the *securitisation repository*;
- (l) the number of data submissions received by the *securitisation repository* that are referenced against the same

- data cut-off date set out in (k);
- (m) the data completeness score referred to in *SECN 9.5.3R* of the most recent data submission received by the *securitisation repository*;
  - (n) for non-ABCP *securitisations*, the country of establishment of the *originator* or *original lender*;
  - (o) for *ABCP transactions* or *ABCP programmes*, the country of establishment of the relevant *sponsor* of the *ABCP programme*;
  - (p) the country in which the majority of the underlying exposures is located, in terms of underlying exposure current principal balance; and
  - (q) the most prevalent type of the underlying exposures in the *securitisation*, in terms of current principal balance.
- (2) For the purposes of (n), where the *securitisation's* underlying exposures are a combination of exposures from multiple *originators* or *original lenders*, the country of establishment of the *originator* or *original lender* must be the country of establishment of the *originator* or *original lender* that has the largest amount of exposures in terms of current principal balance in the *securitisation*.
  - (3) *Securitisation repositories* must make the end-of-day report available in extensible markup language (XML) format.
  - (4) Timestamps referred to in *SECN 9.5.2R* must not diverge by more than 1 second from the UTC issued and maintained by one of the timing centres listed in the latest Bureau International des Poids et Mesures (BIPM) Annual Report on Time Activities.

#### Scoring of completeness of data

- 9.5.3 R *Securitisation repositories* must calculate a data completeness score for each data submission by using the scoring matrix set out in Table 1 of *SECN 9 Annex 3R* and the following inputs:

$$\text{Input 1} = \frac{\sum_i^N ND1}{N}$$

$$\text{Input 2} = \frac{\sum_i^N ND2 + \sum_i^N ND3 + \sum_i^N ND4}{N}$$

Where:

$$\sum_i^N NDx$$

denotes the total number of fields in a data submission containing the respective 'No Data Option' values that are reported in accordance with *SECN* 11.10.3R.

$N$  denotes the total number of fields in the data submission where any 'No Data Option' values (ND1 to ND4) are permitted to be reported in accordance with *SECN* 11.10.3R.

For the purposes of calculating the data completeness score, fields completed using the format 'ND4-YYYY-MM-DD' must be understood as 'ND4'.

#### Verification of completeness and consistency of information

- 9.5.4 R (1) *Securitisation repositories* must verify the completeness and consistency of information reported to them by verifying the following:
- (a) the name of the *reporting entity*, as reported in field IVSS4 of *SECN* 11 Annex 12R or in field IVAS3 of *SECN* 11 Annex 13R; and
  - (b) whether the submission item code, as reported in Table 3 of *SECN* 11 Annex 1R, is correct.
- (2) With regard to the information referred to in *SECN* 6.2.1R(1), *SECN* 6.2.1R(5), *SECN* 6.2.1R(6) and *SECN* 6.2.1R(7), *securitisation repositories* must also verify the completeness and consistency of information by:
- (a) verifying whether the information reported complies with the structure and format of the templates set out in *SECN* 12 Annex 2R to *SECN* 12 Annex 15R;
  - (b) comparing the information reported:
    - (i) across different fields for the same data cut-off date and the same underlying exposure, investor report, inside information or significant event information item;
    - (ii) across different underlying exposure, investor report, inside information or significant event information items for the same field and the same data cut-off date;
    - (iii) across the same underlying exposure, investor report, inside information or significant event information items for the same field and different data cut-off dates; and
    - (iv) across similar *securitisations*;

- (c) verifying whether the data cut-off date of the information reported and the timestamp of the submission comply with *SECN* 11.11; and
- (d) verifying that the ‘No Data Options’ set out in *SECN* 11.10.3R are only used where permitted and do not prevent the data submission from being sufficiently representative of the underlying exposures in the *securitisation*.

For *ABCP transactions* and *ABCP programmes*, references in (2) to ‘underlying exposures’ must be construed as references to ‘underlying exposure types’.

- (3) *Securitisation repositories* must verify the completeness and consistency of the documentation made available to them under *SECN* 6.2.1R(2) by requesting from *reporting entities* a written confirmation of the following:
  - (a) that all items referred to in Table 3 of *SECN* 11 Annex 1R and required to be made available pursuant to *SECN* 6.2.1R(2) have been provided to the *securitisation repository*; and
  - (b) that the documentation is consistent with the actual arrangements and features of the *securitisation*.
- (4) *Securitisation repositories* must request the written confirmation referred to in (3) within the following timeframes:
  - (a) within 5 *working days* of the first issuance of securities under the *securitisation* or, for *ABCP transactions* or *ABCP programmes*, within 5 *working days* of the first issuance of securities under the relevant *ABCP programme*;
  - (b) every 12 *months* from the dates of the requests referred to in (a); and
  - (c) within 5 *working days* of a new document being made available pursuant to *SECN* 6.2.1R(2).
- (5) A *securitisation repository* that has not received a written confirmation within 14 *days* of the date of any request referred to in (3) must request the *reporting entity* to provide it with the written confirmation within 14 *days*.
- (6) A *securitisation repository* must verify whether the *STS notification* referred to in *SECN* 6.2.1R(4), which has been made available to that *securitisation repository*, complies with the structure and format of the templates set out in *SECN* 2 Annex 4R, *SECN* 2 Annex 5R and *SECN* 2 Annex 6R.

- (7) A *securitisation repository* must reject a submission of information that is incomplete or inconsistent pursuant to (1), (2) and (5), except for (2)(b)(iii) and (2)(b)(iv). The *securitisation repository* must assign submissions rejected pursuant to this paragraph to one of the rejection categories set out in Table 2 of *SECN 9 Annex 3R*.
- (8) The *securitisation repository* must notify the entities referred to in *SECN 9.3* without undue delay of the following:
- (a) that the submitted information is incomplete or inconsistent pursuant to (2)(b)(iii) and (2)(b)(iv); and
  - (b) that the *securitisation repository* has not received the written confirmation referred to in (3).
- (9) Within 1 hour of the receipt of the information referred to in *SECN 6*, *securitisation repositories* must provide *reporting entities* with detailed feedback on the results of the verifications performed under (1), (2), (3) and (6), including any rejection category assigned pursuant to (7). That feedback must also include at least the following:
- (a) the unique identifier of the *securitisation* assigned in accordance with *SECN 11.12.1R*;
  - (b) the item code(s) referred to in Table 3 of *SECN 11 Annex 1R*; and
  - (c) the submission timestamp, in ISO 8601 date and time (UTC) format, to the nearest second, of the information reported.
- (10) By 19.00.00 UTC each Monday, *securitisation repositories* must produce a report on all information rejected by it since 19.00.00 UTC on the previous Monday. That report must include at least the following items:
- (a) the unique identifier of the *securitisation* assigned in accordance with *SECN 11.12.1R*;
  - (b) the *securitisation* name;
  - (c) the *ISIN* codes of the *tranches* or bonds or subordinated loans of the *securitisation*, where available;
  - (d) the name and LEI of the *originator*, *sponsor* and *SSPE*;
  - (e) the timestamp, in ISO 8601 date and time (UTC) format, to the nearest second, of the submitted information;
  - (f) the submission item code referred to in Table 3 of *SECN 11 Annex 1R*;

- (g) the rejection category referred to in Table 2 of *SECN 9 Annex 3R* and the specific circumstances for assigning that rejection category; and
- (h) any explanation(s) provided by the *reporting entity* before 17.00.00 UTC on the Monday of the report publication date as to why the reported information is incomplete or inconsistent, or as to why the written confirmation referred to in (3) has not been provided.

### 13.1 Application and purpose

- 13.1.1 G This chapter applies to *originators, sponsors, original lenders* and *SSPEs* which are not *PRA-authorised persons* and which are *established in the United Kingdom*.
- 13.1.2 G (1) Under regulation 5(6) of the *Securitisation Regulations 2024*, which was made under section 71N(4) of the Financial Services and Markets Act 2023, the *FCA* is able to dispense with, modify or reimpose (with or without modifications) requirements that have been imposed under the rule making power in regulation 5(1) of the *Securitisation Regulations 2024*, in such cases or circumstances as determined by the *FCA*.
- (2) This chapter sets out the cases or circumstances in which the *FCA* may dispense with, modify or reimpose requirements (with or without modifications) imposed by *rules*.

### 13.2 Cases in which rules can be dispensed with or modified

- 13.2.1 R (1) *Sponsors, originators, SSPEs* and *original lenders* subject to the *rules* set out in *SECN 5 to SECN 8* and *SECN 11 to SECN 14* may apply to the *FCA* for a decision that:
- (a) the *rule* is not to apply to that *person*;
  - (b) the *rule* is to apply to the *person* with modifications; or
  - (c) the *rule* that was previously dispensed with or modified under (a) or (b) is to be varied.
- (2) With the consent of the person subject to the *rule*, the *FCA* may dispense with, modify or reimpose (with or without modifications) any of the *rules* set out in *SECN 5 to SECN 8*.
- (3) A decision that dispenses with, modifies or reimposes (with or without modification) a *rule* following an application under (1) and via consent under (2) may be varied, or revoked by a further decision on the *FCA's* own initiative without the consent of the person subject to the *rule*.

### 13.3 Applications for dispensation or modification of rules

- 13.3.1 R The application in *SECN 13.2.1R(1)* must set out:
- (1) the *rules* which the applicant seeks a dispensation for; or

- (2) the modification of *rules* sought.
- 13.3.2 D (1) The application must be made in the manner and form made available by the *FCA* from time to time.
- (2) The application must be accompanied by such information or documents as reasonably required by the *FCA*.
- (3) The *FCA* may request further information and documents as it reasonably considers to be necessary to determine the application.
- 13.3.3 G Different forms or information may be required in relation to different applications, or categories of application.

#### **13.4 Decisions: written notices**

- 13.4.1 G A decision issued under *SECN* 13.2.1R will be in writing and will indicate:
- (1) in the case of an application, whether the application has been approved;
- (2) if an application has been refused, the reasons for the decision;
- (3) the date on which the decision takes effect and, if relevant, the date on which it expires; and
- (4) if relevant, any conditions to which the decision is subject.

#### **13.5 Publication**

- 13.5.1 R A decision issued under *SECN* 13.4.1G(1) may be published by the *FCA* in a way appearing to the *FCA* to be best calculated for bringing it to the attention of the *persons* likely to be affected by it.

### **14 Conversion of legislative requirements into rules**

#### **14.1 Application**

- 14.1.1 G (1) This chapter applies to *sponsors, original lenders, originators* and *SSPEs* which are not *PRA-authorised persons*, and which are *established in the United Kingdom*.
- (2) This chapter applies to *institutional investors* who are not *occupational pension schemes* or *PRA-authorised persons*.

#### **14.2 Conversion of requirements relating to pre-2019 securitisation**

- 14.2.1 R The due-diligence requirements as provided for in the *EU CRR* and *AIFMD level 2 regulation* respectively shall continue to apply as in the version applicable on 31 December 2018 as if they still had effect and were set out expressly here in respect of *securitisations* the securities of which were issued:

- (1) on or after 1 January 2011 but before 1 January 2019; and
  - (2) before 1 January 2011 where new underlying exposures have been added or substituted after 31 December 2014.
- 14.2.2 R (1) In respect of *securitisations* the securities of which were issued before 1 January 2019:
- (a) Article 405 of the *EU CRR* shall continue to apply as in the version applicable on 31 December 2018 as if it still had effect and was set out expressly here to an *FCA investment firm*.
  - (b) Article 51 of the *AIFMD level 2 regulation* shall continue to apply as in the version applicable on 31 December 2018 as if it still had effect and was set out expressly here to an AIFM (as defined in point (e) of the definition of an *institutional investor* in regulation 3(1) of the *Securitisation Regulations 2024*).
- (2) For the purposes of *SECN 14.2.2R(1)*, Article 405 of the *EU CRR* is to be read with the following modifications:
- (a) read paragraph 2 as if:
    - (i) for the first subparagraph there were substituted:
 

‘Where:

      - (a) a *mixed financial holding company*;
      - (b) a UK parent institution which is a credit institution;
      - (c) a financial holding company established in the United Kingdom; or
      - (d) a subsidiary of such a company or institution,

as an *originator* or *sponsor*, securitises exposures from one or more credit institutions, investment firms or other financial institutions which are included in the scope of supervision on a consolidated basis, the requirement set out in paragraph 1 may be satisfied on the basis of the consolidated situation of the *mixed financial holding company*, UK parent institution or financial holding company concerned.’;
    - (ii) in the second subparagraph for the words from ‘in a timely manner’ to the end there were substituted ‘the information needed to satisfy the requirements set out in Article 409, in a timely manner, to the originator or sponsor and, if the *originator* or *sponsor* is a

subsidiary, to the *mixed financial holding company*, UK parent institution or financial holding company which is the parent undertaking of the subsidiary'; and

(iii) after the second subparagraph there were inserted:

'In this paragraph, 'credit institution', 'financial holding company', 'financial institution', 'investment firm', 'subsidiary' and 'UK parent institution' have the meaning given in Article 4(1) of *EU CRR*';

and

(b) in paragraph 3, in point (b), ignore 'of Member States'.

- 14.2.3 R (1) For the purpose of *SECN* 14.2, in the case of *securitisations* which do not involve the issuance of securities, any references to '*securitisations* the securities of which were issued' shall be deemed to mean '*securitisations* the initial *securitisation positions* of which are created'.
- (2) When applying *SECN* 14.2 to *securitisations* which do not involve the issuance of securities, any references in *SECN* 14.2 to '*securitisations* the securities of which were issued before 1 January 2019' shall be deemed to mean '*securitisations* the initial *securitisation positions* of which are created before 1 January 2019' such that the *Securitisation Regulation* as it had effect on 31 October 2024 applies to any *securitisations* that create new securitisation positions on or after 1 January 2019 and before 1 November 2024.

### 14.3 Conversion of requirements relating to pre-revocation securitisations

- 14.3.1 R (1) In relation to pre-revocation *securitisations*, the following provisions as they applied immediately before their revocation on 31 October 2024 shall continue to apply as if they still had effect and were set out expressly here:
- (a) Articles 5, 6 (excluding paragraph 7), 7 (excluding paragraph 3 and 4), 8 (excluding paragraphs 2, 3 and 5), 9, 43(5) and 43(6) (together with relevant terms defined in Article 2) of the *Securitisation Regulation*;

- (c) Commission Delegated Regulation (EU) 2020/1224; and
- (d) Commission Implementing Regulation (EU) 2020/1225.
- (2) The provisions referred to in *SECN* 14.3.1R(1)(a) are to be read as follows:

- (a) in paragraph 5 of Article 5, as if the references to ‘*institutional investor*’ did not include an AIFM (as defined in Article 2) unless the AIFM falls within point (e) of the definition of an *institutional investor* in regulation 3(1) of the *Securitisation Regulations 2024*; and
  - (b) in sub-paragraph (b) of Article 8(1), as if it read ‘any securitisation in respect of which the *FCA* has disapplied, modified or dispensed with the first sub-paragraph such that the underlying exposures can include securitisation positions’.
- (3) In this chapter, ‘pre-revocation *securitisations*’ means:
- (a) *securitisations* the securities of which were issued on or after 1 January 2019 and before 1 November 2024; or
  - (b) *securitisations* in relation to which the following conditions are met:
    - (i) the *securitisations* do not involve the issue of securities;
