LOS ANGELES COMMUNITY COLLEGE DISTRICT
BOARD RULES, CHAPTER VII, ARTICLE VII
RECORDS

7700. REQUEST TO INSPECT PUBLIC RECORDS.

7700.10 A request to inspect public records may be written or oral and may be delivered by mail or in person to the administrator in charge of the office where the record is maintained;

7700.11 A request to inspect public records shall identify with reasonable particularity the records in question. If it is unclear what record is requested or if additional specification is needed, the administrator in charge may require a written description of the record;

7700.12 A request to inspect public records shall be made sufficiently in advance of the date of inspection so as to permit the District or college administrators to assemble the records and identify any records that may be exempt from disclosure.

7701. TIME AND PLACE FOR INSPECTION.

The college or District administration will determine a reasonable time and place for the inspection of public records and shall advise the person who wished to inspect the public records of such time and place.

7702. REQUESTS TO COPY PUBLIC RECORDS.

A request to copy a public record shall be made in the same way as identified above for inspection of public records. The college or District administration's reply thereto shall be made within ten working days after the receipt of such a request and shall state whether the request seeks copies of disclosable public records in the possession of the college or District. The ten-day time limit may be extended for no more than fourteen working days because of unusual circumstances. A list of conditions which constitute "unusual circumstances" is contained in section 6253(c) of the

Government Code. After the reply is sent, the college or District has a reasonable period of time to produce the disclosable public records to the requesting party.

The Chancellor or designee shall notify the requestor in writing of the reasons for the extension and the date on which a determination is expected to be dispatched.

7702.10 Duplication Costs to Copy Written Materials.

Once the college or District administration has located the disclosable public records which will be produced pursuant to a public records request, the administration shall notify the requesting party that the documents are ready and will be provided upon payment of the costs associated with duplicating the records, which is 25 cents for the first page and 10 cents for each additional page of any public record or \$1.00 per CD where staff determines that multiple documents may be provided in that form for efficiency. The District shall not be required to expend staff time for conversion of documents to electronic format. This fee is deemed sufficient to reimburse the District for the direct costs of duplication. The actual charge of postage shall also be added for any required mailing.

7702.11 Requests to Copy Tape Recorded Materials.

A request to copy tape recordings shall be accompanied by an advance fee equal to the estimated staff time necessary to copy the tape. If a tape is not furnished, the actual cost of the tape shall also be assessed. If an advance fee is not included with the request, the District or college administration shall notify the requesting party of the estimated fees associated with producing the tape prior to providing the tape to the requesting party. Any unused portions of the fee shall be returned to party making the request.

7702.12 Reports.

For copies of reports or other published materials available for distribution from stock, the charge, which

represents the actual cost of reproducing these records, shall be:

\$1.50 for each copy of a report not exceeding twelve (12) pages.

\$2.50 for each copy of a report containing thirteen (13) to fifty (50) pages.

\$5.00 for each copy of a report containing fifty (50) pages to one hundred (100) pages.

\$10.00 for each copy of a report containing more than one hundred (100) pages.

7702.13 More than Twenty Copies.

If more than twenty (20) copies of any one report are ordered at one time, a price may be determined independent of the rates listed above but the total charge shall not exceed the actual cost incurred by the District for reproduction services.

7702.14 Plans and Specifications.

Copies of plans and specifications involving college facilities may also be provided under the above authority as follows:

- a. Copies of specifications may be furnished as indicated for published materials in Sections 7702.12 and 7702.13.
- b. Copies of plans may be furnished at the actual reproduction cost for such plans.

7702.15 Any fees collected for duplicating records under this Article shall be received, accounted for and deposited in accordance with established District procedures.

7702.16 The college or District administration shall not be required to generate information that does not exist in

an existing public record nor create a record that does not exist.

7702.17 The charges referred to above do not apply to published reports prepared expressly for the purpose of informing the residents of the District about its operation and activities. Such reports shall be distributed at no cost on request as long as a supply exists.

These charges also do not apply to those items, such as transcripts, for which a statutory fee has been designated.

7702.18 Nothing in these provisions shall be considered to supersede or be in conflict with provisions of collective bargaining contracts that address employee organization access to public records.

7703. ACCESS TO PUBLIC RECORDS IN ELECTRONIC FORMAT.

If a District record, which constitutes a public record not exempt from disclosure under the Public Records Act, is available in electronic format, it shall be provided upon request in the electronic format in accordance with this Board Rule. District staff may inform requesting parties that records are available in electronic format and give them the option to receive information in electronic format. Under no circumstances shall the District make records exclusively available in electronic format.

7703.10 The District shall only be required to make the public record available in the electronic format in which it holds the record.

7703.11 The District shall only be required to make the public record available in the electronic form the District uses to create copies for its own use or for provisions to other agencies.

7703.12 The District shall not be required to reconstruct a record in an electronic format if the District no longer has the record available in this format.

7703.13 The District shall not be required to release an electronic record in the electronic form in which it is held if its release would jeopardize or compromise the security or integrity of the original record or any proprietary software in which it is maintained.

7703.14 The District shall not be required to permit public access to District records when prohibited by law.

7704. COSTS FOR PRODUCING A PUBLIC RECORD IN ELECTRONIC FORMAT.

Upon receipt of the applicable fee, the District shall produce a copy of the public record in electronic format. As a general rule, the cost of duplication shall be limited to the direct cost of producing a copy of the public record in electronic format. The requesting party shall be responsible for the entire costs of producing a copy of a record, including the cost to construct a record, and the cost of programming and computer services necessary to produce a copy of the record when either of the following applies:

- a. In order to comply with the Public Records Act, the District would be required to produce a copy of an electronic record that is produced only at an otherwise regularly scheduled interval.
- b. The request requires data compilation, extraction or programming to produce the record.

Under these circumstances, the District shall inform the requesting party in writing that special charges will be incurred in order to produce the public record, provide an estimate of the costs and require advanced payment of these costs prior to producing the record. The District will be responsible for returning any unused portions of the advanced fee.

7705. RECORDS EXEMPT FROM PUBLIC DISCLOSURE.

Records that are exempt from public disclosure may not be inspected and/or copied. Examples of records that are exempt from public disclosure are preliminary drafts, records pertaining to litigation and legal advice, personnel or medical files (the disclosure of which would amount to an unwarranted invasion of privacy), test questions and information provided by the District on a confidential basis. Some of the records exempt from public inspection are set forth in sections 6253.5, 6254, and 6254.3 of the Government Code.

The original of each of the following Records, or one exact copy thereof when the original is required by law to be filed with another agency, is a Class 1 (Permanent) Record and shall be retained indefinitely unless copied or reproduced in accordance with Title 5, California Code of Regulations, section 59022(e).
