Message from the Editors-in- Chief

Metallic materials play a vital role in the economic life of modern societies; contributions are sought on fresh developments that enhance our understanding of the fundamental aspects related to the relationships between processing, properties and microstructure—disciplines in the metallurgical field ranging from processing, mechanical behavior, phase transitions and microstructural evolution, nanostructures, as well as unique metallic properties – inspire general and scholarly interest among the scientific community.

Editors-in-Chief

Prof. Dr. Hugo F. Lopez
Prof. Dr. Yong Zhang

Aims

Metals (ISSN 2075-4701) is an open access journal of related scientific research and technology development. It publishes reviews, regular research papers (articles) and short communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. Therefore, there is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced.

Metals provides a forum for publishing papers which advance the in-depth understanding of the relationship between processing, structure, and properties or functions of all kinds of metals.

Scope

- metallurgy
- alloys
- base metals (include iron, nickel, lead and zinc)
- ferrous and non-ferrous metals
- noble metals (include tantalum, gold, platinum, silver and rhodium)
- precious metals
- transition metals
- metalloids
- semi-metals
- metal compounds
- cermets
- biometals
- metallicity
- rare metals
- synthetic metals
- applications of metals
- trade of metals

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2023 Impact Factor 2.6

(*Journal Citation Reports* - Clarivate, 2024)

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures, or use of colors

Journal Rank

JCR - Q2 (*Metallurgy and Metallurgical Engineering*) / CiteScore - Q1 (Metals and Alloys)

Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases

Rapid Publication

A first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2024)
