**Subject:** Re: ROC LTO - Spring-run tables

The headers on Trinity do not match Shasta?

On Thu, Apr 18, 2019 at 2:48 PM Brian Ellrott - NOAA Federal <[brian.ellrott@noaa.gov](mailto:brian.ellrott@noaa.gov)> wrote:

Hi Norma,

Same drill as yesterday, but now with the attached critical habitat tables. Please combine into one table that goes top to bottom: Shasta, Trinity, then Delta.

Please save the file name as "Spring-run critical habitat integration and synthesis effects summary table" and put it in that same Spring-run Tables folder as yesterday.

Also, send it to me and Kristin, since she may need it and doesn't have access to the server.

Thanks,  
Brian

Hi Norma,

Please combine the attached spring-run tables into one table in a standalone MS word document? The top to bottom order should be Shasta, Trinity, Delta, Stanislaus, San Joaquin.

Division Leads,

Please make sure any revisions you already made, but are not reflected in the attached versions, or plan to make later on get incorporated into the combined table which will be in the I&S draft. Let me know if you have revisions to make.

(fyi, all the tables are saved here: R:\Draft BiOp\2\_ESA\2.8-2.9 Integration and Synthesis and Conclusion\Spring-run Tables)

Thanks,  
Brian
