Subject: Re: plots like Noble's

Updated plots attached. I can explain the error. Had to do with Calsim and HEC-5Q having different start dates. It should have only affected temperature, but I'm still seeing some differences with flow plots.

Hi Eric,

Just for records, In the attached folder are plots made to look like Noble's, data used to make plots, and code.

I'll check with Sara and let you know what we find out.
