Nature and Us

 Help preserve nature. Leave flowers and plants where they are and respect wild animals and their habitats. The animals in our mountains need certain quiet zones – not just to raise their young but also to conserve their precious energy resources. That said, please stay on marked paths!

 Appropriate interaction with grazing livestock: The alpine pastures are not a petting zoo – avoid direct contact with livestock and do not feed the animals. Remain calm, give them a wide berth, and cross pastures quickly. Keep your dog leashed and only release it if an attack seems imminent. Always close gates behind you after passing through.

 Keep our environment clean. If you bring drink bottles or snack bags on your hike, don't just toss them away. The same goes for tissues, banana peels, and other trash. Some materials take thousands of years to decompose fully. At the same time, they pose dangers to animals and groundwater.

 Be aware that our hiking trails mostly run through private property and often through agricultural and forestry lands. So, please be considerate of essential farming activities and always act responsibly.

THANK YOU!

Wonderfully Hikeable.

Friedenskircherl

Gröbming

The Peace Chapel was chosen to the "The Most Beautiful Place in Austria" in 2022 in the ORF TV show "9 Plätze – 9 Schätze". Like an eagle's nest, this small chapel clinks to the rocks of the Stoderzinken and treats you to an awesome view of Ennstal below. In 1902, this symbol of peace was built by Emil Ritter von Horstig: open to all confessions, true to the ideal of bringing people together – no matter who they are or what they believe. Local folk poet Peter Rosegger also praised this place: "What should I write in these mountains filled with sunshine? I can only remain silent and feel blessed."

Old Ruins & Ancient Walls

Wolkenstein Castle Ruins in Wörschach

Former seat of princely rule and justice in Ennstal. Mining began at the beginning of the 12th cent. – the remains of the walls give us a clear sense of what the original fortress looked like. Reachable in about 15 min via a hiking trail from the gorge car park.

Neuhaus Church Ruins in Trautenfels

Not far from Schloss Trautenfels (ca. 10 min walk), you will discover remnants of a Protestant house of worship from 1575, destroyed barely 24 years later during the Counter Reformation.

St. Giles' Church in Donnersbach

On the toll-free mountain road leading up to the Planneralm, it is worth making a stop to see these church ruins. The walls which are still visible are from a Romanesque church from the first half of the 12th century.

Town Gate in Schladming

Next to the Catholic church stands the last remaining gate of the former town walls. Opposite the elementary school and in Berggasse, you will find remnants of the defensive wall which was expanded in 1629.

Glattjoch Chapel in Donnersbachwald

A roughly 3-hour hike will bring you to the highest sacred building in Styria at 1989 m above sea level. The corbel-vault construction is the only example of its kind in Central Europe, believed to have been constructed in the 9th – 10th century.

Exhibited in the narrow galleries are relics of mining history. Ladders will bring you to the higher tiers of the tunnel system.
