Sheppard Mullin, Bernstein Private Wealth Management and Health Management Associates will host an evening of contemporary art, craft cocktails and delicious hors d'oeuvres in conjunction with the **2024 JP Morgan Healthcare Conference**.

Attendees will enjoy an exclusive look at the latest exhibition by Ana Leovy, a Mexican artist who mainly works with oils, color pencils and gouache. Ana is passionate about celebrating diversity through her work, weaving stories through shapes and colors, inspired by feelings, dreams and everyday life. Ana's art intends to represent strong, confident characters living in vibrant worlds which are often a fusion between real life and her imagination. She plays with the disruption of the human form to reveal her view on both internal and external beauty.
