

Integrated Enterprise Management System

Calling for Expressions of Interest

SPREP is calling for Expressions of Interest (EOI) from suitably capable vendors for the supply and implementation of an integrated Business System. SPREP's preference is for an integrated system, however SPREP is open to and welcomes responses from highly capable "best of breed" Financial Management Information Systems (FMIS) and Human Resources Information Systems (HRIS) solutions. To facilitate extensive market coverage, the capability that SPREP is seeking is covered in two EOIs – one for a FMIS and another for a HRIS. Respondents can respond to both or one EOI.
