Sunrise Systems to implement the Online Financial Disclosure Statement Filing System for State of New Jersey Department of Community Affairs – Local Government Services unit.

Metuchen, NJ (January, 2015) – Sunrise Systems, Inc. a leading edge IT Services and Solutions provider is working with State of New Jersey Department of Community Affairs (DCA) – Local Government Services (LGS) unit for the implementation of the Online Financial Disclosure Statement filing system (FDS system).

The system had a successful pilot launch in April,2014; the end users found the system to be user friendly and efficient.

The FDS System will be in use by nearly 40,000 Elected and Appointed Local Government Officials (LGOs) from nearly 900 Local Government Entities. The LGOs will utilize the system to electronically file the Annual Financial Disclosure Statement as required by J.J.S.A.40A:9-22.1 et seq.,.

Sunrise will work with DCA and nearly 900 Local Government Entities for the training and implementation of the system.

"The entire Sunrise team is excited to work with New Jersey's State and Local government agencies in bringing this user-friendly online system to streamline the annual filing of the Financial Disclosure Statement by our local government officials. The benefits of the system include speed, efficiency, increased transparency, cost savings and going green as it eliminates filing of paper form" said Noorali Sonawalla, president of Sunrise Systems, Inc.
