Sunrise Systems to work with NJDARM and County of Monmouth for the implementation of Records Retention and Disposition Management System

Metuchen, NJ (July, 2007) – Sunrise Systems, Inc. a leading edge IT consulting and software development services provider will be working with the State of New Jersey Division of Archives and Records Management (NJDARM) and County of Monmouth for the implementation of Records Retention and Disposition Management system.

The purpose of this system is to enable State and Local agencies to integrate their respective records management and records disposition work flow through standards based system. The goal is to enable local agencies, twenty one (21) counties and five hundred and sixty six (566) Municipalities in New Jersey, to lookup and download NJDARM published Records Retention schedules with a click of a button; as well as manage records disposition process with NJDARM through electronic submissions and approvals, leading to an eventual obsolescence of the current paper driven process.

"Sunrise is privileged to work with NJDARM and County of Monmouth to help streamline records management processes for State and Local agencies while providing significant data integrity, reporting, and other value added services through this system" said Noorali Sonawalla, president of Sunrise Systems, Inc.
