

Tobacco and E-Cigarette Policy

Trinity is a tobacco free campus with three designated smoking areas as per the map in figure 1. The policy follows a campaign that engaged students, staff, sports clubs and societies in highlighting the benefits of limiting smoking while successfully introducing tobacco free zones. This effected an 83% reduction in frequency of observed smoking in the Zones and 100% compliance when those smoking in the Zones were politely informed of the Policy.

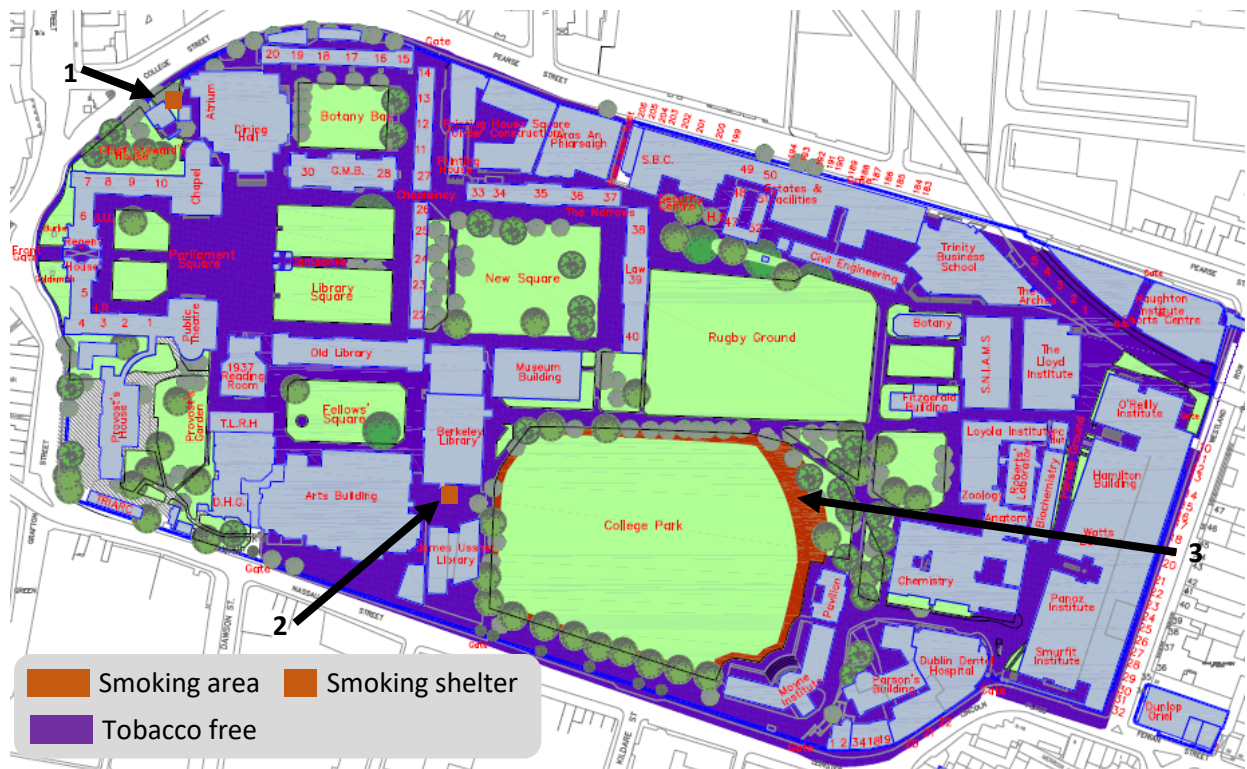

Figure 1: Tobacco free campus shown in purple. Designated smoking areas in brown.

The policy is supported by a positive campaign to highlight the benefits of limiting tobacco use. Compliance with the policy outdoors is requested of students, staff and visitors by Healthy Trinity Ambassadors. Compliance with the policy indoors is required by law.

E-cigarettes

In line with the prohibition of combustible cigarettes in all indoor areas, the use of e-cigarette indoors is also prohibited.
