

Sign Products Catalog

UNICOR Sign and Decal Catalog: An Easy Reference

The UNICOR Sign Catalog has been updated and reorganized to provide you with the information needed to order signs quickly, accurately, and in most cases, without assistance.

Take a moment to look through the catalog before you order. You'll notice several things we've done to help you:

- New condensed format makes the revised catalog easy to use
- Sections color-coded for fast reference
- Relevant regulatory information included to assist you
- An index on page 45 will locate any sign you need

Professional Affiliations

UNICOR is a member of the Screen Printing Association International (SPAI), the international organization for the screen printing industry. Its membership includes commercial printers, supplier companies, non-profit agencies and organizations, and schools.

UNICOR is also a founding member of the Screen Printing Technical Foundation (SPTF). This research and educational foundation is designed to advance screen printing by promoting industry standards and specifications, and to enhance educational efforts.

Product Warranty

UNICOR, Federal Prison Industries, Inc., warrants its products to be free from defective materials and workmanship, however, this warranty does not exceed vendor material product warranties. If the materials and workmanship in our products do not meet contract specifications, please notify the Customer Service Group immediately. We stand behind our products and your satisfaction is our ultimate goal.

About UNICOR

UNICOR is the trade name for Federal Prison Industries, Inc., a wholly-owned Government corporation established in 1934 as part of the Federal Prison System. Since its beginning, UNICOR has been a unique corporation. While its primary mission is to train, educate and employ inmates, the benefits to you are high quality products and services at competitive prices.

UNICOR sells to Federal Government departments and agencies, such as DOD, GSA, VA, and the U.S. Postal Service. Procurement regulations and procedures for departments and agencies of the U.S. Government are in the Federal Acquisition Regulations, Subpart 8.6.

For catalogs and other information on UNICOR products and services, contact Customer Service at (800) 827-3168 or visit www.unicor.gov.

UNICOR – Your Number One Source for Signs

We make ordering signs as easy as possible. Professional staff to assist you. With one quick call, you will reach one of our efficient staff who will promptly answer any questions you may have and help with your sign order.

- Custom orders are a large part of our business. We're happy to manufacture just what you need.
- Quick and easy order processing – send or Fax (859-254-9048) your order and in 30 - 45 days you'll receive your signs.
- Customer service – To check the status of your order, call our Customer Service line toll free at (800) 827-3168.
- Signs meet the exacting standards of MUTCD and OSHA.

Ordering Information

How to Order from the UNICOR Catalog

This catalog takes you step-by-step through the ordering process. Your order will be quickly processed and your standard signs will arrive approximately 30 days after the acceptance of your order. Custom signs take 30 - 45 days.

To Order:

1. Turn to the color-coded section for the type of sign you need.
2. Look for the picture of the sign you need.
3. Enter the following information on your order form:
 - Size
 - Stock number or MUTCD number
 - Type of sheeting and substrate
 - Quantity of signs
 - Per unit price (Prices are in accompanying price list and are FOB origin.)
 - Your name and telephone number
4. For a quote on custom signs, use the quotation form on page 42.
5. If you have technical questions about ordering signage, call (800) 827-3168.
6. Send the purchase order form required by your agency to:
UNICOR Customer Service Center
P.O. Box 13640
Lexington, KY 40583-3640
Fax (859) 254-9048
7. Colors of signs in this catalog may vary from those of actual signs.
8. Information about UNICOR's waiver policy is available upon request.
9. **If you have any questions about your order or the ordering process, call (800) 827-3168.**

Terms and Conditions

1. Prices are FOB origin.
2. Payment terms are Net 30.
3. For a fee, shop drawings can be provided upon request.
4. Shipment will be made by the most economical means unless an alternative method of shipping is specified by the customer.
5. Sign legends shall comply with those pictured in this catalog. Other legends are available as custom signs.
6. Agency Location Code (ALC) for SIBAC/OPAC billing must be included on your order if appropriate.

Selecting Substrate and Sheeting for Signs

- Substrate - the type of material used for the basic sign.
- Sheeting - the face of the sign that is affixed to the substrate.

Types of Substrate and Their Uses

Aluminum - Aluminum is the substrate most frequently used for signs, particularly traffic signs, because it is durable, lightweight, and rustproof.

Plywood - High density overlay (HDO) plywood is most frequently used in parks and forest because of its aesthetic compatibility with rustic settings.

Plastic - Plastic is normally used for interior signs and some smaller signs. Usually ordered as non-reflective, plastic signs can also be ordered with reflective sheeting.

Magnetic - Magnetic signs are used where easy removal from steel surfaces is necessary. They can have messages on both sides.

Fiberglass - Fiberglass is frequently used for outdoor signs. It absorbs impact without splintering or shattering and is very durable.

Cardboard - Cardboard is used for posters, which have a short life unless mounted or framed.

Types of Sheeting and Their Uses

Some type of sheeting is required for a sign to be reflective. For example, most traffic signs and some danger and warning signs are required to be reflective by the Manual on Uniform Traffic Control Devices (MUTCD) and OSHA.

Non-Reflective - used most effectively during daylight hours for signs that do not have to be read at night or in darkened rooms.

Engineer-Grade Retro-Reflective - the industry standard sheeting used on most reflective signs. Highly reflective for signs that must be ready at night or in darkened rooms.

High-Intensity Retro-Reflective - normally used on signs when additional reflectivity is needed, such as in areas where vehicles are traveling at high speeds.

Phosphorescent - can be custom-ordered for any sign in this catalog. Its ability to absorb light for long periods of time makes it a primary sheeting for signs that need to be readable for a time after a light source has failed.

Special Adhesives for Sheeting

Reflective and non-reflective sign faces are produced with pressure-sensitive adhesive. Other adhesives can be used upon special request at custom sign prices.

Prepositionable Adhesive - Allows adjustment of the position of the sheeting, simply apply pressure over its surface to affix it.

Cold Weather Adhesive - Allows application of sheeting in cold weather.

Removable Adhesive - Allows temporary use of sheeting. Can be easily removed when no longer needed.

Tamper-proof Adhesive - Destroys the sheeting if removal is attempted.

Pressure Sensitive - Affixes on first pressure and should never be repositioned.

Heat-Activated - Must be applied using a vacuum heat applicator.

17	Guide Signs
20	School Signs
21	Barricade Signs & Delineators

Traffic Control Devices: Regulatory Signs

The traffic control devices in the UNICOR sign catalog meet the requirements of the Manual on Uniform Traffic Control Devices (MUTCD). If there is no MUTCD number listed, the sign is not MUTCD approved. An **H.A.** indicates **High Intensity Retro-Reflective Sheeting on Aluminum Panel**. **R.A.** indicates **Engineer Grade Retro-Reflective Sheeting on Aluminum Panel**. All traffic sign prices are based on .080 gauge H38,5052 aluminum.

UNICOR offers an extensive selection of traffic control signs:

- **Regulatory Signs–**
A full selection of traffic control signs
- **Warning Signs–**
Indicate road conditions and hazards
- **Construction Signs–**
Inform of conditions that may impede travel
- **Guide Signs–**
Alert travelers to facilities along the roadway and provide directions
- **School Signs–**
Govern the flow of foot and vehicle traffic in and around school areas
- **Barricade Signs–**
Indicate the presence of barriers to traffic on or along the roadway and indicate the direction the traffic should flow
- **Delineator Signs–**
Object markers for roadways

Selection of traffic control devices is affected by engineering studies, MUTCD regulations, and variable conditions such as visibility and area. Specific sheeting and substrate vary depending on your needs.

Recreational Symbols

UNICOR offers a broad selection of recreation signs. Symbols appear in white on a brown background, and are available on:

- Aluminum with reflective or non-reflective surface
- .125 inch fiberglass or plastic with reflective or non-reflective finish
- Pressure-sensitive decals with either reflective or non-reflective finish
- Various substrates, such as HDO plywood, Lexan™ and plexiglass.

How to Order:

When ordering, you must:

1. Select the size.
2. Select the finish you want and add both to the stock number.
3. If you want a prohibitive slash and/or legend information, please add to stock number by using indicated symbols.
4. Pricing is contained in a separate price list that accompanies this catalog.

1. Choose the size of your recreation sign.

Recreation symbols are available in a variety of sizes.

Standard Signs

- 6" x 6" ■ 18" x 18"
- 8" x 8" ■ 24" x 24"
- 12" x 12"

Custom Signs with One-Line Legend:

- 6" x 8.5" ■ 18" x 24"
- 8" x 10.5" ■ 18" x 28.5"
- 12" x 16" ■ 24" x 28.5"
- 12" x 18.5"

Custom Signs with Two-Line Legend:

- 24" x 32"

Custom Signs with Three-Line Legend

- 24" x 36"

2. Choose the finish of your sign.

Recreation signs are all available in the following finishes. Use these codes after the stock number to specify your choice of finish when ordering.

RA = Retro-Reflective Sheeting on Aluminum Panel

NA = Non-Reflective Aluminum

RF = Reflective Fiberglass

NF = Non-Reflective Fiberglass

3. Do you want a prohibitive red slash and/or accompanying legend?

Some signs in this section are marked by a ★ to indicate that they may be ordered with an accompanying legend, with a prohibiting red slash, or both. Indicate after the symbol number is you wish to include one or more of these on your recreation sign:

X = Prohibitive slash (Add \$1.00 per sign)

L = Legend (See example 3 below)

XL = Prohibitive slash and accompanying legend (see Example 4 below)

<p>Example 1: 8" x 8" in Reflective Aluminum</p>  <p>RS-001-8x8RA</p>	<p>Example 2: 18" x 18" in Reflective Fiberglass</p>  <p>RS-003-18x8RF</p>
<p>Example 3: 12" x 16" in Non-Reflective Aluminum</p>  <p>NO SMOKING</p> <p>RS-002-L-12x16"</p>	<p>Example 4: 124" x 28.5" in Non-Reflective Fiberglass</p>  <p>NO TRUCKS</p> <p>RS-004-XL-24x28.5NF</p>

Safety Signs

Safety Signs

UNICOR offers a large selection of safety signs that meet the Occupational Safety and Health Administration (OSHA) regulations (Code of Federal Regulations, Title 29, Part 1910). Safety signs are intended “to indicate and, insofar as possible, to define specific hazards of a nature such that failure to designate them may lead to accidental injury to workers or the public, or both, or to property damage.” (OSHA, 1910.145, “Specifications for accident prevention signs and tags.”)

Safety in the workplace is crucial, and it is everyone’s concern and everyone’s responsibility. Because the regulations regarding the design, application, and use of signs and symbols for accident prevention are specific, we have provided sample regulations with the signs to which they refer. For more complete information, refer to the OSHA and EPA regulations.

Most UNICOR safety signs are available in phosphorescent material by custom order.

In addition, we can fabricate safety signs for you with any legend you need appearing beneath “WARNING,” “CAUTION,” “SAFETY FIRST,” “NOTICE,” or “DANGER.”

If these signs are new to you, take a few minutes to familiarize yourself with them. Typical colors, uses, and legends are shown in the following paragraphs. The signs appear on pages 30 to 39. Pricing information is provided in the accompanying price list.

Types of Safety Signs

■ Danger Signs

“DANGER” signs warn industrial workers and the public of imminent hazards. They also indicate immediate danger and warn that special precautions should be taken.

■ Caution Signs

“CAUTION” signs are only used to warn against potential hazards or to caution against unsafe practices in which proper precautions should be taken.

■ Hazardous Material Warning Placards

Hazardous materials placards indicate the presence

of certain classes of hazardous materials. Chemical hazards must be marked so that in case of emergency they can be identified. The information on placards is for general guidance only and must not be used to determine compliance with 49 CFR, Parts 100-199.

“Employers must train employees to recognize and deal with hazardous materials. This placard provides a quick reference to the level and type of hazard present.”

■ Safety First Signs

Also called “Safety Instruction Signs,” these signs are used whenever there is a need for general instructions and suggestions relative to safety measures.

■ Notice Signs

“NOTICE” signs provide information that prevents confusion and misunderstanding.

■ Radiation Hazard

Radiation hazard placards and decals identify areas where radiation is present. “Each radiation area shall be conspicuously posted with a sign or signs bearing the radiation symbol...and the words:

CAUTION
RADIATION AREA

The text may vary in an area of greater risk, as in “HIGH RADIATION AREA” (1910.96 (e)(2)). The magenta or purple color of the radiation hazard symbol is unique to this type of placard or decal.”

■ Fire Protection Markers

Fire protection markers indicate the location of fire equipment, exits, and fire escapes. “Red is the basic color for the identification of fire equipment and apparatus.” (1910.144 (a)(1)(i))

Fire exit markers point the way to safe exits to be used in case of a fire, as well as identifying the exits themselves. Where possibility of error exists in identifying an exit, it is sometimes necessary to identify non-exits to avoid confusion.

Fire equipment signs point out the location of fire fighting equipment such as fire hoses and fire extinguishers.

Fire protection markers are also available by custom order in phosphorescent material.

Applicable OSHA Regulations

■ Hazardous Material Warning Signs

1910.107 (g)(7) “No Smoking” signs. “No smoking” signs in large letters on contrasting color background shall be conspicuously posted at all spraying areas and paint storage rooms.

1910.1003 (e)(1)(iii) Appropriate signs and instructions shall be posted at the entrance to, and exit from, regulated areas, informing employees of the procedures that must be followed in entering and leaving a regulated area.

1919.1003 (e)(4) Prohibited statements. No statement shall appear on or near any required sign, label, or instruction which contradicts or detracts from the effect of any required warning, information or instruction.

1919.160 (b)(5) The employer shall post hazard warning or caution signs at the entrance to, and inside of, areas protected by fixed extinguishing systems which use agents in concentrations known to be hazardous to employee safety and health.

■ Danger, Caution and Safety Instruction Signs

1910.145 (c) Classification of signs according to use—(1) Danger signs. (i) There shall be no variation in the type of design of signs posted to warn of specific dangers and radiation hazards.

1910.145 (c)(2) Caution signs. (i) Caution signs shall be used only to warn against potential hazards or to caution against unsafe practices.

1910.145 (c)(2)(ii) All employees shall be instructed that caution signs indicate a possible hazard against which proper precaution should be taken.

1910.145 (c)(3) Safety instruction signs. Safety instruction signs shall be used where there is a need for general instructions and suggestions relative to safety measures.

1910.145 (d)(2) Danger signs. (i) The colors red, black and white shall be those of opaque glossy samples as specified in Table 1 of Fundamental Specification of Safety Colors for CIE Standard Source C, American National Standard Z53.1-1967.

1910.145 (d)(4) Caution signs. (i) Standard color of the

background shall be yellow; and the panel, black with yellow letters. Any letters used against the yellow background shall be black. The colors shall be those of opaque glossy samples as specified in Table 1 of American National Standard Z53.1-1967.

1910.145 (d)(6) Safety instruction signs. (i) Standard color of the background shall be white; and the panel, green with white letters. Any letters used against the white background shall be black. The colors shall be those of opaque glossy samples as specified in Table 1 of American National Standard, Z53.1-1967.

1910.145 (d)(10) Slow moving vehicle emblem. This emblem consists of a fluorescent yellow-orange triangle with a dark red reflective border. The yellow-orange fluorescent triangle is a highly visible color for daylight exposure.

1910.145 (e)(2) Nature of wording. The wording of any sign should be easily read and concise. The sign should contain sufficient information to be easily understood. The wording should make a positive, rather than negative suggestion and should be accurate in fact.

1910.145 (e)(4) Biological hazard signs. The biological hazard warning shall be used to signify the actual or potential presence of a biohazard and to identify equipment, containers, rooms, materials, experimental animals or combinations thereof...

■ Fire Exit Markers

1910.36 (b)(5) Any doorway or passageway not constituting an exit or way to reach an exit, but of such a character as to be subject to being mistaken for an exit, shall be so arranged or marked as to minimize its possible confusion with an exit...

1910.37 (q) Exit marking. (1) Exits shall be marked by a readily visible sign.

1910.37 (q)(5) A sign reading “Exit,” or similar designation, with an arrow indicating the directions, shall be placed in every location where the direction of travel to reach the nearest exit is not immediately apparent.

1910.37 (q)(8) Every exit sign shall have the word “Exit” in plainly legible letters not less than 6 inches high, with the principal strokes of letters not less than three-fourths-inch wide.

Safety Signs: "DANGER"

Danger signs are available with any message you want. Shown below are some of the most frequently ordered signs. If you need a special message, UNICOR will design it for you. To order a custom danger sign, simply order the sign DGR-1 in the size and material you want and specify your message.

Safety Signs: Hazardous Material Warning Placards

	Stock NO.	Class	Description		Stock NO.	Class	Description
	HAZ-P-1	CLASS 1	Explosives *Enter Division Number 1.1, 1.2, or 1.3 and compatibility group letter, when required. Placard any quantity.		HAZ-P-8	CLASS 2	Poison Gas Placard any quantity of Division 2.3 material.
	HAZ-P-2	CLASS 1	Explosives 1.4 *Enter compatibility group letter, when required. Placard 454 kg (1,001 lbs) or more.		HAZ-P-9	CLASS 3	Flammable Placard 454 kg (1,001 lbs) or more.
	HAZ-P-3	CLASS 1	Explosives 1.5 *Enter compatibility group letter, when required. Placard 454 kg (1,001 lbs) or more.		HAZ-P-10	CLASS 3	Gasoline May be used in the place of Flammable on a placard displayed on a cargo tank or a portable tank being used to transport gasoline by highway.
	HAZ-P-4	CLASS 1	Explosives 1.6 *Enter compatibility group letter, when required. Placard 454 kg (1,001 lbs) or more.		HAZ-P-11	CLASS 3	Combustible Placard a combustible liquid when transported in bulk. See §172.504(f)(2) for use of FLAM-MABLE placard in place of COMBUSTIBLE placard.
	HAZ-P-5	CLASS 2	Oxygen Placard 454 kg (1,001 lbs) or more, gross weight of either compressed gas or refrigerated liquid.		HAZ-P-12	CLASS 3	Fuel Oil May be used in place of COMBUSTIBLE on a placard displayed on a cargo tank or portable tank being used to transport by highway fuel oil not classed as a flammable liquid.
	HAZ-P-6	CLASS 2	Flammable Gas Placard 454 kg (1,001 lbs) or more.		HAZ-P-13	CLASS 4	Flammable Solid Placard 454 kg (1,001 lbs) or more.
	HAZ-P-7	CLASS 2	Non-Flammable Gas Placard 454 kg (1,001 lbs) or more gross weight.		HAZ-P-14	CLASS 4	Spontaneously Combustible Placard 454 kg (1,001 lbs) or more.

Safety Signs: Hazardous Material Warning Placards

	Stock NO.	Class	Description
	HAZ-P-15	CLASS 4	Dangerous When Wet Placard any quantity of Division 4.3 material.
	HAZ-P-16	CLASS 5	Oxidizer Placard 454 kg (1,001 lbs) or more.
	HAZ-P-17	CLASS 5	Organic Peroxide Placard 454 kg (1,001 lbs) or more.
	HAZ-P-18	CLASS 6	Keep Away From Food Placard 454 kg (1,001 lbs) or more.
	HAZ-P-19	CLASS 6	Poison Placard any quantity of 6.1, PGI, inhalation hazard only. Placard 454 kg (1,001 lbs) or more of PGI or II, other than PGI inhalation hazard.
	HAZ-P-20	CLASS 7	Radioactive Placard any quantity of packages bearing the RADIOACTIVE III label. Certain low specific activity radioactive materials in "exclusive use" will not bear the label, but RADIOACTIVE placard is required.
	HAZ-P-21	CLASS 8	Corrosive Placard 454 kg (1,001 lbs) or more.

	Stock NO.	Class	Description
	HAZ-P-22	Dangerous	Placard 454 kg (1,001 lbs) gross weight of two or more categories of hazardous materials listed in Table 2. A freight container, unit load device, motor vehicle, or rail car which contain non-bulk packagings with two or more categories of hazardous materials that require placards specified in Table 2 may be placarded with a DANGEROUS placard instead of the separate placarding specified for each of the materials in Table 2. However, when 2,268 kg (5,000 lbs) or more of one category of material is loaded at one facility, the placard specified in Table 2 must be applied.
	HAZ-P-23	CLASS 9	Miscellaneous Not required for domestic transportation. Placard 454 kg (1,001 lbs) or more gross weight of a material which presents a hazard during transport, but is not included in any other hazard class.
	HAZ-P-24		Subsidiary Risk Placard Class numbers do not appear on subsidiary risk placard.
	HAZ-P-25	Rail	Placard empty tank cars for residue of material last contained.
	HAZ-P-26		Required background for placards on rail shipments of certain explosives and poisons. Also required for highway route-controlled quantities of radioactive materials (see §§172.507 and 172.510).

UN or NA Identification Numbers

Must be displayed on tank cars, cargo tanks, portable tanks and other bulk packagings.

HAZ-P-27 Orange Panels

1090

HAZ-P-28 Placards
Appropriate Placard must be used.

Safety Signs: "Safety First"

Safety and notice signs are available with any message you may wish. Shown below are some of the most frequently ordered signs. If you need a special message, UNICOR will design it for you. To order a custom safety or notice sign, simply order the sign SFTY-1 (for safety) or NOT-1 (for notice) in the size and material you want and specify your message.

Custom Sign Quotation Form

Fax your request for quote to (859) 254-9692.

Copy this form as needed, with one sign per form.

(Please use this area to sketch your requirement)

Quantity: _____

Size: _____ x _____

Substrate:

- Aluminum
- Plywood
- Magnetic
- Fiberglass
- Plastic

Size of letters:

If unsure, can factory determine best size?

- Yes No

Colors _____

Name _____

Agency _____

Street Address _____

Phone _____

Fax _____

Reflectivity of Sheeting:

- Non-reflective
- Phosphorescent
- Retro-Reflective - Engineer grade (meets LS 300 C)
- Retro-Reflective - Engineer grade (meets LS 300 C)

Radius Corners

- Yes
- No or Not Applicable

Holes for Sign:

- Yes, please specify location on drawing above.
Size of holes: _____
- No

Was sign previously ordered?

- Yes P.O. # _____ Date _____
- No
