

Bureau of Reclamation
FY 2022 Additional Funding for Ongoing Work
Distribution of Funding

Category/Project	Activity / Description	State(s)	Amount (\$000's)
Rural Water			
Pick-Sloan Missouri Basin Program - Garrison Diversion Unit	Complete Ft. Berthold Mandaree Storage Tank; continue Northwest Area Water Supply intake structure	North Dakota	10,000
Rocky Boy's / North Central Montana Rural Water System	Completes work on Tiber CWD Pump Station, Loma CWD Pumpstation/Standpipe, and Big Sandy Meter Building	Montana	5,000
Rural Water Total:			15,000

Water Conservation and Delivery			
Yakima River Basin Water Enhancement Project	Funding will support continued construction of the Cle Elum Fish Passage, as well as water efficiency and reliability improvements with state, tribe and irrigation districts	Washington	8,000
Columbia Basin Project (Ephrata)	Development of the Banks Lake Management Plan, a required component of a 2018 Memorandum of Agreement with the tribes in the operating area of the Banks Lake Reservoir	Washington	325
Santa Maria Project	Modification of the Twitchell Dam Operations Plan to accommodate for real-time and expected inflow, seasonal storm and runoff probabilities, and potential for increased storage opportunities for future groundwater recharge efforts	California	250
Central Valley Project, West San Joaquin Division	Efforts to address San Joaquin Valley subsidence through the rehabilitation and remediation of the San Luis Canal and associated bridges, crossings, check structures and turnouts	California	5,000
Lower Colorado River Operations Program	Implementation of the Drought Contingency Plan in the Lower Colorado River Basin to create or conserve recurring Colorado River water that contributes to supplies in Lake Mead and other Colorado River water reservoirs in the Lower Colorado River Basin or projects to improve the long-term efficiency of operations in the basin	Arizona, California, Nevada	25,000
Lower Rio Grande Water Conservation Project	Improve water supply reliability and drought resiliency through water conservation and irrigation infrastructure improvements	Texas	2,000
Rio Grande Pueblos	Implementation of efficiencies to irrigation infrastructure	New Mexico	1,000
Fryingpan Arkansas Project, Arkansas Valley Conduit	Continues planning, design, preconstruction and construction	Colorado	2,000
Wichita Project (Equus Beds Division)	Funds construction activities to recharge Equus Beds Aquifer	Kansas	3,275
Power Program Services	Evaluation of how historically low lake levels are impairing Reclamation hydropower operations and accelerating damage to our hydropower equipment; development of hydropower climate change mitigation strategies	Multiple	200
Water Conservation and Delivery - Non WIIN Sub-Total:			47,050

Water Conservation and Delivery			
<i>Reclamation is in the process of developing a list of recommended projects for this portion of the additional funding, which will be provided to the Committees at a later date.</i>		TBD	117,250
Water Conservation and Delivery - WIIN Sub-Total:			117,250
Water Conservation and Delivery Total:			164,300

Environmental Restoration or Compliance - WIIN (Section 4001 & 4010)			
Central Valley Project (CVP), Delta Division	Delta Smelt supplementation strategy in collaboration with the United States Fish and Wildlife Service to continue efforts on the design, improvement, and enhancement of the permanent conservation hatchery	California	2,000
CVP, Sacramento River Division	Real-Time Operations for long-term acoustic telemetry program infrastructure where pilings are needed to install acoustic receivers to monitor and assess survival of salmonids	California	5,000
CVP, Delta Division	Habitat and facility improvement for Head of Old River habitat restoration where efforts would support modeling and design options for addressing habitat interactions	California	250
CVP, Miscellaneous Projects Program	Reinitiation of consultation on long-term operations of the Central Valley Project and State Water Project	California	3,750
Environmental Restoration or Compliance Total:			11,000

Fish Passage and Fish Screens			
Yakima River Basin Water Enhancement Project	Funds provided for the Upper Yakima Bull Trout Research Facility and the Clear Creek Dam Fish Passage Project	Washington	1,000
Central Valley Project, Miscellaneous Projects Program	Funds will complete the Meridian Farms Fish Screen and Diversion Modification Project in support of Sacramento River fish screens and the Anadromous Fish Screen Program	California	6,000
Fish Passage and Fish Screens Total:			7,000

Facilities Operations, Maintenance and Rehabilitation			
Crooked River Project	Prineville Resort recreational upgrades and rehabilitation to meet modern utility, safety and accessibility standards	Oregon	537
Central Valley Project, Trinity River Division	Trinity River Fish Hatchery holding tank rehabilitation to include removal of corrosion, recoating the six holding tank gates, and replacement of the spawning building gate	California	350
Colorado River Basin Salinity Control, Title I	Completes replacement efforts of Chapay Bridge, which spans the Main Outlet Drain Extension in Yuma, Arizona and connects the Reclamation-owned Levee Road to the Cocopah Indian Reservation	Arizona, California	700
Mancos Project	Reclamation share for rehabilitation of project inlet and outlet canals	Colorado	600
Pick-Sloan Missouri Basin Program, Yellowtail Unit	Addition of Rock Fall protection of netting and concrete to the canyon wall and repair of concrete on the outlet portal	Montana, Wyoming	813
Facilities Operations, Maintenance and Rehabilitation Total:			3,000
