**Fee Schedule – January 2024**

Listed below are the current fees, testing locations, and preferred specimens for the Virginia Department of Agriculture Laboratory System.

Turnaround times are estimated in business days and apply to individual tests. Actual reporting of test results depends on the full battery of tests requested on the accession, day of the week/time of day samples arrive at the testing laboratory, and the quantity/quality of samples submitted.

Samples may be received at any laboratory listed and will be forwarded to internal labs as needed for testing at no charge.

Referral testing will be charged according to the specific laboratory’s fees, and a shipping charge will be applied as appropriate.

Test Name	Fee	Harrisonburg	Warrenton	Lynchburg	Wytheville	Specimen	Notes / Turnaround Time
<b>BACTERIOLOGY</b>							
Acid Fast Stain	\$6.25	X	X		X	Fresh tissue, fluid	1 day
Antimicrobial Susceptibility- Kirby Bauer	\$16.00		X		X	Bacterial culture	1 to 3 days after isolate identification
Antimicrobial Susceptibility- MIC	\$16.00	X	X	X	X	Bacterial culture	1 to 2 days after isolate identification
Bacterial Cytology for WBCs or Abnormal Cells	\$10.50	X	X			Fresh tissue, fluid, slide	Often referred to VMCVM
Bacterial Unknown ID- Aerobic Culture	\$22.50	X	X	X	X	Fresh tissue, swab	2 to 6 days
Bacterial Unknown ID- Anaerobic Culture	\$22.50	X	X	X	X	Fresh tissue, swab	2 to 6 days
Campylobacter sp. Culture	\$19.00	X	X	X	X	Feces, fetal stomach contents, intestine, preputial washing in special media	4 to 6 days

Test Name	Fee	Harrisonburg	Warrenton	Lynchburg	Wytheville	Specimen	Notes / Turnaround Time
Clostridium difficile Toxin ELISA	\$31.00		X	X		Feces	1 to 2 days
Clostridium FAs (each)	\$12.50	X	X	X	X	Fresh tissue	1 to 2 days
Clostridium perfringens Toxin ELISA	\$18.00		X	X		Feces or intestinal contents	1 day
Contagious Equine Metritis Culture	\$24.50		X			Swabs in Amies with charcoal transport media	Testing through VDACS OVS, 1week turnaround time
Direct Microscopic Exam	\$8.75	X		X	X		Same day
Environmental Culture	\$26.00	X	X	X			
Fungal Unknown ID Culture	\$18.75	X				Fresh tissue	Up to 8 weeks
Gram Stain	\$6.15	X	X	X	X	Bacterial culture	1 day
K99 E. coli Pathasure	\$18.50	X	X	X	X	Feces	1 to 2 days
Listeria sp. Culture	\$22.75	X	X			Fresh tissue, brainstem	Up to 4 weeks
Mycoplasma Culture	\$18.50				X	Individual cow milk, joint fluid, lung, choanal swabs, eyes, other	Up to 7 days
Salmonella Culture	\$20.00	X	X	X	X	Feces, liver, mesenteric ln, intestines	7 days
Salmonella pullorum Culture	\$19.00	X				Organ composite, intestinal composite per NPIP protocol	7 days
Tritrichomonas Culture	\$14.50		X		X	Preputial washing collected in InPouch	7 days

<b>DAIRY MICROBIOLOGY</b>							
Aflatoxin Screen- Milk	\$15.25		X			Raw milk	1 to 2 days
Antibiotic Residue (Charm SL3)	\$15.75	X	X		X	Raw milk	1 to 2 days
Antibiotic Residue (Delvo P)	\$12.25	X	X		X	Raw milk	1 to 2 days
Antibiotic Residue (Sulfa)	\$15.75	X				Raw milk	1 to 2 days
Antibiotic Residue (Tetracycline)	\$18.25	X				Raw milk	1 to 2 days
Antibiotic Residue (TRIO)	\$30.25	X				Raw milk	1 to 2 days
Bulk Tank Culture	\$20.00	X	X	X	X	Raw milk	2 to 5 days
Bulk Tank Culture- Preliminary Incubated	\$20.00	X	X		X	Raw milk	3 to 6 days
Direct Microscopic Bacterial Count	\$8.50	X	X		X	Raw milk	1 to 2 days
Bulk Tank Panel SCC, PAC, PIC, Culture	\$29.00	X	X		X	Raw milk	Normally run on Mondays and Tuesdays
Lab Pasteurized Count	\$8.50	X				Raw milk	2 days
Mastitis Culture	\$5.10	X	X	X	X	Raw milk	2 to 5 days
Mycoplasma Enrichment Culture	\$20.50				X	Raw milk	9 days
Petrifilm Aerobic Count	\$8.15	X	X		X	Raw or pasteurized milk	48 hours
Petrifilm Coliform Count	\$8.15	X	X		X	Raw or pasteurized milk	1 to 2 days
Petrifilm E. coli Count	\$8.15	X	X			Raw or pasteurized milk	1 to 2 days
Petrifilm High Sensitivity Coliform Count	\$8.15	X	X		X	Raw or pasteurized milk	1 to 2 days

Phosphatase	\$4.15	X	X	X	X	Pasteurized milk, cheese	1 to 2 days
Pipette Verification	\$20.50	X	X		X	Pipette, tips	1 day
Preliminary Incubated Count	\$8.15	X	X		X	Raw milk	3 to 4 days, submissions on Mon., Tues.
Regulatory Dairy Testing	\$0.00	X	X		X	Raw or pasteurized milk	4 to 5 days
Residual Bacterial Count	\$8.25		X		X	Containers	2 to 3 days
Residual Coliform Count	\$8.25		X		X	Containers	2 to 3 days
Somatic Cell Count	\$6.15	X	X		X	Raw Milk	1 to 2 days
Sweetwater (Glycol Water MPN)	\$0.00	X	X			Glycol water	48 hours. Run Mon., Tues.
Thermometer Verification	\$20.25	X	X		X	Thermometer	1 day
<b>FOOD SAFETY TESTING</b>							
Campylobacter Screening	\$30.00			X		Meat, dairy, chicken rinsate	72 hours
Campylobacter Confirmation	\$70.00			X		Meat, dairy, chicken rinsate	3 to 5 days
Carcass Sponge for E. coli	\$14.25	X	X	X	X	Sponge	Run Mon. – Thurs.
E. coli O157/H7 25g	\$30.00			X		Meat, dairy, animal feed	1 to 2 days
E. coli O157/H7 325g	\$35.00			X		Meat	1 to 2 days
E. coli Confirmation	\$95.00			X		Meat, dairy, animal feed	3 to 5 days

<b>MOLECULAR TESTING</b>							
Avian Influenza RT-PCR	\$41.50	X				Tracheal, choanal, or cloacal swabs in BHI broth. Milk.	<72 hours. Run M/W/F Up to 11 swabs/5.5 ml BHI broth, 5 swabs/3.0 ml BHI broth
BVD PCR	\$32.00			X		Ear notch, serum, whole blood, milk	3 days
Johnes Direct Fecal PCR- Individual	\$33.00			X		Feces	1 week
Johnes Direct Fecal PCR- Pooled	\$38.75			X		Feces	1 week
Equine Herpesvirus Combo PCR	\$55.50		X			Nasal swab, EDTA blood	1 day. No wooden stick swabs.
Equine Strangles Panel (Cultures & PCR)	\$54.00		X			Pharyngeal wash, nasal swab, pus	1 day, culture varies
Equine Strangles PCR	\$42.75		X			Pharyngeal wash, nasal swab, pus	1 day
<b>Diagnostic PCR Panels</b>							
Bovine Respiratory Panel- Mycoplasma bovis, Histophilus somni, Pasteurella multocida, Mannheimia haemolytica, bovine Coronavirus, BRSV, and bovine PI3	\$52.00			X		Swabs, tissue samples BOVINE ONLY	<72 hours. Swabs must be run within 48 hours of collection.
Ruminant Abortion Panel- Coxiella burnetii, Chlamydomydia spp., Listeria monocytogenes, Salmonella spp., Campylobacter fetus, Leptospira pathogens, Anaplasma phagocytophila, and BHV type 4	\$52.00			X		Swabs, tissue samples	<72 hours. Swabs must be run within 48 hours of collection.
