

Veeam Data Cloud Fair Use Policy

Last update: June 19, 2024

1. Introduction

This Fair Use Policy ("Policy") is designed to ensure fair and reasonable use of the Services provided by Veeam under Veeam Data Cloud Service Agreement. This Policy outlines the terms and conditions governing the use of the Services, particularly in relation to data storage limits.

2. Unlimited Storage

Veeam offers unlimited storage capacity to You. This means that You have access to a generous amount of storage space for backing up Your data securely.

3. Data Allowance

Your account is allocated a monthly data allowance of 100GB ("Data Allowance") per license. This Data Allowance is provided to ensure that You can effectively back up their essential data without encountering limitations.

4. Excessive Use

While Veeam offers unlimited storage, You must adhere to reasonable usage patterns. Excessive use is defined as exceeding 300% of the allocated Data Allowance across all users. For example, 100 users would have a storage allowance of 10,000 GB or 10 TB.

5. Right to Charge for Additional Storage

If You exceed 300% of Your Data Allowance, Veeam reserves the right to charge for additional storage costs incurred. These charges will be applied to Your account based on the amount of excess data stored beyond the Data Allowance.

6. Notification

You will be notified in advance if You are approaching or have exceeded Your Data Allowance. This notification will serve as a warning to You to adjust Your usage patterns accordingly to avoid additional charges.

7. Reasonable Use

You are expected to use the Services for legitimate backup purposes only. Any misuse, abuse, or illegal activities conducted through the Services are strictly prohibited and may result in immediate termination of Your account.

8. Fair Usage

This Policy is designed to promote fair usage of the Services while ensuring that resources are shared equitably among all customers. You are encouraged to utilize the Services responsibly and considerately.

9. Amendments

Veeam may amend this Policy by the same way as the Veeam Data Cloud Service Agreement.

10. Conclusion

By using the Services, You agree to abide by the terms and conditions outlined in this Fair Use Policy. Failure to comply with this Policy may result in the imposition of additional charges or account suspension or termination at the discretion of Veeam.
