

Wayne School District Communication Group

In an effort to improve our ability to communicate more effectively with our school community, the district has set up a community Remind group. This group is designed to disseminate key information about events happening with our school, and our district. Things such as possible emergencies, power outages, snow days, sporting events, calendar events, and changes to scheduled times of activities, could be sent to this group. Thank you for all that you do for our school and our students.

To sign up to receive texts sent to this group follow the instructions below. If you have any questions please contact the district office at 435-425-3813.

Tell people to text @waynesd to the number 81010

They'll receive a welcome text from Remind.

If anyone has trouble with 81010, they can try texting @waynesd to (435) 728-0291.
