Storm Data and Unusual Weather Phenomena - June 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
ALVA	06/01/07 00:00 CST 06/30/07 23:59 CST		0 0	Heavy Rain 36.8N, 98.67W
WOODWARD COUNTY				
WOODWARD	06/01/07 00:00 CST 06/30/07 23:59 CST		0 0	Heavy Rain 36.43N, 99.4W
<p>A promising winter wheat crop turned out to be less than average. An Easter freeze or frost (depending on the part of the state you were in), combined with heavy rainfall during the latter part of March and much of May and June to cause more problems for area farmers. The spring freeze (or frost), damaged only part of the crop, mainly over northwest Oklahoma. Still, the outlook looked bright for a above average harvest. However, the heavy rainfall in late March, combined with the very heavy rainfall in May and June flooded and reflooded winter wheat fields, making the traditional harvest almost impossible. Some combines were able to make it into the fields to salvage what they could, but frequent days of precipitation made the process extremely slow. Also, with the unending supply of rain, disease was also a nuisance to many farmers. As a result of unfavorable conditions, the wheat that was harvested had an average weight of less than 58 pounds per bushel. Many bushels were weighing in at less than 50 pounds. Total yield set at the beginning of the season was supposed to be 152 million bushels, which had been lowered from previous estimates. The estimate was expected to be even lower, which would put this year's winter wheat crop below average. Monetary damages were estimated.</p>				
BLAINE COUNTY				
OKEENE	06/01/07 00:02 CST 06/01/07 00:02 CST		10K 0	Thunderstorm Wind (EG 56 kt) 36.12N, 98.38W
<p>Several tree limbs downed due to high wind. Six to seven trees blown down in the Okeene area. Monetary Damages were estimated.</p>				
GARFIELD COUNTY				
ENID	06/01/07 00:15 CST 06/01/07 00:15 CST		2M 0	Thunderstorm Wind (EG 61 kt) 36.4N, 97.87W
<p>The west facing windows at an auto dealership were blown out on the west side of town. Forty-five to fifty foot tall pine trees were uprooted. Some of the trees fell onto the roofs of some houses. Several roofs were destroyed, as well as several aluminum sheds destroyed. A total of more than one hundred homes sustained some kind of damage. The radio tower and roof at the KLGB radio station were blown down. Thirty windshields at Speed Tech Automotive & Truck Repair were shattered.</p>

Storm Data and Unusual Weather Phenomena - June 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
4.0 SE GUTHRIE ARPT	06/01/07 02:15 CST		0	Hail (0.88 in)
	06/01/07 02:15 CST		0	35.8091N, 97.3496W

Spotter reported dime to nickel size hail.

Surface low pressure moved east into southwest Kansas by late evening of May 31st. A complex of strong to severe thunderstorms had already developed over this area, with another thunderstorm complex moving south through western Kansas. These two areas of thunderstorms combined into a severe bow echo and moved east through northern Oklahoma. Large hail, strong, damaging wind gusts, and flash flooding were the main concerns. Wind damage was widespread, especially in the Enid area, where one to two million dollars in damage was done. Other monetary damages were estimated.

Enid heavily damaged - \$1.5 - 2.0 Million in Damage

CADDO COUNTY

4.0 E APACHE	06/01/07 14:30 CST		0	Hail (1.00 in)
	06/01/07 14:30 CST		0	34.88N, 98.2995W

The report was relayed by the NSSL SHAVE project.

CADDO COUNTY

0.5 N CYRIL	06/01/07 14:55 CST		0	Hail (0.75 in)
	06/01/07 14:55 CST		0	34.8872N, 98.2W

The report was relayed from WFO Tulsa.				
PAYNE COUNTY				
STILLWATER	06/01/07 17:40 CST		50K	Flash Flood (due to Heavy Rain)
	06/01/07 17:40 CST		0	36.12N, 97.07W
Twenty-five to thirty roads were barricaded or closed. A few residences had to be evacuated by boat. Cars were stalled/flooded due to high water on a US-177 feeder road on the north side of town. Widespread street flooding was reported throughout Stillwater. The golf course was also reported under water. Monetary damages were estimated.				
MAJOR COUNTY				
MENO	06/01/07 17:50 CST		0	Hail (1.00 in)
	06/01/07 17:50 CST		0	36.38N, 98.17W
CLEVELAND COUNTY				
3.0 E NOBLE	06/01/07 17:54 CST		0	Hail (0.75 in)
	06/01/07 17:54 CST		0	35.13N, 97.347W
GRANT COUNTY				
POND CREEK	06/01/07 17:55 CST		0	Hail (0.88 in)
	06/01/07 17:55 CST		0	36.67N, 97.8W
Dime to nickel size hail was reported.				
CLEVELAND COUNTY				
5.0 SSE NOBLE	06/01/07 18:00 CST		4.50K	Thunderstorm Wind (EG 61 kt)
	06/01/07 18:00 CST		0	35.0632N, 97.3662W
Several tree limbs that were at least six to eight inches in diameter downed. One shed was completely destroyed and blown across SE 48th. Tree damage was also reported from SE 48th to SE 72nd. Monetary damages were estimated.				
An upper level low pressure was located over the central plains during the day of the 1st. Also, multiple boundaries, including a weak cold front and multiple outflow boundaries from previous thunderstorms were set up over Oklahoma, as well as rich low level moisture. Several disturbance rotating around the upper level storm system moved over the southern plains. Showers and thunderstorms developed over much of Oklahoma, with many becoming severe. The main threats with the thunderstorms were large hail, damaging winds, and flash flooding.				

Storm Data and Unusual Weather Phenomena - June 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
GREER COUNTY				
WILLOW	06/03/07 03:20 CST		3K	Thunderstorm Wind (EG 52 kt)
	06/03/07 03:20 CST		0	35.05N, 99.52W
Multiple tree limbs were downed due to the high winds. Monetary damages were estimated.				
<p>A cold front approached from the north toward western and southwest Oklahoma. Thunderstorms developed ahead of an upper level storm system that moved toward the southern plains. One thunderstorm became severe over Greer county with strong winds that caused some damage. Monetary damages are estimated.</p>				
STEPHENS COUNTY				
COMANCHE	06/07/07 21:32 CST		0	Hail (0.88 in)
	06/07/07 21:32 CST		0	34.37N, 97.97W
<p>A strong upper level storm moved through the central plains into the upper midwest. A dry line extended south from this storm system through Oklahoma. By the late afternoon, the dry line was located from Ponca City, to El Reno, to Lawton. East of the dry line, dew point temperatures were in the lower 70s. A strong cap in place east of the dry line inhibited storm development for much of the afternoon, but isolated thunderstorms developed during the late afternoon and early evening. The thunderstorms mainly stayed below severe limits, but some storms became severe with large hail and heavy rainfall.</p>				
ATOKA COUNTY				
CANEY	06/09/07 15:30 CST		0	Hail (0.88 in)
	06/09/07 15:30 CST		0	34.23N, 96.22W
COAL COUNTY				
4.5 NW TUPELO	06/09/07 16:00 CST		0	Hail (0.75 in)
	06/09/07 16:00 CST		0	34.646N, 96.4759W
<p>A stationary front over northern Texas began lifting north as warm front during the mid afternoon hours. Lift along the front combined with rich low-level moisture allowed for thunderstorms to develop over southeast Oklahoma. Thunderstorms over Atoka and Coal counties became severe with large hail.</p>				
OKLAHOMA COUNTY				
MIDWEST CITY	06/10/07 13:35 CST		0	Hail (0.88 in)
	06/10/07 13:35 CST		0	35.45N, 97.4W
The hail was reported at I-240 and Douglas.				
OKLAHOMA COUNTY				
TINKER AFB	06/10/07 13:41 CST		4K	Thunderstorm Wind (EG 52 kt)
	06/10/07 13:41 CST		0	35.42N, 97.38W
A 10x20 foot awning was blown off of a building. Monetary Damages were estimated.				
OKLAHOMA COUNTY				
5.0 N JONES	06/10/07 14:20 CST		0	Hail (0.75 in)
	06/10/07 14:20 CST		0	35.6423N, 97.28W
GRADY COUNTY				
5.0 SE TUTTLE	06/10/07 17:40 CST		1.50K	Thunderstorm Wind (EG 52 kt)
	06/10/07 17:40 CST		0	35.2289N, 97.7374W
A tree was blown down over the roadway near the Bridge Creek community. Monetary damages were estimated.				
CLEVELAND COUNTY				
NORMAN	06/11/07 00:20 CST		4K	Thunderstorm Wind (EG 52 kt)
	06/11/07 00:20 CST		0	35.22N, 97.45W
Several large tree limbs were downed near the intersection of Pickard and Boyd. One limb was one foot in diameter. Monetary damages were estimated.				
<p>A weak cold front moved into southern Oklahoma during the morning and late afternoon hours. This front washed out north of the Red River as an upper level disturbance moved from west to east along Interstate 40. Upward motion from this disturbance, combined with daytime heating, allowed for scattered strong to severe thunderstorms to develop. Hail and high winds were the main hazards with the thunderstorms. Many of the thunderstorms moved into eastern Oklahoma by late evening, however, and an isolated thunderstorm</p>

	06/14/07 00:30 CST		0	35.0778N, 99.1W
HWY 9 between HWY 183 and HWY 54 at Gotebo closed due to high water.				
KIOWA COUNTY				
HOBART	06/14/07 02:30 CST		0.10M	Flash Flood (due to Heavy Rain)
	06/14/07 02:30 CST		0	35.02N, 99.1W
Widespread flooding was reported in the city of Hobart due to rapidly rising water. Several houses were evacuated due to the high water. 35-40 people in total were evacuated from their homes. Access to some of the houses could not be done without a boat. The intersection of HWY 9 and Eastern was closed with four feet of water flowing over it. Monetary damages were estimated.				
The very wet pattern continued over Oklahoma on the 13th. An outflow boundary was situated northwest to southeast over parts of northern and central Oklahoma. Other outflow boundaries were scattered over the western half of the state as well. A very slow moving upper level storm system drifted toward western Oklahoma. This helped thunderstorms develop over much of western Oklahoma. The thunderstorms produced very large hail, strong winds, and tornadoes over parts of the area. Also, due to the slow movement of the thunderstorms, flash flooding continued to be a concern with several roads washed out. The event lasted well into the evening before finally ending during the early morning hours. Monetary damages were estimated.

	06/14/07 18:50 CST		0	35.5067N, 97.1564W
Two feet of water was reported over the roadway at NE 50th and Harrah Road.				
With an upper level low pressure system anchored over Oklahoma, showers and thunderstorms developed again in the afternoon of the 14th. Although the main problem continued to be the heavy rain and associated flooding, a few thunderstorms also produced marginally severe hail and wind. Monetary damages were estimated.				
GRADY COUNTY				
CHICKASHA	06/15/07 12:00 CST		0	Flash Flood (due to Heavy Rain)
	06/15/07 12:00 CST		0	35.05N, 97.95W
US HWY 81 was closed between Almar Drive and Country Club Road due to very heavy rainfall.				
STEPHENS COUNTY				
MARLOW	06/15/07 12:29 CST		0	Flash Flood (due to Heavy Rain)
	06/15/07 12:29 CST		0	34.65N, 97.95W
Several streets were closed due to high water.				
GARVIN COUNTY				

Storm Data and Unusual Weather Phenomena - June 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
STRATFORD	06/15/07 18:15 CST		0	Flash Flood (due to Heavy Rain)
	06/15/07 18:15 CST		0	34.8N, 96.95W

The flooding was due to Spring Creek rising out of the banks. Spring Creek Bridge near Hyden Street was closed due to the high water.

Several days of heavy rainfall left the ground very saturated over much of Oklahoma. An upper level low pressure center anchored itself over south central Oklahoma, with very moist air north and east. Thunderstorms once again developed in the afternoon. The thunderstorms were very slow moving due to very weak winds aloft. Rainfall rates of over two inches per hour were common, with flash flooding occurring over several counties. Monetary damages were estimated.

BRYAN COUNTY

12.0 SW DURANT	06/18/07 05:30 CST		0	Flash Flood (due to Heavy Rain)
	06/18/07 05:30 CST		0	33.8773N, 96.5279W

HWY 69/75 near the Red River was closed due to high water.

BRYAN COUNTY

DURANT	06/18/07 05:30 CST		15K	Flash Flood (due to Heavy Rain)
	06/18/07 05:30 CST		0	34N, 96.38W

Several roads were closed due to high water. Several cars were also reportedly under water. Monetary damages were estimated.

PONTOTOC COUNTY

FITZHUGH	06/18/07 09:30 CST		0	Flash Flood (due to Heavy Rain)
	06/18/07 09:30 CST		0	34.67N, 96.77W

County Road 3499 was impassable due to high water. Several other roads were closed with water running over top of them.

JOHNSTON COUNTY

RAVIA	06/18/07 09:45 CST		0	Flash Flood (due to Heavy Rain)
	06/18/07 09:45 CST		0	34.23N, 96.75W

The east end of Greasey Bend Road was closed due to flooding west of Ravia.

PONTOTOC COUNTY

2.0 N ROFF	06/18/07 09:45 CST		0	Flash Flood (due to Heavy Rain)
	06/18/07 09:45 CST		0	34.6589N, 96.83W

County Road 3460 was closed due to the Canadian Sandy Creek out of its banks.

PONTOTOC COUNTY

4.0 N ROFF	06/18/07 09:45 CST		0	Flash Flood (due to Heavy Rain)
	06/18/07 09:45 CST		0	34.6878N, 96.83W

County Road 3460 was closed due to another small creek out of its banks.

JOHNSTON COUNTY

MILL CREEK	06/18/07 10:30 CST		0	Flash Flood (due to Heavy Rain)
	06/18/07 10:30 CST		0	34.4N, 96.82W

Four to six inches of water was reportedly over Cold Springs Road just east of Mill Creek.

POTTAWATOMIE COUNTY

MAUD	06/18/07 10:30 CST		20K	Flash Flood (due to Heavy Rain)
	06/18/07 10:30 CST		0	35.13N, 96.78W

A couple of houses were evacuated in Maud due to rapidly rising water. Several county roads also were closed due to high water. Monetary damages were estimated.

SEMINOLE COUNTY

5.0 W BOWLEGS	06/18/07 10:30 CST		0	Flash Flood (due to Heavy Rain)
	06/18/07 10:30 CST		0	35.15N, 96.7584W

County Road EW129 was closed due to high water a half of a mile east of HWY 59.

Storm Data and Unusual Weather Phenomena - June 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
LAWTON	06/20/07 03:00 CST		0	Flash Flood (due to Heavy Rain)
	06/20/07 03:00 CST		0	34.62N, 98.4W

Heavy rain caused several roads in Lawton to be impassable.

SEMINOLE COUNTY

SEMINOLE	06/20/07 03:30 CST		0	Flash Flood (due to Heavy Rain)
	06/20/07 03:30 CST		0	35.23N, 96.68W

Several roads were closed due to high water. John's Park was completely flooded.

PONTOTOC COUNTY

ADA	06/20/07 04:00 CST		0	Flash Flood (due to Heavy Rain)
	06/20/07 04:00 CST		0	34.77N, 96.67W

State HWY 99 was closed due to high water.

A widespread severe thunderstorm event occurred over much of Oklahoma from the 19th into the 20th. A weakly capped airmass, combined with a surface trough oriented northwest to southeast over Oklahoma, and afternoon heating allowed for another round of strong to severe thunderstorms to develop. Wind shear along the outflow boundary and decent instability allowed for the some of the thunderstorms to produce high winds and large hail. Also, a complex of thunderstorms developed over western Kansas and moved south toward northern Oklahoma. The low level jet cranked up as night fell, pumping in warm and very moist air. The thunderstorm complex continued moving south while intensifying. Widespread severe winds and large hail accompanied the thunderstorms. The thunderstorm complex moved south through much of Oklahoma before moving into Texas. Monetary damages were estimated.

KIOWA COUNTY

5.0 E HOBART	06/22/07 08:00 CST		0	Flood (due to Heavy Rain)
	06/22/07 08:00 CST		0	35.02N, 99.0117W

Four feet of water covered the roadway making it impassable. Other flooding was reported near Gotebo and Mountain View.

WASHITA COUNTY

3.0 ESE BESSIE	06/22/07 09:00 CST		0	Flash Flood (due to Heavy Rain)
	06/22/07 09:00 CST		0	35.3634N, 98.9309W

Several county roads were closed due to high water.

More heavy rain affected parts of southwest Oklahoma. On the 22nd, Washita county experienced flash flooding, with several roads closed due to high water.

CLEVELAND COUNTY

3.0 NW MOORE	06/23/07 16:45 CST		2K	Thunderstorm Wind (EG 52 kt)
	06/23/07 16:45 CST		0	35.3607N, 97.5376W

A 14-inch diameter tree was blown over near 89th and Wester. Monetary damages were estimated.

CANADIAN COUNTY

MUSTANG	06/23/07 17:00 CST		0	Hail (1.00 in)
	06/23/07 17:00 CST		0	35.38N, 97.72W

Storm Data and Unusual Weather Phenomena - June 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<p>Tropical air remained over much of the southern plains on the 23rd. An upper level low pressure area meandered slowly over southwest Oklahoma, with weak disturbances rotating around the east and north sides. Several slow moving thunderstorms developed and produced very heavy rain. A few of the thunderstorms also became severe over parts of central Oklahoma with hail up to the size of quarters and brief severe winds.</p>				
TILLMAN COUNTY				
3.0 N GRANDFIELD	06/26/07 06:00 CST		0	Flash Flood (due to Heavy Rain)

	06/26/07 10:19 CST		0	35.33N, 96.92W
<p>45th Street between West Bryant and East Harrison was closed due to high water. Forty-six single family homes and seven commercial buildings sustained major flood damage. About sixty homes were reported to have minor flood damage. Monetary damages were estimated.</p>				
POTTAWATOMIE COUNTY				
TECUMSEH	06/26/07 10:30 CST		20K	Flood (due to Heavy Rain)
	06/26/07 10:30 CST		0	35.25N, 96.93W
<p>Six inches of water was reported in the Kwik Stop convenience store. A woman was evacuated from her home when a nearby creek overflowed its banks. Water got into the high school, damaging all the flooring. Monetary damages were estimated.</p>				
OKLAHOMA COUNTY				

Storm Data and Unusual Weather Phenomena - June 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
4.0 N BETHANY	06/26/07 12:00 CST		5K	Flash Flood (due to Heavy Rain)
	06/26/07 12:00 CST		0	35.5778N, 97.63W

High water covered the road at Ski Island. Two females were rescued after driving into high water. Three other water rescues were successful around Oklahoma City. No injuries were reported. Monetary damages were estimated.

CANADIAN COUNTY

3.0 E PIEDMONT	06/26/07 12:15 CST		0	Flash Flood (due to Heavy Rain)
	06/26/07 12:15 CST		0	35.65N, 97.6966W

North 164th between Morgan and County Line roads, as well as the intersection at north 164th and County Line road were closed due to high water.

CANADIAN COUNTY

3.0 ENE PIEDMONT	06/26/07 12:15 CST		0	Flash Flood (due to Heavy Rain)
	06/26/07 12:15 CST		0	35.6666N, 97.7007W

The intersection of N192nd and County Line roads closed due to high water.

PAYNE COUNTY

STILLWATER	06/26/07 13:45 CST		0	Flood (due to Heavy Rain)
	06/26/07 13:45 CST		0	36.12N, 97.07W

Two areas were barricaded off due to flooding. One area was the entrance to Strickland Park and the other is near the intersection of Lake View and Park Drives.

Waves of intense showers and thunderstorms continued to move north through the eastern two thirds of Oklahoma. The heavy rainfall and already saturated ground made for easy flash flood conditions through the morning and early afternoon hours. Monetary damages were estimated.

GARFIELD COUNTY

4.0 W WAUKOMIS	06/27/07 18:30 CST		0	Flash Flood (due to Heavy Rain)
	06/27/07 18:30 CST		0	36.28N, 97.9717W

Wood Road, or EW51, was closed between HWY 132 and HWY 81 due to Turkey Creek being out of its banks. Several other east-west roads south of Wood Road were closed as well.

GARFIELD COUNTY

ENID	06/27/07 20:00 CST		0	Flash Flood (due to Heavy Rain)
	06/27/07 20:00 CST		0	36.4N, 97.87W

Oakwood Road from Enid to Waukomis was closed due to high water.

GARFIELD COUNTY

2.0 W BISON	06/27/07 20:15 CST		0	Flood (due to Heavy Rain)
	06/27/07 20:15 CST		0	36.2N, 97.9158W

Buffalo Creek is out of its banks and estimated to be three quarters of a mile wide at this location.

GARFIELD COUNTY

BISON	06/27/07 20:15 CST		0	Heavy Rain
	06/27/07 20:15 CST		0	36.2N, 97.88W

7.5 inches of rain had fallen since midnight. Three and a half inches of that fell between 6 pm and 9:15 pm.

Continuous rainfall from slow moving thunderstorms continued to plague much of Oklahoma. Training of thunderstorms over parts of Garfield county produced extreme flash flooding with some locations receiving over seven inches of rainfall.

KINGFISHER COUNTY

3.0 W HENNESSEY	06/28/07 08:35 CST		0	Flood (due to Heavy Rain)
	06/28/07 08:35 CST		0	36.1N, 97.9537W

A seven mile stretch of State HWY 51 between US 81 and State HWY 132 was closed due to high water in the Turkey Creek Area. There were three high water rescues made with no injuries reported.

COMANCHE COUNTY

Storm Data and Unusual Weather Phenomena - June 2007

	06/01/07 18:15 CST		0	34.0723N, 98.4006W
Four 8-inch diameter pecan trees blown over. Monetary damages were estimated.				
KNOX COUNTY				
KNOX CITY	06/01/07 23:52 CST		0	Thunderstorm Wind (EG 52 kt)
	06/01/07 23:52 CST		0	33.42N, 99.8W
An upper level low pressure was located over the central plains during the day of the 1st. Also, multiple boundaries, including a weak cold front and multiple outflow boundaries from previous thunderstorms were set up over Texas, as well as rich low level moisture. Several disturbances rotating around the upper level storm system moved over the southern plains. Showers and thunderstorms developed over parts of north Texas, with many becoming severe. The main hazards with the thunderstorms were large hail, damaging winds, and flash flooding.				
FOARD COUNTY				
20.0 WNW CROWELL	06/03/07 03:00 CST		0	Hail (1.00 in)

Storm Data and Unusual Weather Phenomena - June 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
7.0 W CHILLICOTHE	06/13/07 15:45 CST		0	Hail (0.75 in)
	06/13/07 15:45 CST		0	34.25N, 99.6224W

The hail was reported at Roadside Park and US 287.

The very wet pattern continued over western North Texas on the 13th. Outflow boundaries were scattered over parts of Texas from previous thunderstorms. A very slow moving upper level storm system drifted east through the Texas panhandle. This helped thunderstorms develop over parts of western north Texas. The thunderstorms produced large hail and strong winds. Also, due to the slow movement of the thunderstorms, flash flooding became a problem in some areas. The event lasted well into evening before finally ending during the early morning hours. Monetary damages were estimated.

HARDEMAN COUNTY

CHILLICOTHE	06/19/07 23:58 CST		12K	Thunderstorm Wind (EG 52 kt)
	06/19/07 23:58 CST		0	34.25N, 99.5W

Several power poles were blown down. Monetary damages were estimated.

WILBARGER COUNTY

VERNON	06/20/07 00:10 CST		13K	Thunderstorm Wind (EG 61 kt)
