Hull Designs

HYPER-LIFT®

The Xpress Boat Hyper-Lift® hull is a marvel of engineering excellence, providing a lightning fast hole shot, unbelievable turning and a smooth steady ride. The beauty of the exterior belies a tough all-welded, all-aluminum foundation that is the keystone of the Xpress Boat line.

HYDRO-DYNAMIC

The Xpress Boats Hydro-Dynamic hull is the muscle of the XP Series. Interconnecting longitudinal ribs and all-welded aluminum supports, provides the HD hull with solid performance in virtually any water conditions.

HD JET TUNNEL

The Xpress Boats HD Jet Tunnel hull is built around our durable Hydro-Dynamic Hull and complimented with our custom designed tunnel affording sportsmen access to shallow running streams and rivers with jet drive motors.

PAD V

The Xpress Deep V Hull design has been engineered for 3 critical factors when operating in harsh, big water conditions, Comfort, Performance and most importantly Safety.

AWD

The Xpress Boats AWD hull affords the outdoorsman a steady platform for either hunting or fishing. Each hull is crafted on the foundation of our Hydro-Dynamic Hull capable of handling either an outboard or a surface drive motor offering maximum performance and stability in all conditions.

BAYOU MUD HULL

The Xpress Boats Bayou Mud hull is the perfect match for today's surface drive mud motors. Featuring an extremely shallow draft, this hull is designed to slide over submerged objects and vegetation, and through mud. Xpress Bayou Boats designed tough, loaded with excitement!

Packages

Bass
