

# Routine Weather Briefing

July 17, 2024  
8:52 AM

Outlook Period: Wednesday 07/17/24 - Sunday 07/21/24

## OVERVIEW:

Hot and humid conditions will continue through today with a better chance for convection than previous days. Showers and thunderstorms will become more widespread as a front stalls in the area on Thursday through much of the upcoming weekend. Isolated severe weather is possible on Thursday.

### HAZARDS & IMPACTS

#### Land:

- For Wednesday, a Heat Advisory is in effect for the entire area from 11AM to 8PM. Another Heat Advisory may be needed Thursday.
- Isolated strong to severe thunderstorms are possible Thursday, with isolated flash flooding possible late in the week.

#### Beach/Surf:

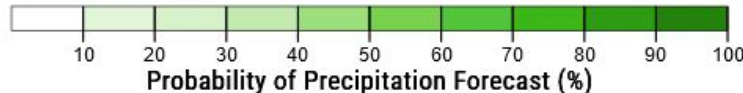

- For Wednesday, High risk of Rip Currents for all beaches except Georgetown County beaches, which has a Moderate Risk. All beaches besides Brunswick County beaches will experience a strong south to north longshore current.
- The rip risk is expected to decrease on Friday and Saturday, but may remain Moderate due to persistent southerly swells. Click [here](#) for more details.

#### Marine:

- For Wednesday, a Small Craft Advisory is in place for the coastal waters from noon to 9AM Thursday.
- Isolated strong to severe thunderstorms are possible Thursday.
