## Aluminium CONTEMPORARY.

If you are looking for new ideas and designs, this is the range for you! Rotproof as well as rustproof, this range is the result of the new production techniques, allied with traditional joinery.

The result is an amazing choice of forms and colours - so just make your choice! The wood aspect powder coated aluminium is sure to impress, or find a colour to match your existing de'cor!

Choose the colour you want! You can actually personalise your gate and fence to the maximum by choosing a colour that you want and that will blend in with your environment.

The infinite number of colours available in the RAL palette enables you to be sure of having the right colour for your gate and/or fence.

The laquering (powder coating) is high quality, resistant, very low and easy to maintain and fulfils the Qualicoat European certificate conditions that guarantees a 'seaside quality' (Resistant against wind and general weather damage).

**COLOUR SCHEME.**

# Aluminium CONTEMPORARY.

## Tremuzon

An elegant traditional design suited for a wide range of homes.

## Armel

A modern look for the front of your house with touch of class.

## Diskare

A very contemporary design, sure to impress anyone with style.

# Aluminium CONTEMPORARY.

## Boat

A classic traditional gate design, with natural elegance about it.

## Digore

A solid feature to the front of your house, this bold design holds strong features.

## Diwan

A classic simple style which is sure to fit in place, which ever surroundings it's in.

# Aluminium TRADITIONAL.

The main advantage of this range is that it looks like forged iron but it is aluminium. So you can benefit from the lightness of the gate and its resistance, as well as the wide range of finials and shapes.

Of course being made in aluminium ensures a very low maintenance. This range is absolutely ideal if you want to have a traditional or classical entrance to the front of your property. A big plus! because of the production system, all colours on this range are free of charge - for you to choose!

*Choose Any style of Finials...*

## ACCESSORIES.

Choose from a range of finials and decorative scrolls to enhance the traditional style of your gates and fences.

The range of finials on offer fit in with the style of any of the traditional gates on sale.

Angle Decorations

Wind Rose

Two Layer double Volute

# Aluminium TRADITIONAL.

## Josselin

An impressionable piece, set to give off a secure sense of being.

## Huelgoat

A positively simple yet elegant design.

## Coray

Another simplistic design with similar features to the 'josselin'.

# Cast IRON.

These elegant gates are inspired by 19th Century designs originating from Glasgow, at the famous Sun foundry.

Crafted in solid cast iron, using the same traditional techniques as those that made the originals. These gates represent the finest quality available today. Ornate in design and secure in strength, they offer protection for your property along side a higher class image.

# Cast Iron

The addition of cast iron gates and railings to your property will add a completely authentic and unique image along side a secure premise. These designs (from over 100 years ago) are perfect for restoration and regeneration projects and provides an enduring, traditional alternative to the multitude of lightweight railings and gates currently on offer.

A variety of styles are on offer at incredibly reasonable prices. If any of the designs catch your eye, be sure to enquire by our Mon-Sat phone line or via email, [Info@Easygates.co.uk](mailto:Info@Easygates.co.uk).

# Cast IRON.

## Stewart Collection

This beautifully crafted range still to this day remain to yield an elite standard above the rest. The superbly crafted gates are a sure to pose glamour upon your property.

## Stirling Collection

A completely traditional style of railing; this 19th century classic design proposes it's vintage in a respectful manor.

## Gilberton Collection

An extremely elegant piece of craftsmanship, this first class range inspire a definative motion into a property.

*Cast*

*Prospect  
Collection*

A true work of beauty. This superb range of gates and railings is most certainly fit for royalty. Its master class appearance will most certainly impress.

*Wrought*  
**IRON.**

Beautifully crafted heavy-weight solid steel driveway gates and railings, with rivetted joints and wrap around hinges.

These gates are available in two sizes and can be supplied with a pedestrian access gate. Fully suitable for automation and supplied with a galvanised hot dip finish.

Gate posts measure 100mmsq. Gates are made from 40 x 40mm frame and 20x20mm uprights. Other iron gate sizes and railings are available. Call or email for more details. For Prices on Gates or railings without Electric automation kits then please contact us.

The automation kits require gates stops, we do not include these in the package as the needs will be different for each application. Contact us for help on gate stops and these will be at a reduced rate for those purchasing full iron gate and automation kits.

We can also custom make wrought iron gates to any size and design, and manufacture matching railings. If you want a different combination of automation/gates then please contacts us and we will try our hardest to create your ideal package.

# Wrought IRON.

## Windsor

Aesthetically pleasing to the eye, this design holds taste and style.

## Classic

The simplistic design of these gates show a strong sense of security.

## Tudor

A desirable look on anyones driveway, these gates are certainly impressive.

# Professional Installations

Easy Gates can supply gate automation to suit your needs - from industrial sliding gates to small driveway gates. We can also supply discrete underground, ram type and articulated arm automation.

Being one of the largest distributors in Europe of Liftmaster gate automation, we can supply to the public at amazingly low prices!

All gate operators are fully remote controlled and can also be supplied with intercoms, keypads and GSM units to operate your gates.
