Federal Emergency Management Agency

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, U.S. Department of Homeland Security.

ACTION: Notice of emergency clearance request and request for comments.

SUMMARY: The Federal Emergency Management Agency has submitted a request for emergency processing of two information collection requests to the Office of Management and Budget (OMB) for review and clearance under the provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13,

44 U.S.C. 3501, *et seq.*). FEMA is requesting OMB to review and approve the requests by December 1, 2004. The two information collection requests propose revisions to currently approved collections under OMB control numbers 1660-0071 and 1660-0072, which are used by grantees to apply for and report on eGrant awards and by FEMA to evaluate, award, and monitor expenditures and program/project performance for Pre-Disaster Mitigation (PDM) and the Flood Mitigation Assistance (FMA) program activities.

SUPPLEMENTARY INFORMATION: The proposed information collection requests, upon approval by OMB, will enable FEMA to open the FY 2005 eGrant application periods for the Pre-Disaster Mitigation (PDM) program and the Flood Mitigation Assistance (FMA) program, which are essential to FEMA's mission to lead America to prepare for prevent, respond to, and recover from disasters. The PDM grant program is the only source of Federal pre-disaster funding available to States and local governments for hazard mitigation. Hazard mitigation is an ongoing effort to lessen the impact disasters have on people's lives and property through damage prevention measures such as removing homes from the floodplain, engineering buildings and infrastructure to withstand earthquakes, installing safe rooms and retrofitting buildings to withstand high winds from tornadoes or hurricanes. The Disaster Mitigation Act of 2000 (Pub. L. 106-390) authorizes and funded the Pre-Disaster Mitigation (PDM) program to provide a continuous source of pre-disaster mitigation funding independent of disaster declarations to assist States and local communities to take actions to reduce the overall risks to populations and to properties from future disasters. The Flood Mitigation Assistance (FMA) program is an annual program targeted toward reducing flood damages and risks to people and properties. The National Flood Insurance Act of 2004 (Pub. L. 108-264) amended the FMA program by expanding the authorized funds from \$20 million to \$40 million annually to reduce the risk of floods to the nation's insured properties. Based on comments received from the FY 2003 PDM grant applicants, sub-grant applicants, and participants in the program evaluation and grant award process, FEMA has revised the eGrant application to solicit information that is more relevant to the evaluation of competitive applications for PDM and the evaluation of mitigation proposals in general for both the FMA and PDM programs.
