Bureau of Ocean Energy Management

[Docket No. BOEM-2011-0097]

Commercial Leasing for Wind Power on the Outer Continental Shelf Offshore Massachusetts—Call for Information and Nominations

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Call for Information and Nominations.

SUMMARY: BOEM invites the submission of nominations for commercial leases that would allow a lessee to propose the construction of a wind energy project on the OCS offshore Massachusetts and to develop a project if approved after further environmental review. On December 29, 2010, BOEM issued the Massachusetts Request for Interest (RFI) requesting submission of nominations and other information by February 28, 2011 (75 FR 82055). In response to requests from several interested and affected parties, including the Commonwealth of Massachusetts, BOEM reopened the comment period for the RFI on March 17, 2011 (76 FR 14681), asking for submissions by April 18, 2011. BOEM received 11 nominations of interest from 10 individual entities responding to the RFI, as well as 247 comments from members of the public and state and Federal agencies. On May 2, 2011, BOEM announced it would reduce the area identified in the RFI based on comments received from the fishing community, the Massachusetts Executive Office of Energy and Environmental Affairs, and the Massachusetts congressional delegation. BOEM further refined the area that is under consideration for this Call for Information and Nominations (Call) based on consultation with the BOEM Massachusetts Renewable Energy Task Force, as described in the "Development of the Call Area" section later in this notice. The area that is under consideration for this Call is referred to herein as the "Call Area."

Although this announcement is not itself a leasing announcement, the Call Area described herein, or portions thereof, may be made available for future leasing. BOEM will use the responses to this Call to gauge specific interest in acquiring commercial wind leases in some or all of the Call Area,
