Introduction

With this notice, we continue the CCP process for the Texas Mid-Coast NWR Complex. We started this process through a notice in the **Federal Register** (74 FR 29714; June 23, 2009).

The Complex is located along the upper Texas Gulf Coast, approximately 50 miles south of Houston, Texas. It is comprised of three refuges: Brazoria NWR, which was established in 1966, and encompasses 44,414 acres; San Bernard NWR, which was established in 1968, and encompasses 52,400 acres; and Big Boggy NWR, which was established in 1983, and encompasses 4,526 acres. These lands provide a vital complex of salt and freshwater marshes, sloughs, ponds, coastal prairies, and bottomland hardwood forests that provide habitat for a wide variety of resident and migratory wildlife.
