DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Notice of Issuance of Final Determination Concerning Certain Data Protection Software Products

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of final determination.

summary: This document provides notice that U.S. Customs and Border Protection ("CBP") has issued a final determination concerning the country of origin of certain data protection software products. Based upon the facts presented, CBP has concluded that the country of origin of the software products is the United States for purposes of U.S. Government procurement.

DATES: The final determination was issued on February 12, 2016. A copy of the final determination is attached. Any party-at-interest, as defined in 19 CFR 177.22(d), may seek judicial review of this final determination no later than March 23, 2016.

FOR FURTHER INFORMATION CONTACT: Ross Cunningham, Valuation and Special Programs Branch, Regulations and Rulings, Office of International Trade (202) 325–0034.

SUPPLEMENTARY INFORMATION: Notice is hereby given that on February 12, 2016, pursuant to subpart B of Part 177, U.S. Customs and Border Protection Regulations (19 CFR part 177, subpart B), CBP issued a final determination concerning the country of origin of certain data protection software products known as WebALARM, WebALARM [Embedded], TheGRID Basic, and TheGrid Beacon, which may be offered to the U.S. Government under an undesignated government procurement contract. This final determination, HQ H268858, was issued under procedures set forth at 19 CFR part 177, subpart B, which implements Title III of the Trade Agreements Act of 1979, as amended (19 U.S.C. 2511-18). In the final determination, CBP concluded that the processing in the United States results in a substantial transformation. Therefore, the country of origin of the software products is the United States for purposes of U.S. Government procurement.

Section 177.29, CBP Regulations (19 CFR 177.29), provides that a notice of final determination shall be published in the **Federal Register** within 60 days of the date the final determination is issued. Section 177.30, CBP Regulations (19 CFR 177.30), provides that any party-at-interest, as defined in 19 CFR 177.22(d), may seek judicial review of a final determination within 30 days of publication of such determination in the **Federal Register**.

Dated: February 12, 2016.

Joanne Roman Stump,

Acting Executive Director, Regulations and Rulings, Office of International Trade.

Re: U.S. Government Procurement; Country of Origin of Data Protection Software; Substantial Transformation

Dear Mr. Minutillo:

This is in response to your letter dated August 18, 2015, requesting a final determination on behalf of e-Lock Corporation ("e-Lock") pursuant to Subpart B of Part 177 of the U.S. Customs and Border Protection ("CBP") Regulations (19 C.F.R. part 177). Under these regulations, which implement Title III of the Trade Agreements Act of 1979 ("TAA"), as amended (19 U.S.C. § 2511 et seq.), CBP issues country of origin advisory rulings and final determinations as to whether an article is or would be a product of a designated country or instrumentality for the purposes of granting waivers of certain "Buy American" restrictions in U.S. law or for products offered for sale to the U.S. Government. This final determination concerns the country of origin of four data-protection software products. As a U.S. importer, e-Lock is a party-at-interest within the meaning of 19 C.F.R. § 177.22(d)(1) and is entitled to request this final determination.

FACTS:

E-Lock is a Malaysia based developer of cyber-security software that helps to prevent identity theft and threats to data integrity. This request concerns four software products that e-Lock wishes to offer for sale to the federal government: (1) WebALARM; (2) WebALARM [Embedded]; (3) TheGRID Basic; and (4) The GRID Beacon. The WebALARM products are designed to protect files and data from unauthorized changes. The two products are similar except that WebALARM [Embedded] is embedded to become part of an integrated security package. The GRID products provide user-identification and authentication functionality and are designed to protect against online theft by providing twofactor authentication and optional mutual authentication. The two products are similar except that TheGRID Beacon is designed for mobile applications.

All four software products are produced using the same three-step
